

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

December 16-31, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16-31, 2008.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE

<u>Documents Received on Tuesday, December 16, 2008</u>			
2006031108	San Miguel Ranch General Plan Amendment San Luis Obispo County --San Luis Obispo The DEIR addresses the environmental impacts that may be associated with the request to rezone and subdivide ~550 acres to allow for a variety of residential, commercial, recreation, and open space land uses. The proposed project is located adjacent to and west of west Hwy 101, extending north from the Hwy 101/10th Street interchange to the Highway 101/Mission Street interchange, near the southern boundary of Camp Roberts, and west and northwest of the community of San Miguel.	EIR	02/11/2009
2008091097	North Campus Housing Phase 2 Project University of California, San Diego La Jolla--San Diego UCSD proposes to build an approximately 192,000-gross square foot (GSF), 800-bed North Campus Housing - Phase 2 project on an approximately 5.4-acre developed site in the North Campus portion of the University. The proposed project would be built in both low- and high-rise buildings on a site currently occupied by existing surface parking Lot P357.	EIR	01/29/2009
2006031060	The Canyons General Plan Amendment/Zone Change File #03-0337/Vesting Tentative Tract Map 6299 Bakersfield, City of Bakersfield--Kern The proposed project includes the development of a new community with residential, commercial, and recreational land uses. The proposed mixed-use project is primarily residential and includes the development of 11 private gated communities with 1,033 private gated residences and 301 non-gated residences. The project includes the development of approximately 1,214 single-family residential lots on approximately 521.26 acres, approximately 120 multi-family dwelling units on approximately 28.18 acres, and approximately 65,000 square feet of general commercial on approximately 8.15 acres. The project also includes a private recreational center on 5.2 acres near the center of the project site and north of the proposed commercial area. In addition to this center, three areas are proposed for parks totaling 17.33 gross acres (12.97 net useable acres). The project plan includes 9.66 miles of public trails and 1.43 miles of Class I bike paths, totaling approximately 11.09 miles. Approximately 284.41 acres will be retained as open space while approximately 42 acres will be maintained as common areas. The proposed project requires a General Plan Land Use Element Amendment, General Plan Circulation Element Amendment, Northeast Bakersfield Specific Parks and Trails Plan Amendment, Zone Change, Parcel Maps, and Consolidated Maintenance District.	FIN	
2008122055	Piedmont General Plan Update Piedmont, City of Piedmont--Alameda The project is the update of the 1996 GP for Piedmont. Piedmont is an almost entirely residential city, surrounded on all sides by Oakland. The City has been built out for 50 years and anticipates very little development or land use change. Fewer than 40 new households and 30 new jobs are anticipated between 2008 and the horizon year of 2025. No substantive changes to the 1996 Plan Map are	MND	01/14/2009

<u>Documents Received on Tuesday, December 16, 2008</u>			
	proposed. Nonetheless, the Plan Update includes many policies and actions to make the city more sustainable and to address issues such as historic preservation, community design, water quality, and transportation alternatives.		
1989040415	Amend Land Use Permit for Keller Canyon Landfill Company Contra Costa County This proposed project consists of operational changes which the Keller Canyon Landfill Company (KCLC) has requested in their application to amend the facility's existing Land Use Permit (LUP) Conditions of Approval. KCLC's application proposes to modify the existing Conditions of Approval (COA) to increase the current maximum daily tonnage limit for disposal from 3,500 to 4,900 tons per day (TPD). KCLC proposes that the LUP COA be revised to identify a separate maximum daily tonnage limit on organic material accepted for use as alternative daily cover and inert material accepted for beneficial re-use on-site. KCLC propose that approximately 1,300 TPD of non-landfilled materials be specifically excluded from the daily disposal tonnage limitation. The following daily tonnage limits for non-landfilled materials are also being proposed as part of this application: Green Waste - 500 TPD, Wood Waste - 300 TPD, and Inert Material - 500 TPD (includes concrete, asphalt base material).	NOP	01/14/2009
2008121072	Pedley Shopping Center - EIR00519, GPA01059, CZ07684, PM36060, and CUP03610 Riverside County --Riverside The proposed project consists of an estimated 267,896-square foot commercial retail shopping center. The main shopping center building will be located in the northeastern region of the site and will incorporate three major retail facilities. This building will also include three smaller retail suites. The major tenant buildings will range from 18,000+/- to 12,000+/- square feet. The proposed shopping center will also include several detached retail buildings, primarily located around the perimeter of the site. These buildings are expected to include a drug store, several fast food restaurants, and a gasoline service station. These detached retail buildings will range from 3,440 to 15,481+/- square feet in size. The remainder of the site will be developed with asphaltic concrete pavements for automobile parking and drive lanes and decorative concrete flatwork. Landscaped areas are also part of the project design. Currently the property exhibits a rise in topography near the central portion of the site, resulting in a prominent knoll adjacent to the freeway frontage. The proposed project would require the removal of the knoll through grading in order to prepare it for project construction.	NOP	01/14/2009
2008121074	Owens Lake Revised Moat and Row Dust Control Measures Los Angeles County --Inyo Los Angeles Department of Water and Power (LADWP) proposes to reduce dust emissions in the historic Owens Lake bed in order to eliminate exceedances of the federal particulate matter (PM10) standard, through construction of a landform feature called moat and row. The moat and row dust control measure, as initially configured, is a method of dust control that does not require the addition of supplemental water to reduce dust emissions from the lake bed. A moat and row element is up to an 89-foot wide disturbed linear corridor that consists of an earthen berm (row) approximately 5 feet high with 1.5:1 (horizontal to vertical) sloping sides and a base of up to 19 feet wide, flanked on the otherside by ditches	NOP	01/14/2009

	(moats) approximately 4 to 5.5 feet deep and up to 20 feet wide at the widest point. Rows serve as windbreaks and the primary function of the moats is to capture sand.		
2008121073	CIP 04-116 Pier Avenue Street Improvement Hermosa Beach, City of Hermosa Beach--Los Angeles Street improvement project along Pier Avenue. Alter existing lane widths, add and alter existing parking spaces, widen sidewalks, add a pedestrian crossing, install plants, street furniture, benches, bicycle racks and other amenities.	Neg	01/14/2009
1996032048	Phase II CAWD/PBCSD Wastewater Reclamation Project-Forest Lake Reservoir Pebble Beach Community Services District --Monterey Add two feet of reinforced concrete to spillway tower to raise water level accordingly.	NOD	
2002112068	Caldecott Improvement Project Caltrans #4 Oakland, Orinda--Alameda, Contra Costa Caltrans proposes the construction of a fourth bore, north of the existing bores, for the Caldecott Tunnel to reduce traffic congestion and improve safety. The project limits extend from the SR 24/SR 13 interchange in Alameda Co. to the SR 24/Gateway Blvd. interchange in Contra Costa Co. The new tunnel will be 3,389 ft. long. The project will result in permanent and temporary impacts to a total of 12.07 acres of Alameda whipsnake habitat. Project-related impacts are expected to result in the take of Alameda whipsnake, a species protected by the California Endangered Species Act (CESA).	NOD	
2007091036	Chromium 6 Demonstration Sites Glendale, City of Glendale, Los Angeles, City of--Los Angeles The proposed project includes the construction of two different viable chromium 6 demonstration water treatment facilities using two different technologies. The sites for these facilities will be at the existing Well Site GS-3 in the City of Los Angeles on Goodwin Street near San Fernando Road, and the other in the Glendale Water and Power Field Operations Center adjacent to the existing Glendale Water Treatment Plant (GWTP) on Flower Street. Well Site GS-3 and the Glendale Water Treatment Plant (GWTP) are part of a U.S. Environmental Protection Agency (EPA) federal Superfund project and the chromium 6 demonstration facilities would be added to the existing water facilities at these sites.	NOD	
2007091036	Chromium 6 Demonstration Sites Glendale, City of Glendale, Los Angeles, City of--Los Angeles The proposed project includes the construction of two different viable chromium 6 demonstration water treatment facilities.	NOD	
2008051093	Central Region Elementary School No. 20 Los Angeles Unified School District --Los Angeles On the southern area, the White House Place PC would be demolished and replaced with a surface parking lot with 137 spaces. These 137 spaces are to be shared by Virgil MS and CRES No. 20 faculty and staff, with 65 spaces dedicated to the Virgil MS and 72 spaces for CRES No. 20. The proposed project would include exterior safety lighting and a public address system.	NOD

	area on a 195,644 sf lot (~4.5acres). The building footprint of the proposed residence is 5,837 sf, with a total non-previous surface area of ~21,663 sf (11.1% of the project site).		
2008121077	City of El Centro General Plan Circulation Element Update El Centro, City of El Centro--Imperial The proposed project consists of updating the Circulation Element of the City El Centro GP, which was last updated in 2004 as part of a comprehensive GP update. The proposed updated Circulation Element identifies the need for the new traffic signals, restriping of a number of intersections, the construction of new lanes, and the extension of a number of roadway segments. In total, the proposed updated Circulation Element identifies 31 street segment improvements and 40 intersection improvements. These improvements are depicted on a new "Future Roadway Network" graphic, which would replace the City's existing "Circulation Master Plan". Of note, the proposed Circulation Element Update does not approve any construction projects, nor does the proposed update commit the City to any future construction. Rather, the Circulation Element update identifies the City's desired Future Rd Network to accommodate anticipated future levels of traffic.	MND	01/15/2009
2008122034	Hughes Drive and Retaining Wall Point Arena, City of Point Arena--Mendocino The applicants propose to construct a driveway and retaining wall. The driveway has previously been graded and has cuts and fills. The amount of ground preparation (clearing-stripping, keying, bench, and subdrainage) to support the fill, and the amount of moisture conditioning and compaction effort during the fill placement operations is unknown to BACE. The brush-covered slope below the driveway in the retaining wall area has a steep gradient of approx 1.9 ft horizontal to one ft vertical. The slope above the retaining wall varies from 1.3H:1V to 1.8H:1V for a height of approx 22 ft above the proposed retaining wall.	MND	01/19/2009
2008092063	California Health Care Facility, Folsom California Prison Health Care Receivership Folsom--Sacramento NOTE: Revised Construct a health care facility in the northern portion of the Folsom Facilities site. The proposed health care facility will consist of an up to 1,400-bed facility on an approximately 60-70 acre site. The health care facility would consist of housing clusters, diagnostic and treatment centers, an armory, warehousing and support facilities, a central plant, outdoor recreation fields, a gatehouse, staff training facilities, and parking areas.	NOP	01/16/2009
2008122058	Cottage Knoll Estates Plymouth, City of --Amador The Cottage Knoll Estates project is a subdivision of 86.26 acres near the City of Plymouth, Amador County, to create approximately 300 residential lots for single-family development.	NOP	01/15/2009

