

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

August 1-15, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 1-15, 2007.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2007081009	Annual Acquisition and Conveyance of Water to Kern National Wildlife Refuge Needs During Water Years 2007-2011 Kern-Tulare Water District -- Reclamation seeks to provide water to meet Kern NWR's Level 4 requirements for wetland habitats by acquiring water from Kern-Tulare Water District and conveying it to Kern NWR in cooperation with Buena Vista Water Storage District, Rosedale-Rio Bravo Water Storage District, Kern County Water Agency and the California Department of Water Resources.	JD	08/30/2007
2006032108	Miller/La Goma Mixed Use Project Mill Valley, City of Mill Valley--Marin The project consists of the demolition of all of the existing structures and the construction of three duplexes, one single-family, a mixed use building consisting of 4,200 square feet of commercial and ten residential units, and associated site improvements. The site will be rezoned from C-N to C-N-PD (Planned Development). The four lots will be merged and subdivided into eight lots. The project also involves the stabilization of an adjacent bank of the Arroyo Corte Madera del Presidio Creek and planting landscape.	MND	08/30/2007
2006092123	Roseman Creek Vineyards Forestry and Fire Protection, Department of --Mendocino Recirculation of MND for 17 acre timberland conversion (TCP) to vineyard and residence on a 40 acre parcel in the Coastal Zone (CDP). Composed of Bishop Pine and Douglas Fir, minor amounts of Redwood. Studies include botanical, biological, forestry, geology, hydrology, archaeology, civil engineering and vineyard management. Potential environmental impacts have been mitigated to a level of less than significant.	MND	08/31/2007
2007081001	State Route 57 Northbound Widening Project Caltrans #12 Fullerton, Placentia, Brea--Orange In general, the SR-57 Northbound Widening improvements propose to add one northbound through lane from the Orangethorpe Avenue exit ramp to the Lambert Road entrance ramp. Auxiliary lanes would also be added between interchanges. All northbound entrance and exit ramps would be modified to accommodate the widened configurations of the freeway.	MND	08/30/2007
2007081002	Conditional Use Permit No. 3473 Riverside County Planning Department --Riverside Conditional Use Permit No. 3473 a disposal service operation and a contractor's and vehicle storage and impoundment yard including a street sweeping limited volume transfer operation (LVTO) that will include five buildings with a total building area of approximately 44,300 square feet and a building height of 30 feet, containing a caretakers dwelling of approximately 1,000 square feet in size, an office of approximately 800 square feet of building area, a maintenance shop of approximately 2,800 square feet of building area, a covered parking structure of approximately 35,800 square feet of building area, and a truck wash of approximately 3,900 square feet. 	area. These acreages may be revised during the final design period. Construction of the proposed project would include site grading, construction of access roads, extensions of the on-site well pad, installation of seven 18-24-inch pipes, and improvement of existing and construction of new water control facilities, in addition to installation and construction of habitat features for the giant garter snake, a state and federally-listed species.		
2007082007	7b at the Grove Mammoth Lakes, City of Mammoth Lakes--Mono The 7b at the Grove IS was prepared to analyze the potential environmental impacts from future development of approx. 4 acres of the site surrounding the 7th Fairway of the Sierra Star Golf Course. The Project site is generally located in central Mammoth Lakes north of Meridian Blvd., east of Minaret Rd. and south of Main St. The Project site is currently designated as the Lodestar Master Plan (LMP) Area 4 and proposed Sierra Star Master Plan (SSMP) Area 2D.	MND	08/30/2007
2007081005	6th Street Viaduct Seismic Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project would improve response of this critical Los Angeles River crossing to an acceptable standard resulting from a moderate seismic event by either retrofitting the existing structure or replacing the 6th Street Viaduct entirely. Several alternatives were considered during the project development phase of the project. Criteria used to select the alternatives for carrying forward for detailed analysis in the environmental document include construction and maintenance costs, life span of the facility, constructability, historic preservation, community disruption, and structural and operational safety. Based on the results of the preliminary screening analysis, a No Build Alternative and two Build Alternatives will be analyzed in the environmental document.	NOP	08/30/2007
2007081006	Metropolis Residential Project Irvine, City of Irvine--Orange The proposed project will result in the demolition of 114,000 square feet of the existing industrial/commercial uses and the development of 457 units of residential housing on a 7.34-acre site. The proposed project includes two 4 to 5 story garages, landscaping, pool, and recreation facilities, and other amenities.	NOP	08/30/2007
2007081008	Grading Permit ED 05-327 / PMT 2005-02987 San Luis Obispo County Atascadero--San Luis Obispo Request by Shannon Bennett for a Major Grading Permit to allow for the removal of approximately 5,300 cubic yards of unpermitted fill from the floodplain of the Salinas River, and placement of the fill material at a permitted location in the City of Atascadero or Chicago Grade Landfill. The project will result in the disturbance of approximately 0.94 acres of a 4.6 acre parcel and is located at 12455 Chia Lane, approximately 1,000 feet northwest of Santa Clara Road, approximately 0.46 miles of southeast of the City of Atascadero, in the Salinas River Planning Area. 2007082009	TPM2006-0034 (La Guardia) Yuba County --Yuba A request to create 4 lots from a single parcel totaling 109.5 acres located 0.25 mile east of Township Road on the private road of Arrowhead Trail. The site is approx. 3 miles northeast of the Peoria Road and Highway 20 intersection and is located outside of the community boundary of Browns Valley. The division of land will create parcels ranging in size from 20 acres to 40 acres. The project site is currently developed with a single family residence located on proposed Parcel 4. The project would allow for the development of three single family residences.	MND	08/31/2007
2007082010	2006-37 Zoning Amendment & Vesting Tentative Tract Map/ Road Ordinance Modification for Gillis Calaveras County Planning Department --Calaveras The applicant (s) are requesting a Zoning Amendment from U (Unclassified) to R1 (Single Family Residential) for the subject property of 7.06 +/- acres, located within the Arnold Community Plan. Concurrent with this request is the approval to subdivide the subject property into 18 lots ranging in size from 0.23 +/- acres to 0.72 +/- acres. Also requested is a Road Ordinance modification to allow (1) a centerline profile grade of 12% instead of the maximum 10% (Road Ordinance Section 12.02.170), (2) a 50 foot vertical curve instead of the 100 foot curve (Road Ordinance Section 12.02.200A), and (3) a cul-de-sac length of 975 feet instead of the 800 foot maximum requirement (Road Ordinance Section 12.02.230).	MND	08/31/2007
2007082011	Manila Marketing Coastal Development and Conditional Use Permit for wetland restoration Humboldt County Community Development Services --Humboldt A Coastal Development Permit and Conditional Use Permit for the restoration of an identified wetland that was previously graded and improved with drainage devices. The work was done without the benefit of County review and is currently in violation of the Humboldt County Code. Approx. 50 cubic yards of topsoil was removed from the site and approx. 100 cubic yards of fill material was brought on site. The unpermitted fill will be removed and native wetland plant species will be installed to bring the site back to the pre-development condition. The lot is currently vacant.	MND	08/31/2007

2007082013	Granite Bay Townhomes Subdivision (PSUB T20060873) Placer County Planning Department --Placer Tentative Map and Conditional Use Permit for a Planned Development for a 52 unit halfplex development on 8.2 acres with approx. 1.4 acres of open space.	MND	08/31/2007
2007082016	Royer Park to Harding Boulevard Bike Trail Project- Alternative 6 Bridge Roseville, City of Roseville--Placer The City of Roseville is proposing to construct a pedestrian/ bike bridge over Dry Creek as part of the previously approved Royer Park to Harding Boulevard Bike Trail Project. This bridge (referred to as the Alternative 6 bridge) would be constructed downstream from Harding Boulevard to allow bicyclists to cross from the south side of Dry Creek to the north side. Construction of the bridge would provide the public with a safe and convenient alternative to the bridge crossing over Antelope Creek (approved as part of previously approved Route A bike trail alignment) and the use of the Harding Boulevard on street route.	MND	09/04/2007
2007081014	Sphere of Influence Amendment 2005-19 Santa Clarita, City of Unincorporated--Los Angeles The proposed project is an Amendment of the City of Santa Clarita's Sphere of Influence (SOI). A Sphere of Influence is a plan for the probable, ultimate municipal boundaries and service area of a local agency, as determined by the Local Agency Formation Commission (LAFCO). The purpose of the proposed project is to establish the probable ultimate southern boundary and urban service area of the City of Santa Clarita. The plan reflects the most efficient provision of future services including police, fire, and utilities, and establishes who would have responsibility to provide such services.	NOP	08/31/2007
2007082014	Sunol Valley Water Treatment Plant Improvement Project San Francisco Planning Department San Francisco--San Francisco The SFPUC proposes to add an additional 40 million gallon per day (gpd) of treatment capacity at the existing Sunol Valley Water Treatment Plant (SVWTP), construct a new treated water reservoir facility adjacent of the SVWTP, and construct an additional treated water conveyance pipeline (herein after referred to as "the SVWTP Improvement Project" or "the project"). The proposed alignment for the new conveyance pipeline from the SVWTP generally runs northward from the SVWTP to the Alameda West Portal of the Irvington Tunnel, a distance of approximately 1.7 miles. The entire project is contained within the Alameda Creek watershed. The purpose of the project is to increase the total sustainable treatment capacity (the highest rate at which plant production can be expected to meet water quality requirements for a period of 60 days, given normal source water conditions) of the SVWTP from 120 mgd to 160 mgd, meet California Department of Health Services requirements for treated water reservoir storage, and provide an additional conveyance pipeline to add transmission capacity to the reservoir storage, and provide an additional conveyance pipeline to add transmission capacity to the SFPUC regional water system in the Sunol Valley and alleviate disruption of operations in the event of an earthquake. 2007061008	Hermosa Strand Infiltration Trench, Phase I Hermosa Beach, City of Hermosa Beach--Los Angeles Proposal to divert storm water run-off to an infiltration trench installed below-grade against the ocean side of the cutoff wall that supports The Strand walkway that extends approximately 14 feet deep and is located approximately 300 feet from the shoreline. The Hermosa Strand Infiltration Trench project is being proposed in order to address shoreline water quality problems associated with storm water runoff and eliminate odor and vector problems caused by standing water in the Pier Avenue storm drain.	Neg	08/31/2007
2007081012	Revision to an Approved Action- Conditional Use Permit San Bernardino County Land Use Services Department --San Bernardino 1) Revision to an approved conditional use permit to add an 8,070 sq. ft. building for a market and deli with a seating area. 2) A major variance to allow 6' front yard setback in lieu of 15' and 6' rear yard setback in lieu of 10'. 3) Merge four parcels on 0.98 acres.	Neg	08/31/2007
2007081013	Margarita Energy Facility Orange County --Orange The proposed facility is a nominal 46 megawatt (MW) electrical generation facility comprised of a single natural gas fired LM6000 aeroderivative combustion turbine operating in simple cycle mode. Associated improvements to support the power generation facility include a 12" fuel gas line within Antonio Parkway right-of-way, one gas tie-line within an existing site access road to the plant site and two 3" water lines (one potable and one reclaimed) also located within the existing site access road.	Neg	08/31/2007
2007081018	West 22nd Street Corp. Grading Permit ED (05-392) San Luis Obispo County --San Luis Obispo Request by Ted R. Cooper Properties (West 22nd Street Corp.) to grade for a 16 foot wide access road including the construction of a seasonal creek crossing (box culvert) within the existing County right-of-way (North Ryan Road) and construction of a second deasonal creek crossing (box culvert) on private property, which will result in the disturbance of approx. 1.18 acres of an approx. 1,400 acre parcel, including 2,115 cubic yards of cut and 815 cubic yards of fill. Creek crossing 1 (western crossing) is located entirely within the existing right-of-way of North Ryan Road, approx. 740 feet southwest of the southwestern property corner. Creek crossing 2 (eastern crossing) is located outside of the right-of-way on the subject parcel, approx. 215 feet east of the western property boundary and approx. 75 feet north of the southern property boundary. North Ryan Road currently terminates where the proposed project begins, approx. 1,500 feet west of the subject parcel where private driveways split off to the north and south. The proposed improvements will provide access to the subject parcel. The proposed project is within the Agriculture land use category and is located at 4335 Highway 41, approx. 14,000 feet northeast of the village of Creston. The site is in the Shandon-Carrizo planning area.	Neg	10/09/2007

2003082129	Angora Creek SEZ Restoration Project (JN 95147) El Dorado County South Lake Tahoe--El Dorado The project will include channel reconstruction, bioengineered bank stabilization, riffle pool construction, reestablishment or creation of fish and wildlife habitat, debris removal or redeployment, and re-vegetation and stabilization of bare soil areas. The purpose is to restore stream function and improve riparian and aquatic habitat. Restoring the creek to a more stable channel with access to its floodplain should provide substantial water quality and wildlife benefits.	NOD	
2005122039	Angora 3 Erosion Control Project and Angora Creek Fisheries Enhancement Project El Dorado County South Lake Tahoe--El Dorado The primary component of the project is the replacement of two failing culverts with an open conspan arch. The existing culverts constitute a barrier to fish passage during both the spring and fall spawning periods. The new conspan arch will facilitate the passage of fish and allow the 100-year flood event to pass while maintaining natural hydrologic dynamics. The project will also involve enhancing the habitat conditions and floodplain function by removing fill from the floodplain surrounding the existing culvert and along the streambank adjacent to the culvert. Construction is tentative scheduled to occur during a 50 day period in August - October 2008.	NOD

