STATE CLEARINGHOUSE

NEWSLETTER

May 1-15, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1-15, 2008**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

CEQA Documents

Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

<u>Documents Received on Thursday, May 01, 2008</u>			
2006051133	535 E. Montecito Street, "Los Portales" Project Santa Barbara, City of Santa Barbara--Santa Barbara The proposed project consists of 48 residential condominium units (24 two-bedroom and 24 three-bedroom units) in six, three-story buildings. The total development is 90,966 square feet (net). Each building is 15,161 square feet (net) and includes eight units (4 two-bedroom units and 4 three-bedroom units) and eight two-car garages in a tandem configuration. Two additional parking spaces would be provided onsite for guests, for a total of 98 parking spaces. Vehicular access to and from the site is provided by two driveways along Calle Caesar Chavez and one driveway on E. Montecito Street. All units are to be sold at below-market prices, with prices to be determined by the total costs to develop the units.	EIR	06/16/2008
2007101032	Torrey Hills VTM San Diego, City of San Diego--San Diego Community Plan Amendment (CPA), Vesting Tentative Map (VTM), Planned Development Permit (PDP), and Rezone from IP-2-1 (Industrial-Park) and RM-2-5 (Residential-Multiple Unit) to RM-3-8 for the construction of 11 mid-rise residential buildings with a commercial component for a combined area of approximately 684,159 square feet, and 1,008 subterranean and surface parking spaces. Building heights would range between 36 and 48 feet above existing ground level and between two and four stories. The buildings would consist of 484 multi-family units. The project site is generally bound by Calle Mar de Mariposa to the north, West Ocean Air Drive to the east, Los Peñasquitos Canyon to the south, and Vista Sorrento Parkway to the west. The Torrey Hills VTM project is located within the Torrey Hills Community Planning Area (Lots 1 through 4 of Torrey Hills Unit 19, Map No. 14301) and Marine Corps Air Station Miramar Influence Area. The site is not included on any Government Code Listing of hazardous waste sites.	EIR	06/16/2008
2007051142	Lincoln II South Elementary School San Bernardino City Unified School District San Bernardino--San Bernardino The project site is approximately 13.58 acres and consists of the development and operation of an elementary school, serving a maximum of 900 students, grades K-6. The proposed elementary school would be comprised of an administrative building, library/computer lab, classroom buildings, kindergarden buildings, special education building, food service/multi-purpose room (future) and other supporting school services.	FIN	
2008052009	Upper American River Project (UARP) Relicensing, Including a New Pumped-storage Development Sacramento Municipal Utility District Placerville--El Dorado, Sacramento The proposed project - a hydroelectric relicensing proceeding currently pending before the Federal Energy Regulatory Commission (FERC) - consists of eight developments; seven of which are existing developments (Loon Lake, Robbs Peak, Jones Fork, Union Valley, Jaybird, Camino, and Slab Creek/White Rock), and one of which would be a new development - Iowa Hill Pumped-storage Development. <u>Documents Received on Thursday, May 01, 2008</u>			
	<p>The existing UARP developments, constructed by SMUD from 1959 through 1985 under the initial FERC license, consists of 11 reservoirs that can impound over 425,000 acre-feet of water, eight powerhouses that can generate up to 688 megawatts of power, 11 transmission lines that have a combined length of approximately 177 miles, approximately 28 miles of power tunnels/penstocks, one 1.9-mile-long canal, and approximately 700 developed campsites. The new Iowa Hill Pumped-storage Development consists of: (1) the Iowa Hill Reservoir, a new off-stream rock-filled earthen dike of varying height (depending on natural terrain) with a geotextile liner on the reservoir floor and inner walls; (2) the Iowa Hill Tunnel, a new underground water conduit extending from Iowa Hill Reservoir to Slab Creek Reservoir; (3) the Iowa Hill Powerhouse, a new underground powerhouse along the Iowa Hill Tunnel that would have the capacity to generate up to 400 megawatts of power; (4) a new switchyard; and (5) a new two-mile-long 230-kilovolt transmission tie-line that would connect the new switchyard to an existing UARP transmission line.</p>		
2008051001	<p>Elder L15206/ER 07-01-004 Agricultural Grading San Diego County Fallbrook--San Diego The project is an Agricultural L-grading permit to expand an existing agricultural operation.</p>	MND	05/30/2008
2008051004	<p>Site Plan Review 08-01: Sierra SunTower Generating Station Lancaster, City of Lancaster--Los Angeles The proposed project involves the construction of a 7.5 megawatt (MW) solar power generating facility. Ground-mounted heliostats would be constructed to focus the sun's energy on a water/steam receiver mounted on a tower with two towers proposed for this facility. Each tower mounted receiver is supplied solar energy by two fields of heliostats (north and south). Energy absorbed into the receivers is collected in a header or accumulator and directed to a steam turbine generator. Turbine exhaust will be cooled by a water cooled condenser and modern modular cooling tower. Two water evaporation ponds would be located next to the generator building to collect excess water. All water for the operation of the solar generating facility would be provided by recycled water.</p>	MND	05/30/2008
2008051005	<p>Interpretive Play Area/Bioswale/Palm-Linden Trail Project Parks and Recreation, Department of Carpinteria--Santa Barbara The California Department of Parks and Recreation (CDPR) proposes to make interim-use improvements to a portion of Carpinteria State Beach located at the northwest corner of the Park between Palm and Linden Avenues. This property was acquired in 2000 and is not currently included in the 1979 Carpinteria State Beach General Plan. It is anticipated that a General Plan Amendment for this area and several other areas in the Park will be prepared subsequent to this project. This project is proposed as an interim use, but designed such that it could be a permanent use, if appropriate. If it is determined that use of the project site should change during the General Plan Amendment process, these improvements could be removed, changed in location, or replaced. The project proposes to:</p> <ul style="list-style-type: none"> - Construct a children's interpretive play area, - Construct a new trail, and - Enlarge and improve an existing drainage area by creating a bioswale. 	The project will be funded and implemented by the City of Carpinteria through an expansion of their existing operating agreement with CDPR.		
2008051006	LU07-0120 (Conditional Use Permit) Ventura County Ojai--Ventura Request to continue the existing oil production operation (Ojai Fee and Ruthman Lease) for an additional twenty-five year period; reduce the existing CUP 293 boundary and the addition of one assessor parcel to the permit boundary area (030-0-240-035) and the addition of one existing active oil well (Ruthman Well #1).	MND	05/30/2008
2008051009	Blackie Road Safety Improvements Monterey County --Monterey Proposed shoulder improvements to a 0.79 mile segment of the existing Blackie Road public right-of-way, including grading, relocating existing utility poles and removal of a minimum of 13, and possibly up to 19, eucalyptus and coast live oak trees, to accommodate paved shoulders, curve warning signs, rumble strips and striping improvements. Additional improvements include replacing existing open drainage along the side of the roadway segment with storm drains under the shoulders.	MND	06/02/2008
2008052001	Site Development Permit Application SDP-1-08, by Continental Street Properties, LP Redding, City of Redding--Shasta The project site consists of 2.51 acres which Continental Street Properties, LP proposes the construction of a three-story, 29-656-square-foot medical office building with an additional 17,834-square-foot ground-level parking garage (for a total 47,490 square feet); grading of the project site, consisting of cut-and-fill grading and the removal of trees, construction of a stormwater drainage pipe, and placement of fill material within the existing seasonal creek; extension and modification of existing electrical, sewer, and water utilities; completion of the abandonment and landscaping of the easterly 40 feet of the northerly 150 feet of the public road right-of-way of Shasta Street; construction of curb, gutter, sidewalk, tie-in paving, stormwater-drainage facilities within the right-of-way of Continental Street and replacement and repair of existing sidewalks adjacent to the project site; construction of street improvements, consisting of a raised island designed to restrict traffic movements to right-in, right-out at the Liberty Street/Shasta Street/State Route 44 intersection; and construction of on-site, underground stormwater detention system.	MND	05/30/2008
2008052003	Lauderdale Rezone Southridge SUD (P07-49) Trinity County --Trinity Proposed rezone to amend the Southridge SUD schematic plan to change the approved developable areas, which are restricted due to steep terrain and unstable geology in the area. An alternative homesite and access on this 27 acre parcel are being requested. The SUD currently allows access via Oregon Street/Democrat Gulch Road/West Weaver Road at the southwest portion of the parcel and a homesite in the southern portion of the parcel. The proposed alternative homesite is located further south of the approved homesite and is higher in elevation. The proposed access would come off of Spring Hill Road (currently approved for emergency escape only) in the northwestern portion of the	MND	05/30/2008

