STATE CLEARINGHOUSE

NEWSLETTER

April 1-15, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1-15, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Monday, April 02, 2007</u>			
1999062020	Placer Vineyards Specific Plan Second Partially Recirculated Revised Draft EIR (PEIR T20040651) Placer County Planning Department The Placer Vineyards Specific Plan project is a mixed-use master planned community with residential, employment, commercial, open space, recreational and public/quasi-public land uses. The Plan provides for 14,132 homes in a range of housing types, styles, and densities. At Plan build out, projected to occur over a 20 to 30-year time frame, Placer Vineyards will have a population of approximately 33,000 people, 274 acres of commercial uses, 641 acres of quasi-public (public facilities/services, religious facilities, schools, and major roadways) land uses, and 919 acres of park and open space land. The Second Partially Recirculated Revised Draft EIR includes new information on an additional special status species, a supplemental water supply analysis, additional traffic analysis, and an analysis of the impact of the project on global climate change.	EIR	05/16/2007
2004092009	Bay Point Waterfront Strategic Plan Contra Costa County Community Development --Contra Costa The Bay Point Waterfront Strategic Plan (Strategic Plan) is intended to guide redevelopment that would create a new full-scale marina with 1568 berths, parking areas for trailers, dry storage for boats, a new boat launch location, and other support uses consisting of a fuel dock, centrally located harbor master building, restroom, laundry, and showers, chandlery store with bait and tackle, administrative offices, café/snack bar, and yacht club. The Strategic Plan would also allow for development of up to 450 new medium-density residential units. Public improvements such as open spaces and infrastructure would also be developed.	EIR	05/16/2007
2005061007	Central Region Elementary School No. 14 Los Angeles Unified School District Los Angeles, City of--Los Angeles The Los Angeles Unified School District proposes to construct a new elementary school campus that would provide 875 two-semester seats in 35 classrooms for grades K-5. The proposed project would include a food service area, multi-purpose room, library, and other support facilities. The proposed project would relieve overcrowding at Rosemont Elementary School, Union Elementary School, Commonwealth Elementary School, Lafayette Park Primary Center, and Lake Street Primary Center.	EIR	05/16/2007
2003091107	Entrada at Malibu Canyon Calabasas, City of Calabasas--Los Angeles Request for a Conditional Use Permit, Oak Tree Permit, and a Tentative Tract Map to construct an 86 unit multi-family residential development on 5 acres of a 21 acre site located within the Commercial, Limited zoning district and a designated scenic corridor, at 4240 Las Virgenes Road. The old bridge deck will then be removed.	NOE	
2007048009	Lower Bucks Lake Dam Flow Modification (1600-2006-0485-R2) Fish & Game #2 Quincy--Plumas Retrofit of lower flow valve to allow for increased outflows to 8 cfm as required in FERC re-licensing.	NOE	
2007048010	Grizzly Forebay Dam Weir Modification (1600-2006-0486-R2) Fish & Game #2 Quincy--Plumas Temporary diversion of Grizzly Creek where it flows over the Grizzly Creek Forebay weir, temporary installation of a platform in the stream channel, enlargement of the outlet in the existing weir, install a new weir plate and install two wing walls.	NOE	
2007048011	Grizzly Forebay Dam Flow Modification (1600-2006-0487-R2) Fish & Game #2 Quincy--Plumas Temporary closure of an upstream gate on Grizzly Forebay dam in order to enlarge and replace a downstream valve assembly and flow meter.	NOE	
2007048012	Area 5 Sediment Basin Maintenance - Hollister Hills State Vehicular Recreation Area Parks and Recreation, Department of Hollister--San Benito This project will restore a sediment basin and adjacent drainage to a condition conducive to California red-legged frog habitat at Hollister Hills SVRA. The project includes dredging and recontouring the basin to restore red-legged frog habitat, installing a hardened crossing adjacent to the basin and a series of bank and channel improvements (involving fill) that have contributed to the loss of habitat.	NOE	
2007048013	Personnel and Recruitment Center Corrections and Rehabilitation, Department of --Marin CDCR proposes to construct a Personnel and Recruitment Center within SQSP that will provide all functions to recruit, interview, administer exams, and hire potential staff, including medical and mental health staff, under one roof thereby expediting hiring during a single visit. Currently, recruiting and hiring functions are not efficiently integrated, requiring multiple visits by employee candidates. The 4,000 sq. ft. one-story building will consist of standard slab on-grade construction and conventional wood frame construction. The project includes demolishing an existing smaller wood frame structure that was constructed in the mid 1970s, that is currently used for various functions including personnel interviews. Additional parking will be added to the prison grounds to offset some parking that would be displaced by the project.	NOE

2004031047	Proposed Site Plan SP-04-005 Victorville, City of Victorville--San Bernardino The proposed project is the development of a total of approximately 5.4 into an apartment complex. The project as amended may result in impacts to Mohave Ground Squirrel (<i>Spermophilus mohavensis</i>), which are protected under the California Endangered Species Act, requiring issuance of a California Incidental Take Permit.	NOD	
2004121148	Proposed Tentative Tracts TT-05-007 (Tract 17184) and TT-05-008 (17183) Rancho Tierra Victorville, City of Victorville--San Bernardino This project is the development of 270 acres of undeveloped land into a residential subdivision. The project will result in impacts to desert tortoise and Mohave ground squirrel, state listed threatened species, necessitating issuance of an Incidental Take Permit.	NOD	
2005011047	Tentative Tract TT-05-006 Victorville, City of Victorville--San Bernardino This project is the development of 270 acres of undeveloped land into a residential subdivision. The project will result in impacts to desert tortoise and Mohave ground squirrel, state listed threatened species, necessitating issuance of an Incidental Take Permit.	NOD	
2005041012	TTM 17155 Adelanto, City of Adelanto--San Bernardino This project involves the development of 10 acres of undeveloped land into a 39-lot single family residential subdivision. The Department, is issuing an Incidental Take Permit for the Mohave ground squirrel, which is protected by the CESA.	NOD	
2005092102	Promenade Shops at Orchard Valley Manteca, City of Manteca--San Joaquin The proposed project would be an approximately 746,740 square-foot commercial Lifestyle Center on 72 acres including retail, restaurants, a health club, movie theaters, office space, and a hotel. In general, a lifestyle center includes attributes that would support an upscale, open-air shopping center development format for quality retail, restaurants, and national specialty chain stores. The project would be developed as a Planned Development (PD) with specific development conditions and standards for future development, as defined in Section 17.45 of the City's Municipal Code. Such conditions and standards relate to architectural design, landscaping, signage, and parking requirements. The proposed PD is intended to provide a unified and visually appealing development for all uses and tenants of the site while allowing variety and flexibility within the defined framework of restrictions. Implementation of the project would require the removal of all existing uses and structures located on-site. The project would require a General Plan land use designation amendment and zoning amendment for the project site.	NOD

