STATE CLEARINGHOUSE

NEWSLETTER

May 16-31, 2007

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 16-31, 2007**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2006121088	Petrogulf Corporation Fresno County Firebaugh--Fresno Allow an exploratory gas well and production facilities on a 37,500 square-foot portion of a 322.22-acre parcel of land in the AE-20 (Exclusive Agriculture, 20-acre minimum parcel size) District. If natural gas is discovered, a 1,400 foot pipeline will connect the production site with the existing Arroyo Pipeline, located on the sample parcel of land.	MND	06/14/2007
2007051095	Antelope Valley-East Kern Water Agency, Water Supply Stabilization Program 1 - Groundwater Recharge Project Antelope Valley-East Kern Water Agency --Kern Utilize up to 1500 acres of agricultural land for groundwater recharge (maintain normal 3-year crop rotation). Install wells to extract recharged water, buried pipelines to deliver water to AVEK distribution system, and construct small in-line water treatment facilities. Amendment of existing Specific Plan and potential use for wind power facilities will be considered.	NOP	06/14/2007
2007052100	Conditional Use Permit No. 06-22 & Coastal Development Permit No. 06-71, Foothills California, Inc. Humboldt County Community Development Services --Humboldt The applicant proposes to conduct further exploratory drilling with possible production of natural gas resources in the project area. The objectives of the proposed project is to locate untapped natural gas sources with potential for development both within and/or outside of existing natural gas fields. Foothills is requesting permits to construct a two natural gas well pads this year and drill up to five natural gas wells from each pad. The ultimate project could include a total maximum of 16 well pads. If drilling is successful at a given location, Foothills proposes to install the necessary production equipment and natural gas gathering lines in order to produce and transport the natural gas to market. Additional Coastal and Conditional Use Permits would be required for development of more than two additional well pads.	NOP	06/14/2007
2006111073	General Plan Amendment (GPA06-003) and Realignment Project Lemon Grove, City of Lemon Grove--San Diego General Plan Amendment (GPA06-003) Lemon Grove Realignment Project: The project includes the following sub-items: Sub-Item 1: General Plan Amendment (GPA06-003): (a) An amendment of the Mobility Element of the General Plan to change the alignment of a segment of Lemon Grove Avenue located between North Avenue and the north city boundary; and (b) An amendment of the Community Development Element and Map to change the land use designation of the right-of-way to be vacated from the Transportation land use designation to the Retail Commercial land use designation; and (c) An amendment of the Community Development element and Map to change the proposed future Lemon Grove Avenue right-of-way from General Business land use designation to the Transportation land use designation; and (d) Certain amendments to the Community Development, Noise, and Mobility element in reponse to the proposed realignment project; and (e) Certain amendments to the Downtown Village Specific Plan in response to the	Neg	06/07/2007

	proposed realignmmt project.		
	Sub-Item 2: The relocation of a segment of the Lemon Grove Avenue roadway a maximum of approximately 110-feet to the west of its current location. The relocation of the roadway will require acquisition of private property, vacation of existing right-of-way and establishment of easements. The project will be accomplished in phases and includes demolition of existing structures and roadway, grading, retaining walls, the installation of curb, gutter, sidewalk, public street lighting, traffic signals and controls, road striping, drainage improvements, bike lanes, signage, and landscape improvements. The public street and trolley/railroad crossing at Lemon Grove Avenue and North Avenue will be redesigned in order to accommodate the realigned public street right-of-way.		
2007052102	2007 Temporary Water Transfer of 3,100 acre feet from Browns Valley Irrigation District to Santa Clara Valley Water District Browns Valley Irrigation District --Santa Clara, Yuba Browns Valley Irrigation District will transfer up to 3,100 acre feet of water conserved under its pre-1914 water right to Santa Clara Valley Water District for use by Santa Clara Valley Water District during 2007.	Neg	06/15/2007
2006092011	Application to Appropriate Water - Applications 30364 and 30365 State Water Resources Control Board, Division of Water Rights Cloverdale--Sonoma Application 30364 requests the right to divert 23 acre-feet per annum (afa) of water to storage from an unnamed stream tributary to the Russian River in Sonoma County. The water will be stored in an existing five-acre-foot reservoir at the point of diversion (POD) and in an existing off-stream 18-acre-foot reservoir. The season of diversion is December 15 through March 31, and the purpose of use is irrigation. Application 30365 requests the right to divert a total of five afa of water at the rate of three cubic feet per second (cfs) from the POD described above. The season of diversion is March 15 through March 31, and the purpose of use is frost protection. The place of use for both applications is 49 acres of existing vineyard.	NOD	
2007021083	IS/MND Livingston High School Master Plan Merced Union High School District Livingston--Merced The proposed project includes the construction, demolition, and remodel of various buildings on the existing campus, as well as expansion of 13 acres of the campus to the south of Peach Avenue to accommodate athletic fields and additional campus parking. The project will be constructed in three phases. The proposed high school currently has 1,100 students and the proposed project will provide classroom space for a maximum of 2,000 students and a staff of up to 100.	NOD	
2007059032	Streambed Alteration Agreement 1600-2006-0881-3/1-06-188 MEN Forestry and Fire Protection, Department of --Mendocino The activities are associated with logging road crossing replacements and road repairs. The activities are designed to facilitate timber operations and improve watercourse and hillslope drainage patterns.	NOD

1990020454	Coachella Valley Enterprise Zone Redesignation and Expansion EIR Riverside County Economic Development Agency Indio, Coachella--Riverside The Coachella Valley Enterprise Zone project includes the reauthorization and expansion of the Coachella Valley Enterprise Zone. The Enterprise Zone program is managed by the California Department of Housing and Community Development (HCD), and targets economically distressed areas throughout California. The program is intended to revive the local economy by providing tax incentives for private sector development. The County of Riverside and the Cities of Indio and Coachella have established the Coachella Enterprise Zone Authority (CVEZA) through a Joint Powers Agreement to administer the current Enterprise Zone. 1998092032	<p>Camp Meeker/Occidental Wastewater Reclamation Project Camp Meeker Recreation And Park District --Sonoma</p> <p>The Camp Meeker Wastewater Reclamation Project would provide sewer service in the existing OCS D Sewer Service Area, together with a new sewer service area for Camp Meeker. The sewer service area in Camp Meeker would include all parcels currently developed with residential dwelling units, but would exclude development in the Acreage Lane area as parcels are large enough to support septic systems and the cost associated with the distance to extend wastewater collection to those parcels was deemed too great. The basis for the proposed service area boundary was to encompass developed parcels only. Given the checkered pattern of development in Camp Meeker, the Sewer Service Area encompasses numerous vacant parcels. The design capacity of the proposed wastewater transmission system would accommodate all existing development in Camp Meeker, with a nominal 10% excess capacity. This excess would not be sufficient to serve all vacant parcels within the Camp Meeker service area.</p>	EIR	07/02/2007
2004071118	<p>Commercial Retail Center: Wal-Mart Supercenter Rialto, City of --San Bernardino</p> <p>The proposed project would consist of the construction of a commercial retail center that would be anchored by a Wal-Mart Supercenter. The project would include a gas station and four outparcels to be developed with restaurant and mixed-use retail uses.</p>	EIR	07/02/2007
2005091094	<p>Ormond Beach Specific Plan Oxnard, City of --Ventura</p> <p>The Northern Subarea consists of the approximately 323 acres of the project area that lies north of Hueneme Road. It is proposed to accommodate a mix of uses including up to 1,283 residential dwelling units of various types and densities; an elementary school; a high school (either within the Study Area or East of Olds Road); a community park; neighborhood parks; a 10-acre lake; a mixed-use commercial marketplace; light industrial uses; and open space and trails.</p>	EIR	07/05/2007
2006071131	<p>Calvary Chapel Church and School Vista, City of Vista--San Diego</p> <p>The project consists of a Special Use Permit, inclusive of a Site Development Plan, to develop a church, private school and a separate industrial building on a 20.95-acre site.</p>	EIR	07/02/2007
2007021132	<p>Rider Distribution Center Project Perris, City of Perris--Riverside</p> <p>Construction of one 354,530 sq. ft. tilt-up concrete building to be used for warehouse distribution uses and includes parking areas, landscaping, water treatment features, the construction of the proposed Line A-B storm drain within Rider St. to convey the flows from the on-site basin to the Perris Valley Storm Drain, located approx. 0.45 miles to the east of the project site.</p>	MND	06/18/2007

