# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 1-15, 2008**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Monday, June 02, 2008</u></b>			
2008012112	Waterfowl, Coot, Moorhen, Common Snipe Hunting Fish & Game Commission -- Waterfowl, Coot, Moorhen, and Common Snipe Hunting.	<b>EIR</b>	07/16/2008
2007101087	CIP P2009: Jamacha Road 36-inch Potable Water Pipeline and CIP P2038: 12-inch Potable Water Pipeline Replacement Otay Water District El Cajon--San Diego As outlined in the original IS/MND, CIP P2009 consists of the proposed construction of a 36-inch cement mortar lined and coated steel pipeline to transfer potable water from the San Diego County Water Authority's Otay Flor Control Facility No. 14 to the OWD Regulatory Site. CIP P2009 is approximately five miles in length and would start at the northwest corner of Lexington Avenue and Third Street in the City of El Cajon and terminate at the OWD 640-1 and 640-2 reservoirs, located at the OWD Regulatory Site at 11880 Campo Road in Rancho San Diego.	<b>MND</b>	07/01/2008
2008042074	Sis-Q Select, LLC. Use Permit (UP-08-04) and Reclamation Plan (RP-08-01) Siskiyou County --Siskiyou The proposed surface mining operation would consist of extracting, processing, stockpiling, and exporting approximately 60,000 tons of sand and gravel from 80 to 150 year old placer gold mine tailings. Proposed operations would be conducted during the spring and summer of 2008, and would encompass 2.2 acres. The 2.2-acre surface mining operation area includes four boulder piles and underlying deposits of mixed sand, gravel, cobbles, and boulders totaling 0.88 acre. The remainder of the area contains the stockpiling area, equipment storage areas and access to and from the site. Material exported from the site would be utilized for a public utility construction project, which would consist of upgrading existing underground telephone lines along Sawyer's Bar Road.	<b>MND</b>	07/01/2008
2008061003	Dubost Minor Use Permit / DRC2006-00164 San Luis Obispo County Paso Robles--San Luis Obispo Request by Kate Dubost for a Minor Use Permit to allow a phased winery project that includes: Phase 1 (1 to 5 years) - conversion of an existing +/- 3,200 square foot barn into a winery. Use areas to include 500 square feet for a tasting room and 2,700 square feet of processing; Phase II (1 to 5 years) - a 1,000 square foot addition to the existing building. The additional 1,000 square feet will accommodate an area for wine tasting and office/lab; the existing square footage (3,200 square feet) will be used for fermentation and barrel storage; Phase III (5 to 7 years) - construction of a new 5,880 square foot building to be used barrel and case goods storage and a small cave of approximately 500 square feet. During Phase I and Phase II, wine production is expected to reach up to 5,000 cases. After the completion of Phase III improvements, on-site wine production may increase up to a maximum of 10,000 cases per year.	<b>MND</b>	07/01/2008

2008061006	Adoption and Implementation of the Monterey Park 2008-2014 Housing Element Monterey Park, City of Monterey Park--Los Angeles The adoption and implementation of the Monterey Park 2008-2014 Housing Element, which represents an update of the City's Housing Element. The Housing Element is an integral part of the General Plan, as it addresses the existing and future housing needs of all types for persons of all economic segment groups throughout the City. The City of Monterey Park's long-term housing goal is to provide housing opportunities to meet the diverse needs of the community. The Initial Study assesses the potential impacts related to the provision of adequate land to accommodate the City's remaining RHNA of 542 housing units. (The City has already achieved a significant portion of its RHNA with housing units constructed, under construction, and approved since January of 2006.)	<b>MND</b>	07/01/2008
2008061007	Reed Patricia A & Michael Monterey County --Monterey Use Permit to allow the removal of 11 Coast Live Oak trees to allow the construction of a new 2,614 square foot manufactured home with a 440 square foot attached garage and the conversion of an existing 1,200 square foot manufactured home to hobby room, and grading consisting of 337 cubic yards of cut and 316 cubic yards of fill.	<b>MND</b>	07/01/2008
2008061008	5435 PJJ 01-07; Twisselman Clay Mine Kern County --Kern Approval of a conditional use permit (CUP) for a 38.35-acre surface mining operation and development of a reclamation plan in accordance with the Surface Mining and Reclamation Act (SMARA) of 1975. Request is intended to supersede original surface and reclamation plan approved on May 26, 1988 (CUP 1, Map 95, Resolution 77-88). As proposed, mining operations would disturb 38.35 acres on three parcels totaling approximately 191.5 acres. Material to be mined will continue to be non-mineral clayey to silty shale and employ open pit mining techniques. Although mining will be accomplished in a single phase, reclamation efforts will be initiated at the earliest point in time on those portions of mined lands that will not be subject to further surface disturbance. The mine will operate with a maximum of 4 employees on site at any one time. The project proponent estimates that between 5,000 and 50,000 tons of material will be removed per year and that a total of 1,500,000 tons of material will have been produced over the life of the mine upon its closure in the year 2024. There will be no waste retained on the site or disposed of off site. Maximum depth of excavation will remain at 100 feet. Final reclaimed pit slopes will be at a 2:1 slope. Water from an on-site agricultural well will be utilized to control dust during mining operations.	<b>MND</b>	07/01/2008
2008061009	Annexation 105/Alexian Cityscape Apartments Riverside, City of Riverside--Riverside The project is comprised of two components: annexation to the City of Riverside of approximately 37.5 acres of land and the design review of a residential development at the northwest corner of the newly aligned Sycamore Canyon Boulevard and Central Avenue.	<b>MND</b>	07/01/2008

2008061010	ExxonMobil Santa Ynez Unit C1 Cable Repair Activity (SBCAPCD PTO 9102-04) Santa Barbara County Air Pollution Control District Santa Barbara--Santa Barbara ExxonMobil Production Co. proposes to use a specialized cable repair marine vessel for 25 days to repair a fault in an undersea electric power cable that supplies power from an onshore generating facility to oil and gas producing Platform Heritage in the Santa Ynez Unit undersea oil fields in the Santa Barbara Channel on the outer continental shelf. The Santa Barbara County Air Pollution Control District is the only local agency with permit authority and will be issuing a Permit to Operate Modification No. 9102-04 and Part 70 Minor Modification 9102-04. ExxonMobil will provide the APCD \$143,000 to compensate for 10 tons of NOx which will fund emission reduction projects in the County.	<b>MND</b>	07/01/2008
2008061011	Interstate 215 Widening Project from Murrieta Hot Springs Road to Scott Road Caltrans #8 Murrieta--Riverside The California Department of Transportation, in coordination with the Riverside County Transportation Commission (RCTC), proposes to widen Interstate 215 from Murrieta Hot Springs Road to Scott Road in Riverside County. For the proposed project the existing facility would be widened from two to three lanes in both the northbound and southbound directions by adding a third mixed flow lane within the median, as well as overlaying the remainder of the existing facility with new pavement within the project limits. The total length of the project is approximately 7.8 miles. All work would occur within Department right-of-way (ROW).	<b>MND</b>	07/02/2008
2008061013	SPR-2008-06 and DA-2008-01 Hesperia, City of Hesperia--San Bernardino A Site Plan Review SPR-2008-06 and Development Agreement DA-2008-01 to construct a 320-unit affordable multiple residential development and a 19% density bonus on 17.4 gross acres, zoned R3. The development will have two and three bedroom units, ranging from 1,091 to 1,330 square feet in floor area. Recreational amenities such as swimming pool, tot aqua park, barbeque and picnic areas, community center, paseos, tot lots, and open space areas are included with the development. The development will extend an 8-inch sewer line north along Santa Fe Avenue and connect to existing sewer main in Sultana Street. The development will also extend an 8-inch water main north along Santa Fe Avenue and connect to existing water main in Sultana Street, and tie into an existing water main in Muscatel Street.	<b>MND</b>	07/02/2008
2008062004	Use Permit Application UP-11-07, Redding School of the Arts, by The McConnell Foundation Redding, City of Redding--Shasta The project proponent, The McConnell Foundation, is requesting approval for construction of a visual and performing arts school campus for the Redding School of the Arts, a kindergarten through 8th grade public school. At full buildout, the school would accommodate approximately 400 students and approximately 60 employees, consisting of faculty and administrative staff. The proposed building would consist of approximately 51,500 square feet in a two-story building that includes art rooms, music rooms, a library, a technology room, administrative offices, and outdoor assembly area.	<b>MND</b>	07/01/2008

2008062005	Use Permit 07-09, Thomes Creek Rock (Doyle Ranch, Owner) Tehama County Corning--Tehama To establish a commercial gravel extraction operation which will remove 50,000 cubic yards of gravel over a 30-year period on 58.24 acres of lower Thomes Creek for a total extraction of 1,500,000 cubic yards. The operation would extract aggregate gravel between June to October each year from those areas of the stream channel not inundated by water and move the material to a 5.18-acre stockpile site north of the stream channel. Mining would be restricted to a "bar skimming" operation which would not exceed a depth greater than the thalweg of the creek. Located east of the community of Richfield along the east side of Hall Road in the lower reaches of Thomes Creek, just west of the confluence of the creek and the Sacramento River on property known as the Doyle Ranch. The extraction site is approximately 1,500 feet north of the Hall Road/River Road intersection.	<b>MND</b>	07/01/2008
2008061001	Westside Mutual Water Company and Tejon Ranch Company Exportable Water Exchange Agreement Tejon Castac Water District Bakersfield--Kern The proposed project will not involve any construction, nor earth moving activities - rather an exchange of water for future delivery. Tejon Ranch Company (Tejon) purchase some exportable water (8,393 acre-feet) from the Nickel Family LLC (Nickel) for delivery in 2008 and may purchase more in future. Tejon will transfer purchased Nickel Water to Westside Mutual in exchange for an amount of Westside's banked water supply in the Kern Water Bank (KWB), which will be transferred to Tejon Castac Water District's KWB storage account.	<b>Neg</b>	07/01/2008
2008061002	2008 Update of the Housing Element of the General Plan Rolling Hills, City of Rolling Hills--Los Angeles This Initial Study assesses the potential environmental impacts of the proposed City of Rolling Hills 2008 Update of the Housing Element of the General Plan for the 2006-2014 planning period. In the Housing Element Update, the City of Rolling Hills outlines its program to preserve and promote housing opportunities, including affordable housing opportunities, in the community.	<b>Neg</b>	07/01/2008
2008061004	Merrill Minor Use Permit DRC2006-00249 ED07-164 San Luis Obispo County --San Luis Obispo Phased winery project including: conv. residence to 1,400-square foot tasting room/office, conv. of shop to 4,500-square foot winery, removal of shed, const. of septic tank; conv. of shops to 2,700 square feet of storage, const. of a wastewater treatment facility; and, 10,440-square foot winery. Proposed periodic industry-wide events and six annual special events (80 persons) with amplified music (10:00 am to 5:00 pm).	<b>Neg</b>	07/01/2008
2008061005	Quorum Realty Grading Permit; ED06-231 (PMT2005-03635) San Luis Obispo County Paso Robles--San Luis Obispo Request by Quorum Realty for a major grading permit to establish a sod farm over a 13.6-acre area, which will result in approximately 88,900 cubic yards of cut and 83,500 cubic yards of fill material on two parcels, totaling approximately 94 acres.	<b>Neg</b>	07/01/2008

2008061012	Amendment No. 2 to the Alpha Four Redevelopment Plan La Habra Redevelopment Agency La Habra--Orange Adoption of the Amendment No. 2 would allow the La Habra Redevelopment Agency to continue its utilization of eminent domain authority in most but not all of the Alpha Four Project Area. None of the properties included in the Amendment have permitted residential uses.	<b>Neg</b>	07/02/2008
2008062003	Cleanup and Abatement Order for Frank & Shari Guinta and James & Marilyn Ramsey Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento Manteca--San Joaquin Issuance of a Regional Board Cleanup and Abatement Order, pursuant to California Water Code Section 13304 for the investigation and remediation of petroleum hydrocarbons in soil and groundwater by best available technology (to be determined after completion of a remedial investigation/treatment feasibility study and acceptance of a Corrective Action Plan). Currently a number of private supply wells are impacted by MtBE and 1,2-dichloroethane, and are treated at the wellhead by granular activated carbon (GAC) treatment, as an alternative to supplying water to the affected well users. Prior remedial efforts at the site included removal of leaking underground storage tanks and associated piping, overexcavation of contaminated soils, groundwater pump and treatment, soil vapor extraction, and air sparging. Residual petroleum hydrocarbons are present in soil onsite, and in groundwater onsite and offsite. An additional groundwater investigation will provide characterization of vertical and horizontal extent of the groundwater plume. Additional groundwater treatment may be required offsite.	<b>Neg</b>	07/01/2008
1994113039	Airport Development Program Oakland, Port of Oakland--Alameda Federal Express (FedEx), an Oakland International Airport (OAK) air cargo tenant, proposes to perform improvements at their leased site at the OAK. The project involves construction of a new 200,000 square foot International Sort Building for handling cargo and a 4,000 square foot building for security administrative purposes; minor interior renovations to the existing international and Metroplex Buildings; expansion of the ground service equipment maintenance facility; and relocation of the loading docks and container decks. This project is within the scope and location of the Airport Development Project (ADP). The ADP comprises the following project components: terminal expansion, landside access projects, airline and airfield support, air cargo facility development and airfield improvements.	<b>NOD</b>	
2002029007	La Verne Wellhead Treatment - Live Oak Basin Conjunctive Use Permit La Verne, City of La Verne--Los Angeles Project consists of construction of wellhead treatment systems and related piping at its production facilities to reduce nitrate levels to acceptable levels. It is anticipated that an ion exchange (IX) or similar treatment system will be capable of treating up to 1,000 gallons per minute within each basin. It is anticipated that the waste product from the treatment system will be introduced either directly to the sewage collection system or hauled away to an appropriate facility.	<b>NOD</b>

