STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

February 1 – 15, 2016

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1 – 15, 2016**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

2015-20	Potter Valley Tribe APNs: 161-120-18-00 Bureau of Indian Affairs --Mendocino Currently the tribe holds no land in trust and requests this property for housing. The subject property is one parcel of land in Mendocino County, CA, commonly referred to as the Redwood Valley Property, containing 3.90 acres, more or less. The parcel contains four residences, which provides housing for the tribal members.	BIA	03/01/2016
2015-22	Morongo Band of Mission Indians APNs: 523-140-016 Bureau of Indian Affairs --Riverside The subject property consists of a parcel of land, encompassing ~10.61 acres more or less. The subject parcel is contiguous to the exterior boundary of the Morongo Reservation. It is an ongoing effort to consolidate Reservation lands. The Tribe determined that the purchase of this land was necessary to facilitate tribal self-determination and self-governance.	BIA	03/01/2016
2014051041	West of Devers Upgrade Project Public Utilities Commission Loma Linda, Colton, Beaumont, Banning--Riverside, San Bernardino Note: 1 Errata Remove existing 220 kV transmission structures and replace with new structures along a 45 mile existing transmission line right-of-way. Extends from Devers Substation (North Palm Springs) to Vista Substation (Grand Terrace) and San Bernardino Substation (San Bernardino).	FIN	
2015102002	YUB-20 Smartsville Safety Improvement Project Caltrans #3 --Yuba, Nevada Note: NOA/FONSI Caltrans proposes to improve the safety along SR-20 (YUB-20 PM 20.2/21.7 and NEV-20 PM 0.0/0.1) in Yuba and Nevada Counties. The scope of work would include; Realignment of portions of the existing highway to connect non-standard curves, improve sight distance, realign county roads as necessary for proper intersection alignment, construct new drainage systems as necessary for new alignment segments, drainage improvements as necessary, shoulder widening, roadway signage and striping, and adding right and left turn pockets at Smartsville Rd.	FON	
2016021002	Waterman Industrial Center (Development Permit Type D 15-11) San Bernardino, City of San Bernardino--San Bernardino The proposed Waterman Industrial Center (proposed project) is a 564,652-SF industrial building with office space, parking, a pump house, and landscaping on an approx. 26 acre property located in the southwest corner of the intersection of East Dumas Street and South Waterman Avenue in the City of San Bernardino.	MND	03/01/2016

	The industrial building would be one floor with a maximum height of 47 feet. The building would be a cross dock warehouse facility with 10,000 SF of dedicated office/mazzaninespace. The site will also include a 427-SF pump house. The building would pave 49 dock doors on its northern frontage and 49 on its southern frontage. Total on-site parking would be 452 stalls, with 286 dedicated to warehouse parking (including office) and 166 trailer parking spaces. Landscaping in the amount of 103,585 SF is anticipated for the site and the southwest corner of the site would be used as a storm water/water quality control basin. Roadway frontage improvements would be provided on South Waterman Ave. and East Dumas Street.		
2016021003	Mitigated Negative Declaration for Planned Unit Development (No. PUD 14-002) Tulare County Porterville--Tulare The proposed Project includes a Planned Unit Development (No. 14-002) for the construct of 27 single family residents on a 4.3 acre portion of 6.4 acre parcel (APN 263-230-016). The Project will include the remaining 2.1 acre portion of the existing parcel and an adjacent 1.8 acre parcel for a total of 3.90 acres (APN 263-230-009). The remaining 3.90 acres will be utilized as open space.	MND	03/01/2016
2016021004	General Plan Amendment/Zone Change No. 15-0363; PD Review 15-0364 Bakersfield, City of Bakersfield--Kern Project is a request for a General Plan Amendment to change the Land Use Designation from LR (Low Density Residential) & OS-S (Open Space-Slopes) to GC (General Commercial) and a Zone Change from R-1-HD (One Family Dwelling-Hillside Development Combining) to C-1-HD/PUD (Neighborhood Commercial-Hillside Development Combining/Planned Unit Development) on 9.975 acres. The PUD request will allow the development of a 110,408 sq. ft. Senior Assisted Care & Memory facility on 9.975 acres. The request also includes a Zone Change from R-1 (One Family Dwellings) to R-1-HD (One Family Dwelling-Hillside Development Combining) on 10.086 acres. No development is proposed for the 10.086 acre portion. This zone change is requested to include the hillside protection zone district on a portion of the site.	MND	03/01/2016
2016021005	IS Application No. 7020 (James and Jennifer Marshall) Fresno County Sanger--Fresno Allow a small winery with related facilities on an approx. one-acre portion of two contiguous parcels totaling 20.57 acres in the AE (Exclusive Agricultural, 20-acre minimum parcel size) Zone District. The project is located on the west side of N. Zediker Avenue approx. 1,890 feet north of E. Olive Avenue and 3.3 miles northeast of the nearest city limits of the City of Sanger (1835 N. Zediker Avenue, Sanger) (SUP. DIST. 5) (APN 309-100-93; 309-100-95).	MND	03/01/2016
2016021008	General Plan Amendment/Zone Change No. 15-0507 Bakersfield, City of Bakersfield--Kern The Project is a request for a General Plan Amendment to change the Land Use Designation of the Metropolitan Bakersfield General Plan from LR (Low Density Residential) to GC (General Commercial) to GC (General Commercial) and a Zone Change from R-1 (One Family Dwelling) & R-2 (Limited Multiple Family Dwelling) to C-2 (Regional Commercial) on 10.8 acres located on the south side of SR 178, generally west of Morning Drive in northeast Bakersfield. The purpose of the	MND	03/01/2016

	requested change is to allow the development of a rehabilitation hospital (consisting of 55,000 sq. ft.) and associated medical/general office buildings (consisting of 54,500 sq. ft.) on the 10.8 acre project site.		
2016022001	General Plan Amendment 2016-1A and Rezone #16-01, Lake California Property Owners Association Tehama County --Tehama General Plan Amendment 2016-1A proposes to change the Land Use designation on the westerly portion of Lots 2, 3, 4, 5 and 6 of River Lakes Ranch Subdivision Unit No. 4 (approx. 19,140 sq. ft.) from SR; Suburban Residential to CR; Commercial Recreation Lands. Rezone #16-01 will rezone the same westerly portion of Lots 2 and 3 of River Lakes Ranch Subdivision Unit No. 4 (Approx. 9,500 sq. ft.), from R-1; One-Family Residential District to GR; General Recreation District. The project site is located in the community of Lake CA., on the east side of River View Drive, adjacent to the Lake CA Sacramento River boat launch marina on the west side of the Sacramento River, approx. 1.23 miles northeast of the Lake CA Dr./ Rio Alto Dr. Intersection. APN: 102-010-011. A 19,140 sq. ft. portion of an approx. 1.37 acre parcel.	MND	03/01/2016
2016022003	Feather River Drainage Project Caltrans #2 --Butte, Plumas Caltrans proposes to conduct culvert work along SR 70 in Butte and Plumas Counties. The purpose of the proposed project is to repair and replace culverts in accordance with current requirements, as well as construct new drainage facilities where appropriate. Work would consist of the repair, replacement, upgrading, and/or installation of culverts and inlet/outlet treatments. Staging would occur within Caltrans right-of-way. The project would require permits from the U.S. Army Corps of Engineers (404), CDFW (1600), and the Regional Water Quality Control Board (401). Temporary Construction Easements would be required for work activities outside of Caltrans Right-of-Way. A permanent easement may be required for the new culvert at PM 42.11.	MND	03/01/2016
2016022004	Moorland Neighborhood Park Master Plan Sonoma County Santa Rosa--Sonoma Sonoma County Regional Parks proposes to develop a new neighborhood park in the underserved Moorland neighborhood in unincorporated Sonoma County. Proposed improvements include: a small turf field for informal play and potentially limited organized soccer play, a place for neighborhood events, a play area for kids, picnic areas, an off-leash dog area, a community garden, a memorial for Andy Lopez, a small parking area, perimeter sidewalks, interior paths, a skate plaza, basketball court, restroom, shade structure to serve as an outdoor clubhouse, and a natural area to accommodate storm water runoff and provide habitat and educational values.	MND	03/01/2016
2016022005	Sterling 5th Street Apartments Project Davis, City of Davis--Yolo The proposed project would redevelop the 6-acre Families First property located at 2100 5th Street with a new 270 unit, 5-story apartment project. The property is the site of the former Families First residential treatment facility which has been closed since September 2013. The project would demolish the existing buildings and	MND	03/01/2016

	construct five new 4- to 5-story apartment building consisting of 270 apartment units, a separate 2-story leasing office/clubhouse building, a 5-story (6-level with top deck) parking structure, additional site amenities, and landscaping. The project would include a mix of 1-bedroom to 5-bedroom apartment units ranging in size from approx. 500 sq. ft. to 1,600 sq. ft.		
2016012061	PA-1500096 (AE) - Agricultural Excavation to remove 99,355 cubic yards of sand over a six-year period San Joaquin County Stockton--San Joaquin Agricultural Excavation application to remove 99,355 cubic yards of sand material over a six-year period.	Neg	
2016021009	SA Recycling Crane Replacement and Electricification Draft IS/ND Los Angeles, Port of --Los Angeles The project is the replacement of a Tier 2 diesel crane with a Tier 4 diesel/electric hybrid crane. the new crane is cleaner burning and results in significantly air quality emission reductions as well as noise reductions. Ground improvements will occur over approx. 400 linear feet to install the necessary conduit and wiring to electrify the wharf. The project site has been identified as being included on the Cortese List (Government Code Section 65962.5).	Neg	03/01/2016
2016022002	Bear Creek Winery Wastewater Treatment and Disposal Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Lodi--San Joaquin The project is to install a wastewater treatment system and to expand vineyard land application areas at Bear Creek Winery (the Winery). The proposed project will be completed by Aug. 2018. Currently the Winery is regulated under Waste Discharge Requirements (WDRs) Order 71-037, which was adopted by the Central Valley Regional Water Quality Control Board on 21, August 1970. On 29 Dec. 2014, the Winery submitted a Report of Waste Discharge (RWD) to apply for revised WDRs. Prior to adoption of the revised WDRs, a review of the project's potential environment impacts is required pursuant to CEQA.	Neg	03/01/2016
2006072098	Updated Local Funding Mechanisms for Sacramento Area Flood Control Improvements Sacramento Area Flood Control Agency Sacramento-- SAFCA's overall project objective is to establish funding mechanisms that are capable of providing the local share of the cost of constructing and maintaining State and Federally recommended flood control improvements and related environmental mitigation and habitat enhancements along the Lower American and Sacramento Rivers and their tributaries in the Sacramento metropolitan area (Sacramento).	SIR	03/16/2016
1998012044	Sears Point Raceway Master Plan/Modification to Use Permit Sonoma County Sonoma--Sonoma The project is limited to the removal of approximately 4,242 cy of accumulated sediment from two in-stream detention basins (Basin 1 and 2). The total sediment removal area for both basins will be approximately 61,126 sf (1.4 acres). Following the completion of sediment removal, the detention basin contours will be restored to provide adequate capacity and all loose dirt and other generated debris will be removed from the basins. The disturbed area will be hydroseeded with a native	NOD

2014121069	<p>Santee 50 Santee, City of Santee--San Diego</p> <p>The project would modify the Santee 50 project (Tentative Map [TM] 2014-1 and Development Review Permit [DR] 2014-5) approved on January 28, 2015 to include a new TM 2015-5 and DR 2015-9 to construct an additional 10 multi family townhomes on a 0.56 acre parcel adjacent to the approved project parcels. Combined with the approved Santee 50 project, a total of 60 multi family townhomes would be constructed.</p> <p>The modifications to the approved project entail the addition of a 10 unit multi family residential townhome building on a 0.56 acre parcel that is surrounded on three sides by the approved project parcels, and would include a TM 2015-5 for the subdivision of the 10 units. The 10 unit townhome building, referred to as the Mission Trails Collection - 8758 Bushy Hill Drive Parcel (or additional parcel), would be incorporated into the approved project. Combined, the modifications and approved project would total 60 multi family dwelling units on 3.66 acres.</p>	NOD	
2015102002	<p>YUB-20 Smartsville Safety Improvement Project Caltrans #3 --Yuba, Nevada</p> <p>Caltrans proposes to improve the safety along SR-20 (YUB-20 PM 20.2/21.7 and NEV-20 PM 0.0/0.1) in Yuba and Nevada Counties. The scope of work would include: Realignment of portions of the existing highway to correct non-standard curves, improve sight distance, realign county roads as necessary for proper intersection alignment with SR-20, construct new drainage systems, including the Nevada Irrigation Ditch between post miles 20.84-20.91, widening highway shoulders, installing highway signing and striping, and adding right and left turn pockets at Smartsville Rd.</p>	NOD	
2015111047	<p>Braverman Drive Tentative Map Santee, City of Santee--San Diego</p> <p>The project is a 87-lot residential subdivision with 82 single family home lots and 5 open space bioretention lots on a 17.92-acre site. The density would be 4.6 dwelling units/acre. The one- and two-story residences would be 26 ft in height. Residential lots would range from 6,000 to 9,000 sf. The applicant proposes three floor plans ranging in size from 2,102 sf to 3,247 sf of living space. There would be three exterior design treatments (Spanish, cottage and craftsman). The model number and exterior finish type would be varied throughout the subdivision. Additionally the front setback is varied in accordance with the Santee Municipal Code to help provide a variety and diversity to the subdivision. Access to the site would be from Braverman Dr and Jeremy St. Five new public streets would provide internal vehicular and pedestrian circulation. One of these streets (St B) is a cul-de-sac. This configuration is designed to reduce the number of vehicle intersection in close proximity of the school.</p> <p>Each of the new public streets would have sidewalks on each side. There would be two new trail connections from the subdivision to the Walker Preserve Trail which is located immediately to the south. Pedestrian improvements to the east side of the project along Jeremy St are designed to help facilitate access to the Walker Preserve Trail as envisioned in the Trails Element of the General Plan. Architecturally enhanced trail markers are included.</p>	NOD

