STATE CLEARINGHOUSE

NEWSLETTER

January 16-31, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16-31, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Wednesday, January 16, 2008</u>			
2006051097	Redlands Commons/ Trojan Groves Concept Plan Redlands, City of Redlands--San Bernardino The proposed project consists of a Concept Plan for a 71.61-acre site, including a specific Development plan for the eastern 39.92 acres (Redlands Commons parcel). No Development Plan has been prepared for the western 31.69 acres known as Trojan Groves. Implementation of the Concept Plan would include up to 450,604 sf of commercial space, 204 residential units, and approximately 20.59 acres of landscaped or open space.	EIR	02/29/2008
2007021015	UPS Freight Facility Rialto, City of Rialto--San Bernardino The proposed project is the construction and operation of a freight office/cross-dock facility. The conceptual plan for the development within the project limits includes four structures, collectively totaling 143,900 square feet. Building A (proposed crossdock) will encompass approximately 119,850 square feet, of which approximately 4,600 square feet will be devoted to office uses. Building A will provide 250 doors accommodating crossdock operations. Building B (fuel area) will total approximately 2,230 square feet. Vehicle and site maintenance operations will be housed in Building C, which is approximately sized at 19,200 square feet. A vehicle wash area will be supported from the approximately 3,300-square foot Building D.	EIR	02/29/2008
2008012059	East-West Water Transmission Pipeline Project- Phase II Fairfield, City of Fairfield--Solano The proposed project involves installation of a 30-inch potable water line between Hale Ranch Road and the West America Drive/Adagio Drive intersection. This 2.5 mile route is the second segment of the East-West Water Transmission Pipeline; the City previously approved construction for the 7.5-mile route connecting existing water mains at the Hale Ranch Road/Cordelia Road and Cement Hill Road/Clay Bank Road intersections. The purpose of the new transmission main is to pump water from the North Bay Regional Water Plant (NBR) to Cordelia. The second segment consists of an approximately 2.5-mile route between Hale Ranch Road and West America Drive. The pipeline would utilize City right-of-way, where available, and would be placed within the roadway right-of-way of two new roads proposed as part of the Fairfield Corporate Commons and North Connector projects. The pipeline would also traverse a section of agricultural land.	MND	02/14/2008
2008012060	West Capitol Avenue Streetscape and Infrastructure Project West Sacramento, City of West Sacramento--Yolo The City proposes to enhance and update West Capitol Avenue by making the corridor more pedestrian friendly. The proposed project would include the following major components: reducing the cross-slope of the route, installing secondary medians thereby creating frontage auxiliary lanes, adding mid-block crosswalks, textured pavement, dedicated bicycle lanes, in street parking, widened sidewalks, additional median landscaping, tree planting along the sidewalks, sewer system improvements, and a roundabout at the intersection with Sycamore Avenue.	MND	02/14/2008

(PA07-0099); Change of Zone from County of Riverside zones M-R-A, R-1,W-2, and W-2-20 to R-2, R-5 and HR with a Planned Unit Development (PUD) overlay. (PA07-0098); Approval of one or more tentative tract maps to allow for the subdivision and ultimate construction of a maximum of 1,500 single-family homes which may or may not be age-restricted, neighborhood parks, natural open space, and a new golf course, on approximately 1,263.6 acres as shown on Figure 4 of the NOP entitled "Quail Ranch Conceptual Land Use Master Plan." (PA07-0062); Conditional Use Permit for a Planned Unit Development (PUD) to create site specific residential development standards and allow clustering of residential units (PA07-0063); Tentative Parcel Map 35597 to subdivide the approximate 1,263.60 acre project site into 14 parcels (PA07-0064); Annexation to the City of Moreno Valley and detachment from the Riverside County Waste Management Resource District, Valley Wide Recreation and Park District, and County Service area 142 (PA07-0109), and annexation of approximately 300 acres in the northern portion of the site (to the Eastern Municipal Water District (EMWD) and Metropolitan Water District (MWD)).	NOP	02/14/2008
2008011046	Target Store Redevelopment Project Azusa, City of Azusa--Los Angeles The proposed project would develop an approximately 168,000 square foot Target retail store reaching two to three stories in height. The proposed project would demolish the existing approximately 39,905 square feet of commercial/industrial buildings on the project site. Approximately 420 parking spaces and a receiving and loading dock would be located at-grade beneath the main sales floor located on the second level. The third level would be limited in space and consist of additional storage space. Additional parking spaces may be provided adjacent to the project site. The at-grade parking area would be accessed from West 9th Street and Azusa and San Gabriel Avenues. Trucks would access the receiving and loading dock by entering on San Gabriel Avenue and exiting on Azusa Avenue.	NOP	02/14/2008
2008011047	Foothill Ranch Wal-Mart Expansion Lake Forest, City of --Orange The proposed project consists of the expansion and remodeling of an existing Wal-Mart on an approximately 14.195-acre site located in Planning Area 6 of the Foothill Towne Centre development. The expansion consists of the addition of 41,283 sf of commercial/retail uses to the existing 135,960 of structure, resulting in a 177,243 sf Wal-Mart Supercenter with a full-service grocery department. The project would include a new entrance for the grocery uses and additional loading facilities with two truck doors. In addition, the proposed expansion includes additional square footage for use as a banking center, beauty salon, optometrist's office, and other accessory uses. Although current operations and uses at the existing Wal-Mart would not be affected by the project, an additional 36 weekly truck trips related to deliveries are anticipated to occur in order to serve the	NOP	02/14/2008

2006022107	Dutra Haystack Landing Asphalt Batch Plant and Asphalt / Concrete Recycling Facility Sonoma County Petaluma--Sonoma General Plan Amendment/Rezone from Limited Commercial to Limited Industrial with a Use Permit and Design Review to establish a proposed asphalt batch plant, asphalt/concrete recycling facility, stockpiled aggregates, new dock facilities for off-loading barge operation, volunteer fire station, conveyor over SMART railroad tracks, truck scale and office space. On-site storage and handling of sands, aggregates, oils, tars and recycled tires in crumb form to be used in the manufacturing of rubberized asphalt. The site is south of the City of Petaluma and generally located outside the County's Urban Service Boundary, thereby requiring an on-site septic system and NMWD water supply; water also pumped from the Petaluma River for dust suppression. Barge dock and aggregate off-loading facilities within BCDC/JARPA jurisdiction on Petaluma River. Temporary Start-Up Production: 371k tons annually; Permanent Buildout Production: 664k tons annually.	EIR	03/03/2008
2008011051	Runyon Canyon Park - Fuller Entrance Parking Area Los Angeles Bureau of Engineering Los Angeles, City of--Los Angeles Construction of a new gravel-based parking area consisting of 80 parking spaces in the area that is currently an open lawn area. The existing open lawn area will be relocated just to the north of the new parking area. The parking area will be approximately 0.6 acres and the new lawn area will be approximately 0.3 acres. The parking area will feature a low-impact and permeable surface. It will utilize a terraced design that nestles into the existing grade and allows the parking area to blend with the natural terrain and minimizes grading work. The design minimizes water runoff and control erosion. The parking area design has incorporated remnant building foundations from the former estate. A 4-foot high fence will be constructed to enclose the new lawn area. All existing trees will remain. The area will be landscaped with native, drought-tolerant plants. An irrigation system will be installed in this area as well as the parking area.	MND	02/15/2008

2008012061	Parks Bar Quarry Amended Reclamation Plan Mining and Geology Board, Department of Conservation --Yuba The project is an amended reclamation plan pursuant to California's Surface Mining and Reclamation Act of 1975 (SMARA) for the Parks Bar Quarry. The mine site will be reclaimed to open space and wildlife habitat using native plants for revegetation to blend with the surrounding landscape.	MND	02/15/2008
2008012062	The 2008 Klamath River Restoration Grant Program in Siskiyou County Fish & Game #1 --Siskiyou The primary goal of this Restoration Program is to improve spawning success for adult salmon and steelhead and to increase survival rates for eggs, embryos, rearing juveniles, and downstream migrants. The focus of the funding is on projects that have immediate benefits to salmonids.	MND	02/15/2008
2008012063	Upper Truckee River Restoration Project, Middle Reaches 3 and 4 South Lake Tahoe, City of South Lake Tahoe--El Dorado Restore a portion of the Upper Truckee River and adjacent floodplain. The objectives of the Project are to improve natural function of the channel, increase overbank flow frequency, and deposit sediment into the floodplain more frequently. Controlling the flow and gradient, protecting the stream banks and designing to allow the river to overtop its banks during peak periods will have many benefits including: reduced velocities, more frequent flooding of the meadow during high flows, improved riparian and meadow vegetation, higher groundwater, more productive fisheries, improved macroinvertebrate populations and terrestrial wildlife habitat, and a reduction in fine sediment transport during overbanking events.	MND	02/15/2008
2008012066	Sewer Rehabilitation Project Piedmont, City of Piedmont--Alameda The project is phase IV of the City's Sewer Rehabilitation Program. 29,032 feet of sewer mains and laterals will be rehabilitated within specific areas of the city, sub-basins G3, G5, N2 and T2. Existing, degraded sewer lines will be replaced with new lines using the pipe bursting process which will increase the structural integrity of the overall system and provide public health and environmental benefits.	MND	02/19/2008

