STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**October 1 – 15, 2016**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 1 – 15, 2016**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

<b><u>Documents Received on Monday, October 03, 2016</u></b>			
2016101002	<p>San Luis Estates Los Banos, City of Los Banos--Merced</p> <p>TV Los Banos, LLC is proposing to subdivide an approximately 5.5 acre parcel into 25 single family residential lots, ranging from 6,000 sf to 9,519 sf. The proposed lots will be subdivided and developed in accordance with title 19, chapter 3, article 6, of the Los Banos Zoning Ordinance.</p> <p>Access to the proposed project and associated street improvements (i.e. curb, gutter, and sidewalk), consists of connecting to, and extending Racquet Club Dr. Interior street improvements consist of a fifty-two ft wide local residential street and cul-de-sacs.</p> <p>The existing site includes disked vacant land. No structures currently exist on the project site.</p>	<b>MND</b>	11/01/2016
2016101004	<p>California Avenue Sewer Improvements Project Corona, City of Corona--Riverside</p> <p>The City proposes the construction of improvements to the California Avenue Sewer generally located within the California Avenue and Foothill Parkway public ROW in the city. Construction of the proposed sewer improvements is anticipated to occur over a 10-month period starting in early 2017. The improvements would be completed in sections starting at the intersection of California Ave and Pico St and proceeding south to the intersection with Tamarisk Lane.</p>	<b>MND</b>	11/01/2016
2016101006	<p>Foothill Road Low Water Crossing Replacement Santa Barbara County --Santa Barbara</p> <p>The proposed project consists of the construction of a new ~1,430 ft long bridge to replace the at-grade low water crossing of the Cuyama River at Foothill Road. The bridge deck would provide two 12 ft-wide traffic lanes, a four ft-wide shoulder on each lane and a 5 ft-wide pedestrian walkway. Concrete barriers would be provided on each side of the two traffic lanes, which would provide safety separation between the traffic lanes and pedestrian walkway. The project would also include rock slope protection to minimize erosion caused by storm flows, and retention basins to collect storm water run-off from the bridge deck.</p>	<b>MND</b>	11/01/2016
2016101007	<p>Vista Pointe - Project No. R2015-02032-(2) / Vesting Tentative Tract Map No. 073465 Los Angeles County --Los Angeles</p> <p>To create one multi-family residence lot developed with 56 single family residence detached condominium units, one single family residence lot and one lot for private recreation and open space on 7.88 gross acres.</p>	<b>MND</b>	11/01/2016
2016101011	<p>Glendale Beeline Bus Maintenance Facility Glendale, City of Glendale--Los Angeles</p> <p>The city is proposing to construct a new Beeline Bus Maintenance Facility that would replace the current leased facility at Los Angeles St and Palmer Ave. The facility would provide for fueling, washing, maintenance and storage of the city's 37-bus fleet. Supervisory and administrative staff as well as bus operators would be housed here. A total of approximately 25,500 gsf would be constructed at the new facility, including maintenance, administration, operations, and storage uses together in a single two-story building, along with an approximately 2,000 gsf</p>	<b>MND</b>	11/03/2016

	outdoor bus wash and an approximately 100 gsf trash enclosure. The site is approximately two acres in size and is currently vacant.		
2016102001	Marin County Day School Improvements - Gen. Plan Amend., Rezoning, Design Review, Use Permit Amend. Corte Madera, City of Corte Madera--Marin Marin Country Day School, proposes building renovations, demolitions, and new construction of the existing campus and completion of a creek restoration program. In addition, portable classrooms would be added north of Paradise Dr temporarily during the construction period and new permanent bathrooms would be added in this same area. These portable classrooms would be removed at the end of construction. A net addition of 11,334 gsf would be added to the campus to provide classrooms, a performing arts center, and associated facilities. A total of 8,349 gsf would be demolished. The improvements would provide updated and more modern accommodations for students and more classrooms in order to reduce class sizes for more personalized instruction. No enrollment increases are proposed as part of this project.	<b>MND</b>	11/01/2016
2016102002	Hot Springs Road Bridge (No. 31C-0005) over Hot Springs Creek Replacement Project Alpine County --Alpine Alpine County is proposing to replace the existing Hot Springs Road Bridge (No. 31C-0005) over Hot Springs Creek with a new prestressed concrete slab bridge. The new bridge would be 34 feet wide by 78 feet long with two travel lanes and a roadway width of 22 feet. The existing bridge is structurally deficient and poses a safety hazard to vehicle travel. The project also includes modification of the approaches on Hot Springs Road and possible use of a diversion structure in the creek. The creek may be dewatered in the work area. The bridge would remain open to through traffic during construction, with one lane being closed at a time. Construction would take 14 months and be completed in two seasons.	<b>MND</b>	11/01/2016
2016102004	Former Sylvan Middle School Demolition Project San Juan Unified School District Citrus Heights--Sacramento The project would entail the demolition of the former Sylvan Middle School and associated facilities. All buildings on the school campus, including portable units, could be demolished and disposed of at an appropriate construction waste facility. The project would require demolition work, removal of demolished materials, and removal of vegetation, followed by site grading. Building foundations could be removed as part of the proposed project. The site would be leveled following building removal, so as to cover up any potential voids if foundation removal is required. The existing school parking lots and basketball courts may be retained. Non-native trees located near buildings would be removed, but native trees would be retained. Post-demolition, the project site would be graded and all building materials cleared.	<b>MND</b>	11/01/2016
2016101001	North Montclair Downtown Specific Plan Amendment Project Montclair, City of Montclair--San Bernardino The key project components of the proposed Amendment include: 1) replace the existing regulating plan in the NMDSP with a new regulating plan and zones; 2) extend the NMDSP westerly boundary to incorporate an area to the southwest at	<b>NOP</b>	11/01/2016

<b><u>Documents Received on Monday, October 03, 2016</u></b>			
	<p>Arrow Highway and Monte Vista Avenue; 3) extend the NMDSP easterly boundary to incorporate 22 acres of land on the west side of Central Avenue at Richton Street; 4) assign land use designations on several properties located along the west side of Central Avenue; 5) introduce a two new land use overlays, the Transition Overlay and the Shopfront Overlay; 6) alter the development potential for the planning area to allow for approx. 2,688 additional residential dwelling units and approx. 782,285 additional sq. ft. of non-residential transit-oriented development; 7) establish minimum intensity standards for the NMDSP area; 8) provide a new street alignment at Arrow Highway and Fremont Ave.; 9) reconfigure the street pattern at Moreno Street and Fremont Street; 10) update the street pattern on the northeast corner of Arrow Highway and Vista Avenue; 11) update the street pattern and park at the northeast corner of Monte Vista Avenue and Moreno Street; 12) update the street pattern north of the railroad right-of-way; 13) relocate the parking structures; 14) establish minimum lot and maximum building size standards; 15) allow for tandem parking standards; 16) remove references to single-family residential uses; 17) provide new signage standards; 18) provide public realm and landscape standards; and 19) update the exhibits in the NMDSP. The proposed project would require a General Plan Amendment to allow for the revision of the official boundary of the NMDSP site plan and other map-based exhibits reflecting the expansion area at the southwest corner of Arrow Highway and Monte Vista Ave. This area would be re-designated in the General Plan from Business Park to Planned Development. The proposed project would also require a zone change in the official City of Montclair Zoning Map and other exhibits to reflect the new zoning of the southwest corner of Arrow Highway and Monte Vista Avenue from MI Limited Manufacturing to Specific Plan with the land use zones of Town Center along Arrow Hwy and Corridor Residential on the rest of the property. A Specific Plan Amendment as described above. Additionally, the project proposes to rescind the Turner Montclair Specific Plan, annex the territory that was previously within the Turner Montclair Specific Plan into the North Montclair Downtown Specific Plan, and apply the new North Montclair Downtown Specific Plan land use designations and regulations to that area. This area is currently designated as the Turner Montclair Specific Plan (1990). Other regulatory agencies that may also require permits or other approvals for the Proposed Amendment include the Airport Land Use Commission for Cable Airport and Ontario International Airport, the Native American Heritage Commission for the Assembly Bill 52 consultation process, and the CA Native American tribes for the Senate Bill 18 consultation process.</p>		
2016101003	<p>Master Plan 2035 California State Polytechnic University, San Luis Obispo San Luis Obispo--San Luis Obispo The Cal Poly San Luis Obispo Master Plan 2035 provides guidance for facilities and improvements over the next two decades needed to fulfill academic programs demands, while addressing physical and environmental constraints and opportunities, to support future enrollment growth from the current enrollment of 17,500 full time employment students to 22,500 FTE students. To do so, the Master Plan provides for consolidation of future facilities development within the main campus' existing academic core, and phases new facilities development north of the campus' core. At the same time, the master plan is designed to protect natural environmental features and agricultural lands that form the character of the Cal Poly San Luis Obispo campus.</p>	<b>NOP</b>	11/01/2016

