# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16-30, 2009**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Thursday, April 16, 2009</u></b>			
2004111083	Ventucopa GPS RiverRock Mine - Pit Relocation Plan Santa Barbara County --Santa Barbara The proposed project involves the continuation of processing operations and excavation of a replacement pit for an existing aggregate mine the GPS Ventucopa Rock Plant (GPS Mine), located about three miles north of the community of Ventucopa adjacent to Highway 33 in northeastern Santa Barbara County. The GPS Mine occupies 80 acres located about 1,000 ft north of the recently approved but not yet existing Diamond Rock Mine in the Cuyama River. The mine operator, GPS RiverRock Products, has filed an application to shift the location for the in-channel mine pit to a 20 acre area located west of the existing pit. The additional area will extend the life of the mine and provide area to mine year round when there is little to no flow in the Cuyama River.	<b>EIR</b>	06/01/2009
2007081014	South Santa Clarita Sphere of Influence Amendment 09-001, Annexation 09-001 and Prezone 09-001 Santa Clarita, City of Santa Clarita--Los Angeles NOTE: Extended Review  PZ 09-001 proposes designating vacant land RE(0-.5 du/ac) and the mobile home park RM (0-11 du/ac); SOIA 09-001; Annexation 09-001 would result in annexation into the City of Santa Clarita.	<b>EIR</b>	06/10/2009
2008071058	Villas de Carmelo Monterey County Carmel-by-the-Sea--Monterey NOTE: Review Per Lead  Combined Development Permit to include a Local Coastal Plan Amendment to change land use designation from Medium Density Residential to High Density Residential and a rezoning from MDR/2 to HDR12.5 in the coastal zone; a Coastal Development Permit and standard subdivision to convert a 10,350 sf convalescent hospital into nine condominium units and create 37 additional condominium units; common space will include underground parking, recreation room, storage and gym; a Coastal Administrative permit to demolish one existing structure and construct 12 buildings for a total of 46 condominium units; a Coastal Development Permit to allow development on slopes of 30% or greater; a Coastal Development Permit to allow the removal of 97 trees (21 Coast Live oak and 76 Monterey pines); and Design Approval.	<b>EIR</b>	06/05/2009
2008082011	2009 Comprehensive Transportation Plan Update Sonoma County Transportation Authority --Sonoma The SCTA is updating its 2004 Comprehensive Transportation Plan, a long-range transportation blueprint that articulates how Sonoma County's transportation infrastructure (e.g. streets, highways, transit systems and bicycle/pedestrian pathways) will be maintained and improved over the next 25 years.  The SCTA has set the following goals for the 2009 CTP update: 1. Reduce Greenhouse Gas emissions,	<b>EIR</b>	06/01/2009

	<ul style="list-style-type: none"> <li>2. Maintain the existing transportation system,</li> <li>3. Relieve congestion,</li> <li>4. Reduce Emissions</li> <li>5. Plan for Safety &amp; Health</li> </ul>		
	<p>Upon adoption, the CTP would be forwarded to the Metropolitan Transportation Commission (MTC) for inclusion in the federally-mandated Regional Transportation Plan that allocated projected transportation funds for the nine-county Bay Area region. This ensures that the SCTA's projects, priorities, and other initiatives are reflected in the regional plan. The CTP is financially constrained around projected transportation revenues that are reasonably expected to be available over the 25 year planning period. However, the CTP also includes a set of illustrative transportation projects that would have benefits if additional revenue is secured in the future.</p>		
2008091107	<p>sbX E-Street Corridor BRT Project Omnitrans San Bernardino, Loma Linda--San Bernardino</p> <p>The proposed project will provide high quality limited stop service (10 minute headways (weekday service)) at up to 16 station stops, using modern articulated buses. Service is proposed to be initiated by 2011. Stations will be "rapid bus" style stations designed for fast boarding. Over five (5) miles of exclusive lanes are anticipated. Transit Signal Priority (TSP) will also be included. Four park-and-ride facilities are also proposed and would be located in conjunction with the station locations. The project will operate within existing city streets, in the cities of San Bernardino (north of Interstate I-10) and Loma Linda (south of I-10).</p>	<b>JD</b>	05/15/2009
2009041081	<p>York Drive Major Subdivision (5 lots); Tentative Map; TM 5443; ER 05-08-019 San Diego County Vista--San Diego</p> <p>The project is a major subdivision, comprised of 5 lots. The site contains one existing single family dwelling unit, which will be retained. An existing onsite garage will be demolished. Four single family dwelling units will be built on each of the other lots. Access would be provided by private road connecting to York Drive. The project would be served by sewer and imported water from the Vista Irrigation District. Grading comprised of cut and fill of 3300 cubic yards of material.</p>	<b>MND</b>	05/15/2009
2009041082	<p>Conditional Use Permit 08-15 and Minor Exception 09-02 Palmdale, City of Palmdale--Los Angeles</p> <p>Conditional Use Permit 08-15 is a proposal to develop a continuum care facility consisting of assisted living, senior living, memory care, and skilled nursing on 10.73 acres to be developed in three phases. The continuum care facility will provide 256 beds total including 172 beds in the assisted and senior living, 60 beds in the skilled nursing facility, and 24 beds in the memory care section. Minor Exception 09-02 is applicable to a portion of the project's frontage for landscape reduction not to exceed 30% of the total frontage pursuant to Section 23.03(B)(10) of the Zoning Ordinance.</p>	<b>MND</b>	05/15/2009

2009041086	Adams Avenue Indoor Sports Complex El Centro, City of El Centro--Imperial NOTE: Extended Review  The proposed project includes the replacement of an aquatic recreational facility with a multi-purpose indoor field complex. The plans include demolition of two existing swimming pools, bathroom/shower facilities, shaded bleachers, and a large facade facing North 8th Street. The indoor sports complex will include a multi-sport field court and bleachers all enclosed within a 200 ft by 110 ft structural membrane (22,000 sf). The project also includes construction of a one-story structure that will be the main entrance for the existing gymnasium and the new sports complex. Proposed parking will consist of 118 off-street parking stalls for the project. Parking will be located abutting perpendicular to the north side of Park Avenue, along the south side (existing) of the gymnasium and east of the existing gym.	<b>MND</b>	05/22/2009
2009042078	Auburn Tunnel Outlet Modification Project Placer County Water Agency --Placer PCWA is proposing to initiate the Auburn Tunnel Outlet Modification Project. The proposed project is located in Placer County, west of the City of Auburn on the community of Ophir, CA on the Auburn Ravine off of Sunset Lane. The project is necessary to repair the existing outlet of PCWA's Auburn Tunnel prior to its discharge into Auburn Ravine. This would include constructing a concrete access vault at the existing face of the Auburn Tunnel outlet to provide access and to seal off the end of the Auburn Tunnel. Improvements will include fencing around the north side of the site and a new gate and access driveway from Sunset Lane.	<b>MND</b>	05/15/2009
2009042079	Conditional Use Permit 2008-0016 Yuba County --Yuba Verizon Wireless is requesting approval of a Conditional Use Permit to construct a 150 ft lattice cell tower, 12 antenna sectors and two 8 ft microwave dishes. The project site is located at 11869 Smith Road in Browns Valley. Although the entire site is 10 acres, the leased area containing the tower, an equipment shelter and a 500 gallon propane tank supplying power to a generator is ~2,500 sf (50' X 50'). A 15 ft wide access easement has been provided for Verizon personnel to access the lease area which is secured by a 12 ft locked access gate. The Yuba County General Plan identifies this area as within the Loma Rica/Browns Valley Community Plan with a Land Use designation of Neighborhood Commercial. The site is zoned Residential Commercial.	<b>MND</b>	05/15/2009
2009041083	Warren E&P Inc. WTU Central Facility New Equipment Project South Coast Air Quality Management District --Los Angeles Warren E&P's WTU Central Facility is proposing to remove the existing permitted Flare King flare, refurbish Heater-Treater No. 1 (HT#1), remove a previously operated water heater, and replace or upgrade these pieces of equipment with the most efficient equipment available, including: an ultra-low NOx burner equipped Heater-Treater No. 2 (HT#2) to meet oil-water separation needs, nine Ingersoll-Rand MT-70 microturbines to generate electrical power for use on site, and an ultra-low NOx Bekaert Clean Enclosed Burner to combust any remaining natural gas.	<b>Neg</b>	05/15/2009

2009041084	Well 12 - Construction of a Municipal Water Well and 4,000 Linear Feet of 12 Inch Water Line Wasco, City of Wasco--Kern Drilling of a municipal water well, setting the required equipment and constructing 4,000 linear ft of 12 inch water line. The well is located on APN 487-010-31 and is ~1,000 ft deep. The equipment that is to be located on the well site will include a 300HP motor, 6,000 gallon hydro-pneumatic tank, 300 HP generator, two cement tank pads, electrical panel and a SCADA System. In addition to the well and accompanying equipment the City is proposing to install 4,000 linear ft of 12 inch water line.	<b>Neg</b>	05/15/2009
2009041085	Newlove Villas Santa Maria, City of Santa Maria--Santa Barbara A zone change for a 0.66 acre site from R-2 Medium Density Residential to PD/R-2. A Planned Development Permit and a subdivision map (Tract 5941) is being processed for the construction of 8 single family dwellings.	<b>Neg</b>	05/15/2009
2004012077	Wal-Mart Parcel Map and Expansion Project (PM 03-17) Chico, City of Chico--Butte Wal-Mart submitted an application for a Tentative Parcel Map (PM 03-17) requesting reconfiguration of the two parcel lines to facilitate the expansion of the existing 125,889 sf store into a 223,445 sf Wal-Mart Supercenter. The Tentative Parcel Map will reconfigure the lot lines of the existing parcels (a 16.75-acre parcel and a 10.36-acre parcel) to create on 24.69-acre (Parcel 1) and one 2.42-acre parcel (Parcel 2). The existing Wal-Mart store and all improvements associated with the expansion of the store would be contained entirely within Parcel 1. The existing parking lot would be expanded to the south of the existing store and parking lot. No development is currently planned for Parcel 2, but a restaurant and gas station may be developed in the future. In addition, as a part of the Tentative Map, a number of public utility and public access easements (sanitary sewer, storm drainage, water, utilities, and public bicycle path) are proposed for abandonment and relocation on the site.	<b>SIR</b>	06/01/2009
2003061064	County Service Area 70 Zone J Water System Improvements San Bernardino County Unincorporated--San Bernardino The project is the upgrading of an existing reservoir plant site and the construction of a new well with a pipeline interconnecting the two facilities. The new facilities will be located in Pressure Zone 3 and will provide additional capacity and water supply to all four pressure zones within CSA 70J. The existing reservoir site is known as Site 2A and is located at the southwest corner of El Centro Road and Caliente Road. The site currently has two in-service 210,000-gallon steel tank reservoirs and a booster station that pumps stored water produced from the lower pressure zones and presently serves zones 3 and 4. A new water well (No. 5) will be drilled on a 0.5-acre site approximately 1,500 feet east of Site 2A, following along the corridor of El Centro Road. The new 1,100-foot deep production well is estimated to yield approximately 1,000 gpm. A new water transmission main will connect the new production well to the upgraded reservoir site. The line would essentially follow the alignment of El Centro Road (a non-dedicated road) and travel east/west approximately 1,500 feet between the two facilities.	<b>NOD</b>

2008021102	Hyatt Place and North Coast Condominium Project Oceanside, City of Oceanside--San Diego NOTE: Review Per Lead  Development of 127-room hotel, 24-unit residential condominiums, and a restaurant on a 2.8 acre site.	<b>EIR</b>	06/05/2009
2008081117	Environmental Impact Report No. 515, Change of Zone No. 7611, Tentative Parcel Map No. 35865, Plot Plan No. 23219, Agricultural Preserve Case No. 994 Riverside County --Riverside Overall, the proposed project consists of an industrial development consisting of several buildings totaling approximately 738,432 square feet on 53.37 gross acre site. The buildings will consist of concrete tilt-up structures supported by conventional slab-on-grade foundation system. Concrete and asphaltic pavement, as well as landscaping and hardscape, are proposed.	<b>EIR</b>	06/01/2009
2009032036	Angora Water Tank Replacement Project South Tahoe Public Utility District South Lake Tahoe--El Dorado The District is planning to replace the existing Angora water tank and water line in an effort to upgrade the District's water distribution system and its fire flow capacity. The existing water tank is aging and undersized to meet public health storage requirements for domestic demand and fire flow capacity. The District-owned water tank site is currently land-locked, as the District has no means of accessing the site other than by foot across property owned by the USFS. To simplify construction and to provide reliable access to the site in the future, the District proposes to install a permanent access road to the site across land owned by the USFS under a Special Use Permit.	<b>FIN</b>

2009041088	Tequesquite Arroyo Trunk Sewer Upgrade Riverside, City of Riverside--Riverside The project will involve the installation of ~4.4 miles of new trunk sewer main along the project alignment to replace an existing aged and under capacity pipeline. The new trunk sewer main will be constructed within existing City right-of-way for a large portion of its length. The project will connect to both the upstream and downstream ends of a recently installed 1,600 linear ft portion of 36 inch diameter trunk sewer main. A combination of open trench and trenchless excavation construction will be used to install the new trunk sewer main along the project alignment. Construction materials will typically comprise 36 inch diameter vitrified clay pipe and 48 inch steel carrier pipes in some trenches excavations. The project will also comprise the installation of a number of manholes and junction boxes along the new trunk sewer alignment.	<b>MND</b>	05/18/2009
2009041089	Main St. Widening Project - City Capital Improvement Project No. 3032/3426 Orange, City of Orange--Orange The City proposes to widen Main Street between Chapman Avenue and Culver Avenue to add a northbound and southbound through lane with an intermittent landscaped median and bus turnouts. The project will also restrip Main Street between Culver Avenue and La Veta Avenue to add a northbound through lane. In addition, the project will upgrade the existing water line between Chapman Avenue and the City boundary, located near the SR 22 bridge. The widening would involve permanent right of way acquisition on 16 parcels with Main Street frontage. Structures, parking, driveways, landscaping, and signage would be affected by construction. Construction is anticipated by 2011 and would take ~6 months.	<b>MND</b>	05/18/2009
2009041090	Mission Gorge Road Property Demolition San Diego County Santee--San Diego NOTE: Review Per Lead  The proposed project is the demolition of 5 structures that currently exists on the project site. The 5 structures include a Quonset Hut, former fire station, cinder block buildings, wood garage, and storage shed. The demolition of these structures amounts to ~4,559 sf. The site will remain vacant until development is proposed under the Town Center Master Plan.	<b>MND</b>	05/20/2009
2009041091	Tentative Tract Map 70238 & Conditional Use Permit 07-19 Lancaster, City of Lancaster--Los Angeles A residential planned community of 160 airspace condominiums with the look of individual lots. Primary access would be from future eastern perimeter streets that border the project and connect with Lancaster Boulevard and Jackman Street.	<b>MND</b>	05/18/2009
2009041092	Jurupa Community Services District's Proposed Well 3 or 3A and 5A and Pipeline Project Jurupa Community Services District --Riverside The proposed project consists of the construction of 2 groundwater wells, ancillary equipment, up to 13,400 linear ft of water conveyance pipelines, and about 200 linear ft of a discharge pipeline. These facilities proposed for construction are facilities identified in JCSD's "Summary Master Water Plan", October 2005 and will	<b>MND</b>	05/18/2009

	provide the District with additional groundwater supply.		
2009042081	California Avenue Widening Pittsburg, City of Pittsburg--Contra Costa The proposed project involves the widening of California Avenue from one lane in each direction to 2 lanes in each direction, for a 0.67 mile lone segment between Harbor Street and Carion Court in the City of Pittsburg. In addition to pavement and curb/gutter installation associated with the roadway widening, the proposed project includes new or modified traffic signalizations along California Avenue; modifications to the Kirker Creek overflow channel within the project area; installation of riparian plantings in Kirker Creek downstream of the project site; and installation/relocation of storm drainage, lighting, and other utility improvements within the project boundaries.	<b>MND</b>	05/18/2009
2009042080	Los Altos Community Center Master Plan Los Altos, City of --Santa Clara Under the proposed Master Plan, the project site would be redeveloped with the following community uses: <ul style="list-style-type: none"> <li>- City Hall (19,880 sf)</li> <li>- Police Station (18,815 sf)</li> <li>- Community Center (55,600 sf)</li> <li>- Library (47,866 sf)</li> <li>- Swim Center (39,860 sf)</li> <li>- Sport Fields (i.e., Soccer and Baseball Fields)</li> <li>- Children's Play Area</li> <li>- Bocce Ball Courts</li> <li>- Apricot Orchard</li> </ul> Except for the History House and Museum and the Nuetra House, all of the existing buildings would be demolished and removed during the planned redevelopment of the site. Although the proposed City Hall and Police Department buildings would be larger in size than the existing structures currently on the project site, the number of City Hall and/or Police Department employees would not increase as a result of the proposed project. The proposed project also includes improvement to the Edith Avenue/San Antonio Road/Main Street intersection, which is located on the western boundary of the project site.	<b>NOP</b>	05/18/2009
2007112002	Mammoth Crossing Project Mammoth Lakes, City of Mammoth Lakes--Mono The Project proposes redevelopment of three of the four corners that comprise the Main Street-Lake Mary Road/Minaret Road intersection with a combination of resort accommodations, retail uses, and public spaces. The Project is located within the North Village Specific Plan Area, and includes a series of amendments to the North Village Specific Plan ("Specific Plan"), amendments to the Town of Mammoth Lakes' General Plan, Use Permit (including Design Review), and a Tentative Tract Map. Proposed development at Site 1-3 would involve multiple buildings ranging in height from one to approximately seven stories. The Project's fourth site proposes no new development as part of this Project.	<b>Neg</b>

