STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**December 16 – 31, 2016**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **December 16 – 31, 2016**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

2009081079	Pier B On-Dock Rail Support Facility Long Beach, Port of Long Beach--Los Angeles Note: Extended Per Lead	<b>EIR</b>	03/13/2017
	<p>The proposed project would be the expansion of an existing rail support facility located at Pier B in the Port of Long Beach. The project would result in additional railcar storage and staging capacity, including additional rail tracks for locomotive refueling, railcar repair, and to accommodate the assembly of cargo trains up to 10,000 ft long. The project would require realignment of Pier B St and closure of an existing grade crossing at 9th St. The full build out alternative of the project would require removal of existing ramps to and from the Shoemaker Bridge. The environmental effects anticipated to remain significant following mitigation include:</p> <p>1) Air emissions associated with construction and operations; and 2) GHG associated with operations.</p>		
2012031009	Mitsubishi Cement Corporation South Quarry Project San Bernardino County --San Bernardino	<b>EIR</b>	01/30/2017
	<p>Mitsubishi Cement Corporation (MCC) is requesting approval of a Plan of Operations from the U.S. Forest Service, and a Reclamation Plan from the County of San Bernardino. The requested plan approvals would add a 153.6-acre South Quarry operation to an approximately 500-acre existing surface mining complex. The proposed South Quarry will consist of a 128-acre high-grade limestone quarry, a 2.7-acre landscape berm, a 22.2-acre haul road 1.8 miles in length, and 0.7 acres for a temporary construction road. The South Quarry and haul road would be located almost entirely (147 acres) on 440 acres of unpatented claims owned by MCC on public federal land in the San Bernardino National Forest with approximately 6.6 acres of the haul road located on MCC fee land where it enters the existing East Pit.</p>		
2016041020	Emerald Ridge Residential Project Jurupa Valley, City of Jurupa Valley--Riverside	<b>EIR</b>	01/30/2017
	<p>The proposed project would change the General Plan land use designation on the project site from Light Industrial to Medium Density Residential and High Density Residential. The zoning on the project site would also be changed from Manufacturing - Service Commercial to Planned Unit Residential. The proposed project would utilize currently vacant land to create a total of 402 residential dwelling units near jobs and Rubidoux Village, and would help in meeting the City's contribution to regional housing needs.</p> <p>The proposed project would include two development applications in the City of Jurupa Valley: MA15072 and MA15148. MA15072 is located on the southern portion of the project site and MA15148 is located on the northern portion of the project site.</p>		

## CEQA Daily Log

Documents Received during the Period: 12/16/2016 - 12/31/2016

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, December 16, 2016</u></b>			
2016071014	Cornerstone Mixed-Use Project Agoura Hills, City of Agoura Hills--Los Angeles Note: 1 CD  The proposed project would involve the construction of a residential and commercial mixed-use development on 8.21 acres of vacant property located on the southeast corner of Agoura Road and Cornell Rd. The project would include 35 apartment units and 68,918 sf of commercial space (34,013 sf of retail and restaurant space, and 34,905 sf of office space). The project would require discretionary approval of an Agoura Village Development Permit, with consideration of the following requests: a CUP; a tentative parcel map; an oak tree permit to remove 29 oak trees and 21,271 sf of scrub oak, and encroach, within the protected zone of 30 oak trees; a variance for retaining wall heights in excess of 6 ft; partial street vacation of Agoura Rd and Cornell Rd; and Vacation fo Cleveland Dr within the boundary of the project.	<b>FIN</b>	
2016112019	Crittenden Middle School Track and Field/Permanente Creek Trail Extension Project Mountain View Whisman School District Mountain View--Santa Clara FYI: Final  The proposed project is the construction of a new approximately 123,000 sf track and field facility, removal of 14 mature redwoods, and approximately 900-foot-long asphalt trail extension at the Crittenden Middle School, in Mountain View, Santa Clara County. The track and field uses would be football, soccer, and track and field by the school and community. Hours of use and lighting would remain about the same as current field operations. Construction is projected to start in January 2017 and be completed by November 2017.	<b>FIN</b>	
2016121049	IS 7121 and CUP 3530 (Robert Bagdasarian) Fresno County Sanger--Fresno Allow a high density park on a 40-acre property in the AE-20 Zone district. The project site is located on the east side of Greenwood Ave, between Central Ave and American Ave, approximately one quarter-mile southwest of the nearest city limits of the city of Sanger (4276 S. Greenwood Ave).	<b>MND</b>	01/17/2017
2016121050	Avenue R Safety Improvement Project Palmdale, City of Palmdale--Los Angeles The city of Palmdale, in cooperation with Caltrans, proposes safety improvements along an approximate two-mile long segment of Avenue R, located in the city of Palmdale. The project limits begin just west of Sierra Highway and end about 0.1 mile (560 feet) east of 25th St East. In addition, one intersection at 11th St East and Avenue R-4 will be improved with new pedestrian crossing, sidewalks, and curb ramps (bulb out improvement) to provide safe access to the Tumble Weed ES. Improvements include: restriping, new dedicated bike lane, left-turn lane at the midblock, new sidewalks, ADA-complaint ramps, pedestrians crossings, upgrade to bus stops.	<b>MND</b>	01/17/2017

<b><u>Documents Received on Friday, December 16, 2016</u></b>			
2016121051	Coachella Water Authority Chromium-6 Facilities Improvement Project Coachella, City of Coachella--Riverside Coachella Water Authority proposes to undertake the Chromium-6 water Facilities Improvement Project in order to comply with recently passed state of CA regulations. With implementation of the project, five wells will be upgraded with chromium-6 removal treatment technology. The proposed project also includes analysis of the construction of a new CWA resin regeneration facility located on Avenue 52 on CWA property, or at the current CWA WWTP. The resin regeneration process involves ion exchange using sodium chloride to remove the chromium-6 from the resin beads. Resin regeneration results in a spent brine, which necessitates proper treatment and disposal.	<b>MND</b>	01/17/2017
2016122029	Summit Shasta Public High School Project Jefferson Union High School District Daly City--San Mateo The project consists of constructing a new permanent campus for the Summit Shasta Public High School on a 2.5-acre site on the closed Serramonte High School campus, located at 699 Serramonte Blvd in Daly City, CA. Currently, the Summit Shasta Charter HS is temporarily housed in portables in the main portion of the closed campus on former baseball field and would consist of student classrooms, a gym, administrative offices, outdoor areas for student use, walkways and parking. The current student body is 300 students and the proposed Summit Shasta HS would serve approximately 400 students. Campus Dr via Hickley Blvd would serve as the primary access to the new school site.	<b>MND</b>	01/17/2017
2016122030	Pigeon Point Light Station State Historic Park General Plan and Environmental Document Parks and Recreation, Department of --San Mateo Note: Review Per Lead  California Department of Parks and Recreation, the project applicant, is proposing to adopt and implement the Pigeon Point Light Station State Historic Park General Plan, on a 75-acre site in Pescadero, CA. The purpose of this general plan is to provide a larger framework for implementing improvements to the Pigeon Point Light Station State Historic Park.	<b>MND</b>	01/31/2017
2016122031	Raymond-Ticen Ranch Winery Napa County St. Helena--Napa Request to modify the existing entitlements that allow the operation of Raymond Vineyard and Cellars' winery with visitation and marketing events at 849 Zinfandel Lane, south of the city of St. Helena. The applicant requests approval to allow changes to the winery's operational characteristics (hours of operation, conduct of events, on-site wine consumption, expansion of visitation and marketing programs to the Ticen Ranch parcel at 1584 SR 29), as well as site modifications that include new on site parking stalls, a new driveway onto both properties from SR 29, and various utilities improvements. The applicant also requests that the county legitimize existing, noncompliant operations and site modifications already in place but that were completed without benefit of county permit approvals.	<b>MND</b>	01/17/2017

<b><u>Documents Received on Friday, December 16, 2016</u></b>			
2016122033	<p>Esparto Park and Aquatic Recreation Center Yolo County --Yolo</p> <p>The proposed project is the construction of a combined community park and aquatic recreation center on both contiguous properties which would include the following facilities: an approximately 41,300 sf (0.9 acre) pool complex, including a competition size outdoor public swimming pool; and a 2,700 sf aquatic center with locker room facilities; a 60-space parking lot adjacent to the recreation center and aquatic center; one 200 foot radius softball/little league field; two soccer/football fields; one outdoor basketball court; outdoor picnic tables; a pedestrian path system that encircles the perimeter of the site; and a detention basin on approximately 0.34 acre.</p>	<b>MND</b>	01/17/2017
2016121048	<p>Grayson Repowering Project Glendale, City of Glendale--Los Angeles</p> <p>The City of Glendale, Dept. of Water and Power (City) is proposing to repower the Grayson Power Plant. A majority of the equipment and facilities at the Grayson Power Plan were completed between 1941 and 1977, and are proposed to be replaced with more reliable, efficient, flexible, and cleaner units. The City is proposing to replace the existing generation equipment and related facilities with the exception of Unit 9 (a simple cycle peaking plant built in 2003), by installing a combination of new combined of new combined cycle and simple cycle gas turbine generation units. The generating capacity would increase from 238 megawatts (MW) to 260 MW (an increase of 22 MW) to meet a regulatory requirement for reliability.</p>	<b>NOP</b>	01/17/2017
2016122032	<p>Sir Francis Drake Boulevard Rehabilitation Marin County --Marin</p> <p>The project proposes several traffic flow, pavement, and safety improvements, as well as water main replacement and installation along Sir Francis Drake Boulevard between Highway 101 and the Ross Town limits.</p>	<b>NOP</b>	01/17/2017
2015022077	<p>Pacific Coast Producers Inc. Palermo Land Application Area Expansion Regional Water Quality Control Board, Region 5 (Central Valley), Redding Oroville--Butte</p> <p>The PCP Cannery in Oroville produces canned fruit and discharges variable quantities of process wastewater in accordance with Waste Discharge Requirements Order No. R5-2003-0045, adopted by the Central Valley Water Board on 14 March 2003. The current land use application site contains 309 acres of land to accommodate wastewater flows from the Oroville cannery. The proposed project would allow the addition of approximately 320 acres, owned by Cindy Daley for supplemental irrigation on grazing land to the south, and up to 100 acres within the adjacent pheasant club for irrigation.</p>	<b>Neg</b>	01/17/2017
2016022048	<p>Parcel Map Application No. PLN2016-0010 - Valk Ranch Stanislaus County Oakdale--Stanislaus</p> <p>Request to subdivide two parcels of 77.03 +/- and 134.24 +/- acres into 5 parcels of at least 40 acres in the A-2-40 zone. The property is located at 8500 Valk Road &amp; 8420 Workman Rd, east of Albers Rd, between Claribel Rd and Valk Rd, south of the city of Oakdale. The planning commission will consider adoption of a CEQA Neg Dec for this project.</p>	<b>Neg</b>	01/17/2017

