STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**May 1 – 15, 2016**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 1 – 15, 2016**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

2016058139	Hollister Hills State Vehicular Recreation Area - Lake Road Section Reroute Parks and Recreation, Department of Hollister--San Benito The purpose of the project is to reroute a minor section of Lake Road, and restore the decommissioned section. Roughly 1100 feet will be closed and restored. A minor reroute, about 1200 feet of 10 feet wide road, will be cut in a manner that accounts for proper and adequate drainage, that greatly reduces the stormwater impact on the landscape, and that has a reduced gradient. The road is cut into highly weathered granitic based soils that underlay the Lower Ranch. The vegetation at the project location consists predominately of chamisal chaparral with black sage, manzanita species, toyon, and various chaparral species intermixed.	<b>NOE</b>

<b><u>Documents Received on Monday, May 02, 2016</u></b>							
2016052001	General Plan Amendment & Rezone Application No. PLN2016-0031 - Don's RV Center Stanislaus County --Stanislaus Request to amend the Land Use Element of the General Plan by amending the Keyes Community Plan from Medium Density Residential to Commercial and rezone the parcel from A-2-10 to P-D, to allow installment of a gravel lot for recreational vehicle sales on a 4.87+/- acre parcel. Parking space will be improved in two phases and a driveway added to this parcel to improve circulation between both parcels. No structures are being proposed as the existing sales and service building is on the adjacent parcel.	<b>CON</b>	05/23/2016				
2015062063	Moffett Gateway Project Mountain View, City of Mountain View--Santa Clara The Moffett Gateway Project proposes to develop the approximately 9.7-acre undeveloped site with new office, hotel, and restaurant uses and an above-grade parking garage. The total square footage of the proposed uses is approximately 380,000 sf, including approximately 200,000 sf of office and 180,000 sf of hotel uses. The proposed office building and hotel would both be five stories tall with maximum heights of approximately 72 feet and 60 feet, respectively. The parking garage would contain six levels of parking and have a maximum height of approximately 52 feet. The project also includes a new bicycle and pedestrian bridge over Stevens Creek, connecting the Stevens Creek Trail to the project and off-site storm drainage improvements. Other proposed features include a landscaped open space area along the site's Moffett Boulevard frontage.	<b>EIR</b>	06/15/2016

<b><u>Documents Received on Monday, May 02, 2016</u></b>			
2014061081	Highway 59 Landfill Valley Fill Project Merced County Merced--Merced The project involves relocation of certain currently permitted onsite uses and reconfiguration of the disposal area to accommodate an increase in the maximum disposal elevation to 360 feet above mean sea level within a portion of the existing landfill. The project would allow continued operation of the existing landfill for an additional 14 to 26 years within the existing permitted facility boundary. The proposed project involves the modification of the previously approved Highway 59 Landfill Expansion project, which was analyzed in the 1996 Highway 59 Landfill Expansion Project EIR. As part of the implementation of the proposed project, MCRWMA would apply for and obtain an amendment to its existing solid waste facility permit.	<b>FIN</b>	
2016051001	Chevron USA, Inc. Steam Generators Project (S-1144548) San Joaquin Valley Air Pollution Control District Bakersfield--Kern Chevron USA, Inc. is proposing to install eight new 85.0 MMBtu/hr natural gas-fired steam generators in the Cymric Oil Field to enhance oil production activities.	<b>MND</b>	05/31/2016
2016051002	Bonta Pump Station San Diego, City of --San Diego City council approval for land acquisition and to allow for the construction of an approximately 1,075 sf (43 ft by 25 ft) Direct Transfer Station in the unincorporated community of Bonita in the County of San Diego. The DTF would provide an intertie from Sweetwater Authority's potable water system to the City's potable water system, allowing the City to transfer up to 2,600 acre ft per year from Sweetwater. The City would be responsible for operations and maintenance costs on the water that is transferred based on the costs of an equivalent amount of water produced at the Richard A. Reynolds Groundwater Desalination Facility in Chula Vista, CA. The water is intended to be transferred during the warmer and drier periods of the year when the Otay service area demands are higher. This would allow the City to offset production from the Otay Water Treatment Plant, which may be blending local runoff with imported raw water from the San Diego County Water Authority.	<b>MND</b>	05/31/2016
2016051003	Santa Ynez Riverbank Stabilization Project Lompoc, City of Lompoc--Santa Barbara The City of Lompoc proposes a 1,100 ft Reinforced Vegetative Bank Protection System to be located at the base of the western bank of the Santa Ynez River, between Pine and North Ave. The RVBPS consists of 10 rows of steel cables (bents) perpendicular to the river's bank, with each bent connected by four to six strands of steel cables, and willow plantings between the bents. These structures will serve to protect the nearby bike path, street and homes. No grading or vegetation removal is proposed. Access is to be from River Park or Riverside Dr. The project will be implemented in the river bed only, not on the river banks. A flood certification has been made, verifying the base flood elevation will not rise as a result of the project during the occurrence of the base flood discharge. The project has an estimated life of 50 years.	<b>MND</b>	05/31/2016

<b><u>Documents Received on Monday, May 02, 2016</u></b>			
2016051005	Wasco Elementary School Project Wasco Union Elementary School Wasco--Kern The proposed project would include the development of a 750 student ES, as well as a 50 student alternative school. Physical changes to the site would include the construction of multiple classrooms, administrative buildings, three parking areas, hardcourts, and turf playgrounds. The northwest corner of the site is within Zone C of the Kern County Airport Land Use Compatibility Plan, in which school uses are not permitted. Therefore, development would not occur in this portion of the project site. Implementation of the proposed project would require authorization for the District staff to request final California Department of Education school site approval.	<b>MND</b>	06/01/2016
2016052002	Dredging at Lagoon Intake Structure Project (CIP 301-629) Foster City Foster City--San Mateo The project proposes dredging of the Foster City Lagoon western intake channel to restore normal functioning of the intake channel and intake structure through the removal of sediment which has built up in the channel over time. Dredge material will be disposed of at one of five locations identified in the initial study. The project site is located within Angelo Slough west of Sea Cloud Park in Foster City, San Mateo County, and west of Angelo Slough adjacent to Sea Cloud Park. General Plan designations within the project site include Parks, Open Space, and Water. The project site zoning includes Open Space and Conservation (OSC) and Open Space and Conservation with Aquatic.	<b>MND</b>	05/31/2016
2016052004	Mother Lode Veterinary Hospital Nevada County Grass Valley--Nevada A Use Permit (U15-011) proposing to construct a 3,050 sf two story addition to an existing veterinary hospital. The addition includes a reception area, two staff lounge areas, a staff training area, a conference room, an isolation room and two office rooms. Also included with this application are 13 new parking stalls, parking lot lighting and associated landscaping. The project site is accessed by Amsel Way off of La Barr Meadows Road.	<b>MND</b>	05/31/2016
2016052005	Nevada County Solar Array Project Nevada County Nevada City--Nevada The project consists of the construction and operation of two solar generating facilities, including solar panels, inverters, and associated infrastructure, including construction of new connections to the existing transmission system or Nevada County facilities. The project also includes a Management Plan for encroachment into the 100 ft setback from wetlands on the 16782 HWY 49 property.	<b>MND</b>	05/31/2016
2016052006	Marina Plaza Project Cupertino, City of Cupertino--Santa Clara The project proposes demolishing two existing commercial buildings (49,140 sf) and redeveloping the site with three buildings, including a 122 room hotel and two mixed use buildings (22,593 sf of commercial uses and 188 residential units). Buildings would be four stories each with two levels of underground parking. The max height of these buildings would be 45 ft, with the exception of architectural features and screens for mechanical equipment as allowed by the City's	<b>MND</b>	05/31/2016

	regulations. The applicant proposes a lot line adjustment to decrease the size of the Bandlely Dr parcel to 3.98 acres and increase the size of the De Anza Blvd parcel to 1.14 acres, for a total of 5.12 acres. The proposed project would provide 668 vehicular and 148 bicycle parking stalls, and both private and common open space areas.		
2016052007	Sebastopol Charter School (UPE14-0090) Sonoma County Sebastopol--Sonoma Request for a use permit to allow a new charter school with max attendance of 360 students in six new classroom buildings totaling 20,200 sf. A 19,500 sf assembly hall, and reuse of the existing 4,800 sf residence as an administrative building on three parcels totaling 20.36 acres.	<b>MND</b>	05/31/2016
2016051004	California Baptist University Specific Plan Amendment No. 1 - Planning Cases P15-0988 (Specific Plan Amendment), P15-0989 (General Plan Amendment), P15-0987 Riverside, City of Riverside--Riverside The proposed project is an amendment to the California Baptist University Specific Plan (CBUSP). CBU encompasses approximately 163 acres developed with academic, residential, recreational, open space, parking and industrial uses (Figure 1 and 2). Land uses surrounding the subject area include single-family homes, apartments, offices, schools, open space, and religious institutions. The University is comprised of the Campus Core and Transition Areas (Figure 3 - California Baptist University Specific Plan Boundary, Campus Core Area, and Transition Area). The Transition Area is defined as the properties outside of the Campus Core Area.	<b>NOP</b>	05/31/2016
2016012042	PA-1500274 Development Title Text Amendment San Joaquin County --San Joaquin A Development Title Text Amendment to amend some definitions and add a definition to section 9-110.4 of the Development Title, and amend the text of a previously approved development title chapter regarding Wineries and Related Facilities in regards to Marketing Calendar, Outdoor Amplified Sound, and Parking and other miscellaneous changes.	<b>Neg</b>	05/31/2016
2016052003	Photovoltaic Solar System at Stockton East Water District Stockton East Water District Stockton--San Joaquin Install two 1.1-mw DC (equate to 1,800 kW AC) power as a ground mounted system supported by steel grade racking system. Solar panels are sized to reduce demands from public utility, PG&E.	<b>Neg</b>	05/31/2016
2016052008	SB 5 General Plan Amendments and Municipal Code Revisions Yuba City Yuba City--Sutter Proposed amendments to the City of Yuba City General Plan Land Use Element, Environmental Conservation Element, Public Utilities Element, and Noise and Safety Element (referred to collectively as the "General Plan Amendments") as well as the municipal code sections (referred to collectively as the "municipal code revisions"). The project would bring the City into compliance with SB 5 (as amended by SB 1278 and AB 1965)) and SB 17, as well as AB 5, 70, 156, and 162.	<b>Neg</b>	05/31/2016

