STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**August 16 – 31, 2016**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16 – 31, 2016**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

<b><u>Documents Received on Tuesday, August 16, 2016</u></b>			
2014111004	Harbor-UCLA Medical Center Campus Master Plan Project Los Angeles County Torrance--Los Angeles The proposed Harbor UCLA Medical Center Campus Master Plan Project involves the multi-phased development of hospital, outpatient, research, and support facilities through the year 2030. The existing 72-acre Harbor-UCLA Campus, located at 1000 West Carson St in Torrance, CA, currently includes 1,279,284 sf of developed floor area, including a recently completed Surgery and Emergency Room replacement project. The master plan project, which will be developed into a total of approximately 2,457,355 sf of developed floor area, will include development of a new hospital tower to meet increasing state law seismic requirements for acute care facilities, renovation of the existing hospital tower to house non-acute care support uses, and replacement of aging facilities. The western side of the medical center campus is the proposed location for a new Bioscience Tech Park of up to 250,000 sf and would support open space, surface parking, and other similar ancillary short term uses.	<b>EIR</b>	09/29/2016
2016042022	South Terminal Phase II Peninsula Corridor Joint Powers Board San Jose--Santa Clara The South Terminal Phase II Project consists of the construction of a fourth track and new signal controls between the south end of Caltrain's Centralized Equipment Maintenance and Operation Facility (CEMOF) and the north end of San Jose Diridon Station, as well as construction of a small section of track to install a crossover north of CEMOF. The purpose of the proposed project is to maintain operational flexibility and minimize delays by allowing non-revenue trains (e.g. out of service trains) to move to and from CEMOF without conflicting with revenue service (e.g. trains carrying passengers).	<b>FIN</b>	
2016081048	PL16-0010 Ventura County Thousand Oaks--Ventura The applicant requests that a CUP be granted to authorize the construction of agricultural structures that exceed 20,000 sf and that a planned development permit to be granted to authorize the construction of residential accessory structures that exceed 2,000 sf.	<b>MND</b>	09/14/2016
2016082040	ECO Compliance (3180 Industrial Drive) Yuba City Yuba City--Sutter ECO Compliance is a bio-hazardous waste transporter. Their proposal is to collect bio-hazardous waste from generators (hospitals, clinics, urgent care facilities, medical and dental practices, pharmacies, veterinarian clinics mortuaries etc.) and delivers the waste to permitted treatment facilities. ECO Compliance serves as a conduit between the generators and proper processing facilities. As part of that process ECO Compliance will operate a transfer station (3180 Industrial Drive) whereby the waste collected by Eco Compliance, as well as waste received from other authorized transporters, will be gathered at the transfer station for weekly or more often transport to a permitted treatment facility.	<b>Neg</b>	09/14/2016

2016084002	Santa Barbara Harbor Six Year Federal Maintenance Dredging Program U.S. Army Corps of Engineers Santa Barbara--Santa Barbara Note: EA and FONSI; Review Per Lead	<b>Oth</b>	08/26/2016
	<p>The proposed action is a six year maintenance dredging program at the Santa Barbara Harbor, located in City of Santa Barbara, Santa Barbara County, CA. The proposed project includes an annual removal of up to 600,000 cy of littoral material, or approximately 3,600,000 cy over the six year period, from the federal entrance, navigation channels, and the sand trap within the federal channels to include approach channel, entrance channel, turning area - inside, turning area - outside, and marina channel. Dredging would occur twice a year, one dredging operation in late fall or early winter, and one dredging operation in spring, and are expected to be for an approximately 120 days annually. Dredged material placement would occur downcoast of the harbor within the East Beach placement area.</p>		
2006062154	The Clearwater Specific Plan Mammoth Lakes, City of Mammoth Lakes--Mono	<b>NOD</b>	
	<p>The Old Mammoth Place project is a six-story condo hotel with up to 488 hotel rooms, retail and restaurant space, conference and banquet space, a spa and wellness center, outdoor public spaces, and understructure parking for no fewer than 597 vehicles.</p> <p>The project includes three amendments to the Clearwater Specific Plan (CSP): (1) an increase in overall building height of 10 feet (one floor) allowing building heights to range from 35-65 feet as measured from the parking podium; (2) elimination of the on-site affordable housing requirements; and (3) non-substantive edits to the specific plan text to provide consistency with the current conditions on the site. The project will supersede the original Old Mammoth Place project (Vesting Tentative Tract Map 09-003; Use Permit 09-003; and Design Review 09-005).</p>		
2012071065	Harmony Specific Plan (SPR-011-001) Highland, City of Highland, Redlands, Yucaipa--San Bernardino	<b>NOD</b>	
	<p>The proposed Harmony Specific Plan is a master-planned residential community consisting of a maximum of 3,632 residential units reflecting a mix of residential product types. Approx. 5.7 acres of the project site is planned for development of neighborhood commercial land uses to provide retail goods and services to the community. An additional 15.9 acres of neighborhood commercial are allowed with a Neighborhood Commercial Overlay. Approx. 830 acres are planned for parks, recreation and open spaces (natural and manufactured). Other permitted uses include, without limitation, public facilities such as a school site, roads and a fire station.</p> <p>In addition to the Specific Plan, the approved project includes implementing approvals such as a General Plan Amendment Zone Change, two tentative tract maps and a statutory Development Agreement. The project also contemplates on and off-site improvements as described in the project approvals.</p>

<b><u>Documents Received on Tuesday, August 16, 2016</u></b>			
2012111083	San Joaquin River Restoration Program - SCARF and Related Management Actions Project Fish & Game #4 --Fresno CDFW certified an environmental impact report that programmatically described and analyzed actions to manage and support recreation as part of the SJRRP. Current Project activities addressed in the addendum are enhancements to Sycamore Island Trout Pond, a recreational fishing pond located in Sycamore Island Recreation Area. Enhancements will include constructing a new boat-launch ramp, an ADA accessible path and fishing pier, improved parking lot, and single-vault toilet restroom facility.	<b>NOD</b>	
2015101039	Lawndale General Plan Safety Element Update Lawndale, City of Lawndale--Los Angeles The 2015 update to the Safety Element provides a discussion of existing requirements and regulations pertaining to natural and human-made hazards. This update is intended to supersede the existing Seismic/Safety Element (adopted in 1992) of the Lawndale General Plan. The Safety Element establishes preventative and responsive policies and programs to reduce the potential impacts associated with hazards that may affect the City of Lawndale. The Safety Element addresses geologic and seismic hazards, flood hazards, fire hazards, hazardous materials, airport operations, emergency preparedness, and response planning. The 2015 update provides a comprehensive review of the existing element and relevant regulations to develop a current framework from which to establish updated goals and policies, as well as to provide updated mapping of potential hazards.	<b>NOD</b>	
2016021040	Lakeview Ranchos Mutual Water Company Water System Improvements State Water Resources Control Board --Kern SWRCB Safe Drinking Water State Revolving Fund Program is providing funds for the project. The Lakeview Ranchos Mutual Water Company (LRMWC) proposes to construct improvements to its potable water supply system to address drinking water violations received from the SWRCB. The proposed improvements will take place at the LRMWC's storage tank site, existing well sites (Well No. 1, Well No. 2, Well No.3, and Well No.4), at a proposed well site (Well No. 5), and soil excavation; off-site disposal of approx. 2,600 CY of soil for the pipeline installation along a proposed water transmission pipeline alignment. All work will occur on privately-owned property as well as existing and proposed easements.	<b>NOD</b>	
2016062070	Gateway Self-Storage and 7-Eleven Oakley, City of Oakley--Contra Costa The proposed project includes a request for approval of a General Plan Amendment, Rezone, Tentative Parcel Map, Conditional Use Permit, and Design Review to construct a self-storage facility and a convenience store with a fueling station. The applicant is proposing to subdivide the 3.63-acre vacant site into two parcels to construct a 2.86 acre self-storage facility and a 0.77 acre 7-Eleven gas station. The self-storage facility will include a six one- and two-story storage buildings totaling 99,637 sf. In addition, a two-story manager's building consisting of a residential unit and office space will be located on-site. A total of 21 parking spaces will be provided for the self-storage facility. The 7-Eleven parcel will include a 3,795 sf 7-Eleven store, six multi-product dispenser fueling stations with a canopy, and 28 parking spaces ,including 12 at the fueling stations.	<b>NOD</b>

<b><u>Documents Received on Tuesday, August 16, 2016</u></b>			
2016088242	SJ and STA State Route 99 Ramp Metering Caltrans #6 Modesto, Ripon, Manteca--San Joaquin, Stanislaus Construct improving the diverge and merge areas by lengthening the lane transition, constructing an auxiliary lane, installing Transportation System (ITS) elements, and installing Ramp Metering Systems (RMS) in addition, lowering the roadway profile at one location to increase structure vertical clearance.	<b>NOE</b>	
2016088243	Vegetation Management on District Properties to Reduce Fire Hazard and Restore Drainage Channel Capacity Sierra Lakes County Water District --Placer The District proposes to trim and/or remove excess native vegetation on District properties. Standing trees less than 6-inches in diameter will be thinned to reduce density, provide defensible space around adjacent homes and improve the vigor of the remaining trees. Standing and down trees and brush will be removed from developer constructed drainage channels to restore flow capacity and reduce potential flooding hazards to adjacent homes.	<b>NOE</b>	
2016088244	Scott Creek Vegetation Removal Water Resources, Department of Milpitas--Santa Clara DFD staff will remove vegetation using mowers and weed eaters around ten existing seismic inclinometers and two manholes located along the SBA. Access to the inclinometers will be mowed along the existing paths, starting at the entrance off Scott Creek. These access roads will be cleared to the full 10 foot width, with an additional 10 foot buffer around each inclinometer/manhole. Tree limbing may need to be done at the crossing of the road at Scott Creek. Tree limbs will only be trimmed along the entry area under the tree canopy. Material will be removed from site or chipped in place. Total area to be mowed is approximately 0.86 acres.	<b>NOE</b>	
2016088245	North Bay Aqueduct (NBA) Vault Mowing and Creston Tank Vegetation Removal Water Resources, Department of --Alameda, San Joaquin, Stanislaus DFD staff shall remove vegetation along the NBA at specific locations. All vegetation shall be removed within a 10 foot swath using hand tools. Some tree limbing may be necessary at a few sites. There are over 200 vaults along the NBA in this project footprint. Mowing will include approximately 24 acres. The project is entirely within DWR right of way.	<b>NOE</b>	
2016088246	Issuance of Right of Entry Permit to Marin County for Soil Exchange Parks and Recreation, Department of --San Francisco Issue a Right of Entry Permit to Marin County to remove soil from Candlestick Point State Recreation Area for a Marin County Park's restoration project. Marin County will remove up to 430 cubic yards of stockpiled bay mud, located at the east edge of the boat ramp parking lot, for use at the restoration project in Marin County. Marin County will also 'replace' the removed soil with no less than an equal volume of imported clean fill to be placed in an area adjacent to but mixed in with the remaining stockpiled bay mud.	<b>NOE</b>

2016088247	DROPS Grant Project at Neal Dow Elementary School Chico Unified School District Chico--Butte The State Water Resources Control Board (State Water Board) has adopted Guidelines for the Drought Response Outreach Program for Schools (DROPS). DROPS is focused on projects that reduce storm water pollution and provide multiple benefits including water conservation, water supply augmentation, energy savings, increased awareness of water resource sustainability, and reduced dry weather runoff. All projects must include an education/outreach component that is designed to increase student and public understanding of the project's environmental benefits and the sustainability of California's water resources directly related to the project.	<b>NOE</b>	
2016088248	Fee Acquisition of the Alhambra Courthouse by the Judicial Council of California from the County of Los Angeles under the Trial Court Facilities Act of 2002 (SB Judicial Council of California Alhambra--Los Angeles	<b>NOE</b>	
2016088250	Meiners Oaks Watershed Friendly Garden Ventura County --Ventura County of Ventura has proposed a project to replace approximately 3000 sq. ft. of turf grass with a watershed friendly garden consisting of drought tolerant native or climate appropriate plants. The project includes removing existing turf grass, minor grading to retain stormwater, soil preparation, conversion of existing spray irrigation to drip irrigation and planting. No trees will be removed as a part of this project. All proposed work would occur within the existing Meiners Oaks Elementary School property.	<b>NOE</b>	
2016088251	Removal Action Workplan, Former PureGro, Facilit, Corcoran, California Toxic Substances Control, Department of --Kings The DTSC, pursuant to regulatory authority granted under Chapter 6.8 of Division 20 of the Health and Safety Code, has approved the draft Remedial Action Workplan for the former site recommending institutional controls as reasonably necessary to protect present and future human health and safety and the environment from the potential risk from residual contamination at the Site. The Land Use Covenant filed as deed restriction will prohibit the use of the Site as a residence, hospital, school, or daycare center, will limit the site to industrial/commercial uses, and will restrict the use of site groundwater to non-potable and/or agricultural use.	<b>NOE</b>	
2016088252	Hazard Tree Removal and Fuel Hazard Reduction Tahoe Conservancy --El Dorado, Placer This project involves the trimming and removal of dead, dying, diseased, insect infested and suppressed trees near utility structures and contains a secondary benefit of reducing forest fuels for forestry and fire hazard reduction purposes.	<b>NOE</b>