2007122024	<p>Cross Connection Controls Project San Francisco, City and County of Menlo Park, Fremont, Milpitas, Redwood City, Colma, ...--San Mateo, Santa Clara, Alameda</p> <p>The San Francisco Public Utilities Commission (SFPUC) proposes the Cross Connection Controls project to address California Department of Health Services concerns regarding potential contamination along the SFPUC's regional water system. Contamination may occur where air valves and blow-off valves, while being opened or closed, allow water from outside of the system (rainfall, flood water, etc.) to enter and compromise water quality. The proposed project would install protective devices to insure the integrity of certain identified value systems. There are 27 sites along the regional water system in Alameda, Santa Clara, and San Mateo counties where existing configurations for air/vacuum relief valves and blow-offs create potential cross-connections that must be corrected. The proposed project would include one or more of the following activities:</p> <ul style="list-style-type: none"> <li>- Reconstruct or raise an existing vault with a new cover.</li> <li>- Install a new vault cover with new air vents.</li> </ul>	<b>NOD</b>

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 02, 2008</u></b>			
	<ul style="list-style-type: none"> <li>- Install new flap valves or blank flanges on an existing blow-off pipe.</li> <li>- Replace an existing air vent within an existing vault.</li> <li>- Modify, relocate or remove an existing blow-off.</li> <li>- Abandon a vault and construct a new one.</li> <li>- Exploratory excavation to determine needed construction.</li> </ul>		
2008012063	<p>Upper Truckee River Restoration Project, Middle Reaches 3 and 4 South Lake Tahoe, City of South Lake Tahoe--El Dorado</p> <p>Construct river restoration project for a portion of the Upper Truckee River, east of the Airport. Includes restoration of 17 acres of associated floodplain area. Construct aquatic habitat improvements in a portion of the river. Improve riparian habitat with floodplain. Restore disturbed areas after project completion.</p>	<b>NOD</b>	
2008022127	<p>Mark Robson and Lori Kramer - Minor Subdivision - MS0811C Del Norte County Planning Department --Del Norte</p> <p>Minor Subdivision of a 10.88-acre parcel into two parcels. The parcel is currently developed with a single-family residence and several outbuildings (garage and barn) on the east side of the applicant's property (Parcel A). The project would involve creating a new parcel on the west side of the applicant's property (Parcel B). Parcel A would continue to be accessed from Lake Earl Drive while Parcel B would be accessed from Robson Lane.</p>	<b>NOD</b>	
2008041151	<p>Dos Palmas Wetland Creation Project Coachella Valley Water District --Riverside</p> <p>The Coachella Canal Lining Project (CCLP) was established to minimize water loss due to ground seepage in the approximate 30-mile, earthen section of the canal between siphons 7 and 31 in Riverside and Imperial counties. Construction activities related to the CCLP began in October 2004 and were completed in April 2007. As part of the mitigation required to offsite environmental effects associated with the CCLP, the project is to replace wetlands and springs that were lost during project construction. The BLM and other federal, state, and local agencies have identified the Dos Palmas Area of Critical Environmental Concern (ACEC) as the site for the creation of a 17-acre marsh, the Wetland Project. The ACEC encompasses both public and private lands and includes important habitat for the federally-listed Desert Pupfish, Yuma Clapper Rail, other plant and wildlife species, and cultural resources.</p> <p>The Wetland Project consists of the creation of 17 acres of emergent marsh and aquatic plant communities located on land owned by the BLM. This project would be constructed on land adjacent to existing emergent marsh habitat. The creation of the marsh would provide habitat for sensitive bird species such as the federally-listed Yuma Clapper Rail and the state-listed California Black Rail which have been documented in wetlands within the project area. The marsh would also provide habitat for a variety of songbirds, invertebrates, and small mammals. The 17-acre marsh would be constructed between Aqua Farms and Rancho Dos Palmas in an area with a shallow gradient mostly devoid of vegetation. This location has a reliable source of water at the north end, highpoint, of the site. The ground slopes gently to the south which lends itself well to creation of a series of shallow pools. Pools would form behind created berms and would range from saturated soil to a 4-inch water depth and would drain into the existing Core Marsh and Salt Creek.</p>	<b>NOD</b>

<b><u>Documents Received on Monday, June 02, 2008</u></b>			
2008069014	Pack Site Plan; P06-046; ER 88-08-030A San Diego County Escondido--San Diego The proposed project is a Site Plan and Boundary Adjustment with Certificate of Compliance for three single family residences on separate lots (186-650-08, 09, and 10). The applicant has proposed a full Site Plan and building design for a single family residence and two garages on parcel 10, and only grading and pads for parcels 8 and 9. The associated Boundary Adjustment with Certificate of Compliance, B/C 08-0013 is proposed to allow all three parcels to access Tall Oak Drive via a single cul de sac.	<b>NOD</b>	
2008069015	Vicki Warner Access Road Improvements; Tentative Parcel Map No. 7903, Agreement No. 2007-0050-R4 Fresno County --Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Vicki Warner. The applicant proposes to widen approximately 1,350 feet of dirt access road to 20 feet, grading and adding gravel to the roadbed; replace an existing undersized culvert with a 30-foot long, 24-inch diameter culvert; and extend an existing 12-inch diameter culvert in the unnamed tributary to Dry Creek by adding 6 feet of culvert on the upstream side of the roadway.	<b>NOD</b>	
2008069017	Lake or Streambed Alteration Agreement No. R1-07-0477 for Timber Harvesting Plan (THP) 1-07-127HUM "GDRCo 38-0701" Forestry and Fire Protection, Department of --Humboldt The California Department of Fish and Game is issuing an agreement for eight encroachments: one permanent culvert and seven temporary crossings.	<b>NOD</b>	
2008068001	Hardscrabble Creek OGAC; also know as Replace Culvert and OGFC Caltrans #1 --Del Norte This safety project was initiated due to the number of 'crossover' and 'runoff road' collisions occurring within the project limits [post mile {PM} 9.1/9.5 on Route 199 in Del Norte (DN) Co.] under primarily wet conditions. An existing 24" corrugated steel pipe (CSP) culvert (stormwater only, non-jurisdictional) at post mile (PM) 9.27 has failed due to a separated joint. Material from around the pipe is eroding into the pipe, causing subsidence of the road above.	<b>NOE</b>	
2008068002	8000 Crowder Lane (PCEL 20080250) Placer County --Yolo The applicant proposes to collocate four microwave dish on an existing cellular communications tower involving no height increase of the tower.	<b>NOE</b>	
2008068003	Issuance of Lake or Streambed Alteration Agreement No. R1-07-0647, Larry Alexander Representing the Mendocino Co. Dept. of Trans.-Little Lake Rd Sidewalk/Bike Ln Fish & Game #1 --Mendocino Replacement 1 permanent culvert crossing, upgrade a second culvert crossing and create 60 sf of wetland habitat on and adjacent to an Unnamed Tributary to the Pacific Ocean off of Little Lake Road.	<b>NOE</b>

	customers of the Orcutt Drinking Water System.		
2008032015	Pittsburg Civic Tower and Davi Avenue Roadway Improvement Project Pittsburg, City of Pittsburg--Contra Costa The proposed project includes approval of a Disposition and Development Agreement, minor subdivision and design review approval for construction of a 133,400 square foot, six-story mid-rise office building (Civic Tower), a 6,500 square foot restaurant and related parking and site improvements on an approximately eight-acre site. The subdivision would involve the creation of two small parcels measuring approximately 39,238 square feet and 11,966 square feet to accommodate the footprint and the surrounding pavement walkways of the Civic Tower and restaurant, respectively. The entire parking lot, the multi-use path and the perimeter landscaping would remain under the ownership of the City and a non-buildable easement would be placed around the two new parcels.	<b>NOD</b>	
2008032049	Operable Unit A Remedial Action Plan and Feasibility Study; and Interim Action Remedial Action Plan & Feasibility Study; Georgia-Pacific Wood Products Facility Toxic Substances Control, Department of Fort Bragg--Mendocino Georgia-Pacific LLC has submitted the proposed Operable Unit A (OU-A) Remedial Action Plan and Feasibility Study (OU-A RAP), and Interim Action Remedial Action Plan and Feasibility Study (IARAP) to the California Department of Toxic Substances Control (DTSC) for approval pursuant to authority granted under Chapter 6.8 of the California Health and Safety Code (H&SC). Work described in the RAPs (Arcadis BBL 2008a, 2008b) would be completed pursuant to DTSC's Site Investigation and Remediation Order for the site (Docket No. HSA RAO 06 07 150; the Order). The OU-A RAP addresses Sections 5.7 and 5.11 of the Order, and the IARAP addresses Sections 5.5, 5.7, and 5.11 of the Order. The OU-A RAP and IARAP are referred to collectively in the following analysis as, "the proposed project."	<b>NOD</b>	
2008069016	Environmental Assessment 2001-436; General Plan Amendment 2001-083 and Zone Change 2001-105 La Quinta, City of --Riverside California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement (SAA #1600-2008-0052-R6) pursuant to Section 1602 of the Fish and Game Code to the project applicant, Centre Pointe Development, LLC; (represented by Gonzales Environmental Consulting), 77-564 Country Club Drive, Palm Desert, California 92260, ph. 760-360-8001. The Applicant is proposing the construction of approximately 1000 feet of concrete slope protection on the north bank of the Coachella Valley Stormwater Channel, downstream of Washington Street. The slopes will be excavated to competent foundation, backfilled and compacted to grade. Rebar and then concrete will be placed on the exposed slopes to complete the slope protection construction. Additionally, three existing headwall/rip rap structures will be removed and replaced. The resulting permanent impact for the slope protection is 2.64 acres.	<b>NOD</b>

2008061022	<p>Don Chapin Batch Plant CUP/Industrial Annexation Project Greenfield, City of Greenfield--Monterey</p> <p>The project consists of the annexation of approximately 68 acres of property into the existing City limits, and the near-term development of a cement batch plant on approximately 14.7 acres, requiring a conditional use permit (CUP). The property is designated for light and heavy industrial uses in the Greenfield General Plan, and the applicant is requesting pre-zoning consistent with that designation.</p>	<b>Neg</b>	07/03/2008
2008062008	<p>State Route 4 / Loveridge Interchange Union Pacific Railroad Team Track Replacement Project Contra Costa Transportation Authority Pittsburg--Contra Costa</p> <p>The project proposes to construct a new team track facility in Pittsburg, California, located on Union Pacific Railroad's (UPRR's) main line. The proposed team track site is approximately 1.5 acres located off of Railroad Lane, south of Central Avenue and north of the UPRR main line. The project is an in-kind replacement for an industrial spur track facility that will be displaced by the SR-4 East Widening Project. The existing spur track is used by two manufacturers to receive materials. The proposed project is to provide an alternate site for both manufacturers to continue to receive shipments. The team track project improvements will include: (1) existing utility demolition and relocation, (2) tree removal and retaining wall demolition, (3) site paving and drainage, (4) perimeter fencing with a new gate off of Railroad Lane, (5) a single track rail spur to accommodate approximately six to seven rail cars, and (6) a raised covered loading dock for two rail cars. Products will be received by inbound rail car and unloaded by forklift to trucks for delivery to customers. Proposed truck access to the site would be on the southern end of Railroad Lane, a one-way road that runs parallel and east of Railroad Avenue. Ingress from Railroad Avenue would occur via Central Avenue, Cornwall Street (one way southbound) and Leslie Drive. Egress would occur via Railroad Lane (one way northbound) and Central Avenue. Product volume is expected to generate approximately one truck trip per day. At maximum foreseeable use levels, product deliveries would require no more than five truck trips and one train trip per day to maintain service for these two users.</p>	<b>Neg</b>	07/03/2008
2000061079	<p>Recirculated Draft Coachella Valley Multiple Species Habitat Conservation Plan and Natural Community Conservation Plan Coachella Valley Association of Governments Coachella--Riverside</p> <p>The project area would extend from the San Gorgonio Pass to the Salton Sea in central Riverside County. The MSHCP would provide a Conservation Reserve System encompassing 723,480+/- acres, comprised of 557,100+/- acres of existing public and private conservation lands (as of November 2006) and the acquisition and/or management of 166,380+/- acres of additional conservation and complementary conservation lands. The Plan seeks issuance of a 75-year incidental take permit, pursuant to section 2800 et seq. of the California Fish and Game Code and section 10(a)(1)(B) of the Endangered Species Act of 1973 as amended (ESA), for 27 species.</p>	<b>NOD</b>