1982040906	Marine Corps Air Station-Tustin U.S. Navy Tustin--Orange The project consists of the construction of the first permanent building of the Advanced Technology and Education Park (ATEP) (First Building) and associated infrastructure improvements (infrastructure improvements). The First Building consists of approx. 32,500 sq. ft. of gross floor area in a two-story structure. Infrastructure improvements include parking areas, utility line extensions, landscaping and stormwater management features, improvements to the existing Lansdowne Road, and two new access drives, one each from Valencia Avenue and the planned extension of Bell Avenue. The extension of Bell Avenue was previously analyzed and approved and is not a part of the Project.	<b>NOD</b>	
1994071005	Tustin Legacy Specific Plan Amendment Tustin, City of Tustin--Orange The project consists of the construction of the first permanent building of the Advanced Technology and Education Park (ATEP) (First Building) and associated infrastructure improvements (infrastructure improvements). The First Building consists of approx. 32,500 sq. ft. of gross floor area in a two-story structure. Infrastructure improvements include parking areas, utility line extensions, landscaping and stormwater management features, improvements to the existing Lansdowne Road, and two new access drives, one each from Valencia Avenue and the planned extension of Bell Avenue. 2004071039	Shea / Baker Ranch Lake Forest, City of Lake Forest--Orange Site Development Permit 11-15-4884 a request for three model homes, a sales trailer, associated landscaping, fencing, and accessory structures for "The Crossings" development (Tract 17542) in the eastern portion of Shea/Baker Ranch Planning Area 1-H. Site Development Permit 2-16-4884 was evaluated in and contemplated by the Supplemental EIR that was prepared for the Shea/Baker Ranch project (sch#2004071039) and certified by the City of Lake Forest City Council on May 15, 2012. The Shea/Baker Ranch certified SEIR was not challenged within the time period prescribed in subdivision (c) of Public Resources Code section 21167 and thus the SEIR is presumed valid in accordance with Public Resources Code Section 21167.2. The proposed project is consistent with the scope of the approved Area Plan and Tentative Tract Map 16466. Therefore, the certified SEIR serves as the environmental documentation for the project and the project is in compliance with the requirements of CEQA.	<b>NOD</b>	
2005091148	San Clemente Dam Seismic Safety Project Water Resources, Department of Carmel--Monterey CDFW has executed Amendment No. 6 to Lake and Streambed Alteration Agreement No. 1600-2013-0063-R4 (Agreement), to the Permittee, California American Water.  The project includes the removal of the San Clemente Dam and the Old Carmel River Dam on the Carmel River in Monterey County. The Carmel River upstream of the existing San Clemente Dam will be rerouted through a new, created	<b>NOD</b>

	channel. Amendment No. 6 includes allowing an alternate method of diverting river flow during removal of the Old Carmel River Dam.		
2008022133	Supplemental IS/MND to Northern Cal Reentry Facility and DeWitt Nelson Youth Correctional Facility EIR (2010) Corrections and Rehabilitation, Department of Stockton--San Joaquin CDCR has prepared a Supplemental IS/MND for the Northern CA Reentry Facility and DeWitt Nelson Youth Correctional Facility (renamed DeWitt Nelson Correctional Annex conversion projects, certified in 2010 [2010 EIR]). This IS/MND also incorporates by reference the CHCF project, certified 2009 (2009 EIR). (The DNCA is within the CHCF complex). In light of new formation, the proposed project modification analyzed in the Supplemental IS/MND is specific to CDR seeking a Sec. 2081 incidental take permit for Swainson's hawk due to the potential for accidental electrocution from the operation of one lethal electrified fence (LEF) that encompasses the complex.	<b>NOD</b>	
2010122036	Northstar-at-Tahoe Ski Trail Widening (PEAQ 20090250) Placer County Truckee--Placer The project proposes to widen ten ski trails at the Northstar mountain resort to improve existing circulation and relocate the snowmaking hydrants that are located along five of these trails.	<b>NOD</b>	
2012071036	Draft Supplement No. 2 to the FEIR for the San Clemente Dam Seismic Safety Project (OCRD Removal) California State Coastal Conservancy --Monterey CDFW has executed Amendment No. 6 to Lake and Streambed Alteration Agreement No. 1600-2013-0063-R4 (Agreement), to the Permittee, California American Water.  The project includes the removal of the San Clemente Dam and the Old Carmel River Dam on the Carmel River in Monterey County. The Carmel River upstream of the existing San Clemente Dam will be rerouted through a new, created channel. Amendment No. 6 includes allowing an alternate method of diverting river flow during removal of the Old Carmel River Dam.	<b>NOD</b>	
2012122043	Springle Valley Lake Reservoir Recovery Lake County Clearlake--Lake CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2014-0025-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Lake County Special Districts. The project is limited to the restoration of Spring Valley Lake and the diversion of water from Wolf Creek and North Fork Cache Creek for storage in Spring Valley Lake, Water diverted into Spring Valley Lake consists of approx. one cubic foot per second (cfs) from Wolf Creek between Oct. 1 and July 1, and up to 300 acre feet per year of water from North Fork Cache Creek, which is allocated from the Yolo County Flood Control and Conservation District. During the year the Permittee will bypass a minimum of 10 cfs or the total streamflow shall be bypassed, whichever is less. The restoration project is to reclaim the water volume and area of the original reservoir and dam capacity of 320 acre-feet, the current volume is approx. 43 acre-feet. The reclaimed lake is anticipated to	<b>NOD</b>

	provide water for wild fire suppression as well as backup domestic water supply in the event of a prolonged drought.		
2013122014	Bunker Hill Road Bridge Replacement Amador County Amador City--Amador CDFW has executed Streambed Alteration Agreement No. 1600-2014-0300-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Aaron Brusatori, Amador County. The project consists of replacing the existing 20-foot wide bridge with a 26 ft. structure. The span of the new bridge would be approx. 60 feet long, 20 ft. longer than the existing bridge. The new foundation and abutments would be constructed behind the existing abutments and outside the ordinary high watermark of Rancheria Creek. The replacement bridge would be constructed up to 3 ft. higher than the existing bridge in order to increase the hydraulic capacity beneath the bridge.	<b>NOD</b>	
2014011001	Improvement District No. 4 23 Corner Tank Replacement Kern County Water Agency Bakersfield--Kern The Improvement District No. 4 23 Corner Tank Replacement Project (Project) was developed to replace a 50,000-gallon water storage tank constructed in 1976 with a larger water storage tank and associated facilities. Changes to the Project include replacing the existing tank with a tank of similar capacity and dimensions rather than increasing the capacity.	<b>NOD</b>	
2014061027	Highgate Estates Thousand Oaks, City of Thousand Oaks--Ventura The project involves the subdivision of land to provide lots for the construction of 3 custom single-family residential homes on a 24 acre property taking access from Highgate Road. Also associated with the project is an 18 acre open space lot, as well as lots for brush clearance, detention basin and access road.	<b>NOD</b>	
2014082050	Canyon Estates General Plan Amendment, Pre-Zoning and Annexation American Canyon, City of American Canyon--Napa A tentative Subdivision Map to establish 35 single-family lots within the western 38 acres of a site adjacent to Newell Drive. The Tentative Subdivision Map shows the lot configuration, roadway configuration and the general layout of utilities. Individual residential homes would be constructed in 1-story and 2-story structures not exceeding 35 feet tall. The project includes 28 lots between 20,000 sq. ft. and 30,000 sq. ft., two lots between 30,000 sf and 40,000 sf and five lots measuring 40,000 sf to 45,000 sf which represent "signature lots" within this development.	<b>NOD</b>	
2014102053	South Fork American River Bridge Seismic Retrofit/Replacement Caltrans #3 --El Dorado The proposed project includes replacing then existing bridge with a new bridge. In order to accommodate new bridge construction, the roadway alignment would shift to the north, and be built on half at a time using staged construction to minimize the shift. The bridge will have 12-foot standard lanes, 8-foot shoulders, 6-foot sidewalks, and see-through bridge rails. The new structure would have continuous sidewalks on both sides of the bridge with longer segments west of the new bridge, and a shorter sidewalk segment to the east of the new bridge. Due to the	<b>NOD</b>

	centerline shift of the new bridge, the roadway widening will extend from the bridge and on to the existing roadway both west and east on SR 49. To the west, the project will connect near the Marshall Road intersection and to the east the project will connect near the Marshall Gold Discovery State Historic Park. To the west of the bridge, the variable width two-way left turn lane and median islands with improved contrast features to provide traffic calming and a 12 feet wide two-way left turn lane. Designated turn lanes would be placed where needed. Roadway profile and super correction work will be incorporated into the project. The Lotus Road intersection, as well as driveways, including Little Road, would be reconstructed to meet current design standards. Roadway profile and super correction work, would be incorporated into the project. R/W acquisition would be required because the new bridge's alignment shifts and the continued segments of the roadway require sight distance and standard roadway design. Old piers 5 and 6 located in active channel will be removed per Caltrans Standard Specifications and Special Provisions. New structure will span active channel. SR 49 will be realigned to meet the new structure configuration. New bridge construction and old pier demolition will require temporary dewatering and or clear water diversion. Temporary trestle for construction stages will require placement of approx. 25 drilled or driven piles. Trestle will remain in place for duration of project. Volume of material necessary for temporary dewatering/ water diversion activities include 400 cy clean river rock, 200 cubic yards concrete k-rail, 210 cubic yards structural materials for cofferdams, trestles and scaffolding. Existing maintenance access and staging area below bridge will be used during construction. Rock slope protection will be only placed at the new bridge abutments.		
2014112018	El Dorado Springs 23 Tentative Subdivision Map / A14-0005/Z14-0009/TM14-1514 El Dorado County --El Dorado CDFW has executed lake and streambed alteration agreement no. 1600-2014-0286-R2, pursuant to section 1602 of the fish and game code to the project applicant, CalAtlantic Homes. The project is limited to conducting a Jack and Bore operation to allow placement of a new domestic water supply line under an existing seasonal tributary to Carson Creek.	<b>NOD</b>	
2015052055	Parkway Village H1 and H2 Subdivision Project Folsom, City of Folsom--Sacramento CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2014-0202-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Parkway Company, LLC (the Permittee) as represented by Kirk Bone. The proposed Parkway Village H Project, consist of the development of 5.44 acres into two distinct development clusters, H1 and H2, divided by an existing open space easement containing a Class 1 Bike trail. The project will include the construction of single family housing. Construction will also include underground utilities, drive aisles, drainage structures, lighting, sidewalks, and landscaping.	<b>NOD</b>	
2015062074	Western Pacific Interceptor Canal 200-Year Standard Project Three Rivers Levee Improvement Authority --Yuba CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0148-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Three Rivers Levee Improvement Authority.	<b>NOD</b>

2016052009	Las Gallinas Valley Sanitary District Treatment Upgrade Las Gallinas Valley Sanitary District San Rafael--Marin The proposed project is the LGVSD, the District Secondary Treatment Upgrade located at the LGVSD wastewater treatment plant on Smith Ranch Road in the Las Gallinas Valley between the cities of San Rafael and Novato in Nor Cal. The current WWTP facility is an active wastewater treatment plant that serves approximately 30,000 customers in northern San Rafael. The district currently provides secondary treatment process and facilities at the WWTP, and includes replacement of the force main that heads southwest along the WWTP access road. The total project area is 13.47 acres. The project will provide an expansion of the plant to handle peak wet weather daily flows of 18 million gallons per day, doubling the plant's wet weather treatment capacity. As part of the upgrade, the recycled water facility will also be expanded to treat its designed capacity of 5.4 MGD to max the plant's ability to provide recycled water. The project will involve removal of old structures, construction of new structures, and the piping between them. The main road will also be realigned and raised from the middle of the facility to the perimeter to account for potential sea level rise issues along with storm events.	<b>MND</b>	06/01/2016

