STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

November 16 – 30, 2012

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16 – 30, 2012**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2011

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at www.ceqanet.ca.gov.

2008031090	<p>New San Bernardino Courthouse for the Superior Court of California Judicial Council of California San Bernardino--San Bernardino</p> <p>The AOC has acquired the parcel for a new courthouse, will construct a new 36-courtroom courthouse on the parcel, and will operate the courthouse for the Superior Court. The new courthouse will replace existing court facilities in the city of San Bernardino.</p> <p>The AOC's proposes to change the original project by replacing three planned half-sized Juvenile Delinquency courtrooms, two hearing rooms, specialized holding and other support spaces on the 10th floor with three full size courtrooms, associated holding areas for in-custody detainees, and other uses for, general administrative use and exhibits storage. Juvenile Delinquency cases will remain in the existing Juvenile Delinquency Courthouse at 900 East Gilbert Street rather than moving to the New San Bernardino Courthouse, and the Supreme Court will consolidate staff and caseload from other court closures in San Bernardino County into the new courthouse. The proposed revision will support current caseload revisions caused by funding reductions incurred since 2008.</p>	ADM	12/18/2012
2006041070	<p>The Collection at Monterey Bay Sand City Sand City--Monterey Note: Review Per Lead</p> <p>King Ventures proposes to develop a 342-room coastal resort on the 26.46-acre site located west on SR 1 in Sand City. The first phase of the project is a 139-room hotel on a 7.90-acre parcel, known as the Sterling/Calabrese property, located on the north side of Tioga Avenue. Phase II of the project is a coastal resort on the 16.25-acre McDonald property consisting of 203 visitor rooms, a restaurant with banquet facilities, a Tapas Bar restaurant, a bakery, a wine center, a deli juice bar, conference and meeting facilities, a health/wellness spa center, parking, and other ancillary and related improvements. Primary access for Phase I of the project would be from Tioga Avenue. Access to the Phase II development of the McDonald property, as well as secondary access to the entire site, would be provided from Playa Avenue and a proposed extension of Sand Dunes Drive.</p>	EIR	01/15/2013
2012081034	<p>RPT Centerpointe West Project Moreno Valley, City of Moreno Valley--Riverside</p> <p>The proposed project consists of construction and operation of a warehouse facility with two individual warehouses of varying sizes and an expansion of an existing warehouse for a total of 1,281,000 sf on 56.2 acres. The project includes construction of parking and driving areas, detention basins, erosion protection, offsite road and utility improvements, and landscaping along the perimeter and roadway frontages.</p>	FIN

2012111054	Lake Elsinore Cable Ski Park Project Lake Elsinore and San Jacinto Watersheds Authority Lake Elsinore--Riverside The proposed Project includes the development of a cable ski park within the Inlet Channel of Lake Elsinore adjacent to Lakepoint Park. The Project is an outdoor recreation facility supporting water ski and wakeboard recreation. Cable-skiing allows people to water-ski and wakeboard without a boat. Skiers will use an overhead tow line to ski the circumference of the course within the Inlet Channel. Two mobile offices within the southeast corner of Lakepoint Park will serve as the operating headquarters. The Project proposes 60 additional dirt parking spaces.	MND	12/17/2012
2012111055	ENV-2012-1831-MND / 1406-1534 S. Figueroa Street Los Angeles, City of Los Angeles, City of--Los Angeles Removal of the existing surface parking lot and construction of seven-story, 80-foot tall building (with architectural features up to 93-feet), which would include 190 dwelling units on the upper levels, and 213 parking spaces located on the ground level and within two underground levels. The ground floor of the proposed project would be developed either with up to 10 live-work units, for a total of 200 units, or up to 12,432 square-feet of commercial retail/restaurant use. 	residential entrance to the project would be on Figueroa Street. Vehicular access to parking areas would be provided from the alley (Lebanon Street). Project amenities would include residential lobby and lounge, pool and desks, roof deck and recreation rooms. The following approvals may be included as part of the project: (1) Site Plan Review; (2) Transfer of Floor Area less than 50,000 square-feet; (3) Vesting Tentative Tract Map for up to 200 condominium units and six commercial condominium units; (4) Demolition Permit; and, (5) Grading/Building Permits.		
2012112040	Race Street Terrace San Jose, City of San Jose--Santa Clara A request for Planned Development Zoning to rezone from CP Commercial Pedestrian Zoning District to A(PD) Planned Development Zoning District to allow the construction of a four-story building with 70 attached residential units and 13,080 square feet of ground floor commercial space on a 2.12 gross acre site.	MND	12/17/2012
2012112041	Bollinger Road and Miller Avenue Shopping Center Expansion (Chase Bank and McDonald's) San Jose, City of San Jose--Santa Clara The proposed expansion of the Orchard Farm Center consists of two components: 1) A Conditional Use Permit to allow a 3,911 sf restaurant with a drive-through use operating from 6AM to 10PM and 2), a Site Development Permit for a new 4,207 sf bank building.	MND	12/17/2012
2012112042	Railroad Avenue Stormwater Project Fairfield, City of Suisun City--Solano The City of Fairfield proposes to install a 30-inch diameter pipe to convey stormwater from an existing storm drain system in the City of Fairfield, which currently discharges through an existing bubble-up outlet box into a roadside ditch, and discharge it instead into the Laurel Creek Bypass. The storm water pipeline would connect to an existing 30-inch storm water pipeline coming under the Union Pacific Railroad (UPRR) tracks from Fairfield to a new junction box in the City of Suisun City. The new junction box will be constructed with two 18-inch pipes installed to convey storm water into a new traffic rated junction box in Railroad Avenue and then into a new 30-inch pipeline which would extend approximately 2,300 feet down the center of Railroad Avenue to the Laurel Creek Bypass. At the Laurel Creek Bypass, the pipe would tie into an existing pipeline that carries storm water and eventually discharges into the Suisun Marsh. The proposed project would require excavation of approximately 2,300 feet down in the center of Railroad Avenue to the Laurel Creek Bypass. At the Laurel Creek Bypass, the pipe would tie into an existing pipeline that carries storm water and eventually discharges into the Suisun Marsh. The proposed project would require excavation of approximately 162 square feet of the roadside ditch to install the new junction box. The storm water pipeline would be installed concurrently with the City of Fairfield East-West Water Transmission Pipeline project to avoid additional construction impacts along Railroad Avenue. Upon completion, the storm water pipeline would be owned and maintained by the City of Suisun as part of the City's storm drain system.	MND	12/17/2012

