

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

January 1 – 15, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1 – 15, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

BIA-ND	Bureau of Indian Affairs Notice of Decision
OTH	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Friday, January 02, 2015</u>			
2013101071	Wright Solar Park Conditional Use Permit Application CUP 12-017 Merced County --Merced Note: FYI Final 1 HC Wright Solar Park, LLC (applicant) proposes to develop, own, and operate a 200-MW alternating current ground-mounted solar PV power plant located on leased and purchased agricultural lands in unincorporated Merced County, CA. The applicant has filed a CUP application with Merced County (Application No. CUP 12-017) for the proposed project to allow for the construction, operation, and maintenance of such facilities for the long-term generation of clean renewable energy from solar power. In addition, the project would include cancellation of the Williamson Act contracts covering 1282.45 acres of the project site.	FIN	
2015011001	Interim Relief Drain for the Perris Valley Master Drainage Plan Line G Perris, City of Perris--Riverside Proposal to construct an interim 48" reinforced concrete pipe (RCP) 222-feet in length across unimproved Morgan Street to connect an existing concrete Perris Valley MDP Line G channel with the Perris Valley Storm Drain (PVSD) channel. The purpose of the interim RCP improvement is to convey nuisance flow from Line G and is designed to dewater the existing sump conditions during a storm event adjacent to the PVSD channel, as the existing 24" PVC pipe outlet is buried below grade and is substandard in size and design to effectively drain water into the PVSD channel. The interim relief drain will be below the surface as it traverses to the outlet point at the PVSD channel that allows for the drain line to maintain slope of .0030. Concrete headwall and inclined trash rack will be installed at the inlet to prevent debris from flowing into the PVSD channel rip-rap at the outlet to minimize erosion.	MND	02/02/2015
2015011002	Rose's Landing, 725 Embarcadero Road, Project No. UP0-359 Morro Bay, City of Morro Bay--San Luis Obispo The project located at the western extent of 725 Embarcadero-Rose's Landing, consists of expansion of Water Lease Site 82-85W from approximately 50-feet to 93.7 ft, and construction of a new gangway, dock, and seven boat slips. With the exception of slip number one, which will be controlled by the Morro Bay Harbor Dept., six slips are for non-commercial purposes and available as month-to-month rentals. The dock and slips would be supported by eleven new guide piles consisting of 35 - 55-foot by 16-in diameter 0.375 wall steel. The upper 25 feet of the exterior surface that would be exposed will be coated with a marine grade epoxy/polyurethane coating. All on-site work would occur from a barge stock and prepared at the APC dock in Morro Bay, and tugged into position for pile installation. No land-based activities are associated with this project.	MND	02/02/2015
2015012001	Avenue of the Giants - Four Bridges Project Caltrans #3 --Humboldt Note: Extended Review per lead Caltrans proposes to upgrade the railings on four bridges at the following locations	MND	02/23/2015

<u>Documents Received on Friday, January 02, 2015</u>			
	on SR 254 in Humboldt County: Ohman Creek Bridge #4-7, PM 0.88; Elk Creek Bridge #4-8, PM 10.43; Bridge Creek Bridge #4-9, PM 10.80; Bear Creek Bridge #4-12, PM 43.02. The proposed work will include upgrading bridge railing, guard railing including crash cushions, and repaving the existing roadway approximately 200 feet on each side of all four bridges. The proposed rail upgrade will consist of a modified Type 80 concrete barrier with bicycle railing. All railing barrier work will be done from the existing bridge decks. The overhangs of each structure will be reconstructed to carry the additional weight of the new bridge railing.		
2015012002	Rezone #14-06 and Parcel Map #14-07 (Lawrence A. Albrecht and Sandra K. Albrecht - Owners) Tehama County --Tehama The applicants proposed to create three parcels on approximately 16 acres. The parcel map will create one parcel of 6.3 acres, one parcel of 4.7 acres, and one parcel of approximately 4.3 acres. The project is located in the Bowman Area, on the north side of Bowman Road and south of the South Fork and Cottonwood Creek, approximately 1,400 feet east of the Bowman Road / Farquhar Road intersection.	MND	02/02/2015
2015012003	Zone Amendment 14-001 (Community Housing Improvement Program) Shasta County --Shasta Request for approval of a Zone Amendment of a 5-acre property from One-Family Residential, minimum building site of 10,000 sf (R-1-B-10) zone district to the One-Family Residential (R-1) zone district.	Neg	02/02/2015
2014102082	Alameda Creek North Levee Improvement Project Alameda County Union City--Alameda The Alameda County Flood Control and Water Conservation District proposes to raise 8,650 linear feet of the north levee of Alameda Creek downstream of Union City Boulevard by approximately 4 feet between Union City Blvd. and the vicinity of Coyote Hills, in the City of Union City to provide 100-year flood protection. The project would require approximately 40,000 cubic yards of import levee material, to raise the levee height. The project also would require removal of about 210 trees. Following completion of the levee raising, the existing public access trail atop the levee would be replaced.	NOD	
2015018001	Operation of Continuous Aeration Treatment to Existing Facilities. State Water Resources Control Board --Sonoma The State Water Resources Control Board (SWRCB), as the responsible agency, will be issuing a water supply permit. The Salmon Creek Middle School proposed project included the continuation of aeration in an existing storage tank to address a continuous copper action level exceedance.	NOE	
2015018002	Install Light Pole at Park and Ride. EA: 392401 Caltrans #11 La Mesa--San Diego Install light pole to increase lighting at the Severin Drive Park and Ride.	NOE

2015018003	Red Bluff Hardscape Caltrans #2 Red Bluff--Tehama Remove existing landscaping and irrigation and replace with drought tolerant hardscaping.	NOE	
2015018004	Issuance of Lake or Streambed Alteration Agreement No. R1-20140302-R1, Mr. Craig Nejedly, Nejedly 1600 Diversion Fish & Wildlife #1E --Humboldt Maintennace and use of an existing water diversion intake.	NOE	
2015018005	Permission to Enter State School Lands to Conduct Cultural Resources Surveys; California State Lands Commission --Inyo Panorama Environment, Inc. proposes to conduct a cultural resources survey. The cultural resources survey would be a pedestrian survey of the county-maintained roadways (Saline Valley Road and Waucoba Saline Road). If a resource is located on the maintained roadway and extends into lands under the jurisdiction of the California State Lands Commission, crews would go outside of the roadway to fully record the resource. All survey areas outside of the paved road area would be accessed on foot, and no off-road vehicle travel will occur.	NOE	
2015018006	Geotechnical Borings for Coolwater - Lugo Transmission Line Project California State Lands Commission --San Bernardino Southern California Edison, working with and through its contractors, would bore four test holes on lands under the jurisdiction of the California State Lands Commission. The holes would be up to 50 feet deep and eight inches in diameter. The Project team would consist of 4-8 personnel including environmental monitors.	NOE	
2015018007	Natomas Levee Improvement Program Geotechnical Explorations for Phase 4B Reach H Central Valley Flood Protection Board Sacramento--Sacramento The geotechnical explorations will be performed by a truck mounted drill rig or hand auger. There will be approximately 11 borings using a truck or track mounted drill rig and 27 using hand augers. The borings will range from 5 feet to 60 feet in depth. The borings are expected to take occur December 2014 to February 2015. Monday through Friday between the hours of 7:00AM and 6:00Pm. All borings will be grouted to the surface at completion.	NOE	
2015018008	2015 Water Mains and Services Replacements Project San Juan Water District --Placer, Sacramento In general the Project includes the installation of approximately 4,880 Lineal-feet of 8- and 12-inch diameter water main, at five locations, to replace existing, old, failing pipelines, as well as associated tie-ins, turnouts, hydrants, valves, water services, and appurtenances, having an approximate depth of cover of 36-inches to 48-inches.	NOE

2015018009	SR99 Stanislaus AWS (EA 10-0Y571) Caltrans #10 Modesto--Stanislaus The project proposes to install an Automated Warning System (AWS) (changeable message sign, closed-circuit TV camera, traffic monitoring stations and one road weather information system) to gather and relay critical information to motorist, reduce non-recurrent congestion and enhance safety on Route 99 within the City of Modesto.	NOE					
2015018010	Oakdale Capm (10-0K140) Caltrans #10 Modesto--Stanislaus The project is to preserve and extend the life of the existing pavement on State Route 120 to about 10 years and improve ride quality. The project is needed because the pavement condition for this section of road has major pavement distress and a bad ride.	NOE					
2015018011	Westley I-5 Median Barrier (10-0Y640) Caltrans #10 Modesto--Stanislaus The purpose of the project is to decrease the number and severity of cross-median collisions. A median barrier (high tension cable or thrie beam) will be placed on the high side of the freeway at a minimum of 17 feet from the edge of travel way. The project would serve to improve public safety on this part of I-5.	NOE					
2015018012	San Joaquin County Bridge Maintenance (10-0W690) Caltrans #10 --San Joaquin Conduct preventive maintenance on 13 bridges to repair cracking concrete bridge decks and prevent further cracking and deterioration. Treat bridge decks with methacrylate, replace approach slabs, replace joint seals.	NOE					
2015018013	Culvert Repair Caltrans #9 --Kern, Inyo, Mono The proposed project involves culvert replacement and repair under the 20.80.020.151 program at 6 locations in Kern, Inyo and Mono Counties. This project will help existing culvert structures function more efficiently through repair and replacement inkind.	NOE

