# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1-15, 2008**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger

Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2007**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

<b><u>Documents Received on Wednesday, October 01, 2008</u></b>			
2007101110	Van Nuys Airport Phaseout of Noisier Aircraft Los Angeles World Airports Los Angeles, City of, Van Nuys--Los Angeles Los Angeles World Airports (LAWA) proposes to establish a maximum noise level for aircraft arriving at and departing from Van Nuys Airport. This would be accomplished by gradually phasing out aircraft that generate noise in excess of the established level of 77 dBA, beginning with the noisiest aircraft and periodically lowering the maximum noise level. The project proposes no physical development or change in land use, only operational modifications at the existing facility.	<b>EIR</b>	12/01/2008
2008101003	Corona - Western Promenade Intertie Western Municipal Water District Corona--Riverside WMWD intends to construct an intertie between its water supply system and the City of Corona's water supply system in Promenade Avenue near its intersection with McKinley Street.	<b>MND</b>	10/30/2008
2008101004	Freeman (PLN070032) Monterey County --Monterey Minor Subdivision and Tentative Map to allow the subdivision of one 7.35 acre parcel into four 1 acre parcels and one 3.35 acres remainder parcel. The property is located on North HWY 101 between Moro Rd. and HWY 101, Salinas (Assessor Parcel No. 125-211-001-000), North County Non-Coastal area.	<b>MND</b>	10/30/2008
2008102001	Effluent Pipeline Project Galt, City of Galt--Sacramento The City of Galt proposes to construct a pipeline that would convey secondary treated effluent during the winter months around the existing effluent storage reservoir at its wastewater treatment plant (WWTP) to improve effluent water quality prior to discharge into Laguna Creek (via Skunk Creek). The project includes construction of ~2,300 lineal feet of 36" pipeline around the storage reservoir, construction of a new connection to the existing outfall structure, an effluent flow distribution box, and a valve vault.	<b>MND</b>	10/30/2008
2008102002	Intermountain Conservation Camp Replacement Project Forestry and Fire Protection, Department of --Lassen The purpose of the project is to allow the ICC to more efficiently operate at its current capacity, primarily by replacing and expanding the current infrastructure and service facilities. The ICC is currently an 80-bed facility; project implementation will increase inmate capacity to 88 beds. This is considered to be an insignificant increase with regard to environmental impacts. The project will include construction of a new ~10,938 square foot barracks, with the addition of two shower/restroom areas; construction of a new ~5,000 square foot kitchen/mess hall building; a new ~4,250 square foot dayroom building; a ~3,960 square foot addition to the CalFire administration building; and a ~750 square foot addition to the CDCR administration building; construction of ~700 linear feet of sewer line; ~500 linear feet of water line; and the installation of electrical, telephone, and gas lines to new buildings. The project will include the paving of the existing dirt access road; replacement of some existing tarmac; the addition of	<b>MND</b>	10/30/2008

	some pavement and vehicle aprons; and the construction of new walkways within the ICC. The project will include the removal of approximately two dozen pine and oak trees.		
2008102002	Intermountain Conservation Camp Replacement Project Forestry and Fire Protection, Department of --Lassen The purpose of the proejct is to allow the ICC to more efficiently operate at its current capacity, primarily by replacing and expanding the current infrastructure and service facilities. The ICC is currently an 80-bed facility; project implementation will increase inmate capacity to 88 beds. This is considered to be an insignificant increase with regard to environmental impacts. The project will include construction of a new +/-10,938 square foot barracks, with the addition of two shower/restroom areas; construction of a new +/-5,000 square foot kitchen/mess hall building; a new 14,250 square foot dayroom building; a 3,960 square foot garage; a +/- 4,240 square foot vehicle maintenance facility; an +/-880 square foot addition to the CalFire administration building, and a +/-750 square foot addition to the CDCR administration building; construction of a +/-700 linear feet of sewer line; +/-500 linear feet of water line; and the installation of electrical, telephone, and gas lines to new buildings.	<b>MND</b>	10/30/2008
2008102004	Curtis Park Village Combined Sewer Regional Storage Project Sacramento, City of Sacramento--Sacramento The City of Sacrametno Combined Sewer System (CSS) has been determined to be in need of rehabilitation, due to inadequate hydraulic capacity. The proposed project consists of the construction of various sewer segments and, potentially, a pumping station, as well as the construction of a large underground storage facility within the proposed Curtis Park Village project site. The purpose of the proposed project is to store approximately 300,000 cubic feet of stormwater during heavy rainfall periods in order to lower the hydraulic grade line, thus reducing the potential for flooding in the Curtis Park neighborhood and other surrounding areas.	<b>MND</b>	10/30/2008
2008102005	Special Education High School Stanislaus County Ceres--Stanislaus The Stanislaus County Office of Education is proposing to construct Special Education High School serving a maximum of 180 students in grades 9-12 on a 2.4 acre site.	<b>MND</b>	10/30/2008
2008101002	16 East California Project Pasadena, City of Pasadena--Los Angeles The proposed Project includes demolition of the three existing on-site structures totaling approximately 12,635 square feet and surface parking areas in order to develop a four-story, 113,200 gross square feet of office building with 255 parking spaces provided within a two-level subterranean parking garage.	<b>NOP</b>	10/30/2008
2008102003	Railroad Avenue Specific Plan EIR Pittsburg, City of Pittsburg--Contra Costa Preparation of a specific plan for the area surrounding the future eBART Station at the intersection of Railroad Avenue and State Route 4. This Railroad Avenue Specific Plan would provide for the creation of new land use classifications, development policies and guidelines, urban design guidelines, planned community	<b>NOP</b>	10/30/2008

	resources, transportation and circulation improvements, utility and infrastructure improvements, implementation strategies, and phasing recommendations. If adopted, the Specific Plan would guide all new development in key sub-areas located within the Specific Plan Area. Existing developments would not be directly affected unless the occupants or owners choose to expand or change their structures, grounds, or uses in accordance with Pittsburg Municipal Code (PMC) Chapter 18.76, Nonconforming Uses and Structures.		
2008101005	Viborg Conditional Use Permit ED07-083 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by Paul Viborg for a Conditional Use Permit, Revised Reclamation Plan and Interim Management Plan to allow for the operation of the existing North River Road Concrete and Asphalt Recycling operation. This includes on-site sorting and stockpiling of sand, gravel, concrete and asphalt, a portable rock and recycling crusher and trucking scales. The project site currently consists of a vested sand and gravel mine, however, beginning in 1995, the applicant had steadily decreased mining activities and has established a concrete and asphalt recycling facility on the site.	<b>Neg</b>	10/30/2008
2004062013	Revisions to the Analysis in the Oak to Ninth Mixed Use Development EIR Prepared to Comply with the Alameda County Superior Court Order In Case No. RG06-280345 Oakland, City of Oakland--Alameda The project would construct approx. 3,100 residential dwelling units (a mix of flats, townhomes and lofts) on 13 development parcels. Approx. 200,000sf. of ground-floor retail/commercial space would be distributed throughout each of the 13 development parcels and would be designed to provide a variety of active retail, restaurant, service, and small office uses to support the new residential neighborhood and serve visitors to the site. Approx. 31.89 acres (or 50%) of the site would be developed with parks and open spaces, including an existing 7.7 acre park (Estuary Park). The project would demolish a maximum of 160,000 sf. of the existing 180,000sf. Ninth Avenue Terminal building (an historic resource) to create the largest (9.7 acre) of a series of interconnected parks and water front space. The project would retain a minimum of 20,000sf. of the Terminal's Bulkhead Building envisioned to contain a variety of uses consistent with the Tidelands Trust. A continuous public pedestrian trail and Class I bicycle facility along the entirety of the project's waterfront would also be created as a segment of the Bay Trail. The majority of the existing uses and structures on the project site would be removed.	<b>Oth</b>	11/14/2008
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Project is a Conditional Use Permit to expand the parking area of the existing Greek Orthodox Church at the location above, for an addition of 87 spaces. Site plan includes proposed new landscaped areas. Stormwater treatment is to be handled on-site.	<b>NOD</b>

2004062094	Shad Pad Motorcross / ATV Park - CUP 2004-0010 Yuba County Marysville--Yuba The California Dept. of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2007-0396-R2, pursuant to Sec. 1602 of the Fish and Game Code to the project applicant, E Street MX, Inc. This project will permit the operation and maintenance of the E Street Motorcross Park, a competitive and recreational motorcycle/off-highway vehicle facility which includes a main track, back track, ATV track, youth track, parking areas, security fencing, lighting, and concession activities such as snack bars and shops located in non-permanent facilities.	<b>NOD</b>	
2006091107	General Plan Update 2006-2026 Dinuba, City of Dinuba--Tulare Comprehensive General Plan Update for the City of Dinuba, including an update to the zoning ordinance and map, and a subsequent sphere of influence amendment. The planning horizon year is 2026. The General Plan Update includes a Background Report, Policies Document, DEIR and FEIR.	<b>NOD</b>	
2008072088	San Francisco Garter Snake Recovery Action Plan San Francisco, City and County of Millbrae, San Bruno--San Mateo The purpose of the Recovery Action Plan is to increase the population of the San Francisco garter snake (SFGS) at the West of Bayshore (WOB) property owned by the San Francisco Airport (SFO). The applicant proposes to increase the SFGS population by creating habitat conditions suitable for the primary prey species of SFGS, the federally threatened California red-legged frog (CRLF) and the Pacific tree frog. The primary goals of the plan are to expand open water habitat for the breeding of CRLF along Cupid Row and south Lomita Canals, deepened existing shallow seasonal wetlands throughout the property and enhance upland habitats for SFGS. Flood control maintenance, fuel abatement activities and access road enhancement will also occur on the property. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2008-0211-03 pursuant to Section 1602 of the Fish and Game Code to the project Applicant, San Francisco International Airport.	<b>NOD</b>	
2008082097	Berg-Latschaw Vineyard - Vineyard Conversion #P08-00017-ECPA Napa County Napa--Napa The project includes the conversion of approx. 3.6 acres (2.9 net acres) to vineyard, including earthmoving activities, and installation and maintenance of erosion control measures associated with the new vineyard within a 5.02 acre holding. The project applicant has prepared an Erosion Control Plan (ECP) as required by Napa Co. code (Ch. 18.108, "Conservation Regulations")	<b>NOD</b>	
2008108001	Opportunistic Sand Replenishment Cabrillo Power I LLC ROE (07/08-SD-41) Parks and Recreation, Department of Carlsbad--San Diego This project consists of Cabrillo Power I LLC, dredging the outer Hazienda Lagoon as ongoing maintenance of the cooling processes of the Carlsbad State Beach area, including 30% onto South Beach, 30% onto North Beach, and the balance onto the middle beach area. The sand will be pumped onto beach areas. A Right of Entry Permit is required.	<b>NOE</b>

