STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

June 16 – 30, 2013

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 16 – 30, 2013**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov .

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, June 17, 2013</u>			
2013061034	Solar Power Remote Net Metering Project Rancho California Water District Murrieta--Riverside Rancho California Water District proposes to construct/install and operate a 5.6-megawatt solar power photo-voltaic generating facility within a 44.45-acre portion of a 60-acre site owned by RCWD within the City of Murrieta. Once operational, the electrical power generated from the facility would be routed to the SCE electrical grid and converted to generation credits that RCWD would be able to apply to its existing electrical service accounts. A portion of the study area will be utilized for riparian habitat restoration as part of a revised mitigation location for the RCWD Recycled Water Storage Pond No. 5 Project.	MND	07/16/2013
2013062035	Karuk Tribe's Orleans Broadband Project Humboldt County --Humboldt As part of a larger community development project, the Karuk Tribe proposes to install and operate wireless broadband antennas in the northwest corner of the above-named parcel, with the intent of providing wireless broadband service to the community of Orleans, CA. This larger project, funded by a grant from the USDA Rural Utilities Service, would connect the Karuk Panamnik Center (located in the same set of buildings with the Karuk Housing Authority near the Orleans Elementary School on Highway 96), with fiber optic cable to an existing fiber optic node in Humboldt County, about 3.5 miles north of the center of the community of Orleans along Ishi Pishi Road, a one-lane paved Humboldt County road that connects Orleans to Somes Bar in Siskiyou County on the north and west side of the Klamath River. That fiber optic connection would link with Siskiyou Telephone, which has agreed to provide bandwidth on their fiber optic network to the Project for internet purposes.	MND	07/16/2013
2013062037	South Coast Landfill Final Closure/Post Closure Maintenance Plan Mendocino County --Mendocino The Mendocino County Dept. of Transportation/Solid Waste Division is proposing final closure of the South Coast Landfill in accordance with the final Closure/Post-Closure Maintenance Plan (FCPCMP) proposed by the County. closure of the SCL will be performed in accordance with the applicable regulatory standards prescribed in the CA Code of Regulation (CCR) (i.e., 27 CCR, Chapters 3 and 4 and 40 CFR, Subpart F). The components and systems required for closure of the SCL include the final cover and grading design to control storm water, potential infiltration and accommodate future settlement, landfill slope stability, construction quality assurance, drainage and erosion control systems, LFG control and monitoring systems, groundwater/surface water monitoring systems, and site security.	MND	07/16/2013
2013062038	Self Parcel Map #2 (PMLD 20110155) Placer County Roseville--Placer The project proposes a Minor Land Division to allow for a three-lot split of a 3.75-acre property. Approval of the Minor Land Division will result in the creation of two separately saleable, buildable residential lots, consisting of a 43,326 sf.	MND	07/16/2013

<u>Documents Received on Monday, June 17, 2013</u>			
2013062039	Self Parcel Map #1 (PMLD 20110142) Placer County Roseville--Placer The project proposes a Minor Land Division to allow for a three-lot split of a 4.24-acre property. Approval of the Minor Land Division will result in the creation of two separately saleable, buildable residential lots, consisting of a 48,706 sf.	MND	07/16/2013
2013062041	Clifton Court Forebay Fishing Facility Water Resources, Department of Byron--Contra Costa DWR proposes installing an Americans with Disabilities Act-compliant (ADA-compliant) fishing pier extending approximately 500 feet into Clifton Court Forebay. Other appurtenant features to be installed include a staging area; a concrete pad and retaining wall; security fencing, and gates; ADA-compliant public restroom; bicycle rack; equipment shed; ADA-compliant boat dock and road section on West Canal; two ADA-compliant parking spaces next to the Clifton Court Forebay public entrance gate; and lighting and signage.	MND	07/17/2013
2013061035	San Joaquin River Parkway Master Plan Update San Joaquin River Conservancy Fresno--Fresno, Madera The Master Plan Update, a programmatic document, is a long-term, large-scale plan that would be implemented incrementally and in phases over many years. The proposed Master Plan Update presents conceptual Parkway development projects, and goals and policies under which the development would be pursued and implemented. The development of individual projects would be evaluated separately by the Conservancy or other appropriate lead agencies subject to separate site-specific CEQA analysis. The Conservancy has undertaken the process to prepare the Master Plan Update and will prepare the supporting EIR consistent with the findings of the attached IS.	NOP	07/16/2013
2013062040	Shadelands Gateway Specific plan and The Orchards at Walnut Creek Project Walnut Creek, City of Walnut Creek--Contra Costa The comprehensive Shadelands Gateway Specific Plan has been developed to identify a vision and framework to guide the planned land uses and future development within the 25-acre Shadelands Gateway property located at a prominent gateway location in the City of Walnut Creek. The impetus behind this effort is a development proposal by the property owner, Property Development Centers, LLC., to redevelop the property.	NOP	07/16/2013
2013061036	New Well Site No. 18 Kerman, City of Kerman--Fresno The proposed project consists of the drilling and development of a domestic production well, well site improvements, and the extension of two City water mains to connect the well to the City's existing water distribution system. The new well site will be located approximately 400 feet north of Whitesbridge Road (SR 180) and 1200 feet west of Madera Avenue (SR 145). The well site will be located adjacent to a City storm drainage basin.	Neg	07/16/2013

2013062036	Streambed Alteration Permit for Routine Maintenance at BCID Intake Canal (5 year Agreement) Banta Carbona Irrigation District --San Joaquin The project consists of the annual routine operation and maintenance of the BCID Intake Channel and fish screen facility for a period of five years. Dredging activities area include the mouth of the District intake channel at the San Joaquin River to the fish screen facility and may also include the area immediately upstream and downstream of the junction of the intake Channel with the San Joaquin River.	Neg	07/16/2013
2012072028	2012 Draft Marin County Housing Element Marin County --Marin Note: Final Review Per Lead - Extended The 2012 Draft Housing Element is an update of the County's' State-certified Housing Element that was adopted initially in November 1991, readopted with the Countywide Plan Update in January 1994, updated in June 2003, and then readopted with the Countywide Plan Update in November 2007. The 2012 Draft Housing Element addresses the requirements of California Government Code 65583, for the planning period from 2007 to 2014. The 2012 Draft Housing element consist of several main sections, each of which addresses a major subject area, including a review of constraints on housing development, an inventory of potential housing sites, and a set of policies and programs to support housing at all income levels.	SIR	07/31/2013
2003102128	Madera Quarry (CUP #2002-20) Madera County Madera--Madera The project includes development of a new 78-acre hard rock quarry that will mine 900,000 tons of aggregate annually for 40 years. The project will also include the alignment and widening of Road 209 and improvements to the Road 209/State Highway 41 intersection, as well as the permanent preservation and management of Habitat Management lands to offset the Project related impacts.	NOD	
2013069014	Lake or Streambed Alteration Agreement No. 1600-2012-0302-R1 "Trough" PTHP Forestry and Fire Protection, Department of -- The project is described in PTHP- 2-12-033 SHA for three encroachments including installing permanent culverts at crossings X2, X4, and X5.	NOD	
2012078304	New Water Intake and Plate Settler Project Heritage Ranch Community Services District --San Luis Obispo The California Department of Public Health is a responsible agency for this project and will be providing funds from the Safe Drinking Water State Revolving Fund program for this project. The Heritage Ranch Community Services District proposes to make improvements to the existing water treatment plant to meet the disinfection by-products standard. The replacement of an existing damaged water intake, new settling plate and appurtenant structures will address DBP exceedance.	NOE

1996022060	Vineyard Springs Drainage Master Plan Revision of Laguna Creek Flood Control Sacramento County Vineyard (subdivision)--Sacramento Note: Addendum to FEIR - Review per lead The adopted Drainage Master Plan for the Vineyard Springs Comprehensive Plan (VSCP) includes two regional detention basins at the confluence of Laguna Creek Tributary #1, two local detention basins on Laguna Creek, a single detention basin facility on Gerber Creek, and channelization of Laguna Creek from Sheldon Road to Vineyard Road (a total of five miles). The DMP also mentions that the ultimate condition will require an additional regional basin at the "Sacramento Aggregate Plant" (the Triangle Rock quarry) at a future time (noted as "20 to 25 years away" at the time the DMP was published). This ultimate basin would be located south of Florin Road in between the Folsom South Canal and Laguna Creek. The VSCP itself included plans to incorporate pedestrian and bicycle trails within the open space corridor along Laguna Creek. The goals of the adopted DMP included the elimination of what is called the "inter-basin transfer" between Laguna and Gerber Creek and the containment of the 100-year floodplain within the Laguna Creek	ADM	07/01/2013

