

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

January 16 – 31, 2017

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 16 – 31, 2017**.

STATE CLEARINGHOUSE CONTACTS

Please contact the State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
E-mail: state.clearinghouse@opr.ca.gov
Website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown via email**.

STATE CLEARINGHOUSE MAILING ADDRESS

USPS: State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries: State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Office of Administrative Law California Code of Regulations and California Statute's websites at:

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, January 17, 2017</u>			
2015082029	Ponte Palmero Project El Dorado County --El Dorado Development of a retirement village to include a 44-unit community care facility, 46-unit assisted living and clubhouse.	EIR	03/02/2017
2016011053	Roberts Ranch Subdivision Hollister, City of Hollister--San Benito The proposed project is a prezone and annexation 54.9 acres to the city of Hollister, a vesting tentative map for a 206-lot residential subdivision and related infrastructure with a net residential density of 6.3 dwelling units per acre, and a planned unit development. The residential subdivision includes 192 single family residential lots, 14 multi family lots for which a PUD is required, and dedication of 2.54 acres of land adjacent to Valley View Park to enable the city to expand the park in the future. The 14 multi-family residential lots would consist of seven duplex lots and seven triplex lots. Pending annexation the proposed project would provide a total of 227 residences. The proposed project is consistent with the city of Hollister general plan low density residential land use designation residential density of 1-8 dwelling units per acre.	EIR	03/02/2017
2017014002	Draft EIS for Remediation of Area IV and the Northern Buffer Zone of the Santa Susana Field Laboratory U.S. Department of Energy Simi Valley--Ventura Note: Extended Review per lead This Draft SSFL Area IV EIS analyzes the potential environmental impacts of alternatives for conducting cleanup activities in Area IV of the Santa Susana Field Laboratory and the adjoining Northern Buffer Zone, located in Ventura County, CA. Remediation is needed to clean up residual chemicals and radionuclides from historical DOE operations at the ETEC in Area IV, in compliance with regulations, orders, and agreements. The alternatives analyzed in this draft EIS involve the disposition of remaining DOE facilities and support buildings, remediation of soil and groundwater, and disposal of all resulting waste at existing licensed or permitted facilities in a manner that is protective of the environment and the health and safety of the public and workers.	EIS	04/13/2017
2016101051	Post Road Hydro-Pneumatic Booster Pump Station and Pipelines Eastern Municipal Water District Perris--Riverside Eastern Municipal Water District intends to install a pre-packaged hydro-pneumatic booster pump station, approximately 2,420 lineal feet of 18-in diameter steel supply pipeline, and approximately 3,000 lf of 8-inch diameter polyvinyl chloride transmission pipeline.	FIN	
2016082006	Mercer Fraser Willow Creek Surface Mining Permit Humboldt County --Humboldt A 15-year permit term renewal for a previously approved gravel mining and processing operation which has been permitted and operating since 1969. The project includes a CUP extension, special permit extension, reclamation plan	MND	02/15/2017

	review, and review of financial assurance cost estimates for a surface mining and processing operation involving the annual extraction of 40,000 cy of sand and gravel from Trinity River gravel bars at the extraction site over a 15-year period. Additionally, a concrete batch plant would be sited at the project site.		
2017011030	CUP-S-778 Pre-Con Products Simi Valley, City of Simi Valley--Ventura The project proposal will authorize and construct an outdoor recycled concrete and concrete product storage yard on the south side of West Los Angeles Avenue approximately 4500 feet west of Madera Road. The project includes the grading and filling of the site, preservation of a majority of existing oak trees on the site, installation of underground drainage facilities to replace an existing surface drainage channel, grading and re-vegetation of a large slope adjacent to the Arroyo Simi, dedication of a 20' wide trail easement to the Rancho Simi Recreation and Park District, and paving both for a gated driveway connection to West LA Ave and for an internal access to connect the site to the main Pre-Con Products operation.	MND	02/15/2017
2017011032	Tentative Tract Map No. 73344 Lancaster, City of Lancaster--Los Angeles 18 single family lots in the R-7,000 zone.	MND	02/15/2017
2017011034	IS Application No. 7090 (Roman Catholic Bishop of Fresno) Fresno County San Joaquin--Fresno Allow a church with a 76-foot building height (max 35 feet allowed) with related facilities including daycare in the AE-20 Zone district. The project site is located on the west side of N. Thompson Avenue approximately 460 feet south of the N. Thompson Avenue and E. Ashlan Ave intersection and 1,940 feet east of the nearest city limits of the city of Clovis.	MND	02/15/2017
2017011035	Conditional Use Permit for a Large Agricultural Sales Facility, Case No. PL15-0100 Ventura County Fillmore--Ventura The proposed project includes a request for a CUP to construct and operate a large agricultural sales facility at 1782 East Telegraph Road in Fillmore for a period of 20 years. The project site is located on an approximately 23.7 acre lot; however, the CUP area is approximately 0.90 acres, or 39,330 sf. The applicant submitted the proposed CUP project application to operate a large agricultural sales facility and to abate violations discussed in further detail.	MND	02/15/2017
2017011036	Former Cogen Landfill Gas Extraction System and Monitoring Plan Project Los Angeles County --Los Angeles The project would involve (1) the installation and operation of a landfill gas extraction system, composed of a media bed treatment system connected by piping to up to five extraction wells; (2) the installation of two new LFG monitoring wells at the top of the slope in the northwestern portion of the landfill ; and (3) subsequent monitoring of LFG emissions from the county-owned portion of the landfill at six well locations and at surface locations with subsequent reporting to the local enforcement agency. There may be an off site electrical connection extending across Sheriff Road. The LFG extraction system would be constructed	MND	02/15/2017

	in one phase, from November 2017 through June 2018, including one month to allow for contingencies. The two monitoring wells would be installed in April 2017, prior to construction of the LFG Extraction System.		
2017011037	Big Sur Preservation Alliance - Lopez Point Monterey County --Monterey Combined Development Permit consisting of: 1) a coastal administrative permit for the construction of an 8,135 sf two-story single family dwelling with a 838 sf garage; 2) a coastal administrative permit for an 813 sf detached accessory dwelling unit; installation of a photovoltaic system, septic leach field system; conversion of an existing test well (PLN130057) to a permanent well; grading of approximately 4,100 cy of cut/4,100 cy of fill; 3) coastal development permit for the removal of 12 Cypress trees (ranging between 7" and 13" in diameter); 4) coastal development permit for development with a positive archaeological report; 5) coastal development permit for development within 100 feet of ESHA; and 6) a design approval.	MND	02/15/2017
2017011038	Eastbound State Route 22 Safety Improvement Project Caltrans #12 Orange, Santa Ana, Garden Grove--Orange Project proposes improvements on EB State Route 22 from east of Garden Grove Ave (PM R9.2) to Devon Rd (PM R10.8), in the Cities of Garden Grove, Orange and Santa Ana. Project converts a collector-distributor road to a freeway to freeway direct connector for I-5 SB. Also create a new freeway to freeway connector from SR-22 EB to I-5/SR-57 NB by re-striping and widening the connector to add one additional lane. Access to SR-22 EB from the Bristol Street on ramp is eliminated to accommodate the I-5/SR-57 NB connector. Other work: install new traffic control devices and upgrade existing traffic control devices. The existing HOV lane w/ continuous access is maintained. New Changeable Message sign installed just east of SR-39.	MND	02/15/2017
2017011041	Camelia Townhouse Project (Planning Application No. 16-0070)/Initial Study/Mitigated Negative Declaration (MND) Wildomar, City of Wildomar--Riverside The project site is located at the southeast corner of Palomar St and Jefferson Ave. The APN for the project site is 380-220-003. The southern property line of the project is also the boundary line between the city of Wildomar and the city of Murrieta. The project includes the following actions: change of zone, tentative tract map, and plot plan.	MND	02/16/2017
2017012039	Sanger Substation Expansion Project Public Utilities Commission Sanger--Fresno Note: Review Per Lead PG&E's proposed project consists of expanding Sanger Substation in unincorporated Fresno County, California, to contain a new breaker-and-a-half bus configuration. The proposed project consists of: Substation Expansion:PG&E would install equipment including circuit breakers, switches/disconnects, steel support structures for disconnect switches, bus supports and Capacitor Coupling Voltage Transformer equipment, two Modular	MND	02/21/2017

