STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**January 16 – 31, 2015**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16 – 31, 2015**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2014

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

## Key for abbreviations of Document Type:

ADM	Addendum
CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
NOI	Notice of Intent
FIS	Final Environmental Statement
Neg Dec/ND	Negative Declaration
MND	Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NODe	Notice of Decision
NOP	Notice of Preparation (of an EIR)
FIN	Final Document
TRI	Tribal Compact Environmental Evaluation
BIA-LA	Bureau of Indian Affairs Notice of Land Acquisition
BIA-ND	Bureau of Indian Affairs Notice of Decision
OTH	Other type (none of the above)

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, January 16, 2015</u></b>			
2015012040	Coastal Dune Restoration Environmental Assessment U.S. National Park Service --Marin Since 2001, Point Reyes National Seashore has been working on a series of coastal dune restoration projects near Abbott's Lagoon to remove non-native, invasive plant species such as European beachgrass and iceplant. Native dune habitat in the Seashore provides critical habitat for four federally listed, and several additional rare and unique, species of plants and animals, as well as some of the largest expanses of two rare native dune plant communities remaining in California.	<b>EA</b>	02/20/2015
2015011022	Well No. 17 Livingston, City of Livingston--Merced Installing a vertical turbine pump and associated facilities for an existing well that was drilled in 2005 but was never equipped for production. The improvements will include an estimated 1,500 GPM, 150 HP pump with associated discharge piping and valving. Manganese greensand treatment system, electrical and chlorination equipment, electrical service including meter and transformer, estimated 250 KW emergency power generator, SCADA controls, site security, connection for future telephone line and alarm dialer, HVAC, site grading and lighting, storm drain collection, perimeter fencing, and paved surface.	<b>MND</b>	02/17/2015
2015011023	Drainage Reservoir 18 Porterville, City of Porterville--Tulare The City of Porterville intends to construct and operate a new storm water runoff retention facility. The retention basin will be approximately 4.6 acres in size and will need new pipeline installed to connect the basin to the existing stormwater system. Approximately 750 feet of 36" pipeline will connect the basin to the existing stormwater line on North Grand Avenue and another 470 feet of 30" pipeline will be installed along North Grand Avenue and under State Route 65 to connect to existing pipelines across the State Route.	<b>MND</b>	02/17/2015
2015012033	Wastewater Treatment Facility Upgrade Shasta Lake, City of Shasta Lake--Shasta The Project consists of various upgrades to the existing WWTF required to treat raw wastewater to a level compliant with the 2014 NPDES Permit. Proposed project includes new effluent discharge pipeline, cascade re-aeration structure, and replacement of primary outfall into Churn Creek. Existing secondary outfall will be abandoned in place. Existing Spray fields and 400 acre-foot reclaimed water reservoir will be abandoned in place. With the exception of the improvements to the effluent pipeline and outfall structure in the riparian area of Churn Creek, the majority of the improvements would take place within the existing development footprint of the WWTF.	<b>MND</b>	02/17/2015

## CEQA Daily Log

Documents Received during the Period: 01/16/2015 - 01/30/2015

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, January 16, 2015</u></b>			
2015011020	<p>Eastvale Crossings Eastvale, City of Eastvale--Riverside</p> <p>The proposed development project includes six parcels consisting of 24.78 gross acres. The project includes the development of a commercial retail center comprised of the following proposed parcels: (1) an approximately 192,000 sf Walmart retail store on a 19.06 acre parcel; (2) a gas station with an approximately 4,200 sf convenience store, sixteen fueling positions, and a self-servicing drive-thru carwash on a 0.95 acre parcel, (3) an approximately 3,500 sf fast food restaurant with a drive-thru on a 0.76-acre parcel, (4) a 6,200 sf retail shop building with a drive-thru and walk-up automatic teller machine (ATM) on a 0.66-acre parcel, (5) a 12,200 sf retail shop building on a 1.37-acre parcel, and (6) a storm water retention basin on a 0.46-acre parcel. The proposed development site will have approximately 1.52 acres of street and driveway dedications.</p>	<b>NOP</b>	02/17/2015
2015011021	<p>Horizons Development Project (Planning Application No. 14-0040) Wildomar, City of Wildomar--Riverside</p> <p>The proposed project is a mixed-use residential and assisted living development. The residential portion includes 2-story townhomes on the majority of the project site. Specifically, the townhomes are proposed within the northern and central portions of the site, including 138 units on 12 acres. A recreation building is also proposed in the central portion of the townhome community, in addition to 350 parking spaces. The proposed assisted living facility is located in the southern portion of the project site north of Prielipp Road, and comprises of an 86 unit senior assisted living facility in addition to 86 parking spaces on 4.5 acres.</p>	<b>NOP</b>	02/17/2015
2015012032	<p>2015-2023 Housing Element Hercules, City of Hercules--Contra Costa</p> <p>The project is the adoption and implementation of the Hercules General Plan 2015-2023 Housing Element and amendments to the General Plan Safety and Open Space Elements as related to fire and flood hazards. The Housing Element is an integral component of the City's General Plan as it addresses existing and future housing needs of all types for persons in all economic segment groups within the City. The Housing Element serves as a tool for decision-makers and the public in understanding and meeting housing needs in Hercules. While the law does not require local governments to actually construct housing to meet identified needs it does require that the community address housing needs in its discretionary planning actions such as creating opportunities for housing in the land use plan and facilitating development through policy.</p>	<b>Neg</b>	02/17/2015
2014081077	<p>Alternate Deep Well Injection Site Los Angeles County Sanitation District Santa Clarita--Los Angeles</p> <p>The project evaluated in this SEIR only includes the proposed DWI site and injection well components of the approved compliance project. The brine pipeline to the alternate DWI site will follow the same alignment, but will be slightly shorter than analyzed previously. As such, the revised brine pipeline will result in less environmental impacts and will not be addressed in the SEIR. The approved compliance project components and the general location of the alternate DWI site are shown in Figure 1. The specific location of the alternate DWI site and surrounding land uses are shown on Figure 2.</p>	<b>SIR</b>	03/02/2015

2008011070	Bonsall Subdivision; TM 5427RPL^2, R05-006, S05-026, S05-027, Log. No. 05-02-013 San Diego County --San Diego The proposed project is situated on a 54.82 acre property, from which 10.99 acres will be developed into 76 residential condominium units. The development includes a storm water detention basin, brow ditches, utilities, roads, infrastructure, buildings, landscaping, and fuel management zones (FMZs). The remaining 43.83 acre undeveloped area includes FMZs, a trail easement, conservation area, and the existing developed West Lilac Road right-of-way (3.60 acres).	<b>NOD</b>	
2013042040	Navy Drive Bridge Replacement Project Stockton, Port of Stockton--San Joaquin The Central Valley Regional Water Quality Control board is a CEQA responsible agency and has issued a 401 Water Quality Certification for this project. The project consists of replacing the existing Navy Drive Bridge across the San Joaquin River in Stockton, California. The bridge will be a new four-lane, removable span bridge that is aligned 80 feet north of the current bridge alignment. Bridge abutments will be constructed above the ordinary high water mark of the San Joaquin River and supported by Cast-In-Steel-Shell piles. Overhead utilities will be relocated to the new bridge location.	<b>NOD</b>	
2014102002	Wildwood Road Bridge Replacement Project San Joaquin County Manteca--San Joaquin San Joaquin County, in conjunction with the California Department of Transportation (Caltrans) and the Federal Highway Administration, is proposing to replace the Wildwood Road Bridge (29C-382) at Temple Creek. Due to advanced deterioration, this bridge has been deemed "Structurally Deficient" by Caltrans and must be replaced.	<b>NOD</b>	
2014112025	Pinole Creek Fish Passage Improvement Project Contra Costa Resource Conservation District Pinole--Contra Costa The proposed Pinole Creek Fish Passage Improvement Project is proposed to improve the migration of a special status species, steelhead trout, by reconfiguring the Pinole Creek channel at the Interstate-80 (I-80) culvert. The primary goal of the proposed Project is to provide adult steelhead access to upstream spawning and rearing habitat by enhancing passage conditions at the I-80 Pinole Creek culvert. Improving passage of juvenile salmonids and adult resident rainbow trout is an ancillary objective.	<b>NOD</b>	
2015018107	Common Landowner Transfer of up to 4,000 a.f. of TLBWSD 2015 State Water Project Water to Westlands Water District Tulare Lake Basin Water Storage District Corcoran--Kings TLBWSD will transfer up to 4,000 a.f. of it's 2015 State Water Project water to Westlands Water District for Westlake Farms who farms in both districts. The transfer will be completed by December 31, 2015. This proposed transfer is designed to enable Westlake Farms to better manage their respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.	<b>NOE</b>

2015018108	Common Landowner Transfer of up to 10,000 AF of TLBWSD 2015 State Water Project Water to Kern County Water Agency Tulare Lake Basin Water Storage District Bakersfield--Kern TLBWSD (Tulare Lake) will transfer up to 10,000 AF of its 2015 State Water Project Water to Kern County Water Agency for the JG Boswell Co. who farms in both districts. The transfer will be completed in 2015. This proposed transfer is designed to enable the JG Boswell Co. to better manage its respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.	<b>NOE</b>	
2015018109	Red Bluff Parole Office Lease Corrections and Rehabilitation, Department of Red Bluff--Tehama This project is to temporarily house the Red Bluff parole office at 10 Gilmore Road, Red Bluff, Tehama County. The current parole office location flooded in December 2014 and has been declared unfit for occupancy. The Gilmore Road location is zoned for office use. There would be no increase in occupancy or parking beyond that which the property has been zoned for. Only minor tenant improvements will be done at the new location.	<b>NOE</b>	
2015018113	Mono 108 Delineators Caltrans #9 --Mono Remove, replace and place new delineators, or snow poles, on State Route (SR) 108, between the Post Miles (PM) 0.0-15.149, in Mono County, California. Approximately 1,500 snow poles will be installed in order to guide trucks doing snow removal from roadway.	<b>NOE</b>	
2015018114	McNally Overlay Caltrans #9 --Inyo Caltrans is doing maintenance along Route 6, consisting of a cold planning and paving.	<b>NOE</b>	
2015018116	Woodside School Multi-Use Pathway Project Woodside, City of Woodside--San Mateo The scope of the project consists of installing new 250 LF of pathway on south side of SR 84 (Woodside Road) between project limits. The project will install pathway, concrete curb and drainage improvements. The proposed pathway will provide a safe route for the students to walk to school. The Woodside Road Project is being proposed specifically with the goals of both increasing bicycle and pedestrian safety along a well-traveled school route corridor.	<b>NOE</b>	
2015018117	Emergency Permit for Treatment of Hazardous Waste, Genentech SSF Toxic Substances Control, Department of South San Francisco--San Mateo DTSC has issued an emergency permit to Genentech SSF to treat hazardous waste by chemical stabilization.  It has been determined that the items are or may be highly reactive and must be stabilized prior to being transported offsite. The chemicals are expired and are currently being stored inside a storage area.	<b>NOE</b>

