STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**December 16 – 31, 2012**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16 – 31, 2012**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

<b><u>Documents Received on Monday, December 17, 2012</u></b>			
2012-08	<p>Agua Caliente Band of Cahuilla Indians - APNs: 684-040-005, 006 Bureau of Indian Affairs --Riverside</p> <p>The subject property consists of two parcels of land, encompassing ~10.00 acres more or less, commonly referred to as the "Service/Delgado" property and Assessor's Parcel Numbers: 686-040-005, 006. The parcels are located within the boundaries of the Agua Caliente Indian Reservation and are completely surrounded by Tribal Trust and Allotted property. Currently, there is no specific use for the subject properties at this time; however the Tribe is actively managing land which contains cultural and natural resources unique to the Tribe and within its Reservation.</p>	<b>BIA</b>	01/16/2013
2012031079	<p>FRV Orion Solar Project by FRV Orion Solar LP (PP12232); GPA 2/CUP 6, Map 162; WALUC Cancellation 11-9; LLA 36-11. EIR 12-11 JLB Kern County Bakersfield, Arvin, Lamont--Kern</p> <p>The FRV Orion Solar Project proposes to construct and operate a 20 megawatt (MW) solar photovoltaic (PV) power generating facility with over 102,200 PV solar panels, on a 165-acre portion of 265 acres in unincorporated Kern County, CA. The entire project site is within the jurisdictional boundaries of the Kern County General Plan and under a Williamson Act Land Use contract. Implementation of the project would require approval of a CUP (CUP No. 6, Map 162), General Plan Amendment (GPA No. 2, Map 162) to amend the Circulation Element of the Kern County General Plan, and Lot Line Adjustment (LLA No. 36-11) to reconfigure the parcel boundaries to exclude a portion of the property that is not a part of the proposed project, as well as Williamson Act Land Use Contract cancellation 11-9 for the entire 265-acre parcel. The GPA request is to remove road reservation along a midsection line in Section 17, T32S, R29E, MDB&amp;M. The site would connect to the adjacent Pacific Gas &amp; Electric 70-kilovolt Weedpatch-San Bernard transmission line.</p>	<b>EIR</b>	01/31/2013
2012041088	<p>Meritage Senior Living Buellton, City of Buellton--Santa Barbara</p> <p>The two existing parcels, will be split into six parcels. Parcels one and two will remain vacant and are 2.79 acres each. Parcels three, four, five, and six are planned as a new senior care facility. The senior care facility includes a skilled nursing facility with 24 units, a memory building with 40 units, 91 assisted living units, and 92 independent living units. Also included on the site are a dining hall, commercial kitchen, a community center, a swimming pool, and an outdoor activity area. The facility will be staffed 24 hours per day, seven days per week. Staff will include positions in the</p>	<b>EIR</b>	01/30/2013
2009092053	<p>Highway 101 Greenbrae/Twin Cities Corridor Improvement Project Caltrans #4 Larkspur, Corte Madera--Marin</p> <p>The Highway 101 Greenbrae/Twin Cities Corridor Improvement Project (project) will include the modification, realignment, addition, and/or removal of US 101 on-and-off-ramps; the construction of auxiliary lanes and collector-distributor</p>	<b>MND</b>	01/15/2013

	roadways; as well as the construction of new transit, bicycle and pedestrian facilities. In addition, the project will include the upgrading of traffic signals at several local roadway intersections. Implementation of the project will improve many of the designs and operational deficiencies in the Greenbrae/Twin Cities Corridor.		
2012121038	Recognize and Allow the Use of Six Existing Target Ranges (Archery/Rifle) on a 299.55-acre of Land Fresno County --Fresno Recognize and allow the use of six existing target ranges (archery/rifle) on a 299.55-acre of land in the R-E (m) (Recreational, Mountain Overlay) and RC-40 (Resources Conservation, 40-acre minimum parcel size) Zone Districts. The project site is approximately 12 miles northeast of the entrance station to Kings Canyon National Park at SR 180 (Kings Canyon Road) (64144 Hume Lake Road) (SUP. DIST.: 5) (APN: 165-230-31; 165-220-41).	<b>MND</b>	01/15/2013
2012121040	ENV-2011-2158 MND Los Angeles, City of --Los Angeles The Project consists of 17 parcels totaling 2.71 acres (approximately 118,049.5 square feet). Existing uses include the Panavision building, the Musician's Institute trade school building, a vacant lot, and surface parking lots. The Project would include the construction of two mixed-use commercial and residential buildings, collectively consisting of approximately 249,722 square feet of new developed floor area (12,785 square feet of retail and 236,937 square feet consisting of 248 dwelling units).	<b>MND</b>	01/15/2013
2012121041	260 California Avenue Palo Alto, City of Palo Alto--Santa Clara The project includes demolition of the existing building on the site and construction of a new three-story building having approximately 27,000 s.f. gross floor area on a 13,509 s.f. project site. The "project site" is currently two parcels that are proposed to be merged into one through a lot line adjustment. Office and ground floor retail uses are proposed within the new building.	<b>MND</b>	01/15/2013
2012121043	7-Eleven (Valley Boulevard) Los Angeles, City of --Los Angeles The proposed project is the construction of a mini retail commercial shopping center consisting of a 5,022 sf retail building, a gas service station, accessory parking and landscaping on a 40,291 gsf site. The project includes conditional use requests to: 1) operate a retail/convenience store 24-hours per day in lieu of the 7:00 am to 11:00 pm restriction, 2) to allow public parking in the residential zoned portion of the site, and 3) a request to allow a gas service station to operate 24-hours per day in lieu of 7:00 am to 7:00 pm. Monday through Friday and 8:00 am to 5:00 pm Saturday and Sunday. The project involves the removal of dirt and asphalt pavement on the 40,291 sf site.	<b>MND</b>	01/16/2013

<b><u>Documents Received on Monday, December 17, 2012</u></b>			
2012121049	ENV-2008-1295-MND-REC1 Los Angeles, City of Los Angeles, City of, Brentwood--Los Angeles Note: Review per lead & Reference SCH# 1997071064  An Approval of Plans to allow the sale and dispensing of a full line of alcoholic beverages for on-site consumption, as previously approved for existing Skirball Cultural Center in 1995 pursuant to Case No. CPC-95-0089-CUB and Council File No. 95-1823, to be extended to 11,605 sf and 1,605 sf of patio area within a new addition to the center approved in 2009 pursuant to Case No. CPC-2008-2000-PAD-ZAD, which is currently under construction on the site. The project does not propose to change any of the previously approved operating conditions, or any additional floor area or new construction that would exceed what was previously approved in 2009. The project site is located in the RE40-1-H and PF-1XL Zones.	<b>MND</b>	01/22/2013
2012122031	NP1 Logging Special permit for Tree Removal in a Residential Zone Humboldt County Eureka--Humboldt The proposed project is a Special Permit for commercial timber operation in a residential zone and to conduct road construction activities within a streamside management area. Approximately 150,000 board feet will be removed from an approximately 3.36 acre area. This will result in approximately 35 truckloads of logs. The proposed logging operations will cross a Class 2 watercourse and will remove trees adjacent to a Class 3 watercourse. Neither water course has surface water that is hydrologically connected to Washington Gulch. The proposed haul route for the trucks will use McMahan Road to Lindholm Lane to Graham Road to Old Arcata Road to the Bayside Cutoff to Highway 101. No more than (5) commercial logging vehicle trips will occur in a day. The proposed timber operations will last for up to two continuous weeks and will be conducted between 8 am and 6 pm Monday through Friday. There is an osprey nest approximately 680 feet west of the proposed harvest area.	<b>MND</b>	01/15/2013
1996092081	Britannia Cove at Oyster Point South San Francisco, City of Brisbane--San Mateo The proposed project consists of the phased buildout of nine buildings including 884,344 sf of R&D/Office use; a hotel with up to 200 rooms and a restaurant; 20,000 sf of retail space; and a parking structure. Total business/commercial development on the site would total ~1,030,344 sf. The project would also include an amendment to the Bay West Cove Specific Plan, an amendment to the Bay West cove Specific Plan District Zoning, a Parcel Map, adoption of Design Guidelines, a Transportation Demand Management Plan, a Sign Application approval, and a development agreement.	<b>NOP</b>	01/15/2013
2012111068	The Malibu Institute - Project No. TR071735 Los Angeles County Malibu--Los Angeles Note: Recirculated  The Malibu Institute (applicant) proposes to create a sports-oriented educational retreat to complement a remodeled 18-hole golf course on a 650 acre property currently operated as the Malibu Golf Club in the unincorporated Malibu area of	<b>NOP</b>	01/16/2013

	Los Angeles County. The Project would provide for the development of educational and meeting facilities (48,164 sf), along with visitor-serving overnight accommodations consisting of 40 bungalow structures (109,140 sf), a clubhouse (30,147 sf) golf pro shop and grill (12,104 sf), and support facilities including a maintenance building, warehouse, a golf cart storage barn, and a security/information building, all located within the previously disturbed area of the Malibu Golf Club.		
2012121039	Messina Vineyard / Project No. R2012-00691-(3) / CUP No. 201200051 Los Angeles County Agoura Hills--Los Angeles The applicants are requesting a CUP to operate a private vineyard on their residential property, which is located on an R-1-2 Zone in the unincorporated Santa Monica Mountains North Area. The subject parcel is approximately 1.56 acres and is developed with a single-family residence. The project site is comprised of two parcels and is located on Wagon Road, which is a private street in the Medea Valley Estates.	<b>Neg</b>	01/15/2013
2006061042	MCWD Tanks Improvements Project Marina Coast Water District Marina, Seaside--Monterey The proposed project consists of demolition of the existing "D" Zone reservoir, "E" Zone Tank Pump Station, and construction of a new 2.0 Million-Gallon Welded Steel "D" Zone Reservoir.	<b>NOD</b>	
2006101009	San Joaquin River Parkway and Conservation Trust (IS 5551 and CUP 3164) Fresno County Fresno--Fresno The Project calls for a development of a 3-story, 120 unit affordable housing project, consisting of five apartment buildings, each containing two floors of apartments over common garages; on-site visitor parking; a combined community building and lease office; tot lot; common open space areas; and landscaped paseos between the residential buildings. The Design Development Review (DDR) permit also includes street improvements from North Oxnard Boulevard to the site, and four minor deviations from the VSP requirements for the railroad sound wall. The minor deviations are less than 15% of the numerical development standards and are in keeping with the spirit and intent of the VSP. With approval of four minor deviations, the Project conforms to all standards and regulations of the VSP.	<b>NOD</b>	
2008061109	Elysian Reservoir Water Quality Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles To help ensure the quality, reliability, and stability of the City of Los Angeles drinking water supply and to ensure compliance with updated United States Environmental Protection Agency (EPA) water quality standards, the City of Los Angeles Department of Water and Power proposes to install and approximately 325,00 square foot flexible membrane floating cover over the entire water surface and anchored to the edge of the reservoir basin above the top of water elevation (the floating cover alternative evaluated in the Environmental Impact Report.) The cover would be a minimum of 45-mil thick and a maximum of 60-mil thick polypropylene of hypalon material. Although the reservoir liner and appurtenant facilities would be removed and replaced, the reservoir would retain essentially its existing shape and volume (approximately 55 MG). In addition, a new 54-inch	<b>NOD</b>