<u>Documents Received on Wednesday, December 17, 2008</u>			
2008122059	Opus Logistics Center Project (EIR2-08) Stockton, City of Stockton--San Joaquin The project includes a proposed two-phased industrial development located northwest of the intersection of Arch and Austin Roads. Phase I consists of subdividing three parcels zoned for industrial use within the City of Stockton. Total phase 1 development is 291+/- acres and will result in 22 developable lots. Phase 2 of the proposed project requires the rezoning and annexation of the adjacent 148+/- acre unincorporated county parcel. This parcel lies within the City of Stockton's Urban Services Boundary and Sphere of Influence, contiguous to the city boundary. The parcel is designated for industrial use in the City's General Plan. The two phases will be developed independently.	NOP	01/15/2009
2008121076	Zoning Text and Map Amendments Implementing Zoning-Related Recommendations in "Upper Pier Avenue Committee Final Report" Hermosa Beach, City of Hermosa Beach--Los Angeles Text Amendment and Zone Change to implement zoning-related recommendations pertaining to property currently zoned C-2 along Pier Avenue in the "Upper Pier Avenue Committee Final Report" approved by the City Council on March 25, 2008 to promote a pedestrian-friendly village center serving local residents as well as visitors, addressing permitted and conditional uses; design standards; parking requirements; sign standards; incentives to encourage service-type/office uses on the second floor and retain architecturally/historically important buildings; findings for approving conditional uses; creation of a specific plan area or overlay zone; standards/restrictions on outdoor seating and/or displays on the sidewalk' and other minor related changes affecting Chapter 17 (Zoning) and other Chapters for consistency.	Neg	01/15/2009
2008122056	Purchase of Chevron Point Property Reclamation District 1601 --Sacramento This project involves the purchase of ~500 acres on Twitchell Island known as Chevron Point. The District plant to purchase the property to use for possible future habitat mitigation and enhancement projects, a source of borrow material for levee rehabilitation, and/or a location for levee modification and improvement. However, none of these project are currently planned for the property. Until these plans are developed (if they are developed), the property will continue to be used for cattle grazing and pasturing purposes. No new works or construction is required and no additional facilities will be required. This project involves only a change in ownership.	Neg	01/15/2009
2008122057	Lebherz Residence Capitola, City of Capitola--Santa Cruz The proposed project consists of a demolition of an existing ~1,000 sf single family house and construction of a new 3,286 sf two-story single family house that requires approval of a Coastal Permit and Architectural and Site Review at a public hearing before the Capitola Planning Commission. 1996032083	Addendum to the Environmental Water Account EIS/EIR Water Resources, Department of -- The Department of Water Resources proposes to initiate a 2009 Drought Water Bank. The proposed Action will make water available to the Drought Water Bank from willing sellers upstream of the Sacramento-San Joaquin Delta for the 2009 water year. Water acquisition will be made through crop idling, crop substitution, groundwater substitution, or reservoir re-operation, and will be available for purchase by public and private providers in California based on certain needs criteria.	Oth	01/16/2009
2005122071	Hospital Building Stabilization Project Parks and Recreation, Department of Tiburon--Marin DPR proposes to make the improvements described herein to the Hospital Building at the Immigration Station Area at Angel Island State Park. The Immigration Station Complex is listed as a National Historic Landmark. Therefore, all work would be conducted in a manner consistent with the California historical Building Code and The Secretary of the Interior's Standards for the Treatment of Historic Properties. In the 2002 bat habitat assessment there was evidence of limited prior bat activity; however no bats or bat activity were found. During a follow-up 2008 bat survey a maternity roost of Townsend's big-eared bats, a California Species of Special Concern, were found using the upper floor of the building.	Oth	01/16/2009
2008021052	Tajiguas Landfill Reconfiguration and Baron Ranch Restoration Santa Barbara County Santa Barbara--Santa Barbara The proposed project involves a redesign of a portion of the approved waste footprint at the Tajiguas Landfill. The proposed waste footprint design change (reconfiguration) would not modify any of the existing operational parameters (e.g. waste disposal capacity, hours of operation, personnel requirements, waste handling procedures, etc.) but would involve physical changes to a portion of the approved location of the waste footprint and associated disturbance for construction activities and equipment operations in the back canyon area of the Tajiguas Landfill site.	SBE	01/30/2009
1991033042	Redwood Landfill, Inc. Revised Solid Waste Facilities Permit Marin County Revision to a Full Permit for the landfill to include compost activities and to clarify tons received to include 2,310 tons/day (TPD) total - 1,390 TPD for disposal, 170 TPD for composting, 400 TPD for recycling and 350 TPD cover materials. The Marin County Environmental Health Services Department, the Local Enforcement Agency, prepared and certified the following environmental documents for the Redwood Landfill Permit Revision: The Redwood Landfill 1999 Revised Solid Waste Facility Permit Final Environmental Impact Report (FEIR), State Clearinghouse No. 1991033042, which consists of the following series of CEQA documents which the LEA, acting as Lead Agency prepared after the operator submitted its initial application to revise its solid waste facilities permit in 1999; Final EIR Volume I, Revisions to the Draft EIR; Volume II, Final EIR Response to Comments; Volume III, Final EIR Response to Comments Amendment; Final EIR Second Amendment; and Final EIR Appendices. The CIWMB considered the EIR as prepared by the Lead Agency.	NOD

1996082016	Tuolumne County General Plan Update Tuolumne County Ordinance for Zone Change RZ08-008 to rezone a 12.0+/- acre parcel from A-20:MX (General Agricultural, Twenty-Acre Minimum: Mobilehome Exclusion Combining) as follows: 9.6+/- acres to A-10:MX (General Agricultural, Ten-Acre Minimum: Mobilehome Exclusion Combining) and 2.4+/- acres to O (Open Space).	NOD	
2007111072	EA 25960 SR-96 Curve Improvement Project Caltrans #8 Needles--San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement (SAA #1600-2008-0116-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, CalTrans, represented by Mr. Craig Wentworth, 464 W. 4th Street, 6th Floor, MS 822, City of San Bernardino, State of California, 92401-1400, PH: 909-383-6494. The applicant is proposing to remove existing pipe culvert at the north end of the project site and replace with two (2) pipe culverts, to construct concrete headwall and rock slope protection at the inlet and outlet of the pipe culverts, to construct bank stabilization such as rip-rap/retaining wall/gabion.	NOD	
2008041056	Asilomar ADA Compliance Plan Parks and Recreation, Department of Pacific Grove--Monterey The purpose of the Asilomar ADA Compliance Plan is to design and implement the necessary building and other facility improvements to the Asilomar State Beach and Conference Grounds to provide adequate accessibility to park visitors. The proposed improvements have been designed to meet the Americans with Disabilities (ADA) standards and other applicable regulatory compliance requirements while also minimizing adverse impacts to the park's extensive cultural and natural resources. Two types of ADA improvements can be distinguished within the proposed Asilomar ADA Compliance Plan: (1) building modifications, and (2) exterior site improvements.	NOD	
2008041064	Boyer 3-Lot TPM; TPM 20794; Environmental Review No. 03-08-063 San Diego County --San Diego The project is a minor subdivision to divide a 3-acre parcel into three residential lots of 0.82, 0.97, and 1.21 gross acres. Access would be provided by private driveways connecting to Mountain Meadow Road (two southerly parcels) and Oak Spur Way (northerly parcel). The project would be served by public sewer and water provided by the Valley Center Municipal Water District.	NOD	
2008042065	Hiddenbrooke School and Park Vallejo City Unified School District Vallejo--Solano The VCUSD, in conjunction with the Greater Vallejo Recreation District (GVRD), proposes to develop an elementary school (K-5). Development would include construction of various school and park facilities as well as associated roadway, parking, utilities, and other associated infrastructure. School facilities would include an administration building, library/media center, multi-use/kitchen area, kindergarten with separate enclosed play area, classrooms, multi-use hard courts and an athletic play field. Proposed park elements would include an open grass play field, group picnic areas and individual picnic tables, toddler and children's play areas, one hard court play area, two bocce ball courts, as well as a trailhead and loop trail to provide access to park facilities and off-site open space areas. 2008052127	2008 Butte County Regional Transportation Plan Butte County Association of Governments --Butte The proposed project is the adoption and implementation of the 2008 Butte County Regional Transportation Plan (2008 RTP or proposed project) for Butte County. The RTP embodies three elements: Policy Element, Action Element, and Financial Element. The RTP is a program-level regional planning document that addresses long-term goals and objectives for all transportation modes (highways, local roads, bridges, transit, bicycle, aviation and rail). The Draft EIR provides a detailed description of the 2008 RTP. The full RTP is available for review at the BCAG website.	NOD	
2008101070	29917 Pacific Coast Highway Malibu, City of Malibu--Los Angeles The proposed project consists of a request to construct a new, 7,087 sf, one-story, single-family residence (not to exceed 18 feet in height) with a 999 sf basement, attached 520 sf two-car garage, 328 sf covered porches, swimming pool with spa, a 225 sf covered pool cabana, new alternative onsite wastewater treatment system (AOWTS), site retaining walls, grading (950 cubic yards of non-exempt grading), fire department access driveway and emergency vehicle turnaround and an auto court on vacant property zoned RR-2 (allowing one singlefamily residence on a minimum lot size of two acres).	NOD	
2008111027	General Waste Discharge Requirements for Existing Dairy Operations within the San Diego Region Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego The project is the adoption of General Order No. R9-2008-0130, Waste Discharge Requirements for existing Dairy Operations in the San Diego Region. This project would regulate the discharge of Dairy Operation wastes to land from the eight existing dairies in the San Diego Region, and covers expansions of the dairies up to 1999 mature dairy cows. The eight Dairy Operations to be regulated under these general requirements are currently regulated under National pollutant Discharge Elimination System (NPDES) orders or individual waste discharge requirements, and the individual orders would be rescinded. The general requirements of this General Order are as stringent as both the NPDES orders and individual waste discharge requirements.	NOD	
2008112027	Atkins Drive Charter School Elk Grove Unified School District Elk Grove--Sacramento Acquisition of a 7.63+/- net acre site and construction of a new charter school.	NOD	
2008112035	Calistoga Grove Santa Rosa, City of Santa Rosa--Sonoma Subdivide a 0.91 acre parcel into 6 lots abutting Austin Creek. Construction of 6 detached single-family homes; new private driveway accessing Calistoga Rd. Conditional Use Permit to allow a small-lot subdivision. Approximately 18 of the 44 trees on site will be saved.	NOD

