# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 1-15, 2007**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2006**

<b><u>Documents Received on Friday, June 01, 2007</u></b>			
2004022025	Jackson Demonstration State Forest Management Plan State Board of Forestry and Fire Protection Fort Bragg, Willits--Mendocino The Board of Forestry and Fire Protection is considering adoption of a Forest Management Plan for Jackson Demonstration State Forest, a State-owned property managed by the California Department of Forestry and Fire Protection. The property is managed for a variety of benefits, including research and demonstration of forest management techniques, public recreation, watershed improvement, fisheries, and wildlife.	EIR	07/16/2007
2006011064	Public Works Yard Consolidation and Water Treatment Facility Project Downey, City of Downey--Los Angeles The City of Downey is proposing to consolidate personnel, equipment, and functions occurring at the Utilities Division Yard, Maintenance Services Yard, and Smallwood Yard onto the Utilities Division Yard site, as well as the development of a new groundwater well and treatment facility at the site. By consolidating these facilities at one location, the City intends to improve the efficiency of services delivered and expand the scope of maintenance services, and vehicle and equipment storage from what is currently available. The proposed project site consists of the existing Utilities Division Yard and all or part of the project while one of the parcels is currently owned by the city. The proposed project would require the demolition of all buildings located on the acquired properties and at the Utilities Division Yard with the exception of the five million gallon water storage tank. New Public Works Department administration, maintenance, and storage facilities will be constructed on the new Public Works Yard site.	EIR	07/16/2007
2007011096	Summer Stone Subdivision Livingston, City of Livingston--Merced The proposed project is an application for a Prezone, Annexation of the project site to the City of Livingston, and a Subdivision to subdivide the 45.51 acre project site into 129 single family residential lots. The remaining acreage would be developed as landscape trails along streets, a 5.13 acre park and a 0.65 acre remainder to be landscaped as part of the project's entrance.	EIR	07/16/2007
1991022017	Lakeview Subdivision Map Resubmission Sacramento County --Sacramento An Extension of Time for an approved subdivision map called "Riverview", for a further three year span. DSEIR updates information and changed circumstances since original map approval.	FIN	
2007022078	Sierra Pacific Power Company Hirschdale Power Line Project Public Utilities Commission Truckee--Nevada Sierra Pacific, in its California Public Utilities Commission (CPUC) application (A.06-04-017), filed on April 19, 2006, seeks a Permit to Construct (PTC) an approximately 3,500-foot power line of new 60 kV circuit on an existing 12.5 kV distribution line in unincorporated Nevada County, near the town of Hirschdale, pursuant to CPUC General Order (GO) 131-D. The entire proposed route would be located on an existing Sierra Pacific easement on private property.	FIN	

## CEQA Daily Log

Documents Received during the Period: 06/01/2007 - 06/15/2007

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, June 01, 2007</u></b>			
	The objective of the proposed project is to provide an alternative to the aging and difficult to maintain primary transmission path new serving the Glenshire Substation, thereby assuring continued safe and reliable electric service to customers in the area while also meeting planning criteria.		
2006091063	Fowler-Los Altos Elementary School Clovis Unified School District Clovis--Fresno The project consists of the development and operation of an elementary school on an approximately 9.75-acre site. The proposed elementary school will be comprised of re-locatable buildings moved onto the site from other locations, including classrooms, administrative offices, multi-purpose facilities, athletic/recreation areas, and a parking lot. The site will be used to house up to 350-400 K-6 students from new school attendance areas prior to permanent facilities being available. Portions of the school grounds will be lighted for security and recreational purposes and may be available for community use during non-school hours.	<b>MND</b>	07/02/2007
2007061005	Vista at Rancho Bernardo San Diego, City of San Diego--San Diego Site Development Permit (SDP) to allow the widening of West Bernardo Drive from the existing widening section north of the signalized intersection serving the Rancho Bernardo Park to the I-15 southbound on-ramp. The project site is located at 18130 West Bernardo Drive on a 10.31 acre site within the Rancho Bernardo Community Planning Area, the Multi-Habitat Planning Area (MHPA), Brush Management Zones, Residential Tandem Parking Overlay, and Council District 5. Legal Description: Parcel 2 of Parcel Map No. 13441. Applicant: Lowe Commercial Corporation.	<b>MND</b>	07/02/2007
2007061006	Las Flores Canyon Creek Restoration and Las Flores Creek Park Project Malibu, City of Malibu--Los Angeles The project proposes the following: (1) ecological restoration of approx. 3.7 acres of Las Flores Canyon Creek, including removal of existing hard bank (grouted rock) protection, reducing the slope of streambanks where feasible, providing floodplain habitat enhancements, providing in-stream structures for grade control and habitat, removing non-native vegetation, and planting with native species; (2) enhancement of approx. 4.4 acres of park area located in the area between the creek and Las Flores Canyon Road, including installation or replacement of picnic facilities, a public restroom, pathways, and children's play areas, with additional enhancements along Rambla Pacifico Road, including parking, walkways, and a pedestrian bridge across the creek; and (3) dismantling and removing existing and remnant structures, including a house, garage, and various foundation and chimney structures. The City's Local Coastal Program Local Implementation Plan indicates that environmentally sensitive habitat area (ESHA) is mapped on virtually all of the property involved in the project due to the location of Las Flores Canyon Creek. Therefore, all project activities would take place in ESHA or ESHA buffer. The project as designed is expected to result in net benefits to ESHA and increase public access to coastal resources.	<b>MND</b>	07/02/2007

2007062003	Walerga Road Tank and Booster Station (PMPB T20060919) Placer County Planning Department Auburn--Placer Proposed to construct an above ground, welded steel tank to hold 2.5 million gallon potable water, and a 3,500 gallon per minute booster pump station.	<b>MND</b>	07/02/2007
2007062005	Peacock Ranch Subdivision (PSUB T20051022) Placer County Planning Department --Placer Proposed to subdivide 13.39 acres into 8 single family residential lots ranging from 1.12 to 2.09 acres.	<b>MND</b>	07/02/2007
2007062009	Creekside Community Park Oakley, City of Oakley--Contra Costa Development of an approx. 9.7 acre community park facility on an undeveloped, City owned parcel. Park amenities will include a combination baseball diamond/soccer field, play structures, picnic areas, water play area, a skate area, a BMX area, onsite parking, a restroom, and other landscaping and decorative amenities. The project will be phased due to budget constraints.	<b>MND</b>	07/02/2007
2007062011	Squaw Valley Academy (PCPA T20060686) Placer County Planning Department Olympic Valley--Placer Proposed to construct a girl's dormitory with 20 bedroom units of 9,000 sq. ft., a headmaster's quarters of 4,000 sq. ft., and a recreation/residential building of 9,000 sq. ft.	<b>MND</b>	07/02/2007
2007061004	Perris Dam Remediation Project Water Resources, Department of Perris--Riverside The Perris Dam Remediation Project includes three separate projects: (1) Perris Dam Remediation Project, (2) Outlet Tower Retrofit, and (3) Emergency Outlet Release Facility.	<b>NOP</b>	09/28/2007
2007062002	Hercules New Town Center Hercules, City of Hercules--Contra Costa The project consists of two elements. First, the City and the Hercules New Town Center LLC (project sponsor) proposes amendments to the Hercules General Plan and Zoning Ordinance to create a "New Town Center" mixed use land use designation and zoning district that would apply to the Hercules New Town Center planning area. Second, the project sponsor proposes redevelopment of two parcels within the planning area.	<b>NOP</b>	07/02/2007
2007062006	Rio Dell Treated Wastewater Reuse Project Rio Dell, City of Rio Dell--Humboldt The City of Rio Dell proposes to improve the operation of the City of Rio Dell's wastewater treatment, effluent disposal, and biosolids disposal systems through repairs and/ or replacement of existing facilities and systems. The treatment system improvements are needed to address the Administrative Civil Liability Complaint (ACLC) and outstanding maintenance issues. The disposal project is needed to meet the requirements of Cease and Desist Order No. R1-2005-0034. The City also needs to include biosolids disposal in this evaluation because the existing disposal site may not be available to the City in the future. The project	<b>NOP</b>	07/02/2007

	alternatives being evaluated consist of either improvements to the City's existing wastewater treatment facility on the southeast side of Rio Dell or construction of a new wastewater treatment plant. Also being evaluated as part of the proposed project is a wastewater reuse system located either north of Rio Dell at Metropolitan site, or south at the Pacific Lumber Company tree farm located at the southern end of the Town of Scotia.		
2007062007	Praxair 21.5 Mile Hydrogen Pipeline and 2.1 Mile Natural Gas Line Contra Costa County Community Development Richmond, Martinez, San Pablo, Pinole, Hercules--Contra Costa A request to construct a 21.5 mile hydrogen pipeline from the Chevron refinery in Richmond to the Shell refinery in Martinez with a lateral line connecting to the Conoco Phillips refinery in Rodeo and construction of a 2.1 mile natural gas line to the Chevron refinery.	<b>NOP</b>	07/02/2007
2007062012	West Auburn Boulevard Special Planning Area Ordinance and Streetscape Masterplan Sacramento County Sacramento--Sacramento 1. Community Plan Amendment and corresponding Rezone from Limited Commercial (LC), Auto Commercial (AC), General Commercial (GC), Travel Commercial (TC), Business and Professional Office (BP) and Mobilehome Park (RM-1) to Special Planning Area (SPA) on 116 acres. 2. A Zoning Ordinance Amendment to add the West Auburn Special Planning Area. The SPA also contains the Streetscape Master Plan. The primary goals of the SPA Ordinance and the Streetscape Master Plan are to: - Create a strong, recognize identity; - Provide a safer and more effective environment for pedestrians, bicyclists, motorists, and business owners; - Increase visibility to West Auburn Boulevard from passing traffic on the Capital City Freeway; - Promote infill and commercial development by supporting existing businesses with business improvement projects; - Recommend land uses, policies and improvements that will encourage a variety of business ventures and strengthen the competitiveness of the Plan area; - Strengthen urban form by providing an enhanced edge to the Arden-Arcade community; and Reinvest in retail and service components that service the regional and local communities.	<b>NOP</b>	07/02/2007
2007061002	Specific Plan 06-01, Tentative Tract Map 06-06, Development Review 06-04, and Variance 07-02 Poway, City of Poway--San Diego A proposal to subdivide and construct 30 attached and detached single family homes for moderate and low income families on a vacant 4.09 acre property. A fence height variance approval is also requested to allow segments to a combined height retaining wall and 5 foot high privacy fencing along the northerly property line to be up to 10 feet when six feet is the maximum height permitted in the RS-7 zone.	<b>Neg</b>	07/02/2007

2007061003	Tentative Parcel Map No. PPM 05-039 Tulare County Resource Management Agency Ivanhoe--Tulare A Tentative Parcel Map to divide 46.448 acres into 3 parcels in the AE-20 (Exclusive Agricultural-20 acre minimum) and C-2-SR (General Commercial-Site Plan Review) Zones.	<b>Neg</b>	07/02/2007
2007062001	Blue Collar Club Tentative Parcel Map T06-029 (1) Tuolumne County Community Development Dept. --Tuolumne Tentative Parcel Map T06-029 (1) to divide a 9.9 +/- acre parcel into four parcels: Parcel 1 at 3.5 +/- acres, Parcel 2 at 2.0 +/- acres, Parcel 3 at 2.0 +/- acres, and Parcel 4 at 2.4 +/- acres. The project site is zoned RE-2 (Residential Estate, Two Acre Minimum) under Title 17 of the Tuolumne County Ordinance Code.	<b>Neg</b>	07/02/2007
2007062004	Bass Lake Offsite Drainage Project Sacramento County Rancho Murieta--Sacramento The project is a request for a Grading Permit that will allow grading, excavation, and trenching for the installation of underground storm drains and pipelines; the construction of a concrete lined V-ditch, drainage improvements to the access road and a new 6 acre foot stormwater settling basin. The project includes the following: 1) trench approx. 2,400 linear feet for the installation of diversion pipelines. Pipelines will be constructed of high density polyethylene (HDPE) and will range in size from 12 to 42 inches in diameter. Trenches will be approx. 3 to 18 feet deep with widths to match the diameter of the pipeline. Trenches will be backfilled and compacted after the pipelines are in place. 2) Construct a concrete lined 800 foot V-ditch that will connect the pipelines to the settling basin. Two riprap lined dissipation structures will be located at the connection of the pipelines to receive the stormwater. Additional dissipation structures will be located at the bottom of the V-ditch to regulate flow into the settling basin. 3) Construct a new settling basin with sediment traps to treat the stormwater prior to its exit to the Cosumnes River watershed. The settling basin will be relocated from its existing location (west of Bass Lake) to a previously disturbed area approx. 800 feet southeast of the diversion pipeline terminus. The basin will be located approx. 5 feet below the discharge point from the V-ditch. The basin will have slopes along the embankment that will be 3:1. The discharge point will be located either on the northeast or the southeast corner of the basin. The discharge area will have a gate structure with a concrete head wall and be comprised of an 8 inch thick weir wall/gate that includes a slide gate wheel that can be used to regulate flows out of the basin. 4) Improvements to the access road will raise the existing grade so that it will slope away from the Irrigation Reservoir. A 600 foot section of roadway will receive drainage improvements. A shallow earthen V-ditch will be constructed on the upslope side of the access road for stormwater diversion. 5) Operation and maintenance of the proposed project include repairs to the pipeline and V-ditch that could include retrenching and periodic removal of vegetation and sedimentation to maintain sufficient capacity.	<b>Neg</b>	07/02/2007
2007062008	Safeway - Almar Center Expansion Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of an Administrative Use and Design Permit to demolish an existing grocery store and a portion of a contiguous retail building and construct a new grocery store and retail building including outdoor seating areas and signage;	<b>Neg</b>	07/02/2007

	a Variance to allow setback from build-to line; Administrative Use Permit to allow the grocery store to continue as a low-risk alcohol outlet; Special Use Permit to allow reduction in parking requirements for a cooperative parking facility; and Vesting Tentative Parcel Map to re-subdivide and reduce the number of parcels from four to three.		
2007062010	The Sacramento International Jet Center Sacramento County --Sacramento The project proposal is for the replacement and upgrade of the existing Sacramento International Jet Center Aviation facility. Phase 1 consists of the following: (1) New construction infill between the existing streets of Lear Drive, Flightline Circle, and the existing general aviation aircraft ramp. An area totaling approx. 3.17 acres. Future Phase II work is not included; (2) Building A, a new two story Fixed Base Operation (FBO) office and terminal building (16,000 +/- sq. ft.); (3) Building B, a new aircraft hanger building (36,000 +/- sq. ft.); (4) A parking area for approx. 81 parking stalls; (5) Landscaping throughout the site. A total of approx. 31,000 sq. ft. not including concrete walk areas; (6) A new gravel access and security road at the existing southern end of Lear Drive (5,000 +/- sq. ft.). Phase II consists of the following: (1) Building C, a future aircraft hanger building (36,000 +/- sq. ft.); (2) An additional 55 parking stalls to be installed at such time as the future hanger building C is constructed.	<b>Neg</b>	07/02/2007

