STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

January 1 – 15, 2017

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1 – 15, 2017**.

STATE CLEARINGHOUSE CONTACTS

Please contact the State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
E-mail: state.clearinghouse@opr.ca.gov
Website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

STATE CLEARINGHOUSE MAILING ADDRESS

USPS: State Clearinghouse P.O. Box 3044 Sacramento, CA 95812-3044	OR	USPS/Courier Service / Hand Deliveries: State Clearinghouse 1400 Tenth Street, Room 113 Sacramento, CA 95814

<u>Documents Received on Tuesday, January 03, 2017</u>			
2017012004	Use Permit Application No. PLN2016-0126 - Jon E. Maring - Del Mar Farms Stanislaus County --Stanislaus Request to expand an existing agricultural storage and processing facility by adding two storage buildings totaling approximately 31,680+/- sf on a 40+/- gross acre parcel in the A-2-40 zoning district. There are no expected increases in employees from this project, but there will be one additional truck trip per day.	CON	01/23/2017
2017011001	Russell Court Subdivision, Annexation, General Plan Amendment, Pre-Zone, Text Amendment, and Variance Imperial, City of --Imperial The applicants propose to subdivide approximately 30 acres of land at the following APNs: 064-013-003, 064-020-043, 064-013-004, 064-254-084, 064-254-086, 064-254-087, and 064-254-088. This will include 130 single family residential units, 66 apartments, and one single family home on a .68 acre lot. Additionally the applicants propose to pre-zone and annex said properties into the city of Imperial from an unincorporated area of Imperial county. The project will require a general plan amendment from residential low density to single family residential and residential apartment in order to accommodate the proposed development.	MND	02/01/2017
2017012005	Leinberger Center Replacement Facility Yolo County --Yolo To better accommodate its jail system needs, Yolo County is proposing to demolish the existing 16,050-sf Leinberger Center and 3,282 sf administrative buildings, and to replace them with a 31,400 sf facility, containing 150 medium security beds, programming and housing support space, and administrative offices. The project also would include utilities, electrical, plumbing, mechanical, heating, ventilation and air conditioning, communications, interior fencing, security, emergency power, and fire protection systems, as well as landscaping and pavement for building access and outdoor functions.	MND	02/02/2017
2016124002	Tule River Tribe Fee-to-Trust and Eagle Mountain Casino Relocation Bureau of Indian Affairs Porterville--Tulare Note: Per Lead Agency BIA, Draft EIS/TEIR will be submitted jointly. The proposed project includes an approximately 105,000 sf casino, 250-room hotel, food and beverage facilities, administrative space, a multi-purpose events center, a conference center, and associated parking and infrastructure. The new facility would replace the Tribe's existing casino, and the existing casino buildings would be converted to tribal government or service uses. The project site includes 17 parcels, bound by West Street on the west, an off-highway vehicle park owned by the city of Porterville to the north and east, and a photovoltaic power station (solar farm) to the south. To reduce paperwork and eliminate redundancy, the TEIR will be prepared in coordination with an EIS being prepared by the Bureau of Indian Affairs, resulting in a joint "EIS/TEIR."	NOP	02/01/2017

<u>Documents Received on Tuesday, January 03, 2017</u>			
2017012001	Hendrickson Family Vineyards 4th Avenue Vineyard Conversion #P15-00294-ECPA Napa County Napa--Napa The project includes maintenance of erosion control measures associated with development of +/-8.15 acres of new vineyard (+/-7.1 net vine acres). The site plan designates development on topography that ranges from gentle to moderately sloping lands (typical slopes from 5% to 20%: average 12%), at elevations between approximately 120 and 150 feet above mean sea level.	Neg	02/01/2017
2017012002	Use Permit Amendment 24-94 A2 Shasta County --Shasta John Yates has requested approval of an amendment to Use permit 27-94. The original use permit was for a 42-stall commercial boarding and riding stable for the keeping of up to 42 horses on the site, with related structures up to 25 feet in height. The amendment would change the facility to primarily an equestrian training facility with up to three competition dressage style events per year with as many as 40 people and 20 horses on site during the events. The covered arena would be lengthened by 90 feet, and an office and covered viewing area would be added. The boarding facility would be reduced to 6 horses.	Neg	02/01/2017
2017012003	General Plan Amendment 16-002, Zone Amendment 16-005, & Administrative Permit 16-036 (Glendale De Jong) Shasta County Redding--Shasta The project is a general plan and zone amendment of a 20.61 acre parcel in the north Redding area. Approval of the proposed GPLUD and ZD also involves an administrative permit which would be issued to correct a zoning violation concerning development of a residence on the property without a building permit. The current GPLUD of MR would be changed to Open space and the current zone district of MR would be amended to OS. Development of a single family residence may be permitted in the OS district with approval of an administrative permit. Historically, the parcel was developed with a single family residence and small scale quartz mining operation. However, mining uses have been abandoned on the property for decades. The original residence constructed in the 1930s was made non-conforming and was removed prior to being replaced in 2009-2010 by a new residence without a building permit. Two accessory buildings have also been constructed on the property. Any future accessory residential improvements on the project site would be subject to the requirements in the OS District and any other applicable county codes.	Neg	02/01/2017
2009091126	California High-Speed Train Project Fresno to Bakersfield Section High Speed Rail Authority, California Madera, Fresno--Fresno, Madera CDFW has executed an Amendment No. 8 to Master Streambed Alteration Agreement no. 1600-2013-0033-R4 (Agreement), to the Permittee, CA High-Speed Rail Authority. The project approved by CDFW consists of the agreement identified above, which addresses construction and operation of the Fresno to Bakersfield segment of the CA High-Speed Train, as approved by the lead agency, affecting or generally related to fish and wildlife resources subject to the regulatory authority of CDFW, including natural resources subject to Fish and Game Code Section 1600 et. seq. 2014121033	<p>The Agreement authorizes certain activities contemplated in Section 1602 of the Fish and Game Code that could cause substantial adverse effects to fish and wildlife resources. The Agreement in this respect will facilitate construction and operation of the Project. Amendment No. 1 included the addition of three new Project Locations.</p> <p>BAE Soil and Groundwater Remediation Project San Benito County Hollister--San Benito</p> <p>The amendment makes four specific changes to the ITP as originally issued. First, this Amendment revises the Permittee Principal Officer and Contact Person; second, it revises the Project Description to include sampling of impacted soil and to reflect reductions in the project area and associated impact acreage; third it excludes burrow excavations and CTS exclusion fencing at the groundwater injection locations; fourth, it reduces the amount of Covered Species credits to be purchased, amount of on-site restoration required, and the security amount required as a result of reductions in the project area and associated impact acreage.</p> <p>Project will result in temporary impacts to 1.18 acres of CA tiger salamander (<i>Ambystoma californiense</i>) habitat. The project is expected to result in incidental take of CA tiger salamander, which is designated as a threatened species under the CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.</p>	NOD	
2015062055	<p>Poplar Avenue & Coyote Point Pump Station Replacement San Mateo, City of San Mateo--San Mateo</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0037-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, City of San Mateo Public Works Dept.</p> <p>Project is limited to replacing the existing pump station with an adjacent pump station, constructing a new wet well, routing the creek to the new wet well, retrofitting the existing building to house an emergency standby generator, and constructing a new electrical room between the existing building and new wet well. The new wet well will be located approx. 30 feet southeast of the existing wet well and will be approx. 75 feet in length and 35 feet wide at the entrance and the back wall where the pumps will be located. There will be approx. 300 cubic yards and 1200 sq. ft. of cut in the pump station forebay to construct the new wet well.</p>	NOD	
2015062055	<p>Poplar Avenue & Coyote Point Pump Station Replacement San Mateo, City of San Mateo--San Mateo</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0037-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, City of San Mateo Public Works Dept.</p> <p>Project is limited to replacing the existing Coyote Point Pump Station with an adjacent pump station, constructing a new wet well, realigning the existing pump station forebay to route water to the new wet well retrofitting the existing building to house an emergency standby generator, constructing a new electrical room between the existing building and new wet well, raising the existing levee an average of three feet and replacing the existing Bay Trail on top of the levee. The existing channel will be realigned to the east to accommodate the intake for the new pump station and will be expanded to nine feet deep, 200 feet long and</p>	NOD