2014071062	Draft Renewable Energy & Transmission Element Imperial County El Centro--Imperial Note: Extended Per Lead The County is updating the 2006 Geothermal/Alternative Energy and Transmission Element for the seventh time. The DEIR identifies the environmental impacts for future renewable energy projects in Imperial County. The proposed Project would support the development of new renewable energy power production and exportation to accommodate future growth in California and reduce the dependence on foreign oil sources.	EIR	02/25/2015
2015011004	ENV-2014-1878-MND / 425 E. Rose Avenue Los Angeles, City of --Los Angeles The change of use from a restaurant and deli/market with off-site sale of beer and wine to a restaurant, containing a total of 2,716 sf (including indoor and outdoor dining spaces), serving a full line of alcoholic beverages for on-site consumption only with proposed seating for 59 indoor and 34 outdoor patio seats. The applicant has requested a Conditional Use to permit the service of a full line of alcoholic beverages for on-site consumption, a Coastal Development Permit and Project Permit Compliance with the Venice Coastal Zone Specific Plan and the Los Angeles Coastal Transportation Corridor Specific Plan.	MND	02/03/2015
2015011006	ENV-2014-2060-MND / 643 N. Muskingum Ave. Los Angeles, City of --Los Angeles The demolition of an existing 1,566 sf single family dwelling and the construction, use and maintenance of a new 4,690 sf single family dwelling with a 2,378 sf basement on a Standard Limited Hillside Street. Applicant requests a Coastal Development Permit and Mello Clearance.	MND	02/03/2015
2015012005	Corp Yard Nevada County Grass Valley--Nevada Relocate the Nevada County Facilities Corporation Yard from 12548 Loma Rica Drive to 12350 La Barr Meadows Road in Nevada County. The relocation will consist of existing equipment material storage, and new buildings to accommodate the existing operations.	MND	02/03/2015
2015012006	127 West Harris Avenue South San Francisco, City of South San Francisco--San Mateo The Project site is in the City's East of 101 area. The Applicant proposes a 128 room limited-service hotel. The hotel would include an indoor swimming pool and breakfast area. All parking would be on surface in front of the building and along the south side and west side property lines. Two shuttle vans and 93 surface parking spaces are proposed. Site access would be via two 30 foot wide two-way driveways along the south and north property lines. The 64,117 sf (1.47 acre) vacant site is approximately 13 feet above mean sea level. Historical information indicates that the site and surrounding area were submerged swamp land from the late 1890s to the early 1950s. The site has never been developed. Periodically the site was used for parking. The adjacent Focus Hotel was constructed in 1980. Other uses in the area are warehousing, construction yards and offices. The site	NOP	02/03/2015

	is covered with invasive and native grasses and shrubs. The site is relatively flat, with a slight surface gradient towards the east. There is approximately a nine foot layer of undocumented fill consisting of sandy, gravelly, cobble and boulders on the site. Bay Mud appears below the undocumented fill.		
2014092001	Tentative Parcel Map Application No. PLN2014-0081 - Arnerich Stanislaus County --Stanislaus Request to create four parcels of 53+/-, 57+/-, 63+/-, and 197+/- acres from a 370+/- acre parcel. Parcel uses currently consist of rangeland, irrigated crops, and two single-family dwellings. Access for Parcels 1, 2, and 3 will be obtained via Sonora Road and Parcel 4 will be served by a proposed access and utility easement.	Neg	02/03/2015
2014092002	General Plan Amendment and Rezone Application No. PLN2014-0077 - BPL Properties Stanislaus County Modesto--Stanislaus Request to amend the General Plan designation of Agriculture and the zoning designation of A-2-40 (General Agriculture) to P-D (Planned Development) on a 1.5+/- acre parcel. The proposed P-D zoning would allow the site to be used for, and developed with, C-2 (General Commercial) uses. The existing property consists of a 2,945+/- sf building, previously in use as a card room, and a parking lot. The project involves two phases of development: the first phase proposes to allow C-2 uses to operate in the existing building; the second phase consists of the construction of a 6,500 sf commercial building and associated parking lot.	Neg	02/03/2015
2007022071	Zanker Materials Recycling Facility Planned Development Zoning San Jose, City of San Jose--Santa Clara Revised Solid Waste Facilities Permit to allow an increase in the maximum daily tonnage from 1,250 tons per day to 1,800 tons per day. The permitted maximum elevation of the landfill will increase from 50 feet mean sea level (MSL) to 80 feet MSL. The hours of operation will increase for Resource Recovery Operations from 6:00 am to 10:00 pm 7 days per week to 6: am to 12:00 am 7 days per week. a portion of the flat top-deck surface of the on-site landfill will be used for employee parking and equipment/truck parking. An additional inbound scale to existing scale house operations will be added. A new, two story office/administration building (approx. 6,400 sq. ft.) will be constructed.	NOD	
2015018014	Temporary Emergency Permit for Treatment of Hazardous Waste, Abbott Diabetes Care Toxic Substances Control, Department of Alameda--Alameda The California Department of Toxic Substances Control (DTSC) has issued an emergency permit to Abbott Diabetes Care to treat hazardous waste by chemical stabilization. It has been determined that these items are or may be highly reactive and or ignitable and must be stabilized prior to being transported offsite. The items are currently being stored inside laboratories at Abbott Diabetes Care. The treatment of these items will be carried out by Clean Harbor Environmental Services (CHES)	NOE

	(Oncorhynchus tshawytscha), and spring-run Chinook salmon (Oncorhynchus tshawytscha), species designated as endangered or threatened under CESA. Minor Amendment No. 4, as approved, modifies the previously issued ITP, to extend the work period until January 5. In approving Minor Amendment No. 4 CDFW determined, among other things, that no substantial increase in the nature or scope of the previous authorization provided by the CESA ITP, and that no significant or substantially more severe environmental impacts that previously considered and disclosed would occur.		
2010031096	Irell Foundation by Coram CA Development, L. P. (2C #42, 2V #16, MAP 197) Kern County Mojave--Kern This proposed Project involves a minor amendment to the ITP referenced above to extend the deadline to permanently protect the Habitat Management (HM) Lands from January 5, 2015 to January 1, 2016. No other changes were made to the ITP. There is no change to the Project description or other ITP conditions.	NOD	
	The ITP as amended authorizes take of Bakersfield cactus (Opuntia Basilaris var. treleasei), species designated as endangered under CESA. CDFW issued the original ITP, and approved Minor Amendments Nos. 1 through 4 as a responsible agency under the CEQA relying on the mitigated negative declaration prepared for the Project as approved by the lead agency, County of Kern.		
2010031109	ZC #60, Map 198 (Coram CA Development) Kern County Mojave--Kern This proposed Project involves a minor amendment to the ITP referenced above to extend the deadline to permanently protect the Habitat Management (HM) Lands from January 5, 2015 to January 1, 2016. No other changes were made to the ITP. There is no change to the Project description or other ITP conditions.	NOD

2014041065	Peach Tree Road at Pancho Rico Creek Bridge Replacement Monterey County --Monterey The Project includes the replacement of the existing Peachtree Road Bridge over Pancho Rico Creek with a structure that will meet current Caltrans seismic codes. The new bridge will be approx. 28 ft. wide and 80 ft. long and will clear-span Pancho Rico Creek. The bridge will be supported by two abutments, one on each side of the creek, outside of the creek channel. Each abutment will have short wing walls and will be supported on 24-inch diameter cast-in-drilled-hole concrete pilings. Rock slop protection with a slope of 1:1 will be provided at each abutment to protect against bank scour, new roadway approaches will be constructed by widening Peachtree Road on both sides of the bridge, and recast/prestressed deck units will be installed.	NOD