	parcel via a new approximately 1,925 foot roadway with an average 14-16 foot width. A geotechnical report and recommendations are incorporated into the proposed project.		
2008052004	Gearing Rezone and Tentative Parcel Map P-08-05 Trinity County --Trinity Rezone from Unclassified to Rural Residential one-acre minimum, or more restrictive zoning, and a tentative parcel map to subdivide 10 acres into two parcels.	MND	05/30/2008
2008052005	Neary Lagoon Sedimentation Management Plan & Sediment Removal Project Santa Cruz, City of Santa Cruz--Santa Cruz The proposed project consists of three elements: (1) adoption of the Neary Lagoon: Lagoon-Specific Sedimentation Management Plan (SMP); (2) dredging and removal of 1,200 cubic yards of sediment from the main open water channel of Neary Lagoon; and (3) temporary removal of the center sections of the floating walkway for a one-month period in the winter to improve winter flows and flushing through the lagoon.	MND	05/30/2008
2008052008	Walgreens Major Use Permit 2007-230-03 Oakdale, City of Oakdale--Stanislaus A request by Barghausen Consulting Engineers, Inc (18215 72nd Avenue South, Kent, WA 98032) Applicant and on behalf of property owners of record Lowe & Gong Partners, as to Assessor Parcel Number 130-021-017; for a Major Use Permit to construct a 15,026 square foot Walgreens store which will include a single lane drive-through pharmacy. The proposed structure would be located on the northwest corner of West F Street and California Avenue. The +/- 1.22 acre site currently has a 13,033 square foot retail store and a freestanding drive-through coffee shop. The two structures will be removed as part of the project proposal. The requested project is consistent with the land uses identified in the Oakdale General Plan (General Commercial). The property is designated by the Oakdale General Plan as General Commercial (GC) and is zoned General Commercial (C-2) District.	MND	05/30/2008
2008052010	Pickrel Floodplain Restoration Solano County Water Agency Winters--Solano The purpose of the Pickrel Project is to restore functional floodplain elevation to the north bank of Putah Creek for 800 feet downstream of Putah Diversion Dam. This area was heavily infested with arundo prior to 2002 when control operations began. For decades arundo obstructed flow causing sediment to accumulate on the floodplain. The arundo is now substantially controlled, but the effect of sediment accumulation still exists. The edge of the floodplain is now 118 feet above sea level compared with the water surface elevation of 109 feet. The 9 feet of floodplain height above the water surface inhibits floodplain function and prevents the natural establishment of native vegetation by seed drop because depth to ground water exceeds the growth rate at which seedlings can establish before the heat of summer. 2001112093	Downtown/Natomas/Airport Corridor Sacramento Regional Transit District --Sacramento The Downtown/Natomas/Airport Corridor Project would extend double-track light rail transit service for 12.8-miles from Downtown Sacramento across the American River and through Natomas, along Truxel Road to the Sacramento International Airport. The project would serve the future Railyards development and regional Intermodal Facility, the Richards Boulevard Redevelopment Area, and the communities of South and North Natomas.	NOD	
2004061105	Santa Barbara Cottage Hospital Foundation Workforce Housing Project Santa Barbara, City of Santa Barbara--Santa Barbara The proposed project would remove the existing St. Francis Hospital complex, including the main hospital, convent, central plant, and other ancillary structures, totaling approximately 189,000 square feet, and replace them with 115 residential condominiums on a 5.94 acre project site. Parking for the proposed Workforce Housing Project would be provided in accordance with Zoning Ordinance parking requirements. A total of 11 spaces would continue to be provided for the Villa Riviera facility and 254 parking space would be provided for the 115 proposed condominium units.	NOD	
2004091152	Woodlake Wastewater Treatment / Disposal Woodlake, City of Woodlake--Tulare The project will consists of upgrading and expanding the existing WWTF, which includes constructing and installing a new headworks, sewer lines, a lift station with pumps, an operations and control building, an emergency generator, oxidation ditches, an advanced tertiary sand or cloth filtration and hypochlorite disinfection treatment system, a new infiltration/perforation pond area, aerated sludge lagoons, and lined sludge drying beds. The project will also increase capacity from 0.91 million gallons per day (mgd) to 1.8 mgd.	NOD	
2005011094	South Court Facility Orange County --Orange The proposed project consists of the construction of a new three story courthouse with basement and a new two story city hall building, library expansion, a potential new office building, and the demolition of the existing public defender's and district attorney's buildings. The courthouse would include 14 new courtrooms, offices, courtyard/ plazas, and pedestrian pathways, a payment window, court support and jury facilities, a secure sallyport for transfer of custody, and a secured parking area for judges. Development of the new courthouse would add a total of 207,200 300 building gross sq. ft. (BGSF) to the existing structure, for a total of 240,500 600 BGSF. The new city hall would be located near the southern project boundary and contain approx. 40,000 gross sq. ft. within a two story structure. The proposed library expansion would result in an additional 3,050 sq. ft. of floor space and would occur adjacent to the existing library along Crown Valley Parkway. The potential 61,000 sq. ft. office building would be located at the northeast corner of the project site at the intersection of Pacific Island Drive and Alicia Parkway. The proposed project would also include a surface parking lot with 990 parking spaces for the new courthouse building.	NOD

