# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 16-31, 2009**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CD must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2009052064	<p>General Plan Amendment Application No. 2009-01 and Rezone Application No. 2009-02 - Derrel's Mini Storage Stanislaus County Modesto--Stanislaus</p> <p>Request to amend the General Plan designation from Agriculture to Planned Development and rezone approximately 7.37 acres from A-2-40 to Planned Development. The adjacent 15+ acre property previously underwent a General Plan Amendment and rezone to allow the operation of Derrel's Mini Storage in November of 1999 (GPA 99-05, REZ 99-11 - Derrel A. Ridenour). This request will allow the property to have 130+ roof only structures to be rented for RV storage. The proposed RV storage operation will expand the existing Derrel's Mini Storage operation. The storage area will include electric hook-ups only. No septic or well is anticipated for the site. Parking and restrooms for customs are available on the adjacent mini-storage site. The site has access from Tunson Road through the existing mini-storage facility.</p>	<b>CON</b>	06/02/2009				
2008092082	<p>McCarthy Ranch Mixed Use Project Milpitas, City of Milpitas--Santa Clara</p> <p>The project contemplates rezoning 9.34 acres from Industrial Park to General Commercial, while assessing the environmental impacts of intensifying development on 49.2 acres in the Industrial Park from .35 Floor Area Ratio to .50.</p>	<b>FIN</b>					
2009042018	<p>PG&amp;E Pease-Marysville 60kV Transmission Line California State Lands Commission Yuba City, Marysville--Sutter, Yuba</p> <p>PG&amp;E is proposing to reconstruct an existing 8.3 mile 60kV transmission line between the Pease and Marysville substations in the Yuba City and Marysville area. The proposed Project would reconfigure the existing Pease-Marysville 8.3 mile 60kV transmission line to a double-circuit wood and tubular steel pole line. The Project would consist of removing all 155 existing 50- to 85-foot high wooden poles that support the current 60kV transmission line between the Pease and Marysville substations. Existing wood poles would be replaced with wood poles that are up to 10 ft trailer. Angle points and select equipment poles would also be replaced and tubular steel poles, which range from 60 to 105 ft, would be installed for strength and to eliminate the need for guying. Approximately 125 wood poles and 35 tubular steel poles.</p>	<b>FIN</b>

2009052060	Community Plan Amendment Application No. 2009-01, Rezone Application No. 2009-01 - Pelandale Commercial Stanislaus County Modesto--Stanislaus Request to amend the Community Plan from Highway Commercial Planned Development to Planned Development and rezone 8.71 acres of expired Planned Development zone P-D (151) to a new Planned Development zone to allow 7 buildings for retail commercial, Big Box commercial and drive-thru businesses, totaling 107,000 +/- sf. The parcel will be served by the City of Modesto water and the Salida Sanitary District.	<b>MND</b>	06/16/2009
2009052062	Homestead Lane Subdivision Santa Rosa, City of Santa Rosa--Sonoma Subdivide 3 contiguous parcels (7.02 acres) to create 53 parcels w/detached single family dwelling units. The project requires a Tentative Map, Conditional Use Permit, Rezoning and Environmental Review.	<b>MND</b>	06/16/2009
2009052063	Yuba County Housing Element Update Yuba County --Yuba Yuba County is requesting a recommendation of a General Plan Amendment to update the County's Housing Element, one of the required elements of the general plan. The 2008-2013 Housing Element consists of updated draft Housing Element goals, policies, and programs which deal with 7 topics: Housing Conservation, Production of Housing, Provision of Adequate Housing Sites, Removal of Governmental Constraints, Regional Coordination, Equal Housing Opportunity, and Historic Preservation.	<b>MND</b>	06/16/2009
2009052065	2009-2014 Housing Element - General Plan Amendment to Update the Housing Element Burlingame, City of Burlingame--San Mateo NOTE: Review Per Lead  The project consists of the update of the City of Burlingame's Housing Element, a mandated element of the General Plan. The document includes programs and policies which address the housing needs of the community. The policies and programs include recommendations for changes in the land use regulations pertaining to residential development near transit stations, the creation of incentives to encourage development of a variety of housing types, and the allowance of secondary units in certain residential zones. Any future changes in regulations, zoning changes and development of housing will be subject to environmental review per the requirement of the CEQA, and subject to public review and hearings prior to implementation. There are no major changes to the goals and policies of the current 2002 Housing Element.	<b>MND</b>	06/18/2009
2009052066	New Life Church Vacaville, City of Vacaville--Solano NOTE: Review Per Lead  Construction of a church facility in 2 phases: Phase 1: 21,270 sf multi-use building and classrooms,	<b>MND</b>	06/18/2009

<b><u>Documents Received on Monday, May 18, 2009</u></b>			
	<p>Phase 2: 11,000 sf classroom building. Parking lot, water storage tank, storm water retention planter.</p> <p>There are no City utilities to serve this site and the City does not intend on providing utilities in the future.</p>		
2009051080	<p>City of Solvang General Plan Housing Element Update 2008-2014 Solvang, City of Solvang--Santa Barbara</p> <p>The Project is a City initiated General Plan Amendment to update the City's Housing Element as required by state law. The document quantifies the City's ability to meet and exceed the State's mandated allocation of 170 new housing units. The Housing Element update would potentially allow up to 456 new units at full build-out of the City. This new development would occur on existing vacant lots or land under the existing zoning. The proposed plan is intended to provide a range of housing types to meet the needs of all members of the community. Estimated build-out is based upon the maximum potential development allowable under the land use and zoning designations. Residential development sometimes does not build out to its fully allotted density due to site constraints, market conditions, etc. The goal for the residential build-out forecast is to provide a reasonable worst case for impact analysis and the planning services, while not over estimating potential development levels. The proposed plan document would include programs and policies to: Provide public information regarding housing opportunities; Encourage resident participation in City housing programs; Conserve and rehabilitate affordable housing units; Accommodate housing for special needs groups, such as seniors and the homeless; Amend ordinances and prepare incentives to encourage development of affordable living units; Amend ordinances to assist greater levels of affordability with the new development; and Assure consistency with State requirements for energy conservation, density bonuses and non-traditional housing.</p> <p>Update Goals, Policies, and Program Items reflect the current residents' desires for their city. The proposed Element is consistent with the other General Plan Elements.</p>	<b>Neg</b>	06/16/2009
2009051081	<p>Housing Element Update Buellton, City of Buellton--Santa Barbara NOTE: Review Per Lead</p>	<b>Neg</b>	06/18/2009
	<p>The proposed project is an update of the 2004 City of Buellton Housing Element. The Housing Element sets forth goals and policies that have been developed to encourage the preservation, production, maintenance, and improvement of housing in the City of Buellton. These goals and policies are designed to: Preserve and improve housing and neighborhoods; Promote the production of a diversity of housing; Provide adequate sites for a variety of housing types, Remove or mitigate constraints to housing investment; and Promote equal housing opportunity.</p> <p>The proposed Housing Element provides programs, policies and actions that together evidence the ability to meet the City's regional fair share of housing needs by the 2014. The number assigned to the City of Buellton pursuant to the Regional Housing Needs Allocation (RHNA) process is 279 new dwelling units. The RHNA allocation for the 2004 Housing Element required the City to provide 536 affordable dwelling units. The current Land Use Element dedicated land sufficient to meet this requirement, and as such, the City will have sufficient land</p>

	resources to achieve the new RHNA allocation for the 2009 Housing Element without the need to rezone additional land. In addition, through various implementing actions including density bonuses and application of the Affordable Housing Overlay Zone, the production of housing units in the City could exceed the City's RHNA allocation.		
2009052061	Acampo Arbor Mobile Home Park Condominiums San Joaquin County Lodi--San Joaquin A Major Subdivision to create a 173 unit condominium map within an existing 173 unit mobile home park.	<b>Neg</b>	06/16/2009
2005092041	Riolo Vineyards Specific Plan EIR (PEIR T20050185) Placer County Roseville--Placer The project proposes to develop a residential community which includes open space and recreational components. The Specific Plan provides a tentative subdivision map and related entitlements for future commercial and residential developments on parcels within the Plan area.	<b>NOD</b>	
2006111074	Old Creek Road Bridge Crossing Improvement Project Ventura County --Ventura The Operator intends to alter the streambed by replacing the existing Arizona type creek crossing with a multi-span bridge, to be built just north of the existing crossing. The bridge will be 210 ft long, and 25 ft wide. Cast in place post-tension concrete box girders with falsework and rock slope protection is required at the bridge abutments. One concrete bridge support column will be placed within the creek. The old crossings shall be removed when the bridge is completed. This project is important to allow steelhead passage, and is funded by grants.	<b>NOD</b>	
2008102001	Effluent Pipeline Project Galt, City of Galt--Sacramento The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement No. 1600-2008-0318-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Galt.  The City of Galt proposes to construct a bypass pipeline for treated effluent at its existing wastewater treatment plant (WWTP) to improve water quality prior to discharge into Skunk Creek. Only the downstream 50 lineal ft of construction will have the potential to temporarily disturb the existing channel. All new structures, other than the pipeline, will be constructed outside the area of potential impact. The pipeline will be connected above ground to one existing concrete structure within the channel.	<b>NOD</b>	
2008102056	Placer County Housing Element Update (PGPA T20080279) Placer County --Placer The project is a comprehensive update of the Housing Element adopted in 2003. The 7 1/2 year planning period is for January 1, 2006 to June 30, 2013.	<b>NOD</b>

<b><u>Documents Received on Monday, May 18, 2009</u></b>			
	San Diego State Historic Park. The work would consist of excavating a trench, approximately 6" wide, and approximately 24" deep for a total distance of 489 feet. This trench will parallel the existing buried cable offset approximately 2' to either side of existing cable, going to existing telephone service pedestal or handhole locations, and restoring the area.		
2009058042	Building 1200 Perimeter Drainage Repair - Beale AFB Regional Water Quality Control Board, Region 5 (Central Valley), Sacramento --Yuba The U.S. Air force proposes to construct drainage and Anti-Terrorism/Force (ATFP) improvements at Building 1200-Beale AFB. The project would involve installing ATFP walls, ATFP bollards, sidewalks, irrigation system, and river cobble of various sizes. The increased ATFP measures would enhance the protection to the facility's personnel and mission capabilities by controlling vehicular access to the facility and surrounding buildings. Enhancing the drainage would prevent water intrusion into the facility's below grade level.	<b>NOE</b>	
2009058043	Alderpoint Road P.M. 42.1 Culvert Replacement Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt A slipout occurred on Alderpoint Road at Post Mile 42.1 during the winter storms of 2005-2006. The slipout extends approximately 30 feet down the slope and is approximately 240 feet at its widest point below the roadway. The slipout surrounds an existing 18-inch diameter plastic culvert that conveys and intermittent stream under the roadway. The slipout caused damage to the roadway and shoulder, and also caused the culvert to separate. The purpose of the project is to repair the culvert, slipout and roadway. The project involves installation of a stabilization trench and subsurface drain pipe.	<b>NOE</b>	
2009058044	Mendocino Pass Road, P.M. 2.74, '05-06 Storm Damage Repair Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Covelo--Mendocino During the heavy winter storms of 2005-2006, high flows in Williams Creek eroded the toe of the embankment slope below Mendocino Pass Road at Post Mile 2.74 and the slope failed. The storm damaged area extends approximately 65 feet along the road shoulder and approximately 60 feet down the slope to the edge of the stream channel. The purpose of the project is to stabilize the embankment slope and restore the integrity of the roadway. The proposed project involves construction of a rock armor buttress to stabilize the embankment slope.	<b>NOE</b>	
2009058045	Canyon Creek Road Project, SAA 1600-2009-0080-R2 Fish & Game #2 --El Dorado Operator will grade and clear roadway above the active channel of West Canyon Creek Road and add clean, crushed rock to the roadway. Trees will be trimmed and small riparian vegetation (less than 6" diameter breast height) will be removed. Operator will cross (northwest) Canyon Creek with large equipment and realign the road in median of Canyon Creek and its overflow channel, in order to improve access during periods of high water.	<b>NOE</b>

