

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

February 1 – 15, 2017

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1 – 15, 2017**.

STATE CLEARINGHOUSE CONTACTS

Please contact the State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
E-mail: state.clearinghouse@opr.ca.gov
Website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown via email**.

STATE CLEARINGHOUSE MAILING ADDRESS

USPS: State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries: State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

2009061088	<p>Proposed Amended Rule 1147 - NOx Reductions From Miscellaneous Sources South Coast Air Quality Management District --Orange, Los Angeles, Riverside, San Bernardino</p> <p>SCAQMD staff is proposing to amend Rule 1147 - NOx Reductions from Miscellaneous Sources, in order to resolve Rule 1147 compliance issues that have been raised by stakeholders. If adopted, PAR 1147 would: 1) change the NOx emission limit for low temperature (<1,200 degrees Fahrenheit) ovens and other units with a heat input rating of less than 325,000 Btu/hour from 30 parts per million to 60 ppm; 2) change the NOx emission limit for low temp afterburners, burn-off ovens, incinerators, and related equipment from 30 ppm to 60 ppm; 3) change the compliance date for small in-use units (NOx emissions of one pound per day or less) from a schedule based on a 20 year lifetime to a 35 year lifetime or unit the units are replaced, retrofit or relocated; 4) change the compliance date for heated process tanks from a schedule based on a 15 year to 20 year lifetime to when the units are replaced, retrofit or relocated; 5) add a testing exemption for ultra-low NOx infrared burners; 6) clarify an exemption for food ovens; and 7) clarify an exemption for flare type systems. Some facilities that may be affected by PAR 1147 identified on lists compiled by the DTSC per CA Government code 65962.5. If implemented, PAR 1147 is expected to result in NOx emission reductions foregone of up to 0.9 tons per day in 2017. However, the emission reductions foregone will be eventually recaptured because the existing units will be regularly replaced and upgraded over time.</p>	EA	03/02/2017
2013091056	<p>Downtown Community Plan Santa Monica, City of Santa Monica--Los Angeles</p> <p>The city of Santa Monica is proposing a specific plan for the Downtown District - the Downtown Community Plan. The proposed DCP (formerly named the Downtown Specific Plan) would implement the community's vision for the Downtown as guided by the city's land use and circulation element. The LUCE outlines a broad range of goals and objectives for the Downtown and requires the adoption of a specific plan that includes refined policies and standards tailored to the downtown.</p>	EIR	03/17/2017
2015111069	<p>Oak Hills Estate Tentative Tract Map, Rezone, and Development Plan Santa Barbara County Lompoc--Santa Barbara</p> <p>The project is a request for entitlements for the proposed Oak Hills Estate Subdivision project from the county of Santa Barbara Planning and development department. The applicant is seeking approval of (1) a rezone to change the zoning on the project parcel from RR-10 (residential ranchette, 1 unit per 10 acres) to DR-1.8 (Design residential, 1.8 units per acre); (2) a vesting tentative tract map to subdivide an existing vacant 16.88 acre parcel into 30 parcels, including 29 single family lots and 1 common open space lot; and (3) a development plan to develop 29 single family residential units. The project also includes the proposed Oak Hills Estate Open Space Management Plan for management of common areas and habitat on the project site to be maintained by a Homeowners Association as well as the Oak Hill Estate Guidelines that would establish standards for the future development of single family residences on the project site.</p>	EIR	03/17/2017

2015092012	Palisades at Squaw Placer County Olympic Valley--Placer The Palisades at Squaw project would include subdivision on the 19.9-acre project site into 63 residential lots, a private park, a recreational trail, an open space parcel and a community garbage parcel as well as associated right-of-way for infrastructure and roadway improvements.	FIN	
2017011079	Camp San Luis Obispo Pedestrian Bridge Replacement Army National Guard, California San Luis Obispo--San Luis Obispo The proposed project would replace a 118 ft long dilapidated pedestrian bridge with a new pre-fabricated medium girder bridge in the same location using the engineering capabilities of the 132nd Multi-role Bridge company. The new 12-ft wide aluminum bridge will sit on new railroad ties on the top of each stream bank and will involve minimal ground disturbance. The project will not only re-permit pedestrian access across the creek, but it will also provide essential military training for the 132nd MRBC.	MND	03/02/2017
2017021001	Manor Street Bridge Rehabilitation and Seismic Retrofit Project Bakersfield, City of Bakersfield--Kern The city is proposing to rehabilitate and upgrade the Manor St Bridge at the Kern River to increase bridge safety, provide for a seismic retrofit, and improve roadway geometrics. Completion of the project will meet current seismic safety standards by retrofitting bridge footings and providing better stability for the bridge. The total project site is approximately three acres, with two proposed potential staging areas. The primary purpose of the project is to enhance the bridge pedestrian and vehicular safety, through seismic retrofit and roadway geometrics improvements to meet current seismic safety standards and AASHTO geometric standards. The proposed project consists of widening the bridge to accommodate two 12-foot lanes, a 2-foot left shoulder, a 6-foot right shoulder, a 6-foot sidewalk and standard barriers.	MND	03/02/2017
2017021002	Sierra Madre Solar Project Sierra Madre, City of Sierra Madre--Los Angeles The city proposes to install two PV systems totaling approximately 763 kW in a portion of the water treatment plant property and at the city hall located within the city. The system would be designed and installed by ConEdison Solutions, Inc. The proposed project consists of constructing approximately 11 PV arrays at 611 East Sierra Madre Blvd and one PV array at 232 West Sierra Madre Blvd in the city. The PV system would be installed on elevated structures at all of the proposed sites. The total footprint of the PV system would be approximately 50,300 sf and is broken down by each site as follows: - city hall. One array covering approximately 5,400 sf. - Aquatics Center. Three arrays covering approximately 6,600 sf. - Water treatment ponds. Eight arrays covering approximately 38,300 sf.	MND	03/02/2017

	<p>The authority intends to remove the existing structures and construct 56 new dwellings on approximately 4.82 acres of the site (11.62 units per acre), with the remaining area left undeveloped; the Boys and Girls Club facility will not be altered or otherwise affected. To accommodate the density of the new development, the proposed project would also amend the general plan land use designation of the site from high density residential to medium density residential. The authority would subdivide the existing site via deed to create the 4.82 acre housing site and the 2.77 acre remainder. The project will be accomplished via a combination of funding from low-interest loans, the US Department of Housing and Urban Development, and the California Tax Credit Allocation Committee.</p>		
2017021004	<p>Desert Knolls Wash Phase III Flood Control Improvement Project San Bernardino Flood Control District Apple Valley--San Bernardino</p> <p>The proposed project consists of the construction, operation and maintenance of flood control bank and invert stabilization improvements and an access road within an approximately 0.6-mile segment of Desert Knolls Wash, from an existing concrete trapezoidal channel in Desert Knolls Wash (Phase II) to the confluence of the wash with the Mojave River. The bank and invert stabilization improvements include grading of wash slopes to 2:1, placement of side slope protection, and installation of a series of grade stabilization structures constructed across the invert to prevent erosion during large storm events. The intent of the proposed project is provide flood control protection to adjacent existing residential and educational development.</p>	MND	03/02/2017
2017021006	<p>Calvary Chapel Expansion Santee, City of Santee--San Diego</p> <p>The project is a major revision to a CUP to allow for the expansion of an existing church facility and associated site improvements. The proposed project would construct a new two-story 9,263 sf concrete tilt-up building (8,056 sf first floor & 1207 sf second floor), play yard, a terraced prayer garden, paved parking lot, two concrete bridges and landscaped areas, while retaining the existing building. A new 2,000 sf play yard area would replace the existing play yard area and would be constructed directly west of the existing building. A terraced prayer garden would be built along the western edge of the project site. The purpose of the proposed project is to provide an expanded building facility that will accommodate the existing church congregation and alleviate the existing overcrowded parking and sanctuary conditions.</p>	MND	03/02/2017
2017022002	<p>225,950 Square Foot Warehouse Structure, 4000 Evora Road, Bay Point; County File #LP16-2031 Contra Costa County --Contra Costa</p> <p>The proposed project is the construction and operation of a 225,950 sf, 42 feet six-in tall warehouse structure on two adjoining vacant parcels located northwest of Evora Court at the western terminus of Evora Road (approx. address 4000 Evora Rd). Evora Court continues onto the project site as an unpaved road and provides access to the warehouse along with access through the eastern portion of the site to an offsite water storage tank located northeast of the site.</p>	MND	03/02/2017

2017022003	<p>City of Arcata Drainage Maintenance Program (70+ sites) Arcata, City of Arcata--Humboldt</p> <p>The project consists of a long-term (20 year), programmatic drainage maintenance plan for 70+ sites primarily within public rights of way. Eleven of the sites are located in the city's CDP jurisdiction. In addition to the city's CDP, the project requires permits from the ACOE, DFW and the coastal commission. Some sites consist of manmade stormwater conveyance ditches that are vegetated with herbaceous species. In some areas, drainage maintenance sites are part of natural creek watercourses. Approximately 57% of the drainage sites are either considered creeks (45%) and/or wetlands (57%) and require discretionary permits. While some drainage sites are surrounded by riparian tree and shrub species, removal of established trees and shrubs will be minimized to the extent practicable and is not required in most cases. Less than five drainage sites require tree removal.</p>	MND	03/02/2017
2017022004	<p>Country Club Heights Erosion Control Project El Dorado County --El Dorado</p> <p>The project site is an existing residential development south of South Lake Tahoe and is bounded by Highway 50 to the west, Southern Pines Dr, Crystal Air Dr, and Skyline Dr to the south, Crystal Air Dr and Elks Club Dr to the east, and the subdivision boundaries to the north. The overall goal of the project is to design and implement erosion control and water quality improvement measures that will reduce the discharge of sediment and pollutants to Lake Tahoe from County administered rights-of-way. This includes the spreading of storm water runoff in adjacent meadow areas for enhancement of Stream Environment Zone capability lands as well as pollutant load reduction. The project will not change the use of the site or surrounding area and will benefit the natural environment with its implementation.</p>	MND	03/02/2017
2001112009	<p>Sites Reservoir Project Site Project Authority --Glenn, Colusa</p> <p>The proposed sites reservoir project would consist of a new offstream storage reservoir with a capacity of up to 1.9 MAF. The sites reservoir would be approximately 12,000-14,000 acres in size and would be created by inundating the area around the unincorporated community of sites, CA, which is referred to locally as Antelope Valley.</p> <p>Up to eleven dams would be needed to create the proposed sites reservoir. There would be two main dams: the Golden Gate Dam on Funks Creek, and the sites dam on Stone Corral Creek. The sites reservoir project also would include an inlet/outlet structure; a pumping plant, electrical switchyard and overhead power lines; and a tunnel approximately 4,030 feet in length connecting the pumping plant to the reservoir.</p>	NOP	03/02/2017
2017021005	<p>General Plan Safety Element Update Project South Gate, City of South Gate--Los Angeles</p> <p>The purpose of the general plan safety element to identify natural or human activity related hazards that exist in South Gate and to define policy objectives and implementation actions to address them. Some naturally occurring hazards may be unavoidable, but the potential impact on South Gate can be reduced through advance planning and preparation. The safety element addresses geologic,</p>	Neg	03/02/2017

	seismic, flood, and fire hazards, as well as hazards created by human activity such as hazardous materials and incidents that call for emergency protection. In addition, the city is updating the South Gate Local Hazard Mitigation Plan. The LHMP includes an assessment of the city's risk related to natural hazard impacts such as drought, seismic events, extreme heat, and flooding.		
2013121055	Los Alamitos General Plan Update Los Alamitos, City of Los Alamitos--Orange The Los Alamitos General Plan Update ("GPU") establishes a comprehensive framework through which the City of Los Alamitos manages its development to ensure its efficiently and effectively provides public facilities and services. Specifically, the GPU identifies land use designations, as well as goals and policies to govern development through 2035. The Village 605 Shopping Center includes up to 113,880 sq. ft. of commercial development on 9.56 acres. The Site Plan shows 105,880 sq. ft. development with the possibility of an additional, 8,000 sq. ft. of subsequent development. The project includes three large outdoor seating areas and two building pads along Katella Ave., upon which seven buildings will be constructed to house two 24-hour drive-through restaurant operations, three major tenants with in-line shops between the major tenants. The project is anticipated to provide a mix of retail, commercial and restaurant tenants, inclusive of a market, retail stores, commercial services and other retailers that offer a variety of products.	NOD	
2016032036	Great America Theme Park Master Plan Santa Clara, City of Santa Clara--Santa Clara Rezone the 112-acre California's Great America Theme Park site from CT (Thoroughfare Commercial) to PD (Planned Development) for a Park Master Plan project that would continue to allow existing attractions and operating practices and would provide flexibility to allow the installation of new rides and replacement of rides and attractions, extension of the operating season, modified operating practices, and additional hours of operation of the Great America theme park and amphitheater.	NOD	
2017029001	SFPUC THP 1-16-016 SMO (Lake or Streambed Alteration Agreement No. 1600-2016-0150-R3) Forestry and Fire Protection, Department of --San Mateo CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0150-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Joe McGuire representing San Francisco Public Utilities Commission. Project is limited to two permanent culvert installations within unnamed Class II and Class III watercourses.	NOD	
2016028438	Calpine Metering Project Sierra County Water Works District No. 1 --Sierra The State Water Resources Control Board (SWRCB) is the Responsible Agency. The SWRCB's Safe Drinking Water Works District No. 1 proposes to implement the Calpine Metering Project. REgarding the feasibility of the project, the new water meters will be installed in highly disturbed areas at previously installed water system infrastructure locations.	NOE

2017028014	East Porterville Emergency Water Supply Project Water Resources, Department of Porterville--Tulare Small portions of the community (approximately 20 percent) are currently receiving domestic water from the City of Porterville (City): the majority of residents depend on predominantly shallow, private wells for their water supply. Due to the effects of the ongoing drought, a large number of these wells have gone dry, or the water contains contaminants making it unsafe to drink. As a result, the residents of this disadvantaged community do not have a reliable supply of safe drinking water. DWR has identified approximately 800 residential properties that are in need of a reliable and sustainable solution for drinking water. In cooperation with the State Water Board, Office of Emergency Services, the City, and Tulare County, DWR proposes to drill up to three wells, install one water storage tank, one booster pump station, over 4 miles of a combination of mainline and distribution pipelines, and 300 fire hydrants for fire protection. Each project component would require geotechnical investigations prior to construction.	NOE

2015021003	<p>Santa Ana River: Reach 9 Phase 5A U.S. Army Corps of Engineers Yorba Linda, Orange, Corona--Orange, Riverside Note: FYI per lead.</p>	ADM	02/06/2017
------------	--	------------	------------

The U.S. Army Corps of Engineers proposes to modify a bank protection structure within Reach 9 of the Santa Ana River that was approved for construction in 2015. Modifications include deleting the upstream-most segment of the planned structure, and expanding staging areas. Location of a permanent maintenance road has also been clarified. Phase 5B is located in the City of Yorba Linda, Orange County. The purpose of the project is to prevent undercutting and erosion of Santa Ana River embankment, caused by high-velocity flows and associated scour. This SEA/EIR Addendum supplements a 2015 document that also addressed bank and bridge protection in other areas of Reach 9 (Phase 4, Phase SA and BNSF Bridge).