2001071135	Los Banos Bypass; 10-419100 (PM 16.0/24.8) Caltrans #10 Los Banos--Merced General Plan Amendment No. GPA08-022 amends the General Plan Circulation Map to include the SR 152 Los Banos Bypass route in order to allow protection of the identified right-of-way from encroachment by non-compatible land uses.	<b>NOD</b>	
2008091012	San Gabriel Valley Water Company Plant B6 Baldwin Park, City of Baldwin Park--Los Angeles San Gabriel Valley Water Company (San Gabriel) currently owns and operated the Plant B6 Water Treatment Facility (Plant). The Plant receives groundwater from four (4) extraction wells. The water produced from all four wells is contaminated from Volatile Organic Compounds (VOC's), Perchlorate, N-Nitrodimethylamine (NDMA) and 1-4 Dioxane, therefore the following has been installed at the Plant: air strippers for the removal of the VOC's, a regenerable resin ion exchange (ISEP) system to remove the Perchlorate, and a low pressure ultra violet light (LPUV) unit with hydrogen peroxide injection to remove the NDMA and 1-4 Dioxane. The existing ISP system generates a waste brine solution that contains Perchlorate, which is currently discharged. The installation of a single-pass ion exchange system has been confirmed as the best technology to replace the existing ISEP system. San Gabriel has purchased the single-family residential properties located directly across the street from the existing Plant. The existing single-family residential structures have been demolished and the proposed ion	<b>NOD</b>

<b><u>Documents Received on Monday, April 20, 2009</u></b>			
	<p>which is located approximately 5 miles west of this location. The culvert at PM 40.67 will not be modified. The culvert will drain over the top of the newly placed RSP. Two to three small willow trees (<i>Salix</i> sp.) will be removed in order to place the RSP. These willows are growing above the ordinary high water mark of Grizzly Creek. Willow cuttings will be incorporated into the RSP in order to offset this loss of willow trees. Cuttings will be collected from sources within the vicinity of the work area. Temporarily impacted areas of the Grizzly Creek streambank will be restored to pre-project conditions upon project completion. Original contours will be restored once the project is complete. Revegetation of temporarily impacted areas of the Grizzly Creek streambank will be conducted through permanent erosion control. Spanish clover (<i>Lotus purshianus</i>), thingrass (<i>Argostis pallens</i>), bottle-brush squirreltail (<i>Elymus elymoides</i>), Idaho fescue (<i>Festuca idahoensis</i>), meadow barley (<i>Hordeum brachyantherum</i>), California melic (<i>Melica californica</i>), and pine bluegrass (<i>Poa secunda</i>) will be used for permanent erosion control. In addition, Caltrans will debit 0.070 acres of riparian vegetation credits at the Caltrans Beach Lake Mitigation Bank to offset permanent and temporary impact associated with this work.</p>		
2006041160	<p>Antelope Transmission Project, Segments 2 and 3 Public Utilities Commission Tehachapi, Lancaster, Palmdale, Mojave--Kern, Los Angeles The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code for the Windhub Substation portion of the Antelope Transmission Project, Segments 2 and 3. Grading for the Windhub Substation will fill in a portion of an unnamed ephemeral stream. Fill material will be placed into approximately 1,000 linear feet of the blue-line ephemeral drainage ranging in size from 3-foot width by 2-foot depth to 15-foot width by 6-foot depth (~ 0.14 acre of permanent disturbance, and 889 cubic yards of fill). Sheet flow that originally cut the drainage will be re-directed into a new trapezoidal channel along three sides of the perimeter of the substation. The trapezoidal channel will connect to the drainage on the southeast corner of the property boundary with the placement of riprap and ~105 feet by 29 feet. Equipment used for construction includes a five-ton truck, loader/scrapper, compactor, dump truck, grader, tractor/backhoe, and water truck.</p>	<b>NOD</b>	
2006081070	<p>Conditional Use Permit 05-38 Salinas, City of Salinas--Monterey Operation of a new California Service Company water well facility including an approximately 500-square-foot building, a well pump, a hypochlorination system, and an emergency power diesel generator.</p>	<b>NOD</b>	
2007101116	<p>Kings River Bridge on Goodfellow Fresno County Sanger--Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code for the Kings River Bridge Replacement Project. The County of Fresno has approved the replacement of the existing bridge with a 34-foot 10-inch wide by 520-foot long case-in-place concrete box girder. The approaches will be widened from 28-feet to 32-feet for up to 200-feet on either side of the bridge to meet current American Association of State Highway and Transportation Officials (AASHTO) roadway width standards. A cofferdam is proposed to be constructed on the upstream side</p>	<b>NOD</b>

<b><u>Documents Received on Monday, April 20, 2009</u></b>			
	of the riverbed to divert water. The Kings River flows through the center of the Project area. The project area consists of the Kings River, a perennial drainage, with Great Valley mixed riparian forest, non-native annual grassland, and adjacent agricultural fields.		
2008011017	Santiago Creek Bike Trail - Tustin to Collins (Tustin Branch Trail) Orange, City of Orange--Orange Metropolitan has granted the City of Orange a permanent easement for bicycle path purposes. The permanent easement is granted subject to terms and conditions specified in the Permanent Easement Deed. Metropolitan requires installation and construction or reconstruction plans be submitted for review and written approval.	<b>NOD</b>	
2008011107	North Shore School Facilities Project Coachella Valley Unified School District --Riverside The Coachella Valley Unified School District proposes to acquire approximately 15.958 acres of land, identified generally as a portion of Riverside County APN 721-110-001, for the construction and operation of proposed District school facilities, which will allow the District to serve students within the District (School Site and School Project). The proposed School Site is northeast of the intersection of Arthur Street and 70th Avenue in Mecca, CA (North Shore Community). The School Project is presently contemplated as a K-6 school with approximately 30 classrooms for an estimated 800 students. Offsite road improvements, storm drains, electricity, and telephone facilities, if necessary, will be constructed as necessary to accommodate the needs of the School Project. The District anticipates using on-site disposal facilities pursuant to "Waste Discharge Requirements" obtained from the Colorado River Basin Regional Water Quality Control Board. As gas utility service is not presently available, propane fuel will be used to service the School Project. Existing water facilities will be sufficient to meet the District's needs for its School Project. The School Project will include the construction of administration and library buildings; a kitchen; an outdoor food shelter; a multi-purpose room; parking facilities for teachers, visitors and staff with adequate onsite parking; and athletic play courts including hardscape and turf playfields. Lighting may include low level security lighting, signage lighting, and illumination of related parking, play, and pedestrian areas.	<b>NOD</b>	
2008101161	Wellness Recreation Center San Diego, City of San Diego--San Diego Amendment to Conditional Use Permit (CUP) 92-0568, Planned Development Permit (PDP), Site Development Permit (SDP), lot line adjustment, and Multi-Habitat Planning Area boundary correction to allow for the construction of a 113,507 sf Recreation, Wellness and Aquatic Center on a 3.36-acre site, and a 9,008 sf Softball, Golf, and Club Sports facility on 1.39 acre site within the 180-acre University of San Diego (USD) campus.	<b>NOD</b>

	The "Proposed Design" would extend Foster Ave from its eastern terminus eastward along the railroad right-of-way to join with Sunset Ave near Jay Street. The "Alternative Design" would extend Foster eastward past the existing residences and alley and then curve northward to intersect Sunset Avenue near Wilson Street.		
2009031024	2320 Pressure Zone, Phase II, Hillside Pump Station Expansion and Reach I Pipeline Western Municipal Water District --Riverside An initial study has been prepared to assess the potential for any significant environmental effects associated with the Western Municipal Water Districts (WMWD) 2329 Pressure Zone, Phase II, Hillside Pump Expansion. The purpose of the proposed project is to ensure adequate water supply and service to WMWD's customers under the South Added Facilities Area Master Plan. Phase II of the interim plan includes the expansion of the existing Hillside Pump Station. The Hillside Pump station expansion will involve the installation of four additional pumps, electrical gear, suction/discharge headers, fencing, grading, connection to existing system, abandonment of some existing pipes, and replacement of existing pumps. This phase also include the placement of approximately 1.6 miles of 30-inch waterline located on Rolling Meadows Drive.	<b>NOD</b>	
2009032017	Higgins Corner Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --Nevada Station Replacement - including demolition of all existing buildings and most of the structures and appurtenances, and construction of a new Forest Fire Station Facility on the same site.	<b>NOD</b>	
2009049012	Lake or Streambed Alteration Agreement No. R1-08-0475 for Timber Harvesting Plan (THP) 1-08-133DEL "GDRCo #572" Forestry and Fire Protection, Department of --Del Norte The Department of Fish and Game (DFG) is issuing an agreement for: installing one permanent bridge, removing one existing crossing, and removing and replacing four permanent culverts.	<b>NOD</b>	
2009049013	Lake or Streambed Alteration Agreement No. R1-08-0573 for Timber Harvesting Plan (THP) 1-08-167HUM "GDRCo #41-0801" Forestry and Fire Protection, Department of --Humboldt The Department of Fish and Game (DFG) is issuing an agreement for: installing three temporary crossings and removing seven existing crossings.	<b>NOD</b>

	quality reliability. The Project includes the construction of shear walls at all four corners of the reservoirs foundation; repairing and resealing cracks in the reservoir walls and slab, fixing corroded rebar, and replacing out-of-date, miscellaneous mechanical and architectural structures within the reservoir (electrical, security and ventilation systems).		
2008051093	Draft Remedial Action Plan, Los Angeles Unified School District Central Region Elementary School #20 Toxic Substances Control, Department of --Los Angeles The CERES No 20 project would be constructed in the central area and would consist of two-story buldings (approximately 34 feet in height), encompassing approximately 62,000 square feet on 318 acres, including 17 acres of playground area. Replacement fields will be constructed on the northern area of the project site. With the development of a draft Remedial Action Plan (RAP) the project has been revised to expand upon the required site remediation previously considered in the Final EIR (LAUSD 2008). RAP activities include additional pile-driving for shoring excavated areas, and the removal and replacement of significantly more soil and therefore a substantially larger number of truck trips.	<b>NOP</b>	05/20/2009
2009041098	San Bernardino Valley College Master Plan San Bernardino Community College District San Bernardino--San Bernardino The proposed project is the adoption and implementation of the San Bernardino Valley College Master Plan. The Master Plan estimates that the demolition, renovation, and construction of various academic buildings, infrastructure and landscape improvements, and additional parking are required in order to address SBVC's academic program, support functions, and future student enrollment growth through 2030. This program of potential development is organized in three phases referred to as Horizons.	<b>NOP</b>	05/21/2009
2009041102	Proposed Expansion for the Bosman Dairy (PSP 07-022) Tulare County --Tulare The proposed project is an expansion of an existing dairy from 7,200 milk cows plus support stock (10,426 animal units) to 8,800 milk cows plus support stock (15,229 animal units) in the AE-40 (Exclusive Agricultural - 40 acre minimum) Zone. The dairy facilities currently encompass 318 acres of the 2,581-acre subject site (no change proposed), land currently devoted to crops and nutrient management is 2,173 acres (no change proposed), the balance of the site is encumbered by irrigation systems, wells, field roads, etc.	<b>NOP</b>	05/20/2009
2009041103	PD 54, Map 81 Kern County Bakersfield--Kern The applicant is requesting a precise development plant to build 2 four story hotels, totaling ~108,000 sf. The project will consist of a Holiday Inn Express (105 rooms) and a Mariott Towne Place (102 rooms). The Holiday Inn will measure 47 ft 7 inches tall and the Mariott will measure 43 feet 3 inches in height. Staff notes that the H (Airport Approach Height Combining) District limits all structure heights to 35 ft, unless exact development is specifically authorized, in writing, by the Kern County Airports Department. The applicant has provided the required authorizations. Floor plans show that each hotel will contain the following: a lobby, a pantry, a swimming pool, meeting rooms, offices, gymnasiums,	<b>Neg</b>	05/20/2009

	elevators/stairwells, etc. It does not appear that either hotel will contain a formal restaurant. The precise development plan shows that the project will comply with all of the special development standards for commercial districts.		
2009042089	City of San Mateo Housing Element San Mateo, City of San Mateo--San Mateo State law sets forth many content and scheduled requirements for the Housing Element of the General Plan, reflecting the importance of housing as a statewide issue. The City of San Mateo and most other northern California cities are required to submit revised Housing Elements by June 30, 2009. The update includes an evaluation of the current element to review its effectiveness, its progress in implementation, and the appropriateness of stated goals, objectives, and policies. This update must be reviewed and certified by the State of California Housing and Community Development Department in order for the Housing Element to be in compliance with state law.	<b>Neg</b>	05/20/2009
2009042090	Delisting the American Peregrine Falcon ( <i>Falco peregrinus anatum</i> ) Fish & Game Commission -- NOTE: Review Per Lead  The Fish and Game Commission received a petition to delist the American peregrine falcon under provisions of the CESA. The peregrine is currently listed as endangered under CESA. The peregrine is also a fully protected species under FGC Sect. 3511. The Department of Fish and Game evaluated the petition. The Commission received the Department's petition evaluation, recommendation, and public testimony, and the petition was accepted. The Department completed a status review and submitted recommendations to delist the peregrine. The Commission will receive public comments at a meeting in May with a proposed regulation adoption at a meeting in August 2009.	<b>Neg</b>	05/22/2009
2009042092	T-Mobile Cellular Monopole, Hebrew Christian Church Eureka, City of Eureka--Humboldt NOTE: Review Per Lead  The project is composed of the construction of a 50 ft high, 16 inch diameter painted steel T-Mobile cellular monopole with cellular cabinets in back of the existing Hebrew Christian Church, within a 200 sf area of property on a developed 66.5ft x 56 ft parcel in the central area of the City of Eureka. The cellular pole would be a monopole design with 3 concealed antennas within a plastic enclosure cover (radome) without top lighting. The foundation for the monopole would be ~7 ft square and 7 to 8 ft in depth located at the back of the building within the existing lawn and sidewalk area. The total number of cubic yards of soil to be removed from the site is 12 yards. The remainder of the existing lawn and sidewalk would remain. The Applicant in submitting for a building permit would be required to furnish a soils report, structural drawings for the foundation and pole certified by a California Licensed Structural Engineer.	<b>Neg</b>	05/22/2009