2008111097	City of Ridgecrest 2030 General Plan Update Ridgecrest, City of California City, Lancaster, Barstow--Kern The Proposed Project is an update to the City's 1990 General Plan. This EIR will provide an assessment of the updated General Plan. The Proposed Project will include a Policy Document and an updated land use diagram. The City of Ridgecrest has direct land use jurisdiction over the incorporated city limits, which encompasses about 21.4 square miles. Approximately 9 square miles of the city limits lie within the boundary of the Naval Air Weapons (NAWS) China Lake. Although in the city limits, the area on NAWS China Lake is managed by the Navy, and the City does not exercise land use authority over this area. Development and planning within this area is managed by NAWS China Lake and the U.S. Navy. The Planning Area for the General Plan includes the city limits and unincorporated areas that bear relation to the planning of the community.	<b>EIR</b>	07/02/2009				
2008101155	Well No. 9 and Arsenic Treatment Project Mojave Public Utility District --Kern The work involves construction of a new replacement water well (Well No. 9) with an integrated arsenic treatment process. Also, the existing 8-in. transmission pipeline that joins the existing Well No. 7 and No. 8 to new Well No. 9 will be replaced. The pipeline will include one (1) encased crossing beneath the Union Pacific Railroad tracks. The new Well No. 9 will supply groundwater to residents within the Mojave Public Utility District service area. The project includes, but is not limited to one (1) new water well, necessary electrical equipment, necessary instrumentation equipment, water transmission pipeline, one (1) encased railroad track crossing and other appurtenances. Except the new encased railroad track crossing, all project improvements will be constructed on existing District property.	<b>FIN</b>					
2009032081	Yuba Community College District Sutter Facility Yuba Community College District Yuba City--Sutter The proposed educational facilities would consist of classrooms and college facilities (~50,000 sf) and district administrative facilities (~30,000 sf) for a total of 80,000 sf of built facilities.  YCCD estimates that ~77 staff (50 administrative and 27 teachers) would be employed at the new district offices. It is anticipated that the majority of the staff would be supplied by the local labor pool. The student population at the facility at any one time would be ~500 students in 18 classrooms. The facility would operate	<b>MND</b>	06/17/2009

	7 am-10 pm on weekdays and 7 am- 6 pm on Saturdays.		
	Access to the proposed project would be provided by 3 driveways along East Onstott Frontage Road. The project includes ~700 parking spaces.		
	Implementation of the proposed project would require off-site water and wastewater pipeline construction. The nearest City of Yuba City wastewater system pipelines, located along Pease Road, are not designed to accept additional flow from outside of the city limits. Pipelines within Pease Road near the project site flow to a lift station located at Manchester Way and East Onstott Frontage Road. In addition to extension of and possible upsizing of sewer lines, the lift station would require expansion of pump upgrades top accommodate increased flow. These improvements would occur within existing paved rights of way.		
2009051087	Smith Parcel Map and Conditional Use Permit San Luis Obispo County --San Luis Obispo Request by Evalena Smith for a minor agricultural cluster and vesting tentative parcel map (CO04-0275) to subdivide an existing 1,280 acre parcel into 7 parcels including 6 parcels of 20 acres each and one 1,160 acre buildable open space parcel, for the purpose of sale and/or development. The project will result in the disturbance of ~3,000 sf of a 1,280 acre parcel. The division will improve one existing on-site road. The proposed project is within the Agriculture land use category and is located at 9689 Carissa Highway (Highway 58).	<b>MND</b>	06/17/2009
2009052067	Kolev Residence Project Pacifica, City of Pacifica--San Mateo The proposed project consists of the development of a primary single-family residence and second unit 3 car garage on ~0.23 acre. The project would include site improvements such as the installation of a driveway and the associated culverting of ~25 lineal ft of an ephemeral drainage.	<b>MND</b>	06/17/2009
2009052068	Monte Cresta Drive Hillside Road Improvement Plan Belmont, City of Belmont--San Mateo The applicant is proposing an ~104 ft long, 2 lane extension of Monte Cresta Drive from its existing terminus ~1,000 ft northwest of Barclay Way, below (west of) All View Way in the San Juan Hills area of the City of Belmont. The site is currently an unimproved roadway/pathway primarily used by local residents as an open space recreational trail. The roadway extension has been designed to comply with the design standards of the City's Hillside Road Standards - San Juan Hills, as specified in Section 7-13 of the City Municipal Code Item (e) 4 through 9, as well as the Americans with Disabilities Act. The roadway would be a total of 38 ft in width, including two 10 ft wide travel lanes two 5.5 ft wide sidewalk. A 2 ft wide planter strip would be included on the east side of the new roadway. The roadway extension would be supported/protected by retaining walls on both sides, which will require an Encroachment permit from the City of Belmont. These walls would range from 2 to 6 ft in height. The project also would include access to 3 potential driveways, as well as underground extensions of water, storm sewer, sanitary sewer gas, and electric utility lines. It also would include street lighting. tHe project woul require cut and fill of 196 cubic yards of material, to be balanced on the site. Construction of the roadway would occur over a period of about 3 months.	<b>MND</b>	06/17/2009

	The roadway would provide access to 3 currently inaccessible residentially designated lots just west of the western terminus of Monte Cresta Drive (APN's 043-243-340, 043-165-170, 043-165-180). Two of those lots (west of the proposed new roadway) could potentially be developed with small houses (limited to 900 to 1,200 sf each, including garages) while the lot east of the proposed extension could be developed with an up to 3,300 sf house.		
2009051088	Housing Element Update 2009-2014 General Plan Amendment San Luis Obispo County --San Luis Obispo Request by the County of San Luis Obispo to update its Housing Element of the County General Plan per Government Code Sections 65580-65589.8. The Regional Housing Needs Plan adopted by SLOCOG requires the County to show it has enough land to accommodate 1,295 housing units from 2009-2014. The allocation is broken down by housing for the following income categories: 303 very low income, 21 low income, 241 moderate income, and 540 above moderate income units. The allocation is not a mandate to construct housing units, but ensures that adequately zoned sites are available to address anticipated housing needs. The County has achieved a portion of its allocation with housing units constructed, under construction, or approved since 2007. The Housing Element also includes an evaluation of the previous Housing Element, an inventory of land suitable for development to accommodate 1,295 housing units, a housing needs assessment, and a 5 yr schedule of actions to achieve the goal and objectives identified. The proposed project is countywide. County File No. : LRP2008-00005, Supervisorial District: ALL	<b>Neg</b>	06/17/2009
2009051089	Lamont Well 19 Lamont Public Utility District Lamont--Kern A new water well (Well 19) with possible arsenic treatment will be constructed in the stated location with an approximate capacity of 1500 gpm. This will require drilling and installation of the well, yard and street piping, electrical and instrumentation controls, an emergency generator and installation of a hydro-pneumatic tank. The well piping will include a dedicated pipeline extended east down Mountain View Road to connect to an existing well (Well 12), as well as a pipeline from the dedicated line to the existing Well 12 line for blending of water. Currently, Well 12 has an arsenic level of ~11.5, which exceeds the limit of 10. Well 19 will be designed to have a lower arsenic level and this blend of water will provide a clean and more reliable water source for the District.	<b>Neg</b>	06/17/2009
2009051090	Remedial Action Plan, Kinder Morgan Liquids Terminals, LLC (KMLT), Gaffey Street Terminal Site (Site) Toxic Substances Control, Department of --Los Angeles This Initial Study evaluates the environmental impacts from implementation of a proposed Remedial Action Plan and Feasibility Study, herein referred to the RAP and/or the Project. The Project is proposed on ~11 acres of land located at the southeast corner of North Gaffey Street and Gatton Street in the City of Los Angeles, County of Los Angeles, CA. The RAP was prepared in consultation with the DTSC, pursuant to Health and Safety Code Section 25356.1, and in accordance with the Voluntary Cleanup Agreement (VCA) executed between DTSC and Kinder Morgan Liquids Terminals, LLC (KMLT) on June 27, 2006. The anticipated schedule for implementation of the RAP is ~6 months. Following removal of the impacted soil and completion of confirmation sampling proposed	<b>Neg</b>	06/17/2009

	with the RAP, the excavation(s) at the site will be backfilled with clean fill, compacted, and graded to match existing grades in the surrounding area.		
2009051091	Bluffs Sewer Relocation Project Carpinteria Sanitary District Carpinteria--Santa Barbara The project involves abandoning ~6,250 linear ft of existing sewer pipeline along the edge of Carpinteria Bluffs and along Dump Road and partially removing manholes along the existing pipeline along Carpinteria Bluffs and along Dump Road. The existing 8 inch to 10 inch pipeline would be left in place. Approximately 4,800 linear ft of 12 inch polyvinyl chloride sewer pipeline would be installed within Carpinteria Avenue west of Carpinteria Creek. The proposed new pipeline would be located underneath the south side of Carpinteria Avenue, with the exception of ~1,000 linear ft Bailard Avenue that would traverse through a City of Carpinteria parcel and a Caltrans right of way. An existing inverted ciphon within Carpinteria Creek at Carpinteria Avenue would be abandoned and a new inverted siphon would be constructed.	<b>Neg</b>	06/17/2009
2009051092	Interim Measures Workplan for AOC Power Block 1-5, Rock Blotter Area, Moss Landing Power Plant, PG&E Toxic Substances Control, Department of --Monterey The Rock Blotter Area is located within Area of concern Power Block 1-5, at the Moss Landing Power Plant. The Rock Blotter Area measures 640 ft long and 50 ft wide and the eastern part of the Rock Blotter Area along the north side of the building is the focus of the proposed project. This portion measures ~365 ft long and 50 ft wide. The Interim Measure Workplan presents the remedial approach for excavation and removal of soil containing contaminants of concern total petroleum hydrocarbons and polychlorinated biphenyls (PCBs) based on the findings of the previous investigation. The total volume of soil anticipated to be removed from the site is ~2,109 cubic yards, which is equivalent to ~4,400 tons.	<b>Neg</b>	06/17/2009
2009031101	San Luis Obispo County Partners in Restoration (PIR) Permit Coordination Program Upper Salinas - Las Tablas Resource Conservation District (RCD) --San Luis Obispo The Partners in Restoration Permit Coordination Program is an initiative intended to facilitate the permit process for conservation and restoration efforts by providing programmatic permits for eligible conservation projects that will meet regulatory mandates. The Project includes 18 Conservation Practices along with a suite of Environmental Protection Measures and NRCS planning tools intended to improve water quality and enhance fish and wildlife habitats in San Luis Obispo County as detailed in the Mitigated Negative Declaration.	<b>Oth</b>	
2004012014	Rock Creek Ranch Specific Plan Mono County Paradise--Mono The project scope encompasses (a) a proposed General Plan Amendment to change the designation of the 54.7-acre site from Estate Residential to Specific Plan, (b) approval of the Specific Plan, (c) approval of Tentative Tract Map 37-56, (d) site improvements including water and power and sanitation facilities, and (e) construction of a total of 60 individual residential lots. All development on the site will be consistent with requirements of the Specific Plan.	<b>NOD</b>