2012112044	Devlin Road Segment E Extension Napa County American Canyon--Napa The project includes land disturbing activities associated with the extension of Devlin Road from approximately 640 feet south of Airpark Road to Tower Road to the South. The roadway segment is approximately 1,100 feet in length, with a 92 foot clear span bridge crossing Fagan Creek, disturbing 2.61 acres of grassland and riparian woodland. Located in an industrial area immediately east of Napa County Airport and west of Highway 29.	MND	12/17/2012
2012112065	Homestead High School Sports Lights Fremont Unified School District Cupertino--Santa Clara The FUHSD proposes to add 11 new classrooms to the Cupertino High School campus to serve an additional 275 students. The FUHSD proposes to locate the 11 new classrooms within the existing guidance and support services and library buildings, both of which will be vacated when the new library, guidance and support services, and kitchen/cafeteria building is complete.	MND	12/17/2012
2011072042	El Mercado Popular Certified Farmers Market 14th Agricultural Association, Santa Cruz County Fair Watsonville--Santa Cruz Note: Revised The project consists of the A Certified Farmers Market being held at the Santa Cruz County Fairgrounds every Sunday throughout the year (except during rainy periods and the County Fair week in mid-September), between 8 AM and 5 PM. The proposed Market will be located on an ~2-acre paved parking lot area of the Fairgrounds property adjacent to existing buildings. Approximately 140-185 vendors will be permitted, and the event is expected to attract ~1,000 cars with 3,000 to 4,000 daily visitors.	Neg	12/17/2012
2012041048	Point View Master Use Plan Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles The Point View Master Use Plan was previously the subject of the April 2012 Point View Master Use Plan Draft MND. The Draft MND was made available for public review on April 18, 2012, beginning a 30-day public review period that ended May 18, 2012. Subsequent to this public review period, a City Planning Commission Hearing was held on May 22, 2012, to receive public comment and consider approval of the proposed project. Public comments received during this period focused on the project's potential to increase noise levels at nearby residences, result in traffic impacts along Palos Verdes Drive South and Narcissa Drive, effect the visual character of the project vicinity, and/or increase drainage flows along Narcissa Drive, among other comments. Agency comments received during this period, including those from the US Fish and Wildlife Service and the California Department of Fish and Game (the "Wildlife Agencies"), focused on the project's potential to result in impacts to biological resources. In consideration of the comments received, subsequent consultation with the Wildlife Agencies and the project applicant, who is proposing refinements to the project, the City has elected to revise and recirculate the Draft MND. The changes reflected in the Recirculated MND (when compared to the Draft MND) focus on the applicant's changes to the	Neg	12/17/2012

2008071075	State Route 91 Corridor Improvement Project Caltrans #8 Anaheim, Corona, Riverside--Riverside, Orange The SR-91 CIP proposes capacity, operational, and safety improvements on SR-91 and I-15. The project would widen existing SR-91 from the SR-91/SR-241 interchange in the cities of Anaheim and Yorba Linda in Orange County Pierce Street in the City of Riverside County. The project also includes improvements to I-15 in Riverside County between the I-15/Cajaclo Road interchange in the City of Corona and the I-15/Hidden Valley Parkway interchange in the City of Corona. As the lead agency, Caltrans approved the Project on August 10, 2012.	NOD	
2008091026	Topaz Solar Farm (Optisolar) Conditional Use Permit (DRC2008-00009) San Luis Obispo County --San Luis Obispo The Project includes installing and operating arrays of photovoltaic modules and associated electrical production and transmission infrastructure. The Project will tie directly into the existing Pacific Gas and Electric Morro Bay/Midway 230 kV transmission line. Project construction will take approximately three years. The Project will result in impacts to 3,510 acres of San Joaquin Kit fox habitat. The Project is expected to result in incidental take of San Joaquin kit fox, which is designated as a threatened species under the California Endangered Species Act. The incidental take permit for this Project, as issued by the Department of Fish and Game, authorizes incidental take of species listed under CESA that may occur as a result of Project implementation. Minor Amendment 3 to the ITP extends by 20 additional days the time period to transfer fee title to DFG or record conservation easement for the Phase 1 habitat mitigation lands. The activities covered in the ITP and the extent of habitat compensation lands is unchanged.	NOD

2012012016	2035 General Plan Update Plumas County Quincy--Plumas NOTE: Review Extended Per Lead	EIR	01/11/2013
	The County of Plumas is the Lead Agency for the preparation of a program EIR addressing adoption and implementation of the County's 2030 General Plan Update (proposed project or Draft 2030 General Plan). This comprehensive update to the County's existing General Plan (adopted in 1984) is proposed in order to establish and implement new goals and policies for regulating development and balancing population growth with infrastructure availability, agricultural preservation, and natural resource protection.		
2012031064	Oak Creek Canyon Residential Project (Planning Application No. 11-0261) Wildomar, City of Wildomar--Riverside While a single proposal for processing by the City, the proposed project requires three (3) distinct development actions more specifically described as follows: Specific Plan Amendment (SPA) - An amendment to the Farm Specific Plan No. 116 to create special development standards, architectural design guidelines, landscape design guidelines, etc., for a 315-lot single family residential subdivision project (with private parks), including a 3.5 acre commercial retail component; and Change of Zone (CZ) - An amendment to the City's Zoning Map from R-1 (One-Family Dwelling) to R-4 (Planned Residential Zone) and C/1-C/P (General Commercial) to accommodate the development of a 315-lot single family residential subdivision project (with private parks), including a 3.5 acre commercial retail component; and, Tentative Tract Map No. 36388 - A proposed subdivision of 151.23 acres into 315 lots (including a 3.5 acre commercial site - Lot L) for the development of 315 single family residential dwelling units with lot sizes ranging from 4,000 sf to 7,200 sf with private parks.	EIR	01/02/2013
2012071089	State Route 150 Slope Stabilization and Erosion Control Project Caltrans #7 Santa Paula--Ventura The California Department of Transportation (Caltrans) is proposing a slope stabilization and erosion control project at two locations on State Route-150 (SR-150), near the City of Santa Paula within Ventura County. The first location is	MND	12/18/2012