2006041027	<p>Santa Barbara Botanic Garden Vital Mission Plan Santa Barbara County --Santa Barbara</p> <p>The applicant is proposing to revise their existing CUP and approve a Development Plan to allow the development of approximately 25,884 square feet of net additional building area for administrative, research, educational, and residential uses. The project also proposes to add a newly acquired 13.15 acre parcel to the CUP (approximately 78 acres total), improve its internal circulation and parking, install fencing, improve and expand its trail system, improve fire protection for all existing and proposed development, and extend municipal sewer and water service to serve the entire project site. Increases in staff, visitors, classes, and special events are proposed and anticipated. Upon completion of the project, the Garden would include a total of 65,442 square feet of development, with a net increase of three residential units.</p> <p>The Draft EIR was originally released July 4, 2007, and public comment period closed September 7, 2007. Analysis conducted in response to public and agency comments identified significant new impacts and information requiring recirculation. Therefore, we are recirculating the complete revised project description and complete revised Cultural Resourced and Fire Protection sections of the Draft EIR.</p>	EIR	02/02/2009
2007032157	<p>Sutter Pointe Specific Plan Sutter County --Sutter</p> <p>The applicant, the Measure M Group, is seeking approval of the Sutter Pointe Specific Plan, which would guide development of a mixed-used community over an approximately 20- to 30-year period. The project proposes approximately 49.7 million square feet of industrial, commercial, and business/professional development; and 17,500 low-, medium-, and high-density residential units. The project would also include a new high school and six new K-8 schools, and 272 acres of public parks and 395 acres of open spaces. Project development would also include off-site infrastructure improvements, such as a sewer interceptor connection to Sacramento Regional County Sanitation District's Upper Northwest Interceptor in Rio Linda, and drainage, potable water, and dry utilities improvements. A county service area or community services district would be established to manage this infrastructure.</p>	EIR	02/02/2009
2007052068	<p>Highlands Estates San Mateo County San Mateo--San Mateo</p> <p>The Project Applicant is currently proposing a series of actions that would result in the development of 11 residential lots, covering a total of approximately 4.53 acres. The portion of the project site zoned RM would include the development of nine lots, while the other two proposed dwelling units would be constructed on the single-family residential portion of the site. The subdivision plus the additional residential lots would result in a total of 11 single-family home lots, and 92.43 acres of the site would be designated as open space. Lots 1 through 4 would be located along Bunker Hill Drive, along the northern boundary of the site, and lots 5 through 8 would be located along Ticonderoga Drive, along the southern boundary of the site. Lots 9 and 10 would be located at the end of Cobblehill Place at the south side of the project and lot 11 would be located at the end of Cowpens Way in the southwesterly portion of the project site. Additionally, there are 2.08 acres of</p>	EIR	02/03/2009

2008122068	Blackburn Avenue Street Widening Project Corning, City of Corning--Tehama 660' long Street segment is currently a one-way street. The project includes acquisition street right of way and widening of this segment of Blackburn Avenue to facilitate two-way traffic, and essentially to meet City's "Minor Arterial" street standard. That standard includes a 78' overall right of way width. Planned improvements include underground drainage, water and sanitary sewer lines, a planted median strip, and streetlights, curbs, gutters and sidewalks. Additionally, streetlights are to be installed within the existing Blackburn Avenue planted median and the adjacent Toomes Avenue frontage of the Salado Orchard Apartment complex.	MND	01/29/2009
2008122069	Tract Map 08-1003, Corning Crossroads Corning, City of Corning--Tehama To subdivide an approximately 9.07 acre parcel and create 7 commercial parcels ranging from 0.75 acres to 1.32 acres with a 1.08 acre common parcel that will be used as a drainage detention basin.	MND	01/20/2009
2008122070	Quinn Crossing Apartments Vacaville, City of Vacaville--Solano The project proposal is to subdivide an existing vacant 14-acre parcel at 5085 Quinn Road into four parcels, and construct a 200-unit apartment complex on two of the parcels and leave the remaining two parcels for future commercial development. As part of the proposed project the applicant is requesting a zone change to apply a Residential Overlay (RO) zone over two of the newly created parcels for an apartment complex. The site plan provides 400 parking spaces including 200 covered garage spaces. Access to the site is provided via a driveway on Quinn Road, direct access into the complex will be provided via a gated access drive. The proposed complex includes 21 buildings including a club house. All buildings except for the club house are three-story structures with garages on the bottom level.	MND	01/20/2009
2008122071	Southeast Industrial / City Well-Sites Annexation Patterson, City of Patterson--Stanislaus Included are prezone/annexation of 54.3 acres for an industrial business park & City water treatment facility, and various contiguous and non-contiguous parcels in use or reserved for wells, tanks, WWTP expansion for another 286.3 acres if City-owned land. 2008112040	Zone Amendment 08-007 (Richards) Shasta County --Shasta This is a re-circulation of the document originally sent to the State Clearinghouse (2008112040). The applicants have revised the project description in response to verbal comments from the DFG. DFG comments were focused on the incompatibility of potential increased residential density that could result from the proposed rezoning of the entire project site to the A-1 zone district and wetland conservation efforts in the vicinity. In response to these concerns, the applicants have revised the proposal. The project as revised is a Zone Amendment from the EA-AP zone district to the Limited Agriculture zone district combined with the A-1BA-20 for an approx 23 acre portion of the project site. The rezoning application was submitted to facilitate a property line adjustment. The owners propose a property line adjustment that would result in the expansion of a five acre parcel created under a family member provision of the EA zone district. Parcels created by this provision are limited to no greater than five acres in size. The project would not result any greater development potential than permissible by the existing zoning.	Neg	01/07/2009
2008121084	Lot Line Adjustment San Luis Obispo County --San Luis Obispo Request by Hearst Holdings, Inc. for a Lot Line Adjustment/Coastal Development Permit (COAL 07-0070) to adjust the lot lines between four existing parcels of 0.17 acres, 446 acres, 10,180 acres, and 23,200 acres. The adjustment will result in four parcels of 93.6 acres, 1,851.71 acres, 8,840.55 acres, and 23,040.34 acres. The purpose of the lot line adjustments to bring the existing lot configuration into conformance with various easement boundaries of the Hearst Conservation Plan. These easements significantly limit development potential on the Heart Ranch. The proposed lot line adjustment	Neg	01/20/2009

2008051049	Mission District Specific Plan Supplemental EIR for Mission 261 Village Project San Gabriel, City of San Gabriel--Los Angeles The project site is located in the City of San Gabriel in the County of Los Angeles. The 1.36-acre project site is located on the northwest corner of South Mission Drive and Carmelita Street and presently occupied by the existing Mission 261 dining and banquet facilities, and the adjacent Park and Ride lot. The proposed project includes a total of 74,620 square feet of development: 35,796 square feet for hotel and retail uses, and 38,625 square feet for residential uses. In total, 30 residential units, a hotel with 56 rooms, and 15,160 square feet of retail uses and proposed. The development results in a Floor Area Ratio (RAR) of 1.3, which exceeds the Specific Plan maximum FAR of 1.0 for mixed use development.	SIR	02/02/2009
2001011063	California Street Landfill Redlands, City of Redlands--San Bernardino The estimated closure date was changed from 2031 to 2042, optional secondary low permeability liner for the double composite liner system, use of filter cake as alternative daily cover and the disposal of incidental treated wood waste. 2007121110	Grassland Bypass Project San Luis and Delta Mendota Water Authority Los Banos--Merced, Fresno, Stanislaus Continue the existing Grassland Bypass Project with a new Use Agreement (for San Luis Drain) with Bureau of Reclamation until December 31, 2019. The original project, as well as the proposed extension, consolidates subsurface drainage flows on a regional basis (from the 97,400-acre Grassland Drainage Area); applies the drainage to salt tolerant crops to reduce the volume; utilizes a 4-mile channel to place it into the drain at a point near Russell Avenue, and utilizes a 28-mile segment of the drain to convey the remaining drainage flows around wetland habitat areas and then discharges to Mud Slough (north) and subsequently to the San Joaquin River.	EIR	02/19/2009
2008011018	Wildwood Stable Estates, LP, Zone Change and Tentative Tract Map Ventura County Thousand Oaks--Ventura The proposed project would subdivide the site into 18 lots. Proposed lots vary in size from 2.20 to 40.16 acres. A specific site plan for development within each lot (e.g. the placement and design of the home) has not been provided. However, the tentative tract map places restrictions on the areas that may be developed within the southernmost lots such that all of the homes would be constructed within the middle and northern portions of the site. Lots 1 through 8 would be located within the northerly portion of the site (north of the Arroyo Santa Rosa Creek). The tentative tract map does not place any restrictions on the location of development within these lots. Lots 9 through 18 would be clustered in the area just south of the Arroyo Santa Rosa Creek. 	deficient triple-barrel RCB and access road to the Westminster Memorial Park (Poe Dr), & replacement of the existing concrete trapezoidal channel (between Beach Blvd. & Cedarwood St) with a 37 ft wide x 8.5 ft high rectangular channel. The south side of the street will be raised 1 ft between east of Poe Dr and west of Beach Blvd. A 4 ft wide raised median will be installed to collect street drainage.		
2008121091	Mill Creek Wetlands Recreation and Retoration Demonstration Project Ontario, City of Chino--San Bernardino The emonstratation Project is a 47 acre natural water treatment system consisting of a Recreational PPlan, Native Habitiat PPlan, and Water Quality Plan. The Demonstrations Project includes ~3.3 miles of new trails with interpretative signage surrounding a series of wetland/extended detention ponds vegetated with native vegetation and sized to store ~160 acre ft of runoff for natural water treatment of runoff from Cucamonga Creek.	MND	01/20/2009
2008121097	Administrative Application No. AA08-030, A.V. Thomas Produce Storage Expansion Project Merced County Livingston--Merced To build a total of three 28,000 square foot sweet potato storage warehouses - one now, two more within the next two years, at an existing sweet potato packing facility on property located at the southeast corner of Bell Dr & Sultana Dr in the Livingston area.	MND	01/21/2009
2008122073	Initial Study/Proposed Mitigated Negative Declaration for the Sly Creek Dam Crest Raise South Feather Water and Power Agency --Butte The proposed project consists of modifications to the Sly Creek Dam and spillway to address safety issues associated with the probable maximum flood flow event that would be conveyed through Sly Creek reservoir and the spillway. The crest of the dam would be raised 10 ft. Spillway modifications would involve replacing the existing radial gate with a pneumatic bottom-hinged spillway gate raising the walls of the spillway channel ~1-6ft. Portions of Barton Hill/Lewis Ridge Road would be raised to match the grade of the dam crest and maintaint existing drainage patterns. Following construction, the borrow site would be reshaped and vegetated as necessary to stabilize cuts or benches and restore drainage patterns. No change in authorized reservoir storage or maximum water surface level is proposed.	MND	01/20/2009
2008122074	Proposition 50 Pipeline, Water Treatment and Storage Project Jackson, City of lone--Amador Construction of a water conveyance pipeline approximately 3.6 miles inlength; construction of a 350 gallon per minute water treatment plant; and construction of a 200,000 gallon water storage tank. Water will be conveyed from Lake Paradee to The Oaks Mobile Home Community at Buena Vista.	MND	01/20/2009

