STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**March 16 – 31, 2016**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **March 16 – 31, 2016**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Office of Administrative Law California Code of Regulations and California Statute's websites at:

<b><u>Documents Received on Wednesday, March 16, 2016</u></b>			
2015052073	Valley Springs Public Utility District Effluent Management and Wastewater Treatment Project Valley Springs Public Utility District --Calaveras Note: Review Per Lead VSPUD conducted an Alternatives Analysis to evaluate long-term, reliable, alternative wastewater treatment and disposal options in light of the recent events, concerns, and needs that indicate that existing wastewater facilities may not be adequate. The recommended option is to relocate the wastewater treatment facilities. This land is known as the Coe Property and is located approx. 1.5 miles north of the existing WWTP. This site is free of the constraints and problems associated with the existing WWTP site, and is capable of serving reasonable planned growth within the community.	<b>ADM</b>	04/05/2016
2005111054	Vesting Tentative Tract No. 61553 Los Angeles, City of Los Angeles, City of--Los Angeles The Proposed Project is the subdivision of a 6.2-acre property (two parcels) into 19 lots and the subsequent developemnt of 19 detached, single-family residences. Each residence would have three or four bedrooms and would have a maximum height of three stories or 36 feet. Each unit would include a two-car garage. A new public street would provide vehicular access from San Feliciano Drive to 11 of the homes. Four additional homes would have direct driveway access from San Felciano Drive, while the four remaining homes would take access from a private driveway off of Mulholland Drive.	<b>EIR</b>	04/29/2016
2015091088	Wilson Creek Estates, Case No. 15-061/TTM 19974 Yucaipa, City of Yucaipa--San Bernardino A Phased Tentative Tract Map (Case No. 15-016/TTM 19974) to subdivide approx. 236 gross acres into 184 single family lots each with a minimum lot size of one (1) gross acre, with two additional "Not A Part," lots for an existing private residence (Casa Blanca Ranch) and water tank/pump station site owned and operated by the Yucaipa Valley Water District.	<b>EIR</b>	04/29/2016
2016031047	South Basin Additional Groundwater Monitoring Program Orange County Water District Irvine, Santa Ana--Orange The construction and operation of 24 monitoring wells clustered in groups of four at two different locations in the City of Santa Ana and at four different locations in the City of Irvine within the South Basin area of the Orange County Groundwater Basin.	<b>MND</b>	04/14/2016
2016031048	SR140 Slope Repair Caltrans #10 --Mariposa Caltrans proposes to repair a failed slope beneath an 84 inch reinforced concrete pipe culvert adjacent to eastbound lane of SR 140 at PM 32.2 in Mariposa County. Construction of a rock-filled gabion basket wall with stone base support/buttress is the proposed repair method to repair the failed slope and stop erosion from culvert at this site.	<b>MND</b>	04/14/2016

2013112038	Northborough Sacramento County --Sacramento Note: Revised	<b>NOP</b>	04/14/2016
	<p>1. A General Plan Amendment to change the land use designation of approximately 298+/- gross acres from Agricultural-Residential to Low Density (255 acres) and Recreation (30+/- acres).</p> <p>2. A Community Plan Amendment to amend the Rio Linda - Elverta Community Plan for the 298+/- gross acre site from Agricultural-Residential 2 with an Agricultural Residential Preservation Area Overlay (ARPA) (286+/- acres) and Agricultural Residential 5 to Residential Density 7 (128+/- acres), Residential Density 5 (71+/- acres), Residential Density 4 (40+/- acres), Agricultural Residential 5 (11+/- acres), Public/Quasi Public (34+/- acres) and Park (11+/- acres).</p> <p>3. A Community Plan Amendment to amend Policy LU-6 of the Rio Linda - Elverta Community Plan to reflect the adoption of the Elverta Specific Plan and to note that the proposed project (Northborough) will add additional acreage to the "Urban" area and would modify the overall residential holding capacity of the "urban" area from 4,500 dwelling units to 5,689 dwelling units (4,500 du existing holding capacity + 1,127 proposed du).</p> <p>4. A Specific Plan Amendment to amend the Elverta Specific Plan for the 298+/- gross acre site from agricultural residential 1-5 (281+/- acres), Elementary School (13+/- acres), Drainage/Trails (2+/- acres) to Single Family Residential 3-5 (105+/- acres), single family residential 6-7 (142+/- acres), Community/Sports/Neighborhood Parks (11+/- acres), Detention/Joint Use (27+/- acres).</p> <p>5. A rezone of approximately 298+/- gross acres from AR-5 to RD-4 (40+/- acres), RD-5 (72+/- acres), RD-7 (142+/- acres), and O (32+/- acres).</p> <p>This NOP has been updated to address a modification in the project boundary, minor changes to the land use plan, as well as identify foreseeable, off-site environmental impacts. Off-site impacts include the construction of a Sacramento Municipal Utilities District substation and associated facilities, and drainage improvements on neighboring parcels.</p>		
2016032045	Trinity County Draft Housing Element IS/ND Trinity County --Trinity The enclosed initial study/negative declaration is being submitted, per CEQA, for the proposed project. The 2014-2019 Draft Housing Element Update, Trinity County.	<b>Neg</b>	04/14/2016
2015112047	Summit K2 Charter School Operational Expansion Project El Cerrito, City of El Cerrito--Contra Costa The prior use permit and MND (SCH# 2007042071) limited student enrollment to 347 students during the normal school year and to 175 students during the summer session and limits normal school days to the hours of 8:00 a.m. to 3:00 p.m. The project involves proposed amendments to an existing use permit that would allow increased usage of the existing school to include high school students in addition to middle school students, increased enrollment to 630 students during	<b>SIR</b>	04/29/2016

	the normal school year and 315 students during the summer session, and extend the normal operating hours by a half hour to 3:30 p.m. during normal school days. No construction or demolition is required or proposed.		
1999031100	<p>Stored Water Recovery Unit, Draft Supplemental Environmental Impact Report Semitropic Water Storage District Wasco--Kern</p> <p>Previously, the Semitropic Groundwater Banking Project was evaluated in an EIR in 1994, and the Stored Water Recovery Project component of the Semitropic Groundwater Banking Project was evaluated in a SEIR in 2000. Clarifications and revisions to the SWRU have been evaluated in five separate, subsequent CEQA addendums. The subject project, evaluated in a Sixth addendum to the SEIR, would revise the SWRU to add an alternative configuration to the well field evaluated in the SEIR. Such well field alternative would increase spatial distribution of the well field wells without increasing the total number of wells, and reduce overall pumping density. Existing EIR and SEIR groundwater impact mitigation measures would apply to the well field alternative.</p>	<b>NOD</b>	
2000062030	<p>Recycled Water Facility Treatment, Storage, and Distribution Improvements Pajaro Valley Water Management Agency Watsonville--Monterey, Santa Cruz</p> <p>The upgrade of the agency's RWF consists of two components: recycled water storage and distribution pump station improvements, and filtration and disinfection improvements. The project includes construction of Tanks No. 2 and No. 3, approximately 1,000 linear feet of new 6 to 24 inch diameter steel and plastic pipe, 500 linear feet of multiple 1 to 2.5 inch diameter conduits within a single trench, a new disk filtration module structure, installation of new pumps on concrete slabs in the existing distribution pump station structure, and installation of 600 additional ultra-violet lamps and associated equipment within the existing disinfection structure.</p>	<b>NOD</b>	
2003072092	<p>Rice McMurtry Annexation and Residential Development Project Vacaville, City of Vacaville--Solano</p> <p>The project is limited to: the replacement of an existing 36-in diameter metal pipe culvert under McMurtry Lane with an approximately 115 ft long, 54-in diameter concrete pipe culvert; placement of fill to allow for a 3:1 slope from the roadway to the channel; and impacts to an approximately 6-in wide, 35-ft long section along the top of bank of Channel A. Project activities are part of a larger project that includes roadway widening and realignment to an approximately 1,600-ft (0.30 mile) segment of McMurtry Lane from an approximately 18-ft wide road to an approximately 50-ft wide road. The California Department of Fish and Wildlife is executing a Lake and Streambed Alteration Agreement Number 1600-2015-0150-R3 pursuant to Section 1602 of the Fish and Game Code to Paul Manyisha, DR Horton.</p>	<b>NOD</b>

<b><u>Documents Received on Wednesday, March 16, 2016</u></b>			
2004062018	<p>Realignment and Widening Caltrans #4 Pleasanton--Alameda</p> <p>As part of the Caltrans SR 84 Realignment and Widening at Vallecitos Road/Pigeon Pass in Alameda County, PG&amp;E was asked to relocate an existing electrical distribution line to accommodate road widening work. Since Caltrans has now completed the realignment and widening work, PG&amp;E is proposing to move the electrical distribution line back to its previous alignment with some minor variations on the location of a few poles that will have new positions due to the new design alignment.</p> <p>Temporary impacts will total 0.76 acres, and permanent impact will total 0.02 acres to California tiger salamander habitat. The project is expected to result in incidental take of the California tiger salamander, which is a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.</p>	<b>NOD</b>	
2004062018	<p>Realignment and Widening Caltrans #4 Antioch--Contra Costa, Sacramento</p> <p>This minor amendment changes the project description, and the relevant conditions of approval, to eliminate the installation of the temporary marine trestle and the impacts associated with its installation and removal.</p>	<b>NOD</b>	
2006092013	<p>Lake Del Valle Spillway Vegetation Removal Project Water Resources, Department of Livermore--Alameda</p> <p>CDFW has executed lake and streambed alteration agreement no. 1600-2015-0361-R3, pursuant to section 1602 of the fish and game code to the project applicant, Gerald Snow/DWR.</p> <p>The project is limited to clearing vegetation from one-half of the Lake Del Valle Spillway Channel's width, roughly down the center (approximately 50 ft of the 100 ft width) for a distance of 500 ft from the end of the plunge pool.</p>	<b>NOD</b>	
2006121082	<p>06-KER-14 KP 73.9/100.2 (PM 45.9/62.3) Freeman Gulch Four-Lane Project Caltrans #6 Ridgecrest--Kern</p> <p>This proposed project involves converting the existing 2-lane conventional highway into a 4-lane, divided, controlled-access expressway including placing an asphalt concrete overlay, flattening cut slopes, widening fill slopes, overpass intersections and widening paved shoulders to 5-ft inside and 10-ft outside.</p> <p>The project will result in permanent impacts to 889.8 acres of Mohave ground squirrel and desert tortoise habitat. The project may result in incidental take of Mohave ground squirrel and desert tortoise, both of which are designated as threatened species under the California Endangered Species Act. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.</p>	<b>NOD</b>	