A new General Plan is necessary to accurately reflect current land ownership, resources conditions, park management and potential opportunities. To determine appropriate uses, DPR underwent a planning process which includes evaluating existing conditions and assessing current and potential uses.	<b>NOD</b>	
2015112005	2747 Park Boulevard R&D Project Palo Alto, City of Palo Alto--Santa Clara The proposed project would involve demolition on a 4,800 sq. ft. office building and paving and construction of a new 33,323 sq. ft., three-story R&D building with subterranean and surface parking and landscaping. An existing oak tree in the center of the site would be preserved. The new building would be 47 feet in height with mechanical equipment screening reaching to 57 feet. The proposed project would include a total of 133 on-site parking spaces, including one level of subterranean parking beneath the proposed building with 25 parking spaces and 108 surface parking spaces.	<b>NOD</b>	
2015122014	3225 El Camino Real Mixed Use Project Palo Alto, City of Palo Alto--Santa Clara The proposed project would involve the demolition of an existing 7,000 sq. ft. commercial building and the construction and operation of two new buildings: a four-story mixed-use building with ground floor retail and three stories of residential condominiums (eight units total), and a two-story building with ground floor retail/office and second-floor office space. The project would include a surface parking area (6,127 sf) and one level of subterranean parking (24,884 sf). Total gross floor area of both buildings would be 29,249 sf, including 9,036 sf of retail, 2,949 sf of office space, and 17,265 sf of residential space. The buildings would be connected by a plaza and pedestrian walkway.	<b>NOD</b>	
2016011065	Aquino/Verizon Wireless; Conditional Use Permit DRC2014-00126 San Luis Obispo County Nipomo--San Luis Obispo A request by Verizon for a CUP to allow the construction and operation of a new wireless communications facility consisting of 12 6' tall panel antennas, nine RRHs, and four Raycaps, installed on one (1) new 53' tall artificial pine tree ("monopine"), ground-mounted equipment cabinets within a new equipment shelter (11'-6" x 16'-10.5"), and a new 30 kW emergency back-up diesel generator. The proposed project will result in the disturbance of approx. 1,147 sq. ft. on an 9.5 acre parcel. The proposed project is within the Residential Suburban land use category.	<b>NOD</b>

2016042021	<p>Bollinger Canyon Road Culvert Repair Project Moraga, City of Moraga--Contra Costa</p> <p>The Town of Moraga proposes to repair and reconstruct two culverts located in the Las Trampas Creek watershed along Bollinger Canyon Rd, between Joseph Dr and St. Mary's Rd. The purpose is to maintain existing storm drain conveyance and to stabilize an area adjacent to a storm drain outfall that has severely eroded. A section of Pipe 1 in poor condition would be replaced to maintain conveyance of storm water flows through the culvert. At Pipe 2, the outfall and adjacent slope will be armored with rock riprap and slope protection to stabilize the eroded area near the outfall. The stabilization solution for Pipe 2 requires fill of approximately 15 to 20 cy to stabilize the slope and culvert outfall. Not all of this fill would extend below the Ordinary High Water Mark (OHWM); the project footprint below the OHWM is approximately 175 sf. The project will also require the removal of approximately 8 trees.</p>	<b>MND</b>	06/02/2016
2016051009	<p>Coffman Specialties, Inc. CUP#16-0004 Imperial County Holtville--Imperial Note: Review Per Lead</p> <p>The applicant proposes a temporary construction yard. The site consists of an office and an equipment/materials storage area. The office facilities include on double wide office trailer for contractor's administrative duties, and one double wide office trailer for administration of Caltrans. The equipment area is for secure storage and repair of small equipment including but not limited to: forklift, compressor, light plants, pumps, arrow board trailers, portable changeable message signs, dump truck parking, etc. Completion is anticipated to be within the next 24-36 months should Coffman Specialties be the successful bidder for these additional contracts. All work on the above mentioned contracts is anticipated to be performed during daylight hours.</p>	<b>MND</b>	06/08/2016
2016051010	<p>Critical Water Supply Improvements for Pajaro / Sunny Mesa Community Services District Under Proposition 84 Pajaro Sunny Mesa Community Service District --Monterey</p> <p>The project is a Critical Water Supply Improvement for Pajaro/Sunny Mesa Community Services District Under Proposition 84. The proposed system improvements include the construction of a new 600,000 gallon tank. The new tank would be constructed in the undeveloped area adjacent to the site of the existing water storage tank. Construction of the new tank would occur without taking the existing tank and system off line, which would insure that the community of Pajaro would have an uninterrupted supply of water throughout construction activities.</p>	<b>MND</b>	06/02/2016

2016052014	Franklin Boulevard over Lost Slough Bridge Replacement Sacramento County Sacramento--Sacramento The proposed replacement bridge will include two 12-ft traffic lanes with adjacent 6-ft paved shoulders on both sides. The shoulders will provide space for future Class II bike lanes, consistent with the Sacramento County Bicycle Master Plan. The replacement bridge is anticipated to have a total width of 39 ft and will be horizontally aligned along the existing Franklin Blvd centerline. The total length of the project is expected to be approximately 2,900 ft, including the 520-ft long replacement bridge and roadwork (divided almost evenly between the north and south ends of the bridge) beyond the bridge abutments. The roadwork beyond the bridge abutments will include reconstructing the bridge approaches and shoulders.	<b>Neg</b>	06/03/2016
1995063004	Supplemental EIS/EIR for the Transbay Transit Center Program Transbay Joint Powers Authority San Francisco--San Francisco Approval of an amendment to the Transbay Redevelopment Plan to increase the maximum height limit from 300 feet to 400 feet on Block 1 of Zone One of the Transbay Redevelopment Project Area (the "Plan Amendment").	<b>NOD</b>

<b><u>Documents Received on Friday, May 06, 2016</u></b>			
2014091034	Jacumba Solar Major Use Permit San Diego, City of --San Diego FYI: Final/Response to Comments  The project is a Major Use Permit for a 20 megawatt (MW) photovoltaic solar facility on approximately 110 acres. The project would include an onsite substation and energy storage facilities and would connect to the ECO substation via a 138kV line. The project site is located south of Old Highway 80 and approximately 1,000 feet west of the ECO Substation in the Jacumba Community Plan Area.	<b>FIN</b>	
2014111025	College of the Desert West Valley Campus Master Plan & Phase 1 Project Desert Community College District Palm Springs--Riverside FYI: Final/Response to Comments  The College of the Desert/Desert Community College District (District) proposes to develop its West Valley Campus (WVC) on approximately 29.11 +/- acres currently occupied by the largely vacant Palm Springs Mall. The site also includes Camelot Festival Theaters and an associated parcel, and a Jack-in-the-Box restaurant. These two buildings would remain. The Palm Springs Mall building encompasses approximately 332,000 sf and would be demolished to allow development of the campus. The mall would be replaced by a multiple-building community college campus providing approximately 330,000 sf of academic and ancillary space. The subject property is located in the heart of the City of Palm Springs, in the western Coachella Valley area of Riverside County. In addition to the master planning for the West Valley Campus, the subject EIR also evaluates the proposed Phase I Project that will initiate development of the campus.	<b>FIN</b>	
2015121039	Fresno Slough Pile Supported Approach Slabs Caltrans #6 Mendota--Fresno The project proposes to repair soil erosion at the Fresno Slough Bridge on Route 180 in Fresno County east of the City of Mendota at PM 26.9. The erosion at the open end pile abutments causes the pavement to fail at the bridge approaches. Pile supported approach slabs and a curtain wall approximately 10 ft from the ends of the bridge would be constructed. In addition, the bridge railing terminal system would be replaced to meet current standards. One way reversible traffic control would be required during construction, using a 24 hour temporary traffic signal. No new right of way would be acquired.	<b>FIN</b>	
2016021087	Selma Grove Phase 1 Commercial Project Selma, City of Selma--Fresno In 2009, a Draft and Final EIR was prepared for the Rockwell Pond Commercial project. The EIR was certified and pre zoning and a site plan adopted, but no further action has occurred. The project has been re-named Selma Grove and it is now proposed that an initial annexation take place of an area somewhat smaller than the original Phase I of the project. A MND has been prepared for the annexation, tiering off the certified EIR where possible but providing new and updated analysis as needed. Selma Grove (Phase one of the former Rockwell Pond Commercial project) is a regional shopping center planned for property located north of Floral Ave and west	<b>FIN</b>

	of HWY 99. The Selma Grove Commercial Project consists of about 35.88 acres and approximately 361,000 sf of retail uses.		
2016051017	California State University, Monterey Bay Transportation Demand Measure Projects California State University, Monterey Bay Seaside--Monterey The proposed project intends to improve safety and enhance traffic circulation on the CSUMB campus to adequately serve the long-term traffic projections for the campus road network. The proposed project would construction a roundabout at the 8th Avenue/Inter-Garrison Road intersection and realign the 7th Avenue-8th Street/Inter-Garrison Rd intersection to create an all way stop.	<b>MND</b>	06/06/2016
2016051018	ENV-2013-634-MND Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project is a conditional use approval for the expansion of an existing public charter middle & high school to accommodate up to a total of 1,050 students. This will include increasing the middle school by 74 students & the high school by 263 students. The project will expand the existing school onto an adjoining 9,971.9 sf RD1.5-1 zoned parcel to permit the construction of a new 8,369 sf 2-story school building & will include a multi-purpose room & 5 additional classrooms, restrooms & a teachers' lounge, an 8-ft high security fence in the front yard, and multiple yard encroachments, including access stairs & an ADA lift in the rear yard, bicycle parking spaces & a platform or landing space toward the front of the building in the south side yard, and building access stairs and a security fence and gate in the front yard. Vehicular access would continue to be provided by the existing 2-way driveway on Ave 20. Student loading/unloading would be relocated to North Broadway from Avenue 20 to provide greater queuing capacity. The project is expected to be completed by 2016 & requires an Administrative Clearance for the Cornfield Arroyo Specific Plan (CASP).	<b>MND</b>	06/06/2016
2016051019	ENV-2016-457-MND Los Angeles, City of --Los Angeles The proposed project consists of the demolition of three multi-family structures, ranging in height from one to three stories, containing a total of 35 dwelling units and the construction of a new 54-uni, four-story, 44 ft in height, multi-family structure with two subterranean levels of parking providing a total of 135 parking spaces. The total project size is approx. 84,404 sf. The subject lot is an irregularly shaped interior parcel, comprised of three lots with a total area of 44,939 sf. The property is located in the Brentwood-Pacific Palisades Community Plan Area, zoned R3-1, zoned R3-1, and has a General Plan Designation of Medium Residential. The project site contains 15 non-protected trees, all to be removed, and requires the approval of a haul route to permit the export of 33,120 cy of dirt in a Special Grading Area.	<b>MND</b>	06/06/2016

	sf (Garage). The Unit Area calculations are as follows: Unit 1 floor area (1,354 sf) plus roof deck (424 sf) = 1,778 sf, and Unit 2 floor area (1,828 sf) plus roof deck (906 ft)=2,734 sf. Parking: 4-acre garage. The site is currently vacant.		
2016051022	Mission Creek Debris Basin Storm Drain Santa Barbara County Santa Barbara--Santa Barbara The project involves a new storm drain connecting an existing storm drain outlet near the Orange Grove Avenue/Tunnel Rd intersection to the Mission Creek Debris Basin. Project components include buried high-density polyethylene pipe or reinforced concrete pipe from the existing storm drain in Orange Grove Avenue to a proposed storm drain drop inlet on the eastern shoulder of Tunnel Road, and above ground corrugated metal pipe connecting the proposed storm drain drop inlet to the existing grouted rock rip-rap on the Mission Creek Debris Basin embankment. In addition, five new buried storm drain manhole structures (with flush cast iron cover), would be installed within Orange Grove Avenue and Tunnel Rd. Two existing smaller storm drains buried under Tunnel Rd would connect to the storm drain.	<b>MND</b>	06/06/2016
2016051025	Silvergate Rancho Bernardo San Diego, City of San Diego--San Diego Silvergate Rancho Bernardo a general plan amendment and Rancho Bernardo Community plan amendment, planned development permit, site development permit, and a CUP to allow for the construction of a state-licensed, Residential Care Facility for the Elderly comprised of 200 residential units, a central clubhouse and common dining building for residents, a resident garden, a resident lap pool and pool house, a community tot lot/dog walk, and other outdoor areas for yard activities. The project would also construct various site improvements, including associated hardscape, landscaping, and retaining walls. Deviations are being requested pertaining to building height and allowance for monument signs where signage is not allowed in a residential zone. The undeveloped lot is located at 16061 Avenida Venusto. The parcel is designated for use an elementary school in the Rancho Bernardo Community Plan. The plan amendment would redesignate the project site from Education to Single Family Low Density Residential.	<b>MND</b>	06/06/2016
2016052015	Meridian 25 Office Project San Carlos, City of San Carlos--San Mateo The project consists of the demolition of the six existing industrial buildings and development of office uses on the site. Development would include two equally sized six story L-shaped Class A office buildings totaling 528,520 sf, outdoor amenity space, and a parking structure with 3 levels of below grade parking, 1 level at grade, and 2 levels of above grade parking. Landscaping, street trees, and surface parking would also be provided around the site.	<b>MND</b>	06/06/2016
2016052016	PD15-0003/El Dorado Hills Memory Care (The Pavillions) El Dorado County --El Dorado Planned development permit for the phased construction and operation of a 40,677 sf memory care facility, which includes on site parking, landscaping, and monument sign. Phase 1 of the proposed facility would be authorized under the permit encompassing a total of 27,613 sf within 2.2 acres of disturbed area. Phase 2, which consists of the remaining 13,044 sf within 1.4 acres of disturbed area,	<b>MND</b>	06/06/2016