	and an elementary school. The Avenue Specific Plan Amendment proposes a realignment of Schaefer Avenue and the development of up to 2,606 homes and 250,000 sf of Neighborhood Center uses. This is an increase of 280 residential dwelling units and 76,000 sf of retail in the area bound by the realigned Schaefer Avenue to the north, Haven Avenue to the east, the Subarea 18 boundary to the south(existing Edison Avenue) and Turner Avenue to the west.		
2007081054	El Sobrante Landfill Solid Waste Facility Permit Revision Project Riverside County Corona--Riverside The project is a proposal to revise the El Sobrante Landfill Solid Waste Facility Permit to: 1) Extend the hours at the gate for waste delivery by four (4) hours, thus allowing for acceptance of material for a continuous 24-hour period; (2) Change the maximum disposal tonnage limits from a daily limit of 10,000 tons per day (tpd) to a weekly limit of 70,000 tons per week.	SIR	02/04/2009
1993011028	Emergency Storage Project Lake Hodges Pump Station San Diego County Water Authority The Lake Hodges Project is a component of the Water Authority's larger Emergency Storage Project (ESP). this project had initially undergone environmental review as part of the ESP in the previously certified final Environmental Impact Report/Environmental Impact Statement EIR/EIS - SCH#93011028, which was approved by the Water Authority on August 16, 1996. Subsequently, additional design detail was made available and Addendum entitled Post EIR/EIS Assessments (collectively, "Addendum EIR") were prepared to more particularly address additions or changes related to the Lake Hodges Projects.	NOD	
1999071065	Rijlaarsdam Dairy Tulare County Traver--Tulare A Special Use Permit to est. a new dairy on a site in the AE-40 (Exclusive Agricultural-40 acres min.) Zone.	NOD	
2000032006	South Access to the Golden Gate Bridge - Doyle Drive San Francisco, City and County of San Francisco--San Francisco The proposed project involves the reconstruction of Doyle Drive (State Route 101) with a new six lane facility with inside and outside shoulders two tunnel segments, landscaped median, direct access to the Presidio via access ramps connecting from Doyle Drive to an extension of Girard Road, and a reconfigured Park Presidio interchange.	NOD	
2005081058	Tentative Tract Map 17044 Adelanto, City of Adelanto--San Bernardino The project involves the development of approximately 20 acres of undeveloped land into a 130 lot residential subdivision. The Department of Fish and Game (DFG), as responsible agency, is issuing an Incidental Take Permit for the Mohave ground squirrel, which is protected by the California Endangered Species Act and which could be taken as a result of the project.	NOD

2005092048	Soda Bay Road Realignment Lake County Lakeport--Lake The Department of Public Works in conjunction with the Big Valley Band of Pomo Indians is proposing the construction of a new section of Soda Bay Rd., the widening and rehabilitation of an existing portion of Soda Bay and Mission Rancheria Rd., the installation of drainage improvements, and the installation of pedestrian walkways along Soda Bay and Mission Rancheria Road.	NOD	
2006081064	George K-8 Magnet School Project Adelanto School District Adelanto--San Bernardino The permitted project includes the construction of a new K-8 magnet school on a 20-acre site in the Cit. of Adelanto, Ca. The construction will result in the permanent destruction of 20 acres of desert tortoise and Mohave ground squirrel habitat. The Dept. of Fish and Game, as responsible agency, is issuing an Incidental Take Permit for the desert tortoise and Mohave ground squirrel, which are protected by the CA Endangered Species Act and could be taken as a result of the project.	NOD	
2006091071	Sunrise Powerlink Project Public Utilities Commission El Centro, San Diego--San Diego, Imperial The CPUC approved the Final Environmentally Superior Southern Route Alternative, which would include a 500 kV transmission line from the Imperial Valley Substation to a new substation southeast of the town of Alpine, then continuing with a 230 kV transmission line with both overhead and underground components to the Sycamore Canyon Substation. Upgrades to the existing transmission system west of Sycamore Canyon Substation would also occur.	NOD	
2006112141	Tuolumne County 2006/07 Regional Transportation Plan Tuolumne County --Tuolumne The proposed project is the adoption and implementation of the Regional Transportation Plan (RTP) in Tuolumne County. The RTP is a blueprint for the systematic development of a balanced, comprehensive, multi-modal transportation system, including but not limited to: roadways, transit, aviation, goods movement, bikeways, pedestrian facilities, transportation systems management and intelligent transportation systems. In addition, the RTP is action oriented and pragmatic, considering both the short-term (up to ten year) and long-term (ten to twenty year) periods.	NOD	
2007071076	El Casco System Project Public Utilities Commission Banning, Beaumont, Calimesa--Riverside, San Bernardino SCE proposes to construct a new 220/115/12 kV substation (the El Casco Substation), upgrade the existing Zanja and Banning Substations and SCE's Mill Creek Communications Site, upgrade a total of 15.4 miles of 115 kV electric subtransmission line and associated structures, and install fiber optic communication cables between the Cities of Redlands and Banning.	NOD

2007082140	Sutter Elk Grove Master Plan Elk Grove, City of Elk Grove--Sacramento The Sutter Medical Elk Grove Master Plan project proposes the phased development of medical facilities and a hospital, including renovation of the existing medical office buildings at the Sutter Health Elk Grove Medical Campus. The project site is a 40.9+/- acre area located on the south east corner of Laguna Blvd. and Big Horn Blvd. The applicant has identified eight phases of development summarized as follows: Phase I-an ambulatory surgery center; Phase II-a new 40,000sf. medical office building and 11,920sf. training/medical office building; Phase III-a 68 bed hospital; Phase IV-a new 40,000sf. medical office building; Phase V-a new 20,000sf. retail/complementary uses/medical offices building; Phase VI-a new 40,000sf. medical office building; Phase VII- a new 40,000sf. medical office building; and Phase VIII-the expansion of the hospital to a total of 99 beds and potential additional expansions. Total square footage of phases I through VIII is approx. 393,000sf.	NOD	
2007111004	Coroner Crypt Building and Medical Examiner Building Tenant Improvements Project Los Angeles County --Los Angeles The proposed project would consist of tenant improvements to the Coroner's Medical Examiner's building, including rehabilitating the mechanical systems (heating, ventilation, air conditioning, and plumbing), upgrading the electrical systems of the Coroner's Medical Examiner's building, and related abatement of hazardous materials associated with the existing systems. In addition, the interiors of the basement and service levels of the Coroner's Medical Examiners's building would be remodeled. The project would also construct a 4,893 square-foot walk-in crypt building and artwork that will abut the existing Coroner's Medical Examiner's building.	NOD	
2007121071	New Middle School Project - Site 25 Adelanto School District Adelanto, Victorville--San Bernardino The permitted project includes the construction of a new middle school on a 29-acre site in the City of Victorville, Ca. The construction will result in the permanent destruction of 29 acres of desert tortoise and Mohave ground squirrel habitat. The Dept. of Fish and Game is issuing an Incidental Take Permit.	NOD	
2008012009	Phase 2 and Future Phase 3 Well Utilization Diablo Water District Oakley--Contra Costa Phase 1 was completed in 2006 and included a well and pump station along with pipelines located in Glen Park in the City of Oakley. The Pahse 1 Glen Park well has a maximum pumping capacity of 2 million gallons per day (mgd) during high demand periods, and has been operating at an annual average pumping rate of about 0.75 mgd over the entire year, including low demand periods when pumping rates are lower. Phase 2 consists of a second well an 18-inch diameter pipe, 2,300 feet long, to convey water from the new well to the existing 18-inch well pipeline at Glen Park (Phase 1) which conveys water to the DWD blending facility at the Randall-Bold Water treatment Plant. Phase 2 is anticipated to have pumping capacities similar to Phase 1 with a range between 0.5 to 2 mgd.	NOD

2008071042	Del Dios Highway ROW Wireless Telecommunications Facility San Diego County Escondido--San Diego The project is an unnamed wireless telecommunication facility. The facility includes a 40-foot utility pole to which two (2) panel antennas will be mounted and associated equipment consisting of equipment racks, two (2) battery racks, a surge suppressor, and other equipment that will be enclosed by an under ground concrete equipment vault. In addition, approximately 750 feet of trenching along the Del Dios Highway ROW is proposed.	NOD	
2008092042	Larry Wehmeyer Educational Area Siskiyou County Mount Shasta--Siskiyou Siskiyou County Office of Education is proposing to make improvements to the overall physical infrastructure of the Larry Wehmeyer Environmental Education Area to provide updated and safe facilities for school children for outdoor environmental programs. The site consists of improved and unimproved trails, bridges, waterways, wooded areas and a pond. Improvements will relocate trails out of environmentally sensitive areas and adjacent private property, a restroom, indoor and outdoor education structures, signage and improved parking.	NOD	
2008101046	Descanso Wireless Telecommunication Facility San Diego County San Diego--San Diego The project is a Major Use Permit to construct and operate an unnamed wireless telecommunication facility. The project consists of 12 panel antennas, with 'sock' covers, and a 6-foot diameter microwave dish mounted onto a proposed 40-foot tall faux monopine tree. Landscape screening includes 6 new Coulter pine trees, 31 Wild Lilac shrubs, 28 Cleveland Sage shrubs, and 8 Toyon shrubs. Supporting equipment includes a pre-cast concrete equipment shelter, two air conditioner units, two GPS antennas, and a back-up generator.	NOD	
2008101143	Boulder Creek Wireless Telecommunication Facility San Diego County San Diego--San Diego The project is a Major Use Permit to construct and operate an unnammed wireless telecommunication facility. The project consists of 15 panel antennas, with 'sock' covers, mounted onto a proposed 35-foot tall faux monopine tree. Landscape screening includes 6 new Coulter pine trees, 31 Wild Lilac shrubs, 28 Cleveland Sage shrubs, and 8 Toyon shrubs. Supporting equipment includes a pre-cast concrete equipment shelter, two air conditioner units, and two GPS antennas.	NOD	
2008129010	Trinity Presbyterian Church Wireless Telecommunication Facility Generator Addition; P69-129W5; ER 92-18-004A San Diego County --San Diego The project is a Major Use Permit Modification to authorize the addition of an emergency generator to an existing unmanned wireless telecommunication facility. The proposed generator will be enclosed by a 9'10" x 11'2" generator structure. In addition, a six-foot high wood fencing will be placed around the existing AC units for sound attenuation purpose and additional landscaping is proposed for screening purpose.	NOD