2017021007	<p>Hampton Inn and Suites Rosemead, City of Rosemead--Los Angeles The project site is currently a paved parking lot for use by the UFC Gym southeast of the site. The project includes the construction of a five-story hotel with 123 guest rooms, business center with computers and a fax and photocopy machine, fitness center, meeting rooms, swimming pool, snack shop and complimentary breakfast for hotel guests. The project proposes 125 parking spaces, including 95 standard spaces, 20 compact spaces, 5 RV spaces, 5 handicap spaces and 20 bicycle spaces. New landscaping will be constructed along the north, west and southern project boundaries. A 3-foot tall block wall and landscaping will be constructed along the east project boundary to separate the project from the UFC Gym east of the site. The hotel is 67'9" in height. There are three points for site access from the adjacent streets. Indirect site access is also provided via a joint drive aisle with the UFC Gym site that extends along the north side of the gym and connects with Ivar Avenue at the west project boundary. A proposed reciprocal access agreement will allow legal access between the project site and the adjacent UFC Gym.</p>	MND	03/03/2017

2017021008	Lawrence and Orange Rosemead, City of Rosemead--Los Angeles The project site is a former field for Don Bosco Technical Institute. The project includes the construction of 21 two-story single family residential units, 42 private garage parking spaces, 12 private driveway parking spaces, and 11 open parking spaces, 11,556 sf of public landscape area, 8,352 sf of public hardscape area, and 18,287 sf of private open space (private back yards). The project includes three plan types. Seven plan 1 units will consist of three bedrooms and 2.5 baths in 1,706 sf. Seven plan 2 units will consist of four bedrooms and three baths in 2,072 sf. Seven plan 3 units will consist of four bedrooms and three baths in 2,352 sf. Vehicular access to the project site will be provided from Orange Street. Internal circulation will be provided via proposed Private Drives A, B, and C.	MND	03/03/2017
2017021009	Colfax Charter Elementary School Classroom Addition Project Los Angeles Unified School District --Los Angeles The project is located on portions of LAUSD's Colfax Charter Elementary School, located at 11724 Addison Street, Valley Village, CA, and proposes the construction of 18 new classrooms situated in five buildings, internal modifications to administrative spaces, an expanded lunch shelter and arcade, relocation of the school's main entry (from Addison St to Colfax Ave), and construction of a new surface parking lot. The need for the project is to provide Colfax students with facilities that are safe, secure and aligned with the school's instruction program, as well as provide for enhanced capacity, improved campus circulation and on-site parking for facility, staff and visitors.	MND	03/03/2017
2017022005	Hexavalent Chromium Well Head treatment Watsonville, City of Watsonville--Santa Cruz Construct reduction, coagulation, filtration water treatment works at 5 existing drinking water wells (wells 2, 3, 14, 17, & 18) to reduce Cr6 concentration to less than the max contaminant level; construct sewer lines from 5 existing drinking water wells to dispose backwash waste; construct water main to connect well 7 and well 15 to blend the water and reduce the Cr6 concentration to less than the max contaminant level.	MND	03/03/2017
2017022006	Regional Public Safety Training Facility Shasta Tehama Trinity Joint Community College District Redding--Shasta The district proposes to construct a regional public safety training facility near the northwest corner of the Shasta College campus. The RPSTF will replace existing facilities directly to the west of the proposed facilities. The new facilities will provide for improved training of Shasta College students and local public safety personnel, and also reduce impacts to residents by moving the facilities away from the nearest residencies. The proposed RPSTF Project entails construction of one 9,800 sf classroom building located in the southwest portion of the project area, just west of the access road, with a paved parking lot located on the opposite side (east of) the access road. Approximately 11 training props and associated accoutrements will be located north of the classroom and parking lot.	MND	03/03/2017

2017028027	Carnes Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2016-0517-R1) Fish & Wildlife #1E --Humboldt The CDFW has executed Lake and Streambed Alteration Agreement number 1600-2016-0517-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Jesse Carnes. The project is limited to three encroachments. All encroachments are for water diversion for domestic use and irrigation. Work for the water diversion will include use and maintenance of the water diversion infrastructure.	NOE	
2017028028	Ponderosa Way-Sky Ranch-Canyon View Loop Fuel Treatments Project Tehama County --Tehama The Ponderosa Way-Sky Ranch-Canyon View Loop Fuels Treatments project will create an 8-mile long, 300' wide roadside fuel break over an area of approximately 291 acres in Eastern Tehama County. Hand cutting, chipping, piling and burning of roadside vegetation will occur along untreated portions of Ponderosa Way between Ponderosa Sky Ranch and Plum Creek Road. Project work will also include treatments along 1 mile of previously untreated Canyon View Loop. State and County approve herbicides will be applied to treatment areas when appropriate and as approved by landowners who have property adjacent to the road within the project area. These fuel treatments will create a fuel break that will allow improved access for fire fighters responding to wildfires originating in adjacent chaparral and forest lands. They will also provide an improved evacuation route for residents of Ponderosa Sky Ranch, the Payne's Creek Road and Gun Club, Wilson Ranch, Lyman Springs and the Battle Creek Road and Gun club. Roadside fuel treatments will reduce the risk of roadside ignitions and fire spread as well as provide a cleared area from which fire fighting forces can conduct backfires and other fire suppression operators along with future prescribed fire projects that will protect roughly 150 inhabited structures located within the overall project area.	NOE	
2017028029	Lakeshore Boulevard Bank Stabilization Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Lakeport--Lake The CVWB will be issuing a 401 Water Quality Certification for this project. The project consists of the removal and replacement of 2,800 cubic yards of rock with a vegetated rock slope protection Geocellular confinement system. Includes road repair, curb and gutter with through curb drains repair.	NOE	
2017028030	California Aqueduct CAAQ Mile Marker (MM) 8.00 Repair Water Resources, Department of --Alameda DWR will repair embankment erosion that has destabilized the primary embankment of the California Aqueduct at MM 8.00 near Tracy, CA. 	space planned development; and APN 051-550-51: approximately 1.04 acres of single unit residential planned development to open space planned development; 3) tentative subdivision map consisting of 85 residential lots, one lift station lot, one public road lot, 12 private driveway access lots, and five open space lots. The tentative map includes the following two design waivers for reduced sidewalk standards; and 4) development plan for Piedmont Oak Estates to include 8.21 acres of open space areas and modifications to single unit residential zone district minimum standards for lot size, lot widths, yard setbacks, and max building coverage. Ten percent of the proposed residential units shall be reserved as affordable housing.		
2017021010	Wasson Canyon Elementary School Lake Elsinore Unified School District Lake Elsinore--Riverside The project is a proposed new elementary school to be built and operated by the Lake Elsinore Unified School District. The school will accommodate up to 850 students and 50 staff members. The site is vacant and partially covered with grasses and small trees and shrubs. Ephemeral Wasson Creek flanks the site to the east. The campus will include three classroom buildings, an administration building, and a building with a library, multi-purpose room, music room, and lunch room. Other features will include parking lots, student drop-off/pick-up lanes, a fire lane, and hard court recreational areas. The east part of the campus will be developed as an athletic field with adjacent stormwater detention basin.	MND	03/06/2017
2017021011	Planned Development Permit for Weisberg Single Family Dwelling Case No. PL 16-0084 Ventura County --Ventura The applicant requests approval of a planned development permit to construct a 2,972 sf one story single family dwelling with a 558 sf two car garage, a 769 sf three car garage, a 1,078 sf covered patio and barbeque area on the previously graded building pad located in the southeast portion of the lot. The roof of the single family dwelling will contain solar panels, which will provide electricity to the project site. The illegally graded pad in the western portion of the site would be revegetated in accordance with an approved restoration plan. Access to the site would be provided by way of Yerba Buena Rd using an existing unimproved 70-ft wide by 120-ft long driveway that will be upgraded per Ventura County Fire Protection District standards for access. Estimated earthwork includes 1,480 cy cut and 800 of cy fill and 680 cy of export. Grading will consist of 2:1 cut and fill slopes and a building pad with a 2-4% gradient. A 100-ft fuel modification zone would require brush removal and thinning around the residence, totaling approximately 36,973 sf. Water service will be provided by a private well. The existing water well and two proposed 4,995 gallon water tanks, will provide water to the site. A septic system will service the proposed project. Two gravel pits, approximately 39 feet wide by 50 feet deep, a septic tank, and a treatment tank would be constructed adjacent to and west of the single family dwelling. The total area disturbed by development is approximately 69,685 sf or 1.59 acres.	MND	03/06/2017

2017021012	GPA 2017-01 and ZC 2017-01 to establish the Packing House District Transit-Oriented Development Project Placentia, City of Placentia--Orange In conjunction with the county of Orange, Orange County Transit Authority, the city of Placentia will install a new train station to accommodate access for city residents to the regional passenger train system. The city proposes to support this new regional system connection by creating a transit-oriented development zone classification and land use designation in the packing house district of the city, which is located immediately adjacent to the proposed train platform. The objective of these new land use designations/classifications is to allow high density-transit oriented development in the immediate vicinity of the train platform to facilitate use of the regional system and redevelopment of the area surrounding the new station. To accomplish this, the city is proposing to adopt a TOD land use designation and zone classification.	MND	03/06/2017
2017021014	Stonegate Residential Development San Bernardino County --San Bernardino A) A preliminary and final development plan to establish 30 single family residences with a recreation area on 5.48 acres. B) A tentative tract map to create 30 lots on 35.12 acres.	MND	03/06/2017
2017022008	Pump Station 12 and 13 Rehabilitation Project Ross Valley Sanitary District Larkspur--Marin The primary goals of this project are to replace infrastructure that is past its useful life, address pump station operability and reliability issues, and improve maintenance operations and safety. Project scope includes replacement of nearly all mechanical, electrical, instrumentation, and central system components within PS 12 and 13.	MND	03/06/2017
2017022010	Westside Spreading, Inc. (Soil Amendment Processing and Distribution) Colusa County --Colusa The project consists of an approval of and administrative permit. The applicant proposes to use approximately 5-acres of a 10 acre parcel to store, mix, and distribute soil amendment products, gypsum and limestone, with finished compost. Heavy equipment will be used including semi-trucks and front end loader. An average of six truck trips per day are expected to occur. The operation is seasonal in nature occurring between April 30th and November 30th of each year.	MND	03/06/2017
2017022012	Fremont Weir Adult Fish Passage Modification Project Water Resources, Department of Davis, West Sacramento--Yolo The proposed project would improve salmonid and sturgeon passage in the Yolo Bypass. Construction would be completed within one year. The Fremont Weir fish ladder would be modified to accommodate a wider, deeper concrete box culvert. The channels that extend downstream and upstream of the fish ladder would be realigned to provide better fish passage with the modified fish passageway. A road near the fish ladder would be realigned. In addition, two earthen agricultural road crossings along the Tule Canal would be modified. At Ag road crossing 2, one 30" culvert and one 36" culvert would be replaced with a railcar bridge. At ag road crossing 3, the existing 30" culvert would be removed.	MND	03/06/2017

