STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

April 16 – 30, 2016

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16 – 30, 2016**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

2016048206	<p>Empire Grade Road Access Project (Lake or Streambed Alteration Agreement No. 1600-2015-0267-R3) Fish & Wildlife #3 --Santa Cruz</p> <p>The Permittee plans to conduct transmission line road access maintenance work related to the Monte Vista-Burns 60 kV line to increase road safety and reliability, and access to the transmission line itself. The work contained in this Agreement consists of installing one culvert, two rock ford crossings, and seven at-grade crossings (rocking road segments at road and watercourse crossings) along the existing dirt access road. This is part of overall road and transmission line maintenance, which includes the maintenance of a 14-foot width of the road, and periodic clearance of vegetation or trees directly under the treatment lines.</p>	NOE

2015112051	Interstate 680 Northbound Pavement Rehabilitation Project Caltrans #4 Fremont--Alameda FYI: Final This project proposes to rehabilitate the mainline and on/off ramps for the northbound lanes of I680 from Scott Creek Rd. (post mile 0.0) to Auto Mall parkway (PM 4.0). The pavement will be resurfaced and additional roadway features will be upgraded and/or installed to current Caltrans standards. These features will be guardrails, rumble strips, concrete barriers, crash cushions, hot mix asphalt dikes, concrete curbs, sidewalks, pedestrian curb ramps, drainage facilities, overhead signs, roadside signs, traffic monitoring stations, lighting, and replacement of existing concrete approach slabs at several bridge locations. There will be no widening or changes in traffic configuration.	FIN	
2016042043	Piping Rock Equestrian Center Truckee, City of Truckee--Nevada Piping Rock Equestrian Center is proposing an expansion of their existing operations, which currently includes horseback riding lessons, training and boarding facilities. As proposed, the facility would continue to offer horse boarding, training and horseback riding lessons, but would also offer horseback riding guided tours, horseback riding camps, horseback riding special. They are also proposing a Tentative Map to subdivide a vacant 46 acre parcel into four, five acre lots, a Lot Line Adjustment to adjust the boundary between 2 parcels, a Use Permit Amendment to amend the underlying Use Permit for the existing equestrian center, a Development Permit to construct a 2,600 sf garage, a 6,400 sf barn addition, a 1,600 sf hay barn and a 3,038 sf single family residence.	MND	05/17/2016
2016042046	8151 Sheldon Road Apartments (PN 16-007) Sacramento, City of Sacramento--Sacramento The proposed project includes the construction of a 324 unit apartment project on an approximately 19.7-acre site. The proposed apartment development would feature two story, garden style Class A apartments with fully furnished 1-,2-, and 3-bedroom units with resort style amenities. Additional proposed improvements include a clubhouse/leasing building, the extension of Masters Street through the project site, underground utilities, 551 on site parking spaces.	MND	05/17/2016
2016042047	2016-006 Epic Wireless/Verizon Wireless Calaveras County --Calaveras The applicant is requesting approval of an Administrative Use Permit to install a new wireless telecommunications base station in an enclosed 21 ft by 21 ft lease area with an 80 ft broadleaf monotree cell tower. A 10 ft by 20 ft equipment pad will contain 4 cabinets and will be enclosed in an area by an 8 in thick, 4 ft tall concrete retaining wall and 6 ft high chain link fence.	MND	05/17/2016
2016042050	Franklin Electric Transmission Project Sacramento Municipal Utility District Elk Grove--Sacramento SMUD is proposing to construct and operate an a new bulk transmission substation and a new co-located distribution substation, modify approximately 5-mile of overhead subtransmission power lines, construct approximately 0.5 mile	MND	05/17/2016

	of new overhead subtransmission lines and four new transmission poles that would link the substations to the electrical grid, and dismantle an existing distribution substation.		
2016041049	IS 7067, AA 3810 (Muhammad Attique) Fresno County Fresno--Fresno Note: Review Per Lead	Neg	05/26/2016
	Proposal to rezone 9.82 acres from the AE-20 (c) (Exclusive Ag, 20 acre min parcel size, conditional to allow a fruit dehydrator) zone district to the R-R (rural residential, two acre min parcel size) zone district.		
2016042044	Mendocino County Coastal Wireless Communications Ordinance LCP Amendment Mendocino County --Mendocino The proposed ordinance will provide a consistent and comprehensive regulatory scheme for the development and operation of wireless communications facilities within the coastal zone; consistent with applicable local, state and federal regulations. The proposed ordinance will amend provisions of Division II of Title 20 - Coastal Zoning Code, adding Chp 20.522 to the existing Zoning Code. The ordinance amendment will better define where and how wireless communications facilities may be installed in the unincorporated areas of Mendocino County within the Coastal Zone. The proposed ordinance describes the circumstances in which wireless facilities may be exempt from discretionary review, subject to Coastal Development Permits, and when a Coastal Development Use Permit will be required.	Neg	05/17/2016
2016042045	Dertner Minor Subdivision DIV 1-16 Fort Bragg, City of Fort Bragg--Mendocino Adoption of CEQA Neg Dec and approval of Tentative Map for a Minor Subdivision of a 6,250 sf parcel, creating two parcels: a 3,825 sf parcel currently developed with a two story commercial building (Proposed Parcel 1), and a 2,425 sf parcel currently developed with a two story commercial building and two storage shed (Proposed parcel 2).	Neg	05/17/2016
2016042049	Opus One Winery #P14-00177-UP Napa County --Napa Approval of a new Winery Use Permit to allow the following: 1) increase in annual production from 110,000 gallons per year to 250,000 gallons per year; 2) construct a 51,906 sf addition to the rear of the existing winery building which will include: a fermentation tank room, barrel preparation areas, barrel storage, equipment storage, wine tasting and visitor center with veranda, wine case goods storage, offices, conference rooms, breakrooms, restrooms, and extension of a loading dock; 3) construct 15 new parking spaces, including three handicap spaces, for a total of 122 parking spaces; 4) provide higher aeration capacity for the existing wastewater system as necessary; and 5) increase in the number of employees from 53 full time employees and 12 part time employees to 75 full time and five part time employees. The pavement will be resurfaced and additional roadway feature will be guardrails, rumble strips, concrete barriers, crash cushions, hot mix asphalt dikes, concrete curbs, sidewalks, pedestrian curb ramps, drainage facilities, overhead signs, roadside signs, traffic monitoring stations, lighting, and replacement of existing concrete approach slabs at several bridge locations). There will be no widening or changes in traffic configuration.	NOD	
2015121060	Selma 2015-2023 Housing Element Update Selma, City of Selma--Fresno The City of Selma recently updated their Housing Element. On February 2, 2016 the State Dept. of Housing and Community Development (HCD) issued a letter of conditional approval to staff. The Selma City Council adopted the 2015-2023 Housing Element and adopted General Plan Amendment GPA2016-1.	NOD	
2016011015	Kerman 2015-2023 Housing Element Update Kerman, City of Kerman--Fresno The project is the adoption and implementation of the Kerman General Plan 2015-2023 Housing Element. The Housing Element is one of seven required elements of the General Plan. It addresses existing and future housing needs of persons of all economic segment groups, and serves as a tool for decision-makers and the public in understanding and meeting housing needs in Kerman. While the law does not require local governments to construct housing to meet identified needs, it does require that the community address housing needs in its discretionary planning actions by creating opportunities for housing in the land use plan and facilitating housing development through policy.	NOD	
2016011055	California Spiny Lobster Fishery Management Plan and Proposed Regulatory Amendments Project Fish & Wildlife Commission --Santa Barbara, Los Angeles, San Luis Obispo, Ventura, ... The project is the adoption of the CA Spiny Lobster Fishery Management Plan (FMP) and regulatory amendments for the CA spiny Lobster (<i>Panulirus interruptus</i>). The project would serve as the framework for managing the recreational (sport) and commercial fisheries for the CA spiny lobster. The commercial fishery subject to the FMP is located in coastal and offshore waters in CA and extends from Point Conception in Santa Barbara County, south to the U.S. - Mexico border. The recreational fishery subject to the FMP is also located within the coastal waters of CA, ranging from central San Luis Obispo County, south of the U.S. Mexico border.	NOD

2014042087	<p>County General Plan and Airport Land use Compatibility Plan updates Stanislaus County --Stanislaus</p> <p>Stanislaus County proposes to update its General Plan and Airport Land Use Compatibility Plan to extend the 20-year planning horizons to 2035 and reflect the population projections adopted by the Stanislaus Council of Governments for the 2014 Regional Transportation Plan/Sustainable Communities Strategy. The update does not include any changes in Land Use map designations, but rather is a 'clean up' of the General Plan to incorporate changes in state law and local standards, such as SB 375, SB 5 (floodplains), AB 359 (groundwater mapping), and SB 244 (disadvantaged communities). The update is limited to revisions in the land use, circulation, conservation/open space, noise, and safety elements. The ALUCP update addresses land uses/changes around each airport using the pertinent Airport Layout Plan, Master Plan, or airport diagram as a foundation.</p>	EIR	06/02/2016
2016041051	<p>Fontana Water Company Recycled Water Improvement Project Inland Empire Utilities Agency Fontana--San Bernardino</p> <p>San Gabriel Valley Water Company is a privately owned water company that provides water service to customers located within its Fontana Water Company division service area, which includes the City of Fontana and some unincorporated areas in the immediate vicinity. The FWC provides this water service pursuant to the regulatory jurisdiction of the Public Utilities Commission of the State of CA (CPUC). As a public utility water company, FWC is mandated to provide its customers a reliable supply of water that complies with state and federal safe drinking water standards. As a non-governmental entity SFVWC is not subject to CEQA unless its actions involve governmental participation, financing, discretionary permitting or approval. IEUA has agreed to serve as the CEQA lead agency for this project as it will deliver IEUA recycled water to FWC that will be used to offset existing potable water demand within FWC's service area.</p> <p>The proposed project includes the expanded delivery of recycled water produced by IEUA Water Reclamation Facilities to FWC at its Regional Plant No. 3 recharge basin location. FWC proposes to install a reservoir, pump station, and recycled water delivery pipelines; most of the proposed pipelines have already been installed, though some yard piping is needed. The purpose of the proposed RP-3 improvements is to increase the Agency's program to max the beneficial reuse of recycled water to reduce dependence on imported water to replace use of potable water for landscape irrigation by using recycled water.</p>	MND	05/18/2016
2016041052	<p>Proposed Expansion of Thurgood Marshall Elementary Oxnard School District Oxnard--Ventura</p> <p>Oxnard School District proposes to construct and operate a new two-story, 12 classroom building on the existing Marshall ES site. The school would be reconfigured to include grades 6th through 8th thereby accommodating students in grades K-8 at the existing school site. The proposed 12-classroom permanent structure would increase capacity at the Marshall School to 900 students at State loading standards, satisfying the District's education specification for a K-8 facility. The proposed project would add 12,821 sf of teaching facilities and an additional 2,280 sf devoted to restroom (1,270 sf) storage (593 sf) and locker room facilities (417 sf). This would increase building square footage at the Marshall School by a total of 15,101 sf.</p>	MND	05/18/2016

