STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**January 1 – 15, 2014**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1 – 15, 2014**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov) .

2014011006	<p>Plan Amendment A-13-009 and Rezone R-13-016 Fresno, City of Fresno--Fresno Plan Amendment Application No. A-13-009 and Rezone Application No. R-13-016 were filed by Dirk Poeschel of Poeschel Land Development Services, Inc., on behalf of John Bonadelle, and pertain to 23.78 acres of property located on the east side of North Locan Avenue between the East Dakota Alignment and East Shields Avenue within the City's Southeast Growth Area (SEGA) and Sphere of Influence. Plan Amendment Application No. A-13-009 proposes to amend the land use in the proposed Southeast Growth Area from the agricultural designation in the County of Fresno to the low density residential planned land use designation in the City of Fresno. Rezone Application No. R-13-016 proposes to reclassify the subject property from AE-20 (Exclusive Twenty-Acre Agricultural, Fresno County) to R-1/cz (Single Family Residential/conditions of zoning, Fresno City) zone district. The proposed entitlements are intended for the future development of a 99-lot single family residential subdivision. A formal subdivision map has not yet been filed.</p>	<b>CON</b>	01/22/2014
2012121018	<p>Soitec Solar Projects Program Environmental Impact Repoart (LanWest, LanEast, Rugged and Tiedrra Del Sol) San Diego County --San Diego Note: Reference SCH# 2013011007 Note: Extended Review</p> <p>The project proposes the development of four solar energy sites (Tierra del Sol, Rugged Solar, LanWest, and LanEast) that would collectively include approximately 1,473 acres of Concentrated Photovoltaic (CPV) trackers and generate approximately 168.5 megawatts of electricity.</p>	<b>EIR</b>	03/03/2014
2014011001	<p>Improvement District No. 4 23 Corner Tank Replacement Kern County Water Agency Bakersfield--Kern Replacement of an existing 50,000-gallon water storage tank with a 100,000-gallon water storage tank, including new foundation, associated piping and access road around the structure. Once construction of the new tank is complete, the existing 50,000-gallon tank will be demolished, the existing foundation will be paved over the existing access road will be repaved.</p>	<b>MND</b>	01/31/2014
2014011002	<p>Improvement District No. 4 Kern River Turnout No. 4 Tree Removal Project Kern County Water Agency Bakersfield--Kern Removal of five live cottonwood trees and one dead cottonwood tree from Kern River Turnout No. 4 to maintain access to and operation of the structure.</p>	<b>MND</b>	01/31/2014

<b><u>Documents Received on Thursday, January 02, 2014</u></b>			
2014011007	Soaproot Stewardship Project Sierra Nevada Conservancy --Fresno The High Sierra Ranger District is requesting approximately \$350,000 in funding from the Sierra Nevada Conservancy's Proposition 84 Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Grant Program to reduce hazardous fuels and restore ecological components in the Soaproot Stewardship Project area in the Sierra National Forest. This project would reduce fuel loads and fire hazards, improve wildlife habitat and watershed conditions, and encourage forest growth.	<b>MND</b>	02/03/2014
2014012001	I-580 Roadway Rehabilitation Project in Alameda County Caltrans #4 Livermore--Alameda This project proposes to rehabilitate the mainline roadway, and on and off-ramps on I-580 from one mile east of North Flynn Road (PM 4.9) in Alameda County near the City of Livermore to the San Joaquin County line (PM 0.0) in the eastbound direction, and from the San Joaquin County line (PM 0.0) to 0.2 mile east of Greenville Road Overhead in Alameda County in and near the City of Livermore (PM 7.8) in the westbound direction. A portion of I-205 in both the eastbound (PM 0.0/1.0) and westbound directions (PM 0.0/1.0) is proposed to be rehabilitated. This includes removing existing surface pavement and installing a new surface layer. This project also proposes to install additional highway safety features such as rumble strips, metal beam guard rails, and concrete barriers.	<b>MND</b>	01/31/2014
2014012002	Freeway Performance Initiative Interstate 580 in Alameda County Caltrans #4 Dublin, Pleasanton, Livermore--Alameda This project proposes the installation and implementation of a ramp metering system and traffic operations system (TOS) along I-580, in Alameda and San Joaquin Counties. The project limits are from the Patterson Pass Interchange in unincorporated San Joaquin County (PM 13.5) to Greenville Road in the City of Livermore, Alameda County (PM 8.1) and from San Ramon Road in the City of Dublin, Alameda County (PM 22.0) to Strobridge Avenue in Castro Valley, an unincorporated area in Alameda County (PM 30.3). The project includes metering 12 existing on-ramps, 2 of which will be widened to provide for a High Occupancy Vehicle Occupancy Vehicle (HOV) preferential lane or Mixed Flow (MF) lane. A total of 59TOS elements [36 Traffic Monitoring Stations (TMS), 21 Closed Circuit Television Cameras (CCTV), and 2 Changeable Message Signs (CMS) will be installed.	<b>MND</b>	01/31/2014
2014012003	Auburn Grace Community Church Expansion (PMPM 20130073) Placer County Auburn--Placer The project proposes a Conditional Use Permit Modification to allow for 2,800 sf expansion to the existing sanctuary and 49 additional parking spaces.	<b>MND</b>	01/31/2014
2014012006	Sagehen Basin Old Forest Sensitive Species Habitat Restoration Project Sierra Nevada Conservancy Truckee--Nevada, Sierra The National Forest Foundation is requesting \$349,140 in funding from the Sierra Nevada Conservancy's Proposition 84 Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Grant Program in order to do work in the Sagehen Experimental Forest to protect and enhance habitat,	<b>MND</b>	02/03/2014

	especially for Pacific marten, restore stand level ecology, and reduce fuel loads in the Sagehen Basin in the Basin Old Forest Sensitive Species Habitat Restoration Project area in the Sagehen Experimental Forest adjacent to the Tahoe National Forest. This project would alter fuel loads to return to the mixed severity fire regime, improve wildlife habitat and foraging grounds, improve watershed conditions, and encourage healthy forest ecological processes.		
2011102013	Tracy Material Recovery Facility Expansion San Joaquin County Tracy--San Joaquin Use permit application for the expansion of an existing solid waste processing and recycling facility from 39.2 acres to 51.7 acres in two phases over twenty years with a maximum of 1,727 vehicles per day at final build out. Phase One to increase the daily waster capacity from 1,000 (TPD) to 1,800 (TPD) within ten years. Phase Two to increase the daily waste capacity from 1,800 (TPD) to 2,500 (TPD) within twenty years.	<b>NOD</b>	
2011112028	Peninsula Pipelines Seismic Upgrade Project San Francisco, City and County of Colma, South San Francisco, San Bruno, Millbrae--San Mateo The operator proposes to install a 54-inch diameter pipeline to replace the existing 54-inch diameter pipeline for a 700-foot segment. The existing pipeline will be removed using open-trench techniques to 16 foot depth bgs and 30 foot width. A temporary cofferdam will be constructed upstream and water pumped/gravity fed through the work area and back into the culvert below the project. The new pipeline will extend under and perpendicular to a box culvert conveying an unnamed tributary to Colma Creek. An 18 foot wide by 21 foot long portion of the box culvert will be replaced in-kind. The trench will be backfilled and revegetated.  The CA Dept. of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0295-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Mr. Husam Masri, San Francisco Public Utilities Commission.	<b>NOD</b>	
2013091092	Hesperia Storm Drain Improvement Project ER 4809 (004) Hesperia, City of Hesperia--San Bernardino The City of Hesperia proposes to make improvements to the existing storm drain system by removing the temporary H-01 outlet basin and extending the existing H-01 conduits from the basin, along a trench in the natural direction of flow, to 3rd Avenue, where a box culvert will be installed, to convey flows to the existing unnamed drainage channel east of 3rd Avenue.	<b>NOD</b>	
2014018001	Alpine Dam, No. 33 Water Resources, Department of Fairfax--Marin The proposed work consists of installing a 24-inch tee and two 24-inch butterfly valves onto the existing outlet pipe for the purposes of reducing the reservoir drawdown time.	<b>NOE</b>

