STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

March 1 – 15, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 1 – 15, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

2014121057	<p>Monterey Bay Sanctuary Scenic Trail - Moss Landing Segment Bicycle/Pedestrian Path and Bridge Project Monterey County --Monterey</p> <p>The project is located in North Monterey County in the community of Moss Landing. The project is approximately .86 miles long. It extends from the North Harbor (northwest side of the existing State Highway 1 Bridge) to Moss Landing Road. It includes the construction of a 10 foot paved bicycle path with 2 foot wide decomposed granite shoulders on either side of the path and a 386 foot long foot bridge over the Elkhorn Slough.</p>	MND	04/01/2015
2015031001	<p>ENV-2014-2330-MND / 5072 S. Slauson Avenue Los Angeles, City of --Los Angeles</p> <p>A Conditional Use to permit the installation, use, and maintenance of an unmanned wireless telecommunications facility consisting of a 60-ft. in height monopole disguised as a eucalyptus tree, 3 sectors containing 4 antenna each, mounted on it along with a 2-ft. diameter antenna dish. Associated ground-level equipment cabinets and diesel back-up generator will be installed and maintained within a 220 sf lease area. The monopole will be located at the northeast corner of the park and associated equipment located on the southeasterly side of the park (along the fence) all within the Culver Slauson Park, composed of 2 lots, approx. 139,455 sf in the OS-1XL Zone. No trees are proposed to be removed.</p>	MND	04/01/2015
2015031005	<p>State Route 57/Lambert Road Interchange Improvement Project Caltrans #12 Brea--Orange</p> <p>Caltrans, in cooperation with the City of Brea (City), proposes to improve the SR 57/Lambert Road interchange from post mile 20.1 to PM 21.8. The proposed project would improve traffic operations on SR-57 and Lambert Road, in the interchange area. Improvements would include widening the southbound SR-57 median shoulder, reconfiguring the northbound and southbound SR-57 on- and off-ramps, lowering the Lambert Road profile to provide 15-foot standard vertical clearance under the Lamber Road Undercrossing and widening Lambert Road from 1,000 feet west of State College Blvd to Pointe Drive, and reconfiguring the north and southbound SR-57 on- and off-ramp/Lambert Road intersections.</p>	MND	04/01/2015
2015032004	<p>Keena / Bell Pipeline Replacement Project Placer County Water Agency Auburn--Placer</p> <p>PCWA is proposing to initiate the Keena / Bell Pipeline Replacement Project. The proposed project is located in an unincorporated portion of Placer County. Access to the project site would be provided off Keena Drive, Pear Hill Lane and Bell Road. The proposed project involves replacing the existing 14-inch diameter treated water pipeline. As part of the proposed project, the existing pipeline would be abandoned and a new 2,100-foot-long pipeline system would be installed to provide a more reliable conveyance of treated water. The pipeline will be installed in existing roadways and a portion will traverse the nearby hillside.</p>	MND	04/01/2015

2015032007	2015 Tehama-Colusa Canal Authority Water Transfers Tehama Colusa Canal Authority --Colusa, Glenn, Sacramento, Shasta, Sutter, Tehama, Yolo Note: Shortened Review This MND and IS/EA analyzes environmental impacts of proposed water transfer from willing sellers to buyers in the Sacramento Valley help address water shortages. This environmental document includes transfer of Central Valley Project (CVP) water from entities in northern California to participating members of the Tehama-Colusa Canal Authority. The water would be made available for transfer through a combination of cropland idling and groundwater substitution. The transfer could originate in Colusa, Glenn, Sacramento, Shasta, Sutter, Tehama, or Yolo counties. The transfer buyers could be in Colusa, Glenn, Tehama, or Yolo counties.	MND	03/23/2015
2011012081	I-5 Subregional Corridor Mitigation Program (aka Subregional Freeway Mitigation Fee Program) Sacramento Area Council of Governments Sacramento, Elk Grove--Sacramento, Sutter, Yolo, Yuba, El Dorado, Placer The Proposed Project is a development fee program that would contribute toward implementation of transportation improvements (road, bridge, transit) that would relieve congestion and reduce vehicle miles traveled within the Project Area. The fee would be voluntary. If a development project within the Project Area elected to pay the fee, then that project's impacts on the State highway system within the Project Area would be considered mitigated. All of the improvements that would be funded by the Proposed Project are included in the 2035 MTP and were evaluated at a program level in the 2035 MTP/SCS EIR.	NOP	04/01/2015
2015031003	Vista Del Agua Specific Plan Coachella, City of Coachella--Riverside CVP Palm Springs, LLC, in affiliation with Strategic Land Partners, LLC is proposing to implement a residential, commercial, and open space development, with associated on-site and off-site infrastructure improvements for the Vista Del Agua Specific Plan (the "Project"), an approximate 275.38-acre site located within the City of Coachella, in Riverside County. As presently proposed the Project proponent is preparing a draft specific plan (Vista Del Agua Specific Plan No. 14-01), that would allow conversion of this property to a mixed use development with residential, commercial, park, and open space uses. To accomplish this, the Project proponent will submit applications seeking approval from the City for a general plan amendment, a change of zone, a specific plan, a tentative parcel map for the individual planning areas, a community facilities district to fund the required on-site and off-site infrastructure improvements (water, sewer, roadways, etc.) for the Project area, and a development agreement.	NOP	04/01/2015
2015031004	Barton Place Cypress, City of Cypress--Orange The project site consists of approximately 33 acres within the southwestern portion of the City of Cypress in Orange County, California, and is located just north of the City of Los Alamitos boundary and approximately one mile northwest of the City of Garden Grove. The project site is located at 4921 Katella Avenue, at the northeast corner of Katella Avenue and Enterprise Drive. The proposed mixed-use project includes two components, a senior residential community and	NOP	04/01/2015

	commercial/retail improvements. The community would include approximately 244 senior residential units and the commercial/retail components would consist of approximately 50,000 sf of commercial space. The project site was previously part of the Cypress Golf Club, which permanently closed in 2004. The project site is not currently utilized for any land use or activity.		
2015032001	2015 Amador County Regional Transportation Plan Amador County --Amador The proposed project is the adoption and implementation of the 2015 Amador County Regional Transportation Plan Update (RTP). The RTP contains three primary elements: Policy Element, Action Element, and Financial Element. The RTP is a comprehensive transportation plan for all modes including: highways, local streets and roads, transit, bicycle, rail, and goods movement. The RTP contains policies, actions, and financial strategies for short-term and long-term transportation projects. More detailed information on the RTP can be found at the ACTC website, (www.actc-amador.org).	NOP	04/01/2015
2015032006	Programmatic Environmental Impact Report (PEIR) City of San Mateo Clean Water Program San Mateo, City of San Mateo--San Mateo The City of San Mateo is initiating the Clean Water Program, a series of projects to upgrade and increase the capacity of its wastewater treatment plant and sewer system. The Clean Water Program will address sanitary sewer overflows (SSOs) that occur during rain events. In 2009, the City, CSCSD, and Hillsborough were issued a Cease and Desist Order (CDO) (R2-2009-0020) due to violations in discharge prohibitions from SSO discharges. The CDO requires that the frequency and volume of SSOs be consistently and substantially reduced. In addition, the Clean Water Program will upgrade the wastewater treatment plant (WWTP) to enable it to meet current and future regulatory requirements such as nutrient loading and elimination of blending. The City is considering two different Clean Water Program alternatives.	NOP	04/01/2015
2015031002	ZA-2014-4688-CUW, ENV-2014-4689-MND Los Angeles, City of --Los Angeles A Conditional Use Permit to allow the installation, use, and maintenance of an unmanned wireless telecommunications facility consisting of a 45-foot high monopole disguised as a palm tree (monopalm), with 12 panel antennas, 12 RRU's (remote radio units), one parabolic antenna, and two raycaps. The WTF facility also includes 2 equipment cabinet, a standby generator, and an electrical meter, located at grade. The monopalm and equipment cabinets will be located behind crash bollards. The WTF is proposed to be located within an existing landscape planter in a surface parking lot of a commercial shopping center.	Neg	04/01/2015
2015032002	Amador County Draft Housing Element Update 2014-2019 Amador County --Amador The County of Amador proposes to adopt an update to the General Plan Housing Element pursuant to Article 10.6, Section 65580 B of California State Law. As required by State law, the proposed Housing Element Update has been prepared to ensure the County accommodates its share of California's projected housing	Neg	04/01/2015

	needs. The County has analyzed local housing needs and resources and identified specific sites for potential development. It has then developed policies and implementation programs intended to meet the housing needs of all income segments of the County for the 2014-2019 planning period.		
2015032003	PA-1400259 San Joaquin County Stockton--San Joaquin A Minor Subdivision application to subdivide an existing 240-acre parcel into three parcels. Parcels 1, 2, and 3 to contain 80 acres each.	Neg	04/01/2015
2007071158	Newport Executive Court Project Newport Beach, City of Newport Beach--Orange The project includes the construction of two, two-story medical office buildings totaling 64,000 square feet in gross floor area and a 324-space surface parking lot. The project site is approximately 4.1 acres and contains vacant land and two single-unit residences with associated outbuildings that will be demolished.	NOD	
2009092021	Kings Beach Gas Station Placer County --Placer The project proposes a time extension of an approved Conditional Use Permit to construct a two-story convenience store with four fuel pumps (eight fuel stations) on a .426-acre parcel. The store would be approximately 2,640 square feet in size.	NOD	
2010041046	Don Chapin Company Concrete Batch Plant Merced County --Merced To subdivide 26.9 acres into four parcels (Parcel 1 - 15.0 acres, Parcel 2 = 3.46 acres, Parcel 3 = 3.46 acres and Parcel 4 = 5.0 acres) and to construct a concrete batch plant on a 7.07-acre portion of Parcel 1.	NOD	
2014041083	Causeway Shoreline Embankment Repair Project Monterey, City of Monterey--Monterey The proposed project involves protecting and buttressing the undermined portion of the existing retaining wall supporting the Custom House Plaza adjacent to the Monterey Harbor along the Monterey Bay Coastal Recreation Trail between Fisherman's Wharf and Wharf II in the City of Monterey. Approximately 90 LF of fiber reinforced polymer (FRP) sheet piling will be installed below the existing wall. The visible portion of the wall (approximately 900 sf) will be architecturally treated. The architectural treatment will match the adjacent faux rock and natural rock outcroppings. Restoration of grade and planting of the disturbed hillside will be accomplished subsequent to the installation of the wall. No impacts will occur below the high tide line as a result of the project.	NOD	
2014072002	North Coast System Rehabilitation Project - Phase 3 Coast Segment Santa Cruz, City of Santa Cruz--Santa Cruz The City of Santa Cruz Water Department proposes to replace approximately 18,500 linear feet of 16 to 22 inch diameter raw water main that runs along Highway 1 in Santa Cruz County. The proposed project is Phase 3 (Coast Segment) of the North Coast System Rehabilitation Project (NCS). The Phase 3 segment is 19,800 feet in total length. The overall project will: 1) install/replace 18,500 feet of new pipeline; 2) use/retain 1,300 feet of existing pipeline; and 3)	NOD

	remove 800 feet of old, above ground pipeline. The majority of the proposed pipeline would be built using standard open trench construction techniques. The remainder would be built using a trenchless construction method such as horizontal direction drilling and jack and bore. These methods would be used at proposed crossings of Highway 1, Lombardi Gulch, and the Santa Cruz Branch rail line.		
2014082088	Rezone 2014-02 (PD 271) VTSM 2014-02 - Potter's Landing Turlock, City of Turlock--Stanislaus The applicant is proposing to rezone and subdivide a 1.57 acre parcel into 9 single family residential lots. The property is designated Low Density Residential in the Turlock General Plan and zoned RI., allowing a minimum lot size of 5,000 square feet and a residential density ranging between three (3) and seven (7) dwelling units per acre. The proposed lots will range in size from 5,500 to 7,120 square feet. The overall density of the project is six (6) dwelling units per acre. The applicant is requesting to rezone the property to a Planned Development to allow for deviations in the minimum lot dimensions, setbacks and street width. Three homes will front onto Hawkeye Avenue and access to the interior lots will be provided by a private road off of Hawkeye Avenue. The subdivision will be required to annex to a Community Facilities District to mitigated the ongoing costs of public services.	NOD	
2014092001	Tentative Parcel Map Application No. PLN2014-0081 - Arnerich Stanislaus County --Stanislaus Request to create four parcels of 53, 57, 63, and 197 acres from an existing 370 acre parcel in the A-2-40 (General Agriculture) zoning district.	NOD	
2014112002	Hills Minor Land Division (PMLD 20130390) Placer County --Placer The applicant is requesting approval of a Vesting Tentative Parcel Map to subdivide a 5.49-acre residential property into four parcels.	NOD	
2014121044	Housing Element Update Buellton, City of Buellton--Santa Barbara Update of the Housing Element of the City's General Plan. The Housing Element sets forth goals and policies that have been developed to encourage the preservation, production, maintenance, and improvement of housing in the City of Buellton.	NOD	
2015039001	Glen Deven Ranch THP Forestry and Fire Protection, Department of --Monterey Phased removal of non-native eucalyptus (Eucalyptus globulus) trees in a 19 acre stand at Glen Deven Ranch and re-establishment of native habitat.	NOD	
2015039002	Lake or Streambed Alteration Agreement No. 1600-2013-0204-R2 "Pi Pi" THP Forestry and Fire Protection, Department of --El Dorado The project is limited to repair and maintenance activities of a permanent 48-inch CMP (Crossing A) and construction of one off-channel waterhole (Above Crossing D). Further information can be found in the THP 4-13-015-ELD.	NOD