2008052128	Hillcrest eBART Station Specific Plan Antioch, City of Antioch--Contra Costa The adopted Specific Plan is a City sponsored project, and envisions a high intensity mixed use Transit Oriented Development (TOD) within the Project Area. The Specific Plan allows for a maximum 2500 residential units and approximately 2.2 million sf of commercial space within transit villages planned around proposed eBART station sites. The Specific Plan adoption process includes the following components: - Adoption of the "Hillcrest Station Area Specific Plan". - Adoption of amendments to the text and graphics of the City's General Plan to ensure consistency with the "Hillcrest Station Area Specific Plan". - Rezoning the specific plan project area to Planned Development (PD) Zoning.	<b>NOD</b>	
2008102070	City of Tulelake Wastewater Facilities Upgrade Project Tulelake, City of Tulelake--Siskiyou The proposed improvements to the existing wastewater treatment system include collection system work on gravity sewer lines and the lift station, refurbishment of the existing treatment facility, conversion of the non-operational effluent filters to treatment wetlands, and the purchase and construction of a wetland effluent disposal site. The treatment wetland will have an unpermeable liner to prevent water from seeping into the soil after treatment and disinfection the water will be pumped to the disposal wetland which will not have an impermeable liner where evaporation, transpiration and sewage will occur.	<b>NOD</b>	
2009049014	Streambed Alteration Agreement 1600-2008-0336-3/THP #1-08-113 SCL Forestry and Fire Protection, Department of --Santa Clara The Applicant proposes to install a temporary crossing of a Class II Watercourse and replace and upgrade an existing culvert at a Class II watercourse. Both Class II watercourses drain into Los Gatos Creek which empties into Lexington Reservoir approximately 2 miles downstream. Lexington Reservoir eventually drains into the San Francisco Bay about 20 miles north of the project site. The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement 1600-2008-0336-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Big Creek Lumber Company.	<b>NOD</b>	
2009048234	Hel Bro Well Replacement Project - Hel Bro Well 4 Health Services, Department of --San Bernardino The Yermo Water Company currently has one active well, Hel Bro Well 1, serving 60-80 homes within the Yermo Water Company service area. Hel Bro Well 1 is currently running out of water and may run dry by the summer. Two prior wells have already run dry and have been destroyed. Yermo Water Company proposes to replace Hel Bro Well 1 with a new well on the same parcel. The replacement well will be identified as Hell Bro Well 4. The well is anticipated to yield approximately 200 gallons per minute to the system which is approximately the same capacity as the two destroyed wells.	<b>NOE</b>

2008062057	<p>one pylon sign to exceed a height of 25 ft. The application approval will facilitate the development of a shopping center containing 6 major tenants, 14 smaller commercial buildings, and ~3,100 parking stalls. It is envisioned that the smaller commercial buildings will be occupied by bank and restaurant uses. The parking field for the project site is located in the center with 3 access points off to East San Jacinto Avenue, and 4 off of Murrieta Road.</p> <p>Folsom Wal-Mart Expansion Project Folsom, City of Folsom--Sacramento</p> <p>The proposed project would include expansion of the existing 137,374 sq. ft. Wal-Mart store by up to 27,310 sq. ft. to add full service grocery sales, with design modifications to the existing building. It would incorporate and retrofit sustainable design features into the building; redesign the truck dock and drive aisle at the rear of the store; reduce parking lot spaces from 868 spaces to 811 spaces; implementation on-site modifications to the expansion area at the rear of the existing store; and potentially increase store security measures.</p>	<b>EIR</b>	06/05/2009
2009041105	<p>Ordinance Amendment No. 695.4 (Requiring the Abatement of Hazardous Vegetation) / Environmental Assessment No. 42117 Riverside County Riverside, Unincorporated--Riverside</p> <p>The project is an amendment to Riverside County's Ordinance No. 695 (Ordinance Amendment No. 695.4) requiring the abatement of hazardous vegetation to set forth the authority of the Fire Chief of the County of Riverside and to clarify the procedural steps of the abatement process and failure to comply. The project also incorporates current abatement practices through development of a Field Training Manual Decision Making Guidelines to assist Riverside County Fire Department, Hazardous Reduction Office staff when conducting abatement pursuant to Ordinance No. 695.</p> <p>The Hazardous Reduction Office conducts annual field inspections of unimproved lands throughout the unincorporated area of the County, including areas designated as State Responsibility Areas, municipalities and other incorporated areas or service districts that contract with the County for fire services. The purpose of the annual inspections is to identify hazardous vegetation or combustible material on properties which pose a hazard or potential hazard to the safety of the landowners, residents in the vicinity, users of public highways and to the public in general. As a result of these site specific inspections, property owners of targeted parcels will receive a Notice to Abate which will indicate the method and amount of clearance required for compliance.</p> <p>The abatement program specifically deals with the removal of rubbish, litter or combustible material of any kind as well as clearance of seasonal and recurrent weeds, stubble, brush, dry leaves, tumbleweeds or other rank growth which is flammable and endangers the public safety by creating a fire hazard and is, therefore, deemed a public nuisance. Clearance of said vegetation or material should be limited as to what is considered necessary to establish sufficient defensible space, 100 ft from structures on adjoining area and provide fire protection to a community. Both the County's authority to require abatement of a public nuisance as well as to establish administrative abatement proceedings is pursuant to California Government Code Section 25845 and California Health and Safety Code Section 14930.</p>	<b>MND</b>	05/21/2009

2009041106	SD04-0004 Ventura County Camarillo--Ventura NOTE: Review Per Lead  The applicant proposes to subdivide 2 legal lots into four parcels, Parcel 1 - 40.55 acres, Parcel 2 - 40.44 acres, Parcel 3 - 40.99 acres, and Parcel 4 - 40.64 acres with a Parcel Map Waiver-Large Lot Subdivision (PMW/LLS) (SD04-0004). Proposed Parcels "2" and "3" have existing single-family dwellings and accessory agricultural buildings on the property. Proposed Parcels "1" and "4" are vacant. All proposed parcels are developed for agriculture and the parent parcel is under Land Conservation Act (LCA) contract #15-17:1.1. The LCA contract will be rescinded and the new parcels will be re-entered into 5 new contracts (the 5th parcel is a separate legal lot under the existing contract but is not a part of this subdivision). The LCA contract rescission/re-entry has been approved by the Board of Supervisors, and will be recorded contingent upon recordation of the PMW/LLS.	<b>MND</b>	05/26/2009
2009041107	Oak Country II Trails Project San Diego County --San Diego The proposed project is an ~4 mile, multi-use trail for hiking, biking, and equestrian users. The trail includes a figure 8 loop with connections to potential future trail easements to the north and west. An ~1 acre equestrian staging area adjacent to Highland Valley Road is also proposed.	<b>MND</b>	05/21/2009
2009041108	I-15/French Valley Parkway Improvements Project Temecula, City of Temecula, Murrieta--Riverside NOTE: Review Per Lead  The City of Temecula, in cooperation with the California Department of Transportation proposes improvements on a portion of Interstate 15 (I-15) between the existing Winchester Road (State Route 79, SR -79) I-15 Interchange and Murrieta Hot Springs Road in the vicinity of the I-15/Interstate 215 junction (including related improvements to the related portion of I-215 from the I-15/I-215 juncture to just south of the Murrieta Hot Springs Road/I-215 Interchange, within the cities of Temecula and Murrieta in Riverside County, CA, in an effort to relieve traffic congestion and to improve safety and operational efficiency within the projects limits. The proposed project features construction of a new interchange, French Valley Parkway at I-15, between the existing Winchester Road (SR 79)/I-15 Interchange and the I-15/I-215 Junction, along with enhancements to facilitate improved operations on the existing mainline facility. French Valley Parkway would be constructed as a 6 lane arterial highway from Jefferson to Ynez. Auxiliary lanes would be provided in both the northbound and southbound directions. An up to 3 lane collector distributor (C/D) system would be constructed parallel to I-15 between the I-15/I-215 confluence and Winchester Road in both the northbound and southbound directions.	<b>MND</b>	05/22/2009

2009042096	ZPE08-0121 Sonoma County --Sonoma Request for a zoning permit to restore important habitat elements lost during a flood event and stabilize the bank of Sonoma Creek against future flood damage. The subject bank of Sonoma Creek is directly below a patio area, residence (to be demolished), and studio. During the 2005-2006 New Year's Eve storm, Sonoma Creek flooded above the 100 yr flood level. The residence was rendered uninhabitable, and the patio, streambank, and a wire fence revetment at the bottom of the bank, were damaged. The proposed project will lay back the west bank of Sonoma Creek to slopes varying from 1:1 to 2:1. The graded slopes will be protected with vegetated boulders, and flatter slopes will receive biotechnical treatments. At the downstream end of the site, heavy coir fabric and brush mattresses will be installed to provide stability. The project also includes specific features to improve habitat for California freshwater shrimp such as woody debris and overhanging vegetation.	<b>MND</b>	05/21/2009
2009042097	West Sacramento Wastewater Treatment Plant Decommissioning Project West Sacramento, City of West Sacramento--Yolo NOTE: Review Per Lead  The City of West Sacramento proposes to decommission its existing wastewater treatment plant located at 1991 South River Road. As of October 31, 2007, wastewater flow has been diverted to the Sacramento Regional County Sanitation District's Elk Grove treatment facility. The WWTP is currently owned and managed by the City, and includes the City's Public Works Corporation Yard. This project involves the decommissioning and demolition of the WWTP and the Corporation Yard including all facilities, structures, piping, and other components located above ground and below ground to a depth of ~20 ft, with the exception of the outfall structure at the Sacramento River, which would be capped and left in place. At the conclusion of demolition activities, the site would be graded and seeded with native vegetation.	<b>MND</b>	05/22/2009
2009042098	Michael and Nancy Anderson Tentative Parcel Map TPM-08-05 Siskiyou County Weed--Siskiyou NOTE: Review Per Lead  The applicants request approval for a Tentative Parcel Map to create 2 lots: one 10 acre parcel and one 16.39 acre parcel. A single family residence is planned on one of the lots, with no other immediate plans for development on the second lot.	<b>MND</b>	05/22/2009

	includes construction of a 60 inch diameter raw water pipeline that would connect the proposed 72 inch pipeline bypass to an existing City of Roseville pipeline along Auburn-Folsom Road.		
2009042095	Use Permit and Reclamation Plan Renewal - Williams Mendocino County --Mendocino Renewal of a Use Permit and Reclamation Plan for the extraction of 50,000 cy of material per year for a period of 20 years from a hillside quarry.	<b>Neg</b>	05/21/2009
2008092006	City of Tracy General Plan Amendment Tracy, City of Manteca, Lathrop--San Joaquin General Plan amendment to contract the proposed Sphere of influence per LAFCo policies, incorporate new State legislation regarding flooding policies and enhanced goals, objectives, policies and actions regarding sustainability and the reduction of greenhouse gas emissions.	<b>SIR</b>	06/05/2009
2002072046	Incremental Recycled Water Program - Discharge Compliance Project Santa Rosa, City of Rohnert Park, Sebastopol, Windsor, Healdsburg, Cotati, ...--Lake, Sonoma The Proposition 50 Sub-Grantee Agreement provides State of California grant money for implementation of this addition to the SRURPP. The purpose of the SRURPP is to provide for the retrofit of a small number of existing users to recycled water with an opportunity to evaluate the customer outreach and retrofit process on a small scale before implementing the Santa Rosa Urban Reuse Project on a larger scale. This addition to the Pilot Project includes new transmission and distribution piping, and service retrofits for potential customer connections.  The impacts resulting from this addition to the SRURPP were evaluated in a CEQA checklist dated November 20, 2007. The CEQA checklist analyzed whether the environmental effects of the Santa Rosa Urban Reuse Project were covered in the IRWP Certified Program EIR as directed by CEQA Guidelines section 15168. The November 20, 2007 CEQA Checklist concluded that construction and operation of the Santa Rosa Urban Reuse project would have no new impacts beyond those examined in the IRWP Certified EIR, and no new mitigation measures would be required. Therefore, impacts from construction and operation of the necessary components for this addition to the SRURPP funded by the Proposition 50 Sub-Grantee agreement are within the scope of, and covered by, the RIWP Certified EIR.	<b>NOD</b>

	critical and life-threatening conditions. Under the existing Medical Center project approvals, the helipad would be situated on the roof of the outpatient building, at the northwest corner of the building just south of 16th Street and just east of future 4th Street. The helipad would be at a height of approximately 140 feet above grade in order to meet Federal Aviation Administration (FAA) obstruction clearance requirements, accounting for existing and future development at Mission Bay. Planned flight paths would be over San Francisco Bay to the extent possible, with the primary arrival path directly from the east and the primary departure path directly to the east. Both of these primary routes would be the shortest and most direct paths from to the Bay and, based on an evaluation of wind conditions, are projected to be used the most frequently. Secondary and alternative departure paths, which would be used less frequently, would extend to the north and then east out to the Bay, or to the west before turning north and then east out to the Bay.		
2008022101	Transportation 2035 Plan for the San Francisco Bay Area Metropolitan Transportation Commission --Alameda, Contra Costa, Marin, Napa, San Francisco, ... The EIR for the Transportation 2035 Plan is programmatic EIR that evaluates the environmental effects of implementing the 25-year regional transportation plan for the San Francisco Bay Area. The Transportation 2035 Plan is a blueprint to help achieve a coordinated and balanced regional transportation system in the Bay Area. The Bay Area is comprised of nine counties; Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma.	<b>NOD</b>	
2008121118	San Benito River Greenway Project Hollister, City of Hollister--San Benito The City of Hollister (City) proposes to construct improvements to an existing unpaved unauthorized trail that has been established by trespass along the San Benito River between Bridge Road and Apricot Lane, along the southern edge of the City's Industrial Wastewater Treatment Plant (WTP). The Proposed Project would improve public access to the San Benito River and would enhance recreational uses in the project area.	<b>NOD</b>	
2009032047	Poor Clares Housing PUD Santa Cruz County --Santa Cruz The project proposes General Plan amendments, a rezoning, and a Planned Unit Development (PUD) allowing a development density of 20 dwelling units per usable acre on a 4-acre portion of the project site. The rezoning would also require that any development proposal on the PUD portion of the parcel provide a minimum of forty (40) percent of the total number of housing units as affordable. PUD portion of site contains a maximum of 40 usable (developable) acres equating to a maximum of 80 dwelling units. Remainder of site would be designated in the general plan and zoned to accommodate an approximately 3-acre visitor accommodation use, an approx. 4-acre medical facilities use.	<b>NOD</b>	
2009048239	Removal Action Workplan (RAW) for the Sellars Brother Radiator Shop Toxic Substances Control, Department of -- The Remedial Action Workplan requires excavation of 100 cubic yards to remove soils impacted with lead and to transport of the contaminated soil to an approximately permitted disposal facility. The cleanup level (CL) for this COC is	<b>NOE</b>

<b><u>Documents Received on Wednesday, April 22, 2009</u></b>			
	750 milligrams per kilogram of soil for lead, which is below the U.S. Environmental Protection Agency's (U.S. EPA) Preliminary Remediation Goals for exposures associated with industrial/commercial land use. A land use covenant will be recorded on the property to limit the property to the current zoning of industrial/commercial use.		
2009048240	Moosa Canyon Fuel Reduction Project Forestry and Fire Protection, Department of --San Diego The California Department of Forestry and Fire Protection (CAL FIRE) proposes to construct Defensible Space area behind and between homes and in the community of Hidden Meadows, encompassing 150 acres. The Defensible Space prescription provides for a 50 percent reduction of flammable shrubs through selective pruning to remove fuel. No ground will be disturbed as all work will be performed by hand and cut material from the project will be chipped and spread.	<b>NOE</b>	
2009048241	Arnold Fire Station Surface Fuels Reduction Forestry and Fire Protection, Department of --Calaveras The purpose of the project is to reduce fuels around the Arnold Forest Fire Station (FFS) and to provide an opportunity to demonstrate prescribed burning techniques under a mixed conifer overstory. The treatment area will cover approximately 8 acres of land surrounding the Arnold FFS. The entire project will be on lands owned by CAL FIRE and the proposed project area has been prescribed burned multiple times over the years under CAL FIRE ownership.	<b>NOE</b>	
2009048242	Soquel Demonstration State Forest Corral Trail Reroutes Forestry and Fire Protection, Department of --Santa Cruz The project consists of creating two new segments of Corral Trail to replace two segments of the existing trail. The two segments of existing trail do not support proper water drainage and user safety, resulting in accelerated erosion of the trail's mineral soil surface and a safety concern for trail users. The reroutes will incorporate proper water drainage features and more gradual slopes to improve soil stability and user safety. This trail is open to cyclists, hikers, and equestrians. Vegetation will only be removed from the right-of-way to sufficiently provide for a four foot wide trail.	<b>NOE</b>	
2009048243	Academy Dozer Training Forestry and Fire Protection, Department of --Amador The purpose of the project is to improve rangeland for landowners (4) in Amador County, while providing training for Heavy Fire Equipment Operators (HFEO) being instructed at the CAL FIRE Academy in Lone. The actual project work will be brush piling by bulldozers with the piles being burned at a later date, generally in the winter months as weather conditions allow. Some owners may leave some of the piles for quail habitat. Any trees in the project area will be left with the exception of an occasional small tree that may be mixed in with the brush.	<b>NOE</b>	
2009048244	Oak Glen -- Yucaipa Fuel Break Project Forestry and Fire Protection, Department of Yucaipa--San Bernardino The intent of this project is to create a fuel break in brush covered lands at the base of Yucaipa Ridge to provide a potential defense line against wildland fire for the communities of Oak Glen and Yucaipa. The project consists of two sites, with	<b>NOE</b>

2007041015	Community Recycling and Resource Recovery Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: Review Per Lead-Extended	EIR	07/22/2009
------------	--	-----	------------

The project site is used as a solid waste facility and a recycling and resource recovery operation which is currently permitted for a 1,700 tons per day (TPD) transfer station/MRF and which for recycling receives approximately 1,200 TPD of construction materials, 1,500 TPD of organics, 300 TPD of food materials, and 150 TPD of wood materials. A Conditional Use Permit, Site Plan Review, Zone Variance (Parking), and a Revised Solid Waste Facilities Permit for the entire facility have been requested for the Proposed Project which includes construction of an approximate 107,000 square foot enclosure building with air filtration system to be located over the business' existing organics area, with 40 parking spaces (already existing). The purpose of the revised permit is to consolidate all resource recovery operations under one comprehensive permit in order to respond to new recycling industry regulations. Under the new permit, the applicant is seeking approval to receive up to 2,000 TPD of construction material, up to 1,500 TPD of source-separated green waste, up to 500 TPD of source-separated supermarket trim and cull, and up to 200 TPD of source-separated wood waste. The applicant is also seeking to increase the permit for the transfer station/MRF to 2,500 TPD. The permit increase in tonnage over time would require up to one additional shift to be added to the operations.