	at SR-150 Post Mile (PM) 27.37 and the second is at SR-150 PM 29.4. The purpose of this project is to protect public safety by addressing the structural deficiencies at these two locations. Specifically, the project will stabilize the slopes by installing type 736 erosion control barriers along the road shoulder at both locations with the addition of a retaining wall at the bottom of the embankment at PM 29.4.		
2012111059	AvalonBay 260 Unit Apartment Project Glendora, City of Glendora--Los Angeles Alternative 1 would be constructed on 3.79 acres and proposes a mixed use project including 197 apartments in one, two and three bedroom floor plans ranging in area from 700 square feet to 1,300 square feet. The project provides a 7-level parking structure in a "wrap" configuration. The project also includes 4,000 square feet of retail/commercial space. The building architecture reflects a Craftsman theme with balconies, and wood rafter, trellis and window detailing. Alternative 2 proposes to increase the number of dwelling units to approximately 260 apartments. Parking and open space amenities would be increased to serve the additional units. The applicant has revised the access onto Glendora Avenue, moving it northward adjacent to the rail road right of way. The first version of the project Alternative 2 provided by the applicant shows the Glendora entrance would be restricted to light in, right/left-out. In addition to the demolition identified for Alternative 1, Alternative 2 (and Alternative 2A) would require demolition of all structures on the three properties at 512, 518 and 526 South Glendora Avenue or approximately 5,011 square feet of additional demolition.	MND	12/18/2012
2012112043	Tiburcio Vasquez Health Center Alameda County San Leandro--Alameda The request is to construct and operate a new community health care facility providing out-patient clinic services for the neighboring area.	MND	12/18/2012
2012112046	Conditional Waiver of Waste Discharge Requirements for Vineyards in Napa and Sonoma Valley Watersheds San Francisco Bay Regional Water Quality Control Board Napa, St. Helena, Yountville, Calistoga--Napa, Sonoma The Conditional Waiver would regulate discharge from vineyards in the Napa River and Sonoma Creek watersheds. The Conditional Waiver applies to a group of existing and new vineyards with specific size, slope, and soil type that meet the eligibility and would require: 1) submittal of a Notice of Intent to comply, 2) preparation of a Farm Water Quality Plan that identifies vineyard and road management practices to reduce discharge, 3) implementation of these management practices, and 4) submittal of annual compliance reports. The Conditional Waiver implements the Napa River and Sonoma Creek sediment Total Maximum Daily Loads with the overarching goals of reducing nonpoint source pollutant discharges from vineyard properties and protecting and enhancing beneficial uses, including the protection of anadromous fish habitat. 2012111057	<p>Pixley Biogas Anaerobic Digester Tulare County --Tulare</p> <p>The proposed project includes construction of an anaerobic digester on 1.28 acres of an 8.08 acre parcel owned by Pixley Ethanol, LLC. Manure and wastewater will be transported to and from the anaerobic digester via pipelines from Four J Farms Dairy, located ~1 mile to the south. In addition, ~3 truckloads a day of organic/food waste will also be trucked to the facility, where it will be mixed with manure prior to digestion. Access to the digester site is from Road 120, a County maintained road. Transport of methane-rich biogas will be transported from the digester to the Calgren Renewable Fuels facility. Calgren will use the biogas to replace a portion of the natural gas currently being used for ethanol production.</p>	NOP	12/18/2012
2012111058	<p>Via Terracaleta Custom Estates Area Plan Orange County --Orange Proposed Residential Development</p> <p>The proposed includes the subdivision of the 16.1-acre project site into seven (7) residential lots, including the existing single-family lot. The existing single family home will be retained and remodeled on Lot 1 that will contain ~1.09 acres with a development pad of ~18,550 sf. The six additional residential lots --Lots 2 through 7 - will be developed with new single-family homes. These six lots will range from ~1.15 acres to ~4.18 acres; the development pads will range from ~16,530 sf to ~28,030 sf (net developable land area).</p> <p>The new residential lots were designed to respect the ridgelines, and to be relatively secluded from existing from homes to the north and south. The proposed lots lie significantly below both the primary ridgeline to the northwest and below the three secondary ridgelines that fall from northwest to southeast, with the two flanking secondary ridgelines continuing the fall beyond the Project Site toward Coto de Caza Drive.</p>	NOP	12/18/2012
2012111060	<p>Joshua Palmer Realignment Banning, City of Banning--Riverside</p> <p>The Project is a realignment of Joshua Palmer Way to the north and west of its current location and which includes the construction of a new four way intersection including traffic signal improvements at Highland Springs Avenue approximately 340 feet south of West Ramsey Street. At a point approximately 900 feet east of Highland Springs Avenue, Joshua Palmer Way would be realigned to a north-south direction via a knuckle and travel north of approximately 310 feet. At this point, it would again travel west and extend to Highlands Springs Avenue. The existing approximately 900 foot section of Joshua Palmer Way would be vacated, an easement for utility purposes would be created in favor of the City of Banning, and the land deeded to the nearest adjacent property owner. The scope of work would include the rehabilitation of the existing Joshua Palmer Way into the new parking areas for the existing business owners. Additionally, the individual property owners would also deed their respective portions of their property to the City for the new roadway. The new roadway constructed in the east-west direction would be approximately 55 feet in width which includes the right-of-way with a road width</p>	Neg	12/18/2012

2012071074	Salinas Valley State Prison and Correctional Training Facility Soledad Solar Project General Services, Department of Soledad--Monterey The Proposed Project is a solar PV power generation system for SVSP and CTF. The Proposed Project would be located on approximately 31 acres encompassing two distinct parcels. The sites correspond to an unsectioned portion of the Soledad, CA and Palo Escrito Peak, CA 7.5-minute quadrangles (ECORP 2012a). The solar array would convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) before being delivered to the SVSP and CTF owned distribution system.	FIN	
2012111062	Mass Grading for A Potential Development Riverside, City of Riverside--Riverside The Van Buren Commercial Center Project Site is an approximately 4.55 acres and is located at the southeast corner of Van Buren Boulevard and Gamble Avenue in the Woodcrest neighborhood of the City of Riverside. The site composed of four vacant parcels (274-140-036, 274-120-030, 274-120-017, 274-120-012) separated by Fred Street. For the sake of this project the two parcels (274-140-036, 274-120-030) located to the east of Fred Street will be referenced as Lot 2. Lot 1 is 2.17 acres and Lot 2 is 2.15 acres. The site is located approximately 4.8 miles west of Interstate 215 and approximately 5.8 miles west of March Air Reserve Base. It is bounded on the north by Van Buren Boulevard, to the west by Gamble Avenue, to the east by an ARCO gas station, and to south by Bobbit Street, and Gamble Avenue Sewer Lift Station.	MND	12/19/2012
2012111063	Gilman Home Channel Lateral A, Stage 3 Project Riverside County Flood Control and Water Conservation Banning--Riverside The City of Banning is subject to runoff from the hills to the north. Starting in the 1930's a series of flood control facilities have been constructed through the area of Banning bounded by 4th Street on the East and 12th Street on the west. The facilities were constructed by the Works Progress Administration (WPA) and the Riverside County Flood Control and Water Conservation District (District) and consist of underground storm drains and a cobble-lined channel. As time passed and more studies were conducted it became clear the parts of the flood control system were undersized and unable to safely collect and convey the tributary 100-year storm runoff. Further, through the National Flood Insurance Program the Federal Emergency Management Agency (FEMA) identified a Special Flood Hazard Area caused by the runoff during a 100-year storm event and delineated it on the Flood Insurance Rate Maps it publishes. As a consequence property owners within the Special Flood Hazard Area are required to purchase flood insurance for their homes.	MND	12/19/2012