Also included is the replacement of the transmission main connecting the new well to the District's existing wells.	<b>NOD</b>	
2009012005	Conditional Waiver of Waste Discharge Requirements for Discharges Resulting from Timber Harvest and Vegetation Management Activities in the Lahontan Region Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Modoc, Lassen, Plumas, Sierra, Nevada, Placer, El Dorado, ... This project involves revision of the existing Timber Waiver (Resolution No. R6T-2007-0008) by the adoption and implementation of a Board Order that will continue to conditionally waive waste discharge requirements for specified discharges associated with timber harvet activities within the Lahontan Region.	<b>NOD</b>	
2009032002	Dowd Road Bridge Over Yankee Slough Bridge Replacement Project Placer County Lincoln--Placer This project consists of replacing the existing reinforced concrete slab bridge with a single span precast prestressed voided concrete slab bridge. The new bridge and roadway approaches will accommodate 2 lanes of traffic and will improve traffic operations for the existing 2 lane roadway.	<b>NOD</b>	
2009032088	San Joaquin Flood Protection Project, Five Critical Erosion Sites, San Joaquin River, RM 41.4L,42.1R,42.5R Water Resources, Department of Stockton, Manteca--San Joaquin Repair under DWR San Joaquin Flood Protection Project of 5 critical erosion sites located along the banks of the San Joaquin river in san Joaquin County at RM's 41.4L, 42.1R, 42.5R, 42.8R(a&b) and 71.5R. Repair will involve rebuilding eroded slopes with quarry stone, creating riparian and emergent planting benches, incorporating agricultural soils into rock slops and as soil layer over rock, planting of native grasses, shrubs and were possible riparian trees, imbedding rootwads for fish benefit at RM 71.5. RM 42.1 repair is simple regrouting of slope beneath Hwy 5 Bridge.	<b>NOD</b>	
2009042010	Hurd Barrington Elementary School Newman Crows Landing Unified School District Newman--Stanislaus Hurd Barrington Elementary is a proposed K-5 elementary school site. The 10 acre campus is master planned for 600-700 students. The project consists of 23 classroom, administrative space, multi-use/cafeteria, supporting services, playfields and parking areas. The project is Newman Crows Landing USD's first elementary school campus on the east side of Highway 33. The project will reduce overall busing for the district. The majority of the students will be residing within 1.5 miles of the campus.	<b>NOD</b>

2009052069	Z08-0004/TM08-1466/Blackhawk Estates El Dorado County --El Dorado Rezone from AE to RE-5 and RE-10. A tentative subdivision map creating 9 lots, ranging in size from 5 acres to 11.5, on a 74.38 acre site.	<b>MND</b>	06/18/2009
2009052072	California State University Stanislaus Photovoltaic Project California State University Trustees Turlock--Stanislaus Install photovoltaic systems on the roof tops of 4 buildings and parking canopy photovoltaic systems in 2 parking lots on the CSU Stanislaus campus.	<b>MND</b>	06/18/2009
2009052073	Parkmerced Project San Francisco, City and County of San Francisco--San Francisco The Parkmerced Project is a long-term mixed use development program to comprehensively re-plan and redesign the Parkmerced site, increase residential density, provide new commercial and retail services and transit facilities, and improve utilities within the development site. About 1,683 of the existing apartments located in 11 tower buildings would be maintained, and over a period of 30 years, the remaining 1,538 existing apartments would be demolished in phases and fully replaced, and an additional 5,679 net new unit would be added to the Project Site. With project implementation, there would be a total of 8,900 units on the Project Site. New neighborhood-serving retail and office space, retail uses, a new Pre K-5 school and day care facility, fitness center, as well as new open space uses, including athletic fields, walking and biking paths, an approximately 2-acre organic farm, and community gardens are planned. The Proposed Project includes construction of (or provides financing for construction of) a series of traffic and infrastructure improvements, including Muni realignment, designed to reduce the amount of automobile traffic originating from Parkmerced, and to improve traffic flow on adjacent roadways such a 19th Avenue and Brotherhood Way. A combination of renewable energy sources, such as wind turbines and photovoltaic cells, would be used to meet a portion of the Proposed Project's energy demand. In addition, stormwater runoff from buildings and streets would be captured and filtered through a series of bioswales, ponds, and other natural filtration systems. The filtered stormwater would then either percolate into the groundwater that feeds the Westside groundwater basin and Lake Merced or be released directly into Lake Merced. This feature of the Proposed Project would reduce the amount of stormwater flows directed to the Oceanside Water Pollution Control Plant and reduce combined sewer overflows to the ocean, and potentially help to increase and improve water levels in Lake Merced. Amendments to the San Francisco Planning Code and the San Francisco General Plan would be needed. The Planning Code amendments would change the Height and Bulk District Zoning Map and would add a Specific Use District (SUD) applicable to the entire Project Site. A Development Agreement is also proposed, which would be accompanied by a Design for Development document containing specific development guidelines.	<b>NOP</b>	06/18/2009

<b><u>Documents Received on Wednesday, May 20, 2009</u></b>			
2009012066	Del Norte County-General Plan Amendment to County Housing Element Del Norte County Unincorporated--Del Norte The subject project is the mandated revision of General Plan Housing Element for 2008-2014 as required by California Government Code Section 65580. This State statute requires the adoption of a revised Housing Element by 08/30/09. The draft Housing Element has been sent to the State Housing and Community Development Department for review and comment. The revision includes an assessment of housing activity since 2002, an analysis of current and projected housing needs in the community and programs to address identified needs.	<b>NOD</b>	
2009021060	Inclusionary Housing Ordinance Amendment Santa Barbara, City of Santa Barbara--Santa Barbara Amend the Inclusionary Housing Ordinance (IHO) that already applies to projects with 10 or more units, to apply to projects with from 2 to 9 units. An in-lieu fee of \$17,700 per market rate unit included in the project (payable prior to occupancy for 2 through 4 units), would be charged when an affordable unit would not be provided as part of the project. The ordinance would also state that where 1 to 4 units are proposed the first unit would not be required to pay the in-lieu fee. The requirement for a lot area modification for inclusionary housing would be eliminated. The in-lieu fee could be used for purchasing and reselling of existing middle and upper middle income housing, subsidizing the creation of middle and upper middle income housing, and ensuring compliance with middle and upper middle income housing policies and procedures. Approval of the proposed amendment to the IHO itself would have no direct adverse impacts on the environment because it is a change in the requirements for exactions when projects including from 2 to 9 units are approved.	<b>NOD</b>	
2009042019	Public Works Well #12 Construction Project Patterson, City of Patterson--Stanislaus Construction and installation of a City owned water well, with a turbine pump housed in a masonry building. The completed project consists of drilling a test well and a production well, construction of the well housing structure (pump house ~20'x30'), appurtenances consisting of piping, electrical transformer, back-up power, site fencing, and access. The site is ~ 1/2 to one acre in size with connections to transmission lines located in Sycamore Avenue.	<b>NOD</b>	
2009042020	Public Works Well #13 Construction Project Patterson, City of Patterson--Stanislaus Construction and installation of a City owned water well, with a turbine pump housed in a masonry building. The completed project consists of drilling a test well and a production well, construction of the well housing structure (pump house ~20'x30'), and appurtenances consisting of piping, electrical transformer, back-up power, site fencing, and access. The site is ~1/2 to one acre in size with connections to transmission lines located in Sycamore Avenue.	<b>NOD</b>

2007041074	Otay Ranch Eastern Urban Center Sectional Planning Area and Tentative Map Chula Vista, City of Chula Vista--San Diego The project includes the implementation of the EUC Sectional Planning Area (SPA) Plan and Tentative Map. The proposed project also contains 3 off-site components, including the Soils Stockpiling Area (SSA), an ~59 acre site immediately to the south of the EUC; the Salt Creek Sewer Lateral (SCSL) Improvement Area, a 1.44 acre site located ~1.1 mile to the east of the EUC; and the Poggi Canyon Sewer Improvement (PCSI) Area, an in-street sewer line improvement in the Olympic Parkway right-of-way at Brandywine Avenue. The proposed EUC SPA Plan would result in the development of a maximum of 2,983 multi-family residential units; a maximum of 3.487 million sf of non-residential floor area; ~16 acres of urban parks; a 5 to 6 acre elementary school site; an ~1 acre fire station site; and ~30 acres of street right-of-way. The off-site components of the project involve short-term construction activities, only. The SSA would receive fill soils from the EUC under one of the SPA Plan's 2 grading options; the SCSL Improvement involves installation of 173 ft of 15 inch diameter sewer line and 2 additional manholes on the existing Poggi Canyon Sewer line. The EUC SPA Plan is consistent with the City of Chula Vista General Plan and Otay Ranch General Development Plan. Approval of the proposed project would require adoption of the proposed Village EUC SPA Plan, which includes a Form Based Code (FBC) and required SPA Plan components, and a tentative map and certification of the Final EIR.	<b>EIR</b>	07/06/2009