	pump station, and expansion of the Crafton Hills Pump Station.		
2007041018	Palazzo Planned Community Calexico, City of Calexico--Imperial The project proposes an annexation into the City of Calexico, a General Plan Amendment, Specific Plan, Pre-Zoning, and a Tentative Map. The Palazzo Specific Plan proposes to construct a maximum of 1,231 residential units, a mixed use village center, a regional park, pedestrian linkages and streets, retention basin, and an optional school facility. The residential units consist primarily of multi family homes, 4-plex and 6-plex townhomes, and limited single-family patio homes. The proposed multi family units will have a density of 18 dwelling units per acre (du/ac), the 4-plex townhomes will have a density of 12 du/ac, 6-plex townhomes will have 14 du/ac, and single family homes will have 7.5 du/ac. Additionally, a 16.36 acre regional park and open space area is planned. A 14.10 acre open retention basin is proposed as part of the project and would be landscaped. There are two scenarios to the proposed development; with a school and without a school; the above mentioned proposal is the maximum development without a school. If a school is included in development, the school would encompass 10.04 acres and would slightly reduce the number of multi-family and single-family residential units.	NOP	05/03/2007

	incidental space) to "Maverick's Flat" an (an historic cultural monument); daily hours of operation from 11:00 am to 2:00 am; Variance to allow three off-site parking spaces in lieu of code requirements, on a 13,600 gross sq. foot site, in the (Q) C1, 5-1 Zone.		
2007041020	State Route 41/Madera Pools Project (PM 4.5/5.25) Caltrans #6 --Madera The California Department of Transportation is proposing to improve and preserve 14.0 acres of a 198-acre parcel for mitigation for current and future transportation projects that would impact wetland species and wetland habitat. Mitigation efforts would be centralized in one location. The Madera Pools Project would enhance and restore the current degraded wetland habitat, create new habitat, and preserve existing functioning habitat. The dimensions of the vernal pools include a maximum excavation of 16 inches with 1:20 side slopes. Careful consideration was given in selecting suitable development sites based on land use, landform, soils analyses, topography, hydrology, and adjacent habitat types. On-site improvements include removing fill and material from historic wetlands and excavating new wetland depressions. A pump and well mechanism would also be constructed on-site to supply water to the livestock during drought years.	Neg	05/03/2007
2007041021	ENV-2006-10506-MND Los Angeles City Planning Department --Los Angeles Conditional Use permit installation, construction, operation and maintenance of an unmanned wireless telecommunications facility consisting of a 55-foot tall monopine, within an approx. 480 sq. ft. enclosure, on an approx. 18,000 sq. ft. site, in the RD1.5-1 Zone. 2007042037	Black Oak Water Association Placer County Water Agency Auburn--Placer PCWA is proposing to serve treated water to the Black Oak Water Association Project. The purpose of the project is to allow the Agency to provide treated water service to multiple parcels within Placer County located in the northeast Auburn area. The treated water service will provide a safe, reliable source of potable water for domestic purposes to properties within the Black Oak Water Association. The properties in Black Oak Water Association are currently utilizing private wells as a potable water source. Many of the private wells produce marginal quality or quantity of water. Some of the properties do not have water supplies because attempts to develop wells have been unsuccessful.	MND	05/04/2007
2007041024	2020 General Plan Update Project Oxnard, City of Camarillo, Ventura, Port Hueneme--Ventura The proposed project represents a comprehensive update to the City's existing General Plan. Preparation of the EIR and General Plan will be conducted concurrently in order to develop a self-mitigating General Plan. The EIR is expected to be completed in summer 2007 and will provide an assessment of the updated General Plan, an updated citywide traffic model, and potential expansion of the City's existing Sphere of Influence (SOI).	NOP	06/05/2007
2007041027	Huntington Beach Senior Center Huntington Beach, City of Huntington Beach--Orange The proposed Huntington Beach Senior Center Project involves development of a new one-story senior center (approximately 45,000 square feet) on an undeveloped portion of the City's Central Park. Access will be provided from Goldenwest Street/Talbert Avenue. The senior center will include: multi-use rooms/community hall, group exercise room, fitness room, arts/crafts room, multi-use classrooms, kitchen, dance room, lobby, administrative area, outdoor patio and outdoor recreation/activity area. Approximately 200 parking spaces will be provided for visitors and City vehicles. Thirteen small buses and vans will be provided to serve the senior transportation program; however, only four to six vehicles will be stored on site.	NOP	05/04/2007
2007042035	Coleman Avenue/Autumn Street Improvements San Jose, City of San Jose--Santa Clara The project will widen Coleman Avenue to six lanes between Hedding Street and Autumn Street, a distance of approximately 0.8 mile. This segment of Coleman Avenue is currently four lanes. North of Hedding Street, Coleman Avenue has recently been widened to six lanes as part of the I-880/Coleman Avenue Interchange Improvement Project. The project will widen partially realign, and extend Autumn Street between Coleman Avenue and Park Avenue, a distance of approximately 1.1 miles. Autumn Street currently varies from two to three lanes and terminates north of Julian Street.	NOP	05/04/2007