2007101004	2701 N. Harbor Drive Demolition Project San Diego, Port of San Diego--San Diego NOTE: Review Per Lead	EIR	06/10/2009
------------	--	-----	------------

Demolition and removal of: 50 existing structures, including structure slabs, footings, grade beams, piles or portions of piles, and pile caps; all machinery bases, concrete asphalt, and other paving material; all hazardous and contaminated demolition materials; chlorofluorocarbons; any USTs that have received prior regulatory closure; and all landscaping/irrigation pipes/valve boxes. Cutting, capping and/or removal, and/or replacement or relocation of all underground piping and utility systems, and storm drain and sanitary sewer laterals.

2008111030	Sunset Plaza Expansion Project EIR West Hollywood, City of West Hollywood--Los Angeles The proposed project involves the construction of a 16,785 square foot retail commercial building at 8600 Sunset Boulevard. The proposed building would be part of the existing Sunset Plaza shopping center. The project includes 6,885 square feet of building area at the lower "Garden" level, 6,365 square feet at the	EIR	06/08/2009

2009022014	740 Heinz Avenue Project Berkeley, City of Berkeley--Alameda The proposed project would develop the 1.4 acre site with approximately 82,000 square feet of research and development uses and 10,000 square feet of related storage area, and a 49 stall sub-surface parking garage. The project includes the demolition of the existing 10,000 square foot vacant warehouse and associated parking area. The north and south facades of the existing building would be retained and incorporated into the new building. The new building facades would be constructed from brick veneered masonry panels and would be set back from the existing structure on the north and south elevations. The new building would have four levels and would be approximately 60 feet in height with a mechanical roof screen, the maximum building height would be 72 feet. Vehicular access to the site would be provided by existing entrances to the Aquatic Park Campus; as part of the project the existing access from Heinz Avenue east of the Durke Building (800 Heinz Avenue) would be closed. The proposed project would include a plaza area, landscaping and street trees.	<b>EIR</b>	06/08/2009

2009042100	San Pablo Lytton Casino Parking Lot Expansion San Pablo, City of San Pablo--Contra Costa The subject site is an interior parcel fronting on Vale Road. The City's General Plan and Zoning Ordinance both designate this as Institutional. The site is currently vacant. It is the former site of St. Anthony's Rehabilitation Hospital which was demolished in October of 2008. The parcel is ~20,909 sf. The applicant is proposing to integrate this parcel into the surrounding San Pablo Lytton Casino parking lot. The site plan indicates that ~39 parking space can be accommodated on the site. The applicant is proposing to install fencing and landscaping to match the design of the surrounding Casino parking lot.	<b>MND</b>	05/22/2009
2009042103	California Southern Baptist Convention (Jenness Park) Conditional Use Permit 00CUP-012 Tuolumne County --Tuolumne Conditional Use Permit 00CUP-012 to allow additional facilities and utilities to be constructed in a multi-phased program at Jenness Park recreation camp.	<b>MND</b>	05/22/2009
2009042104	Park Plaza Palo Alto, City of Palo Alto--Santa Clara The proposed project would include 50,467 sf of research and development uses and 84 apartment units (106,920 sf). The total building size would be 157,387 sf. A subterranean parking garage would hold 274 vehicle parking spaces. A 130 ft left turn pocket lane at the intersection of Park Blvd/Page Mill Blvd is proposed to alleviate project-related vehicle queuing on Page Mill Blvd.	<b>MND</b>	05/22/2009
2007051066	Revisions to the City of Redlands Downtown Specific Plan and Associated General Plan Amendments Redlands, City of Redlands--San Bernardino The proposed project involves revisions to the Downtown Specific Plan and corresponding amendments to the Redlands General Plan. The revisions to the Downtown Specific plan involve expansion of its boundaries, modification of its goals, and established of a development program that will provide a pedestrian-friendly, amenity-rich mixed-use environment in both the immediate and long-range future. The project proposes to extend the Specific Plan Area boundaries to generally include the area south of Redlands Boulevard, between Texas Street and Church Street. In addition, the proposed revisions to the Downtown Specific Plan will identify four achievable goals to guide the future of Redlands. These goals include (1) the promotion of economic vitality in Downtown Redlands by encouraging a mix of uses, (2) the creation of a pedestrian-oriented environment, (3) the maintenance and enhancement of a distinct Redlands character, and (4) the enhancement and extension of civic realm. Currently, the goals of the Downtown Specific Plan are to develop the Specific Plan area as an extension of downtown Redlands, to provide opportunities for the expansion and development of small business that provide local services, to provide public improvements for traffic circulation, flood control, utility services and aesthetic amenities that will attract new private investment and economic development, and to preserve historic buildings and sites. Buildout of the revised Downtown Specific Plan, which is assumed to be in 2025, would result in approximately 1,478 residential units, 931,851 sf of retail uses, 119,746 sf of restaurants, 330,000 sf of office space, 16 screens (3,703 seats) of theaters/cinemas, 100 rooms (20,000 sf)	<b>NOP</b>	05/26/2009

	of hotel uses, and 120,000 sf of civic uses. These equate to net increases of 1,421 residential units, 203,640 sf of retail uses, 78,650 sf of restaurants, 285,500 sf of office space, two screens (900 seats) of theaters/cinemas, 100 rooms (20,000 sf) of hotel uses, and 7,900 sf of civic uses.		
2009011040	Plaza Linda Verde Development Project California State University Trustees San Diego--San Diego The proposed Plaza Linda Verde project, which was developed in coordination with community input, would be a transit-based, mixed-use development that would provide several ground-floor commercial and upper floor student housing buildings, a campus green featuring a public promenade, an apartment complex for student housing, a five-story above grade (plus one level below grade) parking structure to accommodate primarily retail customers, and pedestrian malls in place of existing streets/alleys.	<b>NOP</b>	05/22/2009
2009042102	Natural Areas Management Plan San Francisco, City and County of San Francisco, Pacifica--San Francisco, San Mateo The San Francisco Recreation and Park Department developed a Significant Natural Resource Areas Management Plan to guide the management activities of the Natural Areas Program. The Natural Areas Program was created to protect and manage Natural Areas (fragments of unique plant and animal habitats) for the natural and human values they provide. The plan contains detailed information on the biology, geology, and trails within 31 Natural Areas, 30 of which are in San Francisco and one (Sharp Park) is in Pacifica. The plan is intended to guide natural resource protection, habitat restoration, trail and access improvements, other capital projects, and maintenance activities over the next 20 years. The proposed project is implementation of the plan.	<b>NOP</b>	05/26/2009
2009041109	Chevron Monitoring Wells on Hollister Avenue Santa Barbara, City of Santa Barbara--Santa Barbara The project consists of the installation of two groundwater monitoring wells in wetlands south of Hollister Avenue on Santa Barbara Airport property in the appealable jurisdiction of the Coastal Zone. Installation of these wells is required by the Santa Barbara County Fire Department as part of the site assessment for MTBE contamination associated with a former Chevron gas station that was located at 6470 Hollister Avenue. Five monitoring wells were previously installed outside the wetland area as part of the site assessment. Based on the data collected from existing wells, the County Fire Department has requested installation of 2 additional wells south and east of the existing wells to further delineate the down-gradient extent of MTBE in groundwater. The 6 inch wide wells would be manually drilled to a depth of ~10 ft. Soil samples would be collected from the boring material and the wells would be completed with 2 inch diameter Schedule 40 PVC casings that would extend above ground and be encased in a well monument set into a small concrete pad so that the wells can be located year-round. The proposed wells would be fully removed after one year of quarterly monitoring or as directed by the County Fire Department. The area occupied by the wells would then be filled in and replanted with native wetland vegetation. The proposed project also includes the restoration of 4 sf of habitat to mitigate the temporary loss of wetland habitat associated with the installation of the 2 wells.	<b>Neg</b>	05/22/2009

2003102139	Capay Hills Golf Club Yolo County --Yolo This project will install a diversion pump within the stream zone Cache Creek to provide additional water to the existing Yocha-De-He Golf Course. Each year following initial construction of the pump foundation, this diversion pump will be removed each fall and reattached each spring. The diversion pump will consist of a removable prefabricated steel pump station that will be attached to a foundation with anchor bolts. The foundation will be constructed of 20 cubic yards of reinforced concrete with dowelled connections to the top of an existing rock formation. All construction and any subsequent removal and replacement of the pump and associated pipes and frames will be conducted during the low flow period and will be outside of the stream flow. The pump station includes two 1500 GPM centrifugal pumps. There will be two 12 inch diameter, screened, removable pump intake pipes, and two 10 inch diameter removable, pump discharge pipelines installed on grade. Pumped water will be conveyed by pipeline to a storage tank located nearby on Trust Land, at the southeast corner of the golf course. A pump and pipeline system connected to the storage tank will supply irrigation water to the golf course, and is also capable of pumping water elsewhere on tribal property. The existing golf course irrigation supply pipeline empties into	<b>NOD</b>

	<p>Five Pond, the headwater of the golf course northerly water feature stream. Water flows via gravity from Five Pond through water feature stream into North Lake. A pump station located on the southerly end of North Lake is used to recirculate water through Five Pond during the day. At night, the water is pumped into South Lake, which has an operational capacity of 110 acre ft. A pump station at the north end of South Lake (where it is blended with reclaimed water) irrigates the golf course. Two trees, one willow and one walnut, will be removed from the stream zone to construct the diversion pump foundation. Additionally, ~50 linear ft (an area of 2500 sf) of riparian shrubs and vines will be cleared to construct the diversion pump foundation.</p>		
2005051146	<p>Airport Boulevard Realignment Caltrans #5 Salinas--Monterey</p> <p>The CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game code to the Project applicant. Caltrans proposes to re-align the existing channel which currently flows parallel to De La Torre Street. The channel needs to be moved to the east a variable distance ranging from 20 to 80 ft. The existing channel has ~10 ft bottom with 1.5:1 side slopes. The new channel would have a 12 ft bottom and also 1.5:1 side slopes. When the channel is re-aligned, the existing culvert under Airport Blvd will be replaced with a new 12 ft x 12ft concrete box culvert. Rock slope protection will be placed along the banks at the outlet of the culvert to protect the channel from potential erosion due to the sharp turn. This particular location always has irrigation run-off water present year-round. A diversion plan submitted as part of the Notification.</p>	<b>NOD</b>	
2007012115	<p>San Francisquito Creek Pump Station Installation Project Palo Alto, City of Palo Alto--Santa Clara</p> <p>The proposed new pump station site is located east of East Bayshore Road along the US Highway 101 frontage road. The 1.2 acre site is owned by Santa Clara Valley Water District (SCVWD) and currently leased by Ciardella Garden Supply and operated as a landscape business. San Francisquito Creek borders the site to the north, with single-family residences across the creek in East Palo Alto. Immediately west of site is Yeaman's Auto Body repair shop and Palo Alto Upholstery. A self storage facility and the International School are located south of the site along Laura Lane. Adjacent to the International School and east of the proposed site is a riparian habitat created by SCVWD as off-site mitigation for the Matadero And Barron Creeks Long-Term Remediation Project. The City will be acquiring an easement from SCVWD to construct the facility on site. The purpose of the proposed pump station is to intake storm water runoff and drainage from surrounding sources and convey water into San Francisquito Creek. The project components include the storm water pump facility and the modification and upgrade of existing creek outfall facilities. The pump station would be located ~150 to 200 ft to the south of the existing San Francisquito Creek levee, thereby allowing for the construction of future flood protection projects on the south bank, such as widening the channel or bridge, without relocating the pump station. The proposed 1,200 sf control building would house the storm water pumps and electric equipment. The building is designed with an "L" shape to wrap around the east and south sides of the below grade water basins. Building materials includes concrete and zinc roofing. Louvered vents are proposed on the south and east walls for the required ventilating of the generator room. Between the proposed</p>	<b>NOD</b>

	pump station building and the creek, a natural discharge channel, measuring ~80 ft in width and 225 ft in length would be installed. The proposed landscape design surrounding the pump station includes native type plants such as California Bay, Casaurina (She Oak), and Melaleuca and native grass seed mix.		
2008021024	Academy of Our Lady of Peace San Diego, City of San Diego--San Diego CUP and NDP. The CUP would allow a maximum annual enrollment of 750 students but preclude the rest of the proposed project requested by the applicant. On March 3, 2009, the San Diego City Council approved a parking modified Alternative 9.1B "No Project/No Development" rather than the proposed project; therefore construction of a 21,770 sf, 2 story classroom and a 2 level parking structure, and demolition of 3 existing single family homes currently owned by the Academy would not occur with this project. In addition, the Academy shall ensure dedicated on- and off-site parking of 104 spaces.	<b>NOD</b>	
2008021118	Torrey Brook II San Diego, City of San Diego--San Diego Planned Development Permit, Site Development Permit (ESL), Rezone, Street Vacation, and Tentative Map to rezone (from AR-1 to RS 1-13), and subdivide 2.13 acres of vacant land into three lots. The lots would consist of one open space lot of 1.5 acres, and 2 residential lots on the remainder. Two, 2-story, single-family residences would be constructed.	<b>NOD</b>	
2009011017	Serras Seawall Big Bear Municipal Water District Big Bear Lake--San Bernardino CDFG is executing a Lake or Streambed Alteration Agreement (SAA # 1600-2008-0141-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Ms. Carole Serras, 13301 Summit Circle, City of Poway, State of California, 92064, Phone (858) 679-1200. The Applicant is proposing to construct a vertical seawall on the property located at 39583 Lake Drive (APN 307-023-03). The seawall will be ~10 ft wide by 25 ft long and will be constructed from reinforced concrete, blocks, and 20 cubic yards of earthen fill. The total project footprint is 436 sf, of 0.01 acres. The vertical extent of the seawall will reach an elevation of 6,745 ft above sea level (ASL). The established high water level for Big Bear Lake Reservoir is 6,743 ASL.	<b>NOD</b>

	within the Kings River. Sediment will be deposited along a 400-foot segment of the bank of the Kings River, located along the property line of the Kings River Resort. Levee slopes and stream banks within the property boundary will be mowed.		
2009048258	Santa Rosa Accelerated Charter School Lunch Shelter Santa Rosa City Schools Santa Rosa--Sonoma The project consists of construction of a 20' by 30' Department of State Architecture approved shade structure over an existing eating area that serves existing charter school students. No new lighting is proposed and the shade structure will be of similar height to other buildings on the site. The shade structure will not increase student enrollment and is proposed in a currently disturbed area.	NOE	
2009048259	Gas Chlorine to Liquid Chlorine Disinfection Health Services, Department of Garden Grove--Orange Convert all well sites from chlorine gas to sodium hypochlorite for the purpose of disinfection. Well 16, 19 to 29.	NOE	
2009048260	Merrill Hall Communications Conduit Installation Parks and Recreation, Department of --Monterey Install approximately 270 feet of underground communications conduit and cable between Phoebe Heart Social Hall and the historic Merrill Hall at Asilomar State Beach to provide live audio-visual communications and to allow for future removal of overhead telephone lines. Work will dig an approximate 4" wide x 24" deep trench using a 4" trenching shovel along existing walking path and install a 4" wide PVC conduit. Additional work will dig a 18"x24" hole to install a pull box near Social Hall end of the trench to allow for replacement and install of new cables.	NOE	
2009048261	Recycled Water for Landscape Irrigation - WMWD Murrieta Division Western Municipal Water District Murrieta--Riverside Provide recycled water in lieu of potable water for landscape irrigation by connection to existing recycled water distribution pipelines.	NOE	
2009048262	Feather River Bridge Geotech Drilling Caltrans #3 --Butte Caltrans proposes to conduct drilling to gather data that is needed for the design of the Feather Bridge Retrofit Project on State Route 70.	NOE	
2009048263	Main Street Architectural Review Entitlement for 24 W. Main Street Lone, City of Lone--Amador The applicant, Volcano Communications, is proposing to rebuilding the existing facia of the building by replacing the siding, windows, doors, and door trim with like or substantially similar materials. Planning Commission has recommended to the City Council approval of the Architectural Review entitlement.	NOE