## CEQA Daily Log

<b><u>Documents Received on Wednesday, March 16, 2016</u></b>			
2011022008	<p>Vanden Meadows Specific Plan and Development Project Vacaville, City of Vacaville--Solano</p> <p>This proposed project involves the permanent land conversion of approximately 26.4 acres of undeveloped land into a housing development comprised of approximately 58 residential lots.</p> <p>The project will result in impact to 26.39 acres of California tiger salamander habitat; the project will permanently remove 26.39 acres of California tiger salamander habitat. The project is expected to result in incidental take of California tiger salamander, which is designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.</p>	<b>NOD</b>	
2012071077	<p>SBT-25 Curve Realignment Caltrans #5 --San Benito</p> <p>The Project, as approved by the CDFW on June 23, 2014, and as first amended on May 11, 2015, involves realigning the 0.4 mile section of SR 25 to current design standards by replacing the nonstandard curve with a 2,000 foot radius curve. This will require cutting into the hillside to a maximum depth of 44 feet. The new section of SR 25 would be 900 feet long and 40 feet wide, including a rock catchment area on either side at the base of the slopes which would be 0.25:1 or flatter. In addition to the new section of road, two new driveways exits for the landowners on either side of SR 25 will be installed as well as access to a stockpile area in the current turn-out. The remaining 24,790 square feet (0.569 acres) of the previous alignment will be rehabilitated to allow for revegetation with oak trees. The Project will result in the permanent development of 1.86 acres of upland habitat and temporary impacts to 0.87 acres of upland habitat resulting in a total habitat disturbance of 2.73 acres. Amendment No. 2 referenced above as issued by CDFW authorizes a change in the project description that allows for the temporary repaving of the original SR 25 alignment to act as a temporary detour around a rock slide that occurred within the project footprint on January 21, 2016, and which made the new alignment unsafe for work and public use.</p>	<b>NOD</b>	
2012112019	<p>Dougherty Road Improvements Dublin, City of San Ramon--Alameda</p> <p>This proposed project involves the expansion of 1.9 miles of Dougherty Road to a six-lane arterial and the addition of on-street bicycle lanes. The purpose of these improvements is to address traffic congestion and multi-modal circulation issues for commuters traveling Dougherty Road. Improvements will include adding Class II bicycle lanes in both directions of travel and reconstructing or resurfacing the existing 8-ft wide bicycle and pedestrian path on the east of the roadway. The project will also widen the roadway from a four-lane roadway to a six-lane divided roadway with a raised landscaped median.</p> <p>The project will result in permanent impacts to 7.35 acres of California tiger salamander habitat. The project is expected to result in incidental take of California tiger salamander, which is/are designated a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.</p>	<b>NOD</b>

<b><u>Documents Received on Wednesday, March 16, 2016</u></b>			
2014012001	I-580 Roadway Rehabilitation Project in Alameda County Caltrans #4 Livermore--Alameda The project will incur 32.50 acres of temporary impacts, and 6.25 acres of permanent impacts to California tiger salamander and Alameda whipsnake habitat. To offset impacts, the Permittee will provide 54.5 acres of Covered Species habitat mitigation. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.	<b>NOD</b>	
2014082022	Gateway Station West Residential Newark, City of Newark--Alameda The Gateway Station West lies within the City-approved Dumbarton Transit Oriented Development Specific Plan Area. The overall TOD specific plan was addressed in an EIR (certified by the City in 2011) and the current Gateway Station West project is being addressed in a SEIR. The project would allow for the development of 589 residential units within approximately 41 acres of the 54.5-acre project site. A total of 321 single family detached homes and 268 attached condos are planned, along with streets, 1,473 parking spaces, sidewalks, trails, landscaping, parks, water quality treatment basins and permanent open space. In addition, several off-site roadway, sidewalk and landscaping improvements may be constructed in conjunction with the project. The development site is located within the Dumbarton TOD Specific Plan Project area. The city certified the Dumbarton TOD Specific Plan EIR on September 8, 2011. The project conforms to all standards and regulations of the Dumbarton TOD Specific Plan. Compliance with all applicable mitigation measures adopted with the specific plan will be required as a condition of approval of the project. The project will also comply with the City of Newark's 2013 Updated General Plan.  On March 10, 2016 the City Council adopted RZ-14-14 by conducting a second reading. There were no new or changed circumstances which arose after certification of the SEIR on February 24, and the SEIR adequately analyzes the project.	<b>NOD</b>	
2015022017	Pennington Road Bridge Replacement Sutter County Live Oak--Sutter The project will result in impacts to 0.066 acres of giant garter snake habitat including temporary impacts to 0.03 acres; the project will permanently remove 0.036 acres of giant garter snake habitat. The project is expected to result in incidental take of giant garter snake, which is/are designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.	<b>NOD</b>	
2015101058	Sterling Natural Resource Center San Bernardino Valley Municipal Water District Highland--San Bernardino The San Bernardino Valley Municipal Water District (Valley District) proposes to approve the Sterling Natural Resource Center (SNRC) project, which involves the construction of a wastewater treatment facility and associated facilities that will provide tertiary treatment of wastewater generated within the East Valley Water	<b>NOD</b>

	District (EVWD) service area and make the treated water available for beneficial uses within the Upper Santa Ana River watershed. The SNRC project will produce a new, local supply of recycled water, thus helping to reduce reliance on imported water supplies.		
2015121082	Friendly Hills Marketplace Conditional Use Permit No. 15-011 and Development Review Application No. 15-051 Whittier, City of Whittier--Los Angeles Development Review No. DRP15-051 is a request for the development of a new shopping center, "Friendly Hills Marketplace" consisting of a new retail center with five commercial buildings (90,046 sf) for general retail and a restaurant on a 7.67 acre site at the former Cadillac and Ford Auto Dealerships. Conditional Use Permit No. CUP15-011 is a request to allow for Development Hardships from the Whittier Blvd Specific Plan (WBSP), Shopping Cluster II District.	<b>NOD</b>	
2016038226	ER No. 7099 - Fuel Hazard Reduction Project Fresno County Fresno--Fresno The project will remove dead and dying trees in the foothill and mountainous areas within the County right-of-ways within the unincorporated communities of Auberry, Dunlap, Miramonte, Pinehurst, and Shaver Lake. Tree removal will be limited to the existing right-of-way and up to 200 feet on either side of County-maintained roads.	<b>NOE</b>	
2016038227	Interim Improvements for Public Access and Safety, Robert Sibley Volcanic Regional Press East Bay Regional Parks District --Contra Costa To provide public recreational trail access to the McCosker property from the entrance off Pinehurst Road and protect 250± acres of open space contiguous with Huckleberry Botanic Preserve, thereby adding to the biological, cultural, and watershed values of this park.	<b>NOE</b>	
2016038228	Fairfield City Vegetation Removal Water Resources, Department of Fairfield--Solano DFD staff will maintain all vegetation within the DWR right of way, in three locations: Marigold Drive, Matthew Drive, and Railroad Avenue. Vegetation will be maintained by mowing to a four-inch maximum height and removing/limbing trees inside the DWR perimeter of each of the three locations. Work will be performed monthly during the fire season (May - October), and on an as needed basis throughout the 2016 season, as an ongoing maintenance process. Mowed vegetation will be left in place as mulch.	<b>NOE</b>	
2016038229	Briggs Road Improvements at Warm Springs Creek Regional Water Quality Control Board, Region 9 (San Diego), San Diego Menifee--Riverside The project entails widening the existing structure on Briggs Road at Warm Springs Creek Culvert. Project activities include widening the existing timber culvert over Warm Springs Creek along the east side of Briggs Road to provide an edge-to-edge pavement width of 32 feet. This will accommodate a 12-foot wide travel lane and a 4-foot wide shoulder in each direction. The embankment of Warm Springs Creek will receive minor grading within the Briggs Road right-of-way in order to construct the extension of the culvert abutments. The	<b>NOE</b>

<b><u>Documents Received on Wednesday, March 16, 2016</u></b>			
	structural widening improvements will consist of relocating the east metal railing of the existing structure, constructing an extension of abutments matching the alignment and the span length of the existing culvert and installing a timber deck matching the existing roadway finished surface elevation.		
2016038230	Central Valley District Office - Floor Plan Modification Parks and Recreation, Department of --Tuolumne Modify the floor plan of non-historic District Office in Columbia State Historic Park to create adequate space for staff and provide a secure area for personnel files. Primary modification will be to the interior but the front entrance alcove will be enclosed resulting in alteration of the exterior appearance of the building façade.	<b>NOE</b>	
2016038231	Brown Farm Pond Drain to Llano Trunk Project; California Endangered Species Act (CESA) Incidental Take Permit No. 2081-2015-029-03 (ITP). Fish & Wildlife #3 --Sonoma The project will be teeing into an existing 27-inch cement lined steel pipeline that fills the Brown Farm Pond and installing a modulating valve on the Brown Farm Pond side of the new tee, a flow meter and modulating valve on the Llano Trunk side of the new tee, 635 linear feet of 18-inch diameter PVC force main, and a four foot diameter manhole along Llano Road. The California Department of Fish and Wildlife (CDFW) have issued an ITP to the City of Santa Rosa (Santa Rosa) for the project pursuant to Fish and Game Code section 2081, subdivision (b). The ITP authorizes Santa Rosa to take California tiger salamander ( <i>Ambystoma californiense</i> ), a species designated as threatened under CESA, incidental to otherwise lawful project activities subject to various conditions of approval prescribed by the Fish and Game Code. In issuing, the ITP, CDFW found, among other things, that all authorized impacts of the taking would be fully mitigated and the project would not jeopardize the continued existence of any of the species.	<b>NOE</b>

2013091070	<p>SDG&amp;E Master Special Use Permit (MSUP) and Permit to Construct (PTC) Power Line Replacement Projects Public Utilities Commission Pauma Valley--San Diego, Orange FYI Final</p> <p>SDG&amp;E's proposed MSUP/PTC Power Line Replacement Projects would consolidate over 70 existing special use permits for SDG&amp;E facilities within the Cleveland National Forest (CNF) into one MSUP to be issued by the Forest Service. The MSUP would allow the continued operation and maintenance of approximately 102 miles of SDG&amp;E's existing 69 kV transmission line (TL) also referred to as power lines, 12 kV circuits (C) also referred to as distribution lines and ancillary facilities, as well as approximately 34 miles of existing access roads require to maintain and operate SDG&amp;E electric facilities within the CNF.</p> <p>In addition to combining the permits and easements for existing SDG&amp;E facilities within the CNF into one MSUP, SDG&amp;E's proposed project includes the replacement of five existing 69 kV power lines and six 12 kV distribution circuits located within and outside of the CNF, referred to herein as the proposed power line replacement projects. Powerline replacement would primarily include fire hardening (wood-to-steel pole replacement) along with relocation, removal, undergrounding, and single-circuit to double-circuit conversion along certain facilities and segments. The proposed power line replacement projects will require authorization under the MSUP as well as approval from the CA Public Utilities Commission.</p> <p>Approval of the MSUP would allow for the continued operation and maintenance of SDG&amp;E electric facilities within the CNF and authorize the replacement of certain existing power lines on and adjacent to CNF lands. MSUP approval is being requested by SDG&amp;E because the existing authorization within the CNF are expired, and the existing power lines are needed to supply power to local communities, residences, and government-owned facilities located within and adjacent to the CNF.</p>	<b>FIN</b>	
2016031049	<p>Balch Park Road Over Rancheria Creek Bridge Project Tulare County --Tulare</p> <p>Tulare County, proposes to replace the existing un-signalized, bi-directional, one-lane bridge crossing on Balch Park Road over Rancheria Creek (Bridge No. 46C-0162) with a two-lane bridge structure to provide improved safety and operations on the facility. The bridge is located in the northeast of the Community of Springville within Tulare County. The existing bridge was constructed in 1954 and is not eligible for the National Register of Historic Places. The structure is one lane, single span, cast-in-place reinforced concrete deck on steel beam superstructure bridge supported on reinforced concrete abutments. The bridge qualifies for replacement funding because it has a sufficiency rating of 78.6 and is flagged as functionally obsolete due to the low deck geometry rating. The existing bridge is a fracture critical structure.</p>	<b>MND</b>	04/15/2016