2014071080	Middlewater Natural Gas Pipeline Project by Phillips 66 Pipeline LLC Fish & Wildlife #4 --Kern The Project includes the installation of a natural gas pipeline, which will transport natural gas to fuel existing equipment at the Middlewater Pump Station located in western Kern County, CA. Construction activities would occur adjacent to an existing pipeline right-of-way (ROW) and existing dirt access road. The purpose of the proposed project is to allow Phillips 66 (Permittee), to continue to operate its pipeline system, which transports crude oil from the oil fields in Kern county to its refinery in the San Francisco Bay Area.	NOD	
2014111010	Citywide Sidewalk Improvement Project Del Mar, City of Del Mar--San Diego The proposed project consist of seven segments for sidewalk improvement along Camino Del Mar, Jimmy Durante Blvd, and Via De La Valle. The Project will include the relocation or reduction of roadway medians to relocate lanes and the construction of curbs, gutters, pedestrian ramps, and sidewalks to improve pedestrian circulation. This project has been revised to no longer include a roundabout at Jimmy Durante Blvd. and San Dieguito Drive. All construction activities, including staging of equipment, will occur within the existing rights-of-way or on adjacent. City-owned or leased parcels, within previously disturbed areas.	NOD	
2015018017	State Route 1 Asphalt Concrete (AC) Pavement Replacement Caltrans #5 --Santa Barbara The purpose of the project is to grind and replace AC pavement at various locations. This project is needed to preserve and extend the life of the road. All vehicle and bicyclist traveling this segment of Route 1 will benefit from the construction of the project.	NOE	
2015018018	Riverside Municipal Airport Apron and Electrical Vault Rehabilitation Riverside, City of Riverside--Riverside Apron rehabilitation, including drainage improvements (Phases I and II) and electrical vault rehabilitation, including generator. Project is included in the City's Capital Improvement Program and is consistent with the 2009 Airport Master Plan, which provides for continued investment in Airport growth and infrastructure.	NOE	
2015018019	Lower Cherry Aqueduct Emergency Rehabilitation Project (California Endangered Species Act Incidental Take Permit No. 2081-2014-030-04 (ITP) Minor Amendment I) Fish & Wildlife #4 --Tuolumne The proposed Project involves the emergency repair of the Lower Cherry Aqueduct (LCA) due to fire damage and debris clearing from the 2013 Rim Fire as well as upgrade aging facilities to ensure that water deliveries to 2.6 million customers relying on the Hetch Hetchy Water and Power system will not be compromised. The Project is expected to result in incidental take of Townsend's big-eared bat which is a candidate for listing under the California Endangered Species Act (CESA).	NOE

2014102055	1546-1564 Market Street San Francisco, City and County of San Francisco--San Francisco The project site is 12,565 sf, and includes two parcels which would be merged to form a single lot. The proposed project would demolish the existing three buildings on the site, and construct a new 12 story, 120 foot (136 feet with roof terrace screen wall) residential building with ground-floor retail uses along Market Street. The site is located within the Market and Octavia Area Plan boundaries, and the proposed project was analyzed at the program level in the Market and Octavia Neighborhood Plan FEIR. The proposed building would have a total of 138,002 gsf, which would include 116,217 gsf of residential uses (109 dwelling units), 4,463 gsf for residential lobby/lounge uses, 4,810 gsf of retail (three retail spaces), and 12,512 gsf of parking (28 car parking spaces and 110 bicycle parking spaces).	EIR	02/20/2015
2014102083	Phasing in of Nonlead Ammunition Requirement No Later Than July 1, 2019 Fish & Wildlife Commission --Sacramento Note: Functional Equivalent Doc AB 711, which became effective January 1, 2014 (Stats. 2013, ch 742, S 2, adding Fish & G. Code, S 3004.5) requires: (1) the use of nonlead ammunitions statewide no later than July 1, 2019 when taking any wildlife with a firearm; and (2) that by July 1, 2015, the Commission must promulgate regulations that phase in the statute's requirements, and that, if any of the statute's requirements can be implemented practicably, in whole or in part, in advance of July 1, 2019, the Commission shall implement those requirements (Fish & G. Code S 3004.5(j)). The Proposed Program is the phasing-in of the requirement to use nonlead ammunition for the take of wildlife not later than July 1, 2019.	EIR	02/20/2015
2012122006	2035 General Plan Update Sacramento, City of Sacramento--Sacramento FYI Final The City of Sacramento ("City") is proposing a 2035 General Plan update (GPU), which includes focused updates of the City of Sacramento 2030 General Plan. The proposed GPU will document the City's progress in implementing the 2030 General Plan since 2009 and the Plan's policies and implementation programs to reflect changed conditions and new priorities. Specifically, the proposed GUP will address the following: update existing conditions information and data to 2012; update the planning horizon and revise projected growth estimates; support citywide economic development; refine transportation level of service (LOS) standards; map and report on historic resources; integrate climate action into the General Plan; address recent State mandate; update of the Housing Element; reflect past accomplishments and incorporate adopted amendments; support adopted and ongoing plans and initiatives; refine, consolidate, and prioritize General Plan implementation; and update goals, policies, and implementation programs to provide solutions to infrastructure, transportation, planning, and environmental challenges and to prioritize and streamline infrastructure investments for Shovel-Ready Tier 1 and Tier 2 Priority Areas. This proposed GPU is not considered a substantial overhaul to the existing General Plan, nor is it expected to result in Significant new development.	FIN

