

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

August 16 – 31, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16 – 31, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov .

<u>Documents Received on Friday, August 16, 2013</u>			
2012072062	<p>The Shops at Broadway Retail Project Oakland, City of Oakland--Alameda</p> <p>The project involves the development of a new, one-story development with 36,000 sf of high volume retail space and associated parking. Specifically, the proposed development would include a 26,000 sf retail anchor tenant, Sprouts Farmers Market, and an additional 10,000 sf currently planned to accommodate three retail tenant spaces. All retail areas would be oriented along Broadway and would be primarily accessed through a public plaza connected to the sidewalk along Broadway. Public-realm amenities proposed include landscaping, a public gathering area with café style seating for customers, as well as a plaza and garden seating for customers on the rooftop level. A total of 162 parking spaces would be provided on the ground level (18 spaces behind the retail tenant spaces), and on a rooftop parking deck accessed from an internal ramp (144 spaces). All vehicular access to the project site would be from a driveway on 30th Street, and service vehicles/trucks would exit the site and internal loading dock area via a driveway and exit onto Broadway. The project site is not listed on the Cortese List of hazardous materials sites.</p>	EIR	09/30/2013
2013032070	<p>Housing Element - 2007-2014 Novato, City of Novato--Marin</p> <p>The proposed project would:</p> <ol style="list-style-type: none"> 1. Amend the City of Novato General Plan (General Plan) to update the Housing Element, and 2. Implement the Housing Element's housing programs. 	EIR	09/30/2013
2013084002	<p>South Farallon Islands Invasive House Mouse Eradication Project: Draft Environmental Impact Statement U.S. Fish and Wildlife Service --San Francisco</p> <p>The U.S. Fish and Wildlife Service is proposing to eradicate introduced, invasive house mice from the South Farallon Islands within the Farallon National Wildlife Refuge, California. Eradicating invasive house mice is expected to benefit native seabirds, plants, amphibians, and terrestrial invertebrates and will help restore natural ecosystem processes on the islands. Eradicating house mice would eliminate that last remaining invasive vertebrate species on the Refuge, enhancing the recovery of sensitive seabird populations on the islands. The South Farallon Islands National Wildlife Refuge is closed to the public. It is uninhabited with the exception of a small contingent of researchers from Point Blue Conservation Science who reside on the island to monitor wildlife, take care of the facilities, and safeguard the island. The South Farallon Islands National Wildlife Refuge is closed to the public. It is uninhabited with the exception of a small contingent of researchers from Point Blue Conservation Science who reside on the island to monitor wildlife, take care of the facilities, and safeguard the island.</p>	EIS	09/30/2013

2012091047	<p>Elysian Park - Downtown Water Recycling Project Los Angeles Department of Water and Power --Los Angeles Note: Recirculated</p> <p>For Phase I of the project, LADWP proposes the delivery of recycled water to Elysian Park starting with a new 16-inch recycled water pipeline connected to Taylor Yard, totaling 10,800 linear feet. The pipeline would connect to a new 2 million gallon recycled water storage tank located near Elysian Fields via a new recycled water pumping station. A 1,000 foot-long, 8-inch potable water pipeline and a 2,800-foot-long, 2-inch potable water service line with a booster pump is proposed with Elysian Park. Some construction would occur within the Los Angeles River Bike Path. Phase II of the project would include 10 miles of new 16-inch recycled water pipeline from the terminus at Mesnager Street near Los Angeles State Historic Park to customers located in downtown Los Angeles, Exposition Park, and Boyle Heights.</p>	MND	09/16/2013
2013081049	<p>IS Application No. 6694 (Bill Bogdanov) Fresno County Fresno--Fresno</p> <p>Allow an inorganic fertilizer manufacturing, storage, and sales facility with a caretaker residence on a 4.12-acre parcel in the M-3 (Heavy Industrial) Zone District. The project site is located on the northwest corner of S. Peach and E. North Avenues approximately 3,845 feet northwest of the nearest city limit of the City of Fresno County (2976 S. Peach Avenue, Fresno) (SUP. DIST.: 4) (APN: 316-071-37).</p>	MND	09/16/2013
2013081050	<p>Former Fallbrook 1C Burn Dump Remediation Project San Diego, City of --San Diego</p> <p>The project proposes clean closure of the former Fallbrook 1C burn dump located in the community of Fallbrook within the unincorporated portion of the County of San Diego, California. Exposed and poorly capped burn debris and be removed, transported, and disposed of to eliminate the threat to public health and safety, and to bring the site into compliance with State standard for inactive waste disposal sites. Approximately 10,500 cubic yards of burn ash and affected materials will be removed from two County-owned parcels (APNs 105-481-45 and 105-481-36) and portions of two residential parcels (APNs 103-010-52 and 105-481-52), transported, and disposed of at an approved offsite location. After removal of the burn ash, the project site will undergo site restoration to re-establish grade and vegetation.</p>	MND	09/16/2013
2013081052	<p>CV Urban Land LLC Townhome Project Claremont, City of Claremont--Los Angeles</p> <p>The project applicant (CV Urban Land, LLC) is seeking to develop the 6.07-acre project site in the City of Claremont with 95 townhomes and other site improvements, including internal private streets, onsite parking, sidewalks, open space and recreation areas, and common areas and landscaping. Development of the proposed project require approval of a general plan amendment, zone change, and tentative tract map and removal of a number of mature ornamental trees and shrubs.</p>	MND	09/16/2013

2013081059	<p>Goodrich / Tonini Farm / Development Plan / DRG2012-00018 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by John Goodrich for a Development Plan/Coastal Development Permit for: grading and construction of a 10,000 sf, two-story single-family residence with garage including domestic water system and storage, and underground rainwater cisterns, new driveway access with a new creek crossing, conversion of an existing 2,000 sf residence to farm support quarters; a 4 acre foot irrigation reservoir; several in-channel erosion and sediment control check dams; the demolition of three dilapidated agricultural buildings (and replace with three new agricultural buildings), a new one-story storage/workshop 13,150 sf and remedial grading at an existing agricultural equipment yard to eliminate existing erosion patterns. The project will result in the disturbance of approximately 8 acres including approximately 17,000 cubic yards of cut and 9,000 cubic yards of fill, on a 637 acre parcel. The extra 8,000 cubic yards of fill will be used to construct the new driveway. The proposed project is within the Agriculture land use category and is located at 3515 Turri Road, approximately 0.32 miles north of Los Osos Valley Road, and approximately 5.0 miles west of the city of San Luis Obispo. The site is in the Estero planning area.</p>	MND	09/17/2013
2013082050	<p>Alpine Road Trail Improvements Project San Mateo County Portola Valley, Menlo Park--San Mateo The proposed project includes rehabilitation of an approximately 1.84 mile segment of the Alpine Road Trail and bank stabilization at three sites along the adjacent Los Trancos Creek. Activities are proposed to occur between the limits of the Town of Portola Valley and the City of Menlo Park in unincorporated San Mateo County.</p>	MND	09/16/2013
2013082051	<p>San Jose / Santa Clara Regional Wastewater Facility Emergency Generators Project San Jose, City of San Jose--Santa Clara The Project includes the installation of up to four 3 MW diesel generators (12 MW total), along with an up to 50,000 gallon diesel fuel storage tank and supporting facilities, within an approximately 1.5 acre site located within the fenced, central operational area of the San Jose / Santa Clara Regional Wastewater Facility. The diesel generators designed to meet emissions standards consistent with EPA Interim Tier 4 or better, would provide an emergency power supply to support the existing facility in the event of a catastrophic failure of existing on site power generation capacity, a total power loss from PG&E, or during any other disastrous situation resulting in power loss. Installation of the Project would also require the demolition and removal of an existing, abandoned 210,000 gallon diesel fuel storage tank located on site.</p>	MND	09/16/2013
2013081051	<p>125 East Baker Street Apartment Project Costa Mesa, City of Costa Mesa--Orange The proposed project site is 4.17 acres and is currently occupied by a 66,000 sf two story office building. The proposed project would replace the office building and surface parking areas with an apartment building and parking structure. Specifically, the project consists of a five-story 240 unit residential apartment building (63 feet overall height) that wraps around a six-story parking structure (57 feet overall height) with 465 parking spaces in the structure and 4 outdoor</p>	NOP	09/16/2013

	on-grade parking spaces.		
2013081047	Public Works - Branch Mill Road Bridge Replacement Project San Luis Obispo County Arroyo Grande--San Luis Obispo A proposal by the County of San Luis Obispo Department of Public Works (County) to replace the existing bridge on Branch Mill Road over Tar Spring Creek, in the southern area of San Luis Obispo County. The purpose of the Project is to replace the structurally deficient bridge, provide standard roadway widths, and adjust the roadway alignment. Branch Mill Road will be closed to the public for up to 5 months in order to construct the Project. A temporary bridge will be placed downstream of the current bridge to allow farm equipment and contractor access across the creek. The Project will result in the temporary disturbance of 2.19 acres and the permanent disturbance of approximately 1.4 acres. The project is located on Branch Mill Road, approximately 1,200 feet southwest of Huasna Road, east of the City of Arroyo Grande, in the South County Inland Planning Area Supervisorial District 4.	Neg	09/16/2013
2013081048	Business Site Development Preliminary Engineering Analysis Farmersville, City of Farmersville--Tulare The project is the acceptance of the City of Farmersville Business Site Development PEA. The PEA is a planning document that outlines a plan for services for water, wastewater, storm drainage and streets within an existing industrial and commercially zoned area. Because the PEA is a planning level document, only general recommendations for various infrastructure improvements are included that are based on anticipated needs, current land use patterns, availability of resources, and other factors.	Neg	09/16/2013
2013081053	Santa Clarita Housing Element Update (Master Case No. 13-085) Santa Clarita, City of Santa Clarita--Los Angeles The City of Santa Clarita is preparing an update to the General Plan Housing Element. State law requires the Housing Element be updated every eight years. The current Housing Element was adopted as part of the new Santa Clarita General Plan in June of 2011. The proposed update would serve as the City's Housing Element until October of 2021, at which time State law requires it to be updated again.	Neg	09/16/2013
2013082049	Edwards Annexation Project The Westside Irrigation District Tracy--San Joaquin The project will consist of the annexation of approximately 234.60 contiguous acres of property into the District.	Neg	09/16/2013
2003042170	San Mateo Land Use/Transportation Corridor Plan and the Bay Meadows Specific Plan Amendment San Mateo, City of San Mateo--San Mateo The construction activities described here is part of a larger project already constructed that included redevelopment of an 83-acre site into a new transit-oriented development. This Project is limited to the installation of a sewer force main which will transfer effluent from the earlier, completed project to the city of San Mateo's Norfolk Street sewer. The sewer alignment will begin approximately	NOD

