STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**
(Formerly SCH NEWSLETTER)

July 16 – 31, 2012

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **July 16 – 31, 2012**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The 2011 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

<u>Documents Received on Monday, July 16, 2012</u>			
2012042018	Castillian Hall Redevelopment University of California Davis--Yolo Note: Tiered from SCH# 2011082014. UC Davis proposes to redevelop the student apartment building complex located at 1440-1460 Wake Forest Drive in Davis, CA. The apartment complex, known as Castilian Hall, is approximately 3.3 acres and was developed in 1968 with two three-story apartment buildings that are currently vacant. The housing complex previously provided housing for 500 first-year and transfer students. The proposed project would consist of demolishing the existing buildings and constructing new apartment buildings to house between 225 to 300 graduate students.	EIR	08/29/2012
2007071036	NBC Universal Evolution Plan Los Angeles, City of Los Angeles, City of--Los Angeles FYI Final The NBC Universal Evolution Plan (the "Project") includes the development of an approximately 391-acre site located in the east San Fernando Valley. The Project, as proposed, would involve a net increase of approximately 2.01 million sf of new commercial development, which includes 500 hotel guest rooms and related hotel facilities. In addition, a total of 2,937 dwelling units would be developed. Implementation of the proposed Project would occur pursuant to the development standards set forth in two proposed Specific Plans.	FIN	
2009014006	San Diego Harbor Maintenance Dredging U.S. Army Corps of Engineers San Diego--San Diego Note: Final available at: http://www.spl.usace.army.mil/Media/PublicNotices/tabid/1320/Article/2272/spl-2012-003-jlc-final-ea-san-diego-harbor.aspx . Note: Review per lead The proposed project would serve the following purposes: 1) restore the channel that is subject to continual shoaling to design depths; 2) assure the continued navigation for marine traffic within the harbor; and 3) provide beach nourishment material for downcast beaches severely eroded by littoral processes. The primary benefits realized from the proposed project would be restoration of design depths and unimpeded navigation within the Federal Channel. Secondary benefits include the replenishment of the beach with placement of dredged material in the near shore to ensure that a pleasant shoreline environment is maintained for the public.	FIN

2012072029	<p>State Route 99/Hammett Road Interchange Reconstruction Project Caltrans #10 --Stanislaus</p> <p>Reconstruct the existing SR 99/Hammett Road Interchange in the community of Salida in Stanislaus County. This would include reconstruction of the overcrossing, on and off-ramps, and certain segments of Hammett Road within the interchange limits. On and off-ramps would be widened to accommodate greater traffic volumes entering and exiting the mainline. The overcrossing would be replaced to accommodate the widening of Hammett Road on the west, and the Hammett Road Extension on the east. The reconstructed interchange overcrossing structure would consist of six-lanes that conform to the Hammett Road widening, and the Hammett Road East Extension.</p>	MND	08/14/2012
2012071057	<p>Vulcan Water Conservation and Flood Control Project Fontana, City of Fontana--San Bernardino</p> <p>The "Vulcan Water Conservation and Flood Control Project" is proposed to be developed as a water recharge and flood control facility on the site that was previously used for aggregate mining operations. The proposed project site is ~60 acres in size, and includes ~42 acres that are currently under the jurisdiction of the County of San Bernardino. The project proposes to annex that area into the City of Fontana and change the General Plan and Zoning land use designation to Open Space-Resource.</p> <p>The primary objective of the water conservation and flood control project is to develop a 2,190 acre foot flood control/recharge basin that is ~2,650 feet long, 980 feet wide and 100 feet deep. The project's physical improvements include grading the existing aggregate mining pit to form the recharge basin and constructing inlets into, and a spillway out of the basin, storm drain conveyance facilities into the recharge basin, as well as recycled water conveyance facilities. The amount of grading and site modification for the proposed retention basin is close to one million cubic yards of balanced cut and fill. The proposed Baseline Box Diversion and Revised Storm Drain involve ~3.4 miles of storm drain construction. The proposed recycled water lines involve ~1.3 miles of construction/installation.</p>	NOP	08/15/2012
2012071058	<p>West Valley Logistics Center (WVLC) Fontana, City of Fontana--San Bernardino</p> <p>The WVLC Specific Plan proposes ~3,600,000 sf of industrial development with 14.8 acres developed as a detention basin and 57.8 acres retained in natural hillside open space. The balance of the site consists of right-of-way dedications.</p> <p>A total of seven (7) industrial buildings are proposed, ranging in size from ~100,000 sf to over 1 million square feet, encompassing a total of ~3.6 million square feet of building area.</p> <p>The proposed Specific Plan would replace the site's existing residential land use designation with an industrial designation, and would remove the recreational facilities and the elementary school from the site's proposed development.</p>	NOP	08/15/2012

2012072028	<p>2012 Draft Marin County Housing Element Marin County --Marin</p> <p>The 2012 Draft Housing Element is an update of the County's' State-certified Housing Element that was adopted initially in November 1991, readopted with the Countywide Plan Update in January 1994, updated in June 2003, and then readopted with the Countywide Plan Update in November 2007. The 2012 Draft Housing Element addresses the requirements of California Government Code 65583, for the planning period from 2007 to 2014. The 2012 Draft Housing element consist of several main sections, each of which addresses a major subject area, including a review of constraints on housing development, an inventory of potential housing sites, and a set of policies and programs to support housing at all income levels.</p>	NOP	08/14/2012
2006062157	<p>California Pacific Medical Center Long Range Development Plan Project San Francisco, City and County of San Francisco--San Francisco</p> <p>Note: Response to Appeal of EIR Certification. NOTE: Comments and Responses 1 CD</p> <p>The California Pacific Medical Center (CPMC) Long Range Development Plan (LRDP), or otherwise referred to as the proposed project, is CPMC's multi-phased strategy to meet State seismic safety requirements for hospitals (SB 1953) and create a 20-year framework and Institutional Master Plan for its four existing medical campuses (Pacific Campus at Sacramento and Buchanan Streets; California Campus at Maple and California Streets Davies Campus at Castro and 14th streets; and St. Luke's Campus at Caesar Chavez and Valencia Streets), and a proposed new medical campus (Cathedral Hill Campus at Van Ness Avenue and Geary Boulevard) in San Francisco. Completion of the proposed Cathedral Hill Campus by 2015 would allow CPMC to consolidate duplicative services at existing CPMC campuses. The existing acute-care services, primary emergency services, and Women's and Children's Center at CPMC's existing Pacific and California Campuses would be relocated to the proposed Cathedral Hill Hospital.</p>	Oth	
1988050215	<p>Silva Valley Parkway Interchange with U.S. Highway 50 El Dorado County --El Dorado</p> <p>The proposed project involves issuance of a Streambed Alteration Agreement for construction of components of the proposed Silva Valley Parkway Interchange Project affecting habitat features under the jurisdiction of DFG. These components include Structure # 3, Structure # 6, Structure # 7, Structure # 11, roadway improvements during construction, and relocation of public utilities.</p>	NOD	
1999021015	<p>Draft Management Plan for Historic Buildings and Archaeological Sites Forestry and Fire Protection, Department of --</p> <p>This project involves the implementation of a Management Plan for the management of historic building and archaeological and historic sites located on CAL FIRE properties throughout the State of California. The Plan was approved in 2001 following Certification of an EIR which addressed the impact to cultural resources. That Plan calls formals updates every 10 years. CAL FIRE has completed the first of the request updates and approved it on July 12, 2012. The</p>	NOD

