

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

February 1 – 15, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1 – 15, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2014

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

<u>Documents Received on Monday, February 02, 2015</u>			
2015022002	Tentative Parcel Map Application No. PLN2015-0005 - Basrai Stanislaus County --Stanislaus Request to divide a 117.63 acre parcel into two parcels of 57 and 59 acres. This parcel is currently improved with an existing single-family dwelling, planted in orchards, and will remain in agricultural production.	CON	02/23/2015
2015022007	Use Permit Application No. PLN2015-0006 - Orchard Rite - Pacific Distributing, Inc. Stanislaus County Hughson--Stanislaus This is a request to expand an existing orchard shaker equipment dealership and repair business, owned by Orchard Rite Ltd. and operated by its Hughson dealership, Pacific Distributing, Inc. This project proposes to construct a 4,960 sf warehouse and manufacturing building. The 14.43 acre property was previously issued a Use Permit in 1979 to operate an agricultural irrigation business. Currently on-site activities include: the selling and storing of new orchard shaker equipment and the repairing, maintaining, selling, buying, and storing of used orchard shaker equipment. The hours of operation are 12 mos/yr, Monday through Saturday, 5 am- 5 pm. The business estimates a max of 8 employees/shift, 9 customers/day, and 5 trailer truck trips/day.	CON	02/23/2015
2013112022	J & J Ranch Subdivision, 24 Adobe Lane Orinda, City of Orinda--Contra Costa The Project would subdivide the 20.33-acre site into 13 single-family, clustered lots, ranging in size from 24,676 sf (.57 acres) to 154,569 sf (3.5 acres), and a separate 101,078 sf parcel (2.3 acres) that will contain the Moraga Adobe. The Project also includes construction of a new access road ending at two cul-de-sacs, parking pullouts for guest parking, a bio retention basin and pedestrian paths. The Project would include installation of underground utilities within the new roadways and installation of landscaping along the private roadways.	EIR	03/18/2015
2014051029	Cimarron Ridge Menifee, City of Menifee--Riverside The proposed project, Cimarron Ridge (the "project"), entails the development of approximately 240.3 acres within the City of Menifee, CA. The proposed project provides for approximately 226.3 acres of medium density residential (MDR), 3.1 acres of open space conservation (OS-C), and 10.9 acres of open space recreation under the proposed Cimarron Ridge Specific Plan.	EIR	03/18/2015
2015021003	Santa Ana River: Reach 9 Phases 4, 5A, 5B, & BNSF Bridge U.S. Army Corps of Engineers Yorba Linda, Orange, Corona--Orange, Riverside Note: Review per lead. The U.S. Army Corps of Engineers proposes to extend bank protection structures within Reach 9 of the Santa Ana River by constructing three bank and infrastructure protection measures, Phases 4, 5A, and 5B, in the City of Yorba Linda, Orange County. The purpose of these projects is to prevent undercutting and erosion of Santa Ana River embankments, caused by high-velocity flows and	EIR	03/06/2015

	associated scour. The fourth project involves structural improvements to the BNSF bridge, which crosses over the Santa Ana River, and is located in the City of Corona, Riverside County. This project would address potential deficiencies in protection and susceptibility to scour at the bridge piers and abutments.		
2011102038	Denniston/San Vicente Water Supply Project Coastside County Water District --San Mateo FYI Final	FIN	02/11/2015
	The District proposes to implement water supply improvements along Denniston and San Vicente Creeks to enable the expanded beneficial use of local water supply. The Proposed Project would entail the installation of a permanent diversion structure and pump station on San Vicente Creek, and the replacement of 2,000 ft of existing pipeline and installation of approximately 4,100 ft of new pipeline to convey water to the existing Denniston Reservoir pump station. The capacity of the Denniston water treatment plant would be expanded to 1,500 gpm. In addition, a new booster pump station and 3,460 feet of new pipeline along Bridgeport Drive would augment water delivery into the distribution system. The Proposed Project would authorize an extension of time for Permit 15882 and an expanded sediment dredging program from the Denniston Reservoir.		
2015021001	Sierra Grande Rural Recreation Santa Barbara County Buellton, Solvang--Santa Barbara A request of Jane Gray, agent for Stuart Gildred for approval of a Major Conditional Use Permit on property zoned Agriculture (AG-II-100) in compliance with Section 35.82.060 of the County Land Use and Development Code, to allow for a Zip Line Tour and Ropes Course. The project also includes a request to change the use of an existing 4,477 sf warehouse (including 395 sf of restroom facilities) to be used as the orientation center for the operations of the proposed ropes course and zip line.	MND	03/03/2015
2015021002	Urban Village La Habra La Habra, City of La Habra--Orange The proposed project consists of eight new 2.5-story buildings containing a total of 32 residential condominium units. The project will have 69 garage parking spaces and 43 open parking spaces for a total of 112 parking spaces. Approximately 20,338 sf of open space will be provided, including landscaped walkways and a park/common open space area located on the northwest corner of the project site.	MND	03/03/2015
2015021005	ENV-2014-3158-MND - 2815 S. Ocean Front Walk Los Angeles, City of --Los Angeles The proposed project involves the conversion of an existing groundfloor storage room into a one-bedroom unit in an existing, two-story (with a mezzanine level), two-unit building at 2815 South Ocean Front Walk. The proposed conversion of the storage area into habitable area will change the groundfloor level to a story; the existing structure will be reclassified as a three-story residential building with a mezzanine level, though no additional height will be added. The existing 4,509 sf duplex is maintained on a 2,520 sf lot; with a width of 28 feet and a depth of 90 feet. A total of six parking spaces are currently provided onsite: four are within an attached covered garage and two spaces are partially covered. The property is	MND	03/03/2015

	zoned RD1.5-1-O with a General Plan Land Use Designation of Low Medium II Residential and is located within the Venice Community Plan Area, Los Angeles Coastal Transportation Corridor Specific Plan, and Venice Coastal Zone Specific Plan.		
2015021007	40-Unit Assisted Living Project Loma Linda, City of Loma Linda--San Bernardino The project proposes a General Plan Amendment No. 14-060, Zone Change No. 14-061; and Precise Plan of Design No. 14-069 - The Applicant is requesting approval of: 1) a General Plan Amendment to change the existing City of Loma Linda General Plan designation from High Density (0-13 du/ac) to Health Care; 2) a Zone Change application to change the Multi-Family (R-3) Zone to Institutional Zone; and 3) a Precise Plan of Design to construct a 40-unit assisted senior living facility. The project consists of a two-story, 37,124 sf assisted living facility. The project would include 40 living units, each containing one bedroom and one bathroom. Beyond the 40 units proposed, the facility would also include community spaces such as multipurpose rooms, courtyards, a kitchen, a dining room, and a lobby.	MND	03/03/2015
2015021012	El Centro Pump Station No. 2 El Centro, City of El Centro--Imperial The project proposes the construction of approximately 3,800 lineal feet of pipeline and a new sewer pump station at the northwest corner of La Brucherie Avenue and Wake Avenue (extended), within the unincorporated area of Imperial County. The new sewer pump station and associated sewer lines would collect and pump sewage to the waste water treatment plant for processing. The proposed pump station site encompasses approximately 1.6 acres of vacant land. Additionally, as part of the project the Imperial Irrigation District will underground approximately 100 lineal feet of the Date Drain, which is required to be undergrounded to construct approximately 60 lineal feet of Wake Avenue.	MND	03/04/2015
2015022001	Rowes Creek Bridge (No. 10C-0123) on Sherwood Road Replacement Project Mendocino County Willits--Mendocino A new two-lane single-span, reinforced concrete, box-girder bridge would be constructed upstream of the existing alignment. Necessary roadway approach improvements would also be constructed. The existing bridge is currently classified as structurally deficient due to substandard load carrying capacity and functionally obsolete. Sherwood Road would be realigned to remove the sharp reversing curves located on either end of the bridge and increase the roadway approach curve radius. The existing bridge would remain in operation during construction and would be removed and disposed of offsite after the new bridge has been completed.	MND	03/03/2015
2015022004	Sowerwine Subdivision Humboldt County --Humboldt A Parcel Map subdivision to divide an approximately 30 acre parcel into three parcel into three parcels of approximately 5, 10 and 15 acres each. The parcel is currently developed with a single family residence and a secondary dwelling unit above a detached garage. A Special Permit is requested to utilize Lot Size Modification pursuant to Section 314-99.1.1.2 of the Zoning Regulations to allow	MND	03/03/2015

	an exception to the minimum parcel size. An exception request to allow the parcels to be served by a road that exceeds the dead end road length has been granted by Calfire. The parcels will be served with water by individual on site wells and on-site septic systems.		
2004122083	Sherwin-Williams Development Project Emeryville, City of Emeryville--Alameda The proposed project would divide the project site into new parcels and roadways and construct a mixed-use development. The project would include a total of 621,000 sf of residential space (540 units) and 94,600 sf of commercial space. In addition to the park and open space, the project would also include a children's playground, an adult fitness space, and a central green within the Hubbard Circle. Ground level uses would include common space and commercial/retail uses. Because the site is over 5 acres, a planned unit development (PUD) is required, which would be adopted by ordinance and would govern the zoning of the project site. The project applicant is proposing two potential development options (Option A and Option B) that include the same level of total development.	NOP	03/03/2015
2015021008	Canyon Oaks Project - 140000011 Calabasas, City of Calabasas--Los Angeles The proposed project involves the development of residential, commercial, and open space uses on an undeveloped site of ~77 acres. The residential component would include a gated community with 67 single-family detached homes, four affordable units located within two duplexes for very-low income residents, and a clubhouse. The commercial component would consist of a 67,580 sf, 120-room, four-story hotel. This hotel would be designed to achieve a LEED silver rating through a compact footprint, landscaping with native and drought-tolerant plants, and a pedestrian - and bicycle friendly environment. Approximately 80 percent of the site (61.5 acres) would be preserved as open space.	NOP	03/03/2015
2015022008	Fish and Aquatic Habitat Collaborative Effort (FAHCE) Program and Fish Habitat Restoration Plan Santa Clara Valley Water District San Jose, Mountain View, Los Gatos--Santa Clara Elements of the FAHCE Fish Habitat Restoration Plan Flow Measures -- Reservoir Re-operation Rule Curves (RRRC), The FAHCE process proposed modifications to District reservoir operations that were specified in the settlement agreement. Reservoir release rates were identified for each reservoir to meet instream flow requirements to improve habitat conditions for salmonids. Habitat Improvement Measures The FAHCE Fish Habitat Restoration Plan identifies programmatic actions to improve habitat conditions in the three creeks area. Biological Monitoring/Adaptive Management The biological monitoring program will evaluate the effectiveness of the flow measures and generate science-based information on the condition of fish habitat to provide a basis for the adaptive management program. As flow, habitat improvement and other measures are implemented over the course of the FAHCE Fish Habitat Restoration Plan, adaptive management will ensure the management	NOP	03/03/2015