2007051105	Elementary School #4 Mountain View School District Ontario--San Bernardino The construction and operation of a new 800-student elementary school. The school would contain 12 classroom buildings, a multi-purpose room, a library, and a kitchen, totaling approx. 61,000 sq. ft. Outside amenities would include a large turf play area, including two baseball diamonds. A hard-court area would include four basketball courts.	MND	06/18/2007
2007051106	Terravant Wine Company 07-FDP-01, 07-PDP-01 Buellton, City of Buellton--Santa Barbara Phase 1 (07-FDP-01): A Final Development Plan (07-FDP-01) for the development of a 40,000 sq. ft. wine processing facility located at 35 Industrial Parkway. A prior Final Development Plan (04-FDP-01) was approved for this site. This phase would include the following facilities: public space for wine tasting, administrative offices, fruit processing crush pads, fermentation areas, barrel storage, and bottling areas. A wastewater treatment facility is also proposed. The lower and upper floor areas total 40,000 sq. ft. Phase 2 (07-FDP-01): A Preliminary Development Plan (07-FDP-01) for the expansion of the Phase 1 facilities with an 84,000 sq. ft. building located on Assessor's Parcel Number 099-690-044 and 045. This building would include all the uses listed as part of Phase 1 building except that no public wine tasting facility is included.	MND	06/18/2007
2005051158	Conifer Tank Replacement Project Triunfo Sanitation District Ventura--Ventura TSD proposes to construct and operate a single 2 to 2.4 MG tank at either the proposed A7 site or the A8 site. Tank access road improvements and pipeline construction are also proposed. The existing 1.0 MG tank located at the western terminus of Conifer Street would be demolished. There are two site alternatives, A7 or A8. Each site has either an aboveground or a buried tank, 'A' or 'B'. Thus, the tank options are identified as A7A, A7B, A8A, and A8B. The possible pipeline route segments are identified as A, B, C, D, or E. Either Pipeline A or Pipeline B is necessary for a tank at Site A7. Either pipeline C, Pipeline D, or Pipeline E is necessary for a tank at Site A8.	NOP	06/18/2007
2007052109	San Joaquin Regional Water Quality Improvement Project San Francisco Planning Department Tracy--San Joaquin The San Joaquin Regional Water Quality Improvement project is proposed to improve the disinfection capabilities of the Tesla Portal site and the Thomas Shaft site. The Tesla Portal Disinfection Station would be located at the Tesla Portal site and includes closing the existing Tesla Portal Hypochlorite Station and the construction and operation of replacement facilities. Also at the Tesla Portal site, the project would include the construction and operation of a new Advanced Disinfection Facility that would pass water by a series of ultraviolet light arrays. At the Thomas Shaft site, the Lawrence Livermore National Laboratory Supply Improvements would upgrade water treatment facilities.	NOP	06/18/2007

2006102008	PA-0600313, Garello Site Approval San Joaquin County Community Development Department Stockton--San Joaquin Site Approval application to construct three multi-tenant warehouse buildings, developed in two phases, over a five year period. Phase one includes Building #1 at 25,452 square feet and Building #2 at 20,004 square feet. Phase two includes Building #3 at 29,012 square feet and will begin within five years.	Neg	06/18/2007
2007051107	Montemayor Minor Subdivision (PLN050523) Monterey County Planning & Building Inspection King City--Monterey The proposed project consists of a minor subdivision that would divide a 100.19 acre parcel into two parcels, one being 60.19 acres and the other being 40 acres. The existing parcel is rectangular in shape and will be divided to create Parcel 1 (60.19 acres) on the northern portion of the existing property and Parcel 2 (40 acres) on the southern portion of the existing property. Parcel 1 currently contains two manufactured homes, a garage, and storage shed. Parcel 2 is generally square in shape and is currently undeveloped. While the current County application does not propose the construction of a single family residence, technical reports prepared for the project applicant assumed the future construction of a residence on the proposed 40 acre parcel located in the southern portion of the existing property (Parcel 2). The proposed project and application does not include the construction of a single family dwelling. However, the purpose of the minor subdivision is to create a buildable lot and Parcel 2 includes a building and septic envelope for a future residences and septic site. Water would be provided to the site by a new private residential well. Wastewater would be treated in a new private septic system. Power is currently on the existing parcel and would be extended to the future building envelope. The existing structures on Parcel 1 are currently being served by an existing well and septic system.	Neg	06/18/2007
2007052110	South Upper Truckee Well Controls Building and Treatment Facility South Tahoe Public Utility District South Lake Tahoe--El Dorado The South Tahoe Public Utilities District is proposing to construct a Well Controls Building and Treatment Facility at 3140 Egret Way, Meyers, California. The facility will be used to house mechanical and electrical controls, corrosion control treatment (CCT) and disinfectant equipment required for the operation of a proposed 1,400 gallon per minute (gpm) municipal drinking water supply well (SUT No. 3). This will replace two existing municipal water supply wells operated at the site and will operate as a lead well in the South Tahoe Public Utilities District's (District) water system to meet the drinking water needs of the Christmas Valley and Meyers/ Tahoe Paradise area. Permit conditions ensure that public health and safety and the environment are protected through limitations on group size; road and/or trail use restrictions; prohibitions on off-road or off-trail activities; fire use limitations; sanitary facility requirements; emergency preparedness requirements; and post event clean-up requirements for event sponsors. These events are routinely monitored for compliance with Permit provisions by Forest staff.	NOE	
2007058250	Antelope Canal Diversion Access Rehabilitation Placer County Water Agency --Placer The access stairs and platform to the Antelope Canal Diversion structure have deteriorated. Gaining entry to the site has become a safety issue for facility workers who manage and operate the diversion. The replacement of stairs with railing and a platform that connects to the diversion structure are necessary for routine operations. A concrete pad will be poured near the canal bank to support the platform. There will not be any placement of fill within the stream. This facility is located downstream of Clover Valley Reservoir. The spill water from the reservoir diverges into the continuation of the Antelope Canal and the head of Clover Valley Creek.	NOE	
2007058270	Butte Water District Main Canal Automation Butte Water District --Butte The project consists of the replacement of the Thresher gate structure which is old and difficult to operate. The new gate structure will provide operational flexibility through automation. It will reduce spill and, therefore, improve water conservation as well as improve water quality and water temperature of the Feather River.	NOE	
2007058271	Pioneer Heights Student Housing Phase 3 California State University, East Bay --Alameda Construction of two four-story buildings housing approximately 200 residents each, including related educational program spaces (126,566 gsf) and a separate support facility (2,000 gsf).	NOE

2007058279	3110 Marlynn Street Tentative Parcel Map Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Tentative Parcel Map to divide 0.73 +/- acres into two lots on property zoned RD-5 (NPA). The property is located within the Carmichael Colony Neighborhood Preservation Area.	NOE	
2007058280	Lightpoles and Flagpole California State University, Long Beach Long Beach--Los Angeles The project consists of the provision of additional light poles in some areas to improve existing light levels and enhance safety and security on campus, and the provision of a 25-foot flagpole at a center field of the existing softball complex within the campus.	NOE	
2007058281	Issuance of Streambed Alteration Agreement No. R1-07-0143, Trinity River, Tributary to Trinity Lake, Trinity County Fish & Game #1 --Trinity Removal of up to 5 yards of accumulated sediment, fine gravels, and alluvial material at the location of an irrigation pump diversion site.	NOE	
2007058282	Weslake Dam Maintenance Project Fish & Game #4 --Tuolumne Removal of woody vegetation on the leeward side of Weslake Dam from toe to crest using hand tools, and control of erosion by backfilling with dirt fill, to meet dam safety requirements.	NOE	
2007058283	Maintenance of District Maintained Canals, Ditches, and Sloughs Project Fish & Game #2 --Yuba This agreement pertains to the Maintenance of District Maintained Canals, Ditches, and Sloughs project, involving debris removal, trash removal and vegetation removal, culvert cleaning, culvert repairs, and slope erosion prevention, as described in Notification 1600-2006-0272-R2.	NOE	
2007058284	Winters Road Bridge at Putah Creek Fish & Game #3 Winters--Solano, Yolo The project consists of drilling four geotechnical borings immediately to the south of the existing vehicular bridge across Putah Creek. One boring next to each existing abutment and bent will be performed. Approximate depth of borings at abutments is 60 feet and at 120 feet below surface elevation. Drilling will consist of approximately 4-inch diameter holes drilled using mud rotary techniques. A mud recirculation tank will be used and drilling mud and spoils will be disposed of off site. Drilling will be performed with track mounted equipment and will require minimal clearing to gain access to site. No grading will be performed. Split spoon samplers will be driven to recover samples at selected intervals. All holes will be backfilled with grout at the completion of drilling. Issuance of a Streambed Alteration Agreement Number 1600-2007-0089-3 is pursuant to Fish and Game Code Section 1602.	NOE

2007058285	Fairfax Creek Bank Repair Fish & Game #3 Fairfax--Marin The proposed project includes constructing a native plant vegetated; soil filled Green Terramesh system retaining wall. The Green Terramesh system will cover an area of about 39 feet long x 10 feet high (approximately 390 square feet) at a 1V:1H foot slope; the foundation of this structure will cover an area of 48 feet long x 4 feet high. The Terramesh structure will be tied into the existing upstream and downstream banks. The top third of the structure will be planted with native species including bay laurel, snowberry and other appropriate species and backfilled with local native alluvium and top soil and further vegetated with live willow poles. The applicants plan to remove the existing upstream root wad and reutilize the root wad downstream in the toe of the bank to enhance instream habitat. The applicants expect to de-water the area within the vicinity of the project. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2007-0119-3 pursuant to Section 1602 of the Fish and Game Code.	NOE