	Update validates and amends the original Plan and both documents provide guidance to be followed over the next 10 years. A brief addendum was prepared for the EIR covering the minor changes in the Plan. This is the second NOD filed for the project, and covers the minor changes to the Plan which are documented in the July 2012 Management Plan Update.		
2002061003	<p>Public Works- Wineman Road Culvert Repair Project ED10-216 (245R12B501) San Luis Obispo County Nipomo--San Luis Obispo</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Mr. Dave Flynn. The Project consists of replacing two (2) existing and damaged 48-inch diameter CMP culverts with two (2) new 60-inch diameters by 40 feet long HDPE culverts. The Project will include repairing the roadway above the culverts and will require 125 cubic yards of imported borrow material, with an additional 50 cubic yards of rock slope protection at the inlets and outlets of the new culverts. Accumulated debris immediately upstream and downstream of the crossing will be cleared from the channel. If work occurs while surface flows exist in the channel, a dewatering plan will be implemented to divert flows around the work area. No trees or shrubs will be affected by the Project, and heavy equipment will be operated from the roadway.</p>	NOD	
2011052046	<p>Alexander Crossing Apartments Project Napa, City of Napa--Napa</p> <p>The subjects of this Notice of Determination are the zoning actions associated with the development application for the Alexander Crossing Apartments Project. The zoning actions consist of a zoning ordinance amendment to rezone a portion of the Project site, approval and issuance of a Use Permit, and approval and issuance of a Design Permit. On June 26, 2012, the City of Napa City Council approved a General Plan amendment associated with the Project, and conducted the first reading of the zoning ordinance amendment for the Project. On July 10, 2012, the City Council conducted the second reading of the Zoning Ordinance amendment, and adopted a resolution approving and issuing the Use Permit and the Design Permit.</p>	NOD	
2011062012	<p>Bijou Area Erosion Control Project - Phase 1 South Lake Tahoe, City of South Lake Tahoe--El Dorado</p> <p>The Project involves replacing an existing undersized and deteriorated culvert and constructing storm water treatment basins. A new culvert will convey runoff from the upper Bijou Creek watershed directly to Lake Tahoe and eliminate mixing flows with urban runoff. The urban runoff will be collected in a new collection and pretreatment system before being pumped into a series of infiltration basins in the upper watershed.</p>	NOD	
2011071090	<p>State Route 1/Rio Road to Carmel Valley Road Operation Improvement Project Caltrans #5 Carmel-by-the-Sea--Monterey</p> <p>Caltrans proposes to improve SR 1 near the City of Carmel-by-the-Sea from approximately 625 feet south of the Rio Road Intersection through the Carmel Valley Road intersection (post miles 72.3 to 72.9). The project would build a northbound truck-climbing lane on SR 1 from Rio Road to Carmel Valley Road.</p>	NOD

2011121054	<p>Planning Area 33 (Lots 105, 107 and 108) General Plan Amendment and Zone Change Irvine, City of Irvine--Orange</p> <p>The proposed project would increase the amount of residential development allowed in PA 33 by amending the City's General Plan and Zoning Ordinance to add residential uses as conditionally permitted land uses on the subject sites. The number of allowed residential units within PA 33 would increase from 3,150 to 4,356. Based on prior approvals and the building of both The Village and The Park apartment communities, 3,006 dwelling units have been built or are currently under construction in Planning Area 33. Therefore, the proposed project would allow for an additional 1,350 dwelling units. The proposed project also includes construction of associated parking structures, open space amenities on-site and related off-site street and utility improvements.</p>	NOD	
2011122047	<p>The 2012 Fisheries Restoration Grant Program Fish & Game #2 --</p> <p>The Project is limited to treating 37 sites to include the decommissioning of 0.57 miles of road thereby saving approximately 10,400 cubic yards of sediment from delivery to Howe and Oil Creeks.</p>	NOD

2012052003	<p>KVMR Community Radio and Nevada Theatre Commission Building Project Nevada City Nevada City--Nevada</p> <p>Commercial Site Plan and Architectural Review Application of the Nevada City Community Broadcast Group (KVMR) and Nevada Theatre Commission (NTC) as co-applicants, proposing to construct a new, multi-story building of 8,083 sf (hereinafter referred to as the KVMR Building) at 120 Bridge Street, Nevada City. The building will house KVMR radio station studios and offices (6,523 sf) and a connecting, backstage support area for the Nevada Theatre (1,560 sf). The property contains three existing tin sheds which will be demolished to accommodate the KVMR building with re-use of the existing building metal siding, roofing and timber beams to be incorporated into the new building.</p>	NOD	
2012052029	<p>Coddington Target Store Initial Study/Proposed MND Santa Rosa, City of Santa Rosa--Sonoma Note: Review Per Lead</p> <p>The Simon Property Group (Applicant) is proposing renovations to a portion of Coddington Mall. The renovations would include replacement of the vacant Gottschalks Department Store building and other smaller south-facing retail shops and construction of an approximately 143,487 sf single-story Target store. The renovations would also include the two south-facing mall entrances and infrastructure improvements, including construction of new underground utilities, new and reconstructed parking lots, and new landscaping - all within the Project site. Project construction would take approximately 15 months for completion.</p>	NOD

	and rock slope energy dissipater pads will be installed at the outlet.		
2012078165	Gianulias Pier Repair Fish & Game #2 --Placer The project plans to repair a pier that has been severely damaged from past storm activity. The project includes driving 4 new steel pilings (10 3/4") and installing 2 new steel beams to support the joists and decking for the existing pier. Caissons will be installed around piling during installation as necessary. All debris and staging will be contained on a floating barge. All material will be transported by barge and loaded/off-loaded at the marina in Tahoe City.	NOE	
2012078166	Emerald Farms Natural Gas Line Pipeline Project Fish & Game #2 --Colusa This Project consists of performing horizontal directional drilling (HDD) underneath waterways at four locations within Emerald Farms property for the purposes of installing a gas pipeline. The beds, banks or channels shall not be disturbed unless there is a fracturing in the substrate (Frac-Out) that occurs during drilling.	NOE	
2012078167	Hospital Fiber Installation University of California, Davis Sacramento--Sacramento The Hospital Fiber Installation project will install fiber optic cabling at the UC Davis Medical Center on Stockton Boulevard in Sacramento. The project will increase data capacity for patient care hardware and software applications. The work includes cabling in corridor and room ceiling spaces, with no increase in use beyond that existing, The proposed project consists of repair, maintenance, and minor alterations to an existing structure.	NOE	
2012078168	2012 Culvert Replacement Project Santa Cruz County --Santa Cruz The 2012 culvert replacement project will replace 8 culverts in Santa Cruz County on the following 5 roads: West Park Avenue Postmile Marker (PM) 0.77, East Zayante Road PM 5.44 and 5.55, Glen Canyon Road PM 0.69 and 1.35, Lompico Road PM 0.14 and 2.46, and Granite Creek Road PM 2.35. Failing metal culverts will be replaced with HDPE culverts of equal or greater diameter and energy dissipaters will be installed to prevent further erosion.	NOE	
2012078169	Carnegie Ramadas Parks and Recreation, Department of Tracy--San Joaquin, Alameda The purpose of this project is to convert a material storage area (0.78 acres) adjacent to the maintenance shop in Carnegie State Vehicular Recreation Area into visitor facilities. The current site condition is described as mostly bare soil and unimproved roads. The project site was primarily used to store piles of aggregate material (2.5" fractured rock). The project area will be filled to alter the grade and allow the sheet drainage to flow away from the adjacent Corral Hollow Creek. The fill material will consist of dirt capped with drain rock. The area will also have ten 200 square foot ramadas installed.	NOE

