STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**December 16 – 31, 2014**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16 – 31, 2014**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2013

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

<b><u>Documents Received on Tuesday, December 16, 2014</u></b>			
2011052053	Mt. Diablo Resource Recovery Park Pittsburg, City of Pittsburg--Contra Costa The proposed project consists of a Conditional Use Permit (CUP) for the operational expansion and reorganization of the existing Mt. Diablo Recycling Facility (MDRF) and Recycling Center and Transfer Station (RCTS). The expanded facility will be called the Mt. Diablo Resource Recovery Park (MDRRP). The MDRRP will consist of the Mt. Diablo Recycling Facility, Transfer/Processing Facility, Mixed Construction and Demolition (C&D) Processing Facility, and Organics Processing Facility, which are existing facilities proposed for operational expansion, as well as the newly proposed Biomass Gasification Unit and a relocation of a truck maintenance facility in an 18,000 sf structure in the southeastern portion of the project site.	<b>EIR</b>	01/29/2015
2014121051	7th Street / Metro Portal Connection to The Bloc (KOP D) Los Angeles County Los Angeles, City of--Los Angeles The project involves constructing and underground pedestrian passageway below 7th Street to connect the existing 7th Street/Metro Center subway station to the under construction 1.8 million sf mixed use development called The Bloc (formerly Macy's Plaza). The station currently serves the Red, Purple, Expo, and Blue Lines. The original station was built with "knock-out panels" to facilitate station connections to designations near the station. The tunnel will be 17 lineal feet in length and 20 feet wide by 15 feet high. The tunnel will be approximately 27 feet below grade. The tunnel will join to the lower level of the future mall and provide street access via escalators. It is important to provide an additional point of access to the station as the station is the busiest in the entire system. Currently there are no exits south of 7th Streets.	<b>MND</b>	01/14/2015
2004122083	Sherwin-Williams Development Project Emeryville, City of Emeryville--Alameda The proposed project would divide the project site into new parcels and roadways and construct a mixed-use development. The project would include a total of 621,000 sf of residential space (540 units) and 94,600 sf of commercial space. In addition to the park and open space, the project would also include a children's playground, an adult fitness space, and a central green within the Hubbard Circle. Ground level uses would include common space and commercial/retail uses. Because the site is over 5 acres, a planned unit development (PUD) is required, which would be adopted by ordinance and would govern the zoning of the project site. The project applicant is proposing two potential development options (Option A and Option B) that include the same level of total development.	<b>NOP</b>	01/14/2015
2013021042	Groundwater Reliability Improvement Program (GRIP) Recycled Water Project Water Replenishment of Southern California Whittier--Los Angeles Note: Extended Note: Recirculated  The proposed AWTP would provide additional filtration, reverse osmosis, and	<b>NOP</b>	02/05/2015

<b><u>Documents Received on Tuesday, December 16, 2014</u></b>			
	advanced oxidation disinfection treatment prior to recharging groundwater. The proposed site is bounded by the Rio Hondo Pump Station to the north, the San Gabriel River to the east, a self-storage warehouse facility to the south, and the San Gabriel River Parkway to the west. The proposed project would allow WRD to offset the current use of 21,000 acre-feet of imported water per year with a blend of tertiary-and advanced-treated recycled water for groundwater replenishment in the Central Groundwater Basin.		
2014121050	Proposed Annexation Adjustments of Lee Lake Water District's and Elsinore Valley Municipal Water District's Service Areas Lee Lake Water District --Riverside The proposed project entails sphere amendment and/or annexation of three parcels. Parcel 1 is located northeast of I-15 and east of the rural residential Spanish Hills community. Parcel 2 is located east of the Sycamore Creek residential development with I-15 traversing the western portion of the parcel. Parcel 3 is located east of I-15 and northeast of Corona Lake. The intended purpose of the sphere amendment and/or annexation is for utility and maintenance purposes. Specifically, Parcels 1 and 2 of the Toscana Specific Plan, along with additional properties along the southwest border, are proposed to be annexed into LLWD service area for sewer, water, reclaimed water service, and maintenance purposes. Parcel 3 would be detached from the LLWD sphere and included into the EVMWD sphere for utility and maintenance service purposes.	<b>Neg</b>	01/14/2015
2014121052	Conditional Waiver of Waste Discharge Requirements for Agricultural Wastewater Discharges and Discharges Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert --Imperial This regulatory action is for a proposed Conditional Waiver of Waste Discharge Requirements (WDRs). The intent of the Conditional Waiver is to ensure agricultural wastewater discharges and discharges of wastes from drain maintenance activities in the Imperial Valley in Imperial County occur in a manner that does not adversely affect the beneficial uses defined in the Basin Plan. Accordingly, the proposed Conditional Waiver establishes conditions for agricultural wastewater discharges originating within the Imperial Valley. The Conditional Waiver also establishes conditions for drain maintenance discharges that occur as a result of drain operation and maintenance (O&M) activities.	<b>Neg</b>	01/14/2015
2001101059	Seaside Resort Seaside, City of Seaside--Monterey Modification of existing Use Permit UP-01-20 to expand the list of uses permitted within the designated Timeshare Parcels at the Seaside Resort. Additional uses include "hotel rooms, interval units, fractional units, residential units (which may or may not be subject to a formal condominium regime) or lots, other legal forms or ownership permitted by applicable law, or any combination thereof."	<b>NOD</b>	
2010101061	Chino Desalter Phase 3 Expansion Project Chino Basin Municipal Water District Ontario--San Bernardino CDFW is executing a Lake or Streambed Alteration Agreement (SAA # 1600-2014-0219-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Chino Basin Desalter Authority, represented by Mr. Curtis	<b>NOD</b>

<b><u>Documents Received on Tuesday, December 16, 2014</u></b>			
	<p>Paxton, 2151 S. Haven Avenue Suite 202, City of Ontario, State of California, 91761. Prior to notification, the Applicant constructed launching and receiving pits associated with the Santa Ana River crossing micro tunneling operation, and began to lay pipeline underneath the river. The Micro Tunneling Bore Machine (MTBM) used to tunnel under the river hit an obstruction on July 2, 2014, causing the MTBM to be deflected off line and grade. Subsequent attempts to pull back the MTBM have failed. The project is limited to the actions required to locate the MTBM and to gather the data needed to formulate a plan to retrieve it.</p> <p>Impacts include partial removal of portions of the City of Norco's existing levee and the removal of 0.10-acre of riparian vegetation to allow access for ground scanning equipment, auger cuttings (if necessary), and the construction of a ramp and platform for a large drill rig. This project will result in the temporary loss of 0.10-acre of riparian habitat as well as temporary impacts associated with the two 25-foot by 15-foot launching and receiving pits.</p>		
2012072028	<p>2012 Draft Marin County Housing Element Marin County --Marin</p> <p>The 2013 SEIR for the 2007-2014 Housing Element Update was certified on September 24, 2013. The approved project is an update to the County's Housing Element for the period 2015-2023. The purpose of the Housing Element is to achieve an adequate supply of decent, safe, and affordable housing for Marin's residents at all income levels, particularly the workforce, seniors and other special needs populations. The Housing Element assesses housing needs for all income groups and lays out a program to meet these needs. Housing affordability in Marin County and in the Bay Area as a whole has become increasingly important as climate change issues are addressed. A strategic infill approach that supports affordable housing for members of the workforce at selected missed-use locations near existing jobs and transit, along with an emphasis on green building and business practices offers Marin communities a way to carry out the four E's of sustainability (Environment, Economy, Equity and Education) while also preserving agricultural land, open space, sensitive resource areas and existing single family neighborhoods. As noted above this strategy follows the Countywide Plan goal of focusing what little growth unincorporated Marin is expected to experience within the City-Centered Corridor. This approach has been in effect and adhered to for the past 40 years. The overall goal of the Housing Element is to present goals, objectives, policies, and action programs to facilitate housing for existing and future needs in a balanced way that retains these attributes. Minor modifications to the prior 2007-2014 Housing Element involving deleting 9 sites from the housing inventory, deleting 12 Housing Element programs that were implemented, adding 6 new Housing Element programs that involve performing planning studies, and making clarifying revisions to 5 Housing Element programs.</p>	<b>NOD</b>	
2014091063	<p>Cantua Creek Stream Group Improvements Project Water Resources, Department of --Fresno</p> <p>The proposed project includes improving storage in the ponding basins through flood easement acquisition and raising the embankments/roads. The work would include acquiring new flood easements, acquiring less than one acre of land, raising approximately 9,900 linear feet of Canal embankment and constructing an approximately 350-foot-long weir, raising two roads, raising temporary pump pads and embankments around Westlands Water District turnout facilities, clearing</p>	<b>NOD</b>

	sediment within Cantua Creek, and relocating some utilities during construction. All borrow materials for construction would be excavated onsite. The proposed project would improve the conditions of the facilities to achieve a 50-year level of flood protection for the canal in this area.		
2014128187	Lease Renewal Caltrans #3 Sacramento--Sacramento The California Department of Transportation (Caltrans) proposes to lease approximately 6,800 square feet of office space. The space would house approximately 38 staff. Public transit is available within 1/4 mile of the site. There are sufficient electricity, water, gas, wastewater, and refuse removal services to adequately serve this property.	<b>NOE</b>	
2014128188	Bridgeport MS Cinder Trap Caltrans #9 --Mono Repave the maintenance station driveway, add a curb, and drop inlet.	<b>NOE</b>	
2014128189	Kona Kai Seawall Repair San Diego Unified Port District San Diego--San Diego The proposed project involves removal and replacement of an existing approximately 79 linear feet portion of an approximately 1,100 linear feet seawall along San Diego Bay, located adjacent to the Kona Kai Resort at 1551 Shelter Island Drive, San Diego, California 92106. Currently, this portion of the seawall contains significant foundational deficiencies and cannot meet minimum loading conditions for safe and continued use. The proposed project will return the seawall to its original design specifications.	<b>NOE</b>	
2014128190	Day at the Docks San Diego Unified Port District San Diego--San Diego The proposed project is the Day at the Docks, which will take place at the San Diego Sportfishing Landings on April 25, 2015. The District will provide event sponsorship and financial assistance for the free event, a festival that celebrates the official start of southern California's spring saltwater fishing season. The event has an expected attendance of approximately 50,000 people.	<b>NOE</b>	
2014128191	Sunroad Resort Marina - Big Bay Boat Show San Diego Unified Port District San Diego--San Diego The proposed project is the Sunroad Resort Marina Big Bay Boat Show, which will take place at Sun Resort Marina leasehold January 22, 2015 through January 25, 2015, for a total of four days. The District will provide sponsorship in the form of District funding for the event, a boat show featuring land and in-water exhibits. The event will include 100 new and pre-crused sailboats and motor yachts, dozens of marine vendors with the latest nautical products and services, food and drink sponsored by local restaurants, special boating events and boat rides for kids and adults. The event has an expected attendance of approximately 14,000 people. Parking will be accommodated by the dirt parking lot, located at North Harbor Drive and Harbor Island Drive as well as existing parking spots at the Sunroad Resort Marina. The dirt parking lot will be available to event attendees and the public.	<b>NOE</b>

2014051062	La Palma Recharge Basin Project Orange County Water District Anaheim--Orange The Project involves the construction and operation of groundwater recharge basin.	<b>EIR</b>	01/30/2015
2014052044	1601 Mariposa Street Mixed Use Project San Francisco, City and County of San Francisco--San Francisco The project sponsor would develop residential and ground floor commercial uses on a 3.36-acre project site on portions of two blocks located at 1601-1677 Mariposa Street and 485-497 Carolina Street in the Showplace Square/Potrero Hill area of San Francisco. The project would involve demolition of existing site uses and construction of two four-story mixed-use buildings, referred to as the "East" and "West" Buildings. Approximately 320 residential units and 10,000 sf of ground floor commercial space would be distributed throughout both buildings. A two-level below grade parking garage under the East Building would contain approximately 265 to 275 parking spaces and be accessed from Arkansas Street (lower garage level) and 18th Street (upper garage level). The proposed buildings would have heights ranging from 31 feet to 40 feet. A total of approximately 39,195 gsf of publicly accessible and private open space would be developed throughout the project site.	<b>EIR</b>	01/30/2015
2014062018	Russell Ranch Project Folsom, City of Folsom--Sacramento The proposed project site is located within the FPASP in the City of Folsom. 	and Small-Lot Subdivision Maps, Planned Development Permit, and Affordable Housing Agreement. The proposed land use changes would result in a decrease in Single Family to 281 units, the addition of 480 new Single-Family High Density units, a decrease in Multi-Family Low Density to 114 units, the elimination of Multi-Family Medium Density, the elimination of General Commercial, and an increase in Parks to 8.9 acres, Open Space to 176.4 acres, and Public/Quasi-Public to 14.3 acres from the land uses approved in the FPASP.		
2014121053	<p>Monroe Storm Drain Stage 4 Project Riverside County Flood Control and Water Conservation Riverside--Riverside</p> <p>The proposed project consists of removing the existing trapezoidal channel and constructing approximately 2,070 feet of Reinforced Concrete Box (RCB) ranging from 8 ft.wide by 4 ft. high to 14 ft. wide by 5 ft. high. The main line will be constructed within Monroe Street beginning at the upstream terminus of the existing Monroe/Monticello Channel underground RCB project approximately 600 ft. south of California Avenue and extending south in Monroe Street to its connection with the existing Monroe Channel, Stage 1 RCB project approximately 70 ft. north of Magnolia Avenue. Nine existing laterals will be reconnected to the newly constructed RCB mainline at points where the laterals are currently connected to the existing channel.</p>	<b>MND</b>	01/15/2015
2014121054	<p>Yorba Linda Pump Station Abandonment Project Orange County Sanitation District Fullerton, Placentia--Orange</p> <p>The Sanitation District is proposing to demolish the existing Yorba Linda Pump Station, as well as an existing below ground force main and two gravity sewer lines located in the City of Fullerton. The existing pump station facility and gravity sewer lines are located at the corner of Yorba Linda Boulevard and Campus Drive (Associated Road) and north of California State University, Fullerton. The force main is located along Yorba Linda Boulevard, on private property (Tribeca Apartments), and Palm Drive. Under the current schedule, construction is anticipated to occur between July 2019 and July 2022.</p>	<b>MND</b>	01/15/2015
2014122035	<p>Riviera Apartments - 1738 Riviera Walnut Creek, City of Walnut Creek--Contra Costa</p> <p>The project will include the construction of a nearly 50-foot high, five-story residential structure with 26 dwelling units and 29 parking spaces. The unit mix consists of 1 studio, 13 one-bedroom and 12 three bedroom units, including a manager's unit. Sixteen of the twenty-six units will have balconies to allow some residents with additional private outdoor space. The project's entry drive is located on the northeastern part of the site with access to Riveria Avenue. The parking area provides 29 spaces consisting of three surface spaces and 26 mechanical lift spaces and 52 bicycle spaces. The project be 100% restricted to very-low income residents. The applicant is requesting two planning concessions for which it is eligible under density bonus law and the City's ordinance parking, and building setbacks.</p>	<b>MND</b>	01/15/2015

