STATE CLEARINGHOUSE

NEWSLETTER

March 1-15, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1-15, 2009**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

<u>Documents Received on Monday, March 02, 2009</u>			
2008062027	<p>Sunrise Mall Redevelopment Project Citrus Heights, City of Citrus Heights--Sacramento Steadfast BLK-LLC is proposing a phased plan for the expansion of Sunrise Mall, known as the Sunrise Mall Development Project. The project is located in the City of Citrus Heights, within a 10-block commercial area known as the Sunrise MarketPlace. The Sunrise MarketPlace is composed of over 500 businesses and 70 property owners, which serve primarily as a retail shopping area with some office uses. The MarketPlace serves as the City's economic core and main gathering location for the community. The Sunrise Mall serves as the anchor for this important commercial area.</p> <p>The project will be implemented in two phases. Phase 1 construction consists of the following:</p> <ul style="list-style-type: none"> - Development of 6 building pads for future restaurants, including 2 drive-thrus - Development of 4 building pads for retail or financial uses, including 1 drive-thru for a financial institution <p>These buildings would ring the major street frontages and place dining establishments, banks and retail buildings up to the street. Phase I would result in 77,300 sf of new construction, and 9,718 sf of demolition, for a net increase of 67,582 sf.</p> <p>Phase 2, the Future Redevelopment Scenario, would include the demolition of 20,000 SF, and construction of 126,694 SF of new building space, and may include construction of a parking structure. The net increase in building area for Phase 2 would be 106,694 SF. In addition to retail space, Phase 2 would provide for a 71,000 SF theater with approximately 3,000 seats (the existing 14,891 SF, 1000-seat theater inside the mall would be converted to general retail use). The total net increase in building area for both places would be 174,276 sf.</p>	EIR	04/15/2009
2008072066	<p>Route 238 Bypass Land Use Study Hayward, City of Hayward--Alameda The Route 238 Bypass Land Use Study includes three alternatives to guide the long-term, future potential development and redevelopment for properties within the project area. It should be noted that no specific development applications for properties in the Project Area have yet been submitted to the City of Hayward. Features common to all three alternatives include proposing Public and Quasi-Public land use designations for freeway right-of-way lands just south of the I-580 freeway and east of Foothill Boulevard, providing an interconnected public trail throughout the entire Project area, indicating a secondary new access via a new roadway to/from the Carlos Bee quarry, providing an open space corridor on both sides of San Lorenzo Creek, generally located on the north side of Street A, providing an open space corridor along both sides of Dobbel Creek, located south and west of Highland Boulevard and north of the Carlos Bee quarry, and proposing a park and open space area on a large, steep parcel located south and west of Harder Road.</p>	EIR	04/15/2009

2004092011	<p>East Cypress Corridor Specific Plan Oakley, City of Oakley--Contra Costa Note: Extended Review Per Lead</p> <p>The East Cypress Corridor Specific Plan proposes planned development of mixed-uses for the 2,546-acre site. The project proposes to allow up to 5,609 residential units (detached and attached units), 92.6 acres of commercial use (638,600 square feet), 52.6 acres of public schools (2 elementary, one middle), 152.3 acres of man-made lake, 190 acres of open space/easements, 20.5 acres of existing and proposed gas well sites, 122.1 acres of wetlands/dunes, 112.5 acres of flood-control levees (46,100 linear feet), 101.7 acres of parks (neighborhood and community), 5.7 acres of light industrial use (166,356 square feet), 37.3 acres of commercial recreation (162,500 square feet) and a 6-acre beach club. (Note that 150 residential units may replace up to 20 acres of the 40 net acres of the Village Center site, which results in a maximum development of 5,759 residential units).</p>	FIN	
2007071023	<p>Temple Israel of Hollywood Enhancement Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The Proposed Project would involve the construction of 47,010 square feet of school and sanctuary uses including 224 parking spaces, the renovation of the existing sanctuary, pre-school classrooms, and administrative facilities, as well as, the demolition of the 8,590-square foot Weisz Building.</p>	FIN	03/10/2009
2009031004	<p>Chevron Products Company, 23614 Pacific Coast Highway Malibu, City of Malibu--Los Angeles</p> <p>Administrative Plan Review No. 08-100 and Demolition Permit No. 08-027 for the removal of all existing onsite structures, improvements and appurtenances at an existing (non-operational) Chevron gas station located at 23614 Pacific Coast Highway. Adjacent offsite sidewalks, curbs, driveway approaches and perimeter walls will remain in place. The application also includes a request to remove four existing 10,000 gallon underground storage tanks (USTs) (three gasoline fuel tanks and one diesel fuel tank). No new development is proposed.</p>	MND	04/01/2009
2009031006	<p>SPA No. 29; ZCC No. 52, Map 100; Moreno and SPA No. 30; ZCC No. 53, Map 100; Wattenbarger Kern County Bakersfield--Kern</p> <p>The project is a combination of 2 separate requests, Site A (APN 104-230-28) consists of: (a) An amendment to the Western Rosedale Specific Plan from Map Code(s) RR to SI on 4.6 acres; (b) a change in zone classification from E(5) RS to M-2 PD; and (c) a Precise Development plan for the parking of diesel trucks/empty vacuum trailers, light duty trucks and a commercial coach as an incidental office. The applicant of Site A is requesting the change in map code designation and zoning to facilitate parking of diesel trucks/empty vacuum trailers, light duty trucks and an associated office. As proposed, the total number of trucks would not exceed eight (5 diesel/trailers, and 3 light duty).</p> <p>Site B (APN 104-230-26) consists of: (a) An amendment to the Western Rosedale Specific Plan from Map Code(s) RR to SI on 4.7 acres; and (b) a change in zone classification from E (5) RS to M-1 PD. The applicant of Site B is requesting to change the Specific Plan map code and zoning from rural residential to light</p>	MND	04/01/2009

	industrial for future industrial development considerations. The purpose of the Light Industrial (M-1) District is to designate areas for wholesale commercial, storage, trucking, assembly-type manufacturing, and other similar industrial uses.		
2009031007	Phillips Minor Use Permit San Luis Obispo County --San Luis Obispo Request by Richard Phillips for a Minor Use Permit / Coastal Development Permit to develop a 3,500 sf single family residence. The project will result in the disturbance of ~6,600 sf of a one acre parcel. The proposed project is within the Residential Suburban land use category and is located at 2049 Andre Avenue, ~700 ft south of Nipomo Ave., in the community of Los Osos. The site is in the Estero planning area.	MND	04/01/2009
2009032002	Dowd Road Bridge Over Yankee Slough Bridge Replacement Project Placer County Lincoln--Placer The proposed project consists of replacing the existing reinforced concrete slab bridge with a single span precast prestressed voided concrete slab bridge. The new bridge and roadway approaches will accommodate 2 lanes of traffic and will improve traffic operations for the existing 2 lane roadway.	MND	04/01/2009
2009032006	Rivulet Project Clayton, City of Clayton--Contra Costa The project site is located in the City of Clayton, on the west side of Oak Street between High and Center Streets. The project involves the re-development of 2 properties, which are currently developed, generally level, and serviced by utilities. The third parcel is an upsloping undeveloped property with Mitchell Creek traversing at the eastern edge of the parcel near the toe of slope. The proposed project involves the construction of a 2-story mixed-use building with a western-style frontage characteristic of architectural themes suggested on the Town Center Specific Plan. This first floor is comprised of ~7,000 sf of retail commercial space with a 20 ft ceiling. The second floor includes 7 residential units. The residential units are one bedroom and several of the units contain dens. A terrace is proposed on the creek-side of the second story.	MND	04/02/2009
1989010088	Orange County Fair and Event Center Master Plan Orange County Costa Mesa--Orange The proposed project would amend the existing Orange County Fair and Event Center Master Plan by planning for the removal of the Equestrian Center and associated facilities, removal of the western and southern fence, and construction of flat flexible space, which would then be available for a variety of uses.	NOP	04/01/2009
2007032104	Linda Court Residence Los Gatos, City of Los Gatos--Santa Clara Planned Development Application for 7 single-family homes, with a zone district change from R-1:8 to R-1:8PD (Planned Development Overlay) and a lot line adjustment between the two project parcels to create the 2.32-acre project site. Other approvals will include tentative map and Architecture and Site Application upon approval if the PD overlay zone.	NOP	04/01/2009

2009031001	<p>Chevron Restoration and Redevelopment Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo</p> <p>The project consists of two principal components. The first component is remediation and restoration of the site, which includes various risk management activities such as demolition of existing buildings, top soil excavation, site re-contouring, excavation and capping, and mitigation of existing impacts to wetland and rare plant habitats and the unavoidable impacts resulting from implementing the remedial actions. Re-contouring will be done mostly using on-site materials. The principle borrow source for soil materials will be the former quarry site known as the Flower Mound located in the northeastern corner of the project site. This area is comprised of metavolcanic rocks and serpentinite. It is anticipated that this area will need to be blasted in order to break up and access this material.</p>	NOP	04/01/2009
2009031002	<p>Cornfield Arroyo Seco Specific Plan (CASP) - CPC - 2009-598-CA-SP Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The City of Los Angeles is preparing the Cornfield/Arroyo Seco Specific Plan (CASP), which will guide the future development of the approximately 660 acre area within the boundary of figure 1. This plan area is located within Los Angeles City Council District One, and comprises portions of the Central City North, Northeast, and Silverlake-Echo Park Community Plan areas.</p> <p>The CASP includes the following:</p> <ul style="list-style-type: none"> - The designation of new mixed-use zoning districts, and the identification of the types and intensities of uses permitted within these districts, as well as building height, massing and façade standards; - The designation of new open space and parks; - Parking standards; - Revised street designations and standards; - Stormwater runoff standards; and - Resource conservation standards. 	NOP	04/01/2009
2009031003	<p>Oak Village Residences Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The project site currently comprises ten separate parcels, totaling approximately 2.78-acres (88,739 square feet); it is fully developed with a commercial catering facility and an associated surface parking lot.</p> <p>The proposed project includes the demolition of the existing commercial structure and construction of an approximately 182,575 square foot, 142 unit residential townhome/condominium project. The proposed project would consist of six separate buildings, two condominium buildings and four duplex townhome buildings. The condominium buildings would be six stories tall and rise approximately 65 feet at their highest point. The town homes would be located on the southern portion of the project site along 20th Street; the buildings would be three stories, rising to an approximate height of 35 feet. The townhomes would all be four-bedroom units. The 134 condominium units would comprise 32 one-bedroom units, 76 two-bedroom units, 24 three-bedroom units, and two four-bedroom units. Two subterranean levels of parking would provide a total of 320 parking spaces. Access for pedestrians would be from Washington Boulevard, Oak Street and 20th Street, with vehicle access to the subterranean parking, both of residents and visitors, provided along Oak Street.</p>	NOP	04/01/2009