2014022042	Vesting Tentative Parcel Map Application No. PLN2014-0014 - Yamamoto Stanislaus County --Stanislaus Request to divide a 145 acre parcel into one 45 acre parcel and a 100 acre remainder parcel.	Neg	03/03/2015
2015021004	ENV-2014-3699-ND Los Angeles, City of Los Angeles, City of--Los Angeles Pursuant to LAMC Sections 11.57 and 12.32 of the Municipal Code, a Specific Plan Amendment to DELETE hours of operation in Section 6-B(h) of the Colorado Boulevard Specific Plan. Currently, the specific plan prohibits any business, established after August 9, 1992, to operate between the hours of 9p.m. and 7a.m. The amendment proposes to delete this restriction, However projects would still be required to file for project permit compliance with the specific plan as outlined in LAMC Section 11.5.7, and Design Review Board procedures as outlined in LAMC Section 16.50. In addition, projects will still be required to comply with LAMC Section 12.24 for Conditional Use Permit procedures; and would still be required to file for CEQA review and compliance. This amendment is a policy change that does not supersede the citywide threshold for hours of operation, as outlined in the adopted City of Los Angeles CEQA thresholds (2006). The proposed policy amendment does not include zone changes. All current zoning, land use designations, community plan footnotes, [Q] conditions, and specific plan procedures remain the same.	Neg	03/03/2015
2015021006	Wunsch Investment Partners, LLC Monterey County Salinas--Monterey Construction of a 9,895 sf single story building for offices, show room, warehouse and repair shop for agricultural related fertilizer/spray tank sales.	Neg	03/03/2015
2015022003	George Read Residential Driveway Bridge Amador County --Amador The project involves installing a residential driveway bridge across Rancheria Creek to replace and existing low-water crossing. The crossing will consist of a 60' x 12' prefabricated steel bridge, mounted to 1' wide headwalls on each side of Rancheria Creek. All permanent land disturbances will be located outside of the Ordinary High Water Line. The project site is not located within a Special Flood Hazard Area as delineated on the most recent Flood Insurance Rate Map, dated July 20, 2010.	Neg	03/03/2015

2002032048	Port of Stockton West Complex Development Plan Stockton, Port of Stockton--San Joaquin The Central Valley Regional Board has issued a 401 Water Quality Certification for the above project. The Project consists of extending the Port's existing rail line in the southwestern portion of the West Complex. The existing man-made stormwater and agricultural runoff ditch near the extension will be crossed in two areas. Two steel culverts will be installed at the two crossings. Earthen berms will be constructed with native soil from dredging activities across the width of the ditch. The Project will permanently impact 0.03 acre/1,500 linear feet and temporarily impact 0.02 acre/800 linear feet of waters of the United States.	NOD	
2002091132	Victorville Sanitary Landfill Expansion Project San Bernardino County Victorville--San Bernardino The project consists of a Conditional Use Permit to construct a 10-megawatt solar photovoltaic power plant within an approved future expansion area of the Victorville Sanitary Landfill, and a Major Variance to permit development of a renewable energy facility on slopes in excess of 5% grade.	NOD	
2005051145	Century City Center Los Angeles, City of Los Angeles, City of--Los Angeles Alternative 9: Enhanced Retail Alternative of the Century City Center Project includes the development of one 37-story, approximately 700,000-square foot office building, approximately 10,338 square feet of low-rise one- and two-story office space, an approximately 2,389-square foot Mobility Hub, an approximately 39,037-square foot Transit Plaza, approximately 17,102 square feet of ancillary retail, a partially subterranean parking structure with approximately 1,539 parking stalls, and an approximately 2.14-acre landscaped green roof deck on the roof of the parking structure (the "Project"). In total, the Project would comprise approximately 729,829 square feet of occupiable square footage.	NOD

2015028007	Newell Drive Roadside Fuelbreak Forestry and Fire Protection, Department of --Santa Cruz The project will utilize hand crews to create a shaded fuel break along portions of Newell Drive and Redwood Drive in the Apto area of Santa Cruz County. The project area consist of 9.6 acres in forest and shrub dominated areas. The project width will vary depending on terrain and fuel loads, extending up to approximately 30 feet from the edge of both sides of the aforementioned roads. Several roadside areas will not be treated due to structures, steep slopes, cut banks, light fuels or landowner requirements. The objectives will be to disrupt the horizontal continuity of surface fuels, vertical continuity resulting from ladder fuels, and increase shrub and understory crown spacing.	NOE	
2015028008	Hog Mountain Fire Control Road Maintenance Forestry and Fire Protection, Department of --Fresno The Hog Mountain Fire Control Road Project involves maintenance of the fire road surface including erosion control features and fuels reduction within 100' either side of the road. The project encompasses 193 acres. Brush and trees will be	NOE

	selectively removed with chainsaws to eliminate vegetation encroaching into the roadway, remove existing ladder fuels, and to provide crown separation for overstory vegetation. Trees greater than nine inches DBH are not targeted for treatment but may be removed where a danger to firefighter or public safety, or a threat to property or infrastructure exists.		
2015028009	Good Shepherd Map EG-14027 Elk Grove, City of Elk Grove--Sacramento The proposed project is a Rezone from Agricultural Residential - 5 acre minimum (AR-5) to Agricultural Residential - 2 acre minimum (AR-2).	NOE	
2015028010	Post Creek Culvert Replacement Parks and Recreation, Department of --Monterey Remove two culverts and replace with new bridge structure in Pfeiffer Big Sur State Park to protect fish habitat and provide fish passage.	NOE	
2015028011	West Channel Maintenance, Dredge and Beach Replenishment (Lake or Streambed Alteration Agreement No. 1600-2014-0185-R2) Fish & Wildlife #2 South Lake Tahoe--El Dorado The project includes the dredging and removal of accumulated sand and sediment from the west channel of the entrance to the Tahoe Keys lagoon and residential subdivision to ensure recreational and emergency boat access to the lagoon community. In addition, dredged material will be used to replenish beach sands immediately adjacent to and east of the channel, which have deteriorated over the years due to wave action.	NOE	
2015028012	Stations of the Cross (Lake or Streambed Alteration Agreement No. 1600-2014-0236-R2) Fish & Wildlife #2 Portola--Plumas For the purpose of this Agreement the project is limited to completion of a project that was illegally installed on the banks and in the channel of Wildcat Creek. The project is partially complete but work has ceased pursuant to an August 28, 2014 Notice of Violation. The project includes a looped gravel pathway to provide private worship areas termed "Stations of the Cross." Two wooden bridges have been constructed over Wildcat Creek. The bridges rest on undisturbed native ground. The footbridges shall be removed November 1 of each year. They shall not be replaced over the channel until high flows have receded in the summer.	NOE	
2015028013	Taylor Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2014-0347-R1) Fish & Wildlife #1E --Trinity The project is limited to installation of a water diversion offset well located at an existing gravel bar adjacent to the Trinity River. The location of the structure is within the gravel bar at some unspecified depth below the low flow water surface elevation. Equipment access to the gravel bar will be necessary to conduct installation on the offset well. Installation will require gravel extraction, installation of machine slotted pump casing, and backfilling and recontouring of the installation site. No equipment will cross the active channel to conduct the maintenance activities.	NOE

