STATE CLEARINGHOUSE

NEWSLETTER

March 16-31, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 16-31, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2008032057	<p>General Plan Amendment Application No. 2008-03 & Rezone Application No. 2008-03 - Acosta & Sons, Inc. Stanislaus County --Stanislaus</p> <p>Request to amend the General Plan and Rezone four parcels totaling 3.64 acres. The General Plan will be changed from LDR (Low Density Residential) to P-D (Planned Development) and the parcels Rezoned from R-A (Rural Residential) and P-D (70) (Planned Development) to a new P-D zone to allow an existing cabinet shop/facility and two residential dwellings to be developed in two phases.</p>	CON	04/01/2008
2005032009	<p>Wicklow Subdivision Amador County Jackson--Amador</p> <p>Option A: The proposed project includes a zone change from "R1" (Single Family Residential District), "R3" (High Density Multiple Family Residential District), and "C1" (Retail Commercial and Office District) to "PD" (Planned Development District) with a Master Plan or Use Permit for a planned unit development. The proposed project also includes the subdivision of a 201.37-acre parcel into 619 parcels consisting of 504 single family residential lots (ranging in size from approximately 6,000 square feet to over one acre), 99 townhome lots, 5.0 acres for approximately 125 apartments, four commercial parcels total approximately 29.4 acres, one parcel totaling 8.5 acres for a future school site, and 9 parcels totaling 29.8 acres for parks and pathway areas.</p> <p>A parcel map, which divides the proposed project site into 3 parcels of 8.22, 31.78, and 159.1 acres for the purpose of financing future development, is also included.</p> <p>Option B: Consists of the same description as Option A with the exception that 37.6 acres would be designated for commercial uses and the total number of single-family residential units would be 462.</p>	EIR	04/30/2008
2007012097	<p>2120 Delaware Mixed Use Project Santa Cruz, City of Santa Cruz--Santa Cruz</p> <p>The project consists of a Vesting Tentative Subdivision Map for a 45-lot subdivision (plus 11 common area lots) and other permits to accommodate a mixed-use industrial-residential project. The 45 proposed lots would be divided into residential and business condominium units. The ground floor would consist entirely of industrial and/or commercial development. Residential development would be located on the upper floors. Residential uses include 84 flats, 77 work/live townhouse units, and 87 "flex" spaces could be used as residential units or industrial/commercial space. Thus, project development would range from 395,382 square feet of industrial/commercial development with 161 residential units to 338,502 square feet of industrial/commercial development with 248 residential units.</p>	EIR	04/30/2008

2004042143	Wetland and Creek Restoration at Big Lagoon, Muir Beach, Marin County Marin County --Marin The Wetland and Creek Restoration at Big Lagoon is a joint project of the National Park Service (NPS) and the County. The purpose of the project is to restore a functional, self-sustaining ecosystem - including wetland, riparian and aquatic components - and to conduct the restoration in a manner that will re-create habitat for sustainable populations of special status species, reduce flooding on Pacific Way, provide a compatible visitor experience, and provide public access upgrades. The project area is located at Muir Beach, the mouth of the Redwood Creek watershed, which is recognized for its local and regional importance.	FIN	
2006051012	Chevron San Ardo to Coalinga Heated Oil Pipeline Project Monterey County --Monterey, Fresno The Project would include construction and operation of a 10.75-inch (outside diameter) insulated and heated underground crude oil pipeline with related above-ground facilities and ancillary utility connections. The pipeline would be designed to transport between 4,000 and 32,000 barrels of oil per day (bpd).	FIN	
2006082077	Parallel Drive Annexation Lakeport, City of Lakeport--Lake The City of Lakeport proposes to annex approximately 157 acres of land located adjacent to and southwest of the existing City limits of Lakeport.	MND	04/15/2008
2008031061	Cresthaven Heights Riverside, City of Riverside--Riverside The applicant is proposing a grading plan to facilitate the development of two single family residences. The subject property consists of approximately 9.9 vacant acres with an average natural slope of 27.03%. The proposed project involves the environmental review of grading to facilitate the development of two single-family residential structures with attached garages, landscaping, and septic systems. All grading complies with the City of Riverside Grading Code and no grading exceptions are required as a result of the proposed grading plan.	MND	04/15/2008
2008031073	GPA/ZC-08-01 and TTM 6692 at the NE Corner of Richmond St and Upjohn Ave on 7.8 Acres, City of Ridgecrest Ridgecrest, City of Ridgecrest--Kern GPA and ZC for the easterly 5.37 acres of the project's 7.8 acres from a zoning of General Commercial (GC) to Single Family Residential (R-1) and a General Plan of Commercial (C) to Low Density Residential (LD) and a 24-lot subdivision on the 5.37 vacant acres located at the NE corner of Richmond Street and Upjohn Avenue. The project site is vacant desert sage brush surrounded by residential on the north and west, the Bowman Channel and Agricultural fields on the east and the parking lot for the fair grounds on the south.	MND	04/15/2008
2008032056	Miller Village Santa Rosa, City of Santa Rosa--Sonoma Subdivide a 1-acre parcel into 8 lots, and construct 7 single-family residences. The existing residence would remain on proposed Lot 1, with the existing garage removed and rebuilt to accommodate proposed Lot 2. The proposal includes a	MND	04/15/2008

	request to rezone the property from RR-20 to R-1-6. In addition, there is a request for a Conditional Use Permit to allow a small-lot subdivision, with lot sizes ranging from 3,836 square feet to 9,293 square feet. There are two proposed residential floor plans, both of which will be two-story models; the homes will be 1,280 square feet and 1,698 square feet in size. Each unit will also have a two-car garage. Proposed landscaping includes street trees, and various medium and small shrubs, along with lawn, in the front yards of each residence.		
2008032059	American Canyon Road & Broadway Commercial Center American Canyon, City of American Canyon--Napa Conditional use permit, design review, height variation, parking variation, tentative parcel map, and sign program approval to construct and operate four commercial buildings, consisting of approximately 29,270 square feet of space. A drug store, drive-thru restaurant, and two multi-tenant retail buildings are proposed. The project would include parking, walkways, plaza areas, landscaping, and public art.	MND	04/15/2008
2008032060	AP#07-00007 - The Fernandez Ranch Public Access and Creek Restoration Project Contra Costa County Community Development Hercules--Contra Costa The Muir Heritage Land Trust has acquired the 700 +/- acre Fernandez Ranch property. As a condition of acquisition of the Fernandez Ranch property, Muir Heritage Land Trust is required to restrict use of the property for the purposes of habitat and creek restoration, preservation and protection of natural areas, and provision of public access. The project is designed to restore a section of Rodeo Creek within the ranch property, to protect and preserve natural areas of the ranch, and to provide limited public access by constructing approximately 3.5 miles of trails and small trail staging area. In addition, the project will entail an amendment to an existing Land Conservation (Williamson Act) Contract, AP#4-69.	MND	04/15/2008
2005031068	Madera Irrigation District Water Supply Enhancement Project Madera Irrigation District Madera--Madera The Madera Irrigation District plans to build recharge facilities to recharge and reuse groundwater for a water supply enhancement project.	NOP	04/15/2008
2007042061	Cortina Glen Williams, City of Williams--Colusa The proposed project consists of approximately 281 acres located along the eastern border of the City of Williams City Limits. The Sphere of Influence (SOI) boundary extends approximately 665 feet into the site from the City Limit line, therefore including a 44-acre portion of the site within the SOI. The proposed project includes the approval of program-level entitlements to enable the development of approximately 975 single-family units, 23 acres of park, and 10 acres of open space land uses. The neighborhood design for the proposed project site would emphasize focal points of park, and open space, providing visual and physical linkages to these amenities throughout the development. Street lot orientation will feature grid pattern to maximize solar orientation and short block lengths to emphasize walking. Trails located along each side of the Glenn Colusa Canal would provide a spine of pathways providing linkages to the parks, school, and each neighborhood.	NOP	04/15/2008