2001102011	Oroville Facilities Relicensing (Federal Energy Regulatory Commission Project No. 2100) Water Resources, Department of Oroville--Butte The Oroville Facilities, as part of SWP, are also operated for flood management, power generation, water quality improvement in the Sacramento- San Joaquin Delta, recreation, and fish and wildlife enhancement. The objective of the proposed project is the continued operation and maintenance of the Oroville Facilities for electric power generation, along with implementation of any terms and conditions to be considered for inclusion in a new FERC hydroelectric license. The initial FERC license for the Oroville Facilities, issued on February 11, 1957, expired on January 31, 2007. The Oroville Facilities are currently operating under an annual license issued by FERC effective February 1, 2007.	EIR	07/20/2007				
2006121069	Spyglass Ranch Specific Plan Lake Elsinore, City of Lake Elsinore--Riverside The proposed project would be a 260 acre master planned community, consisting of residential and open space/ recreation within the City of Lake Elsinore. The City of Lake Elsinore General Plan currently designates the project site as Future Specific Plan (3 dwelling units per acre), Freeway Business, and Neighborhood Commercial. The project includes a General Plan Amendment to designate the project site as the Spyglass Ranch Specific Plan (SP) and increase the maximum density to 4 dwellings units per acre. The project proposes up to 1,035 residential units, in conjunction with 6.5 acres of parks, and 88.2 acres of open space/ conservation. The plan also allows for commercial- retail uses if multi family residential units are not developed within the project site.	EIR	07/05/2007

	frontage and an on site underground stormdrain system. The commercial development consists of 505 parking spaces including 24 handicap parking stalls and 63,877 sq. ft. of landscaping. The project will widen Rock Springs Road and Glendale Avenue to 50 feet and 40 feet, respectively. The development will have four drive approaches on Glendale Avenue and two on Rock Springs Road.		
2007051113	Site Plan Review SPR- 2006- 54 & TT- 17690 Hesperia, City of Hesperia--San Bernardino A site plan review to construct a two story, 74 unit townhome development, each with an attached two car garage on 10.9 gross acres. The development will construct half width street improvements including curb, gutter, and sidewalks along the project frontage. The site will include an on site underground storm drainage system. The development consists of 24 parking spaces including two handicap parking stalls. F Avenue will be dedicated as a new street on the west boundary of the site. Sultana Street and G Avenue will be widened. The development will have one drive approach on Sultana Street and another on F Avenue. The project includes a recreation area in the center of the development with a pool, spa, tot lots, barbeque pits and picnic tables. Another recreation area is located on the northeast corner that will be depressed 18 inches to collect storm water runoff.	MND	06/19/2007
2007052112	Remediation of Landfill Sites Along Markley Creek Antioch, City of Antioch--Contra Costa Project involves remediation of landfill sites along Markley Creek near Somersville Road, south of Highway 4. The RWQCB has determined that solid waste existing along the north and south banks of the creek within the project area has been discharged and threatens to continue to discharge to the creek in violation of state laws and has issued a Cleanup and Abatement Order. The project involves excavation and capping the waste material within the project area to provide separation from surface water in the creek channel. The affected creek segment will be restored to an alluvial channel and revegetate.	MND	06/19/2007
2007052114	Meadowood Ranch Santa Rosa, City of Santa Rosa--Sonoma Subdivision of two parcels totaling 11.34 acres into 78 single family residential detached homes (6.9 units per acre) and Rezoning of the property from PC to R-1-6.	MND	06/19/2007
2007052115	Davis Road/ Pixley Slough Bridge Replacement Project Stockton, City of Stockton--San Joaquin The project is in the growing North Stockton Area, on Davis Road between Waterbury Drive and Eight Mile Road. A Programmatic EIR (PEIR) was completed and a Notice of Determination (NOD) issued in November 1998 for the North Stockton Projects Annexation which included studies for widening Davis Road from two lanes to four lanes between Bear Creek and Eight Mile Road. Subsequent to the NOD, residential developments have been built both east and west of Davis Road and north and south of Pixley Slough. Davis Road has been progressively widened to four lanes as development has taken place. As such, the widening of the bridge to four lanes is warranted. The City of Stockton applied for and received approval of funding to replace the existing Davis Road bridge	MND	06/19/2007

	crossing Pixley Slough under the federal Highway Bridge Program (HBP). The bridge's roadway will be widened to match the approaching section of Davis Road. It is anticipated that the proposed road and utility improvements will be constructed within the existing right of way. Limits of construction associated with the Pixley Slough Bridge Replacement Project are between Waterbury Drive to the south and Eight Mile Road to the north. During construction of the new bridge, it is contemplated that Davis Road will be closed to through traffic. North-bound traffic on Davis Road will be routed west on Waterbury Drive, to Rivermont Drive, which terminates at Eight Mile Road. Likewise, south-bound traffic at Davis Road from Eight Mile Road will head south on Rivermont Drive, turn east on Waterbury Drive to the intersection of Davis Road, and continue south.		
2006101171	The Master's College Master Plan Santa Clarita, City of Santa Clarita--Los Angeles This project includes a Tentative Tract Map to create a residential subdivision at the terminus of Deputy Jake Drive, a Master Plan for the Master's College Campus build out and the installation of Dockweiler Drive. Entitlements submitted include a General Plan Amendment to the Land Use Element and to the Circulation Element; A Zone Change to ensure the General Plan and zoning designations of the project area are consistent; a Tentative Tract Map for the creation of 54 detached condominium residential units; a Conditional Use Permit to exceed a height of 35 feet and for a dirt haul route; a Hillside Review because the average cross slope of the property exceeds 10%; a Ridgeline Alteration Permit because a Ridgeline is in the location of the proposed Dockweiler Drive extension and main entrance to the college; and an Oak Tree Permit because there are oak trees on or around the project site that would be impacted with the proposed renovations to the existing college facilities, the new entrance and proposed buildings, and the grading that would occur with the installation of Dockweiler Drive and the tentative tract map.	NOP	06/19/2007
2007051108	Great Valley Ethanol Project Hanford, City of Hanford--Kings The project applicant, Great Valley Ethanol, proposes to construct an ethanol production facility in Kings County to produce ethanol for use as a gasoline blending component. The process will ferment corn to produce a corn beer. The beer will be distilled to produce a pure ethanol which will be denatured with a petroleum product prior to shipment. A co-product of this fermentation process will be the production cattle feed with a high nutritional value that will be sold to local dairies and livestock producers.	NOP	06/19/2007
2007051115	Adelanto South Annexation Adelanto, City of Victorville--San Bernardino The City of Adelanto has proposed an annexation to include approximately 2,800 acres currently located in the County of San Bernardino. The proposed annexation will involve rezoning the project area to allow over 9,200 residential dwelling units and up to 150 acres of commercial and industrial, which would allow an additional 4.9 million square feet of developable commercial and industrial space within this portion of Adelanto. In addition to these uses, the proposed annexation would allow for 8.9 acres of parkland and 195.7 acres of open space/power easement uses.	NOP	06/19/2007

2007052116	Sonoma Mountain Village Rohnert Park, City of Rohnert Park--Sonoma The Sonoma Mountain Village site includes approximately 175 acres. Seven different zones are proposed including: Sub-Urban, General Urban, Urban Center, Urban Core, Civic Space Reserve, Civic Parking Reserve, and Civic Building Reserve. The Sonoma Mountain Village is proposed consistent with the "Smart Growth" principles and designs.	NOP	06/20/2007
2007052118	Del Norte County Wal Mart Expansion Del Norte County Planning Department Crescent City--Del Norte The proposed project consists of an 87,035 square-foot expansion of the existing 77,827 square-foot Wal Mart store to upgrade it to a 164,862 square-foot Wal-Mart Supercenter. The expanded store would provide for general merchandise and grocery sales, and include an adjacent garden center. The Wal-Mart Supercenter would operate 24 hours a day, seven days an week.	NOP	06/20/2007
2007052120	Deer Creek Hills Preserve Master Plan Sacramento County --Sacramento The Deer Creek Hills Preserve Master Plan proposes a management plan to guide the uses of the Preserve, which include open space, habitat preservation, cattle grazing, and public recreation.	NOP	06/20/2007
2007051119	Approval of a Minor Waste Tire Facility Permit for BJ Used Tire and Rubber Recycling Inc. California Integrated Waste Management Board Fontana--San Bernardino The project is to issue a minor waste tire facility permit (Facility No. 36-TI-1532, TPID No. 1001094) to the BJ Used Tire and Rubber Recycling, Inc. (BJ Tire) facility located at 14212 Santa Ana Avenue, Fontana, California. The minor waste tire facility permit will authorize the storage of up to 4,999 waste tires in compliance with the waste tire storage and disposal standards and permit conditions that were designed to prevent negative impacts to public health and safety and the environment. The approval and issuance of a waste tire facility permit is considered a discretionary decision and is therefore subject to the California Environmental Quality Act (CEQA).	Neg	06/20/2007
2007051120	San Jacinto Wildlife Area Habitat Restoration Fish & Game #6 --Riverside This 520 acre project site is located within the San Jacinto Wildlife Area. The project site consists of the enhancement of existing seasonal and semi-permanent wetland units and their associated upland habitats (213 acres). Agricultural land not currently in production will be restored back to managable seasonal wetland habitat for use by all wetland dependent species. The proposed enhancement and restoration practices will help improve habitat conditions on a large portion of the San Jacinto Wildlife Area. Development of wetland infrastructure will enable staff to conduct moist soil management practices that will benefit wintering and breeding waterfowl and shorebirds. The project will directly enhance 213 acres of existing wetland habitat and restore 307 acres of leveled agricultural lands. The agricultural fields will be restored to wetland and associated upland habitat.	Neg	06/20/2007