2016031051	<p>Recycled Water Pipeline and Facility Upgrades San Elijo Joint Powers Authority Encinitas--San Diego</p> <p>SEJPA proposes several recycled water pipelines extensions to serve existing land uses and relocations resulting from the development of the Caltrans North Coast Corridor Project as well as minor upgrades to SEWRF facilities. The recycled water pipeline extensions within Encinitas Ranch and Requeza Street would allow for conversion of several existing residential subdivisions and recreational trails to recycled water use. The recycled water relocations within Carol View Drive and Manchester Avenue would occur in response to the Caltrans North Coast Corridor (NCC) Project; both components are located within Caltrans ROW and within previously analyzed impact areas for the Caltrans NCC Project EIR/EIS. SEWRF facilities upgrades would include tertiary system upgrades and water reuse storage expansion.</p>	<b>MND</b>	04/15/2016
2016031053	<p>University Drive and Ridgeline Drive/Rosa Drew Lane Intersection Improvement Project Irvine, City of Irvine--Orange</p> <p>The City proposes to add an additional through lane on eastbound University Drive from approx. 580 feet west of the intersection with Ridgeline Drive/Rosa Drew Lane, which would taper back to two through lanes approx. 725 feet east of the intersection. A northbound right-turn lane would be added to Ridgeline Drive from approx. 500 feet south of the intersection. The existing left turn pocket on westbound University Drive would be extended by approx. 40 feet. This project also includes new pavement, curb, gutter, sidewalk, and pedestrian ramps; modifications to the existing traffic signals to improve traffic operations; construction of low-flow shack dams, vegetated swale, and stormwater/water quality facilities. Minor permanent right-of-way acquisition would be required at the southwest and southeast corner of the project intersection.</p>	<b>MND</b>	04/15/2016
2016032046	<p>East Gridley Road and Larkin Road Intersection Signalization Project Butte County Gridley--Butte</p> <p>The main priority of this project is to improve the safety concerns associated with the existing intersection of East Gridley Road and Larkin Road. Improvements to the intersection include the installation of traffic lights, restriping of an existing turn lane and the addition of dedicated turning lanes. Construction of the additional turning lanes will require the roads to be widened. Existing culverts will be extended and/or realigned with the road; existing drainages will be realigned and/or relocated to follow the improved intersection. Project activities are predominantly confined to the existing roadway. Utility relocation and right-of-way acquisition on the northeast and northwest corners.</p>	<b>MND</b>	04/15/2016

2016031054	<p>City of Monterey Climate Action Plan Monterey, City of Monterey--Monterey</p> <p>The City of Monterey proposes to adopt a Climate Action Plan (CAP). The CAP represents a local effort to address the City's contribution to a global environmental problem with community-level impacts. The CAP includes an emissions inventory; GHG emissions reduction strategies and recommendations to make further reductions to meet future goals. The CAP sets emission reduction goals for 202, 2030, and 2050 according to CA AB 32, the Urban Environmental Accords (UEA), and Executive Order 5-3-05. The CAP also outlines progress made toward the goals for the U.S. Mayors Climate Protection Agreement (MCPA) and the UEA, to which the City became signatory in 2007. The CAP also identifies existing activities that contribute to local climate adaptation and priority steps for adaptation planning.</p>	<b>Neg</b>	04/18/2016
2016031059	<p>ENV15-0008 and PHG15-0018 (Wastewater Collection Yard - HARRF) Escondido, City of Escondido--San Diego</p> <p>The project includes development of approx. 1.8 acres of a larger, approx. 15.4 acre site (overall parcel; APN 235-051-05) for the construction of a new wastewater collections yard and maintenance facility for the City of Escondido's existing Hale Avenue Resource Recovery Facility (HARRF). The Project is intended to provide a new location for maintenance activities associated with the City's Wastewater Collections Division. The proposed new facilities will consist of three separate pre-fabricated metal buildings (Building 1-3,735 SF; Building 2 - 5,470 SF; and Building 3 - 5,670 SF). The three buildings would be up to approx. 34 feet in height to the sloping roof ridgeline and would provide covered outdoor storage areas. The buildings would be used by the City's Wastewater Collections Division for collections; work bays and workshops for regular maintenance of vehicles and equipment associated with operations at HARRF; warehousing and indoor storage. Paved parking spaces also would be provided from the existing driveway access from Citracado Parkway along the southern area of the property, or from the existing driveways from Hale Avenue through the HARRF facility. A security gate would be installed along the access drive near the entrance off of Citracado Parkway.</p>	<b>Neg</b>	04/18/2016

	in size from 0.10 acre to 1.93 acres, for a total of 5.49 acres over five years, in accordance with the submitted plans and diagrams. The proposed project will allow for improved airflow through the Riverview Golf and Country Club, located along the Sacramento River in Shasta County. Upon treatment of each cell follow up treatment with herbicides will be used to maintain the treated areas.		
2016038269	The Butano Creek Floodplain Restoration Project San Mateo County --San Mateo The San Mateo County Resource Conservation District, in collaboration with Peninsula Open Space Trust, is proposing to reconnect Butano Creek to its historical floodplain located at the Butano Farms property in Pescadero, California. The Butano Creek Floodplain Restoration Project would include restoration actions at five treatment sites along Butano Creek where the channel has been disconnected from the floodplain due to channel simplification (i.e., the removal of large wood) and incision. Restoration activities would include installation of logs and rootwads, a rock ramp, floodplain connector channels, and recruitment of living bank side alder trees to engineered specifications. The goal of the project is to restore natural function to the creek, reduce specifications. The goal of the project is to restore natural function to the creek, reduce further incision of the creek bed and erosion of its banks, raise the elevation of the creek bed to reconnect the creek with its former floodplain, restore the floodplain's ability to store sediment, address water quality impairment for sediment, and result in improved habitat conditions for several rare and endangered species, including steelhead trout ( <i>Oncorhynchus mykiss</i> ), California red-legged frog ( <i>rana draytonii</i> ) and San Francisco garter snake ( <i>Thamnophis sirtalis tetrataenia</i> ). Additionally, the project would improve conditions along Pescadero Creek Road, where sediment build-up in Butano Creek results in frequent flooding and is a public safety hazard to vehicles on Pescadero Creek Road.	<b>NOE</b>	
2016038270	Bernal Heights Park Trail Improvements San Francisco, City and County of San Francisco--San Francisco Restore existing trail and provide new trail connections; decommission social trails that contribute to soil erosion and loss of sensitive habitat; restore existing steps and provide new box steps as needed; provide two swing gates; provide water bars along trail as needed; provide new protective fencing as needed to protect habitat and for public safety; provide new low retaining walls as needed; provide soil erosion control measures including biotechnical solutions; native plant restoration; hazardous tree removal; provide wayfinding and interpretive signage; enhance entries at neighborhoods by clearing and grubbing, provide new plantings and trail welcome signage.	<b>NOE</b>	
2016038271	Loafer Creek Fuel Reduction Plan Water Resources, Department of Oroville--Butte Vegetation treatment (thinning, multicutting, pile burning, prescribed burns) of approximately 937 acres for fuel load reduction. Manage the risk potential associated with catastrophic wildlife and enhance public safety. This project will avoid all cultural and sensitive resources.	<b>NOE</b>