2015022011	VTA's BART Silicon Valley - Phase II Extension Project Santa Clara Valley Transportation Authority San Jose--Santa Clara VTA's BART Silicon Valley - Phase II Extension project would be constructed in Santa Clara County. The 6-mile long Phase II Project would begin at the terminus of the BART Silicon Valley - Phase I Berryessa Extension Project (Phase I Project) south of Mabury Road in the City of San Jose. The Phase II Project would be at grade where it connects to the Phase I Project and then descend into approximately 5-mile long subway tunnels that continue through downtown San Jose and terminate at grade in the City of Santa Clara near the Santa Clara Caltrain Station. Four stations are proposed, three in San Jose, the Alum Rock, Downtown San Jose, and Diridon Stations, and one in Santa Clara, the Santa Clara Station. Parking structures are proposed at the Alum Rock and Santa Clara Stations; "kiss-and-ride" (passenger drop-off) facilities are proposed at Alum Rock, Diridon, and Santa Clara Stations. The station facilities would include electrical and ventilation systems as well as communication equipment. A maintenance yard is proposed near the Santa Clara Station.	NOP	03/04/2015
2015022012	2015 Water Transfer Program Richvale Irrigation District --Butte Richvale Irrigation District proposes idling up to 6,400 acres of rice land to make available up to 21,120 acre-feet of water for transfer to buyer or buyers located south of the Bay-Delta. If Richvale Irrigation District's water supplies are curtailed in 2015, it will not participate in a transfer.	Neg	03/04/2015

	cables, well conductors, well casings, and well caissons.		
2008021002	ProLogis Eucalyptus Industrial Park EIR (formerly Prologis Park Moreno Valley Eucalyptus Project) Moreno Valley, City of Moreno Valley--Riverside This project proposes a General Plan Amendment for approximately 33 acres and a Zone Change for approximately 84 acres to establish Business Park/Light Industrial designations. The land use changes are required for development of four warehouse distribution buildings totaling 1,529,498 square feet. The developer also proposes Tentative Parcel Map No. 35679 to subdivide the project site into five parcels. A General Plan Amendment is also required for changes to the City's General Plan Circulation Element and the Master Plan of Trails.	NOD	
2009092043	Fawn Lodge Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --Trinity The project consists of demolition and replacement of an existing two-engine fire station. Minor revisions in square footage have been made to the barracks-messhall (+123 square feet), apparatus building (-15 square feet) and generator-pump-storage building (+83 square feet). All other elements of the project remain the same, and no substantial changes have occurred that would change the determinations in the original 2010 initial study-mitigated negative declaration.	NOD	
2014052074	Calistoga Cottages Santa Rosa, City of Santa Rosa--Sonoma The project involves a Mitigated Negative Declaration, General Plan Amendment, Rezoning, and Tentative Parcel Map to subdivide a 0.99-acre parcel into four individual single family residential lots. There is an existing home which will remain. On November 18, 2014, the City Council of Santa Rosa adopted the Mitigated Negative Declaration, approved the General Plan Amendment, and approved the Tentative Parcel Map. On January 27, 2015, after the second reading, the City Council adopted an ordinance to rezone the site which was the final discretionary action.	NOD	
2014071014	FPUD Water Line Extension - East Fallbrook Public Utility District Fallbrook--San Diego Expansion of recycled waterline to serve additional plant nursery users in the Fallbrook area. Project involves approximately 10,000 linear feet of 12" PVC C900 Pipeline. Project is constructed in existing disturbed or previously graded areas or within existing roadways, beginning at Brooke Road extending easterly direction to Green Canyon Road and then teeing north to Green Briar Circle and south along Mardavido Lane to Via Del Robles.	NOD

	feet (from post to post). Panels, including steel support structures, would be typically 6 to 7 feet in height. Depending on soil conditions and topography, they would be up to a maximum of 8 feet in height. The solar arrays would convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) by two centrally-located inverters before being delivered to the TMC and SRL meters that serve the buildings.		
2015028014	Bothe-Napa Valley Cabin Repair and Upgrade Parks and Recreation, Department of --Napa Repair and upgrade five existing cabins and convert a sixth cabin for use as a restroom/shower facility at Bothe-Napa Valley State Park for use as overnight accommodations for revenue generation. Two cabins and restroom/shower building will meet parking, route-of-travel, and building ADA standards.	NOE	
2015028015	Delta Conservation Camp Basic Officer Quarters Construction Forestry and Fire Protection, Department of --Solano The Delta Conservation Camp, located at 6246 Lambie Road in Suisun City, is planning to build a new Basic Officer Quarters (BOQ) in order to provide improved living quarters for on-duty fire captains. The structure will be one-story and approximately 1600 square feet. It will be manufactured off-site and then assembled at the conservation camp by inmate crews that live at the camp. The assembly is expected to take approximately three months. The only heavy equipment used during the project will be a backhoe to dig the foundation footing.	NOE	
2015028016	Coalinga FFS Dozer Cover Forestry and Fire Protection, Department of --Fresno The Coalinga FFS Dozer Cover Project involves assembling a three sided metal shed to include a metal roof to house FKU Dozer 4341 when not loaded on the transport. The shed will replace a previous metal shed that was destroyed by wind. Project activities will be limited to the existing 23' x 20' cement pad located within the Coalinga FFS compound. No ground disturbance will occur.	NOE	
2015028017	Frommer (Santa Rosa/Tenaja Community Chipping) Forestry and Fire Protection, Department of --Riverside The project scope is the chipping of brush by CAL Fire hand crews. The brushy material to be chipped (estimated at `2 tons/month) is created by Tenaja/Santa Roas community members performing their own hazardous fuel reduction activities on their properties. The vegetation is dropped off by community members to a centralized location to be chipped. The Southwest Fire Safe Council is the project sponsor and is funding only the chipping activities performed by CalFire's hand crew. The area is known for previous fire activity and is densely populated. This activity supports the current Community Wildfire Protection Plan (CWPP).	NOE	
2015028018	Emergency Repair of an Embankment Containing a 60-inch diameter Sanitary Sewer Line adjacent to the Tuolumne River - PRC 8514.9 California State Lands Commission --Stanislaus Authorize emergency repair of an embankment containing a 60-inch diameter sanitary sewer line adjacent to the Tuolumne River, Stanislaus County. 2015028019	Letter of Non-objection for CHaracterization Work at Hunters Point Shipyard adjacent to Parcel E-2 California State Lands Commission --San Francisco Authorization to conduct characterization work as part of a remedial action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) adjacent to the Navy's parcel E-2, effective until February 28, 2015.	NOE	
2015028020	Live Oak Tree Planting (14/15-A-8) Parks and Recreation, Department of --Los Angeles This project is to plant two Coast Live Oak trees at Los Encinos SHP which were donated by a park visitor who grew the trees from acorns. By planting these trees, California State Parks would be adding two trees to the number of already-planted oaks which have long been on the park property and are representative of the historical past of the San Fernando Valley.	NOE	
2015028021	Con Safos at the Bowtie Project (14/15-A-17) Parks and Recreation, Department of --Los Angeles This project will be located at the Bowtie Project, or parcel G-1, an unclassified sub-unit of Rio de Los Angeles State Park. Con Safos (C/S) is a symmetrical art installation by artist Rafa Esparza in partnership with non-profit organization Clockshop that currently holds a Right of Entry Permit to access the site. The installation will be built primarily out of adobe bricks and cement consisting of two intersecting trapezoid walls that meet at a 60 degree angle. This installation will create a mural wall to be used by guest artists over the course of the project with new art appearing at the beginning of each month for the duration of the installation, approximately 9 months. When looked at head on, the mural wall will resemble the symbolic icon of a house, and will be the only position allowing for an entire view of the installation.	NOE	
2015028022	Telecommunications Lines at Maintenance Yard (14/15-A-15) Parks and Recreation, Department of --Los Angeles The project will provide for telephone and electrical services in the LASHP Maintenance Yard. Two trenches will be excavated for a total of 280 linear feet, at 18 inches depth and 12 inches in width. The first trench will be 80-90 linear feet to connect a telephone/internet line in conduit from the Ranger/Administration building to the Maintenance building. The second trench will extend approximately 190 linear feet from the Maintenance Shed to the rear of the Maintenance Yard for 110V electrical service in conduit. The site is compacted fill dirt over previous railroad yard. Dig Alert has previously verified that no other utilities existing inside the Maintenance Yard.	NOE	
2015028023	Kern Avenue Pedestrian Overcrossing Caltrans #6 McFarland--Kern The project would construct a new pedestrian overcrossing extending over the freeway, a county road, and Union Pacific Railroad tracks. The existing pedestrian overcrossing would be demolished after the new overcrossing is built. The purpose is to comply with Americans with Disabilities Act (ADA) requirements.	NOE