2015028418	Alpine Water Users Association, Well 1 Uranium Treatment Project State Water Resources Control Board --San Bernardino The State Water Resources Control Board (SWRCB) as the lead agency will be issuing a water supply permit. The Alpine Water Users Association proposes to provide ion exchange treatment of uranium for Well 1. The project entails the installation of treatment and mechanical/electrical equipment within an existing wellhead building enclosure adjacent to existing well.	NOE	
2015028419	Drought Emergency Grant Funding Request for Tuolumne Utilities District (TUD) Sonora/Jamestown State Water Resources Control Board --Tuolumne The State Water Resources Control Board (Board) is a responsible agency for this project. The Board's Public Water System Drought Emergency Funding Program is providing state funds for the project. Tuolumne Utilities District (TUD) proposes to connect 11 private residences whose private wells have gone dry to the TUD-Sonora/Jamestown water system. TUD would require construction of approximately 1,375 feet of 8-inch diameter water main with four blowoff hydrants. TUD would design, bid and handle construction management and inspection of the main line extension as well as the meter, meter box, and service extension from the main line to the meter/meter box. The property owners would be responsible for the cost of the associated piping from the meter tail to the connection point of the piping going to their respective homes as well as the backflow prevention device that will be installed between the meter and the private residence.	NOE	
2015028421	Snata Cruz and Santa Rosa Islands Habitat Enhancement Fish & Wildlife Conservation Board --Santa Barbara Project consists of vegetation mapping, spot weed control, and public education and outreach on Santa Cruz and Santa Rosa Islands. Properties are owned and managed by The Nature Conservancy and Channel Islands National Park.	NOE

2015031007	<p>Planning Area 5B Elementary School Irvine Unified School District Irvine--Orange</p> <p>Irvine Unified School District proposes to construct a new elementary school on a 10-acre lot that is centrally located within a master planned community known as Planning Area 5B. This proposed school would be designed to accommodate up to 1,000 students at peak enrollment. It would serve transitional kindergarten through sixth grade (TK-6) students and is anticipated to open around August 2017. Major components of the project would include: (1) Nearly 59,000 sf of permanent building space; (2) 10 classroom relocatable (portables) and three daycare classroom relocatables; (3) Outdoor play areas and amenities; (4) Two parking lots, and (5) a student drop-off/pick-up zone.</p>	MND	04/01/2015
2015031008	<p>Well 7B and New Storage Reservoir Project Twentynine Palms Water District Twentynine Palms--San Bernardino</p> <p>The District currently operates 14 production wells of which 8 are active. The remaining wells are inactive and/or used for groundwater monitoring. The proposed project includes the construction of a new 42,000 gallon water collection reservoir and installation of a new well, No. 7B, designed to replace existing Well No. 7 that has been removed from production due to age of the well resulting in reduced capacity. The purpose of the proposed reservoir is to replace the existing reservoir that has deteriorated due to the lack of an adequate interior coating that will continue to allow blending of water produced from three local wells for distribution to the District's water supply system. The proposed project includes the drilling, testing, development and equipping and production of a new water production well (Well No. 7B) within the District's Plant No. 6 water production site.</p>	MND	04/01/2015
2015031009	<p>IS Application No. 6792 (Bob Shiralian) Fresno County Mendota--Fresno</p> <p>Allow an interstate freeway exchange commercial development consisting of a 5,500 sf mini-mart/restaurants with gasoline/diesel fueling stations for automobiles/trucks on a two-acre portion of a 12.65-acre parcel in the AE-40 (Exclusive Agriculture, 40-acre minimum parcel size) Zone District, within the Westside Freeway Corridor Overlay. The project site is located approximately 400 feet north of Panoche Road, 1,040 feet west of I-5, and 15 miles southwest of the City of Mendota within the northwest quadrant of I-5 and W. Panoche Road interchange (SUP. DIST.: 1) (APN: 027-190-16S).</p>	MND	04/01/2015

2015032010	Willow Hill Reservoir Multi-Use Trail Folsom, City of Folsom--Sacramento The City of Folsom proposes to construct a new multi-use natural earthen trail within the City of Folsom. The trail will be approximately 2 miles long and 6 feet wide and will be constructed by volunteers using hand tools and a small bobcat (such as a Bobcat 570 MINI). A single-span bridge will be constructed over the riparian area near the west end of the project (Figure 2). The bridge will be approximately 60 feet long and 6 feet wide with concrete abutments. The bridge will be made of pressure-treated wood and is proposed to be assembled onsite. This project has incorporated design features to avoid potential environmental impacts.	MND	04/02/2015
2014072025	Parkside Trails Residential Cupertino, City of Cupertino--Santa Clara The project applicant is requesting approval of a General Plan Amendment, Rezoning, Tentative Map and Lot Line Adjustment to subdivide the 42.4-acre site into the Residential Parcel (8.5 acres) and Corridor Parcel (4.1 acres), and a remainder "Park" Property (29.8 acres) that would be merged with parcels to the east that was previously an old quarry site. The project also would further subdivide the Residential parcel into 18 residential lots and two common area parcels for a proposed 18-unit single-family residential Planned Development. Approval of a Development Permit, Architectural and Site Approval, Development Agreement, and Tree Removal Permit(s) is also requested for the proposed development and for the removal and replacement of over 130 protected trees on the Residential Parcel.	NOP	04/01/2015
2015032008	Proposed BAAQMD Regulation 12, Rule 15: Petroleum Refining Emissions Tracking and Proposed BAAQMD Regulation 12, Rule 16: Petroleum Refining Emissions Analysis, Bay Area Air Quality Management District --Alameda, Contra Costa, Marin, Napa, San Francisco, ... The Bay Area Air Quality Management District is proposing two new rules: Proposed Regulation 12, Rule 15: Petroleum Refining Emissions Tracking (Rule 12-15) and Proposed Regulation 12, Rule 16: Petroleum Refining Emissions Analysis, Thresholds and Mitigation (Rule 12-16). Rule 12-15 is being proposed to put in place requirements to enhance the tracking of refinery emissions, determine crude composition over time, require development of emissions inventory, require additional air monitoring, and requiring refineries to update Health Risk Assessments utilizing the latest methodology and health effects data. Rule 12-16 would use emissions information gathered under Rule 12-15 to establish trigger level emissions thresholds, require casual analysis if those emissions thresholds are exceeded, prepare enforceable Emission Reduction Plans to reduce air emissions, and conduct an audit if planned reductions are not sufficient to bring emissions back below trigger threshold levels. 	diameter pipeline), Desert Falls Country Club (approximately 1,200 linear feet of 12 to 18-inch diameter pipeline), and Palm Valley Country Club (two 12 to 18-inch diameter pipelines; 600 linear feet and 1,400 linear feet). Construction of the Project includes removal of existing landscape, asphalt, or concrete, and trenching along the pipeline alignment; placement of pipe bedding and pipeline; backfilling trenches and compacting soil; returning the land surface to pre-construction conditions to the extent practicable; and installation of meters and motor-actuated valves.		
2015032009	Hazal Valley Road at El Dorado Canal Bridge (25C0092) Replacement Project El Dorado County --El Dorado The El Dorado County Community Development Agency intends to replace the Hazel Valley Road Bridge at the El Dorado Canal (25C0092). The existing 27.5 ft long and 10.8 ft wide (curb to curb) bridge built in 1940 is a single span structure with a timber deck on steel girders and concrete abutments. The proposed replacement bridge will be an approximately 54 ft long, 28 ft wide concrete slab bridge. The new bridge will meet the AASHTO minimum standards for a "Resource Recovery Road" or a "Minor Access Road". The road will remain open during construction and motorists will make use of the existing bridge or a temporary bridge during construction.	MND	04/02/2015
2015032011	Keen Grading Permit Application GRD13-0009 Butte County --Butte The applicant requests approval of a Grading Permit for a grading operation that distributed approximately one acre of a 45-acre property for the purpose of leveling land for a garden. Disturbance to the site included the leveling of approximately 0.63 acres of land in July 2013, with additional scraping/grading of the roadway bringing disturbance on site to approx. one acre. Grading activities were conducted over a one-week period in April 2013 using a small tractor. Disturbance to the site included approximately 275 cubic yards (cy) of cut and 275 cy of fill, resulting in the leveling and terracing of approximately 0.63 acres of land within an unimproved portion of the residential property. Maximum cut height is 6 feet, and maximum slope is 2:1.	MND	04/02/2015
2015032012	Wise Road at Doty Creek Bridge Replacement Project Placer County Lincoln--Placer Placer County Department of Public Works, in coordination with Caltrans, proposes to replace the Wise Road Bridge (No. 19C-0090) over Doty Creek (a.k.a. Doty Ravine). The proposed project would remove the existing 34-foot-long and 16-foot-wide bridge and replace it with a longer and wider single-span precast or cast-in-place concrete slab bridge on seat abutments, meeting current standards. The bridge would be replaced in the same location as the current bridge but would be widened to the north to accommodate the second lane.	MND	04/02/2015
2015031015	Freeway Business Center March Joint Powers Authority Moreno Valley, Riverside--Riverside General Plan Amendment (GP 15-01): The Project site is composed of APN 297-100-013 (33.22 acres) within the March Joint Powers Authority (JPA) Planning Area, and APN 297-100-045 (6.2 acres), which was placed within the JPA's jurisdiction by the Riverside County Board of Supervisors on February 10, 2015. 	marsh/riparian and 3.71 acres of tidal salt marsh at the Hallmark West site at Agua Hedionda Lagoon; and a minimum of 50 acres of tidal salt marsh at the W-19 site at San Dieguito Lagoon. Both lagoons are located in San Diego County.		
2009042052	Sacramento Bank Protection Project, Phase II - Levee Repair of 25 Erosion Sites Central Valley Flood Protection Board --Sacramento United States Army Corps of Engineers has requested authorization under Clean Water Act Section 401 from the Central Valley Regional Water Quality Control Board for the Project. The Project is located at Sacramento River Mile 26.0, south of Walnut Grove. The project activities are part of the Sacramento River Bank Protection Project - Phase II, which are being implemented by the Applicant and the Central Valley Flood Protection Board. The Project consists of levee bank stabilization measures.	NOD	
2012122006	2035 General Plan Update Sacramento, City of Sacramento--Sacramento The project includes City of Sacramento 2035 General Plan, including goals and policies to direct the physical development of the City through 2035. Key changes to the general plan include: incorporating and integrating the climate action plan, amending flood protection policies and maps, and adding urban agriculture polices.	NOD	
2014022022	Graham Hill Road Bridge Storm Damage Repair Project Santa Cruz County --Santa Cruz The Graham Hill Road Bridge Storm Damage Repair Project (project): Channel 1 (the ephemeral unnamed drainage) enters the San Lorenzo River adjacent to the bridge pier and is causing scour around a pier that supports the bridge. The repair work will consist of removing the existing wing wall and pouring a new concrete wing wall in the same location. The new wing wall will be doweled into the face of the existing bridge abutment to help provide bearing support for the bridge. Rock slope protection (RSP) will be installed around the new wing wall. A drain will be installed at the edge of the sidewalk, leading to a culvert along the edge of the new RSP, with an outfall at the bottom of the RSP. The portion of the sidewalk that has been undercut will be replaced. The County will also install RSP at the base of the pier in the channel to prevent further scour. Equipment may access the site from an existing construction staging yard on the north side of Channel 1. Prior to construction, a path will be cleared across the riparian woodland and Channel 1 wide enough to allow equipment access to the wing wall. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0135-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Todd Sexauer, Santa Cruz County Department of Public Works.	NOD	
2014062042	Brighton Subdivision Rocklin, City of Rocklin--Placer The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement number 1600-2014-0230-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Brighton Investors, LLC. 2015038005	Adjustments and Amendments to the FY 2014-2015 Major Maintenance Program and Budget, Preliminary Approval of FY 2015-2016 Major Maintenance Project List San Diego Unified Port District San Diego, Chula Vista, Imperial Beach, Coronado--San Diego and Amendments to BPC Policies No. 130 and 090. The proposed project involves adjustments and amendments to the Fiscal Year 2014-2015 (FY 14/15) Major Maintenance (MM) program and budget, preliminary approval of the Fiscal Year 2015-2016 (FY 15/16) MM project list, and amendments to BPC Policies No. 130 and 090.	NOE	
2015038006	Coronado Yacht Club Boat Hoist, Deck and Pile Repair Project San Diego Unified Port District Coronado--San Diego The proposed project involves replacement of a portion of damaged deck structure and supporting piles, and re-mounting of a boat hoist, located at the Coronado Yacht Club (CYC) in the northern portion of Glorietta Bay in Coronado, CA. CYC has a 2,000-pound rated, deck-mounted hoist, which has been utilized to lift and set small sailboats into the water, and was mounted to an approximately 1,350-sq.ft. wood deck. The deck was comprised of 2-inch by 6-inch wood planks placed across 2-inch by 12-inch wood stringers and supported by 12-inch by 12-inch wood beams. The deck structure and hoist were supported over the water by five wood piles driven to the Baypoint formation material. The deck and hoist were recently damaged when the wood piles collapsed. CYC proposes to replace the five unstable, aged wood piles with five new piles. New piles, between 12 and 24 inches in diameter, will be cast in drilled hole with steel casing (CIDH). In addition, the damaged deck will be replaced in-kind, in the same location, and the hoist will be re-mounted to the deck. The equipment to remove and install the piles would be staged on the upland pavement next to the work site and no work would be conducted from the water. For CIDH piles, sediment pulled from steel casings would be loaded in to three semi-end dump trucks and disposed of at a certified landfill. Construction is proposed to begin in late-February and be completed by late March/early April 2015, for a total construction period of approximately 5.5 weeks. It is anticipated that construction	NOE