2010021023	SBVMWD Baseline Feeder Well Replacement Project San Bernardino Valley Municipal Water District San Bernardino--San Bernardino Reference SCH#1988121892 The California Department of Public Health (Department), as the responsible agency, will be issuing a water supply permit. The SBVMWD proposed project includes drilling and operating 2 replacement wells each with a capacity of 2,500-3,000 GPM. The project also includes constructing a reservoir of up to 1 MG for volatilizing gases such as CO2. Other associate facilities to be constructed include a pump station, a chlorination system, detention pond, control system, buildings for booster pump and control panels, and a limited amount of pipeline.	NOD	
2010071071	Pala Mesa Tanks Project Rainbow Municipal Water District Fallbrook--San Diego The California Department of Public Health (Department) as a Responsible Agency will be providing funds for this project from the State Revolving Fund. Rainbow Municipal Water District proposes demolition of an abandoned open earthed reservoir and construction of a 6-million gallon storage tank, inlet/outlet piping, security fencing, and appurtenant structures.	NOD	
2010081067	Integrated Vector Management Practices: Orange County, CA Orange County --Orange Integrated Vector Management Practices guide the Orange County Vector Control District's comprehensive vector control programs to meet human, domestic animal, and wildlife needs for protection from nuisance and disease that may be spread by vector insects and animals. OCVCD's Integrated Vector Management Practices aim to control the production of mosquitoes, filth flies and black flies, red imported fire ants (RIFA), and rats through the following activities: 1) Surveillance for vectors, vector habitats, and associated pathogens/diseases; this includes field and laboratory analysis of vectors in order to evaluate populations and emerging disease threats; 2) Source Reduction to limit breeding by vectors; this includes management of vegetation, land, and water with appropriate landowners to minimize vector production; 3) Public Education efforts targeted toward the public and private landowners in ways to facilitate source reduction and minimize disease-carrying vectors; 4) Distribution of mosquito fish (<i>Gambusia affinis</i>), a Biological Control measure used to reduce mosquito production in isolated aquatic features, such as neglected residential swimming pools, and 5) Chemical Control using non-persistent pesticides to minimize vector populations and reduce the threat of potential vector-borne disease transmission to humans.	NOD	
2012071073	Central California Women's Facility Chowchilla Solar Project General Services, Department of Chowchilla--Madera The Proposed Project is a 2.2 megawatt solar photovoltaic (PV) power generation system for the CCWFC. The Proposed Project would be located on an approximately 17 acre parcel along the southern boundary of CCWFC. The site corresponds to a portion of Section 6, Township 10 South, and Range 17 East (Mount Diablo Baseline and Meridian) of the Berenda, California 7.5-minute quadrangle. The solar array would convert incident sunlight to direct current (DC) electrical power which would then be converted to alternating current (AC) by four centrally-located inverters before being delivered to the CCWFC owned	NOD

	ground with access provided by the existing access road to the tank site. The project will result in the disturbance of 0.76 acre of the 1.3-acre easement acre, including approximately 5,690 cubic yards of cut and 630 cubic yards of fill. Approximately 5,060 cubic yards of will exported offsite.		
2012111071	<p>Anchor Live/Work Project Costa Mesa, City of Costa Mesa--Orange</p> <p>1) Planning Application PA-12-21 - Urban Master Plan for development of a 40-unit live/work project at the site of an existing mobile home park within the 19th West Urban Plan area at 1527 Newport Boulevard. The development includes attached three-story development with roof decks, two-car garages and open parking areas, commercial "work" space on ground floor, and living space and bedrooms at upper levels. The proposed live/work units are comprised of 2 bedrooms plus a den (about 2,000 square feet). A total of 80 garage parking spaces and 40 open parking spaces are proposed (120 parking spaces or 3 spaces per unit). The project includes the following deviations: * A deviation from the parking design standards (20' x 20' required, 19' x 18'6" proposed). * A deviation from the minimum work space requirement (250 SF required, 190 SF proposed).</p> <p>2) Vesting Tentative Tract Map 17501 - Subdivision of a 2-acre property for condominium purposes to allow private safe and ownership of the live/work units.</p> <p>The Project requires City of Costa Mesa approval of the Anchor Live/Work Master Plan, Vesting Tentative Tract Map No. 17501, deviations from the Urban Plan development standards. Demolition Permit, Grading Permit, and Building Permit.</p>	MND	12/20/2012
2012112051	<p>Scott River Riparian Restoration Siskiyou Resource Conservation District Etna--Siskiyou</p> <p>The Scott River Riparian Restoration Project proposes to reduce instream sediment and temperature loads in the ScottRiver through riparian planting and stream bank bio-engineering. The Scott River is listed for temperature and sediment under the Scott River TMDL (adopted 2005). The riparian corridor creates a series of benefits to the water quality of the stream shade, bank stabilization, filtration of pollutants, and generation of channel complexity and fish habitat. This project will restore an eight kilometer reach of Scott River Mainstream by increasing the occurrence and density of riparian vegetation and extending the width and linear distance of the currently extant riparian corridor. The project focuses on a specific reach of the Scott River between River Kilometer 58 and 64 (French Creek to Kidder Creek).</p>	MND	12/20/2012
2012112052	<p>Jordan Residence Santa Clara County Gilroy--Santa Clara</p> <p>The proposed project is an application for Building Site Approval and Grading Permit for an approximately 2,380 square foot, 2-story single-family residence, and associated site improvements, located in the unincorporated area of the County of Santa Clara. The nearest cross streets are Hecker Pass Highway and El Matador Drive, west of Watsonville Road.</p>	MND	12/20/2012

2012118169	Muranaka Farm - Flood Plain Restoration Fish & Game #5 Moorpark--Ventura The Permittee proposes to restore approximately 17.73 acres of active flood plain to 2004 conditions by removing approximately 29,730 cubic yards of fill. All invasive and non-native vegetation shall be removed from the project site prior to commencement of restoration activities. Grading shall remove a berm along the outside edge of the flood plain and a cross field drainage channel. The cross field drainage channel shall be bermed and turned into a grassed waterway and vegetated filter approximately 30 feet wide. Multiple small diameter drains conveying runoff from farm roads during rain events shall be constructed and empty into small 5ft x 5ft debris basins before entering the grassed waterway, debris basin before entering the grassed waterway.	NOE	
2012118170	Napa Berryessa Resort Improvement District Assessment for Pipeline Improvements Napa County Napa--Napa Assessment for improvements and upgrades to the existing above grade pipeline running a total length of 3970 linear feet from the water treatment plant building to Lift Station #2. The pipeline will replace the above ground PVC pipe to improve reliability and to prevent inadvertent release of wastewater treatment plant backwash (wastewater). The pipeline will include trenching the length of the existing pipeline to a maximum depth of 48 inches, with most location being 36 inches deep and 12 inches wide. During trenching, any rock larger than 3 inches will be removed, and native soils used to backfill the trench.	NOE	
2012118234	Citywide Street Light Upgrade Project San Leandro, City of San Leandro--Alameda The City has received grant funds to convert approximately 400 existing high pressure sodium (HSP) street light fixtures to more energy-efficient LED fixtures. As funding is found in the future, the remaining 5,100 HSP street lights existing within the City will be converted to LED.	NOE

