STATE CLEARINGHOUSE

NEWSLETTER

April 16-30, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16-30, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Wednesday, April 16, 2008</u>			
2006062053	Stoneridge Drive Specific Plan Amendment/Staples Ranch DEIR Pleasanton, City of Pleasanton--Alameda Application for a Specific Plan Amendment to the Stoneridge Drive Specific Plan for the Staples Ranch project. Staples Ranch is approximately 124 acres of undeveloped land within the larger 293-acre Stoneridge Drive Specific Plan area. The Alameda County Surplus Property Authority proposes to amend the 1989 Specific Plan to revise planned land use designations, development intensities, and circulation patterns.	EIR	05/30/2008
2008041090	5430 MDH 03-07; Gurvinder Jhaj by Max P. Bacerra and Associates (PP08208) Kern County Bakersfield--Kern Amend the Metropolitan Bakersfield General Plan from R-IA to LI (Light Industrial); change the zoning from A-1 to M-1 PD (Light Industrial - Precise Development Combining); and a Precise Development Plan in order to construct and operate a highway commercial center featuring a 5,454-square foot convenience market with a twelve pump gas station, two buildings totaling 10,612 square feet for retail sales, and a 3,600-square foot fast food restaurant.	MND	05/15/2008
2008041091	5445 MDH 7-07; Arredondo Ventures (PP08218) Kern County Bakersfield--Kern Amend the Western Rosedale Specific Plan from R-1A to RR (Rural Residential); change the zoning from A to E (10) RS (Estate - 10 acre minimum - Residential Suburban Combining); and exclude the property from an Agricultural Preserve in order to subdivide 40 acres into four 10-acre residential lots.	MND	05/15/2008
2008041094	Weskamp Estates Merced County Atwater--Merced The project would involve the development of a small, single-family residential subdivision on an approximately 14.2-acre agricultural property. The subdivision would consist of the construction of 12 single-family residential units and one storm water percolation basin. The 12 residential lots would each be approximately 1 acre while the storm water percolation basin would be approximately 0.32 acre. Each lot will be developed with a private septic system and water well.	MND	05/15/2008
2008042074	Sis-Q Select, LLC. Use Permit (UP-08-04) and Reclamation Plan (RP-08-01) Siskiyou County Planning Department --Siskiyou The applicant is requesting Use Permit and Reclamation Plan approval to establish a new surface mining operation, which would consist of extracting, processing, stockpiling and exporting approximately 23,000 tons of sand and gravel from historic tailing stockpiles. Reclamation of the disturbed surface mining area would include returning waste-rock and overburden from the underground utility construction project to the mining area to re-distribute into the resultant excavations. The disturbed areas would be re-contoured resulting in a level surface to be utilized as open space for future permitted uses.	MND	05/15/2008

2008041092	<p>General Plan Amendment No. 07-002: 2008-2014 Housing Element Update Huntington Beach, City of --Orange</p> <p>The Housing Element is one of the seven State-mandated elements of the City's General Plan and must be updated pursuant to California Government Code Section 65588 for the 2008-2014 planning period. The Housing Element identifies and assesses projected housing needs and provides an inventory of constraints and resources relevant to meeting these needs. Components of the housing element include: a housing needs assessment with population and household characteristics; identification of constraints to providing housing; an inventory of available sites for the provision of housing for all economic segments of the community; and a statement of goals, policies and programs for meeting the City's housing needs. The Element's goals focus on:</p> <ol style="list-style-type: none"> 1) Preserving and improving housing and neighborhoods; 2) Providing adequate housing sites; 3) Assisting in the provision of affordable housing; 4) Removing governmental and other constraints to housing investment; and 5) Promoting fair and equal housing opportunities 	NOP	05/15/2008
2008041097	<p>Tentative Tract 35751, Change of Zone 7589, General Plan Amendment 887, Agricultural Preserve Case 975 Riverside County Planning Department --Riverside</p> <p>The proposed project includes approximately 20 acres of multi-family residential development, totaling approximately 240 residential units, with a proposed recreation center and water quality basin.</p> <ul style="list-style-type: none"> - General Plan Amendment No. 887 proposes to change the project site's existing General Plan Land Use Designation from Community Development: Medium Density Residential (MDR) (2-5 Dwelling Units Per Acre) to Community Development: High Density Residential (CD:HDR) (8-14 Dwelling Units Per Acre) to allow for an increase in dwelling units for the subject site. - Change of Zone No. 7589 proposes to change the project site's existing Zoning Classification from Heavy Agriculture - 1 Acre Minimum (A-2-1) to General Residential (R-3) for consistency zoning purposes. - Tentative Tract Map No. 35751 proposes a schedule 'A' subdivision of 19.88 gross acres into 24 lots consisting of 240 Condominium Units. The proposal includes 22 residential lots ranging from approximately 11,000 sq. ft. to 58,000 sq. ft., a Water Quality Basin, a Recreation Center (including a pool and spa), Open Space, garages and on-street and off-street parking spaces. 2008042075	PA-0700322 San Joaquin County Community Development Department Tracy--San Joaquin A Variance Application to reduce the minimum parcel size from 40-acres in the AG-40 (General Agriculture, 40-acre minimum) zone to 21.61 acres. The proposed underlying project is a Minor Subdivision application to create a 21.61 acre parcel and 126.21 acre parcel. The proposed 21.61-acre parcel is isolated from the remainder parcel by an irrigation ditch owned by the Banta Carbona Irrigation District that has no point at which to cross.	Neg	05/15/2008
2008042078	Glide 14-1 Natural Gas Well Project, Kebo Oil & Gas, Inc. Fish & Game #3 Davis--Yolo The applicant proposes to drill a natural gas well from a site located on public lands within the California Department of Fish and Game Yolo Bypass Wildlife Area located in Yolo County. If economic quantities of as are discovered, the well will be completed, a production platform constructed, and an approximately 2.65 mile pipeline will be installed.	Neg	05/16/2008
2006061080	John W. North Surface Water Treatment Plant Riverside, City of Colton, Grand Terrace--San Bernardino The proposed project consists of a new water treatment plant (WTP) with five submerged membrane cells (total capacity of 10 mgd) and ancillary equipment that includes strainers, permeate pumps, backwash supply pumps, clean-in-place (CIP) make-up tanks and feed pumps, CIP chemical totes and transfer pumps, blower and compressor systems, potassium permanganate feed system, waste washwater holding tank, and sodium hypochlorite storage and feed system. The project impact area, including staging and storage, is approximately 200 feet by 100 feet (less than half an acre). All construction activities will occur within this area and the booster station facility to the south. The facility will be enclosed by a block wall exterior and will incorporate sunshades to shield key pieces of equipment. Security lighting will be installed around the building, but will be shielded from adjacent properties and directed downward toward the building.	NOD	
2006111094	Plot Plan Application PP 06-04; Project Sunfield March Joint Powers Authority --Riverside On January 17, 2007 the March Joint Powers Commission approved the Sunfield Project, which included food processing, office, and refrigerated storehouse uses on 10.3 acres at 21842 Opportunity Way and adopted a Mitigated Negative Declaration and associated Mitigation Monitoring and Reporting Program for the same. A Notice of Determination for those actions was filed and posted on January 17, 2007. Subsequent to those approvals, litigation was brought to challenge the approvals. Pursuant to the Court's determinations, on April 16, 2008 the Joint Powers Commission adopted one further mitigation measure for noise, added monitoring and verification responsibilities for one air quality mitigation measure, and clarified one other mitigation measure addressing cumulative air quality impacts. 2008012100	<p>Rancho Murieta Recreation Area Tree Management Plan Sacramento County --Sacramento</p> <p>This Draft EIR focuses on the issue of tree maintenance in the Rancho Murieta Recreation Area (Recreation Area), a Sacramento County-owned parcel (APN: 073-0180-008-0000). The Recreation Area is located between the Rancho Murieta Airport and the north bank of the Cosumnes River, adjacent to Highway 16 in Rancho Murieta, Sacramento County. This parcel has been operated and maintained by the Department of Regional Parks since 1979.</p> <p>The California Department of Transportation (Caltrans), Division of Aeronautics, is enforcing State Airport operating regulations that rely on Federal Aviation Regulations (FARs) which govern the allowable height of objects near airports. Specifically, the County has been ordered by the Court to comply with Sacramento County Zoning Code Section 301-24 and California Public Utilities Code Section 21659 by removing obstructions to navigable airspace. To comply with this order, the County must address potential obstructions within the Recreation Area that are subject to the surfaces defined by Part 77, Subpart C of the Code of Federal Regulations (FAR Part 77) near the Airport. FAR Part 77 identifies the criteria that are used to define obstructions for airports and their surrounding airspace.</p>	EIR	06/02/2008
2008041100	<p>Southbound Interstate 405 to the Westbound U.S. Highway-101 Connector Improvement Project Caltrans #7 Los Angeles, City of--Los Angeles</p> <p>NOTE: Joint Document comprised of Negative Declaration and Environmental Assessment.</p> <p>The California Department of Transportation (Caltrans) proposes various alternatives to improve the connector from the southbound San Diego Freeway (I-405) to the westbound Ventura Freeway (U.S. Highway-101). A new, upgraded 50 mph two-lane connector would replace the existing 20 mph single-lane connector. The proposed project would require right-of-way from the U.S. Army Corps of Engineers related to the operation of the Sepulveda Dam.</p>	JD	05/28/2008
2008041095	<p>Kruse Minor Residential Subdivision (2 Lots) TPM 21031RPL^1; Log No. 06-09-020 San Diego County Department of Planning and Land Use --San Diego</p> <p>Tentative Parcel Map to subdivide 4.67 acres into two lots for residential development. The project site contains an existing residence, which will remain. The site contains interior live oak chaparral habitat that will be impacted. The project will be served by the Ramona Fire Protection District, Ramona Municipal Water District, and individual on-site septic systems.</p>	MND	05/16/2008