2011071070	Replace Two Bridges (54-0903l & 54-0903r) on I-40 at Van Winkle Wash Bridge Near the Town of Essex Caltrans #8 --San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement (SAA 1600-2012-0047-R6) pursuant to Section 1602 of the Fish and Game Code to the project Applicant, California Department of Transportation, represented by Mr. Kurt Heidelberg, 464 West 4th Street, MS820, San Bernardino, State of California, 92401, Phone (909) 388-27028. The Applicant is proposing to remove and replace two existing bridges at Van Winkle Wash.	NOD	
2012022071	Targa Terminals, LLC (Targa) Targa Stockton Terminal Project Stockton, Port of Stockton--San Joaquin The Targa Terminals, LLC Project consist of leasing approximately 35 acres and constructing and operating a petroleum product storage terminal facility.	NOD	
2012052026	California Waste Recovery Systems Recycling Processing Center Project Galt, City of Galt--Sacramento CA Waste Recovery Systems (Cal Waste) is currently located at 1065 Turner Road in Lodi, CA. The project applicant, Cal Waste, is proposing to relocate their trucks, drivers, shop employees, and office staff from the existing Lodi location to the proposed project site in order to centralize operations. Upon relocation, the existing Lodi location to the proposed project site in order to centralize operations. Upon relocation, the existing Lodi facility would be closed. Cal Waste proposes to operate a recycling processing center in the existing vacant on-site building. Operations of the recycling processing center would include receipt, sorting, processing, and shipping of recyclable materials. Approximately 150 tons per day of commingled single-stream recyclables generated from the City of Galt and surrounding communities would be received and processed. The recyclable materials would include, but would not be limited to, the following: newspaper; cardboard; mixed paper (junk mail, magazines, catalogs, etc.); various plastics; aluminum and bi-metal cans; and glass. Once separated by mechanical and/or manual methods, the recyclable materials would be processed and shipped to market. All recovered fiber, plastic, and metal materials would be baled for shipping. Market destinations would vary.	NOD

	adjacent outdoor area for parking. The first floor of an existing 4,363 sf, two story residence would be used as the event staging area. The proposed Temporary Event program would include 25 Temporary Events as follows: 1 event with up to 1,000 guests; 1 event with up to 700 guests; 5 events with up to 500 guests; 8 events with up to 350 guest; and 10 events with up to 250 guests.		
2012071064	Tulare General Plan Revision, TOD Plan, and CAP Tulare, City of Tulare--Tulare The City of Tulare is revising a General Plan Update that was published in 2007 and underwent CEQA review in 2008. The revision is addressing Tulare County's Superior Court order requiring modifications to both the General Plan and the General Plan EIR. a) TOD Plan In conjunction with the General Plan revision, the project includes preparation of a TOD Plan. TOD is a planning and urban design concept that calls for a mix of land uses centered on access to public transit. b) General Plan Revisions Besides incorporating the TOD Plan, the General Plan revision will largely focus on court-identified modifications. c) Climate Action Plan In addition to the analysis of the General Plan and TOD Plan, the EIR will analyze potential impacts associated with implementation of the Climate Action Plan, completed in April 2011.	NOP	08/17/2012
2012071069	Otay Water District Wastewater Management Plan Update Otay Water District --San Diego The purpose of the Otay Water District (OWD) Wastewater Management Plan (WWMP) is to supplement the 2009 Water Resources Management Plan Update (WRMP), identify and evaluate current wastewater facilities, design feasible wastewater management strategies that allow the OWD to meet projected future wastewater needs within the OWD planning area and adjacent areas of influence, and to develop a phased and systematic approach to implement the wastewater management strategies during future time frames. The OWD WWMP would ensure a wastewater system adequate for projected growth within the OWD planning area and adjacent areas of influence, consistent with the San Diego Association of Governments (SANDAG) forecasts through 2030.	NOP	08/20/2012
2012071067	Claxton Winery and Reservoir Santa Barbara County --Santa Barbara The proposed project is a request of James LeCron, agent for Claxton Vineyards Limited, owner, to consider Case Nos. 11DVP-00000-00009 and 11CUP-00000-00020 for the approval of the following: (1) a Development Plan for a new 19,818 sf winery complex and (2) CUP for an approximately 1.04 acre, 4.5-acre-ft frost protection reservoir, consistent with the Santa Barbara County Comprehensive Plan, including the Santa Ynez Valley Community Plan, and the Santa Barbara County Land Use and Development Code (LUDC). 2012072035	Replacement of Jet Fuel Storage Facilities (Fuel Farm) at Mather Airport Sacramento County Rancho Cordova--Sacramento The project consists of the decommissioning of the existing above ground fuel storage tanks (400,000 and 600,000 gallons) and replacing those tanks with three new 50,000 gallon tanks and related equipment (including electrical, sewer and water service) in a new fuel farm (approximately 1.27 acres) to be constructed near the northwest corner of the West Cargo Apron. Additionally, an existing 12,000 gallon skid mount aviation gas tank will be moved to the new fuel farm location.	Neg	08/17/2012
2005071084	Barstow Sanitary Landfill Expansion San Bernardino County Barstow--San Bernardino The proposed project consists of expanding the existing Barstow Landfill by 11.5 acres to its currently permitted 47-acre footprint. The permitted height will increase by 145 feet from 2,985 feet above mean sea level (msl) to 3,130 feet above msl. The daily refuse inflow rate will increase (600 tons per day) as will the maximum number of vehicles per day. Various landfill facilities and monitoring and/or control systems will be developed and expanded, including an upgraded gas migration monitoring system, an expanded groundwater/vadose zone monitoring system, an expanded drainage/erosion control system, and a gas collection/control system. The site is located on the east side of State Route 247 approximately 3 miles south of the City of Barstow.	NOD	
2007121011	Santa Maria Public Airport Master Plan Update Santa Maria Public Airport District Santa Maria--Santa Barbara The Permittee proposes to construct a 50-foot free span bridge across Green Canyon Creek for required navigational aids as part of the runway extension. The bridge will be pre-fabricated steel structure that would be set in place by crane on footings beyond the top of the bank.	NOD	
2011031083	Westside YMCA at University High School Los Angeles Unified School District Los Angeles, City of--Los Angeles The Westside YMCA, in collaboration with the LAUSD, proposes to construct a joint-use facility and parking structure on 1.7-acres within the University High School campus. The two-level 62,500 sf YMCA facility would include a pool and fitness center with accompanying locker rooms, multipurpose room/indoor court, lobby, classroom and examination areas, lounge, and child watch and school-age child care rooms. The project includes construction of an adjacent four-level parking structure with 181 parking stalls. Pedestrian access to the YMCA facility would be located on Westgate and Ohio Avenues. Vehicle access to the proposed parking structure would be located on Westgate Avenue. Surface parking and school facilities currently occupying the site would be removed to accommodate the project.	NOD	
2011102051	Revised SMP-30 Use Permit, Sunol Valley Aggregate Quarry Alameda County --Alameda These revisions expand the existing 323-acre quarry by increasing the area under permit by approximately 58 acres and deepening the depth of excavation, extending the expiration date of the mining permit to 30 years after the approval;	NOD