2007042036	1610-1650 Berryessa Road San Jose, City of San Jose--Santa Clara General Plan Amendment request to change the Land Use/Transportation Diagram designation from Light Industrial to Transit Corridor Residential (20+ du/ac) on a 13.64-acre site. The Light Industrial designation allows and wide variety of industrial uses and excludes uses with unmitigated hazardous effects. Examples of typical uses in this designation are warehousing, wholesaling, and light manufacturing. This designation may also contain service establishment that serve only employees of the surrounding industrial area. Transit Corridor Residential is intended for medium high and high density residential uses near transit-oriented development corridors, major bus routes, and BART station area nodes. Within this designation, neighborhood serving commercial uses are encouraged within residential projects in areas with insufficient neighborhood uses. Development in this designation should occur only by Planned Development zoning and should be compatible with surrounding development.	NOP	05/04/2007
2007041023	Niland Solid Waste Site Revision of the Existing Solid Waste Facility Permit Imperial County Planning Department --Imperial The landfill is classified as a Class II municipal solid waste disposal facility accepting only non-hazardous solid waste. The facility has been in operation prior to August 1971. The landfill's property boundary encompasses 100-acres, of which, 13.9-acres is being utilized for disposal. The existing facility permit reflects a maximum elevation of 66 feet above mean sea level with an estimated closure date of November 2008. The landfill is permitted to operate two days per week (Thursday and Saturday), excluding specific holidays, from 8:00 am to 4pm. The facility is currently permitted to receive a maximum of 55 tons per day with a permitted vehicle limit of 45 vehicle trips per day.	Neg	05/04/2007
2007041025	Well 6782-2 Redrill Project Coachella Valley Water District --Riverside The Well 6782-2 redrill project includes drilling, casing, testing, and developing a 2,000-gallon-per-minute domestic water well including the installation of a 250-horsepower motor, a 2,000-gallon-per-minute pump and other aboveground and underground appurtenances required to connect the well and pumping plant to the domestic water distribution system. Well 6782-2 will be located on the same site as the existing Well 6782-1, which is no longer in service and will be destroyed. The purpose of the Well 6782-2 is to replace Well 6782-1 and provide domestic water service and fire protection to the Lake Cahuilla Pressure Zone, which includes the Thermal and La Quinta areas. 	structures total about 1.7 million square feet of area and are in poor condition and do not meet current City Building standards. The site also contains about 70-acres of paved area (roads, parking, etc.). The buildings are also known to contain hazardous materials such as asbestos and lead based paint. Other hazardous materials which may occur on the site are PCB's and petroleum products. To allow for future development of the site, IVDA is proposing to demolish, remove, and dispose of the existing structures, paving and utilities. The purpose of the project is to leave a "clean" site that can be graded and developed in the manner envisioned in the SBITC.		
2007041028	Regulations Establishing/Implementing a Greenhouse Gas Emission Standard for Local Publicly Owned Electric Utilities Energy Commission -- The Energy Commission is proposing to adopt regulations that will prohibit California's local publicly owned electric utilities from entering into long-term financial commitments for baseload power from generation facilities exceeding a numerical greenhouse gases emission performance standard.	Neg	05/04/2007
2007042031	Duane T. and Glee R. Brooks Tentative Parcel Map (TPM-06-18) Siskiyou County Planning Department Mount Shasta--Siskiyou The applicants are requesting Tentative Parcel Map approval to create four parcels of 2.5 acres, 5.2 acres, 2.5 acres, and 2.6 acres in size from an existing parcel totaling 12.89 acres. Sewage disposal for the resultant parcels would be provided by an on-site septic system. Water services would be provided by on-site domestic wells.	Neg	05/04/2007
2007042032	Barry K. Taylor & Sandra K. Hanson Siskiyou County Planning Department Dunsmuir--Siskiyou The applicant request Tentative Parcel Map approval to divide a 27.6 acre parcel, to create a 12.2-acre parcel and a 15.4-acre parcel. The proposed project would increase density by one single-family dwelling with accessory uses. The site is zoned R-R-B-2.5 and the resultant parcels would be in conformance with zoning.	Neg	05/04/2007
2007042033	Eleanor Schwartz and William Brown Siskiyou County Planning Department Mount Shasta--Siskiyou The applicants request Zone Change approval to rezone a 6.2-acre parcel from C-C (Town Center) to M-M (Light Industrial). The project site is developed with an automotive repair garage that is currently vacant. The proposed use is to be an automotive body shop.	Neg	05/04/2007
2007021078	Western Municipal Water District's 2320 Pressure Zone, Phase I, Reach 2 Pipeline Western Municipal Water District Riverside--Riverside The purpose of the proposed project is to ensure adequate water supply and service to the District's customers under the South Added Facilities Area Master Plan. Phase I of the interim plan includes the placement of ~5016 linear feet of a 24" diameter pipeline in the District's easement within the Rolling Meadows Drive right-of-way, designed to convey potable water for the existing 0.5 million gallon Hillside Tank pump station. 	existing Costco Wholesale building at the Camino Real Marketplace. This project would eliminate 88 parking spaces from the parking lot area. Components of the proposed gas station include a 22-foot high, bi-level pump island canopy, 8 multi-product dispensers (16 fueling positions), controller enclosure, and three underground gasoline storage tanks (30,000 gallons each) with associated piping and monitoring systems. The proposed hours of operation would be from 6:00 am to 10:00 pm on weekdays, and from 6:00 am to 8:00 pm on weekends. The station would be available to Costco members only. The proposed project would be located within a portion of the existing Camino Real Marketplace (APN 073-440-014) comprising 13.74 acres. It is proposed within the Camino Real Specific Plan Area.		
2006022089	Vernalis West and East Project San Joaquin County Community Development Department Tracy--San Joaquin Teichert Aggregates is requesting a Quarry Excavation Permit (QX-0500847) to mine and reclaim approximately 790 acres. The project components include dry mining, conveyance to the processing facilities, accessory support uses, third party transport of products to the market, and reclamation. The mining would occur in four phases and would take approximately 40 years to complete. Maximum mining depths for each phase would range from 110 feet to 225 feet below current grade. Materials mined at Vernalis West and East would be transported via electric conveyor to Teichert's existing Vernalis Central facility for processing and sail. The estimated yield of Vernalis West and East is approximately 142 million tons of processed aggregate. The additional mining operations would increase the existing plant operations from approximately 4 million tons per year to 6 million tons per year. The reclamation plan would return 345 acres of the mining areas to the original dry grazing use to the existing grade with the remaining 445 acres below the existing grade.	EIR	05/21/2007
2006072101	2225-2255 Third Street, San Francisco Planning Department Case No. 2002.1302E San Francisco Planning Department San Francisco--San Francisco The 50,000 square foot project site is located on 3rd Street, between 19th and 20th Streets. The proposed project would preserve and renovate two existing historic buildings and construct three new buildings above a new below-grade parking podium. The project would be approximately 242,185 square feet (sq. ft.), including approximately 179 residential units, a 5,262 sq. ft. restaurant, 11,434 sq. ft. of retail, a 2,393 sq. ft. day-care, a below-grade parking garage accessed from Illinois Street with approximately 157 parking spaces, 50 bicycle spaces, and two off-street loading spaces. The two new structures along Third Street would be 35 feet in height, at which point, the building would be setback 20 feet from the property line and would be 50 feet in height. The new building along Illinois Street would be 65 feet in height. The project site is located in an M-2 (Heavy Industrial) zoning district and a 50-X height and bulk district.	EIR	05/21/2007
2006012101	Indian Creek Rehabilitation Project Trinity County Planning Department --Trinity The Trinity River ROD channel rehabilitation component focuses attention on the need to physically manipulate the bank and floodplain features of the Trinity River between River Mile 112.0 (Lewiston Dam) and River Mile 72.4 (North Fork Trinity River). The channel reconstruction is intended to restore the Trinity River's	FIN

