

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

December 1 – 15, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 – 15, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse

<u>Documents Received on Tuesday, December 01, 2015</u>			
2015122003	<p>Use Permit Application No. PLN2015-0081 - Sullivan Road Solar Stanislaus County Newman--Stanislaus</p> <p>Request to establish 40 megawatt (MW) solar facility on 154 acres of two parcels, totaling 594+- acres on marginal grazing land. Cattle grazing will continue during the life of the project. A Habitat Assessment report was completed to ensure that construction avoided sensitive habitat. At the end of the project life the equipment will be removed and the land reclaimed. The applicant is proposing to enter into a power purchase agreement with PG&E.</p>	CON	12/18/2015
2007121012	<p>6433 La Tuna Canyon Road Project Los Angeles, City of Los Angeles, City of--Los Angeles Note: Extended Review per lead</p> <p>The project proposes to subdivide and subsequently develop 229 homes on the 57.45 acre Project Site (Approx. 3.93 units per acre). The development will be a private community with gated access and private roads. Lot sizes will range from 2,560 to 10,720 sq. ft. in area. Lot widths will range from 32 feet to 40 feet: 84 lots will have a width of 32 feet, 80 lots will have a width of 35 feet and 65 lots will have a width of 40 feet. The proposed homes will range in size from 1,800 to 2,700 sq. ft. in building area and will have a maximum height of 30 feet (two-stories). Two basic models are proposed: 137 units will have four bedrooms while 92 will have five bedrooms. Each home will have a two car garage.</p>	EIR	02/03/2016
2015041001	<p>NoHo West Los Angeles, City of --Los Angeles Note: Extended Per Lead</p> <p>The project includes demolition of the existing 90,000 sf office building at the corner of Laurel Canyon and Erwin Street and ~30,000 sf of the existing Macy's annex building. The main Macy's building would be expanded and re-used for ~500,000 sf of office uses. The project also involves development of the remainder of the Project site with ~300,000 sf of commercial uses, as follows: 142,513 sf of retail land uses, 48,687 sf of restaurant land uses, 40,000 sf of health club/gym, and 68,800 sf of cinema uses (with 1,750 seats). The project also includes the development of two residential buildings containing a total of 742 residential units.</p>	EIR	02/12/2016

<u>Documents Received on Tuesday, December 01, 2015</u>			
2015041022	Jimmy Durante Boulevard and San Dieguito Drive Intersection Improvements Del Mar, City of Del Mar--San Diego The Jimmy Durante Blvd. and San Dieguito Dr. Intersection Improvement Project evaluates two project alternatives and the "no project" alternative to determine current and potential future improvements that would provide for pedestrian safety and improved traffic flow through the intersection. The proposed project is a traffic roundabout, with the project alternatives being; a traffic signal, and the existing condition, or "no project" alternative, being a side street stop control. Any project improvements would be within the existing City of Del Mar street right-of-way without expanding capacity, and the project would not impact the San Dieguito River.	EIR	01/14/2016
2014042069	Corte Madera Inn Rebuild Corte Madera, City of Corte Madera--Marin Note: 1 HC This REIR addresses the following two components that are intended to supplement the DEIR on the Corte Madera Inn Rebuild Project: A new alternative (Alternative 4) for a 187-room hotel (130,326 sf of gross floor area) and retention of the on-site pond; and Revisions to Section 4.12, Transportation/Traffic, of the DEIR to address a study of Madera Boulevard. In May site pond; and Revisions to Section 4.12, Transportation/Traffic, of the DEIR to address a study of Madera Boulevard. In May 2015, a traffic study was completed to evaluate the overall safety conditions as related to traffic circulation on Madera Boulevard between Tamal Vista Boulevard, and U.S. Highway 101. This study was originally recommended in Mitigation Measure TRAFFIC-1 of the DEIR; mitigation measures for traffic safety have been revised to reflect results of this study.	FIN	
2014091039	Vineyard at Delano and Delano West Pavilion Projects Delano, City of Delano--Kern Note: 1 HC The development of 872 medium density residential units and 340,000 sf of commercial uses on ~110 acres in southwestern Delano.	FIN	
2015121001	SWG Paso Vineyards, LLC Frost Protection and Irrigation Reservoir San Luis Obispo County --San Luis Obispo Request by Jim Ledbetter and SWG Paso Vineyards, LLC for a major grading permit to construct two high-density polyethylene (HDPE)-lined agricultural reservoirs (Reservoir 1 and Reservoir 2) with maximum holding capacities of 49.8 and 33.6 acre-feet, respectively, to provide frost protection and irrigation for an existing 493.24-acre vineyard. The project includes removal of 2.66 acres of existing irrigated alfalfa to offset evaporative water losses.	MND	12/30/2015
2015121004	Fire Station No. 2 Lompoc, City of Lompoc--Santa Barbara A request by the City of Lompoc Fire Dept. to construct a new fire station with attached offices to serve as the Fire Dept. administration office and City	MND	12/30/2015

	Emergency Operations Center. The building would be approx. 24,157 sq. ft.		
2015121006	MND and Support IS for PG&E Company Gas Pipeline-300A/B Vegetation Management Project Fish & Wildlife #4 --San Benito Note: Review per lead	MND	01/15/2016
	PG&E proposes to remove trees and woody brush in riparian and non-riparian areas along 37.5 miles of the GL 300A and GL 3008 Rights of Way in an unincorporated portion of San Benito County. Although project activities would be located along the 37.5 mile ROW, vegetation removal would only be required in select areas along the ROW comprising approx. 18.17 acres. Temporary work and staging areas comprise an additional 5.5 acres. PG&E proposes to remove all trees within approx. 10 feet of the outer edge of the pipe and all other woody vegetation within 5 feet of the outer edge of the pipeline. Vegetation determined to be a hazard outside of the Pipe and Border Zones up to 14 feet from the edge of the pipeline may also be removed.		
2015121007	Segment C of the Park to Playa Trail Baldwin Hills Regional Conservation Authority Culver City, Los Angeles, City of--Los Angeles The BHRCA is proposing a new trail on its property to connect the Baldwin Hills Scenic Overlook to the Kenneth Hahn State Recreation (KHSRA). The trail would include installation of native landscaping, fencing, gates, signage, stairway, and a new trail from parking Baldwin Hills Scenic Overlook; through BHRCA-owned property (adjacent to the future Stoneview Nature Center), and connection pedestrian bridge over La Cienega Blvd to the Kenneth Hahn State Recreation Area (KHSRA).	MND	12/30/2015
2015121008	Santa Ana Country Club Golf Course Revitalization Project Orange County Costa Mesa, Newport Beach--Orange The proposed Santa Ana Country Club Golf Course Revitalization Project proposes to improve and revitalize the SACC golf course. The improvements include, but are not limited to, upgraded course facilities, enhanced course playability, reduced water demand, improved drought tolerant landscaping, reduced stormwater discharge, deferred maintenance repairs, replaced sewer lines, and a more efficient irrigation system by upgrading facilities, enhancing course playability, and substantially reducing water demand.	MND	12/30/2015
2015122001	Mitigated Negative Declaration for Truckee Master Plan Update Truckee Tahoe Airport District Truckee--Placer, Nevada The Truckee Master Plan Update is a comprehensive document developed to guide development of the Airport for the next 20 years. The plan includes planned modifications and additions to the airfield, terminal area, property acquisition, and instrument approach procedure.	MND	12/30/2015
2015121003	Wilshire Mullen Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project includes 87 residential units (53 in the existing Farmers building; 34 in new structures) and approximately 54,215 square feet of office space in the existing Farmers building for a total floor area of approximately	NOP	12/30/2015

	298,333 square feet. The one block stretch of Mullen Ave between Wilshire and 8th Street will be merged and converted to a private driveway but will remain physically open to allow continued pass-through traffic by members of the general public.		
2015121005	Lompoc Motorsports Project Lompoc, City of Lompoc--Santa Barbara The Lompoc Motorsports Project ("proposed project") would include the development of the project site as two primary park areas. The first component would include an off-highway vehicle (OHV) area that will include the relocation of an existing Kids Moto Fun Park, a one-quarter-mile oval dirt track, and a 7-acre multitrack OHV area. In addition, the first component would include a low-speed trail-riding area open to motorcycles, quads, and mountain bikes. The second component would include an International Hot Rod Association (IHRA)-sanctioned one-eighth-mile drag strip that would have grandstands and pit areas. A centralized parking area, which would be shared by both the OHV area and the drag strip, would be built concurrently with the OHV area. The proposed parking areas would accommodate approximately 1,120 spaces.	NOP	12/30/2015
2015122002	Klamath Hydroelectric Project Relicensing State Water Resources Control Board --Siskiyou The State Water Board issued a NOP of an EIR for the KHP in September 2008 and held a series of scoping meetings in October and November 2008. Since issuance of the 2008 NOP, three settlement agreements have been developed that propose considerable changes to the KHP and address other interests in the Klamath River Basin. Substantial new information has been developed under the Settlement Agreements and related processes, including development of an environmental review document evaluating dam removal impacts, data collection on water quality and fisheries health, and studies that relate to the KHP. On August 15, 2014, the State Water Board is issuing an application from PacificCorp. In light of this new information, the State Water Board is issuing a new NOP for the KHP. Comments submitted in response to the prior NOP will be considered. Interested parties are encouraged to submit comments during this NOP solicitation. - Modify the KHP, as needed, to comply with California water quality standards, and in conformance with mandatory conditions established as part of the FERC license process. - Continue to generate power from a renewable resource to serve KHP customers to the extent compatible with water quality standards and mandatory conditions established as part of the FERC Relicensing Process.	NOP	01/29/2016
2015121002	99th Street Wells Chloramination Station Project Los Angeles Department of Water and Power Los Angeles, City of--Los Angeles The proposed project would construct a new chloramination facility within the LADWP-owned 99th Street Wells Pumping Station complex and would include all necessary equipment and structures needed to facilitate on-site sodium hypochlorite generation, ammoniation, injection, and monitoring, including two 2,750 gallon LAS storage tanks. The new appurtenances would enable chloramination of groundwater pumped by the 99th Street Wells Pumping Station. The proposed project would include construction of the chloramination station and associated piping in an undeveloped, grassy area in the southeast corner of the	Neg	12/30/2015