	diameter underground inlet line connecting the reservoir to the existing Riverside Trunk Line would also be constructed to replace the existing nearly 67-year old 36-inch diameter inlet line.		
2008111034	Well No. 32 Replacement Project/Eastern Distribution System Project Marina Coast Water District Marina--Monterey The proposed project consists of the construction of a new water supply well (Well 34) to replace an existing inoperative well (Well 32). The pumped from Well 34 will be treated at the well head before being distributed to the East Garrison development and other existing and planned developments in the Fort Ord community.	<b>NOD</b>	
2010092047	Upper and Lower Sand Creek Basin Expansion Project Contra Costa County Martinez--Contra Costa The project will expand an existing 49-acre flood control basin to approximately 61.5 acres by basin floor and building a dam to create a deeper basin. The basin will be a normally dry reservoir (except for low-flows) that will attenuate peak runoff by containing storm water flows up to the 100-year expansion footprint; this area will be graded and realigned with a meandering form. Following construction, the stream will be restored with native wetland and riparian plantings.	<b>NOD</b>	
2010122082	Bei-Scott at 41st and Soquel Santa Cruz County Capitola--Santa Cruz Request to City of Santa Cruz for water service at 3939 Soquel Drive (APN 030-061-04).	<b>NOD</b>	
2011031082	Watkins Gate Well and Pipeline Project Marina Coast Water District Marina--Monterey The California Department of Public Health (Department), as the Responsible Agency, will be issuing a water supply permit to operate. The proposed project is to construct a water supply well to provide to Marina Coast Water District's (MCWD) existing water supply distribution system; a well house to enclose the well; an electrical building to enclose motor controls, mechanical and electrical appurtenances; a backup emergency power generator; and an associated distribution pipeline. The well would connect to an existing 24-inch water line connection with the installation of 2,500 feet of a new water conveyance pipeline to be located within the paved roadway of Watkins Gate Road in the East Garrison area of MCWD's Ord community service area. A test well will be installed and monitored prior to the construction of the well. If the test well is determined operational, the well will be made a permanent monitoring well.	<b>NOD</b>	
2011071018	"Dawson Road Contractor's Storage Yard" Plot Plan No. 2010-049, Tentative Parcel Map No. 2010-050 and Environmental Assessment Menifee, City of Menifee--Riverside Plot Plan No. 2010-049 proposes a contractor's storage yard within 5.01 gross acres. The contractor's storage yard is existing; however, the site is only used for storage at this time and no buildings are within the site. The contractor's storage yard is proposed to be constructed in phases. The proposed Phase 1 improvements consist of the following: Dawson Road Frontage Improvements; Off-site Dawson Road Improvements to Ethanac; Perimeter Landscaping; New	<b>NOD</b>

	Fencing in the Front of the Property; Off-site Utility Connections; Concrete driveways extending 20 feet into the property. Phase 2 will consist of the following: Construction of a 15,000 s.f. building in proposed Parcel 1 which including 5,000 s.f. of office and 10,000 s.f. of shop building; Construction of a 6,000 s.f. office building in proposed Parcel 2; Construction of a 10,000 s.f. shop building in proposed Parcel 2; Parking. Tentative Parcel Map No. 2010-050 proposes a Schedule E subdivision of 5.01 gross acres into two 2.35 acre parcels.		
2012091063	Held Harbor Center Conditional Use Permit UPO-342 Morro Bay, City of Morro Bay--San Luis Obispo The Held Family Trust (applicant) proposes modifications and additions to an existing structure, which includes a proposal to 1) increase an existing 6,210-square foot (sf) land lease by 93 sf, resulting in a total land lease area of 6,303 sf and 2) increase an existing 4,502 sf water lease by 4,310 sf, resulting in a total water lease area of 8,812 sf. The project site is located on City lease sites #93-95 and 93Wand95W, within the Waterfront/Harbor zone, Planned Development overlay (APN # 066-322-001).	<b>NOD</b>	
2012091064	Development Code Amendment 2012-023 - Special Events Big Bear Lake, City of Big Bear Lake--San Bernardino To modify special event approval procedures and special event performance standards with the intent to balance the benefits of special events with economic impacts caused by them.	<b>NOD</b>	
2012092012	San Marco Development Plan Amendment Pittsburg, City of Pittsburg--Contra Costa On April 3, 1990, the Pittsburg City Council adopted Ordinance 90-990, thereby adopting a Negative Declaration and authorizing execution of the Southwest Development Agreement (DA). The Southwest DA allowed construction of 2,938 residential units on 639 acres within the Southwest Hills area of the City of Pittsburg. The project was eventually named the "San Marco Development," and more specifically included a combination of 1,412 single-family houses and 1,526 multifamily units. The development was separated into 14 "villages" with different densities and types of housing specified for each village.	<b>NOD</b>	
2012092030	Hoover Elementary School IS/MND Burlingame, City of Burlingame--San Mateo The reopening of the Hoover Elementary School with a 250-student capacity, which also includes renovating existing improvements, demolishing the Annex Building; constructing a new 3-story, 14,160-square foot classroom building, Drop-off and Pick-up Area, and playground areas.	<b>NOD</b>	
2012101057	Campbell Ranches Cooler Lompoc, City of Lompoc--Santa Barbara Construction of a cooling facility, which would be used to store and distribute produce and administrative offices. The project will be developed in four (4) phases. The project site includes APN's 93-450-58, -59, -63, and -64, which are currently vacant.	<b>NOD</b>

2012102006	<p>Stony Point Rock Quarry (Cotati) Sonoma County Cotati--Sonoma</p> <p>Request for a revised Reclamation Plan and 20 year surface mining Use Permit including a 14 acre expansion (for a total area of 87.8 acres) and Zone Change to MR (Mineral Resources Combining District), and allowance to excavate the existing pit (now at 120 feet above mean sea level (MSL)) to a final quarry floor 80 feet MSL. The proposal includes the relocation of the operations plant to be positioned approximately 500 feet south of the existing plant. Requested operation levels are as follows: a maximum 480,000 tons of mining; 100,000 tons/yr of imported recycled materials; and 20,000 tons/yr of other imported materials for a total of 600,000 tons of annual sales. The project does not result in any changes to the quarry's vested production rights.</p>	<b>NOD</b>	
2012102037	<p>Shasta River Riparian Protection &amp; Enhancement Project Shasta Valley Resource Conservation District Montague--Siskiyou</p> <p>This project consists of activities designed to protect and enhance riparian vegetation at six separate ranches. Project actions are designed to directly improve riparian vegetation along the Shasta River thereby increasing shade and bank stability which results in decreased sedimentation and decreased water temperatures. The components of this project are designed to improve water quality by increasing vegetation, thereby decreasing water temperatures and increasing dissolved oxygen (DO) in the Shasta River, an anadromous fishery, and known spawning and rearing habitat for the federally threatened coho salmon. The project addresses numerous regional and regulatory priorities and provides benefits to water quality, and improvements to aquatic and riparian habitat along the Shasta River and its tributaries. The Shasta Valley Resource Conservation District (RCD) has received a Clean Water Act 319h-Nonpoint Source Implementation grant (Agreement # 11-099-551) from the State Water Resources Control Board, for planning and implementation of the proposed project.</p>	<b>NOD</b>	
2012129003	<p>Lake or Streambed Alteration Agreement No. 1600-2012-0068-R1 for Timber Harvesting Plan (THP) 1-12-025 HUM Fish &amp; Game #1E --Humboldt</p> <p>The Department of Fish and Game (DFG) is issuing an agreement to install permanent culverts, excavate fill crossings, and install a rocket ford.</p>	<b>NOD</b>

Modification include, but are not limited to individual camp sites, the group camp, parking and outdoor access routes. Further specifics detailing the work included as well as measures to avoid and/or minimize impacts may be obtained through the contact information below.	<b>NOE</b>	
2012128210	Issuance of Streambed Alteration Agreement No. 1600-2012-0229-R1, Vannatta Water Diversion Fish & Game #1 --Mendocino The project involves two encroachment activities and is limited to: 1) diversion of channel surface waters from existing infrastructure located within an unnamed tributary to Cherry Creek to fill a small off-channel pond (0.2 acre-feet) and 2) diversion of water from a developed headwater spring for direct use and to storage (water tank and pond). No other equipment use or grading is required within the bed, bank or channel of the stream and no riparian vegetation has been proposed to be disturbed or removed.	<b>NOE</b>	
2012128211	Text Amendments to the Coastal Zoning Ordinance (CZO) Case No. ZN12-0002 Ventura County --Ventura Text Amendments to the Coastal Zoning Ordinance to update regulations for clarity, accuracy, and consistency with current law. Most of the text amendments are clarifications to correct errors and explain regulatory intent; they do not change any existing policies and are simply meant to codify regulatory procedures as they are implemented today.	<b>NOE</b>	
2012128212	LED Retrofit of Exterior Lighting Santa Barbara Community College District --Santa Barbara The proposed project will involve retrofit of the existing High-Intensity Discharge (HID) and Fluorescent lighting fixtures to Light-Emitting Diode (LED) lighting technology, including interior and exterior lighting fixtures. Parking lot fixture replacement will be considered and undertaken as considered feasible. Approximately 2000 fixtures may be subject to retrofit, resulting in between 50 and 85 percent energy savings over existing demand.	<b>NOE</b>	
2012128213	Conditional Use Permit No. 2174 El Cajon, City of El Cajon--San Diego The conditional use permit approves an accessory structure greater than 800 square feet in the RM-6000 zone. The accessory structure is approved as a garage for automobile and personal storage for the single family residence on the property.	<b>NOE</b>