	Zoning District and the Industrial Zoning District. The goal is for the City to have adequate sites for the construction of 804 residential units between 2002- 2007. The City is proposing new regulations for large family day care home and various other zoning ordinance amendments. The Professional Commercial Zoning district will be eliminated and those properties rezoned to C-S Service Commercial.		
2007052122	The Evergreen Pulp Whole Log Chipping Project Humboldt County Community Development Services --Humboldt A coastal development permit and conditional use permit to allow placement of a whole log chipper on the Evergreen Pulp mill site. The chipper will take logs less than 20' in length and turn them into chips for use at the pulp mill and for export offsite. The project will be sited on the north end of the property in an area historically used for wood chip storage. Approx. 7 acres of the area around the new structures will be paved. There are 4 separate structures involved with the chipper: a 24' tall log splitter, a 24' tall debarker, a 24' tall chipper, a 70' tall sorter, and a 70' tall chip storage building. All the buildings will be approx. 110' from each other and connected together by conveyor belts. There will be an increase in truck traffic to and from the site as a result of the project; there will be an estimated additional 5 trucks per day. A landscape strip along the front of the property facing Highway 254 will help screen the new smaller structures from view. There will be new outdoor lighting in parking areas and on the new equipment. The site is served by public water and an on site sewage disposal system. Hours of operation would be 7 AM to 5 PM Monday through Friday, although those are potentially subject to change.	Neg	06/20/2007
1991081025	The Lot Motion Picture Studios, Comprehensive Development Plan West Hollywood, City of West Hollywood--Los Angeles The overall square footage of development on the lot with the proposed project would decrease from a total of 684,910 square feet to 669,149 square feet, resulting in a total reduction of 15,761 square feet. It is anticipated that the lot will contain ten sound stages totaling approximately 148,539 square feet, 323,564 square feet of support office space, 168,161 square feet of media/workshop space, and 23,585 square feet of storage space.	NOD	
2003051104	Maywood General Plan Update Maywood, City of Maywood--Los Angeles The project is the adoption and implementation of the Land Use Element update and any subsequent amendments to the Maywood Zoning Ordinance to implement the Land Use Element contained in the updated General Plan.	NOD	
2004022075	Truck Climbing Lane Project at Red Top Road Caltrans #4 --Solano Caltrans proposes to construct a truck climbing lane adjacent to the westbound lane of SR 12 and provide additional pavement to accommodate right-turn movements entering and exiting Red Top Road at the SR12 Intersection. The California Dept. of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0013-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Nicolas Endrawos, Caltrans. 2006041147	California Incline Bridge Replacement Project Santa Monica, City of Santa Monica--Los Angeles The City of Santa Monica, in cooperation with Caltrans and the Federal Highway Administration, is proposing to reconstruct the structurally deficient California incline to meet current seismic standards. The proposed project entails demolition of the existing incline and construction of a new incline at the same location. The new incline would be approx. 750 ft. long and consist of a reinforced concrete slab structure with spans on the order of 44 ft. Overall width of the new incline would be 51 ft. 8 inches, an increase of 5 ft. 8 inches over the existing structure. The three 12-ft.-wide vehicular lanes would be maintained: proposed improvements would be designed to accommodate pedestrians and bicyclists. Construction would also require reconstruction of the upper and lower approaches to the incline at Ocean Ave. and SR-1, respectively. The new structure would be supported on pile bents founded below the unstable surface of the bluff. A new railing, similar to the existing concrete balustrade, would also be constructed. No lighting is proposed.	EIR	07/06/2007

	Residential Demolition Authorization Permit, Development Agreement and Tentative Subdivision Map for "La Bahia" Hotel Project-Demolition of an existing 44-unit apartment complex building listed on the City Historic Building Survey and construction of a 125 room hotel, approx. 5,353 sq. ft. of meeting room space, a 2,942 sq. ft. lounge/bar/restaurant, a 1,125 sq. ft. spa, a swimming pool, and an underground parking garage with 195 on-site parking spaces in the RTC/HO/C7/SPO zoning districts.		
2007051127	Desert Lakes El Centro, City of El Centro--Imperial The proposal would involve the following: the annexation of the site into the City of El Centro; a Specific Plan, a General Plan Amendment (05-05) from low density residential to medium density residential, high medium density residential, and general commercial; a change of zone (05-17) from County A2U to R-1, single family residential, R-2 Variable residential, R-3 multiple family residential, and CG, general commercial; and Vesting Tentative Subdivision Map. A Development Agreement with the City of El Centro is also being proposed. The 1,240 acre Desert Lakes project would consist of six different land use designations: low density residential, medium density residential, high-medium density residential, civic-public facilities, public, and general commercial. The residential component includes a total of 6,064 single and multi family units. The residential units would consist of 901 town homes, 694 multi family apartments, 1,527 single family units on 5,000 sq. ft. lots, 1,039 single family units on 6,000 sq. ft. lots, and 1,903 clustered single family units. The project also proposes 13 acres of commercial development, a 28 acre employment center, 5 schools (80 acres), 54.5 acres of parkland, a fire substation (2 acres), a community center (2.5 acres), an Imperial Irrigation District (IID) substation (2.4 acres), a church (9.5 acres), and two lakes which would serve to retain 100 year storm water flows on site.	NOP	06/21/2007
2007051128	Long Range Development Plan (2007-2025) University of California, Santa Barbara Goleta, Santa Barbara--Santa Barbara The 2007 LRDP will present a plan for the physical development of the UX Santa Barbara campus to accommodate an on campus enrollment level of up to 25,000 students (based on a three quarter average headcount), and approx. 6,400 faculty and staff. The 2007 LRDP will guide capital construction and infrastructure development to accommodate a building program for this anticipated campus growth. The plan will include land recently acquired by the University. The 2007 LRDP will provide: policies and locations for future development including new academic and research facilities, student, faculty, and staff housing, vehicular, bicycle, transit, and pedestrian circulation routes, recreation and athletic facilities; policies related to sustainability; and policies for protection and enhancement of coastal resources as set forth in the California Coastal Act of 1976.	NOP	06/21/2007
2007051129	Los Angeles State Enterprise Zone Los Angeles Community Development Agency Los Angeles, City of--Los Angeles The project proposes to implement a State Enterprise Zone (SEZ) designation, as granted by the California Department of Housing and Community Development, within the City of Los Angeles to provide a business incentive zone designed to attract new business and retain existing businesses and jobs. The project will permit businesses located within the zone to take state tax credits and deductions, and receive City benefits including, but not limited to, a Department of Water and	NOP	06/21/2007

