STATE CLEARINGHOUSE

NEWSLETTER

May 1-15, 2009

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1-15, 2009**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2008011027	Chandler Ranch/Rolling Hills Country Club Project Rolling Hills Estates, City of Rolling Hills Estates, Torrance--Los Angeles NOTE: Review Per Lead Extended	EIR	06/30/2009
	<p>In brief summary, the proposed project consists of redeveloping/reusing the existing Chandler's facility and the adjacent Rolling Hills Country Club with the following: 114 single family homes (33.77 acres of residential lots), 113 of which would be within a new residential community; A reconfigured/relocated 18 hole golf course (151.86 acres); A new clubhouse complex (10.16 acres) that includes a 61,411 sf structure; and 3.9 acres set aside as natural open space.</p> <p>In addition to these uses, the proposed project includes: pocket parks and overlook lots within the residential community (1.39 acres); an internal network of residential streets (10.42 acres); maintained slopes (16.45 acres); and internal infrastructure improvements. For stability purposes, the proposed homes would be built on existing golf course land and the displaced portions of the golf course would be relocated atop the reclaimed Chandler's facility.</p> <p>The proposed project would require a variety of discretionary entitlements, which generally include the following: City of Rolling Hills Estates: Vesting Tentative Tract Map, General Plan Amendments, Zone Changes, Zone Test Amendment, Grading Plan, Developement Agreement, Conditional Use Permits, Neighborhood Compatibility Determination, and Annexation/Deannexation; City of Torrance: Zone Change, Division of Lot, Conditional Use Permit, and Annexation/Deannexation; Los Angeles County Local Agency Formation Commission: Annexation/Deannexation.</p>		
2008092083	Union Crossing Project Draft EIR Manteca, City of Manteca--San Joaquin	EIR	06/15/2009
	<p>In general, the purpose of the proposed project is to develop a shopping center that would include restaurant and retail uses, all of which would contribute to the economic base of the City of Manteca and respond to underserved demand for such uses within a rapidly growing area. Although not currently proposed, some retail uses may be replaced by office uses within Phase 3 of the project if the market demands. This potential change to office uses is consistent with the proposed General Commercial zoning of the site. The City of Manteca, as the lead agency, has developed primary objectives to satisfy the requirements of the State CEQA Guidelines Section 15124 (b).</p>

	Draft EIR since it was circulated for public comment in December 2007.		
2007111003	City of Lancaster 2030 General Plan Lancaster, City of Lancaster--Los Angeles The General Plan Update is a comprehensive update of the 1997 General Plan. This includes an update of existing elements; update of existing conditions, with 2006 serving as the baseline year; update of General Plan development projections to the year 2030 based upon the Southern California Association of Governments (SCAG) 2004 Regional Transportation Plan (2004) projections; adjustment of the allowable land use pattern and density of development permitted on the General Policy Map to be consistent with SCAG's 2030 growth projections; and additions, deletions or modifications to the 1997 General Plan goals, objectives, policies and specific action for each element. The General Plan Land Use Map identifies the type, location, and density/intensity of future development within the City of Lancaster. Based upon development projections for the City, the following three land use alternatives are being considered as part of the General Plan Update: No Project Alternative; Balanced Growth Alternative; and GPCAC Preferred Plan Alternative.	FIN	
2004111084	Mountain View Avenue/Avenue 416/El Monte Way Widening Tulare County Dinuba, Kingsburg--Tulare, Fresno NOTE: NOA for FONSI NOTE: Joint Document comprised of Draft Environmental Impact Report and Environmental Assessment. The County of Tulare along with the City of Fresno, the City of Dinuba, Caltrans, and the Federal Highway Administration, propose to widen and improve a 12-mile stretch of Mountain View Avenue/Avenue 416/El Monte Way. The work would include widening the roadway to four lanes with a median and/or median lane.	FON	
2009051001	Collett Avenue Extension (P08-0762) Riverside, City of Riverside--Riverside Proposal by the City of Roseville Public Works Department for an environmental initial study to construct the remaining ~1,400 ft segment of Collett Avenue, located ~400 ft east of Buchanan Street and ~250 ft west of Napa Lane, across an existing ~45 acre vacant parcel, in the RC-Residential Conservation Zone. Construction of single family residences is not proposed as part of this project. A residential subdivision in this general area will be subject to separate entitlements and compliance with CEQA.	MND	06/01/2009
2009051004	Terminal Reservoir #2, Replacement-Rehabilitation Project San Juan Capistrano, City of San Juan Capistrano--Orange The purpose of the proposed project is to expand the storage and use of recycled water reservoir within the City's service area. The City is proposing 2 options for the reservoir site depending on the current condition of the existing tank and the results of the site septic geotechnical reconnaissance of the site; 1) the rehabilitation of the existing 10.0 million gallon domestic water storage reservoir to a recycled water reservoir, or 2) the demolition of the existing reservoir and the construction of a new 10 MG recycled water storage reservoir within the same site.	MND	06/01/2009

	The purpose of the proposed project would be to supply recycled water to pressure Zone 425 and to potentially reduce the need for additional recycled water storage reservoirs within the City. Zone 425 consists of the northern portion of the City's non-domestic water and club house facility.		
2009052004	Tillman's Auto Repair - PLP07-0080 Sonoma County Santa Rosa--Sonoma Request for 1) General Plan Amendment to adopt a Planning Area Policy allowing a commercial use in a Rural Residential 5 acre density category; 2) a Zone Change to add a Planning Area Policy to the RR, B6-5 acre density, SR, VOH; and 3) a Use Permit and Design Review for expansion of an automobile repair establishment approved as a Legal Non-Conforming use under UP90-160.	MND	06/01/2009
2009052005	Hoa Cam Tieu Residence Santa Clara County San Jose--Santa Clara The subject application is for Design Review and Grading for the construction of a two story, 11,845 sf house including an attached garage (880 sf) on Country View Lane in the Calero Lake Estates subdivision located north of Calero Lake and South of Santa Teresa County Park, in unincorporated Santa Clara County. The new construction will also entail installation of a driveway from Country View Lane and an onsite septic system to service the residence. Water supply to the residences will be provided by Great Oak Water company, which is the water purveyor for the subdivision. The total estimated grading quantities for the subject project include 726 cubic yards of cut and 114 cubic yards of fill for the construction of the house and the driveway, and landscaping. The project entails removal of one coast live oak tree (14" DBH) to facilitate the construction of the residence.	MND	06/01/2009
2009022094	114 7th Street Mixed-Use Project San Francisco, City and County of --San Joaquin The east site, Lot 103 in Assessor's Block 3726, is proposed to be developed with an eight-story, 85-foot high, mixed use, 56-unit residential and ground floor commercial building. The west site, Lot 001 in Assessor's Block 3727, would be developed with a proposed six-story, 65-foot tall mixed-use, 110 dwelling unit-over-ground-floor commercial building. The east site is within a newly enacted 85-foot height limit district, and the west site is within a 65-foot height district. Thus, under the Planning Code, the west site would not be permitted to be developed with an 85-foot high building.	NOP	06/01/2009
2009051005	99 Houghton, LLC by McIntosh and Associates Kern County Bakersfield--Kern Proposed General Plan Amendment, Zone Change, and Exclusion from Agricultural Preserve to industrial use to allow for the development of an industrial park with a maximum of 5,134,253 sf of net building area. 2009052002	State Route 9 Safety Improvement Project Caltrans #4 Saratoga--Santa Clara This project proposes to construct improvements at three spot locations. The improvements include: improving sight distance; upgrading the existing lanes and shoulders; increasing the super-elevation; installing metal beam guardrails; and placing warning signs. To accommodate these improvements, the existing slope would be cut back and soil nail retaining walls would be constructed.	NOP	06/01/2009
2009052003	Belvedere-Tiburon Library Expansion Tiburon, City of Tiburon--Marin Approximately 18,000 sf expansion of existing Library facility, relocation and expansion of existing parking lot, relocation of existing park, installation of site landscaping, changes to access from SR 131.	NOP	06/01/2009
2009051002	12th Avenue Widening Hanford, City of Hanford--Kings Proposal to widen an existing 2 lane County road (+/-30' paved width) to a 4 lane arterial street. This includes the installation of a traffic signal and the acquisition of portions of 8 parcels totaling .11 acres required for sidewalk.	Neg	06/01/2009
2009051003	Madison Water Well and Tank/Kaiser Water Well and Tank Greenfield County Water District Bakersfield--Kern The GCWD currently owns the Kaiser site and is in the process of obtaining the Madison site (a lot in a future residential Subdivison) to construct well and tank systems that would eventually be necessary to augment their present production and storage system. The timing of construction would be phased as dictated by demand from future growth in the surrounding area. The proposed sites would be completely enclosed within security fencing and would each consist of: 1 water well, 1 ground storage tank: ~16 to 24 ft high, a diesel powered 350 to 400 KW generator for emergency power in case of power outage. Generator shall include a sound attenuated enclosure and an internal silencing system, and a small storage tank for liquid chlorine to be used for disinfection of the well water.	Neg	06/01/2009
2009052001	Modesto 10th & H Streets Project Modesto, City of Modesto--Stanislaus The proposed project is the demolition of existing buildings and construction of a 7 story building with residential, retail, and office uses, parking and storage.	Neg	06/01/2009
2009052006	Serpentine Prairie Restoration Plan, Redwood Regional Park East Bay Regional Parks District Oakland--Alameda NOTE: Review Per Lead The EBRPD is proposing to implement a serpentine prairie restoration plan within Redwood Regional Park restore the vitality and botanical diversity of the Serpentine Prairie. Activities involved in implementing the proposed project include: tree and duff removal; installation of protective fencing; spring mowing and thatch treatment (raking); soil pile removal; soil decompaction and revegetation; and decommissioning, realigning and repairing existing recreation trails within the restoration area. Future phases may include: prescribed burning	Neg	06/03/2009

	and short-term grazing.		
2007062013	Tentative Subdivision Map S-18-05, Highland Park Subdivision/Planned Development Redding, City of Redding--Shasta Subdivide 95 acres to construct 206 standard single-family residential units, 48 single-family cluster units around common driveway courts, 110 townhomes, and a 56-unit apartment complex. Also provide a 6-acre park, trails, and set-aside of open space totaling 33 acres. Overall residential density of 4.8 dwelling units per gross acre and 7.0 dwelling units per acre net density, less open space.	NOD	
2009011051	Dana Middle School Joint-Use Gym Arcadia Unified School District Arcadia--Los Angeles The proposed project consists of an 8,840 sf gymnasium building, with a 6,962-sf gymnasium and 1,878 sf of additional ancillary uses, including integrated restrooms, storage rooms, office space, and other rooms within the gymnasium building. The gymnasium area would include six basketball hoops and backboards and the floor would be installed to allow poles to be set up for volleyball, badminton, and other net sports. Additional construction surrounding the gymnasium would include a walkway to the northern parking lot, modified parking lot curb at the walkway, approximately 14 pole-mounted lights in the parking lot, and landscaping with irrigation. The gymnasium would be a joint-use facility used by both the Dana Middle School and the community through a joint use agreement between the City of Arcadia and Arcadia Unified School District. No demolition of existing buildings would be required. The tentative construction schedule is anticipated to be from Fall 2009 through Fall 2010.	NOD	
2009021016	Location and Development Plan 08-06 Adelanto, City of Adelanto--San Bernardino The proposed project site is on the east side of Adelanto Road 250 feet north of Hibiscus Road, within the City of Adelanto, County of San Bernardino.	NOD	
2009031041	2009 Amendment to the 1992 Hemet-Ryan Airport Comprehensive Airport Land Use (ZAPEA01HR08) Riverside County Airport Land Use Commission Hemet--Riverside Amend the 1992 Hemet-Ryan Airport Comprehensive Airport Land Use Plan by amending the definition of "Places of Assembly" in Section II.E. on page 13 to be based on occupancy level per square foot (pursuant to the Building Code) and total square footage, rather than on an occupancy capacity of 50 persons. As the revised definition is less restrictive than the existing definition, the amendment could serve to release existing constraints on commercial and industrial development by increasing the likelihood that such proposed land uses would be found consistent with the HRACALUP.	NOD	
2009032023	Tentative Parcel Map 2008-0010 Yuba County --Yuba The project consists of a tentative parcel map that would create 2 parcels from a parcel consisting of 180 acres located at 15025 Ridge Road (APN 064-240-010) near the community of Camptonville in the unincorporated region of northeastern Yuba County. Parcel 1 would contain 20 acres and an existing residence; Parcel 2	NOD

2004071075	<p>PRC-3904.1 Ellwood Marine Terminal Lease Renewal California State Lands Commission Goleta--Santa Barbara</p> <p>The project is the renewal of a lease of state land for operation of the Ellwood Marine Terminal (EMT), a crude oil marine loading terminal and storage facility. Crude oil is first stored in two onshore tanks and then pumped into a pipeline for loading into a dedicated barge. The EMT has an average barge loading rate of 4,200 barrels (bbls) per hour with a maximum barge capacity of a total of 56,000 bbls. Typically, a dedicated barge is loaded two to three times per month with 55,000 bbls of crude oil per load. The oil is then transported to refineries in the Port of Los Angeles area. The offshore facilities consist of an irregular six-point mooring system located 2,600 feet from shore, two additional buoys, a 10-inch-diameter marine loading pipeline that extends from the beach to the mooring area, and 240-foot long rubber hose to the offshore end of the pipeline.</p>	FIN

