

Jerry Brown, Governor

STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

October 16 – 31, 2012

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 16 – 31, 2012**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

USPS:

State Clearinghouse
P.O. Box 3044
Sacramento, CA 95812-3044

<u>Documents Received on Tuesday, October 16, 2012</u>			
2012062020	865 and 881 East El Camino Real Project Mountain View, City of Mountain View--Santa Clara The project is an infill project that includes up to 150 residential units on a 2.3-acre site currently occupied by commercial uses. The project includes a four-story structure with one- and two-bedroom units, a leasing office, a community/recreation space, underground parking garage, and outdoor spaces including a pool, patio areas, and landscaping. The main vehicular access to the project would be from East El Camino Real, and the facility would provide a total of 228 parking spaces (225 underground, three surface). Construction activities would include demolition of the existing single-story commercial structures and parking lots, as well as removal of trees and vegetation that would be replaced in accordance with the project's landscape plan.	EIR	11/29/2012
2012101048	Jefferson Street/Varner Road Intersection Improvement Project Indio, City of Indio--Riverside The project is located within the limits of the City of Indio, in Riverside County, at the intersection of Varner Road and Jefferson Street. The purpose of the proposed project is to improve the operational performance of the Varner Road/Jefferson Street intersection. The proposed project involves modifying the existing Varner Road/Jefferson Street intersection, including widening Varner Road approximately 1,830 feet east and 675 feet west of Jefferson Street from two to four lanes of travel, as well as widening Jefferson Street north of its intersection at Varner Road from four to six lanes to approximately Sun City Boulevard. The proposed project would also accommodate the planned modification of the existing I-10/Jefferson Street interchange.	MND	11/14/2012
2012102037	Shasta River Riparian Protection & Enhancement Project Shasta Valley Resource Conservation District Montague--Siskiyou This project consists of activities designed to protect and enhance riparian vegetation at six separate ranches. Project actions are designed to directly improve riparian vegetation along the Shasta River thereby increasing shade and bank stability which results in decreased sedimentation and decreased water temperatures. The components of this project are designed to improve water quality by increasing vegetation, thereby decreasing water temperatures and increasing dissolved oxygen (DO) in the Shasta River, an anadromous fishery, and known spawning and rearing habitat for the federally threatened coho salmon. The project addresses numerous regional and regulatory priorities and provides benefits to water quality, and improvements to aquatic and riparian habitat along the Shasta River and its tributaries. The Shasta Valley Resource Conservation District (RCD) has received a Clean Water Act 319h-Nonpoint Source Implementation grant (Agreement # 11-099-551) from the State Water Resources Control Board, for planning and implementation of the proposed project. <u>Documents Received on Tuesday, October 16, 2012</u>			
2012102040	Twin Cities Road Widening Project Galt, City of Galt--Sacramento The Twin Cities Road Widening is located along Twin Cities Road from east of Fermoy Way to Bergeron Road, along the northern boundary of the City of Galt. The project consists of adding a westbound lane on Twin Cities Road, along the aforementioned segment for the purpose of matching the existing number of eastbound lanes, as well as to modify the Twin Cities/Fermoy Way intersection, approaches, and transition as required by appropriate design standards. The approximate length of improvements, including turn pockets and tapers, is 1,800 feet with a total project area of 4.8 acres. Acquisition of right-of-way along the southern border of the improvement area, just north of the Galt Village main driveway, is required for the proposed project. The total area to be disturbed, which includes new pavement, stormwater drainage improvements, and reconstructed driveways, would be approximately 1.54 acres. Existing paved areas would be overlaid and/or restriped.	MND	11/15/2012
2011071093	La Cienega Elementary School Los Angeles Unified School District Los Angeles, City of--Los Angeles The Proposed Project involves the demolition of the existing Classroom Building #2 identified as a historic resource and constructing an approximately 21,276 square foot outdoor amphitheater on the same footprint.	NOD	
2012072050	Camino Tessajara Shoulder Widening east of Blackhawk Drive to Finley Road Contra Costa County Danville--Contra Costa The Project will bring the pavement cross section along the segment of Camino Tassajara from Ballfields to Finley Road up to current Contra Costa County standards and improve safety by providing drivers with a consistent roadway section and a wider area for recovery should they veer out of the travel lane. Improvements include roadway grading and widening, fill, installing paved shoulders, bike lanes, striping, signs, culvert and drainage modifications, and relocation of roadside obstacles including utility support poles.	NOD	
2012108252	Headquarter House RV Park Placer County --Placer The project proposes the approval of a General Plan Amendment, Rezone, and Conditional Use Permit, to construct a 51-unit recreational vehicle (RV) park with a general store and a manager's unit on a five-acre portion of an approximately 30-acre property.	NOD	
2012109001	Hott Timber Harvest Plan (4-10-021-ELD) Fish & Game #2 --El Dorado The California Department of Fish and Game is executing Streambed Alteration Agreement number 1600-2012-0093-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sierra Pacific Industries. The project is limited to the construction of two permanent and three temporary watercourse crossings, the construction of two permanent off-channel water holes, and water drafting at a single in-stream site for use during timber harvesting operations.	NOD

2012108242	Rideshare Safe Routes to School Safety Program San Luis Obispo Council of Governments --San Luis Obispo Non-infrastructure activities to encourage, educate, evaluate, and enforce safe bike/pedestrian use at k-12 schools. Project activities include assemblies, classroom safety training, bike and walk safety materials and afterschool safety activities.	NOE	
2012108243	Pipeline Rehabilitation U-1 San Diego, City of --San Diego This project proposes to rehabilitate approximately 49,632 linear feet (9.4 miles) of existing 8-inch sewer pipeline primarily within the paved right of way that includes rehabilitate 23 manholes (MHs), segments (1,061 linear feet) of pipeline replace-in-place. Some improvements would occur in ornamental landscape areas. No disturbance to native vegetation is proposed.	NOE	
2012108244	Pipeline Rehabilitation V-1 San Diego, City of San Diego--San Diego This project proposes to rehabilitate approximately 43,962 linear feet (8.32 miles) of existing 8-inch sewer pipeline primarily within the paved right of way that includes rehabilitating 66 manholes (MHs), installing 26 new cleanouts and 1 MH repair, rehab or modified sewer laterals, as well as 17 pipeline point repairs and 1 replace-in-place segment. Some improvements would occur in ornamental landscape areas. No disturbance to native vegetation is proposed. Excavation of the area would occur primarily over existing pipeline trenches, and previously disturbed soil. In all instances, the project combined with the related scope has been identified to occur in areas classified as "nono-senitive."	NOE	
2012108245	Pipeline Rehabilitation W-1 San Diego, City of San Diego--San Diego This project proposes to rehabilitate approximately 21,965 linear feet (4.16 miles) of existing 8-inch sewer pipeline primarily within the paved right of way that includes rehabilitating 23 manhole (MHs), installing 24 new cleanouts and replacing 8 MHs, rehab or modified sewer laterals, as well as 15 pipeline point repairs. Some improvements would occur in ornamental landscape areas. No disturbance to native vegetation is proposed. Excavation of the area would occur primarily over existing pipeline trenches, and previously disturbed soil. In all instances, the project combined with the related scope has been identified to occur in areas classified as 'non-sensitive.'	NOE	
2012108246	Pipeline Rehabilitation Y-1 San Diego, City of San Diego--San Diego This project proposes to rehabilitate approximately 45,048 linear feet (7,74 miles) of existing 8-inch sewer pipeline primarily within the paved right of way that includes rehabilitating 28 manholes (MHs), installing 15 new cleanouts and replacing 21 MHs, rehab or modified sewer laterals, as well as 18 pipeline points repairs. Some improvements would occur in ornamental landscape areas. No disturbance to native vegetation is proposed. Excavation of the area would occur primarily over existing pipeline trenches, and previously disturbed soil.	NOE

2012108247	Richmond Laboratory Campus Hot Water Boiler Replacement Project General Services, Department of Richmond--Contra Costa The Bay Area Air Quality Management District has determined that the hot water boiler system at Richmond Lab, which was construction in 2001, is out of compliance with current air quality requirements. The proposed project would improve the functionality and energy efficiency of the existing boiler system by replacing the 6 existing boilers with 11 smaller, more efficient boilers. The 11-boiler-system would allow for subsequent boilers to be brought online as the demand for hot water increased, as opposed to the 6-boiler-system, which heats larger quantities of water that may or may not be used.	NOE	
2012108248	Employment Development Department (EDD) Security Window Installation Project Employment Development, Department of Sacramento--Sacramento The proposed project consists of the installation of a security window in the first floor lobby of the Employment Development Building to provide control of public-traffic into the employee work area. The scope of work includes placement of a security window measuring approximately 3 feet wide by 5 feet high. The window would have a retractable fire curtain over it, and would be placed where a mail slot is currently located. A 12-inch-deep transaction counter with wood-type stain to match the adjacent, existing door, would be placed beneath the window.	NOE	
2012108249	Forest View Water Quality Project El Dorado County --El Dorado The Project involves retrofitting existing storm water facilities within the County right-of-way with underground infiltration systems to treat storm water runoff prior to it discharging to Lonely Gulch.	NOE	
2012108250	CSA # 5 Erosion Control Project El Dorado County --El Dorado The Project involves retrofitting existing storm water facilities within the County right-of-way with underground infiltration systems to treat storm water runoff prior to it discharging to Lake Tahoe.	NOE	
2012108251	Golden Bear Erosion Control Project El Dorado County South Lake Tahoe--El Dorado The Project involves retrofitting existing storm water facilities within the County right-of-way with underground infiltration systems to treat storm water runoff prior to it discharging to Trout Creek.	NOE	
2012108253	Creekside Cooperative Charter School Placer County --Placer The project proposes to relocate the existing educational institution to a permanent location. A temporary use permit is required before a special use can be established under the current Tahoe City Community Plan.	NOE