2017011014	Los Robles Apartments Pasadena, City of Pasadena--Los Angeles Project consists of removing existing buildings and improvements from the site and constructing a four-story residential apartment complex containing 291 dwelling units. Parking for the residential uses would be provided in two levels of subterranean parking containing 521 parking spaces. The Project would also contain 40,430 sq. ft. of courtyards that would provide outdoor amenities to residents.	NOP	03/06/2017
2017021015	Black Rascal Flood Control Project Merced County Merced--Merced Merced County is proposing to implement a flood control project immediately upstream of the Black Rascal Creek Diversion Channel. The proposed detention basin and wetland area would temporarily store flow during periods of heavy rain and limit flow in the Diversion Channel to 3,000 cfs. The proposed project would include a perimeter levee surrounding a 300-acre inundation area, to accommodate up to 2,800 acre-feet of water during a 200-year storm event, and an internal levee to protect agricultural land within the basin during more frequent storms, up to a 50-year event. The detention basin outlet would also include a series of reinforced concrete box culverts to limit flows in the diversion channel to 3,000 cfs.	NOP	03/06/2017
2017022007	Mariani's Inn, Residences and Senior Living Project Santa Clara, City of Santa Clara--Santa Clara The project proposes to demolish several existing commercial and residential structures on a 7.14-acre property located on two city blocks and construct a new mixed-use project within the city. The proposed project includes demolition of approximately 102,348 sf of existing commercial and residential buildings and construction of up to 392 multi-family and senior residential units and approximately 221,417 sf of commercial space. The commercial space would include an approximately 311-room hotel, as well as an approximately 8,000 sf restaurant and up to 22,000 sf of ancillary uses (i.e., spa, fitness center, and meeting rooms). The project will be phased as part of a development agreement with phase I anticipated to occur upon project approval and phase II anticipated to be built approximately five years later.	NOP	03/06/2017
2017022009	Ukiah Landfill Closure Project Ukiah, City of Ukiah--Mendocino Closure of the Ukiah Landfill will be performed in accordance with the applicable regulatory standards. The components and systems required for closure of the landfill include the final cover and grading design to control stormwater, potential infiltration and accommodate future settlement, landfill slope stability, construction quality assurance, drainage and erosion control systems, LFG control and monitoring systems, groundwater/surface water monitoring systems, and site security. 2017022011	<p>Aviza Residential Project Scotts Valley, City of Scotts Valley--Santa Cruz</p> <p>The proposed project is a General Plan Amendment and Zone change of the 21-acre site from Light Industrial to Residential Medium High Density (approx. 12 acres) and Open Space (approx. 7 acres). The remaining two areas are roadways. Additionally, approx. two acres would be dedicated for an on-site roadway. The applicant of the proposed project is 440 Kings Village, LLC (applicant).</p> <p>Per the Land Use Element of the City's General Plan, the allowable density for the Residential Medium High Density is 5-9 units per gross acre. However, as described in CH. 17.12 of the City of Scotts Valley Municipal Code (SVMC), the minimum individual lot area within the R-M-6 zone is 6,000 sf. This would allow for the potential future development of up to 87 dwelling units on the 12 acres of re-zoned R-M-6 land.</p> <p>Based on anticipated site constraints and City development requirements, a conservative maximum allowable density of 87 residential has been assumed for purposes of environmental review. A final maximum allowable residential density for the site will be determined through a Planned Development process for the site which will be required once a specific project applicant has been submitted. Regardless of dwelling unit count, future residential development on the site will be limited to disturbed areas, which includes the existing buildings and paved parking and roadway areas.</p> <p>A portion of the project site includes a secondary access road (Kings Village Road) from the industrial area up to Bean Creek Road. This roadway will limited to emergency vehicle access only, as well as non-vehicular access for pedestrian and bicyclists.</p>	NOP	03/06/2017
2017021013	<p>Design Review 16-2755, Variance 16-2757 and REP 2016-2756 to construct an upper level addition Laguna Beach, City of Laguna Beach--Orange</p> <p>The applicant requests design review approval for alterations to a "C" rated historic structure in the R-1. Design review is required for alterations to a historic structure, aggregate additions greater than 50% of the original structure, upper level additions (437 sf), elevated decks (85 sf), skylights, historic preservation incentive (setback flexibility) and landscaping. A revocable encroachment permit is required to maintain existing improvements within the public right of way (fence and brick patios). A variance is requested to not provide the min on-site parking and to encroach into the side yard setback (carport extension).</p>	Neg	03/06/2017
2017022013	<p>SunPower Tentative Parcel Map and Rezoning (ZF#2016-0028) Yolo County Davis--Yolo</p> <p>The project is a tentative parcel map and rezoning to subdivide 6 acres off from the main parcel and rezone it from ag intensive to agricultural industrial. The remaining 77 acres would be designated a remainder on the Tentative parcel map and remain zoned A-N and A-40. The 6 acres proposed for rezoning is not currently farmed. The applicant SunPower previously received approval of a site plan review in April 2015, to construct a solar agricultural research center which is now under construction. The research center will house up to forty employees focused on developing innovative ways to integrate solar arrays with agricultural uses.</p>	Neg	03/07/2017

2001021121	Tentative Tract Map 50283 - Gate King Project Santa Clarita, City of Santa Clarita--Los Angeles Project involves the subdivision of an approx. 508-acre site to allow the development of a 4.2 million sq. ft. industrial park. The project would involve about 5.7 million cubic yards of earth movement (cut and fill) and the direct removal of up to about 1,408 oak trees on-site. An estimated 207.6 acres of the site would be dedicated to the City of Santa Clarita as permanent open space. The project involves amending the City of Santa Clarita General Plan land use designations on much of the site, eliminating the Residential Estate (RE) and Community Commercial (CC) designations from the site and designating the entire site either Industrial Commercial (IC) or Open Space (OS).	NOD	
2010062069	Cordova Hills Sacramento County Rancho Cordova--Sacramento In entitling the Subdivision Maps, the Applicant is requesting five (5) changes/additions i.e., "[A]mendments" pursuant to Ch. 9 of the Cordova Hills Master Plan. Section 9.2.2.2 provides for "Minor Amendments" if such changes/additions are in substantial conformance with all the performance standards identified in said section. The proposed Amendments for University Village involve minor text changes to the SPA and revision of the Land Use Plan, the Parks Plan and the Trails Plan; while Ridgeline Village involves two amendments, one to the Land Use Plan and the other to the Circulation Plan.	NOD	
2010062069	Cordova Hills Sacramento County Rancho Cordova--Sacramento University Village entails a small lot Tentative Subdivision Map to further divide 12 Large Lot Map lots into 622 total lots (571 residential lots) located on 137.4 acres. The subdivision proposes a mix of six housing types and two large lots for future multi-family development. The map also includes an elementary school site, various park sites, numerous paseos (large and small), landscape, and open space areas.	NOD	
2010062069	Cordova Hills Sacramento County Rancho Cordova--Sacramento Ridgeline Village entails a small lot Tentative Subdivision Map to further divide fifteen Large Lot Map lots into 737 total lots/parcels (687 residential lots) and 50 Residential Lots within the Flex Commercial Parcel located on 204.7 acres. The subdivision proposes a mix of five housing types and one large lot for future Flex Commercial development. The map also includes two park sites, numerous paseos, landscape, and open space areas.	NOD	
2016031069	Pamo Valley Segment of the Coast to Crest Trail San Dieguito River Park Joint Powers Authority --San Diego CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to section 1602 of the Fish and Game Code (#1600-2016-0231-R5) to the project applicant, San Dieguito River Park Joint Powers Authority. The project proposes the installation of two puncheon bridges, five culverted crossings, and a drainage lens crossing, impacting a total of 0.007 acre of ephemeral stream, as part of the construction of the Pamo Valley Segment of the Coast to Crest Trail. 2017028044	Water Treatment Lighting Retrofit Project (MVRWRF & PVRWRF) Eastern Municipal Water District Moreno Valley, Perris--Riverside Eastern Municipal Water District's (District) Water Treatment Lighting Retrofit Project (Project) proposes to replace approximately 2,400 existing light fixtures with energy efficient LED fixtures at the District's Moreno Valley Regional Water Reclamation Facility (MVRWRF) and Perris Valley Regional Water Reclamation Facility (PVRWRF). The proposed project is designed to replace both interior and exterior lighting fixtures, thus reducing energy consumption. Additionally, the proposed project would improve safety and employee access by providing improved lighting at maintenance locations. Finally, the proposed project replaces existing fixtures and does not propose any new light sources, therefore it is not anticipated that the proposed project would affect any aesthetics to historical sights.	NOE	
2017028045	AMI Replacement Project Eastern Municipal Water District Hemet, Menifee, Moreno Valley, Murrieta, Perris, ...--Riverside Eastern Municipal Water District (District) proposes to implement an Automated Meter Infrastructure (AMI) Replacement Project (Project). The District has approximately 148,400 water meters that are read on a monthly basis, and many of these meters have been converted to AMI technology over the past several years. The overall goal of the proposed project is to deploy AMI technology to all customer-based water meters in the District's service area. Currently, the District proposes to replace approximately 88,400 existing manual meters by installing new AMI meters and transmitters. AMI Technology would provide information to District staff that would be used to analyze individual customer water use; identify potential water leaks, irrigation concerns, and water use efficiency issues, resulting in both water and energy savings; and improve customer support. 2015122005	Heart of Fairfield Specific Plan Fairfield, City of Fairfield--Solano The Heart of Fairfield Plan is a specific plan located in the city of Fairfield, encompassing the Downtown and West Texas Street neighborhoods. The Heart of Fairfield Plan covers approximately 513 acres and contains Fairfield's historic Downtown, the Solano County Government Center, the Fairfield Transportation Center regional bus and transit hub, the Suisun-Fairfield Train Station, a diverse set of land uses, and numerous amenities that serve both the local community and the wider region. The plan area is roughly bounded by I-80 on the west, the Union Pacific Railroad tracks on the east, Empire and Kentucky Streets on the north and highway 12 on the south. The plan area encompasses two neighborhoods: Downtown and West Texas St. These neighborhoods were designated as priority development areas by the Association of Bay Area Governments because of local and regional interest in encouraging infill development that can take advantage of regional transit facilities. The Fairfield Transportation Center and the Suisun-Fairfield Tran Station provide access to the Capital Corridor commuter rail service as well as the national Amtrak network.	EIR	03/22/2017
2016011073	Corona Del Mar High School Sports Field Project Newport-Mesa Unified School District Newport Beach--Orange Replacement and reconfiguration of the existing natural-turf field and synthetic track with synthetic-turf field and track, construction of new 1,000-seat capacity bleachers (700 home side and 300 visitor side), a press-box, public address system, and nighttime lighting. The proposed project would also include an approx. 3,000 sq. ft. building with two ticket booths, two restroom areas, a main concession area, and storage building.	EIR	03/22/2017
2017021017	Death Valley Junction Thin Blanket Caltrans #9 --Inyo Caltrans proposes to overlay existing pavement with a 0.1' lift of asphalt and place shoulder backing up to three feet from the edge of pavement at the intersection of SR 127 and 190 at PM 42.0-42.4/126.1-140.7 in Inyo County, CA. All work will be conducted within existing ROW.	MND	03/07/2017
2017021019	Second San Diego Aqueduct Moosa Canyon Erosion Control Project San Diego County Water Authority --San Diego The Water Authority proposes to stabilize a portion of the Moosa Canyon Creek channel to protect against further erosion, which could lead to failure of the underlying Second Aqueduct pipelines. The proposed channel stabilization entails constructing an engineered rip rap feature at and downstream of the pipelines creek crossing. The project would use 1/2 ton sized rip rap that would be placed from just west of the westernmost pipeline alignment to approximately 200 feet downstream. A portion of the rip rap placed downstream of the aqueduct alignment would be grouted in place to ensure long-term stability, while the rip rap placed on the banks and the remainder of the downstream rip rap would be non-grouted. 2017021018	Guardian Angel Pet Cremation San Diego County Air Pollution Control District Escondido--San Diego The project applicant, Guardian Angel Pet Cremation, proposes to install a natural gas Therm-Tec dual chamber animal crematory within an enclosed building to reduce pet comparison remains to bone fragments through the application of intense heat and flames. The cremators are proposed to operate a max of ten hours per day, six days per week, fifty-two weeks per year. The footprint of the existing structure would not be altered.	Neg	03/07/2017
2003021141	Addendum to FEIR 584 and FEIR 589, Trampas Canyon Dam and Reservoir Project Orange County --Orange Project consists of the construction of Gibby Road Bridge across San Juan Creek, which would replace the existing low-water "Arizona" crossing, which currently crosses San Juan Creek connecting Ortega hwy (SR 74) to an interior private road owned by Rancho Mission Viejo (RMV). The replacement bridge is a single-span, cast-in-place pre-stressed (CIP/PS) concrete box girder structure with a span length of approx. 220 feet. The replacement structure will be located approx. 175 feet east of the existing Cow Camp culvert crossing. The existing crossing will be removed and the stream restored.	NOD	
2009052096	Coyote Point Recreation Area Shoreline and Promenade Improvement Project San Mateo County San Mateo, Burlingame--San Mateo Located along 1,800 feet of SF Bay shoreline from Coyote Point headland west to Humane Society facility, existing site conditions include shoreline protection features, windsurf access, promenade, restrooms, lawn & parking areas. Proposed changes include rock revetment; creation fo a crenulate shaped bay, beach area & dunes; reconstruction of existing promenade & beach access; and parking & restroom improvements. CA Natural Resources Agency is filing as responsible agency for landscaping & irrigation portions (3,500 1-gallon native grasses, 60 5-gallon native shrubs, 85 15-gallon native trees, and bio-retention areas) of the Eastern promenade enhancement project.	NOD	
2015102010	UCSF Research Building and City Parking Garage Expansion at the San Francisco General Hospital Campus University of California, Regents of the San Francisco--San Francisco The proposed project is for the City and County of SF to grant the University of California, SF to ground lease approx. 51,500 sq. ft. property at the Priscilla Chan and Mark Zuckerberg San Francisco General Hospital and Trauma Center (ZSFG) campus owned by the City and County of San Francisco. The site is proposed location for a new 175,000 gross sq. ft. (gsf) Research Building. At a future date, UCSF will request Regents' approval of budget, external financing, and design for the Research Building. ZSFG is owned and operated by the City, which has partnered with UCSF in public health since 1873. ZSFG is staffed with UCSF clinicians/researchers and San Francisco Dept. of Public Health employees and serves as a teaching hospital for UCSF's Schools of Medicine, Dentistry, Nursing, and Pharmacy. 2016021103	<p>North Campus Open Space Restoration Project University of California, Santa Barbara Goleta--Santa Barbara</p> <p>Project is to restore portions of the historic northern extent of the Devereux Slough primarily on the former golf course property and would also restore portions of the South Parcel. Proposed restoration efforts would expand the slough, wetland, and transitional and upland habitats; provide public access and passive recreation amenities; and promote educational opportunities. The CA Natural Resources Agency is filing as responsible agency for a portion of the project including restoration of the 20 acres of diverse coastal habitat known as Phase 4.</p>	NOD	
2016051011	<p>Hurricane Point to Rocky Creek Safety Upgrades Caltrans #5 --Monterey</p> <p>The project will widen the southbound lane to 12 ft and southbound shoulders to 4 ft from post miles 58.32 to 58.36. Both sides of the highway will be widened to 12 ft lanes and 4 ft shoulders from post miles 58.36 to 59.22. New guardrail is proposed on the southbound shoulder from post miles 58.30 to 58.36 and from post miles 58.40 to 58.45. Guardrail replacement is proposed in spot locations identified by Caltrans Traffic Safety Division from PM 59.25 to 59.71. The historic Bixby Bridge lies within these limits, and the guardrail to bridge rail transitions at all four bridge corners are proposed to be replaced. No work will occur on the Bridge.</p>	NOD	
2016052071	<p>Shingle Springs Drive Improvements-Encroachment Permit El Dorado County --El Dorado</p> <p>Site plan encroachment permit review analyzing the impacts of the construction and operation of a 12-inch 2,400 linear foot water main, a 6-inch, 3,335 linear foot sewer force main pipeline, associated appurtenances and connections of both pipelines, and a 36 x 40 foot paved driveway within the El Dorado County Right of Way of Shingle Springs Drive. El Dorado County processed the project as an IS/MND and posted a NOD on June 30, 2016.</p> <p>Subsequent to the County filing the NOD, the El Dorado County Superior Court issued a tentative stay on the encroachment project approval and encroachment permits (El Dorado Council.org v. County of El Dorado PC-2016-0333). Public Resources Code section 21167.3(a) 2 states that if a lawsuit alleging that an environmental document fails to comply with CEQA and an injunction or stay is issued prohibiting the project from being carried out, pending final determination of the issue of compliance, "responsible agencies shall assume that the environmental document for the project does comply with the provisions of this division and shall issue a conditional approval or disapproval of such project" under timelines set forth in the Govt. Code. 3 (Public Resources Code 21167.3 (a), emphasis added.).</p> <p>While it was intended that a separate encroachment permit would be required for subsequent phases of the Project, the County's intent was to have the MND cover the total buildout of the project site. With the stay in place, the County has revised the project plans to only include buildout of Phase 1 of the project. The revised project plans restrict activities performed under the encroachment permit.</p> <p>In this case, the District as a responsible agency must assume that the IS/MND prepared by the County for the encroachment permit project complies with CEQA, and issue a conditional approval pending the existing stay being lifted by the El Dorado County Superior Court. This conditional approval does not include water service sufficient to serve the full buildout of the project site, but only water and</p>	NOD