<b><u>Documents Received on Wednesday, August 17, 2016</u></b>			
2014092036	Water Supply Contract Extension Project Water Resources, Department of --Sacramento Note: Review Per Lead  The proposed project would amend and add financial provisions to the SWP contracts based on the negotiated AIP between DWR and the SWP Contractors. The proposed project would not create new water management measures, alter the existing authority to build new or modify existing facilities, or change water allocation provisions of the contracts. The changes to the contracts by the proposed project are composed of the following five project elements: 1) extended contract term to 2085, 2) increase in SWP operation reserves, 3) new billing provisions, 4) enhanced funding mechanisms and new accounts, and 5) enhanced coordination regarding SWP finances.	EIR	10/17/2016
2016012029	Love's Country Stores Williams, City of Colusa--Colusa The proposed Project is the construction and operation of a Love's Country Store in the City of Williams. Love's Country Stores submitted an application for a Design Review and Site Plan Permit for a proposed Love's Country Stores to be sited on approx. 11.15 acres located near the southeast of the I-5 and SR-20 Intersection. The proposed project would include a fuel dispensing area with 22 fueling positions to dispense gasoline and diesel fuel to passenger vehicles and trucks. The Project would include a 13,582 sq. ft. convenience store with an attached restaurant space for three vendors and a separate 6,322 sq. ft. tire shop. The project is consistent with existing City of Williams General Plan land use designations and zoning (Business Park), which allow for the development of Truck Shop/Truck Wash Fueling Station/Light Automobile Service/Car Wash and Restaurants.	EIR	
2016021023	Museum House Newport Beach, City of Newport Beach--Orange A 25-story condominium tower is proposed onsite and would consist of 100 for-sale residential units, ranging in size from approx. 1,800 sf to 6,000 sf. The project would provide 200 residential and 50 guest parking spaces, the majority of which would be located in a two-level subterranean garage. Common area amenities would include gardens, a fitness room, spa, pool and pool deck, outdoor kitchen and barbeque area, club room, library, view deck, and concierge.	EIR	09/30/2016
2016052068	Veteran Village Project Colma, City of Colma--San Mateo The project consists of a Planned Development Rezoning and Planned Development Use Permit to allow the construction and development of a 66-unit affordable housing development on an approx. 2.23 acre property. The project proposal includes a new three story residential building and the preservation of a historic building for use by residents. Two large residential courtyards, a garden area, and park area are also planned as part of the proposed development. The project would provide a total of 69 parking spaces in two parking areas; one adjacent to Cypress Lawn Cemetery and another along the BART maintenance road immediately east of the project site.	EIR

2016081043	LU09-0082 Ventura County Ventura--Ventura The applicant requests that a Planned Development permit be granted to authorize the development and operation of an outdoor recreational vehicle (RV) storage facility. The proposed project includes an asphalt parking lot made of recycled asphalt that can accommodate outdoor storage and parking of 100 RVs and installation and use of a 533 sq. ft. caretaker mobile home.	<b>MND</b>	09/15/2016
2016081049	Quartz Hill Water District Water System Upgrade Project Quartz Hill Water District --Los Angeles The project intends to help better serve individuals within the OHWD community boundaries. The site is vacant and is used as a parking lot. The project proposes to construct a 1 million gallon water tank as well as several other pieces of support equipment grading will occur on the site, including sub surface excavation as the tank will be buried ten feet in the ground to reduce the overall height of the tank. A 6 foot tall concrete block wall will be construed at the perimeter of the site. Project plans are currently in development.	<b>MND</b>	09/15/2016
2016082041	Stafford Lake Master Plan Marin County Novato--Marin Marin County Parks is proposing to adopt a Master Plan which is to be a comprehensive long-term planning document that will guide the future development of park facilities, improvements and programs at Stafford Lake Park. The Master Plan provides recommendations for general infrastructure and circulation improvements to singular design elements. Overall, the Master Plan aims to protect the natural, cultural, and recreational amenities that currently exist within the park while proposing new, complementary features and programs. Specific improvements would be constructed incrementally over the life span of the Plan. This Initial Study evaluates the potential environmental effects of implementing the proposed Master Plan.	<b>MND</b>	09/15/2016
2016082044	Well 21 Improvements Lathrop, City of Lathrop--San Joaquin Project proposes a pipeline connection, approx. 1.25-1.35 miles in length, between Well #21 and existing City Wells #9 and #10. At the Well #21 site, the City proposes several improvements to the well and existing water treatment facility and pump station, including equipment to remove arsenic and manganese from water, a storage tank to facilitate blending of water to reduce uranium concentrations, and a booster pump to send water into the City's water system.	<b>MND</b>	09/15/2016
2016082045	Natomas Fountains Sacramento, City of Sacramento--Sacramento The proposed project is the construction and operation of an approximately 116,000 sf retail center on an approximately 12-acre property, located in the North Natomas neighborhood, within the city of Sacramento. The project site configuration would be divided into a large grouping of approximately 86,000 sf of space, with unit sizes ranging from 6,000 sf to 29,000 sf, and four standalone structures situated along the eastern and southern sections of the site, ranging in size from 7,000 sf to 8,500 sf. The large grouping of retail space in the northern	<b>MND</b>	09/15/2016

<b><u>Documents Received on Wednesday, August 17, 2016</u></b>			
	half of the project site would be oriented for south facing frontage interior to the project site, with logistical facilities located on the northern sides of the structure. The specific future users of the commercial buildings have not been determined at this time.		
2016012012	Foster City Levee Protection Planning and Improvements Project (CIP 301-657) Foster City Foster City--San Mateo Note: Revised	<b>NOP</b>	09/15/2016
	The purpose of the project is to provide flood protection in accordance with updated FEMA guidelines and regain FEMA accreditation for its existing levee system. in addition, the improved levee system will be designed to adapt to future sea level rise while maintaining public access along the levee system and protections for sensitive habitat and species. if FEMA accreditation is not achieved, approx. 17,000 individual properties within Foster City and San Mateo will be placed in a high-risk Special Flood Hazard Area by FEMA, due to the risks associated with levee overtopping from high tides (stillwater or storm surges) and/or wave runup.		
2016082043	KaiserAir Terminal and Hangar Development Oakland, Port of Oakland--Alameda KaiserAir proposes to demolish hangar 2 and construct a larger aircraft hangar; renovate building L-230 including the area between the hangars to include a restaurant open to the public, a porte-cochere in front of L-230, and reconfiguration of Earhart Road; improve aircraft apron; construct a vehicle parking lot and fuel farm on the existing 114,000 ft paved parking lot across Earhart road.	<b>NOP</b>	09/15/2016
2016082042	Cooper's Hawk Terrace, LP, Site Development Permit SDP16-001 Tuolumne County Sonora--Tuolumne Site Development Permit SDP16-001 to allow the construction of the Cooper's Hawk Terrace apartment complex to be comprised of nine residential structures consisting of twelve two-bedroom units and six one-bedroom units for a total of 18 dwelling units on the project site, along with six garage structures, on a 2.4+/- acre site currently zoned R-3:MX (Multi-Family Residential: Mobile home Exclusion Combining) under Title 17 of the Tuolumne County Ordinance Code.	<b>Neg</b>	09/15/2016
2012052008	Broadway/Valdez District Specific Plan Oakland, City of Oakland--Alameda To construct a new mixed use building containing 127 dwelling units and approx. 8,000 sq. ft. of retail at the ground floor. The proposal will include the demolition of two residential buildings and portions of two commercial buildings while preserving the historic facades fronting on Broadway which will be incorporated into the building.	<b>NOD</b>	
2015071074	Interstate 15 Express Lanes Project Caltrans #8 Corona, Norco, Eastvale, Jurupa Valley--Riverside CDFW has executed Streambed Alteration Agreement No. 1600-2015-0260-R6, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Riverside Transportation Commission. The I-15 Express Lanes Geotech Project	<b>NOD</b>	

## CEQA Daily Log

Documents Received during the Period: 08/16/2016 - 08/31/2016

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, August 17, 2016</u></b>			
	includes the creation of temporary access paths within the Santa Ana River to facilitate geotechnical surveys associated with the I-15 Express Lanes Project and to implement wildlife-related avoidance with minimization measures.		
2016021050	Geffen Academy at UCLA University of California, Los Angeles --Los Angeles The Geffen Academy would provide an innovative college preparatory education for up to a maximum of 620 students in grades 6 through 1 by the 2020-2021 school year. New faculty and staff would also be hired to operate the Geffen Academy. No new permanent structures would be constructed; however, interior and exterior building modifications and exterior site modifications would be required to accommodate the proposed Geffen Academy.	<b>NOD</b>	
2016041073	Holland Road/Interstate 215 Overcrossing Project Menifee, City of Menifee--Riverside The City of Menifee is proposing to construct a new overcrossing at Holland Road over I-215. The project will construct a new four-lane overcrossing at Holland Road that will span the I-215 freeway and Antelope Rd within the limits of the City of Menifee. The project also includes realigning Willowood Way, re-striping Hanover Lane, and Albion Lane, and constructing an access road for existing businesses on the west side of I-215, as well as providing and relocating essential utilities. Temporary construction laydown areas are proposed at the north and south portion of Holland Rd at Haun Rd.	<b>NOD</b>	
2016089014	The Ranch 2016 THP 1-16-024 SMO (Lake or Streambed Alteration Agreement No. 1600-2016-0183-R3) Forestry and Fire Protection, Department of --San Mateo CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0138-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Joseph Culver. The project is limited to three permanent culvert installations over unnamed Class III watercourses.	<b>NOD</b>	
2012052008	Broadway/Valdez District Specific Plan Oakland, City of Oakland--Alameda To construct a new mixed use building containing 127 dwelling units and approx. 8,000 sq. ft. of retail at the ground floor. The proposal will include the demolition of two residential buildings and portions of two commercial buildings while preserving the historic facades fronting on Broadway which will be incorporated into the building.	<b>NOE</b>	
2016088249	Oak Park Watershed Friendly Garden Ventura County --Ventura County of Ventura has proposed a project to replace approximately 1130 sq. ft. of turf grass with a watershed friendly garden consisting of drought tolerant native or climate appropriate plants. The project includes removing existing turf grass, minor grading to retain stormwater, soil preparation, conversion of existing spray irrigation to drip irrigation and planting.	<b>NOE</b>

	of the existing town and country hotel through a master plan that would establish three districts: park district, residential district, and hotel district. The master plan elements include a renovation of portions of the hotel and convention buildings while demolishing other structures to accommodate construction of new hotel facilities and residential uses.		
2016021092	Southeast Gustine Annexation Gustine, City of Gustine--Merced The proposed project involves annexation of approx. 219.2 acres to the City of Gustine, with LAFCo approval of rezoning. Existing roads surrounding the project area provide access to planned residential and park development; new roads and utility lines will be extended into the project area to serve residential units.	<b>EIR</b>	10/03/2016
2007122100	San Andreas Sanitary District Wastewater Treatment Plant Upgrade Project San Andreas Sanitary District --Calaveras Note: Supplemental/Revised  The project is located in the unincorporated community of San Andreas in Calaveras County, California at the existing San Andreas Sanitary District Wastewater Treatment Plant. The district upgrades project consists of the following: replace headworks; upgrade the irrigation pump station; make improvements to pond D; make improvements to pond B and C; aeration improvements; and replace the aging digester. The total length of project construction is anticipated to take approximately 12-24 months, and is anticipated to take place in 2017 and 2018.	<b>MND</b>	09/16/2016
2016081050	San Diego Yacht Club (SDYC) Improvements Los Angeles County --Los Angeles The project consists of additions to an existing permitted private recreational club and campground. The parcel is owned by the Catalina Island Conservancy; the San Diego Yacht Club has a lease area totaling 0.85 acres. The project proposes the addition of three cabins, (each 140 sf) for seasonal use, one beach master (300 sf) for seasonal use by the campground beach master, a trash/recycling enclosure (80 sf) in area, and an above ground greywater tank.	<b>MND</b>	09/16/2016
2016081051	Supplemental Environmental Impact Report (SEIR) for the Joint Replacement Hospitals of America (JRHA) Indio, City of Indio--Riverside Single-focus acute care licensed surgical hospital for hip and knee replacement primarily and sports medicine secondarily. The facility would be approximately 30,450 gross square feet in a single-story, 35-foot-high building comprising an outpatient evaluation center, a reception/patient education center, advanced imaging department, a surgical suite, a pre- and post-surgical care unit, 12 inpatient beds, and a post-surgical physical therapy/rehabilitation center. Ingress and egress would be from Burr Street and Avenue 42.	<b>NOP</b>	09/16/2016