	86. There is no change in reference to adopted pre zone no. 14-59. The prezoning only affects the subject 100 ft wide Burlington Northern Santa Fe railroad ROW as identified in APN: 091-261-31.		
	Under pre zoning no. 16-62, the City of Shafter prezoned the 100 ft wide Burlington Northern Santa Fe railroad ROW along the eastern edge of Area No. 1 of Annexation No. 83 to correct an error from the legal description previously utilized for annexation no. 83 under pre zone no. 12-55 (ordinance no. 660). The 100 ft wide Burlington Northern Santa Fe railroad ROW along (and within) the eastern boundary of Area No. 1 of Annexation no. 83, north of 7th Standard Rd and south of Burbank St, is prezoned with the Agriculture district as previously proposed for, and consistent with, prezone no. 12-55 for annexation no. 83. There is no change in reference to adopted pre zone no. 12-55. The prezoning only affects the subject 100 ft wide Burlington Northern Santa Fe railroad ROW as identified in APNs: 090-180-09, 091-251-06, 091-252-07, and a portion of 091-261-31.		
2006112070	South Tahoe Greenway Shared-Use Trail (Greenway) Project Modifications Tahoe Conservancy South Lake Tahoe--El Dorado First approved in 2011, the Greenway establishes a 3.86-mile paved trail to provide the backbone of the bicycle trail network in the core of South Lake Tahoe, linking residential and lodging uses to jobs, schools, shopping, and recreation areas. Project changes examined in the IS/MND would modify one mile of the approved trail between Sierra Blvd and Glenwood Way. They include revisions to the alignment for the Trout Creek crossing to reduce environmental impacts, design refinements in several areas that update project proposals, and needed easements. In addition, the Supplemental IS/MND considers a property exchange between the California Tahoe Conservancy, Lake Tahoe Community College, and the City of South Lake Tahoe to facilitate project implementation. The Supplemental IS/MND only addresses the environmental impacts of the section of trail proposed for realignment. Other sections of the 3.86 mile trail are unaffected by the proposed realignment and are therefore not revisited in the supplemental IS/MND.	<b>NOD</b>	
2007072011	Aerojet Landfill Closure Modification Plan Sacramento County Rancho Cordova--Sacramento The Aerojet Landfill Clean Closure modification plan is a clean closure plan intended to facilitate the removal of the Aerojet Superfund Site in preparation for future urban development. CalRecycle has determined that revisions to the project description are not substantial and do not involve new significant effects on the environmental or a substantial increase in the severity of previously identified significant effects that would justify a subsequent EIR or ND under 14 CCR 15162. CalRecycle has considered the previous 2008 MND and 2016 Addendum and fine them adequate for project approval.	<b>NOD</b>	
2010032096	City of Crescent City - General Plan Amendment - GPA1001C Del Norte County Crescent City--Del Norte Note: Addendum The 2010 IS/ND evaluated impacts related to the extension of public water and sewer to serve the Elk Valley Rancheria's proposed resort/casino on the Martin Ranch property (APN 115-020-28). 2016031067	Salmon Minor Use Permit San Luis Obispo County San Luis Obispo--San Luis Obispo A request by David Salmon for a Minor Use Permit to allow the construction of a 6,170 sq. ft. single family residence with an attached 1,114 sf garage and a 176 sf storage space. The project includes an approx. 175 foot long driveway from Paseo de Caballo to the site. The project is located on the west side of Paseo de Caballo, approx. 1,500 feet southwest of Hwy 1, approx. 400 feet north of the community of San Luis Obispo. The site is in the San Luis Obispo Sub-area (north) of the San Luis Obispo Planning Area.	<b>MND</b>	04/20/2016
2016031068	Ferrara Minor Use Permit; DRC2015-00069 San Luis Obispo County --San Luis Obispo Note: Review Per Lead  A request by Christopher Ferrara for a Minor Use Permit to allow the phased construction fo a winery facility with public tasting room. At build-out the winery facility would total 10,331 sq. ft. Wine production is estimated at 15,000 cases per year. The applicant also requests a setback modification (LUO Section 22.30.070.D.2.d. 1) to allow a setback of less than 200 feet for the tasting room during Phase I and Phase II. The project will result in the disturbance of approx. 1.47 acres on a 30 acre parcel. The proposed project is within the Agricultural land use category and is located on the west side of Templeton Road (at 1875 Templeton Road), adjacent to the City of Atascadero and approx. 0.5 miles southeast of the community of Templeton. The site is in the El Pomar-Estrella sub area of the North County planning area.	<b>MND</b>	04/29/2016
2016031069	Pamo Valley Segment of the Coast to Crest Trail San Dieguito River Park Joint Powers Authority --San Diego Construction of 3-mile long multik-use public trail.	<b>MND</b>	04/20/2016
2016032060	Hakone Estate & Gardens Master Plan Saratoga, City of Saratoga--Santa Clara The project is an update of the Hakone Estate & Gardens Master Plan. The Master Plan proposes to improve the layout of the parking/welcoming areas. Improve garden features and event spaces, and provide accessible access to the gardens. The primary components are as follows: 1) a new arrival sequence including parking lot and service drives, 2) a new entry courtyard and garden including accessible path, and 3) a new garden maintenance and operations yard. Other smaller repairs and improvements are also identified in the Master Plan.	<b>MND</b>	04/20/2016
2016032061	Royal Gold Soil Operation Conditional Use Permit CUP-13-021 Humboldt County Blue Lake--Humboldt A CUP is being sought by the Applicant (Royal Gold LLC), to allow the manufacturing and distribution of potting soil within an approx. 18.9 acre area spread across multiple parcels in the Glendale area. Note: since March of 2009, Royal Gold has been operating their soil manufacturing, wholesale, and distribution business from the site, without the benefit of County review. The CUP seeks to bring into compliance the existing soil manufacturing operation and allow expansion.	<b>MND</b>	04/20/2016

2013082088	North Bayshore Precise Plan - Residential Uses Mountain View, City of Mountain View--Santa Clara The City of Mountain View proposes to amend the 2030 General Plan an the current North Bayshore Precise Plan (P-39) to allow an increased number of residential units within the North Bayshore Precise Plan area. The existing Precise Plan would be amended to allow up to 9,850 multi-family residential units. This would reflect an increase of approximately 8,750 residential units above the number of dwelling units currently allowed in the 2030 General Plan for the Norht Bayshore Change Area. The Subsequent EIR would include program-level analysis of one to two bridge connections across Stevens Creek, in addition ot other infrastructure improvements planned for the build-out of the plan.	<b>NOP</b>	04/20/2016
2016031071	West Valley Connector Project Omnitrans --Los Angeles, San Bernardino The proposed West Valley Connector Project is a 25-mile long Bus Rapid Transit (BRT) project, which is proposed to improve the speed and quality of public transit service within the corridor. Bus Rapid Transit is an innovative bus based system that improves the quality of the traditional bus experience through the provision of dedicated lanes, limited stops, more frequent headways, and transit signal priority. The proposed project includes stations at 27 locations/major intersections along with associated improvements.	<b>NOP</b>	04/20/2016
2016031070	Curletti Farm Labor Housing Project Santa Barbara County Santa Maria--Santa Barbara Construction of 600-bed farm labor housing project to accommodate temporary guest workers pursuant to the Federal H-2A Program.	<b>Neg</b>	04/20/2016
2016032059	Smith River Alliance - Immediate TPZ Rezone - R1602 Del Norte County --Del Norte The proposed project is to change to zoning on 15.25 acre parcel from 11.33 acres of TPZ and 3.92 acres of PO to FR-2 (Forest-Recreation, 2 acre minimum lot size). The site is adjacent to the south fork of the Smith River. Known as Rock Creek Ranch, the site is owned and operated by the Smith River Alliance, a non-profit corporation, as a site for environmental education programs and activities. It is currently developed with a lodge, caretakers quarters/garage, tent, camping sites, and community gathering/cooking facilities. Many land uses and development activities are restricted in the TPZ zone. The proposed change to FR-2 will be more consistent with the current land use and will facilitate future expansion of the existing use. The applicant has indicated they desire to construct new caretakers quarters in 2018.	<b>Neg</b>	04/20/2016
2016032062	PA-1600040 San Joaquin County Stockton--San Joaquin A Site Approval Application for a truck parking facility for a maximum of forty-one (41) semi-trucks with eighty two trailers and eight bobtail trucks. The application includes the construction of one 200-sq.ft. guardhouse.	<b>Neg</b>	04/20/2016

1992071053	<p>Chiquita Canyon Landfill Expansion Project No. 89-081 (5) Los Angeles County LA VERDE--Los Angeles Waiver pursuant to County Code section 22.04.110 to allow continued processing of Project No. R2004-00559-(5) (CUP No. 200400042), in the event Chiquita Canyon Landfill reaches its max capacity, as authorized by approved CUP No. 89-081, before the County of LA concludes its processing of the CUP application. The County adopted an addendum to the Final EIR certified in 1997 for CUP no. 89-081. Landfill operations remain subject to the previously adopted mitigation measures, MMRP, and CEQA Findings/Statement of Overriding Considerations for the certified Final EIR.</p>	<b>NOD</b>	
2008061136	<p>Plot Plan No. 25422 (Alessandro Commerce Centre) Revised Focused Draft EIR Riverside County Riverside--Riverside The plot plan proposes to develop two industrial buildings totaling 814,630 sf. Building 1 is intended as a logistics warehouse and will occupy 598,190 sf and building 3 will be designated for general or multi-tenant warehousing and will occupy 216,440 sf. The project will also include 581 parking spaces and two detention basins. The EIR studies the environmental impacts of the proposed project.</p> <p>This project was previously approved as plot plan 22925. A subsequent law suit and settlement agreement required the approvals to be vacated and reprocessed with the inclusion of a biological corridor. The project has changed the layout and the number of structures. Impacts are generally reduced by the new design. An EIR was previously done for the site, EIR510, which was also vacated. A new revised focused EIR has been drafted building on the previous EIR510.</p>	<b>NOD</b>	
2011072008	<p>Mantrex, Inc. dba WIT Sales and Refining Standardized Hazardous Waste Facility Permit Toxic Substances Control, Department of San Jose--Santa Clara The project is DTSC's proposed approval of the Standardized Hazardous Waste Facility Permit, Small Quantity C for Mantrex, Inc. dba WIT Sales and Refining under the Chp 6.5 of the Health and Safety Code, sections 25200 and 25201.6. Under the Standardized Permit, WIT would be authorized to operate the same treatment and storage units as allowed under its current permit. It would also allow the addition of an electrolytic metal recovery treatment units, as well as the following waste streams: off-site wastes containing precious metals such as spent solution containing palladium, platinum and spent gold iodine etch solutions. This approval encompasses changes and additions to the Facility operations pursuant to the Nov 10, 2015 Standardized Permit application.</p> <p>Project Activities: Under the permit, WIT would continue to perform the following: - operation of a hazardous waste storage and treatment facility to reclaim precious metals from off site wastes generated by printed circuit board manufacturers. These activities are conducted in one building. - As a registered hazardous waste transporter, collect the above wastes in DOT approved containers and transport those wastes to the Facility in SJ. - Collect scrap printed circuit boards, scrap electronic chips and scrap metals, and transport them to the Facility in SJ for treatment.</p>	<b>NOD</b>

2016021033	Groundwater Pumping and Conveyance Project Westlands Water District Huron, Mendota, Firebaugh--Fresno, Kings The Westlands Water District Groundwater Pumping and Conveyance Project is located in Fresno and Kings Counties within the WWD. The source of the water would be groundwater wells located throughout the WWD. The proposed project would result in no more than 30,000 AF of groundwater being pumped into the San Luis Canal annually from 2016 through 2019. The groundwater would be pumped into the SLC via licensed water integration facilities located on either side of this canal. Although wells are located throughout the WWD, only those where groundwater produced meets the United.	<b>NOD</b>	
2016038264	Polhemus Pipeline SM 26 Fish & Wildlife #3 --San Mateo The project entails replacing a 16-inch cast iron water conveyance pipeline identified as the P-Line with a 16-inch ductile pipeline. Approximately 1350 linear feet (lf) of pipeline will be replaced along the east side of Polhemus Road to the north side of Crystal Springs Road where it crosses San Mateo Creek along the edge of a double concrete box culvert. From there it runs parallel to the western creek bank and then ties into an existing water line on the west side of the San Mateo Creek. The existing northern end of the pipeline is attached to a decommissioned bridge and will be abandoned in place. The new pipeline is attached to a decommissioned bridge and will be abandoned in place. The new pipeline will be installed in a trench 3.5 feet wide by 5.8 feet deep. Approximately 10 to 30 feet on either side of the trenches will be disturbed by constructing the trenches, replacing the pipeline and backfilling. A small excavator will be used to dig the trenches. Issuance of a streambed Alteration Agreement Number 1600-2015-0347-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2016038317	Doyle Springs Project Forestry and Fire Protection, Department of --Tulare This project will consist of a fuel reduction zone to protect the community of Doyle Springs. The reduction zone will consist of approximately 180 ac. Of limbing trees, clearing brush and dead trees. The majority of brush and dead trees surrounding the community of Doyle Springs will be removed. This area has been decimated by drought and bark beetle attack. The majority of the over story trees are dead and will be removed. Until these trees are removed they pose a safety hazard. They increase the fire danger in the area and put people and property in danger from falling limbs and trees. All dead trees may be removed and the slash will be treated by either pile burning, chipping or removed off site to be disposed of. Some healthy trees less than 6" DBH may be removed in order to space out the remaining trees. An attempt to retain all healthy trees shall be imposed. Healthy trees > 6" DBH shall be limbed up to 15' in height or to 2/3 of the height of the tree if the tree is less than 25' in height. All work will be done by CAL FIRE hand and engine crews. Chips generated will be left on site for use by the community. A fire break shall be constructed around the chip pile to ensure that if the pile was to catch fire it will be contained to the pile with no extension into the wildland. The chip pile may be spread out and used as dust abatement for the area. Chipping work will be confined to this area and of the existing roads to minimize ground disturbance. Heavy equipment may be used to skid logs out of the fuel reduction zone area to where the can be treated. This activity supports the current	<b>NOE</b>