2016101005	<p>Clovis Community Medical Center Expansion and Herndon Avenue Widening Project Clovis, City of Clovis--Fresno</p> <p>Clovis Community Medical Center is proposing to expand its healthcare facilities on its campus located east of Temperance Avenue between Herndon Avenue and SR 168. In addition, commercial uses and a hotel are proposed on land owned by CCMC west of Temperance Avenue and commercial uses and an assisted living facility are proposed on land south of Herndon Avenue.</p> <p>The project includes the widening of the current five-lane Herndon Avenue between Temperance and Coventry Avenues to six lanes and widening between Coventry and the southern leg of DeWolf Avenue from two lanes to a four lane divided roadway.</p>	<b>NOP</b>	11/01/2016
2015012050	<p>PA-1400261 (SA) San Joaquin County Stockton--San Joaquin</p> <p>A one-year time extension application for a previously approved site approval application for the expansion of an existing, nonconforming restaurant use. The project consists of a proposed 1,040 sf expansion to an existing 800 sf restaurant. The expansion includes a kitchen, bathroom, office, and seating area addition.</p>	<b>Neg</b>	11/01/2016
2016102003	<p>PA-1600074 (SA) San Joaquin County Tracy--San Joaquin</p> <p>A site approval application for the expansion of an existing warehouse and distribution facility to include the construction of a 556,640 sf distribution warehouse. The project site is located on the south side of Schulte Road, 5,280 ft east of Hansen Road, Tracy. (Use Type: Wholesaling &amp; Distribution - light)</p>	<b>Neg</b>	11/01/2016
2005062129	<p>I-580 Isabel Avenue Interchange Construction Project Caltrans #4 Livermore--Alameda</p> <p>This project involves construction of a residential and commercial development with a portion of a regional trail. This Amendment 1 includes widening of Portola Avenue as described in the I-580/Isabel Interchange Construction Project mitigated negative declaration. The Portola Avenue widening will include the removal of concrete and pavement associated with existing Portola Avenue, and will require grading 1.54 acres of upland habitat that now supports ruderal and non-native annual grassland habitat. In addition, Portola Avenue in the proposed widening section of road now supports multiple CA tiger salamander tunnels that provide migratory pathways under Portola Avenue in a north/south direction. Three of these tunnels are routed from north of Portola Ave. widening project to prevent migrating the Covered Species from entering a developed area. The project will result in additional permanent impacts to 1.54 acres of CA tiger salamander (<i>Ambystoma californiense</i>) habitat. The project is expected to result in incidental take of CA tiger salamander which are designated as a threatened species under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species list under CESA that may occur as a result of Project implementation.</p>	<b>NOD</b>

2016108025	Cristina Grading Remediation Project (Lake or Streambed Alteration Agreement No. 1600-2014-0250-T3) Fish & Wildlife #3 Morgan Hill--Santa Clara The Project covered under this Agreement is limited to the remediation of the Cristina violation site. The Project will involve dewatering of the previously-created impoundment, if necessary, followed by grading of approximately 10,000 cubic yard to remove the illegally-built dam. Soil will be removed from creek channel and compacted along the tow of the slope to restore the historic topography and to stabilize the channel. The channel bed and bank will be restored through fine grading, and the site will be re-vegetated using native riparian trees.	<b>NOE</b>	
2016108026	San Ramon Creek Sandbar Removal Project (Lake or Streambed Alteration Agreement No. 1600-2016-0302-R3) Fish & Wildlife #3 Danville--Contra Costa The Project is limited to the removal of non-alluvial sediment within San Ramon Creek as a result of a pipe breakage and water leak. The project will take approximately six days to complete. This sediment was discharged into the creek as a result of a water main break that is owned and operated by the East Bay Municipal Utility Distirct.	<b>NOE</b>	
2016108027	107 Brookside Drive Bank Erosion Protection Project (Lake or Streambed Alteration Agreement No. 1600-2016-0249-R3) Fish & Wildlife #3 San Anselmo-- The project is for left bank erosion protection for 70 lineal feet of Sleepy Hollow Creek where there is rapid bank erosion at the outside bend in the creek. Hand placed rock rip-rap, arroyo willow revegetation, and tree planting in the top of bank area will be used to protect the bank and prevent further erosion from entering the stream.	<b>NOE</b>	
2016108028	Earl Schmidt Intake Pump Station (ESIPS) - Pipeline Improvements Castaic Lake Water Agency --Los Angeles A leak was discovered in the pipeline that conveys untreated water from Castaic Lake to the filtration plant. The project consists of repairing a 70-foot section of pipeline, improving pipe supports and constructing a pipe enclosure (70ft long by 30-ft wide by 16-ft deep). All work is within the ESIPS developed site.	<b>NOE</b>

2015041091	Lake Wohlford Dam Replacement Project Escondido, City of Escondido--San Diego The proposed project consists of the construction of a replacement dam downstream (west) of the existing dam at Lake Wohlford. A 2007 seismic analysis of the dam identified a stability concern for the upper portion of the dam that was added in 1924. The City then decreased the reservoir's capacity to approx. 40% of its prior size. The replacement dam would be constructed so the resultant reservoir level and water storage capacity are equal to the elevation and capacity prior to the water level restriction, at 1,480 feet elevation and 6,500 acre feet, respectively.	<b>EIR</b>	11/17/2016

2002071089	<p>March Business Center Specific Plan March Joint Powers Authority Riverside--Riverside Final Map 30857-7 is a portion of Tentative Map 30857, Amendment #3, for the South campus of the March Business Center Specific Plan (SP-1, A5). The Final Map moves 8.88 acres of Industrial, Business Park, and Mixed Use north and south of Krameria Ave., within the 617 acre South Campus development area. In 2003, the March Joint Powers Authority certified a Final Focused Environmental Impact Report for the March Business Center Development. In connection with the subsequent approval of Amendment #3 to Tentative Map 30857, the March JPA adopted an Addendum to the previously certified Focused EIR which fully analyzed and disclosed the potential environmental impacts of Tentative Map 30857, Amendment #3 on March 2, 2016. Pursuant to the Development Code, the March Joint Powers Commission reviewed, agreed with, and approved the Planning Director's Determination of Substantial Conformance between Tentative Map 30857, Amendment#3 and Final Map 308547-7 for the South Campus of the March Business Center Specific Plan. The Commission approved Final Map 30857-7, finding it consistent with the previously approved Tentative Map 30857, Amendment 3, the Specific Plan, and the Focused EIR and Addendum. Additionally, in order to continue the implementation of the March Business Center Specific Plan, the Commission accepted a Drainage Easement Dedication and also approved a Subdivision Improvement Agreement between the March JPA and the Applicant.</p> <p>Identify the person or entity undertaking the project including any private applicant, any other person undertaking an activity that receives financial assistance from the Public Agency as part of the project, and any person receiving a lease, permit, license, certificate, or other entitlement of use from the Public Agency as part of project.</p>	<b>NOD</b>	
2005082017	<p>Sacramento International Airport Master Plan DEIR Sacramento County Sacramento--Sacramento Project is located at the Sacramento International Airport. The Project is within the active, working operations area of Sacramento International Airport and will include taxiway pavement reconstruction, taxiway extensions, removal of existing taxiways, installation of electrical infrastructure to support the taxiways, and widening and reconstruction of Cy Homer Road.</p>	<b>NOD</b>	
2008071021	<p>March Lifecare Campus Specific Plan March Joint Powers Authority Riverside, Moreno Valley--Riverside The March JAP previously prepared an Addendum to EIR, analyzing the potential impacts of the project, including the installation of needed public utilities to support approved uses. The Addendum and the Project were adopted by the March JPA in November 2011. The grant of certain easements will facilitate the implementation of the previously approved Project. Specifically, the March JPA granted the following easement to:</p> <p>1) Southern CA Edison for the purpose of installing an electrical distribution system on the project site.</p>	<b>NOD</b>

2012071077	<p>SBT-25 Curve Realignment Caltrans #5 --San Benito</p> <p>The Project, as approved by the CDFW on June 23, 2014, and as first amended on May 8, 2015, and on January 27, 2016, involves realigning the 0.4 mile section of SR 25 to current design standards by replacing the nonstandard curve with a 2,000 foot radius curve. In addition to the new section of road, two new driveway exits for the landowners on either side of SR 25 will be installed as well as access to a stockpile area in the current turnout. The remaining 24,790 sq. ft. (0.569 acres) of the previous alignment will be rehabilitated to allow for revegetation with oak trees. The project will result in the permanent development of 1.86 acres and temporary impact to 0.87 acres of upland habitat for California tiger salamander (<i>Ambystoma californiense</i>) (CTS). The project is expected to result in incidental take of CTS which is designated as a threatened species under the CESA. Amendment No. 3 referenced above as issued by CDFW, authorizes the extension of the ITP expiration for an additional two-year period changing the expiration date from Oct. 31, 2016 to Oct. 31, 2018.</p>	<b>NOD</b>

2016101010	Zaca Preserve Tentative Parcel Map Santa Barbara County Buellton--Santa Barbara A request of Sid Goldstien, agent for Zaca Preserve, LLC, owner, for approval of a vesting tentative tract map and road naming application on property zoned residential (1-E-1) and Agriculture (AG-1-20). The proposed vesting tentative tract map is a request to subdivide two existing lots of 2.59 acres and 140.80 acres into seven lots ranging in size from approximately 20 to 22 acres. The proposed road naming application is a request to name a new onsite access road Zaca Preserve Lane.	<b>MND</b>	11/03/2016
2016101012	Well 8A Development Project Big Bear City Community Services District --San Bernardino BBCCSD currently operates Well 8, which is located at the Big Bear Area Wastewater Reclamation Agency's Administration site. Well 8 is experiencing diminished water production. BBCCSD is proposing to drill, construct, develop and test a new well, Well 8A, to replace existing Well 8. The proposed new well will be drilled approximately 150 ft west of Well 8. This well is designed to replace well 8, which historically has been one of the district's largest water producers (about 550 gpm).	<b>MND</b>	11/03/2016
2016101013	PRJ14-00255 Beri Hillside Estate Fullerton, City of Fullerton--Orange The proposed project is a request by applicant Ajay Beri to subdivide an undeveloped property, approximately 4.1 acres in size, into two lots of approximately 2.4 and 1.7 acres for two single family residences. The project site is located on the east side of Ladera Vista Dr, immediately north of 1830 N. Ladera Vista Dr, and south of the Coyote Hills Golf Course. The project site for both residences slopes from Ladera Vista Dr approximately 80 ft down to the east and northeast into an existing drainage creek. With an average slope of over 20 percent, a series of five retaining walls with guardrails would be constructed to support the residences, traversing the length of the property. The grading concept includes the import of approximately 75,000 cy of earth to be used as fill material on the site. Applications include TPM 2014-156 and major site plan review.	<b>MND</b>	11/03/2016
2016101014	Soledad Wind Energy Generation Project 2 Soledad, City of Soledad--Monterey Reference SCH #2013031035  The proposed project consists of the installation and operation of a 3.0 MW-103 wind turbine at the city's WRF with the purpose of generating 100 percent renewable electricity. This grid-connected system will be co-located at the WRF and contribute to offsetting the carbon generated by the WRF site. The purpose of the proposed project is to provide a sustainable supply of electrical energy which can balance the city's carbon footprint. The proposed turbine would be connected to the power grid to allow sale to PG&E under the renewable market adjusting tariff. The WRF has an existing turbine which was constructed in 2014 (SCH#2012071074) and currently provides a portion of the renewable energy needs of the facility. For the purpose of this document, the project site refers to the area of ground disturbance for construction of the proposed project, and the	<b>MND</b>	11/03/2016

