STATE CLEARINGHOUSE

NEWSLETTER

July 16-31, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 16-31, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2005112003	2050 General Plan Update Project Lincoln, City of Roseville, Rocklin, Loomis--Placer The City is preparing the Lincoln 2050 General Plan Project to update the existing City's 1988 General Plan. The EIR will provide an assessment of the updated General Plan, which is expected to be completed in early 2006. The City of Lincoln is located approx. 25 miles northeast of Sacramento, in the County of Placer between Roseville and Marysville (Yuba County) on State Route 65 at the western terminus of State Route 193. The City is located on the eastern edge of the Sacramento Valley floor at the base of the Sierra Nevada foothills. The City is one of six cities in Placer County. Primary access is by State Route 65 (SR65) which runs directly through the center of the City and connects to Interstate 80 (I-80) to the south near the City of Roseville. SR 65 also connects to SR 193 in Downtown Lincoln, which provides access to the county seat in Auburn.	EIR	08/29/2007
2006092103	Aspen V South Sacramento County Rancho Cordova--Sacramento Amendments to existing use permit and reclamation plan for currently permitted aggregate mining operation known as Aspen V South in order to increase the area of the Aspen V site by approx. 35.7 acres.	EIR	08/29/2007
2005124001	San Luis Rey Flood Control Project U.S. Army Corps of Engineers Oceanside--San Diego The U.S. Army Corps of Engineers proposes to revise the vegetation and sediment management portion of the operation and maintenance of the San Luis Rey River flood control channel. The Corps is the lead Federal Agency for this action and is responsible for complying with NEPA. The City of Oceanside is the local lead agency and is responsible for complying with CEQA.	FIN	08/13/2007
2006101018	Collection System Improvement Plan (Plan) Orange County Sanitation District --Orange The Orange County Sanitation District (Sanitation District) Collection System Improvement Plan (Plan) includes 19 collection system improvement projects proposed to address existing and project deficiencies in the regional trunk sewer system and repairs, replacements, and minor modifications to collection system facilities. 	367,314 sq. ft. of landscaping area, 298,532 sq. ft. of paved area, and 310 parking spaces. The total building sq. footage calculation is 270,146 sq. ft. as follows; building one (1) proposes 79,761 sq. ft. with 16 loading docks in Lot one (1); building two (2) proposes 113,669 sq. ft. with 22 loading docks in Lot three (3); and building three (3) proposes 76,716 sq. ft. with 12 loading docks in Lot eight (8). This project site is affected by the Mira Loma Warehousing/Distribution Center Policy Area and is within compatibility zone D of the Riverside Municipal Airport.		
2007071073	General Plan Amendment 775, Change of Zone 7261 and Tentative Tract Map 33180 Riverside County Planning Department --Riverside This project is proposing a General Plan Amendment, a Change of Zone, and a Tentative Tract Map. The General Plan Amendment proposes to change the Land Use Designation from Community Development- Commercial Retail (CD:CR)(0.20-0.35 Floor to Area Ratio) to Community Development- Low Density Residential (CD:LDR)(0.5 Acre Minimum). The Change of Zone proposes to change the zoning from Scenic Highway Commercial (C-P-S) to Residential Agriculture (R-A). The Tentative Tract Map proposes a Schedule B subdivision of 5.11 acres into eight residential lots with a minimum lot size of 20,007 sq. ft.	MND	08/14/2007
2007071074	Conditional Use Permit No. 3526 Riverside County Planning Department --Riverside Conditional Use Permit No. 3526 proposes a 7,575 sq. ft. Firestone Complete Auto Care station on a 2.46 gross acre site with 1.37 acres of project lease boundary with a floor area ratio of 0.13 (Business Park 0.25-0.60 Floor Area Ratio) consisting of: a 953 sq. ft. showroom, 4141 sq. ft. of service area, 2,032 sq. ft. of inventory area, 449 sq. ft. of storage area, 58 standard parking spaces, 2 ADA parking spaces, and 21,373 sq. ft. of landscaping. This is a pad site within De Anza Marketplace shopping center. The project site is located southerly of Limonite Ave. and easterly of Baldwin Ave., within the Mission De Anza Specific Plan No. 123, and within the Community of Pedley of Jurupa Area Plan.	MND	08/14/2007
2007071075	Conditional Use Permit 05-11 and Tentative Parcel Map 64924 Lancaster, City of Lancaster--Los Angeles To construct a three-story, 88-room hotel, as 8,400 sq. ft. multi-tenant retail building, and a 5,214 sq. ft. restaurant, and to subdivide the property into three parcels in the CPD zone.	MND	08/14/2007
2007071077	General Plan Amendment No. 2007-05, Zone Amendment No. 658, Conditional Use Permit 2007-17 & Tentative Parcel Map 2007-10 Tulare, City of Visalia--Tulare A general plan amendment from Suburban Residential to Urban Residential on 62.78 acres and Suburban Residential to Community Commercial on 7.24 acres; change the zoning on 7.24 acres from R-1-6 PD (single family residential- 6,000 sq. ft. minimum parcel area planned residential development) to C-1 (neighborhood commercial), conditional use permit for a 519 unit manufactured home development and subdivide property into four parcels. A linear park is proposed through the center of the development that would connect to a 9.78 acre	MND	08/14/2007

	neighborhood park/ pond. Amenities of the project include a recreation hall, tot lots, pool and walking path.		
2007071078	Major Subdivision No. 04-010 (Las Palmeras) Merced County Merced--Merced The subdivision of two parcels totaling 17.6 acres into 12 residential lots, each a minimum of one acre in size.	MND	08/14/2007
2007072065	Grass Valley Wastewater Treatment Plant, Denitrification and UV Disinfection Facility Project Grass Valley, City of Grass Valley--Nevada Improvements to the Wastewater Treatment Plant (WWTP) with addition of ultraviolet (UV) disinfection facilities for removal of fecal coliform to meet new discharge requirements for cyanide and trihalomethane (THMs), and denitrification modifications to meet more stringent nitrogen limits. The project will be constructed within the City of Grass Valley's existing WWTP. The proposed project consists of removal/decommissioning of existing chlorine gas and sulphur-dioxide disinfection equipment; installation of UV disinfection facility in an existing chlorine contact basin; a sodium hypochlorite feed system for the non-potable water system; covers on one of the secondary clarifiers; covers on the tertiary filters and other yard structures; and air piping to improve denitrification facilities.	MND	08/14/2007
2007071071	316-324 State Street & 323 Anacapa Street Santa Barbara, City of Santa Barbara--Santa Barbara The project involves the redevelopment of the "Andalucia Building" located at 316-324 State Street and an adjacent parcel at 323 Anacapa Street. The project would preserve and restore the existing Historic Moorish brick facade and store front commercial building (316-324 State Street) of approx. 4,523 sq. ft. Three warehouse structures totaling 35,841 sq. ft. would be demolished at the rear of the Andalucia Building along with two existing residential units located at 323 Anacapa Street. The construction of a mixed use project, including 20,565 (net) sq. ft. of new commercial space, 33 residential units (29 marked and 4 affordable units) and an underground garage with 89 parking spaces are proposed. The new buildings and uses would connect through a series of arcades, courts, and pedestrian paseos proposed through the property between State and Anacapa Streets. The two parcels are being kept separate for ownership reasons, but are combined for purposes of this application in order to facilitate shared ingress/egress, underground parking, and fire access from Anacapa Street.	NOP	08/14/2007
2007071076	El Casco System Project Public Utilities Commission Banning, Beaumont, Calimesa--Riverside, San Bernardino The El Casco System Project includes the proposed El Casco Substation site, upgrades to the Zanja and Banning Substations and the SCE's Mill Creek Communications Site, upgrading of a total of 15.4 miles of existing 115 kV subtransmission line and associated structures, and the installation of fiber optics cables within existing conduits in public streets and on existing SCE structures between the Cities of Redlands and Banning. All portions of the Proposed Project are located within Riverside and San Bernardino Counties, California.	NOP	08/14/2007

2007071069	Zinngarbe Tract Map 2870, Teresa Drive Morro Bay, City of Morro Bay--San Luis Obispo Tract Map to subdivide a 4.7 acres parcel into ten (10) - lot residential cluster subdivision ranging in size from 12,800 to 25,900 sq. ft. Exception to open space requirements are requested to be off-set by providing affordable housing. No homes are proposed at this time.	Neg	08/14/2007
2007071070	Seashell Communities, Staff Housing Morro Bay, City of Morro Bay--San Luis Obispo The project proposes to construct 15 workforce-housing units for employees of the Seashell Community. All of the units will be studios approx. 432 sq. ft. with open kitchen, living/sleeping area and one bathroom. There will be five detached single story buildings with one unit each, a single two-story building with two units (one stacked on top of the other), and two buildings (both two-stories) with four units (attached and stacked). There will be a total of 10 ground level units and 5-second floor units. A total of 21 new parking spaces (2 ADA spaces included) will be provided behind the Casa De Flores building. The existing parking area will be reconfigured to add additional parking and provide better vehicular ingress and egress. The hillside will be graded to provide building pads and pedestrian access to the units along with patios. Landscaping will provide visual screening.	Neg	08/14/2007
2007071079	Palos Verdes Gas-to-Energy Facility Phase II Los Angeles County Sanitation District Rolling Hills Estates--Los Angeles The proposed project includes the removal of two boilers, a steam turbine, cooling towers and associated equipment and the installation of one 300 kilowatt (kW) fuel cell, eight 250 kW microturbines, associated landfill gas compression and treatment equipment, a backup generator, reconfiguration of the aboveground landfill gas collection system, and the use of a low emission flare to combust landfill gas that cannot otherwise be beneficially used for power production. The low emissions flare will have the capacity to provide for the effective, continuous management of all landfill gas when the fuel cell and microturbines are not operating. The existing flares will provide contingent standby capacity for the low emissions flare.	Neg	10/01/2007

2007071080	General Plan Land Use Map and Community Design Element Amendment Temecula, City of Temecula--Riverside A General Plan Amendment to "clean up" the Land Use Map for approx. 170 City-wide parcels, which includes parcels with "split" land use designations or incorrectly labeled land use designations due to General Plan mapping errors, to identify water courses as Open Space areas, to remove land use designations from dedicated street right-of-way, to revise land uses within Specific Plan areas based on recorded map data, and; to revise the text of the Community Design Element regarding grading policies in the Chaparral Area of the City which will make the policies contained in the Community Design Element consistent with the Western Riverside County Multi-species Habitat Conservation Plan.	Neg	08/14/2007
2007072060	Broman Cellars, Use Permit #P05-0027 for a 20,000 gallon Winery Napa County St. Helena--Napa Use permit to establish a 20,000 gallon winery consisting of: construction of a 3,648 sq. ft. winery building with 4,375 sq. ft. of cave for a total winery area of approx. 8,023 sq. ft.; 10 parking space area; new construction pre-treatment, drip dispersal/ disposal field and 3 holding tanks (30,000 gallon capacity) winery waste water system; installation of two 10,000 gallon water tanks for winery and emergency water supplies; new landscaping; improvements to the existing access off of Deer Park Road to include widening the 10 foot asphalt driveway to 20 feet, installation of a new gate, replacement and enlargement existing deteriorating stream crossing; 2 full time and 2 part time employees and a marketing program of appointment-only retail sales five days/ week, and a marketing plan of 10 wine and catered food events per year with 10-50 maximum patrons.	Neg	08/14/2007
2007072061	TPM 2007-0004 (Richard and Elisabeth Wood) Yuba County --Yuba The project proposes to subdivide approx. 170.9 acres into 2 lots (Parcel 1 - 20.0 acres, Parcel 2 - 150.9 acres). The property is currently used for hay crops. Proposed use is single-family rural residential lots. The property has frontage on Fruitland Rd. and Iowa City Rd.	Neg	08/14/2007
2007072063	The Bay Trail with Coyote Point Recreation Area San Mateo County San Mateo--San Mateo San Mateo County Parks Department (County), with the support of the Association of Bay Area Governments (ABAG) Bay Trail Project, and the California Coastal Conservancy, propose to realign, construct and/or resurface a 1.2 mile segment of the San Francisco Bay Trail through Coyote Point Recreation Area along its southern perimeter. The "Bay Trail within Coyote Point Recreation Area" is an existing portion of the Bay Trail which would undergo significant improvements (proposed project). The proposed project is entirely within the Coyote Point Recreation Area, which is operated by San Mateo County Parks Department. It is located at the edge of San Francisco Bay in San Mateo County, approx. 3.5 miles southeast of the San Francisco Airport. Improvements to the Bay Trail at Coyote Point would enhance pedestrian and bicyclist access, experience, and safety on the trail by reducing both grades and opportunities for user conflicts. New signage and trail configurations at three intersections, the widening of the trail to 10 feet, and its re-alignment away from the knoll and next to Coyote Point Drive would increase public safety, as bicyclists and pedestrians now often use Coyote Point	Neg	08/14/2007