The existing equipment/rental material would be moved from a 350 ft by 220 ft area in the northeast corner on the site to accommodate the new equipment. The existing office building on the southeast corner portion of the site would remain, and the remainder of the site would continue to be used for the equipment rental/trucking facility. The operation would take in 250 tons of materials daily, 1,250 tons weekly, and 62,500 tons annually. It would process 200 tons daily, 1,000 tons weekly, and 50,000 tons annually. Prior to processing, materials would be stoned on the site. The operation would run from 7:00 am to 5:00 pm, Monday through Friday and require 6 employees to operate the on-site equipment. End dump/belly dump trucks would be used to transport the materials at a rate of 10 to 13 trucks daily, 50 to 65 trucks weekly, and 250 to 266 trucks monthly.	MND	06/02/2009
2009051016	City of Fresno Air Quality Element Update, A-09-02 Fresno, City of Fresno--Fresno NOTE: Review Per Lead Plan Amendment No. A-09-02, Air Quality Element Update, proposes changes in the City's General Plan Resource Conservation Element to improve Air Quality further and to reduce emissions of Greenhouse Gases. 2009052007	<p>Conditional Use Permit Amendment (CUPA) 08-005 Livermore, City of Livermore--Alameda</p> <p>A request to amend Conditional Use Permit Amendment 08-001 to designate a paved area as a Caltrans Division of Aeronautics approved private (no general public access) helicopter landing pad for on-site helicopter based training for PG&E personnel to learn to access the tops of on-site training electric transmission towers for maintenance and repair. Helicopter training maneuvers would be limited to daytimes and to a limited number of days per year.</p>	MND	06/02/2009
2009052009	<p>Guedmin Minor Subdivision Humboldt County Eureka--Humboldt</p> <p>A Minor Subdivision of an ~1.7 acre parcel into 4 parcels ranging in size from 7,085 sf to 41,969 sf. The parcel is currently developed with a single family residence and detached garage that will remain on proposed Parcel 4. A Fault Evaluation Report was prepared by SHN Consulting Engineers and Geologists that identified a "cleared area" for development. An exception is requested to allow a 20 ft wide access to Parcels 3 and 4. A Special Permit is required to allow native plantings to occur within the Streamside Management Area. The parcel is and will be served with water and sewer by the Humboldt Community Services District.</p>	MND	06/02/2009
2009052012	<p>Walton Avenue and Franklin Road Improvements Yuba City Yuba City--Sutter</p> <p>The City of Yuba proposes to widen Walton Avenue between Anneka Lane to ~180' south of Franklin Road and Franklin Road from Walton Avenue to Littlejohn Road. The proposed project falls under the City's Capital Improvement Program and is funded with local funds through the Development Impact Fee Program. Through the City's General Plan, Walton Avenue and Franklin Road are functionally classified as Major Arterials and the proposed project will widen Walton Avenue and Franklin Road to increase the travel lanes from 2 to 4.</p>	MND	06/02/2009
2009051013	<p>City of Agoura Hills General Plan Update Agoura Hills, City of Agoura Hills--Los Angeles NOTE: Reference SCH# 1992091035</p> <p>The proposed project is an update to the City of Agoura Hills General Plan through the year 2035. This update includes a revision to the land use map and revisions to the various sections or "elements" of the General Plan required by the state. The General Plan Update (GPU) will focus on the Land Use and Circulation elements, but will also refine existing policies in the following other elements: Open Space and Conservation; Parks and Recreation; Noise; Public Safety; Seismic Safety; Scenic Highways; Public Facilities; Utilities and Services; Community Design; and Economic Development. As part of the GPU, all of the identified elements will be incorporated into four consolidated elements, including Community Conservation and Development, Infrastructure and Community Services, Natural Resources, and Community Safety.</p>	NOP	06/02/2009

2009052008	Rohnert Park Walmart Expansion Project Rohnert Park, City of Rohnert Park--Sonoma The proposed project consists of the expansion and alteration of the existing Walmart store. The project would include the addition of approximately 35,256 square feet of building area to the existing store. For the purposes of providing a conservative evaluation of project impacts, the EIR will analyze the additional square footage at 40,260 square feet, which is 3 percent larger than the anticipated expansion square footage. The expanded store would retail general merchandise and groceries and operate 24 hours a day, 7 days a week.	NOP	06/02/2009
2009051007	ACI Jet Center Conditional Use Permit DR2008-00122 ED08-233 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Bill Borgsmiller/Aviation Consultants Inc. (ACI), for a Conditional Use Permit and Curb, Gutter and Sidewalk waiver for a phased private aircraft support and service project. The construction project will be phased over a 6 to 10 year period and will occur on 2 lease sites known as Lease Sites "A" and "M" on San Luis Obispo County Regional Airport property. Phase I: consists of the installation of ~1 acre of replacement tarmac area on site "A" and 3.5 acres of new tarmac area on site "M" resulting in ~196,020 sf of disturbance. Phase II: consists of a new 22,600 sf private air terminal and a new 33,400 sf repair hangar on site "M" resulting in ~40,000 sf of disturbance. Phase III: consists of a new 27,000 sf repair hangar on site "M" and a new 5,600 sf propeller shop and new 10,400 sf hangar on site "A" resulting in ~43,000 sf of disturbance. The proposed project is within the Public Facilities land use category and is located on the west side of Hwy 227, ~.25 miles south of Airport Drive, south of the City of San Luis Obispo. The site is in the San Luis Obispo planning area.	Neg	06/02/2009
2009051008	Basin EL Expansion Fresno Metropolitan Flood Control District Fresno, Clovis--Fresno The Drainage Area "EL" system has capacity deficiencies within the stormwater basin to accommodate the existing and planned development in the drainage area. This project will increase the basin footprint by 4.88 acres by adding an L shaped parcel to the north portion of the basin. This additional land will increase the basin capacity to accommodate the storm water and flood protection needs of the drainage area. this project will also add an electric pump station to move water from the Herndon Canal to the basin when water is available for recharge.	Neg	06/02/2009
2009051015	SPA 14, ZCC 43, CUP 19, Map 101-23 Kern County Bakersfield--Kern NOTE: Review Per Lead Agency The applicant is requesting: 1) a Specific Plan Amendment (SPA) from RR (Rural Residential) to GC (General Commercial), 2) a zone change from E 2 1/2 RS PE to C-2 PD PE (General Commercial, Precise Development, Petroleum Extraction) and C-1 PD (Neighborhood Commercial, Precise Development), and a Conditional Use Permit to allow a mini-storage facility and an outdoor contractor's storage yard in a commercial district. The development of the parcel is proposed in 3 phases. Phase 1 would include an 8,960 sf plumbing shop with 13,040 outdoor storage yard. Phase 2 would consist of the development of 294 unit mini-storage facility with outdoor parking ~26 Recreational Vehicles. The final phase would consist of	Neg	06/05/2009

	the future development of a small market or gas station at the southern corner of the site (A Precise Development Plan would be required).		
2009052010	<p>Housing Element Update Cloverdale, City of Cloverdale--Sonoma</p> <p>The project is the City of Cloverdale's 2009 Housing Element Update policy document for meeting future housing needs, including housing affordable to lower income households. The purpose of the Housing Element is to establish specific goals, policies, and implementation measures relative to the provision of housing. In addition, the Housing Element identifies and analyzes housing needs and resources, as well as constraints to meeting those needs.</p>	Neg	06/02/2009
2009052011	<p>Al Tahoe Erosion Control Project 1, EIP #696 South Lake Tahoe, City of South Lake Tahoe--El Dorado</p> <p>Project 1 includes ~55 acres characterized by a very flat slope, bare compacted soil shoulders, and dense residential land use. The entire project area consists of one main watershed that drains to the Pasadena storm drain. Project 1 includes stabilization of the contributing shoulders that drain to the Pasadena storm drain and installation of pretreatment and media filters at the existing outfall of the storm drain upstream of Lake Tahoe. Currently, the Pasadena storm drain discharges to Lake Tahoe without any treatment. Therefore, the installation of pretreatment and media filtration will have an immediate water quality improvement to the discharge to Lake Tahoe. The main purpose of this public project is to treat the water quality impacts from the City's Right-of-Way (ROW) and consequently the project will focus improvements within the City's ROW. To date, no engineered water quality improvement projects have been implemented in Al Tahoe. The specific issues associated with the Project 1 area are described below:</p> <p>The Project 1 area is the portion of the Al Tahoe neighborhood that drains to the Pasadena storm drain. The area is adjacent to Lake Tahoe and is characterized by low slopes, seasonal ponding, compacted earthen eroding shoulders that collect and convey flow, and flat roads that experience ponding or drain to yards. The predominantly unpaved shoulders range in width from one to 10 ft and have only sporadic vegetative and pavement coverage. Surface slopes along the streets range from 0.2% to 1.2%. Much of the pavement along the side of the road has deteriorated due to erosion, parking on the shoulders and snow plow damage. The Pasadena storm drain extends down Pasadena Avenue from Modesto to Lakeview Avenues, Lakeview Avenue from half a block west to half a block east of Pasadena Avenue, and Tallac Avenue from Riverside to Pasadena Avenues. The storm drains outlets directly to Lake Tahoe at the end of Pasadena Avenue. The drop inlets that discharge to the system have mostly unclogged grates with pine needles and yard waste collected in the inverts; the pipes of the system range from completely clear to partially block. Drainage complaints submitted by residents of the area refer to standing water, clogged inlets due to snow, and water drainage into driveways and yards.</p> <p>Action is needed at this time to address issues related to water quality in the Al Tahoe Project 1 area and its stormwater and snow melt discharge into Lake Tahoe. There is a need to maximize source control and provide pretreatment for its runoff prior flowing into the Lake Tahoe.</p>	Neg	06/02/2009

2006081151	Carmel Valley Master Plan - Traffic Improvement Plan Monterey County --Monterey NOTE: Review Per Lead Portions of the proposed Carmel Valley Traffic Improvement Program have been updated since the August 2007 draft SEIR. As updated, the Carmel Valley Traffic Improvement Program includes a specified list of road improvements along Carmel Valley Road and Laureles Grade within the Carmel Valley Master Plan Area in Monterey County, proposed amendments to the Carmel Valley Master Plan, consideration of several interim improvement options for one intersection, a change in LOS standard for one segment (Segment 3), and a proposed update of traffic impact fees to pay for the proposed improvements through collection of fees from new development. This program constitutes the "project" analyzed in the Draft SEIR dated August 2007 and this PRDEIR, for the purposes of CEQA. This EIR is a programmatic EIR and is not intended as a project-level CEQA documents for the proposed improvements. Project-level CEQA compliance would need to be completed for proposed improvements at the point at which designs have been developed to allow site-specific analysis of environmental impacts. 2009048420	<p>Upgrade of Smoke Detection & Central Fire Alarm Veterans Affairs, Department of Yountville--Napa</p> <p>The project includes replacing the existing building fire alarm systems at the residential complex at six building locations and the upgrade to the electrical closet near the utility room (headend). The building include "D" Roosevelt, "C" Wilson, "K" Johnson, "H" Kennedy, "F" Truman, and "E" Washington. The majority of the construction is in the central fire alarm reporting system, ship/firmware, and fiber optic connection and is in the interior of the buildings. The work includes replacement of the wires inside existing conduit, installation of concealed conduit and upgrades in the electrical closets. Some outdoor trenching will be done to install underground conduit to the central reporting dispatch center. No new materials or construction will be attached to the exterior of the buildings and all work will be done within the central portion of the Veterans Affairs Property. The project will renovate an existing State-owned facility and will not involve an expansion of existing use. The Yountville Veterans Home is a historical district and because the buildings are older than 50 years, consultation with a representative of the State Office of Historic Preservation was conducted pursuant to the Public Resources Code section 5024.5. It has been determined that the project would not represent an adverse effect on historic resources.</p>	NOE

2006112060	Rocklin 60 Rocklin, City of Rocklin--Placer The project consists of a residential subdivision of 56.9 acres of land. The site is proposed to be subdivided into 179 single-family residential lots (ranging from a minimum size of 6,000 square feet to a maximum of 40,600 square feet, with an average lot size of 6,500 square feet) and three large lots for a stormwater and open space along the Secret Ravine riparian corridor.	EIR	06/19/2009
2009031036	General Plan Amendment No. 09-0060 - Hageman Rd Circulation Amendment Bakersfield, City of Bakersfield--Kern NOTE: Review Per Lead This project includes a General Plan Amendment of the Circulation Element to change the road designation of Hageman Road from a collector to an arterial between Landco Drive and State Highway 99/Golden State Avenue (SR 204). The future bikeway route along Hageman Road between Knudson Drive and State Highway 99/Golden State Avenue (SR 204) will be removed. In addition, this project will revise the alignment of Standard Street (collector) from its current diagonal alignment intersecting with Landco Drive and Hageman Road, to a horizontal alignment from Atlas Court and intersecting with Landco Drive one quarter mile south of Hageman Road. The railroad crossing of the re-aligned collector will be at-grade.	MND	06/05/2009
2009051021	Sutherland Drive Wireless Telecommunication Facility; P08-012; ER08-09-003 San Diego County --San Diego The proposed project is an unmanned wireless telecommunication facility consisting of four panel antennas that will be mounted on a 40 ft tall mono-broadleaf tree. Associated equipment will include back-up generator and AC units. An 8 ft high CMU enclosure is proposed to enclose the proposed mono-broadleaf and all associated equipment. Joint utility trench will be installed underground within the existing dirt road. Additional landscaping, including three Engelmann Oaks and 13 California Lilaca will be planted for visual screening.	MND	06/04/2009
2009051022	TR064989 / RENV200600022 Los Angeles County --Los Angeles Application for tentative tract map to develop 24 single family residences on 8.19 acres, internal streets on 3.53 acres, and a common open space lot on 18.05 acres; a CUP for development in hillside management area and for density controlled development; and on OTP to remove 2 oak trees. No other oak trees will be encroached upon. The proposed project will be connected to public water and sewer systems. Approximately 18,276 cy of cut and 63,142 cy of fill are proposed requiring an import of 44,866 cy of material. Proposed access will be off of Vasquez Canyon Road.	MND	06/04/2009