2011081080	Stateline Solar Farm Project San Bernardino County --San Bernardino Note: Review Per Lead. Solar photovoltaic power plant, 300 MW covering 2,143 acres. Project requires County issuance of well permits for groundwater production and monitoring wells to produce up to 1,900 ac-ft of water, primarily for dust control.	EIR	02/21/2013
2012111072	Allow a Ten-Bed Residential Care Facility for Elderly - App. No. 6551 (Ginger Wilkins) Fresno County Selma--Fresno Recognize and allow an existing ten-bed residential care facility for elderly on a 7.11-acre parcel in the AE-20 (Exclusive Agricultural, 20-acre minimum parcel size) Zone District. The project site is located on the east side of S. Highland Avenue approximately 480 feet south of E. Mountain View Avenue and 4,345 feet south of the nearest city limits of the City of Selma.	MND	12/26/2012
2012111073	An Agricultural Commercial Center - Application No. 6500 (Paruis Laghaifar) Fresno County Selma--Fresno Allow an agricultural commercial center consisting of a mini-mart/convenient store, a fuel canopy with gasoline dispensing pumps, three buildings for future retail uses and related parking on an approximately six-acre portion of a 42.08-acre parcel in the AE-20 (Exclusive Agriculture, 20-acre minimum parcel size) Zone District. The project is located on the southeast corner of S. Clovis and E. Floral Avenues approximately 3.6 miles west of the City of Selma in Fresno County (SUP. DIST.: 4) (APN: 385-031-01).	MND	12/26/2012
2012111074	Newport Beach City Hall Reuse Project Newport Beach, City of Newport Beach--Orange The City is proposing a change of the land use designation on the City's Land Use Element Map and Coastal Land Use Plan (CLUP) to replace the "Public Facilities" (PF) land use designation to "Mixed Use-Horizontal" (MU-H5). Finally, the "Public Facilities" zoning on the subject property would also be changed to "MU-LV" (Mixed Use-Lido Village) in order to allow for the redevelopment/reuse of the subject property as contemplated by the City. The Mixed Use land use designation and zoning would allow for potential mixed-use development that could include up to 15,000 sf of retail commercial or a community center, up to 99,675 sf of hotel uses, up to 99 market rate multiple-family residential dwelling units, and retention and/or replacement of Fire Station No. 2. In addition, the proposed land use and zoning would also allow for the provision 1.3 acres of public open space, including public plazas and promenades. The City is also contemplating several public street improvements in accordance with the Lido Villa Design Guidelines.	MND	12/26/2012
2012111076	Vineyard Access Road Upper Salinas - Las Tablas Resource Conservation District (RCD) --San Luis Obispo Installation of a 20 foot wide agricultural access road to provide access to a proposed vineyard located on an adjacent parcel. The road will be approximately 2,500 feet in length and will cross one unnamed blue line creek with a 24" culvert.	MND	12/26/2012

2012111082	Lime Mountain Company & T-Mobile Conditional Use Permit San Luis Obispo County --San Luis Obispo Request by Lime Mountain Company & T-Mobile for a Conditional Use Permit to allow for the construction and operation of an unmanned wireless telecommunications facility consisting of twelve (12) panel antennas in three sectors of four antennas, mounted at a height of 53 feet above grade (measured to top of antennas) and one (1) 6-foot diameter microwave dish mounted at a height of 20 feet above grade on a new 61 foot tall faux pine tree (monopine), six (6) equipment cabinets within an ~900 sf equipment enclosure, and ~550 feet of associated aerial utility routing.	MND	12/26/2012
2012112053	North Gold Bluff Beach Coastal Dune Restoration Project Parks and Recreation, Department of --Humboldt, Del Norte CDPR proposes to restore 222 hectares (550 ac) of coastal dune habitat along the northwest edge of Prairie Creek Redwoods State Park (PCRSP). The primary goal of the project is to restore areas damaged by European beachgrass (<i>Ammophila arenaria</i>) infestation. The project would remove European beachgrass and other invasive exotic plants to restore natural dune processes thus promoting re-vegetation by native dune vegetation and restoring of sand movement. These efforts would increase the amount of suitable habitat for the federally threatened western snow plover (<i>Charadrius nivosus nivosus</i>) as well as other native dune-adapted plants and animals. The project would involve an integrated approach to beachgrass control with treatment methods that include mechanical removal, manual removal, and flaming.	MND	12/26/2012
2012112054	Cosby Subdivision Humboldt County --Humboldt A subdivision of an approximately 44,000 sf parcel into two parcels of 17,546 sf (gross) and 26,453 sf (gross). The parcel is currently developed with a single family residence and detached garage. The single family residence will be sited on proposed Parcel 2 and the garage will be sited on proposed Parcel 1. An exception to the subdivision standards is requested to allow the parcels to be served by a reduced right of way. The private road (Hidden Fox Lane) already exists and has a right of way width of between 26 and 40 feet wide. The subdivision is considered a Final Map due to owner's involvement of previous subdivisions on adjacent parcels. A Special Permit is required to allow the detached garage to remain on proposed Parcel 1 prior to the construction of a	MND	12/26/2012