	<p>The Padre Dam Municipal Water District would provide water and sewer service to the project site. Grading to accommodate the proposed developed would involve approximately 35,300 cy of cut and 67,600 cy of fill. Thus, approximately 32,300 cy of fill material would be imported. Construction is expected to occur over approximately two years.</p>		
2015112008	<p>2014-2023 Housing Element Update Ceres, City of Modesto--Stanislaus</p> <p>The 2014-2023 Housing Element is an update to the City's 2009-2014 Housing Element prepared and adopted in 2012. The 2014-2023 Housing element has been prepared in accordance with Sections 65580 through 65589 of the California Government Code, and it addresses State Law requirements and statutory regulations.</p>	NOD	
2015121046	<p>Valley Sanitary District Master Plan Update Valley Sanitary District Indio--Riverside</p> <p>The proposed project would implement numerous improvements on the existing VSD site to expand treatment capacity of the current facility to meet demand expected by build out of the service which is anticipated by 2050. The project also includes decommissioning three existing biological treatment ponds covering approximately 23 at the southern end of the VSD property.</p>	NOD	
2015121056	<p>Mission Hills Pressure Zone Infrastructure Improvements Project Coachella Valley Water District --Riverside</p> <p>The Mission Hills Pressure Zone Infrastructure Improvement Project consists of constructing three 6.5 million gallon potable water reservoirs located on a 10 acre site, on a portion of APN 648-030-016 (a 171.02 acre parcel owned by the US Bureau of Land Management) at the northeast corner of Rio Del Sol Road and Vista Chino Drive in the unincorporated community of Thousand Palms, Riverside County.</p> <p>A water pipeline will be constructed from the reservoir site south along Rio Del Sol Road to Varner Road, west to a private easement, south across I-10 and the Union Pacific Railroad, along a small section of Ramon Rd to Bob Hope Dr, then south to an existing 18-in pipeline just south of Dinah Shore Dr. The pipeline will be placed within the rights of way of all roadways and easements listed above. Where the pipeline passes under I-10 and the UPRR tracks, pipeline installation will be accomplished using the "jack and bore" method. Immediately south of I-10, the pipeline will also be jack and bored beneath an approximate 100 ft wide strip of tribal land that is part of the Agua Caliente Band of Cahuilla Indians reservation. The total pipeline length will be approximately 22,000 lf and temporarily disturb approximately 6.54 acres of lands/right of way along the pipeline alignments, based on an average width of 15 ft caused by construction vehicles, equipment, soil storage piles and trenches along the pipeline alignments.</p>	NOD

2016028001	<p>Sacramento River Geotechnical Investigation Project (Lake or Streambed Alteration Agreement No. 1600-2015-0462-R1)</p> <p>Fish & Wildlife #1 Red Bluff--Tehama</p> <p>The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2015-0462-R1, pursuant to Section 1602 of the Fish and Game Code to California Department of Transportation.</p> <p>The project designed to acquire information on the physical properties of the rock and sediments of the Sacramento River bed channel along the north and south bound bridges of I-5. Approximately 18 bore holes will be drilled or hammered to a depth of approximately 150-200 feet using ad rill of 4 inches in diameter within a casing of 6 inches in diameter. Twelve of the 18 borings will be within the Ordinary High Water Mark (OHWM) and six will be on the banks outside the OHWM. Boring activities are planned to occur between Jan. 1, 2016 and March 31, 2016 (preferred work window) or June 1 to July 1 as a secondary backup work window. Each bore hole is expected to take two to three days to complete. Boring in the river will be performed by equipment mounted on a barge or other floating platform which will be anchored to the river bed. Boring outside the OHWM will be performed using truck mounted drilling equipment.</p>	NOE	
2016028002	<p>Reeds Creek Road and Pine Creek Bridge Replacement (Lake or Streambed Alteration Agreement No. 1600-2015-0425-R1)</p> <p>Fish & Wildlife #1 --Tehama</p> <p>The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement Number 1600-2015-0425-R1, pursuant to Section 1602 of the Fish and Game Code to Tehama County Public Works.</p> <p>The project is limited to the replacement of the existing Reeds Creek Road Bridge over Pine Creek with a new bridge in the same location.</p> <p>The new two-lane bridge will be approximately 90-feet long by 40-feet wide, and will be supported by two piers within the streambed. Each pier will be supported by four piles, each 15-inch by 15-inch and driven into the substrata to refusal. The abutment footings will be a minimum of 1-foot below the existing stream channel. Abutments and piers will be armored with rock slope protection to prevent scour. Replacing the structure in place will require a temporary in-stream detour while the bridge is under construction. A 20-foot wide detour, allowing two lanes, will be located upstream of the existing structure. The fill used for the detour will be clean gravel; no cut of the stream banks will occur. Three 24-inch culverts will be installed within the temporary detour, work within the bed and bank of Pine Creek is expected to occur between June 15 and October 15.</p>	NOE

2016028003	BRT Expansion - MLK Corridor and Crosstown Miner Corridor San Joaquin Regional Transit District Stockton--San Joaquin RTD is pursuing the construction of two new BRT corridors, the MLK Corridor and the Crosstown Miner Corridor, for the purpose of providing an enhanced transit service for residents in disadvantaged communities in Stockton.	NOE	
2016028004	Allen Myers Drainage Pump Project (Streambed Alteration Agreement No. 1600-2015-0184-R2) Fish & Wildlife #2 --Colusa The California Department of Fish and Wildlife has executed Streambed Alteration Agreement number 1600-2015-0184-R2, pursuant to Section 1602 of the Fish and Game Code to Allen Myers. The project consists of the installation of new 118 (ft.) long, 18-inch (in) steel epoxy coated pump discharge pipe approximately 6-inch higher on the levee than the existing culvert. The new steel pipe will convey water from a lift pump within the retention ditch to Freshwater Creek. The project will also include the installation of an 18-in positive closure device and siphon breaker. A 17-ft long section of the steel pipe will convey water in the existing concrete structure above the ordinary high water mark on the bank of Freshwater Creek. Once installed water from the steel pipe will discharge into the existing concrete water structure located within the Creek; therefore erosion of the creek banks will not occur. Approximately 30 cubic yards of native fill on the level will be disturbed in order to install the new culvert pipe. After the pipe is installed, all disturbed soil including the banks of Freshwater Creek will be compacted to the Department of Water Resources levee compaction standards using a vibratory plate compactor. The existing 24-in culvert pipe within the levee will continue to act as a gravity fed drain.	NOE	
2016028005	Templeton CSD Headworks Improvements Templeton Community Services District --San Luis Obispo Replace manual bar screen with automatic bar screen, concrete channel, wash slab, washer/compactor and controller.	NOE	
2016028006	Pressley Road Culvert Replacement Project Fish & Wildlife #3 --Solano The project is limited to the replacement of a failing 48-inch diameter corrugated metal pipe (CMP) culvert under Pressley Road with an approximately 70-foot-long, 54-inch diameter polyethylene pipe culvert. Using an excavator operating from the roadway, the Permittee will remove the existing asphalt, road base and culvert. The new culvert will then be put in place and bedded in concrete. The existing stacked sack concrete headwall will be removed and replaced with 24-inch minus engineer's rock; larger rocks will be used in the area of the culvert headwalls and smaller rock used for slope protection. Approximately 2.7 cubic yards of rock slope protection (RSP) will be placed at the downstream end of the culvert. Issuance of a Streambed Alteration Agreement Number 1600-2015-0160-R3 is pursuant to Fish and Game Code Section 1602.	NOE

2016028007	Amendment of Zoning Code No. 431 El Cajon, City of El Cajon--San Diego Prohibition of marijuana dispensaries, and any related manufacturing, storage, cultivation, and delivery operations anywhere in the City. This action is designed to ensure the use of land within the City does not negatively impact surrounding areas, and to ensure a healthy and safe community.	NOE	
2016028008	El Cajon Mercedes-Benz Specific Plan No. 528 & Zone Reclassification No. 2312 El Cajon, City of El Cajon--San Diego Project includes the rezoning of a majority of the subject site from the M (Manufacturing) to the C-M (Heavy Commercial/ Light Industrial) zone, and a new automobile dealership by specific plan.	NOE	
2016028009	Neel Park Playground and Dog Park Project Ceres, City of Ceres--Stanislaus The City of Ceres purposes to construct playground and dog park improvements within the existing Neel Park consistent with the City of Ceres Park and Recreation Master Plan.	NOE	
2016028010	Right of Entry Permit to Bluewater Marine and Dock Specialties, Inc. for Staging and Parking for the Construction and Replacement of Docks San Diego Unified Port District San Diego--San Diego The proposed project is a Right of Entry Permit (ROE) to Bluewater Marine and Dock Specialties, Inc. (Permittee) to enter properly located at the southwest corner of Anchorage Lane and Shelter Island drive in the City of San Diego. The land (Parcel No. 1) and water (Parcel No. 2) area proposed for use under this ROE would be used by the Permittee and the Permittee's authorized agent(s) and contractors(s) for the purpose pf providing staging and parking for the construction and replacement of docks at Humphrey's Half Moon Inn & Suites Marina, as well as ingress and egress in support of those activities. Parcel No. 1 occupies approximately 4,786 square feet of land area, including 11 metered parking spaces, in the southwest portion of an existing 60-space metered parking lot. Parcel No. 1 would be used for worker parking and the staging of equipment and materials, including, but not limited to, docks and a small crane. Parcel No. 2 occupies approximately 251 sf of water area adjacent to Parcel No. 1. An approximately 8-foot-wide by 30-foot-long floating dock would be temporarily anchored within Parcel No.2, which would provide a stable platform for workers to use during the transfer of docks from the land to the water and form the water to the land. The Permittee would be responsible for compliance with all laws and regulations associated with the activities on or in connection with the above-described premises, including hazards and hazardous materials, storm water, and water quality.	NOE	
2016028011	San Diego Yacht Club Wood Deck Repair Project San Diego Unified Port District San Diego--San Diego The proposed project involves the repair and replacement of a portion of the existing wood deck located at the San Diego Yacht Club (SDYC) in the City of San Diego. The existing wood deck has two levels, an upper level deck and lower level deck that are located on the southwestern-portion of the SDYC leasehold.	NOE

2016021011	Red Top Conveyance Project Water Year 2016-2026 Transfer and Exchange Central California Irrigation District --Fresno, Madera Note: Joint Document IS/EA The proposed project will convey the transferred and/or exchanged surface water from Central California Irrigation District's Poso Canal across the San Joaquin River (SJR) to areas in Western Madera County. The water will be conveyed to farmers on the eastside of the river and to future and existing grower recharge basins through existing pipeline and turnouts. The Project consists of a SJR crossing described as the Red Top Pipeline crossing. The pipeline will connect a new turnout at the Paso Canal, to existing pump stand on the other side of the SJR. The connecting pipeline will be approx. 452 feet in length and will be either be placed across the river using a jack and bore technique, or placed across the river using an open cut trench.	JD	03/02/2016
2016021006	Zone Change No. 443; Agricultural PReserve Removal No. 121; Tentative Tract No. 18979 Redlands, City of Redlands--San Bernardino The proposed project concerns a rezoning of 32.28 acres from A-1 (Agricultural) District to R-E (Residential Estate) District for consistency with the Redlands General Plan, a removal of 22.88 acres of the site from the City's agricultural preserve, and a subdivision of the site into fifty-five (55) single family residential lots and one lettered lot (Tentative Tract 18979). The site is located 900 feet south of Redlands Municipal Airport, between San Bernardino Ave. and Pioneer Ave., approx. 650 feet east of Judson Street. The southerly two-thirds of the site is within Compatibility Zone C of the Redlands Municipal Airport Land Use Compatibility Plan, which permits 0 to 6 dwelling units per acre, and the northerly 300 feet of the site is within Compatibility Zone B-2, which is 8.89 acres and proposed to be a citrus grove and detention basin.	MND	03/02/2016
2016021007	Public Storage and Warehouse Huntington Park, City of Huntington Park--Los Angeles The project will consist of two new concrete tilt-up buildings within a 4.43-acre (193,205 sq. ft.) site located along the western side of Alameda Street. The two buildings includes a single story 51,000 sq. ft. warehouse with office space and mezzanine and a three-story 194,715 sq. ft. Public Storage building. The warehouse will be located on a 90,675 sq. ft. parcel in the northern portion of the property. A total of 55 parking stalls and five loading docks will be provided. The three story Public Storage building will be constructed on 102,530 sq. ft. parcel in the southern portion of the property. A total of 30 parking stalls will be provided for the Public Storage. Access to the entire project will be provided two driveway connections along the west side of Alameda Street. A total of 6,893 sq. ft. will consist of landscaping.	MND	03/02/2016

