STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

November 16 – 30, 2016

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 16 – 30, 2016**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

<u>Documents Received on Wednesday, November 16, 2016</u>			
2004021002	Landmark Village Los Angeles County Santa Clarita--Los Angeles Note: Review Per Lead Landmark Village is one of 5 villages within the Newhall Ranch Specific Plan, a large-scale mixed-used community located in unincorporated LA County. The Newhall Ranch Specific Plan was approved by the LA County board of supervisors in 2003. Landmark village consists of 422 lots with a max of 1,444 residential units; 1,033,000 sf of non-residential mixed use space; elementary school; community park; fire station; three private recreational facilities; open space; river trail uses; road and infrastructure improvements; and other amenities. The project site is currently used for agricultural purposes and contains miscellaneous, ancillary sheds for agricultural storage, and dirt roads.	EIR	01/17/2017
2005051143	Mission Village Los Angeles County Santa Clarita--Los Angeles Note: Review Per Lead Mission Village is one of 5 villages within the Newhall Ranch Specific plan, a large-scale mixed use community located in unincorporated LA County. The Newhall Ranch Specific plan was approved by the LA County Board of Supervisors in 2003. Mission Village would accommodate 4,055 homes and 1,555,100 sf of commercial uses. The project would also include an elementary school, library, fire station, bus transfer station, and open space. Mission Village would further include supporting facilities and infrastructure, including roads, the commerce center drive bridge, trails, drainage improvements, flood protection, potable and recycled water systems, sanitary sewer system, and dry utilities systems.	EIR	01/17/2017
2014021003	Skyline Heights Project Corona, City of Corona--Riverside The project involves the annexation of 394.8 acres into the City of Corona. The annexation is accompanied by a tentative tract map to subdivide approximately 271 acres into 291 single family residential lots. The development will also include non-buildable lettered lots that will be set aside for landscaping and natural open space, streets and utilities. Richland Developers is the project proponent and has submitted the following applications to the City of Coronas: (1) General Plan Amendment 13-003 (GPA13-003): Amendment to Corona's General Plan Sphere of Influence Land Use Plan (westerly sphere) to amend 394.8 acres from Rural Residential I (0.2 - 0.5 dwelling units/acre) to Low Density Residential (3-6 du/ac) on 357.14 acres and Open Space on 37.61 acres; (2) Change of Zone 13-002 (CZ13-002) to rezone 37.61 acres to Open Space. 86.23 acres to Agriculture, and 270.9 acres to R-1-7.2 (single-family residential, 7,2000 sq. ft. minimum lot size) located in the City's SOI (westerly sphere) to facilitate the annexation of property into the City of Corona; (3) Annexation 117 to annex 394.8 acres from unincorporated Riverside County in the City of Corona's SOI to the City of Corona; and (4) Tentative Tract Map 36544 to provide for the subdivision of 270.9 acres	EIR	12/30/2016

	into 292 single family residential lots, including numerous lettered lots to be set aside for open space, slope landscaping, streets and utilities in the R-1-7.2 zone being proposed by Cz13-002.		
2016022038	1900 Fourth Street Project Berkeley, City of Berkeley--Alameda Note: Extended Per Lead	EIR	01/12/2017
	The proposed project would redevelop the site with a mix of residential and commercial uses totaling 191,362 gross square feet, as well as associated parking and circulation, open space and landscaping, and utility improvements. The proposed uses would be located within two separate buildings, a three story building at the corner of Fourth Street and Hearst Avenue, and a one- to five-story building on the balance of the site. Approximately 151,738 square feet of residential uses (155 dwelling units) would be located on the second level and above; commercial uses would total approximately 30,000 gross square feet and would be located on the ground level. A total of approximately 13,032 square feet of open space would be provided at the ground and second-story podium levels. A six-level, approximately 156,752 gross square-foot parking garage would also be located within of the buildings. A total of 372 parking spaces would be provided. Vehicular access to the parking garage would be provided via Fourth Street and Hearst Avenue.		
2016082067	Washington District Sustainable Community Infrastructure Project West Sacramento, City of West Sacramento--Yolo The objective of this project is to add or improve the pedestrian, bicycle, and streetscape amenities/associated street furniture along several of the key roadways within the Washington District of the City of West Sacramento. The above ground utilities along these roadways would be placed underground, and new street lighting would be installed to improve the aesthetics and safety of the neighborhood. Sidewalks improvements, new bike lanes, and mid-block pedestrian crossings would be added. Care would be taken that the new sidewalks, curb ramps, and crosswalks are ADA compliant. New sewer lines would be placed alongside existing sewer lines. Storm drain pipelines would be placed along existing pipelines. Water main rehabilitation and upgrades would be placed alongside existing water mains.	EIR	12/30/2016
2016111046	Bonelli Equestrian Center Refurbishment Project Los Angeles County San Dimas--Los Angeles The county proposes to refurbish Bonelli Equestrian Center in Frank G. Bonelli Regional Park, including removal of existing horse stables and other structures, and construction/installation of a barn with 24 stalls, a concession building with restrooms, fencing, a retaining wall, security lighting, a horse pan, picnic tables, and improvements to infrastructure (i.e. water, sewer, and storm water drainage). An existing drainage ditch in the northern portion of the project site would be regraded, and the project would include an approximately 3,000 sf biofiltration planter (i.e. detention basin) immediately east of the equestrian center for collection of on site storm water runoff. 2016111043	520 Mateo Los Angeles, City of Los Angeles, City of--Los Angeles The proposed Project would include the demolition of the existing warehouse building and the construction of a mixed use live/work development containing up to 600 live/work units, 20,000 sq. ft. of office space, 15,000 sq. ft. of restaurant space, 15,000 sq. ft. of retail space, and 10,000 sq. ft. of cultural space. Up to 11% of the base density would be set aside as restricted affordable units (Very Low) via a ministerial Density Bonus. The proposed Project uses would be contained in a 13-story, approx. 150 foot high building and would contain a total floor area of approx. 584,760 sq. ft. Three Subterranean garage levels would be provided with ingress/egress from/to Santa Fe Avenue.	NOP	12/15/2016
2016111044	The Culver Studios Innovation Plan, Comprehensive Plan Amendment No. 7 Culver City Culver City--Los Angeles The Culver Studios Innovation Plan which is reflected in the proposed Comprehensive Plan Amendment No. 7 (CPA No. 7), proposes to technologically update and expand the facilities within the existing 14.3 acre Studio Campus, while retaining the Studio's unique ambiance and prominent place in the community. CPA No. 7 includes some, but not all, of the improvements approved as part of CPA No. 6 but not yet constructed, including new Building Y, the Van Buren Parking Structure near Van Buren Place, and the relocation of the historically significant bungalows to the area south of the Mansion. Discretionary entitlements, reviews, and approvals required or requested may include, but are not necessarily limited to: 1) an amendment to the existing Comprehensive Plan, superceding all previous amendments; 2) approval of a Development Agreement; 3) a Certificate of Appropriateness under the City's Historic Preservation Ordinance; and, 4) certification of the EIR.	NOP	12/15/2016
2016112045	Pure Water Soquel Soquel Creek Water District --Santa Cruz The District proposes an advanced purified groundwater replenishment project - Pure Water Soquel - to supplement natural recharge of the Santa Cruz Mid-County Groundwater Basin with purified water. The Pure Water Soquel project would help increase the sustainability of the District's groundwater supply, upon which it currently relies for 100 percent of its water supply, reduce the degree of overdraft conditions in the District's groundwater basin, protect against further seawater intrusion of groundwater aquifers, and promote beneficial reuse by reducing discharge of treated wastewater of the Pacific Ocean. The Project would provide sufficient treatment capacity to offset the groundwater supply impacts attributable to District pumping. The proposed Project facilities include: water treatment facilities; pump stations and pipelines for conveyance of source water, purified water, and brine concentrate; and injection and monitoring wells. The project also includes the potential use of the advanced purified water for landscape irrigation application and redistribution of groundwater pumping form District extraction wells. <u>Documents Received on Wednesday, November 16, 2016</u>			
2016111045	5365 Cherry Avenue Opportunities for Learning (OFL) Charter School Long Beach, City of Long Beach--Los Angeles The applicant is proposing the lease of a 23,580 sf site at 5365 Cherry Ave to be used as an independent study learning center by the OFL Charter School program. The site includes a one-story, 6,804 sf commercial building currently being used as a shoe store, and surface parking lots to the west and south of the existing building. The proposed project would retain the existing parking lots and the existing building frame, with modifications to the interior of the building, minor architectural and landscape improvements. Modification of the existing commercial space into an OFL center would require interior demolition and construction. Construction work is expected to include the building of new partition walls, flooring, doors, windows, electrical outlets, light fixtures, T-bar ceiling grids, and plumbing fixtures.	Neg	12/15/2016
2005042018	Rivers Phase II West Sacramento, City of West Sacramento--Yolo DTSC approved modification to a previously approved project, which included the construction of a 68 acre residential development site with an elementary school, by including the removal and disposal of contaminated soil. This modification was made under a Removal Action Workplan approved by DTSC. As modified, the approved project constitutes a minor alterations to the previously proposed project.	NOD	
2006091071	Sunrise Powerlink Project Public Utilities Commission El Centro, San Diego--San Diego, Imperial This project 500 kV transmission line from the Imperial Valley Substation to a new substation southeast of the town of Alpine, then continuing with a 230 kV transmission line to the Sycamore Canyon Substation. The project resulted in 2.83 acres of temporary and 2.71 acres of permanent impacts to barefoot-banded gecko habitat. SDG&E mitigated these impacts by purchasing the Mountain Springs Mitigation Property (approx. 199 acres). Amendment 5 extends the date to complete the transfer of the mitigation lands to June 22, 2018.	NOD	
2007012060	Hammer Lane Phase III Street Widening Project Stockton, City of Stockton--San Joaquin CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0172-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, City of Stockton Public Works Department. Project is limited to improvements at the outfall at Five Mile Slough where it is crossed by Pershing Avenue. Five Mile Slough flows below Pershing Avenue through a dual box culvert 5 feet high by 10 feet wide. The proposed improvements include upgrading the existing 15-inch diameter outfall pipe to a 42 inch diameter pipe. The location where the existing outfall empties into the box culvert will be enlarged to accommodate the new pipe size. A new outfall location will not be created. The majority of the work necessary to install the new pipe will take place from the road above, outside Five Mile Slough. It is anticipated that coffer dams will be installed at both ends of the north barrel, diverting the water through the south barrel, so work can be conducted on the wall opening. Access to the slough is narrow, and therefore it is anticipated that heavy equipment will operate from the road, not from areas within the slough.	NOD