2016102006	Bear Gulch Creek Fish Ladder Construction MND/IS San Mateo County Woodside--San Mateo The proposed project is the modification of an existing small dam on Bear Gulch Creek and the construction of a fish ladder to allow for the upstream migration of steelhead trout.	<b>MND</b>	11/03/2016
2016101009	citizenM Hollywood & Vine Los Angeles, City of Los Angeles, City of--Los Angeles The Project would demolish the existing 6,393 sq. ft. low-rise commercial building and surface parking areas in order to develop a 14-story hotel (Project) on an approx. 0.28 acre site located at 1718 N. Vine Street (Project Site) in the Hollywood community of the City of Los Angeles (City). The project would include 216 guest rooms, approx. 6,489 sq. ft. of guest-only amenities, and 4,354 sq. ft. of shared guest and public spaces. The building would have a maximum height of 183 feet and would also include three underground parking levels. Upon completion, the Project would result in approx. 73,440 sq. ft. of new floor area and a maximum floor area ratio of 6:1.	<b>NOP</b>	11/03/2016
2008091102	Centennial Corridor Caltrans #6 Bakersfield--Kern CDFW has executed Streambed Alteration Agreement No. 1600-2015-0202-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Caltrans. Project includes activities related to constructing the Centennial Corridor as a new east-west transportation corridor SR 58 to provide route continuity linking SR 58 (East) with I-5 going through the City of Bakersfield. This will require a bridge widening, a new bridge and pipeline relocation, and work on three existing bridge.	<b>NOD</b>	
2009071057	Gill Ranch Gas Storage Project Public Utilities Commission Mendota--Fresno, Madera Project involves the Operations and Maintenance of the Gill Ranch Gas Storage Facility which includes a 26.7 mile long underground gas pipeline and a formerly depleted 5,020-acre underground natural gas reservoir which serves a storage field. The O&M activities will consist of both routine and emergency response activities at the underground gas pipeline and the storage field. Project will result in impacts to as many as three active Swainson's hawk (Buteo swainsoni) nests and could result intake of Swainson's hawk which is designated as a threatened species under the CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation.	<b>NOD</b>

	the existing MID 115 kV lines on SR 99 west of the City of Merced to a new substation in the southeastern corner of the City of Merced. The EIR identifies the Reduced Project - Substation and 21 kV Distribution Line Alternative as the environmentally superior alternative. This alternative does not involve construction of a 115 kV transmission line, yet achieves the most of the project's objectives while avoiding some of the project's significant impacts.		
2013042040	Navy Drive Bridge Replacement Project Stockton, Port of Stockton--San Joaquin The Port of Stockton, as the CEQA lead agency, in cooperation with Caltrans, as the NEPA lead agency, proposes to replace the existing Navy Drive Bridge( Bridge No. 29C-0023) across the San Joaquin River in the City of Stockton, San Joaquin County. The proposed Navy Drive Bridge Replacement Project will replace the existing two-lane swing bridge with a new four-lane removable span bridge on a slightly different alignment. The project will be funded by FHWA through the Local Assistance Hwy Bridge Program.	<b>NOD</b>	
2016022028	David Trutalli Polasek Quarry Conditional Use Permit, Surface Mining Permit and Reclamation Plan Renewal; APN 101-051-07 Humboldt County Ferndale--Humboldt A 15 year renewal of an existing CUP, Surface Mining Permit, Reclamation Plan, and Financial Assurance for an upland rock quarry in the Ferndale area. active mining operations consist of extracting sand, silt, and gravel from an uplifted Pleistocene age flood plain deposit along the top of the Wildcat Ridge. The applicant proposes to continue extracting material in a manner consistent with the previous permit.	<b>NOD</b>	
2016071027	Pacific Gas & Electric Company Minor Use Permit San Luis Obispo County --San Luis Obispo CDFW has executed Streambed Alteration Agreement No. 1600-2016-0049-R4, pursuant to section 1602 of the Fish and Game Code to the project Applicant, PG&E. Project includes activities related to the removal of an earthen berm located within Pecho Creek. Related Project activities include removal of a damaged culvert and other debris, vegetation removal, and restoration/enhancement.	<b>NOD</b>	
2016072065	Sutter Coast Hospital - MAP1601 - Env. Review of a Medical Building Del Norte County Crescent City--Del Norte The project consists of a 4,000 sf dialysis clinic and a 3,800 sf infusion clinic with a common 1,500 sf breezeway cover between the two clinics. The proposed dialysis clinic will have ten patient stations while the proposed infusion clinic will have eight patient stations. Structures are single story approximately 16-ft in height. The clinics will be located on a portion of undeveloped land northerly of the existing medical office building on land owned by Sutter Coast Hospital. Up to 0.5 acre of land will be cleared to accommodate the buildings and to remove hazard trees from the project site. Water and sewer lines will be extended from the hospital/medical office building to the project site. Sutter anticipates operating each clinic 12 hours per day, 7 days per week but will initially start with a more limited schedule based on demands.	<b>NOD</b>

2016051057	Rancho Goleta Mobile Home Park Fire Improvements Project Goleta, City of Goleta--Santa Barbara The applicant's objectives for the project are to: 1. Construct a new emergency access road and Fire Department hammerhead turnaround. 2. Construct fire infrastructure improvements, including upgrade of existing fire hydrants, extension of fire water lines, and construction of new fire hydrants. 3. Provide for improved emergency access to the existing mobile home park development. 4. Improve fire protection infrastructure to and on the existing mobile home park development, thereby improving the safety for the residents and the area. 5. Promote city of Goleta planning goals by improving fire safety through the provision of additional emergency access and improved fire infrastructure. 6. Minimize impacts on biological resources while providing the necessary fire improvements to improve safety of the mobile home park residents. 7. Protect and preserve public trail access through public park property. 8. Provide a car washing area for the mobile home park residents that complies with applicable regulations.	<b>EIR</b>	11/21/2016

<b><u>Documents Received on Friday, October 07, 2016</u></b>			
2016022066	Menlo Park Small High School Project Sequoia Union High School District Menlo Park--San Mateo FYI: Final  The SUHSD is proposing to construct and operate a small, three story high school facility with capacity to accommodate up to approximately 400 high school students and 35 faculty and staff. The proposed project would support high quality education and avoid overcrowding at SUHSD schools, particularly in the southern part of the district. The SUHSD would open the new school in time for the 2018-2019 school year. The proposed project would involve the following components: removal of existing site facilities (approximately 40,000 sf warehouse with associated parking and landscaping) and construction of a new high school, operation of the new high school, and a potential partnership with the San Mateo County Community College District. The proposed school would operate on a traditional schedule.	<b>FIN</b>	
2006081066	South Magnolia Avenue Subdivison El Cajon, City of El Cajon--San Diego The project consists of a tentative map, site plan, and rezone for the development of 26 detached residential housing units as a planned residential development, two residential streets (lots A and B), an 8,317 sf park and a swimming pool (lot C), and an 8,659 sf open space lot (Lot D) containing a bioretention basin. The project includes the subdivision of four existing parcels totaling approximately 9.8 acres located at 1333 South Magnolia Avenue, south of East Chase Ave, in El Cajon. The project would require a change of zone from RS-20 and RS-40-H to PRD-L and PRD-LL. This rezone, which would double the currently allowed residential development density (min lot sizes would be reduced by one half), would be in conformance with the land use designations of the subject site, which are LR (3-10) and LLR (0-3).	<b>MND</b>	11/07/2016
2016101020	IS Application No. 7006 (Paul Miller) Fresno County Clovis--Fresno Allow expansion to an existing church (1,248 sf addition to an existing sanctuary) on a 3.97 acre parcel in the rural residential, two acre min parcel size zone district. The project site is located on the northeast corner of N. Preuss Dr and E. Nees Ave, approximately 60 ft north of the nearest city limits of the city of Clovis (4620 E. Nees Ave, Clovis) (SUP Dist 5).	<b>MND</b>	11/07/2016
2016101023	ENV-2016-24-MND Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project involves the demolition of an existing surface parking lot, single family residence and duplex and the construction, use and maintenance of a mixed use commercial and residential building that is a max of 85 ft in height, six stories and contains 110,000 sf of floor area that includes 15,300 sf of commercial space and 91 residential units, of which 20 percent of the base density or 14 units are restricted affordable to low income households. The project provides 12,188 sf of open space, which includes 8,500 sf of private open space and 3,688 sf of common open space. The project includes 284 vehicle parking spaces (31 commercial parking spaces, 142 residential parking spaces and 111 parking spaces for adjacent historic structures at 5506 W. Hollywood Blvd and 1673 N.	<b>MND</b>	11/07/2016