	for each unit. As proposed, all existing structures and landscaping will be removed, including 3 significant non-protected trees, and approximately 950 cubic yards of dirt will be exported from the site.		
2008051036	<p>ENV-2007-4135 Los Angeles, City of Los Angeles, City of--Los Angeles Preliminary Parcel Map and Coastal Development Permit to create 2 individual parcels utilizing the Small Lot Ordinance, demolish existing single-family dwelling and detached garage, and develop one, two-story (25-foot above grade), approximately 2,200 square foot single-family dwelling on the proposed Parcel A and one, one-story over semi-subterranean parking (25 feet above grade), approximately 1,200 square foot single-family dwelling on the proposed Parcel B, each providing two covered parking spaces; Zoning Administrator's Adjustments to allow a side yard setback of 3 feet 8 inches in lieu of the 4 feet 6 inches required; on a 4,049.1 square foot site within the RD1.5-1 Zone.</p>	MND	06/05/2008
2008051038	<p>3757-3771 State Street Santa Barbara, City of Santa Barbara--Santa Barbara The project consist of the demolition of all site improvements and structures (56,545 sq. ft.), and the construction of four new buildings consisting of 72,209 square feet of commercial/retail space, 15 residential units (13 market rate, 2 moderate-income affordable) comprising approximately 30,356 square feet of living space, and 303 parking spaces. The project site is comprised of four parcels, of which three would be merged, resulting in two parcels. One of the new buildings (referred to as the "Whole Foods/Circuit City" building) would be occupied by Whole Foods Market and Circuit City (an electronics store) and would contain thirteen of the proposed residential units. This 63,796 square foot, three-story building would be located in the southern portion of the site, adjacent to San Roque Creek. Whole Foods Market is anticipated to occupy 43,017 square feet, adjacent to a 20,779 square foot Circuit City. A truck receiving area would be located beneath the commercial structure, and the thirteen residential units would be above it. At the southwest corner of State and Hitchcock, a three-story building containing 2,936 square feet of commercial space and two residential units is proposed (referred to as the "Shops" building). A one-story 4,273 square foot building, anticipated to be occupied by Citibank, would front State Street along the western portion of the site (referred to as the "Citibank" building). Along the western property boundary, a one-story 1,204 square foot retail building is proposed. Parking for the development would occur at-grade (131), in a subterranean parking area beneath the "Whole Foods/Circuit City" building (53) and on the roof the "Whole Foods/Circuit City" building (119). Sixty bicycle parking spaces are proposed. Access to the development would be provided via driveways along State Street and Hitchcock Way. Proposed grading for the project includes approximately 30,500 cubic yards of cut/excavation and 2,300 cubic yards of fill. This grading is primarily associated with the subterranean truck receiving area and parking area. Other development associated with the project includes: restoration and stabilization of Arroyo Burro Creek, creekside restoration and habitat enhancements along San Roque and Arroyo Burro Creeks, pedestrian pathways</p>	MND	06/05/2008

2008031077	Proposed 2008 PM2.5 Plan San Joaquin Valley Air Pollution Control District --Fresno, Kern, Kings, Madera, Merced, San Joaquin, ... The 2008 PM2.5 Plan presents the San Joaquin Valley Air Pollution Control District's strategy for achieving the National Ambient Air Quality Standards (NAAQS) for particulate matter with a diameter of 2.5 microns or less (PM2.5). After approval by the California Air Resources Board (ARB), the Plan will be sent to the U.S. Environmental Protection Agency (EPA) for review. Following receipt of the Plan, the EPA must find the Plan complete within six months of its receipt. As required by the federal Clean Air Act (CAA) Section 110k, the EPA must act on the Plan within one year of finding the Plan complete. EPA approval of the Plan places it in the State Implementation Plan (SIP) as required by the CAA and the EPA's Clean Air Fine Particle Implementation Rule, Final Rule (72 FR	NOD

	20586-20667).		
	In addition to meeting the requirements of the CAA and containing measures needed to attain the NAAQS as expeditiously as practicable, this SIP includes the latest technical information, including emissions inventory, monitoring data, and computer modeling results. The Plan is divided into several chapters, with supporting documents provided as appendices.		
2008031090	New San Bernardino Courthouse for the Superior Court of California Judicial Council of California San Bernardino--San Bernardino The Administrative Office of the Courts (AOC), the staff agency of the Judicial Council of California, is proposing fee acquisition of a parcel in San Bernardino, construction of a new courthouse, and operation of the facility for use by the Superior Court of California, County of San Bernardino. The courthouse will be at SE corner of N. Arrowhead Avenue and W. 3rd Street. The project site will cover approximately seven acres. The proposed new Courthouse will be 12 stories tall with a partial basement, have approximately 356,000 square-feet of space for 36 courtrooms and other court-related facilities, and will have approximately 385 public parking spaces. The new courthouse will improve access to judicial facilities for residents of San Bernardino County; provide courthouse facilities that meet current building standards for public use; provide facilities to support new judicial services; and provide improved security for visitors, judges, and courthouse staff.	NOD	
2008032076	Florin-Perkins Material Recovery / Large Volume Transfer Station Sacramento County Sacramento--Sacramento The proposed project consists of a request for a Solid Waste Facilities Permit (SWFP) to allow for: (1) The operation of a Large Volume Transfer Station and a Materials Recovery Facility on a total of 10 acres; (2) Permit a maximum of 500 tons per day of mixed solid waste; and (3) Modification of the access road, internal traffic routing and addition of paved surfaces. 	<p>anadromous fish) approximately 2/3 of a mile downstream from the proposed project. A new culvert (approximately 48 inches in diameter) is proposed to be installed to facilitate the proposed road crossing. Several other culverts occur in the project's vicinity (upstream and downstream). The property is currently used as grazing land and has had an approved timber harvest plan (which included timber restocking) in and around the area of the proposed crossing (THP-1-01-299HUM). Pursuant to Fish and Game Code §1602(a)(4)(D), a Streambed Alteration Agreement was not required by Fish and Game. A Biological Report, prepared by James Regan, has been circulated to the Department of Fish and Game for review. The report identifies several mitigation measures including the revegetation of a disturbed riparian area upstream from the proposed crossing.</p>

	acres of salt marsh habitat along Mad River Slough which is very scarce in the upper reaches of the slough, restore 4.4 acres of riparian habitat, and enhance wetland values on 12.3 acres of pasture/seasonal freshwater wetland. In 2007, the Miller's received public funding from U.S. Fish and Wildlife to enhance seasonal freshwater wetlands in this project.		
2008041011	Amendment of Conditional Use Permit 1671 El Cajon, City of El Cajon--San Diego The applicant's request is to expand the size of the transfer station where solid waste is transferred and where recyclables will be removed from the waste stream and to construct a 64 square foot scale house building. The existing transfer station is 25,370 square feet. The applicant is proposing to demolish portions of the existing structure and to then add approximately 19,800 square feet to the transfer station. The expanded transfer station will be approximately 39,750 square feet. The expanded facility will include a construction and demolition debris (C & D) sorting line. The C & D sorting line will facilitate the diversion of recyclable materials from landfills. The sorting line may also be used to remove recyclable materials from waste streams other than construction and demolition debris.	NOD	
2008059019	Issuance of a General Lease - Right of Way Use - File Ref WP 5040.1 California State Lands Commission --Contra Costa Issuance of a General Lease - Right of Way Use, to San Pablo Bay Pipeline LLC, beginning August 1, 2008, for a term of 25 years for an existing non-operational 16" steel pipeline.	NOD	
2008058065	Opportunistic Sand Replenishment Pacific Station ROE (07-08-SD-35) Parks and Recreation, Department of --San Diego A redevelopment project named Pacific Station will be excavating spoils which the City of Encinitas will utilize as opportunistic and replenishment on the City of Encinitas beach front property. The City must haul the spoils to the dumping location just south of South Ponto State Beach. A Right of Entry Permit is required and allows the City of Encinitas to access South Ponto State Beach area on the north side of the Junior Lifeguard storage container.	NOE	
2008058067	Common Landowner Transfer of up to 5,000 AF of TLBWSD 2008 State Water Project Water to Kern County Water Agency Tulare Lake Basin Water Storage District Bakersfield--Kern The District will transfer up to 5,000 AF of its 2008 Table A Entitlement Water to Kern County Water Agency for the JG Boswell Co. who farms in both Districts. The transfer will be completed in 2008. This proposed transfer is designed to enable the JG Boswell Co. to better manage its respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past.	NOE	
2008058068	Conwy, LLC Boundary Line Adjustment Sacramento County --Sacramento The proposed project consists of a Boundary Line Adjustment to reconfigure the lot lines between two parcels in the AG-80 zone.	NOE