<b><u>Documents Received on Friday, June 01, 2007</u></b>			
2007068003	Adobe Creek Fish Passage Barrier Removal California State Coastal Conservancy Petaluma--Sonoma Remove a bridge and instream concrete slab foundation on Adobe Creek and replace these barriers to fish passage with a clear span bridge.	<b>NOE</b>	
2007068004	Penitencia Creek Ridge Trail Relocation California State Coastal Conservancy San Jose--Santa Clara Relocate a severely eroding, approximately 0.1-mile, paved segment of the San Francisco Bay Area Ridge Trail in Penitencia Creek County Park, including removing and revegetating the existing trail segment to help stabilize the creek bank.	<b>NOE</b>	
2007068005	Maintenance and Repair of Marina Bay Shoreline Protection Structures Richmond, City of Richmond--Contra Costa This maintenance and repair project will restore existing shoreline protection structures within Marina Bay to their originally permitted condition. In the decades since the bulkhead and riprap were placed, some of the riprap has settled or has been displaced allowing erosion including the undermining of structures designed to facilitate public access to the waterfront areas. This project will repair undermined structures and return the riprap coverage to the originally permitted contours. The beneficiaries of this project are the members of the public who use the walkways, parks, fishing platforms and memorials that are preserved by these shoreline protection structures.	<b>NOE</b>	
2007068006	Little Browns Creek at Roundy Road Culvert Removal for Fish Passage Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity The existing stream crossing at Round Road over Little Browns Creek consists of three culverts and an earthen material roadway fill prism that are a complete barrier to migrating fish including adult and juvenile salmon and steelhead. The primary purpose of the project is to restore fish passage at the stream crossing by replacing the existing culverts with a bridge. The project also involves restoration of the stream channel to remove accumulated sediment and to restore approximately 325 feet of the stream channel immediately upstream of Roundy Road.	<b>NOE</b>	
2007068007	Deadlydoll LLC., Film Production Fish & Game #5 --Los Angeles The operator proposes to alter the streambed by way of film production. Filming will take place under the Wiley Canyon Bridge, including the bike path, inclined wall and riverbed. No material will be moved, displaced or otherwise disturbed in this area. Filming will also take place at the pedestrian crossing between Wiley Canyon Bridge and Orchard Village Road, including the dry portion of the riverbed.	<b>NOE</b>

2007032084	New Main Kitchen and Remodel Existing Satellite Serving Kitchens and Dining Rooms Mental Health, Department of Napa--Napa The proposed project consists of the construction of a new 29,000 square foot (sq ft) single story Main Kitchen replacement facility on the northwest corner of Madrone Drive and Acacia Drive and the renovation of 10 satellite kitchens and dining rooms (totaling approx. 51,000 sq. ft.) located in existing buildings. This project would support the complete conversion of the hospital to a cook/chill method of food service. With the cook/chill method, meals are prepared in the main kitchen, placed on trays, blast chilled, and transported to satellite kitchens where they are re-heated and served. Construction of the new main kitchen would require demolition of five structures, four of which are contributors to the Napa State Hospital Historic District that is eligible for listing on the National Register of Historic Places (NRHP) and the California Register of Historical Resources (CRHR). These buildings include Building 151 (storage), Building 153 (storage), Building 154 (storage), and Building 155 (welding shop). Building 152 (former auto shop/storage) has been determined not to be a contributor to the district. The storage and welding shop functions would be relocated to existing buildings on the campus. The new main kitchen has been designed to qualify for Leadership in Energy and Environmental Design (LLED) silver certification. Satellite kitchen improvements include new cook/chill compatible equipment, improved finishes, and electrical and mechanical upgrades. There would be no changes to the total number of employees, employee shifts, and deliveries; however, some employees currently reporting to satellite kitchens would report to the main kitchen when the cook/chill method is implemented/	<b>EIR</b>	07/19/2007

2006094002	Sierra Draft Resource Management Plan and Draft EIS Bureau of Land Management --Mariposa, Tuolumne, Calaveras, El Dorado Draft Land Use Plan for lands managed by BLM's Folsom field office. The plan will be comprehensive, addressing all resources and uses on the public lands in the planning area.	<b>FIN</b>	
2007061009	North Monterey County Water District Consolidation and Water Supply Project Pajaro Sunny Mesa CSD --Monterey Proposal to expand the existing water supply system of the Pajaro/Sunny Mesa Community Services District with the following facilities; a) one new well with a 1,000 gallon per minute production capacity b) 3 new storage tanks with volumes of 260,000 gallons, 180,000 gallons/each and c) 3 new pump stations and associated transmission lines, including a new inter-tie line to connect two sub-areas of the District. The new facilities will provide potable water to replace individual wells which are contaminated with nitrates on 29 parcels, to provide water transfers between two District sub-areas and to better serve recently annexed areas to the District.	<b>MND</b>	07/03/2007
2007061010	TPM 20820, Log No. 04-08-016; Souris San Diego County Department of Planning and Land Use --San Diego The proposed project is a minor residential subdivision within the Valley Center Community Planning area. The applicant proposes to divide 38.8 net acres into four parcels ranging in size from 4.01 to 21.47 net acres. One existing single-family residence and guesthouse resides on Parcel 3 and will remain. Grading will encompass 1.7 acres and total 2,650 cubic yards of cut and 2,650 cubic yards of fill with a maximum cut slope ratio of 1.5:1 and maximum fill slope ratio of 2:1. The project will have on-site septic systems and be served by the following agencies/districts: Valley Center Municipal Water district, Valley Center Fire Protection District.	<b>MND</b>	07/03/2007
2007061011	Change of Zone of No. 7026, Tentative Tract Map No. 32531 Riverside County Planning Department Riverside--Riverside Change of Zone Nos. 07026 is a proposal to amend the current zoning classification of the subject property from Residential Agriculture 2 1/2 acre minimum (R-A-2 1/2) to residential agriculture 2 acre minimum (R-A-2). Tentative Tract Map No. 32531 is a schedule B subdivision proposal of 22.86 acres into 11 single-family residential lots with a minimum lot size of two gross acres.	<b>MND</b>	07/03/2007
2007062014	Fernandez Minor Subdivision and Secondary Dwelling Unit (SDU) Humboldt County Community Development Services --Humboldt A minor subdivision of one approximately 26.6 acre parcel into two parcels of approximately 10.1 acres and 16.5 acres. The property is currently developed with three single family residences and the proposed subdivision will site one residence onto a separate parcel while two of the residences will be sited on the other parcel. One of the residences on proposed Parcel 1 was placed without Building Permits and is a violation. The SP is sought to legitimize this Secondary Dwelling Unit (SDU). The properties are served by one-site water and sewage disposal. The site is heavily constrained by access issues resulting from a substandard road that exceeds the allowed length under section 3112-11 of the Firesafe Ordinance.	<b>MND</b>	07/03/2007

	Firesafe exceptions have been sought, but only granted for the substandard width per section 3112-3 of the Firesafe Ordinance. Other than the Eel River located > 1,000' to the southwest, there are no known creeks or other wet areas on or adjacent to the site and existing development.		
1993072018	Turner Riverwalk - Phase 5 (Planning Case P06-0993) Riverside, City of Riverside--Riverside The proposed project includes removal of four concrete silos located on an approximately 25-acre site near the intersection of Pierce Street and Collett Avenue, which were deemed to have contributing historical interest associated with the Historic Hole Ranch. The proposed project represents a change to the La Sierra University Specific Plan (LSUSP), which was previously approved by the Riverside City Council in Conjunction with an Environmental Impact Report (EIR) on March 18, 1997 (Resolution #19057). As part of the LSUSP and the associated EIR, the four silos were required to be restored, stabilized, and preserved in situ in conjunction with development of the site. What remains of the silo complex consists of a tight cluster of four reinforced concrete circular structures, each approximately 35 feet in height and 12 feet in diameter, with 8-inch thick walls.	<b>NOP</b>	07/03/2007
2007031120	2007 Plan Amendment to the Merged Central Business District and West End Redevelopment Project Area Azusa, City of Azusa--Los Angeles The proposed "project" is the amendment to the Redevelopment Plan for the Merged Central Business District and West End projects. The purpose of the proposed project is to add 16.3 acres of developed land to the existing Merged Project Area and increase the tax increment limit of the Merged Project Area.	<b>NOP</b>	07/03/2007
2007061012	Lane Ranch Towne Center Lancaster, City of Lancaster--Los Angeles The proposed project consists of a 407,000 square foot commercial development located on approximately 35 acres at the southeast corner of 60th Street West and Avenue L. As part of the proposed project, a General Plan Amendment (GPA 06-03) and a Zone Change (ZC 06-03) would be required in order to change the general plan designation from a mix of Commercial (C) and Office Professional (OP) to C and the zoning from a combination of commercial planned development (CPD) and OP to CPD. A Conditional Use Permit (CUP 06-03) would also be required for the proposed project. The commercial development would include two anchors, one with a garden center, for a total of 284,341 square feet, a 14,820 square foot drug store, three submajor stores totaling 35,000 square feet, 4 buildings with "shops" totaling 28,000 square feet, and two restaurants (both fast food and sit-down) totaling 10,300 square feet. Some parking would be provided on a 100 feet wide strip of property designated as R-7,000 in accordance with existing zoning code regulations. A total of 1,960 parking spaces are anticipated to be provided and access to the site would occur from Avenue L and 60th Street West.	<b>NOP</b>	07/17/2007

2007062015	<p>Arroyo Creek Vineyards - Vineyard Conversion #P06-0099-ECPA Napa County Conservation Development &amp; Planning Department Napa--Napa</p> <p>The project includes earthmoving activities and installation and maintenance of erosion control measures associated with development of 32.2 acres of new vineyard (27 net vine acres), on a parcel totaling 86.09 acres. The site plan designated nine vineyard blocks on topography that ranges from gentle to moderately sloping lands (typical slopes from 10% to 24%), at elevations between approximately 160 and 400 feet above mean sea level.</p>	<b>Neg</b>	07/03/2007
2004102054	<p>Syar Phase VI - Use Permit Amendment and ARM Plan Amendment - PLP03-0108 Sonoma County Permit and Resources Management Department Healdsburg--Sonoma</p> <p>Syar Industries, Inc. has submitted and application to Sonoma County PRMD for 1) an amendment to Syar's existing Phase VI Use Permit, and 2) an amendment to the Sonoma County Aggregate Resources Management (ARM) Plan to complete the mining and reclamation of the Phase VI terrace pit project. These requested approvals would allow a five-year extension of mining of the Phase VI site. Syar states the proposed five-year extension is intended to provide scheduling flexibility for the remaining extraction of materials within the Phase VI pit, estimated at 2.2 million gross tons (1.98 million net saleable tons). Mining and on-going reclamation would proceed for up to five years, after which all mining would terminate, and final reclamation of the site would occur. In addition to allowing adequate time to complete mining, the five year extension would allow Syar and the County to manage the resource and to prolong its useful life (i.e., a shorter mining period would compel use of this resource at a more rapid rate). It would also allow the applicant to properly implement the previously approved Mining and Reclamation Plan for the Phase VI site (September 2005).</p>	<b>SBE</b>	07/03/2007

	UPRR crossing. City of Elk Grove or its contractor will obtain necessary permission to enter for work from Sacramento County. No right-of-way acquisition will be required for this project.		
2007068013	Elk Grove Boulevard Railroad Crossing Detectable Warning Surface Project Elk Grove, City of Elk Grove--Sacramento This project involves the installation of four detectable warning surfaces (each 3 feet by 4 feet in dimension) at the Elk Grove Boulevard crosswalk approaches to the UPRR intersection. A detectable warning surface would be installed at each of the four crosswalk approaches at the Elk Grove Boulevard/UPRR intersection (North and South sides of the road). Concrete and brick sidewalks will be removed to install new surface material. These devices will assist in alerting the disabled as they approach the railroad crossing. Additionally, all work would take place within the existing UPRR right-of-way. City of Elk Grove or its contractor will obtain right of entry permit from UPRR to perform work.	<b>NOE</b>	
2007068014	Calvine Road Railroad Crossing Detectable Warning Surface Project Elk Grove, City of Elk Grove, Sacramento--Sacramento This project involves the installation of two detectable warning surfaces (each 3 feet by 4 feet in dimension) at the east and west crosswalk approaches to the north side at the east and west crosswalk approaches to the north side of the Calvine Road/UPRR intersection. Concrete sidewalks will be removed to install new surface material. These devices will assist in alerting the disabled as they approach the railroad crossing. Additionally, all work would take place within the existing UPRR right-of-way within Sacramento County jurisdiction. City of Elk Grove or its contractor will obtain right of entry permits from Sacramento County and UPRR to perform work. This project will not require right-of-way acquisition.	<b>NOE</b>	
2007068015	Elk Grove Boulevard Ballard Installation Project Elk Grove, City of Elk Grove--Sacramento This project involves the installation of approximately twelve bollards on the west border of the existing paved parking lot, northeast of the Union Pacific Railroad (UPRR)/Elk Grove Boulevard intersection. The project would eliminate unsafe maneuvers across the tracks from the parking lot during prolonged delays at the Elk Grove Boulevard railroad crossing. Additionally, all work would take place within existing UPRR right-of-way. City or its contractor will obtain right of entry from UPRR. No right-of-way acquisition or tree removal would be required.	<b>NOE</b>	
2007068016	Transfer of Sewer Units to El Dorado County APN 33-781-01 (Morris) Tahoe Conservancy Unincorporated--El Dorado Project consists of the sale and transfer of one sewer unit from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of sewer capacity in the South Tahoe Public Utility District's service area.	<b>NOE</b>

2005022068	<p>Tentative Tract Map 37-46/White Mountain Estates Mono County Planning Department --Mono</p> <p>The White Mountain Estates Specific Plan includes the following components: (1) subdivision of a total of 70.38 acres into 45 single family residential lots (overall project density of 1.5 acres per dwelling unit), one utility lot (0.78 acres) for water and propane tanks, three lots for open space uses (1.46 acres, 3.81 acres, and 9.08 acres), and a remainder parcel (19.23 acres) that allows one single family residence. Tract Map 37-46 addresses the subdivision of the property. (2) Designation of the project site as Specific Plan (SP). Within the Specific Plan, planned land uses include Single Family Residential with a 1/2 acre minimum lot size (SFR-1/2), Open Space (OS), Utility (U), and Specific Plan/Single Family Residential (SP/SFR). An application for a General Plan Amendment (GPA 06-01) addresses the redesignation of the parcels from Rural Mobile Home (RMH) to the Specific Plan land use designations. (3) Development of required infrastructure on site, including paved two lane roads, pedestrian paths, a domestic and fire protection water system [wells, water distribution and storage system, fire hydrants], a propane tank area and underground propane distribution system, a storm drainage system, an underground electrical and telephone system, and individual septic systems for all lots. On site infrastructure improvements would be developed in two phases by White Mountain Estates LLC. (4) White Mountain Estates LLC is proposing to install either factory built housing or traditional stick built housing. Any factory built housing on site will be installed on an engineered load bearing foundation system. Housing materials and colors are intended to blend aesthetically into surrounding environment. The residential lots would be developed by White Mountain Estates LLC in two consecutive phases. (5) The project, including all associated public infrastructure, would be privately funded.</p>	<b>EIR</b>	07/20/2007
2006052102	<p>Downtown San Leandro Transit-Oriented Development Strategy San Leandro, City of San Leandro--Alameda</p> <p>The TOD Strategy Area is substantially developed; however, the Strategy identifies 39 opportunity sites, representing approx. 88 acres, where development could occur over the next 25 or so years (to 2030). An adjustment of an additional 15% was used to establish potential maximum development in the Strategy Area of 3,431 residential units, 718,240 sq. ft. of office development and 120,870 sq. ft. of retail development by 2030. 15% of this development activity is expected to occur by 2015 and 90% of development is expected to occur by 2030. The City's existing General Plan, with a horizon year of 2015, anticipated 590 residential units, 781,200 sq. ft. of office development, and 195,300 sq. ft. of retail development. The TOD Strategy Project is therefore the amount of potential development for the TOD Strategy Area above and beyond what was envisioned in the General Plan and examined in the General Plan EIR, namely construction of 2,841 residential units.</p>	<b>EIR</b>	07/19/2007

