STATE CLEARINGHOUSE

NEWSLETTER

November 1-15, 2008

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 1-15, 2008.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

DATE: February 13, 2007
TO: State Agency CEQA and Intergovernmental Review Coordinators
FROM: Scott Morgan, Senior Planner
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner
916-445-0613
scott.morgan@opr.ca.gov

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<u>Documents Received on Monday, November 03, 2008</u>			
2008011066	Beverly Hills Gateway Project Beverly Hills, City of Beverly Hills--Los Angeles The three parcels which make up the project site are located on former railroad right-of-way. The proposed project involves a General Plan Amendment to a designation of Commercial-Low Density General and a Zone Change to the Commercial (C-3) Zone that would permit office/commercial uses at building heights up to 45 feet and a maximum Floor Area Ratio 2:1. In addition to the rezone and General Plan redesignation for all three parcels, which would allow for development of commercial/office uses on all three, development of a three-story, 42-foot high, approximately 90,000 sf commercial/office building with a three-level subterranean garage accommodating 274 parking spaces is proposed for the property at 9848 Wilshire Boulevard.	EIR	12/17/2008
2008031016	Mid-County Redevelopment Project Area, Amendment No. 2- Cherry Valley, Garnet, and West Garnet Riverside County Redevelopment Agency --Riverside The Project is Redevelopment Plan amendment to three-sub-areas in the existing Mid-County Redevelopment Project Area, located in the western region of Riverside County. The Amendment Area includes approximately 4,511.88 acres, consisting of three sub-areas: Cherry Valley with 1,807.56 acres; Garnet with 2,618.16 acres; and West Garnet with 86.16 acres.	EIR	01/08/2009
2008031017	Desert Communities Redevelopment Project Area, Amendment No. 2 - 100 Palms, Oasis, Mecca, and North Shore Sub-Areas Riverside County Redevelopment Agency --Riverside The Project is Redevelopment Plan amendment to four sub-areas in the existing Desert Communities Redevelopment Project Area, located in the western region of Riverside County. The Amendment Area includes approximately 2,065.11 acres (with 100 Palms containing 284.38 acres; Oasis containing 187.29 acres; Mecca containing 361.15 acres; and North Shore containing 1,232.29 acres.)	EIR	12/17/2008
2005022022	Higgins Marketplace Nevada County --Nevada The project proposes the subdivision of a 20.7-acre site into 10 parcels for commercial, light industrial, and office uses. On five of the parcels (10.58 acres) a 59,800 sq. ft. large retail store, two retail buildings (one 13,200 sq. ft. and one 6,500 sq. ft.) and two 3,500 sq. ft. fast food restaurant buildings are proposed. There is no development proposed on the other four parcels (5.07 acres). The last parcel (3.26 acres) is designated to retain the existing wetlands.	FIN	
2008091055	SR-98 Widening Caltrans #11 Calexico--Imperial The project proposes to widen SR-98 from two to four lanes from Dogwood Road through just west of Ollie Ave., and from four to six lanes from Ollie Ave. through SR-111, tying back to the existing road at Rockwood Ave. The proposed lane widths are a standard 3.6 meters (12ft.) and a raised median that averages 4.3 meters (14ft.) in width would be incorporated throughout the length of the project.	FON

	In addition, this alternative would update the number of turning lanes according to traffic needs at each intersection within the project limits.		
2000032006	South Access to the Golden Gate Bridge - Doyle Drive San Francisco, City and County of San Francisco--San Francisco NOTE: EIR/Final Review	JD	
	The purpose of the proposed project is to improve the seismic, structural, and traffic safety of Doyle Drive within the setting of the Presidio of San Francisco and its purpose as a National Park.		
2005021139	Coalinga Wastewater Treatment Plant Trunk Line Alignment DRAFT Supplemental Environmental Impact Report Coalinga, City of Coalinga--Fresno The City of Coalinga (City) propose to construct a new wastewater treatment plant (WWTP) to treat and dispose of municipal wastewater, and to decommission the existing WWTP. A Program Environmental Impact Report (Program EIR or PEIR) was prepared for this project and the Final Draft was certified by the City on June 1, 2006. As one component of the proposed WWTP, a new WWTP while the old WWTP is being decommissioned. Once the old WWTP has been decommissioned, the trunk line will carry sewage to the new WWTP from existing sewer lines. This Supplemental EIR (SEIR) will focus on the sewer trunk line placement area but will also discuss the locations of the existing and proposed WWTP in order to familiarize the reader with the project as a whole. This SEIR contains additional information specific to the trunk line connection over and above what is contained in the PEIR.	JD	12/17/2008
2008111002	Proposed Rule 2702-Greenhouse Gas Reduction South Coast Air Quality Management District --Orange, Riverside, San Bernardino The proposed project will establish a Greenhouse Gas (GHG) Reduction Program for GHG reduction projects in the district and provide GHG certified emission reductions. The SCAQMD will fund projects to reduce emissions using money from program participants who need certified GHG reductions. The Draft PEA concluded that the proposed projects could potentially generate adverse air quality, energy, hazards, hydrology, noise, public services, solid waste and transportation/traffic impacts during implementation (construction) of projects likely under different protocols, but the impacts would not be significant. The Draft PEA also conducted that no other environmental topic areas would be significantly adversely affected by the proposed project.	JD	12/02/2008
2008022074	Use Permit Application No. 2008-03 - Delaney Aggregates Stanislaus County --Stanislaus This is a request to operate a gravel and sand extraction enterprise for Delaney Aggregates on an 80-acre portion of a 205-acre parcel. The project site will include four extraction pits ranging in size from two to twenty-two acres at a maximum depth of 40 feet. In conformance with the State Mining and Reclamation Act, the applicant has included a reclamation plan (Attachment A) for the project site which sets out a four-part phased plan for the property that would reclaim each pit after its excavation is completed. 2008111003	Reservoir No. 9 Replacement Project La Habra Heights Water District La Habra Heights--Los Angeles The replacement of an existing .63 MGD steel tank reservoir with a 2.0 MGD steel tank reservoir on an existing site at the northerly terminus of Skyline Drive just north of the intersection with Suncrest Court in the City of La Habra Heights. The project includes acquiring approximately .67 acres of property and the vacation of an adjacent unused street right-of-way. The project requires clearing and grading of a new tank pad, construction of an access road to the site and around the site, the construction of a retaining wall to reduce the extent of grading and the construction of new site drainage.	MND	12/02/2008
2008112002	Rodney Carley Applications 31360 to Appropriate Water State Water Resources Control Board --Mendocino Approval of water right Application 31360 to appropriate 19 acre-feet per year to storage. Water is diverted from an Unnamed Stream tributary to Turner Creek thence Mill Creek thence the Middle Fork Eel River thence the Eel River in Mendocino County from January 1 to April 1 of each year. Water will be used for irrigation of two acres to enhance wildlife habitat, domestic use, and fire control.	MND	12/02/2008
2008112003	Tipple Motors (Design Review Approval for the Reapplication of Siding Materials) Ferndale, City of Ferndale--Humboldt The applicants propose foundation repairs, window replacement and replacing the stucco exterior building front materials. The existing stucco siding has been removed from the building. The existing wood frame windows are proposed to be replaced with wood framed double hung tempered glass windows (the change to tempered glass is a building code safety requirement). The stucco had been painted which contributed to deterioration of underlying structural materials. The applicants propose hardiplank siding or another alternative siding material for the building front. Tipple Motors is a single story, false front building that was built in 1930 and has since been a fixture on Main Street.	MND	12/02/2008
1998081078	State Routes 118/34 Intersection Improvements with Donlon Road Caltrans, Planning Camarillo--Ventura Note: Supplement/Subsequent NOP of an EIR The purpose of the project is to improve mobility, achieve an acceptable level of traffic operations and improve safety conditions along State Route (SR) 118 at the intersection with SR 34 and Donlon Road. There are six (6) alternatives being considered for this project. Four of the alternatives would relocate and realign Donlon Road westerly to align with the existing SR 34. Furthermore, these four alternatives would eliminate the existing intersection of Donlon Road at SR 118. The remaining two alternatives consist of a No-Build alternative and an alternative that would bypass the Somis community and construct a 1 mile highway to the south to connect SR 34 to SR 188.	NOP	12/02/2008
2008111004	Calexico Gran Plaza Calexico, City of Calexico--Imperial The project applicant (Corsair, LLC) proposes to develop the 62-acre project site with Calexico Gran Plaza, an Outlet Retail/Large Tenant Retail Center. The	NOP	12/02/2008

2008108458	<p>Replace Roof and Make Repairs to Stabilize the Broderick House Parks and Recreation, Department of --El Dorado Replace the failing, leaking roof and make other repairs to stabilize the historic Broderick House at Marshall Gold Discovery State Historic Park to prevent further deterioration. Work will remove the non historic fabric and roof material and install in kind cedar class "B" fire rated wood shingles with a 5-1/2 reveal with double starter course using galvanized roofing staples, the new shingles will be identical in appearance to the existing shingles, check and, if necessary, replace the skip-sheathing board's and rafters with in kind material; replace two front porch posts and portions of the porch railing and support beams with new in kind materials; replace trim and siding that has signs of dry rot with in kind materials consistent with what is currently in place; paint the exterior with the existing color of the house. All new pieces of wood and boards will be dated and recorded prior to being installed. All repair work on the building will be consistent with the Historic Building Code and the secretary of Interior's Standards and photo-documentation will occur during all phases of the project, including the installation of new "in kind" components. If ground disturbance is required to replace posts, a qualified archaeologist will monitor the excavation. Project work will occur outside the bird nesting and bat reproduction season of March 15 to August 15.</p>	NOE