2009051023	Delhi Sand Mine and Reclamation Project (CUP 08-015) Merced County --Merced NOTE: Review Per Lead Approval of CUP Application No. 08-015 would allow the removal of sand from ~53 acres comprising 4 parcels in Delhi, Merced County. Material would be extracted using a front-end loader to loosen and stack material, which would be fed into a powerscreen. Raw material and screened products would be loaded into on-road trucks for delivery to construction projects in the surrounding area. The application assumes an average of 27 truck loads exported from the site per work day. Depth of excavation would range from 5 to 15 ft below existing ground surface. Reclamation would return the site to agricultural use.	MND	06/10/2009
2009052016	Rousseau Major Subdivision Humboldt County --Humboldt A re-subdivision of Parcels 3 and 4 of Parcel Map No. 3461 to create two additional parcels. The four parcels will range in size between 9,305 sf and 37,774 sf. The parcels are currently undeveloped. An exception to the subdivision standards is requested to allow the parcels to be served by a reduced right of way. The private road (Hidden Fox Lane) is existing and will have a right of way width of between 26 and 40 ft wide. The subdivision is considered a Final Map due to the previous subdivision. All parcels will be served with water and sewer by the McKinleyville Community Services District.	MND	06/04/2009
2009052017	McHenry Avenue Widening Project Escalon, City of Escalon--San Joaquin The City of Escalon previously constructed a variety of roadway improvements (including roadway curbs and gutters) along portions of McHenry Avenue (between 1st Street and Narcissus Way) to provide vehicle/pedestrian access along the roadway. The McHenry Ave Rd Improvement Project would complete these street improvements by extending the previously constructed curbs, gutters, and sidewalks through the remaining unimproved portions of McHenry Ave. All of the improvements would occur along the eastern side of McHenry Ave. The entire project study area covers ~4.95 acres, with areas to be improved occurring within smaller sections of the study area.	MND	06/04/2009
2009052019	SR 99 / Elverta Road Interchange Project Sacramento County Sacramento--Sacramento The key components of the proposed project are: Construct a partial cloverleaf interchange at SR 99/Elverta Rd (to replace the existing "at-grade" intersection); Realign the existing southbound lanes of SR 99 to fit under the new overcrossing; Maintain a 46 ft median on SR 99; Widen Elverta Rd to 4 through lanes (2 lanes each direction) within the State access-control limits. Caltrans and Sacramento County standards will be incorporated into the project for improvements on Elverta Rd; Construct a 6ft sidewalk on the north and south sides of Elverta Rd; Realign the existing drainage.irrigation canals (located in all quadrants of the project) just outside the proposed State right-of-way limits, adjacent to the diagonal on- and off-ramp; and Acquire ~41 acres for road right-of-way. The project limits along SR 99 are ~3,700 ft on either side of the existing	MND	06/04/2009

	<p>intersection and ~1,800 ft on either side of the existing SR 99 lanes along Elverta Road. Refer to Plate IS 3 for the interchange design. The interchange will have loop-on ramps in the northwest and southeast quadrants and 4 direct-connecting ramps. The northbound diagonal off-ramp will be a 2-lane ramp with an auxiliary lane on the freeway. The southbound diagonal off-ramp will be a single-lane ramp at its connection to the freeway, with an additional lane beyond the gore area. Both off-ramps will have additional turn lanes at the ramp terminus at Elverta Rd. Traffic signals will be constructed at both ramp intersections on Elverta Road. Both loop on-ramps and the northbound diagonal on-ramp will be constructed with sufficient width to accommodate 2 lanes (striping for two mixed-flow lanes and a HOV bypass lane).</p> <p>This project will construct the interchange to accommodate the future widening of both SR 99 and Elverta Rd. The project will not widen SR 99, but it will realign the existing southbound lanes to fit under the new overcrossing.</p>		
2009051025	<p>Oakmont Olive Grove Rialto, City of Rialto--San Bernardino</p> <p>The Proposed project consists of a Specific Plan to allow for the development of a high-cube warehouse distribution facility on approximately 31.0 acres north of Baseline Road and west of Cactus Avenue. The proposed Project would include appropriate landscaping and onsite improvements as required by the City of Rialto, Planning Department. The proposed Project would access Baseline Road at three points opposite Idyllwild and Glenwood Avenues. Stop signs will be installed at each project access location for traffic exiting the project site. There are no later phases of the project, or any secondary, support or off-site features necessary for its implementation.</p>	NOP	06/04/2009
2009052018	<p>Elk Grove Corporation Yard Elk Grove, City of Elk Grove--Sacramento</p> <p>Currently, the Corporation Yard consists of 11.2 acres and includes a 60,000 square foot warehouse/maintenance building. The 2007 addition of a 7,000 square foot Police Fleet operations building and fueling area is located to the north of the warehouse building. The Corporation Yard is currently being used by Neighborhood Services (which includes Transit Services, Animal Service, Community Enhancement/Code Compliance, and Integrated Waste), Police Fleet, and Public Works.</p> <p>The proposed project would include implementing recommendations contained in the January 2008 Corporation Yard Facilities Master Plan Update. The City is uncertain at this point in time what facilities will be constructed on the Corporation Yard site and in what order those facilities will come on line.</p>	NOP	06/05/2009
2009051024	<p>Fernandez PLN70121 Monterey County Watsonville--Monterey</p> <p>Combined Development Permit Consisting of a Coastal Administrative Permit to allow construction of a new 4,254 sf single-family residence with a 626 sf attached garage, 511 sf of balconies, 223 sf of porches, a 48 sf entrance porch, the installation of a new septic and water tank, and ~5,000 cy of grading; a Coastal Development Permit to allow development on slopes greater than 25%; sensitive habitat.</p>	Neg	06/04/2009

2009051026	Los Coyotes Water Reclamation Plant Interceptor Sewer Rehabilitation, Phase II Los Angeles County Sanitation District Downey, Bellflower, Bell Gardens, South Gate--Los Angeles The project consists of rehabilitation of ~10,200 ft of 54-, 60-, 63-, 75- and 78-inch diameter reinforced concrete pipe with cured-in-place pipe liners, the remodeling of one manhole, rehabilitation of 10 existing manholes, and construction of 8 new manholes.	Neg	06/04/2009
1991103064	Grafton Plaza Development Project (PA 07-006) Dublin, City of Dublin--Alameda Amendment to the Planned Development (PD) district of the General Commercial portion of Area C and a Site Development Review (SDR) to allow the construction of the Fallon Gateway shopping center. The project site is 33.91 net acres. The existing PD for Dublin Ranch Area C was approved in 1997 and allows up to 516,992 sf of development on the project site. A Negative Declaration was adopted for the prior approval through Resolution 140-97, based on the Eastern Dublin EIR (SCH# 1991103064). The amended PD includes architectural and landscape design criteria, specific parking standards and refines the permitted, conditional and temporary uses for the entire project site. The SDR is for a portion of the total project site and consists of 27.33 net acres. The SDR will allow the construction of 10 retail buildings, which totals 311,553 sf of development. The project is within the scope of the prior reviews. No further analysis is required.	NOD	
2005092026	San Francisco Public Utilities Commission's (SFPUC) Water System Improvement Project San Francisco, City and County of --Tuolumne, Stanislaus, San Joaquin, Alameda, Santa Clara, ... The San Francisco Public Utilities Commission (SFPUC) approved the 2009 Water Supply Agreement ("Agreement") by its Resolution No. 09-0069 on April 28, 2009. The Agreements sets forth the terms by which the SFPUC will provide, and the wholesale water customers will purchase, water from the San Francisco regional water system for a term of 25-years, including terms for: (1) recovery of Water System Improvement Program ("WSIP") capital costs; (2) the allocation of Water Enterprise Regional operation and maintenance expenses in proportion to water use from the regional water system by retail and wholesale customers; (3) the continued validity of the 184 million gallons per day (mgd) wholesale customer Supply Assurance; (4) the creation of separate wholesale and retail interim supply limitations to be in effect until December 2018 as set forth in the WSIP approved by the SFPUC; (5) enforcement of the interim supply limitation set for the WSIP approved by the Commission, including the imposition of an Environmental Enhancement Surcharge to be used for environmental restoration in the SFPUC watersheds; (6) provisions related to intrasystem water transfers; and (7) provisions for both drought and emergency rate increases.	NOD	
2005112005	Crestmont Residential Subdivision Project Oakland, City of Oakland--Alameda The proposed project will provide for the construction of 4 single family homes. To mitigate impacts on Presidio clarkia, a species listed as an endangered species under the California Endangered Species Act (Fish & Game, Section 2050 et seq.), the project proponent will place a conservation easement over .85 acre of the project site. 2007042143	Farron Street Pedestrian and Bike Crossing Rocklin, City of Rocklin--Placer The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2008-0199-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Rocklin. The bridge would have a four-inch thick concrete deck with handrails on each side for pedestrians, and would be anchored to reinforced concrete abutments located outside of Antelope Creek above the ordinary high water mark (OHWM). The bridge deck is proposed to be constructed at an elevation of 209.5 feet on the eastern side of Antelope Creek, and 210.0 feet on the western edge of Antelope Creek. Bridge elevations were selected to minimize backwater effects and to avoid impacts to the 100-year floodplain limits. Rock slope protection is proposed to be placed within the 100-year floodway line adjacent to Antelope Creek, and along all cut and fill slopes. No fill of any kind would be placed below the OHWM. Project implementation would include minor excavation, grading and construction activities associated with the above described project, culminating in a total of approximately 0.85 acre of ultimate disturbance. Grading would not occur in the project area until all existing oak trees occurring within the project area that are to be avoided are adequately protected by fencing. Only those trees designated for removal would be removed during construction. Prior to project construction, a physical barricade would be placed and maintained approximately three-feet beyond the drip line of each oak tree to be avoided. In addition, no construction staging or other types of disturbance would occur within the drip line of oak trees to be avoided.	NOD	
2008011107	North Shore School Facilities Project Coachella Valley Unified School District --Riverside The Coachella Valley Unified School District proposes to acquire approximately 15.958 acres of land, identified generally as a portion of Riverside County APN 721-110-001, for the construction and operation of proposed District school facilities, which will allow the District to serve students within the District. The School Project is located on the northeast corner of Arthur Street and 70th Avenue in Mecca, CA (North Shore Community).	NOD	
2008021052	Tajiguas Landfill Reconfiguration and Baron Ranch Restoration Santa Barbara County Santa Barbara--Santa Barbara The proposed project involves a redesign of a portion of the approved waste footprint at the Tajiguas Landfill. The proposed waste footprint design change (reconfiguration) would not modify any of the existing operational parameters (e.g. waste disposal capacity, hours of operation, personnel requirements, waste handling procedures, etc.) but would involve physical changes to a portion of the approved location of the waste footprint and associated disturbance for construction activities and equipment operations in the back canyon area of the Tajiguas Landfill site. 	City of Victorville's Wastewater Treatment Plant.		
2009011073	SCLA-West Side Sewer and Industrial Sewer Trunk Lines Victorville, City of Victorville--San Bernardino The SCLA-West Side Sewer and Industrial Sewer Trunk Lines consists of 2 separate sewer trunk lines. The first, the West Side Sewer Trunk Line is 8 miles of a 27 inch line that will expand the City's sewer facility by interpreting the domestic sewage from the west side of Victorville and transport it to the City's Wastewater Treatment Facility. This trunk line is 4 miles of a 24 inch line that will serve the industrial clientele of SCLA by interpreting chemical and industrial sewage and transporting it to the City's Wastewater Treatment Facility. Both trunk lines will be treated at the City's Wastewater Treatment Facility; aerobically treating 1-1/2 million gallons per day of domestic wastewater and anaerobically treating 1 million gallons per day of industrial wastewater. After separately treating each trunk line, the two will then be combined and treated with membrane bioreactor filtration technology, disinfected, and discharged as reclaimed water that will meet the California Title 22 Groundwater discharge criteria.	NOD	
2009011074	SCLA-East Sewer Trunk Line & Utilities Victorville, City of Victorville--San Bernardino This project consists of installing 9,800 linear ft or 1.85 miles, of 21-inch sewer trunk line of which 5,400 linear ft is located within the developed portion of the airport at SCLA and the remaining 4,400 linear ft is located within the same easements and rights of way as the ASR Pipeline constructed for the High Desert Power Project. Additionally, the project includes the installation of electrical and telecommunications lines within the same easement area. The project begins at the existing metering station just south of the HDPP, then traveling in a northwest direction until it intersects with Perimeter Rs, and Helendale Rd, then north to the City of Victorville's Wastewater Treatment Plant.	NOD	
2009022038	Curnow Grading Permit G07-048 Tuolumne County Sonora--Tuolumne Grading Permit G07-048 to allow excavation and grading of 7,250 +/- cubic yards of material for a driveway and building pad for a residence. The excavated material will be used to facilitate on-site grading. Excess excavated material will be placed on the western edge of the building pad.	NOD	
2009031029	SCLA - Central Wastewater Treatment Facility Victorville, City of Victorville--San Bernardino This project consists of constructing a Wastewater Treatment Facility capable of anaerobically treating up to 1 million gallons per day of industrial wastewater and aerobically treating 1 1/2 million gallons per day of domestic wastewater. The two treated water streams will be combined and treated with membrane bioreactor filtration technology before disinfection by ultra-violet light and discharged as reclaimed water for use as coolant at the High Desert Power, the future Victorville Two Power Point, or as irrigation water for the SCLA Golf Course, or other approved uses or at SCLA installations. The reclaimed water will meet the California Title 22 Groundwater discharge criteria.	NOD

2005121185	<p data-bbox="315 304 1187 464">floor of the Luckman Plaza into Soho House West Hollywood, a private members only club and restaurant. The Proposed Project would also convert entitled office space, previously an open air lobby, into a spa and retail facility with associated cafe on the ground floor of the building. The Proposed Project would total ~25,214 sf.</p> <p data-bbox="315 491 667 611">Clovis-Herndon Shopping Center Clovis, City of Clovis--Fresno NOTE: Revised</p>	FIN	
2007011034	<p data-bbox="315 653 1187 812">The Project includes the development of ~491,904 sf of leasable space on ~44 acres. A major tenant is proposed to be a Wal-Mart store that will operate seven days a week; 24 hours a day. Nine other major stores are planned with space between 7,500 sq. ft. and 88,400 sq. ft. Six additional commercial pads are planned ranging from 4,400 sq. ft. to 8,000 sq. ft.</p> <p data-bbox="315 842 1187 1230">Sunset/Doheny Hotel Project West Hollywood, City of West Hollywood--Los Angeles WN Sunset, LLC, the Project Applicant, proposes the redevelopment of the approximately 1.37 acres site with approximately 296,070 gross square feet of a mixed uses including 102 hotel rooms, 46 fractional-share units, 20 condominium units, and approximately 37,940 sf of commercial uses. Commercial uses would include approximately 18,080 sf of retail uses, approximately 5,175 sf of restaurant uses, approximately 5,785 sf of conference meetings uses, approximately 8,000 sf of personal services/day spa uses and approximately 900 sf of lobby lounge uses. Parking for the proposed uses would be provided in a four-and one-half-level subterranean parking structure.</p>	FIN	
2009051028	<p data-bbox="315 1262 743 1346">Knottwood Way Road Extension Project San Diego County Fallbrook--San Diego</p> <p data-bbox="315 1352 1187 1845">The project proposes to construct a 420 ft section of Knottwood Way to close the gap between 2 subdivisions in the Fallbrook Planning Area of San Diego County. Construction of this 420 ft section of road would allow Knottwood Way to connect Linda Vista Road on the west to Gird Rd on the east, a distance of slightly over one mile. The William Lyons housing developer has constructed a one mile segment of Knottwood Way westerly from Gird Rd as part of the Sycamore Ranch subdivision. Another developer has constructed a 500 ft section of Knottwood Way from Linda Vista Drive easterly as part of the Sycamore Heights subdivision. The project proposes to construct this 420 ft section of new road to Rural Light Collector Road Standards as shown in the County of San Diego Road Standards. Total Right of Way will be 60 ft wide. There will be 2 lanes; each lane will be 12 ft wide and paved. There will also be 2 paved shoulders that are each 8 ft wide. There will be two 10 ft wide unpaved parkways (one on each side of the road). The primary purpose of completing construction of the gap between the subdivisions is to improve fire safety protection.</p>	MND	06/05/2009

