

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

April 1 – 15, 2017

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 1 – 15, 2017**.

STATE CLEARINGHOUSE CONTACTS

Please contact the State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
E-mail: state.clearinghouse@opr.ca.gov
Website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown via email**.

2017042002	Use Permit #2017-001, Rezone #2017-001, Initial Study #2017-001, Standiford Lassen County --Lassen Proposal to rezone an approx 17.67 acre portion of two contiguous legal parcels to allow the construction of an emergency transportation facility (which consists of a hangar/ambulance garage and heliport) by use permit. The subject parcels are currently zoned M-1, whereas the applicant is proposing a zone change to the M-2 district. The land under the helicopter's flight path will also be rezoned. The project site is located approx 1.6 mi northwest of intersection of US Hwy 395 and SR at 702-900 and 702-910 Johnstonville Road, Susanville, CA 96130.	CON	04/21/2017
2016031085	Bloomington Industrial Facility San Bernardino County --San Bernardino 1) The request for a general plan amendment to change the existing land use designation from Bloomington/Residential 1-acre min lot size additional agricultural overly and Bloomington/Institutional to Bloomington/Industrial on approximately 34.54 acres; 2) the approval of tentative parcel map 19635 to combine the existing 17 parcels into one lot on 34.54 acres; 3) the approval of a CUP to construct a 676,983-sf industrial warehouse building and associated facilities, including two detention basins; 4) the design review of the building and related features; and 5) abandoning of the existing San Bernardino county flood control easement through the center of the project site, and dedicating a new easement along the northeast and eastern boundaries of the site.	FIN	
2016071010	Kaiser Permanente Specialty Medical Office Building Project Irwindale, City of Irwindale--Los Angeles The proposed project would provide a total of approximately 450 parking spaces. Proposed parking will include the construction of a five-story, an approximately 115,339 sf, 339 space parking structure on the northeastern portion of the project site. The proposed parking structure would be 64 feet 5 inches in height. Approximately 111 additional parking spaces will be provided in a surface parking lot to be located along the southern, western, and northern sides of the project site. A drop-off/pick-up zone will be provided just south of the new parking structure, along the northeastern portion of the MOB. The proposed project will also include associated landscaping and infrastructure improvements as well as ancillary uses including a Thrive bar, coffee cart, pharmacy, a small biweekly farmer's market, conference center, and other weekly healthcare-related events.	FIN	
2015111075	State Route 55 (SR-55) Improvement Project Between Interstate 405 (I-405) and Interstate 5 (I-5) Caltrans #12 Santa Ana, Irvine, Tustin--Orange Caltrans District 12, in cooperation with the Orange County Transportation Authority (OCTA), proposes to widen SR 55 in both directions from just north of the I-405/SR-55 interchange to just south of the Interstate 5 (I-5)/Sr-55 Interchange between PM 6.4 and 10.3 traversing the cities of Santa Ana, Tustin, and Irvine in Orange County, CA. This project segment of SR-55, which is one of the most congested freeway segments in Orange County, currently operates at unacceptable levels of service (LOS) during peak periods. The purpose of the	MND	05/02/2017

	proposed project is to provide congestion relief, improve traffic flow, and increase mobility on SR-55.		
2017041001	Todd Academy Expansion Project ("Project") Corona-Norco Unified School District Corona--Riverside The District is proposing to expand the school by adding relocatable interim buildings and constructing a permanent building on land that is currently a play field. The project also involves demobilization of all interim buildings upon completion of the permanent buildings to accommodate 125 8th grade students. These interim buildings are to be located along the south-eastern portion of the project site along Mayhew Canyon Road. The district proposes to construct a permanent building to accommodate 250 students (the 125 8th graders noted above, plus 125 7th graders currently accommodated in other relocatable interim buildings).	MND	05/02/2017
2017041003	East Valley Water District City Creek Manhole Rehabilitation Project East Valley Water District Highland--San Bernardino EVWD is proposing to reinforce in-place a sewer manhole and sewer line currently located in the middle of City Creek in the City of Highland, CA, approximately 0.2 mile northeast of the I-210 overcrossing. The proposed project consists of the concrete encasement of a segment of the existing sewer pipeline extending from an existing manhole to approx 150 ft southeast to the edge of the channel. Construction activities include partial excavation of the existing pipeline, concrete encasement, backfill of the trench, and the addition of rip-rap to protect the existing manhole from erosion.	MND	05/02/2017
2017041004	6733-6801 South Sepulveda Boulevard Los Angeles, City of Los Angeles, City of--Los Angeles Multi family residential project consisting of a five story building with 176 dwelling units and 2.5 levels of subterranean and partially-subterranean parking.	MND	05/02/2017
2017041006	City of Carlsbad Trails Master Plan Carlsbad, City of Oceanside, San Marcos, Vista, Encinitas--San Diego The Trails Master Plan is a planning document proposed for use as a comprehensive reference for the future development and maintenance of the city's trail system. The plan implements the community's vision to have a fully connected trail system to provide more opportunities for active living and to create new, non-vehicular connections to destination through appropriate standards and design guidelines. The Trails Master Plan includes 42 new trail segments to be developed by the city, private applicant, or other public agency that would expand the existing trails network by an additional 38 miles. The project includes a GPA to incorporate the trails master plan by reference.	MND	05/02/2017
2017041007	Planning Area 6 North Elementary School Irvine Unified School District Irvine--Orange The IUSD proposes to add two relocatable classrooms to Eastshore ES and implement bond measure modernization activities such as repositioning existing structures, and constructions of new Kindergarten classrooms with support spaces. The project site is approx six acres that includes amenities such as classroom buildings, play structures, play space, and a parking lot. Eastshore ES	MND	05/02/2017

	<p>is located at 155 Eastshore in the city of Irvine, in Orange County.</p> <p>The proposed project includes building two relocatable classroom and modernization activities relating to the improvements outlined in the District's Measure E: School Facilities. The addition of the two relocatable classrooms will allow the current overflow of students to attend Eastshore ES. Implementation of the measure is intended to modernize and reposition existing structures and construct new Kindergarten Classrooms and support spaces. Students residing within the Eastshore attendance boundary are being overflowed to nearby schools. The current enrollment count is at 620 with a school capacity of 667. There are 426 permanent buildings and 194 portables that houses 198 students. The additional relocatable classrooms will increase enrollment by 66 students. Installation of the relocatable classrooms is expected to begin June 2017 until August 2017, approx six weeks. Estimated operational date will be the last week of August 2017. Anticipated construction for the Measure E improvements are expected to begin June 2018 until June 2019. Estimated operational date will be August 2019.</p>		
2017041009	<p>City of Ventura Auto Center Specific Plan Amendment Ventura, City of Ventura--Ventura</p> <p>The Ventura Auto Center Specific Plan area was originally adopted in 1987 to dedicate a region that would be strictly for Automobile uses. Since the original approval of the Auto Center specific plan, there have been 10 amendments, including modifications to the sign program and parcel additions and removals. There are currently 10 automobile dealerships in the Ventura auto Center, six of which front Leland St/Auto Center Dr.</p>	MND	05/02/2017
2017042003	<p>Black Butte Bank Erosion Repair Project Santa Clara, City of Orland--Glenn</p> <p>The proposed project is to complete an erosion repair with the placement of rock rip-rap along the north and south banks of the Black Butte Re-Regulation Basin.</p>	MND	05/02/2017
2017042004	<p>Emerald Family, LLC Conditional Use Permit and Special Permit Humboldt County --Humboldt</p> <p>A CUP and special permit for phase 1 of a three-phase project involving the development of cannabis cultivation, processing, nursery, and manufacturing facilities in accordance with the Humboldt County Commercial medical marijuana land use ordinance. Phase 1 consists of cannabis processing activities for the applicant within an existing 23,000 sf commercial metal building and approx seven acres of outdoor cultivation. The applicant is proposing to use approx 12 GH as part of the outdoor cultivation. Irrigation water will be provided by the Willow Creek Community Services District. The business will operate on an approx 17-acre portion of the 41-acre parcel; no development is proposed on the portion of the property known as APN 522-491-016. Subsequent phase 2 and 3 are described as follows and will require separate land use permit approval. Phase 2: the development of an approx 17,500 sf cannabis manufacturing facility, rehabilitation of an existing 890sf office building to be used for transportation and distribution activities, development of eight 20,000 sf GH, cultivation area under phase 1 from 7 to 3 acres. Phase 3: the construction of a new building of up to 4-stories in height and approx 95,000 sf to be used for plant nursery and indoor cultivation. Once phase 1, 2 and 3 are complete and operation, it is estimated that the facility will employ 75 people.</p>	MND	05/02/2017

2017041008	Fresno COG 2018 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) Fresno County Council of Governments Fresno--Fresno Project, as defined pursuant to Public Resources Code, Section 21065, is the preparation of the 2018 RTP/SCS. Fresno COG is in the process of preparing the RTP/SCS as required by Section 65080 et seq., of Ch. 2.5 of the CA Government Code, federal guidelines pursuant to new requirements established in the federal surface transportation reauthorization, "Moving Ahead for Progress in the 21st Century" (MAP-21) and the Fixing America's Surface Transportation (FAST) Acts, Transportation Conformity for the Air Quality Attainment Plan per 40 CFR Part 51 and 40 CFR Part 93, and requirements set forth in Assembly Bill 32, The California Global Warming Solutions Act of 2006, and Senate Bill 375 The Sustainable Communities and Climate Protection Act of 2008. Finally, the CA Transportation Commission has prepared guidelines (most recently adopted by the CTC on Jan. 18, 2017) to assist in the preparation of the RTP/SCS.	NOP	05/02/2017
2017042001	PA-1700044 (UP) Olive Processing Facility Expansion San Joaquin County Lodi--San Joaquin A use permit application for the expansion of an existing olive processing facility to be constructed in four phases over ten years. Phase one is the construction of a 5,080 sf cellar/shipping office. Phase two is the construction of a 4,950 sf addition to the cellar and a 3,900 sf warehouse to be constructed within three years from the date of approval. Phase three is the construction of a 4,950 sf addition to the cellar and a 5,200 sf processing building to be constructed within six years from the date of approval. Phase four is the construction of a 20,000 sf addition to an existing warehouse to be constructed within ten years from the date of approval.	Neg	05/02/2017
2017042005	Use Permit 16-002 (Olney) Shasta County --Shasta The project would establish an automotive repair business on a 0.97-acre property in Johnson Park, CA. The property is developed with a single family residence and a 750-sf commercial building. The applicant single family residence would remain a dwelling and be subordinate to the auto repair business. The shop owner and operator would live in the existing residence. The existing commercial building would be converted to an office and storage for auto parts. The hours of operation would be 8am and 5pm, Monday through Friday. No additional employees are proposed. The existing encroachment to State Highway 299 East would be improved and the parking area would be paved. The project also proposes an all-weather driveway which would extend from the office parking area to the shop. In accordance with Shasta County Code, landscape improvements would be constructed along the property frontage at a depth of 10 ft. Shasta county code would also require a masonry block wall be constructed as a zone wall along the property line which abuts a mobile home park to the north.	Neg	05/02/2017