	residential development to the south, southwest, and northwest, and by open space to the north and east. The nearest neighboring residence is located approximately 250 feet north and uphill from the proposed building envelope. Overall, the site is steeply sloped, with an average grade of approximately 33%. The topography slopes from the northwest side property line toward and the low point along the southeastern property line, towards an ephemeral.		
2017011002	The Koll Center Residences (PA2015-024) Newport Beach, City of Newport Beach--Orange An EIR will be prepared for the mixed-use infill development. The project includes 260 residential condominiums, 3,000 sq. ft. of ground-floor retail uses, a 1-acre public park, a parking garage, and the reconfiguration of existing surface parking areas. To allow for the construction of the proposed project, existing surface parking areas and common landscape areas would be demolished. The three office buildings located within the boundaries of the project site are not a part of the project. The residences would be in three, 13-story towers. The three buildings would each be 150 feet in height over 2 levels of above-grade parking and 2 to 3 levels of below-grade parking. The parking garage would provide parking for surface parking displaced by project construction (temporary) and project development (permanent).	NOP	02/02/2017
2017011003	LA Fitness Health Club Seal Beach, City of --Orange The proposed project is the construction of a 37,000 sf, single story private health club to be located within the existing Shops at Rossmoor retail center. The proposed project would be built on an existing parking lot, and the surrounding parking lot would be reconfigured to accommodate the parking demands of the proposed use and the center. The health club would provide membership-based fitness services, including access to exercise equipment, group fitness classes, and personal fitness training. The health club is proposed to operate seven days a week. Hours of operation would be 5:00 AM to 11:00 PM Monday through Friday, 5:00 AM to 10:00 PM on Saturday, and 8:00 AM to 8:00 PM on and Sunday. 2017018021	San Gorgonio Pass Water Agency Agreement with the California Department of Water Resources State Water Project Analysis Office San Gorgonio Pass Water Agency Yucaipa, Calimesa--San Bernardino, Riverside Yucaipa Valley Water District ("YVWD") is a retail water agency that has a service area within both San Gorgonio Pass Water Agency ("SGPWA") and San Bernardino Valley Municipal Water District's ("SBVMD") service areas. SGPWA and SBVMD each contract with the California Department of Water Resources to receive water through the State Water Project ("SWP") and the California Aqueduct. YVWD purchases a portion of the SWP water from each agency for the beneficial use of its agency and its customers. While YVWD purchases its water from both SGPWA and SBVMD, water currently is transferred to YVWD only through a SBVMD for those deliveries.	NOE	
2017018022	Sand Traps/Pullouts Project Caltrans #3 --El Dorado The project proposes to install 20 Traction Sand Traps with shoulder widening at some locations for maintenance vehicle pullouts on State Route 50 (SR50) to meet recent State Water Board permitting conditions for reducing and minimizing sedimentation into the South Fork of the American River.	NOE

	to the dock from the landside. The city proposes to rebuild the pier for human-powered boats and watercraft, and provide ADA-compliant access to the Bay.		
2014062087	Mather South Community Master Plan Sacramento County Rancho Cordova--Sacramento 1. A general plan amendment to amend the land use diagram from urban development area (795 acres) to low density residential (622 acres), medium density residential (17 acres), natural preserve (86 acres), commercial and offices (70 acres). 2. A gpa to amend the Transportation plan to reflect proposed roadway alignments and transit systems. 3. A gpa to amend the bicycle master plan. 4. a specific plan amendment to amend the Mather Field Specific Plan. 5. Adoption of the Mather South Community Master Plan as an amendment to the Mather Field Specific Plan. 6. A zoning ordinance amendment to the Mather Field Special Planning area. 7. Adoption of a development agreement for the Mather South community master plan 8. Amendment of the Mather Field Public Facilities Financing Plan.	NOP	02/03/2017
2017011005	Continental Grand Campus Specific Plan El Segundo, City of El Segundo--Los Angeles The project would allow for the orderly expansion and ultimate build-out of the Mattel corporate headquarters. The Project would result in a net increase of approx. 445,766 gross sq. ft. of floor area throughout the headquarters complex. Project would consist of: Constructing a new 14-story office building measuring approx. 328,612 gsf (293,160 net sq. ft.) on the parcel located at 455 Continental Blvd. Approx. 219,870 net sq. ft. would be used for office space and approx. 73,290 net sq. ft. would be used for design and development. The remaining 35,452 net sq. ft. would be distributed throughout the 14-story building and would consist of stairwells, elevators, storage closets, restrooms, and mechanical rooms. An eight level parking structure on the parcel located at 455 Continental Parcel. Demolition of the existing 57,082 sq. ft. building located at 1955 Grand Ave., and constructing a new six-story office building measuring up to 174,240 sq. ft. a new surface parking lot would be located behind the structure. The existing improvements at 333 Continental Blvd. would remain unchanged. with the proposed development on the 455 Continental Blvd and 1955 Grand Ave. Parcels, and the existing development on the 333 Continental Blvd Parcel, an overall FAR of 1.6 would result on the site. In addition to the Specific Plan, the Project entitlements include a Development Agreement, a General Plan Amendment, and a Zone Text Amendment to exceed the allowable floor area ratio (FAR) of 0.8. An IS was completed and determined that an EIR is needed to fully evaluate certain issues and their potential level of significance. Initial review indicates that the following issues may be of concern and/or require specific mitigation to avoid/reduce impacts: Aesthetics, Air Quality, cultural Resources, Greenhouse Gas Emissions, Hazards and Hazardous Materials, Hydrology/Water Quality, Land Use/Planning, Noise, Public Services, Transportation/Traffic, and Utilities and	NOP	02/03/2017

Note: The total acreage is consistent with the Bureau of Land Management Indian Lands Surveyor Legal Description Review dated December 15, 2015. The property is located in the San Bernardino foothills and is bordered on its eastern boundary by the San Manuel Reservation.	BIA	02/06/2017
2017011009	Heber Public Utility District (Conditional Use Permit #16-0025) Imperial County --Imperial The applicant proposes a Sports Field Park on a 19-acre parcel. The proposed outdoor sports complex will incorporate two artificial turf baseball fields (one youth size, and one adult size) and three artificial turf soccer fields, a walking trail, an outdoor exercise area, and parking facilities and rest rooms at full build-out. Incidental improvements include lighting to accommodate expanded evening use and shade trees.	MND	02/06/2017
2017012013	S15-0016/Reverie Retreat El Dorado County --El Dorado CUP to allow operation of a retreat center and campground that includes a full-service kitchen with outdoor dining areas, a conference facility and spa for use by guests, and a campground with 35 camping cabins and 10 tent campsites with shared/communal restrooms and showers.	MND	02/06/2017
2017012014	Former PG&E Eureka Manufactured Gas Plant (MGP) Eureka, City of Eureka--Humboldt PG&E is proposing to remediate contamination associated with the operations of the Former Eureka Manufactured Gas Plant at West 14th St and Railroad Avenue, Eureka, CA. PG&E has performed environmental investigation and remedial planning on a voluntary basis under the oversight of the North Coast Regional Water Quality Control Board. Based on its assessment of available data - as documented in a draft Feasibility study/remedial action plan - PG&E proposes to implement remediation.	MND	02/06/2017

