

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

December 1 – 15, 2016

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 1 – 15, 2016**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

| 2015091041 | Sycuan Hotel and Casino Expansion Project Sycuan Band of the Kumeyaay Nation --San Diego Note: TEIS Final The proposed project at full build out could include the following: two hotel towers with 300 rooms each; a parking garage of 2,030 spaces; 21,000 new sf of gaming floor; an upscale dining facility; a destination restaurant; a spa facility; a fitness center; and an expanded outdoor area with 2 outdoor swimming pools. The project is proposed to be located on the Sycuan reservation adjacent to the existing Sycuan Casino and infrastructure. | FIN | |
| 2016122002 | Rincon Valley Union School District Oak Park Campus Project Rincon Valley Union School District Santa Rosa--Sonoma The proposed project involves purchase of the site and demolition of the existing structures and facilities and the two single family residences, and construction of a kindergarten through sixth grade school and community use facility. The new school would accommodate approximately 446 students and employ approximately 59 full time and part time employees. The campus would be composed of six separate buildings and a total of 26 classrooms, daycare, library and computer lab, administrative offices, and music room. The community use facility would be used as a gym, performing arts center and community meeting facility. | MND | 12/30/2016 |
| 2016121001 | San Juan Watershed Project Santa Margarita Water District San Juan Capistrano--Orange Note: Review Per Lead The San Juan Watershed project is an integrated water resources management plan intended to maximize beneficial uses of the San Juan Groundwater Basin. The primary goals of the project include the following elements: - continue implementation of the on-going adaptive production management - construct rubber dams within San Juan Creek and the Arroyo Trabuco to increase stormwater recharge and provide future recharge sites for in-stream recharge of recycled water - construct recycled water recharge and recovery facilities and conversion of private groundwater pumpers to alternative sources of water. | NOP | 02/02/2017 |
| 2016121002 | 668 S. Alameda Street Project Los Angeles, City of Los Angeles, City of--Los Angeles Note: Review Per Lead Demolition of all existing on-site uses consisting of approximately 131,350 sf in 3 buildings as part of a cold storage facility. The proposed mixed-use project would include 475 live/work units and approximately 49,594 sf of ground level commercial use. The project would result in a total of approximately 565,695 sf of developed floor area with an FAR of 3.48:1. The project would include one building atop a two-story podium, for a total of seven stories above grade and a max | NOP | 01/06/2017 |

| | building height of 85 feet. Parking would be provided within a three level parking structure with two levels below grade and one level at grade. The project is anticipated to begin construction in 2018 and would be completed in 2022. Construction is expected to take place in a single phase. | | |
| 2016121003 | Bayside Performance Park Enhancement Project and Port Master Plan Amendment San Diego Unified Port District San Diego--San Diego Note: Review Per Lead | NOP | 01/06/2017 |
| | The project consists of the replacement and enhancement of structures in EMPS, as well as new facilities. Park enhancements include: (a) bayside performance park, a permanent performance and event venue and other public park enhancements located within the northwestern portion of EMPS; and (b) EMPS Enhancements, enhancements located within the central and southeastern portions of EMPS. The existing seasonal use of a temporary performance stage and other temporary amenities on the northwestern side of EMPS would be replaced by a permanent outdoor performance stage, acoustic shell, and ancillary facilities for year-round use by the symphony and other artists and events, such as rental events and community events. | | |
| 2016122001 | 2040 General Plan for the City of Weed Weed, City of Weed--Siskiyou The proposed project is a comprehensive update and replacement of the city's general plan adopted in 1982. California law requires cities and counties to adopt a general plan to guide future development. The general plan is the foundation upon which all land use decisions are to be based. The draft Weed General Plan accommodates new housing and jobs in anticipation of population growth in the county and the region through the year 2040. | NOP | 12/30/2016 |
| 1986122912 | Recycled Water Transmission Line El Dorado County CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0021-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Serrano Associates, LLC. The project is limited to the removal of ten Lombardy poplar trees, limbing of five additional trees and placement of a protective wire mesh fencing around seventeen trees, including the five trees slated for significant limbing. The purpose of this project is to remove trees that have been killed or irreparably damaged by the actions of North American Beavers present along this section of the stream and to try to protect the remaining trees from any further damage. | NOD | |
| 2003061012 | 2012 Facilities Master Plan El Camino College El Camino Community College District Torrance--Los Angeles Construction of an 81,232 sf Student Services Center with 24 parking spaces on the former Shops site within the campus, consistent with the 2012 Facilities Master Plan Update (FMPU). The FMPU was evaluated in the 2012 Subsequent EIR, certified on August 19, 2013. An EIR Addendum has been adopted on Nov. 22, 2016 to address the changes associated with the project described in the 2012 Subsequent EIR. | NOD | |

| 2005072016 | <p>Northwest Unit 1 (EG-04-751) Elk Grove, City of Elk Grove--Sacramento CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0138-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Capital Valley Homes, LLC. The project is limited to construction of a clear-span bridge over Strawberry Creek, a utility line bore and jack under Strawberry Creek and installation of rock slope protection on the banks of Strawberry Creek. The clear span bridge will extend Lakemont Drive from the east onto the project site. The bridge will consist of concrete slabs over structural concrete footings that will be constructed along the channel banks above the ordinary high water line of the creek. The bridge will have two 20.5 foot travel lanes with a 5-foot sidewalk on each side. A 10-inch water main will be installed under Strawberry Creek at the bridge location. The main will be installed via bore and jack and will not require trenching within the streambed. An 8-inch sanitary sewer line will be installed under Strawberry Creek at the southern project boundary at Brown Road. A 16-inch casing pipe will be installed via bore and jack and an 8-inch PVS pipe will be installed within the casing pipe. The access point for the bore and jack will be located outside of the stream, within the upland areas. A total of approx. 20 cubic yards of 6-inch rock will be placed along the channel banks in two strategic locations in order to prevent potential erosion of the creek bank. The rock will impact approx. 515 sq. ft. of the channel bank, above the ordinary high water mark.</p> | NOD | |
| 2005082017 | <p>Sacramento International Airport Master Plan DEIR Sacramento County Sacramento--Sacramento CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0205-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sacramento County Dept. of Airport. The project is limited to the realignment service airport service road that will require fill of 480-feet (0.054 acres) of the unnamed tributary by extension of an existing culvert by 40 feet (0.005 acres). After the road is realigned, 6-inches of crushed aggregate will be placed on the realigned road.</p> | NOD | |
| 2007082154 | <p>Miraflores Housing Development Plan Richmond, City of Richmond--Contra Costa CDFW has executed a Streambed Alteration Agreement No. 1600-2014-0080-R3, pursuant to section 1602 of the Fish and Game Code to Alan Wolken at the City of Richmond. The project is limited to the daylighting of approx. 900 linear feet of Baxter Creek and construction of a meandering channel with a riparian area, culvert improvements and trail construction.</p> | NOD | |
| 2008072024 | <p>Triangle Specific Plan Amendment West Sacramento, City of West Sacramento--Yolo CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0271-R3, pursuant to section 1602 of the Fish and Game Code to the Project Applicant, Ms. Katy Jacobson, City of West Sacramento. Project is an art installation, consisting of two 18 inch thick concrete support foundations totaling 170.7 sq. ft., the art installation itself and associated lighting. The public art is an amenity of an existing improved City River Walk Park</p> | NOD | |

| 2010021040 | <p>Claremont Colleges East Campus Upland, City of Claremont, Upland--Los Angeles, San Bernardino</p> <p>The project consists of TPM 70243, Conceptual Site Plan and Development Agreement for development of a sports complex with recreation and athletic fields, sports courts, parking, and support facilities on a 75 acre former aggregate quarry. On May 23, 2016, the Upland City Council (1) certified the EIR, adopted a Statement of Overriding and a Mitigation Monitoring and Reporting Program pursuant to CEQA; and (2) approved TPM 18989 and a Conceptual Master Site for development of the East Campus sports complex. On June 13, 2016, the Upland City Council took further action and approved a Development Agreement between Claremont University Consortium and City of Upland for the phased development of the proposed East campus facilities, timing for completion of the required off-site improvements, and future establishment of joint service agreement between City of Claremont and City of Upland. On October 25, 2016, the Claremont City Council, in its limited role as a responsible agency under subsequent or supplemental EIR, (2) concurred with the City of Upland findings regarding the EIR, adopted a Statement of Overriding Considerations and Mitigation Monitoring and Reporting Program; (2) approved TPM 70243 and a Conceptual Site Plan for development of the East Campus sports complex, and (3) conducted a first reading of an ordinance approving and authorizing execution of a Development Agreement between Claremont University Consortium and City of Claremont for the phased development of the proposed East Campus facilities, timing for completion of the required off-site improvements, and future establishment of a joint service agreement between City of Claremont and City of Upland.</p> | NOD | |
| 2014091034 | <p>Jacumba Solar Major Use Permit San Diego, City of --San Diego</p> <p>CDFW have executed Lake and Streambed Alteration Agreement No. 1600-2014-0259-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Gregory Schneck, Jacumba Solar, LLC.</p> <p>The project executes a Streambed Alteration Agreement to allow 0.21 acre of permanent impacts to ephemeral washes associated with the Project. Impacts associated with the Project will be mitigated through the preservation of 3.14 acres of ephemeral wash, and the restoration and enhancement of 1.93 acres of ephemeral wash immediately adjacent to the project site.</p> | NOD | |
| 2015112056 | <p>Fiddletown Road Bridge Replacement Project Amador County --Amador</p> <p>CDFW has executed Streambed Alteration Agreement No. 1600-2016-0161-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Amador County as represented by Aaron Brusatori.</p> <p>The project consists of removing an replacing the existing structurally deficient and obsolete Fiddletown Road Bridge. The proposed project consists of replacing the existing Fiddletown Road Bridge over the North Fork Dry Crek with a new cast-in-place concrete slab bridge. This new bridge would be located on teh existing alignment with geometric enhancements that meet County roadway standards. The new bridge would be 40 feet long by 38 feet wide with two travel lanes and a roadway width fo 22 feet. The new foundation and abutments would</p> | NOD | |

| <u>Documents Received on Thursday, December 01, 2016</u> | | | |
| | <p>be constructed outside the ordinary high watermark (OHWM) of North Fork Dry Creek. Extending the length of the new bridge allows for it to be constructed outside of the creek, which will reduce further impacts to the channel. The use of precast concrete units for the superstructure will also eliminate the need for false work in the creek. A temporary culvert detour will be placed north of and directly adjacent to the existing bridge. The detour would include placing a pipe culvert in the creek which will be covered with clean gravel fill to a height above the OHWM. Temporary dewatering activities may be required to facilitate the placement of the pipe culvert and fill. If required, a dewatering would be prepared and implemented that includes best management practices to protect the creek. The existing bridge would be demolished, removed from the project area as construction progresses, and properly disposed of. Impacts resulting from the current project includes temporary impacts to 0.07 acre of riverine habitat from dewatering, construction access, detour, and existing bridge demolition. Approx. 0.05 acres of riparian habitat will be permanently impacted through the widening of Fiddletown Road to accommodate the wider bridge. The permanent loss of 0.05 acres of riparian habitat will be compensated through an onsite revegetation plan.</p> | | |
| 2015122010 | <p>Order No. R1-2016-0004, Waste Discharge Requirements for Nonpoint Source Discharges and Other Controllable Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Eureka--Humboldt</p> <p>This Project consists of adoption of Regional Water Board Order No. R1-2016-0004, Water Discharge Requirements (Order) by the, North Coast Region (Regional Water Board) that, if adopted, would establish water quality requirements for nonpoint source waste discharges and other controllable factors related to timber harvesting and associated activities conducted by Humboldt Redwood Company, LLC (HRC), a timberland management company, in the Upper Elk River (UER) watershed, Humboldt county, CA.</p> | NOD | |
| 2016021023 | <p>Museum House Newport Beach, City of Newport Beach--Orange</p> <p>The proposed project consists of the demolition of the existing 23,632 sq. ft. Orange County Museum of Art building and associated hardscape and landscaping improvements to accommodate the development of a 25-story, 100-unit residential condominium tower with two levels of subterranean parking. The proposed project consists of the following approvals by the City of Newport Beach City Council:</p> <ol style="list-style-type: none"> 1. Resolution No. 2016-126 2. Resolution No. 2016-127 3. Ordinance No. 2016-23 4. Resolution No. 2016-128 5. Resolution No. 2016-129 6. Resolution No. 2016-130 7. Ordinance No. 2016-24 | NOD | |

| 2009051018 | South Coast 101 HOV Lanes Project Caltrans #5 Carpinteria, Santa Barbara--Santa Barbara Note: Review Per Lead Caltrans proposes to widen US 101 as necessary to provide a part-time, continuous access HOV lane in each direction extending from 0.22 mile south of the Bailard Ave Overcrossing in the city of Carpinteria (PM 1.4) to Sycamore Creek in the city of Santa Barbara (PM 12.3). | EIR | 01/31/2017 |
| 2014071050 | Carmel Lagoon Ecosystem Protective Barrier, Scenic Road Protection Structure, and Interim Sandbar Management Plan Project Monterey County Carmel-by-the-Sea--Monterey Note: Review Per Lead The project involves implementing three project components: 1) ecosystem protective barrier; 2) scenic road protection structure; and 3) interim sandbar management plan. The project is a multi-objective, multi-year, multi-organizational effort to improve habitat for threatened and endangered species in the lower Carmel River and Lagoon, improve natural floodplain function, and protect public infrastructure, while maintaining existing level of flood protection to existing developed areas. | EIR | 01/31/2017 |
| 2015062089 | Fire Station 41 (El Granada) Replacement Project Coastside Fire Protection District --San Mateo The CFPD proposes the construction of a new fire station 41 (El Granada) that includes a new 12,425 sf, single story, 30-ft high, 3 apparatus bay fire station on an undeveloped 2.7-acre split zoned parcel in El Granada. The fire station 41 replacement project would serve to replace the existing 4,000 sf aging approximately 50 year old fire station 41 located at 531 Obispo Rd, approximately 600 ft to the west of the project site. The proposed fire station 41 will provide facilities that are safe, modern, and adequately sized to allow the CFPD to provide for current and future service demands for the new 50 years which the existing Fire Station 41 is not capable of providing. In addition to the construction of the proposed fire station, CFPD is requesting a minor subdivision to divide the project site into two parcels-one for each zoning district on the property. One parcel consisting of the westernmost 0.31-acre portion of the site zoned neighborhood business is not proposed for development. The second parcel, consisting of the | EIR | 01/17/2017 |