	project site. Construction of the proposed project is anticipated to begin in spring 2016 and take approximately 2 years to complete, concluding in spring/summer 2018.		
2004111084	Mountain View Avenue/Avenue 416/El Monte Way Widening Tulare County --Tulare CDFW has executed Streambed Alteration Agreement no. 1600-2015-0167-R4, pursuant to section 1602 of the fish and game code to the project applicant, Tulare County Resource Management Agency.	NOD	
	The project includes activities related to the extension of culverts and improvements to irrigation pipeline structures to accommodate the widening of Avenue 416 from 2 to 4 lanes.		
2008101087	Safe Drinking Water Project Armona Community Services District --Kings SWRCB is a responsible agency for this project. The SWRCB's Safe Drinking Water State Revolving Fund Program is providing funds for the project. The Armona Community Services District proposes to construct and operate a replacement well for the existing well No. 2, including plans for possible treatment if arsenic levels are above the USEPA standard of 10 parts per billion.	NOD	
2013051094	Monterey Peninsula Groundwater Replenishment (Pure Water Monterey) Project Monterey Regional Water Pollution Control Agency Seaside, Marina--Monterey The City of Salinas has been authorized to cease the discharge of treated wastewater from the City's Industrial Waste Water Treatment Facility to percolation ponds adjacent to the Salinas River during all months of the year.	NOD	
2015102046	Soquel Forest Fire Station Replacement Forestry and Fire Protection, Department of --Santa Cruz The project includes the demolition of all existing buildings and appurtenances onsite and construction of a new facility consisting of a one-engine, four-bedroom fire station combined with a mess hall and apparatus building (6,184 sf). Additional project components include a new office-education center for the Soquel Demonstration State Forest (3,000 sf), a generator pump storage building (648 sf), masonry trash enclosure (+/-150 sf), fuel vaults and tanks, hose wash rack (52 ft by 5 ft), flag pole, radio tower (35 ft) and two above ground storage tanks (eight feet high with approximate diameters of 26 ft and 15 ft).	NOD	
	In addition to the improvements described above, the project would include additional components consisting of site grading, paving for road and parking areas, installation of retaining walls, curbs, gutters and sidewalks, storage and distribution systems, wastewater disposal systems, drainage systems and erosion control measures.		
2013108315	Lindsay Well 14 Dibromochloropane Mitigation Project Lindsay, City of Lindsay--Tulare The State Water Resources Control Board (SWRCB) is the responsible agency. The SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing funds for the project. The City of Lindsay proposes to conduct feasibility	NOE

	and planning studies to address dibromochloropane contamination in drinking water well #14.		
2015068181	Plannign and Engineering Analysis for Renovations of the ACWD Storage Tank and Water Sources Alleghany County Water District --Sierra The State Water Resources Control Board (SWRCB) is the responsible agency. The SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing funds for the project. The Alleghany County Water District proposes to conduct hydrologic and geotechnical studies and investigations to provide alternative to the Alleghany County Water District for water system improvements. The project may include drilling of test holes for observation. It will also include environmental assessments and reports for CEQA and NEPA compliance. It will include development of a preferred alternative. The project will include a Site Survey for the preferred alternative, development of plans, Specifications, and bid package, and preparation of a Storm Water Pollution and Prevention Plan, and a Watershed Survey.	NOE	
2015128001	Winters Roundabout Caltrans #3 Winters--Yolo The project is a safety and traffic calming project that will widen the intersection of Walnut Lane and Grant Ave (Hwy 128) to accommodate a new roundabout.	NOE	
2015128002	Cosmopolitan Wood Deck Repairs and Gutters (15/16-SD-13) Parks and Recreation, Department of --San Diego This project will repair the veranda and patio deck of the Cosmopolitan Hotel in Old Town San Diego State Historic Park. Gutters and downspouts will be added for roof drainage, to support continued maintenance and use.	NOE	
2015128003	Kings and San Joaquin Rivers Vegetation Management (Streambed Alteration Agreement No. 1600-2004-0064-R4) Fish & Wildlife #4 --Fresno The original project includes vegetation management activities for mosquito abatement District. The extension to the Agreement authorizes the activity through January 18,2020.	NOE	
2015128004	Prolong the Service Life and Integrity of 9 Bridges Caltrans #4 --San Francisco Treat bridge decks with methacrylate, replace joint seals, repair approach slabs, resurface AC, repair concrete spalls. All work will be limited to existing State Right of Way.	NOE	
2015128005	Chemtrade West US LLC, Hazardous Waste Facility (HWF) Class 1* Permit Modification for changes to the Closure Work Plan process Toxic Substances Control, Department of --Contra Costa The purpose of the permit modification is to address changes to the current closure work plan for the facility. These changes include the following: the closure schedule is extended to allow for DTSC review of the revised Closure Work Plan, execution during the wet season versus dry season in order to accommodate significant rain events that may extend the duration of field activities, revise the	NOE

	expected year of final closure to 2016 as reflected in the revised Closure Work Plan, and add to the revised Closure Work Plan an additional option for decontamination for scarification of concrete surfaces.		
2015128006	Little Panoche Detention Dam Erosion Repair Water Resources, Department of Firebaugh--Fresno For erosion control, an existing drainage ditch will be recontoured and a fitting will be connected to an existing drain and new 10-inch polyethylene flex drain. The flex will be laid in the recontoured ditch. About 30 cy of material will be used to repair an erosion site near the dam. State Water Project users will benefit.	NOE	
2015128007	New Parking Lot Gate at Tamarack Avenue (15/16-SD-16) Parks and Recreation, Department of --San Diego This project will install swinging gates across the inbound and outbound lanes of the entrance road to the Tamarack Avenue parking lot of Carlsbad State Beach. The gates will prevent vehicle entry after hours which will eliminate the need to patrol the lot at night and will prevent the gathering of vehicles for illicit activities. Street parking is available, so beach access will not be restricted.	NOE	
2015128008	Black Butte OH Br Replacement Caltrans #2 --Siskiyou Demolition and replacement of existing southbound Black Butte Overhead.	NOE	
2015128009	Carneros Creek Adaptive Management Plan Fish & Wildlife #3 Unincorporated--Napa A total of 44 critical setback areas have been mapped where stream banks are unstable and expected to naturally fail over the next 5 to 50 years. Each critical setback area calculation includes an estimate for lateral space necessary to accommodate a 3:1 stream bank slope and a minimum 30-foot native riparian planting area. Estimated lengths of critical setback areas range between a minimum of 147-linear feet and a maximum of 1,200-linear feet along Carneros Creek.	NOE	
2015128010	Upper Napa River Federal Navigation Channel Fish & Wildlife #3 Napa--Napa The project is limited to clamshell bucket dredging to maintain a navigable ingress and egress for the Upper Napa River Federal Navigation Channel to a depth of -10.0 feet mean lower low water plus a 2.0 foot over-dredge. The total estimated volume of material to be removed is approximately 50,000 cubic yards. No vegetation will be removed as part of the project. All dredging work will occur between August 1 and October 15 of any given year. Dredge material will be transported to the Imola Avenue disposal site where it will be offloaded from a barge.	NOE

2015121009	STEAM Elementary Alisal Union School District Salinas--Monterey The AUSD plans to acquire and develop 2.31 acres for operation of the STEAM Elem. School. A 1.6 acre portion of the land will be state funded and the remaining 0.7 acres where the church sits and the multipurpose room will be constructed will be locally funded. STEAM Elem. School will consist of 24,668 sq. ft. of new buildings which will include 12 standard classrooms, 2 Kindergarten Rooms, a Library/Media Center, Resource Center, Multi-Use room, Service Kitchen, and Administration Offices. The multi-use and administration office buildings will be locally funded. The new school will have approx. 23,000 sq. ft. of asphalt. The master plan capacity of the site is 350 students.	MND	12/31/2015
2015121010	Canyon Inn Supplement to the River Wilderness Park Master Plan Watershed Conservation Authority Azusa--Los Angeles WCA is proposing to complete the proposed objectives of the Canyon Inn Master Plan (Proposed Project) in three phases through 2028. Implementation of the Master Plan is dependent on acquiring the necessary funds to design and construct an individual or group of projects elements. Sufficient detail is known about the projects to be implemented beginning in 2017 so that these projects can be discussed in detail at the Project IS/MND level. However, details of projects that would be implemented in the later stages become speculative in terms of timing and design. These projects are discussed at the Program IS/MND level.	MND	12/31/2015
2015122004	Cedar Flats Estates Project Galt, City of Galt--Sacramento The proposed project would combine two previously approved projects and add an additional 18 units to the previously approved 102 units, for a total of 120 units. The proposed project consists of a Planned Unit Development in a gated subdivision with lot sizes ranging from 6,510 to 9,410 sq. ft. In addition, the project would include landscaping, internal circulation of a road network, including the construction of a bridge, bike path improvements, dedicated open space, and a retention basin.	MND	12/31/2015
2015121011	University Community Plan Amendment San Diego, City of --San Diego This project analyzes the impacts related to removing the Genesee Avenue widening and Regents Road Bridge projects from the University Community Plan (UCP) Transportation Element, as well as five (5) project alternatives which consist of variations of including and removing the Genesee Avenue widening and Regents Road Bridge projects. 2013082046	Retrac Way at Wolf Creek Bridge Replacement Project Nevada County --Nevada CDFW has executed lake and streambed alteration agreement no. 1600-2015-0165-R2, pursuant to section 1602 of the fish and game code to the project applicant, Nevada County Planning Department. The project is limited to the replacement of the existing timber and steel one-lane bridge on Retrac Way over Wolf Creek (17C-084). The bridge does not meet current County and Caltrans design standards for structural components and load carrying capacity. The new structure will be a two-lane, prefabricated single-span (steel or concrete) bridge measuring 28 ft wide and approximately 85 ft long. It will be located on the same alignment as the existing bridge and elevated approximately 2 to 3 ft above the existing grade to better accommodate 100-yr flood events. Work for the replacement bridge would all be above the ordinary flow elevation for the creek channel and work would be performed during low flow months.	NOD	
2014051093	Lake Elsinore Walmart Retail Center Project Lake Elsinore, City of Lake Elsinore--Riverside The Walmart Supercenter Project consists of a 154,487 sf Walmart supercenter, including a 3,090 sf seasonal outdoor garden center, arcade and outdoor/seasonal display of merchandise and a related sign program. The project also includes the development of three outlot parcels fronting Central Avenue consisting of one outlot parcel being developed with approximately 9,200 sf of retail/restaurant mix-used space situated within two buildings, one outlot parcel being developed with a 3,700 sf fast food restaurant with a drive and one outlot parcel being developed with 3,100 sf fast food restaurant with a drive-through. The project also includes a haul route application.	NOD

