

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

November 16 – 30, 2014

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16 – 30, 2014**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

OR

USPS/Courier Service / Hand Deliveries:

State Clearinghouse
1400 Tenth Street, Room 113
Sacramento, CA 95814

INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Environmental Document Filings with the State Clearinghouse 1999-2013

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at <http://www.ceqanet.ca.gov>

<u>Documents Received on Monday, November 17, 2014</u>			
2013102027	<p>Empire Storm Drain Project Stanislaus County --Stanislaus</p> <p>The proposed project is a Low Impact Development storm water system which includes the installation of sidewalks and bio-retention swales for storm water storage and provides storm water quality treatment through natural soil percolation. The swales provide attenuation storage and opportunities for pollutants to settle and be retained within the wale area without having a need to discharge the storm water into receiving waters of the State. This document has been completed to meet US Dept. of Agriculture "Environmental Report" requirements in compliance with the CEQA and NEPA.</p>	EA	12/16/2014
2012052042	<p>Integrated Mosquito and Vector Management Program PEIR Napa County Mosquito Abatement District --Napa</p> <p>The Napa County Mosquito Abatement District undertakes activities through its Integrated Vector Management Program to manage the following vectors of disease and/or discomfort in the Service Area: mosquitoes, rats, yellowjackets, ticks, and invasive or noxious weeds. The District is preparing a PEIR to evaluate the effects of the continued implementation of the control strategies and methods prescribed in its Integrated Mosquito and Vector Management Program (Control Program/Project).</p>	EIR	12/31/2014
2014041090	<p>Renewable Energy Streamlining Program (ED13-196) San Luis Obispo County --San Luis Obispo</p> <p>The RESP consists of revisions to the inland Land Use Ordinance (LUO, Title 22) to streamline the development of distributed renewable energy resources, as well as associated revisions to the County's General Plan Conservation and Open Space Element and Williamson Act Rules of Procedure. Distributed energy resources may either be connected to the electric grid or serve on-site uses in stand-alone applications. The focus of the RESP is to support distributed solar energy facilities, but also includes update for other technologies such as wind energy conversion facilities. Code updates will provide greater certainty for renewable energy development and adopt performance standards that will reduce barriers to permitting certain renewable energy technologies. A new RE Combining Designation will be created in Chapter 22.14 of the LUO (and described in the Framework for Planning, Part I of the General Plan Land Use and Circulation Elements) to provide ministerial permits for a range of solar energy facilities. Additional studies may be required based on the presence of site-specific issues or the scale of the renewable energy facility. Discretionary review may be triggered within the RE Combining Designation by larger projects that require additional standards or conditions of approval. LUO Chapter 22.32 will be updated to provide development standards and performance criteria for renewable energy technologies proposed throughout the project boundaries. These revisions include streamlined permit review for certain types of renewable energy facilities and foster greater clarity and transparency in the renewable energy entitlement process. New content in Chapter 22.32 would simplify and standardize the application and entitlement process for all solar electric facilities and wind energy conversion systems countywide, both within and outside of the</p>	EIR	12/31/2014

	RE Combining Designation.		
2014042069	Corte Madera Inn Rebuild Corte Madera, City of Corte Madera--Marin Note: Extended Review Per Lead	EIR	01/20/2015
	The proposed project is the replacement of the existing hotel and restaurant with a new 187-room hotel that includes extended stay rooms and limited-service traditional hotel rooms. The building would be two and three-stories in height. A total of 257 surface parking spaces would be provided. Conference rooms would be provided at the hotel, along with landscaped areas, a swimming pool, and spa. The existing 0.65-acre pond would be removed and filled to allow new construction. A General Plan amendment and rezoning would occur to allow a floor area ration of 0.55 at the site. The new General Plan designation would be Motel/Hotel Highway Commercial and the new zoning designation would be C-5 Motel/Hotel Highway Commercial.		
2014081105	Fullerton Road Corridor Improvements Los Angeles County --Los Angeles The proposed project would include roadway widening along 0.45 mile of Fullerton Road within the City of Industry jurisdictional boundary (Fullerton Road/SR 60) and ending at Camino Bello (unincorporated Los Angeles County [Rowland Heights]). The proposed project would add a third lane (in each direction) along Fullerton Road and also includes the future accommodation of a Class II bicycle lane from Colima Road to Camino Bello. Sidewalks, curbs, and gutters (in compliance with the Americans with Disabilities Act) will also be reconstructed (both sides of roadway within the City of Industry Boundary to Colima Road and east side from Fullerton Road to Camino Bello). At Fullerton Road and SR 60, the eastbound off-ramp would be reconstructed to include an additional right turn lane.	EIR	12/31/2014
2014111037	Aeration Improvements at Lake Casitas Casitas Municipal Water District --Ventura Construct a hypolimnetic Oxygenation System to improve water quality in the lake.	MND	12/16/2014
2014111038	Lake Casitas Shoreline Vegetation Removal Casitas Municipal Water District --Ventura Remove vegetation from waterline to high water line to reduce organic loading in lake.	MND	12/16/2014
2014111039	Santa Ana Launch Ramp Extension Casitas Municipal Water District --Ventura Construct a 16,200 sf concrete recreation boat launch ramp extension.	MND	12/16/2014
2014111040	ENV-2013-3187-MND Los Angeles, City of --Los Angeles The Project Site contains four parcels with a total Lot Area of 34,253 sf (0.786 acres), prior to vacation of the 5-ft. dedication on Broadway and 13-ft. dedication on 4th Street. If the 5-ft and 13-ft dedication are vacated, the total area would be 37,529 sf (0.8615 acres). The Site is zoned [Q]C4-4D-CDO. The Project Site is located within the Central City Community Plan and the Broadway Community	MND	12/16/2014

	Design Overlay. The Site is bound by 4th Street to the north, Broadway to the west, Frank Ct to the east, and a 10-story residential apartment building (The Judson) with ground floor retail to the south. The Project Site currently contains a 1-story, 14,000 sf commercial building with ground and roof-top parking, which would be removed in order to accommodate the Project. The Project proposes a mixed-use development consisting of a 34-story, high-rise residential tower with associated support spaces such as parking, resident amenity facilities, storage rooms, bicycle storage, lobby circulation, and service spaces. The Project would include 450 residential units and 6,904 sf of ground floor commercial space. A total of 450 parking spaces will be provided in two subterranean and 6 podium levels. The Proposed Project consists of a total of 444,099 sf of floor area. The Project would export approximately 27,777 cubic yards of dirt.		
2014111041	Reservoir 8121-2 Project Coachella Valley Water District --Riverside The proposed project involves the design and construction of a 500,000 gallon welded-steel domestic water reservoir at the existing Reservoir 8121 site, located on a CVWD parcel (APN 731-190-012) along Hot Springs Road and the Hot Mineral Spa Road/Coachella Canal Road intersection in the community of Hot Mineral Spa. The existing Reservoir 8121 is located on an approximate half-acre portion of the 1.75-acre CVWD parcel; the proposed reservoir will be located on the eastern portion of the parcel. The project also includes the installation of 8-foot, chain-link fencing along the CVWD parcel boundary upon completion of reservoir construction. The new reservoir will supplement existing domestic water storage and help meet peak demands and fire flow requirements within the Hot Mineral Spa Pressure Zone and Area 23 Pressure Zone that serve the Hot Mineral Spa and Bombay Beach communities.	MND	12/16/2014
2014111043	WWTP Effluent Disposal Remediation Project Cuyama Community Services District --Santa Barbara The Cuyama Community Services District is proposing to construct four evaporation ponds for the discharge of treated effluent wastewater, eliminating the current disposal method of discharging effluent into Salisbury Creek. The project also includes the land application of treated effluent on an adjacent property for irrigation of non-food crops. The purpose of the project is to eliminate the need for surface water disposal into Salisbury Creek. Evaporation pond 1 will be approximately 1 acre in size, pond 2 will be approximately 1.3 acres in size, and pond 3 will be approximately 0.3 acres in size. Evaporation pond 4 is proposed to be 4.6 acres.	MND	12/16/2014
2014111044	Commercial/Medical Office Project Huntington Park, City of Huntington Park--Los Angeles The project applicant, Devorim Investment, proposes to demolish a vacant hospital to construct a mixed use project that totals 25,550 sf. A two-story building is proposed along the north end of the site and include 9,782 sf of retail space on the ground floor and 9,867 sf of medical office space on the second floor. The medical office space anticipated for the second floor includes dental office, acupuncture, chiropractor, etc. The project proposes two separate buildings at the corners of the site including a 2,837 sf part for a bank or retail at the southwest corner and a 3,064 sf pad for a restaurant at the southeast corner. The project includes 103 surface parking spaces, including handicap spaces, 13 bicycle	MND	12/16/2014

	spaces and 4 motorcycle spaces. Site access will be provided by a two-way driveway at Florence Avenue and a two-way driveway at Benson Street. Both driveways will provide access for project patrons and employees as well as emergency vehicles. There will be no site access from Mission Place. On-site surface parking includes an island of parking in the middle of the site. A 20-foot wide landscape setback is proposed along the west, south, and east project boundaries.		
2014112036	Tramway Road/A-Line Road/F-Line Road/Road 90A Shaded Fuel Break Project Tehama County --Tehama The project under analysis in this IS/MND consists of a 22.05 mile long approximately 300' wide (809 acre) roadside shaded fuel break. Project work would be completed to 150" both sides of the roadway along the Tehama County maintained Tramway Road, an unpaved secondary route along with the A-Line Road, F-Line Road and Road 90-A which are owned and maintained by Sierra Pacific Industries. The three SPI maintained roads are also unpaved and are used for access to timber stands located within the watersheds of Battle Creek, Paynes Creek and the North Fork of Antelope Creek. In general, tracked and tired cutting equipment will cut brush along with small conifer and deciduous trees having a diameter of 10" and under (oak species 6" and under). Similarly tracked and tired skidding equipment will transport cut vegetation to chipping areas where drum type chippers would process this material and blow it into chip vans for transport to cogeneration plants located in the Sacramento Valley.	MND	12/16/2014
2014112037	Sunnyvale Water Pollution Control Plant Primary Treatment Facility Sunnyvale, City of Sunnyvale--Santa Clara The proposed project would replace existing, aging facilities at the WPCP, including replacements of the headworks facility, primary treatment facilities, switchgear building, standby generator, and heat recovery system at the power generation facility. Site expansion to the south and east would be facilitated by filling a drainage channel alongside the existing site. Access roadway and fencing would also be altered or replaced, and dewatering would be relocated within the WPCP site. These replacement are needed at the WPCP in order to update seismically-deficient facilities, comply with permit requirements, and ensure facilities are compatible with projected flows and future potential treatment system processes. Following construction of the replacement facilities, the existing headworks and primary treatment facilities would be decommissioned in place or demolished. The proposed facilities would operate in a similar fashion as the existing facilities.	MND	12/16/2014
2014112039	Saban Design Review and Variance Neg Dec Marin County --Marin Israel Saban proposes to complete the demolition of a pre-existing 870 sf residence (of which all but 265 sf has already been demolished) and construct a new residence on the vacant lot. The total proposed building area would be 1,429 sf, consisting of 941 sf of floor area and a 488 sf garage. The proposal also includes 46 sf of covered porches. The proposed project would result in a floor area ratio of approximately 5 percent on the 17,890 sf lot. The proposed residence would reach a maximum height of 22 feet above surrounding grade and the exterior walls would have the following minimum setbacks: 20 feet from the top of the stream bank; 62 feet from the eastern front property line; 66 feet from the	MND	12/17/2014