2008128265	San Joaquin Valley Unified Air Pollution Control District Rule Development:Rule 2201 Rule 2530 San Joaquin Valley Air Pollution Control District --San Joaquin, Fresno, Kern, Kings, Madera, Merced, ... The District is proposing amendments to add permitting requirements that will change the major source and major modification thresholds and make other changes based on our proposed "extreme" nonattainment ozone designation.	NOE	
2008128266	Douglas Blvd. and Sierra College Blvd. Pedestrian Facilities and Landscaping Placer County Roseville--Placer The proposed project will complete the pedestrian and landscape facilities along the Sierra College Blvd. and fill in teh few remaining gaps along Douglas Blvd.	NOE	
2008128267	White Rock Road Pedestrian and Safety Improvements Project Rancho Cordova, City of Rancho Cordova--Sacramento The proposed project would provide pedestrian and safety improvements to a segment of White Rock Road and nearby intersections in the City of Rancho Cordova. Improvements would consist of the installation of roadway pavement improvements (asphalt pavement leveling and patching, asphalt rubber chip seal and Caltrans Type II Slurry Seal, and of curb, gutter, and sidewalk with ADA-compliant sidewalk ramps, storm drain pipes and inlet relocation to accommodate installation of ADA-compliant ramps, and minor traffic signal improvements. All work would be done within City of Rancho Cordova right-of-way. No traffic generating structures or features would be constructed as part of this project. No trees would be removed as part of project construction. No jurisdictional water ways would be affected by the proposed project.	NOE	
2008128268	Vessel General Permit State Water Resources Control Board -- USEPA has developed a VGP to regulate discharges from all commercial vessels (those longer or equal to 79 ft.) The VGP incorporates the U.S. Coast Guard mandatory ballast water management and echange standards and adds some additional requirements for ballast water management. The VGP addresses 28 potential vessel discharge streams by establishing effluent limits, including BMPs, to control the discharge streams and constituents found in those waste streams. For each discharge type, the VGP establishes effluent limits pertaining to the constituents found in the effluent and BMPs designed to decrease the amount of constituents entering the waste stream.The VGP includes effluent limitations to control a variety of materials, which have been classified into seven major groups. The VGP also establishes additional technology -based requirements for certain discharges from eight specific classes of vessels, such as cruise ships, research vessels, and large ferries and water quality-based effluent limits that incorporate requirements for imparied waterbodies. Under the VGP, certain discharge types would be limited or prohibited in waters protected for conservation purposes (i.e. national marine sanctuaries and national parks). The VGP also establishes specific corrective actions, inspections and monitoring requirements as well as record keeping and reporting requirements. The VGP also requires submission of a NOI for a subset of permittees if the vessel is greater or equal to 300 tons or has a ballast water capacity of at least eight cubic meters. USEPA estimates that this requirement would affect 44, 363 domestic and 7, 834 foreign flagged vessels. All	NOE

2006062002	Bay Division Pipeline Reliability Upgrade Project San Francisco, City and County of Fremont, Redwood City--Alameda, San Mateo The project would be constructed as a 21 mile pipeline, parallel to, and within the existing right-of-way (ROW) of BDPL Nos. 1 and 2, which originate at the Irvington Tunnel Portal in Fremont, pass through the cities of Fremont and Newark in Alameda County, cross the Bay at the Dumbarton Strait, and continue through the cities of East Pal Alto, Redwood City, Menlo Park, and unincorporated areas of San Mateo County. The project (also referred to as "BDPL No. 5") would include a seven-mile "reach" (or sub-segment) in the East Bay that begins approximately 100 feet east of Mission Boulevard, near the Irvington Tunnel Portal, and continues westward through the cities of Fremont and Newark to the Newark Valve Lot. A proposed five-mile tunnel would extend from the Newark Valve Lot to the Ravenswood Valve Lot in Menlo Park, crossing beneath the Bay. From the Ravenswood Valve Lot, BDPL No. 5 would extend nine miles westward to the Pulgas Tunnel Portal in unincorporated San Mateo County. The project would also include: new facilities at six existing valve lot locations, including new concrete valve vaults and control buildings that house electrical control panels, isolation valves, mechanical equipment, and cross-connections between BDPL No. 5 and the existing BDPL Nos. 1 and 2; new flow-metering vaults at Driscoll Road in Fremont and Hassler Road in Redwood City; and a new fiber optic cable installed on existing towers between PG&E's Ravenswood Substation in Menlo Park and its Ames Substation in Mountain View. 2007102090	Downtown Roseville Specific Plan Roseville, City of Roseville--Placer The project is implementation of the Downtown Roseville Specific Plan in a 176-acre area comprised of the existing Historic Old Town, Vernon Street Civic Core, and Royer and Saugstad Parks. The project area encompasses an infill area surrounded by built-out neighborhoods and the U.P. Railyard in central Roseville. The Plan would establish a mix of land uses in the Downtown to facilitate infill development, mixed-use, pedestrian scale, urban amenities, transit use, creative design, and revitalization of the Downtown. The Plan also established policies for pedestrian movement, alternative transportation, transit routes, vehicle traffic, and parking within the Downtown area. The Plan would implement improvements related to connectivity, place making, and creek restoration and flood conveyance identified in the Royer/Saugstad Park Master Plan.	EIR	02/13/2009
2008042079	Mirabella Parkview Plaza EIR Foster City Foster City--San Mateo The Project seeks to create a mixed-use development (senior housing and care facilities, neighborhood retail, and community services) on a vacant site in Foster City, with nearby civic and cultural amenities make it ideally suited for senior-focused housing, a vibrant town square, and other community provisions that would benefit Foster City as a whole. The project would include eight new buildings ranging in height from one story (12 feet) to 15 stories (158 feet). Key elements of the project include: " Continuing Care Retirement Community (CCRC) (350 Independent living apartments, 20 assisted living apartments, 20-bed memory care facility, and 30-bed skilled nursing facility); " 70 affordable apartment units for seniors; " Up to 50,000 square feet of neighborhood retail/restaurant space; " Approximately 1.3 acres of public open space/plaza; " Approximately 941 parking spaces (at-grade and in structures) and " Bus turnouts, pedestrian and bike linkages, and internal vehicular circulation routes through the project site.	EIR	02/05/2009
2008122091	New Harmony Affordable Apartment Project Davis, City of Davis--Yolo The project proposes a 69-unit, affordable rental apartment community. Development would consists of two three-story apartment buildings (41,256 sq. ft. and 23,175 sq. ft.) and a one-story community building (3,871 sq. ft.) and site improvements. Proposed density is approximately 20 units per acre on the residential parcel. A tentative parcel map would divide the property and create a residential parcel for the apartment development and an office parcel which is not proposed for development. Project includes a General Plan Amendment and Rezone to change the residential parcel to High Density Residential land use and Multi-Family zoning. The office parcel zoning and land use would not change.	EIR	02/05/2009
2008041019	Silverlakes Equestrian and Sports Park Norco, City of Norco--Riverside The Applicant proposes to develop a 122-acre equestrian center and sports facility that would be used for a variety of recreational uses, such as equestrian events, soccer, football, lacrosse, etc. The project may include the following: equestrian	FIN

Reconfiguration of the school, modernizing the existing facilities, creating classrooms and outdoor recreational spaces that place buildings, access and parking, play areas with more visibility.</p>	MND	01/21/2009
2008122084	<p>CFY Development - Use Permit for a Planned Community (Apartments) - UP0912 Del Norte County Crescent City--Del Norte</p> <p>The applicant proposes to construct 162 apartment units, of which 160 will be designated for affordable housing needs. The project will be completed in two phases (81 dwelling units each phase) and will be served by public water and sewer.</p>	MND	01/21/2009
2008122085	<p>Ferndale Fairgrounds Cell Antennas Humboldt County Ferndale--Humboldt</p> <p>Installation of one cellular transmission antenna and one receiving antenna (and appurtenances) to be located on a County owned structure (Humboldt County Fairgrounds Grandstand) located within the City of Ferndale on APN 030-071-01. The structure is leased by the Humboldt County Fair. The 51.9+- acres Humboldt County Fairgrounds site consists of four (4) Assessor Parcel Numbers (030-011-03, 030-21-03, 030-071-01, and 030-081-06) and is developed as the County Fairgrounds. The antennas are proposed to be mounted on the lower portion of the north wall and painted to match the wall color. The antennas will be installed in such a manner as to allow for potential future co-location. The proposed site for the installation, the grandstand, is 46'+- high at the northerly, highest portion of the parapet wall and approximately 53'+- high at the top of the 9' cupola located on the rooftop. The proposed addition would add no additional height to the top of the cupola and/or wall.</p>	MND	01/21/2009
2008122086	<p>Proposed East Downtown Study Area Zoning Amendment and New Skilled Nursing Facility at 134 Maple Street Redwood City Redwood City--San Mateo</p> <p>Zoning Map and Text Amendment for the East Downtown Study Area, which is located adjacent to the east side of Downtown Redwood City, between downtown and the Historic Stambaugh Heller neighborhood and the South Main industrial area. The study area consists of nine (9) properties. The project also includes a development proposal for the property located at 134 Maple Street. As proposed, this property would be redeveloped with a new 112 bed inpatient skilled nursing facility in an approximately 65,788 square foot, 5-story building.</p>	MND	01/21/2009