An additional spur heads North/northeast towards the existing museum building.		
2015121015	Soil Management Plan (SMP) of the United Technologies Corporation Canoga Avenue Site Regional Water Quality Control Board, Region 4 (Los Angeles) Los Angeles, City of--Los Angeles The project proposes to implement the SMP to remediate and abate on-site soil impacts at the former Rocketdyne plant. To remediate the site vadose zone soil to allow unrestricted land use, existing buildings and structures will need to be demolished to fully characterize, address the extent of chemical impacts under the buildings and remove identified impacts. While there are areas that have been identified as having soils with impact levels exceeding the site-specific SRGs, soil beneath the buildings is not yet fully characterized. The proposed SMP provides the framework for assessing currently-unknown soil impacts. In addition, based on recent evaluations it is estimated over 60 percent of the concrete slabs of the various on-site buildings are chemically impacted with COPCs at levels in excess of the SRGs.	MND	01/04/2016
2015122007	Open Window Stockton, City of Stockton--San Joaquin The Open Window project proposes a Master Development Plan (MDP) and accompanying the Development Agreement that would provide for revitalization and redevelopment of 51 properties within an approx. 15 sq. block area of downtown Stockton. The MDP proposes a mixed-use development concept. Up to 1,400 resident units would be constructed, primarily built at higher densities as part of apartments or other multi-family unit developments. The project will also include construction of up to 200,000 sq. ft. of retail space, 90,000 sq. ft. of commercial space and 110,000 sq. ft. of industrial/art studio space. These spaces may be built as stand-alone developments, or combined ina mixed-use format.	MND	01/04/2016
2015122010	Order No. R-1-2016-0004, Waste Discharge Requirements for Nonpoint Source Discharges and Other Controllable Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Eureka--Humboldt Note: Review Per Lead This Project consists of adoption of Regional Water Board Order No. R1-2016-0004, Water Discharge Requirements (Order) by the, North Coast Region (Regional Water Board) that, if adopted, would establish water quality requirements for nonpoint source waste discharges and other controllable factors related to timber harvesting and associated activities conducted by Humboldt Redwood Company, LLC (HRC), a timberland management company, in the Upper elk River (UER) watershed, Humboldt county, CA. The property is located in the elk River watershed in Humboldt County, Calwater (version 2.2) planning watersheds, Lower Elk River (1110.000201), Lower North Fork Elk River, Upper Norht Fork Elk River (1110.000202), Lower South Fork Elk River (1110.000302), and Upper South Fork Elk River (1110.000301). 2015122011	RSL Operating, Inc., Wood Grinding Facility Stockton, Port of Stockton--San Joaquin The RSL Operating, Inc., Wood Grinding Facility Project (the proposed project) involves construction and operation of a wood grinding facility at the Port of Stockton (Port). The facility would receive (via truck and rail) and separately process wooden railroad ties, urban green wood waste/pre-ground wood material. The ground railroad ties and the urban green wood waste would be loaded into tarp-covered chip trailers and delivered to separate end users. Both products would be sold as fuel to existing permitted facilities. In order to accommodate the rail cars, a new rail spur that would connect to an existing California Traction Company rail line would be constructed.	MND	01/04/2016
2015122012	Zone Amendment 15-008, Parcel Map 12-002 - Fall River Development, Inc. Shasta County --Shasta Request for the approval of a zone change (Z15-008) from Limited Residential (R-L) zone district to Limited Residential, minimum lot area as shown on the parcel map (R-L-BSM) zone district on a 20-acre portion of the property and Open Space, 40 acre minimum lot area (OS-BA-40) zone district on the remainder portion of the property, The Zone Amendment is requested to facilities a Parcel Map (PM12-002) consisting of the division of the property into four parcel being 3 to 10 acres in size, along with a 41-acre remainder parcel.	MND	01/04/2016
2015122013	Sheldon Road/Bradshaw Road Intersection Improvement Project Elk Grove, City of Elk Grove--Sacramento The Sheldon/Bradshaw Road intersections is currently a stop sign-controlled intersection located in the Rural Sheldon Area in the City of Elk Grove. Laguna Creek 100-year flows currently overtop the existing bridge at the Sheldon Road/Bradshaw Road intersection. The project proposes to improve the Sheldon Road/Bradshaw Road intersection by replacing the intersection/bridge structure with either box culverts or single span slab bridge. The bridge replacement will plan for partial future widening of Bradshaw Road and Sheldon Road although it will not accommodate the ultimate planned width of four lanes on Sheldon Road. The project will provide operational improvements by reconstructing the bridge and intersection to current standards, and relocate existing utilities in conflict with planned improvements.	MND	01/04/2016
2015122014	3225 El Camino Real Mixed Use Project Palo Alto, City of Palo Alto--Santa Clara The proposed project would involve the demolition of an existing 7,000 sq. ft. commercial building (Footlocker) and associated surface parking lot and the construction and operation of two new buildings: a four-story mixed-use building with ground floor retail and three stories of residential condominiums (eight units total), and a two-story building with ground floor retail/office and second-floor office space. The two buildings would be connected on the second level by an elevated walkway, and a pedestrian plaza area would be located on the ground level between the two buildings. The proposed project would also include a surface parking area and one level of subterranean parking. Total gross floor area of both buildings would be 29,249 sq. ft., including 9,035 sq. ft. of retail, 2,949 sq. ft. of office space, and 17,265 sq. ft. of residential space.	MND	01/04/2016

2015122008	2014-2023 Housing Element Update Riverbank, City of Modesto--Stanislaus The 2014-2023 Housing Element is an update to the 2009-2014 Housing Element that was adopted by the City of Riverbank in 2009. The City of Riverbank 2014-2023 Housing Element addresses State Law requirements and statutory regulations in compliance with Government Code Sections 65580 through 65589.	Neg	01/04/2016
2015091052	Modification of Conditional Use Permit No. 3319 (Case No. PL15-0060) Ventura County Santa Paula--Ventura The applicant requests that a modification of CUP No. LU11-0041 be granted to authorize the re-activation, operation and maintenance of the existing oil and gas and production facilities located on the Nesbitt Lease.	SIR	01/19/2016
2003092021	PUD-25, Lund Ranch II (1500 Lund Ranch Road) Pleasanton, City of Pleasanton--Alameda The proposed project includes 48 approximately 4,200-4,500 sf detached single family homes and associated infrastructure on the Lund Ranch II property, located southeast of the Bonde Ranch neighborhood, east of the Ventana Hills neighborhood, and northeast of the Sycamore Heights neighborhood. The homes would be clustered on approximately 34 acres of the 194.7 acre site. The non-developed portion of the project will be permanent open space, owned by the City. Trails will be developed to provide access to this open space. Access to the project will be split between Lund Ranch Road and Sunsets Creek Lane with 19 lots connected to Lund Ranch Road, and 29 lots connected to Sunset Creek Lane and with no connection from Middleton Place. The City Council has introduced ordinances to 1) approve a rezoning and planned unit development plan, and 2) approve a development agreement. The City has also adopted resolutions 1) certifying the project's EIR, 2) approving CEQA findings and MMRP, 3) approving a Growth Management Agreement, and 4) approving a Affordable Housing Agreement related to the project. 	of Constellation Blvd. and Avenue of the Stars (Area 1) and will be incorporated into future development to be constructed at this location.		
2012072021	<p>Seven Bridges Scour Repair Project Caltrans #3 --Colusa, Butte, Glenn</p> <p>The project involves the installation of rock slope protection at two locations. Location 1 Salt Creek: at this location the project will grade the slope under Highway 20/Salt Creek Bridge (Caltrans Bridge No. 15-0022) in span 1 to excavate enough parent soil to result in the optimum streambed profile to maintain water conveyance. Once the contour grading is finished approximately 80 cy of RSP will be installed over a filter fabric. RSP will be installed at a 2:1 slope. A patch of giant reed located at the upstream portion of the bridge will be removed to aid water conveyance. Staging will occur in large pullouts adjacent to the project area. Location 2 Lurline Creek: this location includes work at the I-5/Lurline Creek southbound bridge (Br. No 15-0072L) and the I-5/Lurline Creek northbound bridge (Br. No 15-0072R). At this location the project will excavate enough parent soil to result in the optimum streambed profile to maintain water conveyance. After the contour grading is completed, contiguous RSP will be placed over a filter fabric from the eastern side of Caltrans' right of way line to the western side of the Caltrans' right of way line. Approximately 1370 cy of RSP will be installed in this location. RSP not located under a bridge will be planted, primarily with willows. The RSP will be installed to match existing slope contour. Staging will occur at the I-5 center divider or adjacent frontage roads.</p> <p>After completion of construction activities, any temporary fill and construction debris will be removed, disturbed areas will be restored to pre-project conditions.</p>	NOD	
2015072037	<p>I-80 Express Lanes Project Caltrans #4 Fairfield, Vacaville--Solano</p> <p>Caltrans, in cooperation with the Solano Transportation Authority (STA) and the Metropolitan Transportation Commission (MTC), is proposing to provide High Occupancy Vehicle/High Occupancy Toll Lanes (HOV/express lanes) in the westbound and eastbound direction of I-80. The project would construct approximately 18 miles of express lanes in the I-80 corridor through conversion of existing HOV lanes and highway widening for new express lanes. The general location of the proposed improvements extends along I-80 from PM 10.4 to 30.2, passing through the cities of Fairfield and Vacaville.</p>	NOD	
2015082011	<p>Meritage Commons Hotel Expansion Napa, City of Napa--Napa</p> <p>The proposed project involves the expansion of the existing Meritage Resort and Spa onto the 9.3 acre vacant parcel located immediately north of the existing hotel across Bordeaux Way. The expansion project, identified as Meritage Commons, will provide 145 new hotel rooms, and will introduce and expand upon ancillary hotel serving uses to provide a greater variety of guest serving amenities. Meritage Commons will include an outdoor event area, an exhibition kitchen, and a small guest serving market. The existing Trinitas Tasting Room at Meritage will be relocated to The Commons along with additional space for tasting or break out space for groups. Street improvements, sidewalks, crosswalks, and medians are also proposed as a part of The Commons.</p>	NOD

2014091027	Aidlin Hills Project (County Project No. 00-136, VTTM 52796, CUP 00-136, OTP 00-136 Los Angeles County --Los Angeles The Project applicant proposes to develop 102 single-family dwellings and associated supporting infrastructure including local roadways, water tanks and a pump station, water quality treatment basins, and a fire access road. The proposed residential lots would occupy 20.8 acres. The remaining improved areas of the Project site would include 3.9 acres for water tanks/pump stations, 1.5 acres of water quality basins, a 1.4-acre fire access road, and 9.6 acres of public streets. The project applicant also proposes the preservation of 193.3 acres of undeveloped, natural area within the southern and western portions of the Project site. Project would require about 1,300,000 cubic yards of grading to be balanced on-site. One oak tree would be removed.	EIR	01/20/2016
2014101060	Remedial Action Plan (RAP) for Laborde Canyon (Lockhead Propulsion-Beaumont No. 2) Toxic Substances Control, Department of Beaumont--Riverside Note:Review Per Lead The proposed project is to clean up the Laborde Canyon (Site), also known as Lockhead Propulsion - Beaumont No. 2, located in unincorporated Riverside County, California. The proposed cleanup includes remediation of contaminated soil and groundwater in five areas where previous site operations were conducted. The proposed remedy is the subject of a Remedial Action Plan (RAP), currently under preparation by DTSC, and includes; groundwater plume containment at the southern boundary of the Site, limited removal and either on-site or off-site treatment of shallow soil in two locations, pilot test and possible groundwater treatment, and institutional controls that would restrict future land use at the site. 2015021079	<p>Santa Clara River Levee Improvements Downstream of Union Pacific Railroad (SCR-3) Project Ventura County Watershed Protection District Oxnard--Ventura</p> <p>The project would implement structural improvements to the existing SCR-3 levee to allow for FEMA certification. Between Bailard Landfill and N. Ventura Rd. (reaches 1-3) two options and considered. Option 1A (Full Levee System) adds fill material and riprap to raise the existing levee (8,875 feet) with one tie-in to Bailard Landfill. Option 1B (Minimum Levee System) adds fill material along a portion of the existing levee (3,575 feet), with tie-ins to Bailard, Coastal, and Santa Clara Landfills. The existing River Ridge Golf Course swale would be filled in. Between N. Ventura Rd. and the UPRR bridge (Reach 4), a 968-foot long floodwall would be constructed on the river side of the road with a visible height of 6 feet; a flood gate would be installed across N. Ventura Rd. and then a 4- to 6-foot floodwall would be constructed on the south side of N. Ventura Rd. for 888 feet.</p>	EIR	01/20/2016
2007032099	<p>Upper Truckee Marsh and River Restoration Project Tahoe Conservancy South Lake Tahoe--El Dorado</p> <p>The need for the project originates from the environmental degradation that the Upper Truckee River has historically experienced as a result of human alterations to the river and watershed. The purpose of the proposed action is to restore natural geomorphic processes and ecological functions in this lowest reach of the Upper Truckee River and the surrounding marsh to improve ecological values of the restoration area and help reduce the river's discharge of nutrients and sediment that diminish Lake Tahoe's clarity.</p>	FIN	01/20/2016
2014121069	<p>Santee 50 Santee, City of Santee--San Diego</p> <p>The purpose of this Subsequent Initial Study/Mitigated Negative Declaration (IS/MND) is to analyze the proposed modifications to the approved Santee 50 project, which was evaluated in the Final MND for Santee 50 (SCH#2014121069). The MND for the project was adopted by the City of Santee (City) on Jan. 28, 2015. The approved project allowed 50 dwelling units on 3 parcels immediately adjacent to the north, south, and west sides of the subject parcel (0.56 acres). This fourth parcel would be developed with 10 dwelling units and would become part of the overall development containing 60 dwelling units.</p>	MND	01/05/2016
2015121018	<p>Lower Day Basin Project Inland Empire Utilities Agency Rancho Cucamonga--San Bernardino Note: Review Per Lead</p> <p>The Inland Empire Utilities Agency (IEUA) and the Chino Basin Watermaster (CBWM) are proposing the Lower Day Basin Improvement Project (proposed project). The objective of this project is to increase the recharge capacity (recycled water (RW) and stormwater (SW) recharged into the Chino Groundwater Basin, specifically in the three cells located at Lower Day Basin. Under the Recharge Master Plan Update (RPMU), the proposed improvements for Lower Day Basin will increase recharge capacity by 789 acre-feet per year by modifying the San Bernardino County Flood Control District's (SBCFCD) diversion channel, installing a control gate valve on Cell 3's midlevel outlet, and improving the basin embankments.</p>	MND	01/14/2016