	Protection Automation Control buildings, and a microwave tower for communications. PG&E would also elevate the existing transfer bus and make alterations to interconnect reconfigured power lines. Substation Equipment Removal and Power Line Reconfiguration.		
2017012040	Antonio Mountain Ranch Mitigation Bank (PLN16-00064) Placer County Lincoln--Placer Project proposes a grading permit to construct a mitigation bank on a 794.1-acre site located at 2311 Fiddymet Road in Placer County. The Bank is intended to serve as mitigation for impacts to jurisdictional wetlands, pursuant to the Clean Water Act; impacts to protected species, pursuant to the federal and California Endangered Species Acts; and impacts to sensitive stream and riparian communities, pursuant to California Fish and Game Code Section 1600. The project site is located within the Sunset Industrial Area Plan area.	MND	02/15/2017
2017012041	Routine Maintenance of Stream Channels Sacramento, City of Sacramento--Sacramento Routine maintenance agreement with CDFW to work within stream channels in the jurisdiction of the city of Sacramento, Department of Utilities. Maintenance activities would include debris and obstruction removal, silt, sand, and sediment removal vegetation controls, non-native vegetation removal, repair of erosion control work, minor new erosion control work, and trash removal. The city of Sacramento, Department of Utilities is preparing this initial study/MND to meet the requirements of the CDFW section 1600 streambed alteration agreement.	MND	02/15/2017
2017012042	PA-1300173 (UP) San Joaquin County Ripon--San Joaquin A use permit application for a religious assembly facility with a max capacity of 350 people. The project consists of the construction of an 12,000 sf building, which include a prayer hall, offices, Sunday school classrooms, and a kitchen for religious assembly members only, and the use of the existing 1,780 sf residence for a minister residence.	MND	02/15/2017
2017011029	Truax Hotel Temecula, City of Temecula--Riverside The project would require approval of a specific plan amendment to realign a portion of the Hotel Overlay Zone in the city of Temecula's Old Town Specific plan. The project also includes a development plan application for a five story, 155,630 sf hotel generally located along the south side of 3rd Street between Old Town Front Street and Mercedes Street. The hotel will contain 151 guest rooms. A parking structure will also be constructed directly across 3rd Street. The parking structure will total 99,227 sf and contain 208 parking spaces that will provide the require parking for hotel guests. In addition, the project will include an approval of a tentative parcel map to convert two existing parcels into one and to merge eight parcels into one (along 3rd St between Front St and Mercedes St) to allow development of the hotel. 2017011031	The Plaza at Santa Monica Project Santa Monica, City of Santa Monica--Los Angeles The Project will demolish all existing on-site uses and construct a new 357,000 SF mixed-use building ranging in height from 19 to 129 feet. The building comprises a series of interconnecting bars that step back from a large ground level public plaza at the corner of 4th Street and Arizona Avenue. Each bar will house a different mix of uses including retail, restaurants, cultural, affordable housing, workspace, and hotel. Primary vehicular access for the project will be provided via two 34' driveways, one on 4th St. and one on 5th St. that will feed directly into the subterranean parking garage. All parking associated with the project will be contained onsite in a 3-level subterranean parking garage that will provide a total of 820 vehicular parking spaces, not including motorcycle parking.	NOP	02/15/2017
2017012043	Calaveras County Draft General Plan Calaveras County --Calaveras The proposed project is a draft general plan for Calaveras County. The proposed project is intended to guide growth and development within the county through the year 2035. The project is consistent with State law requirements and includes eight elements, a general plan land use map, and buildout projections for the county.	NOP	02/16/2017
2015082004	Security Communications Tower San Joaquin County Tracy--San Joaquin An ISD project to construct a 180-foot radio communications tower with equipment container, fencing, and 30' x 12' storage shed for storage of radio equipment. The purpose of the tower is to provide sufficient system capability to achieve broadband emergency radio coverage throughout San Joaquin County.	Neg	02/15/2017
2017011033	IS Application No. 7151 (Gabrielson Ranch) Fresno County Fowler--Fresno Amend the county general plan by re-designating a 0.45 acre (19,698 sf) portion of a 38.44 acre parcel from agriculture to limited industrial and rezone the site from AE-20 Zone district to an M-1(c) zone district to allow the expansion of an existing barrel cooperage operation. The subject property is located approximately 1,750 ft south of E. Central Avenue between S. Sunnyside and South Fowler Avenues and 2.1 miles north of the city of Fowler.	Neg	02/15/2017
2017012038	State Route 12/Church Road Intersection Improvements Project Caltrans #4 Rio Vista--Solano Caltrans proposes to enhance operation and safety characteristics at the intersection of SR-12 and Church Road by removing turn movements from the through traffic with the addition of a left turn lane, and providing acceleration/deceleration lanes for right turns.	Neg	02/15/2017
2016121034	Upland Hills Country Club Residential Project. Site Plan Review (SP-16-09); Design Review (DR-16-10); Conditional Use Permit (CUP-16-34); Site Plan Review	Oth

	Upland, City of Upland--San Bernardino Notes: Response to Comments		
	The proposed project consists of the development of 68 single family detached residential condominium units and approval of a development agreement to define the obligations and responsibilities of the property owner/developer/city as it relates to the implementation of the project. All units will be two stories with floorplans ranging in size from 1,390 to 2,420 sf. The units will be clustered around entries from the two-lane private neighborhood lane, including seven clusters of eight units and one cluster each containing two, four, and six units. Approximately 0.79 acre of private common open space and direct access to the adjacent Upland Hills Country Club facilities will be provided. Access to the project site is provided from 16th Street and North Upland Hills Drive. The project includes the reconfiguration of the parking lot all the project entrance and portions of the exiting golf course.		
1991105212	Lodestar Resoret and Country Club Mammoth Lakes, City of MAMMOTH LAKES--MONO The Tentative Tract Map is for a new single-family, eight lot subdivision in Development Area 2 of the Lodestar Master Plan.	NOD	
2004112054	Site Inspection Removal Action Work Plan (Former Camp Bente SI / RAW) Toxic Substances Control, Department of Marysville--Yuba, Nevada The project is the approval of the Quality Assurance Project Plan (QAPP) by the DTSC that would authorize a remedial investigation characterizing the nature and extent of munitions or explosive of concern (MEC), munitions debris (MD), and munitions constituents (MC) located in MRS 03 (approx. 7,725 acres). MRS 03 is located within the boundary of the previous Site Investigation conducted in 2005-2007, and is part of a training area historically used for US military training activities from 1940 to 1957. Munitions or Explosives of Concerned (MEC) found at MRS 03 as a part of this investigation, which present an imminent and substantia endangerment, will be destroyed by explosive demolition in place (UXO activities). DTSC prepared an IS/ND for the Site Investigation, which covered an area encompassing MRS 03. Based on the analysis, it was determined that there would be no significant impacts due to project activities. The activities that will occur as part of the current project are same as those that were previously analyzed and no new impacts have been identified. Major project tasks at the site are as follows: Perform Biological surveys for avoidance and protection of sensitive species and habitat. Identify cultural resources within the project area and avoid them during intrusive investigations and UXO activities. Perform Quality Assurance and Quality Control seeding in study area. Perform Analog Geophysical Surveys for MEC and MD surface clearance. Perform Digital Geophysical Surveys (DGS) for subsurface MEC identification. Perform Intrusive investigations of subsurface anomalies identified by DGS, and detonation in place of excavated MEC items (UXO activities) as required. Perform Surface soil sampling for MC as needed.	NOD

2010062020	Sly Park Road at Clear Creek Crossing Bridge Rehabilitation Project El Dorado County --El Dorado The RWQCB is issuing a Section 401 Water Quality Certification for the subject Project. The project consists of: 1) removing the existing bridge structure; 2) constructing new bridge foundations, abutments, retaining structures, deck, and guardrails; 3) widening and reconstructing Sly Park Road; 4) installing culverts and drainage facilities; and 5) realigning Clear Creek Road to match the new grade. The project will permanently impact 0.006 acre/80 linear feet and/or temporarily impact 0.029 acre/262 linear feet of waters of the U.S.	NOD	
2012102032	The Upper Llagas Creek Flood Protection Project Santa Clara Valley Water District --Santa Clara The project will provide 1 percent flood protection for West Little Llagas Creek in Morgan Hill, assure no induced flooding on Llagas Creek by upstream modifications along the reaches downstream of Morgan Hill, and provide 10-percent flood exceedance on East Little Llagas Creek. Major elements of the project will include flood protection features, geomorphic and creek stabilization features, habitat enhancement features, and maintenance features. The project is located along portions of East Little Llagas Creek, Llagas Creek, and West Little Llagas Creek, in Morgan Hill, San Martin, and Gilroy, in Santa Clara County. The CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2015-0356-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Normal J. Camacho/ Santa Clara Valley Water District.	NOD	
2013011001	Restoration of Historic Streetcar Service in Downtown Los Angeles Los Angeles, City of Los Angeles, City of--Los Angeles The City of LA is proposing to construct and operate electrically powered streetcar service in downtown LA. The Project, consisting of the Locally Preferred Alternative (LPA) - 7th Street Alignment without Grand Ave Extension (Alternative 3). The project route would run east on 1st Street from Hill and 1st Streets, turn south on Broadway, traveling to 11th Street where it would turn west and continue on to Figueroa Street. The streetcar would then turn north on Figueroa Street and travel to 7th Street, where it would turn east. From 7th Street, the streetcar would turn north on Hill Street, then continue back to 1st Street, completing the circuit by turning west on 1st Street to Hill & 1st Streets terminal point. Inclusion of Grand Avenue Extension remains an optional addition to the project pending future funding, and would run west on 1st Street from Hill Street, then south on Grand Ave to a terminal point north of 2nd Street (Alternative 2). The proposed Project includes a Maintenance Storage Facility (MSF) to provide a location for secure storage of streetcar vehicles when they are not in operation, and regular light maintenance of the vehicles to keep them clean and in good operating condition. The MSF site is located at the west side of Broadway between 2nd and 3rd Streets (EIR Site 4). There is an alternate MSF site located at the southeast corner of 11th and Olive (EIR Site 2).	NOD	
2013081079	Revisions to the Kern County Zoning Ordinance - 2015 C. Focused on Oil and Gas Local Permitting Kern County --Kern The originally approved project consists of an amendment to Title 19 Kern County Zoning Ordinance (July 2012), with focus on Ch. 19.98 (Oil and Gas Production),	NOD