2007041112	Columbia Square Los Angeles, City of --Los Angeles PPD Gower I, LLC, the Project Applicant, proposes to develop the Columbia Square Project in the Hollywood community of the City of Los Angeles. The 4.68 acre project site is generally bound by Selma Ave to the north, Gower Street to the east, Sunset Boulevard to the south, and El Centro Ave to the west. The project would provide 400 residential units, a 125 room hotel, ~380,000 sf of office space, and 41,300 sf of retail and restaurant/bar uses (including restaurant/bar uses in the hotel). Included within these project uses is ~105,510 sf of the 136,233 sf Columbia Square Complex that would be rehabilitated to provide for ~91,110 sf of office uses and 14,400 sf of retail and restaurant/bar uses. In addition, a substantial part of the project would include landscaped courtyards and pathways and other open space features connecting the various proposed uses that would establish a more pedestrian-oriented environment within the project vicinity. The project would also include a 9 level parking facility (including 3 subterranean levels) with ~2,004 parking spaces. Construction of the project would occur over ~48 months from the start of grading and excavation activities to the receipt of certificates of occupancy. Approximately 190,000 cubic yards of soil would be exported.	EIR	07/06/2009
2007121012	Verdugo Hills Golf Course Project Los Angeles, City of Los Angeles, City of--Los Angeles NOTE: Review Per Lead  The proposed project would construct 229 single family detached units on a project site of approximately 58 acres. The homes will be two stories in height, with four bedrooms, and would have an average floor area of approximately 2,200 square feet. Each unit will have a two car garage, in addition the project will provide 1/4 guest parking space per unit for a total of 57 guest spaces. Approximately 25 acres of the 58-acre project site are currently developed with a golf course and supporting uses, all of which are proposed to be demolished. The proposed homes would be constructed on that portion of the project site occupied by the golf course. The remaining portions of the project site would be retained as open space.	EIR	07/20/2009
2008032044	Merged Waterfront Project Area Project Stockton, City of Stockton--San Joaquin The City of Stockton Redevelopment Department has completed, independently reviewed, and analyzed the following Draft Environmental Impact Report (DEIR): SCH2008032044 for the Merged Waterfront Redevelopment Project Area Project. Which would (1) merge the Amended West End, Port Industrial, and Rough and Ready Island Redevelopment Plans into a single Redevelopment Plan for the Waterfront Merger Project Area, (2) extend the effectiveness of the West End Redevelopment Plan by ten years for the West End Urban Renewal Project No. 1 Project Area, (3) expand the Rough and Ready Island Project Area by adding three industrial parcels, or approximately 31.92 acres, (4) update and consolidate the list of public improvements listed in the Amended Redevelopment Plan, and (5) increase the financial limits established in the three current adopted Redevelopment Plans for all portions of the Merged Project Area.	FIN

2009051095	<p>Penmar Water Quality Improvement Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The City of Los Angeles is proposing to construct a stormwater diversion structures at the Rose Avenue storm drain, primary and secondary pump station systems, a pretreatment system to screen trash, sediment, oil and grease; an underground detention reservoir, and three force mains for flow conveyance. As sewer capacity allows, a portion of the flow, including dry weather flow, would be diverted to the sanitary sewer and ultimately to the Hyperion Treatment Plant. Another portion of the wet weather flow would be diverted to the underground reservoir where it would be held for ~72 hrs after a storm event passes and then discharged at a controlled rate to the sanitary sewer. The project also includes minor sanitary sewer upgrades southwest of Penmar Recreation Center. Phase II of the project would provide further treatment for beneficial use for landscape irrigation at Penmar Golf Course, Penmar Recreation Center and/or Marine Park.</p>	<b>MND</b>	06/19/2009
2009052074	<p>Use Permit Application UP-2-07 and Parcel Map PM-4-07, Rancho Road/Shasta View Drive Shopping Center, by Lewis Pipgras Real Estate Partners Redding, City of Redding--Shasta</p> <p>The project proponent, Lewis-Pipgras Real Estate Partners, is requesting approval for construction of a 92,200 sf shopping center on 10 acres at the northwest corner of Rancho Road and Shasta View Drive. The shopping center will consist of a 60,000 sf grocery store and 6 retail pad buildings, 2 with drive-through service, consisting of 32,200 sf.</p>	<b>MND</b>	06/19/2009
2009052075	<p>WCCUSD Fairmont Elementary School Expansion Project West Contra Costa Unified School District --Contra Costa</p> <p>The installation/use of 5 additional/new ADA-compliant portable classrooms at Fairmont ES placed adjacent to Kearney St. to house up to an additional 150 students. Accommodate the needs of Special Education students and the programmatic needs of Full Inclusion Program, while providing maximum flexibility to accommodate standard education student needs. Projected increase in enrollment from 330 students up to 480 students in School Year 2009-10. Installation of new active recreation play structure to replace an existing play structure and other modifications to tetherball, basketball, and kickball areas. No proposed changes to existing circulation at Fairmont ES and vicinity. The aforementioned installation, modifications, and other site work would occur August 2009, and would be available for use during the 2009-10 School Year.</p>	<b>MND</b>	06/19/2009
2009052076	<p>Fairfield-Suisun Sewer District Wastewater Treatment Facility Ultraviolet Disinfection Upgrade Project Fairfield-Suisun Sewer District Fairfield--Solano</p> <p>The FSSD Wastewater Treatment Plant Ultraviolet Disinfection Project involves the conversion of the current chlorine disinfection system to a state of the art UV disinfection system. The conversion will improve the disinfection system and eliminate the production of chlorine byproducts at the WWTP. The existing chlorine contact basin will remain on-site; however, a new UV system will be installed and the filtered effluent will be treated through the UV system prior to discharge. The proposed project will not increase the WWTP capacity; instead its purpose is to improve effluent water quality.</p>	<b>MND</b>	06/19/2009

	would maintain the arch and stone base design of the existing Bowl. The proposed project also includes tree removal, including mature Coast Live and Valley Oaks, as well as habitat restoration and tree replacement.		
2009051096	Calavo Street Light Industrial Subdivision Santa Paula, City of Santa Paula--Ventura Proposed subdivision of a 5.192 acre parcel into 4 lots ranging in size from 41,567 sf to 65,735 sf and construction to two 19,687 sf single story light buildings. The proposed project will be developed in two phases with one building on each of the two northernmost parcels. The remaining 2 parcels will remain vacant and be constructed at a later date. This is an existing, undeveloped site, which has been previously graded as part of an Industrial Park.	<b>Neg</b>	06/19/2009
1998101061	Lower Mission Creek Flood Control Santa Barbara, City of Santa Barbara--Santa Barbara Component 6 is a part of the larger Lower Mission Creek Flood Control Project, and will reconstructed a portion of Lower Mission Creek to improve flood flow conveyance, reduce erosion, and improve water quality. Component 6 involves removing old and various forms of bank revetment, widening the creek channel, increasing channel capacity to ~3,400 cubic ft per second, and providing an ~20 yr level of flood protection. Natural channel banks will be constructed and stabilized, where feasible. A structure near Mason Street may be removed as part of the Project, and a lagoon will be constructed in its place. The Project also includes removing non-native plants, plating riparian vegetation, and constructing goby refuges, fish ledges and fish baffles.	<b>NOD</b>	
2009021091	Location and Development Plan 07-22 Adelanto, City of Adelanto--San Bernardino The proposed project is for the construction and operation of a Ready Mix Cement Batch Plant 6.26 acres of land in the Manufacturing/Industrial Zone.	<b>NOD</b>	
2009022094	114 7th Street Mixed-Use Project San Francisco, City and County of --San Francisco This project involves the installation of a removable river pump in the Calaveras River. The construction involves excavating ~24.66 cubic yards of soil and covering it with a 18.8 cubic yards rip-rap to protect the bank from winter erosions. Approximately 0.48 cubic yards of concrete will be used to place a 4'x4' concrete slab foundation on the river low flow access road to mount the removable river pump, removable hose, and self cleaning screen during irrigation season. A 12" irrigation outlet with a quick release will be placed on the North river bank to connect the farmers existing irrigation line to the 12" removable hose and removable river pump.	<b>NOD</b>	
2009031080	Arsenic Remediation in City Well No. 15B Chino Hills, City of Chino--San Bernardino The proposed project will reduce arsenic levels in the well to conform with State drinking water standards. It consists of construction of a single horizontal filter vessel (totaling 5 cells). Influent water is dosed with various chemicals which cause arsenic to precipitate out. Sludge is dewatered, treated with a polymer to densify, and removed to a waste storage container. Treated water may be dosed	<b>NOD</b>

	Conditional Use Permit limitations of the MCC: membership is limited to 680 members; the Club is open 7 days a week from 7:00 am to 9:30 pm (closed Christmas and New Year's Day). The total construction period, including demolition, construction and turf growin time, is expected to be ~1 year.		
2009051102	New Long Beach Courthouse Administrative Office of the Courts Long Beach--Los Angeles The Administrative Office of the Courts proposes acquisition of parcels, construction of a new 31 courtroom courthouse with space for County of Los Angeles offices, commercial offices, and retail space modification of an existing parking garage; and operation of the courthouse for the Superior Court of California, County of Los Angeles. The new courthouse will replace the court's current 27 courtroom facility. The new courthouse will have ~40 parking spaces for the Superior Court and additional parking for the commercial and retail tenants. The proposed courthouse parcel is adjacent to other local government buildings, and the site is currently vacant. In exchange for the proposed courthouse's parcel, the Redevelopment Agency of the City of Long Beach will acquire the existing courthouse's parcel (415 West Ocean Blvd.).	<b>MND</b>	06/22/2009
2009052078	Bank Stabilization Work on San Mateo Creek Hillsborough, City of Hillsborough--San Mateo Bank stabilization work on eroded sections of San Mateo Creek.	<b>MND</b>	06/22/2009
2009052080	Eric and Rebecca Linser PLP08-0008 Sonoma County Sebastopol--Sonoma Request for a zoning permit with environmental review and administrative design review for new single family dwelling unit and a 776 sf second unit on a 6.2 acre parcel within the BR zoning district and in a groundwater area 3.	<b>MND</b>	06/22/2009
2009052081	Arroyo Parcel Map; Pacrel Map (PM 2008-03) Calistoga, City of Calistoga--Napa The property owner is requesting approval of a tentative map to subdivide a 9.70 acre parcel into 4 residential lots ranging in size from 2.18 to 2.54 gross acres. Vehicular access will be provided via a new 20 ft wide private roadway, within a 56 ft right of way. A seperate 20 ft wide gravel emergency vehicle access (EVA) will provide secondary access from the terminus of the private roadway back to Grant Street around the rear perimeter of proposed Parcels A and B with easement extending across APN 011-390-028. The new private roadway, the EVA and utilities (water lines, septic systems, and low and high voltage cables) will be installed over time as the first parcel in the subdivision develops. Immediate improvements will include roadway improvements, a 5 ft meandering asphalt and storm drainage improvements along the Grant Street frontage of those parcels known as APN 011-390-028, -029, -036, -035. It is also anticipated that the City will call several deffered improvement agreements affecting neighboring parcels along Grant Street (APN 011-390-015, -016, -018), requiring that the roadway improvements, 5 ft pathway and storm drainage improvements be extended along the Grant Street frontage west to the intersection of Greenwood and east ~433 ft of the Garnett Creek Bridge. Other than these Grant Street and frontage improvements no immediate development of any of the lots is proposed to occur at this time; the vineyard is proposed to remain in production.	<b>MND</b>	06/22/2009