2016041053	The Semitropic Water Storage District, Pond Road Solar Facility Project Semitropic Water Storage District Wasco--Kern The SWSD proposes to construct a 5-megawatt photovoltaic energy generation facility referred to as the Pond Road Solar Facility. The project would be owned, operated and maintained by the District. The project will be located on disturbed, District-owned property in the San Joaquin Valley area of Kern County, CA, within Section 35, T255, R23E, MDBM. The facility, at full buildout will occupy an area that is approximately 40 acres. The project would interconnect to an existing District 12.47 kV distribution line located immediately north of the project site, adjacent to the District's Pond Rd substation, and across from an existing PG&E substation.	MND	05/18/2016
2016041054	ENV-2015-4570-MND Los Angeles, City of --Los Angeles Note: Review Per Lead The project is for the use and maintenance of a 2,472 sf 7-Eleven convenience store in an existing mini-shopping center with 33 vehicle parking stalls. The applicant is requesting a conditional use to permit a 7-Eleven market in a commercial corner/mini shopping center development operating 24 hrs, daily and to allow two projecting signs.	MND	05/23/2016
2016042051	9 West Shore Road - Waterfront Improvements Belvedere, City of Belvedere--Marin 1) Construction of a wood framed fixed pier supported by twelve 12-in concrete piles; pier would extend approximately 62 ft westward from existing rip rap shoreline over waters into Richardson Bay; 2) Installation of a new platform boat lift at the end of the new pier; 3) Installation of a new forklift-style boat lift (max 6000 lb capacity) on the north side of new pier; and 4) Removal of existing wood piles and concrete footing (from previous pier).	MND	05/18/2016
2016042053	C-593 - Front Street Restoration and Bank Repair Project Danville, City of Danville--Contra Costa The Front Street Restoration and Bank Stabilization project would improve the slope stability where land sliding has occurred, and improve habitat values in the area by laying back the very steep side slopes in this reach of the creek to an inclination of 2:1 (Horizontal:Vertical). A soldier pile wall with concrete lagging and tie-backs would be built near the top of bank in order to stabilize Front St. A buried rock veneer would extend along the new bank from the soldier pile wall to below the flowline of the creek as a scour countermeasure; however, rock placement would be setback horizontally from the creek low flow channel. The planned wall and slope stability improvements would conform to existing repairs which have been completed on either side of the project site, reducing further stream flow impacts in this reach of the creek and the need for future maintenance activities in the project area.	MND	05/18/2016

2008042046	Novato Creek Flood Control Dredging Project Marin County Novato--Marin The proposed project includes changes to the transport and placement of dredged material from Novato Creek to support wetland restoration and flood control infrastructure from the District's adopted 2008 IS/MND, and 2012 Addendum, for the Novato Creek Flood Control Dredging project. The proposed changes include storage and reuse of dredged sediment to reconstruct an existing levee core, creation of a new ecotone slope on the same levee, and new thin layer sediment placement in Deer Island Flood Basin to adapt to sea level rise. This Subsequent Initial Study also conceptually evaluates the use of dredged material to support future alternatives as described in the Hydraulic Analysis of Alternatives for the Novato Creek Watershed Project (KHE 2016).	MND	05/20/2016
2016041055	Citron Townhomes Residential Project (GPA15-003, SPA15-005, TTM 36427R and PP06-009M2) Corona, City of Corona--Riverside The project entails constructing a multi-family residential complex consisting of 36 buildings accommodating 148 townhomes on approximately 7.77 acres. The development will also include a recreation building with restrooms, pool, spa and covered patio areas; approximately 17,750 sf of active open space and approximately 22,550 sf of passive open space and smaller landscaped areas where residents can picnic and barbeque; a proposed trail/walkway system throughout the site for residents to walk/jog; and 296 garage parking spaces and 49 single uncovered guest parking spaces for a total of 345 parking spaces. The project would require a General Plan Amendment (GPA15-003) and Specific Plan (SP15-005) to incorporate the 1.10 acre abandoned animal shelter into part of the project site. The project would also require approval of a TTM 36427R and approval of a PP06-0009M2 to allow for the development as proposed.	MND	05/20/2016
2016041058	Project Jupiter Distribution Warehouse Apple Valley, City of Apple Valley--San Bernardino The proposed project will develop a 106.5 acre parcel to accommodate a 1,360,875 sf distribution center and associated ancillary facilities. The project occurs within the boundary of the North Apple Valley Industrial Specific Plan. The distribution warehouse will consist of a single, 45 ft high building, ancillary office space, including administration, shipping and receiving offices. Separate guard house (510 sf) and fire pump house (1,080 sf) buildings are proposed on the east side of the site. Offsite improvements include bordering streets and power line undergrounding.	MND	05/20/2016

2016042058	Orr Creek Commons Project Mendocino County Ukiah--Mendocino Note: Review Per Lead Construction of an 80 unit Senior Housing Project "Orr Creek Commons", consisting of 72 one bedroom and 8 two bedroom units, including one for a manager. Sixteen of the units will be on a second floor. In addition to the residential units, project would include a 2,000 sf community building containing tenant laundry facilities, management office space, disability equipped bathrooms, kitchen and a meeting/recreation room.	MND	05/26/2016
2016042059	2014-055 TPM Peek-Segel Calaveras County --Calaveras A tentative parcel map to divide 82 acres into two parcels. Parcel one being 20 acres and parcel two, 62 acres. The property contains two residential dwellings: one 1,300 sf with a septic system and public water, the second 2,100 sf with a detached garage, a well and septic system. Parcel one has access off Dennis Court and parcel two has access from Peek Rd. A PG&E pole easement cuts diagonally through the property from the northeast to the southwest. The property consists of moderate to moderately steep slopes with non-native grasses and scattered blue oaks, and contains an intermittent drainage course through the central portion and 3 seasonal ponds, though no permanent water features are present.	MND	05/20/2016
2016042061	Cresleigh Ravine and Campus at Iron Point Mixed Residential Development Folsom, City of Folsom--Sacramento The proposed project consists of a mixed residential development containing a total of 276 units, which would include a General Plan amendment and rezone. The proposed project includes the construction of 46 single family residential homes on Cresleigh Ravine, and dedication of 15 lots as easements to existing property owners adjacent to the western project site boundary. The proposed project also includes the construction of 230 multi family units in 23 apartment buildings and a clubhouse with a fitness center and pool on the Campus at Iron Point. Additional proposed improvements include underground utilities, parking spaces, driveways, drive aisles, retaining walls, sidewalks and walkways, fencing, lighting, landscaping, and trash/recycling enclosures.	MND	05/20/2016
2016042062	Stonehouse Road at Escuela Drive Intersection Improvement Project Sacramento County Rancho Murieta--Sacramento Intersection improvement, including addition of bike lanes, adding southbound left-turn pocket, grading hill, conforming residential driveway, and paving/restriping roadway. Earthwork from hill grading and will be stockpiled adjacent to project site.	MND	05/20/2016
2016042078	Emergency Back-up Water Supply Well No. 1 Menlo Park, City of Menlo Park--San Mateo The construction and operation of an emergency water supply well, with emergency generator, at the City Corp Yard. The project includes modifications to the exterior fencing, the existing access drives, and the installation of new low water use landscaping.	MND	05/26/2016

	constructed. The system will include a water filter, water softeners, a brine filter and tank, a sodium hypochlorite tank, hypochlorite metering pumps, aqueous ammonia feed system, heat exchanger, fluoride feed system, and piping. A 50 ft by 20 ft building will be constructed over the well site to house the well and a chlorination and fluoridation treatment system. The project will provide for the construction and operation of these facilities. Well locations 12B and 13C will be properly decommissioned.		
2016048293	Renewed Office Space (DGS Project #133585) Military Department - Office of the Adjutant General Oceanside--San Diego Department of Military proposes to renew its existing lease for office space of approximately 860 sf for its Oceanside recruiting office.	NOE	
2016048294	Temporary Emergency Permit for Treatment of Hazardous Waste, See's Candies (EPA ID# CAL000030533) Toxic Substances Control, Department of South San Francisco--San Mateo DTSC, pursuant to authority granted under Chp 6.5, Cal Code Regs, Tit 22, sec 66270.61, is considering the issuance of an Emergency Permit for See's Candies to treat reactive hazardous wastes by chemical stabilization. The hazardous waste to be treated is diethyl ether. It has been determined that it may be highly reactive and must be stabilized prior to being transported offsite. These items are currently being stored inside a storage room at See's Candies, located in South SF, CA. Because See's Candies does not have a permit for the treatment of the hazardous wastes, DTSC has determined that, as a safety precaution to prevent an accident or sever injury, an Emergency Permit should be issued to chemically stabilize the hazardous wastes prior to transportation offsite by Clean Harbors Environmental Services. The treatment of the hazardous wastes involves the addition of solvents to containers in order to reduce the reactive characteristics of the chemicals. Treatment will take place within a designated exclusion zone. Only reactive material technicians from CHES will be allowed in the exclusion zone. Movement, preparation, and treatment of the items will be in accordance with established standards. A follow up report will be submitted to DTSC by See's Candies. CHES is tentatively scheduled to conduct the necessary treatment on April 25, 2016. The Emergency Permit will be effective beginning April 25, 2016, and shall expire on June 23, 2016.	NOE	
2016048295	Humboldt-Del Norte Hazard Tree Removal Forestry and Fire Protection, Department of --Del Norte, Humboldt This project involves the removal of hazard trees at four separate locations within the Humboldt-Del Norte CAL FIRE operational unit. Hazard trees have been identified at Crescent City fire station, Alder Conservation Camp, Elk Camp fire station, and Weott fire station. The hazard trees threaten public and CAL FIRE employee safety as well as critical infrastructure such as engine bays, a pump house, barracks, neighboring structures, public roadways, and power lines. This project will last no more than 1-3 days at each location. Personnel and equipment required may include a professional tree removal service and/or CALFIRE inmate crews, miscellaneous hand tools, chainsaws, a chipper, and a bucket truck. Hazard trees will be felled with chainsaws. Material shall be left in place, cut into firewood, chipped, or removed from the site.	NOE