	80 feet south of the Borel Creek Overhead Crossing and transverse north by northeast to the Fiesta Meadow Park where it will cross underneath Borel Creek. A 12.75-inch diameter high density polyethylene pipe sewer force main will be installed approximately 34 feet underneath Borel Creek by horizontal directional drilling. The entry pit and receiving hole will both be located on public land on Bermada Drive and within the Fiesta Meadows Park. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0115-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, City of San Mateo Department of Public Works as represented by Susanna Chan.		
2013022015	State Route 49 and Main Street/Shenandoah Road Intersection Improvement Project Caltrans #10 Plymouth--Amador Caltrans proposes to improve the SR 49 and Main Street/Shenandoah Road Intersection in the City of Plymouth, CA. The proposed project would improve traffic operations, improve local traffic circulation, and enhance traffic and pedestrian safety. The project includes three alternatives: No-Build, Roundabout Intersection, and Signalized Intersection. The project would also improve pedestrian and bicycle facilities, as well as drainage and City utilities throughout the project area.	NOD	
2013041082	Canyon Lake Hybrid Treatment Process - Phase 1 Canyon Lake, City of Canyon Lake--Riverside Canyon Lake was formed in 1928 when the Canyon Lake / Railroad Canyon Dam was constructed. Canyon Lake is located in Riverside County, and is within the City of Canyon Lake. It is owned and operated by the Elsinore Valley Municipal Water District (EVMWD). EVMWD has used the reservoir as a potable water source since 1957 when the Canyon Lake Water Treatment Plant began operation. The reservoir is supplied by stormwater runoff from both the upper San Jacinto River Watershed and Salt Creek watershed. The reservoir, covers approximately 525 acres (212 ha), has 14.9 miles (24.0 km) of shoreline, and has a storage capacity of 11,586 acre-feet (14,291,000 m ³). The lake has three main sections - the relatively shallow East Bay (depths generally less than 10 ft), the deeper Main Lake portion of the lake (depths in excess of 40 ft), and the area north of the causeway that connects with the San Jacinto River. The proposed Project consists of application of alum to Canyon Lake to remove nutrients that contribute to algal blooms. A wide-range of management options, ranging from oxygenation, aeration, mixing, and dredging to application of alum, Phoslock, and other nutrient binders have been considered.	NOD	
2013052069	Freeman Rock - Environmental Review of a Use Permit for Concrete Plant and Stockpiles - UP1309 Del Norte County Crescent City--Del Norte The proposed plant and stockpiles would be located behind the trucking operation. The area in which the plant and stockpiles would be located is a graded and graveled area approximately 200-feet by 200-feet (0.92-acres). A biological assessment has been prepared that shows the proposed plant and stockpiles would be located over 100-feet away from potential wetlands that potentially exist to the south of the parcel. Noise generated by the plant may not exceed the noise standards established in the County General Plan.	NOD

2013082028	ED 13-07 for UP 13-06 Anderson, City of Anderson--Shasta The proposed project is a conditional use permit to construct two drive-through restaurants, one 3,000 Square feet and one 1,800 square feet on a 2.5 acre commercial zoned parcel.	NOD	
2013088156	Thermalito Water and Sewer District, 2013 Short-Term Water Transfer Project State Water Resources Control Board --Butte, Contra Costa, San Joaquin, Stanislaus, Merced, ... Thermalito Water and Sewer District (TWSD) proposes to temporarily transfer to Westlands Water District (WWD) up to 2,299 acre-feet of water made available through releases of water from Concow Reservoir, located on Concow Creek upstream of Lake Oroville. TWSD has petitioned for, and the State Water Resources Control Board (SWRCB) has approved, a change in the place of use of the transfer water. TWSD's Point of Transfer will be the fish flow weir at the outlet of Concow Dam. The transfer water will flow to the Sacramento-San Joaquin Delta, where it will be pumped by DWR at SWP Banks Pumping Plant and conveyed to WWD's service areas. The temporary transfer is intended to alleviate water shortages within WWD's service areas due to ongoing dry conditions and would not support new development.	NOE	
2013088157	Mono Way Sight Distance Project - 0X570 Caltrans #10 --Tuolumne The California Department of Transportation (Caltrans) proposes a traffic safety project to excavate an existing embankment at the northwest corner of SR 108 East Bound (EB) off ramp and Mono Way intersection to improve corner sight distance. The embankment will be excavated and the ground will be graded to match.	NOE	
2013088158	Power Division Multi Site Fencing Project Placer County Water Agency --Placer As part of the Agency's program to upgrade security, the French Meadow, Middle Fork and Ralston Powerhouses have been identified as sites in need of replacement and/or additional fencing in order to protect against vandalism, trespassing, and encroachment. The security work would consist of fencing and gates to surround Agency property with 8-foot high chain link fence with victory arms and 3-strands of barbed wire on perimeter and gated access. Metal handrails will be replaced with non-conductive handrails. There will be minimal soil disturbance involved with fence replacement and post installation.	NOE	
2013088159	San Luis Wasteway Bridge Work Caltrans #10 --Merced Caltrans proposes to remove the existing overlay and conduct bridge work on Interstate 5 (I-5) in Merced County at the San Luis Wasteway Bridge (Bridge Number 39-0167). The bridge work will include replacement of existing barrier rails, joint seals and approach slabs. All work will be done within Caltrans right-of-way.	NOE

2013088160	Route 1 Pavement Rehabilitation Caltrans #7 Oxnard--Ventura The project would include Rubberized Hot Mix Asphalt type G (RHMA-G) overlay, slurry seal ramps and shoulders, and pavement delineation. (EA 4Y660)	NOE	
2013088161	Marketplace 99 Uniform Sign Rogram Amendment - EG-12-027 Elk Grove, City of Elk Grove--Sacramento The project consists of a Uniform Sign Program Amendment for the Marketplace 99 subdivision, located at the northwest corner of Bond Road and East Stockton Blvd. The project would be considered an amendment to a Minor Uniform Sign Program, as it does not allow for deviations from the signage standards specified in the Zoning Code.	NOE	
2013088162	Seismic Retrofit Widening Bridge Project - Archaeological Surveys Caltrans #3 Elk Grove--Sacramento The California Department of Transportation (Caltrans) is proposing Extended Phase I archaeological investigations associated with the future SAC 99 Seismic Retrofit and Bridge Widening Project.	NOE	
2013088163	Hamel Family Wines Bridge Crossing Fish & Wildlife #3 Sonoma--Sonoma The project is limited to the installation of a new span bridge over Whitman Creek. The bridge will approximately 17-foot wide, 40-foot long and be fabricated from laminated Douglas fir to be assembled on site. The bridge will sit on cast-in-place cement abutment located outside the top of bank. No equipment will enter the stream channel during construction, and vegetation removal will be limited to one oak tree and small shrubs and forbs. Approximately 40 trees shall be planted on-site. SAA #1600-2013-0197-3.	NOE	
2013088164	Power Division Multi Site Fencing Project Placer County Water Agency --Placer As part of the Agency's program to upgrade security, the French Meadows, Middle Fork and Ralston Powerhouses have been identified as sites in need of replacement and/or additional fencing in order to protect against vandalism, trespassing, and encroachment. The security work would consist of fencing and gates to surround Agency property with 8-foot high chain link fence with victory arms and 3-strands of barbed wire on perimeter and gated access. Metal handrails will be replaced with non-conductive handrails. There will be minimal soil disturbance involved with fence replacement and post installation.	NOE	
2013088165	Rattlesnake Bar Parking Lot Pavement Overlay Project Parks and Recreation, Department of --Placer Re-pave the Rattlesnake Bar Parking Lot in Folsom Lake State Recreation Area to enhance the visitor experience. Work will clean the existing asphalt surface of weeds and dirt, place geosynthetic pavement reinforcing fabric and re-pave with asphalt the two parking lots at the Rattlesnake Bar boat ramp within Folsom Lake State Recreation Area. No paving or work is to be done to the concrete ramp proper. Additional work will make minor minor repair to the parking lot consisting of: adding a concrete box extension to the new box, grate and discharge piping;	NOE

	and removing a portion of an existing landscape island within the footprint of the south lot and paving it in order to better accommodate traffic circulation.		
2013088166	Westside Blvd. Curve Correction Project Caltrans #10 --Merced The area consists of two existing curves where the radii of curvature and superelevation are non-standard. This project is needed to reduce the rate of run-off-road collisions. The proposed project would include realignment of two curves to provide appropriate superelevation and curve radii for highway design speeds.	NOE	
2013088167	Five School Marquee Signs Project San Diego Unified School District San Diego--San Diego The San Diego Unified School District (District) proposes to install five marquee signs at five different schools within the school district. The Marquee signs would either be 5x9ft (foot) or 6x10ft, covered with lexon, internally luminated with electronic red color text, and either mounted on two poles in landscaping or against existing concrete masonry walls. The marquee signs would range approximately 40' to 143' in distance from edge-of-sidewalk to edge-of-sidewalk. The freestanding marquee signs will be double sided and the wall mounted marquee signs will be single sided. Two of the five schools will have freestanding marquee signs, these signs would require minimal trenching work for the lighted signs.	NOE	
2013088168	SPC/AR 2012-106 Walnut, City of Walnut--Los Angeles Site Plan Architectural Review 2012-106 is a proposal to construct a 495 square foot single-story addition to an existing residence located at 600 Gartel Drive, Walnut, CA. The project was approved on November 27, 2012 under Site Plan and Architectural Review by the Community Development Director.	NOE	
2013088169	SPC/AR 2012-115 Walnut, City of Walnut--Los Angeles Site Plan and Architectural Review SPC/AR 2012-115 is a request to construct a 547 square foot single-story addition to the existing residence located at 960 Estate Court, Walnut, CA. SPC/AR 2012-115 was approved by Walnut's Community Development Director on November 28, 2012.	NOE	
2013088170	The Second Extension of Time for Location and Development Plan 07-03 and Conditional Use Permit 09-04 Adelanto, City of --San Bernardino Time extension for the construction of a 16,000 square foot metal building for a pallet re-manufacture business and proposed outdoor storage of pallets and trucks on a 10 acre property within the Manufacturing/Industrial zoning district.	NOE	
2013088171	Marina Jetty Reconstruction Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Tuolumne The Marina Jetty Reconstruction Project consists of replacing rock-filled steel gabions on the Marina Breakwater Jetty with pre-cast concrete blocks.	NOE

2013012078	<p>Northeast Antioch Area Reorganization Antioch, City of Antioch--Contra Costa</p> <p>The project under CEQA review involves a number of City actions that would lead to the reorganization of the three subareas into both the City and the DDS. The City is considering the reorganization of Area 1 along with Areas 2a and 2b in an effort to improve public services and utilities in all three areas. The project involves the reorganization of all three areas and evaluates the connection and provision of municipal services and utilities such as potable water, storm drain, emergency services, sewer service, police, and fire protection. The project also involves several City actions which include a General Plan text amendment and pre-zoning the land to be reorganized. The project also includes two agreements between the City of Antioch and Contra Costa County: 1) a tax allocation agreement, which establishes how tax revenue will be shared between the City and the County and 2) an infrastructure funding agreement, which address how the City and County will jointly fund the infrastructures to serve Area 2b.</p>	NOD	
2013021009	<p>Klau Mine Road Slip-Out Repair Project; ED12-100 (245R12B611) San Luis Obispo County Paso Robles--San Luis Obispo</p> <p>The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement pursuant to Section 16002 of the Fish and Game Code to the Project applicant, the County of San Luis Obispo. The Project consists of stabilizing an eroded slope below Klau Mine Road adjacent to Las Tablas Creek. The Project will install an interlocking steel sheet piling retaining wall along approximately 48 feet of the road and creek. The piles will be driven into pre-excavated, hand-dug holes using a vibratory hammer suspended from a crane positioned on the roadway. Approximately 41 cubic yards of backfill will be installed behind the piles after they are set. Water might be present in the channel, but no work will occur in the wetted portion of the channel. No trees will be removed as part of this Project, but minimal trimming of trees may be necessary to facilitate access for the crane during sheet-pile installation.</p>	NOD