<b><u>Documents Received on Thursday, January 02, 2014</u></b>			
2014018002	<p>Puddingstone Dam, No. 32-9 Water Resources, Department of --</p> <p>A geotechnical investigation consists of advancing 21 borings through the embankment of the main dam and two saddle dams. Soil samples will be retrieved for the development of soil properties which will be used in the seismic stability evaluation of the dams.</p>	<b>NOE</b>	
2014018003	<p>Issuance of Streambed Alteration Agreement No. 1600-2013-0267-R1, CD Loop Drainage Channel Fish &amp; Wildlife #6 I/M --Trinity</p> <p>The project is limited to vegetation and berm removal within a 310 foot section of Sidney Gulch, downstream of the Memorial Drive/CD Loop Culvert, where it runs parallel to Highway 299. The channel is approximately 45 feet wide and the berm is 213 feet long and approximately 3 feet tall and 12 feet wide, running down the center of the channel. The berm and vegetation are causing flooding on neighboring downstream parcels and the vegetation is a safety hazard for vehicles entering the highway at this intersection. The project will have no significant effects on the environment.</p>	<b>NOE</b>	
2014018004	<p>Issuance of a Streambed Alteration Agreement Fish &amp; Wildlife #1 Tehama--Tehama</p> <p>The project proposes to trench 2-4 feet deep across the 40' wide streambed to install 2" polypipe beneath the cobble surface. The pipeline will serve to deliver water from a well to water troughs for alternative stock watering. The trench will be backfilled with cobbles that are removed during trenching. The project will have no significant effect on the environment.</p>	<b>NOE</b>	
2014018005	<p>389701-Re-Vegetate Slope and Install Permanent Best Management Practices (BMPs) Caltrans #11 --San Diego</p> <p>Restore native planting and install permanent BMP's to minimize soil loss within the project area.</p>	<b>NOE</b>	
2014018006	<p>ETS 24944---Jamancha Access Road Repair Regional Water Quality Control Board, Region 9 (San Diego), San Diego San Diego--San Diego</p> <p>The project entails repair of an existing utility access road that has been eroded. Currently, work trucks cannot drive through the section of road in question. Therefore, the proposed access road repair is crucial to allow access for emergency response and regular maintenance activities. The proposed work area is small (occurring within a 20-foot by 6-foot area), and all proposed work will occur within the footprint of an existing access road.</p>	<b>NOE</b>	
2014018007	<p>Animal Days on the Bay San Diego Unified Port District Chula Vista--San Diego</p> <p>The proposed project is the Animal Days on the Bay, which took place on November 16, 2013, at the Living Coast Discovery Center. The district will provide event sponsorship and financial assistance for the free event, which included interactive education and exhibits related to local watersheds, ecology, conservation, and preservation of local habitats. The event had an attendance of</p>	<b>NOE</b>

	over 600 people.		
2014018008	Port of San Diego Big Bay Balloon Parade San Diego Unified Port District San Diego--San Diego The proposed project is the port of San Diego Big Balloon Parade, which will take place along Harbor Drive, at Embarcadero Marina Park North, and at Ruocco Park on December 30, 2013. The District will provide event sponsorship and financial assistance for the event, a holiday and a procession of large inflatable balloons. The day-long festivities will also include the 17th annual Wienerschnitzel Wiener Nationals and the 18th Annual Bumble Bee Foods 5K Run/Walk at Ruocco Park. The event has an expected attendance of over 100,000 people.	<b>NOE</b>	
2014018009	San Diego Bay Parade of Lights San Diego Unified Port District San Diego--San Diego The proposed project is the San Diego Bay Parade of Lights, which took place within San Diego Bay on December 8, 2013, and December 15, 2013. The District will provide event sponsorship and financial assistance for the event, a holiday light parade. The event is an annual parade within San Diego Bay that features more than 80 decorated boats. The theme for 2013 was "Big Bay Toy Parade". The parade proceeded from Shelter Island past Harbor Island, the Embarcadero, Seaport Village, and the Ferry Landing in Coronado. Limited parking was provided in the parking lot just east of the Maritime Museum. The event had an attendance of over 80,000 people.	<b>NOE</b>	
2014018010	Macy's Sign Modification (PA2013-207) Modification Permit No. MD2013-020 Newport Beach, City of Newport Beach--Orange On December 23, 2013, the Zoning Administrator approved a modification permit to allow the construction of two major tenant signs to existing wall signage for the total of four wall signs for Macy's within Fashion Island. The locations of the existing and proposed signs are shown on Exhibit 2 attached hereto. The proposed signs measure 6'-9 3/4" inches in height for the south elevation and 6'-0 3/4" in height for the east elevation. The proposed signs are shown on Exhibits 3 and 4, attached hereto.	<b>NOE</b>	
2014018011	I-880 ICM Northern Alameda Segment Project Caltrans #4 Oakland, San Leandro--Alameda The project proposes to install trailblazer (directional and/or informational) signs to advise motorists of alternative routes throughout the northern Alameda County segment of I-880, during traffic incidents.	<b>NOE</b>

	sf research building; and 7) tenant improvements and reuse of the vacated portions of the existing hospital.		
2014011005	ENV-2013-2238-MND / 1349 N. Gardner Street Los Angeles, City of --Los Angeles Small-lot Parcel Map to allow four single-family dwellings on an approximately 6,600 sf lot in the R3-1 Zone with Zoning Administrator's Adjustment to allow three-foot side yards instead of the required five-foot side yards where the lot abuts a lot that is not created pursuant to this subdivision.	<b>MND</b>	02/03/2014
2014012007	Station E Substation Project Draft IS/MND Sacramento Municipal Utility District Sacramento--Sacramento The Proposed Station E Substation Project would involve the design construction and operation of a new substation on a 15.42 acre parcel near the 20th Street and C Street intersection in Sacramento. The proposed project would replace the existing adjacent North City Substation, which was constructed in the 1950s and has reached its planned operational end of life. The Proposed Project would meet SMUD's performance objectives by locating the new substation near the existing service area's load center. The Proposed Project would address projected future growth in the service area as well.	<b>MND</b>	02/03/2014
2014012010	Brewer Road Bridge Replacement Project Sutter County Yuba City--Sutter The Sutter County Development Services Department proposes to rehabilitate the existing Brewer Road Bridge over Coon Creek located in Sutter County. The Brewer Road Bridge is located just south of the intersection of Brewer Road and Hicks Road, approximately five miles east of SR-99. The existing crossing is comprised of three 10 foot diameter corrugated metal pipes covered with engineered fill and asphalt paving. The bridge has been closed since December of 2012 due to failure of two of these pipes rendering the crossing unsafe. The project would replace the pipes and rebuild the crossing using the same roadway alignment.	<b>MND</b>	02/04/2014
2014012011	Sutter County/City of Marysville Boat Ramp Dredging Project Sutter County Yuba City, Marysville--Sutter, Yuba The Sutter County Development Services Department, in coordination with the City of Marysville, is proposing maintenance of two boat ramps along the Feather River, just north of the fork with the Yuba River. Maintenance in the form of dredging is needed at these two locations because sediment has built up at the entrance to each boat ramp blocking boat access when the river levels are low. Dredging these boat ramps will bring the facilities in compliance with the State Department of Boating and Waterways standards.	<b>MND</b>	02/04/2014
2014012012	Rinconada Water Treatment Plant Reliability Improvement Project Santa Clara Valley Water District Los Gatos--Santa Clara The project proposes to improve the existing water treatment train at the Rinconada Water Treatment Plant through three principal modifications: 1) addition of raw water ozonation; 2) replacement of the existing clarification process with conventional flocculation and sedimentation with plate settlers; and 3) replacement of the filters. The improvements are proposed to address	<b>NOP</b>	02/04/2014