2013052019	Well No. 7 Replacement Project Hughson, City of Hughson--San Joaquin State Water Board is a responsible agency for this project. The State Water Board's Safe Drinking Water State Revolving Fund Program is providing funds for the project. The City of Hughson proposes to continue improvements to the municipal water system in teh southwestern portion of the City. System improvements will include: replacement of existing Well No. 7 with a new Well No. 9; reconstruction of the City's existing well No. 5; modification of an existing 12 inch pipeline along Tully Road connecting Well No. 9 with Whitmore Avenue; and construction of a new 16-inch pipeline along Tully Road connecting Well no. 9 with existing City lines in Whitmore Avenue.	NOD	
2013081079	Revisions to the Kern County Zoning Ordinance - 2015 C. Focused on Oil and Gas Local Permitting Kern County --Kern The originally approved project consists of an amendment to Title 19 Kern County Zoning Ordinance (July 2012), with focus on Ch. 19.98 (Oil and Gas Production), to include new site development standards for all oil and gas exploration, extraction, operations, and production activities in unincorporated Kern County. DOGGR, as the Responsible Agency, will be issuing a permit for the proposed project activity, which consists of the following: Aera Energy LLC (Aera) proposes to hydraulically fracture well 927FR2-34, API # 03060093, which is expected to take 3 days, or less, including placement of portable tanks and all ancillary equipment to support the closed loop system, as well as the well stimulation treatments (WST). The well is in a densely developed oilfield (South Belridge) and drilling commenced in 2016. This supplement modifies existing permit 17-0039-0, issued by DOGGR on 2/7/2017, for well stimulation treatment of Aera Energy's South Belridge well API# 03060093. The supplement incorporates an additional perforation interval and well stimulation stage (973 - 1034 feet MD) proposed between two previously approved perforation intervals on the existing permits.	NOD	
2015012033	Wastewater Treatment Facility Upgrade Shasta Lake, City of Shasta Lake--Shasta The purpose of the project is to improve the quality of the effluent from the City's WWTF so that it can be discharged year-round directly into Churn Creek without dilution, consistent with the NPDES Permit requirements. The Project consists of various upgrades to enable the WWTF to meet stricter limitations requirements for ammonia, copper, dichlorobromethane, nitrate, pH, and zinc. The project includes installation of a new effluent discharge pipeline, cascade re-aeration structure, and replacement of the primary discharge point into Churn Creek (Outfall 001). The pre-project maximum daily flow rate for outfall 001, which discharges only in the winter months, is 6.22 cubic feet per second. Post-project, discharge would occur form outfall 001, and the maximum flow rate would be 12.18 cfs. The secondary discharge point into Churn Creek (outfall 002) would be abandoned in place. The pre-project maximum daily flow rate for discharge point 002 is 10.32 cfs, and there would be no post-project discharge. In addition, the spray fields and 400-acre foot reclaimed water reservoir would be taken off line and abandoned in place. With the exception of the effluent pipeline and outfall structure in the riparian area of	NOD

	Churn Creek, all proposed improvements would take place within the existing development footprint of the WWTF.		
2015022077	Pacific Coast Producers Inc. Palermo Land Application Area Expansion Regional Water Quality Control Board, Region 5 (Central Valley), Redding Oroville--Butte The PCP Cannery in Oroville produces canned fruit and discharges variable quantities of process wastewater in accordance with Waste Discharge Requirements Order No. R5-2003-0045, adopted by the Central Valley Water Board on 14 March 2003. The current land use application site contains 309 acres of land in Palermo to accommodate wastewater flows from the Oroville cannery. The proposed project would allow the addition of approx. 100 acres within the adjacent pheasant club for irrigation.	NOD	
2016022029	Old 44 Drive at Oak Run Creek Bridge Replacement Project Shasta County --Shasta The project entails replacement of the existing bridge over Oak Run Creek on Old 44 Drive with a new bridge on the same alignment. The existing single-span, 82.6 foot long by 20 foot wide reinforced concrete deck/steel girder bridge would be replaced with a new single-span, 122-foot long by 32.33-foot wide reinforced concrete box girder bridge. The new bridge abutments would be located approx. 16 feet north and 28 feet south of the existing bridge abutments, which would be removed. It is anticipated that the bridge foundation would consist of driven steel H-piles and pile caps. Both approaches to the bridge would require +/- 200 feet of roadwork. The purpose of the project is to provide a safe facility, hazardous waste property, or hazardous waste disposal site. The project site is located in Millville, CA.	NOD	
2016091007	Oakdale Village Residential Project El Cajon, City of El Cajon--San Diego The project includes an amendment of the General Plan and Zoning Map for a common interest residential development for 15 residences and one common lot on a vacant site. The project changes the land use designation of the subject property from General Commercial in Medium Density Residential and the zoning designation from General Commercial to Residential, Multi-Family, 22000. A Planned Unit Development for the 16-lot subdivision for development of the property.	NOD

2017048005	Common Landowner Transfer of up to 10,000 AF of TLBWSD 2017 State Water Project Water to Kern County Water Agency Tulare Lake Basin Water Storage District Bakersfield--Kern The Tulare Lake Basin Water Storage District (District) will transfer up to 10,000 AF of its 2017 State Water Project Water to Kern County Water Agency for Sandridge Partners Inc. to better manage its respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.	NOE	
2017048006	Burney Community Fuelbreak Phase III Forestry and Fire Protection, Department of --Shasta The California Department of Forestry and Fire Protection (CALFIRE), in cooperation with private landowners, is planning a 135 acre shaded fuelbreak west of the community of Burney, CA. The Burney Community Fuelbreak Phase III is approximately 3 miles long, approximately 300' wide fuels reduction project on mixed conifer timberlands mangaed for timber production. Fuels reduction will focus on increasing understory discontinuity, and removal of ladder fuels. Activities covered by this project utilize hand crews to reduce fuels, and is not intended to cover or limit the landowner management activities. Burney Community Fuelbreak Phase III runs west and north on Goose Valley Road and Hwy 299E from the 2016 Burney Community Fuelbreak along Jack Rabbit Flat Road. Project fuels reduction and vegetation treatments consist of the reduction and/or rearrangement of vertical and horizontal fuels through the methods of hand cutting, cut/haul offsite, cut/pile/chip, cut/pile/burn, and lop and scatter.	NOE	
2017048007	Diamond Mountain Fuel Reduction Project #15-SRA-LMU-0054 Forestry and Fire Protection, Department of --Lassen The project consists of a shaded fuel break of approximately 240 acres, 4.2 miles in length and up to 500 feet wide. The project treats forest fuel on both sides of the major access road for this part of the Diamond Mountain Motorway. The west end of the project starts at the Gold Run Road and the south end is where the Motorway enters USFS property. Most of the project area is characterized as a moderately stocked mixed conifer stand 80 to 120 years of age. The understory is composed of overstocked shade tolerant conifers and some brush species. 2017011012	See Vee Lane Signal Caltrans #9 Bishop--Inyo Caltrans proposes to install a traffic signal at the intersection of US Route 395, See Vee Lane and Cherry Lane. The project will require the relocation of public utilities and Matlick Ditch. Right of way will be acquired from private land owners and the city of LADWP.	NOD	
2017048028	Dogwood Avenue Pavement Improvements Imperial, City of --Imperial The proposed project involves resurfacing & rehabilitating Dogwood Avenue from Aten Road to Southeast Imperial City limits. The major transportation issue on Dogwood Avenue is caused by the dilapidated condition that causes permanent failure, & obstructs proper traffic to schools, public service facilities, & regional commuters, all of which will benefit from the project.	NOE	
2017048029	109 Fringe Area Annexation - Granite Development LLC Eastern Municipal Water District Murrieta--Riverside The proposed annexation would allow for public utility service through the district, to provide imported water service and sewer service to the short-term skilled nursing facility, proposed by Granite Development LLC. It is the responsibility of Granite Development LLC to complete the appropriate level of CEQA Act analysis for the SNF project. It is anticipated that the SNF project. It is anticipated that the SNF project would be a single story, 37,241 square foot, 60-bed post-acute care facility with an accessory maintenance building located on the property. By extending the District's service area and providing water and sewer service, the proposed annexation would allow the proposed SNF to maintain the health and safety of the people they will serve.	NOE	
2017048030	Sodium Hypochlorite Conversion Project SJVRWRF Eastern Municipal Water District San Jacinto--Riverside The SJVRWRF SHC storage facilities will consist of two new fiber reinforced plastic SHC storage tanks, located in the containment area currently occupied by the caustic storage tank used in the chlorine scrubber system. A new metal canopy will be constructed to provide shade and reduce chlorine decay in the SHC storage tanks. New valves and piping will be installed to connect the tanks to two new SHC feed pump skids, located inside the existing chlorinator room. One skid will contain three pumps and serve disinfection. The second skill will contain two pumps and serve the return activated sludge/waste activated sludge system and pre-filter chlorination.	NOE	
2017048031	Sodium Hypochlorite Conversion Project PVRWRF Eastern Municipal Water District Perris--Riverside The PVRWRF SHC Storage Capacity will be provided by relining and modifying the existing fiber reinforced plastic caustic storage tanks used in the chlorine scrubber system. A new metal canopy will be constructed to provide shade and reduce chlorine decay in the SHC storage tanks. New valves and piping will be installed to connect the tanks to the new SHC feed pump skids, located inside the existing liquid chlorine storage room. One skid will contain three pumps and serve disinfection. The second skid will contain two pumps and serve the return	NOE