2014122037	Riviera Apartments - 1515 Riviera Walnut Creek, City of Walnut Creek--Contra Costa The project will include the construction of a 50-foot high, five-story residential structure with 30 dwelling units and 21 parking spaces. The 30 dwelling units consists of 7 studios, 10 one-bedroom, 7 two-bedroom and 6 three bedroom units. Affordability of all the apartments except for the manager's unit will be regulated by deed restrictions recorded by the public funding sources, including City, County, and Low-Income Housing Tax Credit programs. The project will provide several amenities including a rooftop community room, kitchen and terrace which are designed to host a variety of indoor-outdoor gatherings. The applicant is requesting three planning concessions for which it is eligible under density bonus law and the City's ordinance; parking, residential storage and setbacks.	<b>MND</b>	01/15/2015
2014122038	Convict Lake Road and Trail Improvement Project Mono County Mammoth Lakes--Mono Proposed road improvements involve resurfacing, rehabilitation and restoration work for 2.75 miles of Convict Lake Road. The project elements are all located along the existing roadway. Proposed trail improvements focus on removal of existing pavement, addition of a new base course, and overlay the trail with a new asphalt concrete pavement section.	<b>MND</b>	01/15/2015
2014122036	Prudler Tentative Subdivision Map Project Woodland, City of Woodland--Yolo The proposed project includes the development of 186 single-family homes resulting in an average density of 5.44 units per acre. In addition, the proposed project would include a 1.38-acre park. The Spring Lake Specific Plan would need to be amended to modify the East Street cross-section for the segment south of the County Fair Mall to Sports Park Drive. The Spring Lake Specific Plan Amendment includes a request to modify the median and reduce the number of lanes from four to two. The internal streets, street lighting, and underground utilities (sewer, water, stormdrain) in the proposed development would be publically owned and maintained by the City of Woodland. All access to the site would be from East Street, to the west, and Sports Park Drive, to the south.	<b>NOP</b>	01/15/2015

	update project on 12-9-14 and determined that project changes are minor or otherwise reduce project impacts, and there are no changes to surrounding circumstances, or other new information which would trigger the need for supplemental environmental review under PRC 2116 and Guidelines Section 15162. On 12-16-14 the City Council took final action to adopt Ordinance #1610 (2014 Series) establishing an Airport Overlay Zone, Special Focus Overlay Zone, and amending the Zoning designations for Special Planning Areas identified in Chapter 8 of the Land Use and Circulation Element Update Project, which were approved by the Council on September 16, 2014.		
2014052041	Mile Residential Care Home (PMPB 20120102) Placer County Loomis--Placer The project proposes a Minor Use Permit to allow for the operation of a residential care facility on a 5.1-acre property to serve up to twelve residents and a Variance to allow for a setback of 41 feet from the front property line.	<b>NOD</b>	
2014052074	Calistoga Cottages Santa Rosa, City of Santa Rosa--Sonoma The project involves a Mitigated Negative Declaration, General Plan Amendment, Rezoning, and Tentative Parcel Map to subdivide a 0.99-acre parcel into four individual lots. There is an existing home which will remain. On November 18, 2014, the City Council adopted the Mitigated Negative Declaration, approved the General Plan Amendment, and approved the Tentative Parcel Map. The Rezoning (final discretionary review) is scheduled before the City Council on January 6, 2015.	<b>NOD</b>	
2014092078	Hat Creek River Parkway/Wild Trout Area Public Access and Restoration Project Fish & Wildlife #1 --Shasta The project is limited to restoration and enhancement of ecological function to the Hat Creek Wild Trout Area and to provide improved recreational use opportunities. It includes 3 components: Recreational System of river trails, parking and kiosk/informational signs; Native Plant Restoration to restore/enhance native riparian & upland plant species; Instream Restoration to improve complexity for trout and other native fish through the installation of large woody debris in key locations.	<b>NOD</b>	
2014101039	Remedial Action Plan for Saugus Industrial Center Toxic Substances Control, Department of Santa Clarita--Los Angeles The Department of Toxic Substances Control (DTSC) has approved a Removal Action Plan (RAP) pursuant to Chapter 6.8, Division 20, sections 25323.1 and 25356.1 for the Saugus Industrial Center facility. The purpose of the project is to remediate soil and groundwater impacted with Volatile Organic Compounds (VOCs) which include Tetrachloroethylene (PCE) and Trichloroethylene (TCE), 1,2-dichloroethane (1,2-DCA), toluene, vinyl chloride (VC), and chloroform (CF) that environment. A soil Vapor Extraction (SVE) system will be used to remove VOCs from impacted soils and in-situ biological treatment will be used to remediate groundwater.	<b>NOD</b>

2014102058	<p>Childs Meadows Head Cut Stabilization and Repair Project Tehama County Mineral--Tehama</p> <p>The project proposes to construct bio-engineered erosion stabilization infrastructure at a head cut along Gumsey Creek within the Childs Meadows complex. The head cut control structure is designed to provide maximum assurance that the head cut will be arrested in place while providing an esthetically pleasing, biotechnical component that is consistent with existing conditions in the Childs Meadow area. The grade control structure will include 4 design elements: (1) a vegetated rock grade control structure, (2) several rootwad revetments, (3) Live fascine willow plantings, and (4) log cored willow baffles. In order to reduce the potential for the proposed head cut infrastructure to be flanked by stream channel moment, additional log cored baffles outside the immediate head cut area will be installed to deflect flow into the current channel along those flow paths where flanking is most likely to occur.</p>	<b>NOD</b>	
2014112036	<p>Tramway Road/A-Line Road/F-Line Road/Road 90A Shaded Fuel Break Project Tehama County --Tehama</p> <p>This project consists of installing head cut stabilization and control infrastructure at a knick point along Gumsey Creek located within the southern portion of Childs Meadows. Project work will be completed in several discrete work elements which must be undertaken to provide the best change that the active head cut is arrested from future migration, erosion, and sediment delivery. Completion of all project work will take approximately 4 weeks to complete, including staging equipment and materials, construction of the structures, and final landscaping. The exact timing of the phases, in relation to one another, will be determined in consultation with the heavy equipment and restoration contractor(s) at the time of the project implementation. Initial construction logistics will involve the evaluation and protection of important site characteristics and construction logistics will involve the evaluation and protection of important site characteristics and construction access. During construction of the erosion control structure a stream diversion plan will be in place that minimizes downstream turbidity. The specific requirements of the plan along with Best Management Practices and specific Mitigation Measures have been designed in a manner that reduces water quality impacts to a less than significant level.</p> <p>The head cut control structure is designed to provide maximum assurance that the head cut will be arrested in place while providing an esthetically pleasing, biotechnical component that is consistent with existing conditions in the Childs Meadow area. The grade control structure will include 4 design elements: (1) a vegetated rock grade control structure, (2) several rootwad revetments, (3) Live fascine willow plantings, and (4) log covered willow baffles.</p>	<b>NOD</b>	
2014129010	<p>Demonstration of Colony Energy's Power System at the Endeavor Facility Tulare, City of --Tulare</p> <p>Construct a digester designed to process locally-collected dairy manure, food and agricultural processing residuals; restaurant and cafeteria food scraps; restaurant grease trap residuals; and organic municipal solid waste. Construct a pipeline from the digester facility to the natural gas grid pipeline so the produced pipeline-grade biogas can be fed into the natural gas grid and marketed as a diesel alternative for on-road trucks. This facility will also produce electric and thermal energy to be</p>	<b>NOD</b>

2014128207	Hagan Community Park outdoor Aquatic Center Renovation Project Cordova Recreation and Park District Rancho Cordova--Sacramento Project renovates an existing outdoor aquatic center including: three pools, mechanical systems, ADA and decking upgrades, new spray feature, shade canopies, and zero depth entry in training pool. The project will restore a heavily used aquatic center so that it may continue to serve District patrons.	<b>NOE</b>	
2014128208	Investigating Flexible Generation Capabilities at the Geysers Energy Commission --Lake Project will develop new tools and methods to investigate how operations and infrastructure at the Geysers may be modified in order to address the greater demands imposed on the grid by integration of intermittent renewable energy sources, such as wind and solar. This project will enable GPC to define the maximum load changes that are cost-effectively achievable at the Geysers in terms of magnitude, frequency, duration, and ramp rate. GPC will gain further understanding of how it can assist balancing the grid while CAISO continues to develop and define a new marketplace for acquiring flexibility capabilities from all generation resources in CA. The model will be verified through tests on selected wells, pipelines and a power plant, and then at a cross-tied location to determine effects on the larger steam field. Equipment, instrumentation and controls will be selected, installed and tested in various flexible generation scenarios. Pilot testing data will be collected, evaluated, and used to validate the model, and a comprehensive analysis will be performed to identify the methods and associated costs needed to flexibly operate the Geysers facilities while optimizing and protecting the geothermal resource. At the end of the project, GPC will review the results of pilot testing to determine what field management tools and capital improvements projects are needed to provide flexibility for integration of intermittent renewables. A cost-to-benefit analysis, taking into consideration the limits and costs of flexibly operating the Geysers, will be conducted to evaluate the investments needed by GPC to utilize the Geysers as a flexible resource. Approx. 73% of the requested funding will be spent in CA.	<b>NOE</b>	
2014128209	Territory Transfer: Larkspur-Corte Madera School District to Reed Union School District Marin County Corte Madera--Marin The Marin County Committee on School District Organization received a Territory Transfer Petition on June 20, 2014 from Chief Petitioners, Brooke and Huntly Gordon. The Petition proposes to transfer 11 parcels (located on the North Side of Paradise Dr) from the Larkspur-Corte Madera School District to Reed Union School District.	<b>NOE</b>

	of residential uses in 961 residential units consisting of 551 condominiums and 410 apartments. Parking would be available in surface parking lots, as well as in above-grade and subterranean parking structures.		
2012071058	West Valley Logistics Center Specific Plan (WVLCSP) Fontana, City of Fontana--San Bernardino The WVLC Specific Plan proposes approximately 3,473,690 sf of industrial development on approximately 212 acres with 14.9 acres developed as a detention basin, 55.23 acres retained in natural hillside open space, and right-of-way dedications on an 291-acre site bisected by Armstrong Avenue on predominately undeveloped land in the City of Fontana, in the southwest "Valley Region" of San Bernardino County. Seven industrial buildings are proposed with industrial and office space within industrial buildings. The proposed Specific Plan amendment would replace the site's existing Valley Trails Specific Plan and residential land use designation with the WVLC Specific Plan and industrial designations and would remove the residential units, recreation facilities and elementary school from the proposed development.	<b>EIR</b>	02/02/2015
2013051059	Love's Travel Center in the City of Hesperia Hesperia, City of Hesperia--San Bernardino Note: Recirculated  The proposed Love's Travel Center includes truck and vehicle fueling islands, truck washing/maintenance, tire sales, and 12,271 sf of supporting commercial uses. The project site is 10.6 acres located between the I-15 Freeway and Highway 395 just south of Joshua Street. Existing land uses include a Pilot Truck Stop and Outpost Cafe to the north, vacant land to the south and west, and I-15 to the east. The project requests a change of land use designation from Neighborhood Commercial to Commercial/Industrial Business Park under the Main Street and Freeway Corridor Specific Plan. The DEIR is being recirculated in its entirety but mainly to address comments on the DEIR regarding traffic and alternatives.	<b>EIR</b>	02/02/2015
2014032074	Woodcreek 66 Project Solano County --Solano Note: Extended Review  Woodcreek 66 would be a 66-lot, single-family, residential subdivision. Individual lots would each consist of a single-family residential parcel approximately one-quarter acre in size (10,000-sf minimum), which would require rezoning from the existing 1-acre minimum. The project includes a rezoning to R-TC-10 as well as use of the County's Policy Plan Overlay to allow deviations from certain development standards. Access to the project would be from Suisun Valley Road and Rockville Road.	<b>EIR</b>	02/17/2015
2014121057	Monterey Bay Sanctuary Scenic Trail - Moss Landing Segment Bicycle/Pedestrian Path and Bridge Project Monterey County --Monterey The project is located in North Monterey County in the community of Moss Landing. The project is approximately .86 miles long. It extends from the North	<b>MND</b>	01/16/2015