2007121098	<p>Kettleman City Water Treatment Plant and Commercial Water Storage Tanks Kettleman City Kettleman--Kings</p> <p>The applicant is proposing to upgrade the community potable water system by installing a water treatment plant that would treat water from the California Aqueduct. A new turnout will be constructed where the raw water supply would be pumped and cleaned with a membrane filtration and chloramine disinfection treatment process. The proposed capacity of the treatment facility is 900 gallons per minute or 1.3 million gallons per day. Piping will be installed connecting the water treatment plant to the existing community service district water lines. The previously approved project included commercial storage tanks, which are no longer part of the project.</p>	NOD	
2015032083	<p>Western Pacific Interceptor Canal Channel Maintenance Project Water Resources, Department of --Yuba</p> <p>CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0201-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, DWR, Flood Maintenance Office, as represented by Dave Wheeldon.</p> <p>Project is limited to channel maintenance activities including debris and/or obstruction removal, vegetation management and wildlife damage management activities including rodent control (i.e. beaver) within Western Pacific Interceptor Canal. Maintenance work may occur as needed anytime throughout the year and will take approx. 1.5 months per year.</p>	NOD	
2015092031	<p>Belden Barns Farmstead and Winery Project Sonoma County Santa Rosa--Sonoma</p> <p>Project is a new agricultural processing facility with a maximum annual production of 10,000 cases of wine and 10,000 pounds of cheese, retail sales and tasting of wine, cheese and farmstead food products, and eight agricultural promotional events per year on a 55-acre parcel located at 5561 Sonoma Mountain Road, Santa Rosa.</p>	NOD	
2015102017	<p>Chico Walmart Expansion Project Chico, City of Chico--Butte</p> <p>On 11/15/16, the Chico City Council denied an appeal and upheld the Planning Commission's approval of the project on 10/06/16. The project applicant is proposing to subdivide the project site to facilitate the following development and uses: 1) expand the existing Walmart store by up to 65,000 sq. ft.; 2) develop an 8-pump fuel station with a 1,500 sq. ft. kiosk; and 3) create two out lot parcels for future commercial use with a combined development potential of approx. 52,000 sq. ft. In addition, modifications would be made to vehicular access points and an existing Class I bicycle/pedestrian path would be re-routed around the perimeter of the site.</p>	NOD	
2015112038	<p>City of Piedmont Sanitary Sewer Rehabilitation Project Phase 5 Piedmont, City of Piedmont--Alameda</p> <p>The project areas are residential and pipeline alignments are within the City's right of way or sewer easements associated residential lots. Total 32,748 feet will be rehabilitated out of which 23,275 feet will be within the City's streets and 7,497 feet</p>	NOD

	will be within residential easements. Sub-basins W2 and @3 have been selected for rehabilitation in Phase 5, along with a series of sewer mains elsewhere in the sewer system. In addition, several lines in Sub-basin G1 will be replaced due to defects in cured-in-place pipe liners installed in 1995. Sewer main pipe sizes range from 6 to 10 inch but 90% of the sewer mains are 6 inch and eight inch lines. Construction is anticipated to be completed within 8-10 months, if all the priority sewer repairs are completed in Phase 5.		
2016092027	Tilden Nature Area Sediment Basin Excavation and Pond Restoration East Bay Regional Parks District --Contra Costa The EBRPD proposes to excavate sediment to restore the capacity of an in stream sediment basin, make improvements to the interpretive area to enhance user experience, while protecting habitats the area, and conduct site-grading, re-vegetation, and habitat enhancements for aquatic and upland habitat.	NOD	
2015118171	Mitigate Rockfall, Debris Flow, and Remove Unstable Trees - 0K880 / 0415000155 Caltrans #4 --Napa, Solano Mitigate areas where rockfall, debrisflow may occur, remove unstable trees by highway 128. The project is to preserve and maintain the safety of the Highway.	NOE	
2016118192	Chardonnay BASin Maintenance (Lake or Streambed Alteration Agreement No. 1600-2016-0149-R6) Fish & Wildlife #6 Temecula--Riverside The Chardonnay Basin Maintenance Project includes vegetation mowing and sediment removal that will permanently impact 0.11 acre of southern willow scrub and 0.16 acre of coastal valley freshwater marsh subject to FGC section 1600 et seq.	NOE	
2016118193	Newell Creek Watershed Fire Break Santa Cruz, City of --Santa Cruz The project entails clearing a 1400' long, 12' wide fire break near Newell Creek dam, with no live trees over 18" DBH removed. All work will be completed by hand crews, with cut material lopped and scattered. This project will result in enhanced watershed and water supply protection by aiding fire fighting efforts on site.	NOE	
2016118194	Tentative Parcel Map T16-049 Tuolumne County --Tuolumne Tentative Parcel Map T16-049 to merge two parcels which total 0.86+/- acre. The project site is zoned R-1:MX:AIR (Single-Family Residential:Mobilehome Exclusion Combining:Airport Combining) under Title 17 of the Tuolumne County Ordinance Code.	NOE	
2016118195	UV Replacement State Water Resources Control Board Healdsburg--Sonoma The State Water Resources Control Board (State Water Board) as the Lead Agency will be issuing a water supply permi. Stonestreet Winery proposes to replace the old UV treatment unists with new sets of UV treatment units.	NOE

2005121097	Diaz Road Lift Station Replacement Project Eastern Municipal Water District Temecula--Riverside Note: ADM to Final	ADM	
------------	---	------------	--

EMWD is proposing to replace its existing Diaz Road Lift Station. Expansion of the existing lift station is not practical because most of the facilities have reached the end of their useful life and the current site is prone to flooding and provides no room for expansion. Therefore, EMWD proposes to replace this lift station on a site near the intersection of Diaz Road and Rancho Way.

2012051075	Daily II Tank Project Eastern Municipal Water District Menifee--Riverside Note: ADM to 2nd Final SWRCB, Division of Drinking Water (Division), as the responsible agency, will be issuing a water supply permit. The Eastern Municipal Water District proposed project is for the construction of a two million gallon water storage reservoir (Daily II Tank).	ADM	
2012102025	One Oak Project (1500-1540 Market Street) San Francisco, City and County of San Francisco--San Francisco Note: Review Per Lead The project consists of demolition of all structures at 15-00-1540 Market St., construction of a 310-unit, 40-story residential tower (400 ft.-tall, plus 20-ft.-tall parapet) with ground-floor commercial space, an off-set loading space, and subsurface parking garage w/ 155 spaces. Resident bicycle parking would be provided on a second floor mezzanine; for visitors in racks on adjacent sidewalks. The project also includes construction of a public plaza within the Oak St. right-of-way; wind canopies within the plaza and the sidewalk at the northeast corner of the Market and Polk Streets to reduce pedestrian-level winds; relocation of the existing Van Ness Ave Muni station to the ground floor of the existing One South Van Ness building; and a southbound contra-flow fire lane for emergency vehicle use on the east side of Franklin Street btw Market & Oak Sts.	EIR	01/17/2017
2016052068	Mercy Housing Veterans Village Project Colma, City of Colma--San Mateo The project consists of a Planned Development Rezoning and Planned Development Use Permit to allow the construction and development of a 66-unit affordable housing development on an approx. 2.23 acre property. The project proposal includes a new three story residential building and the preservation of a historic building for use by residents. Two large residential courtyards, a garden area, and park area are also planned as part of the proposed development. The project would provide a total of 69 parking spaces in two parking areas; one adjacent to Cypress Lawn Cemetery and another along the BART maintenance road immediately east of the project site.	FIN	
2015091064	Test Well Drilling Project Allensworth Community Services District --Tulare Note: Review Per Lead The test well project will involve the drilling of a hole to a depth of approximately 500-ft using a single drill rig with attached casing hammer and necessary tooling. The approximate footprint of this equipment is 30-ft by 50-fy. The test will advance an 8-5/8" diameter steel casing as it drills and will collect water quality samples at each water bearing formation encountered as the drilling progresses. Approximately 8 cy of earth material or drill cuttings will be removed during the test well project and this material will be discharged to above ground tanks that can be removed and disposed of at the completion of the project. As water bearing formations are encountered and water quality samples collected, the pumped	MND	12/22/2016

	water will be discharged to above ground tanks. It is anticipated that there would be approximately twelve water quality samples each pumped for 10 minutes at approximately 50 gpm to 80 gpm. At the completion of the test hole, it will be filled with cement from the bottom to 6-ft below ground surface and the ground surface restored to original conditions.		
2016111047	Staybridge Suites Hotel Project Long Beach, City of Long Beach--Los Angeles The proposed project involves demolition of the existing two-story hotel and construction of a new six-story, 125-room hotel and two-level parking structure as well as an associated zone change to accommodate the proposed hotel. The project also includes the addition of 2,496 sf of conference room space. The existing 13-story hotel building would remain unchanged. The new hotel would connect to the existing 13-story hotel on the first floor. In order to allow for the proposed building height of six stories (73 feet), the applicant is requesting a zone change to place the site in the Willow Street Center Planned development district (PD 27).	MND	12/16/2016
2016112046	Napa Sanitation District Recycled Water Reservoir Improvements Project Napa Sanitation District Napa--Napa The primary purpose of the proposed project/action is to install reservoir liners to increase the efficiency of the district's two existing reservoirs by operating the reservoirs at full capacity without experiencing leaking. The proposed project/action proposes to install reservoir liners that will maximize and reestablish the useful volume of the existing reservoirs and provide approximately 3 million gallons of restored treated water storage to increase reliability during periods of peak demand.	MND	12/16/2016
2016112047	TruAir Hangar (ADR16-0030) Sonoma County Santa Rosa--Sonoma Proposal to demolish existing aircraft hangar facilities with proposed construction of a new aircraft storage hangar and pilot offices totaling 20,158 sf on a portion of a 443-acre property (County Airport).	MND	12/16/2016
2016112049	Oak Vista Residential Subdivision Rocklin, City of Rocklin--Placer The Oak Vista Residential Subdivision project proposes the construction of a medium density residential development consisting of 63 single family units on a 14.3+/- acre site in the Rocklin. This project will require the following entitlements from the Rocklin: a tentative subdivision map to subdivide the five existing parcels into 63-single family lots and associated roadways; a rezone to change the project site's zoning designation from unclassified to residential single family, 6,000 sf min lots and residential single family, 12,500 sf min lots, and an Oak tree preservation plan to address the preservation, removal and mitigation of oak trees on the project site. Access to the project would be from Mesquite Way and Whitethorn Drive via roadway extensions, ultimately accessing Sierra College Blvd.	MND	12/16/2016