2016048296	<p>Fire Preparedness Exercise 2016 Forestry and Fire Protection, Department of --San Bernardino</p> <p>The Fire Preparedness Exercise (FPE) requires CAL FIRE San Bernardino Unit personnel to demonstrate physical fitness and the safe and effective use of fire suppression tactics in preparation for 2016 peak staffing level. The FPE will be located on land owned by the Forest Service in the San Bernardino National Forest within the Boa Rx Burn Project boundaries. The hand line cutting area is approximately 23 acres. Approximately one acre will actually be cut. The FPE will consist of approximately 25 hand lines (6 ft wide, up to approximately 400' long) constructed by CAL FIRE type I hand and engine crews. Each crew will utilize chainsaws to cut shrubs, and hand tools to remove surface vegetation exposing bare mineral soil (approximately 2 ft wide) for one hour. Length of hand lines will depend on the crew's productivity during a one hour timer period. No trees will be cut. No burning of the slash will occur. Crews will hike approximately 3.5 miles on existing roads (1N31, 2N52, 2N53) prior to beginning hand line construction. Crews will conduct 1000' long progressive hose lays which will not involve the cutting of vegetation. Hose lays will take place on disturbed areas such as roads or existing fuel breaks along Lower Lytle Creek Ridge. Fire apparatus will be operated from existing roads and road shoulders to pump water for the progressive hose lay. Shelter deployment and tool out will occur at the turnout at the intersection of 1N31 and 2N53. The staging area (Incident Command Post) for the FPE will be Applewhite Picnic Ground. No ground based equipment will be operated off existing road surfaces and already disturbed road shoulders/turnouts. The FPE is expected to take place over the course of no more than five days. The project area has been strategically selected to complement or benefit the fuel break construction for the Forest Service's Boa Rx Burn Project and is within the boundaries of the Boa Rx Burn Project. All Forest Service project design criteria will be followed. Project area will be rehabilitated to Forest Service standards.</p>	NOE	
2016048297	<p>Oak Hill Lane Chipping and Tree Limbing Project Forestry and Fire Protection, Department of --Contra Costa</p> <p>The purpose of this joint project of Diablo FireSafe Council and homeowners is to reduce the volume of fuels around residences along Oak Hill Lane, located off of Marsh Creek Road in the unincorporated area of Contra Costa County south of Clayton, CA. The project starts at the intersection of Oak Hill Lane and Fox Creek Lane and continues to the end of the paved road approximately 0.8 miles to the west. The homeowners will reduce ladder fuels using hand tools from immediately around their homes to create defensible space. DFSC Grant funds will be used to hire a contractor to chip homeowner cut brush and fallen trees. The contractor will also cut understory vegetation, limb-up and thin trees that are hazardous, dead, diseased or dying along the access/egress road and driveways.</p> <p>All work will be done by hand tools. Chipping equipment will stay on existing roads and driveways. No mastication, burning or other ground disturbance will occur on this project. Project work is expected during April-June during bird-nesting season. The project area will be reviewed by a biologist to identify any active nests and the work boundaries adjusted to avoid active nests. The contractor's work crew will also be instructed to stop work and inform the project manager should their activities uncover any active nests.</p>	NOE

2011041057	ILWU Local 13 Dispatch Hall Los Angeles, City of Los Angeles, City of--Los Angeles Note: Addendum to the Final The proposed project involves site preparation activities and construction of a two-storied steel framed 32,565 square foot ILWU Local 13 Dispatch Hall to provide a meeting space and administrative offices for dispatching longshore workers at 1500 E. Anaheim St in Wilmington. The proposed ILWU Local 13 Dispatch Hall would have a total occupancy of 2,962 (2,307 on the dispatch floor). The proposed project would include construction of a dedicated on-site parking lot (812 spaces) with outdoor lighting, which would be enclosed by a 6-foot metal fence and parking lot entrances secured by 6-foot-high rolling gates. As a related project, the proposed project would construct improvements for a future bike path along Alameda and Anaheim Streets.	ADM					
2013022044	Partial Recirculated Draft EIR Central El Dorado Hills Specific Plan El Dorado County --El Dorado The proposed project would provide for development of up to 1,000 dwelling units, 11 acres of civic-limited commercial use (50,000 sq. ft. of commercial use), 15 acres of community active park, a 1-acre neighborhood park, and 169 acres of open space (168 acres of natural open space and a 1-acre neighborhood park) in the center of the El Dorado Hills community. The proposed project consists of two planning areas.	EIR	06/06/2016				
2015081006	McFarland General Plan Amendment McFarland, City of McFarland--Kern The City proposes a General Plan Amendment to amend the Land Use Element to add two new land use designations, establish new policies and objectives associated with the new land use designations and other development within the planning area, and amend the Land Use Map to assign land uses to specific areas	EIR	06/06/2016

2013011011	<p>within the SOI and change existing land use designations for several properties within the City boundaries. Approximately 4,850 dwelling units and 24.8 million square feet of non-residential sf could be accommodated based upon the land use designations and estimates for the amount of development that could occur within the planning area over the next 25 years (to approximately 2040) if all sites with the opportunity for development are developed to their identified potential. However, it should be noted that the project does not propose site-specific development on any site within the City or SOI. Individual development projects would occur in incremental phases over time, based largely on economic considerations, market demand, and other planning considerations. The phasing and exact details of each project would be evaluated on a case-by-case basis. No development is proposed or associated with the GPA.</p> <p>South Orange County Reliability Enhancement (SOCRE) Project Public Utilities Commission San Juan Capistrano, San Clemente--Orange, San Diego FYI: Final</p>	FIN	
2014072078	<p>The SOCRE project would include: 1. Rebuilding and upgrading the existing 138/12-kV air-insulated Capistrano Substation (2 acres) as a 230/138/12-kV gas-insulated substation (6.4 acres); 2. Replacing a segment of a single-circuit 138-kV transmission line between the Talega and Capistrano substations with a new double-circuit 230-kV transmission line (7.5 miles), and relocating several transmission and distribution line segments (2 miles, combined) located near the two substations; and 3. Relocating a 12-kV distribution line into new and existing underground conduit and overhead on new structures from the proposed San Juan Capistrano Substation to Prima Deschecha Landfill. Project construction is anticipated to begin November 2013 and would take about 4 years.</p> <p>City Place Santa Clara Santa Clara, City of Santa Clara--Santa Clara</p> <p>The Project would include up to 9.16 million gsf of office buildings, retail and entertainment facilities, residential units, and hotel rooms, and would also include surface and structured parking facilities, open spaces, pedestrian/vehicular entrances, roadway networks, upgraded/expanded infrastructure, new utilities, and reconstruction of Fire Station 10. The conceptual land use plan provides two options, Scheme A and Scheme B, for the five parcels at the Project site, both of which would have the same amount of building area. A new General Plan land use designation (Urban Center/Entertainment District) is proposed within the category of Mixed-Use designations. To reflect the new land use designation, an amendment to the Climate Action Plan element of the General Plan is proposed.</p>	FIN	
2016041069	<p>IS Application No. 5737 (Boghosian Family Trust) Fresno County Fowler--Fresno</p> <p>Allow the rezoning of a 39.09-acre parcel from the existing AE-20 (Exclusive Ag, 20 acre min parcel size) Zone District to an M-2 (c) (Gen Industrial District, Conditional) Zone District to allow limited general and light industrial uses as requested by the Applicant. The subject property is located on the south side of Lincoln Avenue approximately 1,231 ft east of S. Clovis Ave and 2,616 ft north of the nearest city limits of the City of Fowler (5639 E. Lincoln Ave., Fowler, CA) (SUP. DIST. 4) (APN 340-100-15).</p>	MND	05/23/2016

2016041072	Piru Spreading Grounds Solar Project United Water Conservation District --Ventura The proposed project is a fenced and gated 2.0 MW alternating current (MW-AC) or 2.4 MW direct current (MW-DC) solar photovoltaic (PV) energy generation facility. The facility would consist of 5,780 photovoltaic modules, 1,192 piers, 8 drive motors, and 24 combiner boxes. The facility would be connected to Southern CA Edison's electricity grid at the existing utility pole location on CA-126 (Pole ID No. 4215667F) via an underground utility trench approximately 795 lf in length. To support the additional load, the existing wood utility pole would be replaced with a steel pole. Solar panels would occupy approximately 12 acres of the 21.52 acre site and would have a max height of 10 ft and would be mounted on piers. The project would also include perimeter fencing, access gate, and 12 ft wide maintenance and access road.	MND	05/23/2016
2016042064	Kroeger Subdivision (TM 13-03 and Z 15-09) Gilroy, City of Gilroy--Santa Clara The proposed project is a six lot residential subdivision on 2.67 acres. The proposed project includes development of six single family residential lots that vary in size from 7,900 +/- to 11,050 +/- sf, three open space parcels and private streets connecting to existing Eagle Ridge Court. The site would be developed consistent with the development standards that apply to Eagle Ridge. Eagle Ridge was approved by the City as planned unit development. The proposal includes stormwater infiltration basins, water and sewer infrastructure improvements, and dedications to Eagle Ridge HOA for park expansion. Requests to the City include approval of a tentative map, PUD amendment, and architectural and site approval.	MND	05/23/2016
2016042065	Dollar General - Minor Subdivision and New Construction - MS1604 Del Norte County --Del Norte Minor Subdivision of a 7.5 acre parcel into two parcels consisting of a 1.37 acre and a 6.18 acre remainder - Zoning is Manufacturing and Industrial; General Plan land use designation is Light Industrial. Parcel 1 (1.37 acres) is proposed to be developed with a 9,100 sf retail store. No development is proposed for the remainder parcel.	MND	05/23/2016
2016042066	Squaw Valley-Alpine Meadows Base-to-Base Gondola Project Placer County Olympic Valley--Placer The project includes installation, operation, and maintenance of a winter-time only/ski season only gondola connecting the Squaw Valley and Alpine Meadows ski areas. The eight-passenger per cabin gondola would have a design capacity of approx. 1,400 persons per hour in each direction. Travel time between the ski areas is estimated at approx. 16 minutes. In total, the lift would be approx. 13,000 feet in length (based on slope length). Two base terminals, two mid-stations, and 37 towers would be installed. The project would also include installation, operation, and maintenance of an avalanche control system within proximity to the Alpine Meadows portion of the gondola alignment. The avalanche control system would consist of remotely operated gas-activated exploders (Gazex exploders).	NOP	05/23/2016