	has struggled for years in an attempt to match funding for an SRF grant. <ore recently Proposition 50 funding may be available to help achieve the match funding allowing a full grant. Time is of the essence to secure this new funding. DPUD water system is ranked in Category C on the SRF Priority List due to the unfiltered surface water.		
2009058127	Construct Portable Water Storage / Detention Tank Downieville Public Utility District --Sierra Increase CT factor: Due to the close proximity of users to the treatment plant, the DPUD has not been able to meet CT requirement for the required 2-log giardia removal (60 for summer minimum). The proposed project will solve that problem and bring the District into compliance with CT factor requirements.	<b>NOE</b>	
2009058128	Firehouse Sewer Pump station Replacement Project Olivenhain Municipal Water District San Diego--San Diego The Firehouse Sewer Pump Station Replacement project consists of the replacement of an existing prefabricated sewer lift station which pumps raw sewerage to the 4S WRF for treatment. Constructed in the early 1980s, the sewer lift station has experienced numerous mechanical and electrical failures which has the potential to impact both customers and the environment due to sewage spills. The pump station has reached the end of its serviceable life and is in need of immediate replacement. Replacing this failing pump station will provide safety to local homeowners, protect environmentally sensitive habitat located adjacent to the station, and maintain reliable wastewater collection service to customers in the District.	<b>NOE</b>

	feet would be medical office), a 2,700 seat theater complex, a 45,000 net square foot gym and 285,000 net square feet of shopping center which is broken down as follows; 140,000 net square feet of retail, 100,000 net square feet of restaurant space, and a 45,000 net square-foot market. Development would range from a minimum of one-story to a maximum of seven stories in order to spread density around the site and maintain lower profiles around site edges, specifically adjacent to residential uses to the north and northeast. The project is intended to create a "village" like setting that includes using low-rise rooftop spaces for pedestrian plazas, amenities and circulation, and a trolley that runs through the middle of the project. A transit park would also be developed with the intention of connecting to an extension of an existing DASH route and Orange Line Busway, providing direct transit access to the San Fernando Valley and greater Los Angeles area as well as to an existing MTA bus route connecting the project to Warner Center and the City of Burbank Business District. Subterranean parking for 3,312 vehicles is proposed, requiring excavation of approximately 592,000 cubic yards to material to create 3-4 levels of subterranean parking. As with the current site, access would be from Vicotry Boulevard at Ethel Avenue. A second access would be provided off Victory Boulevard at the eastern property boundary.		
2009051104	San Miguel CO. LLC Tract Map and Conditional Use Permit San Luis Obispo County --San Luis Obispo  A planned development that will subdivide 2 existing parcels of .9 acres each into 20 parcels ranging in size from 2,500 sf to 11,280 sf each for the purpose of sale and development of 20 mixed use buildings. The mixed use buildings will include a combination of commercial retail, office and residential uses and will range in size from ~2,000 to 5,550 sf, for a total of ~67,700 sf.	<b>MND</b>	06/24/2009
2009051105	Wood Minor Use Permit San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Craig and Sheri Wood for a Minor Use Permit to allow the establishment of a wine processing facility with an estimated case production of 5,000 cases annually. The project will include the conversion of 2 existing agricultural building of 3,500 sf and 3,000 sf each into wine processing and barrel storage and construction of 2 additional 3,000 sf barrel storage buildings and a 1,500 sf covered crush pad. There is no public wine tasting or special events proposed. The project will result in the disturbance of ~12,000 sf on a 63.2 acre parcel.	<b>MND</b>	06/24/2009
2009052082	Kelly Sassarini and Dana Reed Tentative Parcel Map and Zone Change (TPM-08-08/Z-08-10) San Luis Obispo County Montague--Siskiyou The applicant requests Zone Change (Z-08-10) and Tentative Parcel Map (TPM-08-10) approval to rezone the project site from the Planned Development District to the Non-Prime Agricultural, 20 acre density zone district, and to subdivide the 61.4 acre project site into a 30.0 acre lot (Parcel 1) and a 31.4 acre lot (Parcel 2). Sewage disposal services would be provided by individual on-site septic systems. Water services would be provided by an on-site domestic well.	<b>MND</b>	06/24/2009

2001061106	Proposed Amendments to APCD Rule 74.2, Architectural Coatings Ventura County Air Pollution Control District --Ventura Proposed amendments to APCD Rule 74.2 are designed to further reduce Reactive Organic Compound (ROC) air pollution from the use of architectural paints.	<b>NOP</b>	06/24/2009
2009051103	City of Los Banos Housing Element Update Los Banos, City of Los Banos--Merced The 2009 Housing Element Update is a statement by the City of Los Banos of its current and future housing needs. The purpose of the Housing Element is to establish goals, policies and programs that address identified housing needs. The Housing Element has been prepared to meet the requirements of State Law (Section 65580-65589.8 of the Government Code) and community objectives as stated in the General Plan and analyzes housing needs and resources and constraints to meet the needs of the community.	<b>Neg</b>	06/24/2009
2009052088	City of Dixon 2009 Housing Element Dixon, City of Dixon--Solano NOTE: Shortened Review  The 2009 Housing Element is the City's policy document guiding the provisions of housing to meet future needs for all economic segments of Dixon, including housing affordable to lower-income households. The City of Dixon Housing Element is based on 4 strategic goals: (1) creating housing opportunities for current and future residents, (2) preserving neighborhoods and improving the housing stock, (3) addressing special needs groups, and (4) encouraging energy conservation. Dixon recognizes the need for additional housing affordable to very low-, low-, and moderate-income households as the population grows and the need to accommodate existing residents who do not have suitable, affordable housing.	<b>Neg</b>	06/15/2009
1992101099	TM5139 RLP6R/ Sunroad Centrum Industrial/ Commercial Subdivision San Diego County Otay--San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (SAA #1600-2008-0103-R5) to the project applicant, Corrections Coporation of America. The applicant proposes to alter the stream to accommodate construction of the Otay Mesa Corrections Facility Project. The project would permanently impact ~1,075 linear ft (0.02 acre) of streambed by filling and grading. Approximately 146 linear ft of the on-site streambed would be avoided and would remainf in its natural condition. The remainder of the drainage would be re-routed tot he north side of the proposed buildings, then south along the east side of the northernmost detention basin, after which it would outfall at the western property boundary into the natural channel.	<b>NOD</b>

<b><u>Documents Received on Tuesday, May 26, 2009</u></b>			
2009058134	Sierra Conservation Center (SCC) Filtration Project Corrections and Rehabilitation, Department of --Tuolumne The proposed project will design and construct additional filtration capacity for the existing water supply treatment facility at SCC. The project will construct two structures at the existing water plant; a steel tank and a steel filtration unit. New piping will be installed to connect the new components and provide electric power, which will require some trenching in the treatment facility yard. The additional filtration-sedimentation equipment will be used to supplement the existing filtration equipment that is overloaded during high turbidity events. Currently, the institution is forced to perform excessive backwashing during these events to the point that the volume of wastewater from the backwashing limits the portable water that can be supplied.	<b>NOE</b>	
2009058135	Install Outdoor Safety Lighting Parks and Recreation, Department of --San Luis Obispo Install Pagoda style outdoor safety lights along the roadside on the southern perimeter on Hearts San Simeon State Historic Monument for pedestrian safety. Work will excavate a trench up to 500 feet long approximately 18 inches deep and 12 inches wide and then place a ½ inch PVC electrical conduit in the trench. Additional work will install up to 25 Pagoda lights along the trench, spaced approximately 20 feet apart and anchor each two-foot tall Pagoda light in approximately 1.6 cubic feet of concrete and backfill the trench with the excavated soil.	<b>NOE</b>	
2009058136	Temporary Bridge Installation Parks and Recreation, Department of --Monterey Install temporary, portable bridge at the Lodge Bridge River crossing at Pfeiffer Big Sure State Park to replace bridge that was removed in 2008 and to enable visitor and DPR personnel access to park campground. Prepare the two existing bridge abutments by cleaning surface and reconstructing the top of each abutment with concrete and rebar to form a flat, approximately 3 foot (ft) wide by 20 ft long surface for placement of bearing plates. Assemble bridge sections on nearby paved park roadway and install sections on abutments using cables, a crane, and counterweights. Remove approximately 50 ft of asphalt roadway on either side of the bridge and replace with aggregate road base to elevate the roadway up to the level of the bridge deck. Re-pave roadway with AC and place protective barriers consisting of t-post and plastic no-climb fencing along the road edge.	<b>NOE</b>	
2009058137	Roll-Up Security Grille Installation Parks and Recreation, Department of Monterey--Monterey Install five (5) roll-up grilles at Mott Training Center Annex at the Monterey District Headquarters to improve building security. Construct wall infill by attaching wooden stock to existing opening using screws and associated hardware on either side of the workshop entrances that are open to the outdoors. Attach aluminum track to the walls and install three 16' wide X 8'5" high and two 8'6" wide X 13' high natural-colored, aluminum grilles that will cover the workshop entrances.	<b>NOE</b>

	areas (247.08 acres) and file a cancellation for a portion of those buffer areas (89.81 acres), and; (F) record a Redundant Deed or Lot Line adjustment to merge the multi-parcel site into one.		
2005101018	Tejon Mountain Village by TMV, LLC Kern County --Kern The project includes adoption of the Tejon Mountain Village Specific and Community PPlan and the Tejon Mountain Village Special Plan to implement the proposed zoning. Implementation of the project would allow for the development of up to 3,450 residential units ranging in lots sizes from 2,400 sf to over 20 acres, up to 160,000 sf of commercial development, up to 750 hotel/resort lodgin units, two 18 hole golf courses and additional support facilities.	<b>EIR</b>	07/10/2009
2006091069	City of Santa Maria Intergrated Waste Management Facilities Project Santa Maria, City of --Santa Barbara The proposed project involves the construction and operation of a modern Class III lined landfill on a 1,774 acre site with ~90 years of capacity. The project includes construction of a new composting facility/area, support facilities (including a scale house and scales, an equipment shop, landfill offices, and access roads), and environmental controls at the Intergrated Waste Management Facility site, coordinated with the previously permitted construction of a transfer station at the existing Santa Maria Regional Landfill.	<b>EIR</b>	07/10/2009
2007041068	EIR03-07 Specific Plan Amendment No 66 Map 101 Adoption of Specific Plan Line for Reina Road (SpecificPlanAmendmentNo67Map101v.ZoneChangeNo160Map101Exclusion Kern County Bakersfield--Kern The project consists of two parcels totaling approximately 76 acres to be subdivided into 253 lots of low-density residential development and a 2 1/2 acre parcel for the establishment of a drill island to accommodate the extraction of petroleum resources. Discretionary actions include: (a) an amendment to the Western Rosedale Specific Plan from Map Code R-1A (Resource-Intensive Agriculture) to LMR (Low-Medium-Density Residential) (SPA 66, Map 101); (b) adoption of a Specific Plan Line for Reina Road between Rudd Road and Santa Fe Way (SPA 67, Map 101); (c) a change in zone classification from A (Exclusive Agriculture) to R-1 (Low Density Residential District) and DI (Drilling Island) or more restrictive districts (ZC 160, Map 101); (d) Exclusion of approximately 76-acres from the boundaries of Agricultural Preserve No. 9; and (e) approval of Tentative Tracts 6812.	<b>EIR</b>	07/10/2009
2009044003	Santa Maria River Levee Improvement Project U.S. Army Corps of Engineers Santa Maria--Santa Barbara, San Luis Obispo Corps has chosen to strengthen an ~6.5 mile reach of the existing south levee with sheet pile and soil cement revetment in order to address this deficiency. As currently designed, soil cement would be applied to the levee face and levee toe along the majority of the proposed Project reach (~6.2 miles), and would translation to sheet pile for the remaing 1,700 ft of the Project area (the upstream extent of the Project area at Bradley Canyon).	<b>FON</b>