2008011113	Hollywood & Gower Los Angeles, City of Los Angeles, City of--Los Angeles The project would involve the demolition and removal of the existing paved surface parking lot and development of a mixed-use project containing approximately 220 apartment units, approximately 4,580 sf of commercial retail/restaurant space, and associated parking facilities. The project will include approximately 25,000 sf of common open space, including a ground level landscaped courtyard as well as extensive residential amenities consisting of a landscaped residential amenity deck at the 5th floor and a rooftop terrace. The project would contain 23 above-grade stories, and have a maximum building height of approximately 262 feet. A minimum of 285 vehicular parking spaces will be provided in one subterranean level as well as four above-grade parking levels. Upon completion, the project would contain approximately 198,720 sf of floor area, for a total max floor area ratio not to exceed 4.5:1.	NOP	12/16/2016
2014031059	PCH & 2nd Project Long Beach, City of Long Beach--Los Angeles Note: Review Per Lead The proposed project involves demolition of the existing Seaport Marina Hotel and construction of a commercial center totaling 245,000 sf, consisting of 95,000 sf of retail uses, a 55,000 sf grocery store, a 25,000 sf fitness/health club, approximately 70,000 sf of restaurant uses, and 1,150 parking spaces. The proposed commercial structures would be one- and two-story buildings with a max height of 35 feet as defined by the Long Beach Municipal Code.	NOP	01/09/2017
2016111048	Norwalk High School New Stadium and Athletic Fields Improvement Project Norwalk-La Mirada Unified School District Norwalk--Los Angeles The proposed Norwalk High School project involves replacing the existing grass field with synthetic turf and developing new athletic facilities for football, soccer, baseball, softball, and track and field. The project includes a new 2,500 seat lighted football/soccer and track and field stadium (stadium or football field) that meets all CIF standards; a practice soccer field; a practice football field; a lighted baseball field and a lighted softball field that meet CIF standards; 8 new tennis courts; and 7 new basketball courts. Approximately 8,162 sf of support buildings are proposed, including concession stands, team rooms, restrooms, and storage facilities. The project would also result in ~91,643 sf of unprogrammed recreational space within the athletic field footprint.	NOP	12/16/2016
2016112048	Red Mountain Communication Site Relocation Project Emergency Services, Office of Crescent City--Del Norte, Humboldt The State of California, Cal OES, with assistance from DGS, is the lead agency for preparation of an EIR under CEQA for the relocation of the Red Mountain communication site. The proposed project will provide new facilities that serve as the primary public safety communications hub for state, federal, and local law	NOP	12/16/2016

2010121008	Measure M2 Natural Community Conservation Plan/Habitat Conservation Plan Orange County --Orange Note: Response to Comments	Oth	
	The OCTA has prepared a draft Natural Community Conservation Plan/Habitat Conservation Plan (the Plan) that will provide for habitat conservation/mitigation strategy to off-set environmental impact of the Measure M2 freeway improvement project. The M2 freeway projects are funded by a half-cent sales tax measure and were approved by Orange County voters in November 2006. The draft EIR/EIS analyzes the impacts of the proposed issuance of take permits to OCTA under the NCCPA (CDFW) and ESA (USFWS) based on implementation of the Plan. The Plan will identify the Covered Activities carried out by OCTA that may result in take of Covered Species within the Plan area. Anticipated Covered Activities currently consist of thirteen proposed M2 freeway improvement projects.		
1999062020	Placer Vineyards Specific Plan Property #3 Placer County Auburn--Placer The project proposes a modification of the Placer Vineyards Specific Plan Mitigation Monitoring and Reporting Program and Corresponding Text Revisions to the Certified EIR to remove Mitigation Measure 4.1-6 relating to minimum setbacks from the existing 115kV and 230kV power lines that cross the Specific Plan area.	NOD	
2005121097	Diaz Road Lift Station Replacement Project Eastern Municipal Water District Temecula--Riverside On September 19, 2007, the Eastern Municipal Water District's (Eastern) Board approved and authorized the CEQA certification of the Diaz Road Lift Station Replacement Project - Final Initial Study and MND. The project would replace the existing lift station; construct approx. 700 linear feet of 42-inch diameter gravity interceptor sewer to demolish the existing lift station, restoring the site to it natural condition. At this time, Eastern is proposing minor changes to the project as originally described. The changes include increasing the number of electric driven submersible pumps from three to four; increasing the depth of the wet well from 45 feet to 47 feet; reducing the size of the gravity interceptor sewer from 42-inch to 33-inch diameter; and the need for dewatering during construction. None of these changes were foreseen at the time the July 2007 IS/MND was prepared. The previously adopted IS/MND adequately discusses the potential impacts of the project and the minor changes noted above required the preparation of an addendum.	NOD	
2010021040	Claremont Colleges East Campus Upland, City of Claremont, Upland--Los Angeles, San Bernardino The project consists of TPM 70243, Conceptual Site Plan and Development Agreement for development of a sports complex with recreation and athletic fields, sports courts, parking, and support facilities on a 75 acre former aggregate quarry. 2013101061	Pomona College 2015 Campus Master Plan Claremont, City of Claremont--Los Angeles Pomona College requested approval of the site plan, architectural design, and landscaping for the PCMA, a proposed teaching museum to be located on the Pomona College campus. The PCMA is part of the Pomona College 2015 Campus Master Plan, which was approved by the City Council on April 12, 2016. The Claremont Architectural Commission adopted a resolution approving the PCMA, as well as an Architectural and Site Plan Review (File #15-A11) at its Nov. 9, 2016 meeting. The PCMA project site consists of a 1/2 block parcel with a total area of 53,967 sq. ft. The design of the PCMA includes a one-to two-story building surrounding a central courtyard on three sides. The building is a made up of three volumes containing several art galleries, teaching portals, storage units, offices, and a loading dock. Two volumes fronting College Avenue are generally consistent with the existing massing and spaces of other nearby development. The three volumes are connected by a one-story component, the Art Hall, containing galleries, facilities, and a small patio. A sunken center courtyard will be visible from College Ave. and will be lined on three sides by a portico acting as the backdrop tot he courtyard. Adjacent to the courtyard to the south is a one-story, single room, independently operable event space that could be used by community groups. The main lobby at the northwest corner includes an entry plaza and courtyard that is accessed from Bonita Avenue, providing a connection to the Village. A north-south "Art included to provide natural light for the lobby area and an internal staircase.	NOD

	<p>The landscape plan proposes planting 15 new private trees on the site. These trees consist of four new Engleman Oaks, six new Palo Verdes, four new Chitalpas, and one new Eastern Redbud. When added to the five existing trees that will be retained on the site, the net change in the private, on-site tree count is an increase from 19 to 20 trees, which satisfies the tree replacement ratio required in the above described mitigation measures. To address previous Commission comments, the revised tree plan include tree species that have larger canopies (Oaks) and are more climate appropriate (Oaks, Palo Verdes, Chitalpas, and Redbuds). As noted above, the plan will provide an increase in area covered by the tree canopy that will increase over time as the trees mature.</p> <p>The landscape plan also includes the planting of ten new street trees and the removal of two Eucalyptus trees. One of the trees that the plan proposed to remove is considered a heritage tree by the City. As described above, staff does not currently support its removal; however, a final decision on this tree will be made by the Community and Human Services Commission at a later date. The second tree is a small variety Eucalyptus on the northwest corner of Second Street and College Ave. This small tree, which has less than two inch diameter trunk, was planted approx. 2 years ago by City staff, but will never develop the sort of canopy or scale that is needed for such a prominent corner. The landscape plan proposes replacing this tree with a larger specimen Camphor tree, which is the largest species of tree available on the City's current street tree list for College Ave.</p> <p>The shrub, vine, and groundcover plans have been refined with input from Commissioner Perry. The intent was to create a more layered and diverse look that was more reflective of the type of landscaping found in the surrounding Village and campus areas. The planting plan is designed to create an interesting blend of texture and color around the perimeter of the building. The largest on-site tree, a mature Chinese Elm, is proposed to be relocated on site to serve as a focal point of the main courtyard. Based on concerns that the tree may not survive relocation, the project landscape architect has provided a detailed design for the area around the tree, which will feature a large planter that transitions to permeable paved area and also utilizes structural soils to help ensure the health of the tree roots.</p> <p>The Architectural Commission found and determined that all of the impacts of the PCMA project were fully disclosed, analyzed and mitigated, to the extent feasible, in the certified Pomona College 2015 Campus Master Plan Environmental Impact Report. On the basis of the entire record before it, the Architectural Commission found that no subsequent or SEIR was required under Public Resources Code, section 21166 and State CEQA Guidelines, section 15162.</p>

2016118227	Dublin High School Interim Housing Phase 1A Project Dublin Unified School District Dublin--Alameda The purpose of the proposed project is to install temporary modular classrooms to accommodate increases in student enrollment for the 2017 - 2018 school year at Dublin High School (DHS). DHS registered 2,280 students for the 2016 - 2017 school year and is forecasting an increase of approximately 325 students for the 2017 - 2018 school year. This will result in a shortfall of classroom space for approximately 105 students. It is necessary to provide interim classrooms to accommodate the increase in students at DHS until permanent facilities can be provided.	NOE	
2016118228	Estes Boat Lift Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer The Applicant will install a boat lift that will require driving two 7-inch by 12-inch pilings.	NOE	
2016118229	Temporary Authorization for AERC.com Toxic Substances Control, Department of Hayward--Alameda The project consists of granting temporary authorization of 180 days to allow AERC.com to replace an existing fluorescent lamp crushing unit with a new more efficient unit and to reconfigure the storage area. The treatment capacity will remain the same and all operations will occur inside an enclosed building. The reconfiguration of the storage area is necessary to accommodate the larger footprint of the replacement machine.	NOE	
2016118230	Castle City Water System Consolidation Project Placer County Water Agency Unincorporated--Placer This project includes construction of public and private water system facilities to serve the existing Castle City Mobile Home Park. The public facilities include the installation of approximately 200 feet of 12-inch pipe and two services with a commercial meter and a backflow device within the right of way of Newcastle Road. The private improvements include installing three private fire hydrants, decommissioning the existing water treatment plant and storage tanks, and installing approximately 2,500 feet of pipe within the Castle City Mobile Home Park.	NOE	
2016118231	Whitney Boulevard Pipeline Replacement Project Placer County Water Agency Rocklin--Placer This project would replace approximately 4,100 lineal feet of treated water pipelines in Whitney Boulevard between Sunset Boulevard and Argonaut Avenue and replace 81 water services. The existing water mains will be abandoned in place. There will be minimal amount of ground disturbance and construction will occur within the existing roadway corridor and previously disturbed areas.	NOE	
2016118232	Replace Bridge Joint Seal at Bridge No. 35-0252R Caltrans #4 San Mateo--San Mateo Replace damaged bridge joint seal.	NOE