	facilities that are now considered for rehabilitation, and identifies CIP projects related to drainage facilities.		
2006052164	Manteca Wastewater Quality Control Facility Master Plan and Collection System Master Plan 2005 Update Manteca, City of Manteca--San Joaquin The proposed project would incrementally increase the treatment capacity of the WQCF from 9.87 million gallons per day (mgd) to 27 mgd average dry weather flow (ADWF), increase wastewater effluent discharges to the San Joaquin River, result in discharge of wastewater effluent on urban and agricultural lands, result in minor improvements to existing sewer lines, and result in the construction of three new trunk sewers measuring a total of approximately 21 miles.	EIR	08/30/2007
2006071008	Lompoc Wind Energy Project Santa Barbara County Lompoc--Santa Barbara The applicant has proposed to construct a wind energy generation facility on private agricultural properties adjacent to San Miguelito Road. A new power line would be constructed by PG&E from the project site to the southeast corner of Lompoc, where it would tie to an existing power line outside PG&E's Cabrillo Substation. The project would include 60-80 wind turbine generators, 315-492 feet high, which would generate a total of 80-120 megawatts of electricity. The project would include new onsite gravel access roads and improvement of existing farm roads, an operations and maintenance building, a new onsite electrical substation, electrical lines, and other ancillary facilities. The project would be constructed in up to three phases, the first of which would install approx. 82.5 megawatts of electrical generation capacity.	EIR	09/04/2007
2006101085	Bakersfield-Taft, LLC Bakersfield, City of Bakersfield--Kern Project involves the subdivision of 305 acres of land into 1,300 residential lots, a 6-acre neighborhood park, and four sumps. The proposal includes an amendment to the Land Use Element of the General Plan, amending the existing land use designation from LR (Low Density-Residential) with a concurrent pre-zoning to R-I (One family Dwelling) on approx. 235 acres, and a General Plan Amendment R-IA (Resource-Intensive) to (Low-Medium Density Residential) with a concurrent pre-zoning to R-2 (Limited Multiple Family Residential) on approx. 70 acres. 2007071081	Big Canyon Creek Restoration Newport Beach, City of Newport Beach--Orange Big Canyon is the only natural, undeveloped portion of the Big Canyon Creek Watershed and the only significant remaining natural canyon on the east side of Newport Bay. This project will restore the tidal marsh by removing about 65,000 cubic yards and create about 7.9 acres of vegetated and non-vegetated salt marsh habitats. Back Bay Drive will be realigned in-land out of the historical tidal inundation boundary. The new road alignment will follow the existing maintenance road and trail dike and will increase in length from 1000 to 1500 ft. The existing freshwater marsh will be modified to a transitional marsh complex that will support a more diverse community of native wetlands plants. Two freshwater ponds are planned as habitat areas and elements of the water quality improvement design. Another freshwater pond will provide a sediment management function. Invasive plants will be removed and the area replanted with native species.	MND	08/15/2007
2007071082	SPR 7-06-2, DBA 06-04 Palmdale, City of Palmdale--Los Angeles A request to construct an apartment complex with 9 two-story buildings consisting of 70 units, totaling 46,949 sq. ft. for rent to qualify renters with very low, low and moderate incomes, including a pool, recreation building with a barbeque area and tot lot on a 5.46 acre parcel and a request to increase the permitted density on the subject site from 10 dwelling units per acre to 12.8 dwelling units per acre, a 28% density increase in conjunction with the proposed Site Plan Review located at the northeast corner of Avenue R and 30th Street East.	MND	08/15/2007
2007071083	Vista Del Hombre/ Links Golf Course Paso Robles, City of Paso Robles--San Luis Obispo Request to construct 154,340 sq. ft. building for manufacturing/ light-industrial uses. There is also proposed to be some support commercial and office uses included in the project. The buildings with associated parking, access and landscape areas would develop approx. 14 acres of the existing 210 acre Links Gold Course. In conjunction with the project, the applicant will be extending the existing Aero Tech Center Way public road to the north to access the project. This would be the main access point to the project. The existing Links Golf Course will remain in operation with the development of this project.	MND	08/15/2007
2007071084	Regency Centers - Golden Hill Shopping Center Paso Robles, City of Paso Robles--San Luis Obispo Request to construct a regional shopping center with a home improvement and garden center as the major tenant, and several retail shops and restaurants.	MND	08/15/2007

2007071086	Reclamation Plan #06-0002 & Conditional Use Permit #06-0048 Kiowa Helicopters "Merrill Pit" Imperial County Planning Department --Imperial The proposed project is for the extraction of sands and gravels from an area near Wister located between Frink and Niland near the southeast coast of the Salton Sea. As part of the project, development would include phased extraction of sand and gravel and reclamation of the area to near original contour.	MND	08/15/2007
2007072070	Graniterock Asphalt Drum Plant and Shop/ Asphalt Materials Test Lab Building Replacement Project Redwood City Redwood City--San Mateo The proposed project is the demolition and replacement of the existing asphalt drum plant and storage silos with a new, higher output plant and new storage silos with increased storage capacity at the Graniterock Asphalt Plant at 365 Blomquist Street, Redwood City. The existing plant has three 100 ton storage silos that load outgoing customer trucks. The replacement plant would have five 250 ton storage silos. The existing truck weigh-in scales (currently located near the Blomquist Street side of the property) would be relocated within the site, thereby allowing more trucks to stage on-site. A natural gas main (owned by PG&E) would also be relocated and upgraded to serve the new plant. The project also includes the demolition of two eighty ton inoperable silos, several existing small support buildings and a truck shop consisting of a total of 9,486 sq. ft. of buildings and their replacement with a combined shop/ asphalt materials test lab building and smaller plant support structures consisting of a total footprint of 11,782 sq. ft.	MND	08/15/2007

2007022116	Coliseum BART to Bay Trail Connector Alameda County Public Works Agency Oakland--Alameda The project would consist of constructing an approximately one mile long trail connecting the Coliseum BART Station to the Bay Trail. The trail would start at the Coliseum BART station utilizing the existing BART/Coliseum walkway, would pass over the Amtrak Coliseum Station, and would cross above the railroad tracks (grade-separated). A pedestrian ramp would be constructed to link the elevated walkway to the maintenance road adjacent to Daemon Slough. The trail would then follow the Damon Slough on the maintenance road and would involve upgrading the gravel roadway surface to asphalt including installation of signs and pavement markings, and fencing. The trail would cross I-880 using the existing 66th Avenue freeway over-crossing, involving minor modifications to the existing sidewalk (increasing the width to 12 feet), narrowing the lane widths, and installation of a barrier between the sidewalk and the traffic lanes. This proposed facility would then link with the Bay Trail at the western end of 66th Avenue.	NOD

2004071046	Fontana Promenade Specific Plan Fontana, City of --San Bernardino The Fontana Promenade Specific Plan is a 125 acre Master Planned Mixed Use Community that focuses on creating a vibrant, "people oriented place" which combines a wide range of retail and office space uses as well as shops, restaurants, and entertainment facilities with a variety of residential product types and densities. "The Promenade" is located in the north-central part of Fontana west of the Walnut Village Specific Plan, and south of the Sierra Lakes Specific Plan, next to the Fontana Auto Center and the 210 Freeway. The "Ponte Promenade" Pedestrian Walkway within the Specific Plan area is a central, north/south curvilinear corridor that encourages residents and visitors to enjoy a village atmosphere with quaint shops, quality restaurants, movie theaters and other entertainment uses needed in Fontana. The focal point of the Fontana Promenade is a unique Traffic Circle, or "Round About" along Walnut Avenue that incorporates a pedestrian bridge and tower feature that bring together the southern and northern portions of the Specific Plan project area. It also conveys a sense of distinctiveness in this region of the Inland Empire. The community's theme focuses on a walkable Tuscan village with a protected and pleasant central Promenade that reflects a strong Mediterranean design influence.	EIR	08/31/2007

2007071091	Peyton Drive Widening Project Chino Hills, City of Chino Hills--San Bernardino Caltrans, which acts as the legal reviewing entity for the Federal Highway Administration (FHWA), and the City of Chino Hills (City) propose to improve circulation along Peyton Drive from Grand Avenue, south to Chino Hills Parkway, and to extend Eucalyptus Avenue from its current T-intersection terminus at Peyton Drive, 160 meters (530 feet) west. Implementation of the 3.0 kilometer (1.84 mile) proposed project would provide roadway improvements consistent with the City of Chino Hills General Plan Circulation Element. Proposed improvements generally consist of widening portions of Peyton Drive from Grand Avenue south to Chino Hills Parkway, extending Eucalyptus Drive from its current T-intersection terminus to 160 meters (530 feet) to the west, storm drain improvements along Peyton Drive, and a crossing of the English Channel near the intersection of Eucalyptus Avenue and Peyton Drive. 2007071093	<p>Santa Ynez Valley Community Plan EIR Santa Barbara County Solvang--Santa Barbara</p> <p>The Santa Ynez Valley Community Plan Area is located in central Santa Barbara County. Comprised of approximately 72 square miles, the plan area includes three unincorporated townships: Santa Ynez, Ballard, and Los Olivos. The incorporated cities of Buellton and Solvang are not part of the planning area. Highway 101 and 154 provide north/south access, while Highway 246 is the principle east/west travel corridor.</p> <p>The Santa Ynez Valley Community Plan was designed to provide focused policy direction addressing issues and development trends specific to the Santa Ynez Valley. Existing zoning and land use policy allows for up to 1,525 new units. The plan proposes land use policy and zoning changes that would allow up to 1,556 new units, resulting in a net increase of 31 additional units beyond what current policy and zoning allows.</p>	NOP	09/04/2007

	the bridge and 9.0 feet and 4 new 18-inch pilings on the north side. The bridge will be expanded from its current 55.5-foot configuration to approximately 78 feet. The existing Big Chico Creek undercrossing and approach paths adjacent to the southeasterly creek bank/bridge abutment will be improved/hardscaped. A storm drain outfall will be constructed downstream of the Manzanita Avenue Bridge and upstream of the bicycle/pedestrian/equestrian bridge.		
2002122076	Yuba County Water Agency New East Side Canal, Extension Project Yuba County Water Agency Wheatland--Yuba The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0454-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Yuba County Water Agency.	NOD	
	This agreement pertains to the construction of an approximately 11 mile long system of unlined, earth canals and pipelines that will provide approximately 43,000 acre-feet per year of irrigation water to 12,000 acres in Wheatland Water District (WWD), a member district of YCWA. Construction of the project will allow for the delivery of surface water to WWD, which will allow for in-lieu recharge of the Yuba South Groundwater Sub-Basin on which farmers currently rely for irrigation of agricultural lands. Water for the project will be diverted from the Yuba South Main Canal, which is supplied by YCWA's allotted diversion from the Yuba River.		
	Features of the project include 11 miles of water conveyance with two lateral canals, multiple siphon crossings of roads and streams and the construction of two low-head pumping plants and two local distribution systems. Siphon stream crossings include crossings of an unnamed creek, North Hutchinson Creek, South Hutchinson Creek, and Best Slough. The project also includes two five-acre staging areas located in the areas of the proposed pumping plants. An access road will also be constructed along one side of the canal. The project will be constructed through predominantly agricultural lands that have been heavily modified through farming, as described in Notification 1600-2006-0454-R2.		
2006012047	North Horse Creek Detention Basin No. 2 Vacaville, City of Vacaville--Solano The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0370-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Vacaville.	NOD	
	Activities include: extending the existing 84-inch CMP culvert by 80 feet; construction of an Open Concrete Box; placement of Rock Slope Protection; and construction of an Access Ramp. The project will impact wetlands within the area.		
2006022018	Worthington Rezone and Use Permit P-07-25 Trinity County Planning Department --Trinity Rezone of the portion of the park currently zoned RR-1 to Mobile Home Park (MHP) and amendment of the use permit to include this same portion of the land to the park, allow the relocation of Space 31 to this area (after the fact), and add one additional mobile home space to this area (Space 32) for a park that has been permitted for 31 spaces since 1971. 	from 3,752 +/- square feet to 1.5 +/- acre, one parcel to contain a community propane tank and a storm water detention basin, and one parcel to contain a park for residents of the subdivision and a storm water detention pond. 4. Resolution of application to the Local Agency Formation Commission (LAFCO) to form a County Service Area (CSA) to provide maintenance for roads serving the proposed subdivision which are not accepted into the County Maintained System.		
2007052056	Coffin & Boeger Tentative Parcel Map (P-07-10) Trinity County Planning Department --Trinity Tentative parcel map to create three parcels from 7.7 acres zoned Rural Residential 2.5-acre minimum.	NOD	
2007078199	BART West Bay Airport/Long-Term Parking Program Bay Area Rapid Transit District Colma, South San Francisco, San Bruno, Millbrae--San Mateo, San Francisco BART proposes to extend the existing Airport/Long-Term Parking Program in the Colma, South San Francisco, San Bruno, and Millbrae West Bay Stations at a \$6 daily parking fee. The Airport/Long-Term Parking Program is designed to provide a limited amount of parking for customers wishing to use BART to access Oakland and San Francisco International Airports.	NOE	
2007078200	Nevada 89 Roundabout at Donner Pass Road Fish & Game #2 Truckee--Nevada The Town of Truckee proposes to construct a roundabout along State Route 89 at Donner Pass Road. The project will include the extension of existing culvert located at the intersection. The project will impact approximately 0.006 acre of ephemeral drainage.	NOE	
2007078201	Sacramento River Ranch Wetlands Mitigation Bank Project Fish & Game #2 Unincorporated--Yolo This agreement pertains to the Sacramento River Ranch Wetlands Mitigation Bank Project, which involves the development of wetland habitat on approximately 108.5 acres of the overall 112.2 acres property. The created wetlands will be driven by ground water and precipitation. However, in times of peak flow from storm events, water will flow onto the site from a culvert on the west corner of the project site. Water will exit the site from an existing culvert located on the southern portion of the field and from another culvert on the southwest corner of the site. Another culvert will convey water from the east portion of the site to the west portion. Since the existing culvert onsite is blocked, it must be replaced. The blocked culvert would be removed and a new 24-inch corrugated plastic pipe would be placed into the excavated area. The excavated dirt would be used as backfill over and around the pipe. Riprap (i.e., 12-inch aggregate) will be placed at either end of the pipe to stabilize the inlet/outlet location and minimize erosion/sedimentation, per Notification 1600-2007-0120-R2.	NOE	
2007078202	Culvert Repair - SAA #1600-2006-0474-R2 Fish & Game #2 Colfax--Placer The project includes the repair of two culverts. The project will have 0.05 acre of permanent impact to the stream.	NOE