2008031074	Encinitas Grade-Separated Pedestrian Crossings Encinitas, City of Encinitas--San Diego The proposed project consists of Coastal Development Permit, Design Review Permit, and Variance applications to construct three grade-separated pedestrian crossings under the North County Transit District (NCTD) railroad tracks. The proposed crossings would be underpasses near El Portal Street, Santa Fe Drive, and Montgomery Avenue.	Neg	04/15/2008
2008031075	Maxwell Corporate Yard Project Chula Vista School District Chula Vista--San Diego The Chula Vista Elementary School District is proposing to improve their recently acquired property at 1855 Maxwell Road for the relocation site of their existing Corporate Yard, consisting of a bus storage and maintenance yard, currently located at East J Street, Chula Vista. The proposed project would relocate the existing Corporate Yard from a predominantly residential area within Chula Vista to a more compatible General Industrial Zone within the City. The proposed project would be implemented in two phases, with Phase 2 buildout to be completed in 2010. The District currently has 101 employees and 106 buses at the District's existing bus yard, and is expected to have approximately 120 employees and 160 buses at the new proposed site at Phase 2 buildout. All existing District bus operations would be relocated to the new proposed facilities. The proposed project would also include improvements to Maxwell Road as part of the project design. 	<p>of 80 parking spaces and considerable landscaping. The 13 residential parcels are to be developed with townhomes for individual sale and will include a total of 24 parking spaces, most within enclosed garages. The common parcel will be dedicated open space as required by the Planned Unit Development (P) Ordinance for the use of the residents of the development. This parcel will be owned and maintained by a Homeowner's Association or other such approved entity. The parcel is split-zoned. The health club structural improvements will be located within the Commercial General (CG) portion of the parcel and the townhomes will be located completely within the residentially zoned portion. Parking for the commercial use, however, will overlap into the residential zone. Project includes an access easement for the benefit of the residents across the commercial parking area for improved circulation and traffic routing within the development. Project also includes the preparation of a cumulative traffic study to analyze the potential effects of the development on Myrtle Avenue and other nearby street segments and intersections. The SP is required to allow an exception to the loading zone requirement per S313-109.1.52, HCC. The project includes a solar shading exception per S322.5-8 of the Subdivision Regulations. The project is appealable to the Coastal Commission.</p>		
2008012016	<p>Santos Final Map Subdivision/Coastal Development Permit Humboldt County Community Development Services --Humboldt</p> <p>A Final Map Subdivision/Coastal Development Permit application. The project proposed subdivision of 20.7 acres into 88 residential lots, Lots A and B dedicated for park use, and Parcel K for a stormwater detention basin. The subdivision requires exception to lot frontage requirements and road width standards to allow for flag lot configuration, and exemption to solar access standards for Lots 75 and 85. The project is served by community water and sewer, and accessed from Windsor Avenue, Duchess Road, and the westerly extension of McKinleyville Avenue from School Road. The project involves removal of eucalyptus trees along the western boundary of the site and removal of nine pine trees to accommodate site grading and the extension of McKinleyville Avenue. In addition to the use of Parcel K for a stormwater detention basin, the applicant would like to utilize a portion of Windsor Avenue. Windsor Avenue is a public road and the right-of-way is owned in fee by the County. In the event that a portion of Windsor Avenue cannot be used for stormwater detention basin purposes, then an alternative area(s) will be provided on-site to ensure compliance with Plan policies. The property is partially within the Coastal Zone and requires a Coastal Development Permit.</p>	NOD

	site.		
2008012053	Elkhorn Village Elementary School K-8 Conversion Project Washington Unified School District West Sacramento--Yolo The Proposed Project would include the addition of 10 standard classrooms, restrooms, a gymnasium, three offices, three science laboratories, and a library/computer laboratory to the existing school site.	NOD	
2008012087	Boulder Creek Restoration Project Plumas County Planning & Building Services --Plumas The project seeks to restore approximately 2,982 feet of channel and floodplain using geomorphic techniques to raise the base level of the channel.	NOD	
2008012088	Long Valley Restoration Project Plumas County Planning & Building Services --Plumas This project involves the restoration of 107 acres of meadow floodplain, including 9,000 linear feet of degraded channel on Long Valley Creek and 2,000 feet of Little Long Valley Creek. Project activities include replacing the gullied channels with 34 plugs and 30 ponds, and controlling bank erosion with vegetative planting.	NOD	
2008021005	Arsenic Rule Compliance for Wells 9A, 10, 11, and 13 Project Indian Wells Valley Water District Ridgecrest--Kern IWVWD's proposed Arsenic Rule Compliance for Wells 9A, 10, 11, and 13 Project (the Project) consists of constructing and operating arsenic treatment facilities at existing Wells 9A and 13, the two IWVWD wells with the highest arsenic concentrations. Each treatment facility will consist of an oxidation, coagulation, and filtration treatment system for arsenic removal, and each will be designed to accommodate flows of approximately 1,200 to 1,500 gpm. Untreated water produced by Well 10 will be conveyed via a proposed 12-inch diameter pipeline to the treatment facility at the nearby Well 9A site for blending with treated Well 9A water, and the blended water will then enter IWVWD's distribution system via a short section of proposed 16-inch diameter pipe. Untreated water produced by Well 11 will be conveyed to the treatment facility at the Well 13 site via proposed 12" pipeline for blending with treated Well 13 water, and the blended flows from Well 11 and 13 will then enter IWVWD's distribution system near Well 13.	NOD	
2008022014	Winnett Minor Subdivision Humboldt County Community Development Services --Humboldt A minor subdivision of an ~4.5 acre parcel into four parcels of between 1.0 and 1.15 acres each. An exception request to allow Parcels 1 and 4 to be accessed via a 20 foot right of way is also a part of this project. The parcel is currently vacant. All parcels will be served with water by Willow Creek Community Services District and onsite wastewater treatment systems.	NOD

	the Subregional System members in a manner that is reliable and in compliance with regulatory requirements. Discharge volume is based on the IRWP Master Plan and would range from 1,100 to 4,500 MG in the driest and wettest years on record, respectively, which is consistent with the System's current NPDES permit.		
2007011016	Crude Logistics Optimization Project Carson, City of Carson--Los Angeles The proposed project would construct and operate two 260-foot diameter doomed external floating tanks to store crude oil and associated piping and control systems. These storage tanks are needed to provide additional storage capacity to offload crude oil cargo from very large crude carrier vessels. The BP Carson Refinery will not increase crude throughput capacity as a result of this project.	FIN	
2007022043	Power Line-Elkhorn Substation Capacity Expansion Project Sacramento Municipal Utility District --Sacramento The proposed Power Line-Elkhorn substation capacity expansion project would increase the footprint of the Power Line-Elkhorn substation by approximately 0.5 acre (from approximately 0.62 acre to approximately 1.12 acres). The proposed project would replace a 3.75 mega volt-amperes (MVA) transformer with a 25 MVA transformer, and a 12.5 MVA transformer with a 25 MVA transformer, thus increasing the capacity of the substation from 16.25 to 50 MVA. Additional improvements include a 69,000-volt (69-kV) bus structure and three 69-kV circuit breakers, new switchgear, new cement slabs for the equipment and grounding, and fencing to encompass the footprint of the substation. The existing 69-kV pole line would remain. Reconductoring would occur to increase ampacity for the capacity increase. Additionally, five new 12,000-volt (12-kV) feeders would be added (totaling eight 12-kV feeders), and the existing 69-kV pole arrangement to the transformers would be replaced. The existing substation site is connected to the Elverta Circuit #1 and the Natomas Circuit #2 existing overhead (69-kV) lines with SMUD's subtransmission grid system.	FIN	
2008031082	Parklands Specific Plan and Tentative Map San Buenaventura, City of Ventura--Ventura The proposed project consists of an Annexation, Specific Plan, and Zone Change from County Single Family (R-1) and City Single Family (R-1-1AC) to form-based code transect zones T3.1, T3.1, and T4.6 and associated overlays zones and a subdivision of a 66.7-acre site for 216 single-family residential dwellings, 283 courtyard and town home condominiums, 25,000 square feet of commercial, 6,560 square feet of community building and approximately 11.62 acres of open space and park area. Accompanying the project is a General Plan Amendment changing Figure 4.3 Roadway Classification Plan of the 2005 General Plan for Telegraph Road between Saticoy Avenue to Wells Road and Wells Road between Telegraph Road and Carlos Street from secondary arterial with four travel lanes to collector with two travel lanes.	MND	04/16/2008

	subdivision in three phases on 21.9 acres, generally located at the end of Campers Court in north Redding. All streets in the subdivision would be private. The site contains a small manmade lake and related creek greenbelt area that are preserved and incorporated into the project's overall design for aesthetic and recreational value. Off-site improvements necessary to support the project include a minor realignment and widening of the intersection of Campers Court and Boulder Drive, pavement-marking modifications at the intersection of Boulder Drive and Black Marble Way, and sewer and water main-line extensions within the Campers Court right-of-way. Private roadway and water-main extensions will also be made across the adjacent private property connecting at the end of Black Marble Way, which have been authorized by the affected property owner. The proposed rezone would add the "PD" Planned Development Overlay District to the base "RM-9" District zoning. The project would be developed under a Planned Development Plan in accordance with Chapter 18.53 of the Zoning Code to allow construction of single-family units in the "RM" District and use of reduced lot sizes and variable building setbacks.		
2008032065	Meritage Village Expansion, 07-0155 Napa, City of Napa--Napa Request to expand an existing 100-room hotel with the addition of a new 120,065 square foot, 164-room, three-story hotel building and a 17,152 square foot conference center building. Additional uses within the hotel building will include an 8,400 square foot basement entertainment area, 3,390 square feet of retail, a 2,950 square foot bistro, and a 2,490 square foot fitness center. Project approvals include: (1) a Lot Line Adjustment between the existing hotel parcel and the new hotel parcel to accommodate setback requirements; (2) a Use Permit (UP-1) to authorize the use of off-site parking at 855 Bordeaux Way for special events; (3) a Design Review Permit for the site plan and new buildings; and (4) a Use Permit to authorize the new hotel facilities.	MND	04/16/2008
2008032067	Biagi Brothers Jackson Wine Estate Distribution Warehouse Project American Canyon, City of American Canyon--Napa 650,000 square foot climate-controlled wine distribution facility. Capacity to store 5 million bottles of wine; distributed via truck and rail. Project includes 637,000 square feet of warehouse space and 13,000 square feet of office space, 38 dock doors, 14 rail dock doors, 4,000 amps of electrical service, and HVAC. Project includes 370,370 square feet of landscaping, 332 automobile parking spaces, and 40 semi-tractor trailer spaces.	MND	04/16/2008
2008032068	Foothill Community Church UP 06-16 Oroville, City of Oroville--Butte The applicant proposes to expand the parking lot, add a new structure that will serve as a sanctuary (20,866 square feet) and add a canopy that will serve as an open basketball structure (7,700 square feet) for the Foothill Community Church. Currently, the 4.24 acre property contains three structures, a sanctuary (11,341 square feet), a shed (298.5 square feet) and a 1,825 square foot house that will be removed to accommodate the proposed sanctuary. The shed and the existing sanctuary will remain.	MND	04/17/2008