	are required.		
2008041099	Panini Café Newport Beach, City of Newport Beach--Orange The applicant, Collection Investments Corona del Mar, Inc. (Panini Hospitality Group), is proposing the relocation of the Panini Café, which is currently located at 2333 East Coast Highway, to 2421 East Coast Highway in Corona del Mar. The proposed project includes the operation of a full service restaurant, an outdoor dining area, and an off-site parking agreement request. Project implementation will necessitate the following discretionary approvals by the City of Newport Beach: (1) approval of Use Permit 2007-010 to operate 3,820-square foot full-service, high turnover eating and drinking establishment with a net public area of 640 square feet, and to allow alcoholic beverage service of beer and wine with a Type "41" ABC License (On-Sale Beer and Wine Eating Place); (2) approval of Accessory Outdoor Dining Permit 2007-006 to allow the construction and operation of a 160-square foot outdoor dining area in conjunction with the proposed full service restaurant; and (3) approval of Off-Site Parking Agreement 2007-001 to satisfy the off-street parking requirement for the proposed restaurant utilizing the off-site property located at 7 Corporate Plaza.	MND	05/16/2008
2008042077	Noble Gulch Sewer Improvement Project Santa Cruz County Sanitation District Capitola--Santa Cruz The Noble Gulch Sewer Improvement Project is a component of the FY07-08 Sewer Improvements Project for the Santa Cruz County Sanitation District. The Noble Gulch Project involves replacement of approximately 6,600 linear feet of 12-inch sewer pipeline between Capitola Avenue and Soquel Drive in Capitola, CA. Presently, the pipeline is located along the bottom of the gulch in a riparian corridor. The proposed project would realign the sewer pipeline in public streets. The project would replace aging sewer infrastructure, improve efficiency of the sewer network, and relocate a pipeline out of potentially environmentally-sensitive areas.	MND	05/16/2008
2008042081	Z07-0052/PD07-0033/TM07-1461/S08-0005/Forest Lake Village El Dorado County --El Dorado 1. Zone Change from Commercial-Sierra Design (C-DS) to Commercial-Planned Development (C-PD); 2. Planned Development and tentative subdivision map to create two commercial units (5,125 square feet and 9,595 square feet), 16 residential units (750 square feet to 1,000 square feet), and two open space lots (9,148 square feet and 18,296 square feet); and 3. Special Use Permit to authorize the proposed residential units within a Commercial zone district.	MND	05/16/2008
2003121086	Industry Business Center Revised Plan of Development - NFL Stadium Industry, City of Industry, Diamond Bar--Los Angeles The proposed revisions to the IBC Plan of Development would cover approximately 530 acres of the 592-acre IBC site. The modified Plan of Development would include, among other things, a National Football League (NFL) stadium with practice fields, team training facilities, and team offices; a sports medical center; retail uses; restaurants; entertainment uses; other office	NOP	05/16/2008

	buildings; and parking areas to accommodate all uses.		
2008042079	The Mirabella San Francisco Bay/Parkview Plaza Development Project Foster City Foster City--San Mateo The proposed project would develop vacant City-owned property with new Continuing Care Retirement Community (CCRC) and commercial development within multiple buildings and a public open space component. The CCRC, Mirabella San Francisco Bay, consists of 251 independent living apartments, 36 assisted living apartments, 20-bed memory care unit, 24-bed skilled nursing and 65 affordable housing one-bedroom rental apartments. The commercial component, Parkview Plaza, consists of 31,300 square feet of retail/restaurant space. The commercial component also includes the potential for 19,000 square feet of retail/restaurant space in a future development phase, for a total of 50,000 square feet of commercial retail and restaurant space. The proposed project also includes an approximately 1.3 acres of public open space designed to host a variety of public and private events outdoor seating for restaurant patrons, a farmers market, art displays, and entertainment areas. The project site is not included in the Hazardous Waste and Substances Sites (Cortese) List.	NOP	05/16/2008
2008042082	West Lakeside School Natomas Unified School District Sacramento--Sacramento The Natomas Unified School District is proposing to construct and operate a proposed middle/high school (grades 7-12) as a magnet school for biosciences with capacity to accommodate between 650 and 820 students on a traditional calendar. The middle/high school would be located on approximately 15 acre site and would include classrooms, laboratories, a Learning Resource Center, Student Commons, and dayuse athletic facilities.	NOP	05/29/2008
2008041098	PA06-0172 (Plot Plan for Moreno Valley YMCA) Moreno Valley, City of Moreno Valley--Riverside Plot Plan for the Moreno Valley YMCA Complex (approximately 33,975 square feet of total building space) on 4.3 acres. The three phase development includes child care facilities, gym, pool, meeting rooms, and fitness center. The parcel is zoned Open Space (OS).	Neg	05/16/2008
2008041101	National Trails Highway Widening Victorville, City of Victorville--San Bernardino The proposed National Trails Highway Widening would improve a 1.9-mile segment of National Trails Highway, from I-15 Freeway to approximately 670 feet north of Air Expressway in the northeastern portion of the City of Victorville. The two-lane roadway would be widened to four lanes (two lanes in each direction), which would make it consistent with the Major Arterial and Arterial classification for National Trails Highway, as provided in the City's Circulation Master Plan.	Neg	05/19/2008
2008042076	Ruben and Nancy L. Fernandez Vesting Tentative Parcel Map (TPM-07-08) Siskiyou County Mount Shasta--Siskiyou The applicants request Vesting Tentative Parcel Map approval to subdivide an existing 2.0-acre parcel, into two 1.0-acre parcels, situated within the Rural Residential Agricultural, 1-acre minimum parcel size (R-R-B-1) zone district. 2002031028	Studio City Senior Living Center ENV-2001-1196-EIR Los Angeles, City of Los Angeles, City of--Los Angeles The applicant proposes to subdivide the subject property into two lots, Parcels A and B. Parcel A will be approximately 508,244 square feet (11.67 acres) and will retain, with minor alterations to accommodate the lot split, the existing nine-hole golf course, driving range, and 22 surface parking spaces. The 1.1 acre site at the northwesterly corner of Whitsett Avenue and Valleyheart Drive, developed with a fire station, is not a part of the subject project. Parcel B will be approximately 193,466 square feet (4.44 acres) and will be developed with an approximately 336,000 square-foot, 200-unit senior residential condominium campus. The development will be comprised of five rectangular and one polygonal-shaped, four-story buildings, reaching a maximum height of 45 feet. Each building will consist of between 30 and 40 residential units. Five of the buildings will be situated such that their longer faces orient northerly and southerly; the sixth building will be situated with its longer faces oriented easterly, along Whitsett Avenue, and westerly. Interior common areas will be provided on the entire ground floor of two buildings, providing approximately 40,000 square feet of common use area. The buildings will surround, and be separated by, a combination of approximately 109,176 square feet of landscape and hardscape.	NOP	05/19/2008
2008041110	North Newhall Specific Plan Stage I: Lyons Avenue At-grade Crossing Santa Clarita, City of Santa Clarita--Los Angeles This project includes a request by the City of Santa Clarita to submit an application to the California Public Utilities Commission (CPUC) for an at-grade crossing. The purpose of the project is to seek approval of an application to the CPUC for an at-grade crossing at the eastern terminus of Lyons Avenue at the railroad tracks. The location of the at-grade crossing is central to the development of the North Newhall Specific Plan and the implementation of the City of Santa Clarita General Plan Circulation Element. <u>Documents Received on Monday, April 21, 2008</u>			
	average daily trips (ADTs) and 256 in-bound AM peak hour/778 out-bound peak hour trips. The maximum height for residential, hotel, and office uses would be limited to 325 to 390 feet about grade. The project proposes 7,163 parking spaces, in a mixture of structured and surface parking. Additional project features would include a relocated and expanded bus transit center and reservation of right-of-way for the proposed transit center and planned extension of a light rail transit line, and certification under the LEED Green Building Rating System.		
2008021117	Murrieta Area Sewer Improvement Eastern Municipal Water District Murrieta--Riverside The proposed project is approximately one mile of sewer line improvements along an unnamed drainage channel, upland areas, and roads located in the City of Murrieta approximately one mile north of the intersection of I-15 and I-215. The improvements will begin south of Hancock Avenue between Milkwood Lane and Via Espana and continue southwesterly about 4,500 lineal feet along the creek channel and adjacent upland areas crossing beneath Franklin and Lincoln Avenues to Los Alamos Road. The pipeline will continue westerly in Los Alamos Road approximately 300 lineal feet to Shoshonee Drive. The pipeline will then proceed southerly in the extension of Shoshonee Drive about 1,000 lineal feet to a connection within an existing EMWD sewer line.	FIN	
2008041118	El Carro Well Replacement and Central Zone Pipeline Improvements Project Carpinteria Valley Water District Carpinteria--Santa Barbara CVWD proposes to replace the non-functional El Carro Well at the existing well site located in El Carro Park and install one new pipe segment and three replacement pipe segments. Pipe segments would mostly be in existing road rights-of-way. Two segments would be in public parks (El Carro Park and Franklin Creek Park). Two concrete channelized creeks would be crossed by pipe segments (Franklin and Santa Monica Creeks).	MND	05/20/2008
2008042087	Carter Tentative Parcel Map 07-0002 Butte County Paradise--Butte Tentative Parcel Map to divide a 12.2-acre parcel into 2 residential lots of 5.6 and 6.6 acres. Both lots will be serviced by individual septic systems and wells.	MND	05/20/2008
2008042088	GPA 08-01; Proposed Zoning Ordinance Amendments to Establish an SD - Downtown Suñol District; and Zoning Unit ZU 2260 Alameda County --Alameda The project consists of creating a new General Plan designation, "Suñol Downtown" and a new zoning district, SD - Suñol Downtown, and applying them to the project area. The proposed plan language would recognize the existing small town nature of the community, which has existed for and developed over more than one hundred years. The proposed zoning would allow a total of ten additional units on two parcels in the project area, plus limited additional commercial development.	MND	05/20/2008

