# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1-15, 2007.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2006**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2005121074	<p>Travelodge Hotel Project (1515-25 Ocean Avenue and 1530 2nd Street) Santa Monica, City of Santa Monica--Los Angeles</p> <p>The proposed Travelodge Hotel project would involve demolition of the existing Pacific Sands and the Santa Monica Beach Travelodge motels at 1515-25 Ocean Avenue and 1530 2nd Street and construction of a 4-story, 45 foot high, 89,990 square foot hotel with 164 guest rooms, a 750 square foot meeting room, a 370 square foot exercise room, outdoor swimming pools and spa pool, 3,270 square feet of ground floor retail space (on 2nd Street) and a 4-level 296-space subterranean garage on the 45,000 square foot site. The project would consist of 2 buildings connected at the upper levels by a pedestrian bridge across 1st Court alley. Of the 296 parking spaces 96 would be in excess of code requirements and would be available to the public at rates commensurate with current market values. Vehicular access to the site would be via Ocean Avenue, vehicles would exit via 1st Court alley.</p>	<b>EIR</b>	11/14/2007
2005052136	<p>Teichert Marysville Surface Mining Permit Modification and PG&amp;E Infrastructure Improvements Project Yuba County Marysville--Yuba</p> <p>Teichert Aggregates is proposing alterations to the previously approved Marysville Mining Project. Alterations include: production capacity increase; alterations to phasing plan; flexible locations for test plots, overburden, and stockpiling; and revisions to waste discharge requirements.</p>	<b>FIN</b>	10/17/2007
2007102004	<p>Trancas Crossing Park and Napa River Trail Napa, City of Napa--Napa</p> <p>The project includes the establishment of a new 33-acre park along the Napa River and a trail connection to an existing segment of the Napa River Trail. The park and trail extension will provide riparian restoration and other habitat protection and enhancement measures, open space and floodplain protection, access to open space, walking and bicycling trails connecting to a city-wide trail system, a canoe/kayak put-in, natural resource information through interpretive features, and a new trailhead at the northern terminus of the Napa River Trail.</p> <p>The project would require the City of Napa to annex the project site which is currently located outside the City's Sphere of Influence and process a General Plan Amendment and zoning code update. Additionally, the project includes annexation of the trailhead area to the Napa Sanitation District.</p>	<b>MND</b>	10/30/2007
2007102005	<p>Lawer Timber Conversion Sonoma County Permit and Resource Management Department Calistoga--Sonoma</p> <p>Request for a Zoning Permit for a Minor Timberland Conversion of less than three acres on a 37.24-acre parcel for expansion of a vineyard.</p>	<b>MND</b>	10/30/2007

## CEQA Daily Log

2007102008	Peeples Special Permit (SP-06-41) for Vegetation Removal in Wetland and Wetland Buffer Area Humboldt County Community Development Services --Humboldt A Special Permit for remedial measures to mitigate for the non-permitted removal of vegetation in a wetland buffer area which are subject to the County's Streamside Management Area Ordinance. An approximate area of 200 feet within the wetland was disturbed. The applicant removed herbaceous plants and small shrubs. Large shrubs and tree species were not removed. Approximately 5 cubic yards of fill (debris from the vegetation removal) was placed into the wetland buffer area. The Special Permit includes measures to mitigate for the non-permitted work including replanting and erosion control. The approximately 12,600 square foot lot is currently vacant. A building permit has been issued for a single family residence that is principally permitted. The parcel will be served by community water and sewer.	<b>MND</b>	10/30/2007
2004111015	Shafter-Wasco Sanitary Landfill Permit Revision Project Kern County Waste Management Department Shafter, Wasco--Kern (A) Revise Solid Waste Facility Permit to change boundary from 160.61 acres to 357.48 acres; increase permitted elevation of the landfill; increase permitted capacity of the landfill; (B) General Plan and Appendix E Map Amendment from 8.1 to 3.4.1 for up to 196.87 acres for landfill buffer; (C) amend the legal description of the CUP #1, Map #78 to include additional buffer lands within the permitted facility boundary; (D) petition for exclusion from Agricultural Preserve #8 for 407.69 acres; (E) file Non-Renewal of Williamson Act Contract for landfill buffer areas (247.08 acres) and file a cancellation for a portion of those buffer areas (89.81 acres), and; (F) record a Redundant Deed or Lot Line adjustment to merge the multi-parcel site into one.	<b>NOP</b>	11/18/2007
2007101001	Rancho Workforce Housing Rancho Cucamonga, City of Rancho Cucamonga--San Bernardino The project proposes a General Plan Amendment and Zone Change for approximately 17 acres. The General Plan Amendment will change the designation from General Commercial to Mixed Use while the Zone Change will result in a change of zoning from Community Commercial to Mixed Use. The proposed project includes a development application on a 10.54 acre portion of the project area for the construction of 166 apartment units named Rancho Workforce Housing. The western 5 acre of the 17 acre project site are conceptually planned for restaurant, office, and commercial space. There are no current development applications or plans pending on the western 5 acres; however, for the purposes of environmental documentation, the future uses anticipated for the 5-acre portion of the site have been assessed and included as part of the proposed project. Within the 5-acre area, 25,000 square feet of office space, 16,000 square feet of retail shops, and a pad for a 5,000-square foot restaurant are conceptually proposed. The balance of the site includes an approximately 1.5 acre parcel containing a restaurant. Within the project area two existing residences will be removed and an existing tire shop will be demolished as part of the project.	<b>NOP</b>	10/30/2007

2007101002	<p>Conditional Use Permit No. 2007-03/Coso Operating Company LLC (Coso Hay Ranch Water Extraction, Export, and Delivery System) Inyo County Planning Department --Inyo</p> <p>The proposed project includes pumping of water from Coso Hay Ranch in Rose Valley to provide fluid to the geothermal field in the China Lake Naval Air Weapons Center. Water will be withdrawn from two existing wells at the Coso Hay Ranch property at an average rate of 3,000 gallons per minute (gpm), or approximately 4,800 acre-feet per year (each well will have a down-hole shaft-driven pump with a capacity of 2,000 gpm, and will be pumped for 18 hours per day). Power for the proposed project is proposed to be supplied by a new 3 mega watt (MW) substation to be constructed by Southern California Edison (SCE) adjacent to the pumping equipment on the Hay Ranch property (the existing dilapidated mobile home and equipment shed will be removed). There will also be prefabricated 16' x 10' mechanical-electrical equipment building constructed near the pumping equipment. The substation will have security lighting of a low intensity and low sodium type, which will be photo sensor controlled. Maintenance lighting will have high pressure sodium lights controlled by a manual switch which is left in the "off" position except for emergency night maintenance or operations. Landscaping and an automatic irrigation system around the substation will be installed by a certified licensed landscape architect and will be designed to filter views from nearby residences and commercial areas. An 8-foot high chain link/barbed wire fence will enclose the facility.</p>	<b>NOP</b>	10/30/2007
2007101004	<p>2701 N. Harbor Drive Demolition Project (UPD 83345-EIR-713) San Diego Unified Port District San Diego--San Diego</p> <p>The Proposed Project Site is presently leased to the San Diego County Regional Airport Authority pursuant to Port District Document No. 49654 ("Lease"). The existing buildings that formerly contained aviation manufacturing facilities are in a state of disrepair and are proposed to be demolished to allow for the use of the Site for the purposes allowed in the lease and in Aviation Related Industrial Subarea 25 of the certified Port Master Plan.</p>	<b>NOP</b>	10/30/2007
2007102011	<p>Tahoe Valley Community Plan South Lake Tahoe, City of South Lake Tahoe--El Dorado</p> <p>The proposed project is a Community Plan for the Tahoe Valley area. The Tahoe Valley Community Plan (TVCP) would establish new development standards for a 335-acre area in the southwest corner of City of South Lake Tahoe centered on the US 50 and SR 89 "Y" intersection. The TVCP would establish land use and zoning standards and guidelines that would replace the Tahoe Regional Planning Agency's Planning Area Statement #110, South Y. The new plan will serve as a mutual plan for TRPA and the City by providing direction for how the area should be regulated to achieve regional environmental and land use objectives. The TVCP would help achieve the vision of the community in the region by implementing its guiding principals through revisions to land use regulations, development standards, and community design standards. It would encourage specific types of new development through incentives to help revitalize the community's economy, improve its aging infrastructure, diversify its local tax base, and ultimately protect the community's quality of life. The document will include equal analysis of four alternative land use mixes for the Community Plan.</p>	<b>NOP</b>	10/30/2007