2003031069	<p>2008 Master Plan, Del Mar Fairgrounds and Horsepark 22nd District Agricultural Association Del Mar--San Diego</p> <p>The 2008 Master Plan for Del Mar Fairgrounds and Horsepark, was prepared by the 22nd DAA to plan immediate, near-term projects as well as conceptual, long-term projects for a period of 15 years. The near-term projects are intended to provide maintenance and improvement to the current Fairgrounds facilities, including renovation and modernization of several structures and parking areas, construction of new structures, demolition of structures, and relocation of a maintenance yard and fire station. The long-term projects are conceptual and will provide for maintenance of existing facilities as well as construction of new structures and trails. The long-term projects will require additional planning in the future to define precise building parameters and may require additional environmental analysis. Future projects for the Horsepark remain conceptual in nature and therefore will be subject to CEQA evaluation at a later date and will not be addressed in the 2008 Master Plan EIR.</p>	NOP	04/25/2008
2008031078	<p>Quail Valley Planned Development Palmdale, City of Palmdale--Los Angeles</p> <p>At buildout, the project would contain 712 residential lots, an approximately 14-acre community park, a 25-acre greenbelt and trail system, approximately 190 acres of open space in the rolling valley area and 333 acres of the adjacent hillsides to be preserved as natural open space. The proposed project would include the necessary infrastructure improvements, including off-site sanitary sewer and water improvements and an annexation of the property to the City of Palmdale.</p>	NOP	04/16/2008
2008031079	<p>Guilherme Brasil Dairy Expansion Project Merced County --Merced</p> <p>The project sponsor has applied for a Conditional Use Permit to bring the existing dairy facility in compliance with Merced County's permit requirements, and to expand the existing dairy so that the modified dairy would house a total of 1,570 animals (900 milk cows and 670 support stock). This would represent an increase of 115 animals from existing numbers. Most of the proposed construction would occur within the existing footprint of the facility on land that has previously been graded for construction of the existing facilities. The proposed project would include construction of: 2 freestalls and associated corrals; covered maternity and hospital corrals; six corrals; concreting and cover for the feed slab; removal of 2 diesel generators; installation of power lines; a mechanical separator pad; and a setting basin.</p>	NOP	04/16/2008

2007122103	Folsom Corporation Yard Landfill Clean Closure Project Folsom, City of Folsom--Sacramento The southern portion of the 18-acre Corporation Yard includes a 4-acre, inactive landfill that was historically used to dispose of construction and demolition debris, yard waste, and street litter. The City proposes to clean close this inactive landfill under the supervision of regulatory agencies. Clean closure is a process where the waste in an inactive landfill is removed resulting in a clean property. Once the inactive landfill is clean closed, the area will be graded and reseeded for storm water and erosion control.	NOD	
2008012051	Greenville Tentative Parcel Map Patterson, City of Patterson--Stanislaus Consideration of tentative parcel map at APN 047-031-039, also known as 14601 North First Street. The project would divide the existing 6.6 acre parcel into 12 parcels, all of which are approximately 0.53 acres, with one lot being used as a drainage basin. The project map shows that curb and gutter would be provided along Olive Avenue and North 1st Street. Plans also provide for connection to the City's sewer, water, and storm drainage systems. The site is zoned Light Industrial under the Villages of Patterson specific plan.	NOD	
2008021043	Vegetation and Sediment Maintenance Program at Little Panoche Detention Dam Water Resources, Department of Los Banos--Fresno Within the CA Dept. of Water Resources State Water Project, there are a number of joint-use facilities that are owned and maintained cooperatively with the U.S. Dept. of Interior, Bureau of Reclamation. These facilities require ongoing maintenance. The Little Panoche Detention Dam is one of these facilities and is managed by DWR's Civil Maintenance Branch of the San Luis Field Division Operations and Maintenance.	NOD	
2008039014	Menifee-Hawthorne Avenue Storm Drain, Stage 1 Riverside County Flood Control and Water Conservation --Riverside The proposed project consists of constructing and maintaining ~5,130 lineal feet of an underground storm drain system.	NOD	
2008039015	Pacific Tech Park Fish & Game #2 Rocklin--Placer CDFG is executing a Lake or Streambed Alteration Agreement Number 1600-2008-0015-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Charles Smyth representing Foothill Tech Properties. Placement of a 60" diameter reinforced concrete drainage pipe in an unnamed, channelized, seasonal drainage to act as a culvert to allow for the placement of a driveway and allow for grading of a portion of the property to build a multi-use office/light industrial complex.	NOD	
2008038145	Pooler Property Culvert Crossings (1600-2007-0336-R2) Fish & Game #2 --Nevada Placement of culvert crossings at 2 locations on the unnamed ephemeral creek for purposes of installing a driveway to a residence. The two crossings will impact ~60	NOE

2007022009	Ma-le'l Dunes Cooperative Management Area California State Coastal Conservancy --Humboldt Implement public access improvements (signage, parking reconfiguration, road upgrade, etc.) at the Ma-le'l Dunes Cooperative Management Area located on the north split of Humboldt Bay, and owned (separate acreages) by Bureau of Land Management and U.S. Fish and Wildlife Services.	JD	04/17/2008
1997071095	Arnold Heights School Demolition March Joint Powers Authority The proposed project involves the demolition, recycling and removal of structures of the former Arnold Heights School site at 15801 Harmon Street in Riverside. Structures to be removed include nine one-story stucco buildings on approximately 13.9 acres, associated parking lot, underground infrastructure, asphalt play areas, and landscaping. The buildings include a multi-purpose building (auditorium, cafeteria, and staff lounge), the main office, six classroom buildings (Buildings A through F), and a storage building (Building G). The total square footage of the buildings is 28,723 square feet, with individual buildings ranging in size from 873 square feet to 8,350 square feet. This project is tiered off of the Master EIR for the March Joint Powers Authority, and would not result in any impacts greater than those analyzed in the Master EIR.	MND	04/17/2008
2008031090	New San Bernardino Courthouse for the Superior Court of California Judicial Council of California San Bernardino--San Bernardino The Administrative Office of the Courts (AOC) proposes to construct a new courthouse in the City of San Bernardino for the Superior Court of California. This project would bring the total number of courtrooms in downtown San Bernardino to 47 courtrooms, up to 13 courtrooms more than the current total. The proposed site is located on vacant City-owned land, adjacent to the existing courthouse complex.	MND	04/17/2008
2008032071	Las Palmas Traffic Signal Project Stanislaus County Patterson--Stanislaus Proposed intersection improvements along existing Las Palmas Avenue (County Road J17) in the vicinity of the City of Patterson. Signalization and associated widening are proposed at the intersections of Las Palmas and Sycamore Avenue and Las Palmas and Elm Avenue.	MND	04/17/2008
2008032072	Miller Family's Mad River Slough Dike Rehabilitation Wetlands Enhancement Project Humboldt County Planning Department Arcata--Humboldt The Miller Family has observed that the frequency of peak high tides (8 feet and greater above Mean Lower Low Water (MLLW)) over-topping dikes on their property has been increasing in recent years. This is due in part to erosion of these dikes over time and in part to what appears to be an increase in high tide elevations in Mad River Slough. The apparent increase in winter peak or extreme high tides was dramatically illustrated in 2003 (9.85 feet recorded at the north spit) when a dike along the eastern shore of Mad River Slough breached, flooding a large area of the Mad River bottom. The Miller Family desires to maintain agricultural uses on their property. However, the Miller Family are avid waterfowl enthusiasts and they have recognized the existing and potential wetland functions	MND	04/18/2008

2008038160	Mono Basin Resource Stewardship (SNC 070307) Sierra Nevada Conservancy --Mono The Mono Lake Committee is requesting \$96,100 from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program to fund water quality monitoring; invasive plant control and monitoring; restoration projects; off-road vehicle monitoring, education, and restoration; educational stewardship projects; and air projects; and air quality monitoring.	NOE	
2008038161	Tule River Indian Reservation, Tule River Watershed, Including Pigeon Creek, Rocky Creek, Bear Creek, and Kessing Creek Sierra Nevada Conservancy Porterville--Tulare The Tule River Indian Reservation is requesting \$93,776 in funding from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program to restore ~10 miles of Pigeon Creek, Rocky Creek, Bear Creek, and Kessing Creek and ~5 acres of adjacent wetlands and meadows. Restoration will include assessment; cleanup of marijuana cultivation waste materials located in the riparian areas of the 4 creeks; water quality testing; and revegetating riparian areas. The total project acreage will be 5 acres.	NOE	
2008038162	Merced River Center, Phase I, Building Renovation (SNC 070297) Sierra Nevada Conservancy --Mariposa The Upper Merced River Watershed Council is requesting \$93,108 from the Sierra Nevada Conservancy's strategic opportunity grants program to renovate the interior of a historic building to include a visitor center and community center focusing on Merced River ecology; improve exterior signage; and conduct focus groups to determine content of permanent educational displays (Phase I). Phase II of the project will include designing and installing permanent educational displays inside and outside the renovated buildings as well as beginning educational programs.	NOE	
2008038163	Sierra Nevada Foothills Native Plant Demonstration Garden (SNC 070308) Sierra Nevada Conservancy --Mariposa The Mariposa County Resource Conservation District is requesting \$48,798 from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program to create an interpretive demonstration garden of Sierra Nevada foothill native plants, which will be available for public use at the Mariposa County Fairgrounds. The native plant demonstration garden will serve to educate the public about the benefits of native plants in home landscaping; water and soil conservation, and wildlife values.	NOE	
2008038164	Mariposa County Defensible Space Assistance/Hazardous Fuel Chipping Program Phase I (SNC 070323) Sierra Nevada Conservancy -- The Mariposa County Fire Safe Council is requesting \$99,970 from the Sierra Nevada Conservancy Strategic Opportunity Grants Program to remove brush and limbs within 100' of structures and along driveways and routes of ingress/egress for senior, low-income, disabled, and deployed residents who are unable to	NOE