	deficiencies in the plant and assure the reliability of its operation and product water quality.		
2014012013	Waterfowl, Coot, Moorhen, and Common Snipe Hunting Fish & Wildlife Commission --Sacramento Waterfowl, coot, moorhen and common snipe hunting, specifically a potential modification to the current hunting regulations which may include season and or bag limit changes and closed seasons.	<b>NOP</b>	02/04/2014
2014011008	Bicycle and Pedestrian Master Plan Guadalupe, City of Guadalupe--Santa Barbara The City of Guadalupe has prepared a Bicycle and Pedestrian Master Plan to serve as a guide to the development and enhancement of the bicycle and pedestrian network within the City of Guadalupe. The BPMP is a long-range plan (programmatic document) focused on improving the safety and convenience of bicycling and walking in Guadalupe. The BPMP will guide the planning and development of bicycle and pedestrian infrastructure and programs in the city in order to enhance bicycling and walking for transportation and recreation. The BPMP focuses on specific types of projects to build an extensive and well-connected system of bicycle and pedestrian routes and key activity centers throughout the city, and includes recommendations for increasing the supply of bicycle parking and improving safety for bicyclists. The BPMP was shaped by input from the community, City staff, and other key stakeholder groups. Specifically, the BPMP does the following: identifies opportunities and constraints with respect to the existing bicycle and pedestrian networks; identifies trends in bicycle and pedestrian usage, demand, and safety; sets forth goals and policies to provide the context, direction, and support for specific recommendations identified by the BPMP; identifies a list of projects and programs to enhance the bicycle and pedestrian networks; prioritizes proposed projects for implementation; and identifies likely funding sources for identified projects and programs. The BPMP does not require the construction of the proposed projects but rather identifies them and establishes policies and resources that will facilitate and support their development.	<b>Neg</b>	02/03/2014
2014012004	PA-1300218-Use Permit Application San Joaquin County --San Joaquin A Use Permit application for the expansion of an existing almond and walnut processing facility and the addition of food manufacturing to include the construction of a 12,000 sf agricultural storage building and the conversion of an existing 13,500 sf agricultural storage building to an almond pressing and agricultural storage. The project is located on the northeast side of French Camp Road, 220 feet north of SR 120, north of Ripon.	<b>Neg</b>	02/03/2014
2014012005	PA-1300121 (UP) San Joaquin County Stockton--San Joaquin A Use Permit application for a religious assembly facility with a maximum capacity of 60 people. The project consists of the construction of a 3,008 sf religious assembly building, which includes a 2,880 sf prayer hall and a 128 sf restroom facility.	<b>Neg</b>	02/03/2014

2012102032	The Upper Llagas Creek Flood Protection Project Santa Clara Valley Water District --Santa Clara The Project is located in southern Santa Clara County in the communities of Morgan Hill, San Martín, and Gilroy. The Project consists of the upper seven reaches (4, 5, 6, 7A, 8 and 14) of Llagas Creek, East Little Llagas Creek, and West Little Llagas Creek. Upper Llagas Creek has flooded the San Martín and Morgan Hill communities repeatedly. Channel modifications in Reaches 4, 5, 6, 7B, and 14 would consist of widening and deepening. A bypass channel in Reach 7A would route flows from West Little Llagas Creek to Llagas Creek near Lake Silveira. Several alternatives include deepening and widening of Reach 8 and several other alternatives include a high flow bypass tunnel through downtown Morgan Hill (Reach 8). The creek channel would be properly sized for sediment transport, geomorphic stability and to allow for unimpeded fish passage.	<b>EIR</b>	02/19/2014
2013062040	Shadelands Gateway Specific plan and The Orchards at Walnut Creek Project Walnut Creek, City of Walnut Creek--Contra Costa The Shadelands Gateway Specific Plan's Land Use Framework section (Specific Plan Section 3.2) establishes the overall vision, and more specifically, provides refined direction for the types of land uses that should occur and how these uses will be allowed to develop within the Project Site. In addition to the Land Use Framework section, the underlying zone for the Project Site, a Planned Development zoning district, establishes in detail the site-specific development standards and land use regulations that will govern future development of the Project Site and implementation of The Orchards development proposal.	<b>EIR</b>	02/19/2014
2014011010	Mountain View Marketplace Project Loma Linda, City of Loma Linda--San Bernardino The Mountain View Marketplace project consists of a new convenience store, gas station, car wash, and separate commercial building pad on the project site. To facilitate construction of the proposed project, four existing single-family residences currently found on the project site will be demolished. Offsite	<b>MND</b>	02/04/2014

	improvements, including parkway and median construction and expansion within the public right-of-way, are also required as part of the proposed project. The convenience store and adjoining car wash will be built in the northern portion of the project site, and the fueling canopy and 8 gas pumps would be constructed in the southern part. An underground storage tank (UST), consisting of a double-walled, fiberglass fuel storage tank with leak detection sensors, will store gas and diesel fuel on the project site.		
2014012009	2014 WPCF Improvements and Water / Wastewater Line Repairs Woodland, City of Woodland--Yolo 1. Water Pollution Control Facility (WPCF) improvements, including installation of new fine mechanical screens, a high efficiency aeration system, denitrification process upgrades, and ponds system enhancements. There would be no increase in plant capacity. 2. Various repairs and replacements of existing water and wastewater pipelines throughout the City of Woodland.	<b>MND</b>	02/04/2014
2014011009	I-10 Gateway Center Project Riverside County --Riverside Approximately 171.1 acres of the 246.5 acre Project site would be included within the developed portion of the Project. The remaining 74.8 acres would remain as open space (approximately 30.3 percent of the Project site). The Project consists of two (2) industrial buildings that will have sizes of approximately 960,000 sf and 1,600,000 sf for a total of approximately 2,560,000 sf of floor area.	<b>NOP</b>	02/04/2014
2014012008	I-580 Eastbound Express Lanes Project Caltrans #4 Dublin, Pleasanton, Livermore--Alameda Caltrans, in cooperation with the Alameda County Transportation Commission (Alameda CTC), proposes to convert the existing I-580 eastbound high-occupancy vehicle (HOV) lane to an express lane facility. The conversion would allow single-occupant vehicles (SOVs) to pay a toll to use the lanes. HOVs would continue to use the lanes for free. The I-580 Eastbound Express lanes Project limits extend from just west of the Hopyard Road/Dougherty Road overcrossing to just east of the Greenville Road undercrossing in the cities of Dublin, Pleasanton, and Livermore in Alameda County (Post Miles R7.8 to 19.9). The total length of the project is approximately 12.1 miles.	<b>Neg</b>	02/04/2014
2014012014	Isleton Housing Element Isleton, City of Isleton--Sacramento One of the seven mandated elements of the CA General Plan. Housing element law, enacted in 1969, requires that local governments adequately plan to meet the existing and projected housing needs of all economic segments of the community. The project proposal is to adopt a comprehensive update to the Housing Element of the City of Isleton General Plan for the Planning Period of January 31, 2014 to October 31, 2023. This update to the Housing Element contains revised and expanded housing policies and programs, as well as new quantified housing objectives.	<b>Neg</b>	02/04/2014