2009091126	California High-Speed Train Project Fresno to Bakersfield Section High Speed Rail Authority, California --Fresno, Kings, Kern, Tulare Note: Extended Review Per Lead S.4.1 Purpose of the HST System The purpose of the CA HST System is to provide a reliable high-speed electric-powered train system that links the major metropolitan areas of the state, and the delivers predictable and consistent travel times. A further objective is to provide an interface with commercial airports, mass transit, and the highway network, and to relieve capacity constraints of the existing transportation system as increases in intercity travel demand in CA occur, in a manner sensitive to and protective of CA's unique natural resources. S.4.2 Purpose of the Fresno to Bakersfield Section The purpose of this project is to implement the Fresno to Bakersfield Section of the CA HST System to provide the public with electric-powered high-speed rail service that provides predictable and consistent travel times between major urban centers and connectivity to airports, mass transit, and the highway network in the south San Joaquin Valley and connects the northern and southern portions of the system.	EIR	09/20/2012
2009111020	Conejo Creek Specific Plan Camarillo, City of Camarillo--Ventura The proposed project involves the adoption of a Specific Plan and various other discretionary approvals that would allow for development of an approximately 740-acre site on the south of U.S. 101, south and east of Pleasant Valley Road between Calleguas and Conejo Creeks. Development would include residential, commercial, office, research and development, institutional, and open space uses.	EIR	09/04/2012
2011111067	La Jolla Crossroads San Diego, City of San Diego--San Diego The project proposes four six-story residential buildings, two parking garages, a recreation center, and a common area servicing these residential buildings as part of the overall La Jolla Crossroads development. The project proposes a total of 47 on-site affordable housing units consisting of a proportionate mix of one-, two-, and three-bedroom units to the 472 dwelling units. The units would be restricted by an agreement for affordable housing acceptable to the City's Housing Commission. The units would be completed and ready for occupancy consistent with the terms of the agreement with the Housing Commission.	EIR	09/04/2012
2012012028	Freeport Boulevard Bike Lanes Sacramento, City of Sacramento--Sacramento The project would install bike lanes on Freeport Boulevard between 4th Avenue and Sutterville Road. The project is designed to provide bike lane continuity along Freeport Boulevard. To accommodate bike lanes within the existing ROW, the travel lanes will be reduced from 4 lanes to 2 lanes. One project option includes a center two-way left turn lane. The proposed project is designed to provide bike access to C.K. McClatchy High School, Sacramento City College and the light rail stations at 4th Avenue and City College.	EIR	09/04/2012

2012071070	SR-247 Shoulder Widening and Rumble Strip Project Caltrans #8 Yucca Valley--San Bernardino Note: Extended Per Lead The project proposes to construct new 8 foot AC shoulders in both directions at various locations and place rumble strips on the existing and proposed shoulders along SR-247 near the Town of Yucca Valley from Handley Road to 0.1 miles north of Boone Avenue between PM 9.6 and 20.3 in the County of San Bernardino. The construction of the standard shoulders will also require the addition of a 3-foot.	MND	08/24/2012
2012072037	T-Mobile USA / McCloud Railroad (Mt. Shasta) Wireless Communication Facility Use Permit (UP-12-04) Public Health, Department of Mount Shasta--Siskiyou The applicant is requesting a use permit to establish a new wireless communication facility that includes installation of a 90-foot tall monopine within a 575 sf (25' x 23') fenced enclosure, situated within a 1,200 sf (30' x 40') lease area.	MND	08/20/2012
2012071065	Harmony Specific Plan (SPR-011-001) Highland, City of Highland, Redlands, Yucaipa--San Bernardino Note: Extended review per lead. The proposed Project is a master-planned residential community consisting of a maximum of 3,632 residential units on approximately 662.2 acres reflecting a mix of residential product types, with approximately 21.7 additional acres that could be developed for commercial uses, as follows: 5.7 acres of Neighborhood Commercial (approximately 62,073 sf of development); 1 acre of Neighborhood Commercial with an Agricultural overlay (approximately 8,700 sf of development); and 15 acres with a Commercial overlay designation that would allow for development of approximately 163,350 sf of retail/commercial uses as an alternative to residential. Over 535 acres of the total 1,657 acres of land within the Project Site (or 32%) will remain in its natural state as open space. The Harmony Specific Plan proposes over 110 acres of both neighborhood and community-level parks; a 4 acre private recreational site with a 15,000 sf multi-purpose clubhouse with amenities to serve the residential community; a paseo and trail system; an 8-acre potential elementary school site adjacent to a City joint-use park; and a 1.5-acre fire station site.	NOP	08/23/2012
2012072038	Environmental Education and Sustainability Park Yolo County Davis, Woodland--Yolo The project consists of the development of a 5 megawatt photovoltaic solar array at the Grasslands site and a 0.8 MW PV solar array at the Beamer/Cottonwood Site. The Grasslands site will also include an environmental education center to be used for educational fieldtrips for K-12 students of Yolo County. The educational center would consist of a environmentally sensitive modular building, and park host building.	NOP	08/20/2012

	project also entails removal of an existing restroom at Lake Cleone.		
2003121068	Hemet/San Jacinto Integrated Recharge and Recovery Program Eastern Municipal Water District Hemet, San Jacinto--Riverside The District has amended and restated a previously executed License Agreement authorizing Eastern Municipal Water District (EMWD) to construct, operate, and maintain a series of groundwater recharge basins and appurtenances within the San Jacinto River Levee system. The amended License Agreement addresses changes in the project to further reduce potential impacts to the San Bernardino Kangaroo Rat as requested by the U.S. Fish and Wildlife Service. Pursuant to CEQA, EMWD is the lead agency and has adopted the Final Environmental Impact Report (FEIR) for the Hemet/San Jacinto Integrated Recharge and Recovery Program as well as First and Second Addendums to the FEIR. The District considered the FEIR, and adopted CEQA Findings/Statement of Overriding Considerations when approving the previous License Agreement on October 21, 2008. The amended License Agreement and the First and Second Addendum address changes in the project that were authorized in a prior license agreement. The District considered and has accepted EMWD's First and Second Addendums as a responsible agency.	NOD	
2005062128	Easton Project: Easton Place and Glenborough at Easton Sacramento County Rancho Cordova, Folsom--Sacramento The 1,433-acre Project is located south of Highway 50 and west of Prairie City Road in Sacramento County. The Project consists of the development of two multiple-use communities: Glenborough at Easton and Easton Place. Glenborough at Easton is an approximately 200-acre community with 3,239 dwelling units that includes residential, commercial mixed-use, commercial, office, open space, park, and quasi-public uses. Easton Place is an approximately 200-acre transit oriented village with approximately 3.5 million square feet of commercial level.	NOD	
2008052009	Upper American River Project (UARP) Relicensing, Including a New Pumped-storage Development Sacramento Municipal Utility District Placerville--El Dorado, Sacramento The Upper American River Project (UARP) is a hydroelectric project in the Sierra Nevada Mountains and foothills east of Sacramento, California. SMUD proposes to accept a new license issued by the Federal Energy Regulatory Commission (FERC) that will require, among other things, a reoperation of the UARP under the terms of a comprehensive settlement agreement reached between SMUD and state and federal resource agencies, non-governmental agencies, and members of the public. Measures contained in the settlement agreement cover: (1) water releases from UARP reservoirs into downstream river reaches for channel maintenance, aquatic resource habitat, and whitewater boating purposes; (2) water storage in UARP reservoirs; (3) upgrading of recreation facilities; and (4) implementation of resource management and monitoring plans. The new license will also authorize SMUD to construct and operate the 400MW Iowa Hill Pumped-storage facility as a newly integrated development of the UARP.	NOD