2015061047	Agriculture Promotion Program and General Plan Amendment (PDS2014-POD-14-001, PDS2016-GPA-16-004)) San Diego County --San Diego The project consists of amending the County's Zoning Ordinance to provide updated definitions, procedures, and standards for review and permitting of agriculture related accessory uses, and amending Table M-4 of the general plan mobility element to add additional accepted roadways, that may operate at Level of Service E or F. This NOC is for the recirculation of portions of the draft EIR due to a change in traffic analysis methodology. The portions of the draft EIR that are being recirculated include Chapter 2.1, Chapter 2.6, Chapter 2.7, Chapter 5, Appendix E, and Appendix F.	EIR	01/03/2017
2015112042	Roberts' Ranch Specific Plan Draft EIR Vacaville, City of Vacaville--Solano Residential development that includes 785 sf residences, parks and open space. Land is proposed to be annexed to the city of Vacaville.	EIR	01/03/2017
2016111049	Conditional Use Permit Nos 16-02 and 16-07 Lancaster, City of Lancaster--Los Angeles CUP 16-02 consists of the construction and operation of a 50 MW solar facility on 307 acres (APNs 3219-001-027 thru -058). CUP 16-07 consists of the construction and operation of a 15 MW solar facility on 107 acres (APNs 3265-003-014 and -015).	MND	12/19/2016
2016111050	IS 7183 and CUP 3540 (Susan Hardin) Fresno County --Fresno Allow a high-intensity park to be used as a wedding and special events venue on a 17.61 acre parcel in the AE-20 Zone district.	MND	12/19/2016
2016111052	Freeway Sign Ordinance Hesperia, City of Hesperia--San Bernardino A Development Code amendment (DCA16-00002) of the city of Hesperia to allow freeway signs between 60 and 100 feet in height along the I-15 freeway. This is in addition to other on premise signs currently permitted for commercial or industrial development. Such signs must serve developments of at least 35 contiguous acres and no more than two signs would be permitted per development. The revised sign regulations would also remove the city's pylon sign program, adopted in 2014, as recent Caltrans decisions on these signs regard them as billboards and would not permit their construction as required by the city's pylon sign regulations. In addition, the city's current requirement to allow any business within the city to advertise does not comport with the State's definition of an on premise sign.	MND	12/19/2016
2016112050	State Route 12/State Route 113 Intersection Improvement Project Caltrans #4 Rio Vista--Solano Caltrans proposes to improve safety at the intersection of SR 12/SR113, located at post mile 19.2 on SR 12 in unincorporated Solano County, approximately six miles west of the city of Rio Vista. 	proposed project: 1) a single lane roundabout, and 2) a signalized intersection. This is a safety project and aims to reduce the number of collisions at the SR 12 and SR 113 intersection. The new roundabout structure or signalized intersection would be constructed at the same location as the existing un-signalized four-way intersection.		
2001051092	Seawater Desalination Project at Huntington Beach Huntington Beach, City of Huntington Beach--Orange Proposal to amend CSLC Lease No. PRC 1980.1 to modify the existing Huntington Beach Generating Station Once Through Cooling (OTC) seawater intake and discharge (outfall) pipelines within the Lease area (the Project). The Project would install two "technology enhancements" associated with Poseidon's proposed seawater desalination facility at Huntington Beach: Modification of the offshore terminus of the seawater intake line with 1-mm wedgewire screens with a through-scrree of 0.5 feet/second or less to reduce potential entrainment and minimize impingement; Modification of the offshore terminus of the seawater discharge line by addition of a multiport seawater diffuser.	NOP	12/19/2016
2016111053	Thousand Palms Flood Control Project Coachella Valley Water District --Riverside The Project includes a series of flood control improvement structures (levees) designed to meet the Federal Emergency Management Agency (FEMA) 0.01 chance, or 100-year, flood event thereby providing flood protection for developed and planned development areas in Thousand Palms and the vicinity. The Project consists of four segments (reaches) composed of levees, channels, culverts, and a sediment basin. The project would support aeolian (wind-driven) and fluvial (water-driven) transport of sand to the Coachella Valley Preserve and Coachella Valley National Wildlife Refuge. Fine sands located in this area provide habitat for the state endangered and federally threatened Coachella Valley Fringe-Toed Lizard and other sensitive sand dwelling species.	NOP	12/19/2016
2016111051	Littlerock Rodeo Los Angeles County Palmdale--Los Angeles The project is a proposed rodeo facility within the A-2-1 Zone with a capacity of up to 200 spectators and an accessory refreshment stand. The refreshment stand will include the sale of beer and wine for on site consumption for spectators of the rodeo.	Neg	12/19/2016
2016112051	Atkinson Self Storage LLC Expansion Project Dixon, City of Dixon--Solano The applicant, Atkinson Self Storage, LLC, submitted a planning application (16-10) requesting design review (16-2) and merger (16-1) approval to construct a two phase expansion of the existing Atkinson Self Storage on two neighboring, vacant lots, located on the other (southerly) side of Atkinson Court. Pursuant to section 18.12.120 of the Dixon Municipal code, design review is required because it involves new construction and uses on the property in a CS zoning district. A merger is required because the improvements extend across APNs 0111-090-920 and -930.	Neg	12/19/2016

	the Tower bridge. The project consists of installing an approx. 432 foot long floating dock, a debris deflector broom, a gangway, an access ramp on the levee, and conducting exploratory drilling to determine structural stability of 24 existing steel piles. The total dock surface area will be approx. 4,476 sq. ft. (0.103 acre).		
2014111072	Higuera Street Bridge over Ballona Creek Replacement Project Culver City Culver City, Los Angeles, City of--Los Angeles The City of Culver City, in cooperation with Caltrans, proposes to replace and widen the existing Higuera Street Bridge (Bridge) over Ballona Creek. (#53C-0876) in Culver City, California (Project). The new Bridge would meet required seismic and geometric standards and enhance safety for bicyclists and pedestrians crossing the Bridge. The Project would also include a new ramp connection from Higuera Street to the existing Ballona Creek Bike Path.	NOD	
2015021020	EMNR Remedial Action for the 30-inch SWCS Outfall 2701 North Harbor Drive, San Diego, CA Regional Water Quality Control Board, Region 9 (San Diego), San Diego San Diego--San Diego The San Diego RWQCB is issuing a Clean Water Act Section 401 water quality certification (Cert. No. R9-2016-0088) to the project applicant to implement a cleanup action involving the direct removal of sediment with an abatement action involving, dredging to remove PCB contaminated sediment, placement of an enhanced monitored natural recovery (EMNR) sand layer with activated carbon on the bay floor, and rip rap stabilization at the 30-inch Storm Water Conveyance System (SWCS) outfall in the eastern revetment at the project location in the San Diego Bay.	NOD	
2015031093	South Beach Restroom Coronado, City of Coronado--San Diego The South Beach Restroom Project involves the construction of a new public restroom to accommodate an existing demand. The project would require the reconfiguration of existing rock revetment/riprap within the project site and construction of a new building of 235 sq. ft. with three single-accommodation stalls, an ADA accessible stall, and a storage closet. A building plaza of approx. 1,000 sq. ft. would adjoin the facility and provide patio area for the building's exterior hand washing sinks, hand dryers, showers, and a new ADA access ramp. The ramp would provide access to the facility from the street, and a new stairs would provide access from the patio to the beach. The building would have a mat foundation protected by an underground steel sheet-pile bulkhead (i.e., seawall) seaward of and along the proposed improvements.	NOD	
2015052069	Heidorn Village Subdivision Antioch, City of Antioch--Contra Costa The Heidorn Village Project proposes to subdivide 20.3 acres into 117 single-family residential lots, an average density of 5.8 units per acre. The project site is comprised of four parcels (Assessor Parcel Numbers 056-130-013, 056-130-015, 056-130-017, and 056-130-018. A total of 351 parking spaces are proposed, inclusive of garage parking, off-street (driveway) parking, and on street parking. The project would also include a park, open space areas and internal access roads. The project would include a 0.7-acre park and two additional open space areas totaling 1.3 acres, for a total of 2 acres of open space.	NOD

	campus, with a comprehensive site design and landscaping. The project would include the construction of a 12 and 6-story, split level, multi tenant building, and a 2-story building housing a micro-brewery with accessory dining space and shared tenant amenity spaces. In addition, a 9-level (including three subterranean levels) parking structure with 1,500 parking stalls would be constructed on the 58.19 acre project site.		
2016111055	Skyline Elementary School Reconstruction Solana Beach Elementary School District Solana Beach--San Diego The proposed project is the reconstruction of Skyline Elementary School. The project would increase the capacity of Skyline Elementary from 612 seats to 720 seats, for a total of 108 new seats. The project entails the complete redesign and reconstruction of all learning areas, including classrooms, media center, STREAM labs, and multi-purpose room; office spaces; fields; landscaping; parking, drop off/pick up; and playgrounds. Construction would take approximately 14 months and would start June 2017, and end in August 2018. During construction, the existing Skyline programs would be temporarily relocated offsite to Earl Warren Middle School and Carmel Creek Elementary School.	MND	12/20/2016
2016112042	Alexandre Dairy - B33826C - Environmental Review of a Pole Barn Del Norte County --Del Norte Environmental Review of a coastal development permit for a pole barn. The applicant has submitted an application to construct a 100-ft by 400-ft pole barn for the purpose of sheltering livestock animals during the winter. The building will be located in an area currently utilized for grazing. A wetland delineation has been prepared which has identified the project as being located outside of any wetland areas or otherwise sensitive habitat. The barn will contain approximately 400 heifers. Manure from the barn will be periodically removed during the time in which the barn is in use. Water will be provided to the barn from an existing well. The operation of the barn shall be in accordance with the applicant's existing approval from the RWQCB.	Neg	12/20/2016