2005121053	Ridgecrest Wal-Mart Supercenter & Retail Center Ridgecrest, City of Ridgecrest--Kern The proposed project consists of the construction of a Mal-Mart Supercenter, a gas station, and the grading of two additional parcels on approx. 28.5 acres. The project site would be subdivided into four parcels. Parcel 1 (approx. 21.24 acres) would be the location of the proposed Wal-Mart Supercenter and parking stalls. The Wal-Mart Supercenter would be approx. 245,000 sq. ft. in size, all with appurtenant structures and facilities, and would offer groceries and general retail merchandise including, without limitation, alcohol for off-site consumption, pool chemicals, petroleum products, pesticides, paint products, firearms, and ammunition. The Supercenter would include a garden center, a pharmacy with two drive-through lanes, a vision and hearing care center, food service, a photo studio and photo finishing center, a banking center, and an arcade. The garden center would have an exterior customer pick up facility for pre-paid bagged garden supplies, such as potting soil, mulch, and manure. The Supercenter would also include a tire and lube facility, which would engage in routine servicing and preventive maintenance of vehicles. Further, the Supercenter would have outdoor seasonal sales and storage, and the Supercenter building would include, without limitation, truck doors and loading facilities.	EIR	09/04/2007
2007021026	Regional Salinity Management Project - Hueneme Outfall Replacement Project Calleguas Municipal Water District Oxnard--Ventura The project includes the installation and operation of approximately 2.2 miles of onshore 12-inch to 48-inch diameter pipeline along Hueneme Road and Surfside Drive in Oxnard and Port Hueneme. Also, the project would include the replacement of the existing Hueneme Outfall. The outfall will be 4,900 to 5,100 feet long and terminate in approx. 50 feet of water.	EIR	09/04/2007
2007041078	Clean Energy California LNG Plant 1 Kern County Air Pollution Control District --Kern Clean Energy proposes to produce 240,000 gallons per day of liquefied natural gas (LNG) from pipeline quality natural gas for use as transportation fuel. Specifically, the LNG will be used to supply fuel for the intrastate trucks traveling to and from the Ports of LA and Long Beach. This is considered a low-carbon fuel. The LNG will be transported to market in 10,000 gallon trailers, which are specifically designed to handle cryogenic fluids. At maximum production, the LNG plant is expected to load 24 trailers per day over a 24-hour period.	FIN

	<p>proposed project site is approx. 1.7 acres, and is bounded by track and playing fields for the nearby Chico Senior High School to the north, a parking lot and Tehama Hall to the south, Shasta and Lassen Halls to the east, and Whitney Hall to the west. The UHFS Phase 1 consists of two buildings: one consisting of university housing and a food service facility for students, and the other being a program building. The main portion of the proposed project consists of a five story building (67 feet at its highest point) with a basement and is 100,722 total sq. ft. The residence portion will house 228 total people. including 220 students, 6 resident advisors, and 2 staff members (a net increase of 226 student beds). The food service facility is the first floor of the main building (with a dedicated basement) totaling approx. 24,584 sq. ft. The total footprint of the two buildings is approx. 32,000 sq. ft. (ground floor). The food service facility will have approx. 25 full-time employees and 125 part-time student employees. The food service facility will replace the existing food service in Whitney Hall, and will serve all on-campus student residents. The program building is two stories, totaling 10,474 sq. ft. It will house a few offices, recreation space, and other program spaces for on-campus student residents.</p>		
2007071099	<p>Harvill Commerce Center, Plot Plan No. 21207 and General Plan Amendment No. 845 Riverside County Planning Department --Riverside</p> <p>The proposed Plot Plan No. 21207 for the Harvill Commerce Center project proposes to construct eight industrial warehousing buildings ranging in size from 15,096 sq. ft. to 85,420 sq. ft. The development proposal includes 413 parking stalls, 22 of which are ADA compliant, eight loading areas, one water basin, eleven offices totaling 22,000 sq. ft. and 117,842 sq. ft. of landscaping. Currently there are eight existing structures on the project site to be removed. General Plan Amendment No. 845 is a request to amend the Mead Valley Area Plan Circulation Element by reducing the designation of Placentia Street from an Arterial Highway (128' right-of-way) to a Secondary Highway (100' right-of-way) between Harvill Avenue and Patterson Avenue.</p>	MND	08/17/2007

2004071164	High School No. 5 Fontana Unified School District Fontana--San Bernardino The District proposes to develop and operate a 2,100-seat comprehensive high school with a 4,000-seat football stadium. The proposed student population may increase to approximately 3,000 students in the future through addition projects, if required to accommodate District growth. School buildings would include: administration, media/library, food service/physical education, math/science, magnet, restrooms/storage areas, special education, humanities, and the performing arts theater. The facility would serve students in grades 9 through 12. Operation of the high school would begin for the 2010 academic year.	NOP	08/17/2007
2007071094	Las Encinas Hospital 2007 Master Development Plan Pasadena, City of Pasadena--Los Angeles The applicant, Signature Healthcare Services, proposes to revise the Las Encinas Hospital 2007 Master Development Plan (2007 Master Development Plan) to increase community care services within the approximately 24.7-acre site. The project site is located at 2900 East Del Mar Boulevard in the City of Pasadena. The 2007 Master Development Plan seeks to augment the services by increasing assisted living beds from the current 8 beds to a total of 60 beds, independent living units would be increased from 87 existing to 187 total units, and provide expanded medical (psychiatric) office space from the approved 28 units to 32 total office units (an additional 25,000 square feet). In addition, a new psychiatric hospital would be constructed to consolidate psychiatric patient care in a single, secure facility affording greater security to the neighborhood and modern facilities for staff and patient care. To accommodate the growing elderly population, the project includes development of 34 new senior bungalow units.	NOP	08/17/2007
2007071096	Mesquite Regional Landfill - Conditional Use Permit (CUP) #06-0003 - Amendment to Existing CUP Imperial County Planning Department El Centro--Imperial Amend the existing Conditional Use Permit #1036-91 to allow trucking of up to 4,000 tons per day of municipal solid waste and treated ash at the Mesquite Regional Landfill site; re-visit the existing travel restrictions on State Route 78 during certain week days/hours from October through May; allow the receipt of treated sh from two Los Angeles County ash-generating facilities for truck and rail haul to the landfill site. 2007072087	Ridgetop Holdings, LLC Nevada County Nevada City--Nevada A Tentative Final Map Application proposing to subdivide approximately 270 acres consisting of eight parcels into 54 residential lots, two open space lots, and a remainder parcel. The project includes a petition for exception from the fire safe road standard for Willow Valley Road and a Comprehensive Master Plan as required by the PD combining district.	CON	07/31/2007
2002061026	City of Coalinga General Plan Update Master EIR Coalinga, City of Coalinga--Fresno The City of Coalinga is updating its General Plan so that it better reflects City goals and anticipated growth over the next 18 years. The City's proposed SOI and AOI are increasing in size to accommodate that growth.	EIR	09/07/2007
2004021108	Recirculated Draft Program Environmental Impact Report for the General Plan 2025 Program Riverside, City of Riverside, Moreno Valley, Corona, Norco, Grand Terrace, ...--Riverside In November 2004, the City of Riverside circulated a Draft Environmental Impact Report (DEIR) for the General Plan, updates to the Zoning Code and Subdivision Code, the Magnolia Avenue Specific Plan, and the Citywide Design and Sign Guidelines. In the process of reviewing the comments received on the previously circulated DEIR, the City determined to recirculate the DEIR pursuant to Section 15088.5 of the California Environmental Quality Act Guidelines. This recirculated EIR includes all of the changes to the documents recommended by the City Council at the March 21, 2006 City Council hearing, updated information where available, information provided in response to comments and an amendment to the Noise Code for consistency with the proposed Noise Element and State regulations.	EIR	09/04/2007
2005092055	Land Use/Circulation Element Updates; Revisions to Zoning/Development Ordinance Jackson, City of Jackson--Amador The General Plan Land Use Element and Circulation Element Updates and Revisions to the Zoning/Development Ordinance project consists of: 1) a comprehensive update to the City's General Plan Land Use Element and Land Use Designation Map. 2) a comprehensive update to the City's Zoning/Development Ordinance, and 3) amendments to the Circulation Element of the City's General Plan. The City of Jackson is located in the Sierra Nevada Foothills in Amador County, California. Regional access to Jackson is provided by State Route 49, a major north-south highway, and Highway 88 which passes through the city from the east and northwest. The City of Jackson is approximately 2,041 acres in size.	EIR	09/18/2007

2006122048	<p>Measure DD Implementation Project Oakland, City of Oakland--Alameda</p> <p>In November 2002, Oakland voters passed a \$198,250,000 bond measure entitled Oakland Trust for Clean Water, Safe Parks (Measure DD). This bond measure authorizes funding for physical improvements to existing parks; development of new parks and recreation facilities; clean water measures; restoration and rehabilitation of recreation buildings; and implementation of creek and waterway protection and restoration activities. The proposed project would implement the activities funded by Measure DD.</p>	EIR	09/04/2007
2007062021	<p>Lower Arsenal Mixed Use Specific Plan Program Benicia, City of Benicia, Vallejo--Solano</p> <p>The proposed project includes implementation of a Specific Plan for the Lower Arsenal site, which is designated for mixed use in the Benicia General Plan. The Specific Plan covers four distinct zones, each of which exhibits a unique physical character. The Specific Plan would implement a form based code to shape future development on the project site, with primary emphasis on the physical form and character of the new development. After buildout of the Specific Plan, the area would contain approx. 741,865 sq. ft. of mixed uses, 22 residential units, and 6.39 acres of open space. The Specific Plan area currently contains approx. 525,000 sq. ft. of mixed uses.</p>	EIR	09/04/2007
2007042072	<p>Pool Station Intersection Improvement 10-CAL-4-PM 14.5/14.9 Caltrans #10 Angels Camp--Calaveras</p> <p>The California Department of Transportation (Caltrans) proposes to reconstruct the intersection of State Route 4 and Pool Station Road in Calaveras County. The project is located rural setting between the towns of Copperopolis and Angels Camp. A 12-foot wide left turn lane would be added to northbound State Route 4 to allow vehicles to turn left onto Pool Station Road. Standard paved 8-foot-wide shoulders would be added to State Route 4 within the project limits.</p>	FIN	
2007072090	<p>Upper Perazzo Meadow Area Watershed Restoration Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Sierra</p> <p>The project focuses on reducing erosion and sedimentation from National Forest System Roads 07-30-20 and 07-30-20-20. Portions of these system roads are poorly drained, creating a source of overland flow, erosion, and sedimentation. Existing watercourse crossings on Road 07-30-20 within Perazzo Canyon Creek and its unnamed tributary have unstable banks and approaches which need to be improved to increase stability and reduce erosion and sedimentation. Additionally, these crossings are currently impassable by emergency vehicles. Portions of these system roads are located within sensitive riparian habitat corridors and in some instances travel within 25 feet of the watercourse. Unrestricted public use of these roads has also led to stream bank erosion and sedimentation of Perazzo Canyon Creek. Unauthorized, unclassified spur routes in the area are also eroding and contributing sediment to the unnamed tributary and wetlands.</p>	JD	08/20/2007

2007070281	Windstar Dublin, City of Dublin--Alameda The Windstar project is a transit oriented, dense residential development proposed by Windstar. The Applicant has proposed to increase the number of units permitted on the site from 210 to 309 (an increase of 99 units). The increase in the number of units will not increase the amount of surface area that will be developed. The increase in the number of units will result in an increase in the height of the building which will be increased by one-story and will result in a five story building. The Windstar project site is located next to the AMB project site which was approved for a 308 unit residential development and a 150,000 sq. ft. office building.	MND	08/20/2007
2007071105	Arts Building Project University of California, Irvine Irvine--Orange Implementation of the proposed project would result in the construction of two buildings which together would provide approx. 68,550 gross sq. ft. (41,630 assignable sq. ft.) of new teaching, support, research, and exhibition space for the Claire Trevor School of the Arts located in UCI's Arts Quad. In addition to construction of the two buildings, site development would include excavation of approx. 8,760 cubic yards of earth material, connections to existing campus utility and drainage systems, and landscaping improvements.	MND	08/20/2007
2007072083	RZ063177; SD069106; DP063024 - Sleepy Hollow Contra Costa County Richmond--Contra Costa A. Count File #RZ063177 - A request to rezone the subject site from Single Family Residential - R-7 to Planned Unit District-P-1, with a 1.58 acre variance to the required land area of 5 acres. B. County File #SD069106 - A request for approval to subdivide 1.58 acres into 3 single family lots and 12 multiple residential lots. The lots range in size from square feet minimum to square feet maximum. C. County File#DP063042 - A request for approval for a preliminary and final development plan to establish 3 single family residential units and 12 duplex town homes divided into two housing types: -3-2 story single family homes and 12-2 story duplex town homes; A proposed parking plan contains 30 unit garage parking and 15 on site guest parking. A total of 14,814 +/- sq. ft. of open space/park area is proposed. D. The project also includes an annexation into the L-100 Lightening Dist.	MND	08/20/2007
2007072086	Eucalyptus Glen Cotati, City of Cotati--Sonoma This project is an application for Design Review for construction of four duplex units (eight residential units) on a 40,063 sq. ft. vacant site. The site is comprised of four separate parcels that received PUD and Final Map approval in 1993.	MND	08/20/2007
2007072088	SMF Road & Parking Lot Maintenance Program Sacramento County Sacramento--Sacramento Road & parking lot maintenance program at SMF airport & adjacent county airport owned lands.	MND	08/20/2007

	than the minimum 5,200 sq. ft. in area required in the RD-5 zone.		
2007072089	Knapp Minor Subdivision Trinidad, City of Trinidad--Humboldt The project proposes a minor subdivision of a 12.7 acre residential parcel into two parcels of approx. 2.0 acres (Parcel 1) and 10.7 (Parcel 2) acres. Parcel 2 is currently developed with a primary and secondary residence. Parcel 1 is undeveloped. Both parcels have access via Lanford Rd., a private road. City water serves the existing parcel and will serve new development on Parcel 1. Both parcels will utilize on-site sewage disposal systems. Suitable primary and reverse areas have been designated on Parcel 1. The majority of the subject parcel is within the City of Trinidad, and the northern portion is within Humboldt County jurisdiction. All future development will occur within City limits. Subdivision applications have been submitted to both agencies; the City of Trinidad is the lead agency. The project is within the Coastal Zone; the Pacific Ocean is located approx. 500 ft. west of the project. The project falls within an Alquist-Priolo Fault Hazard Zone. The project site is surrounded by other low-density residential development; Trinidad Rancheria is located just to the east of Parcel 2.	Neg	08/20/2007
2006092124	Belden Comprehensive Development Plan Point Arena, City of Point Arena--Mendocino Consideration of a request from Matthew Belden, applicant, and agent David Hillmer of CFO Empire Contracting Inc, for a Comprehensive Development Plan and Conditional Use Permit for the development of thirty residential units, including eight, two-story mixed-use, live-work units, on the subject property. Seventy-six off-street parking spaces and an overflow parking area are to be provided. The subject property is zoned Highway Commercial (HWC) and is an irregular shaped parcel with a total lot area of 5.9 acres.	Oth	
2004081159	Update to the Santa Barbara County Uniform Rules for Agricultural Preserves and Farmland Security Zones (Uniform Rules) Santa Barbara County --Santa Barbara The Uniform Rules Update project proposes to change several provisions of Santa Barbara County's Uniform Rules in order to 1) bring the Uniform Rules into conformance with recent legislative amendments to the Williamson Act; 2) address discrepancies in the Uniform Rules that were identified in a 2001 audit by the California Department of Conservation (DOC); and 3) increase the clarity and flexibility of the Agricultural Preserve Program.	RIR	08/20/2007
2000102046	Lawrence Berkeley National Laboratory 2006 Long-Range Development Plan University of California Berkeley, Oakland--Alameda The LBNL 2006 Long-Range Development Plan (2006 LRDP) is a general land use plan to guide the physical development of LBNL through 2025. The 2006 LRDP projects LBNL population to grow from 4,515 in 2006 to 5,375 by 2025. The LRDP projects a net increase in building area on the main LBNL site of 612,000 gross square feet (gsf): from 1,808,000 gsf in 2006 to 2,420,000 gsf. The LRDP's Land Use Plan defines four land use zones that will guide the location of all new buildings and site improvements. These zones have been designed to strengthen existing functional adjacencies and promote an overall density of development that is appropriate to the site.	NOD