2009051110	General Plan Amendment (GPA 08-02) and Change of Zone (COZ 08-02) El Centro, City of El Centro--Imperial The project consists of General Plan Amendment to change the land use designation from Rural Residential to General Commercial and a Change of Zone from Rural Residential to Neighborhood Commercial, for a 4.15 acre property located at 3103 South Fourth Street (Highway 86). No plans for development on the site are proposed at this time. When future development is proposed, plans will be submitted for a Site Plan Review and approval.	<b>MND</b>	06/25/2009
2009051111	CUP 08-03 for the Surya Enterprises Project at 502 E, Wake St and 2389 South Weakley St El Centro, City of El Centro--Imperial The project proposes construction of a Candlewood Suites hotel, La Quinta Inn, filling station, and drive-through restaurant in order to accommodate continued growth and to attract tourism to the city of El Centro. A Conditional Use Permit (CUP 08-03) is requested for these proposed improvements within the General Commercial Zonings. The CUP is also required because the hotel's proposed height would exceed the height limit of 35 ft.	<b>MND</b>	06/25/2009
2009051112	CUP 16, Map 57 (PPO9253) Kern County McFarland--Kern The applicant is requesting a Conditional Use Permit for the processing, temporary storage and transfer of up to 100,000 tons of non-hazardous combustion byproducts (flyash) per year. Up to 500 tons per day of coal-fired and bio-mass fired fly and bed ashes would be received at the facility and processed as necessary to render them more acceptable for beneficial uses and less problematic for handling and temporary storage. Flyash would be received from several source plants, including Rio Bravo Poso, Rio Bravo Jasmin, Mt. Poso Cogeneration and Covanta Delano Energy. Calash would receive the various ashes in both dry and moisture conditioned states. The coal ash would be processed through a pug mill to render it moisture conditioned. Bio-mass ash would be conditioned at the source plant and would be received and stockpiled only at the project site. Bed ash sands would be occasionally brought to the site and would either be temporarily stockpiled for reshipments or would be processed through rented CARB registered portable screens systems to achieve acceptable gradations for sale applications. The processed flyash would then be reshipped to customers primarily in the agricultural, dairy, waste disposal, oilfield service and construction industries. Then entire 10 acre project site would be paved with asphalt. The site would operate from 6 am to 6 pm, Monday to Friday, and possibly on weekends. The site would employ one site operations manager, 2 site equipment operators, 8 full time truck drivers and other seasonal personnel as needed.	<b>MND</b>	06/25/2009
2009052090	Boyce Road Lift Station Project Union Sanitary District Fremont--Alameda NOTE: Review Per Lead  Union Sanitary District's Boyce Road Lift Station was constructed in 1959 and suffers from various limitations which makes its replacement necessary. 	new facility on adjacent lands.		
2009052092	<p>Eastern 69-kV Subtransmission Line Relocation and Substation Project Sacramento Municipal Utility District Folsom, Rancho Cordova--Sacramento</p> <p>The proposed project would relocate 69-kV subtransmission lines that would provide electrical service to new proposed Prairie City and Easton Valley-Birkmond substations. The new substations would step down 69-kV power to 12-kV for residential land commercial service to support the existing customer, Aerojet General Corporation, and the 2 new proposed Easton communities, Easton Place and Glenborough at Easton, located within the Aerojet Special Planning Area in Sacramento County. The proposed project is composed of several phases that include relocation and construction of about 6.6 miles of 69-kV subtransmission line, and construction of 2 new substations - the Prairie City and Easton Valley-Birkmond substations. The entire proposed project would be located on Aerojet property within a permanent easement/right-of-way.</p>	<b>MND</b>	06/25/2009
2009052093	<p>State Route 253 Slipouts Storm Damage Restoration Project Caltrans #3 Booneville--Mendocino</p> <p>The proposed project will restore the highway to its pre-storm condition by reconstructing the filed shoulder at 2 locations, PM 7.6 and PM 7.75. The failed section at PM 7.75 is 175 ft long, and the failed section at PM 7.6 is 150 ft long. The previous 2 ft shoulder will be upgraded to the current 4 ft shoulder and will be supported by a soldier tie back wall. Metal beam guardrail and striping will be placed throughout the limits of both walls. Non-functioning under drains will be reconstructed. To facilitate those under drains, an existing 18 inch and 24 inch cross culvert will be replaced, both with 24 inch culverts. Grading will be done to promote wetland habitat.</p>	<b>MND</b>	06/25/2009
2006062157	<p>California Pacific Medical Center Long Range Development Plan Project San Francisco, City and County of San Francisco--San Francisco</p> <p>The proposed project is CPMC's multi-phased strategy to meet State seismic safety requirements for hospitals, expand medical facilities, and create a 20-year framework and Institutional Master Plan for its four existing medical campuses (Pacific Campus at Sacramento and Buchanan Streets; California Campus at Maple and California Streets; Davies Campus at Castro and 14th Streets; and St. Luke's Campus at Cesar Chavez and Valencia Streets), and a proposed new medical campus (Cathedral Hill Campus at Van Ness Avenue and Geary Boulevard) in San Francisco. The proposed Cathedral Hill Campus would include development of a 15-story, 555-bed hospital and two medical office buildings (MOBs). The new Cathedral Hill hospital would house acute care, women's and children's services, and primary emergency services. When completed (2015), Cathedral Hill Campus would allow CPMC to re-focus and renovate/redevelop its existing four campuses. Proposed development at Pacific Campus would include a new Ambulatory Care Center and underground parking. Proposed development at Davies Campus would include two new MOBs and parking improvements. Proposed development at St. Luke's Campus would include a new six-story, 86-bed replacement hospital (2014) and an expansion building. CPMC would sell California Campus by 2020 after relocation of its inpatient services to the new Cathedral Hill Hospital and other services to Pacific Campus. The proposed project would require General Plan Amendments, Planning Code Text and Map Changes for creation of a subarea within the Van Ness Area Plan Special Use</p>	<b>NOP</b>	06/26/2009

	boundaries. A private service road to the east of the turn-around would provide access the maintenance and food service areas. Construction of the Proposed Project is anticipated to begin summer of 2010 and be completed summer of 2012. The target opening date is the fall of 2012.		
2002021009	Schuyler Heim Bridge Replacement and SR-47 Expressway Project Caltrans #7 Long Beach, Los Angeles, City of--Los Angeles The proposed Schuyler Heim Bridge Replacement and SR-47 Expressway project would replace the seismically-deficient vertical lift bridge with a fixed span bridge across the Cerritos Channel, and either construct an elevated four lane expressway from Terminal Island to Alameda Street, or construct an elevated four lane extension of SR-103 to Alameda Street. Six alternatives are evaluated in the Draft Recirculated EIR/Draft Supplemental EIR.	<b>FIN</b>	
2007091118	Darby Lane Condominium Development San Bernardino County --San Bernardino The proposed detached singel-family condominium project would be developed as a gated residential development of 251 homes. The Land Use Policy Map identifies the site as a Floodway (FW) zone. A General Plan Amendment tot he County's General Plan from FW to Multiple Residential (RM) is proposed to allow residential development on land presently designated for flood control. The proposed project would be developed at a density of ~9.3 dwelling units per acre. A home owner's association will be formed for the maintenance and management of the common open space and common facilities. The proposed project includes its own package wastewater treatment plant that will accommodate ~50,200 gallons per day of wastewater.	<b>FIN</b>	
2008102088	Palo Alto Medical Foundation Medical Clinic Project Sunnyvale, City of Sunnyvale--Santa Clara The proposed project would allow for the demolition of one existing medical office building, a surface parking lot, and three single-family residences on the project site, and for the construction of a 150,000 square foot medical office building with two levels of underground parking and surrounding surface parking, and four-level parking garage on-site.	<b>FIN</b>	
2009042094	Pulgas Balancing Reservoir Structural Rehabilitation and Roof Replacement Project San Francisco, City and County of --San Mateo NOTE: Shortened Review  The San Francisco Public Utilities Commission (SFPUC) is proposing the Pulgas Balancing Reservoir Structural Rehabilitation and Roof Replacement Project to demolish and rebuild the roof of the existing Pulgas Balancing Reservoir (located near the southern end of Upper Crystal Springs, Reservoir on property owned by the SFPUC in unincorporated San Mateo County) to improve seismic and water quality reliability. The Project includes the construction of shear walls at all four corners of the reservoirs foundation; repairing and resealing cracks in the reservoir walls and slab, fixing corroded rebar, and replacing out-of-date, miscellaneous mechanical and architectural structures within the reservoir (electrical, security and ventilation systems).	<b>FIN</b>