<b><u>Documents Received on Wednesday, June 04, 2008</u></b>			
2006102033	<p>PG&amp;E Line 108 Natural Gas Pipeline Project California State Lands Commission Elk Grove--Sacramento, San Joaquin</p> <p>The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2008-0013-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, PG&amp;E.</p> <p>The project is proposing to perform maintenance activities to secure the integrity of Gas Line 172A. Two locations within Gas Line 172 A are in need of repair, once at mile point 35.67 and one at mile point 36.06. PG&amp;E proposes to install a grout mat over the exposed pipeline in both ditches as well a flexible concrete revetment wall on the sides of both ditches.</p> <p>Additionally, 12 inches or rip-rap will be added to the termination of the depression on the left descending bank of Petroleum Creek. The rip-rap footprint will be approximately 35' x 15'.</p>	<b>NOD</b>	
2008011017	<p>Santiago Creek Bike Trail - Tustin to Collins (Tustin Branch Trail) Orange, City of Orange--Orange</p> <p>The proposed project consists of the construction of a Class I bike trail along the Santiago Creek from Tustin Street to Walnut Avenue and city-owned railroad right-of-way from Walnut Avenue to Collins Avenue. The proposed project includes the expansion of the existing Santiago Creek Bike Trail by constructing a 10-foot wide paved bicycle trail approximately 7,750 linear feet with two foot graded/asphalt shoulders along Santiago Creek and 2,500 linear feet on city-owned railroad right-of-way which will join the existing Class I bike trail near Tustin Street/La Veta Avenue. A portion of the proposed bike trail is located on un-zoned railroad right-of-way; therefore the project also proposes zoning the un-zoned railroad right-of-way to R-O (Open Space). Since the proposed zoning will result in an inconsistency with the existing General Plan land use designation (Low medium density residential and Medium density residential), the project also proposes a General Plan Amendment to Open Space.</p>	<b>NOD</b>	
2008011131	<p>Circulation Element Update of the Fountain Valley General Plan Fountain Valley, City of Fountain Valley--Orange</p> <p>The proposed project consists of an update to the City of Fountain Valley's Circulation Element of the General Plan, which includes plans for improvements to the City's circulation system required under the Memorandum of Understanding among the cities of Fountain Valley, Costa Mesa, and Huntington Beach, as well as Orange County Transportation Authority.</p>	<b>NOD</b>	
2008042073	<p>Gaines Parcel Immediate Public Use Project Parks and Recreation, Department of --Glenn</p> <p>The Department of Parks and Recreation proposes to provide immediate public access facilities on the Gaines Parcel, a new acquisition located on the west side of the Butte City Bridge State Route 162 crossing of the Sacramento River. The parcel will be added to Colusa-Sacramento River State Park. The following is a brief summary of the proposed work:</p> <ul style="list-style-type: none"> <li>- Install 22 parking spaces, including two spaces that are Americans with Disabilities Act (ADA) compliant with perimeter vehicle barrier fencing;</li> <li>- Construct two restrooms, one would be ADA compliant;</li> <li>- Construct two ADA compliant drinking fountains;</li> <li>- Create nine picnic sites;</li> </ul>	<b>NOD</b>

2008011046	Target Store Redevelopment Project Azusa Redevelopment Agency Azusa--Los Angeles The proposed project would develop an approximately 168,000-square-foot Target retail store, including 420 parking spaces. The proposed project would reach two stories in height. The Target sign tower, located above the main store entrance, would reach approximately 69 feet in height. Parking spaces and a receiving and loading dock would be located at-grade beneath the main sales and storage floor located on the second level. Additional angled parking spaces would be provided by the City and located adjacent to the project site, along San Gabriel Avenue. Vehicles would access the at-grade parking area from 9th Street, Azusa Avenue, and San Gabriel Avenue. Trucks would access the receiving and loading dock by entering on San Gabriel Avenue and exiting on Azusa Avenue. Several mature Coast Live Oak trees located on the east side of San Gabriel Avenue would be protected in place or removed and replaced per City ordinance. The proposed project would require an overlay zone, which would allow for additional building height, reduced parking stall size, and building articulation. Approximately 47,646 square feet of existing commercial and industrial buildings on the project site would be demolished with the construction of the proposed project.	<b>EIR</b>	07/21/2008

2008061025	Slatnick Residence San Diego, City of San Diego--San Diego Site Development Permit (SDP) for Environmentally Sensitive Lands (ESL) to allow for construction of a tri-level, 8,183-square-foot single-family residence on a vacant 2.37-acre site.	<b>MND</b>	07/07/2008
2008061026	R2007-01829 (Bio-refinery) Los Angeles County --Los Angeles The proposed project consists of the construction, operation, and maintenance of a bio-refinery that will convert 170 tons per day of cellulosic material (curbside green waste, post sorted green waste, non-marketable paper fractions and wood) from the neighboring landfill and other sources (i.e., municipal recycling facilities with chipping and grinding facilities) to ethanol. The operation will produce 7,600 to 11,675 gallons of fuel grade ethanol per day and two byproducts that will be transported offsite, gypsum and spent yeast. The plant will operate 24 hours a day, 330 days per year. A total of 18 employees will work three shifts with a maximum of five employees per shift. The project will generate 15,548 yearly vehicle trips for transporting feedstock, ethanol, byproducts, chemicals and employees.  The facility consists of two acre evaporation basin; 1.4 acre biomass storage area; retention/detention basin; related processing equipment, storage tanks and small buildings; truck scale; single story maintenance and lab buildings; and a two-story administration building. Access to the subject property will be provided by East Avenue F and Fifth Street East. A feedstock access road will be located at the northeast corner of the project site.	<b>MND</b>	07/18/2008
2008061030	5417 SRB 1-07; GPA #2, ZCC #10, Map 165-26 (Peter Cook) Kern County Tehachapi--Kern The applicant is requesting: (a) amend the Kern County General Plan from Map Code 8.2/2.4 (Resource Agriculture - 20 acre minimum/Steep Slope) to Map Code 5.7 (Minimum 5 gross acres/dwelling unit); (b) a change in zone classification from E (2 1/2) RS (Estate-2 1/2 acre Min./Residential Suburban) to E (5) RS (Estate-5 acre Min./Residential Suburban); and (c) approval of Tentative Parcel Map 11375.  The applicant is seeking approval to subdivide four residential parcels and a designated remainder. The residential parcels would range in size from 6 to 8 acres while the designated remainder parcel would encompass approximately 8.5 acres. As proposed water and sewage disposal for the four residential parcels would be supplied by individual wells and septic systems, respectively. Water supply and sewage disposal for the designated remainder would be by an existing metered connection to the Grand Oaks Water Company and individual septic system, respectively. Internal access within the project boundaries would be by a 60-foot wide local street. Access to the parent parcel would continue to be via a 60-foot wide public roadway easement off of Old Town Road, which is designated as a Collector Alignment by the Circulation Element of the Kern County General Plan.	<b>MND</b>	07/07/2008

2008062012	Regatta Lane Bridge (IS10-07) Stockton, City of Stockton--San Joaquin The proposed Regatta Lane Bridge is a north-south local connector over Pixley Slough in the northwest area of the City of Stockton. The proposed bridge is an integral component of the plan to improve local and regional surface street connections over the creeks, sloughs, and canals that currently limit through passage in the area. The proposed bridge would be a six lane, low elevation bridge designed to meet capacity based on expected regional population growth as defined in the General Plan 2035. The proposed bridge would feature three northbound and three southbound lanes. The Regatta Lane Bridge project site is located on Pixley Slough in the San Joaquin River Delta (Delta) between the Bishop Tract and Shima Tract. Bishop Tract is currently in staged residential development while the Shima Tract remains farmland.	<b>MND</b>	07/07/2008

	corner of the building, near the primary entrance for the existing Main Hospital building.		
2000092027	Milpitas Midtown Specific Plan Update Milpitas, City of Milpitas--Santa Clara The project proposes the following changes to the existing and planned roadway system within the Milpitas Midtown Area: (1) converting the existing eastbound Carlo Street onramp at Calaveras Boulevard to an eastbound offramp, (2) reducing the existing number of lanes on Main Street from Abel Street to Great Mall Parkway from five lanes (two lanes in each direction with a center turn lane) to three lanes (one lane in each direction with a center turn lane), (3) removing the existing dedicated southbound right turn lane at the intersection of Main Street and Abel Street, (4) eliminating the future construction of a second left turn lane from eastbound Calaveras Boulevard to northbound Abel Street, and (5) modifying the signal phasing at the intersection of Calaveras Boulevard and Abel Street to allow simultaneous southbound right turn and eastbound left turn.	<b>SIR</b>	07/28/2008
1997071095	Arnold Heights School Demolition March Joint Powers Authority The proposed project involves the demolition, recycling and removal of structures of the former Arnold Heights School site. Structures to be removed include nine one-story stucco buildings on approximately 13.9 acres, associated parking lot, underground infrastructure, asphalt play areas, and landscaping. The buildings include a multi-purpose building (auditorium, cafeteria, and staff lounge), the main office, six classroom buildings (Buildings A through F), and a storage building (Building G). The total square footage of the buildings is 28,723 square feet, with individual buildings ranging in size from 873 square feet to 8,350 square feet. The proposed project site is located north of Van Buren Boulevard and west of the I-215 Freeway, at 15801 Harmon Street in Riverside, within the jurisdiction of the March Joint Powers Authority (March JPA). The Moreno Valley Unified School District desired to locate a new school in an area closer to the center of the student population. On December 31, 2007 the School District ceased operation and abandoned the Arnold Heights School as a public school providing District-wide special education services. A Cooperative Agreement was established among the JPA, the Moreno Valley Unified School District, and LNR Riverside, LLC regarding disposition of the Arnold Heights School on January 17, 2007. Per the Cooperative Agreement, the District would abandon the use of the subject property on December 31, 2007 and convey its interest to the U.S. Air Force with the approval of the U.S. Department of Education. The property was included in the March JPA's Economic Development Conveyance through its purchase by LNR Riverside II, LLC and March JPA on November 19, 2007. The environmental document for the project is tiered off of the Master EIR as is permitted by CEQA. As such, all mitigation measures from the Master EIR apply to this project and are binding on the March JPA. This project is consistent with the Master EIR and the General Plan of the JPA and would not result in any impacts greater than those analyzed in the Master EIR. Although the Master EIR was certified in 1999, and pursuant to PRC Section 21157.6, the JPA finds that the conclusions in the Master EIR are still valid and that no significant new facts or changes in circumstances have occurred since the EIR was certified.	<b>NOD</b>

2007101023	TPM 35299 (Citrus Business Park) Riverside, City of Riverside--Riverside The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2008-0020-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Citrus Business Park, LLC, represented by Mr. Rufus Barkley, III, 3685 Main Street, Suite 220, City of Riverside, 92501, Phone (951) 788-6100. The applicant is proposing to construct a bridge over Springbrook Wash adjacent to an existing railroad crossing to connect the properties north and south of the wash. A 48-inch diameter corrugated pipe will be installed under the bridge to connect the existing pipe under the railroad crossing, which will allow continuous flow of the wash. To develop the road crossing, 175 linear feet (0.462 acres) of Springbrook Wash will be graded and filled.	<b>NOD</b>	
2008021109	Reorganization to Include Concurrent Annexations of San Bernardino County Properties Beaumont-Cherry Valley Water District Yucaipa--San Bernardino The Beaumont Cherry Valley Water District proposes to annex approximately 570 acres of land in unincorporated San Bernardino County and a portion of the City of Yucaipa within the District's service boundaries. The District is applying to annex ten parcels of District-owned land in order to maintain control of groundwater quality of existing wells in the District, provide wellhead protection around existing wells, and to more efficiently manage District facilities. The project would not require any construction of water facilities to support existing facilities. This annexation would not require additional potable or recycled water system improvements.	<b>NOD</b>	
2008022058	Location and Development Plan 07-18, General Plan Amendment 07-02, Tentative Parcel Map 18966 Adelanto, City of Adelanto--San Bernardino The proposed project is for three light industrial buildings, two restaurants and a convenience store with gas station and car wash on approximately 6.2 acres of land in the proposed Light Manufacturing (LM) zone.	<b>NOD</b>	
2008031120	Plastic Bag Ban Ordinance Malibu, City of Malibu--Los Angeles The project consists of the adoption of the Ban on Plastic Shopping Bags Ordinance, establishing a ban on the use of plastic shopping bags in the City of Malibu. Plastic shopping bags are a significant component of litter in the environment due to their durability and light weight. Plastic shopping bags become litter along streets, pollute watersheds, and the marine environment. Studies have shown that plastic shopping bags have adverse effects on marine wildlife and the marine environment. Plastic shopping bags do not biodegrade in the environment and are often mistaken for food by birds and marine animals with significant negative impacts. Not all plastic bag litter found in Malibu and its nearby marine environment originates in the City; however, the proposed project would decrease plastic debris generated in the City. While the ordinance would ban plastic shopping bags, it would allow paper bags made from at least 40 percent post consumer recycled materials to be used. Since these bags can also become litter, education outreach programs for residents and business owners will	<b>NOD</b>

	be launched to encourage patrons to choose and use reusable bags, and thereby offset any increased demand for and impacts from paper bags.		
2008068063	Soapy's Choice Use Permit Renewal Sacramento County --Sacramento The proposed project consists of a Renewal of a Use Permit originally approved on May 18, 1992 (91-UPP-0996) to allow the continued operation of a self service auto wash on 0.45 +/- acre in the LC zone. No new facilities or changes in operations are proposed with the renewal of this Use Permit.	<b>NOE</b>	
2008068064	Wright Boundary Line Adjustment and Exception Sacramento County --Sacramento The proposed project consists of a Boundary Line Adjustment between three legal lots within one tax assessor's parcel on 7.466 +/- acres in the AR-2 zone. The project also includes an Exception to the minimum lot area standard in the AR-2 zone, allowing parcels that are up to 10 percent smaller than the standard minimum lot area.	<b>NOE</b>	
2008068065	Elsie Allen High School Bleachers Project and Elsie Allen High School Track & Field Improvements Santa Rosa City Schools Santa Rosa--Sonoma Santa Rosa City Schools is proposing to improve existing track and field facilities at Elsie Allen High School. The existing synthetic track has bleacher seating and is equipped with nighttime lighting. Improvements to the facility include: replacement of the grass playing surface with an all-weather turf; replacement of the existing track with a new surface; and, replacement of the existing 800-seat east side bleachers with new 1,200 seat bleachers to meet existing seating demands (for a net increase of 400 seats; no change to the west side bleachers is proposed). No additional lighting or parking is proposed as part of these improvements and no significant change in event scheduling is proposed.	<b>NOE</b>	
2008068066	Lake Elsinore Unified School District Network Public Utilities Commission Lake Elsinore--Riverside Sunesys installs/operates fiber optic ethernet networks on behalf of school districts, universities, and library systems. The Lake Elsinore project will involve the installation of 12.56 miles of underground fiber (trenching) and 37.09 miles of aerial fiber in existing structures.	<b>NOE</b>	
2008068067	Seeley Stables Yard Rehabilitation (07/08-SD-38) Parks and Recreation, Department of --San Diego This project consists of rehabilitating the yard area behind Seeley Stables a reconstructed historic barn building (circa 1872) located in Old Town San Diego SHP. The project involves: 1) installing catch basins, drainage grates, and drain lines; 2) constructing and installing (1) shed door at the blacksmith shop; 3) constructing a stable with shed roof; 4) constructing two covered porches at the existing wagon shed; 5) constructing rail fencing; 6) installing stabilized decomposed granite paving.	<b>NOE</b>