2007079024	<p>around-the-clock access to LBNL's user facilities. The average height of the three-story building along its west face would be 35 feet. Because the building would be terraced into the hillside, the eastern face would be approximately 25-30 feet in height. The interior of the building will include a lobby, corridors, stairways, mechanical/electrical equipment, an elevator, an office, housekeeping storage areas, engineering, laundry, and fitness center. Guest House rooms would be complemented by a variety of common and/or lounge spaces that would aim to promote a sense of collaboration and community within the building. At peak occupancy, it is estimated that the Guest House will accommodate approximately 73 guests. Eight full-time staff would be hired to operate the facility. A drop off area and ADA parking will be located near the entrance of the building.</p> <p>SAA No. R1-07-0153 Shasta County --Shasta The work authorized by this Agreement is limited to: (1) using mechanical and chemical methods to eradicate <i>Arundo donax</i> (giant reed) from approximately 500 linear-feet of Stillwater Creek; (2) re-vegetating <i>Arundo</i> treatment area with native plant; and (3) decommissioning a failed stream crossing.</p>	NOD	
2007079025	<p>Kirkwood Mountain Resort Culvert Placement and Stream Restoration Alpine County Planning Department --Alpine, Amador The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0089-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Kirkwood Mountain Resort LLC.</p> <p>Stream alterations for construction of the following developments: Palisades Phases 5 and 6; Timbercreek Village - Sentinel Way; and Kirkwood Creek streamzone restoration work as follows:</p> <p>Install one permanent crossing structure for each roadway that intersects a streamzone in the above-listed development area. Roadway crossings will be as specified in plans submitted with the notification package. In addition, the project may have pedestrian crossing structures for each pedestrian pathway intersecting a streamzone not to exceed 10 linear feet of stream channel coverage each. Each crossing should be a bridge, but a culvert is allowable of its diameter and installation do not impede flows (too high or too low). A roadway and pedestrian crossing may be adjacent to each other.</p> <p>In addition, Palisades Phases 5 and 6 will have 15 linear feet of riprap installed at Olympic Court, to capture slope sheet flow and direct flows into the existing tributary.</p> <p>Sentinel Way: Construct one 20-foot by approximately 20-foot riprap outfall for an existing culvert located under Kirkwood Meadow Drive. Stormwater effluent from culvert shall discharge into an area providing infiltration capability to avoid direct water quality impacts to Kirkwood Creek.</p> <p>Kirkwood Creek restoration: 700 linear feet of actively eroding stream bank along three reaches will be stabilized using either local, native stream vegetation, or a combination of hardscaping and vegetation. In addition 60 linear feet of temporarily impacted streamzone will be restored to original ecological functions</p>	NOD

	levee failure.		
2007078243	Maintenance Area 1, Sacramento River, RM155.5 R, Site 20051230-07--001, PL 84-99 Repair Water Resources, Department of Colusa--Colusa The work at this site is needed to repair and restore the levee that was damaged during the Governor's declared flood disaster in Colusa County in the January 2006. The proposed repair consists of excavating in steps the 1,500 feet reach of eroded slope and backfilling with impervious soil to conform to the adjacent non-damaged areas. The riverbank would be reconstructed to the 3(H):1(V) slope and reseeded with native grasses. This repair will prevent the possible destabilization of the levee slope and resulting levee failure.	NOE	
2007078244	Reclamation District 900, Sacramento River, River Mile 54.5 Site 20051230-013-005 PL 84-99 Repair` Water Resources, Department of West Sacramento--Yolo The work at this site is needed to repair and restore the levee that was damaged during the Governor's declared flood disaster in Yolo County. The geotechnical study of the area indicated that the foundation materials were poor and improvements to the foundation were needed to prevent seepage and sand boils landward of the levee. The proposed repair consists of construction of 80 feet wide by 200 feet long underseepage berm and filling in of an existing ditch located 20 feet landward of the levee toe. This repair will prevent the possible destabilization of the levee slope and resulting levee failure.	NOE	
2007078245	LCWPD Middle Creek, Mile 2.6, Site 20051230-009-001 RL 04-99 Repair Water Resources, Department of --Lake The damaged levee is part of the federal Middle Creek Flood Control Project. Two locations along Middle Creek, one 150 feet and the other 50 feet respectively, 80 feet apart, were overtopped and the levee patrol road aggregate cover washed out. The top of the landside slope were eroded. On January 6, 2006, emergency protection measures were implemented, including adding 100 cubic yards of gravel to the road surface, installation of "raincoat" over the eroded levee slope, and repair of the access ramp.	NOE	
2007078246	Reclamation District 785. Yolo Bypass East Levee, Yolo County, California, (Site 20051230-035-001), PL-84-88 Repairs Water Resources, Department of West Sacramento--Yolo The damage to the sites consists of intermittent wave wash of the unprotected waterside slope of the Yolo Bypass East Levee, north of the Sacramento Bypass. The intermittent damages range between 4 feet to 100 feet long and up to 3 feet high, extending along a 4,000-foot reach of the waterside levee slope. The repair work is needed to restore the levee to pre-storm condition to prevent the possible destabilization of the levee slope and resulting levee failure. Excavating in steps and backfilling the 2-to-3 feet high wave wash damage with impervious fill along the 4,000-foot reach will restore the slope. The repair area will then be seeded and mulched. 2007032097	Measure C Bond Spending Implementation Plan for College of Marin (2007-2013), Indian Valley Campus Marin Community College District Novato--Marin The Implementation Plan at the Indian Valley campus would be constructed over a six-year period. At completion, the Indian Valley Campus is expected to have an enrollment of about 1,180 students, which is about a 20-percent increase over the 2006-2007 enrollment of 987 students. This represents about a three-percent increase per year over the next six years. The EIR will evaluate a potential range in increased gross square footage (gsf) of 25,000 to 36,000 gsf.	EIR	09/05/2007
2007032098	Measure C Bond Spending Implementation Plan for College of Marin (2007-2013) Kentfield Campus Marin Community College District --Marin The Implementation Plan for the Kentfield Campus would be constructed over a six-year period. At completion, the Kentfield campus is expected to have an enrollment of about 6,402 students, which is about a 6% increase (1% per year) over the 2006-2007 enrollment. This enrollment includes both full time equivalent students and students taking limited classes. The campus would decrease in overall square footage by 40,000 gross square feet (gsf) to 45,000 gsf.	EIR	09/05/2007
2006021005	Historic Old Administration Building Renovation Project State Center Community College District Fresno--Fresno The Historic Old Administration Building is on the National Register of Historic Places. The building has been closed since the 1970s. The District is proposing to renovate the building and return it to its original uses, primarily offices and classrooms.	FIN	
2007071117	TM 34059 Riverside, City of Riverside--Riverside The applicant is requesting approval of a tentative tract map to subdivide approximately 254.34 acres of land into 50 single-family residential lots for two existing single-family homes and future development of 48 single-family homes. Each lot is five or more acres in size meeting the minimum lot size requirement for the RA-5 Zone. The subdivision is proposed with gated access at three access locations (one from Corsica Avenue at the northeasterly corner of the site, one from Constable Road at the southwesterly corner and one from Heather Drive east of Gratton Street at the northwesterly corner of the site). Except for the extension of Corsica Avenue, all other streets within this map are private streets. Corsica Street will be a public street. The proposed building pads range from 18,000 to 27,000 square feet in size.	MND	08/21/2007
2007071112	The Summit at Calabasas Calabasas, City of Calabasas--Los Angeles The proposed project involves the vacation of an existing right-of-way, the combination of two lots, a change of the existing zoning of Commercial Business into Commercial Retail, and a general plan amendment to accommodate the development of a commercial center with five one-story buildings totaling approximately 70,100 gross square feet of commercial space. The project would require the demolition of an existing one-story single-family residential structure	NOP	08/21/2007

	and a one-story accessory structure. Site preparation would involve excavation of earth to a depth sufficient to accommodate foundation engineering. Requested discretionary approvals include conditional use permit, sign program, general plan amendment, zone change, oak tree permit, as well as the vacation of the right-of-way and lot line adjustment to combine the two existing lots and the abandoned right-of-way into one lot.		
2007071114	Downtown Lancaster Specific Plan Lancaster, City of Lancaster--Los Angeles The Downtown Specific Plan (DSLSP) provides area-specific land use regulations and development guidelines for seven districts within the Downtown. The DLSP would allow for a mix of land uses including retail, office, residential, and civic uses. The DLSP would retain existing uses within the specific plan area, allowing for a maximum of 924,848 square feet of retail service uses, 973,956 square of office/civic/public spaces and 3,526 dwelling units (single- and multiple-family) in the Downtown at buildout. Additionally, the DLSP proposes circulation improvements and the establishment of design regulations and design guidelines for new development within the Downtown.	NOP	08/21/2007
2007071115	Condominium Development at 2323 28th Street Santa Monica, City of Santa Monica--Los Angeles The proposed project would involve the construction of one, two-story, 30 foot tall building, designed to accommodate 8 market-rate town home-style condominium units. The total building area would be approximately 11,338 square feet. Each townhouse-style unit is designed with first floor common areas (living room, dining room, kitchen, and half-bath) and a second floor with two bedrooms and two bathrooms. Outdoor space would be provided for each unit and would consist of ground floor patios and second floor balconies. Each residential unit would include a private outdoor spiral staircase outside the second floor balconies, which would lead to a private roof deck providing additional outdoor space. Eighteen parking spaces, for residents and visitors, would be provided in a subterranean garage.	NOP	08/21/2007
2007071111	Unitarian Universalist Conditional Use Permit DRC2005-00276 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Unitarian Universalist Fellowship of San Luis Obispo County for a Conditional Use Permit to allow a phased development of an 11,000 square foot religious facility. Phase I would include the construction of a 5,325 square foot building consisting of a sanctuary, chapel, entrance area, kitchen, and three offices; the renovation of an existing 1,565 square foot residence converted into four classrooms and a nursery; construction of two play areas; and 119 parking spaces. Phase II would include the demolition of the existing residence that was converted into classrooms under Phase I; construction of a 2,640 addition to the building constructed under Phase I to result in a 7,965 square foot building consisting of a sanctuary, chapel, choir area, entrance area, kitchen, four offices, a work room, a music room, library, and two meeting rooms; construction of a 2,765 building containing six classrooms, an office, and a nursery; and 150 parking spaces. The project will result in the disturbance of approximately 2.75 acres of a 2.75 acre parcel.	Neg	08/21/2007

<u>Documents Received on Monday, July 23, 2007</u>			
2007072091	San Pedro - Alcini Morgan Hill, City of Morgan Hill--Santa Clara The project proposes to rezone an approx. 1.7-acre project site from R2-3,500 Medium Density Residential Dist. to R2-3,500 Residential Planned Development (RPD) and construct up to 12 residences on the project site. The proposed RPD would allow reduced minimum lot size and rear and side setbacks compared to the site development standards under the existing zoning.	Neg	08/21/2007
2007072092	Conditional Use Permit (UP 2006-13) request for Geothermal Use at Solage Resort Calistoga, City of Calistoga--Napa The project would utilize geothermal fluids at Solage Calistoga (formerly the Palisades Resort and Spa) for direct use in spa facilities, and to provide heat for swimming pools and domestic water. Geothermal fluids would be obtained from an existing on-site geothermal production well. The geothermal fluid use will be divided into two separate system: Spa Use System - the system will provide geothermal water, mixed with cold water, to the mineral pool and to the Spa Bath House. In the mineral pool, the mixed geothermal water will be added to make up for evaporation losses and to maintain a controlled mineral content in the pool water. In the Bath House, the mixed geothermal water will be used to fill bath tubs for use by spa clients. A small amount will also be used to make the mud used by clients as part of the spa treatment. All waste water from these uses will be directed to the City's sanitary sewer system. The geothermal water will be metered at the supply line, to determine the quantity eventually going into the sewer system. Direct Heat System - most of the geothermal flow will be used in a closed loop system, by which the hot geothermal fluid will heat swimming pools and domestic hot water through heat exchangers. The geothermal water will be kept separate from the pool and domestic water; only heat will be extracted. The mineral pool, main pool, and kids' pool will be heated, as well as domestic hot water for use in the spa buildings. After heat is extracted by the heat exchangers, the cooler geothermal water will be re-injected into the ground through a separate on-site injection well, to complete the loop, and replenish the resource.	Neg	08/21/2007
2007072094	Folsom Heights Tentative Parcel Map Sacramento County --Sacramento A Tentative Parcel Map to create two lots on approximately 189.4 gross acres in the AG-20 and AG-80 zones.	Neg	08/21/2007
2007072095	Butte Water District Water Storage Project Butte Water District Gridley--Butte Butte Water District is proposing a project by which available surface water in excess of the District's needs in any given year could be stored at the Semitropic Water Storage District's (SWSD) water bank in Kern County and then recovered later for use by Butte Water District. This operation would increase water supply reliability for Butte Water District farmers.	Neg	08/21/2007