2013081079	Revisions to the Kern County Zoning Ordinance - 2015 C. Focused on Oil and Gas Local Permitting Kern County --Kern The originally approved project consists of an amendment to Title 19 Kern County Zoning Ordinance (July 2012), with focus on Ch. 19.98 (Oil and Gas Production), to include new site development standards for all oil and gas exploration, extraction, operations, and production activities in unincorporated Kern County. CA Resources Corporation, LLC (CRC) proposes to hydraulically fracture 7 oil and gas wells in Sections 9 and 10, T32S, R25E, MDB&M. The well stimulation operations will occur on a 11.2 acre well pad.	NOD	
2013091008	Laguna Niguel to San Juan Capistrano Passing Siding Project Orange County Transportation Authority Laguna Niguel, San Juan Capistrano--Orange Project is limited to those activities described in Permittees Notification of Lake or Streambed Alteration and includes: the addition of passing siding railroad track adjacent to the low flow channel of Oso Creek, relocation of an existing spur track, construction of retaining walls, relocation of existing powerpoles, fiber optic cables, water, and sewer lines; extension of casings for gas, water, and sewer lines, culvert extensions, and addition of railroad bridge or box culvert.	NOD	
2013121076	North Park and Golden Hill Community Plan Update San Diego, City of San Diego--San Diego The proposed update for the North Park Community Plan would be consistent with and incorporate relevant policies from the 2008 City of San Diego General Plan, as well as provide a long-range, comprehensive policy framework for growth and development in the North Park community. The North Park Community Plan was originally adopted 1986 and was last amended 2003. Separate plans were prepared for the Golden Hill and North Park communities, and were evaluated in a single Program Environmental Impact Report. However, as the approval process the Golden Hill and North Park CPUs was done separately, the certification of the PEIR, Findings, Statement of Overriding Consideration (SOCs) and Mitigation Monitoring and Reporting Program (MMRP) was done for each plan. The proposed North Park CPU provides detailed policy direction to implement the General Plan with respect to the distribution and arrangement of land uses (public and private), the local street and transit network, the prioritization and provision of public facilities, community and site specific urban design guidelines, and recommendations to preserve and enhance natural open space and historic and cultural resources within the Golden Hill community. CPU implementation requires amendments to the General Plan to incorporate the updated community plans as components of the General Plan's Land Use Element; adoption of a Land Development Code ordinance that would amend the Mid-City Communities Planned District to remove North Park from the Regulations; replacement of rezone areas within the CPU with Citywide zones contained within the Land Development Code (LDC); adoption of land development code amendments to allow for conformance with the community plan policies; and approval of the Impact Fee Studies.	NOD

	agricultural, and open space. The property varies from a semi flat surface to a steep slope descending into riparian areas.		
	The Tribe's proposed project includes the construction of 147 residential units and associated facilities on the subject property. More specifically, the following would be constructed: 95 single family houses, 24 townhouses, 28 high density units, an 18,809 sf community center, a 2,500 sf roundhouse, and a 2,707 sf retreat facility. Under the Tribe's proposed project, municipal water and wastewater connections would be utilized. On-site water and wastewater facilities may be needed, however, if municipal connections cannot be secured.		
2016111057	Williamson Act Cancellation and Parcel Map Application No. PLN2016-0108 - Beachler - Rumble Stanislaus County --Stanislaus Request to cancel a 4.06 acre portion of Williamson Act contract no. 1971-0064, to allow the creation of a 4.06 acre parcel (currently operating a custom ripping and leveling agricultural services business under use permit no. PLN2015-0086) and a 36.23 acre remainder (currently improved with a single family dwelling, detached agricultural storage barn, row crops, and almond orchard), from a 40.29 gross acre parcel in the Salida Community Plan - Planned industrial zoning district. If approved, all conditions of approval from use permit no. PLN2015-0086 would remain effective on the 4.06 acre parcel. A non-renewal has been filed for the entire 40.29 gross acre parcel. The 36.23 acre remainder will be re-entered into the Williamson Act with the 2017 applications, which if approved will become effective January 1, 2018.	CON	12/12/2016
2015071046	Carmel Rio Road Project Monterey County Carmel-by-the-Sea--Monterey The project proposed by Carmel Rio Rd, LLC consists of a standard subdivision of a 7.9-acre property to allow the development of 31 units including 24 single family lots and one parcel with seven deed-restricted inclusionary units. The project would require an Administrative Permit and Design Approval for development in the "S" (Site Control) and "D" (Design Control) zoning districts. A Zoning Ordinance Amendment would also be required to add a clarification to Section 21.14.050 that allows an exception to exceed a 4 unit/acre lot density for the purpose of affordable housing pursuant to Policy CV 1.10 in the Carmel Valley Master Plan.	EIR	01/05/2017
2016052065	UCSF Child, Teen, and Family Center & Department of Psychiatry Building University of California, San Francisco San Francisco--San Francisco UCSF proposes the construction of a Child, Teen, and Family Center & Department of Psychiatry building on a parcel in the Dogpatch neighborhood, south of its Mission Bay campus site. The proposed project would provide a location for clinic and office space for the UCSF Child, Teen, and Family Center (CTFC) and the UCSF Department of Psychiatry. The proposed building would be three to five stories, measure between 45 and 68 feet in height (excluding any enclosed rooftop mechanical equipment). It would provide approximately 150,000 gsf of space (excluding parking). The building would provide outpatient clinics, dry research space, educational space and an auditorium, administrative spaces, and may include some accessory retail.	EIR	01/05/2017

2016061043	Green Line Mixed Use Specific Plan Hawthorne, City of Hawthorne--Los Angeles The Green Line Mixed Use Specific Plan provides for development of 2.53-acre plan area with a transit-oriented mixed use neighborhood that provides needed housing opportunities and amenities for professional employees, especially employees in high tech companies that are located in Hawthorne. To do so, the specific plan establishes framework and standards for development within the plan area, including land uses, building and site design, transportation, infrastructure, and streetscape strategies that accommodate up to 305 high quality multi-family residential units and 11,020 square feet of supporting small restaurant, retail, and other commercial uses within the plant area.	EIR	01/06/2017
2016111058	Las Positas/Modoc Multiuse Path Project Santa Barbara, City of Santa Barbara--Santa Barbara The city of Santa Barbara proposes to construct a class I separated multi-use pathway for bicyclists, runners, and pedestrians along 2.6 miles of Las Positas Road and Modoc Road in the southwestern portion of the city. The purpose of the project is to develop a safe, multi-modal, regional multi-use path for all ages and abilities connecting to the city's crossroom and coastal bike routes, the neighborhoods adjacent to the path, schools, commercial services, and regional parks/coastal access points. The project would involve designation of a 16-foot wide multi-use path. The path would provide a 12-foot wide paved surface with two travel lanes and two 2-foot wide unimproved natural surface shoulders (width of the multi-use path would vary depending on physical constraints). The project will be constructed entirely within existing city road right of way.	MND	12/22/2016
2016112052	Green Valley Trail IS/MND San Mateo County Pacifica--San Mateo The Green Valley Trail project will implement a segment of the California Coastal Trail south of the Devil's Slide Tunnel and connect to the parking area at Gray Whale Cove. The trail will accommodate pedestrians, bicyclists and equestrians on a natural surface trail to be constructed by improving existing primitive trails, resurfacing an existing access road, and new trail construction. The project will also make drainage improvements to the existing dirt parking lot at Gray Whale Cove.	MND	12/21/2016
2016112053	Rancheria Creek Restoration (UPE16-0070) Sonoma County --Sonoma Request for a use permit for construction of ecological improvements and restoration on reaches of Rancheria Creek and the Russian River plus flow stabilization on Rancheria Creek located on free-titled property owned by the Dry Creek Rancheria Band of Pomo Indians. 	Open space preserve resource management plan. The resource management plan includes a variety of short-term, medium-term, and long-term management activities that would be implemented by the district to protect and enhance the natural and cultural resources on the preserve. The proposed project is the adoption and implementation of the resource management plan.		
2016111059	Hale Charter Academy for Visual and Performing Arts Los Angeles Unified School District --Los Angeles The proposed project consists of a new 532 seat campus for the Hale Charter Academy for Visual and Performing Arts (VAPA) high school program (grades 9 through 12). The project is expected to generally consist of approximately 73,241 sf of programmed space in four primary buildings surrounding a courtyard/lunch area. The proposed Hale Charter Academy would be constructed on a 7.3 acre site that is currently vacant, but formerly consisted of the Highlander Road Elementary School campus. The proposed project would be an expansion of the existing Hale Charter Academy middle school program located approximately 1.5 miles to the south. Hale Charter Academy currently has a waiting list of more than 300 students; the proposed project would allow the school to expand their enrollment to include a high school.	NOP	01/06/2017
2016111056	Bush Street Replacement Planting Caltrans #6 Lemoore--Kings Caltrans proposes to provide replacement planting and install irrigation on SR 41 at the Bush Street interchange in the city of Lenmoore in Kings County (PM R40.6/R41.1). The project would plant Valley oak trees and two species of drought-tolerant shrubs within Caltrans right of way. An automatic irrigation system with controller would be installed for the new landscaping. The new irrigation system would be extended to the existing Valley oaks planted in the interchange. The purpose of this project is to replace trees that were removed during construction of the Hanford-Armona Rehabilitation project in order to fulfill mitigation commitments.	Neg	12/21/2016
2016112055	2016 Dunnigan General Plan Amendment and Rezoning (ZF 2016-0028) Yolo County --Yolo The project analyzed in this IS/ND is the adoption of amendments to the 2030 Yolo countywide general plan and to the Yolo county zoning code to remove all references to the Dunnigan specific plan. Dunnigan is a small unincorporated town of approximately 1,000 residents, located along I-5 in northern Yolo county, 19 miles north of Woodland. The Dunnigan Specific plan is one of five areas in unincorporated yolo county that is designated as a specific plan in the 2030 Yolo countywide general plan approved in November, 2009. (The other four specific plan areas are in Madison, Knights Landing, Elkhorn, and Covell areas) The designated specific plan areas are agricultural lands located outside the designated growth boundaries of existing unincorporated towns. The purpose of the general plan designation is to require that a specific plan be adopted prior to any urban development being approved in any of five locations.	Neg	12/22/2016