2013031067	Green Hotel Apartments Project Pasadena, City of Pasadena--Los Angeles The proposed project involves construction of a six-story mixed-use building with 64 residential units and 5,000 sf of commercial space on an existing surface parking lot at 86 South Fair Oaks Avenue in Pasadena. The project site is 32,362 sf and the proposed mixed-use building would be 76,980 sf in size and 75 feet high. The height, floor area ratio, and setbacks meet the development standards for the CD-1 zoning district. The project site is located within the Old Pasadena Historic District and is adjacent to the Castle Green and Green Hotel Apartments, structures that are listed in the National Register of Historic Places and designated by the City of Pasadena as historic monuments. There are no changes proposed to the Castle Green or Green Hotel Apartments as part of this project.	<b>EIR</b>	03/05/2015
2013062068	Humboldt Bay Mariculture Pre-Permitting Project Humboldt Bay Harbor --Humboldt Under the Project, the Humboldt Bay Harbor, Recreation and Conservation District is obtaining regulatory approvals for clam and oyster culture in Humboldt Bay, CA. Once permitting is complete, project sites will be leased to private entities for culture.	<b>EIR</b>	03/05/2015
2014062022	6701 Shellmound Street Emeryville, City of Emeryville--Alameda The project includes a total of 211 residential units and parking in a single seven-story wood-frame building on a podium over a two-story parking garage. The unit mix includes: 11 studios, 101 one-bedrooms, and 88 two-bedrooms, and 11 three-bedrooms. The project also includes landscaped common areas and plazas, lobby, leasing office, mail room, fitness room, dog spa, bike spa, and the main elevator bank in a ground-floor space. The south entry and exit onto Shellmound Street provides vehicle access to the site through the parking garage and loading area. The two levels of parking provided within the building - at-grade and on the second floor - provide a total of 264 vehicle parking spaces and 225 bicycle parking spaces.	<b>MND</b>	02/18/2015
2015011024	Temecula Valley Recycled Water Pipeline and Appurtenances Eastern Municipal Water District Menifee, Murrieta, Temecula--Riverside Eastern Municipal Water District intends to install approximately 17,000 lineal feet of parallel recycled water pipeline between the Temecula Valley Effluent Pump Station and the 48-inch diameter Temecula Valley Recycled Water Pipeline. The diameter of the parallel pipeline will be determined during additional hydraulic analysis in final design. EMWD would also install piping within the Temecula Valley Regional Water Reclamation Facility, a connection to an existing 24-inch diameter recycled water distribution pipeline, and improvements to the recycled water booster pump station at the Sun City Recycled Water Reclamation Facility.	<b>MND</b>	02/18/2015
2015011025	Iron Age Mine San Bernardino County Twentynine Palms--San Bernardino The proposed project will remove, crush and transport iron ore tailings and reclaim all areas disturbed by the removal activities. The Iron Age mine project total s97 acres of which 76 acres are currently disturbed. Approximately 63 acres is within	<b>MND</b>	02/18/2015

2015012037	Fairfield 2014 Housing Element Fairfield, City of Fairfield--Solano The Fairfield 2014 Housing Element addresses the existing and projected housing needs of the City and complies with State law requiring adoption of a revised Housing Element by January 24, 2015 (Section 65580 - 65589.8 of the Government Code) which addresses all current requirements in State code and policy pertaining to Housing Elements. The 2014 Housing Element is a required Element of the Fairfield General Plan which guides the provision of housing for all segments of Fairfield, including housing affordable to lower income households and housing for persons with special needs. The Housing Element also addresses other policy goals, including support for diverse housing types, infill development, flexibility in regulation of housing, and housing near transit and services.	<b>Neg</b>	02/18/2015
1992051024	Mesquite Regional Landfill Imperial County GLAMIS--IMPERIAL CDFW is executing a Lake and Streambed Alteration Agreement (SAA # 1600-2014-0168-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, County Sanitation District No. 2 of Los Angeles County, represented by Mr. Christopher R. Salomon, County Sanitation District No. 2 of Los Angeles County, 1955 Workman Mill Road, City of Whittier, State of California, 90601, Phone (562) 908-4288. The Applicant is proposing to partially demolish the existing culverts and add concrete box drainage culverts at two locations along the drainage channel adjacent to the rail spur at the MRL, the construction of a 100-foot transitional modification in the channel on each side of each culvert, the removal and reuse, to the extent practicable, of portions of the riprap and filter fabric in the channel, and the addition of new riprap and filter fabric at each location. A total of 0.78 acres of permanent impacts to jurisdictional streambed and a total of 0.23 acres of temporary impacts to jurisdictional streambed will result from the construction activities.	<b>NOD</b>	
1999041103	Southern Trails Pipeline Project California State Lands Commission The project includes Operation and Maintenance (O&M) activities on Southern California Gas Company's Line 6905 and Line 6916 and associated facilities. Permittee's Project activities are categorized by the four following classes:  Class I: Activities on existing facilities that do not result in new surface disturbance;  Class II: Activities that result in minimal surface disturbance;  Class III: Activities that result in moderate/major surface disturbance; and  Class IV: Activities that may extend outside of pipeline Right-of-Way (ROW) corridors.	<b>NOD</b>

	1602 of the Fish and Game Code to the project Applicant, Daniel Smith/City of Pleasanton.		
	The project is limited to installation of 1,300 linear feet of new 16-inch fusible polyvinyl chloride (FPVC) pipe 25-40 feet below the Arroyo Mocho from Harvey Court to Parkside Drive.		
2014082006	Downtown Gateway Project Santa Clara, City of Santa Clara--Santa Clara General Plan Amendment (#81) from Community Mixed Use to Regional Mixed Use, Rezoning from CC-Community Commercial and OG-General Office to PD-Planned Development, Tentative Subdivision Map to allow development of approximately 14,500 sf ground floor retail and up to 44 market-rate condominium units, and adoption of a Mitigated Negative Declaration.	<b>NOD</b>	
2014082040	Road 99W Bridge at Buckeye Creek Replacement Project Yolo County --Yolo An Initial Study/Negative Declaration (IS/ND) was prepared for the proposed replacement of the structurally deficient, scour critical County Road 99W at Buckeye Creek Bridge #22C-0050 with a new bridge meeting current standards for design, construction, and maintenance. Compliance with the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA) is required to qualify for funding through the Federal Highway Administration. It is anticipated that a Categorical Exclusion, in accordance with NEPA, will be certified by Caltrans for the project.  The existing three-span reinforced concrete T-beam structure, built in 1918 and widened in 1950, is a two-lane bridge that is approximately 108 feet long. The new bridge will be an approximately 120-foot long single span, cast-in-place, post-tensioned concrete box girder, which will provide center stream creek flow access based upon review of current hydraulics. In addition to the longer structure, the roadway profile on the new bridge will also be raised to convey the 50-year storm with two feet of freeboard and the 100-year storm with one foot of freeboard. The new bridge will be designed to meet AASHTO guidelines, as well as current Caltrans and Yolo County standards.	<b>NOD</b>	
2014082070	Capital Reserve Elk Grove, City of Elk Grove--Sacramento The proposed Project consists of a Rezone from SPALCF and AR-10(PDC) to LC, RD-10, and O.	<b>NOD</b>	
2014091041	Mission 316 Specific Plan San Marcos, City of San Marcos--San Diego A General Plan Amendment, Rezone, Specific Plan, Multi-Family Site Development Plan, Tentative Subdivision Map and Conditional Use Permit (for a rock crusher during the grading operation). The Mission 316 Specific Plan proposes an attached multi-family, residential condominium project up to 93 units on 8.98 acres. Units range from 2-3 story, 1,400-1,990 s.f. with two-car garages. Includes common & landscaped open space, BBQ's picnic tables, tot lot & trails. Change from Commercial to Low Medium Density Residential (LMDR) in the Heart	<b>NOD</b>

	of the City SP within the Richland neighborhood. The proposal includes a request to adopt Mitigated Negative Declaration ND 14-007 (the environmental review document).		
2014111053	Verizon Wireless Communications Facility ("Rio Seco") Santee, City of Santee--San Diego This project involves the construction of an unmanned wireless communications facility on the 2.65-acre parcel located at the northeast corner of Halberns Boulevard and Lutheran Way in the City of Santee, California. The proposed facility would consist of a new 49'-4" bell tower containing 12 panel antennas and a microwave antenna, a 160 square-foot, ground-level equipment enclosure, underground cabling, equipment cabinets, and an emergency diesel generator. Identify the person or entity undertaking the project, including any private applicant, any other person undertaking an activity that receives financial assistance from the Public Agency as part of the project, and any person receiving a lease, permit, license, certificate, or other entitlement of use from the Public Agency as part of the project.	<b>NOD</b>	
2014112014	2015-2023 Housing Element: Initial Study / Negative Declaration Sausalito, City of Sausalito--Marin The proposed 2015-2023 Housing Element (HE) Update establishes goals, policies and programs for the preservation, improvement and development of housing within the City of Sausalito. The State mandated number of new housing units for Sausalito is 79 units pursuant to the Regional Housing Needs Allocation (RHNA) established for the 2015-2023 HE cycle. The proposed Housing Element Update plans for new housing through a variety of low impact strategies including mixed-use infill, accessory dwelling units and liveaboards. The environmental review of the HE Update resulted in an Initial Study/Negative Declaration.	<b>NOD</b>	
2014121045	Distribution System Project Lower Tule River Irrigation District Tulare--Tulare The proposed project is the construction of new pipelines and replacement of an existing pipeline to better serve water users within the Lower Tule River Irrigation District (LTRID) service area. From east to west, the project extends approximately 12.6 miles and consists of 3 different laterals to connect to each other at all junctions. The pipeline will be buried and sections of the pipeline will stay outside of the right-of-way (ROW) of the roads. Project impacts will be temporary and constrained to a swath 20 to 30 feet wide for the entire length of the alignment. The approximate area of proposed temporary impact is 46 acres.	<b>NOD</b>	
2015019001	Lake or Streambed Alteration Agreement No. 1600-2014-0269-R1 for THP 1-14-102MEN "Bear Haven Blue" Forestry and Fire Protection, Department of Fort Bragg--Mendocino The Department of Fish and Wildlife (CDFW) is issuing an agreement for the replacement of a rusted 60in. culvert with new 60in. culvert consistent with Standard construction Diagrams and increasing the critical dip size when reconstruction crossing.	<b>NOD</b>