2009031005	<p>Los Robles Hospital Expansion Thousand Oaks, City of Thousand Oaks--Ventura</p> <p>Los Robles is required to comply with a state law that mandates that the hospital provide critical services within buildings that meet current seismic safety standards by 2013. The original hospital building, constructed in the 1960's, does not meet those standards, which were revised and upgraded after the 1971 Northridge earthquake. Los Robles intends to comply with the law by building a new 4-story patient care wing and adding a fourth floor to the recently constructed 3-story wing (the "2007 Wing"). The original building will be retained and can be used by the hospital for other functions that the law does not require to be in buildings that meet current seismic standards (e.g., office and administration, conference rooms, etc.).</p> <p>Los Robles currently has about 375,000 gross square feet of building floor area (excluding parking structure) on its 13 acre campus. The project would add about 239,000 square feet. The existing 224 bed count will be boosted by 53 beds approved in a previous SUP but not constructed and 60 additional beds for a total of 337 beds.</p>	NOP	04/01/2009
2009032001	<p>Hawthorne Mill Project Fairfield, City of Fairfield--Solano</p> <p>The City of Fairfield is targeting the area adjacent to the Hawthorne Mill site for annexation and development. The City is currently preparing the Train Station Specific Plan for the properties within a one-half mile radius around the future Capitol Corridor Train Station planned at the southeastern corner of the existing Peabody Road and Cement Hill Road intersection. The portion of the Hawthorne Mill project within 0.5 mile of the proposed train station is intended to become an integral part of the the future transit hub. The intended development of Hawthorne Mill East would contribute to the creation of a populated, mixed-use transit hub and complement the urban development principles as contemplated by the City of Fairfield.</p> <p>Within the boundaries of the approximately 410-acre project site, two projects are proposed for development: Hawthorne Mill east, which is 383 acres and is located at and near the Cement Hill Road and Peabody Road intersection. The smaller site, Hawthorne Mill West, is approximately 30 acres, and is bounded by the McCoy Detention Basin on the north and east, Air Base Parkway on the south, and Portland Drive on the west.</p>	NOP	04/01/2009

2009032005	Lassen County 2009-2014 Housing Element Update Lassen County --Lassen The 2009-2014 Lassen County Housing Element Update focuses on policies and programs that are designed to address the County's share of the regional housing need. The focus is on programs to facilitate the construction and conservation of housing units in the County, with an emphasis on affordable workforce housing and housing to serve special need groups. Site-specific housing projects are not identified. The policies and programs provide direction on actions that the County will undertake during the 2009-2014 period. Other programs are intended to ensure that the County's regulations are in compliance with state laws. Additional actions included in the Element support ongoing efforts to facilitate housing conservation and development for current and future residents in Lassen County. These programs and actions have been reviewed for consistency with the Lassen County, General Plan 2000, adopted September 1999, which contains mitigating policies and actions.	Neg	04/01/2009
2007111098	Proposed Amended Rule 1171 - Solvent Cleaning Operations South Coast Air Quality Management District -- The proposed project would: 1) extend the Rule 1171 final compliance date to lower the volatile organic compound (VOC) content limit until January 1, 2010 for cleaning solvents used in ultraviolet or electron beam (UV/EB) ink application equipment; 2) extend the Rule 1171 exemption to comply with a lower VOC content limit until January 1, 2010 for: a) cleaning of UV/EB lamps and reflectors, b) cleaning of UV/EB ink application equipment (applicable only to metering rollers, dampening rollers, and printing plates), and c) on-press cleaning of screens subject to an interim limit of 300 grams per liter effective on date of adoption; and 3) permanently exempt cleaning products for photocurable resins from stereolithography equipment from complying with any VOC content limit in both Rules 1171 and 1122. the delay in emission reductions from extending the final compliance date and the emission reductions foregone from providing	SEA	04/16/2009

2009039002	Amendment to the Water Quality Control Plan for the San Deigo Basin (Basin Plan) to Incorporate the Revised Conditional Waivers of Waste Discharge Requirements Regional Water Quality Control Board, Region 9 (San Diego), San Diego --San Diego This project amends the Basin Plan to revise and renew the general conditional waivers of waste discharge requirements that are in the Basin Plan.	NOD	
2009038001	Issuance of Lake or Streambed Alteration Notification No. R1-08-0542 for the Fish Weir and Bank Stabilization Projects Fish & Game #1 --Mendocino The project will install the three fish weirs and stabilize road fill at PM 39.88 and stabilize erosion at PM 39.95 on Highway 128. Work will also include removing a concrete apron and installing rock slope protection. Project sites are upstream of anadromous fish habitat. Heavy equipment will operate from the bank and hand crews will be used to complete other in-channel work including removal of the concrete apron.	NOE	
2009038002	Issuance of Lake or Streambed Alteration Agreement No. R1-08-0567, Southern Humboldt Cross Drain Repair Fish & Game #1 --Humboldt Repair four stream crossings on small streams. Work includes the installation of three cured in place culvert liners, paving the invert of one culvert with concrete, and construction of one concrete headwall.	NOE	
2009038003	Issuance of Lake or Streambed Alteration Agreement No. R1-08-0558, Ernest Sosa, Owner of Westport Ranch Fish & Game #1 --Mendocino The project involves reconstruction of an existing bridge crossing and upgrading the existing road approached within the 100 year flood plain of Wages Creek.	NOE	
2009038004	Repair and Stabilize Bloody Nose Trail Parks and Recreation, Department of --San Luis Obispo Repair and stabilize a steep, approximately 150 foot (ft) long portion of the Bloody Nose Trail at Montana de Oro State Park to continue to operate the trail for multiple recreational user groups. Install up to twenty steps, each consisting of a landing approximately 8 ft long by 6 ft wide by 1 foot high. Construct each step using five 0.5 ft diameter peeler posts to form the shape of the step and pin posts together using rebar. The maximum depth of ground disturbance to install each step will be 3 ft deep. Backfill each step with approximately 0.5 cubic yards of native rock and cap with up to 4 inches of Class Two gravel.	NOE	
2009038005	Hilt Variance Placer County --Placer The project allows for a Variance to the front setback requirement of 50 feet from the edge of easement of Ridge View Road to allow for 30 feet from the edge of easement in order to bring an existing residence into compliance with County Code. The property owner's, Craig and Lisa Hilt, are the beneficiaries of the project.	NOE

2009038006	Common Landowner Transfer of up to 1,000 a.f. of EWSID State Water Project Water to Westlands Water District Empire West Side Irrigation District --Kings The District will transfer up to 1,000 a.f. of Table A Entitlement Water to Westlands Water District for a landowner who farms in both Districts. The Transfer will be completed in 2009. This proposed transfer is designed to enable both Westland's and Empire's water users to better manage their respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.	NOE	
2009038008	Bridge Repair at the Rialto Feeder, Station 2734+30, near Webb Canyon Metropolitan Water District of Southern California Claremont--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) proposes to repair and/or realign bridge steel plating to allow equipment access to facilities and structures for operation and maintenance activities. The work would also involve excavation and/or grading of the road.	NOE	
2009038009	Associated Students Bike Shop Replacement Project University of California, Santa Barbara Santa Barbara--Santa Barbara The Santa Barbara Campus is proposing to replace and consolidate two existing structures used by the Associated Students as a bicycle repair shop. The two existing structures encompassing 1,040 square feet will be removed and replaced with a new modular building consisting of two units joined together with a building footprint of 1,200 square feet. The building footprint will have a slab on the grade foundation system with perimeter footings and an interior footing.	NOE	
2009038010	CRP Wildlife Pond Fish & Game #4 San Luis Obispo--San Luis Obispo The project will be the construction of a pond and associated water supply for use by wildlife within the North Chimineas Unit of the Carrizo Plains Ecological Reserve. The project will include construction of a 1" pipeline from an existing pump to a holding tank, and then on to the pond location, which is approximately 4,000 feet away. The pipeline will be installed in a trench (< 10 inches deep) to ensure it does not get destroyed in a fire.	NOE	
2009038011	Aerojet - General Corporation, Hazardous Waste Storage and Treatment Facility Permit Renewal Toxic Substances Control, Department of --Sacramento Liquid propellant rocket engines and solid propellant fuel rocket motors are fabricated, assembled, tested and refurbished at the Aerojet facility. These activities include the manufacture of metal parts, including casting, deep-drawing, and other methods of forming. Aerojet also performs engineering research and development at its facility. The chemicals used at the facility include explosives, oxidizers, acids, light metal hydrides, plastics, resins, solvents and other products. In the process of operations, Aerojet generates hazardous wastes that are either treated on site or disposed of at an authorized wastewater in RCRA-J.	NOE