2016041070	2014-2023 Housing Element Update Los Banos, City of Los Banos--Merced The 2014-2023 Housing Element is an update to the 2009-2014 Housing Element that was adopted by the City of Los Banos in 2009. The City of Los Banos 2014-2023 Housing Element addresses State Law requirements and statutory regulation in compliance with Gov Code Sections 65580 through 65589.	Neg	05/23/2016
2016041071	DRC2015-00797 Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino Environmental Assessment and Design Review DRC2015-00797 - RGA Office of Architecture and Design: A proposal to construct an industrial building of 339,000 sf on a parcel of 696,465 sf (15.99 acres) in the General Industrial (GI) Zoning District located approximately 1,100 ft north of 6th St and 395 ft north of the terminus of Santa Anita Ave: APNs: 0029-271-24, 25, 26	Neg	05/23/2016
2016042063	Schwan Lake Trail Accessibility Improvements Parks and Recreation, Department of Santa Cruz--Santa Cruz DPR proposes to upgrade approximately 2500 linear feet of the existing Schwan Lake Trail to comply with the Americans with Disabilities Act and the Department's "ADA Transition Plan". Work would construct 800 lf of new rerouted trail and obliterate then restore 600 ft of highly erodible trail in Twin Lakes State Beach in western Santa Cruz County, central CA; approximately 2.5 miles south of the town of Santa Cruz.	Neg	05/23/2016
2016011048	State Route 1 Permanent Restoration Project Caltrans #12 Newport Beach--Orange Note: MND/Categorical Exclusion The Newport Bay Bridge on Pacific Coast Hwy in the city of Newport Beach has a condition of a failed concrete slope paving on the west side of abutment 1. A section of the bike pedestrian path under the bridge has also failed. this project proposes to repair the bridge and bike path by 1) replacing the failed concrete slope paving with concrete with a deeper slope paving key, geo-composite material and a sheet pile to minimize environmental disturbance, 2) filling the existing scoured channel bed with rock and 2) replacing the failed section of asphalt concrete bike paths with a 3' pavement section with a deeper slope paving key, geo-composite material and a sheet pile to minimize environmental disturbance and to confine the project to within the State right-of-way.	Oth	
2006042101	Syar Alexander Valley In-stream Mining Project and Sonoma County ARM Plan Amendments (PLP08-0116) Sonoma County --Sonoma The Project is limited to mining a maximum of 350k tons of gravel from Bars S-8, S-9 and S-13, all within the Alexander Valley reach of the Russian River (River Mile 52-54). Gravel bars S-8 and S-9 are located immediately upstream and downstream of teh Hwy 128 Geyersville Bridge, respectively, 38.712537N, 122.895183W. Bar S-13 is located approx. 2 miles upstream of the Geyersville Bridge and is accessed from private roads off Geyersville Ave. CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2013-0017-R3 pursuant to	NOD

	Section 1602 of the Fish and Game Code to the project Applicant, Jim Syar of Syar Industries, Inc.		
2011041057	ILWU Local 13 Dispatch Hall Los Angeles, City of Los Angeles, City of--Los Angeles The original project involved the creation of a 32,565 sq. ft. dispatch hall with a dedicated on-site parking lot. The LAHD prepared and certified a Mitigated Negative Declaration for the project. Subsequent to construction, it was determined that additional parking may be needed for special events. This Addendum has been prepared to reflect the change to the original project description and evaluate those environmental resource areas that were previously analyzed in the 2011 Final MND.	NOD	
2014032030	Florin Creek Multi-Use Basin Project Sacramento Area Flood Control Agency Sacramento--Sacramento Construction and operation of two detention basins with a maximum depth of about eight feet below current ground elevation with a total flood storage volume of approx. 32.5 acre-feet. The detention basins would also provide an opportunity for stormwater management and non-point source control. Because the Park District will work with SAFCA as a project partner, the project will improve recreation and public access. Project features will include a habitat area planted with native plants to provide ecosystem restoration.	NOD	
2016011048	State Route 1 Permanent Restoration Project Caltrans #12 Newport Beach--Orange Caltrans District 12 is proposing to repair the bridge and bike path by 1) replacing the failed concrete slope paving with concrete with a deeper slope paving key, geo-composite material and a sheet pile to minimize environmental disturbance, 2) filling the existing scoured channel bed with rock and 3) replacing the failed section of asphalt concrete bike path with a 3' pavement section with a deeper slope paving key, geo-composite material and a sheet pile to minimize disturbance and to confine the project to within the State of Right of Way.	NOD	
2016032050	Apple Road Vernal Pool Establishment Project Sacramento County --Sacramento The proposed project consists of a request for a Grading Permit to allow land grading to establish (create or construct) approx. 295 vernal pools, totaling 5.20 acres, within an approx. 239-acre vernal pool establishment area (project area) on land zoned AG 80. The total number of established vernal pools may change slightly as the final design is fitted to field conditions during project construction. The project includes removal of soil from upland areas designated for vernal pool establishment, and transport of soil to designated stockpiling areas on site. The purpose of the vernal pool establishment is to provide compensatory mitigation for impacts resulting from an unrelated project. Within the project area, a total of 22.83 acres of existing Wetlands and Waters of the United States occurs, including 3.93 acres of vernal pools, 11.20 acres of tailing area vernal pools, 0.62 acre of ponds/lakes, 2.64 acres of wetland swales, and 4.44 acres of wet clay scopes. No grading activity will occur within existing wetlands, ponds or other water features. Existing wetland features will be clearly marked in the field by a qualified biologist, and avoided during construction.	NOD

	Access and haul routes will be restricted to upland areas to the maximum extent possible. Where crossing of existing wetlands and drainages for haul route access is unavoidable, existing farm roads will be used where possible, and crossing will only occur when wetlands are dry. The location of the crossings will be determined in the field by a biologist.		
2016049010	Streambed Alteration Agreement No. 1600-2016-0059-R2 "Steely" THP Forestry and Fire Protection, Department of --El Dorado This project entails the replacement of an existing failed plastic pipe with a new 60-inch corrugated metal pipe and the replacement of an existing undersized plastic pipe with a rocked ford. Further information can be found in the THP 4-15-015-CAL.	NOD	
2016049011	Streambed Alteration Agreement No. 1600-2016-0057-R2 "Forebay Conversion" THP Forestry and Fire Protection, Department of --El Dorado This project includes the temporary replacement of one existing and undersized crossing, as well as re-establishment of a natural watercourse channel (Map Point 10); construction of three new temporary skid trail crossings (Map Points 11, 12, and 13); and installation of one temporary sediment retention structure intended to minimize impacts downstream of the crossings listed above (Map Point 21). Further information can be found in the THP 4-15-016-ELD.	NOD	
2016048229	Emergency Repairs to Embarcadero Wharf Structure San Diego Unified Port District San Diego--San Diego The proposed project involves repair of the Embarcadero wharf and promenade located just north of Navy Pier in the City of San Diego. The existing wharf wall consists of a concrete pile cap, sheet pile wall, concrete wales, tie back system, relieving platform, and connecting hardware. Additionally, electric conduit and sewer line are attached to the face of the wall. The promenade on top of the wall is bounded by railing, and the surface consists of pavers over two inches of sand. On March 31, 2016 a vessel collided into the Embarcadero wharf, which caused structural damage to the concrete sheet piles, pile cap, wales, utilities, handrails, and promenade. The damaged area spans a footprint of approximately 16 feet long by 12 feet wide and is currently barricaded for public safety. Urgent repairs are necessary to secure the wharf's structural integrity, resume its function, and provide a safe promenade for the public.	NOE	
2016048300	Disinfection Byproduct Reduction Project Placer County Water Agency Auburn, Colfax--Placer This project will include installation of tank mixers and ventilation systems where disinfection byproducts are reaching unacceptable concentrations in the following seven tanks: Colfax Clearwall Tank (1 MG), Colfax Ball Park Tank (0.6 MG), Colfax Clearwall Tank (0.3 MG), Bowman Clearwall Tank (10 MG) Bell Road Tank (1 MG), Channel Hill Tank (1 MG) and the Electric Street Tank (5 MG). 2016048301	Magnolia Elementary School New Classroom Bldg. & Renovation Cajon Valley Union School District El Cajon--San Diego Removal of 13 portable classroom buildings; construction 8 new classrooms; and school renovation.	NOE	
2016048302	Gallo Storm Drain Replacement Project Fish & Wildlife #3 Healdsburg--Sonoma This project involves the removal and replacement of approximately 1,925 linear feet of twin parallel 54-in culverts with approximately 1,875 lf of twin parallel 54 in culverts. The new culverts will be 50 ft shorter than the existing culverts. Issuance of a Lakebed Alteration Agreement No. 1600-2015-0403-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2016048303	Devil Mountain Nursery Revegetation Plan Fish & Wildlife #3 Petaluma--Sonoma The project is limited to restoring and revegetating an approximately 700-ft long (0.91 acres) section of an unnamed tributary with native vegetation. The project will include planting, maintaining and irrigating both banks of the unnamed tributary. Tree planting will include 80 coast live oak, 40 valley oak, 120 red willow, and native grasses and forbs. Issuance of a Streambed Alteration Agreement No. 1600-2016-0026-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2016048304	Proposed Plan (PP) for Installation Restoration Site 2/4, Naval Amphibious Base Coronado Toxic Substances Control, Department of Coronado--San Diego DTSC, pursuant to authority granted under Chp 6.8, Health and Safety Code Sec 25356.1, approved the Proposed Plan Naval Amphibious Base Coronado Installation, Restoration Site 2/4, submitted by the US Dept of Navy, dated Oct 2015. The decision was based upon the conclusions and recommendations presented in the previously approved 2014 Final Remedial Investigation Report for IR Site 2/4 and the Focused Feasibility Study submitted on behalf of the DoN. DOD has the authority to undertake Comprehensive Environmental Response, Compensation, and Liability Act response actions under 42 US Code Sec 9604, 10 USC Sec 2705 and Federal Executive Order 12580. This response action is consistent, to the max extent possible, with Chp 6.8, CA State Health and Safety Code. The purpose of the FSS was to develop and evaluate remedial action alternatives to mitigate potential human health risks associated with antimony, copper, and lead in soil at IR Site 2/4, NAB Coronado. Alternative 1 - no action: no remedial action of any type would be conducted; this alternative serves as the baseline against which the remaining alternative is compared. Alternative 2 - ICs: this would entail modifying the NAB Coronado Master Plan to impose appropriate limitations on the land use. Five year reviews will be conducted to evaluate the effectiveness of the remedy.	NOE