1995062022	Clinton Keith Road Extension Project Riverside County Murrieta--Riverside CDFW has executed streambed alteration agreement no. 1600-2014-0234-R6 Revision 3, pursuant to section 1602 of the fish and game code to the project applicant, the Riverside County Transportation Department, as represented by Mr. Russell Williams. The project is limited to the impacts to several unnamed ephemera streams and Warm Springs Creek associated with the expansion of Clinton Keith Road from Whitewood Rd to Trois Valley St. The extended section would be six lanes wide and would include a three span bridge over Warm Springs Creek with a total length of approximately 360 ft, and a 114-ft wide, 90-ft long double arch wildlife overcrossing. Infrastructure associated with the expanded road will be installed, including signal lights, culverts, gutters, storm drains, and detention basins. This project is part of a larger effort to extend Clinton Keith Road from Antelope Rd to State Route 79.	NOD	
2007021136	San Benito County Water District Recycled Water Facility Phase I Demonstration Project San Benito County Water District Hollister--San Benito The project involves modifying the existing Pond #2 of the seasonal storage reservoir at the City of Hollister Domestic Waste Reclamation Facility (DWRf), the construction of which was analyzed in the 2006 EIR. This storage area would consist of a 9.02 AF, lined interior pond system with associated pipelines constructed within the existing, disturbed Pond #2 (Project Modifications). New pipelines and diversion structures would enable the control of water into and out of the proposed 9.02-AF pond, and would include approximately 320 ft of 20-in pump return pipeline and a gate, as well as an approximately 120-ft long, 18-in overflow pipeline. In addition, survey crest monuments, and a reservoir level gauge would be installed to monitor any settlement of the new embankments and water pressures/levels. Further, perimeter chain link fence, and bird distraction system consisting of netting or wire with reflective tape will be installed.	NOD	
2013101075	San Joaquin River Bridge Scour and Seismic Retrofit Caltrans #6 Fresno--Fresno, Madera CDFW has executed streambed alteration agreement no. 1600-2015-0028-R4, pursuant to section 1602 of the fish and game code to the project applicant, Caltrans. The project involves upgrading the two bridges on the old SR 41 crossing the San Joaquin River. The southern of the pair (bridge #42-0112), the San Joaquin River Bridge also known as Lane's Bridge, will require scour and seismic retrofit, and also an upgrade to the bridge rails. The northern of the pair (bridge 41-0040), the	NOD

<u>Documents Received on Tuesday, February 02, 2016</u>			
2016028025	<p>Soda Springs Crew Training Forestry and Fire Protection, Department of --Napa</p> <p>The California Department of Forestry and Fire Protection (Cal FIRE) is planning inmate hand crew training exercise on private property to the northeast of the town of Napa, CA. Hand crews will be trained in proper brush cutting, piling, and burning techniques, as well as creating fire line using hand tools. The continuous training of these crews furthers the mission of CAL FIRE, as the crews are a major contributor to fire suppression efforts in the state. This project will allow years of training for Delta Conservation Camp hand crews. The project area is 89 acres and consist of a brush-covered hilltop and oak woodland on private property that is easily accessed using existing dirt roads. Vegetation on the hilltop is dominated by chamise (<i>Adenostoma fasciculatum</i>) with scattered manzanita (<i>Arctostaphylos</i> spp.), coyote brush (<i>Baccharis pilularis</i>), interior live oak (<i>Quercus wislizenii</i>) and California bay laurel (<i>Umbellularia californica</i>). The hilltop is undulating in nature, with moderate slopes (average 25%) and valleys throughout. The oak forest is situated south of the chamise-covered hilltop and is dominated by interior live oak with native grasses and scattered brush in the understory. Crew training exercises will mainly occur in the chamise-dominated brush field. Brush will be cut and piled for disposal by burning. Chamise will be the targeted species for removal, and scattered manzanitas and interior live oaks will be retained where possible for aesthetics and to reduce erosion potential. Although much of the project area is shielded from view from the valley below, care will be taken to cut and pile brush in a mosaic pattern rather than straight strips in order to minimize the visual effect of the treatment. Within the oak woodland portion of the project area, isolated areas of dense brush and ladder fuels will but cut, piled and burned. Brush will be the target vegetation for removal within the oak woodland areas; however, if it is determined that small trees should be removed for fuel reduction, only trees less than 6" diameter will be cut. If repeated use of dirt roads within the project area by crew buses degrades the roads, they will be repaired using a bulldozer or grader as determined to be necessary. Road maintenance will be confined to existing roads within the project area.</p>	NOE	
2016028026	<p>Cressman Fuel Break Expansion Forestry and Fire Protection, Department of --Fresno</p> <p>This existing shaded fuel break is located on Cressman Road at the 5,000' level of the southern Sierra Nevada of eastern Fresno County near the community of Pine Ridge. The original projects 168 acres shall have maintenance performed. 72 additional acres shall have a majority of the understory brush removed and small diameter trees thinned to eliminate existing ladder fuels bringing the fuel breaks total acres to 240. The projects mixed conifer over story consisting of 90% ponderosa pine has sustained between 50%-100% mortality and shall be removed to ensure fuel break vitality. Maintenance of the existing 168 acres and installation of the new 72 acres shall be performed utilizing pile creation for burning by hand and by tractor, and mastication. Dead trees shall be felled. Slash and tree boles small enough in diameter or dry enough for immediate burning shall be pile burned or masticated. Tree boles too large or too green for immediate pile burning shall be decked, allowed to cure for approximately 1 year, and burned.</p>	NOE

2003112039	Tule Red Tidal Restoration Project Fish & Game #3 Suisun City, Fairfield--Solano, Contra Costa, San Joaquin Note: Review Per Lead In accordance with the CEQA, the State and Federal Contractors Water Agency is proposing to prepare an addendum to the Suisun Marsh Habitat Management, Preservation, and Restoration Plan EIS/EIR to implement the Tule Red Tidal Restoration Project (proposed project). The proposed project would convert approximately 420 acres of existing managed wetlands to tidal habitat to directly benefit federal and state-listed Delta smelt, longfin smelt, and salmonids. The proposed project would introduce full, daily tidal exchange to an existing managed marsh duck club owned by Westervelt Ecological Services and to a portion of a Grizzly Island Wildlife Area which is owned and operated by the CDFW.	ADM	03/04/2016
2011111078	Animal Confinement Facilities Plan and Ordinance Amendment (General Plan Amendment No. GPA 10-002) Tulare County Tulare--Tulare The Program/Project includes an amendment to the Environmental Resources Management Element (Chapter 8) of the Tulare County General Plan to update and replace the 2000 ACFP with this Animal Confinement Facilities Plan (ACFP). The ACFP is to update the way in which dairies and other bovine facilities are regulated by the County of Tulare to assure coordination and alignment with the procedures of other regulatory agencies. The Program/Project also includes a draft Dairy CAP intended to reduce GHG emissions from dairy and other bovine facilities.	EIR	03/18/2016
2015121026	Camarillo Hills Drain Cap Camarillo, City of Camarillo--Ventura The City of Camarillo is proposing to cover an open drainage facility known as the Camarillo hills Drain. The project is located on a vacant property owned by the City, south of United States Highway 101 (U.S. 101), east of Las Posas Road, and north and west of Ventura Blvd. The project would include constructing two separate pre-cast concrete box conduits. A 9-foot wide by 8-foot high reinforced concrete box (RCB) would be constructed to carry the Crestview Drain or approx. 1,000 feet, and a 24-foot wide by 8-foot high RCB would be constructed to carry the Camarillo Hills Drain for approx. 1,020 linear feet. 	and to install horizontal drains in the vicinity of the bridge. The existing Capell Bridge will be demolished as part of the project. The new bridge structure will be constructed at the same location as the existing bridge.		
2016022012	Antioch Water Treatment Plant Disinfection Improvements (P.W. 246-29) Antioch, City of Antioch--Contra Costa Replace the existing gaseous chlorine and anhydrous ammonia storage and feed systems with a liquid sodium hypochlorite and aqua ammonia storage and feed systems. The objectives of the project include; 1) mitigate the risks to community, operating staff and environment associated with accidental spills or leaks of gaseous chlorine and ammonia during the transportation and application of these chemicals in the drinking water treatment process; 2) Improve the reliability of the disinfection systems; and 3) Reduce the costs to permit and maintain the chlorine gas and anhydrous ammonia systems. The Project work activities would occur within the Antioch WTP site with the majority of facilities located within existing buildings and existing outdoor chemical containment structures. The anticipated duration of construction is 13 to 15 months.	MND	03/03/2016
2013091056	Downtown Specific Plan Santa Monica, City of Santa Monica--Los Angeles Note: Review Per Lead	NOP	04/04/2016
	The project is the preparation and adoption of a Downtown Specific Plan for the Downtown District. Because portions of the Downtown District are within the Coastal Zone, the project also includes a Coastal Plan Amendment to ensure consistency between the Coastal Land Use Plan and the Downtown Specific Plan. The Plan would replace the existing Bayside Specific Plan and any currently applicable standards from the 1984 General Plan. The Project will establish standards, strategies, and policies guided by the following concepts established in the LUCE and through the project's community outreach.		
2016021013	1020 S. Figueroa Street Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project is a mixed-use residential, hotel, and commercial development located at 1020 S. Figueroa Street on an approximately 2.7-acre 'L'-shaped site bounded by S. Figueroa Street to the west, S. Flower Street to the east, Olympic Boulevard to the north, and 11th St to the south within Downtown Los Angeles. The project site is currently developed with the nine-story Luxe City Center Hotel (Luxe Hotel) and surrounding surface parking lots, which would be removed to support the Project.	NOP	03/03/2016
2016022011	PA-0500467-Six Year Time Extension for a previously approved Major Subdivision San Joaquin County --San Joaquin A six-year Time Extension application for an approved Major Subdivision to subdivide a 39.21 acre parcel into a 34 lot subdivision, 33 one acre parcels and a designed remainder to be used for a storm drainage pond. The project site is located on the east side of N. Lower Sacramento Road, 1,200 feet south of Liberty Road, north of Lodi.	Neg	03/03/2016

2003052070	<p>AC Transit East Bay Bus Rapid Transit Project Alameda Contra Costa Transit District Oakland, San Leandro--Alameda</p> <p>AC Transit Board approved project on April 25,2012. As stated in original NOD filed April 2012, project will provide high level BRT service and related infrastructure along a 14.38-mile corridor connecting Berkeley-Oakland-San Leandro in Alameda County, subsequently modified to 9.5 miles from Downtown Oakland to the San Leandro BART Station. A 2014 amendment to NOD reflected addition of 2 BRT stations to project, relocation of several stations, and other design refinements. This NOD amendment reflects refinements since 2014, including additional minor stations relocations, a BRT bus layover and operator rest facility in central Oakland, and other minor modifications.</p>	NOD	
2007072023	<p>Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus</p> <p>The project consists of a variance to allow a 90-ft high monopole that will accommodate four sectors with three antennas per sector, totaling 12 antennas, 12 remote radio units (RRU's), and two surge suppressors, and associated ancillary equipment. The monopole is proposed to accommodate future collocation by other carriers. The City's Wireless Communication Ordinance allows new, non-camouflaged, monopole facilities in Industrial Zones and Business Parks at a max height of 70-ft as an administrative approval; however, the applicant is requesting an additional ht of 20 ft. The site is on the east side of Claus Rd, north of W. Briggsmore Ave.</p>	NOD	
2015101070	<p>Third, Fourth, and I Avenue Storm Drain Rehabilitation Project Coronado, City of Coronado--San Diego</p> <p>The project proposes replacement of an existing 24-in storm drain outfall with a new 48-in storm drain outfall at the same location. The new outfall would carry both the drainage from the existing outfall as well as drainage from a new storm system along "I" Avenue intended to mitigate the existing flooding problems at the Fourth Ave/Alameda Blvd intersection. Inlets would be installed on the north and south side of Fourth Ave, on the east side of its intersection with "I" Ave. The new storm drain would run the length of "I" Ave from Fourth St to the San Diego Bay and would intercept the existing 24-in storm drain conveying flows from First St just prior to the existing point of discharge of the 24-in pipe. To handle the expanded peak flow capacity, the outlet to the Bay would be upsized from 24 in to 48 in. A low flow diverter would be installed within the storm drain system that would divert low-flows to the sanitary sewer system and not out the storm drain outfall. Additionally, energy dissipation is proposed at the outlet of the pipe to reduce potential displacement of sands into existing eelgrass beds. This would result in an additional 134 sf of riprap beyond the limit of the existing revetment slope. Placement of the dissipater apron would be matched to a similar area of removal of existing non-functioning rubble revetment to the north of the pipe outlet to ensure a no net expansion of rock placed on the beach. The rubble to be removed would be from the area adjacent to the Bay to provide a potential area for future eelgrass habitat.</p>	NOD