2003112012	<p>City of Rio Dell General Plan Update (2008-2030) Rio Dell, City of Rio Dell--Humboldt</p> <p>The proposed plan is an update of the city's 2004 General Plan. It includes: (1) updates to six of the seven General Plan elements (Housing being the exception); (2) updates to the General Plan Land Use and Zoning Map; and (3) revisions to the Zoning Ordinance. The proposed plan would undertake the following:</p> <ul style="list-style-type: none"> - Expand the city's Planning Area (PA) and SOI to cover Scotia, and expand the city's PA to cover the Metropolitan - Annex the Sawmill and Blue Slide Road Annexation areas to the city' - Prezone Scotia with city zoning districts; - Amend the General Plan Land Use and Zoning Map; - Amend the General Plan text, including goals, policies, objectives and implementation measures, to include new General Plan land use designations, facilitate the integration of the expanded areas into the city, address current and future land use relationships, and protect city citizens and the environment; and - Amend the Zoning Ordinance to include new overlay zones. 	NOP	02/15/2008
2008011052	<p>Mercedes Benz of Temecula (PA07-0335) Temecula, City of Temecula--Riverside</p> <p>The proposed project is a Development Plan application to construct a 65,561 square foot Mercedes Benz car dealership with incidental car maintenance, repair services, and car wash located north of Date Street and west of Ynez Road within the Harveston Specific Plan.</p>	NOP	02/15/2008
2008012064	<p>Carrier Property Sierra County --Sierra</p> <p>The proposed subdivision will split the current 27.71-acre parcel into one 10.17-acre parcel and one 17.54-acre parcel. The project is located north of the community of Downieville in unincorporated Sierra County. Minor grading will be necessary in order to construct future residences. Construction will include driveway encroachment improvements which must be paved. Two unpermitted building pads exist on site, therefore all existing and future grading will be subject to approval of the Sierra County Planning and Building Department and will require the necessary entitlements.</p>	Neg	02/15/2008
2008012065	<p>Martinez Marina Waterside Improvements Martinez, City of Martinez--Contra Costa</p> <p>This project proposes to make improvements to various features of the Martinez Marina (the Marina). The Marina is a 70 acre facility located within a larger 330 acre regional park (Martinez Regional Shoreline) in the City of Martinez. The Regional Shoreline is jointly administered by the East Bay Regional Park District and the City of Martinez. The Marina is a full-service public facility that includes 400 boat slips, a breakwater on the northwest, north, and east sides, fueling docks and sewage pumpout, restaurant, bait shop, four-lane boat launch ramp, harbormaster's office, yacht club, public fishing pier, among other amenities. Many of these features are again damaged, and/or in need of repair or replacement. This project proposes improvements to various Marina components such as breakwater improvements, dock system replacement, dredging, and demolition of an abandoned pier.</p>	Neg	02/15/2008

2003022122	Siller Ranch (EIAQ-3735) Placer County Planning Department --Placer Proposes to amend the previously approved Conditional Use Permit to allow for the extension and connection of the Lookout Mountain ski trails and express lift to the winter recreation component of the Martis Camp.	NOD	
2003122048	UC Davis Medical Center Education Building University of California, Regents of the Sacramento--Sacramento The project will develop the second phase of a two phase building project. Phase I was previously approved and constructed. Phase 2 will construct an additional four-story wing that is approximately 52,000 square foot in size. Use of the facility will include classrooms, offices, and ancillary services. Combined, Phases 1 and 2 comprise a four-story Education Building that is approximately 174,000 square feet in size. Both phases are consistent with the project analyzed in the previously certified UC Davis Education Building Focused Tiered Environmental Impact Report. Prior to Education Building project, the project site was developed with parking and landscaping.	NOD	
2006021135	Maricopa Wastewater Project Maricopa, City of Maricopa--Kern The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, the City of Maricopa, represented by Bob Wilburn-City Administrator, for its Wastewater Project. The applicant proposes to create two wastewater retention ponds immediately north of the City's existing wastewater ponds, in a location presently occupied by an ephemeral beneath the new wastewater ponds. The City also proposes to install a new trunk line and a portable effluent disposal system (PEDS) pipeline, which all cross two ephemeral drainages east and south of the new wastewater ponds.	NOD	
2007031065	Warring Canyon Channel Replacement Upstream of Center Street Ventura County Watershed Protection District --Ventura The project includes demolition of the existing concrete trapezoidal channel and replacement with a new concrete rectangular channel from Center Street upstream approximately 1,270 feet. The existing access road would be widened and a new concrete v-ditch would drain the access road. An existing wooden pedestrian bridge immediately adjacent to Center Street would be replaced in-kind or with a box culvert.	NOD	
2007031073	Jefferson Commons Specific Plan Project Fullerton, City of Fullerton--Orange The project proposes a Specific Plan mixed-use development of 350 student-oriented residential units, 30,836 square feet of retail/commercial uses, including 9,619 square feet of space for the leasing office and recreation centers (the latter for the student housing). In addition, 1,189 parking spaces would be provided for the residential units and 123 parking spaces would be provided for retail/commercial uses on-site.	NOD

2007052063	Cowell Student Health Center Expansion and Renovation University of California, Santa Cruz Santa Cruz--Santa Cruz The proposed project would renovate the existing 25,000 gross square foot (gsf) Cowell Student Health Center (CSHC) on the UC Santa Cruz campus and construct a 10,000 gsf addition to the facility. The CSHC houses the UC Santa Cruz Student Health Services, which provides outpatient medical services, and a health promotion and outreach program for UC Santa Cruz students. The facility also includes a clinical laboratory, a diagnostic X-ray service and a full-service pharmacy. Approximately 900 square feet of the existing north wing will be demolished and replaced with a new main entrance, lobby, and elevator. A new American Disability Act (ADA) accessible pedestrian pathway will be constructed north of the existing facility to provide access to the new main entrance. A second-story walkway would provide access from the lobby to the building addition. The CSHC is located in the central portion of the UC Santa Cruz main campus, on the south side of McLaughlin Drive, a main east-west campus road.	NOD	
2007062103	Highway 49 Widening at La Barr Meadows Caltrans #3 Grass Valley--Nevada This project will construct roadway improvements on a portion of State Route 49.	NOD	
2007092088	Callan Rezone and Lot Merger Half Moon Bay, City of Half Moon Bay--San Mateo The project is to rezone approximately 35,143 square feet (0.80-acre) site from the existing Single-Family Residential (R-1-B-2) zoning designation to a Single-Family Residential (R-1-B-1) zoning designation. In order to be consistent with the new R-1-B-1 zoning designation and its development standards, the nine contiguous lots will be merged into four standard-sized lots for the future development of four single-family residences. The proposed project will not change the existing Local Coastal Program/Land Use Plan (Residential-Medium Density) which designates areas that are already partially developed and that have potential for in-fill development at densities comparable to those already existing. The project is within the Coastal Appeal Zone and thus is appealable to the California Coastal Commission upon exhaustion of all local appeals. City File: PDP-013-06.	NOD	
2007112007	Concrete and Asphalt Recycling Facility Project Half Moon Bay, City of Half Moon Bay--San Mateo The project is the amendment of an existing Coastal Development Permit/Conditional Use Permit (#08-00) to include crushing and recycling of concrete, asphalt and rock at the existing Resource Recycling Center in Half Moon Bay.	NOD

	support the widened D Street northbound exit ramp and auxiliary lane. Two northbound soundwalls and new and replacement landscaping are also included in the project.		
2008011063	US-395 Widening to Install Rumble Strips on Median and Outside Shoulders Caltrans #8 Adelanto--San Bernardino The California Department of Transportation (Caltrans) proposes to widen the existing roadbed to accommodate the installation of rumble strips on the 7.9 ft (2.40 m) outside paved shoulders and a 3.9 ft (1.2 m) median buffer. In addition, roadway resurfacing is proposed in both directions and the following intersections will be paved to accommodate the new width of the US-395: Colusa Road, Desert Flower Road, Purple Sage Street, Shadow Mountain Avenue, Sun Hill Ranch and Princess Pat Mine. The proposed project would require right of way acquisition and utility relocation.	MND	02/19/2008
2008011068	Blythe Animal Shelter Riverside County Blythe--Riverside The County of Riverside Department of Facilities Management Riverside has proposed the development of the Blythe Animal Shelter facility within the City of Blythe. The County proposes to purchase one parcel of land consisting of 2.22 acres located at the northwest corner of I-10 and South Carlton Avenue for the proposed project site. The animal shelter would be a modular facility designed and constructed off-site and then assembled on the project site. The facility would include approximately 4,500 square feet of building space, animal outdoor exercise facilities, and associated parking. The proposed project would provide shelter and care for abandoned animals in the Palo Verde Valley region, and would include dog and cat kennels, outdoor animal runs, public adoption areas, and visitor parking.	MND	02/19/2008
2007071038	State Route 74 Lower Ortega Highway Widening Caltrans #12 San Juan Capistrano--Orange Each of the Build Alternatives proposes improvements to the existing two lanes of SR-74 to improve traffic flow. The project will add an additional travel lane in each direction for a total of four lanes. The project limits are from Calle Entradero (PM 1.0/KP 1.7) to the City of San Juan Capistrano/Orange County line (PM 1.9/KP 3.0), a distance of approximately 0.9 mile. The proposed additional lanes, shoulders, median, drainages, driveways, and sidewalks have been developed consistent with the standards in Caltrans Highway Design Manual.	NOP	02/19/2008

2008011064	South Selma Specific Plan Selma, City of Selma--Fresno The project site is immediately adjacent to the southern boundary of the City of Selma. State Highway 99 and the Golden State Boulevard bisect the project at a north-west/south-east diagonal along the eastern portion of the site. The South Selma Specific Plan is a proposed 2,650 acre master planned community that will include up to 6,821 dwelling units, up to 4,068,172 square feet of commercial, 2,325,287 square feet of mixed use, 4,077,217 square feet of industrial and business park uses, 125,000 square feet of neighborhood commercial and community facilities, and 240 acres of parks, trails, and open space. Development consistent with the Specific Plan will include housing, recreation, education, employment, and shopping.	NOP	02/19/2008
2008011066	Beverly Hills Gateway Project Beverly Hills, City of Beverly Hills--Los Angeles The project involves the proposed rezoning of three parcels of former railroad right-of-way property from Transportation (T-1) to Commercial (C-3); General Plan land use redesignations from Railroad to Low Density General Commercial are also proposed. In addition to the proposed rezones and General Plan redesignations for all three parcels, development of three-story, 42-foot high, approximately 90,000 square foot commercial/office building with a three-level subterranean garage accommodating 274 parking spaces is proposed for the Wilco property, at 9844 Wilshire Boulevard (APN: 4328-001-001, -002, -003 and -024).	NOP	02/19/2008
2008011069	The Ripcurl Project Huntington Beach, City of Huntington Beach--Orange The proposed project is a mixed-use residential and commercial development that would consist of four levels of housing over three levels of parking (one level of parking below grade and one level of parking above grade); the retail component would be located on the ground level adjacent to the two levels of above grade parking. A mezzanine level would also be located on the roof. Overall, the project would be six stories in height and consist of approximately 440 residential units and up to 10,000 square feet (sf) of retail uses. The total project floor area, excluding parking and basement area, would be approximately 382,700 sf.	NOP	02/19/2008
2008012067	South Shore Fuel Reduction and Healty Forest Restoration EIS/EIR Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado Reduction of hazardous fuels & restoration of healthy forest conditions on approximately 12,500 acres within the South Shore area of LTBMU, extending from the SE shore of Cascade Lake eastward to the States of California and Nevada border and extending from the S Shore of Lake Tahoe southward to include the CA State Highway 89 corridor. Reduction of hazardous fuels will be accomplished by thinning to remove ladder fuels and reduce over-crowding, removal of excessive fuels on the ground, mastication, chipping, & prescribed burning. Restoration of healthy forest conditions will be accomplished by removal of conifer encroachment from meadows and aspen stands, retention of Jeffrey and Sugar Pine species, and thinning to improve resistance to crown fire, drought,	NOP	02/19/2008