2015012009	New District Offices at Foothill College Foothill-De Anza Community College District Los Altos Hills--Santa Clara The proposed Project would be the construction of New District Offices for Foothill-De Anza Community College District at the Foothill College campus. The project will consolidate District staff currently housed in several buildings on campus. The building would be constructed on 1.3 acres of the 2.16-acre Parking Lot 7. The NDO building would be 23,500 gsf and consist of two wings connected by an enclosed entrance. One wing would contain offices, be 2 stories and approximately 30 feet in height. The second wing would contain the board room and supporting space, be one story and approximately 20 feet in height.	MND	02/05/2015
2006071021	Renaissance Specific Plan Amendment Rialto, City of Rialto--San Bernardino The Project Applicant is requesting an amendment to the 2010 Renaissance Specific Plan. The goal of the RSP Amendment is the relocation of business and industrial uses to the west of Linden Avenue, relocating all residential land uses and the public park to the east of the Linden Avenue, and implementation of the Renaissance Marketplace retail development. Related updates to the RSP text and figures are required based upon the revised land use plan. The Project is located within the 2010 Renaissance Specific Plan area, the proposed revision to the land use designations and zoning for specific lots as defined within the Specific Plan area, will require the preparation of additional environmental analysis to ensure land use changes would not result in new or previously unidentified environmental impacts.	NOP	02/05/2015
2015012008	2015-2023 Housing Element Update El Cerrito, City of El Cerrito--Contra Costa The proposed project is the City of El Cerrito General Plan Housing Element Update for the planning period 2015-2023. The project site to be affected by the Housing Element Update is the area within the city limits. State law requires this Housing Element Update (CA Government Code Section 65580 - 65589.8). The Draft Housing Element identifies residential sites adequate to accommodate a variety of housing types for all income levels and needs of special population groups defined under State law (CA Government Code Section 65583); analyzes governmental constraints to housing maintenance, improvement, and development; addresses conservation and improvement of the condition of the existing affordable housing stock; and outlines policies to promote housing opportunities for all persons.	Neg	02/05/2015
1999062020	Placer Vineyards Specific Plan Property #3 Placer County Auburn--Placer The project proposes amendments to the Specific Plan and Development Agreement to allow for changes in land use designations for a Recreation parcel located in the Town Center to High Density Residential, reductions in park acreage, trail paths, changes in landscaped median widths along Baseline Road and Watt Avenue, elimination of pedestrian overcrossing bridge at Baseline Road, and changes to the financing and delivery of public amenities and Park/County services. 2005061157	Rosedale-Rio Bravo Water Storage District (RRBWSD) Water Banking and Exchange Program Castaic Lake Water Agency San Joaquin, Bakersfield-- The Project is enhanced extraction facilities in RRBWSD's Groundwater Storage, Banking, Exchange, Extraction & Conjunctive Use Program (Program). CLWA proposes to jointly develop new wells and transmission facilities to take delivery of its total SWP Table A Amount allocation and any other imported water supplies stored in the Program. CLWA delivers water to RRBWSD that is not needed to meet its demands (typically in wetter years), up to 20,000 acre-feet per year (AFY) in the Program. RRBWSD stores a portion of CLWA's unused deliveries for later withdrawal and delivery to the CLWA service area in a future year or years when demand in the CLWA service area is greater than supply (i.e., in dryer years).	NOD	
2009091022	Menifee Town Center Specific plan Menifee, City of Menifee--Riverside Plot Plan No. 2014-009 proposes the development of a retail shopping center totaling 100,024 sq. ft. (not including outdoor patio(s)) on 12.42 net acres. Five (5) buildings are proposed for major tenants, ranging in size from 7,000 to 18,440 sq. ft. Additional buildings are proposed for shops, retail and fast food facilities, ranging in size from 2,400 sq. ft. to 12,545 sq. ft. Four (4) restaurant pads are proposed: three (3) fast food restaurants with drive throughs and one (1) sit down restaurant. There are a total of 522 parking spaces provided, including twenty-one (21) parking spaces for persons with disabilities and two (2) electric vehicle charging spaces. Access to the site is proposed from a driveway on Newport Road and two driveways on Haun Road which are aligned with monument signs; minor variance to the Specific Plan setback of twenty (20) feet from parking to any building; and, a minor parking reduction of approximately twenty-nine (29) parking spaces pursuant to a parking analysis. 	permanent impacts to 1.13 acres of CDFW jurisdictional streambed (project). The project includes the grading of 0.98 acres of vegetated and unvegetated streambed; the construction of urban run-off minimization and mitigation measures; the construction of manufactured slopes adjacent CDFW-jursidictional streambed; and the construction of three culverts.		
2013012079	Peninsula Corridor Electrification Project Peninsula Corridor Joint Powers Board --San Francisco, San Mateo The project is the electrification of the Caltrain Peninsula Corridor from its current northern terminus at 4th and King Streets in San Francisco to approximately 2 miles south of the Tamien Station in San Jose. The project location includes the entire JPB-owned ROW along this 51-mile segment, additional ROW for new facilities and operational requirements and for any construction or access areas located outside the ROW. The purposes of the Project are to provide electrical infrastructure that will be compatible with separate later use for blended service, improve train performance, and reduce long-term environmental impact by reducing noise, improving regional AQ and reducing GHGs.	NOD	
2014012031	Samoa Waste Recovery Facility Coastal Development and Conditional Use Permits CDP-13-007/CUP-13-029 (Apps 9048) Humboldt County --Humboldt Modification to change the hours/days of operation of a previously approved Coastal Development Permit and Conditional Use Permit for re-opening of a facility previously used as a recycled materials processing facility, and which is now be used as a medium volume waste transfer station on an approximately 2.5 acre parcel within the general industrial area of the town of Samoa. Municipal waste is transported to the site for recyclables to be sorted from the waste. Recyclables are packaged and exported and remaining waste taken to the Anderson Landfill. The existing structure is a 38,000 +/- square foot facility that accommodates a sort line technology, tipping floor area and bale storage area, all capable of handling up to 100 TPD. The facility is open for public drop off. The approved hours of operation are 7 am to 5 pm, Monday through Friday. The modification requests to change the hours and days of operation to add Saturday and Sunday, 8 am to 5 pm.	NOD	
2014102071	Rotter Subdivision Humboldt County Trinidad--Humboldt A Minor Subdivision of an approximately 7.08 acre parcel into two parcels of approximately 5.6 acres and 1.48 acres in size. A Special Permit is requested to utilize Lot Size Modification pursuant to Section 313-99.1.1.2 of the Zoning Regulations to deviate from the 2-acre minimum parcel size for the resultant 1.48 acre parcel. The parcel is currently developed with a single family residence west of the road (proposed Parcel 1). A Coastal Development Permit and Special Permit are requested for the construction of an approximately 576 sf secondary dwelling unit on proposed Parcel 2 prior to the recordation of the subdivision including Design Review. A Coastal Development Permit issued by the California Coastal Commission is required for the approval of the subdivision. Water is provided by the Parvin Creek Mutual Water System as well as a spring on proposed Parcel 1. On-site wastewater treatment systems are existing and proposed.	NOD

2014111022	<p>Antelope Valley Solar Renewable Energy Project (R2013-03397-[5], CUP 201300170, RENV 201300290) Los Angeles County Lancaster--Los Angeles</p> <p>The applicant, Antelope Valley Solar, LLC, requests a conditional use permit to authorize the construction, operation, and maintenance of a 7.45-megawatt photovoltaic solar energy facility in two phases in the A-2-1 (Heavy Agricultural - One Acre Minimum Required Lot Area) Zone in the east Antelope Valley and to allow a 7- to 8-foot fence around the perimeter of the Project Site. The Project will employ either fixed-tilt or single-axis tracking solar systems on steel structures.</p>	NOD	
2014112048	<p>Water Pollution Control Facility Solar Power Project Woodland, City of Woodland--Yolo</p> <p>Installation and operation of solar photovoltaic systems at two locations at and adjacent to the City's Water Pollution Control Facility (WPCF). One array would be at a screw pump on the WPCF premises and the other would be on 7 acres of fallow land NE of the facility. The 1.5-megawatt (MW) systems would generate about 2.4 MW-hours annually.</p>	NOD	
2015018031	<p>Moser Trust Final Map Subdivision Humboldt County --Humboldt</p> <p>A subdivision of Lot 17 of the Airport Business Park, Phase One, into three parcels. Two of the parcels will remain developed with existing commercial buildings and the third parcel will be a common area for parking, landscaping and utilities. A Planned Development Permit is requested to create parcels for the existing buildings with no setbacks. No new development is proposed. A Coastal Development Permit is required for the subdivision. The parcels will continue to be provided with community water and sewer service by the McKinleyville Community Services District.</p>	NOE	
2015018032	<p>Big Lagoon Rancheria Minor Subdivision Humboldt County --Humboldt</p> <p>A Minor Subdivision of an approximately 2.09 acre parcel into two parcels of approximately 70,460 square feet and 20,917 square feet in size. The parcel was originally subdivided in 2001 as part of the Murrish Subdivision (Tract No. 534) and consists of Lots 3 and 4 of that subdivision. The lots were then modified by a Lot Line Adjustment in 2005 and subsequently merged in 2013 due to the location of the proposed buildings. The building design has changed and no longer requires the merger of the two parcels. This proposal will create the parcels as they existed prior to merger.</p>	NOE	
2015018033	<p>Twin View Boulevard Road Realignment Project, JO#2433-20 Redding, City of Redding--Shasta</p> <p>The project involves constructing approximately 1300 feet of new roadway to reconnect Twin View Blvd between the Oasis Town Center Project and the old alignment to the north. The Oasis Town Center Project removes a portion of the existing roadway. The road will consist of two 12 ft lanes with 6ft shoulders built on relatively flat terrain. Two small culverts will be placed to help prevent road run-off ponding and perpetuate natural drainage patterns. No utilities will be</p>	NOE

2014061063	Agoura Equestrian Estates Project Agoura Hills, City of Agoura Hills--Los Angeles Annexation of a 71-acre parcel into the City and subdivision of the lot into 17 lots, including 1 open space lot and 15 single family residential lots. Development proposed at this time includes a private road, trails, drainage infrastructure, fencing. No homes or other development are proposed at this time. However, the EIR assesses potential impacts to ultimate development of 15 homes.	EIR	02/23/2015
2014081047	Etiwanda Pipeline North Liner Repair Project Metropolitan Water District of Southern California Rancho Cucamonga, Fontana--San Bernardino The proposed project involves relining approximately 4.8 miles of Etiwanda Pipeline North, including 0.4 mile in Rancho Cucamonga and 4.4 miles in Fontana. Inspections have revealed that portions of the internal lining have cracked and delaminated from the pipe due primarily to the cycling of high pressure flows within the pipeline as a result of the operation of the Etiwanda Hydroelectric Plant. To prevent further corrosion of the steel pipe in the 4.8-mile segment of Etiwanda Pipeline North, Metropolitan proposes to remove the existing interior mortar lining and recoat the pipe with a new lining.	EIR	02/23/2015
2015011008	Medea Creek Restoration Project Agoura Hills, City of Agoura Hills--Los Angeles The project consists of naturalizing a portion of Medea Creek for aesthetic and biological habitat purposes, and improving pedestrian connections in the area. Naturalization consists of removing about 425 linear feet of concrete channel and construction of a natural channel stabilized with native vegetation, boulders and log structures. The project would provide pedestrian connectivity from Kanan Road through a vacant parcel to the west of Medea Creek to Chumash Park east of Medea Creek via a footbridge.	MND	02/09/2015