1997041060	Ocean View Village San Diego, City of San Diego--San Diego NOTE: Addendum to EIR.  Site Development Permit, Vesting Tentative Map, and Rezone AR-1-1 to RM-2-4, IL-2-1, and CN-1-2 to demolish an existing auto salvage yard and related structures to construct 143 residential units within 23 (three-storied) buildings on Lot 1; approximately 40,678 square feet of commercial use within one (two-storied) building on Lot 2; and approximately 37,850 square feet of industrial use within two (one-storied) buildings on Lot 3. The 10.40 acre site is located at 996 Otay Valley Road in the Airport Environs Overlay Zone, Airport Influence Area within the Robinhood Ridge Precise Plan and the Otay Mesa Community planning area.	ADM	07/21/2008
2007062013	Tentative Subdivision Map S-18-05, Highland Park Subdivision, and Planned Development Plan PD-9-05, by S and J Development Redding, City of Redding--Shasta Proposal to subdivide approximately 95 acres to create building sites for a mix of housing types totaling 420 residential units. This total consists of 181 standard single-family homes; 72 single-family homes built in clusters around a common-driveway court; 111 townhomes; and 56-unit apartment complex. Project also includes a 9.7-acre public park, trails, and areas of open space and construction of on- and off-street and utility infrastructure necessary to support the development. The "PD" Planned Development Overlay District will be applied to the project site. The overall project density is 4.8 dwelling units per acre.	EIR	07/23/2008
2007081137	Liberty XXIII Renewable Energy Power Plant Project Banning, City of Banning--Riverside The proposed project would be a new 15 MW power plant fueled with a mixture of biosolids and biomass. Fuel would be delivered to the facility via tractor trailer trucks leaving I-10 at the Hargrave Street exit, traveling south and turning east on Lincoln Street to Hathaway Street. The trucks would turn south down Hathaway Street to Westward Avenue where they would turn east and follow Westward Avenue to the proposed project site. Biosolids would be delivered to dedicated reception units which would immediately convey the biosolids to storage in one of up to 15 silos. Biomass would be stored onsite on paved areas. Electricity generated by the proposed project would be delivered to the City of Banning's electrical system by tying into a City of Banning 34 kV subtransmission line located north of Charles Street.	EIR	07/21/2008
2008021126	Public Safety Enterprise Communications (PSEC) Project Riverside County --Riverside, San Bernardino, San Diego The project entails the upgrading of the County of Riverside's emergency services communication network. This network will serve fire and law enforcement personnel and will allow expanded interoperability with other agencies and jurisdictions. Approximately 52 telecommunications facilities will be constructed throughout Riverside County and in several locations in San Bernardino County and one location in San Diego County. The typical facility will be composed of a communication tower and equipment shelter, all located within a 65 x 65 foot fenced compound.	EIR	07/21/2008

2008061032	25569 Rua Michelle Grading Plan San Diego County Escondido--San Diego The project is a Grading Permit to remedy a grading violation on a vacant parcel.	<b>MND</b>	07/07/2008
2008061033	Oak Knoll Wireless Telecommunication Facility San Diego County --San Diego The project is a Major Use Permit to construct and operate an unmanned wireless telecommunication facility.	<b>MND</b>	07/07/2008
2008061034	SDG&E Mountain Empire Operator Training Facility San Diego County --San Diego The project is an operator training facility consisting of a graded training yard, classroom trailer, access road and parking. Proposed training will include dozer and grading training, digger derrick training, boom trucks, bobcats, and backhoe training. The proposed training program will take place 3 to 4 days average on a monthly basis. The project is located south of an existing SDG&E facility, 30763 Old Highway 80 San Diego, CA 91962 within the Central Mountain Community/Regional Planning Area within the unincorporated area of San Diego County.	<b>MND</b>	07/07/2008
2008062017	Tract Map 1976 (Ward) Shasta County Redding--Shasta The request is for approval of an 8-lot subdivision consisting of 5.0-acre to 5.9-acre parcels, along with a 177-acre remainder parcel.	<b>MND</b>	07/07/2008
2008062019	Persson Minor Subdivision Humboldt County Eureka--Humboldt The project consists of a parcel map subdivision of an existing +/- 10.2-acre parcel creating three parcels ranging in size from 1.08 acres to 1.27 acres, and a remainder parcel of 6.7 acres. The remainder parcel is already developed with a residence and residential outbuildings and an on-site sewage disposal system. The area is served by community water, but the one-acre minimum reflects the parcel sizes needed to support on-site sewage disposal systems. All parcels will be accessed via public roads. The project also involves an exception to the lot frontage requirement to permit a flag lot design for proposed remainder parcel pursuant to Section 7-2 of the Subdivision Regulations. The site drains to the southwest toward Orton Creek and Elk River. There are no known wet areas or other watercourses in the vicinity of this site.	<b>MND</b>	07/07/2008
2008062020	Sutter Hill East Storm Drain and Sewer Line Project Sutter Creek, City of Sutter Creek--Amador The project involves the installation of underground storm drain and sewer lines through approximately 5 properties located in Amador County boundaries. The total site disturbance will be no more than 39,500 square feet in area. The new infrastructure will connect into the City of Sutter Creek sewer and storm drain system. Properties in the immediate vicinity with failing septic systems will benefit from the improvements and ties into the system.	<b>MND</b>	07/07/2008

	gym/community room, and laundry room. Outdoor residential amenities include a half basketball court, tot lot and community garden area. The 2,917 square foot commercial space located at the southwesterly corner of the building does not currently have a proposed tenant; however it has been designed for a tenant to occupy the entire space or to be broken up into three separate commercial spaces with their own individual entrances off of El Camino Real. Parking will be located in a below grade parking garage, accessed from South El Camino Real, with a capacity of 121 parking spaces. The 121 parking spaces will consist of 101 residential reserved parking spaces and 20 commercial/guest parking spaces. Additionally, the use of tandem parking spaces has been utilized for 14 of the reserved residential spaces.		
2008042029	East Side Potter Valley Road Improvement Project Mendocino County --Mendocino MCDOT proposes to remove, reconstruct, and widen a portion of Eastside Potter Valley Road. The current structure (base and pavement) is severely deteriorated and is in need of reconstruction. The road currently consists of two 10-foot-wide traveled lanes with ½ foot paved shoulders. The project will provide for two 12-foot lanes with 7-foot gravel shoulders.	<b>NOD</b>	
2008068078	Christian Valley Community Service District Water Pipe Placement (1600-2007-0369-R2) Fish & Game #2 Auburn--Placer Placement of an 8-inch PVC water supply pipe under an unnamed seasonal drainage adjacent to a culvert where the drainage crosses under Sunshine Meadows Lane in the Christian Valley community. A 24 to 30 inch deep trench approximately 36 inches wide will be excavated across the drainage. The pipe will be placed in the bottom of the trench and it will immediately be backfilled and regarded to match existing streambed contours. The project will be conducted while the drainage is dry in order to avoid the need to divert water flow around the project. There will be no permanent loss of habitat associated with this project.	<b>NOE</b>	
2008068079	Conditional Use Permit CUPH08-007 and Design Review Permit DR08-025 Tuolumne County --Tuolumne Conditional Use Permit CUPH08-007 and Design Review Permit DR08-025 to allow replacement of the roof on a residence. The project site is a 0.1 +/- acre parcel zoned C-1:D:H:HDP:MX (General Commercial:Design Control Combining:Historic Combining:Historic Design Preservation Combining:Mobilehome Exclusion Combining) under Title 17 of the Tuolumne County Ordinance Code.	<b>NOE</b>

	material change between the current Housing Element and the Update is the increase in the number of new housing units to be accommodated during this planning period. In accordance with the Regional Housing Needs Assessment (RHNA) for the Southern California Association of Governments (SCAG) region, the City is assigned an allocation of new housing units to accommodate the population during the Housing Element planning period. The current Housing Element includes a RHNA allocation of 60,280 new housing units that were to be accommodated during the 1998-2005 planning period. The Update includes a RHNA allocation of 112,876 new housing units to be provided during the 2006-2014 planning period. The restatement and refinement of Goals, Objectives and Policies and the 112,876 additional housing units constitute the "project" analyzed in this Initial Study. The impacts identified as a result of the changes made to the current Housing Element are addressed in the Final EIR for the Framework Element of the General Plan.		
2007071093	Santa Ynez Valley Community Plan EIR Santa Barbara County Solvang--Santa Barbara The Santa Ynez Valley Community Plan was designed to provide focused policy direction addressing issues and development trends specific to the Santa Ynez Valley. Existing zoning and land use policy allows for up to 1,140 new units. The plan proposes land use policy and zoning changes that would allow up to 1,209 new units, resulting in a net increase of 69 additional units beyond what current policy and zoning allows.	<b>EIR</b>	07/23/2008
2007121043	Indio Trails Specific Plan and Outparcels Indio, City of Indio--Riverside This EIR addresses the potential for significant environmental impacts that could result from two related projects in unincorporated Riverside County and proposed for annexation into the City of Indio. One project is the 494 +/- acre Indio Trails Specific Plan project, including general plan amendment, zoning map amendment, adoption of the Specific Plan, and approval of tentative maps. Indio Trails would allow construction of 1,150 residences and 4.8 acres of community commercial uses. The second project is the annexation and Pre-Zoning of a 238 +/- acre area outside of the Indio Trails Specific Plan area, referred to as the Outparcels Site, including general plan amendment and designation for a future Specific Plan.	<b>EIR</b>	07/23/2008
2008041050	Stanton General Plan Update Stanton, City of Stanton--Orange The City of Stanton is updating its 1992 General Plan. The City is 97% built out. At General Plan buildout, the City would have 18,537 dwelling units and 6,135,599 square feet of non-residential uses. The growth anticipated with the Update is 5,751 dwelling units and a reduction of 1,433,635 square feet of non-residential uses. Five new mixed use categories are proposed with the update.	<b>EIR</b>	07/23/2008

	goals, policies and actions and will include reorganization of the contents of the existing element. The Update will also increase the Land Use Element's consistency with other City policy documents that have been adopted since 1992.		
2008061045	Las Varas Ranch Project Santa Barbara County Santa Barbara--Santa Barbara The project proposes to reconfigure its existing lots through a series of lot splits and lot line adjustments and identify envelopes for future residential development. Specifically, eight existing lots totaling approximately 1,800 acres, all but one of which are legally created, would be merged, adjusted, and/or split or create seven new lots. Development envelopes ranging from three to five acres have been proposed for six lots. The seventh lot, totaling approximately 1,115 acres, would restrict residential development to the lower half of the parcel, though a specific envelope has not been identified.	<b>NOP</b>	07/08/2008
2008062022	Charles M. Schulz - Sonoma County Airport Master Plan Project Sonoma County Windsor, Santa Rosa--Sonoma The AMP is a long-range (i.e., up to 20 years) plan to guide the development and/or improvement of the Airport. It includes descriptions of proposed improvement projects, in addition to the data and analysis on which the plan is based. The master planning process considers the needs and demands of Airport tenants, users and the general public. The guiding principle of the airport master planning process is the development of a safe and efficient airport.	<b>NOP</b>	07/08/2008
2008062025	Cortina Landfill Access Road Improvements Project Colusa County Colusa--Colusa The proposed project is a request to Colusa County for condemnation of certain real property along two existing County-owned roadways (Spring Valley Road and Walnut Drive) and one State Highway (State Highway 20). Consideration of this request requires discretionary action by the County, which necessitates review under the California Environmental Quality Act (CEQA).	<b>NOP</b>	07/08/2008
2008062026	BART to Livermore Extension Program EIR Bay Area Rapid Transit District Pleasanton, Dublin, Livermore--Alameda Programmatic evaluation of extension of BART service into Livermore from the current terminus at the Dublin/Pleasanton BART Station in the median of I-580. Three initial alternative alignments are being considered, with two terminating south of I-580 near Stanley/Isabel and one terminating around Greenville Road. Station locations and maintenance facilities are proposed for each of the alignments.	<b>NOP</b>	07/08/2008
2008062027	Sunrise Mall Development Project Citrus Heights, City of Citrus Heights--Sacramento Steadfast BLK-LLC is proposing a phased plan for the expansion of Sunrise Mall, known as the Sunrise Mall Development Project. The project is located in the City of Citrus Heights, within a 10-block commercial area known as the Sunrise Marketplace. The Sunrise Marketplace is composed of over 500 businesses and 70 property owners, which serve primarily as a retail shopping area with some office uses. The Marketplace serves as the City's economic core and main gathering location for the community. The Sunrise Mall serves as the anchor for	<b>NOP</b>	07/09/2008