2009052021	Potable Water Well 10 Oakdale, City of Oakdale--Stanislaus Installation of new potable water well to supply drinking water to the existing City of Oakdale drinking water distribution system.	MND	06/05/2009
2009052023	Permanente Creek Trail Route 101 Overcrossing and Old Middlefield Way Undercrossing Mountain View, City of Mountain View--Santa Clara The proposed Permanente Creek Trail Route 101 Overcrossing and Old Middlefield Way Undercrossing would be a pedestrian/bicycle bridge over Route 101 and tunnel under Old Middlefield Way that would extend Permanente Creek Trail across these significant barriers for north-south bicycle and pedestrian travel in the City of Mountain View. The proposed project would include approach paths, a bridge over Route 101, landscaping, and a trail extension along Permanente Creek south to Old Middlefield Way. Then, a tunnel will be utilized to cross beneath Old Middlefield Way to connect the trail to its adjacent path along Permanente Creek.	MND	06/05/2009
2009052024	Interstate 80 (I-80)/West El Camino Interchange Project (S15084800) Sacramento, City of Sacramento--Sacramento The objective of the I-80/West El Camino Interchange project is to improve traffic circulation within the interchange area of I-80 and West El Camino Avenue, relieve congestion on the off-ramp, and improve non-motorized movement. The project consists of signalizing the eastbound and westbound off-ramp intersections with West El Camino. The signalization includes installing traffic interconnects and signal detector loops. Additional components of the project include widening the eastbound I-80 off ramp and portions of West El Centro and the westbound on-ramp; constructing the necessary streetscape and/or utility improvements; constructing a 5 ft wide sidewalk along the east side of West El Camino Avenue between Orchard Lane and El Centro Road; and constructing a 2 ft wide raised concrete median separating the eastbound and westbound lanes of West El Camino Avenue in front of the 49'er Truck Stop from the West El Camino Avenue/El Centro Road intersection to about 200 ft to the east. Where the existing pavement is structurally sound, the existing travel lanes and shoulders would be given an asphalt concrete overlay within the limits of the project. Where the existing pavement has visible structural deficiencies or has insufficient structural thickness, the asphalt concrete of the entire structural section will be replaced. The existing pavement striping would be modified to accommodate the new roadway configuration and would include Class II bicycle lanes along West El Camino Avenue.	MND	06/05/2009
2009051027	Six (6) Unit Detached Condominium Project Tentative Tract Map No. 063315 Los Angeles County Rosemead--Los Angeles Tentative Tract Map No. 063315 is for the proposal to develop 6 detached condominium units over 2 new lots, with 3 units each, in the A-1 zone, under the Countywide General Plan category 1 for low density residential (1-6 units per acre). The site is located on the west side of Potrero Grande Drive, at the intersection with Sunside Drive, in the unincorporated area of South San Gabriel. Access to the site shall be directly from Potrero Grande Drive. All units will have a 2 car garage, and 5 open guest parking spaces. Grading is proposed for 520 cubic	Neg	06/05/2009

2009051045	Frankwood Avenue Improvement Project Reedley, City of Reedley--Fresno NOTE: Review Per Lead The Project is a reconstruction overlay of Frankwood Avenue between the northern city limits of Reedley (~1,000 ft north of Parlier Avenue) and Manning Avenue.	MND	06/12/2009
2009052027	Mental Health Recovery Services (CP09-39) Contra Costa County Martinez--Contra Costa Contra Costa County (Health Services Dept Applicant) and Cristini & Martinez LLC (owners): request for authorization to provide facilities for mental health recovery services. The authorizations being requested include the following: a) acquisition of the 2.2 acre parcel addressed 20 Allen Street, Martinez, b) relocation of existing tenants of the 20 Allen Street property, c) relocation of 60 existing hospital staff parking stalls to the Contra Costa Regional Medical Center campus, d) demolition of the existing structures on-site, and e) construction of 2 buildings and associated on-site parking facilities that are intended to accommodate 3 treatment programs: (a) Crisis Residential Facility; (b) Psychiatric Health Facility; (c) Assessment and Recovery Center.	MND	06/08/2009
2009052028	Edgewood Park and Natural Preserve Removal of 22 Eucalyptus Trees San Mateo County Redwood City--San Mateo Two groves of eucalyptus made up of 7 and 17 trees respectively are proposed for removal at Edgewood County Park and Natural Preserve. These 22 trees exist in serpentine grasslands located on the west side of the park adjacent and are visible within the Scenic Corridor of Highway 280. Smaller eucalyptuses that are 6 inches in size have been reduced from these groves in past years. The groves bisect a 20 acre grassland habitat that has undergone extensive restoration. The habitat restoration is an effort to reestablish the population of Federally listed Rare and Endangered Bay checkerspot butterfly habitat that once flourished at the park. Several years of mowing of the non-native Italian rye grass has greatly reduced competition for the Bay checkerspot larvae's food of choice, the California plantain (<i>Plantago erecta</i>). An added benefit of the restoration activities is a spectacular wildflower display every spring. The Federally listed rare/endangered wooly headed lessingia (<i>Lessingia hololeuca</i>), Marin dwarf flax (<i>Hesperolinon congestum</i>) and White-rayed pentachaeta (<i>Pentacheata bellidiflora</i>) also exist in the serpentine grassland. A total of 22 Eucalyptus trees, considered Significant Trees by the County's Tree Ordinance, will be replaced at a 1:1 ration with Coastal live oak, California buckeye, and Arroyo Willow within Edgewood County Park in the Edgewood Day Camp area. Following tree removal the site will be revegetated with native wildflowers grown from seed collected at Edgewood Park.	MND	06/08/2009

<u>Documents Received on Friday, May 08, 2009</u>			
2009052030	LBA Realty-Harlan Road North Lathrop, City of Lathrop--San Joaquin The proposed project site consists of 18.7 acres located at 16682 Harlan Road within the City of Lathrop, on the eastern side of I-5, between Louise Avenue and Highway 120. The project site is identified as APN 198-210-19. The project would include 183 parking stalls, including 54 stalls for truck parking and 8 stalls for handicap-accessible parking. In addition, the project would include parking lot landscaping and lighting, a monument sign, bicycle racks, trash enclosures, and a chain link perimeter fence. The project would include a General Plan Amendment (GP-08-087) to change the land use designation for the site from Freeway Commercial to General Industrial, as well as a Rezone (RZ-08-088) from Highway Commercial to General Industrial. In addition, the project would include a Development Plan application (DP-08-089) to construct an industrial building totaling 382,271 sf on the 18.7 acre site.	MND	06/08/2009
2009052032	Bret Harte High School Sports Complex/Baseball Field Improvements & Aquatic Center Bret Harte Union School District Angels Camp--Calaveras The proposed project will complete one phase of the Bret Harte Sports Complex and slightly expand one portion of the existing sports complex as follows: 1) Expand the smallest softball field (southeasterly field) located on APN 058-018-010 into the existing wetlands area to establish a regulation-size softball field. Construct a new access road to the northeast of the northern playing field. It is anticipated that a total of 0.24 +/- acre of jurisdictional waters will be disturbed by the expansion. The overall project boundaries for the entire sports complex will remain the same. 2) Proceed with the construction of the aquatic center on APN 058--019-017 and a portion of 58-019-020. The aquatic center located on parcel 58-019-017 was addressed in previous environmental analyses conducted for the sports complex. However, some limited disturbance to 58-019-020 will occur with the construction of the aquatic center (primarily planting grass and constructing bleachers) and this analysis assesses potential impacts on the aquatic center associated with parcel 58-019-020 (not included in prior analyses). The well located on 058-019-017 will be sealed below-ground, therefore well relocation is not proposed.	MND	06/08/2009
2009051036	Sunset Ridge Park Newport Beach, City of Newport Beach--Orange Construction of a City park with active and passive recreational uses and an access road to the park through the contiguous private property to the west (Newport Banning Ranch). No nighttime lighting, other than for public safety, is proposed. No nighttime park uses are proposed. The project would include the following uses and facilities: 1 baseball field; 2 soccer fields; playground/picnic area; memorial garden; overlook area with shade structure; pedestrian pathways and bike rack; restrooms facilities; up to 119 parking spaces. Off-site widening of and signalization on West Coast Highway.	NOP	06/08/2009

	rented or leased to more than 6 persons age 18 or older. Further, the proposed amendment to the Unified Development Code creates a definition of the "Rooming House", prohibiting them in all zones with the exception of the multiple family residential zones within the City.		
2009051040	PMB Daily Breeze Torrance, City of Torrance--Los Angeles The project is a proposal to construct a new 7 story hospital tower with a basement, totaling 389,216 sf, in conjunction with the removal of an existing medical office condominiums building located at 3250 Lomita Boulevard and the removal of an existing industrial building at 3201 Lomita Boulevard to provide a portion of the required parking in an offsite location. The project also involves the consolidation of existing lots at 3330 and 3520 Lomita Boulevard as well as the consolidation of existing lots and street dedication at 3201 Lomita Boulevard.	Neg	06/08/2009
2009052025	Food Waste Facility Phase 2 Project East Bay Municipal Utility District Oakland--Alameda The Food Waste Facility Phase 2 Project will expand EBMUD's capacity to accept and treat food waste. The existing food waste facility under the Resource Recovery Program is currently approved to accept up to 100 tons per day of food waste. Expansion of the existing food waste facility will allow EBMUD to accept up to an additional 150 tons per day of food waste. The project will use existing wastewater treatment plant capacity and reduce the amount of food waste disposed of at area landfills. The expansion will contribute to the ongoing Resource Recovery Program, which helps ensure that more wastes are disposed of in a safe, environmentally sound manner and increases renewable energy generation at the Main Wastewater Treatment Plant. Construction will occur within the boundaries of the MWWTP property.	Neg	06/08/2009
2009052026	City of Turlock Regional Water Quality Control Facility Upgrade & Expansion Turlock, City of Turlock--Stanislaus The proposed project involves a number of improvements to the Turlock Regional Water Quality Control Facility consistent with the 1991 Wastewater Treatment Plan Master Plan, the 1993 Final Environmental Impact Report (EIR) for the City of Turlock Wastewater Treatment Plan Facility Upgrade and Expansion (SCH # 1993042003), the 1993 General Plan, and the 1993 General Plan EIR. The proposed project includes the construction of 2 additional aeration basins (oxidation ditches) and a new headworks.	Neg	06/08/2009
2009052031	French Camp School Parking Lot Manteca Unified School District Stockton--San Joaquin The proposed parking lot will consist of asphalt paving, striped to identify 250-300 parking stalls and circulation aisles. Access to the parking area would be from Ash Street, east of French Camp Road. Landscaping & lighting would be located within the project boundaries. The proposed parking area operated from available utilities, no utility service will be required.	Neg	06/08/2009

2009048464	Langley Canyon/Valle Pacifico Water Line Pajaro Sunny Mesa Community Service District --Monterey The pipeline will extend 6000' from the PSMCSD well site located on the north side of Castroville Blvd. southerly along San Miguel Canyon and easterly along Langsley Canyon Road to the existing pump station at the intersection of Monique and Langley Canyon Roads, Prunedale, North Monterey County.	NOE	
2009048465	Temporary Urgency Flow Changes - Mono Basin Los Angeles, City of --Mono Minimum baseflow requirements from the State Water Resources Control board's Decision 1631 in the Mono Basin are being modified temporary to: 1)help store water in Grant Reservoir so that cooler water will be available for the benefit of trout fishery in rush Creek; 2)allow the Water Board appointed stream scientist to conduct habitat mapping in Lee Vining Creek.	NOE	
2009048466	Galt Safe Routes to School (SR2S) Improvements along Various Arterial Streets Galt, City of Galt--Sacramento The City of Galt recently received a grant from the California's Safe. In summary, the overall project will include a number of safety devices intended to improve pedestrian and bicycle safety along certain arterial streets where vehicle speeds exceed 40 mph and where posted speed limits are greater than 25mph. Improvements may include installation of flashing yellow beacons, permanent radar speed display signs and/or in -pavement flashing crosswalk lights. The locations are noted above. The flashing radar speed display signs will be programmed to display the 25mph speed limit during school hours and will provide feedback to motorists exceeding the speed limit. In-pavement flashing crosswalk lights will be pedestrian activated to improve crosswalk visibility. The City will use the California 2003 Manual of Uniform Traffic Control Devices for improvement development standards. All work will occur within existing rights of way/city-owned landscape corridors.	NOE	
2009048467	Recovery Act - Downtown Benecia Marine Debris Removal Project Benecia, City of Benecia--Solano On five (5) privately owned water parcels and two underwater street rights-of-way located on the downtown shoreline of the City of Benecia, Solano County. Marine debris is situated between West C and West D Streets.	NOE	
2009048468	JCC Jenner Creek Bridge Replacement Fish & Game #3 --Sonoma The applicant proposes to replace existing bridge with free-spanning bring with abutments located outside the active stream channel. Furthermore the applicant proposes to stabilize the creek bank that had failed during the aforementioned storm event. The applicant proposes to stabilize the bank by repositioning the previously placed rock rip-rap to provide for adequate channel geometry for flood conveyance. The rock rip-rap will also be inter-planted with native vegetation to provide long-term bank stability, and habitat. Other project activities associated with the project include removal of the existing bridge and associated abutments and grading approximately 670 cubic yards of native bed and bank material to create a flood plain below the bridge. The project will impact approximately 150	NOE