The CIP is the long-range plan for all individual capital improvement projects and funding sources. The CIP provides strategic direction for capital projects over a current year, 5, 10, and 20 year horizon. It is used as a planning tool, and updated annually. The TIM Fee Program is used to fund needed improvements including roadway widening, new roadways, roadway intersection improvements, and transit to deal with future growth during a defined time period (currently based on 20 years of growth). The TIM Fee funded improvements are a part of the CIP and the proposed TIM Fee Update would provide funding for traffic improvements necessary for all roadways in the county to operate at an acceptable Level of Service (LOS). 2016022019	901 Larch Aave Cosntruction of One (1) Single-Family Residence South San Francisco, City of South San Francisco--San Mateo The project proposes an approximate 2,500 sq. ft. residence consisting of 2,038 sq. ft. of living area and an approx. 460 sq. ft. garage on a vacant lot in a built out residential neighborhood known as "Sterling Terrace" which was constructed in the 1950s.	Neg	03/07/2016
2016022022	Lazy Susan Ranch Vineyard Conversion #P14-00381-ECPA Napa County Calistoga--Napa The project includes maintenance of erosion control measures associated with development of +/- 16.85 acres of new vineyard (+/- 13.72 net vine acres). The site plan designates development on topography that ranges from gentle to moderately sloping lands (typical slopes from 7% to 25%: average 16%), at elevations between approx. 600 and 1,160 feet above mean sea level.	Neg	03/07/2016
2013121007	Temecula Valley Hospital Helistop Major Modification (PA13-0141) Temecula, City of Temecula--Riverside The proposed project would relocate the previously approved hospital helistop to two new locations, an interim ground level location that would be removed when the permanent location is constructed on the roof of the future hospital tower, during a later phase of hospital development. The previously approved helistop location would be developed with a one-story 5,000 sf storage building that would provide storage space for non-hazardous hospital materials such as disaster supplies, stock for the hospital, and linens. With the addition of the proposed 5,000 sf storage building, the total sf of hospital facility would increase to 571,160 sf (from the 566,160 sf facility that was approved in 2010).	SIR	03/21/2016
2014041001	Watson Corporate Center Chino, City of Chino--San Bernardino The Project consists of a General Plan Amendment (PL14-024), Specific Plan Amendment (PL14-0205), Vesting Tentative Map (PL14-1001), Master Site Approval (PL14-0203), Site Approval (PL14-1002), and Special Conditional Use Permit (PL14-1020). PL14-024M changes the general plan land use designation	NOD

2014051063	<p>for the eastern portion of the project site from "Agriculture" to "Light Industrial." PL14-0205 amends The Preserve Specific Plan to: 1) change the specific plan land use designation for the eastern portion of the project site from "Agriculture" to "Light Industrial;" 2) changes the max floor area ratio for the "Light Industrial" land use to 0.47; and 3) eliminates an un-needed equestrian trail segment. PL14-1001 consolidates the project site's 22 parcels into 8 parcels. PL14-0203 provides a development plan for an industrial park containing 8 buildings with a combined total of 3,872,000 sf of floor area. PL14-1002 provides for the specific development of two buildings included in PL14-0203; one building contains 463,000 sf of floor area and the other building contains 750,000 sf of floor area. PL14-1020 allows the construction of buildings larger than 50,000 sf on the project site.</p> <p>Avenue 66 Grade Separation Project Riverside County --Riverside</p> <p>The County of Riverside proposes to connect SR-195 to Ave 66 with a new railroad grade separation bypass south of the existing Ave 66 alignment. The new bypass would begin approximately 1,100 feet east of SR-86 (2,600 feet west of Lincoln Street) and crosses Lincoln Street approximately 1,900 ft south of SR 195. The new bypass then would continue east from Lincoln St going over SR 111, the UPRR railroad corridor, and Hammond Road with a bridge. The road would extend further to the east and connect to the existing Ave 66 at Home Ave. The proposed bypass consists of approximately 1.7 mi of two lane (1 lane each direction) roadway and a bridge with sufficient width to allow an ultimate four lane cross section. The bridge would be approximately 750 ft long, 94 ft wide, and striped for 2 lanes. Lincoln St would no longer connect to SR 195, but would become a cul-de-sac, providing access to adjoining properties. The project would include the construction of a bridge or culvert to span the Lincoln St Stormwater Channel's ultimate condition per the completed Mecca/North Shore Stormwater Master Plan. Existing utilities, including electricity, phone, gas, and irrigation would be relocated or protected in place. Current access from adjacent properties would be maintained or modified. The project does not preclude affected properties from having access similar to current access. Modifications to 12 in and 18 in sewer force mains located at Ave 66/Lincoln St intersection are included. A proposed 6 in sewer force main along the eastern roadway shoulder of Lincoln St from Ave 66 towards Ave 68, within the project area, is included. A 30 inch domestic water main within the project area between SR 195/Ave 66 to Ave 66/Home Ave in Mecca is also included. Right of way would be acquired along the project alignment. Partial acquisitions are anticipated at 12 parcels. Temporary construction easements would be needed throughout the project as well. The project would allow traffic to use Ave 66 and the 4th St crossing during and after construction.</p>	NOD	
2014122049	<p>Wastewater Treatment Plant Upgrade Project Colusa, City of Colusa--Colusa</p> <p>The City of Colusa filed a wastewater change petition seeking to eliminate its current treated wastewater discharged from the City's Wastewater Treatment Plant (WWTP) to an Unnamed Stream tributary to Powell Slough. The City proposes to divert up to 0.41 million gallons per day of treated wastewater to irrigate nearby farmland during irrigation season of April 1 to October 31. During non-irrigation season, the treated wastewater effluent will be either collected to the City's storage</p>	NOD

	facilities or discharged to Powell Slough when the storage facilities are full. The proposed place of use will be 84 acres net within gross of 185 acres of farmland near the WWTP.		
2015062061	Penitencia Deliver Main and Penitencia Force Main Seismic Retrofit Project Santa Clara Valley Water District San Jose--Santa Clara CDFW has executed lake and streambed alteration agreement no. 1600-2015-0394-R3, pursuant to section 1602 of the fish and game code to the project applicant, Katherine Owen/Santa Clara Valley Water District.	NOD	
	The purpose of the project is to perform a seismic retrofit of the Penitencia Delivery Main (PDM), the Penitencia Force Main (PFM), the South Bay Aqueduct (SBA), and the Finished Water Meter Vault (Meter Vault) to accommodate the creep and potentially extensive seismically-induced movements of the active Penitencia Creek Landslide over a 50 year design life. To complete the work, the raw water PDM (including a portion of the Central Pipeline), the treated water PFM, and the raw water SBA will be drained to the City of San Jose's storm drain system prior to starting construction. The storm drain system enters Sierra Creek at Zion Lane. Dewatering will be limited to a maximum discharge of 3 cubic feet per second.		
2015101105	Fresno Priority 2 Regional Transmission Mains Fresno, City of Fresno--Fresno The proposed project would include the installation of potable water distributions pipelines in the City of Fresno's Southwest Quadrant. The proposed project would convey treated surface water from the Southeast Surface Water Treatment Facility for urban use as proposed as part of the City's Metropolitan Water Resource Management Plan Update. The Supplemental MND builds on the general analysis contained in the Metropolitan Water Resources Management Plan Update EIR, and presents a project-specific CEQA analysis for the proposed project.	NOD	
2015112035	West Sacramento George Kristoff Water Treatment Plant: Gaseous Cl to Liquid Hypochlorite Conversion Project West Sacramento, City of West Sacramento--Yolo The project would replace an existing gaseous chlorine based water disinfection system with a new liquid hypochlorite based disinfection system. Operations would be ongoing, to support existing municipal water supply services. The proposed system would require limited on-ground improvements. All proposed updates and project activities would be located within the footprint of the existing George Kristoff Water Treatment Plan, which is owned and operated by the City of West Sacramento.	NOD	
2015122044	Los Gatos HighSchool Classroom and Music Buildings Los Gatos-Saratoga Joint Union High School District Los Gatos--Santa Clara The LGSUHSD proposes to construct a classroom and music building on the portion of the Los Gatos High School (LGHS) campus that is currently developed in the maintenance yard, paved parking, and a portable classroom building. The proposed classroom building would be approximately 18,500 sf in size and two stories tall, with a max height of 35 ft. The classroom building would contain 10 classrooms, shared-use space, and ancillary uses such as restrooms. The	NOD

2015122046	<p>proposed music building would be approximately 14,500 sf in size and one story tall with a max height of approximately 30 ft. The music building would contain numerous rooms for practice, rehearsal, and instrument storage, and ancillary uses such as restroom and equipment rooms. Prior to construction of the proposed classroom and music buildings, the existing maintenance yard would be demolished and the portable classroom building would be removed from the campus.</p> <p>Laguna Creek Trail-South Camden Spurt Project Elk Grove, City of Elk Grove--Sacramento</p> <p>The City of Elk Grove proposes to construct an approx. 0.5 mile paved asphalt multi-use trail from the north end of Camden Park south to Bond Road with a combined bridge/weir crossing at Camden Lake, as an extension to the Laguna Creek Trail. The northern end of the proposed project would connect to the western end of the Laguna Creek Trail. The proposed Project includes at least two slightly wider areas for park benches, trash receptacles, dog waste bag containers, and biologic educational signs. The majority of the proposed Project will be constructed within the 100-year floodplain. The proposed Project is consistent with the Elk Grove General Plan and the Elk Grove Bicycle, Pedestrian, and Trails Master Plan. Each of these plans identifies the need for an off-street multi-use trail system providing connections throughout the City and the Sacramento region. The Project would close a gap in the overall Laguna Creek Trail system, provide improved access between residential and commercial areas and schools, and present recreational opportunities and an alternative method of transportation for City residents.</p>	NOD	
2015122047	<p>Laguna Creek Trial-North Camden Spur Project Elk Grove, City of Elk Grove--Sacramento</p> <p>The City of Elk Grove proposes to extend a multi-use trail from the west end of the existing Laguna Creek Trail at the northern tip of Camden Park to MacDonald Park via Beckington Drive. The proposed project would connect the two longest segments of Laguna Creek Trail from the existing path at the northern tip of Camden Park for approximately 700 ft of Class 1 facility to south of White Peacock Court/Beckington Dr, and from White Peacock Court/Beckington Dr for approximately 200 ft of Class 1 facility to the existing path at MacDonald Park. Approximately 115 ft of existing Class 1 facility between homes facing White Peacock Court will require minor improvements and striping, and the approximate 1,050-ft Class 2 facility on Beckington Dr will require only striping. The proposed project will be constructed within existing public right of ways and street. The project is consistent with the EG General Plan, the EG Bicycle and Pedestrian Master Plan, and the EG Trails Master Plan. Each of these plans identifies the need for an off-street multiuse trail system providing connections throughout the City and the Sacramento region.</p>	NOD

	each side of the property line or the orchard shall be removed.		
2016022027	TPM13-0006 (Deadmond) Butte County Chico--Butte The project is a Tentative Parcel Map to divide a 4.72-acre property into four lots (1 at 1.72 acres and 3 at 1.0 acre). Proposed lot 1 (with the existing residence will be accessed by a public road, Nord Avenue. Proposed lots 2, 3, & 4 will be served by the private cul-de-sac. The exciting and future residential uses would be served by individual septic systems and private wells. Pursuant to the requirements of Butte County Code §24-56.1 (Residential Setback from Orchards and Vineyards), the Dept. of Development Services in conjunction with the Agricultural Commissioner's Office is recommending a residential dwelling setback form adjacent active orchards of 60 feet from the northwest property line and 80 feet from the southeast property.	MND	03/08/2016
2016022029	Old 44 Drive at Oak Run Creek Bridge Replacement Project Shasta County --Shasta The project entails replacement of the existing bridge over Oak Run Creek on Old 44 Drive with a new bridge on the same alignment. The existing single-span, 82.6 foot long by 20 foot wide reinforced concrete deck/steel girder bridge would be replaced with a new single-span, 122-foot long by 32.33-foot wide reinforced concrete box girder bridge. The new bridge abutments would be located approx. 16 feet north and 28 feet south of the existing bridge abutments, which would be removed. It is anticipated that the bridge foundation would consist of driven steel H-piles and pile caps. The purpose of the project is to provide a safe stream crossing for the travelling public by replacing the structurally deficient bridge. The project is needed because the existing bridge, constructed in 1943, has nine-foot wide lanes and a damaged superstructure.	MND	03/08/2016
2016022030	Draft Remedial Action Plan for the Northeast Area of the Potrero Power Plant and a Portion of the Southeast Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland San Francisco--San Francisco The RAP proposes to remediate soils of the Project site that have been contaminated as a result of past industrial land uses. The Project site is located on the western shore of the SF Bay in a Waterfront commercial/industrial area of the City of San Francisco. The contaminants in the subsurface of the project site are primarily associated with fill material and former industrial operations, including a former manufactured bas plant and power plant activities.	MND	03/08/2016
2000111027	Supplemental Santa Fe Christian Schools Master Plan Update Solana Beach, City of Solana Beach--San Diego The proposed project would improve and modernize the operations of the private school campus. The proposed project would revise the existing configuration of buildings, reduce required grading, and improve outdoor usable space and parking. The school capacity would not be increased over the currently allowed 1,110 students and is expected to be maintained around 1,000 students similar to the existing conditions. The following is a summary of the major changes to the proposed project description compared to the project as addressed in the 2001 FEIR: - Buildout of the Master Plan Update would include 169,543 sf of total structural	NOP	03/08/2016