2005081021	Nuevo Business Park Draft EIR No. 00480, Tentative Parcel Map No. 33530, Change of Zone No. 07169 Riverside County Planning Department Perris--Riverside Tentative Parcel Map No. 33530 for the subdivision of 63.49 acres into 24 lots to accommodate a maximum of 1,026,300 square feet of light industrial development, roadways and other infrastructure improvements.  Related applications include: Change of Zone No. 07169 to change the zoning classifications on the site from Manufacturing Heavy (M-H) and Industrial Park (I-P) to I-P.	<b>FIN</b>	
2006072002	Stream Flow Augmentation Project Upper Silver Creek and Coyote Creek Santa Clara Valley Water District San Jose--Santa Clara The Santa Clara Valley District proposes the temporary release of tertiary treated wastewater (recycled water) into Upper Silver Creek for research purposes. The water would be diverted from an existing recycled water pipeline. Temporary equipment would be installed to remove residual chlorine disinfectant (dechlorinate) and cool the water prior to its release over a section of existing sacked concrete stream bank along the north side of Upper Silver Creek. The release would occur roughly 1.7 miles upstream of the confluence with Coyote Creek. The project would release between 0.5 and 1.0 cubic feet per second (225 to 450 gallons per minute) of recycled water during a trial period from mid-July to the end of October 2007. Both surface water and ground water chemistry and temperature will be monitored at established monitoring wells or surface stations	<b>MND</b>	07/05/2007

	along Upper Silver and Coyote Creek.		
2007061016	Vallecito Creek Watershed Rehabilitation Project Parks and Recreation, Department of --San Diego The project is the removal of non-native tamarisk (Tamarix sp.) from two sections of the Vallecito Creek drainage, Campbell Grade, and Vallecito Cienega, within Anza-Borrego Desert State Park. Two small areas of tamarisk invasion on immediately adjacent Bureau of Land Management property along Vallecito Creek will also be rehabilitated. The property on which the primary restoration will occur is a recent acquisition by State Parks, and past private activities have resulted in tamarisk invasion. Tamarisk removal will be conducted on approx. 190 acres of creek drainage-way and adjacent uplands. All tamarisk removal will be done using hand tools and herbicide. Cut material will be left in the vicinity of the creek, but moved out of wetland areas. No vehicles will be entering the drainage area. Work will be conducted primarily between October 15 and March 14 to avoid impacts to the least Bell's vireo. A cultural resources monitor will be present during tamarisk removal operations to ensure avoidance of sensitive cultural resources.	<b>MND</b>	07/05/2007
2007061015	Del Valle Project, TR060665 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is an application for a Tentative Tract Map to subdivide the subject property into three lots to build 111 detached single family condominium units and one infrastructure lot. The proposed project site contains five active petroleum extraction sites that will remain, and will be served by the Los Angeles County Waterworks District # 36 and Sanitation District # 32. Project entitlements requested include an Oak Tree Permit for the removal of 27 oak trees, a Conditional Use Permit for development within a Hillside Management Area, and a Zone Change from A-2-2 to A-1-1, Local Plan Amendment from N2, HM, M, and W to U1, U2, U3, C, and W. The applicant is also requesting abandonment of all County easements for drainage purposes. Hasley Canyon Road and Del Valle Road are offered for street dedication. A storage water tank is proposed.	<b>NOP</b>	07/05/2007
2007062020	901 Sherman Avenue Renovation Project Novato, City of Novato--Marin The City of Novato Civic Center is comprised of a number of independent buildings, predominantly single-family residences converted to office use, located on both the east and west sides of Sherman Avenue. The objective of the proposed project is to relocate and renovate 901 Sherman Avenue for use as public hearing and even venue.	<b>NOP</b>	07/05/2007
2007062021	Lower Arsenal Mixed Use Specific Plan Program Benicia, City of Benicia, Vallejo--Solano The proposed project includes implementation of a Specific Plan for the Lower Arsenal site, which is designated for mixed use in the Benicia General Plan. The Specific Plan covers four distinct zones, each of which exhibits a unique physical character. The Specific Plan would implement a form based code to shape future development on the project site, with primary emphasis on the physical form and character of the new development. After buildout of the Specific Plan, the area would contain approx. 741,865 sq. ft. of mixed uses, 22 residential units, and 6.39 acres of open space. The Specific Plan area currently contains approx. 525,000	<b>NOP</b>	07/05/2007

	sq. ft. of mixed uses.		
2007061017	Mission Trails to Lake Murray Pipeline 3 Project San Diego County Water Authority San Diego--San Diego The Water Authority proposes to reline approx. 18,000 feet of untreated water section of Pipeline 3 that runs along the Water Authority's Second Aqueduct in the City of San Diego from just south of State Route 52 through Mission Trails Regional Park to Lake Murray. Implementation of the Mission Trails to Lake Murray Relining Project would rehabilitate Pipeline 3 and ensure a safe and reliable water supply for our region's future. In addition, it was recommended that the rehabilitation of Pipeline 3 be completed prior the end of 2009 to coincide with the completion of the Mission Trails Pipeline Tunnel Project, thus re-establishing a reliable untreated water supply to the affected member agencies.	<b>Neg</b>	07/05/2007
2007061018	Crestline/Diamond Canyon Annexation Area Diamond Bar, City of Diamond Bar--Los Angeles The project proposes the annexation of 106.7 acres located in unincorporated territory in the southeastern portion of Los Angeles County adjacent to the City of Diamond Bar on the north, east, and south. The project area is developed with 25.6 acres of land with 151 single family residential units, 3.4 acres of commercial/industrial uses, 6.4 acres of civic uses, and 71.3 acres of open space. The project contains three main components: An amendment to the City of Diamond Bar General Plan to reflect planned development consistent with existing development in the project area; A rezoning ordinance and amendment to the City of Diamond Bar Zoning Map to reflect City zoning consistent with current development in the project area; and an annexation application through the Los Angeles County Local Agency Formation Commission (LAFCO).	<b>Neg</b>	07/05/2007
2007062018	DeSena Grass Valley, City of Grass Valley--Nevada Tentative Map and Planned Unit Development Application (07PLN-08 and 07PLN09) to subdivide a 36,590 sq. ft. parcel into seven residential parcels, that includes five existing single family residential units and construction of one duplex (two residential units) on two lots.	<b>Neg</b>	07/05/2007

2006061102	Warehouse/Distribution Facility, South Portion of Phase 4 - California Commerce Center, PSPA06-006 (Specific Plan Amendment) Ontario, City of Ontario--San Bernardino The development of the South Portion of Phase 4 of the California Commerce Center Specific Plan includes approximately 99 gross acres of land located in the southwest portion of the California Commerce Center (CCC), which is located in the eastern portion of the City of Ontario. The project requires a Specific Plan Amendment, subdivision of land, dedication of public right-of-way, grading, and improvements including: completion of public infrastructure surrounding the net project site (96.25 acres), construction of a portion of Francis Street and Dupont Avenue and construction of approximately 1,970,150 sq. ft. of office/industrial space within seven separate buildings. All buildings except for Building 1 will consist of one-story concrete tilt-up and glass construction. Building 1 will be two-stories consisting of either concrete tilt-up and glass construction or light framing with plaster exterior for retail and office uses. Buildings 2 through 5 will be constructed primarily for warehouse and industrial uses with ancillary offices. Buildings 6 and 7 will be constructed for warehouse and light industrial/manufacturing with ancillary offices. Perimeter and interior landscaping will be provided for each building site. The alignment of the existing railroad spur will remain. All loading areas facing street frontages will be concealed by a screen wall.	<b>NOD</b>	
2006072086	City of Sonora General Plan 2020 Sonora, City of Sonora--Tuolumne Sonora General Plan 2020, Alternative C, including Land Use, Circulation Element, Housing Element, Conservation & Open Space Element, Noise Element, Safety Element, Air Quality Element, Cultural Resources Element, Economics Element, Community Identify Element and Recreation Element.	<b>NOD</b>	
2007041102	Dutch Flats Production Project Pine Cove Water District --Riverside The Dutch Flats Production project will bring into domestic water production as many as nine vertical wells. The wells are identified as Highway Wells #23 and #24, Kelly Wells #1 and #2 (as new wells #25 and #26), existing Wells Pine Cove #12 and #17, and existing jointly owned Dutch Flats Wells #1, #4, and #5.	<b>NOD</b>	
2007042091	Mill Creek Acquisition Culvert Repair Project Parks and Recreation, Department of Crescent City--Del Norte The project will repair 155 stream-crossings that pose a risk of failure in the immediate future. Old rusting, crushed, broken, undersized, or improperly installed culverts will be replaced by new rock armored crossings, culverts, and bridges properly sized to pass the 100-year flood flow. The approach to the crossings will be reengineered to improve road drainage, and fail-safe dips will be installed where necessary to prevent stream diversion. In addition, two 0.2-km dead end sections of road will be recontoured and associated crossings removed because they have a high potential to fail, and are not needed as part of the administrative road system.	<b>NOD</b>

2007068024	<p>Milo Forest Fire Station - Closure, Abandonment and Relocation Forestry and Fire Protection, Department of --Tulare</p> <p>CAL FIRE will soon be terminating its lease to operate the Milo FFS. The Milo station will be closed, abandoned, and the property will be returned to the landowner. Engine 4182, its four-person crew, equipment, and supplies will be relocated to the newly constructed Bear Creek FFS, 39582 Balch Park Road, Springville, CA which is located approximately 5 miles north of the intersection of Highway 190 and Balch Park Road. The actions of the landowner following the State's abandonment at Milo are not precisely known. The relocation is expected to take place in July 2007. The move will combine engines 4182 and 4173 to provide better fire protection services to the Tule Battalion and neighboring regions by placing two engines and crews closer to the anticipated wildlife locations in the Blue Ridge and Mountain Home areas.</p>	<b>NOE</b>	
2007068025	<p>Poso Forest Fire Station - Engine 4174 Relocation and Remodel of Building at TUU Headquarters Forestry and Fire Protection, Department of Visalia--Tulare</p> <p>Engine 4174, crew, equipment, and supplies will be relocated from the current location at the Tulare County Poso FFS to temporarily relocate to CAL FIRE's Porterville FFS located at 26488 Avenue 140 in Porterville, CA. This engine company will then permanently relocate to CAL FIRE's Tulare Unit (TUU) Headquarters, the old Fire Prevention building will be remodeled to convert its use to a one-engine fire station. The move from Porterville FFS to TUU Headquarters will take place after the remodel project is completed. The final move will provide better fire protection services to the western half of Yokohl Valley and second-in at Woodlake, Elderwood, and Lindsay areas. The Porterville FFS is equipped to house these additional resources. When the engine is assigned to TUU Headquarters, they will be sharing the facility with CAL FIRE, Visalia City and Tulare County.</p>	<b>NOE</b>	
2007068026	<p>Springville Forest Fire Station - Engine 4173 Relocation Forestry and Fire Protection, Department of --Tulare</p> <p>Prior to July 1, 2007, CAL FIRE's Engine 4173, its four-person crew, equipment, and supplies will be relocated from its current location at the Tulare County Springville Fire Station to CAL FIRE's recently-constructed Bear Creek Forest Fire Station located at 39582 Balch Park Road in Springville, CA. This relocation is a result of the recent termination of the Schedule-A Contract between CAL FIRE and Tulare County. The project will combine engines 4182 and 4183 to provide better fire protection services to the Tule Battalion and neighboring regions by placing two engines and crews closer to the anticipated wildfire locations in the Blue Ridge and Mountain Home areas. The Bear Creek FFS was built to house two engines and crews.</p>	<b>NOE</b>

	location, a second move will likely be to the USFS California Hot Springs Station, 43477 Mountain Road 50, in California Hot Springs, CA once a Special Use Permit has been obtained from the USFS. This relocation is a result of the recent termination of a Schedule-A Contract between CAL FIRE and Tulare County for fire protection services. Other than the installation of a vehicle shelter, hose racks, and the placement of two 20' cargo containers, there will be no excavations, construction or other improvements made at either temporary location. At the California Hot Springs Station, the vehicle shelter and cargo containers will be placed on existing asphalt without excavations at locations approved by the USFS.		
2007068028	Alder Creek FSC Fuel Reduction Chipping Project Forestry and Fire Protection, Department of --Tulare The Department of Forestry and Fire Protection will fund the use of mobile chippers to dispose of vegetative material along roadsides. A contracted chipping service, with a crew of eight and a large chipper, will operate within the Sequoia Crest Housing Development to chip the material. Chips may be scattered on the individual landowner properties or will be placed on a dirt road in the development for dust control. The source of chipped vegetation will be material brought to the road side edge and piled at landowner expense. This action is a consequence of removing tree limbs and brush that form fire ladders, which encourage the formation of crown fires and severe fire behavior that results in damage to natural resources and homes.	<b>NOE</b>	
2007068029	Lower Redwood Creek Floodplain and Salmonid Habitat Restoration, Banducci Site - Phase 2, Marin County, CA Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland --Marin The project is located within the Golden Gate National Recreation Area in the Redwood Creek Watershed. The project proposes to restore channel and floodplain connectivity, enhance summer rearing and winter refugia habitat for coho salmon and steelhead, enhance nesting habitat for resident and migratory songbirds, and create a sustainable breeding habitat for the California red-legged frog.	<b>NOE</b>	
2007068031	Stanford Heights Dam, No. 10-13 Water Resources, Department of, Division of Dams San Francisco--San Francisco Seismic retrofit of the reservoir roof, site drainage improvements, inlet/outlet improvements, and other site work.	<b>NOE</b>	
2007068032	Meadows Ramp #6 Panel Placement Boating and Waterways, Department of --Madera This project will install four 3 ft x 30 ft concrete panels at the bottom of the existing boat ramp. The panels are currently stored on site at the top of the ramp. All staging will be done on the existing concrete ramp. The area is heavily utilized by the public. The California Natural Diversity Database indicates that no threatened or endangered species are present in the project area.	<b>NOE</b>

2007068033	Lime Saddle Boat Launching Facility Ramp Widening Boating and Waterways, Department of --Butte This project will construct additional boat ramps to facilitate safe convenient launching and retrieving of boats. Boat ramps already exist on the site, this project will add three additional ramps. Work is scheduled to coincide with low water conditions, however, if level does not recede sufficiently, a turbidity screen will be installed.	<b>NOE</b>	
2007068034	Russian River Division Maintenance and Repairs North Coast Railroad Authority --Napa, Marin, Sonoma, Mendocino North Coast Rail Authority (NCRA) shall engage in maintenance and repair activities from Milepost 1.0 to Milepost 62.9 (Russian River Division - Lombard to Windsor) to bring the rail line into conformance with FRA Class 2/3 standards, to address safety issues identified by local jurisdictions and to comply with the intent of an Environmental Consent Decree. The identified maintenance and repair activities will be within the existing NCRA right-of-way, will not involve any expansion of existing use and will not change the purpose or capacity of the structures being repaired. This Categorical Exemption is supported by a detailed description of work and justification supporting the determination of categorical exemption at each milepost.	<b>NOE</b>	
2007068035	Will Rogers SHP - Restore Lath House and Guest House Parks and Recreation, Department of --Los Angeles The purpose of this project is to repair and restore both the Lath House and Guest House at Will Rogers SHP. Both the Guest House and the Lath House are important historic resources and these restorations will preserve the buildings and historic sitse. The project will include infrastructure and minor upgrades (primarily electrical and heating) of the Guest House and, at the Lath House, landscape repair, entry gates, footings, the tool shed, and incinerator. The tool shed may be relocated. As noted below, all work will be conducted in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties.	<b>NOE</b>

	increase in the growing regions of the service area.		
2007068044	Calvine Pointe Offsite Drainage Outfall Project Fish & Game #2 Elk Grove--Sacramento This agreement pertains to the Calvine Pointe Offsite Drainage Outfall Project, which involves the installation of an outfall structure, including a 36-inch gravit fed storm drain and a concrete outfall spill over, that will convey storm water from the Calvine Pointe project. The concrete outfall spill over will be 10 feet in length and is designed to dissipate water flow in the 36-inch storm drain. Strom water runoff from the project site will drain into an existing City of Elk Grove storm drain network along Black Kite Drive, as described in Notification 1600-2007-0104-R2.	<b>NOE</b>	
2007068045	Gamble Property Access Project Fish & Game #2 --El Dorado This agreement pertains to the Gamble Property Access Project, which involves improving a low water stream crossing to a year round crossing for access into Mr. Gamble's 9.92 acre parcel. Will be installing two 12-foot long, 36-inch diameter steel culverts for access over a seasonal stream. Project will require ~125 cubic yards of native fill. A 6-inch concrete headwall and a 6-inch concrete tailwall will also be installed, as described in Notification 1600-2007-0116-R2.	<b>NOE</b>	
2007068046	Bunker Area Fence Removal Parks and Recreation, Department of --Monterey Remove approximately 3,000 feet of 6 foot high chain link fence that partially surrounds the former Fort Ord Ammo Supply Point (ASP) or bunker area within Fort Ord Dunes State Park. In many areas there are two parallel rows of fencing. The fence material is rusted and partially collapsed. Fence posts will be cut off at ground level with a saw or cutting torch. The fence material will be transported offsite to a scrap metal facility for recycling if possible or landfill for disposal. A DPR-qualified environmental scientist will place wire flags near any sensitive plants in the project area and all state personnel and volunteers will be directed on how to identify native plants species and to avoid walking on them during the project. The fenceline will be recorded prior to removal.	<b>NOE</b>	
2007068047	Molera Grasslands Restoration and Prescribed Burn Parks and Recreation, Department of --Monterey Restore the Coastal Prairie Plant Community in the eastern portion of Andrew Molera State Park that has deteriorated due to: (1) competition from non-native grasses; (2) encroachment by coyote brush; (3) lack of frequent, low intensity fires; and (4) years of heavy grazing prior to acquisition by the California Department of Parks and Recreation. Complete project in two phases: Phase 1: remove coyote brush using hand tools in selected locations (totaling approximately 50 acres) within the project area and spray area with 50/50 Garlon 4 herbicide-agricultural oil solution. Phase II: following prepared Prescribed Burn Plan, conduct burn to promote and maintain the spread of native grass and forb species. The State Parks District Archaeologist shall be notified prior to the commencement of each project phase, in order to carry out post-burn survey and documentation measures and to develop protective measures for any previously unidentified cultural resources in the project area.	<b>NOE</b>