	northern side property line;		
2013092045	Subdivision Map, Rezone, General Plan Amendment, IS-#2013-024, Walsh Family Trust Lassen County --Lassen Proposed division of a parcel totaling 308 acres, into a total of 4 parcels and a 264 acre remainder. The proposed parcels range in size from 5 acres to 20 acres in size. Proposed Parcel A is 20 acres, Parcel B is 5 acres, Parcel C is 6.5 acres and Parcel D is 6.5 acres in size. Due to an earlier Parcel Map Waiver #77-12-79, recorded on March 6, 1980, which created an additional parcel adjacent to the project site a Subdivision application is required. The parcel has multiple zoning districts which include the following: A-2-B-20, A-2-B-40, and A-3-NH-80. A rezone and GPA is proposed to facilitate the proposed parcel configuration. A Subdivision Application is required.	Neg	12/16/2014
2014111042	Tentative Parcel map 73033 Agoura Hills, City of Agoura Hills--Los Angeles The project is a tentative parcel map for an approximately 35-acre parcel to be subdivided into eight parcels. The site is vacant. No development, infrastructure, land use designation change, or policy change is proposed as part of the project.	Neg	12/16/2014
2014112038	Schnitzer Stormwater Improvement Project Oakland, Port of Oakland--Alameda Schnitzer Steel Industries, Inc. plans to construct a stormwater improvement system at its Oakland, CA facility. The project is designed to enhance the current water treatment system for the site. Currently, stormwater, process cooling water, dust suppression, and wash water are directed into an existing 1.2 million-gallon holding tank, then to clarifier, and then the water is either evaporated or reclaimed for process use. The new system will allow Schnitzer to further treat and discharge water previously evaporated and reclaimed. The new system includes electro-coagulation treatment, new water conveyance pipes, an upgrade to the existing water clarifier, and new storm and sanitary sewer connections.	Neg	12/16/2014
2009012070	Richardson Grove Operational Improvement Project Caltrans #1 --Humboldt Note: Rescission Notice Per Lead Agency to FONSI filed 05/19/2010 with SCH. Adjust roadway realignment to accommodate Surface Transportation Assistance Act (STAA) truck traffic, thereby removing the restriction of STAA vehicles while improving safety and operation of Route 101.	Oth	
2014092057	Modifications to Existing Conditional Use Permits - Altamont Winds Inc. Alameda County Livermore--Alameda NOTE: Review Extended Per Lead Note: Tiered off SCH# 2012062060. The proposed project consists of modifications to AWI's existing CUP's, as amended in July 2013, for continued wind power operation and maintenance	SIR	01/12/2015

	activities within the Alameda County portion of the APWRA through October 31, 2018. As amended in 2013, the wind power operations were scheduled to terminate on October 31, 2015, subject to new and revised conditions.		
2004101032	Master Storm Water System Maintenance Program San Diego, City of San Diego--San Diego The San Diego Regional Water quality Control Board is issuing a Clean Water Act Section 401 water quality certification (Cert. No. R9-2013-0124) to the project applicant, City of San Diego, Transportation and Storm Water Department. The applicant proposes ongoing maintenance of the Murphy Canyon Creek channel in reaches 1 and 2 to restore and maintain channel capacity to provide flood protection the surrounding businesses, roadways, and properties. The maintenance involves the periodic removal of trash, debris, vegetation and accumulated sediment from the channel.	NOD	
2006022038	City of Palo Alto Emergency Water Supply and Storage Project Palo Alto, City of Palo Alto--Santa Clara An Addendum to the adopted (March 5, 2007) EIR was prepared to address proposed modifications of the site improvements of El Camino Park. The project changes would not result in new or more severe significant impacts per CEQA Guidelines Section 15162(a)(1); there have been no changes in circumstances (15162(a)(2)); and there is no new information of substantial importance that would change the conclusions of the original analysis (15162(a)(3)). Pursuant to Section 15162, the proposed modifications are considered minor and have been determined to not create any additional impacts beyond those previously identified in the 2007 EIR. The primary aspect of the project that is different than originally analyzed is the proposal to restore the north playing field by using synthetic, rather than natural turf. Specifically, the project now proposes to replace the natural turf with synthetic turf for a new soccer and lacrosse field (' x '). For all intents and purposes, the synthetic turf field aesthetically and functionally would perform the same as a natural turf field. However City staff considered whether users of the synthetic turf field could be exposed to potentially hazardous materials, and whether runoff from the field could potentially impact water quality. For the proposed project, recycled tire products will not be used and only virgin material will be utilized. With this approach, the potential health concerns associated with the use of recycled tires would be eliminated. To further ensure the project does not have any health and safety impacts, performance measures will be implemented for the selection and installation of synthetic turf. Only turf products that meet the acceptable safety standards as discussed in the Addendum will be used for the project.	NOD	
2014042091	Del Monte Warehouse Project Alameda, City of Alameda--Alameda Note: Supplemental Transportation Demand Management Plan for the rehabilitation and reuse of the former Del Monte warehouse building located at 1501 Buena Vista Avenue consisting of 308 housing units and 30,000 square feet of commercial space.	NOD

2014118146	District 3 Charging Stations Caltrans #3 --Yuba Caltrans is proposing to add electrical vehicle charging stations at the Caltrans 3 District Office in Marysville. The charging stations will aid in adding electrical vehicles to the Caltrans fleet.	NOE	
2014118147	South Fork American River Geotechnical Drilling Project (Lake or Streambed Alteration Agreement No. (1600-2014-0225-R2) Fish & Wildlife #2 --El Dorado The project is limited to thirteen geotechnical borings at thirteen locations on/and adjacent to State Route 49 Bridge over the South Fork American River. Borings will be at least 50 to 70 feet deep or at least 20 to 40 feet deep into sound rock and will be located at the river abutments and the active channel as shown in the drilling plan submitted with the Notification. Six locations will be drilled from the bridge deck. The rest of the locations will be accessed through an existing access road located at the northwest quadrant of the bridge. Two locations will require drilling activities within the active channel. Implementation of the project will not result in vegetation removal.	NOE	
2014118148	Spillway Low Water Ramp Road Maintenance Project (SAA #1600-2014-0205-R2) Fish & Wildlife #2 --Butte 1) Spillway Low-Water Gravel Ramp Road Maintenance Project: Removing excess sediment on the access road to the auxillary "Low-Water Gravel Boat Ramp" that is accessed from the Spillway Day-Use Area. The Department of Water Resources (DWR) will maintain the low-water ramp and parking lot by adding gravel, regrading, and compacting as needed. 2) Spillway Stage 2 Paved Ramp erosion Repair Project: Heavy rain in 2014 severely eroded and undercut the northern edge of the northern most spillway boat ramp. The undercut area is approximately 60 feet long and up to 5 feet in depth and width under the launch ramp. The repair will consist of excavating to original ground using heavy equipment and hand tools as necessary (approximately 30-50 cubic yards of material will be removed).	NOE	
2014118150	Hallmark West Mitigation Site (for I-5 NCC Project) Fish & Wildlife #5 Carlsbad--San Diego SAA #1600-2014-0165-R5. The Applicant proposes to restore and/or reestablish various natural habitats. Work to include the following: Removal of exotic plants, trash and debris installation of fencing and gates; grading; installation of erosion control measures, irrigation systems, and native plant material; plant establishment; and other related activities. 	<p>been identified as one of ten locations for the study. The exact location covers approximately 100 feet x 20 feet on a approximate 45 degree grassland slope, is directly west of the OHV use near Tesla Road, south of Corral Hollow Creek, and immediately north of a residential driveway. In addition to seedlings will be shallowly planted (~4-6"); planting/seeding will take place between early December and early January, to coincide with the first rainfall of the season.</p>		
2014118152	<p>Residence 1 Concrete Walkway Leveling Parks and Recreation, Department of --San Luis Obispo</p> <p>The purpose of this project is to improve safety conditions for an existing concrete walkway for a State Park residence. Project activities would include elevating the existing concrete walkway between the driveway/garage and the back entrance to the residence. Current conditions include a four to six (4-6") drop off from the driveway entrance and a six to eight inch (6-8") drop from the garage entrance, which both create a tripping hazard and flood conditions during rain events. No ground will be disturbed as this will be an encapsulation of existing concrete ground.</p>	NOE	
2014118153	<p>Old Sector Office Clean-up and Replacement Parks and Recreation, Department of Tracy--San Joaquin</p> <p>The purpose of this project is to replace a facility/office building that received extensive fire-damage in 2013. The new building is a three piece pre-fabricated building that will be brought on site by semi-trucks. The footprint of the building is 66' x 35.5' and the total permanent impact area will be equal to or less than 70' x 60' (this includes the foundation and concrete foundation, this process will involve a maximum soil disturbance depth of 6-8" and will use fill from the sediment basin stockpile during leveling to ensure minimum possible disturbance on site.</p>	NOE	
2014118154	<p>Oceano Dunes SVRA Restoration Projects 2014/15 Parks and Recreation, Department of --San Luis Obispo</p> <p>The purpose of the 2014/2015 Oceano Dunes SVRA's restoration program is to stabilize, restore or maintain the ecological integrity and function of the native plant communities and surrounding soil in specific areas of the Gaudalupe-Nipomo Dunes Complex within the park boundaries. Protection of the vegetated islands within ODSVRA, are mandated to remain in compliance with the Coastal Permit, OHMVRD Directives and State Legislation.</p>	NOE	
2014118155	<p>Office Space Lease in Multi-tenant Building General Services, Department of Sacramento--Sacramento</p> <p>Agency is leasing +/-21,361 square feet of office to house Fiscal and Consulting staff.</p>	NOE	
2014118156	<p>Ericson Elementary School Marquee Sign San Diego Unified School District San Diego--San Diego</p> <p>The Ericson Elementary School Marquee Sign project involves installing a 5 ft x 9 ft x 7 ft 11 inch LED marquee sign mounted on 2 poles in front of the school's main building. The sign would be facing down the Westonhill Drive/Arclurus Way intersection. The sign would be used for school related messaging and would be internally illuminated/single sided.</p>	NOE

2011012080	Open Space District's Road and Trail Management Plan Marin County San Rafael--Marin FYI Final The RTMP would apply to all 34 of the MCOSD open space preserves and would: - Establish and maintain a sustainable system of roads and trails that meet design and management standards - Reduce the environmental impacts of roads and trails on sensitive resources, habitats, riparian areas, and special-status plant and animal species - Improve the visitor experience and visitor safety	FIN	01/02/2015
2014072060	Ulferts Center Zoning Amendment Milpitas, City of Milpitas--Santa Clara The project includes rezoning the project site from Agriculture to General Commercial; completion of a shared parking agreement; and construction of a 58-space ancillary parking lot to support the existing Ulferts Center and existing and future restaurant/food uses located to the north of the project site.	MND	12/17/2014
2014111047	Conditional Use Permit Case No. 8, Map No. 113; Matcon Corporation, Inc. (PP13234) Kern County --Kern The proposal is for a Conditional Use Permit to allow for a surface mining operation and development of a reclamation plan in accordance with the Surface Mining and Reclamation Act (SMARA) of 1975. As proposed, the operation will disturb 17.23 acres of a 281 acre site consisting of five parcels, a portion of which has been disturbed under a previously approved surface mining and reclamation plan (CUP 1, Map 113; CA Mine ID #91-15-0011). The site is zoned A-1 MH and designated 1.1 (State or Federal Land), 8.4/2.4 (Mineral and Petroleum, Minimum 5 Acre Parcel Size/ Steep Slope Overlay) and 8.5/2.5 (Resource Management, Minimum 20 Acre Parcel Size/Flood Hazard Overlay) by the Kern County General Plan. The applicant proposes to employ open pit mining techniques to mine seismotite, pumicite, calcium bentonite clay and limestone aggregate.	MND	12/17/2014
2014112040	Casa Buena Townhomes Corte Madera, City of Corte Madera--Marin The project proposes the development of 16 attached townhomes on an approximately 1.23-acre site located at 1421 and 1425 Casa Buena Drive. The townhomes would consist of four different designs and will vary between two- and three-story units, with units having either 3 or 4 bedroom floor plans. The townhomes would be arranged in 4 rows of 4 homes each accessed off a single driveway. The proposed project includes a vesting tentative map for a subdivision of the proposed lot as part of a condominium subdivision map. The project applicant is requesting an exception to the existing 30 foot height limitation established in the R-2 Low-Density Multiple Dwelling District Regulations (Section 18.08.120 (g) of the Corte Madera Municipal Code. The maximum building height would be up to 37' 6" where 30 feet would otherwise be allowed.	MND	12/17/2014