<b><u>Documents Received on Thursday, August 18, 2016</u></b>			
2016081053	Fifth Avenue Landing Project and Port Master Plan Amendment San Diego Unified Port District San Diego--San Diego The proposed project would construct an approx. 850 room hotel tower, an approx. 565 bed lower cost visitor serving hotel, retail development along the promenade, approx. 2.1 acres of public access plaza space, approx. 213 onsite parking spaces, a connecting bridge from the hotel public access plaza to the San Diego Convention Center, and a marina expansion. In addition, the proposed project would include the potential use of approx. 110 offsite parking spaces in the Convention Center garage and maintain the existing public in-bay water transportation system, including a water ferry service.	<b>NOP</b>	09/16/2016
2016082046	Oakwood Landing - Cerri & Denali Subdivisions Manteca, City of Manteca--San Joaquin The project includes up to 290 high density residential units, 975 low density residential units, 237,838 SF of commercial uses, 16.06 acres of park uses, 6.77 acres of open space, and comprises a total of 258.29 acres of land. The project would require a General Plan Amendment to change approx. 121.67 acres of BIP to LDR uses; change approx. 70 acres of UR-BIP to LDR uses; change approx. 9.39 acres of UR-VLDR to LDR uses; change approx. 23.41 acres of CMU to LDR uses; change approx. 11.59 acres of BIP to HDR uses; maintain approx. 13.0 acres as GC; and maintain approx. 6.77 acres of OS. The project would require a rezone of the entire project site to a One-Family Dwelling Zoning District (R-1), Multiple Family Dwelling (R-3), GC, and OS.	<b>NOP</b>	09/16/2016
2016081054	Proposed Transfer or Territory from the Lawndale School District and Centinela Valley Union High School District to the Wiseburn Unified School District Los Angeles County Hawthorne, Lawndale--Los Angeles The proposed project would transfer 406 parcels, nearly all of which contain single family homes, from the Lawndale SD and Centinela Valley Union HSD to the Wiseburn USD. There are approximately 239 students currently living within the proposed transfer territory. Of those, 112 students currently attend Wiseburn USD schools on permits. The best estimate that can be made of student enrollment among transfer territory students is that 80 K-8th grade students from the Lawndale SD are enrolled in the Wiseburn USD as permit students and 32 transfer territory high school students are attending Wiseburn USD's Da Vinci Charter HS on permits from the Centinela Valley Union HSD.	<b>Neg</b>	09/16/2016
2016082047	Remedial Action at Former Mare Island Naval Shipyard, Installation Restoration Site 17 and Building 503 Area Toxic Substances Control, Department of Vallejo--Solano DTSC, pursuant to the authority granted under chp 6.8, div 20, H&SC is proposing approval of the record of decision/RAP for the former Mare Island Naval Shipyard Installation Restoration site 17 and building 503 area. Dept. of Defense derives authority to undertake this cleanup action under the comprehensive environmental response, compensation and liability act under 42 U.S.C. Section 9604, 10 U.S.C. Section 2705.	<b>Neg</b>	09/16/2016

2016088296	Slinkard Creek Erosion Control Structure and Fish Barrier Repair Fish & Wildlife #6 I/M --Mono The ("CDFW") proposes to repair an existing rock gabion erosion control structure. The structure was originally built on Slinkard Creek in 1986 to stop head cut erosion from draining a wet meadow on the Slinkard-Little Antelope Wildlife Area. This gabion structure also functions as a key barrier to fish passage, protecting a refuge for Lahontan cutthroat trout (LCT) from non-native brook trout that occupy the lower portions of the creek. LCT are listed as threatened under the Federal Endangered species act and CDFW has been delegated management authority for the species.	<b>NOE</b>	
2016088309	Lake Valley Road Improvements, Culvert Replacement Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Placer The Lake Valley Road Improvements Culvert Replacement Project will replace existing failed culverts in a spill channel at the road crossing. The adjacent roadway embankment is also damaged due to erosion and requires repair.	<b>NOE</b>

2009052096	Coyote Point Recreation Area Shoreline and Promenade Improvement Project San Mateo County San Mateo, Burlingame--San Mateo NOTE: Review Per Lead  A Draft Master Plan for Coyote Point was prepared in 2002 and not completed. An updated and Final Master Plan (Amphion 2008) was approved by San Mateo County on Feb. 26, 2008. The purpose of the revised Master Plan was to make improvements to landscape and infrastructure, update existing recreation facilities to improve safety and disability access, enhance natural resources, and provide educational opportunities for visitors regarding biotic and cultural resources. Additional special studies were recommended by the Master Plan including the proposed stabilization of the beach shoreline along the San Francisco Bay, which is subject to severe erosion. In April 2008, a Conceptual Design Report (PWA 2008) was prepared for the County Parks and Recreation Department which outlined several design alternatives to stabilize the beach shoreline. The County selected Conceptual Alternative 5 as the Preferred Alternative and directed the preparation of a Preliminary Design Report to implement this alternative (PWA 2009). The Preferred Alternative is presented in this Initial Study as the proposed design for the Shoreline and Promenade Improvement Project. The purpose of the proposed Project is to develop a sustainable solution to the coastal erosion problem along the San Francisco Bay at the park shoreline while facilitating good public access to the beach and water for a variety of users, particularly swimmers and windsurfers.	<b>ADM</b>

<b><u>Documents Received on Friday, August 19, 2016</u></b>			
2016062043	Shasta Water Management Project Shasta Valley Resource Conservation District --Siskiyou Project consists of agricultural water management modifications on two separate ranches in the Shasta Valley. All infrastructure modifications are designed to improve water management, improve irrigation efficiencies, reduce the amount of cold water resources utilized for irrigation, increase cold water returns to the river, and improve fish screening. The project is designed to improve water quality by decreasing temperatures and increasing DO in the Shasta River and Parks Creek, an anadromous fishery, and known spawning and rearing habitat for the federally threatened Coho Salmon.	EA	
2003042127	Gateway Towers Mixed-Use Developmental San Jose, City of San Jose--Santa Clara Project proposes construction of a 25-story building, with 308 residential apartment units, up to 8,000 sf of ground floor commercial space, 3 levels of subgrade parking and 5 levels of above grade parking. Proposed ground floor commercial spaces would have raised ceilings to the second story of the building and would be located on all street frontages. A bike kitchen for bicycle parking and maintenance would be accessed from South Market St. Within the commercial space on South First St, a permanent interactive historical display would be provided as a part of the retained 465-467 South First Street commercial building facade.	EIR	10/03/2016
2010092087	Fish Habitat Flows and Water Rights Project Sonoma County Water Agency Cloverdale, Healdsburg, Windsor--Sonoma NOTE: Review per lead  The proposed Fish Habitat Flows and Water Rights project change the Water Agency's existing water right permits and management of water supply releases from Lake Mendocino and Lake Sonoma to provide min instream flows that will improve rearing habitat for threatened and endangered salmon, as required by the NMSF's Russian River Biological Opinion and CDFW's Consistency Determination, and to update the Water Agency's existing water rights to reflect current conditions. The Fish Flow Project would replace the existing hydrologic index, which is based in the Eel River watershed, with a new index based on Russian River conditions. Changes to the Water Agency's existing water right permits includes extending the time to complete beneficial use of the existing 75,000 acre ft of water, no additional water rights are being requested.	EIR	10/17/2016
2011021042	Kern River Flow and Municipal Water Program Bakersfield, City of Bakersfield--Kern Note: Recirculated  The proposed program is a multi objective flow management and water supply program. The primary objective of the program is to allow additional quantities of water awarded to the City by the SWRCB to flow in the Kern River channel to protect, increase, and enhance the City's water supply to meet present and future demands for water. Increased flows in the Kern River would also increase infiltration and percolation to the basin, to serve as a long term water supply and source for City residents. The program calls for the utilization of an, as of yet,	EIR	10/05/2016

	undetermined quantity of a new water supply to increase flows in the Kern River. Up to an average of approximately 160,000 afy of water (as available on hydrologic conditions) may be provided to the Kern River.		
2015081020	General Plan Update Environmental Impact Report - Revised Technical Appendix 3.0-2 "One Eleven Development Code" Palm Desert, City of Palm Desert--Riverside Note: Refer to Draft EIR on 8/24/16	<b>EIR</b>	
	The general plan update focuses on key areas of the City, including the HWY 111 corridor/city center and the University Neighborhood Specific plan that provides design guidance for the areas around the Cal State University campus. The project includes goals and policies that provide the City with tools to seek pedestrian oriented development patterns to diversify the city's existing primarily automobile oriented development patterns and realize both a true city center and a vibrant university campus area. The planning horizon is 25 years and both the general plan and the university neighborhood specific plan are designed to enable the city to keep them current and responsive to changing technologies and development patterns. In addition to the university neighborhood specific plan, the city is adopting the One Eleven zoning development code that will implement the vision for the HWY 111 corridor/city center. This is a comprehensive update that will replace the existing general plan with the exception of the housing element. The city's housing element is current, has been certified by the state, and is not included as a part of this update.		
2015092038	2016 Regional Transportation Plan and Sustainable Communities Strategy (RTP-SCS) Butte County Association of Governments --Butte Note: Review Per Lead	<b>EIR</b>	10/18/2016
	The 2016 RTP-SCS is an update of a long-range planning document. The 2016 RTP is the culmination of a multi-year effort that aims to maintain or enhance the efficient and effective movement of goods, services, and persons. Further, the SCS will seek to coordinate local land use and transportation systems within the region to reduce emissions from cars and light trucks. BCAG is required by federal law to develop an RTP that determines the needs for the transportation system and prioritizes proposed transportation projects. The RTP is also necessary to obtain and allocate federal funding for regional transportation projects.		
2016041035	9908 S. Santa Monica Blvd Condominium Project Beverly Hills, City of Los Angeles, City of--Los Angeles The proposed project would involve the construction of a new 27-unit condominium building with units ranging from one to four bedrooms and subterranean parking. The condo building would consist of five stories of residential units; rooftop common areas; and one level of underground parking containing a total of 74 parking spaces for residents. The project site is located in a C-3A Commercial Zone, which does not allow multi-family residential uses. Thus, the proposed project would require amendments to the City's General Plan and the Beverly Hills Municipal Code (BHMC) in order to create a Residential Overlay Zone, as well as a Planned Development Permit.	<b>EIR</b>	10/03/2016

2013041063	Belmont Pool Revitalization Project Long Beach, City of Long Beach--Los Angeles Note: 1 CD	<b>FIN</b>	
	<p>The proposed project would replace the former Belmont Pool facility and provide the City with a revitalized and modern pool complex. The project proposes the construction and operation of an approximately 125,500 sf pool complex that includes indoor and outdoor pool components and an approximately 1,500 sf cafe. Permanent indoor seating for approximately 1,250 spectators would be provided to view competitive events at the 50-Meter Competition Pool and the Dive Pool. Temporary outdoor seating would be provided for larger events at the Outdoor 50-Meter Competition Pool with a max seating capacity of up to 3,000 spectators. The proposed project does not include any permanent outdoor seating designed for spectator viewing.</p>		
2014071006	SR-710 Surplus Property Sales Caltrans #7 Pasadena, Los Angeles, City of--Los Angeles FYI: Final	<b>FIN</b>	
	<p>Caltrans currently holds the deeds to 460 parcels in the Cities of Pasadena and South Pasadena, and in the El Sereno area of the City of Los Angeles. Caltrans is proposing to sell the 460 parcels, originally acquired for a surface freeway project on SR 710, to housing entities, previous owners, current tenants and occupants, former tenants, and persons and families of low or moderate income pursuant to Senate bill 416 and the Roberti Act.</p>		
2014092027	East Palo Alto General Plan Update East Palo Alto, City of East Palo Alto--San Mateo Note: 1 HC	<b>FIN</b>	
	<p>The City of East Palo Alto is preparing a comprehensive update and revision to its 1999 General Plan and its Zoning Code which, together, will serve as a blueprint to guide the City's vision (also known as "Vista 2035") for its long-term land use and development. The General Plan Update process has been designed to: respond to socioeconomic and demographic changes; encourage community members to express their values and create a common vision for the City's future; update policies for land use, community design, transportation, infrastructure, and quality of life; prioritize community health and equity; provide policies for the Westside of the City; and address major concerns such as affordable housing, risk and flooding, and infrastructure deficiencies.</p>		
1998111030	Groundwater Replenishment System Final Expansion Project EIR/EIS Addendum No. 6 Orange County Water District Fountain Valley--Orange Note: EIR/EIS Addendum	<b>JD</b>	09/02/2016
	<p>The proposed project involves the final expansion improvements to OCWD GWRS advance recycling water project. The project involves improvements OCWD water treatment plant, OCSD wastewater treatment Plant No. 2 and along the OCSD easement corridor.</p>