2009032009	<p>St. Regis Napa Valley Project Napa, City of Napa--Napa</p> <p>The proposed project consists of the development of a St. Regis resort and winery on 93 acres and associated infrastructure improvements on 3 acres. The resort would provide 150 guest units, 95 vacation home units, recreation and event space, restaurants, a spa, and operations and support facilities. The 25,000 - case winery would be located within the resort grounds. As part of the project, an approximately 3,100 - lineal foot unused segment of Stanly Lane would be rehabilitated for use as an entrance road. In addition, a wastewater pipeline and recycled water pipeline (each approximately 4,800 lineal feet) would be installed between the Napa Sanitation District Soscol Water Recycling Facility and the resort site.</p>	NOP	04/01/2009
2007031035	<p>San Jose Creek Capacity Improvement Project Goleta, City of Goleta--Santa Barbara</p> <p>The Applicant intends to alter the streambed modify the existing concrete lined channel to provide flood protection and fish passage. Components of the project include the removal and replacement of 80 linear feet of the existing trapezoid concrete lining with new poured in place vertical walls above Hollister Avenue. In the 70 ft downstream of Hollister Bridge, and under the bridgem the existing concrete will be removed and replaced with transition from vertical walls under the bridge to the existing trapezoid section on the west bank and a new section on the east bank. The areas of transition and the area along the bottom of the channel will consist of various sized rock revetment with joint willow plantings. No changes will be made to the west bank for 3,000 linear feet. the concrete on the east bank will be removed and replaced with a new concrete channel that will be widened 7 to 12 feet to include the fish passage component. The east bank will include a 4 to 4 ft high vertical flood wall on the top of the bank. An existing steel vehicle bridge 100 feet downstream of Hollister Avenue will be removed, along with a sewer line. The new sewer line will be relocated under State Route 217 using a jack and bore method. From 3,000 ft downstream to 4,000 feed from Hollister Avenue, both banks will be altered to widen the channel to ~75 ft, and due to a sewer line, the low flow channel will transition from 2 to 3 ft deep, to construction of 8 to 12 inch high concrete berms along the bottom. A new 42 inch high flood wall will be constructed along the west bank from 2,000 ft downstream of Hollister Avenue, to South Street. Excavation for the wall footings will be 3 to 5 ft deep. The fish passage component consists of the low flow channel, about 10 to 12 ft wide, 2 to 3 ft deep, with notches and/or slotted weirs, for the entire length of the project area.</p>	NOD

	City of Burbank Business District. Subterranean parking for 3,312 vehicles is proposed, requiring excavation of approximately 592,000 cubic yards of material to create 3-4 levels of subterranean parking. As with the current site, access would be from Vicotry Boulevard at Ethel Avenue. A second access would be provided off Victory Boulevard at the eastern property boundary.		
2008082041	El Dorado Flume Replacement Program: Flumes 2, 2A, 3, 9, 41, 46A, 47 and 51 El Dorado Irrigation District --El Dorado The El Dorado Canal Flume Replacement Program is intended to guide development of Flume replacements that are needed because of deterioration and damage associated with landslide and geotechnical conditions.	EIR	04/20/2009
2007091074	The Wetherly Project Los Angeles, City of Beverly Hills--Los Angeles The Wetherly project would demolish 84 existing apartments and condominium units in seven buildings on a 1.285 acre site and construct approx. 132 condominium units in one 16 story building and eight townhouse units in a 3 story building (35 ft tall). The condominium tower would be approx. 259,716 sq. ft. in total, while the townhomes would be approx. 28,200 sq. ft. in total. Total building area on the project site would be approx. 287,916 sq. ft. A total of 350 parking spaces would be provided in a subterranean parking structure. The Proposed Project would be designed to achieve Leadership in Energy and Environmental Design Silver certification, which would exceed the requirements of the City of Los Angeles Green Building Ordinance.	FIN	
2009031009	Lagus Minor Subdivision, Tentative Parcel Map San Diego County --San Diego The project is a Tentative Parcel Map to subdivide 10.16 acres into 3 residential parcels. The site contains an active farming operation consisting of avocado and orange crops. The project is located immediately west of Villa Sierra Road, approximately 1,370 ft south of the Villa Sierra Road and Cool Valley Road intersection within the Valley Center Community/Regional Planning Area within the unincorporated area of San Diego County.	MND	04/02/2009
2009032013	Lizondo RS-4 Tentative Map Truckee, City of Truckee--Nevada Tentative Map to subdivide 5.68 acre parcel into one 2.0 acre single-family parcel, one 0.51 acre parcel with one duplex buildings and common area (2 units total), one 0.61 acre parcel with 2 duplex buildings and common area (4 units total), and one 2.21 acre parcel with 6 sets of duplex buildings and common area (12 units total). Use Permit to disturb slopes greater than 20%, Use Permit to construct multi-family units in the RS zoning district and Planned Development to reduce the minimum lot size and allow for tandem parking. 2009032014	<p>Install (2) Pipelines for Gas and Hydrogen Contra Costa County Martinez--Contra Costa</p> <p>The project would construct two pipelines approximately 6.07 miles each and install three 8-inch excess flow valves and five 8-inch block valves. Each pipeline would be constructed of 8-inch outside diameter, buried steel pipe, coated and cathodically protected from external corrosion. Horizontal direction drilling would be used to construct the pipeline under two locations: (1) the Carquinez Strait and (2) Interstate 680 and the adjacent McNabey Marsh. Conventional boring would be used in four locations under roads and railroads, and open cut trenching would be used along the rest of the pipeline route.</p>	NOP	04/02/2009
2009032015	<p>San Carlos General Plan San Carlos, City of San Carlos--San Mateo</p> <p>The City of San Carlos is preparing the City of San Carlos General Plan Update as a comprehensive Update of the existing City of San Carlos General Plan, which dates from 1991. The EIR will provide an environmental assessment of the updated General Plan, which is expected to be completed in fall 2009 to guide future growth in the City through 2030. The overall purpose of the General Plan Update is to reorganize and revise the existing General Plan as necessary to create a policy framework that articulates a vision for the City's long term physical form and development, while preserving and enhancing the quality of life for San Carlos residents. The City of San Carlos General Plan will:</p> <ul style="list-style-type: none"> - Identify broad community goals for the future of San Carlos, and - Identify specific policies and implementing actions that will allow goals to be met. 	NOP	04/02/2009
2009032012	<p>El Dorado Mirage Plaza El Dorado County Placerville--El Dorado</p> <p>The proposed project consists of the following request:</p> <ol style="list-style-type: none"> 1. 2004082035	SEIR for Ironhouse Sanitary District Wastewater Treatment Plant Expansion Iron House Sanitary District Oakley--Contra Costa The Project will expand the District's average dry weather design flow treatment capacity to 4.3 gallons per day, and the peak wet weather design flow treatment capacity to 8.6 MGD. The proposed Project includes the following components: influent pipeline, influent pump station, headworks structure, anoxiz and aeration basins, membrane filtration basins, back pulse tank, ultraviolet disinfection system, chemical storage facilities, solids handling facilities, effluent pipeline, and a new outfall pipeline.	NOD	
2007072024	Sacramento 2030 General Plan Master EIR Sacramento, City of Sacramento--Sacramento The Sacramento 2030 General Plan defines comprehensive land use, noise, housing, circulation and infrastructure, public service, resource conservation, and public safety policies for the entire city. While policies regarding future land use and growth are addressed from a citywide perspective, the majority of land use changes are limited to ~77 key opportunity areas and four focused study areas of opportunity within the city. In addition, five area of interest outside of the city have been defined as potential future expansion areas, for which comprehensive planning has not yet been undertaken. The city is also divided into ten Community Plan areas, for which additional policies will be developed: Arden-Arcade, Central City, East Broadway, East Sacramento, Land Park, North Natomas, North Sacramento, Pocket, South Natomas. The four focused study areas are: Richards Boulevard, Robla, Arden Fair/Point West, and 65th Street/University Village. The five areas of interest are: Natomas Joint Vision Area, Arden-Arcade, Florin Fruitridge.	NOD	
2007091014	Foothill College Facilities Master Plan Foothill-De Anza Community College District Los Altos Hills--Santa Clara The proposed Foothill College Master Plan Project was developed in support of the mission and goals of Foothill College as contained in the Educational Master Plan 2005-2015 and provides a framework to guide the physical development of the campus over the next ten years. In addition analyzing the potential impacts of campus growth under the Facilities Master Plan at a program level, the Draft EIR addresses the project-specific environmental effect associated with the construction of near-term projects. The project proposes the construction of 2 buildings providing ~62,500 sf of building space, including ~41,000 sf of assignable space.	NOD

2009031012	<p>Frank Vessels Elementary School Expansion Cypress School District Cypress--Orange</p> <p>For the purpose of the CEQA reporting, this project includes the expansion of Vessels Elementary school within the current 10.2 acre site. As a separate project with the Division of the State Architect, the school will also be modernized. This expansion is needed due to the closure of the nearby Dickerson campus, based on continued declining enrollment throughout the District. The work includes the addition of 16 classrooms with associated restrooms, 5 new pre-school and daycare buildings (which replace the existing dilapidated units) and expansion of the school's parking and vehicle drop-off zones. Although the quantity of buildings exceeds CEQA guidelines for a categorical exemption, the increase in student population associated with the expansion is far less than 25% of Vessels' existing school buildings' design capacity. The original capacity and past enrollment was 650-675 students. The current capacity, including the new building is 678 students plus those enrolled in the pre-school programs.</p>	Neg	04/06/2009
2009032020	<p>Non-Potable Water System - Phase I Patterson, City of Patterson--Stanislaus</p> <p>The project assessed by this initial study includes the installation of ~12,000 linear ft of 10" to 16" piping, associated valves, fittings, etc. along public rights-of-way and easements along Keystone Pacific Parkway, the Salado Creek Pedestrian Path, American Eagle Avenue, M Street, and N 6th Street, construction of a new non-potable water well to be located at the intersection of Keystone Pacific Parkway and Park Center Drive, and the rehabilitation of an existing well for non-potable uses located at the terminus of North 6th Street, ~1,000 ft north of the intersection with M Street.</p>	Neg	04/06/2009
2008101006	<p>Fairhaven/Lincoln and Santa Clara/Lincoln Intersection Modifications Santa Ana, City of Santa Ana--Orange</p> <p>NOTE: Reference SCH# 2000091065</p> <p>Since certification of the Santa Ana Second Main Track Project (EIR) by the Southern California Regional Rail Authority in June 4, 2002 (SCH# 2000091065), new information has been received with regard to physical hazards that will require project revisions and additional environmental analysis, in accordance with Section 15163 of the CEQA Guidelines. Revisions to the original project would permanently close the Lincoln Avenue vehicle lanes from Fairhaven Avenue to Park Lane and construct a cul-de-sac on Fairhaven Avenue at the railroad tracks. Additionally, to improve safety at the Santa Clara Avenue and Lincoln Avenue intersection a traffic signal would be installed and intersection modifications would occur.</p>	SBE	04/06/2009