2008108460	Adoption of the Ordinance 2008-02, entitled, "NUISANCE ABATEMENT ORDINANCE OF THE DEL NORTE SOLID WASTE MANAGEMENT AUTHORITY" Del Norte Solid Waste Management Authority --Del Norte The purpose of this Ordinance is to protect the health, safety, and welfare of the residents of Del Norte County and the City of Crescent City through the prevention and abatement of public nuisances associated with the mismanagement of discards, the blight associated with inappropriately accumulated materials, improperly stored discards, items, products, and packaging which are hazardous, and illegal disposal. It shall be liberally construed to that end.	NOE	
2008108461	Adoption of the Ordinance 2008-03, entitled, "Administrative Citation Ordinance of the Del Norte Solid Waste Management Authority" Del Norte Solid Waste Management Authority --Del Norte The purpose of this Ordinance is to establish an appropriate method of enforcement for violations is an administrative citation program as authorized by Government Code Section 53069.4. The procedures established in this Ordinance shall be in addition to criminal, civil, or any other legal equitable remedy established by law which may be pursued to address violations of Authority ordinances. The Authority Board has found and determined that the enforcement of Authority ordinances is a matter of local concern and serves as important public purpose. Pursuant to Government Code section 53069.4, the authority has adopted this administrative citation program in order to achieve the following goals: (1) To protect the public health, safety and welfare of the residents of Del Norte county; (2) To gain compliance with Authority ordinances and regulations adopted pursuant thereto in a timely and efficient manner; (3) To provide for an administrative process to appeal the imposition of administrative citations and fines; (4) To provide a method to hold parties responsible when they fail to refuse to comply with the provisions of an Authority ordinance; (5) To minimize the expense and delay where the alternative remedies are to pursue responsible parties in the costly and time-consuming civil or criminal justice system. (6) Use of this chapter for the enforcement of Authority ordinances shall be at the sole discretion of the Authority, and its officers, agents and employees.	NOE	
2008108462	Adoption of the Ordinance 2008-01, entitled, "SOLID WASTE AND RECYCLING RESPONSIBILITY ORDINANCE OF THE DEL NORTE SOLID WASTE MANAGEMENT AUTHORITY" Del Norte Solid Waste Management Authority Crescent City--Del Norte The Ordinance establishes responsibilities for each person, property owner, business, Producer or government agency, regarding discard management in Del Norte County and identifying acceptable management methods that do not damage the habitat, property, and aesthetic values of Del Norte County, but protect and preserve Del Norte County lands, waterways, and coast. 2005102104	<p>City of Lakeport General Plan Update Lakeport, City of Lakeport--Lake</p> <p>The objective of the proposed project is to update the General Plan for the City of Lakeport and will include the following: (1) Changes to current General Plan designations, (2) proposed expansion of the City of Lakeport's Sphere of Influence and (3) changes to and the reorganization of the General Plan Elements. The City is proposing amendments to the existing General Plan that would increase the City's Sphere of Influence in addition, the land-use designation for certain areas within the city limits would be amended to allow a broader mix of uses than currently allowed. With the implementation of the proposed General Plan, build out of the Specific Plan area result in a variety of potential uses including: increased residential development, commercial development and open space.</p>	EIR	12/18/2008
2006081129	<p>Miravale Phase III Specific Plan Soledad, City of Soledad--Monterey</p> <p>The Specific Plan calls for a mixed-use development including 1,470 single-family residential units, 2,730 multi-family residential units (includes affordable housing, workforce housing, and senior housing units), 120 hotel rooms, 275,000 sf. of retail commercial space and an 18-hole golf course. Conceptual plans include a variety of residential types, including apartments, townhouses, and attached homes on small and large lots. The project also proposes three school sites (2 elementary schools and 1 middle school), a fire and police substation, a recycled water facility, and approx. 75 acres of open space and recreation areas, including parks, playgrounds and a trail system.</p>	EIR	12/18/2008
2008061086	<p>California Health Care Facility, San Diego California Prison Health Care Receivership San Diego, Chula Vista--San Diego</p> <p>CPR proposes to construct a sub-acute medical care facility on the project site with up to 1,500 beds. The facility would employ between 1,300 and 1,600 people working various shifts. The facility would consist of between one- and three-story structures, totaling approx. 763,300sf. which include housing clusters, a diagnostic and treatment center, an attorney, warehousing and support facilities, a central plant, outdoor recreation areas, a gatehouse and parking areas. An existing firing range and helicopter stop are located on the proposed development site and these would be relocated to other nearby locations at RJDCE. A 12ft. tall lethal electrified fence would surround the secured area, a vehicle sally port would be incorporated into the fencing and a 35ft. tall guard tower would be located at the vehicle sally port. The project also includes exterior lighting. Parking would be provided for staff members, as well as the 75 to 100 daily visitors anticipated. Approx. 10 inmates are anticipated to be checked into and out of the facility each day. CPR intends that all facilities achieve Leadership in Energy and Environmental Design (LEED) certification with a minimum Silver rating.</p>	EIR	12/19/2008

2002022027	South Stockton 6-Lane Caltrans #6 Stockton--San Joaquin NOTE: Joint Document consists of Draft EIR and Environmental Assessment. Improve State Route 99, from four to six lanes, with improvements to interchanges. Three build alternatives have been considered that propose to close on and off ramps at Charter Way Boulevard, improvements at the existing Farmington and Mariposa Interchanges, and propose one new interchange.	FIN	
2003101159	City of Loma Linda Draft General Plan Loma Linda, City of Loma Linda--San Bernardino A comprehensive update to the Loma Linda's General Plan document (text and maps), that sets policy and guides the City's development over the next twenty years.	FIN	
2008111007	2969 Monterey Salinas Highway Monterey, City of Monterey--Monterey The project site encompasses 5.95 acres (259,208sf.) The project site is vacant and the applicant proposes to construct two office buildings (59,520 total sf.) Building A will be one-story and encompass 23,808sf. Building B will be two stories with 35,712sf. The offices will be individually owned as condominiums. Two hundred twenty four (224) parking spaces are proposed and satisfy the City's parking requirement for professional offices. The project proposes to comply with the City's Green Building Ordinance. The project site contains a habitat conservation area that is preserved. On the developable areas, the applicant proposes to remove 83 trees. Replacement plantings and tree protection for the remaining trees are proposed. Water will provide to the site by the three wells.	MND	12/03/2008
2008112005	Potable Water Well Number Nine Oakdale, City of Oakdale--Stanislaus The project involves a 16in. diameter potable well with a 12in. diameter discharge pipe. The well is connected to the existing potable water supply system owned and operated by the City of Oakdale. The well is in a sound-attenuated enclosure with a 200hp vertical turbine pump whose intake is 200 ft. below ground. This project is consistent with the General plan Designation.	MND	12/03/2008
2008111009	Hacienda at Fairview Valley EIR San Bernardino County Apple Valley--San Bernardino The project site is located in western San Bernardino County, within the Fairview Valley area in the sphere of influence of the Town of Apple Valley, which is immediately west of the proposed project site. The proposed project consists of approximately 1,557 acres of residential, commercial, and open space uses. It provides for a master-planned residential community with equestrian, family-oriented, and active adult (55+) lifestyles, for a total of 3,114 residential units. Supporting land uses include retail/commercial, parks, recreation, open space, public safety, and public facilities. The Project also includes three overlay districts: Equestrian Overlay, Golf Course Overlay, and Commercial Overlay.	NOP	12/03/2008

2008118006	Replace Existing Stroud Sea Wall on Clear Lake Fish & Game #2 --Lake This project will replace 60 linear feet of an existing wood retaining sea wall. The proposed new wall will be a PZC 13 steel sheet piling wall. It will be installed by vibratory hammer between 12 and 24 inches south (lakeside) of the existing wall. The vibratory hammer will install the wall from the lake side while sitting on a floating platform. The proposed wall will be installed approximately to a depth of 12 feet below zero Rumsey and a height of 12 feet above zero Rumsey. The existing wall will be removed and the proposed wall will be backfilled with red volcanic rock and compacted. The proposed wall will match existing walls on either side of this property.	NOE	
2008118007	Routine Maintenance Agreement for the Lower Owens River Project (LORP) Los Angeles, City of --Inyo The City of Los Angeles Department of Water and Power (LADWP) is applying for a Lake or Streambed Alteration agreement (LSAA) with the California Department of Fish and Game (CDFG) to conduct routine maintenance activities on the Lower Owens River Project (LORP). The LORP is a large scale restoration project that will establish a healthy, functioning riverine-riparian ecosystem in the Lower Owens River and surrounding areas, enhance biodiversity and benefit threatened and endangered species, and continue to sustain current recreational, livestock, and agricultural uses of the land. These proposed activities include maintenance of the LORP Intake and Pump Station facilities, maintaining measuring stations, flumes, and culverts, seasonal habitat flow preparation and management, spot clearing of obstruction, sediment, blockages, and beaver dams, and the replacement, maintenance, and/or removal of existing facilities, if and where needed. Maintenance work described in this notification will only be performed in and around existing facilities and in spot locations in the river channel and associated airways. Disturbance from maintenance will only affect a minute fraction of the LORP area and LADWP does not anticipate any significant impacts to occur as a result of these activities.	NOE

2007041067	<p>Gavilan Hills Specific Plan No308,Amendment No1,General Plan Amendment No662,Change of Zone No6730,Tentative Tract Map No31554,Environmental Impact Report No453 Riverside County --Riverside</p> <p>The Project sit eis 1,301.0 acres. Project sponsor, Watt Communitities, has submitted applications for Specific Plan No. 308, Amendment No. 1 (SP308A1), General Plan Amendment No. 00662 (GPA0062), Change of Zone No. 06730 (CZ06730), and Tentative Tract Map No. 31554, to Riverside County. SPA308A1 proposes provides for 457 single-family residential units covering 598.2 acres (1-acre minimum lot size), a 18.1-acre school site, 66.1 acres of land devoted to active and passive park uses and a parking lot for the adjacent Harford Springs Reserve, 397.9 acres of open space, 200 acres of land to be dedicated as a Biological Reserve (and is intended to be conveyed to the Riverside County Parks and Open Space District as an expansion of the Harford Springs Reserve), and 20.9 acres devoted to on-site public roads. GPA662 proposes to provide for the addition of 423.7 acres to the eastern boundary of the Gavilan Hills Specific Plan No. 308. The proposed Amendment also would amend Table 3 of the LMWAP to change the description of SP 308 from "Gavilan Hills Golf Course" to "Gavilan Hills Estates" and would modify LMWAP Figure 4, Policy Areas, to reflect the revised boundaries of Specific Plan No. 308. CZ6730 proposes to redesignate the site from "Residential Agricultural (R-A-2)," "Residential Agricultural (R-A-5)," and "Residential Agricultural (R-A-10)," to "Adopted Specific Plan 308 (SP 308)" for the 423.7-acre area proposed to be added to the Gavilan Hills Specific Plan, and to reconfigure planning area boundaries, zoning regulations, and development standards for the 877.3 acres within the existing SP 308 boundaries. The Change of Zone (CZ 6730) also is intended to apply zoning and development standards to the 423.7-acre parcel that is proposed to be added tot he SP boundary under SP308A1. TR31554 proposes to implement the land uses proposed by Amendment No. 1 tot he Gavilan Hills Specific Plan (SP 308). The tentative tract map proposes 457 residential lots with a minimum lot size of one (1) acre, 15 open space lots totaling 188.23 acres, one (1) park site totaling 68.2 acres, and one (1) school site totaling 18.1 acres.</p>	EIR	12/19/2008