2013062042	Tentative Parcel Map and Exception Application No. PLN2013-0044 - South 9th Street Stanislaus County Ceres, Modesto--Stanislaus This is a request to subdivide a 1.4 acre parcel into one 6,000 sf and two 5,250 sf parcels. Each of the proposed parcels is improved with a warehouse building and parking and served by City of Modesto water and private septic system(s). An exception is required as proposed Parcel "3" does not front on a County-maintained road.	CON	07/05/2013
2013032005	Waterstone Residential Milpitas, City of Milpitas--Santa Clara NOTE: Review Extended with additional information per Lead. There are three components to the proposed project: 1) demolition and construction of two existing industrial parcels with housing, 2) General Plan Amendment and Zone Change on eight parcels (including the two parcels slated for redevelopment) from Industrial Park to Residential and General Commercial designations, and 3) installation of a pedestrian bridge over Penitencia Creek.	EIR	08/05/2013
2013061039	Sunset Gap Monitoring Wells Project Orange County Water District Seal Beach, Huntington Beach--Orange The proposed project involves the construction of six new monitoring wells and the destruction of one existing monitoring well at Seal Beach Naval Weapons Station and the destruction of one existing monitoring well within the City of Huntington Beach.	MND	07/17/2013
2013061037	Sierra Industrial Warehouse Project Fontana, City of Fontana--San Bernardino The proposed Sierra Industrial Project includes the construction and operation of approximately 742,142 sf "high-cube" logistic warehouse use. The proposed warehouse includes two potential office spaces totaling approximately 35,000 sf that would be located at the northwest corner and southwest corner of the building. Commensurate with the Warehousing Distribution Logistic Overlay District requirements, the proposed project will also include the construction of Mango Avenue along the project site's easterly frontage and continuing south for another approximately .9 miles.	NOP	07/17/2013
2013061038	Lockwood Valley Animal Rescue Center (PL12-0141) Ventura County --Ventura The project consists of a request for a CUP (PL12-0141) to authorize the construction and use of a facility for inherently dangerous animals, known as the Lockwood Animal Rescue Center (LARC). The 10.5 acre project site will be located on a 20 acre parcel. The existing structures include a 1,850 sf barn, 480 sf animal shade structure, 5,000 gallon water tank, 340 sf storage container and various fenced animal pens and horse corrals. The applicant proposes to construct a new 22.7-foot tall 2,290 sf animal shade structure, 23-foot tall 2,997 sf storage barn, 5,000 gallon water tank, and a 9,600 sf fenced pen. All pens will be constructed with 11-gauge chain link fence, and will range in height from 8 to 10	Neg	07/17/2013

	feet with a two foot turned top at a 45 degree angle, facing inward. Each pen will have double entry gates, an internal security gate and an external perimeter gate. In addition, an 8-foot tall secondary perimeter fence will be constructed around the entire project site.		
2011091044	San Gorgonio Pass Campus Master Plan Mt. San Jacinto Community College District Banning--Riverside The District is proposing the construction and operation of a new college Campus. The new campus would provide core academic courses such as math, science, and writing that allow students to transfer to four-year College and universities. The Campus would employ approximately 150 to 200 staff at full build-out. It is anticipated that as many as 5,000 students would attend a full build out. Conceptually, buildings are planned to total approximately 250,000 gross square feet of laboratory, lectures, and other space including physical fitness facilities, library, and miscellaneous office and support space. Full build-out is anticipated by 2030.	NOD	
2011092035	Snow Creek SEZ Restoration Project Placer County --Placer The project will plan, permit, and remove historic fill from a 2.5 acre property in Tahoe Vista, CA to restore wetlands. Native vegetation will be planted to help in the restoration. A large particular seperator and setting bay will be installed for pre-treatment of runoff from the adjacent street 2-3 outreach events will be performed to get students involved in restoring the local watershed and/or teach sutdents about their local waterhsed.	NOD	
2011092057	Marin General Hospital Replacement Building Project Marin Healthcare District --Marin The proposed project consists of the phase development of the 19.7 acres of Marin General Structure, and Ambulatory Services Building, and a Hospital Replacement Building to ensure that Marin General Hospital will comply with the Hospital Facilities Seismic Safety Act (Seismic Safety Act) (Senate Bills [SBs] 1953 and SB 1661, SB 499, SB 90, and Assembly Bill [AB] 523).	NOD	
2012082020	Albright Office Park PD-12-001 Los Gatos, City of Los Gatos--Santa Clara The project as approved is the development of up to 485,000 square feet of new office/R&D space (including office serving amenities), one parking garage, surface parking areas, new access driveways, and new landscaping and open space. The project would remove the 10 existing buildings totaling approximately 250,000 square feet of office/R&D space and allow the construction up to four new large office/R&D buildings at full build out. The project includes a new Planned Development (PD) overlay to replace the existing CM PD zoning designation. The PD overlay would require Architecture and Site (A&S) approval. The project includes an A&S application, for entire project site.	NOD

	the centerline elevation of Studio Drive. The project will result in the disturbance of approximately 3,000 square feet of a 3,445 square foot parcel. The proposed project is within the Residential Single Family land use category and is located on the west side of Studio Drive, adjacent to the State Parks property on the northern end of Studio Drive, approximately 250 feet south of the intersection of Studio Drive and Highway 1. The site is in the Estero planning area.		
2009031001	Chevron Tank Farm Remediation and Development Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo The applicant, Chevron Corporation, has submitted planning applications to the City and County of San Luis Obispo to allow for remediation and development of a portion of a 332 acre property. Proposed development would be located on the eastern and western portions of the site over an 82-acre area, construction of which would be phased over a 25-year period, with the remaining 250 acres left in open space. The EIR includes evaluation of three separate, but related project components: a development project within the City; a development project within the County (should annexation of the project site into the City not occur); and, remediation and restoration of the project site within the County (to occur prior to implementation of either the City or County Development Plans).	EIR	08/02/2013
2013022013	The Marketplace Shopping Center Modesto, City of Modesto--Stanislaus The proposed project is a shopping center at the southwest corner of Oakdale Road and Sylvan Avenue. The center would have a total of 170,000 sf of floor-area on an 18-acre site. The proposed project includes an anchor store (approximately 52,000 sf) and a major tenant on the south side, additional major tenants and inline stores on the west side, and four pad buildings on the east side. Access to the shopping center will be provided from three driveways on Oakdale Road (the southernmost driveway is for service access only), one driveway on Sylvan Avenue, and two driveways on Hashem Drive (the northern driveway is service egress only). The applicant is proposing a new traffic signal at the intersection of Oakdale Road and the main project driveway/Post Office Drive. The project provides approximately 800 parking spaces to meet City parking standards. Required discretionary approvals by the City include a General Plan Amendment to redesignate the 18-acre site from Mixed-use (MU) and Residential (R) to Commercial (C), and a zoning amendment to change the site from Planned Development Zone, P-D(211) to a new Planned Development Zone.	EIR	08/05/2013
2012102060	Sabatino Rezoning (File No. PDC 12-010) San Jose, City of San Jose--Santa Clara A Planned Development Rezoning to allow up to 18 detached townhome units on approximately 3.4 acres located at the southeast corner of Mabury Road and Educational Park Drive. The proposed project includes a minimum 100-foot setback from the edge of the Penitencia Creek riparian corridor.	MND	07/18/2013