<b><u>Documents Received on Thursday, May 28, 2009</u></b>			
2009051115	Windset Farms Santa Maria, City of Santa Maria--Santa Barbara Conditional Use Permit to allow the phased construction of a hydroponic production agricultural enterprise including: greenhouse totaling 5.7 million sf; a 170,000 sf produce parking facility; 4 caretaker units; supporting water storage tanks; driveways; parking; landscaping and other supporting infrastructure.	<b>MND</b>	06/26/2009
2009051117	Manning Avenue Bridge Replacement Reedley, City of Reedley--Fresno The project would replace the structurally deficient Manning Avenue Bridge over the Kings River to improve public safety. The proposed project would also install new curb, gutter and meandering sidewalk ~1250 ft along both sides of Manning Avenue from the east end of the Kings River Bridge to the I Street intersection curb return.	<b>MND</b>	06/26/2009
2009051118	Long Beach City College Parking Lot Expansion Project Long Beach Redevelopment Agency Long Beach--Los Angeles The proposed project involves the acquisition and demolition of all existing structural improvements on the project site and construction of a surface parking lot for the Long Beach City College (LBCC) Pacific Coast Campus. This parking lot will consist of 70 parking spaces with 2 full ingress and egress driveways, one accessing Pacific Coast Highway and the other accessing the east/west alley abutting the northern project boundary. The demolition and construction activities are estimated to take ~6 months from commencement of work.	<b>MND</b>	06/26/2009
2009052094	Sierra College Parking Access Project Sierra Joint Community College District Rocklin--Placer Sierra College currently provides a paved right turn exit ramp that southbound vehicles on Sierra College Boulevard use to enter parking lot "I". In addition to this ramp, Sierra College uses a gated driveway access in the same location in order to provide access to the backside of the school stadium for its employees and maintenance workers.  Due to Sierra College Widening project and for safety reasons, the project proposes that the paved right turn pocket exit ramp be closed. Traffic from Sierra College Boulevard will be provided access via a new driveway being proposed with the Sierra College Widening project. The driveway is located ~600 ft north of the Rocklin Road intersection. A raised median will be constructed on Sierra College Boulevard to allow left turns into the driveway, but restrict left turns existing the driveway. The new driveway will be connected to Lot I with a 350 ft long 24 ft wide paved roadway.	<b>MND</b>	06/26/2009
2009052095	City of Susanville - Golf Course Lot (#GZP 09-003) Susanville, City of Susanville--Lassen NOTE: Review Per Lead  The City of Susanville proposes to divide off a 1.28 acre portion of the open space near hole #17 within the Diamond Mountain Golf Course to create a residential buildable lot sealable to the public. The General Plan Amendment and Rezone will	<b>MND</b>	07/01/2009

<b><u>Documents Received on Thursday, May 28, 2009</u></b>			
	allow for a single family home with a well and septic tank to be constructed on the lot at a future date. The Tentative Parcel Map divides the saleable lot off from the remainder of the golf course which remained unchanged, except for the relocation of a cart path. The lot is adjacent to a developed subdivision located within unincorporated Lassen County that has similar services. The subdivision has good access to Richmond Road, a major arterial in the Susanville area.		
2009051114	Planning Case P07-1286, Tract Map 35388 Riverside, City of Riverside--Riverside The project involves the subdivision of 14.7 acres of vacant land to facilitate the development of up to 5 single family residential homes.	<b>Neg</b>	06/26/2009
2009051116	Encinitas Ranch Specific Plan Amendment and Target Building Expansion Encinitas, City of Encinitas--San Diego The project proposes a General Plan Amendment, Local Coastal Program Implementation Plan Amendment, and Encinitas Ranch Specific Plan Amendment to allow an increase in the overall maximum floor area permitted for the existing Regional Commercial Center from 695,000 sf to 750,000. If these amendments are approved, the Target Corporation would propose Design Review and Coastal Development Permit applications to demolish the existing 10,796 sf garden center and construct a 16,239 sf building addition to the Target store.	<b>Neg</b>	06/26/2009
2009052096	Coyote Point Recreation Area Shoreline and Promenade Improvement Project San Mateo County San Mateo, Burlingame--San Mateo NOTE: Review Per Lead  A Draft Master Plan for Coyote Point was prepared in 2002 and not completed. An updated and Final Master Plan (Amphion 2008) was approved by San Mateo County on Feb. 26, 2008. The purpose of the revised Master Plan was to make improvements to landscape and infrastructure, update existing recreation facilities to improve safety and disability access, enhance natural resources, and provide educational opportunities for visitors regarding biotic and cultural resources. Additional special studies were recommended by the Master Plan including the proposed stabilization of the beach shoreline along the San Francisco Bay, which is subject to severe erosion. In April 2008, a Conceptual Design Report (PWA 2008) was prepared for the County Parks and Recreation Department which outlined several design alternatives to stabilize the beach shoreline. The County selected Conceptual Alternative 5 as the Preferred Alternative and directed the preparation of a Preliminary Design Report to implement this alternative (PWA 2009). The Preferred Alternative is presented in this Initial Study as the proposed design for the Shoreline and Promenade Improvement Project. The purpose of the proposed Project is to develop a sustainable solution to the coastal erosion problem along the San Francisco Bay at the park shoreline while facilitating good public access to the beach and water for a variety of users, particularly swimmers and windsurfers.	<b>Neg</b>	06/29/2009

	research among utilities. It will provide an information conduit to the Public utilities Commission and inform the public and industry, effectively increasing leverage of research and development funding.		
2009058157	Realizing Energy Efficient Lighting in California Energy Commission Davis--Yolo This Interagency Agreement will provide funding support for a successful public university lighting technology center that is charged with working collaboratively with regulatory agencies, utilities, manufacturers, universities and state agencies to 1) facilitate the development and implementation of new technologies and market applications for energy efficient lighting technology and 2) foster the early and widespread acceptance of those technologies in the marketplace.	<b>NOE</b>	
2009058158	Solid Waste Ordinance - Chapter 20 of title 4 of the Oakley Municipal Code Oakley, City of Oakley--Contra Costa Adoption of an ordinance authorize the City to regulate and franchise solid waste. Beneficiaries would include the citizens of the City of Oakley.	<b>NOE</b>	
2009058159	Demolition of Property Warehouse #2, Metropolitan State Hospital Mental Health, Department of Norwalk--Los Angeles The proposed project is the demolition of Property Warehouse #2 at the Metropolitan State Hospital in Norwalk, California. The warehouse being proposed for demolition is 5,600 sq. ft. building constructed out of corrugated metal and sits atop an elevated concrete pad. The building was constructed in 1952 and is 57 years old. In its current state of deterioration, the warehouse is susceptible to rodent and roach infestation. Leaving the warehouse in place compromises the safe handling and storage of food in the newly constructed adjacent kitchen. Because the building is over 50 years old, consultation with State Historic Preservation Office (SHPO) was initiated for consideration as a historic building on the California Register. Warehouse #2 is not on the California Register as a historic building nor is the building located within the Hospital's historic district and is therefore not a contributor to a National Register eligible district. The SHPO concluded that removal of Warehouse #2 would not constitute a significant adverse effect on a historic resource.	<b>NOE</b>	
2009058160	San Diego/national City Distributed Antenna System (DAS) Project Public Utilities Commission San Diego--San Diego Installation of DAS equipment on behalf of Cricket, including, but not limited to, DAS nodes, fiber optic cable, poles and other associated DAS equipment.	<b>NOE</b>

	Santa Ana River. Adaptive management will be used, and several methods of treatment may be employed to remove the African clawed frog from the ponds. Due to the tenacity of the species, several treatments may be necessary. The ponds will be monitored to ensure the species has been removed.		
2009058162	Butts Canyon Road Repair Between MPM 8.84 and 8.97 Fish & Game #2 --Lake Butts Canyon Road MPM 8.84-8.97 Storm Damage Repair Project. Project activities include the replacement of 24" culvert with a 36" culvert with headwalls and embankment stabilization.	<b>NOE</b>	
2009058164	Alamo Food Control Channel at Dally Road Bridge Solano County Water Agency --Solano The New Alamo Channel is part of the Ulatis Flood Control Project (UFCP). The Project was originally constructed circa 1960's by the US Soil Conservation Service and then dedicated to the Solano County Water Agency (SCWA) as the local sponsor to operate and maintain in perpetuity. The re-alignment of the original channel affected many County road crossings. Solano County maintains the bridge structure, whereas SCWA is responsible for maintenance of the channel around and under the bridges per the established easements. The Dally Road Bridge No. 23C-206 was constructed across New Alamo Channel in 1966. In recent years, the UFCP system has exhibited signs of accelerated scour and degradation of the channel bed throughout the entire system. Systematic losses of 1-2 feet of channel bed during the December 2005 storm along have been observed. Additional loss of channel bed material around the spread footings could ultimately undermine the structures foundation and jeopardize the structural stability of the bridge. The County has requested the SCWA remediate the bed scour to protect the bridge. The Project is proposed to be implemented in the Fall, at the end of the agriculture irrigation season after October 15 and before the onset of significant storm events, when channel flows are negligible. Approximately 350 cubic yards of clean rock will be used to complete the project. The length of project impacts is approximately 100 linear feet. Implementation of the Project is anticipated to be no longer than 3 days and cost approximately \$40,000.	<b>NOE</b>	
2009058165	New Modular Stadium Restroom/Team Room Building at Woodside High School Sequoia Union High School District Woodside--San Mateo The Sequoia Union High School District proposes to build a new 2600 square foot field house consisting of restrooms, a 800 sf visiting team room, 700 sf storage room and a 180 sf concession area. The building is adjacent to the track/football and services the spectators seated in the stadium bleachers.	<b>NOE</b>

2009058178	North Grasslanda Wildlife Area, Gadwall Unit Fish & Game, Wildlife Conservation Board Los Banos--Merced Acquisition of 133+- acres of historic wetlands to help improve distribution of waterfowl in the North Grasslands of fish and Game, Wildlife Conservation Board.	<b>NOE</b>					
2009058182	College of the Redwoods Sere Repair Project 2009 Redwoods Community College District Eureka--Humboldt The Redwoods Community College District maintains a sanitary sewer collection and wastewater treatment system on the 220 acre College of the Redwoods Campus located east of Tompkins Hill Road, south of the city of Eureka. The District has identified substantial, rainfall-included inflow and infiltration (I/I) affecting the wastewater collection system. Through a variety of mechanisms, stormwater is entering the sanitary sewer collection system during and after storm events and is being delivered to the treatment plant. The district intends to carry out a series of system corrections and repairs to reduce I/I. this will enhance system efficiency by reducing the treated volume of wastewater and will limit the potential for continued leakage of untreated wastewater from the collection system. The specific repairs proposed vary by location but consists generally of the following methods: 1) Installation of an internal lining into existing sewer pipes (slip lining); 2) replacement of damaged pipes with new pipe of similar capacity; 3) spot repair and re-sealing of collection pipes, pipe joints, etc; 3) repair, lining, and re-sealing of manholes; and 4) removal of stormwater collection pipes from the sewer collection system.	<b>NOE</b>