<b><u>Documents Received on Tuesday, January 20, 2015</u></b>			
2015018120	Royal Palace Banquet Hall - AM CUP No. 1416 El Cajon, City of El Cajon--San Diego Permit an existing restaurant with alcohol sales to function as a banquet hall.	<b>NOE</b>	
2015018121	6156 Beckwourth-Genesee Road Project (Lake or Streambed Alteration Agreement No. 1600-2016-0169-R2) Fish & Wildlife #2 --Plumas The project consists of removal of an illegally installed dam and ponds, regrading the site to pre-disturbed conditions, restoration of native vegetation and installation of erosion controls. Along the approximately 530 linear feet of disturbed channel, approximately 630 cubic yards of dam material shall be moved. Work shall be conducted when there is no water in the channel. Re-contoured channel shall be rock armored, and rock weirs shall be installed at intervals along the new channel. All non-armored slopes shall be stabilized with erosion control measures.	<b>NOE</b>	
2015018122	Narrows 2 Isolation Pool (Lake or Streambed Alteration Agreement No. 1600-2014-0179-R2) Fish & Wildlife #2 --Yuba The project is limited to grading of an instream gravel bar to fill an isolation pool that has been created within the channel. Work will occur in the dry channel. Gravel (from the gravel bar) will be used to fill the deepest part of the isolation pool. The remainder of the bar will be leveled and re-graded to gather additional fill material if needed. No outside fill material will be used to complete this work, and no substrate will be removed from the river channel. The extent and exact area of the gravel bar to be graded will be determined in the field based on the size of substrate, equipment limitations, hydraulics, and channel morphology. Assuming that the full gravel bar needs to be graded by 3-feet, approximately 9,600-cubic feet of rock would be moved.	<b>NOE</b>	
2015018123	Merrill Ranch, Upper Pond Fish & Wildlife #3 Petaluma--Sonoma The project involves the operation of an existing pond on an unnamed tributary to the Petaluma River in Petaluma, Sonoma County (Latitude 38 degree 11.854195' N, and Longitude of -122 degree 38.292174' W). The Department of Fish and Wildlife is issuing a Streambed Alteration Agreement Number 1600-2014-0064-3.	<b>NOE</b>

2015018126	AT&T Rancho Palo Verdes Distributed Antenna System (DAS) Project Public Utilities Commission Rancho Palos Verdes--Los Angeles Installation of DAS micro-antenna; underground/overhead fiber; new/replacement poles; other associated equipment. DAS equipment will enhance the strength/geographic range of wireless signals in the Rancho Palos Verdes area.	<b>NOE</b>	
2015018127	Wormood Property Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma The purpose of the project is to renovate and elevate the existing house, garage and deck outside of the flood zone. The project will involve installing a new perimeter foundation on Helical Piers, new cripple wall framing with proper FEMA flood zone venting and drainage, and renovating the existing home including bathroom, kitchen, heating, electrical and plumbing systems, replacing windows and doors, insulation, drywall, and flooring. The garage will be rebuilt to legal depth and height, replacing doors and windows, and new slab floor. All located rotten lumber in both structures will be replaced during renovation.	<b>NOE</b>	
2015018128	Old Alturas Road Widening Project , J.O. 2415-20 (ED-01-15) Redding, City of Redding--Shasta The City proposes to rehabilitate and widen the existing roadway to include standard width lanes, center turn lane, 6 foot shoulders, and curb, gutter, and sidewalk along the south side. An existing 6-inch water line will be replaced with an 8-inch line, and culverts will be replaced. In two sections of the road, the old road will be removed and new structural sections placed. The entire project will be overlaid with new pavement and striping. The project will be constructed during the dry summer months.	<b>NOE</b>	
2015018129	Channel Capacity Restoration and Enhancement Project (Lake or Streambed Alteration Agreement No. 1600-2014-0376-R3) Fish & Wildlife #3 Union City--Alameda The project is limited to restoring channel capacity and enhancing lines M, M-3, and M-5. Line M is 1,598 feet, Line M-3 is 973 feet, and Line M-5 is 769 feet, for a total of 3,340 feet.	<b>NOE</b>	
2015018130	Pacific Gas and Electric Company Line the Castle Hill Ranch Road Gas Line Replacement Project Fish & Wildlife #3 Unincorporated--Contra Costa The project will take place within PG&E's easement in an area maintained by the City of Walnut Creek, and consists of installing a new gas service pipe. One off-pavement trench (2' wide, 25' long, and 4' deep) in the bed and banks of Tice Creek and one on-pavement trench (2' wide, 3' long, and 4' deep) will be needed to tie the new service pipe into an existing gas main. Soils removed from the trench (7.41 cubic yards) will be removed and taken to a PG&E yard for temporary storage.	<b>NOE</b>

<b><u>Documents Received on Tuesday, January 20, 2015</u></b>			
	borehole seismic vector sensor array in the existing Paulsson laboratory in Van Nuys; test the seismic array in the Paulsson laboratory to ensure array operation in geothermal wells at the Geysers; conduct passive seismic field surveys in two existing wells at the Geysers using the array developed, with an active seismic survey conducted for one of the wells; analyze data generated by field surveys; and prepare reports on the project results.		
2015018138	Entrance Sign Parks and Recreation, Department of --Los Angeles The project is to install a new park entry sign. The sign will be installed in place on the west side of the park, perpendicular to Avenue M. The new sign, which sits on a precast concrete monument base, is specially designed with two 18-inch diameter, 4-foot 10-inch deep footings with 2-inch metal tubes sticking out of them that slide into two holes on the bottom of the monument. The footings, 3 feet 4 5/8 inches apart from the center of each metal tube. In addition to excavating the footings, the ground will need to be leveled, so the footings and the base of the precast monumen are level.	<b>NOE</b>	
2015018139	Water Storage Tank Parks and Recreation, Department of --Kern Project is to replace the three concrete tanks with two new above ground 25,000 gallon steel water storage tanks. Replace the aqueduct main line from existing tanks to the new tanks. Install new distribution lines and valves from the tanks to the treatment plant and abandon the three concrete tanks. Area to the east, adjacent to the water treatment plant will be excavated to a depth of 12 inches x 16 feet diameter for each storage tank. Gravel will be placed and compacted and 16 foot gravel ring with gravel will be placed and anchored for each tank placement.	<b>NOE</b>	
2015018140	Restore Spring Parks and Recreation, Department of --Kern The project is to restore the natural flow of water by disconnecting an old existing PVC pipe that was diverting water from the natural spring. The water will empty into the existing (now dry) small wetland area and then into the natural stream channel. The water flow was estimated at approximately 135 gallons per day, and is sufficient to sustain a small pool of surface water for wildlife and a small patch of wetland vegetation. In order to avoid disturbance to this protected cultural resource site, ground disturbance will be avoided. A wildlife friendly water trough will be set on rocks on the surface of the ground within the existing channel.	<b>NOE</b>	
2015018141	Romero Visitor Center Erosion Repair Water Resources, Department of --Merced DWR San Luis Field Division staff will repair an erosion site along the eastern embankment of the Romero Visitor Center parking lot. Repair to the embankment is essential in order to maintain the integrity of the parking lot facility and water treatment structure.	<b>NOE</b>

	three to four month period.		
2012122038	<p>Level II Infill Correctional Facilities Project at MCSP - Secondary Effluent Spray Field Enhancement Measures</p> <p>Corrections and Rehabilitation, Department of Chino, Folsom, Vacaville, Lone, San Diego--</p> <p>CDCR is proposing to install and operate additional spray fields within existing CDCR property for the purpose of disposal of disinfected secondary-treated effluent generated by the MCSP WWTP. The proposed project would involve the installation of piping and irrigation equipment within approximately 60-70 acres situated between the new Level II dormitory complex, Preston Reservoir, and former Preston Youth Correctional Facility. New piping would connect to existing spray field distribution network. Effluent disposal activities within the proposed spray fields would occur weekly between the months of March and October pending soil conditions and would be monitored such that runoff does not leave the spray fields, in accordance with CVRWQCB requirements.</p>	<b>NOP</b>	02/19/2015
2015011028	<p>The Heritage Mixed Use Project</p> <p>Santa Ana, City of Santa Ana--Orange</p> <p>The proposed project would redevelop the site with residential and commercial uses in four phases. Phases one through three would develop 1,240 multi-family residential units in three buildings with adjacent parking structures surrounding a one-acre central private park area. In addition, 12,633 sf of retail space and 5,427 sf restaurant space would be on the ground level of these buildings. The fourth phase would either develop a 66,000 sf office building or a 161 unit residential building. The density would be either 74 dwelling units du/ac with 1,401 total units or 68 du/ac with 1,240 total units. The project includes: a General Plan Amendment from IND to District Center, a Zone Change from M-1 to Specific Development, a development agreement, and a vesting map.</p>	<b>NOP</b>	02/19/2015
2015011029	<p>Betteravia Plaza General Plan Amendment, Rezone, Development Agreement, Tract Map and Conceptual Planned Development Permit for Future Mixed Use Development</p> <p>Santa Maria, City of Santa Maria--Santa Barbara</p> <p>The project would include a neighborhood-scale retail commercial center, compatible office development, and high density residential dwelling units at a maximum residential density of 17 dwelling units per acre. The project would eventually subdivide the 55 acre parcel into lots, and would accommodate up to 260,000 sf of retail commercial development; up to 136,000 sf of office development, and up to 239 high density residential units and associated public and private streets and infrastructure improvements.</p>	<b>NOP</b>	02/19/2015