2005121066	Shoreline Gateway Long Beach Redevelopment Agency Long Beach--Los Angeles In September 2006, the City of Long Beach certified the Final EIR for the Shoreline Gateway Project. Since certification of the Final EIR, the project applicant has submitted modifications to the plan, which is subject to further review pursuant to CEQA. The project proposes a mixed-use residential development involving three towers with 358 residential units including live/work spaces, townhomes, one to three bedroom apartment units, penthouse units and associated amenities, and 13,561 square feet of retail/gallery space. Parking for approximately 820 vehicles would be provided in three subterranean parking levels and in a concealed parking structure located at-grade and one level above-grade. The revised project remains consistent with the September 2006 project with the exception of the Gateway Tower. The revised project proposes a 35-story residential tower at the northwest corner of Ocean Boulevard and Alamitos Avenue. With the three to four level podium, the height of the proposed 35-story tower would be approximately 417 feet.	SIR	09/05/2007
1985122502	Roadrunner Club Supplement, San Diego County San Diego County --San Diego The Tentative Parcel Map application proposes a minor subdivision of 108.33 acres into two parcels measuring 106.39 and 1.94 net acres in size. The application proposes to create a boundary line between the Quail's Nest and the remaining portions of Roadrunner Springs. The project is located within the 307-acre Roadrunner Club Mobilehome Park which was approved pursuant to SP 85-01 and P99-003M. The project site is subject to the General Plan Land Use Designation (5) Residential which permits for a maximum density of 4.3 dwelling units per acre. The site is zoned S88, Specific Plan, which allows for a minimum parcel size of 6,000 square feet a density maximum of 4.35 dwelling units per acre.	NOD	
1990010472	All American Canal Lining Project U.S. Bureau of Reclamation IMPERIAL--IMPERIAL The project consists of construction of a concrete-lined canal, parallel to the AAC for a distance of 23 miles. Centerline of the new canal will be offset from the old centerline of the existing canal by a distance of 195 to 850 feet, depending on terrain, ease of construction, and location of existing structures. It is estimated that 392 acres of desert scrub and 258 acres of sand dune habitat will be permanently loss due to construction of the canal.	NOD	
1995013041	Adobe Creek Upper Reach 5 Restoration Project Santa Clara Valley Water District The project has the following objectives: -Restore the creek through repair of the eroded channel, -Stabilize the creek banks, -Remove accumulated sediment under W. Edith Ave. Bridge, -Improve the channel conveyance capacity, -Allow for overland flow during flood events, and -Achieve the above objectives, while minimizing/avoiding environmental and right-of-way impacts to the greatest extent practical. 2007078252	Environmental Management Division Lease Number 1717 Sacramento County Dept. of Environmental Review Rancho Cordova--Sacramento The Sacramento County Environmental Management Division is requesting to lease 35,855 +/- square feet of the Mather Commerce Center. The lease agreement will be for ten years.	NOE	
2007078253	Sonoma County Department of Transportation & Public Works, Giovanetti Road at Unnamed Tributary to Green Valley Creek Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Sonoma The proposed project will restore the capacity of the culvert and channel to reduce the potential for flooding on Giovanetti Road. An excavation upstream of the culvert will be dug using an excavator from the street only, and hand crews within the creek channel. The excavation will be approximately four feet deep, eight feet wide, and extend 35 feet upstream. Blackberries overhanging the channel will be pruned by hand to allow crews and equipment to operate. A large willow on the South bank will not be removed. Downstream of the culvert, a small bulldozer will enter the streambed and push accumulated sediment upstream towards the culvert. The sediment will then be removed with an excavator operating from the roadway and placed into dump trucks to be hauled to an off-site upland location for disposal. The sediment will be removed at a varying depth from 4 feet at the culvert to 0 feet at the end of the excavation, approximately 115 feet downstream.	NOE	
2007078254	Sonoma State University, Copeland Creek Bank Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Rohnert Park--Sonoma The proposed project will reduce sedimentation by stabilizing the collapsing bank wall and redirecting the main stream flow away from the bank wall. An existing bar of sediment and gravel with invasive Himalayan blackberries will be removed from the creek and deposited on an undeveloped portion of the property. All gravel and rock that is larger than one inch in diameter will be redistributed in the streambed with only minimal fines being removed and relocated to landscape areas on campus. The eroding bank will be built out to the landscaped areas on campus. The eroding bank will be built out to the original contour using rock rip rap sunk two feet into the streambed with approximately three feet of rip rap above the streambed. The rock rip rap will be further stabilized by backfilled clean compacted soils. Rip rap will be used at the minimum necessary to stabilize the eroding bank. Bio-engineering with native plant material and erosion control fabric will be used as necessary.	NOE	
2007078255	Matanzas Creek Emergency Watershed Protection Project Sotoyome Resource Conservation District Santa Rosa--Sonoma Project is being implemented on behalf of Ms. Allison Leisten. Ms. Leisten contacted the Natural Resource Conservation Service (NRCS) following damage to his property during the flood of January 2006. Upon investigation of damage on Ms. Leiston's property, NRCS determined that soil erosion, watershed impairment, and threat to life and property were the result of this natural disaster (flood). Emergency activities proposed include placement of loose rock riprap, trimming and removing portions of fallen trees and cabling down remaining tree trunks and root wads. Implementation of these proposed measures serves to prevent further soil erosion, restore watershed impairment, and address the immediate threat to life and property.	NOE

2007078256	88 and 82 Creek Road Fairfax Creek Bank Repair Fish & Game #3 Fairfax--Marin The proposed project includes replacement of the entire length of failed retaining wall, at 88 Creek Road, with a new taller reinforced concrete wall placed behind the existing wall. A scour pocked close to the existing wall will be cleaned of debris and filled with 12-inch to 24-inch rip-rap rock placed at a 1.5:1 slope. The proposed work at 82 Creek Road includes installation of a new reinforced concrete wall approximately 35 feet long x 6 feet high as well as removing existing wood extensions at the stream bank and replacing the structures with a reinforced concrete grade beam cap and associated horizontal tie-backs. A sloped bench will be graded above the wall at 82 Creek Road. Rip-rap rock and the upper soil areas will be planted with native species including willows, creek dogwood, white alder and other appropriate species and backfilled with local native alluvium and top soil. The applicants/Operator expects to have to de-water the stream channel at the project site and potentially relocate fish and/or aquatic species to an appropriate area downstream/upstream the project area. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007- 0289-3 pursuant to Section 1602 of the Fish and Game Code.	NOE	
2007078257	King Island Levee Erosion Repair Fish & Game #3 Stockton--San Joaquin Work consists of repairing 16 damaged levee sections along King Island's levee system. This includes regarding existing material using an excavator or barge-mounted crane. Clean rock revetment will be placed above existing rock revetment up to an elevation consistent with the levee crown at each location using an excavator or barge-mounted crane. Issuance of a Streambed Alteration Agreement Number 1600-2007-0186-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078258	Tentative Tract Map 17171 (1st Extension of Time) Adelanto, City of Adelanto--San Bernardino Request for the 1st Extension of Time of approved Tentative Tract Map 17171 to subdivide 10.0 acres into 38 single family lots within the Single Family Residential (R1) zoning district with a new expiration date of May 25, 2008.	NOE	
2007078259	WPWMA Materials Recovery Facility - Reallocation of Public Green Waste Customers, Change in Shared Area, and Screening of Construction / Demolition (C&D) Waste Western Placer Waste Management Authority Roseville--Placer The project consists of (1) directing self-haul customers delivering green, wood, and C&D waste to the green, wood, and C&D waste processing area; (2) slight change in location of the area shared with the landfill; and (3) screening the C&D and using the fines as Alternate Daily Cover (ADC). 2005072145	Draft Master Environmental Impact Report for the City of Colusa General Plan Update Colusa, City of Colusa--Colusa The enclosed document is a Draft Master EIR for the City of Colusa's General Plan Update. The City of Colusa will complete a General Plan update of all elements except the Housing Element (which was adopted by the City in March 2004). The City anticipates substantial new development within the next several years, policies and programs for which are not adequately expressed in the current General Plan, approved in 1994. The MEIR will contain a program-level analysis of the proposed new General Plan, and a project-level analysis of three subsequent development projects currently proposed within and outside the city limits.	EIR	09/06/2007
2007071126	Del Mar Fairgrounds Arena Roof Projects 22nd District Agricultural Association Del Mar--San Diego The proposed project includes installation of a roof over an existing arena at the Del Mar Fairgrounds. The roof would enable year-round use of the facility for horse shows, rodeos and other equestrian and non-equestrian events.	MND	08/22/2007
2007071128	Hitt, Christopher J. San Bernardino County Apple Valley--San Bernardino General Plan Land Use Zoning District Amendment from RL to RS-14M on 2.73 acres and Tentative Parcel Map 17817 to create two parcels and a remainder on 12.09 acres.	MND	08/22/2007
2007071129	Boehm, Frederick, & Althena, et. al. San Bernardino County --San Bernardino General Plan Land Use Zoning District Amendment from PH/ RL-5 to PH/ RL on 113 acres and Tentative Parcel Map 17915 to create 3 parcels and a Major Variance for width-to-depth ratio on 8.6 acres.	MND	08/22/2007
2007071131	Santa Monica Place Remodel Santa Monica, City of Santa Monica--Los Angeles The proposed project would involve the remodel of the existing enclosed mall shopping area and the retention of the two anchor department stores (one anchor store presently occupied by Macy's and the other was formerly occupied by Robinson's May) and the two parking structures. The remodeled area will be three levels in height and will accommodate retail and restaurant uses. The proposed remodel would result in a shopping center of 586,453 sq. ft. of building area (compared with a current building area of 677,209 sq. ft.) and remove the portion of Parking Structure which currently overhangs a section of the mall, eliminating 63 parking spaces. The project site includes frontages along Broadway, 4th Street, Colorado Ave. and 2nd Street.	MND	08/22/2007
2007071133	Madera County Jail Expansion Madera County Madera--Madera To increase the total number of inmate beds from 419 to 1,557 by 2040 with corresponding increase in service related units.	MND	08/23/2007

2007071130	Ellwood Ranch Culvert Removal Santa Barbara County Goleta--Santa Barbara The project would remove an existing 8 ft. diameter, 120 ft. long corrugated metal pipe culvert from Ellwood Creek on Ellwood Ranch. The existing fill and private roadway associated with the culvert would also be removed, and the creek channel graded and re-aligned to improve flows. A new railroad-car bridge, previously permitted under Land Use Permit 06LUP-00000-00543, would be constructed in place of the existing culvert road. The newly graded creek banks would be protected with rock (rock slope protection, RSP) to 8 ½ ft. above the channel bed (1 ½ ft. above the 100 year flood level), and the remaining bank would remain earthen. Three sub-grade rock cut-off walls would be installed to a depth of 3 ft. in the newly graded creek bed to stabilize the bed of the channel. The project would not require 2,246 cubic yards of cut, 726 cubic yards of fill, and export of approx. 1,700 cubic yards on-site to the existing agricultural areas. The project would not require removal of any native trees or vegetation; however the proposed grading would encroach into the critical root zones of two native trees. The newly graded creek banks would be planted with native vegetation, and the surrounding creek corridor would be restored per an approved restoration plan.	Neg	08/22/2007

NOE	
2007078268	Tentative Tract Map 16918 (1st Extension of Time) Adelanto, City of Adelanto--San Bernardino Request for the 1st Extension of Time of an approved Tentative Tract Map to subdivide four five-acre parcels of land into 75 single family lots in an R1 (Single Family Residential) zone with a new expiration date of March 15, 2008.	NOE	
2007078269	Phase I Environmental Site Assessments (Proposed New and Expanding School Sites) Toxic Substances Control, Department of -- Title 1, division 1, part 10.5, chapter 1, section 17210, subsection (g), of the Education Code gives the Department of Toxic Substances Control (DTSC) the authority to adopt regulations that establish guidelines for preparation of Phase I Environmental Site Assessments (Phase I) for proposed new and expanding school sites. A Phase I is prepared by a school district or its proponent interested in acquiring and developing a site as a school, and submitted to DTSC for review. The existing regulations allow for the inclusion of sampling and analytical results for lead in soil from lead-based paint and for polychlorinated biphenyls (PCBs) in soil from electrical transformers in a Phase I Addendum submitted along with or after submittal of a Phase I. Inclusion of sampling and analytical results in a Phase I Addendum under these regulations is strictly a voluntary option in lieu of preparation of a Preliminary Endangerment Assessment (PEA).	NOE

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Tuesday, July 24, 2007</u>			
	<p>The proposed amended regulations apply to investigation and analysis for lead in soil from lead-based paint, polychlorinated biphenyls (PCBs) in soil from electrical transformers, and would now also include sampling and analysis for results for organochlorine pesticides (OCPs) in soil from termiticide applications.</p> <p>The American Society for Testing and Materials (ASTM) Standard E1527-05 is the updated nationally recognized standard for conducting Phase Is. This rulemaking will make the new ASTM Standard the primary reference for conducting Phase Is for proposed new and expanding school sites and replaces the ASTM Standard E1527-00.</p> <p>These amended regulations present straightforward sampling protocols and specify analytical methods to be used in conducting an investigation for lead, PCBs, and OCPs in soil. Sampling and analytical results will be evaluated in a human health screening evaluation approved by DTSC. If results of sampling for these three types of contaminants are indicated at a proposed new or expanding school site and the levels do not pose an excessive threat to the public, including children's health or the environment under unrestricted land use, no further investigation of the site would be required by DTSC. The proposed regulations would therefore expedite the environmental review process for school sites where these are the only three types of contaminants potentially present.</p>		
2007078270	<p>Rumble Strips 03-3E7800 Caltrans #3 --Butte, Sutter, Yuba, Colusa</p> <p>Caltrans proposes to improve traffic safety by installing center line rumble strips in Butte, Sutter, and Yuba counties and shoulder rumble strips in Colusa County. Rumble strips will be grinded, re-striping detail will occur where necessary, and reflective bots dots will be added on the center lane (non-reflective box dots on bridges). The following preliminary design features will be involved: grinding and night work.</p>	NOE	
2007078271	<p>Upgrade DBMM to Concrete 03-3E280K Caltrans #3 --Placer</p> <p>Caltrans proposes to replace metal beam guard rail median barrier with a concrete barrier as part of a statewide effort to replace all existing median guardrails less than 36 feet wide with concrete barriers. The following preliminary design features will be involved: ground disturbance, seasonal construction window, and night work.</p>	NOE	
2007078272	<p>Slab Rehab - 03-0A930K Caltrans #3 Sacramento--Sacramento</p> <p>Caltrans proposes to rehab and lengthen service life of the number one and two lanes. The proposed project will rehab the roadway and reconstruct the number three lane, diamond groove PCC pavement, and cold plane outside shoulders and adding three dowels in each wheel path. Preliminary design features involved: grinding, disposal/borrow site, equipment staging area, drainage/culverts, ramp closure, and night work.</p>	NOE