2014112042	Spyrock Road Cell Tower Modification Mendocino County --Mendocino Modification of existing use permit to extend height of tower from 50 feet to 70 feet. Installation of three new antennas per sector for a total of nine new antennas at the 58 foot centerline of the 70 foot tall monopole, a 138 sf equipment shelter to house a standard number of equipment cabinets and a 50 KW diesel generator with a 132 gallon diesel fuel tank.	MND	12/17/2014
2014111045	Change of Zone 05-07 and Tentative Subdivision Map (Lotus Ranch), El Centro El Centro, City of El Centro--Imperial The proposed Lotus Ranch project consists of 213 acres south of I-8. The proposed project includes the construction of 617 single-family residential units, two parks consisting of 5.8 acres, and offsite improvements to serve the project. It is anticipated the development would occur in three major phases. The project would require Annexation, Pre-Zone, Vesting Tentative Map, and Development Agreement.	NOP	12/17/2014
2014111046	Ventana Property Holdings LLC Monterey County Salinas--Monterey Minor Subdivision, per Monterey County Code (MCC) Section 19.02.005.4, to allow the division of a 354.12 acre parcel into five parcels (Parcel 1, 56.01 acres; Parcel 2, 55.98 acres; Parcel 3, 55.95 acres; Parcel 4, 55.78 acres; and Parcel 5, 130.40 acres).	Neg	12/17/2014
2014112041	San Leandro Housing Element Update San Leandro, City of San Leandro--Alameda The proposed project includes an update to the current (2007-2014) Housing Element for the planning period 2015-2023 in compliance with Government Code Section 65580 et seq. The City of San Leandro's allocation for the 2014-2022 RHNA period is 2,287 dwelling units. The proposed project supports the goals and policies of the city's current Housing Element (2007-2014) and provides policies and implementing programs to further the city's housing goals. The identified sites, including the committed sites, would allow the City to meet its RHNA with a total capacity of 2,347 units, resulting in a surplus of 60 units above the RHNA. No rezoning or changes to General Plan designation would be required to achieve this yield; the housing sites are already planned and zoned to accommodate the level of development.	Neg	12/17/2014
2014112043	Ward Property Soil Borrow Site Sacramento County Rancho Murieta--Sacramento 1. A Use Permit to allow a temporary borrow site and associated top soil stockpile on approximately 14 acres (10 acre borrow site, 4 acre stockpile area) of the larger 202 acre parcel located in the A-2 Flood zone of Rancho Murieta. 2. A Reclamation Plan to include agricultural uses as the end use of the borrow site.	Neg	12/17/2014

	<p>Water Right Application (A32139) was approved on October 27, 2014 by the State Water Resources Control Board for storage and use of the reservoir. CDFW is executing a Lake and Streambed Alteration Agreement Number 1600-2013-0178-3 pursuant to Section 1602 of the Fish and Game Code to Dave Del Dotto, Del Dotto Vineyards.</p>		
2014071059	<p>University Drive Widening Project (MacArthur Boulevard to Campus Drive) Irvine, City of Irvine--Orange</p> <p>University Drive is designated "Major Highway 6-Lanes" by the City of Irvine General Plan Circulation Element. According to a traffic analysis conducted for the proposed project, the University Drive segments from MacArthur Boulevard northbound ramps to Campus Drive currently operate at unacceptable levels of service, and will continue to worsen over time without improvements. The proposed project would provide a third travel lane with curb and gutter in each direction and sidewalk on the eastbound side of University Drive from Campus Drive to MacArthur Boulevard. The roadway alignment would not be altered and medians would typically be 14 feet wide to minimize pavement modifications at the medians and impacts to median utilities, lighting, and landscaping. These improvements would address existing deficiencies and complete this segment of University Drive consistent with the City of Irvine General Plan Circulation Element.</p>	NOD	
2014081017	<p>Orange County Feeder Relining Project Metropolitan Water District of Southern California Santa Ana, Costa Mesa, Newport Beach--Orange</p> <p>The proposed project involves relining approximately 9.5 miles of the OCF. The OCF is a welded steel pipeline, approximately 36 inches in diameter, and is lined with coal tar enamel (CTE) to protect the inside of the pipeline. The CTE liner is blistering or peeling away from the internal steel face of the pipeline and exposing the pipeline to corrosion. The proposed project includes removal of the existing CTE liner, relining the pipeline with cement mortar, and installing bonding bars between the pipe sections to enable the installation of an effective cathodic protection system for corrosion prevention. Maintenance and replacement of worn or outdated components (e.g. above-ground air release valves, vacuum valves) would also be completed as part of this project.</p>	NOD	
2014092054	<p>PA-1400077 (SA) San Joaquin County --San Joaquin</p> <p>A Site Approval application of Lawrence J. & Beverly A. Sambado (c/o Roland Construction) for the expansion of an existing packing shed facility to be constructed in five phases. Phase 1 to include a 26,200 square foot addition to an existing apple storage shed. Phase 2, with building permits to be issued within 5 years, is the construction of two walnut storage buildings each containing 26,500 square feet. Phase 3, with building permits to be issued within 10 years, is the construction of two walnut storage buildings each containing 26,500 square feet. Phase 4, with building permits to be issued within 15 years, is a 38,700 square foot addition to an existing cherry shed. Phase 5, with buildings permits to be issued within 20 years, is the construction of a 42,750 square foot walnut storage building. These parcels are under a Williamson Act contract. The Property is zoned AG-40 (General Agriculture, 40-acre minimum) and the General Plan designation is A/G (General Agriculture). The project site is located on the north side of Comstock Road, 2,250 feet east of Tully Road, East of Stockton.</p>	NOD

2014118172	Amendments to the Regulations for the Mandatory Reporting of Greenhouse Gas Emissions Air Resources Board -- The amendments to the Mandatory Reporting Regulation (MRR) continues to provide regulated entities with a reporting program for submitting GHG emissions data reports to ARB. The amendments affect only program administration and contents of databases that will: integrate AB 32 Cost of Implementation (COI) reporting; align with Cap-and-Trade Regulation, including clarifications and updates to petroleum and natural gas systems reporting, and clarifications to product data reporting; provide minor updates to Fuel Supplier and Electric Power Entity requirements; and other procedural modifications that do not alter compliance with the current MRR.	NOE	
2014118173	Vikingsham Electrical Upgrade Parks and Recreation, Department of --El Dorado Upgrade the electrical system at Vikingsham, Transformer Building, Water Plant and Visitor's Center in Emerald Bay State Park to increase public and employee safety and comply with current electrical standards.	NOE	
2014118174	Emergency Permit for Treatment of Hazardous Waste, Vertex Pharmaceuticals Toxic Substances Control, Department of San Diego--San Diego Department of Toxic Substances Control (DTSC) has issued an emergency permit to Vertex Pharmaceuticals to treat hazardous waste by chemical stabilization. It has been determined that the items are or may be highly reactive and must be stabilized prior to being transported offsite. The chemicals are expired and are currently being stored inside a storage area at the Vertex Pharmaceuticals facility located at 11010 Torreyanna Road, San Diego, CA. The treatment of these items will be carried out by CleanHarbors Environmental Services (CHES) and involves the addition of a solvent to the container to reduce the reactive characteristic of the chemicals. The treatment is anticipated to occur on November 19, 2014 in an exclusion zone at the facility.	NOE	
2014118175	Lease of Existing Office Space Rehabilitation, Department of --San Bernardino The California Department of Rehabilitation proposes to lease approximately 11,130 square feet of existing office space. The space would house approximately 61. Approximately 42 parking spaces would be used. Approximately 25-100 clients would be seen weekly. This office will be used as office space for the purpose of counseling disabled clients to retrain for work so they can re-enter the job market. Public transit is available within 1/4 mile of the site.	NOE	
2014118176	Tidelands Use and Occupancy Permit to Anthony's Fish Grotto for Outside Dining ARea San Diego Unified Port District San Diego--San Diego The proposed project is a tidelands use and occupancy permit (TUOP) to Anthony's Fish Grotto (Tenant) for their use of approximately 500 square feet of tidelands area adjacent to Anthony's Fish Grotto at 1360 North Harbor Drive in the City of San Diego. The area proposed for use under this TUOP will be used only	NOE

	and exclusively for the purpose of an outdoor dining area for Tenant's customers and for no other purpose whatsoever. Consistent with the existing use, the TUOP restricts the dining area to a maximum of three tables and six chairs and requires that public access be maintained on the adjacent sidewalk at all times.						
2014118177	Tidelands Use and Occupancy Permit to American TUnaboat Association and Fish Market Restaurants, Inc. San Diego Unified Port District San Diego--San Diego The proposed project is a tidelands use and occupancy permit (TUOP) to American Tunaboat Associateion and Fish Market Restaurants, Inc. (Tenant) for their use of an existing approximately 3,085 square-foot building and three existing paved parking stalls at One Tuna Lane in San Diego. The parking stalls are currently unmetered and reserved for the Tenant's use and no public parking would be affected by the TUOP. The area proposed for use for the Tenant and for no other purpose whatsoever. The Tenant will be responsible for compliance with all laws and regulations associated with the activities on or in connection with the above-described premises, and in all uses thereof, including those regulating stormwater and hazardous materials.	NOE					
2014118178	Cays Resort Dry Boat and Storage Facility San Diego Unified Port District Coronado--San Diego The proposed project involves development of a dry boat and storage facility on two separate, currently vacant properties at Grand Caribe Isle North along, and on both the east and west sides of, Caribe Cay Boulevard North in Coronado. Development features planned for the two properties include: new or upgraded fencing, new landscaping, streetscape improvements, and a gravel base with decomposed granite paving, as follows. The project will not involve soil disturbance or grading.	NOE					
2014118179	Construct Right Turn Project Caltrans #3 --El Dorado This project proposes to construct a right turn lane on southbound SR49 for traffic turning onto Cave Valley Road. Purpose is to improve safety and operation at this intersection.	NOE

2005102018	South San Joaquin Irrigation District Plan to Provide Retail Electric Service, Sphere of Influence Plan, Municipal Services Review, and Annexation San Joaquin County Manteca, Escalon, Ripon--San Joaquin FYI Final	FIN	
	This SEIR evaluates the following four separate actions: Adoption of a Sphere Plan and Municipal Services Review (MSR) that describes and evaluates SSJID's current and planned services, including SSJID's provision of irrigation water supply and associated drainage, drinking water consistently with the District's contractual commitments, and the proposed retail electric service; Adoption of SSJID's expanded Sphere of Influence (SOI) to include all of the City of Manteca city limits; Annexation of an approximately 80-acre island within the District's existing boundary; Approval of SSJID's application to provide retail electric service with construction related to its proposal. The Partially Recirculated DSEIR addresses the Community Choice Aggregation Alternative.		
2006031042	MacArthur Pump Station Rehabilitation Project Orange County Sanitation District Newport Beach--Orange The Orange County Sanitation District is proposing to upgrade the existing Macarthur Pump Station and the associated infrastructure in the City of Newport Beach. In May 2006, the Sanitation District adopted a Neg Dec for the rehabilitation of the existing pump station. However, that project was not constructed and additional construction elements have been added to the proposed project since that time. The proposed Project would include rehabilitation of the pump station, replacement of a force main, modification of an existing manhole, and reconstruction of two gravity sewer lines. Under the current schedule, construction is anticipated to occur between July 2017 and July 2018.	MND	12/19/2014
2014111048	Butler Ranch Zone Change and Vesting Tentative Tract Map (Case No. ZN09-0007 and SD09-0025) Ventura County Moorpark, Simi Valley--Ventura The proposed project consists of a request for approval of a: (1) change in the zoning designation of the portion of the project site that consists of APNs 500-0-360-185 and 513-0-050-065, from AE-40 ac (Agricultural Exclusive, 40 acres min. lot size) to OS-20 ac (Open Space, 20 acres min. lot size); and (2) Vesting Tentative Tract Map to: (a) subdivide APNs 500-0-360-185 and 513-0-050-065 into 24 lots for residential development; and (b) designation APN 500-0-370-275 as a remainder parcel. The 24 lots for residential development will range from 20.04 acres to 24.85 acres in size, and the remainder parcel will be 63.87 acres in size.	NOP	12/18/2014