	widened or expanded.		
2016071081	Vintage Lofts Residential Project Tustin, City of Tustin--Orange Subdivide 6.81 acre lot into three parcels for condominium purposes to accommodate 140 for-sale residential units and ancillary uses (e.g., private drives, parking sidewalks, recreation uses and community center, walls and landscaping). The discretionary actions include approval of a General Plan Amendment, Zone Change, Planned Community Residential District standards, Tentative Tract Map and Development Agreement.	NOD	
2016102022	Pepperwood Preserve Vegetation Management Project Forestry and Fire Protection, Department of Santa Rosa--Sonoma Pepperwood Preserve is a 3,117-acre mosaic of Douglas-fir (<i>Pseudotsuga menziesii</i>) forests, oak (<i>Quercus</i> spp.) woodland, mixed hardwood forests, chaparral, and open grasslands. The Preserve supports over lack of low-intensity understory fires over the past century and minimal human or grazing activity. Small Douglas-firs have survived in the shade of oak forests to create an understory layer that could rapidly transfer a ground fire to the upper crowns of the dominant trees, likely resulting in stand replacement in the event of a wildfire. Pepperwood Preserve is actively treating forest understories across the property using hand crews to reduce ladder fuels and to pile and burn much of the dead and down material. As the Preserve completes this preliminary treatment in the forested areas, CAL FIRE will conduct understory prescribed burning activities to further reduce fuels and promote oak regeneration. The optimal time burn these forested understories is in fall, winter or spring when some rain has occurred to the point of dampening the fuels and surrounding area, but has not completely saturated fuels. Damp vegetation will aid in keeping fire behavior to a minimum, while still allowing high levels of fuel consumption when fuels are not saturated. Burn unit interiors will be ignited by drip torches and fusees. Firing will begin at the top of burn units and proceed down slope until a black line is created and the fire front has been sufficiently established to result in target fuel consumption. Test burns will be conducted on each burn day and will be located in a representative location within the project area. The test burn will be adequately sized to determine whether or not the project burn is feasible under ambient temperature, humidity and wind conditions, if smoke dispersal and direction are acceptable and within planned constraints, if fuel consumption is adequate to meet objectives, and if fire behavior will produce results within acceptable parameters. If the test burn does not produce the desired fire behavior, the fire will be suppressed and prescribed burning will not occur until conditions become favorable.	NOD	
2016119011	Lake Ranch (TTM 36730) Project (Streambed Alteration Agreement No. 1600-2015-0259-R6) Riverside County --Riverside CDFW has executed Streambed Alteration Agreement No. 1600-2015-0259-R6, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Christopher Homes. The Lake Ranch Project includes development of Tentative Tract Map (TTM) 36730, consisting of 272 residential lots on approx. 53.32 acres; a park site on 2.18 acres; three onsite water quality/detention basins totaling 3.18 acres, one offsite water quality basin totaling 30.25 acres; and circulation facilities	NOD

The area supports an outdoor school, summer camps, as well as numerous private homes.</p> <p>Middle Big Hill Shaded Fuelbreak Project SRA Grant Forestry and Fire Protection, Department of --Tuolumne</p> <p>The project area is located in northern Tuolumne County along Big Hill Road, approximately 5 miles northeast of the city of Sonora. Project area is defined as 150 feet either side of the Big Hill road. The eastern terminus is the property line between the Alderman Ranch and Sierra Glen Apple Ranch. The western terminus is the intersection of Big Hill Road and Old Oak Ranch Road in the eastern portion of Section 9. The project area ranges from approximately 3,400 feet to 3,600 feet in elevation above sea level. The project is located along Big Hill Road. The location is south of the main ridge dividing the Stanislaus River Canyon to the north and the more populated areas of Tuolumne County to the South. This road is a major avenue of egress and ingress for the area and critical for suppression efforts as well as health and safety to residents.</p>	NOE	
2016118304	<p>Crest Forest Fire Safe Demonstration Sites Forestry and Fire Protection, Department of --San Bernardino</p> <p>The Mountain Rim Fire Safe Council's (MRFSC) Crest Forest Fire Safe Demonstration Sites Project will assist a minimum of three homeowners who are in need of defensible space, or have received a citation under State (PRC 4291) and/or local (San Bernardino County Code Section 23.0304) defensible space clearance requirements, by creating defensible space on their property and using the sites as defensible space demonstration sites. The addresses of the demonstration houses are 210 Wylerhorn Drive Crestine; 24348 Lake Gregory Drive, Crestline, 22850 Azalea Lane, Valley of Enchantment; and 412 Long Beach Ave. Cedarpines Park CA. An open house event will be held by the MRFSC to provide tours of the properties and defensible space information and education.</p>	NOE	
2016118305	<p>North Sacramento Headwaters Fuel Reduction Forestry and Fire Protection, Department of --Siskiyou</p> <p>The project will involve of the installation of a 150 acre shaded fuel break approximately 5.5 miles in length and up to 600 feet in width. The project area is located on the north side of the community of Mount Shasta. The east side is within the city limits and residential development and extends west to follow the east side Interstate 5 for a short distance before continuing west through residential development in an unincorporated area adjacent to the city. Much of the area is characterized by a sparse to moderately dense, mixed conifer stand 80 to 100 years of age. The understory is composed of moderate to dense occurrences of brush species, conifer in-growth and moderate amounts of fine woody debris. A significant portion of the eastern half of the project area is characterized by moderate to dense thickets of brush species dominated by green leaf manzanita and bitter cherry.</p>	NOE

2016011004	<p>Suncrest Dynamic Reactive Power Support Project Public Utilities Commission --San Diego</p> <p>The Suncrest Dynamic Reactive Power Support Project proposed by NextEra Energy Transmission West, LLC would include two primary components: (1) a Static Var Compensator (SVC) facility, and (2) an approx. one-mile-long 230 kilovolt transmission line connecting from the SVC to the existing Suncrest Substation. The SVC facility would produce and consume reactive power and would be approx. 6 acres in total size. The transmission line would be installed primarily underground beneath Bell Bluff Truck Trial road, with the last approx. 300 feet of the line transitioning aboveground via an 85 to 95 foot pole to connect with the existing substation.</p>	EIR	01/06/2017
2016012012	<p>Foster City Levee Protection Planning and Improvements Project (Capital Improvement Project - CIP 301-657) Foster City Foster City--San Mateo</p> <p>The purpose of the project is to provide flood protection in accordance with updated FEMA guidelines and regain FEMA accreditation for its existing levee system. Current FEMA guidelines require the current levee elevation along the city's levee system to be raised to protect the city from flooding associated with levee overtopping from extreme high tides or storm surges. In addition, the improved levee system will be designed to adapt to future sea level rise while maintaining public access along the levee system and protections for sensitive species. The precise design and height of the project is not yet finalized; therefore, the environmental analysis studies two scenarios at an equal level, which would have different ranges of levee elevations/floodwall heights as needed to meet FEMA freeboard requirements and protect against future sea level rise. The two scenarios are: (1) FEMA Freeboard with Sea Level Rise for the year 2050, and (2) FEMA Freeboard with Sea Level rise for the year 2100.</p> <p>Based on currently available data, preliminary evaluations, and city council direction, the city anticipates that the project will utilize a combination of three different levee improvement types, depending on the location along the existing levee earthen levee, and (3) conventional floodwall.</p>	EIR	01/06/2017
2016041067	<p>Bundy Canyon Resort Apartment Project (PA 16-006) Wildomar, City of Wildomar--Riverside</p> <p>The project includes the proposed Bundy Canyon Resort Apartment Project, any on and off site supporting improvements, and associated discretionary action necessary to realize the development (Planning Application No. 16-0006). The project would result in up to 140 residential units on an approximately 28-acre site. Of the total acreage, approximately 10.5 acres will be developed, and approximately 17.5 acres will remain as open space, roadway dedications and exactions. Project includes a zone change from R-R (rural residential to R-3 (General Res).</p>	EIR	01/06/2017

2013112047	<p>Freeway Performance Initiative I-680 in Alameda County Caltrans #4 Fremont, Pleasanton, Dublin--Alameda</p> <p>This project proposes the installation of a ramp metering system for sixteen on-ramps/connectors along Route 680 in Alameda County from Scott Creek Road Undercrossing in the City of Fremont to Alcosta Boulevard Overcrossing in the City of Dublin. These on-ramps/connectors are also widened to provide for High Occupancy Vehicle (HOV) preferential lanes or additional mixed-flow lanes. There will be six retaining walls used for the widening. The project also proposes the installation of traffic monitoring stations for four connectors in the corridor.</p>	FIN	
2016111061	<p>ENV-2015-3999-MND / 815-831 S Kingsley Drive Los Angeles, City of --Los Angeles</p> <p>The construction of a new 6-story multi-family apartment building on a 26,613 square foot site containing 90 units with 8 units being allocated to very-low income household occupancy. The proposed project will include 150 parking spaces within 2 levels of subterranean parking. The project involves 16,760 cy of soil export. The property consists of 4, flat rectangular lots, measuring approx. 26,613 sf. The site is currently developed with 4 single family dwellings and 1 duplex. The project area does not have any trees onsite. The site is located in the Wilshire Community Plan Area, and is zoned R4-1 with a GPLUD of high medium residential.</p>	MND	12/22/2016
2016111062	<p>ENV-2016-3077-MND Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The project would involve the construction of a mixed-use development including 440 residential 22 units set aside for very low income households, and approximately 64,650 sf of commercial retail in three buildings. The retail uses would be located along the Woodley Avenue street frontage, with a proposed grocery store oriented along the San Fernando Mission Boulevard frontage. The proposed housing units would be located with two levels over the retail along Woodley Avenue, three levels over the grocery store, and four levels over the parking garage at the northwest corner of the property. The project would provide a total of 937 parking spaces: 585 for residents provided below ground and 352 for commercial patrons in subterranean and surface spaces. The project would also provide a total of 548 bicycle parking spaces.</p>	MND	12/22/2016
2016112056	<p>Tracy Recycled Water Project Tracy, City of Tracy--San Joaquin</p> <p>The proposed project would initiate the use of recycled water in and around the city of Tracy. The source of the recycled water would be treated wastewater from the city of Tracy Wastewater Treatment Plant. The project includes the construction of modification to the existing WWTP needed to produce and deliver recycled water, a series of (predominantly underground) recycled water pipelines to deliver the recycled water, and two pump stations. This infrastructure would be used to deliver recycled water for approved uses within Tracy and nearby unincorporated San Joaquin County.</p>	MND	12/22/2016