2008108002	<p>Install Path And Interpretive Signs Parks and Recreation, Department of --Monterey</p> <p>Install path and interpretive signs at the Custom House, the Old Whaling Station and the Stevenson House within Monterey State Historic Park. Mount signs on posts with concrete footings in holes measuring 2' wide by 2.5' deep.</p> <p>A DPR archaeologist will monitor all ground disturbing activities to ensure that no cultural resources are impacted by the project. Signs and panels will comply with "California State Parks Accessibility Guidelines."</p>	<b>NOE</b>	
2008108003	<p>Ed Z'berg Sugar Pine Point State Park Parks and Recreation, Department of --El Dorado</p> <p>Conduct subsurface soil testing at the Day Use Area within Ed Z'berg Sugar Pine Point State Park. With a shovel and 4 inch diameter hand auger, dig up to 30 excavation pits to a depth of approximately 3.5 feet long and wide by 2.5 feet deep. Use a hand auger to test 30 sites outside of the excavation pits to a depth of approximately 2.5 feet. Refill each auger hole and excavation pit once testing is completed. The purpose of testing is to evaluate subsurface soil composition for the design of a proposed accessibility project to upgrade existing and install new accessible public day use facilities. The accessibility project will be evaluated in a separate environmental document.</p> <p>DPR-approved standard project requirements have been incorporated into the Subsurface Soil Test Project. A list of project-specific project requirements can be viewed by contacting the environmental coordinator listed below.</p>	<b>NOE</b>	
2008108004	<p>Caltrans, Interstate 5, Shasta River Bridge Rehab Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Weed--Siskiyou</p> <p>The purpose of the proposed project is to repair and upgrade the northbound and southbound bridges to accommodate truck load weights and withstand potential earthquakes. Caltrans proposes repairing and retrofitting the northbound bridge and replacing the deck of the southbound bridge, which span the Shasta River, a tributary to the Klamath River. The proposed project will include girder strengthening on each of the bridges, placing a concrete overlay on the new southbound bridge deck, replacing the metal beam guard rails, improving bridge approach rails and new joint seals, and providing permanent post construction storm water treatment within the project area. The scope of work proposed would require the installation of a water diversion which would temporarily impact approximately 7,000 square feet of the Shasta River. In addition, access to the river would require the excavation of the stream bank, resulting in an additional 375 square feet of temporary impacts associated with the project. The total area of soil disturbance within the project is 1.6 acres. However, the scope of work for the project does not propose any permanent impacts to waters of the U.S. or waters of the State.</p>	<b>NOE</b>	
2008108005	<p>Miller Creek Bank Stabilization 2008 -- Elgie Fish &amp; Game #3 San Rafael--Marin</p> <p>The proposed temporary stream bank stabilization project involves the installation of a pipe and wire revetment (5' height x 15' length, geo-textile bags filled with native alluvium) along an approximate 15 foot reach of Miller Creek at the toe of the creek to prevent scour in this area. The proposed project also involves planting</p>	<b>NOE</b>

2008104002	Flight Test to the Edge of Space U.S. Air Force Lancaster--Kern, Los Angeles, San Bernardino Note: Joint Document: Environmental Assessment/FONSI  The U.S. Air Force proposes to conduct up to 48 flight tests annually at very high altitudes (up to 264,000 feet above sea level) over the western U.S. and Pacific Ocean. These flight tests would reach speeds faster than the speed of sound and land at Edwards AFB, CA. This EA serves as a foundation for a first flight in 2011 and would be re-evaluated after 2015. This EA evaluates 6 alternatives addressing the launch, flight, and landing phase at Edwards AFB.	<b>JD</b>	11/14/2008
2008101007	Spaulding Grading Permit San Luis Obispo County --San Luis Obispo Request by Romolo Depaolis for a grading permit to improve an existing agricultural road to driveway standards, and to grade for a new single family residence that will replace an existing mobile home. These actions will result in the disturbance of approximately 22,000 square feet, including approximately 2,475 cubic yards of cut and 1,950 cubic yards of fill, on a 21 acre parcel. The proposed project is located at 4985 Lime Road, approximately 2,500 feet west of the intersection of Chaparral Road and Linne Road, approximately one mile east of the City of Paso Robles.	<b>MND</b>	10/31/2008
2008101010	Conditional Use Permit 08-18 Palmdale, City of Palmdale--Los Angeles An application by the City of Palmdale to develop a public park on a 132-acre-site, in a minimum of two phases. Development within the first phase will include construction of a 15 foot wide all weather access road, drainage improvements and staging area for the proposed A.C. Wamack Park and minor roadway improvements along Godde Hill Road. Subsequent phase(s) will include an overnight group camping facilities, restrooms, an amphitheater, picnic sites, hiking and equestrian trails.	<b>MND</b>	10/31/2008
2008102006	Wood River Farms Tentative Parcel Map Weed, City of Weed--Siskiyou The proposed project would subdivide a single 38.06-acre parcel in the City of Weed (060-581-120) into twelve (12) parcels that would be designated and zoned for limited industrial development. Lot sizes would range from 0.38-acre to 8-30-acres, with an average lot size of 2.96 acres.	<b>MND</b>	10/31/2008
2008102007	Freeman Minor Subdivision Humboldt County Eureka--Humboldt The minor subdivision of a vacant 57 acre parcel into four (4) parcels and a Remainder. The parcels will range in size from 5.85 - 27.9 acres. Sewage disposal and geologic reports have been submitted to verify suitable residential building sites on all of the proposed parcels. These parcels will be served by Berta Road off Elk River Road. During the development of the Eureka Community Plan (ECP) portions of the Elk River valley were zoned AG-B-6 which prohibited further subdivision given the flooding and access issues associated with Berta Road and the Elk River valley. The subject parcels, however, were intentionally left	<b>MND</b>	10/31/2008

	with a 5-acre minimum and the option to be subdivided in the future. This project does require a Firesafe exception which was granted by Calfire.		
2008102010	Solyndra Manufacturing Plant Fremont, City of Fremont--Alameda The applicant, Solyndra, Inc. is proposing to construct a 609,650 square foot photovoltaic (PV) manufacturing facility on a 30 acre vacant portion of a 42.8 acre site located at 47422 Kato Road. The project includes a subdivision map to create an individual 30 acre parcel for the manufacturing plant and Zoning Administrator review for design and operation of the facility. The proposed manufacturing facility layout contains 530,200 square feet of manufacturing plan floor area, 64,000 square feet of ancillary office space, 11, 450 square foot cafeteria, and a 4,000 square foot employee fitness center.	<b>MND</b>	10/31/2008
2008102011	Zoning Text Amendment RZ-2-08 Brisbane, City of Brisbane--San Mateo Amend SP-CRO District regulations to permit child care centers (note that the SP-CRO District is a former municipal refuse landfill adjoining US 101).	<b>MND</b>	11/03/2008
2007062016	Natomas Levee Improvement Program Landside Improvements Phase 2 Project Sacramento Area Flood Control Agency Sacramento--Sacramento Note: Subsequent NOP  The proposed project includes the Phase 2 project evaluated in the original 2007 Phase 2 Project EIR (November 2007) and the project modifications addressed in the SEIR. The project entails improving the levee system that protects the 53,000-acre Natomas Basin in northern Sacramento County and Southern Sutter County, California, including a portion of the City of Sacramento. The Natomas Basin is generally bounded by leveed reaches of the Natomas Cross Canal (NCC) on the north, the Sacramento River on the west, the American River on the south, and the Pleasant Grove Creek Canal (PGCC) and Natomas East Main Drainage Canal (NEMDC)/Steelhead Creek on the east.	<b>NOP</b>	10/31/2008
2008101006	Fairhaven/Lincoln and Santa Clara/Lincoln Intersection Modifications Santa Ana, City of Santa Ana--Orange Since certification of the Santa Ana Second Main Track Project Environmental Impact Report (EIR) by the Southern California Regional Rail Authority on June 4, 2002 (SCH# 2000091065), new information has been received with regard to physical hazards that will require project revisions and additional environmental analysis, in accordance with Section 15162 of the CEQA Guidelines. The revised project consists of intersection and roadway improvements along Lincoln Avenue to remedy design and safety hazards. The impacts associated with additional construction and operational changes to the two intersections and roadway segment were not analyzed in the previously certified EIR.	<b>NOP</b>	10/31/2008
2008102008	Proposed Changes to the Housing Element of the General Plan for Humboldt County Humboldt County --Humboldt This project is comprised of two (2) parts. One part of the project is the update of the Humboldt County Housing Element, a required Element of the General Plan.	<b>NOP</b>	10/31/2008