2008092113	07-0414 Rezone, General Plan Amendment, Zone Change and PUD for APN: 029-021-47 Santa Cruz County --Santa Cruz The project proposes a General Plan amendment, zone change, Riparian Exception, and Planned Unit Development (PUD) allowing a maximum development density of 20 dwelling units per usable acre on the project site, a 40% of total number of units as affordable, by-right: use & density would not be discretionary, 4.99 usable acres = 99 dwelling units. Gen. Plan amendments: from C-S to R-UH w/PUD; the R-UH would be amended to allow 20 units/net developable acre w/a 2,000s.f. lot size req.; in addition, the parcel would be rezoned from M-1 to M-2.	NOD	
2008118026	Annexation to Beaumont Cherry Valley Water District (MCM Poultry Farm) Beaumont-Cherry Valley Water District Beaumont--Riverside The project would consist of the annexation of three privately-owned parcels of land into the Beaumont Cherry Valley Water District. These parcels total 94.3 acres of property, owned and operated by MCM Poultry Farm (APNs 421-070-008, -009 and -010 are approximately 47.38, 46.06, and 0.77 acres in size, respectively). These parcels are within the District's sphere of influence, but outside the current service area. The annexation would result in the installation of a recycled water 2-inch service lateral line from an existing recycled water line in 4th Street into the existing poultry farm. The purpose of the annexation is to provide MCM Poultry Farm with recycled water in order to offset potable water use. Annexation would be conducted in accordance with the Plan of Services to meet requirements of Senate Bills 221 and 610. MCM Poultry Farm would be the beneficiary of this project.	NOE	
2008118027	Est C Street Park Improvements Benicia, City of Benicia--Solano As part of a recent development project at 221 First Street, the City of Benicia required the project proponent to enhance the West C Street Park as part of the project approval. The existing park will be enhanced with new park furniture, a trash receptacle, a bike pole to lock bicycles, and an installed edge strip to define the existing shoreline path. Also, the existing shoreline protections located the water's edge abutting the park at the end of C Street will be further improved with riprap for additional shoreline erosion control. The City of Benicia is the lead agency at it pertains to these park improvements with the developer of 221 First Street will pay for and install the park enhancements. The beneficiaries of this project are the properties surrounding the West C Street Park and City residents as a whole.	NOE	
2008118028	Caltrans, highway 1-1, Rattlesnake Creek Fish Passage Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Mendocino The purpose of the proposed project is to replace and upgrade a degraded fish ladder on the outlet side of the concrete arch culvert at the Rattlesnake Creek Bridge. The fish ladder and concrete apron have been damaged and are on the verge of complete failure and appear to be hindering fish passage. Caltrans proposes to remove the existing fish ladder and construct a new weir system designed to improve fish passage. In addition, the proposed project would include lengthening the wing walls on the arch culvert and installing rock slope protection	NOE

2007122092	Truckee Railyard Master Plan Truckee, City of Truckee--Placer The Truckee Railyard Draft Master Plan provides for development of an eclectic mix of building types and uses within an attractive, pedestrian-oriented neighborhood. The Draft Master Plan anticipates that development will extend easterly from the Downtown Core. The pattern of development would include the highest development intensity occurring immediately adjacent to the Downtown Core and then decrease as development extends to the north and east.	EIR	12/22/2008
2008041009	University of California (UC) Merced and University Community Plan, UC Merced Phase 2 Campus University of California, Merced Merced--Merced The proposed project consists of the development of a major research university in Merced County that will support up to 25,000 full-time equivalent students and an associated community. In 2002, the University of California prepared and certified an Environmental Impact Report (EIR) that evaluated the environmental impacts from the approval and implementation of a Long Range Development Plan (LRDP) for the development of a major research university in Merced County. Since then, the plan has changed and the amended plan must be reviewed for compliance with the California Environmental Quality Act (CEQA) before the University can adopt the amended plan. In 2004, the County of Merced certified an EIR that evaluated the environmental impacts from the development of a University Community adjacent to and south of the campus. Since then, the plan for the University Community has also changed and the amended plan must be reviewed for compliance with CEQA.	EIR	12/22/2008
2008062061	Highway 1 Union Landing Viaduct Storm Damage Permanent Restoration Project Caltrans #3 --Mendocino The California Department of Transportation (Caltrans) is proposing a storm damage permanent restoration project on Highway 1 from postmile (PM) 82.0 to 82.3, in Mendocino County north of Westport. The project is necessary due to substantial bluff erosion caused by the 2005 and 2006 winter storms. The project work includes constructing two retaining walls at PM 82.09 and 82.21. In addition, work includes replacing metal beam guardrail, improving drainage, paving, and relocating telephone utilities. The project will have appropriate sediment control devices, aesthetic treatments, revegetate distributed areas, place erosion and water quality control protection measures, and use both state and federal funding.	FIN	
2008111019	Laguna Canyon Road Stockpiles Removal Project Orange County --Orange The Co. of Orange is proposing improvements to SR133 to remove all or portions of three stockpiles of material that are adjacent to Laguna Canyon Rd. The stockpile material was left on the site after construction of the SR133 Laguna Canyon Rd. widening and realignment project (from 1405 to SR73). The stockpiles are located within Caltrans right-of-way.	MND	12/05/2008

MND	12/05/2008
2008111024	Huntington Beach Downtown Specific Plan Update Huntington Beach, City of Huntington Beach--Orange The DTSP Update proposes to reconfigure 11 existing districts into seven new districts with the intent to encourage and facilitate development opportunities within the DTSP area by revising development standards including increases in allowable densities, floor area ratios and building heights for certain districts. The DTSP Update is also proposing to amend the Downtown Parking Master Plan and incorporate Design Guidelines to create a "one-stop" document that would guide development in the Downtown area. Additionally, the DTSP Update provides recommendations for streetscape improvements, public amenity requirements, circulation improvements (including the realignment of portions of 6th Street and Walnut Avenue) and mobility enhancements within the DTSP area.	NOP	12/05/2008
2008111029	8497-8499 Sunset Boulevard Mixed Use Project West Hollywood, City of West Hollywood--Los Angeles The proposed project involves the construction of an eight-story, 62,605 square-foot mixed-use building at 8497-8499 Sunset Boulevard. The project would include approximately 9,160 square feet (sf) of commercial space, 50,329 sf of residential area, 9,647 sf of common open space in the form of decks and patios and 18,198 sf of private open space consisting of decks and yards. The proposed building would be 40 feet tall. The project requires 126 parking spaces for the combined use per City Code; and 126 spaces are proposed as part of the project. Vehicular access for all onsite parking spaces would be taken from Miller Drive at the southwestern corner of the proposed building. An architectural billboard oriented toward Sunset and La Cienega Boulevards is proposed as part of the façade above the retail space at the second level.	NOP	12/05/2008
2008111030	Sunset Plaza Expansion Project West Hollywood, City of West Hollywood--Los Angeles The proposed project involves the construction of a 16,785 square foot retail commercial building at 8600 Sunset Boulevard. The proposed building would be part of the existing Sunset Plaza shopping center. The project includes 6,885 square feet of building area at the lower "Garden" level, 6,365 square feet at the	NOP	12/05/2008

2008112011	Project #08-005 (Custom Slaughterhouse) Sutter County --Sutter A use permit to use approx. 1-acre of a 10-acre parcel for a slaughterhouse. This includes the construction of a 30'X100' structure and a 100'X440' outdoor animal holding area. The use will allow the slaughter of cows, pigs, sheep and goats. The applicant estimates 150 animals will be butchered per week. To comply with food safety requirements, all processing of the animals (slaughtering, butchering, etc.) will be done inside of the 30'X100' structure. The property is planted in Eucalyptus trees and contains a residence and detached garage which will remain. The processing building will be located approx. 800' south of Rio Oso Rd., with the animal holding area behind it, approx. 800'-1200' south of the road. The site will remain well screened within the Eucalyptus grove.	Neg	12/05/2008
2008112012	Pluim Site Development Permit SDP08-001 Tuolumne County Sonora--Tuolumne Site Development Permit SDP08-001 to allow development of the Sonora Mill Industrial Park using one of two options as follows: Option 1: Construct fourteen heavy industrial buildings, ranging in size from 4900sf. to 34132sf. Option 2: Construct nine heavy industrial buildings, ranging in size from 4900sf. to 125000sf. The project site consists of 13.1+/- net acres and is zoned M-2 (Heavy Industrial) under Title 17 of the Tuolumne Co. Ordinance Code.	Neg	12/05/2008

	will be re-paved with a 0.15" hot-mix asphalt concrete within the project limits.		
2008118040	2008-9 Tuolumne River Parkland Acquisition Waterford, City of --Stanislaus The 10.7 acre farm, containing several outbuildings and fronting on the Tuolumne river, is being aquired for use as passive public parkland.	NOE	
2008118041	California Department of Transportation (Caltrans) Stste Route 1 Culvert Replacement on unnamed Drainage at Post Mile 34.49 Fish & Game #3 --Glenn, Santa Cruz The California Department of fish and Fame (the Department) is issued Streambed Alteration Agreement (Agreement) to the California Department of Transportation (Caltrans) for the project described herein (the Project). The Project is located on state Route (SR) 1 in Santa Cruz County at postmile 34.49, approximately 5 miles north of the community of Davenport, and approximately 7 miles north of the City of Santa Cruz. The project will replace an existing corroded 223-foot long, 18-inch in diameter, corrugated metal pipe culvert that conveys an unnamed ephemeral drainage (non-fish bearing) under SR 1. The existing pipe will be backfilled with clean sand and abandoned in place and the existing headwall will be removed. The new pipe will be a reinforced concrete pipe measuring 250-feet long and 26-inches in diameter. The new pipe will be jacked in from a temporary jack pit (30X12 feet) that will be located on the east side of SR 1. No water diversion will be required as the existing pipe can convey flows until the new pipe is installed. No tress will be removed. A new headwall (12 feet long, 4.6 feet tall) and debris rack (4-feet tall) will be installed at the new inlet. Gabion baskets (88.3 cubic yards, 1400 square feet) will be placed at the outlet to dissipated energy and reduce erosion. Additionally, slurry cement backfill (11 cubic feet) will be placed around the pipe outlet, between the pipe and the gabion baskets. The slurry cement will help anchor down the end of the pipe and reduce the possibility of the last section of pipe sliding due to gravity or high speed/volume water. Equipment needs will include hacking equipment, a crane or broom truck, and a small excavator. Issuance of a Streambed Alteration Agreement Number 1600-2008-0386-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2008118042	Tentative Tract Map 17006 Renewal Adelanto, City of Adelanto--San Bernardino Request the approval of Tentative Tract Map (RENEWAL) to subdivide 14 acres into 54 single family lots in an R1 (Single Family Residential) Zone.	NOE