2016112057	<p>PacifiCorp Lassen Substation Project Public Utilities Commission Mount Shasta--Siskiyou</p> <p>The proposed project is located in city of Mount Shasta and in unincorporated Siskiyou County. The proposed project consists of the demolition of the existing Mount Shasta Substation, construction of the new Lassen Substation, and pole replacement and reconductoring activities. The existing and proposed substations are located to the west in I-5 and the pole replacement, and reconductoring activities would occur both on the west and east of I-5 in the south central portion of unincorporated Siskiyou County. Existing transformers in the Mount Shasta substation would be replaced with 12.47 kV transformers in the new Lassen Substation, which in turn would require the existing 4.16 kV distribution lines that currently supply the city to be upgraded to 12.47 kV distribution lines. To accommodate the additional weight of the new distribution lines and maintain compliance with title 8 of the California code of regulations and CPUC General order 95, 36 wooden poles along the existing 69 kV transmission line running to the northwest and southeast of the proposed substation would be replaced and the existing 69 kV transmission line would be transferred to the new poles. Implementation of the proposed improvements would help ensure PacifiCorp that all equipment and structures comply with current company, state, and federal standards, including the replacement of aging and non-standard equipment and the removal of sulfur hexafluoride distribution breakers, ensure a reliable ongoing electricity supply to the area currently served by the Mount Shasta substation; and facilitate regional bulk transmission voltage stability and improve bulk power transfer across the region.</p>	MND	12/22/2016
2016112059	<p>Boeger Commercial Building (PLN16-00071) Placer County --Placer</p> <p>The project proposes a minor use permit to redevelop the site in order to construct a 16,100 sf commercial warehouse and 20 parking spaces. The office use of the structure would occupy approximately 2,870 sf. 13,230 sf of the structure would be utilized as a construction contractor warehouse. An existing 4,100 sf commercial structure will be demolished.</p>	MND	12/22/2016
2016111060	<p>661 Bear Valley Parkway Residential Development (Project No. SUB 15-0002) Escondido, City of Escondido--San Diego</p> <p>The residential development would entitle a new single-family residential subdivision consisting of 55 residential lots ranging from approx. 10,000 sq. ft. to 24,500 sq. ft. The residential development also includes eight open space lots (Open Space Lots "A" to "H") that total 20.02 acres. The residential development would provide half-width frontage improvements on the eastern side of Bear Valley Parkway which would include adding a north-bound travel lane for approx. 2,600 feet as well as a curb, gutter, sidewalk, parkway, and bike lane. The specific Alignment Plan (SAP) identifies full-width improvements for improvements for Bear Valley Parkway from Sunset Drive to the City boundary, including the reconfiguration of the Bear Valley Parkway/Encino Drive intersection.</p>	NOP	12/22/2016

2016112058	Museum Place Mixed Use Project (File No. H16-024 and T16-024) San Jose, City of San Jose--Santa Clara Site Development Permit to allow the demolition of Parkside Hall to construct a 24-story, mixed-use high rise with up to 306 residential units, 187 hotel rooms, 209,779 sq. ft. of office use, 14,116 sq. ft. of retail space, and 60,000 sq. ft. of additional museum space and a Tentative Map Permit to reconfigure 25 parcels into three lots for a mixed use building, all on a 2.33 gross acre site (File Nos. H16-024 and T16-024).	NOP	12/22/2016
2006031050	New 5-MG Reservoir in the City of Calimesa Yucaipa Valley Water District Calimesa--Riverside SWRCB, as the responsible agency, will be issuing a water supply permit. Yucaipa Valley Water District constructed a partially buried 6 million gallon, 24 foot by 186 foot reservoir (R-12.4) on an already graded 5 acre parcel of land. A 1,131 foot, 24 inch cement mortar lined steel pipe was installed from the current water system to the tank and a 446 foot, 30 inch cement mortar lined steel pipe was installed from the tank to the water system. The tank will store water for the city of Calimesa, including the developments of Sincal, Oak Valley Partners, Mesa Verde Estates, and Northlight. The project will provide for the operation of these facilities.	NOD	
2013081079	Revisions to the Kern County Zoning Ordinance - 2015 C. Focused on Oil and Gas Local Permitting Kern County --Kern The originally approved project consists of an amendment to Title 19 Kern County Zoning Ordinance (July 2012), with focus on Ch. 19.98 (Oil and Gas Production), to include new site development standards for all oil and gas exploration, extraction, operations, and production activities in unincorporated Kern County. DOGGR, as the Responsible Agency, will be issuing a permit for the proposed project activity, which consists of the following: Aera Energy LLC (Aera) proposes to hydraulically fracture 13 wells (see table above), which is expected to take about 3 days per well, including placement of portable tanks and all ancillary equipment to support the closed loop system, as well as the well stimulation treatments (WST). The existing wells are in a densely developed oilfield (Lost Hills) and there will be no new ground disturbance or expansion of existing facilities associated with this project. Fluids from the WST will be collected in a closed system.	NOD	
2013112047	Freeway Performance Initiative I-680 in Alameda County Caltrans #4 Fremont, Pleasanton, Dublin--Alameda This project proposes the installation of a ramp metering system for sixteen on-ramps/connectors along Route 680 in Alameda County from Scott Creek Road Undercrossing in the City of Fremont to Alcosta Boulevard Overcrossing in the City of Dublin. These on-ramps/connectors are also widened to provide for High Occupancy Vehicle (HOV) preferential lanes or additional mixed-flow lanes. There will be six retaining walls used for the widening. The project also proposes the installation of traffic monitoring stations for four connectors in the corridor.	NOD

2014092019	<p>Big Lagoon Slipout Repair "Big Lagoon Wall" Caltrans #3 --Humboldt</p> <p>The applicant is seeking approval of a Coastal Development Permit and Special Permit for Design Review for improvements to Hwy 101 in the Big Lagoon area at post mile (PM) 111.3 through to PM 111.7. Improvements to Hwy 101 in the Big Lagoon area at PM 111.3 through to PM 111.7. Improvements will include reconstruction of the southbound lane and shoulder and associated drainage elements. Three structures are proposed to restore and stabilize the project area: one timber lagging soldier pile ground anchor wall and two anchored pile systems. Temporary access roads will be constructed at each structure location. One-way controlled traffic with a temporary signal system will be used throughout construction. There will be two staging areas in the vicinity of Kane Road: one at PM 111.8 and another at PM 111.7. At PM 111.4 an existing 18-inch culvert and downdrain will be replaced with a new 24-inch culvert and downdrain. Any excess soils from construction will be disposed of at a commercial disposal site. Construction is expected to be approx. 290 working days over two construction seasons. Upon completion of construction the temporary access roads will be removed, regraded, and replanted with native vegetation to match adjacent conditions.</p>	NOD	
2015112025	<p>Land Park Commercial Center Project Sacramento, City of --Sacramento</p> <p>The project includes development of a mix of retail uses on an approx. 10-acre site in the South Land Park neighborhood. The project includes a 55,000 sq. ft. full service Raley's grocery store (including a pharmacy) to be occupied by the existing Raley's grocery store currently located just south of the project site at 4850 Freeport Blvd. It would include decor and merchandise that is state-of-the-art with the most modern and innovative displays and equipment of any store in the chain. The exterior would include high-quality building materials unique to this location. In addition to a Raley's grocery store the project proposes to construct an additional six buildings to include 53,165 sf of retail space for a total of 108,165 sf.</p>	NOD	
2016092059	<p>Trout Creek Stream Restoration Phase II Project Shasta Valley Resource Conservation District --Siskiyou</p> <p>The STNF in partnership with adjoining private landowners Sierra Pacific Industries and Olympic Resource Management is proposing to implement a second phase of restoration activity needed to meet objectives initially proposed in the Trout Creek Stream Restoration Project EA (2005 STNF) with a new understanding of multiple channel morphology in the Lower Trout Creek Meadow. The proposed design modification to the original 2006 Trout Creek Stream Restoration project will restore the historic hydrologic character of Trout Creek through the meadow by releasing physical constraints to floodplain waters. To effect this change back to a historical system, three principal activities are proposed as described in the IS/ND.</p>	NOD

	and Tax APN 147-0-060-055 for use in conjunction with an existing water supply, storage, and distribution system on Tax APN 147-0-024-050, for a period of 40 years (i.e. until 2056). The proposed additional infrastructure is necessary to: (a) replace a water supply well currently idled by drought; and (b) bring the existing system into compliance with current applicable codes. The SMWC is a non-profit mutual benefit water supply corporation, which currently provides connections to residential and commercial customers within the SMWC defined service area.		
2016112060	Vineyard South Mining Use Permit Sacramento County --Sacramento 1. A use permit to allow surface mining on eight parcels totaling 169.6 acres. The mining will excavate approximately 146 acres. 2. A use permit to allow a conveyor system to transport the mined materials across adjacent parcels to an off-site processing plant. 3. A rezone to add the surface mining combining zone to 164.6 acres of M-1, M-1(F), IR, and IR(F). 4.. A Rezone to add the Surface mining Combining Zone to 164.6 acres of M-1 (Light Industrial), M-1(F) (Light Industrial and Flood Combining Zone), IR (Interim Agricultural Reserve), and IR(F) (Interim Agricultural Reserve and Flood Combining Zone. Note: Request Number three, the AR-2 to M-1 Rezone is included in the M-1 zone portion of the Surface Mining Combining Zone Rezone. 5. A reclamation plan to include open space, non-prime agricultural, and/or other uses allowed under the zoning of the site as the end of the mine. 6. A development agreement between the applicant and the county of Sacramento.	NOP	12/28/2016
2013032022	One-year time extension for previously approved Religious Assembly site approval (PA-0800168) San Joaquin County Stockton--San Joaquin A one-year time extension application for a previously approved site approval application to convert an existing school into a neighborhood religious assembly in two phases over 3 years. The project will have a max of 249 members. Phase one is the conversion of an existing 3,600 sf school building into a religious assembly. Phase two, with building permits to be issued within 3 years, is the construction of a 1,875 sf attached storage building. The project will also use an existing 2,400 sf classroom and office building, a 3,060 sf cafeteria building, a 4,514 sf classroom building, a 800 sf storage building, a 500 sf commercial coach, and a 1,854 sf single family residence. 	Plan (MGT16-008).		
2016092007	Mammoth Creek Gap Closure Project Mammoth Lakes, City of Mammoth Lakes--Mono The proposed project involves the construction of a Class 1 multi use path that will be designed to connect from Minaret Rd to an existing MUP on the west side of Minaret Rd. The MUP will run east-west, paralleling Old Mammoth Rd on the south side of Mammoth Creek and to the north of Old Mammoth Rd. The MUP will be ten ft wide and compliant with Caltrans and Americans with Disabilities Act Requirements. The path will be paved with asphalt of sufficient strength to support snow removal. Additional improvements include the installation of a pedestrian activated signal across Minaret Road, installation of safety lighting adjacent to the path, and the replacement of an existing pedestrian bridge crossing Mammoth Creek, using the existing abutments and requiring no excavation.	NOD	
2016092014	Milliken Creek Flood Reduction and Fish Passage Improvement Project Napa County --Napa Project is limited to removing an existing summer impoundment dam on Milliken Creek and implementing creek restoration and enhancement activities in the same area. The project is located on Milliken Creek at 1600 Atlas Peak Road in unincorporated Napa County, CA. The site is located immediately behind the Silverado Mansion or Club House, extending approx. 600 linear feet downstream from the existing dam berm. The CDFW is executing Lake and Streambed Alteration Agreement No. 1600-2016-0015-R3 pursuant to section 1602 of the Fish and Game Code to the project Applicant, Richard Thomasser, Napa County Department of Public Works.	NOD

