

Arnold Schwarzenegger, Governor

STATE CLEARINGHOUSE

NEWSLETTER

July 1-15, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 1-15, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

2003092069	<p>Placer Parkway Corridor Preservation South Placer Regional Transportation Authority Roseville--Sacramento, Sutter, Placer</p> <p>The proposed action would select and preserve a corridor for the future Placer Parkway - a new east-west roadway linking SR 70/99 and SR 65. Potential benefits from future implementation include reducing anticipated congestion on local/regional transportation system and advancing economic development goals in south Sutter and southwestern Placer counties. Potential impacts for future implementation include effects to socioeconomic/community resources, farmlands, cultural resources, traffic/transportation, air quality, noise, hydrology, water quality, and growth.</p>	EIR	08/20/2007
2003104005	<p>Berth 136-147 (TraPac) Container Terminal Project Los Angeles City Harbor Department Los Angeles, City of--Los Angeles</p> <p>The proposed project consists of expanding the Berths 136-147 Terminal by 57 acres, from 176 to 233 acres, by 2015 (Phase I of the proposed project), and by an additional 10 acres, to 243 acres, by 2025 (Phase II), and constructing an intermodal rail facility in the terminal, and constructing a 30-acre buffer area at the northern boundary of the terminal. The proposed project also includes replacing existing cranes, dredging deeper berthing areas, filling to create 10 acres of new land, reconstructing existing wharves, and constructing 1,105 feet of new wharves.</p>	EIR	08/20/2007
2006051081	<p>Rich Haven Specific Plan, File No. PSP05-004 Ontario, City of Ontario--San Bernardino</p> <p>The Rich-Haven Specific Plan encompasses approximately 510 gross acres with a maximum development capacity of 4,259 dwelling units and 889,200 square feet of regional commercial/office. The Land Use Plan for the Specific Plan includes a Residential District and Commercial District comprised of twenty-one Planning Areas (PAs). The Residential District includes nineteen PAs providing a mixture of low-, medium-, and high-density residential uses with a maximum of 4,259 dwelling units and a Regional Commercial District that includes three PAs. The Regional Commercial District includes three PAs (20, 21A, and 21B) planned for a mixture of a variety of uses including commercial, office, vertical residential, medical office, and research, as well as a "Stand Alone Residential Only Overlay" allowing for stand alone residential neighborhoods. The Regional Commercial District includes PA 20 incorporating 725 residential units and 440,800 square feet of commercial/office uses, while PA 21 (21A and 21B) will include a total of 448,400 square feet of commercial uses and 1,052 residential units. The public facilities within the Specific Plan include 20.1-acre Southern California Edison easements, and a 24.8-acre Middle School. Final plans for the project would include an allowance for a transfer of residential density from the Regional Commercial District within Planning Areas 20 and/or 21 to Residential PAs within the Residential District (PAs 8 to 19).</p>	EIR	08/15/2007

2006051133	535 E. Montecito Street Santa Barbara, City of Santa Barbara--Santa Barbara The proposed project consists of 48 residential condominium units (24 two-bedroom and 24 three-bedroom units) in six, three-story buildings. The total development is 90,966 square feet (net). Each building is 15,161 square feet (net) and includes eight units (4 two-bedroom units and 4 three-bedroom units) and eight two-car garages in a tandem configuration. Two additional parking spaces would be provided onsite for guests, for a total of 98 parking spaces. Vehicular access to and from the site is provided by two driveways along Calle Caesar Chavez and one driveway on E. Montecito Street. All units are to be sold at below-market prices, with prices to be determined by the total costs to develop the units.	NOP	07/31/2007
2007011136	Palomar Community College - North Education Center, Facilities Master Plan Palomar Community College District Fallbrook--San Diego The project proposes development of a new Community College education center to serve the Northern San Diego County area. The project site is approximately 83 acres of (presently) undeveloped land, generally located east of Interstate 15, between Pala Road/State Route 76 and Pala Mesa Heights Drive, in the Fallbrook area (Thomas Brothers Page 1028). The Assessor Parcel Number is 108-120-47 (Parcel A). Proposed land use would include parking, classroom and administration buildings, open space, and athletic fields. Facilities anticipated would include instructional space (lecture and laboratory), administrative services, a library, offices, a student services center, food services,	NOP	07/31/2007

2007078002	Dunsmuir Weigh Station Caltrans #2 --Siskiyou Several structural, mechanical and operational improvements to the Dunsmuir weigh station. The Dunsmuir weigh station project was environmentally cleared on January 23, 2007 under project EA 02-OC3300. This is a request to append a new project #EA 02-OC3311 to the original, regarding immediate work to abate asbestos containing insulation that exists on the hot water lines that traverse across the ceiling of the truck inspection bays, the boiler room and a small adjacent closet.	NOE	
2007078004	Gum Ranch Annexation to County CFD 2004-2 (Landscape Maintenance) Sacramento County --Sacramento The project consists of the annexation of Gum Ranch subdivision to a Community Facilities District (CFD) to provide landscape maintenance funding.	NOE	
2007078005	Garfield High School Gymnasium Stockton Unified School District Stockton--San Joaquin Stockton Unified School District proposes to build a Gymnasium on the Garfield High School campus.	NOE	
2007078006	Pole Creek Invert Repair Fish & Game #5 --Ventura Alter the streambed by adding approximately eight (8) inches of high strength, dense concrete over the entire width of the channel bottom. The repair will involve the following steps: 1) The damaged areas will be hydroblasted or chipped out to remove unsound material. Rusted re-bar, will be cleaned and sand blasted; 2) The surface of the entire channel bottom will then be roughened by about 1/4 inch.	NOE	
2007078007	Grizzly Forebay Dam Outlet Valve Retrofit Project State Water Resources Control Board --Plumas Pacific Gas and Electric Company (PG&E), proposes to retrofit the outlet valve on Grizzly Forebay Dam to facilitate compliance with streamflow release increases required by the Federal Energy Regulatory Commission (FERC) Order issued January 11, 2006, amending the Bucks Creek Project license (FERC No. 619). The project is located on lands within the Plumas National Forest, where PG&E owns and operates the hydroelectric project under special use permit from the U.S. Forest Service.	NOE

2001092035	Eureka-Arcata Route 101 Corridor Improvement Project Caltrans #1 Eureka, Arcata--Humboldt On Route 101 , from the north end of Eureka Slough Bridge to the 11th Street Overcrossing in Arcata, major proposed project features include closing Route 101 median crossings; constructing an interchange at Route 101/Indianola Cutoff; extending existing acceleration and deceleration lanes; replacing the Jacoby Creek southbound Bridge, and widening the northbound Jacoby Creek and Gannon Slough Bridges; and possible signalization and realignment of Route 101/Airport Road intersection.	EIR	08/24/2007				
2006061092	Santa Susanna Pass State Historic Park Preliminary General Plan Parks and Recreation, Department of Simi Valley--Los Angeles, Ventura To meet the requirements set forth in Section 5002.2 of the Public Resources Code and Section 4332, Title 14 of the California Administration Code, California Department of Parks and Recreation is preparing a General Plan for the Park. The Plan will delineate a number of resource management zones, as well as develop goals and guidelines for each zone; the document will guide park management, specific project management, and implementation. These goals and guidelines will address recreational, operational, interpretive, and resource management opportunities and constraints; consistent with the classification of State Historic Park, as set forth in Section 5019.59 of the Public Resources Code and with Department Resource Management Directives.	EIR	08/20/2007				
2006032115	Mandela Grand Mixed Use Development Project Oakland, City of Oakland--Alameda The Mandela Grand Mixed Use Project is an industrial village development that would redevelop and revitalize approximately 13.3 acres of underutilized industrial and commercial land in Oakland, CA. The project would demolish most of the existing buildings on the site (the American Steel Building and portions of the Pacific Pipe Building Complex) and construct eight new buildings. The project would adaptively reuse the 47,000-square-foot original timber-frame structure of the Pacific Pipe Building. The development would contain predominantly custom and light industrial uses with limited commercial uses on the ground and second floors of each of the buildings (approximately 300,702 square feet). High-density residential uses (1,577 units) would occur on building levels above the industrial	FIN

	and commercial uses. The proposed uses would include a two-story podium base that would accommodate custom/light industrial and commercial uses, and residential uses would be located on residential floors above the podium that range from four to nine stories. Additionally, three high-rise towers of 27 residential floors over the two-story podium (up to 300 feet tall above grade) would be constructed. The project would provide approximately 2,322 parking spaces - approximately 96% of the total in underground garages and three above-ground, three-story parking garages.		
2007072012	Groundwater Pumping/Water Transfer Exchange for 25 Consecutive Years San Joaquin River Exchange Contractors Water Authority Fresno, Los Banos, Mendota, Firebaugh--Fresno, Kings, Madera, Merced, Santa Clara, Stanislaus Two members of the San Joaquin River Exchange Contractors Water Authority (Firebaugh Canal Water District and Central California Irrigation District) propose to pump groundwater (up to 15,000 AFY) for blending and use with CCID and develop up to 5,000 AFY from conservation and/or temporary land fallowing, for a maximum of 20,000 AFY, transfer of substitute water to certain CVP agricultural, municipal, and industrial water users in the San Luis Unit and San Felipe Division of the CVP for as long as 25 consecutive water years.	JD	08/01/2007
2007072017	Dias Ridge Restoration and Trail Improvement Project Parks and Recreation, Department of --Marin The project would realign trail segments and restore degraded areas on Dias Ridge. The project would improve the overall quality of the parkland and reduce sedimentation into the Redwood Creek and Green Gulch watersheds by removing unauthorized trails, replacing or rehabilitating poorly aligned and eroding segments of the Dias Ridge Trail, and restoring areas of natural landscape. An improved trail alignment would also support existing authorized trail-use designations.	JD	08/03/2007
2007051057	Malibu Lumber Yard and Hardware Store Malibu, City of Malibu--Los Angeles The subject application proposes to remodel the existing Malibu Lumber Yard and Hardware Store as new retail and restaurant uses. The project would allocate approximately 30,331 square feet to new retail areas and two new restaurants and accessory development such as public restrooms. A new, 1,875 sq. ft. basement wine cellar is proposed as an accessory to the restaurant uses. The subject project would not increase existing floor-area ratio (basements are exempt from floor area ratio pursuant to the Malibu Municipal Code Section 17.02.060). Existing total structure heights would not change from present. The project proposes to replace much of the existing, impermeable surfacing of the property (including concrete and related hardscape) with new, permeable surfaces such as additional landscaping. The project proposes 120 onsite parking spaces and also provides valet service. The project will utilize an alternative onsite wastewater treatment system (AOWTS) providing primary, secondary, and tertiary treatment. A conditional use permit (CUP) is required in order to permit restaurant facilities, as well as for the sale and serving of alcohol in the CG zoning district.	MND	08/01/2007