2015011009	<p>Quartz Hill Library Project Los Angeles County --Los Angeles</p> <p>The proposed Quartz Hill library project would include construction and operation of a new public library in the Business District of Quartz Hill, an unincorporated community in the Antelope Valley region of northern Los Angeles County. The County of Los Angeles (County) is the lead agency under the CEQA. The new library would be approximately 12,500 sf in area and built on an undeveloped 1.75-acre parcel, which is located approximately 150 feet west of 50th Street West on Avenue M-2, a private street. Construction is anticipated to begin in July 2015 and be completed within 13 months, including 2 months for installing fixtures, furnishings, and equipment in the new facility.</p>	MND	02/09/2015
2015011010	<p>Mariner's Bay Rehabilitation Los Angeles County --Los Angeles</p> <p>The proposed project requires a ministerial Site Plan Review to authorize the Applicant's rehabilitation of the 379-unit existing apartment complex and associated site facilities/amenities over a 36-month period, beginning on or about June 2015 and completion by approximately June 2018. The proposed project includes substantial renovation of the apartment buildings' interiors and exteriors, both private and public areas, waterfront promenade, parking facilities and landscaped areas of the existing apartment complex.</p>	MND	02/09/2015
2015011017	<p>The Crossings at Redlands San Bernardino County Redlands--San Bernardino</p> <p>This project consists of a Planned Development that includes a Preliminary and Final Development Plan for a mixed-use project with 340 multi-family apartment units and 6,377 sf of leasable retail area on 9.1 net acres, and a 3-lot tentative parcel map. The project site has a net site area of 9.1. The project includes a 13,000 sf recreation center, two pools, spa, exercise room, library, kitchen, lounges, restrooms, and a leasing office. The project also includes open space and recreation areas consisting of landscape courtyards, a dog park, picnic and barbeque areas, water features and several outdoor dining areas.</p>	MND	02/13/2015
2015012012	<p>US 101 Express Lanes Project Caltrans #4 --Santa Clara</p> <p>Caltrans, in cooperation with the Santa Clara Valley Transportation Authority, proposes to convert the existing high-occupancy vehicle lanes to high occupancy toll or express lanes, and widen the freeway to add a second express lane for the majority of the corridor. Use of the HOV Lanes is currently restricted to vehicles with two or more occupants, motorcycles, and certain alternative fuel vehicles. The overall project limits are from approximately Oregon Expressway/Embarcadero Road interchange in Palo Alto to the Cochrane Road interchange in Morgan Hill. Express lane signs and lighting would be added, and auxiliary lanes in four segments. The express lanes would allow HOVs to continue to use the lanes without paying a toll, and eligible single occupancy vehicles to pay a toll to use the lanes.</p>	MND	02/09/2015

2014112006	Tamien Station Parking Structure Project Santa Clara Valley Transportation Authority San Jose--Santa Clara The Santa Clara Valley Transportation Authority (VTA) is proposing the Tamien Station Parking Structure (Project). The Project would consist of a four- or five-level parking structure that would provide approximately 700 to 900 parking spaces, respectively. The purpose of the Project is to accommodate future parking demand due to light rail and Caltrain operations. A more detailed project description is provided in this Initial Study/MND.	FIN	
2015011011	ENV-2014-1954-MND / 2800 W. Olympic Boulevard Los Angeles, City of --Los Angeles Construction of a new approximately 59,657 sf mixed-use development containing 70 units of multi-family housing consisting of 63 market rate units and seven restricted affordable units in one building measuring 60-feet (five stories) in height. The site encompasses approximately 24,262 sf of currently occupied land that spans five lots in the C2-1 and R4-1 Zones. Two levels of subterranean parking and a portion of the mezzanine will provide a minimum of 133 subterranean parking spaces and 81 bicycle parking spaces will be provided. At the ground floor, the proposed project will provide 5,289 sf of commercial retail space and a 1,309.5 sf recreation room. Two courtyards are proposed on the second floor, one on the northern side measuring 1,000 sf and one on the southern side measuring 1,309.5 sf. The total amount of on-site grading will be less than 500 cubic yards of dirt, none of which will be exported. There is one 6,203 sf commercial building and two residential buildings with four units that are 2,434 sf, for a total of 8,637 sf on the project site that will be demolished.	MND	02/10/2015
2015011012	Redlands and Hemlock Booster Pumping Station Eastern Municipal Water District Moreno Valley--Riverside Eastern Municipal Water District proposes to construct and operate a new Booster Pumping Station (BPS) located on the southwest corner of Redlands Boulevard and Hemlock Avenue in the City of Moreno Valley. The new facility will replace the existing Redlands and Ironwood BPS located on the northwest corner of Redlands Boulevard and Ironwood Avenue, approximately 1,500 linear feet north of the new proposed BPS. The purpose of the Redlands and Hemlock Booster Pumping Station Project is to address safety concerns, deficient capacity, and inadequate access associated with the existing BPS. The Proposed Project includes the demolition of the existing facility; construction of a new facility and related appurtenances; and installation of approximately 1,500 linear feet of 24-inch diameter discharge pipeline.	MND	02/10/2015

2015012017	Ukiah Valley Medical Center Emergency Dept./ICU Expansion Ukiah, City of Ukiah--Mendocino The project involves the expansion of the main hospital building to the east. This approximate 26,125 sf addition will house the Emergency/Intensive Care Unit. To accommodate this expansion, the two existing small buildings located east of the main building will be removed (demolition approved with previous approved application). The Helipad will be relocated to the roof of the addition, which will allow additional parking, landscaping and lighting to be constructed in front of the main building where the previous helipad was located.	MND	02/10/2015
2015012019	Saddle Back Lift Pump Electric Service Extention Browns Valley Irrigation District --Yuba Browns Valley Irrigation District seeks environmental approval to have PG&E provide three-phase electric power (12 kV) to a 60 HP lift pump in order to replace a diesel generator currently being used to provide power for irrigation. All power poles along approximately 5,000 linear feet of existing overhead 12 kV distribution line will be reframed and reconducted with new wire. Approximately 2,700 linear feet of underground power line will be installed within pasture land. Three pull boxes will be installed and spaced at 800 foot intervals between the last power line pole and the pump station. Installation of the electric service is anticipated to last no longer than 3 weeks and will be limited to the overhead line work, pulling of new cable through the installed underground conduit, and transformation installation.	MND	02/10/2015
2015012020	Rubber Dam No. 1 Fabric Replacement Project Alameda County Water District Fremont--Alameda ACWD proposes work to remove and replace the fabric on its existing inflatable Rubber Dam No. 1. The fabric has been in place since 1979, past its anticipated useful life. The project involves removal of the existing rubber dam fabric and installation of new fabric. Minor modification will also be made to the existing concrete foundation to accommodate the new anchoring system needed for the new fabric.	MND	02/10/2015
2012082041	Solide Waste Conversion Facility Glenn County --Glenn The project would include a new solid waste receiving and transfer facility, anaerobic digester (AD) facility, on-site electrical generation facility, utilities connections, compressed natural gas (CNG) production facility, fueling station, and a Land Application Area for the AD solid residues (digestate). This project would be a municipal solid waste (MSW) materials recovery facility (MRF) (up to 500 tons per day) and AD facility. The MRF would consist of mechanical and manual processes to separate out marketable recyclable materials from the MSW waste stream. The products of the AD process are biogas, digestate, and liquid effluent. Biogas would be used onsite as a fuel for power generation, or further processed and converted to CNG. The project was submitted to the SCH in 2012 for Pre-Application Review/Early Consultation.	NOP	02/10/2015

2015011013	<p>1311 Cahuenga Mixed-Used Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The Project would involve the demolition of the existing buildings and construction of a 7-story residential mixed-use building ranging from approximately 82 feet to 110 feet in height, based on relative elevation changes in the existing surrounding terrain, which generally slopes north to south. Existing buildings proposed for demolition include one single-family residence (single-story), a vacant 3-unit apartment building, two office buildings (one 1-story and one 2-story structure), an auto repair facility, and surface parking lots. The Project would provide 369 residential units, including 12 live/work units and 30 micro units, approximately 2,570 sf of commercial space on the ground floor and two levels of subterranean parking. Approximately 40,900 sf of open space is proposed, which includes space on the ground floor accessible to the public, an outdoor recreation deck on the 2nd floor, a roof terrace on the 7th floor, a covered deck on the 2nd floor, and a gym and recreation room. Parking would be provided in a two-level subterranean garage, at ground level within the building, and in the mezzanine level above-ground. The Project would include approximately 567 parking spaces and 410 bicycle parking spaces.</p>	NOP	02/10/2015
2015012018	<p>Kaiser Dublin Medical Center Project Dublin, City of Dublin--Alameda</p> <p>The proposed project consists of developing approximately 1.2 million sf of medical campus and commercial uses on the 58.7-acre project site in multiple phases. Phase 1A consists of 200,000 sf of medical office buildings and cancer center outpatient centers; Phase 1B consists of 250,000 sf of commercial uses; Phase 2 consists of 450,000 sf of medical office buildings and a parking garage.</p>	NOP	02/10/2015
1998082005	<p>Acquisition, Permanent Repair and Operation of the El Dorado Hydroelectric Project (Project No.184) El Dorado Irrigation District</p> <p>The activities addressed in the Acquisition, Permanent Repair, and Operation of the El Dorado Hydroelectric Project and Acquisition of 17,000 Acre-feet per year of New Consumptive Water Final EIR included acquiring Project 184 and associated features from Pacific Gas and Electric Company, conducting various permanent repairs to restore operation of Project 184, continuing to operate Project 184 consistent with Federal Energy Regulatory Commission requirements, and acquiring 17,000 acre-feet of consumptive water supplies to be diverted for the benefit of the El Dorado Irrigation District (District) customers at Folsom Reservoir through a Warren Act Contract with the U.S. bureau of Reclamation (Reclamation). The Final EIR did not contemplate the potential for a Contract amount less than full 17,000 acre-feet of consumptive water supplies provided by the water right permit held by the District. For the purposes of this temporary Contract, Reclamation and EID have agreed to limit the withdrawal of consumptive supplies made available by this water right permit to no more than 8,500 acre feet per year. No changes are proposed in the operation of Project 184 associated with the Project, and no new facilities are proposed. The Project 184 five-year Warren Act Contract and acquisition of 8,500 acre-feet will require minor, technical changes to the Final EIR. Therefore, an Addendum has been completed by the District in accordance with CEQA Guidelines Section 15164.</p>	NOD