2012128214	Zone Reclassification No. 2308 El Cajon, City of El Cajon--San Diego Rezone property from the M zone to the C-M zone, consistent with the General Plan.	<b>NOE</b>	
2012128215	Written Consent Allowing Minor Renovations and Installation of a Temporary Structure at the Riverside-Corona Resource Conservation District's Riverside-Corona Resource Conservation District --Riverside The California Department of Food and Agriculture currently subleases a portion of the Field Station from RCRCDD, subject to the condition of its sublease. Under section 16 of the sublease, repairs and patching of the existing storage room's roof, and the installation of handrails at the storage room's entrance ramps.	<b>NOE</b>	
2012128216	Putah South Canal Siphon Tree Removal Project Fish & Game #3 --Yolo, Napa, Solano The project is limited to the removal of 28 native riparian trees growing within 25 feet of the centerline of the canal siphons and the replanting of trees and shrubs along the northern bank of Lower Putah Creek within the Winters Putah Creek Nature Park. Tree removal will occur using chainsaws within the canal right-of-way and heavy equipment will operate from existing maintenance access roads. Issuance of a Streambed Alteration Agreement Number 1600-2012-0231-R3 pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2012128217	Jefferson and Creek Street Pipe Replacement Project Fish & Game #3 Yountville--Napa The project proponent shall excavate an approximately 12 to 18-inch wide and 30 to 42-inch deep trench through both banks of Hopper Creek to expose an existing 2-inch natural gas line for replacement. Approximately fifteen feet of the pipe is currently anchored to the Jefferson Street Bridge, which spans Hopper Creek; the pipe is corroded and will be replaced. Project activities will result in the removal of 2 trees with a diameter at breast height of less than 2 inches, and removal of approximately 10 feet or less of vegetation along the northern and southern slopes of Hopper Creek.	<b>NOE</b>	
2012128218	Gas Line 191-1 Briones Park Maintenance Project Fish & Game #3 --Contra Costa The project proponent shall excavate an approximately 29-foot long, 2-foot wide and 8-foot deep trench through the unnamed drainage to expose the existing natural gas line for replacement. Once excavation is complete, the pipe will be cut and lifted out of the trench for disposal. After installation and inspection of the new segment of pipe, the trench will be backfilled with clean fill and salvaged native vegetation shall be replanted.	<b>NOE</b>	
2012128219	Install Electric Vehicle Charging Stations Parks and Recreation, Department of --Monterey Install two electric vehicle charging stations at Asilomar State Beach and Conference Ground to provide a power source to electric vehicles and to demonstrate a commitment to environmental programs. <b><u>Documents Received on Tuesday, December 18, 2012</u></b>			
	ultimate width of 92-ft. In addition to widening the existing two-lane roadway road segments to four lanes, the project includes asphalt concrete pavement (AC) overlay in some areas, culvert extensions, and stormwater facilities. The proposed project would require AC removal and replacement along existing sections of Rancho Road that have not already been widened to four lanes.		
2012082113	New Academic Center at College of Marin, Kentfield Campus Marin Community College District --Marin The proposed New Academic Center would replace four existing older buildings on the same site as follows: Harlan Center, Business Management Center, Onley Hall and the Administration Building. The project would also remove the Taquiera restaurant on the corner of Sir Francis Drake Boulevard and College Avenue. The Austin Science Center (51,236 sf) in the vicinity of Parking Lot 6 was originally planned for removal as part of the 2007 Implementation Plan. The Science Center is now proposed to be retained and to be used for general education classrooms and related support / storage spaces and faculty and staff offices. This CEQA evaluation will address both the NAC and the retention of the Austin Science Center. However, it should be noted that the retention of the Austin Science Center is not expected to alter this estimated enrollment that was analyzed in the Program EIR. As such, the proposed NAC and retention of the Austin Science Center would have no growth-inducing impacts for the campus.	<b>EIR</b>	01/31/2013
2012054002	McCoy Solar Energy Project Bureau of Land Management Riverside, Blythe--Riverside FYI Final  McCoy Solar LLC, a subsidiary of NextEra Energy Resources LLC (Applicant), proposes to construct, operate, maintain, and decommission an up-to-750 megawatt (MW) photovoltaic (PV) solar energy generating facility and related infrastructure in unincorporated Riverside County, CA, to be known as the McCoy Solar Energy Project (MSEP or Project). The majority of the MSEP would be developed on public land administered by the Bureau of Land Management (BLM). Approximately 477 acres of privately owned land would be included in the proposed solar plant site boundary. The Project would generate and deliver solar-generated power to the CA electrical grid through an interconnection at the Colorado River Substation (CRS) owned by Southern CA Edison (SCE).	<b>FIN</b>	
2012021057	Templo La Hermosa, Conditional Use Permit No. CUP11-005 Merced County Merced--Merced The project applicant has applied for CUP11-005 from Merced County to construct a one-story, 10,620 s.f. church facility. The proposed church facility would be located on a new parcel that would consist of 5.25 acres. The proposed project would relocate existing services and replace an existing small building the church has outgrown, but currently uses, located to the east along Kibby Road. The proposed church plans include restrooms, a multi-purpose area, sanctuary (i.e., main assembly area), and small kitchen facility.	<b>MND</b>	01/16/2013

2012122032	Northern Recycling Use Permit Amendment (ZF2011-0041) Yolo County --Yolo The proposed project includes the expansion of the current composting operations that occur on the northern 56 acres of the 104-acre site. The capacity of the facility is currently limited to 50,000 cubic yards on site and the receipt of 300 tons of material per day. The proposed project would increase the maximum site capacity to 190,000 cy and allow the receipt of up to 700 tons per day. The proposed project would also allow for the acceptance and processing of additional feedstock materials, including food waste (either co-collected with yard waste or from commercial sources or agricultural sources). The proposed project would expand the existing 56-acre permitted area to include an additional 17 acres within the site's 104-acre boundary to accommodate the use of an overflow pond and retention pond and retention pond, and for the storage of finished compost material. The proposed project also includes a new 1-megawatt (gross) biomass gasification unit to generate renewable electricity from clean wood chips. Additionally, the project includes a request to rezone from Agricultural Preserve (A-P) to Agricultural Industrial (AGI).	<b>MND</b>	01/16/2013
2012122035	Citywide Water System Master Plan/Tracy Wastewater Master Plan Tracy, City of Tracy--San Joaquin The WSMP provides an evaluation of the required potable and recycled water infrastructure to serve buildout of the City's General Plan. It is a comprehensive update of the 1994 City of Tracy WSMP in fulfillment of Objective PF-6.1, Action A1 of the Public Facilities and Services Element of the General Plan. The WWMP identifies the wastewater infrastructure necessary to serve future wastewater flows in the City. It is a comprehensive update of the 1994 City of Tracy WWMP in fulfillment of Objective PF-7.1, Action A1 of the Public Facilities and Services Element of the General Plan.	<b>MND</b>	01/16/2013
2012122036	Citywide Storm Drainage Master Plan Tracy, City of Tracy--San Joaquin The proposed SDMP is a comprehensive, Citywide storm drainage master plan for the City and the SOI. The SDMP includes hydrologic and hydraulic analyses; a conceptual plan for new storm drainage infrastructure needed to serve new development and existing development areas; opinions of probable cost for new and upgraded storm drainage infrastructure; drainage policies; and documentation regarding existing conditions, facilities, studies, regulations, and agreements. It is intended to be utilized as a guideline document for the identification of storm drainage facilities needed to serve future land development projects under the buildout condition for the City's SOI and storm drainage facility upgrades needed to correct existing deficiencies, as well as serving as a reference document for existing storm drainage facilities and their functional characteristics.	<b>MND</b>	01/16/2013

	County of Sacramento's Hazel Avenue Widening Project. The existing Hazel-Timm substation at 4665 Hazel Avenue in the community of Fair Oaks, Sacramento County, CA, would be relocated approximately 600 feet to the north to 4733 and 4737 Hazel Avenue. The new, relocated and expanded substation would be called the Hazel-Sunset substation. In addition, as part of the relocation, the new substation location would include sufficient space to accommodate the future expansion of capacity from a single 20-mVA transformer to two 20-MVA transformers as electricity demand increases in the service area.		
2012062023	Dixon Ranch Residential Project El Dorado County --El Dorado The Dixon Ranch Residential Project would subdivide 280 acres to include 605 single family detached residential units. Approximately 160 of these units would be age restricted to older adults. The project includes 84 acres (30 percent) of open space, including both active and passive parks, trails, landscaped lots, and native open spaces. The project includes on-site and off-site infrastructure to serve the development. Construction of a clubhouse for the age-restricted units is also proposed. Build-out will likely occur over many years, but ultimately will be dictated by market demands. Required project approvals would include: a General Plan Amendment; Zone Change; Planned Development; Tentative Map; annexation into the El Dorado Irrigation District; annexation into the El Dorado Hills Community Service District; and annexation into the El Dorado Hills Water Company (El Dorado Hills Fire Department).	<b>NOP</b>	01/16/2013
2012122041	Waring's Dump Soil Cap Project Resources Recycling and Recovery, Department of Sacramento--Sacramento Note: Extended 45 days Review Period  The proposed project would result in grading and compaction of the existing hummocky terrain and the importation of select fill soils for placement as a compacted soil cap over the existing waste footprint. Existing ground elevations vary from 29 feet to 33 feet above mean sea level (MSL). Preliminary surface grading and compaction would be conducted to stabilize the project site into a uniform surface, graded to drain stormwater off the waste mound. The depth to which preliminary grading would occur would be minimized so as to leave buried wastes undisturbed and in place to the extent possible. Any debris unearthed during the grading would be reburied such that no materials protrude from the graded surface. No debris or soil is intended to be exported offsite. However, if there are some bulky items, such as car bodies or refrigerators, unearthed that cannot be graded within the proposed waste mound, they would be removed and either recycled or disposed of at a proper disposal site.	<b>NOP</b>	02/01/2013

2012121042	Adoption of Ordinance No. 155: 2013 Redevelopment Project Water Use Credit Ordinance of the MPWMD Monterey Peninsula Water Management District Monterey, Seaside, Sand City--Monterey Note: Refer to Recirculated ND Rcv'd 01/15/13.  Proposed Ordinance No. 155 (Attachment 2) amends the District's definition of Redevelopment Project to recognize the effect of Assembly Bill x1 26 (AB 26) to abolish redevelopment agencies. The ordinance also amends MPWMD Rule 25.5-D to allow two extensions of Water Use Credit at Redevelopment Project Sites when the credit was documented prior to February 1, 2012 (i.e., prior to ABx1 26).	<b>Neg</b>	
2012121044	Earlimart Neighborhood Park Tulare County --Tulare The proposed Earlimart Community Park will be constructed on approximately four vacant acres of an 8.46 acre parcel (APN 3318-084-001) and adjacent to Earlimart Elementary School. The proposed park will include direct, on-site access to the existing school yard. The main park area will include a playground apparatus area, barbecues, pavilions, a walking path, lighting, landscaping, a multi-use event area with shade structure and sloped turf for seating. The park will be surrounded by ornamental fencing and will include three gateways featuring community artwork. A biofiltration swale will be constructed to capture on-site drainage of storm-water. The project will also include construction/installation of new sidewalks, curbs, gutters, streetlights, street-trees along Elm and School Streets plus stop signs with locations to be determined later.	<b>Neg</b>	01/16/2013
2012122034	2009 Housing Element Revision and Amendment to Chapter 17.104 of the Folsom Municipal Folsom, City of Folsom--Sacramento This project proposal is to adopt a focused revision to the 2009 Housing Element of the City of Folsom General Plan. Specifically, the proposal is to revise Program 191 (Inclusionary Housing) of the 2009 Housing Element which will require the City to amend the Inclusionary Housing Ordinance (IHO) by adjusting the affordable percentage requirements and establishing an in-lieu fee option. In addition, this project proposal is to implement the aforementioned 2009 Housing Element Revision by amending Chapter 17.104 of the Folsom Municipal Code (FMC) to adjust percentage requirements and establish an in-lieu fee option. Also, this project proposal includes removing existing provisions of the IHO pertaining to multi-family rental housing projects as a result the 2009 court case, Palmer/Sixth Street Properties, L.P. vs. City of Los Angeles 175 Cal. App 4th 1396 (2009).	<b>Neg</b>	01/16/2013

	<p>communicate between locations on the Channel Islands and with personnel and other contact points on the mainland. The islands have a very high frequency (VHF) radio system that allows communication among radio-equipped ranger stations on the five islands. There is also satellite internet service at some ranger stations that allows secure access to government internet provider (IP) addresses on the mainland. NPS personnel also possess cellular telephones; however, cellular service is unreliable because the islands are at the outer limit of the cellular service area. As such, the location of the islands makes cellular telephone service unreliable on some parts of the islands and wholly absent on others. Recreational visitors to the island have no land line telephone access and little to no cellular telephone reception.</p> <p>The proposed project would provide cellular telephone service at all ranger stations, fire stations, campground sites, residences, and runways on the five islands, as well as at all portions of the islands within an approximately 0.5 mile radius of each of the 17 proposed facility locations. The new service is intended to be consistent and reliable, with a reliability of 99.99999 percent, meaning that service will be available at these locations 99.99999 percent of the time.</p>		
2012121045	<p>UCLA Teaching and Learning Center University of California, Los Angeles --Los Angeles</p> <p>The University of CA, Los Angeles proposes the construction and operation of a new 6-level, 110,000-gsf building to accommodate the academic teaching and learning programs of the David Geffen School of Medicine (SOM). The northeast portion of the building would have a subterranean basement for mechanical equipment. The proposed Project also involves the construction of a covered driveway (approximately 10,000 gsf) to preserve access to existing parking in the adjacent Center for Health Sciences (CHS) complex. The Project is located in the Health Sciences zone at the northwestern corner of Le Conte Avenue and Tiverton Drive. Modifications to the existing pedestrian and vehicular circulation and utility systems would be made. New utilities and landscape/hardscape would be installed.</p>	<b>MND</b>	01/17/2013