<u>Documents Received on Friday, January 06, 2017</u>			
2017012015	Revised Phase II Pinole Point Business Park Project Richmond, City of Richmond--Contra Costa The proposed project is two one-story, 32-foot-high warehouse buildings, one of 253,500 sf (including expansion area) and the second of 109,200 sf, on the 39-acre phase III site, along with 60 outdoor trailer parking spaces and 290 standard parking spaces.	MND	02/06/2017
2017012016	SKP Ranch, LLC. Project Orland, City of Orland--Glenn The project requires the approval of a zone change from open space to highway service commercial to allow for commercial land uses to occur on the project site, as well as a proposed site plan to allow for the construction of a new 45,910-sf, four-story hotel with 80 guest rooms and an accompanying 6,000 sf, high-turnover, sit down restaurant. In addition, the project is proposing to demolish an existing residence on the site. At completion, the project site would be totally covered with a hotel building, restaurant building, +/- 118 parking spaces, internal circulation driveways, and several landscaped areas.	MND	02/06/2017
2017012017	Americana Park Bypass Channel Pittsburg, City of Pittsburg--Contra Costa The city of Pittsburg maintains Americans Park and a detention basin receiving surface flows from a drainage channel along the PG&E company utility corridor east of the park. The existing Americana Park detention basin has insufficient capacity, which results in the flooding of North Parkside Drive on a nearly annual basis. The purpose of the project is to divert high stormwater flows from the detention basin to a bypass channel, conveying flows eastward across the PG&E property in an open earth channel, to a tributary to Willow Creek that runs along the easterly boundary of the PG&E parcel. The proposed bypass channel would be constructed on the east side of the detention basin in an upland area, avoiding existing wetlands and wetland hydrology, with the exception of the connection with the Willow Creek tributary.	MND	02/06/2017
2015122045	Colusa-Sutter Transmission Line (CoSu Line) Sacramento Municipal Utility District --Colusa, Sutter, Sacramento The proposed project consists of a 500 kilovolt transmission that would connect the California-Oregon Transmission Project on the west side of the Sacramento Valley, in Colusa or Yolo counties, to Western Area Power Administration's (WAPA) and SMUD's existing substations in Sutter or Sacramento counties. The Colusa-Sutter Transmission Line (CoSu Line) is needed to enhance reliability of the electrical grid in Northern California and provide a new energy pathway for SMUD to import power from and export power to energy markets in the Pacific Northwest. From Dec. 18, 2015 to April 18, 2016 there was an initial EIS/EIR scoping period for a proposed project located in Colusa and Sutter counties. In response to public and agency comments received, SMUD and WAPA have added a third study area corridor located in Yolo and Sacramento counties for public scoping.	NOP	02/06/2017

Documents Received on Monday, January 09, 2017

EIR was the 71 acre Executive Park Subarea Plan Area located in the southeastern part of SF, just east U.S. Highway 101 and along the SF/San Mateo County boundary. The approval actions taken in 2011 consisted of amendments to the GP, the Exec. Park Subarea Plan of the Bayview Hunters Point Area Plan, the Planning Code, and the Zoning Map to provide for the transition of the existing office park development within a 14.5 acre southern portion of the Subarea Plan Area (the Yerby and UPC development sites) to a new, primarily residential area with 1,600 residential units and about 73,200 gross square feet (gsf) of retail. The amended Subarea Plan established the Executive Park Residential Special Use District, changed the zoning within this area from a C-2 (Community Business) District to an RC-3 (Residential-Commercial Combined, Medium Density) District, and raised the maximum allowable heights throughout the area to heights ranging from 65 to 240 feet. With existing and previously approved developments, the Executive Park Subarea Plan area would potentially accommodate 2,800 residential units. The amended Subarea Plan also addressed land use, streets and transportation, urban design, community facilities and services, and recreation and open space by implementing objectives and policies and providing design guidance for buildings, streets, pathways, and parking, as well as green building approaches.

The project analyzed in the EIR also included two specific development projects that would implement and complete the buildout of the proposed amended Subarea Plan: The Yerby Company (Yerby) development project and the Universal Paragon Corporation (UPC) development project. No approvals related to these two developments have occurred. The Yerby Project proposed the demolition of an existing office building and removal of an existing surface parking lot, and construction of five residential-commercial mixed-use buildings, ranging in height from 68-170 feet (6-16 stories) containing ~500 residential units and up to 750 below-grade parking spaces. The UPC Project proposed to demolish the two existing office buildings and surface parking, and redevelop the site with 8 residential and commercial mixed-use buildings, ranging from 65-240 feet (6 to 24 stories) containing ~1,100 residential units. The Yerby and UPC development projects would also include residential private and common open space, several areas of publicly accessible open space, new streets, alleyways, and pedestrian walkways.

In connection with the project described below (the "Project"), the San Francisco Planning Department has determined that the Project is within the scope of the program (i.e., the Executive Park Amended Subarea Plan and the Yerby Company and Universal Paragon Corporation Development Projects) approved earlier and analyzed in the Executive Park EIR, and the program described in the Executive Park EIR and subsequent Addendum dated November 15, 2016 adequately describes this Project for the purposes of CEQA.

The Yerby Company has transferred its site to Ocean Landing LLC, which is now proposing to construct the Thomas Mellon Waterfront Residences (TMWR) on the former Yerby site. Ocean Landing proposes to increase the number of residential units from 500 units to 585 dwelling units. The building locations and site layout are largely the same as the original project, however, the total amount of residential sf would decrease by ~10 percent and the overall TMWR project's gross sf would decline by 4.6 percent. Neighborhood commercial use would increase by 239% to 9,845 sf with the establishment of shops and restaurants near the corner of Thomas Mellon Drive, Alana Way and Harney Way. The

The number of bicycle parking spaces would more than double, resulting in 252 bicycle spaces. Open space would increase slightly, with a shift from private open space to public open space.</p> <p>South Willows Commercial and Industrial Center Willows, City of Willows--Glenn</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0183-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, City of Willows.</p> <p>Project includes the construction of a bridge spanning the Tehama Street Channel to connect the proposed Harvest Drive to Tehama Street. The bridge will be approx. 40 feet wide and 128 feet long, and will clear span the bed of the channel. Abutments will be constructed in the banks of the channel by using reinforced concrete columns founded on cast in drilled hole (CIDH) piers.</p> <p>In addition, two (2) storm water drainage spillways will be constructed to discharge directly into the Tehama Street Channel. The spillways will be on the northeastern and southeastern corners of the project area. The spillways will include approx. 550 sq. ft. of rip rap installed 2 feet deep upslope of a cement footing that will be installed no less than 2 feet below the thalweg of the channel. The top of bank will be armored with five inch thick concrete with #4 rebar over six inches of subgrade compacted to 95% compaction.</p>	NOD	
2015101019	<p>La Quinta Village Build-Out Plan La Quinta, City of La Quinta--Riverside</p> <p>The City of La Quinta has undertaken a planning process to develop a build-out plan for the Village, its traditional downtown. The project area consists of approximately 137 acres of land, generally located south of Calle Tampico, east of Eisenhower Drive and west of Washington Street. There are approximately 20 acres of vacant land in the project area that could be developed with a mix of uses - commercial, professional, and/or residential. Future development in the project area assumes development of the remaining vacant properties, as well as redevelopment of underutilized properties (approx. 30 acres) with more intensive uses.</p>	NOD	
2016082008	<p>Three Creeks Parkway Restoration Contra Costa County Brentwood--Contra Costa</p> <p>The Three Creeks Parkway Restoration project is a multi-benefit flood control and creek restoration project proposed by the Contra Costa County Flood Control and Water Conservation District ("District" or "CCCFCD") and American Rivers, a non-profit organization that protects wild rivers and restores damaged rivers. It proposes to improve flood conveyance capacity and restore native vegetation along an approx. 4,000 linear feet section of Marsh Creek located in Brentwood by widening the channel with floodplain (or sections where more constrained, floodplain benches) and planting with native.</p>	NOD