Additional LAFCo Lead Agency actions included adoption of a Sphere Plan and Municipal Services Review (MSR); Adoption of SSJID's expanded Sphere of Influence (SOI) to include all of the City of Manteca; Annexation of an approx. 80-acres island within the District's existing boundary.</p>	NOD	
2008082028	<p>Wood Creek Estuary, Tidal Marsh, and Fish Access Enhancement Project Humboldt County Eureka--Humboldt A Conditional Use Permit to allow restoration activities (Phase 2) to occur on 28 acres of coastal wetlands in the lower reaches of Wood Creek in the Freshwater Creek watershed. The project includes the excavation of channels and ponds; the removal (partial or complete) of a berm to provide better hydraulic connectivity between Wood Creek and its upper basin; planting hummocks to support riparian forest trees and associated species; the removal of invasive species, including canary reedgrass, the revegetation of the site with native plants to support use by wildlife and to promote greater stand heterogeneity; the placement of large woody debris to increase the structural complexity of the habitat; and the construction of sills at the bottom of some previously restored channels to support pool retention during low tides. Also included in Phase 2 is the construction of an interpretive and recreational trail, parking area, trail signage, a launch ramp that will provide non-motorized watercraft access to Freshwater Slough, a raised boardwalk as well as fencing and signage.</p>	NOD	
2012061089	<p>EA No. C-12-113, Conditional Use Permit Application No. C-12-113 Fresno, City of Fresno--Fresno The project consists of upgrades to the Fresno-Clovis FWRP for tertiary treatment to produce effluent that meets Title 22 recycled water standards for unrestricted reuse. The proposed recycle water distribution system would deliver disinfected tertiary recycled water to potential recycled water use sites according to the City's Recycled Water Master Plan. The Project would include a 2 MW energy facility. The Project will serve primarily commercial and industrial water consumers and landscape irrigation needs in the Fresno service area. Disinfected tertiary recycled water will be provided to potential recycled water use sites according to the City's Recycled Water Master Plan. Recycled water will be used primarily for irrigation of street medians, greenbelts, parks and golf courses. Surplus recycled water available during certain times of the year will be stored in reservoirs for future use or percolated into the local aquifer. 2012082001	Soccer Park/Stormwater Detention Facility Live Oak, City of Live Oak--Sutter A Supplemental Initial Study/Mitigated Negative Declaration was prepared for the project and circulated to the general public and to public agencies for review and comment from Oct. 23, 2014 to Nov. 22, 2014. The proposed project elements not previously analyzed in the City's adopted IS/MND or the EIS/EIR prepared and adopted by the Sutter Butte Flood Control Agency (SBFCA) include a stormwater outfall drain into Reclamation District 777's Lateral Drain Number 2 (channel); a 3-foot deep saddle for surface water overflow into the channel; and a slope reduction of the channel on the western property line of the project site. In addition, the well and utility area are proposed to be moved from the end of Linda Street in the northeast corner of the project site, as it was determined to be infeasible to connect a three-phase electrical system at the previously analyzed location. As a result, the well and utility area will be located near the southwest corner of the project site.	NOD	
2013121061	Zurich Tank Site Project Crestline Village Water District --San Bernardino SWRCB, as the responsible agency, will be issuing a water supply permit. The Crestline Village Water District proposed project includes the construction of a new 0.2 million gallon water storage tank (known as Zurich II), which will consist of a 40-foot diameter and 24-foot shell height; the demolition of the existing 0.17 million gallon water storage tank (known as Zurich I), which currently consists of a 36-foot diameter and 24-foot shell height; and the construction of a replacement Zurich I water storage tank which will achieve 0.2 million gallon capacity and will achieve a 40-foot diameter and 24-foot shell height for a combined water storage capacity of 0.4 million gallons for the Zurich Pressure Zone in the Crestline Village Water District service area. The new water storage tanks will be designed and built in compliance with the current standards of the American Water Works Association. New piping interconnecting the tanks will be on site, and no new off-site piping is necessary.	NOD	
2014042035	EA 2014-0001 (New York House Road Bridge Rehabilitation Project) Yuba County --Yuba CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2014-0212-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Yuba County Public Works Dept. The project is limited to the replacement of the existing bridge on New York House Road over Dry Creek. The new bridge will be a three-span, cast-in-place concrete slab, approx. 10 to 12-feet below grade and extend approx. 16-feet back along the edges of the wing walls. The abutments and bents will be supported on spread footing placed a minimum 2-feet into intact rock. A temporary water crossing will be needed to conduct work. The crossing will be constructed of culverts and clean fill material. A cofferdam will be used to divert stream flows during construction. The new bridge will require construction and realignment of the approach roadways, approx. 225 feet on both sides of the bridge. Work on the approach roadways will include the removal of the existing pavement, replacement of any	NOD

	failed roadway based areas, and the placement of new hot mix asphalt pavement. utilities, including an overhead telephone line and water lines will require relocation as well.		
2014111023	Vineyard Elementary School Annex Templeton Unified School District --San Luis Obispo The Proposed Project consists of a new 2nd and 3rd grade elementary school as an annex to the existing Vineyard Elementary School adjacent to the west. The initial enrollment capacity will be approximately 450 students. The project will be designed to eventually accommodate 600 students. Site work will include earthwork over the 12.4 acre site, parking and internal access roads, sports fields and play area, hardcourt for games, site lighting and entry sign. Off-site work includes striping of Vineyard drive to accommodate turn lanes into and out of the project. A sewer line will be extended to Malvasia Court to connect to the Templeton community Services District sewer main. The project will shaft around the current elementary student population within the District. In the 2016-2017 school year enrollment is forecast to decrease at Templeton Elementary School by about 177 and at Vineyard Elementary School by 165. These students plus forecast increases will result in 378 students enrolled at the proposed Vineyard Elementary School Annex in 2016-2017.	NOD	
2014112006	Tamien Station Parking Structure Project Santa Clara Valley Transportation Authority San Jose--Santa Clara Project would consist of a 4 or 5 level parking structure that would provide approx. 700 to 900 parking spaces, respectively, constructed on VTA's existing surface lot. The purpose of the Project is to accommodate future parking demand due to light rail and Caltrain operations.	NOD