	the Flag Canyon Creek Bridge. This project is needed to address the bridge's scour critical condition and settlement issues. Replacing the existing structure will ensure the integrity of the SR 70 system through this area of Butte County.		
2012071075	California State Prison Corcoran Solar Project General Services, Department of Corcoran--Kings The Proposed Project is a solar photovoltaic power (PV) generation system for CSPC. The Proposed Project would be located on approximately 43 acres encompassing two distinct parcels. The sites correspond to a portion of S36, T21S, R22E (MDB&M) of the Corcoran, CA 7.5-minute quadrangle. The solar array would convert incident sunlight to direct current (DC) electrical power, which would then be converted to alternating current by centrally-located inverters (seven for System 1 and three for System 2) before being delivered to the CSPC owned distribution system.	MND	07/22/2013
2013061043	Location and Development Plan 13-02, Conditional Use permit 13-02, General Plan Amendment/Zone Change 13-02, Code Amendment 13-03 Adelanto, City of Adelanto--San Bernardino John Cheney proposes a two megawatt photovoltaic power generation facility on 18 acres of land.	MND	07/19/2013
2013062047	State Route 99 / Austin Road Interchange Project Manteca, City of Manteca--San Joaquin The City of Manteca is proposing improvements to the SR 99 / Austin Road Interchange and Moffat Boulevard as mitigation for Phase 1 of the Austin Road Business Park Development Project. The proposed project is a set of roadway improvements that would improve the level of service at the Austin Road Interchange and the four nearby intersections to a level D or better.	MND	07/19/2013
2003052054	Samoa Town Master Plan General Plan Amendment/Zone Reclassification GPA-02-01/ZR-02-02 Humboldt County --Humboldt Major Subdivision and coastal development permit for: merger of existing separate parcels into one parcel, subdivision of 227 acres into 329 parcels, upgrade of existing sewage collection and disposal facilities, construction of subdivision improvements and installation of utilities, demolition of various outbuildings and the Fireman's building within the Town of Samoa, building renovations and site grading in conjunction with a lead paint hazard abatement program for existing houses, and Planned Development Permit.	NOP	07/19/2013
2013061042	Valiano San Diego County San Marcos, Escondido--San Diego The project would require a General Plan Amendment to change the designation to Semi-Rural 0.5 (SR-0.5). The site contains one home to be removed and a historic barn to remain. The property is currently zoned A70 with minimum lot sizes of 1 and 2 acres. A Rezone would be required to reduce the minimum lot size and change the A70 areas to RS. A Specific Plan and Site Plan would establish setbacks, etc, which will vary across the five proposed neighborhoods.	NOP	07/19/2013

2013051018	Granite Construction Company Imperial County --Imperial Note: Recirculated The proposed project is the amendment of an existing Plan of Operations (mining permit) and a (County) Reclamation Plan. The mining permit (BLM Plan of Operations) has been environmentally assessed per National Environmental Protection Agency regulations (NEPA) (CA-670-2010-02). Per CEQA, as lead Agency for State Mine and Reclamation Act (SMARA), we must analyze the entire project, which includes the mining operation as well as the reclamation of the site even though we do not issue the mining permit on federally-owned land. Based on a Memorandum of Understanding (MOU dated October 1992) between Bureau of Land Management (BLM) and the State of CA, the "Plan of Operations" can be utilized as the mining permit as required by SMARA. The "Operator" Granite Construction Company has completed the required federal approvals, which includes a "Plan of Operations" and the "Decision Record".	Neg	07/19/2013
2013062045	PA-1300027 (SA) & PA-1300066 (SA) San Joaquin County --San Joaquin Site Approval application to construct a 2.0 megawatt photovoltaic solar power facility encompassing 15.0 acres in two phases over 5 years. Phase One is the development of a 10.0 acre switchyard to include 40" X 60" solar panels, inverter panels, and combiner boxes. Phase Two is to expand the switchyard to 15.0 acres to include additional solar panels, inverter panels and combiner boxes.	Neg	07/19/2013
2013062046	PA-1300087 (MS) San Joaquin County --San Joaquin A Minor Subdivision application to subdivide one 162.61 acre parcel into two parcels. Parcel 1 to contain 55.59 acres. Parcel 2 to contain 107.02 acres. This parcel is under a Williamson Act Contract. Applicant has applied for a parcel map waiver.	Neg	07/19/2013
2000032053	Tentative Parcel Map 96T-77 Tuolumne County Sonora--Tuolumne A tentative Parcel Map to create a total of fourteen (14) parcels and a remainder on 71.2+ acre parcel zoned M-1 (Light Industrial) , RE-3 (Residential Estate, three acre minimum), O (Open Space), and O-1 (Open Space-1) under Title 17 of the Tuolumne County Ordinance Code. 2010032032	<p>Marshall Gold Discovery State Historic Park, Park Improvement Project Parks and Recreation, Department of --El Dorado</p> <p>The Department of Parks and Recreation proposes to make various improvements to Marshall Gold Discovery State Historic Park to enhance the visitor's educational and interpretive experience.</p> <p>The improvements encompass 3 main areas of the park; The Gold Discovery Museum on the east side of Highway 49 off Back Street, Upgrade the museum building, Develop and install exhibits and media that reflect current day approaches to gold discovery and interpretation, The main parking lot/sawmill area, Create a central orientation plaza, Replace the existing sawmill replica with a new heavy timber structure, Enhance the gold discovery site along with the open area southwest of the discovery site located between Highway 49 and The South Fork of the American River.</p> <p>In conjunction with these improvements, upgrade the utility infrastructure; water lines, electrical service, and communication lines. As well as connect existing trails and a new trail system partially constructed under the ADA Trail System Improvement Project.</p>	NOD	
2012061058	<p>Ranchero Road Improvement Project Hesperia, City of Hesperia--San Bernardino</p> <p>The City of Hesperia (City) in cooperation with the County of San Bernardino (County) proposes improvements to a 5.5-mile stretch of Ranchero Road generally, from on the west approximately 2,200 feet east of Mariposa Road to Seventh Avenue on the east. The proposed project will involve widening existing two-lane segments of Ranchero Road to four lanes, with a 12-ft painted two-way left-turn median and 6-ft shoulders in both directions. On-street parking will not be allowed. Shoulder width and other dimensions would vary, depending upon whether the subject roadway segment is located in City or County jurisdiction. The total estimated roadway right-of-way width is anticipated to range between 120-ft and 140-ft. The at-grade Union Pacific Railroad crossing will be designed for its ultimate width of 92-ft. In addition to widening the existing two-lane roadway road segments to four lanes, the project includes asphalt concrete pavement (AC) overlay in some areas, culvert extensions, and stormwater facilities. The proposed project would require AC removal and replacement along existing sections of Ranchero Road that have not already been widened to four lanes.</p>	NOD	
2012112057	<p>Flag Canyon Creek Bridge Replacement Caltrans #3 Oroville--Butte</p> <p>Caltrans proposes to replace the existing Flag Canyon Creek Bridge structure (Br. No. 12-0140) on SR 70 in Butte County at post mile 23.91/24.46. The project will replace the existing 3-span bridge with a wider single span bridge. The new bridge would be on the existing tangent alignment; it would be approximately 100-foot long with two 12-foot lanes and standard 8-foot shoulders. The purpose of this project is to preserve the integrity of the transportation facility by replacing the Flag Canyon Creek Bridge. This project is needed to address the bridge's scour critical condition and settlement issues. Replacing the existing structure will ensure the integrity of the SR 70 system through this area of Butte County.</p>	NOD