MND	06/09/2009
2008041028	Alamitos Bay Marina Rehabilitation Project Long Beach, City of Long Beach--Los Angeles The proposed project would renovate the existing Marina facilities in Basins 1 through 7 by providing upgraded ADA-compliant facilities and the following: 1) maintenance dredging of the Marina basins to original design depths; 2) replacing and/or upgrading 13 restrooms along with their associated water and sewer laterals; 3) repairing the sea wall where necessary; 4) complete dock and piling replacement; and 5) replacing the pavement in the Marina's parking lots. The project also includes the construction of an approximately 600-foot long dock located adjacent to Basin 4 at the southeast corner of the Marina's parking lots. The project also includes creation of a habitat area to mitigate for potential impacts to eelgrass.	NOP	06/10/2009

<u>Documents Received on Monday, May 11, 2009</u>			
2009051043	Megonigal Residential (PA2007-133) Newport Beach, City of Newport Beach--Orange The project applicant is proposing the construction of a single-family residential dwelling unit on the property, which will have vehicular access to the ground floor from Pacific Drive. The proposed residence will have a total floor area of 3,138 square feet, including 377 square feet on the ground floor, 934 square feet on the second floor and 1,827 square feet on the first floor. The ground floor level supports an additional 428 square foot garage. In addition to the indoor living area, 1,004 square feet of outdoor patio space, including 129-square feet on the ground floor, 714 square feet on the second floor, and 161 square feet on the first, is provided. The proposed three-story 3,566 square-foot residence conform to all Zoning Code property development regulations, with the exception of the proposed planter walls and a water feature that are located within the three-foot front yard setback height limit.	NOP	06/09/2009
2009051044	San Vicente Road Widening Project San Diego County Escondido--San Diego The proposed project is located on San Vicente Road between Warnock Dr and just east of Wildcat Canyon Rd in the unincorporated community of Ramona in eastern San Diego County. The project proposes improvements to ~2.25 miles of San Vicente Rd. The existing road is ~30 ft wide with two 12 ft lanes and minimal shoulders, and is unsafe due to inadequate sight distance issues. The proposed road improvements will result in two 13 ft travel lanes, two 5 ft bike lanes, 14 ft turn lanes at the Warnock Drive and Wildcat Canyon Road intersections, and two graded 10 ft parkways. In total the new road width will increase to a maximum of ~70 ft at the turn lane locations (to include 50 ft of paving) and to a minimum of 56 ft (to include 36 ft of paving) for the remaining length.	NOP	06/09/2009
2009051049	Fullerton Transportation Center Specific Fullerton, City of Fullerton--Orange The proposed FTC Specific Plan project involves implementation of a mixed-use transit-oriented development within and adjacent to the City's Central Business District. The project site encompasses existing transit facilities, including an Prange County Transit Authority (OCTA) bus transfer terminal, and a train depot that services Amtrak and MetroLink trains. For the purposes of analyzing environmental impacts, buildout if the FTC Specific Plan anticipated an additional development of ~100,000 sf of Retail; 100,000 af of Office; 120,000 sf of Hotel (120 rooms); and 1,560 multi-family residential units. This estimated identifies the maximum new construction, and does not include existing structures that are anticipated to remain. The proposed project would be developed in phases.	NOP	06/10/2009
2009051050	Santa Monica and La Brea Project West Hollywood, City of West Hollywood--Los Angeles The proposed project is a mixed-use residential and commercial development that would contain 184 residential rental units, approximately 13,350 square feet of commercial space, which includes an optional approximately 700-square-foot outdoor dining area, at-grade parking, a 2-level subterranean parking garage, and recreation and open space amenities. The six-story building would have a maximum height of 70 feet from adjacent grade to the roof structure, not including the additional height due to architectural features and projections.	NOP

2009051046	<p>Raised Pedestrian Walkway at Hartnell Gulch Monterey, City of Monterey--Monterey The City of Monterey proposes to construct a raised walkway through a riparian area with seasonal creek commonly known as Hartnell Gulch. The raised walkway is 160' long and will begin at Hartnell Street, pass along the southern side of Hartnell Gulch and will terminate at the parking lot for Uptown Monterey, a commercial shopping center at 570 Munras Avenue. The walkway will be elevated ~3 ft to 9 ft above the underlying grade and will descend incrementally towards the parking lot. The project site is presently private property and extends over parcels 001-581-011, 012, known as 509 Hartnell Street and 573 Polk Street, respectively. The City proposes to acquire a public easement across these properties to accommodate the walkway. The project will require the removal of 4 trees and various native and invasive plants. The project will use the public right-of-way at Hartnell Street and the parking lot at 570 Munras Avenue for construction staging and access.</p>	Neg	06/09/2009

2008012085	OCSD Water Service Zone Expansion Occidental Community Services District --Sonoma The project would extend Service Zone 1 to the four parcels owned by the CYO Camp and would serve two adjacent parcels that are developed and need reliable water as well as one other discontinuous parcel; one that is currently served and two discontinuous parcels for which a service commitment was previously made by OCSD. A new OCSD water service zone map would be recorded upon OCSD approval to document the new water service area. An ~600 ft intertie will be constructed between OCSD and CYO Camp.	NOD	
2008101001	Tustin Avenue Well Site Tustin, City of Santa Ana--Orange The project consists of: 1) the demolition of an existing water well and the drilling and construction of a replacement water well facility, and implementation of mitigation measures, including but not limited to sound attenuation features and measures designed to reduce potential hazards and hazardous materials impacts; and, 2) the replacement of 2 sections of undersized water mains on Tusting Avenue and Seventeenth Street. The facility will be subject to site plan review by the City of Santa Ana. The proposed project would pump water from the existing groundwater supply to satisfy domestic water demands for Tustin's service area.	NOD	
2008101003	Corona - Western Promenade Connection Western Municipal Water District Corona--Riverside The project is to construct and operated an interconnection between the City of Corona and Western Municipal Water District. The construction consists of piping, Supervisory Control and Data Acquisition System, Chemical Feed and Storage System, and appurtenances located at the City's Promenade Park.	NOD	
2008101050	Santa Ana Regional Interceptor (SARI) Reach IV-A and IV-B Pipeline Repair Santa Ana Watershed Project Authority Corona--Riverside The project consists of repairing approximately 11 miles of unlined reinforced concrete pipe. Specifically, the proposed project will slip-line 16,188 l.f. of 36-inch diameter pipe (Reach IV-B) and 16,814 l.f. of 42-inch diameter pipe and 4,000 l.f. of 27-inch diameter pipe. In addition, the project proposes to use cured-in-place-pipe for 20,669 l.f. of 27-inch diameter pipe (Reach IV-A).	NOD	
2009012012	Pleasant Grove School Road Cemetry Expansion EG-07-71 Elk Grove, City of Elk Grove--Sacramento A Conditional Use permit for an expansion of the existing Pleasant Grove School Road Cemetery on an ~4 acre portion to the east of an existing 13.53 acre parcel. The proposed project includes an additional 2,745 plots for burial, a centrally located gazebo, and aggregate driveways that would also provide parking.	NOD	
2009021105	Yucaipa Valley Regional Brineline Extension Project Yucaipa Valley Water District --San Bernardino, Riverside The Proposed Project would extend the existing SARI pipeline by ~14 miles from San Bernardino to the WRWRF to collect waste brine and excess non-potable flow and convey them directly to the ocean for disposal. It would install a reverse-osmosis treatment system within existing developed footprint of the	NOD

	WRWRF. The reverse-osmosis facilities would be enclosed in a pre-manufactured building with a footprint measuring ~80 ft by 225 ft, and would not be more than 125 ft high.		
	Construction of the project would take ~1 to 2 years. A total of 20 workers would be employed at any one time during construction. Surrounding land uses included undeveloped open space, residential properties and recreational commercial properties.		
2009032025	Cloverdale River Park Phase 3 and FEMA Project Sonoma County Unincorporated--Sonoma The project includes development of Cloverdale River Park - Phase 3, which was originally described and analyzed in a 1998 Master Plan & Initial Study. The Phase 3 project consists of recreation, bank stabilization, and habitat restoration. Recreation improvements generally include construction of an ADA-accessible river access ramp and boat portage, a small, compacted gravel parking area, family picnic sites, ADA-accessible connecting pathways, and interpretive panels. The bank stabilization and habitat restoration element generally consists of removing portions of any existing eroded levee that isolates the Russian River from its floodplain; restoration of 1,200 lineal ft of eroded riverbank slope through clean fill, regarding, seeding, and planting; placement of live siltation baffles and willow-planted rock structures to protect the restored bank, collect sediment, and reform bars at the toe of the restored riverbank; bank stabilization and erosion control using coir erosion blankets, willow mattresses, willow sprigging, and cottonwood poles; planting over 500 native trees and shrubs; and implementing conventional erosion control and bank stabilization techniques such as silt fencing, straw wattles, mulching, hydroseeding, and planting.	NOD	
2009032026	Bodega Bay Beach Erosion Emergency Repair Project Sonoma County --Sonoma The project includes a total of five projects included in the Federal Emergency Management Agency's (FEMA) program associated with the 2006-2006 New Year Storm Event. These projects are included in the Governor's Office of Emergency Services Declaration #2006-01, issued February 03, 2006. This Declaration corresponds with Presidential Declaration DR-1928-CA. FEMA has Categorically Excluded these projects from the need to conduct environmental review under the national Environmental Policy Act (NEPA). The project essentially involves replacement of rock rip-rap and engineered backfill along embankments of the facilities. Replacement of timbers, crossbeams, and pilings will be made at the southern breakwater at the Sport Fishing Center.	NOD	
2009032030	Bicycle and Pedestrian Transportation Plan Update Mill Valley, City of Mill Valley--Marin Update of the Bicycle and Pedestrian Transportation plan and inclusion of 25 Priority Steps, Lanes and Paths that may be developed in the future. This plan is intended to be programmatic. Implementation of the Plan will require physical improvements that have not yet been designed.	NOD

2008111082	Joshua Basin Water District Recharge Basin and Pipeline Project Joshua Basin Water District --San Bernardino JBWD proposes to construct one recharge basin facility that would be ~20 to 25 acres in size, and an extension of the Morongo Basin Pipeline from its existing terminus on Yucca Mesa Road to the new basin. Three alternative locations for the recharge basin are considered in the DEIR at an equal level of detail. The project would require a total of 29 acres for basin construction, which would include 22 wet acres; and would also involve construction of multiple (up to 6) 6 to 7 ft deep subbasins within the recharge basin. Subbasins would be separated by overflow earthen weirs, allowing water to flow from subbasin to subbasin as needed. Control valves (housed within a small building on the site) would be used to add water to the subbasin, as necessary. Water levels within the basins would not exceed original grade elevation and would be maintained at depths of three to five ft. Annual average recharge is anticipated to be ~2000 acre ft per year. However, with the availability of water being less than a full year, each site would be designed to allow the 2,000 acre ft per year recharge with a 50% water delivery scheduled. Therefore the recharge basins would be designed to accommodate a total capacity of up to ~4,000 acre ft fo half of the year to meet the goal of 2,000 acre ft per year of recharge. The earthen berms would visually screen the basin; an 8 ft chain-link fence would surround the site. The proposed pipeline would include up to 24,000 linear ft of 16-24 inch diameter pipe connecting to the existing Morongo Pipeline at Yucca Mesa Road. The pipeline would be constructed within existing roadway rights-of-way.	EIR	06/25/2009
2008072060	Natomas Levee Improvement Program, Phase 3 Landslide Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento, Sutter The Phase 3 Landslide Improvements Project is part of SAFCA's efforts to reduce the risk of flooding to the Sacramento area. The Phase 3 Project includes flood risk reduction improvements (e.g., levee widening, setback levees, cutoff walls, seepage berms) along the Sacramento River east levee (from just north of Elkhorn Reservoir to just south of I-5), the Pleasant Grove Creek Canal west levee (between Howsley Rd. and Sankey Rd.), and the Natomas East Main Drainage Canal west levee (from Elkhorn Blvd. to Northgate Blvd.) as well as construction of a new canal to provide drainage and giant garter snake habitat (the "GGS/Drainage Canal"), removal of encroachments, and borrow and relandscaping activities in Sacramento and Sutter Counties. 2008042015	SRJC Culinary Arts Center Sonoma County Junior College District Santa Rosa--Sonoma The proposed Culinary Arts Center is an ~22,000 sf 2 story building. It is anticipated that 125 to 175 students will be at the facility at any given time depending on the number of classes being offered. Approximately 6 to 10 staff members, depending on the number of classes at the time, would also be present. The culinary program would include instruction year-round with classes held between 7:30 am and 2:00 pm, possibly including weekends.	MND	06/10/2009
2009051053	SPA No. 9; ZCC No. 47, Map 230-20; Lane by Cornerstone Kern County --Kern (a) An amendment to the Rosamond Specific Plan from Map Code 5.3 to 6.2 (General Commercial); and (b) a change in zone classification from R-1 to C-2 PD (General Commercial), Precise Development Combining). The applicant is requesting the change in map code designation and zoning to facilitate future development of the parcel into offices, retail and mini-storage, on ~5 acres. The purpose of the General Commercial District is to designate areas for the widest range of retail commercial activities, including regional shopping centers and heavy commercial uses. The C-2 District may also be combined with the Cluster Combining District to achieve innovative, creative office or commercial development. The C-2 District should be located on major highways. The purpose of Precise Development Combining District is to designate areas with unique site characteristics or environmental conditions or areas surrounded by sensitive land uses to ensure that development in such areas is compatible with such constraints. All development in the PD Combining District shall be subject as a minimum to Special Development Standards as specified in Chapter 19.80 of this title; however, a Special Development Standards Plot Plan Review shall not be required. As proposed, water supply and sewage disposal for the development would be provided via Rosamond Community Services District. Access is being proposed via Eagle Way and Poplar Street, which are designated as local Alignments by the Rosamond-Willow Springs Circulation Map.	MND	06/10/2009
2009051054	ENV-2005-5639-MND-REC - 7719 N. Wilbur Avenue Los Angeles, City of Van Nuys--Los Angeles Zone Change from RA-1 to RE9-1 and a Parcel Map Subdivision of a 32,974.8 sf lot for the construction of 4 single family homes and a private street. As proposed, a Zoning Administrators Adjustment is required to permit a minimum 50 ft lot width in lieu of the maximum 65 foot width otherwise required in the RE9 Zone.	MND	06/10/2009
2009052041	McKinney Rezone Half Moon Bay, City of Half Moon Bay--San Mateo The City of Half Moon Bay received an application (PDP-001-09) to rezone ~43,560 sf (1 acre) site from an existing Urban Reserve (U-R) zoning designation to a Commercial General zoning designation. The applicant's conceptual plan is to move an existing veterinary practice currently located at 719 Main Street in the downtown business district and relocate to the subject location as a new facility. The project will change the existing Local Coastal Program/Land Use Plan from Urban Reserve which allows for continued agricultural, horticulture, floriculture and very low density residential uses to Commercial General which designates commercial uses ranging from convenience activities which serve day-to-day	MND	06/10/2009