1991033042	Redwood Landfill, Inc. Revised Solid Waste Facilities Permit Marin County Marin County is the lead agency, pursuant to the State Guidelines for the CEQA, for the preparation of this Addendum to the 2008 Redwood Landfill FEIR. The Addendum reviews proposed changes to the approved "Mitigated Alternative," which was analyzed in the 2008 FEIR. The changes reviewed in this Addendum are referred to as the Redwood Landfill Compost Facility Expansion and Materials Recovery Facility Project. This Addendum has been prepared by the County of Marin in accordance with CEQA, the State of California CEQA Guidelines, and the Marin County Environmental Impact Review Guidelines.	<b>NOD</b>	
2006041160	Antelope Transmission Project, Segments 2 and 3 Public Utilities Commission Tehachapi, Lancaster, Palmdale, Mojave--Kern, Los Angeles The CA Dept. of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Southern California Edison. The applicant proposes the installation of a corrugated metal pipe culvert and compacted road bed to connect two (2) access roads along the Cal-Cement-Monolith-Windparks transmission route.	<b>NOD</b>	
2007119008	Alpine Creek Longs Drug Store; S90-078W1; Log No. 88-14-135A San Diego County --San Diego The project is a Tentative Parcel Map to divide an existing 8.57 acre lot into two parcels. One parcel will be 1.66 acres and contain the existing Longs Drug Store. The other 6.91 acre parcel will contain the remainder of the shopping center. The site is subject to the General Plan Regional Category Village, Land Use Designation General Commercial. Zoning for the site is C36 (General Commercial). The site is developed with an existing shopping center that would be retained. Access would be provided by existing driveways connecting to Tavern Road and Alpine Boulevard.	<b>NOD</b>	
2008109017	Agreement 2008-0115-R4-GPA No. 07-1715-Rio Bravo Medical Campus Bakersfield, City of Bakersfield--Kern The California Department of Fish and Wildlife is issuing Amendment #1 to the Streambed Alteration Agreement issued for the Rio Bravo Medical Campus, and an extension of the Agreement term to October 10, 2018. Project changes include the plans for a storm drain connecting an existing drain at Highway 178 to a downslope drain in Kirkaldy Drive. The storm drain construction will include trenching and installing of a 24-inch diameter storm drain pipe. The project will include 1,315 linear feet on pipeline, of which 603 linear feet are occurring within CDFW jurisdiction.	<b>NOD</b>	
2009031008	Taft Recycling and Sanitary Landfill Permit Revision (GPA 2, CUP 1, Map 138; SWFP Revision; WDRs) Kern County Taft--Kern 1. Increase the landfill's permitted boundary for use as a buffer area by 10.26 acres;	<b>NOD</b>

	2. Decrease the estimated closure year by two years to 2076.		
2009081063	Highway 246 Passing Lanes Project Caltrans #5 Lompoc--Santa Barbara The project would construct two sets of passing lanes along Highway 246, beginning east of Purisima Road and ending at Domingos Road. The passing lanes would vary in length from 1.4 miles to 1.7 miles. Left-turn pockets would be installed at four intersections. The highway would be realigned to the south at Tularosa Road and a profile correction would be made. A Class III bike route would be maintained within the project limits. Improved drainage features and maintenance pullouts are included.	<b>NOD</b>	
2010052009	UPE08-0055 - Balletto Winery and Tasting Room - 5700 Occidental Road, Santa Rosa Sonoma County Sebastopol--Sonoma The proposed project involves construction of a 45,740 sf building for fermentation/blending tanks, barrel storage, administrative offices, conference and marketing rooms and exterior covered production area, addition of 10 parking stalls, and installation of landscaping. The project will result in impacts to 0.70 acres of California tiger salamander habitat. The project is expected to result in incidental take of California tiger salamander, which is designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>	
2012121050	Road 148 Outside Creek Bridge Tulare County Visalia--Tulare The CA Dept. of Fish & Wildlife is executing a Lake or Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Tulare County Resource Management Agency. The applicant proposes replacement of the existing 45-foot long and 20.5 foot wide, two-lane, 3-span bridge over Outside Creek(Bridge #46C-0186). The bridge will be replaced on the existing road alignment with a two-cell cast-in place reinforced concrete box culvert with each cell being 8 feet tall by 14 feet wide. The box culvert will be 37 feet long and 30 feet wide, accommodating two (2) traffic lanes.	<b>NOD</b>	
2012122051	Rockaway Shoulder Widening & Rumble Strip (Eastbound) Caltrans #6 --Stanislaus The CA Fish & Wildlife is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Caltrans. Activity includes extending a culvert at PM 6.48 and related the installation of a concrete Flared End Section and Rock Slope Protection. All work within the stream will occur during naturally dry conditions. No trees will be removed.	<b>NOD</b>

2012061068	<p>Silverado Power West Los Angeles County Los Angeles County Lancaster--Los Angeles</p> <p>Silverado Power, LLC (Silverado Power) is a utility scale solar photovoltaic (PV) developer proposing the development of six solar PV sites (referred to as the Overall Development) addressed in this EIR. The Overall Development is located in an area of the western Antelope Valley that was historically used for agricultural activities. Production and economic constraints led to the cessation of agricultural activities in the area, resulting in disturbed and vacant land. Silverado Power has located six SGFs on disturbed and vacant land throughout the western Antelope Valley.</p> <p>The Overall Development proposes to increase electricity generated from renewable technology by generating 172 MW of electrical energy from the sun. Recent legislation enacted in CA encourages the development of renewable energy resources to reduce reliance on fossil fuels, diversify energy portfolios, reduce greenhouse gas emissions, and assist creation of "green" jobs within the state of CA.</p> <p>The Overall Development proposes to assist CA in meeting the newly established Renewable Energy Portfolio Standards (RPS). Senate Bill 14 established RPS targets for CA, stating, "all retail sellers of electricity shall serve 33 percent of their load with renewable energy by 2020." State government agencies have been directed to take all appropriate actions to implement this target in all regulatory proceedings, including siting, permitting, and procurement for renewable energy power plants and transmission lines. The six sites qualify as an eligible renewable energy resource as defined by the CA Public Resources Code.</p>	<b>EIR</b>	02/20/2014

2013041036	<p>CSULB Foundation Retail Project Long Beach, City of Long Beach--Los Angeles</p> <p>The project proposes the demolition of the existing buildings and carports and construction of a one-story building for retail use up to 125,000 sf in size and 486 on-site parking spaces. The building could be used by a single retail tenant or by two retail tenants with separate (side-by-side) entrances.</p>	<b>EIR</b>	02/21/2014
2013112011	<p>Large Format Retail/Superstore Zoning Text Amendments South San Francisco, City of South San Francisco--San Mateo</p> <p>The proposed Zoning Amendments include changes to remove the potential for future grocery store uses from within the East of 101 planning sub-area and to prohibit "Superstore" use city-wide. The proposed definition of "Superstore" is summarized as a large retail center (over 80,000 sf) with over 5% of floor area dedicated to full service food/beverage/grocery sales. Proposed alterations to the zoning ordinance will also require revised or new definitions for the following uses: Convenience Market, Large Format Retail, Grocery Store, Supermarket, and Superstore. The changes to these definitions provide clarification by differentiating these uses from the proposed to be prohibited "Superstores."</p>	<b>EIR</b>	02/21/2014
2014011013	<p>2013-2021 City of Redondo Beach Housing Element Redondo Beach, City of Redondo Beach--Los Angeles</p> <p>The Redondo Beach General Plan is a state-required legal document (Government Code Section 65300) that provides guidance to decision makers regarding the conservation of resources and the future physical form and character of development for the City. It is the official statement of the City's goals and policies regarding the extent and types of development of land and infrastructure that will achieve the community's physical, economic, social, and environmental goals. The Housing Element Update will guide the future housing development programs of the City of Redondo Beach. The Housing is intended to be in compliance with the 2013-2021 update cycle for jurisdictions within the Southern CA Association of Governments (SCAG) region.</p>	<b>MND</b>	02/06/2014
2014012015	<p>Harbor High School Baseball Field Renovation Santa Cruz City Schools Santa Cruz--Santa Cruz</p> <p>The proposed project will include renovation of the existing Harbor High School baseball field to address drainage problems during the rainy season and improve playability of the field. The field improvements will occur within the existing baseball field fence line, approximately 2.6 acres in size. The proposed project will include removal of the existing natural turf baseball field, grading of the field, installation of subsurface drainage piping and drain rock base, and installation of synthetic turf material.</p>	<b>MND</b>	02/06/2014