	Harbor (northwest side of the existing State Highway 1 Bridge) to Moss Landing Road. It includes the construction of a 10 foot paved bicycle path with 2 foot wide decomposed granite shoulders on either side of the path and a 386 foot long foot bridge over the Elkhorn Slough.		
2014121058	Union Pacific Railroad Company Imperial County Calipatria--Imperial Union Pacific Railroad has requested CUP#14-0011 to amend to their existing CUP#08-0008 to increase water extraction from 90 acre feet to 150 acre feet to complete a section of their dual tracking project. Location 5999 Ted Kipf Road, Calipatria Area.	<b>MND</b>	01/16/2015
2014121059	Hollister Avenue Bridge Replacement Goleta, City of Goleta--Santa Barbara Replacement of the existing 4-lane Hollister Avenue Bridge with new cast-in-place post-tensioned concrete slab bridge. The new structure will clear span San Jose Creek with 80-foot transition to natural creek upstream and 210-foot transition downstream. The 68-foot long bridge will have a typical cross section of four 12 foot-wide through traffic lanes, bicycle lanes/shoulders, 10 foot-wide sidewalks and a median. The Project will convey 100-year flood flows and conform to the recently widened San Jose Creek Channel. The channel bottom will be protected by articulated concrete mats, with fish passage provision to match recently completed construction downstream. A privately owned steel bridge, 75 feet south of Hollister Avenue, will be removed toward the end of the construction period. Construction is planned between the Spring of 2016 to spring 2018.	<b>MND</b>	01/16/2015
2014121061	Fairmont School Water Supply Pipeline Project Sanger Unified School District Sanger--Fresno Implementation of the project would result in the connection of Fairmont School to the Cummorah Knolls (Fresno County Service Area 10) water system (CSA-10) located approximately three miles north of Fairmont School. The Proposed Project consists of improving the safety and reliability of CSA-10 Wells 1 and 2, installation of approximately 15,500 linear feet of water distribution pipeline within existing County of Fresno road right-of-ways to connect Fairmont School to CSA-10, and localized improvements to the Fairmont School water system including installation of a booster pump station and water storage tanks.	<b>MND</b>	01/16/2015
2014122039	New Hope Tract HMP Levee Repair Reclamation District 348 --San Joaquin Improvement of the New Hope Tract system to meet the HMP standards is proposed between approximate station 71+00 - 236+00 - 292+50 and 318+00 to 377+50. Approximately 24,800 feet of levee will be improved to meet the HMP levee standards. In addition, the District is making improvements to irrigation pumps and siphons, as needed to complete the repairs.	<b>MND</b>	01/16/2015

	acre, consistent with the site's Low Density Residential General Plan designation and location in the R1-10 zoning district. A separate but related approval requested by the applicant is to modify a common property line between APN 045-411-013 (1982 Hooker Oak Avenue) and the subdivision site (APN 045-411-016) via a boundary line modification application (BLM 14-08).		
2014121055	<p>Pre-Stressed Concrete Cylinder Pipe Rehabilitation Program and Second Lower Feeder Rehabilitation Project Metropolitan Water District of Southern California --Los Angeles</p> <p>Metropolitan has more than 830 miles of pipelines that distribute drinking water to its member agencies within its service area. The pipelines are made of various materials, including PCCP. Between 1962 and 1985, 163 miles of PCCP was installed throughout the service area. Under certain subsurface conditions, PCCP lines have an elevated risk of failure compared with other types of pipe. PCCP failures can occur without warning. Such failures can be catastrophic, compromising system reliability and resulting in unplanned major repairs, significant costs from service interruptions and repair work, and potential third-party damages. In response to this risk, in 1999, Metropolitan developed a program to inspect and asses all 163 miles of PCCP within its distribution system. In 2011, Metropolitan initiated a comprehensive program to evaluate and rank PCCP lines with the highest risk of failure. The inspections and data indicate that the following five feeders represent the highest risk: the Sepulveda Feeder, Rialto Pipeline, Allen McColloch Pipeline (AMP), Calabasas Feeder, and the SLF. Metropolitan proposes to rehabilitate the PCCP portions of these five pipelines under the proposed program and proposed project. Rehabilitation would occur along approximately 70 miles of the AMP, Calabasas Feeder, Rialto Pipeline, and Sepulveda Feeder under the proposed program and approximately 30 miles of the SLF under the proposed project. The first pipeline to be rehabilitated by Metropolitan would be the SLF, followed by the remaining four pipelines (Sepulveda Feeder, Rialto Pipeline, and Calabasas Feeder, AMP) over a period of approximately 15 to 20 years. Rehabilitation would include relining PCCP lines or installing supplemental or relocated lines. Rehabilitation or replacement of isolation valves or appurtenances such as blow-off valves, air-release and vacuum valves, manholes, and meters would also occur within or adjacent to the pipelines.</p>	<b>NOP</b>	01/16/2015
2014121060	<p>Dhammakaya International Mediation Center Specific Plan Azusa, City of Azusa--Los Angeles</p> <p>The proposed project includes the demolition of several existing on-site structures located on the Dhammakaya International Meditation Center site including the Montserrat building, the Xavier Center meeting hall, and eight on-story dormitory buildings. Implementation of the Specific Plan will result in several improvements to the DIMC including the construction of a 69,179 sf meditation hall, nine two-story dormitory buildings, a storage/workshop building, and stormwater detention/water quality basin, a fire access road, additional parking, a reflection pool, and landscaping. The following approvals will be required for the proposed project: Specific Plan, Design Review, and Zone Change.</p>	<b>NOP</b>	01/16/2015

1996082013	15th and 14th Streets (L to S Streets) Combined Sewer Relief CIP # XM63 Sacramento, City of Sacramento--Sacramento The 7th Street Sewer project includes the construction of approximately 3,200 linear feet of 72-inch, 60-inch and 48-inch diameter pipeline and appurtenances, construction of 19 manholes and other associated work in 7th Street from P to K Street and in L Street from 7th to 9th Street. This project is a part of the Downtown Sewer Upsizing Program (DSUP) and when completed, will help to reduce flooding of the combined sewer system (CSS) in the Downtown Area of Sacramento.	<b>NOD</b>	
1996121013	Sale Of Naval Petroleum Reserve No. 1 (Elk Hills) Kern County Bakersfield--Kern Third amendment of existing California Department of Fish and Wildlife (CDFW) CESA MOU originally issued to Occidental of Elk Hills, Inc., in December 1997, and as previously amended in September 1999 and July 2010. Amendment No. 3 as approved extends the expiration date of the CESA MOU, as amended, for 24 months, expiring December 31, 2016. Amendment No. 3 does not change the nature or scope of the Project as previously authorized pursuant and subject to the CESA MOU, as amended. CDFW approved Amendment No. 3, as responsible agency under the California Environmental Quality Act (CEQA).	<b>NOD</b>	
2003022082	Dublin Ranch West/Contra Costa County Parcel Dublin, City of Dublin--Alameda, Contra Costa The project involves the construction of up to 1,023 residential units (including low, medium, and medium-high density homes) in 6 neighborhoods on 91.7 acres. The total acreage of the Project area is 159.0 acres, of which 137.9 acres will be permanently impacted, 15.7 acres will be temporarily impacted, and 5.4 acres have been avoided and will not be impacted by the Project construction activities.  The ITP Amendment 1 constitutes a minor amendment to an ITP CDFW issued to Jennifer Lin in connection with the project in May 2012. This minor amendment involves modifying the temporary and permanent barrier installation period.  The Project will result in impacts to 136.8 acres of California tiger salamander ( <i>Ambystoma californiense</i> ) habitat. The project is expected to result in incidental take of California tiger salamander, which is/are designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>	
2004101076	Interstate 5 North Coast Corridor Project Caltrans #11 San Diego, Oceanside, Carlsbad, Solana Beach, Del Mar, ...--San Diego Caltrans proposes to widen and lengthen the Bataquitos Bridge and add HOV/Managed Lanes as well as pedestrian and bicycle upgrades. The State Lands Commission action is an approval of a Public Agency Permit and Right-of-way maps for the Bataquitos Bridge. The Term is continuous use, plus one year.	<b>NOD</b>

2004112037	1000 16th Street Urban Mixed-Use Project San Francisco, City and County of San Francisco--San Francisco The overall 1000 16th Street Urban Mixed-Use Project Development Project (Project) includes converting Daggett Street, a vacant parcel, into a park. The State Lands Commission action is approval of the termination of the public trust and transfer of the Daggett Street parcel to the City and County of San Francisco.	<b>NOD</b>	
2005061013	Revised PRC 421 Recommissioning Project California State Lands Commission Goleta--Santa Barbara The PRC 421 oil wells and offshore lease area occupies State tide and submerged lands under the jurisdiction of the California State Lands Commission. Venoco, Inc., an independent oil and gas company, filed an application to return oil and gas Lease PRC 421 to oil production from an existing shoreline well that has been shut-in since 1994. The project includes using an existing pier, separating water and gas from produced oil at the existing Ellwood Onshore Facility in the City of Goleta, and decommissioning and removing a second well and associated pier adjacent to the production well. The California State Lands Commission action is considering the Recommissioning Plan to resume oil production from the existing shoreline well.	<b>NOD</b>	
2005062111	Proposed Lower Yuba River Accord Yuba County Water Agency Marysville--Merced Lower Yuba River Fisheries Agreement, Yuba Accord Water Purchase Agreement, Conjunctive Use Agreements, Modification of 1966 Power Purchase Contract between YCWA and PG&E.	<b>NOD</b>	
2008091026	Topaz Solar Farm (Optisolar) Conditional Use Permit (DRC2008-00009) San Luis Obispo County --San Luis Obispo The Project includes installing and operating arrays of photovoltaic modules and associated electrical production and transmission infrastructure. The Project will tie directly into the existing Pacific Gas and Electric Morro Bay/Midway 230 kV transmission line. Project construction will take approximately three years. The Project will result in impacts to 3,510 acres of San Joaquin Kit fox ( <i>Vulpes macrotis mutica</i> ) habitat. The Project is expected to result in incidental take of San Joaquin kit fox, which is designated as a threatened species under the California Endangered Species Act (CESA). The incidental take permit (ITP) for this Project, as issued by CDFW, authorizes incidental take of species listed under CESA that may occur as a result of Project implementation. Minor Amendment No. 9 elaborates on the Operations and Maintenance (O&M) Covered Activities and adjusts the monitoring requirements to fit those activities, as well as allowing biologists to discourage and eliminate dens where there may be risk of Covered Species electrocution. In addition, buffers from Covered Species dens for O&M Covered Activities during the non-pupping season are adjusted in response to the observed tolerance of Covered Species to Covered Activities near dens. The activities covered in the ITP, the extent of the Project's impacts, and the extent of habitat compensation lands are unchanged.	<b>NOD</b>