2015031023	78 N. Marengo YWCA Kimpton Hotel Project Pasadena, City of Pasadena--Los Angeles The proposed project involves of the rehabilitation and adaptive reuse of the existing 48,260 sf YWCA building located at 78 N. Marengo Avenue and the addition of an 87,342 sf, six-story building on the project site, which together would become a 127,912 sf, approximately 179-room, Kimpton Hotel. The project site comprises approximately 84,042 sf of land that would be developed into a single boutique hotel and surrounding grounds. The new hotel would consists of approximately 179 guest rooms and suites, approximately 1,989 sf of meeting facilities, approximately 5,630 sf of ballroom space, approximately 1,197 sf of hospitality parlors, and an approximately 2,350 sf, 140-seat restaurant. Parking would be provided off-site at nearby parking structures.	NOP	04/03/2015
2015031016	Sendero Planned Residential Development Project (Planning Application No. 14-1398) Eastvale, City of Eastvale--Riverside The proposed development includes two residential product types on opposite sides of an existing 255-foot-wide Southern California Edison easement. The application proposes a subdivision to allow for 323 single-family detached homes on approximately 41 acres. The proposed project would also include a General Plan Amendment. The land use designation of the proposed project site would be changed from Medium Density Residential to Medium High Density Residential. In addition, the proposed project would change the zoning for the project site. The current zoning, R-1 (One Family Dwellings), would be changed to PRD.	Neg	04/03/2015
2003071013	Chaffey Community College District Facilities Master Plan, Rancho Cucamonga Campus Chaffey Community College Rancho Cucamonga--San Bernardino The approved Master Plan includes a series of projects for the campus that involve the development of several new buildings, renovation of existing buildings, modifications to access and circulation, development of new athletic facilities, provision of additional parking, modification and expansion of other campus infrastructure, and renovation of the campus landscaping. All facilities would be developed within the existing campus boundaries. Much of the planned development, reorganization, and modernization of existing facilities proposed in the Master Plan has been completed to date. The Central Plant Buildout - TES Tank Project would occur during buildout of the previously approved third phase of the Central Plant Buildout Plan (plan buildout). Two of the three previously approved chillers were constructed in the Central Plant Facility during the preceding buildout phases. Changes to the third phase of plant buildout would result in the construction of a 700,000-gallon thermal energy storage (TES) tank instead of the previously approved third chiller. The six boilers previously approved under the approved Master Plan would not be modified and would be constructed as previously planned. The new TES tank would supplement the existing chiller capacity. The six new boilers would be installed inside the existing Central Plant Facility (Central Plant), as previously approved, to augment the capacity of the existing heating system to meet future heating demand loads on the campus. 2015038010	<p>Foster Ranch Fire Prevention and Fuel-break Training Forestry and Fire Protection, Department of --Butte</p> <p>Cal Fire / Butte County Fire seeks to develop and promote on an annual basis Fire Protection training opportunities under direction of the Unit Training Bureau. The project consists of hand cutting, piling, and burning of brush and fire killed trees 12 inches dbh and smaller on lands damaged as a result of the Butte Lightning Complex fires of 2008. This project will maintain an existing fuel-break and allow maintenance of an existing road for better ingress/egress of firefighting resources. Any project operation would lie within the footprint of individual areas (from 1 to 2 acres) for a total project size of 8 acres, within previously burned over and rehabilitated landscapes. All cutting, piling, and burning work will be done by hand labor, with any dozer activity to be restricted to currently existing road and fire-line. There will not be any new road or fire-line construction.</p>	NOE	
2015038011	<p>Prado Conservation Camp Gate and Storm Drain Improvements Project Forestry and Fire Protection, Department of Chino--San Bernardino</p> <p>Project consists of the installation of a 40 foot rolling split gate on an existing fence, an access keypad and pedestal requiring an 18"x18"x24" concrete footing, signal and power wire for access pad that will be pulled through an existing conduit. Other improvements include the installation of an additional 250 feet of one-inch conduit installed in a trench (four foot wide and one foot deep); construction of an irregularly shaped concrete slab approximately 2,328 sq. ft.; installation of an approximately 300 feet long 10-inch buried water pipe (trench will be 18 inches wide, 300 feet long, 2 feet deep) connecting an existing open channel storm drain to a drain pipe; construction of a new concrete storm drain collection box (four by four feet); three additional drain inlets (12"x12"); and the removal of five pine trees to prevent accidental fall due to project construction damage. The gate and concrete slab will provide access to an open field currently used for parking and to access other parts of the conservation camp. The storm drain system improvements are being made to eliminate the release of storm water onto a grass area where it ponds.</p>	NOE	
2015038012	<p>Weak-Base Anion Exchange (WBA) Pilot Testing - Well #15 Santa Ynez River Water Conservation District --Santa Barbara</p> <p>Project includes a pilot study designed to test the feasibility of using weak-base (WBA) anionic resins in the anion exchange treatment of groundwater to remove hexavalent chromium. Specifically, pumping equipment in a District water supply well (Well #15) will be modified to produce a flow rate of less than 5 gpm to accommodate a pilot testing system composed of skid-mounted filtration and 3-column anion exchange unit. Water will be pumped and treated using three commercially available resins. Regular sampling of the raw and treated water for laboratory analysis will occur, along with periodic data gathering of field measurements, for an initial trial period of approximately 3 months. The study may be extended if test results indicate further data gathering is warranted. This pilot treatment testing is part of a larger project to manage the loss of production capacity resulting from the recently established water quality threshold for hexavalent chromium drinking water. Upon completion of the pilot study, mechanical and chemical treatment/development of the well will be conducted</p>	NOE

	prior to re-installation of full capacity (1,200 gpm) pumping equipment.		
2015038013	12310 Lorenzo Avenue Home Remodel and Landscaping Project Fish & Wildlife #3 --Santa Cruz The project is limited to landscape and hardscape alterations on the upper bank of the San Lorenzo River within the 100-year floodway. The project includes removal of a pre-existing wood retaining wall ranging in height from 4 to 6 feet with removal of infill behind the wall; restoration to the natural grade and stabilization with a semi-permeable layer of cemented stone and concrete rubble of the uncovered area where infill is removed; removal of non-native invasive plant species and replacement with native ground cover plant species within a 500 sq. ft. area. A steep 4 foot wide 3 foot deep channel, which is used to convey flows from a roadside culvert outfall, will also be made erosion proof by adding lining and pavement to wire-reinforced cemented stone along the bottom, sides up to and surrounding the culvert outfall. also included are plans for improvements to a portion of the single family residence located within the parcel and adjacent to the San Lorenzo River on riverbank bedrock. Issuance of a Streambed Alteration Agreement No. 1600-2013-0382-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2015038014	Robinson River WEll (Streambed Alteration Agreement No. 1600-2014-0200-R4) Fish & Wildlife #4 --Tulare CDFW has executed Streambed Alteration Agreement No. 1600-2014-0200-R4, pursuant to Section 1602 of the Fish and Game Code to L.E. Britten Construction Inc.	NOE	
2015038015	Waste Water Treatment Plant 816 KW Ground-mount Photovoltaic System Project Gustine, City of Gustine--Merced Project consists of the installation of an 816KW ground-mounted photovoltaic array and appurtenant electrical equipment on the grounds of the City of Gustine's Waste Water Treatment Facility (WWTF). This array will be operation under a power-purchase agreement to supply adjunct power for the WWTF operations.	NOE	
2015038016	Repair Water Infiltration to Guy Fleming House (14/15-SD-17) Parks and Recreation, Department of --San Diego Examine the Guy Fleming house roof and structure in Torrey Pines State Natural Reserve to determine the cause of water infiltration; and then make the appropriate repairs to support continued maintenance and use.	NOE	
2015038017	Minor Waste Tire Facility Permit Revision for reRubber, LLC Resources Recycling and Recovery, Department of Ontario--San Bernardino Issuance of a Minor Waste Tire Facility Permit (WTFP). The WTFP continues to allow for a maximum capacity of 4,999 whole waste tires and/or waste tire equivalents on-site. In addition to indoor storage the operator proposes to also store waste tires outdoors.	NOE