	<p>The Element is currently certified as in compliance with State law by the State Housing and Community Development Department. It identifies housing needs in the unincorporated areas of the County, and directs the implementation of programs to address those housing needs. The update is necessary to respond to changes in housing needs over the past five (5) years; new information provided by the State Department of Finance; to comply with State law regarding Housing Elements; and to adopt local policy options. The second part of the project is the adoption of numerous zoning ordinance changes and plan changes to implement the policies and programs of the Element.</p>		
2008101008	<p>City of Barstow Housing Element Update Barstow, City of Barstow--San Bernardino</p> <p>The proposed project consists of the adoption of the updated Housing Element of the City of Barstow General Plan. The current Housing Element was prepared in June 2000 and was updated in accordance with Article 10.6, Sections 65580-65589.5 of the California Government Code.</p>	<b>Neg</b>	10/31/2008
2008101009	<p>Borden Road and Bridge Project San Marcos, City of San Marcos--San Diego</p> <p>The proposed project is the construction of a bridge over San Marcos Creek and a short section of roadway on either side to complete Borden Road between Twin Oaks Valley Road and Woodward Street (approximately 700 feet total). Project will include the reconfiguration of the existing Borden Road/Twin Oaks Valley Road and Borden Road/Woodward Street intersections, acquisition of additional road right-of-way, continuation of a hiking/equestrian trail, the realignment of drainage channels, and the creation of additional wetlands and the planning of riparian habitat.</p>	<b>Neg</b>	10/31/2008
2008102009	<p>Science/Math/Central Plant and Performing/Fine Arts Buildings at College of Marin, Kentfield, CA Marin Community College District --Marin</p> <p>The existing Fine Arts Wing of the Performing Arts Building (34,000 square feet), Austin Science Building, and other buildings would be demolished. The Performing Arts Building would undergo modernization. This Initial Study also evaluates 1) A new Science/Math/Central Plant (SMCP) building that would include science classrooms and the main plant equipment for the campus such as electrical/mechanical equipment; and 2) a new Fine Arts Building, the Arts Plaza and the New Fine Arts Addition (wing of Performing Arts Building). The new SMCP would have a gross floor area of 76,945 square feet and a final building height of 3 to 4 stories or 61.5 feet. The existing 86,500-square foot Performing and Fine Arts Buildings would be reduced in size to 61,500 square feet and would become the Performing Arts Building only. In the remodeled Performing Arts Building, two new dance studios would be added. The new Fine Arts Building would have a gross floor area of 22,570 square feet, spread over three floors.</p>	<b>Neg</b>	10/31/2008

<b><u>Documents Received on Monday, October 06, 2008</u></b>			
2007091018	<p>Marina Del Rey Affordable Housing Policy Los Angeles County --Los Angeles</p> <p>The Mello Act (Government Code section 65590, et seq.) mandates that each local government whose jurisdiction is situated, in whole or in part, within the Coastal Zone, has the responsibility to require the replacement of housing units occupied by persons or families of low or moderate income when it approves the conversion or demolition of those units, and to require the provision of housing units for persons or families of low or moderate income, where feasible, when it approves new housing developments in the Coastal Zone. The County of Los Angeles is the owner of all real property in the unincorporated territory of Marina Del Rey, which includes a small craft harbor and adjacent lands, all within the Coastal Zone. The County also leases landside and waterside parcels in Marina Del Rey for development. The County is the primary land use regulatory authority for Marina Del Rey through the Marina Del Rey Local Coastal Program (LCP) including the Marina Del Rey Specific Plan. The LCP, through the Specific plan, establishes land use policy, development standards, and guidelines, which are the principal regulatory basis for future development, preservation, and reconstruction efforts in Marina Del Rey.</p>	<b>FIN</b>	
2007041016	<p>Moises &amp; Leticia Ramirez Zone Change # 06-0005 Imperial County Calexico--Imperial</p> <p>The applicant/landowner, Moises &amp; Leticia Ramirez has submitted zone change #06-0005 to allow for a truck freight/trailer storage yard on the above property. The project proposes to have approximately 195 truck/trailer parking spaces. The proposed truck/trailer storage business would be operated seven (7) days per week, twenty-four (24) hours per day.</p>	<b>MND</b>	11/04/2008
2008101025	<p>I-10 Community Annexation Desert Hot Springs, City of Desert Hot Springs--Riverside</p> <p>The City of Desert Hot Springs proposes to annex ~4,000 acres of unincorporated territory under the jurisdiction of the County of Riverside into the City's municipal service boundaries. This would increase the size of the City from ~23 sq. miles to ~29.25 sq. miles. Existing County of Riverside General Plan policies would be retained, so that the present rules governing land uses, circulation, open space, etc. would not change. Since the County's current zoning district standards for this area are not in conformance with the County's land use designations, the City proposes to re-zone this land with its own zoning district standards that correspond most directly with the County's land use policies for this area.</p>	<b>MND</b>	11/04/2008
2008101026	<p>CD #23.08.1-Buttonwillow Water System Improvements Kern County --Kern</p> <p>The proposed project consists of the design and installation of a new domestic water storage tank, booster pump station, and connection of the new tank to the Buttonwillow Co. Water District water system. The purpose of the project is to provide a safe, reliable, and adequate supply of water for the unincorporated community of Buttonwillow. Domestic water service to the Buttonwillow community is provided by the District-owned water system, which provides 434 service connections to approx. 1,215 residents. The new water tank will provide from 250,000 to 500,000 gallons of additional water storage capacity, which will enable the District to provide adequate storage capacity for domestic and fire protection</p>	<b>MND</b>	11/04/2008

2004051039	Robertson Ranch Master Plan-EIR 03-03 Carlsbad, City of Carlsbad--San Diego Request for approval of a Planned Development Permit Amendment for building elevations and plotting for the development of 109 single-family detached homes within Planning Area 17 of the East Village of the Robertson Ranch Master Plan.	<b>NOD</b>	
2005031022	Vesting Tentative Map No. 6244 Taft, City of Taft--Kern The proposed project is the construction of residential housing on portions of a 125.89-acre parcel on the western edge of the City of Taft. The total developed area within the parcel will be 96.86 acres. Project implementation will result in impacts to the San Joaquin antelope squirrel ( <i>Ammospermophilus nelsoni</i> ) and the San Joaquin kit fox ( <i>Vulpes macrotis mutca</i> ), which are known to occur on the project site; these species are designated as Threatened under the California Endangered Species Act (CESA).	<b>NOD</b>	
2007081114	Hancey Tentative Parcel Map; TPM 20999, ER 06-03-001 San Diego County Unincorporated--San Diego The project is a Tentative Parcel Map to subdivide two parcels measuring a total of 14.39 acres into four parcels measuring.	<b>NOD</b>	
2008041135	R2007-01655, ROAK200700033, RCUP200700126, RPP200701035, RENV200700103 Los Angeles County Santa Clarita--Los Angeles SAA # 1600-2008-0170-R5 - Larry Rasmussen intends to alter the streambed by constructing a single family residence. Three drainages will be impacted from the construction on the 40 acre parcel. Construction will include a driveway, four out-buildings and the home itself. Impacted portions of the drainags will either be re-routed around the developed portions or run through culverts. A total of five jurisdictional drainages (0.198 acres) are present on the project site.	<b>NOD</b>	
2008052093	Santa's Village Road Guardrail Caltrans #5 Scotts Valley--Santa Cruz Caltrans proposes a safety enhancement project that would construct an outside shoulder, install a concrete guardrail, improve drainage facilities, remove fencing, relocate utilities, and construct a retaining wall along the southbound lanes of SR 17. The project is in Santa Cruz COunty near the City of Scotts Valley from 0.3 mile north of Santa's Village Road to 0.02 mile south of Crescent Drive.	<b>NOD</b>	
2008081024	Aliso Creek Runoff Recovery, Reuse, and Conservation Project South Coast Water District Laguna Beach--Orange Project will withdraw urban runoff from Aliso Creek for treatment and reuse.	<b>NOD</b>	
2008081122	Strawberry Peak Communications Tower Replacement Project Forestry and Fire Protection, Department of --San Bernardino The proposed project involves replacement of two-existing communications towers and associated structures on Strawberry Peak, an unincorporated area of San Bernardino County. The proposed project would demolish and replace a 40-foot communication tower, an equipment vault, and other supporting infrastructure to	<b>NOD</b>

	Street, Dolores Avenue, and in Cabazon Water District [CWD]-owned property with Assessor's Parcel Number [APN] 525-107-009) and two 6-inch to 8-inch diameter sewer laterials. Phase II, anticipated for construction within the next one to two years, including either a Wastewater Treatment Plant located within CWD-owned property (APN 525-170-009) or an Interim Lift Station located within APN 525-170-009 and the Elm Street Force Main, which would extend northerly therefrom within Elm Street, then connect to an existing 8-inch diameter force main at the existing Arrowhead Water Bottling Plant. Said existing 8-inch diameter force main currently conveys wastewater from the Arrowhead Water Bottling Plant to an existing wastewater treatment plant that is owned and operation by the Morongo Band of Mission Indians and is located just north of Interstate 10. If this alternative is selected, wastewater flows conveyed through the Elm Street Force Main would be treated at said existing wastewater treatment plant.		
2008101036	Jack in the Box Restaurant (PD 08-007) Paso Robles, City of Paso Robles--San Luis Obispo Request to construct a 2,500 sf drive-through fast food restaurant with ancillary parking and landscaping.	<b>MND</b>	11/05/2008
2008101037	San Jerardo Water System Improvement & Well Replacement Project Monterey County Salinas--Monterey The planned San Jerardo water system improvement project will restore groundwater as a potable water source for the existing 67-unit San Jerardo Cooperation farm worker housing development and bring the system into compliance with the state and county regulations. The project elements are 1) installation of a new water supply well and pumping station located on Zabala Road; 2) construction of a new water transmission pipeline to connect the new well to the San Jerardo storage tank; 3) construction of a new water storage facility at San Jerardo with booster pump station and distribution system improvements; and 4) an interconnection with the nearby Foothill Estates portable water supply wells on Zabala Road to provide emergency, secondary service to both systems. County approvals include Use Permit (PD080736), Water Supply Permit and Well Application, Storage Tank Removal and Abandonment of Existing Wells. Annexation of the San Jerardo site and well to the Boronda County Sanitation District is proposed.	<b>MND</b>	11/25/2008