2007072006	Corte Cabrillo LLC- Silver Oaks Santa Cruz County --Santa Cruz Proposal to create 28 residential townhouse lots with common open space and construct 28 townhouses. Requires a General Plan Amendment and Rezoning to change a portion of APN 037-151-12 from Commercial Office/PA to Urban Medium Residential/RM-4, a Subdivision, a Residential Development Permit, Roadway Abandonment of approx. 78 sq. ft. of Soquel Drive, an amendment to Commercial Development Permit D-73-8-15, a Roadway/Roadside Exception, a Preliminary Grading Approval, and a Soils Report Review. The project is located on the northeast corner of Soquel Drive and Corte Cabrillo in Aptos. The exact addresses are 6233 and 6255 Soquel Drive, Aptos, California.	MND	08/01/2007
2007072009	Pill Single Family Residence Santa Clara County Morgan Hill--Santa Clara Grading to construct a single family residence and driveway. Grading involves 1,710 cubic yards of cut and 1,768 cubic yards of fill. Swale on site drains in Uvas Reservoir.	MND	08/01/2007
2003072038	Draft Ukiah Valley Area Plan (#GP 20-98) Mendocino County Ukiah--Mendocino The revised Ukiah Valley Area Plan (UVAP), if adopted, will serve as part of the County's General Plan. It will provide long-term policy direction for growth and development in the plan area over the planning period. The area plan refines and supplements the County General Plan to focus on issues of importance in the Ukiah Valley. The land use classifications, policies, and implementation measures of the UVAP provide more detailed guidance for the plan area than is contained in the existing County General Plan, which was originally adopted in 1981. The revised UVAP will build on the policy base and land use classifications included in the original UVAP, revising only those policies and implementation measures that the County deems necessary.	NOP	08/01/2007
2007071008	Selma Crossings Selma, City of Selma--Fresno The applicant proposes to develop a 304-acre site with a mix of commercial uses in three phases as shown on the draft site plan Exhibit 4. Selma Crossings will provide a regional retail center serving Central California. The development will include approximately 3.1 million square feet of commercial space and a 44 acre auto mall. A list of the proposed uses and estimated square feet of each type of use is provided in Table 1. No specific tenants have been identified for the project.	NOP	08/01/2007
2007072013	Cristallago Lake County Community Development Department Lakeport--Lake The proposed Cristallago project is a Master Plan for a mixed use community, with its main features consisting of 650 single family residential units, 325 resort units, 18-hole "Jack Nicklaus Signature" golf course, 25,000-sf clubhouse, community	NOP	08/01/2007

2007072007	PA-0700286 San Joaquin County Community Development Department --San Joaquin A minor subdivision to subdivide one 314.8 acre parcel into four parcels. Parcels one through 3 to contain 80 acres. Parcel 4 to contain 74.8 acres.	Neg	08/01/2007
2007072008	Don Melzark, Tentative Parcel Map & Planned Development TSM/PD 12-05/06-09 Plumas County Planning & Building Services Quincy--Plumas Tentative Parcel Map for division of 0.97 acres into four parcels. A maximum of 14 dwelling units could be constructed on the four lots. This project also includes a Planned Development permit to allow modification of the County's Class 3 Road standard. This modification includes the construction of a Class 3 roadbed within a 40 foot right of way and elimination of on-street parking. The County's Class 3 road standard allows reduction of the shoulder width when no on-street parking is permitted and no special maneuvering is needed for traffic safety and the average daily traffic is less than 1,000. This project will also necessitate the opening and improvement of the northerly 200 feet of Sierra Way to the County's Class 7 standard. This section of Sierra Way is unimproved and fenced off.	Neg	08/01/2007
2007072011	Aerojet Landfill Closure Modification Plan Environmental Review and Assessment, Department of Rancho Cordova--Sacramento Project consists of the modification of an approved closure plan for a landfill at aerojet. The owner intends to have the closed landfill removed from the property and the property removed from Federally designated Superfund site.	Neg	08/01/2007
2007072015	Plattner Residence Santa Clara County --Santa Clara Proposed single family house on a rural, hillside lot. Project entails construction of a single family house, driveway, and turnaround on a twenty acre lot at 1335 Lions Peak Lane in San Martin. The property is lot 24 within the Cordevalle Vineyard Estates subdivision. The proposed residence is proposed to be located approx. 850 feet east from the terminus of Lions Peak Lane, within an area designated by the subdivision as the residential "building envelope" for the property.	Neg	08/01/2007
1998092030	Wastewater Treatment and Disposal Upgrade Project Occidental County Sanitation District The proposed project will upgrade the existing WWTP collection system and will include the in-place replacement or abandonment of existing asbestos concrete pipes, the realignment of ~3,680-feet of 8-inch diameter pipes with polyvinyl chloride, high-density polyethylene or ductile iron pipe, and the replacement of associated manholes, laterals and cleanouts.	NOD	
2001071135	Los Banos Bypass; 10-419100 (PM 16.0/24.8) Caltrans #10 Los Banos--Merced The project would construct a four-lane freeway and would include three interchanges, one west of the city, one on the east end of the city, and one at the intersection of State Routes 152 and 165. The project would require local road changes, including construction of appropriate frontage roads on the east and west, overcrossings, and undercrossings.	NOD

2005111045	Draft EIR No. 00484, Tentative Tract Map No. 33461, Change of Zone No. 07185 Riverside County Planning Department Riverside--Riverside The change of zone proposes to amend the existing zoning classification from Heavy Agriculture - 10 acre min. (A-2-10) to One Family Dwellings (R-1) to be consistent with the general plan designation of Community Development: Medium Density Residential.	NOD	
2006069014	Patel Single Family Residence Los Angeles City Planning Department Los Angeles, City of--Los Angeles The proposed residence is the development of an approximately 5,000-square-foot, two-story, single-family residence with a two-car garage. The structure would be designed in the Spanish Revival style. The proposed project would include a swimming pool, outdoor entertainment spaces (barbeque area and patio), a landscaped area, open space, a vehicle "turnaround" in front of the garage, and an entrance gate.	NOD	
2007041120	Fish Passage Enhancement to El Jaro Creek at Rancho San Julian Cachuma Operation and Maintenance Board Lompoc--Santa Barbara A steelhead/rainbow trout migration passage barrier exists near the San Julian Ranch on El Jaro Creek. The barrier is a concrete grade control structure immediately below the bridge that spans the width of the active channel and acts to preserve the integrity of the bridge. Steelhead/rainbow trout attempting to negotiate the obstacle during low to high flow conditions can become seriously injured or killed when they jump from the pool and land on the grade control structure above. The project will modify the structure to create a migration path for fish during low through high flow periods, by constructing nine step pools; 4 feet wide by 6 feet long, in the concrete apron under the bridge. Each pool will be designed to provide no more than an 8-inch vertical jump between pools and have a minimum depth of 2.5 feet within each of the nine pools.	NOD	
2007042117	Portola Courthouse for Plumas and Sierra Counties Judicial Council of California Portola--Plumas The Administrative Office of the Court (AOC), the staff agency of the Judicial Council of California, is proposing fee acquisition of a parcel in Portola, construction of a new courthouse, and operation of the facility for cross-jurisdictional use by the Superior Court of California, County of Plumas and Superior Court of California, County of Sierra. The courthouse will be on Gulling Street near the Portola High School's parking lot. The project site will cover approx. two acres. The proposed new Courthouse will be one story tall, have approx. 6,500 sf of space for one courtroom and other Court-related facilities, and will have approx. 20 public parking spaces. The new courthouse will improve access to judicial facilities for residents of Plumas and Sierra Counties, provide courthouse facilities that meet current building standards for public use; provide facilities to support new judicial services and additional judges; and provide improved security for visitors, judges, and courthouse staff.	NOD

2006041027	Santa Barbara Botanic Garden Vital Mission Plan, 72-CP-116 Rv01 Santa Barbara County --Santa Barbara The applicant is proposing to revise their existing CUP and approve a Development Plan to allow the development of approx. 37,716 sq. ft. of net additional building area for administrative, research, educational, and residential uses. The project also proposes to add a newly acquired 13.15 acre parcel to the CUP (approx. 78 acres total), improve its internal circulation and parking, install fencing, improve and expand its trail system, improve fire protection for all existing and proposed development, and extend municipal sewer and water service to serve the entire project site. Increases in staff, visitors, classes, and special events are proposed and anticipated. Upon completion of the project, the Garden would include a total of 77,798 sq. ft. of development, with a net increase of eight residential units.	EIR	08/20/2007
2007052075	Rispin Mansion, City of Capitola, CA Capitola, City of Capitola--Santa Cruz The Rispin Mansion project proposes to restore the historic Rispin Mansion and develop a bed and breakfast hotel, located on the northeast side of the intersection of Clares Street and Wharf Road in the City of Capitola. The project includes rehabilitating the Rispin Mansion and providing public access to open space, a historically accurate restored garden, visitor-serving hotel, meeting and wedding facilities in accordance with City of Capitola land use policies and regulations. This restoration will create educational opportunities and public access to a historical area and natural open space, preserve local history, and provide a mechanism for habitat protection and enhancement. The project will provide employment opportunities and additional tax revenue for the City of Capitola, and will eliminate the current revenue drain associated with maintenance, insurance, and public safety calls to the site, which exists as an "attractive nuisance" for trespassing, vandalism, and related activities.	FIN	
2006091018	Avenue 412 Intermediate School Dinuba Unified School District Dinuba--Tulare The project consists of the development and operation of an intermediate school on an approx. 20 acre site. The proposed intermediate school will be a full service facility designed to accommodate 700 to 900 grades 7-8 students. The intermediate school will have classrooms, faculty work areas, administrative offices, multi-purpose facilities, athletic/recreation areas, and parking lots. Portions of the school grounds will be lighted for security and recreational purposes and may be available for community use during non-school hours.	MND	08/03/2007
2007071013	VVTA Transit Administration, Operations & Maintenance Facility Victor Valley Transit Authority (VTA) Hesperia--San Bernardino The Victor Valley Transit Authority (VVTA) is a joint powers agency that provides bus services to the high desert area north of the San Bernardino Mountains in western San Bernardino County. The VVTA provides bus services for the Cities of Adelanto, Hesperia, and Victorville, the Town of Apple Valley, and portions of San Bernardino County, as well as limited deviated services for the outlying areas of Wrightwood, Pinon Hills, Phelan, Helendale, and Lucerne Valley. Recently, the VVTA consolidated operations and maintenance functions of three separate contractors into a small leased facility located in Hesperia. The new facility would	MND	08/03/2007