	physically or financially do it themselves. Cut material will be piled within a 10' easement along existing roads/driveways. In Phase II, the cut material will be chipped and distributed on-site along existing roadways/driveways.		
2008038165	Cattle Drive Trail Shaded Fuel Break Phase 3 (SNC 070325) Sierra Nevada Conservancy --Tuolumne The Highway 108 Fire Safe Council is requesting \$48,519 from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program for the Cattle Drive Trail Shaded Fuel Break Phase 3 Project. The project will include vegetation management to complete a strategic fire break and increase the permeability of the fire break to aerially dispersed fire retardent. The fire break will provide control and anchor points as well as safety zones for fighting. To create this break, the Highway 108 Fire Safe Council will remove trees smaller than 16" in diameter at breast height as well as understorey shrubs and brush.	NOE	
2008038166	Mercury Bioavailability and Transport in Deer Creek over Lake Wildwood Reservoir (SNC 070101) Sierra Nevada Conservancy Nevada City--Nevada Friends of Deer Creek is requesting \$44,467 in Sierra Nevada Conservancy (SNC) Strategic Opportunity Grant Program funding to implement the Mercury Bioavailability and Transport Project, which is a pilot project to determine the source and transformation of mercury below Lake Wildwood reservoir. Water quality data will be collected and analyzed; recommendations will be developed; and results will be disseminated.	NOE	
2008038167	Susanville Fuel Reduction & Watershed Restoration Project (SNC 070145) Sierra Nevada Conservancy --Lassen The Lassen County Fire Safe Council is requesting \$99,999 from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program to fund the removal of fire fuels in the understory of residential parcels, which total 380 acres of mixed forest, to create 100-foot clearings around the homes. The project will clear brush and trees that would otherwise burn during natural fire regimes, and thus will more closely approximate the open understory that occurs in forests where fire suppression does not occur.	NOE	
2008038168	Day Lassen Bench Fuel Reduction and Watershed Restoration Project (SNC 070147) Sierra Nevada Conservancy --Lassen, Modoc, Shasta The Lassen County Fire Safe Council is requesting \$99,999 from the Sierra Nevada Conservancy Strategic Council Opportunity Grants Program to remove fire fuels in the understory of residential parcels that total 256 acres of mixed conifer forest and oak woodland to create 100-foot clearings around homes. Removed fuels will be chipped and used to generate electrical power in a biomass fuel facility.	NOE	
2008038169	Feather Falls Shaded Fuel Break Phase III (SC 070219) Sierra Nevada Conservancy --Butte The Butte County Fire Safe Council is seeking \$98,980 from the Sierra Nevada Conservancy Strategic Opportunity Grants Program to complete the third phase of fuel reduction necessary to create a fuel break along Lumpkin Road, which runs	NOE

<u>Documents Received on Wednesday, March 19, 2008</u>			
	through Feather Falls in southern Butte County. The fuel break will protect the community from the risk of fire and will connect with another strategic fire break.		
2008038170	Feather River College Hatchery - Site Improvement Project (SNC 070253) Sierra Nevada Conservancy --Plumas The Feather River College Hatchery is requesting \$70,000 in Sierra Nevada Conservancy Proposition 84 Strategic Opportunity Grant funds to purchase equipment and install it at the existing facility. The equipment and installation will complete the hatchery site improvement program, which is mostly complete. The overall program has added fish growout tanks, installed waste management and fish processing systems, and has resulted in created a cutting-edge aquaculture system that has improved the water quality of effluent from the hatchery, improved production of high-quality fish, and increased opportunities for tourism/recreation.	NOE	
2008038171	Defensible Space Chipper Program (SNC 070295) Sierra Nevada Conservancy Paradise--Butte The Butte County Fire Safe Council seeks 98,445.00 in funding from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program to chip fuels that have been removed around homes in Butte County in order to create a defensible space and reduce the risk of human-generated fires spreading to forest lands. The chipping will circumvent the need for homeowners to burn these fuels and will eliminate the risk of catastrophic fire associated with this burning.	NOE	
2008038172	Sierra Buttes/Gold Lakes Basin Acquisitions, Beihl Parcel on Lusk Meadow (SNC 070316) Sierra Nevada Conservancy Loyalton--Sierra The Sierra County Land Trust is requesting \$41,500 from the Sierra Nevada Conservancy's Strategic Opportunity Grants Program to be matched with \$3,200 to purchase the Biehl Parcel, a relatively undisturbed 0.021-acre (9,147 sf) property that is located adjacent to Lusk Meadow, a high mountain meadow that drains directly to Salmon Creek.	NOE	
2008038173	Nevada County Community Fuel Shaded Fuelbreak and Riparian Forest Restoration Project (SNC 0170133) Sierra Nevada Conservancy --Nevada The Nevada County Resource Conservation District is requesting \$406,000 from the Sierra Nevada Conservancy's Competitive Grants Program to fund the completion of a 15-mile long fuel break project. The fuel break would create a critical fire break in an area at risk for catastrophic fires, around the Scotts Flat Reservoir. The grant will also fund the removal of fuels within a 9.5-acre riparian corridor, which will be followed by restoration of native riparian vegetation.	NOE	
2008038174	Bohna Ranch Conservation Easement (SNC 070193) Sierra Nevada Conservancy --Mariposa The Sierra Foothill Conservancy is requesting \$600,000 from the Sierra Nevada Conservancy's Competitive Grants Program to be matched with ~\$450,000 to purchase a conservation easement on the Bohna Ranch. The Bohna Ranch encompasses 840 acres of oak studded rolling foothills. It is an important conservation target because of its location within the Mariposa Stream Group Watershed, the natural habitat present on the ranch, and the interest of the	NOE

	landowner in continuing to work the ranch and steward the property.		
2008038175	Green Fields of Golden Sierra (SNC 070221) Sierra Nevada Conservancy --El Dorado The Blue Oak Mine Unified School District is requesting \$300,000 from the Sierra Nevada Conservancy's Competitive Grants program to replace the grass field and dirt running track at Golden Sierra High School, using new synthetic surfacing products made from recycled tires. Replacement of the grass field and dirt track will protect the adjacent Empire Creek, a tributary to the South Fork of the American River, by reducing sediment and nutrient runoff from the playing surfaces.	NOE	
2008038176	Canyon View Watershed and Habitat Restoration Project (SNC 070222) Sierra Nevada Conservancy --Placer The Canyon View Watershed and Habitat Restoration Project has three main components: (1) restore 5 acres of riparian and stream habitat along Sierra Canyon Creek, which flows directly into the North Fork of the American River, (2) reduce wildfire fuel load in the understory of 30 acres of mixed oak woodlands, and (3) restore 15 acres of open grassland by removing and managing invasive species and stopping illegal off-road vehicle use.	NOE	
2008038177	Yuba River Wildlife Area Priority Acquisition Project Phase II Rice's Crossing (SNC 070223) Sierra Nevada Conservancy --Yuba The Sierra Fund is requesting \$1 million from the Sierra Nevada Conservancy's Competitive Grants Program to be matched with approximately \$6.5 million to purchase the Rice's Crossing site. This property acquisition is integral to creating a protected river corridor and a 20-mile north to south blue oak woodland corridor.	NOE	
2008038178	Squaw Valley Park Fuel Load Reduction and Related Fire Safe Activities Project (SNC 070225) Sierra Nevada Conservancy --Placer The Placer County Department of Facility Services, Parks Division (Placer County) is requesting \$245,000 from the Sierra Nevada Conservancy (SNC) to reduce fuel loads in forested land in the Squaw Valley Park. The project will involve removal of the lower 4 - 5 feet of branches, which will create a break in the fuel ladder from the ground to the forest canopy and thus reduce the risk of catastrophic fires.	NOE	
2008038179	Crystal Cave Solar Generation Project (SNC 070233) Sierra Nevada Conservancy --Tulare The Sequoia Natural History Association (SNHA) is requesting \$211,500 from the Sierra Nevada Conservancy's Competitive Grants program to install a solar generation system at Crystal Cave in Sequoia National Park. The project will include the installation of a solar generation system at the Crystal Cave parking lot; installations of an updated, more energy efficient lighting system inside the cave; installation of a backup generator; and installation of educational displays providing visitors information on the importance of a healthy Sierra watershed and the value of greener energy.	NOE