<u>Documents Received on Monday, April 21, 2008</u>			
2008042089	Turlock Transfer Station Master Plan Update - Site Plan Amendment Turlock, City of Turlock--Stanislaus The project consists of an existing transfer facility and the addition of a 40,000 square foot building in place of the current 20,000 transfer station building and ramp operations, and a proposed 20,000 square foot building. No change in the current capacity of the facility (1,872 tons per day), amount of traffic, hours of operation, or permitted area is requested.	MND	05/20/2008
2008042090	Tentative Subdivision Map Application S-4-05, Rezoning Application RZ-3-07, Planned Development Plan Application PD-8-07, The Reserve at Gold Hills, Units 2 and Redding, City of Redding--Shasta Subdivision of 32.6 acres into 115 lots for development of single-family residential homes. Unit 2 is a planned development of up to 51 lots and will be associated with, and developed subsequent to, the earlier-approved Unit 1 of The Reserve at Gold Hills Planned Development. Unit 3 is proposed as a standard single-family subdivision with up to 64 lots. Both units will have separated sidewalks, decorative pavement, and corner bulbouts at street intersections. There are 6.9 acres that will be permanently preserved in open space. The project includes construction of on-site streets and utility and storm-drainage improvements necessary to serve the lots. Two road crossings of Dry Gulch Creek are proposed to provide the required two public-street accesses to the subdivision. The portion of the property being developed as a planned development (Unit 2) is proposed for rezoning from "RM-6" Residential Multiple Family District to "RM-6-PD" Residential Multiple Family District with Planned Development Overlay District.	MND	05/20/2008
2008042092	Hoag House Relocation Santa Rosa, City of Santa Rosa--Sonoma The proposed project would salvage, relocate, and reconstruct the historic Hoag House, which is a locally designated landmark (#12) currently stored near Annadel State Park. The building's new location would be in the southwest corner of the City of Santa Rosa's Prince Gateway Park which is currently under construction on the 0.42 acre parcel at the northwest corner of Santa Rosa Avenue and Sonoma Avenue. The Hoag house would orient toward Santa Rosa Avenue and the proposed project includes a 230 square foot addition onto the north elevation to accommodate public restrooms.	MND	05/20/2008
2008042094	Powerscreen Facility American Canyon, City of American Canyon--Napa Development of a Rental and Sales Facility for large construction equipment on a 2.4 acre site north of Green Island Road in the City of American Canyon, CA. Request for approval of a Design Permit and Conditional Use Permit and Conditional Use Permit for 13,794 square foot building with office and shop/equipment facility, and yard area in the Light Industrial district on the west side of State Route 29. Maintenance of the equipment will be an accessory use.	MND	05/20/2008

2008042095	Use Permit No. UP-08; 1-2 for John Hertzig Amador County --Amador Request for Use Permit No. UP-08; 1-2, to allow for outdoor storage of Boats and RV's in conjunction with a mini-storage operation in the Pioneer area of Amador County. On the northwest corner of the intersection at Buckhorn Ridge Road and Highway 88 in the Pioneer area of Amador County.	MND	05/20/2008
2008042096	Crescent City Harbor - Use Permit for an RV Park Del Norte County Planning Department Crescent City--Del Norte RV Parks are an allowed use subject to the securement of a Conditional Use Permit from the Planning Commission. The District has indicated that the proposed park will be located upon the site of a previous RV Park. The park will be developed with an Office/Club House and Restroom facility. The RV units within the park will be park model RV's. The Harbor has indicated that the units will be both privately owned and owned by the District. The park will be managed by the District. The units will be periodically occupied by the owners and will also be available as short-term vacation rentals for the general public. The approval of this Use Permit application will enable the District to apply for development permits from the California Coastal Commission and California HCD. Development will utilize the pre-existing utility connections located on the project site.	MND	05/20/2008
2008042097	New California Properties Office Building San Ramon, City of San Ramon--Contra Costa Construction of a 3,964 square foot, two-story office building on an undeveloped 16,988 square foot lot.	MND	05/20/2008
2008042098	Pier 9 Layover Ferry Berth Facility San Francisco Bay Area Water Transit Authority San Francisco--San Francisco Construction of Layover Berths for two WETA ferry boats alongside the northern apron of Pier 9.	MND	05/21/2008
1992033035	Modification to Conditional Use Permit for Reggae Rising Humboldt County --Humboldt The proposed Modification will allow one additional one day event on Sunday, August 31, 2008 with a maximum attendance level of 5,000 total persons, including attendees, staff, volunteers and performers. The modification will also allow a one day event on the last weekend of August in each subsequent year to the year 2015.	NOP	05/20/2008
2008041117	SunCal Residential Project at 10000 Santa Monica Bouevard Los Angeles, City of Los Angeles, City of, Beverly Hills--Los Angeles SunCal Century City, LLC proposes the development of residential condominiums, a private club, and neighborhood-serving amenities at 10000 Santa Monica Boulevard within the Century City community of the City of Los Angeles. The residential component would include a 45-story state-of-the-art building, with 177 residential condominiums and associated amenities. Additionally, approximately 1,000 square feet of community-serving retail or cafe building, with 177 residential condominiums and associated amenities. Additionally, approximately 3,000 square feet of landscaped public open space would be provided for the community	NOP	05/20/2008

	at the corner of Santa Monica Boulevard and Moreno Drive.		
2008042091	Station District Mixed-Use Development Union City Union City--Alameda The proposed project would allow for the construction of up to 1,200 units of housing (with an average of 135 units per acre where 80 units per acre are currently allowed) and a range of building types from high-rise to mid-rise measuring from 4 floors up to 24 floors in height. It is anticipated that the residential development would include four strategically located towers. In addition, the proposed project would provide approximately 70,000 square feet of retail and commercial uses.	NOP	05/20/2008
2008041114	James Minor Use Permit ED07-197 DRC2007-00085 San Luis Obispo County --San Luis Obispo Request by Mike James for a Minor Use Permit to allow the conversion of an existing 2,400-square foot barn into a 1,600-square foot winery and barrel storage and 800-square foot tasting area. The applicant requests two special events per year, with a maximum of 100 persons per event. The project will result in the disturbance of approximately 33,000 square feet on two parcels totaling 80 acres.	Neg	05/20/2008
2008041115	Modern Conditional Use Permit ED06-182 / DRC2005-00180 San Luis Obispo County Paso Robles--San Luis Obispo Request by Modern Development Co. for a Conditional Use Permit to expand special events program at their existing winery from 6 temporary events per year with no more than 80 attendees at each event to 12 events at 100 attendees, 12 events to 150 attendees and 3 events at 200 attendees. The request also includes to add an additional 9,280 square foot building to the existing winery to accommodate additional barrel and case good storage and office uses. The added storage and office space will help support the winery's business endeavors as it simultaneously expands for the proposed events program. No production increases have been requested.	Neg	05/20/2008
2008041116	Project/Tract Map No. 065885 Los Angeles County --Los Angeles The tentative tract map no. 065885 is for the proposal to develop a six unit condominium project in the R-3 (Limited Multiple Residence) zone, under the Countywide General Plan category three for medium density residential (12-22 units per acre). The proposed structure is to be two stories over semi-subterranean parking. The site is located on the north side of Montrose Avenue, between Rosemont Avenue and Briggs Avenue. Access to the site shall be directly from Montrose Avenue. Fourteen parking spaces will be provided (2 per unit + 2 guest parking spaces). Grading is proposed for 4,181 cubic yards of cut and 298 cubic yards of fill, with 3,883 cubic yards to be exported off site. Although there are no oak trees on the site, an emergency oak tree permit was issued by the Los Angeles County Fire Department's Forestry Division for the removal of an oak tree on the neighboring property abutting the site to the west. The oak tree was encroaching upon the subject site and was responsible for damage to existing structures, stairs, and sidewalks. Plot Plan No. 49201 was approved for the development of an apartment complex on the site. This tentative tract map is for the proposed approval of a condominium conversion. The	Neg	05/20/2008