2010021020	Sea Breeze Apartments Los Angeles, City of Los Angeles, City of--Los Angeles The Proposed Sea Breeze Apartment Project (known as Tract # 65665 Lot 2 and Lot 3) would involve the development of two six-story structures containing residential uses and parking. The Project Site comprises two lots totaling 222,906 sf of land area: Lot 2 comprises 112,804 sf and Lot 3 comprises 110,102 sf. The Proposed Project would include a total development of 661,168 gsf, including 379,920 gsf of residential floor area and 231,248 gsf of parking and circulation areas. The Proposed Project would include the construction of two residential structures identical in design, building height, and floor area. Both structures would include two above-grade levels of parking with four levels of residential uses above the parking levels. Both buildings will include 176 multi-family apartment units, for a total of 352 residential units (176 one-bedroom units and 176 two-bedroom units). The maximum building height on the Project Site would be approximately 65 feet. The apartment units would range in size from approximately 728 sf to approximately 1,087 sf.	EIR	11/30/2012				
2012101051	Location and Development Plan 12-03, Conditional Use Permit 12-03 Adelanto, City of Adelanto--San Bernardino David Lystrup requests a Location and Development Plan and Conditional Use Permit to construct a 20,800 sf church with a 70 foot steeple. The project site is vacant, with single family homes to the north, south and west. The properties to the east are vacant.	MND	11/15/2012

2012101052	ENV-2012-1590-MND / 4140 S. Glencoe Avenue Los Angeles, City of --Los Angeles The project is the development on an apartment building complex containing 69 residential units, five-stories, 66-feet in height, and at least 135 residential parking spaces will be provided. The applicant is requesting approval for a Site Plan Review for the approval, construction, use and maintenance of the project. The applicant is also requesting two Density Bonus Incentives: for an additional height of 11 feet, and a 35% Floor Area Ratio increase 2.4:1.	MND	11/15/2012
2012101053	ENV-2012-1699-MND / 2011 Barry Avenue Los Angeles, City of Los Angeles, City of--Los Angeles The project is the subdivision of a 14,112 sf lot into five new "small lot subdivision", parcels for five new single-family dwelling units. The applicant is also requesting approval for a Zone Change for the subject site from the existing R2-1 Zone to a RD3 Zone. In addition, the applicant is requesting a Variance which allows five single family residential units to be built instead of four units permitted "by right". There are three existing single family dwellings and garage that will be demolished.	MND	11/15/2012
2012101054	North Kaweah MWC and Tract 403 MWC Water Supply and Consolidation Feasibility Study Public Health, Department of --Tulare The proposed project will consolidate two water districts and improve the overall water quality and service to existing customers. The project will provide new water supply wells, treatment filtration and disinfection facilities, a clear water storage tank, and booster pumps if necessary. The existing distribution line would be replaced and water meters will be installed for residents in Tract 403. Existing wells that service North Kaweah will be abandoned.	MND	11/15/2012
2012102039	County of Sonoma Waste Reduction Program for Carryout Bags Sonoma County Waste Management Agency --Sonoma The proposed ordinance would regulate the use of paper and plastic single use carryout bags within the geographical limits of Sonoma County, including the nine incorporated cities and town, starting July 1, 2013. The ordinance would (1) prohibit the free distribution of single use carryout paper and plastic bags and (2) require retail establishments to charge customers for recycled paper bags and reusable bags at the point of sale. The minimum charge would be ten cents (\$0.10). Single use plastic carryout bags are defined in the Proposed Ordinance as plastic bags that are less than 2.25 millimeters thick, other than a Reusable Bag, provided at the check stand, cash register, point of sale or other point of departure for the purpose of transporting food or merchandise out of the establishment. The Proposed Ordinance would not apply to restaurants.	NOP	11/15/2012

	single-use paper carryout bag provided to customers at the point of sale, and encourage retail establishments to make reusable bags available for sale to customers at a reasonable price.		
2012041061	P2-92 Sludge Dewatering and Odor Control Orange County Sanitation District Huntington Beach--Orange Note: Reference SCH # 2004031076	SIR	12/03/2012
	The proposed project would involve the construction of replacement facilities to replace the existing sludge dewatering system and associated odor control ventilation system in Plant 2. Additional improvements would also include a new power distribution center, electrical and process control systems, and the utilities in support of the proposed replacement facilities. The proposed project would require the demolition of existing Plant 2 facilities but would not expand the capacity of the existing wastewater treatment facility and would be constructed entirely within the existing Plant 2 property.		
2009051106	City of Ojai 2006-2014 General Plan Housing Element Update Ojai, City of Ojai--Ventura The project involves an update to Housing Element of the City of Ojai's General Plan. The proposed Housing Element establishes programs, policies and actions to generally further the goal of meeting the existing and projected housing needs of all family income levels of the community, and specifically to provide evidence of the City's ability to meet its regional fair share of housing needs through the year of 2014.	NOD	
2011022020	Mammoth Pacific I (MP-1) Replacement Project Mono County --Mono The proposed project would replace the aging MP-1 geothermal power plant with a new, more modern and efficient binary power plant (referred to as "M-1") while maintaining the existing geothermal wellfield, pipeline system and ancillary facilities. No new offices or other structures are proposed, with the exception of a small substation to be placed on the north side of the project site. The M-1 plant would be located approximately 500 feet east of the existing MP-1 plant. The M-1 replacement power plant is anticipated to increase the net electricity generation by 34% while utilizing the same geothermal resources for the existing MP-1 facility. During M-1 plant startup operations, the existing MP-1 plant would continue to operate until the new M-1 plant becomes commercial, after which time the applicant would close and dismantle the old MP-1 plant becomes commercial, after which time the applicant would close and dismantle the old MP-1 plant and would utilize the former plant location for equipment storage. The transition period during which both the MP-1 and M-1 operations would overlap would be a maximum of two years from the date the M-1 plant begins startup operations.	NOD