	Power electric rate subsidy. The zone designation, in and of itself, will not result in any specific construction projects, land acquisition projects, or other development projects.		
2007052073	Emerson Property Project Oakley, City of Oakley--Contra Costa The project proposes the development of approximately 662 dwelling units on 129.5 acres, as well as the development of approximately 100,000 square feet of commercial uses, to include a major grocery store, a gas station, additional space for a variety of neighborhood and community serving uses, and two smaller pads for restaurants, banks or similar uses, on 10.5 acres. In addition to the residential and commercial lots, the project proposes development of a park, trails, levees, and any infrastructure improvements that are necessary to accommodate the new development. The project applicant is requesting certification of an EIR, a rezone to Planned Development (P-1), acquisition of right of way and easements, and approval of parcel maps, a Vesting Tentative Map, and Design Review.	NOP	06/21/2007
2007052125	Davis Street Widening/Realignment Project (06-151) Vacaville, City of Vacaville--Solano Acquisition of property, demolition of existing commercial buildings, and construction of widened roadway section on Davis St. between Hickory St. (north of I-80) and Bella Vista Rd. (south of I-80).	Neg	06/21/2007
2004081114	Conditional Use Permit No. 3052 - Kings River Sand and Gravel Project Fresno County Sanger, Reedley--Fresno The project is a revision to a previously approved Project, in 1999, on a 454 acre site located on Goodfellow Avenue between Sanger and Reedley. The Project would authorize up to one million tons per year (reduced from two million tons/year evaluated in 1999). The Supplemental EIR evaluates revisions to the Project, changed circumstances, and new information that could not have been known when the 1999 EIR was certified. The project site will be reclaimed as two private, exposed groundwater lakes with riparian habitat.	SIR	07/09/2007
2001082058	Oakland Army Base Area Redevelopment EIR Oakland, City of Oakland--Alameda The project, approved in July 2002 by the City of Oakland, involves the redevelopment of the 430-acre former OAB. On September 17, 2002, the Port approved the "Port Project" in reliance on the EIR certified by the City of Oakland, and adopted a Statement of Overriding Considerations for significant unavoidable impacts of the Port Project. The Port Project included and analyzed elements of the Project that include demolition of Buildings 641, 650, 655, 660, 701, 726, 738, and 740 at the Former Oakland Army Base for the purpose of preparing the site for redevelopment activities.	NOD	
2003102161	Palo Alto Regional Water Quality Control Plant Recycled Water Pipeline Palo Alto, City of Palo Alto--Santa Clara The purpose of the proposed project is to replace the deteriorating pipe that serves the Mountain View North Bayshore area, facilitate the use of recycled water as replacement for potable water, and to reduce the Regional Plant's discharge of pollutants. 2006102070	Fruitridge Vista Water Company Water System Project Health Services, Department of Sacramento--Sacramento The California Department of Health Services sent Fruitridge Vista Water Company (FVWC) Compliance Order 01-09-05-CO-002 on August 29, 2005. The Compliance Order directs FVWC to solve its capacity and low pressure problems. The capacity and pressure problems are due to groundwater contamination by methyl-tertiary-butyl-ether and perchloroethylene. The proposed project would replace Wells 1, 2, and 12 with three new wells (18, 19, and 20), construct two interties with the City of Sacramento's water system with booster pump stations and install transmission lines to connect the new infrastructure with the Company's service area. In response to the Compliance Order, the proposed project would solve FVWC's supply capacity and system pressure problems.	NOD	
2007031123	Rose Canyon & Lang Wells Upgrades to Treatment Facilities Trabuco Canyon Water District --Orange The Department of Health Services (DHS) has determined that groundwater produced at the Rose Canyon Wellfield is under the direct influence of surface water, and is therefore subject to USEPA's Surface Water Treatment Rule. As a result, the District must provide filtration to protect against microbiological contaminants. The project involves the construction of additional treatment facilities at the Rose and Lang groundwater wells through dual media pressure filtration system followed by UV and chlorine disinfection.	NOD	
2007058319	Fault Wash Camelops Excavation (06/07-CD-15) Parks and Recreation, Department of --San Diego The project is the excavation and recovery of vertebrate fossils, identified as partially articulated cervical vertebrae, humerus, ulna, mandible, and anterior rib of a large extinct carmel (Camelops sp.). This excavation is required for the protection for the protection and conservation of this very significant 1.1 million-year-old fossil specimen. The specimen is located within Fault Wash in the eastern Borrego Badlands.	NOE	
2007058320	Replace Underground Fuel Tank with Above Ground Tank Parks and Recreation, Department of --Shasta Remove and replace a 500 gallon underground storage tank (UST) located at the 1939 Schoolhouse, a compatible but non-contributing element near the historic district at Shasta State Historic Park. Remove existing heating fuel and flush UST, remove tank and piping, excavate and conduct soil sampling adjacent to the tank, remove contaminated soil as necessary, backfill and compact surface. Construct a (date-stamed) concrete pad and install a new 500 gallon above ground storage tank for heating fuel or propane adjacent to the tank, remove contaminated soil as necessary, backfill and compact surface. 2007051132	Bursztyn; TPM 20840RPL^2, Log No. 04-14-020 San Diego County Department of Planning and Land Use --San Diego Tentative Parcel Map for a four lot minor subdivision located south of La Cresta Road along Forester Creek Road in the Crest- Dehesa Community Planning area of unincorporated San Diego County. The project will be served by the Padre Dam Municipal Water District and onsite septic systems.	MND	06/22/2007
2007051133	Fillmore Business Park Master Plan Fillmore, City of --Ventura The proposed project is a Master Plan for the development of the 90 acre Plan Area with business/professional office, commercial and light industrial uses. Concurrent with the Master Plan, tract maps may be recorded for several individual Plan Area properties. Infrastructure would be extended as necessary to facilitate Plan Area development. Utilities would be installed and interfaced with existing City systems. A bike/multi use path would be constructed to tie into the existing Sespe Creek path and Santa Clara River path, thereby connecting these paths. A portion of the southern-most parcel is within the 100-year floodplain.	NOP	06/22/2007
2007051131	Moradi Residence San Diego, City of San Diego--San Diego Site Development Permit to develop a 8,050 sq. ft. 2 story, single family residence and pool with a 756 sq. ft. garage on a vacant 70,567 sq. ft. site.	Neg	06/22/2007

	<p>section of Trinity Parkway from Bear Creek to Mosher Slough. At the Otto Drive intersection, Trinity Parkway will be elevated slightly in anticipation of the future entrance into the proposed Atlas Tract (The Preserve) development project. Trinity Parkway will also be elevated at the southern end of the project to meet the height elevation of the new Atlas Tract levee system and future Mosher Slough- Trinity Parkway bridge. The dry land levee is currently under the jurisdiction of the State Reclamation Board and the Army Corps of Engineers and this project will require their approval prior to the levee's realignment. In the summer/fall of 2006, the Atlas Tract levee system was improved to provide flood protection estimated to be in excess of the 200 year flood event. Based upon those improvements, the Federal Emergency Management Agency (FEMA) has recently issued a Letter of Map Revision demonstrating that the site now has flood protection exceeding the federal minimum. With the enhanced levee system in place, lands within the Atlas Tract will be protected from tidally influenced delta flood waters, as well as the upstream flooding potential from Bear Creek and Mosher Slough. The Atlas Tract levee system improvements will also provide the existing residential users in the Twin Creeks Estates subdivision continued flood protection in addition to the protection afforded by the dry land levee, thus allowing for levee realignment to occur without risk to the Twin Creeks Estates residents and construction of Trinity Parkway improvements. Included in the proposed roadway improvements will be utility pipes, water, sewer, streetlights, and PG&E joint trench facilities.</p>		
2007052128	<p> pudding Creek Force Main Relocation Project Fort Bragg, City of Fort Bragg--Mendocino Coastal Development Permit to allow the relocation of a sewer force main. Project would include the construction of approx. 3,000 LF of 10 inch sewer force main from the Pudding Creek Lift Station to the nearest manhole on Elm Street at the intersection of Stewart Street. The current force main will be cleaned, capped, and abandoned in place. The new Force Main will be located along the western shoulder of SR-1. The route of the sewer force main will parallel SR-1 and traverse across the existing parking area and access road to the lift station and it will be elevated out of the Pudding Creek by being attached to the existing Pudding Creek bridge. The construction is estimated to take six weeks.</p>	MND	06/25/2007
2007052129	<p>Laurel Court Estates Contra Costa County Community Development --Contra Costa The applicant requests approval of an Amendment to the Land Use Element of the Contra Costa General Plan (2005-2020) redesignating 3.19 acres of one 3.82 acre parcel from Parks and Recreation (PR) to Single Family Residential- High Density (SH). The remaining 0.63 acres would remain designated as PR. The applicant also requests approval of additional applications to subdivide the 3.8 acre parcel into 18 parcels and approval of a Preliminary and Final Development Plan to develop 17 single family residential units on 17 of the new parcels. A new swim club facility is proposed to be developed on the remaining parcel, but is not included in this Final Development Plan application.</p>	MND	06/25/2007
2007052131	<p>Monte Bello 2007 Live Fire Training Exercise Midpeninsula Regional Open Space District Palo Alto--Santa Clara Burn up to 20 acres of open grassland and shrubland to provide a training opportunity for City of Palo Alto Fire Department and Midpeninsula Regional Open Space District to practice wildland fire response. 	disking, mowing, and blacklining the perimeter of the proposed burn area, and spraying stands of non-native invasive Harding grass. A burn plan and a smoke management plan have been prepared.		
2007052132	The Lower Walnut Creek Interim Protection Project; Project No. 7520-6B8345/CP#07-39 Contra Costa County Community Development Concord, Martinez--Contra Costa Remove excess sediment and vegetation, create surface elevation, restore wetland habitat, and levee restoration.	MND	06/25/2007
2007052138	Water Right Application 30740 Sutter Home Winery State Water Resources Control Board, Division of Water Rights American Canyon--Napa The project consists of an existing on-stream reservoir with a capacity of 26 acre ft. The reservoir is located on an Unnamed Stream tributary to North Slough thence Napa River and the reservoir is formed by an earthen dam approx. 405 ft. long and 24 ft. high. The water stored in the reservoir will be used to irrigate 161 acres of vineyard (i.e. 153 acres of existing vineyard plus an additional 8 acres which would be converted from pasture land to vineyard). The reservoir was originally used as a stock watering pond and was registered as such in 1981. A permit for application 30740 would allow for the diversion to storage of 26 acre ft. per year. Water would be used for irrigation and fire protection. In addition to water stored in the reservoir the applicant will continue to purchase municipal raw water from the City of American Canyon to supplement irrigation needs.	MND	06/25/2007
2007051135	High Place Affordable Housing Project Santa Monica, City of Santa Monica--Los Angeles The proposed project involves demolition of all existing structures on the site and relocation of High Place to a public alley that would provide shared access along the western edge of the project. The project would consist of 47 apartment units and 45 condominiums with two separate subterranean garages for each development. The projects are being entitled separately but are analyzed together for the purposes of environmental review.	NOP	06/25/2007
2007051136	1427 4th Street Mixed-Use Development Santa Monica, City of Santa Monica--Los Angeles The proposed project involves demolition of all existing structures on the site and construction of a new 4-story, 58-foot high mixed-use development consisting of 40,785 square feet of retail/office space, including the lobby. The proposed structure would result in first floor coverage of 14,175 square feet and an overall floor area ratio of 2.87. A total of 70 parking spaces would be provided in a two-level subterranean parking garage.	NOP	06/25/2007
2007051137	Mira Mesa/Scripps Ranch Direct Access Ramp Caltrans #11 San Diego--San Diego Caltrans proposes to construct a Direct Access Ramp (DAR) to connect the I-15 Managed Lanes facility with the local street system and Bus Rapid Transit (BRT) facilities in the Mira Mesa/ Scripps Ranch community. The proposed DAR would provide direct vehicular access to and from the I-15 Managed Lanes facility from the local street system.	NOP	06/25/2007