	concrete pad; the second will be on a decomposed granite pad. The accessible parking stall will be installed within the footprint of the existing gravel parking lot, with an accessible sidewalk leading from the parking stall to both the green house and to the first shade ramada. DPR-approved standard project requirements have been incorporated into this project. A copy of these requirements may be obtained by submitting a request to the project Environmental Coordinator listed below.		
2015038024	Issuance of Lake or Streambed Alteration Agreement No. 1600-2014-0368, SR 299 Cedar Gap Curve Improvement Project Fish & Wildlife #1E --Humboldt Project site encompasses Unnamed Tributaries to Willow Creek on SR 299 between Post Mile markers 30.0 and 30.8 in Humboldt County approx. 9 miles west of the town of Willow Creek, in the County of Humboldt.	NOE	
2015038025	Vegetation Removal and Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2014-0279-R1) Fish & Wildlife #1E --Humboldt CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2014-0279-R1, pursuant to Section 1602 of the Fish and Game Code to Elk County RV Resort and Campground (Permittee) as represented by Mr. Kurt Gebhardt. The Project encompasses unauthorized stream alteration and diversion activities conducted under the previous ownership and documented in the field by CDFW on June 6, 2012, remedial work for the unauthorized activities, and additional proposed stream alteration and diversion activities.	NOE	
2015038026	Roof Top Micro-Turbines on RNB Intel Building Santa Clara, City of Santa Clara--Santa Clara Architectural Review to allow installation of 116 small wind turbines on the roof top parapet of an existing building. The project will be executed in two phases.	NOE	
2015038027	Malibu Creek Fire Road Repairs Parks and Recreation, Department of --Los Angeles This project will repair surface water drainage along fire roads in Malibu Creek State Park (Craggs Road, Bulldog Motorway and Castro Motorway) in order to reduce road surface erosion and Total Maximum Daily Load (TMDL) in target watersheds identified by the Regional Water Quality Control Board. Road repairs will include infilling of road entrenchments, outsloping of road edge by removing or reducing road edge berms, clearing of existing plugged culvert pipes, and installation of swales and spot side drainage where no berms exist or thick vegetation has grown over berms. Brush will be removed from outside road berms and used to infill inside edge of road, including root balls to increase potential for re-sprouting. All trees along road edges will be left in place. Existing soil stockpiles along fire roads will be used to fill ruts and entrenchments; additionally locally-sourced clean soil may be imported to complete entrenchment fill. In areas where a wide berm exists, road edges will be re-vegetated after outsloping with a native species seed mix selected by the District Environmental Scientists.	NOE

	existing, and no development of these areas has been proposed as part of this project. However, in order to ascertain the potential for environmental impact resulting from annexation of the Westside Annexation Area, a theoretical development potential has been assumed based on the existing conditions, rezoning, and a realistic probability of these parcels to be developed. The entirety of the new development potential of the Westside Annexation Area (44,000 sf of commercial land uses) is located on the 1.7-acre Parcel B.		
2014122051	Provision of Facilities for Bullis Charter School Los Altos School District Los Altos--Santa Clara The proposed project would provide school facilities, including the installation of several new portable structures at the Blach and Egan Campuses, to support and accommodate BCS' projected increase in the number of BCS students and associated faculty/staff. The District would allocate school facilities to BCS for the next four years based upon a projection of BCS enrollment beginning in the 2015-2016 school year and ending in the 2018-2019 school year. Because of the expansion of BCS on the Blach Campus, the District would relocate Stepping Stones Preschool (which operates on LASD property pursuant to a lease agreement) to the Covington Campus in an area designated for District (rather than school) use.	EIR	04/20/2015
2015032017	Amendments to Certification Procedures for Vapor Recovery Systems at Gasoline Dispensing Facilities Air Resources Board --Sacramento New standards, specifications, and associated certification procedures, for nozzles used at fueling facilities that are exempt from Phase II because they save fleets of vehicles equipped with ORVR systems. Provisions allowing for the continued use of existing pre-EVR Phase I systems on certain AST, based on annual gasoline throughput, population density, and regional ozone non-attainment classification. Administrative clarification of the existing application process for manufacturers seeking ARB certification for their vapor recovery equipment.	EIR	04/20/2015
2015032018	Fort Ross Vineyard Winery Production Facility (PLP14-0041) Sonoma County --Sonoma The project requests a Use Permit for a new 11,006 sf winery production facility to be located off Meyers Grade Road, adjacent to the existing on-site tasting room. The grapes for the wine would come from the site and local area. The winery production facility would have a maximum annual production capacity of up to 18,000 cases and would be approximately 11,000 sf, including 5,000 sf underground barrel cellars and 5,000 sf of enclosed building containing a crush pad, fermentation area, storage area, offices, laboratory, an employee break room, and handicapped toilet. The access stairs and mechanical room are proposed to be approximately 1,000 sf in size. The 5,000 sf underground barrel cellars would take advantage of the earth's natural insulation and rely on ambient earth temperatures to keep the barrel rooms naturally cool, thus saving energy. The project proposes solar panels on the south-facing roof of the building. The hours of operation would be 8:00 a.m. to 5:00 p.m., extending to 10:00 p.m. during the harvest and crush, seven days a week. The winery production facility would have four employees and only one new employee.	MND	04/06/2015

2015032020	San Mateo County Emergency Management and Motor Pool Relocation San Mateo County Redwood City--San Mateo The project includes the redevelopment of the Project Site 1 at 551 Winslow Street in Redwood City to accommodate the new Emergency Management Center, or EMC building. As part of this project component, the existing Motor Pool facility would be demolished onsite and relocated to the Corp Yard. The EMC will be defined as an Essential Services Facility (Essential Facility) per the California Building Code, and will be designed to maximize building operation after extreme environmental events such as earthquakes, flooding, wind, and storms. The EMC will contain a substantial infrastructure of telecommunication, information technology, electrical power, and building conditioning systems.	MND	04/06/2015
2015032021	Dollar General Colfax, City of Colfax--Placer The proposed project includes the construction of a 9,100 sf Dollar General retail store and associated parking (31 stalls), landscaping, lighting, signage, storm drainage, and other infrastructure on a Commercial-Retail zoned 1.2-acre lot in the City of Colfax, outside of City's historic district.	MND	04/06/2015
2015032025	Parcel Map 14-006 (Warminton) Shasta County --Shasta The request is for two-parcel residential subdivision. The applicant proposes to subdivide an 11.22-acre property into two 5.61-acre parcels. The property is developed with a single-family residence, mobile home, and pond. Each of the proposed parcels would contain one of the existing dwellings. The residential development potential of the property is currently maximized. The division would increase the development potential of the property by allowing for a second residence to be developed on each of the resulting parcels. The applicant does not propose to construct any residences as part of this project. The recommended conditions of approval for the project include minor access, driveway, and water system improvements, including construction necessary to bring a driveway encroachment.	MND	04/06/2015
2015032026	Jean Sweeney Open Space Park Alameda, City of Alameda--Alameda The project would construct a new 22-acre community park and open space in northern Alameda which would primarily support passive recreation, with some active recreation uses. The Park's Master Plan features six types of uses including walking and biking trails, natural open space, picnic areas, community garden, natural playgrounds, and open lawn areas. Active uses would generally be located towards the perimeter of the park, surrounding passive uses in the central area. The park would incorporate sustainable design and water management policies.	MND	04/06/2015
2015032028	Shasta Zipline Adventures / Use Permit 14-002 Shasta County --Shasta The objective of the Use Permit is to construct and operate a proprietary based, professionally guided zipline canopy tour and adventure course on five currently undeveloped parcels of land. 	Fenders Ferry Road will be developed with the zipline tour and adventure park. One parcel totaling 1.8 acres north of I-5 is proposed for the welcome center, guest parking, gear and vehicle storage.		
2014061073	Cambria Emergency Water Supply Project Cambria Community Services District Cambria--San Luis Obispo CCSD is proposing the Project in response to the CCSD Board of Directors' January 30, 2014 declaration of a Stage 3 Water Shortage Emergency in Cambria. The Project involves construction and operation of emergency water facilities at the CCSD's existing San Simeon well field and percolation pond system property. The Project proposes to construct and operate: one extraction well (existing Well 9P7); an Advanced Water Treatment Plant; an injection well to the groundwater basin at San Simeon well field; an evaporation pond (rehabilitate/modify an existing storage pond); three lagoon injection wells (LIWs), which would serve as mitigation to protect Van Gordon Creek, San Simeon Creek Lagoon; and four monitoring wells. As an option to the LIWs, the existing Well 9P7 discharge pipeline/structure may be utilized to discharge directly into Van Gordon Creek adjacent to the AWTP. The Project is needed to treat brackish water and fully recharge the San Simeon Creek coastal stream aquifers with advance treated water.	NOP	04/06/2015
2015031024	Ocotillo Wells SVRA General Plan - Recreation Area Management Plan - CDCA Land Use Plan Amendment Parks and Recreation, Department of --San Diego, Imperial Preparation of a General Plan/Recreation Area Management Plan and associated EIR to determine land use and resource management provisions.	NOP	04/06/2015
2015031026	Sierra Lakes Commerce Center Project Fontana, City of Fontana--San Bernardino The Project includes the construction and operation of approximately 597,818 net sf "high-cube" logistics warehouse use with associated offices. The Project would consist of a single building containing 597,818 sf of ground-floor logistics warehouse operations and supporting office spaces. There are four applications associated with the Project: (1) Tentative Parcel Map No. 14-000014; (2) Zone Change No. 14-000024 to add APN's 1119-221-19 and 119-221-41 (approximately 3.07 acres) within the Approved WDL0D of the Project site; (3) Conditional Use Permit No. 14-000034 to permit construction of a warehouse and set forth conditions and parameters; and (4) Design Review Panel No. 14-000024 to approve the site plan, site improvements, landscaping plans, and architectural elevations for the Project.	NOP	04/06/2015
2015031028	Leal Master Plan (Planning Application No. 14-0009) EIR Eastvale, City of Eastvale--Riverside The proposed Leal Master Plan allows for the development of commercial, office, hotel, civic, and residential uses on an approximately 160-acre site. The Master Plan does not include a map specifying the location of intended land uses, but rather includes a table of land uses that can occur at any location on the project site. The project includes a minimum of 500 dwelling units and possibly more. Non-residential uses can range from 1.3 million sf of retail space to a civic center, or hotel or 920,000 sf of office space. 2015031025	Water Acquisition Program West Kern Water Agency Taft, Maricopa--Kern The District proposes to acquire supplemental water supplies in an amount sufficient to increase the District's average deliveries of Table A amount on the date the Notice of Preparation was issued by 5,000 acre feet of "wet" water. If the source of such supplemental water supplies is from the SWP, a Table A amount of about 8,600 AF/y would currently be required, based on the current SWP average reliability of 58%. Such supplemental water supplies could require a larger SWP Table A contact amount be acquired if the SWP water allocation continues to decline below the current level of 58%, both to maintain the amount of "wet" water that would be received from the 8,600 AF/y of Table A amount currently proposed to be acquired at 5,000 AF/y, and to make up for a decline in average deliveries from the District's current Table A contract amount when the delivery percentage declines below 58%.	Neg	04/06/2015
2015031027	Moro Cojo Standard Subdivision Amendment Monterey County --Monterey The Moro Cojo Subdivision includes 175 single-family units and has been fully developed. Condition No. 99 of the project approval required, "That all the units in the Moro Cojo Inclusionary Housing Development Projects (File Nos. SH93001 and SH93002) be affordable to very low, low and moderate income households as defined in Section 50093 of the California Health and Safety Code." The affordability requirement is a permanent deed restriction. 161 of the 175 owners of the single-family units in the Moro Cojo Standard Subdivision have applied to amend Condition No. 99 to change the term of affordability requirement for their units, from being permanent to a 15-year term. Under the proposal, the fifteen years would be counted from the date of the first deed of conveyance from the developer to the original owner of the unit.	Neg	04/06/2015
2015032019	Tahoe National Forest Gold Valley Connector Trail Project Parks and Recreation, Department of --Sierra The OHMVR proposes to award grant funds to the Tahoe National Forest, Yuba River Ranger District for construction of an approximately 1.8 mile motorized (motorcycle) and multiple-use (hike, mountain bike) single-track trail (24"-30" in width). The trail will utilize a self-draining sustainable design and will connect the ridge above Deer Lake, near the Sierra Buttes, to the beginning of the Gold Valley OHV Trail (north of Packer Saddle). All work will be done using hand labor and tools.	Neg	04/06/2015
2015032022	Use Permit Amendment 01-033C (Wheelabrator Shasta Energy, Iric.) Shasta County Anderson--Shasta Wheelabrator Shasta Energy, Inc. has requested approval of an amendment to their existing Use Permit (UP01-033B) for their Biomass Energy Plant in order to modify the currently permitted dimensions of two wood waste fuel storage piles. In addition, the plant manager is proposing to move an existing water berm on the east side of the East fuel pile 100 to 150 feet further east, away from the piles, in order to reduce the degradation of the fuel due to contact with water collected on site during rain events and to minimize odors generated from the fuel piles. No increase in current energy production at the power plant is being proposed.	Neg	04/06/2015