2016048319	<p>Supplemental Geotechnical Investigation for the California High-Speed Rail Program, Palmdale to Burbank High Speed Rail Authority, California --Los Angeles</p> <p>A tunnel through the ANF is being considered for a portion of the Palmdale to Burbank Section for the California High-Speed Rail Project. Previously, five original sites had been elected to investigate in-situ rock conditions and to measure groundwater pressures along proposed tunnel alternatives. Since then, three alternate site locations have been identified. Alt-B1, Alt-B2 and Alt-B3. These test borings are needed to test site conditions in locations that lie close to the alternate alignments proposed by the California High-Speed Rail Authority. The purpose of the geophysical investigation is to obtain sufficient subsurface field data to help evaluate the tunnel portion of alternatives with respect to potential environmental impacts (i.e., groundwater, hydrogeological and surface water resources), design constraints, and construction constraints.</p>	NOE

2016048320	Prospect Silicon Valley Energy Commission San Francisco--San Francisco This project will fund the demonstration of large scale, cost-effective energy efficiency upgrade package to achieve zero net energy or near zero net energy use in a grocery store. This project will cover a wide variety of building technologies and strategies including but not limited to Heating Ventilation and Air Conditioning (HVAC), lighting, refrigeration systems, kitchen equipment and controls. The project will explore all reasonable opportunities for each system category. as well as integrated opportunities that cross or combine systems.	NOE	
2016048321	Ventilation Solutions for Energy Efficient California Schools: Improving INdoor Air Quality through Advanced, High Performantce HVAC Energy Commission -- Several technologies that deliver HVAC services and energy savings will be field tested at several schools in Calfiornia. The technologies currently identified that are likely to be included in this study include heat recovery ventilators, air economizers, demand control ventilation, displacement ventilation, high performance filtration, and learning thermostats. These are advancements that are over and above the technologies typically used in California schools, and can greatly improve the efficiency of providing heating, cooling and ventilation in classrooms.	NOE	
2016048322	Central Valley Energy Innovation Cluster: Blue Tech Valley Energy Cluster Energy Commission Fresno--Fresno The purpose of this agreement is to further advance the Regional Energy Innovation Cluster in the Central Valley Region. This Cluster will provide and coordinate key services, assistance, resources, and infrastructure needed by entrepreneurs and researchers in the region to successfully bring to market energy innovations that can benefit Investor Owned Utility (IOU) electric ratepayers.	NOE	
2016048323	San Diego Regional Energy Innovation Cluster Energy Commission San Diego, Brawley--San Diego, Imperial The San Diego Regional Energy Innovation Cluster brings together globally-recognized organization in San Diego, Imperial, Riverside, and San Bernardino counties to provide entrepreneurial support to promising energy innovations in the region. Under one directive, the Cluster will connect entrepreneurs tot he multitude of programs and resources available in the region in order to increase the likelihood of successful development and deployment of new innovations that will ultimately provide benefits to electricity ratepayers in the region.	NOE	
2016048324	Conversion of Low Value Waste Heat into High Value Energy Savings Energy Commission Berkeley--Alameda We propose to demonstrate natural gas savings by recovering waste heat from biogas generators and using it for chailing and heating processes within the food processing facility using the ThermoSorber ammonia-water absorption chiller. 2012101082	I-10 Corridor Project Caltrans #8 San Bernardino, Claremont, Pomona, Montclair, Ontario, ...--San Bernardino Caltrans is proposing to improve I-10 by constructing freeway lane(s) and other improvements through all or a portion of the 33 mile long segment of the I-10 from the LA/SB County line to Ford Street in San Bernardino County. The project limits, including transition areas, extend from approximately 0.4 mile west of White Ave in the city of Pomona to Live Oak Canyon Rd in the city of Yucaipa. The I-10 Corridor Project consists of a No Build Alternative (Alternative 1) and two build alternatives (Alternative 2 and 3). Alternative 2 would extend the existing HOV lane in each direction of I-10 from Haven Ave in Ontario to Ford Street in Redlands. Alternative 3 would provide two Express Lanes in each direction of I-10 from the LA/SB County line to California St in Redlands and one Express Lane in each direction from California St to Ford St in Redlands. Implementation of the build alternatives would reduce traffic congestion, increase throughput, enhance trip reliability, and accommodate long-term congestion management of the corridor. The project is currently expected to be open to traffic in year 2025.	EIR	06/08/2016
2015091030	Proposed Amendments to Regulation VIII, (New Source Review), and Other Associated Rules Santa Barbara County Air Pollution Control District --Santa Barbara The District is proposing to amend its New Source Review (NSR) permitting program. NSR rules apply to businesses that are proposing to install or modify any emission unit or operation that requires a permit and that could emit regulated air pollutants. These amendments are designed to update the District's current NSR permitting program to reflect recent regulatory mandates, and to simplify the permitting process while maintaining an equally stringent rule set, among other changes. 2015011051	<p>work includes removal of the existing bridge structure and construction of the concrete retaining walls and bridge abutments, regarding of the stream banks adjacent to eh bridge, removing remnant rubble, and lowering exposed high spots in the stream bedrock. Roadway and storm drain improvements are also included in the project description.</p> <p>New McCandless Drive Elementary School Project Milpitas Unified School District Milpitas--Santa Clara</p> <p>The project is the approval of a Removal Action Workplan by the DTSC that would authorize activities related to the mitigation of polychlorinated biphenyls (PCBs), arseni, and naturally occuring asbestos (NOA) detected in soil. Activities to be conducted pursuant to the approved RAW include:</p> <ul style="list-style-type: none"> -In-situ bioremediation is the selected remedial action fro PCBs in soil. The total estimated volume of PCBs impacted soil to be treated by bioremediation is approx. 16,400 cubic-yards; -Soil excavation, removal, and offsite disposal is the selected remedial action for the arsenic outliers. At each outlier location a 10-foot by 10-foot area will be excavated to approx. depths of 3-feet. The total volume of soil to be excavated is estimated to be 45 insitu cubic-yards (cy); -Implementation of engineering controls (ECs) and institutional controls (ICs) are the selected remedial actions to reduce or eliminate potential exposure to NOA at the Project Site. ECs include capping with paved areas, building foundations, and/or clean fill material. ICs primarily consist of development of an operation and maintenance (O&M) plan; and development of a soils management plan. 	NOD	
2015082057	<p>Middle Martis Creek Wetlands Restoration (DGP 5350) Placer County Truckee--Placer</p> <p>The Middle Martis Creek project is a restoration project designed to improve water quality, eliminate flooding and restore habitat. Prior to the construction of Brockway Road (now Hwy 267) in the 1800s, Middle Martis Creek formed an alluvial fan as it entered Martis Valley. The creek would have actively migrated among several channels on the fan. When the road was construction, the creek was confined to a single channel, now on the south side of the hwy. The confinement of Middle Martis Creek to a single channel has caused channel instability, erosion and headcutting, flooding, and erosion. The project aims to restore a portion of the flow on the north side of Hwy 267, while maintaining sufficient flows on the south side to sustain existing wetlands and riparian habitat. Additionally, the project will reactivate the historic stream channel on the north side of the hwy to increase wetland habitat.</p>	NOD