	apartment complex is currently under construction.		
2008042086	Construct Terminal A Modifications (Expansion) Sacramento County Sacramento--Sacramento The project consists of constructing a 24,300 square foot, two-story addition to the existing Terminal A, in the area southeast of Terminal A.	Neg	05/20/2008
2008042093	Valero Gas Station DR07-0009 El Dorado County --El Dorado The project includes a Design Review request for the construction of a 6-pump fueling station to include the following uses: - 2,673 square foot convenience store; - 2,505 square foot fast food restaurant with a drive-up window; and - 3,400 square foot fueling station canopy. A 30 foot tall, 50 square foot tenant directory sign and an 18 foot tall, 50 foot fuel price monument sign are proposed as well as one wall sign on the proposed convenience store building and one wall sign on the fueling station canopy. The proposed signs are consistent with the Zoning Ordinance. A Design Waiver has been requested to construct a six foot wide sidewalk in lieu of the eight foot wide sidewalk along Cameo Drive and Knollwood Drive, required under Standard Plan 101B.	Neg	05/20/2008
1997102039	Elloway Subdivision Marin County Novato--Marin The project is a proposal to divide the subject 7.8-acre property into six lots. Access to the existing residence would continue to be from the existing driveway on Indian Valley Road. Access to the other five lots would be from a new 480-foot cul-de-sac private street extending east from Wilson Avenue. The project does not include any proposals to construct residences on the 5 new lots proposed, however, the environmental review will include potential build out and projected impacts from the construction of 5 new residences and septic systems.	NOD	
2001062042	Tahoe City Marina Master Plan Placer County Planning Department --Placer Expansion of the existing marina to add 81 new boat slips, a new public access pier, and a new boat launching facility. The project involves dredging approximately 1,388 cubic yards of sediment in several dredged areas and discharge of 30,189 square feet of fill associated with the placement of 286 pilings (188 square feet), rock crib wall (3,240 square feet), rock for fish habitat in the areas around the 404 foot-long sheet pile wall and lakeward of the existing marina (25,745 square feet), and sheetpile wall (1,016 square feet). 2008011068	Blythe Animal Shelter Riverside County Blythe--Riverside The County of Riverside Department of Facilities Management Riverside has proposed the development of the Blythe Animal Shelter facility within the City of Blythe. The County proposes to purchase one parcel of land consisting of 2.22 acres located at the northwest corner of I-10 and South Carlton Avenue for the proposed project site. The animal shelter would be a modular facility designed and constructed off-site and then assembled on the project site. The facility would include approximately 4,500 square feet of building space, animal outdoor exercise facilities, and associated parking. The proposed project would provide shelter and care for abandoned animals in the Palo Verde Valley region, and would include dog and cat kennels, outdoor animal runs, public adoption areas, and visitor parking.	NOD	
2008021117	Murrieta Area Sewer Improvement Eastern Municipal Water District Murrieta--Riverside Eastern Municipal Water District (EMWD) proposes to install approximately one mile of new gravity sewer along an unnamed drainage, upland area, and roads located in the City of Murrieta approximately one mile north of the intersection of Interstate 15 and 215. The improvements will begin south of Hancock Avenue between Milkwood Lane and Via Espana and continue southwesterly about 4,500 lineal feet along the creek channel and adjacent upland areas crossing beneath Franklin and Lincoln Avenues to Loa Alamos Road. The pipeline will continue westerly in Los Alamos Road approximately 300 feet to Shoshonee Drive. The pipeline will then proceed southerly in the extension of Shoshonee Drive about 1,000 lineal feet to a connection within an existing EMWD sewer line. Upon completion, the proposed relief sewer will provide reliable service to four Murrieta Development Areas.	NOD	
2008031055	Modernization of Centennial High School Corona-Norco Unified School District Corona--Riverside Modernization of Centennial High School, which will include construction of new kitchen/multi-purpose building, new two-story permanent building, auxiliary gym, shade structure at the pool, security fencing, and landscape enhancement at the school frontage; demolition and construction of performing arts center; demolition of utility yard and construction of new parking lot; renovation of administration offices into career center and student center into student union; upgrade of electrical system to support new construction; relocation of 27 relocatable buildings as interim housing; and removal of relocatable buildings and interim housing. 	Avenue, Rouse Road, and Ethanac Road, relocation of 15 electrical poles, and a storm drain system from McLaughlin Road to Ethanac Road. Concrete curb, gutters and sidewalks will be constructed from McCall Boulevard to McLaughlin Road, while concrete curb and gutters will be constructed from McLaughlin Road to Ethanac Road.		
2008041120	Vision Development Tentative Tract 18593 Yucaipa, City of Yucaipa--San Bernardino The proposed project includes the subdivision of the 78 acre parcel into 58 lots (1 gross acre minimum lot size) and ~20.5 acres of natural open space, and a General Plan Amendment to remove the Agricultural Preserve suffix from the RL Land Use Designation, as a result of the expiration of a Williamson Act contract in December 2006.	MND	05/21/2008
2008042101	Sutter Basin Conservation Bank Sutter County Community Services District Yuba City--Sutter Westervelt Ecological Services (WES) is a private firm that obtains, restores, and operates private mitigation and conservation banks. WES has obtained property in Sutter County with the intention of creating a conservation bank for the giant garter snake (GGS), a species listed as threatened under both the federal Endangered Species Act (ESA). If permitted, WES would improve the site to optimize habitat for GGS and would sell credits to public and private entities needing to offset impacts of their projects on GGS.	MND	05/21/2008
2008042102	Arch Road Industrial Project Stockton, City of Stockton--San Joaquin The applicant, First Industrial Realty Trust, proposes to develop a 63-acre site adjacent to Arch Road in San Joaquin County. The proposed project site lies within the City of Stockton's Urban Services Boundary and Sphere of Influence, contiguous to the city boundary.	MND	05/21/2008
2008042099	Wildlife Hazard Reduction and Resource Mangement Plan East Bay Regional Parks District Pinole, Richmond, Berkeley, Oakland, Orinda, Alameda, ...--Alameda, Contra Costa EBRPD is developing a long-range Wildlife Hazard Reduction and Resource Management Plan to guide ongoing vegetation management activities on EBRPD park lands along the urban-wildland interface to reduce the likelihood of a catastrophic, wind-driven wildlife, such as the 1991 Oakland Hills fire. EBRPD has determined that there are areas of high hazard fuels within the parks that have significant potential to produce or conduct a devastating wildlife, and action is needed to reduce the risk of a fast-moving wildland fire emerging from or moving through the parklands and igniting residential neighborhoods and other structures and facilities adjacent to the parks. Similarly, the potential for fires starting on and moving from adjacent non-park lands and propagating through these high hazard fuels to cause unacceptable damage to EBRPD facilities and resource is great and warrants mitigation. Resource management considerations and best management practices (BMPs) to avoid or minimize environmental impacts will be incorporated into the Plan to ensure that fuel reduction treatment activities are carried out in a manner consistent with protecting environmental resources in the public parklands. While the study area for the Plan includes the 13 hillside parks	NOP	05/21/2008

	<p>(Sobrante Ridge Regional Preserve; Kennedy Grove Regional Recreational Area; Wildcat Canyon Regional Park; Tilden Regional Park; Claremont Canyon; Temescal Regional Recreational Area; Robert Sibley Volcanic Regional Preserve; Huckleberry Botanic Regional Preserve; Roberts Regional Recreational Area; Redwood Regional Park; Leona Canyon Regional Open space and Preserve; Anthony Chabot Regional Park; and Lake Chabot Regional Park) and seven shoreline parks (Point Pinole Regional Shoreline; Miller/Knox Regional Shoreline; Brooks Island Regional Shoreline; East Shore State Park; Middle Harbor Shoreline Park; Robert W. Crown Memorial State Beach; and Martin Luther King Jr. Regional Shoreline), the main focus of the Plan will be on the wildland-urban interface along the western edge of the East Bay hill parks and the shoreline parks of Point Pinole and Miller/Knox, where high wildfire hazards and fuel loads are present.</p> <p>This Plan is a long-range programmatic document, and as such, site-specific conditions for the approximately 120 potential treatment areas totaling almost 3,000 acres can not be fully evaluated and identified within the framework of the Plan. However, the Plan will include a discussion of the environmental and resource values to be considered when identifying and implementing future fuel reduction management projects. These resource management considerations may not apply in all cases, but act as a general set of factors to evaluate for each treatment area based on the site-specific objectives and site conditions that will be identified prior to preparing a site-specific fuel reduction action plan. The Plan also will identify a process for ongoing feedback and incorporation of lessons learned from completed projects to enable EBRPD to adaptively manage their fuel reduction projects over time. By incorporating a feedback loop, the District will be able to create and implement increasingly successful and cost-effective projects as new information is learned about the effectiveness and long-term success of treatment techniques.</p>		
2008042100	<p>California State University, East Bay Hayward Campus Master Plan California State University, Hayward Hayward--Alameda</p> <p>The CSUEB Hayward Campus Master Plan outlines planned campus redevelopment designed to support the academic and enrollment goals established through strategic planning efforts conducted in 2006 and 2007. The Master Plan proposes 1.1 million square feet of building area to support projected growth of existing academic programs based on a horizon year of 2025 and would be implemented gradually over the next 17 years. The Hayward Campus Master Plan is intended to allow the campus to accommodate a student population of 18,000 full-time equivalent students.</p>	NOP	05/21/2008