The Project would be an approximately 150,000 sf, 7-story (75 feet) mixed-use building with approximately 37,385 sf of ground-floor retail, and 169 residential apartments on levels 2 through 7. Retail parking would be provided in one subterranean level and residential parking would be provided on levels 2 and 3. The Site is approximately 1/2 block south of the City of West Hollywood border at Romaine Street. The site is within the Hollywood Community Plan, zoned MR1-1 with a Limited Manufacturing land use designation.	<b>MND</b>	02/24/2015
2015012044	Advanced Health Care of Sacramento Sacramento, City of --Sacramento The project proposes the construction of a single-story, 32,106 sf surgical and stroke recovery center and short-term skilled nursing facility. Specific project elements include 40 patient rooms, therapy gymnasium, commercial kitchen and scullery, dining rooms, and 64 surface parking spaces (51 standard, 11 compact, and 2 Americans with Disabilities Act [ADA] accessible spaces). The use of ambulances and associated sirens for this facility is not anticipated. The facility would be functional 24-hours a day with an estimated total staff of 17 therapists, eight certified nursing assistants, six dietary staff, three housekeepers, and 10 nurses and administrative staff. The proposed project would require a development standards deviation due to the existence of an existing private sewer easement.	<b>MND</b>	02/23/2015

	programs for Clearlake's housing needs.		
2015012047	Divine Transportation Trucking Facility (PLN14-00053) Placer County Rocklin--Placer The applicant is requesting approval of a Minor Use Permit to construct a commercial trucking terminal and associated parking on an undeveloped, five-acre parcel located on Cincinnati Avenue in the Sunset Industrial Area.	<b>MND</b>	02/23/2015
2015012048	Emergency Drought Barriers Project Water Resources, Department of Oakley--Contra Costa, Sacramento, Yolo Rock (rip-rap) barrier weir structures would be installed at three sites (Sutter Slough, Steamboat Slough, and West False River) between 2015 and 2025. During this 10-year period, the barriers could be installed up to three times, including potentially in consecutive years. The purpose of the barriers is to reduce the intrusion of saltwater into the Delta during drought conditions when stored water in upstream reservoirs available for release is insufficient to meet Delta outflow required to repel San Francisco Bay salinity, which could (1) render Delta water undrinkable and affect roughly 25 million Californians, (2) render Delta water unusable by agriculture, and (3) decrease freshwater habitat in the Delta for sensitive aquatic species.	<b>MND</b>	02/23/2015
2015012049	NCRSP PCL 49 Bayside Church/Topgolf; File# PL14-0252 Roseville, City of Roseville--Placer The applicant requests approval of a Major Project Permit (MPP) Stage 1 to establish a site development plan (master plan) for the approximately 59-acre site; a MPP Stage 2 for architecture and landscaping for the Topgolf development on Parcel 8 and associated site, landscaping and utility improvements; a Conditional Use Permit to allow the outdoor recreation component of Topgolf; and a Tentative Subdivision Map to merge and resubdivide two parcels into nine parcels. The entitlements will allow the phased development the project site with 130,000 sf of community assembly (Bayside Church), 64,232 sf of indoor/outdoor recreation (Topgolf), 116,500 sf office, and 76,900 sf of commercial a 25 parking space park-n-ride lot and the realignment of a City bike trail.	<b>MND</b>	02/23/2015
2000102053	Revisions of Approved Actions Application for an Existing Quarry Excavation (Qx-99-0002) San Joaquin County Tracy--San Joaquin Revisions of Approved Actions Application No. QX-99-0002 of George Reed, Inc. for an existing Quarry Excavation permit (QX-99-0002) to extend the life of the project from 12 years to 15 years and allow for final reclamation. The project site is located on the southwest quadrant of Mackville Road and the Mokelumne River, north of Clements (Supervisory District 4).	<b>NOD</b>	
2011061060	Reservoir No. 1 Reconstruction Project Burbank, City of Burbank--Los Angeles The State Water Resources Control Board (SWRCB), as the responsible agency, will be issuing a water supply permit. The City of Burbank proposed project demolished Reservoir No. 1 and constructed two concrete reservoirs - Reservoir No. 1A and Reservoir No. 1B.	<b>NOD</b>

2015011036	Rule 2202 Emission Reduction Quantification Protocol for Electric Vehicle Charging Station Project South Coast Air Quality Management District Diamond Bar--Los Angeles The SCAQMD is developing a Protocol to establish procedures for evaluating, approving and monitoring future electric vehicle charging station projects submitted under the Rule 2202 Air Quality Investment Program solicitation or pursuant to Rule 2202(f)(6) as amended in June 2014 by the SCAQMD Governing Board. The goal of the Protocol is to provide incentives for the deployment of workplace electric vehicle charging stations through the generation of Rule 2202 credits. Electric vehicle charging station projects may generate Rule 2202 credits at any location within the jurisdiction of the SCAQMD where charging stations can be installed for use by the general public or private parking lots and structures accessible only to employees. This includes any worksite where the employer is subject to Rule 2202, provided that the vehicles accessing the charging stations are not used by that employer to comply with Rule 2202's Average Vehicle Ridership target. To evaluate any potential environmental impacts from the installation and operation of future electric vehicle charging station projects, an environmental analysis was conducted using a known proposed project to expand and upgrade electric vehicle charging infrastructure as an example for a "worst case" impact scenario. The environmental analysis in the Draft EA concluded that this proposed project would not generate any significant adverse environmental impacts.	<b>EA</b>	02/24/2015
2014061015	Orcutt Key Site 3 Santa Barbara County --Santa Barbara The proposed project includes a General Plan Amendment request to change the existing Land Use Designation of Residential Ranchette with corresponding Zoning of RR-10 to Planned Development with corresponding Zoning of Planned Residential Development 125 Dwelling Units (PRD-125). The project also includes a Vesting Tentative Tract Map to divide the 138.6-acre Key Site 3 parcel into: 1) 125 residential lots that range in size from 3,135 s.f. to 15,590 sf; 2) seven private open space lots; 3) one public open space lot; 4) three lots for private roadways; and, 3) two lots for condominium development.	<b>EIR</b>	03/11/2015

2015012057	2015-2022 Housing Element Update Livermore, City of Livermore--Alameda The project is the adoption of the 2015-2022 Housing Element of the City of Livermore General Plan. Consistent with State law, the Housing Element assesses existing and future housing needs, analyzes opportunities and constraints to residential development, describes housing-related programs, and establishes goals, policies, and objectives to meet housing needs. The Housing Element includes a land inventory that demonstrates existing land use plans provide sufficient capacity for residential development to meet the City's Regional Housing Needs Allocation (RHNA), as determined by the Association of Bay Area Governments (ABAG). The project does not include the rezoning or re-designation of any properties, nor does it propose site-specific development.	<b>Neg</b>	02/24/2015
2001052081	Forward Landfill, Inc. San Joaquin County Manteca--San Joaquin Allow for a combined 46,080 tons per week 8,668 tons per day for the adjacent landfill and RRF, consistent with language in Forward Landfill SWFP.	<b>NOD</b>	
2012052017	EchoWater Project (formerly the Advanced Wastewater Treatment Plant Project) Sacramento Regional Sanitation District Elk Grove--Sacramento The 437-acre Echowater Project consists of expanding the Sacramento Regional Wastewater Treatment Plant facility to comply with updated NPDES permit requirements for the discharge of treated effluent.	<b>NOD</b>	
2012092050	M&T Chico Ranch/Llano Seco Rancho Fish Screen Facility Short-Term Protection Project Fish & Game #2 --Butte, Glenn The Project involves dredging that will remove in-river sedimentation from the Sacramento River to allow parallel sweeping flows at the M&T Chico Ranch/Llano Seco Rancho fish screen and pumping facility (M&T/Llano Seco Pumps Facility) in order to maintain functionality while continuing to meet National Marine Fisheries Service (NMFS) and CDFW fish screen criteria. It is anticipated that up to two dredge cycles (during separate years) could occur, potentially removing up to 100,000 cubic yards of material per cycle, in the area immediately upstream, adjacent to, and downstream of the M&T/Llano Seco Pumps Facility via suction dredge. The first dredge cycle is currently proposed for 2015. The Project also includes approval for the continued presence of the revetment installed during the fall of 2007, as well as implementation of maintenance activities that may be required while the revetment remains in place until a long-term solution is completed.  The Project will result in temporary direct and in-direct impacts to habitat for spring-run and winter-run Chinook salmon ( <i>Oncorhynchus tshawytscha</i> ) which are designated as a threatened and endangered species, respectively, under the California Endangered Species Act (CESA), and is expected to result in take of these species, as defined in Fish and Game Code section 86. To authorize such take, CDFW issued to the Project applicant an incidental take permit pursuant to CESA (ITP No. 2081-2014-015-02). The ITP as issued by CDFW authorizes incidental take of Covered Species, subject to various terms and conditions,	<b>NOD</b>

	including the requirement that all authorized impacts are fully mitigated.		
2013082058	Tuolumne River Parkway Project Waterford, City of Waterford--Stanislaus A phased development of recreational access, trail improvements with recreational facilities including parking areas, restrooms, picnic tables, access stairways and ramps, interpretive signage kiosks, approximately 1.25 recreational trail, expansion of existing park facilities, and a fishing/observation platform, within a 1.25 open space corridor along the north bank of the Tuolumne River.	<b>NOD</b>	
2013102038	Interstate 280 Repair Pipe System and Backfill Sinkhole Caltrans #6 San Mateo--San Mateo The California Department of Transportation (Caltrans) proposes to replace a failed drainage pipe west of Interstate 280 at post mile 9.4. The 60-inch corrugated metal pipe, which has failed along a portion of its length, has created a sinkhole sufficiently large enough to begin impacting an existing maintenance access road and supporting fill slope of Interstate 280. The sinkhole continues to pipe debris and material during rain events into Lower Crystal Springs Reservoir, a San Francisco Public Utility Commission drinking water source. The failed pipe was spot-repaired and the sinkhole backfilled in an emergency maintenance activity in October and November of 2013.	<b>NOD</b>	
2014082075	Sheep Ranch Shoulders Caltrans #6 --Mono The project would widen the paved shoulders on U.S. Highway 395 from 2 feet wide to 8 feet wide from post mile 80.6 to 84.1. The project would also correct pavement cross-slopes, install ground-in rumble strip in the shoulders, stabilize road cuts, construct a retaining wall, and install metal beam guardrail. Minimal additional right-of-way at five locations will be required as well as a temporary construction easement which will be requested for contractor staging area. All right-of-way acquisition will be from U.S. Forest Service.	<b>NOD</b>	
2014102081	Gerald Smith 4-Lot Split Scotts Valley, City of Scotts Valley--Santa Cruz Mitigated Negative Declaration (environmental review document), Minor Land Division to divide a vacant 15-acre lot into four lots for future residential construction, and Design Review to create cuts of 2:1 (horizontal to vertical), allow private access road slopes ranging between 15.1% - 20%, and a private access road width of 20 feet, subject to mitigation measures and conditions in the Rural-Residential (R-R-2.5) zone.	<b>NOD</b>	
2014111050	Willow Creek NewCo. LLC / Minor Use Permit / DRC2013-00028 San Luis Obispo County --San Luis Obispo A request by Willow Creek NewCo. LLC for a Minor Use Permit to allow for the phased expansion of an existing agricultural processing facility (olive oil and wine). Construction is proposed to include demolition and replacement of an existing 6,946 square feet (sf) barn and two new buildings (2,600 sf and 3,000 sf) that will include processing areas, tasting room, retail sales, commercial kitchen, office, and storage. The project also includes a request for 25 temporary events annually with no more than 200 guests per event and to allow for the processing of off-site	<b>NOD</b>