2007081025	Tentative Tract Map No. 31546 Riverside County Planning Department --Riverside Tentative Tract Map No. 31546 proposes a Schedule A subdivision of 36.28 gross acres into 114 single family residential lots with a minimum lot size of 7,200 sq. ft., one open space lot for a 4 acre park, and one open space lot for a 20' wide regional trail.	MND	09/04/2007
2007081027	Tentative Tract Map No. 29328 Riverside County Planning Department --Riverside Tentative Tract Map No. 29328 proposes a Schedule A subdivision of 19.32 acres into 74 single family residential lots with a minimum lot size of 7,200 sq. ft and one detention basin. The project also includes a 12' wide community trail located within the SH-74 right-of-way.	MND	09/04/2007
2007081033	ConocoPhillips Line 200 Relocation- DWR Milepost 62.26 to 64.46 Project Water Resources, Department of Gustine--Merced To protect public health and to safeguard California Aqueduct (Aqueduct) operations, Department of Water resources (DWR) has requested that the ConocoPhillips Company (ConocoPhillips) relocate a portion of its 16 inch diameter pipeline, Line 200, to the east side of the Aqueduct. Line 200 transports crude oil and semi-refined petroleum products from the San Joaquin Valley to refineries near San Francisco. In 1997 the western edge of the Aqueduct at the milepost 62.26, where Line 200 crosses, failed. The failed slope caused a 120 foot section of the Aqueduct's concrete liner to slide into the Aqueduct. DWR concluded that a future slope failure could cause Line 200 to rupture into the Aqueduct at milepost 62.26, which is an unacceptable risk. In cooperation with ConocoPhillips, DWR determined that relocating Line 200 to the east of the Aqueduct would provide protection from potential Line 200 ruptures in the future.	MND	09/04/2007
2007082018	Frazier/ Burtchett Major Subdivision Humboldt County Community Development Services --Humboldt A Final Map Subdivision of an approx. 79.5 acre parcel into 10 lots ranging in size from 2.5 acres to 28.7 acres in size. All lots will be served by onsite sewage disposal systems. Six lots (phase 1) will be served with water from the Willow Creek Community Services District and four lots (phase 2) will obtain water from three proposed wells. Lot 4 will be created as a flag lot.	MND	09/04/2007
2007082019	07-030 (Tumber) Sutter County Community Services District Live Oak--Sutter A rezone from AG (General Agricultural) to RAN (Ranchette) and a tentative parcel map to divide an 18 acre parcel into four parcels (3, 4, 5, 6 acres).	MND	09/04/2007
2007082020	07-031 (Tumber) Sutter County Community Services District Live Oak--Sutter A rezone from AG (General Agriculture) to RAN (Ranchette) and a tentative parcel map to divide an 18 acre parcel into four parcels (3, 4, 5, 6 acres).	MND	09/04/2007

2007082022	<p>Amended Boots Commercial Stables Humboldt County Community Development Services --Humboldt</p> <p>Project seeks to remedy a land use violation wherein a commercial stable was established without the benefit of County review. The applicant currently has +/- 40 horses boarded on the 89 acre parcel. This application seeks to legitimize that number, add another 80 horses in the immediate future and include the capability of an additional 40 horses at some point in the future totaling commercial stables for up to 160 horses. This permit includes an 11,250 sq. ft. barn, a 3,500 sq. ft. second farm dwelling, a 6,000 sq. ft. uncovered parking area (gravel), a 10,368 sq. ft. indoor riding arena, +/- 45 9' X 12' and 10 slightly larger uncovered stalls. The parcel is already developed with a small residence, the horse stalls, the outdoor arena and the indoor arena (this was permitted as a private use and will be converted to a commercial use through this permit). Per the Eel River Area Plan (ERAP), both residences are to be occupied by the property owner/ operator and their family members. All sewage disposal and water sources are on site.</p>	MND	09/04/2007
2007082025	<p>Cosumnes Electrical Distribution Extension Project Sacramento Municipal Utility District --Sacramento</p> <p>The Sacramento Municipal Utility District (SMUD) is proposing to construct and operate a substation and appurtenant overhead line (1.25 miles) in southern portion of the City of Sacramento. A substation would be located at the Verizon Data Services facility located at 7901 Freeport Boulevard. The line will also provide a connection to a substation that will be located at the Freeport Regional Water Authority located just north of the Town of Freeport. The overhead line will be located parallel to Freeport Boulevard and extend east across I-5 just north of Stonecrest Avenue. The substation and overhead line will be constructed in late 2007/ early 2008 and be operational in mid-2008. The Mitigated Negative Declaration does not identify any potentially significant environmental impacts that will result from construction of the project.</p>	MND	09/04/2007

2007081026	<p>General Plan Amendment No. 857, Change of Zone No. 7514, and Environmental Assessment No. 41368 Riverside County Planning Department --Riverside</p> <p>The project proposes the development of 694 residential units, which includes 308 single-family residences and 386 apartments on approximately 106-acres. The project includes a mixture of residential unit-types and densities: including 108 single-family residential units ranging from 5,000 square foot to 6,000 square foot lots. 123 cluster units, and 386 apartments units. The cluster housing is proposed for the northern portion of the site between the east project boundary and Pat's Ranch Road on the west. The 5,000 to 6,000 square foot lots are proposed for the southern portion of the site, south of the cluster housing, between the east project boundary and Pat's Ranch Road on the west. The apartment units are propped for the area of the site that is west of Pat's Ranch Road and south of 68th Street. The density of the houses ranges from 8.4 units per acre for the cluster housing, 5.9 units per acre for the 5,000 square foot lots, 5.5 units per acre for the 6,000</p>	NOP	09/04/2007

	square foot lots, and 20.05 units per acre for the apartment units.		
2007081029	Palm/ Industrial Distribution Center (Development Permit Type 2 No. 06-28) San Bernardino, City of San Bernardino--San Bernardino The proposed project includes the construction of a warehouse/ distribution facility consisting of a single building totaling 682,408 sq. ft. The approx. 33 acre project site is located at the southeast corner of Palm Avenue and Industrial Parkway, southwest of the Interstate 215/ Palm Avenue interchange.	NOP	09/04/2007
2007081030	City of Tulare 2030 General Plan Update Tulare, City of Tulare--Tulare The City is preparing the 2030 General Plan Update for four elements: (1) Land Use Element, (2) Transportation & Circulation Element, and (3/4) a consolidated Conservation & Open Space Element. The other elements mandated by State law will remain as adopted in 1993. This EIR will provide an assessment of the updated General Plan elements. The draft EIR is expected to be available for public review in September of 2007. The City of Tulare is located on the west side of Tulare County along State Route 99. The City is located approximately halfway between Bakersfield to the south and Fresno to the north.	NOP	09/04/2007
2007082023	San Francisco General Hospital Seismic Compliance, New Hospital Construction San Francisco Planning Department San Francisco--San Francisco The proposed project is the development of a new hospital on the existing campus on the west lawn of the 24-acre medical campus. The west lawn is bounded by Building 20 on the north, Building 30 on the south, the Main Hospital (Building 5) on the east and steps and landscape areas down to Potrero Avenue on the west. Access roads separate the west lawn from Building 5 and the lower landscaped area from Potrero Avenue. Buildings 20 and 30 are five-story masonry buildings constructed in 1915 and 1936 as hospital wards and are currently used for research facilities, research laboratories and offices, support services and administration such as patient billing Medic-Cal eligibility and quality management. The proposed new hospital would remain within the height limit of 105 feet permitted in the zoning district. The new approximately eight-story (including two basement levels) 419,070 square foot acute care hospital building will have approximately 284 acute care beds. The existing space in Building 5, the current hospital, would be reused for non-acute care medical purposes. The applicant has applied for a proposed rooftop medical helipad on Building 5 (Case #2003.1200E) which is undergoing separate environmental review. Should that helipad be approved, the applicant may desire to re-locate it from the current hospital to the rooftop of the new hospital once the new hospital is completed. The applicant proposes to replace the interior road network with two-cul-de-sacs. Pedestrians would continue to use the sidewalk along the internal roadway and would have access to the new hospital from 23rd street, the parking garage on 23rd Street, 22nd Street and Potrero Avenue. Patients and visitor vehicles would be directed to access the campus from 23rd. Patient and visitor drop off and pick-up would use a turnaround accessed at 23rd Street. Ambulances would access the campus from 22nd Street to a new emergency room in the northeast quadrant of the new hospital building.	NOP	09/04/2007

2007082021	PA-0700295 & PA-0700296 San Joaquin County Community Development Department --San Joaquin A General Plan Amendment (PA-0700295) to amend the General Plan designation of one 0.52 acre parcel from R/M (Medium Density Residential) to C/C (Community Commercial) and a Zone Reclassification (PA-0700296) application to reclassify the zoning from R-M (Medium Density Residential) to C-C (Community Commercial).	Neg	09/04/2007
2007082026	Science Building Expansion Los Rios Community College District Sacramento--Sacramento The proposed project includes the expansion of the Cosumnes River College Science Building (Building 2). The expansion will provide for instructional space, including new laboratories, as well as additional internal square footage for a variety of uses to be determined later. The project will include an expansion of the building by an estimated 15,023 sq. ft. Construction of the improvements is scheduled to occur in 2008 and 2009. The expansion project will result in an increased overall classroom space, and will likely result in a limited increase in demand for utilities, infrastructure, and parking at the campus or the site. All infrastructure upgrades and expanded utilities are included within the proposed building improvements.	Neg	09/04/2007

2000034007	Salinas Valley Water Project Monterey County Salinas--Monterey, San Luis Obispo Since certification of the EIR, the Monterey County Water Resources Agency has modified the Salinas Valley Water Project by implementing new flow targets for steelhead trout migration, changing the location of the Salinas River Diversion Facility river water connecting pipeline, and deciding to install a buried pipeline to seasonally change the point of discharge of the Blanco Drain. These project modifications are described and analyzed in the Addendum to the Salinas Valley Water Project EIR.	NOD	
2001092014	Capitol Expressway Light Rail Project Santa Clara Valley Transportation Authority San Jose--Santa Clara Extend Light Rail by 3.1 miles from the Alum Rock Light Rail Station to Nieman Boulevard in two phases. Include four new light rail stations, an expanded Park-and-Ride Lot, and a Vehicle Storage Facility. Existing carpool lanes would be removed from Capitol Expressway between Capitol Avenue and Nieman Boulevard. Electrical transmission facilities in the project area would also be relocated.	NOD	
2003121005	06-FRE 180 KP 39.58/43.93 (PM24.6/27.3) Mendota East Rehab Caltrans #6 Mendota--Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Caltrans. The applicant proposes to extend bridges at three locations and extend a culvert at another location with mitigation being done for all removed riparian vegetation.	NOD	
2004062132	Whisper Creek Subdivision Placer County Planning Department --Placer This project is for the Annexation of property to PCWA's Zone No. 1 service area. PCWA is proposing to Annex Assessor's Parcel Numbers. 023-260-002,006,007, and 017, totaling 60.6 acres, to allow the Agency to provide treated water service for a proposed 104 unit housing development. It is proposed that the Agency wholesale the water for the properties to the area retailer, California - American Water Company (Cal Am). Cal Am is aware of this situation and has given their written support of the annexation and subsequent service of treated water, provided that all appropriate Agency and Cal Am fees are paid. The owner of the Whisper Creek Subdivision has requested the annexation of the property in order to acquire treated water service. Placer County has adopted an Environmental Impact Report for the Whisper Creek Subdivision, which evaluated potential environmental impacts associated with the proposed Subdivision, which includes 104 single-family residential housing units. The proposed lots range in size from 10,835 square feet to 27,297 square feet hat document addressed the environmental impacts associated the project in the Silver Creek Environmental Impact Report. 	project is located on the east side of the Upper Ranch 4x4 Obstacle Campground and encompasses about two acres. It is adjacent to, but not in the drainage.		
2007088050	Palisades Reservoir Dam, No. 1022-2 Water Resources, Department of, Division of Dams Dana Point--Orange Replace the ends of the existing perforated subdrains with PVC SDR-35 pipe and install a new toe drain system at the toe of the dam with PVC Schedule 40 pipe. Flow cartridges will be installed at the ends of the subdrain pipes in order to provide continuous monitoring. An alarm system will be implemented. This work will improve the drainage system at Palisades Reservoir Dam.	NOE	
2007088051	Echo Lake Dam, No. 53-9 Water Resources, Department of, Division of Dams South Lake Tahoe--El Dorado Installation of a slide gate into one of the bays of the spillway.	NOE	
2007088052	Rename San Bernardino State Office Building General Services, Department of San Bernardino--San Bernardino The Department of General Services, Asset Management Branch, is designing a marker and plaque that will appropriately commemorate the San Bernardino State Government Center as the Rosa Parks Memorial Building. The new signage is consistent with signing requirements for state buildings. The new signage will be erected in a manner similar to that of other State buildings that have been named in honor of a significant person in California or American History. The current building signage will be replaced so as to allow for the easy identification of the building. Thus, the proposed signage shall include: - The building address and "STATE GOVERNMENT CENTER" located at the main building entrance to remain. - A double-sided monument sign identifying the building as the Rosa Parks Memorial Building to be located in the existing landscape area at the main building entrance courtyard. - New brushed aluminum letters on the existing concrete entrance wall on North "E" Street side identifying the building as the Rosa Parks Memorial Building. - A commemorative bronze cast plaque for Rosa Parks to be erected on the existing stone wall in the first floor main lobby.	NOE	
2007088053	California State Capitol Re-roofing Project General Services, Department of Sacramento--Sacramento The Department of General Services/Real Estate Services Division (DGS/RES) proposes to re-roof approximately 90,000 square feet of the State Capitol Building (Capitol). The Capitol roof membrane is comprised of two roof types: a Trocal single ply roof over polyisocyanurate rigid foam insulation and a four-layer asphalt roof. The older, original membrane below contains asbestos. The Trocal membrane that lies on top of the original membrane is failing and has trapped water below its surface, causing deterioration of the insulation, and some areas have leaked to the interior of the Capitol Building. Additionally, skylights will be replaced because the old skylights have had periodic water infiltration issues for many years.	NOE