	dropsin series is proposed to stabilize both gullies. Nineteen rock drops on the western gully and eight rock drops on the eastern gully will be installed at varying intervals reducing the slope of the vegetated grassed waterway in between the rock drops to 2%. The channel will be re-graded to a vegetated grassed waterway with compacted fill, armored with erosion control blanket and planted with a native grass erosion control seed mix.		
2008048339	Davis Mobile Equipment Facility - Improvements Project Forestry and Fire Protection, Department of Davis--Yolo The work proposed consists of series of minor projects at the David Mobile Equipment Facility. These activities are necessary to maintain the ongoing operational needs of the CAL FIRE facility and include demolition, repair and improvements to various infrastructure elements as funding becomes available.	NOE	
2008048340	Bear Creek FFS - Emergency Generator Building Forestry and Fire Protection, Department of Visalia--Tulare This project involves the installation of an emergency generator building at a newly-constructed CAL FIRE Forest Fire Station. The new building will measure approximately 12 feet by 16 feet, and will be constructed within the existing compound. This facility occupies five (5) acres of state-owned land containing several existing buildings and support facilities. The area where the building will be erected currently consists of a mixture of a gravel pad, native soil and turf grasses.	NOE	
2008048341	Lease of S. Lake Tahoe Office Space Rehabilitation, Department of --El Dorado Lease approximately 1440 square feet of existing office space. The space would house approximately 3 staff. Approximately 6 parking spaces would be used. Approximately 5 to 30 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to obtain training, and job skills so they can re-enter the job market.	NOE	
2008048342	Geyser 2007 Geothermal Exploratory Project Conservation, Department of --Sonoma Drill 3 exploratory geothermal wells on existing drill pads in the Geysers.	NOE	
2008048343	Approval by the Big Bear Area Regional Wastewater Agency of feasibility and planning studines related to a possible hydroelectric generation facility Big Bear Area Regional Wastewater Agency Big Bear Lake--San Bernardino The Big Bear Area Regional Wastewater Agency (BBARWA) Governing Board has directed staff to further study and evaluate the outfall line to determine suitability for a possible future hydroelectric facility. The study and evaluation will include in-line camera recording, electrical resistance measurements, ultra-sonic testing, and static pressure testing of the outfall line. The evaluation will also include minor ground disturbance to uncoverthe outfall line as needed.	NOE

2000031058	Salvation Army Divisional Camp and Retreat - P70-379w2; Log No. 98-14-023 San Diego County, Department of Planning and Land Use Ramona--San Diego A Major Use Permit Modification to the existing Salvation Army Camp. The project consists of phased expansion including: tent camping, camping, and conferencing. Several ancillary uses are proposed and include: office, dining, swimming pools, play fields, maintenance facilities, educational facilities, staff housing, and parking.	EIR	06/11/2008
2005101054	Fourth Educational Center Clovis Unified School District Fresno--Fresno The project consists of the acquisition of 160.64 gross acres and the development and operation of an educational center on the site. The educational center will include a high school (2,900 student capacity), intermediate school (1,400 student capacity), elementary school (700 student capacity), and related athletic/recreational facilities. The project will also include an 8,000-seat football stadium. The buildings to be included on the site will include classrooms, administrative offices, food service facilities, library/media facilities, gymnasiums, locker/shower facilities, shop buildings, and a maintenance area.	EIR	06/09/2008
2005061143	Riverview Office Project Del Mar, City of Del Mar--San Diego The proposed project consists of the construction of two, irregularly-shaped, multi-level commercial office buildings (each building consisting of one- and two-story levels) totaling approximately 23,120 square feet, with associated parking, landscaping, access, and utilities, built on a commercially zoned lot. The office buildings would be no taller than 26 feet at their highest point, and would be painted in earth-tones to blend into the surrounding natural habitat. The buildings would constitute 16 percent of the total area of the project site. Construction of the project would last approximately one year, and would not require a separate staging area or road closures.	FIN	
2008021012	The Colony Lake Elsinore, City of Lake Elsinore--Riverside The project proposes a Tentative Tract Map for 19.46 acres of vacant land within the East Lake Specific Plan (ELSP), consisting of approximately 12.2 acres of residential development and 7.2 acres of open space/flood storage. The 12.2 acres of residential would be developed with 211 age-restricted (age 55 and up) senior condominiums. The 211 dwelling units will range from 992 to 1,527 square feet per dwelling unit. The development will contain a recreational component, which will include such uses as a residential park, a putting green, and a community pool.	FIN

	denitrification.		
2008041146	Santa Fe Reservoir Spreading Grounds Siphon Los Angeles County Irwindale--Los Angeles The Santa Fe Spreading Grounds consist of multiple spreading basins. A siphon conveys water from Basin 2 to Basin 4 across Basin 3. The siphon impedes flow from the channel. The siphon will be reconstructed at a lower elevation (approximately 3 1/2 feet) to enable flow and eliminate standing water conditions upstream of the siphon. A permanent concrete ramp 14 feet wide will be constructed from the levee between Basin 3 and Basin 4 to access the siphon.	MND	05/27/2008
2008042109	Airgas Project - 50 Chemical Way, Redwood City, CA Redwood City Redwood City--San Mateo The proposal includes the construction of a 2,912-square-foot addition to an existing 3,211-square-foot single-story building, the storage of various medical and industrial gases both inside the expanded building and in storage tanks located outside the building, the outdoor storage of appurtenant gas storage structures including evaporators and tank scales, and the addition of new landscaping and signage. Three vertical gas storage tanks, ranging from 20 to 34 feet in height, are proposed along the west side of the building and one horizontal gas storage tank with a height of 9 feet is proposed on the south side of the building.	MND	05/27/2008
2008042111	Infineon Legacy Raceway Tire Removal Project, Sonoma County, California California Integrated Waste Management Board Sonoma--Sonoma The California Integrated Waste Management Board has directed Infineon Raceway to remove ten tire piles on property commonly known as Lakeville Property in southern Sonoma County. The Legacy Tire Program was codified by the State Legislature when it amended Title 14 of California Code of Regulations to require property owners to remove (abandoned) tires from all properties in California (for sites containing 500 or more tires) regardless of any prior reason for the tires being on the property. The State Legislature designated the Integrated Waste Management Board as the implementing agency for the Legacy Tire Project. The tire piles are ordered for removal due to the potential threat to health and human safety as potential hazardous waste release if burned and as potential mosquito breeding habitat.	MND	05/27/2008
2007071155	University Hills Specific Plan EIR - Revised San Bernardino, City of San Bernardino--San Bernardino The project proposes 980 residential units on 169.3 acres within a site that encompasses 404.3 acres. Housing densities range from 3.1 up to 20 units per acre with a gross density of 2.4 units per acre and a net density of 5.8 units per acre. This document will be a Subsequent EIR to the Paradise Hills Specific Plan EIR (SCH# 1991012055). Compared to the previously approved project, the University Hills project proposes to concentrate units mainly below or south of the San Andreas Fault which traverses the site, and eliminates units in upper Badger Canyon. The project has 8.1 acres of developed parkland/trails and 235 acres of natural open space.	NOP	05/27/2008

2008042112	<p>Amendment to the Sonoma Countywide Integrated Waste Management Plan Sonoma County --Sonoma</p> <p>The Sonoma County Waste Management Agency (SCWMA) is proposing an Amendment to the Sonoma Countywide Integrated Waste Management Plan (CoIWMP). The proposed project includes amendments to the CoIWMP Household Hazards Waste Element (HHWE) and the Siting Element. Revisions to the Siting Element would reflect that all landfilling of solid waste at the County's Central Disposal Site has been suspended and that no waste is currently disposed of or proposed to be disposed of within Sonoma County. The revisions to the siting element also include the option of divestiture of the County Disposal System to a private owner. Strategies for disposal include truck and/or train hauling the refuse to out-of-County disposal sites. The HHWE would be modified to allow for additional household hazardous waste collection facilities to be established in Sonoma County.</p>	NOP	05/27/2008

2006091036	Las Colinas Detention Facility San Diego County Santee--San Diego Project proposes the replacement of the existing Las Colinas Detention Facility with a new 1,216 bed facility to accommodate the projected increase in the female inmate population. The facility will also include administration facilities, a visitation center, security administration, program and employment facilities, medical and food services, and facility services. The facility will be located on 45 acres and is designed to implement the Sheriff's behavioral management philosophy that supports the reentry and integration of released inmates into productive society and reduce the odds that they will return to detention.	EIR	06/11/2008
2007051141	Lakeview Promenade Santa Maria, City of Santa Maria--Santa Barbara The proposed project is a mixed-use commercial, residential, office and entertainment project on a site totaling 9.4 acres. The project development is delineated as follows: 266 condominiums; approximately 40,000 sf of retail space; approximately 14,000 sf for restaurant use; approximately 14,000 sf for use as a spa/fitness/physical health care facility; and a 250-seat movie theater.	EIR	06/11/2008
2007062021	Lower Arsenal Mixed Use Specific Plan Program Benicia, City of Benicia, Vallejo--Solano NOTE: Recirculation of Select Topical Sections of Draft EIR. The proposed project includes implementation of a Specific Plan for the Lower Arsenal site, which is designated for mixed use in the Benicia General Plan. The Specific Plan covers four distinct zones, each of which exhibits a unique physical character. The Specific Plan would implement a form based code to shape future development on the project site, with primary emphasis on the physical form and character of the new development. After build-out of the Specific Plan, the area would contain approximately 741,865 square feet of mixed uses, 22 residential units, and 6.39 acres of open space. The Specific Plan area currently contains approximately 525,000 square feet of mixed uses. The Draft Specific Plan is available for public review on the City's website (http://www.ci.benicia.ca.us/downtown-arsenalimprovements.php) or at the City's Community Development Department.	EIR	06/11/2008
2007062074	Landmark Tower Mixed-Use Development Milpitas, City of Milpitas--Santa Clara The approximately three-acre project site is located at 600 Barber Lane (formerly Billings Chevrolet). The proposed project is the redevelopment of the site with an 18-story mixed-use building with an attached 8-level parking garage. The mixed-use building and parking garage is proposed to be approximately 277 and 115 feet in height, respectively. The mixed use building includes 148,805 gross square feet of retail (floors 1-3), 48,960 gross square feet of office (floor 4), and 375 residential condominium units (floors 5-18). The proposed project includes amendments to the City of Milpitas General Plan and Zoning Map.	EIR	06/11/2008