<b><u>Documents Received on Thursday, June 07, 2007</u></b>			
2005121133	New Elementary School Project Kerman Unified School District Kerman--Fresno The proposed elementary school will be a full-service facility designed to accommodate 800 grades K-6 students. The elementary school will have classrooms, faculty work areas, and parking lots. Portions of the school grounds will be lighted for security and recreational purposes.	<b>NOD</b>	
2006041023	County of Los Angeles Fire Station 108 Los Angeles County Fire Department --Los Angeles The proposed project consists of the construction of a new fire station on a 1.41 parcel that would service the local existing and anticipated needs of the growing community. Elements of the proposed project include development of a 3,571 square foot, two-story fire station structure and a 1,251 square foot station garage on an existing graded pad.	<b>NOD</b>	
2006052041	Department of Fish & Game - Year 2006 - Fisheries Restoration Grant Program Project Fish and Game (HQ) Environmental Services --Mendocino The project proposes the installation of cover structures consisting of digger log structures, spider log structures, and multiple log and boulder combination structures on Lower West Fork McGarvey Creek.	<b>NOD</b>	
2006061127	BNSF Cajon Third Main Track Project - Keenbrook to Summit San Bernardino County San Bernardino--San Bernardino SSA# 1600-2006-0037-R6 Extend existing culverts, widen existing bridges, construct two temporary bridges, and construct ~ 15.9 miles of railway track with supporting infrastructure. The project is anticipated to impact a total of 152.1 vegetated acres, including 102.4 acres of permanent impacts. Jurisdictional impacts include 6.90 acres of jurisdictional areas, including 3.63 acres of vegetated riparian habitat.	<b>NOD</b>	
2007052025	Mariposa Lodge Domestic Water, Fire Water, and Leach Field Improvements Santa Clara County San Jose--Santa Clara The proposed project consists of infrastructure improvements at the Mariposa Lodge Alcohol Treatment Facility. These improvements entail the replacement of effluent fitters on the ten existing septic tanks and the expansion of the existing leach fields to the south. New and replacement water, water well, and fire protection piping would be installed to service the facilities with water from a storage tank located east of the property. A total of approx. 2,275 feet of piping would be installed throughout the facility. A future well is also anticipated to be drilled in the proximity of the current storage tank and electrical conduits and a junction box would be installed to power the future well.	<b>NOD</b>	
2007069015	SAA No. R1-07-0120 Shasta County --Shasta The work authorized by this agreement is limited to: installing two single pipe arched culverts in Alice Creek and one corrugated metal pipe (CMP) culvert in an unnamed tributary to Alice Creek.	<b>NOD</b>

2007069016	Lake or Streambed Alteration Agreement No. R1-05-0528/THP 2-05-192-TRI 'Mill Creek #2 THP' Forestry and Fire Protection, Department of --Trinity 20 Encroachments for Timber Harvesting Activities.	<b>NOD</b>	
2007068050	Issuance of an Entry Permit to the Metropolitan Water District of Southern California's San Diego Pipeline Nos. 4 and 5 Metropolitan Water District of Southern California Temecula--Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to issue an entry permit for access to Metropolitan's property along the San Diego Pipeline Nos. 4 and 5. Metropolitan is proposing to issue the entry permit to Underground Solutions, Inc. to access APN 922-210-011 and 922-110-021. The entry permit is being granted to allow temporary access to conduct potholing activities to support design work for a proposed bridge that will extend State Route 79 over Murrieta Creek.	<b>NOE</b>	
2007068051	Issuance of an Entry Permit to the Metropolitan Water District of Southern California's Lakeview Pipeline Property Metropolitan Water District of Southern California Perris--Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to issue an entry permit for access to Metropolitan's property along the Lakeview Pipeline. Metropolitan is proposing to issue the entry permit to Underground Solutions, Inc. to access portions of APN 425-120-008, 425-140-008, 425-170-027, and 426-160-035. The entry permit is being granted to allow temporary access to conduct potholing activities to support design work for a proposed residential development.	<b>NOE</b>	
2007068052	Newell Maintenance Station Caltrans #2 --Modoc The California Department of Transportation (Caltrans) plans to conduct hazardous waste investigations on a 15-acre excess land parcel adjacent to Caltrans' Newell Maintenance Station on Route 139 in Modoc County. The title to this 15-acre parcel will eventually be returned to the Department of the Interior, Bureau of Land Management. The property is within the boundaries of the Tule Lake Segregation Center National Historic Landmark. It also includes the Tule Lake/Newell Maintenance Station Historic District, which is eligible of the National Register of Historic Places and is contributing element of the Tule Lake Segregation Center. The National Park Service is currently responsible for the maintenance and protection of the property. Prior to returning the property to BLM, Caltrans will be responsible for identifying hazardous waste issues and implementing appropriate monitoring and/or remediation measures required by the California Regional Water Quality Control Board (CRWQCB). A previous hazardous waste investigation by Caltrans in 2002 identified soil and/or groundwater contaminated with gasoline, diesel, motor oil, lead, methyl tert-butyl ether (MTBE), phenol and bi (2-ethylhexyl) phthalate. Underground anomalies were also identified using ground penetration radar. The site contamination is due in part to its historic use as a motor pool, highway maintenance yard, and burn dump. The currently proposed testing includes backhoe excavations and vertical soil boring. All work will be confined within the fenced boundary of the state facility. It is anticipated that 4 backhoe excavations 15x15 feet and 5 feet deep will	<b>NOE</b>

<b><u>Documents Received on Thursday, June 07, 2007</u></b>			
2007068053	<p>be excavated to investigate anomalies identified by ground penetrating radar. The excavations will be backfilled with uncontaminated fill. Approximately 21 soil borings, 2 inches in diameter, between 5 and 20 feet deep will be made using either a hand auger or pick-up truck mounted drill rig. All holes will be backfilled with a Portland cement and bentonite slurry. A site investigation report will be prepared and submitted to the CRWQCB for review. If it is determined by the CRWQCB the monitoring and remediation is necessary, the appropriate measures will be implemented as a separate CEQA action. Caltrans performed an environmental evaluation for this action, which consisted of a review of resource records and databases, consultation and coordination with applicable agencies and individuals, and field surveys. No historic properties will be affected. No sensitive species will be affected. Based on the environmental evaluation, it has been determined that there is no potential for the action to result in a significant effect upon the environment.</p> <p>Siskiyou SR 96 Repairs Caltrans #2 --Siskiyou</p> <p>Caltrans in coordination with the Federal Highway Administration (FHWA) is proposing to repair various areas of failure along State Route 96 in Siskiyou County between Yreka and Somes Bar caused by localized flooding in the winter of 2006. These locations received Emergency Opening Services. One location at Post Mile (PM) 15.34 will require foundation drilling for soil samples to help determine course of construction. The project includes one location that will need foundation drilling and soil testing. The embankment slope around the existing culvert outlet was eroded to the extent that the pavement was undermined. There is a 6m drop-off at the edge of traveled way at this location. A reinforced concrete slab will be constructed to span the void. If the geotechnical investigation determines that piles are required to stabilize the concrete slab, they will be constructed vertically under the existing roadway. Because of the drop-off, a concrete barrier will be constructed along the outside of the concrete slab at the edge of shoulder. The testing proposes vertical soil boring for collection of soil and rock samples for analysis. A track mounted mud rotary rig with a water truck will be used in the drilling of the two 50 feet deep by 4.5 inch wide boreholes. Drilling will take place at PM 15.34 in the west bound lane. Drilling will take place from May 22 to May 24 approximately 8 am to 6pm. Soil cuttings will be contained and placed in 55 gallon drums and taken to Orleans maintenance while chemical analysis is on done to determine which landfill they will go to for disposal. Caltrans performed an environmental evaluation for this action, which consisted of a review of resource records and database, consultation with applicable agencies and individuals, and field surveys. No historic properties will be affected. No sensitive species will be affected. Based on the environmental evaluation. It has been determined that there is no potential for the action to result in a significant effect upon the environment.</p>	<b>NOE</b>	
2007068054	<p>Issuance of Streambed Alteration Agreement No. R1-07-0242 Fish &amp; Game #1 --Shasta</p> <p>The project proposes the construction of a spillway from an upland pond, under construction, that connects to an unnamed creek by an abandoned irrigation ditch. There will be no removal of healthy, mature, scenic trees as a result of this project.</p>	<b>NOE</b>

2007061032	South Mill Creek Mixed Use Project Bakersfield, City of Bakersfield--Kern The Agency is seeking the development of a minimum of 80 units of affordable high-rise multifamily residences, 35 condominiums, and approx. 65,000 sq. ft. of retail development on the proposed 10 acre site. The project can be constructed in multiple phases. The Redevelopment Agency currently has approx. 5.5 acres earmarked for the affordable housing rental component. The Redevelopment Agency intends to remediate any environmental issues relating to the property and demolish any structures not desired for the project. The property is currently zoned CC, suitable for the planned development by right. The Redevelopment Agency is obtaining all of the necessary studies and analysis required for environmental clearance for the project.	<b>EA</b>	06/25/2007
2006111012	Chinatown Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo Proposed development of a 2.12 acre downtown mixed-use center totaling 310,544 square feet (sf), including retail (55,750 sf), office (8,000 sf), restaurants (6,000 sf), 64 residential and live/work units (90,644 sf), parking (89,100 sf/200 spaces), and a hotel (61,050 sf), generally of 4 to 6 stories, but reaching a maximum of 7 stories or 78 feet in height. A pedestrian plaza level at mid-block on Morro Street would allow entry level access to the restaurant, retail, and hotel. New two-level retail buildings plus offices above (three stories) would front on Monterey Street, a residential courtyard/common area would be accessed off Palm Street; live/work units with retail storefronts are proposed along Morro Street, and 3 to 4 story hotel and retail uses would front Chorro Street. Two levels of below-grade parking with access from Morro Street would serve both residential and commercial uses. In addition, in-only access for the hotel would be provided on Monterey Street. The proposed project would consolidate private and public parcels and surface parking.	<b>EIR</b>	07/23/2007

<b><u>Documents Received on Friday, June 08, 2007</u></b>			
2006102054	Lower Sherman Island Land Management Plan Fish & Game #2 Antioch--Sacramento The Land Management Plan (LMP) will guide the Department's management, planning, and operations of the LSIWA. The LSIWA is an extensive tract consisting of natural vegetation and open water that provides diverse and valuable wildlife habitats and related recreational opportunities. LSIWA is an important part of Sacramento-San Joaquin River Delta due to its natural functions and values as well as the opportunities it provides for human use.	<b>FIN</b>	
2007061029	CUP #17, Map #101-23 Kern County Planning Department Bakersfield--Kern A Conditional Use Permit to allow a 120 space recreational vehicle park with a private pool, office, and laundry facilities in an M-1 PD (Light Industrial- Precise Development Combining) zone district. Designated for Light Industrial use by the Western Rosedale Specific Plan.	<b>MND</b>	07/09/2007
2007061033	PA06-0152 and PA06-0153 (Tentative Parcel Map 35150 and a Plot Plan for Two Distribution Warehouses) Moreno Valley, City of Moreno Valley--Riverside The proposed project is a warehouse distribution center consisting of two buildings totaling 1,182,918 sq. ft. on approx. 54 acres of land.	<b>MND</b>	07/09/2007
2007062031	Fernandez Minor Subdivision and Secondary Dwelling Unit (SDU) Humboldt County Community Development Services --Humboldt A minor subdivision of one approx. 26.6 acre parcel into two parcels of approx. 10.1 acres and 16.5 acres. The property is currently developed with three single family residences and the proposed subdivision will site one residence onto a separate parcel while two of the residences will be sited on the other parcel. One of the residences on proposed Parcel 1 was placed without Building Permits and is a violation. The SP is sought to legitimize this Secondary Dwelling Unit (SDU). The properties are served by on-site water and sewage disposal. The site is heavily constrained by access issues resulting from a substandard road that exceeds the allowed length under Section 3112-11 of the Firesafe Ordinance. Firesafe exceptions have been sought, but only granted for the substandard width per Section 3112-3 of the Firesafe Ordinance. Other than the Eel River located >1,000 feet to the southwest, there are no known creeks or other wet areas on or adjacent to the site and existing development.	<b>MND</b>	07/09/2007
2007062032	June Lake Shoulder Widening Caltrans #9 --Mono The California Department of Transportation (Caltrans) proposes to widen the shoulders on both sides of State Route (SR) 158 to approx. 8 feet, from the junction of SR-158 and U.S. Highway 395 to North Shore Drive. The project would also replace three existing corrugated steel pipes and add flared-end sections at post mile 0.4, 0.5, and 0.7. Between post mile 0.8 and 0.9, the existing slope would be cut back forming a 2:1 slope.	<b>MND</b>	07/09/2007

2007062034	Winters Sports Park Winters, City of Winters--Yolo The project consists of the development of a sports park facility intended to provide a venue for a variety of organized sports teams, and would include the construction of baseball/softball fields, associated batting cages, soccer/football fields, indoor basketball courts, as well as picnic and child play areas. The site would be constructed on a 30 acre site containing a closed landfill that has completed the closure process. The ex-landfill site is located in the northwest corner and will not be accessible to park users. The park facility will include lighting for night use, parking areas for park users and will include wetlands utilizing an existing swale/drainage area centrally located on the site for stormwater runoff collection.	<b>MND</b>	07/09/2007
2007062035	Downtown Mixed Use Master Plan Benicia, City of Benicia--Solano The draft Downtown Mixed Use Master plan establishes standards to guide development in Downtown Benicia. The plan is intended to provide specificity and certainty regarding the design and placement of buildings in this area of special interest and value to the community. The plan includes a different set of development and land use standards than are presently established by the Zoning Ordinance, the General Plan, and the Downtown Historic Conservation Plan. Upon adoption, the standards in Chapter 4 of the plan will supercede and replace the City's Zoning Ordinance provisions regarding zoning districts, allowable land uses, permit requirements, and site development standards for the geographic area covered.	<b>MND</b>	07/10/2007
2007061026	Opus West Russell Ranch Project Westlake Village, City of Westlake Village--Los Angeles The proposed project consists of developing a 19.33-acre site with a mixed-use business park development. The proposed mixed-use business park consists of two four-story office buildings each consisting of 188,000 square feet; a two-story building that will contain a 47,500 square foot fitness center and 8,000 square feet of office space; three restaurant buildings totaling 21,000 square feet; and a grade plus two-level parking structure containing 794 parking spaces.	<b>NOP</b>	07/09/2007
2007061030	Chemoil Tank Farm Expansion Project Long Beach, Port of Long Beach--Los Angeles The proposed project would modify the existing Chemoil facility currently situated on 3.4 acres on Pier F, by expanding west onto 0.7 acres of the existing Morton Salt lease area for a new total acreage of 4.1 acres, and installing two additional petroleum storage tanks. This western expansion would require limited reconfiguration of the existing Morton Salt lease area. No material change in the Morton Salt operation is proposed. Construction would include a temporary earth dike around the western expansion area; demolition of the existing containment wall; scale and utility relocation; soil excavation, refill and compaction in the new tank area; foundation and tank construction; addition of the containment walls in the expansion area; and removal of the temporary dike.	<b>NOP</b>	07/20/2007