2017041023	<p>Mast Park Santee, City of Santee--San Diego</p> <p>The city of Santee proposes improvements to the existing Mast Park north of the San Diego River, south of Carlton Oaks Dr, and east of Carlton Hills Blvd. The park improvements would enhance existing facilities, replace outdated facilities and add new features to accommodate the long-term expectations of the community. The goals of the project are to revitalize the city of Santee's oldest park, promote physical activity within the community, and preserve the natural, open space setting adjacent to the San Diego River. This project is intended to implement the Mast Park Master Plan which was adopted by the city in 2012. The Master Plan was developed by the city to evaluate park improvement alternatives and to include community outreach in the park improvement development process.</p> <p>The project involves replacing an outdated washroom with a new facility, providing a newly designed disc-golf course with a concession building, and adding other facilities (play structures, benches, picnic tables, shade structures, informative signage, basketball court, and fencing). The project would add 41 parking spaces to the existing 29 spaces. The existing paved meandering trails throughout the open space would be removed and replaced with walkable disintegrated granite surfacing. The sidewalk along the Carlton Hills Blvd frontage would be widened to eight feet and the driveway entrance replaced. The project also proposes storm water best management practices and shielded lighting in selected areas.</p>	MND	05/05/2017
2017042016	<p>Sakata Seed Woodland Station (ZF# 2016-0038) Yolo County Woodland--Yolo</p> <p>The project is a use permit for an agriculture seed research facility proposed to develop on approx 15 acres (at full build out) of a 203 acre agriculturally zoned parcel that is planted in row crops. The majority of the property will remain in agricultural production to support the research and development of warm-weather vegetable seed crops.</p>	MND	05/04/2017
2017042018	<p>Joeger 20 Subdivision (PSUB 20120037) Placer County Auburn--Placer</p> <p>17 single family lots ranging in size from 26,200 to 54,100 sf, two open space parcels totaling 3.96 acres that includes a 5,000 sf passive recreation area, and two common area lots totaling 0.38 acres. Access to the site will be from a 23-ft wide private road extending southeast from Joeger Rd, through the site, and culminating with a cul-de-sac. No sidewalks are proposed and one site of the road will contain and gutter to increase drainage capacity.</p>	MND	05/04/2017
2017042019	<p>General Plan Amendment 2016-01, Rezone 2016-01 (Northwest Triangle Specific Plan Update) Turlock, City of Turlock--Stanislaus</p> <p>The Northwest Triangle Specific Plan area consists of approx 800 acres in the northwestern part of the city largely within a triangle area created by Golden State Blvd, state highway 99, and Fulkerth Rd. The Northwest Triangle Specific Plan was adopted in 1995 and was amended in 2004. This update to the specific plan will re-designate six properties within the specific plan area.</p>	MND	05/04/2017

2017042020	<p>Cosumnes River College - College Center Modernization and Expansion Project Los Rios Community College District Sacramento--Sacramento</p> <p>The Los Rios Community College District is proposing to modernize and expand the College Center building located on the southwest portion of the CRC campus, in Sacramento city, Sacramento County, CA. The proposed college center modernization and expansion project consists of some modernization/upgrades to the existing single story, approx 30,000 sf steel building and a two story 30,560 sf steel frame addition to be located on the northern portion. The modernization/upgrade phase of the project is focused on the northwest portion of the college center building and will consist of approx 3,653 to 6,113 sf of renovation. There is currently a severe shortage of administrative office space and the college center expansion will fill this need; the project is not intended to facilitate future growth.</p>	MND	05/04/2017
2017041017	<p>Greentree Ranch Specific Plan No. 394 Riverside County Riverside--Riverside</p> <p>The proposed project consists of applications for Greentree Ranch Specific Plan No. 394 (SP00394), GPA No. 1210, change of zone no. 7918, tentative parcel map no. 37227, tentative tract map no. 37217, agricultural preserve contract non-renewal applications nos. 00175, and 00176, and agricultural preserve diminishment application no. 00175. Approval of these applications would allow for development of the project site with 513 dwelling units on 197.2 acres, 44.8 acres of open space-recreation uses, 56.3 acres of open space-conservation uses, 5.4 acres of open space-water uses, and 23.7 acres for major roadway circulation uses, and associated utilities infrastructure.</p>	NOP	05/04/2017
2017041018	<p>NOP of a Program EIR for the 2018 Regional Transportation Plan/Sustainable Communities Strategy (RTP/SCS) Tulare County Association of Governments Visalia, Porterville, Tulare--Tulare</p> <p>The project consists of preparation of the 2018 RTP/SCS. The 2018 RTP/SCS is an update to the 2014 RTP/SCS. The RTP will be used to allocate federal and state funding for regional transportation projects. The SCS component of the project identifies policies and strategies to balance land use and transportation systems to reduce emissions from cars and light trucks. TCAG does not implement individual projects in the RTP/SCS; these projects are implemented by local jurisdictions and other implementation agencies. The RTP identifies the region's mobility needs and associated land use patterns through 2042. The SCS will contain land use, housing, and transportation strategies that, if implemented, would allow the Tulare County region to meet GHG emission reduction targets for cars and light trucks for the years 2020 and 2035.</p>	NOP	05/04/2017
2017041019	<p>Timbisha Shoshone Casino Project Timbisha Shoshone Tribe Ridgecrest--Kern</p> <p>The proposed project consists of two phases, and would total approx. 35,000 to 50,000 sq. ft. of building space plus a 52,000 sf convention center and 100 room hotel at full buildout. Phase 1 includes the construction of a casino, players club, retail shop, coffee shop and buffet, bar and lounge, meeting space, back of house space, and parking, totaling approx. 25,000 to 30,000 sf. Phase 2 would include a casino expansion and restaurant, totaling approx. 10,000 to 20,000 sf, plus an additional 52,000 sf convention center and 100-room hotel with a swimming pool</p>	NOP	05/04/2017

2017042017	El Dorado Hills Apartment/A16-0001, Z16-0004, SP86-0002-R3, PD94-0004-R3 El Dorado County --El Dorado The project site is approx 4.565 acres. The project site ranges in elevation from approx 605 to 620 feet above mean sea level and slopes gently east to west. The site is vacant and undeveloped, but indications of previous disturbance, including mass grading are present. The vegetation on the project site is characterized as disturbed, non-native annual grassland; nor large shrubs or trees are present on the site.	NOP	05/04/2017
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0241-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Caltrans - #7, Paul Caron. This project is called segment 6 which is one of many segments along the 138 which are being widened. The limits of Segment 6 are from PM 55.2 to 56.2 or 0.75 miles west of 106th Street East to 87th Street East. The Permittee proposes to widen the existing two-lane highway to standard four-lane highway, except for westbound 89th street to 87th which will remain one lane. Caltrans also proposes to standardize the shoulder width to eight feet, and improve sight distance and add a median on the eastern portion of the project. Grubbing and grading within Caltrans right-of-way will be required to accommodate roadway drainage and maintenance access. Grubbing and grading will result in the removal of disturbed and native vegetation.	NOD	
2013092047	UCSF Long Range Development Plan University of California, Regents of the San Francisco--San Francisco The UCSF proposes to increase the licensed child care capacity at the Kirkham Child Development Center by converting an under-utilized multipurpose room on the first floor into a classroom to serve an additional 21 full-time enrolled child care slots. enrollment would increase gradually between April and September 2017, reaching the licensed capacity of 21 additional slots by September 2017. In order to meet or exceed licensing requirements, two additional teachers would be employed at the Kirkham Center. The proposed project is consistent with the UCSF 2014 Long Range Development Plan.	NOD	
2016082017	San Rafael High School Implementation Plan San Rafael City Schools San Rafael--Marin This EIR addresses the Master Facilities Long-Range Plan at a programmatic level and the Stadium project at a project level. At competition, the SRHS campus would have 327,892 gross sq. ft. of campus buildings, an increase of 48,222 gsf on the campus compared to existing conditions. The District proposes building demolitions, renovations, and new construction for the campus. A total of 84,015 gsf of existing buildings would be removed and 132,237 gsf of new buildings would be constructed. A projected enrollment increase of 200 students is anticipated.	NOD

2017-05	Dry Creek Rancheria Band of Pomo Indians - APN: 091-020-016 Bureau of Indian Affairs --Sonoma The subject property consists of one parcel of land, encompassing ~6 acres more or less, commonly referred to as APNs: 091-020-016. The parcel is located ~4 miles driving distance from the Dry Creek Rancheria and its adjacent trust lands. The property is a well-established Campground and RV Park that was established in the late 1960's. It contains 60 RV sites, 24 tent sites, a camp store, manager's residence, registration kiosk, restrooms and showers.	BIA	05/05/2017
2013031038	Exposition Corridor Transit Neighborhood Plan Los Angeles, City of Los Angeles, City of, Culver City, Santa Monica--Los Angeles The City of Los Angeles is preparing a Specific Plan and other regulatory changes for the Exposition Light Rail corridor, which would guide the future development of the area within the boundaries indicated in Figure 1. This Project Area is located within City Council Districts 5, 10, and 11, and comprises portions of the West Los Angeles, Palms-Mar Vista-Del Rey, and West Adams, Baldwin Hills-Leimert Community Plan areas. The Project Area is located entirely within the incorporated City of Los Angeles, and abuts the City of Culver City and the City of Santa Monica. Note that not all properties shown in the Project Area will be affected.	EIR	05/22/2017
2016071011	International Studies Learning Center Addition Project Los Angeles Unified School District South Gate--Los Angeles The proposed project includes an addition to the existing Legacy High School Complex campus for ISLC middle school students; and removal of 17 classrooms in portable buildings from the South Gate Middle School campus. The ISLC Addition includes 16 permanent classrooms, an administration building, a lunch shelter, staff and student restrooms, outdoor basketball/volleyball courts, a surface parking lot with 40 parking spaces, a multi-purpose room and gym. Buildings constructed under the proposed project would be a maximum of two stories tall and up to 30 feet in height. Subsequent to the construction of the proposed project, approx 17 classrooms in aging and deteriorating portable buildings located on the South Gate MS campus will be removed.	EIR	05/22/2017
2016081031	ICON at Panorama Project Los Angeles, City of Los Angeles, City of--Los Angeles Demolition of three existing vacant commercial buildings totaling 172,500 sf of floor area and the removal of associated surface parking areas in order to construct an approx 584,000 gsf mixed use development on an approx 8.9-acre site. The project involves the construction of seven buildings containing approx 200,000 sf of commercial floor area and 422 multi family residential units. In addition, parking for approx 1,690 vehicles and 858 bicycles would be provided on site.	EIR	05/22/2017