2008118043	Adoption of Resolution Approving an Amendment to Coachella Valley Portion of transportation Expenditure Plan and Retail Transaction and Use Tax Ordinance Highwa Corona, City of Corona--Riverside The Riverside County Transportation Commission Transportation ("RCTC") Expenditure Plan and Retail Transaction and Use Tax Ordinance, Ordinance No. 88-1 (the "Plan") was approved by 78.9 percent of the voters in Riverside County in 1988. The purpose of this plan is to relieve traffic congestion, increase safety, improve air quality, and provide funding for essential countywide transportation improvements. The plan listed the locations of anticipated improvements in Riverside County, including the Coachella Valley area. Due to unanticipated realignments in roadways and the relinquishment of State control over other roadways and highways in Coachella Valley, the Plan must now be amended to reflect current conditions and specify the current roadway segments which are eligible for funding. The resolution approving an amendment to the Plan adopted by the City on November 5, 2008 does not approve the construction of any transportation improvement, but instead approves an amendment to the Plan in order to make funding available for the planning and environmental review of future transportation improvements. The beneficiaries of these improvements include the residents of Riverside County, particularly those of the Coachella Valley area.	NOE	
2008118044	Evan Hewes Highway Bridge By-Pass Regional Water Quality Control Board, Region 7 (Colorado River Basin), Palm Desert --Imperial Bragg Crane & Rigging, Co., is requesting an after-the-fact Clean Water Act Section 404 Permit and 401 Certification for grading operations conducted on two existing bridge by-pass roads. The Applicant transported heavy equipment around two bridges between August 7-22, 2008 and graded the bridge by-pass roads to allow the transport of heavy equipment around the two bridges. The Applicant shall restore the by-pass roads to pre-existing conditions.	NOE

2008118052	<p>Application for funding of local transit operations Healdsburg, City of Healdsburg--Sonoma Filing of an application with the MTC for Transportation Development ACT and State Transit Authority funding for on-going operation of a municipal transportation system to the citizens of Healdsburg.</p>	NOE	
2008118053	<p>Research on Suppression of Sudden Oak Death in Large Forest Stands Midpeninsula Regional Open Space District Palo Alto--Santa Clara, San Mateo This project will research the effectiveness of two methods to suppress the mortality of oaks from the spread of Sudden Oak Death (SOD) in large, natural forests: a) Spraying 174 susceptible coast live oak and tanoak trees with the fungicide Agri-Fros® with operator-controlled and calibrated sprayers twice in the initial treatment year (November-December 2008 and May 2009) and annually thereafter; and b) Selective removal of 108 infested or potentially infested, small to medium-diameter California bay trees in proximity to susceptible oaks, and 20 small tanoak trees ranging from 3 to 10 inches in diameter at breast height (4.5 feet above ground level) from October 2008 through February 2009. This research is being funded by the US Department of Agriculture, which awarded a \$44,000 grant to Phytosphere Research to evaluate the treatment of susceptible oak trees with fungicide, Agri-Fros®, and selective removal of California bay trees to prevent and suppress SOD at a forest scale on public lands with high resource value. The research project is being co-sponsored by the University of California - Davis with Midpeninsula Regional Open Space District and San Francisco Public Utilities Commission providing research sites and additional funding. Result of this research will be monitored and used to determine the practicality of these treatment methods on a larger scale throughout the District's preserves. This research will also be useful to other land management entities. If a decision is made to expand the use of these treatment methods on District preserves in the future, then such actions will be evaluated under CEQA.</p>	NOE	
2008118054	<p>Piru Creek Cleanout Fish & Game #5 --Ventura The Applicant intends to alter the streambed by removing sediment and vegetation on Piru Creek at the SR-126 Bridge. Work will be conducted on the west banks and outside of the active channel area. Sediment will be removed in between the bridge pilings and the outer perimeter areas to a depth of the current active channel grade. On the downstream portion of the excavations, a channel will be created to link the excavated area to the main channel in the event that a large storm event results in the entrapment of aquatic organisms. The staging and spoil area will be located to the west of the creek on a private parcel outside of the alluvial terrace. An access road will be created on the north side of the bridge. The total amount of vegetation to be removed or disturbed will be 1.24 acres and the total vegetation, sediment removal and access areas will consist of 2.5 acres.</p>	NOE

The AR-5 zone allows a primary residence and a second unit on each parcel, provided that there is adequate sewage disposal area. The parcel is located east of Stageline Road and Rodmore Lane intersection, both east and west of Rodmor Lane, south of Oroville (Assessor's Parcel Number 027-050-013).	MND	12/09/2008
2008112032	Frank Parcel Map Subdivision and Special Permit Humboldt County Eureka--Humboldt The project proposes a subdivision of an approximately 31,911 sf parcel into four parcels. The subject parcel is developed with legal non-conforming residences. Upon approval of the subdivision, all of the residences will be situated on separate, legal parcels and conform to all zoning regulations including setbacks. Proposed Parcel 1 will be approximately 5,683 sf (net) and is developed with a single-residence and an attached secondary dwelling unit currently being rebuilt due to fire damage. The rebuild is being processed under Building Permit Number 08-0831B2. Proposed Parcel 2 will be approximately 9,018 sf (net) and is developed with a single family residence and an attached secondary dwelling unit. Proposed Parcel 3 will be approximately 5,791 sf (net) and is currently vacant. Besides improvements associated with the subdivision and the rebuild mentioned above, no new development is proposed at this time. Minimal grading is anticipated and one tree, within the proposed access road right of way, is proposed to be removed as a part of this project. Water and sewer services are provided by the Humboldt Community Services District. A Special Permit is required for an exception to the minimum lot size requirement per Humboldt County Zoning Code Section 314-99.1.2 for proposed Parcels 1 and 4 and for the secondary dwelling unit on proposed Parcel 1. The secondary unit on proposed Parcel 2 is principally permitted. The applicant has also requested approval of an exception to allow for a reduced frontage for proposed Parcel 1 and 3 as well as an exception to the right of way width requirement per Section 325-9 of the Subdivision Regulations.	MND	12/09/2008
2008112033	Tentative Subdivision Map No. 177-East Ridge Business Park and Variance Request Amador County Sutter Creek--Amador Tentative Subdivision Map proposing the division of 9.7 acres of commercial property into six parcels ranging in size from .95 to 2.20 acres; and a variance from County Code Section 19.48.110M (Minimum setback-50 ft from centerline of traveled roadbed) for proposed lots 1, 3, 4, and 6 along the property line fronting Old Ridge Road as well as for proposed lots 1, 2, 3, 4, and 5 where they front an	MND	12/09/2008

	internal road.		
2008112034	Caprice Restaurant Project Tiburon, City of Tiburon--Marin Replacement of an existing restaurant (The Caprice) with a new restaurant building, the project involves demolition of an existing two-story building and the construction of a new three-story building. The lower and main levels of the building would have approximately the same foot print as the existing restaurant, and a new 1380 sf upper level (with a 648 sf banquet room) would be constructed. The lower floor would be converted into a lounge and wine cellar. The total restaurant seating would increase from 114 seats to 125 seats.	MND	12/09/2008
2008112035	Calistoga Grove Santa Rosa, City of Santa Rosa--Sonoma Subdivide a 0.91 acre parcel into 6 lots abutting Austin Creek. Construction of 6 detached single-family homes; new private driveway accessing Calistoga Rd. Conditional Use Permit to allow a small-lot subdivision to allow for reduced setbacks in order to save a number of the mature existing trees. The lots will range from 6,436 sf to 6,900 sf. However, because the private drive will run through five of the six lots, Lots 4,5 and 6, will have less usable space. The proposed residence include both single and two-story models, and will range in size from 1,295 sf to 1,458 sf. Approximately 18 of the 44 trees will be removed.	MND	12/09/2008
2008112036	Zone Amendment 07-025 and Use Permit 07-025 (Stierli) Shasta County Shasta Lake--Shasta A Zone Amendment from the R-R-MRB zone district to the MU-MRB and Open Space combined with the MRB (OS-MRB) zone district in conjunction with recognition of an existing contractor's office and a proposed contractor's yard with outdoor storage. The contractor's yard would include two approximately 5,000 sf buildings. One of the buildings would be used primarily for storage of tools and materials, while the other would be used as shop/equipment maintenance. The project would also include paving/graveling of driveway encroachments, driveways, parking areas, an outdoor storage area, and installation of fencing and landscaping.	MND	12/09/2008
2008112039	Zone Amendment 07-031 and Parcel Map 07-041 - Lasater Shasta County Anderson--Shasta A Zone Amednment from the Unclassified zone district to the Part-Time Agricultural (A-1) zone district in conjunction with a two-parcel residential land division with a remainder parcel. The land division proposes the creation of two five-acre parcels and a ten-acre remainder parcel. The project woul require minor road improvements to the access and improvements of the secondary egress road.	MND	12/09/2008
2008111037	McCabe Ranch II Specific Plan EIR Imperial County --Imperial The proposed Specific Plan would consist of approximately 468 acres within the Heber Specific Plan Area of Imperial County. It would be comprised of two communities, a gated community with 426 residential units and private and public parks/open space, and a conventional residential area with approximately 1,842	NOP	12/09/2008

	residential units, two elementary school sites, two commercial areas, a multi-purpose community area, and public parks/open space..		
2008112041	Sciortino Ranch Brentwood, City of Brentwood--Contra Costa The proposed project would include the development of up to up 468 multi-family apartments (including 91 affordable residential units), 140 single-family detached homes, 107,267 sq. ft. of retail/office/commercial, 228, 690 sq. ft. of institutional, and 5.1 acres of park. The applicant is requesting the following entitlements for the proposed project: Approval of a General Plan Amendment; Approval of an amendment to the PD-55 Zone inclusive of a Sub-Area Map, Zoning Matrix, and associated Design Guidelines; Vesting Tentative Map; and Approval of a Vesting Tentative Subdivision Map to subdivide one legal parcel (inclusive of APNs -016-170-011 and -012) into 11 legal parcels.	NOP	12/09/2008
2008111036	Coker Ellsworth Conditional Use Permit and Tract Map ED 05-162 San Luis Obispo County Arroyo Grande--San Luis Obispo Request by Coker Ellsworth, Inc. for a Conditional Use Permit and concurrent Vesting Tentative Tract Map (Tract 2424) to subdivide an existing 1.69 acre parcel into nine parcels as part of a planned development. The subdivision will result in seven residential lots varying in size from 1,492 sf to 2,224 sf, a mini-storage lot of 34,500 sf, and a non-buildable lot of 26,685 sf to be held in common undivided interest by the owners of the other eight lots. The planned development will include seven two-story townhouse units varying in size from 1,240 sf to 1,522 sf. Each unit includes an attached garage of 494 to 519 sf. The mini-storage lot will be developed with two buildings, one single-story, one two-story, with a total structural area of 23, 342 sf. The number and size of the mini storage units has not been specified. The project proposes to meet a reduced agricultural setback buffer of 120 ft. No residential habitable space will occur within the buffer area. Grading plans call for the use of retaining walls of up to 3.5 ft along the parcel's northern boundary and up to 6.5 ft along the parcel's southern boundary. Development of this project will result in disturbance of the full 1.69 acre parcel in order to accomodate grading, on-site roads, drainage improvements, a retention basin, and improvements to Halcyon Road. The project site is within the Residential Multi-Family land use category and is located on east side of South Halcyon Road (addressed as 825 South Halcyon Road), at Temple Street, approximately 400 ft south of The Pike, and south of the City of Arroyo Grande. The site is in the San Luis Bay (Inland) Planning Area.	Neg	12/09/2008