	would be authorized under a separate, future Planned Development Permit.		
2016052017	Ripon Bridge Rehabilitation Caltrans #6 Ripon--San Joaquin, Stanislaus This project would replace approximately 383 ft of the southern portion of the southbound Stanislaus River Bridge (No. 29-0013 L) on SR 99 at PM 0.3 south of Ripon in San Joaquin County, CA. The existing spans 1 through 6 would be removed and replaced. Cast-In-Drilled-Hole pile foundations are assumed at the new bents. An existing railroad access road would be used or modified along the western side of the bridge on the northern side of the river. A temporary access road would be constructed on the southern side of the river. A temporary trestle bridge would be required across the river for equipment access.	<b>MND</b>	06/06/2016
2016051023	General Plan Amendment (GPA 14-004) Three Rivers Community Plan Update Tulare County --Tulare Promote the balanced maintenance of a rural atmosphere, protection of natural, visual, cultural and archaeological resources, an appropriate scale of development consistent with the historical rural character of the community, and adequate context sensitive community infrastructure to the extent feasible, as allowed by law. Promote development. The Community plan will provide appropriate directions to help guide balanced public and private decisions affecting the community including provisions for the overall direction, density, type of growth and protection of the natural environment that is consistent with the Tulare General Plan and balanced with needs and desires of the Three Rivers Community to maintain its rural character.	<b>NOP</b>	06/06/2016
2016051024	Oak Glen Creek Specific Plan Yucaipa, City of Yucaipa--San Bernardino The Oak Glen Creek Specific Plan is a land use, policy, and regulatory document that would establish the development and design standards for the project area. As shown in the table, the Specific Plan would encompass three districts - Residential District, Innovation District, and Open Space District. The Residential District would be developed at a density of 4.2 dwelling units per acre with a minimum lot size of 7,200 sf. The Innovation District would allow a variety of institutional, office, medical, and professional related uses. The Open Space District would consist of flood control improvements, including a detention basin and realignment of Wilson Creek to greatly reduce or eliminate downstream flooding and channel erosion and facilitate groundwater recharge. The improvements would remove the site from the floodplain to facilitate development.	<b>NOP</b>	06/06/2016
2016051016	Vista Grande Tentative Subdivision Map and Annexation Vista, City of Vista--San Diego The applicant seeks approval of an Annexation Request into the City of Vista, a zone change, and a tentative subdivision map to subdivide a 16.99 acre parcel into 14 lots of varying sizes, but at least one acre minimum; however, no homes are proposed to be built at this time. The proposed project involves mass grading, construction of building pads, driveways and two private streets, installation of wet and dry utilities (including off site sewer connection), emergency only access road, and street improvements on Vista Grande Dr, Preliminary calculations of the	<b>Neg</b>	06/06/2016

	overall mass grading of the site are estimated at 27,050 cy of cut and fill, which would be balanced on the site. The project would be developed in two main phases; the first phase (site development) is anticipated to take 12 months, the timing and length of second phase (house construction) is unknown at this point.		
2016051020	Panorama Heights Transfer of Territory Orange County Committee on School District Organization Orange, Tustin--Orange Petitioners from the hill portion of the unincorporated community of Panorama Heights located in North Tustin, CA want to transfer inhabited territory from the Orange Unified School District to the Tustin Unified School District. The transfer of territory would shift school attendance boundaries from OUSD to TUSD jurisdiction. The project as defined for this environmental review involves only the environmental consequences of changing the school district attendance boundaries as described previously.	<b>Neg</b>	06/06/2016
1988121403	Gordon Mull Subdivision Glendora, City of Glendora--Los Angeles Note: Review Per Lead  The proposed project consists of grading and the installation of infrastructure improvements to create 19 defined building pads to be developed with two-story single-family residences consistent with the Final Map approved and recorded in 1998. In general, the proposed project would include: (1) Grading of the western portion of the recorded map for streets, drainage, and utilities; (2) Installation of water services including water lines, booster pumps, fire hydrants, and extension of a water line from off-site water tanks north of the project site; (3) Installation of storm drain and storm water runoff treatment improvements; (4) Installation of other utilities including sewer, electric, telephone, cable television, street lights, and natural gas; and (5) installation of previously defined equestrian and hiking trails. While the proposed project is generally consistent with the Final Subdivision Map recorded in 1998, the size of the building pads have increased, and Lot 7 would be used as a neighborhood park.	<b>SIR</b>	08/04/2016
2007122013	Stoneridge Quarry General Plan Amendment, Rezone, Use Permit, and Reclamation Plan and Development Agreement Sacramento County Folsom--Sacramento The Central Valley Regional Water Board is issuing a Programmatic 401 Water Quality Certification for the subject Project. The Project consists of construction of a primary aggregate processing facility in the northern portion of the Project area, associated processing facilities and infrastructure, and a 350 acre materials extraction area.	<b>NOD</b>	
2010082063	Altamont Pass Wind Resource Area Repowering; Golden Hills Project; Patterson Pass Project Alameda County Livermore, Tracy, Unincorporated--Alameda The Central Valley Regional Water Board is issuing a 401 Water Quality Certification for the subject Project. The Project consists of: 1) decommissioning up to 324 existing wind turbines and installing 28 new wind turbines; 2) constructing new access roads, reclaiming existing access roads, and culvert	<b>NOD</b>

	site wide groundwater to minimize the potential migration of contaminants to the drinking water wells. There is no immediate health risk because of the public is not exposed to the groundwater and the shallow groundwater present at the project site is not a source of drinking water.		
2004011059	Orcutt Area Specific Plan San Luis Obispo, City of San Luis Obispo--San Luis Obispo Project includes a plan for development for a 230.85 acre area of the city of San Luis Obispo under a "Specific Plan", pursuant to Cal Gov. Code Sections 65450-65457. The OASP designates land uses, provides for circulation and infrastructure, phasing of development, financing methods for public improvements and establishes standards for future development of 21 individual parcels within the Plan Area, including mixed- and neighborhood commercial and up to ~1,000 residential units.	<b>NOD</b>	
2006012097	Elverta Park Sacramento County Citrus Heights--Sacramento The project is the installation of a 36-inch diameter outfall structure into an unnamed creek and a rock-lined outlet channel from the water quality basin into Sierra Creek. The outfall will discharge water from the water quality basin that will be constructed for the development community. The rock-lined outlet channel will discharge water from basin only during extreme high water events. The rock lined channel will not extend below the ordinary high water line of the creek. Construction of the outfall will impact approx. 0.006 acres of streambed.	<b>NOD</b>	
2007092015	A07-0007, Z07-0016, PD07-0012, TM07-1441 / Shinn Ranch El Dorado County Placerville--El Dorado The project is limited to installation of four culverts to facilitate road crossings of seasonal drainages tributary to Slate Creek.	<b>NOD</b>	
2007122033	Diamond Springs Parkway Project Phase 1B Design Modification El Dorado County Diamond Springs--El Dorado The County proposes modifications to the vertical profile of the eastern portion of Phase 1B. Phase 1A of the Project, which realigns SR-49/Diamond Road, is not affected by the proposed modification. Phase 1B will construct a new four-lane arterial roadway from Missouri Flat Road to a new T-intersection with the SR-49 south of Bradley Drive. During design of Phase 1B, Transportation determined that modifications to the vertical profile of the eastern portion of Diamond Springs Parkway would provide benefits that include reduced right-of-way acquisition and construction costs. The modified vertical profile would be similar to the existing ground surface grade, resulting in a vertical profile as much as 15 feet lower than the approved Project, would require less fill material, would reduce the footprint of fill slopes, and would eliminate the Bradley Drive/Throwita Way intersection required as a result of fill placement needed for the approved Project. An intersection could be maintained with a slight northern realignment of the west end of Bradley Drive. The lower vertical profile alternative was determined to be Environmentally Superior Alternative in the 2011 EIR for the Diamond Springs Parkway Project.	<b>NOD</b>

2012021039	Quarry Creek Master Plan - EIR 11-02 Carlsbad, City of Carlsbad--San Diego The approval of site layout, architecture and floor plans for a 278-unit apartment project comprised of 12 apartment buildings and one community recreation building has been determined to be within the scope of the previously certified Quarry Creek Master Plan EIR 11-02.	<b>NOD</b>	
2014022008	Manteca Family Entertainment Zone Manteca, City of Manteca--San Joaquin The project is limited to the undergrounding of the French Camp Outlet Canal (FCOC) and the filling of two wetlands area in order to construct the larger multipurpose public use zone called the Manteca Family Entertainment Zone Project (FEZ). Development of the FEZ will require the relocation and conversion of the FCOC from an open water canal to an underground conveyance system. The FCOC will be routed north through the east utility corridor to the northern property boundary, then west to the current FCOC canal next to the railroad. To accommodate the flow, the channel will be replaced with dual 60-inch pipes.	<b>NOD</b>	
2014041092	Oak Creek Escondido, City of Escondido--San Diego The Applicant proposes to construct 65 single-family detached residences with an average lot size of approx. 20,120 sq. ft. The Project will include site access and circulation improvements, along with roadway improvements along Miller Avenue and Hamilton Lane frontage and replacement of storm drains under Hamilton Lane and Felicita Road.	<b>NOD</b>	
2014062080	Eastview Specific Plan & Annexation Project Galt, City of Galt--Sacramento The proposed project includes annexation of approximately 504 acres and development of approximately 338 acres of land for mixed residential neighborhood uses, including low density, medium density, and high density residential, parks, open space, schools, and minor commercial and public facilities. The project area is made up of three components: the 338-acre Liberty Ranch properties, the non-participating properties and the "future growth area". The Liberty Ranch properties are proposed for the development noted above and contain two vacant residences and agricultural uses. The non-participating properties consist of numerous rural residences, Liberty Ranch High School and Estrellita Continuation High School, all on approx. 148 acres. The non-participating properties are not proposed for development at this time. The 17.4 acre future growth area consist of numerous rural residences, Liberty Ranch High School and Estrellita Continuation High School, all on approx. 148 acres. The non-participating properties are not proposed for development at this time. In addition to consideration of the annexation, the project will also consist of consideration of Specific Plan, General Plan Amendment, Pre-Zoning, Tentative Maps, a Development Agreement and creation of a Mello-Roos Community Facilities District (or similar funding mechanism). The City Council certified the EIR for the project and adopted Findings of Fact and Statement of overriding Considerations, and a Mitigation Monitoring and Reporting Program on April 19, 2016.	<b>NOD</b>