	to include new site development standards for all oil and gas exploration, extraction, operations, and production activities in unincorporated Kern County. DOGGR, as the Responsible Agency, will be issuing a permit for the proposed project activity.		
2014081025	Draft Final EA; Replacement of Overhead Electrical Lines, Feeders N5, N9, and N10 Vandenberg AFB, CA U.S. Air Force Lompoc--Santa Barbara An amendment to the Site Access Agreement at Site SGH (listed on Attachment 1) allows for implementation of the LMR System, which consists of installation of antennas on an existing lattice tower and supporting radio equipment in a new shelter at a site within the County of Los Angeles. The environmental impacts of project implementation at this site were evaluated in an EIR certified by the LA-RICS JPA Board on March 29, 2016. There have been no changes to the project or to the circumstances under which the project is undertaken since that approval that would require new analysis or mitigation under CEQA.	NOD	
2014081025	Draft Final EA; Replacement of Overhead Electrical Lines, Feeders N5, N9, and N10 Vandenberg AFB, CA U.S. Air Force Lompoc--Santa Barbara LMR System Design updates at Sites AGH and VPK (listed on Attachment 1) to reflect updated LMR System Design based on ongoing design work. the LMR System consists of installation of antennas on existing and new monopoles and lattice towers and supporting radio equipment in existing and new shelters at sites primarily within the County of LA. Design updates include, but are not limited to, changes in the type of antenna support structure, shelter, generator, battery, etc. Further, the redesign has necessitated changes in the equipment counts and configuration (e.g., antennas, bay stations, equipment racks, and other auxiliary communications equipment) at particular sites to align with the new design.	NOD	
2016082021	Siemens Substation Project Sacramento Municipal Utility District --Sacramento SMUD proposes to construct a new substation that would occupy an approximately 0.16 acre site located at Siemens Industry, Inc. in Sacramento County, CA. The new substation would be located at 7338 French Rd, Sacramento, which is in south Sacramento County east of SR 99. The site is in an industrialized area south of Florin Rd and west of French Rd. The new Siemens substation would contain a single 20 MVA transformer and associated substation equipment. The project would also require a new telecommunications line and would reconfigure an existing cubicle on French Rd. This project would require new, local aboveground subtransmission and above and belowground distribution lines.	NOD	
2016092048	Brody Ranch Subdivision Petaluma, City of Petaluma--Sonoma The project includes zoning change from R4 to R5 to planned unit development to allow reduced lot sizes and setbacks for the single family component of the project, tentative subdivision map, tree removal permit and site plan and architectural review for the subdivision of a 15.92 acre site for redevelopment of 199 units include 59 single family homes, a duplex and 138 multi family units. 	Project amenities include open space and conservation easement, landscape buffers, pedestrian and bicycle trails, neighborhood park/picnic area, resident and guest parking and public parking for nine cars. Removal of all existing structures on the project site and 32 trees are to be removed.		
2016101012	Well 8A Development Project Big Bear City Community Services District --San Bernardino BBCCSD currently operates Well 8, which is located at the Big Bear Area Wastewater Reclamation Agency's Administration site. Well 8 is experiencing diminished water production. BBCCSD is proposing to drill, construct, develop and test a new well, Well 8A, to replace existing Well 8. The proposed new well will be drilled approximately 150 ft west of Well 8. This well is designed to replace well 8, which historically has been one of the district's largest water producers (about 550 gpm).	NOD	
2016101051	Post Road Hydro-Pneumatic Booster Pump Station and Pipelines Eastern Municipal Water District Perris--Riverside Eastern Municipal Water District proposes to construct and operate the Post Road Hydro-Pneumatic Booster Pumping Station and Transmission Pipeline Project (Project). The Project intends to increase low pressures in the higher elevations of the Good Hope II 1832 Pressure Zone (PZ 1832) and provide for a proposed 1910 Pressure Zone (PZ 1910). The BPS will be constructed on an access road, previously acquired by Eastern for the future Post Road Tank Project (future tank to replace existing Ellis Tank). The BPS consists of a hydro pneumatic tank, building to house the booster pumps, mechanical piping and required appurtenances. The Pipelines would include approx. 2,400 feet of parallel 18-inch diameter steel supply pipeline along Post Road and approx. 3,000 feet of 8-inch diameter PVC transmission pipeline along Ellis Ave., connecting from the existing Ellis Tank, continuing east to Meadow Lane.	NOD	
2016111017	Healthsouth Rehabilitation Hospital of Murrieta Project Murrieta, City of Murrieta--Riverside This proposed Project is the construction and operation of a two level approx. 68,968 sq. ft., 80 bed rehabilitation hospital building on the 4.72 gross acres proposed Project site. The project is proposed to be constructed in two phases. Phase 1 will be approx. 55,968 sf in size and contain 50 beds. Phase 2 will add up to approx. 13,000 sf and 30 additional beds for a total approx. 68,968 sf and 80 beds.	NOD	
2016112026	Stadium Area Master Plan Amendment, Residence at Five Creek, City Public Safety and Public Works Facilities Rohnert Park, City of Rohnert Park--Sonoma The proposed project would be located on a 15.30 acre parcel (Assessor Parcel Number (APN) 143-040-124) within the Stadium Area Master Plan area, bounded by Dowdell Avenue to the east, Labath Avenue to the west, Carlson Avenue to the north, and Hinebaugh Creek to the south. The northern portion of the site includes plans for the Residences at Five Creek, which proposes to include 135 multifamily residential units, 34,400 sq. ft. of commercial space, a 132-room hotel, and a 0.65 acre park. The southern portion of the site includes plans for a new City of Rohnert Park Public Safety facility (fire station) and Public Works corporation yard.	NOD

2010012010	State Route 132 West Freeway/Expressway Project Draft EIR / EA & Draft Final Remedial Action Plan Caltrans #6 Modesto--Stanislaus Note: Extended Per Lead	EIR	03/17/2017
------------	--	------------	------------

The California Department of Transportation (Caltrans), in cooperation with the Stanislaus Council of Governments (StanCOG) partnership, proposes to construct a four-lane freeway/expressway along the adopted route south of Kansas Avenue from Dakota Avenue (PM 11.0) to east of SR 99 at the Needham Street Bridge Overcrossing (PM 15.0). The total length of the project would be approximately 4 miles and would include connections on SR 99 from PM 15.7 to PM 17.5. Selection of either of the build alternatives would result in the containment of the Caltrans Modesto Soil Stockpiles retaining walls and bridge abutments and beneath highway pavements. The purpose and need are to improve regional and interregional circulation and relieve traffic congestion along existing SR 132.

The Project will permanently impact 0.02 acre/16 linear feet and temporarily impact 0.02 acre/20 linear feet of waters of the U.S.</p>	NOD	
2016041058	<p>Project Jupiter Distribution Warehouse Apple Valley, City of Apple Valley--San Bernardino</p> <p>The proposed 106.5 acre parcel to accommodate a 1,360,875 sq. ft. distribution center and associated ancillary facilities. The distribution warehouse will consist of a single, 45 foot high building consisting of primarily of warehouse space. Ancillary office space, including administration, shipping and receiving offices, are included in the building envelop. Separate guard house (510 sq. ft.) and fire pump house (1,080 sq. ft.) building are proposed on the east side of the site, at the project entrance. Parking areas, located on the east and south sides of the site. The site plan has also been designed to include storm water retention facilities on the west side of the site.</p> <p>Project also includes off-site improvements. These include roadway improvements to Navajo Road, Lafayette Street, and Dachshund Avenue; water main relocation and extensions on the frontage roadways; and undergrounding of power lines on Navajo Road.</p> <p>The proposed project occurs within the boundary of the North Apple Valley Industrial Specific Plan, which was adopted by the Town in Oct. of 2006. At that time, the town also certified an EIR for the entire Specific Plan.</p> <p>The Town has then prepared a subsequent MND/IS for the Project Jupiter Distribution Warehouse project, which tiers off of the Specific Plan EIR (SCH#2006031112). This EIR was prepared to review the environmental constraints and opportunities associated with imposing mitigation measures, the EIR was designed to be used as an information database to facilitate the streamlining, or tiering of the environmental review process for subsequent</p>	NOD