2015018066	D09 Mayhew Storm DRain Pump Station Rehabilitation Project Sacramento County Rancho Cordova--Sacramento The project proposal includes the rehabilitation of an existing storm drain pump station. Project activities include the replacement of an old transformer, an upgrade to the outdated pump station electrical equipment and the replacement of the existing electrical equipment structure. Additional activities include the installation of a new water line to be utilized for maintenance activities as well as the installation of approx. 2,100 sq. ft. of new asphalt paving. All of the project components will be located on Sacramento County property within the existing pump station use area and will upgrade the pump station to current industry standards.	NOE	
2015018067	Kings 269 Overlay Project 06-0S210 Caltrans #6 Avenal--Kings The proposed overlay project is located in Kings County on SR 269 near Avenal from 0.1 mile south of Hydril Road to the Fresno county line. construction would include applying a rubberized overlay and placing up to 3 feet of shoulder backing. No new right of way will be acquired for this project.	NOE	
2015018068	Inspiration Point Rehabilitation Parks and Recreation, Department of --Los Angeles Close volunteer trails leading to and from Inspiration Point. Import clean soil from local sources in park and fill erosion gullies. cover areas of bare soil and newly imported soil with erosion control mats. Place coir logs in drainage zones to restrict rain runoff. Re-vegetate with native species within the erosion control zones. Develop watering schedule of plants. Install Will Rogers Ranch Style fence along southern edge of overlook to keep people off re-vegetation area. Remove dilapidated picnic table, benches and hitching post. Replace benches with benches donated via the CA State Parks Foundation. Maximum of four benches at outer edge of point looking to south, southeast. Two 6"x18" holes would be required for each bench for securing to a concrete base. Install two new or refurbished picnic tables. Secure tables to concrete base. Tables will be located away from outer edge of point. Install new hitching post that matches historic elements of park. Install interpretive panel describing the Historic Inspiration Loop and Point. Would require two post holes, 6"x14". Determine if patches of old asphalt pavement at Inspiration Point is historic to the period of Will Rogers; if not, remove patches of asphalt.	NOE	
2015018069	Gatehouse Chimney Rehabilitation Parks and Recreation, Department of --Los Angeles The Gatehouse was built in 1931 by Will Rogers as an employee residence. The mortar of the original stone fireplace has decayed to the point where it is unsafe to use, and falling apart. Work would involve rehabilitation of the existing fireplace structure to arrest the decay and ensure the safety of the historic building if someone were to use the fireplace. Work would entail stabilizing existing stones, replacement of fallen stones with new mortar, and installation of a sleeve or liner inside the flue to permit fires or installation of wood burning stove insert to fireplace. The exterior appearance of the fireplace would be rehabilitated to its replicate original state. Repairs will consist of preserving and/or replacing historic materials in kind. Project will comply with the Secretary of the Interior's Standard	NOE

	and Guidelines for the Rehabilitation of a historic structure associated with historic landscape district.		
2015018070	<p>Install Fencing Along Hetzler Road Parks and Recreation, Department of --Los Angeles</p> <p>Project is to install fencing along Hetzler Road at Baldwin Hills Scenic Overlook (BHSO). The purpose of the fencing is to control after-hours public access and prevent the formation of volunteer trails as well as damage and erosion to the hillside, which is a plant restoration area. A 360' section of Omega-style fencing will run along the north side of Hetzler Road beginning at the first turnaround and ending across from the end of a commercial parking lot. An 80' length of coated chain link will connect the Hetzler Road fencing downslope to the corner of the parking lot.</p> <p>The posts will be cemented into the ground at a depth of approx. 18" to 22" with spacing of approximately 8 feet and will be 6' in height. Climbing drought-tolerant plant species will be planted along the fence to provide an aesthetically pleasing barrier. No irrigation will be installed; plants will be hand-watered with a water buffalo until established.</p>	NOE	
2015018071	<p>Installation of Picnic Tables at Andora Trailhead Parks and Recreation, Department of --Los Angeles</p> <p>In order to improve park facilities for visitors, and to provide school groups with a place to sit and have lunch after field trips, this project will install two picnic tables each at up to three locations at the Andora trailhead. Location 1 is in an open area behind the trailhead interpretive kiosk. Location 2 is on a small, flat terrace between the existing trail and the stream channel, and is set back from the streambank. Location 3 is located in a small, flat clearing between two oak trees. These locations have been selected to account for partial shading on relatively flat surfaces, and to avoid being placed in areas where parking and a vault toilet may be installed in the future. Minor raking of the ground surface may be required to level the tables, and all tables will be secured with a concrete post and chain. One additional trashcan may also be installed near a picnic table location depending on operational need. The project is located in a previously disturbed area and outside the boundaries of any known cultural resources.</p>	NOE	
2015018072	<p>Repair Roof Leak in will rogers Stable Apartment Parks and Recreation, Department of --Los Angeles</p> <p>Remove four layers (24 inches) of wood shingles and roofing felt on primary stable roof above the apartment. Along length of apartment roof, lay down aluminum sheet metal that will extend approx. six inches beyond interface of barn roof and apartment roof. Place roofing felt over aluminum sheeting to ensure that primary stable roof drains completely onto the apartment roof bypassing the interface zone between the two roofs. Re-shingle stable roof with new shingles of like-kind to edge of stable. Glue sheet metal and roofing felt together that extend beyond the roof interface. Roofing felt beyond the shingles will match roofing felt covering the apartment portion of structure. roofing felt overlap will not be readily visible due to its location on backside of stables roof.</p>	NOE

2013112046	Analysis of Oil and Gas Well Stimulation Treatments in California Conservation, Department of -- As noted in Section ES.1 (Introduction), well stimulation treatments include, but are not limited to, hydraulic fracturing treatments and acid well stimulation treatments and do not include steam flooding, water flooding, or cycling steaming. Additionally, such treatments do not include routine well cleanout work, routine well maintenance, routine removal of formation damage due to drilling, bottom hole pressure surveys, or routine activities that do not affect the integrity of a well or formation. For the purposes of this EIR, well stimulation treatments include hydraulic fracturing, acid fracturing, and acid matrix stimulation. This EIR does not evaluate high rate gravel packing when it is used to control sand within a well; however, gravel packing treatments that are performed for well stimulation with the intent of fracturing a geologic formation are considered. 2015011037	Carpinteria Winter Protection Berm Carpinteria, City of Carpinteria--Santa Barbara Build a seasonal berm from on site beach sand to protect public and private improvements along the Carpinteria City Beach from Linden Avenue to Ash Avenue. Berm is built in fall and removed in spring each year. The berm is 1400 feet long and contains as much as 14,000 cubic yards.	MND	02/24/2015
2015012022	Smith River Curve Improvement Project Caltrans #1 Crescent City--Del Norte The proposed project would widen a portion of the roadway to improve safety at a nonstandard curve location from post mile 8.2 to 8.3. The improvement at this curve location would create a facility with two 12-foot lanes and 8 foot shoulders by realigning the roadway, and constructing a 22-foot wide, approximately 220-foot-long side-hill viaduct to support the curve widening. The widening would occur primarily on the northbound lane of the roadway to reduce the extent of cutting the steep slope adjacent to the existing roadway. The viaduct foundation would be constructed of cast-in-drilled-hole (CIDH) piles that would be installed into rock at each bent and abutment. A total of 16 piles would be installed. No portion of the proposed structure would be located in or extend over the river.	Neg	02/11/2015
2008041057	J Street Drain Project Ventura County Watershed Protection District Oxnard, Port Hueneme--Ventura As Lead Agency, the Ventura County Watershed Protection District (District) prepared an environmental impact report for the J Street Drain Project (referred to herein as the "approved project"). The District proposed to increase the flow capacity of the existing J Street Drain to accommodate runoff from a 100-year storm event, thereby reducing potential flooding of residential and commercial areas in the cities of Oxnard and Port Hueneme. The Ventura County Board of Supervisors certified the J Street Drain EIR and approved the J Street Drain Project on March 27, 2012. The EIR Addendum was prepared to determine whether the proposed modified project would result in new or substantially more severe significant environmental impacts compared with the impacts disclosed in the certified EIR. The proposed modified project would result in minor changes to the approved project's design for Reaches 2, 3 and 4. Instead of an open channel, the proposed modified project would feature buried box culverts that would allow for landscaping on top. Similar to the approved project, the channel would remain open in Reach 1 from the south side of Hueneme Road south to Ormond Beach Lagoon to avoid impacts to endangered species in the lagoon.	NOD	
2009121053	Tree Farm Residential Housing Project Santa Barbara County --Santa Barbara CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (# 1600-2014-0073-R5) to the Project applicant, Jake Persons of Standard Pacific Homes. The Project proposes to construct 134 residential units, consisting of 80 detached single family units and 54 attached dwellings on an existing Christmas tree farm. This Project includes the reconstruction of an existing storm drain outlet that conveys off-site water into San Jose Creek and the installation of anew drainage spillway	NOD