<b><u>Documents Received on Friday, June 08, 2007</u></b>			
2007061031	Vernon General Plan and Zoning Ordinance Vernon, City of Vernon--Los Angeles The proposed project consists of: 1) a comprehensive update to the Vernon General Plan including the Land Use, Circulation and Infrastructure, Housing, Safety, Noise, and Natural Resources Elements and 2) a comprehensive revision of the Vernon Zoning Ordinance (Title 26 of the Municipal Code).	<b>NOP</b>	07/09/2007
2007062030	Salt River Ecosystem Restoration Project Humboldt County Ferndale--Humboldt The Salt River Ecosystem Restoration Project is a watershed based, ecosystem scale project with multiple objectives including habitat restoration and enhancement, water quality improvement, and flood alleviation. The project is intended to provide immediate and substantial improvements to the watershed, and to restore natural processes to the extent that conditions within the project area are self sustaining or can be feasibly maintained. However, due to the scale and magnitude of the alterations that have occurred within the watershed, additional restoration projects will likely be required in the future.	<b>NOP</b>	07/09/2007
2007061027	Conveyance of Refuge Water Supply, Including Modification and Reconstruction of Facilities Fresno Irrigation District Mendota--Fresno, Madera Conveyance of Refuge Water Supply, modification and reconstruction of facilities (Mendota Wildlife Area and Mendota Dam).	<b>Neg</b>	07/09/2007
2007061028	PM062985/RENT200500096 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is an application for a Tentative Tract Map to subdivide the subject parcel to build 16 single family residences. Fifteen of the proposed residences will have lot sizes of 1.1 acres each and one will have 1.046 acres. The proposed project will require the installation of individual septic systems, a water main connection through the Los Angeles County Waterworks District #37, and 16,000 cubic yards of grading to be balanced on-site for building pads. Project site access will be taken from Crown Valley Road, San Ysidro Lane, and Poppy Road. Poppy Road will be extended north onto the center of the project site to a cul-de-sac end. There is an existing single family residence on site.	<b>Neg</b>	07/09/2007
2007061034	833 Embarcadero Outrigger Morro Bay, City of Morro Bay--San Luis Obispo The applicant is proposing to demolish and replace the existing restaurant, floating dock, and remove the outdoor dining while remodeling the front half of the building keeping two commercial lease spaces on the first floor and adding a six unit inn on the second floor. The project will require the partial removal of the existing building along Embarcadero and the complete removal of the restaurant and deck/floating dock. The pilings supporting the deck will be lifted out of the seabed to minimize seabed scouring. On the street level, the proposed project will include approx. 1,316 sq. ft. of commercial lease space, along with a restaurant, fish market, and additional space for bathrooms, elevator, stairs, for a total street level area of approx. 5,800 sq. ft. On the upper level are six inn rooms comprising approx. 4,000 sq. ft. The total building area is approx. 9,833 sq. ft. with a footprint of 5,803	<b>Neg</b>	07/20/2007

	sq. ft. or 59% lot coverage. The applicant will also construct the required lateral access way along the bay frontage: this lateral access will be limited until the neighboring site is developed to connect for safe ingress/egress. The applicant's are requesting the project be considered a remodel in order to retain the historic parking credits. The previous uses required 31 parking spaces and the new uses parking demand are 31 parking spaces, a project net balance.		
2007062033	Target Rancho Cordova, City of Rancho Cordova--Sacramento The proposed project would involve the demolition of the existing 111,766 sq. ft. Target and the adjacent 15,062 sq. ft. strip mall structure. The proposed project requires City Design Review in order to construct a new 143,684 sq. ft. Target building in the location of the original Target building. The reconstructed building would result in an increase of 16,856 sq. ft., a total floor area increase of 13.3%. The project site is 9.86 acres. Site improvements would include upgraded Americans with Disabilities Act (ADA) compliant parking stalls, parking lot revisions, and a one way ingress and egress at Olson Drive.	<b>Neg</b>	07/09/2007
2007068079	Vogeler Stream Maintenance Fish & Game #2 --El Dorado Removal of brush, cattails, weeds, blackberry bushes and one 12" diameter dead tree along 250' of the dry creek to reduce chances of flooding.	<b>Neg</b>	
2002022004	Silicon Valley Rapid Transit Corridor -- BART Extension to Milpitas, San Jose and Santa Clara Santa Clara Valley Transportation Authority Milpitas, San Jose, Santa Clara--Santa Clara, Alameda The project consists of an approximate 16.1-mile extension of the BART system, which would begin at the planned Warm Springs BART station in Fremont, extend along the Union Pacific Railroad line through Milpitas to near Las Plumas Avenue in San Jose. From there, BART would leave the railroad right-of-way, tunneling under downtown San Jose to the Diridon Caltrain Station. The BART extension would then turn north under the Caltrain line and terminate at grade near the Santa Clara Caltrain Station.	<b>NOD</b>	
2003122075	Wastewater Treatment Plant Improvement Project Colfax, City of Colfax--Placer The proposed project will replace the existing interim tertiary treatment plant with a new extended aeration tertiary treatment package plant to fully meet the Cease and Desist Order, Waste Discharge Requirements, and Project EIR requirements. These improvements are designed to handle a 0.275 million gallons per day average dry weather flow, 0.5 mgd annual average flow, and 1.1 mgd peak month flow that will accommodate a 2020 design population of 2,916. Flows above 0.5 mgd will be diverted to Pond No. 1.	<b>NOD</b>	
2004122042	Alameda Theater, Cineplex and Parking Structure Project Alameda, City of Alameda--Alameda Landscaping, Signage & Lighting Plan for Cineplex and Civic Center parking garage. This Project is being implemented through a contract with the City of Alameda, Alameda County.	<b>NOD</b>

<b><u>Documents Received on Friday, June 08, 2007</u></b>			
2007042039	Schnepf Minor Subdivision and Special Permit Humboldt County Community Development Services --Humboldt A Minor Subdivision of an approximately 87-acre parcel into two parcels of 43 and 44 acres, respectively. The parcel is currently undeveloped. The parcels will be accessed via a 12'-16' wide gravel access road off Titlow Hill Road. The parcels will be served by on-site water and sewage disposal. An exception request has been approved by Cal Fire to allow the 12'-16' wide gravel driveway given that it serves as an access for only two parcels beyond the subject parcel. A Special Permit is requested to allow minor road improvements within a Streamside Management Area. Stream crossings already exist and no changes to them will be necessary.	<b>NOD</b>	
2007042058	Levee Repair Master Plan Program East Bay Regional Parks District Hayward--Alameda The East Bay Regional Park District proposes to repair failing outboard and inboard levees at Hayward Regional Shoreline, a 1,684-acre parkland within the City of Hayward, on the southeastern shoreline of the San Francisco Bay. Large sections of exposed shoreline, marsh and interior basin levees along the tide, storm and wind events. In recent years, waves have overtopped shoreline levees closing portions of Hayward Regional Shoreline and causing severe erosion and dangerously undercutting the levees.	<b>NOD</b>	
2007042060	Wohler Road Bridge over Mark West Creek Bridge Replacement Sonoma County --Sonoma The proposed project would replace the Wohler Road Bridge over Mark West Creek. The project would move the crossing east (upstream) approximately 100 feet from the north end of the existing bridge and 60 feet upstream from the south end of the existing bridge. The new bridge would consist of a 3-span concrete slab supported by two solid wall concrete piers that are centered in the main portion of the creek channel.	<b>NOD</b>	
2007042073	Upper Banvard Canal Maintenance Project Placer County Water Agency Auburn--Placer PCWA is proposing to repair a 1,200 foot long segment of the Upper Banvard Canal System. The proposed maintenance project entails installing a 16 inch pipe in this segment of the earthen canal. This section of the Upper Banvard Canal system requires maintenance because the canal is deteriorating and is leaking substantial amounts of water. Most of the water in the canal is leaking out of the deteriorating canal and is not reaching downstream customers.	<b>NOD</b>	
2007069017	Bridge Street Repair, Agreement 2007-0037-R4-Unnamed Tributary to Santa Rosa Creek Fish & Game #4 --San Luis Obispo Reconstruct 375 feet of roadway, rebuild 175 linear feet of failed slope, replace a 24-inch culvert, and install approximately 800 cubic yards of rock slope protection. Upon completion of construction, disturbed areas will be treated with jute netting and hydroseeded.	<b>NOD</b>

	through the revetment, causing the railroad to erode. Repairs to this section include filling low spots and voids in the revetment with appropriately sized rock to tighten up the existing riprap. After filling the low spots and voids, a low-slump quick-setting concrete will be pumped into the remaining gaps where necessary.		
2007068083	San Luis Creek Ramp Widening; Agreement 2007-0031-R4 Fish & Game #4 --Merced Excavate to construct a 53-foot wide by 120-foot long concrete boat ramp with concrete abutment and five piles to support the new boarding floats, and placement of riprap along all sides of new ramp.	<b>NOE</b>	
2007068084	Mendocino Unit Firefighter Academy Training Burn Forestry and Fire Protection, Department of --Mendocino This project involves the ignition of grass and brush for the purpose of training new seasonal firefighters. Activities include establishing perimeter and interior fire control lines, using either a grader or a bulldozer, to blade to bare mineral soil. The project encompasses approximately 10 acres within an area covered primarily by annual grasses and a very minor coyote brush component. The intervening grassland areas will be ignited to allow firefighter trainees to engage in direct attack firefighting techniques to extinguish the fire.	<b>NOE</b>	
2007068085	Final Corrective Measures Action Workplan for Wilson Street Corporation Facility, Removal of Top 12 Inches of Soil from the West Yard with Selected Deeper Hot S Toxic Substances Control, Department of Los Angeles, City of--Los Angeles The project is a Final Corrective Measures Action Workplan (FCMAW) for the excavation of metals contaminated surface soil that resulted from past precious metal recovery and recycling activity at the facility. The target cleanup levels for the contaminated soils are the California Human Health Screening Levels (CHHSL's).	<b>NOE</b>	
2007068086	East & West Stockton Boulevard Resurfacing Project Elk Grove, City of Elk Grove--Sacramento The goal of the improvements is to enhance ride serviceability, extend the pavement life of these street segments, and provide ramps that are compliant with the Americans with Disabilities Act (ADA) requirements. The proposed project would resurface portions of East and West Stockton Boulevards, and a portion of Auto Center Drive. East Stockton Boulevard would be resurfaced from Elk Grove Boulevard to approximately 1,200 feet south of Elk Grove Boulevard, and between Emerald Vista Drive and Bond Road. West Stockton Boulevard would be resurfaced between Dunisch Road and Laguna Boulevard, and between Auto Center Drive. Finally, Auto Center Drive would also be resurfaced between West Stockton Boulevard and Elk Grove Boulevard.  Work would consist of removal and replacement of localized pavement failure (approximately 6" depth), 2" overlay of asphalt concrete, reconstruction of curb ramps to ADA compliance, sidewalks and curb and gutter repair, traffic signal loop replacement, and traffic striping. All work would be within City of Elk Grove right-of-way. The project would not change the horizontal or vertical alignment or increase the number of through-lanes. No traffic generating structures or features would be constructed as part of this project. No trees would be removed.	<b>NOE</b>

	acre to 19.5 acre parcels on 68 acres for single family residential development.		
2007062041	Parcel Map 07-001-Ross Shasta County --Shasta The request is for a two parcel land division resulting in a three acre parcel and a two acre parcel. The project site is currently developed with a single family residence and accessory buildings. The proposal is to allow for the construction of an additional single family residence. The project site is located in the Happy Valley area, on the north side of Cloverdale Road, approx. 1/10 of a mile west of its intersection with Pine Meadow Place. Cloverdale Road borders the project site on the south. Surrounding properties are large lots and rural residential in character.	<b>MND</b>	07/10/2007
2007062042	Use Permit 01-060A-Hill Country Clinic Shasta County --Shasta The Hill Country Community Clinic (HCCC) is requesting an amendment to a current Use Permit to allow for a 12,500 sq. ft. expansion to an existing 8,000 sq. ft. medical clinic building located in Round Mountain. In addition, the applicant proposes to construct a separate 3,275 sq. ft. building to be used as a community/teen center (1,075 sq. ft.) and a garage/maintenance area (2,200 sq. ft.) to store and maintain transportation vehicles.	<b>MND</b>	07/10/2007
2007062043	Parcel Map 06-077-Hidden Hills Investments Shasta County --Shasta The project is a two parcel land division resulting in a 5.31 acre parcel and a 5.77 acre parcel. The project is located in the Cottonwood area on Hidden Hills Road approx. 1/2 mile west of its intersection with Rancho Estates Road. Hidden Hills Road borders the project site on the north. Surrounding lands are predominately used for residential and part time agricultural uses.	<b>MND</b>	07/10/2007
2007062044	Parcel Map 06-062-Donovan Shasta County Redding--Shasta The request is for a two parcel land division. The land division will result in the creation of a 4 acre parcel and a 57.16 acre parcel. The proposed 4 acre parcel will contain a previously developed residence and accessory buildings. The project will include the widening and surfacing of Purple Elm Drive, from its intersection with Placer Road to the project site. Development will also include the grading and construction of a driveway to serve the 57.16 acre parcel and the extension of approx. 1,500 feet of water service line. It is estimated that the driveway construction will require the disturbance of approx. 1,400 +/- cubic yards for cuts and fills.	<b>MND</b>	07/10/2007

2007061044	<p>Foothill Parkway Westerly Extension Corona, City of Corona--Riverside</p> <p>The proposed Foothill Parkway Westerly Extension project is located in the southern portion of the City of Corona along the base of the Santa Ana Mountains and would involve the extension of Foothill Parkway as a four-lane roadway, from approximately 500 feet west of Skyline Drive to the Green River Road. At Skyline Drive, the roadway would veer to the west into unincorporated Riverside County and continue in an east/west direction along the City/County boundary. The alignment would then curve to the north and connect with Green River Road in the vicinity of Paseo Grande. The project is being designed to protect the existing 108-inch Metropolitan Water District feeder line located approximately 500 feet east of Paseo Grande. Roadway improvements would require right-of-way acquisition for new landscaping, curbs, shoulders, travel lanes, and landscaped medians. The proposed project also includes up to three new signalized intersections.</p>	<b>NOP</b>	07/10/2007
2007062036	<p>Legacy Park Apartments Initial Study (SEIR 4-06) Stockton, City of Stockton--San Joaquin</p> <p>The proposed project is located at the southwest corner of Morada Lane and Frontage Road/State Route 99. The project site has been zoned for high density residential (RH) and public facility (PF) uses. The project will include 497 apartment units. Vehicle access to the project site would be provided via Morada Lane. An additional entrance along State Route 99 Frontage Road would provide emergency vehicle access. Residential developments border the project site to the south and west. An existing fire station (Waterloo Morada Fire Station No. 2) is present on site (along Frontage Road) that will be abandoned. A rezoning of the fire station parcel (approximately one acre) from PF to RH is required to accommodate the site development.</p>	<b>NOP</b>	07/10/2007
2007062046	<p>Amendment to Existing Redevelopment Plan for the Sonoma Valley (The Springs) Redevelopment Project Sonoma County Unincorporated--Sonoma</p> <p>The Sonoma County Community Development Commission proposes an amendment to and restatement of the Redevelopment Plan for the project for consideration of adoption by the Sonoma County Board of Supervisors to: update the goals and objectives for redevelopment of the project area; add new capital improvement projects to the Redevelopment Program; increase the current \$20 million limit on the amount of tax increment revenue that may be received from the project area; increase the current \$8.5 million limit on the amount of outstanding bonded indebtedness supported by tax increment revenue; and revise and update various text provisions to conform to the current requirements of California Community Redevelopment Law. The Plan amendment would also change the name of the project and project area from "Sonoma Valley Redevelopment Project" to "The Springs Redevelopment Project."</p> <p>The proposed plan amendment and restatement will not include any changes to the land uses, layout of principal streets, population densities, building intensities or building standards applicable to the area. Additionally, the proposed plan amendment and restatement will not contain any extension or renewal of the Commission's power of eminent domain within the project area, which expired in</p>	<b>NOP</b>	07/10/2007