2012108273	Streambed Alteration Agreement 1600-0131-R2 Bucklen Rip Rap and Natural Rock Staircase Fish & Game #2 --Plumas The project is limited to the installation of bank stabilization (approximately 621-feet long x 8-foot tall using native boulders), to prevent future seasonal shoreline erosion. Native boulders shall be placed across the rip rap to create a natural rock staircase to allow for safe beach access. A 4000# Excavator shall be used to place the boulders. Access for the excavator will be along the dry lake shore after water levels have receded. No native vegetation shall be removed as part of the project, and the project shall be installed during seasonal recession of water. Work shall not be undertaken during inclement weather, periods of precipitation or forecast precipitation, and hay bales will be used if rain is anticipated. No excavation shall occur within the water of Lake Almanor.	NOE	
2012108274	Stephenson Rip Rap, LAA 1600-2012-0145-R2 Fish & Game #2 --Plumas The project is limited to the placement of rock rip-rap on the bank of Lake Almanor at 608 Peninsula Drive, Lake Almanor, CA 96317 to stabilize the bank and prevent future erosion.	NOE	
2012108275	Groom Residence, SAA# 1600-2012-0178-R2 Fish & Game #2 Paradise--Butte The project is limited to the replacement of the existing 12-inch concrete culvert with two 24-inch plastic culverts, approximately 14-feet long, incased in concrete head walls, as well as, the installation of underground utilities beneath the culverts. This will require the removal of one incense cedar tree with a trunk diameter at breast height (DNH) of 4 1/2-inches and one Chinese pistachio tree with a DBH of 8-inches.	NOE	
2012108276	Issuance of Lake or Streambed Alteration Agreement No. R1-10-0338, to Mr. Charles Robbins for Unnamed Tributaries to, Mendocino County Fish & Game #1 --Mendocino The project is the result of a FGC 1600 violation and involves the remediation work of the May 5, 2010 Notice of Violation from Warden Patrick Freeling. The project involves work at six map point encroachment.	NOE	
2012108277	Issuance of Lake or Streambed Alteration Agreement No. 1600-2012-0176-R1, Salmon Creek Tributary 28-foot Simple-Span Bridge Project Fish & Game #1 --Humboldt The project consists of one encroachment to install a 28-foot simple-span bridge on a seasonally perennial Unnamed Tributary to Salmon Creek. The bridge design has been engineered by a registered professional engineer, and fully spans the stream channel and provides an adequate clearance height to pass a 100 year flood flow, including debris and sediment loads. <u>Documents Received on Friday, October 19, 2012</u>			
2012101061	Parker Barn Bridge Embankment Protection Project California State Polytechnic University, San Luis Obispo San Luis Obispo--San Luis Obispo Cal Poly proposes to correct current bank erosion activity in the vicinity of the Parker Barn Bridge, and to construct stable bank configurations in the eroded sections adjacent to the bridge. The project will redirect the primary streamflow pattern into a more central channel alignment away from the banks through removal of a gravel/cobble bar, and will protect the bridge abutments with riprap, willow staked benches, and brush mattress/brush layering/geotextiles. The project is subject to permitting by CDFG, ACOE, RWQCB and USFWS.	MND	11/19/2012
2012101063	Olson Company 66-Unit Residential Subdivision La Verne, City of La Verne--Los Angeles The proposed project would involve construction of 66 single-family residential dwellings on a partially developed 7.49 acre site. The northern portions of the project site are developed as a paved parking lot, which supports the existing 12-screen Edwards Cinema complex. The southern portions of the site remain vacant and contain mature trees along with limited quantities of vegetation. The southern portions of the site have been recently disked for fire suppression purposes. The project proposes to construct 29 single-family residential dwellings within the existing parking lot area north of Dover Avenue and 37 single residential dwellings south of Dover Avenue, within the undeveloped portions of the project site.	MND	11/19/2012
2012102045	County File #MS11-0001 - De Fremery Minor Subdivision Contra Costa County --Contra Costa The applicant seeks approval of a vesting tentative map for a minor subdivision to divide a 31.41 acre site into three parcels. The proposed parcel sizes are 11.21 acres for Parcel-A, 10.20 acres for Parcel-B, and 10.00 acres for Parcel-C.	MND	11/19/2012
2012101062	South County Detention Facility Tulare County Porterville--Tulare The proposed project is a new maximum security Type II facility with 250 cell double occupancy units (500 beds) and 14 special use beds for total of 514 beds. In addition to the main detention facility, the proposed project will also include support service components such as administrative offices, intake, infirmary, kitchen, laundry, storage, and two off-street parking lots on ~15.0 acres of the 36.27 acre site. The proposed project would employ up to 172 staff working around the clock over several different shifts with the highest number of staff working between 8:00 a.m. and 5:00 p.m. Approximately 17 to 25 visitors are anticipated per day. The site is currently under agricultural production with a portion located within an incorporated area of the City of Porterville (36.27 gross acres) another portion within an unincorporated area of the County of Tulare (39.0 gross acres). This project is proposed in order to anticipate and meet the demand of increases in projected inmate housing needs.	NOP	11/19/2012

2009112071	Fort Bragg Coastal Restoration and Trail Project Fort Bragg, City of Fort Bragg--Mendocino The Fort Bragg Coastal Restoration and Trail Project, located on the western edge of the City of Fort Bragg, consists of habitat restoration of approximately 24 acres and construction of 4.5 miles of new multi-use and pedestrian trails stretching from Pudding Creek Trestle south to the Noyo Bridge. The project includes construction of three parking lots, three restrooms, interpretive and safety signage, benches, and perimeter fencing.	NOD	
2011121051	Cemetery Area Water Pipeline Replacement Project Escondido, City of Escondido--San Diego The proposed project consists of the abandonment of approximately 17,500 linear feet of existing 12- to 24 inch-diameter concrete-lined steel potable water pipeline within the City of Escondido and unincorporated County of San Diego. The pipelines would be replaced with approximately 12,600 lf of new pipe generally ranging between 12 and 24 inches in diameter and comprising steel, ductile iron, polyvinylchloride (PVC), or high-density polyethylene (HDPE) pipe material, as well as PVC or copper service laterals off the main lines. An approximately 5-foot-long section of 30-inch-diameter pipe would provide a connection point near the Oak Hill Memorial Park (Cemetery) entrance. New meters also would be constructed and, in some cases, existing meters would be relocated. The project would include construction of an approximately 2,545-foot-long, 20 inch-diameter HDPE recycled water pipeline which would not be activated until some point in the future. The project also would include construction of an approximately	NOD

	10-by-20-foot pressure-reducing structure. The project would replace aging potable water transmission and distribution infrastructure, increase water delivery capacity and pressure to the project area, and maintain a reliable water supply and distribution system. The primary objective of the increase in pressure or capacity that could result from the proposed project is to improve the flow of water to existing property owners during a wildfire-related emergency. The existing pipelines would stay in service throughout the duration of construction, and would be capped and abandoned in place following implementation of the proposed replacement pipelines, or removed if necessary to provide room for the replacement lines.		
2012032015	Russ Living Trust Water Rights Project State Water Resources Control Board --Napa Application 30322 proposes the diversion and storage of 49 acre-feet per annum (afa) from an Unnamed Stream tributary to Pope Creek thence Lake Berryessa. The collection season would be from November 1 through April 30. An existing 7 acre-foot (af) capacity onstream reservoir would be enlarged to 49 af with the proposed project. Application 30323 proposes to directly divert 50 afa at the onstream reservoir from March 1 through May 31 for frost protection of the 50-acre proposed place of use. Water would be diverted at a maximum rate of 2.99 cubic feet per second (cfs).	NOD	
2012062048	Taylor Mountain Regional Park and Open Space Preserve Sonoma County Santa Rosa--Sonoma The project is adoption and implementation of a proposed Master Plan for the Taylor Mountain Regional park and Open Space Preserve. The Master Plan establishes long-term guidelines for development of the property for public recreational and educational uses, as well as natural resource protection.	NOD	
2012082112	Time Extension to Complete Full Beneficial Use of Water Under Water Right Permit No. 21101 Glenn-Colusa Irrigation District (GCID) --Glenn, Colusa Permit No. 21101 was approved by the State Water Resources Control Board (SWRCB) in 2001. The permit authorized a total diversion of 182,900 acre-feet per year from November 1 through March 31. At that time, GCID anticipated that the full water right would be put to beneficial use by December 31, 2011, which was the initial deadline to complete beneficial use under the permit. As of 2011, approximately 126,000 acre-feet of the 182,900 acre-feet have been put to beneficial use. GCID now anticipates the remaining 57,000 acre-feet will be put to beneficial use over the next 10 to 15 years.	NOD	
2012108284	Adoption of Emergency Regulations for Disposition Options for Universal Waste Cathode Ray Tubes (CRTs) and CRT Glass, Office of Administrative Law Emergency 2012 Toxic Substances Control, Department of -- This project is a rulemaking that adopts an emergency regulation package related to the management of hazardous waste CRTs and CRT glass. The rulemaking allows universal waste handlers to continue to collect and treat hazardous waste CRT devices or CRTs to generate CRT glass and to send the generated CRT glass to a CRT glass manufacturer or primary or secondary lead smelter for	NOE

	recycling following the less stringent requirements of the universal waste regulations. The emergency regulations require the handler to keep and provide to DTSC upon request specified records relative to such shipments. This enhances enforcement mechanisms, resulting in increased regulatory oversight and further ensure our rules are more protective to human health and the environment.		
2012108285	Roads Routine Maintenance Program Fish & Game #3 --Napa The projects is limited to routine maintenance activities within the County maintained road creek crossings and culverts. Routine maintenance shall be defined as those periodically scheduled and implemented activities necessary to maintain the water transport capacity of stream channels and maintain the structural and functioning integrity of existing culverts and sediment detention structures on or affecting streams. Issuance of a Streambed Alteration Agreement Number 1600-2011-0351-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2012108286	Paye-Clipper Creek Crossings Streambed Alteration Agreement #1600-2012-0036-R2 Fish & Game #2 --Nevada The project shall include removing a vented ford from the channel of Clipper Creek and installing a low water crossing at same location. The current vented ford constructed with two 24" corrugated metal pipes does not provide sufficient capacity for high flows. Water shall be temporarily impounded above the crossing and diverted around the construction site with a 4-6" hose to a location below the crossing. Equipment shall access site from existing road. About 15 yards of 4-6" angular rock currently keying in the culverts and providing the running surface shall be removed from the crossing and set aside above the bank and channel of Clipper Creek.	NOE	
2012108287	Domestic Water and Irrigation Streambed Alteration Agreement #1600-2012-0130-R2 Fish & Game #2 --Plumas The project is limited to annual installation and removal of a screened 5 horsepower pump in Wash Creek and diversion of up to 35 gallons per minute (gpm) water for purposes of pastureland irrigation and domestic water use. Hand tools shall be used to install the pump. The pump shall be installed and removed between March 15 and November 15 for the duration of the Agreement. Water diversion shall take place between March 15 and November for the duration of the Agreement. There will be no impacts to woody vegetation as part of the project. There shall be no use of heavy equipment in the stream zone as part of the project.	NOE	
2012108288	Sand Creek Clean Out - Removal of Sediment, SAA 1600-2012-0149-R2 Fish & Game #1 --Colusa The project is limited to the removal of accumulated sediment within the channel of Sand Creek near Hahn Road in the county of Colusa. An estimated 30,000 cubic yards of sediment, spanning approximately two miles of the channel, will be removed.	NOE