2016101016	Paseo Del Mar Permanent Restoration Project Los Angeles, City of Los Angeles, City of--Los Angeles On November 20, 2011, the White Point Landslide occurred in the community of San Pedro in the city of Los Angeles, resulting in the collapse of an approx 400-ft long section of the Paseo Del Mar roadway along the coast. BOE is considering three build alternatives for the permanent restoration of the collapsed portion of the Paseo Del Mar roadway, including one bridge alternative and two alternatives using either a reinforced embankmet or a retaining wall. The three alternatives would include roadway and drainage design; signing, striping, and any traffic signal modifications, if needed; and planting of native vegetation on the seaward side of Paseo Del Mar to further stabilize the landslide and prevent erosion.	EIR	05/22/2017
2017041020	Design Review DRC2016-00713, Tentative Tract Map SUBTPM20054 & Specific Plan Amendment DRC2016-00715 Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino A request for site plan and architectural review of a 214 unit multi family development on 11.8 acres of land within the Medium high district (14-24 dwelling units per acre) of the Terra Vista Community plan, located at the southwest corner of Church St and Terra Vista Parkway.	MND	05/05/2017
2007031032	Ashley Construction VTM 63567 Hidden Hills, City of Hidden Hills--Los Angeles The proposed project involves the subdivision of an~17 acre site into 7 lots for custom single-family residences, as well as an additional lot for an internal road. The proposed lots would range in size from 1.2 to 4.3 acres with an average lot size of 2.3 acres. Project development would also involve an extension of Bridle Trail Road, creation of an internal road, extension of existing association maintained bridle trails (horse riding trails), and additional improvements necessary to access and serve each parcel with public utilities. The project would include annexation of an ~8 acre parcel that is currently part of unincorporated Los Angeles County and is within the City's Sphere of Influence. Consequently, the project would require a General Plan amendment to establish a land use designation and prezoning of the eight acre parcel. The zone change would convert the existing eight acre County-designated parcel from Heavy Agriculture (A-2-2) to Residential-Agriculture Suburban (RA-S), and would require approval of annexation by the Local Agency Formation for the County of Los Angeles (LAFCO), the Hidden Hills Community Association (HHCA), and the City of Hidden Hills.	NOP	05/05/2017
2017041021	Pacific Freeway Center Fontana, City of Fontana--San Bernardino The Project would include construction and operation of two warehouse/distribution/logistics buildings with associated office spaces and surface parking and loading areas. The western building would be approximately 307,000 square feet, and the eastern building would be approximately 215,000 square feet. Office space within each building would total up to 20,000 square feet. Depending on the number of future tenants, office areas may be distributed among four individual office spaces in the southwest and southeast corners of each building, or may be concentrated within one office in each building. 2017041022	Castellina Project Madera County Madera--Madera The Proposed Castellina project is a master-planned community located on approximately 794 acers about one mile north of the City of Madera in Madera County. The Castellina project includes the development of up to 3,072 single-family, multi-family, and mixed-use residential units; approximately 21 acres of commercial mixed -use; and approximately 131 acres of parks, play fields, trails, plazas, community gardens, and other open space.	NOP	05/05/2017
2017042021	Alameda Shipways Residential Project Alameda, City of Alameda--Alameda The project proposes to construct 292 apartments (including 13 units for very-low income households, 10 units for low income households, and 17 for moderate income households), a leasing office, a new waterfront park, common areas, a 488-space parking structure and 13 surface parking spaces, and ~2.5 acres of public open space, including an extension of the Bay Trail. The project proposes to open ~2.0 acres of the site to the public as a park as well as extend the Bay Trail along this portion of the Oakland Estuary. Details of the park area are proposed to include amenities such as a 12,000 sf multi-purpose lawn, a bocce court, a children's play area, bike and kayak rentals, and a kayak launch. There are also proposed multiple seating areas and a san area for volleyball. (see NOP for specific information).	NOP	05/05/2017
2017042022	Amendments to Humboldt County Code Regulating Commercial Cannabis Activities Humboldt County --Humboldt The proposed amendments to the Humboldt County Code including provisions previously established by ordinance Nos. 2554 and 2559 are intended to achieve the following regulatory objectives: - Repeal the deadline for applications, and continue to accept applications under Ordinance No. 2559 for medical cannabis without significant changes. - Expand the scope of the Ordinance Nos. 2554 and 2559 to include commercial marijuana operations for adult recreational use now authorized by AUMA, under the same general regulations as medical cannabis. - Expand the areas where new cultivation or expansion of existing cultivation sites will be permitted to locations with or without prime agricultural soils that are planned and zoned for agricultural use, meeting specific criteria to be established: - Natural slopes 15 % or less - In lower portions of principal watersheds where established riparian water rights exist - With viable local on-site water source, including: o Rainwater capture and storage o Surface water diversion and storage under standard forbearance period or refined or dynamic period set by flow data or localized water management plan o Groundwater, where known to be non-hydrologically connected - Located on or within 1 mile of county-maintained roads - Or located on private road systems meeting the category 4 road standard - With on-grid power or alternative energy source (solar, wind, or micro-hydro) - Restrict or prohibit generator use - Limit new cultivation or expansion to areas not requiring conversion of	NOP	05/05/2017

	locations. Processing operations involve material crushing and/or sorting, onsite storage of materials, production of asphalt plant, rock crusher, screen ,settling basin, gate, office and scales. A new concrete batch plant is proposed. Under the current permit, hours of operation are restricted to daylight hours Monday through Saturday, generally 7:00 am to 6:00 pm.		
2017012006	Former Naval Petroleum Reserve No. 1 (NPR-1): Removal Action Workplan - Remediation of Areas of Concern (AOCs), AOC 046, AOC 049, and AOC 073 Toxic Substances Control, Department of --Kern DTSC has approved three Removal Action Work Plans (RAWs) for the former Naval Petroleum Reserve no. 1 (NPR-1) property (hereinafter "the Site") pursuant to Ch. 6.5 of the of the CA Health & Safety Code. The RAWs address the excavation of landfill material/debris and potentially impacted soil that may release chemicals of concern (COCs) at levels that may pose a risk to human health. The documents evaluated remedial action alternatives and selected preferred actions to address the three Areas of Concern (AOCs) as identified in the Corrective Action Consent Agreement, signed by the U.S. Dept. of Energy (DOE) and DTSC in 2008. The selected remedial action alternatives include excavation of soil/debris and landfill materials at the AOCs.	NOD	
2017021012	GPA 2017-01 and ZC 2017-01 to establish the Packing House District Transit-Oriented Development Project Placentia, City of Placentia--Orange In conjunction with the county of Orange, Orange County Transit Authority, the city of Placentia will install a new train station to accommodate access for city residents to the regional passenger train system. The city proposes to support this new regional system connection by creating a transit-oriented development zone classification and land use designation in the packing house district of the city, which is located immediately adjacent to the proposed train platform. The objective of these new land use designations/classifications is to allow high density-transit oriented development in the immediate vicinity of the train platform to facilitate use of the regional system and redevelopment of the area surrounding the new station. To accomplish this, the city is proposing to adopt a TOD land use designation and zone classification (Municipal Code) with related Development Standards; Public Realm Standards, a Streetscape Master Plan and related street and public improvement standards. 	accommodate development as an extension of the historic downtown; allow development of 118 condominiums, a 132-bedroom hotel, and 35,599 s.f. of retail space on a 24.5 acre site, of which 7.53 acres extend into the lake and are permanently under water; develop a functional open space areas; develop a pier and boardwalk associated with the development; and provide circulation and public utilities improvement.		
2017041026	Long Term Facility Needs Study Salinas Valley Solid Waste Authority Salinas--Monterey The Salinas Valley Solid Waste Authority is considering a new site for a permanent materials recovery and transfer station that would serve the existing needs of its members, and has proposed a project that could involve development of facilities at one or more locations within Monterey County. A no build alternative will also be evaluated. Each location would have a combination of unique operations. These uses may include a clean fiber and organics recovery system that would process, treat, and recover reusable elements of the waste stream; a transfer station for receiving, sorting, and initially processing waste materials; a household hazards waste dropoff facility; and maintenance and office building(s). A new structure would be constructed that would house most transfer and process operations.	NOP	05/08/2017
2017042032	Spotorno Ranch Project Pleasanton, City of Pleasanton--Alameda Tim Lewis Communities is proposing to rezone and subdivide the Project site to support 39 single family residential lots and roadways on a 31-acre portion of the site and to permanently preserve ~123 acres as open space. The area that would be developed is located on flat terrain in the western portion of the site in the vicinity of existing residential development, while the larger area to the east containing hilly terrain would be preserved as open space. Residential lots would range in size from 17,216 sf (0.39 acre) to 38,331 sf (0.88 acre). The proposed site plan includes preservation of an existing wetland area in the western portion of the site and the construction of an adjacent bioretention area for on-site stormwater management.	NOP	05/08/2017
2017041027	North SLO county Recycling and Transfer Station New Full Solid Waste Facility Permit Resources Recycling and Recovery, Department of --San Luis Obispo The project includes combining the North San Luis Obispo County Recycling and Transfer Station's two existing Registration Tier Permits into a new Full Solid Waste Facility Permit as a Large Volume Transfer/Processing Facility; the continuation of all existing permitted operations; increasing the maximum daily tonnage limit at the SLO RTS from 273 tons per day to 500 tpd; adding commercial food material (up to 50 tpd) and municipal solid waste (up to 200 tpd) to the list of materials permitted for processing and handling; and constructing a new commercial food material processing facility, a new tipping floor and covered awning to accommodate new municipal solid waste processing operations, and a new covered awning above the existing mixed green material/residential food material tipping floor to accommodate the expanded operations. 2015031035	<p>2016-2040 Regional Transportation Plan/Sustainable Communities Strategy (2016 RTP/SCS) Southern California Association of Governments --Los Angeles The 2016 RTP/SCS Amendment #1 includes the inclusion and/or revision to 76 transportation projects, or approx. 2 percent of the total 2016 RTP/SCS projects. Changes include revisions to the project scope, cost and/or schedule to 54 projects already included in the 2016 RTP/SCS and inclusion of 22 new projects. The revisions and additions to the Project List will not result in substantial changes to the previously adopted 2016 RTP/SCS. (for further details, please refer to Page 4 "Project Description" in the ADD PEIR). An Addendum EIR was prepared since revisions would not result in new significant impacts or substantial increases to impacts.</p>	ADM	04/24/2017
2016032002	<p>CarMax Automobile Dealership Pleasant Hill, City of Pleasant Hill--Contra Costa Note: Extended Review The proposed project includes demolition of existing unoccupied former Kmart building and an operational McDonald's restaurant and construction of up to approx. 45,289 sq. ft. of structures/facilities for a CarMax Automobile dealership on approx. 9.95-acres, constructed in two phases beginning in late 2017. Phase I would include an approx. 18,824-sq. ft. CarMax Auto Superstore building, lighted outdoor vehicle display area, a 4,000 gal. UST and surface parking on approx. 7.93 acres. Phase II would encompass the remaining approx. 2.02 acres including the expansion of the CarMax Auto Superstore building constructed in Phase I by approx. 26,465 sq. ft. with an additional automotive service building and the addition of a Final Quality Control Building, attached to the Car Wash (to be built in the first phase).</p>	EIR	06/05/2017
2017041033	<p>VAR16-00001 & SPR15-00012 Hesperia, City of Hesperia--San Bernardino Site Plan Review SPR15-00012 and a Variance VAR 16-00001, to construct a 186-unit multi-family development replacing two single-family residences on 22.8 gross acres within the Medium Density Residential (MDR) Zone of the Main St. and Freeway Corridor Specific Plan (Specific Plan). The variance will allow a 15-foot street side yard setback and a minimum 10-foot distance between buildings instead of the 25-foot street side yard setback and 15-foot building separation as required by the Medium Density Residential Zone of the Specific Plan.</p>	MND	05/09/2017