	Number CAD 003 963 592, to operate hazardous waste storage and treatment units in Santa Clara, Santa Clara County, California. ECS Refining is a metal recycler that operates a hazardous waste storage and treatment facility to reclaim precious and base metals from photochemical wastes, metal-bearing wastewaters, tin/lead solder dross and related wastes from electronic manufacturing, and other metal-bearing solid hazardous waste. The renewed permit will allow ECS Refining to continue to store and treat these metal-containing hazardous wastes. The permit will also authorize ECS Refining to add two new permitted hazardous waste units (E-Waste/Printed Circuit Board Shredder and CRT Glass Washing Unit). The E-Waste/Printed Circuit Board Shredder is already installed at the facility to shred universal waste and will only be authorized to treat hazardous waste if this project is approved. The CRT Glass Washing Unit will not be operated until after completion of the Bay Area Air Quality Management District permitting process.		
2008112037	Parcel Map 08-023 (AMDUN, LLC) Shasta County Anderson--Shasta The proposal is to divide a 72.2 acre parcel into a 20.2 acre parcel and 52 acre remainder parcel.	Neg	12/09/2008

1999072014	City of Davis General Plan Update and Project EIR for Establishment of a New Junior High School Davis Joint Union School District Davis--Yolo The Addendum was prepared for the implementation of recommendations from the General Plan Update Steering Committee on processing applications for possible residential development in the Cit. of Davis and minor amendments to the Cit. of Davis general plan text. The proposed project includes: 1. An approach to processing residential development through 2010; 2. A list of sites that would be processed upon application for entitlements, all of which would be subject to discretionary review; 3. Continued processing of other sites that would not provide units before 2010 and would be subject to discretionary review and environmental impact reports; 4. Amendments to the GP text that would delete the limit of 64,000 population in 2010 and remove the requirement for growth management allocation for infill developments; and 5. General policy language on mix of residential units. Modifications of the Steering Committee recommendations are also addressed in the Addendum.	NOD

The DPH developed the Beach Safety Program in response to Assembly Bill (AB) 411 (State. 1997, Ch. 765). AB 411 mandated that beaches with storm drains that discharge during dry weather, that are visited by more than 50,000 people per year, be monitored at least weekly from April 1 through October 31 by the local health officer or environmental health agency. The monitoring provisions are not mandatory in years that the state does not provide sufficient funds. During Fiscal Year 2007-2008 DPH distributed a total of \$1,098,851 for the Beach Safety Program. However, for Fiscal Year 2008-2009 the Budget proposed a 10 percent reduction in state funds. As a result, the proposed amount for the program was \$984,000. The Governor used line item veto authority to delete the program funding from the Budget due to severe General Fund deficit. The grant awarded to DPH by the State Water Resources Control Board will allow the local environmental health agencies to continue monitoring according to the requirements of AB 411.</p>	NOE

	as evidenced by AB 411 bacteria exceedences will be developed. From this list, several beaches will be selected to have source identification projects conducted by SCCWRP. State Board staff will coordinate with the Interested jurisdictions associated with the beaches on the list, and facilitate the source identification studies. One outcome of each source identification study will be a list of recommendations for potential project(s) that will reduce or eliminate the contributing source(s). A broader outcome will be standard source identification protocols that will be made available on the State Water Board website for other communities interested in reducing bacterial contamination from their beaches and waterways.		
2008118073	Proposed Acquisition/San Bernardino Diagnostic Laboratory Food and Agriculture, Department of San Bernardino--San Bernardino The State Department of Food & Agriculture is proposing to acquire this 2 acre parcel that is occupied by a number of building including a main office, 3 mobile offices and out building. The site is currently leased by the California Department of Food & Agriculture as a diagnostic laboratory for animal diseases facility. Upon acquisition, the facility will be fully owned by the State of California.	NOE	
2008118074	MVU UH - Office-Classroom Modules Placement Project Forestry and Fire Protection, Department of El Cajon--San Diego This project involves the placement of three (3) modules within the existing Unit Headquarters compound. Module #1, an office module (28' X 50'), will be placed in an area immediately north of existing Emergency Command Center (ECC) building. The area will be cleared and leveled. Includes moving non-native ornamental plants and one ornamental tree, minor grading of existing landscaping and removal of concrete ramp to existing ECC building for the placement of the office module. Trenches of up to 36" deep (for sewer) and up to 24" deep (for electrical, water & cabling) will be dug as needed. Module#2, a classroom module (24' X40'), will be placed on the west side of the access road going to the Fire Prevention and Pre-fire Planning buildings. The area will be cleared of ornamental ground cover including moving two palm trees and minimum movement of dirt for leveling. Module #3, a classroom module (24' X40'), will be placed on the southwest side of the road directly across from the Pre-fire Planning building. The area is clear of vegetation and the ground will need minor leveling and minimal dirt movement. Trenching will be conducted underground electrical lines to both Modules #2 and #2.	NOE	
2008118075	ABANDONMENT OF A 10-FOOT WIDE DRAINAGE EASEMENT AT 9605 OATES DRIVE Sacramento County --Sacramento The proposed project consists of the Abandonment of a 10-foot wide drainage easement on the subject property.	NOE	
2008118076	Extension of Time Exemption Water Resources, Department of Sonoma--Sonoma On October 4, 1999, the Permittee filed a petition requesting a two-year extension of time within which to apply water to beneficial use in Sonoma County. The Permittee states that the six-acre-feet has been put to full beneficial use. A	NOE

	two-year extension is need to cover the year of maximum use. No construction will occur.		
2008118077	Tehama County Juvenile Justice Center Shower Restoration Project Tehama County Red Bluff--Tehama The project consists of the restoration of existing shower facilities at the Juvenile Justice Center.	NOE	
2008118078	Tehama County Jail Water Heater Replacement Project Tehama County Red Bluff--Tehama The project consists of the replacement of the existing water heater in the hail facility.	NOE	
2008118079	Clarks Corner lone, City of lone--Amador The applicant, Clarks Corner, has submitted plans for a façade enhancement that would involve replacement and enhancement of the trim around four windows, replacement of one of these windows, and replacement of two doors at 12 W. Main Street, APN 004-174-004. The subject property is located within the Architectural Heritage and Historic Preservation District and requires the issuance of a Main Street Architectural Review Entitlement before any building permits can be issued.	NOE	
2008118080	Framework for Planning, Entitlement Review, and Development - CEQA Guidelines lone, City of lone--Amador The project involves an update to the City's California Environmental Quality Act (CEQA) Guidelines. The Guidelines provide specific direction to how the City reviews projects and address the CEQA process. The Planning Commission reviewed the draft updated Guidelines as part of a larger project that spells out the City's procedures for reviewing and permitting new development in the City - the Framework for Planning, Entitlement Review, and Development and has recommended approval.	NOE	
2008118081	Home Occupation Ordinance Update lone, City of lone--Amador The City Council adopted a Resolution and Ordinance updating the Home Occupation regulations for the City. The provisions provide greater flexibility for the establishment of home occupations and provide uniform performance standards for the uses to ensure compatibility with neighboring uses.	NOE	
2008118113	Verizon Wireless-Cell Tower Eureka, City of Eureka--Humboldt Verizon Wireless is requesting a conditional use permit to allow the construction of a 60' tall cell tower that would be stealthed to look like a three legged bell tower. The project would also include a fenced 25' X 40' area for installation of telecommunications equipment, including standby diesel generator with 210 gallon fuel tank and a 12' X 16' equipment building. The surrounding fence would be a 6' tall staggered fence. The exterior of the equipment building shelter will match the style of the existing building to the south and will have a maximum height of 12'; the exterior metal generator will be painted a color to blend with the surrounds. 2008114001	North/South Indian Roads-Circulation and Safety Improvements Bureau of Indian Affairs --Del Norte Unidirectional construction of bicycle paths and pedestrian walkways and the replacement of cul along segments of North and South Indian Road.	EA	12/12/2008
2006061064	Main Street Marketplace Hesperia, City of Hesperia--San Bernardino The project proposes the construction of up to 425,038sf. of commercial retail uses on a site totaling approx. 43.84 acres. All necessary infrastructure will be constructed as part of the Project. Please refer also to the Project Description presented at EIR Section 3.0.	EIR	12/29/2008
2007122072	Sonora Lowe's Home Improvement Warehouse Project/Old Wards Ferry Road Realignment Project Sonora, City of Sonora--Tuolumne The proposed action consists of two projects: 1. The development of a 138,920sf. Lowe's Home Improvement Warehouse on 10.74 acres; and 2. The realignment of approx. 1,200 lineal feet of Old Wards Ferry Rd. on 8.85 acres. The Lowe's project involves re-zoning the site from Limited Manufacturing (ML) to General Commercial (CG). The road realignment involves a conforming General Plan Amendment that would re-designate the new roadway alignment from Heavy Commercial to Public/Quasi-Public. As part of the road realignment, the existing Sierra Railroad grade crossing would be realigned with the new roadway and additional safety measures would be installed. A signal would also be installed at the intersection of Sanguinetti Rd./Greenley Rd./Old Wards Ferry.	EIR	12/26/2008