2007078289	Spanish Mine Adit (Tunnel No. 16) Access Road Project Fish & Game #2 Unincorporated--Nevada This agreement pertains to the Spanish Mine Adit (Tunnel No. 16) Access Road Project, which involves a permanent installation of a setting basin, energy dissipating basin, a 24-inch diameter culvert and two drop inlets in a live Class II stream. Will provide stream crossing to address mine drainage, as described in Notification 1600-2007-0174-R2.	NOE	
2007078290	Merced River Slope Repair Caltrans #10 --Mariposa The California Department of Transportation District 10 Maintenance team proposes to undertake a state-only funded Maintenance project to use gunite to reinforce (but not fill) a large void that has developed in an already disturbed part of the embankment of the Merced River below State Route 140. This project is intended to prevent further erosion of the void and halt the localized pavement cracking and deterioration on State Route 140. The project would ensure the safety of the traveling public on Route 140 in the vicinity of Yosemite National Park.	NOE

2007078292	Upper Ojai Wildfire Protection Zone (U.O.W.P.Z.) Forestry and Fire Protection, Department of Ojai--Ventura The U.O.W.P.Z. provides a defensible space for the community north of Highway 150 and west of Sisar Road in the upper Ojai Valley. The project area is 412 acres. The treatment area is an 86-acre fuel break created in the mid-1990s under a Vegetation Management Program Project (RX-3-031-VNC). The method of treatment will be hand cut and stacking of chaparral, brush and limbing of trees to be burned in the winter months. The U.O.W.P.Z. is located within the United States Department of Agriculture project known as the Ojai Community Defense Zone or CDZ, a NEPA compliant project. The Environmental Assessment for the CDZ lists operational constraints that apply to the U.O.W.P.Z. project, such as: no fuel breaks activity within 328 foot wide riparian conservation area for Sisar Creek (measured from the streambed high water mark on both sides of the creek bed); a limited operating period of September through January; site surveys to be conducted when working outside the limited operating period; and biologist directed vegetation removal to retain suitable habitat characteristics for breeding. Burning of piles will be done in coordination with Ventura County Air Pollution Control District by burn permit. In addition site surveys will be conducted for cultural assets within the project area as access is created by ongoing work.	NOE	
2007078293	Safety-Kleen Systems, Inc., Fresno Branch, Hazardous Waste Storage Facility Permit Renewal Toxic Substances Control, Department of Fresno--Fresno The Safety-Kleen Systems, Inc., Fresno Branch is a permitted hazardous waste storage facility. The Hazardous Waste Facility Permit was last issued on October 10, 1996. The permit renewal allows the facility to continue operations for the next 10 years.	NOE	
2007078294	Salton Sea Accessibility Modifications Parks and Recreation, Department of --Riverside The purpose of the project is to modify the campground, day use area, and Visitor Center at Salton Sea SRA so that they meet the requirements of the Americans with Disabilities and the CA Building Code. Project would include minor site improvements such as additions of or modifications to parking, benches, fire rings, tables, BBQs, water stations, water fountains, curbing, concrete pads, and other associated utilities and amenities. 2006041096	Yucaipa Freeway Corridor Specific Plan Yucaipa, City of Yucaipa--San Bernardino The Yucaipa Freeway Corridor Specific Plan is a land use, policy and regulatory document to guide the development of the 1,234.3-acre Yucaipa Freeway Corridor Specific Plan area in the City of Yucaipa. Designated land uses in the Specific Plan include Residential, Community Commercial, Regional Commercial, Business Park, Public Facilities and Open Space.	EIR	09/10/2007
2004042109	Colusa Casino Expansion Supplemental Environmental Evaluation Cachil Dehe Band of Wintun Indians Colusa--Colusa The proposed project will consist of expansion of the existing hotel with an additional 85 guest rooms and other amenities as well as expansion of the existing casino on trust land of the Colusa Indian Reservoir. The Supplemental Environmental Evaluation assesses the potential for off-site reservation environmental impacts to occur due to changes in the expansion plan presented in the Environmental Evaluation completed in 2004.	FIN	
2007062015	Arroyo Creek Vineyards - Vineyard Conversion #P06-0099-ECPA Napa County Conservation Development & Planning Department Napa--Napa The project includes earthmoving activities and installation and maintenance of erosion control measures associated with development of 32.2 acres of new vineyard (27 net vine acres), on a parcel totaling 86.09 acres. The site plan designated nine vineyard blocks on topography that ranges from gentle to moderately sloping lands (typical slopes from 10% to 24%), at elevations between approximately 160 and 400 feet above mean sea level.	FIN	
2007072108	TPM2006-0006 (Whatley) Yuba County --Yuba A request to create nine lots from two parcels totaling 185 acres located on the south side of Hammonton- Smartsville Road within the River Highlands Community Plan. The site is approx. two miles west of the Hammonton-Smartsville Road and Smartsville road intersection. The division of land will create parcels ranging in size from 20.04 to 22.02 acres. The project site is currently undeveloped land. The project would allow for the development of nine single-family residences.	MND	08/24/2007
2007072110	Dexter Canyon Ponds Fish & Game #7 --Mono The proposed project is associated with the issuance of a Lake or Streambed Alteration Agreement (LSAA) by the Department to Adobe Valley LLC, pursuant to Section 1600 et. seq. of the California Fish and Game Code. The LSAA would authorize alterations to Dexter Creek and Wet Creek, including construction of two water diversions to fill seven ponds, to be located upstream of the confluence of Dexter Creek and Wet Creek.	MND	08/24/2007

2007071143	Calzada del Bosque School Rancho Santa Fe School District --San Diego Construction of a new school called the Calzada del Bosque School at 16121 Via De La Valle for grades K-8, which would entail closure of the existing Rowe Elementary School or construction of an upper school at 16121 Via De La Valle and minor modifications at Rowe Elementary school as a K-4. Maximum student capacity districtwide would be 1,100 students.	NOP	08/24/2007
2007071145	New Leaf Homes Los Angeles, City of --Los Angeles The applicant proposes to construct 11 new homes and remodel 5 partially completed homes on this 3.9 acre site. In addition, improvement of 0.7 acre of public streets is proposed.	NOP	08/24/2007
2007071146	Upper Chiquita Reservoir Emergency Storage Project Santa Margarita Water District Rancho Santa Margarita--Orange The proposed project would include development of an earthfill dam structure and a covered, domestic water reservoir with a storage volume of 720 AF within the City of Rancho Santa Margarita north of Oso Parkway and west of the current terminus of State Route 241. The reservoir footprint would be approximately 19.7 acres with a surface area of approximately 15.4 acres and would have a High Water Level of 860 feet. The overall permanent disturbance area for the project would encompass approximately 27 acres. Temporary impact areas (including borrow areas, construction staging and work areas) would require an additional 18 acres for a total project impact area of approximately 45 acres. In addition to the proposed dam and reservoir, the project also proposes the following facilities and pipelines: a pump station, disinfection equipment, and pipeline connection to the South Orange County Pipeline.	NOP	08/24/2007
2007072105	Altamont Motorsports Park Project (2248th Zoning Unit) Alameda County --Alameda The applicant has applied to Alameda County to change the zoning of the site from the A (Agriculture) District to the PD (Planned Development) District to regulate the continued operation of this motorsports facility. Also included in the proposed project are improvements and upgrades to the facility, including constructing a grandstand cover and adding two electronic LED signs to the site. The proposal would also clarify and define certain aspects of the 1996 Conditional Use Permit under which the motorsports facility currently operates, including allowable facility events, event scheduling, and event parking. No new buildings or racing venues on or off the property are being proposed as part of this application.	NOP	08/24/2007
2007072106	Computational Research and Theory Facility University of California, Regents of the Alameda--Alameda Lawrence Berkeley National Laboratory (LBN) proposes to construct an approximately 150,000 gross square foot computer facility and office structure, associated infrastructure, and access improvements. The project site is located in the western portion of LBNL in Berkeley, Alameda County, California. The facility would accommodate up to approximately 300 employees.	NOP	08/24/2007

2007072107	Helios Energy Research Facility University of California, Regents of the Berkeley--Alameda LBNL is proposing to construct a new 160,000 gross square foot, 4-story research facility that would house research programs focused on alternatives and renewable energy sources. The need for this research facility has been determined through analysis of global effects of consumption of fossil fuels and the need to discover alternative forms of energy.	NOP	08/24/2007
2007072111	651 Addison Street Mixed Use Project Berkeley, City of Berkeley--Alameda The 651 Addison Street Mixed Use Project would involve the construction of a 5-story, mixed-use housing project with street level commercial. The proposed building would consist of 94 residential units, approximately 3,100 square feet of commercial space, and a 102-space parking garage. The proposed project would be comprised of four stories of residential, with the ground floor comprised of commercial spaces, a parking garage, and a residential lobby. The residential component of the project would consist of a mixture of unit sizes, including 21 two-bedroom units, 51 one-bedroom units, and 22 studio units, for a total of 94 units. The project would also feature landscaping and open space features including an Aquatic Park Connection Streetscape Improvements.	NOP	08/24/2007
2007071144	Sewer Pipeline Replacement Project- Phases I, II, and III Cutler Public Utility District --Tulare The project consists of the rehabilitation or replacement of approx. 20,000 feet of the District's original 1960 sanitary sewer collection system pipelines.	Neg	08/24/2007
2007071147	Tentative Tract Map 35455 Riverside, City of Riverside--Riverside The applicant is proposing to subdivide two vacant parcels totaling 25.94 acres into six lots for future development with six single-family residences. No specific development plans have been submitted in conjunction with this subdivision. Five of the parcels average 5.1 acres in total, while the sixth parcel will be 0.5 acres in size. Preliminary grading plans show that each of the six parcels can be developed with buildable pad sizes. Lots 1, 2, and 3 will take vehicular access via individual curb cuts from Cook Avenue to the north, while lots 4, 5, and 6 will take individual access from California Avenue. The areas outside of the graded pads will be held in a conservation easement to prevent them from being developed in the future.	Neg	08/24/2007
2007072109	Contra Costa County Public Safety Command Center Contra Costa County Community Development Martinez--Contra Costa Three story, public safety building. Building will be 84,000 sq. ft., will contain 180 +/- seat lecture hall, and 137 parking spaces to a total of 477 spaces.	Neg	08/24/2007
1987122222	Yolanda Avenue Widening Project Santa Rosa, City of Santa Rosa--Sonoma The Yolanda Avenue Widening Project between Santa Rosa Avenue on the west and Petaluma Hill Road on the east (a distance of about 2,800 feet) is to include the acquisition of additional right-of-way, and roadway widening consisting of one 12 foot wide travel lane in each direction with a center 12 foot wide two-way left	SIR	09/14/2007

	turn lane. Five-foot wide bike lanes area also to be constructed on both sides of the road with a concrete curb and gutter and storm drain on the north side. In addition, an asphalt curb and five foot wide asphalt walkway is to be constructed on the south side of the road to control runoff and provide for pedestrian movement.		
1994071005	Extension of Tustin Ranch Road Tustin, City of Tustin--Orange The Operator proposes to alter the streambed and bank by developing ~820 acres of land in four phases within a portion of the former MCAS Tustin military facility. Approximately 185 acres of the site is approved by the City of Tustin to include 2,105 residential units. Approximately 234 acsrse of the site is approved for 6.7 million square feet of commercial development, including employment-oriented uses and a 16-acre neighborhood shopping center to serve local residents. In addition, the project would include approximately 170 acres of public and private parks and open space, as well as a new high school and a new elementary school, and infrastructure improvements.	NOD	
1999062020	Placer Vineyards Specific Plan Supplement to Final EIR (PEIR T20040651) Placer County Planning Department The Placer Vineyards Specific Plan project is a mixed-use master planned community with residential, employment, commercial, open space, recreational and public/quasi-public land uses. The Plan provides for 14,132 homes in a range of housing types, styles, and densities. At Plan build out, projected to occur over a 20 to 30-year time frame, Placer Vineyards will have a population of approximately 33,000 people, 274 acres of commercial uses, 641 acres of quasi-public (public facilities/services, religious facilities, schools, and major roadways) land uses, and 919 acres of new parks and open space.	NOD	
2003051126	Newport Trunk Sewer and Force Main Replacement Project Orange County Sanitation District Huntington Beach, Newport Beach--Orange The Operator proposes to alter the stream by replacing the existing 8- and 12-inch gravity lines with two 36 inch High Density Poly Ethylene forced mains under the Santa Ana River. The forced mains will be installed within a 96-inch steel casing under the river using the micro-tunneling method. Open trench method will be used to install the forced mains from the Bitter Point Pump Station up to the east bank of the Santa Ana River. Open trenching will be conducted wthin the existing 30-foot-easement along the raised service road that bisects the SAR Marsh from the oil fields to the bike path along the Santa Ana River.	NOD	
2003061139	State Route 79 North Widening Riverside County Transportation & Land Management Agency Murrieta--Riverside Widening of State Route 79 North from two lanes to four lanes between Thompson Rd. and Whispering Heights Parkway. Improvements to provide 4 continuous lanes will be done in two segments totaling 0.6 miles to fill in the gaps in between improvements constructed by private developments. The proposed project would also include culvert extensions to accommodate the widening and several retaining walls to keep the improvements within the existing right of way.	NOD