	<p>The Proposed Project involves construction of four buildings, athletic field (football/soccer), and parking on the 8.37-acre site. The school buildings would total approximately 146,000 sf including a classroom building; a performing arts and multipurpose building; a physical education/gymnasium building with food service and maintenance and operations; and a library/support services/clinic building. The campus would also have a 40,000 sf on-grade parking structure with 113 parking spaces; basketball courts would be included on the top of the one story parking structure.</p>		
2012021039	<p>Quarry Creek Master Plan - EIR 11-02 Carlsbad, City of Carlsbad--San Diego</p>	EIR	12/06/2012
	<p>The proposed Quarry Creek Master Plan project site consists of 156 gross acres of land located within Local Facilities Management Zone 25, in the northeast quadrant of the City of Carlsbad, San Diego County. The project site is located approximately two miles east of I-5 and it's immediately south of SR 78 and westerly of College Boulevard. Full development of the Master Plan would provide a total of 656 residential dwelling units, public use, and open space uses, as well as supporting infrastructure. The proposed project includes 87.9 acres of open space and conserved areas. The proposed project would involve the extension of Marron Road into the project site; however, this road would not be connected to its existing terminus to the west of the project site (east of El Camino Real) as is currently identified in the City of Carlsbad's General Plan Circulation Element. Implementation of the proposed project will require construction of several off-site improvements including the construction of sewer line connections, reclaimed water line, and the Marron Road trailhead. One hundred acres of the site was previously used as a rock quarry and has been reclaimed (SCH #2005111124, February 2010).</p>

1989073119	Lincoln Crossing Village 11 Specific Plan Lincoln, City of Roseville--Placer The Proposed Project would redesignate a school site for Medium Density Residential uses. The Western Placer Unified School District has determined the site is not needed for a school. The project would develop 166 units and a 0.2-acre neighborhood park. In addition, the project includes a parcel line adjustment with an adjacent park site, but with no net change in the park's acreage.	FIN	
2012082105	Grass Valley Field Office Replacement Motor Vehicles, Department of Grass Valley--Nevada The proposed project consists of the design and construction of a new one-story, approximately 7,600 gsf DMV field office on approximately 1.42 acres. The field office would include counter and drive test services for the public. Multi-phased construction would allow the existing field office to remain operational until employees move into the new office. Phased work includes re-routing utilities, temporary utilities for construction trailers and temporary parking. The project includes the demolition of multiple buildings totaling approximately 7,110 gsf. Proposed site improvements include approximately 50 parking spaces, a motorcycle drive test area, new paving, utilities, curbs, landscaping, a trash enclosure, and site lighting. Construction may require the relocation of on-site groundwater monitoring wells.	FIN	
2011091019	Rossmoor Storm Channel Improvement Project Orange County Los Alamitos--Orange Note: Recirculated The proposed improvements to the Rossmoor Storm Channel between Los Alamitos Boulevard and Rochelle Street involve restoring the channel slopes and lining the channel with concrete. This is the recirculation of the document due to the relocation of the staging area.	MND	11/21/2012

2012061047	Dekoven Minor Subdivision, Tentative Parcel Map San Diego County --San Diego The project is a Tentative Parcel Map and Habitat Loss Permit to subdivide a 10.87 acre lot into 4 parcels. The project site is located at the corner of Laky Lane and El Paso Street in the Ramona Community Planning Group, within unincorporated San Diego County. The site is subject to the General Plan Regional Category Semi-Rural Residential, Land Use Designation Rural Residential. Zoning for the site is A70, Limited Agriculture Use. The site contains an existing single family residence, which will be retained. Access to each proposed parcel will be provided by a private road (Laky Lane) which connects to El Paso Street. The project would be served by on-site septic systems and imported from the Ramona Water District. Earthwork will consist of cut and fill of 7,000 cubic yards of material. The following project design considerations are also being implemented to minimize environmental impacts: increased size of on-site open space easement for cultural resources, off-site mitigation for biological resources, and payment of traffic impact fees.	NOD	
2012062013	Cordoba Center Religious Facility and Cemetery Santa Clara County --Santa Clara This application proposes a Use Permit, Architecture & Site Approval (ASA), and Grading Approval for a new religious institution and cemetery for the South Valley Islamic Center. The facilities are referenced in application submittal materials as the "Cordoba Center", and include a prayer hall building (5,000 sf), a multipurpose hall building (2,800 sf), outdoor play area and fields [including 2 patio picnic grounds and 2 outdoor restrooms (450 sf of structures)], and approximately 2 acres of cemetery grounds.	NOD	
2012081051	Steele Burnand Anza Borrego Desert Research Center Phase II Project University of California, Irvine --San Diego Implementation of the proposed project would construct approximately 4,500 gsf of enclosed building space, an approximately 1,000 sf storage building, and approximately 2,425 sf of covered patio, outdoor staging, and parking at the University of CA's Steele Burnand Anza Borrego Desert Research Center building located at 401 Tilting T Drive. Project implementation would include connection to utilities, driveway and surface parking area improvements, installation of a solar energy generation system, and HVAC, exterior lighting, and landscape improvements. The project would also include renovation and/or conversion of the building's interior spaces to other types of space.	NOD

2012042066	California Montessori Project Charter School California Montessori Project Elk Grove--Sacramento The planned construction for the CA Montessori Project includes construction of three new school buildings. The buildings include an 8,880 s.f. multi-purpose and administration building, an 8,800 s.f. Kindergarten and classroom 'B' building, and a 6,240 s.f. classroom 'C' building. The proposed project will be built in one phase. The objective of this subject project is to build a new K-8 Charter School Facility for the CA Montessori Project. The proposed project will serve approximately 350 students. The 10-acre parcel is also planned for some future portable building expansion. The facility will include surface parking, exterior hard courts, athletic fields, and a fire and pick-up/drop-off lane.	NOD	
2012071083	Via Ballena Storm Drain Relocation San Clemente, City of San Clemente--Orange Note: Review per lead As a result of severe winter storms and heavy rains from 12/17/2010 to 1/4/2011, a slope failure occurred behind homes located at 243, 245, 247, and 249 Via Ballena, resulting in the storm drain pipe being severed from the top of the slope behind homes at 249 and 251 via Ballena. The severed 18-inch corrugated metal pipe storm drain conveyed surface runoff from the street Via Ballena and the rest of the tributary area to a waterway that runs at the base of the slope within the Shorecliffs Golf Course. An emergency pipeline repair has extended a temporary storm drain pipe for the severed portion of the pipeline. The City is proposing to divert the street flow that was conveyed through the severed storm drain to a pipeline to be constructed within public streets, Via Ballena and Via Cascadia, to connect to the existing storm facility on Via Cascadia as shown on enclosed Exhibit B. The project will start at 249 Via Ballena and will include a 1,032 linear feet of 42-inch diameter pipe and 1,430 linear feet of 24-inch diameter pipe to be constructed within public street right-of-way.	NOD	
2012082010	Feeder Trail #1 Project East Bay Regional Parks District Martinez--Contra Costa Construction of 3 miles of trail improvements.	NOD	
2012109021	Operation of La Bonita Water Facility La Habra, City of La Habra--Orange The California Department of Public Health (Department), as the responsible agency, will be issuing a water supply permit. The City of La Habra proposed project includes modification of an existing test well into a 850 gpm production well, construction of a booster pump station and surge tank, 250,000 gallon reservoir, approximately 6,000 feet of 2-inch transmission line and approximately 600 feet of discharge line.	NOD	
2012108036	Law Enforcement Evidence Sheds Forestry and Fire Protection, Board of Fortuna, Susanville, St. Helena, Willits, Auburn, ...--Santa Clara, Santa Cruz, Humboldt, Lassen, Napa, Shasta, ... 	installation of a cement foundation. The location of the project includes 9 Cal Fire Unit Headquarters sites and 1 Cal Fire Air Attack Base site. All project locations are existing Cal Fire Facilities which require minor to no ground disturbance for the foundation. Constructed foundations will be to a maximum of 14' by 28'. Minor trenching will occur to install underground electric to the storage sheds.		
2012108320	Stuart Creek Fish Passage Design California State Coastal Conservancy --Sonoma Sonoma Land Trust will complete designs and environmental review to: 1) restore fish passage and remove the failing bridge at Stuart Creek Run, 2) modify a concrete box culvert at Arnold Drive, including fish passage baffles, 3) restore fish passage at Glen Oaks Ranch dam, and 4) provide a public access at Stuart Creek Run.	NOE	
2012108321	Alternative Fuels and Vehicle Compatibility Research Energy Commission Riverside--Riverside The purpose of this project is to conduct research and testing of various alternative motor fuel formulations having potential energy supply benefits to determine their practicability for applications in California's transportation fuel markets. This proposed project is an initial evaluation of various combinations of mixed alternative fuels with vehicles representative of the current and future California vehicle fleet. This program will evaluate various mixtures of alcohols in both conventional vehicles and Flexible Fuel Vehicles (FFVs), with an emphasis on emissions, performance, and compatibility.	NOE	
2012108322	Advanced Underground CAES Demonstration Project Using a Saline Porous Rock Formation as the Storage Reservoir Energy Commission San Francisco--San Francisco This project is Phase 1 of an advanced, underground Compressed Air Energy Storage (CAES) plant demonstration. Phase 1 consists of geologic reservoir selection, verification, permit filing preparation, and engineering. This project will help determine the viability and reliability of advanced, underground CAES technology. The Energy Commission is only co-funding portions of Phase 1 of the project. The compression testing in the field during Phase 1 will not be funded by the Energy Commission.	NOE	
2012108323	Francis Beach Campground Improvements Parks and Recreation, Department of Half Moon Bay--San Mateo Trenching approximately 4 feet deep, 3 feet wide and 6 feet long to install and/or upgrade utility lines and pedestals for electrical connections. Excavate to level three areas each approximately 15 by 18 square feet to create new walk-in campsites and add parking spur. Excavate 10 by 10 foot area to install fire rings and picnic tables. Excavate to install 400 linear feet of 6" wide wood edging around campsites and new walkways.	NOE