<b><u>Documents Received on Friday, August 19, 2016</u></b>			
2016081055	Buena Vista Water Storage District Northern Area Project Southern Extension Buena Vista Water Storage District --Kern In 2016, the BVWSD completed the Northern Area Pipeline project (NAP), approximately 20 miles of new buried pipeline. The Southern Extension project, an extension of the NAP, is consistent with the District's overall water conservation and management program. The southern portion of the NAP would begin at Vlasnik Road, and continue south for an additional 5 miles. The project is designed to further improve the District's water-use efficiency.	<b>MND</b>	09/19/2016
2016082050	Ovation Senior Living (PLN15-00462) Placer County --Placer The project proposes a rezone from residential single family, combining agriculture, and combining a 40,000 sf min building site to residential ag, combining a 40,000 sf min building site (RS-AG-B-40 to RA-B-40), a tentative parcel map, and a minor use permit to allow for the construction and operation of the Ovation Senior Living Facility. This proposal is for an assisted living and memory care facility that would be classified as a residential care home. A total of 4.5 acres (western portion of site) of the 6.9 acre site would be developed and approximately 2.5 acres (eastern portion of site) would be set aside for future development.	<b>MND</b>	09/19/2016
2016082052	Soda Creek Bridge (No. 06C-0348) at Soda Creek Road Replacement Project Shasta County --Shasta Replace structurally deficient bridge with new 23.5 ft wide by 110 ft long single span, reinforced concrete box-grider structure installed on a new alignment, just south of the existing bridge centerline. The new bridge would be founded on abutment footings up to 10 ft deep. Wingwalls would be constructed and rock slope protection installed to protect the bank slope. Approximately 133 linear feet of the new western approach roadway and 200 linear ft of the new eastern approach roadway would require cut and fill to tie into the existing alignment. Soda Creek Road would remain open to traffic during construction, using the existing bridge as a temporary detour. A temporary gravel work pad would support falsework for cast in place construction and the creek would be diverted with sandbags during the in water construction period 7/16-10/31	<b>MND</b>	09/19/2016
2016082053	Bunker Water Tank Replacement Project Tahoe City Public Utility District --Placer The project involves removal of an existing 500,000 gallon redwood water tank and construction of a new 1.2- million gallon steel water tank. The new tank will enhance water supply and fire protection in the Tahoe City water system. The project would also include paving and extending the access road to the new tank site and the construction or replacement of various ancillary facilities, i.e. water lines, power lines, best management practices, etc.	<b>MND</b>	09/19/2016
2016082054	Grove Village Project Santa Rosa, City of Santa Rosa--Sonoma City Ventures proposes development of the approximately 19 acre site in Santa Rosa into 136 lots providing an average density of 7.2 dwelling units per acre. The applicant is requesting the approval of a CUP and TPM for a small lot residential	<b>MND</b>	09/19/2016

	subdivision to permit the construction of new for sale homes. In addition, City Ventures is requesting a rezone for the portion of the site that is zoned RR-40 to R-1-6. The GPLUD of low density res/open space allows for development of 2-8 homes per acres. The proposed density is consistent with the GPD.		
2016082055	Spring Lake Area Elementary School Woodland Joint Unified School District Woodland--Yolo WJUSD plans to construct and operate an elementary school to serve students in the Spring Lake Specific Plan area, west of CA-113 and south of East Gibson Road. The site is proposed to be developed with 16 classrooms, a multipurpose building, a library, and administrative buildings to serve up to 400 students in grades K-6. The project will include 18 restrooms. Total building square footage is estimated at 30,000. The school design includes a field and several hard top courts to deliver a physical education program; however, no field lighting is proposed. Buildings would be oriented on the south side of the site with fields on the north, as shown in appendix B. The primary access to the site for kindergarten drop-off will be on Meikle Avenue. The drop-off location for grades 1st-6th will be along Banks Dr.	<b>MND</b>	09/19/2016
2016082049	Kevin Thomas TSM16-0001 Butte County --Butte A requested to divide 6.29 acres into 4 lots and remainder of at least 1 acre in size, accessed by Walnut Grove Drive and served by domestic wells and septic systems. Includes a requested modification from 300' agricultural buffer standards to allow 30 setbacks to adjacent agriculturally-designated land, and an exception to design standards that would require installation of a fire hydrant.	<b>Neg</b>	09/19/2016
2016082051	Butte County Evidence Building & Morgue Butte County Oroville--Butte New Evidence Building & Morgue, estimated at approximately 11,000 sf in area, located east of the East Facility and west of Juvenile Hall in the Butte County Public Safety Neighborhood. Funding is from multiple sources, including Criminal Justice Facilities Construction funds, facility reserve, and impact fees.	<b>Neg</b>	09/19/2016
2013041063	Belmont Pool Revitalization Project Long Beach, City of Long Beach--Los Angeles Note: Response to Comment  The proposed project would replace the former Belmont Pool facility and provide the City with a revitalized and modern pool complex. The project proposes the construction and operation of an approximately 125,500 sf pool complex that includes indoor and outdoor pool components and an approximately 1,500 sf cafe. Permanent indoor seating for approximately 1,250 spectators would be provided to view competitive events at the 50-Meter Competition Pool and the Dive Pool. Temporary outdoor seating would be provided for larger events at the Outdoor 50-Meter Competition Pool with a max seating capacity of up to 3,000 spectators. The proposed project does not include any permanent outdoor seating designed for spectator viewing.	<b>Oth</b>

<b><u>Documents Received on Friday, August 19, 2016</u></b>			
	main construction contract work is completed. This will be due to the anticipated heavy loading and impact from the construction hauling activity. Cy Homer Road will be widened from 15' to 30' at the point of intersection with Taxiway D. It will then be tapered to the existing 15' width over a length of approx. 1,450'.		
2009052096	<p>Coyote Point Recreation Area Shoreline and Promenade Improvement Project San Mateo County San Mateo, Burlingame--San Mateo</p> <p>The purpose of the proposed project is to develop a sustainable solution to the coastal erosion problem along the San Francisco Bay at the park shoreline while facilitating god public access to the beach and water for a variety of users, particularly swimmers and windsurfers. The project site is located along approx. 950 feet of SF Bay shoreline along the eastern promenade. Existing conditions along this area include shoreline protection features, promenade, restrooms, lawn area, and parking areas.</p> <p>The original Coyote Point Shoreline and Promenade Improvement project proposed improvements to two distinct areas; the eastern and western areas, and a MND was adopted in 2009. The western improvements were completed in 2014 and the remaining improvement under consideration are for the eastern area. These remaining improvements in the Eastern Promenade include creation of a crenulate-shaped bay, reconfigured/reconstructed and new parking areas, beach area, completing the pedestrian path network, landscape plantings and irrigation, grading and surface drainage of all planted areas, pedestrian pavements and walls, installation of a prefabricated restroom buildings, installation of site furniture including benches, bollards, fences, bike racks, trash receptacles and signage and the removal of the remnants of old wooden pilings at the water's edge. The general improvements proposed for the eastern promenade area are largely the same as those that were originally proposed, however, the methods to implement the improvements have been revised to reduce aquatic impacts and account for anticipated sea level rise. The Eastern Promenade Rejuvenation project proposes less earthwork (cut/fill and import/export amounts) than the formerly proposed project. In addition, the previous IS/MND identified several areas that could provide the additional parking required to off-set the loss of parking incurred by the project. However none of these previously identified parking areas is currently proposed to provide parking; instead a new parking area, located just to the east of the eastern promenade improvements in a sloped, forested areas is proposed to provide the needed parking.</p>	<b>NOD</b>	
2012052077	<p>Quail Run Water Storage Tank Soquel Creek Water District --Santa Cruz</p> <p>The project proposes construction and operation of a potable water storage tank on a 1.37-acre site. The proposed tank would have an outside diameter of 66 feet, with a total capacity of 0.45 MG. The pre-stressed concrete tank would have a flat, "living" roof and would be mostly burned within the hillside. Other project improvements include fencing and landscaping around the tank perimeter, a weatherproof control cabinet, and access improvements off Hawks Peak Road and the private road north of the site.</p>	<b>NOD</b>

2016081057	Notice of Completion of a Draft Environmental Assessment for: Proposed Amended Rule 307.1-Alternative Fees for Air Toxics Emissions Inventory; Proposed Amended South Coast Air Quality Management District --Los Angeles, Riverside, San Bernardino, Orange Proposed amended rule 1402 includes a voluntary program to allow facilities to use an alternative public notification approach if they implement early measures that reduce facility health risks at least 60% below rule 1402 action risk levels. Facilities that do not use this voluntary program would still be subject to the traditional regulatory approach to reduce risks and notify the public if health risks exceed rule 1402 thresholds. In addition, PAR 1402 streamlines implementation, includes provisions for potentially high risk facilities, and includes other amendments to improve clarity of the rule. PAR 307.1 includes a fee category for voluntary risk reduction facilities, a provision that requires the facility owner or operator to directly pay or reimburse SCAQMD for costs associated with public meetings, and other admin changes. Additionally, PARs 1401 and 1402 will revise reporting requirements regarding new or revised toxic air containment health values and the potential impacts to permitting and AB 2588, which will be included	<b>EA</b>	09/20/2016

	<p>in the AB 2588 annual report. Lastly, one existing procedural guidelines document is being revised and a new procedural guidelines document is being developed. The SCAQMD AB2588 public notification procedures document "public notification procedures for phase I and II Facilities under air toxics 'hot spots' information and assessment act of 1987 (AB 2588)" is being revised to clarify PAR 1402 notification requirements and a "draft SCAQMD Guidelines for participating in the rule 1402 voluntary risk reduction program" is being developed to establish PAR 1402 Voluntary Risk Reduction procedures. The draft EA concluded that the environmental impacts would be less than significant.</p>		
2016082057	<p>Dowd Road @ Coon Creek Bridge Replacement Placer County Lincoln--Placer</p> <p>The proposed project replaces the existing bridge which crosses Coon Creek at Dowd Road. The current bridge has been rated functionally obsolete, is prone to flooding, and provides insufficient width for two-lanes of traffic (it is a one-lane bridge). The new bridge is planned to be a 2-span cast-in-place post-tensioned concrete slab bridge measuring 150 ft long and 32 ft wide between the bridge barriers. The bridge would carry two 12-ft travel lanes and two 4-ft wide shoulders with a modified Caltrans Type ST-10 bridge rail.</p>	<b>MND</b>	09/20/2016
2016082058	<p>PG&amp;E Vacaville Critical Operations Campus Vacaville, City of Vacaville--Solano</p> <p>The project involves expansion of PG&amp;E existing facilities located at 4940 Allison Parkway in Vacaville, CA. The existing campus includes three single-story buildings with a total building area of approximately 47,070 sf. An approximately 19,200 sf, single story building (Building 4) would be constructed south of the existing VLOC buildings. An approximately 21,500 sf single-story building (Building 5) would be constructed adjacent to the southern wall of Building 4 in the future. The project would include construction of parking areas, a 12-ft high security masonry wall, and landscaping. The total site area of the VLOC would be approximately 15.29 acres. A total of 342 parking spaces would be provided for the entire campus. Primary access would be provided by two driveways on Allison Parkway.</p>	<b>MND</b>	09/20/2016
2016082059	<p>Manzanita Drive Residence Oakland, City of Oakland--Alameda</p> <p>The project is a single family house on an undeveloped, vegetated, 8097 sf lot in an urbanized block of of Manzanita Dr, near the crest of the Oakland Hills. The house would be two stories, with a living area of 2982 sf and a 445 sf garage under the living area. It would be just under 35 ft at the rear elevation and just under 21 ft at the front elevation. A stormwater outfall dissipater would be constructed below the house. An incidental take permit application, dated March 23, 2016, was submitted to the Fish and Wildlife for approval of potential pruning of the roots of two pallid manzanita plants, and pruning of one branch.</p>	<b>MND</b>	09/20/2016

	rental apartments, ground floor retail and a leasing office. Amenities would include three outdoor courtyards and clubhouse with fitness facilities. As part of the proposed project, the existing medical office building on the corner of Maple Court and McKeever Ave would be reduced in size, improved and modernized. The improved medical office building will include approximately 47,750 sf of building space.		
1991093009	San Jose Downtown Strategy Plan San Jose, City of San Jose--SANTA CLARA The 1.74-acre site is currently developed with a Greyhound bus station, a large surface parking lot, and a small one-story commercial building. The project would demolish both buildings and construct two residential towers with ground floor retail. The north tower would be up to 23 stories (242 feet tall) and the south tower would be up to 24 stories (252 feet tall) with a combined total of up to 781 residential units. Approximately 20,000 square feet of ground floor retail would be located within the towers along South Almaden Avenue and Post Street. The first floor would include the retail space and parking and the second floor would be for parking. The residential units would be located on the remaining floors. The building would have a total square footage of approximately 1,029,065 with a floor area ratio of 13.6.	<b>NOP</b>	09/20/2016
2016081056	French Valley Specific Plan No. 312 Amendment No. 2 Riverside County --Riverside The proposed Project consists of applications for general Plan amendment No. 1163(GPA01163), Specific Plan No. 312 Amendment No. 2 (SP 312A2), Tentative Tract Map No. 37053 (TR37053), and change of Zone No. 7898 (CZ) &898). Approval of these applications would allow for development of the project site with up to 753 dwelling units on 164.9 acres, 11 acres of recreational open space. 12.2 acres of water quality detention basins, 4.3 acres of open space conservation areas, an 11.6-acre school site, internal roadways on approximately 17.7 acres, and associated utilities infrastructure.	<b>NOP</b>	09/20/2016
2016082061	PA-1600188(SA) San Joaquin County Lodi--San Joaquin A site approval application for a private right of way for lot 11 of antiquated subdivision "California Village Farm Tract Subdivision E". The right of way extends E. Brittany Lane 665 ft eastward from N. Bryant Rd, 1300 ft south of E. Jahant Rd, northeast of Lodi.	<b>Neg</b>	09/20/2016
1995112022	Hewlett Packard Master Plan Project EIR Roseville, City of Roseville--Placer The applicant requests approval of an amendment to the Hewlett-Packard Campus Oaks Master Plan (HPCO). The amendment would increase the acreage available for Business Professional (BP) and decrease the acreage available for residential use. Also, the amendment would increase the number of Low Density (LDR) and Medium Density (MDR) units and increase the number of High Density residential units such that the overall unit count will remain unchanged.	<b>NOD</b>