	Western Ave) and 56 bicycle parking spaces (45 residential bike spaces and 11 commercial bike spaces). Parking is accessed from Carlton Way and located in four subterranean levels. The project is located in the QR5-2 and R4-2 zones within subarea C of the Vermont/Western Station neighborhood area plan transit oriented district specific plan.		
2016102011	City of Richmond Wastewater Treatment Plant and Collection System Improvements Project Richmond, City of Richmond--Contra Costa The city proposes to implement improvements to its WWTP and sewer collection system identified in the facility plan and sewer collection system master plan. Proposed improvements would address sanitary sewer overflows, replace aging and unreliable infrastructure, comply with discharge regulations, and upgrade or replace non-functioning or obsolete treatment processes with efficient, adaptable, and reliable systems. These projects would improve the reliability of the WWTP and the capacity of the current system to accommodate existing peak hour wet weather flows, and mitigate storm-related sanitary sewer overflows, either through replacing existing pipe to reduce rainfall-dependent inflow and infiltration, increasing the diameter of the pipelines or installing parallel relief sewers.	<b>MND</b>	11/07/2016
2016102012	Vine Transit Maintenance Facility Napa Valley Transportation Authority Napa--Napa Construction of an approximately 23,000 sf, single story (approximately 24-28 ft in height) bus maintenance facility that would include a bus wash, seven spaces for bus repair work, one space for paint and body work, and tire storage. The project would also include the construction of a single story 3,917 sf administration office building up to 16 ft in height with an outdoor landscaped courtyard. The two parking lots would accommodate approximately 93 public transit vehicles as well as 75 employee and visitor vehicles respectively. These project components would occupy approximately 4.88 acres of the project site, including approximately 3.73 acres of parking and circulation areas, 27,082 sf of building footprints, and 23,140 sf of landscaping. A wall of up to eight ft in height would be along the eastern property line.	<b>MND</b>	11/07/2016
2016102013	110 Dry Creek Road Mixed Use Project Healdsburg, City of Healdsburg--Sonoma A mixed use project to be built in one phase consisting of a hotel with 122 rooms fronting on Dry Creek Road and a multi family building with 42 affordable housing units to the south of the hotel. A driveway will be constructed at the southwest corner of the site to allow direct access to Grove St, which will require the construction of a vehicular and a pedestrian bridge over Foss Creek. A variance, streambed alteration agreement and a US ACOE 404 permit are required for the construction of the bridge. A tentative tract map is proposed to allow the division of the property into two parcels; one of the hotel and one for the residential component.	<b>MND</b>	11/07/2016

2016101021	<p>Morena Corridor Specific Plan EIR San Diego, City of San Diego--San Diego</p> <p>Project is to establish a Specific Plan to identify land uses, urban design policies, and transportation and infrastructure improvements for the area along Morena Blvd., around the future Tecolote and Clairemont Drive Trolley stations, and the commercial and industrial lands within the southwest area of Linda Vista. The Specific Plan area covers approx. 300 acres bounded by Gesner Drive to the north, I-5 to the west, and Friars Road to the south. The eastern project boundary follows the properties that front Morena Blvd. within Clairemont Mesa and borders the neighborhood of Overlook Heights and University of San Diego within Linda Vista.</p> <p>The Specific Plan would redesignate approx. 50 acres of Commercial and Industrial land uses to the Community Village land use designation within the Linda Vista community. The Community Village land use designation would allow for the development of multi-family housing in a mixed-use setting and commercial, service, and civic uses. The amendment would also revise the planned street network to reclassify Morena Blvd from a 4-lane Major street to a 3-lane Collector street in the Clairemont Mesa community plan and realign the planned street network within the Linda Vista community to create a grid network through the eastern extension of Morena Blvd to Linda Vista Ave. and the removal of Napa Street from the street network.</p>	<b>NOP</b>	11/07/2016
2016101022	<p>The Bluffs at Ridgemark San Benito County Hollister--San Benito</p> <p>The proposed Bluffs at Ridgemark project is located on approx. 50 acres of blufftop farmland southwest of the Ridgemark County Club. Approx. 40 acres of the site are currently used for agricultural production. The remaining 10 acres on the western edge of the site are comprised of steep slopes and Southside Road, which currently runs through a portion of the southern edge of the property. The applicant is requesting a vesting tentative tract map to subdivide the property into 93 residential lots. The proposed density would be 1.9 dwelling units per acre. The proposed project would also construct associated infrastructure and three neighborhood parks totaling 1.96 acres. A six foot wide paved bicycle/pedestrian path would be constructed throughout the development, separated from the roadway by curb and gutter.</p>	<b>NOP</b>	11/07/2016
2016102010	<p>Blanchard Road Warehouse/Distribution Center Project (Planning Files nos. C15-057 and H15-061) San Jose, City of --Santa Clara</p> <p>A conforming Rezoning from the A Agricultural Zoning District to the IP Industrial Park Zoning District and a Site Development Permit to allow the construction of an approx. 414,000 sq. ft. warehouse/distribution center.</p>	<b>NOP</b>	11/07/2016
2016102015	<p>PA-1600231 (MS) San Joaquin County Manteca--San Joaquin</p> <p>A minor subdivision application to subdivide an existing 19.37 acre parcel into two parcels. Parcel one to contain 12.95 acres. Parcel two to contain 6.44 acres.</p>	<b>Neg</b>	11/07/2016

2016102016	PWGRD15-0001 & CEQA15-0001 Butte County Paradise--Butte The applicant request approval of a grading permit pursuant to Butte County Code Chp 13, Article I for a grading operation that disturbed three acres of a 40.68+/- acre property for the purpose of leveling and terracing land for the installation of a garden or similar use. The applicant has estimated cut and fill of approximately 2,000 cy for the terraces (work has been completed). The max slope of the work site is cuts (H:V) 2:1 max, Fills 2:1 max. Site specific erosion and sediment control measures are a part of the proposed grading plan, and best management practices, meeting the requirements of the CalTrans standard specifications, March 2003 were installed on site and are incorporated into the project description. The grading plan identifies BMP's of silt fencing, hydroseeding, and straw mulch to be in place until bare soil is covered. A grading plan note states, the roads identified on this grading plan have not been approved for access to any permitted structures at this time. Should the property owner desire to use them for such access the road being used for that access shall be improved to the min acceptable standard, in effect at the time of such request, as required by Butte County Fire and the Butte County public works department. The improvements shall be done under a subsequent grading permit to be issued at that time.	<b>Neg</b>	11/07/2016
2016102017	19J Sacramento, City of Sacramento--Sacramento Note: SCEA Initial Study  The project would include the construction of a 173-unit, 11 story, housing complex with a ground floor commercial component and a second story parking garage. The project would be located on the Northwest corner of 19th St and J St. The project is less than one mile away from the State Capitol, downtown employment areas, and regional park transit hubs, and is intended to reduce dependence on single passenger vehicle travel by allowing for greater access to alternative means of transportation. The project qualifies as a transit priority project pursuant to public resources code section 21156b.	<b>Oth</b>	11/07/2016
1994032013	PSP 93-059 Tulare County --Tulare Proposed changes include: acceptance of food waste, manure, and digestate; and the ability to sort, process, and compost food waste, manure, and digestate. There will be no increase in tonnage, hours or acreage.	<b>NOD</b>	
2004121068	Santa Margarita River Conjunctive Use Project Fallbrook Public Utility District Fallbrook--San Diego The proposed project would upgrade an existing groundwater recharge and recovery system to help meet water demands for Camp Pendleton and Fallbrook, reduce regional dependency on imported water, and improve water reliability. Project elements would improve existing facilities, replace existing structures, and/or construct new facilities. The proposed project would include diversion system upgrades, groundwater recharge, and groundwater production. Raw groundwater would be delivered to FPUD via a new bi-directional pipeline for treatment in a new water treatment plant constructed on FPUD property adjacent to DET Fallbrook and operated by FPUD.	<b>NOD</b>

2016032059	Smith River Alliance - Immediate TPZ Rezone - R1602 Del Norte County --Del Norte The proposed project is to change the zoning on a 15.25 acre parcel from 11.33 acres of TPZ and 3.92 acres of PO to FR-2 (Forest-Recreation, 2 acre minimum lot size). General Plan land use designation is Rural Residential 1 du per 2 ac. The parcel is accessed of South Fork Road and is adjacent to the South Fork Smith River. The project site is currently operated as an environmental education and recreation camp, developed with a lodge, caretakers quarters/garage, tent camping sites, and community gathering/cooking facilities. The proposed change to FR-2 will be more consistent with the current land use and will facilitate future expansion of the existing use.	<b>NOD</b>	
2016081012	Coyote Canyon Landfill Gas Recovery Facility Demo and Telecom Update Newport Beach, City of Newport Beach--Orange The project is the demolition of former gas-to-energy structures and the construction of temporary and then permanent 65-foot high collocated wireless telecommunication facilities at the former gas-to-energy facility site at the closed Coyote Canyon Landfill, which requires the issuance of a limited term permit and conditional use permit by the City for the temporary and permanent wireless telecommunication facilities.	<b>NOD</b>	
2016082026	Hotel Sebastopol Sebastopol, City of Sebastopol--Sonoma Development of a 66-room hotel, which will consist of multiple buildings, ranging from two to four stories with a height of 50 feet at its highest elevation. The hotel will contain the following amenities and mix of uses: A lobby and reception area, hostel rooms, retail space, artist-maker studios, restaurant, bar, lounge, wellness center, public courtyard, private gardens, outdoor rooftop decks, meeting rooms, and various other hotel amenities. The project also involves the provision of 120 parking spaces. 90 of the spaces will be surface parking in a tandem compact-space format with valet service, located east of Brown Street at 6826 and 6824 Depot Street and 215 and 225 Brown Street, with remaining spaces provided on the project's street frontages.	<b>NOD</b>	
2016082072	Oswald Water District Fish Screen Project Fish & Wildlife #2 Yuba City--Sutter CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2016-0022-R2, pursuant to section 1602 of the Fish and Game Code to the project Applicant, Oswald Water District. Project includes the installation of a self-cleaning fish screen and retrieval system, as well as related support structures and control facilities. The new self-cleaning fish screen will be mounted on a track to allow removal of the screen for service or inspection when the pump is not in operation. The screen will dock onto a docking inlet installed at the end of a new conductor pipe creating a fish tight seal during operation of the dump. The project includes the diversion of water at the Oswald Water District pumping facility for Agricultural use.	<b>NOD</b>