	Byway stakeholders, and identify funding opportunities to develop segments of the trail to construction.		
2012108325	Daley Mine Bat Gate Fish & Game #5 --San Diego A bat gate within the main adit would be installed to ensure no unauthorized human disturbance would occur inside the mine while still allowing bats access. The mine has three additional features, two shafts and a second small adit that connects to one of the shafts. A chain link fence is proposed to be built around these additional features, but DFG will be seeking advice from the mine gate building experts before anything permanent is installed. If it is determined that some other structure would be better suited for protecting wildlife and the public than the better structure would be installed as long as it has no more impact than the proposed fence.	NOE	
2012108326	Pacific Custom Materials Acquisition California State Coastal Conservancy Unincorporated--Contra Costa Acquisition by East Bay Regional Park District of 51 acres of the Pacific Custom Materials Property to fill a gap in its Carquinez Regional Shoreline and to protect natural resources and open space.	NOE	
2012108327	Barboni Ranch II Hicks Valley Conservation Easement California State Coastal Conservancy --Marin Purchase a conservation easement over the 1194 acre Barboni Ranch in west Marin County, for the purposes of protecting agricultural uses, and the natural and open space public benefit values of the property, and protect 204 acres of California Red-Legged Frog habitat.	NOE	
2012108328	Mount Madonna County Park Area Property Acquisition California State Coastal Conservancy Unincorporated--Santa Clara Acquisition of the 490 acre Mount Madonna County Park Area property for the purposes of preserving open space, scenic resources, plant and wildlife communities, and other natural resources; protecting water sheds; and enabling natural resource-compatible public access. 2012102049	Boulder Mountain Erosion Control Project El Dorado County South Lake Tahoe--El Dorado The overall goal of the Project is to design and implement erosion control and water quality improvement measures that will reduce the discharge of sediment and pollutants to Lake Tahoe from County administered rights-of-way in the Boulder Mountain area. The Project proposes to pave approximately 1/4 of a mile of existing dirt roadway and install best management practices and native vegetation. The Project will not change the use of the site or surrounding area. The Project will benefit the natural environment with the implementation of the proposed improvements. After Project completion, less sediment will enter Angora Creek from the Project area, thereby improving water quality in Lake Tahoe.	MND	11/26/2012
2012102050	Bus Wash and Fueling Facility Project Sequoia Union High School District Redwood City--San Mateo The District is proposing to relocate one or two storage buildings from its existing offices and construct and install a 10,000 gallon, split AST (2,000 gallons of gasoline and 8,000 gallons of diesel), gasoline, diesel, and CNG fuel dispensing equipment, a bus wash with canopy, and associated utility improvements at its existing Bus Yard at 1061 Douglas Avenue in Redwood City, CA 94063. The project site is a 2.3 acre parcel of land bordered by Highway 101 and industrial land uses. The existing Bus Yard occupies approximately 1.6 acres of the 2.3-acre site; the proposed facilities would be located on approximately 0.7 acre of the 2.3-acre site. The project site contains two cases subject to listing under the Cortese list. The first case (RWQCB Case 41-0343) was closed by San Mateo County in 2000; the second (RWQCB Case 41S089) is pending closure by RWQCB.	MND	11/26/2012
2011062013	UPE08-0110 Carneros Ranch Fill Project Sonoma County Petaluma--Sonoma Use Permit for agricultural enhancement by elevating existing agricultural fields located behind 10 foot high levees from approximately one foot below sea level to approximately seven feet above sea level (after compaction), and eleven feet above sea level (after compaction) for future building pad areas, on a 528 acre parcel, through importation over approximately 20 years via barge and trucks of up to 9,274,000 cubic yards (measured dry) or up to 18,548,000 cubic yards (measured wet) of dredge/fill material, with a maximum annual importation rate of 900,000 cubic yards wet via barge and 200,000 cubic yards dry via truck. 2012108335	Residence 33 Drainage Parks and Recreation, Department of --Tuolumne Grade and contour <1,000 square feet of land 6" or less in depth to ensure proper drainage of storm water run-off away from Historic Residence #33 in Columbia State Historic Park to prevent water damage to the house. Work will excavate a trench a maximum of 12" deep, 12" wide and 120' long to install French drains around the North and West Sides of the residence and install a discharge pipe to a 36" x 36" dry well at the North East corner of the lot. Sand and native soil will be used to backfill the trench. Additional work will re-vegetate the excavated and trenched areas with native grass seed and straw and install a 3.5" deep concrete slab floor in the existing 20' x 26' dirt floor garage (minimal hand raking will occur to level the ground). Excavation and trenching will be monitored by an Associate State Archaeologist.	NOE	
2012108336	Issue Right of Entry Permit to Pacific Gas & Electricity for Pole & Light Replacement Parks and Recreation, Department of --San Luis Obispo Issue a Right of Entry Permit (ROE) to Pacific Gas and Electricity Company (PG&E) and its contractors to replace up to 55 existing wooden utility and street light poles and lamps at Morro Bay State Park and Hearst San Simeon State Historic Monument.	NOE	
2012108337	Loews Pathway Improvement (12/13-SD-13) Parks and Recreation, Department of --San Diego This project will widen the existing pathway from Coronado Bay Road, past the State maintenance yard to the bay side service road at Silver Strand State Beach. Fencing will be replaced as needed. The pathway provides access for the residents of the Cays community and Loews Resort. The project will support continued maintenance and use.	NOE	
2012108338	Estudillo Window, Door and Cupola Rehabilitation (12/13-SD-09) Parks and Recreation, Department of --San Diego Rehabilitate the exterior woodwork of the Casa de Estudillo in Old Town San Diego State Historic Park. Project protects the structure and supports continued use and maintenance.	NOE	
2012108339	Contract #600-12-002 Bay Area eTaxi Program Energy Commission Millbrae, San Jose--San Mateo, Santa Clara This project will deploy battery switch stations and battery-switchable electric taxis to demonstrate the battery switch technology, and electric taxis. This project will provide jobs, displace petroleum and reduce greenhouse gas emissions.	NOE	
2012108340	West Sacramento Project Yolo Bypass North Reach Slump Repair Central Valley Flood Protection Board West Sacramento--Yolo USACE will install 3 piezometers into the landside toe of the Yolo Bypass North Reach Levee for the purposes of monitoring groundwater and seepage at the landside toe. Piezometers will be installed through 3 existing nominal 12 inch diameter schedule 80 PVC pipe sleeves to a depth of approximately 50'. Borings	NOE