	<p>projects proposed within the Specific Plan boundary.</p> <p>The proposed project is consistent in size, land use, intensity and design with the development previously anticipated, analyzed, and approved as part of the Specific Plan and EIR. Because the proposed project is within the scope of the previously certified EIR, and consistent with the requirements of CEQA Guidelines Section 15162, a subsequent MND/IS has been prepared to examine the proposed project in the light of the Specific Plan EIR in order to determine if the proposed project would result in any impacts greater than those previously analyzed and disclosed.</p>		
2016092013	<p>Locke Ranch Fish Screen Project Fish & Wildlife #2 --San Joaquin</p> <p>To authorize an existing agricultural pump, 12-inch diameter pipeline, concrete outfall box, and fish screen on the left bank of the Mokelumne River.</p>	NOD	
2017019010	<p>Isabella Dam Safety Modification Project Regional Water Quality Control Board, Region 5 (Central Valley) --Kern</p> <p>United States Army corps of Engineers has determined that the Isabella Dam facilities require structural improvements in order to safety meet authorized project purposes and to reduce risk to the public and property from dam safety issues posed by floods, earthquakes, and seepage. The Corps is proposing risk reduction measures to minimize the potential for and consequences of a catastrophic downstream flooding event by remediating the significant seismic, hydrologic, and seepage deficiencies at the Isabella Main and Auxiliary Dams and spillway for safe and effective functioning at authorized capacity, while reducing the risk to the downstream public to tolerable levels.</p> <p>The Corps, as Lead Agency under the National Environmental Policy Act (NEPA), prepared an EIS and five SEAs for the Isabella Dam Safety Modification Project and circulated them for public comment. Based on the EIS, The SEAs, and the comments received, James C. Daulton, P.E., Dam Safety Officer, approved a Record of Decision for the proposed project on 15 December 2012, and issued a Finding of No Significant Impact (FONSI) for each of the five SEAs. The FONSI's were issued on 14 August 2014, 4 June 2015, 8 February 2016, 22 April 2016, and 6 October 2016.</p> <p>Pursuant to CEQA Guidelines section 15520 and following, the Central Valley Water Board, as Lead Agency under CEQA, determined that the EIS and SEAs prepared by the Corps meet the requirements of CEQA. Accordingly, the Central Valley Water Board is using the EIS and SEAs prepared by the Corps meet the requirements of CEQA. Accordingly, the Central Valley Water Board is using the EIS and SEAs instead of preparing a separate CEQA document. Public notice of the use of the EIS and SEAs to fulfill requirements of CEQA was circulated on 24 October 2016, pursuant to section 15225 of the CEQA Guidelines.</p>	NOD

<u>Documents Received on Wednesday, January 18, 2017</u>			
2017018258	Chips Creek Elementary Bed Load Removal Caltrans #2 --Plumas Substantial precipitation has increased Chips Creek bedload under the existing bridge to the point that hydraulic capacity has been compromised and the roadway is in imminent threat of flooding. The proposed action is intended to remove this excess bed load and restore designed hydraulic capacity to the structure.	NOE	
2017018259	Tobin Emergency Drainage Repair Caltrans #2 --Plumas A log jam failed above the highway at the stated location during a precipitation event. This material blocked a culvert inlet and caused a stream to be diverted overland and onto the highway. The proposed action will excavate the inlet and redirect the flow path and repair any associated damage to the roadway.	NOE	
2017018260	Yreka/SIS 5 Emergency Pavement Repair Caltrans #2 Yreka--Siskiyou Substantial precipitation followed by sub freezing temperatures has caused localized pavement failures on Interstate 5. Emergency repairs are required to restore the roadway to its pre-existing condition and ensure the safety of the traveling public.	NOE	
2017018261	Crag View Dr UC Replacement - Geotechnical Investigations Caltrans #2 --Shasta Caltrans is planning to conduct subsurface geotechnical investigations which will include borings of approximately four to six inches in diameter, with a maximum depth of approximately 200 feet. The borings will be located in the shoulders and lanes of Interstate 5. A proposal to replace the existing Crag View undercrossing bridge is underway and the geotechnical investigations are needed to identify the type of subsurface material found at the project site. The resulting subsurface data will be used to prepare foundation recommendations for the design of the proposed bridge.	NOE	
2017018262	Opapee Curve Improvement Caltrans #2 --Plumas The project will improve a segment of Highway 70. The traveling public will benefit from the project.	NOE	
2017018263	Operation of Blossom Valley Organics Well and Tank State Water Resources Control Board --Kern The State Water Resources Control Board as the lead agency will be issuing a water supply permit. Community Recycling built a 2,200 gallon per minute well in September 1995. In 2015 Recology, Inc. took over the lease that the Community recycling had with Lamont Public Utilities District, which covers the land, facility, and water system. The storage tank was installed the same year. The well and tank is part of the Blossom Valley Organics Water system that currently connects to the shop, old office, and old cafeteria shelter, and will connect to the new administrative building. Alternative water has always been provided to employees for drinking water. This project will provide for the permitted operation of these facilities.	NOE

2014012023	Draft Environmental Impact Report for the City of Clearlake 2040 General Plan Clearlake, City of Clearlake--Lake Note: Response to Comments The proposed project is the preparation of a comprehensive update of the City's 1983 General Plan. California law requires cities and counties to adopt a General Plan to guide future development. The Draft Clearlake 2040 General Plan provides a plan for growth in the City through the year 2040. The original documents were produced by a graduate class of students from CalPoly, in 2014, at which time an DEIR was circulated for comment. This Revised DEIR is being recirculated for new public agency comment. The General Plan includes the following elements: Land Use, Circulation, Housing, Conservation, Open Space, Noise, Safety, Economic Development, Public Facilities, Community Design and Health.	ADM	
2002051135	Malibu Creek Ecosystem Restoration Feasibility Study Parks and Recreation, Department of Malibu--Los Angeles Note: Review Per Lead The project consists of ecosystem restoration of Malibu Creek. The predominant project feature is removal of Rindge Dam. Alternatives analyzed include various methods for removing impounded sediment and different sediment placement options. The project also includes removal of other aquatic barriers on two tributaries to Malibu Creek, Las Virgenes Creek and Cold Creek.	EIR	03/27/2017
2014021003	Skyline Heights Project Corona, City of Corona--Riverside The project involves the annexation of 394.8 acres into the City of Corona. The annexation is accompanied by a tentative tract map to subdivide approximately 271 acres into 291 single family residential lots. The development will also include non-buildable lettered lots that will be set aside for landscaping and natural open space, streets and utilities. Richland Developers is the project proponent and has submitted the following applications to the City of Coronas: (1) General Plan Amendment 13-003 (GPA13-003): Amendment to Corona's General Plan Sphere of Influence Land Use Plan (westerly sphere) to amend 394.8 acres from Rural Residential I (0.2 - 0.5 dwelling units/acre) to Low Density Residential (3-6 du/ac) on 357.14 acres and Open Space on 37.61 acres; (2) Change of Zone 13-002 (CZ13-002) to rezone 37.61 acres to Open Space. 86.23 acres to Agriculture, and 270.9 acres to R-1-7.2 (single-family residential, 7,2000 sq. ft. minimum lot size) located in the City's SOI (westerly sphere) to facilitate the annexation of property into the City of Corona; (3) Annexation 117 to annex 394.8 acres from unincorporated Riverside County in the City of Corona's SOI to the City of Corona; and (4) Tentative Tract Map 36544 to provide for the subdivision of 270.9 acres into 292 single family residential lots, including numerous lettered lots to be set aside for open space, slope landscaping, streets and utilities in the R-1-7.2 zone being proposed by Cz13-002. 2016101001	<p>North Montclair Downtown Specific Plan Amendment Project Montclair, City of Montclair--San Bernardino</p> <p>The proposed amendment would involve amending the 2006 NMDSP to allow for the future development of projects that are tied to the Montclair Transcenter, and the anticipated extension of the Foothill Gold Line that will extend light rail line to the city. The proposed amendment would shift or reallocate a portion of the density planned in the northern area of the NMDSP to allow for additional mixed-use transit oriented development projects along the new Foothill Gold Line Extension. The proposed amendment would also expand the current specific plan boundary to incorporate approximately 10 acres of land at the southwest corner of Arrow Highway and Monte Vista Avenue and approximately 22 acres of land on the west side of Central Avenue at Richton St. In both of these areas, appropriate land use zones, density levels, and street patterns would be determined and incorporated into the NMDSP. The proposed amendment would amend the NMDSP to allow for a max number of 5,888 dwelling units, which is 2,688 more dwelling units than allowed under the current NMDSP. The proposed amendment would also amend the NMDSP to allow for a total of 1,681,285 sf of non-residential uses, which is 782,285 sf more than what is allowed in the current NMDSP. The proposed amendment would also assign land use designation to properties within the NMDSP where there currently are none or where a new land use mix is more appropriate. The project site already consists of a mix of residential, commercial, and industrial uses.</p>	SIR	03/08/2017