2017018077	Lease of Existing Office Space Business Oversight, Department of Sacramento--Sacramento The Department of Corporations and the Department of Financial Institutions have consolidated under the Department of Business Oversight and will be leasing existing office space at 1130 K Street in Sacramento in order to be close to the capitol.	NOE	
2017018078	Phase III Accessibility Improvements Parks and Recreation, Department of --San Diego The California Department of Parks and Recreation proposes to construct accessibility improvements to facilities within Old Town San Diego State Historic Park to provide improved visitation opportunities to a larger demographic of the population as required by the Tucker vs. State of California consent decree. Improvements would include modifications to, but not necessarily limited to, restrooms, exhibits, seating, signage, paths of travel, interior flooring, ingress/egress, and railing.	NOE	
2017018079	Houston Canal and West Canal Erosion Repair and Road Grading Project Water Resources, Department of --Contra Costa Faults in the levees and dam surrounding the Forebay must be maintained to protect against failures. If the levee breaches along West or Houston Canals, it has the potential to compromise the State Water Project's ability to deliver water to millions of Californians; therefore, ensuring its safe and proper functioning is a high priority for the Department of Water Resources. By restoring several areas of eroded levee along Houston and West Canals to original design, this project will help ensure that the Forebay facilities remain safe and fully operational.	NOE	
2017018080	Parkwide Trail and Road Maintenance Parks and Recreation, Department of --Placer Maintain State Park system trails and roads within Auburn State Recreation Area to provide enjoyable and safe recreational experiences and facilitate public safety services. Routine trail and road vegetation management activities will follow the guidance provided in dated January 8, 2002, or as revised, and all other trail and road annual maintenance activities will follow the Trails Handbook of 1991, or as revised. All maintenance activities will adhere to the following standard conditions.	NOE	
2017018081	26585 Agoura Road Site Improvements University of California, Los Angeles Calabasas--Los Angeles The proposed project consists of site and utility infrastructure improvements to support a Regent-owned medical office building at 26585 Agoura Road in Calabasas. The proposed project scope of work would include: installation of new water and sewer piping and an emergency generator with connections to existing services; installation of a new water meter and electric vehicle charging stations; construction of a new manhole and curb ramps; restriping of the parking area; and provision of directional and building signage, secure storage areas, and accessibility upgrades to the building entrance. Work hours would be performed in accordance with the requirements of the County of Los Angeles. Traffic control signage would be used to route vehicular and pedestrian traffic of neighboring tenants around trenching in the parking lot.	NOE

2017011019	Proposed Rule 1430 - Control of Emissions From Metal Grinding Operations at Metal Forging Facilities South Coast Air Quality Management District -- SCAQMD staff is proposing new Rule 1430 - Control of Emissions From Metal Grinding Operations at Metal Forging Facilities, to reduce toxic emissions, particulate matter emissions, and odors from metal grinding and metal cutting operations at metal forging facilities located in industrial, commercial, or mixed land use areas throughout the entire SCAQMD jurisdiction. Proposed rule 1430 does not apply to grinding or cutting operations that are conducted under a continuous flood of metal removal fluid. PR 1430 does not apply to grinding or cutting operations that are conducted under a continuous flood of metal removal fluid.	EA	02/09/2017
2015081031	Carroll Canyon Mixed Use San Diego, City of San Diego--San Diego The project proposes demolition of on site office buildings and redevelopment of the project site with a mixed use development that would include up to 260 multi family residential units and approximately 10,700 sf of commercial retail space. The project proposes several buildings that would accommodate residential units, small retail stores, and restaurants. The multi family residential buildings would be located in the northern three-fourths of the site. Retail/restaurant pads would be located in the southern portion of the site along Carroll Canyon Road. Buildings would range in heights of one story to four stories and would equal 386,000 sf. To implement the Carroll Canyon Mixed use project, the project applicant is requesting approval of an amendment to the Scripps Miramar Ranch community plan to change the land use designation from industrial park to residential (15-29 du/net ac) and community shopping and associated general plan amendment to change the land use designation for the project site from industrial employment to multiple use. The project site would be rezoned from the existing IP-2-1 to RM-3-7 to allow for development of the mixed use project. Development would occur in accordance with the proposed planned development permit to allow deviation to max wall heights, setbacks, lot frontage, and max building height; and a vesting tentative map.	EIR	02/24/2017
2017011015	Goodyear Airship Operations Center Improvements Carson, City of Carson--Los Angeles The proposed project consists of modifications to the existing Goodyear Airship Operations Center by (1) expanding the existing 41,000 sf mooring area to approximately 195,000 sf and (2) constructing Polyethylene decking for mobile mast truck positioning and ground support equipment, an additional 40,000 sf inflatable hangar and 105,000 sf tarmac, a 4,500 sf inflatable maintenance building, and new fencing around the property. Changes to facility operations resulting from the new blimp are expected to be relatively minor; while the new blimp will be able to accommodate more passengers, it will continue operating for	MND	02/09/2017

	and "Community" Gatepath uses are proposed on the western half of the site, fronting Marco Polo Way. Professional offices and health research facilities are proposed at the southeast corner of the site with flex office/café/retail/amenity space and senior support facilities located on the east side and northeast corner of the site. The center portion of the site would be landscaped and does not include any proposed structures. Below grade parking is also proposed.		
2017011017	Ramirez Street Area - Former Aliso Manufactured Gas Plant (MGP) Remedial Action Plan Toxic Substances Control, Department of --Los Angeles Pursuant to Chp 6.5, division 20, section 25355(a)(1) of the Health and safety code, the DTSC is considering approval of the proposed draft remedial action plan, Ramirez Street Area, Former Aliso MGP, LA, CA which is incorporated by reference. The RAP is for the remediation of a portion of Ramirez Street located in Downtown Los Angeles between Center and Keller streets. The Southern California Gas Company is sponsoring the environmental cleanup of the Ramirez Street area based on a Voluntary Cleanup Agreement executed between the DTSC and SoCalGas dated January 19, 2001. 1986071414	Draft Supplemental Environmental Impact Report For The Bakersfield Metropolitan (Bena) SLF Kern County BAKERSFIELD--KERN CDFW has executed Streambed Alteration Agreement No. 1600-2015-0117-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Kern County Waste Management Department. Project will consist of drainage improvements to protect current and future landfill waste units from high flows during storm events.	NOD	
2008112095	Geary Corridor Bus Rapid Transit (BRT) Project San Francisco, City and County of San Francisco--San Francisco The project would create bus rapid transit (BRT) along one of San Francisco's major east-west transit routes. The Draft EIS/EIR analyzes 4 build alternatives; each would create two dedicated transit lanes (one eastbound and one westbound) from Gough Street to 34th Ave. The build alternatives would include the following features: colorized bus-only lanes, high frequency bus service, transit signal priority, BRT/rapid network-branded vehicles, high-amenity BRT stations, mixed-flow travel lanes, bus bulbs and pedestrian crossing bulbs, protected left turns, new signalized pedestrian crossings, and a bicycle lane between Masonic and Presidio Avenues.	NOD	
2012031087	Heaps Peak Slope Repair San Bernardino County --San Bernardino This proposed project involves permanent repairs to the landfill slope involving the excavation of a "wedge" of refuse, replacing the excavated refuse to form an overall 2:1 gradient, and covering and compacting the refuse slope with one to two feet of imported soil. The Project will result in impacts to 2.32 acres of Southern rubber boa (<i>Charina bottae umbratica</i>) habitat including temporary impacts to 0.62 acres. The project is expected to result in incidental take of Southern rubber boa (<i>Charina bottae umbratica</i>), which is/are designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental	NOD