	equipment and materials in the existing dirt parking area across Summit Road.		
2015028032	Center Flats Road Rehabilitation Parks and Recreation, Department of --Santa Clara Repair Center Flats Road and Road NN118 and construct a road reroute in Henry W. Coe State Park to increase safety and address erosion problems.	NOE	
2015028033	Guldotti Bridge Replacement Project Regional Water Quality Control Board, Region 3 (Central Coast), San Luis Obispo Salinas--Monterey The Federal Highway Administration, Central Federal Lands Highway Division (FHWA-CFLHD), in cooperation with the Bureau of Land Management (BLM), is proposing the replacement of the existing Guldotti Bridge, along Guldotti Road within the Fort Ord National Monument (FONM) in Monterey County, CA. The existing Guldotti Bridge configuration consists of an approximate 125-foot long, 3-span filled concrete spandrel arch structure that crosses El Toro Creek. The arches are supported by shallow spread footings which are exposed to the bottoms in isolated locations along the piers. Currently, the eastern/central arch provides the east bank of El Toro Creek; therefore, the existing bridge is failing due to scour and subsequent settlement of shallow spread footings. In addition the aforementioned scour and footing settlement, seismic activity may also be a cause of the degradation of the structure. FHWA-CFLHD is proposing to replace the existing Guldotti Bridge because it is structurally deficient; thereby, causing a safety concern for pedestrians, bicyclists and BLM maintenance vehicles, and its current configuration impedes the natural channel flow and floodplain of El Toro Creek. The FHWA-CFLHD is proposing the removal of the current structure and associated piers and footings, and replacement of a bridge within the current alignment footprint that is 350 sq. ft. less in impervious surface. The proposed replacement structure will consist of an approximate 16-foot wide, 100 foot long, single span structure. All of the equipment bridge components are proposed to be constructed above the 100-year flood plain and the bed and bank of El Toro Creek. riprap protection, which will be buried and planted with native species, as indicated below, surrounding the abutments is proposed to reduce scour and erosions during storm events. Maintaining the existing alignment is proposed in order to provide the shortest span length across El Toro Creek, which will eliminate permanent impacts to the channel and abutting wetlands, as well as reduce the impacts to the associated riparian areas.	NOE	
2015028034	Pillar Point Bluff (Thompson) Acquisition California State Coastal Conservancy --San Mateo The Coastal Conservancy granted funds to the Peninsula Open Space Trust to assist in its acquisition of the 21-acre Thompson property at Pillar Point Bluff. 2015021013	<p>Wellhead Equipping for Well No. 21 & Richfield Road Pipeline Project Yorba Linda Water District Anaheim, Placentia--Orange</p> <p>The Yorba Linda Water District proposes to equip YLWD's Well No. 21 with a high efficiency vertical turbine pump and other necessary appurtenances to be capable of producing 3,000 gallons per minute of groundwater. The well will help maximize YLWD's allowable groundwater basin production percentage (BPP) established by the Orange County Water District.</p> <p>YLWD also proposes a pipeline to collect the produced groundwater from Well No. 21 and produced groundwater from future wells. The pipeline will range in diameter from 16-inches to 36-inches for a distance of about 2,700 feet and will connect to YLWD's existing groundwater collection system.</p>	MND	03/05/2015
2015021019	<p>Change of Zone 14-04 and General Plan Amendment 14-04 El Centro, City of El Centro--Imperial</p> <p>The proposed project involves a change of zone and general plan amendment for a property consisting of ~4.32 acres of land, located at the southwest corner of La Brucherie Avenue and W. Main Street, and owned by Deven & Julie Edwards. The site consists of three dwelling units that are currently being rented by the property owner. The applicant is requesting the change of zone and general plan amendment for the project site to develop the site for commercial purpose in the future. The site is currently zoned R1 (Single Family Residential) and it is being proposed by the Applicant to change the zone to CN. The project would change the land use designation for the project area from Low Density Residential to General Commercial.</p>	MND	03/06/2015
2015022017	<p>Pennington Road Bridge Replacement Sutter County Live Oak--Sutter</p> <p>The proposed project is the replacement of the existing functionally obsolete two-lane bridge, Bridge No. 18C-0100 on Pennington Road that crosses the Sutter Butte Irrigation Canal. The replacement bridge will consist of new reinforced concrete abutments, with precast concrete planks forming a single span over the canal. The Project includes the removal of the existing bridge and associated footings, which will be replaced with a single span precast bridge structure approximately 40 feet long by 34 feet wide. Minor bank disturbance and vegetation removal will occur adjacent to the existing abutments to accommodate the new structure. This disturbance is estimated at 150 sf of bank. All work will occur within the existing right-of-way. Pennington Road will remain open to local traffic only during construction.</p>	MND	03/05/2015

	lines, access roads and security fencing.		
2015021018	Azusa TOD Specific Plan Azusa, City of Azusa--Los Angeles The Azusa TOD Specific Plan area encompasses 350 acres, and includes all or portions of Downtown Azusa, the City's Civic core, the Foothill Boulevard corridor and the two new Azusa Gold Line stations (Azusa Downtown and APU/Citrus College). The current land use designations within the Azusa TOD Specific Plan are include: Residential, Commercial/Residential Mixed-Use, Transit Center, Residential Mixed-Use, Institutional/Schools, and Public/Civic. The Specific Plan has identified development potential of 403,000 sf of retail, services, and office uses; 150 hotel rooms; and 840 residential units across the districts. Development is expected to be focused within 177 acres of the 350 acre project area with the additional 173 acres being no-change areas.	NOP	03/05/2015
2015022020	Menlo-Atherton High School Campus Master Plan Sequoia Union High School District Atherton, Menlo Park--San Mateo The Sequoia Union High School District (SUHSD, or the District) is a grade 9 - 12 school district comprised of four comprehensive high schools, a model continuation high school, other specialized programs and services, and four charter schools. The District currently serves approximately 10,000 students in total. Current enrollment at the District's Menlo-Atherton High School in Atherton is approx. 2,000 students and the District estimates student enrollment at the school could increase by approx. 500 students by 2020. In light of this projected growth, the District is preparing a master plan that will outline the structural facilities needed to support the forecasted increase in school attendance and guide facility development at the campus.	NOP	03/05/2015
2015022022	Programmatic EIR Putah Creek Restoration Project - Upper Reach Program Solano County Water Agency --Solano, Yolo The DPEIR applies to restoration efforts proposed for the Upper Reach of the Putah Creek Restoration Project, planned by the Solano County Water Agency (SCWA) and the Lower Putah Creek Coordinating Committee (LPCCC). The Upper Reach Project Area includes the area just downstream of the Putah Diversion Dam (one mile west of Winters) to the Western edge of the Yolo Basin Wildlife Area (near Yolo County Road 106A). The project purpose is to restore and rehabilitate the creek channel, banks, and associated habitats to more natural, self-sustaining form and and function, consistent with the current (post-Monticello Dam) hydrologic regime. The proposed program of projects and activities (collectively, the "project") would be implemented to stop further degradation of the creek corridor and to "jump-start" natural geomorphic and ecological processes in site-specific locations.	NOP	03/05/2015
2015021015	Casa Dorinda Master Plan Update Santa Barbara County --Santa Barbara Casa Dorinda proposes to revise its Conditional Use Permit (90-CUP-091, as amended) and update its master plan for the retirement community with the development of new facilities, residential units, and circulation improvements. 2015022021	2015-2023 Housing Element Update Berkeley, City of Berkeley--Alameda The Project is the State-mandated update (5th cycle) of the City of Berkeley Housing Element 2015-2023, which is subject to review by the Department of Housing and Community Development (HCD). The Berkeley Housing Element serves as a policy guide to address the comprehensive housing needs of the City. State Housing Element law requires that local jurisdictions outline the housing needs of their community, the barriers or constraints to providing that housing, and actions proposed to address these concerns over an eight-year planning period. In addition, Housing Element law requires each city and county to accommodate its "fair share" of projected housing need over the Element planning period. Cities and counties must demonstrate that adequate sites are available to accommodate this need, and that the jurisdiction allows for development of a variety of housing types. This housing need requirement, known as the Regional Housing Needs Allocation (RHNA), apportions to each jurisdiction its portion of the Bay Area's projected need.	Neg	03/05/2015
2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus Rezone of 5.54 acres from Low Density Residential (R-1) Zone and Medium High Density Residential (R-3) Zone to Planned Development (P-D) Zone for low density residential uses to facilitate the development of a 33-lot gated residential subdivision. 2014082050	Canyon Estates General Plan Amendment, Pre-Zoning and Annexation American Canyon, City of American Canyon--Napa The proposed project would enable development of a portion of the Biggs Property (project site) which is currently located in unincorporated Napa County east of the City of American Canyon (City) within the City's Urban Limit Line (ULL). The proposed project includes a General Plan Amendment, re-zone of the project site, and annexation of the project site into the City. Approval of the project would allow for the future entitlement of a residential use on the subject property of up to 38 single family units. The remaining portion of the project site, which falls outside the City's ULL, would be placed in a conservation easement for public trails, biotic habitat, and open space preserve.	NOD	
2014102037	Greenwood Avenue Culvert Replacement Project Napa County Calistoga--Napa The proposed project will remediate a fish passage barrier on the mainstream of the Napa River. The existing 60-foot-long, 15-foot-diameter circular corrugated steel culvert will be replaced with a 70-foot-long, 22-foot-wide bridge. The project will also construct a step pool stream channel stabilized with native vegetation, boulders, and log structures. These features are designed to provide endangered species habitat as well as fish passage for the project. The project will also construct a temporary road to provide access to the site and the immediate surroundings.	NOD	
2014121078	Monterey Peninsula Country Club - Dunes Golf Course Renovation Monterey County --Monterey The subject project consists of the renovation and redesign of the Golf Course to improve general playing conditions; and the restoration of the Sawmill Gulch Creek as it crosses portions of the golf course. A critical objective is to achieve a 25 percent reduction in the overall water use which would be achieved by an overall reduction of existing irrigated turf areas by approximately 16 acres. Hole-by-hole improvements include changes - reduction/expansion/relocation - to the tee areas, green areas, sand/bunker areas, fairways and roughs; removal/relocation of cart paths and substitution of new cart paths with permeable surfaces; tree and vegetation planting and landscaping installation. The improvements and redesign for each hole are illustrated in the Initial Study.	NOD

Subdivision into 312 lots for the development of single-family residences with average lot sizes ranging from 6,678 to 7,344 sf and a density of 4.3 dwelling units per acre. Provision of three tot lots, network of paseos, and a dual-use stormwater retention/recreation basin. Access to be provided from current terminus at Annadale Ave south to North Ave to the north. Indianola Avenue would be extended from its current terminus at Annadale Ave south to North Ave and provide two points of site access from the extended roadway. Utilities to be provided by City of Sanger and PG&E. A well site would be located in the NE corner of site and dedicated to the City for use in conjunction with the City's existing potable water service.</p>	MND	03/06/2015
2015022025	<p>Freedom Sanitation Trunk Sewer Replacement Project Watsonville, City of Watsonville--Santa Cruz</p> <p>The City of Watsonville proposes to replace 4,800 LF of 8" and 10" sanitary sewer with 18" to 21" sanitary sewer. The purpose of the project is to increase flow capacity in order to prevent sewage overflow predicted for existing wet weather flow and to reroute portions of the line located in difficult to access easements on private property. The rerouted portion of the sewer line starts at Burchell, then to Freedom, then to Green Valley, then to Cary and ending at Landis.</p>	MND	03/06/2015
2015022023	<p>Sierra County 2015 Regional Transportation Plan Update Sierra County --Sierra</p> <p>The SCTC, as the Regional Transportation Planning Agency, is required by California law to adopt and submit an updated Regional Transportation Plan to the California Transportation Commission and to the California Department of Transportation every five years. The purpose of the RTP is to provide a vision of transportation facilities and services for the region, supported by transportation goals, for ten and twenty year horizons. The RTP documents the policy direction, actions and funding strategies designed to maintain and improve the regional transportation system. The RTP is a programmatic document containing general policies, guidelines, and lists of projects.</p>	Neg	03/06/2015
2015022024	<p>General Plan Housing Element Update (2015-2023) Millbrae, City of Millbrae--San Mateo</p> <p>The project is the update of the City of Millbrae's General Plan Housing Element for the period January 1, 2015 to January 1, 2023 in the form of a text amendment to the 1998-2015 City of Millbrae General Plan in compliance with State Housing Element Law (Government Code Section 65580-65589.8). State Housing Element Law recognizes that in order for the private sector to produce enough housing to meet projected housing needs, local governments must adopt land use plans and regulatory provisions that provide opportunities for housing to be developed. The City's strategy to comply with State law consists of identifying residential capacity in the Millbrae General Plan and the Millbrae Station Area Specific Plan and implementing specific measures to encourage and facilitate housing (including affordable housing) development.</p>	Neg	03/06/2015