2008102028	RSC Equipment Rentals Vacaville, City of Vacaville--Solano The proposed project is for a new industrial equipment rentals facility to be constructed on a 3.66 acre parcel. The facility is anticipated to include a concrete masonry unit (CMU) building of 7,500 sf. The CMU will house 820 sf of office space; 1,316 sf of showroom/sales space; 2,916 sf of equipment repair/maintenance operation; 1,448 sf of equipment wash bay. There will also be 23,914 sf of outdoor storage area plus a covered fuel island with 800 gallon above-ground tank. Driving areas, packing areas, and equipment transition areas will be paved with concrete. The equipment storage yard will consist of crushed gravel over geo-grid to accommodate tracked vehicles and other equipment. A concrete masonry/split faced block wall will screen the developed area.	<b>MND</b>	11/05/2008
2008101039	Nuevo Business Park - Phase II Riverside County Perris--Riverside Proposed project involves the approval of a Tentative Parcel Map and a Plot Plan. Parcel map involves the subdivision of approximately 104 acres into nine parcels. The applicant has proposed two options for the plot plan. Option A proposed to develop eight building on the property, with a total of 351 loading docks and 1,620 parking spaces as well as internal driveways and landscape areas. Option B proposes to develop six building on the property with a total of 320 loading docks and 1,595 parking spaces.	<b>NOP</b>	11/05/2008
2008102025	Hansing #2 Tentative Parcel Map TSM08-0005 Butte County Chico--Butte A request to subdivide one parcel into a 3.01+/- acre parcel into 14 light industrial condominium parcels, providing for separate title to each unit within the project. The site is already fully developed with buildings and infrastructures.	<b>Neg</b>	11/05/2008
2001112085	LNWI Flushing Water Sacramento County --Sacramento, Yolo NCMWC has petitioned to add the LNWI to the place of use and add industrial use at the LNWI location (the permit currently authorizes industrial use, but only at one location) to Permit 19400 and License 1050. The NCMWC proposes to deliver 23.2 cubic feet per second, with an annual limit of 644 acre-feet (af), for flushing of the LNWI. The regular flushing schedule would use approximately 18.4 af of water or 46 af of water to flush the entire system every other Tuesday from October 1 to April 1 of the succeeding year under Permit 19400 and from April 1 to October 1 under License 1050.	<b>NOD</b>	
2005031148	Marine Corps Air Station (MCAS) Miramar Airport Land Use Compatibility Plan (ALUCP) San Diego County Regional Airport Authority San Diego--San Diego The proposed project is the Marine Corps Air Station (MCAS) Miramar Airport Land Use Compatibility Plan (ALUCP). The San Diego County Regional Airport Authority, acting as the Airport Land Use Commission for the County of San Diego, is required by law to adopt an ALUCP for "area[s] within the jurisdiction of the [ALUC] surrounding any military airport." (Pub. Util. Code, §21675, subd. (b).) The MCAS Miramar site lies within the jurisdiction of the ALUC.	<b>NOD</b>

<b><u>Documents Received on Tuesday, October 07, 2008</u></b>			
	The basic function of an ALUCP is to promote compatibility between an airport and the land uses that surround the airport and lie within the airport's designated airport influence area, to the extent that these areas are not already devoted to incompatible uses.		
2008071043	Brooks Street Stair Replacement and Sewer Lift Station Modification Laguna Beach, City of Laguna Beach--Orange The existing beach access stairs would be removed from the Brooks Street cul-de-sac to their terminus on the existing beach. New stairs would be constructed. A new over-look and bench area would be located on top of the expanded lift station and new stairs.	<b>NOD</b>	
2008072005	Natomas Interstate 80 (I-80) Bicycle and Pedestrian Overcrossing Project (CIP# HC21) Sacramento, City of Sacramento--Sacramento The City of Sacramento proposed to construct a pedestrian/bicycle overcrossing (POC) over Interstate 80 adjacent to the Natomas Main Drainage Canal where the Natomas West and Natomas East Drainage canals merge. The City also proposes to construct an at-grade level bridge (Canal Bridge) across the West Drainage Canal to link the north end of the POC with the existing trail. The project will also consist of all railings and fencing, grading, paving and slope protection, signage, and lighting associated with the POC. The POC will consist of a cast-in-place box girder section, supported by two east-in-place concrete abutments and five cast-in-place concrete columns on driven piles. The Canal Bridge will include a pre-manufactured steel truss "flat slab" structure this unit will consist of weathering steel, concrete deck, and smooth steel handrails; it will be designed to be removable as needed by the Reclamation District 1000 for maintenance of the Canal. Concrete will also line the canal bottom under the bridge and 10 feet beyond in both directions.	<b>NOD</b>	
2008081127	Edison Field, Racetrack Hill Area Division of Oil, Gas, and Geothermal Resources --Kern Project proposes activities necessary to drill and test five exploratory oil and gas wells.	<b>NOD</b>	
2008108052	Bardsley Avenue At Union Pacific Railroad (UPRR) Grade Separation In The City of Tulare, CA Tulare, City of Tulare--Tulare The City of Tulare is proposing to construct a Grade Separated Railroad Crossing at the intersection of Bardsley Avenue and "I" Street within the City of Tulare. The project will eliminate a highway/railroad grade crossing by construction of a grade separation structure (underpass) carrying a Union Pacific Railroad track over Bardsley Avenue. The project will also involve reconfiguration of the "I" Street/Bardsley Avenue Intersection. The existing grade crossing will be abandoned.	<b>NOE</b>

2008108057	Streambed Alteration Agreement Concerning Green Valley Creek, Rattlesnake Creek, And Ponway Creek And Tributaries Thereto Fish & Game #5 Poway--San Diego DFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, City of Poway. The applicant proposes to alter the stream/lake to perform routine channel clearing and vegetation maintenance associated with the City of Poway Flood Control Vegetation Management project. Project activities include maneuvering a flail-type mower that finely shreds cattail/marsh vegetation and leaves it in a 3-6" layer on the ground surface within specific areas of the channel in order to ensure a specific flow line is maintained. The equipment used to perform this maintenance activity applies low ground pressure without penetrating the surface, and the mowing process remains six inches above the channel bottom, allowing the root systems to remain intact. The project also includes removal of invasive, exotic and noxious plant species, trash, debris, and encampments.	<b>NOE</b>	
2008108058	Michael Ko C08-06 Stanton, City of Stanton--Orange A Conditional Use Permit C08-06 to allow for the expansion of live entertainment in the form of karaoke recording studios in conjunction with a bona-fide restaurant and bar with a full liquor license.	<b>NOE</b>	
2008108060	Hi Pines Ranch Road Culvert Replacement (1600-2008-0265-R2) Fish & Game #2 Colfax--Placer Removal of an existing, damaged, thirty foot long culvert under Hi Pines Ranch Road and replacement with new drainage culvert of up to 48 inches in diameter. The ends of the culvert will be armored and Hi Pines Ranch Road will be paved over the top. The project may necessitate removal of a single mature willow adjacent to the current culvert.	<b>NOE</b>	
2008108062	Ballona Creek Bike Trail And Bike Path Enhancement Resources Agency, The Los Angeles, City of--Los Angeles Improve 7.2 miles of the existing Ballona Creek Trail and Bike Path with signage, landed striping, park amenities and native landscape improvements.	<b>NOE</b>	
2008108063	Madison High School Multimedia Center San Diego Unified School District San Diego--San Diego The San Diego Unified School District proposes to construct a new multimedia center on the high school campus within an existing asphalt parking lot. The new multimedia center will be approximately 2,900 square feet in size consisting of a studio, control room, a classroom, three editing rooms and a machine room. The new multimedia center will ensure the students have access to high-quality career technical education offerings that mirrors what they would see in their industry work environment today. The new building will incorporate the concept of sustainable design and green building strategies, such as photovoltaic panels, renewable and recycled building products and energy efficiency.	<b>NOE</b>

	with the AG-2 (Non-Prime Agricultural) and R-R (Rural Residential Agricultural) zoning designations. Parcel B is currently considered legally non-conforming with the AG-2-B-40 zoning designation.		
2008021131	Pacific Trade Center El Monte, City of El Monte--Los Angeles The Pacific Trade Center is a proposed 27-acre commercial and industrial development. The project would require the subdivision of the site into parcels. Three parcels would be utilized for commercial/industrial development, while one parcel would be utilized as a roadway providing access to the site. Two of the commercial/industrial parcels (totaling approximately nine acres) would occupy the western portion of the site, fronting North Arden Drive. The remaining commercial/industrial parcel (approximately 18 acres in size) would occupy the eastern portion of the site. The remaining parcel (roadway) would follow the eastern boundary of the project site, providing site access from Valley Boulevard.	<b>NOD</b>	
2008082014	Use Permit UP-08-01 (Weed Berean Church) Siskiyou County Weed--Siskiyou The applicant is proposing to establish a church. Construction will include the building for the church, a gravel parking lot, a trash enclosure, and landscaping. The 12,484 square foot structure will be used for church gatherings, services, and events at various times throughout each week. The sanctuary will have a capacity of 296 and the choir will have a capacity of 38. The floor plan for the structure proposes 6 classrooms, 2 offices, 4 restrooms (2 men's and 2 women's), a conference room, a nursery, a fellowship area, 2 mechanical rooms, and 3 storage rooms. The structure also proposes a 1,894 square foot carport. The gravel parking lot will contain 105 parking spaces, including 5 handicapped spaces.	<b>NOD</b>	
2008082038	Capital Center Lot 64 Rancho Cordova, City of Rancho Cordova--Sacramento The project applicant has requested design review for a 74,436 square foot, two-story concrete tilt-up office building on a 6.26 acre site. The project site would include approximately 404 parking spaces.	<b>NOD</b>	
2008082109	Pajaro River Community Access, Recreation, and Education (CARE) Project Watsonville, City of Watsonville--Santa Cruz As both Lead Agency and project sponsor, the City of Watsonville is proposing to develop public access to the Pajaro River adjacent to the existing Watsonville Wastewater Treatment Facility (WWTF) located off Beach Road, west of Watsonville. The location of the project, which would be developed adjacent to a new recycled water treatment facility and operations/office building currently under construction immediately east of the WWTF. The project would consist of construction of a trailhead parking lot, restroom facilities, interpretive signage, a trail leading to a riverside put-in for small watercraft such as kayaks and canoes, and a second spur trail leading to a river overlook. The river banks adjacent to the canoe put-in would also be stabilized as part of the project. The Pajaro River, which is confined by levees for flood control, is about 150 ft. south of the WWTF and about 500ft. south of the proposed parking lot.	<b>NOD</b>