	take of species listed under CESA that may occur as a result of project implementation.		
2015022025	Freedom Sanitation Trunk Sewer Replacement Project Watsonville, City of Watsonville--Santa Cruz Project will replace 4,800 LF of 8" and 10" sanitary sewer with 18" to 21" sanitary sewer. The purpose of the project is to increase flow capacity in order to prevent sewage overflow predicted for existing wet weather flow and to reroute portions of the line located in difficult to access easements on private property. The sewer line will be rerouted to public streets in order to relocate the line from difficult to access and maintain private property easements. The rerouted portion of the sewer line runs down Burchell, then to Freedom, then to Green Valley, then Carey Ave.	NOD	
2016101042	Avila Beach Drive Bridge Seismic Retrofit Project San Luis Obispo County --San Luis Obispo The San Luis Obispo County Public Works Department proposes to seismically retrofit the existing bridge on Avila Beach Drive over San Luis Obispo Creek, in the community of Avila Beach. Project implementation will increase the bridge strength to prevent a sudden bridge collapse during an earthquake event at the design level severity. The project is receiving funds from the Federal Highway Administration and assistance from Caltrans. Project activities involve diversion and dewatering within San Luis Obispo Creek and all anticipated project impacts are temporary; no permanent impacts will occur.	NOD	
2013068157	Water Treatment Plant Improvements Feasibility Study Public Health, Department of Porterville--Tulare The State Water Resources Control Board (SWRCB) is the Lead Agency. The SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing funds for the project. The project proposes to design plans and specifications for a new water treatment clarification plant to address periods of non-compliance with drinking water standards.	NOE	
2016028327	City of Antioch Desalination Project Antioch, City of Antioch--Contra Costa The State Water Resources Control Board (SWRCB) is a responsible agency for this project. The SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing funds for the project. The City of Antioch proposes to conduct a planning level analysis of a brackish water desalination facility. The desalination plant would treat water from the San Joaquin River for potable supply to the City of Antioch.	NOE	
2016088293	Hexavalent Chromium Drinking Water Compliance Project Newman, City of Newman--Stanislaus The State Water Resources Control Board (SWRCB) is the responsible agency. The SWRCB's Safe Drinking Water State Revolving Fund (SDWSRF) Program is providing funds for the project. The City of Newman proposed to a planning project that will include the drafting of environmental and technical documents in anticipation of a future public water system construction project, which is required to maintain public health and safety for those served by the City of Newman water	NOE

	system.		
2017018109	Eaton Wash Dam Inlet/Outlet Works Rehabilitation (Streambed Alteration Agreement No. 1600-2016-0243-R5) Fish & Wildlife #5 --Los Angeles The Permittee is providing another notification to replace Streambed Alteration No. 1600-2011-0324-R5 for the Eaton Wash Inlet/Outlet Rehabilitation and Channel Improvements Project (Project). This Project is a continuation of a previously proposed project that was not able to be completed as originally notified. The original project notification was deemed complete on October 31, 2011, and a letter was sent on December 20, 2011, from CDFW stating that an Agreement was not able to be submitted to Permittee within the time limits prescribe by FGC and therefore the project could proceed as specified in the notification. The onely remaining portion of the original proeject to be constructed is the spillway access ramp. In order to allow vehicular access for improved maintenance and dam safety inspections, the current Proeject will include the construction of a ramp.	NOE	
2017018110	Sheills Creek Culvert Clean-OUt (Lake or Streambed Alteration Agreement No. 1600-2015-0219-R5) Fish & Wildlife #5 Fillmore--Ventura Permittee proposed to conduct work associated with the maintenance of a road crossing over Sheills Canyon Creek. Work will consist of the removal of excess sediment and vegetation from within the channel to restore conveyance capacity of the culverts associated with the crossing. Once the initial sediment and vegetation activities have occurred, maintenance will continue to keep vegetation under control and, if needed, additional sediment removal efforts will occur. Pipelines for oil and water are present on the upstream side of the culverts and a gas line is present immediately downstream. Restoring channel capacity will reduce the potential for high volume flows to come in contact wit these pipelines.	NOE	
2017018111	Goleta Beach Revetment Maintenance - Implementation of CDP Condition 2.D (Streambed Alteration Agreement No. 1600-2016-0238-R5) Fish & Wildlife #5 Goleta--Santa Barbara The proposed project fulfills special condition 2.D of Coastal Development Permit No. 4-14-0687 involving the periodic maintenance of beach sand cover over any exposed portions of an existing rock revetment to protect Goleta Beach Park facilities, maintain coastal access, and provide aesthetically-pleasing beach conditions. Use of sand from the beach berm at Goleta Slough Mouth is not permitted at this time; therefore, sand for this project will be imported from approved sources. The primary approved sand source and plan is to obtain 6,000 cubic yards (cy) of beach-compatible sand from Santa Barbara Harbor/West Beach and transport it to Parking Lot #6 at Goleta Beach Park. The sand will be stockpiled at this site and any overflow will occur within Parking Lot #7. Each maintenance event will be limited to 1,000 cy of sand and will involve moving sand from the stockpile to cover exposed sections of the revetment. A total of 0.08 acres of CDFW jurisdiction consisting of sand will be impacted through implementation of this project.	NOE

2017018124	HUU Hazardous Fuel Treatments Forestry and Fire Protection, Department of --Humboldt, Del Norte, Trinity The project proposes the reduction of fire hazards through removal of excess vegetation. Depending on the vegetation present and the objective, the level of treatment can vary from the removal of all shrubs to the creation of a shaded fuel break where residual trees and shrubs are spaced out 10-15 feet apart. Treatment areas are strategically chosen to provide the most protection for the least amount of work. Roadside treatments are most common and involve removal of vegetation within the road right-of-way for a width of 10-50 feet on each side or another less common treatment is a 100-200 feet wide fuel break. Treatments consist of using the cut-chip method to mitigate excess vegetation. No more than 400 acres will be treated Unit-wide annually under this project.	NOE	
2017018125	RRU Truck Trail Maintenance Project Forestry and Fire Protection, Department of --Riverside The Riverside Unit Truck Trail Maintenance Project will be conducted using proper and protective road management practices with direct impact to critical fire defense infrastructure. The truck trails system serves as ingress and egress routes for, and will aid in, fire suppression and emergency response operations. This project will encompass typical recurring tasks associated with minor road maintenance; consisting of grading, filling of eroded ruts, minor repair of damaged water drainage features, culvert cleaning, and removal of roadway obstructions such as fallen trees and rocks. All road work and all grade and fill material will be generated within the prism of the road.	NOE	
2017018126	Soap Creek Ridge NOOrth Fuel Break Forestry and Fire Protection, Department of Yreka--Siskiyou The project is designed to intersect an existing fuel break located on Soap Creek Ridge and extend it north to Greenhorn Road. The project will involve of the installation of a 43-acre shaded fuel break which is 6,176 feet (1.2 miles) in length and 300 feet in width. Hand crews will be utilized to remove brush species, thin understory trees 8" DBH or less, remove snags which do not contain cavities, prune leave trees to a height of 6 to 8 feet and remove existing ground fuels	NOE