	users of Jack Davis Park.		
2016128228	Florin Creek Park Improvement Project Southgate Recreation And Park District Sacramento--Sacramento The project consists of the installation of a shade structure and related improvements within an already developed park. The purpose of the project is to provide an additional shaded gathering space and improve aesthetics to benefit the local residents and users of Florin Creek Park.	<b>NOE</b>	
2016128229	Redding State Fire Marshall Office Forestry and Fire Protection, Department of --Butte The project consists of leasing office space and making minor interior renovations so that the office can accommodate three State Fire Marshals. Currently, staff is occupying two separate offices. One office is located at 2120 Campton Road in Eureka, CA, and the other is located at 3201 Esplanade in Chico, CA. To ensure appropriate service levels, a central office has been identified to relocate three State Fire Marshals, a State Fire Marshal Supervisor, and a Division Chief.	<b>NOE</b>	
2016128230	Shafter Well No. 18 Shafter, City of Shafter--Kern The City of Shafter owns and operates eight active groundwater wells that deliver domestic water to its municipal distribution system. The City is drilling and constructing a new groundwater well on existing tank site #4. This new well will function with and support the tank, booster pumps and existing improvements to improve the operating efficiency of the distribution system. The new groundwater well project hereinafter referred to as "Well#18" includes an advanced pump motor, a hydro pneumatic tank and water treatment facilities. The Well #18 pump motor and treatment facilities will be enclosed by existing fenced area of tank site #4 to ensure only authorized personnel can access these critical well components. Well #18's Discharge piping will be installed into existing storage tank #4 and existing distribution system.	<b>NOE</b>	
2016128231	Water Planet Design Review/Lot Line Adjustment/Minor Use Permit Arcata, City of Arcata--Humboldt The project consists of a Design Review Permit for the demolition of existing metal industrial structures and the development of new metal structures to house existing retail and warehouse uses; a Parcel Merger and Lot Line Adjustment to reconfigure four existing parcels resulting in two parcels and a Minor use permit.	<b>NOE</b>	
2016128232	Ramona Road Drainage Improvement Fish & Wildlife #3 Portola Valley--San Mateo The project entails activities related to the installation of a 24-inch diameter high density polyethylene culvert (HDPC) onto an existing culvert system to provide supplementary drainage capacity from the drainage to the existing culvert system. A culvert flume will be attached to the outlet of the auxiliary culvert and installed above ground along the upland drainage for a length of approximately 150 feet. Issuance of a Lake and Streambed Alteration Agreement Number 1600-2016-0263-R3 is pursuant to Section 1602 of the fish and Game Code, to the Permittee, County of San Mateo.	<b>NOE</b>

	improvement projects required to meet demands of existing customers as well as the anticipated growth in customers through 2040.		
2016012040	Aspen Fales Shoulder Widening Caltrans #9 --Mono The California Department of Transportation proposes to widen shoulders, from the current 2-3 feet to eight feet, along approximately 3 miles of US Hwy 395 in Mono County. Along the shoulder widening, other safety features of the project include adding rumble strips, construction of a safety edge along the new shoulders, correction of super-elevation, and the replacement of existing drainage structures and culverts.	<b>EIR</b>	02/01/2017
2016052076	Hale Avenue Extension and Santa Teresa Corridor Widening and Realignment Morgan Hill, City of Morgan Hill--Santa Clara The proposed project is the adoption of an official plan line for the Santa Teresa Corridor from West Main Avenue to Watsonville Road and construction of the proposed multi-modal roadway improvements, as described below. The proposed roadway improvements would be constructed in two phases, phase I and phase II. Phase I is the extension of Hale Ave from West Main Ave to the Dewitt/Spring Ave intersection. Phase I is anticipated to be constructed within the next two to three years, depending on funding availability. Phase II is the realignment and widening of the Santa Teresa Corridor from the Dewitt/Spring Ave intersection to Watson Rd. Phase II is anticipated to be constructed in the next 10-15 years.	<b>EIR</b>	02/01/2017
2016032048	Decker Island Levee Repair Demonstration Project Water Resources, Department of Rio Vista--Solano Note: 1 HC  The project will repair 210 feet of eroded bank in the habitat restoration area of Decker Island, across Horseshoe Bend from the Threemile Slough Bridge. The project will compare the viability of the "gripper system" from Maverick Solutions to riprap that is traditionally used for erosion repairs in the Delta. The gripper system utilizes interlocked, non-woven geo-textile bags fill with soil and vegetation interspaced among the bags to create a highly resilient erosion control wall while providing vegetation along the channel's edge.	<b>FIN</b>	
2016094002	Bishop Paiute Casino Project - Tribal Environmental Assessment Bishop Paiute Tribe Bishop--Inyo Note: 1 CD  The Tribe proposes to renovate the existing Paiute Palace Casino and expand the facilities. The proposed project would consist of the modernization of the 15,210 sf existing Casino and the addition of 22,360 sf of new construction. The expansion area would contain a total of 500 slot machines, of which 349 are class III and 151 are class II machines, as well as card and table games. The Casino expansion would include a new 75 seat restaurant and a 75 seat bar area. In addition to the expansion, the existing Casino would be modernized and remodeled to include a 150 seat conference hall, newly upgraded offices, and additional service and employee use areas, as well as site improvements for new parking, improved site circulation, new sidewalks, and the relocation of existing site utilities.	<b>FIN</b>

2014092063	Honker Bay Conservation Bank Solano County Suisun City--Solano Note: Recirculated  Establishment of a conservation mitigation bank for federally and state listed fish, which includes a tidal restoration project to benefit the listed fish species.	<b>MND</b>	01/17/2017
2016121052	Red/Purple Line Core Capacity Improvements Project Los Angeles County Metropolitan Transportation Authority Los Angeles, City of--Los Angeles The proposed project would be located within the existing Division 20 rail yard. The Division 20 rail yard is an approximately 45 acre site and is home to the Metro Red/Purple Line train storage and maintenance facilities. It is located primarily between the 1st and 4th St bridges, running parallel to the Los Angeles River Channel and east of Santa Fe Avenue. The Metro Red/Purple Line tunnel portal is situated between Commercial St to the north; Ducommun St to the south; Center St to the west; and the LA River Channel to the east. Construction of the portal widening will require the acquisition of an existing industrial use and partial acquisition of a vacant parcel for the tumbuck tracks. The General plan land use designation for the project site and vicinity is cited in the city's zoning database as heavy/light manufacturing, as well as being identified as a transit priority area. There is one residential land use located adjacent to the southwest corner of the proposed project. There are no other residential/housing, educational centers, institutional or public open space uses in the immediate area (within 1,000 ft).	<b>MND</b>	01/17/2017
2016121054	Initial Study Application No. 7169 and Classified Conditional Use Permit Application No. 3534 Fresno County Kerman--Fresno Allow the expansion of an existing agricultural pump and irrigation sales facility on a 16.45-acre parcel in the AE-20 Zone district.	<b>MND</b>	01/17/2017
2016121055	Harbor Substation Anaheim, City of Anaheim--Orange The proposed Harbor Substation consists of two 56 MVA transformers and switchgear distribution system. Two new single story structures will be constructed measuring approximately 180 ft by 50 ft, and a second structure measuring approximately 90 ft by 50 ft. The latter structure will house two transformers. Underground 69 kV and 12 kV transmission and distribution lines will be installed in the ROW at Cerritos Ave, Katella Ave, Haster St, Zeyn St, Disney Way, Harbor Blvd, Clementine St, Anaheim Blvd, Manchester Ave and Ninth St. Subterranean vaults (approximately 8 ft by 20 ft) will be installed at depths of approximately 9 ft below grade on Katella Ave, Zeyn St, Anaheim Blvd, Haster St, Disney Way, Clementine St, and Manchester Ave. The new lines will allow the electrical load to be distributed between a greater number of circuits in the central Anaheim Area, providing improved flexibility for serving electric loads during outages or maintenance activities. The proposed construction schedule for the substation will begin in October 2017, and be completed in March 2019. Construction for the transmission and distribution system begins in November 2018 and is anticipated to be completed by May 2020.	<b>MND</b>	01/17/2017

2016122034	Dunkin Donuts Lake County --Lake Construct a +/-2900 sf building to house a Dunkin Donuts restaurant on a currently developed site located southeast of the intersected of SR 20 and 29. The project would include a drive-through, six additional parking spaces and +/-680 sf of new landscaping. The building would be located in the southeast portion of the site on a currently paved area. It would be open from 5:00 am to 10:00 pm, seven days per week, would employ twelve people and serve an estimated one hundred fifty customers per day. The site is currently developed with a minimart, truck weight station, propane sales, drive-through fast food restaurant, petroleum fueling stations, one automatic carwash, thirty eight parking spaces and landscaping.	<b>MND</b>	01/17/2017
2016122035	Fast Track Oil (Oil & Lube) with Coffee Shop Lake County --Lake The property owner is requesting approval of a complex minor use permit on an undeveloped parcel that is approximately half an acre in size. The owner is proposing a Fast Track Oil Change Business with a coffee shop that will have a drive through. The proposed location is adjacent to his current business, the Chevron Gas Station. The proposed structure is a manufactured building approximately 2,230 sf in size.	<b>MND</b>	01/17/2017
2016122036	Middletown Dollar General, Major Use Permit UP 15-08, Design Review and Initial Study IS 15-10 Lake County --Lake The developer, Cross Development is proposing to construct an approximately 9,100 sf retail store for Dollar General. As a smaller scale formula retail chain, Dollar General is relatively new to California and sells various types of merchandise at a broad price range, including but not limited to apparel, toys, prepackaged foods, beverages and cosmetics. This project is proposed to be developed on a parcel located at the northern entrance to downtown Middletown, near Middletown High School, with frontage along Hwy 29. This site is a highly visible, prominent location, so particular attention should be paid to building architecture, landscaping and lighting.	<b>MND</b>	01/17/2017
2016122037	Town of Windsor, Russian River Brewing Company New Production Facility Project Windsor, City of Windsor--Sonoma The Russian River Brewing company is proposing to develop a two-story brewery production facility of up to 120,000 sf. The project site is an approximately 15-acre parcel, of which approximately 11 acres are designated as developable space. The remainder is a designated wetland preserve/conservation area that totals approximately 4 acres. The facility would accommodate public tours of the brewing process, as well as a tasting room, gift shop, and a pub with seating for 175 guests, serving food and beverages. Administrative offices would be located on the second story above the tasting room, gift shop, and brewpub. A single building would be constructed in the center of the developable portion of the site, with visitor access from the north and truck access via controlled entry points on American Way to the south.	<b>MND</b>	01/17/2017