2012121048	Otay Water District Regulatory Site Access Road Improvements Otay Water District San Diego--San Diego Note: Disregard Review Period Per Lead, until a later time  The proposed project is the construction of an access road that would connect the Otay Water District's Regulatory Site to the terminus of a road serving the County of San Diego Sheriff's Station currently under construction and to a paved road that connects to SR 94. The proposed alignment would generally occur along an existing unpaved road access road that extends to the Sheriff's Station site and an existing paved road that connects to SR-94. The access road would be 24 feet wide, paved with asphalt concrete, and would include 2-foot-wide shoulders on each side of the road. The access road would be used by OWD staff vehicles as well as regional Fire District vehicles accessing the Heartland Regional Training Facility that is contained within the OWD Regulatory Site.	<b>MND</b>	
2012122056	Galt Entertainment Center Galt, City of Galt--Sacramento The project consists of demolition of existing buildings on the approximately one acre site and construction of a two story entertainment center that will be comprised of a six to eight theater cinema, a bowling center with a maximum of 26 lanes, video arcade/laser tag, and ancillary uses such as restaurant/dining area, and sports bar/lounge. The project will involve vacation of alley right of way and relocation and modification of utilities to serve the project. The property, except for the two parcels at 416 B Street and a vacant lot of Fifth Street an APN 150-0211-004, is designated for commercial use and the proposed entertainment land uses are permitted by right. A General Plan Amendment is requested for 416 B Street and 150-0211-004 which would change the land use from High Density Residential to Commercial. A corresponding Specific Plan Amendment is requested to change the land use from Mixed Use to Historic Business District land use for those same two parcels.	<b>MND</b>	01/17/2013

	housing facilities would be constructed at three potential infill prison sites, or CDCR would construct one single housing facility at one potential infill prison site and a double (1584-bed) housing facility at a second potential infill prison site. In total, the proposed project would involve the construction of a total of 2,376 infill housing units (beds) and associated accessory uses. The proposed correctional facilities would operate 24 hours a day, year-round, with three 8-hour shifts (watches).		
2012122039	Oakland International Airport (OAK) South Field Airport Traffic Control Tower (ATCT) Demolition Oakland, Port of Oakland--Alameda The South Field ATCT at OAK does not meet current seismic code standards and could pose a life safety hazard in the event of a major seismic event. The Port of Oakland concluded that the upgrades required for the South Field ATCT, which is structurally integrated with Terminal 1, to meet current seismic and building code standards, would significantly impact the integrity of the building and usable space, and would be prohibitive. Because a replacement ATCT has been constructed and is scheduled to be operational in 2013, the South Field ATCT will not be needed to provide air traffic control at the Airport once the new ATCT is operational. Therefore, the Port of Oakland has determined that floors three through ten (which extend above Terminal 1) of the South Field ATCT should be demolished as part of the ongoing Terminal 1 renovations.	<b>NOP</b>	01/17/2013
2012122040	Sunnydale-Velasco HOPE SF Master Plan San Francisco, City and County of San Francisco--San Francisco The project sponsor, Sunnydale Development Co., LLC (comprising co-developers Mercy Housing California and the Related Companies of California), proposes to demolish the existing buildings, including 785 family and senior dwelling units, at the Sunnydale and Velasco public housing complexes in the Visitacion Valley neighborhood, and to build replacement and new housing, new infrastructure, open space and community amenities.	<b>NOP</b>	01/17/2013
2005082080	City of Manteca Water Master Plan Manteca, City of Manteca--San Joaquin The California Department of Public Health (Department), as the Responsible Agency, will be issuing a water supply permit to the City of Manteca for the improvement and expansion of the City of Manteca's water system to meet current and future needs for safe, reliable water supply and distribution system. The document also addressed the need to remove arsenic and nitrate from their current water supply.	<b>NOD</b>	
2009071104	Runway Safety Area Improvements Monterey Peninsula Airport District Monterey--Monterey Safety related Improvements at both ends of RWY 28/10 consisten with FAA regulations, as well as construction of related retaining walls to create level surfaces to accommodate the RSA, in conjunction with EMAS beds, and the relocation of existing vehicle service roads (VSRs) on the east and west ends of the runway. The east VSR would connect directly with SR-68 due to terrain in the project area and would provide access to Tarpy's Restaurant. The proposed	<b>NOD</b>

	that the root wads stay attached. Trees will then be removed, either by truck or helicopter or burned on site. The excavator will remove most of the dirt from root wads and may push loose soil into holes created by tree removal. Duff material will be redistributed to prevent erosion but soil disturbance will be minimized. No vehicles will travel on slopes greater than 40%. The removed trees will primarily be used to instream restoration projects within the Park. The stump of trees felled with a chainsaw will be cut to within 18 inches of the ground if greater than 24 inches in diameter or eight inches if less than 24 inches in diameter.		
2010081014	Atlanta Avenue Widening Project Huntington Beach, City of Huntington Beach--Orange The City proposes to widen the south side of Atlanta Avenue, between Huntington Street and Delaware Street, to comply with the primary arterial street classification in the General Plan Circulation Element. The proposed street improvements will provide an additional through lane and bike lane in each direction of travel. Construction of the proposed street improvements will require the acquisition of an additional 25 ft. of public street right-of-way south of the centerline Atlanta Avenue. The additional 25 ft. of right-of-way would come from a 25 ft. wide by 630 ft. long (approx.) strip of land from the Pacific Mobile Home Park located immediately south of Atlanta Ave.	<b>MND</b>	01/18/2013
2012102033	Newport Pointe Contra Costa County --Contra Costa Note: Recirculated  Subdivide 20-acre project site into 67 residential lots with open space and 6 acres of preserved/created wetlands.	<b>MND</b>	01/18/2013
2012121050	Road 148 Outside Creek Bridge Tulare County Visalia--Tulare The bridge replacement consists of removing the existing structure of approximately 40 feet in length and 20.5 feet in width, and replacing it on 11 feet offset from its existing alignment, with a two-cell cast-in-place box culvert with each cell being 8 feet tall by 14 feet wide. The project will also include new roadway construction either side of the bridge for approximately 500 feet to 1000 from each bridge abutment, removing existing pavement, constructing concrete channel lining, and placing rock slope protection. Road 148 will be closed and temporary detour will be provided during the construction of this structure.	<b>MND</b>	01/18/2013
2012121051	Road 182 Deep Creek Bridge Tulare County Visalia--Tulare The bridge replacement consists of removing the existing structure of an approximately 60 feet in length and 20 feet in width, 3-span concrete bridge with concrete piers, and replacing it on its existing alignment with a cast-in-place concrete slab bridge. The new three span structures would accommodate a two-lane-bridge, approximately 100 foot long and 36 foot wide, providing 5 foot shoulders. The project will also include new roadway construction either side of the bridge for approximately 400 feet from each bridge abutment and rock slope protection. Road 182 will be closed temporarily during construction and a temporary detour will be provided.	<b>MND</b>	01/18/2013

2012121053	Seibu to School Path Project Bishop, City of Bishop--Inyo The purpose of the proposed project is to improve non-motorized mobility within the City of Bishop and increase bicycle and pedestrian safety between the neighborhood, Bishop Elementary School, and Bishop Paiute Tribal Land. The path will be constructed with an eight foot wide paved wearing surface with two feet of gravel shoulders on each side and an approximate 275 feet of five foot wide concrete sidewalk along Keough Street.	<b>MND</b>	01/18/2013
2012121055	CUP 3386: Allow An Exploratory Oil/Gas Well With Production Facility In The AE-20 Zone District Fresno County --Fresno This proposal entails the drilling of an exploratory petroleum oil and natural gas well on a 1.62 acre (70,500 square feet) portion of a 160.00-acre parcel. If exploratory drilling is not successful, the well will be plugged and abandoned in compliance with the California Department of Conservation, Division of Oil, and Gas and Geothermal Resources regulations. If oil and/or gas are discovered, a production facility will be established on the project site, and a secondary exploratory well may be drilled on the project site utilizing directional drilling techniques. This secondary exploratory well would utilize the same production facility established for the first exploratory well.	<b>MND</b>	01/18/2013
2012121056	Pipeline 3 Relining - Sweetwater to Lower Otay Reservoir San Diego County Water Authority Chula Vista--San Diego The proposed project consists of the installation of 3/8- and 1/2-inch thick, 66-inch diameter collapsed welded steel liners in approximately 28,400 linear feet of existing 69-inch diameter pre-stressed concrete cylinder pipe. While underground activities would occur along the entire reach of the pipeline alignment, above-ground disturbance activities would occur at specified portal locations and staging areas. Pipeline 3 would be accessed at 17 proposed portals, where steel liners would be installed through the length of the pipe to be relined. In addition to the planned portals, access to the pipelines also would take place through up to 10 existing manhole structures, blow offs, pumping wells, and other structures (collectively known as access and ventilation areas).	<b>MND</b>	01/18/2013
2012121057	Construction and Operation of the Mid Evaporation Basin Tulare Lake Drainage District --Kings The Tulare Lake Drainage District (TLDD), located in the Tulare Lake Bed in the Central Valley of CA, proposes to construct a new evaporation basin, the Mid Evaporation Basin (MEB), to manage and dispose of sub-surface agricultural drainage water through evaporation. TLDD currently maintains and manages three evaporation basins used to dispose agricultural drainage water from the	<b>MND</b>	01/22/2013
2012121059	Imperial Center (Phase I) Project Imperial, City of --Imperial The project consists of an 8-acre portion of the 25-acre property at the northwest corner of SR-86 and Neckel Road which would be used for commercial development. The commercial uses include a hotel, restaurant, retail, and a drive-through building with use to be determined. A 4-story hotel would be located	<b>MND</b>	01/22/2013

	in the northern area of the site and would include 108 rooms, a hotel restaurant, and an indoor pool. A 5,000 square-foot restaurant is proposed to the southwest of the hotel. The southeastern corner of the site, adjacent to SR-86 and Neckel Road, would include three retail buildings totaling approximately 10,000 square feet; while the southwestern corner would include a 2,500-square-foot-foot drive-through building. A lot line adjustment would be required to complete the project.		
2012122042	The 2013 Fisheries Restoration Grant Program Fish & Game #2 -- The project will use grant funds approved by the California Legislature to initiate activities that are designed to restore salmon and steelhead habitat in coastal streams and watersheds.	<b>MND</b>	01/18/2013
2012122043	Springle Valley Lake Reservoir Recovery Lake County Clearlake--Lake Lake County Special Districts, County Service Area (CSA) #2 proposes a recovery and maintenance project at Spring Valley Lake reservoir. The purpose of the project is to reclaim the water volume of the lake to the original reservoir and dam capacity. The recovered lake is anticipated to provide water for wild land fire suppression as well as provide three or more years of domestic water supply should nearby Indian Valley Reservoir fail to be viable in the future. The project is anticipated to continue for 3.5 to 5 years.	<b>MND</b>	01/18/2013
2012122044	Arcade Creek Park Preserve Extension Project Citrus Heights, City of Citrus Heights--Sacramento Development of a multi-use trail along Arcada Creek. The project includes 8' wide multi-use pathway, grade shoulders, 2 bridges, and related improvements. The project will connect to the Arcade Creek Park Preserve owned by the Sunrise Recreation and Park District. Ultimately the City will transfer ownership of two City owned parcels to Sunrise Recreation and Park District to facilitate the development of a larger park with continuous multi-use access from Sunrise Boulevard to Sayonara Drive and Bonham Circle. This analysis is limited to the City owned parcels and the associated improvements for the multi-use trail.	<b>MND</b>	01/18/2013
2012122045	BCAG Property Acquisition, Maintenance Yard, Transit and Administrator Facility Butte County Association of Governments Chico--Butte The proposed project is the expansion of the Butte County Association of Governments Administration and B-Line Operations and Maintenance Facility and Yard (Transit Facility). The project includes construction of BCAG administrative offices, transit and Maintenance Facility and Yard (Transit Facility). The project includes construction of BCAG's administrative functions operations and maintenance facilities sufficient to meet the B-Line's project growth and of BCAG's administrative functions (based on 2022 and 20322 project needs), and associated off-site facilities including street and intersection improvements and storm drainage facilities. The project also includes demolition of the existing B-Line facility, which will be replaced by visitor and staff parking. The project also includes construction of solar shade canopy over the bus parking areas.	<b>MND</b>	01/18/2013