2015028061	California City OHV Trails Operations and Maintenance Parks and Recreation, Department of California City--Kern The project includes maintenance of the California City OHV trails system, including the OHV park facility (Borax Bill Park), and funding for staff, materials and supplies, and heavy equipment to conduct this maintenance. The project also includes land surveys and soil monitoring.	NOE	
2015028062	Mount Hough Trail Maintenance Parks and Recreation, Department of --Plumas The project consists of maintaining a total of 6.12 miles of motorized single track trail and 3.55 miles of motorized quad trail on the Mount Hough Trail System. Maintenance focuses on clearing the trail corridor of brush, root wad removal, tread widening to 24" with no less than 2% off-slope, installation of rolling dips and rock armored drainage features, and placing rock armored tread surface and rock retaining walls where needed.	NOE	
2015028063	Chilcoot Trail Ground Operations Parks and Recreation, Department of --Plumas The project will improve and maintain an existing trail system. Improvements include creating a sign plan, providing signage for direction and traffic control, and creating a user-friendly trail system map. Maintenance work includes removing fallen trees, clearing boulders, repairing eroded areas, installing barriers/signage to avoid trespass, and removing trash. Every effort will be made to reuse materials available on site for barriers and erosion control (boulders, logs, etc.). Signs and signposts will be purchased that utilize recycled materials in their construction.	NOE	
2015028064	York Road Bore for Conduit Placement (Lake or Streambed Alteration Agreement No. 1600-2014-0205-R4) Fish & Wildlife #4 --Monterey The Project includes horizontal directional drilling under an unnamed tributary to Laguna Grande for the placement of two 4-inch diameter density polyethylene conduits along the west side of York Road.	NOE	
2015028065	Kaweah No. 3 Middle Fork Diversion Dam Maintenance (Streambed Alteration Agreement No. 1600-2014-0122-R4) Fish & Wildlife #4 --Tulare The proposed Project will reface an existing diversion dam with a concrete overlay and install stop logs within the existing inlet works structure.	NOE	
2015028066	135 Bean Avenue, Bodega Bay Fish & Wildlife #3 --Sonoma The project is limited to the installation of a new perimeter foundation below two existing buildings located on the bank of the Salmon Creek lagoon. Approximately 26 Helical piers will be drilled underneath the footprint of the home and garage, the buildings will then be lifted using jacks, and a new beam foundation installed below them. The buildings will then be renovated with all work occurring within the established yard, which will be delineated with environmentally sensitive area exclusion fencing. SAA #1600-2014-0410-3.	NOE

2012041087	Whole Foods and the Park Malibu, City of Malibu--Los Angeles The project applicant, The Park at Cross Creek LLC, proposes to develop a 38,425 sf commercial property consisting of five separate buildings on a 5.88-acre site. Table ES-1 provides a project summary. Development would consist of five two-story buildings with outdoor benches and eating areas; Shane's Inspiration Playground, a fully accessible playground with facilities for children with special needs; a Sensory Garden; and a Kitchen Community Learning Garden providing learning opportunities for children and adults interested in growing sustainable organic food, and including school classes. The proposed project also includes 220 parking spaces (seven handicapped accessible, 175 standard, and 38 compact), 16 bicycle spaces (via four bicycle racks spread out across the site), four golf cart spaces, two electric vehicle charging stations, four loading spaces for the retail uses, and 520 sf of soft-surface area for horse parking, including four hitching posts, and a watering trough.	EIR	03/23/2015
2014062050	Carolan Avenue/Rollins Road Residential Development Burlingame, City of Burlingame--San Mateo Note: Extended review per lead The project proposes to redevelop a 5.4 acre site with 290 residential units (22 townhouses and 268 apartments). The apartments are proposed in the northern and central portion of the site, and the townhouses are proposed along the southern portion of the site. The project would also include parking facilities, open space, pedestrian/bicycle amenities, recreational areas, and open space. The project is consistent with existing General Plan land use and zoning designations but requires Conditional Use Permits and Special Permits for multi-family use, a private lane along the southern boundary line, and an increase in maximum building height on-site.	EIR	04/03/2015
2014092043	Landmark Hotel San Carlos, City of San Carlos--San Mateo The applicant is proposing to raze the existing warehouses on the project site to construct a four-story upscale extended stay hotel comprised of 204 guest rooms and 206 surface parking spaces. The hotel would consist of 138 studio, 43 one-bedroom and 23 two-bedroom hotel rooms. Parking would be provided on the site surface, surrounding the hotel building. Site amenities include a lobby, two outdoor patio areas, a fire pit, a pool and spa, a sport court, a fitness and laundry center, a kitchen and buffet, a meeting room, storage for electrical mechanics and engineers, offices, and an employee lounge. All guest rooms would include individual kitchens.	EIR	03/23/2015
2014101063	Goodman Logistics Center Santa Fe Springs, City of Santa Fe Springs, Norwalk--Los Angeles The proposed project will involve the construction of a 1,210,800 sf business park on a 54.69-acre site. The proposed business park will consist of three new concrete tilt-up structures. Building 1 will consist of approximately 402,634 sf; Building 2 will consist of approximately 506,465 sf; and Building 3 will consist of approximately 300,700 sf. The project site was formerly occupied by the Powerine	EIR	03/23/2015

2015021022	Yagui Pass Wireless Telecommunication Facility Major Use Permit San Diego County --San Diego The project is a Major Use Permit to construct, operate, and maintain an unmanned wireless telecommunication facility for AT&T Wireless, consisting of the construction of a 70-foot high faux elevated water tank that would house 12 panel antennas, 24 remote radio units (RRU's) and four surge suppressors. The equipment necessary for the facility would be located adjacent to the faux elevated water tank and would be enclosed by a 30-foot by 60-foot concrete block wall. The height of the equipment enclosure is 10 feet four inches. Associated equipment would include a concrete pre-fabricated equipment enclosure and a 50kW diesel generator and mounted on a 12-foot by 6-foot concrete pad.	MND	03/09/2015
2015021023	Stockton Reservoir Replacement Project Ventura County Waterworks District No. 1 Moorpark--Ventura The proposed Project includes the construction of a new 1.0 MG reservoir at a site near the existing Stockton Reservoir site. The new reservoir will be an above-ground, welded steel tank, 80-feet in diameter, 30-feet in height with a knuckled roof. It is anticipated that the tank will be founded on a concrete ring wall and soil pad at an approximate elevation of 974 feet. There will be a concrete berm and asphalt road around the perimeter of the tank, and other ancillary features. A pipeline (420 linear feet, 12-inch diameter) from the new tank to connect with an existing 12-inch water line located in Stockton Road will also be constructed. The preliminary construction start date is April 2016 and completion is expected to occur by December 2016.	MND	03/09/2015
2015022027	American River Pipeline Conveyance Project Carmichael Water District Rancho Cordova--Sacramento The Proposed Project consists of: 1) pipeline construction from the Bajamont WTP under the American River to the existing water distribution system in Rancho Cordova; 2) abandoned pipeline removal across the American River to improve safety; 3) culvert replacement and bank stabilization at the unnamed drainage on the north bank; and 4) stream restoration along the north bank of the American River. Approximately 1,060 feet of the pipeline will be installed underneath the American River using horizontal directional drilling techniques to a depth of up to 85 feet. The remaining pipeline alignment, which will follow Rossmoor Drive for 6,143 feet to the connection with existing GSWC infrastructure in Coloma Drive, will be installed using open cut trenching. The Project will provide treated water to GSWC to replace groundwater affected by contamination.	MND	03/09/2015
2015022028	Three-Lot Minor Subdivision with Remainder (Alamo), County File #MS14-0004 Contra Costa County Alamo--Contra Costa The proposed project is a request for approval of a minor subdivision/tentative parcel map to subdivide a 5.7-acre parcel on the north side of Hemme Avenue near its western terminus into three residential lots, each of which would be approximately one acre in size, and a remainder lot. The project site is formerly the location of the San Francisco Presbytery's Westminster Retreat and includes the main Retreat house, a carriage house, a converted stable, a swimming pool, a small pool house, and a 25-space paved parking lot. The project site is in the	MND	03/09/2015