2015102071	Tierra Linda Campus Rebuild San Carlos School District San Carlos--San Mateo The San Carlos School District proposes building renovations and new construction for the Tierra Linda Middle School campus. The new Dartmouth Bridge School (temporary name) would be located at the site of the existing Tierra Linda (TL) Middle School in northern San Carlos. With the project, the TL Middle School (which currently serves Grade 5 through 8) would serve Grades 6 through 8, and the new Dartmouth Bridge School would serve Grades 4 and 5. In addition, new buildings would be provided for the existing San Carlos Charter Learning Center that resides on the TL campus. Total on-campus enrollment would increase from approximately 1,058 students to a capacity of 1,396 students. About 27,900 gross square feet of new building area would be provided on the campus.	EIR	06/09/2016		
2016041076	UCLA Margan Apartments Redevelopment Project University of California, Regents of the Los Angeles, City of--Los Angeles UCLA proposes the demolition of an existing, UCLA-owned, undergraduate apartment building of approximately 43,000 gsf; comprised of 31,000 gsf of residential area and 12,000 gsf of subterranean parking. This would be replaced through construction of a new 62,000 gsf apartment building, comprised of 61,000 gsf of residential development and 1,000 gsf of parking. The proposed project would provide a total of 42 apartment units, accommodating 216 beds for undergraduate and transfer students.	MND	05/25/2016

	mitigated on the City's property to the south at a greater than 1:1 ratio. All vehicular access to the units will be from the new Foster Avenue Extension along the south side and all required parking will be developed onsite. The development will utilize Low Impact Development (LID) features for drainage, landscaping and recreation facilities.		
2014092011	Silver Oak Estates Clayton, City of Clayton--Contra Costa The proposed project requires consideration for approval of the following discretionary actions by the City of Clayton. Development plan for a planned development project and the following subcomponents: affordable housing plan for six on site units; habitat conservation plan for the project site in accordance with the East Contra Costa County Habitat Conservation Plan. Vesting Tentative Map for the subdivision of the site into 52 townhome lots, 7 single family home lots, and 11 parcels for various uses, including open space, roadways, stormwater detention basins, existing well, and water meter. Tree removal permit for the removal of protected trees, as defined in Section 15.70.015 of the Canyon Municipal Code. A tree replacement plan is also required for the project prior to issuance of a tree removal permit.	NOP	05/26/2016
2016041078	Cayucos Sustainable Water Project Cayucos Sanitary District --Santa Barbara The project consists of two phases. Phase 1 includes construction of a new Water Resource Recovery Facility, related conveyance pipelines, production of tertiary treated water for agricultural irrigation, and discharge of process water to the existing ocean outfall. This phase would also include participation and coordination in the decommissioning of the existing Morro Bay / Cayucos Wastewater Treatment Plant in Morro Bay. Phase 2 is the construction of a conveyance pipeline for recycled water to the CSA 10 Surface Water Treatment Facility. A WRRF will be constructed on a portion of the project site on Toro Creek Road in Cayucos. The WRRF will be sized to serve only the service area of the CSD with an average annual daily flow (AADF) of 0.33 to 0.5 million gallons per day.	NOP	05/25/2016
2016041080	Environmental Impact Report for the Village Four Sectional Planning Area Plan Chula Vista, City of Chula Vista--San Diego Note: Ref SCH #1997091079 & 2004081066 Otay Valley Quarry, LLC is proposing to develop the approximately 165 acre site identified as Village Four in the Otay Ranch General Development Plan. Development of the site would consist of 69 single family residential dwelling units and up to 281 multi-family residential dwelling units and up to 281 multi-family residential dwelling units on approximately 34 acres of the project site, as well as approximately 12 acres for roadways and circulation right of way. The remainder of the project site would consist of open space and Multiples Species Conservation Plan (MSCP) Preserve. The primary entry point into Village Four is from La Media Road. The project proposes an approximately 2-mile eastern extension of Main Street which would provide additional access to the project site. In addition to the extension of Main Street, four internal village streets are proposed. Additionally, the project would include a new sewer alignment that would connect with the Salt Creek Interceptor south of the project site.	NOP	05/25/2016

	The project would require an amendment to the Otay Ranch General Development Plan.		
2016041079	Eureka Energy Variance San Luis Obispo County --San Luis Obispo Request by Eureka Energy for a Variance to allow construction of an access road to service powerline tower and two pedestrian paths to service security camera towers. The project will result in the disturbance of approximately 34,000 sf on a 545 acre parcel. The proposed project is within the Public Facilities land use category and is located at the Diablo Canyon Power Plant on Reservoir Road, 9 miles northwest of the community of Avila. The site is in the San Luis Bay Coastal planning area.	Neg	05/25/2016
2016041081	Santa Ana Civic Center Building 16 Demolition Orange County Santa Ana--Orange Due to inefficient and outdated building space and the presence of asbestos-containing materials and lead-based paint contamination, Building 16 has been vacant since 1990. The project involves the demolition of Building 16, including the excavation of the building's basement. After the demolition and excavation, the excavated area may be developed as part of Civic Center Master Plan or be brought up to grade level with engineered fill. The project site will then be landscaped, mostly with turf. The proposed project is anticipated to start in summer of 2016 and is expected to take approximately two to three months to complete.	Neg	05/25/2016
2016042071	Les Schwab Tire Center Patterson, City of Patterson--Stanislaus The project assessed by this initial study considers the construction and operation of a service center for vehicle tires, wheels, shocks, brakes, batteries, and alignment. The building consists of a 12,000 sf building, with approximately 4,400 sf allocated to retail and office uses, and the remainder allocated to eight service bays and storage. A 1,300 sf mezzanine is also included for storage. The project would be located on a 1.4 acre site with 50 parking spaces, including two accessible parking spaces. Access would be provided at a shared driveway to the west of the project site.	Neg	05/25/2016
2016042073	Olema Tributary Creek Culvert Replacement Project Caltrans #4 --Marin Caltrans proposes the Olema Creek Tributary Culvert Replacement Project to replace a failing double culvert on SR 1 in rural Marin County, CA, at PM 24.67, which is approximately 1.8 miles south of the town of Olema. The project involves removing two undersized 24-in diameter culverts that currently convey the flows from an unnamed tributary of Olema Creek, and constructing a 44 ft long, natural bottom culvert (cast in place, reinforced concrete box) that is approximately 30 ft wide on its interior and 36 ft wide on its exterior. The culvert would require soil nail wingwalls in each quadrant extending perpendicularly from the culvert opening until it meets the 2:1 embankment slope where the wingwalls would meet the existing ground. 1996042089	Oakhurst Area Wastewater Treatment and Disposal Facilities Madera County OAKHURST--MADERA The California Department of Fish and Game is executing a Streambed Alteration Agreement No. 1600-2010-0091-R4 (Agreement) issued to the Project applicant, County of Madera Dept. of Public Works. The Dept. is granting requested modifications to the revegetation plan required by the Agreement.	NOD	
1999032062	Standardized Permit Reissuance for Ramos Environmental Services Toxic Substances Control, Department of West Sacramento--Yolo DTSC's approved the Standardized Hazardous Waste Facility Permit (Permit) pursuant to CA Health and Safety Code section 25200 for the existing Ramos Environmental Services (RES) hazardous waste storage and transfer facility, EPA Identification No. CAD 044 003 556 (the Facility). The Facility is currently operating under the Standardized Hazardous Waste Facility Permit issued by DTSC in 1999. The approved Permit (referred to as a permit re-issuance) would allow RES to continue the consolidation, bulking, storage, and transfer of non-RCA hazardous wastes such as used oil, used antifreeze, oily water, oily sludge, non-RCRA oily solids, and non-RCRA oily soils. The activities occur in aboveground tanks and containers and in a loading and unloading area. The approved Permit consolidates the nine individual units from the current permit into three units. The waste management activities that occur under the proposed Permit would generally remain the same as those under the current Permit, except the 75,000 gallon tank (Unit 5 in the current permit) will not be authorized in the approved re-issuance Permit. Due to the absence of the 75,000 gallon tank and the increase in allowed capacity for Units 1 and 2, the overall authorized capacity for the Facility under the approved Permit will decline from the current permit's authorized capacity of 114,485 gallons (liquids and solids) to 47,659 gallons (liquids) and 16 tons of solid waste.	NOD	
2006022091	Folsom Dam Safety & Flood Damage Reduction - Right Bank Stabilization Central Valley Flood Protection Board Folsom--Sacramento The CVFPB and US Army Corps of Engineers prepared a Supplemental Environmental Assessment/EIR of the Folsom Dam Modifications Project - Phase V Site Restoration and Related Mitigation Activities. The SEA/EIR analyzes environmental impacts for restoration activities related to the internal haul road, Dike 7 and Dike 8, restoration of the Prison Staging Area, and other related activities. Potential environmental effects analyzed in detail include: aesthetics, air quality, climate change, noise, cultural resources, recreation, fisheries, vegetation & wildlife, traffic & circulation, and water quality. 2007062091	PG&E Line 406/407 Project California State Lands Commission Woodland, Sacramento, Roseville--Yolo, Sutter, Sacramento, Placer To install a 30-inch diameter gas transmission line (L407) under the west bank levee and channel of the Natomas East Main Drainage Canal using the horizontal directional drilling (HDD) method in Sutter County.	NOD	
2010031008	Panoche Valley Solar Farm Project San Benito County --San Benito This proposed project involves construction, operation, and maintenance of an approximately 247 MW solar photovoltaic energy facility, including solar panel arrays, a substation, project roads, and perimeter fencing. Major Amendment No. 1 changes requirements for minimizing take of State-listed species related to trenching activities, changes the location but not the extent of ground-disturbing activities within the previously-permitted limits of work, allows a wider range of conditions in which vehicle trips may occur, and allows a different approach to a direct-buried cables. The project, as before this Amendment, will result in permanent impacts to 1688.2 acres and temporary impacts to 465.8 acres of San Joaquin kit fox (SJKF), giant kangaroo rat (GKR), California tiger salamander (CTS), and San Joaquin antelope squirrel (SJAS) habitat; the project will permanently remove 1688.2 acres of SJKF, GKR, CTS, and SJAS habitat. The project is expected to result in incidental take of SJKF, CTS, and SJAS, which are designated as threatened species and GKR, which is designated as an endangered species under the CESA. The incidental take permit referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	NOD	
2013041078	Ocotillo Wells Solar Major Use Permit San Diego County --San Diego The Time Extension will extend the deadline by which construction or use in reliance on the Major Use Permit commences. The Time Extension proposes no changes to the project approved with Major Use Permit PDS2012-3300-12-004. The Time Extension would not involve substantial changes in the magnitude of impacts identified in the Ocotillo Wells Solar Major Use Permit Mitigated Negative Declaration PDS2012-3910-12-12-001 (ER) and would not create new potentially significant impacts that would require mitigation. The project will still be required to implement all mitigation measures identified in the Major Use Permit and MND.	NOD	
2013061006	North Paso Robles Rehabilitation Project Caltrans #5 Paso Robles--San Luis Obispo CDFW has executed Streambed alteration Agreement No. 1600-2015-0234-R4, pursuant to section 1602 of the Fish and Game Code to the project applicant, Caltrans. The project involves activities related to the rehabilitation of SR 101 including 1) the replacement of both the southbound and northbound bridges over San Marcos Creek; 2) conversion of a culvert system which daylight in the middle, to one continuous culvert; and 3) rerouting of a culvert with the abandonment of the existing culvert. 2016048359	Airport Boulevard Landscaping Project Sonoma County --Sonoma The Sonoma County Department of Transportation and Public Works is proposing to install visual landscape plantings and irrigation as a follow up project to the recently-constructed US-101/Airport Boulevard Interchange. Approximately 158 trees will be planted. Ramp areas will be planted with redwoods and drought tolerant tree species such as oaks and crape myrtles. Olive trees and Italian cypress will be planted along Airport Blvd. due to state-wide drought restrictions; recycled water is proposed to be used for irrigation. If state-wide drought restrictions are lifted, use of potable water service connection may be incorporated into the project. A temporary irrigation system using recycled water will be installed for a three to five year period of time to facilitate tree establishment. Trees are expected to rely on natural rainfall following removal of the temporary irrigation system, and will require little long-term maintenance. Landscape ground cover and shrubs will not be planted due to high water use and long-term maintenance requirements. A notice of determination for the interchange construction project was filed by the lead agency, Caltrans #4, on 10/29/2007 (SCH #2003062101) and was revalidated on 3/27/2012 (NOD filed 5/8/2012). This Notice of Exemption is for the follow-up landscaping project only. The tree planting addresses Caltrans' environmental visual commitments established in the EIR/EIS for the interchange construction project. This landscaping project is being funded by local sales tax (Measure M Phase 4a). The project is tentatively scheduled to begin in 2016, with plant installation likely occurring in 2017/18.	NOE