<u>Documents Received on Friday, May 25, 2007</u>			
2007051141	Lakeview Promenade Santa Maria, City of Santa Maria--Santa Barbara The proposed project, known as Lakeview Promenade, is a mixed commercial, residential, office, and entertainment project on a currently under-developed site totaling 9.4 acres. The project consists of 14,832 square feet of restaurant space, 13,945 sq. ft. of medical office space, 1,225 sq. ft. of professional office space, 39,002 sq. ft. of commercial retail space, and 266 residential condominium units.	NOP	06/25/2007
2007052130	Pantages Bays Contra Costa County Community Development --Contra Costa The Pantages Bays Project is a proposed 292 unit residential subdivision to be constructed as part of the Discovery Bay community in eastern Contra Costa County. Like the rest of Discovery Bay, the key component of the subdivision is waterfront lots with individual docks and deep water access. In addition to residential development, the Project would also widen the portion of Kellogg Creek immediately east of the Project site. The proposed widening of Kellogg Creek is cosponsored by Reclamation District #800 to "reduce water velocities in the section of Kellogg Creek and so improve public safety." The Project also includes existing seasonal wetland and marsh areas in the northern portion of the property that would be preserved and enhanced.	NOP	06/25/2007
2007052135	Mather Interceptor Sacramento County Rancho Cordova--Sacramento The project would construct a pump station and odor control facility, a dual 24-inch diameter force main, a 54-inch diameter gravity interceptor, and a 72-inch diameter gravity interceptor and related transition, drop, and junction structures.	NOP	06/25/2007
2007052137	Lakeville Road Eucalyptus Tree Removal Project Sonoma County Petaluma--Sonoma The Sonoma County Department of Transportation and Public Works proposes to remove approximately 350 blue gum eucalyptus trees on both sides of Lakeville Road, between State Hwy 116 to the north and Old Lakeville Road No. 3 to the south. Tree debris, trunks, and limbs will be removed and disposed of as part of the proposed project. The resulting tree stumps will be removed to ground level to eliminate possible obstructions to vehicles. The purpose of the project is to improve safety for the motoring public by removing existing eucalyptus trees that have reached the end of their normal life span and have dropped and likely will continue to drop limbs onto Lakeville Road. Temporary closure and/or traffic control measure(s) of the vehicular travel lane(s) for Lakeville Road may be required throughout the project, which is expected to take approximately 3-6 months. Access permission may need to be obtained from adjacent private properties.	NOP	06/25/2007
2007051139	Friant-Kern/Cross Valley Canal Intertie Construction Project Kern County Water Agency Bakersfield--Kern The project proposes to physically connect the Friant-Kern and Cross Valley Canals at their closest point. The connection would have a 500 cubic feet per second bidirectional capacity.	Neg	06/25/2007

2000102115	Construction of a New Regional Wastewater Treatment Facility Crescent City Crescent City--Del Norte The proposed project will replace or rehabilitate WWTP components to meet the Cease and Disorder requirements and will increase the WWTP capacity to meet long-term wastewater treatment demand. In addition, the layout of the WWTP would be rearranged and expanded to handle peak flows.	NOD	
2003032083	Lake Davis Water Treatment Plant Improvements Plumas County Portola--Plumas Upgrade and reconstruction of existing water treatment plant, with no increase in treatment capacity.	NOD	
2005041045	South Region Elementary School #4 and Early Education Center No. 1 Los Angeles Unified School District South Gate--Los Angeles The proposed project includes the development of South Region Elementary School No. 4 within Local District 6. The South Region Elementary School No. 4 would consist of ~70,000-square feet of school facilities. The school would consist of ~38 classrooms serving ~775 students in grades K through 5 and 175 seats for an early education center. The proposed project will provide recreational space and athletic facilities including a multi-purpose room and multi-use play fields.	NOD	
2005051073	Lancaster Water Reclamation Plant Stage Five Recycled Water Pump Station and Storage Facilities - Phase 1 Los Angeles County Sanitation District Lancaster--Los Angeles The District's LWRP currently has a treatment rate capacity of 16 million gallons per day and treats all effluent to a secondary level. The Antelope Valley Treatment Plant, located on the same site, provides tertiary treatment for up to 0.6 mgd of effluent. This project will expand LWRP capacity to 21 mgd and will treat all wastewater to the tertiary level while the AVTTP will be decommissioned.	NOD	
2005111119	Haugh Tentative Parcel Map, TPM 20610RPL^2, Log No. 01-02-024 San Diego County Department of Planning and Land Use Fallbrook--San Diego This project proposes a minor subdivision of 8.74 acres into four single-family residential lots ranging in size from 2.00 to 2.37 acrs gross. The project will involve grading for four residential pads and driveways. An on-site private pad with cul-de-sac is proposed for access to Parcels 3 and 4. Biological open space is proposed over the riparian streamcourse that occurs in a north-south direction on-site.	NOD	
2006091160	City of Pasadena Enterprise Zone Designation Pasadena, City of Pasadena--Los Angeles The City of Pasadena's Enterprise Zone is a State of California Tax Incentive Program designed to stimulate business development and employment growth. The Zone's objective is to reduce the cost of doing business by offering state tax credits to businesses that are located within the zone. Tax benefits are realized through the reduction in business expenses that result from a reduction in the cost of hiring employees, purchasing of qualified equipment and reduction in the cost of hiring employees, purchasing of qualified equipment and reduction in state taxes for financial institutions when approving a loan. 2007058340	Adoption of Chromium 6 Action Plan Metropolitan Water District of Southern California Unincorporated--San Bernardino Chromium 6 has been detected in a groundwater aquifer on the site of a PG&E gas compressor station located along the Colorado River south of Needles. Hexavalent chromium (chromium 6) is a drinking water contaminant stemming from industrial and manufacturing activities in or adjacent to water supplies. Chromium 6 is currently regulated under the 50 parts-per-billion (ppb) maximum contaminant level (MCL) for total chromium. A public health goal for chromium 6 is not yet available, so the California Department of Health Services (DHS) cannot proceed with final development of MCL. DHS Water Quality and Operations Committee moved to implement several measures identified to expedite clean-up measures of chromium 6 near the Topock site. Elements of the action plan include: (1) development of a joint Metropolitan/PG&E technical task force; (2) evaluation of interim and long-term treatment alternatives; (3) development of a revised chromium 6 monitoring program; (4) initiate public and political outreach; (5) develop a stakeholder group to solicit regulatory support for protection of beneficial use; and (6) evaluate legal options.	NOE	
2007058341	Amendment to Existing License to the City of South Gate Metropolitan Water District of Southern California South Gate--Los Angeles Metropolitan is proposing to amend the existing license (R.L. No. 1950) to the city of South Gate (South Gate) for their proposed project. The South Gate proposes to construct new family oriented park with decomposed granite walkways, light poles, landscaping irrigation system, drinking fountains, parking, picnic tables, benches, a tot lot, and restroom.	NOE

2007058351	<p>San Joaquin Valley Unified Air Pollution Control District Rule: Rule 4301 (Open Burning) - Amended May 17, 2007</p> <p>San Joaquin Valley Air Pollution Control District --Fresno, Kern, Kings, Madera, Merced, San Joaquin, ...</p> <p>The amendments to Rule 4301 will implement the requirements of the California Health and Safety Code Sections 41855.5 and 41855.6 pertaining to the prohibitions of burning orchard removal matter and rice stubble. The rule amendments will prohibit the burning of orchard matter for all crops commencing on June 1, 2007, with the exception of orchard removal matter from citrus, apples, pears, quince, and fig crops, and from 20 acres or less at a single location. Rule 4103 will allow the burning of orchard from citrus, apples, pears, quince, and fig crops, and from 20 acres or less at a single location until June 1, 2010. The rule will require rice growers to reduce open burning of rice stubble by 50% by June 1, 2010. To enhance the clarity and rule effectiveness, the definitions of orchard removal matter, residual rice stubble, single location, and spot burning have been included. The existing definition of camp fire has been modified for clarity. The existing requirements for burning Russian Thistle (tumbleweeds) have been modified in order to codify how the District has historically implemented this provision and to enhance the clarity and enforceability of the rule.</p>	NOE	
2007058352	<p>Geotechnical Investigation Parks and Recreation, Department of --Shasta</p> <p>Excavate nine test holes along the Falls Loop Trail between the first and second switchbacks that are below the entrance of the trail. The primary purpose of the excavations is to evaluate soil and substrate composition in preparation of a proposed project for rock wall repair and new construction.</p> <p>Excavations will be conducted along the sides of the trail outside of the trail footprint. Holes will be dug manually with hand tools and each hole will not exceed five feet long by 15 inches wide by four feet deep. Excavation within the Root Health Zone of large trees will not sever roots equal or greater than two inches in diameter. The surface layer of vegetative duff litter and soil will be removed and set aside to be replaced on top of the refilled holes after testing. In addition, excavated soil will be replaced in reverse order after each evaluation is complete.</p> <p>The Falls Loop Trail will remain open during excavation. Temporary signs will be placed along the trail and protective equipment will be set up around the holes to protect park visitors from potential hazards. Ground-disturbing work will be monitored by a Native American descendant. In the event that previously undocumented cultural resources are encountered during project construction, work will cease at the location of the find until a DPR-qualified archaeologist has evaluated the find and implemented appropriate treatment and disposition of the artifact(s).</p>	NOE