<b><u>Documents Received on Monday, August 22, 2016</u></b>			
2003042018	Glen Loma Ranch Specific Plan Gilroy, City of Gilroy--Santa Clara Project is limited to the construction of an 18-foot high retaining wall containing an 18-inch reinforced concrete pipe storm drain outfall with a rip-rap apron energy dissipater, construction of a road (Merlot Drive), and installation of a bioretention basin (Montonico Basin). Approx. 113 linear feet of the upstream end (headcut area) of the ephemeral drainage channel will be cleared of vegetation and filled with 1,950 cubic yards of clean native soil. The earth fill behind the retaining wall will support the new roadway and associated utility improvements. The CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0125-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Glen Loma Corporation, as represented by Augie Dent.	<b>NOD</b>	
2007072114	State Route 25 Widening and Route Adoption Caltrans #6 -- Route adoption for a future segment of SR 25 near the city of Gilroy.	<b>NOD</b>	
2007072114	State Route 25 Widening and Route Adoption Caltrans #6 Bakersfield--Kern Rehabilitate a portion of SR 99 near the city of Bakersfield.	<b>NOD</b>	
2007101016	Friant Ranch Project Fresno County --Fresno The 942-acre Project Site will include the development of a 482.2-acre planned community, the permanent protection and perpetual management of the balance of the Project Site as open space (459.8 acres), and the enhancement, permanent protection, and perpetual management of an additional 1,054 acres of remote Habitat Management lands. At full build out, Project development will include single and multi-family age-restricted active adult dwelling units, non-age-restricted mixed use dwelling units, active adult recreation centers, small pocket parks, trails, roadways, a wastewater treatment system, commercial development, revegetated open space, and other associated utilities and access to serve all phases of the development.  Within the 482.2 acre development envelope, the Project will result in direct impacts to 482.2 acres of California tiger salamander upland and breeding habitat, and 400 s.f. of a known Hartweg's golden sunburst population. The Project will also result in the conversion of 6.8 acres of California tiger salamander upland habitat to breeding habitat for the species on the off-site wetland restoration site. Additionally, the Project will indirectly impact two vernal pools (totaling 0.48 acres), within the on-site open space, which support succulent owl's cover. Therefore, the Project is expected to result in incidental take of the California tiger salamander which is designated as a threatened species under the CESA, and Hartweg's golden sunburst and succulent owl's clover, both of which are designated as endangered species under CESA. The ITP referenced above as issued by CDFW authorized incidental take of these species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>

2015052051	Butano Creek at Pescadero Creek Road Sediment Removal Project San Mateo County --San Mateo To alleviate flooding, sediment will be removed annually for up to five years from 100 linear feet of Butano Creek beneath the Pescadero Creek Road bridge and the area immediately upstream and downstream of the bridge. The work area extends approx. 30 feet upstream from the upstream face of the bridge. The accumulated sediment to be removed beneath the bridge is up to 10 feet deep and 50 feet wide and is approx. 1,455 cubic yards. Prior to conducting excavation and dredging activities, vegetation established on the accumulated sediment and access paths to the channel will be removed. There will be no trees removed in subsequent years as the maintenance area will be kept clear of woody vegetation to maintain access to the sediment removal areas. CDFW is executing a Lake and Streambed Alteration Agreement No. 160-2015-0113-R3 pursuant to section 1602 Fish and Game Code, to the Permittee, San Mateo County.	<b>NOD</b>	
2015071036	SR-94 / SR-125 Interchange Project (EA-14665) Caltrans #11 La Mesa--San Diego Construct direct freeway to freeway ramps at the interchange of SR 94 and SR 125 near the city of La Mesa.	<b>NOD</b>	
2015092068	Charleston Retention Basin Improvement Project Mountain View, City of Mountain View--Santa Clara The project entails several activities to enhance habitat, improve pedestrian circulation and access and add slope protection outfalls surrounding the Charleston Retention Basin in the City of Mountain View, Santa Clara County. Project activities include realignment and improvement of the existing pedestrian path that surrounds the retention basin, removal of 142 parking stalls to facilitate habitat enhancement, construction of two pedestrian bridges over the retention basin, two boardwalks and an overlook. In addition to these improvements, several outfalls will be rehabilitated and a habitat enhancement plan will be implemented to expand wetland and riparian habitats on the project site. Pursuant to section 1602 of the Fish and Game Code, CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2015-0246-R3 to the Permittee, Google, Inc.	<b>NOD</b>	
2016011064	Santa Ana Sucker Habitat Restoration Project Orange County Water District Norco--Riverside CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0038-R6, pursuant to section 1602 of the Fish and Game Code to the project Applicant, the Orange County Water District. The project is limited to the construction of ten below-grade and ten above-grade gabions in the Santa Ana River, as well as an access road and staging area. Five below- and above-grade gabions will be placed along the southern riverbank and five below- and above-grade gabions will be placed along the northern riverbank. For the placement of each gabion, an area will be excavated measuring five feet deep, twelve feet long, and three feet wide. A below-grade wire mesh gabion basket will be excavated measuring five feet deep, twelve feet long, and three feet wide. A below grade wire mesh gabion basket will be installed in the excavated area and will be filled with 7 cubic yards of rock material and secured. Subsequently, a 12 foot long by 3 foot wide by 3 foot deep gabion will be installed directly on top of the	<b>NOD</b>

	below grade gabion and filled with 4 cubic yards of rock material. A 20-foot wide temporary access road will be constructed from Archibald Avenue to the Santa Ana River, along with a 100-foot diameter staging area.		
2016022010	Capell Creek Bridge Replacement Project Caltrans #4 --Napa Replace existing bridge on SR 128 near the city of Napa.	<b>NOD</b>	
2016032009	Lake Ranch Reservoir Outlet Works Improvements Santa Clara County Saratoga--Santa Clara San Jose Water Co. is proposing rehabilitation of the Lake Ranch Reservoir in accordance with the requirements of the CA Division of Safety Dams. Lake Ranch Reservoir is a small, approx.. 70 million gallon reservoir constructed between 1874 and 1876. SJWC proposes to construct siphons over both dams and grout the existing outlet pipes, rather than replace them. Based on the DSOD's drawdown requirements, the siphon at Saratoga dam will consist of a 12-inch diameter pipe At Beardsley dam, the siphon will consist of 44-inch diameter pipe with 16 inch emergency pipe. The siphons will be constructed using high-density polyethylene (HDPE) piping. The pipes will be buried and concrete-encased where they cross over the dam abutments, and will be mounted on the lake bottom with floating intakes within the reservoir. For the Saratoga dam, the project proposes to demolish and remove the following structures: floating wood and aluminum outlet structure, B-inch floating HDPE pipe, concrete vault, and B-inch above grade steel pipeline. However, the existing mooring piles for the floating outlet structure will be protected and reused as part of the new improvements. In addition, the buried B-inch pipe will be abandoned by pressure grouting pipe. For the Beardsley dam, the project includes demolition/removal of the steel and concrete outlet structure, valve, extension stem, metal supports and handwheel (concrete supports to remain for reuse), 6 inch steel pipeline above grade, 10-inch ductile iron pipeline above grade, and wood discharge structure to Lyndon Canyon (or Beardsley) Creek. In addition, the buried 10-inch pipe and buried 6-inch steel pipe will be abandoned by pressure grouting pipe. A temporary cofferdam will be installed to create a dry work environment for construction work at the Beardsley dam.	<b>NOD</b>

2010062079	<p>SMUD Nature Preserve Mitigation Bank  Sacramento Municipal Utility District  --Sacramento  CDFW has executed an Amendent to Incidental TAcK Permit No. 2081a-2011-021-02, pursuant to section 2801 (a) of the Fish and GAmE Code to the project Applicant, Sacramento Municipal Utility District.  The project was amended to include the following additional habitat enhancement activities: burrowing owl (<i>Athene cunicularia</i>) nest box construction, pond dewatering to remove nonnative fish and bullfrogs, replacement fencing to allow grazing of uplands, and interim Bank management and monitoring activities. Burrowing owl box sites were selected in areas where no pre-existing burrows occurred (i.e., no potential Covered Species or burrowing owl burrows). Boxes were constructed and installed using the guidelines in "A Simple Artificial Box Design" with some modifications. All boxes were modified to include a 3-inch diameter acrylonitrile butadiene styrene observation pipe which extended from the top of the central nesting chamber to the mound surface. Additional modification included replacing the central nesting chambers for boxes with plastic 5-gallon buckets instead of irrigation boxes. The central nesting chamber and both openings were marked via GPS and were covered with eucalyptus leaves, shredded bark, or gravel. Additionally, this Amendment changes the expiration date of the ITP to Oct. 15, 2017.</p>	<b>NOD</b>

	<p>transmitted documents, City staff noticed that Table 25.18-2 "Downtown District Development Standards" contained in Technical appendix 3.0-2 "One Eleven Development Code" overstated land use intensities along hte hwy 111 corridor. Minor grammatical errors on pages 19, 27, and 28 of the appendix have also been corrected.</p> <p>The general plan update focuses on key areas of the City, including the HWY 111 corridor/city center and the University Neighborhood Specific plan that provides design guidance for the areas around the Cal State University campus. The project includes goals and policies that provide the City with tools to seek pedestrian oriented development patterns to diversify the city's existing primarily automobile oriented development patterns and realize both a true city center and a vibrant university campus area. The planning horizon is 25 years and both the general plan and the university neighborhood specific plan are designed to enable the city to keep them current and responsive to changing technologies and development patterns. In addition to the university neighborhood specific plan, the city is adopting the One Eleven zoning development code that will implement the vision for the HWY 111 corridor/city center. This is a comprehensive update that will replace the existing general plan with the exception of the housing element. The city's housing element is current, has been certified by the state, and is not included as a part of this update.</p>		
2016081060	<p>Kaweah Delta Hospital Emergency Services Expansion Kaweah Delta Health Care District Visalia--Tulare</p> <p>The addition, located on an existing Hospital parking lot of a one-level, 13,465 sf expansion of the Hospital's current Emergency Department.</p>	<b>MND</b>	09/22/2016