	<p>The project scope includes the demolition of two roofing systems: replacement of the gutter and rainwater leader system; removal and replacement of mechanical equipment; removal and reinstallation of all electrical connections; removal of wood walk paths; and removal of flooring in two light wells. The mechanical equipment curbs will be raised and new flashing and walk paths will be added for the mechanical equipment and security. Additionally, new skylight structures will be installed, including the tunnel walkway. The project scope also includes installation of a new Operating Procedures Outline Sheet (OPOS) rated window washing swing and miscellaneous California Code of Regulations (CCR) Title 24 upgrades.</p>		
2007088054	<p>17th District Ag Fair Property Acquisition General Services, Department of Grass Valley--Nevada</p> <p>The proposed project consists of an acquisition of a commercial property comprising 0.40 acre located adjacent to Nevada County Fairgrounds. The project involves negligible or no expansion of use beyond that existing at the time of the lead agency's determination. The project will transfer ownership of land to the California Department of General Services and allow for future fairgrounds expansion.</p>	NOE	
2007088055	<p>Assignment of Ground Restoration Credit to El Dorado County APN 34-232-07 (Downing) Tahoe Conservancy Unincorporated--El Dorado</p> <p>Project consists of the sale and assignment of 711 square feet of restored stream environment zone restoration (SEZ) credit, from Conservancy-owned land to a receiving parcel on which minor structures accessory to existing facilities will be reconstructed for disabled access (garage with residential entryway). The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the SEZ areas within the Lake Tahoe Basin.</p>	NOE	
2007088056	<p>Howard Forest Star Thistle Burn Forestry and Fire Protection, Department of Willits--Mendocino</p> <p>This project involves control burning yellow star thistle (<i>Centaurea solstitialis</i> L.), a noxious weed species, to control its spread at the CAL FIRE Mendocino Unit Headquarters facility known as Howard Forest. The project involves the ignition of grassy areas to burn star thistle plants within several units comprising a total of 12 acres. The fire will be contained and eventually extinguished using "wet lines" (i.e., perimeter lines wetted with water) applied using fire engines. As part of this process, fire fighters will be trained using this firefighting technique.</p>	NOE	
2007088057	<p>Mapping of Wetland and Riparian Habitat in Southern California Southern California Coastal Water Research Project Authority --Santa Barbara, Ventura, Los Angeles, Riverside, ...</p> <p>This project will map wetland and riparian habitat and flood control infrastructure comprehensively in the study area. Beneficiaries include regional boards, counties, municipalities, non-profits, and scientists.</p>	NOE

2007088058	<p>Prairie Creek Trail Trailhead Repairs Parks and Recreation, Department of --Humboldt</p> <p>Repair storm damage incurred January 2006 at the Prairie Creek Trail trailhead located at mile marker 129 on the Newton Drury Parkway in Prairie Creek Redwoods State Park. Reconstruct approximately 160 feet of the trail to bring the surface back to Americans with Disabilities Act (ADA) standards for accessibility. Construct a rock retaining wall (approximately 2 feet high) on both sides of approximately 100 feet of the reconstructed trail in order to support the tread. Construct approximately 60 feet of new trail outside the present alignment, in order to establish an accessible grade. Install a barrier log 80 feet in length alongside the existing parking lot to prevent hikers from cutting the trail. Remove the existing temporary trail and trans-locate its gravel materials to the new trail. Save native plants from the reroute and transplant into the old alignment; revegetate with additional local native species as needed.</p>	NOE

2007088066	Street and Crosswalk Improvement Program Stanton, City of Stanton--Orange Construction of 560,000 square feet of roadway throughout the City of Stanton.	NOE	
2007088067	Pedestrian Accessibility Program Stanton, City of Stanton--Orange Reconstruction of 6,000 lineal feet of sidewalks, with curbs and gutters, including handicap accessibility devices.	NOE	
2007088068	Chapman Avenue Street Improvement Program Stanton, City of Stanton--Orange Installation of sidewalks, streetlights, bus shelters, center medians, signs, and sign posts.	NOE	
2007088069	Sonoma County Department of Transportation & Works, Camp Meeker Culvert Replacement Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma The project will remove the existing 48 inch corrugated metal pipe (CMP) culverts, asphalt and debris from the project site and dispose of it in a permitted manner. Excavated soils will be stockpiled and re-used to backfill the trenches after the new high density polyethylene (HDPE) culverts are installed. Two of the replacement culverts will be the same length; one will be longer than the existing. All will be shifted slightly upstream to correct shotgun placement and decrease erosive discharges. Rock slope protection (rip rap) will be placed around culvert ends to protect the new structures from erosion and stabilize adjacent banks. A head wall will be constructed at one of the locations (Front Street). The repaired culvert crossings will be re-paved. All work will be conducted from the adjacent roadway. Vegetation removal will be kept to the minimum feasible. It would not be practical to attempt to remove non-native species and replant with natives due to predominance of invasive non-native species in the surrounding area. Any re-planting is likely to be out-competed by adjacent vegetation (ivy and/or blackberry). A full tree canopy already exists at all three culvert sites. Disturbed soil surfaces will be stabilized with appropriate erosion control measures, including use of erosion control fabric or turb reinforcement mat and seeding with a native grass mix.	NOE	
2007088070	Cinderella Trail Drainage Improvements Fish & Game #3 Oakland--Alameda The project involves installation of a 36-inch diameter replacement culvert and related erosion control in Cinderella Creek. Issuance of a Streambed Alteration Agreement Number 1600-2007-0268 is pursuant to Fish and Game Code Section 1602.	NOE	
2007088071	Tesoro Del Valle Sphere of Influence Amendment Annexation Designation No. 2007-15 Newhall County Water District --Los Angeles To annex the 496 single family residents and the Tesoro Elementary School that are currently being served by Newhall County Water District.	NOE

2007088072	Magalia Dam, No. 73 Water Resources, Department of, Division of Dams --Butte The proposed work consists of the construction of a 36-inch raw water bypass pipeline through the dam.	NOE	
2007088073	Lovers Leap Restoration Project Agreement 2006-0088-R4 Fish & Game #4 --Stanislaus Restore a mined reach of the Stanislaus River by creating salmonid habitat and restoring geomorphic processes within the river.	NOE	
2007088074	North Delta Hydrodynamic and Juvenile Salmon Migration Study Water Resources, Department of --Sacramento, San Joaquin, Contra Costa To learn about juvenile salmon movements and effects on those movements, tagged juvenile salmon will be tracked throughout the Delta using acoustic telemetry equipment. Salmon will be released near Georgiana Slough and tracked via 80 hydrophones placed on or in the bed of numerous channels. The goals of the project are to determine the physical and behavioral factors that control fish entrainment in the Delta Cross Channel and Georgiana Slough and to determine route selection and survival of out-migrating juvenile salmon throughout the north, west, and central Delta.	NOE	
2007088075	Install Electrical and Propane Conduits and Wall Enclosures Parks and Recreation, Department of --Contra Costa Install a new underground gas utility conduit from an existing propane tank to an existing propane generator. From the electrical generator, install a new underground gas utility conduit to the Warm Up Classroom. The location of the gas line installation, classroom, generator, and propane tank is in the Lower Summit Parking Lot. The total trench length of both trenches will be 30 feet long, by 12 inches wide, by approximately 18-24 inches deep. Install two 8 foot long by 16 foot wide by 8 foot tall brown brick walls around the propane tank and generator for protection and to act as a sound wall during generator operation. Brick wall installation involves placing cinder block on existing pavement. Brick walls will be mortared and reinforced with rebar. Each cinder block structure will have a chainlink gate to prevent unauthorized access. All construction-related work and the on-site equipment staging area will be located on the existing asphalt parking lot.	NOE

2007084001	Monument 250 Road Improvement Project U.S. Department of Homeland Security --San Diego The proposed action alternative would: Improve 2.14 miles of Monument 250 Road (an existing road); use six turn-outs during the construction phase; replace 17 drainage culverts; improve roadside and nuisance drainage ditches; increase the width of the road in two locations for safety reasons; use two areas along Marron Valley Road as temporary staging areas; and construct two low water crossings at Chris' Canyon and Big Load Wast. All actions would require future routine maintenance. Normal OBP patrol activities would continue along the improved road.	EA	09/07/2007
2005112042	North Fork American River Trail Project Placer County Auburn--Placer The proposed project would include the following components: 1) a 14.2 mile natural surface multiple use trail accommodating hiking, biking, and equestrian use; 2) bridges and stream fords to accommodate stream crossings; 3) two staging termini (Foresthill Road and Ponderosa Way); 4) portable restroom; 5) signage; and 6) informational kiosks.	EIR	09/24/2007
2006061082	Citrus Grove El Centro, City of El Centro--Imperial The project is comprised of two main components: annexation of land to the City from the County and development of a gated residential community on a portion of that annexed area. The annexation area is an approx. 70 acre rectangular piece of land. The residential component of the project entails subdividing an undeveloped 47 acre portion of the project site into 156 lots for single family residential development, and construction and occupation of those lots of a gated single family residential community, a private park, a storm water retention basin, and requisite infrastructure.	EIR	09/20/2007
2006071107	9900 Wilshire Boulevard Beverly Hills, City of Beverly Hills--Los Angeles The proposed project would redevelop the site at 9900 Wilshire Boulevard, which is presently developed with a vacant 240,000 sq. ft. department store (formerly Robinsons-May) and a parking structure. The project would demolish the existing buildings and structures and build 252 condominiums in four buildings, approx. 19,856 sq. ft. of commercial (retail and restaurant) space, a two level, subterranean parking garage with approx. 950 spaces, and a public garden of approx. 0.5 acres. Construction would take approx. two years with project buildout planned for 2010.	EIR	09/21/2007
2006091053	The Beverly Hilton Revitalization Plan Beverly Hills, City of Beverly Hills--Los Angeles The proposed project would redevelop portions of the Beverly Hilton Hotel through the introduction of 50 new Beverly Hilton Hotel rooms, a new conference center, new hotel office/ retail/ support facilities, a 120 room Waldorf Astoria Hotel, a restaurant, subterranean parking with 1,422 spaces, and new landscaping, as well as off-site roadway improvements. The project would result in a net reduction of 47 hotel rooms. Buildings to be demolished include the Wilshire Edge building	EIR	09/21/2007

	containing a conference center and hotel offices, former Trader Vic's restaurant, Cabana/ Lanai Rooms building, Palm/ Oasis Court guestroom building, and parking structure. The existing Wilshire Tower would remain. Construction is anticipated to take four years with project buildout complete by 2012.		
2006112077	New Crystal Springs Bypass Tunnel Project San Francisco Planning Department Hillsborough--San Mateo Construction of a 4,200 foot long tunnel to house a 96 inch steel pipe for conveying drinking water as part of the Crystal Springs Bypass System; the new tunnel/pipeline would replace an existing 96 inch pipeline that is subject to geological hazards.	EIR	09/21/2007
2005101038	County of San Bernardino General Plan Update San Bernardino County Land Use Services Department San Bernardino, Riverside--San Bernardino The San Bernardino County General Plan is part of a comprehensive planning program that includes Countywide and regional goals and policies along with the preparation of 13 Community Plans and the completely revised Development Code. The current General Plan, which was adopted in July 1989, is being updated since many physical and demographic changes have occurred at the countywide level since then, which present new opportunities and challenges.	FIN	
2007051100	CUP 06-0158 (Perris Materials Recovery Facility) Perris, City of Moreno Valley, Canyon Lake--Riverside The proposed project requests approval of a Major Modification to Conditional Use Permit 91-27 for the expansion of the Perris Materials Recovery Facility. The proposed expansion includes the following: increase in daily tonnage from 1,800 tpd to 3,000 tpd; new construction/demolition processing facility; new parking lots for collection trucks and employee vehicles; new 10 foot high decorative block perimeter walls along Ellis Avenue and Goetz Road; perimeter landscaping along Goetz Road and Ellis Avenue; an additional truck scale at the facility entrance.	FIN	
2007082031	West Point Service Area Water System Improvements Calaveras County Water District --Calaveras CCWD intends to replace its water distribution system in the Downtown West Point Area, Upper Northwest West Point Area, and the Bummerville Storage Tank.	MND	09/05/2007
2007082032	Etter-Schmidt Parcel Map Subdivision/Lot Line Adjustment Humboldt County Community Development Services --Humboldt A Parcel Map Subdivision and Lot Line Adjustment application. The project results in three new parcels and an adjusted existing parcel: Parcel 1 with 104 acres, Parcel 2 with 2,027 acres, Parcel 3 with 1,915 acres and adjusted Parcel A with 27 acres. The common property line between Parcels 2 and 3 follows an existing unimproved road and the Upper North Fork of the Mattole River. The project will site three existing residences onto Parcels 2 and 3 and the adjusted Parcel A. No new development is proposed. Parcels 2 and 3 are served by on-site water and sewage disposal systems, and accessed via the existing unimproved road and Burrell Road; Parcel 1 is undeveloped and fronts Mattole Road. Project approval requires implementation of the Joint Timber Management Plan. The subdivision complies with a Partition Order for the Etter-Schmidt Ranch.	MND	09/05/2007