2006071021	Renaissance Specific Plan Amendment Rialto, City of Rialto--San Bernardino The project site is generally bounded on the west by Locust Ave., east by Linden Ave., and approx. 600 linear feet north of Miro Way. Parcels within the project area (0240-251-04-0-000, 0240-251-11-0-000, 0240-251-10-0-000 and a portion of 0240-251-21-0-000) are located within the former Rialto Municipal Airport, which ceased operations in 2014. The former airport area, including the former runway and associated taxiways have been demolished and removed from the area. The project site is within the 2010 Renaissance Specific Plan Area (RSP) and the 2016 Renaissance Specific Plan Amendment (RSPA) area. The project proposes a single building of approx. 614,848 sq. ft. located on 49.94 acres of land within the boundaries of the Renaissance Specific Planning Area 108.	NOD	
2013091021	Fresno Metropolitan Water Resources Management Plan Update Fresno, City of Fresno--Fresno The City of Fresno Metro Plan Update was developed to provide for more optimized and efficient conjunctive use of the City's available water resources, and to enhance the City's overall water supply reliability. In February of 2014, the City certified the Metro Plan Update EIR, and approved the Metro Plan Update. The purpose of this document is to refine Mitigation Measure 4.8.1 to clarify that the City and its contractors can apply for a permit to allow construction activities outside of the stipulated hours, consistent with the City of Fresno Municipal Code and the Fresno County Municipal Code, and provide documentation substantiating an Addendum is appropriate under CEQA.	NOD	
2015101105	Fresno Priority 2 Regional Transmission Mains Addendum Fresno, City of Fresno--Fresno The City is proposing to refine the segment of the pipeline alignment going through the unpaved right-of-way on the Leaky Acres site as previously analyzed in the certified Supplemental MND (SCH#2015101105). Instead, the alignment would follow north along North Chestnut Diagonal from the intersection of East Dakota Avenue and North Chestnut Ave. for approx. 1,500 feet before terminating on the City owned parcel at the corner of North Chestnut Diagonal and North Winery Ave. The revised pipeline length would be approx. 900 feet shorter than that analyzed in the SMND. In addition, the hours of construction activities for the proposed Project are limited by the Mitigation Measure stipulated in the SMND, pursuant to the Metro Plan Update EIR. Specifically, Metro Plan Update EIR Mitigation Measure 4.8.1 limits the hours of construction within the City of Fresno to between 7:00 am and 6:00 pm Monday through Saturday, and construction activities shall be prohibited on Sundays and holidays. The City proposes to change Metro Plan Update EIR Mitigation Measure 4.8.1, as stipulated in the Supplemental MND, to conform with Article 1 - Noise regulations, Section 10-110 of the City municipal code, which allows for a permit to be issued authorizing noises prohibited by Article 1. Installation of the pipeline along the refined alignment would be otherwise consistent with the construction considerations described in the SMND, except that construction of the refined alignment would occur in a different location in comparison to that specified in the SMND. 2017012055	Hales Minor Land Division (PLN15-00177) Placer County Colfax--Placer The project proposes a minor land division in order to subdivide an approximately 13.32 acre property into four parcels consisting of 2.54 acres, 4.51 acres, 2.5 acres and 2.5 acres.	MND	02/23/2017
2007011113	Riverside Transmission Reliability Project (RTRP) Public Utilities Commission Riverside, Rialto, Colton--Riverside, San Bernardino Note: CPUC as next-in-line permitting agency Southern California Edison proposes to construct and operate a new 230-kV transmission line and 230-kV substation in Riverside County, CA, which was originally described in the certified 2013 Final EIR prepared by the city of Riverside. Residential and commercial developments in the area have since necessitated modifications to the proposed project, including construction of approximately 2 miles of the 230-kV TL in an underground duct bank, refinements to the proposed overhead 230-kV TL route, relocation of existing overhead distribution lines to accommodate the new 230-kV TL, and temporary use of an additional staging yard to store construction materials during construction. The CPUC is preparing a Subsequent EIR to address these changes.	NOP	02/23/2017
2017011059	CSUB Palm Desert Campus 2016 Master Plan California State University, San Bernardino --Riverside, San Bernardino The 2016 master plan provides a framework for implementation of the University's goals and programs, by identifying needed facilities and improvements to accommodate a gradual growth in student enrollment projected to reach 8,000 full-time equivalent students by 2035 at Cal State San Bernardino Palm Desert Campus.	NOP	02/23/2017
2017011060	The Villages - Escondido County Club Project Proposal; ENV 16-0010; SUB 16-009 Escondido, City of Escondido--San Diego The proposed project consists of a General Plan Amendment to the Land Use element Zone Change, a Specific Plan, and Tentative Map for development of a 392 single-family dwelling unit project. The new land uses proposed for the Villages Specific Plan Area include three single-family residential villages; an open space system; and a clubhouse area within recreational, social, and farm amenities.	NOP	02/23/2017
2017011061	Duke Warehouse at Indian Avenue and Markham Street Perris, City of Perris--Riverside The proposed project consists of construction of a 668,681 sf warehouse including approximately 20,000 sf of office space. The warehouse building will feature approximately 48 dock doors on the eastern side of the building and approximately 56 dock doors on the western side of the proposed building. The project site will provide approximately 271 automobile parking stalls, approximately 8 American Disabilities Act-compliant handicapped parking stalls, and approximately 162 trailer parking stalls. 2017011062	<p>222 West 2nd Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>CA-LATS South, LLC proposes the 222 West 2nd Project, which involves the development of a 30-story mixed use building consisting of 107 residential units, approximately 7,200 sf of ground level commercial floor uses, and 534,044 sf of office uses in Downtown LA. The 2.71 acre project site, which is bounded by South Broadway on the west, West 2nd St on the north, and South Spring St on the east, also is the future site of the LA County Metro Regional Connector 2nd St/Broadway rail station. The 2nd St/Broadway rail station will be below grade, with a station portal at the northwest corner of the site at 2nd St and Broadway. The Metro station and portal are currently under construction. Overall, the project's improvements would comprise a total of 688,401 sf of floor area and would replace an existing surface parking lot on the northern portion of the project site. An existing five-story parking structure is located on the southern portion of the project site and would provide auto and long term bicycle parking for the project. The project also includes a plaza surrounding the Metro portal, which would be integrated with a landscaped paseo located between the new building and the existing parking structure to the south. In addition, amenity decks offering a variety of social and community spaces would be provided on various levels of the new building and would include landscaped, rooftop gardens, and gathering spaces. Indoor and outdoor recreational spaces as well as private balconies also would be provided.</p>	NOP	02/23/2017
2017012056	<p>3100 San Pablo Avenue Medical Offices Project Berkeley, City of Berkeley--Alameda</p> <p>The project would consist of establishment of 97,447 sq. ft. of Medical Practitioner use in an existing 492,706 gross (360,389 net) sq. ft. four-story mixed use commercial and light industrial building. The project would change approx. 97,447 sq. ft. of space in the existing building from office space that was part of or ancillary to the former light industrial uses to Medical Practitioners use, including outpatient services and an urgent care component. The medical facility would be located on portions of the first and second floors, plus all of the third and fourth floors. Portions of the building are in three cities: Berkeley, Oakland and Emeryville. An executed Memorandum of Understanding (April 2013) between the Cities of Oakland, Emeryville and Berkeley establishes Berkeley as the lead city of land use approvals.</p>	NOP	02/23/2017

2004061072	<p>deep SVE wells would be installed and connected to an SVE treatment system. About 1,600 linear feet of trenching would be required to install the piping. The treatment system would be housed in a ventilated building enclosure equipped with insulation for noise reduction. A site management plan would be used to mitigate potential health and safety risks to tenants and shoppers. SVE system emissions would be monitored for compliance with required San Diego Air Pollution Control District permits.</p> <p>Ekwill Street and Fowler Road Extension Project Goleta, City of Goleta--Santa Barbara</p> <p>CDFW is intending to execute a Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2014-0138-R5) to the project applicant, the City of Goleta, represented by Rosemarie Gaglione. Permittee proposes to construct an extension of Ekwill Street and improvements to Fowler Road which will require a crossing over Old San Jose Creek (Ekwill Street Extension), the construction of a bioretention swale in the existing earthen drainage ditch between Technology Drive and Old San Jose Creek, and a new roadway knuckle connecting Fowler Road to Technology Drive (Fowler Road Extension). The crossing will be a pre-fabricated bottomless arch culvert with concrete headwalls and wingwalls at both ends of the culvert. In addition, two roundabouts will be situated in a general east-west direction along Hollister Ave. and intersect minor areas of mature riparian woodland vegetation. Old San Jose Creek only drains parts of downtown Goleta, and became an abandoned channel when part of the creek was diverted from Hollister Ave. to Goleta Slough, along Hwy 217. Most of the old channel is choked with Arundo (Arundo donax) and other non-native species. This Project is designed to relieve regional and local congestion by improving traffic circulation, access, and develop infrastructure within Old Town and between Old Town and the Santa Barbara Airport.</p>	NOD	
2014011069	<p>Lincoln Specific Plan Whittier, City of Whittier--Los Angeles</p> <p>DTSC has approved a Response Plan for the Fred C. Nelles Youth Correctional Facility.</p> <p>The RP, incorporated herein by reference, consists of removal activities to address elevated concentrations of mainly arsenic, lead, and organochlorine pesticides (OCPs) in the soil.</p> <p>The selected alternative in the RP includes the excavation and on-site consolidation of approx. 48,000 cubic yards of lead, arsenic, and OCP impacted soils. Approx. 400 cubic yards of lead-impacted soils, anticipated to be RCRA-hazardous waste, would be excavated and transported off-site for disposal. The selected remedy in the RP includes the excavation of lead, arsenic, and OCP impacted soils around the buildings and arsenic impacted soils in the open areas of the Site (i.e. former agricultural area, railroad easement, playing fields). The excavated material will be replaced with non-impacted soil from other areas of the Site as required by the Site grading plan.</p> <p>The removed impacted soils from the residential area of the Site will be consolidated in the commercial area, and capped by non-impacted soils and hardscape to minimize exposure to consolidated materials and possible migration to groundwater from infiltration rainwater.</p> <p>Soil removal will be accomplished using conventional grading equipment and standard dust suppression, stockpiling, and stormwater best management</p>	NOD