	will be conducted by using a hollow-stem auger and/or a rotary wash. Work is expected to start and end in October or November 2012. Total duration of installation is expected to last 10 days.		
2012108341	Brooks 811A-4 Conservation, Department of --Kern An exploratory oil and gas well to be drilled by Aera Energy LLC, from an existing oil and gas well pad in Kern County.	NOE	
2012108342	Sunesys Riverside Unified School District Network Public Utilities Commission Riverside--Riverside Sunesys installs/operates fiber optic ethernet networks on behalf of school districts, universities, and library systems. The Riverside Unified School District project will involve the installation of 30.8 miles of aerial fiber on existing structures and 1.73 miles of underground fiber (trenching).	NOE	
2012108343	Ralston Ranch Fish & Game #3 Belmont--San Mateo The Project entails grading the top of the bank above the high water mark at the outside edge of the riparian zone to a 3H: IV slope, installing a 18 foot fong by 3.5 foot high retaining wall, grading the ground outside of the riparian zone to direct drainang away from the creek and toward the road, and constructing a new retaining wall and drainage improvements by the road. Approximately 10 cubic yards of material will be removed from top of bank.	NOE	
2012108344	REACT 350 Crash Cushions Caltrans #11 --San Diego The project will install REACT 350 Crash Cushions. These crash cushions will replace sand barrels and metal beam guardrails, expediting maintenance work for improved worker safety. All work will be performed within the State Right of Way.	NOE	
2012108345	Road Repair on (SR) 299 - West of Cedar Pass Caltrans #2 --Modoc Using only state funds, the California Department of Transportation (Caltrans) will repair the paved surface of approximately 6.1 (mi) of (SR) 299 west of Cedar Pass in Modoc County. The strategy will include performing a 0.33' deep cold in-place recycle on the existing pavement and then covering it with a 0.15' thin blanket overlay. Shoulders will be backed to conform to the new pavement height. Cold planning of the asphalt will be required to match existing roadway features and all work will remain witin the existing roadbed. The pavement is at the age where a preventive type treatment will extend the service life of the before it needs major rehabilitation.	NOE	
2012108346	Disposal of 88 Square Foot Strip of Excess Right-of-way Caltrans #2 --Shasta Caltrans proposes to dispose of excess right-of-way that was acquired as part of a previous intersection improvement project (11th Street Signals, EA 02-1E480). The excess right-of-way consists of an 88 square foot strip of land (DD-13701-01-01) that would revert back to the adjacent Indowner. This parcel is located at the northeast intersection of (SR) 299 and 11th Street in Redding,	NOE

	California. This area was previously evaluated as part of the 11th Street Signals Project. There is no Biological, Archaeological or Hazardous Waste issues associated with the parcel.		
2012108347	Remove Hazards - Repair Damage - occurring from Chips Fire - (SR) 70 Caltrans #2 --Plumas Using only State funds, the California Department of Transportation (Caltrans), will repair damage and remove hazards occurring from the Chisp Fire on (SR) 70 in Plumas County. The work will include: cleaning debris from roadside shoulders, cutting & removing burned trees above the highway, installing culvert end treatments, installing concrete inlets, digging sumps with clean-out access at culvert inlets, installing rock check dams, and installing signs. The Chips Fire burned vegetation that supported earthen material above the highway. In addition, it left burned trees that could fall onto the roadway. The project will remove debris that has migrated onto the roadway shoulder, remove potential hazard trees, and clean and repair culvert inlets.	NOE	
2012108348	2012 Bay Water Tower Maintenance Project Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Unincorporated--Alameda, San Mateo Repair of existing tower foundations and pile cap extensions. Repairs are required to abate corrosion and deterioration caused by the surrounding marine environment.	NOE	
2012108349	Statewide Medication Distribution Improvements Corrections and Rehabilitation, Department of -- Designing and implementing physical plant modifications and improvements to allow timely medication distribution to inmate patients at twenty two state prisons, which are operated by the California Department of Corrections and Rehabilitation (CDCR). The scope of work at each facility is based upon the existing physical plant of each prison, and the medication utilization factors determined by the types of population(s) housed at each facility. To the extent possible, prototypical design solutions will be used for similar physical plants. The scope of work at each facility may include a combination of the following components: construction of additional medication distribution windows; improvement or expansion of space for medication preparation activities, including lighting, sinks, HVAC and information technology; and security upgrades to ensure safe storage of medications.	NOE	
2012108350	U.S. Fish and Wildlife Service Central Valley Flood Protection Board Merced--Merced Conduct approximately 1.3 miles of unpaved road adjacent to the landslide toe of the east levee and two ramps off the east levee.	NOE	
2012108351	Yuba City, Department of Public Works Central Valley Flood Protection Board Yuba City--Sutter Authorize emergency repair work that removed an existing sewer outfall pipe from the Feather River floodway and the abandonment (grouting) of the remainder of the pipe. The repair included the installation (trench and horizontal drill) of a 36-inch diameter replacement pipe to reconnect the sewer line.	NOE

	30 percent mode shift; LEED Silver construction and operation measures; and site characterization and remediation. The project is requesting a development agreement with a 12 year term. **SCHOOLS: Los Cerritos/Parkway height/Mills Montessori/Hillside Christian/All Souls/Spruce Elementary/SSF Elementary.		
2012101073	Descanso Canyon Swing Adventure Avalon, City of Avalon--Los Angeles Construction of a cable bridge from which a bungee jump, canyon swing and free fall activity will occur. The project primarily is the installation of six anchor structures (three per hillside; four for the bridge and two for the swing).	MND	11/26/2012
2012102053	Borello Site Acquisition Morgan Hill Unified School District Morgan Hill--Santa Clara The MHUSD has been offered ten acres of a 12.04-acre property in the City of Morgan Hill for a future school facility. Acquisition of the project site by the School District would not directly result in a change in the environment; however, it is reasonably foreseeable that the School District would, at some time in the future, construct a School District facility at the project site. Therefore, for the purposes of CEQA, an IS evaluates development of ten acres of the project site as a possible 600-student elementary school. No development plans have been prepared. Should the School District acquire the property, it will need to conduct supplemental CEQA analysis when it proposes specific development for the property.	MND	11/26/2012
2012102054	Eureka Ready Mix Hauck Bar Asphalt Batch Plant CUP-10-14/CDP-10-20 Humboldt County --Humboldt A CUP and Coastal Development Permit for an asphalt batch plant at an existing gravel processing site (approved July 24, 1997; SMR-07-91/CUP-59-912) located off Highway 101 approximately 0.2 miles west of the Alton/Highway interchange on Fowler Lane. Development at the site includes an existing shop, silos, sales office, gravel stockpiles, mining equipment (such as front end loaders) and a concrete batch plant. The CDP is also required to allow for a modular office building installed on the site without permits.	MND	11/26/2012
2012101075	Soda Mountain Solar Project San Bernardino County --San Bernardino The proposed Soda Mountain Solar Project would be located in an unincorporated area of northeast San Bernardino County ~6 miles southwest of the community of Baker. The project would consist of a 350 megawatt solar photovoltaic energy generating facility that includes an on-site substation, operations and maintenance buildings, access roads, realignment of an existing road, and water wells. All project structures and facilities would occupy ~2,700 acres of an ~4,400 acre right-of-way (ROW) on public lands managed by the Bureau of Land Management.	NOP	11/26/2012

1997071087	Santa Ana River Mainstem Project, Reach 9, Phase 3 U.S. Army Corps of Engineers Chino--San Bernardino Note: Review per lead & Addendum	ADM	11/26/2012
	The 2001 SEIS/EIR had identified six distinct locations on the south and north banks of Reach 9 that required protection. However, the Lower Santa Ana Mainstem Project Design Documentation report dated November 2011 indicated the need to improve bank protection to additional areas within Reach 9. This SEA/EIR Addendum evaluates the environmental impacts associated with the reconstruction of an existing 1,600-foot long soil cement embankment structure located adjacent to SR 91, upstream of Gypsum Canyon Road. The reconstructed