	of the existing Bob Jones bike path at Ontario Road within the Avila Valley area. The project includes improvements to a staging area at the Octagon Bark parking lot, construction of four bridges and crossings along South Higuera Road. The proposed project is within the Agriculture and Rural Lands land use categories and is located in between the south-western edge of the City of San Luis Obispo, approximately 2,000 feet south of the intersection of South Higuera and Los Osos Valley Road down South Higuera, along San Luis Obispo Creek, Monte Road and Ontario Road.		
2012081016	Hesperia Commerce Center; CUP 11-10229 and TPM 11-10230 (PM 19339) Hesperia, City of Hesperia--San Bernardino The project consists of the development of up to 34 industrial warehouse and office buildings with a total building area of up to 3.5 million sf, on a 232-acre site. Site access will be provided by private streets and driveways off Caliente Road.	EIR	10/03/2013
2012121052	EIR PFS 04-12; Lehigh Alternative Fuels Project by Lehigh Southwest Cement Company Kern County Tehachapi--Kern The project proponent is requesting a Conditional Use Permit that would authorize the burning of alternative fuels, including: tire derived fuels, refuse derived fuels and biomass as part of the existing cement operations. Implementation of the project would require minor additions to existing operational equipment currently utilized as part of the existing operations. Less than one acre of new ground disturbance activity is proposed for use exclusively as a result of implementation of the project. The project involves the installation and operation of new equipment at the Lehigh Cement Plant to allow for use of alternative fuels in the heating process necessary to produce cement. The Lehigh Cement Plant has historically used coal and petroleum coke with a small amount of natural gas as its main fuel sources. The use of such alternative fuels is proposed in order to reduce air pollutant and greenhouse gas emissions from the Lehigh Cement Plant, and to allow the facility operator more flexibility in the sourcing of fuels to make cement. The project also includes repurposing of a portion of the existing plant site to allow for parking of tractor-trailers that would serve as fuel storage units. All improvements and operations associated with the proposed project would occur on areas that were previously graded, improved, and/or paved.	EIR	10/03/2013
2006032033	Leland Fly Fishing Outfitters Sonoma County --Sonoma Request for Design Review for a fly fishing retail shop and associated structures and a Use Permit for a caretaker's unit. The project does not include outdoor fly fishing instruction, the use of the existing ponds on the property for fly fishing purposes, or any special events. The project does not require a General Plan amendment or a Zone Change, or even a use permit beyond the use permit for the caretaker unit.	MND	09/18/2013
2013081062	Conditional Use Permit 2012-007 - Creekbridge GHK Apartments Salinas, City of Salinas--Monterey The proposal is to construct a new 36-unit multi-family residential development in three (3) separate building with 80 off-street parking spaces on a 2.46-acre parcel with mitigation measures for encroachment into Gabilan Creek.	MND	09/18/2013

2013081063	Seneca Western Minerals DEC-12 Well Project Fish & Wildlife #4 Maricopa--Kern Expansion of oil and gas activities by installing 9 extraction and 3 steam injection wells within an existing oilfield. The approximately 17 acre project site is located along the southwestern edge of the San Joaquin Valley entirely within the unincorporated portion of western Kern County and within portions of Sections 19 and 20, T11N, R23W (SBB&M). The incorporated city of Maricopa is approximately 2.5 miles north-northwest of the project area. Within the 17 acre project area, 10.65 acres comprises the grading plan boundary where well pads will be developed; product transmission lines, pipelines, and water lines will be installed; equipment and vehicles staged; and access roads will be constructed.	MND	10/03/2013
2013081061	Mooney Boulevard Six-Lane Land Relinquishment Caltrans #6 Visalia--Tulare Caltrans proposes to relinquish seven segments from the Mooney Boulevard Six-Lane project along SR 63 located in the City of Visalia. The post miles are 6.51 (segment 1), 7.01 (segments 2, 3, 4, and 5), and 7.51 (segments 6 and 7). All seven segments are curb, gutter, and sidewalks.	Neg	09/18/2013
2013082057	2013-2021 Housing Element Update Woodland, City of Woodland--Yolo The City of Woodland has made technical updates to its Housing Element, including extending the horizon year out eight years to 2021, updating the demographic data and land inventory, and updating the housing programs to reflect the loss of redevelopment funding and changes in the City priorities since the previous Housing Element update.	Neg	09/18/2013
2013082058	Tuolumne River Parkway Project Waterford, City of Waterford--Stanislaus Phased development of recreational access, trail improvements and recreational facilities along approximately 1.25 miles of the north bank of the Tuolumne River in the City of Waterford. The Tuolumne River Parkway Project will include expansion of existing River Park facilities, new trailhead parking, restrooms, picnic tables, access stairways and ramps, interpretive signage, an approximately 1.25-mile recreational trail, a non-motorized boat launch ramp and a fishing/observation dock improving recreational access to the Tuolumne River.	Neg	09/18/2013
1996121013	Sale Of Naval Petroleum Reserve No. 1 (Elk Hills) Kern County Bakersfield--Kern The proposed Project involves the issuance of ITP for the remediation of 131 Areas of Concern (AOCs) identified in the Corrective Action Consent Agreement Docket, between the United States Department of Energy (DOE) and the California Department of Toxic Substances Control (DTSC). The goal of the Project is to achieve a No Further Action status on each AOC, meaning DTSC has agreed that there is no further risk to human health at each site due to historical DOE activities. 	modification of the approaches on Keddle Resort Road to match the alignment and grade of the new bridge.		
2013082061	13-009 (Dennis Clover) Sutter County Yuba City--Sutter A use permit application for the addition of a 13,505 sf worship building to an existing religious facility. The existing facility consists of a 20,000 sf worship building; a 2,349 sf residence occupied by priests; and associated parking areas and a soccer field. The entire property is utilized by buildings, parking areas, or a grass area used as a soccer field. The applicant indicates the building will be utilized by the senior members of the existing congregation on Saturdays and Sundays for worship and will not increase the size of the congregation. The existing building will be used for youth worship, funerals, weddings, and special services.	MND	09/19/2013
2013082062	Castro Valley Shared Parking Lot & Daughtrey Building Re-Use Project Alameda County --Alameda Pursuant to an agreement binding all affected property owners and the County, Alameda County Community Development Agency proposes to reconstruct the individual rear parking lots behind commercial stores located on the south side of Castro Valley Blvd at the corner of Wilbeam Avenue so as to create a shared parking lot with 164 spaces that would better serve the commercial businesses. Access would be from Castro Valley Boulevard and from Wilbeam Avenue. Drainage would be improved so as to comply with current County standards. Construction of the Project would take approximately 3 1/2 months to complete. In addition, the Project involves the rehabilitation and re-use of the Daughtrey Building, one of the properties to be served by the Shared Parking Lot.	MND	09/19/2013
2013082064	Center and El Dorado Streets Bridges Project Stockton, City of Stockton--San Joaquin The proposed project would remove the unsound concrete deck surface on both bridges, clean the decks, treat the decks with lithium and methacrylate, apply a concrete polyester overlay to the decks, and stripe lane lines to match existing striped lanes. In addition, the project would replace failed joint seals and patch the abutments of the bridges.	MND	09/20/2013
2006042051	La Bahia Hotel Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of demolition of the existing 44-unit La Bahia apartment complex and construction of a 165-room hotel. The southeastern portion of the existing building that has the ball tower will be retained and restored or rehabilitated. Hotel amenities include approximately 4,350 sf of meeting and banquet space, a 2,500 sf restaurant, 2,500 sf of retail space, a day spa, and a swimming pool. The facility also space for business administration and support space. A number of local permits will be required including coastal permit, historic demolition and alteration permits, and administrates use and planned development permits.	NOP	09/19/2013

2013084006	Morongo Outdoor Entertainment Bureau of Indian Affairs Banning--Riverside Garson Entertainment Group proposes a music and events venue located on the reservation of the Morongo Band of Mission Indians, west of Cabazon, CA. The project proposes a main, open amphitheater with seating for a 15,000-18,000 persons, a tent of 80,000 sf with a capacity of 10,000 persons, a Beach Club with a capacity of 2,500 persons and a Forest venue which would feature a heavily landscaped area with small performance areas for approximately 500 persons. All of the venues can operate simultaneously in a festival setting, however, it is anticipated that the Main Amphitheater, Beach Club of Tent venue would primarily be used. The Beach Club venue may be operated on a daily basis.	JD	09/20/2013
2013081066	Change of Zone No. PZ 10-002 (Kennedy Meadows Restoration, LLC) Tulare County Visalia--Tulare The proposed project (PZ 10-002) consist of a Change of Zone on 68 acres from MR-217 (Mountain Residential 217,000 sf minimum) to CO (Commercial Recreation) and a Change of Zone on 329 acres from MR 1742 (Mountain Residential-1,742,000 sf minimum) to MR-435 (Mountain Residential - 435,000 sf minimum).	MND	09/20/2013
2013081067	30 Artists' Work/Live Units, Laguna Canyon Laguna Beach, City of Laguna Beach--Orange The project site is located along Laguna Canyon Road/SR 133, approximately 2,300 feet from the El Toro Road intersection. Development within the project vicinity includes light industrial, commercial and residential uses. The site is abutted by an animal hospital to the north, Laguna Koi Ponds to the south and a dog day/overnight care facility and residential use to the east. The applicant proposes to remove a residence, a detached garage and a temporary storage container, and to construct a two-story, 16,192 sf structure above at-grade parking to contain 30 artists' work/live units. Eight of the units will be restricted to occupancy by low-income artists. The proposed project site is traversed by the Laguna Canyon Creek (a blue-line stream) and located in the floodway/100-year floodplain.	MND	09/20/2013
2013081068	Riverbend Jurupa Valley, City of Jurupa Valley--Riverside The project comprises General Plan Amendment (GPA 1202), Change of Zone (CZ1201), Tentative Tract Map (TTM 36391) & Development Agreement. GPA 1202 & CZ1201 seek to modify underlying land use regulations for subject property to allow medium density residential, park & open space uses. TTM 36391 proposes to subdivide property as a master planned residential community with 466 single-family residences, a park, open space, and supporting roadways & infrastructure. As part of proposed Development Agreement, Project Applicant would convey 3.89 acre portion of Project site to City of Jurupa Valley for use at the City's discretion as a community facility site. Project also includes a request to the City Council to allow temporary non-agricultural uses to occur on subject property prior to Jan. 1, 2015 expiration of site's Williamson Act Contract. 2013081069	San Juan Creek Road Recycled Water Pipeline San Juan Capistrano, City of San Juan Capistrano--Orange The project is construction of a 12-inch diameter PVC pipeline to connect the existing water line at the southwest corner of the Ortega Highway and Antonio Parkway intersection to the existing water line in the San Juan Creek Road extension alignment, 50 feet west of the Rancho Mission Viejo Riding Park's southwestern property boundary. The existing pipeline at the north end is owned by the Santa Margarita Water District (SMWD). The existing pipeline at the northeast end of San Juan Creek Road is owned by the City of San Juan Capistrano. The proposed pipeline will be 3,300 lineal feet and consist of C-900 DR25 PVC pipe. It will provide a metered interconnection between the SMWD & CSJC systems. It will include a pressure reducing station and a metering station. There will be no service connections to the proposed pipe.	MND	09/23/2013
2013082065	Patz and Hall Winery Tasting Room; UPE13-0018 Sonoma County Santa Rosa--Sonoma Conversion of an existing-family residence to a 5,102 sf winery tasting room, 24 agricultural promotional events, 8 industry-wide events, storage of wine to be sold through the tasting room, and office space.	MND	09/20/2013
2013082067	Rock Creek Road Improvement Project Mono County Mammoth Lakes--Mono, Inyo The Federal Highway Administration (FHWA), in cooperation with the Inyo National Forest, Inyo County and Mono County, is proposing to rehabilitate CA Forest Highway 89 (FH 89), also known as Rock Creek Road, which runs through a portion of the Inyo National Forest in Inyo and Mono counties. The project consists of the rehabilitation, restoration and resurfacing of approximately 9.1 miles of FH 89/Rock Creek Road w/ a bicycle climbing lane, from its junction with Highway 395 south to the end of the road near Rock Creek Pack Station. The project will be funded through the Federal Lands Access Program with a local matching grant. Construction will occur over two construction seasons and is scheduled for 2015/2016.	MND	09/20/2013
2013082068	Jesus Crist Fellowship, Major Use Permit, UP 10-06 Lake County --Lake The Jesus Crist Fellowship is requesting approval of a major use permit to allow construction and operation of a multi-phase church, retreat center and to allow up to twelve (12) outdoor special events with a max of six amplified outdoor special events per calendar year. The proposed phased construction includes Phase I: 4,505 sf Sanctuary, kitchen, classroom and office space. Phase II: 1,915 sf recording studio and associated spaces. Phase III: Three 1,250 sf retreat cabins (6 bedrooms each cabin). Phases I - III received site evaluation approval for an onsite septic system from Lake County Environmental Health. Phase IV: 2,400 sf sanctuary, 1,950 sf classroom, pool and conversion of Phase I sanctuary into a mess hall. Phase V: 1,200-1,500 sf caretaker's cottage. Phase VI: Open air chapel pavilion/gazebo. Construction of a walking bridge is being proposed over an ephemeral drainage. The project is being designed to retain the current natural setting as much as possible. The total project will cumulatively impact more than two acres, including the construction of the buildings, parking and access ways. The parcel is currently vacant and will be served by an offsite driveway as the	MND	09/20/2013