| | remaining 2.38 acre portion of the site zoned El Granada Gateway, would contain the proposed new fire station 41. | | |
| 2015091084 | <p>North Coast Highway 101 Streetscape Project Encinitas, City of Encinitas--San Diego</p> <p>The project encompasses improvements to North Coast Highway 101 between La Costa Avenue and A Street including, but not limited to: increase walkability through expanded sidewalks, pedestrian facilities, and safe pedestrian crossings; increase the bicycle facilities available along the corridor with added and enhanced bike lanes and shared vehicle/bicycle lanes; preserve and restore the tree canopy by replacing trees posing a safety hazard with new trees, adding hundreds of new trees, and focusing on a native and drought-tolerant landscape palette; provide street beautification measures with enhanced pavement treatments, street furniture, and opportunities for public art; respect and enhance the community character along the corridor; construct appropriate traffic controls and traffic calming measures, such as roundabouts; implement road diet measures by decreasing travel lane number/width; reduce traffic speeds to 30 miles per hour; minimize cut-through traffic on North Coast Highway 101; implement measures to improve vehicular, bike, and pedestrian safety at side street intersections; provide additional parking spaces, including more efficient reverse angle on-street parking and parking at designated improved areas in NCTD right of way; provide for appropriately-located and accessibly-designated bus stops and bus pull-outs to maximize ridership; improve existing drainage and storm water quality by implementing low-impact design measures and sustainable green streets concepts including infiltration, biofiltration, and water storage areas; and Encourage greater business opportunities for shopping and entertainment and provide more gathering destinations for local residents. The EIR will be used in the city's consideration of discretionary actions, including approval of a general plan amendment, local coastal plan amendment, north 101 specific plan amendment, design review permit and coastal development permit.</p> | EIR | 01/17/2017 |
| 2016051024 | <p>Oak Glen Creek Specific Plan Yucaipa, City of Yucaipa--San Bernardino</p> <p>The Oak Glen Creek Specific Plan is a land use, policy, and regulatory document that would establish the development and design standards for the project area. As shown in the table, the Specific Plan would encompass three districts - Residential District, Innovation District, and Open Space District. The Residential District would be developed at a density of 4.2 dwelling units per acre with a min net lot size of 7,200 sf. The Innovation District would allow a variety of institutional, office, medical, and professional related uses. The Open Space District would consist of flood control improvements, including a detention basin and realignment of Wilson Creek to greatly reduce or eliminate downstream flooding and channel erosion and facilitate groundwater recharge. The improvements would remove the site from the floodplain to facilitate development.</p> | EIR | 01/17/2017 |

| | (post mile 23.6 to 31.6) in Lake County (between the communities of Lower Lake and Kelseyville) to a four-lane expressway with access control. | | |
| 2016121004 | Alhambra Court Commercial Development Alhambra, City of Alhambra--Los Angeles The city of Alhambra development services department, in its capacity as the lead agency, is reviewing an application for the construction of a 134,417 sf Lowe's home improvement store which includes a 23,160 sf garden center, a six-level parking structure; and two, six-story office buildings that will have a combined floor area of approximately 245,400 sf. The six level above ground parking structure will be located between the Lowe's and Building 1. The proposed project site will consist of two parcels with a total land area of 12.66 acres. | MND | 01/03/2017 |
| 2016121006 | Middle Earth Expansion University of California, Irvine Irvine--Orange Phase 1 would demolish the existing Brandywine Dining Commons and Student Center in the existing Middle Earth student housing complex. A seven-story, approximately 240,000 gsf structure with 143,000 asf would be constructed on the 2.2 acre site. The lower two floors of the structure would include a dining hall, community facilities, and support and ancillary space. The top five floors would include 500 student beds within double and triple occupancy rooms and associated dormitory facilities. Approximately 10,000 asf outdoor space would be constructed for dining seating and a loading dock, and the adjacent existing Brandywine Service Road would be widened and lengthened to connect to Ring Road. Phase 2 would remodel the existing Pippin Commons from a dining facility to a recreation center. | MND | 01/03/2017 |
| 2016121007 | Clovis Landfill Left Turn Lane Project Clovis, City of Clovis--Fresno The proposed project would widen Auberry Road to include a left turn lane at the Clovis Landfill entrance. Construction of the project would also include extension of the underground drainage pipes benefit Auberry Road to accommodate the widening, with the exception of the westernmost pipe. The purpose of the project is to improve safety at this location by clearly delineating through lanes and the turning lane. The proposed project would consist of approximately 1,600 lf along Auberry Road. Within the study area, Auberry Road currently has one 12-foot travel lane and one 4-foot bike lane in each direction, for a total road width of 32 feet. Both sides of the roadway include a flat, unpaved narrow shoulder. A cut slope is located adjacent to the south side of the roadway. The proposed project would widen the roadway by 12 feet and would require a 4,900 sf acquisition of right of way APN 300-080-80 and a 4,600 sf acquisition of right of way across APN 300-080-83ST to accommodate the new left turn lane. Grading of the slope on the south side of Auberry Road would be required as part of the proposed project. The final roadway alignment design would avoid disturbance of the land north of Auberry Road. | MND | 01/03/2017 |

| 2016031030 | Housing Element Rezoning Program El Cajon, City of El Cajon--San Diego The project is the city of El Cajon Housing Element rezone program EIR. In order to accommodate the city's share of regional growth, the city has developed a rezone strategy that would apply a mixed use or MU residential required overlay zone to selected properties at appropriate densities. The MU and MU-RR overlay zones would be applied to specific properties within four project areas: the downtown core, Fletcher Parkway Corridor, Parkway Plaza/Arnele Ave Transit station area and East Main St corridor. This strategy would reinvigorate existing commercial areas by allowing new residential uses in close proximity to commercial services and community facilities, while preserving established residential neighborhoods. The majority of the selected parcels within the project areas are designated for commercial or residential land uses (through the general plan and zoning code), except for a small area surrounding the Arnele Ave transit station. This area is currently designated under the general plan as light industrial and public institution land uses and would require a general plan amendment and rezone to a commercial land use in order to allow for a new commercial and residential opportunities surrounding the transit station. | EIR | 01/18/2017 |
| 2016071053 | University of La Verne Facilities and Technology Master Plan EIR La Verne, City of La Verne--Los Angeles The proposed Master Plan provides guidance in planning and developing the University of La Verne over a period of 20 years from the date of City approval of the Master Plan. The Master Plan is consistent with the University's 2020 Strategic Vision, and would result in a physical development plan that extends, in three six-year phases, to the year 2035, as well as a policy plan that would guide the University in its facility and technology strategic investments. The project anticipates an increase in enrollment of approx. 782 full time students, a net increase in up to 1,542 beds in student residences, and a net increase of approximately 403,577 sf of on-campus buildings, which would bring the total campus square footage to approximately 1,030,131 sf. A net increase in parking (up to 498 spaces) would also occur. | EIR | 01/18/2017 |
| 2003022011 | Lake 29 Improvement Project Caltrans #3 --Lake The California Department of Transportation (Caltrans) and the Federal Highway Administration (FHWA) propose to widen an eight-mile segment of State Route 29 (post mile 23.6 to 31.6) in Lake County (between the communities of Lower Lake and Kelseyville) to a four-lane expressway with access control. | FIN | |
| 2010121008 | Measure M2 Natural Community Conservation Plan/Habitat Conservation Plan Orange County --Orange FYI: Final On November 28, 2016 the Orange County Transportation Authority Board of Directors approved a natural community conservation plan/habitat conservation plan that will provide for habitat conservation/mitigation strategy to off-set environmental impacts of the Measure M2 freeway improvement projects. The Board also certified the EIR/EIS which analyzes the impacts of the proposed issuance of take permits to OCTA under the NCCPA and ESA based on | FIN | |

| | implementation of the plan. The plan identifies the covered activities carried out by OCTA that may result in take of covered species within the plan area. Anticipated covered activities currently consist of thirteen proposed M2 freeway improvements projects. | | |
| 2015082048 | Alameda-North Bay Farm Island Pipeline Crossings Project East Bay Municipal Utility District Alameda, Oakland--Alameda The project description is included in the DEIR. The project involves the construction and operation of three transmission pipeline segments (24-in diameters) within Alameda County in the County of Oakland, the City of Alameda, and on North Bay Farm Island (also in the City of Alameda). The proposed pipelines would be located within existing city streets, one business park parking lot, Towata Park, and underneath the Oakland Inner Harbor, Tidal Canal, San Leandro Bay Channel surrounding Alameda Island, and Estuary Park. | FIN | |
| 2015112010 | Klamath River Bridge Replacement Project Caltrans #2 Yreka--Siskiyou The purpose of the project is to provide a road crossing that meets modern highway design standards and accommodates interregional transportation needs. The Klamath River Bridge (Bridge No. 02-0015) was constructed in 1931 and has exceeded its expected service life. The bridge exhibits signs of significant structural fatigue, does not meet modern seismic standards, does not have standard shoulder width, and has an inadequate turning radii where it intersects SR 96. | FIN | |
| 2016031036 | Indian Street Commerce Center Project Moreno Valley, City of Moreno Valley--Riverside The project proposes approx. 446,350 sq. ft. of light industrial uses within an approx. 19.64-acre site. As currently proposed, 357,080 sq. ft., or approx. 80 percent of the Project building area would be allocated for distribution warehouse uses; the remaining 89,270 sq. ft., or approx. 20 percent of the Project building area would be assigned to manufacturing uses. | FIN | |
| 2016081007 | Portside Pier Restaurant Redevelopment Project San Diego Unified Port District San Diego--San Diego Demolition of an existing restaurant and supporting structure (including 66 piles) and redevelopment with a new, two-story restaurant and supporting structure (on 53 piles). The new facility would be approximately 33,577 sf and include three distinct dining establishments, a coffee/gelato shop, an expanded dock and dine for short-term boat berthing, and a public viewing deck with seats for 108. The project would involve an approximately 8,722 sf increase in building floor area and a 4,480 sf increase in water coverage compared to existing. Restaurant seating would be increased by 464 seats. The replacement dock and dine would increase slips by 10 from the existing dock, providing 2 to 12 slips. | FIN | |
| 2016121009 | Nicolas Minor Use Permit/DRC2015-00127 San Luis Obispo County Paso Robles--San Luis Obispo A request by Roger Nicolas for a minor use permit to allow a 2,400 sf winery processing facility that will include a 2,000 sf processing area/tank/barrel room, 400 sf for case storage and a 1,318 sf outdoor crush pad. Wine production is | MND | 01/03/2017 |

| | estimated at 1,200 cases per year. The project will result in 21,290 sf of site disturbance on a 39.55 acre parcel. The proposed project is within the Agriculture land use category and is located approximately 6.50 miles north of the city of Paso Robles (at 7986 North River Rd). The site is in the North County planning area, Salinas River sub area. | | |
| 2016121010 | South Palm Canyon Drive Bridge Replacement over Tahquitz Creek Channel Palm Springs, City of Palm Springs--Riverside The city of Palm Springs, in cooperation with Caltrans, is proposing to replace the existing structurally deficient bridge (State Bridge No. 56C0408) on South Palm Canyon Dr at the Tahquitz Creek Channel with a new bridge. The project is located South Palm Canyon Dr south of the intersection of East Sunny Dunes Road. The project will improve traffic circulation on South Palm Canyon Dr by providing a consistent roadway and sidewalk section along the project area, improve the Tahquitz Creek Channel capacity by providing a larger and consistent channel section under the bridge, and remove the bridge from the federal Eligible Bridge list. | MND | 01/03/2017 |
| 2016121011 | Wilkins Minor Use Permit / DRC2015-00117 San Luis Obispo County --San Luis Obispo A request for a minor use permit to allow the phased construction of winery facility to include: the construction of a 2,000 sf building to include 1,000 sf wine processing area, 900 sf barrel/case good storage, 100 sf tasting room and 1,000 sf outdoor covered crush pad area; the construction of a 3,000 sf building for barrel/case good storage. The project includes a request of 6 special events annually with up to 80 guests and industry-wide events as allowed per ordinance. Wine production is estimated up to 10,000 cases per year. | MND | 01/03/2017 |
| 2016121012 | Steinback Vineyard Minor Use Permit DRC2015-00123 San Luis Obispo County Paso Robles--San Luis Obispo A request by Cindy Steinback for a minor use permit to allow the phased expansion of a previously authorized winery and tasting room. Phase I includes construction of a new 6,800 sf processing and barrel storage facility; phase II consists of the construction of a new 3,000 sf case goods storage building. Also requested is a modification to the 200-ft distance standard between the proposed winery facility and existing tasting room. No special events are proposed. The project will result in the disturbance of approximately 28,712 sf on a 156.76 acre site. The proposed project is within the agriculture land use category and is located at 5940 Union Rd. Paso Robles, CA 93446, approximately 1 mile east of the city of Paso Robles. The site in the El Pomar-Estrella sub area of the North County planning area. | MND | 01/03/2017 |
| 2016121013 | IS 7186 and CUP 3541 (Harris Farms Inc.) Fresno County Coalinga--Fresno Allow modification of an existing Interstate Freeway interchange commercial development to include a medical clinic with administrative offices on an 18.47 acre parcel in the AE-40 Zone district. The project site is located at the southeast quadrant of Interstate Highway 5 and SR 198 (Dorris Ave), approximately eight miles northeast of the nearest city limits of the city of Coalinga. | MND | 01/03/2017 |