2008038180	Parkville Ranch Conservation Easement (SNC 070234) Sierra Nevada Conservancy Anderson--Shasta The Western Shasta Resource Conservation District is requesting \$556,000 from the Sierra Nevada Conservancy's Competitive Grants Program to be matched with \$36,641 to purchase a conservatin easement on the Parkville Ranch. The current owners of the ranch are interested in maintaining the property as a working ranch, protecting the riparian habitat along the two creeks, and using the ranch of outdoor education purposes for school children.	NOE	
2008038181	Collins Lake Acquisition Project (SNC 070243) Sierra Nevada Conservancy --Yuba The Trust for Public Land is requesting \$925,750 from the Sierra Nevada Conservancy's Competitive Grants Program to acquire the 529-acre Collins Lake property in Yuba County. The Collins Lake property is comprised of rolling hills and meadows of blue oak and gray pine woodlands and riparian habitat. The site contains approximately 1 mile of Dry Creek, a perennial creek that drains from Collins Lake, and supports bass, bluegill, and catfish and associated riparian species, before draining into the main branch of the Yuba River.	NOE	
2008038182	Rickert Ranch Conservation Easement (SNC 070244) Sierra Nevada Conservancy Redding--Shasta The Shasta Land Trust is requesting \$1 million from the Sierra Nevada Conservancy's Competitive Grants Program to be matched with \$1.5 to \$2.5 million to purchase a conservation easement on the Rickert Ranch. The landowner will continue existing cattle ranching operations at Rickert Ranch. The conservation easement will permanently protect this working cattle ranch and the cultural and natural resources on the property.	NOE	
2008038183	John B. Riebli Elementary School - New Classroom Building and Additional Parking Mark West Union School District Santa Rosa--Sonoma Four existing daycare portables will be relocated to southeast corner of site. Eight current portable classrooms will be demolished/removed, followed by construction of 10 permanent classrooms for net increase of 2 classrooms. A parking lot, with 59 spaces, will be provided at the northwest corner to be connected by a short driveway to the existing parking/loading area. The added parking will alleviate current congestion in the drop-off/pick-up area. Additional landscaping will be planted within site.	NOE	
2008038184	Fred Haight Drive Reconstruction Del Norte County Planning Department --Del Norte Reconstruct the existing rural road to urban road standards. Traffic control and improved drainage would also be achieved.	NOE	
2008038185	Adoption of Level 2 School Facilities Fee Ocean View School District Oxnard--Ventura Adoption of Level 2 school facilities fees (Government Code Sections 65995.5 and 65995.7).	NOE

2008038186	Nevada-Yuba-Placer Unit Headquarters - Storage Shed Forestry and Fire Protection, Department of --Placer The project entails placing a new storage shed at the CALFIRE, Nevada-Yuba-Placer Unit headquarters in Auburn, CA. The project will include minor leveling of an area approximately 20 feet by 15 feet and spreading gravel for the footprint in order to place the pre-constructed shed. The area is immediately adjacent to the existng Fire Prevention Bureau and has been impacted by past development and maintenance activities.	NOE	
2008038187	Mendocino Unit Headquarters - Forest Fire Engine Pump Testing Station Forestry and Fire Protection, Department of Willits--Mendocino This project is located entirely within State of California CAL FIRE property. The work proposed consists of installation of two 1,500-gallon, two-compartment cement tanks. The tanks will be self-contained and will have a pipe installed to connect the two tanks to each other. There will be a 2-foot opening lined with sheet metal with a locking diamond-plate lid on top of each tank that will be accessible at ground level to allow a hard suction hose from the fire engine to the cement tank that will eventually be fed back from the other cement tank to the engine's tank.	NOE	
2008038188	Shingletown Forest Fire Station - Relocation of Stand Pipe Forestry and Fire Protection, Department of --Shasta This project is located on a 37-acre parcel that currently functions as a California Department of Forestry and Fire Protection (CAL FIRE) Forest Fire Station. This station is also known as Station 22. The project will consist of excavating a two foot wide by two foot deep by 80 foot in length trench to extend a water line which will allow for a stand pipe to be installed near the fueling station.	NOE	
2008038189	California Sea Grant Research to Support Improved Management of Ocean and Coastal Resources California State Coastal Conservancy -- The OPC will support each of the 2 California Sea Grant programs to fund research which will inform and improve management decisions affecting the ocean and coastal environment. The priority areas include: climage change and ocean acidification, HABs, invasive species, water quality, wave and tidal energy.	NOE

2008034004	Relocation of Traction Power Sub Station (TPSS) Sites 3 and 4 for Mid-City/Exposition Light Rail Transit Line U.S. Department of Transportation Los Angeles, City of--Los Angeles Metro proposes to locate TPSS Site 3 for the Mid-City/Exposition LRT system at 1409 Exposition Boulevard, which is at the northwest corner of Halldale Avenue and Exposition Boulevard in the City of Los Angeles. The new site is less than 1,000 feet west of the site originally proposed in the FEIS/EIR. TPSS Site 4 was to have been located at 3790 2nd Avenue in Los Angeles as site originally proposed in the FEIS/EIR. However, the property was deemed suitable for development by local councilman Herb Wesson; Metro was unable to acquire the property and, therefore, had to find an alternate TPSS site. The proposed location for TPSS Site 4 is a small plot of open space at the intersection of Rodeo Road and Exposition Boulevard in the community of Jefferson Park in City of Los Angeles.	EA	04/21/2008
2007092045	Microtel Inn and Suites Manteca, City of Manteca--San Joaquin The proposed project is the construction of a 11,376 square foot, three-story, 71-room hotel, and 72 parking spaces within surface lots. The project site is approximately 1.21 acres in size. In total, the proposed project includes 32,710 square feet of building space.	EIR	05/05/2008
2007111103	LU06-0126 Expansion of Greenhouse Nursery Ventura County Camarillo--Ventura Expand the operation by adding: (i) two approximately 20-acre metal and glass greenhouses to expand their hydroponic tomato production operations (method of growing plants using mineral nutrient solutions instead of soil); (ii) proposed construction to support the facility expansion including approximately 45,830 square feet of new development including a proposed loading dock, cooler, packing house, office, guard shack and two 1 million gallon water tanks; (iii) 288 parking spaces, to provide a total of 344 parking spaces. Proposed access roads and parking areas would be surfaced with gravel to retain as much pervious area on the site as possible (except for required disabled parking and the loading dock); (iv) a 60-foot wide bridge to the project site from Laguna Road to provide secondary access.	EIR	05/05/2008
2007121025	Buena Vista Dairy Tulare County Resource Management Agency Tulare--Tulare Special Use Permit to establish a new dairy facility to accommodate a maximum of 3,522 animal units (Holstein), (2,100 milk cows plus support stock) on 72 acres of a 713-acre total site in the AE-40 (Exclusive Agricultural - 40 acre minimum) zone, the balance of the acreage (641 acres) will remain under cultivation and available for irrigation with the reclaimed dairy waste water.	EIR	05/05/2008
2007091073	Bar 20 Dairy San Joaquin Valley Air Pollution Control District Kerman--Fresno The applicant proposes to increase the number of milking cows on an existing dairy facility from 2,904 (6,204 total head) to 9,400 (19,120 total head) and concomitantly make changes to the dairy's support stock. 2008031095	<p>Museum of Tolerance Project Los Angeles City Planning Department Los Angeles, City of--Los Angeles</p> <p>The project would include a roughly 13,500-square-foot addition to the Museum, including the following uses: 5,800 square feet for the Cultural Resource Center; 435 square feet of exhibit space; a 2,340-square-foot cafe; 1,645 square feet of kitchen space; 1,585 square feet of multi-purpose space; 865 square feet of bookstore space; and an 830-square-foot waiting/preparation area. A 4,000-square-foot garden is also proposed, which may be enclosed or open to the sky. The project would also include 1,570 square feet of space for outdoor seating. The project would incorporate approximately 7,800 square feet of 9760 W. Pico Boulevard for exhibit and conference space. The project is requesting Shared Parking at 1399 S. Roxbury Drive and a change to the Museum operating hours to 7:00 am to 12:00 am.</p>	NOP	04/18/2008
2008031097	<p>2,200-Bed Infill Housing and Program Facility Corrections and Rehabilitation, Department of Tehachapi--Kern</p> <p>In response to projected deficiency in the number of male inmate beds in the statewide prison system, the California Legislature passed AB 900, the Public Safety and Offender Rehabilitation Services Act of 2007. As the lead Agency, the CDCR is proposing to provide housing for additional inmates at the California Correction Institution (CCI). The proposed project would result in the construction of an approximately 110-acre stand-alone facility with its own perimeter fencing. The facility would consist of two Administrative Segregation Housing Units; a Reception Center Facility; and a Level IV facility for a maximum total of 2,200 new beds. In addition, the proposed project would include support services buildings, educational and vocational program space, health care facilities, food service, and visiting facilities. Approximately 830 new staff would be added.</p>	NOP	04/18/2008
2008032074	<p>Bayview Estates Residential Project Contra Costa County Martinez--Contra Costa</p> <p>This proposed project consists of development of 163 single-family residential lots on approximately 42 acres. Several different lot configurations have been proposed ranging in size from 6,000 to 15,788 square feet. Parcel "A" is 9.75 acres and is proposed near the top of Vinehill. Parcel "B" is 14.92 acres and includes the marsh and overflow open space area. Additionally, there is a park and bio-retention area of 11.59 acres located on the eastern most side of the property.</p>	NOP	04/18/2008