	The proposed project includes modifications to the Basin inlets and outlets that will allow more storm water to be diverted into the Basin and stored at higher elevations for longer durations. There will be no modifications to the physical size, layout/configuration or storage volume of the Basin. The proposed improvements will allow the Basin operations to be modified to achieve increased groundwater recharge.		
2015121019	V-5 Dinuba Mini Storage Commercial Project Selma, City of Selma--Fresno The project will be developed in phases. The first phase is to construct a 124,021 sq. ft. Mini Storage facility with caretaker's home, parking and design features including enhanced landscaped decorative street light and a decorative masonry block with the entrance to the storage facility will be on Dinuba Avenue. This phase will be built in phases as market demands. The second phase will be to develop the remaining parcels approx. 83,332 sq. ft. into a commercial center. This commercial center will mirror the uses in the shopping center to the south across Dinuba Avenue. Access to the commercial center will be from both from McCall and Dinuba Avenues. Phase II will be constructed in one phase.	MND	01/05/2016
2015122015	TPM14-0006 - Ralph Dacy Butte County Chico--Butte A tentative parcel map to divide a 95.25 acre parcel into two (2) lots - 54.33 acres and 40.92 acres. Access to the lots will be on the existing access drive. Both lots will have frontage on Cohasset Road.	MND	01/05/2016
2015022062	Aspen 8 and 9 Mining Use Permit Sacramento County --Sacramento 1. A Use Permit to allow surface mining on approximately 355 acres of a 683 acres project site. 2. A Use Permit to allow for the extension and continued use of an electric conveyor system to transport the mined materials across adjacent parcels to the existing off-site processing plant. 3. A Community Plan Amendment and Rezone to add the Surface Mining Combining Zone (SM) to 682 acres of IR, AG-80, AG-80(F), AG-160 and AG-160(F) land. Note: the acreage to be rezoned (682) is one acre less than the 683 acre project site because the conveyor extension on parcel 063-0190-027 does not require a rezone. 4. A reclamation plan to include open space grassland uses as the end use of the mine. 5. A development agreement between the applicant and the County of Sacramento.	NOP	01/06/2016
2015121017	Proposed I-15 Corridor Campus Master Plan Mt. San Jacinto Community College District Wildomar--Riverside The District is proposing a Master Planned Community College which would provide college and adult education facilities for an enrollment of approximately 15,000 part-time or 10,000 full-time equivalent students at ultimate build out. District anticipates that a portion of the start-up enrollment would be drawn from	NOP	01/05/2016

	existing students served by other District facilities such as the Menifee Campus and the San Jacinto Campus. The Campus would consist of low profile (one and two-story structures) classroom and administration buildings, and staff, student, and visitor parking facilities. Approximately 400 staff would be employed at full build out, including professors, administration, and other staff members. The project would be completed in 4 phases with full build out accomplished by 2035.		
2015121020	Lynwood Transit Area Strategic Plan Lynwood, City of Lynwood--Los Angeles The Lynwood Transit Area Strategic Plan envisions a 315-acre transit-oriented (TOD) district. The guiding principles of the TOD district include: 1) promote transit oriented development near the Metro Green Line Station; 2) allow flexibility in land uses; 3) consolidate uses and create new development sites; 4) enhance pedestrian safety and comfort; 5) create a sense of place and identity of downtown Lynwood; 6) improve and facilitate additional housing; and 7) create a sustainable community. The Lynwood TOD envisions a total development area of 142 acres with land use designations consisting of Mixed-Use (89.3 acres), Downtown Residential (10.8 acres), Limited Industrial (34.8 acres), and Open Space (7.0 acres) along with other multi-modal transportation improvements.	NOP	01/11/2016
2015101068	AT&T Fiber-Optic Cable Replacement Project Halloran Summit to Slash X Regeneration Station EA/MND Fish & Wildlife #6 Barstow--San Bernardino Note: Response to Comments AT&T proposes maintenance/replacement of an approximately 88-mile fiber-optic cable route in an existing right-of-way. In some sections of the route, replacement cable would be pulledthrough existing conduit. In other sections, replacement cable would be installed in new conduit. In other sections, replacement cable would be installed in new conduit. Finally, in a portion of the route, existing out-of-service coaxial cable would be trenched out, and replacement cable and conduit would be installed in the same trench. Underground cable "pull boxes" (vaults), marker poles, and buried marker ribbon would also be installed.	Oth	
2008082028	Wood Creek Estuary, Tidal Marsh, and Fish Access Enhancement Project Humboldt County Eureka--Humboldt Restoration of ~10 acres tidal wetlands for fish and wildlife in the Freshwater Farms Reserve. Project will replace monocultural cattails and invasive reed canary grass with a network of channels and wetlands connected to Wood Creek, which will provide rearing habitat for salmonids and habitat for other fish and wildlife species. Project includes placement of large woody debris for fish habitat in Phase I area and improvement of hydrologic connection of Wood Creek to Felt Ranch wetland complex under Myrtle Ave.	NOD	
2011111048	Aromas Water District Sphere of Influence Amendment & Annexation of Oak Ridge & Via Del Sol Subdivision Aromas Water District --Monterey The SWRCB, as the responsible agency, will be issuing an amended water supply permit. The Aromas Water District proposed project included construction of a 100,000 gallon storage tank.	NOD

2014112037	Sunnyvale Water Pollution Control Plant Primary Treatment Facility Sunnyvale, City of Sunnyvale--Santa Clara CDFW has executed lake and streambed alteration agreement no. 1600-2015-0291-R3, pursuant to section 1602 of the fish and game code to the project applicant, City of Sunnyvale Department of Public Works. The project is limited to expansion of an existing wastewater treatment plant, which includes enclosure of flows in a box culvert and fill of a drainage channel. Vegetation will be removed and the channel will be filled with clean soil to bring the channel bottom to finish grade. Fill will be compacted and allowed to settle/consolidate with native material. After soils have settled, a concrete box culvert will be installed to permanently contain flows. Additional fill will be placed on top of the culvert, allowing for expansion of development into this area.	NOD	
2015091022	Demonstration of Community Scale Generation System at the Chemehuevi Community Center Energy Commission Needles--San Bernardino CA Energy Commission (Energy Commission) Electric Program Investment Charge (EPIC) grant agreement with the Regents of the University of CA, on behalf of the Riverside Campus, to deploy and demonstrate a community scale generation system at the Chemehuevi Indian Tribe Community Center at 1975 South Valley Mesa Rd., Needles, CA 92363. Chemehuevi Indian Tribe is a federally recognized Native-American Tribe located in San Bernardino County. The project would be constructed on land that is self-governed by the tribe and is subject to Chemehuevi Indian Tribe's Ordinance, including environmental review.	NOD

2015128061	<p>New Mobile Home Pad and Hook Ups Parks and Recreation, Department of --Lake</p> <p>Install a new mobile home pad and hook ups adjacent to existing housing and maintenance shops at Clear Lake State Park, for State personal use. Work will:</p> <ul style="list-style-type: none"> - Trim trees, clear weeds, and removed down debris; - Install a 60'x30' Class 2 aggregate foundation consisting of 60% sand and 40% clay; - Trench 30' long, 18" deep by 6" wide and install approximately 30' Schedule 80 ABS 3" sewer line in trench and backfill trench with sand and native soils for a new sewer line; - Install a 13"x21" connection box within the existing road for sewer clean out; - Trench 40' long, 24" deep by 4" wide and install approximately 40' of ¾" water line and backfill trench with sand and native soil; - Install two water valve boxes, each 10" round by 12 ¾" deep, one at the connection box in existing road and one at the mobile home connection; - Install new propane tank adjacent to an existing propane tank and trench 30' long, 18" deep and 6" wide to install approximately ¾" black/yellow gas pipe from the new tank to the mobile home pad, backfill trench with sand and native soil; - Excavate an 18" diameter by 5' deep hole to install a new power pole with electrical meter and sub panel at edge of new pad, compact and backfill with road base rock; - Trench 24" deep x 12" wide x 10' long and install approximately 10' of schedule 80 conduit from new power pole to under the new pad. Backfill and compact with sand and native soil. 	NOE	
2015128062	<p>Airport Electric Vehicle (EV) Charging Station Project Sacramento Municipal Utility District Sacramento--Sacramento</p> <p>SMUD proposes to construct and operate an Electric Vehicle (EV) charging station located within the cell phone waiting lot at the Sacramento international Airport. The proposed project consists of one Direct Current (DC) fast charger and two level II Electric Vehicle Engine (EVE) Chargers. Additional infrastructure will be installed to support the addition of a DC fast charger at a later date. The project will be built on the southeast corner of the lot. Existing infrastructure will support the Electric Vehicle (EV) charging equipment which includes a 12 kilovolt (kV) to 480 Voltage alternating Current (VAC) step-down transformer, a 480 to 208/120 VAC step-down transformer, power cabinet and switch gear. The equipment will be contained within a seven foot high locked fence. Security cameras will be installed around this equipment. The project will also include two four-inch underground conduits from the existing SMUD vault to the new parking area. All electrical conduits will be installed via trenching and underground boring. The trenching will be within the parking lot and will be 4 feet deep by 19 inches wide; the first phase will be approximately 350 feet in length with the addition of 50 feet of underground boring taking place beneath the driveway. All disturbed pavement will be restored. The work area consists of the paved parking lot with a landscaped grassy area directly adjacent. The parking lot is designed to meet Americans with Disabilities Act (ADA) accessibility requirements. There is a drainage ditch located approximately 220 feet to the south of the project area which is potential giant garter snake habitat. Since all work will occur beyond the required 200 feet.</p>	NOE