2014052038	<p>practices would be incorporated into the soil removal activities.</p> <p>In most areas, excavation will be required to 1 to 2 feet below ground surface (bgs); however, in isolated areas, excavation will be 18 bgs. The total volume of impacted soils that exceed remedial goals is estimated to be approx. 48,800 cubic yards. Of this volume, approx. 400 cubic yards of lead-impacted soils, anticipated to be RCRA-hazardous waste, would be excavated and transported off-site to a permitted disposal facility.</p> <p>It is anticipated that excavations can be accomplished using open cut methods. If open cut methods are locally infeasible, excavations can be accomplished using limited excavation support systems, such as soldier-piles and lagging or trench boxes. The excavation will not extend below the groundwater table; therefore, temporary dewatering and associated groundwater disposal will not be required as part of the work. Surface water runoff will be handled in accordance with the Construction General Permit.</p> <p>North Sacramento Streams, Sacramento River East Levee, and Related Flood Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento, Yolo, Sutter, Solano CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0165-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sacramento Area Flood Control Agency.</p> <p>The project is limited to the installation of seepage remediation features to meet embankment and foundation stability requirements; and the removal of high hazard encroachments and vegetation along the Natomas East Main Drainage Canal (NEMDC)/Steelhead Creek and Arcade Creek. Approx. 0.5 acres of waterside riparian tree canopy will be permanently impacted. Six temporary bridges required to be installed to facilitate haul route access. All of the bridges would be temporary clear span bridges across NEMDC/Steelhead Creek and Arcade Creek with the abutments for the temporary bridges placed outside of the creek channel. Temporary ramps on the waterside levee slopes and temporary clear-span bridges would be removed prior to Nov. 1. Gravel on levee crowns along haul routes would be maintained as needed during periods of hauling, including watering for dust control and period grading to control rutting.</p> <p>Borrow material would be obtained from a borrow site located south of Elkhorn Blvd. at Sorrento Road. The borrow site would be restored and enhanced once borrow materials are excavated. Four potential staging areas have been identified for the proposed project.</p>	NOD	
2015022055	<p>Echo Summit Sidehill Viaduct Replacement Project Caltrans #3 South Lake Tahoe--El Dorado</p> <p>To replace the Echo Summit Viaduct with a single-span bridge. The new bridge will have two 12-ft. wide lanes with 1-ft wide shoulder on each side and 3-ft tall concrete barrier on the east side. The project also includes upgrading MBGR to current standards, grinding the AC at the bridge approach, and placing a smooth transition from the approach roadway to the new PCC deck. Pot holing, paving, and striping may be completed on a selected detour route in order to prepare for detoured traffic during construction.</p>	NOD

<u>Documents Received on Thursday, January 26, 2017</u>			
2015111063	Lyon Estate Subdivision EIR #624 Orange County --Orange The project includes the subdivision of a portion of the 138 acre estate property located at 2433 Coto de Caza Drive and the construction of 25 single family residences on a 64 acre southern portion of the property. The proposed site is comprised of a 27 acre citrus orchard with a riparian drainage through the center, oak trees and coastal sage scrub along the southerly boundary and an existing resource preservation area on the westerly edge of the estate property. The site slopes up to the west with a major ridgeline along the western boundary. A proposed resource preservation area will connect with an existing preservation area on the western boundary. Access to the site will be from Coto de Caza Dr. The project will include 25 residential lots, 2 lots for streets and 1 water treatment basin lot. Residential lot sizes will range from approximately 2 to 6 acres.	EIR	03/13/2017
2016091003	The Lakes Specific Plan Project and Topgolf Facility El Segundo, City of El Segundo--Los Angeles The Lakes specific plan consists of the 26.6 acre area that currently comprises the Lakes at El Segundo. The SP would establish two subareas, with uses and development standards applicable to each subarea. The 3.6 acre SCE easement and 0.7 acre portion of the West Basin Municipal Water District property are part of the overall project, but are not a part of the proposed specific plan. The associated development project proposes to replace the existing driving range with a Topgolf facility on approximately 12 acres. Other improvements would include modifications to the fairways/layout of the existing golf course, parking lot expansion, screening pole installation, replacement of existing net poles, turf installation, and demolition/construction of a new clubhouse. In addition to the SP, proposed entitlements include a general plan amendment; general plan map amendment; zone change; zoning map change; zone text amendment; site plan; lot line adjustment and conditional use permit.	EIR	03/13/2017
2015082030	Mathilda Avenue Improvements at SR 237 and US 101 Caltrans #4 Sunnyvale--Santa Clara The Mathilda Ave Improvements at SR 237 and US 101 project proposes to reconfigure the US 101 and SR 237 interchanges with Mathilda Ave. This includes modification to on and off ramps; removal, addition, and signalization of intersections; and provision of new left turn lanes. In addition, the project would require modification to bicycle and pedestrian facilities, utilities, storm water treatment facilities, street lighting, ramp metering, signage, retaining walls, and light rail crossing facilities.	FIN	
2017011065	Flagler Wells Conversion Pipeline Project Elsinore Valley Municipal Water District Corona--Riverside The proposed project consists of groundwater pumping from two existing wells (Well 2A and Well 3A), primary disinfection utilizing free chlorine, secondary (residual) disinfection utilizing chloramines and pressure boosting of a max design flowrate of 1,250 gallons per minute through a new booster pump station to the 42-in Temescal Valley pipeline at a max pressure of 370 pounds per square inch. The proposed project aims to convert the two existing wells from supplying irrigation water to potable water for 35,000 customers in the EVMWD service area.	MND	02/24/2017

	has a carwash area, programming stations for vehicles, and a trash storage area. The project proposes to demolish the existing surface parking area to construct a two-level addition to the existing service building to meet customer demand. The ground level of the expansion (consisting 25,100 sf) will include the existing program stations and trash disposal area and the addition of 34 new service bays and storage area. The first tier of the expansion will include the relocation of the carwash area and a new inventory parking area with 51 spaces. The roof deck will provide a new inventory parking area with 62 spaces. Internal ramps and a car elevator will provide access between the levels and a drive aisle on each level will connect the expansion to the existing service building. An existing driveway from Olive Ave will provide access to the project. This driveway is and will continue to be closed to the public traffic with the development of the project.		
2004091040	State Route 79 Realignment Project Caltrans #8 Hemet, San Jacinto--Riverside The SR 79 Realignment Project proposes to realign SR 79 approx. 18 miles from Domenigoni Parkway to Gilman Springs Road in the Cities of San Jacinto and Hemet, and unincorporated Riverside County. As the Lead Agency under CEQA and NEPA, Caltrans identified Alternative 1br as the Preferred Alternative. The project would be divided limited-access expressway with four travel lanes (two lanes in each direction). Access would be limited to on- and off-ramps at specified locations. Almost all of the realignment would be new construction in areas where no hwy currently exists. The realigned SR 79 would alleviate the existing circuitous route through the downtown areas of Hemet and San Jacinto and result in a more direct north south route through the San Jacinto Valley for regional motorists. Construction is anticipated to begin in 2017.	NOD	
2012042022	Blackhawk Lane Minor Land Division (PMLD 20090218) Placer County --Placer The applicant is requesting approval of a Rezone and Minor Land Division to subdivide an approximately 53-acer property into two new parcels consisting of 21.7 acre, and 32.7 acres.	NOD	
2013081079	Revisions to the Kern County Zoning Ordinance - 2015 C. Focused on Oil and Gas Local Permitting Kern County --Kern The originally approved project consists of an amendment to Title 19 Kern County Zoning Ordinance (July 2012), with focus on Ch. 19.98 (Oil and Gas Production), to include new site development standards for all oil and gas exploration, extraction, operations, and production activities in unincorporated Kern County. DOGGR, as the Responsible Agency, will be issuing a permit for the proposed project activity.	NOD	
2015082030	Mathilda Avenue Improvements at SR 237 and US 101 Caltrans #4 Sunnyvale--Santa Clara The Mathilda Ave Improvements at SR 237 and US 101 project proposes to reconfigure the US 101 and SR 237 interchanges with Mathilda Ave. This includes modification to on and off ramps; removal, addition, and signalization of intersections; and provision of new left turn lanes. In addition, the project would require modification to bicycle and pedestrian facilities, utilities, storm water	NOD

2017018394	<p>Lincoln High School Gym HVAC Replacement, Pedestrian Bridge Repair, and Prop 39 Energy Services Los Angeles Unified School District Los Angeles, City of--Los Angeles</p> <p>The project will entail the replacement of an existing heating, ventilating, and air conditioning (HVAC) system with a new HVAC system throughout the Gym. The scope of this portion of the project will include removal of the existing HVAC equipment, asbestos abatement, cleaning and leak testing for ducts, structural upgrades to support new air handlers on the lower adjacent roof, electrical power upgrades, upgrades to the existing hard lid ceilings, and seismic upgrades to the suspension system located in the Gym. The Project, as evaluated herein, will also entail replacing the deck and concrete on two deteriorating pedestrian bridges that connect the Gym to the athletic field. Finally, the project will entail the implementation of campus-wide energy efficiency measures. These efforts will be initiated separately however; they have been grouped in this NOE because they are located on the Lincoln High School campus and because the construction schedules will overlap. The HVAC portion of the project is anticipated to begin in the fourth quarter of 2017 and will be complete within approximately twelve months. The pedestrian bridge portion of the project is anticipated to begin in fourth quarter of 2017 and will be complete within approximately four months. The Prop 39 portion of the Project will begin in the first quarter of 2017 and will be complete within approximately twelve months. No increases in student enrollment, capacity, or intensity of use are proposed as part of the project.</p>	NOE