2007101005	Approval of Proposed Cleanup Remedies for Soil and Groundwater at Former Pure-Etch Company Site, Salinas, California Toxic Substances Control, Department of Salinas, Monterey--Monterey The project consists of issuing a Negative Declaration for the proposed cleanup remedies for soil and groundwater at the former Pure-Etch Company site and to approve the Corrective Measures Study (CMS) Report. Pure-Etch has been subject to the Department of Toxic Substances Control's (DTSC) Corrective Action Consent Agreement for releases of gasoline contamination in soil and groundwater in a small area at the site beneath the closed-in-place underground storage tank. DTSC has identified the dual-phase extraction (DPE) as the preferred technology to properly remove the chemical constituents of gasoline contamination, such as benzene, toluene, ethylbenzene and xylenes (BTEX), 1,2-dichloroethane, ethylene dibromide and naphthalene in the soil and groundwater. Removing the petroleum hydrocarbon contamination that is present in the vadose zone will remove the source of groundwater degradation via leaching of contaminants to the groundwater. To ensure that the site's land use is not changed, an administrative measure such as the Land Use Covenant, an annual site inspection and periodic groundwater monitoring will also be added to the remedy selected.	<b>Neg</b>	10/30/2007
2007102001	Creekside Estates Orland, City of Orland--Glenn The Creekside Estates project is made up of 11.4 acres located adjacent to the City's mid-northern boundary. Development contemplated within the project area would consist of residential (low density) and open space.	<b>Neg</b>	10/30/2007
2007102002	Sunrise Oaks Subdivision Map and Affordable Housing Plan Sacramento County Galt--Sacramento 1. A Tentative Subdivision Map to divide 6+/- acres into 19 lots on property zoned SPA (Walnut Grove - 504-20) and AR-2 (F) (road location). 2. An affordable Housing Plan that consists of payment of in-lieu and affordability fees.	<b>Neg</b>	10/30/2007
2007102003	Todd Brothers Winery Sonoma County Permit and Resource Management Department --Sonoma Request for a modification to a previously approved Use Permit to add a 1.5 acre-foot process wastewater treatment pond for a winery which would produce 35,000 cases per year.	<b>Neg</b>	10/30/2007
2007102006	Carlotta County Occasions Conditional Use Permit and Lot Line Adjustment for Outdoor Special Events (CUP-06-29/LLA-06-31) Humboldt County Community Development Services --Humboldt A Lot Line Adjustment between APN 206-101-28 and 206-101-41 to result in Parcels 1 and 2 of approximately 9.79 and 40 acres respectively. Approximately 4 acres will be exchanged from Parcel 1 to Parcel 2. Parcel 1 is developed with a single family residence. Parcel 2 is currently developed with a single family residence, a garage, two barns, and a gazebo. The Lot Line Adjustment will place the barn that currently straddles both parcels onto Parcel 2 and will address access issues. The LLA does not affect the TPZ portion of the property. 	<p>Conditional Use Permit is also requested for the operation of seasonal outdoor public events venue on the reconfigured Parcel 2. The plan of operation proposes a maximum of 300 guests with events held Friday through Sunday May 15 to October 15. The hours of operation will be 10 am to 10 pm. The parcel is served by on site septic and water. An additional sewage disposal system will be installed and a permanent bathroom facility will be constructed to service the events. No trees are proposed to be removed and minimal grading is required. No new development is proposed for Parcel 1.</p>		
2007102007	<p>PWM Inc. / metroPCS Special Permit (SP-06-59) for a 120 Foot Tall Cellular Communication Tower Humboldt County Community Development Services Fortuna--Humboldt</p> <p>A Special Permit is required for a cellular communications tower, which will exceed the allowed 35-foot height limit in the Agricultural General zone. The proposed tower will be 120 feet tall. The tower will be a monopole or lattice design without top lighting. Electrical service to the site will be by cable from an existing PG&amp;E pole located adjacent to the Site. Six panel antennas are planned at the top of the tower and no microwave antennas (dishes) at this time, with the potential to accommodate three more sets of panels. The applicant has leased 3,600 square feet on the subject parcel which will be served by a 20 foot access easement off of an existing private road to the site. The lease area will be surrounded by a 6 foot high chain link fence with barbed wire on top. It is proposed that Cellular Equipment Cabinets be located adjacent to and on the tower concrete slab. Other providers will be able to co-locate on this tower and place additional cabinets within the leased area. A Building Permit and cumulative RF Study will be required of this applicant and each future provider in order to co-locate. The parcel is currently partially developed with a residence, outbuildings, and miscellaneous improvements.</p>	<b>Neg</b>	10/30/2007
2007102009	<p>Wiedemann Minor Subdivision Humboldt County Community Development Services Arcata--Humboldt</p> <p>A minor subdivision of an approximately 12-acre parcel into two parcels of approximately 5 and 7 acres respectively. The property is currently undeveloped. On-site wastewater treatment systems are proposed for both parcels and an existing spring will provide water to both parcels. No trees are proposed to be removed and no grading is proposed.</p>	<b>Neg</b>	10/30/2007
2007102010	<p>Astor Subdivision Fortuna, City of Fortuna--Humboldt</p> <p>Subdivision of a 6.96-acre parcel into 24 single-family lots ranging in size from 6,000 to 36,177 square feet.</p>	<b>Neg</b>	10/30/2007
1998101060	<p>Heschel West School Project 98-062 (CUP) Los Angeles County Department of Regional Planning Agoura Hills--Los Angeles</p> <p>Private, religious elementary and middle school for up to 750 students with classrooms, libraries, auditorium, cafeteria, staff offices, parking areas, athletic facilities and gymnasium (total square footage about 166,450).</p>	<b>SIR</b>	11/14/2007

2007071090	Construction of Whitegates Reservoir No. 2 Riverside, City of Riverside--Riverside The Whitegates Reservoir No. 2 Project (Project) consists of the construction of a 4.0 million-gallon (MG) underground potable water storage reservoir with a service road, and decommissioning of an existing reservoir. In addition, the Project includes the installation of pipeline to the new reservoir.	<b>NOD</b>	
2007071131	Santa Monica Place Remodel Santa Monica, City of Santa Monica--Los Angeles The proposed project would involve the remodel of the existing enclosed mall shopping area and the retention of the two anchor department stores and two parking structures. The remodeled area will be three levels in height and will accommodate retail and restaurant uses. The proposed remodel would result in a shopping center of 586,453 square feet of building area (a reduction from the existing 677,209 square feet) and remove the portion of Parking Structure which currently overhangs a section of the mall, eliminating 63 parking spaces. The project site includes frontages along Broadway, 4th Street, Colorado Avenue, and 2nd Street.	<b>NOD</b>	
2007072133	Hirschman's Pond Trail Nevada City Nevada City--Nevada The City of Nevada City and the Nevada County Land Trust are preparing an application for a Recreation Trail Program grant that would fund the construction of a 2.0 mile, non-motorized, recreational trail through the City's Hirschman's Pond and Indian Trails Subdivision properties.	<b>NOD</b>	
2007081089	Swarthout Canyon Washout Repair Regional Water Quality Control Board, Region 8 (Santa Ana), Riverside --San Bernardino Issuance of a Clean Water Act Section 401 Water Quality Standards Certification for a pipeline cover repair. The pipeline is a petroleum line which lies within a perennial stream tributary to Cajon Wash in Lone Pine Canyon. The pipeline has been exposed. The area surrounding the pipeline will be excavated and a geotube installed around the line. The line will be covered with flexible concrete matting. A portion of an adjacent bank will be armored with grouted rip-rap to prevent further erosion. 0.08 acres of the wash will be affected by the armoring. An access road will need to be constructed from Swarthout Canyon Road to the project site affecting 0.8 acres of uplands. A 0.43 acre staging area will be cleared in the adjacent uplands.	<b>NOD</b>	
2007109001	Lake or Streambed Alteration Agreement No. R1-07-0311 for Timber Harvesting Plan 1-07-087HUM "Michael 2" Fish & Game #1 --Humboldt DFG is issuing an agreement for eight encroachments: four temporary crossings and four rocked fords.	<b>NOD</b>

<b><u>Documents Received on Monday, October 01, 2007</u></b>			
2007109010	Lake or Streambed Alteration Agreement No. R1-07-0490 for Timber Harvesting Plan 1-03-154HUM "South 27" Forestry and Fire Protection, Department of --Humboldt DFG is issuing an agreement for 2 encroachments: 2 excavations of fill crossings.	<b>NOD</b>	
2007109011	Bolsa/Westminster 7-Eleven Westminster, City of Westminster--Orange The project site consists of one level vacant dirt parcel totaling ~0.5 acres. The applicant, 7-Eleven Inc., is proposing to construct a 2,754 sq. ft. convenience store, a 1,886 sq. ft. fueling canopy, two underfound fuel tanks and four pumps, paving and parking, a trash enclosure, yard lights, landscaping, signage, and new driveways at both frontages.	<b>NOD</b>	
2007109012	Minor Subdivision MS503-04 and Hillside Development Permit HDP50-04 Lafayette, City of Lafayette--Contra Costa The project includes stabilization of a perennial stream and removal of concrete debris. The California Dept. of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2007-0048-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Scott Johnson.	<b>NOD</b>	
2007108001	Santa Paula Creek Channel and Fish Ladder Maintenance Fish & Game #5 --Ventura The operator proposes to alter the streambed by removing sediment to restore capacity of the channel and within the ladder and basin. The originating year will remove ~342,000 cy of material and thereafter for the life of this agreement not to exceed 30,000 to 50,000 cy of materials per year.	<b>NOE</b>	
2007108002	Streambed Alteration Agreement (1600-2007-0288-R5) Regarding Pioneer Park Wetland Restoration Project Fish & Game #5 Mission Viejo--Orange The Operator proposes to alter the streambed and banks through the implementation of the Pioneer Restoration Project. The project proposes the removal of existing non-native/invasive and weedy plants with the channel and adjacent uplands and restoring the area with native vegetation. In summer/fall these plants and trees will be removed by hand with chain saws and loppers, lpants and branches will be chipped outside of the creek area and hauled away in a prooper manner.	<b>NOE</b>	
2007108003	Olema RV Resort Remediation Project Fish & Game #3 --Marin The Olema RV Resort and Campground is currently undertaking corrective actions to address an unpermitted work performed on the property of the Olema RV Resort and Campground. The unpermitted work included the diversion of a blue-line stream, disturbance of Olema Creek, and placement o ffill into the adjacent wetland. The proposed actions are designed to bring the project into compliance with regulatory agencies requests for the restoration and enhancement of the impacted areas.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 10/01/2007 - 10/15/2007

<b><u>Documents Received on Monday, October 01, 2007</u></b>			
2007108004	Guilliams Driveway Fish & Game #3 Santa Rosa--Sonoma Construction of a new driveway. Included in this project is the placement of an 18" culvert, ~100 feet long, where the driveway crosses an unnamed tributary to Mark West Creek. Approx. 500 cubic yards of compacted fill will be placed over the culvert. Issuance of a Streambed Alteration Agreement Number 1600-2007-0204-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2007108005	Morris Residence Streambank Repair and Erosion Control Fish & Game #3 Martinez--Contra Costa The project includes repair of 2 areas including shotcrete removal and ivy removal. Issuance of a Streambed Alteration Agreement Number 1600-2007-0394-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2007108006	San Diego Fuel Hazard Reduction 2007 Tahoe Conservancy South Lake Tahoe--El Dorado The project consists of removing dead, dying and diseased trees, and reducing conifer densities. In addition, hazardous trees prone to breakage from wind with an obvious and apparent target will also be removed. The activity results will promote increased health and vigor of the stand, reduce fire threat, increase wind firmness, and reduce insect and disease occurrence.	<b>NOE</b>	
2007108007	Agreement 2007-0115-R4; Unnamed Tributary to Arroyo Grande and Meadow Creeks; Culvert Replacement Fish & Game #4 --San Luis Obispo Site 1- Concrete lined channel parallel to SR 101 will be converted to Reinforced Concrete Pipe with wingwall and 15 ft. of rock slope protection at outlet. Inlet will connect with already existing RCP which crosses under SR 101. Site 2- Existing RCP culvert will be extended by 1.5 meters with new headwall, concrete apron, and drainage inlet.	<b>NOE</b>	
2007108008	Smith Family Property Maintenance/Improvement, Agreement No. 2007-0094-R4 Fish & Game #4 Atascadero--San Luis Obispo The project involves removal of overgrowth of blackberry bushes from a 15 sq. ft. area adjacent to the stream; removal of six 1-1.5" diameter at breast height arroyo willow trees; construction of a 3 ft. high retaining wall ~45 ft. from the creek centerline; installation of a ranch-style fence constructed of wood posts and cross pieces; and removal of sediment from above the creek banks to restore the natural contour of the channel.	<b>NOE</b>	
2007108009	Harder Temporary Medical Hardship Mobilehome Use Permit Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Use Permit to allow a temporary mobilehome as an accessory dwelling for persons in need of care and supervision on an ~0.47 acre lot in the RD-2 zone.	<b>NOE</b>