<b><u>Documents Received on Tuesday, March 22, 2016</u></b>			
2016038318	<p>Community Wildfire Protection Plan (CWPP) that is in place as well as the Unit's Fire Plan. The vegetation that is to be removed will consist of dead trees, down trees, limbs, blackberries, and various brush species. This fuel reduction zone will help protect home within the SRA.</p> <p>RRU 2016 Dead/Dying/Diseased Tree Removal Forestry and Fire Protection, Department of --Riverside</p> <p>The project goal is to remove dead, dying and diseased trees with various diameters on approximately 20 acres located on private properties in and around the mountain communities of Idyllwild, CA. The area has experience extremely high tree mortality due to the recent severe drought conditions. The gold spotted oak borer (GSOB) and native bark beetles are killing oak and pine species in the southern California forested Landscape. The California Board of Forestry and Fire Protection has declared the aforementioned area as a Zone of Infestation for both the pine bark beetle and GSOB. Trees are an important component of forested ecosystems in California and removal of already infested, dead, dying, diseased trees will eliminate pests and slow the spread rate, enhancing the survival rate of existing tree populations, and; create a fire safe condition, an imperative requirement in a forested mountain community. Depending on the tree species, treatment will consist of felling, limbing, debarking, bucking and chipping of infested trees assessed by an RPF. Under direct supervision of a CAL FIRE crew captain, camp crews will fall, limb, debark, buck, chip or tarp targeted trees. No commercial operations are planned.</p>	<b>NOE</b>	
2016038319	<p>Palomar Park Fuel Reduction Forestry and Fire Protection, Department of --Santa Cruz</p> <p>The Palomar Park Fuel Reduction Project is located in Palomar Park, a suburban community in San Mateo County, Palomar Park is on the upper hillsides above Redwood City and east of I-280. The proposed treatment sites are widely spread along the relatively narrow winding streets within the neighborhood. Treatments include approximately 5 acres of roadside brush removal (primarily French Broom and coyote brush), removal of approximately 15 eucalyptus trees utilizing a professional tree service, and a goat grazing site that encompasses approximately 10 hillside acres. With the exception of grazing, the majority of the work areas will be accessed directly from the paved streets. Tree removal will occur mostly from bucket trucks or climbers, with material lowered in sections to avoid collateral damage on the narrow roads to other resources including utilities and residential site improvements. No tractor skidding or off road equipment will be utilized. All woody material will be chipped and disposed of at permitted on and off-site disposal areas. Minimal or no ground disturbance is expected and erosion potential is not significant. No watercourses are located within the treatment sites.</p>	<b>NOE</b>	
2016038320	<p>Deer Trail Fuels Reduction Project Forestry and Fire Protection, Department of --Kern</p> <p>Bear Valley Springs is a community of over 4,000 households located about 20 miles west of Tehachapi in a valley adjacent to Bear Mountain. Over 1300 acres of the 25,000 acre community are located within a coniferous forest. Due to the extreme drought conditions and the ensuing western pine bark beetle infestation in this area, up to 85% of the conifers are dead or dying.</p> <p>The long duration of sun exposure coupled with the strong afternoon Tehachapi winds presents a most challenging fire suppression environment. Bear Valley</p>	<b>NOE</b>

2016038321	<p>Springs has been identified in the Greater Tehachapi Community Wildfire Protection Plan as one of the communities most at risk. Specifically, the CWPP states the homes located off Deer Trail Drive are at the highest risk within the study area. Deer Trail Drive is the only ingress-egress route for this portion of the community.</p> <p>Dead and dying trees were removed from a number of parcels along Deer Trail in the Fall of 2015 by an LTO under drought morality exemptions. The utility company is currently removing more trees that threaten power lines.</p> <p>There are two projects currently planned for this Spring along Deer Trail Drive. First, a Licensed Timber Operator will harvest and remove dead, dying, and hazardous conifers requiring professional felling and heavy equipment. This work will be done under 1038(k) Drought Mortality Exemptions.</p> <p>Following the timber harvest, hand crews from the Kern County Fire Department will treat the logging slash, brush, and smaller dead and dying hazard trees. This is the 214 acre Deer Trail Fuels Reduction Project. The majority of the slash will be chipped and the chips blown back onto the property. If portions of the project area are not accessible to the chipper or otherwise impractical to chip, piling and burning shall be done instead. Some of the larger pieces may be left on site or removed for firewood.</p> <p>Howell Mountain School Fuel Reduction Project Forestry and Fire Protection, Department of --Napa</p> <p>The California Department of Forestry and Fire Protection (CAL FIRE) is planning to create a shaded fuel break around the Howell Mountain Elementary School located on White Cottage Road in Angwin, CA. The Fuel break will enhance the school property as a temporary refuge Area for the community by acting to slow an advancing fire, provide a location where crews could more effectively and safely combat a fire, and improve the effectiveness of air tanker drops in the event of a wildfire. The majority of the project will occur northeast of the school on private property, with some flammable brush and small trees removed from the densely vegetated area in the southeast portion of the school property.</p> <p>Vegetation in the project area consists of an overstory of trees including oaks (<i>Quercus</i> spp.), Douglas-fir (<i>Pseudotsuga menziesii</i>), and gray pine (<i>Pinus sabiniana</i>), with smaller trees such as California bay laurel (<i>Umbellularia californica</i>) and madrone (<i>Arbutus menziesii</i>) interspersed. Brush in the understory consists of manzanita (<i>Arcostaphylos</i> spp.), toyon (<i>Heteromeles arbutifolia</i>), buck brush (<i>Ceanothis cuneatus</i>), and mountain mahogany (<i>Cerocarpus</i> spp.). A variety of forbs make up a scattered layer of ground-level vegetation.</p> <p>The project area is approximately three acres, consisting of a strip ranging from 60 to 150 feet wide for approximately 1700 linear feet. Ladder fuel vegetation in the understory will be removed by hand will be chipped or lopped and scattered. CAL FIRE Firefighter I hand crews I use chainsaws and loppers to cut brush and small trees (&lt;^" diameter), which will be dragged to a chipper stationed on the road or other paved areas or lopped and scattered for decomposition.</p>	<b>NOE</b>	
2016038322	<p>AGGOPS, INC Energy Commission Irvine--Orange</p> <p>Introduce best practices from the energy design of mobile devices to other electronic plug load devices, such set-top boxes, television sets, personal computers, and game consoles.</p>	<b>NOE</b>

2016038323	California Sustainable Energy Entrepreneur Development (CalSEED) Initiative Energy Commission -- The CALSEED initiative will support the early development of promising new energy concepts that can provide benefits to electric ratepayers in Pacific Gas and Electric, Southern California Edison, and San Diego Gas & Electric service territories.	<b>NOE</b>	
2016038324	Institute of Gas Technology dba Gas Technology Institute Energy Commission Irvine, Riverside--Orange, Riverside Gas Technology Institute (GTI) and Cummins Westport Inc. (CWI) will utilize the ISB6.7 spark ignited natural gas engine and further develop an advanced version of this engine with heavy duty on-board diagnostics to meet 2018 EPA and ARB regulations for alternative fueled heavy duty vehicles. A number of tasks will be completed to address integration barriers currently preventing the ISB6.7 G to work within existing vehicle chassis and also the mounted engine control unit (ECU) which allows the ISB6.7 G to work within existing vehicle chassis and also the compatibility with a hydrostatic drive which is utilized in street sweeper applications. This engine will then be deployed in a number of vehicles in multiple applications including street sweepers, shuttle buses and school buses in California where the development tasks conducted will be utilized in real world operation and validated over a variety of duty cycles applicable to those vehicles (i.e. Shuttle Bus, sweeper, and school bus) with the performance measured and assessed. CWI will be targeting existing end-users of CWI ISB6.7 G engines and also those that may currently be utilizing ISB6.7 diesel engines and wanting to convert their fleet to natural gas.	<b>NOE</b>	
2016038325	Integration of Advanced Solar Thermal Technology into Industrial Processes Energy Commission Corcoran--Kings The purpose of this agreement is to fund the demonstration of an integrated high-efficient solar thermal (ST) system with high-performance evacuated tube collectors (ETCs) for industrial processes at an existing facility.	<b>NOE</b>	
2016038326	Institute of Gas Technology dba Gas Technology Institute Energy Commission Hanford--Kings Installation of Industrial Boiler Economizer. Through this demonstration project, Gas Technology Institute (GTI) will demonstrate an emerging heat recovery technology for industrial steam applications that require hot process water. The heat recovery system, called a "SideKick", will be installed and tested in a new application (industrial steam boilers). This new application offers the opportunity for substantial waste heat recovery resulting in increased fuel efficiency and greenhouse gas emissions (GHGs) reductions. A unique feature of the technology is predesigned modules and exclusive software that determines size and flow requirements for precise sizing. The resulting reductions in application engineering and heat recovery hardware costs lead to lower installation costs and greater potential for market adoption. The technology will be demonstrated at Central	<b>NOE</b>