2012118172	Labosky Property Waterway Improvement (1600-2010-0141-R2) Fish & Game #2 Paradise--Butte The project is limited to filling of a manmade drainage ditch across the property at 6845 Pentz Road coupled with removal of vegetation and debris from a previously existing drainage swale. Hand tools and a backhoe are proposed to be used for the work. It may be necessary to remove a tree as part of the cleaning and refurbishing of the swale. Disturbed soil will be wheel rolled to compact in an effort to minimize erosion. The drainage ditch on adjacent property will be directly connected to the cleaned drainage swale in order to avoid flooding.	NOE	
2012118173	1600-2011-0189-R2 Bucks Bar Bridge Exploratory Geotechnical Drilling Project Fish & Game #2 Placerville--El Dorado The project consists of performing geotechnical boring required to determine subsurface conditions for designing the Bucks Bar Bridge Replacement Project.	NOE	
2012118174	2013 Energy Efficiency Improvements to City Buildings and Infrastructure Fort Bragg, City of Fort Bragg--Mendocino Installation of various efficiency improvements to City Building and infrastructure, including: POLice Department, Fire House Replacement, Main Furnance Replacement, Tankless Hot Water Heater, Light Retrofit; Guest House Museum; Corp Yard; City Hall; Town Hall; CV Star; Water Treatment Plan and Waste Water Treatment Plant and various other similar projects.	NOE	
2012118175	Ski Run Marina Maintenance Dredging Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado The Project would dredge approximately 800 cubic yards of sediment and sand from within the entrance channel of the Ski Run Marina on Lake Tahoe, and deposit the sand on the lake shore.	NOE	
2012118176	Stabilize Shoreline, No. 1600-2012-0189-R2 Fish & Game #2 --Placer The project aims to stabilize 50 feet of shoreline adjacent to 6918 Pomin Ave, Tahoma, CA. Winter storms have undermined the shoreline and treated to topple two large Cedar trees (approximately 4 ft diameter). The trees are on the shoreline wall and have helped stabilize the ground, block runoff, and provide an aesthetic view from land. The project will move boulders that have washed down onto the shore back into place along the slope. Additional boulders in the amount of 5 cubic yards will be added to the western side of the shoreline to match the heights of the eastern side. This action will help protect existing trees from erosion due to wave action. The numbers of work days will range from 2 to 10 days depending on weather. Minor follow-up repairs from winter damage will occur in June 2013.	NOE	
2012118177	Rattlesnake Bar Road Project on SR 49 Fish & Game #2 --El Dorado The project proposes to install a left-turn channelization and a short two-way left-turn lane, between post miles (PM) 30.95 and 31.25. The project will also update drainage features, relocate two existing telephone poles, reconstruct an existing private driveway, replace signage and striping and provide adequate	NOE

	<p>basement on the east parcel (25066 Mulholland Highway, APN 4455-018-028) and a two story 5,005 sf single family residence with attached 640 sf three-car garage on the west parcel. The east parcel is owned by Dr. Edward Betz and the west parcel is owned by Gayle L. Pepper. Proposed grading includes 980 cubic yards of cut and 980 cubic yards of fill for the east parcel. Estimated import is 100 cubic yards for the east parcel. Proposed grading for the west parcel includes 1,050 cubic yards of cut and 950 cubic yards of fill, plus 400 cubic yards of over excavation/alluvial removal and compaction. The total project area is 4.44 acres on two parcels located within an unincorporated area near Calabasas in the coastal zone. A septic system is proposed for sewage disposal on each parcel and water will be from the Las Virgenes Municipal Water District.</p>		
2012111079	<p>PG&E Topock Compressor Station Soil Investigation Project EIR Toxic Substances Control, Department of Needles--San Bernardino Soil investigation project to assess the need for future soil remediation resulting from contamination with chemicals of potential concern from past operational activities. Soil investigation activities include the drilling/boring and excavation of soil, collection of soil samples, analysis of samples, and management of investigation derived waste. Investigation activities would occur at the gas compressor station and potentially-affected surrounding areas. Drilling and sampling operations would occur from 01/13-10/13, depending on geologic conditions and regulatory approvals.</p>	NOP	12/26/2012
2011032039	<p>PA-1100031 San Joaquin County Escalon--San Joaquin One-year Time Extension application for a previously approved Site Approval application for a railroad bridge replacement. 2012111087	<p>Wyle Laboratories Inc. - Norco Facility Toxic Substances Control, Department of Norco--Riverside DTSC is considering approval of a Draft Remedial Action Plan (RAP) to address volatile organic compounds (VOCs) in subsurface soil and groundwater at the former Wyle Laboratories site in Norco, CA. Planned remediation is specific to five previously identified areas. All selected remedial methods will include installation and sampling of monitoring wells to document remedial performance. Implementation of certain remedial methods also will entail shallow trenching and use of heavy equipment for short periods of time. All selected remedial methods also will include operations and maintenance (O&M), generally in the form of ongoing sampling of monitoring wells and analysis of obtained samples, as well as ongoing maintenance of the HCS system. Remediation currently is anticipated to be carried out over a period from 2 to 30 years, depending upon the area to be remediated. The use of land-use covenants restricting future site use to commercial/industrial will be necessary. In addition, institutional controls and/or additional engineering controls could be necessary for certain on-site remedial areas where commercial/industrial goals are not achieved during reasonable time periods, or where property redevelopment occurs during</p>	Neg	12/27/2012

2010122028	Delta Plan (Per 2009 Delta Reform Act) Delta Stewardship Council -- Note: Recirculated	EIR	01/14/2013
	Similar to the August 2011 Fifth Staff Draft Delta Plan, the Final draft Delta Plan covers five topic areas and goals: increased water supply reliability, restoration of the Delta ecosystem, protection and enhancement of the Delta as an evolving place, improved water quality, and reduced risks of flooding in the Delta. Similar to the August 2011 Fifth Staff Draft Delta Plan, the Final Draft Delta Plan does not propose or contemplate the Council constructing, owning, or operating any facilities related to these five topic areas, however. Rather, the Delta Plan sets forth regulatory policies, and recommendations, that seek to influence the actions, activities and projects of cities, counties, and State, federal, regional and local agencies toward meeting the co-equal goals. Examples of the types of actions/activities the Delta Plan seeks to influence include, but are not limited to: new or expanded water storage reservoirs; wetlands and riparian restoration; invasive species management; water flow patterns in the Delta; water, wastewater, stormwater and agricultural runoff water treatment; levee modification and construction; floodplain expansion; new/improved active and passive recreation opportunities in the Delta.

2012051018	IS 6419 - CUP 3331: Allow a Photovoltaic Solar Power Generation Facility with Related Improvements. App No. 6419 Fresno County Mendota--Fresno Allow a photovoltaic solar power generation facility with related improvements including a substation with 11 70-foot tall electrical utility poles and a 100-foot tall electrical utility pole, 13 inverter/transformer units, a 20,000 sf operations and maintenance building, a 375 sf power distribution center, and a 6.6-foot tall chain-link fence on a 100 acre parcel in the AE-20 (Exclusive Agricultural, 20-acre minimum parcel size) Zone District. The project site is located on the east side of Douglas Avenue, between Floral and Nebraska Avenues, approximately 12 miles southwest of the nearest city limits of the City of Mendota. (Sup. Dist.: 1) (APN: 038-060-02, 03, 38S; 038-050-44S).	MND	12/27/2012
2012111085	New Elementary School #3 Mendota Unified School District Mendota--Fresno The proposed elementary school will consist of 30 classrooms, administrative and multi-purpose rooms, outdoor field areas, paved parking (80 spaces), and landscaping throughout the campus. The proposed campus will house up to 1,000 students and approximately 75 employees. Construction is anticipated to begin in June 2013 with an opening date in August 2014. There is an existing man-made drainage channel that borders the site on the south and the east. Because of student safety issues associated with potential standing water, as well as site access issues along the southern border, the District plans to install a drainage pipe that is of the same capacity as existing conditions and will fill the channel to match the ultimate grade.	MND	12/27/2012
2012111086	Vierra Dairy Farm Expansion Project Merced County --Merced Conditional Use Permit CUP12-005 would allow the expansion of an existing dairy facility and bring it into compliance with Merced County's permit requirements. The existing dairy would be expanded to house a total of 5,600 animals, an increase of 2,225 animals over the existing 3,375. The proposed project would include reconfiguration of the existing dairy facilities, including the removal of two corrals, and the construction of a freestall barn and a 72-stall rotary dairy barn between the carrals and the commodity barns. Additional ancillary improvements would include an entrance driveway, a parking area with 40 spaces and two handicap spaces, landscaping, and a perimeter road located west of the proposed freestall barn.	NOP	12/27/2012
2012111084	Remedial Action Plan, for Soil and Groundwater at Former Charles Cain Inc. Facility Toxic Substances Control, Department of Los Angeles, City of--Los Angeles This IS evaluates the environmental impacts from implementation of a proposed Remedial Action Plan and Feasibility Study, herein referred to the RAP and/or the Project. The Project is proposed on approximately 0.32 acres of land located at 8325 Hindry Avenue, in the City of Los Angeles, County of Los Angeles, CA. See Figures 1. The RAP was prepared in consultation with the Department of Toxic Substances Control (DTSC), pursuant to Health and Safety Code Section 25356.1. The anticipated schedule for implementation of the RAP is approximately 6 months.	Neg	12/27/2012