<b><u>Documents Received on Friday, April 24, 2009</u></b>			
2006041027	<p>Santa Barbara Botanic Garden Vital Mission Plan Santa Barbara County --Santa Barbara</p> <p>The applicant is proposing to revise their existing CUP and approve a Development Plan to allow the development of approximately 25,884 square feet of net additional building area for administrative, research, educational, and residential uses. The project also proposes to add a newly acquired 13.15 acre parcel to the CUP (approximately 78 acres total), improve its internal circulation and parking, install fencing, improve and expand its trail system, improve fire protection for all existing and proposed development, and extend municipal sewer and water service to serve the entire project site. Increases in staff, visitors, classes, and special events are proposed and anticipated. Upon completion of the project, the Garden would include a total of 65,442 square feet of development, with a net increase of three residential units.</p> <p>The Draft EIR was originally released July 4, 2007, and public comment period closed September 7, 2007. Analysis conducted in response to public and agency comments identified significant new impacts and information requiring recirculation. Therefore, we are recirculating the complete revised project description and complete revised Cultural Resourced and Fire Protection sections of the Draft EIR.</p>	EIR	06/08/2009
2007011033	<p>Hynes Dairy Establishment Tulare County Tulare--Tulare</p> <p>The proposed Hynes Dairy Project will establish a new dairy on a site in the AE-40 Zone. As proposed, the dairy facility will accommodate a maximum of 1,600 Holstein milk cows and support stock for a total of 2,741 animal units. The proposed dairy facility will have freestall housing with a flush system for the milking herd and the support stock will be housed in corrals with flushed alleys. The site has been leveled and developed for irrigated field crop production and is double cropped with alfalfa and corn silage/wheat silage. Not all the crop acres are contiguous to the dairy facilities.</p>	EIR	06/08/2009
2007072020	<p>Wildhorse Ranch Davis, City of Davis--Yolo</p> <p>The Wildhorse Ranch Project consists of 25.79 acres and includes an amendment of the General Plan land use designation of the site from Agriculture to 5 uses; Residential High Density, Residential Medium Density, Neighborhood Greenbelt, Natural Habitat Area, and Urban Agricultural Transitional Area. The project also includes a Rezone from P-D #3-89 to a new Planned Development. The General Plan land use designation amendment request is also subject to Measure J voter approval. The proposed project includes the development of up to 191 residential units. The proposed project also includes public open space, greenbelts, bike paths, and additional land to expand the greenbelt/agricultural buffer between actively farmed land and residential development.</p>	EIR	06/08/2009
2008022065	<p>Milipitas Square Mixed Use Development Milpitas, City of Milpitas--Santa Clara</p> <p>The project proposes to change the land use designation of 16.85 acres from General Commercial to Very High Density Mixed-Use. The project would eventually redevelop the existing 162,000 sf commercial center through phases</p>	EIR	06/08/2009

	into a multiple building and story mixed-used development. The site could accommodate up to 900 dwelling units and 175,000 sf of commercial development. A hotel could be developed in lieu of some of the residential units.		
2008072106	Central Estates Phase II Final Map Subdivision, FMS-07-08/CUP-07-29 Humboldt County --Humboldt A Final Map Subdivision, Planned Unit Development and Conditional Use Permit application for a proposed development which includes a mix of housing types, some open space and trails. Housing types including: 86 single-family lots (86 dwelling units), 73 'urban type lots' to accommodate 81 townhomes or similar type dwelling units and 88 multi-family units, and 6 miscellaneous lots for drainage, trails, and recreation. Total of all residential units proposed is 258 dwelling units, of which 108 units will be 'affordable' type units scattered throughout the development. A total of 165 lots are proposed for the 33.33 acre parcel which is zoned Residential Multi-family. A conditional use permit is required to allow for the single family residential lots in a residential multi-family zone. A Planned Unit Development approach is required to allow for reduced lot sizes and setbacks for some proposed lots.	<b>EIR</b>	06/08/2009
2007111018	Hollywood Park Redevelopment Project Inglewood, City of Inglewood--Los Angeles The Proposed Hollywood Park Redevelopment Project consists of the redevelopment of the approximate 238-acre Racetrack Grandstand and the Pavilion/Casino and the construction of a new mixed-use development. The Proposed Project includes demolition of most of the improvements and structures on the Project Site, including the Hollywood Park Racetrack and grandstand, and the new construction of approximately 2,995 dwelling units, 620,000 sf of retail space, 75,000 sf of office/commercial space, a 300-room hotel including 20,000 sf of related meeting space, and 10,000 sf of community serving uses for the Home Owners' Association (HOA).	<b>FIN</b>	
2008072011	Napa County Housing Element Update Napa County Napa--Napa The County is proposing to rescind and replace the Housing Element of its General Plan with an updated Housing Element prepared in conformance with State law. The updated element will contain policies and programs to encourage production of housing, and will also include quantitative objectives for the planning period which extends to 2014 and an inventory of housing sites including sites at Angwin, Moskowitz Corner, Spanish Flat, and Napa Pipe. Concurrent with the updated Housing Element, the County proposes to adopt conforming amendments to other sections of the GP, as well as amendments to the Safety and Conservation Elements Update, State comments on the draft Housing Element Update, and a draft of other proposed GP amendments are available on the Country's website.	<b>FIN</b>	
2009041112	Arch Beach Heights View Park DR 09-073 and CDP 09-12 Laguna Beach, City of Laguna Beach--Orange View and native trail park.	<b>MND</b>	05/26/2009

2009041113	Shorees Minor Subdivision San Diego County --San Diego The project is a Tentative Parcel Map to subdivide a 13.16 acre lot into 4 parcels ranging from 2.002 acre net to 4.003 acre net. The project site is located on Dehesa Rd in the Crest-Dehesa Community Planning Area, within unincorporated San Diego County. The site is subject to the General Plan Regional Category Estate Development Area, Land Use Designation (17) Estate Residential. Zoning for the site is A70. The site contains an existing single-family residence that would be retained. A private road connecting to Dehesa Rd will serve as access road to parcels 3 and 4 and another private road connecting to Dehesa Rd will provide road access to parcels 1 and 2. The project would be served by on-site septic systems/sewer and imported water from the Padre Dam Municipal Water District.	<b>MND</b>	05/26/2009
2009041114	Palma de La Reina L Grading Permit San Diego County --San Diego The project is a grading permit on a 4.31 acre site in the San Dieguito Community Planning Area. The proposed grading is 2,000 cubic yards of cut and 5,000 cubic yards of fill with a maximum cut slope of 2.5 ft and a maximum fill slope of 4.25 ft. The ultimate land uses planned for the proposed project site will consist of the following: 9,559 sf of retail space with up to 14 single story retail stores; 19,500 sf of two story office space with up to 22 offices; and 54 apartment units (53,496 sf of residential) in 9 two story buildings. The proposal will also include a 2 ft retaining wall, one new curb cut on Via De Las Palmas, and modification of 2 curb cuts on Cancha de Golf. There will be 132 parking spaces for office/retail and 87 parking spaces for the apartments. The project will take access off Cancha deGolf and Via de las Palmas.	<b>MND</b>	05/26/2009
2009041115	TPM 20720RPL^2; Preski/Gonya Minor Subdivision San Diego County --San Diego The project proposes a 2 parcel minor subdivision of a legally created, 36.27 net acre lot. The subject project site is located at 16887 Skyline Truck Trail in the Jamul-Dulzura Community Planning area, within unincorporated San Diego County. The site is subject to the Rural Development Area Regional Category, with a General Plan (18) Multiple Rural Use Designation (4, 8, or 20 acre minimum lot size). Zoning for the site is A72 General Agriculture, allowing 0.125 dwelling units per acre, (8 net acres minimum lot size). The site contains an existing mobile home that is to either be moved or obtain a septic permit prior to recordation. Access will be provided by a driveway connecting to Skyline Truck Trail. The project will be served by an on-site septic system and private wells.	<b>MND</b>	05/26/2009
2009041116	General Plan Amendment/Zone Change 09-0023, Annexation No. 620 Bakersfield, City of Bakersfield--Kern A concurrent General Plan Amendment/Zone Change Annexation. The General Plan Amendment from LMR/LR to OC (Office Commercial) and GC (General Commercial) on 25.6 acres and a zone change from R-1 (One Family Dwelling), R-2 (Limited Multiple Family Dwelling), E (Estate - 10,000 sq ft minimum lot size) and C-2 (Regional Commercial) to C-O/PCD (Professional and Administrative Office/Planned Commercial Development) and C-2/PCD (Regional Commercial/Planned Commercial Development) on 25.6 acres. The proposal also includes the annexation of the site to the City of Bakersfield.	<b>MND</b>	05/26/2009

<b><u>Documents Received on Friday, April 24, 2009</u></b>			
2009041118	Avenue I at State Route 14 Interchange Improvements Caltrans #7 Lancaster--Los Angeles NOTE: Review Per Lead  The project consists of the widening of Avenue I in the City of Lancaster to provide 3 through lanes in each direction and dual left-turn lanes from both the eastbound and westbound direction to access SR-14. A new southbound loop exit ramp at Avenue I and 23rd Street West is proposed along with removal of the existing southbound exit ramp that terminated on the north side of Avenue I.	<b>MND</b>	05/29/2009
2009041121	Rosemeade Extension Recycled Water Project Phase II Upper San Gabriel Valley Municipal Water District Rosemead--Los Angeles NOTE: Review Per Lead  Construction of 2.73 miles of pipelines in city streets to supply tertiary treated recycled water from the Los Angeles County Sanitation Districts Whittier Narrows Water Reclamation plant for landscape irrigation and cooling tower makeup in the City of Rosemead.	<b>MND</b>	05/27/2009
2009041122	UCLA Pauley Pavilion Renovation & Expansion Project University of California, Los Angeles --Los Angeles UCLA proposes to renovate the existing 180,000 gsf Pauley Pavilion and construct ~57,000 gsf for a new entry concourse and a subterranean expansion. The 25,649 gsf subterranean expansion would consist of 2 levels, where the lower level would accommodate new space for team lockers and support space, while the upper level would accommodate a 750 person multi-purpose meeting facility. Pauley Pavilion would be renovated to improve operations, replace old building systems (ie HVAC, electrical, plumbing), life safety systems (ie fire), improve accessibility, upgrade audio/visual capabilities, and upgrade the UC seismic rating from "Fair" to "Good." Seating would increase from ~12,780 to 13,816.	<b>MND</b>	05/26/2009
2009041123	Edison Park Master Plan Huntington Beach, City of Huntington Beach--Orange The park master plan proposes to reconfigure existing open space areas, add recreational amenities, reconfigure and expand the existing parking facility, construct a new parking facility, install new landscape and hardscape improvements, and install 4 practice soccer fields and a multi-purpose field. The master plan is proposed to be carried out in 4 phases of construction over 8 yrs. The 40 acre park is currently developed with a 132 space parking lot, 17,000 sf community center, 2 lighted baseball diamonds, batting cages, tennis courts, basketball courts, racquetball courts, picnic areas, play areas, volleyball courts, and a system of concrete walkways throughout the park. In addition, the Magnolia Fire station is located on park grounds. With the exception of the existing parking lot, no changes are proposed to the existing park amenities.	<b>MND</b>	05/26/2009

<b><u>Documents Received on Friday, April 24, 2009</u></b>			
2009041124	Mission Creek South Coast Conduit Crossing and Fish Passage Improvement Project Cachuma Operation and Maintenance Board Santa Barbara--Santa Barbara NOTE: Review Per Lead  The purpose of this project is to replace a section of the South Coast Conduit (SCC) to protect it from damage by scour; remove an existing fish passage barrier; and improve the stream channel to reduce lateral scour of the banks. Mission Creek and its watershed contain a viable population of southern California ESU steelhead ( <i>Oncorhynchus mykiss irideus</i> ), which is a federally-listed as endangered species, and enhancement of this population is a high priority.	<b>MND</b>	05/27/2009
2009042109	Renovation and Remodel of the California Shakespeare Theater Facility County File LP08-2050 Contra Costa County Orinda--Contra Costa The applicant is requesting a land use permit to modify County File #LP87-2040 for improvements and upgrades to the existing theater site. The proposed development includes the demolition of existing accessory buildings, construction of a 7,850 sf building adjacent to the amphitheater, a new 675 sf building situated south of the existing amphitheater, new ticket booth, and upgrades of the existing amphitheater. The renovations to the amphitheater will increase the number of seats from 550 to 560. The site improvements will also include new landscaping, paving, grading of ~2,200 cubic ft, improvements to infrastructure to install a new water system, new sanitary and storm drainage systems, new site lighting, and grading of the parking area to facilitate drainage. The development will result in the removal of 16 code-protected trees, and work within the dripline of 7 trees. The applicant has indicated that the construction of the proposed improvements will be divided into 3 phases. The existing uses for the theater complex will not change as a result of the upgrades, and the increase in the number of persons working at, or coming to the site is not significant.	<b>MND</b>	05/26/2009
2009042115	Safe Routes to School (SR2S) / Non-Motorized Transportation Pilot Program (NTPP) Projects Tiburon, CA Tiburon, City of Tiburon--Marin NOTE: Review Per Lead  The Non-Motorized Transportation Pilot Program is intended to increase the mode share of bicycling and walking for everyday transportation. The physical improvements associated with this program would include upgrading 3 existing walking paths within Tiburon at the following locations: 1. Walking path at Lower Raccoon Lane from Centro West Street to Mar West Street. 2. Walking Path connecting 2 segments of Cayford Drive across the lot at 21 southridge Drive. 3. Pedestrian Steps and Walking Path connecting Jefferson Drive to Reed Ranch Road. The construction would take place during the summer/fall of 2009 and would not exceed 30 days.	<b>MND</b>	05/27/2009

Patrick, Owner Tehama County Red Bluff--Tehama To establish a commercial dog kennel in an R1-A-MH-B:435; One-Family Residential-Special Animal Combining-Special Mobilehome Combining-Special Building Site Combining (435,000 sf, 10 acre minimum) Zoning District. The project is located west of Red Bluff, on the south side of Highway 36W ~3,600 ft east of the Highway 36W / Westgate Road intersection. Approximately 2.37 acres.	<b>Neg</b>	05/26/2009
2009042111	Corralitos Creek Fisheries Enhancement Project (Sand Filter Plant to Membrane Filtration Plant) Watsonville, City of --Santa Cruz The City proposes to upgrade the existing slow sand surface water treatment facility at the Corralitos Filter Plant located in the community of Corralitos with a membrane treatment system. Converting the existing sand filter plant to a membrane filtration plant would allow the City to shift the majority of its water diversion to the winter months, when water is more plentiful. As proposed, the existing structure that houses the sand filter will be replaced with a new structure within the same building envelope. Three new solids dewatering lagoons will be added within existing landscaped areas. The new building is designed to preserve the architectural style of the existing facility. All new construction will be screened with vegetation to minimize visual impacts from Eureka Canyon Road.	<b>Neg</b>	05/26/2009