	weddings, receptions, and other large gatherings. The facility will host no more than 250 attendees for each event, including vendors and staff, for no more than 12 hours per day, seven days per week. The majority of special events will occur on weekends, with the number of events varying throughout the year. The duration of the event is limited to the hours between 7:00 a.m. and 10:00 p.m. on weekdays, and between 9:00 a.m. and 10:00 p.m. on Saturdays and Sundays.		
2017042034	Parcel Map #2864 - The Reed Leasing Group, LLC Amador County lone--Amador The subject property was bifurcated in 1940 when the State of CA acquired right-of-way for SR 88, leaving approx. 111 acres to the north of the highway and 130 acres to the south. Parcel Map #2864 proposes to formalize the division by establishing two legal parcels separated by the hwy right-of-way. The property is included in a CA Land Conservation Act contract, and no improvements or changes in land use are proposed.	MND	05/09/2017
2017042037	Town of Windsor Parks and Recreation Master Plan Update Windsor, City of Windsor--Sonoma The proposed Plan is intended to provide a planning blueprint to remove, protect, and expand the Town's network of parks, facilities, and recreational services through the year 2030. This Plan aims to create an integrated network of parks and open space which could serve the community Under the Plan, the Town of Windsor intends to add 20 acres of parkland (10 acres of community parks and 10 acres of neighborhood parks and joint use school sites) and improve Keiser Park as the hub of Windsor's park and recreation system. The IS-MND analyzes all individual improvement projects that are expected to have a physical effect on the environment. all of these projects involve the development of new park or recreation facilities or improvements to existing facilities. Adoption of the proposed Plan would not directly involve the construction of park and recreation projects, but would rather facilitate the future development of such improvements. Thus, this Initial Study evaluates the environmental impacts associated with the Plan at a programmatic level and provides programmatic-level mitigation measures. all future park and recreation projects included as implementing actions of the Plan will be subject to additional project- and/or site-specific environmental review and mitigation as appropriate. The Town notes that the Community Center and Aquatics Center at Keiser Park were previously analyzed in the February 2008 Keiser Park Master Plan Environmental Impact Report. (SCH 20000032102). Since adoption of the 2008 EIR, plans for the Community Center and Aquatics Center have been altered and impacts are analyzed on a programmatic level.	MND	05/09/2017
2017012020	Tiburon Peninsula Club Expansion Project Tiburon, City of Tiburon--Marin The proposed project would construct a Junior Tennis Center that would be used to expand its current junior clinic program and provide lessons for members and non-members. This project would include the following improvements: 1. Pole lights will be installed to light the six existing courts. The proposed lighting will include 8 lamps per court. The lamps will be mounted on 22 foot high poles. Some of the poles will hold two lamps that will illuminate adjacent courts; there would be a total of 38 poles. Lighting will be used from September 8th to April 14th only. The lights will turn on 30 minutes before full sunset (which varies from	NOP	05/09/2017

2017022055	Linking Tahoe: 2017 Regional Transportation Plan/Sustainable Communities Strategy Tahoe Regional Planning Agency South Lake Tahoe--El Dorado, Placer Note: Response to Comments. The 2017 Regional Transportation Plan/Sustainable Communities Strategy sets forth an update to the comprehensive transportation system to serve the travel needs of the Lake Tahoe Region and meet regional goals. The plan identifies a long-term vision, regional transportation goals and supportive projects, and policies and programs needed to meet these goals. The 2017 plan is an update to the 2012 Regional Transportation Plan, Mobility 2035, and as such identifies the projects, policies, and programs planned for implementation in the Tahoe Region through 2040, as compared to those identified in Mobility 2035, which had a 2035 planning horizon.	Oth	
2004071039	Shea / Baker Ranch Lake Forest, City of Lake Forest--Orange CP 03-17-5016 amends previously approved Site Development Permit (SDP) 03-16-4898 (85 single-family homes on 8.67 acres) to provide alternative plotting of Plans 1, 2 and 3 on 11 lots, and minor changes to the floor plans (+124 sq. ft., +124 sq. ft. and +261 sq. ft. respectively), roof plans and elevations. Project was evaluated in and contemplated by the SEIR that was prepared for the Shea/Baker Ranch project and certified by the City of Lake Forest City council on May 15, 2012. The Shea/Baker Ranch certified SEIR was not challenged within the time period prescribed in subdivision (c) of Public Resources Code section 21167 and thus the SEIR is presumed valid in accordance with Public Resources code section 21167 and thus the SEIR is presumed valid in accordance with Public Resources Code section 21167.2. The proposed project is consistent with scope of the approved Area Plan and Tentative Tract Map 16466. Therefore, the certified SEIR serves as the environmental documentation for the project and the project is in compliance with the requirements of CEQA.	NOD

2017048151	Northern Region Firing Class Training Burn Forestry and Fire Protection, Department of --Colusa The California Department of Forestry and Fire Protection (CALFIRE) conducts prescribed burning activities on privately owned land west of Arbuckle in Colusa County. A Notice of Exemption (NOE) was filed in 2012 for the project; this NOE serves to update that document. The project involves light to moderate intensity burning of grass to train fire personnel in CAL FIRE's Northern Region utilizing different firing techniques. Firing of burn units are conducted in a manner that allows firefighters to utilize controlled fire to extinguish simulated uncontrolled fire. Project activities include establishing fire control lines, igniting fire within control lines, and extinguishing fire with prescribed fire and suppression tools if necessary.	NOE	
2017048153	Elk Grove Shopping Center Modular Buildings (EG-16-045) Elk Grove, City of Elk Grove--Sacramento Minor Design Review for the construction of two temporary modular buildings (2,160 sq. ft and 960 sq. ft) for Elk Grove Unified for adult education courses and staff training facility to be located with the Elk Grove Shopping Center.	NOE	
2017048154	Universal Custom Display Awning (EG-17-007) Elk Grove, City of Elk Grove--Sacramento Minor Design Review for the construction of a new 5,200 square foot awning on the west elevation of an approximately 47,700 square foot industrial building to shelter temporary outdoor storage of materials.	NOE	
2017048155	Minor Amendment to Conditional Use Permit No. 763 El Cajon, City of El Cajon--San Diego The amendment would allow for the addition of a deck for the expansion of an outdoor dining area. The site has an existing commercial building used for a restaurant. The amendment of the CUP would benefit the property owner with the additional outdoor dining area for the existing restaurant.	NOE	
2017048156	Minor Amendment to Specific Plan (SP) No. 526 - Courtyard Marriott Signage El Cajon, City of El Cajon--San Diego The minor amendment would allow for a larger projecting sign than is allowed in the Downtown Master Plan area for a hotel at the subject site. The amendment to the SP would benefit the property owner by providing a larger sign for identification of the hotel.	NOE	
2017048157	Irving Fire Road Improvement (Lake or Streambed Alteration Agreement No. 1600-2016-0407-R3) Fish & Wildlife #3 --Marin The Irving Fire Road is an extension of Irving Drive in San Anselmo. The fire road is within an open space preserve that consists of hilly terrain, and is between 10-14 feet wide and approximately 15500 feet in length. It crosses two small intermittent drainages where water is allowed to flow across the road via an earthen ford. The Open Space District is proposing to improve and maintain the	NOE

2017048165	<p>Bay Street Tanks Solar Photovoltaic Project Santa Cruz, City of Santa Cruz--Santa Cruz</p> <p>The proposed Project involves the installation and operation of an approximately 266.5 kW photovoltaic (PV) system at the Bay Street Reservoir Facility (BSR). The BSR is an ideal candidate for PV due to its uniquely large size and limited shading from surrounding structures and lack of overhanging vegetation. When the tanks were installed and the new structures built within the former open-air reservoir, electrical conduit to support a future PV system was placed at the base of the tanks and along the south facing embankment. To accommodate the inverters, space was reserved within the control building with necessary underground conduit installed connecting the BSR site to the PG&E point-of-connection at the U2 Pump Station located 500 feet to the south.</p>	NOE	
2017048166	<p>Common Landowner Transfer of up to 1,500 AF of EWSID 2017 State Water Project Water to Kern County Water Agency Empire West Side Irrigation District Bakersfield--Kern</p> <p>The Empire Westside Irrigation District (District) will transfer up to 1,500 AF of its 2017 State Water Project Water to Kern County Water Agency for Sandridge Partners Inc. who farms in both districts. The transfer will be completed in 2017. This proposed transfer is designed to enable Sandridge Partners Inc. to better manage its respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.</p>	NOE	
2017048167	<p>Restoration of Native Vegetation Damaged by Unpermitted Grading Mono County --Mono</p> <p>The County of Mono has directed the property owner to restore vegetation on his property that was damaged or removed during grading activities conducted by the owner, over a period of several years, without a grading permit or other authorization. The tasks and activities covered by this Exemption have been identified by the county as necessary to restore vegetation that was damaged or removed during the unauthorized grading activities. Restoration tasks will be performed by qualified biologists and include: Develop the restoration plan, obtain approvals as necessary from California Department of Fish and Wildlife (CDFW), and implement the restoration plan.</p>	NOE	
2017048168	<p>Arizona Crossing Restoration (16.17 A26) Parks and Recreation, Department of --</p> <p>The project would recontour an old road bed and Arizona Crossing across Malibu creek and restore the site with native plants. 2017048188	Clifton Court Forebay (CCF) Inlet Apron Emergency Repair Water Resources, Department of Byron--Contra Costa A portion of the CCF intake right wing wall has cracked and separated from the structure. DWR will remove 40ft x 60ft section of wing wall and apron that were displaced from the CCF intake structure. Install new sheet piles around the wing walls and concrete apron. All sheet piles will be left in place and cut to match the height of the existing structure. Place rock to fill the void beneath the demolished portion of the concrete apron, as well as undermined portion of left wing wall. The new concrete apron will be doweled into the competent portion of the remaining apron with rebar. Once the apron is rebuilt, 30-inch rock will be placed and graded from the downstream edge of the apron an additional 50ft into the forebay to prevent erosion and undercutting of the repaired apron.	NOE	
2017048189	MRN-101 Concrete Barrier Caltrans #4 Mill Valley--Marin Caltrans will install concrete barrier to prevent vehicles from running off the highway into the existing fence and guardrail and hitting vehicles on the Redwood Highway Frontage Road. 2017042038	<p>Marin Montessori School - Proposed General Plan Amendment, Zone Change, Use Permit, Design Review Corte Madera, City of Corte Madera--Marin</p> <p>The proposed project includes the purchase and annexation of a single family residential property at 5164 Paradise Drive for school uses by the Marin Montessori School at 5200 Paradise Drive in Corte Madera, CA. The MMS would also renovate existing residential structures for classroom uses. The MMS also proposed to demolish two structures, known as The Domes and replace with a similar sized new classroom structure. The project also includes associated site work and landscaping and modifications to internal circulation and parking. No new enrollment or employees would result as part of the project.</p>	MND	05/10/2017
2017042039	<p>Jamestown Reservoir Replacement Project Tuolumne Utilities District --Tuolumne</p> <p>The District proposes to construct a 1 million gallon welded steel tank on the project site that would meet currently health safety, and seismic standards and be a reliable and a healthy source of water for the community of Jamestown. The proposed tank will be 75-feet in diameter and 32 feet tall and will be located where a currently out of commission 180,000 gallon reservoir resides onsite. this old structure will be removed and backfilled with engineered fill before the new tank will be constructed. The project will also replace the asbestos cement water line with a 750 lineal foot, 14 inch diameter C900 polyvinyl chloride (PVC) pipe. the existing reservoir on the site would removed the area would be regraded.</p>	MND	05/10/2017
2005012113	<p>Amendment to UC Santa Cruz 2005 Long Range Development Plan for Student Housing University of California, Santa Cruz Santa Cruz--Santa Cruz</p> <p>The UC, Santa Cruz Campus (UC Santa Cruz) is proposing an amendment to the UC Santa Cruz 2005 Long Range Development Plan ("2005 LRDP") to support the future development of student housing in the western portion of the UC Santa Cruz main campus. The proposed LRDP Amendment would change the land use designation of ~14 acres of land from Campus Resource Land (CRL) to Colleges and Student Housing (CSH). The proposed action would facilitate the future development of student housing.</p> <p>The proposed action supports the UC system-wide Housing Initiative, which was announced by UC President Janet Napolitano in January 2016. The overarching goals of the housing initiative are two-fold: first, to ensure that each of UC's campuses has sufficient housing for its growing student populace; and second, to keep housing as affordable as possible for UC students. At the Santa Cruz campus, the housing initiative will support the development of new apartment-style housing for 3,000 upper division undergraduate and graduate students and students with families.</p>	NOP	05/10/2017