2013064003	Orestimba Creek Flood Risk Management Feasibility Study U.S. Army Corps of Engineers Newman--Stanislaus The City of Newman and the surrounding agricultural areas have been inundated by flood flows from Orestimba Creek at least 12 times since records were initiated in 1932. The principal feature of the recommended plan is a partial ring levee, known as a "chevron Levee", situated on the uphill side of the City of Newman to prevent floodwaters from entering the town. The chevron levee is 4.7 miles long and ranges in height from 5.5 to 10 feet tall, depending on the ground elevation. The project will allow the local community to meet State of California requirements for flood risk management as well as National Flood Insurance Program accreditation requirements from FEMA. The estimated total first cost for the project is \$45,325,000 (October 2013 price levels) which will be cost shared by the Corps of Engineers and the non-Federal sponsor of the project.	EA	07/22/2013
2012122038	Level II Infill Correctional Facilities Project Corrections and Rehabilitation, Department of Chino, Folsom, Vacaville, Lone, San Diego-- The proposed project would involve the development of a total of three correctional infill housing facilities that would be placed at any of five potential sites within seven existing CDCR prison properties in San Diego County and the Cities of Chino, Lone, Folsom, and Vacaville. Either three single (792-bed) housing facilities would be constructed at three potential infill prison sites, or CDCR would construct one single housing facility at one potential infill prison site and a double (1584-bed) housing facility at a second potential infill prison site. In total, the proposed project would involve the construction of a total of 2,376 infill housing units (beds) and associated accessory uses. The proposed correctional facilities would operate 24 hours a day, year-round, with three 8-hour shifts (watches).	EIR	08/05/2013
2013032046	Sierra Brooks Water System Improvements - Phase 2 Sierra County Loyalton--Sierra The project will involve expanding the existing water system in order to correct deficiencies in source of supply, storage, pumping, and distribution and to allow the continued infill of the remaining undeveloped subdivision parcels. The proposed project involves the construction, operation, and maintenance of one new well and well pump station, one new welded steel water storage tank, one new booster pump station, and new transmission and distribution pipeline and services. The project as proposed will directly benefit the entire system. The project will have excess capacity to accommodate infill development, however the project will not have capacity for development outside the existing Sierra Brooks subdivision. The project will assure continued provision of a safe and reliable source of drinking water in compliance with State Department of Public Health standards.	FIN	
2013061044	Stanton Central Park Stanton, City of Stanton--Orange The proposed project involves the construction of an approximately 11.5-acre multipurpose community sports park. The proposed project would include community and restroom/maintenance buildings, youth softball and soccer fields, tennis and basketball courts, playgrounds and splash pad areas, picnic and event spaces, a bandstand, and a loop trail. 2013061045	UWS Materials Recovery Facility (MRF) and Waste Transfer (WT) Station Santa Fe Springs, City of Santa Fe Springs--Los Angeles The proposed project is a request by Universal Waste Systems, Inc. (UWS), to obtain a CUP to operate a MRF and TS at their existing collection truck storage and repair facility located at 9016 Norwalk Boulevard. The proposed project, if approved, will provide a full range of solid waste processing and recycling activities. The maximum permitted capacity will be 2,500 tons per day.	MND	07/22/2013
2013062048	Burlingame Hills Sewer Maintenance District Sanitary Sewer Capacity Improvements Project San Mateo County Burlingame--San Mateo The proposed project replacement of existing sewer vitrified clay pipe (VCP) with high density polyethylene (HDPE) and polyvinyl chloride pipes (PVC) in two segments of the Burlingame Hills Sewer Maintenance District's (BHSMD) collection system using open trench and pipe bursting construction methods. The specific segments are located along Adeline Drive (approximately 1,920 linear feet) and lower Canyon Road (approximately 2,927 linear feet). The existing 6" and 8" VCP pipes will be replaced with 10" to 12" HDPE and PVC pipes. After replacement, existing laterals along the pipe alignment will be re-connected to the new pipe. Existing brick manholes will also be replaced with concrete manholes.	MND	07/22/2013
2008082060	Estates Reservoir Replacement - Vegetation Removal and Interpretive Sign East Bay Municipal Utility District --Alameda The East Bay Municipal Utility District (EBMUD) plans to prepare a Supplemental Environmental Impact Report (EIR) to make minor changes to the landscaping component for the Estates Reservoir Replacement Project Final EIR certified on January 26, 2010. The ongoing Estates Reservoir Replacement project construction commenced in 2012 and involves the demolition of the existing reservoir structure and appurtenances and the installation of two 3.3 million gallon buried concrete tanks, landscaping, and associated appurtenances.	NOP	07/22/2013
2009022053	Wren Investors Urban Service Area Amendment (USA 00-02) Gilroy, City of Gilroy--Santa Clara The proposed project is an amendment to the City of Gilroy Urban Service Area (USA) boundary to include an approximately 49-acre project site. The proposed project does not include specific development and would not change the existing land use designations for the site as identified in the general plan. Although specific development is not proposed on the site at this time, the application materials include a preliminary master plan for planning purposes. The average residential density is 7.69 dwelling units per acre, consistent with the assumptions in the general plan and general plan EIR for the Neighborhood District land use designation.	NOP	07/22/2013
2013062049	Single Use Carryout Bag Reduction Ordinance Marin County --Marin The proposed Single Use Carryout Bag Reduction Ordinance would regulate the use of paper and plastic single use carryout bags within the geographical limits of all or some of the cities located in Marin County. The intent of the ordinance is to reduce the environmental impacts related to the use of single use carryout bags,	NOP	07/22/2013

	and to promote a shift toward the use of reusable bags. The ordinance would (1) prohibit the free distribution of single use carryout paper and plastic bags and (2) require retail establishments to charge customers for recycled paper bags and, generally, reusable bags, at the point of sale.		
2013062050	395 Page Mill Road and 3045 Park Boulevard Palo Alto, City of Palo Alto--Santa Clara The project proposes to retain the existing three-story office building at 395 Page Mill Road and construct two new four-story office buildings totaling ~311,000 sf on the property. The project proposes to demolish the existing one-story light industrial building on the 3045 Park Boulevard property and construct a three-story Public Safety Building (~44,500 sf) for the City of Palo Alto with a multi-level parking structure. The proposed project requires an amendment to the City's Comprehensive Plan and a Planned Community (PC) Rezoning to accommodate the proposed mix of uses, development density, and maximum building heights.	NOP	07/22/2013
2013062059	ACEforward Program San Joaquin Regional Rail Commission -- ACEforward is a phased improvement program to reduce travel time and improve service reliability and passenger facilities along the existing Stockton to San Jose corridor, and to extend ACE rail service to downtown Modesto and Merced. This program would provide the foundation for the long term vision of SJRRC intercity passenger rail services. The program would improve the existing ACE service managed by SJRRC by delivering safety and operational improvements that enable expansion of service to six daily round trips between Stockton and San Jose and extending ACE service to Modesto, which could occur as early as 2018. Following that, the program would extend ACE service to Merced and service frequency from Stockton to San Jose would increase to 10 or more daily round trips, perhaps as soon as 2022.	NOP	07/23/2013
2013061046	Mineral King Sewer Upgrade Project Visalia, City of Visalia--Tulare Capital Improvement Project to upgrade and increase sewer capacity for urban areas currently serviced by the portion of the existing Mineral King Sewer trunk line. The benefitting sites are all included in the City's existing growth plans, including the approved expansion of the Kaweah Delta Hospital, and the re-vitalization of the East Downtown area (generally Santa Fe Ave. to Ben Maddox Way). The existing sewer trunk line is located entirely within the existing right-of-way of Mineral King, between Locust and Ranch. The project is programmed to be completed in two phases. Phase 1 is between Locust and Divisadero. Phase 2 is between Divisadero and Ranch. There is an alternate route in Phase 2 that would bypass the segment of Mineral King between Central and the merger of Burrel and Mineral King (linear distance of 1,750ft.). The total linear distance of the project (Phases 1 & 2) is 6,950 ft., (8,700 linear ft. if alternate route is chosen). Pipe sizes to be installed are 42-inch and 36-inch, replacing the existing 24-inch sewer main. Construction impacts are primarily removal of pavement and trenching approximately six feet in width to a depth adequate to expose the existing sewer pipe. Existing sewer pipes will be sealed in place with new pipe placed alongside the existing pipe.	Neg	07/23/2013

2013068248	Elsie Avenue Denny's Sacramento County Sacramento--Sacramento The proposed project consists of the following: 1. A Use Permit, to allow the masonry wall, which is required between residential zones and commercial zones, to be moved 29 feet north of the Project's parcel boundary and onto the adjacent parcel. 2. A Design Review to comply with the commercial and mixed use design guidelines for a 4,200 square-foot restaurant on approximately 0.898 acres in the GC zone.	NOE	
2013068249	Bridge Maintenance and Preservation Caltrans #4 --Contra Costa A bridge maintenance and preservation project that will maintain the integrity of bridges and roadways on Routes 680.	NOE	
2013068250	NCCP Blowsand Ecosystem Conservaton Acquisition Project Coachella Valley Conservation Commission Desert Hot Springs--Riverside acquire 45 acres in the Willow Hole Conservation Area of the Coachella Valley Multiple Species Habitat Conservation/Natural Community Conservation Plan. Parcels are part of the blowsand ecosystem which is essential to the survival of various species associated with the sand source/transport system in support of the implementation of the HCP/NCCP.	NOE	
2013068251	Discontinuation of Arsenic Treatment Public Health, Department of --Nevada The California Department of Public Health is a responsible agency for this project. The Truckee Donner PUD (District) has proposed to discontinue the use of the arsenic treatment on the Northside well, the downsizing of the well pump from 750 gpm to 400 gpm and raising the pump suction from 465 feet to 445 feet. These changes have resulted in little to no arsenic in the water produced by the well.	NOE	
2013068252	Central building Re-roof Parks and Recreation, Department of --Sacramento Re-roof the historic Central Building at Sutter's Fort State Historic Park to maintain and protect a Cultural Resource. Work will remove the existing, failing, non-historic roof, install plywood sheathing on top of the existing framing to strengthen the roof diaphragm with new fascia board to cover the plywood; install light gauge metal strips aligned with the rafters over the ridge to transfer shear; insall combination shear and tension anchors and blocking and strapping to deliver seismic shear tension loads; install new cedar shakes.	NOE	
2013068253	Gorman Sewer Pipe Improvements Parks and Recreation, Department of --Los Angeles The purpose of this project is to connect sewer pipe from the Gorman School property line, across State land, to the Golden Valley Municipal Water Companies (GVMWC) sewer line along Peace Valley Road. Gorman School and GVMWC connections will continue off of State park property. This school had to close at the end of the year due to a septic system failure that cannot be repaired/replaced. The Superintendents of Hungry Valley have deemed this project worthwhile in	NOE