2007082033	<p>Alliance Meadow Planned Development Permit, Coastal Development Permit, Tentative Tract Map Subdivision, and Zone Amendment Arcata, City of Arcata--Humboldt</p> <p>The project will split three existing and contiguous parcels into 21 separate parcels. The project area is about 2.46 gross acres and about 1.67 net acres (minus streets, sidewalks, and parking). The developer will build single family dwelling units on 18 of the parcels (lots 1-18 and retain an existing home on lot 19). The units will include eight single family houses, three duplexes, one four-plex and one three-plex. All lots that are not detached single family homes will have their own parcels with zero lot line setbacks. The two other parcels will not have any structures built on them. Parcel A will be held in common by the Alliance Meadows Home Owners Association and will consist of open space, landscaping between the lots and the streets. Parcel B will consist of the streets within the subdivision.</p>	MND	09/05/2007
2007082035	<p>High Point Curve Realignment Caltrans #6 --Mono</p> <p>The California Department of Transportation (Caltrans) proposes to realign a 1.8 mile segment of U.S. Highway 395. The project would correct several curves and dips, widen the shoulders to 8 feet, construct retaining walls, and construct catchment areas below the cut slopes to keep rocks and debris off the highway.</p>	MND	09/05/2007
2007082036	<p>M&T Chico Ranch/Llano Seco Rancho Pumping Plant Maintenance of Channel Alignment Sacramento River Mile 192.5 U.S. Fish and Wildlife Service Chico--Butte, Glenn</p> <p>The proposed action would be to place 1,520 feet of rock and tree revetment on the west side of the Sacramento River and remove gravel on the east side of the river. The primary objective of placing longitudinal stone toe with tree revetment is to stabilize the site, thereby protecting the M&T Chico Ranch/Llano Seco Rancho pumping facility and the outfall for the City of Chico's Wastewater Treatment Plant. Approx. 9,120 tons of rock would be placed to about half of the bank height to an elevation of about 120 feet above mean sea level and the base of the revetment would be about 30 feet in width. Backfilling behind the stone toe will thicken the tow and provide a medium for revegetation. The top of the bench would be an average of approx. 10 feet. Woody brush material would be incorporated into the revetment by anchoring the material with cables and partially sunken large boulders to prevent loss during overtopping flows. The brush portion of the revetment would consist of multiple, alternative clusters of trees spaced approx. 10 to 15 feet apart at two elevations to provide instream and object cover at a range of flows.</p>	MND	09/07/2007
2007011087	<p>Famoso Ethanol Plant Project Kern County Planning Department --Kern</p> <p>Cilion Inc. is proposing a project that includes the construction and operation of a new corn to ethanol production facility in Famoso, CA on property that is designated by the Kern County General Plan for industrial use, but currently has a non-conforming R-1 (Low-density Residential) zone classification. The proposed project includes a zone change to M-2 PD (Medium-industrial - Precise Development) or a more restrictive district, a precise development plan and a request for a non-summary vacation for portions of 4th, 5th, 6th, "B", and "C"</p>	NOP	09/05/2007

2007088083	Alder Gardens Apartment Remodel Mount Shasta, City of Mount Shasta--Siskiyou Remodel of 28 existing apartments under the direction of the Community Housing Improvement Program (CHIP) using a grant from Housing and Urban Development. The remodel will primarily affect the interior of the apartments however there will be some cosmetic changes to the exterior. There will be no change in the number of units or the footprint of the existing building as a result of the project. The proposed project is grant funded with federal funds and also requires consideration under NEPA. The project qualifies for a categorical exclusion under §58.35(a)(3)(ii) of 24 CFR Subtitle A. The proposed project will help maintain affordable housing units within the City of Mount Shasta, and furthers the goals of the City's Housing Element.	NOE	
2007088084	Maintenance Dredging at the Marin Yacht Club 71 Summit Avenue Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland San Rafael--Marin Maintenance dredging of approximately 5,000 cubicy yards of sediment to a project depth of -6 feet mean lower low water (MLLW), with a 1-foot overdredge allowance. Disposal of the dredged sediments will occur at the San Pablo Bay Dredged Material Disposal Site (SF-10) in San Francisco Bay.	NOE	
2007088085	Thomes Creek Railroad Bridge Repair Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Tehama The California Northern Railroad Company is proposing to repair nine piers supporting a railroad bridge (MP 182.01) over Thomes Creek. The purpose of the proposed project is to restore the structural integrity of the railroad bridge to allow the safe transit of trains. Extensive scouring caused by high flows has undermined Piers 9 and 10 and damaged 6, 7, 8, 11, 12, 13, and 15. All of the damaged piers will be repaired in summer/fall of 2007. The proposed work will be restricted to the existing footprint of the piers; sheet piles will be slightly outside the footprint to allow room for pile driving. Equipment and machinery used during repairs will include a railroad track excavator, a concrete pump truck, and a pile driver. An existing gravel road that extends along the streambed will provide the construction access. A site plan showing repairs to Piers 9 and 10, which will require the most work, is enclosed.	NOE	
2007088086	Angora Fire Restoration Tahoe Conservancy Unincorporated--El Dorado The projects consist of removing dead and dying trees that were killed or damaged during the Angora Fire. Thinning selected trees and brush to promote increased health and vigor. Forest restoring will include mulching and planting for soil stability.	NOE	
2007088087	Lili Valley Water Company Distribution System Repair and Improvement Project Calaveras County Planning Department --Calaveras The purposes of the proposed project include: (1) compliance with current State drinking water quality standards by installing a California Department of Health Services (DHS) mandated chlorination system; (2) improve delivery adequacy and increase pipeline capacity by replacing the existing deteriorating potable water	NOE

2005112128	Gateway Community Development Project Oakland, City of Oakland--Alameda The project involves the construction of up to 810 new residential units, approx. 25,950 sq. ft. of commercial space, and approx. 160,000 sq. ft. of open space. Development would occur primarily in six development sites containing a total of four multi-family buildings measuring seven to 12 stories tall, two residential towers measuring 15 and 16 stories tall, and a series of three story townhomes. All existing uses on the site, including a self storage facility, a Caltrans maintenance facility, and various commercial buildings, would be removed by this project.	EIR	09/24/2007
2007081043	Tentative Tract PLN07-00076 (Tract 18450) Victorville, City of Victorville--San Bernardino To allow for a 353 unit multi-family condominium complex on 30 acres of primarily undisturbed land.	MND	09/06/2007
2007081048	San Jacinto Animal Shelter Riverside County San Jacinto--Riverside The County of Riverside Department of Facilities Management Riverside has proposed development of the San Jacinto Valley Animal Shelter, which includes construction of an approx. 30,000 sq. ft. building, outdoor facilities, and parking. The animal shelter will provide care and shelter for orphaned and abandoned animals in the community, and would include dog, cat, and large animal kennels, outdoor animal runs, public adoption areas, program/ administration, classroom areas, and employee and visitor parking. A veterinarian clinic is being considered as an optional component for the project site. If constructed, the clinic would be used for surgery and the medical treatment of animals, spay/ neuter services, and vaccinations. The proposed animal shelter is anticipated to encompass less than one acre, and the remaining undeveloped land onsite (approx. 10 acres) would be reserved for future uses at the discretion of the County. 2007081050	<p>New Law Library Facility Riverside County Riverside--Riverside</p> <p>The proposed project is the construction of a new, approx. 33,000 sq. ft., Riverside County Law Library and governmental office facility. The project also includes the acquisition of three parcels and the demolition of some of the existing structures, or portions thereof, on the project site. The Library and additional County office facilities will require approx. 33,000 sq. ft. of usable building space, with the library itself utilizing approx. 16,000 sq. ft. and the remaining 17,000 sq. ft. primarily designated for County court services offices useful to the public defender, mental health, child support services, county council and/or probation. The new law library will include space for shelves to accommodate an ever-increasing collection of traditional bound books (which presently total about 80,000 volumes), the law library's administrative offices and offices for public services staff and technical staff (including office space for the reference librarian, office mail processing, updating library material, etc.). Other facilities within the law library may include, but are not limited to, an employee break room, one 16 person capacity conference room, about two 8 person capacity meeting rooms, about two 2 to 4 person capacity meeting rooms, several study tables and booths, a public counter, storage areas, a new computer research and training room with up to 20 stations, a computer systems room, a presentation room (with audio visual facilities) with seating for up to 100 persons, and one or more areas designated for extra quiet studying.</p>	MND	09/06/2007
2007082038	<p>Kinn Notice of Merger/Lot Line Adjustment/Coastal Development Permit/Conditional Use Permit/Special Permit Humboldt County Community Development Services --Humboldt</p> <p>A Notice of Merger and Lot Line Adjustment between three vacant Assessor Parcel Numbers to result in two legal parcels. Proposed Parcel A will be approx. 0.52 acre and proposed Parcel B will be approx. 1.2 acres. The purpose of the lot line adjustment is to allow for development of an approx. 2,400 sq. ft. single family residence and an approx. 600 sq. ft. detached garage on proposed Parcel A. Development of proposed Parcel B consists of an approx. 1,900 sq. ft. single family residence, in addition to an approx. 1,300 sq. ft. detached garage which includes a secondary dwelling unit on the upper floor. Coastal Development and Special Permits are required for the development of all proposed dwellings and both detached accessory structures exceeding the height and gross floor limitations, in addition to a fifty five foot reduction of the riparian corridor buffering an unnamed drainage that serves as a conduit for stormwater flow from a culvert under Westhaven Drive. Coastal Development and Conditional Use Permits are required for the removal of approx. 97 trees ranging in size from 14" dbh to 44" dbh. The parcels will be served by on-site water and septic systems. Development of a portion of Highland Avenue, a public right-of-way, will be improved to a Road Category 4 standard.</p>	MND	09/06/2007

2007082041	Newcastle Canal Maintenance Project Placer County Water Agency --Placer PCWA is proposing to repair a 1,000 foot long segment of the Newcastle Canal system. The proposed maintenance project entails guniting this segment of the earthen canal. This section of the canal system requires maintenance because the canal is deteriorating and is leaking substantial amounts of water.	MND	09/06/2007
2007084002	Future of the Long Range Aids to Navigation (LORAN-C) Program U.S. Department of Homeland Security -- LORAN is a radionavigation system first developed during World War II and operated by the USCG. The current system (LORAN-C) is a low frequency hyperbolic radionavigation system approved for use in the U.S. Coastal Confluence Zone (CCZ) and as a supplemental air navigation aid. LORAN-C provides navigation, location, and timing services for both civil and military air, land, and marine users in the continental United States (CONUS) and Alaska. The government is considering the need to continue to operate and invest in the North American LORAN-C radionavigation system.	NOI	08/31/2007
2007081047	Emerald Acres/Koby Annexation and Pre-Zoning Actions Hemet, City of Hemet, Riverside--Riverside The proposed project includes the expansion of the City of Hemet Sphere of Influence; the adoption of pre-zoning for and annexation of approximately 379 acres of land into the City of Hemet; and adoption of a Specific Plan. Up to approximately 20 additional acres will become part of the sphere of influence, but no pre-zoning or annexation of these acres would occur. The project could result in the development of up to 1,274 dwelling units, 522,720 sq. ft. commercial development, a 3.5 acre recreation center, 8.0 acres of greenbelt/greenspace, a 14.1 acre detention basin and 157.1 acres undeveloped open space. The project includes improvements to Highway 74 (Florida Avenue), Stetson Avenue, and roadways within the proposed specific plan area. (Total acreage +/- 400 acres).	NOP	09/06/2007
2007081044	Loperena Minor Use Permit DRC2005-00216 San Luis Obispo County --San Luis Obispo Request by Jack Loperena for a Minor Use Permit/ Coastal Development Permit to allow for the construction of a 2,396 sq. ft. single family residence with a 217 sq. ft. upper floor deck on the west side of the house. The proposed home is a single story (with basement) and a proposed maximum height of 15' above the centerline elevation of Studio Drive. The project will result in the disturbance of approx. 3,000 sq. ft. of a 3,445 sq. ft. parcel. The proposed project is within the Residential Single Family land use category and is located on the west side of Studio Drive, adjacent to the State Parks property on the northern end of Studio Drive, approx. 250 feet south of the intersection of Studio Drive and Highway 1. The site is in the Estero planning area.	Neg	09/06/2007