2008058069	<p>Kern County Water Agency/Central Coast Water Authority Short-Term Exchange and Water Banking Program Central Coast Water Authority --Kern, Santa Barbara</p> <p>In 2006, IRWD and Rosedale constructed an Interim Recharge Project on the Strand Ranch in Kern County. The pilot recharge project consists of three recharge basins covering 125 acres. Rosedale is a member agency of KCWA and holds a SWP Table A Amount of 29,900 acre-feet. All CEQA requirements have been completed for the Interim Recharge Project.</p> <p>In the Interim Recharge Project, CCWA will deliver up to 1,000 acre-feet of SWP Table A Amount to KCWA which will transfer the water to the IRWD/Rosedale groundwater bank. Within five years, CCWA will have the right to recover 50% of the water placed into storage less 50% of the evaporation losses attributed to conveyance and recharge operations. In exchange for use of the Interim Recharge Project, KCWA with its member agency (in partnership with IRWD) will retain 50% of the water stored less the balance of all other losses. All water not returned to CCWA will remain in Kern County and be used locally (overdraft correction in pursuit of perfecting the long-term recharge project).</p>	NOE	
2008058070	<p>1849 Condominiums Design Review (Design Review 2008-01) Mammoth Lakes, City of Mammoth Lakes--Mono</p> <p>Window and siding replacement, chimney cap and chase replacement, lighting replacement, sunroom glazing and roof replacement to a portion of an existing condominium development (60 units in 9 low-rise buildings). The purpose of the project includes improving aesthetics, maintaining value, reducing energy costs, increasing safety, and increasing compliance with current building codes.</p>	NOE	
2008058071	<p>Lake Perris Ramp 5 Replacement Boating and Waterways, Department of --Riverside</p> <p>The project will replace the nearly 40 year old concrete boat ramp with a new concrete ramp that meets Cal Boating guidelines. The replacement ramp will be in the same footprint as the existing ramp.</p> <p>The California Natural Diversity Database and the U.S. Fish and Wildlife website has been researched and no threatened or endangered species will be affected by these projects. The area has been previously disturbed and the Eastern Information Center was queried regarding an adjacent project (ramp 6). For these reasons, it is unlikely any cultural resources will be disturbed.</p>	NOE	
2008058072	<p>Lake Del Valle Marina Replacement Boating and Waterways, Department of --Alameda</p> <p>The project will replace the existing floating dock system. The replacement system will be located nearby. The existing layout does not meet current ADA, Cal-Boating and safety standards. Relocating the dock system will allow for a more efficient and safer configuration. The project will also construct an access ramp to reach the gangway. It is necessary to remove two pine trees. The California Natural Diversity Database and the U.S. Fish and Wildlife website has been researched and no threatened or endangered species will be affected by the project. The project will require very minor excavation for the abutment footings. The minimal ground disturbing activity will result in no impact to any cultural</p>	NOE

2008052033	Water Hyacinth Control Program Boating and Waterways, Department of --Alameda, Contra Costa, Fresno, Madera, Merced, Sacramento, ... The goal of the WHCP is to keep waterways safe and navigable by controlling the growth and the spread of water hyacinth in the delta and surrounding tributaries. The primary treatment method for the WHCP is chemical, although the program has utilized some mechanical controls (primarily hand-picking), and has also researched biological controls. Cal Boating has six (6) crews conducting WHCP treatments (plus one Fresno County crew, and one Merced County crew). Treatments begin April 1st or April 15th in selected areas, however, the main region of the Delta can only be treated between July 1st and October 15th, to avoid potential impacts on fisheries. Cal Boating has divided the WHCP into 369 treatment sites that average between one and two miles in length. Sites may be treated multiple times during a treatment season. Treatment sites are prioritized so that nursery areas, and areas with public, agricultural, or industrial impacts are treated first.	NOP	06/09/2008

2008042027	Use Permit Application No. 2008-05 - Stewart & Jasper Stanislaus County Newman--Stanislaus Request to expand an existing nut processing facility by adding two storage buildings and a retail store, located on three parcels totaling 271.43 acres. The storage buildings, each approximately 14,000 square feet in size, will be constructed in two phases. Phase One construction is proposed to be completed by the end of 2008 and Phase Two will be completed by the end of 2013. The applicant has also proposed a "secondary retail store" on-site that will be open Monday through Friday from 8 am to 5 pm. One full-time and one part-time employee will oversee the retail store. The applicant's "primary retail store" is located within the City of Patterson. The retail store will sell mostly almond related products in addition to various dried fruits, fruit preservatives, and sauces.	Neg	06/09/2008
2008051044	Revisions to SBCAPCD Rules 333, 102, 201, and 202 Santa Barbara County Air Pollution Control District --Santa Barbara The proposed changes to Rule 102 (Definitions), Rule 201 (Permits Required), Rule 202 (Exemptions to Rule 201) and Rule 333 (Control of Emissions from Reciprocating Internal Combustion Engines) will affect oil and gas exploration, production, processing, and marketing sources; mineral processing; construction; and any other activity using an engine rated 50 brake horsepower (bhp) or greater to provide primary power. The Rule revisions apply to sources of air pollution located in Santa Barbara County, State Tidelands and Outer Continental Shelf waters within 25 miles of the seaward boundaries of the State and located off the coast of the County for which the APCD is the corresponding onshore area.	Neg	06/09/2008
2008051045	Conditional Use Permit 2005-233, Pleasure Point Marina Big Bear Lake, City of Big Bear Lake--San Bernardino The project is the construction of a 4,659 square foot parts and service store and paving for 93 vehicles and boat trailers for the existing 290-slip marina. Approximately 15,264 square feet of open space will be provided. Four trees will be removed for the construction improvements. The site is located at the northern terminus of Landlock Landing. The project does not have direct access to Big Bear Lake, but achieves access through Municipal Water District (MWD) property surrounding the project to the east, west, and north.	Neg	06/09/2008
2008051046	California Dairies Inc. Tulare County --Tulare The expansion of an existing wastewater treatment facility that is in conjunction with an established milk processing facility. The addition will add 5 retention ponds comprising approximately 22 acres. The ponds are used to break down milk solids in processing dry milk and the by-products are used for animal feed supplement and ethanol. A series of ponds are used to aerate water that is created by the evaporation of milk to a level that is acceptable with the Regional Water Quality Board. The water is used to recharge the ground, provide water for adjacent grape vineyard and also is returned to the Tule Irrigation Canal district.	Neg	06/19/2008

2008032087	Edge Wireless Conditional Use and Special Permits (CUP-07-05/SP-07-12) Humboldt County --Humboldt A Conditional Use Permit is required for a 145-foot tall "monopine" cellular communications tower. No lighting will be required. The subject parcel is +/- 26.5 acres in size and is developed with three residences. Two of the residences were built with permits, the third is a violation. This project's approval will not be granted until such time as the property owner remedies the existing land use violation. The residences are served by on-site water and sewer. The Special Permit is required to exceed the RS zone's height limit of 35 feet, Design Review and minor tree removal. The tower will be developed with 12 panel antennas at the top and a 4 foot diameter microwave dish at the 125-foot elevation for Edge Wireless. These antennas will be hidden within the "branches" of the "monopine." This application includes the placement of equipment shed and a propane back-up generator. All Edge facilities will be located within a 3,600 square foot lease area. Tree removal includes the removal of 3 mature conifers and will occur within the 3,600 sf lease area.	NOD