	<p>lane merge between Phelps Road and Whittier Drive, a bike lane and sidewalk. The remainder of the alignment along its west side includes one southbound vehicle lane, a bike lane and a sidewalk.</p> <p>The Proposed project would include two vehicle travel lanes in each direction, as well as sidewalks and bike lanes in both directions. The road's north-and southbound lanes would be 11 feet wide. On the east (northbound) side, the existing planted median would be removed and the additional vehicle lane would be constructed. On the west (southbound) side a sidewalk and bike lane would be constructed as well as a sloped shoulder. The bike lane and sidewalk would each be eight feet wide. On the east side, the sidewalk and bike lane would be five feet wide each.</p> <p>A left-hand turning lane onto Willowgrove Drive from the southbound lanes would be preserved, as would the left-hand turning lanes and onto Whittier Drive and Phelps Road from the northbound lanes. Intermittent, tapered medians would additionally be placed along the alignment. The total width of improvements equals 82.5 feet, plus a 15-foot maintenance easement along a portion of its west side for slope (97.5 feet in total).</p> <p>Upon completion, this segment of Storke Road would have a capacity flow of 1,900 vehicles per hour. It would be inspected, maintained and repaired, as needed, by the City's Public Works Department.</p>		
2017042041	<p>San Anselmo Flood Risk Reduction Project Marin County Fairfax, San Anselmo--Marin</p> <p>The San Anselmo Flood Risk Reduction Project involves implementing various flood risk reduction elements in Fairfax and San Anselmo to achieve a 25-year level of flood protection, located in central eastern Marin County. The project has an overall objective to substantially reduce the frequency and severity of flooding throughout the upper Ross Valley Watershed in an economically viable manner while providing multiple benefits and minimizing environmental impacts.</p>	NOP	05/10/2017
2017041035	<p>Site Plan Review 17-02 & Tentative Parcel Map 12221 Ridgecrest, City of Ridgecrest--Kern</p> <p>The proposed project consists of Tentative Parcel Map 1221 and Site Plan Review 17-02, located on APN 480-010-12 at 899 S. China Lake Blvd. The project proposes to develop the property from 4 acres of undeveloped land into 5 smaller CG parcels for a total of 30,769 s.f. of space on PAM Ridgecrest Venture LLC owned property. The developer plans to make improvements to the land then flip sell the land to a buyer.</p>	Neg	05/10/2017

2017048203	Remote Automated Weather Station Project Forestry and Fire Protection, Department of --San Bernardino The Devore CAL Fire RAWS is currently out of compliance with the National Fire Danger Rating System due to its current location. Therefore, the RAWS needs to be relocated. The Devore RAWS site currently doesn't meet the site selection guidelines due to large buildings and trees being too close to the RAWS, extensive paved areas being closer than 50 ft to the unit, large reflective surfaces being located within 50 ft of the unit, and distinct changes in topography due to the newly constructed freeway overpasses and roadways. The RAWS consists of a triangular base with three legs, 20 ft tall mast for a wind sensor, and a small solar panel. The unit is self-contained and is 12 ft x 12 ft x 12 ft on each side. The project site is located at 18958 West Institution Road, San Bernardino, CA 92427. The project site is comprised of native brush which includes yerba santa, California safe, buckwheat, white sage, and rabbitbrush. Elevation is approx 1800 ft. Minimal soil disturbance will consist of spiking the unit's three legs into the ground. The RAWS will require minimal vegetation removal, resulting in a mosaic like fuelbreak, within a 30 ft radius for fire protection. Removal of the brush will be done using hand tools. The installation of the RAWS will be done by approx two people using hand tools and will take about one day. All vehicles will remain on existing roads.	NOE	
2017048204	Issue Right-of-Entry Permit to US Army Corps of Engineers for Technical Studies Parks and Recreation, Department of --Glenn Issue a right of entry permit to the US Army Corps of Engineers for access to the Irvine Finch River Access in Bidwell-Sacramento River State Park to conduct geotechnical surveys to complete 100% engineered levee drawings for the Hamilton City Flood Damage Reduction and Ecosystem Restoration project. All work conducted in association with the Right of Entry will comply with all State and Federal environmental laws, including but not limited to, the Endangered species act, CEQA, and section 5024 of public resource code. 2017048205	<p>Effluent Pond Liner Replacement Project Corrections and Rehabilitation, Department of --Tuolumne</p> <p>The proposed project will replace the pond liner at two effluent ponds at SCC, including the approx 3.7-acre Pond 7 and approx 3-acre pond 8. The existing liners are 21 years old and changes in the water levels as well as exposure to sunlight have led to their deterioration. The project includes pumping existing water into adjacent ponds, removing debris to prepare clean surfaces for the new liners, and installation of new liners using an anchor trench to secure the liners. Trenching will occur on the berms of the ponds. Existing fencing around the ponds will be removed and replaced in the same location. Gravel access roads will be repaired as necessary.</p> <p>A qualified biologist evaluated the site on March 7, 2017 and concluded that the project will not impact sensitive plants and/or wildlife species. This project is needed to ensure unimpeded operation of wastewater treatment at SCC.</p>	NOE

During irrigation season, the flashboards will be placed in the structure to control flow conveyed between the Bear Creek Siphon and the Siphon under Mariposa Bypass.	NOE	
2017048211	Leclair Water Diversion and Stream Crossings Project (Lake or Streambed Alteration Agreement No. 1600-2016-0545-R1) Fish & Wildlife #1E --Humboldt CDFW has executed lake and streambed alteration agreement no. 1600-2016-0545-R1, pursuant to section 1602 of the fish and game code to Mr. Robert Leclair. The project is limited to five encroachments. Two encroachments are for water diversion from unnamed tributaries to Salmon Creek. Water is diverted for domestic use and irrigation. Work for the water diversion will include use and maintenance of the water diversion infrastructure. The three other proposed encroachments are to upgrade road/stream crossings. A seasonal road shall get a rock for to transport emergent surface water, an existing culvert shall have armor placed at the outlet, and a culvert shall be realigned. Work for these encroachments will include excavation, replacement or realignment of two culverts, backfilling and compaction of fill, and rock armoring as necessary to minimize erosion.	NOE

2017041037	Design Review 17-0534 and Coastal Development Permit 17-0535 to construct a new single-family residence Laguna Beach, City of Laguna Beach--Orange The applicant requests design review and a coastal development permit to construct a 4,469 sf single family residence with an attached two-car carport, 614 sf second residential unit, detached two car garage, and accessory buildings including a pool house, gazebo, clock tower, handball court, cabana, water wheel, vintage cupola caboose, and covered benches. Other site improvements include a pool, spa, water features, outdoor gas fireplaces, fixed barbeque, vehicular and pedestrian access bridge, driveway gate, and four air conditioning units. The proposed elevated decking totals 3,836 sf. A net grading export of 6,662 cy is proposed. The subject property is a 13.2 acre (574,084 sf) building site with street frontage on Cerritos Dr and Morningside Dr. The applicant proposes access from Cerritos.	MND	05/11/2017
2017041038	Skytt Tentative Parcel Map Santa Barbara County Buellton--Santa Barbara A request of Ginger Anderson, agent for the Skytt Family, land owner, for approval of a tentative parcel map on property zoned agriculture. The proposed tentative parcel map is a request to subdivide two existing lots totaling 860.75 acres into four lots ranging in size from approx 203-249 acres.	MND	05/11/2017
2017041039	City of Riverside 2014 - 2021 Housing Element Update EIR Riverside, City of Riverside--Riverside The General Plan Housing Element identifies and analyzes existing and projected housing needs, and articulates the City's official policies for preservation, conservation, improvement, and production of housing within the City. The Housing Implementation Plan describes the housing programs intended to accommodate the City's remaining RHNA of 4,767 DU, including the following key actions: Tool H-21 - Rezoning Program; Tool H-30 - Zoning Code Incentives; and Tool H-51 - Supportive and Transitional Housing. The Project involves General Plan land use amendments/zone changes to as many as 395 acres (303 parcels), which allows for the development of as many as 11,675 DU and as much as 7.4 million sq. ft. of non-residential uses. The residential (approx. 66 DU) and non-residential uses (1.3 million SF) located on candidate sites would be replaced by the proposed residential mixed uses. Overall, the Project implementation is anticipated to result in a net increase of as many as 11,609 DU and as much as 6.1 million SF of non-residential uses over existing conditions.	NOP	05/11/2017
1999102012	Northwest Rocklin Annexation/Sunset Ranchos Rocklin, City of Rocklin--Placer CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0225-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sunset Ranchos Investors, LLC (as represented by Mr. Peter Bridges). Project consists of removing the existing ten culvert pipes from the unpaved section of University Avenue between Whitney Ranch Parkway and Ranch View Drive. The removed culvert pipes will be replaced with three 42-inch diameter culvert pipes with head and end walls. Earth embankments will be placed over the new culverts and the unpaved section of University Avenue will be paved.	NOD