	septic system. A storm drain basin is proposed to be located at the northern end of the property.		
2006101004	Monterey Peninsula Water Supply Project Public Utilities Commission --Monterey The project area extends approximately 18 miles, from the town of Castroville in the north to the city of Carmel in the south. The MPWSP would include a seawater intake system, which would consist of 10 subsurface slant wells' (eight active and two on standby) extending offshore into the submerged lands of MBNMS, and a Source Water Pipeline. The slant wells would be constructed at the CEMEX sand mining site in the northern coastal area of the city of Marina and would extract 24.1 million gallons per day of source water through the seafloor in MBNMS.	EIR	02/27/2017
2015121049	Vision Agua Caliente Master Plan Project Agua Caliente Band of Cahuilla Indians Palm Springs--Riverside Note: Review Per Lead The Agua Caliente Band of Cahuilla Indians (the "Tribe") will be the Lead Agency under the Tribal Environmental Policy Act (Tribal Ordinance No. 28) and will prepare a Tribal Environmental Impact Report (TEIR) for the Vision Agua Caliente Master Plan Project. The Vision Agua Caliente Master Plan addresses approximately 18 acres of Tribal Trust land (the "Project Site") located within the Section 14 Specific Plan area in downtown Palm Springs. The Vision Agua Caliente Master Plan would allow the expansion of the Spa Resort Casino by up to 68,000 square feet and the development of up to 350 new hotel rooms in 510,000 square feet of hotel space. The Master Plan also includes up to 60,000 square feet of meeting space, 50,000 square feet of retail commercial space, a 40,000 square foot spa/fitness center, and approximately 650 parking spaces that complements and provides an incidental benefit to the Spa Resort Casino.	EIR	03/13/2017
2016062056	Crystal Geyser Bottling Plant Project Siskiyou County Mount Shasta--Siskiyou The proposed project to be evaluated in the EIR consists of the operation of the existing Crystal Geyser Bottling Plant as a bottling facility with the addition of several proposed components and utility/infrastructure options. The proposed addition of an onsite permanent caretaker/security residence requires a conditional use permit from the County, which triggers the need for compliance with CEQA. The EIR will analyze all Plant modifications undertaken and proposed by the Applicant to resume operation of the Plant.	EIR	02/27/2017
2017011020	Dentt Industrial Project El Cajon, City of El Cajon--San Diego The project consists of the development of seven single story, multi-tenant industrial buildings on an approximately 9.3-acre vacant site located on North Marshall Avenue in the city of El Cajon. The proposed buildings would include flexible space for general industrial uses including manufacturing storage, distribution, and office. Surface parking, five driveways onto North Marshall Avenue, and landscape and hardscape improvements also are proposed. Landscaping would be provided throughout the development in both drought-tolerant planting areas and two biofiltration basins. The project would	MND	02/10/2017

	project will involve the removal of vegetation and top soils off the surface of slopes and excavate hard rock for processing into rock products that can be used to maintain and improve Jackson Demonstration State Forest roads. The use of the existing quarry will involve the continuation of excavation of hard rock and processing for use on JDSF roads. Quarry soils and processed rock will be transported and stored in locations where they will be used or are accessible to heavy equipment during all times of the year. When the quarry sites have been completely exhausted of viable hard rock, then the sites will be reclaimed by importing soils back into the quarry, re-contouring the slopes and planting with native trees and vegetation.		
2017012034	Oak Hill Road at Squaw Hollow Creek Bridge (No. 25C0096) Replacement Project El Dorado County --El Dorado El Dorado County is proposing to replace Bridge Number 25C0096 over Squaw Hollow Creek on Oak Hill Road. The existing Squaw Hollow Creek bridge, built in 1945, would be replaced with a new standard two-lane bridge approximately 32 feet wide and 32 feet long. In addition, approximately 810 feet of Oak Hill Road would be reconstructed. A temporary diversion dam would be placed in Squaw Hollow Creek upstream of the bridge to divert flows around the work area during bridge construction. One lane along Oak Hill Road near the bridge would be open during bridge replacement to allow through traffic.	MND	02/13/2017
2015121102	Bloomington Business Center / JM Realty Group San Bernardino County --San Bernardino Project would include the development of a 344,000 sq. ft. high cube warehouse facility. The project would also include associated truck and passenger vehicle parking, fences, gates, hardscape areas, as well as some ornamental trees and vegetation.	NOP	02/10/2017
2008051003	Subsequent Environmental Impact Report for the Topock Compressor Station Final Groundwater Remediation Project Toxic Substances Control, Department of Needles--San Bernardino Groundwater beneath and near the Topock Compressor Station (TCS) has been contaminated by chemicals associated with historical wastewater discharge from station operations related to compression of natural gas in areas known as Bat Cave Wash and East Ravine. The Groundwater Remediation Project, as analyzed and approved in the 2011 Groundwater FEIR and the 2013 Addendum to the EIR, involves manipulation of subsurface water flow to move a contaminated groundwater plume with Cr(VI) and other chemicals of potential concern, originating from past operations at the TCS, through a treatment zone.	SIR	02/27/2017
2013011011	South Orange County Reliability Enhancement (SOCRE) Project Public Utilities Commission San Juan Capistrano, San Clemente--Orange, San Diego The SOCRE project would include: 1. Rebuilding and upgrading the existing 138/12-kV air-insulated Capistrano Substation (2 acres) as a 230/138/12-kV gas-insulated substation (6.4 acres); 2. Replacing a segment of a single-circuit 138-kV transmission line between the Talega and Capistrano substations with a new double-circuit 230-kV transmission line (7.5 miles), and relocating several transmission and distribution line segments (2 miles, combined) located near the two substations; and 3. Relocating a 12-kV line from the San Juan Capistrano	NOD

	Substation to Prima Deschecha Landfill.		
2013012021	2012 District Facilities Master Plan Ohlone Community College District Fremont--Alameda The Northeast Parking project eliminates the previously proposed Parking Structure P1 and reconfigures three existing parking lots. Instead of 639 spaces under the 2012 DFMP for this area (540 spaces in Parking Structure P1 and 99 spaces on Lots U and W), the revised parking project includes up to 300 spaces on reconfigured Lots T, U, and W. As there are 103 spaces currently on the three lots, the revised Northeast Parking project would result in a net increase of 197 spaces in this portion of the campus. The parking would be used by students, staff and faculty. The project includes a new approx. 2,000 sq. ft. storage building north of Building 22.	NOD	
2014121055	Prestressed Concrete Cylinder Pipe Rehabilitation Program Metropolitan Water District of Southern California --Los Angeles The proposed program would rehabilitate the Prestressed Concrete Cylinder Pipe (PCCP) portions of five subsurface water distribution pipelines which are nearing the end of their service life. The program would reduce the risk of unplanned outages, extend the service life of the pipelines, and improve operational and emergency flexibility. Rehabilitation methods include steel cylinder relining with collapsed pipe, steel pipe slip-lining with non-collapsed pipe, and replacement or new pipe construction. Maintenance and replacement of worn or outdates appurtenant structures (e.g. above-ground air release valves, vacuum valves, manholes, and buried vault structures) would also be completed as part of this program. Individual projects will occur in Metropolitan owned rights-of-way, public roads and open space; however, construction may result in temporary impacts to general commercial, residential, business, recreation and open space areas. Work may include acquisition of additional temporary right of way to facilitate construction.	NOD	
2016051039	State Route 210 Mixed Use Flow Lane Addition from Highland Avenue to San Bernardino Avenue Project Caltrans #8 Highland, San Bernardino, Redlands--San Bernardino The proposed project would widen SR-210 from Sterling Avenue to San Bernardino Avenue in the cities of Highland, San Bernardino, and Redlands, as well as a portion of unincorporated San Bernardino County, CA, to add a mixed flow lane in each direction. The widening would occur between post miles Revised (r) 26.3 and R32.4, for a distance of 6.1 miles. The total length of the proposed project limits is approx. 8.2 miles, from PM R25.0 to R33.2, which includes transition striping and signage.	NOD	
2016091052	IS Application No. 7146 (GASNA,6P LLC) Fresno County San Joaquin--Fresno The project for purposes of review under CEQA consists of two components: a 70 kV Generation Tie Line that is the subject of Unclassified Conditional Use Permit (CUP) Application No. 3531, and a 70 kV Switching Station. The 70 kV Generation Tie Line will connect a photovoltaic solar power generation facility that was authorized by CUP No. 3291 in accordance with a MND that was adopted by the Fresno County Planning Commission on November 3, 2011, to the new 70 kV	NOD