2008108100	#026 Revise Door to Aluminum Storefront -- JOC 07-013.040.01 California State University Trustees San Luis Obispo--San Luis Obispo Change out interior door to aluminum storefront. In accordance with the State CEQA Guidelines for implementations of the California Environmental Quality Act, and with The California State University CEQA Guidelines, the University hereby declares that it has approved the above-named project.	<b>NOE</b>	
2008108101	#003 Business-Redesign Classrooms--JOC 05-012.068.02 California State University Trustees San Luis Obispo--San Luis Obispo Remove existing wall and construct new wall. Create group rooms with moveable partitions in back of room. In accordance with the State CEQA Guidelines for implementations of the California Environmental Quality Act, and with The California State University CEQA Guidelines, the University hereby declares that it has approved the above-named project.	<b>NOE</b>	
2008108102	Camp Host Sites Electrical Upgrade Parks and Recreation, Department of --Mendocino Install a new electrical line through conduit placed in an 18" deep x 10-12 inch wide trench at Russian Gulch State Park to upgrade existing electrical line that feeds camp host sites #1 and #2. The trench will run 80' northwest from an existing power pole, then 60' northeast toward camp host site #1, and finally 40' southeast to camp host site #2. Additional work will install a new two post electrical pedestal to replace an existing single post pedestal.  Damage to tree roots will be avoided by hand digging around all roots that are 3" in diameter or greater, and backfilling trenches with soil within 48 hours of digging. Plywood or similar covers will be placed over trenches that are left open during non-construction times to avoid trapping small animals. No sensitive cultural resources are located within the project site.	<b>NOE</b>	
2008108103	Issuance of Streambed Alteration Agreement No. R1-08-0384 Fish & Game #1 --Trinity The project proposes to excavate approximately 4,800 cubic yards of sediment from an existing debris basin.	<b>NOE</b>	
2008108104	Issuance of Streambed Alteration Agreement No. R1-08-0414 Fish & Game #1 Redding--Shasta The project proposes the replacement of an existing sewer main using 4-inch 'Schedule 40' sewer pipe.	<b>NOE</b>	
2008108105	Issuance of Streambed Alteration Agreement No. R1-07-0625 Fish & Game #1 --Trinity The project proposes the excavation of the floodplain to install one seep well, a pump, water supply lines, and electrical conduits and the diversion of water pursuant to the Responsible Party's legal water rights.	<b>NOE</b>

	constructed drainage swales, running adjacent to the project, will be lined with 135 linear feet of turf reinforcement matting to minimize erosion and downstream sedimentation.		
2008108119	<p>Replace Islay Creek Non-Potable Water Tank Parks and Recreation, Department of --San Luis Obispo</p> <p>Replace the existing 10,000 gallon steel water tank that occupies the hill adjacent to and immediate south of the Spooner Ranch House and Islay Creek Campground facility with two 5,000 gallon poly tanks, each 7 foot tall and 12 feet in diameter. The existing metal tank is corroded, non-functional, and leaking. The installation of the replacement poly tanks will provide water for fire suppression activities. Removal of the existing steel tank will consist of cutting it into sections using handheld equipment and loading the scrap steel onto a trailer pulled by a rubber-tracked, crawler, tractor for hauling offsite, and trucking to a recycling facility. Access to the site will be over an existing trail corridor and off-trail for the last 600 feet through coastal sage and grassland. The remaining 600 foot access route will be flagged, mowed, and pruned to a width of 6 feet under supervision of a DPR qualified biologist to ensure minimal disturbance to habitat. There are no known sensitive plant or animal species in the planned access route. Site preparation will consist of clearing brush from the tank location in a 600 foot perimeter and placing 6 inches of compacted sand above grade in plastic wood forms, each 14 foot square, to create a suitable base for the tanks. The replacement poly tanks will then be connected to an existing underground outflow pipe by digging a 15 foot trench, 3 feet deep and 12 inches wide, placing 15 feet of new outflow pipe in the trench, and backfilling.</p>	<b>NOE</b>	
2008108120	<p>Class 2 Permit Modification - Edwards Air Force Base Hazardous Waste Support Facility Toxic Substances Control, Department of --Kern, Los Angeles, San Bernardino</p> <p>Edwards Air Force Base (Edwards AFB) operates a base-wide hazardous waste support facility (HWSF) for the central collection of hazardous wastes prior to offsite disposal. This facility consists of one (1) Hazardous Waste Management Unit (unit) and has been in operation for 20 years. The permit to operate was renewed in May of 2005 for another 10 years. The project is to update the physical description of the HWSF and to employ new operational procedures and container management practices that will consolidate several non-RCRA hazardous waste streams. The new procedures will include bulking adsorbents/debris wastes, after removing any free liquids, which will be recycled or disposed seperately. The total volume of non-RCRA solid waste will not change and at the same time reduce the number of containers being stored and managed within the permitted unit. The new handling procedures will benefit both the EAFB Metal Recycling and Waste Minimization Programs.</p>	<b>NOE</b>

2006102093	Shasta River Watershed-Wide Permitting Program Fish & Game #1 Redding--Siskiyou The primary purpose of the Shasta River Watershed-wide Permitting Program (Program) is to facilitate compliance by Program participants with Fish and Game Code section 1600 et seq. and, with respect to coho salmon, the California Endangered Species Act (CESA) (Fish and Game Code, section 2050 et seq.) while conducting specific routine agricultural activities the Program covers. The Program area is the Shasta River watershed, including the Shasta River and its tributaries, in Siskiyou County. Farmers and ranchers in the Program area may participate in the Program. Other participants include the Shasta Valley Resource Conservation District and the Department of Water Resources (DWR). DWR will participate in the Program because it provides watermaster service in the Program area, and as part of that responsibility delivers water to farmers and ranchers.	<b>EIR</b>	12/09/2008
2006102095	Scott River Watershed-wide Permitting Program Fish & Game #1 --Siskiyou The primary purpose of the Scott River Watershed-wide Permitting Program is to facilitate compliance by Program participants with Fish and Game Code section 1600 et seq. and with respect to coho salmon, the California Endangered Species Act (CESA) (Fish and Game Code, 2050 et seq.) while conducting specific routine agricultural activities the Program covers. The Program area is the Scott River watershed, including the Scott River and its tributaries, in Siskiyou Co. Farmers and ranchers in the Program area may participate in the Program. Other participants include the Siskiyou Resource Conservation District and the Department of Water Resources (DWR). DWR will participate in the Program because it provides watermaster service in the Program area, and as part of the responsibility delivers water to farmers and ranchers.	<b>EIR</b>	12/09/2008
2008082058	Main Street Cupertino Cupertino, City of Cupertino--Santa Clara The Main Street Cupertino project proposes two development schemes for the 18.7 acre project site. The approval of the project would allow for development under one of these schemes. Scheme 1 proposes up to 295,000sf. of retail uses (including 150,000 sf. of general commercial uses and a 145,000 sf. athletic club). 100,000 sf. of office uses, a hotel with 150 rooms, and 160 senior housing units. Scheme 2 proposes up to 146,500 sf. of retail uses, 205,000 sf. of office uses, a hotel with 250 rooms, and 160 senior housing units.	<b>EIR</b>	11/24/2008
2008101051	Variance 08-05 and Conditional Use Permit 04-09 Palmdale, City of Palmdale--Los Angeles Variance 08-05 is a request for a Variance from Zoning Ordinance Section 96.03 to delete the requirement to provide a 40ft. wide through circulation and Conditional Use Permit 04-09 is a request to develop a Personal Storage Facility consisting of 13 buildings totaling 55,400sf. including an office/caretaker's residence on 5 acres of a 10 acre parcel.	<b>MND</b>	11/10/2008

<b><u>Documents Received on Friday, October 10, 2008</u></b>			
2008101053	Widening of Peach Avenue Between Butler and Belmont Avenue Fresno, City of Fresno--Fresno The City of Fresno proposes to widen and improve Peach Avenue from Kings Canyon Road to Belmont Avenue. Project plans include expanding Peach Avenue from two lanes to a divided four-lane road with landscaped median islands, new curbs, gutters, sidewalks as well as a noise barrier along the west side of Peach Avenue between the bike trail south to Tulare Street. Intersections also will be widened to accommodate bus bay/acceleration lanes, turn lanes, new curb returns with ADA curb ramps, and bicycle lanes. To mitigate the effect of removal of 40+/- olive trees, new olive trees, shrubs and ground cover will be planted and maintained in a healthy growing condition replanting as many of the existing olive trees feasible for transplanting.	<b>MND</b>	11/10/2008
2008102039	Zone Amendment 08-016 and Parcel Map 08-006 (HHL, LLC) Shasta County --Shasta The applicant has requested approval to rezone 21.2 acres of a 369.4-acre parcel from the Unclassified zone district (U) to the Limited Residential zone district (R-L) in conjunction with a land division to create four lots of approximately 5.0 acres, 5.01 acres, 5.47 acres, and 6.24 acres, with a 348.2-acre remainder parcel which would remain in the Unclassified zone district.	<b>MND</b>	11/10/2008
2008102040	Henry Cornell Winery, UPE07-0008 Sonoma County Santa Rosa--Sonoma The applicant's request is for a winery with a maximum annual production of 10,000 cases. The proposal includes construction of an 18,670 sf. building and a cave, 8,670 sf. in size, for barrel storage. The project would require a substantial amount of grading (approx. 3,000 cubic yards) to terrace the site for the proposed buildings. The plans indicate space for approx. 22 parking spaces. A new water tank would be constructed for fire protection and domestic use. The building and caves would contain all winery operations and equipment.	<b>MND</b>	11/10/2008
2008102041	Prospect Village II Santa Rosa, City of Santa Rosa--Sonoma Tentative Map and Conditional Use Permit for a small lot subdivision and minor modifications to the Policy Statement for the PD-0396 (Prospect Village Planned Development) zoning district, to subdivide two parcels, totaling 1.85 acres, into 14 lots for the construction of 10 single-family, detached residences and one duet structure, the two existing residences will remain.	<b>MND</b>	11/10/2008
2008102042	Proposed Construction of an Alternative Education School and a Special Education/Special Handicapped School in Colusa County Colusa County Williams--Colusa Construction of an alternative education school, special education/severely handicapped school and administrative functions to support these two facilities.	<b>MND</b>	11/10/2008