	Valley Meats in Hanford, CA. This project will independently document the energy efficiency, energy cost reductions, performance and installation requirements for this innovative approach to low cost industrial heat recovery.		
2016038327	Unlocking Plug Load Energy Savings through Energy Reporting Energy Commission Berkeley--Alameda This grant will fund the development of technologies that enable plug-load devices to transmit operating information such as identity, power consumption, and functional state through a communications network to alert building owners and operators of wasteful operation and provide them with clear, actionable advice on responding.	<b>NOE</b>	
2016038328	Temporary Emergency Permit for Treatment of Hazardous Waste, Cornerstone Properties, CA Toxic Substances Control, Department of --Sonoma The California Department of Toxic Substances Control (DTSC), pursuant to authority granted under Chapter 6.5, California Code of Regulations, Title 22, section 66270.61, has issued an Emergency Permit to Cornerstone Properties (Cornerstone) to treat hazardous waste by chemical stabilization.	<b>NOE</b>	
2016038329	Eel River Peninsula - Foster Mountain Ranch Forestry and Fire Protection, Department of --Mendocino The Foster Mountain Ranch consists of 3,829 acres adjacent to the Sanhedrin Wilderness. The property is located approximately 8 air miles northwest of Willits on the southwest side of the Eel River in Mendocino County. Elevations of the Ranch range from 1,342 feet above sea level on the Eel River to approximately 3,120 feet at the top of Foster Mountain on the western property line. The Eel River runs along the eastern boundary and through the northeast portion of the ranch. Foster Mountain Ranch is one of the three properties within the watershed being funded for conservation easements. CAL FIRE is acquiring the property as a conservation easement for the purpose of protecting forest and rangeland uses including wildlife habitat, watershed stabilization and the continued production of forest products. The federal forest legacy program was created with clearly delineated open-space conservation goals and objectives to protect environmentally important private forest lands threatened with conversion to non-forest uses pursuant to Section 1217 Title XII of the Food, Agriculture, Conservation and Trade Act of 1990 (16 U.S.C section 2013C). Congress has awarded a Forest Legacy Program grant to CAL FIRE in order to aid in the purchase of the easement conveyed for conservation of forested, agricultural and open-spaced land.	<b>NOE</b>

	or bicycle. Features include: plantings, seating walls, benches, tables, trashcans, restroom building, shade structure, drinking fountain, bike racks, themed play structure for young children, a small central turf area surrounded by a walking path, doggie mitt station, interpretive exhibit/signage, and signage at the park entry. Storm water drainage will be accommodated by a bio-swale, new drainage inlet, and connection to the existing storm drain system in the public road right-of-way outside the site.		
2016032067	Old Mountain View-Alviso Road Bridge Replacement at Calabazas Creek Sunnyvale, City of Sunnyvale--Santa Clara The project would construct a new bridge on Old Mountain View-Alviso Road over Calabazas Creek. The replacement bridge would be constructed on the same alignment as the existing bridge and would consist of a three span bridge approx. 125 feet in length and 52 feet in width. The bridge would include two 12 foot traffic lanes, two 8 foot shoulders/bike lanes, two 5 foot sidewalks and two 1 foot barriers. The roadway profile on each side of the replacement bridge would be raised slightly to accommodate 100-year flows in Calabazas Creek and appropriate site distances along Old Mountain View-Alviso Road. Old Mountain View-Alviso Road and the Calabazas Creek Trail would be closed to vehicular, bicycle and pedestrian traffic for 3-4 months during demolition of the bridge and approach road, and construction of the new bridge and approach roadway.	<b>MND</b>	04/22/2016
2016031080	Rancho Palma Project San Bernardino, City of San Bernardino--San Bernardino The approx. 42-acre project site is located along the north side of West Little League Drive and west of Palm Avenue in the Verdemon Heights area of the City of San Bernardino, San Bernardino County, CA. The project proposes a Specific Plan to allow the future development of up to 120 single-family residential dwelling units and up to 98,000 sq. ft. of commercial uses. In addition, two private parks and a paseo are proposed within the residential portion, along with a recreational vehicle storage lot. Approx. 0.5 acre of parkland will be dedicated for the expansion of the existing Ronald Reagan Park. The project is intended to provide a mixed-use neighborhood that will offer additional shopping and commercial services within walking distance for residents of Rancho Palma and the Verdemon Heights Community, as well as to capture regional traffic along adjacent I-215. Access to the project site will be provided via West Little League Drive and (proposed) Magnolia Avenue. The County APN associated with the project include: 0261-181-01, 0261-181-13, 0261-181-14, 0261-181-15 and 0261-182-10.	<b>NOP</b>	04/22/2016
2016031085	Western Realco Bloomington Facility San Bernardino County --San Bernardino The proposed project is comprised of the following three elements: 1) The request for a General Plan Amendment to change the existing land use designation from Bloomington/Residential 1-acre minimum lot size-additional agricultural overly (BL/RS-1AA) and Bloomington/Institutional (BL/IN) to Bloomington/Industrial (BL/IC) on ~34.54 acres; 2) the Approval of Tentative Parcel Map 19635 to combine the existing 17 parcels into one lot on 34.54 acres; and 3) the approval of a Conditional Use Permit (CUP) to construct a 676,983 sf industrial warehouse building and associated facilities, including two detention basins.	<b>NOP</b>	04/22/2016

2012052063	San Mateo County MVCD Integrated Mosquito and Vector Management Program San Mateo County Mosquito and Vector Control District --San Mateo The San Mateo County Mosquito and Vector Control District (District/Project Sponsor) undertakes activities through its Integrated Mosquito and Vector Management Program (IMVMP) to control the following vectors of disease and/or discomfort within its San Mateo County Service Area: mosquitoes, rats, yellow jackets, and ticks. (A vector is defined as "any animal capable of transmitting the causative agent of human disease or capable of producing human discomfort or injury..." (The CA Health and Safety Code, Section 2200(f)). The District is preparing a PEIR to evaluate the effects of the continued implementation of the control strategies and methods prescribed in its IMVMP.	<b>EIR</b>	05/09/2016
2012082093	Napa Oaks II Napa, City of Napa--Napa The project consists of the subdivision of an 80.63 acre hillside property at 3095 Old Sonoma Road into 54 single family lots and 4 open space lots and 44.48 acres preserved as open space. The primary access would be located on the south of Old Sonoma Road opposite Lilienthal Ave, with a secondary EVA access further west on Old Sonoma Rd. The site currently contains two residences and associated outbuildings and is used for the grazing of cattle. Areas of the site have been graded in the past, and the proposed home sites have been plotted on the flatter portion of the property with slopes generally less than 15 percent.	<b>EIR</b>	05/09/2016
2013041015	Northwest Fresno Walmart Project Fresno County Fresno--Fresno The proposed project consists of the relocation of the existing Walmart Store No. 1815 from 3680 W. Shaw Avenue to the project site (4080 W. Shaw Avenue). (The two sites are located on opposite sides of N. Brawley Avenue). The interior building sf would be approximately 193,361, with 111,724 sf assigned to general merchandise sales, 38,231 sf assigned to grocery sales, and the remaining 43,406 sf allocated to various other uses. The outdoor garden center would total 5,795 sf. The project would also involve modifications to the exterior of the existing building and the incorporation of numerous energy-saving sustainability features. The project also includes approval to establish a State of California Type 21 liquor license (sale of beer, wine, and distilled spirits for consumption off the premises where sold).	<b>EIR</b>	05/09/2016
2015051069	EIR 8-14; Valentine Solar Project by Valentine Solar, LLC / EDF Renewable Development, Inc. Kern County Mojave--Kern The project proponent is requesting: (a) Amendment to the Circulation Element of the Kern County General Plan and the Willow~ Spring Specific Plan to remove sections and midsection line road reservations, as follow: The west half of the Section line between Section 32, TJON, R14W and Section 5, T9N, R14W; The west half of the east-west mid-section line of Section 4, T9N, R14W; the north half	<b>EIR</b>	05/09/2016

	PG&E existing Los Banos Substation or the new Los Banos West Substation and Western's existing San Luis Substation; a 230-kV transmission line about 20 miles in length between Western's San Luis Substation; a 230-kV transmission line about 20 miles in length between Western's San Luis Substation and Western's existing Dos Amigos Substation or a new 230-kV transmission line about 18 miles in length between the new Los Banos West Substation and Western's existing Dos Amigos Substation; and an interconnection with the existing Western 500 kV Los Banos-Gates No. 3 transmission line just south of PG&E's Los Banos Substation into the new Los Banos West Substation. SLTP would also include a new 70-kV transmission line about seven miles in length between the existing San Luis and O'Neil Substations. Additional components of the SLTP would include substation improvements, communication facilities, improvements to existing access roads, new permanent access roads, and temporary access roads to facilitate construction activities.		
2016031087	Tentative Tract Map SUBTT19968, Design Review DRC2015-00589, Certif. of Appropriateness DRC2016-00180 Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino A request to subdivide 5.0 acres into 11 lot in the Low Residential District, retain the historic Ernst Muller House on one lot within the subdivision, and develop 10 new single-family homes on the remaining 10 lots on the east of East Avenue, south of the 210 freeway, located at 6563 East Avenue.	<b>MND</b>	04/25/2016
2016031089	Director's Review 15-85 Lancaster, City of Lancaster--Los Angeles Concrete recycling yard with modular office trailers. The site currently has an auto dismantling use that will be removed prior to the operation of the concrete recycling yard.	<b>MND</b>	04/25/2016
2016032071	Wiedemann Hill Cell Site Access Road Realignment (County File #LP15-2009) Contra Costa County San Ramon--Contra Costa The project proponent seeks approval of a Land Use Permit to amend County File #LP11-2082, to allow a grading permit to grade approximately 5,300 cy of earth material for the purpose of realigning an existing access/service road for an established telecommunications facility on top of Wiedemann Hill in unincorporated San Ramon. The new road alignment will access the telecom site from the eastward-facing slope below the crest of Wiedemann Hill and will be 12-ft wide and approximately 760 ft in length. The road is being realigned due to the expiration of an access easement on a portion of the existing road where the property owners have declined to renew the easement. No increase in traffic, residential development, or other construction is proposed.	<b>MND</b>	04/25/2016
2016032074	580-620 Clyde Avenue Office Project Mountain View, City of Mountain View--Santa Clara The project is the redevelopment of an existing office/light industrial site with high-density office uses. The project proposes to demolish 75,841 sf of space in two existing single-story buildings, remove surface parking, landscaping, 54 of 90 existing trees, and other improvements in order to construct a new five-story office building containing up to 178,477 sf of space. The project would also construct a four-level parking garage containing 484 spaces, install 51 surface parking	<b>MND</b>	04/25/2016

	with local government support) and local measures to be implemented by local governments with RCPA and regional agency support and on their own) to reduce GHG emissions.		
2016022047	San Francisco Bay Creosote Removal and Pacific Herring Habitat Restoration Project California State Coastal Conservancy Richmond, Tiburon--Contra Costa, Marin The proposed project is considered to be a pilot project, which will be undertaken to further the objectives of and to achieve consistency with requirements of many environmental laws and regulation while also addressing the goals set forth in the San Francisco Bay Subtidal Habitat Goals Project. The proposed project would remove artificial structures such as creosote-treated piles and collapsed decking in combination with a living shoreline restoration design that will use natural bioengineering techniques (such as eelgrass plantings and reef structures for native oysters) to replace lost habitat structure in order to improve the overall ecological health of the SF Bay and improve the spawning and development success of Pacific herring and other species.	<b>FIN</b>	
2015072007	Russian River Cotati Intertie Pipeline Seismic Hazard Mitigation Project Sonoma County Water Agency --Sonoma The purpose of the Project is to reduce potential pipe failure and loss of water supply service resulting from permanent ground deformation caused by a moderate or severe earthquake along the Rodger's Creek Fault. The project consists of the following components: (1) abandon and replace sections of the existing underground pipeline on the north and south sides of the Russian River; (2) abandon and replace an underground pipe connection to a collector well; and (3) install supporting components. Approx. 1,080 linear feet of 48 inch diameter steel pipeline would be installed on the north and south sides of the Russian River Channel.	<b>MND</b>	04/26/2016
2016031091	Schwenk Monterey County --Monterey The proposed project consists of the addition of an exterior stairwell, and the 2' lowering of the floor of a connecting 144 sq. ft. room. The structure is an existing 2,080 sq. ft., two-story single family dwelling. The proposed project will require excavation to a depth of 36"-42" below the existing floor for placement of a new foundation. Additional minor interior re-modeling is proposed which will not require excavation.	<b>MND</b>	04/26/2016
2016032077	St. Alphonsus Alameda County --Alameda The project is for the development of 56 for sale to townhouses and 6,000 sq. ft. of commercial space. In order to construct a mixed use development, the applicant is requesting the following: 1. General Plan Amendment to change the land use designations on portions of the project site from Residential Low Density Multi-Family (13 to 22 du/acre) to/from Neighborhood Commercial Mixed Use (22 du/acre); 2. Planned Development (PD) Rezoning; 3. Tract Map Subdivision and 4. Site Development Review.	<b>MND</b>	04/26/2016