2014011009	San Gorgonio Crossings SAN GORGONIO CROSSING - ENVIRONMENTAL IMPACT REPORT (EIR NO. 534) GENERAL PLAN AMENDMENT (GPA NO. 1079) CHANGE OF ZONE (CZ NO. 7799), PAR Riverside County --Riverside Note: Review Per Lead	EIR	01/18/2017

The county of Riverside planning department will serve as the lead agency under CEQA and will coordinate the public review of an EIR that will evaluate the potential significant environmental impacts that may result from the proposed project. TSG Cherry Valley, LP (project proponent) is proposing to process the above referenced entitlement actions through Riverside county in order to develop PP 25337 which is an industrial distribution facility consisting of two industrial buildings totaling 1,823,760 sf, with 300 bay doors, located on 230 gross acres, of which approximately 144 acres would be developed. The proposed GPA would revise the land use designation from community development: very low density residential and rural: rural mountainous to community development: light industrial community development: public facility and open space: open space recreation and rural: rural mountainous. The change of zone proposes to change the existing zoning from controlled development areas to industrial park. The parcel map proposes to subdivide 228 gross acres into four parcels. The property is located northerly of Cherry Valley Blvd, easterly of I-10 and westerly of Vineland St, within the Cherry Valley Policy Area, Cherry Valley Gateway Policy Area and the Pass Area Plan. APNs 407-220-004, 007, 008, 009, 014, 016, 017 and APNs 407-270-012, 407-270-013 are not part of the project, but are part of improvements related to the project.

2016022055	<p>Silicon Valley Clean Water Wastewater Conveyance System and Treatment Plant Reliability Improvement Project Silicon Valley Clean Water --San Mateo</p> <p>The project would implement portions of SVCW's Capital Improvement Program (CIP) to ensure reliability of the conveyance system and the WWTP. The proposed Project comprises the majority of project budgets in the CIP. The proposed Project is made up of several components, each consisting of specific improvements and upgrades to the conveyance system and the WWTP, as listed here: Tunnel and Gravity Pipeline, Receiving Lift Station, WWTP Headworks Facility, Influent Connector Pipe, Flow Diversion Structure, Belmont Force Main and Belmont Pump Station Rehabilitation, San Carlos Odor Control Facility, Redwood City Pump Station Replacement, Menlo Park Pump Station Rehabilitation, Nutrient Removal Facilities and Clarifiers.</p>	EIR	01/12/2017
2016111066	<p>N. Valencia Boulevard Improvement Project Woodlake, City of Woodlake--Tulare</p> <p>The city of Woodlake proposes to construct the project at the north of the intersection of North Valencia Blvd/SR 245 and Whitney Ave, extending north along North Valencia Blvd/SR 245 to Sierra Ave. The project will provide pedestrian and bicycle improvements to and from school sites in Woodlake. The project improvements consist of the construction of sidewalks, curbs, gutters, ADA compliant ramped returns, and Class II bike lanes. Improvements also include the construction of sidewalks only on the north and south sides of Sierra Ave, west of the intersection; north side of Sierra Ave, east of the intersection; and on the east side of North Valencia Blvd/SR 245, north of Sierra Avenue.</p>	MND	12/28/2016
2016111067	<p>Medical Investors Group LLC - Medical Cannabis Facility - PM 19300 Needles, City of Needles--San Bernardino</p> <p>The applicant, medical investors group, LLC is proposing to construct a medical cannabis cultivation and manufacturing facility on 7.13 acres zoned C-3 Highway commercial within the city of Needles. The project site is located within an approved final parcel map (PM 19300) which includes five parcel lots. On lot 1 of PM 19300, the applicant will construct two buildings: 1) a two-story, 13,760 sf building to serve for office management and for manufacturing involving cannabis extraction, and 2) a 20,000 sf single story building to be used for cannabis cultivation activities for parcels 2 through 5.</p>	MND	12/28/2016
2016114004	<p>Redding Rancheria Fee-to-Trust and Casino Project Bureau of Indian Affairs Redding--Shasta</p> <p>The proposed action is the acquisition of ~232 acres of fee land in trust by the United States upon which the Redding Rancheria Tribe would construct a casino resort. The facility would include an ~140,000 sf casino, 250-room hotel, event/convention center, retail center, parking, and other supporting facilities. The new facility would replace the Tribe's existing casino, and the existing casino buildings would be converted to a different use. The proposed trust property is bound by Bechelli Land on the north, private properties to the south, the Sacramento River on the west, and Interstate 5 on the east.</p>	NOI	12/29/2016

The project proposes to demolish several existing industrial-office buildings, retain two existing office buildings, and develop one new 234, 247-sf office building. The project proposes up to 650 market rate residential units and 200 subsidized units. Below- and at-grade parking structures are also proposed. The project proposes to extend a new public street from Pear Avenue to Spark Park Way, and extend a segment of the existing Pear Avenue right of way to the eastern boundary of the site. The project will include installation of new utilities, landscaping, driveways, and other site improvements.</p>	NOP	12/28/2016
2015102012	<p>Revised - Short-Lived Climate Pollutant Reduction Strategy Air Resources Board --</p> <p>Note: Revised/Recirculated Functional Equivalent Document & Review Per Lead</p> <p>This is a revised/recirculated document. Short-lived climate pollutants are powerful climate forcers that remain in the atmosphere for a much shorter period of time than major climate pollutants such as carbon dioxide (CO2). Their relative potency in terms of how they heat the atmosphere can be tens to thousands of times greater than CO2. Short-lived climate pollutants include black carbon, methane, and fluorinated gases, including hydrofluorocarbons. The impacts of short-lived climate pollutants are especially strong within the near term. Reducing these emissions can have an immediate beneficial impact on climate change. Senate Bill 605 (Lara, Chp 523, Statutes of 2014) requires ARB, in coordination with other State Agencies and local air districts, to develop a strategy to further reduce short-lived climate pollutant emissions in CA.</p>	Oth	01/17/2017

A new Riding and Hiking Trail (approximately 1.75 miles) would be located parallel to the existing SAR Class I Bikeway that is located on the southern bank of the SAR, adjacent to SR-91. A new parallel Class I Bikeway and Riding and Hiking Trail would extend through a portion of the existing Green River Golf Course toward the BNSF Railroad, where the alignment would then follow the BNSF Railroad eastward to the Orange/San Bernardino County boundary. This new parallel Class I Bikeway and Riding and Hiking rail would start approx. 0.15 mile upstream from the Coal Canyon off-ramp in Chino Hills State Park. Additionally, a new parallel Class I Bikeway and Riding and Hiking trail would extend eastward from Gypsum Canyon Road Bridge on the northern bank of the SAR, adjacent to LA Palma Avenue. Three bridges (narrow/non-vehicular) will be constructed. Two of those bridges will cross the Santa Ana River and will connect the new Class I Bikeway, the new Riding and Hiking Trail, and the existing SAR Class I Bikeway. The proposed project will include other design features such as a staging area, trailheads, turnouts, and vista points.</p>	NOD

2016041058	<p>Project Jupiter Distribution Warehouse Apple Valley, City of Apple Valley--San Bernardino</p> <p>The proposed 106.5 acre parcel to accommodate a 1,360,875 sq. ft. distribution center and associated ancillary facilities. The distribution warehouse will consist of a single, 45 foot high building consisting of primarily of warehouse space. Ancillary office space, including administration, shipping and receiving offices, are included in the building envelop. Separate guard house (510 sq. ft.) and fire pump house (1,080 sq. ft.) building are proposed on the east side of the site, at the project entrance. Parking areas, located on the east and south sides of the site. The site plan has also been designed to include storm water retention facilities on the west side of the site.</p> <p>Project also includes off-site improvements. These include roadway improvements to Navajo Road, Lafayette Street, and Dachshund Avenue; water main relocation and extensions on the frontage roadways; and undergrounding of power lines on Navajo Road.</p> <p>The proposed project occurs within the boundary of the North Apple Valley Industrial Specific Plan, which was adopted by the Town in Oct. of 2006. At that time, the town also certified an EIR for the entire Specific Plan.</p> <p>The Town has then prepared a subsequent MND/IS for the Project Jupiter Distribution Warehouse project, which tiers off of the Specific Plan EIR (SCH#2006031112). This EIR was prepared to review the environmental constraints and opportunities associated with imposing mitigation measures, the EIR was designed to be used as an information database to facilitate the streamlining, or tiering of the environmental review process for subsequent projects proposed within the Specific Plan boundary.</p>	NOD

2016112065	Town of Windsor General Plan Update Windsor, City of Windsor--Sonoma Note: Review Per Lead	NOP	01/16/2017
	The town adopted its first general plan in 1996 to provide a roadmap for future land use development in the newly incorporated community, and the town has changed accordingly over the last 20 years. Building on the current general plan, the 2040 general plan updates the current needs, values, and preferences of the community. It identifies and prioritizes opportunities to preserve the small town character of the community; conserve public spaces and resources; maintain economic vitality and balance; and direct land use policies addressing land use compatibility and development intensities and implementing programs focusing on the development of design guidelines and new zoning provisions. The 2040 general plan emphasizes infill development within the town limits, allows for limited growth at the town's edge, and supports land uses that are rural and agricultural beyond the town's voter-approved urban growth boundary. New development would occur primarily where existing roads, water, and sewer are in place and in a manner that minimizes the impact of development on existing infrastructure and services. The 2040 general plan provides the policy framework to guide future development toward land uses that support walking, biking, and transit ridership.		
2016112062	General Plan Amendment 16-03, Zone Change 16-04, Environmental Assessment 16-01: City of Placerville General Plan Land Use and Zoning Map Amendments - Housing Placerville, City of Placerville--El Dorado The project would amend the general plan land use designation and zoning classification for APN 323-570-01 and 323-570-37, designating the two vacant and adjoining parcels with the housing opportunity overlay land use and zoning that would have the capacity to generate a min of 20 dwelling units per acre density up to a max density of 24 dwelling units per acer. The city of Placerville is proposing these changes that would provide land inventory and regulatory provisions that are necessary to accommodate the 2013-2021 housing element (5th cycle) planning period unmet regional housing needs assessment allocation need of 133 units for low, very low and extremely low income households.