2008122088	Lakes Basin Trail and Watershed Restoration Eastern Plumas Recreation District --Plumas The project will rehabilitate 6.08 miles (32,102') of poorly designed and erosive trails located in the LBRA, which will result in a significant reduction in watershed contamination from the trail. Two sections of trail will be rerouted to less sensitive areas, with two stream crossings created, 12 switchbacks will be rerouted four miles of trail will be rehabilitated using modern trail building methods.	MND	01/21/2009
2008122087	West Ceres Specific Plan Ceres, City of Ceres--Stanislaus The proposed project includes approval of the West Ceres Specific (WCSP) and annexation of the plan area into the City of Ceres, with related approvals. The proposed development is envisioned as a mixed-use, pedestrian-friendly community with a diverse mix of home types and a jobs/housing balance including up to 4260 new commercial, office and industrial jobs and up to 3650 new homes. The plan also includes two elementary school sites as well as parks and open space to support the proposed community.	NOP	01/21/2009
2008122089	Fruitvale Transit Village Phase 2 Oakland, City of Oakland--Alameda Signature properties and the Unity Council propose to develop an existing surface parking lot with a 275-unit, a 4-story residential complex and a 5-story parking structure with 275 parking places. The total square footage of the project will be 148,104 square feet. The project proposes to subdivide the approximately 3.4 acre project site from two lots into four lots. The proposed project will be constructed in four phases. The proposed project will complement the mixed-use Fruitvale Transit Village Phase 1 development by providing housing on a currently underutilized parking lot next to existing public transportation.	NOP	01/21/2009
2008122090	Case No. 2004.1279E - Alameda Watershed Habitat Conservation Plan San Francisco, City and County of --Alameda, Santa Clara The San Francisco Public Utilities Commission (SFPUC) is preparing a Habitat Conservation Plan (HCP) to address its activities and conservation actions within the Alameda Creek Watershed (Alameda Watershed) - a 47,800-acre area in Alameda and Santa Clara Counties that encompasses 36,816 acres of land owned by the SFPUC as well as an additional 9,900 acres of private land adjacent to SFPUC lands. The purpose of the proposed HCP is to authorize incidental "take" of threatened and endangered species that may result from SFPUC activities in the Alameda Watershed. The term "take" is defined by the federal Endangered Species Act as: to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture or collect listed animal species, or attempt to engage in such conduct. Harm includes significant habitat modification or degradation that actually kills or injures listed wildlife by significantly impairing essential behavioral patterns, including breeding, feeding and sheltering. In accordance with section 10(a)(1)(B) of the federal Endangered Species Act, take of listed species that is incidental to otherwise lawful activities may be authorized through the adoption of a HCP. 1999121111	California State University Channel Islands, 2009 Facilities Projects California State University, Channel Islands Camarillo--Ventura The project consists of several improvements, modifications to existing mitigation measures, and a land conveyance associated with the California State University Channel Islands (CSUCI) campus.	SIR	02/06/2009
2001031028	Victoria Gardens Master Plan Amendments Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The Victoria Garden Master Plan was prepared as the governing land use and design document for a 174-acre site within the eastern area of the City of Rancho Cucamonga. The Master Plan was approved by the City in 2001. The 174-acre project site included the combination of 147 acres of (City Rancho Cucamonga) Redevelopment Agency controlled property, 18 acres of undeveloped property, and 9 acres of land previously dedicated for street right-of-ways. At ultimate build out, the 174-acres will be built with approximately 2.45 million square feet of retail, office, and civic uses as well as up to 600 multiple-family residential units. Currently, 60 percent of the commercial/retail, business office, and civic center uses and 52% of the residential units within the Master Plan has been built. Forest City Enterprises, Inc. (applicant) is proposing to amend the approved Victoria Gardens Master Plan (VGMP). The Victoria Community Plan, Victoria Arbors Master Plan, General Plan and Development Agreement DA01-02 would also be amended to reflect the proposed changes to the VGMP. The purpose of these amendments is to allow flexibility to construct the remaining number of dwelling units and undeveloped commercial office/retail space as approved with the VGMP. The Victoria Community Plan and Victoria Arbors Master Plan are proposed to be amended to include references to VGMP and to clarify that the VGMP shall control land uses in the VGMP area. The General Plan amendment is a text amendment to Table III-4 of the Land Use Element of the General Plan. The amendments are designed to allow for the most efficient use of available land area within the VGMP project area, and to allow for creative and distinctive building design solutions in achieving these goals. 2007022100	Ancil Hoffman Groundwater Extraction and Treatment "L" System Project Carmichael Water District --Sacramento The proposed project proposes to treat raw groundwater extracted from one remote well conveyed to the Ancil Hoffman Treatment Facility via a buried pipeline. Treated groundwater will be piped underground (approx. 500 ft) under an existing roadway and approx. 200 ft. under open ground , and discharge into a man-made outfall. The discharge outfall will be located roughly 100 ft. from the centerline of the river towards the top of the riverbank on the gravel and sandbar. The treated groundwater may infiltrate into the exposed riverbed during the dry season and a small amount may flow overland and reach the river during the wet season.	NOD	
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus The application is for a CUP to allow the construction of a new seven-story, 117 unit, 155 bed assisted care facility for the elderly on 1.35 acres within the C-1 Zone. The new facility is to be equipped with ground level garage parking, administrative offices, library, store, on-site staffing, building services and five residential units. The second floor to the sixth floor will consist of residential units, entertainment parlors, and residential laundry services. The top or seventh floor will provide an entertainment parlor and lounge area, inside dining and sitting areas, beauty salon, game and media rooms, an exercise room, a multi-purpose room, and garden/terrace outdoor use areas. Public and employee parking is to be accessed off of the existing private street (Angels Lane), and a proposed driveway off of Evergreen Ave. A gated emergency vehicle access is proposed to run along the west side of the site.	NOD	
2007081069	Cellular Phone Tower Expansion Project--South Coast Research and Extension Center University of California, Davis Irvine--Orange The University of California South Coast Research and Extension Center (SCREC) proposes to construct two new cellular phone tower sites adjacent to an existing cell phone tower. Each tower site would include a phone tower, antennas at the top of the tower, and an equipment area to serve the proposed tower. For occasional maintenance purposes at each new site, locked pedestrian gates would be installed on Modjeska Rd. and Irvine Blvd.	NOD	
2008081005	State Route 74 & Interstate 215 Interchange Improvement Project Caltrans #8 Perris--Riverside The California Department of Transportation proposes to reconstruct and modify the existing interchange of State Route 74 (SR 74) and Interstate 215 (I-215) from the intersection of 4th Street and "G" Street to the I-215 at Redlands Avenue, and from the I-215 interchange to San Jacinto Avenue in the City of Perris in Riverside County. The improvements would replace an existing two-lane interchange overcrossing with an eight-lane overcrossing, which would provide for a total of four through lanes and dual left turns in each direction. Redlands Ave. would be widened from 4th St. to San Jacinto, and 4th St. would be modified from "G" St. to the easterly terminus. The project would widen and realign freeway ramps, reconstruct intersections, and provide ramp metering and a High Occupancy (HOV) preferential lane on the entrance ramps, the proposed project would require the need for both retaining walls and sound walls. 2008122093	<p>Anthoñ Single Family Residence and major vegetation removal Humboldt County Trinidad--Humboldt</p> <p>A Coastal Development Permit and Special Permit for tree removal, restoration of a wetland buffer area and the construction of a single family residence (approximately 1680 square feet and 22 feet tall). The residence will be 100 feet from the wetland. The applicant is proposing to remove approximately 20 alder and 60 spruce trees from approximately three (3) acres of the 5.19 acre lot. The lot is currently vacant. Approximately 85% of the trees to be removed are 12" diameter or less. All mature trees will be retained. As part of the project proposal the applicant is requesting to remove trees within a wetland buffer of a pond located across a gravel easement from the parcel. The trees are being removed as part of a habitat enhancement plan. A well and septic system will be developed on sit. Minimal grading is anticipated.</p>	MND	01/22/2009
2008122094	<p>Heller culvert replacement and stream restoration along Palmer Creek Humboldt County Blue Lake--Humboldt</p> <p>A Special Permit for culvert replacement and stream restoration on Palmer Creek. The approximately 40 acre parcel is currently developed with a single family residence and several outbuildings. The culvert will be replaced to widen and pave the existing driveway. The proposed replacement culvert will be 40-foot long 7-foot by 5.75 foot corrugated steel pipe arch culvert. All work is proposed to occur during the dry season. Approximately 3.15 cubic yards of cut will occur and approximately 172 cubic yards of fill will be imported to the site. As a second phase to the project, within five year stream restoration will occur along approximately 2,000 linear feet of Palmer Creek. Restoration activities will include, increasing the active flood plain width, installing log and boulder cover structures and increasing the riparian corridor to at least 50 feet by planting native vegetation. This work will be done in conjunction with a Department of Fish and Game grant. Additionally, 500 feet of decking will be added to the existing residence, which is within the stream side management area. This qualifies as "minor development" under the Streamside Management Area Ordinance and no special Permit is required for this activity. No trees are proposed to be removed.</p>	MND	01/22/2009
2008122095	<p>PG&E Contra Costa-Las Positas 230 kV Transmission Line Reconductoring Project Contra Costa County Antioch, Livermore--Contra Costa, Alameda</p> <p>PG&E is proposing to replace electrical transmission wires on (e.g. reconductor) the Contra Costa-Las Positas 230 Kilovolt (kV) Line and the Contra Cost-Lone Tree 203 kV Line (Project). The project includes work at approximately 131 existing towers along the line and at approximately ten temporary pull and tension sites (pull sites) interspersed along the length of the corridor. (24 miles in total) The Project requires a discretionary action (a Participating Special Entity Agreement) on the part of the East Contra Costa County Habitat Conservancy (Lead Agency) to provide incidental take coverage pursuant to East Contra Costa County habitat Conservation Plan and natural Community Conservation Plan.</p>	MND	01/22/2009

	delivery and distribution by trucks and tractor/trailers.		
2008121108	3314 Sierra Road Malibu, City of Malibu--Los Angeles The proposed project entails the subdivision of one legal parcel into three individual parcels, at least one acre in size, via a parcel map. The application includes the demolition of all existing structures on the subject site upon final approval of the parcel map.	MND	01/27/2009
2008121109	5460 JRF 1-08, PD 5 & CUP 10, Map 77 (PP08258) Kern County Shafter--Kern The applicant is requesting a precise development plan for a 13.13-acre rest-stop/shopping center and a conditional use permit for a 169-space (29.4-acre) recreational vehicle resort. The rest-stop/shopping center will consists of approximately 64,000 square feet of general retail buildings, a gas station, several fast-food restaurants, office space, and an 85-unit hotel. The project will be developed in two phases. Phase 1 will consists of the commercial development of Parcels 1, 2 and 12 of Parcel Map 10665 as shown on the enclosed maps. Phase 2 will consists of development of the 169-space recreational vehicle resort. Development of the remaining nine parcel of Parcel Map 10665, as well as the rest of the Cameron Points Specific Plan area, will require additional environmental analysis and is not included within the scope of this document.	MND	01/27/2009
2008121110	Donati Conditional Use Permit / DRC2006-00213 San Luis Obispo County Paso Robles--San Luis Obispo Request by Donati Estate vineyard, Inc. for a Conditional Use Permit to allow a phased remodel to an existing winery (Donati Estate Vineyard) including: Phase 1 - a 5,900 square foot addition to the existing 5,146 sq. ft. barrel storage facility and a temporary tasting room (836 square feet) inside the barrel storage building. (The temporary tasting room to be used only during the remodel and upon completion of Phase 2, will be converted to additional barrel storage and case good storage); Phase 2 - an interior remodel and exterior upgrade of the existing 13,000 square foot main winery building. The remodel will result in the addition of approximately 1,400 S.F. to the main building. The proposal also includes 15 special events per year with up to 80 attendees at 6 events, 100 attendees at 5 events, and 150 attendees at 4 events.	MND	01/27/2009
2008121111	SPR-2008-50 Hesperia, City of Hesperia--San Bernardino A Site Plan Review application has be filed to construct a 17-acre new and used car and light truck sales and service dealership with a two-story, 105,385 square foot building. The 17-acre site will contain 427 automobile parking spaces; three spaces beyond the minimum 424 spaces required for the use and is accessed by two driveways from Amargosa Road and a service driveway from Topaz Avenue, which will be constructed between Amargosa Road and White Fox Trail. The project meets all other Development Code regulations, including the minimum setback, landscaping, and building design requirements.	MND	01/29/2009

2008112032	<p>Frank Parcel Map Subdivision and Special Permit Humboldt County Eureka--Humboldt</p> <p>This project involves a minor subdivision of an approx. 31,911 sf. parcel into four parcels. The subject parcel is developed with legal non-conforming residences. Upon approval of the subdivision, all of the residences will be situated on separate, legal parcels and conform to all zoning regulations and setbacks. Proposed parcel 1 will be approx. 5,683 sf. and is developed with a single-residence and an attached secondary dwelling unit currently being rebuilt due to fire damage. The rebuild is being processed under building permit #08-0838B2. Proposed parcel 2 will be approx. 9,801 sf. and is developed with a single-family residence and an attached second dwelling unit. Proposed parcel 3 will be approx. 7,562 sf. and is developed with a single-family residence. Proposed parcel 4 will be approx. 6,182 sf. and is currently vacant. Besides improvements associated with the subdivision and the rebuild mentioned above, no new development is proposed at this time. Minimal grading is anticipated and one tree, within the proposed access road right of way is proposed to be removed as a part of this project. Water and sewer services are provided by the Humboldt Community Service Dist. A special permit is required for an exception to the minimum lot size requirement per Humboldt Co. Zoning Code Sec. 341-99.1.2 for proposed parcels 1 and 4 and for the secondary dwelling unit on proposed parcel 1. The secondary unit on proposed parcel 2 is principally permitted. The applicant has also requested approval of an exception to allow for a reduced frontage for proposed parcel 1 as well as an exception to the right of way width requirement per Sec. 325-9 of the subdivision regulations.</p>	NOD