2016122038	<p>Brittan Elementary School Additions Project Brittan Elementary School District --Sutter</p> <p>The proposed project includes construction of a new multi-use gym at the existing Brittan Elementary School in the community of Sutter. The proposed building is approximately 13,792 sf and includes classrooms and a gym with pull out bleachers for seating for up to 219 spectators. The proposed facility would not significantly change the existing operations of the school, which would continue to operate under the current schedule. The gym would supplement the school's physical education program with new locker facilities and an indoor multiuse basketball and volleyball court. Although no joint-set programs are proposed for the gym, the facility would be available for community use through the Civic Center Act. Additionally, seven portable classrooms totaling 6,720 sf will also be added to the school grounds.</p>	<b>MND</b>	01/17/2017
2016122039	<p>Wharves 3 and 4 Fender Replacement Project Redwood City, Port of Redwood City--San Mateo</p> <p>The Port of Redwood City is proposing to replace the fender systems at Wharves 3 and 4 and the walkways that connect them. The existing fender system at the faces of Wharves 3 and 4 would be demolished and removed, including approximately 111 creosote-treated timber piles. Nine 66-in diameter pile supported dolphins would be installed near the face of Wharf 3 and at the corners of the wharf. The new fender system at Wharf 4 would consist of rubber fenders that would be mounted to the face of six existing dolphins. The new walkway would consist of two approximately 120-foot lengths and would be supported by approximately ten 30-in diameter steel piles. The project also includes minor repairs to the existing concrete structures supporting the wharves. These repairs would likely consist of spall repairs and coating repairs to hardware.</p>	<b>MND</b>	01/17/2017
2016122040	<p>PGWWTP Expansion and Energy Recovery Project Roseville, City of Roseville--Placer</p> <p>The existing PGWWTP was designed to treat 12 million gallons per day; however, due to higher than anticipated organic loading, the PGWWTP's effective treatment capacity is approximately 9.5 mgd. The expansion project would expand and increase treatment capacity of the existing PGWWTP to its original 12 mgd design capacity. The city is also considering the related but separate construction of new energy recover facilities that would beneficially utilize the digester gas produced by anaerobic digestion that is included in the expansion project. These projects combined represents the proposed project. The expansion project can proceed without the Energy Recovery project.</p>	<b>MND</b>	01/17/2017

	either public land or commercial property, and adjacent to a variety of existing land uses.		
2016122042	Yuba River Canyon Salmon Habitat Restoration Project Yuba County --Yuba, Nevada The USFWS has proposed a habitat restoration project on the Yuba River in the Englebright Dam Reach in order to increase the spawning success and enhance juvenile rearing of the Central Valley spring-run Chinook salmon evolutionarily significant unit. The proposed project would rehabilitate a total of approximately 8.29 acres of river channel and an adjacent alluvial bar for the purpose of improving salmonid spawning and rearing habitat. The restoration approach is to excavate, grade and sort of the alluvial bar and enhance existing in-river topography, while reducing the amount of armoring on the adjacent alluvial bar.	<b>MND</b>	01/17/2017
2016122043	Novato General Plan 2035 Update Novato, City of Novato--Marin The general plan update identifies and prioritizes opportunities to preserve the character of the community, conserve natural resources, and direct land use policies that enable sustainable growth in Novato. Updates to the general plan include changes to various policies directing land use amendments, addressing land use compatibility and development intensities, establishing impact thresholds for future development projects, and implementing programs focusing on the development of design guidelines and new zoning provisions. There are five focus areas that would result in land use and development intensity changes: downtown Novato, North Redwood Corridor, North-North Redwood Corridor, the Northwest Quadrant, and the Hamilton/Ignacio Industrial Parks.	<b>NOP</b>	01/17/2017
1990020076	El Sobrante Landfill Expansion Riverside County Corona--Riverside CDFW has executed lake and streambed alteration agreement no. 1600-2016-0155-R6, pursuant to section 1602 of the fish and game code to the project applicant. The Project includes grading the canyon slopes and importing fill to create a berm using various earth moving equipment. Three drainage features occur within the Project, with two being natural swales resulting from the canyon topography and a larger drainage that flows into Olsen Creek. The two swales will be covered with material, while a 24 inch storm drain will be placed to capture the third, larger unnamed tributary. The storm drain will convey water flow through the berm, into a 12 foot by 12 foot box with 1/2 ton riprap, where it will be directed into a concrete drainage ditch that runs along the northern perimeter of the berm.	<b>NOD</b>

A General Plan Amendment to modify the acreage &amp; description for the future Buena Neighborhood Park (project's proposed Park "C"), in the Parks, Recreation, and Community Health Element of the General Plan. The narrow strip of property extending up to Buena Creek Road will be preserved habitat as part of the 210.8 acres of conservation open space for the project. Certification/Adoption of an EIR.</p> <p>Tajiguas Landfill Resource Recovery Project Santa Barbara County Goleta--Santa Barbara</p> <p>The City of Santa Barbara approved a Material Delivery Commitment and Processing Services Agreement whereby the City of Santa Barbara has agreed to deliver its franchise municipal solid waste, source separated food scraps, and source separated comingled recyclables to the Tajiguas Resource Recovery Project for a term of 22 years. This approval serves, in part, to provide the financing for the Project, thereby making the City a responsible agency pursuant to CEQA Guide Section 15381. When approving the Material Delivery Agreement, the City Council considered the above referenced EIR prepared by the County of Santa Barbara.</p> <p>The TRRP would modify current waste management operations at the Tajiguas Landfill by the addition of a Materials Recovery Facility (MRF) and Dry Fermentation Anaerobic Digestion (AD) Facility. The MRF processing area would be comprised of an approx. 56,500 sq. ft. facility (66,500 sf if CSSR [optional element is included) that would sort MSW into three streams: Recyclables (i.e. glass, metal, paper, plastic, wood) - recovered and processed for sale; Organics - recovered for processing in the Anaerobic Digestion Facility; and Residue - materials left over after all recyclables and organics are recovered that would be disposed of at the existing landfill.</p> <p>The AD facility would be housed within an approx. 63,600 sf building, and associated energy facility and percolate storage tanks that would convert all organics recovered from the MSW and SSOW into:</p> <p>Bio-gas (primarily composed of methane and CO<sub>2</sub>) - that would be used to power (2) 1,573 horsepower onsite combined heat and power (CHP) engines driving electric power generators that would generate approx. 1+ net megawatts of renewable power continuously. The Energy Facility would be located on the south side of the AD Facility; and</p> <p>Digestate - that can then be cured into compost and/or soil amendments. The curing would require an approx. 5 acre on the landfill top deck. The compost and/or soil amendments would be marketed for agricultural or landscape use or used for reclamation projects.</p> <p>Construction of the facility (MRF, AD Facility and Composting Area) would require approx.. 143,625 cubic yards of cut and 167,595 cubic yards of fill. The MRF would have a design capacity of up to 800 tons/year (290 tons/day) of recyclable material would be recovered and sold for reuse. The AD facility would have a design capacity of up to 73,600 tons/year, made up of organics recovered from the MRF and/or brought to the project site as SSOW.</p> <p>Up to 100,000 tons/year (320 tons/day) of residue from the MRF and residue from the AD Facility which is not suitable for composting would be landfilled. Residue ineligible for disposal in the landfill (i.e., hazardous waste or e-waste), would be transported to an appropriate recycling or disposal facility.</p> <p>As an optional element, the project would also process up to 130 tons/day of</p>	<b>NOD</b>

	CSSR or 40,000 tons/year. With the inclusion of this optional element, the total maximum processing capacity of the MRF would be approx.. 290,000 tons/year (250,000 tons/year MSW + 40,000 tons/year CSSR). Processing of CSSR would increase the production of marketable recyclables by up to 36,000 tons/year (126,000 tons/year overall), producing up to an additional 4,000 tons/year (13 tons/day) of residue which would be disposed of in the landfill.		
2014081022	<p>La Ventana Ranch Project - General Plan Amendment (GPA No. 1129, Change of Zone (CZ No. 07856) and Tentative Tract Map (TR 36785) Amended, County EIR 542</p> <p>Riverside County Menifee--Riverside</p> <p>The GPA proposes an Extraordinary Foundation Level Amendment to amend the Riverside County General Plan Land Use Element from Rural Community; Estate Density Residential (RC:EDR) (2 acre minimum) to Community Development: Medium Density Residential Policy Area East of Interstate 215 Policy Area by removing the project site from the policy area. The General Plan Amendment additionally is amending the Circulation Element to downgrade La Ventana road within the project boundary (between Garbani Road and Wickerd Road) from a Secondary Highway to a Collector. The Change of Zone proposes to change the existing zoning from Residential Agricultural-5 Acre Minimum (R-A-5) to Planned Residential (R-4). The TTM No. 36785 is a Schedule "A" subdivision subdividing 170.8 gross acres into 511 residential lots with a 5,500 sq. ft. minimum lot size, and 25 lettered lots consisting of drainage basins, parks, paseos, and open space, and an EIR to review and analyze the environmental impacts of the project.</p>	<b>NOD</b>	
2015022062	<p>Aspen VIII and IX Mining Use Permit</p> <p>Sacramento County --Sacramento</p> <p>A Use Permit to allow surface mining on approx. 353 acres of a 683-acre project site. A Use Permit to allow a conveyor system to transport the mined materials across adjacent parcels to an off-site processing plant. A Community Plan Amendment and Rezone to add the Surface Mining Combining Zone (SM) to 682 acres of IR, AG-80 (F), AG-160 and AG-160 (F) land. Note: the acreage to be rezoned (682) is one acre less than the 683 acre project site because the conveyor extension on parcel 063-0190-027 does not require a rezone. A Reclamation Plan to include open space grassland uses at the end use of the mine. A Development Agreement between the applicant and the County of Sacramento.</p>	<b>NOD</b>