2007081045	Black Minor Use Permit DRC2003-00161 San Luis Obispo County Cambria--San Luis Obispo Request by Bruce Black for a Minor Use Permit/Coastal to allow for the construction of an addition of five units (four guest units and one managers unit) to an existing hotel/bed and breakfast. In addition the applicant is requesting a modification of Title 19 to allow use of an existing, onsite groundwater well for potable water service. The project will result in the disturbance of approx. 4,500 sq. ft. of an approx. 5,000 sq. ft. parcel. The proposed project is within the Commercial Retail land use category and is located at 4063 Burton Drive in the community of Cambria. The site is in the North Coast planning area.	Neg	09/06/2007
2007081046	El Camino Executive Center Oceanside, City of Oceanside--San Diego The project consists of two entitlement components, the Development Plan (D-23-06) and Variance (V-1-07), for the development of a two story 32,616 sq. ft. commercial office building, with one level of parking below the first story. A total of 71 parking spaces (both surface parking and the below building parking) will accommodate the building. The proposed development will be clustered entirely in the southern corner of the site in order to avoid impacts to the native habitat on the property. Approx. three quarters of the site will be preserved as open space in association with the proposed project.	Neg	09/06/2007
2007081049	Environmental Assessment No. EA-07-31 Fresno, City of Clovis, Fresno--Fresno The City of Fresno is reorganizing existing utility services currently provided by the Fresno Department of Public Utilities (DPU). Through this reorganization, the City proposes transferring the provision of existing water, wastewater, and solid waste services from DPU to a new municipal water district (MWD). The water, wastewater, and solid waste service areas for the new MWD would not change from existing water, wastewater, and solid waste service areas. No other activities are planned, and no additional services or service areas are currently being considered as part of this project. No activities having new, direct physical impacts on the environment are planned. The City is proposing this reorganization to achieve certain administrative and cost of service efficiencies not currently available under the current organization supporting the provision of these services. The plan of service for effecting this reorganization is expected to be presented to the Fresno County Local Agency Formation Commission in the fall of 2007, followed by a public referendum in the summer of 2008, and implementation by 2009. 2005101070	Madera Town Center Madera, City of Madera--Madera The project consists of a development agreement between the City of Madera and Zelman Retail Partners pursuant to the provisions of the California Government Code Sections 65864-65869.5. The purpose of the development agreement is to establish reasonable assurances that the Madera Town Center Project (the Project) may be developed in accordance with a defined set of requirements and regulations. The agreement provides for the orderly development of the project in accordance with the objectives set forth in the Madera General Plan, to eliminate uncertainty in planning for and securing orderly development of the project, and to assure timely installation of necessary improvements. The Madera Town Center project is an integrated retail shopping center containing up to 791,630 square feet of retail and related uses. The first phase of the project will include up to 567,000 square feet of retail space and related improvement and up to 3,000 on-site parking spaces. The balance of the Project may be developed in multiple phases thereafter. The project will be required to construct certain on-site and off-site public infrastructure improvements, which were established as conditions of regulatory approval of the project. Such improvements will include sewer and water lines, water well, storm drainage improvements, street improvements and traffic control.	NOD

2002071071	<p>University Towne Center Revitalization Project San Diego, City of San Diego--San Diego</p> <p>The project proposes to redevelop and renovate the existing 1,061,400-sq. ft. Westfield University Towne Center (UTC) regional shopping center located southeast of the intersection of La Jolla Village Drive and Genesee Avenue; north of Nobel Drive, and west of Towne Centre Drive. The proposed project would be the renovation and expansion of retail uses by 750,000 sq. ft. of new retail and the development of 250 multi-family residential units. Alternatively, the applicant could implement a mix of land use scenarios that could include a reduction in new retail and the addition of up to 725 residential dwelling units; up to 250 hotel rooms; and/or up to 35,000 sq. ft. of office space. The land use scenarios would be restricted to a mixture of the above uses that would not exceed 17,800 cumulative average daily trips (ADTs) and 256 in-bound AM peak hour/778 out-bound peak hour trips. The maximum height for residential, hotel, and office uses would be limited to 325 to 390 feet about grade. The project proposes 7,163 parking spaces, in a mixture of structured and surface parking. Additional project features would include a relocated and expanded bus transit center and reservation of right-of-way for the proposed transit center and planned extension of a light rail transit line, and certification under the LEED Green Building Rating System.</p>	EIR	09/24/2007
2007021052	<p>The Kaiser Permanente Orange County Anaheim Medical Center Anaheim, City of Anaheim--Orange</p> <p>Development of 1.2 million total square-feet of medical office building and hospital/patient care space, including approximately 3,780 parking spaces in a combination of surface and parking structures.</p>	EIR	09/24/2007
2005122113	<p>Lockeford Elementary School Addition Lodi Unified School District --San Joaquin</p> <p>LUSD is proposing to construct an addition to its existing Lockeford Elementary School facility. The expansion site would be located on the existing school grounds and vacant land to the northwest. The proposed addition would include the construction of a new multi-purpose building, classroom buildings and parking and circulation facilities to accommodate existing and projected future student load. The perimeter of the proposed expansion would be fenced for safety and security. Low maintenance landscaping is planned for aesthetic quality along the borders of the site.</p>	MND	09/07/2007
2007081051	<p>The Highlands; Project/Tract Map No. 065062 Los Angeles County Department of Regional Planning Unincorporated--Los Angeles</p> <p>The proposed project is for a zone change to R-2-DP (Two Family Residence, Development Program), a plan amendment to the Altadena Community Plan to allow low medium density residential development (6-12 units/acre), a conditional use permit with a development program, and a Vesting Tentative Tract Map No. 065062 for construction of 49 residential condominiums in 26 buildings which will have 46 two story, 1,400 sq. ft. duplex units and 3 two story single family units over two lots totaling 3.47 net acres. Every residence will have a two car garage, and 15 additional guest parking spaces will be provided for on site. An oak tree permit has been filed for seven oak trees, one to be removed and the remaining six for encroachment. The two lots are currently located in the R-1-7,500 (Single Family Residence, 7,500 sq. ft. minimum size lot required), R-2 (Two Family</p>	MND	09/07/2007

	Residence), and C-3 (Unlimited Commercial) Zones, in the unincorporated community of Altadena. Proposed Lot 1 of the project will be accessed through a private driveway and a fire lane from Ventura Street on the north which is also a public interior collector street. Proposed Lot 2, located on the south side of Mountain View Street, will be accessible through a private driveway and fire lane from Fair Oaks Avenue which is a public secondary highway that runs north and south along the east end property frontage. All units will be served by a common 26' wide private driveway/ fire lane. All existing structures will be removed, and a six to ten foot high block wall is proposed along Fair Oaks Avenue on both sides. Grading will consist of 9,500 cubic yards of cut and 2,300 cubic yards of fill, with 18,500 cubic yards of remedial grading on site.		
2007081055	Housing and Dining Services Administrative Building Project University of California, San Diego La Jolla--San Diego The proposed project would consist of construction of an approx. 42,124 gross sq. ft. (gsf) four story building. The project would contain a catering kitchen with a receiving dock/service yard on the first level. Office space for Housing and Dining Services administrative staff and for catering sales and administrative support would be located on levels two through four. Assembly/event and support space would also be located on level four. The building would house approx. 150 new and existing administrative staff and personnel and catering services personnel consolidated from various locations on campus. The buildings primary entrance would be located at the northwest corner. A comprehensive system of sidewalks would be built as part of the proposed project.	MND	09/07/2007
2007081056	Murrieta 18 Office Campus (DP0-006-2037) Murrieta, City of Murrieta--Riverside The proposed Murrieta 18 Office Campus (Project) is a phased development of 240,966 gsf of class 'A' office in three buildings with a total parking of 813 stalls on 17.02 acres. Phase 1 includes Building 'A' (80,322 gsf in three floors) and partial development of proposed surface parking located in the south eastern corner of the property. Phase 2 includes Building 'B' (80,322 gsf in three floors) and partial development of surface parking in the southwestern corner of the property. Phase 3 includes Building 'C' (80,322 gsf in three floors) and remaining development of surface parking located in the northern corner of the property. A vegetated swale would be constructed along the northeastern portion of the Project site, adjacent to Warm Springs Creek, to capture storm water draining in that direction. Jackson Avenue would be built to the ultimate half-section width, including landscaping and parkway improvements.	MND	09/07/2007
2007082048	New Mammoth Lakes Courthouse At College Parkway for Mono County Judicial Council of California Mammoth Lakes--Mono The Administrative Office of the Courts (ACC), the staff agency of the Judicial Council of California, is proposing fee acquisition of a parcel in Mammoth Lakes, construction of a new courthouse, and operation of the facility by the Superior Court of California, County of Mono. The courthouse will be on College Parkway and adjacent to Waton Wheel Road and Meridian Boulevard. The project site will cover approx. two acres. The proposed new Courthouse will be one story tall with a partial basement, have approx. 20,000 sq. ft. of space for two courtrooms and other court-related facilities, and will have approx. 40 public parking spaces. The new courthouse will improve access to judicial facilities for residents of Mono	MND	09/10/2007

	identified sections of the levee.		
2006072109	Inland Cold Storage Stockton Stockton, Port of Stockton--San Joaquin Construction and operation of a cold storage distribution and fumigation facilities that would distribute approximately 1,120 million pounds of food product per year.	NOD	
2006112036	San Francisco International Airport Combustion Turbine Project San Francisco Planning Department South San Francisco--San Mateo The San Francisco Public Utilities Commission proposes to construct and operate a 48-megawatt (MW) natural gas-fired, simple-cycle power plant. The project would connect with the SFIA electrical distribution network through an underground 115-kV electrical transmission line extending for 1.05 miles from the plant to its terminus, adjacent to South Airport Boulevard, where it connects to substations BA and CA. Along that route, the project transmission line would also connect with a new PG&E switchyard and a new project substation (the CB Substation), both located along North Access Road. The project would also include a new, 0.95-mile-long natural gas pipeline that would be aligned within North Access Road right-of-way to connect with PG&E Line 101 at a location near South Airport Boulevard. Water for the plant would be supplied by the SFIA potable water system, and wastewater would be sent to the SFIA Mel Leong Wastewater Treatment Plant adjacent to the project site. No demolition would be required as part of the project.	NOD	
2007022028	Kreuse Creek Premier Vineyard-Petition to Change Point of Diversion and for an Extension of Time on Water Right Permit 20428 State Water Resources Control Board, Division of Water Rights Napa--Napa The proposed project involves the development of an offstream reservoir, diversion facility and stream restoration at Kreuse Creek, tributary to Tulocay Creek, tributary to the Napa River in Napa County. A Petition to Change and a Petition for Extension of Time was filed with the State Water Resources Control Board Division of Water Rights to modify an existing water right (Permit 20428/Application 29351). The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0042-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Tom Adams, Coombsville Vineyard, LLC. 	(north) bank of Pixley Slough.		
2007088127	<p>Construction of New Guard Tower at San Quentin State Prison Corrections and Rehabilitation, Department of --Marin</p> <p>CDCR proposes to construct a new observation tower at SQSP to replace existing Tower #4 which has deteriorated to the extent that it is unsafe for occupancy. The new tower will be constructed in close proximity to the existing tower but 150 feet or more away from the shoreline, at the southernmost portion of the prison property. A soils report will be prepared prior to construction and may require the ground under the tower base to be excavated and recompacted. This work would alter the terrain in the immediate area only slightly. The area has previously been graded, developed, or otherwise disturbed. The new steel observation tower and office station will be designed in accordance with current CDCR Design Criteria Guidelines and to Fire/Life, Health and Safety codes. The tower will consist of two sections: a four-sided enclosed steel base and an upper section consisting of the tower officer's station. The tower will be secured to a new concrete foundation. The height and footprint of the replacement tower will approximate that of Tower 4. The existing Tower 4 is 69 feet in height, while the height of the new tower will be 67 feet. The footprint of the existing tower is 256 square feet while the new tower base will be 196 square feet. The tower will include all mechanical, electrical and plumbing apparatus necessary to the tower's operational function. The water, sewer, and electrical will be connected to existing systems. Paint will match SQSP designated colors.</p>	NOE	
2007088128	<p>Lake Perris Power Cove Ramp Extension and Ramp 6 Replacement Boating and Waterways, Department of --Riverside</p> <p>Two projects will be constructed at Lake Perris State Recreation Area. The first located in Power Cove, will extend the boat ramp. The water level at Lake Perris is scheduled to be lowered due to seismic safety concerns with the Lake Perris Dam. For the Power Cove ramp to remain operational at this lower level it needs to be extended. The ramp extension will be 60 feet wide and 100 feet long. Construction will require minor grading and placement of riprap for erosion control along the edges of the ramp.</p> <p>The second project will replace ramp number six. This ramp is an older ramp and it does not provide adequate traction for vehicles to launch and retrieve their boats. The replacement will be the same size as the existing ramp, 75 feet wide and 325 feet long.</p> <p>The California Natural Diversity Database and the U.S. Fish and Wildlife website has been researched and no threatened or endangered species will be affected by these projects. The Eastern Information Center for the California Historical Resources Information System was consulted regarding cultural resources. The information center determined that no cultural resources have been recorded within the boundaries of the project area.</p>	NOE	
2007088129	<p>Turlock Lake Restroom Facility Replacement and Other ADA Upgrades Boating and Waterways, Department of --Stanislaus</p> <p>The current restroom facility needs to be replaced to comply with the new Americans with Disabilities Act (ADA). The proposed project will consist of demolishing and replacing the existing restroom with a fully ADA-accessible six</p>	NOE

2007088131	Harr Ranch Road Repairs Parks and Recreation, Department of --Sonoma Repair a 180 linear foot section of storm-damaged Harr Road (Pierson Road) at Sugarloaf Ridge State Park to prevent further erosion and to provide a safer and more stable road for vehicle traffic. Work will grade the road; build up three feet on the east edge and abandon three feet on the west edge to realign the road, maintaining a twelve foot width road; install and compact approximately 30 cubic yards of class 2 aggregate base to return the road to pre-slide condition; clean out and armor the existing road side ditch 20 cubic yards of 75 pound rock to prevent erosion. Remove an existing twelve inch culvert and replace with a 24 inch culvert to better accommodate future runoff events. Armor the culvert outlet with a rock apron consisting of ten cubic yards of 75 pound rock. Place 40 cubic yards of 36 inch 1/2 ton rock at the bottom of the land slide area to stabilize the slope. Regrade uphill surface cracks with a small dozer or backhoe to reflect natural topographic contours to disperse runoff.	NOE