2007112038	Intermediate Care Facility (ICF) at the California Medical Facility (CMF) Corrections and Rehabilitation, Department of Vacaville--Solano To address mental health care needs incompliance with court requirements, CDCR is proposing to construct an Intermediate Care Facility (ICF) at the California Medical Facility (CMF). The proposed ICF would provide up to 64 inpatient mental health beds, as well as space for treatment and administrative and support services. The 44,000sf. facility would be constructed on existing CMF property, as would an associated parking lot with approx. 200 spaces. The existing secure perimeter, consisting of fencing and a perimeter road, would be expanded at the location of the ICF to enclose the new facility within the larger existing prison. Other improvements associated with the project include the extension of existing water, sewer, natural gas, and electrical infrastructure to the new facility. The area of disturbance for the ICF and all associated components (including the parking lot) would total approx. 9 acres. The project has the potential to increase the capacity of CMF by 64 inmates, from an existing population of approx. 3,047 inmates to a future population of approx. 3,111. Staffing increases associated with the new facility would consist of as many as 163 new positions spread over three shifts.	NOD	
2008081020	State Route 99 Tulare to Goshen Six-Lane Project Caltrans #6 Tulare--Tulare This project would widen State Route 99 from a four-lane freeway to a six-lane freeway. The additional lanes would be constructed in the median. Weaving lanes would be constructed. Various structures within the project limits would be widened to accommodate the additional lanes. Three soundwalls, four infiltration basins, and side ditches would be constructed. A frontage road would be constructed.	NOD	
2008101019	22301 and 22309 Pacific Coast Highway Road Malibu, City of Malibu--Los Angeles The project consists of two applications for the proposed development of two single family residences on two vacant, undeveloped parcels.	NOD

2009012037	UC Davis Arboretum Heron Colony Management University of California, Davis Davis--Yolo Beginning in the 2009 nesting season, UC Davis proposes to employ a higher level of management actions at the Shields Grove to reduce or prevent heron nesting. The activities will include pyrotechnics (loud explosions and loud whistles launched through the air glowing visual appearance), bio-acoustics (loud playback of bird distress calls), and handheld lasers (pointed at the birds).	NOD	
2009038045	Caltrans, Highway 101, Storm Damage Repair Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Trinidad--Humboldt The purpose of the proposed project is to install a 24-inch diameter, 650 foot long high density polyethylene (HDPE) culvert to alleviate flooding issues along the highway during heavy rainfall events. Caltrans proposes to install the HDPE culvert along the grassy shoulder of the highway to transport excess water that collects along the highway during heavy rainfall events to Patrick Creek. The culvert outlet will be installed within an existing headwall associated with a culvert that carries Patrick Creek beneath Highway 101.	NOE	
2009038046	Caltrans, Highway 101, Rehabilitate Drainage Project (Monschke Undercrossing) Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Covelo--Mendocino The purpose of the proposed project is to repair and reconstruct two culverts beneath the highway that are severely corroded and have become prone to failure. The project will result in temporary impacts to waters of the U.S. and waters of the State. The proposed work includes the installation of a 300-foot long and 36-inch diameter plastic pipe liner within the culvert located at PM 12.94 and concrete paving and imbedding of steel planking within the culvert located at PM 13.04. Work will be performed from the inlets and outlets of the culverts, which requires the construction of temporary access roads.	NOE	
2009038047	Elk Mountain Road Repair ER4402 (005) SAA 1600-2008-0311-R2 Fish & Game #2 --Lake Elk Mountain Road Storm Damage Repair Project ER4402 (005). This project is designed to repair the road embankment washout on Elk Mountain Road. The project is situated on Elk Mountain Road at PM 3.87 to 3.89. The total length of the storm damage repair is about 150 feet. The project includes the removal of the existing rock riprap, minor grading, shaping of the area and other site preparation. Rock riprap will be placed on the road embankment. A small gravel bar will be removed from the streambed.	NOE	
2009038048	Elk Mountain Road Repair Fish & Game #2 --Lake Elk Mountain Road Storm Damage Repair Project - The proposed project will replace the existing culvert, install a concrete headwall and place a down drain on the outlet. The road embankment will be restored.	NOE

	from A-2-2 to M-1-DP (5.21 acres), and an Oak Tree Permit to remove 13 oak trees. Grading is estimated at 640,000 cubic yards of cut and fill, to be balanced onsite.		
2007041024	City of Oxnard Draft EIR for the 2030 General Plan and 2006-2014 Housing Element Oxnard, City of Oxnard--Ventura The Project establishes a planning framework, goals, policies, and implementation programs through the year 2030 and replaces the 2020 General Plan document.	EIR	04/22/2009
2007072052	North Coast Railroad Authority Russian River Division Freight Rail Project North Coast Railroad Authority --Napa, Marin, Sonoma, Mendocino Resume freight rail service from Willits, Mendocino County to Lombard, Napa County along a 142 mile project corridor known as the Northwestern Pacific Railroad. Generally runs parallel to US 101 north-south through Mendocino, Sonoma and Marin Counties, then east-west in Marin County to Napa County. Service does not extend south of the interchange at US 101 and SR 37, nor north of Willits. Includes general railroad freight service to and from customers on the line, and rehabilitation, construction and repair activities that are necessary to bring the rail line into conformance with FRA Class 2/3 Standards and to address safety issues in FRA Emergency Order No. 21, and to continue with ongoing maintenance and repairs. Start up service will consist of three trips per week between Windsor and Lombard, increasing to 2 round trips per day once established.	EIR	05/01/2009
2007121136	2030 Firebaugh General Plan Firebaugh, City of Firebaugh--Fresno A comprehensive update of 6 elements of the Firebaugh General Plan, including Land Use, Circulation, Conservation, Open Space Noise and Safety. The Planning time frame is through the year 2030.	EIR	04/22/2009
2008031088	Rialto Commerce Center Rialto, City of Rialto--San Bernardino The Project proposes to develop 3,659,000 sf of industrial and warehousing on 158.9 acres site. The Project includes 6 buildings ranging in size from 64,000 up to 1,582,000 sf. These facilities, especially the larger buildings, are planned to house a variety of industrial uses including some that would be considered "high cube" type wholesale distribution users. The Project also includes a general plan amendment to change the land use designation from medium density residential to industrial use. The applicant is also working with Union Pacific Railroad to see if rail service can be extended onto the Project site. The Project site plan would have to be modified to accommodate a rail spur line.	EIR	04/23/2009
2008082042	Atkinson Lane Specific Plan and Planned Unit Development Santa Cruz County Watsonville--Santa Cruz The County of Santa Cruz and the City of Watsonville are preparing a joint Specific Plan (City) and Planned Unit Development (County) for the Atkinson Lane future growth area (project site). The project site falls within the City's Urban Limit Line. The total gross acreage of the project site is 65.8 acres, which includes 16 acres of land to be re-zoned by the County prior to annexation by the City to meet	EIR	04/22/2009

	County's affordable housing goals. Land uses and densities for the plan would be determined as part of the Specific Plan and Planned Unit Development process. Although the City of Watsonville General Plan identifies that up to 600 residential units may be allowed within the planning area, 450 units are proposed. A Planned Unit Development as allowed by Santa Cruz County Code has been prepared that incorporated conditions of approval for the 16 acres of land to be re-zoned by the County of Santa Cruz. The proposed project would also require a General Plan Amendment and LAFCo action.		
2008091145	Amendment No. 4 to the Amended Consolidated Redevelopment Project Area Santa Fe Springs, City of Santa Fe Springs--Los Angeles This Program EIR addresses a proposed fourth amendment to the Consolidated Redevelopment Project Area. The document is a second subsequent EIR, following the initial EIR that was prepared in 1981 (when the Consolidated Redevelopment Project Area [CRPA] was first formed) and a first Subsequent EIR prepared during 2002 that provided updated environmental information for the CRPA which encompassed at that time roughly 2,000 acres of land distributed in 6 separate project areas with a planned development of about 6.7 million square feet of uses (primarily heavy industry). The proposed fourth amendment would increase the CRPA area by about 142 acres, with existing and proposed land uses that comprise mainly industrial and commercial development.	EIR	04/22/2009
2008091146	Washington Boulevard Redevelopment Plan Amendment No. 2 Santa Fe Springs, City of Santa Fe Springs--Los Angeles This Program EIR addresses a proposed second amendment to the Washington Boulevard Redevelopment Project Area (RPA). The Washington Boulevard RPA was first adopted in 1986 with a total area of 55 acres, and subsequently amended in 2001 to extend the time limits for eminent domain and establishing loans, advances and indebtedness. The proposed second amendment would increase the Washington Boulevard RPA area by about 186.5 acres, with existing and proposed land uses that comprise mainly commercial and industrial developments.	EIR	04/22/2009
2008092114	City of Santa Rosa General Plan Revision Santa Rosa, City of Santa Rosa--Sonoma The project Santa Rosa General Plan 2035 would replace the existing General Plan 2020 and would be used to guide development-related decisions in the city. The update will provide a long-term vision for the city, and through its implementation policies, indicate how that vision may be achieved over time. The General Plan 2035 addresses planning through the year 2035.	EIR	04/23/2009
2008041019	Silverlakes Equestrian and Sports Park Norco, City of Norco--Riverside The Applicant proposes to develop a 122-acre equestrian center and sports facility that would be used for a variety of recreational uses, such as equestrian events, soccer, football, lacrosse, etc. The project may include the following: equestrian trails, campground, recreational vehicle area with water and electrical hook ups, storage and maintenance facilities, temporary and permanent lighting, temporary and permanent horse stalls and onsite parking. The project as proposed also includes a multi-media sign that would be situated along the I-15 freeway. The	FIN