<u>Documents Received on Wednesday, November 28, 2012</u>			
2012111088	Upper Mesa Solar Power Generation Facility at the Castaic Lake Water Agency's RVWTP Castaic Lake Water Agency Santa Clarita--Los Angeles The Project would install a 3.5 MW Photovoltaic (PV) solar project on 19.5 acres of CLWA-owned land located within the current boundaries of the RVWTP. The Project would generate enough electricity annually to partially meet the electrical demands for 44 of 82 off-site meters owned by CWLA and its retail division, the Santa Clarita Water Division (3.5 MW). Because the peak generation of the solar plant is during summer daylight hours and is not identical to the demand curve of the off-site meters, the plant will operate under "net metering" characteristics and be part of the Renewable Energy Self-Generation Bill Credit Transfer program (RES-BCT). Net metering permits excess energy generated to be supplied to SCE's distribution network and used to offset energy costs at the off-site meters even if demand occurs outside of the period of solar power generation. This demand and supply balancing must occur within the same calendar year and excess generation cannot be carried over into the following year.	Neg	12/27/2012
2012112060	Landscape Design Guidelines (PCPJ 20120313) Placer County --Placer The proposed Landscape Design Guidelines will apply to all new developments and substantial site alterations that require discretionary approvals. 2012118205	River Garden Farms Fish Screen Central Valley Flood Protection Board --Yolo To install a self-cleaning, retractable fish screen system on an existing agricultural diversion.	NOE	
2012118206	Waste Heat Recovery from Corrosive Industrial Exhaust Gases Energy Commission -- The purpose of the contract is to demonstrate a practical, robust, and affordable technology to recover waste heat from one or more aluminum remelt furnaces which have hot exhaust gases containing corrosive elements such as chlorine and fluorine. Aluminum remelters typically operate at 30 percent efficiency with 60 percent of input energy lost to the exhaust gas without recovery. More than 5 million tons of aluminum are remelted annually in the U.S., and more than 10 percent of that total is remelted in California. A total of 20 trillion British thermal units of natural gas are used to remelt aluminum annually in the United States.	NOE	
2012118207	Agreement 2012-0106-R4 - Hatfield Pump Station Relocation. Fish & Game #4 --Merced The proposed Project will relocate an existing pump station, approximately 300 feet downstream from its current location, along the western bank of the Merced River. The pump station will consist of the pump itself and an access platform. Relocation of the pump access platform will require driving four steel piles approximately 15-20 feet deep into the river bed. Steel beams and expanded metal grating will be constructed over the steel pile to form an access platform for operations and maintenance of the pump. The platform will be approximately 8 feet wide and will extend from the bank over a portion of the active river channel long enough to access the location where the pump will be submerged. It is estimated that the platform will total 30 feet long.	NOE	
2012118208	Exeter CAPM Overlay Caltrans #6 --Tulare This project would overlay the existing pavement with rubberized asphalt and place needed shoulder backing along the highway. Within Caltrans right-of-way in the City of Exeter the project would also upgrade ADA curb ramps by replacing 30 ramps, modifying 11 existing ramps, and adding 4 new ADA-compliant curb ramps.	NOE	
2012118209	Central Kitchen Replacement Project Corrections and Rehabilitation, Department of --San Luis Obispo The project would replace the prison's existing central kitchen and two adjoining dining halls with a new kitchen and two new dining halls. The project is needed because the central kitchen is badly deteriorated due to water damage associated with daily kitchen-cleaning practices. The high use, outdated equipment, and the aging structure have resulted in maintenance and repair costs to the State that continue to escalate each year. The project would improve work area efficiency and utilize durable materials resistant to deterioration due to water. In addition, the new kitchen layout would reduce blind spots, thereby increasing safety for both staff and inmates.	NOE

2012111092	PCCR USA, Inc. Interim Measures; U.S. EPA ID. NO. CAD076180843 Toxic Substances Control, Department of Lynwood--Los Angeles The project is the selection of a interim clean-up measure by the DTSC, in accordance with CA Health and Safety Code, Chapter 6.5, Section 25187 et seq., for remediation of contaminated soil at the Lynwood Site.	Neg	12/31/2012
2005041103	Mojave Water Agency Water Supply Reliability and Groundwater Replenishment Program Mojave Water Agency Victorville, Hesperia, Apple Valley, Unincorporated--San Bernardino The California Department of Public Health, as the responsible agency, will be issuing a water supply permit. The Mojave Water Agency proposed project included construction of new groundwater recharge, conveyance, and extraction facilities and operation of existing facilities to provide for import, banking, and return of banked groundwater. The project will involve approximately 890 acres of new recharge, 15+ miles of new pipeline, and 60 new wells. The project includes the use of Mainstem Mojave River for active recharge and delivery to the Mojave River via releases from Lake Silverwood and from the California Aqueduct via existing facilities and a new release to an unnamed wash.	NOD	
2007071039	Vista Canyon and Ancillary Annexation Areas (Fair Oaks Ranch, Sand Canyon, and Jakes Way) Santa Clarita, City of Santa Clarita--Los Angeles The State of California Department of Fish and Game is entering into a Lake or Streambed Alteration Agreement with Vista Canyon Ranch, LLC, pursuant to Section 1602 of the Fish and Game Code. The Vista Canyon Ranch project project is limited to the alteration of portions of the Santa Clara River, where bank stabilization structures and a bridge will be constructed within a 185 acre parcel that is proposed for development. In general, the project will include the development of residential units, mixed commercial units, a part site, trail system, an on-site water treatment facility, and other ancillary structures.	NOD	
2009121071	Tustin Wells 21 and 22 Project, and Tustin Legacy Well 1 Project Irvine Ranch Water District Tustin--Orange The California Department of Public Health, as the responsible agency, will be issuing a water supply permit. The Irvine Ranch Water District proposed project included installing wellhead equipment on two existing groundwater wells, construct a new desalater water treatment plant, chlorination and conveyance facilities. 2006112102	Pilarcitos Quarry Expansion San Mateo County Half Moon Bay--San Mateo Note FYI Final	EIR	

Pilarcitos Quarry is an ongoing mining operation that mines granitic rock for use as construction aggregate, including fill material, asphaltic concrete, landscape materials, and various grades of sand, drain rock, and road base. Quarrying and processing currently directly affect 53.31 acres in the southern portion of the 588-acre property.