2008092005	City of Santa Clara Draft 2010-2035 General Plan Santa Clara, City of Santa Clara--Santa Clara Addendum to 2010-2035 General Plan FEIR for the 2015-2023 City of Santa Clara Housing Element Update	<b>NOD</b>	
2009021009	California Valley Solar Ranch & Twisselman Conditional Use Permits (DRC2008-00097, DRC2009-00004) San Luis Obispo County San Luis Obispo--San Luis Obispo The Project entails constructing, operation, and maintaining a 250-megawatt solar photovoltaic energy facility, including solar panel arrays, gathering power lines, a substation, access roads, buildings, two evaporation ponds, and an approximately three-mile long generation tie-line to convey electricity to the existing Morro Bay-Midway transmission line. The Project as originally permitted would result in permanent impacts to 1,782 acres and temporary impacts to 80 acres of San Joaquin kit fox ( <i>Vulpes macrotis mutica</i> ), giant kangaroo rat ( <i>Dipodomys ingens</i> ), and San Joaquin antelope squirrel ( <i>Ammospermophilus nelsoni</i> ) habitat. The Project is expected to result in incidental take of San Joaquin kit fox and San Joaquin antelope squirrel, which are designated as threatened species, and giant kangaroo rat, which is designated as an endangered species, under the California Endangered Species Act (CESA). The incidental Take Permit and the previous six amendments (collectively referred to herein as "ITP") for this Project, as issued by the California Department of Fish and Wildlife (CDFW), authorizes incidental take of species listed under CESA that may occur as a result of Project implementation. Minor Amendments No. 7 to the ITP extends the date by which the Permittee must preserve and endow Habitat Management (HM) lands for Phase 4 by six months, from December 31, 2014 to June 30, 2015.	<b>NOD</b>	
2009072025	Reuse of the Mare Island Drydocks Vallejo, City of Vallejo--Solano The Mare Island Dry Docks Incidental Take Permit (ITP) previously issued involves the establishment and operation of a ship repair/dismantling facility. Activities associated with this project include the rehabilitation and dredging of existing Drydocks 2 and 3 and Berths 11-14. CDFW issued the existing ITP to address and authorize, as fully mitigated, related impacts to Delta smelt ( <i>Hypomesus transpacificus</i> ), longfin smelt ( <i>Spirinchus thaleichthys</i> ), winter-run Chinook salmon ( <i>Oncorhynchus tshawytscha</i> ), and spring-run Chinook salmon ( <i>Oncorhynchus tshawytscha</i> ), species designated as endangered or threatened under CESA. Minor Amendment No. 3, as approved, modifies the previously issued ITP, to extend the work period until December 31, 2014. In approving Minor Amendment No. 3 CDFW determined, among other things, that no substantial increase in the nature or scope of the previous authorization provided by the CESA ITP, and that no significant or substantially more severe environmental impacts that previously considered and disclosed would occur.	<b>NOD</b>	
2010031034	EIR 03-09 JLB Maricopa Sun Solar Complex Project by Maricopa Sun LLC (PP10216) Kern County Bakersfield--Kern The Project, as permitted by CDFW, involves the construction, operation, and decommissioning of a 3,856.1-acre photovoltaic solar facility and associated on-site distribution lines, as well as the permanent conservation of 5,692.6 acres	<b>NOD</b>

2014121062	Henry Miller Memorial Library Monterey County Carmel-by-the-Sea--Monterey The project generally includes four components, as follows: 1) establishing the use of the existing structures as library/museum, bookstore and gift shop; 2) holding public and private events at the Library building as specified in the MND; 3) bathroom addition to the Library building and other site improvements; and 4) Lot Line adjustment. The applicant also proposes to provide 26 "on-site" parking spaces; including 14 spaces in the front of the property and 12 spaces along the site's southern boundary, including a portion of the neighboring site under a proposed parking, access and utility easement; and the use of shuttle services to transport event attendees to and from the Big Sur area, the Monterey Peninsula and other areas depending on the scale and nature of the particular event.	<b>MND</b>	01/20/2015
2014121063	California Department of Transportation Fontana Solar Photovoltaic Project General Services, Department of Fontana--San Bernardino The Proposed Project is a 1.241-MW ground-mounted, unmanned, solar photovoltaic power generation system that will generate electricity to serve the California DOT's Traffic Management Center, Park and Ride, and Southwest Regional Laboratory facilities. The PV power system would be built on an approximately 7.8-acre portion of the 35-acre parcel. Panels, including steel support structures, would be up to a maximum of 8 feet in height. The solar arrays would convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) by two centrally-located inverters before being delivered onsite buildings. An 8-foot security fence would be installed around each of the solar array blocks. Primary access for the solar arrays would be from Victoria Street using an existing driveway and drive aisle west.	<b>MND</b>	01/20/2015
2014121068	Operations and Maintenance of Water Conservation Facilities San Bernardino Valley Municipal Water District Redlands--San Bernardino The San Bernardino Valley Water Conservation District is charged with operating and maintaining facilities for groundwater recharge. In general, the facilities consist of 3,650 acres of spreading and recharge area. Maintenance of these facilities occurs year-round or as needed to clear storm debris that may block intake structures or become built up on the basin floor, preventing recharge. The Project is the long-term maintenance of the District's facilities and through the District has routinely operated these facilities since the 1930s, the District desires to obtain formal permits from the various regulatory agencies which now have jurisdiction over the facilities. As part of obtaining these permits, the agencies require the District to assess the potential environmental impacts of the operations and maintenance. The environmental impacts of operations and maintenance of the District's Santa Ana facilities were analyzed in the previous environmental documents. The operations and maintenance of the Mill Creek facilities were not included in those CEQA analysis. Therefore, the focus of this Initial Study will be the environmental impacts of the operations and maintenance of the Mill Creek facilities (herein referred to as the Project), within the District's property that comprises the Mill Creek facilities (herein referred to as the Project Area).	<b>MND</b>	01/20/2015

<b><u>Documents Received on Friday, December 19, 2014</u></b>			
2014121069	Santee 50 Santee, City of Santee--San Diego Santee 50 is a proposed 50-unit residential townhome complex on a 3.1-acre site in the western portion of the City of Santee. The 50 townhomes would be divided into nine buildings, containing a combination of three-plex, five-plex, six-plex, or seven plex of townhomes. The proposed buildings would range from two- to three-stories with a maximum height of 45 feet and, depending on the floor plan, the units would contain 1,745, 1,751, or 1,882 sf of living space. Each unit would have three bedrooms (with some units containing an additional loft area). Existing on-site structures would be demolished prior to grading. The project anticipates minor grading with 3,000 cubic yards to be cut and 12,000 cy to be filled, for a total import of 9,000 cy.	<b>MND</b>	01/20/2015
2014122046	99 Cents Only Store Elk Grove, City of Elk Grove--Sacramento The proposed Project is requesting a General Plan Amendment [from Office (OF) to Commercial (C)], Rezone [from Business and Professional Office (BP) to Shopping Center (SC)], and Design Review. The entitlements would allow the development of a 20,000 sf retail sales building with a truck loading well and associated parking, landscaping, and asphalt drive aisles on 3.48 acres.	<b>MND</b>	01/20/2015
2014122047	Project 14-009 (Nelson/Gill) Sutter County Yuba City--Sutter A General Plan amendment from COM to EC, a rezone from CH-PD District to E-C District and a design review for approximately 10.8-acres of a 22.33-acre parcel. When the property was rezoned to CH-PD in 1973, a Planned Development Overlay was included in the zoning, but it did not specify any proposed uses. The property is currently cultivated with a walnut orchard and does not contain any structures. No development is proposed at this time.	<b>MND</b>	01/20/2015
2014122048	The 2015 Fisheries Restoration Grant Program Fish & Wildlife #2 --Sacramento This project uses grant funds approved by the California Legislature to initiate activities that are designed to restore salmon and steelhead habitat in coastal streams and watersheds.	<b>MND</b>	01/20/2015
2014122049	Wastewater Treatment Plant Upgrade Project Colusa, City of Colusa--Colusa City of Colusa proposes several upgrades to their existing state-of-the art wastewater treatment plan to meet Clean Water Act requirements in their NPDES permit including: collection system improvements of pipelines within the City limits, upgrades to treatment process using the Bio-Lac patented denitrification process to remove nitrogen from wastewater; minor improvements to existing sludge drying beds to improve drainage, conversion of abandoned treatment ponds to new storage ponds for reclaimed wastewater and new pipeline to convey tertiary treated wastewater to nearby agricultural fields for seasonal reuse. Project anticipates funding through SWRCB SRF program.	<b>MND</b>	01/20/2015

2014122050	Voluntary Local Program Contra Costa Resource Conservation District -- Contra Costa Resource Conservation District (CCRCD) is requesting authorization for a Voluntary Local Program (VLP) and take authorization pursuant to California Fish and Game Code and implementing regulations in Section 786 et seq. of Title 14 of the California Code of Regulations. The VLP is a coordinated approach among CCRCD and the Department of Fish and Wildlife (Department) that provides authorization for take of candidate, threatened, or endangered species incidental to routine and ongoing agricultural activities if those activities incorporate specified habitat management practices. The CCRCD VLP becomes effective upon issuance of a take authorization pursuant to 2086 and will be in effect for 10 years.	<b>MND</b>	01/20/2015
2013062011	Green Valley Convenience Center El Dorado County --El Dorado ARCO-branded gas station under illuminated canopy with eight self-service pumps, convenience store, single-bay self-service car wash, parking spaces, air/water unit and vacuums, monument sign, lighting and landscaping, and three underground fuel tanks. Project proposes two right-in, right-out driveways, one on Green Valley Road (with a deceleration taper from the intersection) and one on Sophia Parkway. Raised median would be installed in Green Valley Road to prevent left turns out of project. The curb at Green Valley Road/Sophia Parkway would be modified to conform to County standards. Area containing structures/pavement would be raised with imported fill then sloped (with erosion control vegetation) to transition from existing grade towards unnamed intermittent creek on parcel.	<b>NOP</b>	01/20/2015
2014121064	Grove Park Mixed-Use Development (Planning Application No. 14-0069) Wildomar, City of Wildomar--Riverside The proposed project consists of approximately 50,000 sf of new commercial/retail and office uses, 1.8 acres of park, and 1.3 acres of oak preserve on the northern portion (10.3 acres) of the site, while the southern portion (9.0 acres) of the site will be developed with eight three-story multiple-family (162 units) apartment buildings. To accommodate the Project's proposed commercial/retail uses, the Project includes a proposal to change the General Plan Land Use designation on the northern half (of the site from Business Park to Commercial Retail); and a Zone Change from Rural Residential to Commercial Scenic Highway (C-P-S). The project will require a Tentative Parcel Map (TPM No. 36673) to subdivide the project property into two parcels, and a Plot Plan to develop the project site with commercial/retail, office and multiple-family uses.	<b>NOP</b>	01/20/2015
2014121065	West Alton Development Plan Orange County Irvine--Orange The Project proposes a General Plan Amendment and Zone Change that would allow a multi-family development, with an average of 30 units per acre. A total of 970 multi-family units are proposed. North of the wildlife movement corridor, approximately 660 units would be constructed, with the remaining 310 units being located south of the wildlife movement corridor. The units would be up to 5 stories (70 feet maximum height) with both surface and garage parking. The wildlife movement corridor would be protected onsite.	<b>NOP</b>	01/20/2015

<b><u>Documents Received on Friday, December 19, 2014</u></b>			
2014121066	North Street Subdivision Hollister, City of Hollister--San Benito The proposed project is the subdivision of approximately 81 acres of land. The project proposes a planned unit development (PUD), pursuant to Hollister Municipal Code section 16.16.030; with land use designation of Medium Density Residential (8-12 du/ac). A total of 450 residential units are proposed (265 single-family units and 185-multi-family units) with an on-site water quality/retention basin, approximately 24.86 acres of open space, and several new roads servicing the development.	<b>NOP</b>	01/20/2015
2014121067	Derrel's Mini Storage Tulare County Visalia--Tulare To change the land use designation of a 19.33 acres site (APN 119-230-007) from Agriculture to Commercial or Light Industrial. And rezone the site from Exclusive Agricultural - 20 acre minimum to Service Commercial (C-3) zone.  The site proposal is a three phased construction of a mini-storage facility. Phase 1 consists of 129,550 sf; Phase 2 consists of 148,950 sf, and Phase 3 consists of 96,600 sf. RV storage will be used on the Phase 2 portion of the site, moving to Phase 3 as the earlier phases are constructed with the eventuality of the entire site constructed as mini storage units. The applicant approximates a ten year full buildout of the Project site.	<b>NOP</b>	01/20/2015
2014122045	Placer Ranch Specific Plan, Sphere of Influence & Annexation Project Roseville, City of Roseville--Placer The 2,213-acre Placer Ranch Specific Plan is a mixed-use community proposed for development in the City of Roseville. It features a 300.4 acre California State University Sacramento branch campus (Sac State Placer Campus) and Sierra College transfer center, that would accommodate 30,000 full-time equivalent students, 3 million sf of academic space. 8,779,200 sf of regional commercial, community commercial, mixed use, light industrial and office uses are proposed. In addition, 5,376 residential units are proposed include a 532-unit age restricted community. An elementary school, middle school, 185 acres of parks and open space are also planned.	<b>NOP</b>	01/20/2015
2008122023	Gruber Mountain Estates (PSUB T200070256) Placer County --Placer This project is for the Annexation of property to PCWA's Zone No. 1 service area. PCWA is proposing to annex a portion of Gruber Mountain Estates which lies outside of PCWA's Zone No. 1 service area. The annexation will allow the Agency to provide irrigation water service for the subdivision. The developer of the Gruber Mountain Estates has requested the annexation of the property in order to acquire Irrigation water service. The County of Placer has adopted a Mitigated Negative Declaration for the Gruber Mountain Estates, which evaluated potential environmental impacts associated with the proposed Subdivision, which included the construction of a major subdivision and annexation, in the Gruber Mountain Estates Mitigated Negative Declaration.	<b>NOD</b>