2007092004	Cullinan Ranch Restoration Project Fish & Game #3 Vallejo--Solano, Napa NOTE: The Joint Document is comprised of a Draft EIR and a Draft EIS. The purpose of the project is to restore tidal influence to the Cullinan Ranch area to contribute to the increased provision of suitable habitat to support special status species such as the salt marsh harvest mouse and the California clapper rail in the larger San Francisco Bay ecosystem.	JD	06/12/2008
2008041149	Manning Avenue (Crawford-Hill) IS 5953 Fresno County Reedley, Orange Cove--Fresno The proposed project would reconstruct a 2-mile stretch of Manning Avenue from Crawford Avenue to Hill Avenue, east of the City of Reedley in Fresno County. Manning Avenue within these limits is an undivided 2-lane roadway with existing 12-foot travel lanes and 4 to 8-foot wide native soil shoulder on either side. Manning Avenue between these limits does not meet current standards and is showing signs of distress such as alligator, block, longitudinal, and transverse cracking. The proposed project consists of reconstructing the existing roadway to a standard width of two 12-foot travel lanes with a 4-foot wide paved shoulder and a 4-foot wide treated aggregate base shoulder added to each side to reduce the amount of particulate matter generated by traffic. The project will retain its existing alignment, on section line, and approximate grade. Work may also include replacing the existing box culvert at Smith Mountain Ditch, including the installation of approach railings and the realignment of existing access roads.	MND	05/27/2008
2008041150	Mixed-Use Commercial/Residential Laguna Beach, City of Laguna Beach--Orange The applicant proposes to develop a mixed-use project that includes: (1) a partially below grade 11,382 square-foot parking garage, (2) 1,043 square feet of storage/mechanical equipment areas, (3) 6,700 square feet of retail/office space on the second floor at the North Coast Highway ground level, (4) two residential units comprising 5,961 square feet on the third floor, and (5) 5,518 square feet of deck area on an unimproved 18,334 square-foot building site. The project application includes Tentative Tract Map 17103 to subdivide the proposed structure into five condominium units for individual sale (three commercial units and two residential units), Conditional Use Permit 06-33 to establish and operate a mixed-use in the C-N Commercial Neighborhood Zone, Variance 7395 to allow the proposed building to exceed two stories in the C-N Zone, Coastal Development Permit 06-46, and Planning Commission Design Review 06-09.	MND	05/27/2008
2008041152	Wolcott Grading Permit San Luis Obispo County --San Luis Obispo A request by Paul S. Wolcott and Caryla Wolcott for a grading permit to grade for a driveway and residential single family dwelling (2,112 sf), which will result in the disturbance of ~0.6 acres (26,136 sf), including ~2,173 cubic yards of cut and 2,997 cubic yards of fill, on a 16.7 acre parcel. 2008041154	Well 4615-1 Coachella Valley Water District Rancho Mirage--Riverside The Well 4615-1 project site includes a 0.50-acre site for the proposed well and pumping plant. The site is surrounded by an existing six-foot masonry wall and located within the Versailles residential development. Project construction includes drilling, casing, testing, and developing a 2,000-gallon-per-minute (gpm) domestic water well including the installation of a 300-horsepower motor, 2,000 gpm pump, and other aboveground and underground appurtenances to connect the well and pumping plant to the domestic water distribution system. The purpose of the Well 4615-1 project is to provide additional domestic water service and fire flow to the Mission Hills Pressure Zone which includes the Rancho Mirage area.	MND	05/27/2008
2008041155	Barba Grading Permit / PMT2007-01389 San Luis Obispo County --San Luis Obispo Request by Mr. and Mrs. Roy Barba for a grading permit to grade for a single-family residence with an attached garage, water tank and driveway, which will result in the disturbance of ~37,000 sf (0.85 acres), including ~1200 cubic yards of cut and 1200 cubic yards of fill, on a 20 acre parcel.	MND	05/27/2008
2008042115	Clock Tower Building (PA 07-087) San Mateo, City of --San Mateo The project consists of the construction of a three-story commercial building on a former gas station site. The proposed building will have ~33,258 sf of gross floor area and a Floor Area Ratio (FAR) of 2.75. The project includes retail at the ground floor with office at the second and third floors. The office floors will be accessible from Third Avenue and will have multiple points of egress. Green areas located at the perimeter of the building's third floor (also considered the roof for the second floor) will provide stormwater filtration. The project also proposes street level improvements in the form of planter boxes, new street trees and removal of the curb cuts on Third Avenue and El Camino Real.	MND	05/27/2008
2008042117	Iris Lane Project, Tentative Map 07PLN25 Grass Valley, City of Grass Valley--Nevada Tentative Map Application (07PLN-25) to subdivide a 114,998 square foot parcel into eleven residential lots. The size of the eleven lots range from 9,652 to 11,742 square feet. Each lot would be developed with a detached single family residential units with either an attached or detached one-car garage. A private road extends through the property providing access to eight of the residential units, a short driveway provides access to two residential units, and one residential unit is fronting on Carol Drive. The project includes two guest parking spaces along Iris Lane. The project includes roadway improvements and additional right-of-way dedication along the entire length of Carol Drive.	MND	05/27/2008
2008042120	North Rodeo Gulch Stream Bank Repair 08-0099 Santa Cruz County Live Oak--Santa Cruz Winter stormwater flows within Rodeo Gulch Creek (2005 to 2006) eroded the toe of the roadway embankment causing the slope embankment and associated roadway to fall into the stream channel (FEMA DR-CA 1628). 	the road embankment and associated roadway back to pre-disaster configuration, the following activities need to be completed: construct a new retaining wall, place Rock Slope Protection (RSP) at the toe of the slope, revegetate restored roadway embankment, place new asphalt pavement, and install a new steel guard rail.		
2008042121	Swanton Road Roadside Stream Bank Repair - 08-0134 Santa Cruz County --Santa Cruz The proposed project includes the repair of the outside corner of Swanton Road, which incurred damages to the slope during the storms of 2006.	MND	05/27/2008
2008031095	Museum of Tolerance Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project is the expansion of the Museum of Tolerance. The proposed project would also incorporate the adjacent building for exhibit and conference room space. The proposed project is seeking a change in the existing Museum operating hours, which are from 10:00 AM to 5:00 PM currently, to 7:00 AM to 12:00 AM, which would allow for additional educational programs and events.	NOP	05/27/2008
2008042113	State Route 99 Eight Mile Road Interchange Improvements, EA 10-0L130 Caltrans #6 Stockton--San Joaquin The California Department of Transportation, in cooperation with the City of Stockton and San Joaquin Council Governments, is evaluating the effects of major improvements to the State Route 99/Eight Mile Road interchange. The Project is located in the City of Stockton and San Joaquin County. The Project would include the reconfiguration of the interchange, realigning the frontage roads at the interchange, and the replacement of existing bridges over Bear creek. As part of this interchange improvement Project, traffic operations would also be enhanced through implementation of new or modified traffic signal systems and intelligent transportation systems. The alternatives identified for this Project include the No Build alternative and two build alternatives.	NOP	05/27/2008
2008042116	Bayside Marketplace Retail (PLN2008-00117) Fremont, City of Fremont--Alameda Development of a 523,000 square foot shopping center.	NOP	05/27/2008
2007041046	Saddle Road Group Subdivision Monterey County Planning & Building Inspection Monterey--Monterey The project application is for a minor subdivision of a 20.4 acre parcel into four 5.1 acre lots (Lots A, B, C, and D). One single family dwelling currently exists on Lot C. Access to Lots A, B, and C will be provided off of Saddle Road. Access to Lot D will be provided via Ned Lane. The subdivision would allow for the future construction of one single family dwelling on each of the remaining three lots. Each residence will include individual septic systems designed in accordance with the specifications and recommendations of the soils percolation report. The development's water supply would be provided from three onsite wells that will be connected in accordance with Environmental Health Department requirements.	Neg	05/27/2008