	<p>site (Blocks 29-32) within the Mission Bay South Redevelopment Plan Area of San Francisco. The proposed event center would host the Golden State Warriors basketball team during the NBA season, as well as provide a year round venue for a variety of other uses, including concerts, family shows, other sporting events cultural events, conferences and conventions. GSW has entered into an agreement to purchase the site. The project requires approval of amendments to the Mission Bay Plan Design for Development, among other approvals.</p>		
2014032064	<p>Use Permit Application No. PLN2014-0023 - Verizon Wireless - E. Hawkeye Ave Stanislaus County Turlock--Stanislaus</p> <p>This is a request to construct a new, non-staffed, wireless communication facility that includes a 110 foot tall stealth monopole (monopine) with nine mounted antennas, a 204 sf equipment shelter, a standby 30Kw generator with 132 gallon fuel tank, and supporting equipment within a 50'x50' lease area of a 17.13 acre parcel. An existing structure currently resides on the site and is used for agricultural operations.</p>	Neg	12/18/2014
2000062030	<p>Basin Management Plan Update Pajaro Valley Water Management Agency Watsonville--Monterey, Santa Cruz</p> <p>The BMP Update represents a comprehensive set of actions, including individual projects, policies, and basin management strategies to stop seawater intrusion and overdraft of the Pajaro Valley groundwater basin. The recommended BMP Update consists of the following components to reduce groundwater pumping: Conservation, Increased Recycled Water Storage, Increased Recycled Water Deliveries, Harkins Slough Recharge Facilities Upgrades, Watsonville Slough with Recharge Basins, College Lake with Inland Pipeline to Coastal Distribution System, Murphy Crossing with Recharge.</p>	NOD	
2008052009	<p>Upper American River Project (UARP) Relicensing, Including a New Pumped-storage Development Sacramento Municipal Utility District Placerville--El Dorado, Sacramento</p> <p>The California Department of Fish and Wildlife is executing Lake or Streambed Alteration Agreement number 1600-2014-0190-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sacramento Municipal Utility District.</p> <p>The project is limited to drilling of two bedrock cores from the bed of Slab Creek Reservoir. The drilling will be conducted from a barge anchored on the reservoir. The drilling rig will be permanently mounted to the barge. Contaminated drilling fluids will be pumped out of the drill casing and placed in temporary drum storage and then transferred to shore where they will then be transported off-site for proper disposal. A tender barge will be moored to the drilling barge and all necessary materials will be stored on the tender barge. The barge(s) will be anchored to the bed of the reservoir once drilling operations have commenced. Project staff will be ferried from shore out to the drilling barge by means of a small skiff which will remain tied of to the barge during the normal work day.</p>	NOD

2010102056	Amendments to the California Cap on GHG Emissions and Market-Based Compliance Mechanisms Air Resources Board --Sacramento Amendments to the California Cap on Greenhouse Gas Emissions and Market-Based Compliance Mechanisms Regulation (Cap-and-Trade Regulation or Regulation) to: provide improved clarity for covered entities regarding disclosure requirements, allocation, and offset supply; change allowance allocation for the Metropolitan Water District and the City of Shasta Lake; change tomato product data definitions (used to determine allocation to tomato producers); remove the exemption for imported carbon dioxide; modify provisions regarding implementation and oversight of the Regulation; and update three existing compliance offset protocols (Livestock Projects, Ozone Depleting Substances Projects, and U.S. Forest Projects).	NOD	
2011061062	Carlsbad Hydrologic Unit Invasive Non-Native Plant Control and Revegetation Program San Diego County --San Diego CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (1600-2008-0243-R5) to the project applicant, San Elijo Lagoon Conservancy. The project proposes to control non-native vegetation through foliar application of herbicides, mowing or hand cutting, chipping and mulching, and replanting with native species. Non-natives to be removed include, but are not limited to, arundo (<i>Arundo donax</i>), tamarisk (<i>Tamarix sp.</i>), pampas grass (<i>Cortaderia sp.</i>), invasive palms, perennial pepperweed (<i>Lepidium latifolium</i>), acacia (<i>Acacia sp.</i>), and eucalyptus (<i>Eucalyptus sp.</i>).	NOD	
2013041026	Cuyamaca Rancho State Park General Plan Parks and Recreation, Department of --San Diego This Plan is combined General Plan and the first tier of a tiered EIR for Cuyamaca Rancho State Park which will guide the management and development of this state park unit. The Plan establishes goals and guidelines to assist in the short and long term management of the Park to ensure its natural and cultural resources are protected, while allowing for a variety of appropriate recreational opportunities. Projects proposed by this Plan will require further CEQA compliance in the form of second tier documentation to evaluate potential impacts.	NOD	
2013071038	E & B Oil Drilling and Production Project Hermosa Beach, City of Hermosa Beach--Los Angeles E&B's Proposed Project is the development of a 1.3-acre site located at 555 6th Street, currently used as the City Of Hermosa Beach Maintenance Yard, for onshore drilling and production using directional drilling to access oil and gas reserves in both the tidelands (offshore) and the uplands (onshore) within the Torrance Oil Field. As proposed, the fully-developed Project would consist of 30 production wells, four water injection wells, liquid and gas separating equipment, a gas processing unit, and oil and gas pipelines. Drilling and production facilities would be located at the 1.3-acre site at 555 6th Street with oil and gas pipelines extending southward offsite within the cities of Hermosa Beach, Redondo Beach and Torrance. As a consequence of the proposed Project, the City of Hermosa Beach Maintenance Yard will be relocated to the Civic Center at 552 11th Place	NOD

2014118193	Signs/Updated to New Standards Caltrans #2 -- Using both State and Federal funds, Caltrans is proposing to replace non-reflective guide signs with new highly reflective sheeting, update sign messages to new standards and retrofit overhead sign walkways to current safety configurations. This Project will also replace as many wooden timber and steel I-beam posts as possible. All work will take place within the operational right-of-way. The Project locations are throughout Distriict 2 and primarily along and near the I-5 corridor.	NOE	
2014118194	South Fork Eel River Exotic Plant Removal Parks and Recreation, Department of --Humboldt The purpose of this project is to remove exotic plants from an area of less than 5 acres total, on three gravel bars along William's Grove and the Dyerville area. This will restore the integrity of the gravel bars along the South Fork of the Eel River, and support the growth of native plants and enhance visitors' experiences.	NOE	
2014118195	Culvert Replacement Project (EA 01-0E370) Caltrans #1 --Mendocino The project will replace drains and culverts that are currently near or at the end of their operational functionality in their current state. These culverts and drainages have been identified as needing to be upgraded through routine inspections of Caltrans' facilities.	NOE	
2014118196	Applegate Shaded Fuel Break and Fire Burned Area Treatment Placer County --Placer The project involves the creation of a 150 acre shaded fuelbreak in the Applegate area, and the treatment of up to 65 acraea of burnt vegetation created by the Applegate fire. The Applegate Fire happened in October 2014, so this project is providing immediate assistance to homeowners and working from a fire dozer line to create a needed shaded fuel break. The fuelbreak was already listed as a priority project in the Placer Community Wildfire Protection Plan.	NOE	
2014118197	Alpine Meadows Shaded Fuel Break Placer County --Placer The Project involves the creation of an 80 acre shaded fuel break near the Alpine Meadows subdivision. The project will involve the mastication or chipping understory bruch and trees 10 inches DBH or less in order to increase the probability of success for fire suppression activities.	NOE	
2014118198	Western Mobile Home Park, Well 03 Arsenic Treatment Project State Water Resources Control Board Santa Rosa--Sonoma The State Water Resources Control Board (SWRCB) as the lead agency will be issuing a water supply permit. The Western Mobile Home Park proposed to replace Well 01 with a new well, Well 03 which is already drilled fully equipped with arsenic and disinfection treatment. A pilot test is estimated to start in early December for one year (or until the media is exhausted). A water supply permit will be issued by the SWRCB after the pilot test is completed and the date is reviewed.	NOE

	<p>site, including approximately 111,310 sf of commercial retail and restaurant uses within three lower levels (one subterranean) and one rooftop level, with 249 apartment units, including 28 affordable housing units, within twelve upper levels representing 222,560 gsf of residential space. Parking for proposed uses would be provided on-site via a seven-level (three subterranean and semi-subterranean) parking structure. The total development would include up to 333,870 sf of commercial and residential space with maximum floor-area ratio (FAR) of approximately 3:1. Construction would commence in 2015 with completion and occupancy estimated in 2017.</p>		
2013102012	<p>South of Woodward Avenue North Manteca, City of Manteca--San Joaquin</p> <p>The overall project site is made up of three distinct sites referred to as Atherton Homes at Woodward Park I (AHWPI), Atherton Homes at Woodward Park II (AHWP II), and DeJong Property. AHWPI consists of approximately 54.2 acres and will provide 171 single-family units as well as a 3.53 acre park; AHWPII contains approximately 57.42 acres and will allow for the development of a 4.3-acre park and 185 units; and the DeJong property site comprises the remaining 80 acres and which is allotted for the development of 350 units, totaling 191.3 acres and 706 units for the overall project site. The overall site is located at an elevation of 47 feet above mean sea level (MSL) and in an area of low topographic relief.</p>	EIR	01/05/2015
2014011035	<p>Section 24 Specific Plan Agua Caliente Band of Cahuilla Indians Rancho Mirage--Riverside Note: Review Per Lead</p> <p>The Section 24 Specific Plan addresses 577 acres of land within the boundaries of the Aqua Caliente Indian Reservation. Following action on the EIS and Section 24 Specific Plan by the Agua Caliente Tribe, the Specific Plan area may be annexed to the City of Rancho Mirage. The Specific Plan would allow for the development of a mix of retail, entertainment, office, hotel, and residential uses intended to complement existing and planned surrounding uses in the City of Rancho Mirage. Commercial uses are proposed on Ramon Road and Bob Hope Drive with residential uses proposed for the remainder of the Specific Plan area. The Specific Plan would allow for the development of a maximum of 1,200 units in an active adult residential community; 1,206 multi-family residential units; and approximately 3.14 million sf of commercial development.</p>	EIS	01/20/2015
2012092028	<p>I-680 Northbound High Occupancy Vehicle (HOV)/Express Lane Project Caltrans #4 Fremont, Milpitas--Alameda</p> <p>Caltrans in cooperation with the Alameda County Transportation Commission (Alameda CTC) and Federal Highway Administration, propose to construct an approximately 15-mile High Occupancy Vehicle/express lane (HOV/Express lane) project on northbound I-680 from south of SR 237 in Santa Clara County to north of SR 84 (Vallecitos Road) in Alameda County. The HOV/express lane would be a specifically-designated freeway lane that is free for carpools and other eligible HOV users, but also gives single-occupancy-vehicles the option to pay tolls to use the HOV/express lane.</p>	JD	01/05/2015