2006121082	<p>This project is part of a larger master planned community project, the Northwest Rocklin Annexation Area Specific Plan (AKA Whitney Ranch), which has been mostly constructed. The Whitney Ranch project has installed on-site mitigation in the form of 1.1 acres of seasonal wetland and 2.28 acres of seasonal marsh habitat within the on-site Preserve, and purchased 0.41 acres of vernal pool creation habitats credits from Wildland's Sheridan Mitigation Bank.</p> <p>06-KER-14 KP 73.9/100.2 (PM 45.9/62.3) Freeman Gulch Four-Lane Project Caltrans #6 Ridgecrest--Kern</p> <p>This proposed project involves converting the existing 2-lane conventional highway into a 4-lane, divided, controlled-access expressway including placing an asphalt concrete overlay, flattening cut slopes, widening fill slopes, overpass intersections and widening paved shoulders to 5-ft inside and 10-ft outside.</p> <p>The Project will result in permanent impacts to 889.8 acres of Mohave ground squirrel (<i>Spermophilus mohavensis</i>) and desert tortoise (<i>Gopherus agassizii</i>) habitat. The project may result in incidental take of Mohave ground squirrel and desert tortoise, both of which are designated as threatened species under the CESA. The ITP Minor Amendment referenced above as issued by CDFW authorizes two changes to the ITP, pertaining to the subdivision of Segment/Phase 1 into Segment/Phase 1a tasks (utility relocation) and Segment/Phase 1b (alignment construction), and one additional option for mitigating the Project-related impacts to the Covered Species.</p>	NOD	
2009112006	<p>Upper Butte Basin Wildlife Area Draft Land Management Plan (LMP) Fish & Game #2 Chico--Butte, Glenn</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0196-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Tim Hermansen, CDFW.</p> <p>Project's purpose is to improve water use efficiency and management capabilities. Specifically, it will provide the water control infrastructure necessary to capture irrigation runoff for agricultural lands and wetlands on Llano Seco Ranch (LSR) for reuse to support seasonally management wetlands and riparian habitat on Llano Seco Unit.</p> <p>Project specifics include: an existing earthen structure will be replaced with a hardened spillway and water control structure. Existing vegetation will be stripped from the proposed spillway footprint. Soil to build the spillway will be borrowed from nearby locations to the northeast and southeast of the spillway. A water control structure will be installed in the spillway to provide improved water management capabilities. This structure will allow management flexibility to reuse agricultural runoff water and allow natural flows downstream during storm events and outside of the irrigation season. Rock rip rap will be placed around the water control structure outfall. Articulated concrete block mats or rock rip rap will be installed on the spillway to provide erosion protection. An overflow section was incorporated into the spillway design to account for flood water overtopping. The spillway will be approx. 140 feet long with a bottom width of 80 feet. The upstream side slope will be approx. 5:1 and the downstream side slope will be approx. 10:1. This construction will disturb approx. 0.08 acres of wetlands/waters. Approx. 500 cubic yards of soil, gravel, rip-rap and concrete block mats will be placed on the structure to prevent scouring and erosion.</p> <p>Two temporary coffer dams will be constructed, one upstream and one downstream of the proposed spillway location. Both temporary coffer dams will be</p>	NOD

2017012056	3100 San Pablo Avenue Outpatient Center Project Berkeley, City of Berkeley--Alameda The project would establish the BayHealth Outpatient Center, a 97,443 sf medical office, including outpatient services and an urgent care component, in the existing building. This would involve changing approx 97,443 sf of space in the existing building from office space that was part of or ancillary to the former light industrial uses to the proposed Outpatient Center use. The medical facility would be located on portions of the first and second floors, plus all of the third and fourth floors. Portions of the building are in three cities: Berkeley, Oakland and Emeryville. An executed memorandum of understanding between the cities of Oakland, Emeryville and Berkeley as the lead city for land use approvals.	EIR	05/30/2017
2017041040	Billboard Ordinance and Freeway Overlay Zone El Monte, City of El Monte--Los Angeles The proposed project is a code amendment to portions of title 16 and title 17 of the El Monte Municipal Code to allow for the installation or relocation of static or digital billboards within the specified freeway overlay zone. The proposed freeway overlay zone will be located along portions of the San Bernardino Freeway. The city of El Monte is currently in negotiations with the Ross Nissan car dealership for the purchase of a parcel of land within the dealership property. The parcel of land would be utilized to operate a digital billboard through an agreement with a sign company. The proposed overlay zone and the amendment to the city municipal code would allow for the installation and operation of this digital billboard.	MND	05/12/2017

2017041041	<p>Planned Developed (PD) Permit for the Myers Residence Case No. PL16-0100 Ventura County Thousand Oaks--Ventura</p> <p>The applicant requests a planned development permit to construct a one-story, single family residence (3,631 sf), a three car garage (861 sf), a one story second dwelling unit (781 sf) with one car carport (294 sf), and a pool and spa (450 sf), on an existing graded building pad. The architectural style of the primary residence and second dwelling unit would represent the California ranch, noted for its low-profile and wide open layout.</p> <p>An existing roughly graded, private dirt access road would be improved to comply with Ventura County Fire Protection District access requirements. A retaining wall would be constructed along the east side of the driveway and would be approx 150 ft in length and vary in height from one foot in the southern and northern portion of the driveway to a max of seven feet at its highest point. Estimated earthwork includes 4,991 cy cut, 4,991 cy fill, construction activities will encroach beneath three protected oak trees. Proposed landscaping includes revegetating disturbed areas and manufactured slopes with native grasses and plants. Water to the proposed project will be provided by the city of Thousand Oaks, and waste water discharge will be handled by a private onsite septic system.</p>	MND	05/12/2017
2017041044	<p>Torrey Pines South GOLF Course (PTS No. 540657) San Diego, City of --San Diego</p> <p>A site development permit for improvements to the Torrey Pines South Golf Course and temporary improvements to the Torrey Pines North Golf Course located at 11480 North Torrey Pines Road within the first public roadway and the following zones: OP-1-1, RS-1-14, Coastal Zone Appealable, and coastal zone deferred certification. Portions of the project are located within the mapped multi-habitat planning area. A MHPA Boundary Line Correction is proposed to correct MHPA mapping inaccuracies occurring over developed portions of the project site.</p> <p>The project will include permanent improvements within the limits of the Torrey Pines South Golf Course, on the bunkers, fairways and tee boxes, and in and around the clubhouse facility, golf course parking lot, and pedestrian walkway areas in order to complete ADA upgrades compliant with state and federal law. A temporary driving range would be placed on the North Course during the 2021 U.S. Open Championship golf tournament and would be removed at the end of the tournament. The project is located within the University Community plan area and council district 1.</p>	MND	05/12/2017
2017042040	<p>McCloud Area PD Zone Change (Z-17-01) Siskiyou County --Siskiyou</p> <p>The project consists of changing the planned development/single family residential zoning district to RES-1 and changing the planned development/rural residential zoning district to R-R. The change will eliminate the development plan adopted when the PD zoning was approved. There is no change in allowable uses or development standards.</p>	MND	05/12/2017

2017042042	Rio Ranch Estates Water System Rio Ranch Estates Community Services District Red Bluff--Tehama The project involves installation of a secondary water source for the CSD that will provide adequate water for the 37 residences within the community. The new water system would then become the primary system allowing the existing deteriorating well to be used as a secondary/backup system only. The well is being installed in compliance with the Waterworks Standards for alternate source or storage title 22, section 64554(a)(2). The construction includes the drilling of a new well with an air rotary percussion drill to advance a 12-3/4" inch steel casing to a depth of 250-ft below ground surface. The proposed pump is a 50 horsepower 3-phase variable speed submersible pump that will produce 650 gallons per minute at 254 feet of total dynamic head. It is proposed to set the pump at 160-ft below ground surface in the well on a 6-in tapered pipe.	MND	05/12/2017
2017041042	Beach Boulevard Specific Plan Anaheim, City of Anaheim--Orange The Proposed Project consists of the adoption and implementation of a specific plan for the Project Area. The Beach Boulevard Specific Plan (BBSP) would guide future development within 283 acres along the Beach Boulevard corridor in the City of Anaheim. The proposed Specific Plan would establish a community-driven vision supported by new development standards, permitted and prohibited uses, design guidelines, sustainable practices, economic development incentives, and capital improvements that improve the quality of life for all future users of the corridor.	NOP	05/12/2017
2017041043	Arrow Highway Specific Plan (Rerelease of NOP with Updated Proejct Description Glendora, City of Glendora--Los Angeles The updated Specific Plan includes the following changes: It is estimated the Specific Plan will support development of over 978,700 (projected) and 430,600 (expected) square feet (SF) of commercial and industrial development rather than the previously stated 1.4 million SF. It is estimated the Specific Plan will support development of 1,412 (projected) and 648 (expected) dwelling units (DU) rather than the previuosly stated 1,611 DU. These projected estimates are based on amended FAR, lot size requirements, and height limits within the proposed Specific Plan zones, which can be viewed in the updated NOP and Initial Study.	NOP	05/12/2017
2017041045	Sixth Street Park, Arts, River & Connectivity Improvements (PARC) Project Los Angeles, City of Los Angeles, City of--Los Angeles The Sixth Street Viaduct Division of the City of Los Angeles (City) Development of Public Works (DPW), Bureau of Engineering (BOE), is proposing the construction of the Sixth Street Park, Arts, River and Connectivity Improvements (PARC) Project. The Sixth Street PARC Project includes the creation of public recreational space on approximately 12 acres in areas underneath and adjacent to the Sixth Street Viaduct (Viaduct) in the City of Los Angeles. The proposed project will span from the Downtown LA Arts District over the Los Angeles River (River) to Boyle Heights. The Project Ares is located in Council District 14 at the boundary of the City of Los Angeles' Central City Nothr and Boyle Heights Community Plan areas.	NOP	05/12/2017