2007071151	700 Stevens Project Solana Beach, City of Solana Beach--San Diego The proposed project consists of a new 16,740 sq. ft., two story office building with one level of subterranean parking on a vacant parcel located within the General Commercial Zone (C). The lot exists at 0.6 acres. The proposed project includes the development of a two story office structure with approx. 8,370 sq. ft. for each of the first and second stories. Parking for the project would be supplied by 33 surface parking spaces and a 34 space subterranean parking structure. The construction of the subterranean parking structure would require excavation of approx. 3,400 cubic yards of material (2,500 cubic yards of export and 900 cubic yards of fill). The maximum height of the proposed project is approx. 35 feet.	MND	08/27/2007
2007071152	ZC #07-0004, MERG #00093, LLA #00221 Imperial County Planning Department --Imperial The applicant, ERA Investment Group, Inc., proposes a Zone Change, Lot Merger, and a Lot Line Adjustment in order to develop a Truck Stop and two out parcels. The Truck Stop would consist of an ARCO fueling station and an AM/PM Mini Market. The fueling station will serve commercial trucking traffic, off road enthusiasts, and vehicle traffic along Highway 86. The project site would contain 18 diesel pumps, 10 gasoline pumps, and 10 dump stations. The site will also contain a large parking area for trucks, cars, and recreational vehicles. There will be no overnight parking allowed for any vehicles.	MND	08/27/2007
2007071157	Fairway Business Park, General Plan Amendment No. 2007-03 Lake Elsinore, City of Lake Elsinore--Riverside The project proposes a Tentative Tract Map and General Plan Amendment for an 18-acre business park development. The proposed project site would consist of 279,445 square feet of light industrial uses. Building heights will vary in height from 24 feet to 32 feet. The project would be built in three phases, with buildings M-V in the first phase, buildings E-L in the second phase and buildings A-D in the third phase. Currently, the City of Lake Elsinore General Plan designates the project site as Business Park and the entire site is zoned M-1 Limited Manufacturing. The project includes an amendment to the City's Circulation Element of the General Plan for the purposes of realigning Pasadena Street around the project site. The project would realign Pasadena Street from between 3rd Street and Chaney Street to east on 3rd Street between Pasadena Street and West Minthorn Street and south on West Minthorn Street between 3rd Street and Chaney Street. Site development will include rough grading, underground utility installation, street construction, and concrete drive/sidewalk placement. Proposed improvements include the widening of Chaney Street along the project frontage and construction of a storm drain system to convey the stormwater generated by the project through the site to one of three storm drain outlets to the Lake Elsinore Channel. Prior to discharge into the Lake Elsinore Outlet Channel, water would be retained in a bio-swale located along the southwestern edge of the project site parallel to the channel. As a condition of approval, the City may require construction of a fourth storm drain outlet structure within the tributary to the Lake Elsinore Outlet Channel. This feature would correct existing drainage problems located offsite near 3rd Street.	MND	08/27/2007

2007071149	Ketchum Ranch San Diego County Department of Planning and Land Use --San Diego The project is an application for a General Plan Amendment, a Specific Plan, a Rezone, a Vesting Tentative Map, a Major Use Permit, a Site Plan, and an Administrative Permit to allow for the development of a master planned community on an approx. 1,250 acre site adjacent to the Town of Jacumba. The project proposes a maximum of 2,125 residential units, retail commercial development, agriculturally zoned land, an elementary school site, a public neighborhood park, a recreational center, dedicated open space, a sewer treatment facility, flood control channels, and associated infrastructure and utilities necessary to support the project.	NOP	08/27/2007
2007071153	San Jacinto River Ecosystem Restoration Eastern Municipal Water District San Jacinto--Riverside The proposed project will evaluate an approximate 2-mile reach of the San Jacinto River located in Riverside County within the City of San Jacinto, Ca. The focus will be on watershed improvements by developing alternatives for ecosystem restoration and incorporating conjunctive uses for groundwater recharge, water quality, and water conservation from approximately 4,000 feet southeasterly of Lake Park Drive. The restoration project will focus on revitalization of the riparian vegetation community; establish an environmental corridor to benefit wildlife and sensitive species; increasing recharge in the San Jacinto groundwater basins; and restoring the habitat for the endangered San Bernardino Kangaroo Rat.	NOP	08/27/2007
2007071155	University Hills Specific Plan EIR San Bernardino, City of San Bernardino--San Bernardino The project proposes 980 residential units on 159.3 acres within a site that encompasses 404.2 acres. Housing densities range from 3.2 up to 20 units per acre with a gross density of 2.4 units per acre and a net density of 6.1 units per acre. This document will be a Supplemental EIR to the Paradise Hills Specific Plan EIR (SCH# 1991012055). Compared to the previously approved project, the University Hills project proposes to concentrate units mainly below or south of the San Andreas Fault which traverses the site, and eliminates units in upper Badger Canyon. The project contains 7 acres of developed parkland/trails and 245 acres of natural open space.	NOP	08/27/2007
2007071156	The Home Depot Thousand Oaks, City of Thousand Oaks--Ventura Development Permit and Landmark Tree Permit applications have been submitted by Home Depot to allow the demolition of a former K-Mart store and in-line building and the construction of a new home improvement store on a 10.11-acre parcel at 325 Hampshire Road in the Westlake Village portion of Thousand Oaks. Also associated with the proposal is a Landmark Tree Permit application to allow encroachment within the protected zone of one California sycamore tree. The proposal involves the demolition of the existing 109,000 square foot K Mart building, as well as 12,360 sf of in-line shops and the parking lot. After the demolition has taken place, the applicant proposes to construct a 96,973 sf Home Depot building with an attached 13,669 sf outdoor garden center for a total of 110,642 sf in approximately the same location as the existing building. 	single-family residential neighborhood, a park, a natural trail network, and open spaces. The community is anticipated to include up to 136 traditional detached single family residential homes, with the possibility of one additional home per a submitted alternative. The single family residential homes will be built on 148.33 acres at an average density of slightly less than one unit per acre with lot sizes up to approximately two acres. A total of approximately one acre of parkland and approximately 30 acres of open space will be dedicated to the City of Plymouth as part of this proposed project.		
2007071154	Chittenden Pass Realignment Caltrans #5 Watsonville--Santa Cruz The California Department of Transportation (Caltrans) proposes to realign State Route 129 in an area known as Chittenden Pass and Pajaro Gap in Santa Cruz County approx. eight miles east of the City of Watsonville. This project would remove a compound curve and replace it with one curve. This curve correction would require the existing retaining wall to be removed and replaced with a soldier pile retaining wall. The purpose of the project is to improve safety for the traveling public on this portion of Route 129. This project is needed because the current total accident rate of 7.87 accidents per million vehicle miles (ACCS/MVM) is nearly six times the statewide average of 1.34 ACCS/MVM for similar facilities.	Neg	08/27/2007
2007072112	Wildlands Road Abandonment (ZF #2007-030) Yolo County Woodland--Yolo The proposed project is a request to abandon County Road 107A and a portion of County Road 16 in order to restrict unauthorized public access to private property. The project site (Sacramento River Ranch) encompasses 3,026 acres and is bounded by the Sacramento River and the Yolo Bypass. The Fremont Weir is adjacent to the project area at the confluence of the Feather River, northwest of CR-16 and CR-107, the levee road right-of-way. The project proposal includes public improvements at the proposed terminus of CR-16 to facilitate vehicle turnaround, with a padlocked gate accessible for managing agencies and individuals with legal rights to pass. Both the project area and the Yolo Bypass are accessible via CR-117 and CR-107. Abandonment of CR-107A and a portion of CR-16 will require a Planning Commission recommendation to the Board of Supervisors for approval.	Neg	08/27/2007

	Ordinance Code.		
2007072119	Phillipsville Community Services District Water Infrastructure Upgrade Project Phillipsville Community Services District --Humboldt In order to comply with safe drinking water standards, provide emergency storage capacity, and meet the expected increase in demand, upgrades to the existing water transmission, treatment, and storage facilities are needed. The project includes rehabilitating the existing well and springhead; install a new 5,000 gallon chlorine contact basin; construct a new 100,000 gallon storage tank; install new buried pipelines to replace existing ones; and replace components of the transmission lines and water services along Phillipsville Road, the Avenue of the Giants, Spring Canyon Lane, Ascending Lane, and Rock Pit Lane.	Neg	08/27/2007
2007072120	TTM 07-1002 7 PDUP 369 Red Bluff, City of Red Bluff--Tehama The proposed project would subdivide two (2) existing lots, totaling +-5.11 acres, (APN 035-020-022 & 035) into twenty-two (22) lots. The lots would range in size from 4,782 to 17,810 square feet. The subdivision would be accessed via South Jackson Street. A single access/egress road would traverse the northern boundary of the project site. This primary access would connect to an internal cul-de-sac, which would provide access to the proposed lots. Sewer and water will be supplied by municipal providers. Stormwater for the developed lots will enter drains that connect to the City stormwater system. Existing sanitary sewer, potable water and stormwater system infrastructure is adjacent to the site within the South Jackson Street right-of-way.	Neg	08/27/2007
2007071160	State of California Multi-Hazard Mitigation Plan Emergency Services, Office of -- The State Hazard Mitigation Plan (SHMP) is the official statement of California's statewide hazard mitigation goals, strategies, and priorities. The goals of this updated plan are to significantly reduce life loss and injuries and minimize damage to structures and property from disasters, protect the environment, and promote hazard mitigation as an integrated public policy, i.e., create safer communities and state. The SHMP was approved by FEMA and published by OES as a Standard State Hazard Mitigation Plan in November 2004 under the terms of Interim Final Rule (44 CFR 201) for administration of the Disaster Mitigation Act of 2000 (DMA 2000, P.L. 106-390), and is required to be updated every three years.	Oth	09/07/2007
2004042148	Del Paso Regional Park Detention and Filtration Wetland Project (CIP#LV96) Sacramento, City of Sacramento--Sacramento The California Dept. of Fish and Game is executing Lake or Streambed Alteration Agreement Number 1600-2007-0176-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Sacramento, Department of Utilities. The proposed Del Paso Regional Park Detention and Filtration Wetland Project includes construction of a stormwater detention basin in Del Paso Regional Park with associated trail and parking improvements. 2006021007	<p>San Luis Rey Municipal Water District Water, Wastewater & Recycled Water Services Master Plan Draft Program EIR San Luis Rey Municipal Water District --San Diego</p> <p>A Program EIR will evaluate the potential impacts to the environment from the proposed SLRMWD Water, Wastewater, and Recycled Water Master Plan (Master Plan). The Master Plan proposes the following components: approximately 53.7 miles of water and wastewater pipelines, five potable water storage reservoirs, six pressure reducing stations, two turnout connections, two lift stations, one wastewater treatment plant, a recycled water pump station, and two recycled water reservoirs. The Master Plan infrastructure would serve anticipated development within the study area at over twice the level of development designated by the currently adopted County of San Diego General Plan. Implementation of the Master Plan would require certain actions by the San Diego Local Agency Formation Commission, and potentially other water agencies.</p>	FIN	
2007071161	<p>Highland Crossings- Conditional Use Permit 007-003 Highland, City of Highland--San Bernardino</p> <p>The proposed project includes the development of approx. 205,993 sq. ft. of commercial space and a 728 space parking lot and landscaping. The project includes the dedication of right-of-way and construction of street improvements along Greenspot Road, including a raised median; reconstruction of the north bound SR-30/210 Freeway ramp at Greenspot Road, including the relocation of an existing traffic signal; construction of an intersection that will serve as the primary shared entrance to the site and an adjacent proposed project to the east; and installation of utility, water, and sewer laterals. Stormwater will be conveyed to an underground retention/ detention basin located on site. The project's storm flows would be filtered and discharged to an existing 48 inch reinforced concrete pipe located on adjacent SR-30/210 Freeway right-of-way that drains to City Creek and the Santa Ana River. The proposed project would reconfigure the site's four existing parcels into five parcels and relocate a fifth parcel owned by the San Bernardino County Flood Control District for continued access to adjacent District facilities.</p>	MND	08/28/2007
2007071163	<p>San Luis Creek Bypass Silt Removal (ER 90-07) San Luis Obispo, City of San Luis Obispo--San Luis Obispo</p> <p>In 1978 the City constructed a high flow bypass channel for San Luis Obispo Creek near Los Osos Valley Road. This bypass channel allows larger flows (flows greater than a 10 year event) with an alternate path of travel than the natural stream channel. Since 1978 little maintenance has been performed on the bypass channel and the channel now has large deposits of silt and excess vegetation which do not allow the channel to perform as designed. The project will remove approx. 3,500 cubic yards of sediment and thin existing vegetation. The project area is approx. 400 feet by 70 feet (0.65 acres). The anticipated depth of silt to be removed is 3.5 feet. During the excavation, islands of vegetation will remain and after the excavation is complete the disturbed area will be seed cast in order to expedite vegetation growth. The removed silt will be trucked out of the project area outside of the flood plain. In order to remove the material, the contractor will be allowed to deposit the material on City property (25 Prado Road). The contractor will also be allowed to take the material to other locations as long as the other site is approved by the City Engineer.</p>	MND	08/28/2007

	of legal nonconforming setback. The project site is located on a coastal canyon and abutting a designated historic structure within the Residential Low (RL) zoning district.		
2007051071	<p>Enchanted Heights Wastewater Collection System Eastern Municipal Water District Unincorporated--Riverside Eastern Municipal Water District proposes to construct a gravity wastewater collection system to serve the Enchanted Heights service area. The gravity system will consist of laterals to residences, mainline piping and manholes, and a lift station.</p> <p>The laterals to be constructed as a part of this project will be for only that portion of the lateral that is not on private property and will connect with a wye to the top of the mainline. The mainline will consist of an 8-inch diameter PVC pipeline that will be placed on the opposite sides of the streets from the existing water main and will be laid on a downward slope so that the wastewater flows by gravity. Manholes will be placed at regular intervals to allow cleaning and maintenance access. The lift station will consist of a wet well to collect the wastewater and pumps to lift the wastewater to a point so that it can be discharged back into another gravity sewer for transport to the treatment facilities.</p>	NOD	
2007052078	<p>Central Avenue - Murray Road Safe Routes to School Project, McKinleyville, California Humboldt County --Humboldt The proposed project consists of sidewalk construction and shoulder widening along portions of Central Avenue and Murray Road. The project will improve safety for pedestrians, bicyclists, and motorists by widening the transportation corridor and providing a separate walkway adjacent to the roadway.</p>	NOD	
2007061006	<p>Las Flores Canyon Creek Restoration & Las Flores Creek Park Project Malibu, City of Malibu--Los Angeles The project proposes the following: (1) ecological restoration of approximately 3.7 acres of Las Flores Canyon Creek, including removal of existing hard bank (grouted rock) protection, reducing the slope of streambanks where feasible, providing floodplain habitat enhancements, providing in-stream structures for grade control and habitat, removing non-native vegetation, and planting with native species; (2) enhancement of approximately 4.4 acres of park area located in the area between the creek and Las Flores Canyon Road, including installation or replacement of picnic facilities, a public restroom, pathways, and children's play areas, with additional enhancements along Rambla Pacifico Road, including parking, walkways, and a pedestrian bridge across the creek; and (3) dismantling and removing existing and remnant structures, including a house, garage, and various foundation and chimney structures. The City's Local Coastal Program Local Implementation Plan indicates that environmentally sensitive habitat area (ESHA) is mapped on virtually all of the property involved in the project due to the location of Las Flores Canyon Creek. Therefore, all project activities would take place in ESHA or ESHA buffer. The project as designed is expected to result in net benefits to ESHA and increase public access to coastal resources.</p>	NOD