<b><u>Documents Received on Tuesday, October 02, 2007</u></b>			
2005091105	San Diego International Airport Master Plan San Diego County Regional Airport Authority San Diego--San Diego The San Diego International Airport Master Plan includes the development and operation of the following major project components: expand existing Terminal 2 West with 10 new jet gates; construct new aircraft parking apron; construct new apron and aircraft taxi lane; construct new second-level roadway and departure curb serving Terminal 2; and construct a new parking structure.	<b>EIR</b>	11/30/2007
2006081126	Tulare Protein Harvesting and Processing Plant Tulare, City of Tulare--Tulare The project includes a 90-acre zoning change from Public Lands (PL) to Heavy Industrial (M-2), a General Plan Amendment changing the 90-acre's land use designation from Public to Heavy Industrial, issuance of a conditional use permit, approval of a parcel map separating the 90-acre section of land from 163-acre parcel and the 70-acre project site from the 20-acre residual parcel, and construction and operation of a beef harvesting and processing plant on the 70-acre site currently in agricultural production (cotton). The residual 20 acres of land to the east of the beef harvesting and processing site will be used for storm drainage purposes and will be zoned for future industrial development.	<b>EIR</b>	11/19/2007
2006102060	City of San Jose Enterprise Zone San Jose, City of San Jose--Santa Clara The proposed project is the re-designation of the Enterprise Zone for another 15 years and modification of the currently existing boundaries. Proposed modifications of the boundaries would eliminate 1,568 acres that were included within the previously approved Enterprise Zone and would add no additional acres, for a new reduction of 1,568 acres yielding a total of 6,400 acres within the Enterprise Zone.  The general purpose for creating an Enterprise Zone is to provide incentives for economic development that is considered a benefit to the local communities and to the state as a whole. No specific new development construction is proposed as part of this project and it is not anticipated that new construction would occur that is not already anticipated and planned by the City. All of the proposed Enterprise Zone is within the urban envelope of the City of San Jose, the lands are all designated for urban uses by the City's General Plan, are zoned for urban uses, and are served by public service facilities and utilities.	<b>EIR</b>	11/16/2007
2007022071	Zanker Materials Recycling Facility Planned Development Zoning San Jose, City of San Jose--Santa Clara Increase in the peak daily tonnage received and processed (maximum gate capacity) from 1,250 tons to 5,000 tons; allow the acceptance, transfer off-site, and the possible future screening and sorting of green/yard waste and municipal solid waste (MSW) including food waste inside the MRF building; relocate and expand the scale house facilities to accommodate the proposed increased daily tonnage and allow for three inbound scales and one outbound scale (four scales total); allow site operations to occur 24 hours per day, 7 days per week; and use the surface of the existing on-site landfill (after landfill closure) for ancillary operations (such as employee parking, truck parking, temporary materials storage, and/or a retail soil/materials yard) and install new outdoor lighting at the facility.	<b>EIR</b>	11/16/2007

<b><u>Documents Received on Tuesday, October 02, 2007</u></b>			
2005031138	Harbor-South Bay Water Recycling Project U.S. Army Corps of Engineers Carson, Compton, El Segundo, Inglewood, Lomita, ...--Los Angeles The project area includes the cities of Torrance, Inglewood, Redondo Beach, Carson, Compton, Rancho Palos Verdes, El Segundo, Lomita, Rolling Hills, Rolling Hills Estates, unincorporated Los Angeles County. This project is part of the West Basin Municipal District's (WBMWD) regional recycled water project which distributes water to local utility companies and municipal water departments.	<b>FIN</b>	
2006042175	Davis-Woodland Water Supply Project Davis, City of Davis, Woodland--Yolo The objective of the project is to develop a reliable water supply of adequate quality for drinking and cost-effective wastewater treatment in Davis, Woodland, and UC Davis through 2040 without removing a source of irrigation supply that will cause fallowing of agricultural land. The project partners propose to acquire a new surface water supply from the Sacramento River and to construct and operate water intake/diversion, and treatment facilities so that the project partners can use treated surface water in their respective service areas.	<b>FIN</b>	10/16/2007
2007074001	Trinidad Rancheria Scenic Drive Road Improvement Project Bureau of Indian Affairs, Central California Agency Trinidad--Humboldt Improve existing road conditions, traffic flow, and safety to Scenic Drive.	<b>FON</b>	10/31/2007
2007102014	Hetch Hetchy Communication System Upgrade Project San Francisco, City and County of Oakdale, Sonoma--Stanislaus, Tuolumne Hetch Hetchy Water & Power (HHW&P), a subsidiary of the San Francisco Public Utilities Commission (SFPUC), in cooperation with both the U.S. Department of the Interior National Park Service (NPS) and the U.S. Department of Agriculture Forest Service (USFS), is proposing a communications system upgrade and replacement project. The communication system is used for the operation of HHW&P's water supply and electric utility system, which includes facilities in the upper Tuolumne River watershed of Yosemite National Park and the Stanislaus National Forest in the Sierra Nevada. The purpose of the proposed project is to: (1) vacate the 2 Gigahertz (GHz) band currently being used, per Federal Communications Commission requirements; (2) replace and upgrade the aging communications system with an improved system; (3) provide the video and radio bandwidth to allow for future installation of voice radio systems, which could expand system coverage in the O'Shaughnessy, Cherry Lake, and Lake Eleanor areas beyond existing coverage; and (4) provide the foundation infrastructure for housing NPS and USFS communications equipment associated with their individual communications systems.	<b>JD</b>	11/02/2007
2007072059	Sewer Trunk Main Replacement - Sonoma Valley County Sanitation District Sonoma County Water Agency --Sonoma The proposed project would abandon in place or remove and replace portions of the existing concrete sewer trunk main with approximately 5,650 linear feet of polyvinyl chloride (PVC) pipe, extending from Watmaugh Road East to the SVCSD wastewater treatment facility. The abandoned pipeline and manholes would be filled with cement-sand slurry.	<b>MND</b>	11/02/2007

<b><u>Documents Received on Tuesday, October 02, 2007</u></b>			
2007101006	8th Street Pedestrian Bridge Replacement Project Carpinteria, City of Carpinteria--Santa Barbara Reconstruction of a pedestrian bridge using a steel arch design and using the existing bridge as a framework. New concrete abutments to be installed at top of bank from which arch will span entire creek. Old bridge to be removed, including the removal of existing wooden piers located within the creek bottom.	<b>MND</b>	10/31/2007
2007101007	Owl Tree Potable and March Line Non-Potable Pipeline Replacement Project Western Municipal Water District Riverside--Riverside The proposed project will involve the replacement of existing water pipelines that the District refers to as Owl Tree Road potable water pipeline and March Line non-potable water pipeline. The project pipelines are located entirely within the unincorporated community of Woodcrest. These pipelines were constructed approximately 50 years ago. At the time of their installation the project area was primarily in agriculture, thus the existing alignment had serviceable access. Beginning at the Oleander Pump Station, the existing 22-inch diameter potable and 20-inch diameter non-potable water pipelines follows the course of Mocking Bird Creek, in a westward direction. Since that time much growth has occurred throughout the project area, with subdivision tract maps processed in these alignments. At this time the existing lines in the project area fall within private property. Therefore the intent of replacing these lines is to move the District's pipelines in to public right-of-way, making service more accessible for existing and proposed potable water pipeline alignments.  Owl Tree Potable Pipeline Replacement: The first component of the project is the construction of a 30-inch diameter potable water pipeline within the right-of-way of Markham Street, Washington Street, and Harley John Road. The proposed pipeline will cross over Mockingbird Creek at Washington Street. It is anticipated that the pipeline will cross the creek over an existing culvert.  March Line Non-Potable Pipeline Replacement: The second component of the project is the construction of a 24-inch diameter non-potable water pipeline, which will be located within public road right-of-ways, Markham Street and Wood Edge Lane. This proposed pipeline is intended to replace the existing 20-inch diameter pipeline, which is located primarily adjacent to and along the trace of Mockingbird Creek, within the project area.	<b>MND</b>	11/01/2007
2007101008	Peter Read - Sea Wall Monterey County --Monterey Combined Development Permit consisting of: (1) a Coastal Development Permit for the development and permanent installation of a sea wall within 50 feet of the edge of a coastal bluff; (2) a Coastal Development Permit to allow development within 100 feet of an area containing sensitive habitat; (3) a Coastal Development Permit to allow development on slopes greater than 30%; and (4) a Coastal Development Permit for development within 750 feet of a known archaeological resource.	<b>MND</b>	11/01/2007

2007101009	Racetrack View Drive San Diego, City of San Diego--San Diego Planned Development Permit (PDP), Site Development Permit (SDP), Coastal Development Permit (CDP), Tentative Map (TM), and a Neighborhood Development Permit (NDP) to create two parcels from one and allow the construction of two single-family homes, one on each parcel. The project site is located at 2835 Racetrack View Drive within the Torrey Pines Community Planning Area, Coastal Height Limitation Overlay Zone and Council District 1.	<b>MND</b>	10/31/2007
2007101010	Brea Rails to Trails Master Plan Brea, City of Brea--Orange Implementation of a Master Plan for the development of a dual-tread pedestrian bicycle trail within the city. The project location consists of an approximately 17-acre corridor located in the central area of the City of Brea. The corridor alignment contains a series of public and private right-of-ways for flood control, road, and railway purposes and small sections of both industrial and private property. The proposed development would be located along a 3.8-mile alignment traveling east-west through the central portion of the city. The alignment follows the existing right-of-way corridor from Valencia Avenue in the east to Arovista Park in the west. The width of construction along the alignment would vary between 10 feet (existing streets) and 100 feet (parking and staging areas). The proposed project alignment crosses a number of major roadways including Birch Street, Brea Boulevard, Imperial Highway, Kraemer Boulevard, and State College Boulevard.	<b>MND</b>	11/05/2007
2007102016	7 County Oak Lane Contra Costa County Community Development Alamo--Contra Costa Lake Tahoe Land Co., LLC - C/O Nevada Pacific Consulting, LLC (Applicant & Owner), County File #TP0700021: A request for approval of a tree permit to remove 25 code protected trees and to work within the dripline of other code protected trees for a development project involving: - The demolition of an existing residence together with the existing accessory structures; - The construction of a new, two-story 18,067 square foot principle residence; - A Residential Second Unit and accessory structures; and - Grading of approximately 9,500 net cubic yards of soil, which will be redistributed on the subject site.	<b>MND</b>	11/01/2007
2007102015	Japantown Corporation Yard Redevelopment Project San Jose, City of San Jose--Santa Clara The proposed project would redevelop the corporation yard site with up to 600 residential units in approximately four mid to high-rise buildings up to 148 feet in height. It would redevelop the surface parking lot site with up to 75 affordable senior residential units in an approximately 6-story building. Within the corporation yard site, building heights would range between six to 14 stories, with variations in height designed to provide visual interest, view corridors, and site image. In addition, the corporation yard site would include 10,000 to 20,000 square feet of community amenity space in several one to two-story buildings within or adjacent to the public plaza area; up to 30,000 square feet of retail space; and a public plaza and garden. Below-grade parking is proposed. The proposed project	<b>NOP</b>	10/31/2007

	small lot subdivision (smaller lots than permitted in the R-1-6 zone), lot sizes ranging from 3,672 square feet to 5,833 square feet. There are four proposed residential floor plans, all of which are two-story model; the homes will range in size from 1,380 square feet to 1,930 square feet.		
2007102018	Meadows at Oakmont Santa Rosa, City of Santa Rosa--Sonoma The proposed project involves a major subdivision of the existing 14.75 acre site at the southwest corner of State Highway 12 and Oakmont Drive. Thirty-two single-family residential lots ranging in size from 6,060 square-feet to 1.49 acres are arranged on either side of the proposed continuation of Pine Valley Drive. Nineteen of the lots back onto State of California right-of-way on the west side of Highway 12. Four additional single-family parcels are proposed as part of a small lot subdivision with the required Conditional Use Permit application. These four lots are accessed from the small lot subdivision with the required Conditional Use Permit application. These four lots are accessed from the proposed continuation of Stone Bridge Road and have lot areas between 4,080 square feet and 5,048 square-feet.	<b>MND</b>	11/01/2007
2007102020	Skolnik Coastal Permit and Design Review Marin County --Marin The owner is requesting Coastal Permit and Design Review approval to establish an olive orchard, install olive oil production facilities, and construct a new single-family residence and septic system on the property. The existing farm road leading to the existing barns would be improved to meet current access requirements and the existing barns would be refurbished for the agricultural operation.	<b>MND</b>	11/01/2007
2007101016	Friant Community Plan Update and Friant Ranch Specific Plan Fresno County --Fresno The proposed project includes an amendment to the Friant Community Plan boundaries within the Community Plan Update to include the entire Friant Ranch Specific Plan Area, creating a Friant Community Plan area of approximately 1,505 acres. The Friant Ranch Specific Plan comprises 920 acres located adjacent to the community of Friant. The project applicant proposes to build an approximately 2,996 unit mixed use development within the Friant Ranch Specific Plan area.	<b>NOP</b>	11/01/2007