2015032023	Solano County Housing Element and Public Health and Safety Chapter Solano County --Solano The Draft Solano County Housing Element update is designed to address the projected housing needs of current and future county residents and comply with state law requiring amendment of the Housing Element (Section 65580-65589.8 of the Government Code). The purpose of the Housing Element is to establish a comprehensive plan to address housing needs in the unincorporated area of Solano County, with a focus on meeting the housing needs of all economic segments of the community, including low- and moderate-income households who may have trouble affording market-rate housing and populations with special housing needs that may not necessarily be met through conventional housing products. The Housing Element identifies the policies and programs which the County will implement to ensure that housing in Solano County is affordable, safe, and decent. The Housing Element Update is intended to address the County's housing needs from January 31, 2015, through January 31, 2023. This planning period was established for Solano County and other Bay Area jurisdictions by state law. The updates to the Public Health and Safety Chapter are primarily intended to bring the Chapter into compliance with various sections of the California Government Code, Public Resource Code and Health and Safety Code, relative to floodplain mapping updates and fire hazard and responsibility area mapping updates.	Neg	04/06/2015
2015032024	Housing Element Update - 2015-2023 Pacifica, City of Pacifica--San Mateo The City of Pacifica has prepared and intends to adopt a Neg Dec that determines the update of the Housing Element of the General Plan, also known as General Plan Amendment GPA-90-15, will not have any significant effects on the environment. Last revised in 2012, the Project covers the 2015-2023 planning period. Project location is citywide. Project contains an analysis of Pacifica's housing needs, constraints, and opportunities. It also contains goals, policies, and programs for housing and action programs which detail actions to be taken by the City. Housing sites identified therein do not represent specific proposals for new housing development; they are only sites where housing can be developed.	Neg	04/06/2015
2015032027	La Quinta Inn Watsonville, City of Watsonville--Santa Cruz The project consists of the construction of a 4 story 74,106 sf hotel on a 21,736 sf parcel in the Thoroughfare Commercial zone district including a Special Use Permit and modification with Design Review and Variance. The project includes a variance to the 35 foot maximum height limit. The project also includes a Use Permit for a building over 35 feet in height and the service of alcohol in the facilities restaurant. The project will involve the removal of a National Motel 9.	Neg	04/06/2015
2000112061	University Palms Project East Palo Alto, City of East Palo Alto--Santa Clara Architectural approval to permit minor architectural changes for the previously approved University Plaza office and retail development consisting of 208,124 square feet. The project includes two buildings fronting Donahoe Street. The University building is located on Donahoe, between University and Capitol Avenues and the Palm building is located on Donahoe, between Capitol and	NOD

	Cooley Avenues. A two-level sky bridge connects the two buildings located on the second and third floors. A public plaza is located at ground level between the two buildings.		
2013101071	Wright Solar Park Conditional Use Permit Application CUP 12-017 Merced County --Merced To construct a 200 megawatt solar photovoltaic electric generation facility on thirteen parcels totaling 2,733 acres of agricultural land.	NOD	
2014041048	Old County Road Bridge Replacement Project Santa Cruz County --Santa Cruz The project is limited to the replacement of an existing 96-foot long by 20-foot wide bridge with a 100-foot long by 25-foot wide bridge. The new bridge will be a single span concrete-reinforced box girder bridge. The bridge will be supported by reinforced concrete diaphragm type abutments founded on cast-in-drilled-hole concrete piling. The existing roadway approaches to the bridge between 14 to 22 feet in width. The roadway approach on both sides of the bridge will be widened to approximately 25 feet wide. On the south side of the bridge footprint, a retaining wall will be constructed up to 50 feet in length with 12 to 16 feet of exposed vertical height. The retaining wall will be a standard soldier pile wall with a minimum of 18-inch diameter cast-in-drilled-hole concrete piling. On the north side of the bridge footprint, a retaining wall with approximately the same description as that to be installed on the north side will be constructed. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2014-0162-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Todd Sexauer, Santa Cruz County Department of Public Works.	NOD	
2014062049	SASD Creek Protection Project Phase II Sacramento Area Sewer District Citrus Heights--Sacramento The project will allow Sunrise Recreation and Park District (SRPD) to convey to the Sacramento Area Sewer District (SASD) property rights required for SASD's Creek Protection Project Phase II, for property located within Stock Ranch Preserve in Citrus Heights. SASD requires an Easement for Sewer and a Temporary Construction Easement. SASD will begin construction in spring 2015 to repair or modify several sewer pipes that cross local waterways at two specific locations within the Stock Ranch Preserve.	NOD	
2014062049	SASD Creek Protection Project Phase II Sacramento Area Sewer District Citrus Heights--Sacramento The Sacramento Area Sewer District (SASD) evaluated 41 sewer creek crossings to determine if maintenance is required to prevent accidental sewage discharge into local waterways. All sites were ranked based on accidental discharge potential. Five sites were considered priority and were repaired or rerouted as part of the Creek Protection Project Five Priority Sites construction process. This project analyzes the next set of prioritized creek crossings which will be repaired in 2014 and 2015. These five sites require a variety of maintenance activities and are described in detail below. Common with all site repairs is the hydroseeding of disturbed areas and appropriate erosion control measures within the creek channel.	NOD

2014101022	Arroyo Seco Canyon Project Pasadena, City of Pasadena--Los Angeles The Project involves three areas of improvements along the upper Arroyo Seco. Area 1 includes demolition of the damaged existing headworks structure and creation of habitat restoration and a rest area/picnic area; Area 2 includes removal of the damaged existing intake structure and construction of a new diversion and wier structure and improvements to the Gabrielino Trail/access road; Area 3 includes creation of a parking lot for recreational users, reconfiguration and expansion of existing spreading basins, restrooms, and a guard house. The new intake would divert additional water during high-flows into the spreading basins for groundwater replenishment.	NOD	
2014112056	Delta Emergency Rock and Transfer Facilities Project Refinements Water Resources, Department of Rio Vista--Solano The original project was approved by the Council on 3/27/2014 as a Responsible Agency per Water Code 83002(a) (1). Proposed project refinements at the Stockton West Weber site and the Rio Vista site include site clearing, additional insignificant construction work, site grubbing, removal and installation of in-water piles, placement of rip-rap, and removal of organic material as necessary during project construction. No project refinements are proposed for the Brannan-Andrus site. Based on materials provided by DWR, Council staff has determined that the project refinements are within the scope of the original approved project.	NOD	
2014112060	Vesting Tentative Subdivision Map 2014-04 - Fairbanks Ranch Turlock, City of --Stanislaus The project sponsor proposes to subdivide approximately 40.6 acres into 129 single-family residential lots and one approximately 2.33 acre storm drainage basin within the East Tuolumne Master Plan (ETMP) Area. The project will be developed in accordance with the standards established for the R-L (ETMP) zoning district and will include public improvements consistent with the East Tuolumne Master Plan. The City of Turlock is the provider for potable water, sanitary sewer and storm drainage. Typical lot sizes range from approximately 7,855 square feet to 17,030 square feet.	NOD	
2014112061	Vesting Tentative Subdivision Map 2014-03 - Les Chateaux Turlock, City of Turlock--Stanislaus The project sponsor proposes to subdivide approximately 19.7 acres into 60 single-family residential lots and one approximately 1.22 acre storm drainage basin within the East Tuolumne Master Plan (ETMP) Area. The project will be developed generally in accordance with the standards established for the R-L (ETMP) zoning district consistent with the property's Low Density Residential General Plan land use designation. Typical lot sizes range from approximately 7,103 square feet to 21,196 square feet.	NOD	
2015038029	Willits Emergency Water Line Replacement Well Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Willits--Mendocino Project propose to establish a new replacement well and 21.75 feet of new 6 inch piping to replace the existing "Elias Well", which is used as an emergency source of domestic water. 2012041006	Upland General Plan Update Upland, City of Upland--San Bernardino Note: Extended review per lead	EIR	06/25/2015
	The Project is comprised of four primary components: the General Plan Update (GPU 08-03); Zoning Code Update (ZCU 08-03); Climate Action Plan; and Cable Airport Land Use Compatibility Plan Update.		
2014042032	Sacramento Commons (P14-012) Sacramento, City of Sacramento--Sacramento The proposed project provides for two development options (or scenarios). The Hotel / Condo / Retail Scenario would construct a 300-room hotel, up to 1,171 new dwelling units (increasing the total within project site to 1,374), and up to 70,000 sf of neighborhood support/retail space. The Condo / Retail Scenario would construct up to 1,267 new dwelling units (increasing the total within the project site to 1,470) and up to 52,000 sf of neighborhood support/retail space. Both scenarios would remove 206 existing garden apartments and retain the existing Capitol Towers building (which contains 203 apartments). The project site is approximately 10.13 net acres in land area.	EIR	04/22/2015
2015031029	Avenue 116 Canal Expansion Project Pixley Irrigation District --Tulare The Project will provide surface water to farmland from Avenue 116 Canal in order to alleviate overdraft of groundwater. The proposed project objectives are to construct three underground pipelines to connect over 800 acres of farmland currently not being served with surface water from the Avenue 116 Canal within the Pixley Irrigation District. The project will obtain easements as the pipeline will cross county roads and right of ways, and will construct turnouts in Avenue 116 Canal at Road 152 and Road 140, as well as install 1 mile of pipeline heading south along Road 152 and 1 mile of pipeline heading south along Road 140. In addition, a lateral pipeline will head east to west from Road 152 at Avenue 108 and will terminate into the proposed recharge basin. The recharge basin will ensure excess water will be returned to groundwater. The pipelines are estimated to range in size from 18" to 36" and the capacity will be 4 cubic feet per second with smaller pipeline outlets with on/off valves and water meters.	MND	04/07/2015
2015031030	Deer Creek Channel Clearing and Maintenance Project Pixley Irrigation District --Tulare The proposed project objectives are to maintain the Deer Creek Channel as an effective conveyance of irrigation water. This will require periodic maintenance of existing structures as well as the beds and banks of the channel. Specific maintenance projects for the study have not yet been identified at this time, however the proposed maintenance activities expected to be covered under the SAA include repair and maintenance of approximately 70 features (bridges, dams, pipes, weirs, and/or turnouts) at approximately 22 locations within the bed and	MND	04/07/2015

	bank of the Deer Creek Channel or turnout channel immediately adjacent to the creek. Activities would occur both above and below ordinary high water. Other maintenance activities could include the control of vegetation within the Deer Creek Channel and the removal of accumulated sediment at selected features within the channel.		
2015031033	Coastal Planned Development Permit No. PL12-0145 Ventura County --Ventura The applicant requests approval of a Coastal Planned Development Permit to authorize the following APN 701-0-010-145: Construction of a 2,500 sf two story, single-family residence with an attached 765 sf garage on an existing pad.	MND	04/07/2015
2015031036	General Plan Amendment No. 133 and Trojan Groves (APR No. 120, ZC No. 422, CUP No. 1028, TT 18988) Redlands, City of Redlands--San Bernardino The project includes a General Plan Amendment to amend Section 5.0 (Circulation Element) of the Redlands General Plan by adding a new roadway cross-section (Figure 1) for a residential collector street for a portion of Pioneer Avenue, west of Orange Street and east of the 210 Freeway. The General Plan Amendment is necessary to facilitate the widening of Pioneer Avenue to preserve existing deodar cedar trees, which presently line the north side of Pioneer Avenue, by maintaining them in a median in the segment between Texas Street and Furlow Drive. Traffic congestion in the A.M. and afterschool P.M. peak hour, due in part to an increase in school-related traffic during these hours, further promotes the necessity to increase capacity of Pioneer Avenue and provide for increased vehicle traffic in the area.	MND	04/07/2015
2015031034	Midtown Specific Plan Long Beach, City of Long Beach--Los Angeles The proposed project provides a framework for the development and improvement of three areas; the Midtown Specific Plan area and two Conventional Zoning areas. The Specific Plan area would designate four land use districts: Transit Node; Corridor; Medical; and Open Space; and would increase the number of permitted residential units within the Specific Plan area to just over 3,600 units and the commercial/employment building square.	NOP	04/07/2015
2015031035	2016-2040 Regional Transportation Plan/Sustainable Communities Strategy Southern California Association of Governments Los Angeles, City of--Los Angeles The 2016 RTP/SCS updates the last adopted 2012 RTP/SCS, last amended in Sept. 2014, by refining goals, objectives, and policies and list of projects, and extending the planning horizon to 2040. As with the 2012 RTP/SCS, the 2016 RTP/SCS is intended to continue the region's various strategies that improve the balance between land use and transportation and transit systems, both current and future.	NOP	04/07/2015