	DTSC-approved Closure Plan that would include dismantling operations and a comprehensive cleanup of the facility. The Closure Plan would outline a multi-year approach for full remediation of the site under three phases. Phase I would remove all hazardous wastes and units and demolish to grade all buildings. Phase II would cover contingent closure work to address activities required to complete or certify final facility closure. Phase III would cover post-closure and work to implement long-term inspections, monitoring and management.		
2015082025	Elk Hunting Fish & Wildlife Commission --Sacramento The project involves elk hunting for 2016 (Section 332, Fish and Game Code). Specifically, the Dept. of Fish and Wildlife is proposing to adjust tag quotas on existing elk hunts, establish new hunt zones, modify season dates, modify existing hunt boundaries, add additional hunts within existing zones, and modify existing hunts.	EIR	01/21/2016
2013022038	430-450 Airport Boulevard - Lease of State Lands Parcel for use as Public Park Burlingame, City of Burlingame--San Mateo The proposed project consists of the lease by the City of Burlingame from the State Lands Commission of 8.8 acres of land located at 430-450 Airport Boulevard for use as a public park. Improvements would include two parking lots for use by park visitors, concrete pathways, a restroom facility, picnic tables and benches, lawn open space, ornamental landscaping, and fencing. The shoreline improvements would include an asphalt bay trail with benches and landscaping. One of the parking lots would be accessed from Airport Blvd., while the other parking lot would be accessed from Bayview Place.	MND	01/11/2016
2015121022	Bell Street Ranch Tentative Parcel Map; Case No. 14TPM-00000-00003 / TPM 14.807 Santa Barbara County --Santa Barbara Request of David Swenk, agent for Bell Street Ranch LLC, to consider case 14TPM-00000-00003 (application filed on July 30, 2014) for approval under County Code Chapter 21 to subdivide two existing parcels (Existing parcel 1 - 104.14 acres; Existing parcel 2 - 9.80 acres) totaling approx. 114.21 acres into four parcels of 104.53 gross/net acres (proposed parcel 1), 6.16 gross acres (proposed parcel 2), 2.32 gross/net acres (proposed parcel 3), and 0.94 gross/net acres (proposed parcel 4). The parcels are located in the AG-11-100, DR 4.6 C-3, and CM-LA zone districts. The boundaries of the newly created parcels would follow existing zone district boundary lines. Domestic water for proposed parcel 1 would be provided by a private onsite water well. Domestic water service for proposed parcels 2, 3, and 4 would be provided by the Los Alamos Community Services District (LACSD). Wastewater disposal on proposed parcel 1 would be provided by a private septic system to be permitted by Environmental Health Services. Wastewater disposal on proposed parcels 2,3, and 4 would be provided by the Los Alamos Community Services District (LACSD). Access to each parcel would be as follows: Proposed Parcel 1: Bell Street; Proposed Parcel 2; Kahn Way/Gonzales Street; Proposed Parcel 3; Den Street/ Leslie Street; and Proposed Parcel 4; Bell Street/Leslie Street. 2015121024	Highgate Elementary School Panama-Buena Vista Union School District Bakersfield--Kern Project is to construct and operate Highgate Elementary School, a proposed kindergarten through 6th grade elementary school in southwest Bakersfield. The project would consist of approx. 52,500 sq. ft. of building space on an approx. 13 acre site and accommodate up to 800 students and 100 faculty and staff. The campus would include approx. 30 classrooms, administrative and multi-purpose rooms, outdoor field areas, approx. 70 paved parking spaces for staff and visitors, and drought tolerant landscaping throughout the campus. School facilities would include single story, permanent building structures and some portable units on permanent foundations with room for future expansion capabilities.	MND	01/06/2016
2000111125	Crown Industrial Center Los Angeles City Community Redevelopment Agency Los Angeles, City of--Los Angeles The project is the approval of a Clean-Up Plan by the DTSC for the Crown Coach Site under a CLRRRA Agreement. DTSC is overseeing cleanup at this site pursuant to the regulatory authority granted under Chapter 6.8, Sec 25355.5 (a)(1)(C) of the California Health and Safety Code. The purpose of the Clean up action is to mitigate potential risk to human health and the environment by the Contaminants of Concern. In 2004 a soil vapor extraction system was installed along the eastern boundary of the site with the Amtrak property. This system was later expanded to cover additional areas west of the boundary. This project involves the operation of a soil vapor extraction system that was previously installed and operated as a pilot test. Since 2011 the system has been shut down except for a 7-week period in 2013 to check for leaks. The compounds to be extracted are tetrachloroethene, trichloroethene, 1,2-dichloroethene and chloroform. There are 25 soil vapor extraction wells and 15 soil vapor monitoring probes and soil vapor sampling from these soil vapor monitoring probes indicates additional operation of the SVE system is required. It is estimated the SVE System will operate for approximately 2 additional years. The SVE system will require monitoring to comply with South Coast Air Quality Management District site specific permit requirements and granular activated carbon change. Activities to be conducted: - the operation of a previously installed soil vapor extraction system - the periodic monitoring to determine clean-up progress and changing out of granular activated carbon of the SVE - the decommissioning of the SVE once clean up goals have been obtained	NOD

2015122018	Cooperative Water Transfer, Groundwater Recharge, and Resource Management Pilot Project (Project) Santa Cruz, City of Santa Cruz--Santa Cruz Project involves a 5-year agreement between Santa Cruz Water Dept. (City) and Soquel Creek Water District (District) under which the City will transfer available winter supply from Majors and Liddell Springs to the District under a resource management pilot program. The Project also considers potential future extension of the agreement beyond the 5-year pilot period. No physical improvements to the City's or District's systems are required for this Project. The source water is from the City's pre-1914 appropriative water rights, and the amount of water transferred will be within the range of what has been delivered to and used in the City in the past. The quantity and availability of water supplied by the City shall be based on the draft agreement terms and conditions and at the sole discretion of the Director of the Water Dept. of the City.	Neg	
1999102012	Northwest Rocklin Annexation/Sunset Ranchos Rocklin, City of Rocklin--Placer The Whitney Ranch Phase 2J project is a request for approval of a Tentative Subdivision Map to subdivide five existing parcels (units 38, 39, 40, 65, 66, 67A & 67B) into 131 single-family residential lots and 18 landscaping and open space lots. The Tree Preservation Plan Permit is to approve the removal of, and mitigation for, approximately 214 oak trees.	NOD	
2002102092	2003 Long Range Development Plan University of California Davis--Yolo The UC approved: 1) a minor amendment to the UCD 2003 Long Range Development Plan (LRDP), 2) an amendment to the West Village Implementation Plan (WVIP); and 3) execution of real estate agreements associated with the termination of a master ground lease (MGL). The amendments to the LRDP and WVIP were required to support the terms of the real estate agreements with the developer of West Village. More specifically, the LRDP amendment changes a land use designation to allow for the placement of surface parking, which would have been constructed elsewhere within West Village, near existing housing. The WVIP amendment allows for the addition of 624 beds to existing housing facilities constructed in Phase 1 of the West Village development; those beds would otherwise have been included within new buildings in Phase 2. The University has prepared Addendum 3 to the 2003 LRDP EIR to consider the potential impacts of the proposed actions to amend the 2003 LRDP, amend the WVIP, and approve and execute the documents associated with the MGL termination. Addendum #3 documents that, under the current circumstances, the additional 624 beds added to Phase 1 and the land use amendment to allow proximate student parking would not trigger any of the conditions listed in CEQA Guidelines section 15162.	NOD

	Avenue Bridge with a newer, seismically-sound bridge; and 3) re-aligning Santa Fe Ave with the new bridge structure.		
2008042004	University Village at San Pablo Avenue Albany, City of Albany--Alameda On 12/07/15, the UC approved three ground leases to facilitate development on University-owned property following the City of Albany's decision to approve the Planned Unit Development Designation, Bonus Density and Rezoning. This action is part of the University Village at San Pablo Avenue project for which a final EIR was adopted and certified on 7/9/12 and EIR Addendum #1 was prepared on 5/6/13. With respect to this development, the City of Albany is acting as the lead agency, while the University is acting as a responsible agency under CEQA.	NOD	
	The University has considered the Final EIR Addendum #1 and finds that all potential environmental effects of the project and a reasonable range of alternatives to the project as proposed were adequately evaluated in the Final EIR and EIR Addendum #1 and that no further environmental review pursuant to CEQA section 21166 and CEQA Guidelines section 15162 is required. The University further finds that no additional mitigation measures, beyond those already incorporated into the project through the Final EIR and EIR Addendum #1, are necessary or available to address the environmental impacts of the project that the University has approved.		
2009041065	General Plan Amendment No. 960: Update of the Riverside County General Plan Riverside County --Riverside The project includes GPA No. 960 and the Climate Action Plan. The action evaluated by the Draft EIR is the adoption of Riverside County General Plan Amendment No. 960, the General Plan Update Project, which proposes a variety of revisions to the current Riverside County General Plan to update existing policies, maps and implementing directions, and provide new information and policies where needed. Various revisions are proposed for nearly all of the General Plan's Elements and Area Plans. Some items affect countywide policies, some items affect specific parcels.	NOD	
2009091097	Central Valley Transportation Center Kings Canyon Unified School District Reedley--Fresno The project will fund Kings Canyon Unified School District's installation of clean natural gas fueling stations at the new Central Valley Transportation Center. The CVTC will maintain and operate a green fleet of up to 110 buses and 35 fleet vehicles, expanding the use of alternative fuels and sustainable green technology, reducing reliance on petroleum, reducing GHG emissions, and creating jobs in the city of Reedley. The installation of these CNG fueling station will provide additional cleaner burning fuel for the CVTC transportation fleet and other communities that use the fueling station.	NOD