<b><u>Documents Received on Wednesday, October 03, 2007</u></b>			
	City, subject to a planned development permit.		
2007101015	The El Colegio Road Improvement Project Santa Barbara County --Santa Barbara The El Colegio Road Improvement Project is a joint effort between the University of California at Santa Barbara (UCSB) and the County of Santa Barbara (County). The proposed project would improve circulation and accommodate traffic generated by the San Clemente Graduate Student Housing Project and the future development of the UCSB Campus and the Isla Vista and Goleta areas. The primary component of the project involves transitioning El Colegio Road from a two-lane road with center turn pockets to a four lane road with planted medians, traffic signals, and left turn lanes. The project will occur in two phases.	<b>Neg</b>	11/01/2007
2007102019	Town Well Fair Oaks Water District --Sacramento FOWD's original Town Well, located at 7995 Park Drive, and was taken out of service because of age and increasing maintenance issues. This well had been capable of producing up to 1,600 gallons per minute (gpm). The consultant estimated that a well at this location would yield about 1,500 to 2,500 gpm. A detailed preliminary well design and assessment of conditions is presented in Appendix B. A Notice of Exemption was prepared to properly destroy the old well at the site and construct a new well within 35 feet of the old well with estimated capacity of 1,600 gpm, and replace an existing metal building with a new building. The new well was constructed to the same depth as the old well, about 600 feet below ground surface. After construction and development was completed, the new Town well was proven to pump 2,500 gpm. The pump and motor are designed for a capacity of 2,500, but may vary plus minus 10 percent, depending on the groundwater level. Because production is higher than the historic 1,600 gpm stated in the original environmental documents, this negative declaration was prepared to allow for full disclosure of information to the public.	<b>Neg</b>	11/01/2007
2007102021	Clairidge Way Storm Drain Improvement Project Sacramento County Sacramento--Sacramento The proposed project will install a new storm drainage system to provide improved storm water conveyance and alleviate flooding in the area. The project will install storm drain pipes and manholes along Robertson Avenue (from Norris Avenue to Becerra Avenue) and will upgrade an existing culvert on Clairidge Way.  - The project will install 2,030 lineal feet of drainage pipe. - Upgrade the existing culvert in Clairidge Way. The existing 40-inch by 65-inch corrugated metal arch pipe culvert in Clairidge Way will be upsized to a 7-foot by 3-foot reinforced concrete box pipe. - Installation of a new 60-inch pipe outfall to Chicken Ranch Slough at 3741 Robertson Avenue, at the southeast corner of the property. The new outfall will consist of a new concrete headwall and riprap.	<b>Neg</b>	11/01/2007

2007031107	County Service Area 7 Wastewater System Upgrade San Luis Obispo County --San Luis Obispo A proposal by the County of San Luis Obispo to increase the capacity of the County Service Area 7/Oak Shores wastewater treatment plant to serve an additional 372 residential units, to a total of 1,197, and improve the treatment process to reduce nitrogen. Average daily flow capacity during the maximum month will increase from 100,000 gallons per day to 194,000 gallons per day. The peak daily flow will be 425,000 gallons per day. The treatment facility will remain within the Oak Shores Village area, on the north shore of the Nacimiento Reservoir, approximately 30 miles west of the City of Paso Robles, in northern San Luis Obispo County.	<b>EIR</b>	11/19/2007
2007062006	Rio Dell Wastewater Reuse Project Rio Dell, City of Rio Dell--Humboldt The City of Rio Dell proposes to improve the operation of the City of Rio Dell's wastewater treatment, effluent disposal, and biosolids disposal systems through repairs and/or replacement of existing facilities and systems. The treatment system improvements are needed to address the Administrative Civil Liability Complaint (ALC) and outstanding maintenance issues. The disposal project is needed to meet the requirements of Cease and Desist Order No. R1-2005-0034. The City also needs to include biosolids disposal in this evaluation because the existing disposal site may not be available to the City in the future. The project alternatives being evaluated consist of either improvements to the City's existing wastewater treatment facility on the southeast side of Rio Dell or construction of a new wastewater treatment plant. Also being evaluated as part of the proposed project is a wastewater reuse system located either north of Rio Dell at Metropolitan site, or south at the Pacific Lumber Company tree farm located at the southern end of the Town of Scotia.	<b>EIR</b>	11/19/2007
2002102074	Use Permit Application No. 2002-30 - Salida Hulling Stanislaus County --Stanislaus The project involves the development of an expanded almond hulling and shelling facility by the Salida Hulling Association (SHA), an agricultural cooperative; on an approximately 50.4-acre site located at the northeast corner of SR 132 and Dakota Avenue, west of the City of Modesto, in unincorporated Stanislaus County. The proposed facility would replace Salida Hulling's existing 5.8-acre almond hulling and shelling facility located on Nutcracker Lane, south of Kiernan Road, in Salida; the existing facility will be taken out of service as soon as the new facility is in use.	<b>FIN</b>	
2006011036	Target Commercial Center Vista, City of Vista--San Diego The project consists of a request for a Site Development Plan to develop a 139,929 square foot Target Store, a 10,260 square foot along with parking areas, drainage improvements, landscaping, and associated site improvements.	<b>FIN</b>

<b><u>Documents Received on Thursday, October 04, 2007</u></b>			
2007108088	Replacement of the Tapo Canyon Water Treatment Plant Simi Valley, City of Simi Valley--Ventura Installation of a water treatment plant to replace the existing treatment plant that was severely damaged in the 1994 Northridge Earthquake. The project will reduce the hardness in the local groundwater pumped from 2 existing District wells in the Gilibrand Basin to produce up to 1 million gallons per day of potable water supply for its water customers. The project will improve the District's water supply reliability by increasing its water storage and reducing its reliance on imported water supplies purchased from the Calleguas Municipal Water District.	<b>NOE</b>	
2007108089	Pacific Gas and Electric Company - Humboldt-Harris 115kv Transmission Line Reconductoring Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Eureka--Humboldt The purpose of the pole and conductor replacement project is to maintain and improve the reliability of the existing transmission line and reduce the number of power outages in the Eureka area. The majority of the 25 power poles in the project area will be replaced in upland areas from paved roads and unimproved dirt roads using PG&E line trucks. Three of the poles are located in jurisdictional wetlands that are currently used as horse pasture.	<b>NOE</b>	
2007108090	Paulin Creek at County Farm Road Retaining Wall Replacement Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma The purpose of the project is to replace a 55-foot long retaining wall along the west bank of Paulin Creek. The wall was damaged during the New Year's Eve 2005 storm event. A portion of the retaining wall has collapsed, depositing debris in the creek channel. The remaining portion of the wall is leaning over the creek, causing the adjacent parking lot to fail. This project will replace the damaged wall to prevent further damage to the bank and the adjacent property during future storm events and would repair the existing parking area.	<b>NOE</b>	
2007108091	Supplemental Spring Source for the San Antonio Canyon Mutual Water Service Company Health Services, Department of --San Bernardino The spring construction began in 1990 and will ultimately be used on an as-needed basis to supplement the existing spring source that has a capacity of ~27 gallons per minute. Current source capacity from the original spring has declined 45% over the past 2 months. The new spring will help the system achieve the maximum daily demand as outlined in the Safe Drinking Water Act, Title 22, Section 64564.	<b>NOE</b>	
2007108092	Agreement 2007-0217-R4: Sediment Removal on McGuy Property Fish & Game #4 --Madera Remove over 30-years worth of sediments from a stock pond that was built in the 1970s. Remove ~70,000 cubic yards within the stock pond area and reconfigure the topography to as close to its original grade when the pond was constructed. Remove sediments while the pond is dry. The area that will be excavated is ~1,400 ft. long by 150 ft. wide and ~10-15 ft. deep.	<b>NOE</b>

2007102028	General Plan Amendment No. 2007-06, Rezone No. 2007-09 - 7/11 Materials Inc. Stanislaus County Patterson--Stanislaus A request to change the General Plan and Zoning designation of two parcels totaling 7.34 acres, from A-2-10 (General Agriculture) to a P-D (Planned Development) zone to allow a Concrete Ready-Mix Batch Plant and Material Yard.	<b>CON</b>	10/22/2007
2004081187	Lemon Cove Granite (PMR No. 03-001) Tulare County --Tulare The County of Tulare, as lead agency under CEQA, is considering an application for Surface Mining Permit/Reclamation Plan (PMR) 03-001. This is a proposal by Lemon Cove Granite to continue to operate and to expand an existing granite quarry on Avenue 328, approximately one mile east of State Route 198 (SR 198), near the community of Lemon Cove in Tulare County. The quarry currently operates as a hard rock surface mining operations, as well as mining operations expansion from 22 acres to 28 acres. Crushing and screening are currently part of the mining operation, and these activities will continue as part of the proposed operation.	<b>EIR</b>	12/21/2007
2007061057	Nohl Canyon Water Storage Tank Anaheim, City of Anaheim--Orange The project proposes to demolish the existing Olive Hills Reservoir and construct a 10 million gallon partially buried water storage tank in its place.	<b>EIR</b>	11/19/2007
2007101026	Encanto Estates Specific Plan Imperial, City of --Imperial The proposed mixed-use development would result in the creation of approximately 201.17 acres of residential, 5.67 acres of commercial, 76.67 of parks/retention basins, and 29.99 acres designated for public schools uses. The proposed project consists of approximately 1,520 dwelling units including 691 single family, 206 duplex units, 199 four-plex units and 424 multi-family units. A realignment of Houston Road is proposed south of the project area. Commercial uses are proposed at the intersections of Dogwood Road and Worthington Road and Cross Road. Additionally, a neighborhood park and two school sites are proposed. The project is planned for construction in four phases. The first phase of development is expected to occur in the year 2009. Phase 2 will occur in 2011. Phase 3 will be developed in 2013. The final phase of the project will be developed in 2015.	<b>EIR</b>	11/19/2007
2005011055	The Buckley School Campus Enhancement Plan Los Angeles City Planning Department Los Angeles, City of--Los Angeles The proposed Buckley School Campus Enhancement Plan is intended to address the needs of existing and future school programs, including the provision of adequate teaching space for all educational levels, specialty teaching spaces, and multipurpose spaces for educational gatherings that cannot occur in a standard classroom. The project also provides for the modernization of existing facilities, improved disabled access, and energy efficiency upgrades. Included within the Campus Enhancement Plan are vehicular circulations and queuing improvements, increased parking within a new enclosed parking facility, the demolition of six buildings, construction of five new/replacement buildings, a central plant, and	<b>FIN</b>