	State of California. This project will improve visitor services.		
2014128226	Emergency Removal of Bark Beetle Infested and Dead Hazard Trees (14/15-SD-14) Parks and Recreation, Department of --San Diego Cut down and remove Torrey pine trees in Torrey Pines State Natural Reserve that are mortally infested with bark beetles or Red Turpentine beetles to prevent the spread to healthy trees. This project will protect park resources.	<b>NOE</b>	
2014128227	Tree Removal for Resource Protection Parks and Recreation, Department of --Del Norte In order to protect an environmentally and archeologically sensitive area, an unhealthy Douglas fir tree will be removed in the campground. This 4.98 foot DBH tree has been determined by the State Park Forester to be moved, as they are severe lean, and is likely to fall soon. The targets of this hazard tree cannot be moved, as they are cultural resources and old growth trees, which comprise marbled murrelet and northern spotted owl habitat. Cutting the tree will also prevent the root mass from lifting out of the ground and damaging other large trees and sensitive resources connected to the roots.	<b>NOE</b>	
2014128228	Approval of Ground Lease and Lease Back, Laurel Heights, UCSF University of California San Francisco--San Francisco The proposed transaction is the approval of modified Ground Lease terms, materially consistent with the business terms approved by Regents. The basic transaction is 1) a ground lease of the property approximately (10.3 acres) to a private entity; and 2) a space leaseback of the building (362,800 gross square feet) by UCSF for a term of from five to ten years. The proposed space leaseback allows for the ongoing occupancy by UCSF office programs until replacement space is planned and developed at other appropriate campus locations.	<b>NOE</b>	
2014128229	Miller Elementary School Whole Site Modernization Project San Diego Unified School District San Diego--San Diego The San Diego Unified School District (District) proposes to conduct a whole site modernization of the existing Miller ES campus, which is located on federal land leased from the United States Navy (USN). The proposed whole site modernization would include the demolition of seven (7) existing portable classrooms at Miller ES and six (6) portable classrooms at Miller Child Development Center (CDC), renovation of four (4) existing loft-style classrooms to include permanent partitions, improved site path of travel, construction of a new on-site student drop off area, and installation of a new artificial turf play field. The proposed project would replace a total of 13 existing portable classrooms with a new 10-classroom building, and thus would not result in a net increase in classroom space greater than 10 new classrooms.	<b>NOE</b>	
2014128230	Hancock Elementary School Whole Site Modernization Project San Diego Unified School District San Diego--San Diego The San Diego Unified School District (District) proposes to conduct a whole site modernization of the existing Hancock ES campus, which is located on federal land leased from the United State Navy (USN). The proposed whole site modernation would include the demolition of fifteen (15) existing portable	<b>NOE</b>

	classrooms, renovation of three (3) existing loft-style classrooms to include permanent partitions, improved site path of travel, construction of a new on-site student drop off area, and installation of a new artificial turf play field. The proposed project would replace a total of 15 existing portable classrooms with two (2) new 8-classroom buildings, and thus would not result in a net increase in classroom space greater than 10 new classrooms.		
2014128231	Perry Elementary School Marquee Sign Project San Diego Unified School District San Diego--San Diego Install one electronic marquee sign at the Perry Elementary School campus. The marquee sign would be 5x9 feet, single sided, internally illuminated with LED lighting, and wall mounted on the face of an existing school building within the campus. The marquee sign would be located approximately 95 linear feet in distance from face-of-building (where the proposed sign would be mounted) to face-of-building of the nearest residence. Since the marquee sign would be wall mounted to an existing school building, no electrical trenching would be required.	<b>NOE</b>	
2014128232	Hoover High School New Three-Story Classroom Building and Theater Project San Diego Unified School District San Diego--San Diego Construct a new three-story classroom/administration building, theater, parking lot, and tennis courts on the existing Herbert Hoover High School campus. Site improvements of the main parking lot adjacent to El Cajon Boulevard and the interior courtyard are also included as project components. The proposed project would demolish the existing approximately 11,500 square foot administration and counseling building and twenty (20) modular classrooms (portables) and associated site elements. A new parking lot and six (6) tennis courts would be installed at the prior location of the portable structures upon completion of the new three-story building.	<b>NOE</b>	
2014128233	Columbia Air Attack Base Cement Project Forestry and Fire Protection, Department of --Tuolumne The existing cement pad in the tanker loading area at the Columbia Air Attack Base is deteriorating. Flying pieces of cement and rock from the deteriorating pad pose a hazard to ground crews and to the aircraft. The existing cement pad will be removed using a tracked excavator, loader and dump truck. A new cement pad will be poured in the same footprint. The existing loading area is approximately 34,400 square feet in size. The new cement pad will be the same size and dimensions as the existing pad. The loading area is adjacent to a runway on one side and a lawn on the other side. The project will not require any removal of vegetation.	<b>NOE</b>	
2014128234	San Juan Canyon Shaded Fuel Break, Phase II California Conservation Corps --San Benito Create a 0.75-mile long, shaded fuel break along San Juan Canyon Road, approximately 5 miles from San Juan Bautista, working westerly from the intersection of Pioneer Park access road. This area is in a very high priority area for hazard fuel reduction treatment, as identified in the San Benito County Community Wildfire Protection Plan (SBCCWPP). This project will reduce fire risk and intensity in the area and improve access on fire evacuation routes.	<b>NOE</b>

2014121074	<p>Pedestrian-Bicycle Bridge over San Juan Creek in Shandon San Luis Obispo County --San Luis Obispo</p> <p>San Luis Obispo County Department of Public Works is proposing to construct a new pedestrian-bicycle bridge over San Juan Creek in Shandon adjacent to the existing vehicle bridge on the East Centre Street. The primary purpose of the project is to improve safety over the creek by providing a bridge to accommodate pedestrians and bicyclists. The new bridge will be located north of and adjacent to the East Centre Street Bridge, and will be approximately the same height as the bridge Widening the bridge to accommodate sidewalks and/or bike lanes was considered but dismissed due to funding issues. The project will result in the temporary disturbance of 0.7 acre and the permanent disturbance of approximately 0.35 acre.</p>	<b>MND</b>	01/20/2015
2014122052	<p>Conditional Use Permit 2014-002 Glenn County Orland--Glenn</p> <p>Pristine Sun, LLC has applied for a Condition Use Permit for the construction, operation, and maintenance of a 1.5 MW PV Solar Generating Facility on a 20.09 acre parcel. The 1.5 MW PV Solar single axis array tracking system will impact approximately 14.54 acres of land. The electrical power generated will interconnect to a PG&amp;E 12 KV local distribution line that runs along County Road M adjacent to the western border of the project site. The generated energy would be sold to PG&amp;E and distributed through the local power lines from the Orland B Substation located at the southwest corner of County Road M and County Road 20 for public consumption. Additional project information is available in the Initial Study and other documentation.</p>	<b>MND</b>	01/20/2015
2014122054	<p>Village Parkway Extension Project West Sacramento, City of West Sacramento--Yolo</p> <p>The City of West Sacramento, in cooperation with the Caltrans, is proposing a new 0.4-mile multi-modal roadway. The proposed project would extend Village Parkway from where it currently terminates at the intersection of Stonegate Drive to the Mike McGowan Bridge over the Yolo Barge Canal. The new roadway would be built to accommodate two 12-foot-wide lanes in each direction but would initially be striped for one in each direction. The proposed project would also include a 16-foot wide raised median, 6-foot wide bicycle lanes, 5-foot wide sidewalks set back from the curb by 5-foot wide landscaping strips, street lights, and underground utility infrastructure. The proposed roadway would connect to the existing roadways with two roundabout intersections.</p>	<b>MND</b>	01/20/2015
2014122055	<p>Harvest Subdivision Project Folsom, City of Folsom--Sacramento</p> <p>The proposal would rezone the site to SF Dwelling, Small Lot District (R-1-M), PD overlay. A tentative subdivision map is proposed to create a maximum of 125 single-family residential lots, two open space lots, three landscape corridor lots, and 10 home owners' association lots. A parcel map is proposed to create a five-acre public park site within the subdivision. The project would extend Bowen Drive eastward from East Natoma Street, providing primary access to the proposed residential subdivision and access to the existing parking lot within Hazel McFarland Park. The internal circulation system would consist of five cul-de-sac courts connecting to an internal loop street. A U-turn at East Natoma Street and</p>	<b>MND</b>	01/21/2015

	Bowen Drive would allow emergency response vehicle access to the northern entrance a mid-block turnaround provided on the long cul-de-sac.		
2014122062	Hare Creek Center MND Fort Bragg, City of Fort Bragg--Mendocino New shopping center consisting of three buildings, including: Building A at 15,000 sf, Building B at 10,000 sf and Building C at 4,500 sf, for a total of 29,500 sf of retail space. The project would be served by a new access road, proposed for the west edge of the development that would connect Bay View Avenue (CR #439A) to the southwest to Ocean View Drive at the intersection of Ocean View and Harbor Avenue. The project also includes a new 99 space parking lot, loading zones, pedestrian improvements, rainwater storage tanks, utilities, drainage improvements, associated landscaping and a boundary line adjustment.	<b>MND</b>	01/20/2015
2015011003	North Shore Park Project Desert Recreation District --Riverside The Project is known as "North Shore Park". The Project proposes to develop five acres in the unincorporated community of North Shore, near the Salton Sea, in the East Coachella Valley as a public use neighborhood park under the administration of the Desert Recreation District. The proposed park features include a general purpose sports field, skate plaza, sport court, playground, splash pad, calisthenics exercise circuit, shaded pavilion, community bicycle repair cooperative, parking, and restrooms.	<b>MND</b>	02/02/2015
2014122051	Provision of Facilities for Bullis Charter School Los Altos School District Los Altos--Santa Clara The proposed project would provide school facilities, including the installation of several new portable structures at the Blach and Egan Campuses, to support and accommodate BCS' projected increase in the number of BCS students and associated faculty/staff. The District would allocate school facilities to BCS for the next four years based upon a projection of BCS enrollment beginning in the 2015-2016 school year and ending in the 2018-2019 school year. Because of the expansion of BCS on the Blach Campus, the District would relocate Stepping Stones Preschool (which operates on LASD property pursuant to a lease agreement) to the Covington Campus in an area designated for District (rather than school) use.	<b>NOP</b>	01/20/2015
2014022073	Vesting Tentative Parcel Map Application No. PLN2014-0013 - Martella Farms Stanislaus County Modesto--Stanislaus Request to create four 40+ acre parcels from 2 parcels totaling 166.2 acres, planted in walnut orchard, for the purpose of agricultural financing.	<b>Neg</b>	01/20/2015
2014121070	Grasslands Mitigation Bank Memorandum of Understanding Grassland Water District Los Banos--Merced The applicant requests approval of a Memorandum of Understanding with the Grassland Water District to extend the operating window of the existing water delivery structure (weir) on Los Banos Creek to facilitate delivery of water to the Grassland Mitigation Bank Project site.	<b>Neg</b>	01/20/2015

	using existing transmission infrastructure.		
2014082010	Hanna Boys Center (PLP11-0040) Sonoma County --Sonoma Request to subdivide a 47.1+/- acre portion of the Hanna Boys Center campus property into hree residential lots and a Designated Remainder. The Designated Remainder is the portion of the property currently developed with a single family dwelling and will be retained by the Hanna Boys Center. The new parcels will range in size from 9.4+/- acres to 12.9+/- acres and will be sold as individual residential parcels for future development of single family homes. The proposed Minor Subdivision requires a General Plan Amendment, Specific Plan Amendment, Zone Chnage and a Lot Line Adjustment to a 47.1+/- acre portion of the southwestern, undeveloped panhandle area of the Hanna Boys Center campus. This portion of the Hanna property is not currenty utilized for any purposes due to distance from the existing developed campus area and topographic constraints. Each lot will be served by Valley of the Moon public water and individual septic systems. The Designated Remainder parcel is currently developed with a single family dwelling and accessory buildings, and will remain on a well and septic system. No new development is proposed for the Designated Remainder parcel. The new residential lots, including the Designated Remainder, will be accessed off of Carriger Road via a new subdivision road that meets Transportation and Public Works and Fire-Safe Standards.  The request also includes a change in the General Plan land use designation for the southern portion of the developed Hanna Campus Facility from a Rural Residential to a Public Facilities land use designation, reflecting the current school use of the site. This change also requires a General Plan Amendment, Specific Plan Amendment, Zone Change and Lot Line Adjustment. All of the Hanna Campus will continue to be accessed via an existing paved driveway, directly off of Arnold Drive.	<b>NOD</b>	
2014091017	Water System Improvement Project Washington Unified School District --Fresno The Proposed Project consists of the development of a new well, installation of approximately 3,800 linear feet (LF) of water distribution pipeline and hydrants within the existing County of Fresno road rights-of-way, and connection to the existing Washington Colony School water supply system (located approximately 600 feet east of Washington Union High School).	<b>NOD</b>