	<p>Isle. Crossing NO. 3 consists of approx. 3,800 feet of in-street pipeline from Ford Street and 29th Avenue (Oakland) to Lincoln Avenue and Tilden Way (Alameda) and 1,400 feet of pipeline crossing under the Estuary. Crossing NO. 3 includes work on 29th Avenue, Ford St., Derby Avenue, Broadway, Tilden Way, Clement Ave., Everett Street, and Lincoln Avenue. Crossing No. 1 would begin design in Jan 2017 followed by a two-year construction period from 2018 to 2019. Design and construction of Crossing No. 2 is planned for 2020 through 2022 and a Crossing No. 3 is planned for 2022 through 2024.</p>		
2016041018	<p>Cypress College Facilities Master Plan Program EIR North Orange County Community College District Cypress--Orange</p> <p>The proposed project would involve the demolition of approximately 56,561 asf of existing buildings and facilities at Cypress College. Approximately 138,000 asf of new academic, auxiliary, and recreational uses would be constructed, which also includes the increase in square footage due to the expansion of existing buildings. Approximately 1,100 net parking spaces would be created from construction of a new parking structure and reconfiguration of existing lots. Parking lots 1 through 9 will be reconfigured with 90 degree parking stalls to increase efficiency; entries/exits for all parking lots will be reconfigured to improve visibility and traffic flow; pedestrian sidewalks, crosswalks, and connections for pedestrian safety will be incorporated; clear and directional wayfinding signage will be provided; and photovoltaic canopy covered parking lots will be included.</p>	<b>NOD</b>	
2016071060	<p>La Gloria Road Curve Correction Caltrans #6 Hollister--San Benito</p> <p>Caltrans proposes to improve safety on SR 25 by reducing the quantity and severity of roadway departure collisions from PM 25.9 to 26.3 in San Benito County. The project would correct deficiencies in the non-standard curve radius, realign the highway, widen shoulders, construct rumble strip, and extend one culvert. Approximately 2.14 acres of ROW is required.</p>	<b>NOD</b>	
2016072049	<p>SB 5 General Plan and Zoning Code Compliance Amendments Sacramento County Sacramento--Sacramento</p> <p>In response to the requirements of gov code section 65302.g, 65302.9 and SB-5, the County is pursuing amendments to the general plan safety and conservation elements, the safety element background document, and the zoning code. These amendments will require an urban level of flood protection for urbanized flood hazard zones within the unincorporated county. Standard 100-year protection, currently required by the Federal Emergency Management Administration, will continue to apply in non-urban flood hazard areas.</p> <p>Other proposed amendments required by SB-5 will address planning, design and maintenance of flood protection facilities, including: preservation of natural drainage, emergency access to flood protection facilities, interagency coordination for facility maintenance and emergency response, and proper analysis of flood risk for new urban development. Certain flood maps and other data will be incorporated into the Safety Element Background document The General Plan and Zoning Code Amendments will alter policies in order to achieve compliance with state law (SB-5 and subsequent amendments). Adoption of these policy amendments will create no direct impacts on the ground, though it is anticipated that future flood management projects will be guided by these policies.</p>	<b>NOD</b>

2000122078	Harding Boulevard to Royer Park Bikeway Project Roseville, City of Roseville--Placer To construct a new Class 1 bike trail; to construct two new retaining walls; to construct a new gabion wall; to place vegetated rock slope protection; to install a new metal rail; to authorize an existing 24 inch diameter reinforced concrete drainage pipe; and to construct a new rock energy dissipater for the drainage pipe.	<b>NOD</b>	
2004032104	Vineyard Point Amended Vesting Tentative Map and Special Development Permit and Affordable Housing Plan Sacramento County --Sacramento Project improvements include drainage features and will re-align, deepen, and widen Elder Creek for approx. 1 mile. Construction activities include: installation of twenty-one cobble lined drop structures; one 42-inch and one 66-inch pipe diameter concrete outfall structure; three concrete lined access ramps; realigning four existing 36-inch culverts at McCoy Ave.; replacing the existing bridge at Florin Road with three 14-foot high by 10 feet wide box culverts; and the removal of an abandoned rail road bridge.	<b>NOD</b>	
2010121044	2015 South Gate Educational Center Master Plan (Formerly titled 2015 Firestone Education Center Master Plan) Los Angeles Community College District South Gate--Los Angeles Implementation of proposed 2015 South Gate Educational (SGEC) Master Plan consists of the construction of a new satellite campus to replace the existing SGEC, provide expanded and improved educational facilities, and accommodate existing and projected student enrollment. The primary differences between the 2013 Master Plan are that Buildings 1 and 3 on the project site would be demolished and that a parking structure would no longer proposed to be constructed on site. In lieu of the parking structure, additional surface parking would be provided on-site. Consistent with 2013 Master Plan, Building 2 would remain on-site Building 4 would be demolished, and a new approx. 100,000 gross sq. ft., three-story educational building will be constructed.	<b>NOD</b>	
2013101006	Del Webb and San Juan Oaks Specific Plan San Benito County Hollister--San Benito CDFW has executed Streambed Alteration Agreement No. 1600-2016-0085-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, San Juan Oaks, LLC. Project includes activities related to the permanent modification to approx. 1,475 linear feet of an ephemeral stream for the construction of a new housing development.	<b>NOD</b>	
2016031012	Rancho Cienega Sports Complex (Celes King III) (G922) (WO: E1907694) Los Angeles, City of Los Angeles, City of--Los Angeles The proposed Rancho Cienega Sports Complex Project (proposed project) includes the development of an upgraded and expanded sports complex in the City of Los Angeles Council District 10. The proposed project would construct a new 30,000 sq. ft. sports complex that would include a new indoor pool and bathhouse with a community room and fitness annex on the 2nd floor; a new indoor gymnasium with office space, a running path, and a lookout deck on the	<b>NOD</b>

	Avenue and private roads would be constructed within the subdivision.		
2016121060	Tulare Lake Storage and Floodwater Protection Project Semitropic Water Storage District --Kings Note: Review Per Lead	<b>NOP</b>	01/27/2017
	<p>The proposed project would involve the construction and operation of surface storage and conveyance facilities in the Tulare Lake Bed to capture and improve the management of floodwaters from streams tributary to Tulare Lake, which principally include the Kings, Kaweah, and Tule Rivers, and other waters that may become available for storage and management such as State Water project flows. The project would be constructed on approximately 19,700 acres within or immediately adjacent to the dry lakebed. Water storage would be created by the construction of leveed impoundments on up to approximately 12,000 gross acres within the dry lakebed. The reservoir would be formed by constructing levees of approximately six feet, to up to eight feet, in height with a total storage capacity between approximately 15,000 and 30,000 acre-feet respectively. Available floodwaters would be conveyed to project facilities through new and existing channels, canals and pipeline facilities, including Empire Weir No. 2, Blakeley Canal, and the Kings River South Fork Canal. Improvements of existing conveyance facilities may also be necessary, and may include the construction of pump stations. Project water would be conveyed, either directly or from storage, into the California Aqueduct via a new conveyance facility for delivery to the Semitropic Water Storage located in Kern County.</p>		
2016121063	Fig+Pico Conference Center Hotels Los Angeles, City of Los Angeles, City of--Los Angeles Project would develop approx. 506,682 sq. ft. of floor area in two hotel towers, providing up to 1,162 guestrooms and 13,145 sq. ft. of retail/restaurant space on a 1.22-acre development site located at 1240-1260 S. Figueroa Street and 601 W. Pico Blvd. in the Central City community of the City of Los Angeles. The development site currently contains a 27,800 sq. ft. two-story commercial building and surface parking lots, which are to be demolished. Three hotels, which are identified as Hotel A, Hotel B, and Hotel C, are to operate within the two proposed towers. Proposed Hotel A and B would be developed in a single 42-story, 529 foot tower on the northeast corner of S. Figueroa Street and W. Pico Blvd. The Hotel A/B tower would include 11,000 sq. ft. of ground-floor retail/restaurant uses, up to 820 hotel guestrooms, hotel lobbies, guest amenities such as rooftop pool decks and viewing deck, conference and meeting room spaces, signage, and parking for all three hotels (353 spaces). Proposed Hotel C would be developed in a 25-story, 326-foot tower on the northwest corner of Pico Blvd. and Flower St. The Hotel C tower would include a hotel lobby approx. 2,145 sf of ground-floor commercial retail/restaurant uses, up to 342 guestrooms, and guest amenities such as a landscaped rooftop pool deck.	<b>NOP</b>	01/20/2017