| 2016121014 | Riverpark Mitigation Bank Project Riverside County --Riverside The project proposes to restore wetland hydrology to the historic floodplain of the San Jacinto River and complete associated habitat restoration activities, resulting in creation of a 563-acre mitigation bank on parcels totaling 613 acres. Grading is anticipated to involve the removal of approximately 145,000 cy of soil from the man-made berms on both sides of the river. Approximately 46,000 cy of soil would be placed in the low-flow channel, while approximately 99,000 cy would be placed as temporary fill in existing agricultural fields just east of the bank. | MND | 01/03/2017 |
| 2016121015 | CAR Overlay Zone Project Calabasas, City of Calabasas--Los Angeles Request for amendments to the Calabasas land use & development code and general plan. The project involves creation of a new CAR overlay zone that would encompass a 92.6-acre area comprised of commercially zoned property (CL, CR and CB) adjacent and along West Calabasas Road. This area lies within the master planned west Calabasas Road area and includes 22 parcels. The CAR overlay zoning would ensure that auto sales and service, and other related automotive uses, are permitted within the area, consistent with the West Calabasas Rd Master Plan and max density, increasing the max allowable FAR from 0.2 to 0.6 within the CAR overlay zone, for automotive uses in order to incentivize development consistent with the vision in the master plan. | MND | 01/03/2017 |
| 2016122007 | Chestnut Square Livermore, City of Livermore--Alameda The proposed project would demolish the existing commercial-retail structure and paved areas on the project site and redevelop the site with a 158-unit housing development. The project proposes 44 market-rate, for-sale townhouses within 10 buildings and two apartment buildings with affordable rental units for seniors (72 units) and families (42 units). A private street would provide internal circulation, connecting Chestnut Street and North N Street. Each apartment building would have a level of below-ground parking in addition to surface spaces. Each townhouse would have a two-car garage. The project also includes landscaping, lighting, and amenities such as publicly accessible open space, a children's play area, community rooms, and an on-site management office. | MND | 01/03/2017 |
| 2016122008 | General Plan 13-002, Zone Amendment 13-004, and Tract Map 2003 Shasta County --Shasta The project is a general plan and zone amendment from the Rural Residential A General Plan land use designation to the suburban residential one unit per acre general plan land use designation and from the current planned development zone district to a PD zone district specific to the proposed project or other appropriate general plan and zoning designation to facilitate the merger and re-subdivision of three parcels of land to create a proposed 102-parcel residential land division including 98 suburban residential lots ranging from 6,000 sf to 16,645 sf in size, a 36.6 acre open space parcel, a 59.1 acre residential parcels, and two approximately one-acre residential parcels. Extension of urban water and sewer services. | MND | 01/03/2017 |

| 2016122009 | <p>Eastline Project - 2100 Telegraph Oakland, City of Oakland--Alameda</p> <p>The preferred development option is a residential and office mix with up to: 880,550 sf of large-floor-plate office, 365,000 sf residential tower (up to 395 units), 85,000 sf of ground floor retail, and 18,500 sf of community space. This option is currently considered to be the best fit for the site and current market. However, to allow the flexibility for the development to be responsive to market demands and opportunities, a planned unit development/preliminary development plan is proposed to provide a development framework that allows a range of development. Two primary project approvals will be considered in the EIR, as follows: planned unit development/preliminary development plan and final development plan.</p> | NOP | 01/03/2017 |
| 2007011060 | <p>The 2006 Klamath River Restoration Grant Program in Humboldt and Siskiyou Counties Fish & Game #1 --Siskiyou</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0140-R1, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Mr. Tom Hayden.</p> <p>The project is limited to activities associated with the annual maintenance/repairs to an existing headgate and fish screen; and the diversion of water from Patterson Creek, Diversion Numbers 400-7 and 401-7 (Pipe Ditch), pursuant to the Applicant's lawful water right (Scott River Adjudication, No. 30662, Jan. 30, 1980). The combined total maximum water right is 6.0 cubic feet per second from April 1 to Oct. 15 for Domestic/irrigation use, and a year round water right of 0.3 cfs for stock water use. The Pipe Ditch Diversion vortex boulder weirs were repaired/reconstructed in 2007 and was funded by the 2006 Klamath River Restoration Grant Program. Maintenance of the diversion intake and fish screen involves the periodic removal of built up debris and silt from around the fish screen using hand tools including shovels, working on screen mechanics, and the occasional minor replacement of hand-stacked rocks on the weir to direct water flow towards teh ditch entrance.</p> | NOD | |
| 2007011125 | <p>Wyndham Boutique Hotel/High-Rise Residential Project Costa Mesa, City of Costa Mesa--Orange</p> <p>The proposed project involves the demolition of the existing Avenue of the Arts Hotel parking garage and construction of a 15-story, 150-room high rise hotel tower adjacent to a new, proposed 6-level parking garage. The hotel tower would be constructed adjacent to the existing 238-Avenue of the Arts Hotel, which would be retained as part of the proposed project. This project represents a modification to the approval development plan and it was determined that, when compared to the previously certified Final EIR 1054, no new impacts would occur nor would there be any substantial increase in the severity of any previously identified impacts.</p> | NOD | |

| | <p>represented by Mr. Dustin Harrington.</p> <p>The project proposes to excavate up to 3 test pits to be used for a geotechnical investigation in preparation for the future installation of a culvert crossing associated with the Diamond Springs Parkway project. Each test pit will measure approx. 5 feet wide, ten feet long, and 12 feet deep. Subsurface material will be observed, and small samples will be collected for lab analysis. Following excavation, observation, and sampling, the excavated material will be replaced, and the test pit location restored to its original condition. The test pits will be situated in such a way that woody vegetation will not be removed, and excavated when no water is present within the stream.</p> | | |
| 2012032012 | <p>Lake Merritt Station Area Plan Oakland, City of Oakland--Alameda</p> <p>The proposed W12 Mixed-Use Project ("proposed project") would be two seven-story, approx. 87-foot tall buildings containing up to 416 residential units and approx. 26,200 sq. ft. of ground floor commercial space. The proposed project will replace a single structure being used for a school (Downtown Oakland Charter School) and public parking, and a paved recreation area.</p> | NOD | |
| 2013041031 | <p>California Flats Solar Project Monterey County --Monterey</p> <p>Project involves the construction, operation and maintenance, and decommissioning of a 280-megawatt solar power generating facility on approx. 2,367 acres of undeveloped grassland. The project is composed of four main components: solar development areas, a transmission line corridor, an access road, and a utility corridor.</p> <p>The project is expected to result in incidental take of San Joaquin kit fox (SJKF) and CA tiger salamander (CTS), which are designated as threatened species under the CESA. The ITP referenced above as issued by CDFW authorizes incidental take of the two species listed under CESA that may occur as a result of Project implementation, including temporary impacts to 213 acres and permanent impacts to 2,154 acres of SJKF and CTS habitat. Amendment No. 1 modified the Project Description and several Conditions of Approval to clarify allowable activities. Amendment No. 2 modifies the night work language to allow for limited pre-sunrise and post-sunset use for the main access road, adds a Condition of Approval that further defines use of the main access road, and adds to the language pertaining to compensatory mitigation to include the option to purchase acres of Covered Species credits from a CDFW-approved mitigation or conservation bank.</p> | NOD | |
| 2015041025 | <p>Glorietta Bay Marina Dock C and Boat Launch Facility Improvements Coronado, City of Coronado--San Diego</p> <p>SDRWQCB is issuing a Clean Water Act Section 401 water quality certification (Cert. No. R9-2015-0190) to the project applicant. The applicant proposes improvements to the Marina and Boat Launch Facility that includes the following: reconfigure and replace Dock C, replace the boat launch ramp and public dock, replace rock revetment with a new sandy beach, maintenance-dredging, and repair of Glorietta Bay Park Storm Drain Outfall. Permanent loss and ecological degradation will be off-set by eelgrass habitat mitigation.</p> | NOD | |

| | Development. Project area is defined as 150 feet either side of the designated centerline of either the road or 40 boundary lines. The northern terminus is the intersection of Pack Trail Road and Buckboard Court. The southern terminus is the southern boundary of the NE 1/4 of the NW 1/4 of Section 12. The project is just south of the main ridge dividing the Stanislaus River Canyon to the north and the more populated areas of Tuolumne County to the South. | | |
| 2016128022 | Upper Toleman TRA Forestry and Fire Protection, Department of --San Luis Obispo Project consists of approximately 150 acres of fuel reduction within a 165 acre project to create a Temporary Refuge Area which will provide an area of reduced vegetation which will promote reduced fire intensity during a large wildfire where residents, firefighters and related resources can be safe during an intensely burning wildfire such as the 1994 Hwy 41 fire which burned this entire area. This project is a component of a large fire defense network of existing fuelbreaks and strategic features that are intended to reduce the threat of a large wildfire. | NOE | |
| 2016128023 | SMR Fuelbreak Forestry and Fire Protection, Department of --San Luis Obispo Project consists of approximately 17 acres of fuel reduction to create and maintain a fuelbreak as part of a large fire defense network along the south and west sides of the City of Atascadero. The project area was involved in and is adjacent to the 2015 Cuesta Fire. Brush, primarily chamise, manzanita, coyote brush, toyon and ceanothus will be removed and treated using mastication equipment which will shred/mulch and evenly distribute the slash to an average depth of 6 inches. Live oaks and madrone trees over 5 inches diameter at breast height will be retained and pruned to eliminate ladder fuels. Hand crews will be used to prune residual trees and complete work in areas where equipment is not feasible. | NOE | |
| 2016128024 | Interconnection of E&J Gallo Winery: 1000447 with Bakman Water Company: 10100001 State Water Resources Control Board Fresno--Fresno The State Water Resources Control Board (State Water Board), as the lead agency, will be issuing an amended water supply permit. The E&J Gallo proposed project is intended to use the water from the new connection with Bakman Water Company to supplement E&J Gallo's existing groundwater source supply during peak demand seasons. | NOE | |
| 2016128025 | Fort Hunter Liggett Base of Bald Mountain Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo --Monterey The project activities include: * Installing three cutouts along the road to lessen the flow into the eroded feature; * Using soil from an off-site borrow area as fill, in order to lessen the angle of the abrupt walls of the eroded feature, * Installing 12-cubic yards of 12-34 foot stone to halt continued erosion; * Hydroseeding the area; and * Staging machinery and materials on the existing road surface. | NOE | |

| | the Project activities that may be implemented under the project. | | |
| 2010091044 | Sylmar Ground Return System Replacement Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed new underwater electrode array would be about 2 miles offshore directly on the ocean floor at a depth of about 100 feet below mean sea level. Based on a preliminary design, the electrode array would be composed of 36 concrete vaults, 144 electrodes, marine cables, and other related structures,. Each approx. 20-ton vault would be 20 feet long, 8 feet wide, and 4 feet high. The vaults would be arranged in two rows of 18 vaults. Each vault and row would be spaced approx. 30 feet apart. The State Lands Commission action is an approval of a 20-year General Lease - Industrial Use through Dec. 5, 2036. | NOD | |
| 2012082074 | Tomales Bay Vessel Management Plan California State Lands Commission --Marin The Tomales Bay Vessel Management Plan (TBVMP) is the result of a long-term multi-agency effort to streamline and coordinate vessel management activities for the benefit of the public. The TBVMP aims to improve water quality, protect wildlife and habitat, protect public health and ensure recreational opportunities in Tomales Bay. It also implements the mandates and regulations of both GFNMS and CSLC. The CSLC actions are issuing a 10-year General Lease - Recreational and Protective Structure Use for vessel mooring facility(ies) consistent with the TBVMP. | NOD | |
| 2015051012 | Valley South Subtransmission Project Public Utilities Commission Menifee, Murrieta, Temecula--Riverside The proposed project includes construction and operation of a new 115-kilovolt subtransmission line. Segment 1 includes a new 115-kV line extending from SCE's existing Valley Substation in the City of Menifee, south approximately 12 miles, to a tubular steel pole (TSP) on the southeast corner of Leon/Benton Road. Segment 2 involves reconductoring of an existing 115-kV line from this TSP to just west of SCE's existing Triton Substation in the City of Temecula (3.4 miles). The purpose of the Project is to provide additional capacity to serve long-term forecasted electrical demand, enhance electrical system reliability, provide greater operational flexibility, and provide safe and reliable electrical service. Construction would last approximately 16 months beginning in March 2018. | NOD | |
| 2016052002 | Dredging at Lagoon Intake Structure Project (CIP 301-629) Foster City Foster City--San Mateo Maintenance dredge a maximum of 13,000 cubic yards of sediment material in Angelo Slough and Belmont Slough to maintain sufficient water flow through Angelo Slough from Belmont Slough to the Foster City, Lagoon intake structure. Dredged material will be disposed of at U.S. Army Corps of Engineers approved disposal sites or at approved beneficial upland use sites. Dredged material may not be sold. The State Lands Commission action is an approval of a 3-year General Lease - Dredging through Dec. 5, 2019. | NOD | |