	order to get this school back open before the new school year. No other feasible option exist for the school district at this time other than trenching across State land to install a functioning sewer system.		
2013068254	Sportsmen's Club Pond Excavation Fish & Wildlife #4 Fresno--Fresno Removal of sediment from the bottom of the existing pond adjacent to the San Joaquin River. The pond will be drained of water by closing the inlet and outlet culverts with coffer dams upstream of the inlet and downstream of the outlet. The remaining water will be pumped out and into the river.	NOE	
2013068255	Culvert Installation Section 10z PAD JC-05 Fish & Wildlife #4 --Kern The Project includes the installation of an approximately 30-foot-long, 20-inch diameter corrugated metal culvert at an existing road crossing. Currently the road has a temporary metal crossing that allows flow under the crossing. The Project will include construction of a road over the culvert to accommodate heavy equipment. The road will be composed of native soil and road aggregate placed over the culvert. The existing channel will be slightly widened by less than 1-foot, using hand tools in order to match the shape of the culvert. The road will be approximately 25 feet wide over the culvert.	NOE	
2013068256	Agreement 2013-0026-R4 - PG&E Brown Diversion Dam Instream Control Valve Installation Project Fish & Wildlife #4 --Madera The Project is limited to installing a valved in-stream release outlet at the diversion dam for Browns ditch; 1) Installing two (2) temporary sandbag cofferdams to create dry workspace at the diversion pool and divert flow around work area during construction; 2) installing temporary bypass system to divert water downstream of work area; 3) Using a sump pump to keep work area dewatered and dry; 4) Excavating approximately 100 cubic yards of rock and sand from dewatered diversion pool upstream of the dam to be disposed of at off-site facility; 5) Coring through the existing cement dam wall to place 18-inch steel pipe outlet which will be controlled by a gate valve mechanism on downstream side of dam wall.	NOE	
2013068257	Adoption of Site Cleanup Requirements for Guadalupe Rubbish Disposal Co., Inc., Guadalupe Mine Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland San Jose--Santa Clara Nature: Site Cleanup Requirements (Order) Purpose: Adoption of Site Cleanup Requirements (Order) Beneficiaries: People of California	NOE	
2013068258	Issuance of Streambed Alteration Agreement No. 1600-2012-0208-R1, Dawn and Fred McLaren, Infiltration Gallery and Water Diversion Fish & Wildlife #1 --Trinity The project is limited to the construction of a 3 chamber infiltration tank along the river bank, according to submitted plans. There will be a 4" inlet pipe extending into the surface water. The tank will be 12'x 4.5' x 30" and a 1 horsepower submersible pump installed with the tank. The intake area will be filled with clean 1 1/2" rock and the area backfilled.	NOE

1995062009	<p>Amador Creek Bridge Replacement Project Caltrans, Planning AMADOR CITY--AMADOR The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2013-0026-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Amador City.</p>	NOD
------------	--	------------

The Project's purpose is to replace the existing, structurally deficient bridge. The existing two-span structure will be removed, including the native stone abutments in the creek. The proposed bridge type will be a cast-in-place concrete slab bridge. The proposed bridge will be a single span, 36 feet in length, spanning Amador creek. Bridge work will include two new abutments founded on bedrock in the creek. The proposed project will improve the creek's hydraulic capacity by expanding the north bridge abutment out of the channel 6 to 8 feet to widen the channel. Other channel improvements to increase hydraulic capacity will include reducing channel roughness at the exposed bedrock below the bridge by removing large cut stones abandoned in the channel during previous bridge construction projects, mechanically chipping off high points in the exposed bedrock, and permanent removal of the existing bridge piers. A temporary bridge will be placed across the creek 300 feet upstream of the existing bridge.

	soil. The site is served by municipal water/wastewater.		
2013062055	Adobe Creek Pumphouse and Well Destruction Santa Clara Valley Water District Los Altos Hills--Santa Clara The District will demolish and remove the abandoned wooden structure formerly used to house water pump equipment and fill and cap the adjacent shallow well. The site is adjacent to Adobe Creek but none of the work will involve in-creek work. Fencing will be installed to preclude construction equipment, debris or dirt from entering the creek during the demolition and capping. Filling and capping of the well will require the removal of a black walnut tree and an elderberry tree that are growing through the existing well structure. The site will be revegetated with native understory and appropriate riparian species.	MND	07/23/2013
2013062058	AT&T Foundation Repair / Hillside Support and Pathway Project Calistoga, City of Calistoga--Napa AT&T submitted a CUP (U 2009-03) application on April 10, 2009 to allow the stabilization of the building by installing helical anchors and constructing a grade/beam retaining wall along the south side of the building. Lionakis, the owner's architectural firm, has prepared a design that indicates the stabilization components and a pathway.	MND	07/23/2013
2011081042	General Plan Update Los Angeles County Los Angeles, City of--Los Angeles The proposed project is a comprehensive update of the Los Angeles County General Plan. The project includes goals, policies, implementation programs and ordinances. The project covers the unincorporated areas of Los Angeles County and accommodates new housing and employment opportunities in anticipation of population growth in the County and the region. The project will replace the existing adopted General Plan.	NOP	07/23/2013
2013061047	GPA996 and TR36410/Cameron Ranch Riverside County --Riverside The General Plan Amendment proposes to change the General Plan from Rural: Rural Mountainous (R:RM) (10 Acre Minimum) to 228 Acres of Rural Community: Estate Density Residential (RC:EDR) (2 Acre Minimum) and 399.04 Acres of Rural: Rural Mountainous (R:RM) (10 Acre Minimum). The Tentative Tract Map proposes a Schedule B subdivision of 627 acres into 154 clustered single-family residential lots and surface streets. Approximately 228 acres would be developed. Lot sizes would range from 0.23 acre to 1.15 acres and foundation pad sizes would range from 4,160 sf to 4,406 sf. Access would be via Wonderland Drive to the northeast or via Old Banning Idyllwild Road along the southeast boundary, which would connect the proposed project to SR-243. Electricity, gas, and water utilities would be provided from the nearest existing interconnection point. Stormwater would flow into natural drainage courses and household wastewater would be treated by septic tanks. Graded trails for recreational use within the project site would connect to a regional trail network.	NOP	07/23/2013

	Americans with Disability Act upgrades.		
2011071051	JRK 01-11 Alta East Wind Energy Project by Alta WindPower, LLC. Kern County Tehachapi--Kern The project as approved by the CA Dept. of Fish and Wildlife (CDFW) consists of a Minor Amendment to the CA Endangered Species Act (CESA) ITP referenced above as originally issued by CDFW to Alta Wind X, LLC; Alta Wind XI, LLC; Alta Wind XII, LLC; Alta Wind XIII, LLC; Alta Wind XIV, LLC (Permittees) for the Alta East and Northern Portion of the Alta Infill II Wind Energy Project in May 2013.	NOD	
2012102040	Twin Cities Road Widening Project Galt, City of Galt--Sacramento The proposed project was originally approved on August 3, 2011 and consists of adding a westbound lane on Twin Cities Road from east of Fermoy Way to Bergeron Road resulting in two lanes in both the eastbound and westbound direction, as well as modifying the Twin Cities/Fermoy Way intersection, approaches and transitions. The ~length of improvements, including turn pockets and tapers, is 1,800 feet. The existing drainage ditches along the northern boundary of the improvement area could be relocated and/or modified to be piped underground. A short row of trees existing along the northeastern border of the improvement area, which may be removed with implementation of the proposed project. The project was subsequently modified to include ~one week of nighttime construction which was not contemplated in the original project description and adopted IS/MND. Consequently, a CEQA Addendum was prepared in accordance with CEQA Guidelines Section 15164 to address the potential noise impacts of one week of nighttime construction. Additional mitigation was also adopted.	NOD	
2013012082	Sierra Community Park Project Susanville, City of Susanville--Lassen The City of Susanville is proposing to construct, operate and maintain a community park. The proposed Project will be located on approximately 17.6 acres of City-owned property located at 925 Sierra Road (APN 107-250-06). The Sierra Community Park Complex will include a community garden, arboretum and orchard, sports fields, basketball court, volleyball court, picnic area, amphitheater, trails, children's playgrounds, open meadow, restrooms, and parking.	NOD	
2013041081	Republic Materials Recycling Facility Compton, City of Compton--Los Angeles The City of Compton is reviewing the proposed operation of a dry Materials Recycling Facility in an existing 88,000 sf industrial manufacturing/warehouse building on an 11 acre site. The proposed project also involves the construction of a 10,000 sf expansion to the industrial building for material storage, raising a portion of the existing roof, a 6,000 sf office/employee center, 80 sf guard shack, and a rebuilt rear truck dock. The facility will be a 24 hour operation, however only two shifts will be working shifts. The third shift will be fore equipment maintenance. All sorting, processing and bailing operations will occur inside the industrial building. Baled materials will be stored in shipping containers or enclosed trailers in the rear of the site prior to shipment to the port of Long Beach. No exterior processing is proposed. The proposed capacity of the dry MRF is	NOD