	associated with a proposed onsite detention basin which would collect all on-site flows and allow for the release of storm water into the creek in the event of a 100-year storm. Normal storm flows would be discharged directly to the basin or be conveyed to a bio-swale, which will allow particulates to settle and filter contaminants prior to entering the spillway. The Project area is surrounded on all sides by development.		
2013031073	SR 74 Shoulder Widening Project Caltrans #12 San Juan Capistrano--Orange The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2015-0202-R5, pursuant to section 1602 of the Fish and Game Code to the project Applicant, California Department of Transportation, District 12. This proposed project involves improvements to State Route 74, including widening shoulders, installing of metal beam guardrail and centerline rumble strip from east of Antonio Parkway/La Pata Road (Post Mile 2.93) to Christianitos Road (Post Mile 5.06) in Orange County. The Project will result in temporary impacts to 0.007 acre of Southern Cottonwood-Willow Riparian habitat and 0.572 acre of Coast Live Oak Woodland/Riparian habitat; and permanent impacts to 0.001 acre of Southern Cottonwood-Willow Riparian habitat and 0.532 acre of Coast Live Oak Woodland/Riparian habitat and associated wildlife.	NOD	
2014042060	Old Durham Wood, Inc. Butte County --Butte The new SWFP will allow for the operation of a Composting Facility located at the existing Old Durham Wood green material handling facility. The SWFP will allow the receipt of up to 500 tons of agricultural and green material for composting operations.	NOD	
2014101022	Arroyo Seco Canyon Project Pasadena, City of Pasadena--Los Angeles The Project involves three areas of improvements along the upper Arroyo Seco. Area 1 includes demolition of the damaged existing headworks structure and creation of habitat restoration and a rest area/picnic area; Area 2 includes removal of the damaged existing intake structure and construction of a new diversion and wier structure and improvements to the Gabrielino Trail/access road; Area 3 includes creation of a parking lot for recreational users, reconfiguration and expansion of existing spreading basins, restrooms, and a guard house. The new intake would divert additional water during high-flows into the spreading basins for groundwater replenishment.	NOD	
2015018077	South Bay Pumping Plant (SBPP) Erosion Repair Water Resources, Department of Byron--Contra Costa DFD staff will repair erosion damage and an existing sinkhole both located on an access road approximately one thousand feet (1000 foot) southwest from the South Bay Pumping Plant. The sinkhole is ten feet east of the erosion site and contains exposed fiber optic cable. The erosion site is approximately 175 feet long	NOE

2012121052	EIR PFS 04-12; Lehigh Alternative Fuels Project by Lehigh Southwest Cement Company Kern County Tehachapi--Kern This project involves an amendment to the Countywide Siting Element of the Kern County Integrated Management Plan. The countywide Siting Element was prepared in November 1996 and subsequent amendments were approved in April 2000, January 2001, and February 2009. The passage of AB 1126, effective January 1, 2014, among other things, amended the Public Resources Code (PRC) to define the terms "EMSW", EMSW conversion and "EMSW conversion facility and allowed transformation facilities that meet the specified requirements related to EMSW conversion to elect to be considered an EMSW facility for purposes of AB939. Lehigh Southwest Cement Company has elected to be considered an EMSW facility and therefore, by this amendment, has been designated as an EMSW facility. Because of this designation, an amendment to the Siting Element is necessary.	NOD	
2015018084	Avalon Green Alley North Low Impact Development Los Angeles, City of Los Angeles, City of--Los Angeles The project proposes the installation of three (3) storm water best management practices (BMPs) in the alley to capture, infiltrate, and retain storm water runoff. The project will use permeable pavers, dry well/catch basins, and rainwater harvesting for plant irrigation. The project will remove pollutants such as pathogens, oils, greases, suspended solids, metals, and other toxics that will assist in meeting the Los Angeles River Total Maximum Daily Load (MDL) requirements. Besides the BMP, the project will construct/install the following: solar or City Electrically Powered lighting fixtures; Entry and interpretive signage; Type 'C' integral curb and gutter, concrete walks; asphalt concrete pavement; interlocking permeable pavers per City of Los Angeles Standard Plans S-485-0; Bollards (6' high, 4" diameter, spaced 6' apart) will be installed to support growing espallered fruit trees within some of the community planting areas.	NOE	
2015018085	Replacement of Existing Concrete Section of Bowman-Spalding Canal Nevada Irrigation District Nevada City--Nevada Nevada Irrigation District (NID) will conduct maintenance activities on the Bowman-Spalding canal to replace the existing concrete canal with a new concrete canal. The proposed activities will require removal of the existing concrete canal, grading, and reinstallation of a new concrete canal. The activities will occur while the canal is not operating and water is drained from the facility. The existing concrete canal material will be removed and pulverized for roadway base on the adjacent existing access road. The new concrete canal will be installed by either pouring or spraying the concrete. Water will not be returned to the canal until the concrete has sufficiently cured allowing walking on the cured concrete surface.	NOE

	flows. The project would also include repair of the Cross Marin Trail in the project's vicinity.		
2015011018	Peters Canyon Channel Water Capture and Reuse Pipeline Irvine Ranch Water District Irvine, Tustin--Orange The project would install infrastructure for the collection and transport of nuisance groundwater and surface water flows with high nitrate and selenium concentrations to Orange County Sanitation District for treatment. The project would divert flows from four sources; Caltrans' Ground Water Treatment Facility, Como Channel, Edinger Circular Drain, and Valencia Drain. The project would include installation of a pipeline conveyance system with diversion structures and ancillary support infrastructure in the cities of Irvine and Tustin. The proposed pipeline system would begin at the existing Caltrans' GWTF, located at the Walnut Avenue bridge crossing over Peters Canyon Channel in Tustin, then would connect to the three proposed storm drain diversion structures at Como Channel, Edinger Circular Drain, and Valencia Drain, and would discharge into the OCSD sewer in Main Street in Irvine.	MND	02/13/2015
2015012028	SMUD Headquarters Building and Site Rehabilitation Sacramento Municipal Utility District Sacramento--Sacramento SMUD Headquarters Building and Site Rehabilitation Project will be located at 6201 S Street, Sacramento, CA. The Proposed Project would consist of rehabilitating the Headquarters Building and site and establishing two separate trailer locations on SMUD's campus for the temporary housing of relocated employees during the project. Key proposed project elements include expansion of the central area of the Headquarters building, rehabilitating of the main parking area, landscaping updates, and the development of increased physical security concepts (including fencing and cameras) surrounding employee parking areas. Hazardous materials abatement, ADA compliance updates, and improved pedestrian and vehicular traffic and circulation will be included in the project to provide better campus safety and emergency access.	MND	02/13/2015
2015012030	Steelhead Holdings, Ltd. Minor Subdivision (MNS13-0006) Sonoma County Santa Rosa--Sonoma Request for a Minor Subdivision of 258.47 acres resulting in two parcels of 20.8 acres, 26.3 acres, and a Designated Remainder of 211.07 acres.	MND	02/13/2015
2015012031	Woodland Recycled Water Project Woodland, City of Woodland--Yolo The City proposes to provide tertiary-treated water ("recycled water") for industrial and landscape irrigation re-use to properties northwest of the Water Pollution Control Facility (WPCF). The project includes construction of a dedicated recycled water pipeline and improvements to an existing pump station to serve these properties. The WPCF provides tertiary treatment. Current average dry weather flows are in the range of 5 to 6 million gallons per day (mgd). Wastewater from the WPCF is conveyed through a pipeline and ditches for discharge to Tule Canal approximately 4 miles east of the treatment plant. The project would deliver up to 0.5 mgd of recycled water to the proposed place of use.	MND	02/13/2015

2013122043	<p>Los Carneros Recycled Water Pipeline Project Los Carneros Water District Napa--Napa</p> <p>As a Responsible Agency, State Water Board considered the IS/MND prepared by Los Carneros Water District (District) titled Los Carneros Recycled Water Pipeline Project to evaluate potential environmental impacts associated with this proposed project located in Napa County. The purpose of the proposed project is to augment the existing surface and groundwater supplies within the District for the irrigation of landscape, vineyards and other agricultural lands within the District. This water will not be used for domestic or direct potable uses.</p>	NOD	
2014082051	<p>Routine Maintenance of Stream Channels and Drainage Facilities & Willow Creek Channel Restoration Folsom, City of Folsom--Sacramento</p> <p>The project would provide necessary routine maintenance in stream channels and drainage facilities within the City and minimize future flooding across Sibley Street through restoration of the Willow Creek Channel. The City is approximately 22 square miles and relies on approximately 23 miles of natural creeks/channels to convey stormwater and many detention/water quality basins to filter the stormwater. The City anticipated completing between approximately 20-40 maintenance projects a year.</p>	NOD	
2014102016	<p>2014-2019 Town of Truckee Housing Element Update Truckee, City of Truckee--Nevada</p> <p>The project is an update to the General Plan Housing Element. The 2014-2019 Housing Element addresses housing issues and policies in the Town of Truckee. It includes an assessment of the previous Housing Element, a profile of characteristics of existing and projected population, employment, and housing stock, a housing needs analysis, a discussion of housing constraints, an analysis and inventory of residential land resources, quantified objectives for housing, guiding principles, and goals, policies, programs, and implementation. The 2014-2019 Housing Element will apply town-wide.</p>	NOD