	Fish and Game Code to the project applicant, Kirit Bavishi, San Francisco Public Utilities Commission.		
2008011110	<p>Conditional Use Permit No. 3537 and Tentative Parcel Map No. 35273 Riverside County --Riverside</p> <p>Tentative Parcel Map No. 35273 is a proposal for a Schedule E subdivision of 4.97 gross acres into three commercial parcels.</p> <p>Conditional Use Permit No. 3537 proposes a 31,780 square foot retail development "Mission Pedley Plaza," on a 4.97 gross (3.55 net) acre site with a project floor area ratio of 0.21 (Commercial Retail requires a 0.20-0.35 Floor Area Ratio). The project consists of the following: a 17,369 square foot, 24-hour Rite Aid Pharmacy with a 750 square foot mezzanine, a prescription drive-thru window and the sales of alcoholic beverages (type 21) for off premises consumption; a 2,869 square foot, 24-hour operation fast food restaurant with a drive-thru window and outdoor seating; an 11,542 square foot 24-hour operation retail shop building with eight multi-tenant spaces, outdoor seating, for retail, automotive, office, and food uses; 180 parking spaces; and 17,501 square feet (11%) of landscaping. The use permit also proposes a sign program for the Mission Pedley Plaza, which includes two 20-foot high multi-tenant pylon signs and affixed signage on all mentioned buildings.</p>	<b>NOD</b>	
2008032053	<p>Asbury Creek Diversion Replacement Project Developmental Services, Department of --Sonoma</p> <p>The project proposes to restore the function of the Asbury Creek diversion to resume seasonal contribution to the water supply to the Center. The project would include the removal and replacement of the existing damaged diversion structure, and the replacement of the damaged/destroyed diversion pipeline.</p>	<b>NOD</b>	
2008041043	<p>Native Tree Planting Project Coachella Valley Water District --Riverside</p> <p>As part of the mitigation required to offsite environmental effects associated with the CCLP, the native tree replacement planting project was proposed to offset impacts to desert wash trees removed during construction of the CCLP. This effort is funded by the San Diego County Water Authority. Container-grown trees have been propagated from locally collected seeds for this purpose. This MND covers trees planting proposed on a 55.78-acre site owned by BLM. Trees will be planned from three-gallon size containers and watered for a period of one to five years. Trees will be planted either by digging with hand tools or use of a tractor-mounted auger. Holes will be dug up to 24 inches in diameter and 36 inches deep. A drip irrigation system will be installed at the planting site utilizing water from the Coachella Canal. The drip irrigation system would be installed above ground using PVC pipe and drip irrigation tubing. The PVC pipe would bring water from the Coachella Canal mostly along previously graded roads: the PVC would need to be buried or placed in a steel sleeve where the pipeline at road crossings. Initially, water from an adjacent BLM pond may be used for watering until the drip irrigation system from the Coachella Canal has been completed. Watering frequency is expected to be once a week during the first season and once every three to four weeks in the second season. A total of 2,324 trees will be planted including 31 Smoketree (<i>Psoralea argyrea</i>), 28 Honey Mesquite (<i>Prosopis glandulosa</i>), 448 Ironwood (<i>Oleña resota</i>), and 1,848 Palo</p>	<b>NOD</b>

	wellness programs, and activities for all people over the age of 55. Building D (single-story) is the senior community room for residents and is approximately 2,000 square feet in size.		
2007121152	MacArthur Park Improvements Project Los Angeles County Los Angeles, City of--Los Angeles The proposed project involves various improvements to the 40-acre MacArthur Park, which is a horticultural park, and which was designated by the City in 1972 as Los Angeles Historic Cultural Monument #100. Expected improvements include: reconstruction of the existing soccer field, installation of new field and security lighting, reconstruction of landscaping and hardscaping areas, reconstruction of existing and construction of a new children's play area, interior renovation of the Signal Building, and replacement of the Boathouse.	FIN	
2008034005	Mill City Fuels Reduction Project U.S. Forest Service Mammoth Lakes--Mono Reduce the risk of catastrophic fire by improving fire resiliency through vegetation treatments on approximately 125 acres of National Forest lands adjacent to the town of Mammoth Lakes. Fuels reduction activities include a combination of understory thinning, mastication of trees and brush, piling of project generated slash and dead and down woody material, and biomass disposal through on-site pile burning, chipping, hauling material off-site, or through the sale of fuelwood. The work would be completed by hand or mechanized equipment. This project is intended to decrease potential wildfire intensity and rates of spread, and increase the safety of residents, infrastructure, and firefighters working to protect the community and suppress wildland fires. A complete project description can be found under Alternative 1 in the Environmental Assessment.	FIN	
2008042109	Airgas Project - 50 Chemical Way, Redwood City, CA Redwood City Redwood City--San Mateo The proposal includes the construction of a 2,912-square-foot addition to an existing 3,211-square-foot single-story building, the storage of various medical and industrial gases both inside the expanded building and in storage tanks located outside the building, the outdoor storage of appurtenant gas storage structures including evaporators and tank scales, and the addition of new landscaping and signage. Three vertical gas storage tanks, ranging from 20 to 34 feet in height, are proposed along the west side of the building and one horizontal gas storage tank with a height of 9 feet is proposed on the south side of the building. 	and two levels of suites and press facilities. A lighted, animated ribbon sign would be attached on the interior-facing façade of each level of the press box.		
	The proposed project would include demolition of existing ancillary structures around the base of the stadium as well as the perimeter structures at the fence line, along the with removal of asphalt surfacing and landscaping.		
	Most importantly, emergency exiting from the stadium would be improved by one of three options.		
2005031109	Ramona Airport Land Use Compatibility Plan San Diego County Regional Airport Authority --San Diego The Airport Authority determined it was necessary to amend the adopted Ramona Airport ALUCP after discovering that the location of the single runway at Ramona Airport, the airport influence area (AIA) and the underlying factors/layers were incorrectly depicted on the maps in the adopted ALUCP. The amended ALUCP, which is the subject on this Notice of Determination, contains revised maps; no other changes to the adopted ALUCP have been made. The revised maps reflect the actual location of the runway, AIA, and underlying factors/layers which are approximately 500 feet west of the location depicted on the maps adopted in 2006.	<b>NOD</b>	
2006092019	Boys and Girls Club Eureka, City of Eureka--Humboldt The applicant is requesting approval of a Conditional Use Permit to allow the expansion of the use on the site to afford greater recreational opportunities for area youth. The project proposes the demolition and salvage of the existing building. Salvaged materials will be transported off-site. The construction of a 32,670 square foot two-story structure is proposed to occur on the property. The first story will be approximately 28,000 square feet in size and provide recreational opportunities including a double gymnasium with audience stands, locker/shower rooms, a fully equipped tech center, a movie theater room, a teen lounge and teen game room, a kid play room, music/drama and arts/crafts room, a study area, a conference/classroom, and exercise/weight room, adequate office space for staff, equipment and materials storage, built in sound and security/surveillance systems and fully accessible restrooms. All youth serving areas would be on the first floor in a layout that would give maximum staff supervision. Club central offices and additional staff and storage space would be on a partial second floor, which would have an overhead view of the gymnasium area. The exterior design of the building is similar to the existing structure, with an emphasis on blending in with the surrounding community. Facility plans also include an entry/lobby area with interpretive signage detailing the historic background of the site; from the 1916 Trolley Barn which was torn down by the City in the 1940s to the subsequent wood lot, to the Carson Memorial Building. The maximum height of the proposed structure will be approximately 52 feet; setbacks, landscape buffers, off-loading areas, and parking will be provided. Improvements to the existing bus stop are planned to accommodate the increase in teen and pre-teen clients utilizing the site via public transportation.	<b>NOD</b>

2007052118	Del Norte County Wal-Mart Expansion Project Del Norte County Planning Department Crescent City--Del Norte Environmental Review of a Building Permit for the expansion of the Wal-Mart store to a Wal-Mart Supercenter, a Use Permit for Signage in excess of the maximum allowable and a Boundary Adjustment. Wal-Mart proposes to expand the existing 83,902 square feet building to a maximum of 170,122 square feet. Wal-Mart requests approximately 175 square feet of signage for the proposed expansion. The project site is located at the northeast corner of Washington Boulevard and Summer Lane and has a General Plan Land Use designation of General Commercial.	<b>NOD</b>	
2007081059	Change of Zone No. 7333 and Tentative Tract Map No. 32044 Riverside County --Riverside The Change of Zone proposes to change the current zoning classification on the northern half of the project site from Multiple Family Dwellings (R-2) and General Commercial (C-1/C-P) to Residential Agricultural - 1 Acre Minimum (R-A-1). In addition, the change of zone would also change the current zoning classification on the southern parcel from One Family Dwelling (R-1) to One Family Dwellings - 20,000 Acre Minimum (R-1-20,000). The Tentative Tract Map is a Schedule B subdivision of 10.09 gross acres into 13 residential lots and one detention basin. The minimum lot size permitted shall be one gross acre on lots 1-5 and 20,000 net square feet on lots 6-13. Currently existing on the project site is a single-family residence which shall remain.	<b>NOD</b>	
2007102026	Shell Oil Products US - Shell Martinez Refinery Toxic Substances Control, Department of Martinez--Contra Costa The project is to approve a Hazardous Waste Facility Permit Renewal Application (the "Renewal Application") for the hazardous waste storage and treatment facility at the Shell Martinez Refinery, which is owned by Equilon Enterprises LLC and operated by Shell Oil Products US (the 'Refinery'). The Refinery, including the hazardous waste storage and treatment facility, is located at 3485 Pacheco Boulevard in Martinez, California. If approved, the Project will permit: three existing Carbon monoxide (CO) boilers referred to as CO Boiler #1, #2, and #3; an aboveground 47,750 gallon storage tank referred to as Tank 12038; burning of three waste streams (Dissolved Nitrogen Flotation [DNF], Waste Biosludge and Waste Biosolids) and storage of these waste streams in Tank 12038.	<b>NOD</b>	
2007121078	Ruxton Avenue Channel Conversion Project San Diego County --San Diego The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0488-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, County of San Diego, Department of Public Works. The applicant proposes to alter the stream to convert approximately 450 feet of concrete channel to an earthen channel, remove the existing 170-foot-long double 58 inch by 36 inch CMPA culvert under Ruxton Avenue and replace it with a 67-foot-long three-box culvert, leaving the remaining 103 feet open, widen the formerly-concrete-lined channel, and revegetate the resulting channel with native species. In addition, two rip-rap energy dissipaters will be added along the Jamacha Boulevard portion of the channel where storm drain lines empty into the channel, and a third rip-rap energy dissipater will be	<b>NOD</b>

	added near the southern terminus of the project where a storm drain empties into the channel.		
2008011054	<p>General Plan Amendment No. 844, Change of Zone No. 7475, Tentative Parcel Map No. 34696, Plot Plan No. 22456, Variance No. 1823 - Fast Track No. 2006-11 Riverside County --Riverside</p> <p>The General Plan Amendment proposes to amend the existing general plan land use to the proposed Parcel 1 (PM34696) from Community Development: Commercial Retail (CD-CR) (0.20-0.35 Floor Area Ratio) and Community Development: High Density Residential (CD-HDR) (8-14 Dwelling Units per Acre) to Community Development: Highest Density Residential (CD-HHDR) (20+ Dwelling Units per Acre). The Change of Zone proposes to change the project site's current zoning classification from General Residential - 4,000 square feet (R-3-4,000), Manufacturing - Service Commercial (M-SC), Scenic Highway Commercial (C-P-S), and General Commercial (C-1/C-P) to General Residential (R-3). The Tentative Parcel Map is a Schedule H subdivision of 9.98 gross (9.60 net) acres from sixteen residential and commercial parcels into 2 residential parcels. Parcel 1 with 4.17 gross (3.95 net) acres and Parcel 2 with 5.81 gross (5.65 net) acres. The Plot Plan proposes to develop a three-story, 86,422 square foot, 102-unit senior apartment development "Mission Village Senior Apartments," on a 4.17 gross acre (3.95 net acre) site with 18% building lot coverage, 86,870 square feet (50%) of common area, 97 parking spaces, and 42,033 square feet (24%) of landscaping within the proposed Parcel 1 of PM34696. The Variance is a proposal to allow 90 dwelling unit size reductions within the senior project from a minimum of 750 square feet to a minimum of 546 square feet identified in Ordinance No. 348, Section No. 18.11.</p>	<b>NOD</b>	
2008012093	<p>Old Mammoth / Mill City Fuels Reduction Project Mammoth Lakes Fire Protection District Mammoth Lakes--Mono</p> <p>The Mammoth Lakes Fire Protection District (MLFPD) proposes to reduce the risk of catastrophic fire by improving fire resiliency through vegetation treatments on 15 acres within the community of Mammoth Lakes. MLFPD would perform fuels reduction and removal on one town-owned parcel (Bell-shaped parcel), located southwest of the Meridian Boulevard and Minaret Road intersection. Additionally, MLFPD would perform site inspections and provide guidance to private property owners (over 800 parcels), and would assist property owners with slash disposal through providing chipping and disposal services (but would not perform tree or fuels removal on such parcels).</p>	<b>NOD</b>	
2008032009	<p>2006-182 Zoning Amendment for Lawrence Smith Calaveras County Murphys--Calaveras</p> <p>The applicant is requesting a Zoning Amendment to accommodate a Boundary Line Adjustment application involving two contiguous parcels (BLA No. 06-101). The Zoning Amendment is to rezone from RR-5 (Rural Residential - minimum 5 acres), and from RR (Rural Residential) to RA-5, the entire 3.56 acre adjusted Parcel 1. The remaining portion of Parcel 2 would remain unchanged with the RR-5 zoning.</p>	<b>NOD</b>