	1,200 tons per day.		
2013042039	Development Review and Minor Use Applications 13PLN-04 Grass Valley, City of Grass Valley--Nevada The project is limited to the relocation of an ephemeral drainage to accommodate the construction of a new medical building and parking lot. Approximately 20-feet south of the existing detention basin the drainage will be re-routed ~30 feet east to parallel with Old Tunnel Road. The re-routed drainage will be constructed as an open swell using standard construction equipment. Two additional detention basins will be constructed and lined with cobble for sediment filtration. The western most detention basin will drain by an underground 18-inch diameter culvert into the existing storm drainage system.	NOD	
2013042073	CDBG Public Improvement Project, 11-PTEC-7620 Dorris, City of Dorris--Siskiyou Project will construct a new 1 million gallon (1 MG) steel water reservoir (tank) on City property to provide improved water system reliability for the residents of the City of Dorris. The new tank will be located adjacent to an existing 1 MG steel water tank at the site. Existing underground utilities and overhead communication lines will be utilized for the new tank. Existing access and site security is located at the project site. The project will be connected to the existing tank to provide improved efficiency. No new supply or delivered pipelines will be constructed off-site. Project will excavate into the existing hillside and construct a new tank pad for the project; the tank pad will expand the existing tank pad by approximately 1,000 sf. The new tank will be painted with muted colors to blend into the hillside.	NOD	
2013051034	Phillips 66 Line 200 Relocation-DWR Milepost 62.26 to 64.46 Project Water Resources, Department of Gustine--Merced The proposed project requires removing the existing Line 200 crossings at Aqueduct milepost 62.26 and 64.46. The new section of pipeline will be buried underground on the east side of the Aqueduct, and the existing pipeline on the west side will be decommissioned by capping both ends and leaving it in place. The majority of the relocated pipeline will be located in the Aqueduct right-of-way on the east side of the Aqueduct. The new pipeline will be similar in size and will use similar materials as the existing pipeline.	NOD	
2013051035	Allvision Digital Billboard @ Metro Site (PLN-12-00164) Downey, City of Downey--Los Angeles PLN-12-00164 (Conditional Use Permit, Variance, Development Agreement) - A request to construct and operate a 55 foot tall electronic billboard with two display area, each of which is 672 sf. Additionally, the application is to deviate from the maximum allowable height of 35' and the maximum allowable display area of 300 sf.	NOD

2013061051	Hanson Aggregates Mid-Pacific (Santa Margarita Quarry Expansion) Conditional Use Permit/Reclamation Plan Amendment; DRC2011-00098/DRC2011-00099, ED12-008 San Luis Obispo County --San Luis Obispo Hanson Aggregates Mid-Pacific is requesting a Conditional use Permit (CUP) and Reclamation Plan Amendment (RPA) to allow for the expansion of the existing surface mine. The purpose of the project is to extend the existing entitled timeframe for mining operations at the Santa Margarita Quarry. The extended entitlement timeframe for mining operations would be achieved by adding an additional 33 acres to the existing entitled 160 acre Reclamation Plan Area boundary. As proposed, the estimated duration of mining activities would be ~59 years with an additional 5 years to complete the proposed reclamation plan.	NOP	07/24/2013
2013061052	AMBAG 2014 Metropolitan Transportation Plan/Sustainable Communities Strategy, SBtCOG 2014 Regional Transportation Plan, SCCRTC 2014 Regional Transportation Plan Association of Monterey Bay Area Governments Unincorporated--Monterey, San Benito, Santa Cruz The Regional Transportation Plans for the Counties of San Benito, Santa Cruz, and Monterey are developed for each of the counties to provide a sound basis for the allocation of state and federal transportation funds to transportation projects within each county over a long-range timeframe through 2035. The RTPs address all forms of transportation, and includes the priorities and actions embodied in the plans prepared by each of the county's cities and unincorporated areas. The RTPs follows guidelines established by the State of CA's Transportation Commission (CTC) to describe the transportation issues and needs facing each county; identify goals and policies for how each county will meet its needs; identify the amount of money that will be available for needed projects; and include a list of prioritized transportation projects to serve each county's long-term needs within the projected "budget" of transportation revenues with consideration towards environmental impacts, land use, and special transportation needs.	NOP	07/24/2013
2013062060	Joseph Cellars Winery Napa County Calistoga--Napa Request is to adopt a Subsequent Neg Dec for a Use Permit Very Minor Modification (P12-00400). This proposal addresses minor revisions for an expanded, continual dual left turn lane for the previously approved and under construction winery. The revisions include: a new left turn lane on SR 29, construction of a new 600 foot long, 20 foot wide access driveway, installation of a new winery only entrance 460 feet west of Quail Mountain Lane, widening of a 975 foot section of SR 29 by 12 feet, construction a new center turn lane and connecting existing turn lanes from Diamond Mountain Road and Dunaweal Lane, (APN: 020-180-058). 2000011075	Lower Owens River Project Los Angeles, City of --Inyo CDFW is executing a Streambed Alteration Agreement pursuant to Section 1602 (SAA#1600-2013-0083-R6) of the Fish and Game Code to the project Permittee, Inyo County Water Department. The Permittee proposes to hand clear or mow emergent vegetation in the river channel underwater with a Hockney boat to promote retention and development of open water and habitat diversity. Proposed project activities include boat put-in and take-put locations, boat access points, and revegetation plots. The project goal is to determine best practices for long-term tule control on the Lower Owens River to maintain a continuous 8'-10' channel for boat navigation.	NOD	
2005121125	Deep Rose Geothermal Exploration Project Division of Oil, Gas, and Geothermal Resources --Inyo The State Lands Commission action is an extension of a 2-year State Geothermal Resources Prospecting Permit Lease through 2015.	NOD	
2007021127	2008 Owens Valley PM10 Planning Area Demonstration of Attainment State Implementation Plan Great Basin Air Pollution Control District --Inyo LADWP has amended the project description for the Phase 7 Moat and Row project to implement soil tillage on a portion of the project area as an interim dust control measure. Tillage is an adaptive solution that would be implemented until a permanent dust control solution for the Moat and Row areas is developed and approved through a stakeholder driven lake-wide master planning process. The State Lands Commission action is amendment of a 20-year General Lease- Public Agency Use through April 30, 2019.	NOD	
2009032009	St. Regis Napa Valley Project Napa, City of Napa--Napa The proposed project consists of the development of a St. Regis resort and winery on 93 acres and associated infrastructure improvements on 3 acres. The resort would provide 150 guest units, 95 vacation home units, recreation and event space, restaurants, a spa, and operations and support facilities. The 25,000 - case winery would be located within the resort grounds. As part of the project, a wastewater pipeline and recycled water pipeline would be installed between the Napa Sanitation District Soscol Water Recycling Facility and the project site. The State Lands Commission action is a 20-year General Lease Right-of-Way Use through June 21, 2033, for the recycled water pipeline and wastewater pipeline crossing under the Napa River.	NOD	
2009042052	Sacramento Bank Protection Project, Phase II - Levee Repair of 25 Erosion Sites Central Valley Flood Protection Board --Sacramento, Sutter, Yolo, Colusa The CVFPB has coordinated with the U.S. Army Corps of Engineers to design bank protection measures for 24 erosion sites within the Sacramento River Bank Protection (SRBPP) planning area. Erosion sites are areas along the SRBPP levees that are at risk of erosion failure during flooding and/or normal flow conditions. The State Lands Commission action is an amendment to a 30-year General Lease - Pubic Agency Use to add one of the 24 sites effective June 21,	NOD