	insects, and disease.		
2008012069	Heritage Falls Rancho Cordova, City of --Sacramento The project applicant has requested a rezone to change the project site's zoning designation from AG-80 (Agricultural) and IR (Industrial Reserve) to Residential and Public/Open Space designations. The applicant has also requested approval of a tentative subdivision map (TSM). Additionally, the proposed project requires City approval of a special development permit, a design review, and development agreement. The entire project site is approximately 237.8 acres in size, the entirety of which would be developed by the proposed project. Morrison Creek, which traverses the project site from northeast to west, would be realigned to flow within a channelized creek parkway throughout the project site. The proposed rezone would result in 177.9 acres of residential zoning and 52.9 acres of public/open space. The residential portion of the proposed project would include 206 conventional single-family dwellings, 622 active adult (age restricted) single-family dwellings, 132 active adult (age restricted) multi-family units, a 5.5-acre elementary school site, and pedestrian paseos. The public/open space portion of the site would include five private parks, a recreation center for the residents of the active adult area, a public park, a detention basin, and a creek parkway crossing the project site from the northeast to the southwest.	NOP	02/19/2008
2008011061	Conditional Use Permit R2005-01789-(5) Los Angeles County Department of Regional Planning Los Angeles, City of, Santa Clarita--Los Angeles A request to authorize an existing group home to house 24 adolescent residents, an increase from the currently permitted 6 residents. The existing group home is for adolescents with drug, alcohol and mental health related problems. The existing facility is on a 10.43 acre parcel that is developed with four residential structures, a school house (assembly room), three sheds, basketball court and swimming pool. The proposal is to convert three of the existing vacant structures into three additional residential dwelling units to accommodate the increased capacity. The existing structure that is currently housing 6 adolescents will be used to house 14 adolescents. The facility has been in operation for approximately two years and proposes to provide one staff per every six adolescents per shift. A facility is proposing a total of 29 parking spaces to accommodate the increased capacity of adolescents staying at the facility. No construction work is being proposed for this project.	Neg	02/19/2008
2008011065	Olive Hill Well No. 1 Health Services, Department of --Santa Barbara The project is the installation of a new water supply well. The new well will replace lost capacity resulting from losing the production of Evergreen Well #2.	Neg	02/19/2008
2008011067	Test Well No. 10 Idyllwild Water District --Riverside Recent drought conditions have reduced the well production such that the District has determined it is necessary to locate additional well sites to maintain adequate public water supplies. To identify locations for new wells that have the greatest potential to produce significant quantities of water without interfering with existing wells, the District evaluated geologic literature and the mapping of sedimentary	Neg	02/19/2008

	materials in the area. The District also had an electro-seismic survey, or National Water Survey (NWS), conducted at the proposed test well site. Based on the data obtained from the field NWS and the literature review, including geological comparisons and the known yield of existing wells, the proposed test well site for Test Well No. 10 was selected.		
2008012068	Laurel Plaza Oakley, City of Oakley--Contra Costa The proposed project includes the subdivision of 7.01-acres into five lots for the development of 56,020 square feet of commercial uses, and a rezone from Neighborhood Business (NB) to Retail Business (RB).	Neg	02/19/2008
1997061005	Section 14 Master Development Plan/Specific Plan Palm Springs, City of Palm Springs--Riverside The City of Palm Springs has determined that a Supplemental EIR (SEIR) that "supplements" and bolsters the 2004 Final EIR/EIS's analysis of water resources impacts is the appropriate mechanism to address and resolve any lingering uncertainty surrounding the ability of the local water purveyor to serve future development projects within Section 14.	SIR	03/03/2008
2002032048	Port of Stockton West Complex Development Plan Stockton, Port of Stockton--San Joaquin YARA North America, Inc. (YARA) proposes to relocate and expand their existing dry fertilizer bulk storage and distribution operations. The proposed project would construct a new distribution facility within the West Complex of the Port of Stockton. The 8.01 acre project site is currently developed with Buildings 213 and 312 and a paved area north of Building 213. The project would construct a new warehouse in the paved area north of Building 213. YARA would also lease and utilize Buildings 213 and 312 for its operations.	NOD	
2003111048	San Juan Highway Bike Way Project San Benito County Governments San Juan Bautista--San Benito The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Council of San Benito County Governments. The applicant proposes to install a 3-foot extension to the existing 48-foot wide, 5-foot span by 2-foot rise, concrete box culvert to support a 6-foot wide southbound bike lane.	NOD	
2006102081	Brooktrails Rubber Spillway Dam Project Brooktrails Community Service District --Mendocino The purpose of the proposed project is to restore the storage capacity lost (52 acre-feet) due to siltation at Lake Emily. Brooktrails proposed project would replace the existing wooden flashboards by installing inflatable gates, thereby increasing the maximum water level in Lake Emily by three feet. The spillway gate will be 48 feet wide and the structure will include a base slab, 15 foot high concrete cutoff walls, and airbladders to operate the steel gate panels. Installation would be done when the lake water level is eight feet below the spillway. The proposal includes the installation of berm at the dam toe and construction of a small dam control building. The dam would be reinforced at its southwest corner	NOD

	with the addition of an earthen berm to support the foundation and to increase the dam integrity. The berm will have a 225 foot long blanket drain that varies in elevation. Compacted earth and fill material from a borrow area adjacent to the dam will be used in constructing the berm. The earthen berm will fill in 0.04 acre of wetland located at the base of the dam. A 10 foot by 15 foot control building will be constructed near the spillway and may contain an office area.		
2007021090	Iris Canyon Creek Reparation Monterey, City of Monterey--Monterey The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, the City of Monterey, represented by Andreas Baer, for its Iris Canyon Creek Restoration. The applicant proposes to install a series of five grade control log-drop structures; grade the stream banks to a reduced slope; install earth-retaining systems and rock slope protection to prevent Monterey pines from being undercut by failing banks. The project will also require the removal of up to 31 Coast live oak trees with diameter at breast height (DBH) of between 3 to 14 inches. Restoration will include planting the exposed slopes with native trees and shrubs, and compensating for removed oak trees.	NOD	
2007081082	Lampson Avenue Well Project Seal Beach, City of Seal Beach--Orange The City currently has three active wells with a total capacity of 8,000 gallons per minute. Should one of the three wells require maintenance or be out of service, the local supply capacity may be as low as 4,800 gallons per minute. This closely matches the maximum day demand of 4,773 gallons per minute. With the addition of the Lampson Avenue Well, anticipated to have a pumping capacity between 4,000 and 5,000 gallons per minute, the City will have local supplies that can meet the system's maximum daily demand in the situation when not all wells are available for use. Additionally, most of the water supplied to the College Park East area is provided by the Bolsa Chica Well facility. If this facility were to be out of service, the College Park East area of the City would be without adequate fire flow capacity. With the completion of the well, the City will have a sufficient, firm source of local supply capacity, and enhance the fire flow capacity in the northerly portions of the City's system.	NOD	
2007082059	Site Acquisition and Construction of Terrace Park Elementary School Rio Linda Union School District Sacramento--Sacramento The RLUSD is proposing a new elementary school at the 15.51-acre property identified by Sacramento County APNs 201-0300-100, 102, 103. The project will consist of a proposed 10 +/- acre school site and proposed 5 +/- acre joint-use park site. The site is located northwest of the intersection of Greg Thatch Circle and Tres Piezas Drive in Sacramento. Presently the site is level, unoccupied and covered with grass. The site contains no special or unique geological features. The areas around the site (school and park) are neighborhood streets and recently built single-family residences. The total school enrollment will be about 613 students (K through 6); typical school buildings and uses will include classrooms, administrative buildings, multi-use building/kitchen, library, parking (for teachers and staff, visitors), internal circulation roads, playgrounds, and landscaping.	NOD

2008011077	Proposed Amended Rule (PAR) 461 - Gasoline Transfer and Dispensing South Coast Air Quality Management District -- The objective of PAR 461 is to assure the timely implementation of California Air Resources Board (CARB) Phase II Enhanced Vapor Recovery (EVR) regulation in all gasoline dispensing facilities (GDFs) in the district on or before CARB's deadline, April 1, 2009. PAR 461 also enhances rule clarity and enforceability in several areas including contractor certification, approved tester accountability, and compliance testing.	EA	02/20/2008
2006021100	Affordable Housing Ordinances San Luis Obispo County --San Luis Obispo The proposed project consists of three sets of Affordable Housing Ordinances that implement three respective programs from the San Luis Obispo County General Plan Housing Element (amended July 20, 2004). The housing programs encourage affordable housing production and retention of the County's affordable housing stock to address an identified area-wide shortage of affordable housing. These Housing Element programs include: - Program HE 1.4: Revised Residential Development Standards - Program HE 1.9: Require Development of Affordable Housing - Program HE 1.10: Establish Minimum Residential Multi-Family Densities. The proposed ordinances would address residential development standards, inclusionary housing, and minimum density requirements for selected residential multi-family zoned parcels.	EIR	03/19/2008
2007102112	Richards Boulevard Redevelopment Plan Amendment and the Railyards Redevelopment Plan Sacramento, City of Sacramento--Sacramento The proposed project is the amendment of the Richards Boulevard Redevelopment Plan and the adoption of a Railyards Redevelopment Plan. The Railyards portion of the existing Project Area will be established as a separate redevelopment project area (Railyards Project Area). To accomplish this, the existing Redevelopment Plan for the Richards Boulevard Redevelopment Project would need to be amended to delete the Railyards Area from within that project area's boundaries (Amended Project Area) and a new Redevelopment Plan for the Railyards Redevelopment Project would need to be adopted. In addition, the Amendment will change the name of the Richards Boulevard Redevelopment Project Area (Richards Project Area) to the River District Redevelopment Project Area. The existing Richards Project Area is located within the boundaries of the City of Sacramento, California. The Amended Richards (River District) Project Area would consist of approximately 738 acres located south of the American River, east of the Sacramento River, and just north of the Central City. The Railyards Project Area would encompass approximately 300 acres, generally bounded by the Sacramento River on the west, North B Street on the north and I street on the south. The eastern boundary varies between 7th Street and 12th Street. The principal purposes to be accomplished by establishing the Railyards Project	EIR	03/06/2008