The proposed project will include 78 enclosed and 22 open storage spaces, a 20' pole sign, perimeter fencing and landscaping. The project site is located 5038 Tunson Road, north of the SR 219/Kiernan Ave., east of Carver and west of SR 108/McHenry Avenue. The Planning Commission will consider adoption of a CEQA Neg Dec for the project.</p>	Neg	03/14/2016
2000082139	<p>Civic Center Aquatics Complex Project Elk Grove, City of Elk Grove--Sacramento</p> <p>The Central Valley Regional Water Board is issuing a 401 Water Quality Certification for the subject Project. The Project consists of grading and filling for construction of 79 single family residential lots, roadways and landscape lots, and two parks. The project will permanently impact 0.01 acre/368 linear feet of waters of the US and permanently impact 2.01 acres/724 linear feet of waters of the State.</p>	NOD	
2002071062	<p>Santa Ana River Water Rights Applications for Supplemental Water Supply San Bernardino Valley Municipal Water District --San Bernardino, Riverside</p> <p>This document is prepared as Addendum No. 2 to a previously certified environmental document: the FEIR Santa Ana River Water Right Application for Supplemental Water Supply. San Bernardino Valley Municipal Water District re-designed a portion of the facilities subsequent to their approval to avoid power poles and sensitive riparian habitat of concern to CDFW, and it is these revised facilities that are the focus of the Addendum.</p> <p>The District seeks to add modified facilities to an operating water diversion recharge system that are needed to capture and recharge up to 80,000 afy of local stormwater, which is a primary water management strategy of the Upper Santa Ana River Watershed Integrated Regional Water Management Plan. The specific project components include the following new facilities: 1) New Water Conservation District Channel - return flow to existing WCD channel, 2) New Access Roads; and the following revised facilities: 1) Sandbox Diversion/Inlet Structure, 2) Sedimentation Basin, 3) Plunge Pool Pipeline, 4) Outlet Structure. The specific Project components summarized above are designed to assist the District to meet the aforementioned goals based on capture and recharge of high quality stormwater runoff in the upper portion of the Watershed during wet years, with a focus on the provision of sufficient conveyance facilities to take advantage of the highly variable flows in the Santa Ana characterized by periodic large floods and longer periods of low flows. In essence, the proposed project is a conjunctive use project that will store available stormwater flows in wet years within the Bunker Hill regional aquifer for later extraction for wells in dry years.</p>	NOD

2012032012	Lake Merritt Station Area Plan Oakland, City of Oakland--Alameda Proposal to construct a new 16 story residential building containing 126 units including approximately 3,000 square feet of ground floor retain on 14th Street, which would replace the existing surface parking lot.	NOD	
2013012079	Peninsula Corridor Electrification Project Peninsula Corridor Joint Powers Board San Jose--Santa Clara In 2015, the JPB certified the Final EIR for the PCEP. Since certification, the JPB has proposed one additional site location for PS7 (Variant C). PS7 Variant C would be located on a 0.11 acre site in San Jose on a small, triangular parcel of vacant land. This site is currently owned by UPRR. To access PS7, Variant C for construction and operation, the JPB would also acquire the parcel of land directly to the north on which there is an unnamed dirt path connecting to Almaden Rd. An Addendum that incorporates the mitigation measures from the Final EIR was prepared concludes the new PS7 location would not result in any new or substantially more severe environmental impacts that disclosed.	NOD	
2015101100	AWMA Bridge Closure South Orange County Wastewater Authority Laguna Niguel--Orange South Orange County Wastewater Authority proposes to close and remove the privately owned bridge that crosses Aliso Creek on AWMA Road near the intersection of Alicia Parkway and AWMA Road in the City of Laguna Niguel, Orange County, CA. The wooden bridge was originally constructed by Aliso Watershed Management Agency (AWMA, now SOCWA) in 1979 to allow workers access to the SOCWA Coastal Treatment Plant (CTP) located approximately three miles downstream and adjacent to Aliso Creek. The bridge was constructed by AWMA in an easement on what is now County property to provide temporary access to Alicia Parkway, which at the time was the only developed road in the area, until other permanent access was available for AWMA vehicles traveling to the CTP. Primary access to the CTP is now provided by other roads in the City of Aliso Viejo that connect with Aliso Creek (via Wood Canyon Drive and Knollwood Road). A structural evaluation of the AWMA Bridge determined that the bridge was nearing the end of its useful life and unable to continue to be safely used as an alternate access to the nearby park, schools, and other facilities in the area. Because permanent access is now available to the CTP from Aliso Creek Road and given the condition and safety concerns of the wooden bridge structure, SOCWA plans to permanently close and remove the AWMA Bridge.	NOD	
2015122057	PA-1500250 San Joaquin County Stockton--San Joaquin A Minor Subdivision application no. PA-1500250 of Joseph M. and Linda M. Martinez (c/o Monte K. Seibel) to subdivide a 15.2 acre parcel into four parcels and a designed remainder. Parcels One, Three, and Four to contain 2.0 acres each, Parcel Two to contain 2.5 acres, and the designated remainder parcel to contain 6.2 acres. This parcel is not under a Williamson Act contract. The Property is zoned R-R (Rural Residential) and the General Plan designation is R/R.	NOD

2015-16	<p>United Auburn Indian Community of the Auburn Rancheria of CA - APNs: 040-310-001-510 & 520 Bureau of Indian Affairs Auburn--Placer</p> <p>The Tribe's goal is to reclaim and maintain lands of the historic Auburn Rancheria. Conveyance of the subject parcel will restore federal status of a portion of the historic Auburn Rancheria, thereby reestablishing its traditional land base. Thus, the Tribe is requesting trust acquisition of the subject property in order to protect the land for future generations of its tribal members. Additionally, trust ownership of the property will allow the tribe to meet their goal of sovereign authority over the land, thus strengthening self-determination and self-governance.</p> <p>The subject property consists of two (2) parcels containing ~0.43 acres which are located at 10810 Indian Hill Road. The subject parcels include two structures and a small paved parking lot. The main building is used as a church (Crossroads Fellowship Assembly of God) and the smaller structure, a utility shed, is used as storage space for the church. The paved parking lot provides parking for ~11 vehicles, including one space designated for handicap parking. This property also includes a fenced lawn and a children's playground.</p> <p>The property has been used by tribal members as a place of worship since the early 20th century.</p>	BIA	03/10/2016

2007041080	Strand Ranch Integrated Banking Project Rosedale-Rio Bravo Water Storage District --Kern Irvine Ranch Water District has prepared Addendum No. 2 to the FEIR for the Strand Ranch Integrated Banking Project. The Final EIR included development of groundwater banking facilities on Strand Ranch for use by IRWD and Rosedale-Rio Bravo Water Storage District, the lead agency. Modifications which are part of Addendum No. 2 include elimination of the restriction of a combined recovery rate of 36 cubic feet per second from both onsite and offsite wells. The modifications would not change the annual extraction limit of 17,500 acre ft per year for IRWD. The modification would allow simultaneous operation of all wells onsite at Strand Ranch and the three offsite wells.	NOD	
2014072031	Stagecoach Road Low Water Crossing Replacement Project Calaveras County --Calaveras CDFW has executed streambed alteration agreement no. 1600-2015-0255-R2, pursuant to section 1602 of the fish and game code to the project applicant, Calaveras County (the Permittee) as represented by Mark Davis. The project includes the removal of the low water crossing and replacement with a new structure that will accommodate two 9-ft lanes with 2-ft shoulders. The new bridge will be a single span cast-in place, post-tensioned, concrete, voided slab approximately 70-ft long and 25.5-ft wide and will clear span Little Johns Creek. Removal of the existing low water crossing will be conducted by an excavator within the footprint of the project to avoid additional impacts to the creek and upland areas. Following removal, the area will be regraded to match the natural contours of the creek. Construction of the bridge will involve excavation and construction of concrete abutments supported on spread footings. Construction of the north abutment will result in 0.01 acres of permanent impact and 0.08 acres of temporary impacts to Little Johns Creek. Removal of the low water crossing will result in a net increase of 0.02 acres of natural streambed. Temporary falsework will be required, using the portion of Little Johns Creek that is disturbed by the low water crossing, to support the superstructure concrete until it reaches strength. Work within Little Johns Creek may require placement of temporary culverts to direct the flow water through the work area.	NOD	
2014081044	Balboa Marina West Newport Beach, City of Newport Beach--Orange The Balboa Marina West project is comprised of a landslide restaurant, expansion of the existing private marina and a new public transient dock. MND 2013-002 analyzed a proposal by the project applicants to reconfigure the arrangement of uses on the project site to establish a new public boat dock in an area of Newport Harbor that currently lacks a public dock, and to improve the private Balboa Marina including its water-side and land-side areas. As analyzed, the new public	NOD

	<p>boat dock would include a new gangway and approximately 12 public boat slips including eight new boat slips and four boat slips that would be relocated to the public dock from the existing private Balboa Marina. In the private Balboa Marina, 24 private boat slips accommodating a range of vessel sizes and a new gangway were proposed to be added.</p> <p>The MND analyzed a 19,400 sf marine commercial building with tuck under parking. The building was anticipated to house a restaurant with outdoor patio, marina restrooms and a yacht brokerage business displaced from the existing building that would be demolished. Following approval of the MND, the marine commercial building was reconfigured to eliminate the tuck-under parking and reduce the building height from approximately 35 ft to approximately 20 ft. The square footage was reduced by approximately 5,000 sf to 14,252 sf with 9,030 sf of new public area. A separate building housing private marina restrooms was included on the east of the project site near the marina gangways. The yacht brokerage business displaced from the existing building that would be demolished will be relocated to an adjacent commercial office building. A site development review was initiated to consider the project as revised and the city concluded that the MND adequately analyzed the project impacts and no additional environmental review was warranted.</p>		
2015121024	<p>Highgate Elementary School Panama-Buena Vista Union School District Bakersfield--Kern</p> <p>The Panama-Buena Vista Union School District is proposing to construct and operate Highgate Elementary School, a kindergarten through 6th grade elementary school within the incorporated limits of the City of Bakersfield in central Kern County, CA. The project would consist of approximately 13-acre site and accommodate up to 800 students and 100 faculty and staff. The campus would include +/- 30 classrooms, administrative and multi-purpose rooms, outdoor field areas, +/- 70 paved parking spaces for staff and visitors.</p>	NOD

2016028121	Issuance of McKay Avenue Easement to EBRPD Parks and Recreation, Department of --Alameda Provide a roadway easement to the East Bay Regional Park District (EBRPD) to provide legal use of the State Park-owned McKay Avenue at Robert Crown Memorial State beach. EBRPD has recently acquired the parcel known as Neptune Point that is only accessible by McKay Avenue. Providing this easement will give legal ongoing access to park staff and the public for vehicle and pedestrian traffic as well as on-street parking. All work conducted in association with this easement will comply with all State and Federal environmental laws, including but not limited to the Endangered Species Act, California Environmental Quality Act (CEQA), and Section 5024 of the Public Resources Code.	NOE	
2016028122	Orange Tank Replacement Site Acquisition Feasibility Analysis Eastern Municipal Water District Perris--Riverside Eastern Municipal Water District's (District) existing Orange Tank, which supplies potable water in the Orange pressure zone, is nearing the end of its useful life. The Orange Tank was constructed in 1965 and has a capacity of 0.15 million gallons (MG). The existing tank is located at the intersection of Carousel Road and Salter Road in the City of Perris. Several parcels in the immediate vicinity of the existing tank have been identified as possible locations to construct a new potable water tank to replace the existing Orange Tank. In order to prepare the District to make a decision to purchase a parcel, a feasibility analysis of the proposed site(s) will be required. The analysis will provide a general assessment of site elevation suitable for the proposed tank, a grading concept, earth work quantities, drainage, salvage ability of the existing	NOE