2008081009	EDCO Recycling and Transfer Facility Signal Hill, City of Signal Hill--Los Angeles The proposed project is the development of a 68,000 sf recycling and transfer facility on a 3.75-acre site in the City of Signal Hill. The state-of-the-art facility will serve as a point to accept, process, recover, and transfer mixed municipal waste and residue following diversion activities to an appropriate permitted disposal facility. The Project component areas include office administration, material recovery operations, transfer/self haul/load out, green waste, construction debris, and maintenance. The facility will be equipped with emission control systems for air quality, noise, odor (Rule 410), and dust. Specific truck routes will be designated for haul trucks.	EIR	12/26/2008
2007112038	Intermediate Care Facility (ICF) at the California Medical Facility (CMF) Corrections and Rehabilitation, Department of Vacaville--Solano To address mental health care needs in compliance with court requirements, CDCR is proposing to construct an Intermediate Care Facility (ICF) at the California Medical Facility (CMF). The proposed ICF would provide up to 64 inpatient mental health beds, as well as space for treatment and administrative and support services. The 44,000sf. facility would be constructed on existing CMF property, as would an associated parking lot with approx. 200 spaces. The existing secure perimeter, consisting of fencing and a perimeter road, would be expanded at the location of the ICF to enclose the new facility within the larger existing prison. Other improvements associated with the project include the extension of existing water, sewer, natural gas, and electrical infrastructure to the new facility. The area of disturbance for the ICF and all associated components (including the parking lot) would total approx. 9 acres. The project has the potential to increase the capacity of CMF by 64 inmates, from an existing population of approx. 3,047 inmates to a future population of approx. 3,111. Staffing increases associated with the new facility would consist of as many as 163 new positions spread over three shifts.	MND	12/11/2008
2008111047	Land Use Ordinance Amendment San Luis Obispo County --San Luis Obispo Modify County's standards for: 1. Mobile home park closure, subdivision, conversion to other uses, and 2. Condominium conversions.	MND	12/11/2008
2008111049	Regional Treatment Plant Expansion Selma-Kingsburg-Fowler County Sanitation District Kingsburg--Fresno The project consists of the construction of two additional evaporation/percolation ponds to a depth of 14.5ft. with a bottom area totaling 26 acres, to be located on a portion of the existing site of the facility located just north of E. Conejo Ave. An existing effluent line will also be converted to a force main to serve the new ponds. The project will involve excavation of approx. 630,000 cubic yards of soil that will be stored in a spoils area on site. These improvements will increase the average annual capacity of the facility from 5 to 6 mgd.	MND	12/11/2008

2008111050	General Plan Amendment/Zone Change 08-1079, Annexation No. 614 Bakersfield, City of Bakersfield--Kern A concurrent General Plan Amendment/Zone Change/Annexation. The General Plan Amendment from UER and ER to GC (General Commercial), CO (Office Commercial), and SR (Suburban Residential) and the Zone Change from A to C-2 (Regional Commercial), C-O (Professional and Administrative Office Zone) and R-1 (One Family Dwelling) on the same 34 acre site. The proposal also includes the annexation of the site to the City of Bakersfield.	MND	12/11/2008
2008112044	Cedar Boulevard Sanitary Sewer Rehabilitation Union Sanitary District Newark--Alameda The project consists of rehabilitating 8,193ft. of the existing Cedar Blvd. trunk sewer which extends along Cedar Blvd. between Newark Blvd. and Willow St. in the City of Newark. The trunk sewer is deteriorated due to hydrogen sulfide corrosion and will be rehabilitated using the trenchless Cured-In-Place-Pipe (CIPP) method. Any minor excavation that may be necessary for the Paget will be within the same 5 to 5.5ft. wide (min.) trench that was originally excavated and backfilled.	MND	12/11/2008
2008112045	Valencia Creek Sewer Relocation Project Santa Cruz County --Santa Cruz The Valencia Creek Sewer Replacement Project involves the abandonment of existing sewer pipelines located underneath State Route 1 in Aptos, the construction of replacement pipelines in adjacent local streets, and the installation of two pump stations.	MND	12/11/2008
2008112046	Ronald E. & James B. Geib Vesting Tentative Parcel Map (TPM-08-03) Siskiyou County --Siskiyou The applicants are proposing to divide 783 acres into a 77 acre parcel with a 706 acre remainder parcel.	MND	12/11/2007
2008112047	Benton Airpark Runway Safety Area Improvements Project Redding, City of Redding--Shasta Runway 33 will be shifted 190ft. southward to provide for a runway safety area (RSA) at each end of the runway. The project will bring the facility up to Federal Aviation Administration (FAA) standards for runway design. The project includes a perimeter road around the runway for maintenance vehicles, lighting, and drainage facilities. The project will result in placement of fill in a small man-made drainage as well as on top of closed landfill. The source of fill will be an on-site borrow location which will then serve as a detention facility for the airport. All improvements are located on existing City-owned land.	MND	12/11/2008
2004102018	East Natomas Education Complex Grant Joint Union High School District Sacramento--Sacramento The SEIR will address the environmental impacts associated with changes to the project from that which was analyzed in the May 2006 Final Environmental Impact Report. These changes involve a temporary access road, emergency access road, detention basin, ENEC Drive, excavation of the project site, and public services.	NOP	12/11/2008

2008111046	City of Torrance General Plan Update EIR Torrance, City of Torrance--Los Angeles The proposed project in an update to the City of Torrance General Plan.	NOP	12/11/2008
2008111048	Forest Lawn Memorial Park - Hollywood Hills Los Angeles, City of Los Angeles, City of--Los Angeles The Project Applicant, Forest Lawn Memorial-Park Association, proposes a long-term Master Plan for its Hollywood Hills property to continue its current range of cemetery-related uses. The Project seeks approval to construct approximately 22,500 square feet of floor area for new structures (including such structures as a new church and reception-related uses, administration space, and a crematory), approximately 1,000,000 square feet of non-occupied floor area (for such uses as burial garden structures, wall crypts and columbaria), and approximately 200,000 new internet sites. It is estimated that over a five-year construction period (by year 2015), approximately 3.3 million cubic yards of earth would be graded. Net export during grading will be approximately 720,000 cubic yards. In addition, up to 400,000 cubic yards of dirt will be exported in connection with grave preparation from 2010 to 2050. It is estimated that construction of the new structures would occur over an approximately 40-year period from 2010 to 2050. The sale of internet sites is expected to occur through year 2050 and beyond. In order to provide for these future needs, Forest Lawn seeks a Public Benefits approval, Development Agreement, Site Plan Review findings, grading and stockpiling permits, haul route approval and related land use and building permits as required for the Project and any additional actions that may be determined necessary. (Forest Lawn will also request a Protected Trees Removal permit through Department of Public Works.) In addition, regulatory permits from the Department of Fish and Game, Regional Water Quality Resources Board and Army Corps of Engineers will be required.	NOP	12/11/2008
2008112042	DNA Light Rail Transit MOS-1 Project Sacramento Regional Transit District --Sacramento The MOS-1 project will extend the existing Sacramento Light Rail System in Downtown Sacramento. The EIR will evaluate the MOS-1 Alternative and a No-Action Alternative. The Alternatives will be developed further during the preparation of the Draft EIR, if needed.	NOP	12/11/2008
2008112043	EBMUD Camanche Permit Extension East Bay Municipal Utility District --Alameda, Contra Costa, Amador, Calaveras, San Joaquin The proposed project would extend the term of the existing Camanche water right Permit 10478 through the year 2040. Extending the Camanche Permit would allow EBMUD additional time to apply the water provided under Permit 10478 to municipal and industrial use within EBMUD's designated service area. Additionally, the full entitlement of Permit 10478 through 2040 is crucial for EBMUD to maintain operational flexibility to meet future projected water demand and address system vulnerabilities associated with several factors, including emergencies and potential effects of climate change. 1999112034	Town of Windsor Master Plan for Treatment Storage and Disposal Windsor, City of Windsor--Sonoma The Cit. of Santa Rosa constructed the Geysers Pipeline Project and began recycled water delivery in 2003 under an Agreement with the steamfired operator. The Town of Windsor operates a water reuse system similar to but smaller than Santa Rosa's for which recycled water flows are nearing capacity if its disposal system. An agreement between the Cit. of Santa Rosa and the Town of Windsor would allow the Town of Windsor to deliver recycled water through the Geysers Pipeline through the year 2037. The Town of Windsor would construct the necessary facilities to connect to the existing Geysers pipeline, and would provide and pay for the power necessary to operate its facilities. The City would operate and maintain the Town's Geysers pipeline infrastructure.	NOD	
2008061087	Batiquitos Gravity Sewer Leucadia County Water District Carlsbad--San Diego The project is proposed by the Leucadia Wastewater Dist. to improve the reliability and efficiency of an existing 18-in. gravity sewer main by replacing it with a new 24-in. diameter PVC sewer main within Carlsbad Blvd./N. Coast HWY 101. The existing 18-in. diameter pipeline would be abandoned in place. The project includes all trench resurfacing and site restoration, including fencing and landscaping at the Batiquitos Pump Station, to return the project site to its original condition. Construction is proposed outside the bird-breeding season and it tentatively scheduled for Dec. 2008 through Feb. 2009, a period of approx. 12 weeks.	NOD	
2008081094	Regional Public Safety Training Center - Phase 3 Santa Fe Springs, City of Santa Fe Springs--Los Angeles The Rio Hondo Regional Public Safety Training Center - Phase 3 is a proposed fire training facility in an existing industrial area. The facility would be composed of primarily asphalt concrete pavement with concrete (Initial Study, Figure 2- Local Vicinity) and gravel areas located on the north and south property lines lot. The eastern portion of the property, along Shoemaker Ave, has existing landscaping (Initial Study, Figure 3, Plot Plan). The Rio Hondo Regional Public Safety Training Center - Phase 3 would contain props that are in two main categories: Hazardous Materials training props and Urban Search and Rescue training props. No hazardous materials or chemicals will be used in any of these props. Some of the hazardous materials props will be plumbed with compressed air lines and water to simulate leaking equipment to provide safe yet realistic training to trainees.	NOD