	women's restrooms. The office renovation consists of removing interior walls and doors and replacing to suit the new use. The reconfiguration of office space consists of private and open office space with modular furniture and hearing rooms. Walls, doors, lighting, switches, power, data, supply and return air will be installed to suit the new office space uses.		
2016048361	El Dorado Lift Station Facility Yard Crossing Replacement Project El Dorado Irrigation District --El Dorado The El Dorado Irrigation District (district) proposes replacement of a section of earthen roadway crossing an unnamed, seasonal drainage ditch to access the El Dorado Lift Station and facilities storage yard. The existing roadway drainage crossing was 8 feet wide and has eroded over the years narrowing the paved area by approximately 6 -inches on each side of the crossing which has caused a safety problem for heavy-duty District operations vehicles to utilize the roadway. District staff proposes to maintain safe access to the El Dorado Lift Station facility yard by rebuilding the crossing and widening it to 12 feet, and then repaving the crossing surface. Project activities will occur during the dry summer months to ensure water is not present in the drainage ditch. All spoils will be disposed of in accordance with all applicable regulations. Standard fugitive dust and erosion control BMPs will be employed during and after the maintenance activities to reduce impacts to air and water quality. Activities will occur during the normal business hours of 7 a.m. to 5 p.m., and will take approximately one week to complete. Equipment necessary for construction of the roadway crossing include: a hauling truck; backhoe; paving equipment, and safety equipment.	NOE	
2016048362	Relocation and Installation of Above-Ground Storage Tank - Bakersfield to Buttonwillow Field Office California Highway Patrol Bakersfield--Kern The proposed project would remove a 10,000 gal. Above-ground storage tank (AST) from the Bakersfield CHP Area Office and transport the AST to the Buttonwillow Area Office for installation. Appropriate transportation permit(s) will be obtained prior to relocation of the AST. In preparation of relocation and installation to the AST at the Buttonwillow office, an existing 10,000 gal. underground storage tank (UST) and associated appurtenances will be removed from the Buttonwillow Office. Installation of the AST also includes replacement/relocation of fueling appurtenances, including Fuel Island, dispensers, and fuel management system, bollards, monitoring systems, signage and security fencing. Parking lots will be re-paved and re-striped to comply with the American with disabilities act. If soil contamination related to the fueling system is discovered, the project may also include removal of up to 50 tons of contaminated soil. If contamination is more extensive, the remediation will be considered a separate action for purposes of CEQA. Any removal action will comply with applicable State and local environment permitting requirements.	NOE	
2016048363	2016 Water Exchange Agreement San Gorgonio Pass Water Agency --Riverside, San Bernardino The 2016 Water Exchange Agreement ("Agreement") allows for the exchange of 1,200 acre-feet of State Water Project ("SWP") water from CLAWA to SGPWA in Calendar Year 2016, and with SGPWA returning 600 acre-feet of water to CLAWA no later than the end of Calendar Year 2026. Both CLAWA and SGPWA executed	NOE

2016042082	Soquel Creek Water District Land Acquisition Soquel Creek Water District --Santa Cruz Note: Ref SCH #2015082032	Neg	05/27/2016
	The specific project to be analyzed through the Initial Study includes the land acquisition of the subject parcel APN:030-241-20. The intended purpose of the land acquisition is to expand the Soquel Creek Water District's "land banking" for various possible future projects. The district recently purchased the adjacent property, APN 030-241-22 located directly to the north of the subject parcel. No specific use for the project site has been identified at this time. Future projects could include (but are not limited to); 1) increasing the parking and/or corporation yard capacity that could be available for employee/visitor parking, fleet vehicles and equipment storage, 2) relocation and/or addition of administrative building, or 3) water treatment facility. A future water treatment facility would be evaluated through a subsequent CEQA evaluation.		
2015022048	901 16th Street and 1200 17th Street, Case No. 2011.1300 E San Francisco, City and County of San Francisco--San Francisco Note: FYI - NOA - Resp. to Comm.	Oth	
	The proposed project would merge 4 lots into 2 lots, demolish the 2 warehouses and the modular office building, preserve the brick office building, and retain some materials from a steel shed for reuse within the proposed project. The project sponsor proposes to construct 2 new buildings on-site: a new 6-story, 68 foot tall, residential mixed use building consisting of 260 dwelling units and 20,318 sf of retail on the northern lot and a new 4-story, 48-foot tall, residential mixed use building consisting of 135 dwelling units and 4,650 sf of retail on the southern lot. A new publicly accessible pedestrian alley would be constructed along the entirety of its western property line. Combined, the two new buildings would also contain 388 vehicular parking spaces and 455 off-street bicycle parking spaces.		
2007051128	UC Santa Barbara Long Range Development Plan University of California, Santa Barbara Goleta--Santa Barbara In response to CA Coastal Commission comments on the Notice of Impending Development for solar photovoltaic energy systems at six campus sites, the Project makes four minor modifications to the UC Santa Barbara Long Range Development Plan (LRDP) and EIR to make two of the six sites consistent with the LRDP and LRDP EIR, as follows: 1. Modifies LRDP EIR Mitigation Measure BIO-3D and language contained within LRDP Policy LU-29 and Appendix 2 to clarify perceived inconsistencies regarding tree removal and replacement requirements for native oak trees. 2. Revises Policy LU-24 to reinforce the exemption of canopy solar systems from building height limits, and add a maximum height limit of such systems of 60 feet.	NOD

2008031082	<p>Parklands Specific Plan and Tentative Map San Buenaventura, City of Ventura--Ventura CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2014-0170-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Westwood Communities. The Project is limited to the alteration of Brown Barranca (Barranca) in the construction of the Parklands Development Project, which consists of the construction of approx. 499 residential units and several park spaces within a 66.7 acre site. A 1,742-foot segment of the Barranca crosses through the northeast portion of the development site. The project is located within existing agricultural lands that are surrounded by residential and commercial areas. Construction of the development will be completed in four separate phases. The majority of the work in the Barranca and within CDFW jurisdiction (including both permanent and temporarily disturbed area) will take place during Phase 2. Areas of the Barranca that will be temporarily disturbed due to construction activities are estimated to be 0.87 acre and permanent impact areas are calculated to be 1.22 acres. In general, approx. 488 linear feet of the Barranca will be permanently impacted due to the construction of: 1) the Telegraph Road Culvert Extension, 2) a Pedestrian Bridge, 3) the Carlos Street Culvert, 4) the Citrus Drive Culvert Extension, and 5) a Linear Park.</p>	NOD	
2010031008	<p>Panoche Valley Solar Farm Project San Benito County --San Benito The project includes stream alteration activities at 29 locations within the Panoche Valley Solar Farm Project: constructing road crossings, fences, a stormwater detention basin, and photovoltaic (PV) solar panel arrays; flattening of stream channels to bring topography within the tolerance required for PV array installation; and diversion and flattening of channels to turn channelized flow into sheetflow to reduce erosion potential within the PV arrays. Tires, scrap metal, farm equipment, and other dumped material will be removed from streams at nine additional locations on habitat compensation lands and hauled to a landfill. CA tiger salamander (<i>Ambystoma californiense</i>) breeding pond construction projects will occur at two additional locations.</p>	NOD	
2012111014	<p>Fremont Solar (Springbok 2 Solar Farm) Project by 63SU 8ME, LLC Kern County Mojave, California City--Kern CDFW has executed Streambed Alteration Agreement No. 1600-2015-0169-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicants, 64KT 8me LLC. The project includes construction of up to seven at-grade road crossings and concurrent installation of underground electrical lines at up to seven crossing locations through Jawbone Canyon Wash and one unnamed ephemeral stream. The Project also includes installation of perimeter fencing, exclusion fencing, inverters, transmission poles, and solar panel support piles.</p>	NOD	
2014101003	<p>Yucaipa General Plan Update (Case No. 14-135/GPA) Yucaipa, City of Yucaipa--San Bernardino Adoption of Ordinance No. 343, which amend and adopts the Official Land Use Plan, adopts the Land Use Modification Overlay Districts map and adopts the Hillside Overlay District map to ensure conformity with the newly adopted Yucaipa General Plan (Case No. 14-135/GPA), including amending the land use</p>	NOD