| 2010041106 | Warner Ranch San Diego County --San Diego Note: Review Per Lead | EIR | 02/06/2017 |
| | <p>The Warner Ranch project is a master planned community encompassing 513 acres and would consist of creating a total of 780 dwelling units, a 4.2 acre public park, approximately 7.7 acres of private parks, a clubhouse, 2.7 miles of public and private trails, and 359 acres of open space. Of the 780 dwelling units, 534 would be single family detached residences, 30 would be attached residences and 216 would be multi-family townhomes. Onsite grading would be balanced on-site with approximately 2.3 million cy of cut and fill. Access to the project site would be from SR 76. Frontage improvements along SR 76 would include the addition of acceleration and deceleration lanes. The Rainbow Municipal Water District would provide water and sewer service after annexation and the county fire authority would provide fire protection services. A fire station would be constructed onsite and be transferred to the county fire authority. The site is currently subject to the county's land use designation, RL-40. Zoning for the site is A-70 and A72. The project is located on the north side of SR-76, approximately four miles east of the I-5 within the Pala Pauma Subregional Planning area within the unincorporated area of San Diego county.</p> | | |

| | 2232-2240 El Camino Real, a 2.74 acre project site comprised of two parcels on the south side of El Camino Real between Los Padres Drive and McCormick Drive in the city of Santa Clara. APNs: 290-10-090 and 290-10-091. The proposal include an adoption of a MND, approval of a rezoning from Community commercial to planned development, and approval of a vesting tentative parcel map to allow the development of a five-story, mixed-use development with 10,000 sf of commercial floor area and 151 apartment units. | | |
| 2012091050 | Fast Forward 2040 - Regional Transportation Plan & Sustainable Communities Strategy Supplemental EIR Santa Barbara County Association of Governments Buellton, Carpinteria, Goleta, Guadalupe, Lompoc, ...--Santa Barbara The proposed project is the update of SBCAG's RTP/SCS. SBCAG is in the process of revising the RTP/SCS as required by the California Government Code Section 65080 et seq., and federal guidelines pursuant to the federal Fixing America's Surface Transportation Act (FAST Act). SBCAG's previous RTP was adopted in 2013. Fast Forward 2040 is the culmination of a multi-year effort that aims to improve the balance between land use and transportation systems. The RTP/SCS has preferred scenario that includes a future land use pattern for the region and identifies polices programs, actions, and a plan of projects intended to meet regional transportation needs and policy goals, including a regional greenhouse gas emissions target for passengers vehicles for 2020 and 2035. A SEIR is being proposed. | NOP | 01/05/2017 |
| 2016121022 | Santee Mobility Element Update Santee, City of Santee--San Diego The proposed project involves an update to the existing Mobility Element within the City's General Plan 2020 (2003) to bring it up to date with current planning law, including Assembly Bill (AB) 1358, also known as the 2008 Complete Streets Act. This proposed Mobility Element Update would identify the future vision and key direction for achieving a multi-modal transportation system that serves all Santee residents while accommodating anticipated future growth. Since the proposed project is intended to guide development of the City's transportation network through the year 2035, the proposed Mobility Element Update would outline proposed updates to the City's pedestrian, bicycle, public transit, and roadway networks. However, the proposed project is a planning project that identifies the potential future circulation network changes within Santee and, as such, specific | NOP | 01/05/2017 |

Project is limited to activities associated with the periodic removal of sediment from around the fish screen and headgate structure; and the diversion of water from Shackelford Creek, Diversion No. 6 (Camp Ditch), pursuant to the Applicant's legal water right (Shackelford Creek decree No. 13775, April 3, 1950). The combined total maximum water right for the Camp Ditch is 5.0 cubic feet per second (cfs) from April 1 to Oct. 31; and a stockwater right of 1.0 cfs from Nov. 1 to April 1. Maintenance of the diversion intake involves the periodic removal of accumulated sediment around the headgate structure using hand tools including shovels, and a backhoe located above the stream banks. Currently CDFW Screen Shop maintains the fish screen/fish screen bypass pipe and keeps them in operational use. The original Camp Ditch Diversion structure and fish screen was funded by a Wildlife Conservation Board Grant in 2002; and implemented through 2002 Fishery Restoration Grant Program in partnership with the Siskiyou County Resource Conservation District. Subsequently, the original fish screen and was replaced by CDFW with a new fish screen in 2014. | NOD | |
| 2015061083 | Riverside County 2013-2021 Housing Element Update General Plan Amendment 1122 Riverside County --Riverside The proposed project comprises the following actions: general plan amendment to adopt the 2013-2021 Housing Elements, updates to the Safety and Land Use Elements, as well as 9 General Plan Area Plans, Revisions to Ordinance No. 348, and a Change of Zone to develop consisting zoning with the proposed General Plan Amendment. Some items affect Countywide Policies, while others affect specific parcels. Maps and Data may be viewed online on the Planning Department Website. | NOD | |
| 2016041076 | UCLA Margan Apartments Redevelopment Project University of California, Regents of the Los Angeles, City of--Los Angeles The proposed Project involves demolition of an existing UCLA-owned, undergraduate apartment building of approx. 43,000 gsf; comprised of 31,000 gsf of residential area and 12,000 gsf of subterranean parking. This would be replaced through construction of a new 62,000 gsf apartment building, comprised of 61,000 | NOD | |

| 2012032012 | Lake Merritt Station Area Plan Oakland, City of Oakland--Alameda The proposed W12 Mixed-Use Project ("proposed project") would be two seven-story, approx. 87-foot tall buildings containing up to 416 residential units and approx. 26,200 sq. ft. of ground floor commercial space. The proposed project will replace a single structure being used for a school (Downtown Oakland Charter School) and public parking, and a paved recreation area. | NOE | |
| 2016128062 | Issuance of Strembed Alteration Agreement No. 1600-2016-0173-R1, Dam Ditch Water Diversion Project Fish & Wildlife #1 --Siskiyou The project is limited to activities associated with the occasional removal of sediment from around the headgate structure; and the diversion of water from Shackleford Creek, Diversion No. 3 (Dam Ditch), pursuant to the Permittee's legal water right (Shackleford Creek Decree No. 13775, April 3, 1950). The total maximum water right for the Dam Ditch is 3.8 cubic feet per second (cfs) from April 1 to October 31; and a stockwater right of 1.0 cfs from November 1 to April 1. Maintenance of the diversion intake involves the occasional removal of accumulated sediment around the headgate structure using hand tools including shovels. | NOE | |
| 2016128063 | Wilson Creek Culvert Repair Project (SAA No. 1600-2016-0213-R2) Fish & Wildlife #2 --Butte The project consists of the removal and replacement of the culverts on La Porte Road, approximately 1,500 feet east of Kings Ranch Road. Construction will require the area between the two headwalls to be excavated, the tops of the culverts will be cut out, and then two 20 foot long sections of high-density polyethylene (HDPE) will be slipped into the remaining corrugated metal pipe. Finally, the pipes will be backfilled and the road will be reconstructed. Impacts to the creek will include minor excavation around the culverts and within the bed and bank to clear material from around the culvert and match the existing grade. | NOE | |

| 2016128064 | Wilson Creek Culvert Repair Project (SAA No. 1600-2016-0211-R2) Fish & Wildlife #2 --Butte The project consists of the removal and replacement of culverts at two locations along Wilson Creek. The first site is located on Dunstone Drive approximately 450 feet northeast of the intersection of La Porte Road and Dunstone Drive. The second site is located on Bangor Park Road approximately 2,200 feet east of the pipes (CMP) that will be replaced with either CMP or high-density polyethylene (HDPE) culverts of the same dimensions. Construction activities at both sites will include saw cutting the roadway above the existing culverts, removing said culverts as wells as broken concrete and damaged roadway. | NOE | | | | | |

| 2016021111 | Canyon Springs High School Ahtletic Complex Moreno Valley Unified School District Moreno Valley--Riverside The District is proposing several improvements to Canyon Springs High School (CSHS). Campus changes would include: off-campus: an expansion of the campus through acquisition of the adjacent Westbluff Park and construction of a second campus access driveway from Pigeon Pass Rd and parking lot; on-campus: replacement of the existing football/soccer field with a new 3,000 seat athletic complex; construction of a new on campus driveway and parking lot; relocation of two softball fields, a soccer field, and tennis courts. | EIR | 01/23/2017 | | | | |
| 2016121024 | Firestone Boulevard Regional Corridor Capacity Enhancement Project South Gate, City of South Gate--Los Angeles The project proposes roadway and streetscape improvements along two discontinuous segments of Firestone Boulevard. For the west segment, a 2.34-mile, four-lane segment of Firestone Boulevard between Alameda Street and Hunt Avenue, the project will include traffic capacity enhancements (4 to 6 lanes), stormwater improvements and streetscape improvements. For the east segment, a 0.21-mile, six-lane segment will include proposed streetscape improvements along the parkway and median between Firestone Place and Rayo Avenue. As a major east-west corridor, Firestone Blvd is a Primary Arterial in the city's general plan with ultimate width of 100 feet that would include six lanes, a raised center median and additional left-turn pockets at major intersections. The project would potentially improve safety and capacity along these roadway segments. | MND | 01/06/2017 | | | | |
| 2016121026 | Joint Transmission Main (JTM) Pipeline Abandonment Project South Coast Water District Irvine--Orange South Coast Water District is the contract operator for a large water main known as the Joint Transmission Main. In February 2013, the district completed a relocation of approximately 4,000 ft of the JTM transmission main into an extension of Lake Forest Drive. Approximately 4,000 ft of the original 60-in transmission main remains in a pipeline easement north of Lake Forest Dr from Romano Ave to Bake Parkway. Pursuant to right of way obligations, the district is required to complete abandonment of the 4,000 ft section of the JTM by filling the | MND | 01/06/2017 | | | | |

| 2009052096 | <p>convey high flows not captured by the on-site LID features. The outfall is located at the top of bank approx. 50 feet from Santa Rosa Creek high flow channel. Above the culvert outfall, the bank will be graded to an approx. 2:1 slope and below the culvert the bank will remain at an approx. 1:1 slope. The circumference of the outfall will be armored with approx. 2 to 3 feet of rockslope protection. Native vegetation will be planted below the outfall on the floodplain. The project will impact approx. 23 linear feet of bank. All work will be conducted from the top of the bank.</p> <p>Coyote Point Recreation Area Shoreline and Promenade Improvement Project San Mateo County San Mateo, Burlingame--San Mateo</p> <p>The purpose of the proposed project is to develop a sustainable solution to the coastal erosion problem, as well as future sea level rise, along the SF Bay at the park shoreline while facilitating good public access to the beach and water for a variety of users, particularly swimmers and windsurfers.</p> | NOD | |
| 2015062001 | <p>Mora Drive Residential Project Mountain View, City of Mountain View--Santa Clara</p> <p>PRoject consists of DTSC approval of Remedial Action Plan Amendment for Plessey Micro Science (Site) prior to residential development. The Site occupies approx. one acre, within the Mora Drive Residential Project of approx. 5.15-acres. The City of Mountain View (City) approved the development of 75 three-story row houses, consisting of 61 attached and 14 detached units, each containing two to three bedrooms and garages.</p> <p>The City prepared an IS/MND. The City approved the MND on Jan. 5, 2016 with mitigation measures addressing air quality hazards and hazardous materials, noise, and utilities. Since the Site is within the Mora Drive Residential Project, DTSC, as the CEQA Responsible Agency, is utilizing the MND for the Remedial Action Plan Amendment CEQA analysis.</p> <p>DTSC approved the May 1991 Remedial Action Plan which required the removal of underground storage tanks, removal of soil impacted with volatile organic compounds (VOCs), and construction and operation fo soil vapor/groundwater treatment system. The system operated from 2002 to 2009, and was modified in 2005 to include in-situ Hydrogen Release Compound (HRC) injections as an enhanced remedy in order to speed up the cleanup. After Plessey Micro Science went out of business and shut down he treatment systems in late 2009, DTSC took over the cleanup. DTSC has conducted semi-annual groundwater monitoring to evaluate the effectiveness of the previous injections and conducted additional injects in 2013.</p> <p>The remedy continues to work well as VOC concentrations continue to decrease. HRC injections have helped to expedite the cleanup, but DTSC needs to do additional injections to meet the cleanup goals. In addition, excavation of contaminated soil beneath former buildings at the Site has become feasible since they were demolished in anticipation of future development. A formal amendment to the May 1991 Remedial Action Plan is necessary to achieve a cleanup suitable for future residential land use.</p> <p>Cleanup actions as proposed in the Remedial Action Plan Amendment include excavation of an estimated 1,800 cubic yards of soil contaminated with metals and VOCs at depths up to 12 feet below ground surface for off-site disposal at permitted facilities, injection of chemical to enhance reductive dechlorination in groundwater at targeted areas, and establishment of a land use covenant to</p> | NOD | |