	project may include the restoration and rehabilitation of an existing structure that would be used for a recreation hall. The project also includes potential connections to the Coast-to-Crest Trail along the southerly border of the project site.		
2007122041	Castle Vineyards Winery (PLP06-0081; 60 Bonneau Road, Sonoma) Sonoma County Sonoma--Sonoma Request for a Use Permit for a new, 66,000 square foot winery with public tasting, tours and incidental retail sales of wine, one marketing accommodation located on the second floor of the proposed winery facility, and participation in county wide wine tasting events. No winery exclusive events are proposed. An existing house will be converted into a temporary tasting room until the winery is complete. Appurtenant development includes new commercial access off to Bonneau Road, guest and employee parking lots, a mound-type sanitary wastewater disposal system, a process wastewater treatment pond, and other incidental structures for water storage and trash enclosures. Prior to occupancy of the winery, the temporary tasting room will demolished to provide sufficient area for the proposed pond. .08 acres of wetland will also be created to mitigate loss associated with the winery. The winery will maintain a maximum staff of 18 employees, and hours of operation shall be from 7 am to 6 pm Monday through Friday off harvest, and 6 am until 8 pm Monday through Sunday during the harvest season. Tasting room hours for both the winery and the temporary tasting room are from 10 am until 5 pm daily.	MND	04/07/2009
2009031016	PA08-0072 (Plot Plan for a Warehouse Building) Moreno Valley, City of Moreno Valley--Riverside This project proposes the construction of an industrial development with 522,772 sf, consisting of on building, on an ~25.96 net acre site. This building will consist of concrete tilt-up structures supported by a conventional slab-on-grade foundation system. Other improvements will consist of screen walls around the trailer loading areas, concrete and asphalt pavement as well as landscaping. The proposed project is intended to provide industrial warehouse and distribution space in the City of Moreno Valley in accordance with existing land use designations.	MND	04/07/2009
2009031019	CUP #08-1795 Bakersfield, City of Bakersfield--Kern Conditional Use Permit to allow the development of a 14.1 acre water park including paid public parking facilities, and a 25,000 sf community center with associated parking on ~28 total acres.	MND	04/07/2009
2009032023	Tentative Parcel Map 2008-0010 Yuba County --Yuba The project consists of a tentative parcel map that would create 2 parcels from a parcel consisting of 180 acres located at 15025 Ridge Road (APN 064-240-010) near the community of Camptonville in the unincorporated region of northeastern Yuba County. Parcel 1 would contain 20 acres and an existing residence; Parcel 2 would consist of 80 acres. Concurrently, a lot line adjustment would reduce the project property site by 7.5 acres.	MND	04/07/2009

2009032024	Humboldt County Department of Public Works-Charles Bar Humboldt County --Humboldt Renewal Modification of Conditional Use Surface Mining Permits, approval of Reclamation Plan and review of Financial Cost Estimates for the existing Charles Bar in-stream mining operation on Larabee Creek off Alderpoint Rd. The project proposes extraction and processing of up to 25,000 cubic yards of gravel as frequently as annually. The permit term will expire in 2023. The mining operation was originally permitted in 1993 for the extraction and crushing of up to 25,000 cubic yards of gravel every 3 to 5 years for County road maintenance. The Humboldt County Department of public works has performed 4 extractions at the site. The volume, location and extraction method will be consistent with the recommendations of CHERT and other responsible agencies. Equipment includes a bulldozer or excavator, front-end loader, a haul truck and/or dump trucks and portable crusher. Crushed material will be stockpiled at designated permanent areas. When no crushing is done, extracted material will be transported to a job site. The bar will be accessed via the designated haul road on the bar directly off of Alderpoint Rd, Gravel extraction will be intermittent.	MND	04/07/2009
2009032025	Cloverdale River Park Phase 3 and FEMA Project Sonoma County Cloverdale--Sonoma FEMA repairs: restoration of eroded bank Recreation Improvements: ADA accessible pathway, boat portage, parking area	MND	04/10/2009
2009032026	Bodega Bay Beach Erosion Emergency Repair Project Sonoma County --Sonoma FEMA repairs. Mostly replacing rip-rap and backfill along damaged embankments. Also replacing portions of a damaged breakwater.	MND	04/10/2009
2009032032	Louie Landslide Repair Fremont, City of Fremont--Alameda The applicant proposes to repair several landslides in the rear yard of a single-family residential property by returning the slope to a natural appearance with the addition of v-ditches and other measures to achieve sustained drainage and erosion control. The method of work includes shoring up the slope by moving 24,000 cubic yards of slough material from the lower portions of the slope and placing 27,000 cubic yards back up the hill, including imported granular fill for buttresses, providing a geogrid to further strengthen the manufactured slope, and adding v-ditches to route drainage appropriately and to help prevent future slides.	MND	04/08/2009
2009031017	Southeast Area Specific Plan Visalia, City of Visalia--Tulare The major components of the Plan are as follows: - Conservation of site's natural resources; - Neighborhoods centered around active retail-and civic-oriented cores; - The adjustment of existing property boundaries; - A circulation plan that enhances walkability and interconnectedness; - A variety of development intensities; and - Green building and infrastructure design	NOP	04/07/2009

2009031018	Downtown El Cajon Specific Plan El Cajon, City of El Cajon--San Diego The proposed project consists of a new DECSP that would replace two existing downtown area specific plans with an updated vision for the downtown area. The two specific plans that would be replaced by the proposed DECSP include the adopted Downtown El Cajon Specific Plan (SP 182) and Specific Plan 462. The proposed 541 acre DECSP thus encompasses a larger area of downtown than the existing SP 182, and includes updated development standards and design guidelines to "improve the economic health of the City through revitalization of the downtown." The DECSP is based on smart growth planning principles, whereby future city growth would be concentrated in the city center, as opposed to outlying areas; the populated city center would be linked to viable transit and other mobility (biking, walking) networks; city residents would be given opportunities to participate in the local economy, and a sense of community identify would be created through development of distinct neighborhoods.	NOP	04/07/2009
2009032027	Butte County Individual On-Site Wastewater Ordinance Butte County --Butte Butte County is considering the adoption of a new ordinance covering the regulation of individual on-site wastewater treatment and disposal systems in the County (On-Site Wastewater Ordinance). The new ordinance would update and replace existing County regulations in order to be consistent with applicable requirements of the Central Valley regulations in order to be consistent with applicable requirements of the Central Valley Regional Water Quality Control Board (Basin Plan) and to incorporate other changes based on the current state of knowledge and advances in practices and technologies for on-site wastewater treatment and disposal. Notably, the ordinance would: (a) implement more standardized procedures for soil and site evaluations; (b) incorporate new requirements pertaining to the vertical separation between the bottom of dispersal systems and groundwater or restrictive layers; (c) provide a broader range of treatment and dispersal designs; and (d) institute a program to assure ongoing maintenance of certain types of systems. The new proposed On-Site Wastewater ordinance, dated May 28, 2008, has been drafted by the Butte County Public Health Department, Division of Environmental Health, over a two-year period in cooperation with a local stakeholder group ("Wastewater Working Group").	NOP	04/07/2009
2009031013	Upstart Properties LLc, TPM 18310 San Bernardino County --San Bernardino The proposed project is Tentative Parcel Map 18310 to create 2 parcels, on 5 acres. The site is located in the Joshua Tree Planning Area and is located on the northeast corner of Gold Nugget Road & Lawrence Avenue. The County General Plan designates the project area as Rural Living with a minimum lot size requirement of 2.5 acres per lot.	Neg	04/07/2009

2009032033	Brown Bear Gas Wells Solano County Suisun City--Solano The proposed project is for a Use Permit to drill three exploratory natural gas wells over a four year period (2009-2013 drilling seasons) from the proposed Brown Bear Drill Site. If economical quantities of natural gas are discovered. Venco would install a small satelliste production facility northwest of the well pad. Venco would also install a natural gas pipeline from the producing wells to the satellite production facility and onto the existing Suisun Community #22 natural gass production facility.	Neg	04/07/2009
2000112054	Temporary Barriers Project, 2001-2007 Water Resources, Department of Lathrop, Tracy--San Joaquin Addendum consists of installing a Non-Physical Barrier (NPB) at the head of Old River in lieu of the normally installed rock barrier at this location. This is a test for spring 2009 of the effectiveness of bubbles, sound, and light to prevent outmigrating Chinook salmon smolts from entering Old River. The NPB has significantly less impact on the environment than the rock barrier.	NOD	
2003121146	Casa de Amparo Major Use Permit; P03-004, Log No. 03-08-011 San Diego County Unincorporated--San Diego The project is a Major Use Permit for a Group Care Facility (Temporary Shelter, Child Development Center). The temporary shelter is for children whom officials have determined that their parents or legal guardians are unable to care for them. The proposed Child Deevlopment Center is intended to serve children that would benefit from an early intervention program to prevent their potential abuse, abandonment or neglect.	NOD	
2004082069	Tentative Subdivision Map Application S-12-03, Hope Lane Subdivision Redding, City of Redding--Shasta The project proposes the installtion of a currugated plastic culvert across Twin Towers Lane.	NOD	
2006061064	Main Street Marketplace Hesperia, City of Hesperia--San Bernardino The project proposes the construction of up to 425,038sf. of commercial retail uses on a site totaling approx. 43.84 acres. Project development will include two "major" retail anchors, six ancillary commercial/retail outpads, and a parcel containing a proposed storm water detention facility.	NOD	
2007021114	Taylor Yard Water Recycling Project Los Angeles County Glendale, Los Angeles, City of--Los Angeles The Metropolitan Water District of Southern California (Metropolitan) has authorized a Local Resources Program (LRP) agreement with the Los Angeles Department of Water and Power to deliver about 150 acre-feet per year of recycled water to the Taylor Yard Water Recycling Project for industrial and irrigation uses. The LRP agreement would follow the terms outlined in Metropolitan's Board Letter.	NOD