2012071083	Via Ballena Storm Drain Relocation San Clemente, City of San Clemente--Orange Note: Review per lead	MND	08/31/2012
	<p>As a result of severe winter storms and heavy rains from 12/17/2010 to 1/4/2011, a slope failure occurred behind homes located at 243, 245, 247, and 249 Via Ballena, resulting in the storm drain pipe being severed from the top of the slope behind homes at 249 and 251 via Ballena. The severed 18-inch corrugated metal pipe storm drain conveyed surface runoff from the street Via Ballena and the rest of the tributary area to a waterway that runs at the base of the slope within the Shorecliffs Golf Course. An emergency pipeline repair has extended a temporary storm drain pipe for the severed portion of the pipeline.</p> <p>The City is proposing to divert the street flow that was conveyed through the severed storm drain to a pipeline to be constructed within public streets, Via Ballena and Via Cascadia, to connect to the existing storm facility on Via Cascadia as shown on enclosed Exhibit B. The project will start at 249 Via Ballena and will include a 1,032 linear feet of 42-inch diameter pipe and 1,430 linear feet of 24-inch diameter pipe to be constructed within public street right-of-way.</p>		
2012071081	Master Plan Update Los Angeles, Port of --Los Angeles	NOP	08/23/2012
	<p>The City of Los Angeles Harbor Department has prepared an NOP/IS Checklist for the Port of Los Angeles Master Plan Update (PMPU). The PMPU serves as a long-range plan to establish policies and guidelines for future development within the coastal zone boundary of the Port of Los Angeles (Port). The PMPU addresses all the required sections under CCA Chapter 8, Article 3 (Section 30711[a] and [b]), including the permitted uses, design and location of land use areas, an estimate of the effect of development on environmental resources, and anticipated projects listed as appealable. The Program EIR will focus on analysis on the land use portion of the PMPU. However, the PEIR will address and incorporate environmental goals, policies, and mitigation measures identified during the planning and environmental review process.</p>		
2012071082	Mission Cove Affordable Housing Oceanside, City of Oceanside--San Diego	NOP	08/24/2012
	<p>The project involves 288 units of income-restricted family and senior housing, with approximately 10,000 of commercial space. The housing component would be served by a community center, day care facilities, pedestrian trails, gardens, plazas, and other amenities.</p>		
2012072046	Phillips 66 Company (Formerly Conocophillips) Propane Recover Project Contra Costa County San Pablo--Contra Costa	NOP	08/23/2012
	<p>The primary objective of this project is to recover propane from refinery fuel gas, and secondarily, to increase the volume of butane that is recovered during the various refinery processes. The recovered propane and butane will be sold and shipped off site. A decrease in sulfur dioxide (SO2) emissions from the refinery is also anticipated in the propane-recovery process. The proposed project involves adding new processing and ancillary equipment at existing processing units located at the Phillips 66 Rodeo Refinery.</p>

	The proposed project is needed to protect the electrical substation that powers critical SFPUC water transmission and treatment facilities from erosion.		
2012072048	MDP 2012-13 (Northstar Engineering Group, Inc.) Turlock, City of --Stanislaus The proposed project consists of the construction of a two-story, approximately 38,000 sf professional medical building with associated improvements including parking, landscaping and paving at 3006 & 3124 West Christoffersen Parkway, Stanislaus County APNs 087-030-001 & 087-030-002. Access to the project will be from a right-in right-out only driveway along West Christoffersen Parkway, a portion of the property will remain undeveloped at this time.	MND	08/24/2012
2012072049	Hale - Signature Homes Morgan Hill, City of Morgan Hill--Santa Clara The project proponent requests a zoning amendment for the approval of a Planned Development overlay zone and approval of a precise development plan. The applicant proposes a subdivision to allow for the construction of 108 residential units consisting of 82 single-family detached units, 16 townhouses, and 10 single-family attached units (duets). Additionally, the project includes construction of two on-site detention basins, public open space, and internal roadways, and a open space area reserved for the future Madrone Parkway extension, if approved. Fisher Creek will be filled and relocated 30 feet to the east of Hale Avenue to allow for future improvements along Hale Avenue. Off-site roadway improvements including widening a portion of Old Monterey Road adjacent to the project site will also be completed as a condition of approval.	MND	08/24/2012
2012072050	Camino Tessajara Shoulder Widening east of Blackhawk Drive to Finley Road Contra Costa County Danville--Contra Costa The Project will bring the pavement cross section along the segment of Camino Tassajara from Ballfields to Finley Road up to current Contra Costa County standards and improve safety by providing drivers with a consistent roadway section and a wider area for recovery should they veer out of the travel lane. Improvements include roadway grading and widening, fill, installing paved shoulders, bike lanes, striping, signs, culvert and drainage modifications, and relocation of roadside obstacles including utility support poles.	MND	08/24/2012
2012072053	Velocity Island Park Woodland, City of Woodland--Yolo Velocity Island Park is a proposed cable wakeboard park within the City's 15-acre Detention Basin (formerly Dubach Park). Cable wakeboarding is a water sport which involves riding a wakeboard over the surface of a body of water while being pulled by an overhead cable system. The cable system is powered by an electric motor. The project would include a 9-acre lake within the project site, on overhead cable system, and park amenities. The project would include floating and stationary docks, a decomposed granite path (4 to 5 feet wide) around the lake perimeter, 75 parking spaces, restrooms (624 sf), operations building (1200 sf), and an observation deck. Proposed hours are 8 a.m. to 30 minutes before dusk, 7 days per week.	MND	08/27/2012

2012072052	Yurok Indian Housing Authority - MS 1202 - Minor Subdivision Del Norte County --Del Norte Minor Subdivision of a 1.56-acre parcels. The project is located at 105 Maple Road in the Klamath Glen. The project area consists of an approximately 1.56 acre parcel. Currently, the project parcel is developed with two single family residences. The purpose of the project is to separate each existing residence onto its own legally separate parcel. Each residence utilizes an onsite sewage disposal system and connection to the public water system.	Neg	08/27/2012
2003122091	El Corte de Madera Creek Open Space Preserve Watershed Protection Program Midpeninsula Regional Open Space District Woodside--San Mateo The Project proponent is proposing several projects within the El Corte de Madera Cree Open Space Preserve (Preserve) along Skyline Boulevard, near the town of Woodside, San Mateo County. The purpose is to protect and restore the long-term integrity of the El Corte de Madera Creek watershed by reducing erosion and potential sedimentation associated with the design and use of the 35 mile network of unpaved roads and recreational trails within the Preserve.	NOD	
2008112004	Sir Francis Drake Boulevard Rehabilitation Project Marin County --Marin The Operator proposes to rehabilitate about five miles of Sir Francis Drake Boulevard between Shafter Bridge and Platform Bridge Road. The rehabilitation work will include new pavement, drainage improvements, pullout improvements, and slope repair. The California Department of Fish and Game (DFG) are executing a Lake and Streambed Alteration Agreement Number 1600-2012-0176-3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Ernest Klock, Marin County Department of Public Works.	NOD	
2010092040	Sump 119 Outfall Demolition Sacramento Regional Sanitation District Sacramento--Sacramento The Sacramento Regional County Sanitation District (SRCSD) proposes the removal of six abandoned bents and two groups of dolphin piers from the Sacramento River. Installed in 1946, the bents once supported a 30-inch-diameter sewer force main within the river, which has since been demolished. The pilings for each bent and dolphin piers were embedded into the river bed a minimum of 20 feet until a minimum bearing of 10 tons was established. The demolition of the existing structures will attempt to remove each piling intact. If the entire length of the piling cannot be extracted, the piling will be cut below the existing river bed and abandoned in place. If necessary project demolition will include excavation to expose the concrete blocks. Once the concrete is removed the remaining piles and dolphin piers will be extracted using a clamp and vibratory extractor. Engineered backfill will be required for excavation on the river bank. The Bents that remain will be removed with a barge mounted crane, clamp, and vibratory extractor. No backfill is anticipated for these bents.	NOD