2017018130	BDU Headquarters' Tank and Generator Project Forestry and Fire Protection, Department of San Bernardino--San Bernardino This project is comprised of two components a water storage and a replacement generator. The tank portion consists of the construction of an underground water storage tank for storing and conserving water pumped in and out of the unit's apparatuses on a regular basis for maintenance. Currently, water inside apparatuses is disposed of in the street or nearby landscape. The project includes excavation of a 20' by 10' area up to 10' in depth, placement of a 5,000 gallon concrete storage tank, 26" diameter hinged access lids, and finished grading. The generator project consists of the replacement of an old generator inside an existing generator building and the construction of a 24' by 18' by 6' reinforced concrete pad to support two 1,000 gallon liquid propane gas tanks.	NOE	
2017018131	Pilot Rock Fluoride Treatment Plant Forestry and Fire Protection, Department of --San Bernardino The Project is located at the CAL FIRE Pilot Rock Conservation Camp and is comprised of a fluoride treatment plant PRCC has historically enjoyed potable water from an onsite horizontal well, which was installed when the camp was originally built. Horizontal well production diminished over the years resulting in the installation of two vertical wells. To produce potable water, Well #2 must be blended with water from Well #3 and/or from the horizontal well to lower the fluoride below the MCL.	NOE

2015062029	Bear Creek Redwoods Open Space Preserve Plan Midpeninsula Regional Open Space District Los Gatos--Santa Clara Midpeninsula Regional Open Space District (MROSD) is developing a Preserve Plan for the Bear Creek Redwoods Open Space Preserve. The Preserve is currently open to public access by permit only. The Plan would provide additional public access and trail opportunities, additional vehicle access and parking, new restroom facilities, and other additional public use facilities, including potential re-use of existing structures at the former Alma College site and improvements to (and development of new) equestrian facilities at the existing Bear Creek Stables. Special events are also being considered. The Plan would include improvement to native habitat, maintenance of roads, and providing safe road crossings. Resource management efforts under the Plan would focus on Sudden Oak Death, invasive plants, and protecting bat habitat.	FIN	
2016072040	SAC I-5 and San Joaquin/SAC 160 Bridge Seismic Retrofit Project, EA # 03-3F090 Caltrans #3 Sacramento--Sacramento A bridge seismic retrofit project for four bridges: I-5 Mokelumne River Bridges (south bound and north bound), North Sacramento Undercrossing; and Paintersville Bridge. Two bridges are located on boundary line with San Joaquin/Sacramento Co., (Mokelumne River Br) and the other two bridges are located within Sacramento Co. (No. Sacto. U/C and Paintersville Br) The project is needed because these 4 bridges are lacking the current seismic standards. The project will construct seismic repairs on all 4 bridges, & the work will involve the replacement or repair of piers, bents, metal trusses, hinge seats, and some column wrapping. Some construction will occur on dry land (the bridge approaches/abutments); and some construction will need to occur in water (within the Sacramento River and Mokelumne River). Environmental permits are applicable.	FIN

2015092066	State Route 4 Wagon Trail Realignment Project Caltrans #6 Angels Camp--Calaveras Note: Notice of Availability FONSI The California Department of Transportation (Caltrans), in cooperation with Calaveras County, proposes to improve a segment of SR 4 in Calaveras County from about 2.6 miles east of Copperopolis (near Bonanza Mine Way) to about 1.6 miles west of the SR 4/49 junction (near Stockton Road), from post miles R10.3 to R16.4. The project proposes to construct a new alignment with two standards-width lanes and paved shoulders. The project would improve sight distance by increasing curve radii with the incorporation of longer, smoother curves. The project is intended to enhance safety by improving alignment geometrics.	FON	
2013082090	Flynnville Wine Company, Use Permit #P12-00222 & Variance #P12-00223 Napa County Calistoga--Napa Approval of a use permit to construct a 60,000 gallon per year winery to allow two winery buildings, totaling 24,210 sf in area, hosted daily tours and tastings by appointment only for a max of 25 persons per day, and a marketing program to permit six events per year with a max of 25 guests, six events per year with a max of 50 guests, and three events per year with a max of 100 guests. Proposed hours of operation: 8:00 am to 8:00 pm (production hours, except during harvest) and 10:00 am to 6:30 pm, 7-days a week. The project would also include demolition of five existing buildings.	MND	02/13/2017
2017011022	Carob Crisis Residential Treatment Facility Project San Bernardino County Fontana--San Bernardino The San Bernardino County Real Estate Services Department is proposing a new 10,941 sf Crisis Stabilization Unit Facility Project, located within the unincorporated area of the city of Fontana, San Bernardino County, CA. The project site consists of five parcels, totaling approximately 2.5 acres, located at 14677 Merrill Ave, Fontana, CA 92335. Specifically, the project site is located southeast corner of the intersection of the San Bernardino Avenue and Carob Avenue. The purpose of the proposed project is to expand access to mental health services within the West Valley region of the county through the construction and operation of a CSU facility providing voluntary crisis intervention services to adult patients living in the local community. Services would include mental health assessments, treatment plan development, crisis intervention, medication support services, and individual and group therapy. The facility would be open 24 hours a day, 365 days a year and provide a type of care that is a diversion from more expensive acute in patient care for West Valley residents in crisis. The proposed project would have 16 adult beds. The facility would be built in a residential architecture style and fully landscaped to blend with the existing residential area.	MND	02/13/2017

2017011023	<p>Merrill Crisis Stabilization Unit Facility Project San Bernardino County Fontana--San Bernardino</p> <p>The San Bernardino County Real Estate Services Department is proposing a new 11,102 sf Crisis Stabilization Unit Facility Project, located within the unincorporated area of the city of Fontana, San Bernardino County, CA. The project site consists of five parcels, totaling approximately 2.5 acres, located at 14677 Merrill Ave, Fontana, CA 92335. Specifically, the project site is located south of Merrill Ave and west of Redwood Ave.</p> <p>The purpose of the proposed project is to expand access to mental health services within the West Valley region of the county through the construction and operation of a CSU facility providing voluntary crisis intervention services to adult patients living in the local community. The proposed project would be a psychiatric urgent care center with a homelike environment where individuals in crisis can be assess for stabilization services, medication evaluation and management, or hospitalization if necessary. Consumers would have a max stay of 23 hours. The facility would be open 24 hours a day, 365 days a year. Each of five stabilization rooms would accommodate up to four individuals. Four of the five stabilization rooms would be designated for the adult population and one stabilization room solely designated for the adolescent populations to ensure populations would be separate at all times. The facility would be built in a residential architecture style in order to blend with the existing residential area.</p>	MND	02/13/2017
2017011024	<p>Carmel Holdings LLC Monterey County --Monterey</p> <p>Coastal development permit to allow a 48 foot long and 16 to 20 foot high area of coastal bluff stabilization/rockbolt retention system and design approval. The project involves work on a receding coastal bluff wall, overhanging the Pacific Ocean. All work will be conducted via a series of harnesses and suspended platforms. Catch tarps will also be suspended below the work area to prevent debris from entering the marine/aquatic environment.</p>	MND	02/13/2017
2017011025	<p>Rancho Mission Viejo Riding Park, Water & Sanitary Sewer Facilities Project San Juan Capistrano, City of San Juan Capistrano--Orange</p> <p>The project is construction of water and sanitary pipelines at the city-owned park site known as Rancho Mission Viejo Riding Park at San Juan Capistrano. The purpose is to provide reliable, long-term water and sewer service to the site. As a result of this project, connection to off site facilities will be severed and new services from the city's water pipelines will be established. Project components include (1) a 12" domestic water line of approximately 985 linear feet; (2) an 8" recycled water line of up to 360 lf; (3) two metering stations; and (4) an 8" PVC sewer pipeline, with lateral lines, of approximately 2,120 lf. The project does not alter current activities or water consumption at the site.</p>	MND	02/13/2017
2017011026	<p>Morongo Basin Crisis Residential Treatment Project San Bernardino County --San Bernardino</p> <p>The proposed project involves the construction and operation of a new 11,962 sf Crisis Residential Treatment Facility Project intended to expand access to mental health services within the Eastern Desert region of the county by providing voluntary crisis intervention services to adult patients living in the local community. The facility will operate 24 hours a day, seven days a week, 365 days a year and</p>	MND	02/13/2017