	main access and an offsite well. Additionally an onsite emergency access is proposed. The applicants are requesting a reduction in the required parking spaces. Proposed amplified outdoor events include but are not limited to weddings, concerts and plays. Attendance at events is not proposed to exceed 200 people at any one given time.		
2013082066	Central Middle School/Bridge School at Arroyo Project San Carlos School District San Carlos--San Mateo The proposed project includes modernization and expansion of the 8.96-acre Central Middle School campus in the City of San Carlos to accommodate a growing projected student population at the Central Middle School and new construction of the Bridge School at Arroyo on the site. The existing Central Middle School serves Grades 5 through 8; with the project, the expanded Central Middle School would serve Grades 6 through 8 and the new Bridge School at Arroyo would serve Grades 4 and 5. The modernization Central Middle School would allow a student enrollment of 600 students and the Bridge School at Arroyo would have a capacity for 400 students. Thus, the project site would have a total student population of 1,000 students at completion, an increase of approximately 350 students over existing enrollment at the Central Middle School.	NOP	09/20/2013
2013082069	Truckee R. Br and Donner Lake UC Bridge Scour Treatment Caltrans #3 Marysville--Yuba This project is located in Nevada County on I-80 at post mile 9.13 and 28.0-28.1. The purpose of the project is to rehabilitate the supporting structures of the bridge by repairing bent caps, replacing seismic shear blocks, and replacing seismic restrainer cables on both the Truckee River Bridge (#17-0063 R/L) and the Donner Lake UC (#17-0076). This project is needed because the spalled and fractured areas of the bridge bents require ongoing maintenance and repairs in order to maintain the structural integrity of the bridge.	Neg	09/20/2013
2002021132	Montecito Ranch Major Subdivision (417 Lots), Historic Park Site, Local Park, and Charter High School Site; SP01-001/GPA04-013/R04-022/TM 5250/P04-045/STP08-019 San Diego County --San Diego The applicant is requesting a reduction to road and pathway improvements and grading amounts that were previously approved as part of the Montecito Ranch Vesting Tentative Map, VTM 5250. Modifications are proposed to the segments along Ash Street, Montecito Ranch Rd., Montecito Way, and Montecito Rd. and to the intersections located on Montecito Rd./SR-67, Ash Street/SR-78 and Highland Valley Rd./SR-67. The project would also reduce private roads from an improved width of 36'nd 40' to 24'. There are no changes proposed to the number of lots, amount of biological open space or amenities including the parks and trail network.	NOD	
2011012037	Conditional Use Permit 92-12, Amendment, Thunderhill Raceway Park Glenn County Willows--Glenn San Francisco Region Properties, Inc., which operates Thunderhill Raceway Park, is proposing to amend the existing Conditional Use Permit 92-12 in order to construct and operate an extension of the existing racetrack. The project includes a new paddock area, track extension, track connectors, and service entrance.	NOD

2013051017	North Recharge Pipelines at 294th Street West Turnout Antelope Valley-East Kern Water Agency --Los Angeles The Antelope Valley-East Kern Water Agency Proposes to construct a new 24-inch diameter, 1,900-foot Cement Mortar Lined and Coated (CML&C) steel pipeline for the purpose of groundwater recharge. The pipeline will connect to an existing pump station and turnout structure of the CA Aqueduct. Water conveyed through the pipeline will come from the Agency's State Water Project Table A allocations. The pipeline will be constructed within the State's previously disturbed Right of Way for the CA Aqueduct and a utility easement.	NOD	
2013052067	River Ranch Parcel Map Fortuna, City of Fortuna--Humboldt Ten lot subdivision of approximately 17.5 acres of vacant, relatively flat land on Riverwalk Drive east of the Eel River. Zoning is Freeway Commercial. The project will be completed in two phases; Phase 1 consists of 1-3, 6-7, and 9-10; Phase two consists of 4-5, and 8. Public improvements include city road, water and sewer mains and utilities.	NOD	
2013061057	Manders McCauley Minor Use Permit DRC2011-00036 San Luis Obispo County --San Luis Obispo Request by Dana Manders and Mike McCauley for a Minor Use Permit to allow for a 3,423 sf single-story residence, 1,545 sf detached garage, a 600 sf guesthouse. The project includes expansion of an existing driveway, extension of utilities and installation of a new private water well, storage tanks and a septic system. The project will result in the disturbance of approximately 0.96 acre of the 4.24-acre parcel.	NOD	
2013062032	Marsh Creek Road Safety Improvements 2.0 to 2.25 Miles West of Deer Valley Road Project Contra Costa County Brentwood--Contra Costa Marsh Creek Road is a narrow, two-lane rural collector road that is widely used by commuters as an alternate to the heavily congested SR 4. The road serves as a vital transportation link between Central and East Contra Costa County for passenger vehicles and vehicles with trailers. The purpose of the proposed project is to widen the road by providing 12-foot-wide travel lanes, 8-foot-wide paved shoulders, and 2-foot-wide dirt chokers.	NOD	
2013072031	PG&E's Hunters Point Site Tunnel Closures and Shoreline Maintenance Project San Francisco Bay Regional Water Quality Control Board San Francisco--San Francisco The project seeks to complete the closure of the Hunter's Power Point Plant by sealing off intake and outtake structures and removing miscellaneous materials and structures along the shoreline. 	roof penthouse will be replaced. The interior lighting and ceiling will be replaced with current energy efficient standard lighting. Interior ADA compliance upgrades and modifications will be made to meet current Title 24 requirements. The building interior and exterior will be repainted to match existing. The existing concrete block fencing surrounding the parking lot will be replaced with wrought iron fencing and an electric security gate.		
2013088288	Department of Motor Vehicle (DMV) HVAC Replacement Motor Vehicles, Department of Hemet--Riverside The proposed project consists of the removal and replacement of the existing roof-mounted HVAC system and the associated electrical work. The building was built in 1989. Four outdated units and ductwork will be replaced in kind. Minor patching of the roof due to the work will be completed as needed. The work will improve the work environment for DMV's staff and clients and provide a more energy efficient HVAC system.	NOE	
2013088289	Department of Motor Vehicles (DMV) Roof and HVAC Replacement Motor Vehicles, Department of Santa Monica--Los Angeles The proposed project consists of the replacement of an outdated and inefficient multi-zone HVAC system and re-roofing of the building. The project building was built in 1971. The work includes replacing rooftop HVAC units, redesign of rooftop ductwork, installation of parapet louvered screening around HVAC units and replacing the roof in kind. The HVAC system has experienced frequent repair calls. The roof has passed its engineered life. The project will improve the work environment for DMV's staff and clients and provide a more energy efficient HVAC system.	NOE	
2013088290	Repair of Existing AT&T Telecommunication Facility on Shelter Island Drive San Diego Unified Port District San Diego--San Diego The proposed project involves the repair of an existing AT&T subsurface telecommunication facility on Shelter Island Drive. In order to expose the existing conduit, two 4-foot-long by 4-foot-wide assist pits will be excavated to a depth of approximately three feet. Next, the two damaged areas of the cable line will be removed and replaced. All surfaces will be restored to preconstruction conditions once construction is complete. In addition, a City of San Diego-approved traffic control plan will be implemented throughout the duration of project construction.	NOE	
2013088291	San Elijo GEotechnical Investigations for the I-5 North Coast Corridor Project Fish & Wildlife #5 Encinitas--San Diego SAA #1600-2013-0148-R5. The Applicant proposes to drill three 4.25 inch diameter mud-rotary (MR) borings through the bridge deck, one on the west side of the existing southbound bridge, one through the east side of the existing southbound bridge, and one through the east side of the existing northbound bridge, and into the San Elijo Lagoon sediments. Cutting muds will be collected in 55 gallon drums and transported off site.	NOE

2013082092	Use Permit Application No. PLN2013-0062 - Alpine Pacific Nut Co. Stanislaus County Hughson--Stanislaus Request to expand an existing walnut huller/sheller by constructing seven new warehouse/storage buildings totaling 138,582 sf, 13,996 sf of canopy (to comply with new USDA requirements for the handling and shipping of nuts), a 7,000 sf office, and a truck dock on a 19.55 acre parcel.	CON	09/10/2013
2013011003	Kearny High School Athletic Facilities Upgrades Proejct San Diego Unified School District --San Diego The proposed project is the construction of upgraded athletic facilities in a new configuration on the Kearny High School campus. The purpose for the new configuration of the facility is to allow for the construction of an athletic facility that meets all California Interscholastic Federation (CIF)/District standards and additional amenities which cannot currently be accommodated within the existing configuration. The physical layout of the upgraded athletic facilities would be realigned and would include new synthetic turf, ADA upgrades, new athletic and visitor amenities, stadium lighting, a public announcement (PA) system, and additional bleacher seating.	EIR	10/07/2013
2013081008	Site Plan Review 13-003 Palmdale, City of Palmdale--Los Angeles An application to construct a 20-megawatt ground solar photovoltaic (PV) facility on a 160-acre site.	MND	09/23/2013
2013081070	Mockingbird Canyon Reservoir Mechanical Excavation Project Riverside, City of Riverside--Riverside Note: Shorten Review The City proposes to mechanically excavate accumulated sediment from the Mockingbird Canyon Reservoir ("Reservoir") and Dam in order to improve operational Integrity and to alleviate sediment blockage at the outlet structure. This work will be performed after the Reservoir is drained. The excavated material will be deposited on a nearby City-owned property (APN 238-190-003) adjacent to Van Buren Boulevard. Additionally, a cable-stayed silt barrier will be installed to retard sediment migrating to the outlet structure.	MND	09/12/2013
2013082071	River Garden Farms Application 31919 to Appropriate Water from the Sacramento River and RD108 Lateral 14A Reclamation District 787 --Yolo The Proposed Project is a Water Right Application to the SWRCB to divert up to 7,000 acre-feet of surface water per year for rice straw decomposition and wildlife enhancement. The place of use is located within the Pacific Flyway. RGF is proposing to divert water at existing facilities, primarily at its TPP on the Sacramento River and at Jacob's Point on RD 108's Lateral 14A. The TPP is currently being equipped with a positive barrier fish screen facility, and will be fully operational before the diversion of any water from the Sacramento River under the Proposed Project. In order to provide the maximum flexibility, the maximum combined rate of diversion is assumed to be 123 cfs, is based on the combined	MND	09/23/2013