2007068092	"Home Base" Parking of Two Vans and Five Small Buses Soquel Elementary School District Capitola--Santa Cruz Although we believe that this activity is not a project, we are submitting this exemption. The district owns small group of vehicles (2 vans, 4 small buses) to transport those few students who have been determined, through the IEP process, to require transportation. A 5th small bus is kept as a back up. We wish to park the two vans and five small buses in an existing parking lot at 620 Monterey Avenue.	<b>NOE</b>	
2007068093	Edmundson Acres Water Project Arvin Community Services District Arvin--Kern Annexation of the Edmundson Acres community to the Arvin Community Services District and new construction of about 4,470 feet of 12 inch transmission line, 2,805 feet of 8 inch and 3,670 feet of 6 inch distribution lines, water services, meters, valves and fire hydrants to bring clean water from the Arvin CSD to Edmundson Acres.	<b>NOE</b>	
2007068094	Sierra Falls Plaza Project Fish & Game #2 Rocklin--Placer This agreement pertains to the Sierra Falls Plaza Project, which involves the extension of a culvert. The project consists of 13 lots for commercial, retail, and office buildings and one open space lot for the preservation. To accommodate the widening of Sierra College Boulevard, the two existing 72-inch culverts will be extended approximately 30 feet upstream and a new headwall will be constructed, as described in Notification 1600-2007-0110-R2.	<b>NOE</b>	
2007068095	Salinas River Parkway - Land Acquisition & Restoration (State Water Resource Grant # 06-163-553-0) Paso Robles, City of Paso Robles--San Luis Obispo (a) The land acquisition portion of the project proposes to permanently protect up to 260 acres of land along the Salinas River corridor for long-term public ownership and management by the City of Paso Robles as part of the planned Salinas River Corridor Vision Plan. (b) The restoration portion of the project proposes to implement storm water remediation efforts to surface channels which discharge directly to the Salinas River in order to stabilize banks, slow the velocity of storm water, and naturally filter pollutants before the runoff enters the river channel. NOTE: This exemption notice covers the collection of information for the restoration project and not the project design itself.	<b>NOE</b>	
2007068096	Amendments to Regulation 3: Fees Bay Area Air Quality Management District --Alameda, Contra Costa, Marin, Napa, San Francisco, ... The project consists of amendments to an existing BAAQMD regulation that establishes fees for source operations and other activities. The amendments become effective on July 1, 2007. The proposed amendments increase fee revenue in order to help the District recover a greater share of the costs incurred to implement and enforce regulatory programs for stationary sources of air pollution. The proposed amendments increase fees for equipment in most schedules in Regulation 3 by 3%, 5%, or 15%. Schedules C: Organic Liquid	<b>NOE</b>

	Storage Containers, and Schedules G-3 and G-4: Miscellaneous Sources, have not been increased. Fees for filing permit applications for new and modified sources, duplicate permits, emission banking filing and withdrawal, alternate compliance plans, and permit renewal processing increase 5%.		
2007068097	6101 Landis Avenue Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Tentative Parcel Map to divide a 0.621 +/- acre parcel into three lots in the RD-5 zone. The project also includes an Exception to Title 22.110.070(d) of the County Land Development Ordinance to allow one of the lots to have a depth less than 95 feet. NOTE: No new development is proposed on Parcel B containing the oak trees (Tree #'s 1 and 2).	<b>NOE</b>	
2007068098	Abandonment of Public Utility Easement at 5214 Buena Vista Avenue Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of the Abandonment of a 15 foot wide portion of a recorded 25 foot wide Public Utility Easement on the southerly portion of the subject parcel.	<b>NOE</b>	
2007068099	T-Mobile Site SC25426 Use Permit Sacramento County Dept. of Environmental Review Rancho Cordova--Sacramento The proposed project consists of a Use Permit to collocate twelve antennas at a height of 84.4 +/- feet on an existing water tower on approximately 7 acres in the SPA zone.	<b>NOE</b>	
2007068100	Hop Kiln Winery Bridge and Bank Stabilization Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Healdsburg--Sonoma The purpose of this project is to replace a bridge that has been washed out by 2006 storm flooding. The bridge and its supports have subsequently been removed by the applicant. The project involves two sites located approximately 150-feet apart from one another on a 300-ft reach of Pistol Creek. A new bridge will be constructed in the location of the old bridge. The channel under and around the bridge will be restored to a stable geometry by re-establishing a bank-full channel and over bank-full terraces. The upstream site work will consist of stabilizing an eroded bank with rock slope protection in addition to adding three rock grade control structures across the channel within the bridge area and at the upstream site. The existing channel profile through the two project sites is currently unstable because of two head-cuts that are currently migrating upstream between the two project sites. The applicant is working with local resource agencies to secure grants for the purpose of restoration of this reach and to provide fish passage. Prior to any work in the channel the project site would be cleared of salmonids and other species by a qualified fisheries biologist. All rock slope protection (rip-rap) will be heavily vegetated.	<b>NOE</b>	
2007068101	Removal Action Workplan, Heroic War Dead United States Army Reserve Center, Oakland, California Toxic Substances Control, Department of Oakland--Alameda The remedial action consists of: - Removal of approximately 750 cubic yards of PAH-impacted soil in the vadose zone and in subsurface soil to a depth of 9 feet below ground surface (bgs)	<b>NOE</b>

	<p>identified in the Building 1064 Yard.</p> <ul style="list-style-type: none"> <li>- Removal of approximately 2,037 cubic yards of top soil and installation of up to 55,000 sq. ft. of engineered asphalt cap at the Building 1070 Yard to prevent dermal contact or ingestion of lead-impacted soil. Cap installation involves one foot of top soil excavation, an engineered soil underlayment, and an asphalt pavement surfacing.</li> <li>- Institutional controls, via a land use covenant and operation and maintenance agreement, that will apply to the entire site property.</li> </ul>		
2007068102	<p>Tentative Parcel Map T07-029 Tuolumne County --Tuolumne Tentative Parcel Map T07-029 to adjust 8,742 square feet between two parcels. The remaining parcels will be 4.4 +/- acres and 4.3 +/- acres, respectively. Acreage will remain the same for both parcels. The parcels are zoned RE-5 (Residential Estate, Five Acre Minimum) under Title 17 of the Tuolumne County Ordinance Code.</p>	<b>NOE</b>	
2007068103	<p>Amendments to the Urban Renewal/Redevelopment Plans for Project Area Nos. 1-A (Eastshore Park), 1-B (Pilot), 1-C (Portrero), 3-A (Galvin), 6-A (Harbor Gate), 8- Richmond, City of Richmond--Contra Costa The Redevelopment Plan Amendments, adopted pursuant to SB 1096, codified in part at Health and Safety Code Section 33333.6(c)(2)(D), amends the time limits of the Redevelopment Plans.</p>	<b>NOE</b>	
2007068119	<p>Right of Entry Permit and Utility Easement for the USC Exposition Park Ductbank Infrastructure Installation General Services, Department of Los Angeles, City of--Los Angeles The Department of General Services/Real Estate Services Division (DGS/RESD) proposes to approve a request for a utility easement and a right-of-entry permit to the University of Southern California (USC). The right-of-entry permit would allow USC to use State property (California Science Center) for equipment storage. Additionally, DGS/RESD proposes to grant a utility easement to USC to construct and install approximately 1,600 feet of underground telecommunication duct bank within Exposition Boulevard, a public roadway across State-owned property. The duct bank would be installed between Figueroa Street and Watt Way and is located approximately 17 feet north of the southern curb in Exposition Boulevard. The duct bank links the new USC data center to its main campus.</p> <p>The USC project will drill concrete/asphalt in the roadway to drop encased duct bank containing four-4" diameter PVC conduits measuring 17 inches in width by 17 inches in height. The top of the concrete encasement is located 48 inches below street level. A total of 3 manholes measuring 5 feet (length) by 8.5 feet (width) by 6.5 feet (high) are also proposed within the right-of-way along the route of the duct bank. The City of Los Angeles has reviewed and approved the project activities. Construction time is estimated to be approximately 2 weeks.</p>	<b>NOE</b>

2006112072	Roberts Road Subdivision/Harmony @ 1 Pacifica, City of Pacifica--San Mateo Planned Development on 65 acres with 13 residential lots and 39 acres of natural open space and development of an adjoining 2-acre agricultural parcel with a single family residence and second residential unit. Sustainable subdivision integrates green building strategies and includes solar power, grey water recovery, rainwater collection, use of drought tolerant native plants, and earth-friendly construction materials.	EIR	07/26/2007
2006121001	Pasadena Groundwater Storage Program Pasadena Water and Power Pasadena--Los Angeles The Pasadena Groundwater Program (PGSP) is a conjunctive use program between Metropolitan Water Dist. Of Southern California (MWD), Pasadena Water and Power (PWP), and Foothill Municipal Water Dist. (FMWD) to improve reliability of water supply to the City of Pasadena (the City or Pasadena) and surrounding water agencies and to reduce dependence on imported MWD water deliveries during periods of drought or emergency conditions. Under the project, water would be stored in the Raymond in the Raymond Groundwater Basin through in-lieu recharge (reduced pumping of groundwater with surface water supply offset) and through the direct injection (using aquifer storage and recovery 'ASR' wells) of water that has been treated at the Weymouth Water Treatment Plant. The PGSP would store up to 66,000 acre-feet (AF) of water in the Pasadena Subarea of the Raymond Basin over a four year period at a rate of up to 16,500 acre-feet per year (AFY) when imported water supply is plentiful. The water would then be extracted at a rate of up to 22,000 AFY when imported supplies are limited due to a drought or emergency. Stored groundwater in the conjunctive use account would be used to offset firm demands of PWP and FMWD on MWD at their service connections. Program operation would be monitored and regulated by the Raymond Basin Management Board (RBMB or Watermaster) to ensure no	EIR	07/26/2007

2007068113	Relocation of DGS Telecommunications Division Operations Communication Shop General Services, Department of Susanville--Lassen The Department of General Services Telecommunications Division is proposing to lease ~2,500 square feet of existing office/warehouse space for their Operations Communications shop, to be located at 1545 Paul Bunyan Road, Suite B. The space would house ~3 employees and will include storage space and repair space for telecommunications. Approximately 5 parking spaces for visitors and staff.	<b>NOE</b>	
2007068114	McCosker Pier Rebuild Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado Removal of existing pier and marine railway and rebuild of new pier at McCosker Residence.	<b>NOE</b>	
2007068115	Weaver Pier Expansion Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado Removal of existing pierhead and extend current pier at Weaver Residence.	<b>NOE</b>	
2007068116	Water Intake Box at Glacier Lodge Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Inyo Removal of existing water intake box and rebuild new intake box within Big Pine Creek at Glacier Lodge.	<b>NOE</b>	
2007068117	Ulatis Flood Control Project Solano County Water Agency --Solano The Solano County Water Agency proposes to conduct routine maintenance activities in creeks and flood control channels within Solano County. These activities are necessary to maintain the water transport capacity of streams and flood control channels and maintain the structural and functioning integrity of existing flood control facilities.	<b>NOE</b>	
2007068118	Reconstruct Embankment Caltrans #3 --Placer The project will stabilize the embankment which has failed due to saturation from a series of heavy storms.	<b>NOE</b>	
2007068120	Demonstration of the Benefits of Applying Electric Energy Storage for Light Rail Trackside Energy Commission Sacramento--Sacramento The proposed project helps overcome this load problem by recycling the kinetic energy and providing voltage support, resulting in energy savings and deferring expensive transformer upgrades. This project will install and validate the performance of electricity energy storage systems for energy savings, peak load reduction and deferrals of new substations for a light rail system. Two ultra-capacitor systems will be installed along the trackside of the Sacramento Regional Transit (RT) Light Rail system. These energy storage systems will absorb energy when the trains are braking and provide energy when the train accelerates. The project includes monitoring the electric system to measure the performance and energy savings provided.	<b>NOE</b>

2007062059	Bahia Trail Relocation Marin County Novato--Marin Re-route of an existing trail to increase buffer between trail and wetland areas.	<b>MND</b>	07/12/2007
2007062065	Stockton Marina and Promenade Project Stockton, City of Stockton--San Joaquin Use Permit for the redevelopment of the existing waterfront promenade and marina to extend the promenade to the Morelli Park pedestrian bridge, facilitating the planned future bike/pedestrian connection to the Port, and provide enhanced permanent and guest dock facilities for resident and visitor use of the Waterfront. This also includes landscaping, parking, an access road, and related improvements. The existing South Shore marina (originally approved for 272 berths) would include renovation/removal of some of the existing berths, creating 66 covered permanent berths. One city owned and one future guest dock would be constructed on the South Shore, and two city owned docks and one guest dock would be constructed along the North Shore. The project area includes approx. 11.3 acres of water surface and 6.9 acres of land area located on the north and south sides of the Stockton Channel between Center Street and Interstate 5. The project is located within the boundaries of the West-End Redevelopment Area.	<b>MND</b>	07/13/2007
2006022075	MacArthur Transit Village Project Oakland, City of Oakland--Alameda The proposed MacArthur Transit Village project would include the construction of five buildings with up to 675 units of high-density multi-family housing and up to 39,000 square feet of ground-floor neighborhood serving retail and community space. Approximately 113 units (20 percent of the market rate units) would be below market rate, with the remainder of the units being for-sale condominiums. The project includes approximately 775 residential, retail and community use parking spaces and 300 BART parking spaces. BART currently has approximately 600 spaces dedicated for exclusive BART parking purposes. The project would reduce exclusive BART parking by approximately 50 percent. The project would also include access improvements to the MacArthur BART station.	<b>NOP</b>	07/12/2007
2007061056	Eden Rock at PGA West La Quinta, City of La Quinta--Riverside The proposed Eden Rock at PGA West project would include the construction of a clubhouse/recreation center in the center of the project site, as well as 81 manor homes, 83 courtyard homes, and 128 village condominium homes for a total of 292 residential units. Construction of the project, if approved, would begin in the last quarter of 2008, with full build-out anticipated to be complete by the last quarter of 2011.	<b>NOP</b>	07/12/2007
2007061057	Nohl Canyon Water Storage Tank Project Anaheim, City of Anaheim--Orange The project proposes demolition of the existing reservoir and construction of a 10 mg water storage tank.	<b>NOP</b>	07/12/2007