	will involve removal of all non-native trees and vegetation, grading and backfilling areas in order to stabilize the stream bank(s), and replanting the stream bank(s) with native riparian trees and vegetation as well as installing temporary irrigation to increase plant survivorship. The applicant has stated that construction equipment will not need to be operated in Sorich Creek. Issuance of a Streambed Alteration Agreement Number 1600-2008-0450-3 is pursuant to Fish and Game Code Section 1602.		
2008118091	Sonoma Creek Bank Repair Fish & Game #3 --Sonoma The applicant proposes to stabilize a stream bank along Sonoma Creek in Glen Ellen. During the storm event of New Year's 2005-06, some of the bank eroded way and has been unstable ever since. The applicant proposes to stabilize approximately 60 feet of stream bank using bio-technical approaches. The applicant proposes to construct a post and wire revetment fence that will run parallel and adjacent to the bank, with approximately two feet of separation between the fence and the bank. The applicant will use a hydraulic hammer to drive in steel galvanized steel posts (2 inches in diameter by 8 feet lone). These posts will be spaced approximately every four to five feet, and will provide a frame for a galvanized mesh wire fence (2-inch X 4-inch). Collectively the fence and galvanized posts shall be properly anchored to a location higher up on the bank. Native soil and gravels will be backfilled between stream bank and the galvanized fence. A coir blanket (e.g. North American Green CB125) will be properly placed between the galvanized fence and the native fill material. This blanket will be properly anchored such that the blanket will not fail during high flow events. Native plants such as willow, red alder, box elder, snowberry, dogwood, and Santa Barbara sedge will be planted throughout the galvanized fence and the top of the native fill material. Issuance of Streambed Alteration Agreement Number 1600-2008-0355-03 is pursuant to Fish and Game Code Section 1602.	NOE	
2008118092	North Marin Water District Perimeter Road Horizontal Directional Drill Project Fish & Game #3 Novato--Marin Issuance of Streambed Alteration Agreement Number 1600-2008-0489-3 to construct a portable water pipeline to feed the North Marin Water District's Amaroli water tank. The pipeline will have a diameter of 16 inches and be built of PVC or HDPE material and span approximately 1,400 feet; a partial length of this pipeline will span under Pacheco Creek. The North Marin Water District has proposed to utilize a horizontal directional drill (HDD) to minimize environmental impacts to the site and avoid Pacheco Creek. Construction will be accomplished using an HDD operated from outside the riparian zone of Pacheco Creek. The applicant has stated that no construction equipment will enter or be operated in Pacheco Creek.	NOE	
2008118093	Foundation Replacement at 41 Oakvale Avenu Fish & Game #3 Berkeley--Alameda The applicant proposes to replace failing rock bank walls located under an existing single family home with reinforced concrete walls. This Includes partial replacement of existing foundation. Issuance of a Streambed Alteration Agreement Number 1600-2007-0327-3 is pursuant to Fish and Game Code Section 1602.	NOE

2008118094	Sleepy Hollow Divide Marin County Parks and Open Space Department Preserve Bank Stabilization Project Fish & Game #3 San Rafael--Marin Issuance of Streambed Alteration Agreement Number 1600-2008-04501-3 is to re-grade and stabilize an area of "soil slippage" from a portion of the upper stream bank of Miller Creek adjacent to Old Lucas Valley Fire Road. Re-graded areas will be stabilized utilizing a variety of stabilization materials including North American Green C125BN erosion control fabric and clean fill. The Applicant has stated that the project will not require the removal of any native trees or other native vegetation in order to complete the project. The applicant has also stated that no grading will occur within the wetted area of the stream.	NOE	
2008118095	Santa Rosa Gold and Country Club Storm Drain outfall Replacement Fish & Game #3 Santa Rosa--Sonoma Santa Rosa Gold and Country Club proposes to replace an existing storm drain outfall consisting of two 12-inch and one 6-inch pipes with two 18-inch pipes. The new 18-inch pipes are required to prevent flooding on the golf course, as it collects all of the storm water runoff from the adjacent street at this specific site. The outfall drains into Irwin Creek, a tributary to the Laguna de Santa Rosa. The headwall and a section of the adjacent golf cart path will have to be removed and rebuilt in order to replace the storm drain outfall structure. All proposed work within the creek is anticipated to be completed within two days of the start of construction, and before December 31st, 200. Issuance of a Streambed Alteration Agreement Number 1600-2008-0424-3 is pursuant to Fish and Game Code Section 1602.	NOE	
2008118096	Pacific Coast Procedures Oroville Industrial Wastewater Pipeline Replacement Project Oroville, City of Oroville--Butte Replacement of existing pipeline carrying cannery wastewater to an existing treatment and disposal site. Beneficiaries are the City of Oroville and Pacific Coast Producers.	NOE	
2008118098	Habitat Restoration Project at Camp San Luis Obispo (CSLO) Military Department - Office of the Adjutant General San Luis Obispo--San Luis Obispo The overall goal of this effort is to protect, restore, enhance, and sustain CSLOW training lands within the Chorro Creek watershed (mainly upper areas where terrain is steep and erosion potential is high) for lone term use. With the support of the California Conservation Corps crew, CSLO implements actions directed at minimizing sediment migration into the Morro Bay estuary and Chorro reservoir. Enhancement will include but not limited to; reduction of deposition into drainages, restoring and enhancing ecosystems and developing and maintain habitat for sensitive flora and fauna species. 2008111052	<p>Thinners and Multi-Purpose Solvents South Coast Air Quality Management District Diamond Bar--Los Angeles</p> <p>The objective of PR 1143 is to implement Control Measure CTS-04 in the 2007 Air Quality Management Plan (AQMP) by reducing emissions of volatile organic compounds (VOC) from the use of consumer product paint thinners and multi-purpose solvents that are typically sold through retail outlets or through any persons acquiring a consumer product for resale of these materials within SCAQMD's jurisdiction. PR 1143 would: 1) effective January 1, 2010 , establish a VOC content limit of 25 grams per liter of material (0.21 pound per gallon of material) for consumer paint thinners and multi-purpose solvents; 2) establish a self-through provision that would allow the use of consumer paint thinners and multi-purpose solvents manufactured prior to January 1, 2010 to be used up to six months after the final compliance date; 3) require manufacturers and their distributors to submit an application to obtain a distributor or manufacturer's identification number by July 1, 2009; etc.</p>	EA	12/12/2008
2008031109	<p>Charnock Well Field Restoration Project Santa Monica, City of Los Angeles, City of--Los Angeles</p> <p>The project involves implementation of a water treatment system and other improvements that would help to remove groundwater contamination from the Charnock groundwater sub-basin and restore this resource as a water supply for the City of Santa Monica. As part of the project upgrades, improvements will be required at two existing City-operated water service facilities. The City is planning to return the Charnock groundwater wells to full production using a treatment system to be constructed at the Charnock well field. This system will use granular activated carbon filtration to treat water from the three contaminated wells at the well field. Water treatment improvements are also proposed for the Santa Monica Water Treatment Plant. Improvements for the SMWTP may include two salt water wells, as part of a water softening system.</p>	FIN	
2008111051	<p>Paradise Park Way Project San Bernardino County Big Bear Lake--San Bernardino</p> <p>The proposed project is the development of a public park on a 5.48-acre vacant site located on the east side of Paradise Way, south of North Shore Drive (Highway 18) and north of Big Bear Boulevard (Highway 38), in the unincorporated community of Big Bear City. The proposed park is being developed by San Bernardino County Special Districts Department (SDD) and will be operated by Big Bear Valley Recreation and Park District, a division of SDD.</p>	MND	12/12/2008

2008111054	<p>Development Permit 2 No. 08-15, Proposed Auxiliary Parking Lot San Bernardino, City of Loma Linda--San Bernardino</p> <p>The project proponent is requesting the development of a 0.82 acre site to serve as an auxiliary parking lot for the newly constructed office building located northeast and adjacent to the project site (APN 0135-191-11). The County of San Bernardino Transitional Assistance Department (tenant) will occupy the newly constructed office building. Currently an earthen drainage channel transects the southern portion of the site from east to west. The project includes improvements to the drainage channel including the construction of an arch culvert with a height of six-feet to allow for the construction of the parking lot, and to prevent the loss of pollutant attenuation in the channel. A sediment chamber will be constructed at the east end of the structure to allow for water borne sediments in the inflow. A manhole will be constructed in the sediment chamber to allow for access and maintenance. Two additional manholes will be constructed in the center and at the west end of the arch culvert for accessibility. The culvert will have an open earthen bottom to preserve the soft-bed channel. The project proponent is proposing a drainage easement for the City of San Bernardino. As required in the project's Water Quality Management Plan, the site-owner shall be responsible for maintenance of the drainage structure.</p>	MND	12/12/2008

2004051023	Upper Santa Ana River Wash Land Management and Habitat Conservation Plan San Bernardino Valley Water Conservation District Highland, Redlands--San Bernardino The Upper Santa Ana River Wash Land Management and Habitat Conservation Plan is a multifaceted, multi-agency, and multi-property owner project that provides for the coordination and accommodation of existing and anticipated future activities on the project site.	FIN	
2008082087	State Route 1 Point Arena/Westport Sink Storm Damage Permanent Restoration Project Caltrans #3 Point Arena--Mendocino The heavy rains that occurred during the 2005/2006-winter season caused large amounts of erosion to occur at three locations along State Route (SR) 1 in Mendocino County. The pavement at post mile (PM) 14.85 in Point Arena failed from undermining and piping of storm water through voids at failing joints of a large culvert. At PM 74.74 south of Westport, scour and headcutting (abrupt change in elevation causing erosion) at the outfall of a 24-inch (in) reinforced concrete pipe culvert has caused the loss of part of the roadway embankment as well as several sections of pipe. At PM 75.89, a portion of roadway has settled two to three feet as part of a larger landslide that includes the slopes above and below the road. Additionally, headcutting (abrupt change in elevation causing erosion) of the steep embankment under the outlet of the downdrains is working up toward the roadway and adds a considerable amount of erosion to the beach and bluff environment every time it rains.	FIN	
2002021009	Schuyler Heim Bridge Replacement and SR-47 Expressway Project Caltrans #7 Long Beach, Los Angeles, City of--Los Angeles The proposed Schuyler Heim Bridge Replacement and SR-47 Expressway project would replace the seismically-deficient vertical lift bridge with a fixed span bridge across the Cerritos Channel, and either construct an elevated four lane expressway from Terminal Island to Alameda Street, or construct an elevated four lane extension of SR-103 to Alameda Street. Six alternatives are evaluated in the Draft Recirculated EIR/Draft Supplemental EIR.	JD	12/29/2008
2008111055	Puerta La Cruz Wireless Telecommunications Facility Major Use Permit San Diego County --San Diego The project is a Major Use Permit for an unmanned wireless telecommunication facility. The project consists of six (6) Verizon Wireless panel antennas mounted to 50 ft high faux cross-arm utility pole. AT&T will also flush mount three (3) antennas below the Verizon cross-arm configuration. The proposed faux cross-arm utility pole can accommodate one (1) additional wireless carrier for a total of three (3) carriers. Verizon's supporting equipment consists of four (4) indoor radio cabinets, one (1) electric meter panel, and one (1) telephone interface, which will be located inside a 11'-6" x 16'x10' concrete prefabricated equipment shelter. Verizon's equipment shelter is equipped with a wall mounted Bard air conditioning unit, Model Wh/WA 602 Packaged Terminal Air Conditioners. In addition, Verizon is proposing an on-site emergency 30 kw diesel generator (Generac SD303 Diesel Generator) mounted on a 5'x10' concrete slab located immediately west of Verizon's proposed equipment shelter. AT&T's supporting equipment consists of	MND	12/15/2008