| 2016128092 | Consider an Application for a Non-Exclusive Geological Survey Permit on Tide and Submerged Lands - WP 9108 California State Lands Commission -- Authorize issuance of a Non-Exclusive Geological Survey Permit to conduct geological surveys for the period January 24, 2017, through January 23, 2020. | NOE | |
| 2016128093 | Consider Application for an Extension of a Mineral Prospecting Permit for Minerals other than Oil, Gas, Geothermal Resources, Sand, and Gravel California State Lands Commission --Mono Authorize the extension of a mineral prospecting permit No. PRC 9145.2 for an additional year beginning September 1, 2016, through August 31, 2017, for all minerals other than oil, gas, geothermal resources, sand, and gravel. | NOE | |
| 2016128094 | Consider Application for a Prospecting Permit for Minerals other than Oil, Gas, Geothermal Resources, Sand, and Gravel California State Lands Commission --Inyo Authorize the issuance of a mineral prospecting permit for a term of 2 years beginning January 1, 2017, through December 31, 2019, for all minerals other than oil, gas, geothermal resources, sand, and gravel. | NOE | |
| 2016128095 | Consider Delegating Authority to the Executive Officer to Enter into an Agreement with the Smithsonian Environmental Research Center to Support a Study California State Lands Commission -- Commission staff proposes to provide funds from the Marine Invasive Species Control Fund to the Smithsonian Environmental Research Center to support a study evaluating the effect of vessel hull husbandry and operational practices on nonindigenous species introduction risk. | NOE | |
| 2016128096 | Consider Adoption of Regulations to Amend Regulatory Definitions and the Fee Used to Fund California's Marine Invasive Species Program California State Lands Commission -- The proposed regulations would implement, interpret, and make specific Public Resources Code sections 71200 and 71215. Statute requires the Commission to establish a reasonable and appropriate fee to carry out the activities required by the Marine Invasive Species Act. | NOE | |
| 2016128097 | Chowchilla 2R Rehab Caltrans #6 --Madera The project is located on State Route 99 in Madera County between the State Route 152/99 Separation and the Merced County line. The California Department of Transportation (Caltrans) will rehabilitate pavement on State Route 99 in both directions between post mile 22.7 and post mile 29.4. Additional work will include replacing guardrail, departure and approach slabs at bridges, shoulder backing, striping, inside and outside shoulder rumble strip, detector loops Type A and non-standard dike with Type E dike; cold planning the existing Hot Mix Asphalt at on and off ramp locations within the project area; digging out and replacing areas where the existing substructure is failing; modifying the beams where necessary. | NOE | |

| 2016128098 | Apple Valley Reclaimed Water Phase 1 Delivery Infrastructure Apple Valley, City of Apple Valley--San Bernardino The Town of Apple Valley will install pipeline infrastructure to collect up to 1 million gallons of reclaimed water from the sub-regional water reclamation plant. The Apple Valley Water Reclamation Plant is currently under construction and is owned and will be operated by the Victor Valley Waste Water Authority. The Reclamation Plant project includes main collection lines that redirect the overflow from the plant to the overflow ponds within the Town owned municipal golf course. This project will install reclaimed water interties to connect to the main reclaimed water pipeline to deliver reclaimed water to five proposed sites. | NOE | |
| 2016128099 | CSUS Fitness Station Parks and Recreation, Department of --Sacramento Install an outdoor fitness station adjacent to the parking lot of the California State University of Sacramento's Aquatic Center located in the Nimbus Flat Area within Folsom Lake State Recreation Area, to provide a new workout area for the public and to support an Eagle Scout project. | NOE | |
| 2016128100 | Stamp Mill Reconsruction (2 Stamp) Parks and Recreation, Department of --El Dorado Reconstruct a 2-stamp stamp mill used as an interpretive element in the "Mining Method" interpretive display within Marshall Gold Discovery State Historic Park to maintain the stamp mill as an interpretive element. Work will reconstruct the stamp mill using in-kind materials and retain original iron machinery in place. | NOE | |
| 2016128102 | Kornberg Water Diversion and Stream Crossings Project (Lake or Streambed Alteration Agreement No. 1600-2016-0377-R1) Fish & Wildlife #1E --Humboldt The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2016-0377-R1, pursuant to Section 1602 of the Fish and Game Code to Ms. Wendy Kornberg. | NOE | |
| 2016128103 | Issuance of Streambed Alteration Agreement No. 1600-2016-0290-R1, Hearst Willits Road Culvert Replacement Project Fish & Wildlife #1 --Mendocino The project includes one encroachment activity and is limited to replacement of a pair of 48-inch diameter, corroded metal culverts with one 10-foot by 6 foot precast concrete box culvert. Temporary cofferdams will be installed within the stream channel as part of a de-watering plan, should flowing surface water is present within the work area during scheduled construction. Rock bank protection is required on portions of the stream channel at the culvert inlet and outlet. | NOE | |
| 2016128104 | Osman Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2016-0401-R1) Fish & Wildlife #1E --Humboldt The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2016-0401-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Sami Osman. | NOE | |

| 2013061042 | Valiano Specific Plan San Diego County San Marcos, Escondido--San Diego The site is located in the Eden Valley area within the San Dieguito Community planning area of unincorporated San Diego county, between the cities of San Marcos and Escondido. The proposed project is a residential development of 326 homes on 239 acres. The proposed lot sizes range from 5,630 sf to 1.6 acres, and up to 54 of the 326 residential homes would include a second dwelling unit. The project also includes 36.5 acres of agricultural easement and 28.2 acres of biological open space, as well as fire clearing zones. The project would take access from Eden Valley Lane, Mount Whitney Rd, and County Club Dr, with emergency access to Hill Valley Dr. Proposed grading is 928,000 cy of balanced cut and fill. The project would also include public multi use trails, private trails, public and private parks, and an equestrian center. | EIR | 01/23/2017 |
| 2014121065 | West Alton Parcel Development Plan Orange County Irvine--Orange Note: Review Per Lead The proposed project is the approval of the development plan, which provides for the development of up to 803 multi family dwelling units in planning areas 1 and 2, with a max gross density of 30 du per acre per planning area. The conceptual site plan included in the development plan proposes four neighborhoods. A total of 80 units will be committed to affordable housing and 8 units will be transitional housing units. A network of parks and open space would be provided within the two planning areas and would include neighborhood parks, private recreational | EIR | 02/09/2017 |

| | areas, local gardens, pocket parks, and a system of trails. | | |
| 2015092039 | Greenway Master Plan and Flood Hazard Reduction Project Yreka, City of Yreka--Siskiyou The proposed project includes two components: (1) the 2016 Greenway Master Plan, and (2) three specific projects within the Master Plan. The 2016 Greenway Master Plan substantially increases the Master Plan area, with a provision of the plan related to a reduction in flood hazards throughout the city by containing floodwaters within Greenway corridors to the greatest extent feasible. Actual construction activities on Yreka Creek include improvements in three areas of the creek identified as the Central Reach, North Reach and South Reach. The improvements to the floodway would be accomplished through the widening of the creek channel and the lowering of the existing area adjacent to the creek, and by providing overflow channels. Additionally, trails and greenways will be developed. | EIR | 01/23/2017 |
| 2015101083 | San Luis Ranch Specific Plan San Luis Obispo, City of San Luis Obispo--San Luis Obispo The San Luis Ranch Project consists of a specific plan, general plan amendment/pre-zoning, and development plan/tentative tract map for a 131 acre project site, including annexation of the site into the city of San Luis Obispo. The project is intended to be consistent with the development parameters described in the city's land use and circulation element (adopted in December 2014). The project includes construction of up to 580 residential units, 150,000 sf of commercial development, 100,000 sf of office development, and a 200-room hotel, with a portion of the site preserved for agriculture and open space uses. The project is planned to be constructed in six phases. | EIR | 01/23/2017 |
| 2008112095 | Geary Corridor Bus Rapid Transit (BRT) Project San Francisco, City and County of San Francisco--San Francisco Notes: 1 CD The project would create bus rapid transit (BRT) along one of San Francisco's major east-west transit routes. The Draft EIS/EIR analyzes 4 build alternatives; each would create two dedicated transit lanes (one eastbound and one westbound) from Gough Street to 34th Ave. The build alternatives would include the following features: colorized bus-only lanes, high frequency bus service, transit signal priority, BRT/rapid network-branded vehicles, high-amenity BRT stations, mixed-flow travel lanes, bus bulbs and pedestrian crossing bulbs, protected left turns, new signalized pedestrian crossings, and a bicycle lane between Masonic and Presidio Avenues. | FIN | |
| 2013124001 | Wilton Rancheria Fee-to-Trust and Casino Project Bureau of Indian Affairs Elk Grove--Sacramento Note: Review Per Lead The proposed action is the acquisition of approx. 36 acres of fee land in trust by the United States upon which the Wilton Rancheria (Tribe) would construct a casino resort. The proposed property is located within the city of Elk Grove in Sacramento County, immediately west of Highway 99, north of Kammerer Road, and east of Promenade Parkway. The 36-acre site is on the northern portion of the | FIN | 01/17/2017 |

| | larger, previously developed mall property. The EIS/tribal project Environmental Document analyzes the environmental impacts of the project, pursuant to NEPA and the MOU between Sacramento county, the city of Elk Grove, and Wilton Rancheria. A revised draft conformity determination required by the clean air act is included as revised appendix T of the FEIS. | | |
| 2016102034 | Triumph Development Hotel and Residential Project Truckee, City of Truckee--Nevada The applicants are proposing to construct a mixed use project that includes a 71,090 sf three story hotel with 114 rooms and five three story apartment buildings with a total of 138 rental units at 10470 East Jibboom St. The apartment buildings are proposed to have a total of 33 studios, 54 one bedroom units, 42 two bedroom units, nine three bedroom units, and common amenities. 361 parking spaces, including 123 hotel parking spaces (four handicap spaces and five guest check-in spaces) and 238 apartment spaces are proposed. East Jibboom St is proposed to be extended through the project site to Donner Pass Road with pedestrian improvements. A Class I trail is also proposed along the southern property line. The parcel is proposed to be subdivided into two parcels - a residential parcel of 7.6 acres and a hotel parcel of 2.8 acres is proposed. Amendments to the Downtown Specific Plan are proposed to ensure consistency with the Housing Element and Development Code. | MND | 01/10/2017 |
| 2016121027 | Well 22 Upgrade Project Solvang, City of Solvang--Santa Barbara The purpose of the proposed project is to increase local water supplies to the city through the activation and upgrade of the presently existing but inactive city well 22. The city completed the drilling and initial pump testing of well 22 in 1997. A permanent casing, sanitary seal, and wellhead were installed at that time. The proposed project would upgrade the existing well to offset the shortfall in water supply for the residents and businesses of the city. The proposed project includes the upgrade of the existing well 22 and operation of the pump, wellhead piping, waterlines, and associated infrastructure. Upon completion of the wellhead upgrades, an 8-in diameter PVC waterline would be installed to connect the well to the city's distribution system. The max production rate from the upgraded well would be 325 gallons per minute. | MND | 01/09/2017 |
| 2016121031 | North Hollywood West Well Field Water Treatment Project Los Angeles Department of Water and Power Los Angeles, City of--Los Angeles Note: Extended Review Per Lead The LADWP proposes to implement a response action to address releases of 1,4-dioxane in groundwater that are migrating to the North Hollywood West Well Field. This response action would be achieved by installing water treatment equipment at the well field capable of removing the 1,4-dioxane to below identified cleanup levels. It would minimize the spread of contaminant mass, limit further degradation of the groundwater basin directly downgradient of the NHW wells, remove contaminant mass from the aquifer, assist in the restoration of beneficial uses of the groundwater basin, prevent the ingestion of groundwater that exceeds cleanup levels, and restore LADWP's capability to operate its existing NHW Well Field. | MND | 02/23/2017 |

| 2016121032 | <p>Planning Area 6 North Elementary School Irvine Unified School District --Orange</p> <p>The Irvine USD has prepared an IS to determine the environmental effects associated with the construction and operation of planning area 6 North ES project and finds issuance of a MND is the appropriate level of environmental review. The proposed 11.3-acre property (12.6 gross) will be in the Partola Springs Community, Irvine, Planning Area 6 north of Portola Parkway, south of SR 241. It is currently under the ownership of the Irvine Community Development Company and the site will be acquired by the district before construction.</p> <p>The proposed project will accommodate a max of 1,000 students from kindergarten to 6th grade, with 75 staff members. The proposed elementary school will utilize a net usable 11.3 acre property of The Irvine Company community development. The proposed elementary school building will utilize approximately 59,000 sf of the property. The proposed site plan includes the build out of approximately 59,000 sf of permanent building space, three childcare portables, and future expansion of up to 10 portable classrooms. Anticipated construction date will begin April 2018 until August 2019, with the school opening scheduled during the final week of August 2019.</p> | MND | 01/09/2017 |
| 2016121038 | <p>ENV-2016-2580-MND Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The office building and parking would remain as part of the proposed project and the land occupied by the lawn and plaza is proposed to be developed with a mixed use residential and commercial building. The project proposes development of a mixed use 36-story, 531,470 sf tower building containing 506 residential units (381 1-bedroom units, 119 2-bedroom units, and 6 penthouse 3-bedroom units) and 62,035 sf of commercial space (40,322 sf of retail, 6,204 sf of quality restaurant, 12,407 sf of high turnover sit down restaurant, and 3,102 sf of fast-food restaurant).</p> | MND | 01/10/2017 |