2017011073	<p>Chanley - 2-Lot Parcel Map San Luis Obispo County --San Luis Obispo</p> <p>Request by David and Robert Chanley for a vesting tentative parcel map to subdivide an existing 10-acre parcel into two 5-acre parcels for purposes of sale and/or development disturbance of up to 1.68 acres could occur with future development of a primary and secondary residential unit on each proposed parcel within designated building envelopes. No development is proposed with the subdivision. A 40-foot reduction to the required 80-ft front yard setback is requested for the primary residence on each lot in order to minimize oak tree impacts. The proposed project is within the residential rural land use category and is located at the northeast corner of the intersection of Zenon Way at Chesapeake Place, at the eastern terminus of So. Halcyon Road, approximately 3,500 feet east of the Pablo Mesa Village, in the South County sub area of the South County Planning area.</p> <p>Approximately 75% of the site is covered in oak woodland; up to 53 oak trees could be removed within the building envelopes, and an additional 82 oaks could be potentially impacted outside the envelopes, depending on future development design.</p>	MND	02/28/2017
2017012061	<p>Hart Ranch Flow Enhancement Project Fish & Wildlife #1 Montague--Siskiyou</p> <p>The Hart Ranch Flow Enhancement project consists of various agricultural water infrastructure modifications and ongoing agricultural operations on the Hart Ranch along the Little Shasta River in the Shasta Valley. The project impact area is limited to 41.66 acres of the working ranch. The project consists primarily of linear alignments along proposed pipe alignments with associated water management infrastructure in existing irrigated pastures and uplands with occasional irrigation ditch crossings, and modification of the existing agricultural diversion structure which poses a partial barrier to fish passage in the Little Shasta River. On ranch efficiency and water management improvements include 1) the construction of new stock watering facilities, 2) replacement of the Hart Ranch's failing Main Pipeline, 3) fish passage improvements consisting of relocation and replacement of the Hart irrigation diversion structure and recontour of a portion of the Little Shasta River to ensure fish passage, and 4) water diversion. All project components are located on the Hart Ranch. As part of the project, the Department has received Notification of Lake or Streambed Alteration from Hart Cattle LLC to operate, maintain, and repair existing water diversion from the Little Shasta River and Evans Spring.</p>	MND	02/28/2017
2017012062	<p>Bacon Island Levee Rehabilitation Project Reclamation District No. 2028 Stockton--San Joaquin</p> <p>Reclamation district no. 2028 plans to rehabilitate a portion of the Bacon Island levee system, 4.7 miles in length, to a sustainable Hazard Mitigation Plan standard. The proposed project includes landside and waterside work. Landside work involves raising the levee crown and stabilizing the slope and toe berm. There will be a new all-weather road built along the levee crown. Waterside work involves erosion repair and improving waterside bank protection (rock revetment) for erosion control along most of the project area.</p>	MND	02/28/2017

2014011017	Red Apple Pavillion Tehachapi, City of Tehachapi--Kern Tehachapi Holdings LLC, c/o Frontier Real Estate Investments proposes to demolish existing unoccupied out-building or former dwelling, four unoccupied out-buildings (sheds) and a concrete step foundation and construct a new commercial retail center totaling approximately 120,455 sf. Proposed uses include commercial retail, restaurant, fast food restaurant, bank and pharmacy. Approximately six buildings would be constructed in a row in the western portion of the site along McIntosh Street and four buildings in the eastern portion along Tucker Road. All of the buildings would be single-story in height.	NOP	02/28/2017
2017011072	Alamitos Avenue "Complete Streets" Improvements Project Long Beach, City of Long Beach--Los Angeles The proposed project involves a modification to Alamitos Ave. between 7th Street and Ocean Blvd. to a two-lane divided roadway with on-street bike lanes that would match the roadway section north of 7th Street. North of 7th Street, Alamitos Ave. has been restriped to provide a two-lane, divided roadway, separated by a two-way left-turn, with on-street parking and on-street bike lanes, as well as a buffer to separate bicycle traffic from vehicular traffic. Currently, most of the project site provides two-lanes in each direction separated by a two-way left-turn lane; south of 3rd St., only one Southbound through lane is provided too just past Broadway. Before restriping activities, the project would remove and recycle existing asphalt within the project site and resurface the roadway. The project site is approx. 3,400 ft. of road length and 4.7 ac.	NOP	02/28/2017
2005112004	South County Recyled Water Master Plan Project Santa Clara Valley Water District Gilroy--Santa Clara The purpose of the project is to install a pipeline beneath an unnamed channel that will connect from the South County Regional Wastewater Authority (SCRWA) Treatment Plant to the existing South County Recycled Water Pipeline (SCRWP) Project Phase 1A, and to install a pipeline within the West Luchessa Ave. public right of way and beneath Uvas Creek from Monterey Road to Thomas Road the CDFW is executing Lake and Streambed Alteration Agreement No. 1600-2016-0325-R3 pursuant to Section 1602 of the Fish and Game Code to the Project Applicant, Katherine Oven, Santa Clara Valley Water District. 2017018418	Minor Subdivision Application No. MS-16-01 of Pride and Joy LLC, 3942 Foothill Drive, Vacaville CA 95688 Solano County Vacaville--Solano Subdivide a 50.03 acre legal lot into two parcels of 26.27 and 23.76 acres.	NOE	
2017018419	Nicasio School Water System (System No. 2100582) Nicasio School District --Marin The scope of the project is to update and reconstruct the existing water system at Nicasio School. The State Water Resources Control Board requires the water system to conform to the Surface Water Treatment Rule to receive a water system permit.	NOE	
2017018420	Bear Valley Road Bridge Geotechnical Investigations (Lake or Streambed Alteration Agreement No. 1600-2016-0126-06) Fish & Wildlife #6 --San Bernardino The proposed project includes geotechnical work for the larger bridge expansion project. The Geotechnical team will drill 10 borings a maximum depth of 100-feet below the existing grade, one at each of the abutments and one at pier location. Boring will be taken both upstream and downstream of the existing bridge piers and abutments. A mud rotary with either a track or balloon-tired all terrain drill will be used to drill the bores. There are accesses on both sides of the existing low water crossing which can accommodate for the drill rig to access the river bed. Each boring hole will be backfilled with lean concrete slurry grout. Less than 3 square feet will be permanently impacted from the diameter bore holes.	NOE	
2017018421	Cell Signal Amplification and Wi-Fi/Internet Access Upgrade Parks and Recreation, Department of --Marin Replace existing internet access system and boost cellular signal in Marconi Conference Center State Historic Park to provide improved service to park visitors and park staff.	NOE	
2017018422	Public Water Systems Permit Amendments for Lead Sampling at K-12 Schools State Water Resources Control Board -- The State Water Board is amending approximately 3,000 permits for public water systems to require that public water systems that serve one or more K-12 schools coordinate with local schools to develop a lead sampling plan for any school that	NOE

	requests assistance, and to collect up to five lead samples at faucets that are routinely used by staff and students.		
2017018423	CAAQ 40.52 Primary Side Erosion Repair Water Resources, Department of --Stanislaus DFD staff will repair an erosion site located under a box culvert and is approximately 31 feet long, 18 feet wide, and four feet deep. The erosion extends from the access road to the toe of the embankment. An excavator will be used to compact the slope and backfill and the existing culvert will be replaced. Equipment and a stockpile of fill dirt will be staged at check number 7.	NOE	
2017018424	Dunn Road Property Restoration Project Palm Springs, City of Palm Springs--Riverside The Proposed Project consists of 40 acres of land in the San Jacinto Mountains. The site is within a Conservation Area for peninsular bighorn sheep, as defined by the Coachella Valley Multiple Species Habitat Conservation Plan. The property has been an orchard in the past, and has been subjected to extensive illegal dumping. The main goal of this project is the removal of solid waste and potentially hazardous materials from the site and the restoration of the native habitat on the property. The illegally dumped materials on the property will be removed, and the site restored to its natural condition by qualified professionals.	NOE	
2017018425	Arsenic Mitigation State Water Resources Control Board --Sonoma The SWRCB is the lead agency. The SWRCB's Safe Drinking Water State Revolving Fund Program is providing funds for the project. The TLC Child and Family Services propose to install an arsenic mitigation system for the school's drinking water. Arsenic Mitigation will be accomplished using a modular arsenic adsorption system with 4 21x62 inch vessels which will be housed in the current pump house. The project includes installation of approximately 200 feet of pipeline from the pump house to the French drain where backwash will be discharged into an orchard.	NOE	
2017018426	Phase 2 Geotechnical Investigation - CA High-Speed Rail Project San Jose to Merced High Speed Rail Authority, California --Santa Clara Activities include rock core drilling within the public road right of way. Piezometers might be installed for long-term groundwater monitoring.	NOE	
2017018427	Cutler Park - New Well 03 Project State Water Resources Control Board --Tulare The SWRCB as the lead agency will be issuing a water supply permit. The People's Grocery & Deli proposes to construct a new Well to replace the Current Well 02. Well 02 is dry. Well 02 will be destroyed once Well 03 is operational. The water from Well 03 will be used for all domestic purposes.	NOE