2009052042	Dublin Elementary School Kindergarten and 4th/5th Grade Classroom and Future 3rd Grade Classroom Project Dublin Unified School District Dublin--Alameda NOTE: Review Per Lead	MND	06/12/2009
	Construct a new kindergarten complex to replace the existing kindergarten complex; 2 new buildings containing 7 classrooms and 3 restrooms to accommodate 4th and 5th grade students; and a future addition of five 3rd grade classrooms. The Project would result in an increased capacity of 180 students and 9 faculty and staff.		
2009051052	South Region High School No. 15 Remedial Action Plan Toxic Substances Control, Department of --Los Angeles NOTE: Reference SCH# 2008031020	Neg	06/12/2009
	The LAUSD is considering the construction of a new high school at a portion of the former Fort MacArthur upper reservation. The proposed high school is designated as South Region High School #15, herein referred to as the "Site." The Site is located at 3200 South Alma Street, San Pedro, Los Angeles County, CA. The Project that is the subject of this CEQA review is implementation of the RAP required to render the site suitable for school occupancy. The scope of the RAP entails the excavation and off-site disposal of impacted soils. Constituents of concern include lead, arsenic, pentachlorophenol, polynuclear aromatic hydrocarbons, chlordane, dieldrin, and dioxins. Approximately 5,720 cubic yards of impacted soils will be excavated and lawfully disposed off-site.		
2009051055	City of Soledad 2009 Housing Element Soledad, City of Gonzales, Greenfield--Monterey The 2009 Housing Element will serve as the City's guiding policy document that meets future housing needs for all of the City's economic sectors and, in particular, addresses the housing needs of lower income households. The policy approach taken by the 2009 Housing Element update is similar to the existing 2003 Housing Element; both call for development of multi-family housing, the development of units for large families and single-room units for migrant workers, coordination between City and affordable housing developers, the rehabilitation of older housing, the conservation of existing affordable housing and the integration of affordable housing in developing specific plan areas identified by the General Plan. In addition, energy conservation goals and policies contained within the 2003 Housing Element have been continued and expanded upon in the 2009 Housing Element, including policies encouraging residents to participate in energy efficiency retrofit programs. The Housing Element contains goals, policies, programs, and objectives that are intended to: promote and encourage equal housing opportunities for all persons, ensure adequate sites available for new construction, identify and remove development constraints, ensure the maintenance and rehabilitation of the City's existing housing stock, ensure the needs of persons with special housing needs are met, and promote the improvement of energy efficiency of new and existing housing. Upgrading the existing septic wastewater treatment system. Fire suppression system installation.	Oth	
2005061118	Fanita Santee, City of --San Diego NOTE: Review Per Lead Notice of Revised EIR regarding safety impacts for the Fanita Project in City of Santee regarding management of the open space areas (TM05-04, DR05-06) (SCH#2005061118). On October 10, 2008, the Honorable Linda B. Quinn conducted a hearing on a Petition for Writ of Mandate filed in San Diego Superior Court by Preserve Wild Santee, Center for Biological Diversity and Endangered Habitats League, Inc. challenging the EIR for the Fanita Ranch development certified by the City of Santee on December 5, 2007. After oral argument, the court upheld the EIR on all issues other than on the issues related to the EIR's conclusions regarding fire safety. This finding by the court was based upon the City's decision to decline to adopt the use of controlled burning and grazing of Project open space areas. The court, after further oral argument on January 30, 2009, issued a Limited Writ of Mandate directing the City of Santee to reconsider its determination that fire safety impacts are less than significant in the absence of controlled burns and grazing. The court further directed the City of Santee to take all relevant actions necessary to comply with CEQA related to this issue. In compliance with CEQA and the court's direction, the City of Santee has prepared a Revised Environmental Impact Report ("REIR") regarding the fire safety impacts, with a particular focus on the open space preserve areas of the Fanita Project.	RIR	06/26/2009

1996082016	Tuolumne County General Plan Update Tuolumne County On Dec. 26, 1996, the Board of Supervisors certified an EIR for the Tuolumne County General Plan Update. The EIR for the General Plan Update was prepared as a program EIR under the provisions of Section 15168 of the State CEQA Guidelines. As a program EIR, the document adopted by the Board of Supervisors adequately addresses the potential environmental impacts associated with the comprehensive update of the County's constitution for growth including certain implementation activities and provided for streamlining of the environmental review process for projects proposed subsequent to the certification of the EIR. The project entails dividing the project site consistent with the General Plan land use designation and, therefore, pursuant to Section 15183 of the State CEQA Guidelines, no additional review under CEQA is required for Tentative Parcel Map T08-014.	NOD	
2000034007	Salinas Valley Water Project Monterey County --Monterey Construction of an inflatable Obermeyer Gate dam within the Salinas River for seasonal delivery of water for irrigation and for reduction in groundwater pumping in the delivery area.	NOD	
2006121090	Hillside Management Zone Ordinance Update Sierra Madre, City of Sierra Madre--Los Angeles NOTE: NOD Withdrawn per lead on 6-16-09; NOD will be posted at a later date. The Hillside Management Zone Ordinance Update is a revision and clarification of the existing Hillside Management Zone Ordinance, which includes an amendment to the City of Sierra Madre Zoning Map and amendments to the Municipal Code text. The HMZ Ordinance Update proposes to improve development standards relative to fire hazards, open space, aesthetics, grading limits, height limits, and to protect the natural habitat within the hillside area. This update also includes a Fire Prevention Plan that includes regulations on vegetation, roofing, eaves, exterior wall surfaces, overhangs, sprinkler systems, and fuel modification/brush control in order to reduce the potential for wildland fires. The HMZ Update also would allow only one dwelling unit per lot (and one second unity, per Municipal Code Chapter 17.22), thus increasing the amount of open space within the hillside area, improving the aesthetics of the hillside area by increasing lot sizes and increasing height restrictions on buildings so as not to impede on the view; and protect the natural habitat by implementing a suitability analysis that requires a census of biological resources located onsite. The requirement of landscaping and fencing plans also regulates the amount of space to be left in its natural state so as to not disturb natural habitats. The Ordinance would change the minimum lot size from 15,000 sf to two acres; extend the coverage of the hillside area to all areas of the City with significant slopes, including the area of the City north of Carter Avenue and Mira Monte Avenue; re-classify a number of ridgelines as prominent ridgelines; and change the zone from an overlay zone to a stand-alone zone. The HMZ Update would also reorganize information contained in the previous Ordinance.	NOD

2008021053	<p>Replacement of National Oceanic and Atmospheric Administration Southwest Fisheries Science Center University of California, San Diego La Jolla--San Diego</p> <p>The University of California will facilitate development of a roughly 124,000 sf replacement facility for the National Oceanic and Atmospheric Administration (NOAA) Southwest Fisheries Science Center (SWFSC) in San Diego by leasing land to NOAA for construction and operation of the replacement facility. The location of the replacement facility is a 3.3 acre site within Scripps Institution of Oceanography (SIO) Neighborhood at UC San Diego. The project site is currently undeveloped.</p> <p>The existing SWFSC facility is a 4 building complex located at the edge of an eroding high coastal bluff. Existing SWFSC buildings are threatened by ongoing coastal bluff erosion and retreat. Two of the four existing buildings will be demolished by NOAA.</p>	NOD	
2008072021	<p>Unimin Pond J Dam Reconstruction/Relocation Project Amador County lone--Amador</p> <p>New Pond J Dam will be constructed within a sand mining quarry; the dam will provide storage for processing water; as well as, a disposal site for clay wash.</p>	NOD	
2009022040	<p>Carolands Gatehouse Hillsborough, City of Hillsborough--San Mateo</p> <p>The Carolands Gatehouse is proposed to be reconstructed by the Town of Hillsborough. The intent of this project is to reconstruct an improved image of the existing building with allowances being made for adaptive re-use of the interior of the building to accommodate an office area for Town administration. The appearance is intended to be substantially similar to the original structure with an additional 74 sf at the rear of the structure (The original structure is ~874 sf and the reconstruction would total ~948 sf). The reconstruction will incorporate sustainable building practices. The Town will save certain portions or elements of the building for inclusion and reinstallation, and landscaping will be installed. Additionally, the Town will erect an environmental fence (creating a physical barrier between the project area and the creek from "curb to curb") and hire a biologist to monitor the site prior to the mobilization of heavy equipment to ensure that the California red-legged frog, endangered San Francisco garter snake, or their critical habitat, or any other federally listed or proposed species under the administration of the U.S. Fish and Wildlife Service are not present.</p>	NOD	
2009022062	<p>Porter College Phase 2 House A Seismic University of California Santa Cruz--Santa Cruz</p> <p>The project will add a 5th and 6th floor to Porter College House A, an existing 50,800 gsf, 4 story student residence hall. The Project will add 30,500 gsf to the existing buildings and would accommodate 177 new student beds, including 150 beds on the new 5th and 6th floors and an additional 27 beds on the existing floors through internal space reconfiguration. The existing roof and 4th floor walls will be demolished to the floor slab, the 4th floor walls will be reconstructed, an additional 5th and 6th floor will be added, and the roof will be replaced. The Project will increase the height of the existing building from 51 ft 72.5 ft. Project construction will take place in conjunction will be partially concurrent with on-going construction</p>	NOD

	on the Porter B Addition project and the Porter College Dining Common renovations previously approved by the University as Phase I of Porter College Seismic and Capital Renewal in July 2008.		
2009041060	New Visitor Center Parks and Recreation, Department of --San Luis Obispo OHMVR Division proposes to construct a new visitor center at, reconfigure the entrance to, and construct an access road in, the Oceano Campground at Pismo State Beach, in Oceano, CA. The new visitor center would replace the existing natural history museum at the site. The project also includes the construction of a new vehicle storage building at the maintenance yard, also located at Pismo State Beach.	NOD	
2009058001	Pavement Overlay Caltrans #3 --Humboldt The project will construct asphalt concrete digouts, overlay the roadway with rubberized asphalt concrete, remove and replace dikes, reconstruct metal beam guardrail, place shoulder backing material, install centerline and shoulder rumble strips, replace grates over three culverts, and modify an existing culvert headwall.	NOE	
2009058002	Donnell Vista Point Emergency Rock Removal Project Caltrans #10 --Tuolumne The California Department of Transportation (Caltrans) proposes an emergency project to remove rocks and debris that have fallen from the eastbound cut slope of State Route 108 onto the shoulder and traveled way near the Donnell vista Point, east of the community of Strawberry in Tuolumne County. The existing traveled way has been damaged, and there is noticeable buckle in the highway pavement where a 12 foot by 12 foot by 10 foot boulder landed adjacent to State Route 108, compromising the safety of the traveling public. The scope of work for the proposed project includes: blasting and removing rocks and debris adjacent to State Route 108; and saw-cutting, removal, and replacement of an approximately six foot square area of damaged highway pavement. If during construction other rocks on the eastbound cut slope appear to be unstable they would be removed. Construction would occur on previously-disturbed areas and on the eastbound cut slope of State Route 108 within Caltrans' right of way. Removed rock and debris would be relocated to an existing rock disposal site nearby. No trees would be removed. Minor vegetation removal may be required. No detour is required; one lane traffic control is being proposed as well as a two hour highway closure approved by the California Highway Patrol and Caltrans staff. State Route 108 is closed for the winter approximately eight miles east of the proposed location and is due to re-open on May 15, 2009. This project qualifies as an emergency project pursuant to Section 15269(b) of the California Environmental Quality Act (CEQA) Guidelines. Section 15269(b) states that a project is exempt from CEQA if it proposes "Emergency repairs to publicly or privately owned service facilities necessary to maintain service essential to the public health, safety or welfare." 	<p>site within the Mission San Luis Rey grounds, including a Development Plan was approved by the City of Oceanside Planning Commission in September 2008.</p> <p>The project is comprised of an irregularly shaped 4 story building with a total of 235 senior living units. Of these, 180 are Supportive Independent Living units, 24 Assisted Living units, 15 Alzheimer's/Dementia Care Units and 15 Skilled Nursing units and a 5 bedroom suite in the Healthcare. There are a variety of common outdoor recreation areas including interpretative landscaped courtyards, pedestrian walkways, the Rose Garden, the Prayer Garden and the Plaza.</p>		
2009051062	<p>Annexation 09-01 Lancaster, City of Lancaster--Los Angeles</p> <p>The City of Lancaster proposes to annex ~7,190 gross acres, located immediately north of the current City limits, into the City of Lancaster. As part of the annexation, the City proposes to change the general plan designation from Non-Urban Residential to Heavy Industrial for 1,358 acres. Additionally, the City proposes to prezone 362 acres to Light Industrial, 35 acres to Moblie Home Park, 5,435 acres to Rural Residential-2.5, and 1,358 acres to Heavy Industrial. This change in the general plan designation to Heavy Industrial would allow for any industrial growth, eSolar expansion or landfill/bluefire ethanol expansion that may be proposed within the next 2 years.</p>	MND	06/11/2009
2009052044	<p>Teichert Ponds Restoration Project Chico, City of Chico--Butte</p> <p>NOTE: Review Per Lead</p> <p>The City of Chico is proposing to restore and improve the existing Teichert Pond complex. Restoration efforts will include enhancements to the hydrology of the site that will increase the control of water flows and water quality enhancements to control algal mats and invasive aquatic species, as well as elimination of litter entering Pond 2 through the installation of a trash nuisance rack at the water inlet. Existing site topography will be altered. Berms will be improved and enlarged, and Pond 2 will be converted into a treatment wetland, which will remove a portion of the nutrient load entering the site. Habitat enhancements will remove invasive, exotic vegetation and establish native vegetation. Basking structures and nesting structures will be included in project design.</p>	MND	06/16/2009
2009052045	<p>State Route 12 Operational Improvements Project Caltrans #6 --Solano, Sacramento, San Joaquin</p> <p>Caltrans is proposing a series of operational improvements at key intersections on SR 12 from Potato Slough Bridge at the Tower Park Marina to Flag City at the intersection of I-5 and SR 12 in San Joaquin County. The proposed project also includes an intelligent transportation system that informs travelers of road conditions at several locations on SR 12 starting in Rio Vista in Solano County and ending at points along I-5 in San Joaquin County. Proposed improvements would add efficiency to the current traffic flow conditions and improve travel safety and mobility.</p>	MND	06/11/2009