| | secondary lead smelter. Exide would permanently close the facility and implement a DTSC approved Closure Plan that would include dismantling operations and remediating contamination at the facility. The Closure Plan outlines a multi-year approach for removal and decontamination of contaminated equipment, structures, and soils at the site in three phases. The proposed project assumes compliance with a number of regulatory actions aimed at reducing environmental hazards. | | |
| 2015071013 | Carson Regional Water Recycling Facility Expansion Project 2015 West Basin Municipal Water District Carson--Los Angeles Project consists of expanding the Carson Regional Water Recycling Facility to meet additional recycled water demand from the Tesoro Carson Refinery in Carson, including construction of an additional 2,779 acre feet per to microfiltration treatment capacity, installation of one new 500 kW stand-by generator, and an additional 2,239 AFY membrane bioreactor nitrification system. | NOD | |
| 2015101090 | Air Park Drive Bridge Replacement (300430) San Luis Obispo County --San Luis Obispo CDFW has executed Streambed Alteration Agreement No. 1600-2016-0076-R4, pursuant to section 1602 of the Fish and Game Code to the Project Applicant, County of San Luis Obispo. | NOD | |
| 2016082050 | Ovation Senior Living (PLN15-00462) Placer County --Placer Project proposes an assisted living and memory care facility (Residential Care Home) on 4.5 acres (western portion of site) of the 6.9 acre site and approx. 2.5 acres (eastern portion of site) set aside for future development. | NOD | |
| 2016092044 | Caples Creek Watershed Ecological Restoration Project El Dorado Irrigation District --El Dorado, Amador The Sierra Nevada Conservancy (SNC) would provide \$476,709 in funding to El Dorado Irrigation District to implement the Caples Creek WAtershed Ecological Restoration Project (proposed project). The proposed project involves prescribed fire activities on approx. 6,800 acres, and meadow restoration and aspen enhancement activities on approx. 25 acres in the Caples Creek watershed in the El Dorado National Forest. The proposed project would reintroduce fire as an ecosystem process to reduce fuel accumulation, to reduce the risk of high intensity wildfire, and restore a a diverse forest composition and structure over multiple years. Prescribed understory fires (both hand and aerial ignitions) within 25 miles of containment lines would be implemented under carefully monitored conditions favoring low to moderate intensity understory fires that would consume surface fuels, thin out small trees (aspen, oak, and cottonwood) contributing to a more diverse forest structure and composition. As part of restoration efforts in Jake Schneider Meadow, the proposed project would remove the competing conifers from aspen groves and reroute a hiking trail around the meadow. The project includes design criteria and best management practices adopted by the USFS for project activities to protect aquatic, terrestrial, and botanical special-status species, waterways and riparian areas, cultural resources, and easethetic/visual resources. Impacts from smoke emissions would be minimized by complying with smoke management plans taht will be approved by the El Dorado County Air | NOD | |

| 2016102033 | East Hillsdale Boulevard Pedestrian and Bicycle Overcrossing Project San Mateo, City of San Mateo--San Mateo This project proposes a new pedestrian and bicycle overcrossing, south of the existing East Hillsdale Blvd. overcrossing. Access to the overcrossing would be provided from four locations: the East Hillsdale Blvd. Franklin Parkway Intersection, E. Hillsdale Court, the E. Hillsdale Blvd./ Norfolk St. intersection, and La Selva St. The project would not change the existing E. Hillsdale Blvd. overcrossing structure or impact existing ramp connections. The project would require permanent property acquisition of an undeveloped parcel that borders the northwest side. | NOD | |
| 2016129002 | Lassen Creek Watershed Restoration Forestry and Fire Protection, Department of --Plumas The Sierra Nevada Conservancy would provide \$250,000 in funding to the Honey Lake Valley Resource Conservation District (RCD) for the Lassen Creek Watershed Restoration Project (Project). The Project involves forest management activities on 250 acres of within the 325-acre private property project area to reduce wildfire risk, prevent catastrophic wildfire, improve forest and watershed resiliency, maintain habitat values, and improve water quality and availability. Project activities would include hand and mechanical forest treatments for forest restoration, piling and burning, and restoration. The project includes a comprehensive suite of Best Management Practices to protect water quality and other environmental resources. During tree marking and other project activities, sensitive resources and species will be identified and protection measures implemented. | NOD | |
| 2016128101 | Castaic Left Abutment Analysis Water Resources, Department of --Los Angeles DWR staff will oversee the installation of twelve exploration borings at six locations by a drilling subcontractor at the theft of abutment of Castaic Dam. All borings are located in disturbed areas the main boat launch parking lot or access roads. Work is being conducted to determine the current geologic condition of Castaic Dam's left abutment and to provide monitoring capability to evaluate any future changes to left abutment's geology. | NOE | |
| 2016128108 | Special Repair/Deferred Maintenance (Allocation #02, FY 16/17 Corrections and Rehabilitation, Department of -- Repair and maintenance projects will be conducted at California Department of Corrections and Rehabilitation prison facilities statewide as funding becomes available. Repair projects include roof repair/replacement, inmate housing shower repair, replacement/repair of flooring, replacement of chillers. Also at, San Quentin State Prison, the fire alarm system will be repaired/replaced and the main kitchen cooling tower will be replaced; at North kern State Prison, evaporative cooling units will be replaced in one of the housing units. | NOE | |

| 2016121033 | Bradley Road Bridge Menifee, City of Menifee--Riverside The city is proposing to replace this low-flow crossing with an all-weather crossing (bridge), effectively raising the roadway out of the floodplain. The total area of potential disturbance is approximately 4.39 acres. The limits of work include temporary siting and disturbance areas. Construction is estimated to begin in March 2017 and last approximately 18 months. | MND | 01/10/2017 |
| 2016121036 | La Cadena Drive Over the Santa Ana River Bridge Replacement Project Colton, City of Colton--San Bernardino The proposed project would replace the existing La Caden Drive bridge with a new 98-foot wide bridge that would accommodate four 12 ft lanes (two lanes in each direction), a 14-ft wide striped median, a 5 ft class II bike lane within the 9ft, 6-in shoulder, and a 6 ft sidewalk protected by a 1 ft, 6-in wide concrete barrier in each direction. The proposed project would also replace the existing access to the Santa Ana River Trail parking lot with a new realigned driveway in order to accommodate the new bridge. A culvert would be constructed between the SART and the southbound side of La Cadena Drive would be replaced with a new and realigned bike trail connection. | MND | 01/10/2017 |

| 2016121037 | Westlake Village Inn Spa and Guest Room Expansion Westlake Village, City of Westlake Village--Los Angeles Construction of several one- and two-story buildings containing a spa, salon, administrative office, and 12-16 guest rooms at an existing resort hotel. Total building square footage is 19,125 sf. Also included in project are a swimming pool, yoga pavillion, and landscaping to include a pedestrian bridge over an existing pond. | MND | 01/10/2017 |
| 2016122020 | Costco Gas Station Relocation, Park Expansion, and Tire Center & Produce Cooler Addition Project South San Francisco, City of South San Francisco--San Mateo The proposed project includes the relocation and expansion of the gas station and a parking lot expansion on the northern end of the site; covering a portion of and installing a box culvert within Colma Creek to accommodate additional parking; the expansion of the existing the center and; addition of an exterior produce cooler located along the eastern warehouse facade, and the demolition of the existing gas station and parking replacement on the southern end of the site. On-site grading activity will produce approximately 5,000 cy of excavated material. Approximately 5,000 cy of material will be exported to an approved disposal site. Construction is anticipated to begin in July, 2017 with full buildout of the project completed by October 2017. | MND | 01/10/2017 |
| 2016122021 | Equinix Data Centers (SV-12, SV-13, SV-14) and Santa Teresa Substation (SP15-031) San Jose, City of San Jose--Santa Clara The project proposes to construct three data center buildings (SV-12, SV-13, SV-14), each approximately 188,000 sf in size with a total of about 564,000 sf, on an approximately 18-acre site in south San Jose. The new data center buildings would house computer servers and supporting equipment for private clients in environmentally controlled structures. The proposed two-story data center buildings would each include seven generators to provide backup electricity. Construction of a new substation (Santa Teresa Substation) at the existing PG&E Edenvale Service Center, a 115 kV transmission line extension to the substation from the existing Metcalf-Edenvale 115 kV transmission line, and two new 21 kV distribution feeders that would extend along Via Del Oro to the data centers site are also proposed. | MND | 01/10/2017 |
| 2016122022 | Cordoba Center Project Santa Clara County --Santa Clara Note: Review Per Lead The Cordoba Center project is intended to provide an Islamic worship and cultural center for Muslim residents in the southern portion of the Santa Clara Valley. Project facilities would include a mosque, multi-use community building, a cemetery, an area for youth summer camps, and additional supportive and ancillary structures. There are currently approximately 400 members of the South Valley Islamic community. Maximum attendance at religious and cultural events is generally anticipated to be 300 individuals; although the Eid prayers and associated banquets that take place twice a year, and community picnics, could include as many as 500 attendees. The proposed project requires approval of a | NOP | 01/23/2017 |

Site Plan Review (SP-16-09); Design Review (DR-16-10); Conditional Use Permit (CUP-16-34); Site Plan Review Upland, City of Upland--San Bernardino The proposed project consists of the development of 68 single family detached residential condominium units and approval of a development agreement to define the obligations and responsibilities of the property owner/developer/city as it relates to the implementation of the project. All units will be two stories with floorplans ranging in size from 1,390 to 2,420 sf. The units will be clustered around entries from the two-lane private neighborhood lane, including seven clusters of eight units and one cluster each containing two, four, and six units. Approximately 0.79 acre of private common open space and direct access to the adjacent Upland Hills Country Club facilities will be provided. Access to the project site is provided from 16th Street and North Upland Hills Drive. The project includes the reconfiguration of the parking lot all the project entrance and portions of the exiting golf course. | Neg | 01/10/2017 |
| 2016121035 | Oldcastle Pre-cast Site Plan Modification, PDS2015-STP-90-051W1 San Diego County --San Diego The project is a site plan modification to expand an existing industrial use, a pre-cast concrete manufacturing plant, pursuant to the "B" Special Area Designator. The project consists of the expansion of an existing manufacturing building from approximately 33,255 sf to 54,575 sf. The expansion is designed to move all manufacturing inside the newly expanded building. Additionally, a second concrete batch plant has been proposed which will be adjacent to the expanded manufacturing building. | Neg | 01/10/2017 |
| 2016122023 | A Revisions of Approved Actions Application request for an existing Quarry Excavation permit (QX-84-0010). San Joaquin County Tracy--San Joaquin Revisions of approved actions application request for an existing Quarry Excavation permit (QX-84-0010) to extend the life of the project an additional three years for final reclamation and monitoring to be completed by December 31, 2019. The project site area is not under a williamson act contract. The project site is located on the west side of MacArthur Dr, 2,000 feet south of Linne Road, Tracy. | Neg | 01/10/2017 |
| 2011071090 | State Route 1/Rio Road to Carmel Valley Road Operation Improvement Project Caltrans #5 Carmel-by-the-Sea--Monterey Caltrans proposes to improve SR 1 near the City of Carmel-by-the-Sea from approximately 625 feet south of the Rio Road Intersection through the Carmel Valley Road intersection (post miles 72.3 to 72.9). The project would build a northbound truck-climbing lane on SR 1 from Rio Road to Carmel Valley Road. | NOD | |
| 2013012003 | I-80/SR-65 Interchange Improvements Project Caltrans #3 Roseville, Rocklin--Placer This project will construct a northbound auxiliary lane from SR 80 to Galleria Blvd/Stanford Ranch Road and install a ramp meter on Route 65. | NOD | |

On February 16, 2016, under Resolution No. 2016-0009, the SWRCB approved this amendment to the Basin Plan, as well as non-substantive revisions to the Basin Plan, which the North Coast Regional Water Quality control Board and adopted under a separate Regional Board Resolution. | | |
| 2016129004 | Policy in Support of Restoration in the North Coast Region Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma Project includes Resolution No. R1-2015-0001, which accomplishes the following: 1) recognizes the important role that restoration plays in restoring and maintaining water quality, 2) highlights some of the barriers that inhibit implementation of restoration projects, 3) describes the work being done by the Regional Water Board and its staff to support restoration, 4) describes the regulatory requirements for permitting restoration projects, and 5) provides direction on how the Regional Water Board and its staff will continue to promote and support restoration in the future. | NOD | |
| 2016129005 | Amendment to the Water Quality Control Plan for the North Coast Region Regarding Onsite Wastewater System Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma Basin Plan amendment to incorporate the SWRCB Water Quality Control Policy for Siting Design, Operation, and Maintenance of Onsite Wastewater Treatment Systems. | NOD | |
| 2016129006 | Policy for the Implementation of the Water Quality Objectives for Temperature and Action Plans for the Mattole, Navarro and Eel River Watersheds Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma On March 13, 2014, the North Coast Regional Water Quality Control Board (Regional Water Board) adopted Resolution No. R1-2014-006 to incorporate a Policy for Implementation of Water Quality Objectives for Temperature (Policy) and Action Plans to Address Temperature Impairments in the Mattole, Navarro, and Eel River Watersheds (Action Plans). On April 8, 2015, the SWRCB approved the amendment under Resolution No. 2015-0020. The Policy describes the approach to implementing the water quality objectives for temperature, identifies activities that may result in temperature alterations, and identifies the regulatory tools that the Regional Water Board may use to address temperature concerns in one cohesive policy. The Policy explicitly identifies the shade provided by riparian vegetation as a controllable water quality factor, and directs the implementation of riparian management measures, sediment controls, and stream flow considerations through programs and permits, as appropriate and necessary to address and prevent further impairments. The Action Plans address temperature impairments in the Matole, Navarro, and Eel River watersheds. The Action Plans implement the Policy by identifying specific activities in the watersheds that may affect temperature, and identifies the regulatory programs and actions in the Regional Water Board will implement to address temperature concerns in the respective watersheds. | NOD | |