2016071005	Proposition 1 - Reclaimed Water Distribution Facilities Corona, City of Corona, Eastvale, Norco--Riverside Note: Review Per Lead	ADM	02/14/2017
	The phase 1 facilities would include a 5,000 ft long, 16-in diameter pipeline within the River Rd easement from the Western Riverside County Regional Wastewater Authority's facilities at 14634 River Road in the city of Eastvale to its intersection with Bluff St in the city of Norco. At the Santa Ana River crossing, the pipeline would be installed within a dedicated space in the River Road Bridge.		
2017011074	Dunkin' Donuts Drive-Thru Restaurant Project Lake Forest, City of --Orange	MND	03/01/2017
	The project proposes to construct an approximately 988 sf drive-thru Dunkin' Donuts restaurant. The drive-thru would include an exterior "walk-up" window and approximately 246 sf patio (16 seats). The restaurant would be a freestanding building, which offers coffee, espresso drinks, bakery items, and breakfast sandwiches via drive-thru and walk up windows with no interior dining room accessible to the public. The facility would also include office space for managerial purposes, and an accessible restroom for staff and guests. The proposed hours of operation would be Monday through Sunday, 24 hours a day. The project would require a site development permit to allow the proposed use within the community commercial zone and would require a use permit to accommodate the restaurant's 24 hours of operation.		
2017011075	Interstate 8 Safety Improvements Project Caltrans #11 San Diego--San Diego	MND	03/01/2017
	Caltrans is proposing modifications to improve safety at the existing westbound I-8 between Hotel Circle and the junction with I-5 within the city of San Diego, CA. The I-8 Safety Improvements Project proposes to add one lane and enhance striping and signage between PM 0.1 to 2.0 along westbound I-8. The proposed modifications will provide operational and mobility improvements that will enhance safety and help alleviate traffic conflicts and queuing on I-8 approaching the connectors with I-5.		
2017011076	Milestone RV/Boat Storage/Solar Project (Planning Application No. 16-0095)/Initial Study/Mitigated Negative Declaration (MND) Wildomar, City of Wildomar--Riverside Note: Review per lead	MND	03/02/2017
	The project site is located at 36215 Jana Lane on the west side of Jana Lane, northwest side of the intersection of Jana Lane and Bunny Trail, approximately 660' south of the intersection of Clinton Keith Rd and Jana Lane, in Wildomar, CA. The APN for the project site is 380-290-003. The project includes the following actions: 1) a CUP for a recreational vehicle and Boat storage facility for 173 RV's and boats with covered canopies/carports to accommodate 4,080 solar panels; and 2) a variance for the setback of the proposed office building, located adjacent to the northerly project property line, as the adjacent northerly parcel has a residential zoning designation.

2007062084	Hidden Falls Regional Park Trails Network Expansion Project Placer County Lincoln, Auburn--Placer Expand existing 1200-acre Hidden Falls Regional Park to 2500 acres and add an additional 30-mile trail system.	NOP	03/01/2017
2017012063	Whitmore Ranch Specific Plan Ceres, City of Ceres--Stanislaus The specific plan land use diagram, exhibit 4, identifies specific plan land use designations. Table 1 summarizes the proposed land uses. As shown, the specific plan provides approximately 28 acres for low density residential, 7 acres for medium density residential, and 6 acres for Higher-density residential. Approximately 36 acres has the school land use designation and approximately 5 acres is designated parks/open space. Streets and associated public rights of way would require approximately 12 acres. The specific plan, once fully developed, could provide opportunities for as many as 441 new dwelling units. This total assumed number of dwelling units and the number of units shown for each land use designation in table 1 is an assumption used for the purposes of analysis.	NOP	03/02/2017
2017011077	Contract(s) and License, and O&M Agreement, to introduce Floodwaters from RD 770 to the Friant-Kern Canal Delta Lands Reclamation District #770 Woodlake, Porterville, Bakersfield--Fresno, Tulare, Kings, Kern The district is proposing to execute a Warren Act contract(s) for a period not to exceed 25 years and a 25-year license with the Bureau of Reclamation, and an operation and maintenance agreement with the Friant Water Authority. The proposed agreements include delivery of potentially damaging floodwaters from the Kings, Kaweah, and Tule Rivers into the Friant-Kern entities that can take delivery from the FKC downstream of the District's pump stations for irrigation, municipal and industrial use, groundwater recharge, or other purposes. Floodwaters not delivered from the FKC would be discharged into the Kern River and become the responsibility of the appropriate Kern County watermaster(s).	Neg	03/01/2017
2010111084	Murrieta General Plan Update Murrieta, City of Murrieta--Riverside CDFW has executed Streambed Alteration Agreement No .1600-2015-0244-R6 (Revision 1), pursuant to section 1602 of the Fish and Game Code to the project Applicant, Los Alamos (Murrieta) ASLI VII, LLLP, The Los Alamos Community (TTM 36863) Project includes the development of a multi-family residential community, including internal and external circulation elements. <u>Documents Received on Tuesday, January 31, 2017</u>			
2016121006	Middle Earth Expansion University of California, Irvine Irvine--Orange Project is located on a 2.2 acre site in the Academic Core and consists of demolition of an existing 11,200 GSF dining facility and construction of a new, 240,000 GSF residence hall with approx. 494 beds for freshmen, new dining facilities and community space supporting the entire existing Middle Earth housing complex. The project also includes renovation of the existing dining facility (Pippin) to repurpose the space for a fitness center and other support uses, located within the Middle Earth housing complex.	NOD	
2016121026	Joint Transmission Main (JTM) Pipeline Abandonment Project South Coast Water District Irvine--Orange Abandonment of approx. 4,000-feet of t60-inch transmission main in a pipeline easement north of Lake Forest Drive from Romano Ave. to Bake Parkway, within Irvine Community Development Company property. The transmission main will be abandoned by injecting a concrete slurry, removal of all aboveground appurtenances, and restoring site surfaces.	NOD	
2016121051	Coachella Water Authority Chromium-6 Facilities Improvement Project Coachella, City of Coachella--Riverside Coachella Water Authority proposes to undertake the Chromium-6 water Facilities Improvement Project in order to comply with recently passed state of CA regulations. CWA operates six groundwater wells for its raw water supply, all of which have chromium-6 concentrations above the newly established MCL. With implementation of the project, five of the six wells will continue operating, and the sixth well will be taken offline. The five wells will be upgraded with chromium-6 removal treatment technology. Under the SBA treatment option, the SBA resin capacity for chromium-6 will periodically diminish, and the resin will require regeneration. The proposed project also includes analysis of the construction of a new CWA resin regeneration facility located on Avenue 52 on CWA property (RRF), or at the current CSD WWTP (CRRF). The resin regeneration process involves ion exchange using sodium chloride (brine) to remove the chromium-6 from the resin beads. Resin regeneration results in a spent brine, which necessitates proper treatment and disposal. Alternatively, if a stannous chloride treatment approach is deemed feasible, CWA would upgrade the five wells with that technology. The stannous chloride treatment process involves adding stannous chloride to the water, allowing reaction time, removing the tin and chromium particles that remain with a filter. Treatment equipment includes a chemical feed system, reaction tank, and filters. Periodically, particles will accumulate and increase pressure on the filters and would need to be replaced. The stannous chloride process does not require resin regeneration and thus there would be no resin regeneration facilities for this approach.	NOD	
2017018428	Clifton Court Road Bridge Repair Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Byron--Contra Costa The Clifton Court Road Bridge project will conduct maintenance repairs to the existing bridge structure. Specific maintenance activities include the repair of both bridge abutments due to erosion and retaining wall deterioration, and repair to existing cross brace elements as needed.	NOE

Trenches will be backfilled and revegetated as a brackish marsh.	NOE	
2017018453	Sediment Source Reduction Demonstration Project - Forward Tree Farm Regional Water Quality Control Board, Region 5 (Central Valley), Redding -- The Sediment Source Reduction Demonstration Project - Forward Tree Farm is a small natural resource rehabilitation project to repair soil and stream impacts from the 2012 Ponderosa wildfire event. The project will remove an eroding road, establish a new road in a less erosion prone area, and address existing problematic erosion. The purpose is to reduce sediment input into Dry Creek and Digger Creek. Reduced sediment inputs from the tree farm will benefit fish spawning and water quality.	NOE

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, January 31, 2017</u>			
2017018454	2017-2018 Batiquitos Lagoon Maintenance Dredging Fish & Wildlife #5 San Diego--San Diego Maintenance dredging of Batiquitos Lagoon to remove sand from the flood shoal. Sand from the nearshore area is drawn into the lagoon by tidal action and forms the shoal. Shoal materials has been tested and determined to be minimum 90% sand. Sand will be placed back on adjacent beaches, consistent with state and federal regulations. Dredging and redistribution will occur outside of avian nesting and grunion spawning seasons.	NOE	
2017018455	Dairy S: Purchase of Materials for a Livestock and Feed Barn Gold Ridge Resource Conservation District (GRRCD) Sebastopol--Sonoma The purchase of materials is for building a barn that will house livestock during the wet season months. Additionally, the barn will also provide the producer with a covered, protected area for feed storage. The purpose of the barn is to improve animal health and to reduce feed lossed.	NOE	
2017018456	Wildlife Connectivity Improvements, Chino Hills SP (16/17-1E-10) Parks and Recreation, Department of --Orange This project will install native plants on the south side of Coal Canyon adjacent to the culvert as part of an effort to improve conditions for wildlife movement to and from the Santa Ana Mountains and the Chino Hills. A Right-of-Entry permit will be issued to the Irvine Ranch Conservancy and its contractors for project implementation and monitoring. Plants will be installed in late 2017/early 2018 and will be maintained throughout the course of the project, ending December 2022. All planting will occur above the bed, bank and channel of the blue line stream running out of Coal Canyon.	NOE	
2017018457	Water Tank Replacement, Wildwood Canyon (16/17-1E-11) Parks and Recreation, Department of --San Bernardino Three 5,000 gallon steel potable water tanks will be replaced in kind.	NOE