<b><u>Documents Received on Tuesday, June 10, 2008</u></b>			
2008034005	<p>Mill City Fuels Reduction Project U.S. Forest Service Mammoth Lakes--Mono</p> <p>Conduct fuels reduction treatments on approximately 125 acres of National Forest system lands, including understory thinning and mastication of trees and brush, piling of project-generated slash and dead and down woody material, and biomass disposal through on-site pile burning, chipping, hauling the material off-site, or through the sale of fuel wood.</p>	<b>NOD</b>	
2008041138	<p>County of Riverside Fleet Fuel and Car Wash EA FM0417300001 Riverside County Blythe--Riverside</p> <p>The Riverside County Department of Facilities Management has proposed the construction of a new vehicle washing and fueling facility within the City of Blythe. The project consists of two parcels totaling approximately 0.344 acres. The proposed project would be used by Fleet Services Division of the Purchasing Department to store, refuel, and wash County vehicles. The proposed uses include a duel fuel island with two fuel dispensers with duel fuel, diesel and ethanol (2,500 square feet); car wash and drying area (2,000 square feet); parts room and tire storage (500 square feet); restroom waiting area (650 square feet); office (100 square feet); and three bays (2,520 square feet). Approximately 14 vehicles are anticipated to utilize the proposed gas and wash station per weekday and two vehicles would access the site on Saturdays and Sundays. Total visits per week would be 74 vehicles. The facility would be open seven days a week, 24 hours per day. However, the County will discourage fuel deliveries and the washing of cars between the hours of 10 pm to 6 am to reduce noise impacts on nearby residential uses. In addition, signs will be prominently posted on the site with contact numbers if neighbors have complaints about noise. Fuel pumps and two 12,000-gallon aboveground fuel tanks would be installed to store ethanol and diesel. Approximately 54,000 gallons of fuel would be transported to the site annually (approximately 9,000 gallons of fuel per truck delivery, occurring every two months). The wash station would use recycled water and include an oil/water separator. Security lighting, landscaping, and fencing would be installed. The County will be developing and implementing a Stormwater Pollution Prevention Plan (SWPPP) as part of the proposed project.</p>	<b>NOD</b>	
2008042109	<p>Airgas Project - 50 Chemical Way, Redwood City, CA Redwood City Redwood City--San Mateo</p> <p>Issuance of a Use Permit, Architectural Permit, and Sign Permit at 50 Chemical Way for the outside storage of medical and industrial gases, the construction of a 2,912 square-foot addition to an existing 3,211 square-foot building, and the addition of new business signage on the site.</p>	<b>NOD</b>

2008068139	<p>U.S. Marine Corps Air Station Camp Pendleton Airport Land Use Compatibility Plan</p> <p>San Diego County Regional Airport Authority Oceanside, Vista, Fallbrook--San Diego</p> <p>The ALUCP is an airport land use compatibility plan, which is a regulatory document designed to promote compatibility between the MCAS Camp Pendleton Airfield and the surrounding land uses, to the extent that such areas are not already devoted to existing uses. The MCAS Camp Pendleton ALUCP serves two complementary purposes: (i) the ALUCP provides for the orderly growth of the area surrounding the Airfield in a manner that is compatible and consistent with the Airfield's operations; and (ii) the ALUCP safeguards the general welfare of the inhabitants within the vicinity of the Airfield and the public in general. The MCAS Camp Pendleton ALUCP is required to be consistent with the safety and noise standards in the Air Installations Compatible Use Zones study prepared for MCAS Camp Pendleton Airfield. The MCAS Camp Pendleton ALUCP contains land use compatibility criteria for use by the ALUC in reviewing development projects and locals plans for consistency with the adopted ALUCP.</p>	<b>NOE</b>	
2008068140	<p>Ballona Wetlands Parking Lot Improvements Fish &amp; Game #5 --Los Angeles</p> <p>The project would repair existing pot holes and seal the asphalt surface in the paved portion and repair pot holes and deposit a layer of gravel in the unpaved areas of an approximately 0.6 acre parking area (60 parking spaces) at the southwesterly corner of the Ballona Wetlands Ecological Reserve. The purpose is to provide an all weather surface and reduce seasonal mud holes and dust. The repair and maintenance project would not change the number of cars which could park on the site. No impacts to sensitive resources are anticipated.</p>	<b>NOE</b>	
2008068141	<p>Napa County Skyline Park Lease Alteration General Services, Department of --Napa</p> <p>The proposed project consists of the approval of proposed improvements by Napa County at the Napa County Skyline Park pursuant to existing State lease No. L-709. Proposed park improvements include a new greenhouse to propagate native plants for habitat restoration projects and a covered horse arena. The greenhouse would be located next to an existing greenhouse and outdoor native plant propagation area. Planned dimensions for the greenhouse would be 24 feet in width, 60 feet in length, and 12.5 feet in height. The greenhouse will include minimal utility lighting inside the structure and exterior lighting only if necessary. The covered arena would be located between an existing uncovered arena and an existing barn. Planned dimensions for the arena would be approximately 100-110 feet wide, 200-220 feet in length, and 18 feet in height to eaves or 28-30 feet to the ridge of the arena cover. The covered arena will include interior lighting only within the roof framing directed downwards. The covered arena will screen users from seasonal elements (hot summer sun and winter rains) and reduce mud conditions in wet winter months. The planned uses are consistent with County plans for the park and will not change the character of the area or types of allowed or existing activities in the park. The proposed park improvements (greenhouse plant propagation and equestrian activities associated with a covered arena) represent a minor or negligible expansion of existing uses and activities at Napa County Skyline Park.</p>	<b>NOE</b>

2008061059	French Minor Subdivision San Diego County San Diego--San Diego The project is a Tentative Parcel Map to subdivide a 2.47-acre parcel into three residential lots. Minimum lot size will be 0.5 acre (0.5, 0.658 and 0.927 respectively). The project site is located at 9420 Lavell Street, at the intersection of Grandview Drive, in the Valle de Oro Community Planning Group, within unincorporated San Diego County. The site is subject to the General Plan Regional Category Current Urban Development Area (CUDA), Land Use Designation (3) Residential. Zoning for the site is RR2 (Rural Residential). The site contains an existing 2,150 square-foot residence which would be retained. Access would be provided by a driveway connecting to Lavell Street. The project would be served by sewer and imported water from the Helix Municipal Water District. Earthwork will consist of cut of 3,000 cubic yards of material and fill of 1,300 cubic yards with 1,700 cubic yards of exported material.	<b>MND</b>	07/10/2008
2008061061	ZC-2007-19, SPR-2007-75 & PM-18927 Hesperia, City of Hesperia--San Bernardino A Zone Change from C-2 and RR-2 1/2 to Limited Manufacturing (I-1), a Site Plan Review to construct a 943,130 square foot industrial park and a Tentative Parcel Map to create 2 parcels on 41.0 gross acres. The sizes of the proposed buildings are 425,880 and 533,400 square feet. The development consists of 850 parking spaces, an on-site underground storm drainage system, and 339,320 square feet of landscaping. The project will saw-cut and match-up asphalt pavement on	<b>MND</b>	07/10/2008

	Caliente Road across the project frontage and constructing full street improvements on "A" Street. The development will have one drive approach on Caliente Road.		
2008062029	Suburban Propane Relocation Scotts Valley, City of Scotts Valley--Santa Cruz The applicant is proposing to relocate the existing Suburban Propane commercial liquified propane gas facility from 260 Mt. Hermon Road to a 25,433 square foot parcel at 34 Janis Way to facilitate the City's future development of the Town Center on Mt. Hermon Road. The relocation will include the removal of all existing facilities at the Mt. Hermon Road site and preparation of the Janis Way site for the use. Site work at the new project site will include demolition of an existing 2,400 square foot storage building and installing a new 30,000 gallon propane tank with new fire suppression apparatus and other associated facilities.	<b>MND</b>	07/10/2008
2008062031	Pershing Avenue Improvement Project San Joaquin County Stockton--San Joaquin San Joaquin County proposes to reconstruct Pershing Avenue from Thornton Road to Meadow Avenue. Pershing Avenue is currently a two lane roadway with signalized intersections at Thornton Road/Pershing Avenue and Hammer Lane/Pershing Avenue. Improvements will include the following cross streets along Pershing Avenue: Barcelona Avenue, Paloma Avenue, Valencia Avenue, El Camino Avenue, Hammer Lane, Joan Avenue, Rivara Road, and St. Carlo Avenue. Three design alternatives (and one design variation) are being considered for the proposed roadway improvements. This Initial Study considers the effects of each alternative where design differences cause impact differences.	<b>MND</b>	07/10/2008
2008062032	McCourtney Road Landfill Leachate Pond Improvement Project Nevada County Grass Valley--Nevada The proposed project would replace a 5.2 million gallon uncovered leachate storage pond, which currently collects rain water and leachate, with a 1.0 million gallon steel leachate storage tank. The new storage tank would be located at 500 feet east of the existing impoundment. Upgrades to pumps and electrical systems as well as creation of a new access road would be made insupport of the proposed project.	<b>MND</b>	07/10/2008
2008061060	Palmer Lorenzo Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project would involve the demolition of the existing structures and the removal of the associated landscaping and surface parking areas. Demolition would also include an existing surface parking lot on the northwest side of Flower Street. The Proposed project would redevelop the site with approximately 1,400 multi-family residential units and ancillary uses (approximately 1,473,317 square feet) as well as approximately 25,000 square feet of retail uses. More specifically, the Proposed project would consist of two structures: a 50-story building located on the western portion of the project site containing 490 multi-family units, which would consist of 85 one-bedroom units, 270 two-bedroom units, and 135 three-bedroom units; and a five-story building located on the eastern portion of the project site, which would contain roughly 25,000 square feet of retail uses and 910 multi-family units consisting of 70 one-bedroom units, 683 two-bedroom units, and 157 three-bedroom units, as well as ancillary recreational amenities. The	<b>NOP</b>	07/10/2008

	proposed project would utilize state density bonus laws by providing affordable housing as part of the development. The two sites would be linked by a pedestrian bridge across Flower Street.		
2008061069	Hillside Development Combining Zone - Amended Hillside Ordinance EIR Bakersfield, City of --Kern The Hillside Development Combining Zone is located in the northeastern portion of the City of Bakersfield. The project consists of amendments to the Hillside Development Combining Zone, Bakersfield Municipal Code, Chapter 17.66, which were adopted on November 15, 2006 (Amended Hillside Ordinance). The Amended Hillside Ordinance is intended to define and implement the goals and policies of the Metropolitan Bakersfield General Plan as they relate to the preservation and maintenance of hillsides as a scenic resource of the City and to protect the public from the threat of wildlife, hillside instability and landslides. The Amended Hillside Ordinance is a resource protection measure that amended the HD zone by creating slope and viewshed protection areas that restrict development on steep slopes and ridgelines.	<b>NOP</b>	07/11/2008
2008062030	South Sacramento Habitat Conservation Plan (SSHCP) Sacramento County Elk Grove, Rancho Cordova, Galt--Sacramento The proposed SSHCP is a regional approach to conserving species and addressing issues related to urban development, habitat conservation, open space protection and agricultural protection. The SSHCP would authorize the County, cities of Elk Grove, Rancho Cordova and Galt, and two public utility agencies to issue permits allowing landowners to engage in specific development activities that could result in incidental takes of listed species.	<b>NOP</b>	07/10/2008
2008062035	The Creamery Sacramento, City of Sacramento--Sacramento The proposed project will consist of a total of 272 high-density residential dwelling units and 101,180 square feet (sf) of retail space on 8.2 developed acres. The project applicant has indicated that up to 81,040 sf could be used for office space with the remaining 20,140 sf for retail use.	<b>NOP</b>	07/10/2008
2008062036	260 Fifth Street San Francisco, City and County of San Francisco--San Francisco The Project Sponsor proposes to replace the warehouse with a building that would have two nine-story, 85-foot-tall towers connected by a common entry and bridges at each building level. The project would include 175 residential units (134,162 gross square foot [gsf]), ground-floor retail (5,719 gsf), and 177 off-street parking spaces (36,256 gsf) for residents.	<b>NOP</b>	07/10/2008
2008062037	900 Folsom Street San Francisco, City and County of San Francisco--San Francisco The project sponsor proposes to replace the surface parking lot with two nine-story, 85-foot-tall buildings which would frame a mid-block passage running through the site. The project would include 291 residential units (238,660 gross square feet), ground-floor retail (4,677 gross square feet), and 293 off-street parking spaces (81,319 gross square feet) for residents.	<b>NOP</b>	07/10/2008