	allowed under the current CR designation.		
2017022020	Storage Pro of Vacaville Vacaville, City of Vacaville--Solano The project is to construct an approximately 95,500 sf one-story self-storage facility on a vacant 5.17-acre site at 5006 Walnut Road. The site plan includes nine storage buildings with 365 storage units, an 821 sf office, four parking spaces, and a 1-acre retention basin for collecting and treating on-site stormwater runoff. Unit storage will include household possessions, automobiles and recreational vehicles. The max building height will be approximately 15 ft to the storage units and 25 ft to the decorative towers. The project includes a request to increase the allowable floor area ratio from 0.30 to 0.42. Exterior elevations will resemble Spanish architecture. Site access will be provided by a main entrance along Walnut Rd, with secondary access provided by an adjoining property to the north.	MND	03/08/2017
2017021024	Central City and Central City North Community Plan Update Environmental Impact Report Los Angeles, City of --Los Angeles The project is the update to the Downtown Community Plans, and the adoption of necessary amendments to the land use, zoning, community plan text, and other ordinances to implement those updates.	NOP	03/08/2017
2017022021	Vegetation Management Plan for the UCSF Mount Sutro Open Space Reserve University of California, San Francisco San Francisco--San Francisco The plan includes several vegetation management actions on Mount Sutro to be conducted in three phases over the next 20 years. The actions would be undertaken to 1. Protect the safety of the Reserve users and adjacent campus and residential properties; 2. Improve and enhance the health and stability of the ecosystem; 3. Enhance the visual design and aesthetic experience in the Reserve; and 4. Maintain and ensure public access to the Reserve. Actions include removing dead and dying trees and understory, trimming or removing trees for defensible space between buildings and vegetation, and implementing restoration in areas including planting blue gum eucalyptus, other eucalyptus, other eucalyptus, and native species. No herbicides would be used in the program.	NOP	03/08/2017
2004052131	Richmond Greenway Richmond, City of Richmond--Contra Costa The Unity Park Addendum to the Richmond Greenway Project IS/MND (2004) evaluates whether modifications/refinements to the project park design for Unity Park would result in any new or substantially more adverse significant effects or require any new mitigation measures not identified in the 2004 IS/MND. similar to the Original Project, the Proposed project would consist of the development of a community park along a portion of the Richmond Greenway. The proposed project differs from the Original Project because it includes details on the proposed design for the park and also includes the acquisition and development of an adjacent parcel located at 1605 Ohio Avenue that was not evaluated in the 2004 IS/MND. As verified in the Addendum, the analyses and the conclusions in the 2004 IS/MND remain current and valid. The proposed revisions to the Original Project, in the form of development of additional park facilities,	NOD

2013012064	South Lathrop Specific Plan Lathrop, City of Lathrop--San Joaquin Project is a part of the larger 315 acre South Lathrop Specific Plan (SLSP). The SLSP includes development of 10 acres of commercial office uses, 222 acres of limited industrial uses, and the remaining 83 acres in open space, roads and public safety sites. This portion of the project consists of a light industrial and commercial development and is approx. 263 acres.	NOD	
2015102051	Matadero Creek Restoration and Bank Stabilization Project Los Altos Hills, City of Los Altos Hills--San Mateo Project will stabilize and restore Matadero Creek into a more sustainable and healthy riparian ecosystem and repair erosion and undercutting of the creek channel caused by 2009-1010 winter storms. The project includes removal of a portion of the outfall apron below the Page Mill Road box culvert; removal of 6 willow and 7 walnut trees; grading of approx. 330 feet of new channel; creation of a longer rock rip-rap chute and reinforced drop-pool habitat feature to dissipate the creek's energy; downstream reinforcement of the creek bank; and use of bio-technical stabilization methods to stabilize and shade the creek with willows, walnut and native grasses to restore the channel.	NOD	
2015112056	Fiddletown Road Bridge Replacement Project Amador County --Amador Project will construct a new bridge at the same place as the existing bridge on Fiddletown Road. The bridge will be a concrete precast cored slab bridge with a span approx. 40-feet long and a width of 30 feet. The new bridge will accommodate two 11-foot wide travel lanes and two 4-foot wide shoulders. Possible aesthetic features will be added to the proposed bridge, including architectural form liners and/or a concrete facade along the edge of the deck to mimic the appearance of an arch bridge. The new foundation and abutments will be constructed outside the ordinary high watermark of North Fork Dry Creek.	NOD	
2016031065	Cricket Hollow Boat Launch Facility Improvements Reedley, City of Reedley--Fresno Construction and Operation of improvement to the Cricket Hollow Boat Launching Facility, which includes the following: installation of a concrete mat at the bottom of the ramp; construction of a pile guided boarding float; installation of a 0 foot wide concrete shoulder parallel to the ramp to allow for maintenance and access; and installation of a new restroom, security lights, and restriping of portions of the parking lot. Construction is anticipated to begin in fall/winter of 2016, and will take approx. 3 months to complete. The State Lands Commission action is an amendment of a 49-year General Lease - Public Agency Use through Dec. 31, 2035.	NOD	
2016072038	Mallard Farms Pipeline Replacement Project California State Lands Commission Suisun City--Solano Continued use and maintenance of an existing 8-inch diameter refined petroleum products pipeline, abandonment in place of pipeline segments, construction of a temporary work platform, installation of temporary pilings and buoys, and installation of a new horizontal directionally drilled 8-inch diameter pipeline, 75 feet	NOD

2016042076	Encinals Terminals Master Plan Alameda, City of Alameda--Alameda The project sponsor, North Waterfront Cove LLC, is proposing a Master Plan and Density Bonus Application for Encinal Terminals, a new residential mixed use waterfront community on both land and water. Overall, the proposed project would demolish existing structures on the project site and construct up to 589 new housing units, a marina with up to 160 boat slips and a harbormaster's office, between 30,000 and 50,000 sq. ft. of commercial/office and restaurant uses, and over three acres of waterfront-related public open space and parks. Three existing wooden wharves and two concrete wharves on the site would be improved as part of development of the proposed waterfront open space uses, through a combination of demolition rehabilitation, modification, and/or retrofit activities.	EIR	03/24/2017
2016042073	Olema Tributary Creek Culvert Replacement Project Caltrans #4 --Marin Caltrans proposes the Olema Creek Tributary Culvert Replacement Project to replace a failing double culvert on SR 1 in rural Marin County, CA, at PM 24.67, which is approximately 1.8 miles south of the town of Olema. The project involves removing two undersized 24-in diameter culverts that currently convey the flows from an unnamed tributary of Olema Creek, and constructing a 44 ft long, natural bottom culvert (cast in place, reinforced concrete box) that is approximately 30 ft wide on its interior and 36 ft wide on its exterior. The culvert would require soil nail wingwalls in each quadrant extending perpendicularly from the culvert opening until it meets the 2:1 embankment slope where the wingwalls would meet the existing ground.	FIN	
2017021026	Site Plan Review and Grading Permit (Case No. ZON2016-00401) Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles The proposed project involves the construction of one 1,917 sf single family residence plus a 600 sf detached garage (total structure size of 2,617 sf), and a water storage tank on a vacant lot located at 48 Cinnamon Lane.	MND	03/09/2017
2017021027	Los Cerritos Road Bridge Replacement Project Merced County --Merced The proposed project is located in Merced County on Los Cerritos Road, to the north of Keyes Road and Figmond Ave and to the south of Olsen Road, over Dry Creek. The Merced County Department of Public Works proposes to replace the existing deficient bridge structure over Dry Creek with a Three-span cast-in-place prestressed concrete slab bridge. 	two-bedroom units are proposed ranging from 400-1,060 sf in six different plan types. The project site would include both public and private open space, including an urban plaza, a courtyard, and roof terraces. Additionally the project site will include a 334 parking space, 5 1/2 story parking garage. Approximately 2.06 acres of the project site would be developed with impervious surfaces while the remaining 0.22 acres would be kept pervious and include landscaping, courtyards, and bioretention area. The modern architecture incorporates plaster, metal screens, signage, and lighting.		
2017022023	Reed and Grant Streets Sports Park Santa Clara, City of Santa Clara--Santa Clara The project would construct a city-owned public sports park facility that would include five lighted sports fields, a 3,500 sf multi-purpose recreation building, a landscaped promenade and entry plaza, a children's play apparatus with seating and picnic area, gathering and viewing areas, and a maintenance yard and building.	MND	03/09/2017
2017022024	La Faille Ranch Planned Residential Development (PSUB20110084) Placer County --Placer The proposed project consists of a 14-unit major subdivision on an approximately 172-acre property located in the Penryn area.	MND	03/09/2017
2017022025	Caldwell Parcel Map Nevada County --Nevada Combined application proposing: 1) a tentative map to subdivide property located in Penn Valley into two residential lots; 2) a management plan to allow disturbance to wetlands, seasonal and ephemeral streams and the setbacks thereto for future construction of a driveway for proposed parcel 2; and 3) a management plan to allow disturbance within landmark oak groves for the future driveway and the proposed MUSDA area for parcel 2. The resulting parcels are proposed to be approximately 10.05 and 5.0 acres in size.	MND	03/09/2017
2017022026	1629 Market Street Mixed-Use Project San Francisco, City and County of San Francisco--San Francisco The proposed project would construct a new four story, 58-foot-tall, 27,300 sf UA Local 38 building, as well as a 10-story, 85-foot tall, 187,100 sf addition to the Lesser Brothers Building at the corner of Brady and Market Streets containing 198 residential units and 6,600 sf of ground-floor retail/restaurant space. A 10-story, 85-ft tall, 118,300 sf residential building containing 136 residential units and 2,500 sf of ground floor retail/restaurant would be constructed on Market St between the new UA Local 38 building and the mixed use building at the corner of Brady and Market Streets. A nine story, 85-ft tall, 74,700 sf residential building containing 78 residential units would be constructed to the east of the Brady Open Space at the end of Colton Street. The five story, 55 ft tall Civic Center Hotel would be rehabilitated to contain 65 residential units and 4,000 sf of ground floor retail/restaurant, and a new six story, 68-ft tall, 50,900 sf Colton St Affordable Housing building containing up to 107 affordable units would be constructed south of Colton St as part of the proposed project. The proposed project would construct the new 18,300 sf Brady Open Space at the northeast corner of Brady and Colton Streets. In addition, the proposed project would include an approximately 30-ft	NOP	03/09/2017

	deep, two level, below grade garage with up to 316 parking spaces accessible from Brady and Stevenson Streets, which would require up to 63,400 cy of excavation.		
2017021025	Modifications to Johnson Canyon Landfill Composting Operations Salinas Valley Solid Waste Authority Gonzales--Monterey The authority commenced organics processing in the form of a chipping and grinding operation in May of 2005. Currently, the authority contracts for this service with Vision Recycling of Fremont, CA. The authority provided an EA Notification for modified organics operations in May 2015 for green waste composting operations up to 26,009 tons per year. The proposed project would add a food waste composting element to the existing compost operation. In order to accomplish including food waste into the existing compost operation, as well as other unrealed revisions to the facility permit, CalRecycle advised the authority to incorporate these changes into a revision of SWFP 27-AA-0005.	Neg	03/09/2017
2014012057	Napa River Restoration: Oakville to Oak Knoll Project Napa County Yountville--Napa Project includes earthmoving activities and installation and maintenance of channel restoration activities along 4.6 miles of a 9-mile stretch of the mainstem Napa River. The purpose of the Proposed Project is to restore and enhance long-term river and floodplain functioning, improve the quality and resilience of aquatic and terrestrial riparian habitat, and reduce property damage and sediment delivery associated with ongoing bank erosion processes. Project will include channel widening, floodplain restoration, biotechnical stabilization, in-stream habitat structures, managed retreat and revegetation management.	NOD	
2016031065	Cricket Hollow Boat Launch Facility Improvements Reedley, City of Reedley--Fresno CDFW has executed Streambed Alteration Agreement No. 1600-2016-0138-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, the City of Reedley. Project includes activities related to construction improvements to the boat launching facility in Cricket Hollow Park including a new boat launch ramp, boarding float, bathroom, parking area, and walkway access, and revegetation activities following construction.	NOD	
2016041058	Project Jupiter Distribution Warehouse Apple Valley, City of Apple Valley--San Bernardino The proposed 106.5 acre parcel to accommodate a 1,360,875 sq. ft. distribution center and associated ancillary facilities. The distribution warehouse will consist of a single, 45 foot high building consisting of primarily of warehouse space. Ancillary office space, including administration, shipping and receiving offices, are included in the building envelop. Separate guard house (510 sq. ft.) and fire pump house (1,080 sq. ft.) building are proposed on the east side of the site, at the project entrance. Parking areas, located on the east and south sides of the site. The site plan has also been designed to include storm water retention facilities on the west side of the site. Project also includes off-site improvements. These include roadway improvements to Navajo Road, Lafayette Street, and Dachshund Avenue; water	NOD