	square foot manufacturing building, and a 1,200 square foot caretaker's residence. A Special Permit is also required for the wetland restoration in order to enhance habitat and increase flood storage capacity and storm water detention. The McKinleyville Community Services District currently provides water and sewer service.		
2007042043	Library and Courts Renovation Project General Services, Department of Sacramento--Sacramento The proposed project consists of renovating the Library and Courts Building interior and exterior. Since its completion in 1928, much of the building's infrastructure and some of its architectural features are deteriorating and need repair. The building requires updating to comply with current safety and ADA standards. The project would result in restoration of the building to ensure its integrity as a historically significant structure as well as to provide needed accessibility and safety features as described more fully in the Schematic Design Submittal for the Library and Courts Building.	MND	05/07/2007
2007042049	Parcel Map 06-059 Shasta County --Shasta The applicant is requesting a division of 29.93 acres into three parcels ranging in size from 3 acres to 19.97 acres.	MND	05/07/2007
2007042050	Use Permit Amendment 99-82A Shasta County --Shasta The existing camp consists of a meeting hall and kitchen, administrative offices, 14 sleeping cabins with beds to accommodate 121 overnight guests, restroom facilities, barn and corral, miscellaneous support buildings, a swimming pond, baseball field, basketball court, and a dry RV/tent camping area. The applicant has requested approval to construct 20 new sleeping cabins with the capacity to accommodate an additional 132 overnight guests, 5 RV hook-ups, a meeting/conference hall, indoor swimming pool, volleyball court, family camping area, and storage building. The meeting/conference hall and some of the new sleeping cabins will include restroom facilities. An expansion of the septic system will be planned to accommodate the increased occupancy of the camp facility. The existing parking area will be expanded. Maximum overnight occupancy will be 300 persons.	MND	05/07/2007
2007042052	Cameron Park Courthouse Expansion El Dorado County --El Dorado Project would add a 1,920 sq. ft. modular building expansion to the existing courthouse facility in Cameron Park. Utilities would connect to the existing on-site utility infrastructure that currently serves the courthouse. Project would not expand parking on site or result in a change of existing uses or hours of operation.	MND	05/07/2007
2005072145	City of Colusa General Plan Update Colusa, City of Colusa--Colusa The City of Colusa will complete a General Plan update of all elements except the Housing Element (which was adopted by the City in March 2004). The City anticipates substantial new development within the next several years, policies and programs for which are not adequately expressed in the current General Plan,	NOP	05/07/2007

	contain approximately 282 residential units, 14,000 square feet of ground floor commercial space, and about 332 parking spaces. The total size of the building would be approximately 473,910 square feet. The base of the building would be seven stories and 65 feet tall; the west tower would be 25 stories and approximately 240 feet in height; and the east tower would be 12 stories and approximately 127 feet tall. There would be 139 one-bedroom units and 143 two-bedroom units. The three levels of basement parking would include two off-street loading spaces, 282 residential stackers, and 50 commercial stackers.		
2006061048	Location and Development Plan 06-03 Adelanto, City of Adelanto--San Bernardino The applicant, Dunnigan Enterprises, is proposing the construction of six (6) industrial buildings on approximately 5 acres of land. Each of the six (6) buildings will have industrial uses and approximately 400 square feet of office space. Parking and loading zones meet current development standards.	Neg	05/07/2007
2007041032	Public Works - Lake Nacimiento Watershed Mercury Sediment Reduction Project; ED00-359 (300341) San Luis Obispo County --San Luis Obispo A proposal by the County Public Works Department to reduce the mercury sediment load that enters Las Tablas Creek and Lake Nacimiento, from Cypress Mountain Drive, a rural, unpaved County road. The physical improvements of the project involve: paving 3.3 miles of Cypress Mountain Drive, installing approximately 430 feet of bioengineered streambank stabilization, replacing old and installing new drainage culverts, and installing approximately 600 feet of roadside filter strips. The project will result in the disturbance of approximately 10.4 acres. The project is being conducted with the support and assistance of the USEPA, California Department of Health Services, and the Central Coast RWQCB. Funding has been provided through an agreement with the State Water Resources Control Board under the Proposition 40 Integrated Watershed Management Implementation Grant Program. The project is located in the Agriculture and Rural Lands land use categories, on Cypress Mountain Road, between Klau Mine Road and Chimney Rock Road, approximately 9 miles west of the community of Templeton and 6 miles north of Cayucos, in the Adelaida planning area.	Neg	05/07/2007
2007041033	North River Road Widening Project San Luis Obispo County --San Luis Obispo A proposal by the County of San Luis Obispo to implement road improvements to North River Road. The work will include widening an approximately 700-foot long section of roadway to provide standard two-foot wide road shoulders, placement of 2,000 cubic yards of fill, and a 50-foot extension of an existing 86-inch diameter culvert. The road would remain open to at least one lane of traffic throughout construction. Fill soil would be stockpiled on a parcel to the north of the project site, within an approximately four-acre area. The project will result in the disturbance of an approximately 15,000 square foot area, including 5,000 square feet of temporary impacts and 10,000 square feet of permanent impacts. The proposed project is within the Residential Suburban land use category and is located on North River Road, east of the community of San Miguel. The site is in the Salinas River planning area. 2007041034	DRC2006-00026 / Koerber Minor Use Permit San Luis Obispo County --San Luis Obispo Request by Reginald Koerber for a Minor Use Permit, DRC2006-00026 to allow: (1) the establishment of an equestrian facility that is already existing on the site, and (2) a new single-family residence. The project, new uses, will result in the disturbance of approximately 6,125 square feet of a 26-acre parcel.	Neg	05/07/2007
2007041037	TT17909 San Bernardino County Land Use Services Department Yucca Valley--San Bernardino Tentative Tract 17909 to create eleven (11) lots on 30.8 acres, in the community of Yucca Valley; project No: P200600625 - APN: 0598-581-09-0000	Neg	05/07/2007
2007041038	226 & 232 Eucalyptus Hill Drive Santa Barbara, City of Santa Barbara--Santa Barbara The applicant proposes a lot line adjustment between two parcels (2.82 and 2.75 acres in size) by realigning the dividing lot line from a north-south direction to an east-west direction, and resulting in two parcels of 2.47 acres (Parcel 1, upper parcel) and 3.10 acres (Parcel 2, lower parcel). Parcel 1 would have an average slope of 21.3% and Parcel 2 would have an average slope of 22.5%, both parcels sloping north to south. An existing single family residence, greenhouse foundation, and hardscape driveway would be removed and two new single-family residences are proposed on each parcel. Parcel 1 would include a 6,129 square foot residence with an attached 743 square foot garage, a 1,517 square foot residence with a 320 square foot garage, and a detached 430 square foot garage. Parcel 2 would include a 3,927 square foot residence with a 747 square foot attached garage, and a 1,786 square foot residence with a 352 square foot subterranean garage. The project site is currently accessed from Eucalyptus Hill Drive by an existing unimproved road which extends to the southern portion of the properties. This road would be improved to facilitate access to the proposed lower parcel, via an easement through the upper parcel. An existing driveway on the eastern property is proposed to be expanded to provide for a circular driveway to the upper parcel for a total of three curb cuts. The applicant also proposes two bioswale storm water retention areas totaling 900 square feet for Parcel 1 and 600 square feet for Parcel 2. The total grading quantities proposed for the development of both parcels include 3,090 cubic yards of cut and 2,830 cubic yards of fill.	Neg	05/07/2007
2007041039	Rancho San Fernando Rey Lot Line Adjustment Santa Barbara County --Santa Barbara Upon completion of the Voluntary Merger process, the proposed Lot Line Adjustment would reconfigure Parcels A, E and reconfigure Parcel B as follows: -Reconfigured Lot 1, consisting of 103.1 acres would be created through a reconfiguration of: Parcel A in its entirety; a portion of Parcel E (33.9 acres); and a portion of reconfigured Parcel B (57.9 acres) -Reconfigured Lot 2, consisting of 107.0 acres, would be created through a reconfiguration of: a portion of Parcel E (4.3 acres); and a portion of reconfigured Parcel B (100.8 acres) -Reconfigured Lot 3, consisting of 2,836.8 acres, would be created through a reconfiguration of a portion of Parcel E (38.2 acres). (Figure 1 - Lot Line Adjustment Map).	Neg	05/07/2007