	provide a type of care that is a diversion from more expensive acute in-patient care for Eastern Desert, residents in crisis. The CRT Facility will initially include 10 adult beds and a wing for administrative and staff offices. However, the administrative wing may be converted to up to 6 additional beds in the future, for a total max of 16 adult beds.		
2017012029	Camping World Expansion Vacaville, City of Vacaville--Solano The project will construct a new parking lot on a partially developed 3.2-acre parcel located at 5051 Quinn Road, which will be used to expand outdoor storage for the existing Camping World business located at 5065 Quinn Road. Phase 1 improvements will remove nine existing trees, three structures, underground utilities and chain-link fences. A fourth building will remain on-site for future vehicle maintenance. Approximately 2.78-acres will be excavated, compacted, and improved with 13 inches of aggregate base. The remaining 0.42 acres will be improved with landscaping and a bio-retention/filtration system. Lighting will be provided for sales and security, with a 6 ft. tall wrought iron perimeter fence. Two internal driveways will connect to the existing Camping World facility. Phase 2 will install 3-in. AC paving with 6-in. curbing over phase 1 improvements.	MND	02/13/2017
2017012030	Newtown Reservoir Cleaning Project Nevada Irrigation District Nevada City--Nevada The project is approximately four miles west of Nevada City. Elevation at approximately 2,235 feet MSL. The reservoir is fed by the Newtown Canal, which is from a diversion from Deer Creek. Intent is to remove sediments and vegetation from the reservoir and to restore to its former design capacity. An estimated 6,600 cy of sediment would be removed over a period of two to three months. The sediment removal would be accomplished by diverting canal flows around the reservoir. The accumulated sediment would be removed using front-end loaders, excavators, dump trucks, drag lines, and other suitable equipment. The excavated sediment would be placed on adjacent previously disturbed in order to drain the sediment of remaining water and to allow drying or would be transported off site to be recycled as fill material, as appropriate.	MND	03/02/2017
2017012031	Fremont High School Campus Master Plan Update Fremont Union High School District Sunnyvale--Santa Clara Fremont Union High School District proposes to replace, expand, and/or renovate several existing buildings on the FHS campus to accommodate projected student enrollment and support curriculum. The proposed project also includes various other campus improvements to support the existing and projected student body, such as a new maintenance building, promenades, a shade structure, and new administration, guidance, and counseling offices. Implementation of the project would result in a net increase of 12 classrooms and 22,813 sf of development on the FHS campus. The proposed improvements would be constructed in two phases and completed prior to the start of the 2020/2021 school year.	MND	02/13/2017

2017012033	PA-1600239 (MS) San Joaquin County --San Joaquin A minor subdivision application to subdivide an existing 75.35-acre parcel into a homesite parcel and a designated remainder parcel. Parcel 1 to contain a 5-acre homesite parcel. Designated remainder parcel to contain 70.35 acres.	Neg	02/13/2017
2017012036	Richvale Irrigation District 2017 Water Transfer Program Richvale Irrigation District --Butte RID proposes to sell up to 19,140 acre-feet of water to the participating member districts of the State Water Project Contractors incorporated or other South of Delta purchasers, including one or more Central Valley project contractors during the 2017 irrigation season. Buyers are seeking up to approximately 300,000 af of transfer water from various willing sellers in the Sacramento Valley during the 2017 irrigation season. Purchasing this water would lessen potential water supply shortages to these Buyers that may occur as a result of dry hydrologic conditions and regulatory restrictions on pumping in the Delta. As a willing seller, RID would make up to 19,140 af of water available to Buyers by idling cropland. Water made available by crop idling within the boundaries of the RID would then be retained and stored by DWR for delivery to Buyers.	Neg	02/13/2017
2017012037	Western Canal Water District 2017 Water Transfer Program Western Canal Water District --Butte, Glenn Western Canal Water District proposes to sell up to 34,118 acre-feet of water to the participating member districts of the State Water Contractors incorporated or other South of Delta purchasers including Central Valley Project contractors during the 2017 irrigation season. As willing sellers, WCWD would make up to 34,118 acre-feet of water available to Buyers by idling cropland. Water made available by crop idling within the boundaries of WCWD would then be retained and stored by the DWR for delivery to Buyers.	Neg	02/13/2017
2016051006	Open Space Encroachment Purchase Program Chino Hills, City of Chino Hills--San Bernardino Note: Response to comments The project proposes to sell up to five city-owned land currently designated in the general plan and zoning map as public open space to adjacent private property owners. The project also proposes to amend the general plan land use map and zoning map to redesignate 5.062 acres, made up of 179 individual fragments of land which are currently designated in the general plan and zoning map as public open space. The project proposes appropriate general plan designated in the general plan redesignation and rezoning for these parcels in conjunction with any land sales to match the zone/general plan designation of the encroaching properties. The new general plan designation and zoning will fall into one of the following categories: low density residential, medium density residential, or institutional private.	Oth

2001092035	Eureka-Arcata Route 101 Corridor Improvement Project Caltrans #1 Eureka, Arcata--Humboldt This project proposes to eliminate uncontrolled left turn movements entering and exiting Route 101, add a grade separated intersection at Indianola Road, add a partial signal at Airport Road, extend or construct right turn acceleration and deceleration lanes, replace the south bound Jacoby Creek Bridge, install a cable median barrier, and install metal beam guardrails.	NOD	
2014061035	San Jose Creek Water Reclamation Plant East Process Optimization Facilities Plan Los Angeles County Sanitation District Industry, Whittier--Los Angeles The proposed change to the approved project is to allow concrete placement and related activities during nighttime hours when accepted by the engineer subject to the mitigation measures included in the original SJCWRP FMND.	NOD	
2014111062	Road 23 Bridge Replacement at Dry Creek Madera County Madera--Madera CDFW has executed Streambed Alteration Agreement No. 1600-2015-0156-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, County of Madera Public Works Dept. Project includes activities related to the removal and replacement of an existing two-lane timber deck road bridge with a cast-in-place concrete slab bridge. During Project work, stream flow will be diverted through a pipe past the project work area.	NOD	
2015092050	Miller Avenue Streetscape Improvement Project Mill Valley, City of Mill Valley--Marin CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0387-R3, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Andrew Poster representing City of Mill Valley Department of Public Works. Project is limited to a permanent tide gate replacement within a Class I tidal channel tributary to Bothin Marsh a tributary to Arroyo del Corte Madera de Presidio. This feature will be constructed as part of the Miller Avenue Improvement Project. The existing 30-inch culvert passes beneath a sidewalk on the north side of Miller Avenue. The culvert is fitted with a tide gate that is failing due to the gate not closing and instead allowing tidal water to flow pass freely upstream. Upstream of the culvert is a 3-foot wide deep channel with steep banks dominated by ruderal and brackish vegetation. Downstream of the culvert is mud-bottom tidal channel that flows east to Bothin Marsh. Permittee will replace an existing 30-inch diameter, 10-foot long culvert and malfunctioning flap gate with two 48-inch diameter RCP culverts and a new floating flap gate that will prevent tidal intrusion into the drainage channel while allowing stormwater to escape.	NOD