Replacement Co-generation Plant Eastern Kern Air Pollution Control District --Kern U.S. Borax Inc. is proposing to replace their existing cogeneration (co-gen) plant at its facility in Boron, CA. New co-gen plant is to be constructed adjacent to the existing co-gen. Co-gen Project will consist of two General Electric (GE) LM6000 PC natural-gas-fueled combustion turbine generators with heat recovery steam generators (HRSGs) equipped with auxiliary duct burners to produce up to 500,000 pounds per hour (lb/hr) of process steam and ~76 megawatts (MW) of electricity at full load. The new co-gen plant would replace the existing co-gen facility with Westinghouse W251 generator and HRSG equipment. When replacement turbines and HRSG units are operational, existing Co-Gen facility will be decommissioned.	CON	11/29/2012
2010081057	Water Conservation Plant Upgrades Project Visalia, City of Visalia--Tulare Note: Recirculated The project would 1) improve wastewater treatment facilities at the City's existing water conservation plant, 2) develop the initial recycled water pipeline infrastructure for disposal and reuse of treated effluent generated by the plant. The City is exploring the possibility of entering into water exchange agreements to exchange recycled water generated by the plant for surface water.	EIR	12/12/2012
2003052021	I-80/I-680/State Route 12 Interchange Project Caltrans #4 Fairfield--Solano FYI Final The project to improve the Interstate 80 (I-80)/Interstate 680 (I-680)/ State Route 12 (SR 12) Interchange and relocate the westbound truck scales facility is located in the vicinity of the city of Fairfield, Solano County, California. The project areas covers some 13 miles encompassing all three highways. The project involves improvements on an approximate 4.5-mile-long segment of I-80 between Red Top Road and Abernathy Road, an approximate 3.5-mile-long segment of I-680 between Gold Hill Road and I-80, 2.0 mile-long segment of SR 12 West (SR 12W) between 0.5 mile west of Red Top Road and I-80, and an approximate 2.5-mile-long segment of SR 12 East (SR 12E) between I-80 and Main Street in Suisun City. 2012101077	Los Trancos Facilities Improvements Parks and Recreation, Department of Newport Beach--Orange The Project would maintain, improve and expand facilities including: expansion of interpretive, educational and operational facilities; construction of ADA accessible paths through the Los Trancos area as well as to adjacent areas of the park; reconfiguration of parking facilities to accommodate more vehicles; utility upgrades to meet the needs of expanded facilities; and landscaping to minimize visual impact of building and parking facilities.	MND	11/27/2012
2012101080	General Plan Amendment/Zone Change 12-0372 Bakersfield, City of Bakersfield--Kern The proposed project includes a General Plan Amendment and Zone Change on approximately 20.41 acres. The applicant proposes to change the existing land use from 11.54 acres of SR, 7.96 acres of LR and about one acre of LMR to HMR. The project area zoning will change from E on 12.45 acres and R-1-CH on 7.96 to R-2. The applicant is proposing to develop multifamily housing with a maximum of 225 dwelling units.	MND	11/27/2012
2012101084	Former Texaco Morro Bay Sales Terminal Piping Removal and Remediation Project Morro Bay, City of Morro Bay--San Luis Obispo Chevron Environmental Management Company is seeking approval of a Coastal Development Permit and Grading Permit for removal of remnant facility piping and several concrete features from the former Texaco Morro Bay Sales Terminal. Project includes removal of remaining underground pipelines, a 24-inch thick, 20 foot diameter circular tank pad, a demolished underground concrete clarifier, miscellaneous wood debris and concrete rubble. A remediation plan and restoration plan have been prepared.	MND	11/28/2012
2012102055	Eureka Ready Mix Asphalt Batch Plant at Christie Bar CUP-10-08 Humboldt County Blue Lake--Humboldt A CUP for a portable asphalt batch plant at an existing gravel processing site (approved March 20, 1998; CUP-36-96/SMP-04-96/RP-04-96) located off Highway 299 approximately one-quarter of a mile east of the second Glendale Exit. Development at the site includes an existing shop, silos, sales office, gravel stockpiles, mining equipment (such as front end loaders) and a concrete batch plant.	MND	11/27/2012
2012101079	Pitchess Detention Center Women's Village Project Los Angeles County Alhambra--Los Angeles The proposed Pitchess Detention Center (PDC) Women's Village Project would involve the partial demolition and redevelopment of approximately 21 acres of the 2,624 acre County-owned PDC for the construction of a 1,156-bed low- to medium security, rehabilitation-based, female inmate detention facility with a 26-bed medical clinic and appurtenant facilities, a parking garage, and the possible expansion of the existing cogeneration/central plant located off-site immediately to the southeast of the proposed Project. 2012011037	Stratford Ranch Industrial Project Perris, City of Perris--Riverside Note: Response to Comments	Oth	
	Development of a high-cube logistics warehouse site in two buildings totaling up to 1,725,411 square feet. Infrastructure improvements including 2.4 acres for dedication and construction of Redlands Avenue street frontage improvements. Improvements to the Perris Valley Strom Drain (PVSD) channel encompassing 45.7 net acres. Improvements to the PVSD Lateral D Channel encompassing 1.88 acres. The project includes the following City case numbers: EIR (11-09-0016); GPA (12-02-0001); SPA (11-12-0005); TPM (36469); Development Plan Review (11-12-0005).		
1992033035	Reggae on the River Conditional Use Permit Humboldt County --Humboldt The project is the proposed relocation of the Reggae on the River music festival to its original site at French's Camp from the current location at Benbow Lake State Recreation Area. The four-day event would accommodate 6,000 ticket-holders and 2,000 staff the first year, with an allowance to expand attendance levels by up to 2,500 persons in the following four years.	SIR	12/13/2012
2002072046	Incremental Recycled Water Program - Discharge Compliance Project Santa Rosa, City of Rohnert Park, Sebastopol, Windsor, Healdsburg, Cotati, ...--Lake, Sonoma The Project consists of the installation of recommended Management Practices (MP's) to repair stream crossings that are currently eroding or threatening to erode within the Pepperwood Preserve. Site specific erosion control treatments for eroding stream crossings would include installing critical dips to prevent stream diversions; cleaning, installing, and replacing culverts at stream crossings; decommission crossings, installing rock armor to prevent erosion; excavating soil at fills lopes and crossings; installing wet crossing with armor, and installing road drains, relief culverts, culvert downspouts, out slopes, and rolling dips.	NOD	
2002072046	Incremental Recycled Water Program - Discharge Compliance Project Santa Rosa, City of Rohnert Park, Sebastopol, Windsor, Healdsburg, Cotati, ...--Lake, Sonoma The Project involves the installation of Best Management Practices (BMP's) at the Beretta Dairy in Santa Rosa to reduce potential nonpoint source discharges of nutrients from pasture areas at the Beretta Dairy to Roseland Creek, a tributary of the Laguna de Santa Rosa, in Sonoma County. Proposed BMP's include: relocation of a manure stacking pad to a location within the production area of the dairy and creation of a new vegetated buffer area between former pad area and a watercourse; installation of a vegetated buffer and a cattle crossing over a clean water diversion swale that passes through a high use pasture area; and relocation of a high use pasture area; and relocation of a high use pasture are to a remote. 2003022091	McDaniel Slough Wetland Enhancement Project Arcata, City of Arcata--Humboldt Restore and enhance 212 acres of wetland habitat within a large 280-acre McDaniel Slough Wetland Restoration project area in Arcata. The project will restore tidal flow and fish passage to former salt marsh wetlands and enhance associated wildlife habitat in the McDaniel Slough and Janes Creek region on Humboldt Bay. The project will remove barriers to anadromous fish, deepen historic slough channels, partially remove failing or obsolete levee, and construct levees to protect adjacent property.	NOD	
2003052021	I-80/I-680/State Route 12 Interchange Project Caltrans #4 Fairfield--Solano The project to improve the Interstate 80 (I-80)/Interstate 680 (I-680)/ State Route 12 (SR 12) Interchange and relocate the westbound truck scales facility is located in the vicinity of the city of Fairfield, Solano County, California. The project areas covers some 13 miles encompassing all three highways. The project involves improvements on an approximate 4.5-mile-long segment of I-80 between Red Top Road and Abernathy Road, an approximate 3.5-mile-long segment of I-680 between Gold Hill Road and I-80, 2.0 mile-long segment of SR 12 West (SR 12W) between 0.5 mile west of Red Top Road and I-80, and an approximate 2.5-mile-long segment of SR 12 East (SR 12E) between I-80 and Main Street in Suisun City.	NOD	
2004062004	650 N San Pedro Road Master Plan, Development Plan, Subdivision & Rezoning Marin County San Rafael--Marin The Bay Creek (650 North San Pedro Road LLC) Rezoning, Master Plan, Subdivision and Precise Development Plan are modified and approved to allow the existing five lots to be subdivided into 10 residential lots and on Private Open Space Parcel, and developed with common improvements, future residential development, and the implementation of mitigation measures. A new road would enter the property in approximately the same location as the existing driveway intersection with North San Pedro and utilities would be provided by extending existing transmission facilities underground to the proposed lots. Designs for the future residences have not been submitted or approved for the project, but building envelopes are specified in the Precise Development Plan. The improvements proposed as part of the Precise Development Plan would result in approximately 4,150 cubic yards of excavation and 2,100 cubic yards of fill. The subject property is located at 650 North San Pedro Road, San Rafael, and is further identified as Assessor's Parcels 180-231-05, -06, -07, -09 and 180-291-04.	NOD	
2006112102	Pilarcitos Quarry Expansion San Mateo County Half Moon Bay--San Mateo The Project provides mitigation for the expansion of Pilarcitos Quarry operations in San Mateo County by constructing two ponds and enhancing and expanding an existing sediment pond. This will provide suitable breeding, hydration and foraging aquatic habitat for the California red-legged frog. Two ponds will be constructed where the northeastern most tributary of Nuff Creek enters the flood plain of Nuff Creek and about 400 feet downstream on the flood plain and east of the creek. The largest constructed pond designed as a pool swale complex, will be located in a relative flat area on the west of Nuff Creek. The Department of Fish and Game	NOD