2010122036	Northstar-at-Tahoe Ski Trail Widening (PEAQ 20090250) Placer County Truckee--Placer The project proposes to widen ten ski trails at the Northstar mountain resort to improve existing circulation and relocate the snowmaking hydrants that are located along five of these trails.	<b>NOD</b>	
2011071022	General Plan Amendment 2011, The Wawona Town Planning Area Specific Plan Update Mariposa County --Mariposa The project evaluated in this Initial Study and Neg Dec is an update to the "Wawona Specific Plan Land Use Policies and Standards Element" that was adopted in 1987 and is currently in place governing the use and development of the Wawona Town Planning Area.  This project is referred to, hereafter, as the "Wawona Specific Plan Update."  The 2006 Mariposa County General Plan identifies 17 planning areas, including the Wawona Town Planning Area. The General Plan states that "area plans may be adopted for purposes of maintaining rural character, identifying and preserving public lands, protecting agriculture lands, or addressing localized issues in greater detail than is possible in the countywide General Plan" (p. 5-28).  The Wawona Specific Plan Update is an integrated, consistent, and compatible statement of policies for the County of Mariposa following direction established by the Board of Supervisors and the Wawona community. Every project is subject to review against the measures in the Wawona Specific Plan Update.	<b>NOD</b>	
2012071065	Harmony Specific Plan (SPR-011-001) Highland, City of Highland, Redlands, Yucaipa--San Bernardino The proposed Harmony Specific Plan is a master-planned residential community consisting of a maximum of 3,632 residential units reflecting a mix of residential product types. Approx. 5.7 acres of the project site is planned for development of neighborhood commercial land uses to provide retail goods and services to the community. An additional 15.9 acres of neighborhood commercial are allowed with a Neighborhood Commercial Overlay. Approx. 830 acres are planned for parks, recreation and open spaces (natural and manufactured). Other permitted uses include, without limitation, public facilities such as a school site, roads and a fire station. In addition to the Specific Plan, the approved project includes implementing approvals such as a General Plan Amendment Zone Change, two tentative tract maps and a statutory Development Agreement. The project also contemplates on and off-site improvements as described in the project approvals.	<b>NOD</b>	
2015121002	99th Street Wells Chloramination Station Project Los Angeles Department of Water and Power Los Angeles, City of--Los Angeles LADWP proposes to construct a chloramination station within the 99th Street Wells Pumping Station in the Watts community of the City of Los Angeles, which is part of LADWP's program to comply with the federal Stage 2 Disinfectants and Disinfection Byproducts Rule (DDBPR) through a system-wide conversion to chloramination of the in-City potable water supply. 2016081065	<p>City of Manhattan Beach Downtown Specific Plan and Local Coastal Program Amendments Manhattan Beach, City of Manhattan--Los Angeles</p> <p>The proposed project consists of the adoption and implementation of the City of Manhattan Beach Downtown Specific Plan and Local Coastal Program amendments. The proposed specific plan is intended to preserve and enhance the downtown's small town resident oriented character, quality of life, and economic vitality through regulations and guidelines.</p> <p>The project includes changes to the general plan, municipal code zoning map and text, and local coastal program implementation program land use policy map and LCP Zoning map and text. These revisions will reflect the new Downtown specific plan. Additionally, in general, items are provided to reconcile the designation nomenclature so that the LCP, including the maps, are consistent with the general plan and zoning maps and the historic and current land uses within the coastal zone. Specifically, the area around 11th St and Highland Ave, with residential uses, will be revised to be high density residential instead of commercial and the area north of 13th St at Morningside Dr, on the Civic Center site, will be revised to be public use instead of commercial.</p>	<b>Neg</b>	09/23/2016
2004112063	<p>Master Permit for Env. Enhancement Projects Santa Cruz County --Santa Cruz</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0205-R, pursuant to section 1602 of the Fish and Game Code to the project Applicant, County of Santa Cruz Parks, Open Space and Cultural Services. The project is limited to construction of an instream sediment basin, construction of a drainage swale, and road improvements as part of a property-wide sediment control project. The sediment basin will be 105 feet long by 70 feet wide and will collect agriculturally derived sediment from neighboring agricultural lands and will hold a maximum volume of 0.15 acre-feet. Road work will include approx. 90 feet of grading, rocking, and creating/modification of rolling dips within the existing road footprint. A 115 linear foot swale will be constructed adjacent to the road to direct the road drainage into the riparian area. During the construction of the swale, there will be minor impacts to native blackberry and willow species.</p>	<b>NOD</b>

2015062037	Sunnyvale Water Pollution Control Plant Master Plan Sunnyvale, City of Sunnyvale--Santa Clara The Master Plan yielded a preferred site plan and a series of capital improvement projects, including replacement of existing and construction of new facilities, to be phased in over the next 20 or more years at and near the WPCP. Many of the existing buildings and processes at the WPCP site would be decommissioned and replaced with new buildings and processes. Improvements planned outside of the main plant area include construction of basins and tanks for emergency water storage and relocation of Bay Trail access to Caribbean Drive.	<b>NOD</b>	
2016032009	Lake Ranch Reservoir Outlet Works Improvements Santa Clara County Saratoga--Santa Clara In accordance with the requirements of the CA Division of Safety Dams, the project entails the rehabilitation of the San Jose Water Company's 70 million gallon Lake Ranch Reservoir and two dams located in Sanborn County Park approx. 2 miles south of the City of Saratoga. The project includes constructing siphons over both dams and grouting the existing outlet pipes. Based on DSOD's drawdown requirements, the siphon at Saratoga Dam will consist of a 12-inch high density polyethylene (HDPE) pipe and at Beardsley Dam the siphon will be a 4-inch HDPE pipe. The pipes will be buried and concrete-encased where they cross over the dam abutments and will be mounted on the lake bottom with floating intakes within the reservoir. Energy dissipation rock riprap structures will be installed at the outlet at Sanborn Creek and Lyndon Canyon Creek. CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2015-0457-R3 pursuant to section 1602 of the Fish and Game Code to the project Permittee, San Jose Water Company.	<b>NOD</b>	
2016061039	Initial Study/Mitigated Negative Declaration for Marketplace at the Colony Atwater, City of Atwater--Merced Subdivision and planned development of a 29 acre project site consisting of two separate parcels, to be developed as a commercial retail center with 168,150 sq. ft. building space on 14 parcels.	<b>NOD</b>

2016088371	Weak BAse Anion Exchange (WBA) Relocation Project State Water Resources Control Board Glendale--Los Angeles The State Water Resources Control Board (State Water Board), as the responsible agency, will be issuing a water supply permit. The City of Glendale proposed project to construct a new Weak Base Anion Exchange (WBA) treatment facility adjacent to the existing Glendale Water Treatment Plant to remove hexavalent chromium from groundwater extracted from the Well GN-3 at a flow rate of 600 gpm. The existing WBA facility at the Well GS-3 site will be removed; the existing resin vessels will be relocated and reused at the new WBA facility.	<b>NOE</b>	
2016088372	WBA Relocation Project Glendale, City of Glendale--Los Angeles The WBA Relocation is to construct a new weak-base anion exchange (WBA) treatment facility adjacent to the existing Glendale Water Treatment Plant to remove hexavalent chromium from the groundwater extracted from the GN-3 well at a flow rate of 600 gpm. The existing WBA facility at the GS-3 well site will be removed; the existing resin vessels will be relocated and reused at the new WBA facility. The project is expected to be online in the first quarter of 2016.	<b>NOE</b>	
2016088373	Prairie City SVRA Sediment Basin Maintenance Parks and Recreation, Department of Folsom--Sacramento The purpose of this project is to maintain a series of storm water control devices in PCSVRA to reduce/manage the sediment discharge off site. Prairie City State Vehicular Recreation Area's water quality tools include a series of twelve sediment basins which are designed to slow storm water runoff, and allow for a reduction of suspended sediment before flowing to the coyote creek waterway. Annual maintenance of these sediment basins includes the use of heavy equipment during the day summer season to remove accumulated sediment from the basin bottoms. Sediment may also be removed from rock-lined culvert channels in the Hangtown track facility. The total area with potential to be disturbed is approximately 200,000 square feet or 4.5 acres, though not all basins are maintained in the same year.	<b>NOE</b>	
2016088374	Monarch Butterfly Grove Tree Planting - Pismo State Beach Parks and Recreation, Department of --San Luis Obispo This project will replace and maintain trees within the monarch butterfly grove. Over the years many eucalyptus, Monterey cypress, and Monterey pine trees have succumbed to storm/wind damage, disease, and maturity. Each lost tree lessens the wind protection and ability for the monarchs to cluster/roost within the grove. This project will plant eighty Monterey cypress trees of various sizes, the largest being 36 inches. Planting will be done in dry conditions, consideration will be given to the proper hole size, hand shovels will be used. There is an above ground drip line irrigation system in place. A small number of wax Myrtle trees will be planted along the Meadow Creek trail to help restore the riparian plant community adjacent to the monarch grove.	<b>NOE</b>

2012032003	Land Use and Transportation Element EIR Sunnyvale, City of Sunnyvale--Santa Clara The LUTE is a part of the City of Sunnyvale General Plan. The LUTE includes a series of land use and transportation goals, policies, and actions that provide direction for how much the city would change and grow, and where the growth would take place for an approximate 20 year horizon - a time frame that is referred to as Horizon 2035. The LUTE also provides a framework for the City to continue to provide transportation facilities to support planned land uses, with an increasing focus on multi-modal and active transportation.	<b>EIR</b>	10/10/2016
2014052071	Village 5 & Special Use District B (SUD-B) Specific Plan EIR Lincoln, City of Lincoln--Placer The proposed Village 5 & SUD-B Specific Plan includes approximately 4,943 acres in the western area of Placer County, immediately west of the City of Lincoln. The project site is located within the adopted Sphere of Influence of the City of Lincoln. The proposed project would create a mix of land uses including residential, retail commercial, office/business professional, recreational, open space, and public/quasi-public, consistent with development patterns in Lincoln. The project site would be annexed to the City of Lincoln.	<b>EIR</b>	10/10/2016
2015122038	Merry Moppet Preschool & Belmont Oaks Academy Rezoning and Master Plan Expansion Project Belmont, City of Belmont--San Mateo The project would demolish four classroom buildings (two modular buildings and two wood structures), two maintenance and storage buildings, a pool, a retaining wall, and associated minor site features. The project would construct a new 2-story, 12,150 square foot six-room classroom building, renovate and replace existing play areas, renovate interiors of existing classroom and administrative space, and small site improvements as needed for these improvements. Other project components include installation of drainage features and landscaping, tree removal as necessary for the new building, rezoning the site from R-3 to Planned Development (PD), Conditional Use Permit, and approval of a new setback along Merry Moppet Lane. No expansion of parking is proposed.	<b>EIR</b>	10/10/2016
2015102071	Tierra Linda Campus Rebuild San Carlos School District San Carlos--San Mateo Notes: 1 Hard Copy  The San Carlos School District proposes building renovations and new construction for the Tierra Linda Middle School campus. The new Dartmouth Bridge School (temporary name) would be located at the site of the existing Tierra Linda (TL) Middle School in northern San Carlos. With the project, the TL Middle School (which currently serves Grade 5 through 8) would serve Grades 6 through 8, and the new Dartmouth Bridge School would serve Grades 4 and 5. In addition, new buildings would be provided for the existing San Carlos Charter Learning Center that resides on the TL campus. Total on-campus enrollment would increase from approximately 1,058 students to a capacity of 1,396 students. About 27,900 gross square feet of new building area would be provided on the campus.	<b>FIN</b>

	parking area (including two level of subterranean parking). The project would also include residential amenities such as a pool, fitness center, community room, and roof deck.		
2016081068	7985 Santa Monica Boulevard Project West Hollywood, City of Los Angeles, City of--Los Angeles Project site includes 7985 and 7965 Santa Monica Boulevard. The proposed project involves demolition of the two story building at 7985 Santa Monica Boulevard and removal of the adjacent parking lot to construct a 79,000 sf commercial building. The proposed building would consist of office, retail, and restaurant spaces, and a subterranean nightclub. The project would also include three levels of subterranean parking containing 250 spaces. The existing one-story night club building at 7965 Santa Monica Blvd would remain.	<b>NOP</b>	09/26/2016
2016082069	Water Master Plan Modesto, City of Modesto--Stanislaus The Proposed Program would consist of a Capital Improvement Program (CIP) for system-wide implementation needed to ensure adequate water infrastructure and services are available to meet water demand requirements under both existing and future developed conditions. The CIPs proposed in the Master Plan include water storage tanks, groundwater wells, wellhead treatment or blending facilities, pump stations, extension of water pipelines, and repair or replacement of water pipelines. Other CIPs include installation of back-up power generators at various booster pump stations for tanks and wells. Additionally, the Master Plan includes construction of a new corporation yard and an aquifer storage recovery program. The CIPs would be implemented within the City's contiguous and outlying service areas.	<b>NOP</b>	09/26/2016
2014112066	PA-1400173 (SA) San Joaquin County Lodi--San Joaquin A one-year time extension application for a previously approved site approval application for a farm services headquarters for a manure spreading business. The project includes the conversion of a 1,000 sf portion of an existing 3,000 sf agricultural building into an office and indoor and outdoor equipment storage areas.	<b>Neg</b>	09/26/2016
2002041161	Mt. San Antonio College 2015 Facilities Master Plan Update and Physical Education Projects EIR Mt. San Antonio Community College Walnut--Los Angeles CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0022-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Mount San Antonio Community college District, as represented by Mr. Michael Gregoryk. The project is limited to the grading of two, unimproved and unnamed ephemeral streambeds (tributaries to Snow Creek) to accommodate future access and to accommodate a building pad for the approx. 2 megawatt photovoltaic solar project on approx. 17.22 acres. The project would impact 0.06 acres of mule fat scrub and 0.14 acres of sparsely vegetated ephemeral streambed, which will be mitigated through the creation of 0.20 acre, and restoration and preservation of no less than 0.12 acre of mule fat scrub.	<b>NOD</b>