2007071017	Tentative Tract Map 66396 Lancaster, City of Lancaster--Los Angeles A subdivision for 7 single family lots ranging in size from 25,871 sq. ft. to 31,377 sq. ft. in the SRR zone.	MND	08/03/2007
2007072018	Tentative Tract Map 07-1004; Shaan Estates; Hirday Singh, applicant Corning, City of Corning--Tehama To create 14 lots for single family residential development and use.	MND	08/03/2007
2007071010	Agua Mansa Commerce Center, Design Review Application and Tentative Tract Map 18250 Colton, City of Colton--San Bernardino The applicant is proposing Tentative Tract Map 18250, to subdivide approximately 94.18 acres into 13 numbered lots, for future development of an industrial business center in the City of Colton. The Agua Mansa Commerce Center will consist of eleven speculative industrial buildings, a truck/trailer parking lot, and a detention basin. The proposed project has been designed to meet the Agua Mansa Specific Plan Medium/Heavy Industrial development standards. Additionally, the project has been designed to meet the City's Riverside Avenue Corridor Overlay District development standards. Grading and fill operations will be necessary in order to elevate the buildings above the floodplain. Approximately 70 acres of the project site are vacant, and approximately 23 acres are located on a former composting facility. Any existing structures would be demolished prior to project development.	NOP	08/03/2007
2007071011	Tulare Motor Sports Complex Tulare, City of Tulare--Tulare The applicant proposes to develop a 751.35-acre site with a super speedway 1-mile D-shaped oval racetrack and drag strip. Both facilities will be surrounded by grandstands and sky boxes with a potential seating capacity of approximately 50,000 spectators for the super speedway track and approximately 40,000 for the drag strip. Penthouse condominiums will also be constructed above the grandstands for maximum comfort and viewing opportunities. Race support facilities will include fuel storage, 50 space garage, multi-story mini storage, medical center, and helipad. A law enforcement training center will be constructed onsite in addition to a City of Tulare police substation and fire station which will provide service to the site and surrounding area. The site will also be developed with a mix of commercial uses including offices, restaurants, gas station, convenience stores, convention center, movie theatre, an agri-business technology park, resort hotels and a luxury RV park. Additional recreational activities will include exercise facilities, an amusement park designed for all ages, and a 35 acre lake with boat docks providing fishing opportunities. The lake will provide a focal point for large retail anchors. A ponding basin will also be constructed for storm water retention. Parking will be provided by 13 surface parking lots and a 4 story parking garage. The project designs are pedestrian friendly and will include a low speed tram system to aid in patron circulation. 	the site over the existing 35.931 SF. The Center for Compassion intends to occupy the space for charitable, non-profit work.		
2006031008	TM 5308RPL^2, Log No. 03-08-012; DKST, LLC Residential Tentative Map San Diego County Department of Planning and Land Use San Marcos--San Diego The project proposes a 13-lot residential subdivision on 21.7 acre site in the North County Metro Subregional Plan Area.	NOD	
2006072040	Griffith Zone Change 03RZ-12 and Tentative Parcel Map 03T-20 Tuolumne County Community Development Dept. --Tuolumne 1. Ordinance for zone change 03RZ-12 to rezone a 19.4+/- acre parcel from A-10 (General Agricultural, ten acre minimum) as follows. RE-5 (Residential Estate, five acre minimum) 13.6+/- acres and 0 (Open Space) 5.9+/- acres and Parcel 3 - 6.7+/- acres, pending approval of the requested zone change. 2. Tentative Parcel Map 03T-20(1) to divide the 19.4+/- acre parcel into three parcels. Parcel 1 7.7+/- acres. Parcel 2 - 5.0+/- acres and Parcel 3 - 6.7+/- acres, pending approval of the requested zone change.	NOD	
2007011020	San Jacinto Agricultural In-Lieu Water Supply Eastern Municipal Water District San Jacinto, Unincorporated--Riverside Eastern Municipal Water District (EMWD) proposes to install approximately 10,775 linear feet of 24-inch recycled water pipeline to deliver recycled water to two dairy farms. The recycled water will be used for on-farm irrigation in exchange for reductions in groundwater pumping from the San Jacinto groundwater basin that is currently in a state of overdraft. More than half of the groundwater being pumped from the San Jacinto subbasin is being used for agricultural irrigation, the water table levels have dropped, and some wells have gone dry. The proposed recycled water pipeline will reduce groundwater pumping in the San Jacinto subbasin and help stabilize the subbasin.	NOD	
2007042011	Hilarides Conditional Use Permit 05CUP-37 Tuolumne County Community Development Dept. --Tuolumne Conditional Use Permit 05CUP-37 to allow vegetation removal, other than that required for reasons of health and safety, within the O-1 (Open Space-1) zoning district on a 2 +/- acre parcel zoned C-K (Commercial Recreation) and O-1 (Open Space-1) under Title 17 of the Tuolumne County Ordinance Code.	NOD	
2007052071	Transfer of the Ophir School District Territory and Administration Functions to the Loomis Union School District Placer County --Placer The proposed action is strictly an administrative transfer of territorial area, specifically the area served by the OESD will be transferred into the LUSD service area. This transfer would not represent a change in existing or future structures, school facilities or environmental conditions. This proposed action will effectively eliminate the OESD. The governing boards of the affected school districts support this petition. The petition has been verified by the County Superintendent of Schools and was found to be sufficient on March 28, 2007. 2006052071	Claybank Adult Detention Facility Expansion Project Solano County Fairfield--Solano The proposed project consists of a two phase expansion of the existing Claybank Adult Detention Facility in the City of Fairfield that would occur between 2008 and 2025. Phase 1 would add 512 beds and Phase 2 would add a maximum of 1,058 beds in new structures developed on the detention facility site. Non-housing support areas inside the existing detention facility would be renovated. New parking and roadways would be provided on the west side of the expanded facility.	FIN	
2006011084	Bastanchury Road Widening Project Fullerton, City of Fullerton--Orange The proposed project is for improvements on Bastanchury Road between Harbor Boulevard and Fairway Isles Drive, a distance of approximately 1,950 feet. The project proposes to widen Bastanchury Road between Harbor Boulevard and just west of Fairway Isles Road from four to six lanes, a distance of approximately 1,693 feet. The remaining project segment of Bastanchury Road would be restriped to be consistent with the widened cross section.	MND	08/06/2007
2007071022	Vesting Tentative Tract Map 62520 Lancaster, City of Lancaster--Los Angeles The project consists of a subdivision for 11 single family lots ranging in size from 20,077 sq. ft. to 27,354 sq. ft. in the SRR zone.	MND	08/06/2007
2007071025	State Route 91- Add High Occupancy Vehicle Lanes through the City of Riverside- Adams Street to 60/215 Junction Caltrans #8 Riverside--Riverside The California Department of Transportation District 8 (Caltrans) and the Federal Highway Administration (FHWA), in partnership with Riverside County Transportation Commission (RCTC) and the City of Riverside, are proposing to widen existing State Route 91 (SR-91) by adding one high occupancy vehicle (HOV) lane in each direction, adjacent to the median. The proposed project would widen SR-91 between Adams Street [Post Mile (PM) 15.6] and University Avenue (PM 20.46) in the city of Riverside by adding a single HOV lane adjacent to the median in each direction. The project will include reconfiguration of existing interchanges, replacement of existing overcrossings, widening of existing undercrossings, and restriping within existing right-of-way to accommodate the proposed mainline and interchange improvements. The total project segment is approx. 6 miles long, including the restriping between University Avenue and the SR-60/91/I-215 interchange and construction of HOV lands and restriping between Brockton Avenue/Mary Street and Adams Street. This project would substantially benefit users of the HOV lanes by eliminating the existing gap in the HOV facilities through the city of Riverside and alleviating congestion on SR-91.	MND	08/06/2007
2007072025	Valley of the Moon Water District Well No. 5 Replacement Project Valley of the Moon Water District --Sonoma The Valley of the Moon Water District (District) proposes to replace an abandoned production well on the 7,500 sq. ft. parcel it owns on the south side of Verano Avenue near the intersection of Arnold Drive in El Verano. The depth of the well would be 680 feet, and the pumping rate would be approx. 300 gallons per minute	MND	08/06/2007

	<p>safety policies for the entire city. While policies regarding future land use and growth are addressed from a citywide perspective, the majority of land use changes are limited to approximately 77 key opportunity areas and four focused study areas of opportunity within the city. In addition, five areas of interest outside of the city have been defined as potential future expansion areas, for which comprehensive planning has not yet been undertaken. The city is also divided into ten Community Plan areas, for which additional policies will be developed: Arden-Arcade, Central City, East Broadway, East Sacramento, Land Park, North Natomas, North Sacramento, Pocket, South Area, and South Natomas. The environmental analysis of the South Area Community Plan will be slightly more expansive than the other nine Community Plan areas. The four focused study areas are: Richards Boulevard, Robla, Arden Fair/Point West, and 65th Street/University Village. The five areas of interest are: Natomas Joint Vision Area, Arden-Arcade, Florin Fruitridge, Town of Freeport, and the East Area. Accordingly, the MEIR will comprehensively address the impacts of all policies throughout the city and the ten Community Plans, as well as focus on those four focused study areas in which the most significant land use changes could occur. Policies for the five areas of interest will also be discussed.</p>