<u>Documents Received on Wednesday, February 10, 2016</u>			
2016028129	The Briones Aqueduct Stabilization Project Fish & Wildlife #3 Orinda--Contra Costa The project is limited to the maintenance, stabilization and reinforcement of a failing slope bank along San Pablo Creek that threatens 90 inch diameter public water conveyance pipeline. The entire work area is approximately 8,000 square feet including bed, bank and channel areas. Bank restoration will be performed using biotechnical bank stabilization methods such as root wad replacement, embedding tree trunks into banks for scour stability repair, installation and construction of bend-way weir and rock vanes to reduce shear stress in the riparian zone and to redirect the flow of water. The Project also includes interspersed natural boulders on the slope of the bank to provide added embankment and vegetation stabilization as well as non-erodible transitions, bio-degradable natural fiber blankets on banks and compressed planting strategies during restoration. Issuance of a Streambed Alteration Agreement, number 1600-2015-0340-R3, is pursuant to Fish and Game Code Section 1602.	NOE	
2016028130	Westby/Indian Creek Bypass Channel (Streambed Alteration Agreement No. 1600-2015-0227-R2) Fish & Wildlife #2 --Calaveras The California Department of Fish and Wildlife has executed Streambed Alteration Agreement number 1600-2015-0227-R2, pursuant to Section 1602 of the Fish and Game Code to Doug Westby. The project consists of excavating approximately 70 cubic yards of material to create a bypass channel off the existing creek. Width of the bypass channel will be consistent with the natural channel. Rip-rap will be placed where the bypass channel re-connects with Indian Creek to prevent erosion. Additional work includes placing 10 tons of 12-inch rip-rap along an eroded corner of Indian Creek.	NOE	
2016028131	Covelo CIR Caltrans #1 Covelo--Mendocino Caltrans proposes a routine maintenance project at PM 29.8/34.0 in order to maintain the roadway.	NOE	
2016028132	Ferndale Sidewalk Replacement Caltrans #1 Ferndale--Humboldt Replacement of composite boardwalk in Ferndale. Remove composite decking and framing lumber that makes up the sidewalk without our right-of-way.	NOE	
2016028133	Rohnerville Air Attack Base Loading Pad and Lighting Project Forestry and Fire Protection, Department of Fortuna--Humboldt The Rohnerville Air Attack Base contains four loading pads. The concrete Loading Pads 3 and 4 have weathered due to the coastal environment and excessive use during emergency incidents. The surface is chipping and cracking, could cause aircraft damage, and could strain aircraft landing gear. The security and outdoor lighting at the loading pad area is inadequate and inefficient for current use. The proposed project would demolish the two concrete pads and replace them with reinforced concrete. AS part of the replacement, the pads will be expanded into the existing asphalt taxi lane replacement areas. It may be necessary to repair or replace the buried drainage pipes under the pads. Metal culvert drainage pipes	NOE

<u>Documents Received on Wednesday, February 10, 2016</u>			
	<p>were installed when the loading pads were constructed and may be rusted, or damage to the pipes may occur during demolition. The extent of the repair or replacement of the pipes is currently unknown and will be assessed following demolition of the loading pads. Excavation could be as deep as 12 feet into the fill material. Re-bedding of the drainage pipes will be accomplished by utilization of the excavated fill material. The existing asphalt taxi lane areas in the project area would be replaced with reinforced concrete. The dimensions of the asphalt replacement or concrete installation are approximately 200' x 400'. The proposed light installation will involve minor trenching and backfilling for the installation of a electrical conduit to power the new lights. Conduit installation will occur outside of the concrete installation in a ten-foot zone on the perimeter of the loading area. The lights are low profile and will extend less than three feet from ground level. No vegetation other than grass and forbs in the conduit installation area will be disturbed. A 100' x 100' spoils staging area will be utilized adjacent to existing Loading pad 1. The spoils staging area will be constructed on existing imported fill material. The spoils site will be graded and shaped for drainage following utilization. No vegetation other than grass and forbs in the spoils staging area will be disturbed.</p>		
2016028135	<p>National City Marine Terminal Berth 24-10 Structural and Mooring Repairs San Diego Unified Port District National City--San Diego</p> <p>The proposed project involves repair of an existing concrete deck and piles at the National city Marine Terminal (NCMT) Berth 24-10 (Berth) located in the City of National City. The Berth is comprised oa reinforced concrete marginal wharf structure consisting of pre-stressed concrete piles and a supporting cast-in-place concrete deck, which was constructed between 1968 and 1971. Since it was first constructed, the Berth has suffered substantial structural damage and deterioration. Specific problems include damage to the concrete deck soffit and damage with cracking to approximately 17 percent of the pre-stressed concrete piles. The damage has resulted in interim load restrictions and the closure of portions of the concrete deck. Furthermore, the Berth does not meet current seismic design standards and if subjected to ground motion, would suffer significantly more damage than a modern wharf structure subjected to the same motion.</p> <p>The proposed project would address these structural vulnerabilities by repairing the damaged piles and constructing a new concrete deck that would be constructed in-kind, in the same location as the same existing concrete deck. In addition, the proposed project would improve the mooring and fender system, utilities and storm drainage system, and electrical system.</p>	NOE	
2016028136	<p>Sublease from FelCor Hotel Asset Company, LLC to Travel Traders Hotel Stores, Inc. for Operation of Gift Shop San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project is a sublease from FelCor Hotel Asset Company, LLC (FelCor) dba Wyndham San Diego Bayside (Wyndham) to Travel Traders Hotel Stores, Inc. (Travel Traders) for operation of a gift shop at the Wyndham. FelCor's existing leasehold is comprised of approximately 276,910 square feet of land area located at 1355 North Harbor Drive in the City of San Diego. FelCor operates the 600-room Wyndham at this site, including meeting space, restaurants, retail, and parking. The FelCor lease commenced on September 13, 1977, and expires on October 14, 2029. Wyndham has an existing gift shop, which is located in</p>	NOE

	<p>approximately 1,950 square-foot space on the ground floor of the Wyndham. The proposed sublease would allow Travel Traders to continue operating the existing gift shop within the existing approximately 1,950-square-foot space gift shop space. The sublease would also allow for interior improvements.</p>		
2016028137	<p>Sublease from FelCor Hotel Asset Company, LLC to Claim Jumper Acquisition Company, LLC for Operation of Three-Meal Restaurant San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project is a sublease from FelCor Hotel Asset Company, LLC (FelCor) dba Wyndham San Diego Bayside (Wyndham) to Claim Jumper Acquisition Company, LLC (Claim Jumper) for operation of a three-meal restaurant at the Wyndham. FelCor's existing leasehold is comprised of approximately 276,910 square feet of land area located at 1355 North Harbor Drive in the City of San Diego. FelCor operates the 600-room Wyndham at this site, including meeting space, restaurants, retail, and parking. The FelCor lease commenced on September 13, 1977, and expires on October 14, 2029. Through a sublease with FelCor, Elephant & Castle (E&C) operated a full-service (three-meal) restaurant at the Wyndham from approximately 1995-2014. The E&C restaurant occupied approximately 7,200 square feet of indoor space on the first floor of the Wyndham, along with the adjacent approximately 2,600 square-foot outdoor patio area. The E&C restaurant had a total capacity of approximately 339 seats, including 196 indoor seats and 143 outdoor seats. The space has continuously been offered for restaurant uses.</p> <p>The proposed sublease would allow Claim Jumper to operate a three-meal (breakfast, lunch, and dinner) casual dining restaurant within the existing restaurant space formerly occupied and operated by E&C, including approximately 7,200 square feet of space on the first floor of the Wyndham with 196 seats and the adjacent 2,600-square-foot outdoor patio area with 143 seats.</p>	NOE	
2016028138	<p>Temporary Emergency Permit for Treatment of Hazardous Waste, Amgen (EPA ID# CAR000143750) Toxic Substances Control, Department of --San Mateo</p> <p>The California Department of Toxic Substances Control (DTSC), pursuant to authority granted under Chapter 6., Cal. Code Regs., Tit 22, section 66270.61, is considering the issuance of an Emergency Permit for Amgen to treat reactive and/or ignitable hazardous waste by chemical stabilization.</p>	NOE	
2016028139	<p>Pacheco residence Garage Floor and Walkway Project Parks and Recreation, Department of --Merced</p> <p>Install a cement floor and walkway in and around an existing residential garage at Pacheco State Park to secure the facility against weather land rodent intrusion. Work will excavate an area approximately 36' long x 24' wide by 8" inside and around the garage to allow for a 4" sand base and a 4" poured concrete slab. The slab pour will extend out the front of the garage to allow for drainage away from the residence and continue along the side of the garage to provide a walkway to the residence. 10 yards or less of material will be excavated from the area for this project.</p>	NOE

2016028140	<p>Pacheco Trail Grates Parks and Recreation, Department of --Merced</p> <p>Replace five gates in Pacheco State Park to reduce the risk of injury to visitors. At five (5) locations along the park trail system there are gates that are currently controlled by either a hot wire or are old existing gates. New self-closing gates attached to 3-inch square posts will be installed. Where possible, existing post holes will be reused and where necessary, post holes 8" deep by 3' diameter will be dug with new posts set in concrete.</p>	NOE	
2016028142	<p>CAL FIRE Dobbins Forest Fire Station Helipad Tree Removal and Safety Enhancement Project Forestry and Fire Protection, Department of --Yuba</p> <p>The project consists of removing trees within the flight path of the Dobbins Forest Fire Station helipad. The objective of the project is to enhance the safety of rotary wing aircraft operations during emergency incident response. The project covers 1.7 acres and twenty mature trees that present a hazard to aircraft. The project will be completed using CAL FIRE conservation Camp Crews. Ground disturbing equipment use will be very limited. No excavation, soil movement or grubbing is proposed under this project. Vegetative material created during tree removal will be disposed of by pile burning or chipping. Larger woody material will be either cut for firewood or moved to Washington Ridge Conservation camp. No commercial operations are planned and the project does not constitute conversion of timberland. The project will result in a slightly larger opening of the flight path which will be maintained as open space. No development, change in land use or enlargement of the helipad is proposed.</p>	NOE	
2016028143	<p>Shelter Cove 1 SFB Forestry and Fire Protection, Department of --Humboldt</p> <p>Project proposes to construct 15 acre shaded fuel break along the northern edge of a rural residential community of Shelter Cove. Shelter Cove is an isolated community on the Northern California coastline located nearly due west of Garberville and highway 101. Creating a shaded fuel break will alter the volume, type, and continuity of vegetation which will change the behavior of a potential wildfire entering the zone. Brush, shrubs, and small trees will be removed in order to eliminate fire ladder fuels and increase spacing between tree crowns. The reduced fuel zone will lessen the chance of a fire to carry through the area and increase the likelihood that crews would be able to extinguish or hold a fire from spreading. This project will allow crews to utilize hand tools, weed eaters, chainsaws, and chippers, to reduce hazardous fuels with a combination of treatments. Treatments may include weed whacking, brush removal, limb removal, chipping, lop and scatter, and the removal of small trees within the Shaded fuel break. Eight inches is the maximum tree diameter at breast height (DBH) to be removed. Remaining trees will be limbed to reduce ladder fuels. The vegetation type in the project vicinity consists of dense trees and shrubs interspersed with small grassy areas. Dominant species include tanoak (<i>Lithocarpus densiflorus</i>), Douglas-fir (<i>Pseudotsuga menziesii</i>), grand fir (<i>Abies grandis</i>), coyote brush (<i>Baccharis pulularis</i>) blue blossom (<i>Ceanothus thyrsiflorus</i>), Evergreen huckleberry (<i>Vaccinium ovatum</i>) wax myrtle (<i>Myrica californica</i>) and various seasonal and perennial grasses.</p>	NOE