2016082014	<p>Chevron Long Wharf Maintenance and Efficiency Project California State Lands Commission Richmond--Contra Costa</p> <p>Chevron Products Company proposes to implement modifications to the Richmond Refinery Long Wharf to improve its reliability and efficiency, comply with Marine Oil Terminal Engineering and Maintenance Standards requirements, and enhance the safety of crews and operators. The proposed project site is located in SF Bay adjacent to the Chevron Refinery in Richmond, CA. The project would involve modifications to four berths. Proposed modifications to the Long Wharf include a seismic retrofit to the Berth 4 loading platform, replacing gangways and cranes, adding mooring hook dolphins and new standoff, and modifying the fire water system at Berths 1, 2 and 3. The project would include installation of piles and over water structures.</p>	<b>MND</b>	11/09/2016
2016101024	<p>Osler Parking Structure Project University of California, San Diego La Jolla--San Diego</p> <p>The proposed project would involve the construction of an approximately 419,000 gsf, 6-level parking structure and a single story, 800 sf visitor center, where a surface parking lot (P604) currently exists. The project is located at the intersection of Gilman Dr and Osler Lane. As a result of siting the building for the most effective land use and circulation, the proposed project would involve the demolition of the majority of the existing parking lot, clearing of existing vegetation, and grading and fill of slopes to the west and south. The proposed parking structure would include approximately 1,300 parking spaces and retain 38 surface parking spaces from the existing parking lot. Additionally, 66 new bicycle parking spaces would also be added in close proximity to the pedestrian entrance along Osler Lane.</p>	<b>MND</b>	11/08/2016
2016101027	<p>Aliso Creek - Limeklin Creek Restoration Project Los Angeles, City of --Los Angeles</p> <p>The project consists of implementation of water quality improvements including diversion and treatment of all dry weather and a portion of wet weather flows by construction of three diversion structures; pretreatment devices; biofiltration; restoring vegetation; and subsurface irrigation. The project also provide open space and educational opportunities.</p>	<b>MND</b>	11/08/2016
2016102019	<p>Washington Place Residences (City file no. PLN2016-00304) Fremont, City of Fremont--Alameda</p> <p>Redevelopment of a 2.1 acre parcel located at 2529 Washington Boulevard to allow a new Preliminary and Precise Planned District, and a vesting tentative tract map no. 8342. The project will create a 14-unit single family home development with a private street. The proposed units would be configured as duet dwellings, with two units located per building with a shared wall, but separate fee title ownership by each family of both the living area/structure and underlying land. The project is located in the Mission San Jose Community Plan Area of the city, west of the I 680 southbound exit in Fremont (APN 525-0423-001) on the north side of Washington Blvd. Currently, the majority of the project site is undeveloped, with a creek line 6K-1 (Washington Creek) running the length of the site on its northern border.</p>	<b>MND</b>	11/08/2016

2015061029	<p>Shelter Island Boat Launch Facility Improvements Project and Port Master Plan Amendment San Diego Unified Port District San Diego--San Diego</p> <p>The RWQCB - San Diego Region is issuing a Clean Water Act Section 401 water quality certification (Cert. No. R9-2015-0152) to the project applicant. The applicant proposes improvements to the Shelter Island Boat Launch Facility within jurisdictional waters, including replacement of launch ramp, jetties (with concrete sheet pile bulkhead walls), floating docks, and gangways, installation of new public walkways and rock slope protection within the basin, re-grading of the adjacent beach area, and dredging of 900 cubic yards of sediment from the floor of the boat basin.</p>	<b>NOD</b>	
2015102017	<p>Chico Walmart Expansion Project Chico, City of Chico--Butte</p> <p>The project applicant is proposing to subdivide the project site to facilitate the following development and use activities: (1) expand the existing Walmart store by up to 66,500 square feet; (2) develop a fuel station with 8 fueling positions and a 1,500 square-foot kiosk; and (3) create two outlots parcels for future commercial use with a combined development potential of 52,000 square feet. In addition, modifications would be made to vehicular access points and an existing Class I bicycle/pedestrian path would be re-routed around the perimeter of the site.</p>	<b>NOD</b>	
2016081058	<p>Draft Removal Action Work Plan for United Industries Site Toxic Substances Control, Department of Cudahy--Los Angeles</p> <p>DTSC is considering approval pursuant to Chp 6.8 of the RAP at the former United Industries Corporation property, located at 4060 East 26th St, Vernon, CA, hereinafter the site or the facility. The purpose of the proposed project is to remediate soil impacted with volatile organic compounds (VOCs), semi volatile organic compounds (SVOCs), pesticides, metals, and total petroleum hydrocarbons and soil vapor impacted with VOCs in order to minimize human exposure and protect the environment. The RAP proposes to excavate surface soils impacted at concentrations that exceed project-specific industrial cleanup levels and operate a soil vapor extraction (SVE) system to remove VOCs from deep soils and soil vapor. Upon completion of the scope of the RAP, a land use covenant (LUC)/deed restrictions would be implemented to limit the Site to industrial/commercial uses and prohibit future Site development for residential, hospital, hospice, school, or daycare center use of the property, and provide a management plan for any future maintenance work in the soils.</p> <p>The SVE system includes several extraction wells connected to the treatment units. The SVE system will be installed and permitted in accordance with South Coast Air Quality Management District's air pollution control regulations. The SVE system will operate until the cleanup goals are achieved. Months of operation time is the initial estimate to treat the contamination. The system will operate until levels are reached that do not pose a significant risk.</p> <p>A Site-specific air permit will be obtained from the South Coast Air Quality Management District for operation of the SVE system. The SVE system will be operated in a manner consistent with the permit and other pertinent requirements of SCAQMD. Upon completion of construction activities, remediation systems operations and maintenance and soil vapor and indoor air concentration monitoring will occur.</p>	<b>NOD</b>

2007121098	Kettleman City Water Treatment Plant and Commercial Water Storage Tanks Kettleman City Kettleman--Kings Note: Review Per Lead  The applicant is proposing to upgrade the community potable water system by installing a water treatment plant that would treat water from the California Aqueduct. A new turnout will be constructed where the raw water supply would be pumped and cleaned with a membrane filtration and chloramine disinfection treatment process. The proposed capacity of the treatment facility is 900 gallons per minute or 1.3 million gallons per day. Piping will be installed connecting the water treatment plant to the existing community service district water lines. The previously approved project included commercial storage tanks, which are no longer part of the project.	<b>ADM</b>	11/07/2016
2015061085	Valley Corridor Specific Plan San Bernardino County Fontana, Rialto--San Bernardino The Valley Corridor Specific Plan would provide the foundation for a more vibrant community corridor that offers employment and retail opportunities surrounded by a more walkable, safe, and attractive environment. The plan introduces land use change to approximately 294 acres of parcelized land within the boundary and a little over 60 acres of ROW. Buildout of the Valley Corridor Specific plan could ultimately support a total of 1,093 residential dwelling units, 4,073 residents, 1,882,428 sf of nonresidential buildings space, and 1,890 jobs in the plan area. This would represent an additional 568 dwelling units, 1,857 new residents, 907,319 sf of additional nonresidential building space, and approximately 1,413 new jobs in the plan area compared to existing conditions.	<b>EIR</b>	
2015121051	Puente Hills Landfill Park Master Plan Los Angeles County Parks & Recreation Industry--Los Angeles The proposed project is a long range master plan that over time would develop a portion of what was formerly the largest landfill in the western US into a regional park, providing recreation and open space for the greater LA area. County of LA Department of Parks and Rec has the opportunity to create a new regional park uniquely situated at the western end of Puente Hills on a large industrial closed landfill site that is owned and maintained by the Sanitation Districts of LA County (Sanitation Districts).	<b>FIN</b>

2000121036	<p>The Master Plan for Phases 1 &amp; 2-The Preserve Chino, City of Chino, Chino Hills, Ontario, Norco, Corona--San Bernardino The project involves a General Plan Amendment, Specific Plan Amendment/Zone Change, and Master Site Approval for the Flores Site and Blocks 1, 2, 4, 8, 10, and 11 within the South of Pine (SOP) Master Plan component of The Preserve Specific Plan. A Tentative Tract Map (TTM No. 19994) is being processed for the SOP Block 4 area, Site Approvals, and Special Conditional Use Permits (SCUPs) are being requested for the Flores site and the Homecoming Phase 4 (HCP 4) portion of SOP Block 4. This project involves grading the SOP Block 4 area development of the Flores Site and HCP 4 site, and installation of backbone infrastructure. On the Flores site, the project would include development of 10,775 sq. ft. of commercial/retail uses, including a 3,000-sf convenience store within a single-story building and a fueling canopy with a maximum of 12 vehicles fueling stations, a 2,900 sf auto lube facility, and a 4,875 sf auto spa that would provide various car wash and auto detail services. Development in SOP Block 4 would include the fourth phase of the Homecoming at the Preserve, including 454 units of 2- and 3-story townhomes and stacked flats in a mixture of HDR and HDR-30 densities. The project would be consistent with The Preserve Specific Plan, as amended. The Project includes construction of an internal circulation system, including East Preserve Loop along the frontage of HCP 4, Academy Street between East Preserve Loop and Discovery Park, Discovery Park Avenue between Market Street and Legacy Park, and Hellman Avenue between Market Street and Legacy Park.</p>	<b>NOD</b>	
2006032114	<p>Auburn Creekside Center (PEIR T20050277) Placer County Auburn--Placer Project proposes a commercial retails hopping center on a 13.2 acre parcel. The development site is approx. 6.6 acres in area; the remaining 6.6 acres will be provided as right-of-way dedications and open space. The project is anticipated to be developed in two phases, but if tenant interest or market events dictate, a single construction phase is possible, ultimately consisting of up to 90,105 sq. ft. of new retail space.</p>	<b>NOD</b>	
2007062070	<p>Seasonal Water Solutions Conditional Use Permit and Special Permit Humboldt County --Humboldt A CUP to conduct a business engaged in the collection, storage, delivery, and sale of non-potable water to residents in the Southern Humboldt area for primarily agricultural use (e.g. irrigation). The business proposes to operate on an approximately 5-acre portion of a 34-acre parcel which is currently developed with two existing single family residences, a detached garage, a barn, and a studio. To supply water for the business, the project proposed to collect rainwater by covering approximately 83,000 sf of ground with black pond liner tarpaulin, which will be weighted down with large concrete blocks in a grid pattern and used as an impervious surface to facilitate capture of runoff during rainfall events. Captured water will be directed into and stored in a series of large water bladders, which will be located on mostly level terrain and anchored to comply with the County flood regulations. There are currently seven (7) bladders on the acre parcel. Each is capable of storing approx. 210,000 gallons of water and were placed on the property without the benefit of County review. The project ultimately installation and use of up sixteen bladders for water storage, each capable of storing approx.</p>	<b>NOD</b>