	<p>Metro is the lead agency responsible for preparing the EIR for the LA Union Station Forecourt and Esplanade Improvements. Metro has also secured federal funds for the project which requires compliance with the NEPA. The Caltrans, acting on behalf of the FHWA will serve as the federal lead agency for the evaluation of the project. Consistent with the provisions of 23 code of federal regulations 771.117(a)(c)(2). It is anticipated that a categorical exclusion will be used to demonstrate compliance with NEPA.</p>		
2016122047	<p>Lower Klamath Project License Surrender State Water Resources Control Board --Siskiyou Note: Review Per Lead</p> <p>The KRRC is proposing to remove sufficient portions of the Iron Gate, Copco No. 2, Copco No. 1, and J.C. Boyle dam developments to create a free flowing Klamath River and provide for volitional fish passage in the Klamath River currently occupied by these dam developments. The hydroelectric facilities and associated structures will either be removed or decommissioned in place.</p> <p>The LKP would require improvements to roads, construction of staging areas, and creation of onsite debris disposal sites. The LKP would also require changes to the city of Yreka's Fall Creek water supply. Yreka receives 15 cfs of water through a 24-in diameter pipe that runs from the Fall Creek dam development, crosses the Klamath River near the upstream end of Iron Gate reservoir, to the city of Yreka's water distribution system.</p>	<b>NOP</b>	02/01/2017
2016121058	<p>Pacific Villa Residential Project Alhambra, City of Alhambra--Los Angeles</p> <p>The project proposes to demolish a vacant senior care facility to construct 79 condominiums on four lots with 10 units in Lot 1, 13 units in lot 2, 30 units in lot 3 and 26 units in lot 4. There is one single unit building in lot 1 at the southwest corner of Monterey St and McLean St and all other buildings will have two, three and four units per building. All of the buildings are two-stories in height with subterranean parking for 2 and 3 cars. The units in lot 1 will have Spanish architecture, lot 2 will have Craftsman architecture, feet, excluding the garage. Landscaping will be provided around the perimeter of the site as well as through the project. Depending on the size of the unit, each units will have a fenced-in deck ranging from 8'x11, 10'8"x14 to 5'6"x11. The project proposes 202 parking spaces, which including 17 guest spaces.</p>	<b>Neg</b>	01/20/2017
1991093009	<p>Greyhound Residential Project San Jose, City of San Jose--SANTA CLARA Note: Review Per Lead</p> <p>The proposed project includes the demolition of the existing on-site structures (a one story commercial building and the Greyhound bus station) and the construction of two residential towers with ground floor retail. The residential towers would include a north tower (23 stories) and a south tower (24 stories), for a total of 781 residential units. Approximately 20,000 sf of ground floor retail would be located within the towers along South Almaden Ave, Post St, and San Pedro St. Retail space would be located on the first floor and residential parking would be located two levels of above-grade, on the first and second floor, and four levels of</p>	<b>SIR</b>	02/15/2017

<b><u>Documents Received on Friday, December 23, 2016</u></b>			
2016122056	The Parkway Apartments Project Folsom, City of Folsom--Sacramento The project applicant is requesting a planned development permit from the city for a 72 unit apartment complex with 18 one bedroom units with 754 sf units, 36 two bedroom units with 1,073 and 1,024 sf units and 18 three bedroom units with 1,276 sf units on a 4.15 acre portion of the 10.11 acre project site. The density of the proposed project would be seven units/acre and would total 74,874 sf of living space in the proposed 72 units. The proposed project would be 100% affordable with rents ranging from 30-60% area median income. The project would be deed restricted for 55 years and would be financed using federal low income housing tax credits, conventional debt, local financing, and developer equity.	<b>MND</b>	01/23/2017
2016122057	McLean Community Center Fortuna, City of Fortuna--Humboldt Construction of McLean Community Center on a 36 acre site to include a phased buildings for community activities, a parking lot with over 260 spaces, trails, soccer fields, playground, a trail system, community garden, riparian protection and wetland mitigation. Development aeras will occupy approximately 6 acres of the site.	<b>MND</b>	01/23/2017
2016122058	Simmerly Slough Bridge Replacement Project Caltrans #3 Marysville--Yuba Caltrans proposes to replace the Simmerly Slough Bridge on SR 70 by constructing a parallel structure to the west of the existing bridge. The existing bridge will be demolished after the new bridge is constructed. Other proposed work includes realigning the approach roads at both ends of the bridge as well as constructing a new access road to Laurellen Rd.	<b>MND</b>	01/23/2017
2016121065	Alamo Springs Solar Project Castaic Lake Water Agency Avenal--Kings The proposed project is an approx. 130-MW alternating current (AC) photovoltaic (PV) solar generating farm. The proposed project site is located in unincorporated Kings County, in the southern portion of the San Joaquin Valley within Sections 25 and 30, Township 24 S, Range 18 E, and Sections 30 and 31, Township 24 South, Range 19 East, Mount Diablo Base & Meridian CA (Figure 2). This region is characterized by a history of farming, ranching, and oil exploration. The proposed Project site parcels are under ownership of the CLWA and used for limited agriculture and grazing. The entire project area is classified by the CA Dept. of Conservation's Important Farmland Map as "Grazing Land." No portion of the project site is under a 20-year Farmland Security Zone Contract, also referred to as Williamson Act contract. Kings County provided an updated Agricultural Priority Designations map classifying the proposed Project site as "Medium Priority" and "Low Medium Priority."	<b>NOP</b>	01/23/2017
2016121070	Logan Heights Education Center Project San Diego Unified School District --San Diego The district is proposing to redevelop the existing Logan School and Memorial Prep campus to provide a Transitional to 12th grade educational center.	<b>NOP</b>	01/23/2017

<b><u>Documents Received on Friday, December 23, 2016</u></b>			
2014122053	PA-1400218 (SA) San Joaquin County Lodi--San Joaquin A time extension application for a previously approved site approval application to expand an existing agricultural waste facility for shell grindings in four phases over ten years. Phase 1 to include the construction of a new 576 sf restroom building. Phase 2, with building permits to be issued within five years, includes the construction of a new 12,000 sf warehouse building. Phase 3, with building permits to be issued within 8 years, includes the construction of a new 12,000 sf warehouse building. Phase 4, with building permits to be issued within 10 years, includes the construction of a new 12,000 sf warehouse building.	<b>Neg</b>	01/23/2017
2016122054	City of Arcatia Citywide General Plan/Zoning/Sphere of Influence/Urban Services Boundary Amendment Arcata, City of Arcata--Humboldt The project involves a general plan and zoning amendment and a modification of the city's USB and/or SOI effecting 23 city-owned properties and 13 privately-owned properties to address existing development and to direct future growth in specific areas outside city limits.	<b>Neg</b>	01/23/2017
2005111094	Tentative Map 2005-1 (Award Homes Subdivision and Specific Plan Amendment) Hollister, City of Hollister--San Benito The proposed project involves the development of 126.8 acres of undeveloped land into a residential subdivision of single-family homes and multi-family apartments on the Project site. The proposed subdivision would also provide 16 undeveloped lots within the 126.8 acres. These include eight lots that would comprise an open space greenway (linear park) along the primary collector road serving the development and bisecting the site from north to south, a 1.5 acre detention basin lot, and a 0.46 acre lot crossed by Santa Ana Creek in the northeast corner of the site that would remain undeveloped and would be dedicated to the City for park use. The other six undeveloped lots would consist of private streets serving the clustered residential parcels. Project will permanently remove 126.8 acres of CA tiger salamander ( <i>Ambystoma californiense</i> ) habitat. The project is expected to result in incidental take of CA tiger salamander, which is designated as a threatened species under CESA. The ITP referenced above is issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>	
2014081025	Draft Final EA; Replacement of Overhead Electrical Lines, Feeders N5, N9, and N10 Vandenberg AFB, CA U.S. Air Force Lompoc--Santa Barbara Site Access Agreements at Sites CPK, MMC, and SDW allow for implementation of the LMR System which consists of installation of antennas on existing and new monopoles and lattice towers and supporting radio equipment in existing and new shelters at sites primarily within the County of LA. The environmental impacts of project implementation at these sites was evaluated in an EIR certified by the LA-RICS JPA Board on March 29, 2016. There have been no changes to the project or to the circumstances under which the project is undertaken since that approval that would require new analysis or mitigation under CEQA.	<b>NOD</b>

	percent of the Project building area would be allocated for distribution warehouse uses; the remaining 89,270 sq. ft., or approx. 20 percent of the Project building area would be assigned to manufacturing uses.		
2016081035	<p>Bautista Creek Recharge Basin Expansion Project Riverside County Flood Control and Water Conservation Hemet--Riverside</p> <p>The District, in partnership with the Lake Hemet Municipal Water District, is proposing to design, construct, operate and maintain the Bautista Recharge Basin expansion project. The recharge project is being designed to promote infiltration and increase recharge in the Hemet-San Jacinto Valley groundwater basin areas. The project includes construction of 6 earthen infiltration basins that will allow stormwater and surplus water to pond until it infiltrates into the ground. Water will enter the site and begin ponding within the southernmost basin and then be allowed to spillover via concrete spillway or concrete pipe structure, each which will be connected into the subsequent downstream basins flowing from south to north. A secondary source of water will be from surplus imported water via a pipeline from under Cedar Avenue that will be constructed as part of the project.</p>	<b>NOD</b>	
2016102029	<p>Meyers Intersection Improvements Caltrans #3 --El Dorado</p> <p>This project proposes to install a three-legged roundabout at the intersection of US 50 and SR 89 in El Dorado County. The purpose of this project is to improve safety at this intersection by reducing the number and/or severity of collisions and influence traffic calming with the implementation of a roundabout. This project is needed because the intersection is experiencing a number of collisions related to the intersection type. A small R/W TCE is required to complete roundabout design.</p>	<b>NOD</b>	
2016102065	<p>Live Oak Wastewater Treatment Plant Solar Project - Initial Study/Mitigated Neg. Dec. Live Oak, City of Live Oak--Sutter</p> <p>The proposed project consists of installation of a solar system to serve the city's WWTP. The solar system will be located in two areas within the 39.24 acre WWTP facility site: (1) over the existing administrative building and adjacent parking area, and (2) in a 4.6 acre vacant field at the northeast corner of the site. The project would include the installation of 3,883 square yards of PV panels to produce 864,000 kWh of electricity per year. No off site improvements will be necessary.</p>	<b>NOD</b>	
2016129021	<p>Lower Scotts Creek and San Vicente Creeks Habitat Enhancement and Monitoring Projects (Lake or Streambed Alteration Agreement No. 1600-2016-0356-R3) Santa Cruz County --Santa Cruz</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0356-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Resource Conservation District of Santa Cruz County. Project includes two instream habitat improvement projects and a mitigation monitoring plan to quantify effectiveness and success of these two projects. The two project activities authorized under this Agreement are limited to the Lower Scotts Creek Floodplain and Habitat Enhancement Project Phase 3 (LSCFHEP 3) and the San Vicente Creek Habitat Enhancement Project (SVCHEP).</p>	<b>NOD</b>