2014111050	Willow Creek NewCo. LLC / Minor Use Permit / DRC2013-00028 San Luis Obispo County --San Luis Obispo A request by Willow Creek NewCo. LLC for a Minor Use Permit to allow for the phased expansion of an existing agricultural processing facility (olive oil and wine). Construction is proposed to include demolition and replacement of an existing 6,946 sf barn and two new buildings (2,600 sf and 3,000 sf) that will include processing areas, tasting room, retail sales, commercial kitchen, office, and storage. The project also includes a request for 25 temporary events annually with no more than 200 guests per event and to allow for the processing of off-site olives. The applicant is requesting modifications to ordinance standards to allow adjustments to the required setbacks, and an increase to the limits of retail sales area. The project will result in the disturbance of approximately 3.5 acres on a 120 acre parcel. The project will utilize portions of the existing access and infrastructure.	MND	12/19/2014
2014111052	Mission Basin Desalting Facility Operations Building Project Oceanside, City of Oceanside--San Diego The project proposes to construct an approximately 5,250 sf administration and laboratory building in the northeast corner of the existing approximately 4.0-acre Mission Basin Desalting Facility, to provide more space for additional field staff and supervisors. Other site improvements completed as part of the proposed project include parking for staff, public, and City vehicles; drive isle connections to existing paving; connections to on-site utilities; and water-efficient landscaping. The project would be phased to allow the new building to be constructed while the users remain in their existing facilities; the existing operations building within the property would be demolished once construction of the new building has been completed. Temporary construction access and storage would occur on 2 acres of disturbed land within the MBDF.	MND	12/19/2014
2014112046	Green Diamond - R1501, MS1504, GPA1501 - Rezone, Minor Subdivision, General Plan Amendment Del Norte County --Del Norte The project is located on the east side of Lake Earl Drive, immediately north of pelican Bay State Prison. The project area is a 12-acre portion of an approximately 40-acre parcel which the applicant has proposed to subdivide into four parcels. A portion of the parcel located on the west side of Lake Earl Drive is not part of this subdivision, is formally designated as the Remainder Parcel, and is thereby excluded from this project. There is a small watercourse, which is a tributary of Russell Creek that runs across the southernmost parcel (Lot 4) in the proposed subdivision. The applicant has proposed a 100-foot buffer to minimize impacts to the creek and associated area, resulting in this parcel (Lot 4) being 6.64-acres while the other proposed parcels (lots 1-3) are each 2-acres in size. Lot 1 has an existing 50-foot easement across it that provides secondary access to an interior parcel.	MND	12/19/2014
2014112051	American River College - Athletic Fields Los Rios Community College District Sacramento--Sacramento The project will consist of construction of a new competition soccer field, a new full practice football field, a new hammer throw diamond, and improvements to the existing partial football practice field and two existing practice soccer fields. 	new competition soccer field will include bleachers with seating for 1,000 spectators and a press box, one restroom building, ticket booth, field lighting, an concession building, and drinking fountains. Minor revisions to the adjacent parking lot will also be completed. The development will include new concrete flatwork, pavement sections and associated landscaping.		
2014111049	Water Supply Facility Removal Project San Gorgonio Pass Water Agency Banning--Riverside, San Bernardino NOTE: Review Extended Per Lead	NOP	03/04/2015
	SCE will remove the existing Whitewater Flume Project and curtail associated water deliveries to the Banning Bench and the City of Banning. The removal includes components that are currently licensed by the Federal Energy Regulatory Commission ("FERC") and an unlicensed component currently operated under a SBNF use permit.		
2014111051	500 Broadway Project Santa Monica, City of Santa Monica--Los Angeles The proposed Project would involve the demolition of the existing one-story commercial (Fred Segal) building and a 92-space surface parking lot and the construction of 336,630 sf of mixed use development in a 84-foot high building. The proposed project would include up to 262 residential units consisting of a mix of studio, one-, two-, and three-bedrooms. The ground floor of the project would include pedestrian-oriented commercial uses. In addition to market-rate housing, the project would include deed-restricted affordable housing (either provided on-site, off-site, or at a combination of on-site and off-site locations). If affordable housing is provided off-site, a maximum of up to 322 dwellings would be constructed.	NOP	12/19/2014
2014111054	7107 Hollywood Boulevard Los Angeles, City of Los Angeles, City of--Los Angeles The Project Applicant, proposes to develop up to 410 multi-family residential units and approximately 10,000 sf of community-serving retail and restaurant uses on an approximately 2.0-acre site. The project Site would include approximately 466,420 sf of floor area within three new buildings that would range from 6 to 26 levels with a maximum building height of approximately 275 feet. In addition, 940 parking spaces would be provided in four subterranean parking levels and up to three above grade parking levels. Outdoor areas including private decks and courtyards and an expansive public plaza fronting Hollywood Boulevard and La Brea Avenue would also be provided as part of the Project. An existing approximately 19,890 sf church and surface parking areas would be removed to provide for the proposed uses.	NOP	12/19/2014
2014112047	Davis West Innovation Center Davis, City of Davis--Yolo The Davis Innovation Center site is 208 acres, comprised of eight parcels (APNs 036-060-005, and 036-020-012 thru -018). The requested entitlements for the DIC site include Annexation and Rezoning, General Plan Amendment, Council will need to call for an election and set the baseline features of the project. The DIC site is anticipated to include up to approximately 4,000,000 sf of building space,	NOP	12/19/2014

2014082082	Use Permit Application No. PLN2014-0060 - Westside Landscape & Concrete Stanislaus County Newman--Stanislaus This is a request to change the use of a legal non-conforming auto repair shop to a retail nursery and landscaping supply business (Westside Landscape and Concrete) on a 1.8 acre parcel. The site proposes to take access from Highway 33. The business includes 2,688 sf of office and sales area, storage and covered storage and display areas, and a caretaker quarters. Services will be provided through private septic and wells systems. Proposed business hours are 8:00 a.m. to 5:00 p.m., seven days a week. A maximum of nine employees would be on-site. The applicant estimated 44 trips will be generated per day (17 employees, 12 customers, and 15 truck trips).	Neg	12/19/2014
2014111053	Verizon Wireless Communications Facility ("Rio Seco") Santee, City of Santee--San Diego This project involves the construction of an unmanned wireless communications facility on the 2.65-acre Carlton Hills Evangelical Lutheran Church site in the City of Santee, California. The proposed wireless communications facility would consist of two new structures: a 49'-4"-foot tall bell tower and a 160 foot, ground-level equipment enclosure. Within the proposed bell tower, the applicant intends to locate twelve (12), 6'-tall panel antennas, a microwave dish antenna, and ancillary equipment. A 5'8" tall cross is proposed at the top of the bell tower. The enclosure would be constructed of a nine-foot tall masonry block wall and would contain equipment cabinets as well as a 30 kW emergency diesel generator.	Neg	12/19/2014
2014092031	Vino Farms, Huichica Hills Vineyard Conversion #P14-00144-ECPA Napa County Napa--Napa Note: Response to Comments The project includes maintenance of erosion control measures associated with development of 9.5 acres of new vineyard (7.2 net vine acres). The site plan designates development on topography that ranges from gentle to moderately sloping lands (typical slopes from 8% to 21%), at elevations between approximately 100 and 300 feet above mean sea level.	Oth	
2006011077	North Costa Mesa High Rise Residential Projects Costa Mesa, City of Costa Mesa--Orange The Addendum to Final PEIR 1052 modifies the original master plan to eliminate two previously approved high-rise residential towers (172 feet and 272 feet above ground level) and replace the towers with two mid-rise buildings (66 feet and a 74 foot above ground level) providing 393 total apartments and 4,037 square feet of retail space. Modifications include a reduction in parking from 1050 spaces to 731 spaces and elimination of the resident serving retail in the amount of 1,963 square feet. The number of residential units will decrease from 484 units to 383 units with	NOD

	available at the public parking facilities serving downtown San Diego and the Embarcadero.		
2014118214	San Diego Bay Parade of Lights San Diego Unified Port District San Diego--San Diego The proposed project is the San Diego Bay Parade of Lights, which will take place within San Diego Bay on Dec. 14, 2014, and Dec. 21, 2014. The District will provide sponsorship in the form of District funding and services for the event, a holiday light parade. The event is an annual boat parade within San Diego Bay that will feature more than 80 decorated boats. The theme for 2014 will be "Children's Stories." The parade will proceed from Shelter Island past Harbor Island, the Embarcadero, Seaport Village, and the Ferry Landing in Coronado. The event has an expected attendance of over 80,000 people. Traffic enforcement will be in place at Harbor Island and Shelter Island on Dec. 14, 2014, and Dec. 21, 2014 from 3:00 p.m. to 10:00 p.m. In addition, the event will require the use of eight metered parking spaces along the Embarcadero near the Maritime Museum on Dec. 14, 2014, and Dec. 21, 2014 from 3:00 p.m. to 10:00 p.m. Since the parking spaces will be reserved for a limited time period, the project will not result in significant impacts related to public parking. Parking will be available at the public parking facilities serving Shelter Island, Harbor Island, the Embarcadero, Seaport Village, and Coronado.	NOE	
2014118215	Tideland Use and Occupancy Permit to John A. Thompson for Landscaping San Diego Unified Port District San Diego--San Diego The proposed project is a tideland use and occupancy permit (TUOP) to John A. Thompson (Tenant) for the use of 2,534 sq. ft. of tideland area located on Qualtrough Street, east of San Antonio Avenue in the City of San Diego. The tidelands area proposed for use under this TUOP will be used only and exclusively for the purpose of landscaping , provided that no activities or improvements of the Tenant shall restrict or interfere with the use and enjoyment of the Premises by the general public and for no other purpose whatsoever without prior written consent of the Executive Director of District in each instance. No new development, construction, or increase in the size of the property is proposed or authorized as part of the TUOP. In addition, the TUOP does not allow activities for potential future improvements of the Tenant to interfere with use and enjoyment of the tidelands are to and from the San Diego Bay by the general public. 2011101051	Collier Park Renovations Project La Mesa, City of La Mesa--San Diego The project proposes the construction of recreational facilities and other improvements at Collier Park in the City of La Mesa, San Diego County, California. The proposed project is organized into four areas: 1) Panhandle; 2) Spring House; 3) History Hill; and 4) Collier Club House.	EIR	01/05/2015
2014031042	El Monte Walmart El Monte, City of El Monte--Los Angeles The project will realize 182,429 sf of new retail/commercial uses within an ~15.41 acre site, located in the northwestern portion of the City of El Monte, near the intersection of Valley Boulevard and Arden Drive. The project includes the proposed El Monte Walmart, and all facilities proposed within the Project site, on-and off-site supporting improvements, and associated discretionary actions.	EIR	01/05/2015
2014091001	Sierra Industrial II Project Fontana, City of Fontana--San Bernardino The project includes the construction and operation of approximately 763,350 nsf "high cube" logistics warehouse use with associated office and mezzanine spaces. The project would consist of a single building containing 746,350 sf of ground-floor logistics warehouse operations and supporting office spaces, and 17,000 sf second-floor mezzanine spaces. The two offices would be located at the northwest and southwest corners of the building and will provide administrative spaces for the principle use and, depending on the number of logistics warehouse tenants, may ultimately support up to two tenants. 36 feet of internal clear height would be provided inside the building.	EIR	01/05/2015
2014111056	Vista Valley Pool Facility San Diego County --San Diego The project is a Major Use Permit and Open Space Vacation to authorize a community pool facility for a private country club. The project consists of 1) a 2,496 sf single story building for locker rooms, laundry, grill and pool equipment room and a 504 sf covered patio area, 2) a 3,400 sf single story building for game room, restrooms, storage and office and a 1,220 sf patio cover, 3) a swimming pool, children's splash pool and a 1,050 sf detached patio cover.	MND	12/22/2014
2014111060	Avenue 16 1/2 Bridge Replacement at Dry Creek Madera County Madera--Madera The proposed Project consists of replacing the existing two-lane bridge located on Avenue 16 1/2 (State Bridge No. 41C-0149) crossing Dry Creek in a rural portion of western Madera County in California. The existing timber deck on simple steel stringer bridge and abutments will be removed and replaced with a 32-foot wide, 34.5-foot long, cast in place reinforced concrete slab, supported by abutments with precast concrete piles above the creek bed. No center support within the creek bed is proposed. The new bridge will not include additional travel lanes. The most economical alternative for vehicle access during construction is a road closure and a traffic detour to either side of the bridge.	MND	12/22/2014

<u>Documents Received on Friday, November 21, 2014</u>			
2014111061	Road 427 Bridge Replacement at Oak Creek Madera County --Madera The County of Madera Resource Management Agency, in cooperation with Caltrans, is proposing to replace the current two-lane bridge located on Road 427 (State Bridge No. 41C-0123) crossing Oak Creek. Road 427 is locally known as School Road. The existing two-lane bridge, which is a reinforced concrete slab bridge, and guard rail, chain link fence, pier and abutments, will be removed and replaced with 69-foot long, 53.5-foot wide, precast concrete girders with reinforced concrete deck structure over cast-in-place abutments. The bridge will conform to the existing approach road width. No center support within the creek bed is proposed and the project will not include additional travel lanes. One lane of the bridge will remain open during the construction phase to avoid road closure.	MND	12/22/2014
2014111062	Road 23 Bridge Replacement at Dry Creek Madera County Madera--Madera The existing concrete deck bridge on steel girders, pier, and abutments will be removed and replaced with a 43-foot wide by 80-foot long, precast concrete deck structure, supported by concrete abutments with precast concrete piles on either side of the creekbed. The project will require only minor modifications to the horizontal or vertical alignment of the existing roadway. The bridge will conform to the existing approach road width. No center support within the creekbed or any additional travel lanes will be included. The road will be closed during construction and traffic detour routes will be identified in the Project's Traffic Control Plan. The project footprint will be within the existing County right-of-way and will not require acquisition of additional ROW.	MND	12/22/2014

2014112049	Little Yosemite Fish Passage Project San Francisco, City and County of --Alameda The SFPUC proposes to implement the Little Yosemite Fish Passage Project to improve upstream passage conditions for adult anadromous steelhead (<i>Oncorhynchus mykiss</i>) along a 0.4-mile long reach of Alameda Creek referred to as Little Yosemite. Proposed improvements include constructing concrete weirs shaped like natural boulders or bedrock in three strategically located water features. Select boulders would also be cut or removed and some holes, or slots through large boulders, may be filled with concrete to stabilize landing pools at the tops of waterfalls along the fish migration path. The project site is located in the Sunol Regional Wilderness on property owned by City and County of San Francisco that is leased to East Bay Regional Park District. Construction would begin in April 2016 and last up to 4 months.	MND	12/22/2014
2014111055	Moorpark Desalter Project Ventura County Moorpark--Ventura The desalter facility would pump and treat poor quality groundwater from a shallow aquifer in the South Las Posas Basin and provide higher quality water to future users. The Project is a key element in the Northern Reach Renewable Water	NOP	12/22/2014