	performed by a state-certified Licensed Timber Operator.		
2007062007	Contra Costa Hydrogen Pipeline Project Contra Costa County Richmond, Pinole, Hercules, Martinez--Contra Costa A land use permit to establish a 21.3 mile hydrogen pipeline between the Chevron refinery in Richmond and the Shell refinery in Martinez with a lateral line to the ConocoPhillips refinery in Rodeo. The project will consist of the construction of ~13.5 miles of new pipeline and the reuse of ~7.8 miles of existing pipeline. The new pipeline will be constructed using conventional pipeline trenching, jack and bore, and horizontal directional drilling techniques. A new 2.2 mile natural gas line will also be constructed in the North Richmond area for Chevron Refinery as part of the project.	<b>EIR</b>	07/13/2009
2009011092	Calexico Wastewater Treatment Plant Upgrade and Expansion EIR Calexico, City of Calexico--Imperial The City of Calexico proposes to upgrade the existing Calexico WWTP and to expand the WWTP's treatment capacity. The existing WWTP occupies ~20 acres of a 41.3 acre site, and consists of 2 adjacent biological treatment facilities: Plant No. 1 and Plant No. 2. Plant No. 1, built in 1967, consists of an activated sludge treatment plant with a capacity of 2.5 mgd. Plant No. 2, built in 1991 and upgraded in 1994, consists of aerated lagoons, with a treatment plant with a capacity of 1.8 million gallons. Both plants together are referred to as the Water Pollution Control Plant. Currently, the WWTP has a total treatment capacity of 4.3 mgd and treats an average of 2.7 mgd during dry weather. During wet weather and because of system-wide infiltration/inflow, the WWTP reaches and sometimes exceeds full capacity. However, because rainfall averages 2 to 3 inches per year, capacity is rarely exceeded.	<b>EIR</b>	07/13/2009
2007101033	High School No. 12 Grossmont Union High School District --San Diego The project will entail the acquisition of property, demolition of structures (as applicable), grading, and the construction and operation of a new high school by the Grossmont Union High School District (District). The new school will serve 9th through 12th grade students, providing a facility that is closer to residents in the eastern portion of the District and providing enrollment relief for existing schools. Specific communities that would benefit from a closer facility include the communities of Alpine, Blossom Valley, El Cajon, Jamul and Lakeside. Students from these areas currently attend either El Capitan, Granite Hills, or Steele Canyon High School. Development of the site would include structures for classrooms, administrative offices, a cafeteria, and a gymnasium; outdoor courtyards and athletic fields; and parking areas. Three alternative sites have been selected for the development of the school. Each of the three sites have been equally analyzed in environmental review pursuant to the California Environmental Quality Act.	<b>FIN</b>

2009051125	Bouquet Water Well Santa Clarita Water a Division of the Castaic Lake Water Agency Santa Clarita--Los Angeles The proposed project involves the construction and operation of a new municipal water supply well (Bouquet Well) for the SCWD. The project site is located at the intersection of Bouquet Canyon Road and the Bouquet Channel, near Festividad Drive. The site is a vacant graded pad that is largely devoid of vegetation located adjacent to the Bouquet Channel and single-family residential homes. The project site is a triangular-shaped parcel of ~12,000 sf. Access to the project site would be provided from Abajo Drive, which is a cul-de-sac off Festividad Drive. A fenced and gated maintenance access road currently exists along the Bouquet Channel, which would provide access from Abajo Drive to the project site.	<b>MND</b>	06/29/2009
2009052099	Use Permit UP08-18 Mussel Rock Transfer Station - Minor Site Modifications Daly City Daly City--San Mateo Construction of a recyclables bunker with an area of ~3,500 sf, installation of stationary compactor with 40 yard receiver, construction of ~100 ft of retaining wall and locating 2 moveable containers (3 cubic yard and 40 cubic yard) for recyclable materials. This project includes the installation or construction of infrastructure necessary for the facility to stay in compliance with State Law governing handling of wastes and other recyclable materials. The site is located within the Resource Protection Zone and a geologically sensitive area; therefore the work required a Use Permit (Coastal Development Permit) and Initial Study.	<b>MND</b>	06/29/2009
2009052100	Arcade Creek Park Preserve Master Plan Sacramento County Citrus Heights--Sacramento The Sunrise Recreation and Park District proposes to develop a community park from an undeveloped property. Development includes: pave trails, parking lot (w/11 spaces), play area, shade structure and, and boardwalk. For flood protection and restoration, 78,000 sf of Arcade's Creek's bank will be excavated and a substantial amount of native and non-native trees and plants will be removed including over 2,000 diameter inches of native oaks.	<b>MND</b>	06/29/2009
2004071011	Pacific Coast Business Park Oceanside, City of Oceanside, Vista--San Diego NOTE: Supplement  This project is a revision to the Industrial Master Development Plan for Pacific Coast Business Park (PCBP) to increase the amount of office use within the project and allow for additional traffic trips to accommodate increased office uses. The Pacific Coast Business Park project was approved and its Environmental Impact Report certified in August 2005. That original PCBP project included an Industrial Master Development Plan and a 30-lot parcel map. Per that Plan, the entire project site has been graded to pads, and all infrastructures installed, including roads, drainage, and utilities. The General Plan land use designation is PD-1, RDO Specific Plan and zoning regulations are per the PCBP Industrial Master Development Plan. The Industrial Master Development Plan text details the criteria required for individual development of the 30 parcels within PCBP. Uses allowed with PCBP are consistent uses in the Light Industrial (IL) Zone as established by the City of Oceanside Zoning Ordinance.	<b>NOP</b>	06/29/2009

	<p>also included with the proposal. The winery is proposed to be open 5 days a week, from 7:00 am until 6:00 pm. Staffing for the winery is expected to include 3 full-time employees and 8 part-time employees for crush and bottling. No tours and tasting or marketing events are proposed.</p> <p>Exterior building material include a 25 ft high concrete tilt-up wall panels with a tex-coat finish, tile roofing, glass entry doors, stone veneer, metal awnings and loading dock cover, and faux wood "barn-style" doors. The height to the peak of the main roof is ~34 ft above grade. The project will connect to municipal water and sewer services provided by the City of American Canyon and the Napa Sanitation District, respectively. The proposal also includes a hold and haul system for process waste.</p>		
2009052098	<p>U.P. #09-01, PPC Land Consultants (Beverly J. Woodward, Etal, Surface Owner) Tehama County --Tehama</p> <p>To re-inter an existing well site and establish a natural gas well, Dillion-Woodland #1-22, for production purposes in an EA-AP; Exclusive Agricultural - Agricultural Preserve Zoning District. The well site is located in the Capay area ~1,150' west of River Avenue, at a point ~1,800' north and 2,870' east of the SW corner of Section 22, Township 23N, Range 2W, MDB&amp;M.</p>	<b>Neg</b>	06/29/2009
2006101159	<p>City of Ontario Dry Year Yield (DYY) Program Ontario, City of Ontario--San Bernardino</p> <p>The City of Ontario is proposing to construct and operate 2 groundwater production wells (Wells 44 &amp; 52), associated chlorine injections systems, and an ion exchange treatment facility as part of the Chino Basin Dry-Year Yield Program. Each well site consists of a deep-well vertical turbine pump, electrical motors, on-site chlorine generation equipment including salt and sodium hypochlorite storage tanks, and associated appurtenances. Once installed and operational, the wells are anticipated to yield ~2,500 gpm to the system. The ion exchange facility will be sized to treat from Wells 44 &amp; 52 with a total flow of 5,000 gpm.</p>	<b>NOD</b>	
2007121113	<p>New Water Production Wells: 2007 Lake Arrowhead Community Services District --San Bernardino</p> <p>The project consisted of the drilling, installing, developing, test-pumping and producing water from several test wells within the District's service area. This document focuses on 2 of the test wells, Well No. 6 (Site A-1 in the adopted MND) and Well No. 8 (Site A-3), which have been selected for conversion to production wells based on the volume of water produced by these wells and the quality of the water. Well No. 6 was drilled to a depth of about 700 ft and produces ~40 gpm. Well No. 8 was drilled to a depth of about 500 ft and produces ~50 gpm. This Addendum serves as the basis for this second tier environmental review of Wells No. 6 and No. 8 of the original project, which consists of conversion of these 2 wells to production status. In summary, the changes being considered for the original project consist of: Convert existing test wells No 6 and No. 8 to production well and install the permanent pumps; Connect the wells to the existing distribution system by installing connecting pipelines, each line ~1,000 ft in length; Treat and deliver ~100 acre-ft per yr to the District's potable water distribution system; Modify the District's water purveyor permit to incorporate the groundwater from Wells No. 6 and No. 8 as a new water supply source.</p>	<b>NOD</b>

2008032066	<p>Broadway Plaza Retail Project Walnut Creek, City of Walnut Creek--Contra Costa</p> <p>The Revised Project includes the following: an amendment to Walnut Creek General Plan 2025 to increase the maximum allowable floor area ration (FAR) from 0.75 to 1.75 on a 1.59 acre site; an amendment to the building height map of the Zoning Ordinance of the Walnut Creek Municipal Code to reduce the maximum building height from 35' over the northern two-thirds of the site and 50' over the southern one third of the site to 35' over the entire site; a CUP to allow (i) implementation of an attendant-operated lift system on the first level of the 5 story South Main Street Parking Garage exclusively for employees of Broadway Plaza tenants; (ii) implementation of tandem parking with attendant assistance on the 5th level of the 5th story South Main Street Parking garage exclusively for employees of Broadway Plaza tenants; and (iii) use of maximum of 45 off-site parking spaces at 200 Pringle Avenue between 5:00 pm on Fridays and 11:00 pm on Sundays as well as holidays to substitute for the attendant tandem program on the 5th level of the South Main Parking Garage; a Development Agreement that would, among other things, obligate Macerich to meet the City's parking requirements and to fulfill additional obligations to provide funding to the City to enhance transit, transportation and parking opportunities in the Broadway Plaza and Traditional Downtown areas, providing additional bicycle parking spaces, and installing computerized parking space counters at the 5 level parking structure and the 2 level parking structure; lot line adjustments; Design Review approval of a new department store building; and a tree removal permit for the removal of trees on the Revised Project site and along the Revised Project frontage.</p>	<b>NOD</b>	
2008091025	<p>Approval of Remedial Action Plan for the Former Brown and Bryant, Shafter Site (APN #s 026-190-05 &amp; 026-190-25) Toxic Substances Control, Department of Shafter--Kern</p> <p>Approval of the Remedial Action Plan (RAP) for remediation of the former Brown and Bryant, Shafter facility (APN #s 026-190-05 &amp; 026-190-25), hereafter referred to as the "Site". The RAP provides background information on the Site, the results of previous investigations, and remedial action alternatives evaluation. The alternatives evaluation lists the 5 remedial action alternatives considered in the previously approved Feasibility Study (FS) and the RAP presents a description of the preferred remedial alternative selected for the Site. The Proposed Action includes implementation of institutional control and land use controls in the form of deed restrictions/land use covenants on the land, continuation of the existing groundwater monitoring program, excavation and offsite disposal of shallow soils (0 to 6 feet) affected by pesticide and metals and in-situ soil vapor extraction (SVE) of deep soil (depths to 120 feet) affected by volatile organic compounds. Approximately 5,100 tons of pesticide and metal affected shallow soil will be excavated from several different locations throughout the site. The excavated soils will be disposed of offsite either at a Class I landfill or a Substitute D landfill depending on disposal profiling. Excavated areas will be backfilled with compacted clean soil once confirmation samples demonstrate that the remediation goals have been met. Risk based cleanup goals were developed by the Human and Ecological Risk Division (HERD) of the DTSC for practices relating to formulating, repackaging and application activities of pesticides, herbicides, fumigants and fertilizers.</p>	<b>NOD</b>