2009101074	East Los Angeles College Facilities Master Plan Update Los Angeles Community College District Monterey Park--Los Angeles The East Los Angeles College (ELAC or the College) is part of the Los Angeles Community College District. A 1998 Facilities Master Plan EIR was prepared for the college and certified by the District on February 20, 2002. The 1998 Facilities Master Plan (1998 FMP) consisted of the addition of 433,149 sf of space to ELAC, including the modernization of three existing campus buildings and the addition of four new parking structures. The 1998 FMP also included plans for air conditioning, infrastructure upgrades, landscaping and security upgrades. Under the 1998 FMP, the services area for ELAC included nine communities covering an area of ~77 square miles, and student enrollment was projected to reach 25,000 students by 2015.	<b>NOD</b>	
2012061038	Re Mustang, RE Orion, and RE Kent South Solar Generation Facilities Kings County Lemoore--Kings The Addendum to CUP No.'s 11-09, 12-01, and 12-02 analyzes a revision to the Project's CUP's that would allow the Project to demonstrate Farmland Security Zone (FSZ) contract compatibility by maintaining a reasonably foreseeable agricultural operation onsite determined by site-specific soil and water analysis. The Addendum makes minor changes to the conditions of approval and mitigation measures required under the negative declaration certified on August 6, 2012 to be consistent with Board of Supervisors Resolution No. 13-058, adopted on November 26, 2013.	<b>NOD</b>	
2012082040	Mirabel Fish Screen and Fish Ladder Replacement Project Sonoma County Water Agency --Sonoma In order to construct the Mirabel Fish Screen and Fish Ladder Replacement Project (Notification #1600-2013-0328-R3), seismic ground improvements are necessary to ensure bank stability and public safety. The seismic ground improvements authorized by this agreement would occur prior to the construction of the Mirabel Fish Screen and Fish Ladder Replacement Project. The seismic ground improvements are limited to penetrating the soil with augur holes and installing stone columns in the soil matrix. The CA Dept. of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0416-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Sonoma County Water Agency.	<b>NOD</b>

	disturbance of approximately 1.25 acres of a 2.01 acre parcel.		
2014012016	Water Treatment Plant Expansion Project Rancho Murieta Community Services District Rancho Murieta--Sacramento The main objective of the project is to ensure that the RMCS D maintains an adequate water supply for approved and future planned development in the RMCS D's service area. Therefore, the RMCS D is proposing to expand and make improvements at their existing WTP facility (Plants 1 and 2) due to aging equipment and processes and to address future regulatory requirements. Once the proposed project is completed, the firm rated capacity of Plant 1 at the WTP would be approximately 3.5 mgd. Ultimately, Plant 1 would be expanded to provide a firm rated capacity of up to 6.0 mgd and Plant 2 at the WTP could be used for backup purposes.	<b>MND</b>	02/07/2014
2014012017	William Kent Campground Redevelopment Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer The U.S. Forest Service - Lake Tahoe Basin Management Unit (LTBMU) is planning to redevelop facilities and conduct water quality improvement activities at the William Kent Campground property. The property covers approximately 25-acres on the west shore of Lake Tahoe and consists of the William Kent Campground, an administrative site, and the William Kent day-use beach area. The project includes 1) Redesign and upgrade of campground facilities; 2) Day-use beach area water quality improvements; and 3) Campground Stream Environment Zone restoration and water quality improvements.	<b>MND</b>	02/07/2014
2014012018	Community Services Area 14 (Homestead Valley) Land Management Plan Marin County Mill Valley--Marin Marin County Parks is proposing to adopt a Land Management Plan to guide the long-term management of public open space and park lands within Community Service Area (CSA) 14 (also known as Homestead Valley). The LMP will provide Parks and HVL T with a framework for selecting best management practices, prioritizing projects, timing and sequencing work for maximum effectiveness, and using adaptive management to help ensure that public monies are effectively and efficiently spent to meet stated goals and objectives. The LMP will also ensure that management actions are consistent with Parks' draft Vegetation and Biodiversity Management Plan and draft Road and Trail Management Plan. The LMP includes a comprehensive list of land management recommendations and is intended to have a ten year planning horizon.	<b>MND</b>	02/07/2014
2014012020	Dowdell Avenue Extension Rohnert Park, City of Rohnert Park--Sonoma The Dowdell Avenue Extension project is a proposed 2-lane roadway extension that would run through portions of each of the three parcels (APNs: 143-040-073, 143-040-111, and 143-040-064) in the 19.0 acre Study Area located in Northwest Rohnert Park. The road extension would extend from Business Park Drive at the intersection of Business Park Drive and the south end of Dowdell Avenue to a point 760 feet to the south. The extension would provide a connection via Dowdell Avenue from Business Park Drive south to Martin Avenue. The project's total area of disturbance would be approximately 51,680 sf (1.19 acres), of which 36,480 sf (.84 acres) would be paved.	<b>MND</b>	02/10/2014

2009052008	Rohnert Park Walmart Expansion Project Rohnert Park, City of Rohnert Park--Sonoma The proposed project consists of the expansion and alteration of the existing Walmart store. The project would include the addition of approximately 35,256 square feet of building area to the existing store. For the purposes of providing a conservative evaluation of project impacts, the EIR will analyze the additional square footage at 40,260 square feet, which is 3 percent larger than the anticipated expansion square footage. The expanded store would retail general merchandise and groceries and operate 24 hours a day, 7 days a week.	<b>EIR</b>	02/24/2014
2014011019	Lake Street Basin Recharge Modification Project Lake Hemet Municipal Water District Hemet--Riverside The proposed project will involve the conversion of an existing approximate 6-acre flood control detention basin into a retention basin. The project will involve the excavation of approximately 35,000 cubic yards of material to lower the existing retention basin bottom by approximately five feet. The Project will include a 150-foot extension of an existing Irrigation pipeline located in Stetson Avenue to the basin to accommodate the use of SWP water and to facilitate recharge of San Jacinto River water. The irrigation pipeline extension, basin bottom and internal slopes will be maintained by Lake Hemet Water District and the outer slopes, basin outlet structure and maintenance road will be maintained by the Riverside County Flood Control and Water Conservation District.	<b>MND</b>	02/10/2014

	approved on July 8, 2003. This subject extension is the final 272 lineal feet to complete final entitlements to construct Jurupa Avenue from Tyler Street to Van Buren Boulevard. The project also includes a storm drain culvert improvements and the extension of water and sewer facilities that will serve Tract 28987.		
2014011025	Tract 28987 Open Space & Remainder Lot Mass Grading Riverside, City of Riverside--Riverside The proposed mass grading project is located in the north portion of the City of Riverside (City), in the County of Riverside and involves the grading, the placement of underground storm drain facilities and a detention/water quality basin within the open space and remainder lot of Tract 28987, approximately 30 net acres. Tract 28987 and its MND were approved on July 8, 2003. This grading project generally surrounds the residential portion of Tract 28987 on the west, north, and east. The subject project also includes storm drain culvert improvements. As the cleanup involves around 150,000 tons of material export, the site requires massive grading activities that will allow the site to retain its' pre-existing storm flow drainage abilities and allow the adjacent approved residential tract to be constructed.	<b>MND</b>	02/10/2014
2014012027	Lake of the Pines Interconnect Backbone Extension Project Nevada Irrigation District Auburn--Nevada NID proposes to construct and operate a new treated water transmission and distribution system to provide treated water service to landowners within the NID service area in response to landowner requests for this NID service. Additionally, the Project will allow the connection between two NID water systems, the Lake of the Pines system, and the Alta Sierra system. Property owners have expressed interest in receiving NID treated water service to replace or supplement groundwater sources obtained from individual private wells. The proposed project would enable NID to meet the community's existing potable water demands during peak summer months and to meet future treated water supply demands associated with planned and approved development defined by the Nevada County General Plan.	<b>MND</b>	02/11/2014
2014011027	Gaviota Coast Plan Santa Barbara County Goleta--Santa Barbara Note: Review period extended  Long Term Land Use Plan for the Gaviota Coast Plan area.	<b>NOP</b>	02/24/2014
2014012023	General Plan 2040 Update for the City of Clearlake Clearlake, City of Clearlake--Lake The proposed project is the preparation of a comprehensive update of the City's 1980 General Plan. California law requires cities and counties to adopt a General Plan to guide future development. The General Plan is the foundation upon which all land use decisions are to be based. The Draft Clearlake General Plan accommodates new housing and jobs in anticipation of population growth in the County and the regional through the year 2040.	<b>NOP</b>	02/10/2014