	Management Plan which was developed as part of the Calleguas Creek Boron, Chloride, Total Dissolved Solids, and Sulfate Total Maximum Daily Load Compliance Plan. The Project would supplement imported water supplies, remove poor quality groundwater, allow higher quality storm flows to recharge the shallow unconfined groundwater basin, and improve the groundwater quality of the overall basin. Brine produced by the reverse osmosis process would be transported out of the watershed through the Salinity Management Pipeline (SMP), currently being constructed by Calleguas Municipal Water District. The SMP would convey brine from Moorpark to the ocean discharge point at Point Hueneme. The Project would include approximately twenty two extraction wells and a conveyance pipeline from the well field to the desalter facility.		
2014111057	Los Angeles County Waterworks District 29 Water System Master Plan Los Angeles County Malibu--Los Angeles The County of Los Angeles Dept. of Public Works is in the process of updating its Capital Improvement Plan to meet existing and expected water system infrastructure requirements in the County Waterworks District 29 service area (Topanga area and city of Malibu). The Water System Master Plan identifies system facilities needed to overcome existing deficiencies and to meet anticipated system requirements through 2035. The Master Plan identifies Phase I Improvements, to be addressed within the first 5 years: 5 new aboveground tank reservoirs at existing reservoirs sites, 29 pipeline segments and an emergency connection pipeline to the Las Virgenes Municipal Water District at Encinal Canyon Road (pipelines totaling approximately 17 miles), and water quality improvements in multiple zones. In addition to programmatic analysis of the Master Plan, the PEIR will address the Phase I Improvements at a project or construction level of analysis.	NOP	12/22/2014
2014111058	3931 S. Flower Drive Demolition Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project is the demolition of a multi-family residential building located at 3931 S. Flower Drive in the City of Los Angeles. The building is two stories high and contains four units. The entire building and all associated improvements would be removed as part of the proposed demolition. No development is proposed following demolition and the project site would remain vacant.	NOP	12/22/2014
2014111059	Canyon Park Homes Los Angeles, City of Los Angeles, City of--Los Angeles Note: Extended Review per lead The project would construct 242 single-family residential units, three private parks, and associated infrastructure on a vacant 78.04-acre site in the community of Tujunga in the northeastern portion of the City of Los Angeles. The project would grade the site to create individual lots from approx. 9,000 to 19,000 sf. The homes would be two-story with heights of approx. 28 feet, and would provide 2,482 to 2,783 sf of living space, with attached two-car garages, for a total structural development of 763,995 sf. Access to the site would be via two entrances from Big Tujunga Canyon Road, and an internal street network would be constructed within the site, including a bridge over an unnamed dry wash that crosses the site to provide access to individual lots. An emergency-use access road would be constructed from the southern boundary to Big Tujunga Canyon Road. Three	NOP	02/06/2015

2014118245	<p>Page Ranch Lift Station Abandonment Eastern Municipal Water District Hemet--Riverside Eastern Municipal Water District's (District) proposes to abandon the Page Ranch lift station. The temporary lift station was constructed as part of the Tract 24142-1 housing development in 2003. The lift station has not been in service for approximately two years and is no longer needed. The proposed project is located on property owned by the Developer of the tract. The District has an access easement to the lift station and a 20-foot sewer easement.</p> <p>Major facilities at the lift station include a wet-well, pumps, motor control center, standby generator, and radio communication system. The proposed project will identify a list of items to be salvaged. The remaining items will either be removed or abandoned in place. The sewer pipe and force main would be abandoned by filling the pipes with control density fill (CDF). Concrete structures, including the wet-well, would be removed to 5-feet below grade with the remaining structures filled with CDF.</p>	NOE

	northern boundary and touches other lands within Riverside County along the property's western, eastern, and southern boundaries. The parcel is situated in mountainous terrain and is open land with no improvements or other structures on the property. The Tribe has no plans for commercial or other development on this land. The purpose of this acquisition is to promote tribal self-determination and to preserve the Tribe's cultural resources.		
2014111067	Conditional Use Permit Application No. C- 14-109 Fresno, City of Fresno--Fresno Conditional Use Permit Application No. C-14-109 was filed by Lito Bucu of the City of Fresno Water Division and pertains to 0.33 acre of property located on the northeast corner of West Madele and North Marks Avenues. The applicant requests authorization to drill and operate a water supply well (City Water Pump Station No. 290A), construct an equipment building, a 6-foot high masonry wall, install emergency generator set, landscape perimeter to screen equipment and treatment facilities; and future construction of water remediation facilities and treatment systems for groundwater contaminants. The property is zoned R-1.	CON	12/15/2014
2013061051	Santa Margarita Quarry Expansion Project / Conditional Use Permit and Reclamation Plan Amendment San Luis Obispo County --San Luis Obispo The Applicant proposes to expand the existing boundaries of the quarry by an estimated 33 acres, thereby enlarging the "footprint" of the quarry from 160.1 acres to 193.1 acres. The proposed expansion would yield approximately 21.5 million tons of aggregate reserves. These reserves, in combination with existing entitled reserves, would result in the quarry producing 33.2 million tons of aggregate products over a 59-year period. Proposed reclamation activities would be initiated in those areas of the quarry that have been depleted of resources in a manner concurrent to ongoing mining operations. All proposed reclamation activities would be fully completed within 5 year of resource depletion (e.g., five years after mining activities have stopped). Lands within the quarry would be reclaimed to open space uses, including seasonal water storage, riparian habitat, oak woodland habitat, and chaparral vegetation. Based upon the above, the proposed project is defined as all mining operations associated with the proposed 33-acre expansion area and reclamation of the entire quarry site, as expanded. The full 193.1-acre site is referred to as either the Proposed Project area, or Proposed RPA area. No changes to the quarry's existing annual production volumes or intensity are proposed beyond what is currently permitted.	EIR	01/07/2015
2014021058	Pacific Grove Local Water Project (PGLWP) Pacific Grove, City of Pacific Grove--Monterey FYI Final 2 HC The primary goal of the proposed project is to create a new supply of non-potable water for irrigation of the Pacific Grove Municipal Golf Links, the El Carmelo Cemetery and other irrigation locations and for other uses of recycled water as permitted in the State of CA to substitute recycled water where potable water is currently being used. A new satellite recycled water treatment plant would be built, along with the installation of 2,800 linear feet of 8-inch recycled water pipeline.	FIN

	bridge across Rubio Wash to connect the site to Rosemead Boulevard. Once all facilities are constructed, the Media Center Office complex would contain approximately 98,088 square feet. An assembly area for the conference center would have a maximum occupancy to 250 persons. The City of El Monte entitlements required to implement the proposed project include the following: a Lot Division (Tentative Parcel Map) to consolidate four parcels into one parcel, a Conditional Use Permit (CUP) for a multiple-tenant development; Design Review for the building's architecture and site's conceptual landscaping; and a Modification to reduce the loading requirements. It is approval of these permits by the City that would allow the construction and operation of the proposed project to proceed.		
2014082028	Painter's Riffle Anadromous Fish Habitat Enhancement Project Glenn-Colusa Irrigation District (GCID) Redding--Shasta The project is limited to the reconstruction of a side channel to support salmon spawning in the upper Sacramento River in the City of Redding. The redistribution of the existing streambed material will restore the fisheries benefits of the side channel.	NOD	
2014082054	Wohler Road Bridge over the Russian River Seismic Retrofit Sonoma County --Sonoma The existing Wohler Road Bridge over the Russian River will be seismically retrofitted to prevent bridge collapse during a strong earthquake. Work includes replacement of the existing bridge bearings with seismic isolation bearings, abutment and foundation retrofit, pier retrofit, expansion joint retrofit and deck replacement. Construction of the retrofit will require temporary vegetation removal and a temporary work pad in the Russian River.	NOD	
2014092045	Dublin General Plan Housing Element Update (2015-2023) Dublin, City of Dublin--Alameda Adoption of an updated Housing Element as part of the Dublin General Plan.	NOD	
2014101002	Alta Vista Way Retaining Wall Project Laguna Beach, City of Laguna Beach--Orange The existing retaining wall along Alta Vista Way supports the roadway and is beginning to show signs of decay and movement. Therefore, it has been determined that the existing wall has reached the end of its useful life and should be replaced. The City has determined the construction of a new retaining wall (a secant pile wall) adjacent to the existing retaining wall to be the best replacement option. The proposed project would install a secant pile retaining wall within the street, approximately where the existing curb and gutter is situated.	NOD	
2014101048	Lot Line Adjustment No. 2014-070 Mariposa County --Mariposa Lot line adjustment between two parcels in Yosemite West. Parcel A, APN 006-080-026, located at 7305 Yosemite Park Way is 0.331 acres, zoned Rural Residential and has 1 single family residence. Parcel A is in the Residential Land Use Designation of the General Plan. Parcel B, APN 006-070-029 is a 312.899 acre, undeveloped parcel, zoned General Forest and in the Natural Resources	NOD

	General Plan land use designation. The applicant's request is to add 40 acres through the lot line adjustment process to Parcel A (0.331 acre existing to proposed 40.331 acres) and to reduce Parcel B from 312.899 acres to 272.899 (please note that site plan incorrectly shows proposed size to be 272.568). No development is being proposed or has been proposed with this project. Any future development will be reviewed to ensure compliance with the CEQA and applicable regulations.		
2014102017	Hopper Creek Improvements Project Yountville, City of Yountville--Napa The Project will consist of five separate flood and sediment control projects to reduce seasonal flooding from Hopper Creek in the Town and sediment control in Hopper Creek and Villagio channel. The Project will include bank stabilization in Villagio channel, channel restoration, weir modification, flood flow diversion, and sediment basins in Hopper Creek.	NOD	
2014118246	Installation of Solar Panels at the District's Transportation Yard Lake Elsinore Unified School District Wildomar--Riverside The project consists of installing solar panels at the existing bus parking lot at the District's transportation yard, located at 21641 Bundy Canyon Road, Wildomar, California 92595.	NOE	
2014118247	Installation of Solar Panels at Machado Elementary School Lake Elsinore Unified School District Lake Elsinore--Riverside The project consist of installing solar panels at the existing student lunch area at Machado Elementary School, located at 15150 Joy Street, Lake Elsinore, California 92530.	NOE	
2014118248	Installation of Solar Panels at Elsinore High School Lake Elsinore Unified School District Wildomar--Riverside The project consists of installing solar panels at the existing student parking lot at Elsinore High School, located at 21800 Canyon Drive, Wildomar, California 92595.	NOE	
2014118249	Annexation of Parcels from the County Water Company of Riverside to Eastern Municipal Water District Eastern Municipal Water District Menifee, Wildomar--Riverside The proposed project consists of the annexation of 17 parcels amounting to to approximately 65 acres of land belonging to the County Water Company of Riverside (CWC), to Eastern Municipal Water District (District) and the Metropolitan Water Distirct of Southern California (Metropolitan). Annexation of the land will allow the District to provide water service to existing customers located in the eastern portion of the current CWC service area. The CWC is approximately 1,280 acres of area, bounded by Bundy Canyon Road on the south, Canyon Hills Development (Lake Elsinore) on the north, Geary Street/Skyhawk Lane on the east, and Pine Avenue on the west. The CWC system relies on a single Well that has had reliability and significant water quality issues.	NOE