The Project includes approval of a proposed Mining and Reclamation Plan covering the reclamation of the current mining area, the mining and reclamation of the proposed mining expansion areas, and the development of several temporary and permanent water reservoirs within the mining pits. The proposed Mining and Reclamation Plan covers a time span of approximately 100 years, under which current mining operations would be expanded to include an additional 117 acres in the southern portion of the property. The Mining and Reclamation Plan includes

	specifications for reclaiming all disturbed areas after completion of mining, such that the land is returned to a condition suitable for intended future use as open space and water storage.		
2010112042	Magee Ranches Danville, City of Danville--Contra Costa SummerHill Homes proposes to subdivide approximately a 410-acre site into 70 single-family lots, with six lots on the west portion of the site (Magee West) and 64 lots on the east portion of the site (Magee East). The project proposes to locate the lots on approximately 108 acres of the flatter portions of the site, avoiding the steeper slopes and ridges. The remaining ~302 acres of the site would be preserved as permanent open space.	EIR	01/14/2013
2011012015	Humboldt Bay Regional Invasive Spartina Control and Native Salt Marsh Restoration California State Coastal Conservancy Eureka, Arcata, Ferndale--Humboldt The project is a regional program for the control of non-native Spartina in Humboldt Bay, the Eel River Delta, and the Mad River Estuary. The goal of the Project is to control dense-flowered cordgrass (<i>S. densiflora</i>) and restore tidal marshlands in the project area, which provide habitat for a diverse community of plants and wildlife, including several special status species. It is estimated that the control of <i>S. densiflora</i> could enhance 2,000 acres of tidal wetland. The proposed regional program for the control of non-native Spartina in the Humboldt Bay region may utilize one or more of the following treatment and control methodologies: mechanical removal; manual removal; mowing; covering/blanketing; flooding; flaming of seedlings or application of herbicide.	EIR	01/14/2013
2011041067	2030 Merced County General Plan Merced County --Merced Note: Extended review The project includes all actions necessary to update the 2000 Merced County General Plan, including reorganizing and updating the existing Plan's eight chapters, which together address the seven mandatory General Plan elements required by state planning laws. The 2030 Merced County General Plan project would include additional chapters on economic development, air quality, public facilities and services, recreation and cultural resources, and water, as well as revised Land Use and Circulation Diagrams.	EIR	01/29/2013
2012022008	Coyote Highlands 25-lot Subdivision and EIR Santa Clara County Morgan Hill--Santa Clara The proposed project entails a 25-lot Subdivision of a 567-acre site. The project would result in the creation of 25 residential lots ranging in size from approximately 3.45 to 10.76 acres, as well as several open space lots. The Open Space area would encompass 508 acres and the developable area would be 59 acres. Access to most of the new lots would be from an extension of Maple Avenue, except for Lot 1, which would be accessed from Carey Avenue. The Maple Avenue extension will be offered for dedication as an emergency vehicle access route joining Oak Canyon Drive in Morgan Hill.	EIR	01/14/2013

2012111093	BEACON Single Use Carryout Bag Ordinance BEACON, Beach Erosion Authority for Clean Ocean Authority --Santa Barbara, Ventura The proposed Single Use Carryout Bag Ordinance (proposed ordinance) would regulate the use of paper and plastic single use carryout bags within the geographical limits of Santa Barbara and Ventura counties, including the unincorporated areas as well as the 18 incorporated cities listed above under Project Locations. The intent of the ordinance is to reduce the environmental impacts related to the use of single use carryout bags, and to promote a shift toward the use of reusable bags. It is anticipated that by prohibiting single use plastic carryout bags and requiring a mandatory charge for each paper bag distributed by retailers, the Proposed Ordinance would provide a disincentive to customers to request paper bags when shopping at regulated stores and promote a shift to the use of reusable bags by retail customers, while reducing the number of single use plastic and paper bags within the participating municipalities.	Neg	12/31/2012

2010068081	City of Vista Cured-in-Place Pipeline Rehabilitation Project, CIP #8170 Vista, City of Vista--San Diego The Project will correct pipeline defects (broken pipelines, offset joints, and root intrusion) using the CIPP rehabilitation method to re-line approximately 59,067 feet of pipeline ranging in size from 8-inch to 12-inch in diameter.	NOE	
2012118138	Agreement 2012-0128-R4 - Fig Tree Bridge Fish & Game #4 --Tuolumne The Project includes the construction of a vehicle crossing over Poor Man's Gulch. Construction of the crossing will include the installation of an approximately 20-foot-long by 36-inch diameter steel culvert. Approximately 30 linear feet of creek bed will be excavated to accommodate installation, it will be backfilled with soil and covered with approximately 2 feet of fill. Either side of the culvert crossing will be stabilized by the use of filter fabric followed by rock slope protection. The surface of the crossing will be topped with gravel. All work will be done in absence of surface flow.	NOE	
2012118224	Issuance of Streambed Alteration Agreement No. 1600-2012-0198-R1, Gay Creek, Tributary to Moore Creek Fish & Game #1 --Tehama Unauthorized grading was conducted by the Permittee along approximately 1/2 mile of Gay Creek resulting in impacts to approximately 5 acres of riparian habitat. DFG issued a Letter of Violation and since the Permittee has been working cooperatively to resolve the violation and develop plans to mitigate the damage. Those plans include these three components: 1) successful revegetation of disturbed portions of the site; 2) removal and control of large woody invasive species (trees); and 3) routine maintenance of the stream channel to allow unhindered passage of water through the Permittee's property, reducing the risk of flooding adjacent properties.	NOE	
2012118225	Dam Removal and Habitat Restoration Fish & Game Eastern Sierra-Inland Deserts Region --Riverside This project addresses impacts the unauthorized impacts to 0.15 acres of DFG jurisdictional areas. This project authorizes a total of 0.15 acres of impacts for the restoration of the streambed to its pre-impact conditions and revegetation and enhancement of the project site. The restoration activities will be completed within	NOE