<u>Documents Received on Tuesday, January 22, 2008</u>			
	options are on the easterly side of Cave Creek, thus the first crossing is likely needed. (2) Should the prototype prove successful it could be proposed as a long-term solution to improve water quality for the existing crossings on the present road alignment, 3) it is likely to be needed whether or not the road is realigned in the future. The proposed prototype vented low water crossing will replace the water ford at MP 6.17 with a 20' wide x 4' high x 60' long pre-manufactured bottomless concrete arch structure designed to allow anadromous fish passage at all life stages and pass stream bed material using natural streambed geomorphology. The proposed structure will also be designed to accommodate the 10-year, or 10% probability storm event without overtopping, and pass the 100-year storm event, 1% probability of occurrence, without structural damage.		
2007021054	Aerie (PA2005-196) Newport Beach, City of Corona, Del Mar--Orange Demolition of a 14-unit apartment building and a single family residence to facilitate the construction of a 6-level, 8-unit condominium project (approximately 75,000 gross square feet), grading, and apurtenant structures.	MND	02/20/2008
2008011070	Bonsall Subdivision; TM 5427RPL^2, R05-006, S05-026, S05-027, Log. No. 05-02-013 San Diego County Department of Planning and Land Use --San Diego The project proposes a Tentative Map to subdivide a 55.9-acre property into two lots in the Bonsall Community Planning area. One lot (8.6 acres in size) will accommodate 76 condominium units. This portion of the subject property is zoned RV8 (Variable Family) Use Regulation and is subject to the (7) Residential General Plan Designation, which currently allows 10.9 dwelling units per acre. The current zoning and the current General Plan do not match. Therefore, a Rezone is proposed to change the zoning from RV8 to RV11. The proposed Condominium units will be accessed by private roads off of Camino del Cielo, which is an improved public road. The remaining 47.3 acres will be retained for open space which will be retained for open space which will include public trails. The project also proposes three concurrent Site Plans; S05-050 is a Vesting Site Plan required when an associated Vesting Tentative Map is proposed; S05-026 is required by the "B" Special Area Designator to comply with the Bonsall Design Review Guidelines for the Condominium Lot; S05-027 is required to establish the setbacks pursuant to the Variable "V" Setback Designator.	MND	02/20/2008
2008011075	Proposed Vesting Tentative Tract PLN07-00103 (18487) Victorville, City of Victorville--San Bernardino To allow for the development of a 60-lot single-family residential subdivision and 1 remainder commercial lot.	MND	02/20/2008
2008011081	Lazer Broadcasting at Dolcini Ranch Santa Barbara County Guadalupe--Santa Barbara Lazer Broadcasting proposes to construct and operate an unmanned broadcast facility on the Dolcini Ranch. The proposed facility would be contained in a 2,014 sq. ft. lease area consisting of a 100 ft. lattice tower with one (1) 4-bay half wave FM antenna, one (1) 4-ft. diameter microwave dish antenna, an equipment shelter, and a backup diesel generator for emergency use. 2008011085	Riviera Drive Water Service Improvements Blythe, City of Blythe--Riverside The City of Blythe is proposing a water system improvement project which will consist of several components, including water lines extending from the corner of East Hobsonway and Blue Ridge Road to the southern terminus of North Riviera Drive, a new 750,000 gallon steel water tank and booster pump, water service for existing homes and business, and installation of meters and meter boxes.	MND	02/20/2008
2008012073	Dunn Subdivision Fortuna, City of Fortuna--Humboldt Planned development subdivision of a 3.5 acre parcel into 14 single-family lots, ranging in size from 6,002 to 11,999 square feet, and 2 commercial lots, 9,771 and 11,115 square feet each.	MND	02/20/2008
2008012079	In-Situ Groundwater Treatment, Former Remco Hydraulics Facility, 934 South Main Street, Willits, California Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Willits--Mendocino The Willits Environmental Remediation Trust (WERT) is proposing to conduct interim remediation activities, specifically to treat groundwater in-place (in-situ) that is contaminated primarily with volatile organic compounds (VOCs) using a pesticide-free food grade molasses and yeast. The project, called an interim remedial action (IRA), is detailed in documents titled: Interim Remedial Action Work Plan for In-Situ Treatment of VOCs in Shallow Groundwater dated November 2007; which was submitted for the Regional Water Board's consideration of Waste Discharge Requirements under applicant's Report of Waste Discharge (ROWD). The IRA has identified four initial areas for molasses injections, and additional injections to other areas of the site. This document analyzes impacts from similar injections within the entire site area in contemplation of the need for additional injections that will be authorized under the waste discharge requirements.	MND	02/21/2008
2008011078	Central Region Glassell Park Early Education Center and Affordable Housing Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project is the construction and operation of a combined use development, the Central Region Glassell Park Early Education Center (EEC) and Affordable Housing project. The proposed project includes an approximately 13,322 square foot Early Education Center with an additional 13,125 square feet of play area and approximately 45 affordable housing units on a 1.35 acre site. The proposed EEC would provide 175 year-round seats for pre-Kindergarten students in seven classrooms. The proposed EEC complex would also include administrative space within the one-story classroom building.	NOP	02/20/2008

2008011082	Ivyglen Project Public Utilities Commission Lake Elsinore--Riverside Lead agency proposes to construct, operate, and maintain a new 115 kV subtransmission line to connect the existing SCE Valley and Ivyglen Substations, and to construct a new Fogarty Substation to provide additional electrical services to the City of Lake Elsinore area (proposed project). The proposed project also includes constructing improvements at the Valley and Ivyglen Substations to accommodate the proposed subtransmission line, tie-ins between the new Fogarty Substation and existing subtransmission and telecommunications lines, installation of a new telecommunications line between Valley and Ivyglen Substations, transfer of distribution facilities, and stockpiling and/or disposal of old electrical distribution line poles.	NOP	02/20/2008
2008011083	East Main Street & Pepper Drive Project El Cajon, City of El Cajon--San Diego The proposed development would consist of a maximum of 66,000 square feet of multi-tenant commercial space in six buildings ranging in size from 3,500 to 20,000 square feet.	NOP	02/20/2008
2008011084	16752 Armstrong Avenue Office Complex EIR Irvine, City of Irvine--Orange The proposed project consists of the redevelopment of a 6.43 acre site located on Armstrong Avenue with two multi-story office buildings totaling 133,250 square feet. The 93,476 square foot vacant building currently on the site would be demolished.	NOP	02/20/2008
2008012075	UCSF Medical Center at Mission Bay University of California, San Francisco San Francisco--San Francisco To comply with SB 1953, UCSF proposes to construct new clinical facilities at Mission Bay. The project was described and analyzed at the program level in the March 2005 Long Range Development Plan (LRDP) Amendment #2 - Hospital Replacement EIR. UCSF has since selected the Mission Bay "South" site and is proceeding with the first phase (the LRDP Phase) of design for 289 beds and associated clinical facilities on the 14.5-acre "South" parcel. Construction would include three integrated specialty hospitals for Children, Women and Cancer, as well as medical office (outpatient) space, support space, logistic/services, a medical helipad, parking and landscaping. The Future Phase of the UCSF Medical Center at Mission Bay would develop the remaining acreage on the site with and additional 261 beds (for a total of 550 beds), associated medical office space and logistics/services. At buildout the site would contain a total of about 1,787,000 gsf. The project would also provide structured parking with up to 2,000 spaces.	NOP	02/20/2008

	lot subdivision with the required Conditional Use Permit application.		
	Two commercial parcels are proposed on Oakmont Drive, on either side of Stone Bridge Road. Lot 36 is 0.76 acre and Lot 38 is approximately 175 acres. The multi-family parcel, proposed Lot 37, is approximately 1.61 acres and is accessed from Stone Bridge Road, directly across from the small lot subdivision.		
2007112025	Big Lagoon Park Company Coastal Development Permit and Special Permit (CDP-06-83/SP-06-91) Humboldt County Community Development Services Trinidad--Humboldt A Coastal Development Permit and Special Permit for major vegetation removal in the Coastal Zone. The applicants propose to remove approximately 43 trees (40 Sitka spruce, 1 red alder, 2 cypress) within the Big Lagoon Park Company land. Big Lagoon Park consists of approximately 78 individual residences within a common parcel. The trees are all within the general vicinity of cabins, water lines, and the water tank, and have been deemed by a Registered Professional Forester to be diseased or dangerous. The construction of a 10,500 gallon reinforced concrete water tank is also proposed. The tank will be approximately 14 feet in diameter and approximately 14 feet high. There is an existing redwood water tank that will be left in place and used for storing water for emergencies. No other development is proposed. Approximately 30 cubic yards of fill will be required for the pad of the new water tank. The parcel is served by community water and on site septic systems.	NOD	
2007112046	North Ravine Estates (PSUB T20060791) Placer County Planning Department Auburn--Placer Propose to subdivide a 11.7-acre parcel into 11 custom home sites, ranging from 0.07 to 0.88 acres, an open space to preserve the area.	NOD	
2008018150	Lassen County Selling a Parcel Caltrans #2 --Lassen The project proposes to sell a parcel of land owned by the Department of Transportation (Caltrans) to Lassen County, APN #440-02-02. This parcel is located at the intersection of State Route 36 (Main Street) / Fair Grounds Road intersection in Susanville, P.M. 26.22, and had previously been part of the operation right of way. This parcel is landscaped and maintained by Caltrans Maintenance Department in Susanville.	NOE	
2008018151	Safety Improvement Caltrans #2 --Shasta Caltrans proposes to improve safety by widening the eastbound shoulder to eight feet. The current width of the EB shoulder varies from zero to four feet. The F+1 accident rate at this location is double the statewide average. The large pullout just east of the private residence driveway will be used as an equipment staging area and material disposal site. No permits will be needed.	NOE