<b><u>Documents Received on Thursday, December 20, 2012</u></b>			
2012122047	Sutter Hill Road / Ridge Road Realignment Sutter Creek, City of Sutter Creek--Amador The City of Sutter Creek proposes to construct improvements on Sutter Hill Road between just north of Old Ridge Road and Ridge Road in Sutter Creek in central Amador County. The realignment of the existing intersection of Sutter Hill Road and Ridge Road will be moved approximately 195 feet to the northeast. The realignment will allow for addition storage in both left hand turn pockets on Ridge Road. The proposed improvements include realigning the intersection of Sutter Hill Road and Ridge Road, realigning the intersection of Sutter Hill Road and Old Ridge Road, striping modifications for both intersections, the access road from the existing Swift Shopping Center at the end of Sutter Hill Road will be modified with curb and gutter and aligned with the proposed road, and extension of existing storm drain and underground utilities line at the realignment.	<b>MND</b>	01/22/2013
2012121052	EIR PFS 04-12; Lehigh Alternative Fuels Project by Lehigh Southwest Cement Company Kern County Tehachapi--Kern The project proponent is requesting a Conditional Use Permit that would authorize the burning of alternative fuels, including: tire derived fuels, refuse derived fuels and biomass as part of the existing cement operations. Implementation of the project would require minor additions to existing operational equipment currently utilized as part of the existing operations. Less than one acre of new ground disturbance activity is proposed for use exclusively as a result of implementation of the project. The project involves the installation and operation of new equipment at the Lehigh Cement Plant to allow for use of alternative fuels in the heating process necessary to produce cement. The Lehigh Cement Plant has historically used coal and petroleum coke with a small amount of natural gas as its main fuel sources. The use of such alternative fuels is proposed in order to reduce air pollutant and greenhouse gas emissions from the Lehigh Cement Plant, and to allow the facility operator more flexibility in the sourcing of fuels to make cement. The project also includes repurposing of a portion of the existing plant site to allow for parking of tractor-trailers that would serve as fuel storage units. All improvements and operations associated with the proposed project would occur on areas that were previously graded, improved, and/or paved.	<b>NOP</b>	01/22/2013
2012121054	Salinas Pump Station Enhancements Project Monterey Regional Water Pollution Control Agency Salinas--Monterey The MRWPCA is studying alternatives for enhancing the capacity of its existing Salinas Pump Station, which is part of the conveyance infrastructure which delivers wastewater produced in the City of Salinas to the MRWPCA's Regional Treatment Plant. Capacity enhancement would be needed within five to 15 years as development within the City of Salinas proceeds consistent with the City of Salinas 2002 General Plan. Alternatives 1 and 2 consist of a flow equalization basin or tank with an equalization pump station and force main/gravity pipeline (placed in one of two possible locations). Alternative 3 is a 42-inch force main placed parallel to the MRWPCA's existing 36-inch force main. Alternative 4 is a Phase 1 portion of the Alternative 3 parallel force main. Alternative 5 is an intermediate pump station on the existing 36-inch force main.	<b>NOP</b>	01/21/2013

2012122046	General Plan Safety Element Update Saratoga, City of --Santa Clara The Safety Element is mandatory element of the General Plan required by SB 351, an act which became law on February 23, 1971. Originally addressed in two separate elements of the General Plan, the Safety Element and Seismic Safety Element were combined into one element, the Safety Element, under California Government Code Article 5-65302 (1986). This update is intended to supersede the existing Safety Element of the Saratoga General Plan adopted on October 7, 1987.	<b>Neg</b>	01/18/2013
2012072028	2012 Draft Marin County Housing Element Marin County --Marin The 2012 Draft Housing Element is an update of the County's' State-certified Housing Element that was adopted initially in November 1991, readopted with the Countywide Plan Update in January 1994, updated in June 2003, and then readopted with the Countywide Plan Update in November 2007. The 2012 Draft Housing Element addresses the requirements of California Government Code 65583, for the planning period from 2007 to 2014. The 2012 Draft Housing element consist of several main sections, each of which addresses a major subject area, including a review of constraints on housing development, an inventory of potential housing sites, and a set of policies and programs to support housing at all income levels.	<b>SBE</b>	01/18/2013
2006012125	San Rafael Airport Recreational Facility San Rafael, City of San Rafael--Marin A new private recreational facility consisting of an 85,700 square foot & 38-foot tall metal building with two sports fields and two gymnasiums areas for multi-purpose recreational uses and a mezzanine level with a spectators viewing area, cafe, offices and meeting rooms, and an all-weather lighted outdoor soccer field, outdoor warm-up field, parking and landscape improvements, new access road and replacement of a bridge crossing over Gallinas Creek, and solar panels installed on the nw building rooftop. The use would operate from 9AM to Midnight. The building would be flood proofed in compliance with FEMA requirements. The site is protected from flooding by earthen berm levees.	<b>NOD</b>

<b><u>Documents Received on Thursday, December 20, 2012</u></b>			
2007032009	Bear Valley Village Alpine County --Alpine General Plan Amendment and zoning change for a new pedestrian village and related infrastructure. The project includes a village of 10 separate buildings containing approximately 58,482 sf of retail, restaurant, and amenity space, 4,725 sf of meeting space, and 330 residential units (463,083 sf of residential). In addition, the Bear Valley Mountain Resort ski area is proposing construction of a new high-speed chair lift and several new or modified ski runs. The County is proposing a new snowmobile parking area and lodging areas. Project development will require subsequent discretionary approvals by the County for each phase of development.	<b>NOD</b>	
2012052022	MacKerricher State Park Dune Rehabilitation Project Parks and Recreation, Department of Fort Bragg--Mendocino CSP will restore ecosystem processes that are crucial to the viability of endangered species and their habitats in the Inglenook Fen-Ten Mile Dunes Natural Preserve (Preserve) through the implementation of project activities designed to remove unnatural elements and avoid impacts to sensitive resource sites.	<b>NOD</b>	
2012052076	Fox Camp Prairie Restoration Parks and Recreation, Department of --Humboldt CSP proposes to restore prairie habitat by removing trees on up to 35 acres of closed canopy forests and adjacent small clumps of trees within a 102-acre project area. Active fire suppression and a lack of fire ignitions - historically ignited by Native Americans - has allowed trees to colonize these prairies and convert them into closed canopy forests. The encroaching trees are primarily Douglas-firs. Trees will either be removed by heavy equipment or will be felled with a chainsaw. An excavator or other piece of heavy equipment will be used to push over trees so that the root wads stay attached. Trees will then be removed, either by truck or helicopter or burned on site. The excavator will remove most of the dirt from root wads and may push loose soil into holes created by tree removal. Duff material will be redistributed to prevent erosion but soil disturbance will be minimized. No vehicles will travel on slopes greater than 40%. The removed trees will primarily be used to instream restoration projects within the Park. The stump of trees felled with a chainsaw will be cut to within 18 inches of the ground if greater than 24 inches in diameter or eight inches if less than 24 inches in diameter.	<b>NOD</b>	
2012081010	Location and Development Plan 12-02, Conditional Use Permit 12-02 Tentative Parcel Map 19391 Adelanto, City of Adelanto--San Bernardino The proposed project is for the division of a 14-acre parcel into a one-acre parcel and a 13-acre parcel and an 8 pump gas station and 4,860 square foot convenience store with alcohol sales on approximately one-acre of land in the General Commercial (C) Zone.	<b>NOD</b>

2012122054	100 Moffett Residential Development Project Mountain View, City of Mountain View--Santa Clara The Project is an infill project that includes up to 191 residential units on an approximately 2.65-acre site (2.89-acre gross site area prior to dedications) currently occupied by an office building, commercial businesses, residential units, associated surface parking, and existing public street right-of-way. The Project includes a rezoning to a (P) - Planned Community District and three, two- to four-story structures with one- and two-bedroom units, common amenity rooms, and three private open space areas. The Project includes two underground parking garages, one accessed from Stierlin Road and one accessed from Washington Street. Where Stierlin Road extends through the middle of the Project site, the roadway would either be converted to a one-way road connecting to Central Expressway or to a public pedestrian/bicycle paseo closed to vehicles.	<b>MND</b>	01/22/2013
2012122055	La Costanera Use Permit Amendment San Mateo County Half Moon Bay--San Mateo The La Costanera Restaurant site consists of an 11,332 sf restaurant and two on-site parking lots, Lots A and C, containing a total of 52 parking spaces. The applicant, Farhad Mortazavi, requests a Design Review Permit and to amend its existing Use Permit for the continued operation of the La Costanera Restaurant.	<b>MND</b>	01/22/2013
2012121060	Hanford Downtown East Precise Plan Project Hanford, City of Hanford--Kings The proposed project involves the adoption of an amendment to the Hanford General Plan that would increase the maximum allowable residential density in the Downtown East Precise Plan (DEPP) area from 22 to 45 dwelling units per acre and the adoption of the DEPP, including the Development standards contained therein.	<b>NOP</b>	01/22/2013
2012121062	McKittrick Class II Landfill Expansion Project (PP12237); ZCC 4, Map 118 /CUP 1, Map 118 (MOD) EIR 14-11 JLB Kern County --Kern Liquid Waste Management Inc. (LWMI) (project operator) has requested a modification of a CUP (CUP1, Map 118) to allow for expansion of an existing nonhazardous oil production and/or oily waste disposal facility within an A zone district. The McKittrick Waste Treatment Site (MWTS or facility) includes a Class II landfill disposal area, supporting uses and facilities on 27.1 acres of the 50-acre. The current Solid Waste Facility Permit (SWFP No. 15-AA-0105) would also be modified. The project proposes to expand the landfill footprint onto the adjacent 40-acre parcel. For purposes of this process, the existing facility is described as being located on the east parcel and the proposed expansion is described as being on the west parcel. Additionally, a zone change (ZCC 4, Map 118) from A-1 (Limited Agriculture) to A (Extensive Agriculture), has been proposed to bring the east parcel into consistency with the General Plan map code designation 3.4 (Solid Waste Facility). The proposed project would revise the SWFP by increasing the	<b>NOP</b>	01/22/2013