2008081091	<p>currently covers approximately 6,531 acres. The intent of the project is to allow for amendments to the City of Bakersfield's original Hillside Development Combining Zone Ordinance (Bakersfield Municipal Code, Chapter 17.66), adopted August 11, 1999. The Amended HD Ordinance is intended to "define and implement the goals and policies of the Metropolitan Bakersfield General Plan as they relate to the preservation and maintenance of hillsides as a scenic resource of the City and to protect the general public from the threat of wildlife, hillside instability and landslides." The Amended HD Ordinance applies to areas within the City zoned HD (Hillside Development). In particular, the Amended HD Ordinance seeks to fulfill the implementation measures of the Open Space Element of the Metropolitan Bakersfield General Plan.</p>	<b>NOD</b>	
2008081091	<p>Riverside County Fire Dept.'s Cajalco Fire Station and Improvements to WMWD's Operations Center Riverside County Riverside--Riverside</p> <p>The project consists of five main components: (1) construction and ongoing operation of a new approximately 8,000 square foot, 12-person (Heavy Urban Station) Cajalco Fire Station (the Fire Station), which will replace the existing Cajalco Fire Station located at 17650 Cajalco Road, by the Riverside County Fire Department and a new 1,200 square foot Meeting Room that will accommodate up to 75 people on approximately 2 acres; (2) construction and operation of an approximately 19,000 square foot operations building for approximately 90 staff and an approximately 12,600 square foot shop building, installation of a natural gas refueling station and chlorine scrubber, 195 covered parking stalls, and widening of the driveway/internal site access road from two lanes to four lanes on 7.6 acres at WMWD's Operations Center at 16451 El Sobrante Road in unincorporated Riverside County; (3) installation of a 15,000 gallons per day (gpd) package wastewater treatment plant (WWTP) or as an alternative to the construction of a lift station and a 4- to 6-inch diameter force main to one of two WMWD collection systems; (4) removal of a subsurface septic system; and (5) installation of a traffic signal on El Sobrante Road at the entrance to WMWD's Operations Center.</p>	<b>NOD</b>	
2008082020	<p>Lagunitas Road Bridge Replacement Project Ross, City of Ross--Marin</p> <p>The proposed project would replace the existing bridge with a new structure on essentially the same alignment and in the same location. The new bridge would be designed to improve waterway capacity within Corte Madera Creek by eliminating bridge piers in the waterway and increasing the elevation of the bridge deck. The bridge design was developed to best achieve the project objective while avoiding or minimizing adverse effects to the environment. The proposed project is eligible for replacement funding through the Federal Highway Bridge Program. The project is anticipated to be constructed during the summer/fall of 2009-2010.</p>	<b>NOD</b>

	located in Promenade Park.		
2008111043	Well 6711-1 Coachella Valley Water District La Quinta--Riverside The Well 6711-1 project is proposed on an approximate one-acre site containing Booster Station 06711 that is in operation and located on the southern portion of the site. The site is surrounded by an existing masonry wall and located within the Hideaway Country Club. Project construction includes drilling, casing, testing, and developing a domestic water well including the installation of a 250-horsepower motor, pump, and other aboveground and underground appurtenances complete and in place to connect the well and pumping plant to the domestic water distribution system. The purpose of the Well 6711-1 project is to provide approximately 1,800 gallons per minute (gpm) of additional domestic water service and fire flow to the Lower La Quinta Pressure Zone.	<b>NOD</b>	
2009011080	Wheeler Ridge Division of Oil, Gas, and Geothermal Resources --Kern Project proposes activities necessary to drill and test an exploratory oil and gas well.	<b>NOD</b>	
2009022078	Slender False Brome Intergrated Pest Management Program Midpeninsula Regional Open Space District Woodside--San Mateo The purpose of the Slender False Brome Intergrated Pest Management Program is to control an estimated 100 acres of land that have been infested, or that could be infested in the future, by slender false brome ( <i>Brachypodium sylvaticum</i> ), an invasive weed. Slender false brome competes with native forest and grassland species, inhibits tree seedling establishment, and alters native fire regimes, threatening the biodiversity of California's redwood forests and other sensitive habitats. The proposed program would be implemented on an estimated 100 acres throughout a 9,200-acre project area in unincorporated San Mateo County, the town of Woodside, and the town of Portola Valley, utilizing cooperative control efforts by public and private landowners. In 2009, and perhaps in future years depending on funding, MROSD will reimburse landowners for treatment of slender false brome on non-MROSD property.	<b>NOD</b>	
2009032019	Eggink Minor Land Division (PMLD T20080043) Placer County Roseville--Placer Project proposes to divide 2.64 acres into three parcels.	<b>NOD</b>	
2009032020	Non-Potable Water System - Phase I Patterson, City of Patterson--Stanislaus The project assessed by this initial study includes the installation of ~12,000 linear ft of 10" to 16" piping, associated valves, fittings, etc. along public rights-of-way and easements along Keystone Pacific Parkway, the Salado Creek Pedestrian Path, American Eagle Avenue, M Street, and N 6th Street, construction of a new non-potable water well to be located at the intersection of Keystone Pacific Parkway and Park Center Drive, and the rehabilitation of an existing well for non-potable uses located at the terminus of North 6th Street, ~1,000 ft north of the intersection with M Street.	<b>NOD</b>

	distribution system.		
2009048276	Handy Andy Booster Pump Supply Line Sweetwater Springs Water District --Sonoma The project would replace an existing 4-inch water main with a 6-inch water main. The main replacement would proceed down a landscaped hill utilizing directional drilling for approximately 100 feet from Old Monte Rio Road to an existing driveway. Approximately 200 feet would then be open trenched along the driveway to intertie with the existing water main adjacent to Highway 116. No expansion of service is proposed. The project improves inadequacies in the existing water distribution system.	<b>NOE</b>	
2009048277	West Goshen Water Meter Installation Project Tulare County --Tulare The project will install residential water meters at each connection served by the water system. This will benefit all users of the system by encouraging responsible use and conservation of the water resource.	<b>NOE</b>	
2009048278	Seville Water Line Replacement Project Tulare County --Tulare The project will replace old and leaking water distribution lines to benefit all users of the system.	<b>NOE</b>	
2009048279	Common Landowner Transfer of up to 12,000 AF of Dudley Ridge Water District 2009 State Water Project Table A Water Resources, Department of --Kern, Kings Dudley Ridge Water District (DRWD) is a State Water Project (SWP) contractor located in Kings County. The proposed project is the transfer by DRWD of up to 12,000 acre feet of 2009 Table A water (allocated to Sandridge Partners) to the member units of KCWA (LHWD, BWSD, BMWD, and SWSD). Sandridge Partners, who farms in both DRWD's and KCWA's service areas, would benefit from transferring a portion of their DRWD water to their landholdings and farming operations in LHWD, BWSD, BMWD, and SWSD.	<b>NOE</b>	
2009048280	Rock Creek Fire Crew Training Site Forestry and Fire Protection, Department of --Amador The proposed project is located on private property used primarily for cattle ranching. In order to adequately prepare for the fire season, fire crews require firefighting training in handline construction in order to effectively develop control lines constructed by hand (known as "handlines") on going wildland fires. Fire crews are organized in a line with hand tools used for a specific function. Tools typically used in handline construction include first and second chainsaws as lead for cutting brush followed by pulaskis for chopping, grubbing, root and stump removal, trenching and, for line completion, McLeods and shovels are used to scrape a portion of the line to bare mineral soil.	<b>NOE</b>

	Proposal to repair 160 ft of roadway by constructing a cribwall on Trout Gulch Road, 1.41 miles from the intersection of Soquel Drive and Trout Gulch Road in Aptos. The project requires a Riparian Exception and Environmental Review.		
2009042121	Little River State Beach Restoration and Enhancement Plan Parks and Recreation, Department of --Humboldt NOTE: Review Per Lead	<b>MND</b>	05/27/2009
	California Department of Parks and Recreation proposes the restoration and enhancement of coastal dune habitats within Little River State Beach (LRSB). The following summary of the proposed action: The plan will restore the foredune and dune hummocks (28 ha); stabilized backdunes (24 hectares); herbaceous dune swales (1 hectare); woody dune swales (2 hectares); and a northern riparian wetland (4 hectares). The restoration will involve the removal of invasive exotice species such as European beachgrass ( <i>Ammophila arenaria</i> ) and yellow bush lupine ( <i>Lupinus arboreus</i> ) and the restoration of natural dune process and topography. The Plan proposes improvements to the existing parking lot on the boundary between Clam Beach County Park (CBCP) and LRSB and the creation of 2 new parking areas located on the east side of Clam Beach Road. Several trails will be developed including a new 1.09 kn (0.68 mile) ADA compliant loop trail with 3 viewing platforms originating from CBCP/LRSB parking lot, and an additional 3.88 km (2.41 mile) of pedestrian trials in a serious of stacked loops that will originate from the existing and proposed parking areas. A portion of the new pedestrian trail will also provide shared access for equestrians who will have access to 2.16 km (1.34 mile) of new and existing trail. The Plan also provides for the continuation of the California Coastal Trail through LRSB from the Parks southern boundary to Little River. This will provide access for pedestrians, equestrians, and cyclists. Finally, the Plan proposes improvements to regulatory and interpretative signs, and a self-guided interpretive program consisting of interpretive signs and panels will be installed along the ADA compatible trail.

	Stanislaus County and its incorporated cities.		
2009041125	Ritz-Carlton Expansion Dana Point, City of Dana Point--Orange NOTE: Review Per Lead	<b>Neg</b>	05/27/2009
	<p>The Ritz-Carlton Hotel proposes additions and upgrades including the creation of 27 new guest rooms through the conversion of existing meeting space, infill additions between wings of hotel, and new detached casitas, a new meeting space addition, meeting room alterations, and enhancements to the hotel's exterior hardscaped, landscape, pool, and guestroom patio areas. The proposal includes a request for a height variance due to current structure's nonconforming overall building height and the request to make additions equaling the existing structure height, and an amendment to the shared parking program based on the reapportionment and addition of the different uses associated with the hotel operation.</p>		
2009041128	2006-2014 General Plan Housing Element Santa Ana, City of Santa Ana--Orange NOTE: Review Per Lead	<b>Neg</b>	05/28/2009
	<p>The proposed project consists of the update of the City of Santa Ana's General Plan Housing Element, providing the implementation strategies for effectively addressing the housing needs of Santa Ana residents through the planning period that ends in 2014. The Southern California Association of Governments (SCAG) prepares housing construction needs goals for each city in the Southern California as part of the Regional Housing Needs Assessment (RHNA). Santa Ana's RHNA for the planning period that ends in 2014 is 3,393 units.</p>		
	<p>The City's draft General Plan Housing Element consists of an updated determination of housing needs within the City, and revisions to policies and programs the City would implement to address those needs. The draft 2006-2014 Housing Element identifies adequate sites for potential residential/mixed-use development that could accommodate any unmet portion of the RHNA by 2014. The discretionary "project" for this Initial Study is the draft Housing Element, not the individual subsequent Housing development projects of required general plan, Amendments, and/or zone changes needed to implement the respective projects.</p>		
2009041132	Permanent Asphalt Manufacturing Facilities, Matich Corporation San Bernardino County --San Bernardino	<b>Neg</b>	05/26/2009
	<p>The proposed project consists of a permanent asphalt manufacturing facility located on 4 acres with an average annual production of 450,000 to 550,000 tons of asphalt, which includes 70,000 to 85,000 tons of recycled asphalt (RAP). The proposed facility would be a state of the art asphalt production plant with a 200 ton silo (with a future second 200 ton silo) for dispensing product into asphalt delivery trucks, operating an average of 140 to 170 truck tips per day.</p>

<b><u>Documents Received on Monday, April 27, 2009</u></b>			
2009042118	Use Permit #06-46, Teri Reynolds Tehama County Corning--Tehama To establish an Outdoor Wedding and Events Site for up to 350 guests in an R1-A-MH-B:86; One-Family Residential-Special Animal Combining-Special Mobilehome Combining-Special Building Site Combining (86,000 sf, 2 acre minimum) Zoning District. Access to the site will be from Rhode Island Avenue, which is off of Illinois Avenue ~500' south of the South Avenue / Illinois Avenue intersection. APN:091-030-72. Approximately 5.52 acres.	<b>Neg</b>	05/26/2009
2009042119	Small and Large Wind Energy Systems Ordinance Yolo County --Yolo NOTE: Review Per Lead  The Small and Large Wind Energy Systems Ordinance employs a tiered review process for small and large wind energy systems, based on the height of the wind tower, the size of the parcel, the zone district where it is to be located, and whether the wind system conforms to a list of design standards. Small wind systems (defined as over 35 ft in height) would be allowed in agricultural, rural residential, commercial, and industrial zones, and would be prohibited in urban residential zones. Wind turbines under 35 ft in height would be allowed with a building permit only. For large wind energy systems (generating more than 50 kilowatts), all applications would be subject to a Major Use Permit and be referred for approval to the Planning Commission. Large wind energy systems would be allowed only within agricultural zoning districts and would be required to conform to more restrictive setback and other regulations than small energy systems.	<b>Neg</b>	05/28/2009
2004102018	East Natomas Education Complex Supplemental Impact Report Grant Elementary School District Sacramento--Sacramento NOTE: Review Per Lead  The Twin Rivers USD has prepared the Draft SEIR to address changes to the Grant Joint Union New High School/Middle School Project (now referred to as the East Natomas Education Complex, for which a Final EIR was approved in 2006. Proposed changes to the original project include construction in 4 phases, with phase 1 including grading and building shell construction, phase 2 designed to accommodate 550 students, phase 3 designed to accommodate 1,000 students, and phase 4 designed to accommodate 2,800 students. Other changes include the reconfiguration of ancillary facilities, such as the sports stadium; delayed construction of the project, depending on funding; temporary access from Sorrento Road; relocation of the detention basin to the south of the southwest corner of the project site; excavation of the the project sit, and stockpiling of 200,000 cubic yards of cut; changes to the provision of public services; landscaped irrigation via an onsite groundwater well; and annexation of the project site into the City of Sacramento.	<b>SIR</b>	06/12/2009

2008011047	Foothill Ranch Wal-Mart Expansion Lake Forest, City of --Orange The proposed project consists of the expansion and remodeling of an existing Wal-Mart store located at 26502 Towne Centre Drive. The project site is approximately 14.195-acre and located in Planning Area 6 of the Foothill Towne Centre development. The expansion consists of the addition of 41,283 sf of commercial/retail uses to the existing 135,960 of structure, resulting in a 177,243 sf Wal-Mart Supercenter with a full-service grocery department. The project would include a new entrance for the grocery uses and additional loading facilities with two truck doors. In addition, the proposed expansion includes additional square footage for use as a banking center, beauty salon, optometrist's office, and other accessory uses. The expanded store would operate on a 24-hour basis. The proposed project would result in short-term significant unavoidable adverse impacts related to construction noise.	<b>NOD</b>	
2008042097	New California Properties Office Building San Ramon, City of San Ramon--Contra Costa The applicant proposes to develop a 4,900 sf office building with parking adjacent to a tributary to San Ramon Creek. The project is located at 6 Broadwalk Place, in the City of San Ramon, Contra Costa County, California. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2008-0549-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Rick Boysal/New California Properties.	<b>NOD</b>	
2008052023	Lone Wolf Cycle Shop (PMPA T20070834) Placer County Auburn--Placer Project proposes a Minor Use Permit, Design Review and Variance to construct a 2,700 square foot mixed use motorcycle repair shop and retail parts and accessories shop.	<b>NOD</b>	
2008091002	Lomas Santa Fe Plaza Lifestyles Project Solana Beach, City of Solana Beach--San Diego The project involves a request for a Development Review Permit (DRP) and Structure Development Permit (SDP) to redevelop approximately 6.2 acres within the existing 18.8 acre Lomas Santa Fe Plaza commercial shopping center. The project is proposed to demolish 19,787 sf of existing retail/restaurant and office and construct 65,300 sf of new commercial/retail space including a "sit down" style restaurant. Also proposed is a two-level subterranean parking structure, surface parking improvements and new landscaping. The net increase at the site is proposed at 45,513 square feet.	<b>NOD</b>	
2009012073	Villa Verona STEP Sewer System Replacement - Phase 1 Lake Oroville Area Public Utility District Oroville--Butte The project involves the construction of new gravity sewer pipelines, manholes, and services to replace existing Septic Tank Effluent Pump (STEP) system pumps, tanks, and pressure pipelines. The proposed project includes the installation of 2,400 lineal feet of 15-inch sewer pipeline, 4,000 lineal feet of 8" sewer pipeline, and approximately 45 service laterals with a total length of approximately 1,050 feet, to improve hydraulics, eliminate surcharging, and reduce sewage pumping.	<b>NOD</b>