	<p>main relocation and extensions on the frontage roadways; and undergrounding of power lines on Navajo Road.</p> <p>The proposed project occurs within the boundary of the North Apple Valley Industrial Specific Plan, which was adopted by the Town in Oct. of 2006. At that time, the town also certified an EIR for the entire Specific Plan.</p> <p>The Town has then prepared a subsequent MND/IS for the Project Jupiter Distribution Warehouse project, which tiers off of the Specific Plan EIR (SCH#2006031112). This EIR was prepared to review the environmental constraints and opportunities associated with imposing mitigation measures, the EIR was designed to be used as an information database to facilitate the streamlining, or tiering of the environmental review process for subsequent projects proposed within the Specific Plan boundary.</p> <p>The proposed project is consistent in size, land use, intensity and design with the development previously anticipated, analyzed, and approved as part of the Specific Plan and EIR. Because the proposed project is within the scope of the previously certified EIR, and consistent with the requirements of CEQA Guidelines Section 15162, a subsequent MND/IS has been prepared to examine the proposed project in the light of the Specific Plan EIR in order to determine if the proposed project would result in any impacts greater than those previously analyzed and disclosed.</p>		
2016042073	<p>Olema Tributary Creek Culvert Replacement Project Caltrans #4 --Marin</p> <p>Project involves the removal of two undersized and damaged 24 inch diameter culverts beneath SR 1 and constructing a cast-in-place or precast, reinforced concrete, bottomless culvert. The project will restore the creek's function as a salmonid foraging stream. The new roadway will support a roadway with two 12 foot lanes and two 4 foot wide shoulders.</p>	NOD	
2016122024	<p>El Dorado County Placerville Jail Expansion El Dorado County Placerville--El Dorado</p> <p>The proposed project includes construction of a two-story jail building that would be separate from, but attached to, the existing jail facility. The proposed two-story structure would have a maximum floor area of 25,000 sq. ft. The proposed structure would act as an expansion to the existing facility and would include space for medical and mental health facilities, inmate housing, administrative and staff support facilities, and inmate programs. The proposed mental health facility areas would include medical evaluation rooms and 14 medical beds. The proposed project would not increase the inmate capacity of the jail, but would instead allow for increased program space at the existing jail facility and more appropriate distribution of inmate housing throughout the jail. The County is pursuing a grant from the Board of State and Community Corrections (BSCC) as authorized by Senate Bill 844 for the construction of the jail extension.</p>	NOD

2017028188	Tideland Use and Occupancy Permit to DOLE for Warehouse Space San Diego Unified Port District San Diego--San Diego The proposed project is a tideland use and occupancy permit to the DOLE Fresh Fruit Company, a Nevada Corporation for their use of approximately 4,339 square feet of non-exclusive warehouse space for the purpose of accessing two loading doors located within the National Distribution Center in the city of National City, California. The areas proposed for use and are currently and are proposed to be used only and exclusively for the purpose of warehousing, distribution, refrigeration, and an office facility, and for no other purpose of warehousing, distribution, refrigeration, and an office facility, and for no other purpose whatsoever without the prior written consent of the Executive Director of the District in each instance. The proposed project would not increase storage capacity or queueing time for trucks, but now to allow for additional truck trips. The Tenant would be responsible for compliance with all laws and regulations associated with the activities on or in connection with the above-described premises, and in all uses thereof, including those regulating storm water and hazardous materials. No new development, construction uses, or incase in the size of the Tenant's leasehold or the TUOP area is proposed or authorized as part of this TUOP.	NOE	
2017028189	San Diego Yacht Club Wood Deck Expansion Project San Diego Unified Port District San Diego--San Diego The proposed project involves the expansion of the existing upper-level wood deck, located on the southwestern portion of the San Diego Yacht Club leasehold in the City of San Diego. The deck, as currently, configured, has an upper-level wood deck and a lower level concrete deck. The proposed project would expand the area of the wood deck to over the area of concrete deck. The area of the existing concrete deck is 2,154 square feet and the area proposed wood deck expansion is 2154sf. The expansion would take place entirely over the existing concrete deck; therefore, there would be no expansion in total area of deck space, and no addition of over water coverage. Construction of the proposed project is anticipated to commence in January 2017 and take approximately three months to complete. The applicant is responsible for complying with all applicable federal, state, and local laws regulating construction demolition debris, hazards and hazardous materials, noise and storm water.	NOE

2017028190	San Pablo Clearwell Replacement and Water Treatment Plant Rehabilitation Project East Bay Municipal Utility District --Contra Costa Demolition of the existing 5.4-million gallon San Pablo Clearwell open cut reservoir followed by construction of two 2.7-MG replacement concrete tanks within the basin of the existing clearwell and rehabilitation work at the San Pablo Water Treatment Plant and San Pablo Tunnel.	NOE	
2017028191	Supplemental Exploration for Improvements to South dike of Sweetwater Reservoir Sweetwater Authority --San Diego The DWR, Division of Safety Dams has requested Sweetwater Authority make improvements to the South Dike and other facilities. The purpose of this geotechnical exploration is to obtain information on the composition and properties of the sound berm of State Route 125, and the thickness and character of the rip rap and rock drain of the South Dike. Using a hand-auger, borings will be made on the northern flank of the sound berm and on a near hiking trail to a depth of 10 to 15 feet. Using a backhoe, shallow test pits will be made on the downstream side of the South Dike. For public safety purposes, the trail will be temporarily closed or rerouted while geotechnical exploration is performed. This duration of trail closure or rerouting is not expected to be more than one day. Appropriate construction BMPs will be implemented throughout the duration of this project. Laboratory testing will follow.	NOE	
2017028192	Marylenn Drive Sanitary Sewer Rehabilitation Project (Streambed Alteration Agreement No. 1600-2016-0261-R3) Fish & Wildlife #3 --Santa Clara The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 160-2016-0261-R3, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, City of Milpitas. The project includes installation of a temporary sewer bypass pipeline parallel to lower Penitencia Creek between Marlenn Drive and California Circle. The total bypass pipeline length is 5,000 feet and is an 18-inch diameter joint less HDPE pipe. Along the majority of the creek, the pipe will rest on the maintenance road or adjacent to the road on the bench. However, there are two bridges that cross the creek which would require the bypass pipeline to be installed beneath the bridges. At the bridges, the pipe location will be within the stream bank, but above the wetted channel. The bypass pipeline will be secured using wooden stakes, rebar stakes, or similar materials. The pipeline will be present for 3 weeks with active bypass flow for 2 to 3 days.	NOE	
2017028193	Pit 5 Powerhouse Access Road Culvert Improvement Project, WDID# 5A45CR00508, Montgomery Creek, Shasta County Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Shasta The Pit 5 Powerhouse Access Road Culvert Improvement Project consists of installing a larger culvert with rock and concrete retaining walls. The larger capacity culvert will reduce the risk of erosion failures of the access road and parking lot of the PG&E Pit 5 Powerhouse. The project is an improvement of an existing creek crossing. The benefits of the project include reduced interruption of access to the powerhouse and reduced potential for sediment discharges to the	NOE

	Pit River from erosion related failure of the crossing.		
2017028194	Buckingham Park Water District Distribution System Improvement Project Buckingham Park Water Distirct --Lake The District is seeking assistance to complete a maintenance project to repair and replace aging equipment throughout the distribution system to reliably provide potable water and adequate fire protection to the District's service area. The Distribution System Improvement project will remove and replace existing water line on little borax lake road with 1,700 feet of 6 inch pipe, remove and replace 59 existing 4 inch fire hydrants with 6 inch fire hydrants, blast and recoat pressure zones 1 and 2 storage tanks interior and exterior shell using containment, repair miscellaneous mechanical and electrical components at Zones 1 and 2 tank sites.	NOE	
2017028195	Parker Avenue Pedestrian Improvement Project Contra Costa County --Contra Costa The purpose of this project is to improve pedestrian safety and accessibility at the project intersection. The improvements will provide access between the nearby homes, Rodeo Hills Elementary School, Lefty Gomez Recreation Center and Ball Field on the west side of Parker, and the grocery store, bank, housing, and bus stop on the east side of Parker Avenue. Project components include completing a segment of missing sidewalk and gutter, installation of two cub bulb-outs, two Americans with disabilities act curb ramps, and three rectangular flashing beacons. In addition, the project will install two new drain inlets and 180inch storm drain laterals to connect the new inlets to the existing storm drain system.	NOE	
2017028196	Walnut Creek Crosswalk Improvements Project Contra Costa County --Contra Costa The purpose of this project is to improve pedestrian safety at two existing crosswalk locations in unincorporated Walnut Creek. The project consists of installing rectangular rapid flashing beacons for crosswalks at the intersections of Olympic Boulevard and Bridgefield Road, and Walden Road and Westcliffe Lane. The Olympic Bridgefield location will also have an advance RRFB due to a curve in the roadway. IN addition to RRFBs, at the Olympic/Bridgefield location a landing area will be constructed on the north side of the crossing with an American with Disabilities Act (ADA) accessible curb ramp and detectable warning surface to alert users that they are entering the roadway. At the south side of the crossing, a detectable warning surface will be installed that will tie into the existing Olympic Corridor Trail. Construction of the landing area on the north side may require partial removal of a fence and ivy. The Walden/Westcliffe improvements will include a passive detection system for the RRBs and detectable warning surfaces will be installed on both sides of the crossing. The Walden/Westcliffe improvements will tie into the existing Iron Horse Trail. Maximum excavation will be approximately three feet for installation of RRFBs	NOE

2017028197	Trail Crossing Locations at Madison Avenue, Cleveland Avenue and Franklin Avenue near the Bel Air Elementary School in the Unincorporated Community of Bay Point Contra Costa County --Contra Costa The purpose of this project is to improve pedestrian access and safety at three Bel Air Trail crossings near Bel Air Elementary School in the area of Bay Point. The project proposes to add approximately 120 feet of sidewalk as well as 8 foot wide paved shoulders on both the east and west side of Madison Avenue. Signage and three pedestrian actuated Rectangular Rapid Flash Beacons are proposed at the trail crossings on Madison Avenue, Cleveland Avenue and Franklin Avenue. Striping will also be added to restrict parking and U-turns on Madison Avenue. These measures will increase pedestrian safety during the heavy morning and afternoon peak traffic as well as increase driver awareness on the trail throughout the day and tie into the existing trail facility. Vegetation removal and tree trimming may be necessary.	NOE

2017021028	17th Street Properties - Tentative Tract 17925 Seal Beach, City of Seal Beach--Orange The basic project consists of a tentative tract map proposed at 232 through 244 17th St in the city of Seal Beach. The site is 0.52 acres. The proposed subdivision will consolidate three existing legal parcels and create five parcels out of existing odd-shaped lots that include a government-owned diagonal railroad easement through the properties. There will be four new 28,125-ft wide lots and one 112.5 ft wide lot. All lots are 100 ft deep. The project site was sold at auction in 2014. The proposed map contemplates that one single family residential structure will be built on each of four 28,125-ft wide lots, with the fifth lot to be left as is. An existing duplex of 1,696 sf of habitable space will be torn down, but the larger lot has a structure that will remain. The project site is located in the RHD 20 residential high density zone.	MND	03/10/2017
2017021030	Draft Initial Study and Mitigated Negative Declaration for the Baron Ranch Trail Realignment Project Santa Barbara County --Santa Barbara Realignment of the existing 6 mile long Baron Ranch Trail, extending from the Baron Ranch property line and trail head to the lower limits of the existing upper Baron Ranch Trail Loop at the Los Padres National Forest Boundary in the Santa Monica Mountains. The project would include: realignment of the trail from the east side of Arroyo Quemado to the west side, construction of a 3,320 sf vehicle and horse trailer turnaround; installation of a 65-ft long and 8-ft wide prefabricated bridge over Arroyo Quemado; and installation of three gates, a small kiosk, wayfinding and interpretive trail signs, fences, and erosion control measures.	MND	03/10/2017
2017022028	Paradise Beach Master Plan Marin County Tiburon--Marin Paradise Beach County Park is a 19-acre regional park located on the side of the Tiburon Peninsula adjacent to the SF Bay. Having spectacular views of the Bay and with direct water access, the Park is a popular destination for Marin County residents. The existing Park features include a fishing pier, a narrow beach, sites for group events, various group picnic areas, informal lawn areas, bay access for kayaks, a horseshoe courts, modern restroom facilities, and a small beach with public access. The master plan design delineates a precise hierarchy of spaces that enhances the natural and man-made features of the park. New or renovated facilities and infrastructure will support those uses. A new system of ADA compliant pedestrian paths, promenades, and trails will be created within the park to connect these spaces.	MND	03/10/2017
2017022029	Project 16-003 (Heer) Sutter County Yuba City--Sutter A general plan amendment from an AG-20 to an IND designation, a rezone from AG to M-1 district, and design review for the subject 5.95-acre parcel. The proposed project will provide the proper general plan designation and zoning for an existing unpermitted general truck yard.	MND	03/10/2017