2007042041	Kohnke Parcel Map and Lot Reduction Permit Sacramento County --Sacramento A Tentative Parcel Map to create four lots on 525 acres in the AG-80 and AG-80(F) zones. A Lot Reduction Permit to allow three lots to be approx. 10 acres in size.	Neg	05/07/2007
2007042042	City of Rio Dell Conditional Use Permit for a Monopole with a Maximum Height of 130 Feet for United States Cellular, a Tenant of the City of Rio Dell Rio Dell, City of Rio Dell--Humboldt US Cellular proposes to construct a monopole cellular tower communication facility on the Dinsmore Plateau in Rio Dell. The parcel is currently graded, but undeveloped. The proposed monopole will be up to 130 feet tall without top lighting. Electrical and telephone service to the site will be by cable from an existing PG&E pole located adjacent to Dinsmore Drive. Six panel antennas and two antennas for Rio Dell are planned at the top of the monopole and one microwave antennas (dishes). With the potential to accommodate two more sets of panels, the applicant has leased a 1,600 square foot area on the subject parcel that will be served by a 20 foot access easement off of an existing private road to the site.	Neg	05/07/2007
2007042044	Costa Vineyard Conversion Project & Planning Napa County Conservation Development & Planning Department Yountville--Napa The proposed project includes earthmoving, clearing of chaparral and installation and maintenance of erosion control measures associated with the development of +/- 15.6 acres of new vineyard (12.1 net vine acres), located in the southwest corner of a 73.8 acre parcel located approx. 400 ft. north of the terminus of the east fork of Soda Canyon Rd., approx. 7 miles north of Silverado Trail and 5 miles northeast of the Town of Yountville. Access to the project site would be from these roads. The parcel is located in an Agricultural Watershed (AW) zoning district, with a Napa County General Plan designation of Agriculture, Watershed and Open Space. Existing slopes range from 0% to 35%, with an average slope of 15%. Water for the project would come from an existing well located at the southwest corner of the parcel. An erosion control plan (#03020-ECPA) has been prepared. Grading would be limited to the proposed vineyard area. No trees over 6" dbh are proposed for removal. Deer fencing would be placed only around the vineyard blocks. Spoils created from grading would be placed only around the vineyard blocks. Spoils created from grading would be placed on the east ends of the vineyard blocks. Erosion control measures include straw mulch, silt fences, water bars, diversion ditches and a no-till cover crop with 75% coverage. No future projects are anticipated for this parcel. 2007042046	Mansfield/Baker Vineyard Conversion Project #04086-ECPA Napa County Conservation Development & Planning Department Yountville--Napa The proposed project is for earthmoving activity associated with the development of a new +/- 7.29 acre vineyard (5.3 net vine acres), including installation of erosion control measures on two parcels totaling +/- 40.24 (Mansfield parcel - 20 acres; Baker parcel - 20.42 acres) located on the east fork of Soda Canyon Road approximately 3,000 feet northeast of its intersection with the main Soda Canyon Road approximately 7 miles north of Silverado Trail and 5 miles northeast of the Town of Yountville. Grading would be limited to the proposed vineyard area. Spoils created from grading may be placed outside of setback areas to create a filter media or used as rock barriers which will be placed within the proposed vineyard blocks and not within vegetation retention areas or within stream setbacks. Water for the project would come from two existing wells (one on each parcel). There is existing deer fencing on the north, east, and west sides of the project area. Additional deer fencing is proposed on the southern project boundary and along the northern edges of Block 3, 4, and 5 West. An erosion control plan (#04086-ECPA) has been prepared. Vineyard blocks would have 24-foot wide vineyard avenues around the perimeters. There would also be two bridges placed over two intermittent and a no-till cover crop with 70% coverage. No future projects are anticipated for this parcel.	Neg	05/07/2007
2007042047	Creekside Village Project Lincoln, City of Lincoln--Placer The Proposed Project would develop 4.92 acres with 23 residential units, and a 1.36-acre site with up to 20,000 sq. ft. at the corner of Joiner Parkway and First St. Sixteen single-family homes would be made available to income-qualified households, and an additional seven units would be built as part of a Western Placer County Unified School District student Construction Technology Program.	Neg	05/07/2007
2007042048	Parcel Map 06-067 and Zone Amendment 06-039 Shasta County --Shasta The applicant is proposing to amend the zone district of the six properties located along the north side of Hawthorne Road starting approx. 643 feet west of its intersection with Happy Valley Road and continuing approx. 1,374 feet to the proposed zone district boundary. The Zone Amendment will rezone 19.69 acres from Limited Agriculture with a mobile home (A-1-T) zone district to a Rural Residential (RR) zone district. This would increase the potential residential build out within the project boundaries from the current allowed 6 houses to 10 houses.	Neg	05/07/2007
2007042051	Parcel Map 06-071 - Chuck Shasta County --Shasta The request is for a three-lot land division of a 1.19-acre parcel. Parcel 1 contains 23,313 square feet and is vacant, Parcel 2 contains 14,202 square feet and is developed with a single-family residence, Parcel 3 contains 14,412 square feet and is developed with a single-family residence. Each parcel will have access and frontage on Ponderosa Avenue.	Neg	05/07/2007