	capacity of the two facilities, 62 cfs at the TPP and 61 cfs at the Jacob's Point diversion. It is anticipated that the actual rate of diversion at any time will be significantly less than 123 cfs, as it is unlikely water will be diverted at the capacity of the two facilities concurrently. No construction would be required to implement the Proposed Project. The water right permit issued by the SWRCB to RGF will include Term 91, which will limit the ability to divert and use water at times. Under Term 91 RGF diversions would be curtailed in accordance with the provisions of the SWRCB permit when unappropriated water is not available in the Sacramento River. The Proposed Project includes continued incidental non-commercial use of the flooded area for waterfowl hunting, will contribute to incidental benefits of increased winter habitat for waterfowl and other wildlife and includes continued incidental non-commercial use of the flooded area for waterfowl hunting.		
2013082072	Snake Lake Road Bridge Replacement Project (No. 9C-0148) at Spanish Creek Plumas County --Plumas Plumas County is proposing to replace Snake Lake Road Bridge over Spanish Creek (Bridge No. 9C-0148). Snake Lake Road Bridge is located in an unincorporated mountainous area of Plumas County, in the Plumas National Forest, approximately 5 miles west of the town of Quincy, California. The project site is located at the intersection of Bucks Lake Road and Snake Lake Road and encompasses approximately 2.16 acres.	MND	09/23/2013
2013082074	U.S. Highway 101 Pedestrian Undercrossing and Bair Island Road Storm Drain Pump Station Project Redwood City Redwood City--San Mateo The City of Redwood City proposes to construct a joint-use path under the US 101 freeway bridge at Redwood Creek. The proposed 700-foot path would connect a recently completed bicycle path on Bair Island Road to the existing bicycle path on Convention Way. The proposed project also includes an extension of the pedestrian path to the City-owned parcel south of Convention Way with a scenic overlook. The City proposes to construct the Bair Island Storm Drain Pump Station adjacent to the proposed path. The new facilities would replace the existing pump station, which would be demolished. The new pumps would be capable of discharging the 32.4 cfs flow from the 22-acre drainage area during a 100-year storm event, in compliance with the City design criteria. The new pump station would discharge through the existing 24-inch pipeline into Redwood Creek.	MND	09/23/2013
2013082075	Health Care Facility Improvement Projects for the Folsom State Prison and California State Prison, Sacramento Corrections and Rehabilitation, Department of Folsom--Sacramento The proposed projects include renovations and additions to existing health care facilities, the construction of small new facilities, and associated infrastructure improvements all within the existing Folsom State Prison (FSP) and California State Prison, Sacramento (SAC) correctional facilities. The project at FSP includes construction of two new primary care clinics, a central health services building, medication distribution rooms, and interior renovations. The project at SAC includes construction of a new primary care clinic and central health services building and interior renovations. The projects do not include any new beds. One additional employee would be hired at FSP and nine additional employees would be hired at SAC. Overall, 12,430 sf of renovation, 62,755 sf of new building space and 28,910 sf of new impervious surface would occur.	MND	09/23/2013

2012071086	EIR MH 1-12; Kingbird Solar Photovoltaic Project by Kingbird Solar, LLC. Kern County Mojave--Kern The proposed project would construct and operate a photovoltaic power-generating facility which would produce a total of 40 MW of electricity from approximately 700,000 solar PV panels on 324 acres of land in unincorporated Kern County. The project would require approval of a CUP as well as a zone change to A (Exclusive Agriculture) in order to construct and operate the solar facility within areas currently zoned as E (2 1/2) RS (Estate 2.5 acres, Residential Suburban Combining) zone districts. The project would also require an amendment to the Willow Springs Specific Plan to change the site land use from 5.6 (Residential/ Min. 2.5 Gross Acres per unit); 2.8 (Military Flight Operations) to 8.5 (Resource Management).	EIR	10/09/2013
2013022013	The Marketplace Shopping Center Modesto, City of Modesto--Stanislaus The proposed project is a shopping center at the southwest corner of Oakdale Road and Sylvan Avenue. The center would have a total of 170,000 sf of floor-area on an 18-acre site. The proposed project includes an anchor store (approximately 52,000 sf) and a major tenant on the south side, additional major tenants and inline stores on the west side, and four pad buildings on the east side. Access to the shopping center will be provided from three driveways on Oakdale Road (the southernmost driveway is for service access only), one driveway on Sylvan Avenue, and two driveways on Hashem Drive (the northern driveway is service egress only). The applicant is proposing a new traffic signal at the intersection of Oakdale Road and the main project driveway/Post Office Drive. The project provides approximately 800 parking spaces to meet City parking standards. Required discretionary approvals by the City include a General Plan Amendment to redesignate the 18-acre site from Mixed-use (MU) and Residential (R) to Commercial (C), and a zoning amendment to change the site from Planned Development Zone, P-D(211) to a new Planned Development Zone.	EIR	10/09/2013
2013042013	Eden Housing San Pablo Mixed Use Senior Apartments Project El Cerrito, City of Richmond--Contra Costa The project includes a 63-unit mixed-use senior affordable housing community on a 40,000 foot site within El Cerrito's mid-town area. The project includes a 1,906 sf clinic and 1,156 sf of retail space fronting San Pablo Avenue on the ground floor and a 2,710 sf plaza and 9,423 sf of private open space. The existing single-story Contra Costa Florist structure at 10848 San Pablo Avenue will be renovated in keeping with its original design to match original conditions as closely as possible.	EIR	10/09/2013
2013081073	California State Polytechnic University, Pomona, Administration Replacement Project California State Polytechnic University, San Luis Obispo Pomona, Walnut--Los Angeles The proposed project is located on the existing Cal Poly campus on the portion of the campus located within the unincorporated County of Los Angeles, within the eastern portion of Los Angeles County. The project involves a master plan amendment to construct the proposed Administration Building. The master plan amendment is necessary due to the planned change in master plan location for the proposed facility. The project would include a 5 to 7-story, 138,000 sf Administration Building on the western portion of Parking Lot C and construction of	MND	09/24/2013

	<p>associated infrastructure and service system improvements. The Administration Replacement Project would be approximately 90,000 assignable sf (138,000 gsf), resulting in a net increase of 32,000 assignable sf (51,000 gsf). The project site would necessitate an approximate 3.5-acre site that currently supports 366 parking spaces associated with Parking Lot C. Approximately 50 parking spaces would be created adjacent to the new building to serve staff and visitors. The areas surrounding the new Administration Building would be landscaped. Several administrative departments and services would be removed from the existing Classroom/Laboratory/Administration Building (CLA Building) and be relocated into the new building. Several other administrative service functions located throughout campus would also be relocated into this new building. The existing portions of the CLA Building that would be vacated would be closed. The project does not involve demolition of any structures or facilities.</p>		
2013082078	<p>Mesa Outdoor Electronic Billboard Pittsburg, City of Pittsburg--Contra Costa</p> <p>The project proponent requests approval from the city of Pittsburg to construct a two-sided, LED, changeable copy billboard on a developed commercial parcel adjacent to SR 4, west of Century Blvd. Each face of the billboard would measure 19 feet tall by 34 feet long and would be situated atop a 32-foot tall steel column. The resulting sign and its support structure would have an overall height of 53 feet above grade and would be visible to both eastbound and westbound traffic on SR 4. The project would be developed in two phases, with the first phase including a static western sign face and LED eastern sign face, and the second phase incorporating two LED sign faces. Display on the sign would change every four seconds, and the sign would be used for general commercial advertising purposes.</p>	MND	09/24/2013
2013081071	<p>SR-94 Improvement Project Caltrans #11 --San Diego</p> <p>Caltrans is proposing five build alternatives and one no-build alternative to be studied in the EIR. Each build alternative includes an access road improvement to the Jamul Reservation (which includes improvements to the SR 94, SR 94/Melody Road intersection and the Reservation access intersection), as well as improvements to the following off site intersections: (1) SR-94/Jamacha Boulevard, (2) SR-94 Jamacha Road, (3) SR-94/Steele Canyon Road, (4) SR-94/Lyons Valley Road and (5) SR-94/Maxfield Road.</p>	NOP	09/24/2013
2013081072	<p>General Plan Amendments Azusa, City of Azusa--Los Angeles</p> <p>The project is the adoption and implementation of the Azusa 2014-2021 Housing Element, which represents an update of the City's certified Housing Element. The proposed Housing Element addresses future residential development to meet SCAG's RHNA allocation for the 2014-2021 planning period. The Housing Element is a policy document and does not authorize any particular design, plan, or project proposing construction of new or redevelopment residential units. The project also includes the adoption and implementation of amendments to the City Design, Geology Hazards, and Open Space/Biological Resources Elements to comply with AB 162 to provide additional information on flood hazards, as well as amendments to the Infrastructure Element to comply with SB 244 to provide information on disadvantaged unincorporated communities.</p>	Neg	09/24/2013

2013082076	PA-1300116 (MS) San Joaquin County Lodi--San Joaquin A Minor Subdivision application to subdivide an existing 40-acre parcel into one parcel and a designated remainder parcel. Parcel 1 to contain 10 acres. The Designated Remainder parcel to contain 30 acres. The parcels are being created under Development Title Section 9-610.3 (e) - Parcels for Dwellings on Same Lot.	Neg	09/24/2013
2013082077	AT&T Cellular/Wireless Monopole, 3014 J Street Eureka, City of Eureka--Humboldt The project proposes the construction and operation of a fifty foot total height, twenty-four inch diameter painted steel cellular monopole for cellular and wireless communications for increased capacity and additional cellular coverage. The wireless/cellular pole would be a monopole design with three concealed antennas for an additional carrier. The cellular equipment which includes batteries for back-up power generation would be located within the existing AT&T equipment room in the existing Church building.	Neg	09/24/2013
2008122064	Amendment to Gilead Sciences Corporate Campus Master Plan Foster City Foster City--San Mateo The Proposed Project, NB355/NB355-A, is the second phase of buildings to be constructed pursuant to the Gilead Sciences Corporate Campus Master Plan approved on March 1, 2010. by Ordinance 554. The Master Plan authorizes the total square footage of the 40-acre Campus to increase from 629,154 square feet to 1,200,480 square feet of laboratory and office and related uses of biopharmaceutical campus. The 40-acre campus includes the buildings between 320 and 328 Lakeside Drive. the 54,828 square feet office building at 355 Lakeside Drive is proposed to be demolished and a new 6 story, 124' tall, 191,235 square feet laboratory building and a new 3 story, 72' tall, 23,914 square feet pilot laboratory are proposed to be constructed.	NOD	
2012102052	DuPont Oakley Site Plume 3 Groundwater Corrective Measures Project; U.S. EPA ID. No. CAD009151671 Toxic Substances Control, Department of Oakley--Contra Costa Approval by the Department of Toxic Substances of an interim measure that would amend certain activities contained in a Plume 3 Corrective Measure Study report that was approved on December 17, 2012. The CMS would implement corrective measures that would remediate contaminants in groundwater associated with historical chemical releases at the DuPont Oakley site. The proposed corrective measures include institutional controls; monitored natural attenuation, source area control, and phytoremediation.	NOD	
2013062058	AT&T Foundation Repair / Hillside Support and Pathway Project Calistoga, City of Calistoga--Napa AT&T submitted a CUP (U 2009-03) application on April 10, 2009 to allow the stabilization of the building by installing helical anchors and constructing a grade/beam retaining wall along the south side of the building. Lionakis, the owner's architectural firm, has prepared a design that indicates the stabilization components and a pathway.	NOD