2009052047	<p>Capay Dam Apron Replacement Project Yolo County Flood Control and Water Conservation District --Yolo</p> <p>The District is proposing to modify the dam apron on the Capay Diversion Dam by extending it 38 ft and resurfacing the concrete apron downstream from the toe of the dam and along the entire 450 ft length of the structure. The proposed project also includes installation of a grade control structure ~150 ft downstream of the dam that is designed to protect the dam from the potential advance of downstream erosion and the long-term streambed degradation of Cache Creek. The proposed project would not result in an increase in diversion capacity, water delivery, or transmission.</p>	MND	06/11/2009
2002071041	<p>Central Los Angeles Area New Learning Center No. 1 Los Angeles Unified School District Los Angeles, City of--Los Angeles NOTE: Supplement to a Final EIR</p> <p>The Los Angeles Unified School District (LAUSD) is the Lead Agency under the California Environmental Quality Act (CEQA) for the Central Los Angeles Area New Learning Center No. 1 project (CLANLC #1 Project). On October 12, 2004, the LAUSD Board of Education certified the Final Environmental Impact Report (2004 FEIR, State Clearinghouse No. 2002071041) and approved the CLANLC #1 Project in order to relieve overcrowding at nearby schools and provide seats for approximately 4,400 students. The 2004 FEIR included mitigation measures relating to the preservation and disposition of the Robert F. Kennedy assassination site (Pantry). Based upon extensive review and evaluation by the District's appointed RFK Commission, structural consultants, historic preservation experts and staff, the Board of Education on November 15, 2005, determined it was infeasible to retain the Pantry structure intact and provided for additional measures for documenting the site and preserving some of the artifacts. The LAUSD now proposes to consider final action in regards to the disposition of the Pantry artifacts. In view of potential changes in the retention and disposition of the Pantry artifacts, the LAUSD is now preparing a Supplement to the 2004 FEIR to consider these changes and any environmental impacts there from.</p>	NOP	06/12/2009

2005041132	<p>East Valley Water District's Perchlorate Treatment and Water Distribution Project East Valley Water District Highland, San Bernardino--San Bernardino</p> <p>East Valley Water District is proposing to construct and operate one new groundwater production well and chlorine injection system on a 0.7 acre located on the northerly side of 6th Street ~400 ft westerly of Lankershim Sve. Once installed and operational, the well is existimated to supple 2000 gpm of water to the system.</p>	NOD	
2006112120	<p>Passenger Terminal Replacement Project, Del Norte County Regional Airport/Jack McNamara Field, EA/EIR Del Norte County Crescent City--Del Norte</p> <p>The proposed project is the construction of a new terminal building and realted facilities, including a new aircraft apron aream new parking facilitiesm and constructing a new airport entrance circulation road, and implementation of infrastructure and utility improvements necessary to support construction and operation of the terminal building, parking lot and aircraft apron area.</p>	NOD	
2009032060	<p>Bailey Bridges Project Parks and Recreation, Department of --Humboldt</p> <p>The Department of Parks and Recreation proposes to install annually two summer seasonal Bailey bridges on the South Fork Eel River to provide vehicle access to portions of campgrounds at Richardson Grove State Park and Standish-Hickey State Recreation Area. The bridges can vary in length seasonally to match the dynamic river bar, allowing the river to be spanned without moving material into the summer flow channel. A temporary road would be constructed across the river bar to the bridge location connecting paved access points at each campground. Bridge approach roads would be constructed by heavy equipment moving on-site river gravel. The final graded road surface would be watered and compacted before public use. Bridge abutments would consist of gravel-filled concrete pipes or large boulders back-filled with river gravel. Bridge installation would involve the use of heavy equipment to move and align parts and hand tools to assemble. Bridge segments would be assembled on dry ground, moved into place on rollers, and suspended thereby avoiding disturbance to the summer low flow channel. The bridges and approach roads would be dismantled and removed prior to the onset of winter season flows, and the river bar would be excavated back to original grade, width, and alignment.</p>	NOD

1997081036	California State University Monterey Bay 2007 Master Plan California State University Trustees Seaside, Marina--Monterey The proposed campus master plan establishes land uses and spec requirements for 3 planning horizons to beyond 2025, with a master plan enrollment ceiling of 12,000 FTE; 8,500 on campus and 3,500 off-campus students. Planning Horizon I (2007-2014) would add 432,000 to 602,000 GSF of academic and support space; ~1,200 beds for student housing; and up to 1,025 dwelling units for faculty and staff. Planning Horizon II (2015-2024) would add 230,000 to 320,000 GSF of academic, student, and support space; infrastructure; sports activities and recreation facilities; and ~600 beds of student housing. Planning Horizon III (2025+) would further develop the research and support space that is needed for the University to reach its enrollment goals adding 375,000 to 515,000 GSF of academic, student support, structured parking, and an additional 600 student beds. The proposed master plan would provide on-campus housing sufficient to accommodate more than 60% of traditional FTE and 65% of faculty and staff. The proposed campus master plan includes 4 near term projects: (1) Academic Building II and (2) Academic Building III (~55,000 to 70,000 GSF each); (3) Student Housing III (600 Beds); and (4) North Campus Housing Project, Phase I (492 dwelling units).	NOD	
2004091010	Long Beach Middle Harbor Development Project Long Beach, Port of Long Beach--Los Angeles The Port of Long Beach is proposing to redevelop a marine terminal of up to 345 acres by consolidating two existing terminals located on Piers D, E, and F in the Middle Harbor Planning District of Long Beach. Redevelopment would include construction of ~54.6 acres of landfill, a concrete wharf, buildings, a 66kV substation, expansion of an on-dock intermodal railyard, and paving, lighting, and utilities as necessary. A Harbor Development Permit was issued for the Project.	NOD	
2005109023	Hollister Road Bridge Replacement Project San Luis Obispo County Community College District --San Luis Obispo The CDFG is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Mr. Edralin Maduli. The proposed Project would remove an existing bridge and build a new bridge in its place. The existing bridge is 44 ft wide and would be replaced by a new 2 lane bridge 54 ft wide. The site would be dewatered using coffer dams and	NOD

	<p>pipes to convey flow through the site. To accommodate the new bridge, the stream would be excavated to a depth of ~7 ft below the stream bed elevation to remove 25 supporting pilings and portions of both banks would be excavated to accommodate rock slope protection (RSP). Equipment would access the site from one bank, traveling through an area where RSP would be installed later. The RSP would extend for a distance of ~75 ft upstream and downstream from the bridge centerline. The RSP would also extend across the stream channel near the upstream Project limits at sufficient depth to allow accumulation of native materials over the RSP. The stream bed would be reconfigured to mimic existing pools and riffles, thereby avoiding changes in stream hydrology, and 2 log habitat structures would be installed among the RSP. Concrete abutments would be placed outside the top of bank and temporary falsework would be placed in the stream channel. The new concrete bridge would be poured in place, after which the falsework and the dewatering dams and pipes would be removed from the stream channel. Potentially hazardous materials such as lead paint, creosote laden timbers and other materials would be removed and disposed of at a facility licensed to accommodate such materials. The site would be stabilized and revegetated using native plant species.</p>		
2006011135	<p>Villa Burano Area Plan Los Banos, City of Los Banos--Merced</p> <p>The Villa Burano Area Plan consists of the annexation of 2 parcels outside City limits; a general plan amendment to change the general plan land use designation for 2 acres of the project site from Low Density Residential to Neighborhood Commercial; pre-zoning the entire residential portion of the site currently within unincorporated county to Planned Development, as well as the parcel currently within the City limits from Public Facilities and the commercial portion to Neighborhood Commercial.</p>	NOD	
2008121116	<p>Whittier Blvd. and N. Palm St. Reclassification La Habra, City of La Habra--Orange</p> <p>The City of La Habra approved the reclassification of 2 roadway segments (a segment of E. Whittier Avenue and N. Palm Street) in the City from the existing Secondary Arterial designation to a Commuter Arterial designation for both roadways. The proposed reclassification is designed to maintain the current roadway cross-section as a means to maintain the area's residential character. No new construction will occur as part of the reclassification.</p>	NOD	
2009011105	<p>City of Yucaipa Wildwood Creek Basin Project Yucaipa, City of Yucaipa--San Bernardino</p> <p>The project includes construction of one desilting basin with approximate capacity of 30 acre ft, two detention basins with a combined capacity of ~100 ac ft and an ~50 ft wide natural bottom channel (bio-retention swale), and recreational trails around the basins on ~25 acres in and adjacent to Wildwood Creek. The primary purpose of the project is to reduce sedimentation and downstream flooding along Wildwoos Creek, including City roadways and other public infrastructure.</p>	NOD

2009032028	Holiday Inn Express Scotts Valley, City of Scotts Valley--Santa Cruz Mitigated Negative Declaration, Planned Development Aoning Overlay and Permit, Use Permit, and Design Review to build a 3 story 112-119 room hotel, with underground parking and related property improvements on a 1.74 acres in a Service-Commercial Zoning District.	NOD	
2009049009	Orange Grove Project Energy Commission --San Diego The DFG is issuing Streambed Alteration Agreement #1600-2008-0286-R5 to the project applicant, Orange Grove Energy, LP. The applicant proposes to alter the streambed of the San Luis Rey River and 6 unnamed tributaries to the San Luis Rey River, to accommodate construction of the Orange Grove Power Plant Project, a 96 MW electric generating plant designed to serve loads during peak demands. Project activity includes construction of an ~0.3 mile underground electric transmission line that will connect the site to the existing Pala substation, and an ~2.4 mile long, 10 inch natural gas transmission line. The pipeline and underground transmission line (linear facilities) will be installed utilizing "open trench" cut and backfill construction except for 7 streambed locations where horizontal boring will be used to drill underneath the streambeds. The project will utilize either the Horizontal Directional Drilling (HDD) Method of the Jack-and-Bore Method at each of the 7 streambed crossings depending upon specific conditions encountered during construction.	NOD	
2009059009	Carwood West Shopping Center Renovation Lakewood, City of Lakewood--Los Angeles The subject site is located near the northwest corner of Woodruff Avenue and Carson Street. The site is designated by the General Plan for commercial uses and is located in the C-4 zone. To the west and to the north, across a public alley and Harvey Way, are single-family homes in the Single-Family Residential zone. To east, across Woodruff Avenue, is the Carwood shopping Center in the C-4 zone. To the south, across Carson Street is Heartwell Park in the City of Long Beach. Abutting the subject site to the south is a YMCA and Allen Tire company. The subject site is about 14 acres. The General Plan allows this site to have a maximum FAR of 40% or 248,651 sf of building area. The applicant proposes to redevelop this commercial center in phases. The first phases includes reconfiguring and demolishing existing buildings combined with construction of 2 new buildings. The second phase includes modification and an addition to an existing commercial pad building. After development of this project the gross square footage will be 170,000 sf. Other aspects of this project include redesign of the parking lot, modification to existing freestanding signs, construction of additional freestanding signs, loading docks, trash enclosures, and other related improvements. Other public agencies whose approval for this project may be required include the Building and Safety Department, and the Los Angeles County Fire Department.	NOD

2001-05	<p>La Posta Band of Mission Indians APN 605-050-08-00 Bureau of Indian Affairs --San Diego NOTE: Reissued notice to seek comments regarding the within-subject application submitted by the La Posta Band.</p> <p>The subject property consists of one parcel of land, encompassing approximately 115.24 acres more or less, commonly referred to as Assessor's Parcel Number: 605-050-08. The parcel is contiguous to the exterior boundary of the La Posta Reservation. Currently, the property is vacant. The subject property will be used for the purposes of providing safe and regular road access to the western portion of the reservation.</p>	BIA	06/15/2009
2006022008	<p>City of Emeryville General Plan Update Emeryville, City of Emeryville--Alameda The proposed Emeryville General Plan is intended to respond directly to changes experienced in Emeryville since the preparation of the current General Plan, and to the growth projected for the city in coming decades. The Plan establishes a planning framework and policies for a 20 yr planning period and will replace the City's existing General Plan. The proposed General Plan focuses on community needs, neighborhood character and urban design, sustainability, and mixed-use development. It responds to resident preferences about where different land uses such as housing, shopping, industry and public facilities should be located and how City resources should be used to achieve the Plan's goals. All development will result from infill, meaning the reuse of sites that either currently or have previously contained buildings and uses.</p>	EIR	06/29/2009
2006122098	<p>Osborne Hill Subdivision Project Nevada County Grass Valley--Nevada NOTE: Review Per Lead</p> <p>Tentative Final Map, Use Permit, and Rezone would permit development of 56 residential lots and 20 condominiums / town homes on the ~224 acre site. Ultimately, the proposed Project would create 56 single-family residential lots on ~28.53 acres. The average lot size would be ~0.43 acres. Actual lot sizes would range from ~13,560 sf (0.31 acres) to 48,635 sf (1.12 acres). Each lot would be constructed as a single-family detached dwelling unit. In addition, the Project proposes 20 residential condominiums / town home units on ~10.99 acres. Ten dwelling units are proposed as 3 bedroom units, and 10 dwelling units are proposed as 2 bedroom units.</p> <p>The Project proposes to construct a community building with a swimming pool, 2 lodging rooms, and other common Project amenities on ~3.43 acres. Additionally, the Project proposes to maintain ~178 acres (or 79%) of the site in permanent open space. This open space would only allow minor intrusions of access roads and utility installations. Additionally, the open space would allow the construction and operation on non-motorized trails and other passive improvements.</p>	EIR	07/01/2009