2004041081	<p>Precise Development Plan and Desalination Plant Project (EIR 03-05) Carlsbad, City of Carlsbad, Oceanside, San Marcos, Vista--San Diego</p> <p>The proposed CDP modifications to facilitate permanent stand-alone operation of the CDP consist of construction and operations of a new screening/fish-friendly pumping structure, a fish return system, and auxiliary facilities. Additional processing improvements could potentially increase annual average production from the existing 50 mgd to 55 mgd in the future. As a permanent stand-alone facility, a maximum of 299 mgd of seawater would be withdrawn from the Agua Hedionda Lagoon: up to 127 mgd for processing by the CDP, up to 198 mgd for flow augmentation used for brine dilution, and approx. 1 mgd for screen wash and fish return. The flow rates for processing and flow augmentation are interrelated such that total flow rate, inclusive of processing, flow augmentation, screen wash and fish, return will not exceed 299 mgd. Up to 60 mgd of the diverted seawater would be converted to fresh water that is delivered to the Water Authority at the CDP property line. The remaining flow (up to 67 mgd) and treated backwash water from the pretreatment filters (up to 7 mgd). The salinity of the discharge prior to dilution is approx. 64 ppt (67 ppt with no backwash water included), whereas the average salinity of the seawater in the vicinity of the discharge tunnel is 33.5 ppt. Poseidon is proposing an initial dilution of the brine to 42 ppt or less prior to discharge to the ocean. This is accomplished by mixing the CDP discharge with the flow augmentation seawater. The combined CDP discharge, flow augmentation and fish return system flow rate is up to 244 mgd. As compared to the existing project operations, the modified CDP operations described above would achieve a potential 10% average annual increase in fresh drinking water production while reducing the total quantity of seawater required for processing and brine dilution purposes.</p>	<b>NOD</b>	
2008011118	<p>Ferguson Slide Permanent Restoration Project Caltrans #6 --Mariposa</p> <p>Project, as approved by CDFW on Dec. 18, 2015 involves the construction of a 700-foot long rock shed along the existing alignment of SR 140 to reestablish two-lane traffic in an area previously impacted by a series of major rockslides in spring 2006. The project is expected to result in incidental take of limestone salamander (<i>hydromantes brunus</i>) (Covered Species), which is designated as a threatened species under the CESA. Major Amendment No. 1 authorizes changes to the project description to include geotechnical drilling activities; increasing the amount of Covered Species habitat disturbance; expands the take minimization measures by adding specific measures to geotechnical drilling activities; and adjusts the required submission date of the Vegetation Restoration Plan. As amended, the project will result in impacts up to approx. 3.04 acres of Covered Species habitat including 1.32 acres of permanent impacts. This ITP amendment does result in a small change to the project footprint and the amount of impacted Covered Species habitat.</p>	<b>NOD</b>	
2011122009	<p>Use Permit 09-015 (Leaf) Shasta County --Shasta</p> <p>Project is limited to the replacement of an existing pedestrian bridge over an Indian Springs Creek with a larger bridge within the same general footprint. The new bridge will be approx. 80-feet in length and will be placed on cast-in-place concrete abutments located outside the top of bank. Water and electrical utilities</p>	<b>NOD</b>

2016089025	<p>Amending the Water Quality Control Plan for the Central Coastal Basin to Adopt Total Maximum Daily Loads for Nitrogen Compounds and Orthophosphate in Streams of Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo --San Luis Obispo The Central Coast Regional Water Quality Control Board adopted this Basin Plan amendment by Resolution No. R3-2015-0004 at the July 30, 2015 board meeting. Further, this action by the Central Coast Water Board was subsequently approved by the SWRCB by Resolution No. 2016-0018 on April 5, 2016. The Central Coast Water Board's goal for establishing this Basin Plan amendment is to rectify water quality impairments related to nitrate, un-ionized ammonia, and orthophosphate, thereby providing support for the designated beneficial uses of surface waters in the river basin. Responsibility for achieving pollutant load reduction falls upon several entities as described in Resolution No. R3-2015-0004. The Central Coast Water Board is relying on existing regulatory measures in the river basin to ensure TMDL implementation is carried out by implementing parties. These regulatory measures include NPDES stormwater permits, NPDES wastewater permits, and the Conditional Waiver of Waste Discharge Requirements for Discharges from Irrigated Lands (Order No. R3-2012-0011) as modified by Order WQ-2013-0101). Further, this Basin Plan amendment utilizes an implicit margin of safety to account for uncertainties.</p>	<b>NOD</b>

The plan will address key factors affecting future development within the plan area, including but not limited to: land use patterns in the context of the metropolitan Bakersfield general plan, architecture and urban design, infrastructure, multi-modal transportation services and circulation, parking, pedestrian and bicycle access, open space and recreation, arts and culture, and other principal factors. The plan envisions a phased approach to future physical development, including a long term (30 year) development projection which envisions the following development statistics: up to 2,005,000 sf of office; up to 8,570 residential units; up to 906,000 sf of retail; and up to 2,400 hotel rooms.	<b>NOP</b>	09/27/2016
2016082073	Lincoln40 Project Davis, City of Davis--Yolo The proposed project would include development of the project site for residential land uses and is anticipated to include a main building footprint of 55,032 sq. ft., with associated parking, patio and walkway paved areas covering an additional 96,969 sf, resulting in an overall lot coverage of 60 percent. With a site area of 5.92 acres, and 130 proposed units, the project would include a residential density of 22 units per acre. The proposed residential structures would range from three to five stories, and would include a mix of two-bedrooms included in the proposed project, 239 bedrooms would be designed as double occupancy rooms with attached bathrooms; thus, the estimated total beds of the proposed project is 708. The project would also include the construction of a manager's facility, fitness center, bike repair facility, indoor and outdoor lounge areas, and a resort-style pool with barbeques and fire pits. Parking would be provided for both vehicles and bicycles, with 239 proposed parking stalls and 708 bicycle parking spaces. The project would require City of Davis approval of the following entitlements: Amendment to the Land Use and Zoning Plan of the Gateway/Olive Drive Specific Plan to change the project site's designation from RMD and EOMU to Residential High Density; Amendment to the text of the Gateway/Olive Drive Specific Plan to increase the maximum allowable density, lot coverage, and building height standards for the Residential High Density designation; Lot merger and re-subdivision (Tentative Map) Design Review for new buildings and site improvements; and Affordable Housing Plan.	<b>NOP</b>	09/27/2016
2016082075	Belmont General Plan Update, Belmont Village Specific Plan, and Climate Action Plan (CAP) Belmont, City of Belmont--San Mateo Three projects are to be covered by this EIR. The Belmont General Plan is a comprehensive update to all elements of the City's General Plan except the 2015-2023 Housing Element (which was adopted in May 2015). The Belmont Village Specific Plan provides more detailed policy direction, development standards, and implementation actions for redevelopment of the City's downtown area. The Climate Action Plan will serve as a qualified greenhouse gas reduction strategy consistent with the goals of AB 32 and CEQA Guidelines.	<b>NOP</b>	09/27/2016

2016082076	PA-1600176 (MS) San Joaquin County Stockton--San Joaquin A minor subdivision application to subdivide a 40.12 acre parcel into two parcels. Parcel 1 is to contain 2.12 acres. Parcel 2 is to contain 38.00 acres.	<b>Neg</b>	09/27/2016
1995103035	Oak Knoll Mixed Use Community Plan Project Oakland, City of Oakland--Alameda The Oak Knoll Project proposes a planned unit development and preliminary development plan for development of a new mixed use community of up to 935 residential units and a total of 82,000 sf of neighborhood commercial uses in a new Village Center. The project would establish approximately 67.6 sf of parks and open spaces for active and passive recreation, and approximately 3.5 miles of community wide trails that will link the site to the existing East Bay Regional Park District trail system. The project also involves the restoration and enhancement of approximately 16.7 acres of riparian areas along Rifle Range Creek and onsite tributaries, (Hospital Creek and Powerhouse Creek). A new bridge crossing of the creek is proposed.	<b>SIR</b>	10/12/2016
2000062079	UP99-017A1 Shasta County Burney--Shasta The request is for a use permit amendment to expand the existing industrial use of the property to include a 3MW bioenergy power generation facility. The facility would use a gasification process to produce volatile "syngas" primarily from wood waste biomass. The syngas would be used as fuel for electric generating combustion engines. Electricity produced by the facility would be exported to the power grid. "Biochar," a byproduct of the gasification process, would be sold as an agricultural amendment. The facility would consist of the electricity generating gasification plant, a biomass storage area, and a biochar storage area.	<b>NOD</b>	
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Watsonville--Santa Cruz CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0205-R, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Resource Conservation District of Santa Cruz County. Project is limited to enhancement and expansion of existing wetland habitat for amphibian species. Construction will consist of clearing vegetation from the project site, excavation, berm construction, erosion control, and revegetation. Approx. 6 to 8 inches of topsoil and some of the native wetland plants will be set aside to be reapplied and replanted after excavating a 0.13-acre area and up to 300 cubic yards of soil. Approx. 110 cubic yards of clay will be imported to the site to be used for a key trench in the berm and to extend the hydroperiod of the site. The clay will be applied at a minimum of 1 foot thickness to the bottom of the wetland and inside the berm. The wetland will be planted with a variety of wetland plants to improve amphibian breeding.	<b>NOD</b>	
2008041123	Pepperdine University Campus Life Project Los Angeles County Malibu--Los Angeles CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2015-0236-R5) to	<b>NOD</b>

	the project applicant, Pepperdine University. The project consists of reconfiguration and relocation of the existing Marie Canyon debris basin and the stockpile approx. 400 feet upstream and the filling of the existing debris basin for construction of an expanded recreational area with turf field, restroom/storage facility, and lights, along with the continued retention to the new debris basin, stockpile, and their appurtenant facilities. The project proposes to impact 0.48 acres of streambed/lake, including 0.05 acres of permanent impact to mulefat scrub habitat and 0.15 acres of permanent impact to coastal sage scrub habitat and mitigate with 0.48 acre of creation or restoration and 0.48 acre of enhancement.		
2012032012	Lake Merritt Station Area Plan Oakland, City of Oakland--Alameda The proposed W12 Mixed-Use Project ("proposed project") would be two seven-story, approx. 87-foot tall buildings containing up to 416 residential units, approx. 225,050 sq. ft. of commercial space, and up to 317 on-site parking spaces. The project will replace a single structure being used for a school (Downtown Oakland Charter School) and public parking, and a paved recreation area.	<b>NOD</b>	
2012082033	Elk Grove-Florin Road Bridge at Elder Creek Sacramento County --Sacramento To replace the existing Elk Grove-Florin Road Bridge over Elder Creek and the approach roadway. The existing creek channel will be widened to accommodate the new bridge. The new bridge will be 61 feet long and 109.5 feet wide, a single-span with 6-foot wide sidewalks, a 12 foot wide raised median and a 7-foot wide bike lane. The abutment slopes will be protected with rock slope protection.	<b>NOD</b>	
2015062079	Murphys Sanitary District Wastewater Treatment Plant Upgrade Project Murphys Sanitary District Murphys--Calaveras The MSD provides wastewater collection, treatment and disposal services to the unincorporated community of Murphys and surrounding area within its service boundaries. The 2016 Project Engineering Report Update lists the following Project improvements: Relocate the existing headworks, install a new spiral screen at headworks, Paved access and working area on APN 068-014-007, install a buried valve box, replace the existing influent pumps, replace aeration system, increase Pond 4 storage capacity, replace existing disinfection system, and remove accumulated sludge from Pond 1.	<b>NOD</b>	
2015082054	Corralitos Creek Diversion Operations and Maintenance Watsonville, City of Watsonville--Santa Cruz Project is limited to the operations and maintenance of a surface water diversion and fishway facilities in Corralitos Creek. The diversion structure consists of a weir across the stream channel and an upstream intake tower. The weir is concrete and is approx. 8.5 feet tall, 35 feet wide and 52.5 feet in length. The weir includes a 31-foot ogee type spillway in the channel along the left bank (look downstream) and a fish ladder along the right bank. Flows are diverted through the intake tower on the left bank about 25 feet upstream of the weir and the maximum instantaneous rate of surface water withdrawal is 3.9 cubic feet per second. The Permittee claims basis of right to divert water under a pre-1914	<b>NOD</b>

	diversion right. The CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2015-0201-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, City of Watsonville as represented by Steve Palmisano.		
2015122055	2016 Fisheries Restoration Grant Program, the Steelhead Report Fish & Wildlife #2 --Mendocino Project is limited to the placement of approx. 70 logs at 30 sites along a 3,389 foot stream reach of Noyo River and a 491 foot reach of Burbeck Creek.	<b>NOD</b>	
2015122055	2016 Fisheries Restoration Grant Program, the Steelhead Report Fish & Wildlife #2 --Mendocino The Grantee will install riparian fencing along both banks of 1.25 miles of Big Rock Creek, create an alternate water source to address livestock needs, and install native trees at eight sites where shade is lacking.	<b>NOD</b>	
2016031075	University Hills Area 11 Faculty and Staff Housing University of California, Irvine Irvine--Orange The proposed project would construct approx. 300 affordable housing units (85 for-sale, clustered-detached homes; 75 for-sale, standard lot homes; and up to 140 rental, attached townhomes) to be occupied by the UC, Irvine faculty and staff. The project site encompasses approx. 34.2 acres in the University's East Sector. Development of the project site would include approx. 29.2 acres of neighborhood use and associated infrastructure, including one acre of combined park space at the north and southeast portions of the project site, roadways, sidewalks, and street parking.	<b>NOD</b>	
2016042008	MDP 2016-06 Sunburst Plant Disease Clinic Turlock, City of Turlock--Stanislaus The applicant is requesting to develop a 5.08 acre property for the new headquarters for a full service agricultural laboratory. The project will consist of the construction of two buildings totaling 18,681 sq. ft. that will house the offices and laboratories and six 4,900 sq. ft. greenhouses. The office and laboratory buildings will be connected with a covered walkway. The facility will operate 7:00 a.m. to 6:00 p.m., Monday through Friday. Approx. 25 employees work on-site during the normal work week. Staff and some guest parking will be located in a fenced and gated area, however, the gates will be open to the public during normal business hours. On-site improvements include paving, staff and guest parking, landscaping, fencing, signage and a Torii Gate entry feature.	<b>NOD</b>	
2016089021	Rincon Minor Use Permit Modification, Record ID: PDS2016-ZAP-03-016W1 San Diego County --San Diego Minor Use Permit Modification to install new monopine, mount four antennas on the monopine, and relocate existing onsite microwave antenna onto the monopine. Also add crossbar to existing, separate support pole, replace existing antennas on the pole, and add faux vegetation camouflage.	<b>NOD</b>