	<p>project would be located on three properties in the vicinity of Stockdale Highway and Enos Lane (Hwy 43). The proposed project would develop groundwater banking facilities, including recharge basins and groundwater production wells, on the three properties. The proposed project would augment the recharge and extraction capacity of Rosedale's existing Conjunctive Use Program and provide greater operational flexibility. The proposed project would also enhance water supply reliability for IRWD by providing contingency storage to augment supplies during dry-year periods when other supply sources may be limited or not available.</p>		
2014101064	<p>Recycled Water Facilities Plan Palmdale Water District Palmdale--Los Angeles</p> <p>The Palmdale Recycled Water Authority is proposing to implement their 2014 Recycled Water Facilities Plan, which includes construction and operation of distribution pipelines and laterals and pumping facilities. The proposed project would provide approximately 1,325 AFY of tertiary-treated recycled water to PRWA customers, primarily for landscape irrigation at parks, schools, and golf courses.</p>	NOD	
2015022027	<p>American River Pipeline Conveyance Project Carmichael Water District Rancho Cordova--Sacramento</p> <p>The Central Valley Regional Water Board is issuing a 401 Water Quality Certification for the subject Project. The project consists of: 1) removing the existing culvert and replacing it with a bottomless culvert; 2) installing a new pipe to carry water from the north bank of the American River to the south bank; 3) removing the existing, antiquated pipe from the American River; 4) creating a stairstepping drainage pool facility as a transition from the new culvert to the low flow bank of the American River; and 5) removing two unused steel and concrete vaults on the northern bank of the American River.</p>	NOD	
2015101038	<p>La Paloma Winery Clovis, City of Clovis--Fresno</p> <p>The project is the demolition of selected structures at the closed La Paloma Winery at 3495 Clovis Avenue in the City of Clovis, Fresno County, CA. The project site has become an attractive nuisance and many of the buildings are crumbling and a potential safety hazard. The City wishes to clear these dangerous buildings and secure the site so that it is not a safety hazard. The City intends to demolish five of the nine buildings associated with the former winery use. A total of four of the buildings will be retained. One of the buildings is currently used for the City of Clovis Parks and Recreation Center and will continue to operate in its existing capacity. Three of the buildings will be retained for potential future re-use. There are no existing development plans for the re-use of the project site.</p>	NOD	
2015101062	<p>Lateral 8 Regulating Reservoir Expansion Project Turlock Irrigation District --Merced</p> <p>TID proposes to expand the size of its existing Lateral 8 Regulating Reservoir facility to utilize the entire extent of the parcel on which it is located, to increase storage capacity of the existing surface water storage/regulation facility. As part of the expansion, two additional pumps will be installed at the existing pump facility.</p>	NOD

	As with the existing regulating reservoir facility, the expanded regulating reservoir will receive water from the Highline canal, store the water in the regulating reservoir, and when needed, pump the water back to the Highline canal or Lateral 7 supplement existing flows.		
2015101091	Edgemont Elementary School Facility Improvements Moreno Valley Unified School District Moreno Valley--Riverside The proposed project involves the demolition of the existing Edgemont Elementary School and construction of new school facilities within the same property boundaries.	NOD	
2015102063	Chamberlain Creek Barn/Garage Demolition Project Forestry and Fire Protection, Department of Fort Bragg--Mendocino The project will disassemble the remains of the standing portions of a barn-garage with a crane and other heavy equipment. Portions of the wooden structure will be recycled and/or re-purposed. Other wooden and non-wooden components will be disposed of at a waste facility. The gantry hoist support structure and appurtenant steel components will be retained and loaned to a historical group for conservation and display.	NOD	
2015128095	Replace Expansion Joint Seals, Methacrylate Bridge Docks - 0K280 / 041600068 Caltrans #4 --Alameda Repair aluminum joint seal assemblies on bridge (Bridge No, 33-214L). The project is to preserve and maintain the safety and integrity of the bridge highway.	NOE	
2015128096	Fresno Kings Unit Headquarters Tree Removal Forestry and Fire Protection, Department of Sanger--Fresno This tree removal project will involve cutting trees throughout the 4 acre headquarters compound that have been designated by a Registered Professional Forester or Certified Arborist to be dead, dying or likely to die within 1 year, or that present a hazard to personnel or infrastructure. Tree will be felled with chain saws by CAL FIRE hand crews, paid staff, or a contractor. Material will be removed from the site. Some material may be chipped.	NOE	
2015128097	Cal Fire RRU HQ Dozer Pad and Cover Construction Project Forestry and Fire Protection, Department of Perris--Riverside The project scope is the construction of a dozer pad and cover located at Riverside Unit's Headquarters, 210 W. San Jacinto Avenue, Perris, CA 92570. Work will include the development of the previously graded area adjacent to the metal "butler" storage building. Development will include the removal of previously placed road base material; construction of a concrete dozer parking pad (dimensions of 19' X 79'); concrete approach apron and concrete walkways; and the erection of an open sided cover over the dozer parking area (dimensions of 18' wide X 70' long X 16' tall). All construction activities will be performed by qualified Cal Fire personnel.	NOE

2015122020	2015 Applicants for Irrigation of Lands Outside District Boundaries Oakdale Irrigation District Oakdale--Stanislaus The Oakdale Irrigation District (OID) 2015 Applicants for Irrigation of Lands Outside District Boundaries (Project) proposes to make available water to landowners of property located outside the OID boundaries, in years when surplus water is determined to be available. The availability of water for lands outside the OID boundaries will be determined by the OID Board of Directors on an annual basis. The landowners will therefore be required to submit an application each year they wish to receive irrigation water. This initial study will explore the environmental effects of making irrigation water available to these properties when surplus water is determined to be available in the future. While the parcels owned by the U.S.A. and the Vigils have existing points of water delivery (turnouts), the remaining applicants will pay OID to modify existing or construct new turnouts for delivery of irrigation water to their parcels in accordance with the agreement establishing the terms and conditions for irrigation of lands outside OID boundaries. 2015128137	Hirschman's Pond Forest Health Project (SNC 828) Sierra Nevada Conservancy --Nevada This is a forest restoration project involve minor alterations to land and vegetation. Sierra Streams institute is requesting \$156,069 in funding from the Sierra Nevada Conservancy Grant Program for site improvement/restoration activities on approximately 85 acres. Implementation of the Hirshman's Pond Land Management Plan will reduce fuel loads through the removal of highly flammable woody understory and invasive species, such as Scotch broom, and through thinning and relocation of high concentrations of woody debris and ladder fuel species.	NOE	
2015128138	Magalia Forest Health Management Plan (835) Sierra Nevada Conservancy --Butte The Butte County Fire Safe Council is requesting \$75,000 from the Sierra Nevada Conservancy grant program to prepare the Magalia Forest Health Management Plan. The work is a planning project. A Registered Professional Forester (RPF) will develop a landscape-level Forest Management Plan (FMP) covering approximately 800 acres of conifer forest lands.	NOE	
2015128139	Big Tree Creek Watershed Forest Restoration Project (SNC 845) Sierra Nevada Conservancy --Calaveras This is a forest restoration project minor alterations to land and vegetation. California State Parks is requesting \$500,000 in funding from the Sierra Nevada Conservancy Grant Program for site improvement/restoration activities on approximately 230 acres. The project will be implemented by hand crews using chainsaws, loppers, and other hand tools as required to conduct the following site improvement/restoration activities: thinning to reduce ladder and canopy fuels and to reduce overall stand density, reduce surface woody debris, leave shrubs for cover and forage purposes in wildlife corridors, retain quality downdned logs and snags for wildlife habitat, and piling and burning.	NOE	
2015128140	Diamond Mountain Watershed Restoration Project Environmental Studies (832) Sierra Nevada Conservancy --Lassen The Lassen County Fire Safe Council is requesting \$75,000 in funding from the Sierra Nevada Conservancy grant program to perform environmental studies to support the Diemond Mountain Watershed Restoration Project. The project involves completing surveys information needed to assist the Lassen National Forest (LNF) with completing NEPA compliance and reaching a decision on implementation of forest management treatments on federal land.	NOE	
2015128141	Oak Creek Watershed Restoration Project (843) Sierra Nevada Conservancy --Inyo The project would include completion of the CEQA/NEPA analysis and appliciaton and acquisition of the necessary permits for in-channel work from the Army Corps of Engineers and Lahontan Water Quality Control Board. The subject of the planning and evaluation would be a project (not approved by this action) that would involve: (1) removal of invasive weeds such as Russian thistle in the stream channel, (2) riparian vegetation plantings, (3) strea, channel restoration to allow the channels to reach more of the floodplain, and (4) placement of woody debris in	NOE

	located parallel to the existing SAR Class I Bikeway that is located on the southern bank of the SAR, adjacent to SR-91. A new parallel Class I Bikeway and Riding and Hiking Trail would extend through a portion of the existing Green River Golf Course toward the BNSF Railroad, where the alignment would then follow the BNSF Railroad eastward to the Orange/San Bernardino County boundary. This new parallel Class I Bikeway and Riding and Hiking rail would start approx. 0.15 mile upstream from the Coal Canyon off-ramp in Chino Hills State Park. Additionally, a new parallel Class I Bikeway and Riding and Hiking trail would extend eastward from Gypsum Canyon Road Bridge on the northern bank of the SAR, adjacent to LA Palma Avenue. Three bridges (narrow/non-vehicular) will be constructed. Two of those bridges will cross the Santa Ana River and will connect the new Class I Bikeway, the new Riding and Hiking Trail, and the existing SAR Class I Bikeway. The proposed project will include other design features such as a staging area, trailheads, turnouts, and vista points. Construction of the proposed project is expected to take approx. 18 months and is anticipated to begin mid 2017.

2004061029	<p>Castlerock: Community Plan Amendment; General Plan Amendment; Rezone, Planned Development Permit; Site Development Permit; Vesting Tentative Map; Easement Vacat San Diego, City of San Diego--San Diego CDFW is intending to execute a lake and streambed alteration agreement pursuant to section 1602 of the fish and game code (1600-2014-0188-R5) to the project applicant, Pardee Homes. The project proposes to impact the stream by grading and filling approximately 4,369 lf of streambed and installing a soft-bottomed culverted road crossing, in order to accommodate the construction of 277 detached single family residences, 147 single family detached units clustered on larger lots (referred to as green court units), approximately 5.3 acres (gross) of public parks, 0.8 acre (gross) of pocket parks, a pedestrian trail, public streets and private driveways, and other associated improvements on 112.1 acres. The project will mitigate the impacts to 0.27 acre unvegetated streambed and 0.08 acre riparian vegetation through the on site creation/establishment of approximately 0.77 acre of riparian scrub at the southeastern end of Quail Canyon adjacent to an existing wetland.</p>	NOD	
2011051009	<p>Serrano Summit Area Plan and Tentative Tract Map Lake Forest, City of Lake Forest--Orange CDFW has executed lake and streambed alteration agreement no. 1600-2014-0005-R5, pursuant to section 1602 of the fish and game code to the project applicant, City of Lake Forest. The project will develop the Lake Forest Civic Center project. A portion of an unnamed stream will be filled to accommodate the construction of a community center, council chambers/performing arts theater, city hall, and associated parking facilities. An existing storm drain will be extended beneath the development area to a new storm drain outlet at a constructed retaining wall which will form the downstream boundary of the filled development area. A new stream will be created east of the existing perennial stream. A series of drop structures consisting of un-grouted rock rip will be installed across the new stream channel to accommodate the elevation difference between the proposed storm drain outlet and the confluence of the new stream with the existing perennial stream. To compensate the 1.10 acres of permanent stream impacts, the project will mitigate the impacts through the creation of 0.56 acre southern willow riparian forest, the enhancement of 0.50 acre of southern willow riparian forest within a 0.91 acre preservation area, and the restoration of 1.0 acre of stream habitat.</p>	NOD