<u>Documents Received on Monday, March 09, 2009</u>			
2007091073	Bar 20 Dairy San Joaquin Valley Air Pollution Control District Kerman--Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code for the Microgy Bar 20 Gas Pipeline. The County of Fresno has approved the installation and operation of an anaerobic digester facility with a maximum height of sixty feet at the Shehadey Dairy. The anaerobic digester will collect and digest cow manure from the dairy and import non-hazardous agricultural waste materials to produce biogas. The biogas will then be piped by an approximately 5.5 mile underground pipeline that will extend from the Shehadey Dairy to an existing PG&E pipeline. The pipeline will be routed underneath the San Joaquin River.	NOD	
2007111092	Malibu Legacy Park Project Malibu, City of Malibu--Los Angeles EIR No. 07-002, Coastal Development Permit No. 07-132, Conditional Use Permit No. 08-007 and Varian No. 08-033 (The Malibu Legacy Park Project) - A proposal to Construct a Public Park, Linear Park and Storm water Treatment System Components on a 15 Acre Site within the Civic Center Area including Grading, Accessory Structures, a Bridge, a Master Sign Program, Storm water Pipelines, Street Improvements, Parking Spaces, Habitat Restoration, and Trails.	NOD	
2008022007	The Campus at McCarthy Ranch Industrial Project Milpitas, City of Milpitas--Santa Clara The project proposes to add 424,814 square feet of new office space in six, five-story buildings and constructing an elevated parking deck. When built out, the 65-acre site will have 1.4 million sf of office.	NOD	
2008041019	Silverlakes Equestrian and Sports Park Norco, City of Norco--Riverside Belstarr Sports Management proposes to development a variety of multi-use recreational facilities and related improvements on the Silverlakes property, which is owned by the "City". Proposed facilities include equestrian showgrounds, up to 28 multi-use athletic soccer fields, football, lacrosse, and/or field hockey; with a permanent multi-purpose climate-controlled horse barn and event building; temporary horse stalls; all-weather sand surface horse riding rings; speed and agility training area; reception hall; picnic areas; and a playground. Additional proposed facilities include a first aid station; business and show offices; parking; equestrian trails; event and security lighting; a recreational vehicle park with water, electrical utilities; one large multi-media electronic sign adjacent to the I-15 freeway; and various storage and maintenance facilities. The facility will have a portable lighting system so that various equestrian facilities, athletic fields, and/or community use areas may be lighted at night. Included in the proposed site plans are a man-made lake with an attached dock, five (5) dirt and gravel parking areas, and a large trailer parking area.	NOD	
2008071097	Carmel River State Beach Lagoon Water Level Management Project Parks and Recreation, Department of Carmel-by-the-Sea--Monterey The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the	NOD

	the intersection with new traffic signals and crosswalks, reconfigured medians, signs and striping. Minor utility construction and reconfiguration would be required for the improvements, including utility cabinets and vaults. Traffic signal antennas would be installed on SR 273 at existing traffic signals located at Angelo Street to the north and Wyndham Lane to the south. The antennas would link all of the traffic signals in the corridor to move traffic more efficiently.		
2009038072	Traffic Calming Safety Project Caltrans #2 --Tehama The California Department of Transportation (Caltrans) is proposing a traffic calming and pedestrian/bicycle safety project through the community of Los Molinos on State Route 99, in Tehama County. The project will add curb, gutter and sidewalk, traffic signals, stormdrain improvements, pavement overlay and restriping in various locations throughout the project limits.	NOE	
2009038073	Issuance of Streambed Alteration Agreement No. R1-08-0020 Fish & Game #1 --Siskiyou The project proposes the installation of approximately 35-cubic yards of rip-rap along approximately 60 feet of streambank to prevent bank failure. Additional work will include the installation of a 5- 10-foot long rock van upstream of the rip-rap installation to dissipate stream flow into the eroding stream bank.	NOE	
2009038074	Issuance of Streambed Alteration Agreement No. R1-08-0504 Fish & Game #1 Redding--Shasta The project is limited to the maintenance of the stream channel approximately 50 linear feet above and below culvert crossing. Additional work includes the clearing of approximately 50-feet of channel, located 200 feet downstream of the culvert crossing.	NOE	
2009038075	Southern Inyo Fire Protection District - Tecopa Fire Station Southern Inyo Fire Protection District --Inyo This project involves leasing land in Tecopa from the Bureau of Land Management (BLM), which will be used as the site for the Southern Inyo Fire Protection District's new Tecopa Fire Station. Structures on the site will include a trailer (to be used as office), shade structures for various pieces of equipment, two cargo containers (for storage purposes), a water well and 5,000 gallon water storage tank, a septic system, a cleared area to be used for a helicopter landing pad, and chain link fence surrounding the property.	NOE	
2009038076	UCSD Clean Water Utility Initiative - Water Systems Infrastructure Projects University of California, San Diego San Diego--San Diego The project proposes to develop a comprehensive assessment of the physical condition and operating capabilities of the existing campus water systems components including potable water, recycled water, sewer, storm water, and seawater. The plan will identify deficiencies. Anticipated potable water repairs/replacements under this initiative include: 1) water meter installation/automation to track campus water consumption and usage types for all areas not currently metered; water transmission line replacement; water pump station retrofit to improve efficiency; and development of a new connection of UCSD's potable water distribution system to the City of San Diego water system to	NOE

	enhance fire-life safety on campus.		
2009038077	UCSD Clean Water Utility Initiative - SIO Seawater System Infrastructure Projects University of California, San Diego San Diego--San Diego The project proposes to replace and/or upgrade old seawater pumps and settling tanks on the SIO campus of UCSD. The project is anticipated to save 30% on energy costs. In addition, seawater that currently discharges to the beach at three locations will be rerouted through existing piping infrastructure to a single point of discharge near Hubbs Hall in compliance with SIO's NPDES Industrial Permit.	NOE	
2009038078	UCSD Clean Water Utility Initiative - Sewer System Infrastructure Projects University of California, San Diego San Diego--San Diego The project proposes to rehabilitate, repair or replace five major sewer lines on the west and east campus including: Revelle College, Pepper Canyon Trunk, Muir College, Gilman Drive Trunk, and Mesa Housing. Most of these sewer lines are over 40 years old and are in various stages of decay which impacts service of the lines. Pipe bursting and directional drilling technologies are proposed for the repairs as they are less impactful than open trenching. Hi-lines would be temporarily installed to provide continued service during the construction activities.	NOE	
2009038079	UCSD Clean Water Initiative - Water Conservation Projects University of California, San Diego San Diego--San Diego The proposed CWUI water conservation projects include: 1) The expansion of the recycled water distribution system within the urbanized portions of the West Campus; 2) the replacement of old water fixtures in campus buildings with new efficient fixtures; 3) the retrofit of the campus irrigation system to eliminate irrigation water from running into storm drains by replacing controllers and software, providing soil moisture devices, and replacing irrigation heads; 4) the replacement of 167,400 sq. ft. of remnant turf areas with low water use plants to reduce irrigation water need; and 5) the collection and reuse of Building HVAC condensation and fire line flushing water so as to eliminate the dry weather flows to storm drains currently occurring from these sources.	NOE	
2009038080	UCSD Clean Water Utility Initiative - Storm Water Pollution Prevention Projects University of California, San Diego San Diego--San Diego The project proposes to improve both the La Jolla and the Hillcrest campus' aging storm water conveyance systems. The La Jolla campus project (D-1 and D4) are a suite of infrastructure, low impact design, diversions and structural projects including installations of storm water media filter(s) to improve campus-wide storm water conveyance and reduce and reduce pollutant loading from point and non-point sources. UCSD is proposing to implement a pollution prevention treatment system that will treat the 85th percentile storm event for the pollutants of concern during wet weather flows.	NOE	
2009038081	Ordinance TC08-020 Tuolumne County --Tuolumne Ordinance (TC08-020) amending the fee provisions in Chapter 3.40 of the Tuolumne County Ordinance Code as follows: * Amend Section 3.40.010(K) to waive the application fee for Conditional Use Permits for vegetation removal in the Open Space (O) and Open Space-1 (O-1)	NOE

	14 to 100th Street for a distance of approximately 10 miles. This is part of a larger overall plan to construct a new freeway/expressway between SR-14 in Los Angeles County and I-15 in San Bernardino County. Improvements to this corridor are considered necessary to provide for the existing and projected traffic demand attributed to large-scale growth and increasing developments in the northern portion of Los Angeles County, especially in the cities of Palmdale and Lancaster.		
2009031022	401 Broadway Commercial Project Santa Monica, City of Santa Monica--Los Angeles The proposed project involves the demolition of all existing structures on the site and construction of a new 4-story, 22,395 square foot commercial building and subterranean parking lot. The proposed commercial building would include restaurants on the ground floor and the fourth floor floor, and office space on the second and third floors, with patio decks and a facility storage area. An automobile elevator, with access from 4th Court, would provide vehicular access to the subterranean garage.	NOP	04/08/2009
2009031020	EA 5491B JLB; Zone Chage Case No 85, Map 81/Precise Development Plan No. 52, Map 81; Kearney Mesa, LLC by McIntosh & Assoc. (PP09232) Kern County Bakersfield--Kern A zone change from A-1 to M-2 PD H to bring the entire parcel into consistency, and a Precise Development plan (PD plan) to allow for the construction in an M-2 PD H (Medium Industrial - Precise Development Combining - Airport Approach Height Combining) District. The project sire is an 8.69-acre parcel located on the northeast corner of Merle Haggard Road and State Highway 65, northeast Bakersfield.	Neg	04/08/2009
2009032031	City of Arcata Recycling and Solid Waste Universal Collection Program Arcata, City of Arcata--Humboldt The City of Arcata developed a Universal Mandatory Solid Waste and Recycling Curbside collection program. The program will provide weekly automated solid waste and recycling collect at the curb for all single family residents with a cost saving option for residential households to sign up for a weekly pick up of a 20-gallon garbage tote. Each household will receive a 90-gallong split recycling tote. (1/2 for fiber - paper, magazines, cardboard etc. and half for glass, metal and plastic containers). There will be an opt-out provision for vacant parcels and those who can maintain a zero waste declaration Multi-family customers will have weekly solid waste service expanded to include recycling collection at all multi-family customers complexes. Complexes will receive one 90-gallong split tote (1/2 for fiber - paper, magazines, cardboard etc. and half for glass, metal and plastic containers) per each 3 to 4 units, or more if needed. Commercial program highlights include expanding weekly solid waste service to include recycling collection at all commercial properties. Each business will be provided with solid waste tote plus up to two 90-gallon split recycling totes at no extra charge. An additional commercial fiber (cardboard, paper) service rate will be based on bin size and frequency of pick up. All customers will have consolidated billing service. For commercial customers account responsibility will be transferred to the property owner to encourage bin sharing and space planning. Individual business billing will be provided when requested and payments are current.	Neg	04/08/2009