The proposed project consists of development on 49.3 acres divided between three Planning Areas (PAs). PA I is located in the southwestern portion of the project site and will include a single major retail building of approximately 250,000 square feet in size. The new Wal-Mart Supercenter will offer groceries, general retail merchandise, alcohol for off-site consumption, pool chemicals, petroleum products, pesticides, paint products, a drive-through pharmacy, vision and hearing care center, arcade, food service, photo studio and photo finishing center, banking center, tire and lube facility, seasonal sales, a garden center with exterior pick-up facility, and a 16 pumps self-service gas station. PA II, located along Perris Boulevard would be divided into five parcels and developed with three drive-through restaurants and other retail and/or restaurant uses. Total square footage in PA II will not exceed 30,000 square feet. PA III will include one major retail building and six out-parcels for drive through restaurants and general retail sales. The Lowe's Home Improvements Warehouse will include a building footprint of approximately 173,000 square feet containing the following uses: sales floor; office area; receiving area; utility rooms and vestibule area. A garden center will adjoin the building to the south. Lowe's will operate a sales/display area immediately in front of its store for seasonal items as well as a parking lot sales area in front of its lumber canopy area for 3 to 4 events throughout the year. Total square footage within PA III is approximately 233,650 square feet.</p>	FIN

<u>Documents Received on Tuesday, May 29, 2007</u>			
2005092047	Redwood City Costco Wholesale Project Redwood City Redwood City--San Mateo Located in the northeastern portion of the City of Redwood City, the project proposes the replacement of the existing 121,400 square foot (sf) retail building with a 148,663 sf retail building and a fueling center that would include 16 fuel positions within the 11.65-acre site. In addition, the project would provide 776 surface parking spaces and include road improvements along Middlefield Road between Woodside Expressway and the eastern edge of the proposed site.	FIN	
2006051058	General Plan Update 2005-2025 Draft EIR Huron, City of Huron--Fresno The proposed project includes an update of the City of Huron's General Plan. The proposed project area (Planning Area) is comprised of approximately 1,913 acres, and contains a mixture of residential, agricultural, commercial, and industrial land uses. The General Plan will include Land Use, Open Space, Conservation and Recreation, Circulation, Safety, Noise, Air Quality, and Public Services and Facilities elements to guide future growth of the City in its planning area.	FIN	
2007051144	Conditional Use Permit (SEA) No. 03-124 Los Angeles County Department of Regional Planning --Los Angeles An application for a Conditional Use Permit for the construction of one single family residential unit (1,600 sq. ft.) with a detached garage (672 sq. ft.), septic system, one guest house (792 sq. ft.), a barn and equipment shelter (1,152 sq. ft.), and a six foot chain link fence with a sliding gate surrounding the proposed single family residence. Ornamental Landscaping is proposed on the site including a variety of planted trees such as cherry trees and Arizona Cypress trees. A 20 foot wide crushed gravel driveway is proposed with ingress and egress on to an existing private dirt road leading to Three Points Road to the east. The applicant is beginning to develop a portion of the site for agricultural use (allowed by right in the R-R-5 zone). Row trees will be planted and a temporary equipment shelter constructed while the current permit request is in process.	MND	06/27/2007
2007051146	South Palm Canyon Drive Widening Project Palm Springs, City of Palm Springs--Riverside South Palm Canyon Drive is currently improved east of the centerline with a curb-to-curb width of 32 feet, and an existing sidewalk contiguous with the easterly curb. The proposed project will widen approx. 1,100 linear feet of South Palm Canyon Drive from 32 feet to 64 feet (curb to curb), with an additional sidewalk being constructed adjacent to the westerly curb. The proposed widening will occur from approx. 500 feet south of Murray Canyon Drive to 100 feet south of Bogert Trail, then taper back to existing roadway width at a point of 900 feet south of Bogert Trail. The proposed street widening (and sidewalk construction) will take place within 94 feet of existing right-of-way. The project also involves the widening of the existing bridge across Cherly Creek (also referred to as Arenas Wash North).	MND	06/27/2007

2002121129	<p>Bayshore Bikeway San Diego, City of --San Diego</p> <p>Site Development Permit (SDP) and Coastal Development Permit (CDP) to allow for the construction of a 1.8 mile Class I bikepath located along the Otay River Berm and the Main Street Dike and the relocation of an existing haul road utilized by South Bay Salt Works. The bikepath would be a segment of the 24 mile Bayshore Bikeway, and would connect to an existing segment at 13th Street (City of Imperial Beach) on the west and Main Street (City of San Diego) on the east. The bikepath would be located primarily within the Metropolitan Transit System (MTS) railroad right of way. The bikepath would be 12 feet wide, including an 8 foot wide paved asphalt path with 2 foot wide paved porous concrete shoulders on each side of the bikepath. A six foot high chain linked fence would be erected on both sides of the bikepath along the entire alignment. An additional one foot of fill material would be placed on each side of the path, between the proposed porous concrete shoulders and the fence. The bikepath is proposed to cross the Otay River in two locations. The proposed project would include the placement of two steel truss bridges above the existing, unserviceable wooden trestle bridges that currently cross the Otay River at these locations. The existing wooden trestle bridges, as well as existing railroad rails and ties, are part of the locally designated historic Coronado Railroad Belt Line (CBL) Historic Resource Board (HRB) Number 640. The proposed project is located in the northern portion of the Otay Mesa/Nestor Community Plan area, west of Interstate 5, and is bordered by the City of Imperial Beach to the west and south, and the City of Chula Vista to the north.</p>	EIR	07/13/2007
2006062009	<p>McClellan Heights/Parker Homes Land Use and Infrastructure Plan (M03-190) Sacramento, City of Sacramento--Sacramento</p> <p>The Plan includes recommendations for land use changes, including configurations and intensity, property development regulations for infill development and strategies for improving housing stock. The recommended changes in land use designations which would result in the transition of the Plan area from a mix of low density residential and light industrial uses to residential and some higher intensity residential mixed use areas which would include a few neighborhood serving retail nodes at key intersections. The Plan also includes infrastructure and streetscape improvement recommendations. Future development may occur at different times and be implemented by different developers (public and private). The adopted Plan would become the regulatory framework for the review of future public and private development in the area. The Plan would also provide for community supporting retail and commercial development.</p>	EIR	07/13/2007
2006072099	<p>Lake Britton Bridge Replacement Caltrans #2 --Shasta</p> <p>Upgrade the existing two-lane highway to meet current highway design standards. Replace Lake Britton bridge #6-0052 and construct 2.7 miles of new highway to conform SR-89 to the new bridge alignment and grade. Relinquish portions of the old highway alignment and remove the existing bridge once the new bridge and highway are constructed.</p>	FON

2007051153	Seligson Minor Use Permit and Coastal Development Permit San Luis Obispo County --San Luis Obispo Remodel of existing 2,065 sq. ft. residence including: 1) demolition of 595 sq. ft. garage, breezeway, porch, upper story of the residence (resulting in a height reduction from 21 to 14 feet), and portions of the lower story of residence; and construction of 2) a 253 sq. ft. addition to residence; 3) a 623 sq. ft. porch/deck; 4) a 79 sq. ft. breezeway. The project will result in the disturbance of approx. 1,400 sq. ft.	Neg	06/28/2007
2007051154	Grading Permit ED San Luis Obispo County --San Luis Obispo Request by Hertel Group, LLC for a grading permit to create an agricultural pond with a capacity of approx. 13.8 acre feet. The demensions of the pond would be roughly 25 feet by 41 feet. The agricultural pond will have a depth of approx. 20 feet at the deepest and will include a small island. The project will result in disturbance of a 4.5 acre area including approx. 36,604 cubic yards of cut and 14,352 cubic yards of fill of a 1,074 acre parcel. The project would also include a 12 foot wide, 144 foot long agricultural road around the perimeter of the pond, which would cross over existing on-site ephemeral drainage ways a total of five times, requiring the installation of five culverts. The 22,252 cubic yards of excavated material will be spread out at a depth of 12 to 18 inches over an approx. 10.5 acre area on the site, for a total site disturbance of approx. 15 acres.	Neg	06/28/2007
2007052147	Green Hills Road Industrial Buildings Scotts Valley, City of Scotts Valley--Santa Cruz Light Industrial buildings (6,720 and 11,700 sq. ft.) containing nine tenant spaces. The project includes 42 parking spaces combined with loading areas in front of each proposed tenant space. The project requires the removal of 11 tree groups, 18 individual trees, and the protection of 11 trees, one of which is on the subject property. The project proposes the under grounding of an intermittent drainage swale.	Neg	06/28/2007
2005111002	East Valley High School 1B Addition Project Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed project includes an addition to the existing East Valley High School. The proposed addition consists of a three-level new small learning center (513 seats and 19 classrooms), a new practice gymnasium, a new satellite food service area, a one-level subterranean parking structure, reconfiguration of the approved athletic fields, and athletic field/pool area lighting. Approx. 15 classrooms within the existing high school and proposed project may be used for adult school instruction.	NOD	
2007031150	Tippecanoe Avenue Street Improvement Project Inland Valley, City of San Bernardino--San Bernardino The Tippecanoe Avenue street improvement alignment encompasses the approximately 3,200 feet of Tippecanoe Avenue from the southern corner of Mill Street to a point just north of the Santa Ana River. Tippecanoe Avenue is identified as having a 100-foot right-of-way (right-of-way will be 120-feet in width	NOD