<u>Documents Received on Monday, December 29, 2008</u>			
2008128291	801 K Street Expansion Conservation, Department of Sacramento--Sacramento Adding the additional space of 6816 square feet on floors where growth has occurred. Need the space to house staff to maintain the missions of the units.	NOE	
2008128292	Draft Amendments to rule 4607 (graphic Arts) San Joaquin Valley Air Pollution Control District --Stanislaus, Tulare, San Joaquin, Merced, Madera, Kings, ... This rulemaking project is to adopt amendments to District Rule 4607 (Graphic Arts). This project seeks to limit emissions of volatile organic compounds (VOC) from offset lithographic printing and cleaning materials, and inks in letterpress printing and for offset flexible package printing by incorporating the US EPA emission standards as promulgated by the US EPA in the Control Techniques Guidelines documents for large offset lithographic printing and cleaning materials, and inks in letterpress printing and for offset flexible package printing. The adoption of the project would implement Reasonably Available Control Technology (RACT) as mandated by federal Clean Air Act for nonattainment areas.	NOE	
2008128293	New Paddle Tennis Court Ross, City of Ross--Marin On December 11, 2008, the Ross Town Council approved an amendment to an existing use permit allowing a recreational club to permit the addition of a third paddle tennis court proximate to two existing courts. The 60.5 foot long by 30 foot wide court will have 14 foot high fencing with steel tubing and a hexagonal wire mesh. Four 22-foot high pole mounted, downward directed Halide lights are proposed for the downhill side of the court. Design review approval was granted to allow 690 cubic yards of cut and construction of two, terraced retaining walls totaling 224 feet in length, maximum height 4 feet.	NOE	
2008128294	Create Coastal Riparian Wetland Habitat Caltrans #1 Arcata--Humboldt The California Department of Transportation (Caltrans) is proposing to purchase 18.72 acres of private property located at 1260 Giuntoli Lane in Arcata, Humboldt County (APN 507-141-042) in the City of Arcata's name to create coastal riparian wetland habitat on 2.65 acres. Caltrans will also fund the establishment of an endowment for the long-term management, maintenance, and protection of the riparian wetland creation improvements in perpetuity. Caltrans will not hold title of land ownership before, during, or after project construction.	NOE	
2008128295	Highway Pavement Rehabilitation Project Caltrans #3 --Yuba The scope of work includes: Grinding of PCC pavement and striping, Crack and joint sealing, repairs of failed areas of asphalt concrete shoulders, ramps and fog sealing of the asphalt concrete shoulders, overlay on existing ramps. 2006051020	Heritage Oaks Subdivision Project Monterey County --Monterey The proposed project consists of the subdivision of a 79.9 acre site into 32 lots (31 single-family lots and 4 apartments) and the removal of oak trees. The project is located in the inland (non-coastal) area of Monterey County.	EIR	02/13/2009
2007111108	Santa Fe Aggregates, Inc. Snelling Tailings Project Use Permit and Reclamation Plan Merced County --Merced The Applicant is proposing to develop and operate a new dredge tailings mine in northeastern Merced County (APNs 043-040-024, 043-070-033, 043-050-007, 008, 011, 041, 046, 048). The Project would remove approximately 8 million tons of tailings for a period of up to 50 years. No below-grade mining of tailings will occur. The vertical extent of removal of the dredge tailings would range from approximately 2 feet to 20 feet, depending on the thickness of the deposit. The annual production is expected to range from 100,000 to 435,000 tons, with sales expected to range between 100,000 to 400,000 tons per year.	EIR	02/13/2009
2008041158	Linden Avenue and Casitas Pass Road interchanges Caltrans #5 --Santa Barbara Caltrans proposes to reconstruct and reconfigure two interchanges at Route 101 and extend Via Real from Bailard to Linden Avenue in the City of Carpinteria.	EIR	02/13/2009
2006112002	Angels Camp 2020 General Plan Angels Camp, City of Angels Camp--Calaveras The Angels Camp 2020 General Plan is a comprehensive update of the Angels Camp 1995 General Plan to govern land use development through year 2020 including the following elements: Land Use, Housing (previously adopted), Circulation (Transportation), Conservation & Open Space, Noise, Health & Safety, Public Facilities & Services, Cultural Resources, Air Quality, Economics, Community Identity and Parks & Recreation. The current city limits encompasses 2,270 plus or minus acres on 2,331 plus or minus parcels. A revised Primary Sphere of Influence is included in the 2020 General Plan.	FIN	
2007081071	VEN/SB 101 HOV Project Caltrans #7 --Santa Barbara, Ventura NOTE: Joint Document consists of MND and EA The State of California Department of Transportation is proposing to construct a High Occupancy Vehicle Lane in each direction of the U.S. 101 within the existing median between the Mobil Pier Undercrossing (PM 39.8) in Ventura County and Casitas Pass Road (PM 2.2) in Santa Barbara County. Proposed project features include: Intelligent Transportation Systems, improvement of median barriers and closure of median openings. The length of the proposed project is six miles and would provide six lanes, three northbound lanes and three southbound lanes through the communities of Mussel Shoals, La Conchita, and Rincon in Ventura County and the City of Carpinteria in Santa Barbara County. 2008121120	<p>South Lake Park Master Plan San Marcos, City of San Marcos--San Diego</p> <p>The project proposes the implementation of the South Lake Park Master Plan (project). The project proposes development of a recreational park around South Lake. South Lake is fed solely by storm water runoff and is owned and maintained by Vallecitos Water District (VWD). The estimated 53-acres park would be comprised of three parcels: two parcels (36.92-acres and 7.61-acre) owned by VWD, and an 8.77-acre parcel recently acquired by the City. The City has entered into a 50-year lease agreement with VWD for the two non-City-owned parcels. The project proposes a boat dock with non-motorized boat rentals, picnic areas, natural viewing areas, an outdoor amphitheater, pedestrian trails, a dog run, and three self-contained restrooms. Non-motorized boat rentals (e.g. kayaks and row-boats) would be permitted on the lake, and the lake would also be used for recreational fishing. Fishing stocking to maintain the recreation fishing will occur, as needed. The project also includes a structure that will have a caretaker apartment over full-service public restrooms. The project includes 107 parking spaces. The project would also replace the at-grade dam spillway with an underground box culvert.</p>	MND	01/28/2009

2008128304	Removal Action Workplan, Proposed South Region Elementary School #5, Site 2 Toxic Substances Control, Department of Huntington Park--Los Angeles Approval of a Removal Action Workplan (RAW) by the Department of Toxic Substances Control (DTSC) pursuant to Health & Safety Code, chapter 6.8 as submitted on September 29, 2008 by Converse Consultants. The RAW focuses on excavation and removal to mitigate soils impacted with excessive levels of lead and organo-chlorine pesticides (OCPs), mainly chlordane, lindane, 4,4"-DDD, 4,4'-DDE, 4,4'_DDT, dieldrin, heptachlor, and heptachlor expoxide onsite. The purpose of the project is to mitigate impacted soils that exceed the project-specific human health and environmental risk criteria to minimize human exposure to the identified chemicals of concern (COCs).	NOE	
2008128305	Toner Water Well/Residence Pads/Shade Structures/Fence Parks and Recreation, Department of --San Diego The toner development project for Ocotillo Wells is to provide for an OHV training track with comfort/training facility. Also, construction of seven residence pads and the installation of split rail fence to protect certain areas in the toner compound will occur. This will include the drilling of a new water well and construction of a treatment and distribution plant. Electricity will be distributed from the existing power line and septic systems will be installed.	NOE	
2008128306	Ocotillo Wells District Discovery Center Parks and Recreation, Department of --San Diego The project is to install and set up a Discovery Center near the entrance to Ocotillo Wells SVRA. The project includes the placement of a 30 x 60 foot modular building, and installation and connection of utilities to the building. The facility will serve as an information and education center to the public. It is located in the area of the park where it will getmaximum exposure. Interpretive programs will be held in the center. The facility will make it possible for us to meet the educational component of our park mission, and allow us to better serve the visitors requesting information.	NOE

2008128307	Tulare Cycle Park Operating Agreement Parks and Recreation, Department of Tulare--Tulare Tulare Cycle Park is a 20 acre enclosed facility in southwest Tulare located on Paige Avenue, three miles west of Highway 99. The facility includes a 1 1/4 - mile motorcross track and a 1/4 mile flat track. In addition to the main riding course, a peewee course is available for the young novice to sharpen their skills before entering the more challenging course. Facility amenities include a restroom/concession building, parking areas, and spectator viewing bleachers.	NOE	
2008128308	Office Building - Herber Dunes State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of El Centro--Imperial This project will install an approximately 24 feet by 40 feet modular office building, and the associated infrastructure including power, telephone, water, septic, and ADA standard ramp and stairway. The building will be placed upon a pad composed of compacted aggregate/base rock. Some grading to level the pad area may occur prior to building the pad.	NOE	
2008128309	Container Storage - Heber Dunes State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of El Centro--Imperial This project will install an approximately 40 feet by 8 feet metal shipping container, modified to store ATV's and supplies. This container will be placed upon a pad made of compacted base rock and sand, over a layer of gravel. These materials will be taken from on-site sources and a commercial source. No significant excavation will take place, but several yards of aggregate will be laid upon the existing substrate to build up the pad, which will be level and contiguous with the existing pad/shipping container with which it will be placed end-to-end.	NOE	
2008128310	Power Pole Placement - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will be the installation of seven power poles by the Imperial Irrigation District. The power poles will supply electricity to a new maintenance shop. Excavation will be two foot diameter holes six feet deep for each pole.	NOE	
2008128311	Tamarisk Removal Washes - Ocotillo Wells State Vehicular Recreation Area (SVRA) Parks and Recreation, Department of --San Diego This project will permanently remove all tamarisk plants in the washes of Ocotillo Wells SVRA. Tamarisk is to be killed; either by pulling, foliar spraying, basal bark treatment or cutting at ground level and/or stump treating with herbicide. All cut or pulled tamarisk will be left on the project site. Wherever there is standing or running water, and along an existing wash or trail, slash will be hand carried a short distance (up to 30 feet) to adjacent higher ground. Treated stumps will be cut at ground level and left in place.	NOE