2015028078	Proposed Plan for Environmental Restoration Program Site SS035 Toxic Substances Control, Department of Marysville--Yuba The Proposed Plan identifies continued operation of an existing soil vapor extraction (SVE) system and excavation of soil at the Weapons Storage Area, Environmental Restoration Program (ERP) Site SS035, at Beale Air Force Base (AFB) and provides the rationale for this effort. The Proposed Plan documents the proposed remediation of soil impacted by volatile organic compounds (VOCs) including tetrachloroethene (PCE) and trichloroethene (TCE), among others. The ultimate goal for Site SS035 is to achieve site closure with unlimited use/unrestricted exposure (UU/UE) after soil vapor extraction (SVE) is discontinued and remaining contaminated soil removed.	NOE	
2015028079	Site Plan Review No. 14-14 (Kings County Juvenile Detention Facility) Kings County Hanford--Kings A proposal to remodel/expand the existing branch jail into a new juvenile center with two (2) phased approach. Proposed changes in Phase 1 include 35,000 sf of new facilities, and 116,000 sf of outdoor spaces. Phase II of the proposed project would expand the Juvenile Day Reporting Center an additional 7,000 sf.	NOE	
2015028080	Twin Ponds Dredging (Lake Alteration Agreement No. 1600-2014-0206-R4) Fish & Wildlife #4 --Fresno The Project includes activities related to sediment removal in the east pond at the Twin Ponds Property Homeowners Association residential development.	NOE	
2015028081	Folsom Prison Sewer Line Tree Removal Project (Streambed Alteration Agreement No. 1600-2014-0198-R2) Fish & Wildlife #2 Folsom--Sacramento The project proposes to remove 3 riparian trees; (1) Cottonwood approximately 22" at diameter breast height (dbh), (1) White alder approximately 14" dbh, and (1) Gooding willow, approximately 19" dbh. The trees are growing against or leaning over an existing sewer line along a 100 foot section of an unnamed tributary to the American River. The trees will be removed to within one foot above grade. All debris will be hauled away and disposed of to minimize impacts. All brush will be chipped and hauled off site.	NOE	
2015028082	South Harbor Overlay (EA: 01-0E590) Caltrans #3 --Mendocino The California Department of Transportation (Caltrans) proposes to place a hot mix asphalt and bonding wearing course overlay, and replace existing rumble strips and shoulder backing on State Route 20 between post mile R0.0-7.3 in Mendocino County. All work will occur within the existing Caltrans right of way.	NOE	
2015028083	Smith River Overlay (EA: 01-0E440) Caltrans #3 --Del Norte The California Department of Transportation (Caltrans) proposes to place a bonded-wearing course overlay, and replace existing rumble strips, asphalt concrete dike, and shoulder backing on State Route 101 between post miles 35.7-39.9 in Del Norte County. Work will occur within the Caltrans right of way.	NOE

2014051069	<p>previously disturbed pads (from prior operations) referred to as pods, the installation and operation of approximately 10,000 linear feet of new interconnecting above ground pipelines along existing oil field roads and/or existing pipeline corridors, and the installation and operation of an equipment pad and a multiphase booster pad on currently undisturbed locations. Estimated crude oil production from the field after the proposed Project would total 3,600 bpd.</p> <p>The Reserve San Diego, City of San Diego, La Jolla--San Diego</p> <p>The project proposes the subdivision of one parcel (APN 352-300-07-00) for future residential development in the La Jolla Community Planning Area, within the City of San Diego (City). The project would subdivide the property into three separate parcels: Parcel 1 (1.07 acres) will be conveyed and merged into the adjacent Foxhill Estate property through a Lot Consolidation Map. Parcel 2 (1.68 acres) and Parcel 3 (22.20 acres) will each accommodate a single-family estate home, as well as conservation and restoration of biological habitat. These two lots parcels (Parcel 2 and Parcel 3) will be sold to individuals for the construction of custom homes and would be developed pursuant to a set of Design Guidelines. In addition, the project proposes to dedicate approximately 0.14-acre for Romero Drive right-of-way and 0.05 acre for Country Club Drive right of way.</p>	EIR	03/25/2015
2015021025	<p>EA 15-05014 - Nuevo Road Widening & Nuevo Bridge Replacement Perris, City of Perris--Riverside</p> <p>The roadway component of the project involves widening several sections of Nuevo Road that have not been developed to its ultimate width. The bridge replacement component of the project involves removing an existing undersized concrete slab bridge and pier system with a "multi-cell reinforced concrete box system" consisting of eleven 14-foot wide by 14-foot high cells with a length of 114-feet. The proposed RCB will be designed to convey the 100-year storm flows under Nuevo Road as shown by the approved PVSD Alternative 5 Plan. The proposed project will construct interim improvements consisting of grading to widen the existing channel section approximately 150 feet downstream and 325 feet upstream to transition from the existing channel sections to the RCB with some of the side slopes protected with riprap. Headwalls will be constructed on the upstream and downstream ends of the RCB with cut-off walls to prevent erosion of the invert. The lower half of the RCB will be below the existing channel flow line until the ultimate channel section is constructed. The project will remove the concrete slope protection and riprap from the under the existing bridge area and will expand the earthen channel area for a net increase in the previous riverine channel area. The ultimate channel section will be constructed upstream and downstream of the RCB as development occurs in the future along the PVSD channel.</p>	MND	03/10/2015

	allow an increase from 199 to 290 students. The result would be a net increase of 91 students.		
2015021027	Villa San Juliette Conditional Use Permit DRC2013-00097 San Luis Obispo County --San Luis Obispo Hearing to consider a request by Villa San Juliette Holdings, LLC for a Conditional Use Permit to allow the phased expansion of a previously approved winery and tasting room. At build out the winery facility would total approximately 23,000 sf. Wine production is estimated at 80,000 cases per year. The project will result in the disturbance of approximately 0.68 acres on a 169-acre parcel. The applicant is requesting modifications: to ordinance standards to allow adjustments to the required setbacks, to allow outdoor amplified music to play beyond 5 p.m. during special events, and to increase the allowable sf of a proposed restaurant from 800 sf to 1,200 sf. The applicant is also requesting to expand the existing events program to allow 20 special events with up to 200 guests and 3 special events with up to 500 guests. The proposed project is within the Agriculture land use category and is located at 6385 Cross Canyons Road, approximately 3.14 miles east of the community of San Miguel. The site is in the El Pomar/Estrella Sub Area of the North County Planning Area.	MND	03/10/2015
2015021028	Ballantyne and Park Specific Plan El Cajon, City of El Cajon--San Diego General plan amendment, rezone, and specific plan to allow for future development of the site with commercial, residential, or mixed-use development. No specific development proposal would be approved with this action.	MND	03/10/2015
2015022032	Lake Tahoe Wildlife Care Center South Lake Tahoe, City of South Lake Tahoe--El Dorado New construction of a public service facility for a wildlife care center that includes twelve animal enclosures for the purpose of animal rehabilitation. The facility includes an area for a live-in caretaker, animal hospital and long-term intern facilities. The animal care center will be two stories; the unconditioned floor area is 1,843 sf, the conditioned floor area is 8,679 sf, and the total floor area is 10,522 sf. The twelve animal enclosures will be all unconditioned space with fenced outdoor areas for the wildlife. The public will be able to access the animal care center while a fence will block public access to all animal enclosures. The fence will enclose all of the animal enclosures and will serve the purpose of keeping the general public and wildlife out of the area where the animals will be rehabilitated.	MND	03/10/2015
2015022039	Old River Elementary School Multipurpose Building Knightsen Elementary School District --Contra Costa The Multipurpose Building project calls for the development of an approximately 10,000 sf, single-story structure situated within the existing Old River Elementary School (K-8) campus. The Building is intended primarily to serve as a cafeteria, and to provide indoor space for recreational and other student activities. In addition, ancillary within the Building are to include a kitchen, stage, restrooms, and storage and utility rooms. No new off-site improvements are planned in conjunction with the project. <u>Documents Received on Monday, February 09, 2015</u>			
2015022040	White Slough Restoration California State Coastal Conservancy --Humboldt The White Slough Restoration Project will restore tidal marsh habitat on subsided, diked former tidelands to enhance native wildlife habitat, protect existing transportation infrastructure and beneficially reuse sediment. Sea level rise and dike failure currently threaten to convert subsided marsh in this area to mudflat. Tidal marsh will be restored on ~40 ac by first raising surface elevations to levels that will support marsh vegetation, and then breaching the dike around the Unit. Surface elevations will be raised by placing up to 200,000 cubic yards of clean sediment. Four existing tide gates in the northern portion of the Project Area will be modified to establish a muted tide cycle.	MND	03/10/2015
2015022044	Hawver Road Bridge Improvement Project Calaveras County --Calaveras The Calaveras County Public Works Department proposes to replace the existing low water crossing on Hawver Road over the North Fork of the Calaveras River with a new bridge. The project is located near the intersection with Jesus Maria Road approximately 1.8 miles southeast of Highway 26 in Mokelumne Hill, Calaveras County. The proposed bridge will improve the existing crossing by adding adequate lane width and shoulders, as well as providing a safe County road river crossing for motorists, pedestrians, and emergency response vehicles at all times including during adverse weather conditions. The new bridge will have two 10-foot lanes with 4-foot shoulders and traffic barriers at each side of the bridge for a total width of 31 feet.	MND	03/11/2015
2014041008	Cate School Master Plan Update Santa Barbara County Carpinteria--Santa Barbara Cate School proposes a revision to existing CUP to allow for the construction of new campus buildings including six new single-family faculty residences, student dormitories, classrooms, a student center/dining facility, a squash pavilion and a multi-purpose building; total net new development of approximately 154,279 sf.	NOP	03/10/2015
2015021024	Oil Field Water Reuse Kern-Tulare Water District --Kern The project is the construction and operation of an oil field produced water conveyance system. The District is currently partnering with local oil producers to acquire up to 8,000 acre-feet (AF) per year of produced water for delivery to crops in the District. The produced water would first be treated to remove residual hydrocarbons before it leaves the oil fields. The treated water would then be transported from the oil fields through 12- and 15-inch underground pipelines to two proposed reservoirs with ~1,200 AF of total storage capacity. From the two new reservoirs, water would be transported in 18- and 24-inch pipeline to the District's existing Big 4 Reservoir, from which it will be distributed to irrigated agriculture within the District. As part of the Project, three new agricultural turnouts would be constructed to facilitate conveyance of the water.	NOP	03/10/2015