	Sacramento and Central Valley Flood Protection Board are responsible agencies for the project.		
2014128258	<p>Wilder Ridge Fuel Reduction Project California Conservation Corps --Humboldt</p> <p>The proposed project will create a shaded fuel break extending up to 45 feet from one or both sides of Wilder Ridge Road. Treatment would occur on several rural residential properties where the Mattole Restoration Council (MRC) has received signed access agreements from all private landowners. The proposed project will reduce fire fuels by pruning, limbing, and brushing horizontal and vertical roadside tree and shrub vegetation using chainsaws and hand tools at various widths from one or both sides of the road, depending on need, aspect (some areas are very steep), and landowners concerns. Only trees 8 inches diameter breast height (DBH) or less will be cut down, as needed. DBH will be measured at 4 feet above the ground surface. Limbing tree branches will only occur up to a height of 6 feet. Tree spacing will be 15-30 feet apart depending on need. The total project area is approx. 29 acres. CA Conservation Corps (CCC) will use mechanical weed pullers to remove some areas of Scotch broom, French broom, and coyote brush to inhibit re-sprouting. herbaceous plant species will not be removed as part of this project. The project will concentrate where fuels are obviously heavy and in need of treatment in order to protect structures from wildfire. Project activities would avoid any of the riparian areas associated with creeks and drainages adjacent to the project site.</p> <p>The purpose of the project is to reduce fuel loads and protect homes along an important ingress and egress for the Wilder Ridge and greater Honeydew communities in the Wildland Urban Interface areas of the State Responsibility Area. The shaded fuel break will reduce fire potential and severity from a roadside ignition. In addition, because it follows a ridgeline, it will serve as a line of defense for fire personnel should wildfire approach from either side. This project is supported by the CALFIRE Unit Chief, the Humboldt County Fire Safe Council, and the Lower Mattole Fire Safe Council, and is listed as high priority in the Lower Mattole Fire Plan (2002) which is currently being updated as the Lower Mattole Community Wildfire Protection Plan.</p>	<b>NOE</b>	
2014128259	<p>Bull Creek West Fuel Reduction Project California Conservation Corps --Humboldt</p> <p>The proposed project would create a shaded fuel break extending up to 50 feet from one or both sides of Bull Creek Road. Treatment would occur on several rural residential properties where the Mattole Restoration Council (MRC) has received signed access agreements from the landowners. The proposed project will reduce fire fuels by pruning, limbing, and brushing horizontal and vertical roadside tree and shrub vegetation consisting of tan oaks, Douglas fir, madrone, and brush using chainsaws and hand tools at various widths from one or both sides of the road, depending on need, aspect (some areas are very steep), and landowner concerns (fences). Only tree 8 inches diameter at breast height (DBH) or less will be cut down, as needed. DBH will be measured at 4 feet above the ground surface. Limbing of tree branches will only occur up to a height of 6 feet. Tree spacing will be 15-30 feet apart depending on need. The total project area is approx. 13 acres. CA Conservation Corps (CCC) will use mechanical weed pullers to remove some areas of Scotch broom, French broom, and coyote brush</p>	<b>NOE</b>

2014128260	<p>to inhibit re-sprouting. Herbaceous plant species will not be removed as part of this project. The project will avoid all riparian and wetland areas associated with adjacent creeks or drainages. The project will concentrate in areas where fuels are obviously heavy and in need of treatment to protect structures from wildfire. There will be no ground disturbance. Branch and leaf materials will be chipped on or lopped and scattered within eighteen inches of the ground, or hauled off-site. The purpose of the project is to reduce the risk of fire danger to residents by reducing fuel load and fire intensity along an important ingress and egress for the Honeydew, Wilder Ridge, and Petrolia communities in Wildland Urban Interface (WUI) areas of the State Responsibility Area.</p> <p>Mattole Road Fuel Reduction Project California Conservation Corps --Humboldt</p> <p>The proposed project will create a shaded fuel break by pruning, limbing, and brushing horizontal and vertical roadside tree and shrub vegetation using chainsaws and hand tools at various widths from one or both sides of the road, but not exceeding 65 feet in total width, depending on need, aspect (some areas are very steep), and landowner concerns (fences). Only trees 8 inches diameter breast height (DBH) or less will be cut down, as needed. DBH will be measured at 4 feet above the ground surface. Limbing of tree branches will only occur up to a height of 6 feet. Tree spacing will be 15-30 feet apart depending on need. The total project area is approximately 40.1 acres. CCC will use mechanical weed pullers to remove some areas of Scotch broom, French broom, and coyote brush to inhibit re-sprouting. Herbaceous plant species will not be removed as part of this project. The project will avoid the Mattole River riparian area and any creeks or drainages along the project site, and instead will concentrate on areas where fuels are obviously heavy and in need of treatment to protect structures from wildfire.</p> <p>There will be no round disturbance. Branch and leaf materials will be chipped on site, or lopped and scattered no more than eighteen inches deep, or hauled off-site. Project vehicles will park in established dirt or asphalt turn-outs to avoid the need for traffic lane closures.</p> <p>The purpose of the project is to reduce the risk of fire danger to residents of the Petrolia and Honeydew Communities by reducing fuel and fire intensity.</p>	<b>NOE</b>

	approximately 24.46 acres of Commercial and Mixed Use and approximately 3.56 acres of Industrial land within the project site to a new land designation of Neighborhood Village. The amendment includes text and figure changes to add a new section specific to the Chollas Triangle site, create a new land use designation, and amend existing designations on the Eastern Area Community Plan Map. The Mid-City Communities Plan Amendment also includes the realignment of Lea Street as a two-lane collector, and the removal of Chollas Parkway from the Future Recommended Street Network to allow for the future vacation of the approximately 11.4-acre Chollas Parkway. The 11.4 acres would be designated to provide 4.99 acres as population-based park land, approximately 5.5 acres as open space; and approximately 0.91 acres for mixed use development through the Neighborhood Village land use designation. The amendment would allow for the project site to develop as a mixed-use neighborhood village and implement the General Plan City of Villages Strategy with up to 486 residential units and 130,000 sf of nonresidential uses.		
2014124003	Proposed Land Exchange between Bureau of Land Management & Agua Caliente Band of Cahuilla Indians Bureau of Land Management Palm Springs--Riverside The proposed land exchange would result in the transfer of certain public lands in the Santa Rosa and San Jacinto Mountains National Monument to the Agua Caliente Band of Cahuilla Indians in exchange for certain Tribal lands in the National Monument. Up to 5,799 acres of BLM-managed public lands may be exchanged for up to 1,470 acres of Tribal lands, depending on appraised land values. The purpose and need for the proposed land exchange is to improve opportunities for the use or protection of public lands and to promote their effective management. It would reduce the extent of checkerboard landownership by consolidating BLM and Tribal Land bases.	<b>EIS</b>	03/29/2014
2014071052	PL13-0148 Ventura County Ojai--Ventura The applicant requests a conditional use permit be granted to authorize the construction of a 8504 sf, new single story fire station which includes a public office/reception area, employee fitness and daytime use area, an employee kitchen, dining facility, employee dorms and an 80-foot tall lattice type radio antenna. The request also includes a variance be granted to increase the project's allowable lot building coverage.	<b>MND</b>	01/21/2015
2014121077	UCLA Basketball Practice Facility University of California, Los Angeles --Los Angeles The proposed Project involves construction and operation of a new Basketball Practice Facility (up to 37,000 gsf) to accommodate both men's and women's basketball training programs of the Department of Intercollegiate Athletics. The proposed facility would be built near Pauley Pavilion at the south end of the Los Angeles Tennis Center in the Central zone of the campus. The two-story building would accommodate men's and women's practice gyms, locker rooms, training, and support facilities. Display space within the building would be provided to honor current and former UCLA Basketball student-athletics.	<b>MND</b>	01/21/2015

2014121078	<p>Monterey Peninsula Country Club - Dunes Golf Course Renovation Monterey County Pacific Grove--Monterey</p> <p>The subject project consists of the renovation and redesign of the Golf Course to improve general playing conditions; and the restoration of the Sawmill Gulch Creek as it crosses portions of the golf course. A critical objective is to achieve a 25 percent reduction in the overall water use which would be achieved by an overall reduction of existing irrigated turf areas by approximately 16 acres. Hole-by-hole improvements include changes - reduction/expansion/relocation - to the tee areas, green areas, sand/bunker areas, fairways and roughs; removal/relocation of cart paths and substitution of new cart paths with permeable surfaces; tree and vegetation planting and landscaping installation. The improved/redesigned holes will generally cover the same areas as the current layout.</p>	<b>MND</b>	01/21/2015
2014121081	<p>SUBTT18976 Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino Note: Review Per Lead</p> <p>A request to subdivide 3.2 acres of land in order to develop 31 detached residential condominiums for a site located on the east side of Madrone Avenue between Arrow Route and 9th Street in the Medium Development District. Staff has prepared a MND of the environmental impacts for consideration.</p>	<b>MND</b>	01/28/2015
2014121082	<p>Unit 2 Channel Improvements Project Santa Barbara County Flood Control District Santa Maria--Santa Barbara</p> <p>The Santa Barbara County Flood Control District is proposing hydraulic capacity improvements along the Unit 2 Channel. The Channel is a straight, linear earthen channel with the exception of an offset in the Channel of approximately 150 feet at its mid-point. The Channel discharges into the Santa Maria River through the existing levee by a 14 foot wide x 6 foot high box culvert. Project components include: right-of-way acquisition for access, straightening the offset, increasing Channel bottom width, replacing and extending the width of the overflow weir, replacing the existing 54-inch corrugated metal pipe CMP pipe from the East channel, opening up an existing buried culvert, and adding a culvert within the existing Santa Maria River levee system. This is needed to reduce the risk flooding and property loss.</p>	<b>MND</b>	01/21/2015
2014121083	<p>Case No. 2014-84 - Maple Avenue Live/Work Project Westminster, City of Westminster--Orange</p> <p>The proposed project involves a Tentative Tract Map to allow for the subdivision of the existing 1.83 acre lot into two parcels and 37 condominium units. The existing on-site structures would be removed and the proposed development would consist of 37 new live/work condominium units with interior drive aisles, surface parking, pedestrian walkways, and landscaping. The development would require a General Plan Amendment from Industrial to Residential-High and a Zone Change from M-1 to R-5-PD (19 to 24 units/acre) of a 64,790 sf portion of the site to support the proposed density of 22.3 units per acre. A Comprehensive Plan is required to approve the proposed site layout and project design. The proposed live/work units are comprised of 17 two bedroom units (1,555 sf of floor area per unit) and 20 three bedroom units (1,826 sf of floor area per unit). The proposed workspaces</p>	<b>MND</b>	01/21/2015

	(to be located at ground-level) would support professional office, studio (art, music, dance, photography, wood working), clothing boutique, surf shop, hair salon, graphic design, and other similar uses as further defined in the conditions, covenants, and restrictions (CC&Rs) for the project, as well as those uses allowed with the issuance of a Home Based Business Zoning Clearance Permit. The second and third floors (which are connected to the first level work space floor) would consist of living area. The project would construct a total of 11 on-site buildings with an approximate height of 36.5 feet, and would vary in color and materials. The project site is not listed on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5.		
2014122056	Verizon - Paradise Pines Butte County --Butte A conditional use permit for the development of an 85-foot tall monopine wireless communication facility with 6 antennae (2 per sector), equipment shelter (12' x 26'), a 168 gallon, 30kw diesel generator in the equipment shelter. The facility footprint will be in a 1,200 sf fenced lease area. A 15-foot wide access and utility easement between the wireless communication facility lease area to Smokey Way is proposed. There is also a 6-foot utility easement proposed from the 15-foot easement to the existing power pole.	<b>MND</b>	01/21/2015
2014122058	Country Estates Phase IV Subdivision Gilroy, City of Gilroy--Santa Clara The proposed project will subdivide 152.8 acres into 61 single family detached residential lots, approximately 95.68 acres of open space, and associated infrastructure. The proposed project also includes removing approximately 235 trees (mostly oak trees), including one specimen tree and exchanging property between the city and the property owner.	<b>MND</b>	01/21/2015
2014122059	Pump Station Billboard Project Belmont, City of Belmont--San Mateo The Project is proposed by Clear Channel Outdoor and involves construction and operation of one new double-sided outdoor advertising LED billboard on City-owned pump station property that would be oriented toward traffic along adjacent US 101. The billboard is proposed to reach a maximum height of up to 60 feet and would have display faces approximately 14 feet high by 48 feet wide.	<b>MND</b>	01/21/2015
2014121075	Serena Park Palm Springs, City of Palm Springs--Riverside The Project proposes to redevelop the former golf course with approximately 429 residential units and a five-acre public park. These will consist of 137 single story, attached residences in the northern portion (Attached Residential Subarea) and 292 detached single-family residences on the southern portion (Single Family Subarea). Housing will include a mix of market rate and senior housing. The three on-site wells historically utilized for golf course irrigation will be retained to irrigate project and public park landscaping via a mutual water company.	<b>NOP</b>	01/21/2015