	work and no disturbance or removal of surrounding vegetation will be required.		
2007078095	Temporary Power Supply Agreement with Kiewit Pacific Company Placer County Water Agency --Placer Kiewit is under contract with Pacific Gas & Electric Company to install a steel lining in PCWA's Middle Fork Tunnel Surge Shaft. In order to facilitate performing this work, Kiewit would like to purchase power from PCWA. This exemption is for an Agreement between Kiewit and PCWA for the use of power from PCWA's Middle Fork short distance from the surge shaft. In order to provide the power supply, Kiewit will upgrade the pole-mounted voltage step-up transformer located at the bottom of the penstock, fuse protect the existing pole-mounted voltage step-down transformer located at the top of the penstock adjacent to the penstock butterfly valve house, add three new transformers to supply power to Kiewit's water treatment equipment, and upgrade the pad-mount transformer located in the microwave building. PCWA will upgrade the size of the cables from the existing 150 ampere supply breaker located in the powerhouse to the pole-mounted voltage step-up transformer.	NOE	
2007078096	Adoption of Revised Regulations Modifying Existing Active Disposal Site Gas Monitoring and Control Regulations California Integrated Waste Management Board -- These proposed regulations for modifying existing active disposal site gas monitoring and control regulations amend Title 27, California Code of Regulations, Division 2, Chapter 3, Subchapter 4, Article 6, § 20918 et seq. Until these regulations take effect, State Minimum Standards for gas monitoring and control during the post-closure period are much more comprehensive and descriptive than those applicable to landfills during their active life. The two active disposal site landfill gas standards (27 CCR § 20919 and 20919.5) give the Local Enforcement Agencies (LEAs) and the Board broad authority to require the same level of monitoring and control as for closed disposal sites but do not elaborate on the details. These regulation modifications will make the landfill gas-monitoring and control regulations for the active life of a landfill as comprehensive as the regulations for gas monitoring and control during the post-closure care period. This will provide consistency in implementing the regulations at all sites as well as additional guidance to LEAs at active disposal sites which are more likely than closed sites to have gas-related compliance issues. This should also bring increased compliance with landfill gas issues at active sites.	NOE	
2007078097	TC07-007 Tuolumne County Unincorporated--Tuolumne Consideration of an ordinance (TC07-007) amending Chapters 2.36 and 2.38 of the Tuolumne County Ordinance Code to add provisions for automatic vacancies and removal of office of members of the Twain Harte Design Review/Planning Advisory Committee, Tuolumne City Design Review/Planning Advisory Committee, Muller Subdivision Design Review Committee, Phoenix Lake Country Club Estates Design Review Committee and the Historic Preservation Review Commission, and amending Section 2.36.100 to modify the membership of the Twain Harte Design Review/Planning Advisory Committee to five members appointed by the Board of Supervisors, one member nominated by the Twain Harte Homeowners Board of Directors, and one member nominated by the Twain Harte Area Chamber of Commerce. 2004031022	Rancho Vista Amendment Project Oceanside, City of Oceanside--San Diego Implement remedial grading necessary to provide slope stability to allow the construction of a previously approved 29-unit single-family detached Seniors-Age-Restricted residential community on the site. The remediation would involve the construction of a 60-foot wide shear key wall. The face of the remedial grading, which would vary from 2:1 to 4:1 slopes, would include terraces at approximately 30-foot vertical spacing with terrace drains to control and correct erosion. the project redesign includes measures to soften the appearance by rounding slopes to mimic the natural slope. The remedial grading, totaling approximately 5.4 acres, would also extend offsite east and west outside of the original project boundaries into City of Oceanside property and Caltrans property, respectively, Permission to grade offsite would be required from both the City of Oceanside and Caltrans.	EIR	08/22/2007
2004071127	Yucca Valley Retail Specific Plan Yucca Valley, City of Yucca Valley--San Bernardino The proposed project involves the construction and operation of a 229,000-square foot supercenter, a twelve position gas station, a 4,000-square foot fast food restaurant, a 1.82-acre retention basin, and 10,000 gallon on-site wastewater treatment plant. 	bends from north/south direction to an east/west direction. The outside of this bend sustained significant erosion during the spring 2005 flood events. While this bank had undergone installation of eight (8) protective groin structures in 1992 to protect an existing historic landfill, heavy channel flows in 1998 damaged many of these structures. After the heavy flows of 2005, only a few remains existed of two groins and five others were completed destroyed. In an effort to prevent further erosion of the bend after the spring of 2005, three (3) replacement groins were installed at this bend in 2006. These groins protect approximately 600 feet of channel bank, but an additional 1500 feet of bank at this location remains vulnerable. The installation of four (4) additional groins will provide the necessary bank protection.		
2007078103	Storm Drainage Repair Replace Rock Slope Protection Fish & Game #2 --Sierra The proposed project is to repair the roadway embankment along the North Fork Yuba River on State Route (SR) 49 in Sierra County post mile 18.63. The scope of the project consists of removing damaged RSP the site and replacing it with un-grouted angular RSP ranging from 2 to 4 ton sized rock.	NOE	
2007078104	Storm Drainage Repair Fish & Game #2 --Sierra The proposed project is to repair the roadway embankment along the North Fork Yuba River on State Route (SR) 49 in Sierra County in two locations (locations 1 & 2) between post miles 32.22 and 32.42. The scope of the project consists of placing RSP at location 1 and removing damaged RSP at location 2 and replacing it with un-grouted angular RSP ranging from 0.5-ton to 2-ton sized rock. Location 1 will receive 4-ton rocks. There will be a culvert replacement at location 2. Willows will be planted along 2 sections of the embankment stabilization.	NOE	
2007078105	Madrigal Secondary Dwelling Unit - Development Review Permit DR07-08 Santee, City of Santee--San Diego A 600 sq. ft. secondary dwelling unit within the lower level of an existing two-story single family dwelling on a 7,500 square foot lot in the R-7 Medium Density Residential zone.	NOE	
2007078106	San Francisquito Creek Outfall Modification Fish & Game #3 Palo Alto--Santa Clara Installation of a flapgate on an existing 15-inch corrugated metal pipe (CMP) outfall and installation of a high-density polyethylene (HDPE) sleeve into the connecting storm drain. Issuance of a Streambed Alteration Agreement Number 1600-2007-0216-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078107	Toe Stabilization, Refugio Creek Fish & Game #3 --Contra Costa The project consists of stabilizing a section of the creek that has been eroding and was temporarily stabilized using a willow brush mattress. An existing multi-stemmed willow tree will be removed from the middle of the creek and used to create 2-3 small root wads to be installed in the toe of the eroding bank. The bulk of the tree trunks will be used in the construction of a two-log high willow revetment for approximately 50 linear feet along the toe of the slope. Root wads	NOE

	and revetment will be held in place with wire secured to live willow poles driven into the creek bottom at the toe of the slope. An approximately 30 feet x 6 feet x 3 feet area will be hand excavated and hauled sufficiently upland to be above normal high flows, seeded and covered with coir erosion fabric. Issuance of a Streambed Alteration Agreement Number 1600-2007-0163-3 is pursuant to Fish and Game Code Section 1602.		
2007078108	Franz Creek Bridge Fish & Game #3 --Sonoma The construction of a 40-foot long, 12-foot wide free-span bridge across the north fork of Franz Creek. The proposed bridge will have the abutments constructed high on the banks above the level ordinary high water, with a small amount of rock rip-rap under the bridge to protect the abutments from scour. Imported fill will be placed behind the abutments to replace material removed when the old road was constructed. Issuance of a Streambed Alteration Agreement Number 1600-2007-0167-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078109	RoyceJones Purrington Creek Bridge Fish & Game #3 --Sonoma The construction of a 60-foot long, 13-foot wide free-span bridge across Purrington Creek. The proposed bridge will have the abutments constructed above the level of the 100-year flow and above the level of top-of-bank. An existing bridge will be removed and the old piers and abutments will be removed from the stream. Issuance of a Streambed Alteration Agreement Number 1600-2007-0131-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078110	Bank Repair at Ducker Creek Fish & Game #3 --Sonoma The stabilization of an eroding section of the bank of Ducker Creek approximately 1000 feet east of Calistoga Road. The creek bank in this area failed during the heavy storms of the winter of 2006-2007 and is now threatening an existing home at the site. The proposed bank stabilization will include excavation of a 3-foot x 4-foot keyway along the stream just outside the low flow channel, placement of rock rip-rap on the lower slope, and the reconstruction of a bioengineered and revegetated upper slope. Issuance of a streambed Alteration Agreement Number 1600-2007-0187-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078111	Eroding Creek Bank Repair, Platt Property Fish & Game #3 --Sonoma The protection of three sections of the eroding bank on an unnamed ephemeral tributary to Salmon Creek, to the north of the Bodega Highway two miles east of the town of Bodega and just west of Watson School. The erosion of the stream bank is threatening a ranch access road. The stream bank repair will consist of a graded stone armor to raise the invert of the stream and additional stone armor along the toe of the bank to control erosion. Work will occur in three discreet, but closely related, sites, and will affect about 400 feet of the stream channel. Issuance of a Streambed Alteration Agreement Number 1600-2007-0132-3 is pursuant to Fish and Game Code Section 1602.	NOE

2007078112	George Ranch Fish & Game #3 Sonoma--Sonoma Applicant proposes to protect a 40-foot by 70-foot section of eroded bank on an unnamed seasonal tributary to Carriger Creek by placing approximately 200 cubic yards of rock rip-rap on the bank of the stream outside the active channel. The eroding creek bank is threatening the access road to residential areas. Issuance of a Streambed Alteration Agreement Number 1600-2007-0160-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078113	Harmony Village Fish & Game #3 --Sonoma The replacement of two storm drain outfall structures on Dutch Bill Creek at the Harmony Village planned community at the Old Harmony School in Occidental, Sonoma County. At each of the sites an existing 187-inch storm drain will be removed and replaced with a new 36-inch storm drain. Loose rock rip-rap will be placed at the storm drain outfalls per the standards of the Sonoma County Water Agency. Issuance of a Streambed Alteration Agreement Number 1600-2007-0198-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078114	Franklin Point Prescribed Burn Parks and Recreation, Department of --San Mateo Burn three plots of land totaling 270 acres of dune scrub and associated wetland communities in order to facilitate the removal of European dune grass (<i>Ammophil arenaria</i>). One plot will be burned per day for a total of three burn days. Construct fire lines approximately 8 feet wide with a 2 feet of bare soil scraped clean of vegetation and 6 feet of mowed vegetation. The project will comply with all applicable federal, state and local laws. A burn permit will be obtained from the Bay Area Air Pollution Control District and prescribed burning will be initiated on a designated burn day. The burn will be consistent with the Prescribed Burn Plan and its required environmental conditions. Traffic controls will be used so that vehicles traveling on State Highway One will either be stopped or required to reduce speed through the area depending on visibility. After the prescribed burn is completed, park staff will closely monitor the results and implement control strategies as needed to remove exotic plants. Subsequent control strategies will be evaluated in a separate environmental document. Fuel will be scraped away from historic fence posts within the project area in order to exclude them from the burn.	NOE	
2007078115	CHP Academy - Running Track Replacement and Removal and Replacement of Diesel Underground Storage Tank California Highway Patrol, Department of West Sacramento--Yolo The California Highway Patrol proposes to replace the Running Track at the CHP Academy located in West Sacramento. Replacement of the track includes installation of an all weather surface track and new lighting fixtures. The new track will be located in the same area as the existing track and is necessary for the health and safety of the cadets training at the facility. The current track has an uneven dirt surface that ponds in areas during the rainy season. The existing track lighting is insufficient to all the Academy staff to monitor the whole track from one side. The new track lighting will correct the situation. Every year, several cadets area injured using the track. The project also involves removal and	NOE