	following construction) and the segment that will be constructed under this action is approximately 3,200 feet in length. The project also includes installation of associated curb and gutter, medians, sidewalk, and storm drain and a new outlet into the Santa Ana River. The proposed storm drain facility will be installed on the east side of the Tippecanoe Avenue alignment and it will outlet into the River, just east of the Tippecanoe bridge that presently crosses the Santa Ana River. No alterations are proposed for the bridge. A median will be constructed as part of the proposed project. The proposed curb system will range from six to eight inches.		
2007032083	Installation of Ten Portable Buildings (16 Classrooms) at the Existing Dos Rios Elementary School North Sacramento School District Sacramento--Sacramento The 8.7-acre school is presently closed for renovations. The North Sacramento School District has an immediate need for an expansion of the existing Dos Rios Elementary School (grades K to 6) to provide for additional classroom buildings on the existing school site.	NOD	
2007032115	2005-30 Tentative Parcel Map for Joseph M. Senn Construction, Inc. Calaveras County Planning Department Murphys--Calaveras The applicant is requesting approval of a Tentative Parcel Map to divide the property, about 0.89 +/- of an acre into three parcels of 0.23 +/-, 0.24 +/-, and 0.42 +/- of an acre respectively.	NOD	
2007058431	Bus Stop Improvement Program Calaveras County Planning Department --Calaveras This project is for the design and completion of seven (7) bus stop improvements (including shelters and paved access) along existing service routes including the State Highway 49, State Highway 26 and State Highway 4 corridors. This project will provide access and shelter improvements to existing bus stops that lie within the intercity route structure between Jackson, Sonora, Lodi, and Angels Camp. None of these stops currently have any facilities for waiting patrons. Bus shelters will provide a designated waiting space that will provide relief from inclement weather (i.e. wind, rain, sun) and physical relief from standing for long periods of time. The shelters will have a 5'x10' footprint and will be located along roadway frontage in existing developed areas.	NOE	
2007058432	Removal of Middle Residences - San Jose Creek Parks and Recreation, Department of --Monterey Remove structure known as the middle residence located at Point Lobos State Reserve. The building is not historically significant and is located within the floodplain of nearby San Jose Creek and has extensive structural water damage, mold problems and rodent infestation. The building will be recorded by a State Historian prior to commencement of work. If feasible, the upper portion of the building will be considered for rehabilitation and inclusion in construction of any future on-site structure. Any new construction in this area will also conform to the historic landscape of the area. A DPR Archaeologist will inspect ground surface once the area has been cleared.	NOE

2007058433	Seaside Aquifer Monitoring Wells Installation and Right of Entry Permit Parks and Recreation, Department of --Monterey Install four coastal monitoring wells within Fort Ord Dunes State Park. The wells will be installed by the Seaside Groundwater Basin Watermaster with the purpose to monitor for seawater intrusion into the Seaside Ground Water Basin in accordance with a court order. Within the park, the four well sites are proposed on existing paved roads or semi-paved previously disturbed areas at the following locations: 1) southwestern corner of Range 8 near the concrete range wall, 2) Ammo Supply Point Bunker #11 immediately in front of the bunker door, 3) Ammo Supply Point Bunker #1 immediately in front of the bunker door, and, 4) Ord Village Pump Station Access Road immediately east of the pump station fence. All construction activity will occur within existing roadways. A containment area will be constructed at each well site to enclose equipment used for storing and handling hazardous fluids. Following construction the only visible features of the project will be one at-grade small utility box lid in the roadway at each location and a post on the side of the road to demarcate each site. The project will be in compliance with all applicable environmental permits, including a Coastal Development Permit. Construction fencing will be installed to avoid impacts to sensitive species at the Ord Village Pump Station and Range 8 sites; installation of the fencing and all project activities will be monitored by a qualified biological monitor. Project will not alter any cultural landscape elements, such as the berms a Range 8. Project also includes issuance of a right of entry permit for construction; right of entry for future monitoring will be issued separately and subject to separate evaluation under CEQA.	NOE	
2007058434	Temescal Gateway Park - YMCA Option Santa Monica Mountains Conservancy Los Angeles, City of--Los Angeles Formal transfer of fee title to a portion of Temescal Gateway Park to the YMCA of Metropolitan Los Angeles, pursuant to an option agreement for said property entered into prior to acquisition of Park by SMMC. 2006121116	Green Heron Spring Condominiums Carpinteria, City of Carpinteria--Santa Barbara This 34-unit condominium project proposes to dismantle an existing residence, barn and storage shed (the materials would be salvaged), remodel one residence and construct 33 new residential units. Twenty-one of the new residences are proposed to be three-bedroom townhomes, four of these would be affordable. Twelve of the new residences are proposed to be one-bedroom flats, with two of these affordable. In all, a total of 11 structures totaling 61,990 sq. ft. of floor area is proposed.	MND	06/29/2007
2007051159	Riverway Substation Project Public Utilities Commission Visalia--Tulare SCE proposes to construct a new 66/12 kV low profile substation, including two 28 megavolt-ampere (MVA) transformers, two 4.8 megavolt-ampere reactive (MVAR) 12 kV capacitor banks, and six 12 kV distribution lines. The project would include approx. 1,200 feet of underground 66 kV subtransmission lines, as well as new fiber optic cable and communication equipment to connect the substation to SCE's existing telecommunication system.	MND	06/29/2007
2007051156	Bundy Canyon Road/Scott Road Improvement Project Riverside County Lake Elsinore--Riverside The proposed project would widen and realign portions of a six mile segment of Bundy Canyon Road/Scott Road (from just east of I-215 to just west of I-215) from its existing two lanes to a four lane cross-section. Currently, portions of the existing alignment are windy and narrow, making it difficult for vehicles to pass, and making it difficult to enter and exit the roadway from adjacent properties.	NOP	06/29/2007
2007061001	Grand Bakersfield Project (Annexation No. 579, GPA/ZC 06-1529) Bakersfield, City of Bakersfield--Kern The proposed Grand Bakersfield Project (Annexation No. 579, GPA/ZC 06-1529) consists of the annexation of the Project site into the City of Bakersfield, an amendment to the Metropolitan Bakersfield General Plan Land Use and Circulation Elements, a concurrent zone change, Williamson Act Land Use Contract Cancellation, and an Agricultural Preserve Exclusion. The proposed project includes approximately 490 acres and is located at the northwest corner of Houghton Road and Stine Road. Residential development would be the predominant land use within the project area. The residential use accounts for approximately 391.03 acres, which will contain approximately 4,382 dwelling units. The proposed residential community is to provide a diverse range of housing options: from approximately 415 single-family residential dwelling unit (110.50 acres), approximately 457 small lot, single-family units (4,500 square feet), approximately 1,058 medium density, multi-family units (60.39 acres), and approximately 2,451 high-density, multi-family units 220.14 acres). In addition, the development is proposing approximately 57.91 acres of Highway Commercial (HC), and 32.24 acres of General Commercial (GC) to serve the area residents. The development will also provide neighborhood parks, which will provide recreational amenities and meet the needs of local residents.	NOP	07/02/2007

2007032160	Boonville Forest Fire Station Replacement Project Forestry and Fire Protection, Department of Booneville--Mendocino Cal Fire is proposing to replace the existing Boonville forest fire station and update the facilities on the project site. The project would include demolition of the existing fire station buildings and construction and operation of a new two-engine forest fire station, including: a twelve-bed barracks and kitchen, administration building, three-bay apparatus building, two-bay dozer shed, and combination building (flammable materials storage, general storage, generator, pump house).	NOD	
2007042029	Cloverdale Forest Fire Station Replacement Forestry and Fire Protection, Department of Cloverdale--Sonoma Cal Fire is proposing to replace the existing Cloverdale Forest Fire Station and update the facilities on the project site. The project involves the demolition of the existing fire station buildings and construction and operation of a new two-engine forest fire station, including: three-bay apparatus building, 12-bed barracks, flammable materials storage building, emergency power generator building, 1,000-gal. above-ground liquid propane gas (LPG) storage tank, and associated drainage, sewage and water improvements on an appropriate 2 acre project site.	NOD	
2007042071	Windrush School Master Plan El Cerrito, City of El Cerrito--Contra Costa The project would result in an amendment to the existing use permit (which was last amended in November 1998). The amended use permit would allow, over a four-phase, 20 year period, Windrush School to: increase enrollment from 250 students to 347 students during the regular school year and from 125 students to 175 students during summer sessions; improve accessibility; increase building area by 23,000 sq. ft. (net) increase in additional floor space; and increase building height limits from two stories to a maximum of 35 feet. Phase 1 would include the replacement of an existing one story classroom wing in front of the gymnasium with a new two story 13,500 sf addition in the same location. The new addition would contain an interim library, classrooms, and a supporting circulation area. Phase 2 would include the construction of a new library, performing arts classroom, and a dance classroom adjacent to the gymnasium and Phase 1 classrooms. These uses would be accommodated in a 9,000 sf addition. Phases 3 and 4 would include the renovation of the existing main classroom and administration building, and the replacement of an existing 5,000 sf classroom with a new 5,500 sf classroom, respectively.	NOD