<b><u>Documents Received on Friday, January 10, 2014</u></b>			
2014011026	2013-2021 Housing Element Industry, City of Industry--Los Angeles The proposed project is the update of the City of Industry's Housing Element, which is a part of the Industry General Plan. The City of Industry has prepared the 2013-2021 Housing Element, which provides guidance to plan for housing needs in the City over the next seven years. The 2013-2021 Housing Element has been developed to meet CA State legal requirements, including the need to plan for the City's share of the Regional Housing Needs Assessment (RHNA), and is subject to certification by the State Department of Housing and Community Development (HCD).	<b>Neg</b>	02/10/2014
2014011028	191 Riverside Land Use and Zoning Amendments Newport Beach, City of Newport Beach--Orange A General Plan Amendment (GP2013-002) and Coastal Land use Plan Amendment (LC2013-003) to change the land use category from Public Facilities (PF) to Mixed-Use Horizontal (MU-H1) and a Zoning Code Amendment (CA2013-007) to change the zoning from Public Facilities (PF) to Mixed-Use Mariners Mile (MU-MM) for a 0.52-acre site located at 191 Riverside Avenue. No demolition or new construction is proposed at this time.	<b>Neg</b>	02/10/2014
2014012021	Fair Oaks Boulevard-Day Avenue to Arden Way Project Sacramento County --Sacramento The project is called "Day Avenue to Arden Way", but while the improvements begin at Day Avenue they stop about 600 feet away from Arden Way. The proposed project involves the construction of pedestrian facilities and improvements in sections where facilities are lacking along the southeastern side of Fair Oaks Boulevard; facilities are absent and will be installed in the section from Day Drive to Jardin Lane and then in the section from Day Drive to Jardin Lane and then in the section from Elsdon Circle to about 330 feet beyond Elsdon Circle. The project does not involve changes to the existing sidewalk, curb and gutter from Jardin Lane to Elsdon Circle, because facilities already exist in this section. The project involves clearing and grubbing, traffic control, pavement removal, sidewalk construction, curb and gutter installation, ADA ramp construction, drain inlet and pipe installation, minor pavement repair, roadway restriping and bicycle lane improvements. The project will include improvements to enhance pedestrian and bicyclist safety and mobility, as follows: the creation of a 4-foot bicycle lane, the construction of a 3-foot Type 2 curb and gutter and the construction of a 4-foot sidewalk.	<b>Neg</b>	02/10/2014
2014012022	UP13-001A (Carlton) Shasta County --Shasta The request is for approval of an amendment to Use Permit 13-001 to allow for a Christmas tree operation to be located on the north half of a 2.9-acre property. The Christmas tree operation would involve the storage of trees and related equipment and would not be open to the public. Access to the Christmas tree operation would from Highway 299E through an existing driveway located on the adjacent parcel to the east. Water and Sewer Services are to be provided by the Burney Water District.	<b>Neg</b>	02/10/2014

2012071086	EIR MH 1-12; Kingbird Solar Photovoltaic Project by Kingbird Solar, LLC. Kern County Mojave--Kern Note: Chapter 7 - Response to Comments	Oth	
	<p>The proposed project would construct and operate a photovoltaic power-generating facility which would produce a total of 40 MW of electricity from approximately 700,000 solar PV panels on 324 acres of land in unincorporated Kern County. The project would require approval of a CUP as well as a zone change to A (Exclusive Agriculture) in order to construct and operate the solar facility within areas currently zoned as E (2 1/2) RS (Estate 2.5 acres, Residential Suburban Combining) zone districts. The project would also require an amendment to the Willow Springs Specific Plan to change the site land use from 5.6 (Residential/ Min. 2.5 Gross Acres per unit); 2.8 (Military Flight Operations) to 8.5 (Resource Management).</p>		
2012094002	Tule Wind Reduced Ridgeline Project Bureau of Indian Affairs --San Diego FYI ROD	Oth	
	<p>The BIA has issued a Record of Decision for the approval of a lease between the Ewiiapaayp Band of Kumeyaay Indians and Tule Wind, LLC of 720 acres of land held in trust by the United States government for the Ewiiapaayp for the development of up to 20 wind turbines.</p>		
2012111014	GPA 2, Map 114; GPA 3, Map 133; GPA 2, Map 134; GPA 2, Map 135; ... Kern County Mojave, California City--Kern Note: Updated Response to Comments.	Oth	
	<p>The project proponent is requesting: (a) Amendments to the Circulation Element of the Kern County General Plan to eliminate future road reservations along section and mid-section lines where there are no existing roads; (b) changes in zone classifications from E (20) RS to A (Exclusive Agriculture) and from A-1 (Limited Agriculture) to A (Exclusive Agriculture) in order to be consistent with the Kern County General Plan; (c) conditional use permits to allow for the construction and operation of a native and imported water recharge, recovery and transport facility along with a 1,008 megawatt (MW) solar electrical generating facility and a temporary concrete batch plant in the A (Exclusive Agriculture) and A-1 (Limited Agriculture) zones; (d) cancellation of approximately 3,318 acres of land under Williamson Act land use contracts; and (e) Vesting Tentative Parcel Maps numbers 12030 through 12043, inclusive. The project would also include 75 miles of 230 kV or 345 kV transmission line route options. The generating-tie line would be located within designated public and private easement areas and connect to either the Los Angeles Department of Water or Power (LADWP) Barren Ridge substation, the Antelope Valley (AV) Clearview Transmission Yeager substation, the SCE Windhub substation, the SCE Ransburg substation, the High Wind substation, or the SCE Kramer substations.</p>

2013061004	RE Clearwater Solar Project and RE Yakima Solar Project by RE Clearwater LLC and Re Yakima LLC (PP 13266); (EIR JEG 01-13) Kern County Mojave--Kern Note: Chapter 7 - Response to Comments  Two separate projects are proposed that would consist of two individual contiguous solar facility sites, totaling 429 acres in the southeastern portion of Kern County, southwest of the community of Mojave. Each of the proposed solar facilities would develop and operate a 20 megawatt photovoltaic electric generation facility. The proposed projects would transmit energy through a substation on the RE Yakima project site to a 66 kV transmission line connecting the solar facilities with the existing Windhub Substation. The projects would require approval of Zone Changes (ZCC) and Conditional Use Permits (CUP) from the Kern County Board of Supervisors. The proposed zone changes would revise the existing zoning to A (Exclusive Agriculture) and A FPS (Exclusive Agriculture, Floodplain Secondary Combining) for both projects. The FPS zoning would continue to be applied in areas located within a flood zone. Construction and operation of solar electrical generating facilities are permitted on sites designated as A (Exclusive Agriculture) with approval of a CUP.	Oth	
2014018088	#019 Dining Complex - Emergency Repair and Abatement for a Pipe Leak - Additional Work -- JOC 13-028.016.01 California State University Trustees --San Luis Obispo Installing a new coat of lock down on soil in work area and installing plastic sheeting applied to floors for Hazmat Containment Construction. <b><u>Documents Received on Monday, January 13, 2014</u></b>			
2014012028	1715 Elm Street Condominiums Project El Cerrito, City of El Cerrito--Contra Costa The project proposes 14 new condominiums in a three-story structure with parking on the ground floor, and the renovation and relocation of the existing 1,065-sf, single-family detached house on another portion of the project site to provide a fifteenth living unit. The existing storm water channel will be maintained in its current location, and a small footbridge is proposed to cross the channel to provide access to the proposed common open space on either side. Permeable brick pavers, crushed granite walkways, natural turf, and a stone seat-wall are proposed along with edible garden plantings (fruit trees and herbs), drought-tolerant plant species, and seasonal flower displays.	<b>MND</b>	02/11/2014
2014012029	Madison Place Mixed Use Development Santa Clara, City of Santa Clara--Santa Clara Rezoning from CT-Thoroughfare Commercial to PD-Planned Development, and Tentative Subdivision Map to allow the development of a mixed use four story building with 5,100 sf retail and 1,270 sf first floor retail and three floors of one, two, and three bedroom totaling 28 condominium units above.	<b>MND</b>	02/11/2014
2014012032	EA 2013-0003 (Alleghany Road Bridge Rehabilitation Project) Yuba County --Yuba Yuba County's Public Works Department seeks environmental approval for the Alleghany Road Bridge Rehabilitation Project which consists of rehabilitating the existing bridge on Alleghany Road over Oregon Creek and reconstructing the approach roadway. The proposed project is located southeast of SR 49 and adjacent to the U.S. Forest Service Oregon Creek Day Use Area which is approximately 30 miles northeast of the City of Marysville in Yuba County, CA.	<b>MND</b>	02/12/2014
2014012030	Spongeplant Control Program Parks and Recreation, Department of Sacramento, Stockton, Oakley-- The primary treatment method for the SCP will be aquatic herbicides. DBW is seeking approval for the use of five different herbicides for the SCP. Approval of five herbicides will provide flexibility in targeting this new invasive species and allow DBW to identify herbicides that will effectively treat the plant while minimizing the potential for negative environmental effects. All of the five herbicide active ingredients have been approved for the WHCP and/or EDCP: 2,4-D, glyphosate, imazamox, penoxsulam, and diquat. All five herbicides have been proven effective in treatment spongeplant, or the closely related species, American frogbit ( <i>Limnobium spongia</i> ). All herbicides will be used with an adjuvant surfactant, Agridex or Competitor, to increase adhesion to spongeplant leaves. When appropriate, DBW will also utilize a water conditioning agent to improve herbicide effectiveness, and a spray pattern indicator to identify treated plants.	<b>NOP</b>	02/11/2014
2014012026	New Wireless Telecommunications Facility (123 Foot Monopine) San Mateo County Pacifica--San Mateo NSA Wireless, Inc., representing Verizon, proposes to construct a new telecommunication facility (a 123-foot monopine with six new panel antennas, installed within two sectors (3 antennas per sector) at a height of 115 feet above ground level and associated equipment including a 12-foot by 16-foot wireless	<b>Neg</b>	02/11/2014