2007061059	The Commons at Quartz Hill Lancaster, City of Lancaster--Los Angeles The proposed project consists of the development of an approx. 353,129 sq. ft. commercial shopping center located on 40.15 acres at the northwest corner of 60th Street West and Avenue L. As part of the proposed project, a General Plan Amendment (GPA 06-04) and Zone Change (ZC 06-04) would be required in order to change the general plan designation from Urban Residential to Commercial and its zoning from R-10,000 to Commercial Planned Development (CPD). A Conditional Use Permit (CUP 06-09) and Tentative Parcel Map (TPM 68150) would also be required for the proposed project. The commercial development would include two anchors and up to ten smaller buildings that would house a variety of food, merchandise, and service uses. One proposed anchor is a Wal-Mart Supercenter, approx. 240,000 sq. ft. with an associated garden center. The other anchor is anticipated to be approx. 90,000 sq. ft. A total of 1,837 parking spaces are anticipated to be provided and access to the project site would occur from 60th Street West and Avenue L.	<b>NOP</b>	07/12/2007
2007062061	Walking Bridge Installation for Verde Cruz Creek Crossing Arcade Creek Recreation and Park District --Sacramento The Arcade Creek Recreation and Park District proposes to change a bridge design from a low-flow bridge to a clear span bridge. The footbridge will be 35 feet long by 6 feet wide. This is part of a trail rehabilitation project that has already gone through state and federal environmental processes.	<b>NOP</b>	07/12/2007
2007062064	1012 K Street Project Sacramento, City of Sacramento--Sacramento The proposed project is a 24 story high rise residential tower, with mechanical penthouse and basement parking. The ground level along K Street includes space for retail that will serve the building occupants and the residential tower entry lobby. The building includes structured parking for the residential occupants, including one level of subterranean parking and six levels of above ground. There are 18 levels of residential units above the structured parking, and a mechanical penthouse tops the tower.	<b>NOP</b>	07/13/2007
2007061053	Conditional Use Permit Case No. 668 Santa Fe Springs, City of Santa Fe Springs--Los Angeles The proposed project involved a request for a conditional use permitted approval to allow a bio-diesel manufacturing facility utilizing some existing on-site equipment with additional portable skid mounted equipment to convert vegetable oils or animal fats into environmentally friendly bio-diesel fuel (meet ASTM D6751 standards) on a 1 acre portion of the 55 acre closed refinery site at 12345 Lakeland Road. The proposed operations will only be an interim use while equipment removal, demolition, and remediation of the site is underway.	<b>Neg</b>	07/12/2007

<b><u>Documents Received on Thursday, June 14, 2007</u></b>			
1993122077	<p>Clover Valley Large and Small Lot Tentative Subdivision Maps Rocklin, City of Rocklin--Placer</p> <p>The project applicants are seeking approval of a large lot tentative subdivision map to subdivide 622 +/- vacant acres into 33 large lots. The large lots would establish individual units being further subdivided by the proposed small lot tentative subdivision map. The small lot tentative subdivision map results in 558 single family residential lots. The applicant is requesting a General Plan Amendment and Rezone in order to address modifications to the open space and residential components of the proposal. The proposed amendments increase the amount of dedicated open space area and decrease the area for residential development. In addition, the amendments will re-orient the 5.0 acre commercial site. In addition to the proposed land use modifications, a Circulation Element Amendment is proposed for Valley View Parkway to reduce that street from a planned four lanes to two lanes. The project also includes an encroachment into the 50 foot creek setback area along Nature Trail Way at two locations.</p>	<b>FIN</b>	07/30/2007
2003081116	<p>Palomar Station Specific Plan San Marcos, City of San Marcos--San Diego</p> <p>The Palomar Station Specific Plan is a mixed-use development on 14.32 acres. The project proposes 333 residential condominium units, 48,980 square feet (SF) of commercial use (general retail), a 9,800-SF office building, 6,280 SF of restaurant/food court use, and 1,385 SF of homeowner's recreation space.</p> <p>Development of the project would occur in three phases. Phase 1 focuses on the two lots south of Armorlite Drive. Phase 1 - Lot 1 is 1.95 acres and is located at the corner of Las Posas Road and Armorlite Drive. Proposed development for this lot includes a 20,000-SF general retail building, and a 2,000-SF restaurant. The restaurant structure will be 30 feet high with a 60-foot architectural element that incorporates project signage. The general retail building will be 45 feet high. Phase 1 - Lot 2 is 6.21 acres and is located east of Phase 1 - Lot 1. Proposed development within this lot includes 211 residential condominium units, nine general retail units, a restaurant unit, a recreation unit, recreation amenities and parking. Residential product types include studios, one-, two-, and three-bedroom units, as well as live/work units. The two mixed-use buildings in Lot 2 will include four stories and a mezzanine for an overall height of 60 feet. Tower and/or spire components will reach 70 feet.</p>	<b>FIN</b>	
2007061060	<p>General Plan Amendment No. 850, Tentative Tract Map No. 32704, and Variance No. 1815 Riverside County Planning Department --Riverside</p> <p>General Plan Amendment No. 850 proposing a change of the current land use designation from Community Development: Low Density Residential (LDR)(1/2 Acre Minimum) to Community Development: Medium Density Residential (MDR)(2-5 Dwelling Units per Acre). Tentative Tract Map No. 32704 proposes a Schedule A subdivision of 7.24 acres into 26 single family residential lots with a minimum lot size of 7,200 sq. ft., and two open space drainage lots (lots 27 and 28). Variance No. 1815 proposes to change the property line depth and allow a minimum lot depth less than 100 feet between Lots 12 and 13 from 100 feet to 92 feet, 23 and 24 from 100 feet to 93 feet, and 24 and 25 from 100 feet to 73 feet, based on the site configuration and transportation's street width requirements.</p>	<b>MND</b>	07/13/2007

	Lots 1-11, 14-22, and 26-28, are proposed with a minimum lot depth of 100 feet.		
2007061061	Ojai Meadows Preserve Habitat Restoration and Flood Control Plan Ojai, City of Ojai--Ventura The proposed project is sponsored by the Ojai Valley Land Conservancy and involves the implementation of a Habitat Restoration and Flood Control Plan for the Ojai Meadows Preserve. The plan incorporates habitat restoration, wetland creation, and passive recreational opportunities on the approx. 57 acre project site. The project includes removal of a few manmade features including an earthen berm, existing sanitary sewer lines owned and operated by the Ojai Valley Sanitary District and an old building pad and driveway. The project would restore approx. 8 acres of wetland at the Ojai Meadows, improve several onsite drainages, create three vernal pools, and replicate habitats that were present on the site prior to 1929. The proposed modifications would require 21,000 cubic yards (cy) of cut, which would be balanced on site at fill.	<b>MND</b>	07/13/2007
2007061062	Modification to Line G-3 of the San Jacinto Drainage Area Master Plan San Jacinto, City of San Jacinto--Riverside The City of San Jacinto proposes to amend a portion of the alignment and design of Line G (renamed as part of this project to Line G-3) of the San Jacinto Drainage Area Master Plan. The modifications proposed for Line G-3 are necessary since the proposed Line was to connect directly to Line E of the San Jacinto Drainage Area Master Plan, which has been realigned and constructed to discharge into the San Jacinto Reservoir. In order to continue to combine storm water flows of both lines the alignment of Line G-3 will be slightly modified to discharge into the San Jacinto Reservoir, similar to existing Line E.	<b>MND</b>	07/13/2007
2007062062	Brady Lane Estates (PSUB T20051197) Placer County Planning Department Roseville--Placer Proposed a subdivision of nine lots with a minimum size of 20,000 sq. ft. each and a building of 53,490 sq. ft. of retail space.	<b>MND</b>	07/13/2007
2007062068	King and Dobbin Transit Village Planned Development Zoning and US 101/Oakland/Mabury Area Development Policy San Jose, City of San Jose--Santa Clara The zoning project site is currently developed with approx. 421,000 sq. ft. of light industrial and warehouse buildings. The project proposes rezoning the site to allow residential densities ranging from 20 to 110 dwelling units per acre (DU/AC). The project proposes to demolish the existing structures on the site and construct up to 1,300 residential units, 50,000 sq. ft. of commercial space, and a three acre park on the site. The proposed residential units include approx. 136 affordable residential units that will accommodate the relocated San Jose Family Shelter. The policy is proposed to manage the traffic congestion associated with near term "smart growth" development in the US 101/Oakland/Mabury area, including Transit Oriented Development near the planned BART Berryessa Station, Japantown Neighborhood Business District, Jackson Taylor Specific Plan, and Luna Park/13th Street Neighborhood Business District. The policy allows the levels of service (LOS) at intersections along the Oakland Road and US 101 interchange corridor to temporarily degrade below the City of San Jose's LOS standards, with a corresponding level of congestion, prior to the construction of improvements to the	<b>NOP</b>	07/13/2007

	Oakland Road/US 101 interchange and construction of the Mabury Road/US 101 interchange improvements.		
2007061063	Strand 9-1 Division of Oil, Gas, and Geothermal Resources Bakersfield--Kern Proposes activities necessary to build one drill pad and drill, test, and possibly produce one exploratory oil and gas well.	<b>Neg</b>	07/13/2007
2007061071	Treated Effluent Disposal Storage Project- 2007 Earlimart Utility District --Tulare The proposed project is to construct several earthen storage ponds of treated wastewater effluent from the Earlimart Public Utility District's wastewater treatment facility. The purpose of the ponds is to provide additional winter storage capacity. The material excavated for the storage ponds will either be temporarily stockpiled on District land or removed from the project site. Stored water will be pumped from storage for irrigation. During the spring and summer months, the water is released for crop irrigation.	<b>Neg</b>	07/16/2007
2007062063	Graber-Maranatha Fellowship Butte County --Butte A Use Permit to establish a church on an undeveloped 5 acre parcel.	<b>Neg</b>	07/13/2007
2007062066	PG&E Slope Stabilization San Mateo County Half Moon Bay--San Mateo The applicant requests a Grading Permit to restabilize the north creek bank, adjacent to Pilarcitos Creek, to repair the bank and properly house an existing PG&E pipeline. The project involves approx. 710 cubic yards grading. The project includes measures to mitigate impacts to existing riparian vegetation and removal of significant trees.	<b>Neg</b>	07/13/2007
2007062067	P98-0011/McCann Parcel Split El Dorado County --El Dorado Tentative Parcel Map to create three parcels ranging in size from 5.0 to 5.9 acres with the following design waiver requests:(1) Allow a reduction in road width from 24 feet wide to 20 feet wide with two foot wide shoulders for on and off site road improvements to Crowdis Lane and Pineoakyo Road, and (2) Permit proposed driveway from Pineoakyo Road to proposed parcel three to be 18 feet wide instead of 24 feet wide.	<b>Neg</b>	07/13/2007
2006101017	Fresno County Regional Enterprise Zone Fresno County Firebaugh, Fowler, Kerman, Mendota, Orange Cove, Parlier, ...--Fresno The 10 cities and Fresno County are requesting the establishment of a California EZ. The State of California approved the Enterprise Zone Act, establishing a mechanism to simulate employment generation and business growth in economically distressed areas throughout the state. The EZ is a long-term partnership with local governments and private companies to generate new private sector investment and growth. The State of California provides performance based tax incentives to EZ businesses to revitalize chronically areas; hire the most difficult-to-hire residents in private sector jobs; and retain, expand, and reward businesses that participate in the State objectives.	<b>NOD</b>

2006101103	<p>Olde Towne Nipomo Culverts Project (ED 06-048) San Luis Obispo County Nipomo--San Luis Obispo The California Dept. of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, County of San Luis Obispo, represented by Glen Priddy, Deputy Director of the Dept. of Public Works. The applicant proposes to replace culverts at five locations in Haystack and Hemrick creeks. The replacement culverts will be of a larger size and capacity over the existing culverts.</p>	<b>NOD</b>	
2007021103	<p>Sorrento Valley Science Park San Diego, City of San Diego--San Diego Planned Development Permit (PDP No. 86053) to amend Planned Industrial Development Permit (PID) No. 89-0398 and construct two buildings within an existing business park. A 126-foot high/8-story building and a 75-foot high/5-story building and associated features would be constructed on a 4.13-acre parcel.</p>	<b>NOD</b>	
2007031118	<p>Draft Work Plan for Time-Critical Removal Action for Installation Restoration Program (IRP) Site 2, Sub-Sites 2B, 2C, and 2G Toxic Substances Control, Department of San Diego, National City--San Diego Under the California Health and Safety code, Section 25356.1, the Dept. of Toxic Substances Control proposes to approve a Time Critical Removal Action to excavate and dispose off-site, soil contaminated with dioxins, dibenzofurans, and polynuclear aromatic hydrocarbons within Sub-sites 2B, 2C, and 2G to eliminate the potential inhalation, dermal contact, and ingestion pathways to current workers and potential ecological receptors.</p>	<b>NOD</b>	
2007032159	<p>Stormwater Attenuation and Floodplain Restoration Project Yreka, City of Yreka--Siskiyou The proposed project implements several of the stormdrainage improvements recommended in the City of Yreka Master Plan of Drainage, as adopted in August 2005. The project addresses numerous regional and regulatory priorities and provides ancillary benefits to water quality, ground water recharge, and the use of Best Management Practices (BMP's) to address issues of urban runoff. The proposed project is designed to attenuate peak storm runoff in an effort to lessen flooding effects on downtown Yreka along Yreka Creek. The City has received an Integrated Watershed Management Program (IWWP) Proposition 40 grant from the State Water Resources Control Board for the installation of storm drain infrastructure.</p>	<b>NOD</b>	
2007041127	<p>Former San Bernardino I (Arrow Avenue) Manufactured Gas Plant Site Toxic Substances Control, Department of San Bernardino--San Bernardino The project consists of excavation of ~2,671 cubic yards of soil contaminated with polycyclic aromatic hydrocarbons, lead, benzene, and naphthalene from the Site. The contaminated soil will be excavated and transported offsite for treatment and disposal. Parcel A is covered by asphalt and currently occupied by a commercial building which is currently being used as law offices. Parcel C is covered by asphalt and is currently used as a parking lot by the employees of Caltrans. Parcel B is occupied by a commercial building and being used by Joseph E. Bonadiman and Associates, Inc.</p>	<b>NOD</b>

2007069032	Streambed Alteration Agreement 1600-2006-0498-3 / 1-06-099 MEN Fish & Game #3 --Mendocino The activities are situated in the Big Salmon Creek (#1113.400005) and Navarro River (#1113.500706) State Planning Watersheds. Five activities involves the replacement of undersized, failing culverts with new oversized culverts, one activity involves removal of a Class II crossing, one activity involves placing a temporary or permanent railcar bridge, and one activity involves removing a 48-inch culvert and replacing it with a bridge. Activity 1 is on the Class I lower portion (about 400 feet) of Kitchen Gulch. Kitchen Gulch is a tributary to Big Salmon Creek. Activities 2 through 7 are on non-fish bearing Class II watercourse tributaries to Big Salmon Creek. Activity 8 is on Big Salmon Creek. These activities are located on the Elk USGS 7.5' quadrangle in Mendocino County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0498-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, The Conservation Fund.	<b>NOD</b>	
2007068147	Porch Pillar Replacement Wrightington Adobe (06/07-SD-43) Parks and Recreation, Department of --San Diego This project consists of the replacement of three deteriorating existing porch supports on the Wrightington Adobe a reconstructed historic period building located in Old Town San Diego State Historic Park. The supports will be replaced in kind and no ground disturbance will be necessary.	<b>NOE</b>	
2007068148	Los Angeles SHP, Modular Offices Parks and Recreation, Department of --Los Angeles The project proposes to construct a modular office building, associated utilities and minor site improvements and amenities including an ADA ramp, a deck, sewer holding tank and screen, and stabilization of the parking lot at the Park.	<b>NOE</b>	
2007068149	Location of Small New Structure at N.A. Chaderjian Youth Correctional Facility (YCF) Corrections and Rehabilitation, Department of Stockton--San Joaquin CDCR will install modular units to provide classroom, counseling, and office space to address operational and programmatic deficiencies identified in the Farrell litigation. The modular units are approximately 6,560 square feet will be placed within the secure perimeter of the YCF site, in open space between existing structures. The small open spaces are disturbed areas that include mown lawn grass or ruderal grasses.	<b>NOE</b>	
2007068150	Big Basin Redwoods State Park - Saddle Mountain Property Acquisition Parks and Recreation, Department of --Santa Cruz The proposed project consists of an acquisition of two parcels comprising 17.48 acres; acquisition will allow an expansion of the Big Basin Redwoods State Park. The property contains redwood forest habitat and a small summer camp that operates environmental education programs. The acquisition will be "as is"; the property will be transferred with all improvements. It is anticipated the environmental education program will continue operation.	<b>NOE</b>