2008052044	Eureka Creek Fish Passage Improvements 08-0128 Santa Cruz County --Santa Cruz The project involves modifying an existing concrete box culvert (Post Mile Marker 2.95) placed within Corralitos Creek and making stream channel improvements in order to improve fish passage through the area. The proposed plan consists of rebuilding the failed culvert baffles on the existing box culvert floor, constructing a new downstream concrete grade control weir to backwater the culvert outlet and installing a new rock-fill weir downstream of the new concrete grade control structure. Upstream work is limited to re-configuring the gravel bar for about 50 feet upstream to improve passage and create a smooth transition across the gravel bar at the inlet. Material from the upstream gravel bar will be used for a rock toe trench, or berm, buried along the toe of the left wing wall at the upstream end of the culvert, at a location subject to regular, ongoing scour. The project site is located along Eureka Canyon Road within the vicinity of Post Mile 2.95.	MND	06/10/2008
2008051049	Mission Park-and-Ride Mixed Use Project San Gabriel, City of San Gabriel--Los Angeles The project site is located in the City of San Gabriel in the County of Los Angeles. The 1.36-acre project site is located on the northwest corner of South Mission Drive and Carmelita Street and presently occupied by the existing Mission 261 dining and banquet facilities, and the adjacent Park and Ride lot. The proposed project includes a total of 74,620 square feet of development: 35,796 square feet for hotel and retail uses, and 38,625 square feet for residential uses. In total, 30 residential units, a hotel with 56 rooms, and 15,160 square feet of retail uses and proposed. The development results in a Floor Area Ratio (RAR) of 1.3, which exceeds the Specific Plan maximum FAR of 1.0 for mixed use development.	NOP	06/10/2008
2008051051	Elings Park Phase III Plan Santa Barbara, City of Santa Barbara--Santa Barbara The project consists of the Elings Park Phase III Plan for various park additions and improvements to support active and passive recreational uses on approximately 23 acres of the lower plateau of the Elings Park North (EP North) property, and on approximately 21 acres on the Elings Park South (EP South) property. The City of Santa Barbara owns the 84-acre EP North Property, which is operated under lease arrangement by the non-profit Elings Park Foundation. The 130-acre EP South property is owned and operated in its entirety by the Foundation. Annexation of the EP South property was approved by the Local Agency Formation Commission (LAFCO) in April 2008.	NOP	06/10/2008
2008054002	Proposed Modernization of the US Coast Guard U.S. Coast Guard Alameda--Alameda The USGC is proposing to implement an administrative reorganization to realign functional responsibilities of major commands in Alameda, California and other US locations. The project is a 0.62 acre undeveloped site located at the southeast corner of North Main and Pine Streets. The additional lighting is to bring the facility into compliance with California ATM lighting code standards. To meet the standards the proponent proposes to add three 250 watt light poles at a twenty five foot height and one 100 watt wall sconce at a 13 foot height.	Neg	06/10/2008
2008052042	Napa Bank Stabilization Project - Sites 3, 4, and 5 Napa, City of Napa--Napa This project encompasses streambank repair work at three sites in Napa that were damaged during large flood events in the Winter of 2005-2006. Two other sites that need repair will be permitted and evaluated separately. The three sites evaluated are referred to as Sites 3, 4, and 5: Site 3: Tulucay Creek at South Terrace Drive; Site 4: Camille Creek at South Terrace Drive; and Site 5: Napa River, near the Kennedy Park Boat Ramp.	Neg	06/10/2008
2008052046	Renewal of Hazardous Waste Treatment and Storage Permit for Lawrence Livermore National Laboratory - Site 300 Toxic Substances Control, Department of Tracy--San Joaquin The project consists of making a decision on the permit renewal for continued hazardous and explosives waste management operations at Lawrence Livermore National Laboratory (LLNL) - Site 300. LLNL - Site 300 is an existing experimental test facility located on the eastern Altamont Hills. DTSC issued permits to LLNL - Site 300 to operate 3 hazardous waste storage and treatment facilities. The permits expired in 2006 and 2007 but LLNL is allowed to continue operating under the expired permits until a final decision is made on their renewal application.	Neg	06/25/2008
2003062101	Highway 101 HOV Lane Widening and Improvements Project - Steele Lane to Windsor River Road Caltrans #4 Windsor, Santa Rosa--Sonoma The proposed project would widen Highway 101 for approximately 12.3 km (7.6 mi) from its current four lanes to six lanes by adding one HOV lane in each direction from just north of Steele Lane in Santa Rosa to Windsor River Road-Old Redwood Highway in the Town of Windsor. The project also would provide auxiliary lanes, interchange modifications and ramp improvements.	NOD

2008022044	Oak Woodland Management Plan (OWMP) El Dorado County Placerville--El Dorado The primary purpose of the plan is to implement the Option B provisions of General Plan Policy 7.4.4.4. and to Implement Measure CO-P. These provisions establish an Oak Conservation in-lieu fee for the purchase of conservation easements for oak woodland in areas identified as Priority Conservation Areas. The ordinance establishes a program for implementing the Oak Woodland Management Plan by identifying applicable development projects to which the program applies, identifies exceptions and exemptions, establishes a conservation in-lieu fee for off-site mitigation of impacts to oak woodland and provides procedures for fee collection, accounting, and annual review of the program.	NOD	
2008022121	Nob Hill Estates Pedestrian/Bike Path Vacaville, City of Vacaville--Solano The proposed project is to construct a bike path from Cheyenne Drive to Shady Glenn Avenue in the City of Vacaville, Solano County. The bike path will cross Alamo Creek and will require the installation of a pre-fabricated pedestrian bridge. A bridge abutment will be constructed on each side of the creek for placement of the pedestrian bridge. The project consists of placing approximately 300 cubic yards of rock slope protection at locations of the proposed pedestrian bridge abutments to protect the abutments and to prevent further erosion of the creek bank. 2008058136	Agreement 2007-0164-R4; Unnamed Tributaries; Road Crossings Fish & Game #4 --Kern Excavate to smooth-out one existing road crossing, and install one 12" by 20' culvert at another road crossing.	NOE	
2008058137	Ortlieb River Well Installation, Agreement No. 2007-0110-R4 Fish & Game #4 --Tulare Installation of a water-well in the channel of the Kaweah River. Activities will include: excavating a pit ~8' deep, and 4' wide for placement of an 8' long by 4' diameter concrete pipe for a river well; placing ~5 cubic yards of 3/4" gravel in bottom of pit beneath concrete pipe, and ~7 cubic yards of 3/4" gravel around sides of concrete pipe; and backfilling over the well with native material to pre-project conditions.	NOE	
2008058138	Levee District 3 Sacramento River PL84-99 Repairs SAA # 1600-2007-0314-R2 Fish & Game #2 --Colusa The eroded slopes will be excavated in steps at least 0.5' beyond the damaged area to assure proper bonding with the new backfill material. The waterside levee slope will be reconstructed to a 3(H):1(V) slope. The damaged slope will be restored with compacted impervious fill. The reconstructed slope and all disturbed areas will be seeded with native grasses to prevent further erosion. Willow pole cuttings will be planted the length of the disturbed area.	NOE	
2008058139	Reclamation District 784 Yuba River, Dry Creek, and Western Pacific Interceptor Canal PL84-99 Repairs SAA #1600-2007-0315-R2 Fish & Game #2 --Yuba Yuba River, Left Bank: The damage consists of a 400' long wave wash of the waterside levee slope. Dry Creek, Right Bank: The damage consists of 2500' long levee toe erosion, 2-3' deep. Western Pacific Interceptor Canal Levee, Left Bank: The damage consists of 900' long levee toe erosion, 3-4' deep. The repairs will restore the levee slopes to the pre-flood condition. The damaged levee slope will be excavated 0.5' beyond the damaged area and the slope will be reconstructed with compacted impervious fill. The area will be seeded and mulched.	NOE	
2008058140	Reclamation Districts 551 and 755 Sacramento River PL84-99 Repairs SAA # 1600-2007-0313-R2 Fish & Game #2 --Sacramento During the 2005 and 2006 flood seasons, the water level went above the existing rock protection and saturated and destabilized the waterside slope, resulting in wave wash 3-5' with a few places up to 8' on the levee slope. The repair of all damaged sites consists of restoring the levee waterside slope to the pre-flood conditions with compacted impervious fill and reconstructing the rock protection on the repaired levee slope. The rock protection will be placed on a 6' layer of bedding material.	NOE