2017022030	Parcel Map 16-04 Loverin Tehama County --Tehama To create four parcels and a remainder, one of approximately 12 acres, one of approximately 4.25 acres, one of approximately 4.50 acres, one of approximately 46.46 acres in an R1-A-MH-B:86; One family residence-special animal raising combining special mobile home combining special building site combining (min lot size 86,000 sf) district with a remainder of 135.27 acres in an AG-2; Ag Valley District totaling approximately 202.48 acres.	MND	03/10/2017
2017022031	Carpenter Road Landfill Clean Closure Project Modesto, City of Modesto--Stanislaus The city of Modesto public works department will be performing a clean closure on the east portion of the Carpenter Road Landfill and relocating the soil and waste to the west portion to create adequate final grades for the west landfill as requested and approved by the Central Valley RWQCB under cleanup and abatement order R5-2015-0700. Soil and waste will be excavated and loaded in the east landfill area by a tracked excavator into back dump trucks and hauled on an access road under the Carpenter Road Bridge onto the west landfill area. The process will be continued until all waste and the required soil for the final cover have been transferred. Limited, if any, soil import is anticipated. The closure process for the west landfill area includes constructing a soil cap over the consolidated waste and constructing the cap's drainage systems to ensure storm water does not infiltrate into the consolidated landfill mound. The cap would also be designed to ensure the long term stability of the closed landfill mound. Storm water discharge from the capped west landfill area will flow to pipes and into east landfill area detention basin.	MND	03/10/2017
2013062019	San Francisquito Creek Flood Reduction, Ecosystem Restoration, and Recreation Project Upstream of Highway 101 San Francisquito Creek Joint Powers Authority Palo Alto, East Palo Alto--Santa Clara, San Mateo Note: Revised The SFCJPA and its member agencies have conducted a preliminary analysis to determine project alternatives for the creek reach upstream of HWY 101 that can be completed locally, while preserving compliance with federal standards and potential federal support for construction. When implemented, the project would maximize flood protection, including protection against a storm event similar to the one that occurred in 998, and enhance ecosystems and recreation. The project would also minimize adverse impacts to adjacent communities and the environment, seek to minimize requirements for new land easements, and, where possible, incorporate green infrastructure.	NOP	03/10/2017
2017021031	North School Reconstruction Project Hermosa Beach City School District Hermosa Beach--Los Angeles The project is the reconstruction of the North School property and entails demolishing existing structures, extending the site footprint eastward over an approximately 0.5-acre vegetated slope, constructing new school facilities, and reopening the property to accommodate up to 510 students. A surface parking lot with 46 stalls is proposed in the western portion of the site; vehicle access would be provided from 25th and 26th Streets. A two-story classroom building is	NOP	03/10/2017

	proposed along 25th St, and a multipurpose building is proposed along 26th Street near Morningside Drive. An asphalt playground would be developed between the two buildings, and a natural turf field would be installed in the eastern portion of the site. Construction is proposed to begin July 2017 and end August 2019.		
2017022027	Honeydew Bridge Replacement Project Humboldt County --Humboldt Replace the existing Honeydew Bridge over the Mattole River (Bridge #4C-055) with a new bridge in order to meet modern highway design standards, accommodate local and regional transportation needs, and provide increased level of public safety. The new bridge will be a two-span structure, ~375 feet in length. A temporary detour will be constructed 1,300 downstream and will connect Mattole Road with Burrel Road. Because of the short time period of low flows for the Mattole River, two summer seasons will be required to construct the bridge replacement project.	NOP	03/10/2017
2017021029	South Lake Road Rehabilitation project Inyo County Bishop--Inyo The general scope of this project is to rehabilitate the existing roadway; to pulverize and reclaim the existing pavement and portion of the existing subgrade for use as a new base course and overlay with a new asphalt concrete pavement section on 6.9 miles of South Lake Road, as well as minor widening along the first 2.1 miles to accommodate a widened, shared-use shoulder. 2014089019	<p>San Joaquin River Parkway, Owl Hollow Improvements Fresno County Fresno--Fresno CDFW has executed Streambed Alteration Agreement No. 1600-2016-0014-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, San Joaquin River Parkway and Conservation Trust. Project includes activities related to the construction of a park along the river to be used for recreation and education. The construction of an access road, floating dock, amphitheater, picnic tables, shade structure, vault restroom, and a storage building are features of the project. Also included is the planting of native trees, shrubs, and grasses with an associated irrigation system.</p>	NOD	
2015011024	<p>Temecula Valley Recycled Water Pipeline and Appurtenances Eastern Municipal Water District Menifee, Murrieta, Temecula--Riverside Eastern Municipal Water District currently owns and operates the Temecula Valley recycled Water Pipeline (TVRWP). The TVRWP conveys recycled water from the District's Temecula Valley regional Water Reclamation Facility and Rancho CA Water District's (RCWD) Santa Rosa Water Reclamation Facility to EMWD's Reach 4 Recycled Water Pipeline. The Reach 4 Recycled Water Pipeline conveys recycled water to EMWD's storage facility t the Sun City Regional Water Reclamation Facility (SCRWRF) or to Lake Elsinore as make up water, and to Temescal Wash for discharge. Additionally, the TVRWRF is currently being expanded from 18-million gallons per day to 23 MGD capacity. On April 1, 2015, the EMWD Board approved and authorized the CEQA certification of the Temecula Valley Recycled Water Pipelines Project - Final IS/MND. The project consists of constructing an additional recycled water pipeline, which would parallel a 36-inch diameter segment of the existing TVRWP. The project would provide adequate capacity to convey increased flows from WMED's TVRWRF at the same hydraulic capacity as at the present. Additionally, to accommodate increased flows in the Reach 4 Recycled Water Pipeline. Currently, EMWD proposes additional changes to the project that consist of a revision to the alignment to the pipeline exiting the TVRWRF, the addition of a third option for crossing Murrieta Creek, and a new connection from the existing discharge header to the existing brine line flushing pipe at the Reach 4 Pressurization Recycled Water Booster Pump Station. None of these changes were foreseen at the time the Jan. 2015 IS/MND was prepared. The previously adopted IS/MND adequately discussed the potential impacts of the project and the minor changes above required the preparation of an addendum.</p>	NOD

2014052101	Palo Alto Comprehensive Plan Update Supplement to the Draft EIR Palo Alto, City of Palo Alto--Santa Clara Note: Review Per Lead A draft program EIR was published on February 5, 2016, which analyzed four planning scenarios at an equal level of detail illuminating potential environmental impacts or a range of alternatives designed to address the proposed plan objectives. In early 2016, the city council directed city staff to analyze additional scenarios to broaden the range of potential outcomes and provide additional information. This supplement to the draft EIR has been prepared to assess the two additional scenarios, scenarios 5 and 6. Scenario 5 would lower job growth below current projections and allow a modest increase in housing in an effort to improve the city's jobs to employed residents ratio. Scenario 6 would also lower job growth below current projections and allow robust increase in housing in an effort to address issues of housing affordability and supply in the city.	EIR	03/31/2017				
2014071065	Merge 56 (aka Merge 56 Development Project) San Diego, City of San Diego--San Diego The project is comprised of two components, a mixed use development and public roadway improvements. The mixed use development component would require a general plan amendment from commercial employment, retail and services; residential; and parks, open space and recreation to multiple use; a community plan amendment to redesignate the site from commercial regional and medium	EIR	03/27/2017

	high density residential to local mixed use within the Torrey Highlands Subarea Plan; a rezone from regional commercial and multi family residential to community commercial and residential small lot; a planned development permit to amend PDP No. 53203; a site development permit to amend SDP No. 53204; A CUP to allow a cinema/theater greater than 5,000 sf in size; and a vesting tentative map to amend VTM No. 7938 to resubdivide from 3 lots to 100 lots (84 residential small lot zoned lots, seven community commercial zoned lots, five open space lots, and four lots for private drives) for construction of a 41.34 acre mixed use development project. The mixed use development would be comprised of approximately 525,000 sf of commercial, office, theater and hotel uses and 242 residential dwelling units (both multi family and single family). The project would also construct associated site improvements, storm drains/detention basins, internal private streets, hardscape, site walls, and landscaping. Various deviations are being requested from the CC-3-5 and RX-1-2 development regulations.		
2016051059	Groundwater Recharge Basin Project Lower Tule River Irrigation District Tulare--Tulare The proposed project is the construction of new groundwater recharge basins for periodic release of water through the LTRID canals. The project is being proposed to better serve water users within the Lower Tule River Irrigation District. The entire area encompasses 160 acres of land, a majority of this land will be used for the groundwater recharge basins. Lower Tule River Irrigation District will be proposing an agreement with the owners to construct recharge basins on approximately 160 acres of property. The property will contain 10' deep ponds with a 5' perimeter mounding to allow for the underground aquifers to be recharged for this region.	MND	03/13/2017
2017021032	Regional General Permit for Maintenance of Existing Flood Control Facilities Riverside County Flood Control and Water Conservation --Riverside Under section 404 of the federal CWA, an activity involving discharge of dredged or fill into a jurisdictional water body must obtain a federal section 404 permit and a section 401 State Water Quality Certification to ensure that the activity will not violate established state water quality standards. The US Army Corps of Engineers is the federal regulatory agency responsible for implementing section 404 of the CWA. The CA SWRCB in conjunction with the nine RWQCBs are delegated the responsibility to administer the 401 water quality certification program in CA. The SWRCB is the lead for the RGP 401 certificate and is a responsible agency under CEQA.	MND	03/13/2017
2017021033	Sunset Hills Development Los Banos, City of Los Banos--Merced Sunset Hills Development is proposing a general plan amendment and zone change to redesignate seven parcel on approximately 1.2 acres from professional office to medium density residential and to subdivide the project site into eleven residential lots, ranging in size from 4,600 sf to 5,562 sf. The proposed lots will be subdivided and developed in accordance with title 9, Chp 3, Art 7, of the Los Banos Zoning Ordinance.	MND	03/13/2017

2017021034	1919 Puente Avenue Billboard Baldwin Park, City of Baldwin Park--Los Angeles The project is located on a 2.25-acre developed property that abuts the southern edge of the I-10 freeway, in the southeastern portion of the city of Baldwin Park. The proposed project involves the construction of a 65-ft tall, dual faced, digital/LED billboard with associated infrastructure connections. Project operation would include the displaying of alternating LED advertisements on either of side of the billboard and periodic maintenance of the billboard. The project does not propose to alter the existing onsite commercial building (occupied by Ladlaw's Harley-Davidson motorcycle dealership and several rooftop wireless communication antennae). Discretionary actions required by the project include a zone code amendment and development agreement with the city of Baldwin Park and an Outdoor Advertising Display Permit from Caltrans.	MND	03/13/2017
2017021035	5149 Lancaster Energy LLC Project Los Angeles County Lancaster--Los Angeles Note: Review Per Lead 42-MW PV project developed in two phases. Phase 1, 3 MW on southwest 8 acres of the site. Phase 2, 39 MW on the remainder of the site. Project will interconnect to Southern California Edison's distribution circuits located on the corner of East Avenue H Street and 50th St East near the southwestern boundary of the site. Major components: a) a solar field of north-south rows of PV panels, mounted on either fixed tilt or single axis tracking systems on steel support structures; b) electrical collection and inverter transformer system that transforms the output voltage to 12.47 kV; c) circuits, meters, relays, circuit breakers, fuses, surge protectors, poles, and other interconnection facilities, equipment, and distribution upgrades; d) meteorological data collection system; e) civil infrastructure including driveways.	MND	03/17/2017
2017021036	IS Application No. 7206 (Mark Myles) Fresno County --Fresno Allow a personal/recreational vehicle storage facility with office and a caretaker residence on a 2.28-acre parcel in the RR zone district. The request also includes a zero foot side yard setback for storage buildings. The project site is located on the north side of SR 168 (Auberry Road) approximately 470 feet west of the intersection of SR 168/Lodge Road in the unincorporated community of Prather.	MND	03/13/2017
2017022033	Eubanks and Chancellor Warehouse Project Vacaville, City of Vacaville--Solano The project proposal consists of the construction of two office/warehouse buildings on approximately 15.39 acres of land located on the east side of Eubanks Drive, at the intersection of Eubanks Drive and Chancellor Court. The applicant is proposing to merge four existing vacant parcels into two and construct two approximately 124,500 sf office/warehouse buildings. The site plan includes on-site landscaping, three driveways on Eubanks Drive and 249 on site parking spaces in addition to 94 truck trailer spaces. Both proposed buildings are one story tilt up concrete panel structures.	MND	03/13/2017