| 2016128140 | Driveway Installation and Culvert (Lake or Streambed Alteration Agreement No. 1600-2016-0452-R1) Fish & Wildlife #1 --Trinity The project is limited to development of and access to a newly-created parcel approved through Trinity County Planning Department for a single-family residence by installing a driveway culvert over the stream below the pond as well as secondary access above the pond. Additionally, there will be some vegetation management activities around the pond perimeter. | NOE | |
| 2016128141 | Gazelle Farm Streambed Restoration and Flood Protection Project (Lake or Streambed Alteration Agreement No. 1600-2016--0325-R1) Fish & Wildlife #1 --Siskiyou The project is limited to the restoration and stabilization of the existing streambed, bank and channel to prevent further erosion. The sloping of the left bank downstream of the drainage ditch will be confined to an area of 100 feet. All other restoration efforts will be outside of this area on the bank of Willow Creek with re-vegetation of native riparian plants. | NOE | |
| 2016128142 | Culvert Replacement (Lake or Streambed Alteration Agreement No. 1600-2016-0563-R1) Fish & Wildlife #1 --Shasta The project is limited to replacement of 2 existing culverts, which are rusted, and are starting to cause failure to the driveway surface. The old 42 inch culverts will be replaced with two new 42" x 27"-long polyethylene culverts in the same footprint. There are existing concrete head and endwalls, which will remain in place. The old pipes will be cut out of the cast concrete, and the new pipes will be inserted into the existing headwall forms. The new culverts will be bedded with 1/2" minus crushed base rock in the channel, with popcorn slurry concrete mix around the pipes to hold them in place. The concrete slurry will be compacted with vibratory compactor. Rebar will be installed in both directions over the culverts and capped with a 6" thick concrete top consisting of 6 sack 3/4" mix concrete. If water is present in the channel, water will be dammed using sandbags and pumped around the worksite. | NOE | |

| 2001011027 | Water System Improvement Project Chiriaco Summit County Water District --Riverside The project consists of construction of a metered turn-out facility on the Colorado River Aqueduct with magnetic flow meter and electrical service, construction of approximately 4,000 linear feet of replacement water transmission and distribution pipelines, construction of a roofed, 300,000-gallon treated water storage reservoir, rehabilitation of an existing 300,000-gallon open raw water storage reservoir, construction of a 40-gpm water treatment and pumping facility, and implementation of a water-exchange agreement between the District, the San Bernardino Valley Municipal Water District, and the Metropolitan Water District of Southern California enabling the District to continue to use surface water from the Colorado River Aqueduct. | ADM | |
| 2016121039 | Conditional Use Permit 2016-02/7-11 Materials Inyo County --Inyo The applicant has applied for a conditional use permit to locate a portable Portland Cement Concrete Plant Operation. The plant will primarily furnish materials to the Los Angeles Department of Water and Power's Owens Lake Dust Mitigation Project, along with providing material to other potential projects that might require similar materials. The plant will process imported raw constructing grade aggregate and concrete materials into a finished product and deliver it directly to end-use customers via mix trucks. The project site is on already disturbed land. | MND | 01/11/2017 |
| 2016122024 | El Dorado County Placerville Jail Expansion El Dorado County Placerville--El Dorado The county jail expansion consists of an expansion to the existing El Dorado County jail facility. The expansion would include a 25,000 sf max two story structures attached to the existing facility, as well as an emergency generator. In addition, the proposed project may include paving of an existing on site gravel road totaling approximately 15,000 sf. The county seeks to finance the proposed project through SB 844, which authorizes the Board of State and community corrections and certain participating counties to acquire, design, and construct adult local criminal justice facilities. | MND | 01/11/2017 |
| 2012041010 | Templeton CSD Wastewater Flow ReRouting Project Templeton Community Services District Paso Robles--San Luis Obispo The Templeton Community Services District proposes minor changes to its Wastewater Flow Re-routing Project. The environmental effects of the project were previously evaluated in prior environmental documentation. The project was approved by TCSD on May 22, 2012. A NOD for the project was filed on May 25, 2012. The Project Changes consist of shifting the enclosure at the Volpi Ysabel Lift Station 15 feet to the west and replacing the two existing pumps at the West Side Lift Station. The area of the enclosure at the Volpi Ysabel Lift Station is 32 feet wide and 42 feet deep. The enclosure will be shifted seventeen feet to the west. Two new 133 HP pumps will be installed at the existing West Side Lift Station. The existing lift station was designed for District wastewater build-out. The new pumps will replace existing smaller, less efficient pumps. The size and capacity of the new pumps were contemplated in the original design of the lift station. The lift station will convey the wastewater through an existing force main to a manhole | NOD | |

| | north of the intersection of Vineyard Drive and Bennet Way where it enters the gravity collection system and flows to the District's WWTP. TCS D is now seeking federal funding and is required to complete the environmental review of the Project in compliance with NEPA. Because the previous NCEQA documents were adopted before the TCS D decided to seek this funding, this Addendum to the previous CEQA documents also addresses the additional environmental review needed for NEPA compliance. With respect to the environmental review of the Project Changes and the CEQA Plus review, no new or additional environmental review so the Project Changes and the CEQA Plus review, no new or additional environmental impacts were identified and therefore, no new mitigation measures are required. | | |
| 2014072039 | Placer County Tahoe Basin Area Plan and Tahoe City Lodge Placer County --Placer Project proposes to redevelop an existing commercial complex into a 118 unit lodge (Tahoe City Lodge) that would include a mix of hotel rooms and 1- and 2-bedroom hotel suites, hotel amenities, and parking, as well as redevelopment of the existing clubhouse building and new shared-use parking at the Tahoe City Golf Course. | NOD | |
| 2014072039 | Placer County Tahoe Basin Area Plan and Tahoe City Lodge Placer County --Placer The Plan will become a component of the Lake Tahoe Regional Plan and the Placer County General Plan. It will serve as the policy plan and regulatory structure replacing the existing West Shore, Tahoe City Area, and North Tahoe Area General Plans; the Tahoe City, Carnelian Bay, Tahoe Vista, Kings Beach, Kings Beach Industrial, and CA North Stateline Community Plans; 51 Plan Area Statements (PAS); the Placer County Standards & Guidelines for Signage, Parking and Design; and the Placer County Code Chapter 17, Article 17.02 Section 17.02.050 (D) and Article 17.56, Section 17.56.202 and Appendices B, C, D, and F. Zoning implementation is proposed through an ordinance to rezone properties within the Area Plan area as necessary and required to achieve consistency with the proposed Area Plan land use designation. | NOD | |
| 2015022031 | YOL-16 Safety Improvement Project Caltrans #3 --Yolo CDFW has executed Lake and Streambed Alteration Agreement NO. 1600-2016-0200-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Caltrans. The purpose of this project is to improve safety at three locations along SR 16. The project includes: widening and paving shoulders; adding a left turn pocket for County Road 79; straightening two horizontal curves (increasing the curve radius); replacing or extending storm drainage culverts; shifting the alignment south to reduce impacts to Taylor Creek. Taylor Creek will be realigned in order to accommodate the new width of the freeway; flattening the vertical curve (increasing the length); shifting the alignment to the north to avoid residential and commercial development; adding a Two Way Left Turn Lane (TWLTL) from 560 feet west of CR-86A to 570 feet east of CR-86A; adding a TWLTL form 100 feet west of Tutt Street to CR-90; adding a roundabout at the SR-16/CR-89 intersection. At South Fork Willow Slough the project will remove the existing concrete box culvert and install a 16'x11'x65' concrete box culvert and install 4 box | NOD | |

| 2016021103 | <p>North Campus Open Space Restoration Project University of California, Santa Barbara Goleta--Santa Barbara CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0177-R5, pursuant to section 1602 of the Fish and Game Code to the Project Applicant, UCSB Cheadle Center for Biodiversity and Ecological Restoration represented by Lisa Stratton.</p> <p>The proposed project is the removal of Ocean Meadows Golf Course and the restoration of Devereux Slough, the streams associated with Devereux Slough, and the adjacent upper mesa. Approx. 9.5 acres of CDFW streambed jurisdiction will be graded and excavated to create approx. 100 acres of estuarine, riparian, vernal pool, and native upland habitat. Approx. 50 acres of the 100 acres will be wetland habitat consisting of subtidal/aquatic, mudflat/salt flat, marsh plain, freshwater/brackish wetland, high marsh/transition, southern riparian scrub, seasonal wetland, vernal pool, and semi-perennial wetland. A total of approx. 350,000 cubic yards of soil will be excavated from the site and placed on what is currently called the South Parcel to recreate historic drainage and a vernal pool complex. Of that total, approx. 36,000 cy will be excavated from within streambed jurisdiction. The proposed project also includes a network of trails, four bridges (a culvert with a trail crossing, a boardwalk, a 200-foot span steel bridge, and a 100-foot span steel bridge), and a grade control structure. Seven culverts along Devereux Creek and a sheet pile grade control structure used by the golf course will be removed. Native plant material will be collected and salvaged. The project will occur in two phases. Phase 1 will involve grading, mowing, vegetation removal, and excavation within streambed jurisdiction, the construction of public access subgrades, foundations and structures, restoration of the South Parcel, and revegetation activities. Best management practices will include overall sequential grading of the site to allow areas of refuge for displaced wildlife, channel grading in segmented portions to control sediment run-off from the site, installation of temporary cofferdams, stream flow bypass if necessary using a pump and pipe system or a bypass channel, de-watering if needed, silt curtains, construction of a temporary sediment basin to settle out turbid water before discharging off the site, planting and hydro seeding, and other erosion control measures.</p> | NOD | |
| 2016022018 | <p>Western Slope Roadway Capital Improvement Program (CIP) and Traffic Impact Mitigation (TIM) Fee Program El Dorado County Placerville--El Dorado</p> <p>The proposed project is the update of the Capital Improvement Program (CIP) list and Traffic Impact Mitigation (TIM) FEe for El Dorado County. The CIP is the 20-year long range plan for all individual capital improvement projects and Update would provide funding for projects including roadway widening, new roadways, roadway intersection improvements, and transit improvements. The project would also require an amendment to the County's General Plan Transportation and and Circulation Element including clean-up items, clarifications, and corrections.</p> | NOD | |

| 2016128163 | Maynard Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2016-0313-R1) Fish & Wildlife #1E --Humboldt The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2016-0313-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Chad Maynard. | NOE | |
| 2016128164 | Dimi Road/Stream Crossings Project (Lake or Streambed Alteration Agreement No. 1600-2016-0404-R1) Fish & Wildlife #1E --Humboldt The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2016-0404-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Valentino Dimi. | NOE | |
| 2016128165 | Seeley Stable Museum Rain Gutters (16/17-SD-12) Parks and Recreation, Department of --San Diego This project will install a rain gutter on the Seeley Stable building in Old Town San Diego State Historic Park that will direct the run-off away from the building to prevent water damage and protect park resources. | NOE | |
| 2016128166 | AC Overlay Project - Federal 2017 Sacramento County --Sacramento The proposed project consists of surface preparation and application of a conventional or rubberized asphalt concrete overlay or a slurry seal over existing pavement of the project roadways within the stated limits of the project. Associated work includes constructing Americans with Disabilities act compliant curb ramps, repairing damaged pavement areas, conform grinding, adjusting manholes, and striping of the Project roadway. | NOE | |
| 2016128167 | Environmental Review No. 7239 - Sidewalk Hazards Repair Fresno County --Fresno The project will repair the existing damage to sidewalks at the locations listed above where the damage to the sidewalks represents a public safety hazard. There will be no expansion or realignment of existing sidewalks and no additional right of way procurement is required. | NOE | |
| 2016128168 | Day Use Group Camp Site Conversion Parks and Recreation, Department of --Orange This project will be the conversion of a former day use picnic and occasional group camp site into a standard group camp site. Improvements include, but are not limited to, installation of new split rail perimeter fencing around the site, creating new pedestrian route curb cuts on the north and south sides of the site, addition of new replacement camp furniture including picnic tables barbeque units, fire rings and a hot coal bin, import of a small amount of soil for leveling the site, new signage, replacement of native plantings, and replacement of two existing wood ramadas with one Larger L shaped ramada of similar design and materials. Decomposed granite shall be used for an approximately 8 ft. wide path adjacent to the camp site to provide a pedestrian pathway on the seaward side of the site. | NOE | |

| 2013042070 | Central South of Market (SoMa) Plan San Francisco, City and County of San Francisco--San Francisco Note: Review Per Lead | EIR | 02/13/2017 |
| <p>The project is the draft central south of market plan, a comprehensive land use plan for the southern portion of the central subway transit line, in the south of market neighborhood. The plan proposes amendments to existing use districts and height and bulk districts, new and improved open spaces, and a series of street network changes within and beyond plan area boundaries on: Folsom, Howard, Harrison, Bryant, Brannan, Third, and Fourth Streets. The project proposes new planning policies and controls for land use; urban form (building height and design); street network/circulation changes; open space; historical preservation; and sustainability. A reasonable range of plan alternative are also analyzed in the EIR as required by CEQA.</p> | | | |
| 2016012009 | Dollar General Store Projects Nevada County Grass Valley--Nevada | EIR | 01/27/2017 |
| <p>The proposed project consists of the development of three Dollar General Stores located at three different sites within Nevada County jurisdiction. All three Dollar General projects would have the same building square footage (9,100 sf) and are similar in total developed area. Each store would include parking, landscaping, and lighting. The Alta Sierra and Grass Valley (Rough and Ready Highway) sites would include a septic system; the Penn Valley site would connect to Nevada Irrigation District sewer. Water would be provided by NID.</p> | | | |
| 2016061032 | Cleanup Plan for the Offsite Properties within the Preliminary Investigation Area of the former Exide Technologies Facility Toxic Substances Control, Department of Huntington Park, Los Angeles, City of, Commerce, Bell--Los Angeles | EIR | 01/27/2017 |
| <p>The draft remedial action plan would address cleanup of lead impacted soil at sensitive land use properties located within the PIA. Cleanup would consist of soil excavation of up to 18 inches in accessible areas using small construction equipment. The PIA is included on the cortese list pursuant to code section 65962.5. It is anticipated that approximately 2,500 properties would be cleaned up in the first year of the project, at an average rate of approximately 50 properties per week.</p> | | | |