2015038032	<p>Shively Road SFB Forestry and Fire Protection, Department of --Humboldt</p> <p>This project involves the construction of a 48 acre Shaded Fuel Break approx. 4 miles long within 50 feet on each side of the Shively Road prism. This project will allow crews to utilize hand tools, weed eaters, chainsaws, and chippers to reduce hazardous fuels with a combination of treatments. Treatments may include; weed whacking, brush removal, limb removal, chipping, lop and scatter, and the removal of small trees. The project will provide approx. 46 homes with increased fire protection and provide residents and fire protection equipment safe egress and ingress along the roadway that connects the rural community of Shively to the 101 corridor. the project area is made up of various brush species as well as several tree species which includes redwood, Douglas-fir, white fir, alder, and tanoak. Debris should not be higher than eighteen inches. The remaining trees should be spaced at a target of fourteen by fourteen foot spacing. The maximum tree diameter for removal is 8 inches. Remaining trees will be limbed to reduce ladder fuels. These fuel management activities will reduce the volume of flammable vegetation allowing the community safer access in the event of wildfire. Hazardous fuel loading and road side starts will be reduced. Site disturbance will be limited to minor modification and removal of low vegetation.</p>	NOE	
2015038033	<p>PRPD Coutolenc Park Fuels Management Forestry and Fire Protection, Department of --Butte</p> <p>Paradise Recreation and Parks District Coutolenc Park Fuels Management is a two part fuels reduction project that will utilize hand crews to create and maintain a fuel break located north of Magalia, California that was originally a wildland fire contingency line built during the 2008 Butte fire siege. The project will be 200 feet in width and approx. 6200 feet in length. The vegetation is mixed conifer forest and the topography is relatively gentle and flat with small finger drainages having side slopes of up to 40%. The project will consist of cutting, piling, and burning small trees and brush in an area 100 feet wide on each side of the fire contingency line created in 2008. The area will remain fully stocked with timber following the project activities. This portion of the project will cover 30 acres. The second part of the project will consist of eight acres consisting of a series of small and individually selected less than one quarter acre pockets immediately adjacent to the proposed 30 acre fuel break in portion which selected trees less than 11 inches dbh, dead and dying trees less than 12 inches dbh, and heavy concentrations of brush will be cut, piled and burned. Total project area is 38 acres. this area will be maintained using similar treatments approx. every 5 to 10 years.</p>	NOE	
2015038034	<p>Saratoga Summit Leach Field Test Pits Project Forestry and Fire Protection, Department of --Santa Cruz</p> <p>This project will consists of a septic leach field soil in investigation on property adjacent to Cal Fire Saratoga Summit Forest Fire Station on land owned by the Midpeninsual Regional Open Space District. The work will include digging one trench with a backhoe with approximate dimensions of 24 inches wide by 10 feet long by 8 feet deep. This ditch will be roughly 692 feet from the Saratoga Summit Fire Station. The trench will be back filled with the same day it is created and the area restored to its original condition as much as possible. No trees will be removed for the excavation. The project is planned to take place during the winter</p>	NOE

	or spring of 2016, weather permitting.		
2015038035	Riverside Park SFB Forestry and Fire Protection, Department of --Humboldt Construct a shaded fuel break for approx. 1500 feet along Riverside Park Drive and an additional 3300 feet flanking the northern and western most boundaries of Riverside Estates Subdivision. This project is 11 acres and will allow crews to utilize hand tools, weed eaters, chainsaws, and chippers, to reduce hazardous fuels with a combination of treatments. Treatments may include weed whacking, brush removal, chipping, lop and scatter, and the removal of small trees within 50 feet of the road edge and within 100 feet of the property boundaries known as Riverside Estates Subdivision. The project will provide approximately 63 homes in the rural residential community with increased fire protection and provide safe egress and ingress of the frequently used road. Hazardous fuel loading and road side starts will be reduced. The project area is made up of various brush species as well as several tree species which include redwood, Douglas-fir, white fur, alder, and tanoak. Debris should not be higher than eighteen inches. The remaining trees should be spaced at a target of fourteen by fourteen foot spacing. the maximum tree diameter for removal is 8 inches. The remaining trees will be limbed to reduce ladder fuels. These fuel management activities will reduce the volume of flammable vegetation allowing the community safer access in the event of wildfire. Site disturbance will be limited to minor modification and removal of vegetation.	NOE	
2015038036	Leasing of New Space Consumer Affairs, Department of San Bernardino--San Bernardino Department of Consumer Affairs, Contractor's State License Board proposes to lease approximately 1,270 square feet of office space. The office will hold approximately 5 employees performing general office duties.	NOE	
2015038037	Lower Franklin No. 2 Dam, No. 6-52 Water Resources, Department of Beverly Hills--Los Angeles The proposed work includes the replacement of the existing flexible membrane floating cover, improvement of the outlet piping and control system, modifications to the inlet spillway, and replacement of the AC liner.	NOE	
2015038038	Building a Climate Change Resilient Electricity System University of California, Irvine Irvine--Orange The proposed project is a paper study to determine climate change impacts for the electricity system and the steps necessary for building resilience against these impacts.	NOE

	discovered will be transported to the Naval Air Facility (NAF) Bombing Range in El Centro, California where they will be treated by open denotation. Both transport and open detonation will be done following military protocols.		
2015038040	Temporary Emergency Permit to Transfer Hazardous Waste from Tanker Truck to Container Toxic Substances Control, Department of Dixon--Solano A temporary emergency Hazardous Waste Permit (Permit) has been granted to DK (Dixon) to transfer hazardous waste from a tanker truck into another container. The permit allows for approximately 588 gallons of used antifreeze to be transferred from a tanker truck to a container. The tanker is currently parked at DK Dixon located at 7300 Chevron Way, in Dixon, CA. Upon arrival to the DK Dixon facility, the antifreeze was tested and found to have a flash point of less than 100 degrees Fahrenheit. This classifies the waste as ignitable under the Resource Conservation and Recovery Act (RCRA). DK Dixon does not have a permit to manage RCRA hazardous waste and the tanker truck does not meet the specifications that would allow it to transport ignitable hazardous waste. Once the hazardous waste is transferred to an appropriate container, it will be transported offsite for proper disposal.	NOE	
2015038041	Emergency Permit for Treatment of Hazardous Waste, Mentor Worldwide Toxic Substances Control, Department of Santa Barbara--Santa Barbara Department of Toxic Substances Control (DTSC) has issued an emergency permit to Mentor Worldwide to treat hazardous waste by chemical stabilization. It has been determined that the items are or may be highly reactive and must be stabilized prior to being transported offsite. The chemicals are expired and are currently being stored inside a storage area at the Mentor Worldwide facility located at 201 Mentor Drive, Santa Barbara, CA 93111.	NOE	
2015038042	Hazard Tree Removal Tahoe Conservancy --El Dorado, Placer This project involves the trimming and removal of dead, dying, diseased, insect infested and suppressed trees near structures and contains a secondary benefit of reducing forest fuels for forestry and fire hazard reduction purposes.	NOE	
2015038043	Snow Creek Bird Survey Tahoe Conservancy --Placer Execution of license agreement with Tahoe Expedition Academy for the purpose of performing a bird survey for educational purposes.	NOE	
2015038050	Issuance of Streambed Alteration Agreement No. R1-14-0191, Sidehill Viaduct Bridge Replacement Project Fish & Wildlife #1 --Shasta The project will involve replacing the Sidehill Viaduct Bridge at post mile 29.7 on Interstate 5 with a new bridge and realigning adjoining portions of the highway. As part of the road realignment work approximately 300 feet of an unnamed intermittent stream channel will be filled and moved 13 feet to the west from current location and placed into a corrugated steel pipe 48 inches in diameter and 270 feet long.	NOE

2015038051	Issuance of Streambed Alteration Agreement No. R1-14-0323, McCwandless Gulch Safety Improvement Project Shasta County Fish & Wildlife #1 Redding--Shasta The project proposes to realign and widen the roadway, adjust the road curvature, improve and enlarge drainage facilities, improve fish passage through the McCandless Gulch culvert, and add new pavement.	NOE	
2015038052	Sonic Net Fountaingrove Park Project (1407-SEBHWY116) Public Utilities Commission Santa Rosa--Sonoma Sonic Net installs fiber optic cable to provide customers with high-speed internet service.	NOE	
2015038059	Issuance of Streambed Alteration Agreement No. 1600-2014-0291-R1, Greer-Cornaz Ditch Fish & Wildlife #1 --Shasta The project is limited to maintenance and bank stabilization activities within the channel of Burney Creek to prevent the ditch and levee adjacent to the stream channel from breaching, being undercut, or otherwise failing. Currently, the narrow bank that separates the diversion ditch from the stream channel is experiencing bank failure and without preventative maintenance, future high flows will erode the bank and cause permanent damage to the ditch. As the diversion headworks currently exist, there is a concrete dam that spans the stream channel and backs water up to enter through a headgate into the ditch on the east bank. The ditch parallels the stream for approximately 100 yards before heading east to irrigate land north of Highway 299.	NOE	
2015038153	Resort at Squaw Creek Placer County Olympic Valley--Placer A Minor Boundary Line Adjustment on Assessor Parcel Numbers 096-060-000 and 096-290-067-000; 096-290-068-000; 096-290-069-000; 096-060-069-000 and 096-290-067-000 to reconfigure the subject parcels.	NOE	
2015038154	Pallari Placer County --Placer A Variance to allow for a reduced front setback for a ground-mount solar array. The request for the setback is seven feet from the edge of the easement along Aspen Drive in a Zone District where fifty feet to edge of the easement is required.	NOE

2015038156	CP7485/WO313910 - 8-Inch Waterline Replacement in La Senda Road, West of Sapphire Street Cucamonga Valley Water District Rancho Cucamonga--San Bernardino The Water District is replacing the 6-inch existing water main that has experienced repeated leaks and necessary repairs. The pipeline was installed in 1979 and has reached its useful life. The Work includes installing a new 8-inch CML&W waterline, new services with new meters and meter boxes, reconnection to the existing residential homes to the new services, and abandoning the existing 6-inch water main in place. The goal of this project is to provide continuous water service to the local residence and reduce the District's water crews annual maintenance costs.	NOE

2015038160	Local Hazard Mitigation Plan - Bennett Valley Ground Fault Mapping Sonoma County Water Agency Santa Rosa--Sonoma The Sonoma County Water Agency's Local Hazard Mitigation Plan Update (approved by the Board of Directors on Dec. 11, 2012) identified the Sonoma Booster Station as critical and essential for water supply. It was also identified as the most vulnerable to seismic hazards because it is situated within the fault deformation zone of the Spring Valley segment of the Bennett Valley fault. The proposed project consists of an investigation of the fault area to determine the extent of the Spring Valley segment within the Sonoma Booster Station site. Proposed activities would include excavation of an exploratory trench approx. 3 feet wide, seventeen feet deep and 200 feet long. Excavated material would be temporarily stored on site until the investigation work is complete then it would be backfilled and the site would be restored to its original condition. All project work and staging area would be conducted within the Water Agency's existing Sonoma Booster Station facility which is in developed and previously disturbed areas.	NOE