<b><u>Documents Received on Tuesday, October 11, 2016</u></b>			
2016062061	Hutchinson, Wesley Minor Land Division (PMLD 20130382) Placer County Lincoln--Placer Minor Land Division to subdivide an approx. 44-acre property into four parcels consisting of two 10.71 acre parcels, and 11.10-acre parcel, and an 11.47-acre parcel.	<b>NOD</b>	
2016072005	DeGray Zone Change (Z-15-06) and Vesting Tentative Parcel Map (TPM-15-04) Siskiyou County Mount Shasta--Siskiyou The project consists of a rezone and vesting tentative parcel map to subdivide the parcel into four lots ranging from 2.52 to 5.59 acres, plus a 5-acre designated remainder parcel. The current R-R-B-2.5 zoning would change to Neighborhood Commercial (C-U); Limited Industrial (M-L); and Light Industrial (M-M). The parcels would be served by individual well and septic systems.	<b>NOD</b>	
2016072014	Coombes Minor Land Division (PLN15-00409) Placer County --Placer Minor Land Division to subdivide an approx. 20-acre property into four parcels consisting of 7.37 acres, 2.4 acres, .28 acres and ten acres.	<b>NOD</b>	
2016072015	Trimble Minor Land Division (PLN15-00409) Placer County Lincoln--Placer Minor Land Division to subdivide an approx. 44.49 acre property into four parcels consisting of 10.77 acres, 12.36 acres, 11.33 acres and 10.02 acres.	<b>NOD</b>	
2016082005	Lima General Plan/Zoning Map Amendment, Minor Subdivision & Hillside Development Permit Arcata, City of Arcata--Humboldt This is a city-sponsored project that will result in the City's acquisition of a +/- 20 acre remainder parcel at the east end of Granite Ave to be added to the Arcata Community Forest for public access, habitat restoration, and working forest maintenance purposes. The subject property is currently 24.1 acres in size and is planned and zoned for Natural Resource-Timber Production. There is one existing non-conforming residence on the parcel located adjacent to the northerly California Ave frontage. The residence is served by City water and an onsite sewage disposal system. The project includes a Minor subdivision to create two parcels of 1- and 2.2 acres each. These two parcels created through subdivision will be planned and zoned residential very low density which is compatible with the zoning of the residential properties to the east.	<b>NOD</b>	
2016082051	Butte County Evidence Building & Morgue Butte County Oroville--Butte Construction of an Evidence & Morgue, estimated at approx. 11,000 sq. ft. in area. The existing evidence building, roughly 2,500 sq. ft. in area, does not accommodate contemporary evidence handling procedures and will be demolished under a ministerial building permit to accommodate construction of the Supplemental Jail Facility north of the existing jail.	<b>NOD</b>

2016101033	Water Supply Project Lakeside Union School District Bakersfield--Kern The project consists of the construction of approximately 4-miles of 16-in pipeline along Old River Rd from McCutchen Rd to Shafter Rd. Construction of the water pipeline will be kept within the designated right of way, which is developed with apved roads and graded shoulders. The water pipeline will connect to Bakersfield's existing domestic water distribution network at Old River Rd/McCutchen Rd and will serve Lakeside School at Old River Rd/Shafter Rd.	<b>MND</b>	11/10/2016
2016102023	Haines Road at Wise Canal Bridge Replacement Project Placer County Auburn--Placer The existing Haines Rd bridge is a single lane, single span rigid frame concrete structure that was constructed in 1930. The existing bridge is 28 ft long and 16 ft wide. The clear width of the single lane deck (between the railings) is only 13.5 ft though it serves a two lane roadway. The abutments are skewed to the roadway approximately 45 degrees, and form the sides of the Wise Canal under the bridge. The bridge replacement would be a wider, longer, single-span, precast pre-stressed voided slabs bridge on strutted abutments on essentially the same horizontal and vertical alignment as the existing bridge. The new bridge will be approximately 73 ft in length and 35.33 feet in width, with two 12 ft wide traffic lanes, two 4 ft wide shoulders, and two 1.67 ft wide bridge rails. The new bridge abutments will be located behind the lined canal walls.	<b>MND</b>	11/10/2016
2016102025	City of Eureka 2040 General Plan Update and Climate Action EIR Eureka, City of Eureka--Humboldt The project consists of a comprehensive update to the current General Plan for the City of Eureka, as well as a Climate Action Plan. Buildout of the 2040 General Plan could result in approx. 2,500 additional housing units and 1.2 million sq. ft. of additional non-residential space.	<b>NOP</b>	11/10/2016
2016101031	Fuerte Drive Realignment Project San Diego County --San Diego The project is located in the unincorporated community of Valle de Oro in San Diego County. The project proposes to improve sight distance and traffic safety for motorists traveling on Fuerte Dr between La Rueda Dr and Calavo Dr and at the intersection of Fuerte Dr and Avocado Blvd. The proposed project extends approximately 0.19 miles (1002.52 ft) along Fuerte Dr from La Rueda Dr to Calavo Dr, and also includes approximately 0.03 miles (179.43 ft) of the northeast portion of Alzada Dr that intersects with Fuerte Dr. This small portion of Alzada Dr will be realigned to intersect with Fuerte Dr at an approximate right angle as part of the realignment of Fuerte Dr. The proposed project for the intersection of Fuerte Dr and Avocado Blvd encompasses approximately 0.16 mile, or approximately 882.39 ft of improvements. Project improvements on Fuerte Dr between La Rueda Dr and Calavo Dr include the realignment of horizontal cuves in the road along Fuerte Dr; the addiiton of a left turn lane at the intersection of Fuerte Dr and Alzada Dr, as you are traveling east on Fuerte Dr toward the intersection replacement of the existing drainage pipe and headwall on the southeast side of Fuerte Dr in the vicinity of Fuerte Dr and Alzada Dr intersection; and replacement of the existing "white delineators: with a berm at the southwest corner of Fuerte Dr and Calavo Dr intersection.	<b>Neg</b>	11/10/2016

2016108139	Ringo/Nunez Water Diversion, Stream Crossing, Pond Outflow, and Channel Restoration Project (Lake or Streambed Alteration Agreement No. 1600-2016-0298-R1) Fish & Wildlife #1E --Humboldt The project is limited to seven encroachments. One encroachment is for water diversion from a spring/shallow groundwater seep to be used for domestic use and irrigation. Work for the water diversion will include use and maintenance of the water diversion infrastructure. Four encroachments are for stream crossing upgrades which include installation of larger culverts. One encroachment is for maintenance to the pond spillway requiring rock armoring for stabilization. The final encroachment is proposed to remove trash placed in a Class III stream by a prior land owner. Work for these projects will include excavation, placement of rock armoring, and revegetation and erosion control of as necessary to minimize erosion.	<b>NOE</b>	
2016108140	Edwards Water Diversion and Pond Spillway Project (Lake or Streambed Alteration Agreement No. 1600-2016-0280-R1) Fish & Wildlife #1E --Humboldt The project is limited to two encroachments. One encroachment is for water diversion from an Unnamed Class II tributary to Dinner Creek, a tributary to Redwood Creek. Water is diverted for domestic use and irrigation. Work for the water diversion will include use and maintenance of the water diversion infrastructure. The second encroachment is proposed to allow for installation of a pond spillway structure that will be routed back to a Class III channel. The spillway structure will drain a newly constructed off-stream pond. Work f	<b>NOE</b>

	for the discharge of up to 238,000 GPD of treated industrial wastewater onto onsite unlined ponds for storage and reclaimed for agricultural beneficial on approximately 140 acres of farmland to grow Bermuda grass or other fodder crops for cattle feed. The project includes the construction and operation of a new BioFiltro wastewater treatment system for the beef plant. This CEQA review is needed to justify the issuance of new WDRs by the Regional Water Board to authorize the reuse of reclaimed water for agricultural uses on and off the site.		
2016101035	Alhambra Generating Station Battery Energy Storage System Project Long Beach, City of Long Beach--Los Angeles AES Southland Energy, LLC proposes to construct a 300 megawatt battery storage system (BESS) facility at the existing Alamitos Generating Station. The BESS would consist of three 50-foot high buildings and would be constructed within an existing surface parking lot on the generating station property. The project would include ancillary facilities such as a chiller plant (utilized as a cooling system for BESS facilities) and necessary utility connections. The project would also include parking, landscaping, and open space improvements in various portions of the generating station site.	<b>MND</b>	11/14/2016
2016101036	69th and Mohawk Pump Station (PTS No. 404973) San Diego, City of --San Diego The project proposes to replace an existing water pump station on an approximately 0.22-acre lot at 6910 Mohawk Street with a new water pump station. Removal of the existing pump station would consist of the demolition of two existing one-story buildings and an existing asphalt and gravel parking lot, removal of existing landscaping and irrigation, and removal of existing retaining walls and fences along the north, south and west property lines. An existing wall and fence along the east property line would remain. The new pump station would consist of a new 2,573 sf, 19-ft tall, one story structure, which would house an electrical room, mechanical room and six water pumps.	<b>MND</b>	11/14/2016
2016102026	TM14-1523/Rancheria Court Tanis Split El Dorado County --El Dorado The Tentative subdivision map would create two residential lots, approximately 11,535 acres and 5.11 acres in size, from a 16.645 acre site identified by APN 319-330-27. The existing residential dwelling would remain on proposed lot 2 and would be served by an existing well and an existing on-site septic wastewater system. The future residential dwelling on proposed lot 1 would be served by an existing well and future on site septic wastewater system.	<b>MND</b>	11/14/2016
2016102028	Highridge Provender Cold Storage Warehouse Parking Lot Project Union City Union City--Alameda Highridge Provender, LLC is proposing to construct and operate a parking lot adjacent to the existing cold storage warehouse located at 33400 Dowe Avenue in Union City. The asphalt parking lot for 247 autos would be developed on an approximately 2.9 acre vacant triangular-shaped parcel immediately south of the Highridge warehouse. The parking lot would landscaped with trees, shrubs, and groundcovers and would include three landscaped bio-retention facilities to provide onsite treatment of stormwater runoff from the parking lot.	<b>MND</b>	11/14/2016