2016028134	Columbia Air Attack Base Electrical Project Forestry and Fire Protection, Department of --Tuolumne An existing electrical line at the Columbia Air Attack Base will be upgraded to facilitate starting the aircraft in the loading pit area. The project will consist of temporarily opening an existing trench that runs between an existing power poles an existing panel to install a new electrical line. From the panel, an additional existing trench will be temporarily opened to connect the electrical line with an existing cement trench that houses other conduits. The existing trenches to be re-opened cross an area that is generally used for parking and vehicle traffic. The trenches will be opened and re-filled using a backhoe or small excavator. The trench length is approximately 200 feet in length, and will be approximately three feet deep and two feet wide. Additionally, an approximate 16-foot by 20-foot cinder block building will be constructed to house a generator and provide for storage. The building location is in an open area used for parking.	NOE	
2016028141	City of Palo Alto Local Ordinance No. 5345, Chapter 16.17 Energy Commission Palo Alto--San Mateo, Santa Clara NO project is being submitted by a private party, and thus there is no applicant. In enacting Ordinance No. 5345, Chapter 16.17 the City of Palo Alto establishes and mandates minimum energy efficiency standards for residential and nonresidential buildings. Chapter 16.17 ensures that residential and on residential buildings will exceed the current State energy standards by requiring more stringent energy efficient measures.	NOE	
2016028147	Music HVAC and Barrier Removal - Phase 1 California State University, San Diego San Diego--San Diego Phase 1 addresses humidification/de-humidification issues in the Music Building. Air Handling Units 5 and 6 controlling 2nd floor will be serviced to improve humidity control in the building and reverse osmosis water system will be installed. Barrier Removal in Room 113 will provide seating areas in a multi-teared classroom.	NOE	
2016028148	Renovation of Professional Studies and Fine Arts (PSFA) for Confucius Institute California State University, San Diego San Diego--San Diego This project will renovate a portion of the first floor of PSFA to provide exhibit space for the Confucius Institute, which focuses on promoting Chinese culture through exhibits and educational events. The area of the renovation is currently vacant.	NOE	
2016028149	San Diego State University Cal Coast Credit Union open Air (OAT) Theatre Entry Plaza California State University, San Diego San Diego--San Diego The Proposed Project involves modifications to the Open Air Theatre (OAT) entry plaza that would consist of removal of existing restroom facilities and two concession stands, and replacement with separate men's and women's facilities and one concession stand. The modifications would be limited to the interior entry plaza only; no modifications would occur to or within the OAT bowl.	NOE

2016028225	Consider a Compromise Title Settlement and Exchange Agreement between the State of California acting by and through the California State Lands Commission California State Lands Commission --Imperial Approve and authorize the execution, acknowledgement, and recordation of the Compromise Title Settlement and Land Exchange Agreement and associated deeds and acceptances on behalf of the Commission.	NOE	
2016028226	Consider Authorizing the Executive Officer to Sign, as a concurring party, The Agreement titled Programmatic Agreement California State Lands Commission --Imperial, Inyo, Kern, Los Angeles, Riverside, ... Authorize the Executive Officer or her designee to sign, as a concurring party, the agreement titled "Programmatic Agreement among the Bureau of Land Management - California, the California Office of Historic Preservation, and the Advisory Council on Historic Preservation Regarding Renewable energy Developmen on a Portion of Public Lands Administered by the Bureau of Land Management - California".	NOE	
2016028227	Cogswell Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2015-0036-R1) Fish & Wildlife #1E --Humboldt The project is limited to one existing stream diversion on an Unnamed Tributary to the Mattole River for domestic use and irrigation. The work includes use and maintenance of the water diversion structure.	NOE	
2016028228	Issuance of Streambed Alteration Agreement No. 1600-2015-0441-R1, Haiku Vineyards Gravel Extraction Project Fish & Wildlife #1 Ukiah--Mendocino The project consists of non-commercial extraction of gravel from the Morrison Creek channel. Gravel will be skimmed from a dry gravel bar using a self-loading elevating scrapper for the purposes of flood protection and for treating existing vineyard road surfaces. No more than 500 cubic yards of gravel will be removed in any one year. No riparian vegetation will be cleared and no work will be required in the wetted channel.	NOE	
2016028232	Alacena West Road Emergency Repairs Sweetwater Authority --San Diego The Alacena West Road runs along the north side of the Sweetwater Reservoir Property. It is a 15-foot dirt road and the only road that connects the west to the east side of the reservoir. The road was originally built in 1991 as part of the Urban runoff Diversion System (URDS), and it is mainly use for patrolling and to access existing facilities and project sites. Where the road crosses and existing drainage and URDS forebay, the road has a 24-inch culvert, and it was recently noted that the culvert and road are heavily damaged (collapsed culvert and road erosion). Potential for road failure is high if prompt action is not taken. The emergency repairs include excavating the north end of the 24-inch pipe sufficiently to remove the existing coupling and install a new one. The section of the pipe that failed will then be replaced and the original 2:1 slope will be rebuilt (see Figure 3). Mirafi 140 stabilization fabric will be placed on the slope around the new section and approximately 2 cubic feet of 6-12" rip-rap will be placed on top of the fabric. There	NOE

2015-17	<p>United Auburn Indian Community of the Auburn Rancheria of CA - APNs: 040-310-003 & 004 Bureau of Indian Affairs Auburn--Placer</p> <p>The Tribe's goal is to reclaim and maintain lands located in the historic Auburn Rancheria. Conveyance of the subject parcel, a community park, will also protect and enhance the wellbeing of UAIC tribal members and resources within the historic Auburn Rancheria; thereby reestablishing the Tribe's traditional land base. Additionally, trust ownership of the property will allow the tribe to meet their goal of sovereign authority over the land, thus strengthening self-determination and self-governance.</p> <p>The subject property consists of two (2) parcels, APNs - 040-310-003 (a 0.05 acres parcel containing facilities related to Rancheria water and wastewater systems) and 040-310-004 (a 2.30 acres parcel containing the park itself). The subject property has historically been a place of gathering and recreation for tribal members. In recent years the tribe has developed the property into a community park with facilities for tribal member of all ages to enjoy. Children attending the UAIC School located nearby use the park for recess and after-school games. The park includes a basketball court, play areas with equipment for pre-school and school-age children, a splash pad interactive fountain and restrooms. An enclosed roundhouse style gazebo provides a setting for group gatherings, while open areas provide space for picnics for small groups.</p>	BIA	03/14/2016
2016-01	<p>Rincon Band of Luiseno Mission Indians of the Rincon Reservation - APNs: 133-180-14 Bureau of Indian Affairs --San Diego</p> <p>The subject property consists of land, encompassing ~5.15 acres, more or less, and is commonly refer to as APNs 133-180-14. The property lies within the exterior boundaries of the Rincon Reservation.</p>	BIA	03/14/2016
2016021055	<p>San Elijo Water Reclamation Facility Upgrades San Elijo Joint Powers Authority Encinitas--San Diego</p> <p>SEJPA proposes several SEWRF upgrades, rehabilitations, and replacements, including: administration and operations buildings and seismic upgrades; site improvements and security; preliminary treatment upgrades; electrical upgrades; dewatering upgrades; digester improvements; aeration and return upgrades; dissolved air flotation upgrades and co-thickening; supervisory control and data acquisition system installation; and installation of solar fields. A new administration building would be constructed at the southern end of the project site, near the SEWRF entrance off Manchester Avenue.</p>	MND	03/14/2016

2016021056	Village and Barrio Master Plan Carlsbad, City of Carlsbad--San Diego Proposed is a master plan for the city's downtown (Village) and the southerly adjacent Barrio. The Village and Barrio are located at the northwestern edge of the city. The planning area is mostly developed; a portion is in the Coastal Zone. Plan adoption would require several discretionary approvals. The proposed master plan consists of a vision plan, a regulating code, design guidelines, and an appendix. The plan proposes no development, but the vision portion identifies a number of ideas and objectives that could be implemented upon further and separate analysis and approval. The proposal would replace the current Village Master Plan and Design Manual and the general zoning districts and standards now applicable in the Barrio.	MND	03/14/2016
2016022040	The Wildlands Conservancy Parking Lot and Trail (PLP15-0049) Sonoma County --Sonoma Request for a Coastal Permit with hearing and a Use Permit to allow a public parking lot with gate, picnic tables, restroom, trailhead and approx. 400 feet of trail to a scenic overlook on a portion of a 473 acre parcel.	MND	03/14/2016
2016022041	East Lawn Cemetery Expansion Project Elk Grove, City of Elk Grove--Sacramento Project consists of the physical expansion of the existing East Lawn Elk Grove Memorial Park and Mortuary by a total of 20.9 acres to provide an additional 20,030 burial plots with connecting asphalt driveways and two mausoleums. The proposed expansion would occur in phases that are anticipated to span the next 54 years, and East Lawn Inc. anticipates a Project operational span of 70 years. The type of operations on the Project site would be similar to current operations, with a similar number of funeral services per year as under current conditions.	MND	03/14/2016
2016022042	Bayshore Elementary School Replacement and Consolidation Project Bayshore Elementary School District Daly City--San Mateo BESD would demolish the existing elementary school structures at 155 Oriente Street, Daly City, CA, and construct a new modern school facility on the 2.12 acre site. The new school facility would total 47,000 sq. ft. and replace the existing Bayshore Elementary School at 155 Oriente Street (26,056 sq. ft.) and the Robertson Intermediate School at 1 Martin Street (27,936 sq. ft.). The new school will accommodate the full enrollment for grades TK to 8th Grade from these two facilities (380 students) plus an overall increase in enrollment of up to 164 students. The current Robertson Intermediate School at 1 Martin Street would no longer be needed and is intended to be sold, likely for residential development under City of Daly City jurisdiction as a separate project.	MND	03/14/2016
2008091153	Canyon Springs High School Athletic Complex Moreno Valley Unified School District Moreno Valley--Riverside The District is proposing several improvements to Canyon Springs High School (CSHS). Campus changes would include construction of a new 3,000 seat stadium complex, new campus access and parking lot; relocation of two softball fields, a soccer field, and tennis courts, a second campus access point, and expansion of the campus through potential acquisition of the adjacent Westbluff Park. 2016021054	Premier on First Burbank, City of Burbank--Los Angeles The Project would be developed in two phases. Phase 1 would consist of a 14-story tower containing 154 residential units, approximately 10,400 square feet of ground-level retail, 445 parking spaces, and residential amenities such as a fitness center, pool, and roof deck. Phase 2 would consist of a 12- to 13-story tower that would be developed as either a hotel or office space. The Hotel Option would feature a 230-room hotel, 256 parking spaces, guest amenities, dining space, and approximately 5,250 square feet of other ground-level retail. The Office Option would consist of approximately 158,595 square feet of office space, 429 parking spaces and approximately 11,728 square feet of ground-level retail.	NOP	03/14/2016
2015112007	Vestsing Tentative Parcel Map Application No. PLN 2015-0104 - Ciccarelli Stanislaus County Modesto--Stanislaus Request to divide a 40 +/- acre parcel into 4 parcels of 10 acres each. Three of the four proposed parcels will take access from Shoemake Road, while the fourth will take access from Brink Avenue. The parcel is developed with a single family home, Ag shop, and a producing almond orchard. The project site currently enrolled in Williamson Act Contract No. 78-3436. The parcel is located within the City of Modesto's Sphere of Influence.	Neg	03/14/2016
2016028229	An Amendment (SWPAO #06012-B) to the Letter Agreement among Santa Clara Valley Water District, Kern County Water Agency, and Department of Water Resources Water Resources, Department of --Kern, Santa Clara A letter agreement (SWPAO #06012) dated September 12, 2008 among Santa Clara Valley Water District (SCVWD), Kern County Water Agency (KCWA), and the Department of Water Resources (DWR) provided for the conveyance and storage of Central Valley Project (CVP) water in Semitropic Groundwater Banking Program and for the future return of that water to SCVWD in Reach 9 of the South Bay Aqueduct. The first amendment (SWPAO #06012-A) provides for an additional point of delivery for the CVP return water to be delivered at O' Neil Forebay in Reach 3 of the California Aqueduct. This amendment allows SCVWD's return water to be pumped in at Reaches 9-13B in addition to Reach 10A of the California Aqueduct beginning July 17,2015 thru October 31,2015.	Neg	
2012031048	Nature Education Facilities Parks and Recreation, Department of Carpinteria--Santa Barbara Expansion of facilities including construction of a new modular building and repurposing the existing park office/visitor center as a visitor center exclusively, construction of a dune boardwalk, restoration of degraded dune habitat, creation of a small gathering area, construction of a bluff viewing area, installation of interpretive exhibits, construction of two beach access routes, upgrades to trails and parking, construction of two overlooks and habitat restoration along Carpinteria Creek. The CNRA is filing as responsible agency for a portion of the project including restoration of the dune ecosystem and improvements to public access and education.	NOD