	<p>Parkway will also be elevated at the southern end of the project to meet the height elevation of the new Atlas Tract levee system and future Mosher Slough-Trinity Parkway bridge. The dry land levee is currently under the jurisdiction of the State Reclamation Board and the Army Corps of Engineers and this project will require their approval prior to the levee's realignment. In the summer/fall of 2006, the Atlas Tract levee system was improved to provide flood protection estimated to be in excess of the 200 year flood event. Based upon those improvements, the Federal Emergency Management Agency (FEMA) has recently issued a Letter of Map Revision demonstrating that the site now has flood protection exceeding the federal minimum. With the enhanced levee system in place, lands within the Atlas Tract will be protected from tidally influenced delta flood waters, as well as the upstream flooding potential from Bear Creek and Mosher Slough. The Atlas Tract levee system improvements will also provide the existing residential users in the Twin Creeks Estates subdivision continued flood protection in addition to the protection afforded by the dry land levee, thus allowing for levee realignment to occur without risk to the Twin Creeks Estates residents and construction of Trinity Parkway improvements. Included in the proposed roadway improvements will be utility pipes, water, sewer, streetlights, and PG&E joint trench facilities.</p>		
2004042138	<p>Water Recycling Project North Coast County Water District Pacifica--San Mateo</p> <p>The North Coast County Water District Water Recycling Project (Project) will supply recycled water to the central portion of the City of Pacifica. 2007071032	<p>Tentative Tract Map 17417 Adelanto, City of Adelanto--San Bernardino</p> <p>The applicant, Avenue Mortgage, is proposing Tentative Tract Map 17417 to subdivide an 18.98-acre site into 66 single family residential lots with a minimum lot size of 7,200 square feet, located on the south side of Auburn Avenue between Hermosa Road and Casaba Road, in the City of Adelanto.</p>	Neg	08/08/2007
2007071034	<p>Airport Boulevard Water Transmission Pipeline Coachella Valley Water District Coachella--Riverside</p> <p>The Coachella Valley Water District (CVWD) proposes to install a 24-inch water transmission main along Airport Boulevard from Harrison Street to Higgins Drive/Tyler Street and a 30-inch water transmission main along Airport Boulevard from Polk Street to just east of the Coachella Canal. The approximate 5.25-mile (1.0 mile for the 24-inch portion and 4.25 miles for the 30-inch portion) water transmission main is proposed predominantly along the south side of Airport Boulevard, mostly within Riverside County right-of-way. The water transmission pipeline will cross Harrison Street, State Highway 111, the Union Pacific Railroad, the Coachella Valley Stormwater Channel, State Highway 86S and the Coachella Canal. All of these crossings are expected to be below-grade crossings. The construction of the water transmission pipeline will be completed in sections. The first section, from State Highway 86S to just west of the Coachella Canal, is expected to be completed by the end of 2007. The remaining sections are anticipated to be completed by the end of 2008. The purpose of the project is to improve domestic water service to existing and future customers. This water transmission main will be connected to the proposed Harrison Street water transmission pipeline that will be installed from the Harrison Street/Airport Boulevard intersection south to Avenue 86. The connection will result in the elimination of the smaller hydropneumatic Thermal Airport Water Pressure Zone and allow CVWD to provide more reliable domestic water service from the Middleton Road Water Pressure Zone. The water transmission pipeline terminus at the Coachella Canal will provide a connection point for a potential surface water treatment facility and/or a reservoir in the future.</p>	Neg	08/08/2007

	consistent with the community's existing development pattern as well as the goals, objectives, and policies of the Antelope Valley Area Plan. The development standards contained within the CSD are oriented towards maintaining the low densities and rural character of the Southeast Antelope Valley.		
2007031062	Valley Atwater "Schelby" School Merced County Office of Education Support Services Livingston--Merced The Merced County Office of Education is proposing to construct a Community School complex serving 378 students on a 6.9-acre site in Merced County.	NOD	
2007031152	Rough Grading Permit for a 10-acre Parcel Located North of Sandalwood Drive on 7th Street Calimesa, City of Yucaipa, Calimesa--San Bernardino The proposed project consists of a Rough Grading Plan for an approximate 10-acre site. No development project is planned for this site at this time, though the parcel is zoned for commercial development in the future. Approximately 15,680 cubic yards of soil will be moved as part of the grading operations. The proposed grading plan would not require the export or import of soil; the existing soils would be balanced on site. There are two drainages and an unnamed stream that would be filled as part of the proposed project. The two drainages are intermittent and are located in the middle and southern portions of the project site, respectively. The unnamed stream is a blue-lined stream (also intermittent) in the northern part of the project site. In the northern portion of the project site, the unnamed blue-line stream would be filled and drainage across that portion of the site would be via a new 30-inch and 24-inch underground pipeline. This new pipeline would connect to an existing 30-inch pipeline at I-10 and the eastern project boundary, and to an existing 36-inch pipeline at 7th Street on the west. The new pipeline would be built along a proposed City of Calimesa Drainage Easement. As part of this portion of the project, the existing 7th Street drain would be removed and replaced with a new "V" gutter drain and a desilting basin drain pipe and riser would also be installed. In the southern portion of the project site, the two intermittent drainages would be filled and one 24-inch pipeline would be constructed. The new pipeline would be connected to an existing 24-inch pipeline located at I-10 and the eastern project boundary and to an existing 30-inch pipeline at 7th Street to the west. A City of Calimesa Drainage Easement is also proposed at this location. Both pipelines include the installation of manholes and pipe headwalls. The existing on-site Yucaipa Valley Water District pipeline located near the middle of the site would be protected in place with 48-inches of cover, mounding over the pipeline would be required. A 2-foot by 6- to 12-inch deep V-ditch is proposed around the northern, eastern, and southern portion of the site to transport runoff water to the existing storm drain system along 7th Street. In addition, the onsite power poles would be protected in place per Southern California Edison guidelines.	NOD	
2007041011	Pfeiffer Big Sur Left-Turn Channelization Project Caltrans #5 --Monterey The project would improve safety and provide operational improvement on Highway 1. This would be accomplished by constructing a left turn lane channelization for Southbound vehicles entering the Pfeiffer-Burns State Park.	NOD

2007078123	Portland Street Reconstruction Project Dorris, City of Dorris--Siskiyou Reconstruction of an existing roadway for like use for the City of Dorris.	NOE	
2007078124	Railroad Avenue Reconstruction Project Dorris, City of Dorris--Siskiyou Reconstruction of an existing roadway for like use for the City of Dorris.	NOE	
2007078125	Bridge Rehabilitation Caltrans #3 --Placer, Nevada Work for Yuba Pass SOH (Bridge #19-17-023) will consist of rehabilitating the bridge by applying polyester overlay, joint seal replacement, and approach/departure slab work. Work on the right structure of Hampshire Rocks UC (Bridge #19-0123R) will consist of rehabilitating the bridge by applying polyester overlay and joint seal replacement. No approach slab work is proposed for Hampshire Rocks UC, Right.	NOE	
2007078126	Ash Creek Wildlife Area - Wetland (Unit 2) Enhancement Project Fish & Game #1 --Lassen The project will involve the installation of 1,500 feet of pipeline that will tie directly into an existing siphon that goes under Ash Creek, thereby eliminating the inefficient existing water delivery ditch. The pipeline will start approximately 700 feet from the Adin Dam, off another existing ditch that is used to convey water to adjacent landowners. The pipeline will be installed using specialized trenching equipment parallel to the old ditch with a minimal disturbance to the plant community (composed of primarily non-native grasses) within the project area. The width of the disturbance area is about 20 feet for a distance of about 1,500 feet or approximately 0.7 acre. After the pipeline is placed within the trench, the area will be backfilled, returned to grade and reseeded.	NOE	
2007078127	Gem Lake Dam Repair and Maintenance Project State Water Resources Control Board --Mono In recent years, the Gem Lake Dam has been observed to have increasing instances of leakage. The leaks observed are compromising the capacity of the dam to divert water. Southern California Edison (SCE) proposes to install a geomembrane liner along the upstream face of the dam to block current leaks and prevent future leaks. Additionally, deteriorated concrete in several arches will be repaired concurrently with the geomembrane installation.	NOE

2007078133	<p>Grizzly Creek Weir Modification Project State Water Resources Control Board, Division of Water Rights --Plumas</p> <p>PG&E proposes modifications to the existing Grizzly Weir measuring structure (PG&E gage NF22), located on Grizzly Creek approximately 300 feet downstream of Grizzly Forebay Dam, on lands within the Plumas National Forest. The weir will be reconstructed to provide accuracy in measuring the minimum flow release increases required by Federal Energy Regulatory Commission (FERC) Order issued January 11, 2006, amending the Bucks Creek Project license (FERC No. 619). Work involves the diversion of streamflow around the center of the existing weir using a temporary cofferdam made from clean sandbags along with a corrugated plastic conduit bypass system. Creation of a dry construction zone will result in the temporary dewatering of approximately 50 feet of streambed immediately upstream of the weir location. During reconstruction of the measurement weir, minimum flow releases from Grizzly Forebay Dam to Grizzly Creek will be maintained for protection of the aquatic ecosystem in all but the limited area scheduled for temporary dewatering. Construction activities will include concrete cutting to enlarge the rectangular measurement notch in the weir, installation of a weir plate, and concrete patching of pervious areas of the existing weir expanse and wingwall structure. All construction debris will be removed from the creek drainage; affected channel and riparian zone areas will be restored after completion of the construction activities.</p>	NOE