2013071027	<p>Riverside County Recycling Market Development Zone (RMDZ) Riverside County Economic Development Agency Unincorporated--Riverside</p> <p>The project is the renewal and expansion of the existing zone boundaries, with the re-approval of the zone for another 10 years for the Riverside County Recycling Market Development Zone (RMDZ). The Riverside County RMDZ includes designating and expanding all the remaining areas of unincorporated Riverside County, and the cities of Banning, Beaumont, Calimesa, Canyon Lake, Corona, Desert Hot Springs, Eastvale, Indian Wells, Jurupa Valley, Lake Elsinore, La Quinta, Menifee, Murrieta, Norco, Palm Desert, Palm Springs, Rancho Mirage, Riverside, Temecula and Wildomar. Each city that so desires to participate in the RMDZ expansion process will adopt a formal resolution of support from their City Council, as required to verify the City's intentions of joining and supporting the RMDZ program. The already existing participating cities of the RMDZ are Blythe, Cathedral City, Coachella, Hemet, Indio, Moreno Valley, Perris and San Jacinto. The RMDZ Loan Program provides low-interest solid waste from California landfills and to promote market demand for secondary and postconsumer materials. The goal of this process is to continue to offer technical and financial and financial assistance to recycling based businesses that use secondary material from the waste stream as feedstock for their manufacturing processes. Also, to assist cities and unincorporated areas of the county to meet the state mandated 50% reduction in solid waste streams to local and regional landfills. All responsible businesses applying within their designated city for permit issuance will need to comply and provide a full CEQA review once the actual business parameters are established and will submit the necessary CEQA documentation to the lead agency overseeing the approval process.</p>	NOD	
2013072012	<p>Castlewood Country Club Golf Practice Range Project Alameda County Pleasanton--Alameda</p> <p>Project seeks approval of a CUP to convert an area on the grounds of the Castlewood Country Club from a golf course maintenance facility and materials storage area into a golf practice range for use by Club members and their guests. The practice range would have space to accommodate 14-16 golfers using tee boxes, fairways, sand bunkers and greens. The project involves relocating existing maintenance and materials storage functions to other locations on the Country Club property, clearing the site of existing non-native vegetation, keeping clear of and not disturbing the adjacent Arroyo de la Laguna, conducting a modest grading operation on the nearly level site to create realistic fairway conditions, sand bunkers and greens, installing an irrigation system and drainage infrastructure, creating two bio-retention basins for storm water control, seeding and sodding the practice fairway and greens, etc. The facility would be available for use only during daylight hours. Access would be by golf carts only; cars would be parked 400 yards away at Valley Course clubhouse parking lot. No buildings or structures of any kind would be erected. Water rights and assurance of adequate supply for irrigation needs would be provided by the County Club's existing water supply system and water rights from local groundwater sources. The only potentially significant impacts would occur during a 2.5-month construction period and are identified in the IS as including construction dust/exhaust, potential impacts to special status plant and animal species and potential disturbance of cultural resources and/or human remains. All impacts would be reduced to less than significant levels with implementation of mitigation measures.</p>	NOD

2009062048	Middle Green Valley Specific Plan Solano County Fairfield--Solano Note: Recirculated The Middle Green Valley Specific Plan Project is a proposed mixed-use development that includes up to 400 new residences, agricultural tourism, local neighborhood retail and community facility uses, and over 1,400 acres of protected agriculture and open space. An EIR was prepared for the project and certified by Solano County in July 2010. A lawsuit challenging the adequacy of the EIR, specifically the water supply analysis, was subsequently filed by the Upper Green Valley Homeowners. In March 2012, the Court ruled in favor of the petitioner. In response to the ruling, the County has prepared a revised water supply analysis and Recirculated EIR. Consistent with CEQA (Section 15088.5[c]), the Recirculated DEIR contains only that technical section of the EIR required to be recirculated, Public Services and Utilities - Water.	EIR	10/10/2013				
2012072063	Lucia Abreu Vineyard Howell Mountain Conversion Project Forestry and Fire Protection, Department of --Napa Approximately 12.8 acres of timberland would be harvested and 4.2 acres of other land (grassland/ruderal/developed) would be cleared on the property under a Timber Harvest Plan (THP). Approximately 15.3 acres of vineyard would be planted within the 17-acre THP area under a Timber Conversion Plan (TCP). CAL FIRE is the Lead Agency for these two portions of the project. Napa County would be responsible for approving an Erosion Control Plan (ECP), that would minimize onsite erosion and decrease the amount of sediment that is transferred to downstream waters. Project components include: harvest 12.8 acres of timber; clear 3.7 acres of grassland and 0.5 acres of disturbed land; install erosion control features (detention basins, fiber rolls, concrete weirs, rock stabilization) over the 17-acre cleared area; plant 15.3 net acres of vineyard within the 17-acre clear area.	EIR	10/10/2013

NOP	09/26/2013
2004031110	Castaic High School William S. Hart Union High School District --Los Angeles CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2013-0090-R5) to the project applicant, William S. Hart Union High School District. The Project proposes to permanently impact 1.20 acres of streambed, and mitigate with 2.48 acres of restoration of similar habitat to that which was impacted. The California department of Fish and Wildlife is issuing an Agreement regarding the Stream or Lake Alteration to the project applicant, William S. Hart Union High School District, Ssnata Clarita, Los Angelos County. The Project is limited to te construction of the Castaic High School and associated access roads. The high school will consist of a new 250,000-squae-foot facility that would be constructedwithin a 198-acre, four-parcel-site, and would also entail the construction or enhancement of access to the site. The high school is being proposed on a project site (Tract 47807) that is an approved residential tract that obtained a Streambed Alteration Agreement, Number 1600-2010-0204-R5. Under that agreement, associated jurisdictional inmpacts and mitigation has already been satisfied.	NOD

2008051009	Blackie Road Safety Improvements Monterey County --Monterey The proposed Project involves the construction of safety improvements to an approximately 1.39-mile segment of Blackie Road that are intended to reduce the number and severity of accidents on the roadway. Road improvements include the removal of 15 non-native eucalyptus and 52 native coast live oak trees to accommodate the shoulder improvements; rehabilitation of the existing roadway; pavement of four-foot roadway shoulders; pavement of side road segments to provide transitional approaches from the improved roadway surface to existing driveways; replacement of existing unlined drainages with storm drain pipes under the shoulder, replacement of existing utility poles; installation of thermoplastic markings and vibrational treatment along the road shoulders, incorporation of a centerline rumble strip; and installation of reflectorized signage in advance of curves.	NOD	
2010081057	Water Conservation Plant Upgrades Project Visalia, City of Visalia--Tulare The City of Visalia filed Wastewater Change Petition WW0063 with the State Water Resources Control Board to change the point of discharge and place of use of 18.5 cubic feet per second (cfs) of treated wastewater.	NOD	
2011051027	2008-2014 General Plan Housing Element Update Malibu, City of Malibu--Los Angeles The proposed project is for the 2008-2014 update of the City of Malibu General Plan Housing Element which establishes specific goals, policies, and objectives relative to the provision of housing for all income levels consistent with all applicable state housing element laws and adopts an implementation program.	NOD	
2012071075	California State Prison Corcoran Solar Project General Services, Department of Corcoran--Kings The Proposed Project is a solar photovoltaic power (PV) generation system for CSPC. The Proposed Project would be located on approximately 43 acres encompassing two distinct parcels. The sites correspond to a portion of S36, T21S, R22E (MDB&M) of the Corcoran, CA 7.5-minute quadrangle. The solar array would convert incident sunlight to direct current (DC) electrical power, which would then be converted to alternating current by centrally-located inverters (seven for System 1 and three for System 2) before being delivered to the CSPC owned distribution system.	NOD	
2012122045	BCAG Property Acquisition, Maintenance Yard, Transit and Administrator Facility Butte County Association of Governments Chico--Butte The project is limited to the installation of a new regional storm drainage infrastructure and outfall into Comanche Creek. The storm drain will terminate in an outfall on the south bank of Comanche Creek. The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0167-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Butte County Associations of Governments.	NOD

The applicant is the Jay Paul Company. The proposed development will consist of six 8-story office buildings, one 2-story amenities building, surface parking and one three level parking structure for a total of 1.7 million sf of total building area. The project's buildings will also surround two large green common spaces to accommodate active and passive recreation on-site.	EIR	10/14/2013
2013071010	1602 Maintenance Agreement for Caltrans District 9 In Inyo, Mono, N. San Bernardino Caltrans #9 --Inyo, Mono, San Bernardino Establishment of a long term maintenance 1602 agreement with the CDFW and Caltrans for maintenance of culverts, bridges, and other water conveyance systems along the State Highway system. The work authorized by this 1602 Agreement will occur in Inyo, Mono, and the northern section of San Bernardino Counties-the area defined as "District 9" of Caltrans; excluding the eastern portion of Kern County. The project will occur in jurisdictional waterways that could be either ephemeral or perennial streams.	FIN	
2012091063	Held Harbor Center Conditional Use Permit UPO-342 Morro Bay, City of Morro Bay--San Luis Obispo Note: Amended Applicant has proposed various amendments to previously issued CUP #UPO-342 regarding waterside and landside improvements. The existing structure includes retail stores, seating area and walkway. As proposed, the modifications and additional construction would result in a total floor area of 6,852 sf (6,623 sf main floor, 229-sf upper floor) and total walkway area of 1,279 sf. The modifications include actions of constructing a new retail unit, remodel and enlarge two existing restrooms, convert glass court outdoor dining to general public seating, enlarge existing harbor walkway, install floating docks with slips and gangway, restripe existing parking spaces and minor building facade improvements. The proposed marine related improvements include the construction of a head float with four finger style docks, 13 new piles, and a gangway with landing and security gate. The project will result in the disturbance of approximately 7,357 sf	MND	09/27/2013

	(0.17 acre) including approximately 434 sf (building), 723 sf (walkway), and up to 6,200 sf for sidewalk removal and replacement. No cut or fill is proposed.		
2013081080	ENV-2013-2592-MND / 259 S. Hampton Drive Los Angeles, City of --Los Angeles The project is the expansion of an existing one-story, approximately 616 sf take-out restaurant, and an unpermitted 1,042 sf retail/restaurant space (total of 1,658 sf) to an approximately 2,831 sf, two-story, sit-down restaurant with hours of operation from 9:00 am to 11:00 pm, Sunday through Thursday, and 9:00 am to 1:00 am, Friday and Saturday. Pursuant to Section 12.20.2 of the Los Angeles Municipal Code, a Coastal Development Permit authorizing the conversion, construction, use, and maintenance of an 1,658 sf take-out restaurant and retail establishment into a 2,831 sf sit-down restaurant, on a site in the M1-1 Zone. Pursuant to Section 12.24-W, 1 of the Los Angeles Municipal Code, a Conditional Use to permit the sale and dispensing of a full line of alcoholic beverages for on-site consumption only, in conjunction with a 2,831 sf restaurant with an approximately 1,173 sf outdoor patio located on the second floor.	MND	09/27/2013
2013082082	McKinley Avenue Bridge Project Stockton, City of Stockton--San Joaquin The proposed project would mitigate erosion at the bridge foundations by excavating materials near the foundation and replacing them with stabilizing fabric and rock slope protection (RSP, or "riprap"). The scour countermeasures would extend 15 feet upstream and 15 feet downstream of the bridge limits. The existing bridge structure would remain unchanged. In addition, repair work would be done on the bridge deck and on the wing walls of bridge abutments, to correct identified deficiencies.	MND	09/30/2013
2013081087	General Plan Update Solana Beach, City of Solana Beach--San Diego The proposed project for purposes of this draft PEIR consists of portions of Phase I of the City's comprehensive General Plan update, including updates to the Land Use and Circulation Elements, along with the CAP and minor updates to the City's Zoning Ordinance.	NOP	09/30/2013
2013082081	Ball Estate Subdivision Contra Costa County Alamo--Contra Costa The proposed project includes the subdivision of a 60-acre site resulting in 35 residential lots and two parcels designated for open space within a gated community. The existing office, barn, and auxiliary structures will be removed, while the existing residence will remain. The proposed residential lots will be located on the lower 21 acres of the 60-acre site, outside of the areas designated for open space. The open space area will be used for the creation of a wetland, habitat enhancement, and flood control. Slopes within the project area near the estate and east of the office building were not constructed with engineered fill and therefore, these slopes will be repaired. Approximately 229 trees will be removed as a result of the project and as recommended by the Arborist.	NOP	09/27/2013