	addition to and/or renovation of several existing buildings.		
2006111135	Sunset and Gordon Project Los Angeles Community Development Agency Los Angeles, City of--Los Angeles The proposed project involves the demolition of the existing uses on site and the construction of a 324,513 square-foot, mixed-use project including 311 dwelling units, 40,000 square feet of creative office space and 13,500 square feet of ground floor retail (including 8,500 square feet of restaurant space). The project will also include the development of a 21,571 square-foot public park. The project will provide 508 on-site parking spaces in three subterranean levels and three above grade levels. The proposed project will be approximately 23 stories with a residential amenity deck on the third floor. The proposed project will retain and incorporate portions of the structural/architectural components of the existing Old Spaghetti Factory Building. A signage plan for onsite and off-site advertising will also be included.	<b>FIN</b>	
2007101023	TPM 35299 (Citrus Business Park) Riverside, City of Riverside--Riverside The applicant is proposing to subdivide approximately 37.44 vacant acres into five parcels to accommodate four industrial buildings, totaling 509,787 square feet, and an open space lot. The parcel sizes will range from 4.6 acres to 9.88 acres in size. Each parcel will contain one building with the exception of Parcel 3, which will encompass a portion of the Springbrook Wash. The Springbrook Wash transverses the project site from east to west and will be dedicated as natural open space. Access to the site will be provided through Citrus Street on the south and Villa Street on the north. Access between the northern and southern portions of the site will be provided through a land bridge that will cross the wash at the west end of the site. No variance are required for this project. However, grading exceptions are required for grading within the limits of the wash and for grading within 50 feet of the wash. A ten-foot wide trail will be provided through the open space area, with access through the crossing. Design review of the site plan and building elevations is also part this project.	<b>MND</b>	11/05/2007
2007101025	Gaviota Terminal Above Ground Facility and Equipment Demolition Santa Barbara County --Santa Barbara Shell Pipeline Company LP, the operator for the Gaviota Terminal, proposes to demolish their above ground facilities. Demolition involves removing all surface structures including tanks, piping, valves, buildings, equipment and material located above ground. Demolished materials will be recycled to the maximum extent feasible. The project is estimated to take approximately five months to complete. A separate Demolition & Reclamation Permit for soil removal/remediation and site reclamation will be processed at a later date, including additional environmental review.	<b>MND</b>	11/05/2007
2007102032	Use Permit 07-013 - Newcomb Shasta County --Shasta The request is for approval to convert the existing 3,400-square-foot restaurant building into a caretaker's residence, reconstruct one 300-square-foot existing cabin, and construct of eight new cabins for overnight guests. 	three-bedroom cabin at 1,125 square feet.		
2007102035	Bond Waterman Retail Center EG-07-049 Elk Grove, City of Elk Grove--Sacramento The proposed project consists of a Rezone from AR-5 (Agriculture Residential - 5 acres minimum) to SC (Shopping Center); a Design Review for a 41,500 square foot retail center, a Conditional Use Permit for two drive-throughs; a Tentative Parcel Map; and a Uniform Sign Program. The proposed retail center will be accessed from driveways off of Waterman Road and Bond Road. A ten foot wide paved multi-purpose trail is proposed to run along the eastern and southern boundaries of the site.	<b>MND</b>	11/05/2007
2007101024	Archstone Hollywood Los Angeles, City of West Hollywood--Los Angeles The project applicant, Archstone Smith, proposes the development of a new mixed-use project with 348 apartment units, approximately 7,825 square feet of restaurant uses, and approximately 7,276 square feet of retail uses. While the majority of the site will have a residential orientation, the project proposes to develop the office, retail, and restaurant along the Santa Monica Boulevard street frontage. More specifically, the residential component will be developed above covered at-grade and below-grade parking levels, and within four separate structures, while the office uses will be in a free-standing building, over one level of below-grade parking and ground floor retail, at the southeast corner of the project site. Restaurant uses will be located at the southwest corner of the project site, creating a commercially oriented street level presence along Santa Monica Boulevard, which serves as the primary frontage for the project. Total development will include approximately 427,803 square feet of floor area [2.45:1 Floor Area Ratio (FAR)]. Access to the project will be provided from both Mansfield Avenue and Orange Drive. No access will be provided from either Lexington Avenue or Santa Monica Boulevard. Parking for a total of 983 cars will be provided. The maximum height of the project is proposed at 65 feet above grade for the residential buildings and 85 feet above grade for the office building.	<b>NOP</b>	11/05/2007
2007102030	San Antonio Backup Pipeline Projects San Francisco Planning Department --Alameda The San Francisco Public Utilities Commission (SFPUC) proposes to upgrade its water system between the San Antonio Reservoir and the San Antonio Pump Station in the Sunol Valley. The proposed project includes four components. The primary component is the installation of a backup pipeline along the same route as the existing San Antonio Pipeline, which runs about two miles from the James Turner Dam at the San Antonio Pipeline, which runs about two miles from the James Turner Dam and upgrades to the San Antonio Creek Discharge Facility at the base of the James Turner Dam and upgrades to the San Antonio Pump Station dechlorination and pH1 adjustment facility. The fourth component includes improvements to the security around the Alameda East Portal.	<b>NOP</b>	11/05/2007

	adoption, and implementation of a Bicycle Master Plan.		
2006032130	<p>Wastewater Treatment Plant Expansion Project Linda County Water District Marysville--Yuba</p> <p>The Linda County Water District (District's) proposed project includes wastewater treatment plant (WWTP) expansion and upgrade, pipeline enlargement, and outfall for treatment and discharge of treated municipal wastewater into the Feather River, and the related discontinuance and abandonment of existing disposal ponds. This project is necessary to meet water quality standards, protect groundwater, and meet projected increase in discharges to the District's treatment plant. Beneficiaries of the project include residents within the District, groundwater users in the area, and users of the beneficial uses of the Feather River. The District owns and operates a wastewater collection, treatment, and disposal system, and provides sewerage service to approximately 10,000 people through about 3,000 connections in the unincorporated area of Linda in Yuba County. The District's WWTP is located on the east bank of the Feather River, about 3 miles south of the City of Marysville. The original plant was constructed in 1960; significant plant upgrades were completed in 1996 and 2002. The proposed project would upgrade and expand wastewater treatment capacity at the District's WWTP to 5.0 million gallons per day (MGD) from its current capacity of 1.8 MGD average dry weather flow (ADWF). In addition to WWTP improvements, the proposed project would include the enlargement of a portion of an existing pipeline and construction of an outfall to discharge treated wastewater to the Feather River. The proposed project is the construction, installation, operation, and maintenance of these facilities and is evaluated in a DEIR.</p>	<b>FIN</b>	
2007101027	<p>Miller; TPM 20978, ER 05-14-040 San Diego County Department of Planning and Land Use --San Diego</p> <p>The project is a Tentative Parcel Map to divide 1.77 acres into 3 lots. Two lots would contain residences and the third would contain an existing water tank and wireless facility. The project is located on Emerald Grove Avenue in the Lakeside Community Planning area of unincorporated San Diego County. Access would be provided by private drives connecting to Emerald Grove Avenue. The project would be served by on-site septic systems and water from the Riverview Water District.</p>	<b>MND</b>	11/07/2007
2007101028	<p>Ojai Creek Village Project - Design Review Permit (DRP 06-14), Tentative Parcel Map (TPM 06-02), and Tree Permit (T 06-32) Ojai, City of Ojai--Ventura</p> <p>The project involves the demolition of two existing residential structures and construction of two new two-story structures consisting of three residential units and one live/work unit, all to be air space condominium ownership. Access to the property is available from South Montgomery Street. Several mature trees on site would be removed due to poor health or to accommodate the project. The site is relatively flat with the exception of the westerly portion of the property that has a northwesterly sloping topography because of a seasonal creek, known as Ojai Creek. The creek traverses along the northwesterly edge of the property and contains riparian vegetation. There are several mature trees located on the easterly (front) half of the site and several mature trees within and nearby the creek.</p>	<b>MND</b>	11/07/2007

The proposed development plan will include two lodge buildings, three cabins and a fly-casting pond in existing 150-foot setback from the Sacramento River required by Parcel Map 20-92. The proposed setback will be measured 50 feet from the riparian vegetation and will be approximately 120 feet from the Sacramento River.	<b>MND</b>	11/07/2007
2007102047	Verizon of California Fiber Optic Code CPH04-0005 Sonoma County Permit and Resource Management Department --Sonoma Request for a Coastal Permit to replace 17 miles of existing underground copper communications cable with new fiber optic communications cable from Timber Cove to Sea Ranch.	<b>MND</b>	11/07/2007
2007101032	Torrey Hills VTM San Diego, City of San Diego--San Diego Community Plan Amendment, Vesting Tentative Map, Planned Development Permit, and Rezone from IP-21 and RM-2-5 to RM-3-9 to develop a 22.3-acre site. The proposal includes the construction of 484 condominium units and townhomes, as well as 4,000 square feet of commercial retail. The 384 condominium units would be located within 6 buildings, each 4 stories and approximately 50 feet tall. The 100 townhomes would be located within 5 buildings, each three stories and approximately 36 feet tall. Approximately 681,372 square feet of multi-family residential development would be provided with this project. Parking for 1,004 vehicles would be provided above and below ground. The project includes recreational amenities. The community plan amendment would be for the land use redesignation from industrial to residential. The subject site is located at the southeast corner of Calle Mar De Mariposa and Vista Sorrento Parkway, within the Torrey Hills Community Plan Area (Lots 1 through 4 of Torrey Hills Unit No. 19, Map No. 14301) and the Marine Corps Air Station Miramar Airport Influence Area.	<b>NOP</b>	11/07/2007
2007101033	High School No. 12 Grossmont Union High School District --San Diego The project will entail the acquisition of property and the construction and operation of a new high school by the Grossmont Union High School District (District). 	issues.		
2007102041	Meadow Ranch Subdivision Project Sierra County --Sierra Meadow Ranch LLC proposes a General Plan Amendment and Rezone for subdivision of a +-238.7-acre parcel into 30 single-family residential lots and three open space lots to provide for the construction of 29 single-family homes and associated infrastructure, including a community well and onsite wastewater treatment facility to serve the development. Meadow Ranch Road would be paved and extended west to provide access to, and circulation within, the proposed development. Access to the subdivision from the north would be provided by an extension of Aspen Court south to the project site. Request project entitlement include: 1) a General Plan Amendment to provide for residential development west of Fletcher Creek; 2) a Rezone of the parcel from Agricultural and General Forest to Planned Development - Site Performance Combining District, to allow for specific open space and residential characteristics of the proposed project; 3) approval of a Tentative Subdivision Map to divide the property into 30 residential lots and three open space lots; and 4) a Special Use Permit for the proposed developments within the PD zone.	<b>NOP</b>	11/07/2007
2007102049	Stoneridge Joint Use Water Storage Facility Project Roseville, City of Roseville--Placer The project will construct two storage tanks for treated municipal water supply and related conveyance facilities to deliver and distribute water to and from the tank site. The proposed project will be constructed in two phases. Phase 1 will construct a 2.9 million gallon (MG) reservoir to be owned and operated by the City of Roseville. Phase 2 will construct a 2.6 MG reservoir to be owned and operated by San Juan Water District (SJWD). At the present time, it is anticipated that construction of Phase 1 will occur in 2008 while Phase 2 of the project will occur five to seven years after Phase 1. The two tanks will be filled and drained by separate 24-inch pipelines from each agency's water distribution system and connected through an 18-inch emergency intertie on the project site to provide emergency storage to both systems. To connect SJWD's tank with the District's nearest distribution pipeline, a pipeline between the tank site and its distribution line near the intersection of Sierra College Boulevard and Secret Ravine Parkway would need to be constructed as part of the Phase 2 improvements.	<b>NOP</b>	11/08/2007