2005011110	City of Chino Hills Proposed Water, Recycled Water & Wastewater Master Plan Chino Hills, City of Chino Hills--San Bernardino The City's fundamental goal in this effort is to ensure the reliability, adequacy, and efficiency of the water, recycled water and sanitation systems through build-out, which is anticipated to occur around 2025. Rather than addressing the systems separately, the 2005 Master Plan optimizes closely associated resources and requirements of the water, recycled water and sanitation systems to develop an integrated planning program that will provide substantial flexibility and reliability to all three systems.	EIR	10/05/2007
2006021109	Verdugo Gardens Glendale Redevelopment Agency Glendale--Los Angeles The Verduga Gardens project is a mixed use development consisting of 287 for sale housing units, 3,600 sq. ft. of ground floor retail-commercial uses, a public open space plaza and park, landscaping, lighting, utilities, subterranean and above-grade parking, which would be screened from public streets with perimeter housing, and associated amenities.	EIR	09/24/2007
2003104004	New River Safety Barrier & Border Fence U.S. Department of Homeland Security Calexico--Imperial Construct a safety barrier on an existing bridge over the new river. Construct an additional 5 miles of border fence.	FIN	
2004122022	Tuluwat Restoration Project Eureka, City of Eureka--Humboldt The project proposes to construct a ceremonial place that will include traditional dance and tribal gathering areas such as a dance house, caretaker's residence, restored dock and bulkhead, vault toilet, and camp kitchen, all in the setting of a restored native environment.	FIN	
2007081059	Change of Zone No. 7333 and Tentative Tract Map No. 32044 Riverside County Planning Department --Riverside The Change of Zone proposes to change the zoning classification on the northern half of the project site from Multiple Family Dwellings (R-2) and General Commercial (C-1/C-P) to Residential Agricultural (R-A-1) (One acre minimum). In addition, the change of zone would also change the current zoning classification on the southern parcel from One Family Dwelling (R-1) to One Family Dwelling (R-1-20,000). The Tract Map proposes a Schedule B subdivision of 10.09 gross acres into 13 residential lots with a minimum lot size of 0.5 gross acres. The site also includes a detention basin.	MND	09/10/2007
2007081060	Tentative Parcel Map PLN07-00082 Victorville, City of Victorville--San Bernardino PLN07-00082 - To allow for the creation of 3 parcels from 1 existing parcel proposing parcel lines along exiting zoning lines.	MND	09/10/2007

2007082060	Use Permit 5-92B and Reclamation Plan 1-92A- Amen Shasta County --Shasta The project is in the Cottonwood area on three parcels totaling approx. 212 acres located at the southern terminus of Live Oak Lane and between the southern terminus of Williams Lane and Denver Drive, and approx. one quarter mile north of Cottonwood Creek. Ivar Amen has requested approval of a 3.7 acre expansion of a 41.5 acre pit and the excavation of a new 8.6 acre gravel pit. The excavation of the pits will create ponds and a riparian woodland area. Both ponds will be used for watering livestock. The eastern 8.6 acre pond will also be used for stormwater runoff management. The Use Permit amendment would extend the ending date of the gravel operation from December 31, 2010, to December 31, 2015. All other conditions of the Use Permit would remain the same. The existing gravel operation does not include screening, washing, crushing, or other processing of gravel. Gravel is excavated, loaded, and trucked from the site.	MND	09/13/2007
2007082061	Zone Amendment 07-016 & Tract Map 1967- Stone Creek Shasta County --Shasta The applicant has requested to change the zoning to allow for the creation of five acre parcels. The Zone Amendment is proposed in conjunction with a 14 parcel land division with a 70.95 acre remainder parcel. The parcels are proposed to be served by on-site septic systems and wells. Improvements will be limited to construction of access roads to serve the proposed parcels.	MND	09/13/2007
2007082062	Use Permit 07-004- Shasta Wildlife Rescue and Rehabilitation Inc. Shasta County Shasta Lake--Shasta Shasta Wildlife Rescue and Rehabilitation proposes to use an existing residence and accessory structures as the organization's headquarters, rehabilitation facility, and caretaker's residence. The organization cares for a variety of injured birds and small mammal species in order to return them to the wild once rehabilitated. Animals that are not able to be returned to the wild are euthanized. Improvements are limited to conversions and interior remodels of existing structures to suit the proposed use, with the exception of the addition of a caretaker's residence to the existing residential building, a 7,400 sq. ft. barn-like structure to serve as a raptor aviary, and fencing for a small mammal pen.	MND	09/13/2007
2007082065	Zone Amendment 07-019 & Tract Map 1954- Zachow Shasta County --Shasta The request is for a Zone Amendment in conjunction with an eight parcel land division and a remainder parcel. The requested Zone Amendment is from the Limited Agriculture combined with a 40 acre minimum lot area (A-1-BA-40) zone districts to the Limited Agriculture (A-1) zone district and the Limited Residential combined with a 40 acre minimum lot area (RL-BA-40) zone districts to the Limited Residential (RL) zone district. The current Open Space (OS) and Restrictive Flood (F-2) zone districts will not be affected with the proposed Zone Amendment. The current project is for an eight parcel land division resulting in parcels that range in size from 5.11 acres to 6.75 acres and a 73.37 acre remainder. The current project is the second Tract Map and Zone Amendment associated with this project site. The first Tract Map, TR1933, was approved on April 13, 2006, and consisted of eight parcels ranging in size from 5.12 acres to 6.01 acres. The total site area is approx. 159.29 acres.	MND	09/13/2007

2007082051	New Mission Theater Mixed-Use Project San Francisco Planning Department San Francisco--San Francisco The proposed project would involve rehabilitation and reuse of the New Mission Theater (City Landmark No. 245) as a dining and entertainment venue, as well as demolition of an adjacent department store ("Giant Value") and construction of two new residential buildings with a total of 95 units on the portion of the lot now occupied by the store. Ground floor retail space and a child care center would be provided in these buildings. Ninety-nine parking spaces serving the residential use would be located in a two-level basement garage accessed from Bartlett Street at the rear of the property. The project requires a height reclassification (rezoning) from 65 feet to 85 feet to permit the proposed residential building on Mission Street, and from 50 feet to 65 feet to permit the proposed residential building on Bartlett Street. Revisions to the bulk districts would also be required. The proposed uses would be permitted within the NC-3 district. The project sponsor is also seeking approval of a Special Use District (SUD) for some sites along Mission Street, including the project site and lots 5 and 61, that would modify the requirements of the underlying NC-3 zoning to allow for greater flexibility in the size and distribution of uses on the site with Conditional Use (CU) authorization. Alterations to the City Landmark New Mission Theater would require a Certificate of Appropriateness from the Planning Commission, upon the advice of the Landmarks Preservation Advisory Board. The proposed project	NOP	09/10/2007

	would also require building permit(s) from the Department of Building Inspection and approval of a subdivision (condominium) map by the Department of Public Works. Any curb or street modifications would require approval by the Department of Parking and Traffic.		
2007081058	Menifee Valley Incorporation Project Riverside County Local Agency Formation Commission Unincorporated--Riverside The proposed Menifee Valley Incorporation project, if approved by LAFCO, would submit to registered voters the question of whether or not the community of Menifee Valley, California should become a general law city. Municipal decisions would pass from the County of Riverside to the newly formed city; no development is associated with the proposed project.	Neg	09/10/2007
2007081061	Location and Development Plan 06-07 Adelanto, City of Adelanto--San Bernardino The applicant is proposing the construction of a mini-storage project including on-site office and manager's unit on approx. 4.77 acres. The project site is in the MI Zone (Manufacturing/Industrial), and has a General Plan Land Use Designation of Manufacturing/Industrial.	Neg	09/10/2007
2007081064	General Plan Map and Zoning Map Amendment for a portion of McAbee Beach Monterey, City of Monterey--Monterey The project site (001-021-003) is located on Cannery Row adjacent to Spindriff Inn. The site encompasses 6,000 sq. ft. (48'X125'). The City of Monterey proposes to amend the General Plan Map (commercial to parks/recreation/open space) and Zoning Map (Cannery Row Commercial to Open Space) for this site. The City recently acquired this property and plans to develop and maintain it as a city park. The project's purpose is to show the City's intention to use the property as park/recreation/open space versus a potential commercial building site (current general plan and zoning). A park plan was recently approved for this site.	Neg	09/10/2007
2007081065	Rezoning of California State Parks property located adjacent to the Ocean Harbor House (125 Surf Way) & the Monterey Beach Resort Hotel (2600 Sand Dunes Drive) Monterey, City of Monterey--Monterey The project includes the rezoning of three parcels owned by the State of California and operated by the Department of Parks and Recreation. The project site contains primarily undeveloped vegetated sand dunes, as well as a segment of the Monterey Bay Coastal Recreation Trail, including a notable switchback that is visible from Del Monte Avenue. The purpose of this rezoning is to allow for the continued use of the property as open space and to bring the City of Monterey Zoning Ordinance (Chapter 38 of the Monterey City Code) into conformance with the City of Monterey General Plan. Specifically, the current R-3-20-S Zoning designation would be changed to O (Open Space) to correspond with its Parks, Recreation, and Open Space General Plan designation. Physical development of the site, recreation-based or otherwise, is not anticipated or considered as part of this project.	Neg	09/10/2007

Enhancement Projects Santa Cruz County Capitola--Santa Cruz The site is located on the west side of the Watsonville Slough between Beach Road and the confluence with the Pajaro River. The site has been colonized by non-native invasive species. The project will focus on removing invasive species from the channel banks and revegetation with local native plant species. This will increase wetland and upland habitat values within the last mile of the slough ecosystem and improve water quality.	NOD	
	The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0244-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Karen Christensen / Santa Cruz County Resource Conservation District.		
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz The site is located within the Bear Creek watershed approximately three miles off Bear Creek Road on Deer Creek. The existing crossing, consisting of two partially collapsed and decaying corrugated metal culverts surrounded by concrete, impedes fish passage upstream and the passage of woody debris downstream. Over two miles of high-quality salmonid breeding habitat is available upstream of the crossing. The project will replace the existing culvert structure with a 55-foot long, 16-foot wide steel free-span bridge elevated above the channel bed and banks. The new bridge will be elevated above Deer Creek's 100-year flood level to allow for downstream passage woody debris. Footings for the new bridge will be shallow, poured concrete abutments instead of drilled piers to reduce disturbance. The new bridge will primarily occupy the same space currently occupied by the existing concrete crossing. A 4-foot high retaining wall on the southern edge of the road at the bridge's eastern end will allow for a gradual slope	NOD

	from the existing road bed up to the bridge decking. The banks along the bridge's shallow footings will be armored with rock riprap and planted with willow stakes and a variety of herbaceous riparian species.		
	The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0240-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Karen Christensen / Santa Cruz County Resource Conservation District.		
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz This project is located on the banks of the existing levee near the mouth of the San Lorenzo lagoon in the estuarine reach in the San Lorenzo River Watershed. All work will be completed between Laurel Street Bridge and the Pacific Ocean. The project will consist of selective removal of highly aggressive invasive species to allow establishment of native trees, shrubs, and herbaceous cover. Annual maintenance of weeds; i.e., weed whacking, hand pulling, etc. around plantings will allow native species to grow and eventually shade-out unwanted weeds.	NOD	
	The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0241-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Karen Christensen / Santa Cruz County Resource Conservation District.		
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz The project will improve habitat on Queseria Creek for anadromous fish during high winter flows, as well as during low flow periods in late spring and early summer, through the installation of rock vane structures to improve fish migration. A culvert crossing which was an impediment to fish passage was previously removed and will now be replaced with a bridge comprised of two railroad flatcars that are welded together for a 20' x 50' dimension.	NOD	
	The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0239-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Karen Christensen / Santa Cruz County Resource Conservation District.		
2005011089	Delano Marketplace Delano, City of Delano--Kern The Delano Marketplace project would include two large anchor stores, retail shops, and restaurants (sit down and fast food) for a total of approximately 456,022 square feet. The large anchor stores would include a 228,751 square foot Wal-Mart Supercenter and a 172,463 square foot home improvement store. The Wal-Mart Supercenter store will include general merchandise sales; a garden center; tire and lube express; grocery sales and support space; stockroom/receiving area; ancillary areas; tenant areas (e.g. a fast food restaurant and a vision center); a 14 position gas station on a separate pad; drive-thru pharmacy; and a bagged goods pickup area. The Wal-Mart Supercenter will operate 24 hours per day. The proposed home improvement store will include general merchandise sales and a garden center. The proposed project includes	NOD