	92675. The proposed project is a modification of a recent project (Final SEA for PAR 1110.2, certified on Dec. 4, 2015), and this analysis considers only the incremental effects of the currently proposed project. Therefore, this Draft SEA focuses on air quality and greenhouse gases as areas that may be adversely affected by the proposed project, as the proposed amendments do not affect any other environmental topic areas.		
2011011010	<p>Long-Term North to South Water Transfer Program San Luis and Delta Mendota Water Authority --Yuba</p> <p>Butte Water District, as responsible agency, is approving the Long Term Water Transfers EIS/EIR (SCH No. 2011011010) that analyzes transfers from Butte and other potential sellers from 2015 through 2024; Butte adopted an addendum analyzing transfers during 2015 through 2024 to additional buyers that are members of the State Water Contractors, Inc.; Butte adopted the 2016 Water Transfer Project of up to 11,500 acre-feet of water made available by rice land idling and up to 5,500 acre-feet of water made available by groundwater substitution to participating members of the State Water Contractors, Inc. and/or San Luis &amp; Delta Mendota Water Authority.</p>	<b>NOD</b>	
2012061063	<p>Portola Center Project Lake Forest, City of Lake Forest--Orange</p> <p>Site Development Permit 10-15-4841 is a request to develop Lot 317 of Tract 15353 with a 1.64 acre private park. The park will be accessible to all residents in the Portola Center development. The private park includes a 2,127 sq. ft. recreation center with an event lawn area, a swimming pool, spas, cabanas, a pool pavilion building (pool equipment, storage and restrooms), a multi-purpose field, playground, toddler playground, barbeques, picnic pavilion with shade structure and park trellises.</p> <p>The project was evaluated in and contemplated by the SEIR that was prepared for the Portola Center project (SCH# 2012061063) and certified by the City of Lake Forest City Council on Nov. 5, 2013. The Portola Center certified SEIR was not challenged within the time period prescribed in subdivision (c) of Public Resources Code section 21167 and thus the SEIR is presumed valid in accordance with Public Resources Code section 21167.2. The proposed project is consistent with scope of the approved Area Plan and Tentative Tract Map 15353. Therefore, the certified SEIR serves as the approved Area Plan and Tentative Tract Map 15353. Therefore, the certified SEIR serves as the environmental documentation for the project and the project is in compliance with the requirements of CEQA.</p>	<b>NOD</b>	
2014052017	<p>Lake Berryessa North End Trail Napa County Napa--Napa</p> <p>The larger project will reconstruct and realign approx. 7.3 miles of an existing North End Recreation Trail along the North Shore of Lake Berryessa. Project activities include construction of 18 clear span bridge crossings. The project is located where the North End Trail crosses unnamed tributaries within the north shore of Lake Berryessa Recreation Area in Napa County, State of CA. The Trail runs northeast from Putah Creek to the K-6 trailhead on Berryessa-Knoxville Road. The CDFW is executing a Lake and Streambed Alteration Agreement No. 1600-2014-0351-R3 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Sarah Husby-Good, Tuleyome.</p>	<b>NOD</b>

	proposed project would be located adjacent to and to the north of the biogas/CNG refueling station and truck refueling expansion area. This soil excavation source area is considered a potential source for extra soil needs.		
2016021049	Sand City 2014-2023 Housing Element Sand City Sand City--Monterey Fifth cycle update tot eh City of Sand City Housing Element.	<b>NOD</b>	
2016022034	PA-1500271 San Joaquin County Escalon--San Joaquin A Minor Subdivision application no. PA-1500271 of G&E te Velde Orchards, Inc. (c/o Dillion & Murphy) to subdivide on 460.30-acre parcel and one 66.30-acre parcel into three parcels and a designated remainder. Parcel 1 to contain 60.85 acres. Parcel 2 to contain 4.892 acre homesite parcel. Parcel 3 to contain a 4.94 acre homesite parcel. Parcel 4 to contain 460.00 acres. These parcels are not under a Williamson Act contract. The Property is zoned AG-40 (General Agriculture, 40-acre minimum) and the General Plan designation is A/G (General Agriculture). The project site is located on the southwest of the intersection of E. River Road and Sexton Road, southwest of Escalon. (APN/Address: 245-260-09, 11, 12, & 13/22422 E. River Road, Escalon) (Supervisory District 4).	<b>NOD</b>	
2016039008	Streambed Alteration Agreement No. 1600-2015-0248-R2 "Veal" THP Forestry and Fire Protection, Department of --Calaveras CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0248-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Sierra Pacific Industries, or Mr. Frank Mulhair acting on behalf of project Applicant. The project entails two options for a temporary Class I watercourse crossing, dependent upon streamflow conditions the year of, and during timber operations: 1. The installation of a temporary low profile crossing consisting of a series of shallow troughs (3 to 6), oriented parallel to streamflow, followed by the installation of 8 inch to 10 inch corrugated metal pipes (CMP) set within each of the troughs. The number of troughs/CMP's to be installed will be dependent upon streamflow present at time of operations. A sufficient number of CMP's will be installed to adequately convey streamflow. Upon completion of use, the CMP's shall be pulled and the channel restored to allow unimpeded flow and to bring the channel to pre-project conditions, to the extent feasible. 2. Should the watercourse remain completely dry during timber operations, the Permittee may choose to use the existing ford crossing. If this option is employed, the channel will be shaped to accommodate truck traffic. No fill will be imported into or placed within the Watercourse and Lake Protection Zone (WLPZ) of the watercourse. Clean, angular 1.5 inch to 6 inch rock, devoid of fines, will be utilized as a runnign surface over the crossing. Regardless of either option, approaches will be rocked for a minimum of 25 feet from either side of the high water mark of the crossing. Further info can be found in the THP 4-12-022-CAL.	<b>NOD</b>

2016038377	Disability Outdoor Coastal Access Project California State Coastal Conservancy San Francisco--San Mateo, San Francisco Outdoor trips and collection and dissemination of access information that helps people with physical disabilities visit coastal areas. Two year project includes a series of accessible outdoor coastal trips on section of the California Coastal and San Francisco Bay Trails.	<b>NOE</b>	
2016038397	Office Lease in a Multi-Tenant Building Food and Agriculture, Department of Sacramento--Sacramento Agency will enter into a short term lease for ±7,555 square feet of office space.	<b>NOE</b>	
2016038398	Nuevo Tank Structural Rehabilitation Eastern Municipal Water District --Riverside The Nuevo Tank is located on Nuevo Road adjacent to Passage Road in the community of Nuevo in an unincorporated area of Riverside County. The steel tank is 32-feet high and 52-feet in diameter, with a rated capacity of 0.5 million gallons. The facility was constructed in 1955 and is the sole storage tank in the 1698N pressure zone. The Nuevo Tank Structural Rehabilitation Project (Project) will replace all roof rafters, center column and collar plate, remove existing ladder, enlarge the existing access opening to 2'-6" diameter and provide to hatch per EMWD standards. The project would also recoat the underside of the roof plate, rafters, column and 3' of upper shell interior.	<b>NOE</b>	
2016038399	Sanderson Lift Station Pump Electrification Project Eastern Municipal Water District San Jacinto--Riverside The Sanderson Lift Station is located in Sand Jacinto and the wastewater collected is pumped to the San Jacinto Valley Regional Water Reclamation Facility. The station consists of four pumps; three electric pumps and one engine driven pump. Operation of the lift station is critical for the conveyance of wastewater throughout the Hemet/San Jacinto Valley. The proposed project will convert the internal combustion engine drive equipment to electric motor-drive equipment. The key benefits for conversion include improved reliability off facilities, standardized equipment, reduction of operation and maintenance costs, reduction of greenhouse gas emissions, and reduction of air quality restriction that limit operations.	<b>NOE</b>	
2016038400	Sheila Tank Replacement Project North Coast County Water District Pacifica--San Mateo The North Coast County Water District (NCCWD or District) proposes to replace a water tank (Sheila Tank) located off of Sheila Lane in the City of Pacifica (referred to here as the "proposed project"). The existing Sheila Tank is 32-foot diameter, 21-foot tall redwood tank with a capacity to hold 0.1 million gallons (MG); the District Typically operates the tank at a maximum water level of 14.5 Feet. The Existing Tank is leaking, not anchored, and vulnerable to seismic events. The proposed project would replace the existing deteriorating tank to meet current standards of public health and safety, and would increase the size of the tank to address a storage deficit and a need for improved fire suppression in the area served by the tank. As recommended in NCCWD's 20-year Water Master Plan, the proposed project would increase the size of the tank to 0.2 MG. The new tank	<b>NOE</b>