	exterior of all loose material and rust and re-paint with a polyurethane material.		
2007108153	Office of School Transportation Education, Department of West Sacramento--Yolo Offiec Space and Training Center.	<b>NOE</b>	
2007108154	School House Water Line Repair - Hollister Hills State Vehicular Recreation Area Parks and Recreation, Department of Hollister--San Benito The line which supplies water to the Vineyard School House was broken during the replacement of the culvert on McCray Road. The original line runs down a drainage, from the area of the culvert to the School House. Repairing the line in the drainage would entail removing most of the vegetation in the drainage and disturbing the bed of the drainage. Therefore, it is proposed to replace the water junction near the School House Basin to the School House, by running it along McCray Road to the School House.	<b>NOE</b>	
2007108155	Tree Removal - Prairie City State Vehicular Recreation Area Parks and Recreation, Department of Folsom--Sacramento This project will remove 5 cottonwood trees that have been severely infested with borers. These trees are suffering from root crown rot and decay. Trees will be removed to flush cut and debris will be placed in the park to provide habitat for wildlife species. These trees have been evaluated by 2 certified arborists and both have determined the trees should be removed.	<b>NOE</b>	
2007108156	Codornices Creek Habitat Restoration Project Albany, City of Albany, Berkeley--Alameda The project involves a number of components that the project sponsor has proposed to improve fish passage/migration upstream of the Albina Ave. Bridge; addressing erosion along the creek's channel banks (and in turn improving salmonid habitat); increasing pool habitat and cover; and establishing a native riparian plant community.	<b>NOE</b>	
2007108157	Westport CWD Monitoring Equipment Improvement Project Health Services, Department of --Mendocino To provide new or upgraded water quality monitoring equipment within the exiting water treatment plant.	<b>NOE</b>	
2007108158	Gorman Creek Improvement Channel Repairs, West Branch of California Aqueduct, September 2007 Water Resources, Department of Gorman--Los Angeles The Gorman Creek Improvement Channel is part of the conveyance system for providing over 525,000 acre-feet/year of State Water Project water to Southern CA. It is a concrete-lined trapezoidal aqueduct (canal) with a flow capacity of 900 cubic feet per second. On September 10, 2007 the GCIC was drained, inspected, and found in critical need of repair, because any further use was likely to result in significant damage or complete failure of the concrete liner.	<b>NOE</b>

2007102053	<p>Zoning Ordinance Amendment No. 2007-01 - Public Events &amp; Outdoor Entertainment Stanislaus County --Stanislaus</p> <p>This is a request to amend the Stanislaus County Zoning Ordinance, by adding a Chapter that would address public events and outdoor entertainment in the agriculture and residential areas of Stanislaus County. This includes property located outside a Local Agency Formation Commision (LAFCO)-adopted Sphere of Influence (SOI) of a city or year-round activities inside a city's LAFCP SOI.</p> <p>The proposed regulations will apply to the location of any public event in an R-A (Rural Residential), R-1 (Single-Family Residential) or A-2 (General Agriculture) zoning district. This amendment will not apply to A-2 zoned land which is enrolled under a California Land Conservation Contract (Williamson Act Contract). As part of this amendment, both the A-2 (Chapter 21.20.030) and the R-1 (Chapter 21.28.030) zoning districts will be amended to add Public Events and Outdoor Entertainment, under Uses Requiring a Use Permit.</p>	<b>CON</b>	10/26/2007
2007102054	<p>Tentative Parcel Map Application No. 2007-23 - Athwal Stanislaus County Patterson--Stanislaus</p> <p>Request to divide 212.8 acres into four (4) parcels (2 parcels of 43.7 acres, 1 parcel of 40 acres, and a remainder of 85.4 acres). The property is currently planted in almonds.</p>	<b>CON</b>	10/25/2007
2007042080	<p>PacifiCorp Yreka-Weed Transmission Line Upgrade, Southern Portion Public Utilities Commission Weed--Siskiyou</p> <p>PacifiCorp, which currently owns a single-circuit 69 kV electric transmission system in the Yreka-Weed area of Siskiyou County, requests authorization to upgrade the existing 69 kV transmission line (Line 1) with a new 115 kV transmission line within existing right-of-way from Pole 15/44 to Pole 8/45 and to install and additional 1.6 miles of 115 kV transmission line within new right-of-way from Pole 8/45 east to the Weed Junction Substation. The objective of the Proposed Project is to improve reliability by increasing transmission capacity in the Yreka-Weed area in order to continue safe and reliable electric service to customers in the area, and to meet contractual obligations.</p> <p>The Weed Segment would include a rebuild of the Weed Substation from 69 kV to 115 kV and upgrade of approximately 1.5 miles of single circuit 69 kV transmission line due to a double-circuit 115 kV transmission line from the Weed Substation north to Pole 8/45. The objective of the Weed Segment is to handle increased load provide transmission capacity, and improve service reliability.</p>	<b>FIN</b>

<b><u>Documents Received on Wednesday, October 10, 2007</u></b>			
2007011041	Lifeguard Headquarters Project Laguna Beach, City of Laguna Beach--Orange The proposed project would consist of modifications to the existing Lifeguard Headquarters and Main Beach public restrooms to provide additional space for existing lifeguard operations, and construction of support facilities for lifeguards and beach visitors. The proposed facilities would replace the two existing structures and would not be expected to result in a change in lifeguard activity or an increase or decrease in staff. The new Lifeguard Headquarters would be at the location of the existing restrooms and an annex with a public restroom facility would be located at the current site of the Lifeguard Headquarters. The two buildings, approximately 3,944 square feet, would be adjoined by an uncovered raised deck walkway.	<b>MND</b>	11/08/2007
2007062034	Winters Sports Park Winters, City of Winters--Yolo The City of Winters proposes the construction and operation of a sports park on approximately 22 acres of the 30-acre project site. The sports park will be a highly active facility intended to provide a venue for a variety of organized team sports. A preliminary site plan has been prepared, which includes three to four baseball/softball diamonds, turf fields for soccer and football, and a multi-use sports barn with lights (including basketball, indoor soccer, and street hockey), and a variety of other accommodations. Installation of sports lighting will allow for extended evening operation.	<b>MND</b>	11/08/2007
2007101042	Vesting Tentative Tract Map No. 6677; General Plan Amendment, Zone Change, and Annexation Arvin, City of Arvin--Kern The proposed project involves the annexation and subdivision of an existing vacant lot into 98 lots for single-family houses. The property is within the City's sphere of influence.	<b>MND</b>	11/08/2007
2007101044	General Plan Amendment GPA 2007-07, Site Plan Review SPR-2007-38, Tentative Tract Map TT-18523 Hesperia, City of Hesperia--San Bernardino A General Plan amendment from Medium density residential (M) to High density residential (H); site plan review to construct 80 condominium units and 63 town-home units on 12 gross acres and tentative tract map to provide individual ownership of the units.	<b>MND</b>	11/08/2007
2007102051	Baker Siphon Maintenance Project Placer County Water Agency --Placer PCWA is proposing to improve portions of inlet and outlet structures, and replace an ~850' long segment of the Baker Siphon. This maintenance project entails replacing an existing 36" diameter raw water pipeline with a new 42" diameter pipeline, which will be outfitted to include a blow-off structure to facilitate debris removal and draining of the pipe for future maintenance purposes. A section of the existing pipeline will be left in place to be used as an emergency overflow for the existing canal system.	<b>MND</b>	11/08/2007

2007102055	Osterweis Ranch Project Coastal Permit & Design Review Marin County --Marin The applicant, John Osterweis, is requesting Coastal Permit and Design Review approval for a proposal to expand agricultural production and construct various new improvements including two new single-family dwellings, a barn, two storage buildings, water storage tanks, and a new bridge crossing on three adjoining assessors parcels (188-140-11, 188-150-81, and 188-120-32) totaling 71.93 acres.	<b>MND</b>	11/08/2007
2006012125	San Rafael Airport Recreational Facility San Rafael, City of San Rafael--Marin 1) A rezoning from Planned Development - Wetland Overlay (PD1764-WO) District to a revised Planned Development District with appropriate development standards to allow construction of a new private indoor and outdoor recreational facility on a 4.4-acre portion of the 119.5 acre San Rafael Airport property. 2) A Revision to the Master Use Permit to allow recreational uses in addition to the existing uses allowed by the current Master Use Permit. 3) An Environmental and Design Review Permit to allow the construction of a new recreation facility consisting of a 200-foot wide by 350-foot long by 38-foot high (at roof peak) 85,700-square-foot metal building with indoor sports fields and courts, one lighted 200-foot by 300-foot regulation sized outdoor soccer field, and unlighted outdoor warm-up field, a 184 space paved parking lot, 86 space unpaved overflow parking area, extension of a private roadway, site landscaping, site and building lighting and other associated site improvements. The building includes a 14,400-square-foot mezzanine level that would provide a viewing area, meeting room, café, sports shops, administrative offices, and restrooms in addition to the indoor field and locker room areas on the main floor level. The building would be designed to meet the US Green Building Council standards, and flood-proofed to comply with US FEMA flood control requirements. The lightened outdoor field proposes to use synthetic turf, and a lighting system with four 23-foot and four 40-foot high light poles that use 50% less electricity and produce 50% less spill and glare. The project also includes 35,000 cubic yards of fill to raise the height of the access road, building pad and fields to 1.0 and 2.0 grade elevations.	<b>NOP</b>	11/08/2007
2007101043	Lakeview/Nuevo Master Plan for Water, Sewer, & Recycled Water Eastern Municipal Water District --Riverside The Eastern Municipal Water District (EMWD) will be the Lead Agency for the proposed Lakeview/Nuevo Area Wide Master Plan for Water, Sewer, and Recycled Water (Master Plan). The Master Plan consists of the planned infrastructure facilities needed to serve the rapidly growing number of development proposals, the existing development, and the remaining undeveloped properties within this portion of EMWD's service area in Lakeview/Nuevo. The facilities will provide needed flows and pressure to all properties within the Master Plan area and for future connections to or from outside the project boundary or for other water supply purposes. The facilities include all major transmission pipelines, reservoirs, pump stations, gravity sewer main, force mains, and lift stations. Development of the facilities will be installed in several stages depending on development approvals. Each development will be required to include the construction of their specific area facilities as designated in the Master Plan.	<b>NOP</b>	11/08/2007