2012-04	<p>Agua Caliente Band of Cahuilla Indians of the Agua Caliente Indian Reservation - APNs: 513-330-002-1, 005-4 Bureau of Indian Affairs --Riverside</p> <p>The Wanek Property is comprised of two parcels of land that are undeveloped, sparsely vegetated, with predominantly steep rocky slopes at elevations ranging from ~3,800 feet above mean sea level to ~4,900 feet above sea level. The property contains 40 acres, more or less. These vacant parcels are located south and east of Tahquitz Creek on the eastern slope of the San Jacinto Mountains. There are no roads leading to the subject parcels and the surrounding parcels are also undeveloped. The area of the parcels has been closed to the public since 1980 and they have been patrolled by Tribal rangers since 1998.</p>	BIA	08/27/2012
1997061047	<p>Los Angeles International Airport Specific Plan Amendment Study (SPAS) Project Los Angeles World Airports Los Angeles, City of--Los Angeles</p> <p>The SPAS serves to identify and evaluate potential alternatives to certain components of the LAX Master Plan program, referred to as the Yellow Light Projects. The nine SPAS alternatives include offering various options to the Yellow Light Projects. The improvements associated with the SPAS alternatives include improvements to the north airfield, terminals, and ground access improvements. Alternatives 1 through 4 are "fully-integrated" alternatives that include specific improvements in all three categories. Alternatives 5 through 7 focus on variations to the airfield improvements, which, in turn, affect the terminal improvements and ground access into the Central Terminal Area. Alternatives 8 and 9 focus on variations to the ground access improvements.</p>	EIR	09/10/2012
2011122032	<p>Cabin Creek Biomass Facility Project Placer County Truckee--Placer</p> <p>Placer County is proposing to construct a two-megawatt wood-to-energy biomass facility that would use gasification technology at the Eastern Regional Materials Recovery Facility (MRF) and Landfill. The project site is located on 3.7-acre site in the southernmost area of the property. The proposed project would include construction of an approximately 11,000 sf, two-story structure to house the power generating and emissions control equipment, an approximately one-acre material storage area including a 7,000 sf open air pole barn structure, and additional onsite improvements to support operations at the facility. Biomass materials (fuel) would be processed (ground and screened) at locations from which they are removed (e.g. USFS fuels reduction sites) and delivered via haul truck to the proposed project site.</p>	EIR	09/10/2012

2012051007	Rio Rancho Towne Center Project Pomona, City of Pomona--Los Angeles The proposed Rio Rancho Towne Center Project (the Project), including all facilities proposed within the Project site, on- and off-site supporting improvements, and associated discretionary actions, is the Project considered in this EIR. In summary, the Project will realize approximately 419,190 square feet of new retail/commercial uses within the approximately 36.84-acre subject site.	EIR	09/10/2012
2009062016	Edgewood Lodge and Golf Course Improvement Project EIS Tahoe Regional Planning Agency -- FYI Final The Proposed Project includes improvements to Edgewood Tahoe Golf Course, at 180 Lake Parkway, Stateline, Douglas County, Nevada. The Proposed Project generally consists of a new lodge complex with 11 buildings: a 154-unit lodge (hotel) building with accessory uses, and 10 interval ownership casita buildings (40 units total) for a total of 194 tourist accommodation units (TAUs). Also included: golf course realignment and cart path modifications and improvements; a series of environmental improvements; a new public beach area connected to Lake Parkway via a bicycle/pedestrian pathway; removal of an existing pier and reconstruction, redesign, and expansion of the pier at a new location on the site; a 230-space parking structure and an off-site employee parking lot. Alternatives address a 230-unit and a 250-unit lodge complex.	FIN	
2012071087	Biomass (Beet) to Ethanol to Plant Project Fresno County --Fresno The project proposes to allow a solid waste processing facility (conversion of sugar beets into biofuel) in the AE-20 Zone District. The proposed project is located west of the South Siskiyou Avenue Alignment, on West Oakland Avenue, addressed as 10946 West Oakland Avenue in the community of Five Points in Fresno County. (SUP. DIST.: 4) (APN: 060-110-46S, 47S, 060-170-56S).	MND	08/27/2012
2012072054	Bridge Scour Mitigation and Rehabilitation Project Caltrans #3 Wheatland--Yuba Caltrans proposes to perform scour mitigation at Dry Creek Bridge (Bridge # 16-0002) on SR 65 in Yuba County, 1.5 miles north from the city of Wheatland at Post Mile 2.21. The project proposes to place Rock Slope Protection under the structure. In addition, on the roadway, the bridge deck would be replaced with polyester concrete deck overlay.	MND	08/27/2012
2012072056	Fair Anselm Creek Bank Stabilization at 731 to 771 Center Boulevard Fairfax, City of Fairfax--Marin The proposed project will replace an existing failed retaining wall with a new sculpted and stained shotcrete wall. The new retaining wall will be supported on helical piers and will include tiebacks further upslope than the existing wall. The project will also include re-contouring of the north side bank of San Anselmo Creek to provide a more natural slope. The creek bank will be protected with turf reinforcing matting planted with live willow stakes. The area under the building (which does not lend itself to a similar approach for bank stabilization due to lack	MND	08/27/2012

	of sun), will have the bank protected against erosion utilizing a sculpted and stained concrete bank protection. This will also be supported with helical piers and tiebacks and will be keyed into the creek bed to prevent scouring at the toe of the bank.		
2012072057	Middle Reach of the Russian River (River Mile 28) Bank Restoration Project Sotoyome Resource Conservation District Healdsburg--Sonoma This project is a bank stabilization and restoration site on the west bank of the Russian River approximately 2 miles downstream from the confluence with Dry Creek in Sonoma County. The project includes bank layback, revegetation, and habitat enhancement strategies.	MND	08/27/2012
2012072059	2012 Calaveras County Regional Transportation Plan Calaveras County Council of Governments --Calaveras The proposed project is the adoption and implementation of the 2012 Calaveras County RTP. The RTP is a comprehensive transportation plan for all modes including: highways, local streets and roads, transit, bicycle, aviation, rail, and goods movement. The RTP contains policies, actions, and financial strategies for short-term and long-term transportation projects. The RTP has a planning horizon through 2035, but is updated every five years.	MND	08/27/2012
2012071086	EIR MH 1-12; Kingbird Solar Photovoltaic Project by Kingbird Solar, LLC. Kern County Mojave--Kern The proposed project is a renewable energy development that would generate up to 40 megawatts of electricity through use of solar photovoltaic power. The project proponent is requesting: (a) Amendments to the land use designation from 5.6/2.8 to 8.5; (b) changes in zone classification from the existing zone district E (2 1/2) RS (Estate Residential, 2 1/2 acre minimum lot size, Residential Suburban Combining) to A (Exclusive Agriculture) District on up to 324 acres (c) conditional use permits to allow for a commercial solar facility. The project would be supported by a 230-kV overhead transmission corridor. The transmission line would generally be aligned to the east where it ultimately would be connected to the existing SCE Whirlwind Substation. The project's permanent facilities would include up to 700,000 solar modules, service roads, a power collection system, communication cables, overhead and underground transmission lines, electrical switchyards, project substations, meteorological towers, and operations and maintenance facilities.	NOP	08/27/2012
2012071088	Summit View Homes Lompoc, City of Lompoc--Santa Barbara The proposed project consists of 44 single family residential lots and three open space lots on a vacant 10-acre site. The project has proposed annexation of the property into the City of Lompoc.	NOP	08/27/2012