2007041060	Cypress Street Reservoir Project Lomita, City of Lomita, Rolling Hills Estates--Los Angeles The proposed project consists of replacing the existing Cypress Street Reservoir with a larger capacity reservoir, and developing a water treatment facility to utilize the City's existing Well No. 5. The proposed water facilities would serve Zone I of the City of Lomita (portion of Lomita northerly of Pacific Coast Highway), and would provide a backup source to the water service zones south of Pacific Coast Highway. The existing Cypress Street Reservoir, which is operated by the City of Lomita's Water System, has been in continuous use as a reservoir since about 1929. This reservoir is a concrete-style, rectangular tank constructed in two parts with a total capacity of about 1,000,000 gallons. The operational capacity of the reservoir was reduced to about 265,000 gallons in 1970, due to decreasing structural integrity. The proposed project would demolish the existing reservoir and replace it with an approximately 5-million gallon concrete tank reservoir.	EIR	03/07/2008

2005012076	Natomas Landing Sacramento, City of Sacramento--Sacramento The project consists of employment center, commercial, and freeway buffer uses. Employment center uses include office, educational, support retail, or other uses allowed within an employment center zone. The commercial use area includes a combination of larger, nationally known retail uses and pedestrian-scaled village-like retail uses. A freeway buffer would include landscaping and a multi-use trail.	FIN	
2006082008	Pott Timber Harvest and Vineyard Conversion Forestry and Fire Protection, Department of Yountville--Napa A 6.4 acre vineyard and 11.6 acre timber harvest is proposed on 76 acres. The timber harvest proposes a 2.6 acre D-Fir Xmas tree farm and 9 acres selection harvest. Previously a plum orchard, the area has returned to forest and requires a THP and TCP. Recirculated because of new potentially significant effects associated with a change in access to the property. Original MND and THP included on attached CD.	MND	02/21/2008
2006122022	Use Permit Application No. 2006-37 - Grover Landscape Services Stanislaus County --Stanislaus Request to expand an existing composting business (established in 1999) by adding an additional 50 acres of land, consisting largely of an old runway. Grover Landscape is presently on a 63 acre portion of this 123.54 acre parcel. The 50 acre paved runway area is very desirable for composting because it provides an all weather surface that can be used during the summer and winter months.	MND	02/21/2008
2008012085	OCSD Water Service Zone Expansion Occidental Community Services District --Sonoma The project would extend Service Zone 1 to the four parcels owned by the CYO Camp and would serve two adjacent parcels that are developed and need reliable water as well as one other discontinuous parcel that is currently served. Incorporation of the parcels into the service zone would not result in any physical changes. A new OCSD water service zone map would be recorded upon OCSD approval to document the new water service area. The project would include the intertie of the OCSD water distribution system to the CYO Camp distribution system. The intertie would be approximately 600 feet of six-inch main from the existing OCSD main in Bohemian Highway to the existing CYO Camp distribution system. Trenching for the water main intertie would be within an existing roadway.	MND	02/21/2008
2008012084	Public Safety Driver Training Center Project San Jose, City of San Jose--Santa Clara The project proposes the development of a Driver Training Center (DTC) on the property. A DTC is a live track instructional driving facility. The facility will be used primarily for teaching defensive and emergency driving techniques to public safety agencies. The DTC will also provide driver safety classes for members of the public who will pay for the classes. The DTC will be operated and maintained by the San Jose Police Department. The proposed DTC will include the following components: a city street grid, collision avoidance strip, skid pad, classroom buildings, vehicle storage carport, surface parking lot, and operational and security	NOP	02/21/2008

	lighting. Training activities will begin at 7:00 am and end at 10:00 pm, Monday through Sunday with most operations occurring from 7:00 am to 5:00 pm, Monday through Saturday.		
2008011086	District Support Services Complex Development Plan and Zone Change Snowline Joint Unified School District --San Bernardino The project is a centralized support services complex that would house various District departments and amenities. The complex would include one main building and three smaller portable buildings, totaling approximately 44,862 square feet of building space. The main 29,662-square-foot building would house the District's central kitchen, food services department, purchasing department, reprographics department, and a 14,680-square-foot warehouse.	Neg	02/21/2008
2008011087	Monterey County Govt. Center Parking Structure Monterey County Public Works Department Salinas--Monterey The MCGC Parking Structure project would be located on an existing surface parking lot off of West Alisal Street, between Cayuga and Capitol Streets. The project proposes a multi-level parking structure consisting of up to 550 parking spaces on 5 levels, plus a 3/4 underground level. The structural footprint would be approximately 35,000 square feet, constructed on a 43,400 square foot parcel, with a structural height of up to 57 feet. The parking structure would be for County and Court employees and contractor use only. There would be no public access or parking for jurors or visitors.	Neg	02/21/2008
2008012080	233 West Edith - 07-SD-03 Los Altos, City of Los Altos--Santa Clara The project includes a tentative map application to subdivide the property at 233 West Edith Avenue into three parcels. The proposed subdivision would divide an existing 41,647 square foot parcel into three parcels of 11,065 square feet, 10,962 square feet, and 10,980 square feet, with a private street cul-de-sac of 7,155 square feet and a right-of-way dedication to the City of 1,485 square feet. The project includes the demolition of all existing structures on the property, including the main residence that is listed in the City's Historic Resources Inventory.	Neg	02/21/2008
2008012081	Petersen Final Map Subdivision Humboldt County Community Development Services --Humboldt A Major Subdivision of an approximately one acre parcel into 6 parcels of approximately 6,747 square feet each. The Final Map will be recorded in two phases. Phase 1 will consist of lots 1-3 and Phase 2 will consist of lots 4-6 which will be recorded separately. An exception to the solar shading requirements is requested. All parcels will be served with water and sewer by McKinleyville Community Services District.	Neg	02/21/2008
2008012082	Machado Use Permit and Tentative Parcel Map Sacramento County Isleton--Sacramento 1. A Tentative Parcel Map to divide 370 acres into four lots and a designated remainder on property zoned AG-80(F) and Lower Andrus Island Special Planning Area. 2. A Conditional Use Permit to allow single family residences on lots created after March 10, 1993.	Neg	02/21/2008

2008011097	General Permit for Site-wide Groundwater Remediation Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --San Bernardino PG&E proposes to implement various groundwater remediation methods to clean up hexavalent chromium in the aquifer. The remedial actions include (1) groundwater extraction and management and (2) in-situ remediation using injected reagents.	MND	02/22/2008
2008011091	Paseo de la Playa - 101 Garden Street, 222 Santa Brabara Street and 301 E. Yanonali Street Santa Barbara, City of Santa Barbara--Santa Barbara The project would result in the redevelopment of three distinct sites located between Highway 101 and the Waterfront, in the East Beach neighborhood of the City of Santa Barbara, resulting in a total of 108 residential units and 44,558 square feet (net) of commercial/office development. Anticipated uses in the commercial development include a market, restaurant, mini-storage and service commercial uses.	NOP	02/22/2008
2008011092	Colton Lee Manufactured Housing Community, GPA/ZN/CUP Case Nos. GP05-0009/ZN05-0012, LU05-0121 Ventura County Simi Valley--Ventura The project consists of a General Plan Amendment, Zone Chnage, and Conditional Use Permit in order to develop a 100-dwelling unit, leasehold manufactured housing community. The proposed land use/zoning designation would be "RPD-5.14 du/ac".	NOP	02/22/2008
2008011088	Martin Metals Finishing and Chemical Technology Labs Toxic Substances Control, Department of Lynwood--Los Angeles Draft Amended Closure Plan for the Martin Metal Finishing and Chemical Technology Labs facility.	Neg	03/03/2008
2008011090	Altadena Community Standards District Amendment Los Angeles County Department of Regional Planning --Los Angeles The project consists of a Community Standards District (CSD) zoning ordinance amendment. The objective of the CSD amendment, which would establish additional development standards and design guidelines for R-2 (Two-Family Residence) and R-3 (Limited Multiple Residence) zoned properties within Altadena, is to ensure that future residential developments are compatible with the community's existing development pattern as well as the goals, objectives, and policies of the Altadena Community Plan. Policies specifically address structure height, building, stepback, and landscaping. This is not a development project nor does it propose additional development beyond what is currently allowed under the existing Altadena Community Plan and zoning ordinance.	Neg	02/22/2008

2008011094	<p>South Tulare No. 19, Annexation No. 2007-01 and Zone Amendment No. 663 Tulare, City of Tulare--Tulare</p> <p>Project consists of annexation of 965 acres and pre-zoning to C-4 (service commercial) and C-3 MU (retail commercial- mixed use). Future development would include a super speedway 1-mile D-shaped oval racetrack and drag strip. Both facilities will be surrounded by grandstands and sky boxes with a potential seating capacity of approximately 50,000 spectators for the super speedway track and approximately 40,000 for the drag strip. Penthouse condominiums will also be constructed above the grandstands for maximum comfort and viewing opportunities. Race support facilities will include fuel storage, 50 space garage, multi-story mini storage, medical center and helipad. A law enforcement training center will be constructed onsite in addition to a City of Tulare police substation and fire station, which will provide service to the site and surrounding area. The site will also be developed with a mix of commercial uses including offices, restaurants, gas station, convenience stores, convention center, movie theater, and agri-business technology park, resort hotels and a luxury RV park. Additional recreational activities will include exercise facilities, and amusement park designed for all ages, and a 35-acre lake with boat docks providing fishing opportunities. The lake will provide a focal point for large retail anchors. A ponding basin will also be constructed for storm water retention. Parking will be provided by 13 surface parking lots. The project designs are pedestrian friendly and will include a low speed tram system to aid in patron circulation.</p>	Neg	02/22/2008
2008011095	<p>Fire Station #71 Modernization Project Fontana, City of Fontana--San Bernardino</p> <p>The existing Fire Station #71 was originally built in 1929, and remodeled in the 1930s. It is the oldest, smallest and busiest Fire Station in the City of Fontana, and no longer meets the fire protection and safety needs of the City. The current site is limited to less than 0.4 acres in size (16,400 square feet). The site lacks adequate fire truck circulation, driveways, parking and garage area. The seventy-year old construction materials and building methods do not meet current seismic safety standards. The Fire Station offices and living quarters are located in the original, 1929 building, and are in poor condition. The 1950s era rear garage and storage area is inefficient and unsafe. It needs to be expanded and modernized to provide adequate fire protection services to the central part of the City.</p>	Neg	02/22/2008
2008012086	<p>Sulphur Creek Bank Stabilization Demonstration Plumas County Planning & Building Services --Plumas</p> <p>Stabilization of eroding stream bank through laying approximately 500 feet of the banks back to a slope of 1:1. A slope toe and floodplain bench would be built on 200 feet of over-steepened slopes. Seven boulder vanes would be installed to direct flow away from the newly sloped banks, into the center of the channel. All disturbed cut and fill areas would be planted with local native shrubs and seeds.</p>	Neg	02/22/2008
2008012087	<p>Boulder Creek Restoration Project Plumas County Planning & Building Services --Plumas</p> <p>Boulder Creek Restoration Project seeks to restore approximately 2,982 feet of channel and floodplain using geomorphic techniques to raise the base level of the channel.</p>	Neg	02/22/2008