	The proposed project also includes an option to develop approximately 809,200 gross square feet of office use (instead of residential uses) on the proposed lots fronting Richards Boulevard.		
2004091034	California Coastal Trail-Gaviota Segment Parks and Recreation, Department of Goleta--Santa Barbara The California Department of Parks and Recreation (DPR) proposes to construct a 4 km (2.5 mile) segment of the California Coastal Trail, in Gaviota State Park. This multi-use trail segment would extend east from the Gaviota State Park entrance road (Gaviota Beach Road) along the coastal terrace on the south side of US Highway (Hwy) 101, and will terminate near Canada de San Onofre at its eastern end. The trail would serve pedestrians with varied mobility impairments, bicyclists and equestrians. The trail route would include some areas within California Department of Transportation right-of-way for Hwy 101 as well as property currently owned by Shell Oil Company. The proposed project area is located in Santa Barbara County.	MND	08/10/2007
2007071043	Major Subdivision No. 06-013 (Meadow View); General Plan Amendment No. 06-007; Zone Change No. 06-008 Merced County --Merced The subdivision of a 24-acre parcel into 11 residential lots, each a minimum of one acre in size, and a 13.8-acre remainder. It also involves a General Plan Amendment on a 1.04-acre area from the General Commercial designation to Agricultural Residential and a Zone change from the C-2 (General Commercial) zone to the A-R (Agricultural Residential) zone.	MND	08/09/2007
2007071045	The Glen at Yorba Linda, Tentative Tract Map No. 16986 Yorba Linda, City of Yorba Linda--Orange The applicant is proposing to construct 15 residential estate lots as well as the infrastructure improvements needed to support the development on approximately 8,378 acres of land.	MND	08/09/2007
2007072040	Conditional Use Permit and Design Review for Construction of Phase IV for St. Andrew's Parish and School Saratoga, City of Saratoga--Santa Clara The applicant received Design Review Approval on March 12, 2003, to construct six new structures, consisting of approximately 72,705 square-feet to support St. Andrew's church and school activities. These structures included a gymnasium/performing arts center, administrative/classroom wing, north classroom wing, clergy offices, parish center, and a bell tower. The gymnasium/performing arts center and the parish center have been constructed. Planning Commission approval has a three year expiration date. Building permits and construction was not commenced on the two classroom wings and the clergy offices in this three year period and the entitlements granted by the Planning Commission have expired. The bell tower is no longer part of the project. The new project, Phase IV, is an application for Design Review for the construction of the two classroom buildings and the clergy offices that were not constructed under the previously approved project. The following is a description of the buildings that would make up Phase IV of the project.	MND	08/09/2007

2005042014	<p>Second Main Track Project, BNSF East-West Main Line Between Oakley and Port Chicago Caltrans, Planning Oakley, Antioch, Pittsburg--Contra Costa The purpose of this project is to improve the reliability and on time performance of the Department's rail passenger services. These efficiencies will enhance ridership and better serve the public need for mobility through alternative transportation choices. Within the rail corridor, the existing passenger train service flow (efficiency) is proposed to be enhanced by implementing a variety of rail corridor improvements. Efficiency is not directly related to speed of trains, but is more dependent upon the ability of trains to flow without stopping or slowing on the tracks to allow other trains to pass. The range of potential improvements include: 1) Installation of a new second mainline track along the 18.2 mile long corridor (double tracking with a new track installed at a distance ranging from 15 to 25 feet on center from the existing track); 2) Installation of new sidings (passing track); 3) Extension or upgrade of existing sidings; 4) Upgrade of track structure and special track work; 5) Replacement or installation of existing bridges; 6) Replacement or installation of new culverts, some of which are designed to solely equalize water levels adjacent to the track and some of which to serve as drainage structures; 7) Improvements at highway/ railroad track intersections.</p>	EIR	08/27/2007
2007022104	<p>Mercy General Hospital and Sacred Heart Parish School's Mixed Use Project Sacramento, City of Sacramento--Sacramento The project consists of the demolition of existing buildings for the construction of 20 residential units, 123,350 sq. ft. of hospital building, and associated parking facilities, and a 41,600 sq. ft. K-8 school. The project would result in a net increase of 69,046 sq. ft. of hospital, 3 residential units, and increased student capacity of 35.</p>	EIR	08/27/2007

2005112051	Bay Area to Central Valley High-Speed Train High Speed Rail Authority, California --Merced, Santa Clara, Alameda, San Francisco, San Mateo, ... With California's persistent congestion and growing demand for intercity travel, the high-speed train is an attractive solution to meet future transportation needs. A Statewide Program EIR/EIS was certified in November 2005 and was the first phase of a tiered environmental review process for the proposed California high-speed train system planned to connect the major metropolitan areas of the state. This Draft Program EIR/EIS further examines the San Francisco Bay Area to Central Valley region as the second part of programmatic analysis in the tiered environmental review process and generally describes the environmental impacts of a proposed high-speed train system within the broad corridor between and including the Altamont Pass and Pacheco Pass. The document describes no-project and high-speed train alternatives (network alternatives, alignment alternatives, and station location options), and identifies potential impacts, benefits, and mitigation strategies.	JD	09/28/2007
2007071048	Mission Union School Expansion Project Mission Union School District Soledad--Monterey The MUSD is proposing to construct and operate the classroom building planned for grade levels first through eighth. The new building will be approx. 6,272 sq. ft. and will consist of six classrooms of 960 sq. ft. each, two restrooms, and storage and other associated rooms, and would be located on the northwest side of the existing Mission School building. The six classrooms would be occupied by approx. 89 students and six staff. Ultimately, the future enrollment capacity of the proposed classrooms will be 137 students. No change in busing operations would occur. Construction and operation of the proposed school facilities would be the responsibility of the MUSD.	MND	08/10/2007

2007071052	60th Street Sewer Replacement San Diego, City of San Diego--San Diego This MND analyzes the 60th Street Sewer Replacement Project. The project would entail the replacement of 1,352 linear feet of sewer main in an urban canyon between Baja Drive and Adams Avenue, and a 244 linear foot branch of eight inch sewer pipe located in Baja Drive and Adams Avenue. Pipe located outside of waters of the U.S. or wetlands would be replaced in situ, while pipe located in these sensitive areas would be located to upland areas and replaced. The project would also include construction for a permanent eight foot wide access path over the newly installed sewer pipe. The proposed construction methods for the project would include: open trench, pipe bursting, and micro-tunneling.	MND	08/10/2007
2007071054	NWC Clemmens and Mission; S06-044, Log No. 06-01-005 San Diego County Department of Planning and Land Use Fallbrook--San Diego The project is a Site Plan to construct a 10,000 sq. ft. Walgreens store with a pharmacy and drive-thru. The project consists of 49 parking spaces and landscaping.	MND	08/10/2007
2007072048	Hughson High School Expansion Project Hughson Unified School District Hughson--Stanislaus Expansion of the school is currently conceptual in nature and proposes, at a minimum, sports fields (i.e. baseball, softball), parking (for approx. 100 vehicles), and a connection to Euclid Avenue. The expansion is designed to provide adequate facilities necessary for school sports programs, in addition to community recreational opportunities. The HUSD is proposing to construct and operate the facilities planned for grade levels 9 through 12, with an existing enrollment of 774 students. Construction and operation of proposed school facilities would be the responsibility of the HUSD. A specific time-frame for construction and completion of the proposed expansion has not been established at this time. These facilities would be located on parcels planned for future purchase along Euclid Avenue and Whitmore Avenue, and would be situated around existing residences. As part of the purchase, a lot-split to create a new parcel or merger by metes and bounds to create a new parcel (located in the area of the proposed softball fields) would be required.	MND	08/10/2007
2007072057	Irvington Pump Station Wet Weather Overflow Holding Pond Project Union Sanitary Dist, Alameda Co Fremont--Alameda Project includes construction of a 4 acre holding pond on a disturbed site within the Irvington Pump Station in Fremont. The pond will be used for the temporary storage of peak wet weather wastewater flows that are associated with storms with a return frequency of less than once every 10 years. Following draining, the pond will be cleaned.	MND	08/13/2007

2007071051	Kern County Valley Floor Habitat Conservation Plan Project Kern County Bakersfield--Kern Habitat Conservation Plan for the long-term conservation of federally and state protected species and other species of concerns. Under the program, Kern County, specified cities and the California Department of Conservation, Division of Oil, Gas, and Geothermal Resources are seeking authorization for a permit from Cal Fish and Game and US Fish and Wildlife Service.	NOP	08/10/2007
2007071053	Wilshire and La Brea Los Angeles City Planning Department Los Angeles, City of--Los Angeles The Wilshire and La Bra project is a mixed-used development that would consist of 645 residential units, approximately 41,500 square feet of ground-floor retail and restaurant uses, landscaping, lighting, utilities, and subterranean and above-grade parking which would be screened from public streets by perimeter housing and associated amenities. Of the proposed residential units, 10 units would be townhome units. The residential units would be designed in a variety of layouts and sizes ranging from one to two bedrooms in studio, apartment, and townhome configurations. The proposed project would also provide a total of 1,219 parking spaces within a five-level parking structure, with three levels above grade and two levels below grade. The project applicant is requesting the following approvals as part of the project: General Plan Amendment for the southernmost portion of the La Brea Avenue parcel from General Commercial: Zone/Height District change from [Q] C4-2-CDO (Wilshire), C2-1 (La Brea) and [Q]C2-1 (Sycamore) to [T][Q]C4-2 on the entire site; Vesting tract map, including the vacation of an alley; Zoning Administrator's Adjustment for 0-foot yards adjacent to the alley prior to recordation of the final map and vacation of the alley; Site Plan Review; Master Conditional Use Permit for the sale of alcohol for on-and off-site consumption; Building line removal along Wilshire Boulevard; Project Permit Compliance review under Community Design Overlay (CDO) District; and other approvals as necessary.	NOP	08/10/2007
2007071056	Canoga Transportation Corridor Metropolitan Transportation Authority --Los Angeles The Los Angeles County Metropolitan Transportation Authority (Metro) proposes to extend bus service from the existing Metro Orange Line terminus at Canoga near Vanowen, north to the Chatsworth Metrolink Station. Seven potential build alternatives have been identified: 1) Mixed Flow Rapid Bus on Canoga, 2) Dedicated Lane Rapid Bus on Canoga, 3) Canoga Avenue Busway - MOL rail right-of-way Extension, 4) Mixed Flow Rapid Bus on De Soto, 5) Dedicated Lane Rapid Bus on De Soto, 6) Mixed Flow Rapid on Topanga Canyon, and 7) Dedicated Lane Rapid Bus on Topanga Canyon. The EIR will also consider the feasibility of the extension of transit service from the Chatsworth Metrolink Station, north to a new park-and-ride facility at the SR-118 freeway. Two potential routes for this further extension will be evaluated: Topanga Canyon and De Soto. In addition the EIR will consider a Transportation System Management Alternative (TSM), which will include the addition of bus service on Canoga and improvements to bus service along existing routes. The EIR will also consider the No Project Alternative. Modifications to the Division 8 bus maintenance facility on Canoga at Nordhoff, or a new maintenance or bus parking facility may also be evaluated in the EIR.	NOP	08/10/2007