2012071090	Ballona Wetlands Restoration Project Fish & Game #5 --Los Angeles The Ballona Wetlands Ecological Reserve is located in the western portion of the city of Los Angeles (partially within unincorporated Los Angeles County), south of Marina Del Rey and north of Playa Del Rey. The entire project site is held by the State of CA, with part owned by CDFG and part owned by SLC. The site is bisected by and includes a channelized span of Ballona Creek, and it is traversed by Culver Boulevard, Jefferson Boulevard, and Lincoln Boulevard. The project entails restoring, enhancing, and creating native coastal wetland and upland habitats in the approximately 600-acre Ecological Reserve. The reserve comprises previously filled and dredged coastal wetland and upland habitat that would be restored by increasing tidal flow throughout the project area, removing invasive species, and planting native vegetation.	NOP	08/27/2012
2012071085	Special Use Permit No. PSP 11-057 Micke/Westbrook Tulare County --Tulare Note: Shortened Review The applicant proposes constructing a walnut drop pit and 7,000 sf addition for an existing walnut hulling and dehydrator building and a new 15,000 sf walnut shelling building. The use permit will bring into compliance the existing equipment manufacturing facility and the existing commercial walnut hulling facility and dehydrator with motors totaling over 100 horsepower. The agricultural equipment manufacturing facility does not plan to expand.	Neg	08/15/2012
2012071089	State Route 150 Slope Stabilization and Erosion Control Project Caltrans #7 Santa Paula--Ventura Caltrans is proposing a slope stabilization and erosion control project at two locations on SR-150, near the City of Santa Paula within Ventura County. The first location is at SR-150 Post Mile 27.37 and the second is at SR-150 PM 29.4. The purpose of this project is to protect public safety by addressing the structural deficiencies at these two locations. Specifically, the project will stabilize the slopes by installing type 736 erosion control barriers along the road shoulder at both locations with the addition of a retaining wall at the bottom of the embankment at PM 29.4.	Neg	08/27/2012
2012072051	Chapin Vineyard Conversion Napa County Yountville--Napa The applicant proposes to convert 3.8 acres to vineyards on a 109-acre parcel. The Erosion Control Plan Application includes construction plans, specifications and erosion and sediment mitigation measures for the vineyard. The site plan designates one vineyard block, on topography that ranges from gently to steeply sloping lands, at elevations between approximately 370 and 480 feet above mean sea level. The APN for the site is 032-400-027.	Neg	08/27/2012
2012072055	Lee Vining Rockfall Safety Project Caltrans #6 --Mono Caltrans proposes to reduce rockfall at six slopes along U.S. 395 north of Lee Vining in Mono County. The proposed project begins at post mile 52.3 and ends	Neg	08/27/2012

	at post mile 53.7. The main purpose of the project is to improve safety for the traveling public and maintenance personnel by reducing rockfall from the existing steep slopes between these post miles.		
2012072058	PA-1200120 San Joaquin County Stockton--San Joaquin This project is a Use Permit application for the construction of a new 2,400 sf building and the conversion of an existing residence into an office for an asphalt contracting business. The project is located on the southwest side of Mariposa Road, 1000 feet southeast of Munford Avenue, southeast of Stockton.	Neg	08/27/2012
2012051071	Anaerobic Co-Digestion Facility Tulare, City of Tulare--Tulare Note: Response to Comments. The project is an anaerobic co-digester utilizing dairy manure, food processing waste, and food waste. It will produce electrical and heat-energy from bio-gas fueled engine-generators, providing such energy to the City of Tulare's wastewater treatment facility and to the serving utility's electrical distribution system. Approximately 500 tons of feedstock will be delivered to the project by truck. Digester supernatant will be piped to the City of Tulare's wastewater facility for disposal. Dewatered digestate, approximately 50 tons per day, will be trucked to authorized composting facilities.	Oth	
2005091148	San Clemente Dam Seismic Safety Project Water Resources, Department of Carmel--Monterey Alternative 3 in the San Clemente Dam Seismic Safety Project FEIR/EIS was revised by CAW to meet regulatory requirements, to provide better road access to the project, and maintain the project construction schedule. A supplement to the final EIR (SEIR) describes the revised project features, analyzes potential impacts associated with the revised project, and proposes mitigation for the impacts. Like Alternative 3 in the FEIR/EIS, the revised Project described in the SEIR consists of removing San Clemente Dam and rerouting Carmel River.	NOD	
2012041019	Horseshoe Lake Levee Restoration and Park Improvements San Bernardino County Victorville--San Bernardino CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 (SAA #1600-2012-0043-R6) of the Fish and Game Code to the project Permittee, County of San Bernardino Regional Parks. The Permittee proposes to excavate between 40,000 and 210,000 cubic yards of sediment from the bed of Horseshoe Lake, so that final lake bed will have a maximum depth of 8 feet. Permittee also proposes to construct a 2,200 linear foot reinforcing levee abutment on the lake side of the existing damaged levee. Additionally, the existing spillway weir/meter will be reconstructed to restore water delivery. Two new emergency spillways, each 56 feet wide, it will also be constructed out of concrete and will be designed to withstand 100 year storm events.	NOD

<u>Documents Received on Monday, July 30, 2012</u>			
	The Project components proposed to improve management of flood flows along the Creek from East Bayshore Road to San Francisco Bay include opening the Creek channel to flow into the Baylands Preserve, reconfiguring and raising levees, creating a marshplain terrace to convey high flows, installing floodwalls, widening the Creek channel, and constructing access roads for maintenance purposes. The majority of the Project elements would occur on properties in Palo Alto and East Palo Alto and owned by the City of Palo Alto, or within Santa Clara Valley Water District or City of East Palo Alto rights-of-way.		
2011101042	Eagle Rock Aggregate Terminal Project Long Beach, Port of Long Beach--Los Angeles Note: Extended per lead	EIR	09/21/2012
	Eagle Rock Aggregate, Inc. is proposing to construct and operate a sand, gravel, and granite aggregate receiving, storage, and transit facility at 1925 Pier D Street in the Port of Long Beach. The Proposed Project would consists of a vessel berthing facility, a conveyor and truck loading system, a product storage pad, truck scales, a pre-fabricated office building, and utilities and fencing. Proposed construction would include dredging and wharf modifications to receive vessels, conveyor systems, and truck scales. Proposed operations include self-unloading vessels. Aggregate material would be stockpiled on-site and loaded into trucks using front loaders.		
2012022023	Modified Ellis Project Draft Revised EIR Tracy, City of Tracy--San Joaquin The Project proposes a modification and amendment to the Original Ellis DA ("Amended and Restated Ellis DA") (Application Number DA11-0002); a modification and amendment to the Original Ellis Specific Plan ("Modified Ellis Specific Plan or Modified ESP") (Application No. SP11-0002); and Petition for Annexation and Pre-Zoning (App. No. A/P11-0002) and General Plan Amendment (App No. GPA11-0005) (collectively referred to as the "Modified Project"). The Modified Project would accommodate the development of a minimum of 1,000 to a maximum of 2,250 residential units, as well as a Village Center, open space, 180,000 sf of retail, office, and other commercial uses and, consistent with City requirements, approximately four acres per 1,000 people of parks with an opportunity to include a Swim Center on 321-acres.	EIR	09/12/2012
2010044007	Marine Corps Air Ground Combat Center (MCAGCC) TwentyNine Palms U.S. Marine Corp Twentynine Palms--San Bernardino The Project involves construction and operation of the new customer-dedicated, 115/33kV Leatherneck Substation, located within the USMC Combat Center. The Leatherneck Substation will be connected and looped to both existing Hi Desert Substation and Carodean Substation. The Hi Desert-Leatherneck Subtransmission Line will consist partly of a new line and partly of reconfigured existing line. The Project will result in impacts to 289.07 acres of habitat for the desert tortoise (<i>Gopherus agassizii</i>), including temporary impacts to 285.48 acres and permanent removal of 3.59 acres of desert tortoise habitat. The Project is expected to result in incident take of desert tortoise, which is designated as a threatened species under the California Endangered Species Act (Fish & G. Code, Sec. 2081 sub. (b); Cal. Code Regs., tit. 14 Sec. 670.5, subd. (b)(4)(A).)	FIN