2016062048	Highway Bridge Maintenance Project - Multi-County Caltrans #10 Stockton, Modesto--San Joaquin, Tuolumne, Stanislaus Caltrans is proposing to perform bridge maintenance work on SR 4, 120, and 132 in/near the cities of Stockton, Jamestown, and Modesto within the counties of San Joaquin, Tuolumne, and Stanislaus. All work will be restricted to within Caltrans right of way.	<b>Neg</b>	11/14/2016
2016102027	PA-1600206 (MS) San Joaquin County Stockton--San Joaquin A minor subdivision application to subdivide a 326.53 acre parcel into four parcels and a designated remainder parcel. Parcel 1 to contain 49.62 acres. Parcel 2 to contain 40.00 acres. Parcel 3 to contain 37.11 acres. Parcel 4 to contain 37.11 acres. Designated remainder parcel to contain 162.88 acres.	<b>Neg</b>	11/14/2016
2016102029	Meyers Intersection Improvements Caltrans #3 --El Dorado The project proposes to convert the existing T-intersection into a three-leg roundabout. The roundabout will have single lane approaches on all legs, plus a bypass lane for the WB US 50 traffic. Widening the roadway is required for parts of the circulatory roadway and the approach leg. The purpose of this is to improve safety by reducing the number and/or severity of collisions at this intersection. The intersection at US 50 and SR 89 in El Dorado County is experiencing a number of collisions related to the intersection type.	<b>Neg</b>	11/14/2016
2011111049	Campo Verde Solar Energy Storage System Imperial County El Centro--Imperial An EIR was prepared for the Campo Verde Solar Project and certified in 2012. The current project is an amendment to an existing conditional use permit (11-0007) for a proposed battery energy storage facility that will charge from the electricity generated by the Campo Verde Solar facility and connect to the existing on-site substation which interconnects with the Imperial Valley Substation. The project will be built in 2 phases: Phase 1 is a 424 sf metal modular battery system container on a concrete foundation occupying 707 sf including a power distribution panel, and other components. Phase 2 is a 12,300 sf metal building with battery racks on a concrete foundation with electrical switch gear and other equipment occupying 16,086 sf. Phase 2 will be capable of storing 5 megawatt hours of electricity; phase 2 will store 100 MWH.	<b>SIR</b>	11/28/2016
1997122002	Addendum to the Lent Ranch Marketplace Final EIR Elk Grove, City of Elk Grove--Sacramento In October of 2014, the City and Applicant, Elk Grove Town Center, L.P. entered into an Amended and Restated Agreement Regarding Regional of the Outlet Collection at Elk Grove Project (File No. EG-14-012). On October 12, 2016 an Amendment to the Mall Agreement by removing a portion of property from coverage under the Mall Agreement. The Amendment to the Mall Agreement does not approve any specific development project. An addendum to the EIR addressing impacts to agricultural resources was previously prepared and adopted by the City on August 4, 2004. In addition, a mitigation monitoring and reporting program (MMRP) was adopted for the project.	<b>NOD</b>

2016102033	<p>East Hillsdale Boulevard Pedestrian and Bicycle Overcrossing Project San Mateo, City of San Mateo--San Mateo</p> <p>The proposed East Hillsdale Boulevard Overcrossing project would construct a new pedestrian and bicycle overcrossing over the US 101 freeway, approximately 400 ft south of and parallel to the existing East Hillsdale Boulevard vehicular overcrossing it would connect with East Hillsdale Boulevard on both sides of US 101, East Hillsdale Court, and La Selva St. The project would be built almost entirely within the existing State highway right of way, minor right of way would be required at East Hillsdale Court and at the East Hillsdale Blvd/Norfolk Street intersection. The project would not impact the existing East Hillsdale Blvd overcrossing or change any traffic patterns or volumes.</p>	<b>Neg</b>	11/14/2016
2016102036	<p>PA-1600196 (MS) San Joaquin County Stockton--San Joaquin</p> <p>A minor subdivision application to subdivide an existing 1,160 acre parcel into two parcels. Parcel 1 to contain 845 acres. Parcel 2 to contain 315 acres.</p>	<b>Neg</b>	11/14/2016
2002041161	<p>Mt. San Antonio College 2015 Facilities Master Plan Update and Physical Education Projects EIR Mt. San Antonio Community College Walnut--Los Angeles</p> <p>The 2015 Facilities Master Plan Update includes changes in land use, new projects, an enrollment increase of 3,745 from 2015-16 to 2020-21, and a net increase of 500,000gsf. Traffic, noise and air quality impacts will occur. The project includes demolition of Hilmer Lodge Stadium (a historic resource) and development of the 32.2 acre site for the Physical Education Projects (Phase 1, 2), which includes a new stadium with permanent bleachers for 9,321 and temporary bleachers for 8,840.</p>	<b>NOD</b>	
2009091125	<p>California High-Speed Train Project Merced to Fresno Section High Speed Rail Authority, California Madera, Fresno--Madera, Fresno</p> <p>CDFW has executed an Amendment No. 7 to Master Streambed Alteration Agreement No. 1600-2013-0060-R4 (Agreement), to the Permittee, CA High-Speed Rail Authority.</p> <p>The Project approved by CDFW consists of the Agreement identified above, which addresses construction and operation of the Merced to Fresno segment of the CA High-Speed Train (HST), as approved by the lead agency, affecting or generally related to fish and wildlife resources subject to the regulatory authority of CDFW, including natural resources subject to Fish and Game Code Section 1600 et seq. The Agreement authorizes certain activities contemplated in Section 1602 of the Fish and Game Code that could cause substantial adverse effects to fish and wildlife resources. The Agreement in this respect will facilitate construction and operation of the Project. The Project as originally permitted will impact fish and wildlife habitat subject to the notification requirement in Section 1602 of the Fish and Game Code within and/or adjacent to the Fresno River, Main Canal, Cottonwood Creek, San Joaquin River, Herndon Canal Dry Creek Canal, and Chowchilla River. The Amendment No. 7 conditionally allows in-water work to occur within the San Joaquin River and extends the in-water work period for the 2016 season.</p>	<b>NOD</b>

2011101035	Paramount Pictures Master Plan Project Los Angeles, City of --Los Angeles The redevelopment of portions of the 62-acre Paramount Studios site with new studio-related uses, circulation improvements, parking facilities, and landscaped areas.	<b>NOD</b>	
2011122050	Stream Maintenance Manual - Initial Study/Neg Dec Napa County --Napa The District has developed the Stream Maintenance Manual to improve the management of streams and drainage channels in the District's jurisdiction through establishing guidance for stream maintenances activities. The Manual provides the organizational framework to oversee routine stream maintenance activities, including vegetation management, erosion protection and bank stabilization, sediment removal, and habitat enhancement. These maintenance activities occur in channels and streams throughout Napa County on an as-needed basis.	<b>NOD</b>	
2012082074	Tomales Bay Vessel Management Plan California State Lands Commission --Marin The Tomales Bay Vessel Management Plan (TBVMP) is the result of a long-term multi-agency effort to streamline and coordinate vessel management activities for the benefit of the public. The TBVMP aims to improve water quality, protect wildlife and habitat, protect public health and ensure recreational opportunities in Tomales Bay. It also implements the mandates and regulations of both GFNMS and CSLC. The CSLC actions are issuing a 10-year General Lease - Recreational Use for vessel mooring facility consistent with the TBVMP to the following entities: Eric Fuge (W26983); Dana R. Cappiello, Trustee of the Dana R. Cappiello Living Trust dated July 16, 2007 (W27036); Hog Island Oyster Company (W26985); Mark Carlson (27035); Thomas McDonnell Riley and Melissa Eaton Riley (W26986).	<b>NOD</b>	
2012091035	Groundwater Basins Master Plan Water Replenishment of Southern California Los Angeles, City of--Los Angeles The Master Plan identifies potential programs and management actions that will enhance the likelihood that local groundwater supplies will be sufficient to meet the water right allocations assigned to groundwater producers under the respective Judgement for the Basins for the foreseeable future. The Master Plan also identifies potential programs and actions that can increase local groundwater supplies, improve water quality, and reduce dependence on imported water.	<b>NOD</b>	
2013072021	Offshore Geophysical Permit Program Update California State Lands Commission -- CA State Lands Commission has statutory authority, pursuant to Public Resources Code section 6826, to issue geophysical permits in State waters to qualified permittees for the use of low energy geophysical equipment to perform geophysical surveys of the ocean bottom, subject to specified terms and conditions. The CA State Lands Commission is issuing a three-year non-exclusive geophysical survey permit to the following entity: David Evans and Associates, Inc. (PRC 8345); Fugro Pelagos, Inc. (WP 8391); Merkel & Associates, Inc. (W6005.169); Scripps Institution of Oceanography (PRC 9094).	<b>NOD</b>