2009111098	<p>Shipyards Sediment Remediation Project San Diego Bay Regional Water Quality Control Board, Region 9 (San Diego), San Diego San Diego--San Diego</p> <p>The Shipyards Sediment Remediation Project is the dredging of the sediment adjacent to shipyards in San Diego Bay; the dewatering, solidification of the dredged material (onshore or on the barge); the potential treatment of decanted water (anticipated disposal to the sanitary sewer); and the transport of the removed material to an appropriate landfill for disposal. The State Lands Commission action is a five-year Dredging Lease through June 20, 2018, is for the dredging of a 71,700 cubic yards of contaminated sediment in the south shipyard area (W26665).</p>	NOD	
2009111098	<p>Shipyards Sediment Remediation Project San Diego Bay Regional Water Quality Control Board, Region 9 (San Diego), San Diego San Diego--San Diego</p> <p>The Shipyards Sediment Remediation Project is the dredging of the sediment adjacent to shipyards in San Diego Bay; the dewatering, solidification of the dredged material (onshore or on the barge); the potential treatment of decanted water (anticipated disposal to the sanitary sewer); and the transport of the removed material to an appropriate landfill for disposal. The State Lands Commission action is a five-year Dredging Lease through June 20, 2018, is for the dredging of a 105,000 cubic yards of contaminated sediment in the north shipyard area (W26666).</p>	NOD	
2012011009	<p>Ocean Outlet Maintenance Manual Orange County Flood Control District San Clemente, Huntington Beach--Orange</p> <p>Orange County DPW will perform routine maintenance on six drainage outlets which deliver stream and storm water runoff to the Pacific Ocean in Orange County. These outlets are routinely blocked by sand during winter storms, creating seasonal lagoons that are subject to oxygen depletion in the summer. This in turn causes biological impacts, including fish kills. The maintenance program maintains the drainage outlets in order to prevent these conditions. Maintenance involves sand removal at all the site and re-setting displaced rock rip-rap at one site. The State Lands Commission action is an amendment to a 49-year General Lease - Public Agency Use to allow maintenance dredging in the Talbert Channel Open Outlet.</p>	NOD	
2012081066	<p>Henderson Park Project Merced County --Merced</p> <p>The project involves several enhancements to Merced County's Henderson Park including a refurbished trail system to provide the public with safe access to river-side recreation, a restored non-motorized water craft launch site, disability access, educational signage, remodeling of restrooms and updating and improving drinking fountains, habitat restoration for juvenile and adult salmonids, providing open space and flood management, enhancing interpretive facilities, and working with water user to improve fish passage and reducing channel maintenance needs, while improving habitat for native fish species, emphasizing fall-run Chinook salmon and steelhead. The State Lands Commission action is a 20-year General Lease - Public Agency Use through June 20, 2033.</p>	NOD

2013061053	Allan Company material Recovery Facility Expansion Glendale, City of Glendale--Los Angeles The City of Glendale is proposing to add the processing of mixed waste to the existing City of Glendale/Allan Company Material Recovery Facility (MRF) and buy back center which is located on a 1.73 acre site. Incoming loads will include source separated curbside material and mixed waste from commercial and multi-family residences. The incoming material will be processed over a sort line and the various recyclable materials separated for transport to commodity markets and end users. Residual material will be transported to the Scholl Canyon Landfill. The facility will be permitted to process up to 250 tons per day of material with an overall estimated diversion rate of approximately 75 percent. The project will also require a Solid Waste Facility Permit from the CA Dept. of Resources Recycling and Recovery to process mixed waste and recyclables.	MND	07/25/2013				
2013062063	Sunnyside Estates Pittsburg, City of Pittsburg--Contra Costa The proposed project consists of a request for a General Plan amendment for Business Commercial to Medium Density Residential, re-zoning from CS-O (Service Commercial with an Overlay, Ord. 1284) District to RM (Medium Density Residential) District and a request for approval of a vesting tentative map to accommodate a new 33-unit small lot, single family residential development.	MND	07/25/2013				
2013062064	Barry Minor Land Division (PMLD 20120358) Placer County --Placer The project proposes a Minor Land Division of a 20,804 sf property in order to create two parcels consisting of 10,399 sf (Parcel A) and 10,405 sf (Parcel B).	MND	07/25/2013				
2013062065	Use Permit Application No. U-13-03 of Caymus Vineyards Solano County --Solano The applicant proposes to develop a new winemaking and distillation facility on four parcels totaling approximately 178 acres, with the actual development occurring on three parcels totaling approximately 57 acres. The proposed winery/distillery will be developed in phases and have an ultimate production capacity of 5 million gallons of wine per year and 500,000 gallons of spirits production per year. This project will allow Caymus to expand production capacity, centralize packaging and wine storage and create process efficiencies due to proximity to truck and rail transportation. 	may remain, along with two footbridges.		
2013068399	Boy Scouts of America Access Project Fish & Wildlife #5 --Ventura SAA # 1600-2012-0220-R5. The Permittee proposes to grade a dry dirt weather crossing across San Antonio Creek, to provide access to Camp Willett on Sulphur Mountain, on the east side of the creek. This crossing is within an existing BSA road easement. Nothing will be constructed within the streambed. A dirt ramp will be constructed between Creek Road and the streambed, consisting of 200-cubic yards of clean dirt, and 4,000 pound concrete blocks, tie into the structure with geo-grid material, will be used as retaining wall along one side of the ramp.	NOE	
2013068400	Fierstone Bridge Boulevard over San Gabriel River Fish & Wildlife #5 Downey, Norwalk--Los Angeles SAA #1600-012-0230-R5. Replace the Firestone Boulevard Bridge over the San Gabriel River, at the adjoining city boundaries between Norwalk and Dwoney. The existing Firestone Boulevard Bridge was given a sufficiency rating of 48.9 by Caltrans and is classified as "structurally deficient" due to the conditon of the structure. The Caltrans Bridge Inspection Repaorts describes cracks in the concrete deck and concrete spalls/exposed reinforcing in the deck soffit. Other problems include major cracking and spalling in the bridge girders. The new bridge shall accommodate six lanes of traffic, a 10-foot center median, 8-foot shoulders, and sidewalks, and would improve traffic flow between the Cities of Norwalk and Downey.	NOE	
2013068401	Building Energy Efficient Cooling and Heating (BEECH) Energy Commission Sunnyvale--Santa Clara Altex has defined and is developing the Building Energy Efficient Cooling and Heating (BEECH) system, which provides cooling and/or hot water in response to commercial building demand. BEECH's thermal input can be waste heat from commercial heat sources, or can utilize low-cost solar thermal collectors. The grant will not cause a physical change in the environment or a resonably foreseeable indirect physical change in the environment because the grant involves engineering and bench-scale testing that will be performed in the existing Altex Technologies offices and labs in Sunnyvale, CA. The full scale demononstration will also be performed inside the Altex laboratory, where there is an existing, permitted hot water boiler.	NOE	
2013068402	Advanced Envelop Systems for Factory Built Homes Energy Commission Rancho Cucamonga--San Bernardino The goal of this project is to move the factory built housing industry in the state from laggards to leaders in energy performance by developing and commercializing the next generation of wall and roof envelope designs. Today factory built homes are not typically associated with superior energy performance. This project's goal is to change the reality and the perception. As with industrialized housing in other parts of the world, factory builders can lead the way to reducing energy use, establishing a model for oters in the home building business to emulate. Specific project objectives include the following: Develop new wall and roof component designs that, from an energy perspective, are high performance, cost effective and add minimally to first cost.	NOE

<u>Documents Received on Thursday, June 27, 2013</u>			
2009012010	Easton Point Rezoning, Master Plan, Precise Plan, and Tentative Subdivision Map Marin County Tiburon--Marin NOTE: FYI A proposal to subdivide the 110-acre project site into a total of 43 single-family residential lots, 2 public open space parcels, and 1 Marin Municipal Water District (MMWD) water tank parcel. The proposed residential lots range from 0.55 acres to 2.25 acres in size. Specific home designs have not been submitted as part of the application and, therefore, would be subject to future Design Review approval. Proposed open space and public access improvements include the creation of 59.7 acres of dedicated public open space, a 0.32-acre open space lot (Marin dwarf flax preservation area), and access easements to provide pedestrian access through the project site to proposed and existing public open space.	FIN	
2010101082	Ponte Vista Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: FYI The Project Site is currently improved with 245 residential dwelling units, a community center, and a retail convenience facility that were constructed in approximately 1962 by the U.S. Navy for the purpose of housing personnel stationed at the Long Beach Naval Shipyard. All of these buildings and uses are vacant. The dwelling units and facilities were built by the United States government without compliance with building codes enforced by the City of Los Angeles, and are required to be demolished. In addition, the dwelling units, facilities, infrastructure, streets, and landscaping at the Project Site were abandoned after the site was closed in the late 1990s and are in a state of disrepair. As part of the Project, all existing improvements would be removed from the Site. The Project consists of the development of a residential community comprised of 1,135 dwelling units featuring a combination of for-sale and rental single-family homes, duplexes, townhomes, and flats. The Project would be comprised of a combination of for-sale and rental dwelling units.	FIN	
2013051017	North Recharge Pipelines at 294th Street West Turnout Antelope Valley-East Kern Water Agency --Los Angeles The Antelope Valley-East Kern Water Agency Proposes to construct a new 24-inch diameter, 1,900-foot Cement Mortar Lined and Coated (CML&C) steel pipeline for the purpose of groundwater recharge. The pipeline will connect to an existing pump station and turnout structure of the CA Aqueduct. Water conveyed through the pipeline will come from the Agency's State Water Project Table A allocations. The pipeline will be constructed within the State's previously disturbed Right of Way for the CA Aqueduct and a utility easement.	FIN	
2013061056	ENV-2013-1062-MND/617 E. Rose Avenue Los Angeles, City of --Los Angeles The project consists of a request for a two-story mixed-use structure which includes two dwelling units on the second floor and bistro/art gallery with retail on the ground floor, and there is also a subterranean parking level; the restaurant will require a Conditional Use permit to allow a full line of alcoholic beverages for	MND	07/26/2013