2015022037	Mountain View Cemetery Burial Site Expansion Oakland, City of Oakland--Alameda The project would develop portions of the undeveloped upper one third of the cemetery property to accommodate future needs for additional burial sites. Three separate but interrelated development sites, all entirely within the City of Oakland, would be included. The sites would be developed as a cut-and-fill plan that will move existing soils from proposed cut locations to proposed fill locations, with a resulting cut and fill balance on site. This approach would require the transfer of soil between undeveloped sections of the cemetery property and subsequent grading and site work. The project would also connect the development sites to each other and to the existing portions of the Cemetery by extensions of on-site roadways.	NOP	03/10/2015
2015022038	Cherryland Community Center Alameda County Hayward--Alameda The proposed project involves the demolition of an existing structure and concrete pads on the project site, construction of the new 17,500 sf Cherryland Community Center, and the reconfiguration of the existing Meek Estate Park parking lot.	NOP	03/10/2015
2015022034	PA-1400236 (SA) San Joaquin County Lodi--San Joaquin A Site Approval application for the expansion of an existing cemetery facility in 2 phases over 10 years. Phase 1, to be completed within 18 months, includes the construction of an 11,000 sf chapel and crematory building. Phase 2, to be completed within 10 years, includes the construction of a 14,000 sf mortuary and administrative office building, a 6,500 sf reception center, a 6,200 sf garage and wall crypts/niches building, and a 4,100 sf addition to an existing mausoleum building.	Neg	03/10/2015
2015022035	PA-1400255 (MS) San Joaquin County Stockton--San Joaquin A Minor Subdivision application to subdivide an existing 22,470 sf parcel into two parcels. Parcel 1 to contain 12,761 sf and Parcel 2 to contain 9,709 sf.	Neg	03/10/2015
2015022036	General Plan, Housing Element Update Antioch, City of Antioch--Contra Costa The Draft Housing Element identifies residential sites adequate to accommodate a variety of housing types for all income levels and needs of special population groups defined under State law, analyzes governmental constraints to housing maintenance, improvement and development, addresses conservation and improvement of the condition of the existing affordable housing stock, and outlines policies to promote housing opportunities for all persons. No new housing sites, beyond those already identified in the current General Plan and Zoning code, are proposed as part of this update. The Housing Element Update does not include any changes to land use designations, zoning, building heights and intensities, or residential densities. Other proposed developments in the city that do not currently have City entitlements are not included in this Housing Element.	Neg	03/10/2015

2015028099	Interpretive Panel Installation Fish & Wildlife #5 Huntington Beach--Orange The Bolsa Chica Interpretive Master Plan (2010) describes two dozen interpretive panels to populate the parking lots, public trails and overlooks of the Bolsa Chica Ecological Reserve. By agreement of all parties involved in the development of the Master Plan, the panels and panel supports are being funded by Bolsa Chica's NGOs and the installation (labor and tools) of the panels will be supplied by DFW staff. The work will not extend beyond property managed by DFW. In some cases, old signs will be removed by DFW staff and replaced by the new panels on or near the old sign locations. The new interpretive panels have a low profile and will greatly enhance the viewer's experience.	NOE	
2015028100	Elevated Solar Photovoltaic Arrays Temecula Valley Unified School District Temecula--Riverside Temecula Valley Unified School District proposes to install elevated photovoltaic arrays, and energy demand management equipment in an enclosure, at Abby Reinke Elementary School. The arrays would provide power to the school. Excess electricity generated would flow back into the electrical grid. The project would reduce the District's reliance on utility-supplied electricity and improve the environment by reducing the District's contribution to global warming emissions.	NOE

2012111014	Fremont Solar (Springbok 2 Solar Farm) Project by 63SU 8ME, LLC Kern County Mojave, California City--Kern The project proponent is requesting: (a) Amendments to the Circulation Element of the Kern County General Plan to eliminate future road reservations along section and mid-section lines where there are no existing roads; (b) Amendment to the Cantil Rural Community Plan for the removal of portions of the project site from the Community Plans boundaries; (c) change in zone classification from the existing zone district A-1 (Limited Agriculture) to the A (Exclusive Agriculture) District on approximately 155 acres; (c) conditional use permits to allow for the construction and operation of a solar electrical generating facility and temporary concrete batch plants in the A (Exclusive Agriculture) zone; (d) Modifications to previously approved Conditional Use Permit to allow for Operations and Maintenance facilities to be relocated; and (e) Cancellation of approximately 540 acres of land under Williamson Act Land Use Contracts.	EIR	03/27/2015				
2013112019	Jennings Avenue Pedestrian and Bicycle Rail Crossing Santa Rosa, City of Santa Rosa--Sonoma FYI Final The City proposes improvements at an existing, unofficial at-grade pedestrian and bicycle rail crossing at Jennings Avenue and the SMART rail corridor to provide an official rail crossing. Two types of rail crossings are evaluated in the Draft EIR: an at-grade pedestrian and bicycle crossing, which would include crossing surfaces at the same elevation as the existing railroad tracks; and a pedestrian and bicycle rail overcrossing, which would provide crossing surfaces over the railroad tracks. The EIR also evaluates the closure of one existing rail crossing at either W. Sixth Street, W. Seventh Street, or W. Eighth Street in exchange for a new pedestrian and bicycle at-grade crossing at Jennings Avenue. A public hearing will be conducted by the City Council on Tuesday, November 18, 2014 at or after 5:00 p.m., in the City Council Chamber, City Hall, 100 Santa Rosa Avenue, Santa Rosa.	FIN

2015022041	133 & 149 Fairchild Drive Rowhouse Project. City File Number: 133-14-PUD Mountain View, City of Mountain View--Santa Clara The proposed project is the demolition of a 30-space RV park, one mobile home, the RV park office, two single-family homes, a vacant eight-unit motel, and a small commercial business, and the construction of 35 attached rowhouse units at 133 and 149 Fairchild Drive in the City of Mountain View. The proposed project includes the dedication of approximately 0.27 acres of the project site to the City for future development by the City as a neighborhood park. The proposed residential design consists of three-story dwelling units in each row with front doors facing existing and proposed roadways, at-grade garages at the rear of each unit on the interior of the project site, internal circulation, and landscaping. The proposed project includes the removal of eight regulated trees including seven Heritage trees.	MND	03/11/2015
2015022043	Lassen Lodge Hydroelectric Project (Federal Energy Regulatory Commission (FERC) Project No. 12496) State Water Resources Control Board Mineral--Tehama The State Water Resource Control Board plans to prepare an EIR for Rugraw, LLC's (Rugraw) Lassen Lodge Hydroelectric Project; FERC Project No. 12496. The proposed Project will be located on South Fork Battle Creek in Tehama County, CA. Project facilities include: diversion works, a pipeline and penstock, transition structure, one powerhouse with a turbine/generator, tailrace, substation, station service line, transmission line, switchyard, and multipurpose areas. On May 20, 2014, in accordance with section 401 of the Clean Water Act, Rugraw applied to the State Water Board for a water quality certification.	NOP	03/11/2015
2015022042	Pasatiempo Water Storage Tank Santa Cruz County --Santa Cruz The proposal includes the following: construction of a 500,000 gallon water tank for storage of tertiary treated non-potable water, on-site well water, and City of Santa Cruz Water Department water for irrigation of the Pasatiempo Golf Course; construction of a 625 sf pump house; maintenance access road off of Sims Road; and 230 sf restroom and associated leach field for golf course use; landscape screening; and approximately 2,699 cubic yards of cut and 1,710 cubic yards of fill. The proposal requires a Commercial Development Permit, Preliminary Grading Approval, and Environmental Review.	Neg	03/11/2015
2011071006	David Starr Jordan High School Redevelopment Los Angeles Unified School District Los Angeles, City of--Los Angeles The project consists of approval by the Department of Toxic Substances Control (DTSC) of a Removal Action Workplan (RAW) submitted by Los Angeles Unified School District (LAUSD) dated June 4, 2014. DTSC's approval action is being undertaken pursuant to the regulatory authority granted under Chapter 6.8, Division 20, sections 25323.1 and 25356.1 of the Health and Safety Code. The purpose of the RAW is to remediate potential risk to human health and the environment by reducing or eliminating future exposure to soils impacted by elevated concentrations of lead at the Jordan High School site (Site). The RAW combines excavation with off-site disposal of lead-impacted soil. Activities to be conducted pursuant to the RAW include the following: -Excavate approximately 752 cubic yards of lead-impacted soil from identified	NOD