2014121084	PHG13-0034 and SUB13-0007 (Amanda Estates) Escondido, City of Escondido--San Diego The proposed project includes a Tentative Subdivision Map, along with a Master and Precise Development Plan for 21 single-family residential clustered lots on approximately 11.2-acre of land. Grading Exemptions for cut slopes in excess of 20 feet in height and fill slopes in excess of 10 feet in height, and retaining walls also are requested. Residential lot sizes range from approximately 10,025 sf to 20,404 sf. The existing home on the site would be removed. The project includes annexation/reorganization of the subject site to the City of Escondido, along with three adjacent developed parcels and a portion of a private road easement connecting Amanda Lane to Gamble Lane. Reorganization includes detachment from CSA No. 135 (Regional Communication/Fire Protection and EMS) and exclusion from Improvement District "E" of the Rincon Del Diablo Fire Protection District. The project includes pre-zoning of the subject site to City Planned Development-Residential (PD-R 1.9) and the three adjacent developed residential parcels to RE-20 (Residential Estate, 20,000 sf min. lot size). Off-site roadway and drainage improvements are proposed along Amanda Lane and Gamble Lane from Eucalyptus Avenue on the east to the gated terminus on the west. In compliance with SB 244, "Disadvantaged Unincorporated Community" eight	<b>Neg</b>	01/21/2015

	additional properties would be included in the pre-zoning process to define a future City zoning designation of PZ-RE-40 for six of the parcels (APNs 232-202-37, -38, -79, -80, -81 and -82) and PZ-RE-20 for two of the parcels (APNs 235-202-20 and -55) but they would not be included in this annexation.		
2014122057	Housing Element Update Pinole, City of Pinole--Contra Costa The project is the adoption and implementation of the 2015-2023 Housing Element Update, consistent with State law. The purpose of the project is to identify the City's existing and projected housing needs and to establish goals, policies, and programs to guide City officials in daily decision-making in addressing these needs. The Housing Element Update is only a policy document, and no direct construction would occur as a result of approving this updated Housing Element. The City is projected to have a need for 297 additional housing units through 2023. The Housing Element identifies sites that have existing zoning and development standards to accommodate the City's anticipated future housing needs.	<b>Neg</b>	01/21/2015
2014122060	Amendments of GP/LCP Public Safety & Noise Elements, & Amendments of County Code Geologic Hazards Ordinance, Floodplain Regulations, and Erosion Control Ordinan Santa Cruz County --Santa Cruz Amend the General Plan and Local Coastal Program Public Safety and Noise Elements: Section 6.2 Coastal Bluffs and Beaches; Section 6.3 Erosion Control; Section 6.4 Flood Hazards; and Section 6.5 Fire Hazards. Amend and reorganize Sections 6.9a Noise Environment, 6.9b Noise, 6.10 Ground Transportation, and 6.11 Air Transportation into a stand-alone Noise Element, Chapter 9. Amend the flood hazard provisions and other sections of the County Geologic Hazards Ordinance, County Code Chapter 16.10; create a new separate ordinance, "Floodplain Management Regulations," Chapter 16.13, containing the flood hazard regulations; and amend the land clearing provisions of the Erosion Control Ordinance, Chapter 16.22.	<b>Neg</b>	01/21/2015
2014092030	Hardin, Wallace Ranch Vineyard Conversion #P13-00208-ECPA Napa County St. Helena--Napa Note: Response to Comments  The project includes maintenance of erosion control measures associated with development of 95 acres of new vineyard (81.9 net vine acres). The site plan designates development on topography that ranges from gentle to moderately sloping lands (typical slopes from 8% to 16%), at elevation between approximately 600 and 725 feet above mean sea level.	<b>Oth</b>	
2006101099	Tentative Subdivision Map for Tract 5745 for Approved Village Specific Plan Oxnard, City of --Ventura Tentative Subdivision Map for Tract No. 5745 is a request to subdivide The Village Specific Plan area in substantial conformance with the previously adopted specific plan by creating 17 numbered lots and 19 lettered lots for development, public improvements, and open space.	<b>SIR</b>	02/05/2015

2009061035	<p>Consideration of District Alternative Treatment Technology for the WRF: Membrane Bioreactor in place of Approved Oxidation Ditch Technology Hi-Desert Water District Yucca Valley--San Bernardino</p> <p>The District has proposed constructing a wastewater treatment and reclamation facility (WRF) and sewer collection system known as the Wastewater Reclamation Project (the "Project"). Following the District's adoption of a Mitigated Negative Declaration, the District proceeded with the detailed engineering needed to construct the Project. This effort has identified an alternative wastewater treatment system for use at the WRF known as "Membrane Bioreactor (MBR)" treatment technology in place of the originally proposed Oxidation Ditch treatment process that required the use of media filtration. The details of this system are provided in Addendum No. 2, but the District has concluded that a MBR treatment system, in place of the Oxidation Ditch followed by media filtration, would better meet the water quality objectives of the District.</p> <p>In addition, the build-out capacity of the WRF has been reduced to 2.87 million gallons per day (MGD) from the original proposed 6 MGD. Phase I flows now total 1.02 MGD compared to an original estimated capacity of 2 MGD with the remaining flows realized once Phase II and III are brought online. The reduction is due to a more detailed analysis of wastewater generation rates within the Project area. The location of the WRF and the environmental setting remain the same as evaluated in the 2009 environmental document.</p>	<b>NOD</b>	
2011011005	<p>RE Distributed Solar Project Kern County Bakersfield--Kern</p> <p>The California Department of Fish and Wildlife (Department) is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, RE Barren Ridge, LLC. The applicant proposes to grading and remove vegetation for construction of at-grade roads through 59 unnamed ephemeral streams within the Project site that are tributary to Pine Tree Creek and Koehn Dry Lake, including 73,171 linear feet of stream and 5.23 acres that are composed of Mojave creosote bush scrub.</p>	<b>NOD</b>	
2013012069	<p>Use Permit Application No. PLN2013-0005 - Holy Family Church Stanislaus County Modesto--Stanislaus</p> <p>Request to build a 20,000+/- square foot church consisting of a 634-seat church/social hall facility, offices, a small chapel, an artifact store, a kitchen, a small hall, a 165-space parking lot, two access driveways onto Tully Road, and a retention basin on a 17.9+/- acre parcel in the A-2-10 (General Agricultural) zoning district.</p>	<b>NOD</b>

	Santa Barbara does not appear to be inconsistent with the uses set forth in Section 7.5 of Chapter 78, Statutes of 1925, as added by Chapter 193, Statutes of 1975.		
2014128330	Low-Cost Thermal Energy Storage for Dispatchable CSP Energy Commission Brawley--Imperial This project will demonstrate an innovative and low-cost approach to utility-scale thermal energy storage (TES) that exceeds DOE cost goals and enables successful realization of California Energy Commission renewable energy targets. The innovation is the use of a system cost-optimal approach that employs a robust and low-cost thermal storage fluid, elemental sulfur, which enables overall low system costs, long lifetime, and scalability for a wide range of CSP applications and temperatures. An on-sun demonstration of this approach will be performed using Hyperlight Energy's CSP facility, which was developed with the support of the California Energy Commission's PIER program (Contract 500-10-063).	<b>NOE</b>	
2014128331	Construction Camp Tree Rehabilitation Parks and Recreation, Department of --San Luis Obispo Remove 13 non-native, Italian stone pines and one dead oak tree on the monument's south facing hill in order to assist native oak tree restoration efforts, preserve historic viewsheds, reduce fuel loads, and to preserve and re-establish the cultural landscape in accordance with the Landscape Preservation Maintenance Plan (LPMP).  Work will be performed by a combination of State Park staff and contracted tree surgeons using chainsaws and wood chippers.	<b>NOE</b>	
2014128332	Southwestern Yacht Club Annex Building Improvements and Expansion San Diego Unified Port District San Diego--San Diego The proposed project involves improvements and a 325-square-foot expansion of the existing Annex building within the Southwestern Yacht Club (SWYC) leasehold. The purpose of the proposed project is to improve the overall structural integrity of the building and make its appearance more consistent with the adjacent main clubhouse. Overall, the current functionality of the building will remain the same, but the amount of space is proposed to be expanded from approximately 3,035 square feet to approximately 3,360 square feet, for an additional approximately 325 square feet.	<b>NOE</b>	
2014128333	Truckee River Stabilization and Restoration Project (Truckee River Access and Restoration Project) California Natural Resources Agency --Placer The purpose of the project is to stabilize actively eroding slopes and stream banks thus reducing sedimentation into the Truckee River and thereby restoring fish, plant, and wildlife habitat. The nature of the project is to restore five areas of stream bank habitat with native sod, seed, and container plants, along with installation of boulders and wood materials. Additionally, in three separate locations the slope between the Highway 89 and the existing Truckee River Bike Trail will be stabilized with bio-engineered techniques including timber and rock slope protections and revegetation with native, seed, and container plants. Minor grading will occur. No impervious surfaces are included and historic drainage	<b>NOE</b>

2009012081	Sacramento River Bank Protection Phase II Supplemental Authority Central Valley Flood Protection Board --Butte, Colusa, Contra Costa, Glenn, Placer, Sacramento, ... Note: Review Per Lead	<b>EIR</b>	02/27/2015
	<p>The Sacramento River Bank Protection Project (SRBPP) is a continuing construction project authorized by Section 203 of the Flood Control Act of 1960. The purpose of this project is to provide protection to the existing levee and flood control facilities of the Sacramento River Flood Control Project. To date, work has been carried out in two phases, with a total of about 820,000 feet of river stabilized under the project. Current SRBPP work is being conducted under Phase II of its existing federal authorization. The supplemental authorization of 80,000 linear feet is in addition to the previously constructed 820,000 linear feet.</p>		
2014071042	Irwindale Shopping Center Initial Study Irwindale, City of Irwindale--Los Angeles	<b>EIR</b>	02/06/2015
	<p>The proposed Irwindale Regional Shopping Center consists of an approximately 700,000 sf shopping center on a 63.5 acre site currently occupied by the Irwindale Speedway. In addition to the primary function of the shopping center to provide commercial space for shopping opportunities, the project includes ancillary amenities including a central plaza for public gatherings, entryway features, an outdoor entertainment/performance area and a food court. The proposed project will include related improvements, including, but not limited to parking, landscape planters, fencing, and walls. The project would be completed in two phases. Phase 1 of the project would develop approximately 455,000 sf or 65 percent of the total project building space. Phase 2 would develop approximately 245,000 sf or 35 percent of the total project space.</p>		
2011062057	Statewide Plant Pest Prevention and Management Program Food and Agriculture, Department of --	<b>FIN</b>	
	<p>The overall goal of the Statewide Pest Prevention and Management Program is to protect California's agriculture from damage caused by invasive plant pests. Other goals of the Statewide Program include: (1) providing rapid response resources to pest infestations as they occur, and (2) using an IPM approach in conducting activities. The Statewide Program encompasses a range of prevention, management and regulatory activities, carried out or overseen by CDFA against specific injurious pests and their vectors, throughout California. The Statewide Program is made up of a variety of focused programs, each including a set of options for controlling target pests or pathogens. The Statewide Program is ongoing and currently is implemented pursuant to existing CEQA authorizations. This PEIR is intended to provide CEQA compliance for the future Statewide Program activities.</p>

	concrete-lined Channel to the edge of County of San Bernardino right-of-way, where each storm drain would be stubbed for later connection to future New Model Colony planning area infrastructure. Project operational impacts and growth inducing impacts are not analyzed in this IS since these potential impacts were previously analyzed in The Ontario Plan EIR and in the NMC's infrastructure Master Plans IS/MND.		
2014121087	SWID Recharge Project Shafter-Wasco Irrigation District Shafter--Kern Shafter-Wasco Irrigation District is proposed to construct approximately 65-20 acre ponds, totaling approximately 1,300 acres, within a 4,000 acre area of the District.	<b>MND</b>	01/22/2015
2014122063	Major Subdivision SD 9382, Variance 14-0011 - 805 & 813 LA Gonda Way Danville, City of Danville--Contra Costa Major Subdivision request to subdivide a 3.73 acre parcel into five single family residential lots and a variance to allow for reduced lot widths for four of the proposed lots.	<b>MND</b>	01/22/2015
2014122065	Missouri Flat-Gold Hill 115 kV Power Line Reconductoring Project (A. 13-08-014) Public Utilities Commission Folsom--El Dorado, Sacramento PG&E, in its California Public Utilities Commission application (A. 13-08-014) filed on August 13, 2013, requests a Permit to Construct the proposed project, which includes: reconductoring 12.5 miles of Missouri Flat 115 kV power line; replacement of 61 existing tubular steel poles (TSPs) with new TSPs; undergrounding of 1,000 feet of existing 21 kV overhead distribution line; modification of 13 lattice steel towers; reconductoring 7 miles of Gold Hill No. 1 60 kV power line; replacement of 80 existing wood poles with new wood or light-duty steel poles; relocation of 150 feet of existing distribution feeder line; and modification to existing substations and switching stations. All construction would occur in El Dorado County and the City of Folsom, in Sacramento County.	<b>MND</b>	01/22/2015
2014122064	Kenning Properties General Plan Amendment GPA13-006, Zone Change RZ13-009 and Tentative Subdivision Map T13-059(1) Oak View Estates Tuolumne County --Tuolumne The project site consists of eight parcels which are located between the Willow Springs Ranch Subdivision and the Townsite of Soulsbyville. The owner of seven of the parcels has proposed to divide those 115.9 acres into the Oak View Estates Subdivision. The subdivision would consist of a total of 124 lots; 123 residential lots and one recreation lot. The residential lots would consist of 104 lots zoned R-1:MX (Single Family Residential: Mobilehome Exclusion combining), which range in size from 0.2 acre to 0.8 acre, and 19 lots zoned RE-1:MX (Residential Estate, One Acre Minimum: Mobilehome Exclusion combining), which range in size from 1 to 10.8 acres. The 104 lots zoned R-1:MX would be restricted to one single-family dwelling per lot. The 19 lots zoned RE-1:MX would be allowed one secondary single-family dwelling per lot. The lots zoned R-1:MX would be located on the more level area in the western portion of the site. The lots zoned RE-1:MX are proposed on the steeper areas in the eastern portion of the site. The recreation lot would be 1.8 acres in area (1.4 net acres).	<b>NOP</b>	01/22/2015