2014091017	<p>Water System Improvement Project Washington Unified School District --Fresno</p> <p>SWRCB is a responsible agency for this project. The SWRCB's Safe Drinking Water State Revolving Fund Program is providing funds for the project. The Washington Unified School District proposes to construct and develop a new well and install water supply pipelines connecting Washington Union HS and Washington Colony School. A new well will be constructed on the southeast corner of Lincoln Avenue and Clara Avenue located within a Washington Unified School District-owned parcel. A distribution pipeline and fire hydrants will be constructed within the County of Fresno existing roads rights-of-way. The pipeline will travel west along Lincoln Ave. and north along Clara Ave. to tie in to the new stadium distribution system, east along Lincoln Ave. to connect with the Washington Colony School well, and south along Elm Avenue where it will terminate at Larson Ave. Improvements to existing Washington Union High School facilities will be completed within the school property. The capacity of the Washington Colony School well will be increased by installing a new pump along with upgraded controls.</p>	<b>NOD</b>	
2015022025	<p>Freedom Sanitation Trunk Sewer Replacement Project Watsonville, City of Watsonville--Santa Cruz</p> <p>The City of Watsonville proposes to replace 4,800 LF of 8" and 10" sanitary sewer with 18" to 21" sanitary sewer. The purpose of the project is to increase flow capacity in order to prevent sewage overflow predicted for existing wet weather flow and to reroute portions of the line located in difficult to access easements on private property. The sewer line will be rerouted to public streets in order to relocate the line from difficult to access and maintain private property easements. The rerouted portion of the sewer line runs down Burchell, then to Freedom, then to Green Valley, then to Carey Ave.</p>	<b>NOD</b>	
2015032029	<p>Use Permit Application No. PLN2015-0012 - Top Notch Kennel - Pee Wee Cottage Stanislaus County Modesto--Stanislaus</p> <p>Request to establish a dog kennel facility in a converted 1,680 sf residential dwelling on a .42 acre parcel in the A-2-40 (General Agriculture) zoning district. The proposed site is located at 3306 Beckwith Court, south of Beckwith Road, west of State Hwy 99, and west of the City of Modesto. The proposed kennel will board a maximum of 33 small dogs.</p>	<b>NOD</b>	
2015032059	<p>Leisure Lane Storm Drain Improvements Project Sacramento, City of Sacramento--Sacramento</p> <p>The project consists of constructing a new approx. 9 ft. by 29 ft. outlet weir box north of CA-Hwy 160 between the Permittee's existing 8-inch waterline and 12-inch sewer line in the Permittee's Basin. To build the new outlet weir box, the existing 3 ft. by 4ft. box culvert, the 60 inch diameter pipe, and the 34 inch diameter pipe will be extended. The outlet weir box will have a 12-inch diameter pipe at grade that will allow all collected storm water to eventually drain out of the Basin over several days.</p> <p>South of CA-Hwy 160, a transition manhole will be constructed wherein the flow shape will change from rectangular to round, followed by placement fo approx.. 145 feet of either 54 inch diameter Reinforced Concrete Pipe (RCP) or 60-inch</p>	<b>NOD</b>

	diameter plastic pipe buried at-grade within the existing ditch. The buried pipe will terminate with a standard flared end section, with concreted cobbled riprap around it (similar to what exists now around the existing 60-inch and 34-inch outlets) to mitigate erosion.		
2015071074	<p>Interstate 15 Express Lanes Project Caltrans #8 Corona, Norco, Eastvale, Jurupa Valley--Riverside Construction one to two tolled express lanes along I-15 in RIV Cnty between PM 36.8 / PM 51.4. Advance signage will be a min. of 2 miles prior to start of TELs. Signage limits extend from PM 34.7 in RIV Cnty to PM 1.3 in SBd Cnty. Specifically the project provides: 1 TEL in each direction from Cajalco Rd to Hidden Valley Pkwy, 2 TELs in each direction from Hidden Valley Pkwy NB and Second St SB (Norco) to Cantu Galleano Ranch Rd (Eastvale/Jurupa Valley), and 1 TEL in each direction from Cantu Galleano Ranch Rd (Eastvale/Jurupa Valley) to SR-60, with isolated outside widening at Riverside Ave to maintain lane balance for SR-60 WB loop connector.</p>	<b>NOD</b>	
2015121057	<p>Ramp Metering and Two Mixed Flow Lane at Shaw and Ashlan Avenues Southbound On-Ramp Caltrans #6 Fresno--Fresno Caltrans proposes to install ramp metering and two mixed flow lane and High Occupancy Vehicle (HOV) lane at the Shaw Avenue southbound on-ramp and Ashlan Avenue southbound on-ramp on SR 99, ramp metering system consists of: detectors, communication devices, electrical boxes and signals, construction of standard shoulders, and the installation of CHP enforcement pad. The project also includes construction of an Auxiliary lane on southbound SR 99 between the Olive Avenue on-ramp and Belmont Avenue off-ramp. To accomplish this project my need additional right of way for the proposed work.</p>	<b>NOD</b>	
2016031061	<p>Gardena Marketplace Interim Removal Action Workplance Toxic Substances Control, Department of Gardena--Los Angeles DTSC, pursuant to Ch. 6.8, Division 20, Sections 25323.1 and 25356.1 has approved the Interim Removal Action Workplan (RAW) at the former Honeywell Gardena Facility property (now Gardena Marketplace), located in Gardena, CA, hereinafter "the Site or Site Area". The project plan, Interim Removal Action Workplan for Volatile Organic Compounds in Soil, Former Honeywell Gardena Site, 1733 West Artesia Blvd., Gardena, CA, CH2M, August 11, 2015" is incorporated by reference. The RAW proposes to remove volatile organic compounds (VOCs), primarily Tetrachlorethylene (PCE) and Trichloroethylene (TCE), contamination in soil gas from beneath and adjacent to occupied commercial and residential buildings using a soil vapor extraction (SVE) system. PCE and TCE are the two primary soil vapors COPCs for the Site, and although other VOCs were detected in soil vapor and groundwater at the Site, PCE and TCE have been detected at the highest frequency and concentrations, and other VOCs where detected are generally collocated with PCE and TCE with much lower concentrations.</p>	<b>NOD</b>

	brine saturator tank will be replaced with a 6,600 gallon brine saturator tank.		
2016058086	Chmiles Trail Bridge Improvements Fish & Wildlife #3 --Napa The project is limited to removing a failed wood bridge crossing and installing a prefabricated clear span bridge. Issuance of a Streambed Alteration Agreement Number 1600-2016-0007-R3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2016058087	PG&E In-Line Inspection I-111D / Line SP-5 (Lake or Streambed Alteration Agreement No. 1600-2016-0033-R3) Fish & Wildlife #3 Antioch--Contra Costa The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2016-0033-R3, pursuant to Section 1602 of the Fish and Game Code to the Pacific Gas and Electric Company. The Permittee proposes pipeline an in-line inspection (I 111-D) on pipeline SP-5. This will require the excavation of an approximately 10-foot wide by 60-foot long by 12-foot deep bell hole, and an adjacent 100-foot by 50-foot work area to support an open cut construction and a drainage diversion. Staged equipment, materials and structures will include two Baker tanks/ settling basins, stockpile spoils and/or topsoil, and string and weld pipe. Low flows (<1 cfs) are expected during work activity, so sandbag cofferdams will be installed upstream and downstream of the site to isolate the work area. The work area is in a grassland floodplain area. Part of a secondary overflow channel is also within the trench impact area, and will be avoided except for where the Permittee needs to cross it to access the cofferdam. The Permittee will span a steel plate across the overflow channel to protect it where vehicles need to cross for access. Work is expected to take up to 60 days.	<b>NOE</b>	
2016058088	Chevron Pipeline Company's BAPL Sacramento Leg PIM Repairs Project (Lake or Streambed Alteration Agreement No. 1600-2015-0195-R3) Fish & Wildlife #3 --Contra Costa The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2015-0195-R3, pursuant to Section 1602 of the Fish and Game Code to Chevron Pipeline Company. The project is limited to replacement of thin-walled pipe of the BAPL pipeline system. Six boring samples will be obtained via geotechnical work. Then horizontal directional drilling will be conducted to install a new pipeline.	<b>NOE</b>	
2016058089	Bypass Farms Irrigation Pipe Replacement (Lake or Streambed Alteration Agreement No. 1600-2016-0020-R2) Fish & Wildlife #2 --Yolo The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2016-0020-R2, pursuant to Section 1602 of the Fish and Game Code to Bypass Farms. The project is limited to exaction through the top of the west bank levee of the Sacramento River to a depth necessary to access a damaged irrigation water supply pipe and to replace the damaged section. The levee with then be reconstructed and the cut area recompacted to engineering standards.	<b>NOE</b>

2016058090	Happy Camp Water Treatment System Upgrade Happy Camp Community Services District --Siskiyou Construct and install Pressure Contact Clarifier and all pipes and valves necessary for treatment of Community Water supply. Relocate existing wet well electric equipment out of 100-year flood zone. Beneficiaries of project is the Community of Happy Camp.	<b>NOE</b>	
2016058091	AMA-16 Overlay Caltrans #10 -- The California Department of Transportation (Caltrans) proposes to overlay approximately 9.5 miles of State Route 16 in Amador County about 4.0 miles east of Rancho Murieta from Sacramento County line to State Route 49. All work will be done within Caltrans right of way. No new right of way will be acquired. The scope of work will include cold planning, shoulder backing, removal of thermoplastic striping, and utility adjustments where needed. The purpose of this project is to repair areas of failing or damaged pavement to extend the service life of State Route 16. The need for the project is to prevent further deterioration of the paved highway surface.	<b>NOE</b>	
2016058092	RDIC Channel Cleaning Project (Streambed Alteration Agreement No. 1600-2016-0028-R2). Fish & Wildlife #2 --Colusa The California Department of Fish and Wildlife has executed Streambed Alteration Agreement number 1600-2016-0028-R2, pursuant to Section 1602 of the Fish and Game Code to Roberts Ditch Irrigation Company as represented by William Ash. The project involves dredging approximately 7,600 cubic yards of sediment from the channel and placing the dredged material into a temporary holding area to allow for drying. The dried sediment material will then be transported to an authorized disposal site. The purpose of the dredging is to open the channel to recreation boat traffic from the launch ramp in the State Park and allow water to flow to the RDIC pumps to irrigate the surrounding crop land. Dredging will occur from a drag line, excavator or clam shell bucket. A dozer, 18-yard dump truck and wheel loader will be used to dispose of the dredged material. The maintenance cleaning will occur three times over the next five years.	<b>NOE</b>	
2016058093	Hexavalent Chromium Well Treatment Watsonville, City of Watsonville--Santa Cruz Prepare reports, plans and specifications, perform pilot studies of water treatment processes, drill test borings, all for designing Cr 6 well head treatment facilities for the City of Watsonville potable water distribution system.	<b>NOE</b>