2013082011	5th Street Bridge Replacement Project Yuba City Yuba City, Marysville--Sutter, Yuba The City of Yuba City, in cooperation with Caltrans, proposes to replace the existing 5th Street Bridge over the Feather River with a new four-lane structure. The purpose of the project is to: 1) Enhance safety, 2) improve the existing transportation facility, and 3) improve traffic operations and transportation capacity. The State Lands Commission action is an approval of a 25-year General Lease - Public Agency Use through Oct. 12, 2041.	<b>NOD</b>	
2015041064	Rancho San Gorgonio Specific Plan Banning, City of Banning--Riverside The proposed project is a master-planned community on an 831 acre site, and is organized into 44 planning areas (PAs) that include a mixture of residential, commercial, open space, and recreational uses. Up to 3,133 residential units or 3,385 residential units (if the commercial and school sites are not developed) would be built. A fire station, four community parks, and paseos incorporated to buffer the natural creeks are also proposed. The project would foster a quality, livable community through the implementation of the Specific Plan that ensures consistent quality of design.	<b>NOD</b>	
2015101098	Mohave Valley Conservation Area Backwater Project California State Lands Commission Needles--San Bernardino Bureau of Reclamation proposes to excavate soil to create about 50 acres of backwater channel and associated backwater habitat on a 149-acre portion of a vacant parcel. The backwater channel would be connected to the Colorado River by the construction of inlet and outlet water control structures. The area is currently used as an Off-Highway Vehicle recreation area. The proposed project would be carried out in the following four phases: Vegetation Clearing; Excavation and Construction; Establishment/Re-Vegetation; and Habitat Management, Operations, and Maintenance. The State Lands Commission action is an approval of a 49-year General Lease - Public Agency Use through October 12, 2065.	<b>NOD</b>	
2016021109	Location and Development Plan 15-04 and General Plan Amendment 15-03 Adelanto, City of Adelanto--San Bernardino A proposal to develop a Pre-Cast, Pre-Stressed Concrete Products Manufacturing and Storage Facility on 111 acres of land.	<b>NOD</b>	
2016032052	Corral Hollow Road Utility Improvements Project Tracy, City of Tracy--San Joaquin The proposed project includes new water and wastewater conveyance facilities within the City and adjacent county sphere of influence area.	<b>NOD</b>	
2016042008	MDP 2016-06 Sunburst Plant Disease Clinic Turlock, City of Turlock--Stanislaus The applicant is proposing to construct an approx. 52,00 sq. ft. Family Entertainment Center on approx. 5.2 acres of an existing 6.91 acre site located in the Northwest Turlock Specific Plan area, east of State Hwy 99 and north of West Monte Vista Blvd. The facility will include approx. 34 bowling lanes, an approx. 4,000 sq. ft. laser tag room with attached staging and vesting rooms, a game room	<b>NOD</b>

<p>with approx. 75 games and a prize redemption center, a separate bar area for bowlers, a sports bar and restaurant with seating for approx. 200 guests including billiards, shuffle board, three outdoor bocce ball courts, and an outdoor dining patio. The facility will also have seven banquet/party rooms that can host small birthday parties or larger events. The facility will operate seven days per week, Monday thru Thursday, the Center will be open from 9 am to midnight. Friday and Saturday, the Center will operate from 9 am to 2 am the following day. Sunday, the Center will operate from 9 am to 11 pm. The Center will employ approx. 55 to 60 people. At peak times, the facility could attract from 400 to 475 customers plus approx. 30 employees. A 20 foot wide PG&amp;E easement for a high pressure gas line falls within the 35-foot public utility easement. The applicant is proposing to locate parking and a trash enclosure within the 35-foot wide public utility easement but outside the 20-foot PG&amp;E easement. Landscaping improvements, including trees, shrubs and vines are proposed within the 20-foot wide PG&amp;E easement.</p>	<b>NOD</b>		
2016061003	<p>IS 7108 and CUP 3529 (Verizon Wireless) Fresno County Firebaugh--Fresno Allow a 180-ft high lattice cellular tower and related facilities on an 18.48 acre parcel within the Interstate Freeway Interchange Area in the AE-40 (Exclusive Ag, 40-acre min parcel size) zone district.</p>	<b>NOD</b>	
2016071052	<p>Removal Action Workplan for Calsol Site Toxic Substances Control, Department of Pomona--Los Angeles DTSC is proposing to approve a removal action workplan pursuant to chp 6.8, division 20, section 25323.1 and 25356.1 of the CA Health and Safety Code for the former Calsol facility, hereinafter referred to as the "Subject Property". The subject property and impacted off property area will be hereinafter referred to as the site. The RAW addressed volatile organic compounds (VOCs), primarily tetrochloroethylene (PCE) and trichlorethylene (TCE) in the soil and soil vapor located beneath the Site. PCE and TCE are the two primary Chemicals of Concert (COCs) in the soil, soil vapor, and groundwater for the Site, and although other VOCs were detected in soil vapor and groundwater at the Site, PCE and TCE have been detected at the highest concentrations. The RAW evaluated remediation alternatives and identified a preferred action to accommodate the planned urban plaza or open space land use. The remediation activities includes: 1) Soil Vapor Extraction Well (SVE) Installation: Two triple nested SVE wells are planned to be installed at the Subject Property in conjunction with the existing SVE system. 2) Soil Vapor Monitoring Probes: Four triple nested soil vapor monitoring probes will be installed at the Subject Property. 3) SVE system operation and maintenance: SVE system will be maintained in accordance with the manufacturer's recommendations. 4) Post SVE confirmation sampling: Confirmation soil vapor and soil sampling will be conducted to further assess the effectiveness of the SVE system. 5) In Situ Chemical Oxidation (ISCO) Implementation (Optional): If post SVE confirmation sampling identifies VOC concentrations exceeding the Removal Action Goals for OU-1, ISCO technology will be implemented to further reduce VOC soil concentrations. 6) Soil Vapor Monitoring: Soil vapor sampling is planned to be conducted prior to</p>	<b>NOD</b>

	<p>starting the SVE system and quarterly thereafter.</p> <p>7) Indoor Air Sampling: Additional indoor air sampling will be performed in homes near the Subject Property to determine if a potential risk of vapor intrusion exists. Further indoor air sampling is proposed when soil gas monitoring indicates elevated concentrations which may pose a health risk to the occupants.</p> <p>8) Sub-slab depressurization system: If indoor air concentrations pose an unacceptable potential health risk, a sub-slab depressurization systems is proposed to be installed at homes requiring mitigation.</p> <p>9) Groundwater monitoring: Quarterly monitoring will be conducted to assess current impact to groundwater and determine remediation options.</p> <p>10) SVE decommissioning: When the remediation is complete, SVE wells are planned to be decommissioned appropriately after approval from DTSC.</p> <p>11) Soil Vapor Probe Decommissioning: When the remediation is complete, soil vapor probes are planned to be decommissioned appropriately after approval from DTSC.</p>		
2016072038	<p>Mallard Farms Pipeline Replacement Project California State Lands Commission Suisun City--Solano</p> <p>Continued use and maintenance of an existing 8-inch diameter refined petroleum products pipeline, abandonment in place of pipeline segments, construction of a temporary work platform, installation of temporary pilings and buoys, and installation of a new horizontal directionally drilled 8-inch diameter pipeline, 75 feet below ground, and within a 50-foot wide right-of-way. The decommissioned and abandoned in-place segments of pipeline will remain under lease, with Chevron maintaining liability. The state Lands Commission action is an approval of a 25-year General Lease - Right-of-Way Use beginning Oct. 13, 2016, through Oct. 12, 2041.</p>	<b>NOD</b>	
2016091034	<p>The Race of Gentlemen Special Event Pismo Beach Parks and Recreation, Department of Grover Beach--San Luis Obispo</p> <p>CDPR will issue a Special Event Permit for the Race of Gentleman at Pismo Beach to be held Oct. 14-16. The event comprises a Friday night welcome party at the North Beach Campground, a weekend vintage car display at the Grand Avenue lot, weekend races of pre-World War II vehicles and antique motorcycles on hard sand, and a Saturday beach party and bonfire. A vehicle race comprises two vehicles racing a short distance (660 feet) on hard sand. Maximum vehicle speeds would be 40-55 mph at the finish line. Up to 120 vehicles may participate.</p>	<b>NOD</b>	
2015128088	<p>Grass Valley Collection Improvement Project Grass Valley, City of Grass Valley--Nevada</p> <p>The Project will repair and rehabilitate approximately 11 miles of sewer lines, 200 sewer manholes, and other various appurtenant structures. All portions of the Project would be located within the City limits and will occur in public rights-of-way and established easements. Construction will utilize the Perma-Main, Top gun, Cured-in-Place-Pipe Manhole to Manhole inversions Rehabilitation System. The Perma-Main system uses an air inverter to install materials through existing manholes and steam cures in place. Trucks will be driven from manhole to manhole that are approximately 300-400 feet apart. Construction will occur over a 33 day period and no operation is associatee with this Project.</p>	<b>NOE</b>

2016108158	Greenwood Road/Railroad Avenue Roadway Improvements Blue Lake, City of Blue Lake--Humboldt The proposed project will rehabilitate and improve a section of Greenwood Road and Railroad Avenue in the City of Blue Lake and will include the following activities: 1) resurface roadway pavement and replace localized failed areas; 2) upgrade ADA and pedestrian facilities; and 3) add traffic calming features.	<b>NOE</b>	
2016108159	Emerald Bay State Park Parks and Recreation, Department of --El Dorado Conduct interior structural and exterior geotechnical investigations at the Vikingsholm turret in Emerald Bay State Park to identify soil conditions and guide structural stabilization efforts. Interior testing will involve drilling two (2) holes (1/4" - 1" maximum) in two (2) different locations to verify the framing structure of the turret. Exterior testing involves the use of hand augers to drill three (3) 5-15 foot (or refusal, whichever is shallower) borings. Representative soil samples will be recorded for future analysis and borings will be back filled with excavated materials.	<b>NOE</b>	
2016108160	Reducing Road-Related Sediment Delivery via LandSmart* On-the-Ground Napa County Resource Conservation District --Napa The goal of this project is to reduce fine sediment inputs to local waterways from unpaved roads, consistent with implementing the Napa River sediment TMDL. The project will include:  *Assessing and preparing rural road maintenance plans, * Conducting farm plan workshops to assist growers in the Napa River watershed in development of farm conservation plans that identify existing conditions, evaluate current best management practices, and identify beneficial management practices that could best be implemented to reduce erosion, conserve water, improve habitat, and protect water quality. * Providing on-site technical assistance to private landowner conducting road maintenance, * Conducting workshops for resource professionals who regulate, oversee, fund, or implement rural road-related erosion reduction projects.	<b>NOE</b>	
2016108161	Covelo 2 Caltrans #1 Covelo--Mendocino This project is a form of preventative maintenance and will include placing an overlay and micro surfacing, replacing pavement delineation, replacing survey monuments and raising utility frame and cover to grade. The micro surfacing will be confined to existing edge of pavement and no shoulder backing will be placed.	<b>NOE</b>	
2016108162	Planning for the Water Main Replacement Project and Downtown Tank Replacement Project Dunsmuir, City of Dunsmuir--Siskiyou Planning studies, information collection, environmental documentation, and plans and specifications will be completed in anticipation of a future water main replacement construction project. Existing steel mains have met their useful service life.	<b>NOE</b>