2007048055	Permitting of Transient Non-Community Water System Health Services, Department of --Solano The project is the issuance of a water supply permit to an existing business consisting of a service station and convenience store. The water system to be permitted consists of a well drilled to 440 feet, a pressure tank and associated distribution piping to the service station. The system does not utilize water treatment.	NOE	
2007048057	CDOT, High Rock Culvert Rehabilitation Hwy. 101 PM 37.68 Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt An existing 53-inch diameter culvert on State Rt. 101 at Post Mile 37.68 has a down drain that has become separated at several locations; the invert is also in poor condition. The existing culvert was extended several decades ago into the channel; over the years the culvert has separated, creating sinkholes, erosion and tree growth on top of the culvert. The existing condition of the system has caused transportation of large amounts of sediment downstream into State Park Property. The purpose of the proposed project is to stabilize the roadway, rehabilitate the drainage system, and minimize sediment transport. Roadway runoff has caused the fill prism on the inlet side of the culvert to erode.	NOE	
2007048058	Newberry Mine Repair and Maintenance Fish & Game #7 --San Bernardino Re-grading of existing eroded channel and remove accumulated debris and trash. SAA# 1600-2006-0232-R6.	NOE	
2007048059	Walking Bridge Replacement Fish & Game #3 Walnut Creek--Contra Costa Replacement of an existing wooden pedestrian bridge. Issurance of a Streambed Alteration Agreement Number 1600-2006-0738-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007048060	Nutrient Control of Agricultural Runoff (No. 04-126-557-1) State Water Resources Control Board, Division of Clean Water Programs Brawley--Imperial The applicant is conducting a project to demonstrate the effectiveness of elephant grass at removing nutrients (nitrates, phosphates and sediment) from agricultural runoff. 	<p>pipng and maintained with locking watertight plugs and manholes at surface grade. In addition to drilling and installing the monitoring wells, construct four gravel roads and vehicle turn-around areas off of Granite Bay Road to the well sites to provide access for ongoing future monitoring. Approximately 1,200 feet of ten-foot wide gravel road will be constructed to provide access to the wells. An 18-inch diameter culvert and fill will be used to cross a ditch for one of the access roads. Pole gates will be installed at the entrances to the monitoring well access roads. One mature oak tree will require trimming, but otherwise, the road construction and well drilling activities will avoid the drip line of any mature trees. Nesting surveys will be conducted by a DPR-qualified biologist as needed if construction occurs during breeding season between March 15 and August 15. Construction activities will occur during the dry time of the year. No known cultural resource sites are situated in the vicinity of the project area. However, in the event that previously undocumented cultural resources are encountered during project construction, work will cease at the location of the find until a DPR-qualified archaeologist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s)</p>		
2007048072	<p>Improve Upper Lake Clementine Parking Lot, Auburn State Recreation Area Parks and Recreation, Department of --Placer</p> <p>Improve the existing Upper Lake Clementine parking lot within Auburn State Recreation Area. The existing parking lot is an unpaved graded river cobble area approximately 500 feet by 150 feet in size delineated by large boulders around the perimeter. The improvements include extending the parking lot approximately 200 feet westward by grading and placing large boulders around the perimeter of the expanded area. Several clumps of small willows will need to be removed as part of this parking area expansion. None of the willow stems exceeds 4 inches in diameter. Emergency vehicle access points will be added to the parking area by creating openings in the boulders around the perimeter of the lot and installing removable steel bollards or pole gates at these openings. Ten regulatory and informational signs will be installed around the parking area. Sign posts and gate posts or bollards will be installed with concrete anchors approximately 3 feet deep. All work will be conducted during dry weather. The site is above the ordinary high water mark of Lake Clementine, therefore no Army Corps of engineers 404 permit is required. A Department of Fish and Game Streambed Alteration Agreement will be obtained.</p>	NOE	
2007048073	<p>Burlington Fiber Optic Parks and Recreation, Department of --Humboldt</p> <p>The purpose of this project is to install fiber optic cable and communication cabinet to replace failing phone system at the Eel River Sector headquarters located at Burlington, Humboldt Redwoods State Park. It will also provide the sector with the capability to have a "T-1" line for computer networking as well as "wireless" connectivity. Project entails installing barrel vault adjacent to highway 101, three poles with anchors, communication cabinet on Park property, and pull cable from Highway vault on poles to communications cabinet.</p>	NOE