2007092004	Cullinan Ranch Restoration Project Fish & Game #3 Vallejo--Solano, Napa NOTE: The Joint Document is comprised of a Draft EIR and a Draft EIS. The purpose of the project is to restore tidal influence to the Cullinan Ranch area to contribute to the increased provision of suitable habitat to support special status species such as the salt marsh harvest mouse and the California clapper rail in the larger San Francisco Bay ecosystem.	FIN	
2009051074	East Village - Town Center & Saticoy Village East Ventura, City of Ventura--Ventura The East Village Partners, LLC project is a single story commercial development consisting of 84,980 sf of commercial space arranged within three blocks on 8.51 acres. The development supports a 14,000 sf market, 15,500 sf drugstore and a 2,911 sf drive-thru restaurant with the remaining space for retail. The overall project provides 272 off-street parking spaces and 86 on-street parking spaces. The Jen Ven Village, LLC three story mixed-used development consists of 83 residential condominium dwelling units and 23,691 sf of commercial retail space on 4.33 acres.	MND	06/15/2009
2009051075	Tustin Street/Meats Avenue Intersection Widening & Utility Undergrounding Project - City Capital Improvement Project No. 3030 Orange, City of Orange--Orange The project involves a proposal to widen the Tustin Street/Meats Avenue intersection, in order to accommodate additional traffic lanes. The proposed widening would require partial property acquisition from adjacent commercially zoned properties and would impact setbacks, landscaping, signage, parking, and utilities. Project construction activities would include removal/relocation of existing street improvements and removal/reconstruction of private property improvements that conflict with the proposed street improvements. Construction of the intersection widening is anticipated to take ~4 months and is anticipated to begin in 2011. The proposed utility undergrounding involves conversion of the existing overhead facilities (i.e., SCE 66kV electric transmission and distribution lines, AT&T telephone lines, and TWC cable lines) within the limits of the intersection widening (i.e., north, south, and west legs), and within the Tustin Street ROW (east and west sides), from Meats Avenue to Herin Avenue. Converting the existing overhead facilities to an underground system is anticipated to take ~10 months and is anticipated to begin May 2011.	MND	06/15/2009
2009051076	Conditional Use Permit 05-23 (Lancaster Baptist) Lancaster, City of Lancaster--Los Angeles The project consists of the expansion of the existing church and school/college facilities.	MND	06/15/2009
2009051077	Emery Road Realignment Project San Diego County --San Diego The proposed project is the realignment of ~0.14 mile of Emery Road to remove a dangerous blind curve and provide adequate sight distance. As part of the project, 2 culverts will be installed to replace existing degraded culverts.	MND	06/15/2009

2009051078	Cable Ski Park (Santee Lakes Recreation Preserve Conditional Use Permit Major Revision P80-83MR#6) Santee, City of Santee--San Diego The project is a Conditional Use Permit (Major Revision) application for a Cable Ski Park facility and restaurant located on the 12 acre Lake 1 within the Padre Dam Santee Lakes Recreation Preserve. The total Project area is 16.83 acres that encompasses the cable ski water course and Cable Park support buildings, a restaurant, and parking serving the combined uses.	MND	06/15/2009
2009051079	Ivanhoe Family Apartments (GPA 09-001, PZ 09-002, Final Site Plan) Tulare County Ivanhoe--Tulare A request from Mr. Jake Lingo, of the Corporation for Better Housing (CBH), to initiate an amendment (Case NO. GPA 09-001) of the 1990 Ivanhoe Community Plan (ICP), a component of the Land Use and Circulation Elements of the General Plan. The request is to change the land use designation of ~4.57 acres on APN 107-162-032 from Commercial to High Density Residential and a change of zone application (Case No. PZ 09-002) for the subject parcel from General Commercial/Site Plan Review (C-2-SR) to High Density Residential (R-3). The project site is currently vacant land and appurtenant amenities such as a clubhouse and outdoor play and picnic areas.	MND	06/15/2009
2009052050	Morningside Parcel Map Napa, City of Napa--Napa NOTE: Request Per Lead Request to subdivide the ~49 acre parcel located at the western terminus of Morningside Drive into 2 residential lots. The Tentative Map shows the locations of the 2 proposed home sites, access roads, and limits of grading. Parcel 1 will be 25.4 acres and Parcel 2 will be 23.5 acres. Proposed improvements include the construction of a cul-de-sac bulb at the end of Morningside Drive. A private road off the cul-de-sac that will divide into 2 driveways that will provide access to the 2 proposed home sites. One driveway is routed along an existing unimproved ranch road to one of the other home site. Each proposed lot has an identified building site although no specific house plans have been included with the application. With the exception of the proposed building areas the majority of the 2 proposed lots will be encumbered with a no building easement.	MND	06/18/2009
2009052052	Echo View Estates 2 Erosion Control Project El Dorado County South Lake Tahoe--El Dorado The Echo View Estates 2 Erosion Control Project goal is to improve water quality within the subdivision by capturing, conveying and treating storm water runoff prior to discharge toward Angora Creek. The Project will also stabilize bare soil areas with the use of vegetation and rock slope protection. Additionally, the Project will reduce pavement and install measures which can be easily maintained to prolong the life of the Project. This Project is identified in federal and regional planning documents and is considered a benefit to the Lake Tahoe environment.	MND	06/15/2009

2009052054	Napa Valley Country Club - Use Permit Major Modification P08-00381-MOD Napa County Napa--Napa The project includes earthmoving, grading and trenching activities associated with the construction of a 12 acre ft off-stream reservoir and upgrade of existing irrigation piping associated with an 18 hole golf course within a 183.58 acre holding. The project proposes the construction of reservoir located in the northwest corner of a site with topography characterized as flat to gently sloping (slopes typically 4% to 25%, averaging 10%) annual non-native grassland at elevations between ~650 and 800 ft above mean sea level.	MND	06/15/2009
2009052056	San Jose International Airport Jet Fuel Pipeline Conditional Use Permit Project (File No. CP09-012) San Jose, City of San Jose--Santa Clara San Jose International Airport Jet Fuel Pipeline project Conditional Use Permit for the installation of a 2 mile long underground jet fuel pipeline facility connecting the Airport Fuel Farm on the north side of Hwy 101 southwesterly of the Guadalupe River (2500 Seaboard Avenue; APN 101-03-009) to the existing Kinder Morgan San Jose Terminal, a petroleum products terminal west of Coyote Creek (2150 Kruse Drive; APN 237-18-096).	MND	06/15/2009
2009052057	City of South San Francisco General Plan - 2007-2014 Housing Element South San Francisco, City of South San Francisco--San Mateo The City proposes adopting its 2007-2014 Housing Element, a comprehensive statement by the City of its current and future housing needs, and proposed actions to facilitate the provision of housing to meet those needs at all income levels. The purpose of the 2007-2014 Housing Element is to identify current and projected housing needs and set forth goals, policies, and programs that address those needs. The 2007-2014 Housing Element has been prepared to meet the requirements of State law and local housing objectives. The 2007-2014 Housing Element does not authorize any specific projects or development, but establishes policies for the future development of certain residential uses throughout the City.	MND	06/15/2009
2009052058	#P08-00548-MOD (Round Pond Winery Use Permit Modification) Napa County St. Helena--Napa The parcel is developed with 43.7 acres of vineyard which, with neighboring parcels that are owned by the applicant, will in part supply the grapes for the winery. The new barrel building and associated improvements will remove ~0.33 acre of vineyard. Existing access to the parcel is an improved private driveway that is located off State Highway 128/Rutherford Road. The proposal includes road improvements within Caltrans right-of-way to allow for road widening on either side of the highway and a two-way left turn lane to accommodate turning movements into the existing Round Pond and adjacent Honig Winery driveways. The access driveway is required to meet Napa County Road and Street Standards. The proposal also includes a Lot Line Adjustment which will be filed concurrently to bring the proposed parking area into the winery parcel. In conjunction with the Lot Line Adjustment, the property owner will submit an application to rescind and replace the 2 existing Agricultural Preserve Contracts consistent with the 2 new parcel configurations and adjusted vineyard acreages resulting from the Lot Line Adjustment. 2009052051	<p>Downtown Specific Plan Ceres, City of Ceres--Stanislaus</p> <p>The City of Ceres has undertaken a program to develop a Downtown Specific Plan and supporting Environmental Impact Report. The Specific Plan will cover approximately 121 acres in the downtown area of Ceres. The specific Plan Area is roughly bounded by El Camino Avenue to the west, Whitmore Avenue to the north, Ninth Street to the east, and Park Street to the south. A program-level EIR will be prepared to analyze the potential impacts of adopting and implementing the Specific Plan. The EIR study area will encompass the entire Specific Plan Area. The following project objectives have been identified for the Specific Plan:</p> <ul style="list-style-type: none"> - Educate and inform the public about the vision, goals, policies and standards for the Plan Area. - Establish a land use plan and policy framework that will guide future development and redevelopment within the Plan Area. - Facilitate increased vibrancy in the Plan Area by encouraging new development, including mixed-use development. - Preserve key resource existing in the Plan Area. - Improve connections, including motorized, pedestrian, and bicycle connections within the Plan Area and from the Plan Area to adjacent neighborhoods. - Provide a development framework that supports transit-oriented development (TOD) in the Plan Area. - Develop and implement urban design standards that promote walkable, economically viable and vibrant environments within the Plan Area. - Prepare an environmental review document (Program EIR) to facilitate subsequent project reviews. - Identify a procedural framework that will allow for adoption and implementation of the Specific Plan. 	NOP	06/15/2009
2009052053	<p>Airport West Stadium and Great Oaks Place San Jose, City of San Jose--Santa Clara</p> <p>The Airport West Stadium and Great Oaks Place Project EIR evaluates one project that consists of two distinct and geographically separate components. The two project components are the Airport West Stadium Development and the Great Oaks Place Residential Development. In general, the Airport West Stadium component proposes a rezoning to allow for the development of a stadium with up to 18,000 seats on 14.5 acres in northern San Jose. The Great Oaks Place component proposes a General Plan Amendment (GPA) and rezoning to allow for the development of between 1,100 and 1,500 residential units on an approximately 76-acre site in south San Jose. It is the intent of the project proponent to obtain approval of the proposed GPA and rezoning of the Great Oaks Place site, monetize the Great Oaks Place site to residential developer(s), and use a portion of the funds from the sale to fund or reimburse a portion of the construction of the stadium that is proposed under the Airport West Stadium Development component.</p>	NOP	06/15/2009

	affordable housing development, and through the preservation and maintenance of existing affordable housing stock.		
	Amendment of the Housing Element is subject to CEQA. No specific development projects are proposed as part of the 2009 Housing Element. However, the 2009 Housing Element does propose changes in existing land use zones and densities, as well as changes to land use regulations.		
2008011004	City of Hawaiian Gardens General Plan Update Hawaiian Gardens, City of Hawaiian Gardens--Los Angeles NOTE: Response to Comments	Oth	
	The General Plan Update is a comprehensive update of the 1994 General Plan. The work program includes a comprehensive update of the General Plan, including optional elements for Air Quality, Capital Improvements, Economic Development, and Community Design. The purpose of the General Plan Update is to provide the City Council, Planning Commission, City Staff, and the entire community with a comprehensive and internally consistent plan to guide the City's decision-making and development processes through to the General Plan horizon (year 2020).		
2006122030	Sierra College Boulevard Widening Project Rocklin, City of Rocklin--Placer	NOD	
	The project would consist of the widening of Sierra College Boulevard to provide sufficient capacity to accommodate increases in regional and local traffic, establish a centerline alignment for the ultimate roadway and repair or replace existing deteriorated or inadequate paving sections. Widening is proposed in two segments to the north and south of the Sierra College Boulevard/I-80 interchange. The north segment, from Granite Drive to Taylor Road, will widen the roadway from two to four lanes, including median, paved shoulders and as appropriate, turn lanes at intersections. Existing traffic signals at Brace Road and Taylor Road will have to be modified to accommodate the widened roadway and minor improvements to existing intersections will be necessary. The south segment, from El Don Drive to Interstate 80, will be completed in two phases; the first phase will involve the widening from two to four or five lanes with median, curb, gutter and sidewalk along the western frontage, and the second phase will involve completion of the roadway to six lanes. The existing signal at Rocklin Road will have to be modified to accommodate the widened roadway, and minor improvements to existing intersections will be necessary.		
2008041113	Calexico Housing Element Update Calexico, City of Calexico--Imperial	NOD	
	The updated Housing Element addresses existing and future housing needs for all residents and economic groups within the City. This General Plan Amendment makes several changes to the previously approved Amendment No. 2008-03 in responses to comments from the California Department of Housing and Community Development. The City relied upon the previously adopted Initial Study and Negative Declaration for General Plan Amendment No. 2008-03 in addition to an Addendum and concluded that no further environmental review is necessary.

2009022071	<p>4th Middle School Brentwood Union School District --Contra Costa</p> <p>The Brentwood Union School District (BUSD) proposes the construction of a 4th Middle School to house approximately 1,215 students in grades 6-8 served by 85 faculty and staff. Although the school's attendance boundary has not been formally developed, students are expected to matriculate primarily from existing residential development south and east of the site and future residential development planned adjacent to the site. Pioneer and Marsh Creek Elementary Schools are anticipated to act as feeders to the new middle school.</p> <p>Primary access to the school, including vehicle drop-off/pick-up, parking and bus drop-off/pick-up, would be from Tilton Lane on the eastern boundary. A secondary drop-off/pick-up area would be provided off of Smith Road on the western boundary. The conceptual design depicts the construction of classroom buildings, administrative services, a library, a gymnasium, parking, hardcourts and fields. The majority of the buildings are anticipated to be 15 to 20-foot high, one-story wood frame structures with plaster exteriors and metal roofing. A performing arts steel roof decking, interior columns and a concrete slab-on-grade floor system. The total footprint area of the school is anticipated to be approximately 15,100 square feet.</p>	NOD

On May 15, 2002, Big Basin Water Company Inc. filed a petition for a ten-year extension of time. The petition was subsequently revised to request a one-year extension to allow 1999 water diversion and use data to be used for licensing purposes. The water diversion rate increased from 0.35 cubic foot per second in 1998 to 0.37 cubic foot per second in 1999. The annual amount allowed per year increased from 221 acre-feet in 1998 to 231 acre-feet in 1999.	NOE	
2009058041	ED 49 Superelevation Modification Caltrans #3 Plymouth--El Dorado This project proposed to modify the existing curve superelevation, widen the lanes to 12 ft, widen shoulders to 4 ft, and remove trees along the inside of the curve to improve sight distance. Several cuts and fills will be required due to the widening, and both permanent and temporary right of way acquisitions will be necessary. A 60" diameter CSP culvert under the roadway will be extended.	NOE