	olives. The applicant is requesting modifications to ordinance standards to allow adjustments to the required setbacks, and an increase to the limits of retail sales area. The project will result in the disturbance of approximately 3.5 acres on a 120 acre parcel.		
2014112040	Casa Buena Townhomes Corte Madera, City of Corte Madera--Marin The project proposes the development of 16 attached townhomes on an approximately 1.23-acre site at 1421 to 1425 Casa Buena Drive. The townhomes would consist of four buildings with different designs and will vary between two- and three- story units, with units having either 3 or 4 bedroom floor plans. The project proposes a maximum building height of 35 ft, 7 in. where 30 feet is allowed. The project also requests a 25-foot rear yard setback where 35 feet is required. The project requires a Tree Permit for the removal of 15 protected trees. Required permits include Tentative Map, Conditional Use Permit, Design Review Permit, Granting a concession and reduction of development standards.	<b>NOD</b>	
2014112064	CDBG Public Improvement Project Public Waterline Improvements Etna, City of Etna--Siskiyou The project constructs approximately 2,300 feet of 6-inch water supply line that ties into the City's existing water distribution network. The improvements are to be installed within the public right-of-way of State Highway 3 and City streets. The project will provide a looped water system to provide greater operating efficiencies, maintenance and consistent water pressures; the project will also provide water supply to existing residences within the City's water service district.	<b>NOD</b>	
2014122032	PA-1400216 (DV) San Joaquin County Stockton--San Joaquin A Deviation application of Waterloo Park Plaza (c/o Pat McCuen) to increase the permitted fencing height from 7 feet to 8 feet in the C-G (General Commercial) zone to allow for an 8-foot tall fence consisting of 6 feet of masonry and 2 feet of wrought iron along the northern property line abutting a residential zone. This parcel is not under a Williamson Act contract. The Property is zoned C-G (General Commercial) and the General Plan designation is C/G (General Commercial). The project site is located at the northeast corner of State Route 88 and Wilcox Road, Stockton. (APN/Address: 087-100-64/2720 N. Wilcox Road, Stockton) (Supervisorial District 4).	<b>NOD</b>	
2015019004	Lake or Streambed Alteration Agreement No. 1600-2014-0290-R1 "Gilman" THP Forestry and Fire Protection, Department of --Shasta The project is described in Timber Harvesting Plan (THP) 2-14-072-SHA and is limited to 4 encroachments including the installation of 2 permanent corrugated metal pipe (CMP) watercourse crossings, 1 temporary CMP watercourse crossing, and 1 drafting site.	<b>NOD</b>

2015011039	<p>Proposed Amended Rule (PAR) 1420.1 - Emissions Standard for Lead and Other Toxic Air Contaminants from Large Lead-Acid Battery Recycling Facilities South Coast Air Quality Management District Diamond Bar--Los Angeles</p> <p>PAR 1420.1 would further protect public health by reducing lead emissions produced by large lead-acid battery recycling facilities. PAR 1420.1 would accomplish this by lowering the ambient lead concentration limit, imposing additional housekeeping, lowering the point source limit, and requiring daily monitoring. Owner/operators of affected facilities would be required to meet an interim for ambient lead limit of 0.110 micrograms per cubic meter averaged over any 30 days effective January 1, 2016. The limit would be further reduced to 0.100 ug/m3 effective January 1, 2017. Improvements to building enclosures and additional control equipment may be necessary to comply with the proposed ambient standard. The environmental analysis in the Draft SEA concluded that PAR 1420.1 would not generate any significant adverse environmental impacts. PAR 1420.1 would affect two facilities that are on lists of DTSC hazardous waste facilities per Government Code S65962.5.</p>	<b>EA</b>	02/25/2015

	addition school bus parking space, and addition of approximately 18 parking light poles; improvements of the fire district access to the interior of the campus, removal of 29 trees and work within the drip line of 24 trees, and grading involving approximately 1,162 cubic yards.		
2014111060	Avenue 16 1/2 Bridge Replacement at Dry Creek Madera County Madera--Madera The existing timber deck on simple steel stringer bridge and abutments will be removed and replaced with a 32-foot wide, 34.5-foot long, cast in place reinforced concrete slab, supported by abutments with precast concrete piles above the creek bed. No center support within the creek bed is proposed. The new bridge will not include additional travel lanes. The most economical alternative for vehicle access during construction is a road closure and a traffic detour to either side of the bridge.	<b>NOD</b>	
2014111061	Road 427 Bridge Replacement at Oak Creek Madera County --Madera The existing two-lane bridge, which is a reinforced concrete slab bridge, and guard rail, chain link fence, pier and abutments, will be removed and replaced with 69-foot long, 53.5-foot wide, precast concrete girders with reinforced concrete deck structure over cast-in-place abutments. The bridge will conform to the existing approach road width. No center support within the creek bed is proposed and the project will not include additional travel lanes. One land of the bridge will remain during the construction phase to avoid road closure.	<b>NOD</b>	
2014111062	Road 23 Bridge Replacement at Dry Creek Madera County Madera--Madera The existing concrete deck bridge on steel girders, pier, and abutments will be removed and replaced with a 43-foot wide by 80-foot long, precast concrete deck structure, supported by concrete abutments with precast concrete piles on either side of the creekbed. The project will require only minor modifications to the horizontal or vertical alignment of the existing roadway. The bridge will conform to the existing approach road width. The road will be closed during construction and traffic detour routes will be identified in the Project's Traffic Control Plan. The project footprint will be within the existing County right-of-way (ROW) and will not require acquisition of additional ROW.	<b>NOD</b>	
2014122042	Calaveras River Lagorio C14-E Pump Stockton East Water District --San Joaquin This project involves the installation of a removable river pump in the Calaveras River. The construction involves excavating approximately 7.5 cubic yards of soil and covering it with rip-rap to protect the bank from water erosions. A 48"x48" concrete slab will be placed on the low flow access road to mount the removable river pump during irrigation season. Twelve (12) inch diameter PVC pipe will be laid underground from the low flow access road to the farmers existing irrigation line.	<b>NOD</b>

2014122043	Calaveras River Giannecchini C13-D Pump Stockton East Water District --San Joaquin This project involves the installation of a removable river pump in the Calaveras River. The construction involves excavating approximately 5.0 cubic yards of soil for the installation of a removable pump and a 12-inch diameter pipe. A 4x4 foot concrete slab foundation and pump hose will be placed on the river low flow access road to mount the removable river pump during irrigation season. All disturbed and restored banks will be covered with rip-rap to protect bank from winter flow erosions.	<b>NOD</b>	
2014122069	Extraction Well No. 1 Stockton East Water District Stockton--San Joaquin Construction of a new groundwater well on the premises of the Dr. Joe Waidhafer Drinking Water Treatment Plant (DJWDWTP). The construction involves drilling a well approximately 400 feet deep, with an estimated production rate of 2,000 GPM. The project also includes constructing a 10x18 foot concrete slab foundation and block house to protect the wellhead, motor, instrumentation, control, and electrical equipment. The well will serve as a dry year supplemental supply of raw water to the DJWDWTP. The discharge of this well will be into the South Raw Water Reservoir and all water pumped will be treated prior to delivery to the Urban Contractors distribution systems.	<b>NOD</b>	
2015018217	Walmart Road Wood Pole Replacement Project Sacramento Municipal Utility District --Sacramento Improve and ensure safe and reliable electric service in Sacramento County, SMUD will replace a deteriorating wood distribution pole holding distribution wires north of Walmart Road in Sacramento County (existing easement). The pole is located in an irrigation channel that is dominated with Himalayan blackberry ( <i>Rubus armeniacus</i> ). SMUD proposes to replace the 40-foot-tall wood pole with a new wood pole approximately 45 feet tall. The new pole will be placed back into the existing hole of the old pole, at a depth of approximately 6 feet. The hole will be cleaned out using hand tools and the space around the new pole will be backfilled with compacted rock.	<b>NOE</b>	
2015018218	Deadman MBGR Caltrans #9 --Mono Replace the existing damaged guardrail along the highway with new current standard guardrail for the safety of the traveling public.	<b>NOE</b>	
2015018219	I-5 French Camp Landscaping Caltrans #6 Stockton--San Joaquin The project would plant landscaping and irrigation to support landscaping, at the State Route 5 and French Camp Road interchange.	<b>NOE</b>	
2015018220	Preserve and Extend the Life of the Existing Pavement Caltrans #4 --San Mateo Resurface existing AC pavement and replace PCC slabs, shoulder backing, upgrade mbgr.	<b>NOE</b>