1998111091	<p>Triangle Ranch Project, Project No. 97-178, Tract No. 52419 Los Angeles County Agoura Hills--Los Angeles</p> <p>The Applicant proposes to completely fill, partially fill, or partially obstruct portions of three ephemeral streambeds, identified in the Applications project site plans as Drainages C, E and F. Impacts shall occur during the subdivision of the 320.30 acre site. The Applicant shall completely avoid temporary and/or permanent impacts to eight remaining ephemeral streambeds (identified as Drainages B, D, H, I, J, K, L, and M) located on the subject project site, and specifically completely preserve Medea Creek. The project shall consist of two distinct subunits of development divided by Kanan Road. The proposed development east of Kanan Road within the northern portion of the project area shall consist of a total of 21 developed lots. A total of 11 lots will be located between Kanan Road and Cornell Road. Within SEA Number 6, eight of the ten homes located east of Cornell Road are proposed to be semi-custom or custom homes within a gated neighborhood. The proposed development west of Kanan Road shall consist of a total of 40 developed lots, 34 single-family units and six premium custom homes. Lot sizes range from approximately 10,000 to 79,700 sf. The proposed lots located west of Cornell Road range between 12,600 and 79,700 sf. The Department has regulatory authority over ~ 7.18 acres of jurisdictional habitat found throughout the project site of which ~ 5.13 acres is vegetated riparian woodland. The Applicant is proposing to set aside as open space 6.93 acres of Departmental jurisdictional habitat protected in perpetuity by way of conservation easement with the Santa Monica Mountain Conservancy or another entity(ies) acceptable to the Department.</p>	NOD

2009031027	Kvaas Minor Subdivision (4 Lots and a Remainder); Tentative Parcel Map San Diego County --San Diego Project is a Tentative Parcel Map to subdivide 60.31 acres into 4 residential lots and a remainder.	MND	04/09/2009
2009031028	Rabbit Run Tentative Map San Diego County --San Diego The project is a major subdivision of 17.70 gross acres into 7 lots ranging in size from 2.03 to 4.02 gross acres. The subject site consists of active citrus orchard on level terrain. Grading quantities for the project involve cut and fill of 1800 cubic yards in a balanced grading operation. Construction activities as a result of the subdivision will include grading and clearing for 7 housing pads with associated driveways from Duffwood Lane. The project proposes to use water service from the Valley Center Municipal Water District and each lot will be served by an individual septic system.	MND	04/10/2009
2009031030	Encinitas Creek Channel Improvement Encinitas, City of Encinitas--San Diego The project proposes flood flow improvements on 5.2 acres of drainage channel area to mitigate flooding of public street during storm events.	MND	04/09/2009
2009031033	Livingston Sports Complex Project Livingston, City of Livingston--Merced The City is proposing to expand the Livingston Sports Complex park site and its facilities. The proposed project would almost double the size of the sports complex facility to 26.2 acres (an increase of 126 acres). To accommodate the proposed expansion of the facilities, the existing playfields would be reconfigured. Development of the project would add to the existing facility: a new recreation center with space for classes; an indoor-outdoor swimming pool; an outdoor splash play area; separate hard-court sports areas for basketball and tennis; four baseball fields; temporary soccer fields; three youth soccer fields; temporary community garden; passive recreational facilities that would include picnic areas throughout the facility; and additional lighting for pathways, parking area, and playing fields. No existing buildings would be demolished.	MND	04/10/2009
2009032034	Accessibility Improvements Parks and Recreation, Department of --Tuolumne The Department of Parks and Recreation proposes to provide improvements to the 5 exterior parking, routes of travel in no less than 8 city blocks through out the town, and door entrance modifications at 33 locations along the route of travel on both sides of Main Street from Jackson Street to Gazette on Washington Street to comply with the Americans with Disabilities Act (ADA). The ADA path of travel work will also extend partially on both sides of Main Street, along Jackson Street, State Street, Fulton Street, and Washington Street. The following is a brief summary of the proposed work: - Raise the existing non-historic boardwalks and brick sidewalks to the elevation of certain door thresholds identified at each building entrance to provide a smooth and ADA compliant transition from the outside circulation path into the building entrance. 2009012080	<p>City of Lathrop Water Supply Wells Arsenic Reduction Facilities Lathrop, City of Lathrop--San Joaquin</p> <p>The project is necessitated by recent updated arsenic regulations adopted by the US Environmental Protection Agency. Certain existing water supply wells in the Lathrop system exceed the standards established by the EPA regulations. The proposed project would divert water from City wells 6, 7, 8, 9, and 10 via new pipelines to a new centralized arsenic treatment plant. Treated water would be reintroduced to the City water system. The project involves the construction of approximately 2.3 miles of 12 to 24 inch pipeline along existing paved and unpaved roads, and industrial and agricultural lands adjacent to the Union Pacific Railroad. The proposed treatment plant would be located on an existing industrial site adjacent to and south of Louise Avenue and would occupy an approximately 3-acre area. The treatment plant would involve raw water blending; coagulation of arsenic using ferric chloride and sodium hypochlorite as well as sulfuric acid, if required. Treated water would be filtered, mixed and returned to the City water system. Solids will be subject to evaluation as part of the backwash system; solids will be subject to testing and will be disposed to an approved waste facility. The project would be constructed, owned and operated by the City of Lathrop Public Works Department.</p>	NOD

2006012125	San Rafael Airport Recreational Facility San Rafael, City of San Rafael--Marin A San Rafael Airport Recreational Facility project proposes a new private recreational facility on 9.1 acres of the 119.52 acres airport site. The new facility would consist of a 38 foot tall, total 85, 700 sf metal recreational building housing indoor fields and courts, a 14,400 sf mezzanine lighting, landscaping, parking, and fencing improvements. The use proposes to operate daily from 9:00 am to Midnight. Site work includes extension of paved access driveway, 184 space parking lot, new bridge deck, and grading to raise site elevations 2 ft achieving 1.0 and 2.0 ft grade elevations for the building and fields.	EIR	04/28/2009
2007071134	Perris Ridge Commerce Center II Perris, City of Perris--Riverside The Project proposes the establishment of a new industrial warehouse use, incorporating approx. 2 million sq. ft. of building area in two structures. Site improvements, including roadway access, internal circulation, parking, landscaping, and supporting infrastructure will be implemented and/or reconfigured to accommodate the Project.	EIR	04/27/2009
2002022004	Silicon Valley Rapid Transit Corridor Federal Transit Authority Milpitas, San Jose, Santa Clara--Santa Clara, Alameda The Federal Transit Administration (FTA), in coordination with the Santa Clara Valley Transportation Authority (VTA), proposes to construct an extension of BART from the approval Warm Springs Station in Fremont to Santa Clara County.	EIS	05/08/2009
2009032037	100 Valparaiso Cotati, City of Cotati--Sonoma The project involves a subdivision into 64 lots, construction of 64 residential units, including affordable housing and accessible units; rehab of an existing historic structure; removal of trees; and installation of ancillary infrastructure.	MND	04/10/2009
2009032038	Grape Creek Fish Habitat Improvent Project Sotoyome Resource Conservation District Healdsburg--Sonoma Grape Creek and its tributaries drain a basin of ~1.7 square miles. Grape Creek is a third order stream and has ~2.8 miles of blue line stream, according to the USGS Geyserville 7.5 minute quadrangle. Elevations range from ~80 feet at the mouth of the creek to 1200 ft in the headwaters. The upper portion of Grape Creek flows through a V-shaped canyon, while the lower portions traverse rolling hills bordered by vineyards, plum orchards, and grazing land. The common riparian vegetation of the creek includes bay, buckeye, poison oak, alder, willow, spicebush, and blackberry with some Douglas fir and redwood trees on the northern slopes. The watershed is entirely privately owned.	MND	04/10/2009
2009031032	Grantville Master Plan - Subarea B Amendment; RiverPark at Mission Gorge; Shawnee CG7600 Master Plan San Diego, City of San Diego--San Diego The proposed project site is an approximately 505-acre site. With the 505-acre Subarea B, two projects are being proposed: The River Park at Mission Gorge site is 364.6-acres and is located at 7500 Mission Gorge Road. The project would	NOP	04/10/2009

2004071028	Piru Wastewater Treatment Plant Upgrade and Expansion Project Ventura County Fillmore--Ventura The District has modified the original project to include a new WWTP east of the existing WWTP, and an extended aeration oxidationditch treatment instead of a membrane bioreactor facility. The Project will construct a new WWTP with a treatment capacity of 0.50 million gallons per day. The new WWTP will be completed to accommodate increased wastewater flows, replace aging infrastructure, meet the Los Angeles Regional Water Board's Waste Discharge Requirements Order and Time Scheduled Order, and comply with the requirements of Title 22, Chapter 3 (Water Recycling Criteria) of the California Code of Regulations for future production of recycled water. The existing WWTP will be decommissioned, except for those portions that will be utilized for the new WWTP. The new WWTP will include: 1) influent flow measurement, 2) a control and operations building, 3) an influent lift station, 4) mechanical screen, 5) oxidation ditch secondary treatment, 6) flow equalization/storage basins, 7) secondary clarifiers, 8) aerobic digesters, 9) a sludge pump station, 10) a sludge drying area, 11) an effluent pump station, 12) splitter boxes, 13) piping, 14) electrical controls, and 15) other appurtenances.	NOD	
2006022094	Randy Morgan - Minor Subdivision - MS0614C Del Norte County --Del Norte The project calls for the subdivision of a 17.4 acre parcel into two parcels. Proposed parcel one will be 1.5 acre; the proposed remainder parcel will be 15.9 acre. The General Plan Land Use designation for the project area is VSC (Visitor Serving Commercial) and RCA (Resource Conservation Area); the Zoning is CR-C(A) (Commercial Recreational-with Coastal access issues), RCA-2(r)(e) Resource Conservation Area-with Riparian and estuary concerns). The project area has historically been utilized for gravel extraction and rock processing.	NOD	
2008081022	Clean Energy Compressed Natural Gas Fueling Facility Glendale, City of Glendale--Los Angeles The City of Glendale is proposing to construct a Compressed Natural Gas Fueling Facility under a partnership with Clean Energy. This facility will serve as the fueling facility for the City's fleet of CNG vehicles which includes 31 buses, 13 trash trucks and 3 street sweepers.	NOD	
2008091095	210, 216 Meigs Road and 290 Lighthouse Road Santa Barbara County Santa Barbara--Santa Barbara A lot merger between 216 Meigs Road and 290 Lighthouse Road and a lot line adjustment between this newly merged lot and 210 Meigs Road thereby resulting in two lots, identified as Adjusted Parcel 1 (1.51 gross acres) and Adjusted Parcel 2 (8.9 gross acres). Adjusted Parcel 1 would then be subdivided into five single-family residential lots ranging in size from 7,849 to 10,842 square feet. The new residential lots would be served by a new public street with access off of Meigs Road. Appropriate public improvements, including sidewalk, parkway and utilites, and required retaining walls would also be constructed as part of the project. Construction of the single-family residences is not currently proposed. In order to allow the proposed single-family subdivision and future development, a	NOD