2017044001	Environmental Assessment for Implementation of the Installation Development Plan at Edwards AFB, California U.S. Air Force --Kern, Los Angeles, San Bernardino Notes: Review Per Lead This EA evaluates the potential environmental impacts associated with implementation of the installation development plan at Edwards AFB, CA. The IDP is a planning tool for leadership and decision makers of the 412th Test Wing, Air Force Material Command and USAF in making good development decisions in support of future commitments that will support the mission at Edwards AFB. In order to test, evaluate and develop weapon systems to deliver superior capability to the Nation's combat forces, the installation requires a guide for future installation development decisions. The IDP outlines future requirements that will enhance mission capability for the entire 412 TW.	EA	04/28/2017				
2013032010	Northwest Newman Master Plan Newman, City of Newman--Stanislaus The proposed Northwest Newman Master Plan consists of a mix of residential, business park, community commercial, office, parks, and school uses in a 362-acre area identified in the Newman General Plan as master plan area 3. Job generating and commercial uses would be clustered along SR 33, with residential neighborhoods of varying density to the west. Annexation of the master plan area into the city of Newman would be required.	EIR	05/30/2017

2016052041	Plan Bay Area 2040 RTP/SCS Metropolitan Transportation Commission --San Francisco Plan Bay Area 2040 is the Regional Transportation Plan/Sustainable Communities Strategy for the Bay Area, developed pursuant to federal regulations and state SB 375. The region includes nine counties.	EIR	05/30/2017
2017032019	Kilgore Soccer Fields Project Rancho Cordova, City of Rancho Cordova--Sacramento The project applicant is requesting a major design review for a lighted soccer field complex consisting of four fields: two full-sized fields (225 ft by 336 ft), one junior field (141 ft by 225 ft), and one tot field (90 ft by 141 ft). Both full sized fields would be covered with artificial turf and the two smaller fields would be covered with natural turf. The project would include one prefabricated single story concession/restroom/storage building. In addition, the project would include a fabric-covered seating/picnic area, spectator areas covered with decomposed granite or pavers, player benches, and bleacher seating with a total capacity of 150 people. Retaining walls constructed of tan concrete block, ranging in height from 8 in to 4.5 ft may be required along the southern boundary and eastern edge of the soccer fields.	MND	05/15/2017
2017041046	Canyon View (Case Nos. 5.1384 PD 381; 5.1384 GPA; VTTM 36969, MAJ 3.3902) Palm Springs, City of Palm Springs--Riverside The proposed project will result in the construction of eighty 2-story detached single-family homes on the 14.83+/- acre parcel. Lot sizes will range from 4,004 to 6,571 sf (average 4,169 sf). The architectural style is predominantly modern. The color palette will consist of desert earth tones. The units will have private yards and share common space. Matthew Drive will provide vehicular access to the development.	MND	05/15/2017
2017041048	Orange County Loop Carbon Channel Bikeway Gap Closure Segment D Orange County Brea, Placentia, Yorba Linda--Orange OC Parks planning and design division is proposing to complete a large regional bikeway called the Orange County Loop. The proposed project is one segment of the OC Loop known as Segment D, which is less than one mile in length. Two separate alignments (D-1 and D-2) are being considered. One or both alignments could be implemented. Alignment D-1 is a Class I (off-road) bikeway starting at La Floresta Drive along Imperial Highway and then traveling off-street along the Carbon Creek Channel to intersect the El Cajon Trail at Bastanchury Road. Alignment D-2 is a Class I and Class IV (on street separated) bikeway that would align along Imperial Highway at La Floresta Drive to North Rose Drive and then turn south along the east side of North Rose Drive, where it would intersect the El Cajon Trail, south of Bastanchury Road.	MND	05/15/2017
2017042044	Ag Forest Zoning District Ordinance Update Trinity County --Trinity Replace section 14 of the Trinity County Zoning Ordinance for the Ag-Forest zoning district with new language allowing multiple new uses including non-forest agriculture (including commercial Cannabis cultivation), and, with a use permit, guest housing, labor camps, cell towers, resorts, campgrounds, mining, and	MND	05/15/2017

2017042045	Larkspur Landing Remediation Project, 2000 Larkspur Landing Circle, Larkspur, CA Marin County Sanitary District Larkspur--Marin The former Larkspur Wastewater Treatment Plant was demolished in 1998 and 1999. Crushed concrete from the demolition was mixed with soil and used as engineered backfill onsite. A remediation plan has been developed with oversight by the U.S. Environmental Protection Agency Region 9 which includes excavation of approx 40,000 cy of contaminated soil and fill material within an approx 2-acre area, transportation and offsite disposal of the contaminated materials and backfilling and regrading of the site.	MND	05/15/2017
2017042046	Probation Tank Replacement Project San Lorenzo Valley Water District --Santa Cruz The proposed project consists of replacing the existing 100,000 gallon redwood storage tank with one 527,000 gallon welded steel storage tank, an 8' wide maintenance access path around the tank, two retaining walls, drainage improvements and utility upgrades. The project would have a total disturbance envelope of 18,800 sf (0.43 acre).	MND	05/15/2017
2002041161	Physical Education Project (Phse 1, 2) Subsequent Project EIR Mt. San Antonio Community College Walnut--Los Angeles The PEP Subsequent SEIR will study the impact of PEP (Phase 1, 2) and hosting the 2020 Olympics Track & Field Trials on two intersections located in the City of Pomona. The intersections were not previously included in the 2015 Facilities Master Plan and Physical Education Projects Program/Project EIR certified in Oct. 2016. The SEIR will address any revised impacts or new impacts not addressed in the prior document.	NOP	05/15/2017
2010081067	Supplemental EIR for Orange County MVCD Integrated Vector Management Program Orange County Mosquito Vector Control District --Orange The Invasive Aedes response plan is based on the principles and guidelines in the Center for Disease Control 2016 Zika CDC Interim Response Plan and the CA Dept. of Public Health Guidance for Surveillance of and Response to Invasive Aedes Mosquitoes and Dengue, Chikungunya and Zika in CA. It is based on their pattern of laying eggs at the water lines of small, oft times cryptic containers with small volumes of water and the limited flight range of these Aedes species. Detection of these mosquitoes is usually based on complaints of local residents about aggressive day-biting mosquitoes. Teams of specially trained vector control personnel will inspect the property of complainants for Aedes eggs, larvae, pupae or adult mosquitoes. If Aedes are detected, then adjoining properties within 100 meters will also be examined. Additional evidence of Aedes will expand the area to be examined by an additional 100 meters.	NOP	05/15/2017

2012032003	Land Use and Transportation Element EIR Sunnyvale, City of Sunnyvale--Santa Clara The Land use Component of the LUTE addresses how much and where various categories of land use (e.g., housing, commercial, industrial, etc.) can be placed within the City. Note that the Housing Element(Ch. 5), which was updated in 2015, addresses housing affordability. Transportation policies in the draft LUTE focus on a regional approach to reducing vehicle miles traveled, complete streets, alternative transportation modes, and supporting mixed-use development that allows for car light and car-free living in Sunnyvale. The LUTE accommodates land use and transportation changes in the City of Sunnyvale.	NOD	
2017031016	Live Oak Lanes Buellton, City of Buellton--Santa Barbara A Final Development Plan (16-FDP-03), CUP (16-CUP-01), Sign Ordinance Exemption (16-EXP-01) for a 45,633 sq. ft. family entertainment center, and associated outdoor uses, including three bocce ball courts, an outdoor patio for dining and lounging, and a 750 sq. ft. second story balcony.	NOD	
2017049003	Amendment to the Water Quality Control Plan for the Sacramento and San Joaquin River Basins for the Control of Diazinon and Chlorpyrifos Discharges Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Sacramento, San Joaquin Project is an Amendment to the Water Quality Control Plan for the Sacramento and San Joaquin River Basins that establishes numeric water quality objectives for the pesticides diazinon and chlorpyrifos in all water bodies in the Project Area with aquatic life beneficial uses, and a control program and monitoring requirements that will ensure that the numeric water quality objectives will be achieved. The goal of the project is to reduce diazinon and chlorpyrifos concentrations in Sacramento and San Joaquin Valley water bodies to levels that are protective of aquatic life (WARM and/or COLD) beneficial uses.	NOD	
2017049004	Amending the Water Quality Control Plan for the Central Coast Basin to Revise Beneficial Use Designations and to Make Editorial Changes Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo --Santa Cruz, San Benito, Monterey, San Luis Obispo, ... The RWQCB, Central Coast Region adopted Resolution No. R3-2016-0030 on July 28, 2016, amending the Water Quality Control Plan for the Central Coastal Basin (Basin Plan). The SWRCB approved the amendment under Resolution No. 2016-0058 on Nov. 15, 2016. Resolution R3-2016-0030 revises designated beneficial uses for the following surface waterbodies in the Basin Plan: Newell Creek, Carneros Creek, Old Salinas River Estuary (downstream of Potrero Road), Temladero Slough, Salinas Reclamation Canal, Gabilan Creek, Old Salinas River, Orcutt Creek, Shuman Canyon Creek, Casmalia Canyon Creek, and Arroyo Paredon. In addition, the Basin Plan amendment makes numerous non-substantive editorial changes to Basin Plan language including revisions to maps and figures, correction of historical transcription errors, and correction of regulatory citations and outdated language. These non-substantive changes will not have a regulatory effect. The amendment will improve effectiveness of water quality protection due to increased clarity and accuracy of language in the Basin Plan, updated beneficial use designations, improved terminology consistency, and updated names and	NOD

	the city of LA in preparation for the record levels of precipitation and snowpack in the Eastern Sierra. LA has constructed dust control measures that are likely to be damaged should uncontrolled flows occur and inundate dust control improvements in Owens Lake. In addition, this action would protect habitat for the Owens Tui Chub, an endangered species, that live just below the Long Valley Dam by alleviating the possibility of spillway overflow as a result of the high runoff conditions. Under these agreements, Metropolitan would take delivery of the excess water supply and receive the water at a combination of the Jensen Treatment Plant and an existing LA turn-in to the East Branch of the CA Aqueduct. Water delivered at the East Branch of the CA Aqueduct will be conveyed to Metropolitan using existing State Water Project facilities. Water delivered to the Jensen Treatment plant will be treated and delivered in Metropolitan's distribution system. Metropolitan would return water less losses to LA in the future using existing Metropolitan and LA facilities.		
2017048271	Greenhouses Replacement California State University, Chico Chico--Butte Demolish three existing GHG and install two new ones on a new site not far from the original site. The work will also include extending utilities to the new site.	NOE