2007042069	Sherman Island/ Mayberry Slough Setback Levee Habitat Project Reclamation District 341 Rio Vista--Sacramento The purpose of the project is to create an intertidal bench to provide benefits to native aquatic species in the Delta by lowering the elevations of the waterside of the existing Sherman Island levee while concurrently constructing additional stretches of setback levee in adjacent locations.	MND	05/11/2007
2007042063	Beaver Creek Reservoir Sediment Removal Project Northern California Power Agency --Calaveras, Tuolumne The Beaver Creek Reservoir Sediment Removal Project involves the removal and relocation of a portion of the sediments that have accumulated in the reservoir bottom since the last sediment removal project in 1997. The estimated amount of sediment to be removed is 3,500 cubic yards.	Neg	05/10/2007
2007042064	Oyster Point Marina West Basin Dredging San Mateo County Harbor District South San Francisco--San Mateo The San Mateo County Harbor District is proposing to conduct dredging in the West Basin of Oyster Point Marina in order to restore a portion of the West basin and its channels back to its original design depth of -8.0 feet mean lower low water (MLLW) and to deepen the remainder of the Basin from -6.0 feet to -8.0 feet MLLW. Deepening is necessary to accomodate larger draft vessels from the adjacent East Basin that will be displaced by a proposed new ferry terminal in the East Basin.	Neg	05/10/2007
2007042065	CUP 2006-0019 Yuba County Marysville--Yuba This is a request for a conditional us permit for the development and operation of a recreational vehicle and campground park on the subject site. A conditional use permit for the proposed use was previously approved in August of 2002, but has expired. This request is a re-submittal for the same use. The proposed phase one facility would include: 100 recreational vehicle sites, 100 camping sites, lavatory units, laudromat, recreational vehicle dump station, fixed barbeque units and picnic tables, swimming beach, recreation room, manager's office and kiost for guest check in. Phase two would include: 100 additional recreation vehicle sites, second lavatory unit and marine facilities including docks for fishing access. The applicants are proposing a paved access drive with stone entry planters and center isle with ground cover and flowers in addition to other landscaping improvements.	Neg	05/10/2007
2007042066	Morrison Avenue Estates (P05-199) Sacramento, City of Sacramento--Sacramento The project consists of entitlements to develop a 36 lot single family alternative subdivision of 4.0+/- gross acres (2.7 net). Specific entitlements include: a Tentative Map to subdivide one 4.0+/- acre lot into 36 lots; and a Special Permit to develop 36 single family alternative housing units on 2.7+/- net acres. 2007042067	Quail Ridge Reserve Road Connector University of California Napa--Napa The NRS proposes to construct a dirt connector road 12 feet wide and approx. 1,500 feet long. It would connect two existing roads to improve site access at the Reserve. The Reserve is accessed from Highway 128 on two deeded easement roads, one on the eastern and one on the western edge of the property.	Neg	05/10/2007
2005102134	Shasta Ranch Mining and Reclamation Plan, Use Permit 05-010 and Reclamation Plan 05-001 Shasta County --Shasta The proposed project is a request for approval for a Use Permit (UP 05-010) and Reclamation Plan (RP 05-001) to mine alluvial sand and gravel near the Sacramento River. The project site encompasses approximately 947 acres, of which 268 acres will be mined for aggregate material. The mined aggregate (gravel) would be crushed, screened, washed, stockpiled, and loaded for off-site transport. Approximately 3.43 million cubic yards of overburden and 6.06 million cubic yards of soil and gravel would be excavated. The project would generate an average of 60 truck round-trips per day, and a maximum of 120 truck round-trips per day. The project would operate for approximately 29 years, until the year 2035. There are three phases, and each phase would operate for 8 to 10 years. Upon completion of all mining activities, the areas of disturbance would be reclaimed to agricultural farmland, ponds, and open space.	SIR	05/29/2007

	space within seven separate buildings. All buildings except for Building 1 will consist of one-story concrete tilt-up and glass construction. Building 1 will be two-stories consisting of either concrete tilt-up and glass construction or light framing with plaster exterior for retail and office uses. Buildings 2 through 5 will be constructed primarily for warehouse and industrial uses with ancillary offices. Perimeter and interior landscaping will be provided for each building site. The alignment of the existing railroad spur will remain. All loading areas facing street frontages will be concealed by a screen wall.		
2007041053	18805, 18807, 18809 PCH Malibu, City of Malibu--Los Angeles The project consists of development of 97,895 gross square feet of medical and administrative office space, a 9-level (seven levels above ground; two levels below grade) parking structure with 481 off-street parking spaces, accessways and a visitor drop-off area, service areas, and landscaping areas. The proposed project is Phase 2 of the Plaza Specific Plan. Phase 1 of the project, including a 71,589 sf medical office building and a 389-space parking structure, has been completed and operational.	MND	05/11/2007
2007042071	Windrush School Master Plan El Cerrito, City of El Cerrito--Contra Costa The project would result in an amendment to the existing use permit (which was last amended in November 1998). The amended use permit would allow Windrush School to proceed with the following key changes to the existing Master Plan over a four phase, 20 year period: Increase enrollment from 250 students to 330 students (+/- 5%) during the regular school year and from 125 students to 175 students during summer sessions; Improve accessibility; Undertake a 23,000 (net) increase in additional floor space; and Increase building height limits from two stories to a maximum of 35 feet. Phase 1 would include the replacement of an existing one story classroom wing in front of the gymnasium with a new two story 13,500 sf addition in the same location. The new addition would contain an interim library, classrooms, and a supporting circulation area. Phase 2 would include the construction of a new library, performing arts classroom, and a dance classroom adjacent to the gymnasium and Phase 1 classrooms. These uses would be accommodated in a 9,000 sf addition. Phases 3 and 4 would include the renovation of the existing main classroom and administration building, and the replacement of an existing 5,000 sf classroom with a new 5,500 sf classroom, respectively.	MND	05/11/2007
2007042073	Upper Banvard Canal Maintenance Project Placer County Water Agency Auburn--Placer PCWA is proposing to repair a 1,200 foot long segment of the Upper Banvard Canal System. The proposed maintenance project entails installing a 16 inch pipe in this segment of the dirt-lined canal. This section of the Upper Banvard Canal system requires maintenance because the canal is deteriorating and is leaking substantial amounts of water. Most of the water in the canal is leaking out of the deteriorating canal and is not reaching downstream customers. At times, this has become an emergency situation for customers who rely on Upper Banvard Canal water for fire control and irrigation.	MND	05/14/2007

2003062025	<p>Saggio Hills Area Plan Healdsburg, City of Healdsburg--Sonoma</p> <p>The Saggio Hills Project is a proposed planned development of approximately 258.5 acres within unincorporated Sonoma County, adjacent to the northern boundary of the City of Healdsburg.</p> <p>The proposed project at full buildout would provide a combination of land uses, including single-family residential dwellings, a resort, affordable housing, open space, a community park, a system of public and private trails, and a fire substation, as well as associated on-and-off-site infrastructure and roadway improvements to support the proposed project.</p>	NOP	05/11/2007
2007041050	<p>Sakaida & Sons Surface Mine Project (SMP 01-154 / ROAKT200700010) Los Angeles County Department of Regional Planning --Los Angeles</p> <p>Application for a Surface Mining Permit to construct and operate a mining operation and processing area on 24.8 acres of a 73-acre project site comprised of two parcels. Approximately 3,000,000 cubic yards of material will be mined over a period of seven years at a maximum of 428,571 cubic yards per year. The mined materials will be exported to various customers in San Fernando Valley via Hubbard Street through residential areas and the I-210. The proposed processing area will have a scale house, an officer trailer, generators, two water tanks, two above-ground fuel tanks, a crusher plant, a screening plant, two portable restrooms, and two stockpile areas. Other proposed improvements include a detention pond, an access road, and a truck loading area. The processing plant would be removed and the reclaimed areas would be re-vegetated and used for nursery stock storage. The project will utilize portable sanitary facilities for sewage disposal and onsite water storage tanks for dust suppression. Operating hours will be five days a week from 7:00 am to 5:00 pm with a maximum of 27 employees including approximately 20 truck drivers. Application also includes an Oak Tree Permit to remove five oak trees.</p>	NOP	05/11/2007
2007041052	<p>South Coast Conduit/Upper Reach Reliability Project (Secondary Pipeline Project) U.S. Bureau of Reclamation Carpinteria--Santa Barbara</p> <p>The purpose of the project is to increase the operational flexibility, reliability, and capacity of the South Coast Conduit (SCC) between the South Portal of the Tecolote Tunnel (SPTT) and the Corona Del Mar Water Treatment Plant (CDMWTP). The increase in operational flexibility, reliability, and capacity are intended to accommodate peak demand levels and to allow maintenance of the pipeline. The limitations and age of the original equipment, significant system, modifications, and increased demands constrain the ability of the SCC to function at the system's original design capacity. Because of these limitations, COMB is forced to rely on water stored in Lauro, Ortega, and Carpinteria reservoirs to meet regional water needs. In addition, no redundant supply or pipeline exists to convey Cachuma Project water or State Water Project (SWP) water to the South Coast is the Tecolote Tunnel or the Upper Reach of the SCC is out of service, due to scheduled and/or unexpected repairs. As the Upper Reach of the SCC has the largest demand deficit and is located upstream from the sources of demand, the proposed improvements would allow more water flow farther along the pipeline to improve the level of service and reliability.</p>	NOP	05/11/2007