	and 2.8 miles east of the unincorporated community of Friant (Sup. Dist.: 5) (APN: 300-542-20).		
2014121094	Sourdough Road Parcel Map / Project No. PM068736 / Vesting Tentative Parcel Map No. 068736 Los Angeles County --Los Angeles The owners are proposing a vesting tentative parcel map to create two single-family residential lots on 20.8 acres located north of Sierra Highway, west of Crown Valley Road, and southwest of Sourdough Road. The lot split would create two lots of 10.20 acres (Parcel 1) and 10.64 acres (Parcel 2). The two-lot subdivision involves 46,500 cubic yards of cut and 46,600 cubic yards of fill, totaling 93,000 cubic yards. The subject property is under the jurisdiction of the Los Angeles County Waterworks District No. 37 and proposing to connect to an existing public water facility. Private on-site sewage disposal (septic) is proposed for the residences. Access to the proposed subdivision is via an easement on a neighbor's property identified with APN 3217-027-035.	<b>MND</b>	01/26/2015
2014121095	DAOU Minor Use Permit DRC2013-00100 & Grading Permit PMT2013-02825 San Luis Obispo County Paso Robles--San Luis Obispo A request by Daniel Daou for a Minor Use Permit (DRC2013-00100) and Grading Permit (PMT2013-02825) to grade a new driveway and building pad for a new 6,800 sf two-story single family residence with a 505 sf basement, a 2,550 sf detached garage, approximately 4,029 sf of covered outdoor area, a pool and related site improvements. The project will result in the disturbance of approximately 2.31 acres, including approximately 9,730 cubic yards of cut and 6,930 cubic yards of fill on a 24.3 acre parcel. The proposed project is within the Residential Rural land use category and is located 0.9 miles west of the Nacimiento Lake Drive and Mountain Springs Road intersection, west of the City of Paso Robles. The site is in the Adelaida sub area of the North County.	<b>MND</b>	01/27/2015
2014121096	No. 11-08 - Southern Sewer Pump Station El Centro, City of El Centro--Imperial The proposed project proposes the construction of approximately 18,865 lineal feet of sewer pipeline and a new sewer pump station at 102 E. Danenberg Drive in the City of El Centro. The new sewer pump station and associated sewer lines would collect and pump sewage to the wastewater treatment plant for processing. The proposed pump station encompasses ~0.25 acres of vacant, disturbed land while the sewer lines encompass ~0.35 acres. A steel fence with masonry pilasters would be constructed along the perimeter of the project site. Permanent street access to the pump station site would be provided via Danenberg Drive.	<b>MND</b>	01/27/2015
2014122067	Leeming Culvert Extension Monte Sereno, City of Monte Sereno--Santa Clara Replace a falling 80 linear foot culvert with a new 120 linear foot culvert over Almendra Creek at 18420 Hernandez Avenue in the City of Monte Sereno in Santa Clara County. The culvert size will be increased from 36 inch diameter to a 48 inch diameter.	<b>MND</b>	01/26/2015

<b><u>Documents Received on Friday, December 26, 2014</u></b>			
2014121089	<p>Lake Jennings Marketplace San Diego County --San Diego</p> <p>The applicant proposes to develop a commercial center on a 13 acre site that would include six buildings totaling 76,100 sf and parking for 389 vehicles. The draft tentative map proposes to subdivide the site into eight lots. Lots 1 through 6 would contain the proposed commercial development and Lot 7 would contain an open space easement for Southern Riparian Forest habitat along Los Cocheros Creek and its associated wetland buffer. A 20-foot wide trail easement including a 10-foot wide trail is proposed along the southern edge of Lots 7 and 8. Ten-foot-wide pathways are also proposed within the right-of-way for Rios Canyon Road on the east side of the site and Ridge Hill Road on the west side of the site.</p>	<b>NOP</b>	01/26/2015
2014122066	<p>San Bruno Housing Element 2015-2023 San Bruno, City of San Bruno--San Mateo</p> <p>The San Bruno Housing Element, a component of San Bruno's General Plan, presents a comprehensive set of housing policies and actions to address identified housing needs for the years 2015-2023. It builds on an assessment of San Bruno's housing needs (including the City's regional housing needs allocation) and an evaluation of existing housing programs, available land, and constraints on housing production. Initiatives proposed to facilitate ongoing provision of affordable and market-rate housing in the city include conservation of residential neighborhoods, reuse of former school sites, and redevelopment of transit corridors into mixed-use areas with residential components. All of these major initiatives are consistent with the recently-adopted San Bruno 2025 General Plan and Transit Corridors Specific Plan (2013).</p>	<b>Neg</b>	01/26/2015

	Note: Response to Comment		
	The Valley Center Municipal Water District is proposing infrastructure improvement consisting of two lift stations and collection system pipelines (force main, gravity main, and low pressure system). These improvements would be constructed within the Valley Center Municipal Water District service area boundaries.		
2014122068	Oxbow Marina Mutual Water Co.-Water Supply Project State Water Resources Control Board Isleton--Sacramento A new 12-inch water pipeline will be installed to supply potable water from the City of Isleton to the Ox Bow Marina. The pipeline will connect to California American Water's existing 12-inch pipeline located along 6th street and travel through the City's Corporation Yard, across active farmland and into the Ox Bow Marina and development. The pipeline will then be reduced to an 8-inch diameter pipeline once onsite. New services to each point of use will be installed along with a meter to measure water usage from the 8-inch diameter pipeline. Fire hydrants will also be installed. The goal and purpose of the project is to provide improve potable water that complies with State and Federal drinking water regulations. The existing water supply from two onsite wells exceeds the arsenic standard and is out of compliance.	<b>MND</b>	01/27/2015
2014121097	Second-Tier EIR for the University and Innovation District Sectional Planning Area (SPA) Plan and Tentative Map Chula Vista, City of Chula Vista--San Diego The project proposes to develop a 4-year University campus, campus support uses and Innovation District on approximately 380 acres of land located within the City's Eastern University District, specifically the University Focus Area. The proposed University and Innovation District project is comprised of the following University and campus support uses to be implemented over its phased buildout: academic space and supporting uses, physical education/recreation/athletics uses, student support space, campus housing, research-based industrial park/commercial uses, parking lots/structures and open space. The campus would be designed to ultimately serve a population of 20,000 full-time equivalent students supported by approximately 6,000 faculty and staff. Potential amendments to the Chula Vista General Plan and/or General Development Plans for Otay Ranch and Eastlake III may be required to implement the proposed project, including but not limited to the Circulation Element of the General Plan and policy language pertaining to the University Focus Area in the Otay Ranch GDP and Eastlake III GDP. A Tentative Map will also be processed.	<b>NOP</b>	01/27/2015
2013092045	Subdivision Map, Rezone, General Plan Amendment, IS-#2013-024, Walsh Family Trust Lassen County --Lassen Proposed division of a parcel totaling 308 acres, into a total of 4 parcels and a 264 acre remainder. The proposed parcels range in size from 5 acres to 20 acres in size. Proposed Parcel A is 20 acres, Parcel B is 5 acres, Parcel C is 6.5 acres and Parcel D is 6.5 acres in size. Due to an earlier Parcel Map Waiver #77-12-79, recorded on March 6, 1980, which created an additional parcel adjacent to the project site a Subdivision application is required. The parcel has multiple zoning districts which include the following: A-2-B-20, A-2-B-40, and A-3-NH-80. A	<b>Neg</b>	01/27/2015

2014122073	Re-adoption of LCFS Regulation & Adoption of ADF Regulation Air Resources Board --Sacramento Note: Review Per Lead & Function Equiv. Doc  Re-adoption of the Low Carbon Fuel Standard (LCFS) will reduce emissions of greenhouse gases by lowering the carbon content of transportation fuels used in California and achieve other benefits that will: diversify the State's fuel portfolio; reduce dependence on petroleum; create a lasting market for clean transportation technology; and stimulate the production and use of alternative, low-carbon fuels in California. The proposed ADF regulation will establish a comprehensive legal path to bring new or emerging diesel fuel substitutes to the commercial market in California while protecting public health and the environment, and establishes specific rules for biodiesel fuel use to ensure ARB's goals of protecting public health and the environment are met.	Oth	02/17/2015
1999112107	Stanford University S1 Trail Alignment Santa Clara County Palo Alto--Santa Clara Construction and operation of the Stanford Perimeter Trail (SPT) consisting of a 3.4 mile long multi-use recreational trail (walking, jogging, biking) along three of the four major streets surrounding the Stanford University core campus: Junipero Serra Boulevard, Stanford Avenue and El Camino Real. Currently, there are 73 informal parking spaces that are available on Stanford Avenue between Junipero Serra Boulevard and Ryan Court. Fifteen (15) parking spaces will be eliminated from Stanford Avenue road right-of-way, to accommodate the SPT. Stanford proposes to provide 33 new parking spaces on Coyote Hill Road that will result in a total of 91 parking spaces (58 spaces on Stanford Avenue and 33 spaces on Coyote Hill Road) available for the SPT and other area trail users. Stanford University proposes to restripe Coyote Hill Road, reducing the number of travel lanes four to two, and utilize the space for parallel parking and new sidewalks. No protected trees will be removed as part of this project. The project has an estimated grading of 4,500 cubic yards of cut and 4,500 cubic yards of fill.	NOD	
2012052017	EchoWater Project (formerly the Advanced Wastewater Treatment Plant Project) Sacramento Regional Sanitation District --Sacramento Increase capacity of existing emergency storage at the Sacramento Regional Wastewater Treatment Plant.	NOD	
2014128363	Castaic Geologic Exploration Water Resources, Department of --Los Angeles DWR Staff shall oversee the installation of seven exploration borings by a drilling subcontractor along the exposed bank of Castaic Lake; south of the West Boat Launch and north of the intake structure. Work is being conducted for design purposes related to the new intake tower and associated tunnel at Castaic Dam. The work area is approximately 3, 123 feet long (0.72 acres) and below the ordinary high water mark. The total area of temporarily disturbed soils is estimated to be less than 0.22 acres. Work will also include the grading temporary access points and drilling pads for equipment to install the borings.	NOE

2014128364	Ocotillo Wells State Vehicular Recreation Area - Toner Nursery Expansion Parks and Recreation, Department of --San Diego This project will expand the existing nursery which grows native plants for restoring desert vegetation. A total of three new rectangular structures will be added ranging in sizes from 12 feet wide for all to 8, 16, and 56 feet long. An additional 14 posts will be required to support the shade areas. holes will be dug 18 inches by 2 feet deep and concrete will be added. Tamarisk trees will be trimmed, but none of them will be removed, and no native vegetation will be disturbed. An interpretive panel will be constructed and placed near the front of the nursery explaining the purpose to the public. The panel will be 4 feet long, 4 feet wide, and 8 feet tall supported by wooden posts.	<b>NOE</b>	
2014128365	Irvine Finch Ramp Repair Geotechnical Investigation Parks and Recreation, Department of --Glenn Excavate three soil borings to determine the type and quality of the soil located at the Irvine Finch Boat Launch at Bidwell-Sacramento River SP. Work entails two exploratory borings within the parking lot and restroom improvement areas with a truck-mounted drill rig equipped with hollow-stem augers (HSA) to depths of approx. 5 feet, based on conditions encountered. Additionally, one exploratory boring will be located within the proposed boat ramp improvement area with a truck-mounted drill rig equipped with mud rotary drilling techniques to a depth of approx. 40 feet, based on conditions encountered. Specific repairs identified through the testing process will be subject to further review under CEQA. All borings will be filled with cement slurry.	<b>NOE</b>	
2014128366	Construct Right Turn Lane Project Caltrans #3 Grass Valley--Nevada Project proposes to construct a right turn lane on southbound Route 49 for traffic turning right onto Smith Road. Purpose of this project is to improve traffic operations, reduce rear end collisions and reduce congestion. All construction activities will take place within the state right-of-way.	<b>NOE</b>	
2014128367	Harris South Camp, Harris South Camp Upgrades State Water Resources Control Board Coalinga--Fresno SWRCB as the lead agency will be issuing a water supply permit. The Harris South Camp proposes to upgrade components of the existing Surface Water Treatment Plant, including replacement of a clearwell, replacement of clarifier, and replacement of monitoring equipment and plant controls.	<b>NOE</b>	
2014128368	Laton Community Services District - Proposition 84 Part 2 Emergency Project State Water Resources Control Board --Fresno SWRCB is a responsible agency for this project. SWRCB's Safe Drinking Water Proposition 84 Program is providing state funds for the project. Laton Community Services District proposes a project that includes reimbursement for the cost to install chlorine chemical feeds at each well site. Once installed, these facilities would be permanent for use during other emergencies requiring disinfection. Repairs to the pump at well 6 are long term repairs as well. The reimbursement would also cover the costs of repeat bacteriological sampling that occurred during this incident.	<b>NOE</b>