	Plan.		
2007111018	Hollywood Park Redevelopment Project Inglewood, City of Inglewood--Los Angeles The Proposed Hollywood Park Redevelopment Project consists of the redevelopment of the approximate 238-acre Racetrack Grandstand and the Pavilion/Casino and the construction of a new mixed-use development. The Proposed Project includes demolition of most of the improvements and structures on the Project Site, including the Hollywood Park Racetrack and grandstand, and the new construction of approximately 2,995 dwelling units, 620,000 sf of retail space, 75,000 sf of office/commercial space, a 300-room hotel including 20,000 sf of related meeting space, and 10,000 sf of community serving uses for the Home Owners' Association (HOA).	<b>FIN</b>	
2009041136	CSLO Trail and Rock Climbing Army National Guard, California San Luis Obispo--San Luis Obispo Request by recreational rock climbers, based in San Luis Obispo County, to the Army National Guard (CA ARNG), to allow re-establishment of limited access to the CA ARNG Camp San Luis Obispo Training Site (CSLO) for the purpose of parking, biking to and from, and rock climbing on the northeast rock face of Cerro Romauldo, located in the southeast section of CSLO.	<b>MND</b>	05/27/2009
2009041137	Cliff Drive, Beach Street and Legion Street Traffic Improvement Project Laguna Beach, City of Laguna Beach--Orange Cliff Drive, Beach Street and Legion Street Traffic Improvement Project. Traffic improvements for these three road segments include partial conversion of two-way streets, into one-way streets, dedicated turn lanes, angled street parking, as well as new striping, ADA ramps, signage.	<b>MND</b>	05/27/2009
2009042126	Ashland Youth Campus Alameda County San Leandro--Alameda New park and youth center with job-training and counseling, classrooms, dance and music studios, limited health care and child care, cafe, exercise room and other services, located on 1.64 acres, southwest side of East 14th Street (16285-16343 inclusive), Ashland area of unincorporated Alameda County.	<b>MND</b>	05/27/2009
2009042128	File #9872 - Grading / Restoration - KMR Family Trust Santa Clara County Los Gatos--Santa Clara The project address is 19420 Bainter Avenue (APN: 510-25-065). The project is a request for Grading approval to repair a landslide that occurred several years ago from imported fill that became saturated from a leaking water line and subsequently slid into creek. The project includes restoration of the affected portion of San Tomas Aquinas Creek that crosses five properties. Specifically, the project involves the construction of three Hilfiker gravity retaining walls that vary in height from 8 to 18 ft. The design of the retaining walls allows for the area in between the walls to be re-vegetated, including hanging vines, to help blend the walls into the environment. H.T Harvey and Associates prepared a Slope Stabilization and Creek Restoration Biotic Study that is in conjunction with a Riparian Restoration Monitoring Plan.	<b>MND</b>	05/27/2009

<b><u>Documents Received on Tuesday, April 28, 2009</u></b>			
2008101001	Tustin Avenue Well Site Tustin, City of Santa Ana--Orange NOTE: Response to Comments  The demolition of an existing water well facility and the development and equipping of a higher capacity replacement water well facility; replacement of two undersized water mains.	<b>Oth</b>	
1980110305	TSM 4-01/02-05 - Creekside at Whitehawk Ranch Subdivision Plumas County Quincy--Plumas Tentative Subdivision Map to divide 21.29 acres into 7 parcels for single family residential use under an existing Planned Development Permit and Development Agreement for Whitehawk Ranch.	<b>NOD</b>	
2005101140	State Route 76 Melrose to South Mission Highway Improvements Caltrans #11 Oceanside--San Diego The proposed project consists of widening and realignment of State Route 76 from the existing 2 lane highway to 4 lanes, with grading to eventually accommodate 6 lanes. Portions of the project are within the streambed and adjacent riparian habitats of the San Luis Rey River and will result in 23.08 acres of permanent, 16.32 acres of temporary, and 75.63 acres in indirect impacts to these habitats. Compensatory mitigation for these impacts consists of purchase, restoration and long term conservation of riparian habitats in the vicinity of the project and restoration of riparian and marsh habitats in areas temporarily distributed during project construction.	<b>NOD</b>	
2008012115	Lombard Crossing Industrial Park American Canyon, City of American Canyon--Napa Tentative Parcel Map, Conditional Use Permit, Design Permit, Variance, and Minor Variation for 2 wine distribution warehouses totaling 288,000 srf with associated parking, loading, and circulation areas, on 2 parcels of a 25 acre property, with 8.7 acres preserved on a seperate wetlands and open space parcel.	<b>NOD</b>	
2008061079	Burriss Basin, Lincoln Basin Reconfiguration and Fives Coves Pipeline Project Orange County Water District Anaheim--Orange The Project proposes the reconfiguration of existing groundwater recharge basins, construction of transfer well and construction of a transfer pipeline system.	<b>NOD</b>	
2008081044	Santa Monica Canyon and Palisades Park LFD Upgrades and Coastal Interceptor Relief Sewer Los Angeles, City of Santa Monica--Los Angeles The proposed project consists of the upgrade 2 existing low flow diversions (LFDs) and construction of a 4,500 ft long Coastal Interceptor Relief Sewer (CIRS) within the COmmunity of PAcific Palisades and the northern limits of the City of Santa Monica. The project is funded by Proposition O, a Clean Water Bond Measure, which was approved by voters Nov 5, 2004. LFD systems divert dry-weather flows from the storm drain system to the sanitary sewer, where the runoff is treated before being discharged into the ocean. The project will help the City meet the winter dry-weather bacteria aTotal Maximum Daily Load	<b>NOD</b>

	<p>requirements for the Santa Monica Bay. The Pacific Palisades LFD will be upgraded at its current location and a new LFD system will be installed near the mouth of the Santa Monica Canyon Channel. The existing Santa Monica Canyon LFD will be left in place for redundancy and system reliability. Construction of the Santa Monica Canyon LFD will be a joint effort between the City and the Los Angeles County Flood Control District (LACFCD). The LACFCD will install an air-inflatable rubber dam within the vicinity of the current LFD in the Santa Monica Canyon Channel and a control building (~10 ft x 10 ft) housing the rubber dam's air compressor and control panel within the vicinity of the new LFD. The CIRS would extend from its upstream end at the existing Palisades Park PFD downstream southeasterly, across the City Los Angeles border, connecting to the existing sewer in the City of Santa Monica. The CIRS consists of ~4,500 total lineal ft of pipe of varying diameters (30, 36, 42, 48 inch). Roughly 1,400 lineal ft of alignment will be located within Will Rogers Parking Lot 2 East and Lot 1 and the remaining portion will lie within Pacific Coast Highway right-of-way. Construction within PCH is anticipated to require nighttime construction and partial lane closures.</p>		
2008082077	<p>Northstar at Tahoe Skier Access Trail (PCPA T20080242) Placer County Truckee--Placer</p> <p>This project consists of the issuance of a Timberland Conversion Permit Permit for the construction of ski run for a total of 1.8 acres of timberland.</p>	<b>NOD</b>	
2008121132	<p>Inyo County Regional Transportation Inyo County Bishop--Inyo</p> <p>The RTP serves as the planning blueprint to guide transportation investments in the County involving local, state, and federal funding over the next twenty years. Transportation improvements are categorized as short-term (0-10 yrs.) or long term (11-20 yrs.). The overall focus of the RTP is directed at developing a coordinated and balanced multi-modal regional transportation system that is financially constrained to the revenues anticipated over the life of the plan (2030). The coordination focus brings the County, City of Bishop, governmental agencies, Indian Tribal Governments, and citizens into the planning process. The balance is achieved by considering investment and improvements for moving people and goods across all modes including roads, transit, bicycle, pedestrian, goods, railroad, and aviation.</p>	<b>NOD</b>	
2009032040	<p>DaVinci Charter Academy Davis Joint Union School District Davis--Yolo</p> <p>The Davis Joint Unified School District is proposing to use the existing Valley Oaks Elementary School Campus and convert the use to a Charter School (DaVinci Charter Academy, grades 10-12).</p>	<b>NOD</b>	
2009049017	<p>Public Works Well #9 Construction Project Patterson, City of Patterson--Stanislaus</p> <p>Consideration of the Construction and installation of a City owned water well with a turbine pump housed in a masonry building. The completed project will consist of production well, the well housing structure (pump house ~20' x 30'), and appurtenances consisting of piping, electrical transformer, back-up power, site fencing, and access. The site will be ~1 acre in size (150' x 300') with a 1/2 acre</p>	<b>NOD</b>

2007062091	PG&E Line 406/407 Project California State Lands Commission Woodland, Sacramento, Roseville--Yolo, Sutter, Sacramento, Placer The project being proposed by Pacific Gas and Electric Company (PG&E) is to construct an approximately 40-mile, 30-inch diameter natural gas pipeline (Lines 406, 407, and DFM) from Esparto area in Yolo County east to Roseville in Placer County. Six aboveground facilities are also proposed as a part of the project. The proposed pipeline will provide greater capacity and service reliability to the existing gas transmission and distribution pipeline system in the Sacramento Valley Region and will deliver natural gas directly to an area of anticipated growth.	<b>EIR</b>	06/12/2009
2004044001	Santa Ana River Interceptor Line (SAR) Protection/Relocation U.S. Army Corps of Engineers Yorba Linda, Corona--Orange, Riverside The Santa Ana River Interceptor Line (SARI) is a regional brine line, designed to export 42 million gallons per day (mgd) of brine, industrial brine and domestic sewage out of the Santa Ana River Basin to the wastewater treatment plant in Fountain Valley. This proposal, as part of the Santa Ana River Project (SARP), modifies the particularly vulnerable segment of the SARI between Prado Dam and Weir Canyon Road to reduce the risk of damage to the SARI during releases from Prado Dam of up to 30,000 cubic feet per second (cfs), without jeopardizing the regional flood control objective of the SARP. Simply stated, the objective of this project is to reduce the risk of damage to the SARI to allow for operation of the SARP, specifically, releases from Prado Dam of up to 30,000 cfs. The proposed action relocates and protects two segments of the SARI within the study area.	<b>FIN</b>	
2009041139	ENV-2009-548-MND - 425 West Laconia Boulevard Los Angeles, City of --Los Angeles Conditional Use to permit the installation, construction, operation and maintenance of an unmanned wireless telecommunications facility disguised as a 55 ft tall pine tree (monopine antenna) with 12 panel antennas and 6 equipment cabinets. Monopine will be located within a 6 ft high, ~369.12 sf enclosure on an ~10,890 sf	<b>MND</b>	05/28/2009

Documents Received during the Period: 04/16/2009 - 04/30/2009

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, April 29, 2009</u></b>			
2008062044	Calaveras Criminal Justice Center Calaveras County --Calaveras The proposed project includes property acquisition by County, transfer of a portion to the state, construction of the facilities, and subsequent entitlements which include a General Plan Amendment, Rezone, Conditional Use Permit, and parcel merger. The project would also require annexation into the San Andreas Sanitation District, which requires approval by the District Board approval and LAFCO. The proposed criminal justice center includes a new 39,000 sf courthouse, a new 240 bed adult detention facility, and a new government center complex located immediately south of the project site. The project site includes several off-site roadway improvements.	<b>NOD</b>	
2008072056	Trinity Village WC Water Systems Improvement Health Services, Department of --Trinity The proposed Project involves installation of a new pipeline from the Trinity River intake area to Hawkind Creek Water Treatment Plant, new water treatment facilities at the Hawkins Creek WTP, and construction of a new elevated pipeline above Hawkins Creek including 2 piers to support the pipeline. The Project will permanently impact 0.10 acres of Trinity bristle snail habitat resulting in take of Trinity bristle snail, a species protected by the California Endangered Species Act (Fish & G. Code Section 2050 et seq).	<b>NOD</b>	
2009011068	Industrial Rail Lead Track Hesperia, City of Hesperia--San Bernardino The Industrial Rail Lead Track will be constructed along G Avenue between the Burlington Northern Santa Fe Railway Cushenbury Branch Line and Lemon Street. Project features include a siding rack, a drainage channel, culverts, access roads, an at-grade crossing, and permanent fencing.	<b>NOD</b>	
2009031064	Kern County Water Agency-Dudley Ridge Water District Exchange Program Kern County Water Agency Bakersfield--Kern, Kings The Kern County Water Agency-Dudley Ridge Water District Exchange Program is a long-term water exchange program between the Kern County Water Agency (Agency) and Dudley Ridge Water District (Dudley) to allow for multi-year exchanges of State Water Project (SWP) water between Member Units of the Agency and Dudley. The purpose of the Water Exchange Program is to improve water management opportunities within the Agency and Dudley by creating a program that would accelerate the Department of Water Resources (DWR) approval process of the kinds of water transfers and exchanges that have successfully occurred in the past between Dudley and the Agency. The program would allow for the timely water transfers and exchanges that would utilize the water supplies and existing facilities in a more beneficial manner for the growers, thereby improving water management practices within the Agency and Dudley.	<b>NOD</b>	
2009048338	Pave Existing Parking Area Parks and Recreation, Department of --Santa Cruz Pave a 5,830 sq. ft. portion of an existing employee parking area and perimeter of a storage building within the developed maintenance yard of Sunset State Beach to increase parking and protect a new storage building. Project includes scraping	<b>NOE</b>

2009048351	Reclamation District 1001 Pipe Replacement Project Fish & Game #2 --Sutter This project will replace two failing pipes connected to auxiliary discharge pumps at the terminus of the Main Drain owned and operated by RD 1001. The two existing discharge pipes will be exposed by excavation, removed from the vertical shaft coupling through to the outfall into the Natomas Cross Canal. The maximum trench elevation will be raised above the current 100-year water surface elevation and adequate siphon-breaks will be installed. Additionally, the remainder of the pipe will be uncovered by excavating the levee and inspected to determine the extent of replacement needed.	<b>NOE</b>	
2009048352	Sanitary Sewer Overflow Compliance Project Ukiah, City of Ukiah--Mendocino Involves rehabilitation of downtown City sewer lines built between 1895 to 1905 & manholes to reduce inflow and infiltration in sewer mains, together with mapping the City's storm outfalls and installing access to manage sanitary sewer overflow's before they reach surface waters.	<b>NOE</b>	
2009048353	ABF Northern Inholdings, Anza-Borrego Desert State Park Parks and Recreation, Department of --Riverside The project consists of an acquisition of 16 +/-40 acre parcels totaling about 644 acres of land located near Borrego Springs, California. The parcels are grouped into two sites of eight parcels that are contiguous. Site 1 parcels total about 320 acres and site 2 parcels total about 324 acres. The proposed action will transfer land ownership to the California Department of Parks and Recreation and will be an addition to Anza-Borrego Desert State Park. The project consists of transfers of ownership in interest in land in order to preserve open space, habitat, and wilderness resources.	<b>NOE</b>	
2009048354	Flat-tailed Horned Lizard Mitigation Property, Anza-Borrego Desert State Park Parks and Recreation, Department of --San Diego The project consists of an acquisition of 24 parcels totaling about 1,114 acres of land located near Borrego Springs, California. The proposed action will transfer land ownership to the California Department of Parks and Recreation. The parcels will be an addition to Anza-Borrego Desert State Park and Flat-tailed Horned Lizard Management Area. The project consists of transfers of ownership in interests in land in order to preserve open space and habitat resources.	<b>NOE</b>	
2009048355	Turntable Bay Curve Improvement Caltrans #2 --Shasta The proposed project will improve safety along the southbound lanes of Interstate 5 in Shasta County by increasing the horizontal curve radius, increasing sight distance, and increasing the clear recovery zone. This will be achieved by widening the existing pavement by 20', and applying an overlay to the existing, and new, pavement with open graded asphalt concrete.	<b>NOE</b>

2006111106	<p>Bundy Village and Medical Park Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The proposed project has 2 components: mixed use residential and retail development with associated parking on Parcel A, which fronts Bundy Drive; medical offices, and an associated parking area on Parcel B, which fronts Olympic Blvd. Above-ground and subterranean parking levels would be provided throughout the project site. Parcel A would include the development of ~385 dwelling units (comprised of ~146 market-rate units for seniors, 62 affordable (moderate income) units for seniors, and 177 unrestricted market-rate units, and ~119,838 sf of retail/commercial space (including ~9,500 sf of restaurant space). Approximately 737 parking spaces would be provided for the proposed residences and ~682 parking spaces would be provided for the proposed retail/commercial component for a total of 1,419 spaces for Parcel A land uses.</p> <p>Parcel B would include ~384,735 sf of medical offices including ~1,857 parking spaces in a separate above-ground and below-ground parking structure.</p>	<b>EIR</b>	06/15/2009
2007082086	<p>Sacramento County General Plan Update Sacramento County --Sacramento</p> <p>An Update to the Sacramento County General Plan, with a horizon of 2030.</p>	<b>EIR</b>	06/15/2009
2008071017	<p>Grand Terrace Town Square Master Development Plan Grand Terrace, City of Grand Terrace--San Bernardino</p> <p>The proposed project development of approximately 209,611 square feet of commercial uses in accordance with the Barton Road Specific Plan in five Development Units on approximately 21.40 acres. Proposed development includes:</p> <ul style="list-style-type: none"> <li>- Development Unit 1 (up to 75,899 sf of retail space on ~7.5 acres),</li> <li>- Development Unit 2 (up to 58,858 sf of retail space on ~4.5 acres),</li> <li>- Development Unit 3 (up to 33,977 sf of retail uses on ~5 acres, 3 net acres),</li> <li>- Development Unit 4 (up to 20,700 sf of retail space on ~2 acres) and;</li> <li>- Development Unit 5 (up to 20,177 sf of commercial uses on ~2 acres).</li> </ul> <p>The timing and order of development within the Town Square Master Development Plan (TSMDDP) may change based upon tenant availability and other economic considerations. Further, it is anticipated that the boundaries of the Development Units may change over time to accommodate reciprocal easements such as, but not limited to, drive aisles and access ways. However, any changes to Development Unit boundaries will not result in any changes to the overall boundaries of the TAMDP, or to the anticipated project build -out of 209,611 sf of commercial uses. In addition, all associated infrastructure improvements will be constructed to support the project and resultant phases.</p>	<b>EIR</b>	06/15/2009