2006112091	Bear River Project Yuba County Marysville--Yuba The Bear River Project consists of amending the Plumas Lake Specific Plan to add a single parcel, approximately 549.9 acres in size, which lies adjacent to the southern tip of the existing Specific Plan area and north of the confluence of the Bear and Feather Rivers. The parcel, APN 016-130-004, currently lies outside the Specific Plan area. The Plumas Lake Specific Plan allows for significant residential construction, with accompanying commercial and public land uses and some business park land uses. Extensive residential construction has taken place in the Specific Plan area, and the County has received or approved tentative maps for more development.	EIR	05/07/2008
2004072040	Enterprise Rancheria Gaming Facility and Hotel Fee-to-Trust Acquisition Bureau of Indian Affairs, Sacramento Area --Yuba The Estom Yumeka Maidu Tribe has requested that the BIA take into trust 40 acres of land currently held in fee by the Tribe, on which the Tribe proposes to construct a gaming facility, hotel, parking areas, and other facilities. The proposed project includes the development of a 207,760 square foot gaming facility and a 107,125 square foot hotel on the Yuba site. The two-story gaming facility would include: a casino floor, food and beverage areas (consisting of a buffet, gourmet restaurant, and bar), meeting space, guest support services, offices, and security area. The resort would include: an eight-story hotel with 170 rooms, a pool area, an exercise room, retail space, and an arcade. Access to the site would be provided from Forty Mile Road.	EIS	05/07/2008
2008031096	Tentative Tract Map 33900 Perris, City of Moreno Valley, Canyon Lake--Riverside The proposed project is a 198 unit single-family lot subdivision on approximately 116 acres at the southwesterly corner of Ethanac Road and River Road. The project includes a sewer lift station, along with three water quality basins within 43 acres left undeveloped for consistency with the MSHCP (Multi-Species Habitat Conservation Plan) 1,000-foot conservation corridor along the San Jacinto River. The average lot size is 11,297 square feet, with lots varying from 7,067 square feet to 30,100 square feet. Primary access will be off of Ethanac Road with secondary access off of McPherson Road.	MND	04/21/2008
2008031099	Central Avenue Condominiums Buellton, City of Buellton--Santa Barbara A Final Development Plan 06-FDP-01 to allow the development of 10 airspace condominium units on a proposed 0.84 acre parcel. The Final Development Plan includes landscaping, driveways, and 10 covered parking spaces (garages) and 17 uncovered parking spaces. The buildings are three stories in height and each unit contains three bedrooms. The Lot Line Adjustment 06-LLA-02 would adjust the lot lines between the three parcels. The Tentative Tract Map TTM 31049 is a one lot tentative map over proposed Parcel 2 for airspace condominium purposes.	MND	04/21/2008

2003081023	2004 Long Range Development Plan (LRDP) University of California La Jolla--San Diego The overall design of the UCSD Rady School of Management project consists of two buildings that will form a triangle shape and would surround an open courtyard. The Rady School will be completed in 2 phases. Phase 1 of the project, which was previously approved and constructed, included the development of 80,000 sf building space for the Rady School of Management. Phase 2 will develop an additional 120,000 sf of space for the Rady School of Management.	NOD	
2003082131	UC Berkeley 2020 Long Range Development Plan and Tien Center for East Asian Studies University of California, Berkeley Berkeley--Alameda The proposed project will construct a new 81,618 sf, six-story replacement building for physical science programs to replace the existing seismically poor Campbell Hall building. The form and design of the project follows the design guidelines and material and color palettes for this part of the campus. The existing Campbell Hall building will be demolished.	NOD	
2005062111	Proposed Lower Yuba River Accord Yuba County Water Agency Marysville--Yuba The Yuba Accord is intended to resolve instream flow issues associated with operation of the Yuba Project in a way that would protect and enhance lower Yuba River fisheries and local water supply reliability, while providing revenues for local flood control and water supply projects, improving statewide water supply reliability and providing water for protection and restoration purposes in the Delta. It proposes to modify the instream flow requirements that is equivalent to or better than that in RD-1644.	NOD	
2006062071	Feather River Levee Repair Project Three Rivers Levee Improvement Authority Marysville, Yuba City--Yuba The project will correct deficiencies in the left bank levees of the Feather and lower Yuba Rivers. The project extends northward from approximately Pump Station No. 2 on the Feather River to near the SR 70 crossing of the Yuba River. The southern and northern levee segments will be strengthened in place, and a setback levee will be constructed to replace the existing middle levee segment. DWR is providing the funding for the project.	NOD	
2007032102	#06-03 Site Plan Review - Cedar Ridge Apartments Colfax, City of Colfax--Placer This project consists of the issuance of a Timberland Conversion Permit for the construction of a 55 unit apartment complex on 4/5 acres of timberland.	NOD	
2007072059	Sewer Trunk Main Replacement - Sonoma Valley County Sanitation District Sonoma County Water Agency --Sonoma The proposed project would abandon in place or remove and replace portions of the existing concrete sewer trunk main with approximately 5,650 linear feet of polyvinyl chloride (PVC) pipe, extending from Watmaugh Road East to the SVCSD wastewater treatment facility, with the goal of reducing or eliminating sanitary system overflows, enhancing system wet weather capacity and reliability, and	NOD

	improving surface water quality.		
2007102071	North Slope Sonoma Mountain Ridge Trail Project Sonoma County Santa Rosa--Sonoma The North Slope Mountain Ridge Trail Project links 536 acres across the north slope of Sonoma Mountain, and consists of a 4.25 mile trail connecting on the east with the existing Hayfields Trail at Jack London State Historic Park and on the west with a new public parking/trail staging area at Jacobs Ranch. The proposed project includes 2 alternative routes through the central portion of the project site, as well as two trail spurs, and comprises a segment of the regional Bay Area Ridge Trail.	NOD	
2007112096	Site Acquisition and Construction of a Proposed Middle School #3 (Zocchi Property) Oakley Union School District Oakley--Contra Costa The Oakley Union Elementary School District is proposing to acquire the Zocchi property for the construction of a middle school (6-8). The school is anticipated to have an eventual student enrollment of 800. A majority of the site has been used for agricultural purposes in the past. The remainder of the site is occupied by structures used for various purposes.	NOD	
2007121107	UCLA Hilgard Graduate Housing Project University of California, Los Angeles Los Angeles, City of--Los Angeles The project will redevelop three University-owned, off-campus undergraduate student housing facilities to help meet demand for affordable housing by single graduate students within walking distance of the UCLA main campus. The project will demolish the three existing structures (~31,749 gsf total) and construct two new, 2- to 4-story, apartment style, residential structures (totaling ~44,865 gsf) on two sites (720-726 and 824). The approximately 21 month construction period is anticipated to begin in fall 2008. At completion, the project will include a total of 82 studio units and 53 underground parking spaces. Net new construction will total ~13,071 gs. The project would result in a reduced population: from ~109 undergraduate students to 82 graduate student. If needed, overflow parking will be provided on campus in Parking Structure 2. The new buildings will be constructed to meet the UC-equivalent LEED New Construction "certified" green building requirements, and would be substantially consistent with the height, setback, and density requirements of the Westwood Community Plan.	NOD	
2008011031	Southwest Communities Animal Shelter (EA41212) Riverside County Planning Department Wildomar--Riverside The financing, ground lease, construction and subsequent operation of the Southwest Communities Animal Shelter, which includes an on-site clinic for surgery and medical treatment of animals, spay/neuter services, vaccinations, microchipping and euthanization, as required; a retail space to provide pet owners with their basic needs; and classroom available for public education on animal care issues and outside organizations. Programs conducted will include low cost adoptions, licensing, counseling for animal owners, volunteer participation, fundraising and market activities.	NOD

2007111051	<p>consists of: approval of the proposed amendment to operations specifications for Horizon Air to permit a scheduled commercial air service to MMH using the Bombardier Q400 Dash 8 aircraft pursuant to 14 CFR Part 119.</p> <p>Vermont/Manchester Shopping Center Los Angeles Community Development Agency --Los Angeles</p> <p>Two alternatives are being considered for the project site. Each alternative would develop commercial uses as follows:</p> <p>Alternative 1 - Moderate Commercial would result in the development of 72,000 square feet of commercial development on the project site. This alternative with a floor area ratio of 0.35:1 would develop the site with surface parking, totaling 288 spaces, and mostly one-story buildings. The first level of commercial development would consist of retail uses. A second level of offices or retail could be located on the northern portion of the site, adjacent to the County building and parking structure.</p> <p>Alternative 2 - Maximum Commercial would result in the development of a maximum of 104,000 square feet of commercial development, consistent with an economic feasibility study commissioned by the CRA/LA. This development will include two- to three-story buildings with first floor retail and a mixture of retail and offices on the upper floors. The physical configuration of the development calls for a three-level parking structure containing approximately 418 spaces.</p>	FIN	
2008032091	<p>Ellis Street Overcrossing Madera, City of Madera--Madera</p> <p>The City of Madera and Caltrans are proposing an overcrossing of State Route 99 located in the northwestern portion of the City of Madera, north of Kennedy Avenue (Avenue 16) and south of Avenue 17. The proposed project commences 500 feet west of the Avenue 16 and Granada Drive intersection and stretches diagonally on a new alignment 2,100 linear feet to the northeast over State Route 99 to the intersection of Krohn Street and Ellis Street. Also included is the reconstruction of Ellis Street, between Krohn Street and the MID Canal west of Country Club Drive within the existing right-of-way. The proposed project includes acquisition of required right-of-way within the existing Ellis Street Overcrossing specific plan line between Granada Drive and Krohn Street and long Schnoor Avenue north of Kennedy Street (Avenue 16).</p>	JD	04/23/2008