	associated uses (e.g., restaurant, gift shop, administrative offices, spa and health center, demonstration cooking area and meeting facilities), 70 resort residences, open space, community park, public and private trails, pump station, City fire substation and associated infrastructure and roadway improvements to support the Project. The project also includes dedication of land for future construction by the City of up to 150 affordable housing units.		
2006101008	Palmdale Ditch Enclosure Palmdale Water District Palmdale--Los Angeles Alter the streambed by placing 3,824 linear feet (4.45 acres) of the streambed between Sierra Highway and Lake Palmdale into an underground 48-inch concrete pipe (RCP), enclosing the streambed in its entirety. The project shall require removal of all associated riparian vegetation, consisting predominately of big basin sage scrub and Mojave riparian forest, throughout the 3,824 foot section, identified as the project footprint.	<b>NOD</b>	
2007031091	Jacobs Medical Office Building - Planning Case P06-1237 Riverside, City of Riverside--Riverside The project involves the development of a three-story, approximately 65,000 square foot medical office building with related parking on approximately 4.2 acres. The subject property is an archeological site known as Riverside's second Chinatown, City Landmark #19, County Landmark, State Point of Historical Interest and listed on the National Register of Historic Places.	<b>NOD</b>	
2008062078	Pine Mountain Lake Association Grading Permit G06-018 Tuolumne County --Tuolumne Grading Permit G06-018 to allow the following: construction of a temporary staging area, including import and grading of approximately 350 +/- cubic yards of fill, for equipment storage and office trailer; use of a hydraulic pipeline dredge to remove approximately 27,000 +/- cubic yards of accumulated influx sediment at the inlet and cove areas [Fisherman's Cove (Lakefront Common Area), "First" Garrotte Creek, "Second" Garrotte Creek, Big Creek, and Unit 4 - North and South]; deposition of all dredge materials in a designated in-water disposal area; and deconstruction of staging area and restoration of site to original conditions.	<b>NOD</b>	
2008108121	Palo Verde Drain Bridge Project Fish & Game Eastern Sierra-Inland Deserts Region --Imperial The project site is located on SR-78 between mile post 3.2/3.4 by the intersection of SR-78 and Ludy Boulevard, City of Blythe, County of Riverside, Township 8 South, Range 22 East, Section 18, Palo Verde, California USGS quadrangle. The applicant is proposing to replace the existing bridge (Br. No. 56-0216) to address scour conditions and meet current design standards. The new bridge will be wider than the existing bridge to accommodate standard shoulder widths. The project will widen the channel to match the existing width. The project will permanently impact .019 acre of jurisdictional areas including .015 acre of riparian habitat, and .004 wetland habitat. Temporarily impact of jurisdictional areas including .09 acre of riparian habitat, and .03 acre wetland habitat. The channel bed will be impacted .0004 acre by new piers. Total project impacts of .043 of jurisdictional areas are authorized under this agreement.	<b>NOE</b>

2008108122	Deforest Pier Repair Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Placer Remove 8 existing wood pilings and replace with 4 steel pilings, replace wood deck with Trex or other compostie decking and convert fixed catwalk to adjustable catwalk.	<b>NOE</b>	
2008108123	SureWest Roseville, City of Roseville--Placer Acquisition of an existing parking lot.	<b>NOE</b>	
2008108124	Agreement 2007-0226-R4; Unnamed Tributary to Coarsegold Creek; Driveway Crossing Fish & Game #4 --Madera Install a 48-inch diameter by 40-foot long culvert and place riprap at the inlet, outlet, and along the driveway.	<b>NOE</b>	
2008108125	Humboldt Co. DPW - Jacoby Creek Bridge, Sediment Removal Project Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa --Humboldt The bridge is located approximately one mile upstream from Humboldt Bay. This low gradient reach of Jacoby Creek accumulates excess sediment. The results of a recent stream channel assessment indicate that approximately 900 cubic yards of additional sediment has accumulated under the bridge area since the bridge was installed in 1988. Most of the excess sediment had deposited on the upper stream banks near the bridge abutments. The accumulated sediment is contributing to more frequent flooding in the area which sometimes causes Old Arcata Road to be closed to through traffic. The project involves removal of approximately 300 cubic yards of the accumulated sediment. Sediment removal activities will occur on both sides of the creek channel. Sediment removal activities will be confined within two areas that extended approximately 30 feet away from the abutments and 60 linear feet parallel to the stream channel. The excavation areas will extend approximately 12 feet beyond the edges of the bridge deck in both the upstream and downstream directions. The sediment removal areas are located above the flowing portion of the stream channel. Sediment will be removed to an average depth of two to three feet below the existing ground surface. Excavated sediment will be loaded into dump trucks and relocated to an offsite upland location.	<b>NOE</b>	
2008108126	Lodi Energy Center Phase 2 Agreement Amendment No. 1 (Action) Northern California Power Agency Lodi--San Joaquin Early activities related to a thermal power plant.	<b>NOE</b>	
2008108127	Sky High Ranch Drainage Work Fish & Game #2 Willows--Glenn This project wil remove accumulated sediment, debris and dead vegetation from a channelized portion of White Cabin Creek that runs parallel to Road 39 in Glenn County. Downed trees and some live willow trees growing int eh main channel and blocking annual water flow and debris movement will also be removed. Removal of vegetation and sediment shall be performed by an excavator with a thumb sitting on the south streambank. No work will occur on the north side of the channel. no	<b>NOE</b>

	work will occur in flowing or ponded water in the channel. Trees will be trimmed instead of removed where feasible. Additionally, this project will enhance the drainage of White Cabin Creek and Wilson Creek by removing <i>Arundo donax</i> , an invasive plant species, and planting native tree species.		
2008108128	AboveNet Silver Springs Networks Lateral Extension Project Public Utilities Commission Redwood City--San Mateo Installation of approximately 1,900 feet of fiber optic conduit in public right-of-way.	<b>NOE</b>	
2008108129	Common Landowner Transfer of up to 2,000 a.f. of Tulare Lake Basin Water Storage District 2008 State Water Project Table A Water to Westlands Water District Water Resources, Department of --Kings The Tulare Lake Basin Water Storage District (TLBWSD) is a State Water Project (SWP) contractor. The proposed project is the transfer by TLBWSD of up to 2,000 a.f. of 2008 Table A water to Westlands Water District (WWD) for Westlake Farms, who farms in both Districts. The transfer will be completed in 2008, and is to enable both WWD and TLBWSD users to better manage their respective water supplies. No lands will be fallowed as a result of the transfer and no additional groundwater will be pumped. The lands have been actively farmed in the past. The water will be delivered within the SWP Place of Use.	<b>NOE</b>	
2008108130	Approval of the Draft Removal Action Workplan (RAW) for the Junction Shopping Center Toxic Substances Control, Department of Sonora--Tuolumne Approval of a RAW by the Department of Toxic Substances Control (DTSC) pursuant to Health & Safety Code, chapter 6.8; chapter 6.5, etc. as submitted on May 2008 by Geomatrix. The RAW proposes monitored natural attenuation to mitigate groundwater impacted with detectable levels of tetrachloroethylene (PCE), trichloroethylene (TCE), and cis-1,2-dichloroethylene (cis-1,2-DCE) located. The purpose of the project is to remediate impacted groundwater for the identified chemicals of concern (COC). The cleanup level (CL) for the COCs are site specific cleanup goals which considered the State Water Resources Board Resolution number 92-49 and are below the federal maximum containment levels (MCLs) established for drinkingwater. The CL are: 2.7 micrograms per liter (ug/L) of water for PCE, 2.8 ug/L for TCE, Groundwater samples have been collected since 2005 and will continue semi-annually for two years until the groundwater samples are consistently below the CLs.	<b>NOE</b>

2006081153	Occidental College Specific Plan Los Angeles, City of --Los Angeles The Occidental College Specific Plan would limit development (including renovation and demolition) to a net addition of approximately 550,250 sf to the existing 1,148,044 sf of building area. Maximum Specific Plan Floor Area would not exceed 1,698,294 sf (existing plus net new of 550,250 to equal 1,698,294). Building heights would not exceed four stories (3 stories in Subareas 1 and 3) or 75 feet. Occidental College is not proposing to substantially increase the student body above the existing (mid-2006 when the NOP was published) approximately 1,750 students. The current cap on the number students at Occidental College is 2,000. For purpose of analysis, a student body of 2,000 (an increase of just over 10 percent of the 2006 student body) is analyzed in this EIR as the future student population; no increase above 2,000 students is proposed. The Specific Plan identifies three subareas. Subarea consists of the northern, northwestern, western, and southern portions of the campus that are within 25 to 450 feet of the public street adjacent to the campus, and considered to be the entrance and transition area between the college and neighborhoods. The Specific Plan vision for Subarea 1 includes the reduction of the use of fencing, as feasible, and scaled development that would complement the adjacent residences. Subarea 2, considered to be the heritage and academic area, is the location of most of the built areas of the campus and is the core of the campus. The Specific Plan vision for this subarea includes more dense development with buildings that complement existing historically significant buildings and topographical features. Subarea 3, considered to be a scenic residential and active recreation area, would provide open space and recreational opportunities for students and employees, and as well as views that overlook the campus below. Development of this area, which is now mostly undeveloped, would include faculty/staff multi-family housing along Townsend Avenue. Development in each subarea would be limited by square footage, and campus-wide, development would be limited by use. The Specific Plan identifies 29 Building Opportunity Sites (BOS) across the campus. No specific buildings are identified in the Specific Plan.	<b>EIR</b>	12/01/2008				
2006101042	35101 Camino Capistrano Dana Point, City of --Orange The proposed project consists of the demolition of the existing Doheny House, a locally designated historic structure on the City's Historic Resource Register, located at 35101 Camino Capistrano within the City of Dana Point. The proposed project will also provide development opportunities for the reasonably foreseeable construction of five single-family residential dwelling units on the project site.	<b>EIR</b>	12/01/2008