2012041037	DANA Land Use Ordinance Amendment and Conditional Use Permit San Luis Obispo County Nipomo--San Luis Obispo A request by the DANA for a LUO Amendment to: 1) section 22.112.080.G to allow the applicant to process a CUP for the site to include a visitor's center, outdoor amphitheater, Chumash Interpretive Area with exhibits and interpretive features, and associated support features. The CNRA is filing as responsible agency for a portion of the project including installation of a trail, trees, shrubs, gravel parking lot, shade ramadas, irrigation and the removal of invasive plants.	NOD	
2013102009	Ascension Heights Subdivision Project San Mateo County --San Mateo APNs 041-111-130, -160, -270, -280, -320, -360. The project would subdivide 6 parcels on 13.3 acres into 21 lots for 19 single family residences with the remaining 2 lots (+/- 7.8 acres) maintained as open space. Potable water would be provided by connection to the Bayshore District of Cal Water, and wastewater collection would be provided by the Crystal Springs Sanitation District with treatment at the City of San Mateo Wastewater Treatment Plant.	NOD	
2014092010	Promenade Project Antioch, City of Antioch--Contra Costa The project consists of a residential development on 141.6 total acres, including up to 650 single-family residential units on 127.5 acres; 31.6 acres of parks and landscaped areas (some of which overlap with the residential area); extension of Heidom Ranch Rd, Hillcrest Ave, and Sand Creek Rd; extension of a portion of the Sand Creek Trail for connection to other City and regional trails; and utility improvements. The project would construct the following off-site improvements: a dedicated public roadway in Antioch and storm drain lines and a storm drain outfall structure to Sand Creek. The project could be developed as either a single-family market-rate residential community or as an age0restricted "active adult" residential community.	NOD	
2014121003	Torrance Regional Transit Center (RTC) project Torrance, City of Torrance--Los Angeles City adopted a MND and approval of a CUP to allow the construction and operation of an approximately 17,800 sf regional transit facility, 3,100 sf of which would be for ancillary food and commercial services, in conjunction with a Division of Lot to subdivide two parcels into Four, on property located in the M-2 zone. The CNRA is filing as responsible agency for the portion of the required mitigation to protect a rare plant species (Southern Tarplant), and includes installation of interpretive panels, shade trees, and shrubs.	NOD	
2015022040	White Slough Restoration California State Coastal Conservancy --Humboldt Restoration of tidal marsh on subsided, diked former tidelands to enhance native wildlife habitat, protect existing transportation infrastructure and beneficially reuse sediment. Sea level rise and dike failure currently threaten to convert subsided marsh in the area to mudflat. Tidal marsh will be restored on approximately 40 acres by first raising surface elevations to levels that will support marsh vegetation, and then breaching the dike around the unit. Surface elevations will be	NOD

	raised by placing up to 200,000 cy of clean sediment. Four existing tidegates in the northern portion of the project area will be modified to establish a muted tide cycle.		
2015092020	Wastewater Treatment Plant (WWTP) Env'tl Evaluation of Alternatives Jamestown Sanitary District --Tuolumne Evaluation of four Wastewater Treatment Plant alternatives at two separate locations to improve the District's capability to treat wastewater within JSD's service boundary. Alts 1 & 2 are located at the existing WWTP and would include either secondary or tertiary treatment. Alts 3 & 4 are located at JSD-owned site in Quartz adjacent to the Tuolumne Utilities District Quartz (treated effluent) Reservoir and would include either secondary or tertiary treatment.	NOD	
2015092078	Pinole Verizon Wireless Facility Project Pinole, City of Pinole--Contra Costa The project is a wireless telecommunications facility and consists of the installation of six panel antennas mounted within a new faux chimney/cupola affixed to the existing rooftop of the detached garage associated with the existing residence. A 252-sf equipment/lease area would be constructed adjacent to the faux chimney/cupola and would include an eight-hour battery pack for emergency purposes. The equipment area would be enclosed with a solid 6-ft redwood fence with a two-ft lattice cap. Landscaping would be included on two sides of the redwood fence area for partial screening purposes.	NOD	
2015102018	Hoadley Peak Communication Tower Project Caltrans #2 --Trinity, Shasta The Proposed Project would include demolition of existing facilities and construction of new facilities at the Hoadley Peak radio facility. All new construction would occur within the existing site disturbance area, and the site would be developed to satisfy Reclamation rules and requirements.	NOD	
2015111061	Legacy High School Draft Remedial Action Plan for Operable Unit (OU) 3 Los Angeles Unified School District South Gate--Los Angeles The proposed project involves the preparation and implementation of a Remedial Action Plan (RAP) for a portion of the Legacy High School Complex (also known as South Region High School no. 9). The objective of the RAP for OU 3 are to remediate shallow site-wide groundwater to meet the State primary drinking water wells, and prevent or control exposure of residual contaminants to groundwater and control and mitigate soil vapor to protect human health and the environment. The long-term objective for the site is groundwater restoration. There is no immediate health risk because the public is not exposed to the shallow groundwater and the shallow groundwater is not a source of drinking water.	NOD	
2015112017	Remedial Action Plan for Sit 12/Former Old Bunker Area at Treasure Island Toxic Substances Control, Department of San Francisco--San Francisco DTSC approval of the Action Memo for Time Critical Removal Action for Installation Restoration Site 12 located at the former Naval Station Treasure Island pursuant to authority granted under Chapter 6.8, Division 20, California Health & Safety Code. The purpose of this AM/TCRA is to implement removal actions for portions of Site 12 that are protective of public health and safety and the	NOD

	environment. Soil and groundwater contamination was found from debris that was disposed during the Navy's operations at Site 12. The project includes removal action at the following three areas within Site 12: 1) gateview total petroleum hydrocarbon area; 2) discrete locations within the southern portion of site 12; and 3) haylburn court area. The project will address potential risks to current and future site occupants from exposure to polychlorinated biphenyls, polycyclic aromatic hydrocarbons, dioxins, and lead in soil by soil excavation and offsite disposal. Approximately 21,300 cy of contaminated soil will be removed from the site.		
2015122066	Zones 2A and 3A Natural Channels Maintenance Project Sonoma County Water Agency Petaluma, Sonoma--Sonoma The project would implement small-scale flood control maintenance activities primarily on properties under private ownership in Flood Control Zone 2A (Petaluma Valley) and Zone 3A (upper Sonoma Valley). Most maintenance would be preventative actions to reduce flood risk and avoid bank erosion or other environmental damage.	NOD	
	It is anticipated that approximately five to ten vegetation maintenance projects and two to three erosion protection projects would be conducted annually. Each erosion protection project would be limited to 10 cy of excavated material and to a linear stream bank length of 200 ft. Vegetation removal along banks would not exceed 100 contiguous ft. Although the exact number of maintenance activities is dependent on requests from the public, the proposed project includes an upper limit of 100 cy of material removed along up to 3,000 ft of stream bank per five-yr maintenance period. There would be no limit on the number of trash debris removal events.		
2016028162	Termination and Issuance of a General Lease - Recreational Use - PRC 4267.1 California State Lands Commission --El Dorado Authorize termination of a General Lease - Recreational Use, effective March 28, 2016. Authorize issuance of a General Lease - Recreational Use beginning March 29, 2016, for a term of 10 years, for removal and reconstruction of an existing pier with minor expansion; installation of a boat lift; removal of one existing mooring buoy; and continued use and maintenance of an existing mooring buoy and swim float. 2016028237	<p>Lost Coast Redwood and Salmon Initiative Phase 2 Conservation Easement California Natural Resources Agency --Mendocino</p> <p>The project will acquire a conservation easement to project 2,690 acres of forestland and salmon stream habitat in northern Mendocino County. The project will protect and enhance Coho and Chinook salmon habitat and rejuvenate working forestlands over a wide swath of northern California's Lost Cost Region.</p>	NOE	
2016028238	<p>Mokelumne River Giant Snake and Multi-Species Habitat Acquisition California Natural Resources Agency Lodi--San Joaquin</p> <p>Conservation easement on ±40 acres to protect native riparian habitat, encourage groundwater recharge, improve and maintain water quality and other beneficial uses.</p>	NOE	
2016028239	<p>Carpenter Valley Acquisition Phase I California Natural Resources Agency Truckee--Nevada</p> <p>Project consists of the first phase (1,382 acres) of a three phase acquisition in Carpenter Valley, Nevada County to conserve meadow, wetland and riparian habitat surrounding the North Fork of Prosser Creek. Total acreage of all three phases is 600 acres.</p>	NOE	
2016028240	<p>Runyon Canyon Park Natural Resources Agency Los Angeles, City of--Los Angeles</p> <p>The proposed project involves the acquisition of approximately 16.75 acres comprised of a portion of APN 5571-025-042 and/or APN 5571-026-007, both parcels having an address of 2450 Solar Drive for the expansion of Runyon Canyon Park and preservation open space as parkland. Beneficiaries would be the park patrons.</p>	NOE	
2016028241	<p>Koreatown Trees to Green the Purple Line Natural Resources Agency Los Angeles, City of--Los Angeles</p> <p>450 trees will be planted and approx. 250 new or expanded cut concrete wells will be made. This will help to mitigate the environmental and health risks associated with the traffic along and adjacent to the LA Metro Purple Line extension project. The public will benefit from clear air, storage of CO2 and shade.</p>	NOE	
2016028242	<p>Twin Trees Conservation Easement Acquisition Project California Natural Resources Agency --Humboldt</p> <p>The project will acquire a conservation easement to project in perpetuity 243 acres of undisturbed redwood, mixed conifer, and riparian habitats, along with 235 feet of the designated Wild and Scenic South Fork Eel River and an unnamed Class II tributary.</p>	NOE	
2016028243	<p>Median & Side Panel Turf Removal & Native Plant Replacement Project California Natural Resources Agency Norwalk--Los Angeles</p> <p>Replace existing turf in median islands and side panels with native drought tolerant plantings.</p>	NOE

2016028244	Whittier Narrows Urban Tree Canopy Project California Natural Resources Agency South El Monte--Los Angeles This project will restore/enhance existing park landscape at Whittier Narrows Recreation Area with drought-tolerant and past-resistant trees. Also, the project will replace trees damaged or destroyed by invasive pests.	NOE	
2016028245	Klamath River Estuary Wetlands Conservation Easement Project California Natural Resources Agency --Del Norte Funding of acquisition of conservation easement over approximately 115 acres of wetlands and forested uplands by the North coast Regional Land Trust for the purposes of habitat protection, and sustainable agricultural production.	NOE	
2016028246	Joshua Tree Foothills Acquisition California Natural Resources Agency --San Bernardino Land Acquisition of approximately 640 acres for conservation of open space for passive recreation and wildlife habitat preservation.	NOE	
2016028247	Irish Hills Natural Reserve Addition Acquisition California Natural Resources Agency San Luis Obispo--San Luis Obispo The project would include the transfer of ownership of 154 acres of land that would be added to the City of San Luis Obispo's Irish Hills Natural Reserve Area.	NOE	
2016028248	Temescal Ranch Acquisition Project California Natural Resources Agency --Los Angeles This project involves the purchase of approximately 6,006 acres of sensitive habitat lands, including the headwaters of two streams that feed into a regionally significant water source, Lake Piru. Acquisition of the property for conservation is expected to benefit residents of the Greater Los Angeles Metro Region.	NOE	
2016028249	Jolly Giant Creek (Lima) Arcata Community Forest Expansion-20 acres California Natural Resources Agency Arcata--Humboldt Acquisition of 20 acres of land for fish and wildlife conservation purposes. The land will become part of the Arcata community forest and be managed as a sustainable forest that includes protections for riparian and other sensitive areas and associated wildlife.	NOE	
2016028250	Highway 17 Wildlife Connectivity Project Natural Resources Agency Santa Cruz--Santa Cruz Acquiring 170 acres adjacent to the RTF at Laurel Curve on SR 17 in Santa Cruz County. Protection of the property will enhance connectivity in an important wildlife corridor in the Santa Cruz Mountains already fragmented by development and further disrupted by the RTF.	NOE	
2016028251	Torrance Urban Tree Project California Natural Resources Agency Torrance--Los Angeles Plant native and drought-tolerant landscaping for a demonstration garden that will conserve water and absorb GHGs.	NOE

2016028252	Oceano Dunes SVRA 2016 Temporary Dust Control Effort Parks and Recreation, Department of --San Luis Obispo	NOE	
------------	--	------------	--

The purpose of this proposed project is to monitor and reduce the levels of fugitive dust particles from select locations of the Guadalupe-Nipomo Dunes Complex within Oceano Dunes SVRA. Project activities would consist of the use three different suppression methods at three different sites of ODSRVA to physically cover the ground surface and break the flow of wind across the landscape, thereby reducing sand transport and dust generation. The three methods will include; (1) portable and reusable "porous roughness" elements, (2) temporary deployment of wind fencing, and (3) placement of new straw bales and reconfiguring of old straw bales. To measure project effectiveness, wind monitoring equipment will also be stationed nearby to each project site.

The porous roughness material will consist of metal mesh sliding (3'x'3'x'3') of thick wire with plastic fencing material for 50% porosity over 1.5 acres of open sand within the riding and camping area. Up to approximately 43,000 linear feet of 4-foot-tall wind fencing (up to 40 acres) and up to 1,000 new certified weed free straw bales (up to 20 acres) would be placed in an array perpendicular to the prevailing wind direction within the open riding area and where public use is prohibited.

Each project site would also contain monitoring stations to measure and assess PM 10 levels, sand transport, and wind direction and wind speed upwind, downwind, within and adjacent to dust control projects. Monitoring stations would include: one small, single-axle trailer or wooden platform, 10 meter wind tower, tripod with particulate or meteorological instruments, solar panels, batteries, and solar control system. All dust control projects and monitoring equipment would be secured and enclosed by a perimeter fence.