	currently permitted daily tonnage from 1,180 tons per day (tpd) to 3,000 tpd.		
2012121058	Zoning Ordinance Amendment (Amending development standards of existing zoning districts) Agoura Hills, City of Agoura Hills--Los Angeles The project is an Ordinance (Zoning Ordinance Amendment) to amend development standards of existing zoning districts (RM, BP-M, and BP-OR) and the Sign Ordinance to correct typographical errors and omissions, and to amend the Commercial Use Table to allow a caretaker residence for mini self-storage facilities.	<b>Neg</b>	01/22/2013
2012121061	Comprehensive Infrastructure Master Plan Farmersville, City of Farmersville--Tulare The project is the acceptance of the City's Comprehensive Infrastructure Master Plan (CIMP), and the goals, policies, and programs it includes as updates to the City's 1983 Sanitary Sewer Master Plan, 1989 Storm Drainage Master Plan, 1998 Community Infrastructure Study, 2000 Water System Study, and 2003 Highway 198 Corridor Specific Study. The CIMP is a planning document that will provide a roadmap for critical infill developments within the City's Urban Area Boundary, while protecting the farmland outside the boundary. The plan is intended to enable smart growth concepts to be implemented as part of the City's future development, improve public health, and promote self-sustaining economic development.	<b>Neg</b>	01/22/2013
2012121063	ENV 12-0001 (Channel Maintenance Activities MS4) Escondido, City of Escondido--San Diego The City of Escondido owns and operates a Municipal Separate Storm Sewer System (MS4) infrastructure that includes various storm water facilities associated with flood control and drainage in Escondido. The City has ongoing needs to effectively perform routine Operations and Maintenance (O&M) activities for flood control and the management of sediment deposition at 63 maintenance sites within MS4 facilities (constructed and natural) throughout Escondido. The 63 maintenance sites are associated with MS4 facilities that include outlet structures, channel structures, inlets, a culvert structure, and a basin, all of which occur at locations characterized by concrete/earthen, earthen, and/or concrete bottoms. Together, the proposed O&M activities at these locations would impact approximately 76 acres. Of these 76 acres, 73 acres are concrete facilities, 2 acres are earthen bottom, and 1 acre is combined concrete and earthen bottom facilities. O&M activities for facility maintenance in the City would include repairs and improvements such as the removal of silt and vegetation including: concrete and earthen channel-dredging; basin dredging; culvert, inlet, and outlet clean-out; vegetation clearing and trimming; and access road clearing. Dredging for flood control purposes is proposed at 60 of the 63 maintenance sites. The draft MND addresses the proposed routine maintenance at the 63 sites associated with this project.	<b>Neg</b>	01/22/2013

<b><u>Documents Received on Friday, December 21, 2012</u></b>			
2012121065	Mosby Recreational Fields and Rezone Consistency Santa Barbara County Lompoc--Santa Barbara James Mosby, owner, proposes: 1) a conditional use permit to operate an existing recreational outdoor development and recreational activities consisting of a paintball field, two athletic fields, and a remote controlled car track; and 2) a consistency rezone to rezone the properties from its current zoning General Agriculture, 40-acre minimum lot area (40-AG) under Zoning Ordinance No. 661 to Agriculture II, 40-acre minimum lot area (AG-II-40) under the Santa Barbara County Land Use & Development Code (LUDC).	<b>Neg</b>	01/22/2013
2012121067	Storm Channel Maintenance Programmatic Permit San Marcos, City of San Marcos--San Diego The proposed project is the request for a Programmatic Channel Maintenance Permit to allow the implementation of a maintenance activities Workplan applicable to 64 geographic locations. Proposed maintenance activities at specified sites may include clearing or trimming vegetation at inlets and outlets for the purpose of removing impediments to storm conveyance flows. In general, non-natives would be removed, and native trees, such as willows, to the maximum extent feasible would be skirted to retain the tree and its canopy, but reduce or eliminate flow impediments. In a few select cases where accumulated sediment has significantly obstructed capacity or impedes storm flows, the City is proposing to remove accumulated sediment to restore function and capacity.	<b>Neg</b>	01/22/2013
2012122048	Clear Channel Digital Freeway Sign Conditional Use Permit and Operating Agreement Rancho Cordova, City of Rancho Cordova--Sacramento CUP and Operating Agreement for a digital freeway sign at the Sports Complex project site (APN 069-0130-008, -017). Activities at this location will include conversion of an existing traditional billboard to a digital freeway sign. The conversion will rely upon the existing billboard sign structure, covering the existing pole in decorative cladding, and changing out the existing sign faces to smaller, digital display areas (see Figure 4). The sign will not move in an east/west direction nor will it get any closer to Highway 50. Additionally, the existing electronic sign located on the site's monument sign will be removed. As required by the Zoning Code standards regulating digital freeway signs, the project will also include removal of a traditional billboard located at the southeast corner of Folsom Boulevard and Zinfandel Drive.	<b>Neg</b>	01/22/2013

<b><u>Documents Received on Friday, December 21, 2012</u></b>			
2007102030	San Antonio Backup Pipeline Projects San Francisco, City and County of --Alameda The project consists of installing approximately 7,000 foot long, 66-inch diameter backup pipeline (e.g. the San Antonio Backup Pipeline) extending from Alameda Siphon No. 3 (located near the San Antonio Pump Station), along the west side of Calaveras Road, to a new discharge facility on the southern slope of an existing quarry pit. The project would provide reliable conveyance capacity for planned and emergency discharges of Hetch Helchy water of the SFUC regional water system under future flow conditions.	<b>NOD</b>	
2010032070	Orchard @ Penryn (PEIR 20070521) Placer County --Placer The project proposes the approval of a Vesting Tentative Subdivision Map and a Conditional Use Permit to construct 150-multifamily residential units with on-site recreational facilities, including a 3,900 square-foot recreation center with a leasing office, indoor fitness center, internet cafe, outdoor pool, spa, and tot lot.	<b>NOD</b>	
2011022013	The Farm Neighborhood Park Santa Cruz County --Santa Cruz The Project includes the installation of a pedestrian bridge, the installation of an outfall pipe, and the restoration of portion of the riparian habitat within the bed and banks of the unnamed channel. The instream channel restoration work will focus on the repair and stabilization of three existing headcuts in the channel bed, which are currently supported by a mixture of logs, roots, and debris (car tires, outdoor furniture and other trash). The channel repair will stabilize these features, thereby reducing the long-term potential for bank instability, in addition to increasing habitat quality, water quality, and aesthetics of the riparian corridor. The goal of the restoration and bank stabilization work is to mimic the existing character of health local ephemeral coastal drainages in the area by using wood harvested on-site for grade and erosion control features rather than rock or other hard reinforcement. Wood placement for instream channel stabilization will provide the natural appearance of a network of fallen trees. These features will resist movement and enhance ecologic function. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2011-0155 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Santa Cruz County Department of Public Works - Parks as represented by Betsey Lynberg.	<b>NOD</b>	
2011081028	Saddle Crest Homes Orange County --Orange General Plan Amendment, Specific Plan Amendment, and Area Plan to allow for development of Saddle Creek Homes, a gated community comprised of 65 detached single family residential units concentrated off Santiago Canyon Road, with proposed open space dedication along the northeastern portion of the property. The project approvals also include a Vesting Tentative Subdivision Map for the Saddle Crest Home development.	<b>NOD</b>

	Property is approximately 110 acres located between Mooney Blvd. and Morrison Street, north of Seminole Avenue.		
2012121072	Fernando Child Care Center, Plot Plan 21202 Jurupa Valley, City of Jurupa Valley--Riverside Proposal to establish a day care center for up to 44 children and five (5) staff on 0.51 acre parcel. The day care center will utilize an existing 2308 square foot single family residence and construct the following additional improvements. A paved driveway/ access drive with 10 paved parking spaces, including one handicapped parking space; a 1125 sq. ft. playground area for infant and toddlers in the existing front yard, excluding and additional area for a sand box; a 1600 sq. ft. playground area for pre-school children behind the building; a 1430 sq. ft. playground area for after school children at the rear of the improvement area; a 6-foot high block wall along portions of the north and south property line; a 4-foot block wall around the infant and toddler play area; a new septic system, and; interior building improvements.	<b>MND</b>	01/24/2013
2012121076	Scherz Minor Use Permit San Luis Obispo County --San Luis Obispo Request by James Scherz for a Minor Use Permit for a .50-megawatt solar generation facility including: 36 dual-axis, PV trackers; 500 KW inverter (Power Station); approximately 1,610 sf of underground, six-inch diameter, conduit; two customer power poles and one re-closure pole; approximately 100 feet of above-ground, three-phase power lines; and, motion-activated security lighting system (timed limit). The project also includes improvements to an approximately 400-foot segment of an existing access road, including compaction and turn-out, and improvements to the existing driveway on O'Donovan Rd.	<b>MND</b>	01/25/2013
2012121077	Morro Coast Audubon Society Minor Use Permit DRC2011-00013 San Luis Obispo County --San Luis Obispo Request by Morro Coast Audubon Society (MCAS) to implement public access improvements at East Sweet Springs and connect the site (with trails) to the Central Sweet Springs Nature Preserve. The project includes an accessible trail and boardwalk system including interpretive elements guiding visitors to a prominent lookout point along the shoreline of the estuary.	<b>MND</b>	01/25/2013
2012121078	Agincourt Solar - Conditional Use Permit P201200011 San Bernardino County --San Bernardino NOA for IS / Proposed MND for a CUP to establish a 10-MW solar power generating facility on a 79.9 acre parcel, in an unincorporated portion of Lucerne Valley, San Bernardino County / 3rd Supervisorial District / Project No. P201200011/CUP	<b>MND</b>	01/25/2013
2012121079	Martahon Solar - Conditional Use Permit P201200012 San Bernardino County --San Bernardino NOA for IS / proposed MND for a CUP to establish a 20-MW solar power generating facility on a 152-acre parcel, in an unincorporated portion of Lucerne Valley, San Bernardino County / 3rd Supervisorial District / Project No. P201200012/CUP	<b>MND</b>	01/25/2013