2007101045	<p>Palmilla Project El Centro, City of El Centro--Imperial</p> <p>The proposal would involve the following actions: annexation of the site into the City of El Centro; a Specific Plan; a General Plan Amendment (07-01) from low density residential to medium density residential, R-3 multiple family residential, and CG general commercial; and Vesting Tentative Subdivision Map. The project would require annexation into the City of El Centro (EC 07-05) in order to connect to essential public services such as water and sewer. The annexation would include the entire Palmilla Specific Plan area as well as additional parcels that are not a part of the Palmilla project. These off site areas to be annexed include the off site area bounded by Villa Road to the south; Dogwood Road to the east; the Southern Pacific Railroad to the west, and Treshill Road to the north. Additionally, in order to prevent the occurrence of an "island" within the City of Imperial's sphere of influence, a City of Imperial annexation is proposed (IMP 04-06) north of Treshill Road.</p>	<b>NOP</b>	11/08/2007
2007102048	<p>Pacific Union College/Triad Development Plan Napa County --Napa</p> <p>The project applicant, Triad Communities, L.P., has submitted an application to the Napa County for the proposed Pacific Union College/Triad Development Plan. The project includes 380 units of new housing and replacement of 110 existing units on the PUC campus. The project would also include approximately 55,000 square feet of local-serving retail use plus a 20-unit inn, estimated at 17,000 square feet (which would replace approximately 66,000 square feet of existing commercial use), 70 acres of permanently preserved agricultural land, and a variety of supporting recreation, transportation and infrastructure improvements. The proposed development would be contained in three distinct neighborhoods: the Village Square, located west of Howell Mountain Road; Highland Oaks, located north of College Avenue; and within the PUC campus.</p>	<b>NOP</b>	11/08/2007
2007101040	<p>Conditional Use Permit #2007-04/Project Darwin, LLC Inyo County Planning Department --Inyo</p> <p>The proposed project involves the re-opening of the Darwin Mine. The mining activity is almost entirely underground and involves the mining of primarily the zinc and tungsten or with other amounts of silver, copper, lead and gold.</p>	<b>Neg</b>	11/08/2007
2007101041	<p>T.P.M. #373 / DOSCH Inyo County Planning Department Bishop--Inyo</p> <p>An application to subdivide a 1.18-acre parcel into two separate parcels of 0.58- and 0.60-acres each. Water supply will be through the Starlite Community Services District and wastewater will be through individual septic system.</p>	<b>Neg</b>	11/08/2007
2007102050	<p>Brush Creek Road Pedestrian Path Santa Rosa, Department of Public Works Santa Rosa--Sonoma</p> <p>The project consists of an 870-foot long and 5-foot wide pedestrian path that connects Brush Creek Park with Shadowhill Drive. The pedestrian path would be constructed on the east side of Brush Creek Road.</p>	<b>Neg</b>	11/08/2007

2007101058	<p>Conditional Use Permit #07-0017 ORNI 18, LLC/Geothermal Power Plant Imperial County Brawley--Imperial</p> <p>Ormat has submitted Conditional Use Permit #07-0017 proposing to construct a new 49.9 net megawatt binary power plant consisting of 6 Ormat Energy Converters, an IID transmission line interconnect, the geothermal well field beyond the 6 wells permitted by CUP 06-0021, pipelines to bring the geothermal fluids to the power plant and brine to wells for injection, and a water conveyance system to bring water from the Imperial Irrigation District to the power plant for cooling.</p>	<b>MND</b>	11/13/2007
2007101063	<p>Road Extension 07-01, Coastal Development Permit 07-11, Lot Line Adjustment 07-01, Variance 7229 and Planning Commission Design Review 07-08 Laguna Beach, City of Laguna Beach--Orange</p> <p>The applicant is requesting approval of a Road Extension, Coastal Development Permit, Lot Line Adjustment and Variance to extend a new street approximately 400 feet, from Ceanothus Drive, to serve four existing legal building sites and to construct one new house. The project proposes to reduce five existing legal building sites and to construct one new house. The project proposes to reduce five existing legal building sites to four building sites by modifying the interior boundaries. The variance is requested to improve a new street with a grade that exceeds 12 percent (maximum of 14 percent) and to encroach with drainage improvements and new road improvements into a significant natural watercourse. The application also includes a request for an exception for the Design Standards of Municipal Code Section 22.03.010 (Excavating Grading and Filling) for retaining walls that exceed five feet high.</p>	<b>MND</b>	11/13/2007
2007102066	<p>Morgan Design Review Marin County --Marin</p> <p>The project is a proposal to demolish an existing 4,189 square foot single-family residence, 950 square feet of garages, patios, landscape walls, and a swimming pool, and to construct a new 4,812 square foot single-family residence with a 772 square foot garage, and swimming pool with spa on a 23,993 square foot lot. The subject property is located on the south side of Woodland Road and on the northern bank of Tamalpais Creek.</p>	<b>MND</b>	11/13/2007
2007102067	<p>Zabaneh Mixed-Use Project Santa Rosa, City of Santa Rosa--Sonoma</p> <p>The applicant is proposing to develop the 1.4 acre parcel, constructing one new mixed-use building (retail on the bottom floor and six apartments on the upper floor), two 4-unit apartment buildings, one 2-unit apartment building, with parking below, and one laundry building with a studio apartment above. The applicant has applied for Design Review of the proposed building, as well as a Conditional use Permit for the mixed-use portion of the project, which is required pursuant to the PD-0437 zoning. The proposed apartments will have 2-3 bedrooms, and one studio unit. The proposed retail space will be broken up into 3 areas ranging in size from 1,315 sf to 3,547 sf. Proposed landscaping includes various trees, shrubs, perennials, grasses and ground cover throughout the site.</p>	<b>MND</b>	11/13/2007

2007101059	<p>desalination facility would help the Authority reduce reliance on imported water and improve the reliability of water supplied to the local communities. The proposed project would include four new wells sites, conveyance pipelines and expansion of the existing plant to accommodate the increase in capacity to 10 mgd.</p> <p>Saco Ranch Commercial Center (GPA/ZC 06-2247) Bakersfield, City of Bakersfield--Kern</p> <p>The proposed 300.98-acre Saco Ranch Commercial Center (GPA/ZC 06-2247) consists of an annexation of the site into the City of Bakersfield, an amendment to the Metropolitan Bakersfield General Plan Land Use Element, and a concurrent zone change. The project proposes a General Plan Amendment to designate 144.08 acres as GC (General Commercial). In addition, a concurrent zone change from A (Exclusive Agriculture) and M-2 PD (Medium Industrial-Precise Development), to C-2/PCD (Regional Commercial/Planned Commercial Development) (144.08 acres), C-O/PCD (Professional and Administrative Office/Planned Commercial Development) (30.5 acres), and M-2 (General Manufacturing) (126.4 acres) is proposed. The proposed project is located immediately northwest of the City of Bakersfield corporate limits within the City's Sphere of Influence (SOI), in an unincorporated area within the central portion of Kern County. The proposed project site is generally located at the southwest and southeast corners of Coffee Road and Seventh Standard Road, respectively, approximately ¼ mile west of State Route 99. The project proposes to develop a commercial center containing approximately 300.98 acres of retail, commercial office, and industrial uses. Approximately 144 acres of land will be used for retail stores, restaurants, and a movie theater. Commercial office uses are proposed on approximately 30.5 acres, and industrial uses are proposed on approximately 126.4 acres. In addition, the site is bisected from the northwest to the southeast by the Beardsley-Lerdo Canal, which is owned by the North Kern Water Storage District (NKWSD). The project applicant proposes to construct a bridge over the canal where the extension of Coffee Road will cross the canal.</p>	<b>NOP</b>	11/13/2007
2007101060	<p>Rio Bravo Ranch (GPA/ZC 06-1722) Bakersfield, City of Bakersfield--Kern</p> <p>The proposed project involves an amendment to the Metropolitan Bakersfield General Plan Land Use and Circulation Elements, an amendment to the Kern River Plan Element land uses within the proposed project boundary in order to conform to the requested General Plan Amendment land use designations, and a concurrent zone change. The project would allow for approximately 4,688 residential units, approximately 20.39 acres of general commercial, and 43.36 acres of mixed use commercial. In addition, approximately 734.54 acres of land will be reserved for the development of landscaped trails, parks, and open space areas that would link to the City's existing park and trail system and accommodate the recreational needs of the residents. There is a proposed amendment to the Northeast Bakersfield Specific Parks and Trails Plan in order to expand the plan area boundaries to include all of the proposed project area (the Project area that is generally to the east of Rancheria Road).</p>	<b>NOP</b>	11/13/2007

	federally threatened California red-legged frog.		
2007102083	Indian Creek Reservoir TMDL Oxygenation Project South Tahoe Public Utility District --Alpine The South Tahoe Public Utility District will implement a Hypolimnetic Oxygenation System to improve water quality in Indian Creek and comply with total maximum daily load requirements for 5 indicator parameters that received numeric targets. The State of CA Regional Water Quality District, Lahontan Region issued numeric TMDL targets in July 2002 for total phosphorous, dissolved oxygen, Secchi depth, chlorophyll a, and Carlson Trophic State Index with the long-term objective of maintaining the threshold between mesotrophic and eutrophic conditions in ICR.	<b>MND</b>	11/13/2007
2007101061	Imperial Beach Bicycle Transportation Plan and Palm Avenue Eco Bikeway Project CIP #S05-104 Imperial Beach, City of Imperial Beach--San Diego BTP - The BTP consists of an evaluation of existing conditions within the City of Imperial Beach, as well as future land use plans and anticipated development and population densities, to determine the best way to accommodate, improve, and promote safe and efficient bicycle travel within the City. Recommendations consist of Class 1 bicycle paths, Class 2 bicycle lanes, and Class 3 bicycle routes. The intent is to provide a comprehensive and coordinated plan for bicycle transportation that benefits the entire City so that specific proposals for bicycle-related improvements may be evaluated for conformance with the BTP. These future projects may require right-of-way acquisitions, modification of vehicle travel lanes, sidewalks, curbs, gutters, crosswalks, signage, and other modification for the public right-of-way. The specifics of potential future projects cannot be determined until such time as they are proposed.  Palm Avenue Eco Bikeway - The Palm Avenue Eco-Bikeway project consists of the reclassification of Palm Avenue, between 3rd and 7th Streets, from a four-lane collector to a two-lane collector with a two-way left turn lane. This reclassification will allow for modifications to existing motor vehicle travel lanes, parking areas, medians, landscaping, sidewalks, curbs, gutters, and signs, and the addition of Class 2 bicycle lanes along Palm Avenue. The purpose of the project is to provide an improved bicycle connection between the Bayshore Bikeway and the beachfront commercial area in Imperial Beach.	<b>NOP</b>	11/13/2007
2007101064	SunCal Companies Hesperia, City of --San Bernardino The primary actions being considered for the project are: (1) the Majestic Hills Specific Plan; (2) Annexation of property (1,537.3 acres) to the City of Hesperia; (3) General Plan Amendment; (4) Zone Change, including pre-zoning for areas outside the Specific Plan area but within the area to be annexed to the City; (5) Tentative Tract Maps; (6) Cancellation of Agricultural Land Contracts; and, (7) a Development Agreement.	<b>NOP</b>	11/13/2007