	General Plan and Local Coastal Plan Map amendment changing the land use designation from Major Public and Institutional to Residential, 5 units per acre is required for Adjusted Parcel 1, and a Zoning Map Amendment changing the zoning designation from PR/S-D-3 (Park and Recreation/Coastal Overlay Zone) to E-3/S-D-3 (One-Family Residence/Coastal Overlay Zone) is required for the existing area of 216 Meigs Road.		
2008102096	Highway 1 Realignment Project Caltrans, Planning --Mendocino Caltrans, in conjunction with the Federal Highway Administration (FHWA), proposes to realign a section of Highway 1 that was damaged during the 2005/2006 storms in Mendocino County. The project is located in Mendocino County on Highway 1 near Albion between post mile (PM) 38.38 and 38.92. The scope of this project consists of realigning the roadway to the east and decommissioning the existing roadway. The asphalt concrete (AC) and aggregate base of the decommissioned roadway will be removed. Drainage work will consist of removal and relocation of culverts with placement of RSP.	NOD	
2008111073	Rainbow Transfer Station and Material Recovery Facility Improvements Project Huntington Beach, City of Huntington Beach--Orange The project will expand the capacity of the existing transfer station and material recovery facility (MRF) from 2,800 to 4,000 tons/day. The project includes approx. 193,150 sf of new building area including two transfer stations, a secondary recycling building, office, and enclosure of existing MRF canopy. No land acquisition is required and no off-site improvements would be required. The project includes upgrades that will reduce noise, odor and emissions.	NOD	
2008121022	Waste Management Health Care Solutions Vernon, City of Vernon--Los Angeles Waste Management Health Care Solutions ("Waste Management") has submitted an application for a conditional use permit to operate a medical waste transfer station and treatment facility located at 4280 Bandini Blvd, Vernon CA. The proposed operation will consist of transferring and treating of medical waste from generators such as hospitals, laboratories, dialysis centers, medical clinics or other producers of medical waste. The autoclave facility would include two autoclaves that would accept, handle, and treat regulated medical wastes (RMW) and wastes regulated by the Animal and Plant Health Inspection Service (APHIS) that are delivered to the site. The project proposed will treat the medical waste via steam sterilization also known as "autoclaving". The medical waste will be containerized, treated and transported, all in accordance with California State Law.	NOD

	a horizontal alignment intersecting with Landco Drive one quarter mile south of Hageman Road (Armour Avenue). The bikeway routes along Hageman Road and Standard Street will also be realigned.		
2009031038	Spring Valley Outfall Sewer Project (Manholes 31-35) San Diego County --San Diego The proposed project involves the rehabilitation of a 4,524 ft length of sewer pipe line between Manholes 31 and 35A in the unincorporated community of Bonita in San Diego County. The sewer pipeline rehabilitation requires the installation of a Cured in Place Pipe liner inside the existing 4,524 ft length of pipe between Manholes 31 and 35A.	MND	04/13/2009
2009032039	Sacramento Weir Sediment Removal Project Water Resources, Department of West Sacramento--Yolo DWR proposes the Sacramento Weir Sediment Removal Project for the purpose of removing approximately 38,600 cubic yards of sediment from the entrance to the weir which DWR operates pursuant to Water Code Section 8361. The excavated sediment will be placed along the landside of the south levee of the Sacramento Bypass.	MND	04/13/2009
2009032040	DaVinci Charter Academy Davis Joint Union School District Davis--Yolo The existing Valley Oak Elementary School Campus will be converted for use of DaVinci Charter Academy, grades 10 through 12. The school is situated south of Eight Street, between "L" Street and "M" Street with a formal site address of 1400 E. 8th Street, in Davis, CA. The subject property is an 8.5 acre parcel.	MND	04/13/2009
2009032044	CVSD Wastewater Collection System Master Plan Castro Valley Sanitary District --Alameda The three critical components of the Master Plan include: 1) a hydraulic assessment, 2) an analysis of the collection system condition, and 3) an evaluation of operation and maintenance programs for the system. In response to the issues identified by these analyses, the Master Plan includes a comprehensive capital improvement program (CIP) to correct hydraulic and structural deficiencies revealed by the District's completed background studies.	MND	04/13/2009
2009032045	49.6 MW Reciprocating Engine Generation Project Modesto Irrigation District Modesto--Stanislaus The Modesto Irrigation District (MID) proposes to build a 49.6 MW Reciprocating Engine Power Plan adjacent to the existing Woodland Generation Station to be known as the "Woodland 3 Project" or the "Project." The Project will be comprised of 6 Wartsila reciprocating engines to be operated in simple-cycle mode, with no steam generation, but using selective catalytic reduction (SCR) and oxidation catalyst to reduce air emissions. The Project will also require the reconductoring of 2 existing MID 69-kilovolt (kV) subtransmission lines that tie into the existing PG&E natural gas supply pipeline. The Project would be located in the City of Modesto on a plot of land that has become available because the City is in the process of relocating and realigning Graphics Drive consistent with the vision set forth in the Redevelopment Agency's Master Plan as approved in September 2007. 2009032042	Northwoods Park Expansion Sacramento County Citrus Heights--Sacramento The project consists of the expansion of the existing 3.8 acre Northwoods Park. The expansion will consist of an additional three parcels totaling 5.3 acres.	Neg	04/13/2009
2009032043	Kaiser Medical Office Building SPAR (PA 08-087) San Mateo, City of San Mateo--San Mateo Kaiser Permanente proposes to construct a three story 64,700 sf medical office building on an undeveloped vacant parcel located at 900 Franklin Parkway, Parking for the medical office building will be provided on-site with a 300 parking space surface parking lot. This project also includes an amendment to the Bay Meadows Specific Plan to allow the medical office land use and a Site Development permit for grading. The surrounding area is an urban environment with surrounding uses comprising of commercial uses and mixed residential/commercial uses with Hwy 101 located to the east of the property.	Neg	04/13/2009
2009032046	Work/Duron Minor Subdivision Humboldt County --Humboldt A Minor Subdivision of an ~20 acre parcel into 2 parcels of 10 acres each. The parcel is currently developed with a single family residence which will remain on proposed Parcel 2. Both parcels are or will be served by on site water (wells) and on site wastewater treatment systems.	Neg	04/13/2009
2008072024	Triangle Specific Plan Amendment West Sacramento, City of West Sacramento--Yolo Update the Triangle Specific Plan to accommodate infrastructure and incorporate development in the area that has occurred since 1993.	SBE	04/27/2009
2007111106	East Branch Extension Phase I Improvements Project Water Resources, Department of Yucaipa--San Bernardino The proposed project would enlarge the Crafton Hills Reservoir from a useable storage capacity of 85 acre-feet to approximately 225 acre-feet. The reservoir would be enlarged by constructing a new earth dam in the adjoining drainage to the west of the existing reservoir. A ridge separates the existing reservoir from the drainage; a notch in the ridge would be excavated to serve as a connecting channel between the existing reservoir and proposed enlargement area. Two new maintenance roads, cut slopes, and operational dam equipment also would be installed onsite. In addition, a one-half mile segment of a 48 inch diameter pipeline would be constructed to connect the East Branch Extension pipeline to the Yucaipa Pipeline. The connector pipeline would divert imported water that otherwise would flow into Crafton Hills Reservoir to the Yucaipa Pipeline during the project construction period. The connector pipeline would allow DWR to maintain water deliveries to the East Branch Extension pipeline below the Crafton Hills Reservoir while the reservoir is being enlarged. After the proposed project is completed, the connector pipeline would remain in place to provide operational flexibility in the event of a reservoir outage.	SIR	04/27/2009

	concrete stoop which measures approximately 12 feet by 4 feet. They would also install a concrete shelter measuring approximately 24 feet by 12 feet and a 6-foot tall chain-link security fence with gates around their facilities.		
2009038142	Group Recreation Areas for Behavior Treatment Program - Living Units S, T, and U Corrections and Rehabilitation, Department of Chino--San Bernardino The proposed project will construct fenced outdoor Group Recreation Areas (GRA) for the youth assigned to the Behavior Treatment Program (BTP) within Living units S, T, and U at HGSYCF. In each living unit, a fenced 16 foot x 32 foot outdoor GRA will be constructed in adjacent locations in order to provide recreation space for juvenile inmates. The project includes digging for footing, installing wood forms and metal reinforcements (rebar), pouring concrete slab, installing fence panel sections, building and installing two pedestrian gates.	NOE	
2009038143	Medical Examination Rooms and Medical Offices in Living Units S, T, U, and V Corrections and Rehabilitation, Department of Chino--San Bernardino The proposed project will construct medical examination rooms and medical offices within the Behavior Treatment Program (BTP) Living units S, T, U, and V at HGSYCF. The BTP provides a behavior treatment intervention program for youth exhibiting violently disruptive behavior but who do not meet the criteria for a more intensive level of mental health treatment. Two existing cells will be converted into a medical examination room and one cell will be converted into a medical office to serve the youth assigned at each living unit in their respective BTP.	NOE	
2009038144	1012 - 1022 K Street Project Sacramento, City of Sacramento--Sacramento The project will rehabilitate the two-story former Rite-Aid and "Hit or Miss" buildings, which include three commercial units with a mezzanine, into two high-end nightclubs and one restaurant. The Rite-Aid building was constructed in the mid 1950s, and the Hit or Miss building was constructed in 1927, but neither meets criteria for listing on the Sacramento Register or the California Register. Rehabilitation will include soft demolition of existing features, and interior and exterior improvements to the existing buildings.	NOE	
2009038145	Install Wind Turbine at Brannan Islan State Recreation Area (SRA) Parks and Recreation, Department of --Sacramento Install a small 4 kilowatt vertical access wind turbine at Brannan Island State Recreation Area (SRA) to test the effectiveness of the unit in producing energy for the SRA. The wind turbine is being loaned to the SRA for a one year test and evaluation. Any excess energy will be fed to PG&E for credit. The electricity generated can be used directly while excess energy will be fed into PG&E lines and credited. Work will install the 6 feet wide by 10 feet tall wind turbine within the maintenance yard. It will be installed either on an existing 18-foot pole next to the single story chlorinator building or mounted to the roof of that building.	NOE