| 2016121040 | LARC Ranch Water Pipeline Project Santa Clarita Water a Division of the Castaic Lake Water Agency Santa Clarita--Los Angeles The proposed project would include the construction of a new 12-in ductile iron water transmission line by connecting to the nearest SCWD water line at Shadow Valley Lane and extending approximately 9,500 lf to a new service meter at the frontage of the LARC Ranch property. The width of the alignment would range from 30 in for the water pipeline trench to 20 ft for the temporary closure of the Bouquet Canyon Rd southbound. An on site booster pump station and 700 ft pipeline located on LARC grounds would connect to and fill the existing 0.36 MG storage tank from the new service meter. Discharge pipeline from the pump would extend approximately 30 ft to connect to an existing 8-in LARC pipeline that extends to the 0.36 MG tank. The pump station would be apx 10 ft high and less than 200 sf. | MND | 01/12/2017 |
| 2016121041 | Staircase Replacement - Point Dume State Beach Parks and Recreation, Department of Malibu--Los Angeles The purpose of the project is to replace the existing steel staircase at Point Dume State Beach, which is deteriorated and functionally substandard, with a new replacement staircase. The new staircase will be located downcoast to address issues of bluff erosion and vegetation trampling as a result of off trail visitor use. Project elements include staging areas, construction of the replacement staircase, removal of the existing staircase, access trail, a haul path along the beach, and revegetation of impacted areas with native species. | MND | 01/12/2017 |
| 2016122013 | 2232-2240 El Camino Real Residential Project Santa Clara, City of Santa Clara--Santa Clara 2232-2240 El Camino Real, a 2.74 acre project site comprised of two parcels on the south side of El Camino Real between Los Padres Drive and McCormick Drive in the city of Santa Clara. APNs: 290-10-090 and 290-10-091. The proposal include an adoption of a MND, approval of a rezoning from Community commercial to planned development, and approval of a vesting tentative parcel map to allow the development of a five-story, mixed-use development with 10,000 sf of commercial floor area and 151 apartment units. | MND | 01/12/2017 |
| 2016122025 | P Street Office Building Project General Services, Department of Sacramento--Sacramento The project would demolish existing surface parking and construct a new office building, or multiple buildings, on the block bounded by 7th/8th and O/P for approx. 800,000 gsf office space, plus limited parking. The project purpose is to consolidate/upgrade State office space in the region, specifically to vacate the existing Resources Building at 1416 9th Street. Vacating the Resources building would allow the eventual renovation/re-occupation of that building. However, there are no details available regarding the timing of renovation and future re-occupation of Resources. Development of the new office building may affect the historic | NOP | 01/12/2017 |

| 2016122026 | 1215 O Street Office Building Project General Services, Department of Sacramento--Sacramento The project would demolish the existing building and constructs a new office building with approx. 300,000-350,000 gsf of office space, max. height of 150 feet, occupancy of approx. 1,000-1,200 staff, plus limited parking. Offsite parking also being considered. Project purpose is to consolidate/upgrade regional State office space, specifically to vacate the existing Bateson building would allow the eventual renovation/re-occupation of that building. However, there are no details available regarding the timing of renovation and future re-occupation of Bateson. The project may also include ground-level commercial space and would be connected to the State's Central Plant for heating/cooling. Existing surface parking across O Street is being considered as a site for photovoltaic solar panels over the parking spaces. | NOP | 01/12/2017 |
| 2016122027 | Tasman East Specific Plan Santa Clara, City of Santa Clara--Santa Clara A specific plan for up to 4,500 residential units, up to 106,000 sq. ft. of retail space, and at least four acres of public open space. | NOP | 01/12/2017 |
| 2015032067 | Use Permit Application No. PLN2015-0019 - Trinkler Dairy Farms, Inc. Stanislaus County Ceres--Stanislaus Request to increase a dairy herd size from 3,150 to 5,175 animal units, consisting of: 3,180 milk cows, 600 dry cows, and 1,395 heifers [275 (15-24 months); 520 (4-6 months); and 600 calves (0-3 months)] in the A-2-40 zoning district. Expansion will require the construction of a freestall barn, a milk parlor, a calf barn, a feed storage pad, and a waste water storage pond (lagoon). The 220+/- acre parcel is located at 7251 Crows Landing Road, at the southwest corner of Crows Landing and W. Taylor Roads, in the Ceres area. The planning commission will consider adoption of a CEQA Neg Dec for this project. | Neg | 01/12/2017 |
| 1993071033 | East Bay Watershed Master Plan EIR East Bay Municipal Utility District DNA--Alameda, Contra Costa To support the biodiversity goals of the East Bay Watershed Master Plan, on November 8, 2016, the EBMUD Board of Directors approved the Oursan Ridge Conservation Bank (ORCB). More information regarding the ORCB is found in the attached project description and map. | NOD | |
| 2008121093 | Harbor Refineries Recycled Water Pipeline Project Los Angeles, City of Carson--Los Angeles The LA Dept. of Water and Power is proposing the construction of approx. 60,000 feet (11.4 miles) of 36-inch (or smaller) recycled water pipelines and associated structures in conjunction with the West Basin Municipal Water District. The pipeline would be installed in the ground beneath existing city streets using open trench excavations. The purpose of the project is to replace potable water with treated recycled water for large industrial and commercial customers, allowing the conservation of potable water for residential uses. The proposed pipeline would | NOD | |

| 2015022062 | Aspen VIII and IX Mining Use Permit Sacramento County --Sacramento A Use Permit to allow surface mining on approx. 353 acres of a 683-acre project site. A Use Permit to allow a conveyor system to transport the mined materials across adjacent parcels to an off-site processing plant. A Community Plan Amendment and Rezone to add the Surface Mining Combining Zone (SM) to 682 acres of IR, AG-80 (F), AG-160 and AG-160 (F) land. Note: the acreage to be rezoned (682) is one acre less than the 683 acre project site because the conveyor extension on parcel 063-0190-027 does not require a rezone. A Reclamation Plan to include open space grassland uses at the end use of the mine. A Development Agreement between the applicant and the County of Sacramento. | NOD | |
| 2015031046 | Tenth Avenue Marine Terminal Redevelopment Plan & Demolition and Initial Rail Component San Diego Unified Port District San Diego--San Diego The project is a long-range Redevelopment Plan and near-term project improvements to accommodate anticipated economic activity at the Tenth Avenue Marine Terminal. The development concepts and infrastructure improvements identified in the Redevelopment Plan would result in a sustainable terminal capacity (STC) at TAMT in 2035 of approx. 4.6 million metric tons annually. The near term Demolition and Initial Rail Component, would demolish two under-utilized transit sheds and install an automated rail lubricator and compressed air system on existing tracks. | NOD | |
| 2015062021 | Chromium-6 Water Treatment System Project Soquel Creek Water District --Santa Cruz The SWRCB, as the responsible agency, will be issuing a water supply permit. The Soquel Creek Water District, as the lead agency, will construct a new raw water pipeline from the District's Seascape well to the San Andreas well within the County right of way. This pipeline, with the help of an existing pipeline between the San Andreas well and the Bonita well, will deliver groundwater to a 2,000 gpm chromium 6 water treatment facility that will be constructed and include a pre-filtration, SBA-IX treatment system area, an electrical and control room, a chemical feed area, a restroom, and roll up doors. The regeneration system will include an 8,800 gallon brine/salt storage tank, a brine pump skid, and a vessel. The building will also house potential brine reduction technology. It is estimated 50,000 gallons of waste will be generated annually. Any Chromium-6 above 5 mg/L will be hauled by a licensed hazardous waste hauler to a hazardous waste site. It is estimated that up to 40,000 gallons annually may be converted to a nonhazardous form which may be disposed of via sanitary sewer. A 300 kilowatt standby generator will also be installed at the site in an enclosure to | NOD | |

| | instructional/warm-up pool, recreational pool, and a lazy river. The aquatic center building will contain staff offices, locker rooms, restrooms, concession stand and an event area. Access to the site will be via two entrances from Park Avenue. 5th St from Park Ave to Adams Ave would have to be vacated as a result of the project. The site is located in the LU zone, which is intended for parks and public facilities and is compatible with the proposed use. | | |
| 2016121046 | Town Center Rezone Project Change of Zone 16-02 & General Plan Amendment 16-02 El Centro, City of El Centro--Imperial The project consists of a change of zone from RAP to CG and ML. The project is generally located at the northwest corner and southwest corners of Cruickshank Drive and 8th St. Properties identified by APNs 044-620-049, -050, and -051 would be rezoned to CG, while parcel with APN 044-620-053 would be rezoned to light manufacturing. A concurrent general plan amendment to change the land use designations for each of the parcels would also be required. | MND | 01/13/2017 |
| 2016121042 | Otay Ranch Village 14 & Planning Areas 16 & 19 San Diego County Chula Vista--San Diego Note: Review Per Lead The project would consist of entitlements for a general plan amendment, specific plan, rezone and tentative map. The project is a master planned community consisting of 1,119 units with single family and estate lots, 10,000 sf of neighborhood commercial uses, a 9.7 ac. school site, 2.3 ac. fire station/sheriff site, a community village green, approximately 18 acres of public/private parks, approximately 424 acres of biological open space and 127 acres for limited development areas. The project site is generally located within the Proctor Valley, east of city of Chula Vista and south of Jamul. Primary access through this valley is the existing Proctor Valley Road, which will serve the projects neighborhoods. | NOP | 01/23/2017 |
| 2016122028 | WITHDRAWN - Hammond Parcel Zoning Designation Mount Shasta, City of Mount Shasta--Siskiyou Note: Withdrawn per Lead Agency on 01/06/2017 The proposed project is a zoning designation for a previously un-zoned property. The property previously belonged to the UPRR. The project applicant acquired the property and would like to create a zoning designation to allow for future development. The project applicant would like to separate the property into three parcels. Parcel A on the Northside of the property would be zoned for high density residential similar to the use across the street. Parcel B, due to the presence of a stream, wetlands, and high density vegetation is to be zoned for Open space to preserve the natural habitat. Parcel C would be zoned for general commercial. | NOP | |
| 2016121047 | General Plan Amendment and Zone Change PLN16-00022 Victorville, City of Victorville--San Bernardino A general plan amendment and zone change to reclassify property from C-2 General commercial to M-2 Heavy industrial for the anticipated development of a warehouse operation. | Neg | 01/13/2017 |

| <u>Documents Received on Thursday, December 15, 2016</u> | | | |
| 2006081150 | Rancho Canada Village Monterey County Carmel--Monterey Combined Development Permit consisting of 1) Vesting Tentative Map for a 130 unit subdivision consisting of mostly of single family attached and detached lots, along with 12 condominium units and a 4.6 acre non-contiguous parcel; 2) Use Permit for development in the Carmel River Floodplain; 3) Use Permit for the removal of up to 435 trees; and 4) Use Permit for development within site plan review zoning district. The project also includes a General Plan Amendment to amend Policy CV-1.27 of 2010 General Plan//Carmel Valley Master Plan reducing the percentage of affordable/workforce housing required from 50% to 20% affordable. Furthermore, the project involves a Zoning Change to rezone the property(s) from P/QP (Public/Quasi-Public) to MDR (Medium Density Residential) and LDR (Low Density Residential)(Lot 130), to conform to the General Plan Special Treatment Area. | NOD | |
| 2010061025 | Bridgeport Public Utility District Arsenic Removal Project Bridgeport Public Utilities District --Mono Construct a new 1,400 sf water treatment building to house an arsenic removal system that would treat flows from two potable water supply wells. The proposed project also includes new underground raw and treated water, sewer, power, propane, and communication lines, as well as a paved driveway, parking, fencing, landscaping improvements, as well as 200 lineal feet of new and replacement 8" water line, several water valves, and a sewer lateral within the Twin Lakes Road right-of-way. The purpose of the proposed project is to comply with the federal and state drinking water standard and begin removing naturally occurring arsenic from the potable water supply. | NOD | |
| 2011111016 | 2035 General Plan (General Plan Amendment 09-42) San Benito County Hollister, San Juan Bautista--San Benito The proposed project amends Policy HS-6.9 of the Health and Safety Element of the 2035 General Plan. Original Policy HS-6.9 required that a buffer of at least 2.5 miles be maintained between new sensitive land uses (such as residential subdivisions, schools, day care centers, hospitals and parks) and commercial facilities that handle industrial or agricultural chemicals that are regulated as hazardous materials. On July 21, 2015, the Board of Supervisors adopted the 2035 General Plan and certified the 2035 General Plan Final EIR, which analyzed the environmental impacts of 2035 General Plan (including original Policy HS-6.9). The proposed project amends Policy HS-6.9 to replace the 2.5 mile buffer requirement with a requirement that the buffer be established on case by case basis considering several factors, which shall include (1) the impact of development of sensitive land uses on the ability of regulated facilities to continue current operations, (2) federal and state environmental laws and regulations, (3) the degree of hazard associated with individual industrial facilities, (4) the recommendations of the County Fire Marshall and Environmental Health Department, and (5) emergency response, contingency, and other comparable plans submitted to and/or filed with federal, state, or local agencies. | NOD | |