	pedestrians, bicyclists, and motorists as well as to improve drainage and control stormwater runoff.		
2007122057	KDC-HPB Investments - Vacaville Intelli-Center Vacaville, City of Vacaville--Solano Koll Development Co. proposes construction of a 159,000 sf, 3-story office building with landscaping and parking for ~852 vehicles on ~12 acres located on Grassland Drive and adjacent to I-505.	NOD	
2008018192	Miwok Road Removal and Road-to-Trail Conversion Parks and Recreation, Department of --Marin At China Camp State Park, remove approximately 3,027 linear feet of the Miwok Fire Road. Restore roadbed to natural conditions using heavy equipment to move soil from road embankment back to roadbed, fill erosion gullies, and re-contour roadbed back to match surrounding topography. In addition, convert 1,591 linear feet of roadbed to a park trail using soil from road embankment to fill erosion gullies and prepare new trail surface. Use groundcover and shrubs removed from work adjacent the roadbed as mulch to cover bare soil on the project site. The road-to-trail conversion portion will be multi-use allowing hikers, equestrians, and bicyclists in order to maintain the connection between the Oak Ridge and Bay View multi-use trails. Equipment staging and other project related activities will not occur along the first 230 feet of Miwok Road. Best Management Practices will be used during construction activities and incorporated in the project design to control erosion and sediment runoff. In the event that previously undocumented cultural resources are encountered during project construction, work will cease within 30 feet of the location of the find until a DPR-qualified archaeologist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s).	NOE	
2008018193	Re-route Rhododendron Trail Parks and Recreation, Department of --Humboldt Re-route approximately 500 feet of the Rhododendron Trail halfway between the junction of Brown Creek Trail and South Fork Trail in Prairie Creek Redwoods State Park. Re-shape existing trail section to original, natural contours, re-vegetate with native plants from the new alignment, and close existing section. Build and outslope new trail section to provide proper drainage using construction crews with hand tools. New section will restore public access lost when several giant redwoods fell across trail, and will reduce erosion caused by unofficial, volunteer trails circumventing the fallen trees. Best Management Practices (BMPs) will be in place during all work, to prevent potential erosion, sedimentation, or pollution. Work will be performed outside of the breeding season for the northern spotted owl and marbled murrelet. In the event that previously undocumented cultural resources are encountered during project-related activities, all work within 30 feet (i.e., 10 meters) of the find will be temporarily suspended until a DPR-qualified archaeologist has evaluated the find. 2008018194	California Department of Transportation - Little Grass Valley Creek Culvert Repair Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity The project involves filling voids beneath the existing culvert invert with grout, paving the invert with an eight-inch thick layer of concrete, constructing a headwall at the culvert inlet, installing rock slope protection (RSP) around the inlet, and removing select steel members of the existing debris catcher. Heavy equipment, such as backhoes and concrete pumping trucks, will be operated from temporary access roads that will terminate above the stream banks. A temporary sandbag diversion dam will be installed at a natural bottleneck in the stream located approximately 30 feet upstream of the culvert inlet. A temporary containment dam will be installed approximately 10 feet downstream of the culvert outlet.	NOE	
2008018195	Skinner Pier Repair and Expansion Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --El Dorado The project involves the modification and expansion of a pier at 227 Drum Road.	NOE	
2008018196	Approval of Water Right Application 30931 and Petition to Change Water Right License 4982 (Application 14842) State Water Resources Control Board, Division of Water Rights --Sonoma Applicant/Petitioner filed Water Right Application 30931 on August 18, 1999 and a Petition to Change Water Right License 4982 on October 18, 2004. The application seeks to authorize collection of storage of 82 acre-feet per annum (afa) of water for recreation and fire protection. Collection will take place in two reservoirs. Seventy-four acre-feet will be held in an existing 122 acre-foot capacity reservoir, Lowe Reservoir. The remaining capacity of Lowe Reservoir is already authorized under License 4928 (Application 14842). The remaining 8 acre-feet sought under Application 30391 will be held in a second existing reservoir, Frog Reservoir. The petition to change License 4982 seeks to delete irrigation as a purpose of use and to add stockwatering, recreation, fire protection and fish and wildlife enhancement as purposes of use. Approval of the application and petition will collectively: (1) authorize a total of 130 acre-feet of storage in two existing reservoirs; and (2) result in a net decrease in the amount of water authorized to be withdrawn and used from four sources.	NOE	
2008018197	Blair Ranch Acquisition California State Coastal Conservancy Morgan Hill--Santa Clara Habitat preservation, open space protection, public access and incidental agricultural use. The 865.4-acre acquisition will be afforded permanent conservation protection as an addition to the neighboring Ranch Cañada del Oro Open Space Preserve, owned and managed by the Santa Clara County Open Space Authority.	NOE

2004112037	<p>1000 16th Street Urban Mixed-Use Project San Francisco Planning Department San Francisco--San Francisco The project site is located at 1000 16th Street in the Showplace Square/Potrero Hill neighborhood. The project involves construction of a 659,000 gross square foot mixed-use project in three buildings on a vacant, 3.15-acre triangular site bounded by Hubbell, 7th and 16th Streets, including 425,000 square feet of residential use (408 dwelling units), 15,000 square feet of ground-floor commercial space, and 20,000 square feet of production, distribution and repair ("PDR") space. The project also entails construction of publicly accessible open space along an upgraded Daggett Street right-of-way bisecting the site, as well as a landscaped plaza at the corner of Hubbell and Connecticut Streets. A two-level parking garage would provide 400 independently accessible parking spaces.</p>	EIR	03/10/2008
2006072106	<p>Ukiah Air Attack Base Relocation Project Forestry and Fire Protection, Department of Ukiah--Mendocino The California Department of Forestry and Fire Protection (CAL FIRE) proposes to lease approximately 9 acres of land in the southeast corner of the Ukiah Municipal Airport for the relocation of its existing Air Attack Base facilities. Current Base facilities are located within the west central portion of the Ukiah Municipal Airport. The proposed project is designed to be a replacement for the existing Base with facility upgrades to provide safer and more efficient operations. While the operation of the airbase will have the same level of personnel, aircraft and equipment assigned as now, the number of planes that can be loaded during a major fire event will increase from two at a time to four at a time. As a result, fire fighting capabilities will be improved due to reduced response time. Ownership of the existing facilities will revert to the City.</p>	EIR	03/10/2008
2007071156	<p>The Home Depot Thousand Oaks, City of Thousand Oaks--Ventura This project involves the construction of a Home Depot Store on an existing 10.11-acre commercial site. The first phase of the project would require the demolition of the existing structures located on site. Demolition would remove a 109,000-square foot vacant K-mart building, as well as 12,360-square foot attached in-line shops and parking lot improvements. It is estimated that the existing parking lot area is approximately 80,400 square feet (402 spaces). Subsequent to the required demolition of the vacant structures, the second phase of the project would consist of the construction of a 96,973-square foot Home Depot home improvement store, with an attached 13,669-square foot outdoor garden center. Approximately 110,640 square feet would be developed on site, including 395 parking spaces.</p>	EIR	03/10/2008

2007102015	Japantown Corporation Yard Redevelopment Project San Jose, City of San Jose--Santa Clara The proposed project would include up to 600 market-rate residential units, up to 30,000 square feet of retail space, a 10,000 to 20,000 square foot community amenity space, and up to 900 underground/surface parking spaces on the Corporation Yard site. As a variation on the proposed project, up to 15,000 square feet of retail space may be replaced with up to 24 live/work units. The existing surface parking lot would be redeveloped as an affordable senior housing complex including up to 85 units of affordable housing and 40 parking spaces. Project buildings would range from 6 to 14 stories for the residential/mixed-uses and 1 to 2 stories for the community amenity uses. As the location and height of project buildings is conceptual at this time, this EIR evaluates a 14-story building envelope for the Corporation Yard site. A 6-story building envelope is evaluated for the surface parking lot site. The proposed project includes a General Plan Amendment (File # GP07-03-04) and an amendment to the Jackson-Taylor Residential Strategy to change the land use designation to allow the proposed mix of uses, allow increased height and density on the project site, increase the caps on development to the extent required, and amend relevant design principles. The site would be rezoned to A (PD) Planned Development Zoning District (File #PDC07-073).	EIR	03/10/2008
2005062170	Almond Estates North Wheatland, City of Wheatland--Yuba The Almond Estates North Vesting Tentative Subdivision Map includes 169 residential lots (60' x 100' min), one drainage corridor lot, one sewer lift station lot, several landscape corridors, and one emergency access lot. Access to the site would be provided via existing residential streets (i.e., Redwood Avenue), which connect to Evergreen Drive located south of the project site. Access would also be provided from State Route 65 via a new road connection (labeled "A Drive" on the vesting tentative map).	FIN	
2006021006	South Laguna Parking Lot Seacove Parking Lot Laguna Beach, City of --Orange Construction of a parking lot for public use on a currently vacant lot. Lot is owned by the City of Laguna Beach. Parking lot will also include lighting, landscaping, and drainage.	MND	02/25/2008
2008011098	Storm Drain "A" Improvement Project Fontana, City of Fontana--San Bernardino The proposed Storm Drain "A" Drainage Improvement Project is identified in the City's Public Works Storm Drain Master Plan, and in the City of Fontana General Plan. The project involves the construction of a "box" storm drain channel to convey storm water drainage from the east side of the I-15 Freeway over to the existing Hawker-Crawford storm drain channel that runs parallel to the west side of the Freeway. This storm drain improvement project is approximately 250 feet long and consists of an approximate eight-foot wide by ten-foot deep concrete box channel under or through the I-15 Freeway right-of-way. This project is required to be constructed prior to the planned I-15/Duncan Canyon Road Freeway interchange construction project.	MND	02/25/2008