2016012048	Sutter Pointe Regional Wastewater Conveyance Project Sutter County --Sutter, Sacramento The proposed project would include the construction of pumping facilities and parallel force mains from the SPSP to a point of connection with the UNWI near the intersection of West 6th St and Elkhorn Blvd in Rio Linda, an unincorporated community in Sacramento County. SASD would provide wastewater system operation and maintenance services to the SPSP area. The objectives of the proposed project are to: 1) provide adequate wastewater conveyance, treatment and discharge to support buildout of the SPSP area in compliance with the SPSP and Sewer Master Plan, 2) not adversely affect the conveyance or treatment capacity of existing facilities, and 3) comply with the Natomas Basin Habitat Conservation Plan, Sacramento Area Flood Control Agency flood control plans, and other conservation plans.	<b>EIR</b>	10/13/2016
2014121046	National City Marine Terminal Tank Farm Paving and Street Closures Project & Port Master Plan Amendment San Diego Unified Port District National City--San Diego Note: 1 CD  The Project includes the following components: (1) Paving of the former National City Marine Terminal (NCMT) Tank Farm; (2) Closure of portions of Quay Avenue and 28th Street, 32nd St; (3) a Port Master Plan Amendment (PMPA) to remove the streets from the Port Master Plan; and (4) Potential renewal of four short-term use permits. The proposed tank farm and street closure site encompass approximately 9.7 acres, and the four short-term use permit sites are divided between four areas in National City that comprise approximately 47.3 acres. Combined, the overall Project site covers approximately 57 acres. The Project will provide additional space for marine terminal operations, including primarily import, export, handling, and storage of motor vehicles and may also include cargo transported aboard a Pasha Hawaii Transport Lines vessel.	<b>FIN</b>

2016081073	Grading Permit Old Creek Rd. LLC; PMT2015-02857 San Luis Obispo County --San Luis Obispo Request by Hughes PR Industries for a major grading permit for the placement and distribution of approximately 67,000 cy of excavated sediment and silt fill material over two proposed fill locations, totaling approximately 419,000 sf (9.62 acres). The sediment/silt fill material would be excavated from the southwestern portion of an existing agricultural reservoir located within 0.5 miles of the proposed upland fill locations on the Old Creek Ranch property. The project site is located at Old Creek Ranch, 3540 Old Creek Rd, approximately 5.75 miles northeast of the community of Cayucos. The project site is within the North County planning area (Adelaida Sub Area).	<b>MND</b>	09/28/2016
1997062089	General Plan Land Use and Transportation Element Oakland, City of Oakland--Alameda To remove existing surface parking lot and construct a seven-story building containing 224 dwelling units and approx. 4,000 sq. ft. of ground floor commercial.	<b>NOD</b>	
2009092065	City of Oakland 2007-2014 Housing Element EIR Oakland, City of --Alameda To remove existing surface parking lot and construct a seven-story building containing 224 dwelling units and approx. 4,000 sq. ft. of ground floor commercial.	<b>NOD</b>	
2010102024	Proposed Amendments to the Central District Redevelopment Project Area Plan Oakland, City of Oakland--Alameda To remove existing surface parking lot and construct a seven-story building containing 224 dwelling units and approx. 4,000 sq. ft. of ground floor commercial.	<b>NOD</b>	
2011091055	Crystal Geyser Roxane Cabin Bar Ranch Water Bottling Facility Project Inyo County --Inyo The project would develop a spring water bottling facility and ancillary uses. The water bottling facility would include an approximately 198,500-sf bottling plant facility with four bottling lines and an approximately 40,000 sf storage warehouse. Proposed ancillary uses include rooftop solar array, a fire suppression building, a stormwater detention basin, a leach mound, a fire access road, and a parking and truck staging area. To provide adequate access from US 395 to the bottling facility, the project would remove the site's existing access road (i.e., Cabin Bar Ranch Road) and construct a new permanent access road approximately 2,500 feet to the south. The bottling facility would utilize spring water from three existing production wells to supply the bottling operations. The project would also use a fourth existing well to provide domestic potable water to the water bottling facility's employees.  The project will permanently remove 2.88 acres of Swainson's hawk, western yellow-billed cuckoo, southwestern willow Flycatcher, and least Bell's vireo habitat. The project is expected to result in incidental take of Swainson's Hawk, which is designated as a threatened species and yellow-billed cuckoo, southwestern willow flycatcher, and least Bell's vireo, which are designated as endangered under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.	<b>NOD</b>

	This ITP Minor Amendment No. 2 requires the Permittee to place an onsite area of 2.58 acres of red willow thicket habitat and 0.3 acres of man-made pond under a conservation easement, as well as provide CDFW with \$27,511.00 to be used towards the enhancement, restoration and management of riparian habitat on the permanently protected and CDFW-owned and managed Cartago Springs Cartago Wildlife Area.		
2014062006	Exchange of Recycled Water / Application to Appropriate Water from San Joaquin River Turlock, City of Patterson--Stanislaus The City of Turlock filed an application to appropriate water from the San Joaquin River by permit with the SWRCB. Turlock proposes to appropriate up to 13,393 acre-feet of water per year made available by its tertiary recycled water discharge to the San Joaquin River pursuant to CA Water Code Section 1485. Water appropriated under this right will be diverted at the Patterson Irrigation District (PID) Intake and conveyed through the PID Canal and the Delta-Mentoda Canal, for ultimate delivery and irrigation use at the Del Puerto Water District.	<b>NOD</b>	
2015052059	Routine Maintenance of Stream Channels and Drainage Facilities Elk Grove, City of Elk Grove--Sacramento CDFW has executed lake and streambed alteration agreement no. 1600-2016-0034-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, city of Elk Grove. The City of Elk Grove Development Services will be continuing routine maintenance of various streams and channels within Elk Grove, including Laguna Creek, Strawberry Creek, Franklin Creek, Shed A Channel, Shed B Channel, Shed C Channel, and Grant Line Channel and their tributaries. Maintenance activities include removal of silt, sand, sediment, debris, vegetation and obstructions; minor erosion control, work and repair of previous erosion control work; bridge washing and painting; and geotechnical sampling.	<b>NOD</b>	
2015062030	Kimball Reservoir Inlet/Outlet Calistoga, City of Calistoga--Napa The purpose of the proposed project is to replace and rehabilitate aging infrastructure at Kimball Dam and Reservoir. The proposed project would involve minor roadway improvements to allow the transport of construction equipment, intake tower removal and replacement with a sloped intake, outlet pipe repair/replacement, drain valve vault replacement, and Water Treatment Plant pipe repair/replacement. The reservoir would be drawn down in order to undertake these improvements.	<b>NOD</b>

2016022039	Half Moon Bay Building and Garden Concrete Batch Plant Replacement Project Half Moon Bay, City of Half Moon Bay--San Mateo Coastal Development Lot Line Adjustment Zoning Boundary adjustment and Local Coastal Program Land Use Map Boundary Adjustment to allow upgrading and relocation of an existing cement batch plant. The new batch plant would be enclosed in a building and located approx. 200 feet to the east of the existing batch plant.	<b>EIR</b>	10/14/2016
2016081074	UWS 24th Street Transfer Station Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project entails construction and operation of a one story/50' +/- tall, 30,000 sf solid waste transfer station and application for a 1,000 ton per day solid waste facility permit on approximately 1.3 acres (two separate parcels) located at 2440-2460 E. 24th St and 2465 E. 25th St in the City of LA. Parcel 1 is approximately 46,000 sf in area, and will be developed with the transfer station building which will include an at grade load out area, a tipping area which can accommodate multiple collection vehicles, a hazmat locker, and separate ingress/egress points for collection and transfer trucks. A 45 ft long automated scale will also be included on parcel 1. The project may also include food waste processing equipment. Parcel 2 is approximately 11,600 sf in area and will be developed offices and parking.	<b>MND</b>	09/29/2016
2016082078	RD 784 Routine Maintenance Agreement 1600-2015-0070-R2 Stormwater Ditches and Basins Reclamation District 784 --Yuba RD 784 proposes to enter into a long term routine maintenance agreement with CDFW, under the lake or streambed alteration program. This RMA would cover routine maintenance activities occurring within the 29,000 acre RD including 60 miles of internal drainage canals, basins and pumping stations. RD 784 previously obtained an agreement with CDFW (permit #1600-2006-0272-R2). RD 784 is now seeking to enter into a 12 year RMA, with an optional 5 year renewal. Routine maintenance under the agreement is defined as recurring maintenance work that is necessary to maintain the functional integrity of existing RD 784 internal seasonally dry drainage canals and basins.	<b>MND</b>	09/29/2016
2016082079	Kirker Pass Northbound Truck Climbing Lane Contra Costa County Concord--Contra Costa The County Public Works Dept proposes to provide a northbound truck climbing lane and paved shoulders for future class II bike lanes. The project is intended to improve circulation for motorists and bicyclists along this stretch of road. The road is frequently used by commuters and has heavy truck traffic. With sustained grades steeper than 8 percent, trucks are unable to match the speed of other vehicles on the roadway, causing significant congestion and impacting traffic flow. Project elements will include roadway widening for the truck climbing lane, paved shoulders for future class II bike lanes, relocation of drainage features, retaining wall construction; installation of signage and striping; construction of two bioretention areas; roadway conforms due to change in grade; and relocation of other existing roadside features.	<b>MND</b>	09/29/2016

2016091004	Westbridge School Coalinga, City of Coalinga--Fresno The proposed project would convert the vacant office structure into a special needs private school. The hours of operation would be Monday through Friday, 8 AM to 5 PM and student enrollment would be limited to a total of 40 students. The project would utilize the existing building as follows: 700 sf of office space, 800 sf of storage space, 500 sf for an assembly area, and 4,000 sf for classrooms. The project would utilize the existing parking lot and on street parking spaces. The project would have a total of 11 employees.	<b>Neg</b>	09/30/2016
2014061073	Cambria Sustainable Water Facility Project Cambria Community Services District Cambria--San Luis Obispo The project, which was substantially completed in November 2014 and is currently operational, considers the construction and continued operation of the sustainable water project. CCSD's Board of Directors approved proceeding with the project, which the Board determined was statutorily exempt from CEQA under the emergency exemption provisions of CEQA, on Jan 30, 2014. The County of San Luis Obispo issued an emergency coastal development permit to CCSD on May 15, 2014, permitting CCSD to proceed with the construction and operation of the project. Construction began on May 20, 2014. One of the conditions of the ECDP was that CCSD apply for a regular coastal development permit for the emergency project.	<b>SIR</b>	10/14/2016
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Watsonville--Santa Cruz CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0205-R, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Land Trust of Santa Cruz County. Project is limited to construction of a tile drain denitrification system (bio reactor) and sediment basin to treat concentrated runoff from approx. 160 acres of surrounding farmland. A 150-foot by 75-foot sediment basin will be constructed adjacent to a 150-foot by 55-foot bioreactor. The sediment basin will receive pumped drainage water that collects in low elevation areas of adjacent farms before it enters the bioreactor. A 1,000 gallon storage tank will be placed in low elevation areas of adjacent farms before it enters the bioreactor. A 1000-gallon storage tank will be placed adjacent to the bioreactor to receive pumped inflow prior to discharging into the bio reactor. Two 9-inch risers will be installed in the southeast corner of the property to connect an underground waterline to the sediment basin. A 600-foot by 15-foot grassed swale will be installed to direct flow and reduce flow velocities of stormwater runoff.	<b>NOD</b>

	Program described in the Final SJRRP Programmatic Environmental Impact Statement/Report.		
2008011118	Ferguson Slide Permanent Restoration Project Caltrans #6 --Mariposa Project, as approved by CDFW on Dec. 18, 2015 involves the construction of a 700-foot long rock shed along the existing alignment of SR 140 to reestablish two-lane traffic in an area previously impacted by a series of major rockslides in spring 2006. The project is expected to result in incidental take of limestone salamander ( <i>hydromantes brunus</i> ) (Covered Species), which is designated as a threatened species under the CESA. Major Amendment No. 1 authorizes changes to the project description to include geotechnical drilling activities; increasing the amount of Covered Species habitat disturbance; expands the take minimization measures by adding specific measures to geotechnical drilling activities; and adjusts the required submission date of the Vegetation Restoration Plan. As amended, the project will result in impacts up to approx. 3.04 acres of Covered Species habitat including 1.32 acres of permanent impacts. This ITP amendment does result in a small change to the project footprint and the amount of impacted Covered Species habitat.	<b>NOD</b>
