

EDMUND G. BROWN JR.
GOVERNOR

STATE OF CALIFORNIA
GOVERNOR'S OFFICE *of* PLANNING AND RESEARCH

KEN ALEX
DIRECTOR

Local Drought Actions
OPR Concurrence
July 21, 2015

The Governor's Proclamation of a Continued State of Emergency, issued on April 25, 2014, suspends the California Environmental Quality Act (CEQA) (Public Resources Code 21000 and following) for all actions taken by local agencies that are identified by the State Water Resources Control Board (SWRCB) as vulnerable to acute drinking water shortages and that are necessary to implement solutions to such shortages if the Office of Planning and Research (OPR) "concurs that local action is required." (Proclamation No. 4-25-2014, #12 and #19).

The SWRCB has identified the City of Woodlake as having critical drinking water shortages, meaning that the City of Woodlake will deplete its available supplies within 150 days. The SWRCB has indicated that the project described in the attached Notices of Exemption is necessary to solve this critical drinking water shortage. Based on the information provided in the attached Notices of Exemption, OPR concurs that local action is necessary and that the action meets the requirements for CEQA suspension as set forth in the Governor's Proclamation (No. 4-25-2014).