2013088388	Dos Rios Ranch Habitat Restoration 2 Reclamation District 2092 Modesto--Stanislaus The project will plant native trees, shrubs and herbs to benefit wildlife and environmental quality through water and soil conservation.	NOE	
2013088389	Friends of Jawbone - Restoration - Restoring Land Damaged by Illegal Riding Parks and Recreation, Department of --Kern The project would restore unauthorized OHV trails along the initial line-of-sight of the closed trail and discourage future incursions into the restoration area. These areas include approximately 141 different sites needing restoration, equaling approximately 282,000 square feet (approximately 6.5 acres). Restoration would consist of a variety of techniques designed to accelerate natural revegetation and improve viable habitat. In areas where trespass has been an ongoing problem, fencing would be incorporated.	NOE

2013088408	Hull Creek OHV Area Overflow Area Restoration, Stanislaus National Forest Parks and Recreation, Department of --Tuolumne The Stanislaus National Forest will install rock or fence barriers and closure signs at 17 specific loactions on the Mi-Wok Ranger District to protect sensitive resources. All activities will take place within the existing road or trail prism subject to the following conditions: 1) no mechanized equipment wil be used on sections of routes traveling through flagged archaeological sites until a Heritage REsource Specialist is consulted; 2) standard equipment cleaning measures will be used to minimize the introduction and spread of invasive plants; 3) no removal or trimming of elderberry bushes will take place.	NOE	
2013088409	CARB Air Quality Monitoring Project Lawrence Berkeley National Laboratory Sacramento--Sacramento The University of California at Lawrence Berkeley National Laboratory (UC LBNL) proposes to lease a single-family residence in Sacramento for installation of passive, indoor monitoring equipment. The project would passively measure indoor levels of pollutants that originate both from outdoor and indoor sources. The project would install, operate, and measure effectiveness of various low-energy ventilation and filtration systems. The house would remain unoccupied during the term of the project.	NOE	
2013088410	Maintenance and Special Repair Projects - Statewide Corrections and Rehabilitation, Department of -- These projects are special repairs and on-going maintenance of existing facilities, such as boiler and emergency generator rentals. electrical and HVAC system repairs, minor water plant improvements, etc. All work is on prison grounds on disturbed and developed land. The work is necessary to improve condition of prisons' infrastructure and to ensure efficient operation of these prisons to meet CDCR's mission of public safety.	NOE	
2013088411	Yountville Veterans Home - Chilled Water System Renovation and Replacement Veterans Affairs, Department of Yountville--Napa The proposed project will replace the outdated chilled water system and involves construction of a chiller plant to replace the existing outdated chiller. The footprint of the plant will be approximately 14 feet by 38 feet. The project also includes installation of approximately 2,000 feet of piping to connect the new chiller to existng water lines. Existing damaged water lines will be replaced, as necessary. Placement of new water lines will be placed within previously disturbed areas. Out-dated equipment (pipes, valves and pumps) related to the conveyance of chilled water, will also be replaced in 18 buildings. All work in the buildings will occur in the interior spaces.	NOE	
2013088412	Cripple Creek Horizontal Directional Drill (HDD) Sacramento Municipal Utility District Citrus Heights--Sacramento SMUD is proposing to install approximately 388 feet of conduit to replace 12 kilovolt (kV) distribution lines under Cripple Creek in Citrus Heights, California. The project would employ the use of horizontal directional drilling (HDD), method that reduces environmental impacts by avoidance of sensitive aquatic resources.	NOE

2003081154	<p>Hoskings Ranch Tentative Map San Diego County San Diego--San Diego</p> <p>The Proposed Project would subdivide a 1,416.5-acre property into 24 lots, each with a minimum lot size of 40 acres. The subdivided lots would include active agriculture and a residence. In addition, the Proposed Project would dedicate a 5.0-acre lot to the Julian/Cuyamaca Fire Protection District. The Proposed Project is subject to the Williamson Act. One modification to the contract is proposed which would reduce the minimum lot sizes from 160 to 40 acres, on approximately 160 acres in the southwest portion of the project site. The Proposed Project would be served by groundwater and individual septic systems.</p>	EIR	10/14/2013
2008031101	<p>Paradiso del Mare Ocean and Inland Estates Santa Barbara County Goleta--Santa Barbara Note: Shorten Review</p> <p>The project includes two single-family residences and accessory structures on separate, adjacent parcels. One application is for a residence on a 64.80-acre parcel that adjoins the ocean, designated the Ocean Estate (APN 079-200-004). The second application includes a residence on a 77.90-acre parcel that adjoins Highway 101, designated the Inland Estate (APN 079-200-008). The proposed Ocean Estate residence would be 5,806 gsf in size, with an attached 1,421 sf garage/mechanical space, a detached 800 sf guesthouse with attached 651 sf garage, and a pool.</p>	EIR	09/30/2013
2010091094	<p>Southern Owens Valley Solar Ranch Los Angeles County --Inyo</p> <p>The Project would consist of a 200 megawatt net generating capacity solar energy facility using solar photovoltaic panel modules and associated infrastructure. The power produced by the proposed Project would be conveyed to the power grid via interconnection to LADWP's existing 230 kilovolt (kV) Inyo-Rinaldi transmission line, which is along the western perimeter of the Project site. The primary elements of the proposed Project include the solar panel arrays, supporting electrical equipment, on-site electrical collection cabling, an on-site electrical substation, a maintenance building, improvement of a portion of Manzanar Reward Road, and on-site roadways.</p>	EIR	10/14/2013
2013081085	<p>Inspiration Neighborhood Center Downey, City of Downey--Los Angeles Note: EA/FONSI</p> <p>The City of Downey is proposing to construct and operate a one-story, approximately 16,000 sf, multi-purpose community building, formally known as Inspiration Neighborhood Center (Neighborhood Center or "Project"). The Project site encompasses the south-westernmost 4.3 acres of the 154-acre Downey Landing Amended Specific Plan (Amended Specific Plan) area, at 12420</p>	JD	09/30/2013

	<p>Columbia Way. The Inspiration Neighborhood Center, together with the existing Columbia Memorial Space Center, would serve as a destination for local families, teachers, and students. The Project would serve as a neighborhood center to benefit local residents with community meeting and activity space, as well as provide a display location for a full-scale model (mock-up) of the "Inspiration Space Shuttle Orbiter" (the "Inspiration"). Additionally, the Neighborhood Center may house "lesser known" artifacts from Downey's extensive role in the Apollo and space shuttle programs. The Neighborhood Center would be constructed in an "L-shape" design, at a maximum height of 40 feet, with the shuttle mockup located in the southern portion of the building. Pedestrian access to the Neighborhood Center would be provided via Columbia Way. The Neighborhood Center would also be accessible from the north via the Space Center and from the east via the city park. Existing available parking is provided within the shared Space Center/city park surface parking lot located north of the Space Center.</p>		
2013041008	<p>Aquatics Complex Kings Canyon Unified School District Reedley--Fresno</p> <p>The Kings Canyon Unified School District is proposing the construction of an Aquatics Complex on the Reedley High School campus. The Aquatics Complex would have a main competition pool, a warm-up pool, seating with shade structures for 500 participants and spectators, and other facilities identified in the IS KCUSD prepared for the project.</p>	MND	09/30/2013
2013081083	<p>Water System Improvements for Pershing and Central West High Schools Central Unified School District Fresno--Fresno</p> <p>Construction of a water supply to connect the Central High School-West Campus water supply to the existing Pershing Continuation High School water supply. The proposed project will include installation of a 200,000 gallon water storage tank, construction of a booster station with a 5,000 gallon hydro pneumatic tank, drilling of a groundwater well, and trenching and construction of approximately 7,100 linear feet of water pipeline.</p>	MND	09/30/2013
2013081084	<p>Date Palm Drive over the Whitewater River Cathedral City Cathedral City--Riverside</p> <p>Construction activities associated with the widening and retrofit of the existing Date Palm Drive Bridge including the following: rehabilitate the existing bridge deck; widen bridge width from four to six lanes within the existing right-of-way; replace deficient portions of the existing structure; and include highway safety measures, such as adding sidewalks, matching medians, railings and approaches, which will enhance highway safety.</p>	MND	09/30/2013
2013082083	<p>Higher Learning Academy Gateway Community Charters Sacramento--Sacramento</p> <p>Gateway Community Charters (GCC) plans to construct and operate two charter school programs in the Robla community of Sacramento, north of the I-80 corridor. The proposed Higher Learning Academy would serve up to 650 students in grades K-12. Potentially in addition, students from Futures High School, currently housed at 3701 Stephen Drive in North Highlands (approximately 4 miles northeast of the Site, as the crow flies), would be relocated to the Site to serve up to 250 students in grades 9-12. At build-out, the Site would support up to 900 students in grades</p>	MND	09/30/2013