	designation for certain properties from RL-1 and RL-2.5 to RS-20, from RS-20 to RS-10, and from Institutional ("IN") to Park ("P").		
2014112046	Green Diamond - R1501, MS1504, GPA1501 - Rezone, Minor Subdivision, General Plan Amendment Del Norte County --Del Norte The project area is a 12-acre portion of an approximately 40-acre parcel which the applicant has proposed to subdivide into four parcels. A portion of the parcel located on the west side of Lake Earl Drive is not part of this subdivision, is formally designated as the Remainder Parcel, and is thereby excluded from this project. There is a small watercourse, which is a tributary of Russell Creek that runs across the southernmost parcel (Lot 4) in the proposed subdivision. The applicant has proposed a 100-foot buffer to minimize impacts to the creek and associated area, resulting in this parcel (Lot 4) being 6.64-acres while the other proposed parcels (lots 1-3) are each 2-acres in size. Lot 1 has an existing 50-foot easement across it that provides secondary access to an interior parcel east of this project. Lots 2, 3, and 4 are accessed from a shared easement off of Lake Earl Drive while Lot 1 is accessed from a separate easement approximately 800-feet to the north of the access to Lots 2-4. Each of the parcels that are proposed would be developed with private onsite wells and onsite sewage disposal systems as public water and sewer are not available in the project area. In order to approve the subdivision the land must also be re-designated under the County General Plan and County Zoning. Currently, the land involved in the project is designated TBR (Timberland) under the General Plan and TPZ (Timber Preserve Zone) under the Zoning. The applicant has proposed to change these designations to RR-1/2 (Rural Residential, One dwelling unit per 2 acres) and RR-2 (Rural Residential - 2-acre minimum parcel size) under the General Plan and Zoning, respectively. No development is proposed.	NOD	
2016011035	Shell Hercules Demolition Reclamation Project Santa Barbara County --Santa Barbara The proposed project is the final stage of remediation and restoration at the former site of the Hercules Gas Plant. The project will remove all remaining site features, remediate PCB-impacted soils, reduce erosion, and minimize downstream transport of any residually remaining and historically impacted sediment. Following the removal of impacted soils, the site will be re-graded to resemble the natural conditions observed prior to the Fill Pad construction and similar to other canyons in the area. Site restoration will be conducted in conformance with an approved Habitat Restoration and Wetland Mitigation Plan. This project will result in the temporary disturbance of the 0.85 acre of vegetation within CDFW jurisdiction for streambeds. Temporary impacts will be restored through the implementation of this project and the Habitat Restoration and Wetland Mitigation Plan.	NOD	
2016032070	Cypress Self Storage Oakley, City of Oakley--Contra Costa Approval of: 1) a General Plan Amendment to amend the land use designation from Multi Family Residential (High Density) to Commercial; 2) a Rezone from M-12 (Multi Family Residential) District to P-1 (Planned Unit Development) District; and 3) Design Review (Development Plan) for new development of a 139,408 s.f. self storage facility (up to 3 stories tall) with a 1,024 sf office building on a 3.29 acre vacant lot located on the southern side of the East Cypress Road and	NOD

	Picasso Drive intersection. The site is zoned M-12 (Multifamily Residential) District. APN 033-012-004.		
2016049012	Dog Creek Realignment (Streambed Alteration Agreement No. 1600-2015-0099-R4) Clovis, City of --Fresno CDFW has executed Streambed Alteration Agreement No. 1600-2015-0099-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Wilson Premier Homes, Inc. The project includes activities related to the realignment of a 404-foot long section of Dog Creek to meet required flood control specifications and to accommodate the construction of residential homes.	NOD	
2016049013	Lake or Streambed Alteration Agreement No. 1600-2015-0452-R1 for THP 1-15-117MEN "Feldman Gulch" Forestry and Fire Protection, Department of --Mendocino CDFW is issuing an agreement for the removal and installation of Temporary Class I watercourse crossings, and the replacement and installation of crossings on Class II watercourses.	NOD	
2016048388	Bonita School Road Geo-technical Testing (Streambed Alteration Agreement No. 1600-2015-0199-R5) Fish & Wildlife #5 Santa Maria--Santa Barbara The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2015-0199-R5, pursuant to Section 1602 of the Fish and Game Code to the county of Santa Barbara Public Works Department represented by Morgan Jones. The purpose of this project is to determine the stability and composition of the substrate within the Santa Maria River in preparation for a future project to remove and replace the current Bonita School Road Bridge over the Santa Maria River. The scope of work for this project involves the following exploratory activities: hollow stem auger boring, cone penetration testing, and multi-channel analysis of surface wave surroundings, trenching, and test-pile driving. Exploratory activities will take place throughout 11.5 acres of CDFW jurisdiction. All impacts are temporary; all holes will be backfilled with local material surrounding each hole. Vegetation that cannot be avoided will be replaced in kind on site.	NOE	
2016048389	Kanan Road Over Sierra Creek Fish & Wildlife #5 Agoura Hills--Los Angeles The Applicant proposes to construct 3 to 5 feet of un-grouted riprap over a 6 inch layer of sand and restoring 10 feet of compacted fill beyond the ungrouted riprap with a maximum of 3:1 slope. The maximum elevation depth associated with the project is 5.5 feet. All materials and equipment will access the site upstream of the work site, from Kanan Road near the culvert inlet. Initially the excavator will need to enter the creek by driving down the stream bank, just upstream of the culvert headwall. Once the excavator is in place, a crane will be used to lift materials from the staging area located on Kanan Road, down to the stream at the upstream end of the culvert. The excavator will be used to haul loads of materials through the culvert and to the project work site.	NOE

2016048390	Storm Damage Restoration Caltrans #4 San Rafael--Marin The purpose of the project is to repair three underground voids that are contributing to the formation of sinkholes, differential settlement, and uneven transitions in the pavement. The project proposes to excavate, shore, and repair these voids and then repave all three locations. Existing drainage system would be replaced.	NOE	
2016048391	Amend Section 28.20, Title 14, California Code of Regulations, Re: Pacific Habitat Fish & Wildlife Commission -- Pacific habitat is jointly managed by the International Pacific Halibut Commission, Pacific Fishery Management Council, National Marine Fisheries Service, and the west coast states. The Fish and Game Commission has taken concurrent action to conform State recreational regulations to federal regulations.	NOE	
2016048392	South Fork Battle Creek Erosion Prevention Planning Project Tehama County --Tehama The purpose of this project is to conduct an erosion inventory and assessment along 12 miles of unmaintained and abandoned Ponderosa Way road segments within Battle Creek's South Fork Canyon between Forward Road at the projects north end and State Route 36E to the south. Also included in the inventory and assessment will be immediately adjacent portions of intersecting roads along this section of Ponderosa Way. The sediment source assessment will lead to a prioritized plan-of-action, designs, work scopes and estimated budgets for future erosion control and sediment delivery restoration projects related to both historic/chronic and recently developed sediment plumes along that portion of Ponderosa Way within the project area.	NOE	
2016048393	Bodega Bay HU Water REsources Management Project-Riparian Restoration Gold Ridge Resource Conservation District (GRRCD) --Sonoma This project will implement small-scale riparian restoration work, including livestock exclusion fencing and native riparian planting, to enhance riparian habitat for wildlife and water quality.	NOE	
2016048394	State Route 115 - Pavement REhab - 2M9401 Caltrans #11 Holtville, Calipatria--Imperial The project includes overlaying an Asphalt Rubber Binder Seal Coat on existing Asphalt Concrete (AC) pavement on State Route 115 near the City of Holtville and Calipatria, CA.	NOE	
2016048395	Sidewalk Maintenance Parks and Recreation, Department of --Sacramento Remove and reset portions of the historic brick sidewalk at the exterior of the Leland Stanford Mansion State Historic Park to alleviate tripping hazards. Work will: * Remove bricks from selected portions of the historic sidewalk; * Level the underlying ground to create a smooth surface; and * Relay and re-mortar the previously removed historic brick. 2016048396	<p>Driveway, Pathway and Parking Area Improvements Parks and Recreation, Department of --Sacramento</p> <p>Replace top layer of the decomposed grante from the driveway, parking area and pathways on the K Street side of Sutter's Fort State Historic Park to improve drainage and create a more level driveway. Work will:</p> <ul style="list-style-type: none"> * Remove approximately 6,000 square feet of decomposed granite from the driveway, parking area and pathways; * Remove concrete access pad in front of dumpster; * Excavate no more than 12" to level the underlying ground to create a smooth surface; * Pour new concrete for new dumpster access pad; and * Lay and then compact approximately 8" of soil cement to create a new driveway. 	NOE	
2016048397	<p>Foss Valley Community Perimeter Shaded Fuel Break Forestry and Fire Protection, Department of --Napa</p> <p>The purpose of this shaded fuel break project is to reduce the volume of fuels on the periphery of residences in upper Soda Canyon neighborhood, east of Rector Reservoir and the Silverado Trail, north of Napa, CA. The reduction of ladder fuels and brush continuity in the approximately 100-ft wide fuelbreak will reduce fire intensity and improve the effectiveness of surface fire containment and air tanker drops in the event of a wildfire. The 1.7-mile project will treat areas between those already in a low-fuel condition in order to minimize work and impact.</p>	NOE	
2016048398	<p>MEU Wildland Fire Chainsaw Training Forestry and Fire Protection, Department of --Mendocino</p> <p>This project consists of tree cutting of selected trees by CAL FIRE personnel for the purpose of obtaining wildland fire chainsaw skills and proficiency. The trees are located on privately-owned timberland. Trees to be felled consist of dead conifers and hardwoods in an area that burned in a 2012 wildfire. The project area totals approximately 45 acres. It will involve less than 20% of the tree canopy within the project area.</p>	NOE	
2016048399	<p>Meadow Lakes Fuel Maintenance and Hazard Tree Reduction Forestry and Fire Protection, Department of --Fresno</p> <p>This existing Meadow Lakes Fuel Break is located on Bald Mountain at the 4,700' level of the southern Sierra Nevada of eastern Fresno County near the community of Meadow Lake. Vegetation maintenance shall be performed on 44 acres of the shaded fuel break due to growth and tree mortality. This maintenance project encompasses 100' on both sides of Radio Lane & Snow Road. The project area mixed conifer overstory, consisting of 90% ponderosa pine has sustained between 50%-100% mortality, which shall be removed to ensure fuel break viability.</p>	NOE