<b><u>Documents Received on Monday, October 15, 2007</u></b>			
2007101067	Hosking/SR 99 Commercial Development Bakersfield, City of --Kern The proposed regional commercial development consist of approximately 962,486 square feet (sq. ft.) of leasable retail space and associated surface parking lots, internal roads, landscaping, and an onsite stormwater retention basin. The commercial center would contain approximately 50 buildings - including two anchor buildings (175,800 and 150,000 sq. ft.), 13 major buildings (ranging between 12,000 and 57,000 sq. ft.), 14 shops (ranging between 4,800 and 13,800 sq. ft.), and 18 pads (ranging between 4,300 and 7,800 sq. ft). Also proposed is a 51,376-square foot theater that would contain 3,028 seats, and a 15,000 square-foot drug store. A multi-story hotel with approximately 300 rooms may also be a part of the proposed project.	<b>NOP</b>	11/13/2007
2007102076	Cambon Drive Mixed-Use Project San Francisco Planning Department San Francisco--San Francisco The proposed project would involve the demolition of two existing single-story structures on the site and the construction of a mixed-use project consisting of approximately 192 condominium units, 14,000 square feet of retail space, and fitness center and a club room, and below-grade parking for 248 cars and 61 bicycles. The proposed buildings would be four stories in height along Cambon Drive and range between two stories (retail) and four stories (residential) in height along 19th Avenue.	<b>NOP</b>	11/13/2007
2007102078	East West Connector Project Alameda County Transportation Authority --Alameda The East-West Connector Project is a 2.6-mile long roadway project between Interstate 880 (I-880) on the west and Mission Boulevard (State Route 238) on the east in south Alameda County, California. The proposed project would improve east-west access by widening two existing roadways (Decoto Road and Paseo Padre Parkway) from 4 lanes to 6 lanes, constructing a new 4-lane roadway segment, and making other improvements along the alignment.	<b>NOP</b>	11/13/2007
2007102084	Westborough at Easton Rancho Cordova, City of Rancho Cordova--Sacramento The project is a mixed-use development that seeks approval of a Specific Plan, General Plan Amendments, Zoning Map Amendments, a public facilities financing plan, public facilities infrastructure/phasing plan, a development agreement, and a large and small lot tentative map. Land uses on the project site include low-, medium-, and high-density residential; commercial; schools; public/quasi-public (for a fire station and other potential uses); parks, open space; a transit-oriented town center that includes residential, office, and commercial uses; and associated roadways and infrastructure.	<b>NOP</b>	11/13/2007
2007012061	General Plan Amendment Application No. 2007-01 - Agricultural Element Update Stanislaus County --Stanislaus The project consists of an update to the Agricultural Element of the Stanislaus County General Plan, as Ordinance Amendment to 3 chapters of the Stanislaus County Zoning Ordinance, and an update to the Stanislaus County Williamson Act Uniform Rules.	<b>Neg</b>	11/13/2007

<b><u>Documents Received on Monday, October 15, 2007</u></b>			
2006052161	Sanderson Ford Project and Annexations EIR Windsor, City of Windsor--Sonoma Four parcels totaling 26.48+/- acres comprise the project site. All four parcels are located with the Town of Windsor's voter approved urban growth boundary. The proposed project involves the annexation of the northern three parcels, totaling approximately 23+/- acres; a Sphere of Influence (SOI) adjustment for approximately 8+/- acres (two northern parcels); rezoning of approximately 23 acres to Gateway Commercial (northern three parcels); a Use Permit to allow an automobile dealership (i.e., Sanderson Ford) on the northernmost 7 acre parcel; and Design Review for the automobile dealership on the 7 +/- acre parcel to evaluate the proposed project's site, architectural and landscape design. No specific development is proposed for the three southern parcels totaling approximately 19.5 acres.	<b>NOD</b>	
2006072104	Downtown Santa Rosa Station Area Specific Plan Santa Rosa, City of Santa Rosa--Sonoma Land Use Plan for area generally located within one-half mile of planned commuter rail station in downtown. Plan would permit a mix of residential, retail, office and civic uses through development and/or redevelopment in plan area.	<b>NOD</b>	
2007011060	The 2006 Klamath River Restoration Grant Program in Humboldt and Siskiyou Counties Fish & Game #1 --Shasta The project proposes the installation of cattle watering access lanes on the Shasta River.	<b>NOD</b>	
2007062076	Jennings GPA/ZR/PMS/LLA Humboldt County Community Development Services Eureka--Humboldt A General Plan Petition was supported by the Board on 1/2/2007 to allow the applicant to submit an application to change the existing zone from AG-B-5-(5) to R-1-B-3/GO and the land use designation from AR-5 to RL. Since the GPP, a subdivision violation was unearthed which has now triggered an LLA with the parcel to the south to adjust +/- 250 sq. ft. of occupied space. The GPA/ZR is needed to facilitate the subdivision of 303-111-50 which is intended to separate two existing residences. All three of the existing and proposed parcels are developed with one residence each, community water, and on-site sewage disposal.	<b>NOD</b>	
2007071154	Chittenden Pass Realignment Caltrans #5 Watsonville--Santa Cruz The California Department of Transportation (Caltrans) proposes to realign State Route 129 in an area known as Chittenden Pass and Pajaro Gap in Santa Cruz County approximately eight miles east of the City of Watsonville. This project would remove a compound curve and replace it with a single continuous curve, for safety purposes. This curve correction would require the existing retaining wall to be removed and replaced with a soldier pile retaining wall.	<b>NOD</b>

Project includes repair of a joint utility trench (sewer and electrical).	<b>NOE</b>	
2007108197	Replacement of the Tapo Canyon Water Treatment Plant Ventura County Waterworks District #8 Simi Valley--Ventura Installation of a water treatment plant to replace the existing treatment plant that was severely damaged in the 1994 Northridge Earthquake. The project will reduce the hardness in the local groundwater pumped from two existing District wells in the Gillibrand Basin to produce up to 1 million gallons per day of potable water supply for its water customers.	<b>NOE</b>	

## CEQA Daily Log

Documents Received during the Period: 10/01/2007 - 10/15/2007

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, October 15, 2007</u></b>			
2007108198	Issuance of Streambed Alteration Agreement No. R1-07-0444, Garden Gulch Creek, Tributary to Weaver Creek Fish & Game #1 --Trinity The project proposes the installation of a 6-foot diameter by 20-foot long culvert in Garden Gulch Creek.	<b>NOE</b>	
2007108199	Issuance of Streambed Alteration Agreement No. R1-07-0546, Willow Creek, Tributary to Klamath River Fish & Game #1 --Siskiyou The project proposes the construction of an armored wet ford across Willow Creek.	<b>NOE</b>	
2007108200	Issuance of Streambed Alteration Agreement No. R1-07-0366, Browns Creek, Tributary to the Trinity River Fish & Game #1 --Trinity The project proposes the construction of a small recreational dam using river cobble across a portion of Browns Creek. At all times the structure will provide fish passage.	<b>NOE</b>	
2007108201	Issuance of Streambed Alteration Agreement No. R1-07-0540, Trinity River, Tributary to the Klamath River Fish & Game #1 --Trinity The project proposes the replacement of an existing seep well and the installation of a gravel infiltration gallery.	<b>NOE</b>	
2007108202	Bridge Hinge Repair Caltrans #3 Sacramento--Sacramento Caltrans proposes to design and install a temporary steel pipe support system.	<b>NOE</b>	
2007108203	Big Horn Mobile Home Park Creek Restoration (1600-2007-0277-R2) Fish & Game #2 Angels Camp--Calaveras Restoration of a seasonal creek by means of the creation of a "V" ditch ~220' long by 6' wide by 3' deep. The ditch will follow the original path of the seasonal creek through a sediment filled man-made pond that had been created on the site. The new creek bed will be fabric lined and then layered with rock rip-rap. Best management practices will be followed to minimize any initial sediment movement.	<b>NOE</b>	
2007108204	Donner Creek Pipeline Protection Project (1600-2007-0352-R2) Fish & Game #2 Truckee--Nevada Placement of a temporary protective blanket of concrete matting over an ~30 foot long section of an exposed sewer pipe on the bank of Donner Creek using an excavator. The blanket is intended to protect the pipeline from potential rupture from impacts of debris washing down the creek or falling down the adjacent hillside. This measure is considered temporary until a permanent relocation of the pipeline in conjunction with a highway improvement project can occur.	<b>NOE</b>

Documents Received during the Period: 10/01/2007 - 10/15/2007

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, October 15, 2007</u></b>			
2007108205	New Cingular at Westwood Park Sacramento County Dept. of Environmental Review Citrus Heights--Sacramento The proposed project is to lease District property for a wireless telecommunications equipment compound. A Use Permit will be required to install the equipment and detailed environmental analysis will be conducted at that time.	<b>NOE</b>	
2007108206	T-Mobile at Cherry Island Sacramento County Dept. of Environmental Review --Sacramento The project consists of releasing County owned property to T-Mobile/Omnipoint Communications, for the use of the land in order to construct and operate a telecommunication facility. A use permit will be required for installation of the cellular facilities and further environmental review will be conducted at that time.	<b>NOE</b>	
2007108207	Suscol Creek Winery Invasive Removal Fish & Game #3 Napa--Napa The project involves non native invasive Himalayan blackberry along Suscol Creek, tributary to the Napa River south of Suscol Ferry Road. The Dept. of Fish and Game is issuing a Streambed Alteration Agreement Number 1600-2007-0323-3 pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2007108208	4551 Old Redwood Highway Levee Breach Emergency Repair Project Fish & Game #3 Petaluma--Sonoma Replacement of an existing tidegate on a Petaluma River levee. The levee and tidegate failed in the winter of 2006. The levee has been temporarily repaired, but the floodgate remains inoperable. If the tidegate is not replaced, the property, consisting of agricultural fields, a residence, and other structures, is likely to flood again and breach the levee along the Petaluma River. All work will be done at low tide, and an aquadam silt curtain will be installed to minimize impacts to water quality in the Petaluma River.	<b>NOE</b>	
2007108209	CERTS-Microgrid Laboratory Test Bed Energy Commission -- The purpose of this agreement is the development of a micro-grid system that will hopefully alleviate local black-out and improve power quality. The purpose of this amendment is a time extension from Dec. 31, 2007 to June 30, 2008. The subcontractor, American Electric Power, ran into delays in the testing of the CERTS micro-grid concept. Testing is currently well underway, but false tripping of the reverse power function that is designed to meet IEEE 1547 requirements in an example of the unexpected issues that have been encountered.	<b>NOE</b>	
2007108210	Conditional Use Permit CUPH07-010 and Design Review Permit DR07-060 Tuolumne County --Tuolumne Conditional Use Permit CUPH07-010 and Design Review Permit DR07-060 to allow partial replacement of the roof on an existing commercial building. The project site is a 0.2+/- acre parcel zoned C-O:D:H:MX (Neighborhood Commercial: Design Control Combining: Historic Combining: Mobilehome Exclusion Combining) under Title 17 of the Tuolumne County Ordinance Code.	<b>NOE</b>