	the Cardozo Middle School (approximately 1.23 acres). The RUSD office is located just south of the proposed site, and is also within the Cardozo Middle School property.		
2007042077	TPM2006-0057 (Robbins) Yuba County --Yuba Tentative Parcel Map No. TPM2006-0057 (Robbins); A request to divide a 5 acre parcel and a 70.84 acre parcel into the following: (Parcel 1) 17.71 acres (Parcel 2) 22.71 acres, (Parcel 3) 17.71 acres, and (Parcel 4) 17.71. The 5 acre parce is currently developed with a single-family home and some accessory buildings. The project site is located in the communityof Bornws Valley and is identified as APNs': 040-200-023 & 040-200-024.	MND	05/14/2007
2007041057	8305 Sunset Boulevard Commercial Project West Hollywood, City of West Hollywood--Los Angeles The proposed project would develop the site with 11,691 square feet of quality, sit-down restaurant space and 947 square feet of outdoor dining space on the ground floor, with parking provided on the second-fifth levels of the building. The proposed uses would require 114 parking stalls, and the applicant is proposing to provide 176 stalls.	NOP	05/14/2007
2007041060	Cypress Street Reservoir Replacement and Water Treatment Facility Construction Lomita, City of Lomita, Rolling Hills Estates--Los Angeles The proposed action consists of demolishing the existing facilities on the Cypress Street Reservoir site and installin a larger capacity replacement Cypress Street Reservoir, and developing a water treatment facility to utilize the City's existing Well No. 5. The proposed water facilities would serve Zone 1 of the City of Lomita (portion of Lomita northerly of Pacific Coast Highway), and would provide a backup source to the water service zones south of Pacific Coast Highway. The proposed project is intended to increase the City's water storage at the Cypress Street Reservoir site from 265,000 gallons to 5 million gallons (m.g.) of water, and, as a result, would bring the City into compliance with the Metropolitan Water District's (MWD's) requirement of maintaining a 7 day supply of water in case delivery of MWD water is interrupted.	NOP	05/14/2007
2007042078	Hatchet Ridge Wind Project Shasta County --Shasta HRW proposes to construct up to 68 three bladed wind turbines along a 6.5 mile turbine string corridor on Hatchet Ridge. Each three bladed wind turbine would be installed on a tubular steel tower up to 262 feet (80 meters) tall. Each turbine/ tower combination would have a maximum height of approx. 418 feet (128 meters), measured from the ground to the turbine blade tip at its highest point. The exact height and placement of the tubines and associated facilities within the development corridor would be determined by such factors as equipment manufacturer and environmental constraints. HRW has requested to make these final turbine and equipment siting determinations prior to construction but subsequent to this environmental analysis. The final permanent project footprint of the Hatchet Ridge Wind Energy project would encompass approx. 125 acres.	NOP	05/14/2007

2005092070	Lake Davis Pike Eradication Project Fish & Game #2 --Plumas The Fish and Game Commission adopts three regulations for the Dept. of Fish and Game's Lake Davis Pike Eradication Project. DFG approved the project after certification and consideration of the EIR. The Commission approved the following regulations that add Subsection (b) (53.8) to Section 7.50, Title 14, California Code of Regulations to temporarily increase the daily bag limit at Lake Davis from five to ten trout per day prior to treatment of the reservoir.	NOD	
2006102088	Villa Grove, Residential Subdivision 8807 Oakley, City of Oakley--Contra Costa Villa Grove Residential Subdivision 8807 includes a rezone of the project site from A-2 (General Agriculture) to R-10 (Single Family Residential), approval of a Vesting Tentative Map to subdivide three parcels, totaling 15.33 acres, into 35 single-family residential lots, and Design Review of the homes.	NOD	
2006122107	Shiloh Residential Subdivision 8975 Oakley, City of Oakley--Contra Costa The project is a General Plan Amendment, Rezone, Vesting Tentative Subdivision Map, Conditional Use Permit, Design Review and Mitigated Negative Declaration. The project involves a request to construct 75 single family detached homes designed in a courtyard layout with access to most of the lots from a motor court. Each courtyard pod will include two residences that front on the public street and four residences that front on to a motor court with all lots having access to the motor court.	NOD	
2007021090	Iris Canyon Creek Reparation Monterey, City of Monterey--Monterey The Iris Canyon Creek Reparation Project will improve a 1,750 ft. stretch of creek adjacent to Iris Canyon Road. Iris Canyon Creek drains into approximately 150 acres of land. The Creek has cut a channel reaching a depth of over 12 feet with vertical unstable walls that are close to Iris Canyon Road and are undermining nearby tree roots. The project includes installing five log drop structures, grading 1,640 feet of each side of the creek's banks to a reduced slope using engineered fill as required, placing grouted rock protection according to the plans, installing earth-retaining systems and flexible channel lining, and planting the slopes with native trees and shrubs. The series of grade control structures will maintain a reduced slope and prevent further erosion along the creek. The earth-retaining structures will insure that all Monterey Pines are saved and also will protect the road from washing out in a storm. Through grading, the project estimated cut is 1,300 cubic meters and the required fill will be 720 cubic meters recycling the soil when possible. The project result will be a stable creek accessible to native wildlife.	NOD