2016062009	Mammoth Creek Park West New Community Multi-Use Facilities Mammoth Lakes, City of Mammoth Lakes--Mono The project consists of constructing new community multi-use facilities at the project site, encompassing a max 100-ft by 200-ft ice rink (winter)/recreation/event area covered by an approximately 30,000 sf roof structure and additional storage and support space. In addition, the proposed project includes a 13,000 sf complementary community center, reconfiguration and improvements to an existing playground, restroom improvements, and 107 additional surface parking spaces. The project would also include an active outdoor recreation area to the west of the new community multi-use facilities. Upon project completion, the existing Mammoth Ice Rink/RecZone would be made inactive, and the existing community center would remain under Town operation.	<b>EIR</b>	02/13/2017

<b><u>Documents Received on Thursday, December 29, 2016</u></b>			
2016102008	<p>Choy Saetern Tentative Parcel Map (TPM14-0009) Butte County Oroville--Butte</p> <p>The applicant is requesting to subdivide 29.10 acres into four lots and a remainder: 5.33 acres (lot 1), 5.34 acres (lot 2), 5.52 acres (lot 3), 5.52 acres (lot 4), and 7.39 acres (remainder). Domestic water for future development on the resultant parcels would be provided by on site domestic wells. Wastewater disposal for future development would be provided by individual on-site septic systems. Access to the proposed lots would be provided by a new private road off Power House Hill Road. The access road will be constructed to the county's RS-8-LDII standard, which will include a 20 ft wide road with a 4-in Class II aggregate base surface. The total length of the road from Power House Hill Road to its terminus is approximately 1,560 ft, and will include a 50 ft radius cul-de-sac at its terminus.</p>	<b>MND</b>	01/27/2017
2016122065	<p>Quincy-East Quincy Wastewater Treatment Plant Improvements Quincy Community Services District Quincy--Plumas</p> <p>The project entails improvements to the Quincy Wastewater Treatment Plant and effluent disposal system, as well as potential installation of a solar photovoltaic power general facility of up to 300 kW and infrastructure improvements to adjacent pastures to max discharge. The primary purpose of the project is to comply with Central Valley RWQCB requirements for wastewater treatment and discharge. The proposed improvements would be located primarily within the footprint of the existing WWTP and adjacent pastures, and would include a replacement treatment facility, new effluent disposal system, solar PV panels, and related equipment. The project site is not identified as a hazardous waste facility, hazardous waste property, or hazardous waste disposal site.</p>	<b>MND</b>	01/27/2017
2014122028	<p>Occidental County Sanitation District Wastewater Transport Compliance Project Sonoma County Water Agency Santa Rosa--Sonoma</p> <p>The proposed project would allow the Occidental County Sanitation District to comply with conditions set forth in North Coast RWQCB Order No. R1-2012-0101 (Order). The proposed project would include transporting untreated wastewater to the Russian River County Sanitation District Main Lift Station where it would be discharged into the RRCSD collection system for treatment, storage, and disposal. In situations where transferring untreated wastewater to the RRCSD is not feasible, including lack of access to RRCSD facilities during flood events, operational limitations include heavy rain events during the irrigation season, or operational malfunctions, untreated wastewater would then be transported to the Airport-Larkfield-Wikiup Sanitation zone for treatment, storage, and disposal.</p>	<b>Neg</b>	01/27/2017
2016121079	<p>San Antonio Regional Hospital - Medical Office Building, Site Plan (SP) No. 16-10 and Design Review (DR) No. 16-12 Upland, City of Upland--San Bernardino</p> <p>The site is currently developed with a 29,208 sf medical office building, a 6,000 sf require a demolition of the medical office building, a birthing center building, carport and adjacent fencing and walls. The proposed project consists of the development of a 59,700 sf, two-story medical office building. Access to the site will be provided from both 11th Ave and San Bernardino Road. The project will provide 252 parking stalls. Two entrances are provided along San Bernardino Rd, one signalized and the other unsignalized. A third unsignalized entrance is located</p>	<b>Neg</b>	01/27/2017

	on 11th Ave.		
2008081090	San Joaquin Cross Valley Loop Transmission Project Public Utilities Commission Visalia, Farmersville--Tulare This Project involves the construction, operations, and maintenance of a 23-mile long double-circuit 220 kilovolt (kV) transmission line looping the existing Big Creek 3-Springville transmission line to the existing Rector substation, creating the new Big Creek 3-Rector and Rector-Springville transmission line circuits. The construction phase of the Project was to result in impacts to 98.30 acres of California tiger salamander ( <i>Ambystoma californiense</i> ) habitat including temporary impacts to 52.62 acres and the permanent loss of 45.68 acres of California tiger salamander habitat. The Project was expected to result in incidental take of California tiger salamander, which is designated as a threatened species under the California Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA.  The construction phase of Project was completed in late-2014 and the Minor Amendment No. 1 (Amendment) includes changes to the ITP as originally issued. These changes include a reduction in the Project construction-related impacts to breeding habitat for the Covered Species, "like for like" compensatory mitigation for those Project construction-related impacts to breeding habitat for the Covered Species; and an extension of the time allowed for the mitigation to be fulfilled.	<b>NOD</b>	
2009091126	California High-Speed Train Project Fresno to Bakersfield Section High Speed Rail Authority, California Madera, Fresno--Fresno, Madera CDFW has executed an Amendment No. 8 to Master Streambed Alteration Agreement no. 1600-2013-0060-R4 (Agreement), to the Permittee, CA High-Speed Rail Authority.  The project approved by CDFW consists of the agreement identified above, which addresses construction and operation of the Merced to Fresno segment of the CA HST, as approved by the lead agency, affecting or generally related to fish and wildlife resources subject to the regulatory authority of CDFW, including natural resources subject to Fish and Game Code section 1600 et seq. The agreement authorizes certain activities contemplated in section 1602 of the fish and game code that could cause substantial adverse effects to fish and wildlife resources. The Agreement in this respect will facilitate construction and operation of the project. The project as originally permitted will impact fish and wildlife habitat subject to the notification requirement in section 1602 of the fish and game code within and/or adjacent to the Fresno River, Main Canal, Cottonwood Creek, San Joaquin River, Herndon Canal, Dry Creek Canal, and Chowchilla River, North Central Canal, Central Canal West, Central Canal East, an Unnamed Canal, Viau Canal, and Fresno Colony Canal. Amendment No. 8 includes a minor modification to the impact acreages at the Fresno Colony Canal.	<b>NOD</b>	
2014071080	Middlewater Natural Gas Pipeline Project by Phillips 66 Pipeline LLC Fish & Wildlife #4 --Kern This amendment makes four changes to the ITP as originally issued. First, this Amendment changes the permit expiration date to Dec. 31, 2016, and removes language in the Project Description regarding Long-term Operations and Maintenance (O&M) Activities. Second, it reduces the temporary impacts for the	<b>NOD</b>

2016091018	<p>project to 0.238 acre. Third, it changes the Habitat Management Land Acquisition requirements for the ITP to allow for purchase of one credit from a CDFW-approved conservation bank. Fourth it reduces the temporary habitat impact restoration requirements to 0.238 acre.</p> <p>The project will temporarily impact 0.238 acre of San Joaquin kit fox (<i>Vulpes macrotis mutica</i>) (SJKF) and San Joaquin antelope squirrel (<i>Ammospermophilus nelsonii</i>) (SJAS) habitat. The project is expected to result in incidental take of SJKF which is designated as a threatened species and SJAS which is designated as an endangered species under the CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.</p> <p>Haiwee Power Plant Penstock Replacement Project Los Angeles, City of --Inyo</p> <p>LADWP operates the existing Haiwee Power Plant Penstock for the conveyance of water from the south Haiwee Reservoir to the Haiwee Power Plant as part of the overall LA Aqueduct System. Due to a partial collapse of the penstock in 1984, and decades of corrosion and pitting, normal operation of the penstock does not meet current day design standards. This project would replace approx. 10,000 feet of existing pipe to allow the safe transmission of water from the South Haiwee Reservoir to the Haiwee Power Plant.</p>	<b>NOD</b>	
2016101059	<p>Cutri Residence Santee, City of Santee--San Diego</p> <p>Project involves the construction of a single-family residence on the 9.9 acre site located at the northern terminus of Magnolia Ave in the City of Santee, CA. The property is currently undeveloped. The parcel slopes downward from north to south. The slope of the property is in excess of 20%. The undeveloped 9.9 acre site contains 9.6 acres of Diegan Coastal Sage Scrub habitat and 0.3 acres of disturbed land. The Diegan Coastal Sage Scrub is a habitat area for the coastal CA gnatcatcher which is a threatened species under the Federal Endangered Species Act. Accordingly, a federal protocol survey for the gnatcatcher was conducted and a pair of nesting gnatcatchers was observed on the site. The proposed project would impact 2.62 acres of on-site DCSS plus additional 0.3-acres of DCSS offsite. The proposed area of disturbance includes the area of grading, fire protection zones, and an area where a septic system will be installed. Some of the fire protection zone would be located on the parcel immediately adjacent to the east.</p> <p>The proposed project consists of the construction of a one-story, single-family residence, driveway, and detached garage in the southeastern corner of the parcel. The low profile home contains 2,866 sq. ft. of living area consisting of the main residence and an attached guest casita. The structure has a low sloping roof that slopes downward from north to south. The project also includes a 624 sq. ft., detached, three-car garage. The building will reach a height of 16'2 1/4" above grade. An outdoor, 450 sq. ft. pool with a 49 sq. ft. spa are also proposed as a later development. Vehicle access to the residence and garage is via an approx. 300 foot long, 16 foot wide driveway that originates near the southeast corner of the lot. All the exterior building materials are natural colors consistent with the existing landscape on the property. Disturbed areas will be revegetated with native species similar to those found elsewhere on the property. The house will employ double glazed, low E windows for energy efficiency and have low water</p>	<b>NOD</b>