2014051014	<p>Residential, 7,200 sq. ft. minimum lot size) located generally south of Foothill Parkway, east of Paseo Grande and west of Trudy Way.</p> <p>Annexation 117: Application for annexation of 394.8 acres from unincorporated Riverside County in the City of Corona's southwest Sphere of Influence to the City of Corona. The northernmost portion of the annexation is located south of Green River Road where it intersects with Paseo Grande, and the southernmost portion of the annexation is located generally south of Foothill Parkway, and west of Trudy Way.</p> <p>TTM 36544: Application to subdivide approx. 271 acres into 292 single family residential lots and lettered lots for open space and landscaping located generally south of the westerly extension of Foothill Parkway, east of Paseo Grande and west of Trudy Way.</p> <p>Johnson Residence Encinitas, City of Encinitas--San Diego CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0173-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Deanne Johnson. Project is limited to stream impacts associated with the construction of a single residence. The installation of the driveway for the residence will include the extension of an existing 42 inch culvert and the construction of a new headwall structure. Additionally, stream impacts will occur as result of cut and fill slopes to construct the building pad. The project will permanently impact a maximum of 0.08 acre of stream bed, bank, channel and/or wetland/riparian vegetation. Mitigation for the permanent impacts will be through 0.11 acre of wetland creation adjacent to the existing drainage onsite and 0.12 acre of onsite wetland enhancement.</p>	NOD	
2016031036	<p>Indian Street Commerce Center Project Moreno Valley, City of Moreno Valley--Riverside The project proposes approx. 446,350 sq. ft. of light industrial uses within an approx. 19.64-acre site. As currently proposed, 357,080 sq. ft., or approx. 80 percent of the Project building area would be allocated for distribution warehouse uses; the remaining 89,270 sq. ft., or approx. 20 percent of the Project building area would be assigned to manufacturing uses.</p>	NOD	
2016041040	<p>College Prep Middle School Major Use Permit, PDS2015-MUP-15-006 San Diego County --San Diego The project is a Major Use Permit to authorize a Charter School in a residential zone. The project consists of the demolition of the existing 6,474 sf church and construction of a new 27,058 sf, two-story charter school for approximately 350 students, initially, with a max enrollment of 500 students within five years. At full capacity the project would employ 20 teachers and six administrative staff. The project would also include a 9,000 sf playground, parking for 53 cars (3 accessible spaces) and landscaping. The project would be served by sewer and imported water from Helix Municipal Water District. Grading is proposed consisting of 6,000 cubic yards of cut, 1,600 cubic yards of fill and 4,400 cubic yards of export. The project includes the following off-site improvements: curb, gutter and sidewalk along Madrid Way and a portion of Agua Dulce Blvd.</p>	NOD

	demolition of a historic resource. The proposed demolition would not include foundations or any other elements that would require excavation; the demolition would consist of removing above foundation features such as walls and appurtenances. Demolition debris impacted with hazardous constituents would be approximately disposed of. There are currently no plans for redeveloping the site with permanent building following demolition. Therefore, the site shall remain vacant in the interim.		
2016041078	Cayucos Sustainable Water Project Cayucos Sanitary District --San Luis Obispo The proposed project is construction of a water resource recovery facility for wastewater treatment to a tertiary treatment level. The site development is 8 acres including a solar array. The project includes pipeline infrastructure installed in local street and SR 1 rights of way in the county and city of Morro Bay. The treated water will be conveyed to an existing permitted ocean outfall in Morro Bay and approximately 40 AFY of tertiary water will be available for agriculture. Phase 2 of the project is construction of a treated water pipeline to CSA 10 water facility in Cayucos. Water delivery is not part of this project.	EIR	03/29/2017
2017021038	SWAYNE Grading Permit San Luis Obispo County --San Luis Obispo Request by Shelby Swayne for approval of a Major Grading Permit to construct a driveway and building pads for a single family residence and storage barn on a vacant 10-acre parcel with an average slope of 14%. The project will involve approximately 1,320 cy of cut and 1,080 cy of fill resulting in on site disturbance of 0.83 acres. Additional off site grading is proposed to reconstruct approximately 1,200 lf of Spiral Dr, an existing private road, from a 12-ft to a 24-ft width over 0.89 acres (0.60 acres of net new disturbance). The proposed project is within the residential rural land use category and is located on Spiral Dr, east of Amber Hills Way, 6.5 miles of northeast of Creston.	MND	03/14/2017
2017021039	992 S. Arapahoe Street Los Angeles, City of --Los Angeles Construction of a new seven story, 91-ft tall mixed use development consisting of a 173-unit multi family structure and 36,180 sf of commercial uses with 288 vehicular parking spaces. Total project contains approximately 187,180 sf of floor area.	MND	03/14/2017
2017021040	Recycled Water Improvements at WWTF Huron, City of Huron--Fresno The City of Huron would enter into a long term agreement with the Bureau of Reclamation to obtain use of approximately 200 acres of land to grow non-human consumption crops with he treated effluent. Approximately 188 acres of land would be converted to agriculture, which would require improvements on the land such as installing an irrigation system and grading. Within the existing WWTP, the city will rehabilitate the plant's headworks, replace aerators in the treatment ponds, line certain ponds and add an emergency storage pond. Other miscellaneous improvements include access roads, fencing and signage. Construction will occur in a single phase and is anticipated to last approximately 1 year with an estimated start date of Summer 2018.	MND	03/14/2017

2017021041	Mission Produce Conditional Use Permit (CUP) and Variance 5249 Adjustment (Case No. LU11-0088) Ventura County Oxnard--Ventura The applicant requests approval of a CUP and variance 5249 adjustment to include the following: 1) CUP for on-going use and operation of an agricultural packing and storage facility for a period of 20 years; 2) adjustment of variance 5249 to allow for approximately 0.19 percent of building lot coverage for the legal lot; 3) entitlement of various facility components, structures, parking, lighting, signage, and impervious surface which were constructed and/or installed in violation of NCZO section 8105-4; 4) installation of approximately 2,742 sf of landscape screening; and 5) construction of a 3,400 cubic foot detention basin.	MND	03/14/2017
2017021043	TPM #409, Steware and Steward Tentative Parcel Map Inyo County --Inyo A tentative parcel map to divide an existing parcel totaling 159.3 acres into four parcels plus a remainder. The proposed parcel sizes are as follows: parcel #1 - 39.82 acres; parcel #2 - 21.33 acres; parcel #3 - 39.79 acres; parcel #44 - 39.79 acres; and the remainder - 18.54 acres.	MND	03/14/2017
2017022036	Mare Island Sewer and Water Main Replacement Project Vallejo Sanitation and Flood Control District Vallejo--Solano The proposed project would include construction and operation of new and replacement publicly-owned sewerage and potable water utilities to Mare Island.	MND	03/14/2017
2017022038	East Creek Restoration Project Honey Lake Valley Resource Conservation District --Lassen The East Creek Restoration Project encompasses 118 acres of meadow owned by the Shasta Forest Timberlands, LLC and Red River, LLC, and managed by Beaty & Associates. The 118-acre project area is defined by an incised main channel emerging on the north side of the meadow, two side channels on the south end of the meadow that appear to have been a result of human activity, and an incised two-track road running perpendicular to the meadow's flow pattern near the bottom of the project area. Flows from the upper watershed appear to be directed into the incised channel above the project area by the road that runs along the southern edge of the meadow. The incised channel, with an average depth of 2.27 ft., may be the result of several ditches intended to disperse water to various parts of the meadow.	MND	03/14/2017
2017022039	Woodbury Highlands Project Lafayette, City of Lafayette--Contra Costa Branagh Development, the project applicant, is proposing the Woodbury Highlands project, to develop the 6.55 acre site with 93 residential units and a three story clubhouse on two applicant owned parcels located at 3700 and 3730 Mt. Diablo Blvd in the city of Lafayette. The proposed project also includes the installation of a section of the Lafayette/East Bay Municipal District Aqueduct Bicycle & Pedestrian Pathway located on the EBMUD right of way adjacent to the project site off of Mt. Diablo Blvd.	MND	03/14/2017

2017021042	Water System Master Plan Palmdale Water District Palmdale--Los Angeles The proposed project would construct water system improvements throughout the 47-sf PWD service area in order to meet PWD's potable water system current and future needs. The WSMP identifies existing system deficiencies that need to be corrected as well as future facilities to be implemented in the near term (by 2020) or longer term (by 2030 and beyond). The PEIR will evaluate the WSMP's near term improvements on a project level basis and the longer term improvements on a program-level basis. The components analyzed at the project level include three booster pump stations, three storage tanks and transmission pipelines. The program-level components include additional pump stations, storage tanks and transmission pipelines, as well as production wells that will be built in accordance with growth projections in the PWD service area.	NOP	03/14/2017
2017021047	Ballona Creek Bacteria Total Maximum Daily Load Project Los Angeles, City of Los Angeles, City of--Los Angeles Note: Review Per Lead To comply with an amendment to the Water Quality Control Plan for the LA Region, the cities of LA, Beverly Hills, Culver City, Inglewood, and West Hollywood, the county of LA, and the LA County Flood Control District propose to develop three regional water quality improvement projects - 1) the Low Flow Treatment Facility 1 in Culver City; 2) the Low Flow Treatment Facility 2 in the city of LA; and 3) the Mesmer Low Flow Diversion in the city of Culver City. Collectively, these three projects will achieve compliance with the QWCP by improving the water quality in Ballona Creek and making additional flow available for potential beneficial reuse via the Hyperion Water Reclamation Plant. For additional information on the project.	NOP	03/20/2017
2017022042	Jay Willard Gymnasium Replacement Project Eureka City Schools Eureka--Humboldt The proposed project would replace and modernize an existing school gym. It would involve the demolition of the existing gym and construction of a replacement gym to the west of the existing gym. To accommodate the siting of the new gym and facilitate safe student access, new concrete walkways would also be constructed, and the existing bus lane and parking areas on the project site would be reconfigured. The replacement gym would serve the same student population and accommodate the same uses as the existing gym (i.e. physical education classes, sports events), but would be smaller in size than the existing facility-approximately 29,940 sf, rather than 40,075 sf-and would not provide an indoor pool facility.	NOP	03/15/2017
2017022037	2016-1130 Tentative Parcel Map for Toyon Circle, LLC Calaveras County --Calaveras The project includes a tentative parcel map to divide a 3.07 acre parcel into two parcels, 1 acre and 2.07 acres in size for the purpose of separating the existing development onto separate legal parcels. The subject property is located at 3466 Toyon Circle, APN: 040-004-039 a portion of Section 09, T4N, R11E, MDM.	Neg	03/14/2017

	long summer sessions over a two year period introducing local, disadvantaged children to the Bay.		
2017028311	El Proyecto Wahine Coastal Conservancy, California State Monterey--Monterey The Wahine Project will provide transportation for one semester for 150 underserved girls ages 7-17 from East Salinas and South Monterey County to the Wahine Project to learn about environmental stewardship and ocean activities including surfing and boogie boarding at Casa Verde Beach in Monterey.	NOE	
2017028312	Amah Mutsun Land Trust Coastal Stewardship Summer Camp Coastal Conservancy, California State --San Mateo, Santa Cruz The Amah Mutsun Land Trust will develop a summer camp program for Native American youth, ages 12-17, on the San Mateo/Santa Cruz coast. Participants will experience hands-on cultural learning and recreational activities that promote an appreciation for and connection to the coastal environment and cultural identity.	NOE	
2017028313	Santa Margarita Fish Passage Design Project Coastal Conservancy, California State Fallbrook--San Diego This is a planning and design project for the remediation of two barriers to fish passage.	NOE	
2017028314	City Surf Project Coastal Conservancy, California State Pacifica--San Mateo The CSP connects underserved youth from San Francisco with the ocean through surf clinics. CSP works with the San Francisco USD to provide a full-service opportunity for students to surf and learn about their local coastline. Teaches safety, fitness, and ocean stewardship.	NOE	
2017028315	Summer Enrichment Program Coastal Conservancy, California State --Marin Provide students with bus transportation to Marin County State Parks for one-day field trips and overnight camping.	NOE	
2017028316	Nelson Sloan Quarry Restoration Plan and Environmental Review Coastal Conservancy, California State San Diego--San Diego The project involves planning for reclamation of a former quarry that would benefit multiple state and local agencies with sediment disposal responsibilities in the Tijuana River Valley.	NOE	
2017028317	Youth Education Program Coastal Conservancy, California State --San Mateo Pie Ranch will bring 1,200 young people over two years to its Youth Education Program on Pie Ranch's coastal San Mateo County farm for field trips, internships, and a Youth Food Justice Summit. While at Pie Ranch, students will participate in hands-on, farm-based environmental education activities.	NOE

2017028318	Explore the Coast with the Amah Mutsun Tribal Band Coastal Conservancy, California State --San Mateo, Santa Cruz The Amah Mutsun Land Trust will develop and record 1-2 minute audio segments for the Explore the Coast web app that teach about the natural and cultural history of Amah Mutsun coastal territory between Ano Nuevo Point and the Pajaro River mouth.	NOE	
2017028319	Marshes Matter Coastal Conservancy, California State Suisun City--Solano Provide 600 elementary school students with bus transportation to Rush Ranch where they will explore trails and learn about native plants and animals, and marsh ecology.	NOE	
2017028320	Bay Area Outreach and Recreation Program - Coastal Access for Individuals with Disability Coastal Conservancy, California State San Francisco--San Francisco The Outdoor Coastal Access for individuals with disabilities continuation project is a two year program that will provide a series of accessible outdoor coastal trips on sections of the California Coastal Trail and SF Bay Trail. These trips make it possible for people with physical disabilities to experience coastal resour.	NOE	
2017028321	ETC Accessible Sea Kayak and Bay Education Program - Phase III Coastal Conservancy, California State Sausalito--Marin The ETC Explore the Coast Grant - Phase III will support ETC's scholarship fund to provide 300 Bay Area residents with disabilities and disadvantaged youth with 1- to 3-day accessible and educational bay kayak adventures. It will enable ETC to build and sustain the program with seasonal Sea Kayak Program Associate.	NOE	
2017028322	Watershed Action Program - Coastal Connections Coastal Conservancy, California State --Alameda, Contra Costa Approx 600 students from low-income, urban schools, their teachers, and family members will engage in and experience coastal education through in-classroom studies and activities, local creek and SF Bay site visits, and a family field trip to the Pacific Ocean for coastal science, exploration, and stewardship activities.	NOE	
2017028323	Backcountry Wayfinding Signs (16/17-OC-03) Parks and Recreation, Department of --Orange This project installs or replaces 31 trail makers throughout the backcountry of Crystal Cove State Park. Crystal Cove's popularity has increased over the years, with an estimated 140,000 people using the trail system in 2016. This project will involve setting timber to a depth of approx 2 feet. And affixing trail signage and directional arrows to the posts. One post will be installed at every trail junction w/ each trail name affixed parallel to the direction of the trail. Separately, Southern California Edison will be installing "Dead End/Utility Road" signs at all the utility road and fire road/trail junctures to supplement and/or replace existing dead end signs. DPR-approved standard project requirements have been incorporated into this project.	NOE