2014118250	Redland and Oleander Pipeline Replacement Project Eastern Municipal Water District Moreno Valley, Perris--Riverside Eastern Municipal Water District has an ongoing annual program to correct substandard conditions within the existing water system. The District's Water Operations and Maintenance staff recently identified a concern with pipelines that require evaluation and partial replacement. Both pipelines, originally constructed in the 1960's, are in need of replacement due to history of repairs. The pipelines consists of approximately one mile of cement mortar lined and coated (CML&C) steel pipe. The pipelines are situated along Redlands Avenue in the City of Perris and Oleander Avenue in the City of Moreno Valley.	NOE	
2014118251	Pala Forcemain - Air Release and Vacuum Valve Spill Containment Eastern Municipal Water District Temecula--Riverside Eastern Municipal Water District's Pala Lift Station pumps raw sewage removal three miles through parallel 18-inch and 20-inch sewage forcemains, from south Temecula to the Temecula Valley Regional Water Reclamation Facility (TVRWRF). The parallel pipelines have twenty-two air release/vacuum valves at eleven locations. These valves are critical components designed to reduce hydraulic surges and prevent damage to pipelines. The air release/vacuum valves may malfunction by sticking open or closed when debris from sewage gets caught in the seats or mechanisms of the valve. Implementing the proposed project will ensure the system functions properly and prevent releases.	NOE	
2014118252	AC/OMC Public Access Area Renovation Project Eastern Municipal Water District Perris--Riverside Eastern Municipal Water District's Administration Center (AC) and Operation and Maintenance Center (OMC) located in Perris, California, is a single combined facility where the District conducts business and interacts with the public. The OMC building was completed in 1994 and the AC facility was completed in 1998. An inspection performed by the Riverside Certified Access Specialist program in 2013 identified concerns regarding conformance with the Americans with Disabilities Act (ADA). The key areas of concern are the Board Room, the AC and OMC lobbies, as well as the Community Room.	NOE	
2014118253	Romoland/Homeland MDP Utility Relocations Project Eastern Municipal Water District --Riverside The Riverside County Flood Control and Water Conservation District (RCFC&WCD) is scheduled to construct the Romoland/Homeland Storm Drain System that consists of approximately 40,000 linear feet of open channels, reinforced concrete boxes and pipes, and basins. Several of Eastern Municipal Water District's existing facilities, including water, sewer, recycled water, and brine pipelines, as well as fiber optic appurtenances are in conflict with the proposed storm drain system improvements.	NOE

	wine produced onsite would come from grapes grown on the property from approximately 30 acres of existing vineyard, an additional 55 acres planned for installation in the future, and other sites in Santa Barbara and San Luis Obispo Counties in accordance with County ordinance requirements. Winery operations occurring within the winery production building would include on-site crushing, fermentation, barrel storage, and bottling. Hours of operation for the winery would be 8:00 a.m. to 6:00 p.m. Monday through Friday, except during crush activities when the winery operation hours are extended to include early morning and evening hours, 7 days per week. A total of 4 full time employees (2 during annual crush activities) would be employed onsite for wine production.		
2014111072	Higuera Street Bridge over Ballona Creek Replacement Project Culver City Culver City, Los Angeles, City of--Los Angeles The City of Culver City, in cooperation with Caltrans, proposes to replace and widen the existing Higuera Street Bridge over Ballona Creek (#53C-0876) in Culver City, California (Project). The new Bridge would meet required seismic and geometric standards and enhance safety for bicyclists and pedestrians crossing the Bridge. The Project would also include a new ramp connection from Higuera Street to the existing Ballona Creek Bike Path.	MND	12/24/2014
2014111074	State Route 68/Corral de Tierra Road Intersection Improvement Project Caltrans #5 Salinas--Monterey Note: Extended Review The proposed project includes operational improvements to widen the approaches to the SR 68 and Corral de Tierra intersection to accommodate the construction of a second left turn lane from westbound SR 68 to southbound Corral de Tierra Road by shifting the through lane to the north. In addition, a second southbound receiving lane would also be constructed on Corral de Tierra Road departing the intersection to receive traffic from the second left-turn lane. The paved shoulders of Corral de Tierra Road would be widened to 8 feet to better accommodate pedestrians and facilitate the future addition of Class II bicycle lanes.	MND	01/14/2015
2014112048	Water Pollution Control Facility Solar Power Project Woodland, City of Woodland--Yolo The proposed project consists of the installation and operation of solar photovoltaic systems at two locations at and adjacent to the existing Water Pollution Control Facility (WPCF) property. One of the solar power facilities would be on fallow land northeast of the treatment facilities, consisting of ~7.0 acres, and the other location is at the screw pump south of the treatment facilities. The proposed solar photovoltaic modules are anticipated to be stationary; however, because the solar panel array has not been finalized, the analysis in the IS/MND also incorporates the potential for a rotating design. All solar power generated would be used by the WPCF; therefore, the proposed project may include minor trenching for connections to the existing WPCF.	MND	12/24/2014

	Mountain Quarry Plant.		
2014112058	PA-1400229 Text Amendment Application San Joaquin County --San Joaquin The project is a Text Amendment to prohibit the cultivation of medical marijuana; both indoor and outdoor, in the unincorporated areas of San Joaquin County (Ordinance Code of San Joaquin County, Title 4, Public Safety).	Neg	12/24/2014
2014112059	2014-044, Zoning Ordinance Amendment, Density Bonus Calaveras County --Calaveras Amend Section 17.04.200 of the Calaveras County Code to provide density bonus provisions for affordable housing consistent with State law and the Calaveras County Housing Element of the General Plan.	Neg	12/24/2014
2014102014	Fort Bragg Coastal Restoration and Trail Project Phase II Fort Bragg, City of Fort Bragg--Mendocino Note: Reference SCH# 2009112071 Phase II of the Fort Bragg Coastal Restoration and Trail Project, located on the western edge of the City of Fort Bragg, consists of habitat restoration of approximately 5 acres and construction of 0.8 miles of new multi-use and pedestrian trails connecting the Phase I North and South trail alignments together through the Mill Pond area of the Former Georgia-Pacific Mill Site. The project includes installation of benches, stairs to the beach, interpretive/safety signage, and perimeter fencing. The project requires a Coastal Development Permit Amendment.	SIR	01/08/2015
2006021071	San Juan Road Interchange Caltrans #6 --Monterey, San Benito The Project, as approved by California Department of Fish and Wildlife (CDFW) on April 2, 2012, as first amended on July 10, 2012, and again amended on September 27, 2012, involves the construction of an overcrossing at a right angle with U.S. Route 101 northeast of the Monterey/San Benito county line. The purpose of the Project is to eliminate the left turn from San Juan Road to northbound Route 1010 and improve the safety features of the transportation facility. The Project will result in impacts to a total of 45.05 acres of California tiger salamander (<i>Ambystoma californiense</i>) habitat including temporary impacts to 30.33 acres and permanent impacts to 14.72 acres of California tiger salamander (CTS) habitat. The Project is expected to result in incidental take of CTS, which is designated as a threatened species under the California Endangered Species Act. The ITP Major Amendment No. 4 referenced above, as issued by CDFW authorizes additional time for completion of the required habitat compensation. This ITP amendment does not result in any changes to the project footprint, amount of impacted CTS habitat or increase the amount of take within the impact area.	NOD

2007072023	Modesto Master EIR Update and General Plan Amendment Modesto, City of Modesto--Stanislaus The development includes the rezone of a 2.79 acre parcel from Planned Development Zone, P-D(316) to Planned Development Zone, P-D(552), to facilitate the development of 16 units (8 duplexes) on 8 separate lots plus 1 common area lot, property located on the south end of Wisdom Way north of Briggsmore Avenue at 1600 Wisdom Way.	NOD	
2010122012	300 Airport Boulevard Burlingame, City of Burlingame--San Mateo The BCDC permit application requested authorization for the construction of a portion of a realigned road (Airport Blvd.), a shoreline revetment, stormwater outfalls, outdoor patios, and a total of 3.7 acres of public access area at the project site's eastern and western shorelines. These activities are associated with the development of a six-building office campus and the realignment of a majority of Airport Boulevard, which are located outside of BCDC's jurisdiction. The BCDC permit conditionally authorizes activities located in its jurisdiction, and remains valid as long as the activities authorized remain in place.	NOD	
2011061056	Wiseburn High School (201 N. Douglas Street Site) Wiseburn School District El Segundo--Los Angeles Development and operation of a joint-use sports complex comprised of a swimming pool and gymnasium on the approved Wiseburn High School site.	NOD	
2014052078	Jelly's Ferry Restoration Project Tehama County Red Bluff--Tehama River Partners in collaboration with the Bureau of Land Management (BLM) will restore and enhance native riparian wildlife habitat on 145 acres of the Jelly's Ferry Unit within the BLM's Sacramento River Bend Area of Critical Environmental Concern. Based upon a recently completed site assessment, two different plant communities are proposed for the project area depending upon varying soils and topography along with hydrological and biological conditions. These include valley oak savannah and upland herbaceous. Tree and shrub densities along with their composition will vary across the site.	NOD	
2014071027	Sherman #1-23 Project Division of Oil, Gas, and Geothermal Resources McFarland--Kern Daybreak Oil and Gas, Inc. is proposing the Sherman 1-23 project to construct one (1) well site and drill one (1) oil well on the site in Poso Creek Oil Field. Proposed site is 13.9 miles southeast of the City of McFarland in unincorporated Kern County, California. The surface location for the proposed well would be on land owned by Berry Petroleum Company. 2014118285	<p>care clinics in existing facilities A, B, C and D to treat inmate-patient populations. A new primary care clinic will be constructed for the ASU housing unit to provide separate clinical treatment space for primary care treatment and consultation. The existing Central Health Services Building will be renovated to provide specialty clinical services and consultation consistent with the delivery of basic level care. On-site electrical and telecommunication/data distribution systems will be extended to the new, expanded, and renovated building.</p> <p>Health Care Facility Improvement Program Corrections and Rehabilitation, Department of Coalinga--Fresno</p> <p>CDCR will implement a number of small health care facility improvements at PVSP to remedy deficiencies in the health care areas for primary care, specialty care, pharmacy, laboratory, and Administrative Segregation Units (ASU) clinic. To accomplish the necessary improvements, CDCR will renovate and expand health care clinics in existing facilities A, B, C and D to treat inmate-patient populations. A new primary care clinic will be constructed for the ASU housing unit to provide primary care treatment and consultation. The existing Central Health Services Building will be reconfigured and renovated and a new pharmacy and lab building will be constructed to provide the pharmaceutical processing demands at a basic level of care and will serve the entire PVSP inmate-patient population. On-site electrical and telecommunication/ data distribution systems will be extended to the new, expanded, and renovated buildings.</p>	NOE	
2014118286	<p>Installation of Dust Monitoring Equipment in South Oso Flaco Parks and Recreation, Department of --San Luis Obispo</p> <p>The Oceano Dunes District of the CA Dept. of Parks and Recreation, Off Highway Motor Vehicle Recreation Division proposes to install one permanent monitoring station as required in Rule 1001, Coastal Dunes Dust Control Requirements adopted by the San Luis Obispo Air Pollution control District in 2011. Project activities will include the installation, operation, and maintenance of one real time beta attenuation (BAM) PM10 monitors and associated meteorological instruments. Installation is projected for spring of 2015, pending permits and other approvals.</p> <p>The parts for the station will be brought to the site via construction equipment approximately one mile on an already existing road that roughly follows the boundary between the Guadalupe Nipomo Dunes National Wildlife Refuge and Oceano Dunes SVRA. An additional 1,300 foot branch road will be established within Oceano Dunes SVRA to allow access to the monitoring site. The branch road will be a maximum of 8 feet wide for a total footprint of 0.27 acres (approximately 12,000 sq. ft.). The monitoring site would cover an additional 0.17 acres (about 7500 sq. ft.). All totaled, the project would impact a maximum of 0.45 acres (19,500 sq. ft.) of disturbed coastal dune scrub. There will be repeated visits for finish work, operation, and maintenance of monitoring equipment. Impacts are expected to be at a minimum because the main route has been disturbed previously. There will be disturbance on the branch route and proposed site. Plants will be trampled from construction, maintenance and monitoring, but that the area will recover and may support some native dune plants during the duration of this monitoring effort.</p>	NOE

2014118289	Citrus Heights Electric Vehicle (EV) Fast Charging Project Sacramento Municipal Utility District Citrus Heights--Sacramento SMUD proposes to construct and operate an EV Charging Station in front of the Raley's. The proposed project consists of two direct current (DC) fast chargers and one level 2 Electric Vehicle Supply Equipment (EVSE); three minor physical structures will house the electrical works for charging vehicles. Additional infrastructure will be installed to support the EV charging equipment which includes a 12 kilovolt (KV) to 480 volts alternating current (VAC) step-down transformer, a 480 to 208/120 VAC step-down transformer, power cabinet and switch gear. the parking lot area encompassing the project has been designed to meet Americans with Disabilities Act (ADA) accessibility requirements and a path of travel including a new sidewalk from the new EV Charging Station parking area to the Raley's Market ADA Parking area will be constructed. the project will also include two four-inch underground conduits from the existing SMUD vault to the new EV Charging Station parking area. New service conduit will be installed by trenching to a depth of approximately 59 inches by approximately 24 inches wide for a total length of approximately 250 feet. Upon completion of all trenching activities the surface will be restored to its previous condition with new asphalt and or the appropriate surface material. New energy efficient lighting and security cameras will be installed on the equipment to provide additional safety and protective measures. Construction is expected to take 3 to 4 weeks beginning on Dec. 1, 2014 or soon thereafter.	NOE