	four (4) indoor radio cabinets, one (1) electric meter panel, and one (1) telephone interface, which will be located inside a 11'x-6" x 16'x10' concrete prefabricated equipment shelter. AT&T's equipment shelter is equipped with wall mounted Marvair air conditioning units, Model A VP60 Compac II Packaged Air Conditioners. There is also an 11' -6 x 20'x10' concrete prefabricated equipment shelter with two (2) air conditioning units to accommodate an additional future carrier. The proposed lease area and equipment will surrounded by 61' x 36' x 6' CMU wall enclosure.		
2008111057	Specific Plan Amendment No. 2008-163/Amended Site Plan No. 2008-164 (Tenaya Lodge Expansion) Mariposa County --Mariposa The Specific Plan Amendment would amend the Fish Camp Specific by rezoning 6.07 acres of the 36.43 acre Tenaya Lodge site from Single Family Residential (2.5 acre minimum) to Resort Commercial to ensure that the expanded lodge structure will be located in the Resort Commercial zone. The Amended Site Plan would amend the site plan approved for Conditional Use Permit No. 204 to allow for the expanded facility and use footprint of 22,135 sf.	MND	12/15/2008
2008112053	PA-0800108 San Joaquin County Stockton--San Joaquin A Use Permit for a community church with a maximum capacity of 282 people (Use Type: Religious Assembly-Community). The proposed religious assembly consists of the construction of a 13, 822 sf multipurpose building to be used as an office, prayer hall, classrooms and library.	MND	12/15/2008
2008112054	King Minor Land Division (PMLD T20070354) Placer County Colfax--Placer Project proposes to subdivide the parcel into four single-family residential lots ranging from 2.3 to 2.69 acres and construct road improvements.	MND	12/15/2008
2008112056	Sonntag General Plan Amendment, Property Rezone (GR-08-6) and Tree Felling Permit (TPC-08-9) Applications Paradise, City of Paradise--Butte Requested change the General Plan land use designations of Town Residential (TR) and Community Services (CS) currently assigned to a +/- 3.12 acre land area to Town Commercial (C-C) and a tree felling permit application proposing to fell +/-113 qualifying trees to accommodate the establishment of a +/- 40,000 sf mixed-use commercial project upon a +/- 5.28 acre land area.	MND	12/15/2008
2008112059	California Health Care Facility, Vacaville California Prison Health Care Receivership Vacaville--Solano The CPR proposes to construct a health care facility with up to 1,400 beds. The facility would consist of housing clusters, a diagnostic and treatment center, an armory, warehousing and support facilities, a central plant, outdoor recreation facilities, a gatehouse, staff facilities, and parking areas. Approximately 1,200 parking spaces would be constructed for new staff and visitors. A lethal electrified fence would surround the secured area. In addition, a vehicle sally port would be incorporated into the fencing. It is anticipated that up to 20 patients would check into and out of the facility and 75 to 100 visitors would to be received at the facility	NOP	12/15/2008

2008061026	R2007-01829 (Bio-refinery) Los Angeles County --Los Angeles The project consists of the construction, operation, and maintenance of a bio-refinery that will convert 170 tons per day of cellulosic material from the neighboring landfill and other local sources to ethanol. The operation will produce two byproducts that will be transported offsite, gypsum and spent yeast. The plant will operate 24 hours a day, 330 days per year. A total of 18 employees will work three shifts with a maximum of five employees per shift. The project will generate 15,548 yearly vehicle trips for transporting feedstock, ethanol, byproducts, chemicals and employees.	NOD	
2008061106	521 Pacific Avenue Seawall Maintenance, Repair and Extension Project Solana Beach, City of Solana Beach--San Diego The Proposed Project would repair, maintain and extend an existing seawall below 521 Pacific Avenue. The Proposed Project is required by the terms of prior permits issued by the City and the California Coastal Commission (Coastal Commission or CCC) to repair and maintain the existing seawall and to remove existing riprap located on the public beach. Specially, the Proposed Project would: 1) Remove approximately 30 feet of previously permitted riprap that currently fronts the existing coastal structure at the base of the bluff below the subject property; 2) Maintain, repair, and extend the existing coastal structure northerly a distance of approximately fifty (50) feet; and 3) Maintain, rehabilitate, and extend the existing coastal structure vertically by four (4) feet and southerly by seven (7) feet.	NOD	
2008071013	Antelope Valley-East Kern Water Agency WSSP-2 Groundwater Recharge Project Antelope Valley-East Kern Water Agency Lancaster--Kern, Los Angeles The proposed project will consist of recharge areas with wells and pipelines to recover water. AVEK's State Water Project supplies will be delivered from the California Aqueduct to the site via gravity flow using AVEK's existing West Feeder pipeline, which runs north-south through the property along 140th Street West. Delivery of the water to the recharge areas will be by permanent below pipelines. Delivered supplies will be spread across the surface of the land, will percolate into the soil, and stored. When needed, the stored water will be extracted using pumps, delivered to the West Feeder via internal buried pipelines, and then delivered to the AVEK customers north and east of the recharge area via the West Feeder pipeline.	NOD	
2008082045	Tentative Parcel Map for Michael Wimer TPM07-0005 Butte County Chico, Paradise--Butte A request by Michael Wimer to divide a ten-acre parcel into two five-acre parcels.	NOD

2008082087	State Route 1 Point Arena/Westport Sink Storm Damage Permanent Restoration Project Caltrans #3 Point Arena--Mendocino The purpose of this project is to repair the roadway on SR 1 in Mendocino County at three locations between PM 14.85 to PM 75.89. This is a storm damage and permanent restorage project proposed for SR 1 at PM 14.85, 74.74, and 75.89 in Mendocino County. This project will repair the roadway and repair existing culverts by replacing extensions, adding standard wingwalls and aprons and patching original concrete, and constructing a geosynthetic reinforced embankment. A portion of the roadway will be reconstructed, and a geosynthetic reinforced embankment will be built.	NOD	
2008082094	Tentative Parcel Map for William Kelso TPM06-0035 Butte County Chico--Butte A request by William Kelso to divide a 1.96 acre parcel into three parcels, averaging 24,000 square feet apiece, zoned M-1. The parcels are located on the east side Midway, at the southeast corner of Durham-Pentz Road and Midway, in the community of Durham.	NOD	
2008102007	Freeman Minor Subdivision Humboldt County Eureka--Humboldt The minor subdivision of a vacant 57 acre parcel into four (4) parcels and a Remainder. The parcels will range in size from 5.85 - 27.9 acres. Sewage disposal and geologic reports have been submitted to verify suitable residential building sites on all of the proposed parcels. These parcels will be served by Berta Road off Elk River Road. During the development of the Eureka Community Plan (ECP) portions of the Elk River valley were zoned AG-B-6 which prohibited further subdivision given the flooding and access issues associated with Berta Road and the Elk River valley. The subject parcels, however, were intentionally left with a 5-acre minimum and the option to be subdivided in the future. This project does require a Firesafe exception which was granted by Calfire.	NOD	
2008119003	Marble Timber Harvesting Plan - Streambed Alteration Agreement Fish & Game #2 --Plumas SAA #1600-2008-0182-R2 This project involves the installation of a collection trench across a landing to prevent overland flow of a spring outflow, the installation of a temporary pipe crossing in a Class III watercourse coupled with the installation of a rocked dip following operations, the installation of a rocked dip in a Class III watercourse, and the use and renovation of 4 waterholes.	NOD	
2008119004	City of Santa Monica Housing Element (2008-2014) Santa Monica, City of Santa Monica--Los Angeles The City of Santa Monica Housing Element as mandated by Government Code Sections 65580 to 65589. The Housing Element as adopted fulfills all of the State's Housing Element mandates, ties in to other City planning processes, and expresses Santa Monica's long-term commitment to maintaining and creating housing that is affordable to a diverse community. 2008118125	Kings Creek Culvert Replacement Santa Cruz County --Santa Cruz The project includes a culvert replacement under Kings Creek Road. Two existing 30-inch culverts will be abandoned and replaced with a 48-inch high-density polyethylene culvert with headwalls and associated grading within the un-named tributary to Kings Creek.	NOE	
2008118131	Western United Resource Development Water Quality Improvement Project for the Central Valley; Larrybell Dairy (Project); Grant Agreement No. 06-164-055-0 Water Resources, Department of Elk Grove--Sacramento The purposes of the proposed Project under Task 3 are to improve dairy facilities and water quality, and to meet requirements of the Central Valley Regional Water Quality Control Board's General Order for Existing Milk cow Dairies (No. R5-2007-0035).	NOE	
2008118132	Students and Teachers Restoring a Watershed (STRAW); Murphy Ranch (Project); Grant Agreement No. 06-246-552-0; SCH No. 2007128261 Water Resources, Department of --Marin The Bay Institute is working with volunteers and schools to restore a creek in Marin County. Students in the STRAW Program will revegetate the riparian zone and stream bank along Stemple Creek at Murphy Ranch. Additional native plantings and bio-technical headcut repair on a connected gully are needed to continue the stabilization and habitat restoration of the site. The newly planted area will be weeded and watered to ensure the re-vegetated plants become established.	NOE	
2008118133	Walnut Canal Arudon Treatment Project SAA-1600-2008-0280-R2 Fish & Game #2 --Yolo This project is to treat Arundo donax along the Walnut canal system in Yolo County with Glyphos aquatic in order to kill the standing Arundo. Following herbicide application, sites of Arundo will be inspected and, if requires to maintain channel conveyance capacity, stocks will be removed and disposed of. No ground disturbance will be undertaken, only above ground plant material will be removed. In subsequent years sites will be inspected and additional spot treatments applied to control any regrowth. A truck mounted 500 gal tank will be used to where access is easily available from maintenance roads. For more difficult access, a small 30 gal ATV mounted spray rig will be used. Some hand pruning of lower branches of existing vegetation may be required in areas of difficult access. Pruning will be kept to the minimum needed to provide access for herbicide treatment. Initial application of herbicide will be conducted during a period when water is not in the channel. However we are using an aquatic approve Glyphos to eliminate off target impacts. No vegetation other than Arundo will be treated.	NOE	
2008118134	Bridge for 6840 Oak Ave Fish & Game #2 Folsom--Sacramento This project proposes to reconstruct a bridge over Hinkle Creek, tributary to the American River. Bridge dimensions will be approximately 24' X 14' from top of bank to top of bank, supported by two concrete bulkheads.	NOE