	equipment shelter near the base of the tower, a 48kw generator, and a 499-gallon propane tank within a 1,203 sf lease area. The lease area will be enclosed with a 10-foot retaining wall and topped with a 3-foot chain link fence and barbed wire. Numerous mitigation measures have been developed and added to the project to ensure that no wildlife will be negatively impacted during construction and operation of the facility.		
2014012031	Samoa Waste Recovery Facility Coastal Development and Conditional Use Permits CDP-13-007/CUP-13-029 (Apps 9048) Humboldt County --Humboldt A Coastal Development Permit and CUP to allow for re-opening of a facility previously used as a recycled materials processing facility, which will now be used as a medium volume waste transfer station on an approximately 2.5 acre parcel within the general industrial area of the town of Samoa. Municipal waste would be transported to the site for recyclables to be sorted from the waste. Recyclables would be packaged and exported and remaining waste taken to the Anderson Landfill. The existing structure is a 38,000 sf facility that accommodates a sort line technology, tipping floor area and bale storage area, all capable of handling up to 100 TPD. The facility will be open for public drop off, and Eel River Disposal anticipates the facility could generate up to 175 vehicles per day, five days a week. Hours of operation would be 7 am to 5 pm, Monday through Friday.	<b>Neg</b>	02/11/2014
2003021141	General Plan Amendment/Zone Change (PA 01-114) (aka: The Ranch Plan) Orange County --Orange Santa Margarita Water District filed an application for a temporary permit to appropriate water on January 9, 2014 pursuant to Water Code section 1425. The district proposes to divert return flows from purchased water flowing Gobernadora Creek. An upper basin will use a wetland process to treat non-storm flows for irrigation use within the Coto de Caza community. A lower basin will be used to attenuate storm flows. A portion of the water diverted will be stored in the District Portola reservoir. The temporary permit is necessary to reduce the District's reliance on imported water and prevent the imminent loss of grant defunding for the project.	<b>NOD</b>	
2005081167	18 MGD Regional Wastewater Treatment Facility Expansion Project Victor Valley Wastewater Reclamation Authority Victorville--San Bernardino The project is adopting Waste Discharge and Water Recycling Requirements for an IWTP located at SCLA. The 2.5 Million Gallons per day (MGD) IWTP will dispose of excess disinfected tertiary treated recycled water at percolation pond No. 14, after recycled water is applied for other beneficial uses. The Regional Board, as a Responsible Agency, relied upon two previous Mitigated Negative Declarations prepared by the City of Victorville and VVWRA.	<b>NOD</b>

2014018126	Install Pay Parking Machine (13/14-SD-22b) Parks and Recreation, Department of --San Diego Installation of new automated pay machine at Cardiff State Beach to collect day use fees to improve visitor services.	<b>NOE</b>	
2014018127	Install Pay Parking Machine (13/14-SD-22a) Parks and Recreation, Department of --San Diego Installation of new automated pay machine at Torrey Pines State Beach north parking lot, to collect day use fees to improve visitor services.	<b>NOE</b>	
2014018128	Langtry Estate and Vineyard, New Surface Water Treatment Plant Public Health, Department of --Lake The California Department of Public Health (De[partment) as the lead agency will be issuing a water supply permit. Langtry Estate and Vineyard proposes to install a membrane filtration system and transfer pump to their surface water treatment plant.	<b>NOE</b>	
2014018129	Underground Storage Tank Removal and Above Ground Storage Tank Installation - Merced Area Office California Highway Patrol Atwater--Merced The proposed project would remove a 12,000 gallon underground storage tank (UST) and associated appurtenances. To replace the UST, this project also involves installation of a 12,000 gallon aboveground storage tank (AST) and associated fueiling appurtenances, including dispensers, fuel management system, bollards, monitoring systems, fuel canopy and perimeter security fencing. Parking lots will also be re-paved and re-striped to comply with the American with Disabilities Act.	<b>NOE</b>	
2014018130	Interior Alterations Caltrans #4 Oakland--Alameda The proposed project consists of the interior alteration of existing office space on the 11th floor of the CalTrans District 4 Headquarters Building. The building was built in 1991. The work consists of the demolition of some existing interior walls and the construction and installation of new partitions, doors, floorcovering; heating, ventilation, and air conditioning modifications to accommodate the new layout; and related modifications. The tenants will be relocating from existing leased space in San Francisco into surplus office space, thereby following administrative directives relating to the utilization of State-owned facilities (GC 14682) and State office consolidation (Executive Order B-17-12).	<b>NOE</b>	
2014018131	Auditorium Repairs General Services, Department of Los Angeles, City of--Los Angeles Replacement of the existing water damaged acoustical wall panels, replacement of draperies, repainting interior walls, refinishing hardwood stage flooring, replacement of audio visual system components and related electrical requirements, and replacement and repair of damaged seating. As the auditorium is used by the State and the public, the repairs are necessary for the proper functioning of the audtiorium and health and safety of its users.	<b>NOE</b>