2015018221	Marysville Ring Levee Geotechnical Borings and Potholing Study Central Valley Flood Protection Board Marysville--Yuba The U.S. Corps of Engineers proposes to conduct geotechnical investigations with borings (sonic drilling) and potholing (hydrovac) on the Marysville Ring Levee, and adjacent to the levee. As part of the study, 3 borings would be drilled and up to 22 potholes would be excavated to locate underground utilities.	<b>NOE</b>	
2015018222	Redding Paroles' Office Corrections and Rehabilitation, Department of Redding--Shasta The Redding Parole Office will be relocating to a smaller office space to conduct office operations and parole services. Existing utilities - electricity, water and gas, wastewater, and refuse removal services - and existing parking are adequate to serve this property. The use is consistent with local zoning regulations.	<b>NOE</b>	
2015018223	Repair Two and Replace One Culverts - 1J550 / 0414000253 Caltrans #4 Tiburon--Marin Replacement, modification, or repair of culverts or other drainage facilities.	<b>NOE</b>	
2015018224	Fuel System Upgrades - Contra Costa Office California Highway Patrol Martinez--Contra Costa The proposed upgrades consist of installation of a second fueling dispenser, new AC/concrete paving, concrete curbs, drain insert system and bollards. The project will also upgrade exterior site lighting and construct ADA upgrades including path of travel, re-stripe parking stalls, signage, ramps and railings.	<b>NOE</b>	
2015018225	Correct the Approaching Travel Way at Clarinada Avenue Caltrans #4 Daly City--San Mateo Installing RSP, regarding, repairing conduit, reconstructing the AC dike. State of Emergency, as per gubernatorial proclamation dated December 22, 2014.	<b>NOE</b>	
2015018226	Obstacle Race, Lake Perris SRA (14/15-IE-15) Parks and Recreation, Department of --Riverside This event is a 10 mile cross country style running race. Along the way there will be approximately 20 obstacles (balance beams, pull up bars, tires, mud pit, heat tents, walls). All of these features and the course itself will be on existing fire roads, multiuse trails, and other developed use areas including parking lots, swim beaches and picnic areas. The permit requested is for 5000 attendees. This event will not impact the marina or boating; the park will remain open for the general public.	<b>NOE</b>	
2015018227	Group Camp Flagpoles, Lake Perris SRA (14/15-IE-14) Parks and Recreation, Department of --Riverside The proposed Eagle Scout Project would erect six (6) flag poles in the Group Camp area of Lake Perris S.R.A. The soils within the group sites are heavily disturbed and devoid of native shrubs. Each flag pole will be 20 feet high and require a concrete footing of 18" wide by 28" deep. Each flag pole will be installed in previously disturbed soils within the group camp area. The footings will be excavated with a hand held gas power auger and hand tools (shovels, picks, dig bars etc.).	<b>NOE</b>

	<p>Lot 3) would involve the development of two six-story structures containing residential uses and parking. The Project Site comprises two lots totaling 222,906 sf of land area: Lot 2 comprises 112,804 sf and Lot 3 comprises 110,102 sf. The Proposed Project would include a total development of 661,168 gsf, including 379,920 gsf of residential floor area and 231,248 gsf of parking and circulation areas.</p> <p>The Proposed Project would include the construction of two residential structures identical in design, building height, and floor area. Both structures would include two above-grade levels of parking with four levels of residential uses above the parking levels. Both buildings will include 176 multi-family apartment units, for a total of 352 residential units (176 one-bedroom units and 176 two-bedroom units). The maximum building height on the Project Site would be approximately 65 feet. The apartment units would range in size from approximately 728 sf to approximately 1,087 sf.</p>		
2015012060	<p>UP14-0006 - Pristine Sun (Dacy) Butte County Chico--Butte Note: Refer to Re-circulated submitted on 02/25/2015.</p>	<b>MND</b>	
	<p>A conditional use permit to develop a 1.25 megawatt grid-tied distributed generation solar energy facility. The facility is composed of 5,730 pole-mounted, single axis tracking photovoltaic modules to be situated on approximately 12.35 acres in the souther portion of the 95.25 acre parcel.</p>		
2015011042	<p>5750 Hollywood Boulevard Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project would redevelop the site with a 7-story mixed-use building, 86 ft in height, and consisting of 161 dwelling units and 5,747 sf of ground-level retail space. Project development would result in 172,800 sf of floor area and an FAR of 3.73:1. Five of the units would be live/work lofts with ground-level retail space along Hollywood Boulevard. Fourteen (14) dwelling units would be set aside for Very Low Income households. The project would include common and private open space and amenities for use by residents. Vehicle access would be provided from Hollywood Boulevard at the eastern boundary, while pedestrian access would be provided from Hollywood Boulevard near the northwest corner of the Project Site. A total of 271 parking spaces and 96 bicycle parking spaces would be provided in 2 subterranean and 1 at-grade parking levels.</p>	<b>NOP</b>	02/26/2015
2015012059	<p>1979 Mission Street Mixed-Use Project San Francisco, City and County of San Francisco--San Francisco The project site is 57,312 sf. The proposed project would demolish the existing two buildings on the site, and construct a new 10 story, 105 foot (121 feet with elevator penthouse) residential building with ground-floor retail uses along Mission Street and 16th Streets. The site is located in the Mission Area Plan area of the Eastern Neighborhoods Rezoning and Area Plans, and the proposed project was analyzed at the program level in the Programmatic Environmental Impact Report for the Eastern Neighborhoods Rezoning and Area Plans. The proposed building would have a total of 389,808 gsf, which would include 291,923 gsf of residential uses (331 dwelling units); 32,676 gsf of commercial space; and 65,209 gsf of parking (163 off-street parking spaces and 162 Class I bicycle parking spaces), and loading and building services.</p>	<b>NOP</b>	02/26/2015

2015012062	Davis Woodland Water Supply Project (DWWSP): Aquifer Storage and Recovery Project Supplemental EIR Woodland Davis Clean Water Agency Woodland, Davis--Yolo The project would convey water diverted from the Sacramento River by the DWWSP through treatment infrastructure then through the existing potable water transmission systems of Woodland and Davis, to one or more proposed aquifer storage and recovery (ASR) wells. When needed to supplement water supplies, the water retained in storage would be extracted from the aquifer through the proposed ASR wells or other existing wells within the Cities' network of pumping facilities. Proposed facilities include (1) up to six ASR wells to serve the City of Woodland and up to five ASR wells to serve the City of Davis; (2) pipeline connections, pumps, and other appurtenances needed to deliver and inject water into the proposed ASR wells; and to extract and deliver the stored water from the ASR wells to the Cities' distribution systems.	<b>NOP</b>	02/26/2015
2014071006	Caltrans Surplus Property Sale Caltrans #7 Pasadena, Los Angeles, City of--Los Angeles Caltrans proposes to sell 20 properties in the City of South Pasadena. These properties were once acquired as part of a proposed surface freeway project but now have been deemed surplus.	<b>Neg</b>	02/26/2015
2015012061	UC Davis Large Lecture Hall University of California, Davis Davis--Yolo UC Davis proposes to construct and occupy a two-story lecture hall of approximately 17,500 sf within the UC Davis core campus. The project site at the southwest intersection of Kleiber Hall Drive and California Avenue would include additional bike parking and a pedestrian plaza as part of the project. The lecture hall would provide 550 to 600 seats for campus lectures and would help to better serve the increasing demand for lecture space on the campus.	<b>Neg</b>	02/26/2015
2015012067	Remediation of Solid Waste Management Unit Number 4 at USS- POSCO Toxic Substances Control, Department of Pittsburg--Contra Costa DTSC is considering approval of a Resource Conservation Recovery Act Corrective Action Statement of Basis for the USS-POSCO Industries site (UPI) in Pittsburg, California, pursuant to Health and Safety Code, Division 20, Chapter 6.5. The purpose of the corrective action is to remediate soil, soil gas, and groundwater contamination associated with Solid Waste Management Unit 4 at UPI. The remedial alternative includes targeted removal of soil, extraction of soil vapor and groundwater within the area where the original release took place, in-situ treatment of groundwater in the most contaminated segments of the plume, and installation of a reactive barrier along the property boundary to prevent the migration of contaminants in concentrations above aquatic habitat protection levels. The alternative also includes implementation of a long-term groundwater monitoring system, and preparation and recordation of a Land Use Covenant restricting land use to Industrial and prohibiting the beneficial use of groundwater within the surface area of the land being remediated.	<b>Neg</b>	03/26/2015

2012082042	<p>Marino Water Rights Project State Water Resources Control Board --Napa</p> <p>The Marino Water Rights Project (Water Right Application 30384) includes permitting of the diversion of a total of 245 acre-feet of water to storage from December 15 through March 31 of the succeeding year in two reservoirs. Water would be used for recreation, fire protection, wildlife enhancement, and irrigation, frost protection, and heat control of a 214-acre vineyard.</p>	<b>NOD</b>	
2013052032	<p>Wastewater Treatment Plant Secondary and Tertiary Improvements Project Davis, City of Davis--Yolo</p> <p>The Project site consists of approximately 26.5 acres, with 1.4 miles of discharge pipeline, and the construction staging areas (on site at the WWTP and the 20 foot staging area along the pipeline alignment). The existing wastewater treatment system at the WWTP consists of an influent pump station, mechanical bar screen, an aerated grit tank, three primary sedimentation basins, two aeration ponds (typically used in water), three facultative oxidation ponds, a lemna pond, an overland flow system, a chlorine disinfection system, and restoration wetlands. Solids collected from the primary sedimentation basins are treated in an anaerobic digester and then are dewatered in three on-site sludge lagoons. Treated solids are land applied on the City's overland flow slopes and the upland areas of the restoration wetlands. Treated effluent is discharged to the Willow Slough Bypass and/or through the Davis restoration wetlands to the Conaway Ranch Toe Drain, both of which are considered Waters of the United States under the Clean Water Act and tributary to the Yolo Bypass.</p> <p>The Project consists of new secondary treatment, tertiary treatment, and solids handling facilities. Specifically, the improvements include an activated sludge process including biological reactor vessels and secondary clarifiers for solids separation; new filtration facilities; additional disinfection facilities; and mechanical solids thickening, dewatering, and storage facilities. Use of the existing ponds will change from treatment to storage, and the overland flow system will be decommissioned as part of the WWTP treatment process. In addition, the Project also includes the construction of flood protection around certain WWTP facilities to reduce impacts associated with potential flooding. The restoration wetlands will remain in place.</p>	<b>NOD</b>