<u>Documents Received on Tuesday, February 14, 2017</u>			
2016052071	<p>Shingle Springs Drive Improvements-Encroachment Permit El Dorado County --El Dorado</p> <p>Site plan encroachment permit review analyzing the impacts from the construction and operation of a 12-inch 2,400 linear foot water main, a 6-inch, 3,335 linear foot sewer force main pipeline, associated appurtenances and connections of both pipelines, and a 36 foot x40 foot paved driveway within the El Dorado County Right of Way of Shingle Springs Drive. El Dorado County processed the project as an Initial Study/MND and posted a NOD on June 30, 2016.</p> <p>Subsequent to the County filing the NOD, the El Dorado County Superior Court issued a tentative stay on the encroachment project approval and encroachment permits (El Dorado Council.org v County of El Dorado PC-20160333). Public Resources Code section 21167.3(a) states that if an injunction or stay is issued prohibiting the project from being carried out, pending final determination of the issue of compliance, "responsible agencies shall assume that the [environmental document] for the project does comply with the provisions of this division and shall issue a conditional approval or disapproval of such project" under timelines set forth in the Gov Code (Public Resources Code §21167.3(a).)</p> <p>In this case, the District, as a responsible agency, must assume that the IS/MND prepared by the County for the encroachment permit project complies with CEQA and issue a conditional approval or disapproval pending the existing stay being lifted by the El Dorado County Superior Court. Therefore, the District conditionally approves the project. This conditional approval does not include water service sufficient to serve the full buildout of the project site, but only water and sewer services needed to serve Phase 1 of the project.</p> <p>Although the District must assume that the IS/MND complies with CEQA, the District, as a responsible agency, s require to ensure that information disclosed in the IS/MND is correct in regards to items that the District has regulatory authority over (CEQA Guidelines Section 15096). In this case, there is a minor technical error contained in the IS/MND relating to water supply. Therefore, and Addendum has been completed by the District in accordance with CEQA Guidelines Section 15164 to correct this minor technical error.</p>	NOD	
2016121041	<p>Staircase Replacement - Point Dume State Beach Parks and Recreation, Department of Malibu--Los Angeles</p> <p>The purpose of the project is to replace the existing steel staircase at Point Dume State Beach, which is deteriorated and functionally substandard, with a new replacement staircase. The new staircase will be located downcoast to address issues of bluff erosion and vegetation trampling as a result of off trail visitor use. Project elements include staging areas, construction of the replacement staircase, removal of the existing staircase, access trail, a haul path along the beach, and revegetation of impacted areas with native plant species.</p>	NOD	
2016122016	<p>City of Pacifica Wet Weather Flow Equalization Basin Project Pacifica, City of Pacifica--San Mateo</p> <p>The project would consist of the construction of: a 2.1-million gallon capacity equalization basin, two diversion structures to passively divert excess flows from the existing Linda Mar and Arguello sanitary sewer lines and transport the flow via a conveyance pipeline to the EQ basin during storm events, an effluent conveyance pipeline routing flows to the existing Crespi Drive sanitary sewer line and Linda Mar Blvd. pump station, a 10-foot tall motor control center building that</p>	NOD

	is equipped with a 4-ft high metal antenna that would allow radio communication with the city's Calera Waste Water Treatment Plant and the Linda Mar Pump Station, a ventilation and odor-control system, and a potable-water supplied cleaning system within the EQ basin. The EQ basin would be located within the parking lot for the city of Pacifica's Skatepark located at 540 Crespi Drive.		
2017029008	Addendum to the Initial Study/Mitigation Negative Declaration for the Greenfield Union School District / Thorp Annexation Greenfield, City of Greenfield--Monterey Annexation of 18.7 acres located on the north side of Apple Avenue and Morris Way (APNs: 109-232-006 [Thorp site] and 109-232-007 [Tunzi site]) for development a new elementary school for the Greenfield Union School District on the 9.1 acre Thorp site and residential development on the 9.6 acre Tunzi site. The elementary school project includes 45,611 sq. ft. of new construction with a capacity for 650 K-6 students with 30 classrooms, library/media center, resource classroom, special day class, multi-purpose room and a cafeteria, warming and serving kitchen, administration offices, restrooms, storage rooms, blacktop play area, kindergarten play area, field play area, and staff and visitor parking. The residential development includes 58 single family residential lots, a neighborhood park, a stormwater detention facility, public streets and sidewalks. Interim agricultural buffers on the north and west boundaries of the annexation area are provided consistent with the City/County/LAFCO Memorandum of Agreement.	NOD	
2017028324	High Temperature Hybrid Compressed Air Energy Storage (HTH-CAES) (Revised) Energy Commission Santa Clarita--Los Angeles The proposed project is to build a fully-functional, low-cost, pilot high-temperature hybrid compressed air energy storage (HTH-CAES) system that can efficiently store grid-level energy and later release that energy for ancillary services and load following.	NOE	
2017028325	San Gabriel Valley Water Company "Plug and Play" In-Conduit Hydropower Development Project (SGVWC Project) Energy Commission La Puente--Los Angeles Project consists of the design, development, and demonstration of a modular, cost-effective in-conduit hydroelectric system. Project will include the installation of a 73-kilowatt in-line hydroelectric turbine and generator at an existing municipal water district pressure reducing station. The project footprint will be situated in a sq. area of approx. 150 feet per side, and will require some minor trenching to place fittings, diversion valves and realign some existing raw water piping. The property is currently developed and functions as a pressure reducing and water storage facility with two above-ground water storage tanks and an existing building adjacent. There are no known historic, cultural, or environmental resources on the developed property. The project owner will be the San Gabriel Valley Water Company. The project will be grid connected and falls within SCE's service territory.	NOE

2017028326	A Comprehensive, High Efficiency Solution for Water Heating in Multi-Family Buildings Energy Commission --Los Angeles Project will demonstrate the integration of a high efficiency natural gas engine heat pump (GEHP) with a high efficiency solar thermal evacuated tube collector (ETC) that could reduce domestic hot water (DHW) energy use in existing residential multi-family buildings in Los Angeles County. The project will also demonstrate a hot water controller that could reduce distribution line losses. The Recipient will complete technology performance and economic evaluations of the integrated system and of each separate system to calculate the contributions of each system to the whole.	NOE	
2017028327	Institute of Gas Techonlogy dba Gas Technology Institute Energy Commission --Los Angeles This project will demonstrate that measured home performance above existing Title 24 code practices coupled with high-efficiency, low capacity heating systems in new and existing single family homes will show an energy savings in excess of 30% compared to a Title 24 compliant new construction home or a typical LA Basin existing home with standard equipment. This project will benefit the existing homeowners who will have reduced energy bills from the installed systems. Ratepayers will also benefit by having tested and proven technology options available for installation in their own homes.	NOE	
2017028328	Development and Demonstration of a Cost Effective, Packaged Approach to Industrial Gas Efficiency Using Organic Rankine Cycle Technology Energy Commission --Los Angeles Project will demonstrate application of the Organic Rankine Cycle (ORC) to generate electricity using waste heat from industrial processes. The project will demonstrate recovery of low-grade waste heat available at 285 degrees F from industrial dryers at a fabric dyeing and finishing company in Rancho Dominguez, CA. An ORC process that can utilize medium or low temperature waste heat to directly produce electricity is applicable to a broad range of industrial operations. Some of the unique and innovative aspects of the technology being evaluated include: high efficiency working fluid; advanced turbine design that reduces irreversible losses; packaged solution that reduce installation costs and complexity; unique refrigerant management system to manage refrigerant charge (charge flexibility needed as operating temperatures vary); and, flexibility in heat exchangers both for evaporator and condenser, that allows coupling to a variety of industrial processes as well as heat rejection media.	NOE

2017022047	<p>CUP 2017-01 Commercial Architecture (Mirage Banquet Hall) Turlock, City of Turlock--Stanislaus</p> <p>The applicant is requesting approval to construct an approx. 43,515 sf banquet hall/event center and future 7,000 sf restaurant on two parcels totaling 8.705 acres.</p> <p>The Mirage Banquet Hall will have two event halls, 9,600 sf and 11,960 sf respectively, outdoor event space, a full-service catering kitchen, offices, and retail space. The banquet hall/event center specializes in full-service catering kitchen, offices, and retail space. The banquet scheduled are weddings & receptions, corporate events, conventions, birthday parties, proms, quinceaneras, and other similar events. During scheduled events the Mirage Banquet Hall will be able to accommodate between 500-1,000 guests.</p> <p>The event center currently shows approx. 2,200 sf of retail space. Mirage Banquet Hall envisions this space to be used for storage and a sales/display area to showcase event place settings and decor. Any retail component will be more of a gift shop, ancillary to the event center use, and not a stand along retail business.</p>	CON	03/06/2017
2013051039	<p>Eagle Ranch Specific Plan & Annexation Atascadero, City of Atascadero--San Luis Obispo</p> <p>The proposed project consists of a specific plan that would guide the development of residential, resort, recreational, highway commercial, hotel, small retail, ag, and open space uses, as well as associated infrastructure, on the 3,457 acre project site. The specific plan has a buildout potential of 494 single family residential lots, 93 multi family dwelling units, a 15.2-acre highway commercial area with a 200 room hotel and event facilities, a 3.9 acre Village Center with 15,000 sf of retail, a 44.9-acre resort with 100-room hotel, a public park, trails and equestrian area, and 2,285 acres of ag and open space. Vehicular access would be taken from two new points on Atascadero Ave, and on San Rafael Rd, San Carlos Rd, and San Diego Rd (west). The entire project site would be annexed into the city of Atascadero.</p>	EIR	04/03/2017

2017021052	Mission Bay Park Navigational Safety Dredging (PTS No. 520687) San Diego, City of --San Diego A site development permit The Mission Bay Park is the largest aquatic park of its kind in the country. It consists of over 4,600 acres in roughly equal parts land and water with 27 miles of shoreline. Over the years, recreational boating, storms and water currents have impacted the bottom of Mission Bay causing sediment travel and creation of shoals - built up of areas with sand and displacement in other areas. In order to maintain the navigational water safety in the bay, the intent of the project is to dredge the bottom of the bay to the original survey elevation and utilize the dredged material to fill the depleted/reuse areas within the bay in accordance with the Mission Bay Baseline Chart.	MND	03/16/2017
2017021053	Clean Closure Project Old Los Banos Landfill Los Banos, City of Los Banos--Merced The proposed project involves the removal of waste and cover soils from the inactive city of Los Banos landfill, owned and operated by the city of Los Banos Public Works Dept; the transfer of non-concrete waste to the Billy Wright Landfill, 17173 S. Billy Wright Road, Los Banos, CA 95365, operated by the Merced County public works or Kettleman Hills landfill, 35251 Old Skyline Rd, Kettleman City, CA 93229; and, its closure by RWQCB. The site was operated as a burn dump for the city municipal waste from about 1955 to about 1973, and accepted inert solid wastes generated by the city until it ceased operation in 1994.	MND	03/16/2017
2017022045	Hogan Dam Road over Bear Creek Low Water Crossing Conversion (New Bridge) Project Calaveras County --Calaveras Calaveras County public works department, in conjunction with the Caltrans and the Federal Highway Admin, intends to replace an existing low water crossing with a bridge on Hogan Dam Rd at Bear Creek. The existing low water crossing is passable for most vehicles through most of the year. The new bridge will provide an all-weather crossing of the creek and will accommodate the traveled way, shoulders, and barriers. Construction of the proposed bridge is planned to commence in spring 2018 or later. Project duration is expected to be one season, but could extend to two seasons due to regulatory limitations on work periods.	MND	03/16/2017
2017022046	Jones Road Apartments Walnut Creek, City of Walnut Creek--Contra Costa The applicant proposes construction of a three story, six unit building with a common private aisle providing access from Jones Road. The site includes a combination of eight covered parking stalls and four surface spaces, including one ADA accessible space. The units would each have a private ground floor patio space. In addition to the outdoor patios, site amenities include a pedestrian path connecting Jones Rd to each units, a barbeque area, a bike rack, and landscaping. The project requires the removal of all twelve onsite trees, including three highly protected Black Walnuts, as well as Eucalyptus and Monterey Pines, which are not highly protected and encroachment upon the driplines of 2 highly protected trees. 2015091003	<p>Equity Residential Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The project includes the demolition of an 850 sf restaurant and 109 space surface parking lot and development of the site with 428 multi-family residential units including 213 studio units, 89 1-bedroom units, and 126 2-bedroom units. The 428 residential units include 320 market rate units and 108 set aside restricted affordable units, including 22 very-low income housing units and one of the following: 1) 10% of the total number of units for Low Income households; 2) 15% of the total number of units for Moderate Income households; or 3) 20% of the total number of units for Workforce Income households. The project would include up to 5,610 sf of commercial uses, including an approximately 2,980 sf leasing office and up to 2,630 sf of neighborhood-serving retail land uses. The project would provide approx. 47,151 sf of open space, including (but not limited to) 21,000 sf of private open space, 4,683 sf of res amenities, a 13,798 sf pool court, and a 7,670 sf sky deck and lounge. Vehicle access to the site would be provided from 4th St, Hill St, and through a rear alley accessible from 4th St. The project would include a two and a half level subterranean parking garage and a seven story parking podium. The parking podium design would be subject to the city's Downtown Design Guide, specifically the parking and access guidelines, as well as the project design features included in the city planning commission advisory notice relative to above grade parking.</p>	NOP	03/16/2017
2017021049	<p>Alliance California Gateway South Building 4 San Bernardino, City of San Bernardino--San Bernardino</p> <p>The project applicant proposes to redevelop the approximately 62.02 acre site through the construction and operation of one high cube logistics warehouse building. The building is proposed to contain 1,063,852 sf of building area with 188 truck trailer dock doors. In addition to the building, the site would also contain 1,171 auto and trailer parking stalls, trucks courts and drive aisles, landscaping, a detention basin, utility infrastructure, a Southern California Edison transmission line easement (existing), lighting, signage, and other associated improvements. An access driveway connecting to Waterman Ave is proposed near the northeast corner of the property. Also, off site interim roadway improvements are proposed between the northern project site boundary and Orange Show Road. The project also involves the relocation of one on site water well and the decommissioning of several other existing on site water wells.</p>	NOP	03/16/2017