2007062073	Alpine County Proposed Resource Management Plan Amendment Bureau of Land Management --Alpine The purpose of the Alpine County Resource Management Plan Amendment is to amend the Carson City Office Consolidated Resource Management Plan (CRMP) specific to: (1) land tenure designations for 18,680 acres of BLM managed lands; (2) identify and designate trails and travel management for 18,680 acres of BLM managed lands; (3) close three livestock grazing allotments to all grazing and one allotment to cattle grazing (total acres 11,906 acres). The need for the plan is to : (1) respond to a 1999 request from Alpine County to identify additional lands available for community expansion; (2) address recent Bureau policy and guidance on designation of travel and transportation networks; (3) amend previous grazing decisions to reflect Alpine County's updated zoning changes.	EA	07/18/2007
2006061002	Central Regional High School No. 16 Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project entails the construction of a new high school for grades 9 through 12 on a 13.4 acre site in the City of Los Angeles. By providing approx. 2,025 two-semester seats, the proposed project would relieve overcrowding at Manual Arts High School and South Los Angeles Area New High School No. 1. This new school would require approx. 180 full-and part-time faculty and staff, and would accommodate a traditional high school, a summer school, an adult school, after-school programs and extra curricular activities for students, and community uses, when it is not scheduled for school-or district-related events. The proposed new school would provide approx. 200,000 sq. ft. of new building development, including 75 classrooms, a library/media center, a multi-purpose room, gymnasium, performing arts area, administrative offices, and a food service area. The school would be divided along Avalon Blvd. and East 52nd St., and would include a football stadium track field facilities with bleachers. Nighttime filed lighting would be provided for evening sporting events. Additional play courts would be provided on the second floor of the parking garage, located at the southeast corner of East 52nd Sr. and Towne Ave. This garage, with approx. 188 parking spaces, would provide parking for faculty and staff. On-street parking is proposed to accommodate visitors and students. The project would include improved sidewalks along the perimeter of the site, landscaping, and site fencing. A portion of East 53rd St., an east-west alley, and a north-south alley would be vacated as part of the proposed project.  The proposed project site is occupied by an existing LAUSD school campus, Johnson Opportunity High School; approx. 152 single-and multi-family residential units; commercial businesses, including a swap meet; a butcher shop; and an automobile sales and/or repair business. Development of the site would require the acquisition of 28 parcels and demolition of all existing buildings. The approx. 140 students attending Johnson Opportunity High School would be absorbed by other schools.	EIR	07/30/2007

2007061068	Tentative Tract Map No. 32723 Riverside County Planning Department --Riverside Proposes a Schedule "B" subdivision of 7.07 acres into 10 single family residential lots with a minimum lot size of 20,000 sq. ft.	<b>MND</b>	07/16/2007
2007061069	Specific Plan No. 2006-002 and Zone Change No. 2004-004 Apple Valley, City of Apple Valley--San Bernardino The request is for approval of a Specific Plan (North Pointe) for an approx. 485 acre site. The proposed Specific Plan contains single family residential, general commercial, mixed use, and open space land uses. The proposed Specific Plan changes approx. 485 acres with a current Very Low Density Residential (R-VLD), one dwelling per five acres zoning designation to Specific Plan (SP). The intent is to develop 327 acres of Single Family Residential (R-SF), lots one dwelling per half acre and some larger lots. This Specific Plan also proposes approx. 46 acres of General Commercial (C-G), 74 acres of Mixed Use (M-U), which may include office, limited retail and single family attached ownership housing, and approx. 13 acres of Open Space. The requested conforming Zone Change is from Residential Very Low Density (R-VLD), one dwelling per five acres zone designation, to Specific Plan (North Pointe) zone designation. Construction of a proposed 60 acre Community Park on land to be leased by the Town of Apple Valley from the Bureau of Land Management (BLM) adjacent to North Pointe is also being considered.	<b>MND</b>	07/16/2007
2007061072	Pisgah Cinder Mine San Bernardino County Land Use Services Department --San Bernardino A Mining Conditional Use Permit/ Reclamation Plan to extend the operational life of a Cinder Quarry on approx. 72 acres of leased land from 2006 to 2018.	<b>MND</b>	07/16/2007
2007061073	City of Livingston Industrial Wastewater Treatment Plant Upgrade Project Livingston, City of Livingston--Merced The City of Livingston is upgrading its existing City-owned Industrial Wastewater Treatment Plant (IWWTP) in order to accommodate new water quality requirements being implemented by the California Regional Water Quality Control Board (RWQCB) for waters discharged by the IWWTP. Physical improvements to the site include oxidation ditches, pipeline, clarifiers, flow splitter boxes, effluent pump station, sludge holding tanks, and centrifuge facilities.	<b>MND</b>	07/16/2007
2005081112	Teal Club Specific Plan Oxnard, City of --Ventura The proposed project is a specific plan located on approx. 175 acres of land that will include a range of both single and multi-family residential uses. The specific plan will also include a fire station proposed on 1.5 acres at the southwesterly corner of Patterson Road and Doris Avenue and a 7.1 acre elementary school site with an approx. 5.8 acre adjoining city park; a 3.0 acre park/retention basin is proposed at the northeast corner of Patterson and Teal Club Roads. The specific plan provides for approx. 2.8 acres for retail space, proposed on the corner of Ventura Road and Doris Avenue. An additional 3.45 acre detention basin, located south of Teal Club Road, will serve the specific plan area.	<b>NOP</b>	07/16/2007

	<p>foot site is at the southwest corner of 15th and Dolores Streets. The building would total approximately 27,000 square feet, with below-ground garage parking for 17 vehicles. The project would be comprised of three three-bedroom units and ten two-bedrooms units. Six residential units would have direct access on Dolores and 15th Streets, and seven units would have access from a common entrance on 15th Street. An elevator would provide access to the residential units and the below-grade parking garage. The project site is within a RM-2 (Mixed Residential, Moderate Density) district, a 40-X height and bulk district, and the Market &amp; Octavia Neighborhood Plan area. The proposed project would require a Variance for minimum lot area and for encroachments into the minimum required rear yard depth of 17.75 feet. The project would also require a lot line adjustment and is subject to the Planning Commission's Discretionary Review Policy regarding the demolition of the existing residential building.</p>		
2007062078	<p>Golden Gate Bridge Physical Suicide Deterrent System Golden Gate Bridge Highway and Transportation District San Francisco--San Francisco</p> <p>The Project would involve installation of a physical suicide deterrent system on the Golden Gate Bridge. At its April 22, 2005 meeting, the District Board of Directors established the Project purpose to be the consideration of a physical deterrent system that reduces the number of injuries and deaths associated with jumping off the bridge.</p>	<b>NOP</b>	07/16/2007

2007062076	Jennings GPA/ ZR/ PMS/ LLA Humboldt County Community Development Services Eureka--Humboldt A General Plan Petition was supported by the Board on 1/2/2007 to allow the applicant to submit an application to change the existing zone from AG-B-5-(5) to R-1-B-3/ GO and the land use designation from AR-5 to RL. Since the GPP, a subdivision violation was unearthed which has now triggered an LLA with the parcel to the south to adjust +/- 250 sq. ft. of occupied space. The GPA/ ZR is needed to facilitate the subdivision of 303-111-50 which is intended to separate two existing residences. All three of the existing and proposed parcels are developed with one residence each, community water, and on-site sewage disposal.	<b>Neg</b>	07/16/2007
2001112017	Greenback Lane Improvement Project Citrus Heights, City of Citrus Heights--Sacramento The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0124-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Citrus Heights.  The proposed roadway improvement project is located along Greenback Lane between Auburn Boulevard and Dewey Drive in the City of Citrus Heights. The project would widen this segment of Greenback Lane (approximately 0.6 mile) from four to six lanes, resulting in a continuous six-lane roadway from I-80 to Fair Oaks Boulevard.	<b>NOD</b>	
2002021087	Jensen River Ranch Habitat Enhancement and Public Access Plan San Joaquin River Conservancy Fresno--Fresno Fund the re-creation of seasonal wetlands, riparian and oak woodland habitats on the banks of the San Joaquin River in Fresno. This project will re-vegetate 100 acres of former agricultural fields that were recently re-contoured. All habitat types will be intensely planted and, if necessary, replanted to stabilize the newly constructed storm water wetland. An ADA accessible trail encircling the restored habitats will be restored with new surfacing and park amenities will also be installed.	<b>NOD</b>	
2003082106	PLP02-0044 - Deerfield Ranch Winery Sonoma County Permit and Resources Management Department --Sonoma The extension of two existing box culverts under Highway 12 at 10200 Sonoma Highway, Kenwood, Sonoma County to accommodate widening of Highway 12 for a left turn lane, and the under grounding of a short section of utilities. Issuance of a Streambed Alteration Agreement Number 1600-2007-0232-3 is pursuant to Fish and Game Code Section 1602.	<b>NOD</b>

2005071026	<p>storm drain inlet where this stream enters the existing City of Cloverdale drainage system. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0791-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Doble Thomas &amp; Associates, Incorporated.</p> <p>El Dorado Ridge Chula Vista, City of Chula Vista--San Diego CDFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA# 1600-2006-0086-R5) to the project applicant, Chula Vista HI, LLC. The applicant proposes to alter the stream to construct the El Dorado Ridge residential development project consisting of 104 multi-family residential units and associated improvements on an approximately 11.46 acre site. Project activities include grading and filling the stream to accommodate the development.</p>	<b>NOD</b>	
2005071102	<p>Regional Landfill Options for Orange County (RELOOC) Strategic Plan - Frank R. Bowerman (FRB) Landfill Implementation Orange County Department of Integrated Waste Management Irvine--Orange The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0735-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Orange County Integrated Management Department (IWMD). The operator proposes to alter the streambeds by the future development of the FRB Landfill in eight remaining phases. The Frank R. Bowerman (FRB) Landfill is owned by the County of Orange and operated by the Integrated Waste Management Department (IWMD). The Landfill opened in 1990 and its current permits project closure in approximately 2022. However, in 2002 the FRB Landfill experienced a major on-site landslide that will force the closure of the landfill in 2014 if not remediated. The IWMD has prepared a Master Development Plan (MDP) for the FRB Landfill (BAS 2004). The purpose of the MDP is to remediate the 2002 landslide and maximize the available landfill capacity of the site. The MDP proposes future development of the FRB Landfill in eight remaining phases (from 2003), two of which (i.e., Phases VII A and VII B) have been constructed. The ultimate implementation of the MDP will require substantial earthwork and is estimated to include excavation of approximately 40.7 million cubic yards (MCY) of soil for landslide remediation and phasing excavation.</p>	<b>NOD</b>	
2006031113	<p>Centinela Wastewater Treatment Plant Upgrade Project Corrections, Department of --Imperial Pursuant to Section 15164 of the CEQA, CDCR has prepared an Addendum to the Wastewater Treatment Plant Upgrade Project for California State Prison, Centinela Initial Study and Mitigated Negative Declaration because of modifications made to the project that are described in the Addendum. This expansion would include installing larger aerators for pond #1 (from 15 horsepower [HP] to 20 HP), increasing the freeboard along the treatment ponds by approximately 12 inches, expanding the head works capacity to allow for more pumping capacity, and modifying the Report of Waste Discharge to include this expansion in capacity. The modifications do not raise important new issues about the significant impacts on the environment beyond those previously analyzed in the Initial Study/Mitigated Negative Declaration (IS/MND) dated March 27, 2006. Therefore the CDCR can take action on the project as being within the scope of</p>	<b>NOD</b>

2007068175	<p>Emergency Permit for Blue Diamond Growers to Treat Spent Aluminum Phosphide Pesticide Residues Toxic Substances Control, Department of Modesto--Stanislaus Blue Diamond Growers (BDG) fumigates its nut products with pesticides containing the active ingredient aluminum phosphide. These products come in the form of small pellets. The fumigation is conducted in enclosed structures such as warehouses, storage bins and silos; these structures are tightly sealed during the fumigation. When the fumigation is complete, the spent pesticide residues are removed from the warehouse, bin or silo.</p> <p>The spent materials remaining after fumigation are then classified as wastes. The residues are allowed to "dry deactivate", i.e., are allowed to be held in drums while most of the residual phosphine gas is released. When this process is complete, the residuals are then submerged in a solution of water and detergent and allowed to stand, stirring periodically, until no more phosphine gas is being produced. This phase is called "wet deactivation." While the above processes are not inconsistent with the applicable hazardous waste management requirements; clarifications are needed. It is essential that the pesticide residues be managed in compliance with all applicable regulations, as well as the technical guidelines specific to pesticides containing aluminum phosphides.</p>	<b>NOE</b>	
2007068176	<p>Class 2 Permit Modification for the Hazardous Waste Facility Complex Located at the Naval Air Station North Island Toxic Substances Control, Department of San Diego, Coronado--San Diego The Department of Toxic Substances Control approved a Class 2 Permit Modification for the Naval Air Station North Island for changes to three units.</p>	<b>NOE</b>	
2007068177	<p>Emergency Permit for Blue Diamond Growers to Treat Spent Aluminum and Magnesium Phosphide Pesticide Residues Toxic Substances Control, Department of Sacramento--Sacramento Blue Diamond Growers (BDG) fumigates its nut products with pesticides containing the active ingredients aluminum phosphide and magnesium phosphide. These products come in several physical forms (pellets, pouches, chains, ropes, sachets, etc.) but the active ingredients are similar in each. The fumigation is conducted in enclosed structures such as warehouses, storage bins and silos; these structures are tightly sealed during the fumigation. When the fumigation is complete, the spent pesticide residues are removed from the warehouse, bin or silo.</p> <p>The spent materials remaining after fumigation are then classified as wastes. The residues are allowed to "dry deactivate"; i.e., are allowed to be held in drums while most of the residual phosphine gas is released. When this process is complete, the residuals are then submerged in a solution of water and detergent and allowed to stand, stirring periodically, until no more phosphine gas is being produced. This phase is called "wet deactivation." While the above processes are not inconsistent with the applicable hazardous waste management requirements; clarifications are needed. It is essential that the pesticide residues be managed in compliance with all applicable regulations, as well as the technical guidelines specific to pesticides containing aluminum and magnesium phosphides.</p>	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 06/01/2007 - 06/15/2007

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, June 15, 2007</u></b>			
2007068178	Proposed South Region Elementary School No. 1, Removal Action Workplan Toxic Substances Control, Department of Los Angeles, City of--Los Angeles This project involves the Department of Toxic Substances Control (DTSC) approval of a Removal Action Workplan (RAW) which will be carried out at the Proposed South Region Elementary School No. 1 site for the excavation and off-site disposal of soils contaminated with lead.	<b>NOE</b>	
2007068179	Emergency Permit to Open Burn/Open Detonate Illegal Fireworks by the San Diego County Sheriff's Department Bomb/Arson Unit Toxic Substances Control, Department of --San Diego Between and including June 25 and September 28, 2007, the San Diego Sheriff's Department Bomb/Arson Unit plans to destroy approximately 35-40 cases of illegal fireworks by Open Burn/Open Detonation. The subject fireworks were those confiscated by the U.S. Custom's Service at point-of-entry San Ysidro in June and July 2007 and taken to the Sheriff's Department Bomb Disposal Range in eastern San Diego County until this disposal event. In addition, the Bomb/Arson Unit will destroy other fireworks seized in San Diego County during the effective period of the emergency permit.	<b>NOE</b>	
2007068224	Salmon Creek Berm Removal Fish & Game #3 --Sonoma The removal of an earthen berm from the top of the bank of Salmon Creek south of the town of Occidental. The berms appear to have been placed to prevent flood waters from Salmon Creek from entering the property and impacting the homes and related facilities. Depending on the decisions of other agencies the berm may also be moved back further from the top of the creek bank. A mini-excavator and hand labor would be used to remove the berm, with the excavator operating from the parking areas associated with the houses and with no need to operate in the stream channel or on the stream side of the berm. A plywood screen would be maintained between the excavator bucket and the stream to keep any dirt from going into the stream channel. Issuance of a Streambed Alteration Agreement Number 1600-2007-0058-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>