2015028139	Tenth Avenue Marine Terminal Berths 10-3, 10-4, 10-7, and 10-8 Fuel and Water Vaults Modification San Diego Unified Port District San Diego--San Diego The proposed project involves the relocation of fuel and water vaults located at Berths 10-3, 10-4, 10-7, and 10-8 at the Tenth Avenue Marine Terminal (TAMT) in San Diego. The existing vaults for fuel and potable water services are ten to twelve inches above ground and extend six to nine feet from the edge of the wharf. The fuel and water vaults are proposed to be relocated because they present an obstacle to marine terminal operations, including the offloading and handling of cargo and the placement of hoppers. All Berths 10-3 and 10-4, two fuel vaults will be relocated to below ground and two water vaults will be relocated nearer to the wharf bull rail. At Berths 10-7 and 10-8, one fuel vault and one palm oil vault will be placed below ground and one water vault will be relocated nearer to the wharf bull rail. The proposed project will maintain existing fuel and water services.	NOE	
2015028140	Symphony by the Sea San Diego Unified Port District Imperial Beach--San Diego The proposed project is Symphony by the Sea, which will take place at the Portwood Pier Plaza in Imperial Beach on Saturday, March 14, 2015. The District will provide event sponsorship and financial assistance for the event, a public concert that features the San Diego State University Symphony Orchestra for the public to enjoy. In addition, there will be food concessions for the public. The event has an expected attendance of approximately 2,000 people. Parking will be available at the public parking facilities serving and located near the Portwood Pier Plaza.	NOE	
2015028141	Gator by the Bay San Diego Unified Port District San Diego--San Diego The proposed project is by the Gator by the Bay festival, which will take place at Spanish Landing Park from Thursday, May 7, through Sunday, May 10, 2015. Also, set-up and tear-down of the event will occur at Spanish Landing Park on May 7 and May 10, 2015. The District will provide event sponsorship and financial assistance for the event, a four-day festival that will feature the following: Cajun, Zydeco, Blues and community bands on four stages, shaded dance floors, music workshops, cultural presentations, Cajun and Creole food, cooking demonstration, dance lessons, and entertainment. The event has an expected attendance of over 15,00 people. The event will require the use of 100 parking spaces adjacent to Spanish Landing Park East and West, and additional parking will be available at public parking facilities located near Spanish Landing Park. Since the parking spaces will be reserved for a limited time period, the project will not result in significant impacts related to public parking.	NOE	
2015028142	Mariachi Festival and Competition San Diego Unified Port District National City--San Diego The proposed project is the third annual Mariachi Festival and Competition, which will take place at Pepper Park in the City of National City on Saturday, March 15, 2015. The District will provide event sponsorship and financial assistance for the event, a community-friendly festival that will provide entertainment for families to come together and celebrate San Diego's Mexican heritage through mariachi music and traditional ballet folklorico dancing. The festival will highlight mariachi	NOE

2015028146	<p>beverages, and entertainment at the park. The event has an expected attendance of approx. 11,000 people. In addition, the event will require the use of approx. 206 parking spaces at Coronado Tidelands Park on May 17, 2015. Since the parking spaces will be reserved for a limited time period, the project will not result in significant impacts related to public parking. Parking will be available at the public parking facilities serving Shelter Island, Harbor Island, the Embarcadero, Seaport Village, and Coronado. Finally, parking will be available facilities located near the San Diego Convention Center.</p> <p>Amendments to FY 2014-2018 Capital Improvement Program and Reallocation of Funds from the Capital Improvement Program Contingency San Diego Unified Port District San Diego, Chula Vista--San Diego</p> <p>The proposed project involves amendments to the FY 2014-2018 Capital Improvement Program (CIP) and reallocation of funds from the CIP to North Embarcadero Visionary Plan (NNEVP), Chula Vista Bayfront Pre-Design/Design, and Cruise Ship Terminal Shore Power projects.</p> <p>The proposed project will transfer funds from the CIP contingency to the existing NEVP - CIP project, increasing its budget by \$1.1 million for the future construction of extension to the Setback Park/Plaza is included in the planning and scope of the NEVP project. The District is responsible for setting aside the funding to complete the Setback Park/Plaza according to the Memorandum of Understanding between the District, the San Diego Navy Broadway Complex Coalition, and LFN Developers, LLC (Clerk's Doc. # 57019). Once the land is acquired from the Navy, District will proceed with the construction of the Setback Park/Plaza.</p> <p>The proposed project also involves review and approval of the design and cost estimate to retain the overwater platform where the former Bay Cafe was located, and will transfer funds from the CIP Contingency to the existing NEVP - CIP project, increasing its budget by \$600,000 for the construction of the overwater platform. On Oct. 14, 2014, the Board approved extending the NEVP Phase 1 Improvements to include retaining the former Bay Cafe location as an overwater platform and to have District staff prepare a design and cost estimate for the public viewing platform. District staff has completed a preliminary design and cost estimate that does not exceed \$600,000.</p> <p>The proposed project will transfer funds from the CIP contingency to the existing Chula Vista Bayfront Pre-Design/Design project, increasing its budget by \$740,000 for the continued infrastructure planning and design activities supporting the Chula Vista Bayfront Redevelopment Project. The District is using the \$740,000 for infrastructure planning and design for public parks and public right of way improvements necessary for the creation of leasable parcels and coordination with Pacifica and RIDA Development Corporation.</p> <p>Finally, the project will approve the Cruise Ship Terminal Shore Power project as a new CIP project, and will transfer funds from the CIP contingency to the Cruise Ship Terminal Shore Power project as an initial budget of \$250,000. The CA Air Resources Board (CARB) requires a 70% and 80% reduction in at-berth emissions by the year 2017 and 2020, respectively, for passenger vessels. District staff will begin the engineering and design for upgrading the utility services at the Cruise Ship Terminal to meet the 2017 and 2020 CARB requirements.</p>	NOE

	sediment removal from Denniston Reservoir.		
2014112056	<p>Delta Emergency Rock and Transfer Facilities Project Refinements Water Resources, Department of Stockton, Rio Vista--San Joaquin, Solano, Sacramento</p> <p>Minor refinements to the proposed project have been made since June 2013 and are the focus of this subsequent Initial Study/subsequent proposed MND (IS/MND). Proposed project refinements at the Stockton West Weber site include site clearing, grubbing, and removal of organic material including at least 14 and potentially up to approximately 20 trees during project construction; grading including importing backfill material; constructing 12-inch aggregate base all-weather surfaces above the 100-year flood elevation; improving, extending, or abandoning existing utilities services where required; constructing a new 7,000 square foot steel frame building with concrete foundation for warehouse use; constructing new concrete foundations for two rock conveyors; constructing a 6,500 square foot asphalt foundation/pad for four temporary office trailers and a pre-fabricated restroom facility; construct 4,600 square-foot asphalt of up to 150,000 tons of various rock gradations (an increase from 40,000 tons in original project description); installing an additional two spud piles (for a total of eight spud piles) near the toe of bank along the Stockton Deep Water Ship Channel to support two conveyor support barge structures; and installing up to 11 dolphin pile clusters for mooring of up to three transport barges during rock-loading operations.</p> <p>Proposed project refinements at the Rio Vista site include: site clearing, grubbing, and removal of organic material including approximately 4.0 acres of trees as necessary during project construction; decreasing the acreage for vehicle parking from 1.25 acres to 0.75 acre; providing new water and electrical connections; and widening the existing access road from about 20 feet to 28 feet, including removing at least two and up to approximately 15 trees along the existing access road.</p>	NOD	
2014121087	<p>SWID Recharge Project Shafter-Wasco Irrigation District Shafter--Kern</p> <p>The project includes construction and operation of approximately 65 20-acre groundwater recharge basins (and related facilities and appurtenances including water control structures), on approximately 1,300 acres within a 4,000-acre study area of the Shafter-Wasco Irrigation District ("District"), and includes potential use of existing recharge basins within neighboring districts. The intention of the project is to increase the District's ability to capture and store available water supplies in the groundwater aquifer, including existing District contract Friant supplies including recovered account and re-circulated water supplies, USBR Section 215 supplies, Kern River flood flows and other available flood flows in the Friant Kern Canal, and other water supplies that may become available to the District from the Calloway Canal or other conveyance facility or means. Implementation of the Project will help balance groundwater use and create a sustainable supply for the District and its landowners, and help avoid the adverse economic and environmental burdens associated with groundwater level declines.</p>	NOD

FCWCD: 7,500 AF Antelope Valley-East Kern Water Agency --Kern, Los Angeles, Santa Clara AVEK Water Agency (AVEK), as a special district and State Water Contractor (SWC) will transfer up to 7,500 Acre-Feet of State Water Project (SWP) water in a balanced 1:1 exchange, to SWC Santa Barbara Co. FCWCD in meeting the critical water supply needs of SBCFCWCD. Return of SWP water by AVEK will be within 10 years.	NOE	
2015028160	Upper Truckee Marsh Water Quality Assessment Tahoe Conservancy South Lake Tahoe--El Dorado The project involves conducting a water quality assessment of the Upper Truckee Marsh. The project also includes reimbursement by the State Water Resources Control Board for funds expended by the Conservancy in conducting the assessment.	NOE	
2015028161	Salk Elementary School Marquee Sign Project San Diego Unified School District San Diego--San Diego The San Diego Unified School District proposes to install one electronic marquee sign at the Salk Elementary School campus. The marquee sign would be 5'x 9'x 7'11", double-sided, internally illuminated, and mounted on two poles within the premises of the existing school campus. In addition, the marquee sign is operated with a time clock to turn off at night, and also includes a dimmer feature. The proposed marquee sign would be located at a distance of approximately 157 linear feet from school sidewalk-to-sidewalk across. 45 degrees to the left, 52 linear feet from school sidewalk-to-sidewalk directly across, and 57 linear feet from school sidewalk-to-sidewalk across 45 degrees to the right. Minimal trenching work would be required for the installation of the lighted sign; however the site was previously graded for the development of the new school. The purpose of the new lighted electronic marquee sign is to present information to the school attendees and the general public regarding the school's affairs.	NOE

facility.

The Emergency Permit is effective from Feb. 17, through May 17, 2015.

Treatment will be scheduled depending on weather, logistics, and availability of personnel. The treatment activities will be conducted by qualified personnel from Beale AFB. The detonation will be performed on the Beale AFB Demolition Range.

Beale AFB does not have a permit for treatment of hazardous waste at this location. DTSC has determined that due to an imminent and substantial endangerment to human health an emergency permit should be issued. The item is a potential safety hazard and presents an unacceptable risk for continued storage. There is no alternative treatment available.