2008032092	Fleming Special Permit (SP-06-81) for the Installation of a Road Crossing a Class II Tributary to Slater Creek Humboldt County Planning Department Rio Dell--Humboldt The applicant is seeking approval a Special Permit to consider authorizing the construction of a road crossing related to future residential development proposed on a vacant parcel. The proposed 10-foot wide driveway will travel a distance of approximately 1,400 feet. The first approximately 550 feet of the proposed access road already exists and was developed during past timber operations. A new section of road (approximately 750 feet) is proposed and includes the crossing of a Class II stream which eventually connects to Slater Creek (a Class I tributary to the Eel River known to support several species of anadromous fish) approximately 2/3 of a mile downstream from the proposed project. A new culvert (approximately 48 inches in diameter) is proposed to be installed to facilitate the proposed road crossing.	MND	04/23/2008
2008032094	Streamside Drive Creek Path Santa Rosa, City of Santa Rosa--Sonoma The project consists of adding a Class 1 (paved, off-street) path adjacent to Santa Rosa Creek to allow for bicycle and pedestrian use. The path would close a key gap that currently exists in the path network.	MND	04/23/2008
2008032095	2006-126 TSTM, CUP, PD for Villa del Lago, the Resort at Lake Tulloch / Abramson Calaveras County Planning Department --Calaveras The request is for approval of a Tentative Subdivision Tract Map, Conditional Use Permit and Planned Development Application. The subject property is approximately 70.02 acres and currently contains a resort hotel with a bar, restaurant, mini mart/fueling station and recreational facilities. The proposal is to subdivide the site into 32 residential lots with an average size of 1,900 to 2,800 square feet along with 3.8 acres of common area. The existing restaurant, bar, hotel, and fueling station will be demolished. The existing parking, boat ramp, gatehouse, sewer pump station and recreational facilities will be incorporated into the new project. Site improvements for new public road encroachment off of O'Byrnes Ferry Road, paving of 48 guest parking spaces, walkways along the front of the new townhomes that will lead to the recreational areas, fire hydrants and a turnaround area will be provided.	MND	04/23/2008
2008032097	Weller Village Santa Rosa, City of Santa Rosa--Sonoma Subdivide a 1 acre parcel into 8 lots, and construct 7 single-family residences on the newly created lots. The existing residence will remain on proposed Lot 1; however, the garage door will be relocated from the south elevation to the east elevation. All other existing outbuildings will be removed as part of the project. The proposal includes a request to rezone the property from RR-20 to R-1-6. In addition, there is a request for a Conditional Use Permit for a small-lot subdivision, with lot sizes ranging from 3,846 square feet to 6,501 square feet. There are 3 proposed residential floor plans, 2 of which will be 2-story models, and 1 will be a single-story model; the homes will range in size from 1,027 square feet to 1,698	MND	04/23/2008

	square feet. Each unit will also have a 2-car garage. Proposed landscaping includes street trees, and various medium and small shrubs, along with lawn, in the front yards of each residence.		
2008032098	Auberge du Soleil No. 2 Santa Rosa, City of Santa Rosa--Sonoma Subdivide a 1 acre parcel into 7 single-family residences on the newly created lots. The existing residence will remain on proposed Lot 1. The proposal includes a request to rezone the property from Rural Residential (RR-20) to Single-Family Residential (R-1-6). In addition, there is a request for a Conditional Use Permit to allow a small-lot subdivision, with lot sizes ranging from 3,826 square feet to 9,853 square feet. There are 2 proposed residential floor plans, both of which will be 2-story models; the homes will be 1,280 square feet and 1,698 square feet in size. Each unit will also have a 2-car garage. Proposed landscaping includes street trees, and various medium and small shrubs, along with lawn, in the front yards of each residence.	MND	04/23/2008
2003072142	Alexander Valley Resort Cloverdale, City of Cloverdale--Sonoma The project includes construction of: an 18-hole golf course with an associated clubhouse, restaurant, banquet facility, pro shop, practice area, maintenance yard and related uses; a resort hotel containing 100 and 150 rooms with a height of up to six stories and an associated spa/health club; a residential component including up to 40 attached resort housing units, up to 105 single families detached residences and 25 estate housing units; a 1.4-acre commercial component; open space preserves, on-site trails and walkways; grading of the site to accommodate proposed uses, construction of on-site parking, roadways, landscaping, signs and utility connections.	NOP	04/23/2008
2006072085	New Irvington Tunnel Project San Francisco, City and County of San Francisco--San Francisco The proposed New Irvington Tunnel Project involves construction of a second tunnel parallel to, and just south of, the existing Irvington Tunnel. The new tunnel would be approximately 18,200 feet long with a finished, inside diameter of approximately 9-feet, and range from approximately 120 to 700 feet below the irregular surficial topography along its proposed alignment. The New Irvington Tunnel Project would also include construction of new portals at the east and west ends of the proposed new tunnel with connections to the Alameda Siphons on the east side, in the Sunol Valley, and the Bay Division Pipelines (BDPLs) on the west side, in the City of Fremont. The New Irvington Tunnel Project seeks to meet the seismic reliability and delivery goals of the SFPUC's proposed regional Water System Improvement Program (WSIP) by providing a new tunnel that would provide a seismically reliable transmission system between the Alameda Siphons and the BDPLs and allow the existing tunnel to be taken out of service for maintenance while continuing to meet the water-supply purchase requests of SFPUC customers. 2008031111	<p>Pomona Valley Hospital Medical Center, Specific Plan Pomona, City of Pomona--Los Angeles</p> <p>The purpose of the Pomona Valley Hospital Medical Center (PVHMC) Specific Plan is to aid in the development and renovation of the PVHMC. The Specific Plan is intended to address the growing medical needs of the community and meet the requirements set forth in the Alfred E. Alquist Hospital Facilities Seismic Safety Act of 1994 (SB 1953). SB 1953 requires that both structural and non-structural elements of existing hospitals meet new standards, either through retrofit or replacement. Buildout of the Specific Plan would be divided into three primary phases in order to avoid any interruption in medical services and to ease the transition from the existing to the proposed facilities. Development under the Specific Plan is anticipated to occur over an approximately 22-year planning horizon. Upon completion, the Specific plan would allow for modifications and additions to PVHMC operations. Approximately 232,701 sf of the existing hospital facilities (745,015 sf) would be demolished and replaced with 534,000 sf of new construction. At full buildout, PVHMC facilities would total approximately 1,046,314 sf, which is 301,299 sf greater than the existing facilities.</p>	NOP	04/23/2008

2006092008	<p>Lake County General Plan Lake County Community Development Department --Lake</p> <p>Comprehensive update to the Lake County General Plan. Update includes all mandatory elements, except Housing Element which was updated in 2005. Update also includes 3 optional elements: Agricultural Resources, Geothermal and Water Resources. This update is primarily an update of policies, and will result in clear definition of Community Area Boundaries. Two revisions to the existing Lake County General Plan Map are proposed to add the industrial designation to property adjacent to Lampson Field Airport in Lakeport, and a site adjacent to Kelseyville. No other mapping changes are proposed. This update will provide for efficient, orderly future growth with emphasis on infill development within Community Boundaries using smart growth concepts.</p>	EIR	05/22/2008

2002072046	Incremental Recycled Water Program - Seasonal Storage Project Santa Rosa, City of Santa Rosa--Sonoma The City of Santa Rosa, as managing partner of the Santa Rosa Subregional Water Reuse System, proposes to undertake the Seasonal Storage Project (SSP) to help carry out the Incremental Recycled Water Program (IRWP) Master Plan (last updated in August 2007). The City is proposing the SSP to facilitate urban reuse and discharge, and thus assist the Subregional System in meeting future permit restrictions and managing recycled water in a manner that is reliable and in compliance with regulations. The seasonal storage volume under consideration at this time is approximately 500 million gallons (MG). This additional storage would also facilitate existing and future operation of the Subregional System in general.	EIR	05/12/2008
2003102088	Año Nuevo State Park General Plan Parks and Recreation, Department of Santa Cruz--San Mateo The California Department of Parks and Recreation has prepared a General Plan for Año Nuevo State Park. The General Plan proposes to merge Año Nuevo State Park and Año Nuevo State Natural Reserve into one single state park unit named Año Nuevo State Park. The General Plan contains a comprehensive set of parkwide and area-specific goals and guidelines for the long-term direction of the park that will guide future management and development. Six park management zones are identified in the plan, providing detailed direction tailored to the particular resource characteristics and visitor use in each zone. Park improvements are identified in the General Plan's goals and guidelines that will provide high-quality park experiences for visitors while enhancing and preserving features that make Año Nuevo State Park a unique destination. 2003102089	Ano Nuevo State Reserve General Plan (Reserve Covers ~ 1,100 acres) Parks and Recreation, Department of -- Refer to SCH# 2003102088. Draft EIR produced from two Notices of Preparation that were filed separately (SCH# 2003102088 and 2003102089).	EIR	
2008031121	Water System Improvement Project Bellflower, City of Bellflower--Los Angeles The Water System Improvement Project is designed to rectify various deficiencies in the City's water system. These deficiencies include: 1) aging and under-sized pipelines; 2) lack of backup supply; 3) inability of the system to provide fireflow protection that meets the current operating standards; and 4) decreasing reliability and redundancy as the system continues to age and further restrictions are imposed on water importation and water quality. Specific improvements include: Water System Interconnection Pipeline, High Capacity Water Well and Transmission System, Pipeline Improvements/Replacements, Fire Hydrant Replacement, Meter and Service Replacements, Service Connection to BSMWC (System 2-3-4), Service Connection to BSMWC (System 1), Service Connection to BSMWC (System 6), and BSMWC Service Connection Upgrade (System 8). 2008022079	Use Permit 07-17 and Architectural Review 07-14 (Irwin Pancake) Chico, City of Chico--Butte The project proposal seeks to construct a 77-unit senior assisted living facility on a 1.89 acre site. The proposed three-story building is 79,905 s.f. in size, and is a maximum of 45 feet in height. The project is effectively an extension of the Sierra Sunrise Village senior complex located to the south of the project site on the south side of a tributary of Dead Horse Slough, borrowing general design and architectural features from existing development. Vehicle access is provided via three driveways, two taking access from Amanecida Common and one taking access from Sierra Sunrise Terrace. A total of 39 parking spaces are provided, half of which are covered with carports; a porte cochere is provided for passenger loading/unloading. Landscaped berms are located adjacent to both street frontages. No new storm outfalls or other modifications which would affect the slough tributary are proposed. Other appurtenant site elements (lighting, trash enclosure, emergency access drives, landscaped path along the slough, covered outside seating area, bicycle parking area) are provided to serve the development.	NOD