2008041148	General Plan Update - Land Use and Circulation Elements Solvang, City of Solvang--Santa Barbara The City of Solvang is proposing the update of the Land Use and Circulation Elements of the General Plan. No changes to land use or zoning designations are proposed as part of the update.	Neg	05/27/2008
2008041151	Dos Palmas Wetland Creation Project Coachella Valley Water District --Riverside The Coachella Canal Lining Project (CCLP) was established to minimize water loss due to ground seepage in the approximate 30-mile, earthen section of the canal between siphons 7 and 31 in Riverside and Imperial counties. Construction activities related to the CCLP began in October 2004 and were completed in April 2007. As part of the mitigation required to offsite environmental effects associated with the CCLP, the project is to replace wetlands and springs that were lost during project construction. The BLM and other federal, state, and local agencies have identified the Dos Palmas Area of Critical Environmental Concern (ACEC) as the site for the creation of a 17-acre marsh, the Wetland Project. The ACEC encompasses both public and private lands and includes important habitat for the federally-listed Desert Pupfish, Yuma Clapper Rail, other plant and wildlife species, and cultural resources. The Wetland Project consists of the creation of 17 acres of emergent marsh and aquatic plant communities located on land owned by the BLM. This project would be constructed on land adjacent to existing emergent marsh habitat. The creation of the marsh would provide habitat for sensitive bird species such as the federally-listed Yuma Clapper Rail and the state-listed California Black Rail which have been documented in wetlands within the project area. The marsh would also provide habitat for a variety of songbirds, invertebrates, and small mammals. The 17-acre marsh would be constructed between Aqua Farms and Rancho Dos Palmas in an area with a shallow gradient mostly devoid of vegetation. This location has a reliable source of water at the north end, highpoint, of the site. The ground slopes gently to the south which lends itself well to creation of a series of shallow pools. Pools would form behind created berms and would range from saturated soil to a 4-inch water depth and would drain into the existing Core Marsh and Salt Creek.	Neg	05/27/2008
2008041153	Arciero Grading Permit San Luis Obispo County Paso Robles--San Luis Obispo Request by Arciero Wine Group, LLC / Paso Robles VinREIT for a grading permit to grade for an array of single-access tracker solar panels, which will result in the disturbance of approximately 2.6 acres, including approximately 12,970 cubic yards of cut and 1,660 cubic yards of fill, on a 25.71-acre parcel. Eleven thousand three hundred and ten (11,310) cubic yards of excess fill material would be applied on adjacent parcels owned by the applicant including: (1) an approximately two acre area surrounding existing agricultural ponds within an 80.73-acre parcel, and (2) a 5.34-acre agricultural field within a 25-acre parcel. 2004092096	2001-110, Zoning Amendment & Addendum to EIR Calaveras County --Calaveras NOTE: Final Addendum to EIR 2001-110 Zoning Amendment, Revised Conditional Use Permit and Addendum to the Environmental Impact Report (EIR) for Calaveras Asbestos Monofill, Inc. (CAM) to analyze multiple requests relating to an existing, permitted Reclamation Plan/landfill located in southwestern Calaveras County. The requests retain substantially similar operations as they exist today, and include (1) local land use regulation designation changes, (2) permit modifications to clarify types and methods of waste handling and disposal, and (3) administrative record corrections. The project concerns technical topics, vetted with other public agencies and concerned citizens for which the California Integrated Waste Management Agency (CIWA) provided considerable input. Though not required under CEQA, the EIR Addendum is being circulated to the public to enable input from concerned citizens. The EIR Addendum identifies no new environmental impacts.	ADM	05/29/2008
2007072106	Computational Research and Theory Facility University of California, Regents of the Berkeley--Alameda Lawrence Berkeley National Laboratory (LBNL) proposes to construct and operate the CRT Facility Project that would be located in the western portion of LBNL in Berkeley, Alameda County, California. The proposed project includes an approximately 140,000-gross-square-foot building and associated infrastructure. The proposed facility would provide new advanced computational equipment and office space to support LBNL and UC Berkeley's research and academic programs and the needs of computer scientists, mathematics, computer scientists, and theoreticians who are currently engaged in high performance computing and high performance production computing and computational research.	FIN	
2007072107	Helios Energy Research Facility University of California, Regents of the Berkeley--Alameda LBNL is proposing to construct a new 160,000 gross square foot, 4-story research facility that would house research programs focused on alternatives and renewable energy sources: the Helios research program and the Energy Biosciences Institute (EBI) research program. The Helios research program is a collaborative effort between LBNL and UC Berkeley that would conduct research to utilize sunlight to generate efficient energy sources. The EBI is a grant-funded program through British Petroleum (BP) that would conduct research with BP partners, LBNL, UC Berkeley, and the University of Illinois, Urbana-Champaign (UIUC) and would focus research primarily on renewable biofuels for transportation and conversion of heavy hydrocarbons to clean fuels. 2007082085	Jellys Ferry Road Bridge Replacement Project Tehama County Public Works --Tehama The bridge is 58 years old and is classified as functionally obsolete. The bridge has consequently been slated for replacement under the Highway Bridge Program (HBP) and Local Seismic Safety Retrofit Program (LSSRP). New right-of-way would be required from the Bureau of Land Management (BLM) in order to construct the proposed project. Bridge foundations would be located west (upstream) of the existing bridge and would consist of steel "H" piles or cast-in-drilled-holes (CIDH) concrete piles. These footings would support the construction of a new two-lane undivided bridge spanning approximately 1,000 to 1,200 feet. The bridge would include 24-foot lanes and 4-foot shoulders.	FIN	
2001101158	State Route 118/Los Angeles Avenue Road Widening (Moorpark Avenue to Spring Street) Caltrans #7 Moorpark--Ventura NOTE: Joint Document consists of Mitigated Negative Declaration and Environmental Assessment. NOTE: Lead agency changed from City of Moorpark on 4/29/2008. The California Department of Transportation (Caltrans) along with the City of Moorpark proposes to widen State Route 118 (SR-118) along Los Angeles Avenue between Moorpark Avenue and Spring Road, from 4 to 6 lanes. The City is in the east-central portion of Ventura County and west of Simi where SR-118 and SR-23 converge and overlaps with unincorporated areas in Ventura County. The widening would improve safety on SR-118 along Los Angeles Avenue.	JD	06/12/2008
2008041164	Ballantyne Single-Family Dwelling, Accessory Structures and Waterline Santa Barbara County Goleta--Santa Barbara Construct 11,535 square foot residence and 1,798 square foot attached garage; 800 square foot guest house and 568 square foot attached garage; 1,200 square foot barn; 660-foot long berm; and accessory structures, including a driveway and two 5,000 gallon water tanks, and utilities, including extension of a municipal waterline (Goleta Water District) to the subject parcel.	MND	05/28/2008
2008041165	Rincon Palms Hotel and Restaurant Project Goleta, City of Goleta--Santa Barbara The application includes a Development Plan for a 59,600 square foot, 112-room hotel with a free-standing restaurant of approximately 6,000 square feet proposed on a vacant parcel located at the northeast corner of Storke Road and Hollister Avenue. The project site occupies an area of 3.05 acres (6800 Block Cortona Drive) adjacent to an existing business center at 6868 Cortona Drive to the north. The project includes a conjunctive parking and shared access agreement with the neighboring property for the purpose of accommodating peak demand on weekends and holidays. The project also includes a General Plan Amendment to change Land Use Element Table 2-3, and an Ordinance Amendment to create a Hotel Overlay designation for the parcel and a rezone of the property to institute a base zoning of Professional Institutional, consistent with the current Office and Institutional land use designation in the General Plan. The property is presently zoned M-RP (Industrial Research Park).	MND	05/28/2008

2008042123	England Parcel Map Subdivision Humboldt County --Humboldt A parcel map subdivision of a 2.33 acre parcel into two parcels of 1.29 acres and 1.04 acres. The parcel is currently vacant. Triple R Ranch road bisects the property and its centerline is the proposed new parcel line. The parcels will be served by community water by the Willow Creek Community Services District and on site sewage disposal systems.	MND	05/28/2008
2008042124	Dublin Elementary School Portable Addition Project Dublin Unified School District Dublin--Alameda Locate 10 portable classroom buildings and one restroom building on Dublin Elementary School campus.	MND	05/28/2008
2002111067	County of San Diego General Plan Update San Diego County Department of Planning and Land Use --San Diego The proposed project is a comprehensive update of the San Diego County General Plan. The updated General Plan will direct population growth balanced with infrastructure needs, development, and resource protection. More specifically, the proposed project will focus population capacity in the western portions of the County and reduce the potential for growth in the eastern areas.	NOP	05/28/2008
2008041158	Linden & Casitas Pass Interchanges Caltrans #5 --Santa Barbara Reconstruct the Casitas Pass Road and Linden Avenue interchanges, replace Carpinteria Creek Bridges, and extend Via Real between Bailard Avenue and Linden Avenue.	NOP	05/28/2008
2008041159	Camarillo Groundwater Treatment Facility Camarillo, City of Camarillo--Ventura The City is considering the construction and operation of a Groundwater Treatment Facility in the vicinity of Wells A and B to remove TDS, chloride, iron, and manganese from groundwater produced by these and future well(s), and reduce reliance on imported water. A maximum of 3 acres would be needed for the Groundwater Treatment Facility and brackish groundwater well(s). All treatment facilities and controls would be housed in a single stucco-coated masonry building (about 200 feet by 70 feet), with gabled roof covered with clay tiles. The emergency generator would be housed in a separate enclosure. A small flow equalization basin (about 1,600 square feet) would be provided immediately adjacent to the structure. Brackish groundwater wells and associated facilities would be located adjacent to the treatment components.	NOP	05/28/2008
2008041160	Crossroads Plaza Commercial Center (Site Plan Review #07-2211) Bakersfield, City of Bakersfield--Kern The proposed Crossroads Plaza Commercial Center (Site Plan Review #07-2211) is located in the southern portion of the City of Bakersfield. The proposed project consists of approximately 77 acres containing approximately 786,370 square feet (net building area) of retail commercial, on the west side of Gosford Road, between Panama Lane and Harris Road. The project proposes to develop the	NOP	05/28/2008