	K-12. The project is projected to employ 40 staff members at max capacity. The schools would draw students from existing and proposed residential neighborhoods. The project will be funded by state proposition 1D funding.		
2013082085	Rail Road Flat Road Bridge Replacement Project Calaveras County --Calaveras The proposed project will replace the existing bridge over Esperanza Creek with a new structure accommodating two 12-foot wide lanes with 4-foot wide shoulders. The adjacent Wharregard Road will be realigned to avoid conflict with the new structure and provide improved site distance. The alignment of Rail Road Flat Road will be shifted to the north approximately seven feet to allow for staged construction of the new bridge. The roadway modifications associated with the shift in alignment will begin approximately 510 feet to the west of the new bridge and will conform approximately 345 feet to the east. The new bridge will be a precast prestressed concrete voided slab bridge totaling 50 feet in length and 35 feet in width, and will be a clear span over the creek.	MND	09/30/2013
2013082086	Sonora Regional Medical Center, Sonora Outpatient Pavilion Sonora, City of Sonora--Tuolumne The proposed project consists of a three-story, 63,500 sf medical office building, which includes a cancer center outpatient facility and medical offices.	MND	09/30/2013
2013082087	Los Gatos Creek Bridge Replacement / South Terminal Phase III Project Peninsula Corridor Joint Powers Board San Jose--Santa Clara The proposed project replaces the structurally deficient two-track railroad bridge that crosses Los Gatos Creek and provides a tail track south of San Jose Diridon Station in order to: (1) Ensure safe rail travel for Caltrain passengers and other users of the Los Gatos Creek railroad bridge; (2) Improve operations at the San Jose Diridon Station and provide an efficient way to trains to change directions; and, (3) Minimize system-wide delays by providing a temporary, emergency layover area. Existing rail services across the bridge will be maintained during construction. The new bridge will be wider than the original with the two new main tracks located in their same alignment and a west side expansion to accommodate the tail track required to improve operations at the Diridon Station.	MND	09/30/2013
2013082089	Use Permit 12-002 and Variance 12-001 - Stott Outdoor Advertising Shasta County Anderson--Shasta The request is for approval of a Use Permit for a freestanding outdoor advertising sign adjacent to I-5. The sign would have one face, 36 feet wide by 12 feet high, directed toward the southbound lanes of I-5. The request is also for approval of a Variance from the Zoning Code restriction for freestanding outdoor advertising signs of a maximum overall height of 50 feet. The proposed sign height is 68 feet. The Variance is requested because there is an 18-foot-high berm between I-5 and the proposed sign location which would limit the visibility of a 50-foot-high sign.	MND	09/30/2013
2013082090	Flynnville Wine Company - Use Permit P12-00222 & Variance P12-00223 Napa County Calistoga--Napa A variance to the local setbacks and coverage standards and a use permit to allow construction of a 82,236 sf winery with tours and tastings by appointment, a marketing plan and production of 300,000 gallons per year on a site merging 8	MND	09/30/2013

	acres for a total of 11.84 acres.		
2003011115	Monterey County Government Center, Salinas Monterey County Salinas--Monterey For the purposes of the SEIR, the East and West Wings will be considered a single building. The East Wing is a 20,000 sf, two story structure. The West Wing is three stories and consists of 50,000 sf. The East and West Wings are a Works Progress Administration-era building that will be reused and occupied primarily by court-related county functions. These may include, but are not limited to, offices of the District Attorney, Law Library, food services, and training facilities.	NOP	09/30/2013
2012102021	N. Washington Road Warehouse Project Stanislaus County Turlock--Stanislaus This is a request to establish an agricultural warehouse for the receiving, storing, packing, and shipping of sweet potatoes and watermelons on 74+- acres. There will be no retail sales except for a proposed produce stand. Access will be taken off of N. Washington Road. The project will use a 5,500 sf pole barn, 1,200 sf office (converted from a house), and 8,424 sf barn for the operation. In the future, a 180,000 sf warehouse is proposed in three phases to be completed by 2019. The facility is planned to be operational 24 hours per day throughout the year, with 75 employees on a maximum shift and 10 - 35 employees on a minimum shift.	NOP	10/02/2013
2013082088	North Bayshore Precise Plan Mountain View, City of Mountain View--Santa Clara The project is the preparation of a City-initiated Precise Plan and Program EIR for the area identified in the Mountain View 2030 General Plan as the North Bayshore Change Area. The new Precise Plan would rezone the site, and provide a single set of goals and policies, development standards, and design guidelines for the properties in this area. The EIR will study an increase in the intensity of office and commercial uses consistent with 2030 General Plan, up to maximum of approximately 3.4 million sf. Other new uses could include enhanced parks and trail corridors, new public streets, and recreation facilities.	NOP	09/30/2013
2013081086	Cultural Heritage Permit (CUP) 13-281, Ole Hanson Beach Club Rehabilitation San Clemente, City of San Clemente--Orange The applicant, City of San Clemente, is proposing to rehabilitate a historic recreational building and pools. The Ole Hanson Beach Club will continue the historic use when the project is complete. The proposed Cultural Heritage Permit is requesting the following: 1) rehabilitate historic architectural elements that have been deteriorated or have been modified and are no longer original; 2) re-plaster and make necessary upgrades to the pools and pool deck for plumbing and drainage improvements consolidate pool equipment add	Neg	09/30/2013

	proposes to complete the following objectives in their feasibility study: test well drilling, water sample collection, completion of technical, managerial, and financial documents, completion of CEQA/NEPA documents, engineering design and survey, pilot studies if arsenic treatment is deemed the most feasible, completion of survey and engineering design, and completion of final plans and specifications.		
2013088413	Extend the Service Life of Existing Pavement Caltrans #4 --San Mateo Cold Plane AC and BondWearing Course overlay. All work will be limited to existing State Right of Way.	NOE	
2013088414	Ceremonial Roundhouse Rehabilitation Parks and Recreation, Department of --Amador Issue a right-of-entry to the Jackson Rancheria to repair and rehabilitate/reconstruct the unstable Ceremonial Roundhouse at Indian Grinding Rock State Historic Park to protect the public and to allow the reestablishment of ceremonial functions.	NOE	
2013088415	Cal Expo Community Sports Facility Exposition and State Fair, California Sacramento--Sacramento The project will provide a new sports field with temporary seating for 8,000 patrons. The seating, lighting, and other support facilities will be designed to be temporary so that they can be removed in the future. The field and drainage will be designed in a manner so that irrigation water will be captured and reused to water the field. The facility is intended to primarily be used for sporting events (e.g. soccer) and related activities and other related entertainment.	NOE	
2013088416	Water System Upgrades Public Health, Department of Santa Barbara--Santa Barbara The California Department of Public Health (Department) is the lead agency. The Department's Safe Drinking Water Proposition 50 Program is providing state funds for the project. The Rosario Park Mutual Water Company proposes to install a new well pump for the Hughes/Clark Well, 1,000 gallon storage tank adjacent to the well, booster station, chlorinator, 4-inch supply and distribution pipe, service laterals, four new wharf fire hydrants, and two 10,000 gallon storage tanks adjacent to the existing tanks.	NOE	
2013088417	Uranium Removal Feasibility Study Public Health, Department of --Madera The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Bass Lake Joint Union School District (Oak Creek Intermediate School) proposes to complete the following objectives in their feasibility study: preparation of a draft preliminary design report, consolidation and water service agreement completion, completion of required CEQA documentation, completion of final plans and specifications, cross connection survey, and review of annexation options.	NOE

2013088418	West Valley Recycling and Transfer Resources Recycling and Recovery, Department of --San Bernardino The revised permit will allow for the following operational and design changes: add a 100 ton per day food and green waste aerated static pile composting facility; increase the total permitted acreage from 31.5 to 33.1 acres and add Construction and Demolition sorting line. There will be no increase in the maximum permitted daily tonnage.	NOE	
2013088419	Sonoma County Sediment Removal Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Sebastopol--Sonoma The Project includes public safety and water quality protection improvements to the sediment filled roadside ditch that is causing flooding of the roadway, creating a driving safety hazard during rain events. The sediment filled area is approximately 950 linear feet and approximately 280 cubic yards of sediment are proposed to be removed to restore the capacity of the linear wetland and alleviate roadway flooding. The proposed project will be conducted in the late summer when surface flows are minimal or dry.	NOE	
2013088420	HJH Family Bank Stabilization Fish & Wildlife #3 --Sonoma The project is limited to the installation of rock slope protection in the form of a 70-foot long, 28-foot high, 1-foot thick Reno mattress, with a gabion basket at the toe and top of slope, and underlaid with an appropriate geotextile fabric. A comparison of stabilization techniques indicated that bioengineered stabilization methods would not be sufficient to protect the bank from further erosion and site conditions warranted the use of gabion structures. SAA #1600-2013-0196-3.	NOE	
2013088421	Driveway Bridge at 3063 Bloomfield Road Fish & Wildlife #3 Sebastopol--Sonoma The project is limited to the construction of a bridge for a driveway over Blucher Creek. The bridge will be a 30-foot long by 12-foot wide pre-fabricated steel bridge placed on cast-in-place concrete abutments supported by cast-in-drilled-hole concrete piles. A driveway will be constructed through the riparian area on either side of the bridge in order to access the property. Bridge abutments will be located outside the top of bank. SAA #1600-2013-0173-3.	NOE	
2013088422	Alcohol Sales and Deemed Approved Alcohol Sales Regulations - Zoning Code Amendment El Cajon, City of El Cajon--San Diego Regulates alcohol beverage sales activities, confers deemed approved status for all existing off-sale alcohol establishments, provides standards for the continued operation of alcohol sales establishments, set grounds for the modification, revocation and termination of permits; and includes a hearing process to review violations.	NOE

2013088423	<p>City of Rio Dell - Infiltration Gallery Grading Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Rio Dell--Humboldt</p> <p>The project area is located approximately 550 feet upstream of the Highway 101 Bridge. The project involves excavation of an approximately 2 to 3-foot deep, 6-foot wide, approximately 250-foot long, u-shaped trench near the upstream end of the infiltration gallery. The purpose of the trench is to allow more surface water to flow over the infiltration gallery piping. The middle portion of the u-shaped trench will be located over the dry portion of the infiltration gallery's original cobble/boulder top dressing. The ends of the trench will extend approximately 35 feet from the infiltration gallery across the dry gravel bar and into the edge of the wetted river channel.</p>	NOE	
2013088424	<p>Sonoma County Giovanetti Road Culvert Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma</p> <p>The Project includes public safety improvements to the failing culvert beneath the roadway. The culvert failure has caused failure of the roadway surface and temporary metal plates have been placed over the roadway on an emergency basis. Using an excavator from the roadway the proposed Project will replace two parallel 30-foot long 36-inch diameter corrugated metal pipe culverts with two plastic pipe culverts of the same size and length. Excavation will occur within the existing culvert and roadway footprint.</p>	NOE	
2013088425	<p>Relocation of Memorial Garden Barracks Building Orange County Fair and Exposition Costa Mesa--Orange</p> <p>Relocation of the Convalescent Building to another site on the Fairgrounds to be potentially used as a museum honoring the history of the Santa Ana Army Air Base and war veterans in general. Beneficiaries include residents and veterans of Orange County.</p>	NOE	
2013088426	<p>Humboldt State University Parking Lot Low Impact Development Retrofits California State University, Humboldt Arcata--Humboldt</p> <p>The University will retrofit three existing parking lots located on the campus with low impact stormwater designs to infiltrate, retain and treat stormwater runoff so as to improve water quality and stream hydrology in Jolly Giant and Campbell Creeks which receives storm water runoff.</p>	NOE	
2013088427	<p>La Jolla Shores ASBS Production Implementation Program University of California, San Diego San Diego--San Diego</p> <p>The project will implement Best Management Practices (BMPs) to control non-storm water discharges and reduce or eliminate pollutant sources that drain into the ASBS. Work includes irrigation retrofits, watershed clean-ups, and street sweeping.</p>	NOE	
2013088428	<p>Poe Dam Radial Gate Arm Strengthening & Trunnion Replacement Project Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Butte</p> <p>The Poe Dam Radial Gate Arm Replacement Project consists of modifying four existing gates and trunnions at Poe Dam. Repairs largely involve replacing various components in-kind with higher strength materials. This is a multi-step four-year process, with one gate being replaced each year during the dry season</p>	NOE

(May 15 to October 31).

2013088429	Marin Headlands-Fort Baker Transportation Improvement Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Marin The Project seeks to improve access to and within the Marin Headlands and Fort Baker for vehicular, bicycle, and pedestrian traffic, and to initiate these improvements in a way that benefits natural and cultural resources of the Marin Headlands and Fort Baker. To accomplish this, the NPS will (1) widen, realign, and close roads and trails, (2) eliminate, reconfigure, add parking areas, (3) remove informal roadside parking areas, and (4) expand existing public transit services. These infrastructure improvements and management actions will also reduce impacts on natural and cultural resources by improving public transit to and within the GGNRA thereby lowering the carbon footprint of visitors, and locating roads, trails, and parking areas away from sensitive areas whenever possible.