	Antelope-Magunden transmission line east of the site.		
2009041149	Emerson College Los Angeles Center Project Los Angeles, City of --Los Angeles The Project would include a total of 115,000 square feet of floor area including approximately 38,100 square feet of instructional/administrative floor area, 224 student beds (approximately 66,500 square feet of floor area with 188 student rooms, of which 36 rooms are double occupancy and the balance single occupancy), 4 faculty/staff apartments (approximately 4,000 square feet of floor area), and approximately 6,400 square feet of ground floor retail. Parking for the entire Project would total 246 spaces, which meets and exceeds the minimum parking requirement of the Los Angeles Municipal Code of 195 spaces. Vehicular access to the Project would be provided off of Gordon Street, and parking would be provided in a 3-level subterranean garage and in one level at grade.	<b>NOP</b>	06/01/2009
2009041150	Remediation and Reuse of the Former Gun Range within Huntington Central Park Huntington Beach, City of Huntington Beach--Orange The project site is approximately 4.91 acres in size and is located within Huntington Central Park. It is surrounded by Talbert Avenue to the north, Ellis Avenue to the south, Gothard Street to the east, and Goldenwest Street to the west. The project proposes the remediation of hazardous materials contamination associated with the site's historical use as a gun range facility. Following remediation, the project site would be developed as an open space/park element, as part of Huntington Central Park. On-site improvements may consist of facilities typical of open space/park uses, such as a children's playground/park area, dog park, basketball courts, snack bar/restaurant, picnic area, and associated parking areas, restrooms, irrigation, lighting, and various utilities. Potential future improvements could also include higher intensity uses such as a commercial recreational facility (e.g., skate park, BMX area, or paintball area), or incidental City park maintenance/operations facilities.	<b>NOP</b>	06/01/2009
2009042138	WCCUSD Relocation of the Portola Middle School to the El Cerrito High School Campus West Contra Costa Unified School District El Cerrito--Contra Costa The proposed project involves the following primary components: - Removal of up to 30 portable buildings that had been used to house High School students during construction of El Cerrito High School, and minor refurbishing and repair of up to 40 existing portable buildings to accommodate reuse by middle school functions; and - The construction of new unenclosed sports courts and open air recreation/multi-purpose facilities, and the installation of landscaping on approximately 0.5 acres of land located in the eastern, central portion of the project site; and - The relocation of Portola Middle School Students, faculty, staff, and middle school functions to existing portable buildings located at the El Cerrito High School campus.	<b>NOP</b>	05/29/2009

<b><u>Documents Received on Thursday, April 30, 2009</u></b>			
	bladder surge tanks, and a new storm drain and appurtenances consisting of new control and instrumentation. The project also requires the relocation of the existing 3,000 gallons propane storage tank in order to comply with California Fire Code distance requirements and removal of ~4 young oak trees, 2 junipers, 3 pines, and 3 ornamental shrubs in order to accommodate the expansion.		
2009042134	Caltrans Statewide Variance for Reuse of Lead-Contaminated Soils Toxic Substances Control, Department of -- NOTE: Review Per Lead	<b>Neg</b>	06/05/2009
	Variance would allow Caltrans to reuse soil contaminated with apecific concentrations of aerially deposited lead in highway construction projects.		
2009042135	Shake Fiddletown Vegetation Management Project Forestry and Fire Protection, Department of --Amador This project will be the establishment and maintenance of Shaded fuel breaks that are a part of the Community Fuel Break System in northern Amador County. The project will consist of fuels reduction projects that will utilize fire crew brush cutting, pile burning, and broadcast prescribed fire. The fuels treatment mechanism that is most favored is broadcast prescribed fire. The desired width of the shaded fuel break is 500 ft however the width will be increased to as much as 1,400 ft if the topography remains under 30%. The project is located along Shakeridge and extends to the north slopes leading to the Cosumnes River. Activities will be concentrated on the main ridge and the spur ridges leading to the north, proposed activities (brush cutting and prescribed fire) will not be initiated in permanent or intermittent watercourses. Archaeological resources identified during the Archaeological Survey needing protection will be avoided. To avoid impacts to nesting birds, areas to be burned during the April 1st through August 1st nesting season shall be surveyed by the VMP coordinator prior to project initiation. If nesting raptors are found within the burn area, burning shall be suspended within 1/2 mile of the nest site until after August 1st.	<b>Neg</b>	05/29/2009
2009042139	City of Pittsburg Housing Element, 2007-2014 and Related Zoning Text Amendments Pittsburg, City of Pittsburg--Contra Costa This is an amendment to the Housing Element of the City of Pittsburg General Plan for reporting years 2007-2014. The proposed project includes zoning text amendments in accordance with proposed Housing Element policies.	<b>Neg</b>	05/29/2009
2009042140	Nevada City Housing Element Nevada City Nevada City--Nevada The Draft Nevada City Housing Element 2009-2014 is designed to address the projected housing needs of current and future City residents and comply with State law requiring amendment of the Housing Element by August 31, 2009. The Draft amendment represents a comprehensive set of housing policies and actions for the years 2009-2014 it builds on the assessment of the housing needs, an evaluation of housing programs, available land and constraints on housing production for the City of Nevada City. It also includes new initiatives to address shortages of affordable and market rate housing production for intended to help the City meet its "fair share" allocation of regional housing needs.	<b>Neg</b>	05/29/2009

<b><u>Documents Received on Thursday, April 30, 2009</u></b>			
1996102108	Columbia Airport Master Plan Tuolumne County Grading Permit G09-008 to allow construction of a 500 +/- ft access road from Airport Road to the southwest corner of the Columbia Elementary School campus. The access road will be constructed with two 10 ft paved travel lanes, with 2 ft paved shoulders and a gutter on each side of the roadway. The project will include improvement of Airport Road at its intersection with the access road. Construction of the access road will involve excavation of ~337 cubic yards of material and fill of ~33 cubic yards of material. The project site is a portion of the Columbia Airport and is zoned BP:D (Business Park:Design Control combining) under Title 17 of the Tuolumne County Ordinance Code.	<b>NOD</b>	
2001022029	Infiltration Gallery Project in SRP 9 Turlock Irrigation District Hughson--Stanislaus The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1601 of the Fish and Game Code to the project applicant, Turlock Irrigation District, represented by Wilton B. Fryer, for its Infiltration Gallery Project. The applicant proposes to construct a 0.9 acre raw water pump station that would pump diverted water from the existing infiltration galley to the proposed conveyance pipeline. A 3940 ft long, 60 inch wide underground conveyance pipeline will be constructed from the pump station to a point of connection with the Ceres Main Canal in the south.	<b>NOD</b>	
2005072100	East Contra Costa BART Extension (known as eBART) Bay Area Rapid Transit District Pittsburg, Antioch, Oakley, Byron--Contra Costa The proposed project is a 10 mile transit extension with 2 new stations, located in Pittsburg and Antioch, as well as a transfer platform connecting to the existing BART system at the Pittsburg/Bay Point Station. The recommended Diesel Multiple (DMU) rail technology uses a self-propelled passenger vehicle that has one or more diesel engines for propulsion power. The DMU trains would operate on tracks to be constructed in the median of SR 4.	<b>NOD</b>	
2006091071	Sunrise Powerlink Project Public Utilities Commission El Centro, San Diego--San Diego, Imperial The proposed project as approved by the California Public Utilities Commission involves the construction of the Final Environmentally Superior Southern Route Alternative, which would include a 500kV transmission line from the Imperial Valley Substation to a new substation southeast of the town of Alpine, then continuing with a 230 kV transmission line with both overhead and underground components to the Sycamore Canyon Substation. Upgrades to the existing transmission system west of Sycamore Canyon would also occur. The project would involve extension of the 500 kV transmission line across a portion of McCain Valley Conservation Camp. The California Department of Corrections and Rehabilitation (CDCR) would grant a Right of Entry for geotechnical testing and a Utility Easement for a 200 ft wide corridor ~1200 ft in length for construction of transmission line facilities. The project, as described and analyzed in the project EIR/EIS, includes improvements on CDCR land that would include an access road, one transmission structure (lattice tower) and 500 kV overhead transmission lines. Mitigation measures as identified in the required Statement of Findings for San Diego Gas & Electric Company's Sunrise Powerlink Project (Applications A.05-12-014 and A.06-08-010) Final EIR/EIS and Draft Land Use Amendment	<b>NOD</b>

	have been incorporated as required into the project's Mitigation Monitoring Program as a condition of project approval. CDCR in its capacity as a REsponsible Agency is not required to adopt and/or implement additional mitigation measures beyond those adopted by the Lead Agency.		
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus The proposed Wireless Telecommunication (Telecom) Facilities Ordinance provides specific provisions and standards for telecom facilities within the City of Modesto. The ordinance proposes the addition of new Article 31 to Chapter 2 of Title 10 of the Modesto Municipal Code. There is also a minor change to Article 25 Variances and Conditional Use Permits, regarding new variance provisions for telecom facilities, and amendment to Article 23 General Provisions, regarding telecom facilities within the right-of-way of utility and railroad companies.	<b>NOD</b>	
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus This is an application to amend Planned Development Zone, P-D(53), to allow all C-1 uses, including property located at 3500 Coffee Road.	<b>NOD</b>	
2008032005	American Engineering & Asphalt, Inc (PCPA T20070690) Placer County Rocklin--Placer Project proposes an extension of time to operate an asphalt and concrete recycling facility processing up to 100,000 tons of material annually on a developed 7.72 acre industrial property.	<b>NOD</b>	
2008032018	Tahoe Verde Mobile Home Park Subdivision South Lake Tahoe, City of South Lake Tahoe--El Dorado The proposal project entails the horizontal directional drill (HDD) installation of a 6" and 8" pipelines (4" and 6" interior diameter) under Smitchneck Creek. No water will need to be diverted. No rip rap, culverts will be necessary. The project does not entail open trench excavation; therefore, excavation volume calculations are not included.  The HDD entails equipment mobilization on the west side of the stream in an open disturbed area. A small diamtere pilot hole located ~15 ft under the streambed is first drilled from one end of the alignment to the other. Subsequently the bore is enlarged to accommodate pipeline insertion. The 2 pipes will be placed one above the other and seperated by ~10 inches. A redundancy pipe is necessary to keep effluent moving should the main 8 inch pipe clog at some point.  The HDD operation will avoid the discharge of water, drilling mud and cuttings to the adjacent land during the construction process. The Contractor shall provide equipment and procedures to maximize the recirculation or reuse of drilling mud and minimize waste. All excavated pits used in the drilling operation shall be lined by Contractor with heavy-duty plastic sheeting and sealed joints to prevent the migration of drilling fluids and/or ground water.	<b>NOD</b>

2008121122	State Route 91 Widening Project from State Route 55 to State Route 241 Caltrans #12 Anaheim, Yorba Linda--Orange The California Department of Transportation-District 12 will initiate improvements to SR-91 in Orange County by adding one general-purpose lane on SR-91 eastbound from the SR-91/SR-55 separation to east of the Weir Canyon Road on-ramp, and on SR-91 westbound from west of the SR-91/SR-241 separation (PM 15.1) to the SR-90/SR-91 separation (Imperial Highway Undercrossing). The project would relieve congestion and improve operational efficiency on SR-91 between SR-55 and west of SR-241. The total length of the project is 6.0 miles.	<b>NOD</b>	
2009021108	Passage Road Water Reservoir Replacement Project Health Services, Department of --Riverside The Nuevo Water Company proposes the demolition of a 1.5 MG covered concrete cistern and the installation of one aboveground water storage reservoir in place of the cistern on an ~ 1.7 acre site. The capacity of the replacement reservoir will be ~2.5 MG. Development of the site will require demolition of the existing reservoir including the removal of all items from the facility, including existing concrete structures, steel structures, corrugated roofing, wooden trusses, piping materials, electrical conduits, and equipment, etc. The project also includes construction of gravel access roads, various drainage swates, appurtenances, including above and below ground piping, valves, electrical lines, and perimeter fencing.	<b>NOD</b>	
2009032074	Discount Tire Company Store (PCPA T20080369) Placer County Auburn--Placer Project proposes approval of a Conditional Use Permit to construct a 6,320 sf retail tire store on a 1.77 acre parcel undeveloped corner lot.	<b>NOD</b>	
2009048362	San Jose Water Company Twelfth Street Station Well #14 Replacement Health Services, Department of San Jose--Santa Clara The project involves the construction of a new well 14 at San Jose Water Company's Twelfth Street Station to replace existing well 7. The replacement well is expected to have nearly the same capacity and will be drawing from the same aquifer. The well will be about 765 feet deep, with screening at depths ranging from 275 to 650 feet.	<b>NOE</b>	
2009048363	San Jose Water Company Breeding Station Well #3 Replacement Health Services, Department of San Jose--Santa Clara The project involves the construction of a new well 3 at San Jose Water Company's Breeding Station to replace an existing well at their 3-mile Station, which has no room to support construction of a replacement well. The replacement well is expected to have nearly the same capacity and will be drawing from the same aquifer. The well will be about 685 feet deep, with screening from depths ranging from 260 to 660 feet.	<b>NOE</b>

	Landscaping: " Trim various trees and remove approximately 400 square feet of landscaping .		
2009048366	North Grove Meadow Wetland Delineation Parks and Recreation, Department of --Calaveras Conduct a wetland delineation of the North Grove meadow boardwalk in Calaveras Big Trees State Park to determine presence and location of any U.S. Corps of Engineers jurisdictional wetland(s). Work will include: 1. Identify plants and collect examples of unknown species for later identification.  2. Excavate up to 30 holes approximately 24" deep and 15" wide to determine the presence of hydric soils. 3. Map the perimeter of jurisdictional wetland(s).	<b>NOE</b>	
2009048367	Propane Line Replacement Parks and Recreation, Department of --Tuolumne Repair failed underground propane lines behind the Brown's Coffee Shop at Columbia State Historic Park to maintain the fuel supply. Work will identify the location of the leaking propane line(s) and excavate approximately 16" deep to repair/replace the pipes.	<b>NOE</b>	
2009048368	Accessible Campsite Modifications Parks and Recreation, Department of --Calaveras Modify five campsites in the North Grove Campground at Calaveras Big Trees State Park to meet current accessibility requirements as stated in the "California State Parks Accessibility Guidelines." 1. Grading: Excavate a maximum 6" in depth, compact, and fill an approximately 20'x20' square area in each campsite with Class II Road base to provide a firm, level surface. 2. Fire Rings: Remove and relocate three fire rings. Excavate three 4' diameter holes to a depth of about 12" below grade to seat rings to meet the 24" accessibility height requirement. Install truncated (elevated warning) domes on the pavement around the perimeter of each fire ring. 3. Camp Stoves: Remove Beison camp stoves and excavate to a depth of 20" below grade to lower the stoves to meet the 15-34" accessibility height requirement. 4. Water Station: Replace water faucets, drains, and water hook-ups. Excavate the existing water station to a depth of about 2' and install an approximately 5'x5' concrete pad for a firm, level surface at each campsite water station. 5. Paving: Re-pave approximately 400 ft2 to provide parking for campsites. 6. Campsite #73: Construct a 100' long x2' high retaining wall constructed of logs to build soil surface up to meet ADA slope and grade requirements. Install a water crossing up to 10' in length to obtain a level grade between the campsite and restroom to close the trail.	<b>NOE</b>	
2009048369	Dollar 2009 Fuel Reduction Tahoe Conservancy --Placer The project consists of removing dead, dying and diseased trees, and reducing conifer densities. The activity results will promote increased health and vigor of the stand, and reduce fire threat to the adjacent community.	<b>NOE</b>