2007042045	1634-1690 Pine Street, San Francisco Planning Department Case NO. 2004-0764E San Francisco, City and County of San Francisco--San Francisco The proposed project would demolish two two-story and two one-story unreinforced masonry buildings, a one-story concrete building, and a surface parking lot; and construct a residential building with two towers, which would contain approximately 283 residential units, 6,380 square feet of ground floor commercial space, and about 317 parking spaces. The total size of the building would be approximately 377, 815 square feet. The west tower would be 24 stories and approximately 240 feet in height; and the east tower would be 15 stories and approximately 155 feet tall. There would be 140 one-bedroom units and 143 two-bedroom units. The five levels of basement parking would include two off-street loading spaces, two car-share spaces, 283 independently accessible residential parking spaces and 32 commercial valet-assisted parking spaces. The existing buildings on the project site are considered contributory buildings to a potential historic district.	EIR	02/13/2009
2008041053	La Brea Gateway Los Angeles, City of Los Angeles, City of--Los Angeles General Plan Amendment (from Limited Manufacturing to Neighborhood Commercial), Zone Change (from MR1-1 to RAS4-1), Tentative Map, and Site Plan Review to permit the construction and operation of a mixed-use development consisting of 219 apartment units and approximately 35,000 square feet of retail space, along with 542 code-required parking spaces on six parcels totaling 2.27 acres of land. The project site is currently developed with approximately 56,673 square feet of studio-related industrial uses.	FIN	
2008121124	Alternative High School Site Moreno Valley Unified School District Moreno Valley--Riverside Development and operation of an Alternative High School, serving a maximum of 300 students (grades 9-12) on a 5.1-acre site. The proposed High School would involve development of up to 20,429 sq. ft. of building and other related educational facilities. The proposed development will also require acquisition of 3 parcels. 	conjunction with an existing, single-story, 5,189 sq. ft. automobile fueling station, convenience mart, and quick-service food vendor, with 13 on-site parking spaces; operating daily for 24 hours per day; on a 23,293 sq. ft. site, within the C2-1 Zone.		
2008121127	ENV-2008-3519-MND Los Angeles, City of Los Angeles, City of--Los Angeles Conditional Use to permit the continues use and maintenance of 2 existing, unpermitted canopies on an existing, deemed-to-be-approved auto body repair shop located within 300-ft. of existing single-family residential uses; Zone Variance to allow provision of 4 on-site parking spaces in lieu of the required 8, in conjunction with an existing, single-story approx. 1,375 sq. ft. auto repair shop with 2 existing canopies on-site, operating from 9:0 am to 5:00 pm Monday through Friday, and 9:00 am to 1:00 pm, Saturday, with 4-on site parking spaces, on 12,197.2 sq. ft. site, within the [Q]C2-1XL Zone.	MND	01/29/2009
2008121128	Destino Paso Reprt - Handley Paso Robles, City of Paso Robles--San Luis Obispo Request to construct a resort project consisting of 291 hotel and casitas rooms. The project would include accessory uses such as restaurant spa, conference center, trails, pools, parking lots and other accessory uses. Tentative Tract 2962 has been applied for that would subdivide the two existing parcels totaling approximately 40.33 acres, into 9 parcels. Additionally, there is a request to process a condo map that would further subdivide the 175 casitas units into condominium units, in a manner that would be similar to a time-share unit that would have a limit of stay to no longer than 30 days and be consistent with the requirements of transient lodging. The project is located in northeast Paso Robles, along the east side of Airport Road, just north of the intersection of Airport Road and Highway 46 East.	MND	01/29/2009
2008121129	Vandenberg AFB Site 23 (Landfills) Focused Feasibility Study Toxic Substances Control, Department of --Santa Barbara Approval of a Focused Feasibility Study (FSS) plan to excavated and dispose of approximately 213 cubic yards of soil and sediment from three hot spot sub-areas of site 23 (Landfill No. 5) at Vandenberg Air Force Base. Site 23 comprises approximately 30 acres.	MND	01/29/2009
2008042067	Loma Rica Specific Plan Grass Valley, City of Grass Valley--Nevada The proposed project (project) to be analyzed for environmental effects includes: A Specific Plan for a mixed-use development over +/- 452 acres. The applications include: 1) an Annexation of 455 acres of land to the City of Grass Valley; 2) a General Plan Amendment; 3) Rezoning; and 4) a Specific Plan. The project proposes 700-residential dwelling units; 286,000-sf of retail, office and commercial uses; 160,000-sf of light industrial and business park uses; 120,000 sf of residential/office mixed-use; and +304 acres of parkland, open space, organic farm land, and trails connecting the various areas. 2008092107	Arden Village Sacramento, City of Sacramento--Sacramento The proposed project is located southeast of the Capitol City Freeway (Business 80) and is accessible from Sacramento Inn Way and Royale Road. The Red Lion Hotel currently occupies the site. The project applicant requests a Tentative Map for the entire 20-acre site to subdivide the existing parcel into five parcels. The area proposed for development totals approximately 10 acres on three of the proposed parcels. Six of the existing buildings in the Red Lion Inn complex would be demolished. Proposed is the development of two new buildings (total approximately 123,000 sf). One three-story structure would contain approximately 56,000 sf of office area and an approximately 10,000 sf restaurant. The second building would be a single story structure and contain approximately 14,550 sf of commercial retail, an approximately 25,575 sf bowling alley, and an approximately 16,525 sf fitness center. The project would result in approximately 72,625 new net sf of developed area. In addition, the project would include approximately 534 new parking spaces for the proposed new uses.	NOP	01/29/2009
2008122111	Napa Pipe Project Napa County Napa--Napa The basic concept for the Project is to build a high-density residential neighborhood on the northern two-thirds of the site, including neighborhood-serving retail and public open space.	NOP	01/29/2009
2008121123	Application No. 08-17, Cleantech America Site Plan Review Mendota, City of Mendota--Fresno The project proposes construction of a 5-megawatt photovoltaic electrical generation facility on property owned by the City. To facilitate this, the City will create a 50-acre parcel from the existing 164.80-acre parcel and enter into an initial 40-year lease agreement with the applicant. The facility will provide 5 megawatts of emission-free, peaking photovoltaic solar electricity to the Central Valley under a long term power purchase agreement with PG&E.	Neg	01/29/2009
2008121125	Robert Louis Stevenson School Monterey County Monterey--Monterey General Development Plan to allow the addition of 4,343 square feet to the existing Douglass Hall Administration Building; add 7,948 square feet to the existing Casco Dormitory; relocate the main entry, and parking areas for Douglass Hall and Casco Dormitory; install 4 temporary modular units to be utilized as offices and 42 temporary parking spaces for administration staff, residents and students during construction; allow the proposed additions to an existing historic structure (Douglass hall); a Coastal development Permit to allow the removal of 23 Monterey pines ranging in size from 6 to 24 inches in diameter, three Coast Live Oaks and four non native planted trees 2 Redwoods and one Monterey Cypress ranging in size from 12 to 23 inches; and grading of 2,200 cubic yards (1,900 cubic yards of cut and 300 cubic yards of fill). 2008122110	Housing Element Update of General Plan Colfax, City of -- The proposed project consists of the adoption of the City of Colfax Housing Element Update as part of the comprehensive General Plan. The Housing Element Update for the City of Colfax sets forth the City's five-year strategy to preserve and enhance the community's character, expand housing opportunities for all economic segments, and provide guidance and direction for local government decision-making in all matters related to housing.	Neg	01/29/2009
2003121160	Chevron Estero Marine Terminal Source Removal Project San Luis Obispo County Morro Bay--San Luis Obispo The California Dept. of Fish & Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish & Game Code to the Project applicant, Mr. John Westenberger. The applicant proposes to excavate ~32,200 cubic yards of soil and water containing petroleum hydrocarbons from 3 sites on the Estero Marine Terminal. Two of the three sites are outside of the Department of Fish & Game's jurisdiction. At the third site, willow trees immediately adjacent to Toro Creek would be trimmed for access and sheet pile would be driven ~8 ft deep into the ground to prevent bank collapse. Soil would be excavated and transported for disposal or treatment at an approved off-site facility, while contaminated groundwater would be treated and disposed of treatment water through an existing wastewater outfall system at the site. The excavated site would be backfilled using 3 inch crushed concrete rubble below groundwater level and compacted soil on top of the concrete rubble. The sheet pile would then be removed from the ground and the site approved the Project described above on November 18, 2008, and has made the following dterminations regarding the above described Project.	NOD	
2005101140	State Route 76 Melrose to South Mission Highway Improvements Caltrans #11 Oceanside--San Diego The project proposes to widen and realign SR 76 in an unincorporated area of northern San Diego County, from Melrose Drive to South Mission Road in the communities of Oceanside and Bonsall [KP 11.7/21.1 (PM 7.3/1.1)]. The 9.4 kilometer (5.8 mile) project proposes a four-lane conventional highway with right of way and grading for a possible future widening, if justified. Currently, SR-76 is a two-lane highway that is frequently over capacity and subject to traffic congestion and travel delays.	NOD	
2008071086	Minor Modification No. MM07-008 to Conditional Use Permit No. CUP04-002 - Garcia Brothers Trucking Merced County --Merced The project proposes to expand an existing agricultural trucking business by storing an additional 20 vehicles (not road use registered) used as support vehicles for crop harvesting, construction of a 4,000 sf storage building, planting drought-tolerant landscaping, and providing an all-weather permeable driveway access. The project site is located southeast of the unincorporated community of Planada, on the north side of Gerard Avenue, 650 ft west of its intersection with Ivett Road. It is designated as Agricultural in the General Plan and Zoned A-1 (General Agricultural) and 10 acres in size.	NOD

2008128313	Hopper Creek Road Maintenance Fish & Game #5 --Ventura The Applicant intends to alter the streambed by conducting routine maintenance at their Hopper Creek facility. The access road at the facility crosses Hooper Creek at 13 existing Arizona crossing locations. These crossings need to be periodically maintained to remove boulders, sediment and debris that wash downstream in storm events. A bobcat/backhoe will be used to clear the crossing areas of these mentioned materials. Some minor amounts of vegetation may be removed in the process, but no large mature trees will be removed during these activities. Some on-site native material is used in re-establishing the grade and perimeter of the crossings. The crossings are maintained on average 1-2 times on a normal rain year.	NOE	
2008128314	Lodge Camp Concession Area Fencing - Hollister Hills State Vehicular Recreation Parks and Recreation, Department of Hollister--San Benito This project near the concession building will remove the concrete and brick foundation and slab, replace and move the fencing along the creek, replace the guardrail by the patio with fencing, install a boot wash station, and remove the bench around the base of the oak tree.	NOE	
2008128315	Percolation and Mantle Testing/Geotechnical Boring Parks and Recreation, Department of Hollister--San Benito A part of this project consists of percolation and mantle testing at several sites. Aging infrastructure and increased visitor use are taking their toll on the existing facilities. The percolation test holes will be outside the drip zone of all established trees and will not impact any vegetation. Installation of a 100,000 gallon storage tank will also be a part of this project. The tank will be 36' diameter and 16' high and will involve a concrete foundation. Additional water storage is needed as current dust abatement measures tend to leave park residences without water. The other main component of this project involves geotechnical boring to determine soil stability for potential infrastructure foundations. These holes will also be out of the drip zone of established trees and be backfilled when testing is completed. A new portable water well will be installed to serve the increasing needs of water at the park. The well will be ~400' deep and have greater yields which will add to the existing wells in the park.	NOE