	and installing 13,980 feet of 10-inch irrigation water pipe to serve large water users for irrigation needs, such as: high school football field, cemetery, fairgrounds, and community park.		
2008032117	Pacific Wood Recycling (File No. CUP 2007-0014) Yuba County --Yuba A request by Pacific Wood Recycling to allow a wood waste and green material recycling and processing facility on two existing parcels containing a total of 63.90 acres. The two parcels are listed as APN 018-170-019 and 018-170-018 which contain 42.90 and 21.0 acres respectively. The site is located on the east side of Hammonton Road, approximately 1/4 mile north of its intersection with Hammonton Road-Smartsville Road in Yuba County and addressed as 4600 Hammonton Road. The facility will serve the northern Sacramento Region and will receive as well as process wood wastes and green material from a variety of sources and will operate 24 hours, 7 days a week. Ten of the sixty-three acres will be used for the chipping and grinding operation.	MND	04/28/2008
2008042114	French Camp Outlet Canal Improvements Manteca, City of Manteca--San Joaquin The proposed project is the widening of several culverts in the French Camp Outlet Canal to accommodate an 80 cfs flow from the municipal system through the canal and slough to the San Joaquin River.	MND	04/28/2008
2006112070	South Tahoe Greenway Shared-Use Trail Tahoe Conservancy South Lake Tahoe--El Dorado The Conservancy is proposing to construct a 9.6-mile long shared-purpose trail that will provide residents and visitors with a non-motorized, alternative transportation corridor from Meyers, California (near the intersection of U.S. Highway 50 and Pioneer Trail) to Stateline, Nevada (near the proposed Van Sickle Bi-State Park). The trail will generally follow the former Caltrans U.S. Highway 50 Bypass Corridor and will also utilize other publicly and privately owned lands.	NOP	04/28/2008
2008031128	Conditional Use Permit for Grading Plan No. 08-012-CUP Canyon Lake, City of Canyon Lake--Riverside The proposed project is the implementation of a grading plan and conditional use permit that would result in the mass grading of approximately 25 acres of a +35 acre existing hillside site. The mass grading will result in approximately half the area disturbed remaining as a generally flat area, gently sloped for drainage, and the other half other disturbed area remaining as a terraced hillside. In addition, implementation of the proposed grading plan includes the construction of drainage improvements for stormwater runoff management and water quality control and filling and compacting an area along the edge of the disturbance area for road construction equipment access. Implementation of the proposed grading plan would result in the removal of up 3,145,000 cubic yards of material from the project site. The exported material is intended for use as construction aggregate or fill material at area construction projects. During implementation of the proposed graded project, there would be approximately 300 trips per day transportation the aggregate offsite. The project would be implemented over a period of approximately three years.	NOP	04/28/2008

2008032110	<p>Completion of Phase 1 Channel Rehabilitation Projects with Planned Phase 2 Channel Rehabilitation and Sediment Management Projects Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Trinity</p> <p>In conjunction with the federal NEPA lead agency, the U.S. Bureau of Reclamation TRRP office, the Regional Water Board is evaluating actions that would complete the Phase 1, Remaining 8 Group actions, ensure long-term mainstem sediment management, and initiate the Phase 2 mainstem Trinity River restoration actions. Collectively, the component actions included in Phase 2, combined with the activities proposed to complete Phase 1, are intended to enhance river processes at their discrete locations, but are also expected to synergistically work together for enhancement of river processes and ultimately to increase fisheries habitat throughout the targeted 40-mile reach of the mainstem Trinity River.</p>	NOP	04/28/2008
2008032115	<p>Sierra Vista Specific Plan, Annexation, Sphere of Influence Amendment, and General Plan Amendment Project Roseville, City of Roseville--Placer</p> <p>The Sierra Vista Specific Plan (SVSP) proposes to provide comprehensive planning for the 2,178 acre SVSP project area. The proposed project would include development of a mix of land uses, including residential, commercial, office, public/quasi-public, parks, open space, and urban reserves. The SVSP will address all aspects of future development within the SVSP project site including land use, circulation, resource management, infrastructure, public services, implementation and design.</p>	NOP	04/28/2008
2008032116	<p>R&L Carriers Freight Terminal Oakland, Port of Oakland--Alameda</p> <p>The project sponsor, R&L Carriers, proposes to construct a 39,000 square foot (sq. ft.) freight transfer terminal with 61 dock doors on the 8.5-acre project site located on the middle parcel portion of the Fasttrack Parking property at the northern terminus of Pardee Drive. The transfer terminal would receive regional packages from large-scale trucks and sort them to other large-scaled trucks for regional deliveries.</p>	NOP	04/28/2008
2008032118	<p>2008 Transportation Sales Tax Program Stanislaus Council of Governments --Stanislaus</p> <p>The proposed half-cent sales tax expenditure plan would include two components: (1) a "Local Traffic Improvement and Road Maintenance Program," and (2) Dedicated Capital Corridor Improvements in various locations in Stanislaus County. If implemented, sales tax revenues would be divided equally between these two components. It is assumed that the Local Traffic Improvement and Road Maintenance Program would include, but would not be limited to, such activities as resurfacing roadways, pavement management, and safety improvements. The Dedicated Capital Corridor Improvements would include improvements to the Northern, Central, and Southern Corridors within Stanislaus County.</p>	NOP	04/28/2008

2007071059	La Mesa Mixed-Use Urban Overlay Zone La Mesa, City of La Mesa--San Diego The proposed Mixed-Use Urban Overlay Zone is comprised of built portions of the City of La Mesa and includes a variety of land uses ranging from single- and multi-family residential uses, transit-oriented development, retail, and miscellaneous commercial uses. The proposed Mixed-Use Urban Overlay Zone is designed to add regulations and standards to the zoning code to implement the objectives of the General Plan. New development in the overlay zone would be subject to development standards of the new Mixed-Use Urban Overlay Zone (MU). The affected properties are currently designated as "Mixed-Use Urban" in the General Plan and zoned as either general commercial (C), residential business (RB), or multiple-unit residential (R3), on the City of La Mesa Zoning Map.	NOD	
2008012068	Laurel Plaza Oakley, City of Oakley--Contra Costa A Rezone, Tentative Subdivision Map 9188 to subdivide one lot into five commercial parcels on approximately 7.01 acres, a Development Plan of 56,020 square feet of commercial retail uses, and a Conditional Use Permit to operate drive-through facilities and construct an 8 foot tall sound wall.	NOD	
2008022042	Meridian Farms Water Company Fish Screen Project Fish & Game #2 --Sutter MFWC is proposing a two phased program to consolidate three existing surface water diversions into two diversions along the Sacramento River in the vicinity of the Town of Grimes and Meridian, Sutter County. The two new water diversions would be equipped with positive barrier fish screens to prevent entrainment of migrating, at-risk, native fish species. Due to the consolidation, the proposed project also includes phased conveyance system improvements to accommodate water delivery to two diversions instead of three. The proposed project will not increase MFWC's overall diversion capacity from the Sacramento River. Once the new diversions are completed at Meridian and Grimes site locations, the existing diversions at Meridian, Drexler, and Grimes will be removed during their respective phases and in compliance with Reclamation Board, California Department of Fish and Game, National Marine Fisheries Service, and the U.S. Fish and Wildlife Service requirements.	NOD	
2008022056	Durham Pentz Road/Butte Campus Drive Intersection Improvements Butte County Oroville--Butte The project would make roadway and intersection improvements at the Durham-Pentz Road/Butte Campus Drive intersection, including: installation of an eight phase, traffic actuated signal system; bring the intersection up to current design and safety standards, including compliance with the current ADA; and new curb, gutter, sidewalk, tie-in pavement, advance warning signs, pavement markings, and drainage facilities.	NOD	
2008022086	POST Mindego Ranch Addition to Russian Ridge Open Space Preserve Midpeninsula Regional Open Space District --San Mateo The proposed project consists of the purchase of the 1,047-acre POST Mindego Ranch property by the Midpeninsula Regional Open Space District, including the	NOD