2016058098	Conservation Genetics of Beach Spectaclepod ( <i>Dithyrea maritima</i> (Davidson) Davidson; Brassicaceae) Project (Project) Fish & Wildlife Commission -- The California Department of Fish and Wildlife is issuing a permit to the Santa Barbara Botanic Garden (2081(a)-16-008-RP) pursuant to Fish and Game Code section n2081 (a) for a project to gather beach spectaclepod tissue samples during the course of range-wide survey efforts. Approximately 4-5cm of new, fresh, green leaf and/or bract tissue will be gathered from between 290 and 310 beach spectaclepod plants. Approximately 30 plants will be sampled from each of the nine sites and a total of 20-40 additional samples will be collected from populations that area large enough to tolerate additional sampling. Samples will be placed in envelopes that are placed in silica gel to rapidly desiccate the tissue samples and preserve DNA quality. DNA will be extracted from the samples at Santa Barbara Botanic Garden and DNA will exported to Floragenex laboratories in Oregon for restriction site associated DNA sequencing (RAD-seq) library preparation and sequencing.	<b>NOE</b>	
2016058099	Conservation of Salt Marsh Bird's Beak and Plant-Pollinator Network Study (Project) Fish & Wildlife Commission --San Luis Obispo, Santa Barbara, Ventura The California Department of Fish and Wildlife is issuing a permit to the Santa Barbara Botanic Garden (2081(a)-16-007-RP) pursuant to Fish and Game Code section 2081(a) for a project to collect seed from salt marsh bird's beak plants for conservation purposes and studies of salt marsh bird's beak pollinators. Seed will be collected in 2016 following Center for Plant Conservation guidelines for collecting, cleaning, and storing seed for conservation purposes. Pollinator studies will include repeating a pollinator survey performed by Patricia Lincoln in 1985, and expanding the work to include (1) quantitative sampling of the entire insect pollinator assemblage in a way that can be repeated for analysis of pollinator change over time, and (2) observation and quantification of the broader plant-pollinator network, including in adjacent upland habitats, that affects salt	<b>NOE</b>

2016058100	Carutehrs Community Service District Well 7 Planning Study Caruthers Community Services District --Fresno The Caruthers Community Services District is applying for State Revolving Funds to conduct a planning study. The Planning study will evaluate alternatives including a new Well 7 for Caruthers CSD to replace existing Well 3, which is in violation of EDB Standards. The planning study will involve no ground disturbing activities, except where a test well is necessary. A test well may be conducted in order to collect necessary information related to the viability of the proposed well site and design of the proposed well.	<b>NOE</b>	
2016058101	Caruthers Community Services District Water Meters Caruthers Community Services District --Fresno The project will include replacement of the registers on all existing residential water meters within the service area to provide automatic read capabilities, and replacement of water meters on all existing commercial water services with automatic read meters, and associated automatic meter reading system and software. The installation of new meters and automatic read system will provide improved water management and allow for more efficient and accurate meter reading.	<b>NOE</b>	
2016058102	Malaga County Water District Water Meters Malaga County Water District --Fresno The project will include installation of water meters at all residential service connections within the service area and associated automatic meter reading system. The project also includes modification or replacement of water meters on all existing commercial water services with automatic read meters, and associated automatic meter reading system and software. The installation of new meters and automatic read system will provide improved water management and conservation by users within the system. Users will be encouraged to conserve water when they are billed based on consumption. The project benefits are to conserve water and increase water supply reliability.	<b>NOE</b>	
2016058103	Electra Diversion Dam, No. 97-114 Water Resources, Department of --Amador Install an electrically-actuated 14-inch high by 60-inch wide slide gate to permit faster flow control response.	<b>NOE</b>	
2016058104	Wetland Delineation for Lagoon Trail Accessibiltiy Improvements Parks and Recreation, Department of --San Luis Obispo This project would carry out wetland delineation to determine if jurisdictional wetlands, as defined by the United State Army Corps of Engineers and/or the California Coastal Commission are present within the footprint of a potential project to construct accessibility improvements to existing trails at Pismo State Beach. Work will include, but it is not limited to, digging soil pits to analyze for the presence of conditions suitable for wetlands. These pits would be within and adjacent to existing trails. Test pits would be approximately 1-2 feet in diameter and 14-21 inches deep. Results of this work will be used to assist in the design of the proposed project to avoid and/or minimize impacts to wetlands.	<b>NOE</b>

2016051031	Tentative Parcel Map, TPM 19685 Hawks Ridge Yucca Valley, City of Yucca Valley--San Bernardino Note: Review Per Lead  The proposed project is for the subdivision of approximately sixty acres of vacant land which will be divided into four parcels ranging in size from approximately 1-10 acres, in addition to an approximately 46 acre remainder parcel. One single family home is proposed to be constructed on each of the four smaller parcels.	<b>MND</b>	06/16/2016
2016051032	Groundwater Reliability Improvement Program (GRAP) Administrative Learning Center Project Pico Rivera, City of Pico Rivera--Los Angeles The Water Replenishment District of Southern California (WRD) is proposing to construct an administrative learning center as part of the Groundwater Reliability Improvement Program Advanced Water Treatment Facility in the city of Pico Rivera, CA. The administrative learning center would be a component of the approved AWTF. The proposed project would serve as an administrative building for employees of the AWTF, and would include storage, administrative office spaces; information technology services/electrical rooms; locker rooms; and a catering kitchen. Additionally, the proposed project also would provide an interactive use of space for public visitors, community members, schools, and stakeholders to attend informational presentations to learn about recycled water, the AWTF's daily processes and operations, and WRD's goals and purpose of the GRIP Recycled Water Project.	<b>MND</b>	06/09/2016
2016051035	Montgomery Field Localizer and Habitat Mitigation Plan San Diego, City of San Diego--San Diego City Council approval of a site development permit to allow for implementation of a habitat mitigation plan to compensate for direct impacts to an existing vernal pool resulting from emergency repairs to the Instrument Landing System and localizer antenna at John J. Montgomery Field Airport. The ILS is a ground-based instrument approach system that provides guidance to aircraft approaching and landing on Runway 28R. The ILS uses a combination of radio signals and approach lighting arrays to enable a safe landing during instrument meteorological conditions (IMC), such as low ceilings or reduced visibility due to fog, rain, or night landings. The localizer antenna which is part of the ILS system is the most critical component of the navigation system at MYF, emitting a radio signal to provide all weather guidance to aircraft approaching the runway during Instrument Flight Rules conditions. The localizer antenna is approximately 1,000 ft west of the departure end of Runway 28R where the soil has low permeability causing water to pool for extended periods. Pooling water in this critical area can deflect the localizers signal and provide erroneous navigation information to inbound aircraft creating an unsafe situation during IFR operations.  During the heavy winter rains of 2009, the Federal Aviation Admin declared an emergency at the airport in order to protect the function of the localizer antenna from ponding water which would disrupt the ILS guidance for aircraft landing during limited visibility conditions. As a result, a temporary structure was installed over the pond adjacent to the localizer to insulate its signal from the water; however, due to the heavy rains in 2010, the temporary solution proved	<b>MND</b>	06/09/2016

	inadequate to prevent signal deflection and the localizer signal was deactivated. A permanent antenna was ultimately constructed in January 2011 to meet FAA safety criteria by grading and placing fill in the localizer critical area, east of the facility which resulted in unavoidable impacts to the existing vernal pool. As such, mitigation was required. Consultation with the USFWS regarding a mitigation site within the MYF began in 2012 and commenced in 2015. This project will implement the habitat mitigation plan that was reviewed and approved in consultation with federal agencies during the section 7 consultation process.		
2016052023	Dollar General Coastal Development Permit Humboldt County --Humboldt Construction of a 9,300 sf retail variety store on a 0.87 acre parcel that is currently vacant. A 150 sf seasonal isolated wetland was identified near the middle of the parcel. A special permit is required to reduce the wetland setback in order to develop the parcel for commercial purpose. In addition, a parking exception is required to allow a reduction in the number of required parking spaces due to the level of anticipated use. A dedicated loading space is included. The parcel has public water and sewer service and there is no tree removal proposed.	<b>MND</b>	06/09/2016
2016052026	Florin Perkins Materials Recovery Facility/Large Volume Transfer Station Sacramento, City of Sacramento--Sacramento The proposed project would include the expansion of existing on site operations to allow for additional processing of materials already accepted at the site, including concrete and asphalt crushing, asphalt shingle grinding, and wood grinding activities, as well as construction of an on-site modular office building and a 1.5 acre material sales yard. The material sales yard is proposed as an ancillary operation and would be located outside, but adjacent to, the existing 10 acre CUP boundary, for a total proposed project area of 11.5 acres. The project would include an increase in the tons per day of material received by an additional 500 tons (primarily concrete and asphalt), for a total of 1,000 tons per day.	<b>MND</b>	06/09/2016
2016051033	City of Los Banos 2030 General Plan Update Amendment Los Banos, City of Los Banos--Merced The City of Los Banos certified an EIR and adopted the City of Los Banos 2030 General Plan Update on July 15, 2009. Figure 5-4 Farmland, erroneously showed portions of the area within the Urban Growth Boundary as Urban and Built-up Land when these areas were actually farmland. The City proposes to correct the error with a General Plan amendment and is preparing a supplemental EIR to re-analyze the General Plan's impacts on agricultural resources.	<b>NOP</b>	06/09/2016
2016052024	Spring Lake Village East Grove Santa Rosa, City of Santa Rosa--Sonoma Expansion of the existing Spring Lake Village Continuing Care Retirement Community. Project would include 24 independent living units, community building, outdoor pool and patio, outdoor common, parking areas, paved walking paths, landscaping, drainage features, lighting, fencing, and retaining walls. Vehicle access to be provided off Los Alamos Road. Off-site pedestrian facility improvements would be constructed to facilitate pedestrian walkability between the project site and the existing Spring Lake Village community on Montgomery Drive. Off-site storm water facilities would be constructed within and adjacent to Melita	<b>NOP</b>	06/09/2016

	<p>The project involves the development of an active adult community of 1,017 single-family homes and a 17,500 sq. ft. to 25,000 sq. ft. Amenity Center on the west side of the Project site. Development o the east side of the Project site includes 67 conventional single-family residential units, a 200 room resort hotel, a 65,000 sq. ft. neighborhood commercial center, and an approx. 4-acre assisted living/skilled nursing/memory care facility with up to 100 beds. The Project would include the creation of a 45.3 acre on site agriculture preserve and a 153.5 acre off-site agricultural preserve, and an approx. 25-acre open space park on the easterly hills of the property, above the commercial area adjacent to the existing golf course.</p>		
2016011030	<p>City of Ventura Wastewater Reclamation Facility Wastewater Change Project Ventura, City of Ventura--Ventura</p>	<b>NOD</b>	
	<p>City of San Buenaventura is expecting increased frequency and duration of potable water shortages. Use of recycled water is authorized under Regional Water Quality Control Board Order No. 87-45, which allows for the delivery for irrigation of golf courses, cemeteries, landscapes, and for dust control. In order to expand the use of recycled water to meet demand, the City seeks to reduce its discharge of effluent to the Santa Clara River Estuary from an average of 8.5 million gallons per day to as much as 6.5 mgd, change the purpose of use, and increase the current place of use of the treated wastewater.</p>		
2016032051	<p>Half Moon Bay Library Replacement Half Moon Bay, City of Half Moon Bay--San Mateo</p>	<b>NOD</b>	
	<p>The project proposes to clear the existing library site and construct a new 22,000 sq. ft. replacement library with facilities that include outdoor areas, landscaping, and surface parking. The project also proposes to expand the existing surface parking lot on the adjacent Cunha Intermediate School property. The existing</p>