2007078332	<p>Caltrans Cafeteria and Tenant Improvements Caltrans, Planning Sacramento--Sacramento</p> <p>The Department of General Services/Real Estate Services Division, on behalf of Caltrans, proposes to make tenant improvements at the Caltrans headquarters building located at 1120 N Street in Sacramento. The tenant improvements will be interior only on the first and sixth floors of the main building. The tenant improvements proposed for the first floor will involve approximately 4,000 square feet and renovate the current office space to house a servery, dining room(s), a commercial kitchen and a snack bar. The proposed tenant improvements for the six floor involve converting the current kitchen area, approximately 5,000 square feet, into office space.</p>	NOE	
2007078333	<p>Installation oof Landfill Gas Monitoring Probe at the Western Regional Sanitary Landfill Western Placer Waste Management Authority Lincoln--Placer</p> <p>The project consists of the addition of one (1) landfill gas monitoring probe to an existing gas collection, monitoring, and flaring system. The probe will be located along the western boundary of the landfill, near the existing Probe GM-9 and adjacent to Module 16. The probe will be approximately 45 feet deep and constructed with 1" PVC pipe. The lower 10 feet of PVC will be slotted, backfilled with sand, and sealed with bentonite grut. The boere will be filled with mortar and finished with a 10" by 3' steel riser with locking lid and concrete pad.</p>	NOE	
2007078334	<p>Upper Truckee River Restoration Property Acquisition Grant (Tahoe Pines Campground) Tahoe Conservancy --El Dorado</p> <p>Authorization to grant funds to the California Wildlife Foundation to acquire 8.1 acres of land; for the demolition of certain improvements; and to transfer property to the State of California for management as part of the California Tahoe Conservancy's Stream Environment Zone/Watershed Restoration and Public Access programs.</p>	NOE	
2007078337	<p>Six Class 2 Permit Modifications for Hazardous Waste Management at Lawrence Livermore National Laboratory Toxic Substances Control, Department of Livermore--Alameda</p> <p>DTSC has approved six Class 2 Permit Modifications for hazardous waste management activities at the Decontamination and Waste Treatment Facility (DWTF). DTSC issued a Hazardous Waste Management Permit for the DWTF to LLNL in May 1999, which was effective in November 1999. These six permit modifications accomplish the following:</p> <ol style="list-style-type: none"> 1. Discontinue the use of one of the two Shredder/Chopper Units and administratively close this unit; 2. Move the Solidification Unit from Building 695 (B695) Room 1036 to B695 Room 1038; 3. Discontinue the use of the Gas Absorption System (GAS), partially close it, and remove it from the Liquid Waste Processing Area in B695, Room 1028; 4. Install a removable walk-in fume hood in B695 Room 1025; 5. Increase Small-Scale Treatment (SST) capacity from 0.04 short tons per day 	NOE

2007042021	Richard Moore Use Permit and Reclamation Plan (UP-06-11 / RP-06-01) Siskiyou County Planning Department --Siskiyou The applicant is requesting an amendment to an existing Use Permit and Reclamation Plan to expand the existing open-pit, gravel skimming quarry from 55.5 acres to a total of 133 acres. An additional 2,100,000 cubic yards of dredger tailing piles are planned to be harvested seasonally over a 30-year mine life with annual production estimated at 30,000-200,000 cubic yards. Quarry activities would be divided into 5 phases with each phase being completed prior to the start of the next phase. Rock screening, crushing, stockpiling, and material export are planned to be located within the existing material processing area. Reclamation would include the creation of ponds and wetlands, re-vegetation, and the construction of river levees in preparation of the site as open space.	NOD	
2007042155	Granite Construction- Rio Del Oro Mining Rancho Cordova, City of Rancho Cordova--Sacramento The applicant is requesting approval of an Aerojet Special Planning Area (SPA) Implementation Permit and a Reclamation Plan to allow for surface mining and the commencement of processing operations on the site. The project proposes the mining, processing, and export of tailings which were created by previous gold dredge mining operations on the project site. Approx. 600 acres of the 1,300 acre site is expected to be disturbed. Some or all of the material mined from the site may be processed by a portable crushing and screening plant that will work its way across the project site as the operation progresses. Material from the site will be loaded into transport trucks and weighed at an on-site scale house, located at an on-site staging and sales area before entering onto either Douglas Road or White Rock Road.	NOD	
2007052002	Lorraine Krolosky, Karla Filler, Suzanne Blick Siskiyou County Planning Department Montague--Siskiyou The applicants are requesting Zone Change and Tentative Parcel Map approval to create four parcels 20.14, 20.04, 20.03, and 20.14 acres in size.	NOD	
2007052047	Paul Hurley and Cynthia Cummins (Zone Change, Tentative Subdivision Map) Siskiyou County Planning Department --Siskiyou Tentative Subdivision Map: The applicants propose a Tentative Subdivision Map to divide 38.7 acres, creating a 18-lot subdivision. The site was previously approved for a 42-lot subdivision under TSM 95-01. The applicants propose a phased development. Phase I would recreate Lots 6 and 9. Phase II would create Lots 13 through 15. Phase III would complete the final project.	NOD

	bridges has deflected the flow into the left bank of the stream downstream of the bridges and caused substantial bank erosion.		
	The eroded left bank, in the area extending about 60 feet downstream from the bridge, will be reconstructed and recontoured to reduce the sharp bend which has developed to a more gentle curve. Rock rip-rap will be placed to height of about three feet above the bed of the stream to establish the alignment of the low flow channel. The area between the rock rip-rap and the eroded bank will be backfilled with a clean compacted fill and heavily planted with native riparian vegetation.		
	Sediment removed from the stream will be sorted and all gravel and rock larger than one inch in diameter will be redistributed in the streambed. Fine materials will be removed from the stream and relocated to landscape areas on the campus. Issuance of a Streambed Alteration Agreement Number 1600-2007-0230-3 is pursuant to Fish and Game Code Section 1602.		
2007078360	1319 West Dry Creek Road Access Bridge Fish & Game #3 Healdsburg--Sonoma Construction of a railcar free-span bridge across a seasonal reach of Pine Ridge Canyon Creek. The proposed bridge will have the abutments constructed above the level of top-of-bank and will be designed to pass the 100 year flow unimpeded. Issuance of a Streambed Alteration Agreement Number 1600-2007-0224-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078361	Adobe Creek Streambank Stabilization Fish & Game #3 Petaluma--Sonoma Protect an eroding 7-foot tall, 70-foot long section of bank on the outside of a meander on Adobe Creek at Petaluma State Historic Park. The erosion of the creek bank is threatening an important archeological site. The eroded creek banks will be graded back to a 1.5:1 slope. A toe-trench for rip-rap will be excavated at the toe of the bank using an excavator operated from the top of the bank, and ~186 cubic yards of rock rip-rap will be placed in the toe trench and along the resloped bank. The finished profile of the stream banks will match the existing adjacent slopes. Live willow stakes will be planted in a high density in the voids between the rip-rap. Issuance of a Streambed Alteration Agreement Number 1600-2007-0228-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2007078362	Hinebaugh Creek Sediment Removal Project - Hwy. 101 to Laguna de Santa Rosa Fish & Game #3 Rohnert Park--Sonoma Sediment and vegetation growing in the bed of Hinebaugh Creek between Hwy. 101 and the confluence with the Laguna de Santa Rosa just downstream of the Rohnert Park Expressway will be removed with an excavator, bulldozer, or front loader operating in the dewater channel. Approximately 11,600 yards of sediment will be removed and hauled off-site to the Sonoma County Central Landfill. Issuance of a Streambed Alteration Agreement Number 1600-2007-0315-3 is pursuant to Fish and Game Code Section 1602.	NOE

2007078363	Petaluma Channel Maintenance Projects Fish & Game #3 Petaluma--Sonoma Restore the hydraulic and flood control conveyance capacity of E. Washington Creek, while also improving the potential to provide aquatic habitat in a defined low flow channel with increased riparian canopy. The project will include removal of accumulated sediment, vegetation management, and planting of native riparian vegetation.	NOE	
2007078364	PG&E Pipeline Excavation in Stony Creek 1600-2007-0165-R2 Fish & Game #2 Orland--Glenn Excavation of a trench cross-section of the streambed of Stony Creek to facilitate removal of a partially exposed natural gas distribution pipeline that crosses the creek.	NOE	
2007078365	Routine Stream Maintenance Fish & Game #2 Oroville--Butte Routine Stream Maintenance within unnamed storm drains and storm ditches with the City of Oroville. The City of Oroville proposes to clean the bottom of storm drains/ditches with a loader bucket. The City also proposes to "spot spray" some channel bank areas.	NOE	
2007078366	Harris Residential Accessory Dwelling Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a residential accessory dwelling on 2.0+/- acres in the AR-2 zone.	NOE	
2007078367	Pillar Point Source Identification; Clean Beaches Initiative No. 503 State Water Resources Control Board --San Mateo The applicant is conducting a Project to assess and identify all possible sources of fecal pollution in Pillar Point Harbor by collecting water samples, and analyzing data. The project will also recommend remediation to prevent further contamination and to improve water quality within the watershed.	NOE	
2007078368	Total Maximum Daily Load Agricultural Operator Voluntary Program (No. 06-280-558-0) State Water Resources Control Board, Division of Clean Water Programs --Riverside The project addresses a voluntary Total Maximum Daily Load program for all agricultural operators in San Jacinto watershed.	NOE	
2007078369	Common Landowner Transfer of up to 6,000 a.f. of Tulare Lake Basin Water Storage District 2007 State Water Project Table A Water to Westlands Water District Water Resources, Department of --Kings The Tulare Lake Basin Water Storage District is a State Water Project contractor. The proposed project is the transfer by TLBWSD of up to 6,000 af of 2007 Table A Water to Westlands Water District for Westlake Farms, who farms in both Districts. The transfer will be completed in 2007, and is to enable both WWD and TLBWSD users to better manage their respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped.	NOE

2007088001	Shasta Forest Fire Station - Emergency Generator Installation Forestry and Fire Protection, Department of Redding--Shasta This project is located within the 3.9-acre state-owned land parcel that currently functions as the California Department of Forestry and Fire Protection (CAL FIRE) Shasta Forest Fire Station, also known as Station 58. The address of this property is 16064 Homestake Road, Redding CA 96033. The project will consist of pouring a 10 x 12 foot concrete pad and installing a backup emergency generator. There will be approximately 100 feet of trenching to connect this new emergency backup generator to the Liquid Propane Gas Tank and to the barracks.	NOE	
2007088002	Adoption of the Perchlorate Maximum Contaminant Level (MCL) by the California Department of Public Health Health Services, Department of -- The California Department of Public Health (CDPH) is statutorily responsible for regulating public water systems and for establishing primary drinking water regulations with which public water systems must comply. CDPH has adopted a primary drinking water standard for perchlorate at a level as close as feasible to the corresponding public health goal placing emphasis on the protection of public health to the extent technologically and economically feasible.	NOE	
2007088003	Conditional Use Permit CUP07-009 Tuolumne County Community Development Dept. --Tuolumne Conditional Use Permit CUP07-009 to allow use of the attached garage of the single-family residence on proposed Lot No. 39 as a temporary sales office for the Sierra Meadows Subdivision. The 8.0 +/- acre parcel is zoned R-2 (Medium Density Residential) under Title 17 of the Tuolumne County Ordinance Code.	NOE	
2007088004	Install Gate, Fence, and Trail Entrance near Northside School Parks and Recreation, Department of --El Dorado Install a new vehicle gate and fence along the park unit boundary adjacent to the Northside School and repair existing fence. The new vehicle gate and fence are necessary to secure the park unit boundary and eliminate unauthorized vehicle access to the park. Install approximately 480 feet of new fencing and a steel pole gate and repair approximately 80 feet of existing fencing. Fence installation and fence repair consist of pounding steel t-posts in the ground and securing wire along the length of the posts. To install the gate, excavate two postholes approximately 4 feet deep by 1 foot in diameter. Secure gate posts with concrete footings. Install a pass through for trail users adjacent to the new vehicle gate.	NOE	
2007088005	Elder Creek Arundo Removal Water Resources, Department of --Tehama The proposed project will include removal of giant reed (Arundo donax) within the Elder Creek channel in Tehama County. The estimated total area of Arundo to be removed is approximately 0.5 acre. Any burning of Arundo will take place at least 100 feet away from any elderberry shrub. Removal of Arundo would take place between August 1 and October 1 when foliar herbicide applications are most effective. A pest control recommendation for the herbicide(s) to be used will be issued by a Licensed Pest Control Adviser. Multiple applications of herbicide may be necessary over a five year period to eradicate Arundo.	NOE