2013051061	Oxford Retention Basin Multiuse Enhancement Project Los Angeles County --Los Angeles The current discretionary action for the Oxford Basin Multiuse Enhancement Project, approved by the Los Angeles County Board of Supervisors, the governing body of the Los Angeles County Flood Control District, on March 10, 2015, includes approval of plans and specifications; advertising the project for construction bids; delegate authority to award a construction contract for the project; and adopt a resolution to authorize a grand funding agreement with the California Department of Water Resources. The project was previously approved by the Board of Supervisors on December 3, 2013 and a Notice of Determination was filed on that date. The current discretionary approvals are included in the scope of impacts analyzed in the previously adopted MND. The proposed project consists of improvements to flood control infrastructure, water quality, wildlife habitat, aesthetics, and recreational opportunities at Oxford Retention Basin. The project includes, but is not limited to replacing existing tide gates; excavating accumulated sediment from the bottom of the basin; removing contaminated soils along the basin perimeter and replacing it with clean imported fill; removing and replacing existing fencing; retrofit existing catch basins; constructing a new 2-foot high concrete parapet wall along the basin's northern and western rim, a new vegetated circulation berm, bio-retention systems, maintenance access ramps, observation areas, a walk/jog path with wildlife-friendly lighting, benches, trash receptacles, and interpretive signage around the perimeter of the basin; removing and replacing existing vegetation, including removal of approximately 650 trees and replacement with over 650 trees. 2015032029	Use Permit Application No. PLN2015-0012 - Top Notch Kennel - Pee Wee Cottage Stanislaus County Modesto--Stanislaus Request to establish a dog kennel facility in a converted 1,680 sf residential dwelling on a .33 acre parcel. The proposed kennel will board a maximum of 33 small dogs weighing up to 20 pounds in size. Existing greenspace in the side and rear yard will accommodate exercise space for the dogs. The dogs will be cared for by the property owner and staff with a maximum of three employees. Staff arrives at 6:00 a.m. and leaves at 9:00 p.m. with the dogs staying overnight. The proposal also involves an associated lot line adjustment application to add .4 acres to the existing parcel.	CON	03/27/2015
2014062045	Yuba Goldfields 200-Year Flood Protection Project Three Rivers Levee Improvement Authority Marysville--Yuba To reduce the flood risk to properties within the RD 784 service area, Three Rivers Levee Improvement Authority is proposing to either construct an embankment within the Yuba Goldfields or construct a levee just south of the Yuba Goldfields that would prevent Yuba River flood flows during a 200-year flood event from flowing through the Yuba Goldfields and flanking the State Plan of Flood Control. Four action alternative and a No-Project Alternative are evaluated at an equal level of detail in the EIR. Three alternatives involve constructing an embankment using dredge tailings within the Yuba Goldfields. The fourth alternative involves constructing an engineered levee south of the Yuba Goldfields.	EIR	04/24/2015
2015031041	Riverdale Main Sewer Lift Station Replacement Riverdale Public Utility District --Fresno The Riverdale Public Utility District provides domestic water, sewer service, solid waste collection, fire protection and street lighting to the community of Riverdale. The District proposes to install a new Main Sewer Lift Station in place of the existing 50 year old lift station. The new lift station will be placed approximately 90 feet northwest of the existing lift station, and will connect to the existing force main that transfers the entire city's sewage to the local wastewater plant. The construction process shall consist of building the new lift station in concurrence with demolishing the existing one without inhibiting the flow of the sewer system.	MND	04/09/2015
2015031042	Camelot San Diego, City of San Diego--San Diego The project proposes to construct a residential development on an undeveloped parcel in the community of Rancho Penasquitos in the northern area of the city of San Diego. Total property acreage is 67 acres of which 18 acres will be developed. Development will be confined to the north-central portion of the property on the basically flat ridge top. The remaining 49 acres will be Multi-Habitat Planning Area (MHPA) Open Space and will not be developed except for a utility line that extends from the southern end of the residential development to a proposed utilities line in La Jolla Valley. 	new CHP area office and emergency dispatch center, which would replace the existing CHP facility located on Fir Street in Chico. The new CHP facility would be situated on 5.8 acres and would include three single-story buildings totaling approximately 40,000 sf in area. A vehicle fueling station would also be installed, as would a 140-foot telecommunications tower specifically for CHP use. Other site improvements include parking areas drive aisles, sidewalks, equipment yards, and landscaping.		
2015038063	Amendment No. 2 to Lease with Maritime Museum Association of San Diego San Diego Unified Port District San Diego--San Diego The proposed project is Amendment No. 2 to the lease with the Maritime Museum Association of San Diego (Maritime Museum). The Maritime Museum operates a floating maritime history museum at 1492 North Harbor Drive in San Diego. The Maritime Museum has a 40-year lease with the District, which expires in June 2044. The lease provides for periodic rent reviews and as such, the District is proposing to establish new rent through June 30, 2024, and add two new percentage rental rate categories to the lease. The two new percentage rental rate categories are: 1) 10% of gross income from any "unrelated business income" allowed under the lease, and 2) 50% of gross income from telecommunication uses. No new development, construction, or increase in the size of the property is proposed or authorized at this time.	NOE	
2015038064	Harbor Police Headquarters Patrol Building Replacement San Diego Unified Port District San Diego--San Diego The proposed project is the replacement of an existing trailer/modular building at the San Diego Harbor Police Headquarters complex. The building is utilized by Harbor Police staff, including Patrol Officers, Canine Officers, and Supervising Sergeants. The existing building is approximately 1,440 square feet (sf) and consists of four on-grade trailer-type structures. The proposed building is approximately 2,160 sf. The project also includes removal of an existing approximately 128 sf storage shed, which is located adjacent to the building. The existing trailer structure is leased by the District and will be removed by the lessor upon request by the District. Disassembly and removal of the existing modular building is anticipated to take approximately three days.	NOE	
2015038065	MP 169.40 LR and 170.42 L and R AT&T Fiber Optic Cable Trenching Water Resources, Department of Kettleman--Kings AT&T will place a fiber optic cable through an existing conduit. To locate the existing conduit, 36-42" deep trenches will be dug in two 6 foot by 6 foot areas on of the Aqueduct at Quail Avenue, and 30th Avenue. After installation of the cable, the areas will be backfilled and compacted.	NOE	
2015038066	7th Annual International Yellowtail Derby San Diego Unified Port District San Diego--San Diego The proposed project is the 7th Annual International Yellowtail Derby, which will take place within the San Diego Bay from May 2, 2015 through June 7, 2015. The District will provide sponsorship in form of District funding for the event, a fishing tournament. The event features a fishing tournament reminiscent of San Diego's famous Yellowtail Derby of the 50s and 60s. The event will kick off with an Angler's Derby Launch Party on April 29, 2015 at the Bali Hai Restaurant. The event will	NOE

2014061039	Renewable Energy General Plan Amendment Inyo County --Inyo Note: Extended Review	FIN	
	<p>The County is proposing to amend its General Plan to include policies for solar energy development within the County. The proposed Renewable Energy General Plan Amendment (REGPA) involves identifying new and modified General Plan goals, policies, and implementation measures, including provisions for actual sites identified in the County that may be appropriate for renewable energy development (SEDAs). The overall purpose of the proposed project is to regulate and constrain the type, siting, and size of future renewable energy (solar) development within the County through adoption of land use policies that are consistent with and meet the broader goals and visions for the County as expressed in the Inyo County General Plan.</p>		
2015031045	Application of Copper-Based Algaecides at Five Reservoirs in San Diego County San Diego County Water Authority --San Diego	MND	04/10/2015
	<p>The project consists of the occasional application of copper-based algaecides at 5 reservoirs to control and prevent degradation of water quality resulting from algae blooms. The subject reservoirs and the public water agencies that own and operate them are Olivenhain Reservoir (San Diego County Water Authority), Lake Jennings (Helix Water District), Lake Poway, San Dieguito Reservoir, and Sweetwater Reservoir. Copper-based algaecide application is authorized by the SWRCB under a statewide General Permit, Water Quality Order No. 2013-0002-DWQ (as amended by Order No. 2014-0078-DWQ).</p>		
2015032034	Markleeville Creek Floodplain Restoration Project Alpine County --Alpine	MND	04/10/2015
	<p>The Markleeville Creek Floodplain Restoration Project is intended to re-establish the natural form and function of Markleeville Creek at the site of the former United States Forest Service Markleeville Guard Station. The Project will re-create the streamside habitat by removing the floodwalls and artificial fill material, and re-vegetating all disturbed areas. In addition to addressing the environmental restoration needs of this site, the Project will also provide various community benefits including utility improvements and public access for recreation such as walking paths, interpretive signage, picnicking and parking.</p>		
2015032036	Lagunitas Creek Bridge Caltrans #4 --Marin Note: Extended Review per lead	MND	06/19/2015
	<p>Caltrans proposes to replace the current bridge crossing Lagunitas Creek with a new bridge. The current bridge will be removed and a the new bridge will be built in the same location. The new bridge design will be one of four design alternatives a 3-span steel trussel bridge, a 1-span steel trussel bridge, a concrete girder bridge, or a suspension bridge. The new bridge designs will not increase the current traffic capacity of SR 1 in this location. A cofferdam will be used to divert water within the creek for work being done in the creekchannel. A temporary bridge detoure route is being proposed for traffic management during construction. This temporary bridge will either be a 2-span bridge or a 3-span bridge.</p>

2015032037	<p>Calcine Roads Remediation Project Santa Clara County San Jose--Santa Clara</p> <p>The project would remove calcine pavements historically used as surface cover on trails, service roads (for purposes of this document, roads and trails shall be used interchangeably) and the access road to the San Francisco Open Cut in Almaden Quicksilver County Park that are identified as containing calcine pavements. The calcine paved roads and trails are largely concentrated around Mine Hill and include much of the Randol Trail, Castillero Trail, Yellow Kid Trail, April Trail, San Cristobal Mine Trail and portions of the Mine Hill Trail between the Hacienda park entrance and Bull Run, as well as a water service road and two unknown trails. These seven trails and three unnamed features make up the project area. The project would include removal of calcine pavements and replacement of removed material with clean soil; regrading of the trails; repair of inboard drainage ditches; stabilization of existing slumps and over steepened road edges; and revegetation and hydroseeding of disturbed areas. The project would also construct runoff collection swales along trails, and replace aging culverts to control erosion. The project would have a beneficial impact to the environment. Long term effects from removing calcine materials and repairing trails/roads to reduce and prevent erosion would be beneficial to the environment and water quality. Removal and disposal of mercury bearing calcine pavements would reduce mercury laden sediment that may be transported into the Guadalupe river watershed.</p>	MND	04/10/2015
2015032038	<p>Fremont Boulevard Widening (City of Fremont File Number: PWC8661) Fremont, City of Fremont--Alameda</p> <p>The proposed Fremont Boulevard Widening Project includes the widening of the western side of Fremont Boulevard, between Landing Parkway and West Warren Avenue, and the addition of a raised concrete median island between Cushing Parkway and Landing Parkway. The project will include construction of sidewalk on the overpass spanning Alameda County Flood Control District Line F and the extension of a private drainage channel culvert by 25 feet.</p>	MND	04/10/2015
2015031044	<p>Watermark Specific Plan Del Mar, City of Del Mar--San Diego</p> <p>Note: Refer to NOP submitted on April 1, 2015.</p> <p>The proposed project would be a multifamily residential development consisting of 12 structures that would feature 48 residential units, with a proposed density of 20.24 units per acre. The residential units proposed would consist of a mix of studio, one-bedroom, two-bedroom, and three-bedroom units. The unit mix provides for a variety of options for residents with varying income levels. The proposed project would also include a recreation room, a pool and a spa area for the use of residents and associated maintenance and administrative amenities. The proposed project would provide a secure 105 stall parking structure on the 2.37 acre site. The proposed project includes a vehicular access point from San Dieguito Road to the secured parking structure.</p>	NOP