2008062033	South County Educational Facility Project Butte County Oroville--Butte The proposed project includes the development of four educational structures with uses which may include but are not limited to a multi-pupose building, an administration building, a library/career path classroom and classroom facilities. The proposed project would provide capacity for a maximum of 108 students.	<b>Neg</b>	07/10/2008
2008022136	Minor Subdivision MS504-87CCII Lafayette, City of Lafayette--Contra Costa Minor subdivision to divide 19.23 acres into three lots for residential development.	<b>SIR</b>	07/10/2008
1997071093	San Luis Obispo Creek Improvements San Luis Obispo, City of San Luis Obispo--San Luis Obispo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of San Luis Obispo Public Works Department, 919 Palm Street, San Luis Obispo, California 93401. The applicant proposes routine maintenance activities within the San Luis Obispo Creek watershed within the City of San Luis Obispo, including sediment removal, vegetative control, debris removal, erosion control work, channel flow capacity restoration and revegetation, to be conducted annually to maintain channel capacity for flood control, reduce erosion, and to protect utility lines.	<b>NOD</b>	
2000061079	Recirculated Draft Coachella Valley Multiple Species Habitat Conservation Plan and Natural Community Conservation Plan Coachella Valley Association of Governments Coachella--Riverside The project area would extend from the San Gorgonio Pass to the Salton Sea in central Riverside County. The MSHCP would provide a Conservation Reserve System encompassing 723,480+/- acres, comprised of 557,100+/- acres of existing public and private conservation lands (as of November 2006) and the acquisition and/or management of 166,380+/- acres of additional conservation and complementary conservation lands. The Plan seeks issuance of a 75-year incidental take permit, pursuant to section 2800 et seq. of the California Fish and Game Code and section 10(a)(1)(B) of the Endangered Species Act of 1973 as amended (ESA), for 27 species.	<b>NOD</b>	
2002061013	Hanford Expressway Project Caltrans #6 --Kings The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to widen the existing Cross Creek Bridge (#45-0006 L/R), which is a five-span continuous reinforced concrete slab bridge, by 21 feet to the north. This will require an additional 26 concrete piles (16 inches diameter) driven into the channel and two concrete abutments (2 feet 6 inches by 21 feet long) placed along the embankments. This bridge will be used by the east-bound lanes. To the north of the existing bridge, a new bridge will be constructed to accommodate the west-bound lanes. There will be an open 85 foot median separating the east-bound and the west-bound lanes. The new bridge will be a pile footing foundation and concrete post and deck. The bridge deck (190	<b>NOD</b>

	feet long by 42.5 feet wide) will be supported by 48 concrete piles (16 inches diameter) and two concrete abutments (2 feet 6 inches wide by 42 feet 6 inches long).		
2003032112	Potrero Hills Landfill Expansion Solano County Fairfield--Solano Certification of the EIR and approval of modifications to an existing Use permit and Marsh Development Permit to expand the Potrero Hills Landfill from 320 acres to 580 acres, increase the maximum height from 220 feet to 345 feet, and modifications to landfill operations.	<b>NOD</b>	
2005081023	Riopharm Residential Development Agoura Hills, City of Agoura Hills--Los Angeles The operator proposes to alter, or partially fill, two perennial streams on a 13.13-acre site to develop 24 residential units consisting of 11 detached town-home units on 2.73 acres within Tract 48901 and 14 single-family residential units within 10.4 acres on Tract 48312 (for total of 13.13 acres), a debris basin, a retention basin/velocity dissipater, various storm drains with outlets, concrete v-ditches and splash pads, a recreational area, a public sidewalk adjacent Agoura Road, underground utilities and private and public roadways. Of the 13.13 acres, 5.3 acres would be dedicated open space. The debris basin would intercept natural hillside drainage south of the development and the existing 60" storm drain, along the north end of the project, would be replaced with a 72-inch R.C.P. storm drain. Proposed grading within and adjacent to the project footprint results in the alteration, partial removal of, or complete under-grounding of 0.932 acres of perennial streams and riparian habitat, including the removal of several mature oak trees.	<b>NOD</b>	
2006052018	Verbena Fields Restoration Project (ER 05-05) Chico, City of Chico--Butte The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2008-0055-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Chico.  Riparian and natural flow restoration of the left bank floodplain of the Lindo Channel. Sediment, accumulated concrete rubble, asphalt and cobble will be removed from the floodplain. The existing floodplain will be re-contoured to include a secondary flow channel and two bioswales to treat stormwater inflows. Riparian plantings will be incorporated as part of this restoration project.	<b>NOD</b>	
2006092110	Floriston Ramp Bridge (17C-0047) Replacement Nevada County --Nevada The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0138-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Nevada County Department of Transportation.  The project proposes to replace the existing bridge with a cast-in-place, box girder structure. The existing bridge deck will be demolished. The existing pier walls will not be replaced, but will be extended to meet and match the height of the new	<b>NOD</b>

	soffit. The new bridge will be the same size as the existing, but will have a soffit elevation approximately 3.3 feet higher to allow conveyance of the 100-year flood. A temporary Bailey style bridge will be placed just east of the existing bridge to serve as a detour.		
2006101130	Fox Plaza Riverside, City of Riverside--Riverside Planning Case P08-0229: Proposal by Metro Pacific Properties LLC, and the City of Riverside Redevelopment Agency for consideration of an EIR associated with the redevelopment of two full blocks and two half-blocks totaling approximately 5.97 acres in Downtown Riverside, currently developed with retail, office, and institutional buildings and surface parking lots. The proposed project entails the establishment of a mixed use development project consisting of up to 76,000 square feet of restaurant and retail space, up to 532 residential units, which includes a mix of unit types (condominium, townhome, live/work, loft) and up to 1,693 parking stalls located within parking structures.	<b>NOD</b>	
	Planning Cases P06-0028 and P06-0029: Proposal by Metro Pacific Properties, LLC, for a Conditional Use Permit and a Tentative Tract Map for condominium purposes to establish a mixed use development consisting of approximately 8,285 square feet of ground floor retail/restaurant space and 40 residential condominium units on approximately 0.71 acre development with a surface parking lot.		
2007011020	San Jacinto Agricultural In-Lieu Water Supply Eastern Municipal Water District San Jacinto, Unincorporated--Riverside Eastern Municipal Water District (EMWD) proposes to install approximately 10,775 linear feet of 24-inch recycled water pipeline to deliver recycled water to two dairy farms. The recycled water will be used for on-farm irrigation in exchange for reductions in groundwater pumping from the San Jacinto groundwater basin that is currently in a state of overdraft. More than half of the groundwater being pumped from the San Jacinto subbasin is being used for agricultural irrigation, the water table levels have dropped, and some wells have gone dry. The proposed recycled water pipeline will reduce groundwater pumping in the San Jacinto subbasin and help stabilize the subbasin.	<b>NOD</b>	
	The Addendum makes four minor technical changes to the Four-Agency Agreement Re In-Lieu Project. First, the term is amended to allow renewal or withdrawal at the end of the Agreement's thirty-year term. Second, an additional assurance is added such that Eastern Municipal Water District (EMWD) will utilize the least expensive source of water available in the event neither secondary or tertiary water are available. Third, EMWD agrees to limit any additional agreement providing for the use of recycled water in lieu of groundwater will be limited to groundwater producers in the Management Area and such agreements will not provide parity with or priority over tertiary water. Last, the amending the Exhibits to the Agreement to include updated versions.		
2007122054	Encinal School Modernization, Expansion & Teacher Education Resources Center Menlo Park City School District Atherton--San Mateo Expand the current facilities housing 405 students to accommodate projected future enrollment of up to 714 students. Grades K-2 would be added to present grades 3-5. Improve roadway frontage to enhance traffic circulation and add	<b>NOD</b>

2007112080 San Francisco Bay Area Water Trail Plan  
California State Coastal Conservancy  
--Alameda, Contra Costa, Napa, San Francisco, Santa Clara, ...  
The San Francisco Bay Area Water Trail Plan (Plan) provides recommendations and guidance for a network of landing/launching sites at various locations on the margins of San Francisco Bay and its tributaries for non-motorized small boats. Water Trail access is being considered for at least 112 locations in the counties of Alameda, Santa Clara, San Mateo, San Francisco, Napa, Sonoma, Solano, Marin, and Contra Costa. The Plan would result in improvements at some or all of the 112 locations, as well as other unidentified sites. The plan would also redirect existing use of San Francisco Bay by non-motorized small boats.

2008062038	Rogers Bridge Replacement Santa Clara County Gilroy--Santa Clara This application is for a Grading Permit to replace an existing pedestrian bridge over Rucker Creek in combination with additional creek restoration/revegetation activities. This will entail removing an existing footbridge which includes footings located within the creek banks, and the installation of a new free span bridge with footings above the top of bank. Proposed associated improvements include re-grading of the creek banks downstream of the pedestrian bridge and replanting with native (riparian) vegetation.	<b>MND</b>	07/11/2008
2008062039	Culinary Institute of America Expansion Project St. Helena, City of St. Helena--Napa The Culinary Institute of America at Greystone (the "CIA") is proposing a project that includes improvements to its existing facilities to allow for an increase in enrollment and to meet the overall operational needs of the main campus and its off-site dormitory.  The project involves two sites: the Greystone Campus at 2555 Main Street and the Vineyard Lodge complex located at 830 Pratt Avenue. The project components at the Greystone campus consist of an increase in student enrollment from 104 students to 200 students, establishment of a new 25-35 seat café/delicatessen, relocation of the retail store and construction of a new teaching kitchen, chocolate room, and an amendment to the existing water use agreement.  The project components at the Vineyard Lodge complex include rezoning the parcel from A-20: Twenty Acre Agriculture to PQP: Public & Quasi-Public; the construction of a new 12,282 square foot dormitory, and an amendment to their water use agreement. The applicants are also requesting to be exempt from the housing in-lieu fee (pursuant to municipal code section 17.146.050. The number of students housed on the site will increase from 40 to 101, including one on-site manager. The proposed dormitory is envisioned to achieve LEED Gold certification which is recognized by the U.S. Green Building Council as one of the most environmentally responsible forms of development.	<b>MND</b>	07/15/2008

	proposed recycling activities and operate a concrete crusher to process/recycle concrete. Subsequent to the modification of the Use Permit, the applicant will need to revise their existing Solid Waste Facility Permit issued by the California Integrated Waste Management Board.		
2005092021	San Pablo Dam Seismic Upgrade East Bay Municipal Utility District --Contra Costa Seismic remediation of the dam chiefly consisting of downstream foundation soil improvement, removal of the downstream buttress, construction of a new downstream buttress, and installation of geotechnical instrumentation.	<b>NOD</b>	
2006072106	Ukiah Air Attack Base Relocation Project Forestry and Fire Protection, Department of Ukiah--Mendocino The California Department of Forestry and Fire Protection (CAL FIRE) proposes to lease approximately 9 acres of land in the southeast corner of the Ukiah Municipal Airport for the relocation of its existing Air Attack Base facilities. Current Base facilities are located within the west central portion of the Ukiah Municipal Airport. The proposed project is designed to be a replacement for the existing Base with facility upgrades to provide safer and more efficient operations. While the operation of the airbase will have the same level of personnel, aircraft and equipment assigned as now, the number of planes that can be loaded during a major fire event will increase from two at a time to four at a time. As a result, fire fighting capabilities will be improved due to reduced response time. Ownership of the existing facilities will revert to the City.	<b>NOD</b>	
2007011009	Tentative Tract Map 06-04, Mechling Subdivision Poway, City of Poway--San Diego CDFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA #1600-2008-0070-R5) to the project applicant, Don Mechling. The applicant proposes to alter the stream/lake to install five culverted stream crossings in order to construct roads associated with the Mechling Subdivision Project. Project activities include the installation of one 72-inch diameter corrugated steel culvert in each of five road crossing locations. The area beneath the culverts will be excavated and the culvert will be placed using a backhoe. Then the area will be backfilled so that half of the pipe is buried, forming the drainage channel. Concrete block walls will be constructed at the ends of the culvert to retain the embankments that support the roads.	<b>NOD</b>	
2007102036	Guinda Bridge Replacement Project on County Road 57 (Bridge 22C-0074) over Cache Creek Yolo County --Yolo The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2007-0043-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Yolo County Planning and Public Works Department. The proposed project consists of the constructing a new bridge south of the existing bridge. The replacement structure will consist of three-span, cast-in-place, prestressed concrete box girder with a total length of approximately 112 meter (367.5 feet). Two-meter diameter single columns will be installed for	<b>NOD</b>