<u>Documents Received on Tuesday, May 13, 2008</u>			
2008058141	Reclamation District 17 San Joaquin River PL84-99 Repairs SAA #1600-2007-0316-R2 Fish & Game #2 --San Joaquin The damage to be repaired consists of intermittent areas of existing riprap loss and up to 3' high toe erosions on the water side levee slope. The project covers 15 intermittent sites along 5500' of levee along the right bank of the San Joaquin River. The repair consists of restoring the levee toe with quarry run rock and replacing the lost riprap on the levee slope. The repair includes cleaning the eroded area to 1' in depth, backfilling the levee toe with quarry run rock and restoring the riprap protection to the cleared and grubbed area.	NOE	
2008058142	Reclamation District 785 Yolo Bypass PL84-99 Repairs SAA # 1600-2007-0312-R2 Fish & Game #2 --Yolo The intermittent damages range from between 4' to 100' and up to 3' high, extending along a 4,000' reach of the waterside levee slope. Excavating in steps and backfilling the 2-3' high wave wash damage with impervious fill along the 4,000' reach will restore the slope. The repair areas will be then seeded and mulched.	NOE	
2008058143	Reclamation District 3 Sacramento River and Steamboat Slough PL84-99 Repairs SAA # 1600-2007-0309-R2 Fish & Game #2 --Sacramento The damages to be repaired consist of wave wash on the waterside levee slope with loss of existing rock slope protection. The repair consists of restoring the levee slope to pre-flood conditions. The repair includes cleaning the damaged area, backfilling the scarp with impervious fill and restoring the rock protection on the waterside slope to the height and thickness of the adjacent undamaged areas.	NOE	
2008058144	Bridgeport Barn Fire Protection Project Parks and Recreation, Department of --Nevada Install fire-proof retractable curtains for open doors in the Bridgeport Barn at South Yuba River State Park to provide fire protection. Work will install heat sensitive hardware spring triggers to draw curtains over door openings in the event of fire threat will fire-retardent gel is sprayed over the outside of the building surface. Fully reversible hardware will be attached to historic fabric. Curtains will be hidden from view inside of barn in false walls when not deployed. No ground disturbance will take place.	NOE	
2008058145	Fire Hydrant Replacement Parks and Recreation, Department of --El Dorado Replace existing wet barrel fire hydrants with a dry barrel hydrants of D.L. Bliss State Park. Excavate an area ~4' long x 4' wide x 4' deep around each hydrant. Remove existing hydrants. Install new shutoff valves, valve boxes, bollards, and marker at each hydrant. Install drain rock around the base of each new hydrant for drainage. Install 6-8" diameter pipes at shutoff valve locations.	NOE

	The Draft EA concluded that the proposed projects could potentially generate adverse air quality impacts during construction and water demand impacts during erosion, but the impacts would not be significant. The Draft EA also concluded that no other environmental topic areas would be significantly adversely affected by the proposed project.		
2007052094	Concord Community Reuse Project Concord, City of Concord--Contra Costa Draft EIR on a range of alternative community plans for the reuse of the 5,028 acre Concord Naval Weapons Station. The range of seven alternatives cover three themes of extending the neighborhoods, transit oriented development/village clusters and concentration/conservation. All alternatives include mixed use, residential, commercial/retail development and significant open space/parks/recreation.	EIR	07/15/2008
2008051059	Sejera Tract Map San Luis Obispo County --San Luis Obispo Request by Caroline Sejera for a Tentative Tract Map to subdivide an ~30 acre parcel into 5 parcels ranging from 5-7 acres for the purpose of sale and/or development. The division will create an on-site road to access the lots from Cimarron Way. The project will result in the disturbance of ~6 acres as a result of road improvements and future residential development.	MND	06/12/2008
2008052057	Emergency Warning Siren System Project at 2651 North Cabrillo Highway Half Moon Bay, City of Half Moon Bay--San Mateo The project is located on one 20.97-acre site, APN 048-300-310, at 2651 North Cabrillo Highway. Construction will consist of an emergency warning siren system on top of a 37-foot utility pole, 2 solar panels mounted at 20 feet above the ground, and control and battery cabinets mounted 10 feet above the ground. The unit is self-contained, not requiring power or telephone line connections. The proposed utility pole is located approximately 100 feet east from Highway 1 (Cabrillo Highway) and is along the west side of the subject property.	MND	06/12/2008
2008052058	Emergency Warning Siren System at 1000 North Cabrillo Highway Half Moon Bay, City of Half Moon Bay--San Mateo The project is located on one 5.43-acre site, APN 048-240-030, at 1000 Cabrillo Highway. Construction will consist of an emergency warning siren on top of a 37-foot utility pole, 2 solar panels mounted at 20 feet above the ground, and control and battery cabinets mounted 10 feet above the ground. The unit is self-contained, not requiring power or telephone line connections. The proposed utility pole is located approximately 1,800 feet west from Highway 1 (Cabrillo Highway) and is along the west side of the subject property.	MND	06/12/2008
2008052059	Raley Field Entertainment Facility West Sacramento, City of West Sacramento--Yolo The proposed project consists of the addition of an entertainment facility to the existing Raley Field baseball park in the City of West Sacramento. The proposed open-air entertainment facility would cover approximately 16,600 square feet and allow for capacity crowds of approximately 3,500 guests. The facility would include a stage, backstage facilities, luxury suites, box seats, concessions stands,	MND	06/12/2008