2014011081	<p>2014 General Plan Update Wildomar, City of Wildomar--Riverside</p> <p>The proposed project consists of adoption of an update to the City of Wildomar General Plan. The updated City of Wildomar General Plan would replace the existing General Plan, which was originally adopted in 2003 and revised by the County in 2008 prior to the City's incorporation. The updated City of Wildomar General Plan will be based on the City's currently adopted General Plan, but its tailored to include policies and standards for the provision of public services and infrastructure necessary to support future population growth specific to Wildomar. Beyond the physical needs of future population growth, the General Plan contains design and open space provisions. These provisions provide an important component of the planning process. The effect is a condensed and a concise General Plan that results in policies that better reflect the Wildomar Vision as it exists now. The City is not changing any existing land use designations or circulation patterns as part of this update.</p>	<b>EIR</b>	03/16/2015
2015011043	<p>Corti Residence (EA14-003) Del Mar, City of Del Mar--San Diego</p> <p>The proposed project consists of the site grading and construction of a new 7,091 sf, two-story, single family residence with an attached four-car garage on a 1.37 acre undeveloped lot. Outdoor decks, patios, planter areas, and a pool/spa are included in the proposal. The new residence would be accessed from a private street (Heather Lane) via a 15-foot-wide driveway that would commence at the southwest corner of the lot. The proposed project would also include a 25-foot wide fuel modification zone surrounding the improvements. This area would be cleared and replanted with native, fire-resistant vegetation species. One Torrey Pine tree would be removed and eight Torrey pine trees would be preserved.</p>	<b>MND</b>	02/27/2015
2015011044	<p>OC-44 Pipeline Rehabilitation Project Mesa Consolidated Water District Newport Beach--Orange</p> <p>The proposed project would rehabilitate approximately 1,700 linear feet of the OC-44 Pipeline by inserting a new pipeline inside the existing pipeline. Due to the biological and hydrologic sensitivity associated with San Diego Creek and Bonita Creek, it is impractical to utilize conventional open trench excavations (disrupting the surface conditions) to replace the existing OC-44 Pipeline. Thus, the project proposes a trenchless rehabilitation technique, termed, sliplining. Through this process, a new pipe is installed inside the existing deteriorated pipe. Rather than conducting open trench improvements in the project area, the project proposes to slipline the existing 42-inch pipeline with a new 30-inch Ductile Iron Pipe. In order to accommodate these improvements, a pipe jacking operation would be conducted. As part of the proposed project, three access pits would be required. Implementation of the proposed project would also require temporary access roads for personnel and equipment to access the proposed pit locations. Upon completion of construction, the project site would be re-contoured to pre-construction grades and then would be re-vegetated with a native plant mix. The project site is not listed on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5.</p>	<b>MND</b>	02/27/2015

<b><u>Documents Received on Thursday, January 29, 2015</u></b>			
2015012063	Shoreline Maintenance Storage Plan Mountain View, City of Mountain View--Santa Clara The City of Mountain View proposes to consolidate materials storage for on-going maintenance activities associated with Shoreline Park. The project proposes placement of a new pre-engineered storage building in the existing Site B-1 maintenance yard. The project proposes to relocate three existing maintenance material storage containers located adjacent to Site B-1 over to Site B-2, and would also construct ten concrete soil and material storage bins on Site B-3. Site preparation and grading would be necessary to complete the project. New soil berms would also be installed at Site B-2 and Site B-3 to provide visual screening of the storage areas. The project is located on a closed Class III landfill and within the City of Mountain View Burrowing Owl Preservation Plan.	<b>MND</b>	02/27/2015
2015012068	Wastewater Treatment Plant Secondary Process Upgrade Auburn, City of Auburn--Placer The City is proposing a number of secondary process upgrades to the WWTP to improve performance, add process redundancy, and comply with expected new permit limitations. The project would construct a new oxidation ditch and associated facilities, including a new electrical building. The new oxidation ditch would be located within an existing treatment pond. The project would not increase the permitted amount of effluent discharged from the plant. Construction would begin in fall of 2015.	<b>MND</b>	02/27/2015
2015012066	Nishi Gateway Project Davis, City of Davis--Yolo The proposed project involves the annexation and development of approximately 47 acres of agricultural land with up to 650 multi-family residential uses, 325,000 sf of office/research & development space, and 20,000 sf of accessory commercial space within Yolo County. The 47 acres would be annexed by the City of Davis as part of the project. The project also involves the rezoning of approximately 11 acres within the City of Davis that would result in a net increase of 55,000 sf of commercial space upon redevelopment.	<b>NOP</b>	02/27/2015
2014102077	Yellow Creek Bridge Replacement Project Caltrans #2 --Plumas Note: Reference NOE: 2013128281 The CA Dept. of Transportation proposes to remove the existing Yellow Creek Bridge (Bridge No. 09-0008) on SR 70 and construct a new, single-span bridge on the same alignment as the existing bridge. The project will include bridge replacement, retaining walls, rock slope protection, metal beam guardrail, culvert work, grading, snow plow reflectors, bridge barriers, vegetation removal and tree clearing, earthwork, drainage improvements, utility relocation, paving, sign replacement, and striping. The project will require temporary stream diversion and right-of-way acquisition.	<b>Neg</b>	02/27/2015

2015012064	Henry Babich, Jr. - Environmental Review of a Coastal Development Permit - B33118C Del Norte County Crescent City--Del Norte Environmental Review for a Coastal Development Permit for a Shop. The applicant has proposed to construct an 8,000 sf metal storage building on an undeveloped parcel on Standard Veneer Road. The project is subject to an initial study pursuant to the CEQA due to its size. The building is proposed to be located immediately off of Standard Veneer Road in order to avoid impacts to wetlands on the back of the parcel. The applicant is proposing to construct a storage building with no plumbing. The location of the building is greater than 100-feet away from wetlands. The permit is recommended to be approved with conditions.	<b>Neg</b>	02/27/2015
2015012065	PA-1400260 San Joaquin County Stockton--San Joaquin A site approval application for agricultural truck parking for one truck and two trailers to include the use of an existing 1,750 sf building for truck maintenance.	<b>Neg</b>	02/27/2015
2011072055	Homes at Deer Hill (Terraces of Lafayette Project Alternative) Lafayette, City of Lafayette--Contra Costa The proposed project would redevelop the 22.27 acre project site (APN 232-150-027) with 44 single-family, detached homes and a community park. In addition, as part of the project, a dog park would be created on a 3-acre site on the north side of Deer Hill Road on APN 232-140-016. The project would require a General Plan Amendment, zoning amendment, Planned Unit Development, Hillside Development Permit, exemption from the 15-degree declination restriction and ridgeline setback requirement, Land Use Permit, Design Review, Tree Removal Permit, Grading Permit, subdivision, and Development Agreement.	<b>SIR</b>	03/16/2015
2002042134	Environmental Impact Report for the City of Oakley General Plan Oakley, City of Oakley--Contra Costa State Mandated Housing Element update required by Government Code Section 65583. Pursuant to Section 15164 of the CEQA Guidelines, an addendum to the Certified Oakley 2020 General Plan Environmental Impact Report (EIR) was prepared. The 2015-2023 Housing Element update is within the scope of the previously Certified Oakley 2020 General Plan Environmental Impact Report. The 2015-2023 Housing Element update as approved by the City Council amends the Oakley 2020 General Plan to incorporate said Housing Element.	<b>NOD</b>	
2006022091	Folsom Dam Safety & Flood Damage Reduction - Right Bank Stabilization Central Valley Flood Protection Board Folsom--Sacramento The Central Valley Flood Protection Board has prepared a Supplemental EA/EIR to the Final EIS/EIR prepared in 2007 for the Folsom Dam Safety and Flood Damage Reduction Joint Federal Project (JFP). This Supplemental EA/EIR proposes to implement slope protection measures to stabilize a portion of the right bank of the American river approximately 400 feet downstream of Folsom Dam. The proposed action will ensure stability of the right bank when stable flows from the main dam and auxiliary dam spillway converge. The potential effects on air quality, climate change, cultural resources, vegetation and wildlife, biological resources, and water quality are analyzed in detail.	<b>NOD</b>

<b><u>Documents Received on Thursday, January 29, 2015</u></b>			
2014012012	<p>Rinconada Water Treatment Plant Reliability Improvement Project Santa Clara Valley Water District Los Gatos--Santa Clara</p> <p>The District proposes to improve the existing water treatment train at the aging Rinconada Water Treatment Plant (RWTP) to improve drinking water quality and reliability of operations. The Project proposes demolition/removal of many of the existing treatment facilities and processes and reconstruction of a new state-of-the-art water treatment facility within the existing water treatment plant property, while keeping the plant running at all times. The four principal modifications to the RWTP are as follows:</p> <ol style="list-style-type: none"> <li>1) Addition of raw water ozonation facilities and processes;</li> <li>2) Replacement of the existing water clarification process/facilities with conventional flocculation and sedimentation processes with plate settlers;</li> <li>3) Removal and replacement of the water process filters; and</li> <li>4) Increase in plant capacity from 80 million gallons per day (mgd) to a maximum of 100 mgd to provide an increase in peaking capacity for plant reliability.</li> </ol> <p>In plain terms, the project is the systematic tear down of much of the existing steel and concrete structures (old water treatment facilities and processes) to reconstruct a new state-of-the-art water treatment facility on the existing water treatment plant property, while keeping the plant running at all times. The project includes the onsite temporary conversion of the lower sludge drying bed to a construction staging area and the offsite-temporary add 30-50 construction worker parking spaces during construction. The project includes green development features such as solar panels, a truck tire-wash (to keep trucks from tracking soil into the streets during construction), and recycling of construction/demolition debris (minimum 50%).</p> <p>Construction duration is expected to last five to seven years due to phasing and requirements to keep the plant running during construction. Construction is slated to start in 2015.</p>	<b>NOD</b>	
2014031010	<p>Laurel Creek Condominiums, PC24-027 Vista, City of Vista--San Diego</p> <p>The 8.43-acre proposed Project site is comprised of multiple parcels, including assessor parcel numbers APN 166-080-16, 18, 19, 24 AND 166-10-40, 41. Residential development surrounds the site on all sides. The proposed Project, which qualifies as an "infill project" because the site is entirely surrounded by urban development, is a proposal for a Site Development Plan and Condominium Housing Permit (PC2-073) and would create 71 single family condominiums and associated roads and driveways. Project activities include grubbing and grading of the entire Project site, trench digging, pile driving, road construction, tree removal, and other activities. The on-site population of the Covered Species is located in an area where construction of a paved road is planned.</p> <p>The Project will result in impacts to an estimated 500 to 600 individuals of Thread-leaved Brodiaea (<i>Brodiaea filifolia</i>) which is designated as an endangered species under the California Endangered Species Act. The Project will permanently remove these individuals and their habitat. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that</p>	<b>NOD</b>