2012071091	I-10/Cedar Avenue Interchange Improvements Project Caltrans #8 --San Bernardino The County of San Bernardino (County), in cooperation with the Caltrans proposes capacity and operational improvements to the I-10/Cedar Avenue interchange. The project is located within the community of Bloomington in unincorporated San Bernardino County. The proposed project would widen the existing Cedar Avenue overcrossing, the UPRR overhead, and Cedar Avenue from four to six lanes; and realign and widen the I-10 on- and off-ramps to connect to the improved Cedar Avenue and to improve turning and storage capacity.	MND	08/28/2012
2012071093	Efraim Grading Permit San Luis Obispo County --San Luis Obispo Request by Benjamin Efraim to grade for two primary single-family residences, swimming pool, and driveway improvements, which will result in the disturbance of approximately 3.2 acres, including approximately 5,200 cubic yards of cut and 5,200 cubic yards of fill on a 148 acre parcel.	MND	08/29/2012
2012072060	Baker General Plan Amendment/Rezone/Lot Line Adjustment Humboldt County Fortuna--Humboldt A General Plan Amendment to change approximately 0.5 acres of lands planned Timberland (T) to Agricultural Suburban (AS) and approximately 1.5 acres of AS to T. This will facilitate a Zone Reclassification to compatible zone classification (AG-B-5(5) and TPZ), as well as a Lot Line Adjustment to increase the size of the three residentially zoned parcels. The project will also remedy a violation of the Subdivision Map Act. Three parcels are each developed with a single family residence and served with on-site water and one parcel is developed with a barn. The large, timbered parcel is covered by a Non-Industrial Timber Management Plan and Conservation Easement.	MND	08/28/2012
2012071092	Kaiser Kearny Mesa (Permanente San Diego Central Medical Center) San Diego, City of San Diego--San Diego CUP and Planned Development Permit to demolish existing County of San Diego government office buildings and the construction of a master planned development of a 450-bed hospital building, hospital support buildings, parking structures and accessory structures and uses. The project is proposed in two phases; Phase I would include a 550,000 sf, seven-story general acute and tertiary care hospital (Hospital), a 55,000 sf outpatient hospital support building, a 36,000 sf central utility plant (Energy Center). The hospital would include 321 beds, an outdoor service yard, and a 1,213-stall parking structure. Phase II (buildout) would include expansion of the hospital and/or the construction of new medical offices or other uses. More specifically, construction would include expansion of the hospital by an additional 295,000 sf, including a seven-story, 170,000 sf expansion of the hospital to accommodate 129 additional beds (for a total of 450 beds), an additional 125,000 sf of hospital support building, and surface and structured parking totaling 2,250 spaces. Additionally, the project would construct various site improvements. The 20.01-acre project site is located at 5201 Ruffin Road. The parcel is designated County Facility and zoned IL-2-1. Additionally the project is in the Airport Land Use Compatibility Overlay Zone (MCAS Miramar and Montgomery Field); the Airport Influence Area (MCAS Miramar review Area 2, Montgomery Field Review Area 1 on southwestern corner	NOP	08/28/2012

Antennas and other communications equipment will be installed on the tower (12 antennas and four microwave dish).	Neg	08/28/2012
1998071109	Mojave-Rosamond Recycling and Sanitary Landfill Expansion Project Kern County Mojave--Kern Note: Response to Comments. The Project proposes to expand the existing Mojave-Rosamond RSLF into a regional landfill in accordance with KCWMD's 2005 Solid Waste Infrastructure Plan. As a regional landfill, the Mojave-Rosamond RSLF will accept waste from the Tehachapi and Kern Valley Transfer Station, as well as the Ridgecrest RSLF and the Boron Sanitary Landfill following the closure of these facilities (KCWMD, 2005). To accommodate the proposed expansion, the Project will revise the SWFP Solid Waste Information System (SWIS) No. 15-AA-0058 and Waste Discharge Requirements [WDRs] Board Order No. R6V-2007-0035, to increase the permitted facility boundary, disposal area, capacity and lifespan of the landfill. This will include expanding the area for which waste is permitted for disposal and installing landfill liner within that area, as well as vertically expanding beyond the current permitted elevation to fill within the existing (Phase 1) unlined waste cell and the new (Phases 2 through 6) lined waste cells up to the proposed increased permitted height. 2012051075	Daily II Tank Project Eastern Municipal Water District Menifee--Riverside NOTE: Final - 1 CD	FIN	
	EMWD proposes to construct a 2.0 million-gallon (MG) water storage tank, including a detention basin, and an access road on APNs 384-030-030 and 384-030-026 within the city of Menifee. The new Daily II tank would be an above ground welded steel tank measuring 32 feet in height, with an internal diameter of 102 feet. An overflow detention basin would be constructed to accommodate the project site's storm water flows, and any overflow from the tank. EMWD also proposes to construct a new 12-inch diameter water transmission pipeline, between the new Daily II tank site and the existing water pipeline in Scott Road. The pipeline would follow the new access road from the Daily II tank to Daily Road, proceeding in a northerly direction along Daily Road to the connection point in Scott Road. Following the construction of the Daily II tank, the existing Daily I tank located on APN 384-010-034, would be demolished.

2010101091	Strategic Water Resources Plan Program Palmdale Water District Palmdale--Los Angeles The SWRP outlines a programmatic plan for developing and diversifying PWD's water supply over the next 25 years through 2035. The SWRP anticipates that during that time, despite the current economic recession, the population within its service area will double. Currently, existing supplies are inadequate to meet the projected demand of a growing population. The SWRP therefore establishes a strategy to match overall annual water demand on a year-to-year basis. The SWRP identifies a Recommended Water Resource Strategy that would provide increased water supply system when an individual source of water is unavailable or restricted. The proposed strategy calls for acquisition of additional imported supplies; new groundwater recharge and recovery facilities; aquifer storage and recovery wells; potential use of recycled water for agricultural irrigation, groundwater recharge, and other municipal and industrial end uses; expansion of conservation programs; and recovery of storage capacity in Littlerock Reservoir.	NOD	
2010112063	Rubicon Trail at Ellis Creek Bridge Low Water Crossing Conversion El Dorado County --El Dorado The California Department of Fish and Game is excavating Lake or Streambed Alteration Agreement number 1600-2011-0127-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, El Dorado County - Department Transportation. 2011071055	Recycled Water Storage Pond No. 5 Rancho California Water District Murrieta--Riverside Construction of an additional 335 acre-foot recycled water storage pond, one 16-inch diameter inlet pipeline, one 24-inch diameter outlet pipeline, paving the existing access road along Elm Street, lining the existing Pond No. 4, and constructing access ramps with turnarounds in Ponds No. 1/2 and 3.	NOD	
2012051075	Daily II Tank Project Eastern Municipal Water District Menifee--Riverside EMWD proposes to construct a 2.0 million-gallon (MG) water storage tank, including a detention basin, and an access road on APNs 384-030-030 and 384-030-026 within the city of Menifee. The new Daily II tank would be an above ground welded steel tank measuring 32 feet in height, with an internal diameter of 102 feet. An overflow detention basin would be constructed to accommodate the project site's storm water flows, and any overflow from the tank. EMWD also proposes to construct a new 12-inch diameter water transmission pipeline, between the new Daily II tank site and the existing water pipeline in Scott Road. The pipeline would follow the new access road from the Daily II tank to Daily Road, proceeding in a northerly direction along Daily Road to the connection point in Scott Road. Following the construction of the Daily II tank, the existing Daily I tank located on APN 384-010-034, would be demolished.	NOD	
2012062030	Bottimore Field III Project Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Sacramento The 223-acre Bottimore Field III Project consists of developing the project site for planting vineyards, including preparing in land to provide soil conditions for grape	NOD