	usage through efficient landscape and low flow fixtures. The glass on the exterior facades will be constructed with glass designed to minimize reflection. Grading is required to create the pad for the proposed structures and for the driveway leading to the house. Fill slopes will be used to support the bulk of the driveway leading up to the pad. The project also includes the recordation of a conservation easement over 7.0 acres of the project site, which will provide for the conservation, management, and monitoring for occupied coastal California gnatcatcher habitat, consistent with the project's Final Low-Effect Habitat Conservation Plan.		
2016102002	Hot Springs Road Bridge (No. 31C-0005) over Hot Springs Creek Replacement Project Alpine County --Alpine Alpine County is proposing to replace the existing Hot Springs Road Bridge (No. 31C-0005) over Hot Springs Creek with a new prestressed concrete slab bridge. The new bridge would be 34 feet wide by 78 feet long with two travel lanes and a roadway width of 22 feet. The existing bridge is structurally deficient and poses a safety hazard to vehicle travel. The project also includes modification of the approaches on Hot Springs Road and possible use of a diversion structure in the creek. The creek may be dewatered in the work area. The bridge would remain open to through traffic during construction, with one lane being closed at a time.	<b>NOD</b>	
2016102032	Initial Study/Draft Negative Declaration: Local Hazard Mitigation Plan/Safety Element of the General Plan Foster City Foster City--San Mateo The Local Hazard Mitigation Plan/Safety Element focuses on the protection of the community from risks associated with hazards such as earthquakes, floods, fires, hazardous materials and other hazards. The LHMP/Safety Element analyzes these hazards and the risks they pose, and include goals and mitigation strategies to establish what measures will be undertaken to reduce these risks to levels determined by the city to be reasonable. Foster city has chosen to prepare one document to meet the requirements of both the safety element of the general plan and the LHMP in order to provide one point of reference for safety and hazard mitigation planning.	<b>NOD</b>	
2016112051	Atkinson Self Storage LLC Expansion Project Dixon, City of Dixon--Solano Construction of a two phase expansion of the existing Atkinson Self Storage on two neighboring, vacant lots, located on the other (southerly) side of Atkinson Court. The first phase includes 34,700 sq. ft. of new mini-storage building space, along with 1,360 sq. ft. for a manager's office and residence. The second phase involves 31,025 sq. ft. of additional mini-storage building space.	<b>NOD</b>	
2016128379	Adobe Perimeter and Yard Wall Repairs - North Sector Office Parks and Recreation, Department of --San Diego This project will repair, restore, reconstruct and protect the historic Adobe Perimeter Wall that surrounds the North Sector Office buildin in te City of Carlsbad. It wil improves the appearance of the property park resources.	<b>NOE</b>

2016128380	<p>Environmental Review No. 7211 - County Service Area 30 - El Porvenir (CSA 30) Construction of Wells and Distribution System Improvements (REVISED) Fresno County --Fresno</p> <p>The project consists, in general, of drilling two potable water wells at CSA 30, and connecting these wells via pipeline to the existing water facility currently serving the CSA. Approximately 210 feet of new pipeline will be constructed to make the connection. The existing water facilities will be improved to accommodate the new water source. Existing water distribution pipelines, service connections, and meters will be replaced. The total length of water distribution pipeline to be replaced is approximately 2,350 feet within CSA 30 and 1,500 feet to serve existing CSA 30 out-of-district users. 56 service connections and meters will be replaced, which includes 2 out-of-district users. Existing abandoned well will be destroyed.</p>	<b>NOE</b>	
2016128381	<p>Environmental Review No. 7212 - County Service Area 32: Construction of Wells and Water Distribution System Improvements and New Construction (Revised) Fresno County --Fresno</p> <p>The project consists, in general, of drilling two potable wells at CSA 32, and connecting these wells via pipeline to an existing water facility currently serving the CSA. Approximately 1,120 feet of new pipeline will be constructed. The existing water facilities will be improved to accommodate the new water source. Existing water distribution pipelines, service connections, and meters will be replaced. The total length of water distribution pipeline to be replaced is approximately 3,250 feet within CSA 32 and 2,750 feet to serve existing users outside the current CSA. New distribution pipeline, service connection, and water meter will be constructed to connect proposed new users. Approximately 700 feet of new pipeline of new pipeline and one service connection and meter will be constructed to provide services proposed new users. 82 service connections and meters will be replaced, including 6 current out-of-district users. Existing abandoned wells will be destroyed.</p>	<b>NOE</b>	
2016128382	<p>Lee Vining ADA Caltrans #9 --Mono</p> <p>This 201.361 project proposes to remove and replace non-compliant pedestrian facilities (curb ramps, sidewalks, and driveway openings) within the defined limits of the project. Conform work at the back side of sidewalk at driveways will require temporary construction easements. Drainage inlets located within the pedestrian pathway will be relocated. Proposed construction staging area is the Lee Vining Maintenance Station. Temporary construction easements will be needed at back of reconstructed sidewalks, driveway openings, and ramps. Drainage work will consist of relocating drainage inlets in the street storm drain system with 4' trenching. A culvert will also be abandoned at Post Mile 51.25.</p>	<b>NOE</b>

	capacity to help fulfill dry-year needs, 3) AVEK shall return 100% of the 1,380 AF (with no charges associated) to LCID within the next 10 years as per agreement reviewed and approved by Department of Water Resources, State Water Project Analysis Office (SWPAO).		
2016128384	Issue Right of Entry and Easement to PG&E and Frontier Communications Parks and Recreation, Department of --Humboldt Issue Rights of Entry (ROE) and Easements to PG&E and Frontier Communicaitons into Prairie Creek Redwoods State Park for the undergrounding of overhead utility lines on the south end of Elk Prairie to protect breeding marbled murrelets (federally listed as threatened, state-listed as endangered) from hitting utility lines and sustaining injury and/or mortality as they access their nesting trees to the south of these lines. The project work is covered under the Initial Study/Mitigated Negative Declaration for Prairie Creek Redwoods State Park Public Use Improvements.	<b>NOE</b>	
2016128385	3684 Death Valley Junction Thin Blanket Caltrans #9 --Inyo The project is needed to preserve the roadway within the project limits. The project will ultimately improve the ride quality of the highways. The proposed project will overlay the existing pavement with a 0.10' lift of asphalt. Shoulder backing will be placed from edge of pavement to 3' off the pavement on both sides of the highways. Due to limited space along the project, the following areas are being considered for contractor's staging areas: PM 129.7, PM 133.8, PM 134.1, PM 140.3, and PM 140.8.	<b>NOE</b>	
2016128386	Alvin Drive and Linwood Drive Safe Routes Routes to School Salinas, City of Salinas--Monterey The City of Salinas is proposing to make improvements to Alvin Drive and Linwood Drive in support of the City's goals to implement the Safe Routes to Schools (SRTS) program. The concept for Alvin Drive and Linwood Drive improvements is to create a multi-modal "complete street" corridor by installing bicycle and pedestrian facilities, and to install limited traffic control devices. Proposed improvements include reduction of vehicular travel lanes (road diet) and the addition of buffered bicycle lanes on Alvin Drive between Main Street and Natividad Road; installation of bicycle lanes and sharrows on Linwood Drive, Maryal Drive, and Chaparral Street; installation of pedestrian ramps and crosswalks at key locations along Alvin Drive, Linwood Drive, and Maryal Drive; and installation of a traffic signal at Alvin Drive and El Dorado Drive.	<b>NOE</b>	
2016128387	Mojave Line No. 1901 Replacement Project Fish & Wildlife #4 Taft, Bakersfield--Kern The Project is the replacement of two (2) sections of the Mojave Pipeline known as the Common Mainline/West Side Lateral Line (Line NO. 1901), an existing interstate natural gas pipeline facility, which is jointly owned by Mojave Pipeline Company, LLC (MPC), a subsidiary of Kinder Morgan, Inc., and Kern River Gas Transmission Company, although operated by MPC. The Project includes two (2) segment replacements of the existing 30-inch-diameter pipeline sections totaling approximately 1,825 feet with thicker-walled pipe designed to meet United State Department of Transportation (USDOT) Class III location requirements. The	<b>NOE</b>

	Permittees are required to replace the two segments of existing pipeline to maintain compliance with USDOT design and safety requirements.		
2016128388	Sac 5 Rehabilitation Caltrans #3 Sacramento--Sacramento Rehabilitate the pavement on I-5 and the on-and off-ramps at the interchanges, install ramp meters, maintain vehicle pullouts, and bus/carpool preferential lanes on seven ramps, upgrade Americans with Disabilities Act (ADA) ramps and sidewalks, and add auxiliary lanes between Pocket and Florin Roads.	<b>NOE</b>	
2016128389	Camp Okizu (Streambed Alteration Agreement No. 1600-2014-0098-R2) Fish & Wildlife #2 --Butte The project consists of the diversion of water as described in the State Water Resources Control Board (SWRCB) Permit 21290. Camp Okizu uses the property as a camp, and the primary use of water infrastructure is for recreation (swimming, canoes, kayaks, and fishing) with some landscaping and athletic field irrigation. Okizu is obtaining the Agreement to bring the property into compliance with current regulations. The proposed diversion season would begin on October 1 and end on May 31. The project proposes the use of four existing points of diversion (PODs) located on Berry Creek and the unnamed Streams.	<b>NOE</b>	
2016128390	Hambright Creek Routine Maintenance (Lake or Streambed Alteration Agreement No. 1600-2016-0017-R2) Fish & Wildlife #2 --Glenn The project consists of conducting routine stream channel and bank maintenance including vegetation management; silt, sand and accumulated gravel removal, minor erosion control activities and man-made structure repairs in order to minimize risks of flooding of adjacent private property due to high storm water flows within the creek and associated tributaries.	<b>NOE</b>	
2016128391	Abrahamson (Lake or Streambed Alteration Agreement No. 1600-2016-0256-R2) Fish & Wildlife #2 --Lake The project is limited to the installation of new 20-foot steel sheet piling in front of an existing brick sea wall. The project will require the removal of the existing concrete footing which will be out of water at the time of construction. Installation of the sheet piling will require the use of a drop hammer from a barge.	<b>NOE</b>	
2016128392	Black Oak PUE Sanitary Sewer Rehab Project (Lake or Streambed Alteration Agreement No. 1600-2016-0209-R2) Fish & Wildlife #2 --San Joaquin The project includes the temporary placement of a railcar bridge over 14 mile slough. The temporary bridge will be approximately 85 feet long, and will not require excavations into the bank of the slough. Temporary concrete abutments may be used but may not be keyed into the bank, or change the contour of the bank. The temporary bridge will be installed by a crane. Two 22-inch diameter temporary sewage bypass lines will be placed on top of the temporary bridge in order to allow repairs to the section of line under 14 mile slough. No impact will occur within the stream channel. No trees or riparian vegetation will be removed as part of this project.	<b>NOE</b>