	on-site consumption.		
2013061057	Manders McCauley Minor Use Permit DRC2011-00036 San Luis Obispo County --San Luis Obispo Request by Dana Manders and Mike McCauley for a Minor Use Permit to allow for a 3,423 sf single-story residence, 1,545 sf detached garage, a 600 sf guesthouse. The project includes expansion of an existing driveway, extension of utilities and installation of a new private water well, storage tanks and a septic system. The project will result in the disturbance of approximately 0.96 acre of the 4.24-acre parcel.	MND	07/29/2013
2013062068	Humboldt Bay Mariculture Pre-Permitting Project Humboldt Bay Harbor --Humboldt The continued success of shellfish culture in Humboldt Bay will require adaption of culture methods as new technologies are developed. New methods can result in higher production, improved product quality and reduced environmental effects. The project will result in an expansion of commercial mariculture activities in Humboldt Bay, and is being undertaken to create jobs and improve the local economy.	NOP	07/26/2013
2013061054	General Plan Housing Element El Cajon, City of --San Diego The 2013-2021 Housing Element represents the City of El Cajon's effort in fulfilling the requirements under the State Housing Element law. The CA State Legislature has identified the attainment of a decent home and suitable living environment for every California as the state's major housing goal.	Neg	07/26/2013
2013061055	Update to the City of Long Beach General Plan Housing Element Long Beach, City of Long Beach--Los Angeles This Housing Element, an 8-year plan extending from October 15, 2013 through October 15, 2021, is an update of the City's 2008-2014 Housing Element (which was an update of the 1989 Housing Element). As it was with the 2000-2005 Element, most of the housing goals and policies have remained consistent with those established in 1989. The Housing Element identifies policies, programs and objectives that focus on the following issues: 1) conserving and improving existing affordable housing, 2) providing adequate sites for new housing, 3) assisting in the development of affordable housing, 4) removing governmental constraint to housing development, and 5) promoting equal housing opportunities for Long Beach's population.	Neg	07/26/2013
2013062066	Sacramento International Airport Land Use Compatibility Plan Sacramento Area Council of Governments Sacramento--Sacramento ALUCP Provides a set of policies for use by the ALUC in evaluating the compatibility between future proposals for land use development in the vicinity of Sacramento International Airport (SMF) and the potential long-range aircraft activity at the Airport. The compatibility criteria defined by the policies are also intended to be reflected in the plans and other policy instruments adopted by	Neg	07/26/2013

2007011110	River Supply Conduit Improvement - Upper Reach Los Angeles, City of Los Angeles, City of, Burbank--Los Angeles The CA Dept. of Public Health is a responsible agency for this project. The Dept.'s Safe Drinking Water State Revolving Fund Program is providing state funds for the project. The Los Angeles Dept. of Water and Power proposes to comply with the Long Term 2 Enhanced Surface Water Treatment Rule and ensure conveyance of water through the construction of ~11,800 linear feet of pipeline and appurtenant structures.	NOD	
2007031077	Water Treatment Plant Improvements Springville Public Utility District --Tulare The CA Dept. of Public Health is a responsible agency for this project. The Dept.'s Safe Drinking Water State Revolving Fund Program is providing state funds for the project. The Springville Public Utilities District proposes to make improvements to the existing water treatment plant and construct of a permanent intake structure at the Tule River. The facility improvements will include a new clarifier.	NOD	
2007082049	Brockway Erosion Control Project Placer County --Placer The Brockway Erosion Control Project addresses co-mingled stormwater runoff from Nevada and California in a shared, jointly-funded treatment system. The improvements are expected to greatly reduce fine sediment particle loading to Lake Tahoe from the project area by implementing sediment source controls, paving unpaved roads, stabilizing stormwater conveyances, enhancing the treatment capacity of stream environment zones, and constructing infiltration facilities. Current efforts are focused on post-construction revegetation of impacted areas.	NOD	
2009091054	Price Canyon General Plan Update and Spanish Springs Specific Plan Pismo Beach, City of Pismo Beach--San Luis Obispo Update to the Pismo Beach General Plan Local Coastal Program. The Environmental Impact Report evaluated the Spanish Springs Project, which included a specific plan, but only the Pismo Beach General Plan Local Coastal Program Update was approved.	NOD	
2009102016	Sawmill 2 Bike Path & Erosion Control Project El Dorado County South Lake Tahoe--El Dorado The Sawmill 2 Bike Path and Erosion Control (Project), Phase 2B involves the award of up to \$350,000 for site improvement activities to the County of El Dorado to construct a Class I bicycle and pedestrian path and associated erosion control features within the project area.	NOD	
2010052065	Drainage and Stream Environment Zone Restoration (SEZ) Project Near the Stanford Rock Road Crossing Tahoe Conservancy --Placer The Conservancy, in conjunction with DGS, is proposing partial restoration of an area highly disturbed by previous logging activities. The objective of the project is to restore, to the extent practical, the original drainage patterns, wet meadow and wetland areas, improve wildlife habitat and reduce erosion in the project area.	NOD

	Following project completion, artificially concentrated drainage flows will be spread across the landscape in a similar manner to that which existed prior to disturbance. All work is intended to result in a natural appearing and self-sustaining drainage system when the project is complete.		
2010122088	The 2011 Fisheries Restoration Grant Program Fish & Game #2 --Del Norte, Humboldt, Madera, Mendocino, Napa, ... The project is limited to decommissioning of 3.21 miles of road and 34 sites thereby saving ~6,121 cubic yards of sediment from delivery to Russell Brook. The Grantee shall decommission 23 stream crossings, treat 8 potential or existing fill slope landslides, and treat 3 road drainage sites.	NOD	
2011042026	Interstate 5 Bus/Carpool Lane Project Caltrans #3 Sacramento--Sacramento Note: JD EIR/EA Caltrans, in partnership with the Federal Highway Administration (FHWA) and the Sacramento Transportation Authority (STA), is proposing to add approximately 13 miles of Bus/Carpool Lanes (also known as High Occupancy Vehicle or HOV lanes) in both directions on I-5 in Sacramento County, about one mile south of Elk Grove Boulevard to U.S. Highway 50. The project will upgrade the existing Casilada Pedestrian Overcrossing to meet the requirements of the Americans with Disabilities Act (ADA). Four alternatives are presented: Alternative 1 (Bus/Carpool Lanes), Alternative 2 (Mixed Flow), Alternative 3 (Mixed Flow to Bus/Carpool Conversion), and Alternative 4 (No Build).	NOD	
2011062012	Bijou Area Erosion Control Project - Phase 1 South Lake Tahoe, City of South Lake Tahoe--El Dorado The Project proposes to acquire easements, construct, maintain, and improve stormwater facilities, and implement erosion control practices for the Bijou Erosion Control Project, Phase 1 as identified in the Lake Tahoe Environmental Improvement Program.	NOD	
2011122047	The 2012 Fisheries Restoration Grant Program Fish & Game #2 -- The objective is to save ~9,230 cubic yards of potential sediment deliver by treating a total of 58 current and potential sediment delivery sites including 39 stream crossings and 19 other sites on 6.25 miles of active road system.	NOD	
2012032029	Lewiston Community Services District/Lewiston Valley Water Company Water Supply Project Public Health, Department of --Trinity The entire project involves the construction of an infiltration gallery, a pumping station and wet well, trenching and laying a new pipeline to the water treatment plant for the Lewiston Community Services District in order to improve water quality and reliability to its customers. Work within CDFWs jurisdiction is limited to construction of the new diversion (infiltration gallery) on a seasonally dry gravel bar, but within the high water mark of the Trinity River and instream trenching across intermittent and ephemeral drainages in order to install the pipeline.	NOD