2015031046	Tenth Avenue Marine Terminal (TAMT) Redevelopment Plan San Diego Unified Port District San Diego--San Diego The project is a long-range Redevelopment Plan and near-term project improvements to accommodate anticipated economic activity at the Tenth Avenue Marine Terminal. The development concepts and infrastructure improvements identified in the Redevelopment Plan would result in a maximum practical capacity (MPC) at TAMT in 2035 between 5 million and 5.5 million metric tons annually. The near-term, project level component of the plan would demolish two obsolete/under utilized transit sheds and would improve rail operations by installing a rail lubricator and compressed air system on the existing track. The near-term project level improvements are anticipate to occur in 2016 (or when funding is available) and will take ~29 weeks. The long range development concepts would occur over several years as market conditions allow.	NOP	04/10/2015
2015031047	Cumulus Transit Oriented/Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed Project consists of the demolition of an existing office building, accessory structures and four light industrial structures (approximately 63,313 sf), two existing radio tower structures, and the development of an approximately 1,900,000-sf transit-oriented, mixed-use development, consisting of podium style buildings, that vary in number of stories and height up to approximately 300 feet. The Applicant may seek flexible land use entitlements (based on equivalent environmental impacts) with a base plan of approximately 1,218 multi-family residential units (up to 1,600,000 sf of residential floor area) and up to 300,000 sf of commercial floor area on the lower ground floors, and a total FAR of 3.9:1. 2015038077	<p>California Highway Patrol Communication Facilities Replacement Project, Silver Peak California Highway Patrol Bishop--Inyo</p> <p>CHP is proposing to replace and upgrade the Silver Peak telecommunications facility to meet the CHP Enhanced Radio System requirements. The existing vault and 50-foot-tall tower are inadequate to accommodate the digital multi-channel equipment and antennae requirements. Proposed improvements would include a new self-supporting, four-leg, 80-foot tall steel-lattice tower. The tower could have a non-reflective galvanized finish and would not be lighted. The tower would be constructed on a concrete pad approximately 35 feet long by 35 feet wide and up to 6 feet thick; the pad would be buried 1 to 2 feet deep. A retaining wall would nearly surround the tower pad. A new +/- 15'x35' pre-fabricated equipment vault and an adjacent +/- 15'x12' concrete masonry generator vault would both be located on a separate concrete pad with maximum dimensions of about 40'x35'. The existing propane tank would be replaced with a larger tank on a new +/- 7'x20' concrete pad. Underground utilities would be extended between the tower, vault, and propane tank. If excess soil is generated during construction activities, it would be disposed of within the existing telecommunications site, or would be transported off-site for disposal. No off-site improvements would be conducted as part of the proposed work. Upon completion of construction, the existing tower, vault, and propane tank would be demolished and removed.</p>	NOE	
2015038078	<p>Frazier Park Water Supply Preplanning Project Frazier Park Public Utility District --Kern</p> <p>The purpose of the proposed project is to conduct field tests to determine the potential to install a new production well to support water supply requirements of the Frazier Park and Lake of the Woods communities. This feasibility study will determine whether there are alternative locations where a new production well can be installed.</p>	NOE	
2015038079	<p>Mendocino Mitigation Bank (01-0E240) Caltrans #3 --Mendocino</p> <p>Caltrans proposes to purchase 10.2 acres of three-parameter wetland creation mitigation credits and 3.3 acres of other waters of the United States creation mitigation credits in order to satisfy anticipated permit related mitigation requirements for future projects in Mendocino County.</p>	NOE	
2015038080	<p>Transfer of Coverage to El Dorado County APN 033-544-07 (A. Caro Construction Company, Inc. & Brent Johnson) Tahoe Conservancy --El Dorado</p> <p>Project consists of the sale and transfer of 1518 sq. ft. of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically related area.</p>	NOE

2015038093	University of California, San Diego (UCSD) 2015 South Bay Nearshore-Shelf Exchange Study (IB15) Scripps Institution of Oceanography (SIO) University of California, San Diego --San Diego The goal of the 2015 South Bay Nearshore-Shelf Exchange Study (IB15) is improved understanding of the exchange (dispersion and dilution) of tracers (e.g., pathogens, nutrients, larvae) between the land and offshore shelf region over about 10 km alongshore distances. Measurements of dye (a proxy for Nearshore tracers and contaminants) and oceanographic conditions (waves, currents, tides, salinity, temperature) obtained during controlled dye release experiments would be used to investigate the fate of shoreline introduced contaminants and improve numerical modeling capabilities of inner-shelf and surfzone exchange processes. The project site is the San Diego South Bay region between the U.S.-Mexico border to the south and the City of Coronado to the north. The site was chosen for its largely alongshore uniform bathymetry, history of water quality problems, and existing complementary observations. All traces of the experiment would be completely removed when the experiment is over.	NOE

2015031048	Tentative Map Application No. 2013-6 (Orchard Park/Rajkovich) and Prezone Application No. 2010-2(l) Hollister, City of Hollister--San Benito Tentative Map Application No. 2013-6 (Orchard Park / Rajkovich) and Prezone Application No. 2010-2 (l) (Ivanovich Annexation) is a request to subdivide approximately 10 acres into 91 single-family lots streets / driveways and rights-of-way. The proposed project includes the annexation of a 1-acre parcel (APN 019-250-004).	MND	04/13/2015
2015031049	Costa Mesa High School Sports Complex Newport-Mesa Unified School District Costa Mesa--Orange The District proposes to construct and operate a sports complex project by providing new 997-seat bleachers, replacing the existing track and field with a synthetic field and rubber track, and providing various associated facilities (proposed project or sports complex). The 720-seat home bleachers would be on the north side of the 277-seat visitor bleachers would be on the south side. Nighttime lighting, a press box (240 sf) on the home-side bleachers, and a public address system would be provided. A building containing visitor restrooms, concession, and ticket booth (1,975 sf) and a home restroom building (1,130 sf) near the entry plaza would be developed. The new lighting system would consist of 6 poles, 80 or 90 feet tall with 18 luminaries per pole, normally operating from 6 PM until 10 PM.	MND	04/13/2015
2015031051	French Valley Household Hazardous Waste Collection Facility Riverside County --Riverside The proposed project involves executing a lease agreement allowing for the development of a household hazardous waste collection center consisting of a permanent structure, two chemical storage bins, a 500-gallon above-ground storage tank for used oil and antifreeze, an office, a restroom, and associated equipment necessary for the project operation. The facility will accept hazardous waste from the public, including conditionally exempt small quantity generators (CESQG). Collected waste materials will be stored on-site within secure containers in compliance with applicable local, state, and federal regulations. The facility purposes to be open from 8-4 pm daily for the CESQG with the majority of HHW operations occurring on non-holiday Saturdays.	MND	04/13/2015
2015031052	New Juvenile Hall Monterey County Salinas--Monterey Replacement of the existing Monterey County Juvenile Hall, which was constructed in the late 1950s. Primary project components include demolition of existing buildings, renovation of an existing 30-bed housing unit, three new 30-bed housing units, a new administration building, a kitchen/laundry/warehouse building, a vehicle "sallyport" (controlled entryway), a recreation yard, a school/indoor recreation building, essential program space, and new/replacement parking. The project would be constructed in phases with existing buildings being demolished and replaced with new construction to enable continuous facility functioning. Building area would increase by 21,238 sf to 63,438 sf, but total capacity would increase by only six beds (114 to 120). Impervious area would increase by about 52 percent relative to baseline conditions.	MND	04/13/2015

2015032040	Organic Materials Recovery Center Fairfield-Suisun Sewer District Fairfield--Solano The Fairfield-Suisun Sewer District proposes to develop an Organic Materials Recovery Center (OMRC or Center) at their existing Wastewater Treatment Plant. The OMRC would process dewatered bio solids, liquid septage materials, and other similar organic materials from the agricultural, waste and food processing sectors. The end product of the process would be a pathogen-free and nutrient-rich fertilizer product that is appropriate for land application or enhanced anaerobic digester efficiency. The OMRC facilities would be constructed within the existing boundaries of the WWTP, and all of the equipment required for processing the organic materials would be located within the existing Dewatering Building.	MND	04/13/2015
2015032041	Pump Station No. 1 Storage Basin Reuse Project Folsom, City of Folsom--Sacramento The Proposed Project will be entirely located within the City of Folsom's existing Pump Station No. 1 By-Pass Pond/Detention Storage Basin (Storage Basin) at 13305 - 13359 Folsom Blvd in the southwest portion of the City on the west side of Folsom Blvd and adjacent to Willow Creek in Folsom, CA. The purpose of the Proposed Project is to re-purpose the City's abandoned Pump Station No. 1 Storage Basin so that it can be filled in over time with clean native dirt from the City's water and sewer excavation jobs. Once filled, the facility will be returned to open space and let natural vegetation take over.	MND	04/13/2015
2015032042	Del Puerto Creek Sediment Removal Project Water Resources, Department of Patterson--Stanislaus Maintenance is proposed to ensure the continued safe operation of the State Water Project (California Aqueduct) in Stanislaus County, CA. This project includes the removal of sediment (silt and cobble) from Del Puerto Creek where it crosses under the California Aqueduct, placement of rip-rap along the creek embankments to prevent erosion of the Aqueduct levee, repairing a rock drainage ditch that channels water runoff from the levee into Del Puerto Creek, and access road improvements.	MND	04/13/2015
2015032043	Tentative Map for County File #MS13-0005 Contra Costa County Martinez--Contra Costa The project proponent requests approval of a Tentative Map for a two-lot Minor Subdivision of an existing 2.62 acre parcel located within the Alhambra Valley Specific Plan area, and a Tree Permit to remove one code protected tree and to perform demolition and earthwork within the driplines of twenty-one other code protected trees. The project will also require a demolition permit to remove the west portion of an existing residence on the proposed Parcel A, and to remove a barn on Parcel B. The incised channel of Arroyo del Hambre and the creek corrido is to be retained as natural, undisturbed riparian space within the proposed parcels.	MND	04/13/2015

2015032045	Alex Moore Special Permit for Greenhouse and Bridge Construction and Water Diversion Humboldt County --Humboldt Special Permit for development within a Streamside Management Area to construct two greenhouses, one bridge, and divert water at a rate of 2,500 gallons per day from the Mattrole River for agricultural and fire protection uses. A Riparian and Stream Assessment was conducted which includes a remediation plan. Mitigation measures include re-vegetating approximately 0.4 acres to enhance the riparian corridor. Additionally, bridge construction will enable the abandonment of vehicular access to a low water ford.	MND	04/13/2015
2015032046	Ludwig Tentative Parcel Map (TPM-14-01) Siskiyou County Weed--Siskiyou The project site is located on the north side of College Ave, adjacent to the City of Weed, approximately one mile west of S. Weed Blvd. Specifically, the approximately 52.2-acre project site is located on Siskiyou County APN 021-160-150 in Section 11 of Township 41 North, Range 5 West of the Mount Diablo Base Meridian. Water and sewage disposal would be provided by individual wells and sewage disposal systems. The site is primarily zoned Non-Prime Agricultural District (AG-2), with 3.7-acre portion of Proposed Parcel C being zoned Prime Agricultural District (AG-1). Allowable uses in both the AG-1 and AG-2 districts include agriculture, farm labor housing, and single-family dwellings. It is anticipated that the parcels will be developed with single-family residences.	MND	04/13/2015
1989010410	SR-241/SR-91 Express Lanes Connector Project Orange County Anaheim, Yorba Linda--Orange, Riverside Note: Lead Agency Changed from Orange County to Caltrans District #12 Median-to-median connector between State Route 241 (SR-241) and the SR 91 (SR-91) Express Lanes. The project located at the junction of SR-241 and SR-91 in the Cities of Anaheim, Yorba Linda and Corona, Orange County and Riverside County, California, will provide increased access between SR-241 and SR-91 and is proposed to be a tolled facility. The proposed to median-to-median connector project encompasses 12-ORA-241 (PM 36.1/39.1), 12-ORA-91 (PM 14.7/18.9), and 08-RIV-91 (PM 0.0/1.5) for a length of approx. 8.7 miles.	NOP	04/13/2015