<b><u>Documents Received on Monday, March 28, 2016</u></b>			
	would be a 40-45 foot diameter and 21-25 foot tall welded steel tank surrounded by a chain link fence with barbed wire and re-connected to the existing regulator station. Discharge water flow rates would remain the same regardless of the increased tank size. The proposed project would not increase the capacity of the water system, as the pipeline connecting to the tank would not be increased. The proposed project would merely increase the storage area to help meet existing daily demand as well as increase water storage for fire suppression. Sheila Tank currently services an area of approximately 265 acres that include approximately 1,210 service connections, and also assists an additional zone which contains and additional 760 service connections. The service area and number of residences served would remain unchanged under the proposed project.		
2016038401	John and Cathie Orr Bridge (Streambed Alteration Agreement No. 1600-2016-0050-R2) Fish & Wildlife #2 --Calaveras The California Department of Fish and Wildlife has executed Streambed Alteration Agreement number 1600-2016-0050-R2, pursuant to Section 1602 of the Fish and Game Code to Ronald Pargett. The project consists of the demolition/removal of the existing bridge and replacement in-kind of a new structure. The existing abutments will be removed from the flow line of the creek and new abutments will be placed at the top of the bank. A 6 foot by 30 foot culvert will be placed upstream of the bridge location to allow for ingress and egress of the property during construction. Once the new bridge is completed the culvert will be removed and replaced with a clear span structure that will be installed above the bed bank and channel of the creek.	<b>NOE</b>	
2016038402	Inter-tie with Portola and Well Renovation Grizzly Lake CSD Portola--Plumas Planning studies, information collection, environmental documentation, and plans and specifications will be completed in anticipation of an additional water source construction project. <b><u>Documents Received on Tuesday, March 29, 2016</u></b>			
2015112003	Downtown Martinez Jail Demolition Project Contra Costa County Martinez--Contra Costa Contra Costa County Public Works Department is working with the Contra Costa County Administrators Office to demolish the existing County Jailhouse building and surrounding granite curb and to construct a parking lot with 25 to 30 spaces to serve County employees. The existing Jailhouse was constructed out of granite in 1903. An addition to the Jailhouse was completed in 1944. The Jailhouse is currently vacant (with the exception of some obsolete storage) and has not functioned as a Jailhouse since 1986. The Jailhouse is currently contaminated with hazardous materials including asbestos and lead-based paint.	<b>EIR</b>	05/12/2016
2016022003	Feather River Drainage Project Caltrans #2 --Butte, Plumas FYI: Final  Caltrans proposes to conduct culvert work along SR 70 in Butte and Plumas Counties. The purpose of the proposed project is to repair and replace culverts in accordance with current requirements, as well as construct new drainage facilities where appropriate. Work would consist of the repair, replacement, upgrading, and/or installation of culverts and inlet/outlet treatments. Staging would occur within Caltrans right-of-way. The project would require permits from the U.S. Army Corps of Engineers (404), CDFW (1600), and the Regional Water Quality Control Board (401). Temporary Construction Easements would be required for work activities outside of Caltrans Right-of-Way. A permanent easement may be required for the new culvert at PM 42.11.	<b>FIN</b>	
2016031092	Pixley Groundwater Banking Project South Valley Water Bank Authority --Tulare The Authority proposes to construct and operate the Pixley Groundwater Banking Project within the Pixley Irrigation District as a water management facility that will also conserve water, conserve energy, and reduce greenhouse gas emissions. The Action/Project would be in compliance with the San Joaquin River Restoration Program Settlement Agreement and Program Management Plan for the Friant Division of the Central Valley Project. The Action/Project will include the construction and operation of a recharge basin and various pipelines, pumps, wells, a regulating basin, and control structures to facilitate the transport of surface water delivered from new turnouts at the Friant Kern Canal and Deer Creek to the recharge basin to replenish groundwater or to directly serve land owners within a defined "in-lieu service area" of approximately 3,539 acres. The facilities to be built will also allow groundwater to be pumped and delivered back to the Friant Kern Canal, as needed, and in accordance with water supplies and demand. The Action/Project is subject to the National Environmental Policy Act (NEPA) as well as CEQA as it is partially funded by a grant from the US Bureau of Reclamation.	<b>JD</b>	04/27/2016
2016031093	Pleasant Valley School Water System Upgrade Pleasant Valley Joint Union School South Lake Tahoe--El Dorado The project site is an existing residential development in the community of Meyers in South Lake Tahoe bordered by the Upper Truckee River on the west, Lake Tahoe Golf Course on the northwest, US HWY 50/SR 89 on the south, and by Pioneer Trail on a small portion on the east. The overall goal of the project is to	<b>MND</b>	04/27/2016

2016038451	655 Redwood Highway Waterfront Improvements Project San Francisco Bay Regional Water Quality Control Board Mill Valley--Marin Proposed project would replace an existing 1,014-square foot public access pier with a 940 square foot public access pier and install about a 60-foot long riprap revetment along the shoreline where there is a gap in the existing revetment.	<b>NOE</b>	
2016038452	Installing/Replacing Deadbolts in the De la Ossa Adobe (15/16-A-6) Parks and Recreation, Department of --Los Angeles For both security purposes and aesthetic appeal, the deadlocks and inside lever handles of many of the doors of the 1849 De la Ossa adobe need to be installed (security) or changed (aesthetic). Some of the doors do not have deadbolts installed, and merely have a small switch for locking, which would allow for easier unauthorized access. Additionally, when the doors with small locks are shaken either by a person or wind the security alarm can be falsely triggered. All locks should blend with the historic fabric of the adobe, and currently there is a combination of newer shiny silver locks and black or brown period-appropriate locks. The project proposes to install 2" deadbolts and lever handle sets in Rooms 2 and 3l 2 lever handles in Rooms 4b and 7; 7 silver deadbolts to be replaced in Rooms 1, 4a, 4b, 5, 6, 7, and 8; and 3 silver lever handles to be replaced in Rooms 1, 5, and 6.	<b>NOE</b>

2016038453	So Cal Gas Malibu Lagoon Access Parks and Recreation, Department of Malibu--Los Angeles California Department of Park and Recreation (CPDR) would provide Southern California Gas Company (SoCalGas) with a Right-of-Entry permit in order to conduct routine maintenance activities including, but not limited, to vegetation trimming and pipe recoating (painting). The maintenance activities will ensure safety and reliability of SoCalGas's services.	<b>NOE</b>	
2016038454	Sycamore Nature Center Roof Rehabilitation (15/16-A-11) Parks and Recreation, Department of --Los Angeles The proposed project is to replace broken or missing clay tiles from the roof of the Sycamore Nature Center. The roof of the building is original and there are several locations where rain is getting into the building and causing damage to exhibits and the historic structure. The project is proposed to prevent further leakage in anticipation of the predicted winter El Nino related storm events. Replacement tiles shall be of the same size, shape, and color. As much of the original tile will be preserved as possible. The ridge line will be serviced with Spix Mix, and pipe and vent flashing sealed. The work shall commence during the off-season when park visitation is at its lowest and will secure the structure, and museum items contained from water damage.	<b>NOE</b>	
2016038455	Santa Rita Creek Channel (Streambed Alteration Agreement No. 1600-2015-0170-R4) Fish & Wildlife #4 Salinas--Monterey The California Department of Fish and Wildlife has executed Streambed Alteration Agreement number 1600-2016-0170-R4, pursuant to Section 1602 of the Fish and Game Code to Resource Management Agency, county of Monterey. The project includes the activities related to the routine maintenance of Santa Rita creek to restore its conveyance capacity and reduce flood risk.	<b>NOE</b>	
2016038456	Buena Vista Lagoon School Bus Voucher Project California State Coastal Conservancy Oceanside--San Diego This project subsidizes school bus transportation costs so that local elementary schools can transport classes to the Buena Vista Audubon Society's Nature Center and the Buena Vista coastal lagoon to attend our Elementary School Education Programs. Most of these schools would not otherwise be able to attend due to budget constraints.	<b>NOE</b>	
2016038457	San Diego County Marine Protected Area Youth Education California State Coastal Conservancy --San Diego This project will directly engage a minimum of 120 high school students from underserved communities in San Diego County in experiential learning, direct stewardship and marine-based recreation activities in La Jolla's MPAs and the South San Diego County coastline.	<b>NOE</b>

2005082054	Vegetation Treatment Program Forestry and Fire Protection, Board of -- A combination of manmade and natural factors has led to a situation where wildfire acreage, fire suppression cost, and losses of residential structures have increased dramatically in the past three decades. A problem of this magnitude goes beyond jurisdictional boundaries and requires a statewide strategy. An overarching goal of vegetation treatments is to alter fire behavior and reduce harmful effects. However, California displays astonishing diversity in plant, animal, and social systems and, without proper design, the statewide planning and implementation of vegetation treatments can potentially come with significant costs. To this end, the	<b>EIR</b>

	VTP PEIR lays out a framework for prioritizing, planning, implementing, and monitoring fuel treatments across the SRA.		
2015012027	Better Market Street Project San Francisco, City and County of San Francisco--San Francisco The Better Market Street Project would provide various transportation and streetscape improvements, including changes to roadway configuration and private vehicle access; traffic signals; surface transit, including transit-only lanes, stop spacing, service, stop location, stop characteristics and infrastructure; bicycle facilities; pedestrian facilities; streetscapes. The project sponsor, San Francisco Department of Public Works, in coordination with the Citywide Planning Division of the San Francisco Planning Department and San Francisco Municipal Transportation Agency, proposes these improvements to a 2.2-mile segment of Market Street between Octavia Boulevard and The Embarcadero and to a 2.3-mile segment of McCoppin/Otis/Mission streets between Valencia Street and The Embarcadero and Valencia and 10th streets between Market and Mission.	<b>EIR</b>	05/13/2016
2013081071	SR-94 Improvement Project Project EA: 407700 Caltrans #11 --San Diego Note: 1 Hard Copy  Caltrans is proposing five build alternatives and one no-build alternative to be studied in the EIR. Each build alternative includes an access road improvement to the Jamul Reservation (which includes improvements to the SR 94, SR 94/Melody Road intersection and the Reservation access intersection), as well as improvements to the following off site intersections: (1) SR-94/Jamacha Boulevard, (2) SR-94 Jamacha Road, (3) SR-94/Steele Canyon Road, (4) SR-94/Lyons Valley Road and (5) SR-94/Maxfield Road.	<b>FIN</b>	
2015012001	Avenue of the Giants - Four Bridges Project Caltrans #3 --Humboldt This is a re-circulation of the original environmental document that was circulated 1/2/15 through 2/23/15. Caltrans proposes to upgrade the railings on four bridges at the following locations on SR 254 in Humboldt County: Ohman Creek Bridge #4-7, PM 0.88; Elk Creek Bridge #4-8, PM 10.43; Bridge Creek Bridge #4-9, PM 10.80; Bear Creek Bridge #4-12, PM 43.02. The proposed work will include upgrading bridge railing, guard railing including crash cushions, and repaving the existing roadway approximately 200 feet on each side of all four bridges. The proposed rail upgrade will consist of a modified Type 80 concrete barrier with bicycle railing. All railing barrier work will be done from the existing bridge decks. The overhangs of each structure will be reconstructed to carry the additional weight of the new bridge railing.	<b>MND</b>	04/28/2016
2016031095	California State University San Marcos Extended Learning Building California State University Trustees San Marcos--San Diego The proposed project would construct a new EL Building on SUSM campus to support the growing needs of the EL Department by providing new instructional space for EL program courses, as well as co-locating other EL units to develop a more cohesive department. The new building would have a footprint of approximately 20,000 sf, include approximately 52,300 sf of useable space, and	<b>MND</b>	04/28/2016