2007078146	Sierra 49 Repair Side Embankment, EA 03-3E3401 Caltrans, Planning --Sierra Caltrans proposes a damage restoration project to reconstruct the side slope embankment between PM18.74 to 18.77 using five layers of geosynthetic reinforcement fabric and to also reconstruct the existing metal beam guardrails. Winter storms in 2006 saturated the northbound side slope, causing it to move downward and outward.	NOE	
2007078149	Deer Creek Channel Capacity Surveys Water Resources, Department of --Tehama The Department of Water Resources proposes to conduct surveys along the managed portions of Deer Creek, approximately 1 mile west of Hwy. 99 and extending eastward for a total of approximately 7 miles. A cross section of the channel will be surveyed approximately every 400 feet to assess the channel's capacity to carry the design flow. Vegetation removal will be avoided if possible; however, minor vegetation removal (3 to 5-foot wide transects) may be necessary in order to facilitate surveys. Vegetation will not be cleared where survey crews determine there are no obstructions interfering between survey points. Where high-quality riparian vegetation exists, survey points will be moved either upstream or downstream in order to avoid disturbing habitat. The total vegetation removed would be a temporary impact to no more than 92,400 square feet (2.1 acres) out of a total of 170 acres, or roughly 0.01 percent of the total acreage along the creek. Elderberry shrubs (<i>Sambucus</i> sp) are found at various locations along Deer Creek and will be avoided during surveys. A DWR Environmental Scientist will work with the survey crew to ensure that elderberries are avoided and will flag them if necessary.	NOE	
2007078150	Lease of Existing Office Space 8219 S. Vermont Avenue Rehabilitation, Department of Los Angeles, City of--Los Angeles The California Department of Rehabilitation proposes to lease approximately 3,722 square feet of existing office space. The space would house approximately 13 staff. Approximately 10 parking spaces would be used. Approximately 25 to 75 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to retrain for work so they can re-enter the job market. Public transit is available within 1/4 mile of the site.	NOE	
2007078151	Lease of Existing Office Space 1149 W. 190th Street Rehabilitation, Department of Gardena--Los Angeles The California Department of Rehabilitation proposes to lease approximately 7,242 square feet of existing office space. The space would house approximately 29 staff. Approximately 15 parkings spaces would be used. Approximately 25 to 75 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to retrain for work so they can re-enter the job market. Public transit is available within 1/4 mile of the site.	NOE

2007071067	City of Hope Medical Center Parking Lot Expansion Project U.S. Army Corps of Engineers Duarte, Irwindale--Los Angeles The proposed project (preferred alternative) includes 251 new parking spaces on property owned by USACE within the Sante Fe Flood Control Basin, and adjacent to the City of Hope Medical Center in the City of Duarte. City of Hope currently operates a license from USACE to provide temporary parking on a portion of the project site. The project will expand parking capacity for Medical Center visitors, and is intended site to provide interim parking while new buildings are being constructed on existing parking lots on the hospital property. The expanded, unpaved parking lot will be covered in a gravel/ base material, and all parking stalls will be striped. A 15 foot wide equestrian trail easement/ maintenance road will remain along the eastern border of the project site. The easement will be paved with decomposed granite, and a 3.5 foot high decorative, corral-style fence will separate the easement from the rest of the parking lot. Hiker access will remain available through both ends of the project site at the equestrian trail connections. Vehicular access to the project site will occur at three gates connecting the existing parking lot to the new facility. These access points will be gated and kept open when the parking area is in use, and emergency and maintenance access will be served by a gated driveway at Duarte Road. The Duarte Road perimeter will be fenced with wrought iron. The proposed project will also include landscaping, consisting of primarily native trees and shrubs with a drip irrigation system.	EA	08/13/2007
2006022028	Sanctuary Island Master Development Plan Project Stockton, City of Stockton--San Joaquin The Sanctuary Island Master Development Plan Project proposes to develop approximately 1,750 acres of the nearly 2,000 acre Shima Tract, with 7,070 dwelling units, 483,984 square feet of offices, 208, 272 square feet of retail, up to 200 hotel rooms, three lakes, a privately owned marina, two religious facilities, recreational open space, four schools, orchards and a small winery. The proposed project is located south of Bear Creek, Disappointment Slough, and Mosher Slough, west of the City of Stockton and I-5, north of Five Mile Slough and Fourteen Mile Slough, in the Secondary Zone on the San Joaquin Delta. 2006052119	<p>Sacramento Voltage Support Transmission Line Project Sacramento Municipal Utility District Sacramento, Roseville, Marysville--Sacramento, Sutter, Placer The Sacramento Municipal Utilities District (SMUD) and Western Area Power Administration (Western) propose to construct and operate approx. 31 to 38 miles of new, double-circuit, 230 kilovolt (kV) transmission line between Western's O'Banon Substation and the area just south of SMUD's Elverta Substation and reconstruct SMUD's existing 230 kV/115 kV transmission line between SMUD's Elverta and Natomas substations. The proposed Project would be constructed using three route segments in Sutter, Sacramento, and Placer counties. Segments 1 and 3 are common to each alternative. Seven potential alternative alignments were identified for Segment 2 that would connect Segment 1 to Segment 3 and only one would be chosen for the preferred alternative.</p>	EIR	08/27/2007
2006112119	<p>Huddart-Wunderlich Master Plan San Mateo County Woodside--San Mateo San Mateo County has prepared a joint Master Plan for Huddart and Wunderlich County Parks to provide a guiding framework for land use and stewardship, natural resource enhancement, and the development of appropriate recreation facilities including trails, staging areas, and group gathering areas. This Master Plan would be the primary management document that guides daily decision-making for both parks, and would serve as the foundation for developing more detailed management and site-specific project plans.</p>	EIR	08/27/2007
2007022069	<p>City of Palo Alto Public Safety Building Palo Alto, City of Palo Alto--Santa Clara The City of Palo Alto has selected an approx. 1.51 acre site at 2747 Park Blvd. (0.30 acres) and 2785 Park Blvd. (1.21 acres) for development of a new, approx. 50,000 sq. ft. public safety building project. The project is intended to provide a new, state-of-the-art Police Department, 911 dispatch and emergency command center facility at an optimum, centrally-located site, and in a structure that meets the most recent building standards for "essential facilities" and can provide an effective response in the Palo Alto Police Department service area to major natural (including earthquake) or man-made emergencies.</p>	EIR	08/27/2007
2005011089	<p>Delano Marketplace Delano, City of Delano--Kern The Delano Marketplace project would include two large anchor stores, retail shops, and restaurants (sit down and fast food) for a total of approx. 456,022 sf. The large anchor stores would include a 228,751 sf Wal-Mart Supercenter and a 172,463 sf home improvement store. The Wal-Mart Supercenter store will include general merchandise sales; a garden center; tire and lube express; grocery sales and support space; stockroom/receiving area; ancillary areas; tenant areas (e.g. a fast food restaurant and a vision center); a 14 position gas station on a separate pad; drive-thru pharmacy; and a bagged goods pickup area. The Wal-Mart Supercenter will operate 24 hours per day. The proposed home improvement store will include general merchandise sales and a garden center. The proposed project includes nine other parcels for food and retail uses with proposed building sizes ranging from 2,500 to 14,410 sf, for a total project size of 456,022 sf.</p>	FIN

2007062024	Tuolumne Rancheria Parking Structure Tuolumne Band of Me-Wuk Indians --Tuolumne Construction of a new six-story parking structure immediately north of the existing casino on the Rancheria. The new parking structure will include approximately 1,000 parking stalls and will be approximately 271,514 square feet. It will also include an approximately 14,060 square foot enclosed pedestrian bridge feature to connect to the existing casino.	FIN	07/23/2007
2006032116	Pilarcitos Quarry Minor Expansion San Mateo County Half Moon Bay--San Mateo The applicant is proposing to modify its existing permits to mine the area known as the Pilarcitos Quarry. The modification will allow expansion of mining operations onto a 9.2 acre area immediately adjacent to existing mining operations. Current quarry operations involve surface mining of weathered, fractured granite and the production of gravel and sand. No expansion of the processing area or additional equipment is proposed. The applicant is not requesting an increase in the number of truck trips currently allowed for under the existing permits. The applicant is proposing this expansion because the usable material within the existing area of operations is reaching the point of depletion.	MND	08/13/2007
2007021054	Aerie (PA2005-196) Newport Beach, City of Corona, Del Mar--Orange Demolition of a 14-unit apartment building and a single family residence to facilitate the construction of a 7-level, 9-unit condominium project (approx. 75,000 gross square feet), grading, and apartment structures.	MND	08/13/2007
2007071063	Goodnight Rancheros Tentative Parcel Map; TPM 21001, Log No. 06-02-005 San Diego County Department of Planning and Land Use --San Diego Project proposes a minor residential subdivision of a 5 acre parcel into two 2.45 acre parcels.	MND	08/13/2007
2006011071	Mesa View School Access Road Yucaipa-Calimesa Joint Unified School District Calimesa--Riverside The proposed project consists of an extension of Sandalwood Drive at 7th Street west to connect with the existing Mesa View School. The project will provide access to the constructed Mesa View School, which is not currently in operation. The project includes typical roadway improvements such as the installation of curbs, gutters, sidewalks, and street lights. The Lead Agency certified a Final EIR for the Mesa View School Project Access Road and Conversion to High School in 2006. This SEIR will address alternative access to previously considered in the certified EIR.	NOP	08/13/2007
2007061059	The Commons at Quartz Hill Lancaster, City of Lancaster--Los Angeles The proposed project consists of the development of an approx. 395,000 sq. ft. commercial shopping center located on 40.15 acres at the northwest corner of 60th Street West and Avenue L. As part of the proposed project, a General Plan Amendment (GPA 06-04) and Zone Change (ZC 06-04) would be required in order to change the general plan designation from Urban Residential to Commercial and	NOP	08/13/2007