2008012093	<p>Old Mammoth / Mill City Fuels Reduction Project Mammoth Lakes Fire Protection District Mammoth Lakes--Mono</p> <p>The project analyzed in this Initial Study includes a portion of an effort to reduce the risk of catastrophic fire by improving fire resiliency through vegetation treatments within and adjacent to the community of Mammoth Lakes. The project is a cooperative effort with the Mammoth Lakes Fire Protection District (MLFPD), Inyo National Forest, Mammoth Lakes Community Water District, Mono County, Town of Mammoth Lakes, Mammoth Lakes Trails-Public Access and University of California, Santa Barbara (UCSB) Valentine Reserve.</p> <p>The project is associated with a larger effort which would perform fuels reduction treatments on approximately 140 acres, including 125 acres of National Forest lands and 15 acres of lands owned by the Town of Mammoth Lakes and UCSB Valentine Reserve. The proposed activities on Federal lands owned by the USFS are being reviewed under a separate NEPA document, and so this Initial Study analyzes only those activities that would be performed by the MLFPD within Town limits. Within the Town of Mammoth Lakes, the MLFPD would perform fuels reduction and removal on one Town owned parcel, known as the Bell-shaped parcel, located southwest of the Meridian Boulevard and Minaret Road intersection. The MLFPD would perform site inspections and provide guidance to private property owners (over 800 parcels in the Bluffs area and in the western part of the town), and would assist property owners with slash disposal through providing chipping and disposal services, although would not perform tree or fuels removal on such parcels. All three removal would be subject to review and approval of a tree removal permit, per Town of Mammoth Lakes regulations.</p> <p>California Department of Forestry guidelines would be employed as the primary framework for proposed practices for fuel reduction activities undertaken by the MLFPD.</p>	MND	02/25/2008
2008012095	<p>2005-82 Tentative Parcel Map for Billy and Anita French Calaveras County Planning Department --Calaveras</p> <p>The applicants are requesting approval to divide 28.44 +/- acres into four parcels of 0.50 +/- acre, 0.55 +/- acre, 0.54 +/- acre, and 0.50 +/- acre, respectively, and a 26.35 +/- acre remainder. The property is on the west side and immediately adjacent to Hogan Dam Road, approximately 1/8th of a mile northeast of Vista Del Lago Drive in Valley Springs.</p>	MND	02/26/2008

2008012092	Ordinance (TC06-007) Amending Title 17 of the Tuolumne County Ordinance Code Tuolumne County Community Development Dept. --Tuolumne Ordinance (TC06-007) amending Title 17 of the Tuolumne County Ordinance Code to allow the following: 1. Establishment of the AE-160 (Exclusive Agricultural, one hundred-sixty acre minimum) zoning district; 2. Establishment of the AE-80 (Exclusive Agricultural, eight acre minimum) zoning district; 3. Amendments to the existing permitted and conditional uses within the AE-37 (Exclusive Agricultural, thirty-seven acre minimum), A-20 (General Agricultural, twenty acre minimum) and A-10 (General Agricultural, ten acre minimum) zoning districts; and 4. Amendments to the existing compatible uses and conditional uses within the :AP (Agricultural Preserve Combining) district.	Neg	02/25/2008
2008012094	Kisling Residence Capitola, City of Capitola--Santa Cruz The project consists of the construction of a retaining wall along the top of the sloped bank at 1820 and 1816 Wharf Road. The proposed retaining wall would help to support the house and deck at 1820 Wharf Road should the existing caisson be undermined. The portion of retaining wall at 1816 Wharf Road would help to increase the level area of the yard. In addition to the retaining wall, the project at 1816 Wharf Road also includes the construction of a new 3,086 square foot, two-story single-family residence and garage. Both parcels are located in the AR/R-1 (Automatic Review/Single Family Residence) zoning district.	Neg	02/25/2008
2008012097	Cosumnes River Preserve Management Plan Fish & Game #2 Galt--Sacramento, San Joaquin This plan will protect and enhance key habitats and species within the Cosumnes River watershed in southern Sacramento and northern San Joaquin counties through implementation of the Cosumnes River Preserve (Preserve) Management Plan. The proposed project includes adoption of goals, objectives, and management projects listed in the Management Plan, as refined and modified based on input from each of the Preserve's implementing partners and the general public.	Neg	02/26/2008
2007041044	Park 5th Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project includes the demolition of the existing surface parking lot and the construction of a mixed-use project with 790 "for sale" condominium units, 212 hotel rooms with 10,485 square feet of meeting space, 14,000 square feet of retail space, and 18,000 square feet of restaurant space (5,000 square feet of which will be covered outdoor seating). The Project will provide approximately 1,156 parking spaces including 988 residential parking spaces (1.25 spaces per unit), and approximately 168 spaces for the commercial uses. The Proposed Project includes a total of 1,286,792 square feet of floor area and 2,750,000 square feet of gross square feet. The Proposed Project would include two residential towers: Tower A includes 42 floors (510 feet high) and Tower B includes 76 floors (890 feet high).	SIR	03/12/2008

2008011112	<p>Proposed Redevelopment Plan for the North Redlands Revitalization Project (a redevelopment project) Redlands, City of Redlands--San Bernardino</p> <p>The Agency is proposing adoption of the plan for the Project for the purpose of including the project area within a redevelopment project area. The project area totals approximately 860 acres in two subareas - identified on the attached map as Subareas A and B. Subarea A, approximately 855 acres, represents the bulk of the project area and is situated generally between Pioneer Avenue on the north, Colton Avenue and Interstate-10 on the south, generally between N. University Street and State Route 30.</p> <p>Subarea B, approximately five (5) acres in size, is located in the northern portion of the City about one-half mile south of the Redlands Municipal Airport. The project area is more than 80 percent urbanized, a requirement of the CCRL for adoption of a plan for a redevelopment project area, and is surrounded by settings ranging from urban to semi-urban in character.</p>	NOP	02/26/2008
2008012100	<p>Rancho Murieta Recreation Area Tree Management Plan Sacramento County --Sacramento</p> <p>The California Department of Transportation (Caltrans), Division of Aeronautics, is enforcing State Airport operating regulations that rely on Federal Aviation Regulations (FARs) which govern the allowable height of objects near airports. Specifically, the County has been directed to address potential obstructions within the County owned Recreation Area under the surfaces defined by Part 77 of the Codes of Federal Regulations (FAR Part 77) near the Airport. FAR Part 77 identifies the criteria that are used to define obstructions for airports and their surrounding airspace. Caltrans Aeronautics Division directly references FAR Part 77 obstruction criteria for inspecting and issuing airport operating permits. Among these criteria are a series of three dimensional imaginary surfaces of varying size, shape and slope depending on the type of runway and classification of approach. Any object that penetrates one of these surfaces is classified as an obstruction to navigable airspace. The enforcement action by Caltrans Aeronautics Division was the subject of a State Appellate Court case that upheld a lower court's decision to support Rancho Murieta Airport's Writ of Mandate, and compels the County to manage trees within the riparian corridor of the Recreation Area in order to conform with the FARs governing obstructions. As a result of this mandate, the County initiated a program of tree pruning, removal, and installation of lighting poles to reduce or eliminate potential obstructions.</p>	NOP	02/26/2008
2008012105	<p>Treasure Island and Yerba Buena Island Redevelopment Plan San Francisco Planning Department San Francisco--San Francisco</p> <p>The overall purpose of the Proposed Project is the conversion of approximately 364 acres on Treasure Island and approximately 95 acres on Yerba Buena Island from a former military base to a dense mixed-use development with about 6,000 residential units; about 595,000 sq ft of commercial, cultural, and retail space; and about 500 hotel rooms, centered around an Intermodal Transit Hub, with a ferry quai, supporting infrastructure, public services and utilities, and approximately 300 acres of open space.</p>	NOP	02/26/2008

	water intake facility of the City and addressing environmental, channel stability, land ownership and other constraints. The proposed plan is to build a new fish passage structure with parallel juvenile and adult ladders to the right of the existing weir and ladder structure. Such a structure would require construction of new concrete wall to replace the existing steel wall and support the new construction. As proposed, the existing fish ladder facility will be backfilled with concrete. Downstream of the diversion, three existing, failing log weir structures installed by Santa Cruz County in the mid 1990's will be removed and replaced with six rock weirs to maintain grade control for the ladder entrance. Two existing concrete weirs at the base of the diversion will be modified to accommodate the proposed, larger fish passage structure. In addition, during the period of dewatering for fish ladder construction the City of Watsonville proposes to modify and further upgrade the water diversion intake screen to optimize sweeping flows, which will improve operational flexibility and minimize clogging of the screens by leaf litter and organic detritus.

	<p>mobility through alternative transportation choices. Within the rail corridor, the existing passenger train service flow (efficiency) is proposed to be enhanced by implementing a variety of rail corridor improvements. Efficiency is not directly related to speed of trains, but is more dependent upon the ability of trains to flow without stopping or slowing on the tracks to allow other trains to pass. The range of potential improvements include:</p> <ol style="list-style-type: none"> 1. Installation of a new second mainline track along the 18.2 mile long corridor (double tracking with a new track installed at a distance ranging from 15 to 25 feet on center from the existing track, with exceptions); 2. Installation of new sidings (passing track); 3. Extension or upgrade of existing sidings; 4. Upgrade of track structure and special track work; 5. Replacement or installation of existing bridges; 6. Replacement or installation of new culverts, some of which are designed to solely equalize water levels adjacent to the track and some of which serve as drainage structures; and 7. Improvements at highway/railroad track intersections.