	shops and additional parking.		
2007121169	Merged Fullerton Redevelopment Project Area, Amendment No. 1 Fullerton Redevelopment Agency Fullerton--Orange The project will adopt and implement an amendment to a redevelopment plan in the City of Fullerton. The Amendment Area consists of ~1,165 acres and is the focus of this environmental assessment. The Fullerton Redevelopment Agency has proposed the project for the purpose of alleviating blight and promoting reinvestmnet in the Amendment Area. Although no development or construction is proposed at this time, implementation of the project is expected to facilitate infrastructure improvement and rehabilitation activities consistent with the adopted City of Fullerton General Plan.	EIR	06/13/2008
2006112145	Belmont View Belmont, City of Belmont--San Mateo NOTE: Document is a Subsequent Mitigated Negative Declaration. The proposed project would entail development of a four-story structure on the vacant lot. Development plans include a sub-grade parking level, a ground floor containing commercial space, and second through fourth floors providing nine residential units. The project would provide 14 on-site parking spaces in the basement of the structure.	MND	05/29/2008
2007022016	Sanborn Trails Master Plan Santa Clara County Saratoga--Santa Clara The project doubles the existing length of the trails system. Forty named trails are proposed, with three regional trails connecting this park with others in the area. The existing trail system will be incorporated, and staging areas at key points will be upgraded and expanded.	MND	05/29/2008
2008041168	Yucca Valley Community Day School San Bernardino County, Superintendent of Schools Yucca Valley--San Bernardino The San Bernardino County Superintendent of Schools proposes the development of a new community day school to provide alternative educational placements for expelled and other at-risk youth in grades 7-12. The day school is planned for a maximum daily enrollment of 270 students, however, would initially open with a reduced capacity of 108 students. The school is intended to serve local students and would not generally enroll students from outside of the high-desert community. The new school is scheduled to begin operation in Sept. of 2009.	MND	05/29/2008
2008041173	P07-1073 - Tract Map 32180 Riverside, City of Riverside--Riverside Proposal by CSL Engineering, Inc., on behalf of Roberts Family Limited Partnership, for Tentative Tract 32180 to subdivide ~10.04 acres on two vacant parcels into nine lots/parcels to facilitate single family residential uses, situated north of Moss Road at Pear Street.	MND	05/29/2008

2008042127	Capital Improvement Program Project 8176 - Milpitas Senior Center Milpitas, City of Milpitas--Santa Clara The project proposes to convert the existing Milpitas Library building into the Milpitas Senior Center after the construction of the new Milpitas Library building is completed. The project involves building renovation and remodeling to accommodate the new use, as well as to comply with ADA and current building code standards. In addition to renovating the existing Library building, the project would also expand the 18,500 square foot building to 22,000 square feet to accommodate future space needs associated with the City's predicted increase in senior citizens. The project also proposes several site plan improvements (increased access to outside site features, connections between the Community Center and the new Senior Center, improved circulation, enhanced building access and presentation, and new landscaping).	MND	05/29/2008
2008041170	Health Science Graduate Student Housing University of California, San Diego La Jolla--San Diego The project proposes to build an approximately 200,000 gross square foot (GSF), 450-bed Health Sciences Graduate Student Housing project on an approximately 4.5 acre developed site. The proposed housing would be built in both low- and high-rise buildings. In addition to housing units, associated non-residential spaces within the project program would include administrative/management office; vending, laundry and mail services; meeting rooms; custodial/maintenance space; and an internal "grove" open space area.	NOP	05/29/2008
2008041171	Salinas Ag - Industrial Business Park Salinas, City of Salinas--Monterey The proposed project is an agricultural industrial park requiring several entitlements and approvals.	NOP	05/29/2008
2008041172	Empire Homes Development Project Santa Ana, City of Santa Ana--Orange The project involves the development of 24 new single family residences on 4.8 acres ranging in size from 2,200 to 2,760 square feet and 2 Association lettered lots. The project would require a vesting tentative tract map to subdivide the property and a variance for front and rear set backs for lot 21 and a front set back for lot 22. The project would also widen and improve the southern portion of East Santa Clara Avenue along the project frontage and proposes a roadway connection from Lyon Street south of the project site, north to East Santa Clara Avenue.	NOP	05/29/2008
2008032090	Siskiyou Enterprise Zone Siskiyou County Planning Department --Siskiyou The County of Siskiyou and partnering cities in the county are applying to the California Department of Housing and Community Development for redesignation and expansion of the local enterprise zone to provide economic development incentives (through the California Enterprise Zone program) and support retention and expansion of existing businesses and to help attract new businesses. The establishment of the new enterprise zone will not entitle any new projects or include any land development proposals.	Neg	05/29/2008

2008041167	RENV T200600117 / TR061971 Escondido Canyon Road at Jones Canyon Road, Acton Los Angeles County --Los Angeles The proposed project is a request for a Tentative Parcel Map to subdivide 14.5 acres into 2 lots, eliminating underlying Tract Map 46205-01. The property is vacant and no structures are proposed at this time; therefore the project will not use domestic water, require sewer disposal service or disposal systems. Equestrian Way and Yearling Drive easements will be eliminated. A grading study indicated that a total of 20,000 cubic yards of dirt will be required to grade and balance on site if the project site is developed in the future.	Neg	05/29/2008
2008041169	Santa Ana State Enterprise Zone Santa Ana, City of Santa Ana--Orange The proposed project consists of the City's designation of a 15-year State Enterprise Zone designation. The proposed State Enterprise Zone is designed to attract new businesses, create new jobs, and retain existing businesses and jobs in the City. The proposed project would allow businesses located within the zone to take advantage of state tax incentives and City benefits. The proposed Santa Ana SEZ is contained entirely within City limits and encompasses ~16.32 sq. mi. The SEZ, in and of itself, would not result in any specific construction projects, land acquisition projects, or other development projects. The Santa Ana SEZ would have a horizon year of 2023, extending 15 years from the June 7, 2008, expiration date of the existing enterprise zone.	Neg	05/29/2008
2008042128	Jacques Gulch Restoration Project Santa Clara Valley Water District San Jose--Santa Clara The Jacques Gulch Restoration Project would remove mercury-laden sediments (calcine) from an approximately 650-foot section of Jacques Gulch and an approximately 1,400-foot section of an unnamed tributary to Jacques Gulch near the intersection of Alamos Road and Hicks Road in unincorporated Santa Clara County. The project would also replace the undersized culvert passing beneath Alamos Road that conveys water from Jacques Gulch to Almaden Reservoir. Mercury-laden sediments removed will be consolidated at the Mine Hill consolidation site within Almaden Quicksilver County Park.	Neg	05/29/2008
2003052102	Lucchesi Parcel Map Subdivision, Special Permit Humboldt County --Humboldt The project proposes the installation of an approximately 90-foot bridge over Jacoby Creek, Humboldt County.	NOD	
2005062111	Proposed Lower Yuba River Accord Yuba County Water Agency Marysville--Yuba Lower Yuba River Fisheries Agreement, Yuba Accord Water Purchase Agreement, Conjunctive Use Agreements, Modification of 1966 Power Purchase Contract between YCWA and PG&E.	NOD

2006092057	Geotechnical Investigations for the I-80 Across the Top Bus/ Carpool Lanes Project Caltrans #3 Sacramento--Sacramento This project will construct new Bus/Carpool lanes on a portion of Interstate 80.	NOD	
2007041126	California Avenue Widening University of California, Irvine Irvine--Orange The California Department of Fish and Game is issuing an Agreement Regarding Proposed Stream or Lake Alteration (SAA #1600-2007-0209-R5) to the project applicant, (Mr. Richard Demerjian) of University of California, Irvine. The Operator proposes to alter the streambed and banks through the development of 36.8 acres of land site located within UCI's Health Sciences Complex and the widening of the existing California Avenue from two traffic lanes to four. Earth material excavated from the road widening (42,000 cubic yards) will be used to create a pad for the proposed health sciences development. Placement of the earth material will involve filling portions of a jurisdictional drainage (Drainage 1). Two existing storm drain outlets which are located in the southern half of Drainage 1 and provided hydrology to the drainage will be extended under the fill area to maintain flows. The second jurisdictional (Drainage 2) will not be impacted by the proposed development. The project contains two unnamed jurisdictional drainages which are tributary to San Diego Creek. Drainage 1 originates in the southern half of the property flowing north to the property boundary along Academy Way. Drainage 2 flows east to west along Academy Way. Hydrology to the drainages is supplied by storm flows and nuisance flows from existing development. The operator will mitigate 0.17 acre of permanent impacts to native riparian vegetation at compensation to impact ratio of 3:1, for a total mitigation obligation of 0.51 acre; and shall consist of on-site creation, restoration and enhancement of the riparian habitat consisting of willow woodland, mule fat scrub.	NOD	
2007042014	Road Rehabilitation Caltrans #3 Clearlake--Lake This project will construct roadway improvements on a portion of State Route 53.	NOD	
2008011128	Tijuana Estuary Sediment Fate and Transport Study Parks and Recreation, Department of Imperial Beach, San Diego--San Diego The project consists of the implementation of a Sediment Fate and Transport Study within Border Field State Park at the Tijuana River National Estuarine Research Reserve. The project would utilize sorted sediment from the Goat Canyon sediment basin and deposit it in designated areas along the beach south of the Tijuana River mouth. While the study would be conducted near important wetland habitat areas, no work would occur within these areas.	NOD	
2008022023	Newman Historic Plaza Newman, City of Newman--Stanislaus The Downtown Plaza Project involves the reuse, reconfiguration, and expansion of an existing city parking lot and two adjacent lots (one vacant and one containing a small auto service station) into a public plaza.	NOD