	its zoning from R-10,000 to Commercial Planned Development (CPD). A Conditional Use Permit (CUP 06-09) and Tentative Parcel Map (TPM 68150) would also be required for the proposed project. The commercial development would include two anchors and up to ten smaller buildings that would house a variety of food, merchandise, and service uses. One proposed anchor is a Wal-Mart Supercenter, approx. 240,000 sq. ft. with an associated garden center. The other anchor is anticipated to be approx. 90,000 sq. ft. Smaller retail buildings on the project site would total approx. 65,000 sq. ft. A total of 1,837 parking spaces are anticipated to be provided and access to the project site would occur from 60th Street West and Avenue L.		
2007071059	La Mesa Mixed-Use Urban Overlay Zone La Mesa, City of La Mesa--San Diego The proposed Mixed-Use Urban Overlay Zone is designed to add regulations and standards to the zoning code to implement the objectives of the General Plan. The project would guide the development of mixed-use projects on parcels zoned for residential or commercial use along University Ave, El Cajon Blvd, and vicinity of Spring Street Trolley Station. A conditional use permit would be required for all new gas stations, certain other automobile use and drive-thru sales. Certain limits on the amount of retail area on the ground floor in the residential zone would be removed. Residential uses would be permitted on the ground floor of properties in the commercial zone as long as development standards are met.	NOP	08/13/2007
2007071062	Garden Street Terraces Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo The proposed project would include the development of 1.2 acres to accommodate a downtown mixed-use center of 129,351 square feet (sf) including retail (17,116 sf), 53 residential units (56,406 sf), and a 70-room hotel (55,829 sf), generally of 4 to 5 stories, but reaching a maximum of 6 stories up to 74 feet in height. A 2nd-level view terrace is proposed with access from Marsh Street. Two levels of parking (one below grade) with access from Marsh Street, totaling an additional 59,372 sf, would serve both residential and commercial uses, as well as 40 City-owned public parking spaces. The project also includes improvements to Garden Street, between Higuera and Marsh, similar to the City approved Garden Street Plan, as well as paving improvements and traffic control (e.g., bollards) to Garden Alley. The project would reconfigure private and public parcels and lead to the demolition, relocation, and modification of private and public structures and surface parking.	NOP	08/13/2007
2007071064	County of Los Angeles Data Center Los Angeles County Downey--Los Angeles Approximately 7.3 acres of th South Campus would be reconfigured to accomodate relocation of the County Data Center. The proposed project consists of a new building to house essential data storage and processing functions, emergency power supply, and parking. The proposed project requires demolition of existing vacant building and modifcation to streets and utilities.	NOP	08/13/2007

2007071065	San Jacinto River Levee Stage 4 Project Riverside County Flood Control and Water Conservation San Jacinto--Riverside The proposed project includes the construction, operation and maintenance of a new desiltation basin and levee approximately 5 miles in length and south of the existing San Jacinto River channel in the city of San Jacinto and unincorporated areas of Riverside County. The existing levee is considered inadequate. The proposed levee is anticipated to increase the channel capacity for flood control up to a 100-year event and reduce the potential for breaches that could allow flood waters to escape and come into contact with dairy and other wastes and contaminate local surface waters. The proposed levee will alleviate flooding and disruption of traffic circulation for the major transportation corridors of Ramona Expressway, State Street, and Sanderson Avenue within the city. Installation of the new southern levee would increase the channel width by an average of approximately 600 feet (180 meters). This would increase the channel area by approximately 400 acres.	NOP	08/13/2007
2007072059	Sewer Trunk Main Replacement Sonoma County Water Agency --Sonoma The proposed project would abandon in place or remove and replace portions of the existing concrete sewer trunk main with approximately 5,500 linear feet of polyvinyl chloride (PVC) pipe, extending from Watmaugh Road East to the SVCSD wastewater treatment facility. The abandoned pipeline will be filled with cement. The proposed project would consist of the following: - Installation of approximately 5,500 linear feet of pipeline ranging from 30-48 inches in diameter; - Removal of approximately 3,100 linear feet of existing pipeline; - Abandonment in place of approximately 2,400 feet of existing pipeline; - Abandonment in place of approximately six manholes; - Replacement of 13 manholes and two junction boxes; and - Installation of two new maintenance manholes. 	Partners/River Highlands Estates): The Yuba Highlands Area Plan project proposes development of 5,082 dwelling units on approximately 1,931 acres of the total 2,902 acre project site. The remainder of the site will be developed with 85 acres of various commercial uses, 400 acres of recreational areas, a 419-acre golf course, and 658 acres of open space. The proposed project includes development of internal roadways and surface parking areas, public trails, emergency access points, water supply improvements, and improved storm drainage facilities. The proposed Yuba Highlands Area Plan project is located east of Beale Air Force Base, south of Hammonton-Smartville Road; west of Smartville Road in east-central Yuba County. The Yuba Highlands Zoning Ordinance & Change of Zone would establish an implementation process for the project. It would institute guidelines for the review of development proposals within the designated plan area.		
2004101066	Heisler Park Renovation and Preservation Laguna Beach, City of Laguna Beach--Orange The project includes access improvements, restroom renovation and replacement, geologic stabilization, groundwater mitigation, drainage, irrigation and landscape improvements.	NOD	
2005092031	Heavenly Mountain Resort Master Plan Amendment 2005 Tahoe Regional Planning Agency South Lake Tahoe--El Dorado, Alpine General Plan Amendment to change the existing Open Space (OS) designation to Recreation Sites (RS) and a rezoning from Agricultural (AG) to Agricultural-Commercial Recreation combined (AG-CR) in order to reflect the existing and planned future day use facilities for the portions of the Heavenly Mountain Resort located in Alpine County as described in the Heavenly Mountain Resort Master Plan 2005.	NOD	
2005102115	River Landing Project Sacramento, City of Sacramento--Sacramento The proposed project includes development of 12 condominium units attached in clusters of three for a total of four buildings. Buildings would be constructed on decking to allow usage of the existing parking lot. The units would be three stories for a total of 35 feet in height. The support structures would be located on top of the river bank, and the balconies would extend over the bank toward the river, stopping one foot from the ordinary high water mark.	NOD	
2006042162	Cathedral Square Project Sacramento, City of Sacramento--Sacramento A request to construct a 25 story, 233 condominium project with ground floor retail on approximately 0.67 acres in the Central Business District, Special Planning District (C-3-SPD) zone. The proposal includes requests to provide tandem parking spaces and to construct an architectural embellishment that will exceed the height requirement in the Capitol Views Protection area. The following entitlements were approved: - Environmental Determination: Environmental Impact Report - Mitigation Monitoring Plan; - Tentative Map to designate a lot for condominium purposes;	NOD

	<ul style="list-style-type: none"> - Special Permit for a Major Project; - Special Permit to construct 233 condominium units; - Special Permit for tandem parking spaces; 		
2006081059	<p>Overton Moore Industrial Project Perris, City of Perris--Riverside</p> <p>The project proposes 462,692 square feet of light industrial warehouse/distribution uses in a single building, with associated roadway and utility infrastructure and landscaping improvements on 22.25 acres that is currently vacant and undeveloped.</p>	NOD	
2007041053	<p>18805, 18807, 18809 PCH Malibu, City of Malibu--Los Angeles</p> <p>Coastal Development Permit No. 05-023 for Lot Line Adjustment No. 03-006 - an application to adjust lot lines on three existing parcels, with no new parcels created.</p>	NOD	
2007042075	<p>City of Pacifica Walgreens Drug Store Pacifica, City of Pacifica--San Mateo</p> <p>The project will build a new 14,000 square foot Walgreens drug store with a drive-through pharmacy at the former Seavue Theater and attached retail shops located at 520 Palmetto Avenue in Pacifica, CA.</p>	NOD	
2007052048	<p>Phoenix Lake Outlet Works Rehabilitation Project Marin Municipal Water District Ross--Marin</p> <p>The proposed project includes excavation of approximately 70 cubic yards of gravel and construction of a 16-foot x 14-foot x 13-foot concrete vault at the outlet of an existing pipeline at the base of Phoenix dam; the vault will extend approximately 4 feet above streambed grade. Concrete piers, drilled 18 inches into the surrounding area, will support the vault and the refurbished outlet pipe will be fitted with a 30-inch butterfly valve in order to facilitate CA Division of Dam safety requirements to exercise the outlet valve annually. The applicant plans to offset project impacts by placing 10 cubic yards of clean river-washed gravel, grade 1 to 4 inches, in the streambed so that it can mobilize downstream during large flow events to replenish downstream salmonid spawning substrate. Heavy machinery, including excavators, a drill rig and other large equipment shall enter the creek during construction. The project site is located within and around the riparian and streambed and bank zone of Ross Creek at the base of Phoenix dam in the town of Ross, Marin County of the San Rafael 7.5 minute U.S. Geological Survey quadrangle. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0319-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Eric McGuire.</p>	NOD

	residence. A limited amount of trenching and grading will take place at the upper and lower portions of the bank in order to secure the cori netting, temporary drip irrigation will also be installed in order to ensure growth of planted grasses and willows. SAA 1600-2007-0304-3.		
2007078163	Sierra Conservation Center Secondary Water Supply Pipeline, Agreement No. 2007-0049-R4 Fish & Game #4 --Tuolumne Installation of 9,200 feet of an 8-inch diameter water supply pipeline, to replace the existing line, within a 20-foot wide utility easement which crosses Shotgun Creek and eight tributaries. Six of the nine crossings are ephemeral drainages and will be trenched during dry periods, the three remaining streams, including Shotgun Creek have wetland/riparian vegetation associated with them and crossing will be done using horizontal directional drilling methods.	NOE	
2007078164	Maintenance Dredging at the San Rafael Yacht Harbor Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland San Rafael--Marin Maintenance dredging of approximately 18,584 cubic yards of sediment from the harbor basin. The project depth is -6 feet Mean Lower Low Water (MLLW), with a one-foot overdredge allowance. Dredged material approved for aquatic disposal will be disposed of at the San Pablo Bay Disposal Site (SF-10) or the Alcatraz Disposal Site (SF-11) in San Francisco Bay.	NOE	
2007078166	California Rehabilitation Center (CRC) Office of Substance Abuse Program Corrections and Rehabilitation, Department of Norco--Riverside Installing a newly built modular trailer to provide space for an Office of Substance Abuse Treatment Program. The modular trailer will provide approximately 6,532 square feet of office, treatment and program space for treatment of existing inmates. Existing staff at CRC will work at the modular trailer. CDCR will lease the facility for several years and will eventually purchase the modular unit.	NOE	
2007078167	Airport Hangar and Office Space Lease Fish and Game (HQ) Environmental Services Sacramento--Sacramento Renewing lease for office and hangar space in Executive Airport, Sacramento, CA to 6,000 Office/Hangar; 10,180 Ramp	NOE	
2007078168	Cuyamaca Forest Fire Station - Satellite Internet Installation Forestry and Fire Protection, Department of --San Diego Installation of satellite internet equipment at the Cuyamaca Forest Fire Station located within Cuyamaca Rancho State Park. The project will include installing a 5' post to support a 24" diameter satellite dish adjacent to station. There will be a 4" wide, 15" deep, 30' long trench dug from satellite dish post to the fire station building to underground the cable and electrical line. Utilities will connect with existing utilities, and enter the structure through an existing attic vent. This project was planned to avoid impact to the historic character of the facility, and a CAL FIRE Archaeologist has reviewed the project.	NOE