2016058156	<p>Tideland Use and Occupany Permit to Marine Group Boat Works, LLC, for Temporary Employee Parking San Diego Unified Port District Chula Vista--San Diego</p> <p>The proposed project is a Tideland Use and Occupancy Permit (TUOP) to Marine Group Boat works, LLC, (Tenant) for their continued use of approximately 21,756 square feet of tideland area located on the northwest corner of G Street and Quay Avenue in the City of Chula Vista. The area proposed for use is currently and is proposed to be used only and exclusively for the purpose of temporary employee automobile parking and for no other purpose whatsoever without the prior written consent of the Executive Director of the District in each instance. The Tenant would be responsible for compliance with all laws and regulations associated with the activities on or in connection with the above-described premises, and in all uses thereof, including those regulating storm water and hazardous materials. No new development, construction, uses, or increase in the size of the Tenant's leasehold or the TUOP area is proposed or authorized as part of this TUOP.</p>	<b>NOE</b>	
2016058157	<p>Agreement with California Tree Service, Inc. for Tree Maintenance Services San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project involves an agreement between San Diego Unified Port District and California Tree Service, Inc., (California Tree) for as-needed tree maintenance services. More specifically, this agreement provides for arborist services, nest surveys, tree facilities and public park locations on District tidelands. None of the trees are sensitive species. The current agreement with California Tree Service, Inc. (California Tree) expires June 30, 2016. The agreement for the proposed project is anticipated to commence on July 1, 2016, and terminate on June 30, 2019.</p>	<b>NOE</b>	
2016058158	<p>Agreement with H.P Purdon &amp; Company for Sponsorship of 2016 Big Bay Boom July 4th Fireworks Show San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project is the 2016 Big Bay Boom July 4th Fireworks Show, which will take place in north San Diego Bay on July 4, 2016 (2016 show). The District will enter into a sponsorship agreement with the event organizer to provide sponsorship in the form of District funding and services for the event, a free outdoor fireworks display that will last for approximately 18 minutes. The Big Bay Boom July 4th Fireworks Show is a recurring event that has taken place annually for approximately 18 minutes. The 2016 show will be the same size, duration and in the same locations as the 2015 event. As in previous years, the 2016 show does not require construction of any on-land support facilities, and no admission fee will be charged. The 2016 show will require the placement of four barges, moved by tug boats, in the San Diego Bay near Seaport Village, the Embarcadero, Harbor Island, and Shelter Island, within the jurisdiction of the State Lands Commission. The San Diego Harbor police department and the U.S. Coast Guard will provide safety oversight for the vent. In addition, 16 volunteer safety patrol boats will be used to ensure that private boats stay a safe distance from the barges. The barges will be removed immediately after the fireworks display. As part of the 2016 show, the Applicant will implement the following project features, which are more particularly described in Attachment A of the 2016 agreement.</p>	<b>NOE</b>

2013031054	<p>Disposal of the Cal Sorrento Property Caltrans #11 San Diego--San Diego</p> <p>The project proposes the disposal (sale) of the Cal Sorrento Property located within Sorrento Valley in San Diego, CA. The purpose of the project is to dispose of excess State-owned property that is not being occupied or utilized. After researching the potential to market the buildings with historic preservation covenants for rehabilitation and adaptive use, Caltrans has determined that it is neither prudent nor feasible to sell the property with historic preservation covenants for the buildings. The SVP Historic District and Sorrento Tower Complex represent two historical resources that are eligible for inclusion in the California Register of Historical Resources and National Register of Historic Places. The project consists of two build alternatives that ultimately dispose of State property. Under Alternative 1, Caltrans would transfer all five historic properties out of State ownership in "as-is" condition and without historic preservation covenants. Under Alternative 2, Caltrans would sell the property without the five historic properties by demolishing the buildings prior to transfer out of State ownership.</p>	<b>EIR</b>	06/27/2016
2013091023	<p>Los Angeles Groundwater Replenishment Project Los Angeles Department of Water and Power Los Angeles, City of, Van Nuys--Los Angeles Note: Review Per Lead</p> <p>Under the proposed project, an Advanced Water Purification Facility would be constructed within the Donald C. Tillman Water Reclamation Plant to purify recycled water produced by the existing DCTWRP recycled water treatment facilities. AWPf purified water would reach the spreading grounds using the existing East Valley Recycled Water Line that currently connects the Balboa Pump Station to Hansen Spreading Grounds and the Hansen Storage Tank at the LADWP Valley Generating Station. A new 42-in diameter pipeline would be constructed beginning at the intersection of Branford Street and Arleta Ave and proceed northwesterly along Arleta Ave to reach Pacoima Spreading Grounds.</p>	<b>EIR</b>	07/11/2016
2014111033	<p>Otay Mesa Conveyance and Disinfection System Project Otay Water District --San Diego</p> <p>The proposed project involves the construction and operation of an approximately four mile long, 48-54 inch diameter (not yet determined) potable water pipeline, and a metering station within the Otay Mesa area of the County of San Diego just north of the US-Mexico international border. Additionally, a pump station and/or disinfection facility may be constructed if needed. The proposed project would enable the District to import and convey desalinated seawater from a connection point at the US-Mexico border north to the District's existing Roll Reservoir. The desalinated seawater would be produced at a proposed Mexican desalination plant, located in Rosarito, Baja CA. It is envisioned that this plant would produce 100 million gallons per day of desalinated seawater. The District intends to purchase 20-25 MGD.</p>	<b>EIR</b>	06/27/2016

2016052028	PA-1600044 (MS) San Joaquin County --San Joaquin A Revisions of approved actions application to amend a condition of approval on a recorded parcel map (PM 02-132) for a previously approved Minor Subdivision application (PM-76-0061). The previously approved Minor Subdivision application was to subdivide a 29.99-acre parcel into three parcels. Parcel A to contain 5.16 acres. Parcel B to contain 9.36 acres. Parcel C to contain 15 acres. The approval was subject to Parcels A and C being combined with adjoining parcels owned by the same property owner. This revision application is to remove the requirement that Parcels A and C be combined with the adjoining parcels. The underlying project is a lot line adjustment among three parcels as applied for in PA-1600045(LA). The project site is located on the north side of Orange Ave, 1,600 ft east of Santa Fe Rd, southeast of Escalon.	<b>Neg</b>	06/10/2016
2016052032	NEV-80 Water Supply Pipeline for Truckee CHP Inspection Station Caltrans #3 Truckee--Nevada Note: Review Per Lead  This project proposes to install eight inch water supply line from an existing Truckee Donner Public Utility District fire hydrant to CHP Inspection Facility. The fire hydrant is located south of the Polaris Undercrossing Br. No. 17-0102 (PM 18.26). The proposed water supply line will run inside of State ROW in the east bound hinge area beyond paved shoulder. The water supply line will cross underneath I-80 (Jack and Bore) and connect to the CHP Inspection Facility.	<b>Neg</b>	06/17/2016
2000111027	Santa Fe Christian Schools Master Plan Update Solana Beach, City of Solana Beach--San Diego The project is an update to the 2001 Master Plan. The project includes the construction of new and renovation of existing buildings. The project would increase the number of existing on-site parking spaces by 68 spaces.	<b>SIR</b>	06/27/2016
1998091007	State Route 138 Widening Project from Avenue T to State Route 18 Through Palmdale, Littlerock, Pearblossom and Llano Caltrans, Planning Palmdale--Los Angeles CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0121-R5, pursuant to section 1602 of the Fish and Game Code to the project applicant, Caltrans, as represented by Paul Caron. The project proposes to realign the SR-138 highway centerline northward, widen the existing two-lane highway to standard four-lane highway with median, standardized the shoulder width to eight feet, add a pedestrian sidewalk, and improve sight distance and roadside recovery area, and modify existing drainage systems by extending existing pipes and installing new inlets, pipes, outlets, and two infiltration basins, which will permanently impact 0.47 acres of streambed and associated habitat. The project will mitigate with 1.15 acres of creation and/or restoration.	<b>NOD</b>	
2010121011	Target Retail Shopping Center Project Los Angeles, City of Los Angeles, City of--Los Angeles Physical project is demolition of a pre-existing 59,561 sq. ft. single-story commercial structure, an electrical substation, and a surface parking lot.	<b>NOD</b>

<b><u>Documents Received on Friday, May 13, 2016</u></b>			
2014052089	Tassajara Parks Contra Costa County San Ramon, Danville--Contra Costa The applicant proposes construction of 125 homes on a 30 acre portion of the 771 acre project site. The balance of the land would be dedicated to East Bay Regional Park District for parks/recreation/open space and agriculture use. A small portion (7 acres) would be offered for dedication to the San Ramon Valley Fire District for their potential use. The project also involves a realignment of the Contra Costa County Urban Limit Line to encompass the 30 acre residential development area.	<b>EIR</b>	06/27/2016
2016011032	150 Newport Center Newport Beach, City of Newport Beach--Orange The proposed project consists of the demolition of an 8,500 sq. ft. car wash, convenience market, and gas station to accommodate the development of a 7-story 49 unit residential condominium building with three levels of subterranean parking.	<b>EIR</b>	06/27/2016
2016012057	The Veranda Shopping Center Concord, City of Concord--Contra Costa Construction of a commercial shopping center with up to 375,000 square feet of floor area. The site is currently occupied by existing office buildings totaling approximately 609,000 square feet, as well as parking lots, landscaping, and related improvements, which would be demolished to clear the site for the proposed shopping center. The project includes text amendments to the City's sign ordinance to allow freeway oriented signage (pylon signs up to 60 ft high, and wall signs) under limited circumstances (i.e. subject to location and size constraints) subject to specified findings and conditions of approval as part of a master sign program and use permit.	<b>EIR</b>	06/29/2016
2013091044	8150 Sunset Blvd Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles The Project Applicant has developed a new Project Alternative (Alternative 9) based on comments received on the 8150 Sunset Boulevard Mixed-Use Project DEIR dated November 20, 2014, the analysis of which as well as other corrections and additions to the DEIR are provided in the Recirculated Portions of the DEIR. As with the Project, Alternative 9 would involve removal of all existing buildings and associated improvements on the Project Site. The development would consist of 249 residential units, including 28 affordable housing units (equivalent to the Project), and 65,000 sf of commercial uses (compared to 111,339 sf under the Project).	<b>FIN</b>	
2016051038	Phelan Dollar General San Bernardino County --San Bernardino The proposed project is a minor use permit to construct and operate a 9,100 sf Dollar General on a portion of 1.87 acres in the community of Phelan. The project will also include a paved parking lot with 36 spaces, the installation of landscaping and signage, the construction of a storm water detention basin and off site improvements. The project will involve minor grading, the construction of the store, and the installation of a septic system. Off site improvements will consist of street improvements, including curb, gutter and sidewalks along the property frontage of	<b>MND</b>	06/13/2016