2007062002	Hercules New Town Center Hercules, City of Hercules--Contra Costa The proposed Hercules New Town Center (HNTC) project consists of two elements. First, the City of Hercules Redevelopment Agency (City RDA) proposes amendments to the Hercules General Plan and Zoning Ordinance to create a "New Town Center" (NTC) land use designation and zoning district that would apply to the HNTC planning area. The HNTC planning area comprises seven parcels totaling approximately 35 acres. Second, the City RDA and the Hercules New Town Center LLC (project sponsor) proposes redevelopment of one parcel within the HNTC planning area. This mixed-use project would be located on the PNR parcel and is also referred to as the Market Town project.	<b>EIR</b>	12/01/2008
2008031021	Chowchilla Heritage Welcome Center Project Chowchilla, City of Chowchilla--Madera NOTE: Recirculated EIR  The Recirculated DEIR focuses on the deconstruction of the building Dodge Brothers Bldg. and reconstruction at the existing site or three alternative sites. The Chowchilla Heritage Park/Heritage Center Project is designed to deconstruct and salvage the materials and then reconstruct the Dodge Brothers garage (one of the oldest buildings in Chowchilla) to be used as a "Welcome Center" and potentially house local non-profit community groups or other local activities which may include retail operations. The Welcome Center concept is to provide a location where the history of Chowchilla can be visualized from old photographs, exhibits, and written materials. There are two alternative locations under consideration: 1) On Front Street south of Robertson Blvd. 2) Two vacant land parcels generally between Second Street and Third Street.	<b>EIR</b>	12/01/2008
2006091071	Sunrise Powerlink Project Public Utilities Commission El Centro, San Diego--San Diego, Imperial SDG&E proposes to construct a new 91-mile, 500 kilovolt (kV) electric transmission line from Imperial Valley Substation (in Imperial Valley, near the City of El Centro) to a new Central East Substation (in central San Diego County, southwest of the intersection of County Highways S22 and S2) and a new 59-mile 230 kV transmission line that includes both overhead and underground segments from the new Central East Substation to SDG&E's existing Penasquitos Substation (in the city of San Diego).	<b>FIN</b>	
2007061133	Baldwin Hills Community Standards District (CSD) Los Angeles County Culver City--Los Angeles Plains Exploration and Production Company (PXP), the operator of the Inglewood Hills Oil Field and the Applicant, has submitted an application to the County of Los Angeles to establish a Community Standards District (CSD) for the portion of the Inglewood Oil Field located in the Baldwin Hills Zoned District, an unincorporated area of Los Angeles County. As such, the Baldwin Hills CSD is the proposed project as defined by CEQA.  The proposed CSD will establish new zoning regulations as they relate to oil and gas production activities at the oil field using information contained in the EIR and obtained from other sources. The CSD will establish permanent development	<b>FIN</b>

	standards, operating requirements, and procedures for oil and gas operations in the unincorporated portion of the Inglewood Oil Field.		
2007071040	HCG Irvine Irvine, City of Irvine--Orange The proposed project consists of Master Plan to develop 785,000 square feet of office space and 15,500 square feet of retail/ restaurant space. Implementation of the proposed project would require the demolition and removal of the existing 169,555 square foot one-story office and industrial building. Three parking structures will be provided (above ground and sublevel). A large open space area, approximately two acres, between, and accessible from, the proposed five to seven buildings will be provided.	<b>FIN</b>	
2002052057	Buckhorn Grade Improvement Project Caltrans #3 Redding--Shasta, Trinity The California Department of Transportation (Caltrans) proposes to improve the Buckhorn Grade on State Route 299 in Shasta Trinity and shasta Counties from 2.0 miles west of the Shasta-Trinity County line to the western boundary of the Whiskeytown-Shasta Trinity National Recreation Area. Although the official project limits extended into Trinity County (PM 70.2/72.2), construction will only occur on the Buckhorn Grade portion of State Route 299 (PM 0.0/R7.6) in Shasta County. Construction activities in Trinity County will be limited to placement of signs and traffic control. The project will realign the roadway along the existing alignments. improvements include standard roadway and shoulder widths, passing/climbing lanes, 8 percent maximum grade and an alignment with a 40 to 50 mph design speed (depending on the alternative selected).	<b>JD</b>	12/01/2008
2008101056	RENV T200600212 / RPP 200601347 / R2006-02329 18809 - 18811 Colima Road, Rowland Heights Los Angeles County --Los Angeles The proposed is a request for a Plot Plan to allow a 2-story 33,375 sf shopping center that includes two banks, eight restaurants, two retail stores and a dental office, 317 parking spaces on two subterranean levels and one surface parking lot. Colima Road and Paso Real Avenue will provide ingress and egress access to the project site. Domestic water and sewer are proposed. The project proposes 3,239 cubic yards of excavation for the two-level subterranean parking.	<b>MND</b>	11/12/2008
2008101057	Big Bear Disposal San Bernardino County --San Bernardino Conditional Use Permit to establish a 3 phase industrial complex with a materials recover facility, a solid waste construction yard, a 14 unit industrial park, and a construction and demolition debris recycling and stockpiling operation.	<b>MND</b>	11/12/2008

	supply for the residence through an individual water system installed to Environmental Health standars. The total estimated grading quantities for the subject projec tinclude 820 cubic yards of cut and 320 cubic yards of fill for the construction of the house and the driveway, and landscaping. The project will result in the removal of two oak trees (eight inch diameter 4.5 feet above ground), one maple (14 inch diameter 4.5 feet above ground), and a pine ( 9 inch diameter 4.5 feet above ground).		
2008102048	Wastewater Treatment Facility Upgrade Graton Community Services District --Sonoma The existing wastewater treatment facility will be improved with a new pump system to improve reliability, fuzzy filters to remove fine particles, a suspended air flotation device to improve suspended solids removal, a chlorine contact basin, a surge tank, a chemical mix tank, sludge drying beds, a utility building, and an office building.	<b>MND</b>	11/12/2008
2008102050	Naples Beach Sewer Project Granada Sanitary District --San Mateo The proposed sewer project will consist of various improvements to accomodate the abandonment of the Medio Creek sewer crossing and to reroute sewage in the Naples Beach area of Half Moon Bay. The Granada Sanitary District (District) has a 10-inch sewer line that is currently attached to a concrete foundation of an abandoned old county highway bridge crossing Medio Creek. Portions of the foundation of this bridge have eroded and San Mateo County has elected not to maintain the bridge, therefore the District would eliminate the continuous use of the sewer line crossing Medio Creek. Improvements include installation of new sewer lines and a new forcemain, improvements to the Naples Beach Pump Station, and modification of an existing forcemain for emergency service.	<b>MND</b>	11/12/2008
2008102051	Taylor Mountain Interim Public Access Permit Program Sonoma County Santa Rosa--Sonoma The project consists of an Interim Public Access Permit Program for the Taylor Mountain property. The Land Paths organization, under the direction of the Sonoma County Agricultural Preservation and Open Space District would conduct an orientation and certification program to teach members of the public about the appropriate use of the site. Members of the public that receive permits would be allowed to hike on Taylor Mountain during an interim period until a Master Plan has been completed for the site.	<b>MND</b>	11/12/2008
2006042095	1938 Broadway Mixed Use Project Oakland, City of Oakland--Alameda The proposed project would include the demolition of the existing one-story Encinal Broadway building located at 1930-1946 Broadway, demolition of the paved parking lot south of that building, and the construction of a 56-story high-rise tower approximately 715 feet tall. The Tapscott Building also would be rehabilitated as part of the proposed project. The high-rise tower combined with the refurbished Tapscott Building would have approximately 1.57 million gross sq. ft. (gsf) of space, providing approximately 829,500 gsf of office space, 307,700 gsf of parking, 220 residential units on the upper floors covering approximately 350,600 gsf, and about 85,200 gsf of retail space. The high-rise tower would	<b>NOP</b>	11/12/2008

	resemble a helical stair case stepping back from a broad base up to the slim residential tower above the 33rd floor. The building would have a dual structural system consisting of an interior core combined with an exterior painted or stainless steel frame. This structural design would make the building particularly resistant to earthquake loads. The building would be sheathed primarily in glass separated by metal spandrel panels. These panels may also be covered with photovoltaic cells to help provide electrical power for the building.		
2008101083	University District Specific Plan San Marcos, City of San Marcos--San Diego The project would amend the City's General Plan and Heart of the City Specific Plan to allow mixed-use development on approximately 203 acres. The amendment would change the land use designation to Mixed Use and would rezone the area from Specific Plan Area - Business Park and Neighborhood Commercial to Specific Plan Area - Mixed Use. The Specific Plan would include 2,600 residential units, 800 units of student housing, 450 hotel rooms, 750,000 square feet of general office, 300,000 square feet of medical office, 1,000,000 square feet of mixed use retail, 13.91 acres of park/developed open space, 30,000 square feet of community/civic use, 43.18 acres of public streets/sidewalks and 26.07 acres of preserved open space (associated with San Marcos Creek). It should be noted that up to 200 additional student housing units may be provided, but a corresponding decrease in residential units would be proposed (decreasing to 2,400 units). Additionally, the number of hotel rooms could increase to 600 rooms with a corresponding decrease in general office use by 100,000 square feet.	<b>NOP</b>	11/12/2008
2008101062	ENV-2008-701-ND Los Angeles, City of Los Angeles, City of--Los Angeles Conditional Use to permit the continued operation of an existing commercial stable for the boarding of 20 horses on a 41,580 sf lot, in the A2-1-K Zone with hours of operation from 7:00 am to 9:00 pm Monday to Sunday and existing reduced east side yard of 9.67 feet, existing reduced passageway of 6-feet in lieu of 10-feet, and housekeeping structures with 10-foot side yard in lieu of 25-feet and to waive all required improvements to the required parking lot and driveway improvements. No new construction.	<b>Neg</b>	11/12/2008
2008101072	Vista Hyatt Place Hotel Vista, City of Vista--San Diego The proposed project consists of a request for approval of a special use permit, inclusive of a plot plan, to construct a 4-story 92,913 sf Business hotel on a 3.43-acre site. Proposed improvements include 150 parking spaces (including 6 ADA-compliant spaces and 7 off-site reciprocal spaces), vehicular and pedestrian access, wet and dry utility connections, drainage improvements, street improvements, site amenities and landscaping.	<b>Neg</b>	11/12/2008
2008101075	Gen. 	areas.		
	One to two new horizontal wells will be installed to replace one of two existing wells, one of which has failed. Two new wells may be needed to provide the equivalent flow (1.5-2gpm) needed to support operations. The existing wells are located approximately 150 feet above the slow sand filter. The new wells will be located within 1 to 10 feet away from the existing wells. To drill the new wells a temporary platform constructed from 4X8 foot sheets of plywood and 4"X4" posts for footings will be installed to provide a flat level surface for the horizontal well driller. An 8 hp portable gas powered horizontal well driller with a 2 inch auger bit will be used to drill 60 to 100 feet into the hillside. One inch perforated stainless steel pipe will be used to line the well and the wellhead will be sealed with 6-8 feet of concrete.		
	Neither the waterline nor the wells will increase ground water withdrawal from historic levels.		
2008108134	Bank Repair at 15550 Riverside Drive, Guerneville, CA. Fish & Game #3 -- The project will repair and rehabilitate a failing river bank at 15550 Riverside Drive in Guerneville, CA. The repair work consists of minor grading of the river bank and will include biotechnical approaches for bank stability. Issuance of Streambed Alteration Agreement Number 1600-2007-0495-03 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2008108135	Comcast Cable - Copeland Creek HDD Utility Crossing Fish & Game #3 Cotati, Rohnert Park--Sonoma The proposed project is located along Redwood Drive, North of Highway 116 and West of Highway 101, in the County of Sonoma. Comcast Cable is proposing to drill underneath the Copeland Creek using a directional bore rig. Comcast Cable is being required by the California Department of Transportation (Cal Trans) to relocate all of their existing facilities to accommodate the Highway 101 widening project. All proposed work is scheduled to be completed between October 1, 2008 and December 30, 2008. To protect fish, wildlife, and plant resources all proposed bore pits will be located a minimum of 100 feet from the top of each bank. The proposed conduits will also be installed a minimum of 5 feet below the bed of the channel. The creek serves as the boundary between the two cities, and work is occurring on both sides of the creek. Issuance of Streambed Alteration Agreement Number 1600-2008-0370-3 is pursuant to Fish and Game Code Section 1602.	<b>NOE</b>	
2008108136	Comcast Cable - Laguna de Santa Rosa HDD Utility Crossing Fish & Game #3 Cotati--Sonoma The proposed project is located along Redwood Drive, North of Highway 116 and West of Highway 101, in the City of Cotati. Comcast Cable is proposing to drill underneath the Laguna de Santa Rosa using directional bore rig. Comcast Cable is being required by the California Department of Transportation (Cal Trans) to relocate all of their existing facilities to accommodate the Highway 101 widening project. All proposed work is scheduled to be completed between October 1, 2008 and December 30, 2008. To protect fish, wildlife, and plant resources all proposed bore pits will be located a minimum of 100 feet from the top of each bank. The two contiguous parcels encompass the subject property named Gaviota Village. Parcel 73 was used as a general store, restaurant, and service station from the early 1900's to the 1960's. The underground fuel storage tanks (USTs) were removed in 1989 and the structures were demolished in 1995. Parcel 73 includes remnant areas of paving and landscaping and concrete foundations. The Trust for Public Land (TPL) is managing remediation and requirements for regulatory agencies' closure. The project is presently contemplated for non-development (conservation and public access) purposes and annexation to the adjacent Gaviota State Park. As a condition of property title transfer to the Department of Parks and Recreation (DPR), TPL will monitor regulatory agency closure of hazardous waste site.	<b>NOE</b>