2007082068	<p>East 8th Street Corridor Improvements Project Chico, City of Chico--Butte</p> <p>The project implements the City of Chico Scenic Street Design Guidelines for East 8th Street and consists of the reconstruction of approx. 1.5 miles of East 8th Street from Fir Street to Bruce Road. The reconstruction will include the installation of the following: a curvilinear roadway with bulbouts and other traffic calming elements, separated bicycle and pedestrian facilities, underground storm drain system, expansion of the sanitary sewer main line within East 8th Street, and the planting of additional trees and low-maintenance vegetation to enhance the aesthetics of the corridor.</p>	MND	09/11/2007
2007082070	<p>Maxwell Public Utilities District Treated Effluent Reuse Project Maxwell Public Utilities District --Colusa</p> <p>The project is to apply the recycled water and biosolids treated at the Wastewater Treatment Facility (WWTF) at agronomic rates to a majority of a nearby approx. 313 acre parcel that is being purchased by MPUD. This is a form of recycled water reuse that is consistent with proper field-crop production and soil management. The recycled water and biosolids will be treated to the degree appropriate for their safe and beneficial reuse as irrigation water and soil amendment. The biosolids are created through aerobic and anaerobic processes in the MPUD treatment system. This reuse system would replace the disposal of treated effluent to an agricultural ditch that flows into an unnamed tributary to Lurline Creek, a practice that has been subject to increasing difficulties in maintaining compliance with surface water quality requirements due to the low flow in the receiving water and changes in regulations.</p>	MND	09/11/2007
2007082075	<p>Dong Watercourse Design Review Ross, City of Ross--Marin</p> <p>Biotechnical stream bank stabilization on Corte Madera Creek on a site developed with a single family residence. The project involves dewatering the project reach of Corte Madera Creek, installing boulder reventment and vegetated turf reinforcement mat over approx. 100 linear feet of the channel bank, and revegetating the disturbed slope with native groundcover, shrubs, and trees.</p>	MND	09/11/2007
2002022026	<p>Clos De La Tech Winery San Mateo County Woodside--San Mateo</p> <p>The project sponsor has proposed a zoning text amendment that would alter the County's Zoning Regulations to expand the regulated definition of wineries to include Scenic Wineries. The project sponsor has proposed a winery that would be located within three excavated caves located along the ridgeline at the end of Langley Hill Road. These caves would house winery operations (crushing, bottling, and storage), winery offices, and living quarters for up to six people. A service building and living quarters for up to 15 seasonal workers are also proposed on the property.</p>	NOP	09/11/2007
2007082071	<p>Alviso Slough Restoration Project Santa Clara Valley Water District San Jose--Santa Clara</p> <p>The District will evaluate a range of alternatives to accomplish the following project objectives: (1) restore Alviso Slough's channel width and habitat to prior 1983</p>	NOP	09/11/2007

2007081069	Cellular Phone Tower Expansion Project--South Coast Research and Extension Center University of California, Davis Irvine--Orange The University of California South Coast Research and Extension Center (SCREC) proposes to construct two new cellular phone tower sites adjacent to an existing cell phone tower. Each tower site would include a phone tower, antennas at the top of the tower, and an equipment area to serve the proposed tower. Each new tower would be constructed to mimic the palm tree appearance of the existing cellular phone tower and would be 60 feet tall to match the existing tower and provide the desired telecommunication service capability. At the base of each tower, the proposed project would consist of fenced enclosures of approximately 800 square feet containing the towers and up to 6 equipment cabinets for the electronic components associated with the communication transmissions. The metal equipment cabinets would be mounted on a concrete slab approximately 15 feet from the antennae tower and screened from view by the use of a chainlink fence with green-colored vinyl slats. For occasional maintenance purposes at each new site, locked pedestrian gates would be installed on Modieska Road and Irvine Boulevard.	Neg	09/13/2007
2007082069	NV Marina, 03026-UP Napa County Napa--Napa This project is a Use Permit modification to approve an expansion of the existing marina operations and wastewater holding/ evaporation ponds and dredge spoils basin on the adjacent Napa Sea Ranch property (NSR). The NVM and adjoining NSR properties are separated by Cameros Creek. The current request proposes the following: expand the harbor basin from the existing 12 acre operation by 3.2 acres with the removal of an existing levee and dredging/ excavating the existing construction and sediment operations basins in two phases; construct six new docks with a total of 100 additional boat slips, ancillary boardwalks and foot docks in the expanded basin; a clubhouse (2,145 sq. ft.) for marina members with two restrooms, clubroom, and office; a new 50 seat restaurant (2,860 sq. ft.); an outdoor covered grill area (150 sq. ft.), a stand alone restroom facility (260 sq. ft.); 2.2 acres of additional dry/ overland boat storage; add up to five additional employees for a total of 15; increase the capacity of the existing wastewater ponds on the adjoining parcel from about 391,000 gallons to about 1,122,750 gallons to accommodate increased septic demand; construct an additional 132 parking spaces for a total of 267 spaces; construction of a new 470 feet long driveway to the proposed restaurant and associated walking access pathways; relocate boat	Neg	09/21/2007

2007082085	Jellys Ferry Road Bridge Replacement Project Tehama County Public Works --Tehama The bridge is 58 years old and is classified as functionally obsolete. The bridge has consequently been slated for replacement under the Highway Bridge Program (HBP) and Local Seismic Safety Retrofit Program (LSSRP). New right-of-way would be required from the Bureau of Land Management (BLM) in order to construct the proposed project. Bridge foundations would be located west (upstream) of the existing bridge and would consist of steel "H" piles or cast-in-drilled-holes (CIDH) concrete piles. These footings would support the construction of a new two-lane undivided bridge spanning approximately 1,000 to 1,200 feet. The bridge would include 24-foot lanes and 4-foot shoulders. 2007088194	CNG Fueling Station Fontana Unified School District Fontana--San Bernardino Replacement of 4 temporary fueling stations with 8 permanent CNG fueling stations to benefit air quality impact by allowing the District to replace more of its diesel buses with low-polluting CNG buses.	NOE	
2007088195	Ingalls Property, Burns Valley Creek Debris Removal and Bank Stabilization (1600-2007-0179-R2) Fish & Game #2 Clearlake--Lake Vegetation, debris and accumulated sediment removal from approximately 540 linear feet of Burns Valley Creek; infill of an eroded area in the creek bed with native gravel and cobble (when the creek dries this area serves to attract mosquitoes); placement of water bars every 100 feet in the creek bed using 8 10 10 inch diameter native cobble to slow water flow and decrease erosion, and placement of rip rap or rock gabions using 1 to 3 foot diameter rock planted with willow to stabilize the creek banks.	NOE	
2007088196	Stock Ranch Detention Pond Fish & Game #2 Citrus Heights--Sacramento The proposed project consists of a 0.4 acre area that includes a detention pond, concrete outlet structure, outfall structure and cobble outfall channel. The improvements to the outlet and outfall structure will assist in regulation and the detention pond level during the winter season. Project activities include the draining of the existing pond and removal of accumulated sediments; removal of the cobble outfall channel and replacement with a 1/4 ton rock rip rap channel; and the construction of a sluice gate to facilitate future maintenance of the pond.	NOE	
2007088197	Bear Creek Road, P.M. 2.1, Road Embankment Repair Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Lake Parramore Creek is culverted under Bear Creek Road at two locations within approximately 500 feet in the project area. During heavy storm events in December 2005 and January 2006, high flows in Parramore Creek caused debris and water to overflow these culverts, eroding the road surface and areas around the culvert inlets and outlets.	NOE	
2007088198	Agreement No. 2006-0057-3 = Borzini Sand and Gravel Fish & Game #4 --San Luis Obispo Continued operation of a sand and gravel mine that has been in operation since 1958. Currently, approximately 50,000 cubic yards of material are extracted each year from below the ordinary high water mark of the Salinas River. The amount of aggregates excavated each year is dependent on market conditions and demand, and the replenishment of sand each year by river flows.	NOE	
2007088199	BUT-162 Pavement Rehabilitation Project Caltrans #3 Oroville--Butte The purpose of the project is to rehabilitate a portion of Highway 162 (PM 24.2/31.1) along State Route 162 in Butte County. Work will include; apply chipseal to the roadway, apply a fog seal over the chip seal, and repair the digouts.	NOE

2007088200	Exploratory Borings for Phase 2 Environmental Assessment Buellton, City of Buellton--Santa Barbara Four exploratory borings along McMurray Road and State Route 246 within the City of Buellton and Caltrans rights-of-way.	NOE	
2007088201	San Anselmo Creek Retaining Wall Repair Fish & Game #3 San Anselmo--Marin The proposed project involves re-constructing an existing concrete retaining wall that has failed (approximately 31 linear feet along San Anselmo Creek). The repair will include the cutting off of the existing footing. The failed concrete wall will be removed down to the top of the existing footing and a new reinforced concrete wall will be placed and tied back with near horizontal and vertical helical anchors. After the helical anchors are in place in the footing, concrete will be pured back into every hole and once the near-horizontal helical anchors are in place, a new shotcrete wall will be constructed that will extend up to the former height of the wall before it failed.	NOE	
2007088202	Fairfax Creek Bank Repair Fish & Game #3 Fairfax--Marin The proposed project includes removal of an existing timber retaining wall and backfill from the site and stabilize the eroding/failing bank using a combination of vegetated rock rip-rap, live willow brush layering, and a new timber retaining wall. The Department of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2007-0295-3 pursuant to Fish and Game Code Section 1602.	NOE	
2007088203	2007 Five Mile Slough Levee Rehabilitation Project Fish & Game #3 Stockton--San Joaquin Work will consist of importing stone materials by truck and off-loading materials on the crown and waterside slope only. The existing slope will be regraded to the original 3:1 slope by filling in areas of slumping, erosion, and rodent activity with three-minus stone fill. A layer of geotextile fabric will be placed over the regarded slope.	NOE	
2007088204	Camp Meeker Culvert Replacement Project Fish & Game #3 --Sonoma Replacement of 3 existing culverts on an unnamed tributary to Dutch Bill Creek in Cam Meeker. One of the culverts (Mission Street) collapsed during the 2006 flood event, the other 2 (Montgomery Street & Front Street) have rusted out. Streambed sediment around the old culverts will be excavated, stockpiled, and replaced in the channels around the new 48-inch HDPE culverts. The new culverts will be positioned slightly upstream of the existing culverts to reduce the "shotgun" effect. Rock aprons will be constructed at the culvert inlets and outlets to control erosion of the streambed and bank. A headwall will be constructed at the Front Street culvert. Issuance of a Streambed Alteration Agreement Number 1600-2007-0320-3 is pursuant to Fish and Game Code Section 1602.	NOE

2007088205	<p>Adobe Creek Fish Passage Barrier Removal Fish & Game #3 Petaluma--Sonoma</p> <p>The NOAA Restoration Center, in partnership with CA State Coastal Conservancy, will remove an existing bridge on Adobe Creek, a tributary to the Petaluma River, and replace it with a new clear-span bridge. The purpose of the project is to open unimpeded access for anadromous fish to over 2 miles of spawning and rearing habitat in Adobe Creek. Removal of the in-stream bridge will also allow more natural channel bed load and debris movement through the stream system. Issuance of a Streambed Alteration Agreement Number 1600-2007-0255-3 is pursuant to Fish and Game Code Section 1602.</p>	NOE	
2007088206	<p>Columbia School District Sewer Extension Project Columbia Elementary School District Redding--Shasta</p> <p>The project consists of the construction of 3,000+/- feet of 8-inch sewer main from Columbia School, to an existing sewer manhole in Viking Way. The existing septic system at Columbia School will be abandoned.</p>	NOE	
2007088207	<p>Petition to State Water Resources Control Board to Change Place of Use of Licenses 2039, 4358, 10837 & 10838 and Permits 7350, 7352, 18199 & 21185 June Lake Public Utility District --Mono</p> <p>The project consists of June Lake Public Utility District Petitioning the State Water Resources Control Board to change its place of use named in its state granted water right Licenses and Permits. The lands to be added to the place of use are within the service area boundary of JLPUD but were inadvertently left out of the consolidated place of use of the state granted rights. All facilities have been in place for over 14 years and there are no additional diversion or conveyance facilities required to serve these lands. There will be no change in operations or expansion of use with or without the proposed project.</p>	NOE	
2007088208	<p>Dunnigan Roadside Safety Rest Area Well Development Project Caltrans #3 --Colusa</p> <p>Construct water well, replace an existing water that is failing, provides travelling public sanitary water at a roadside safety rest area.</p>	NOE	
2007088210	<p>Salmon Creek School Storm Damage Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma</p> <p>The project involves two sites located approximately 400-feet apart from one another on a reach of Salmon Creek that were damaged by the January 2006 storm event. An access bridge on the north side of the property was damaged as a result of high energy flows which scoured the concrete abutments and caused a large tree to fall on the bridge deck. The failed bridge will be removed from the site as well as the concrete abutments at the top of the banks. This work will be conducted from top of banks, eliminating the need for equipment to enter the streambed. A 12-foot wide pre-manufactured bridge deck spanning 75-feet will be placed on piles placed from the top of the stream channel bank on both the west and east ends of the deck. The bottom of the bridge deck will be placed 4.95 feet above the calculated 100-year water surface elevation. Because the construction practices will occur outside of the stream during a low stream flow, a diversion of the channel flow or dewatering efforts will not be required. Clearing the project</p>	NOE	

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
------------	--	---------------	-------------

Documents Received on Tuesday, August 14, 2007

reach of native salmonids and implementing fish screens above and below the project reach will not be required.

In addition to the bridge replacement, an existing failed elliptical concrete culvert located 100-feet west of the bridge crossing will be replaced with a HPDE culvert. The culvert provides roadside drainage conveyance underneath the access road. A rock apron placed at the outlet will provide flow energy dissipation for scour prevention. Also, another culvert at the entrance of the access road and underneath Bohemian Highway will be replaced by the Sonoma County Department of Transportation and Public Works in order to prevent erosion from undermining the construction of the new bridge. The new culvert will be a 48" x 40 foot HDPE pipe and will be 1/2 foot deeper than current pipe bottom. Vegetation removal will be minimal and some trimming will be necessary to access the pipe. Rock slope protection, likely 12-inch engineer's rock, may be placed at the outlet. The area surrounding the pipe will be backfilled with cement/sand slurry.

The second project site is located 400-feet downstream from the access bridge and includes the restoration of approximately 50 feet of failed stream bank on the east side of the stream channel. The project includes re-grading the slope, installation of rip rap along the 50-foot channel toe, and bioengineering practices such as live willow wall and biodegradable, erosion control disturbed areas. Temporary sand bags may be preferable to direct continuous downstream stream flow away from bank during construction. Since construction will take place out of the stream, during a low stream flow, channel dewatering, clearing of native salmonids and fish screens will not be necessary.