	standards of Ordinance 348 Section 19.4 ("On-site Advertising Structure and Signs").		
2013101042	2013-2021 Housing Element Lake Forest, City of Lake Forest--Orange California Government Code Section 65302(c) mandates that each city and county shall include a Housing Element in its General Plan, and that the Housing Element be updated periodically to reflect current conditions and legal requirements. State law requires that jurisdictions within the Southern California Association of Governments (SCAG) region, which includes Lake Forest, update their Housing Elements for the 2013-2021 planning period.	<b>FIN</b>	
2014011031	Sonshine Properties Proposition 84 Project Arvin Community Services District Arvin--Kern The project will involve a mainline extension from the existing ACSD system at Comanche Drive and Sunset Blvd to the Son Shine Properties Water System. This will be a 12-inch C900 PVC pipeline and be installed on the east side Comanche Drive for approximately 7,920 ft, then cross Comanche Drive westerly, and continue north on the west side of Comanche Drive for approximately 3,400 ft and include a cased road crossing at DiGiorgio Road. A 12-inch C900 PVC pipeline will branch to the west from this mainline extension and be installed along the northside of DiGiorgio Road to approximately 3,500 ft west of Comanche Road. This water system consolidation will include installation of new fire hydrants, gate valves, air release valves, and metered services along the PVC pipelines.	<b>MND</b>	02/12/2014
2014011032	529 South Maple Avenue Project Los Angeles County Los Angeles, City of--Los Angeles The County desires to purchase the property located at 529 S. Maple Avenue (and adjacent parking at 525 S. Maple Avenue) for long-term continuation of its current use as the Los Angeles County Department of Mental Health Downtown Mental Health Center and offices, and do some improvements (the "Project"). The property consists of an approximately 25,000 sf building and 46 parking spaces. The proposed Project would involve the majority of recommended improvements as outlines in the 2010 Building Evaluation Report completed for the existing building and the August 2013 Existing Condition Inspection Report. The proposed Project does not include demolition of the building or major modifications of existing Project site structures or construction of new facilities at the project site. The proposed Project would include structural and seismic improvements, architectural improvements, off-street parking improvements, and abatement of asbestos, lead based paint, and mold. Structural and seismic improvements include reinforcing unreinforced masonry, shoring up spalled and cracked concrete, and anchor of rooftop equipment. Architectural improvements include repainting stucco, replacing the roof, waterproofing the rooftop, replacing some interior doors, lighting fixtures, and carpeting, and upgrading a restroom. Abatement of asbestos, lead based paint and mold would be conducted per regulatory requirements for workplace safety. Construction of the proposed Project is estimated to last approximately fourteen months. Mitigation measures implemented during hazardous materials abatement activities will render no significant effect on the environment.	<b>MND</b>	02/12/2014

2014011080	<p>Aera Energy Belridge Oil Field Complex Steam Generators Project S-1113576,113577, San Joaquin Valley Air Pollution Control District --Kern</p> <p>Aera Energy is proposing to construct and operate up to thirty natural gas steam generators within their existing Light and Heavy Oil Western Stationary Sources located in the Belridge Oilfield, Kern County, CA. The District has received two ATC application packages. The first application package covers the installation of a single "pilot" 100 MMBtu/hr oilfield steam generator (OSG). The second ATC application package would allow installation of either 29-85 MMBtu/hr OSG or 26 - 100 MMBtu/hr OSG, but not both. The OSGs are planned to be installed at three separate sites from six potential locations.</p>	<b>MND</b>	02/12/2014
2014012033	<p>Lamb Lot Line Adjustment and Special permit Humboldt County Eureka--Humboldt</p> <p>A Lot Line Adjustment between three separate, legal parcels to result in Parcels A, B and C of 0.54 acres, 2.45 acres and 0.71 acres, respectively. Parcel A is currently developed with a two-bedroom mobile home, Parcel B with a three-bedroom residence, a shop, a garage and three barns and Parcel C with a shop. The existing residence on Parcel B will be located on resultant Parcel A following the Lot Line Adjustment. The existing mobile home on Parcel A will be removed and replaced with an approximately 1,400 sf manufactured home as a secondary dwelling unit. The purpose of the Lot Line Adjustment is for estate planning purposes. The parcels are served with water and on-site wastewater treatment systems.</p>	<b>MND</b>	02/12/2014
2014012034	<p>Wastewater Treatment Facility Improvements Project Dixon, City of Dixon--Solano</p> <p>The City of Dixon WWTF Improvements Project involves construction of secondary treatment at the WWTF. Secondary treatment will be provided by replacing the existing pond treatment with a nitrifying / denitrifying activated sludge process. Construction of a new influent pump station, new headworks with mechanical screening and flow measurement, and new potable water well will be required. Flow equalization to minimize peak flows will be provided by constructing an equalization basin post-secondary treatment. Upgrade of piping and pumping capacities throughout the WWTF and disposal area will be included. Construction will likely occur towards the end of 2014 or in spring 2015 and construction will last approximately 18 months.</p>	<b>MND</b>	02/12/2014

2013032062	Warm Springs South Fremont Community Plan Fremont, City of Fremont--Alameda The proposed Warm Springs / South Fremont Community Plan seek to facilitate development of transit-oriented residential and non-residential uses on 879 acres near the Warm Springs / South Fremont BART Station. The Community Plan has a buildout potential of 11,521,526 sf of light industrial, research and development, office, retail, and hotel uses; up to 4,000 dwelling units, and an elementary school. The Community Plan also contemplates circulation and infrastructure improvements within the plan area.	<b>EIR</b>	02/28/2014				
2014011034	Pottery Canyon Park Remediation Project San Diego, City of La Jolla--San Diego City of San Diego Development Services Department approval to allow for the implementation of a soil remediation plan at a hazardous waste site (burn ash) within the City of San Diego's Pottery Canyon Natural Park. The waste site was used as a dump from the 1890's through the 1930's. Waste debris at the site consists mainly of fragmented and fused glass, porcelain, and ceramics which may be related to the Rodriguez Family's pottery manufacturing operation. The remediation plan would place (cap) approximately 1,000 cubic yards of clean fill material over approximately 13,500 sf of contaminated soil. The implementation of the plan would include the following: The soil cover beyond the north, west and east of the footprint would be tapered at 4:1 slope; soil cap on the west, north, and east perimeter of the footprint would extend eight feet beyond the footprint in order to taper the grade at its edges; the southern margin of the footprint beneath the	<b>MND</b>	02/13/2014

	roadway is essentially capped and would remain as is; in order to taper the cap to match the existing grade of the roadway, a minimal volume of soil would be excavated and spread thinly on the area that would have a 2-foot soil cap; a non-woven geotextile fabric would be placed over the area; clean fill would be placed over the textile to form a 2-foot cap; and compost socks would be placed around the area and it would be hydro seeded with a native seed mix.		
2014011035	Section 24 Specific Plan Agua Caliente Band of Cahuilla Indians Rancho Mirage--Riverside The Section 24 Specific Plan addresses 577 acres of land within the boundaries of the Aqua Caliente Indian Reservation. Following action on the EIS and Section 24 Specific Plan by the Agua Caliente Tribe, the Specific Plan area may be annexed to the City of Rancho Mirage. The Specific Plan would allow for the development of a mix of retail, entertainment, office, hotel, and residential uses intended to complement existing and planned surrounding uses in the City of Rancho Mirage. Commercial uses are proposed on Ramon Road and Bob Hope Drive with residential uses proposed for the remainder of the Specific Plan area. The Specific Plan would allow for the development of a maximum of 1,200 units in an active adult residential community; 1,206 multi-family residential units; and approximately 3.14 million sf of commercial development.	<b>NOI</b>	02/13/2014
2014011033	Inn at Sunset Cliffs San Diego, City of San Diego--San Diego A Coastal Development Permit and Site Development Permit for the unpermitted surfacing of an existing deck and a new wet well and water pump on environmentally sensitive lands associated with an existing 24 room hotel.	<b>NOP</b>	02/13/2014
2014012035	Use Permit, Initial Study #2013-10, Lassen Lands and Trails Trust Modoc County --Modoc Use Permit proposal to improve and maintain existing trail facilities along the Modoc Lassen Rail Trail (MLRT). The project also includes the replacement of livestock gates and installation of signs to mark access points.	<b>Neg</b>	02/13/2014
2005121046	El Monte Transit Village Specific Plan Project El Monte, City of El Monte--Los Angeles The Project is implementation of a Removal Action Work plan (RAW) for the construction of a cap for the mitigation of lead-impacted soil and completion of a removal action of undocumented fill beneath portions of the proposed development associated with the presence of a former "burn dump" at 3527 Santa Ana Avenue, El Monte, California (site). The draft RAW recommends installation, operation, and maintenance of a Geosynthetic Clay Layer (GCL), to be installed at the ground surface as a means to prevent direct contact with the lead impacted soil. Furthermore, an Operations and Maintenance plan will be developed to ensure the integrity of the cap in perpetuity. Finally, the land owner will record a Land Use Covenant, ensure future land use is consistent with the proposed development and DTSC is to be notified of any changes to future land use.	<b>NOD</b>