2008108153	Soil Survey Soil Sampling Parks and Recreation, Department of -- Collect soil samples in old growth redwoods stands near Cottoneva El River in Humboldt Redwoods State Park for analysis by the National Soil Survey Laboratory and to support soil maps of the park. Work will manually excavate 2 pits, about 150 cm (60 inches) deep and 60 X 70cm square (24-28 inches square), at the base; collect one gallon of soil material from each identified soil layer; and collect 4 each, 3/4 cup size clods for bulk density and thin section analysis.  Sites will be selected away from redwood trees to inhibit the potential for root damage and so no roots over 1 inch in diameter will be cut; excavation outside the rainy period and the disposition of excess soil, at least 50 feet from any watercourse reduces the risk of soil traveling to watercourse. In additions, topsoil will be separated to be spread as a top dressing upon closure of the pits; pit design will comply with OSHA regulation; and test pits will be excavated, described, and closed in one day to inhibit wildlife tapping or entry by the public.	<b>NOE</b>	
2008108154	Entrance Station Area Improvements and Comfort Station Replacement Project Parks and Recreation, Department of --San Joaquin This project retrofits, replaces, and installs park facilities at the Entrance Station Area and Oak Grove Day Use Area within Caswell Memorial State Park. The project is necessary for DPR to meet accessibility requirements as stated in the "California State Parks Accessibility Guidelines."  At the Entrance Station Area, modify one existing accessible parking space in the parking area by overlaying new asphalt concrete, re-stripping the space, and erecting accessible parking signage. Adjust height of interpretive panel adjacent to entrance station, and install toe kick cross beam on the panel base. Install new compliant asphalt concrete (AC) path of travel from parking area to the rock monument. Replace approximately 150 square feet of AC between the parking area and public phone.  At the Oak Grove Day Use Area demolish existing comfort station restroom (CSS) and concrete foundation. Construct new comfort station over footprint of existing structure. New comfort station will be approximately 33 feet long by 24 feet wide and will contain four toilets or which two are accessible. Install utility conduits in trench up to 10 feet long by 1 foot wide to connect comfort station to existing utilities. Modify four paved accessible parking spaces within existing Day Use parking area and erect accessible parking signage. Replace the AC pedestrian rout of travel from the accessible parking spaces to the new CS. Grade an approximately 400 square foot area in front of the CS entrance for a level surface. Remove existing drinking fountain and install new fountain with 5'X5' concrete pad for level surface. Replace drains and water hook ups.  Excavation for work such as installation of new CS concrete foundation, utilities, and signage will be up to 2.5 feet in depth. DPR-approves standard project requirements have been incorporated into the Comfort Station Replacement Project. A list of project-specific project requirements can be viewed by contacting the environmental coordinator listed below.	<b>NOE</b>

2008108155	Replace Existing Islay Creek Campground Entrance Sign Parks and Recreation, Department of Morro Bay--San Luis Obispo Replace the existing single post entrance sign at the entrance to the Spooner Ranch House and Islay Creek Campground facility. Install new sign at the same location by excavating up to two approximately 8" diameter holes, each 36" deep for sign posts. Secure posts in holes using concrete footings. Backfill original post hole with native soil if it is not used for one of the new posts. The new sign is a double sided, DPR approved, standardized sign which will be visible from Pecho Valley Road, improving traffic flow and way finding. At project completion, the top of the new sign will be approximately 5 1/2' above ground level.	<b>NOE</b>					
2008108156	Replace Museum Entrance Sign Parks and Recreation, Department of Morro Bay--San Luis Obispo Remove existing Morro Bay Museum of Natural History entrance sign located on south (left) edge of the entrance road and backfill post holes with native soil. Install new museum entrance sign approximately 30' north of the existing sign on the north (right) edge of the entrance road to the museum. Install new sign by digging two approximately 8" diameter sign post holes, each 36" deep. Secure sign posts in the new holes using concrete footings. The new sign is a double sided, DPR approved, standardized sign which will be visible from State Park Road, improving traffic flow and way finding. At project completion, the top of the new sign will be approximately 5 1/2' above ground level.	<b>NOE</b>

2005012035	CSU - Stanislaus Physical Master Plan Update Program EIR California State University, Stanislaus Turlock--Stanislaus Update to the 1968 CSU Stanislaus Physical Master Plan identifying the location of ~30 new buildings totaling ~1,433 million sf. The Master Plan student enrollment will be maintained at 12,000.	<b>EIR</b>	12/01/2008				
2007021132	Rider Distribution Center Project Perris, City of Perris--Riverside Proposal to construct a 643,787 sq. ft. distribution center within the Light Industrial zone, along with a Tentative Parcel Map for reversion to acreage of approximately 28 acres to one parcel and a Street Vacation for a portion of Redlands Avenue and Rider Street for the realignment of Redlands Avenue to facilitate the industrial development. The industrial project is a single building with loading areas along the southerly and northerly boundaries, and parking along the westerly and easterly perimeters adjacent to the street. All the entry corners of the building are enhanced with a raised roof line, cornice treatment and enhanced window treatment. The proposed project is consistent with the Light Industrial land use and zoning designation property. Primary truck access to the site would be provided via Perris Boulevard and Sinclair Street. From Sinclair Street, access to the site may be taken via two driveways on Redlands Avenue and two driveways on Johnson Street.	<b>EIR</b>	12/01/2008

2008101073	<p>San Gabriel Trench Grade Separation Alameda Corridor-East Construction Authority San Gabriel--Los Angeles</p> <p>The San Gabriel Trench grade separation project is located along the Union Pacific Railroad (UPRR) Alhambra Subdivision. The existing track depression through the City of Alhambra would be continued eastward through the City of San Gabriel. A 2.1-mile section of the track will be lowered to below grade in a trench and bridges would be constructed at Ramona Street, Mission Road, Del Mar Avenue and San Gabriel Boulevard. The rail line would return to grade where it crosses the Rubio Wash, east of San Gabriel Boulevard. Ramona Street, Mission Road, and Del Mar Avenue all would remain at their current elevations; however, San Gabriel Boulevard would be raised not more than 2 feet to accomplish the grade separation at that crossing. The rail crossing at Walnut Grove Avenue would remain at-grade with a shadow lowering of the roadway to match the proposed railroad grade. In addition, new bridge structures will be provided at the Alhambra Wash and the Rubio Wash. Construction of the project is anticipated to begin in 2011 and be completed in 2014.</p>	<b>NOP</b>	11/13/2008

	the water collected from the monitoring well will allow the District to monitor the progression of the contaminate plume and undertake appropriate mitigation measures.		
2008108178	Percolation Testing for North Shore Mobile Home Site Pads Parks and Recreation, Department of --Madera Conduct percolation tests on the North Shore of Millerton Lake State Recreation Area to determine percolation/leaching capabilities of the soil in order to develop new septic systems and leach fields at the two existing mobile home sites and two possible (depends on the outcome of the tests) future mobile home sites. Work will excavate 5- 12" X 36" holes using the State Park tractor to avoid the risk of introducing non-native invasive plant species and all test holes will be backfilled immediately after testing is complete. A qualified State Park Archeologist will be present and monitoring during this procedure. If anything of cultural significance is found work will halt and the appropriate procedures will be conducted.	<b>NOE</b>	
2008108179	Percolation Testing for North Shore mobile Site PAds Parks and Recreation, Department of --Madera Conduct percolation tests on the North Shore of Millerton Lake State Recreation Area to determine percolation/leaching capabilities of the soil in order to develop new septic systems and leach fields at the two existing mobile home sites and two possible (depends on the outcome of the tests) future mobile home sites. Work will excavate 5- 12" X 36" holes using the State Park tractor to avoid the risk of introducing non-native invasive plant species and all test holes will be backfilled immediately after testing is complete. A qualified State Park Archeologist will be present and monitoring during this procedure. If anything of cultural significance is found work will halt and the appropriate procedures will be conducted.	<b>NOE</b>