<b><u>Documents Received on Wednesday, December 26, 2012</u></b>			
2012121080	Decker Minor Use Permit DR2011-00096 San Luis Obispo County --San Luis Obispo Request by John decker for a Minor Use Permit/Coastal Development Permit to allow for new 4,389 sf single family residence.	<b>MND</b>	01/25/2013
2012122058	Jefferson Community Center and Park Eureka, City of Eureka--Humboldt The Westside Community Improvement Association (WCIA) is seeking a Conditional Use Permit and Merger for a community center and park at the former Jefferson Elementary School Site. The proposed project (Project) is to convert the school grounds into a public park, playground and public recreation facility, including community gardens, walking paths, open space, basketball court, bocce court, restrooms, and parking. The south wing of the existing building will be solely as a public charter school and the north wing will be used as the community center. The project includes non-structural renovation of the existing buildings, removal of two existing portable buildings, and construction of a new building to replace the portable buildings. The new building will be used as a community library and nursery center, and the north wing will house a multi-purpose room, community recreation room, community kitchen and restrooms. The proposed project would convert approximately 0.72 acres (31,494 square feet) of asphalt into green space to create the park with both lawn and native trees.	<b>MND</b>	01/24/2013
2012122061	Bertelli Zone Change 05RZ-120 and Vesting Tentative Parcel Map 05T-118 Tuolumne County --Tuolumne Zone Change 05RZ-120 to rezone a 7.7+- acre parcel from C-O:D AIR (Neighborhood Commercial Design Control Combining Airport Combining) as follows: BP:D:AIR (Business Park: Design Control Combining: Airport Combining) 1.6+- acres, C-O: D: AIR (Neighborhood Commercial: Design Control Combining: Airport Combining) 4.1+- acres, O: AIR (Open Space: Airport Combining) 1.0+- acre, and O-1:AIR (Open Space-1: Airport Combining) 1.0+- acre, Vesting Tentative Parcel Map 05T-32(3) to divide the 7.7+- acre parcel into three parcels and a remainder as follows: Parcel A - 1.8+- acres, Parcel B - 1.2+- acres, Parcel C - 1.3+- and the Remainder - 3.4+- acres, pending approval of the zone change.	<b>MND</b>	01/24/2013
2012122063	Colusa Boat Launching Facility Colusa, City of Colusa--Colusa The project involves the redevelopment of an existing day use and boat launching facility. Proposed elements includes a new, two-lane boat launch ramp, boarding floats, parking, new bathrooms, and other accessory infrastructure to support a day use area such as a fish cleaning station, signage and utilities.	<b>MND</b>	01/24/2013
2012122064	Longvale Plant Development Review Mendocino County Willits--Mendocino The applicant, Grist Creek Aggregates, LLC, is proposing to have an aggregate processing facility reestablished of the site which, until recently, has a history of such use since it was first permitted in 1972. Recent rezoning and updates to the General Plan have made use permits unnecessary as the property is now zoned for General Industrial uses. However, despite the zoning change, the site lies adjacent to the environmentally sensitive Outlet Creek and the potential exists for	<b>MND</b>	01/24/2013

<b><u>Documents Received on Wednesday, December 26, 2012</u></b>			
	impacts to occur from the reestablishment of the proposed industrial uses.		
2012122065	Mary Ann Hague - Minor Subdivision - MS Del Norte County --Del Norte The project involves splitting one 3.15-acre parcel into two parcels, Parcel 1 is proposed to be 1-acre, and Parcel 2 is proposed to be 2.15-acres. Parcel 1 is currently developed with an existing single family residence; Parcel 2 is not developed. Each proposed parcel meets or exceeds the minimum lot sizes as required by the County Zoning Code. There is a small watercourse along the northern boundary of each proposed parcel. A 50-foot buffer is being recommended from the edge of the riparian habitat. Development in this area requires onsite water and sewer. Access to each proposed parcel is from Highway 197.	<b>MND</b>	01/24/2013
1995081004	Olivas Park Drive Extension Ventura, City of Ventura--Ventura Note: Revised  The proposed project would involve three primary elements, including: (1) an ~4,500 linear foot extension of Olivas Park Drive between Golf Course Drive and Johnson Drive; (2) an ~5,800 linear foot levee/floodwall; and (3) a General Plan Amendment and Zone Change for several parcels within an ~79.88 acre area located northwest of the proposed Olivas Park Drive extension and levee. The proposed land use changes would allow for the development of the project areas with ~1,258,000 sf of commercial uses and 75,000 sf of industrial uses. Additionally, the proposed roadway extension and levee construction would trigger the closure and abandonment of the Montalvo Municipal Improvement District's wastewater treatment facility and the construction of appurtenant infrastructure to redirect wastewater flows to the City of Ventura Wastewater Treatment Plant.	<b>NOP</b>	01/24/2013
2012121071	Esperanza Hills Specific Plan (PA120037/VTTM 17522) Orange County --Orange The Esperanza Hills project proposes to construct 340 single-family residential units on 468.9 acres in the unincorporated portion of Orange County adjacent to the City of Yorba Linda. Project components will include ~13.9 acres of active and passive parks, 7 miles of trails and 230 acres of open space. The trails will include pedestrian, bicycle and equestrian trails with linkages to permit non-vehicular access to the Chino Hills State Park and surrounding open space areas. Fuel modification areas have been identified and emergency access/evacuation plans have been defined in cooperation with the Orange County Fire Authority. Two options for access to the community will be analyzed: one with a primary connection going south to Stonehaven Drive and a second with a primary connection going west from the community to Aspen Way. The community will be gate-guarded and a homeowners' association will manage streets, landscaping, parks and other amenities. The project is in the City of Yorba Linda's Sphere of Influence and it is anticipated that annexation may occur at a future date.	<b>NOP</b>	01/24/2013

<b><u>Documents Received on Wednesday, December 26, 2012</u></b>			
2012121073	South Fork Wastewater Facilities Planning Madera County --Madera The County of Madera proposes to plan design and construct a wastewater collection and conveyance system for the South Fork community to allow many of the existing septic tanks and the failing North Fork Mill Housing Facility private wastewater system to be taken out of service. The system is expected to consist of a gravity wastewater collection system, a wastewater pump station, and sewer force main. The gravity wastewater collection system would convey wastewater from the properties served to the pump station, where it would pump via the force main to another gravity wastewater collection system then discharge to the existing treatment system for the community of North Fork. Wastewater from South Fork would be treated and disposed of along with wastewater from North Fork. This will include the construction of 40inch sewer force main line running along the primary alignment with a pump station including submersible wastewater pumps and a 8-inch gravity sewer collection system with connection to existing South Fork users.	<b>Neg</b>	01/24/2013
2012122057	Delta Diamond Social Club Sacramento County Isleton--Sacramento The site is called the Delta Diamond Farm, and includes a residence, a garage, two barns, and other facilities. The applicant proposed to build a new "event pavilion" adjacent to one of the existing barns, and will also be building a paved parking area with designated spaces (existing parking is dirt). The agricultural usage of the majority of the site would continue, but a Use Permit and modification of the existing Williamson Act contract are required in order to continue the social center use.	<b>Neg</b>	01/24/2013
2012122059	PA-1200237-Site Approval Application For a Farm Services Headquarters Office San Joaquin County Tracy--San Joaquin A Site Approval application for a fam headquarters office to include the construction of a 1,440 square foot modular office. This parcel is not under a Williamson Act Contract.	<b>Neg</b>	01/24/2013
2012122060	PA-1200226-Minor Subdivision Application to Subdivide a 40 Acre Parcel Into Two Parcels San Joaquin County Lodi--San Joaquin A Minor Subdivision application to subdivide a 40 acre parcel into two parcels. Parcel One to contain a 5 acre homesite parcel and a Designated Remainder to contain 35 acres. This parcel is under a Williamson Act contract.	<b>Neg</b>	01/24/2013
2012122062	Rio Linda Elementary School Conversion to Community Center Twin Rivers Unified School District --Sacramento The Twin Rivers USD ("District") is planning for the repurposing of a portion of the existing Rio Linda Elementary School ("School") as a proposed Community Center and related uses. As part of the repurposing plans, the District has identified a number of Stakeholders as possible "tenants" for portions of the school. The District will continue to utilize a portion of the School for on-going District programs and support services.	<b>Neg</b>	01/24/2013

1991091062	Amendment No. 14 to the Anaheim Resort Specific Plan Anaheim, City of ANAHEIM--ORANGE The proposed project (the "Amendment No. 14 to the Anaheim Resort Specific Plan" project) would allow an expansion of the Anaheim Convention Center and update and streamline the documents that govern and regulate development within the Anaheim Resort Specific Plan area.	<b>NOD</b>	
2005092041	Riolo Vineyards Specific Plan EIR (PEIR T20050185) Placer County Roseville--Placer Modifications to the 2009 Riolo Vineyard Mitigation Monitoring and Reporting Program (MMRP) to incorporate revisions to allow for an off-site alternative for the provision of affordable housing as required by the Riolo Vineyard Specific Plan.	<b>NOD</b>	
2006021071	San Juan Road Interchange Caltrans #6 --Monterey, San Benito The Project, as approved by DFG on April 2, 2012, as first amended on July 10, 2012, and again amended on September 27, 2012, involves the construction of an overcrossing at a right angle with U.S. Route 101 northeast of the Monterey/San Benito county line. The purpose of the Project is to eliminate the left turn from San Juan Road to northbound Route 1010 and improve the safety features of the transportation facility. The Project will result in impacts to 30.33 acres and permanent impacts to 14.72 acres of California tiger salamander (CTS) habitat. The Project is expected to result in incidental take of CTS, which is designated as a threatened species under the California Endangered Species Act. The ITP Major Amendment No. 3 referenced above, as issued by DFG authorizes changes which would potentially increase the amount of direct take of CTS and for which additional compensation is required. This ITP amendment does not result in any changes for the project footprint or amount of impacted CTS habitat.	<b>NOD</b>	
2006042175	Davis Woodland Water Supply Project (DWWSP) Alternative Intake/Diversion and Water Pipeline SEIR Davis, City of Woodland, Davis--Yolo Sacramento River diversion, conveyance pipelines, water treatment plant and distribution pipelines (see 2007 DWWSP EIR for more-detailed project description).	<b>NOD</b>	
2006092028	Z-Best Composting Facility Expansion Santa Clara County --Santa Clara The primary purpose of the proposed project is to increase operational efficiencies at the 157-acre Z-Best facility. These operational efficiencies would occur through the expansion of final processing and finishing operations into 28 acres on an 80-acre parcel adjacent to current operations (Area 2), as well as through improvements to existing composting operations on the 77-acre Area 1. Expansion into Area 2 would spread the current operation over a larger area (expansion of 28 acres) - 105 acres total, while maintaining the same volume of composted materials. The additional acreage in Area 2 is necessary to accommodate final processing and compost finishing equipment to create a more efficient operation. Expansion into Phase 2 would be phased as necessary to accommodate expansion over a 2-10 year period. All of the proposed changes	<b>NOD</b>

2007062091	PG&E Line 406/407 Project California State Lands Commission Woodland, Sacramento, Roseville--Yolo, Sutter, Sacramento, Placer The Project is part of PG&E's long-range investment plan to upgrade and increase the local natural gas transmission system in the area. The entire PG&E Line 406/407 Project will construct approximately 42 miles of new pipeline that will span Yolo, Sutter, Sacramento, and Placer Counties.	<b>NOD</b>	
2008122020	City of Manteca Well 20 Arsenic Reduction Project Manteca, City of Manteca--San Joaquin The proposed project involves the installation of a filtration system at an existing potable water well (Well Site 20) to reduce arsenic concentrations to levels acceptable to the EPA and the CHPH. The proposed filtration system will be comprised of two 3/8 inch thick steel filtration vessels, approx 18 ft in height and 12 ft in diameter. The vessels will be filled with a granular ferric oxide filtration media that has been previously approved by the CDPH for arsenic removal. New piping and valves will connect the filtration system to Well 20.	<b>NOD</b>	
2008122107	A07-0017/Z07-0053/P07-0048/P76-0466-C/Stark El Dorado County --El Dorado The California Department of Fish and Game is executing a Lake or streambed Alteration Agreement number 1600-2012-0182-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Kendon Kuykendall. The project is limited to the expansion of the existing road and two 48-inch culverts from 10-feet wide to 20-feet wide wide with 2-foot shoulders on each side of the road. The existing headwalls on the inlets will be expanded to include concrete wing walls, approximately 14-feet long, with a concrete apron spanning the channel from the wing walls. The outlets of the culverts will be extended by 20-feet with a 16-foot by 16-foot coble apron for scour protection. The existing head walls on the outlet end of the culverts will be removed. Native soils will be used for road base and compacted around culverts.	<b>NOD</b>	
2009111067	Nipomo Community Park Master Plan Program EIR San Luis Obispo County Nipomo--San Luis Obispo The proposed project consists of the Nipomo Community Park Master Plan (NCPMP), which would result in the phased construction of recreation facilities and related infrastructure over a 20-year timeframe. The NCPMP proposes approximately 15.96 acres of new recreational uses within the NCP area, 3.96 acres of new open play area (turf), and 7.57 acres of new infrastructure. Approximately 27.5 acres of existing undeveloped area and dirt trails would be converted to accommodate these new uses.	<b>NOD</b>