2015128144	<p>Latitude 38 Entertainment, LLC Agreement Napa Valley Exposition --Napa</p> <p>Latitude 38 Entertainment, LLC wishes to enter into an agreement to follow for an annual 3-day music festival, for at least 10 years. The 25th District Agricultural Association, aka Napa Valley Exposition ("Napa Valley Expo") has indicated that a 10-year (long term) entertainment agreement is a discretionary action that requires approval by its Board of Directors.</p> <p>The latitude 38 Entertainment produce a 3-day music event held at the Napa Valley Expo located at 575 3rd Street in Napa, California, hereinafter referred to as the "venue". Music occurs on all 3 days at the venue and food is provided through food booths and food trucks. The first music festival occurred in May 2013 and has since occurred on May 30, 31, and June 1, 2014, and May 29, 30 and 31, 2015. The first phase of the festival (i.e, venue set up) begins 24 days prior to the arrival of festival attendees and the final phase (i.e., festival breakdown) concludes within 8 days of the festival, for a total of 35 days. During the 3-day operational-phase (i.e., musical performance) the venue gates open at 11:30am., music begins at 12:00p.m. and the festival concludes at 10:00p.m. There is no parking at the venue. Parking is available for purchase approximately 15 minutes (walking) from the venue. Parking lots open at 10:30a.m. and close at 1:00a.m. It will take approximately 1 hour for attendees to leave the venue and the associated parking lots; thus, the timeframe of the event on each day will be from 10:30a.m. to 11:00p.m.</p> <p>The attendance is anticipated to include up to 40,000 paid guests per day, which includes children under the age of eight that are free with the purchase of an adult ticket. In addition, the festival has the ability to provide up 5,000 staff members, for a total of 45,000 people. Attendance #'s for each event are per the approval of the California State Fire Marshal.</p> <p>Festival attendees are anticipated to arrive from various locations throughout the state and elsewhere. It is anticipated that festival attendees will primarily utilize a variety of accommodations throughout Napa, Sonoma, and Solano counties.</p>	NOE	
2015128145	<p>emergency Permit for Treatment of Hazardous Waste, Inland Star Distribution Center Toxic Substances Control, Department of Fresno--Fresno</p> <p>The California Department of Toxic Substances Control (DTSC), pursuant to authority granted under Chapter 6.5 Cal. Code Regs., Title 22, section 66270.61, has issued an Emergency Permit to the Inland Star Distribution Center (Inland Star) to treat hazardous waste by chemical stabilization.</p> <p>The hazardous waste described above is expired and is currently being stored inside a storage area at Inland Star. Because Inland Star does not have a permit for the treatment of the hazardous waste, DTSC has determined that as a safety precaution to prevent an accident or severe injury, an Emergency Permit should be issued to chemically stabilize the hazardous waste prior to transportation off-site by Clean Harbors Environmental services (CHES).</p> <p>CHES personnel are tentatively scheduled to arrive at the facility sometime from December 15, 2015 until December 29, 2015 to conduct the treatment operation, in an exclusion zone set up and maintained at the location outside the building (see Section 2.0 of the Permit application). Only reactive materials technicians from CHES will be allowed in the exclusion zone. Movement, preparation, and treatment of the items will be in accordance with established standards.</p>	NOE

	A follow up report will be submitted to DTSC by Inland Star. The report shall include certification that the treatment area has been cleared of all residual hazardous waste generated from this emergency treatment, and that all generated waste has been properly disposed.		
2015128146	Office Space Lease in a Multi-Tenant Building Insurance, Department of Sacramento--Sacramento Agency will lease ±1,508 square feet of office space	NOE	
2015128147	Long Canyon Road Drainage (Streambed Alteration Agreement No. 1600-2015-0141-R5) Fish & Wildlife #5 Santa Maria--Santa Barbara The California Department of Fish and Wildlife has executed Streambed Alteration Agreement Number 1600-2015-0141-R5, pursuant to Section 1602 of the Fish and Game code to Mr. Nicholas Valdovinos. The project consisted of trenching in the existing unpaved roadway, placing two 24-inch corrugated steel metal pipes (CMP) below grade to convey flow, then placing and compacting soil to the existing grade. Concrete sacks were placed around the CMP and on roadway banks to serve as riprap and bank stabilization. An excavator, backhoe, and shovels were used to complete the construction. The purpose of this project was to build a bridge and to improve the flow of water through an un-named stream at the existing unpaved roadway. The permittee, prior to execution of a streambed alteration Agreement had completed the project. After meeting with CDFW staff, the Permittee was required to remove all the evidence of the construction from the un-named stream. A notification was subsequently submitted for the project.	NOE	
2015128148	Popeyes Louisiana kitchen CUP 03-15 and DR 10-15 Oakley, City of Oakley--Contra Costa A Conditional Use Permit and DDesign Review for a new 2,695 sq.ft. restaurant with a drive-thru.	NOE	
2015128149	Hollister Hills SVRA Water Pipeline Expansion Parks and Recreation, Department of --San Benito The primary purpose of this project is to supply sufficient, potable water to the Lower Ranch of Hollister Hills SVRA from the existing water storage facility located the Upper Ranch of the park. The existing waterline is undersized for present and future operational needs. Current conditions have the existing waterline running off-trail through some vegetated areas and through an historic walnut orchard where it connects to the Lower Ranch waterlines. The proposed new waterline would be installed within the footprint of existing park roads and along Cienega Road. With the new laying of the waterline impacts to park resources from potential maintenance activities would be minimized. Impacts to vegetation will be minimal as the project will take place in previously disturbed areas and active park roads. Light brush trimming and select coyote brush removal will be needed to allow sufficient room for the project activities. Additionally, a few sections of fence will be removed and reinstalled following the completion of the line. All disturbed areas will be restored, seeded, and covered to prevent erosion.	NOE

2011032001	Yolo Flyway Farms Restoration Project State and Federal Water Contractors Agency Davis--Yolo Note: Supplemental	SIR	01/27/2016
	<p>The Yolo Flyway Farms Restoration Project is one component part of the larger Lower Yolo Restoration Project proposed by the State and Federal Contractors Water Agency (SFCWA) on behalf of DWR and the U.S. Bureau of Reclamation. The Lower Yolo Restoration Project has been approved but not yet implemented. The primary purpose of the Lower Yolo Restoration Project is to restore tidal interaction and associated wetland habitats to enhance and create habitat on 1,770 acres for special-status fish in the lower Yolo Bypass in Southern Yolo County.</p> <p>As part of the larger project, the proposed Yolo Flyway Farms Restoration Project is a habitat restoration Project that would restore and enhance approx. 278 acres of tidal freshwater wetlands on a 362-acre parcel. The project is designed to support delta smelt recovery; provide rearing habitats for out migrating salmonids; and support other aquatic and wetland-dependent species, including Sacramento splittail.</p>		
2000071014	Planning Area 40/Planning Area 12 General Plan Amendment and Zone Change Irvine, City of Irvine--Orange	NOD	
	<p>The four VTTM, the Master Landscape and Trails Plan, three master plans, and park plan provide for the development of up to 459 residential condominium units on 72.68 acres; specifically, VTTM 17761 subdivides the 72.68 acres into 33 lots including eight numbered lots for residential development, two lots for private neighborhood parks, three lots for entry monuments, and one lot for a future wireless facility. In addition, 19 lettered lots will be created for a variety of common land uses, including 16 for landscape purposes, the Natural Treatment System basin, the Mashburn Channel and for the future widening of the SR-133. The MLTP proposes a network of sidewalks along all streets adjacent to and in PA 40 East; it provides for a varied plant pallet, conceptual landscaping and boundary and community walls. VTTM 17856 subdivides 7.61 gross acres into 16 numbered lots and nine letter lots for the development of 136 attached condominium units. The PMP establishes the building layout for all of residential lots and includes a request for alternative setbacks. VTTM 17857 subdivides 11.37 gross acres into 17 numbered lots and 36 lettered lots for the development of 125 attached condominium units. The PMP establishes the building layout for all of the residential lots. VTTM 17922 subdivides 12.76 gross acres into 24 numbered lots and 50 letterhead lots for the development of 150 attached condominium units. The PMP establishes the building layout for all of the residential lots and includes a request for Administrative Relief to exceed the distance permitted to visitor parking spaces and to provide required visitor parking off site. The Park Plan establishes community and neighborhood and park obligation of 2.39 acres and a neighborhood park obligation of 3.59 acres.</p>

	areas, and project landscaping. The project includes a request to remove two heritage trees.		
2007012021	Signalized Intersection West, LLC Grading Permit GRD 06-01 Butte County Chico--Butte CDFW has executed Streambed Alteration Agreement no. 1600-2015-0187-R2, pursuant to section 1602 of the fish and game code to the project applicant, Signalized Intersection West, LLC (the Permittee) as represented by Ben Allen. The project consists of the minor widening and improvements to an existing dirt roadway in order to comply with County roadway standards. The project will require the installation of two new culverts, the removal of an existing culvert and impacts to tributaries located immediately adjacent to the roadway due to the widening of the roadway. The new culverts have been designed and located so that their installation does not directly impact jurisdictional tributaries. With the exception of the one existing culvert to be removed, all other existing culverts will remain. Some minor vegetation removal or other maintenance activities around the existing culverts may be required, therefore; minor impacts to the abutting drainages have been identified. Total impacts to jurisdictional areas includes: 0.0154 acres of impact to tributaries, and 0.025 acres of impacts to riparian wetlands. Compensatory mitigation for loss of jurisdictional areas will be through purchase of creation credits at the Meridian Ranch Mitigation Bank.	NOD	
2008121133	Visalia Wal-Mart Expansion Visalia, City of --Tulare Final EIR as revised by and including the Second Partial Recirculated FEIR containing the revised analysis of the project's potentially significant cumulative Toxic Air Contaminant impacts, prepared in response to the Decision and Order of the Tulare County Superior Court in the lawsuit Visalia Smart Growth Coalition v. City of Visalia, Wal-Mart Stores, Inc. and in accordance with CEQA Guidelines Section 15088.5, for the Visalia Walmart Expansion Project.	NOD	
2008122111	Napa Pipe Napa County Napa--Napa The project is limited to: 1) installing a new 54-ft wide, 89 ft long clear span bridge made of pre-cast concrete support with a 9in poured in place concrete slab top; 2) installing two new poured-in-place concrete bridge abutments; 3) installing four poured-in-place concrete wing walls, two on each abutment; and 4) implementing a riparian enhancement plan to be prepared to compensate for permanent impacts to approximately 6,100 sf of existing riparian and associated vegetation, including buckeye, ceonothus, and coyote brush. CDFW is executing a lake and streambed alteration agreement no. 1600-2015-0115-3 pursuant to section 1602 of the fish and game code to the project applicant, Richard Thomasser, Napa County Department of Public Works. 2015061016	<p>Lakeview Pipeline Repair Project Metropolitan Water District of Southern California San Jacinto--Riverside</p> <p>The proposed project would reline the existing Lakeview Pipeline (LVP) with a steel pipe liner. To gain access to the inside of the LVP and install the liner, access sites would be established at a max of 23 locations along the LVP alignment. Within the access sites, the pipeline would be excavated, sections of the existing pipeline removed, and the liner inserted and pushed through the pipeline in segments. Additional components include relocating the pipeline's underground air release vacuum valves to ground level and upgrading the pipeline's electrical connections. The project would also install an approximately 1,000 lf pipeline interconnection between the LVP and the Perris Bypass Pipeline at Metropolitan's Lake Perris Pressure Control Structure Facility.</p>	NOD	
2015061092	<p>San Antonio Water Company Cucamonga Crosswalls Maintenance Project Upland, City of Upland, Rancho Cucamonga--San Bernardino</p> <p>CDFW has executed streambed alteration agreement no. 1600-2014-0209-R6, pursuant to section 1602 of the fish and game code to the project applicant, San Antonio Water Company, represented by Mr. Charles Moorrees.</p> <p>The project consists of the in-kind repair and/or replacement of the seven existing gabion walls (crosswalls) within Cucamonga Creek and the excavation/removal of approximately 200,000 cubic yards of aggregate materials from between the crosswalls. The crosswalks were originally constructed in 1926 to capture and slow storm flows and allow for percolation of surface water. Since their construction, the crosswalls have been damaged and sediment, sand, and rock have accumulated behind and between each crosswall, limiting their function and reducing the design capacity. The Agreement authorizes impacts to up to 22.34 acres of habitat subject to Fish and Game Code Section 1602.</p>	NOD	
2015072018	<p>North Star Water Treatment Plant Nevada County Grass Valley--Nevada</p> <p>U14-009, MGT14-015, EIS14-012. Combined application for 1) a use permit to construct and operate a groundwater collection conveyance and treatment system to manage water quality from the Drew Tunnel portal on the Grass Valley Wastewater Treatment Plant property, and an adit, culvert, and spring on the North Star Property between Allison Ranch Road and Wolf Cree; and 2) a Management plan to reduce impacts related encroachment within the 100-ft setback to a water feature. The conveyance system would run from the wastewater treatment plant property to a series of settlings and treatment ponds off Mote Lane which would treat the mine drainage using passive methods and discharge the cleaned water to a tributary of Wolf Creek under a Limited Threat Discharge Permit issued and monitored by the Regional Water Board.</p>	NOD	
2015091029	<p>General Plan Consistency Rezoning Program El Cajon, City of El Cajon--San Diego</p> <p>Zone reclassification for 25 properties within the City of El Cajon representing 13.5 acres. The purpose of the project is to make the zoning consistent with the planned land use designations in the General Plan. The 2013 Housing Element identified the need to rezone the properties in order to accommodate additional housing units needed for compliance with the City's Regional Housing Needs</p>	NOD