2006061101	General Plan Amendment 04-05, Zone Change 04-06, Tentative Tract Map 62757 Lancaster, City of Lancaster--Los Angeles The proposed project involves the development of 160 acres of vacant land with 650 single family dwellings. The project site is currently designated in the City's General Plan as non-urban (NU) residential and zoned as RR-2.5, which would permit approximately 64 units on the project site with minimum lot sizes of 2.5 acres. The proposed project includes the approval of Tentative Tract Map Number 62757 and an associated General Plan Amendment and Zone Change. The proposed General Plan designation would be urban residential (UR) and the zoning R-7,000 which would permit one dwelling unit on a minimum of a 7,000 square foot lot. The gross density of the proposed project including streets, landscaping, open space, flood control and streets is 4.06 dwelling units per acre.	EIR	03/14/2008				
2007102131	Marina Play Residential Project Santa Clara, City of Santa Clara--Santa Clara Demolish existing office buildings, construct 276 multi-family residential units on 3.2 acres, construct 57 single family detached residential units, and 6 attached townhouse units on 4.1 acres.	EIR	03/17/2008				
2007112094	PacifiCorp's Application to Construct Morrison Creek Substation Project CPUC A.07-07-018 Public Utilities Commission --Del Norte Through its CPUC application (A.07-07-018) filed on July 20, 2007, pursuant to CPUC General Order (GO) 131-D, PacifiCorp seeks a Permit to Construct (PTC) the proposed Morrison Creek Substation and remove the existing Simonson Substation (Proposed Project). The existing Simonson Substation, which currently steps voltage down from 69 kilovolt (kV) to 12.5 kV, would be replaced with the proposed Morrison Creek Substation which would have the same distribution capabilities. The objective of the Proposed Project is to increase system reliability in order to continue safe and reliable electric service to customers in the area.	FIN

	parking on the campus of Soka University of America. The project will require City approval of a Site Development Permit and a Conditional Use Permit.		
2008011122	Montebello Hills Specific Plan Montebello, City of Montebello--Los Angeles The proposed project includes: (1) construction of 1,200 residential dwelling units; (2) conservation of approximately 315 acres of open space; (3) six gross acres for public parks; (4) construction of infrastructure (e.g., sewer, etc.) to support the proposed project; and (5) modernization of eight proposed drilling sites (for continued oil production). Discretionary approvals would include amending the City's General Plan and zone change request from the site's existing designation of Residential Agriculture (R-A-O) to Specific Plan. An amendment to the Montebello Redevelopment Agency's project Area Plan would also be required. Additional approvals include, but may not be limited to a Development Agreement and tentative parcel/tract map approvals.	NOP	02/28/2008
2008011123	North Kern State Prison Infill Housing Program Corrections and Rehabilitation, Department of Delano--Kern Under the Public Safety and Offender Rehabilitation Services Act of 2007, several institutions, including Northern State Prison (NKSP), have been designated to receive additional beds through new housing construction. As the lead agency, the California Department of Corrections and Rehabilitation (CDCR) is proposing to provide housing for additional inmates at NKSP. Implementation of the proposed project would result in the construction of approximately a 35-acre, semi-autonomous reception center for male inmates. This facility would consist of five celled housing units, program support and rehabilitative services buildings; healthcare facilities; visiting area; and multi-purpose support buildings.	NOP	02/28/2008
2008011119	Pierce Street Transmission Main Project Coachella Valley Water District --Riverside The Pierce Street Transmission Main Project proposes the installation of an 18-inch diameter domestic water pipeline for a length of 2 miles along Pierce Street between Airport Boulevard and Avenue 60 that will connect to the existing Well 6806 well site located in the southwest corner of Avenue 60 and Pierce Street. The pipeline alignment is within Riverside County rights-of-way along Pierce Avenue, Airport Boulevard, and Avenue 60. The purpose of the project is to allow the Coachella Valley Water District (CVWD) the flexibility to serve the Mecca area and communities south/southeast of Mecca (i.e, North Shore) with water from either the Mecca or Thermal Pressure Zone. In addition, the pipeline may also allow for service to these areas from a potential, future surface water treatment plant.	Neg	02/28/2008

2008011128	Tijuana Estuary Sediment Fate and Transport Study Parks and Recreation, Department of Imperial Beach, San Diego--San Diego The project consists of the implementation of a Sediment Fate and Transport Study within Border Field State Park at the Tijuana River National Estuarine Research Reserve. The project would utilize sorted sediment from the Goat Canyon sediment basin and deposit it in designated areas along the beach south of the Tijuana River mouth. While the study would be conducted near important wetland habitat areas, no work would occur within these areas.	MND	02/29/2008
2008011129	Linden+7th Multi Use Project Carpinteria, City of Carpinteria--Santa Barbara Request for a Development Plan, Tract Map, and Coastal Development Permit for the remodel of an existing 3,374 square foot single-story restaurant and the construction of a new 1,575 square foot first floor commercial addition. A 4,556 square foot second story addition containing three new residential units is also proposed. An associated Tract Map would permit five airspace condominium units (two commercial and three residential). Four onsite parking spaces would provide the required residential parking while all commercial parking would be provided offsite in City Lot #3. The height of the proposed addition would be 23 feet to the top of the parapet, 26 feet to the top of the mechanical screen and 29 feet seven inches to the peak of the tower. A trash and recycling area would be provided offsite and shared with the adjacent property (APN 003-314-010) through a reciprocal easement.	MND	02/29/2008
2008012123	Santa Clara University Buckshaw Stadium Temporary Expansion Santa Clara, City of Santa Clara--Santa Clara Special Permit to allow temporary use of the existing Buckshaw Stadium on the Santa Clara University Campus by a professional sports franchise.	MND	02/29/2008

2006101104	<p>Playa Del Mar Apartment Project (TR067206/RENV200600147) Los Angeles County Department of Regional Planning Los Angeles, City of--Los Angeles</p> <p>The proposed project is a request for a tract map to combine two parcels into one; a zone change from R-3-DP and R-1 to R-4-DP; a General Plan Amendment to change to the land use designation from Low Density Residential 1 to High Density Residential 4; and a Conditional Use Permit to allow 218 apartments in one building with a maximum height of four stories (60') along with a 443 space parking structure with a maximum height of five and one half stories (56'). The existing church, parking lot, and single-family residence will be demolished. The project will require grading of 28,200 cubic yards (cy) of soil, of which 11,500 cy will be exported from the site. Ingress and egress will be provided by an existing alley south of the project site and a new fire alley along the northern part of the site.</p>	NOP	02/29/2008
2008011127	<p>Proposed Amended Rule 1146 - Emissions of Oxides of Nitrogen from Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters South Coast Air Quality Management District --Los Angeles, Orange, Riverside, San Bernardino</p> <p>SCAQMD staff is proposing amendments to Rule 1146 - Emissions of Oxides of Nitrogen from Industrial, Institutional and Commercial Boilers, Steam Generators, and Process Heaters to reduce the allowable NOx emission limits from 30 parts per million (ppm) to 12 ppm, nine, or five ppm, depending on equipment size, operational characteristics, and energy efficiency. The proposed amendments to Rule 1146 will also propose NOx compliance limits for units burning landfill or digester gasses at 25 ppm and 15 ppm, respectively. Other changes are proposed that include: 1) establishing annual tune-up procedures and monthly maintenance procedures; 2) limiting timeframe for derating equipment; and 3) allowing a 30 ppm NOx compliance limit for low fuel usage equipment by January 1, 2015, or until burner replacement, whichever occurs later. Other minor changes are proposed for clarity and consistency throughout the rule. The initial study identified "air quality" and "hazardous materials" as the only areas that may be adversely affected by the proposed project. Impacts to these environmental areas will be further analyzed in the Draft EA.</p>	NOP	02/29/2008
2008012124	<p>Redevelopment Project No. 2 South Lake Tahoe, City of South Lake Tahoe--El Dorado</p> <p>Redevelopment Plan for approximately 1,860 acres in the City of South Lake Tahoe. The proposed project has been identified by the City as a prime candidate for redevelopment assistance because, as noted in the Draft Tahoe Valley Community Plan, the area "has remained relatively stagnant, receiving few of the benefits of either private enterprise or public investment." To address these conditions, the Agency has initiated creation of a new redevelopment area in and around the boundaries of the Bijou / Al Tahoe Community Plan area, the South Y Industrial Tract Community Plan area, and the Draft Tahoe Valley Community Plan.</p>	NOP	02/29/2008
2008011130	<p>Chapter 8.94 Native Brush and Shrubs, of the City of Big Bear Lake Municipal Code Big Bear Lake, City of Big Bear Lake--San Bernardino</p> <p>The City of Big Bear Lake is proposing to add Chapter 8.94 (Native Brush and Shrubs) in Title 8 (Health and Safety) of the City of Big Bear Lake Municipal Code</p>	Neg	02/29/2008

	pertaining to native brush and shrubs. In recognition of the City's susceptibility to wildland fires, the proposed Chapter 8.94 would focus on modifying native brush and shrubs in high fire-risk areas.		
2008011131	Circulation Element Update of the Fountain Valley General Plan Fountain Valley, City of Fountain Valley--Orange The proposed project consists of an update to the City of Fountain Valley's Circulation Element of the General Plan, which includes plans for improvements to the City's circulation system required under the Memorandum of Understanding among the cities of Fountain Valley, Costa Mesa, and Huntington Beach, as well as Orange County Transportation Authority.	Neg	02/29/2008
2008022001	Camping World Vacaville, City of Vacaville--Solano Proposal to construct a 38,400 sf Recreational Vehicle (RV) retail and service facility including 134 parking spaces.	Neg	03/03/2008
2007121014	Billingsley Residence San Diego, City of San Diego--San Diego A Street Vacation, Variance and a Neighborhood Development Permit (NDP) to allow the development of a 2,973 square-foot, three-level, single-family residence on a vacant lot located at 4285 1/3 Goldfinch Street within the Uptown Community Planning Area. The variance would allow no on-site parking where on-site parking is required. The Street Vacation would allow the vacation of the southern portion of Goldfinch Street. Legal Description: Lots 3 and 4 of Block 7 of Arnold and Choates Addition. Applicant: Kirby Pray and Marilyn Billingsley.	Oth	
2004042039	East Bidwell Street Bicycle and Pedestrian Overcrossing Project Folsom, City of Folsom--Sacramento The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0236-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Folsom. The East Bidwell Pedestrian/Bicycle Overcrossing Project proposes to span East Bidwell Street and the Humbug Creek stream and wetland complex with a three span 500 foot bridge. The project includes the construction of two bridge abutments and two piers to support the bridge structure.	NOD	
2006111104	Santiago Creek Recharge Enhancement Project Orange County Water District Orange--Orange The operator proposes to alter the streambed and bank through the maintenance activities within Santiago Creek to increase the rate and quantity of groundwater recharging along the creek. As a result of the scouring of the creek bottom from previous storms, the depositing of fill material into the creek and the accumulation of debris and weeds along the channel bottom, existing surface waters along the creek are confined to a limited portion of the creek channel. The proposed project would remove the existing debris and grade the channel bottom at three different segments of Santiago Creek to create a flatter surface that would allow the flow of surface water to spread out and cover a larger area.