2005082122	Upper North Fork Feather River Hydroelectric Project Water Quality Certification State Water Resources Control Board --Plumas The Upper North Fork Feather River Hydroelectric Project (UNFFR Project) involves the issuance of a water quality certification as part of the Federal Energy Regulatory Commission (FERC) relicensing of PG&E Company's existing UNFFR Project located on the North Fork Feather River in Plumas County, CA. The purpose of the certification is to ensure the UNFFR Project complies with the water quality standards of the North Fork Feather River and its tributaries, as identified in the Water Quality Control Plan for the Sacramento and San Joaquin River Basins (Basin Plan). The water quality standards are comprised of the beneficial uses and water quality objectives identified in the Basin Plan, as well as state and federal anti-degradation requirements.	EIR	01/14/2015
2012111003	Optimus Logistics Center Perris, City of Perris--Riverside A proposal to construct a high-cube warehouse development consisting of two buildings totaling approximately 1,463,887 sf on approximately 68.48 acres, with another 10.7 acres left undeveloped for a future commercial development fronting Ramona Expressway and another 9.6 acres left undeveloped for the future Ramona Expressway on-ramp at I-215 Freeway. The industrial development will sit back approximately 300-feet north of Ramona Expressway with the two warehouse buildings sitting adjacent to each other on separate parcels but will share a common private road for primary truck access onto Patterson Avenue. The larger industrial building totaling 1,036,568 sf fronts the I-215 Freeway and Peterson Avenue with both vehicular and truck access on Patterson Avenue. Each site will be able to stand alone in regards to parking, landscaping and water quality management.	EIR	01/09/2015
2013071055	North Avenue Channel Maintenance Project Oceanside, City of Oceanside--San Diego NOTE: Final 1 CD The City is proposing to restore and repair the degraded banks of a portion of Loma Alta Creek by implementing a bio-engineered solution that would resolve the creek/bank erosion issue and prevent future erosion. The project would entail re-grading portions of the creek banks that have been eroded in an effort to bring back the original geometry of the vegetated slope and to stabilize those portions of the bank that are susceptible to future erosion through the use of bio-engineered techniques (such as the installation of native vegetation and vegetative riprap). 2007121063	Las Lomas Bicycle and Pedestrian Path Monterey County --Monterey The proposed project consists of two components: modification to improvements identified in the adopted Las Lomas Drive Bicycle and Pedestrian Path MND (2009) (Area A) and the construction of drainage improvements to existing facilities on 2.5 acres (Area B) south of the Area A project site.	MND	12/26/2014
2014111073	Buena Vista Nose Area Appraisal Project Division of Oil, Gas, and Geothermal Resources Taft--Kern Vintage Production California LLC is proposing the Buena Vista Nose Area Appraisal Project to construct four well sites (11.2 acres) and expand one existing well sites (8.7 acres) and drill a total of nine oil wells on these pads. The surface owner for all of the proposed sites is J.G. Boswell Farms and they are located approximately eight miles from the unincorporated community of Taft.	MND	12/26/2014
2014111075	State Route 78 Freeway-Oriented Billboard Oceanside, City of Oceanside--San Diego The proposed project involves installation of a light emitting diode (LED) digital display freeway-oriented sign within an embankment on the north side of SR 78. The project site is located between the southern terminus of Rancho Del Oro and SR 78 within a dedicated right-of-way for the future extension of Rancho Del Oro Drive. The proposed project is approximately equidistant between the SR 78/EI Camino Real interchange to the west (4,800 ft) and SR/College Boulevard interchange to the east (4,600 ft). The project consists of a "V" shaped, dual sided, 48'-2 1/2" wide and 17'-11 1/2" LED display attached to a pylon steel support structure, anchored in a concrete footing with an estimated surface area of 10 sf within a 40 sf sign installation area. Environmental shields (6' wide and 17'-11 1/2" high) would be installed at the north end of both sign faces to minimize upslope light spill. The top of the sign would be 39'-7" above the existing ground level and 98' above mean sea level. The total footprint (including sign installation area, access pathways, staging area and crane parking area) is approximately 0.3-acre.	MND	12/26/2014
2014111076	La Costa Valley Site IS/MND San Dieguito Union High School District Carlsbad--San Diego The project entails the development of a multi-purpose building, parking, and athletic fields located on a 28 acre site along Calle Barcelona in Carlsbad, CA. The athletic field include two baseball fields, a softball field, and three soccer and lacrosse fields. The project also includes three parking lots - the sports, upper and lower lots. A restroom is planned adjacent to the sports lot parking lot. The project would be built in two phases. The athletic fields would be constructed first as part of Phase I, followed by the multi-purpose building as part of Phase II. Likewise, the parking lots would be phased beginning with the sports lot, lower lot, and part of the upper lot during Phase I. The larger part of the upper lot would be completed once the multi-purpose building is constructed as part of Phase II.	MND	12/26/2014

2014111077	Signal Hill West Unit Facility - Gas Plant Modification Project South Coast Air Quality Management District Signal Hill, Long Beach--Los Angeles Signal Hill Petroleum, Inc. is proposing to upgrade an existing natural gas processing plant located at its West Unit Production Facility. The improvements to the gas plant will occur in the same location as the current facility to allow SHP to continue processing natural gas for independent producers in the area. The upgrades will add two additional 2-stage compression trains; replace the current propane refrigeration unit with "state of the art" equipment; and, add a CO2 filtration system. No new combustion equipment will be installed. The upgrades will enhance the vapor recovery system and increase the vacuum on the gathering lines, thereby reducing back-pressure and the potential for leaks in the upstream gathering system. The CO2 filter will enable gas processed at the facility to be sold through an existing meter and sales line to the City of Long Beach for sale to existing users within the City's existing service area.	MND	12/26/2014

	long full span bridge over Oso Creek to provide pedestrian access within the Andalucia Mission Viejo Residential Development. To accommodate overhead construction equipment, vegetation within the bridge footprint as well as 20 feet on both sides of the bridge will be trimmed as necessary. Crews will trim vegetation while suspended over the stream in a lift stationed outside of the stream. Following bridge construction completion, the project includes periodic maintenance of vegetation through trimming as necessary to prevent limbs from contacting the bridge or obstructing pedestrian passage across the bridge.		
2013081087	General Plan Update Solana Beach, City of Solana Beach--San Diego The project includes updates to the City's Land Use and Circulation Elements as part of Phase I of the City's General Plan update.	NOD	
2014081044	Balboa Marina West Newport Beach, City of Newport Beach--Orange Negative Declaration 2013 002 analyzes a proposal by the Project Applicants to reconfigure the arrangement of uses on the Project site to establish a new public boat dock in an area of Newport Harbor, which currently lacks a public dock, and to improve the private Balboa Marina including its water-side and land-side areas. The new public boat dock would include a gangway and approximately 12 public boat slips including eight (8) new boat slips and four (4) boat slips that would be relocated to the public dock from the existing private Balboa Marina. In the private Balboa Marina, 24 private boat slips accommodating a range of vessel sizes and a new gangway are proposed to be added. In the land-side area of the marina, the Project proposes to demolish the existing Balboa Marina parking lot and a 1,200 SF building located at 201 East Coast Highway. In their place, and subject to additional review and approvals by the Planning Commission, a reconfigured parking lot and a maximum 19,400 SF marine commercial building with tuck-under parking could be constructed. The potential uses of the building analyzed in Negative Declaration 2013-002 include a restaurant with outdoor patio, marina restrooms, and an office to accommodate the yacht brokerage business displaced from the existing building that would be demolished. 2014118300	Clear Creek Channel Adjustment (Streambed Alteration Agreement #1600-2014-0180-R2) Fish & Wildlife #2 --Butte The project consists of pulling a gravel bar back to the east bank of Clear Creek. This will allow high water to go down the existing channel. The gravel bar was deposited several years ago and is increasing in size causing the flow to be directed onto adjacent properties, causing flooding and erosion. Two trees will be removed and additional pruning/limbing up will occur to restore flood capacity. Work will occur on an annual basis as required to restore the capacity of Clear Creek. No work will occur in the flowing channel of the creek.	NOE	
2014118301	Elder Creek Horizontal Directional Drilling Project (Streambed Alteration Agreement No. 1600-2014-0196-R2) Fish & Wildlife #2 --Sacramento The project consists of the installation of approximately 269 linear feet of conduit to replace 12 kilovolt (kV) distribution lines along Par Parkway and under Elder Creek and Gerber Road. The project will employ the use of horizontal directional drilling (HDD) under Elder Creek.	NOE	
2014118302	SR 124 CIR near Lone - 1C930 Caltrans #10 --Amador Caltrans proposes a Cold-in-Place Recycling (CIR) on SR 124 near Lone in Amador County. All construction will occur on existing pavement and shoulders within Caltrans right-of-way. The purpose of this project is to extend the service life of SR 124. This project is needed to prevent further deterioration.	NOE	
2014118303	An Ordinance Amending the Oakland Planning Code Oakland, City of Oakland--Alameda An Ordinance, as Recommended by the City Planning Commission, Amending the Oakland Planning Code to Update the City's Agricultural Regulations; and make other miscellaneous Planning Code Text Map, and Height Area Amendments, including but not limited to: 1) Clarifying the process and exceptions to the Maximum Yard Requirements; 2) Standardizing Design Review Procedure Language; 3) Clarifying the Definitions of "Live/work" and "Work/live"; 4) Streamlining the process for allowing Alcoholic Beverage Manufacturers to sell their products on site etc.	NOE	
2014118304	Interim Status Modification-Surge Tank (Unit 79), Centrifuge No. 2 (Unit 81), and Ancillary Sump Installation Toxic Substances Control, Department of Vernon--Los Angeles The California Department of Toxic Substances Control (DTSC) has approved a Class II Interim Status Permit Modification for the installation of a Surge Tank (Unit 79), a Centrifuge Unit (Unit 81), and four new ancillary sumps at the Exide Technologies, Inc. Facility in Vernon California. This modification was submitted to meet the requirements for Exide to continue to operate the Facility in accordance with Hazardous Waste Regulations. The Surge Tank is a 4,925 gallon High Density Poly Ehylene (HDPE) tank for storage of filtrate liquids from the Waste Water Treatment Plant Filler Press (Unit 44) and the Raw Materials	NOE

	Preparation System (RMPS Filter Press Unit B (Unit 45). The Surge Tank is a necessary proactive measure to help relieve pressure on the outlet of the filter press, which will ensure continued proper operations.		
2014118305	Auburn Ravine Road at I-80 Improvement Project Placer County Auburn--Placer Removal and replacement of 8 ADA ramps on Auburn Ravine Road between Bowman Road and Lincoln Way. Construction of approximately 300 square feet of asphalt concrete pavement shoulder to provide for a right turn lane for westbound traffic on Auburn Ravine Road to turn onto northbound Bowman Road. Changing loop detection to video detection for the 4 traffic signals within the project area and completing a 2" grind and asphalt concrete overlay as well as re-striping. The project is located within the State and County Right of Way and will be constructed to meet Caltrans standards.	NOE	
2014118306	Villa La Esperanza Goleta, City of Goleta--Santa Barbara The applicant proposes to demolish one existing 3-bedroom unit and the existing single-story 1,409-square foot community center in the center of the complex, in order to construct a new two-story 6,219 square foot community center. The applicant will also be converting seven 5-bedroom townhome apartments into four studios, four 1-bedroom apartments, and eight 2-bedroom apartments, resulting in eight net new units or total of 83-units on site. Existing parking spaces will be reduced by a total of three spaces, from 121 spaces to 118 spaces, as a result of parking lot revisions. The project is 100% affordable housing development that will provide 25 units for extremely low and very low-income residents; 56 units for low-income residents; and two manager's units.	NOE