	communities to avoid growth in environmentally sensitive areas, and support sustainable, healthy, and livable communities. The project will replace the currently adopted General Plan, RTP and IWMP.		
2015022063	Sunol Long Term Improvements Project San Francisco, City and County of --Alameda Notes: 1 HC	FIN	
	The San Francisco Public Utilities Commission (SFPUC) proposes to implement the Sunol Long Term Improvements Project, which is comprised of two main elements: improvements to the existing Sunol Corporation Yard and development of a new interpretive center, to be named "the Alameda Creek Watershed Center", in the vicinity of the Sunol Water Temple.		
2015121044	IS 6991, AA 3810 and VA 3979 (Charles Pelletier) Fresno County --Fresno Proposal to rezone 2.06 acres from the M-1 (Light Manufacturing) and R-1 (Single Family Residential, 6,000 sq. ft. minimum parcel size) Zone Districts to the C-M (Commercial and Light Manufacturing) Zone District for a proposed retail variety store, and allow a Variance to eliminate the requirements of a six-foot solid masonry wall along the street frontage of Henderson Road and along the northeast and southeast portions of the parcel.	MND	01/13/2016
2015121045	Rose Creek Bikeway San Diego Association of Governments --San Diego The proposed project includes 1.3 miles of protected bike lanes within the City of San Diego right-of-way on the west side of Santa Fe Street and 0.8 miles (off-street) of bike lanes along the eastern bank of Rose Creek. The protected bike lanes would connect with the existing Rose Canyon Bicycle Path and continue the west side of Santa Fe Street. The off-street bike lanes would start just south of the Santa Fe Street bridge over Rose Creek on a pre-fabricated, steel bridge, which would be parallel to the existing bridge. The bike path would continue along the eastern bank of Rose Creek on an earthen bench behind existing businesses fronting Santa Fe and Damon Streets. The bike path would then cover under the I-5 freeway bridge over Rose Creek and connect with existing Rose Creek Bike Path.	MND	01/13/2016
2015121046	Valley Sanitary District Master Plan Update Valley Sanitary District Indio--Riverside The proposed improvements recommended in the Master Plan Update are grouped into five phases with each subsequent phase triggered by treatment demand. Demand is based on population growth projections; thus, no specific timeline is provided for implementation of the improvements. The Master Plan includes decommissioning three existing biological treatment ponds located on 23 acres in the southern portion of the VSD site. for the purpose of this analysis, potential environmental effects are based on full build out of the WRF. All improvements would occur within the area occupied by existing equipment which is generally the northern one-half of the 100-acre WRF site.	MND	01/13/2016

2014081059	Aircraft Demolition Facility Project San Bernardino International Airport Authority San Bernardino--San Bernardino This document is prepared as an Addendum to the initial study and MND adopted by the San Bernardino International Airport Authority in August of 2014. In 2014, SBIAA prepared an Initial Study that evaluated the proposed application from Unical Aviation to establish an aircraft demolition facility in the northeastern portion of the Airport. Aircraft demolition consists of manually stripping reusable equipment and then demolishing the fuselage, tail and wings by using large crushing equipment to obtain recyclable materials such as aluminum. Retired jet aircraft are brought to the demolition site and stripped of their reusable and recyclable equipment/parts and this equipment is transported to an offsite storage location. Then, the aircraft is crushed and the residual material, primarily aluminum, is transported to an offside recycling facility. Thus, in effect, the whole aircraft is recycled for equipment reuse and new material for future use.	NOD	
2014081081	Wastewater Treatment Facility Infiltration/Evaporation Ponds McCabe Union Elementary School District El Centro--Imperial The District owns and operates a WWTF designed to service a student and faculty population of approximately 1,300 persons at the McCabe Union Elementary School District. The District proposes to cease surface water discharge of the effluent per the NPDES discharge permit and commence ground discharge into infiltration/evaporation ponds per a WDR permit.	NOD	
2014111043	WWTP Effluent Disposal Remediation Project Cuyama Community Services District --Santa Barbara Cuyama Community Services District is proposing to construct four evaporation ponds for the discharge of treated effluent wastewater, eliminating the current disposal method of discharging effluent into Salisbury Creek. The ponds will be lined with high-density polyethylene (HPDE) liner or on-site clay application to prevent the percolation of effluent into the ground. The project also includes the land application of treated effluent on an adjacent property for irrigation of non-food crops.	NOD	
2015031029	Avenue 116 Canal Expansion Project Pixley Irrigation District --Tulare The proposed project objectives are to construct three underground pipelines to connect over 800 acres of farmland currently not being served with surface water from the Avenue 116 Canal within the Pixley Irrigation District. The project will include a 20 acre recharge basin to ensure excess water will be returned to groundwater.	NOD	
2015112021	Ecosystem Restoration and Floodwater Attenuation on the San Joaquin national Wildlife Refuge Water Resources, Department of --Stanislaus DWR proposes to fund River Partners' installation of three 48 in gated pipes with manually operated slide gates through an existing levee on the San Joaquin River National Wildlife Refuge. 	Tuolumne River and Hwy 132. This action will promote inflow and drainage that preserves and supports wildlife habitat values at the Refuge.		
2015128195	Southeast Water Pollution Control PLant Primary and Secondary Clarifiers Upgrade Project, City and County of San Francisco San Francisco, City and County of San Francisco--San Francisco Buildings 042 (Sedimentation Building Number 2) and 230 (Secondary Sedimentation Tanks) are located on the west side of Evans Avenue between Rankin and Phelps Streets inside the SEWPCP concrete masonry unit (CMU) perimeter wall. Equipment deficiencies and odor control issues have been identified in these facilities. Due to deterioration caused by the corrosive environment, the tank covers, identified in these facilities. Due to deterioration caused by the corrosive environment, the tank covers, handrails and ductwork requires replacement. The odor control system that serves building would also be replaced. Building 230 is made up of a total of 16 cylindrical concrete tanks in four rows. Due to corrosion the mechanism inside the Secondary Sedimentation Tanks (Clarifiers) including the sctuion header, influent well, center column, sludge manifold, scum box, scum skimmer, drive box and access bridge would be demolished and replaced in eight (1,2,4,5,6,11,12,15 and 16) of 16 tanks. Cracks in the concrete walls of the tanks and effluent launder and corroded steel reinforcing bars would also be repaired. The other eight clarifiers would be evaluated under a subsequent contract and similar repairs and equipment replacement would be completed at a later date. Because the SEWPCP has very limited space for construction staging, construction management and construction worker parking, the SFPUC will make available a portion of the property at 398 Quint Street (aka 1700V Evans Avenue). Approximately 7/10 of an acre- of the Quint Street property at 398 Quint Street property would be used for contractor's staging, laydown and parking area for the Primary and Secondary Clarifiers Upgrade project.	NOE	
2015128196	Flashing Beacon Safety Project (05-1H270) Caltrans #5 --San Luis Obispo The Purpose of the project is to install a 4-way stop with flashing beacon. The project is Needed to improve the safety of the intersection for the highway user.	NOE

2015128199	Lindsay Unified School District (LUSD) Compressed Natural Gas (CNG) Fueling Station Upgrade Energy Commission Lindsay--Tulare The goal of this project is to upgrade LUSD's existing time-fill CNG infrastructure by replacing decommissioned equipment with functional state of the art time-fill equipment.	NOE	
2015128200	Compressed Natural Gas Fueling Station at the Environmental Services Operations Station Energy Commission San Diego--San Diego The purpose of this project is to install and operate a compressed natural gas (CNG) fueling facility at the City of San Diego's Environmental Services Operations Station, which currently provides diesel fuel to City of San Diego vehicles. The installation of compressed natural gas fueling equipment under this project supports the planned transition of the fleet's refuse and recycling vehicles from diesel to CNG fuel, providing positive environmental benefits to the areas served by the fleet through reduced vehicular emissions.	NOE	
2015128201	City of Sacramento Establishment of New CNG Infrastructure Energy Commission Sacramento--Sacramento City of Sacramento to install a natural gas fueling station on-site at their North Area Corporation Yard (NACY) at 918 Del Paso Road, Sacramento, CA. The City currently has 28 new CNG vehicles and has plans to replace up to 46 other diesel fuel vehicles by 2020 with the installation of the new CNG fueling capabilities.	NOE	
2015128202	Revised Permit for Recology Feather River Organics Yuba County Marysville--Yuba Allows for incorporation of a storm water collection system into an existing composting facility without expanding composting operations.	NOE	
2015128203	Sprint/Nextel Personal Communication System Parks and Recreation, Department of --Orange Sprint/Nextel is requesting a DPR Right to Enter Permit to perform geological boring to assess the possibility of microwave equipment within Crystal Cove State Park. If the site is capable of accommodating microwave equipment, then the current lease would need to be amended.	NOE