	and restrooms.		
2004082020	Curtis Park Village (P04-109) Sacramento, City of Sacramento--Sacramento The revised Curtis Park Village project is an application for land use entitlements that would allow for redevelopment of the 72-acre project site into a sustainable, mixed-use, urban infill development. The intent of the project is to create a neighborhood consisting of single-family home sites, a significant park/open space site, and neighborhood serving retail and commercial development areas. The project proposes approximately 166,000 square feet of commercial retail, 10,000 square feet of office space, entertainment and lodging uses, and approximately 216 single-family home sites.	NOP	06/12/2008
2006041048	Planada Wastewater Treatment Plant Upgrade & Expansion Planada Community Services District --Merced The upgrade and expansion of treatment facility, new treatment method (undisinfected secondary treatment), and method of disposal of treated wastewater (irrigation of nonhuman consumption crops).	NOP	06/12/2008
2008051057	Desert Springs Resort Project (GPA # 07-0007/SP# 07-0005/ZC# 07-0009/TTM# 00980) Imperial County --Imperial This is a development of a master planned resort community on 1,105 acres of mostly undeveloped land designated as "Agriculture". The project would include 1,475 dwelling units (i.e. water sport lots, recreational vehicle lots, estate lots, vacation villas, and garage villas), supporting recreation uses, restaurants, retail, commercial, parks/open space, and related infrastructure to support the project.	NOP	06/12/2008
2008051066	YULA Boys High School Expansion Los Angeles, City of Los Angeles, City of--Los Angeles The project substantially implements the campus authorized by the existing CUP issued in 1999 (Case Number ZA-1999-279-CU-ZV-PA1), (and accompanying Mitigated Negative Declaration, MND-99-0151), while requesting amendments to specific permit conditions. Among the specific amendments requested is the alteration of the enrollment composition, including an increase in the number of high school students, while retaining the total enrollment cap established by the existing CUP. The applicant also requests amendments to specific operating conditions in order to provide increased flexibility for typical high school activities. The project also includes a reduction of the site to eliminate approximately 7,153 square feet on the second and third floors of the project site known as the "West Wing." The West Wing will be the subject of separate applications filed by the Simon Wiesenthal Center. The applicant anticipates that the project will result in an increase in daytime high school activities as well as a potential increase in evening activities at the project site; these potential impacts will be addressed in the EIR. The project proposes a subterranean parking garage that would provide 100 parking spaces, and a total of approximately 17,122 square feet of new construction. The project applicant is requesting the following discretionary approvals: Site Plan Review Findings pursuant to LAMC Section 16.05-E; Conditional Use Permit/Modification; Site Reduction; and Haul route(s) approval, as necessary. 2008052052	Southeast Paradise Area Specific Plan Paradise, City of Paradise--Butte The objectives of the project are to incorporate into the Town of Paradise lands within the Plan Area to provide opportunities for housing, parkland, recreation, and limited commercial land use. The draft Specific Plan proposes criteria to be used in the consideration of new development while preserving environmental and cultural resources in a manner that provides for the systematic implementation of the Paradise General Plan.	NOP	06/12/2008
2008052055	Sonora Wal-Mart Expansion Project Sonora, City of Sonora--Tuolumne The proposed project consists of the expansion and alteration of the existing Wal-Mart store in the Sonora Crossroads Shopping Center. The project would include the addition of approximately 27,477 square feet of building area to the eastern portion of the approximately 12.91-acre Wal-Mart site. For the purposes of providing a conservative evaluation of project impacts, the EIR will analyze the additional square footage at 28,302 square feet, which is 3 percent larger than the anticipated expansion square footage. The expanded store would retail general merchandise and groceries and operate 24 hours a day, 7 days a week.	NOP	06/12/2008
2008051058	Conditional Use Permit 200600040, Project No. R2006-00500, 10262 Sierra Highway Los Angeles County Los Angeles, City of--Los Angeles The proposed project is located on an existing 16.25 acre vineyard, which is developed with a single-family residence comprised of three buildings; primary residence (1,054 sq. ft.) accessory building (835 sq. ft.) and storage shed (250 sq. ft.). The applicant proposes to convert these buildings to accommodate wine tasting, sales, office and storage (the storage shed will be expanded from 250 sq. ft. to 1,400 sq. ft.).	Neg	06/12/2008
2008051067	Bradley Avenue/State Route 67 Interchange Project Caltrans #11 El Cajon--San Diego Reconstruct existing State Route 67 interchange at Bradley Avenue and widen Bradley Avenue. The interchange reconstruction would include improvements to the Bradley Avenue/SR-67 overcrossing and the SR-67 on- and off-ramps. Bradley Avenue would be widened to four lanes between Magnolia and Mollison Avenues. The purpose of the Project is to alleviate existing and future traffic congestion and improve interchange traffic operations.	Neg	06/13/2008
2008052053	Tahoe Vista Partners LLC Placer County --Placer Project proposes to subdivide the existng 6.9 acre parcel into three parcels consisting of 4.74 acres, .82 acres and .69 acres each. No development rights are included for the site.	Neg	06/12/2008

2000011033	05-SLO-46 KP 51.8/90.6 (PM 32.2/56.3) Route 46 Corridor Improvement Project Caltrans #5 San Luis Obispo--San Luis Obispo The California Dept. of Fish and Game is executing Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to conduct a subsurface investigation consisting of vertical rotary borings required to assess foundation conditions for the proposed Estrella Bridge replacement. A total of seven borings will be performed at the abutment and pier locations. The proposed borings will be 120 feet deep. The holes will be instrumented and sealed to monitor ground water levels. Drilling spoils will be removed from the property for analysis.	NOD	
2006071039	Santa Maria River Bridges Caltrans #5 San Luis Obispo--San Luis Obispo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to conduct a subsurface investigation consisting of vertical rotary borings required to assess foundation conditions for the proposed Santa Maria Bridge widening. Approximately 20-31 borings, 4 inches in diameter and not to exceed 150 feet in depth, will be drilled at various locations within the project footprint. Drilling the holes will require the use of drilling mud, either water mixed with bentonite clay or polymer. Polymer will not be used for the test borings located in the river channel. The holes will be instrumented and sealed to monitor ground water levels and later backfilled. Drilling spoils will be removed from the property for analysis.	NOD