2016031032	<p>Planada Community Plan Update 2016 Revision Merced County --Merced</p> <p>The proposed project will serve as the long-range vision and land use strategy plan for guiding development within the unincorporated Community of Planada in Merced County. The CPU retains many of the land use designations and policies of the adopted 2003 Planada Community Plan. The primary change to land use would be to redesignate 15.6 acres of Medium Density Residential to Low Density Residential. In addition to land use, the Community Plan Update addresses circulation, open space and conservation, noise, and public services. In addition, a Community Character and Design Guidelines chapter is included. The proposed Community Plan Update does not include any specific development projects.</p>	<b>EIR</b>	02/13/2017
2016121080	<p>Westpark Community Center Improvements Project San Buenaventura, City of Ventura--Ventura</p> <p>The city of Ventura proposes to renovate portions of the Westpark Community Center, located at 450 W. Harrison Ave in the city of Ventura to include the following major components: 1) installation of two synthetic or natural turf soccer fields; 2) removal of the restroom facility to be replaced by a new equipment storage building; 3) upgraded sports field lighting; and 4) construction of a class I bike path connecting Westpark to the Ventura River Trail. The objective of the proposed renovations is to provide a safer and more functional recreational play area for the Westside community. The city has determined the restroom structure to contain asbestos and lead and plans to mitigate these concerns through the use of contracted specialists prior to demolition. Construction would occur over 8-12 months.</p>	<b>MND</b>	01/30/2017

2016121082	Hampton Inn Hotel and Suites Project Torrance, City of Torrance--Los Angeles Construction of a five story, 127-unit hotel with a pool, subterranean parking, and landscape improvements situated immediately west of Maple Ave, along the northeast portion of the existing 11.4 acre parcel that stretches from Madrona Ave to Maple Ave.	<b>MND</b>	01/30/2017
2016122066	Yeung Oyster Farm Humboldt Bay Harbor Eureka--Humboldt The proposed project is a new 64 acre oyster farm in northeast Humboldt Bay. Kumamoto oysters [ <i>Crassostrea sikamea</i> ] and Pacific oysters [ <i>C. Gigas</i> ] are proposed to be cultured at this site. An off-bottom basket-on-longline culture method is proposed. The proposed 64 acre cultivation area is part of 200 acres owned by the applicant. This acreage has been identified as having potential for shellfish culture, due to generally being less than 3.0 ft. MLLW elevation and containing only patchy eelgrass and unconsolidated sediment. In addition to proposed cultivation, the project proposes permanent conservation status for 22 acres of tidelands, where no shellfish culture or other commercial activities would be allowed.	<b>MND</b>	01/30/2017
2016124002	Tule River Tribe Fee-to-Trust and Eagle Mountain Casino Relocation Bureau of Indian Affairs Porterville--Tulare Note: Per Lead Agency BIA, Draft EIS/TEIR will be submitted jointly.  The proposed action is the acquisition of approximately 40 acres of fee land in trust by the US upon which the Tule River Tribe would construct a casino resort. The facility would include an approximately 105,000 sf casino, 250-room hotel, food and beverage facilities, administrative space, a multi-purpose events center, a conference center, and associated parking and infrastructure. The new facility would replace the Tribe's existing casino, and the existing casino buildings would be converted to tribal government or service uses. The proposed trust property includes 17 parcels, bound by West St on the west, an off-highway vehicle park owned by the city of Porterville to the north an east, and a photovoltaic power station to the south. The APN for the property are 302-400-001 through 302-400-017.	<b>NOI</b>	01/30/2017
2016121081	Hacienda Del Mar San Diego, City of San Diego--San Diego Municipal code amendment, planned development permit, conditional use permit, and site development permit for the construction of an intermediate care and nursing facility. The project would consist of 71 independent living units, 45 assisted living units, and 34 units of memory care within two, 2-story buildings totaling 165,667 sf. The project site is located on 23.9 acres within the North City Future Urbanizing Subarea II Plan Area of the city of San Diego. The property is located 3975 Via de la Valle in the southeast corner of Via de la Valle and El Camino Real Road. Access would be via a driveway connection to Via de la Valle.	<b>NOP</b>	01/30/2017

2010032103	City of Stockton / Waste Recovery West San Joaquin County Stockton--San Joaquin A revisions of approved actions applications to allow for year-round outdoor of the derived aggregate (TDA).	<b>Neg</b>	01/30/2017
2016121078	Las Posas Basin Aquifer Storage and Recovery Wellfield Emergency Generators (Spec 494) Calleguas Municipal Water District Moorpark--Ventura Installation of five, diesel-fuled emergency generators to power Calleguas MWD's Las Posas Basin Aquifer Storage and Recovery Wellfield.	<b>Neg</b>	01/30/2017
2010102044	Supplemental PEIR - 2017 Central Valley Flood Protection Plan Update Water Resources, Department of -- Note: Review Per Lead  The 2017 CVPP Update builds on and refines the system wide approach described in the 2012 CVFPP for implementing possible future food management improvements in the Central Valley with a focus on lands currently protected by the State Plan of Flood Control. As part of the 2017 CVFPP Update, DWR is incorporating the Central Valley Flood Management Planning activities. These updates, and the reasonable range of potential implementation approaches included in the 2012 CVFPP, have been identified by DWR to accomplish the primary goals, supporting goals, and program and statutory objectives of the CVFPP.	<b>SIR</b>	04/03/2017
2004041080	PA1/PA2/PA9 GPA/ZC Project Irvine, City of --Orange The Orchard Estates NTS Basin is an existing flood control facility and is being retrofitted to incorporate a natural treatment system to treat both dry and wet weather season low flow and to treat small storm first flush runoff. Included in these improvements is the construction of a reinforced concrete connection between a proposed 18" RCP and an existing manhole structure at the outlet of the basin.	<b>NOD</b>	
2015122027	Garden Bar Road at Sanford Ranch, Bridge Widening Project Nevada County --Nevada CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0169-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Nevada County Department of Public Works. The project will replace the existing structure with a single span, 49' x 15' cast-in-place concrete slab bridge. The bridge will accommodate one 11 foot wide lane, and (2) two foot shoulders. Bridge railing will be mounted on the edge of the deck. The bridge will continue to be supported by two spread footing abutments. Construction will include approx. 120 feet of roadway south of the bridge, and 130 feet of roadway north of the bridge. The roadway will remain in one travel lane (approx. 15.5 feet wide). A pull-out will be provided on the northwest side of the bridge. Additionally, 590 sq. ft. of rock slope protection will be palced along the abutments.	<b>NOD</b>

2015122028	<p>Garden Bar Road Railcar Bridge Replacement Nevada County --Nevada</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0167-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Nevada County.</p> <p>The Permittee is proposing to replace the McCourtney Road Bridge (Bridge No. 17C-0086) over Rock Creek. The project will replace the existing bridge with a single-span 60'x15' wide, cast-in-place, pre-stressed, concrete slab bridge. The bridge will accommodate one 11-foot lane, and two 2-foot shoulders. The bridge will be supported by two spread footing abutments. Additionally, 826 sq. ft. of rock slope protection will be placed along the abutments under the bridge.</p>	<b>NOD</b>	
2016101036	<p>69th and Mohawk Pump Station (PTS No. 404973) San Diego, City of --San Diego</p> <p>The project proposes to replace an existing water pump station on an approximately 0.22-acre lot at 6910 Mohawk Street with a new water pump station. Removal of the existing pump station would consist of the demolition of two existing one-story buildings and an existing asphalt and gravel parking lot, removal of existing landscaping and irrigation, and removal of existing retaining walls and fences along the north, south and west property lines. An existing wall and fence along the east property line would remain. The new pump station would consist of a new 2,573 sf, 19-ft tall, one story structure, which would house an electrical room, mechanical room and six water pumps. The pump station building materials include concrete masonry unit (CMU) walls with a plaster finish, skylights, acoustical louvers, obscured glazed windows, and concrete tile roof to integrate with the surrounding neighborhood. The project would include construction of a 15.5 foot tall by 28-foot long by 18-foot wide decorative CMU block wall enclosure with a wrought iron gate and a steel tube trellis cover, to house a temporary emergency generator. A new asphalt parking area and access driveway off of Mohawk St. would be constructed, and new landscaping and irrigation would be installed as part of the new pump station. For security purposes, a combination of new 4-foot tall CMU wall with 4 foot tall perimeter wrought iron fence on top of the wall is proposed to be constructed along the site's north, west and south property lines. An approx. 8-foot diameter by 18-foot long above ground pressure surge tank would be installed as part of the project. Project would also include the installation of 2,800 linear feet of new water pipeline and replacement and upsizing of 4,660 linear feet of existing water pipelines for a total of 7,460 feet linear feet of new or replaced pipelines. Approx. 5,442 linear feet of the pipeline installation/replacement would occur on El Cajon Blvd., Mohawk St., and 67, 68th, and 69th streets near the pump station replacement site. One thousand eighteen linear feet of pipeline would be installed or replaced on College Grove Drive approx. 2.5 miles southwest of the pump station site. The open trenching method would be used to install/replace the pipelines at a depth of 4-8 feet deep with trench widths of approx. 2-4 feet. New or replacement water lines would be located within existing paved public road right of way and all trenches would be backfilled and paved to match the existing paving on the affected public roads. The water pump station replacement site is designated as RM-1-1 (Multi-family Residential) Zone.</p>	<b>NOD</b>