<b><u>Documents Received on Friday, January 30, 2015</u></b>			
2015011049	<p>Recycled Water Program Expansion Upper San Gabriel Valley Municipal Water District El Monte, Industry, La Puente--Los Angeles</p> <p>The Project will include the construction of pipelines, booster stations, and a service reservoir to extend nonpotable recycled water service to portions of the Cities of La Puente, Industry, South El Monte, El Monte, and Pico Rivera. The Project will also include plumbing modifications to convert existing water users' irrigation systems from potable water supply to the recycled water supply. The Project includes the South El Monte Recycled Water Expansion Project and the La Puente Valley County Water District (LPVCWD) Recycled Water Project.</p>	<b>Neg</b>	03/02/2015
2014091064	<p>200 Acre Water Reclamation Area Project Lamont Public Utility District Lamont, Arvin--Kern</p> <p>Note: Response to Comment.</p> <p>The Lead Agency is proposing to utilize the 200 acres within the two parcels as a water reclamation area to irrigate farmland with treated effluent from the district's wastewater treatment facility. The water reclamation operations would be limited to irrigation of crops for non-human consumption (i.e. feed and seed crops). The project improvements will be constructed within Lamont Public Utility District's property and private property.</p>	<b>Oth</b>	
2014122054	<p>Village Parkway Extension Project West Sacramento, City of West Sacramento--Yolo</p> <p>Note: Response to Comments</p> <p>The City of West Sacramento, in cooperation with the Caltrans, is proposing a new 0.4-mile multi-modal roadway. The proposed project would extend Village Parkway from where it currently terminates at the intersection of Stonegate Drive to the Mike McGowan Bridge over the Yolo Barge Canal. The new roadway would be built to accommodate two 12-foot-wide lanes in each direction but would initially be striped for one in each direction. The proposed project would also include a 16-foot wide raised median, 6-foot wide bicycle lanes, 5-foot wide sidewalks set back from the curb by 5-foot wide landscaping strips, street lights, and underground utility infrastructure. The proposed roadway would connect to the existing roadways with two roundabout intersections.</p>	<b>Oth</b>	
2014052001	<p>Oroville Sustainability Updates Oroville, City of Oroville--Butte</p> <p>After a multi-year effort involving extensive community input, the City of Oroville adopted the Oroville 2030 General Plan on June 2, 2009. Since that time, the City has been proceeding with several key steps to implement the updated General Plan, including updating the Zoning Ordinance to bring it into conformance with the 2030 General Plan, preparing other updates to the Municipal Code, adding a chapter on low-impact development and resource-efficient design to the City's Design Guidelines, preparing a Climate Action Plan, and preparing a Balanced Mode Circulation Plan. In addition, the City is preparing targeted updates to the 2030 General Plan to strengthen the environmental, community, and economic sustainability of Oroville, as discussed in more detailed in Chapter 3 of the attached Draft SEIR.</p>	<b>SIR</b>	03/16/2015

<b><u>Documents Received on Friday, January 30, 2015</u></b>			
2011041084	State Route 41 Passing Lanes Project Caltrans #6 --Madera The California Department of Fish and Wildlife is executing a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Caltrans. The Project involves replacing and extending twelve jurisdictional culverts to accommodate the widening of SR 41 for the staggered passing lanes to be added.	<b>NOD</b>	
2011041084	State Route 41 Passing Lanes Project Caltrans #6 --Madera This proposed Project involves widening SR 41 for the addition of a northbound passing lane between PM 11.7 to PM 13.2 and a southbound passing lane from post mile (PM) 12.0 to 13.6. Construction will include a 12-foot median on the existing alignment and 8-foot outside shoulders on both north- and south-bound directions.  The Project will result in permanent impacts to 27.37 acres of upland habitat and 0.05 acres of aquatic habitat, and temporary loss of 14.77 acres of upland habitat of California tiger salamander ( <i>Ambystoma californiense</i> ). The Project may result in incidental take of California tiger salamander, which is designated as a threatened species under the California Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>	
2012011044	Downs Substation Expansion Project Public Utilities Commission Ridgecrest--Kern, San Bernardino This proposed Project involves the construction and operations and maintenance (O&M) of upgrades and expansion of the existing Downs Substation and performing modifications and upgrades to the associated transmission and telecommunications facilities in the greater Ridgecrest area.  The Project will result in permanent impacts to 11.33 acres of Mohave ground squirrel ( <i>Spermophilus mohavensis</i> ) habitat. The project is expected to result in incidental take of Mohave ground squirrel, which is designated as a threatened species under the California Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of Project implementation.	<b>NOD</b>	
2014071044	Flair Spectrum El Monte Specific Plan El Monte, City of El Monte--Los Angeles The project consists of 640,000 gross SF of retail and 50,000 SF of restaurant for an outlet mall, a 250-room hotel, and 600 residential units on the 14.66-acre project site. Subterranean and above-grade parking structures will be provided. The project includes the proposed retail, restaurant, hotel, residential, parking, and all facilities proposed within the project site, on- and off-site supporting improvements, and associated discretionary actions. The project would be developed in 2 phases (Phase 1: retail, restaurant, hotel, most parking; Phase 2: residential and remaining parking).	<b>NOD</b>

2014122054	Village Parkway Extension Project West Sacramento, City of West Sacramento--Yolo The City of West Sacramento, in cooperation with the California Department of Transportation, is proposing a new 0.4-mile multi-modal roadway. The proposed project would extend Village Parkway from where it currently terminates at the intersection of Stonegate Drive to the Mike McGowan Bridge over the Yolo Barge Canal. The new roadway would be built to accommodate two 12-foot-wide lanes in each direction but would initially be striped for one. The build alternative would also include a 16 foot wide raised median, 6 foot wide bicycle lanes, 5 foot wide sidewalks set back from the curb by 5 foot wide landscaping strips, street lights, and underground utility infrastructure. The purpose of the project is to construct a new north-south roadway connecting the Mike McGowan Bridge to Village Parkway; relieve current and projected traffic congestion on nearby Jefferson Boulevard; improve road access for residents in the Southport neighborhood; and reduce cut-through traffic on Stonegate Drive and Gateway Drive.	<b>NOD</b>	
201501825	SR-1 Drainage Repair and Improvements Caltrans #5 --Monterey The project will improve drainage at 3 locations on SR-1. Concrete culvert will be paved, and/or lined with a cured-in-place pipe. One drainpipe will be abandoned and plugged with a slurry cement backfill and a new drainage will be added.	<b>NOE</b>	
2015018255	Chickahominy Slough Check and Diversion Gate (Streambed Alteration Agreement No. 1600-2014-0223-R3) Fish & Wildlife #2 --Yolo Placement of irrigation water check and water diversion gate in Chickahominy Slough for purposes of routing supplied irrigation water to surrounding agricultural fields.	<b>NOE</b>	
2015018256	Woodward Crib Pier Repair (Lake or Streambed Alteration Agreement No. 1600-2014-0249-R2) Fish & Wildlife #2 --El Dorado The project is limited to removal of eleven pilings that have rotted; replacement with new steel pilings that will be driven into the lake bed and replacement of cribbing material around the existing rock of pier.	<b>NOE</b>	
2015018257	Parker Ranch Easement Acquisition California State Coastal Conservancy --Mendocino Funding of easement acquisition over approximately 2,554 acres of wetlands and forest by The Nature Conservancy for the purposes of open space and fish and wildlife habitat protection, and sustainable timber production.	<b>NOE</b>	
2015018258	San Luis Water District Interim Renewal of Central Valley Project (CVP) Water Service Contract via Contract No. 14-06-200-7773A-IR4 San Luis Water District --Merced The project is the execution of Interim Renewal Contract, #14-06-200-7773A-IR4, a water service contract with the United States Bureau of Reclamation (USBR) for the purpose of continuing delivery of CVP water within the District's service area boundary. The beneficiaries of the project are the District, its landowners and	<b>NOE</b>

	water users.		
2015018260	<p>City of Santa Monica Clean Beaches/WaterEnergy Project Santa Monica, City of Santa Monica--Los Angeles</p> <p>The project, which may be phased for purposes of construction and funding, consists of the installation of modular and ready-made tanks, containerized water treatment equipment, solar panels, and a brackish water extraction well on the beach to improve beach water quality, stabilize the City's use of recycled water, maintain groundwater aquifers, and conserve potable supply. Specifically, the City will install a containerized brackish water reverse osmosis (RO) treatment unit and solar panels at the City's existing Santa Monica Urban Runoff Recycling Facility (SMURRF).</p>	<b>NOE</b>	
2015018261	<p>City of Pasadena Local Ordinance No. 7234, Section 14.04.506 Energy Commission Pasadena--Los Angeles</p> <p>No project is being submitted by a private party, and thus there is no applicant. In enacting Ordinance No. 7234, section 14.04.506, the City of Pasadena establishes and mandates minimum thermal emittance and solar reflectance values for roofing materials in residential buildings. Section 14.04.506 ensures that residential buildings will exceed the current State energy standards by requiring the use of more energy efficient cool roof materials.</p>	<b>NOE</b>	
2015018262	<p>Elephant Seal Viewing Controls Parks and Recreation, Department of --San Luis Obispo</p> <p>Delineate and control elephant seal viewing areas at breeding and haul-out areas along the beaches of Hearst San Simeon State Park to increase visitor safety during seal watching and hiking while limiting disturbance and harassment of the marine mammals.</p>	<b>NOE</b>	
2015018263	<p>Swimming Pool Replacement California State University, Stanislaus Turlock--Stanislaus</p> <p>Reconstruction of existing swimming pool facility.</p>	<b>NOE</b>	
2015018264	<p>Temporary Authorization to Implement the Revised Detailed Containerization Plan for the Reverb Feed Room Floor at the Exide Technologies Vernon Facility Toxic Substances Control, Department of Vernon--Los Angeles</p> <p>The California Department of Toxic Substances Control (DTSC) is approving a request for Temporary Authorization for the temporary storage of reverb furnace feed material containing free liquids into lined and covered roll-off storage bins in various locations at the facility and the storage of reverb furnace feed material, passing the paint filter test, on a liner system within the containment building. This Temporary Authorization request applies to the Detailed Containerization Plan, Reverb Feed Room, Exide Technologies, prepared by Advanced GeoServices, dated October 31, 2014, revised January 14, 2015.</p>	<b>NOE</b>	
2015018265	<p>Newell Creek Reservoir Temporary Urgency Change Petition Renewal Santa Cruz, City of --Santa Cruz</p> <p>Renewal of Temporary Urgency Change Petition in accordance with the SWRCB rules to reduce the bypass/release requirements in order to preserve storage in Newell Creek Reservoir, which is needed due to drought conditions. Beneficiaries</p>	<b>NOE</b>