	mined, and 500,000 tons a year marketed.		
2007092045	Microtel Inn and Suites Manteca, City of Manteca--San Joaquin The proposed project is the construction of a 11,376 square foot, three-story, 71-room hotel, and 72 parking spaces within surface lots. The project site is approximately 1.21 acres in size. In total, the proposed project includes 32,710 square feet of building space.	FIN	
2008051061	Country Gardens II Major Use Permit for Group Care Facility; P04-058 San Diego County Fallbrook--San Diego This project is a Major Use Permit for an Assisted Living Facility. The project consists of a 16,780 square foot group care building. The structure will contain 27 suites that will support 49 beds for a maximum of 49 residents. This structure will be single story, wood framed stucco clad and residential in style.	MND	06/13/2008
2008051062	Allshouse Tract Map and Conditional Use Permit San Luis Obispo County Nipomo--San Luis Obispo Request by Mike Allshouse and Pacific Oaks Ventures LLC for a Vesting Tentative Tract Map and Conditional Use Permit to subdivide an existing 1.19 acre parcel into seventeen parcels including: fifteen new residential condominium parcels ranging in size from approximately 1,000 to 1,200 square feet each, one 0.30 acre parcel for an existing four-unit apartment building, and one 0.47 acre parcel for common active recreation area, parking, and drainage. The project includes approval for the construction of 15 single family residences ranging in size from 1,189 to 1,330 square feet.	MND	06/13/2008
2008051065	Santee View Estates 27-Lot Single Family Residential Subdivision Development Review Permit DR06-13/Tentative Map TM06-03/Application for EIS AEIS06-22 Santee, City of Santee--San Diego The proposed project is a Tentative Map to subdivide and totaling 19.92 acres into 27 residential lots and two homeowners' association lots including a 1.87-ac open space lot, a Development Review Permit for the development of 27 custom single family homes in the R2, R-1A, and R1 zones. Eight homes are proposed in the R2 zone, 18 acre proposed in the R-1A zone, and 1 is proposed in the R1 zone. The minimum design standards proposed for the project require that the custom single family homes exceed 2,000 sf, have at least two car garages, and not exceed 30' and two-stories in height. The project will have access from an extension of Cuyamaca St.	MND	06/13/2008
2008052060	Use Permit No. UP08-05, 4th of July Festival Crescent City Crescent City--Del Norte The project consists primarily of a two-day festival with vendor booths, stages, various demonstrations and activities within and adjacent to Beachfront Park. Attendant events, not subject to the proposed Mitigated Negative Declaration (MND) and permitted separately, include a parade through city streets and a fireworks display over the Crescent City Harbor. The main events subject to and addressed by the use permit and the MND are the Deck Party, which occurs the afternoon and early evening of July 3rd, and the day-long events on the 4th that occur within the park and along adjacent Front Street. 2008052061	Fairchild Drive TOD Project Mountain View, City of Mountain View--Santa Clara The proposed project is: 1) the rezoning of an ~12.7 acre site at 313/323/331/333 Fairchild Drive and 644/660/670 National Avenue in eastern Mountain View, 2) reconfiguration of the existing four parcels into two parcels, and 3) a specific development project on the easternmost five acres of the site. The project proposes demolition of four two-story industrial buildings on the site totaling 99,167 sf, as well as parking lots, trees, and landscaping. Following demolition and grading of the site, one three-story building of 87,565 sf of office space would be built. Approximately 58,082 sf of unused development potential would remain on the overall site following construction of the proposed building.	MND	06/13/2008
2008052062	Gibson Canyon Creek Wastewater Treatment Plan Clean Closure Vacaville, City of Vacaville--Solano Closure Plan for the Gibson Canyon Creek Waste Water Treatment Plant, including grading of ponds and demolition of supporting systems and facilities.	MND	06/16/2008
2008051064	Regency Plaza Project Glendale Redevelopment Agency Glendale--Los Angeles The proposed project involves the development of an approximately 96,670 square foot commercial building containing a banquet facility, a full-service restaurant, and office uses within five floors. The banquet facility and restaurant uses would occupy the first floor of the building. Additional banquet facility uses would be located on the second floor, while the banquet hall administrative offices and technical services rooms would be located on the third floor. Office uses would occupy the fourth and fifth floors. Project includes a four-level subterranean parking facility containing approximately 440 spaces including 114 tandem spaces; valet services to be provided primarily on Friday evening and on weekends. The proposed project would require the demolition of all existing on-site structures.	NOP	06/13/2008
2008051063	Foothill Groundwater Production Well (Well No. 5036) Glendale, City of Glendale--Los Angeles The project involves the rehabilitation of an existing groundwater well and the installation of equipment to connect it to the City's water supply system.	Neg	06/13/2008
2006112077	New Crystal Springs Bypass Tunnel Project San Francisco, City and County of Hillsborough--San Mateo NOTE: Response to Comments Document Construction of a 4,200 foot long tunnel to house a 96 inch steel pipe for conveying drinking water as part of the Crystal Springs Bypass System; the new tunnel/pipeline would replace an existing 96 inch pipeline that is subject to geological hazards. 1991071003	Hoag Memorial Hospital Presbyterian Master Plan Amendment Newport Beach, City of Newport Beach--Orange The existing Hoag Hospital Master Plan authorizes allowable building areas of 765,349 sf for Hoag's Upper Campus and 577,889 sf for the Lower Campus, for a total of 1,343,238 sf. The Master Plan Update Project allows up to 225,000 sf (approved but not constructed) to be transferred from the Lower Campus to the Upper Campus. Under the Master Plan Update Project, the applicant could construct up to 577,889 sf in the Lower Campus and up to 990,349 sf in the Upper Campus provided the total square footage for the Upper and Lower Campus combined does not exceed 1,343,238 sf.	NOD	
1993013045	Sonoma State University Master Plan Revision EIR California State University, Sonoma Rohnert Park--Sonoma This project will construct an expansion of the University Center. The first phase of the University Center, a Recreation Center was completed in the summer 2004. This phase of the University Center is programmed at ~132,000 GSF with the first floor designed for retail, food services, events and conference space. The second and partial third floors are programmed for events and conference space, and Associated Students, Incorporated offices and student union offices.	NOD	
2005051008	California State University, Northridge 2005 Master Plan California State University, Northridge --Los Angeles This project will construct ~32 buildings with four or five units per building. Buildings will be paired around a common promenade with individual front entries and patio space. The four basic unit types will range from 3-4 bedrooms and 2-2 1/2 bathrooms. Phase I will provide ~152 townhome-style residences comprising 311,000 GSF. Each two-story unit will range from 1,400 to 1,750 GSF and include a two-car garage. The development will provide guest parking and community amenities for residents.	NOD	
2006111133	California State University Bakersfield Campus Master Plan Update California State University, Bakersfield Bakersfield--Kern This project will design and construct a new Art Center, a new Satellite Central Plant, and related infrastructure upgrades necessary to support the new facilities. The Art Center will provide for the relocation of a number of the teaching laboratories central to the art department's instructional program. The Art Center building (16,200 GSF) will be configured as a u-shaped single story with "pavilions" for drawing and photo labs that frame a central courtyard and face the future humanities complex quad to the north.	NOD	
2007061092	Campus Master Plan Update California State University, Long Beach Long Beach--Los Angeles The proposed revision increases the university's enrollment from 25,000 FTE to 31,000 FTE. This proposed master plan revision will guide the allocation of resources for future development. The proposed master plan revision is to provide in-fill projects which will be constructed in the interior area of the campus, as well as replacement projects that will replace aged, obsolete, and inefficient facilities. These replacement projects typically require the demolition of an existing building.	NOD

2008021003	<p>Master Case No. 07-003, General Plan Amendment 07-003, Prezone 07-002, Annexation 07-003, Sphere of Influence Amendment 07-001 Santa Clarita, City of Santa Clarita--Los Angeles</p> <p>This is a request for a General Plan Amendment (GPA), prezone, and annexation of approximately 1,430 acres of land containing 1,531 developed single-family residential parcels, an 808-acre office/industrial campus with approximately 6 million square feet of buildings, an elementary school, and a public park. The project proposes a prezone and a General Plan Amendment to designate the area as BP (Business Park), CN (Commercial Neighborhood), RS (Residential Suburban), and OS (Open Space). The General Plan and City's zoning designation is consistent with the density of development that currently exists in Valencia Commerce Center and Hasley Canyon areas. No new development is proposed as part of this annexation, General Plan Amendment and prezone.</p>	NOD	
2008022124	<p>Clark Pacific "Sugarland" Project (Woodland Site) Yolo County Woodland--Yolo</p> <p>Clark Precast, LLC proposes to reuse the project site as a pre-cast concrete production facility and will utilize existing site structures, with the addition of a limited number of new improvements, to produce a range of pre-cast and pre-stressed concrete products. These products are used in a variety of high rise residential, industrial, commercial, transportation, parking, and other structures. The proposed project site consists of a 90 acre portion of 246-acre parcel in unincorporated Yolo County. Various County approvals are required, including a zoning change, conditional use permit, General Plan Amendment, and a development agreement.</p>	NOD	
2008032117	<p>Pacific Wood Recycling (File No. CUP 2007-0014) Yuba County --Yuba</p> <p>A request by Pacific Wood Recycling to allow a wood waste and green material recycling and processing facility on two existing parcels containing a total of 63.90 acres. The two parcels contain 42.90 and 21.0 acres respectively. The facility will serve the northern Sacramento Region and will receive as well as process wood wastes and green material from a variety of sources and will operate 24 hours, 7 days a week. Ten of the sixty-three acres will be used for the chipping and grinding operation.</p>	NOD	
2008058164	<p>Road and Stream Crossing Removal Project Parks and Recreation, Department of --Santa Cruz</p> <p>Remove 4 abandoned and failing old logging road stream crossings and associated culverts along Upper Wilder Creek and Peasley Gulch. Approximately 100' of road bed will be ripped at each crossing site with heavy equipment. Remove outside soil berm and inboard ditch to restore natural topography. Remove artificial fill and culverts at stream crossings, replace with rock boulders and small imported aggregate rock. Install rock weirs, log stops, and pools to re-establish stream grade. Spread local stockpiled duff and leaf litter in project areas that are subjected to ground disturbing activities to prevent erosion.</p>	NOE