2007102137	<p>superstructure support at two bents. Either steel H-piling or cast-in-place piling will be used for the foundation. Riprap will be placed on the embankment around the east abutment. The project also includes the removal of the existing bridge.</p> <p>Zeneca/Former Stauffer Chemical Site - Lot 1 PCB/VOC Area Removal Action Workplan Toxic Substances Control, Department of Richmond--Contra Costa The Zeneca/Former Stauffer Chemical Company Site (Zeneca Site also referred to as the Campus Bay Site). The Zeneca Site was first developed in 1897 when Stauffer Chemical Company (Stauffer) built a plant to manufacture sulfuric acid. Later, Stauffer also manufactured at various times Superphosphate, carbon disulfide, aluminum sulfate, ferric sulfate, titanium trichloride, and agricultural products. These manufacturing activities occurred predominantly on Lots 2 and 3 of the Zeneca Site and these manufacturing operations ceased in 1997. Prior to the 1950's Lot 1 appears to have been used as a farm, a school and for residential buildings. Stauffer Chemical began development of Lot 1 in the late 1950's with the construction of a pilot metals research facility. Electron beam furnaces were used to melt various metals. For a two-week period, uranium ingots may have been melted in a furnace located in former Building 80, and was previously reported that it may have been melted in a furnace located in former Building 94. More recent information indicates that the uranium ingot was melted in the former Building 80. Both buildings have been demolished and Building 94 was located to the north of the Lot 1 PCB/VOC area. The former Building 80 was located to the south on Lot 3. In the 1960's development of Lot 1 as an agricultural chemical research and development campus began. Agricultural chemical research and development continued until 2001 and included the use of solvents, pesticides, metals and some radioactive substances. Other historical activities that occurred in the general vicinity of the PCB/VOC Area included a hazardous materials storage area, and an electrical transformer. Residual cinder material from the sulfuric acid manufacturing has been detected at Lot 1. Lot 1 currently consists of office buildings, greenhouses, fences, parking areas, sidewalks, and vacant land.</p>	<b>NOD</b>	
2008012098	<p>Langtry Golf Course Lake County --Lake The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2008-0101-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Langtry Farms, LLC.</p> <p>This project is an 18-hole golf course including a clubhouse, maintenance building, parking lot, wastewater systems and an unlighted practice range. The golf holes will be reached by a cart path which will cross the stream zone in 39 locations with construction of a bridge at each of the crossings. At 17 of these locations, the stream zone will be clearspanned and at the remaining 22 locations, two wooden piles every 10 feet will be driven in the stream zone to matting where appropriate, and installation of the bridges on a forward moving basis where the preceding section of the bridge is used as the staging area for installation of the next section of bridge. Up to three temporary crossings will be used to move equipment during construction. Temporary crossings shall consist of two railroad car frames laid side by side or a large steel plate and may be left in over winter. At the existing pond, the pumphouse will be removed and the banks will be smoothed out using</p>	<b>NOD</b>

2008068180	Cully Boat Dock Fish & Game #2 Sacramento--Sacramento Construct a private recreation boat dock and gangway ramp. Project will required two 14-inch diameter steel pilings to be driven into the channel bottom, and two 4-inch diameter steel pilings at the top of the gangway.	<b>NOE</b>	
2008068181	Erosion Repair Projects on North Fork Yuba River Fish & Game #2 --Sierra Sierra County proposes to repair streambank erosion caused by high water flows occurring during January 2006. Three specific locations have been identified for repair: (1) North Fork Yuba River at Old Toll Bridge Road; (2) North Fork Yuba River at the North Fork Diversion Structure; and (3) North Fork Yuba River at Jim Crow Canyon. The Old Toll Bridge Road and Jim Crow Canyon repair designs utilize traditional rock slope protection materials (riprap). The repair design for the North Fork Diversion Structure site specified the use of grouted riprap. The Department met with Sierra County officials and express concern for the environmental impact of using grouted riprap. The Department is requiring Sierra County to provide an alternate design to achieve the project goals.	<b>NOE</b>	
2008068182	Ebbert Secondary Dwelling Unit - Development Review Permit DR08-03 Santee, City of Santee--San Diego A 600 square foot secondary dwelling unit on a 1.691 acre lot in the R-2 Low-Medium Density Residential zone.	<b>NOE</b>	
2008068183	Transfer of Restoration Credit and Coverage Rights to the North Stateline Utility Undergrounding Project Tahoe Conservancy --Placer Project consists of the sale and transfer of 218 square feet of restoration credit and 73 square feet of potential coverage rights from Conservancy-owned land to a receiving parcels where existing utility lines will be placed underground. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>

2008068190	Napa Firewise Goat Fuels Management Project Forestry and Fire Protection, Department of --Napa Approximately 250 acres will be treated to reduce the fuel loading, create a shaded fuelbreak, and to increase the defensible space around structures and other improvements to reduce the threat from wildland fires. Crews and goats will be used to meet the treatment objectives specific to each treatment area. Goats, 250 to 500, will be rotated through treatment areas to achieve the proper amount of surface fuel (grass and small shrubs) reduction without damaging small trees and larger vegetation. Hand crews will be used for brush and ladder fuel removal.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 06/01/2008 - 06/15/2008

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, June 12, 2008</u></b>			
2008068191	<p>Fuel loading created by the crews will be pile burned under prescribed weather conditions and only on permitted burn days. The fuel reduction will prevent an ignition from becoming a large damaging fire and also serve to protect the communities of Angwin, Deer Park, and Tucker Farms from an encroaching wildfire. All of the proposed treatment areas are grass, oak/grass woodland, and grass underneath pine trees. Grass would be the primary carrier of fire through the areas without associated torching or a sustained crown fire. However, the areas have become overgrown, shade tolerant species have prospered, and open meadows have been encroached. This has created an increased fire hazard, and would allow a fire to torch trees or make a sustained run in the crowns. Residences and structures are located alongside the vegetation, and the areas are "textbook" wildland/urban interface (WUI).</p> <p>Shadequarter COM - Radio Vault Relocation Forestry and Fire Protection, Department of --Tulare</p> <p>This project involves moving the current temporary radio vault approximately 200 feet west from its existing location on a ridgetop near CAL FIRE's Shadequarter Fire Lookout Tower. A 24' x 12' cement pad will be poured. The vault will be then placed on the pad. A fence will be installed around the repositioned radio vault. This project sits just below the lookout tower on a bench and adjacent to the existing Shadequarter Remote Area Weather Station (RAWS). The area of the new site is a flat bench with annual grasses. There is an existing road that will provide for access to the new site.</p>	<b>NOE</b>	
2008068192	<p>McArthur Livestock JS Ranch Retardant Jettison Area Forestry and Fire Protection, Department of --Shasta</p> <p>CAL FIRE intends to periodically jettison excess fire retardant on the McArthur Livestock JS Ranch in rural Shasta County. The property where the retardant is to be jettisoned is oak woodland type.</p> <p>At times air tankers are dispatched to a reported fire, are airborne, and then cancelled prior to dropping the retardant. Not all air tankers are capable of safely landing with a full load of fire retardant. Occasionally air tanks must jettison a portion of the retardant load to insure a safe landing. However, the jettisoning of retardant is an infrequent occurrence. When a CAL FIRE air tanker is initially dispatched out of the Redding Air Attack Basin to an SRA reported fire, prior to a confirmation from CAL FIRE ground resources that there is in fact a fire, it will only have 800 gallons (capacity is 1,200 gallons) of retardant on board. With 800 gallons on board the air tanker can safely land without having to jettison. Once CAL FIRE has confirmation from ground resources that there is in fact a fire future air tankers will be dispatched fully loaded.</p> <p>CAL FIRE uses a variety of fire suppressant chemicals to enhance its capability to control and suppress wildfires. CAL FIRE plans to continue such use, and use only the most environmentally benign chemicals including, but not limited to Phos-Chek D75-R, D75-F, and 259-F retardants.</p>	<b>NOE</b>

<b><u>Documents Received on Friday, June 13, 2008</u></b>			
2008011127	<p>Proposed Amended Rule 1146 - Emissions of Oxides of Nitrogen from Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters South Coast Air Quality Management District</p> <p>--</p> <p>SCAQMD staff is proposing amendments to Rule 1146 - Emissions of Oxides of Nitrogen from Industrial, Institutional and Commercial Boilers, Steam Generators, and Process Heaters to reduce the allowable NOx emission limits from 30 parts per million (ppm) to 12 ppm, nine ppm, or five ppm, depending on equipment size and operational characteristics. The proposed amendments to Rule 1146 would also include NOx compliance limits for units burning landfill or digester gasses at 25 ppm and 15 ppm, respectively. Other changes are proposed that include:</p> <ol style="list-style-type: none"> <li>1) establishing a weighted average formula for dual fueled co-fired units;</li> <li>2) allow existing units to be de-rated to no less than two million BTU per hour per unit;</li> <li>3) requiring compliance with a 30 ppm NOx limit for low fuel usage equipment by January 1, 2015 or burner replacement, whichever occurs later;</li> <li>4) allowing a later compliance date for health facilities complying with seismic safety requirements;</li> <li>5) establishing a staged compliance schedule over a multi-year period which varies by equipment size range and unit operation;</li> <li>6) making the frequency of compliance testing compatible with RECLAIM sources for the same equipment size range; and</li> <li>7) allowing NOx emissions monitoring with a portable analyzer.</li> </ol> <p>Other minor changes are proposed to improve organization, clarity, and consistency throughout the rule. The Initial Study identified "air quality" and "hazards and hazardous materials" as the only areas that may be adversely affected by the proposed project. Further analysis of these environmental areas in the Draft EA have shown that only the topic of hazards and hazardous materials exceeds the SCAQMD's daily significance thresholds for operational activities associated with the use and storage of aqueous ammonia.</p>	EA	07/29/2008
2006112125	<p>Ostrom Road Quarry Yuba County Wheatland--Yuba</p> <p>DeSilva Gates Construction (DGC) proposes to develop a sand and gravel quarry on an approximately 315-acre site off Ostrom Road in Southern Yuba County. The project would include a new off-channel sand and gravel extraction, processing, and reclamation of the project site to its existing use of agriculture and grazing after mining activities are completed. Mining sand and gravel resources requires loosening the rock and crushing it into a manageable size for transport to production facilities. Mining activities would create two pits that would be mined in separate phases over a period of approximately 20 years.</p>	EIR	07/28/2008
2006112153	<p>Aegis Senior Living Continuing Care Retirement Community - Fountaingrove Lodge Project Santa Rosa, City of Santa Rosa--Sonoma</p> <p>The Aegis Senior Living Continuing Care Retirement Community Fountaingrove Lodge Project (Project), formerly known as Oaks 4 and 5, is a proposed community care facility located in the City of Santa Rosa (City), in central Sonoma County, California. The Project is located within incorporated northeast Santa Rosa at 4110 and 4210 Thomas Lake Harris Drive. The 9.85 acre Project area currently consists of undeveloped land. The Proposed Project would create a total of 136 community care units and 12 residential units to be used for employee</p>	EIR	07/28/2008

<b><u>Documents Received on Friday, June 13, 2008</u></b>			
	District, which requires approval by the District Board approval and LAFCO. Additional state-level approvals would be required from CSA, SPWB, and CDCR. The proposed criminal justice center includes a new 39,000 s.f. courthouse, a new 240-bed adult detention facility, and a new 37,155 s.f. Sheriff's Administrative Office. The new facilities would replace existing facilities located in the government center complex located immediately south of the project site. The project site also includes several off-site roadway improvements.		
2008062045	Oroville Industrial Park Oroville, City of Oroville--Butte  The project proposes to create a total of 113 industrial lots, one of which will remain a soil disposal site (Lot 1), 2 open space lots (Lots A and B), a common lot (Lot C, D, E, F, & G). Lot 1 is utilized as a soil disposal cell site containing a mound of contaminated dirt that is to be left undisturbed per EPA, 2 open space lots, and a common lot from 15 existing adjoining parcels totaling approximately 205 acres. The zoning designation is M-2 (Industrial), and the General Plan land use designation is Industrial. The site was previously occupied by Koppers Industrial, which produced treated wood products. The site was abandoned in 1986 after an industrial accident left the site environmentally unsafe. Environmental remediation has been done for the past 20 years consistent with a Record of Decision for the Koppers Superfund Site issued by the US EPA. The remediation plan restricts future uses of the site to commercial or industrial uses, with which the proposed project is consistent.  The industrial lots range in size from 0.90 acres to 16.26 acres. Due to the shape of the property and the environmental and hazardous constraints on the site, some of the industrial lots will be irregularly shaped. The maximum total maximum FAR post-development is estimated at 28 percent, which is below the current 0.40 FAR maximum allowable on the current parcel configuration.	<b>MND</b>	07/14/2008
2008062046	Magnolia House: Dominican University Administrative Office San Rafael, City of San Rafael--Marin  Dominican University proposes to convert the locally historic Magnolia House from residential to administrative office use. Minor changes to the building and site are proposed to provide additional parking and handicapped accessibility. All existing structures and landscaping are to be retained. Historical and Archaeological studies were prepared.	<b>MND</b>	07/14/2008
2008062049	Downtown Concord Water Main Replacement Project Contra Costa Water District Concord--Contra Costa  The Downtown Concord Water Main Replacement Project consists of replacement or abandonment of approximately 6,425 feet of existing water mains that are located in: Galindo Street between Salvio Street and Concord Boulevard; Willow Pass Road between Galindo Street and Third Street; Grant Street between Pacheco Street and Clayton Road; and Concord Boulevard between Galindo Street and Port Chicago Highway. CCWD records show that the water mains are shallow with approximately 3-feet of cover. CCWD records also indicate that there are 7 fire hydrants, 42 water meters, 19 in-line valves, and 7 tapping valves along the pipelines to be replaced. Construction of the pipeline replacements would require trenching between 4 to 6 feet in depth by 30 to 36 inches in width for the length of pipeline being replaced.	<b>MND</b>	07/14/2008