	Phelan Rd and street improvements, including, curb gutter and sidewalks along the property frontage of Sierra Vista Rd. The project site is located on the northwest corner of Phelan and Sierra Vista Rd. The County's General Plan design.		
2016051039	State Route 210 Mixed Use Flow Lane Addition from Highland Avenue to San Bernardino Avenue Project Caltrans #8 Highland, San Bernardino, Redlands--San Bernardino SANBAG, in cooperation with Caltrans District 8 and the City of Highland, proposes to widen SR 210 from Sterling Ave to San Bernardino Ave in the cities of Highland, San Bernardino, and Redlands, as well as a portion of unincorporated San Bernardino County, CA. The project would widen SR 210 from four mixed flow lanes (two lanes in each direction) to six mixed flow lanes (three lanes in each direction) from Sterling Avenue to San Bernardino Ave by adding a mixed flow lane in each direction within the existing highway median.	<b>MND</b>	06/13/2016
2016051040	RiverPark West K-8 Steam School Project Rio School District Oxnard--Ventura The Rio School District proposes to construct and operate a new K-8 school at 3001 North Ventura Road in the City of Oxnard in Ventura County, CA. The proposed K-8 Community STEAM Campus would have a max student population of 914 students. The new school is needed to accommodate existing and anticipated future enrollment in the District. The new school facilities are designed to meet the educational and recreational needs of K-8 students' onsite.	<b>MND</b>	06/13/2016
2016051041	Castaic Area Multi-Use Trails Plan Los Angeles County Parks & Recreation --Los Angeles The proposed project includes approximately 100 miles of proposed multi-use trails and related staging areas, bike skills parks, parking areas, and other supporting trail facilities in the Castaic Area of the Santa Clarita Valley Planning Area. The proposed trails would provide connections to the Angeles National Forest, trails in the City of Santa Clarita, and trails in the Newhall Ranch Specific Plan. The trails would be multi-use and range from 3 to 12 ft wide based on site conditions, with adequate space for combined pedestrian, equestrian, and mountain biking use, in accordance with the County of LA Trails Manual guidelines. The plan would recommend conditions for improvements of unmet local recreation demands in the 5th Supervisorial District.	<b>MND</b>	06/13/2016
2016051047	ENV-2015-3778-MND Los Angeles, City of Westlake Village--Los Angeles The proposed project includes the demolition of an existing 1-story commercial building and surface parking lot and the construction, use and maintenance of a 6-story mixed use building with 6,035 sf of commercial space and 76 residential apartment units. The proposed project would include 6 stories, approx. 64 ft above grade (4 levels of residential over 1 level of parking and 1 level of ground-floor retail). Approximately 32 parking spaces would be provided in the second level.	<b>MND</b>	06/14/2016

2016059016	Lake or Streambed Alteration Agreement No. 1600-2015-0500-R1 for THP 1-15-126MEN "Upper Elk" Forestry and Fire Protection, Department of --Mendocino CDFW is issuing an agreement for replacement of culverts in Class II and Class III watercourses.	<b>NOD</b>	
2016059017	Lake or Streambed Alteration Agreement No. 1600-2016-0014-R1 for Timber Harvesting Plan (THP) 1-16-007 DEL Forestry and Fire Protection, Department of --Del Norte CDFW is issuing an agreement for draft from Class I tributary to Dominie Creek install temporary Class II watercourse crossing.	<b>NOD</b>	
2016058056	Aquifer Exemption Compliance Schedule Regulations (OAL File No. Z-2015-0519-06) Conservation, Department of -- Review suggest that at various times the Division may have permitted injection wells to operate in aquifers classified by federal law as underground sources of drinking water; without first requiring an official determination from U.S EPA that these aquifers may be exempted from Safe Drinking Water Act protections. The Division's permitting of injections into such wells was contrary to the objectives of the State UIC program. On May 29, 2015, as part of a multi-pronged interagency effort to address this problem, the Department commenced a rulemaking entitled "Aquifer Exemption Compliance Schedule Regulations." The regulations created by this rulemaking establish a statewide, prioritized schedule by which injection into an underground source of drinking water that has not received an aquifer exemption must cease, unless and until an aquifer exemption is in place. The regulations also clarify that the compliance schedule does not in any way limit the Division's discretion to take enforcement action-including rescission or restriction of approvals to inject. Where appropriate, the Division can issue, and has issued, orders to well operators requiring that injection activities at specific wells be halted immediately, notwithstanding the generally applicable statewide deadlines set forth in the regulations. The regulations create a regulatory backstop that will enable the Division to better achieve and enforce statewide compliance with existing objectives of the State UIC program for protection of natural resources and the environment in an efficient, balanced, and effective manner. This regulatory backup functions in addition to, not as substitute for, the Division's existing authority to regulate injection activities.	<b>NOE</b>	
2016058147	Mowing and Grading the California Aqueduct Milepost MP 45.00 to MP 172.40 Water Resources, Department of --Fresno, Kings SLFD staff will mow and grade all roads along the left and right banks of the Aqueduct and in associated v-ditches. This activity is done to control runoff, to reduce fire hazards, and to allow maintenance vehicles access along the Aqueduct: this work occurs annually. State Water Project Contractors benefit.	<b>NOE</b>

2016058148	Trail Safety Improvement Parks and Recreation, Department of --San Luis Obispo Re-route a fifty foot section of the Oates Peak trailhead near the maintenance yard at Montana de Oro State Park to improve public safety. Work will:  * Remove the existing peeler core boundary fence and cap the unused water pipe riser; * Brush and clear a fifty foot by six foot corridor for the trail re-route; * Grade and level the trail surface to a width of approximately five feet and extend the trail head approximately 65 feet; * Excavate approximately 40 post holes, dug to a depth of 2 feet and 8 inches in diameter to install up to 40 peeler core fence posts and rails for 150 feet of new fence line; and * Relocate the existing information kiosk to the new trailhead location by excavating two foot deep, 1 foot wide post holes and anchor the kiosk post in concrete.	<b>NOE</b>	
2016058149	Coastal Habitat Restoration - Powell Properties Parks and Recreation, Department of --San Luis Obispo Remove aging and diseased Eucalyptus trees on the Powell Properties in Morro Bay State Park that are threatening native coastal dune scrub habitat. Using CalFire, California Conservation Corps, and other hand crews, work will:  * Use chainsaws, log splitters and hand tools to remove 32 non-native eucalyptus trees ranging from 8 inches to 48 inches diameter at breast height; * Construct burn piles on site and haul away wood from sensitive locations for recycling; and * Re-vegetate and restore the site with locally sourced, native, coastal dune scrub plants.	<b>NOE</b>	
2016058150	California Aqueduct MP 155.63L Westlands Water District Temporary Pump-In Installation Water Resources, Department of Huron--Fresno WWD will install a pump-in structure by excavating a 20 ft x 20 ft x 6 ft area, installing an above ground discharge pipe, and connecting this new pipe to an existing underground pipe. The area will be backfilled and compacted. WWD may remove and reinstall the structure in the future; WWD contractors will benefit.	<b>NOE</b>	
2016058151	Joaquin Road Lot Improvements Project Regional Water Quality Control Board, Region 6 (Lahontan), Victorville Mammoth Lakes--Mono The Project is to construct a residential duplex structure, including utilities and a driveway. An existing stream that flows diagonally across the site will be rerouted to an underground pipe that parallels the western boundary of the site and then to an open swale that parallels the northern boundary of the site. The swale will discharge in the same location as the existing stream and be lined with filter fabric, sand, and ungrouted rock.	<b>NOE</b>

2016058152	Groundwater Sustainability Plan and Alternative Regulations Water Resources, Department of -- The Department of Water Resources is required by Water Code section 10733.2 to adopt regulations for evaluating groundwater sustainability plans, the implementation of groundwater sustainability plans, coordination agreements, and alternatives.	<b>NOE</b>	
2016058153	Wilson Culvert Replacement (Lake or Streambed Alteration Agreement No. 1600-2016-0135-R1) Fish & Wildlife #1 Redding--Shasta The California Department of Fish and Wildlife has executed Lake and Streambed alteration Agreement number 1600-2016-0135-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Ralph Wilson. The project is limited to the replacement of an existing side by side double culvert crossing with two 20-foot long by 30-inch wide CMP culverts. In addition a 2-inch diameter residential water line will be installed by trenching immediately downstream of the culverts to a depth of 18-inches and then backfilled with native material and rock protection.	<b>NOE</b>	
2016058154	Browns Creek Sediment Reduction Project, Phase II (Lake or Streambed Alteration Agreement No. 1600-2015-0351-R1) Fish & Wildlife #1 --Trinity The California department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2015-0351-R1, pursuant to Section 1602 of the Fish and Game Code to Northwest California Resource Conservation & Development Council.	<b>NOE</b>	
2016058155	Porter Creek Tributary Sediment Removal Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma The purpose of the Project is to reduce sediment input and halt an actively eroding headcut at an undersized culvert by replacing it with an armored ford.	<b>NOE</b>	
2016058159	Bath Dehydrator - Point of Use Device Installation State Water Resources Control Board --Fresno The State Water Resources Control Board (SWRCB) as the lead agency will be issuing a water supply permit. The Bath Dehydrator proposes to install three Point-of-use treatment devices at the drinking fountain, kitchen sink, and jug fill station. The POU devices will be used to treat nitrate.	<b>NOE</b>	
2016058160	Shaver Lake Lodge at the Point - Addition of Well 02 State Water Resources Control Board --Fresno The State Water Resources Control Board (SWRCB) as the lead agency will be issuing a water supply permit. The Shaver Lake Lodge at the Point Water System proposes to add a new well 02 as source of supply. The well's yield is not anticipated to exceed 125 gpm and small appurtenant structures will be built as part of the project. The well will provide drinking water to the facility.	<b>NOE</b>

2016058161	<p>City of Placentia, Placentia Metrolink Station Lead Track Southern California Regional Rail Authority Placentia--Orange</p> <p>Based on discussion with the engineers at BNSF Railway Company (BNSF), the new track and support facilities will be located within the BNSF rail right-of-way and the new lead track will extend approximately 2.4 miles between BNSF track mile posts (MP) 42.00 and 45.00. This lead track and the support facilities (signals, etc.) are required to ensure the lead track can serve the new Placentia Metrolink Station with a minimum conflict or safety hazard to existing operations on the BNSF East-West Mainline Tracks at this location.</p>	<b>NOE</b>	
2016058162	<p>Pismo Lake 4th Street Fence Installation Parks and Recreation, Department of --San Luis Obispo</p> <p>The purpose of the project is to prevent access of illegal campers that have caused considerable damage to natural resources of the Pismo Lake Property of Pismo State Beach. The primary project activity will consist of the installation of two sections of fence at the Southern section of the Pismo Lake Property. Section A chain link fence will parallel 4th Street and connect with the Pismo Beach Motel 6 Fence. An 8-foot wide gate will be installed on Section A fence to allow State Parks staff to access the property. Section B no-climb fence will connect with the Oxford Suites Inn fence. Oxford Suites property owners have given State Parks permission to install the no-climb fence on their property.</p> <p>The damage has included the cutting of willow and oak trees (some as big as 8-10 inches in diameter), hundreds of willow and oak tree limbs, and other native vegetation. The illegal campers also constructed open pit toilets and large scale trash dumps as big as 20 feet in diameter and 3-4 feet deep. The campers also abandoned materials that were imported to construct dwellings. Recent operations to restore and clean the area required extensive resources, time, and money to remove 43 tons of garages. Without these two sections of fence to keep illegal campers out of the property, daily enforcement will be required to remove people, equipment, and trash.</p>	<b>NOE</b>	
2016058163	<p>Assignment of Bailey Class 3 Land Capability Restoration Credit to Enable Construction of a Remodel. Tahoe Conservancy --Placer</p> <p>Project consists of the sale and assignment of 129 square feet of restored Bailey Class 3 Land Capability restoration credit, from Conservancy-owned land to a Bailey Class 3 Land Capability receiving parcel on which a private residence will be remodeled. The assignment enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the Bailey Class 3 Land Capability areas within the Lake Tahoe Basin.</p>	<b>NOE</b>	
2016058164	<p>Alpine Meadows Roadside Shaded Fuel Break Placer County --Placer</p> <p>The project involves the creation of a 31 acre shaded fuel break along roadways near the Alpine Meadows subdivision. The project will involve cutting and chipping understory brush and trees 10 inches DBH or less in order to increase the probability of success for fire suppression activities and to aid in.</p>	<b>NOE</b>