2007088211

Pilot Rock Conservation Camp - Well Connection Project
Forestry and Fire Protection, Department of
--San Bernardino

NOE

The proposed project consists of running a single 4-inch water line approximately 850 feet from the two wells south of the main road into the camp property across the existing road and up a hill to an existing water tank. The water lines will then be plumbed into the existing tank and will feed from there through pre-existing water lines to the main holding tanks for the camp. Only brush and minor vegetation will be cut in order to lay water lines on the surface of the ground from the wells to the tank. Electricity to the two wells will be supplied by connecting to existing electric service in the camp and running the wire through conduit buried in the previously disturbed shoulder of the existing camp road. A generator will be used temporarily until the "hard" wiring can be installed.

2006051043	South Region High School No. 12 Los Angeles Unified School District Los Angeles, City of--Los Angeles Acquisition of 14.7 acres for a new 200,000 sf high school for 2,025 seats with 75 classrooms, multi-purpose room, performing arts rooms, library, media center, career center, food services, administration rooms, space for custodial operations, and a 450-seat adult school program. An approximate 1,500-seat stadium, sports fields and courts, and a swimming pool are also proposed to be developed onsite, and the project involves partial renovation of Green Meadows Park for joint use with the City of Los Angeles.	EIR	09/28/2007
2006061055	Villas at Vintage Park Development Project Delano, City of Delano--Kern Planned residential subdivision consisting of 1,650 +/- residences in residential "villages" with two park sites and an elementary school site.	EIR	09/28/2007
2007031138	KFI Radio Broadcast Tower Reconstruction Project La Mirada, City of La Mirada--Los Angeles The applicant, Capstar Radio Operating Company, is proposing to replace the 760-foot high radio broadcast tower destroyed in 2004 with a 684 foot-high guyed uniform cross section radio tower on the subject property. The replacement facility will be constructed with a capacity "hat," which would not exceed 50 feet in diameter. This capacity hat would increase the electrical height of the tower, which allows for a reduction in the vertical height of the structure. The tower will be lit and marked in accordance with Federal Aviation Administration (FAA) recommendations. The replacement tower is 76 feet lower than the tower that was destroyed in 2004. The Federal Aviation Administration completed an aeronautical study under the provisions of 49 United States Code (USC), Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations (CFR), Part 77. Based on that aeronautical study, the FAA issued a "Determination of No Hazard to Air Navigation" on June 28, 2006. Project implementation will necessitate the approval of a Development Agreement.	EIR	09/28/2007
2007032128	Sycamore Creek Channel Rehabilitation Project Water Resources, Department of Chico--Butte Channel excavation to remove up to 50,000 cubic yards of accumulated sediment, equipment staging, sediment disposal, haul routes, site restoration, and post project maintenance.	MND	09/14/2007

2007081082	Lampson Avenue Well Project Seal Beach, City of Seal Beach--Orange The City currently has three active wells with a total capacity of 8,000 gallons per minute. Should one of the three wells require maintenance or be out of service, the local supply capacity may be as low as 4,800 gallons per minute. This closely matches the maximum day demand of 4,773 gallons per minute. With the addition of the Lampson Avenue Well, anticipated to have a pumping capacity between 4,000 and 5,000 gallons per minute, the City will have local supplies that can meet the system's maximum daily demand in the situation when not all wells are available for use. The proposed well facility is an approx. 3,300 sq. ft. cement masonry unit (CMU) enclosed building composed of four rooms/ areas. The building is proposed to receive a stucco coating on the exterior that will cover the CMU walls. Additionally the building is proposed to have a cement/ clay tile roof. There is a generator room which houses a natural gas generator set; a pump room that houses the well pump/ electric motor assembly, discharge piping and valves, pump to waste piping and valves, motor control center, and other appurtenant facilities; a disinfection equipment room which houses an on-site disinfection unit, and an office for City maintenance and operations personnel/ staff. The overall height of the building would be approx. 18 feet in height which is compatible with nearby structures in the area.	MND	09/13/2007

2007082091	Wet Weather Flow Management Project Mid-Coastside Sewer Authority Half Moon Bay--San Mateo The Sewer Authority Mid-Coastside (SAM) is proposing implementation of the Wet Weather Flow Management Project in and near Half Moon Bay, California. The purpose of the proposed project is to prevent untreated sewage overflows from the collection system during a 10-year, 6-hour storm event. The project involves increasing the existing capacity of SAM's collection system by constructing a 600,000-gallon tank or approximately 8,850 foot underground pipeline. Both the project options would include improvements at the existing Portola Pump Station in El Granada.	NOP	09/13/2007

2007082092	City of Galt General Plan Update Galt, City of Galt, Elk Grove--Sacramento The City is preparing the City of Galt General Plan Update: 2030 (Proposed Project) as an update to the City's existing General Plan. This EIR will provide an assessment of the upgraded General Plan, which is exected to be completed in early 2008. The Proposed Project will include an updated Goals and Policies Report, an updated land use diagram, and updated circulation plan, and a proposed expansion of the City's exising Sphere of Influence. The City is located on State Route 99 in southern Sacramento County between the cities of Elk Grove and Lodi.	NOP	09/13/2007
2007082093	Lake Luciana Golf Course Napa County --Napa The purpose of the lake Luciana Golf Course Use Permt application #P07-00398-UP is to develop an 18-hole golf course, attendant buildings, related site improvements, and and improvement of exising dirt access roads to serve the golf course and existing parcels on approximately 190 acres.	NOP	09/13/2007
2007081083	City Sports Park and Sewer Line Extension Vista, City of Vista--San Diego The project proposes to develop approx. 16.2 acres for active park uses. The balance of the 32 acre site will be passive open space and habitat area.	Neg	09/13/2007
2007081084	Vista Fire Station No. 5 Vista, City of Vista--San Diego The project consists of a 13,445 sq. ft. fire station, access, public and staff parking, landscaping, drainage, modifications to the median on South Melrose Drive and associated site improvements.	Neg	09/13/2007
2007081085	Ruether Maintenance and Operations Building Saugus Union School District Santa Clarita--Los Angeles The Saugus Union School District (District) proposes to construct an approx. 9,600 sq. ft. building to house the District's Maintenance and Operation Department (Project) on vacant property at the District's existing facility located at 26501 Ruether Avenue in Santa Clarita, California on property identified as Los Angeles County Assessor Parcel No. 2836-017-903. The project will be located on the vacant portion of the project site between the existing facilities and Ruether Avenue.	Neg	09/13/2007
2007081086	Hartnell College East Campus Center for Applied Technology Project Hartnell College Salinas--Monterey Hartnell Community College District is proposing to construct a new building at their East Campus site. The proposed project will consist of a two story, 55,000 gross sq. ft. (40,000 average sq. ft.) building. The new Center for Applied Technology (CAT) building will be located on the existing satellite campus, which Hartnell College is currently occupying. The project will be located on 4.90 acres of existing campus. The existing east campus site has existing paved driveways and 86 existing marked surface parking spaces. The new project will create 130 new parking spaces for the east campus. All areas will be upgraded to meet Americans	Neg	09/13/2007

	with Disabilities Act (ADA) requirements. The proposed project also includes a storm water retention basin. Upon buildout of the CAT building, approx. 21,231 sq. ft. of existing buildings will be demolished.		
2007081087	Laguna Sur Sanitary Sewer Line Manitenance South Coast Water District Laguna Beach--Orange South Coast Water District (SCWD) proposes to re-line two Laguna Sur Sanitary Sewer Lines in Laguna Beach, California. The sewer line easements are partially located on Orange County lands within the Aliso and Wood Canyons Wilderness Park (Park). Because SCWD intends to re-line the sewer pipe within the Park and construction activities have the potential for impacts to biological and other resources, this action would constitute a project under California Environmental Quality Act (CEQA) requiring environmental review by SCWD.	Neg	09/13/2007
2007081088	Conditional Use Permit No. 06-34 San Bernardino, City of San Bernardino--San Bernardino BLBT Enterprises is proposing the development of a six-story, 82,951 square foot garage for a total building height of eight stories or approximately 160 feet. The proposed full-service hotel would include 133 guest rooms, a dining/lounge area, a meeting room, and a 63,574 square foot garage (two stories on ground level). The site is approximately 1.62 acres and is within the Commercial General (CG-1) land use district within the Freeway Corridor Overlay District. Access to the site will be from E Street at an existing entry point, and from a new entry point on Orange Show Road. The new Orange Show Road entry will be right turn in/out and left turn in only. Left turns out will be prohibited by a raised median. The project will be constructed in one phase.	Neg	09/13/2007
1992052019	Burrtec Material Recovery Facility and Solid Waste Transfer Station Expand to 7500 Tons Daily San Bernardino County Land Use Services Department Fontana--San Bernardino Increase traffic county from 1,718 to 1,877 vehicles per day, increase maximum daily tonnage from 5,000 to 7,500 tons per day, expansion of the Material Recovery Facility building by an additional 41,032 square feet, increase the design capacity from 5,877 tons to 8,280 tons, change the hours of operation for the public from 5:00 a.m. to 6:00 p.m. to 7:00 p.m., and correctino of the acreage section of the proposed Solid Waste Facilities Permit.	NOD

2004071092	Chicago Grade Landfill Expansion Development Plan DRC 2003-00026 San Luis Obispo County Planning Atascadero--San Luis Obispo Expand the permitted facility boundary from 45.4 acres to 188 acres, expand the disposal area from 38.44 acres to 76.4 acres, increase the site capacity from 2,700,000 cubic yards to 8,900,000 cubic yards, change the landfill's estimated closure date from 2018 to 2042, reduce the final elevation from 1,400 feet above mean sea level for Modules 6-7 and incorporated the CDI facility (40-AA-0033) in the landfill's SWFP.	NOD	
2004101066	Heisler Park Renovation and Preservation Laguna Beach, City of Laguna Beach--Orange The proposed project includes Phase II renovations that will include: 1) trenching the site; 2) installing irrigation piping, controllers, heads, backflow and other valves and fittings, water meters and enclosures, and a SmartTimer irrigation control system; 3) completing mass grading, contour grading, and paving demolition; 4) constructing retaining wall infiltration Best Management Practices, storm pipelines, structural BMPs, diversion wet well and pump, curbs and paving, and drain inlets; 5) upgrading Picnic Beach and Rockpile Beach restroom facilities; and 6) implementing traffic and access controls.	NOD	
2006011040	Rodeo Grounds Berm Removal and Restoration Project Parks and Recreation, Department of --Los Angeles The Operator proposes the removal of a berm that was installed by former tenants of the Rodeo Grounds. The project's total area of direct impact encompasses an estimated 1.81 acres, which includes the 80,000 square foot of berm and 0.01 acres of delineated wetlands. The project is to benefit Topanga Creek and the restoration effort is designed to reduce the affected areas of waters and wetlands at the most minimal amount necessary to accomplish the berm proposed by the California Dept. of Parks and Recreation.	NOD	
2006051021	Nursery Products Hawes Composting Facility San Bernardino, City of --San Bernardino Operate a compostable material handling facility, handling biosolids and green material, a maximum daily tonnage of 2,000 wet tons per day, the bulking agents and amendments will not exceed 200 tons per day, a maximum traffic of 97 vehicles per day and hours of operations from 6:00 am to 8:00 pm daily.	NOD	
2006052033	Fink Road Landfill Proposed Operational Changes Project Stanislaus County --Stanislaus The proposed project site is the Fink Road Landfill, which is located approximately 20 miles southwest of the City of Modesto and 5.5 miles west of Crows Landing in Stanislaus County. Stanislaus County is proposing several operational changes at the Fink Road Landfill, which is owned and operated by the County. The operational changes would be incorporated into a revised Solid Waste Facility Permit (SWFP) that is due for renewal. The changes include modification of the acceptance tonnage for landfill disposal to 2,400 tons per day, a change in the closure date from 2011 to 2023, and incorporation of provisions to allow the acceptance of treated wood consistent with Assembly Bill (AB) 1353. 2007051119	Approval of a Minor Waste Tire Facility Permit for BJ Used Tire & Rubber Recycling Inc. California Integrated Waste Management Board Fontana--San Bernardino The project is to adopt and to issue a minor waste tire facility permit to BJ Used Tire and Rubber Recycling, Inc. for its facility located at 14212 Santa Ana Avenue, Fontana, California. The minor waste tire facility permit will authorize storage of up to 4,999 waste tires and requires the storage of those tires to meet waste tire storage and disposal standards and permit conditions set forth to minimize potential impacts to public health and safety and the environment. The approval and issuance of a waste tire facility permit is considered a discretionary decision and is therefore subject to the California Environmental Quality Act (CEQA).	NOD	
2007088212	Board of Parole Hearings Corrections and Rehabilitation, Department of Sacramento--Sacramento The California Department of Corrections and Rehabilitation, Board of Parole Hearings, propose to lease approximately 25,000 square feet of existing office space to house 132 staff for the Board of Parole Hearings Office. There are sufficient electricity, water, gas, wastewater, and refuse removal services to adequately serve this property.	NOE

2007088217	Matilija Creek, Gas Company Pipeline Repair Project Fish & Game #5 --Ventura The Operator intends to excavate a section of exposed 20 inch natural gas pipeline to inspect for damage, and install bank and pipeline protection with the use of a Submar articulated concrete revetment mat. This is a pre-cast mat, which will match the stream profile, and allows vegetation to grow through. A 4 to 5 foot deep anchor trench filled with rock will secure the mat system in place. The suspended section of the pipe on the north bank will be supported with sandbags and capped with ungrouted rock rip-rap.	NOE