	Ames/Reche Water Storage and Recovery Program include: spreading grounds construction and operation; connecting pipelines installation of up to three temporary wells, two of which may remain permanently. The Pipeline Installation/Replacement Project is comprised of the following: pipeline improvements installation and/or replacement, fire hydrant installation and isolation valve replacement.		
2010051021	WIRP: Ames/Reche Groundwater Store and Recovery Program and Pipeline Installation/Replacement Project Bighorn-Desert View Water Agency Yucca Valley--San Bernardino The Project involves the construction and operation/maintenance of spreading grounds and the interconnecting pipeline. These facilities would allow the Bighorn-Desert View Water Agency to purchase State Water Project water to meet current and project water needs, as currently the only source is local groundwater. The Project will result in temporary impacts to 6.13 acres of desert tortoise ( <i>Gopherus agassizii</i> ) habitat; the Project will permanently remove 0 acres of desert tortoise habitat. The Project is expected to result in incidental take of desert tortoise, which is designated as a threatened species under the California Endangered Species Act. The ITP referenced above as issued by DFG authorizes incidental take of Covered Species subject to various terms and conditions including the requirement that all authorized impacts are fully mitigated.	<b>NOD</b>	
2011122032	Cabin Creek Biomass Facility Project Placer County Truckee--Placer Placer County is proposing to construct a two-megawatt wood-to-energy biomass facility that would use gasification technology at the Eastern Regional Materials Recovery Facility (MRF) and Landfill. The project site is located on 3.7-acre site in the southernmost area of the property. The proposed project would include construction of an approximately 11,000 sf, two-story structure to house the power generating and emissions control equipment, an approximately one-acre material storage area including a 7,000 sf open air pole barn structure, and additional onsite improvements to support operations at the facility. Biomass materials (fuel) would be processed (ground and screened) at locations from which they are removed (e.g. USFS fuels reduction sites) and delivered via haul truck to the proposed project site.	<b>NOD</b>	
2012052057	Jack Tone Road Bridge Pile Repair and Scour Mitigation Project San Joaquin County Stockton--San Joaquin The Project involves repairing an existing pile of the Jack Tone Road Bridge and installing rock slope protection. The Project consists of creating a uniform channel section through the Jack Tone Road Bridge area within Mormon Slough. The Mormon Slough channel will be cut and filled with a layer of rock slope protection. Soil will be excavated from the channel and south embankment to provide ample space for the placement of rock slope protection. The Jack tone Road Bridge also has damaged pile. The 16-inch diameter pile will be repaired by enlarging the diameter to 24 inches.	<b>NOD</b>

2012111045	<p>2012 PM2.5 Plan San Joaquin Valley Air Pollution Control District --San Joaquin</p> <p>The 2012 PM2.5 Plan presents the San Joaquin Valley Air Pollution Control District's (District) strategy for achieving National Ambient Air Quality Standards (NAAQS) for particulate matter with a diameter of 2.5 microns or less (PM2.5), as established by the United States Environmental Protection Agency (EPA) in 2006.</p> <p>After approval by the California Air Resources Board (ARB), the Plan will be submitted to EPA for review. Following receipt of the Plan, EPA must determine Plan completeness within six months. As required by the federal Clean Air Act (CAA) Section 100k, the EPA must act on the Plan within one year of finding the Plan complete. EPA approval of the Plan places it in the State Implementation Plan (SIP) as required by the federal Clean Air Act (CAA) and the EPA's Clean Air Fine Particle Implementation Rule, Final Rule (72 FR 20586-20667).</p> <p>In addition to meeting the requirements of the CAA and containing measures needed to attain the NAAQS as expeditiously as practicable, the SIP includes the latest technical information, including emissions inventory, monitoring data, and computer modeling results. The Plan is divided into several chapters, with supporting documents provided as appendices. The District developed the Plan with an extensive public process, including workshops and draft documents provided by the District in April, June, and October of 2012.</p>	<b>NOD</b>	
2012112003	<p>Longmeadow Park Project Roseville, City of Roseville--Placer</p> <p>The project is a proposal by the City of Roseville Parks and Recreation Department to develop a park on a 3-acre site located at the corner of Woodcreek Oaks Boulevard and Parkside Way in the City of Roseville. Proposed amenities include: a landscape/tree buffer along the homes on the park property line on the south and east edges; a looped pathway around the perimeter of the park site with exercise pods with stationary fitness stations; a low 3 foot fence near the play area along the street on Parkside; a children's play area; swings which will include belt and bucket seats; covered group picnic area; multi-use turf area; landscape berms along the edges of Parkside Way and Woodcreek Oaks Blvd.; natural area/rain garden for the drainage basin and outfall, which will include a cobbled swale and a decomposed granite pathway; and on-street parallel parking.</p>	<b>NOD</b>	
2012112022	<p>Scott Road Intersection Access Project Caltrans #2 --Sierra</p> <p>The California Department of Transportation (Caltrans) proposes a project to improve traffic operations and safety on U.S. Route 395, in Sierra County, from the Nevada State line to 0.1 mile north. The project would reconfigure an intersection of U.S. Route 395 and Scott Road and relocate a median cross-over for emergency and maintenance vehicles. These improvements will clearly define traffic movements and direction of travel on this section if divided highway.</p>	<b>NOD</b>

2011052062	Feather River West Levee Project Sutter Butte Flood Control Agency --Butte, Sutter The Sutter Butte Flood Control Agency (SBFCA) is proposing the Feather River West Levee Project (FRWLP) to reduce flood risk in the Sutter Basin, which includes portions of Sutter and Butte Counties. The project area for the FRWLP is focused on the corridor along the west levee of the Feather River from Thermalito Afterbay on the north to approximately 4 miles north of the confluence with the Sutter Bypass on the south. This corridor is roughly 500 feet toward the land side of the existing levees and 100 feet toward the water side. This corridor was determined as the area in which levee improvements, such as seepage berms, stability berms, relief wells, setback levees, erosion protection, and slurry cutoff walls, are likely to occur. The corridor is approximately 41 miles long. The project area would also include borrow/spoil sites or project mitigation sites outside of this corridor.	<b>EIR</b>	02/11/2013

2007092041	South Trunk Sanitary Sewer Relief Project San Mateo, City of San Mateo--San Mateo Note: Adnm, Review per lead	<b>MND</b>	01/30/2013
	<p>The City of San Mateo will construct a new, wet-weather sewer relief pipeline to convey excess wastewater flow from the southern portion of the City to the Dale Avenue Pump Station where it will be pumped to the City's Wastewater Treatment Plant. The southern end of the new pipeline will begin at the intersection of E. 25th Avenue. The pipeline will extend northward along S. Delaware Street, northeast along Sunnybrae Boulevard, cross under Highway 101 and terminate near the Dale Avenue Pump Station located on Patricia Avenue. Approximately 8,000 feet of new pipeline will be installed, ranging in diameter from 42- to 54-inches.</p>		
2012121083	Visalia Technical Education Center (VTEC) Expansion Visalia Unified School District Visalia--Tulare The Visalia Unified School District plans to expand and modernize the current VTEC that currently leases a portion of the College of Sequoias Visalia Campus. The VUSD plans to purchase the entire 26.29 acre property from the COS. For purposes of the MND, the project consists of modifications to current buildings with the addition of 2 standard modular classrooms. The future Master Plan Capacity will be 621 students in grades 10-12. Parking will be relocated on site; the new classrooms will occupy current parking places. No changes to the existing ingress/egress are proposed. The existing house and garage on the property will be demolished as the first phase of construction.	<b>MND</b>	01/29/2013
2012121084	Green City Initiative Aliso Viejo, City of --Orange The Aliso Viejo Green City initiative is a policy document containing goals and objectives to increase the quality of life within the city, increase energy efficiency and reduce the city's contribution to climate change in compliance with state of CA Legislative Requirements and regional initiatives. The plan contains a citywide greenhouse gas inventory and emissions forecast, as well as a regulatory compliance discussion.	<b>Neg</b>	01/29/2013
2012121085	Warren Street Improvements Project Bishop, City of Bishop--Inyo The project will rehabilitate pavement, improve drainage, construct continuous curb, gutter and sidewalk, construct drive entrances and curb ramps, improve intersections, replace and extend underground storm drain facilities, repair and improve water and sewer facilities, relocate overhead utilities, remove and replace trees, construct bulb-outs and pocket parks, provide decorative street lighting, and provide an aesthetic theme to the street.	<b>Neg</b>	01/29/2013

2012122069	Grease Receiving Station Mt. View Sanitary District Martinez--Contra Costa Construction of a 10,000 gallon storage tank, grading, paving and related appurtenances for a Grease Receiving Station, and the replacement of the existing Ferric Chloride storage tank. The grease will be used to enhance gas production in the District's existing digester and microturbine and will result in the cogeneration of electricity.	<b>Neg</b>	01/29/2013
2012122071	Update to the Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary State Water Resources Control Board Stockton, Lathrop, Manteca, Escalon, Ripon, Oakdale, ...--San Joaquin, Merced, Stanislaus, Mariposa, Tuolumne, ... The State Water Board is considering amendments to the 2006 Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary (2006 Bay-Delta Plan). The amendments would establish new flow objectives on the Lower San Joaquin River and its three eastside tributaries (Stanislaus, Tuolumne, and Merced Rivers) for the protection of fish and wildlife beneficial uses; new water quality (salinity) objectives for the protection of agricultural beneficial uses in the southern portion of the Sacramento-San Joaquin Delta; and a program of implementation to achieve those objectives. The new LSJR flow objectives and southern Delta water quality (SDWQ) objectives and associated program of implementation would replace the existing San Joaquin River flow and southern Delta water quality objectives and associated program of implementation in the 2006 Bay Delta Plan.	<b>Oth</b>	01/29/2013
2005101047	Pipeline Maintenance Program EIR Santa Clara Valley Water District San Jose, Santa Clara, Morgan Hill, Hollister, Campbell--Santa Clara The Operator proposes to drain of a portion of the Stevens Creek Pipeline in order to perform inspection and maintenance on the pipeline, The California Department of Fish and Game (DFG) is executing a Lake and Streambed Alteration Agreement Number 1600-2012-0397-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Aaron Baker/ Santa Clara Valley Water District.	<b>NOD</b>	
2009082001	Lower Calaveras River Anadromous Fish Barriers Improvement Project Stockton East Water District Stockton--San Joaquin The 0.79-acre Anadromous Fish Passage Barrier Removal - Caprini Site Project will replace an existing culvert and roadway with three, 10-foot tall by 12-foot wide concrete box culverts.	<b>NOD</b>	
2012081047	Tillman Minor Use Permit San Luis Obispo County Paso Robles--San Luis Obispo Request for approximate 14,000 sf winery with tasting room and caves. The project will result in the disturbance of 2.5 acres of a 21 acre parcel that will include 18,035 cubic yards of cut and 10,815 cubic yards of fill with an additional 1,000 cubic yards of material from the cave excavation. The project includes a request for six special events with no more than 80 attendees in addition to industry-wide events allowed by ordinance. Case production initially proposed is 2,000 with a maximum of 10,000 cases.	<b>NOD</b>