	(DFG) is executing a Lake and Streambed Alteration Agreement, Number 1600-2011-0300-R3, pursuant to Section 1602 of the Fish and Game Code to the project Permittee, West Coast Aggregates, Inc. as represented by Richard DeAtley.		
2008081059	Valley County Water District SA1 Treatment Facility Improvements - Single Pass Ion Exchange Equipment Valley County Water District Baldwin Park, Irwindale, West Covina--Los Angeles The California Department of Public Health (Department) is a responsible agency for this project. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. The Valley County Water District (VCWD) proposes to construct a by-pass/blending system which will allow VCWD to by-pass a portion of the influent flow to an existing ISEP ion exchange treatment system and blend it with a portion of the ISEP treated water to an acceptable level for potable use.	NOD	
2010072070	Seasonal Irrigation Reuse / Recycled Water System Modifications Healdsburg, City of Healdsburg--Sonoma The project is limited to constructing an aerial crossing over Dry Creek that would support a 12-inch diameter steel pipe over the stream channel by installing an approximately 510-foot long cable suspension bridge to hold the pipe up.	NOD	
2011082034	Upper Main Canal - Tunnel 2 Daylight Project Turlock Irrigation District --Stanislaus The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Turlock Irrigation District. The application proposes to construct an approach ramp to allow access for heavy machinery into the Turlock Main Canal from a temporary haul road that will be used to transport tunnel spoils to the primary disposal area. The ramp will start from the canal bed up to hillside on the south side of the canal. Construction of the approach ramp will require the excavation of and cut into 144 square feet of an ephemeral drainage to the south of the canal.	NOD	
2011122047	The 2012 Fisheries Restoration Grant Program Fish & Game #2 -- The project will restore stream form and function by excavating the gravel fill from anthropogenic sources accumulating at the head of Stanshaw Creek's existing Klamath floodplain pool.	NOD	
2012022053	Marin County Flood Control Routine Maintenance Activities Program Marin County Flood Control District Unincorporated--Marin The Marin County Flood Control and Water Conservation District's (MCFCWCD) Routine Maintenance Activities (RMA) program defines the scope and timing of the maintenance activities conducted annually in and around flood control channels and facilities in East Marin County. The RMA program covers five type of routine flood control maintenance activities: 1) Vegetation management; 2) Sediment and debris removal; 3) Erosion control 4) Maintenance and repair of flood control structures; and 5) Levee maintenance. The primary purpose of the program is to reduce the potential risk of flooding and associated damage to adjacent properties	NOD

2012021017	West Mission Bay Drive Bridge Replacement Project San Diego, City of --San Diego City of San Diego project to replace the existing West Mission Bay Drive Bridge crossing of the San Diego River flood control channel between the West Mission Bay Drive/Sea World Drive intersection and the Sports Arena Boulevard/I-8 intersection. This is a Caltrans Local Assistance Project that proposes to use Federal Highway Administration funds administered by Caltrans. Caltrans prepared a Draft EA for the project in accordance with FHWA requirements for complying with the National Environmental Policy Act. The City adopted a MND for the project in September 2012 (SCH #2012021017).	EA	11/28/2012
2010071054	Metropolitan Airpark San Diego, City of San Diego--San Diego The Project includes the development of multiple land uses on approximately 331 acres of land within the limits of Brown Field Municipal Airport. The Project would consist of general aviation facilities and supportive non-aviation facilities such as office uses, hotels, restaurants, an air and space museum, industrial uses, commercial uses, commercial uses, a fueling station, and a solar energy generation facility. A master site plan (figure 3-1) shows the location and general	EIR	12/13/2012

	configuration of the land uses. Table ES-1 summarizes the project components.		
2012102056	North Table Mountain Ecological Reserve Trail Project Fish & Game #2 Oroville--Butte The Proposed Project is located at the North Table Mountain Ecological Reserve in Butte County, north of Oroville, CA. The Proposed Project would improve public access to the Reserve by providing 1.2 miles of pedestrian trail, including 0.8 mile of US Access Board compliant accessible trail, from the developed Cherokee Road parking area to a waterfall to the east. An additional 0.4 mile of pedestrian trail are proposed that would not meet accessibility standards. The Proposed Project may also increase the existing parking area by 20 overflow spaces, and develop four accessible parking spaces. This proposed trail system has been designed to increase accessibility for visitors with mobility and visual impairments, and route hikers away from a damaged and dangerous cliff. The current construction timeline is September 2013 to January 2014.	MND	11/28/2012
2012102058	Influent Pump Station Expansion Project Napa Sanitation District Napa--Napa The project proposes to upgrade the existing Influent Pump Station (IPS) at the Soscol Water Recycling Facility (SWRF) to pump incoming flows up to 60 mgd. The proposed project would be designed to pump flows up to 20 mgd to the SWRF headworks and flows in excess of 20 mgd to Oxidation Pond No. 1. The new IPS would be located to the west of the existing IPS. The new IPS includes approximately 150 linear feet of new 66-inch influent sewer pipeline to the new IPS, new sewage forcemain piping to manhole No. 9 from the new IPS, an emergency diversion pipe to the water recovery basin and site paving and grading. The project would also include improvements to the IPS screenings area and manhole No. 9. The existing vector dump site would be demolished and rebuilt, and a new electrical building, odor control facility, and flowmeter vault would be constructed.	MND	11/28/2012
2012102059	SF State Romberg Tiburon Center (RTC) Solar Photovoltaic Project California State University Trustees Tiburon--Marin RTC proposes to construct four new carport structures with roofs that consist of fixed solar PV panels within the southern portion of the lower surface parking area and then connect this new infrastructure via underground conduits to an inverter/frequency converter on the northern side of Building 36, a research and education building that would receive the incoming solar-generated power. The carport solar structures would require a supporting post about every 20 feet for a total of 10 posts. Holes would need to be drilled through the existing paved parking area and would extend into the soil about 12.5 feet below grade. The posts would be placed directly into the paved parking areas nearby and around, but not in, the leach fields. All systems would adhere to CA Building Codes/Standards and CA Energy Commission technical and installation specifications.	MND	11/28/2012

2002082043	Martin Slough Interceptor Project Eureka, City of Eureka--Humboldt New wastewater collection and conveyance components within an existing public wastewater system. Major components include new collector lines connecting up to sixteen existing lift stations to a new gravity wastewater collector pipeline (the "interceptor"), a new pump station, a new force main, and appurtenant improvements.	NOD	
2009121079	East County Substation/Tule Wind/Energia Sierra Juarez Gen-Tie Projects Public Utilities Commission --San Diego This agreement includes 32 miles of 500kV transmission lines, three (3) miles of 220kV transmission lines, and 70.01 miles of existing, un-paved access roads. The alignment includes the placement of ~106 new; lattice steel towers (LST) and 29 tubular steel poles (TSP). Approximately, 132 existing towers will be removed. Typical disturbance-activities associated with transmission line installation and upgrade includes; wire puling sites, guard structures, construction work areas around each tower location construction yards, helicopter yards, material yards, new access roads, and modification of existing access roads. Project activities within the stream zone include: trimming, crushing, grading and/or grubbing vegetation; installation of new, and repair or replacement of existing, culverts and dip crossings; and filling channels to create temporary construction pads. The remaining impacts minor impacts associated with regarding of existing access roads and tower removal.	NOD	
2011012057	Coleville Military Family Housing Area Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Mono The CA Dept. of Public Health (Dept.), as the responsible agency, will be issuing a water supply permit. The USMC Coleville Housing proposed project included the drilling and operation of a new potable well with treatment provided at an existing ion exchange treatment facility.	NOD	
2012091024	Fairway Drive/Walnut Drive Intersection Improvements Project Industry, City of Industry--Los Angeles The proposed project consists of the construction of new asphalt pavement, curbs, gutters, sidewalks, pavement striping, road signage, street lighting and the installation of new traffic signal equipment. These improvements will extend along Fairway Drive from south of the Union Pacific Railroad (UPRR)/Metrolink tracks on the north to the eastbound State Route 60 (SR 60) on/off-ramps on the south. Walnut Drive North will be widened and realigned for ~480 feet east of Fairway Drive and ~620 ft. west of Fairway Drive.	NOD	
2012092012	San Marco Development Plan Amendment Pittsburg, City of Pittsburg--Contra Costa On April 3, 1990, the Pittsburg City Council adopted Ordinance 90-990, thereby adopting a Negative Declaration and authorizing execution of the Southwest Development Agreement (DA). The Southwest DA allowed construction of 2,938 residential units on 639 acres within the Southwest Hills area of the City of Pittsburg. The project was eventually named the "San Marco Development," and more specifically included a combination of 1,412 single-family houses and 1,526	NOD

	multifamily units. The development was separated into 14 "villages" with different densities and types of housing specified for each village.		
2012092017	Eldorado National Forest Barrett Lake 4WD Trail Bridge Development Parks and Recreation, Department of --El Dorado CDPR has awarded state funds to the Eldorado National Forest for the construction of a bridge on the Barrett Lake 4WD Trail and the reroute of the existing trail to connect with the new bridge. A 45 to 50' wood and steel bridge would be built to span the Jones Fork of Silver Creek, replacing the current wet creek crossing (where vehicles drive through the creek). ~0.5 miles of new trail would be constructed to connect the bridge with the existing trail alignment. Most of the new trail and the bridge would be located on granite outcroppings to minimize vegetation disturbance. The project purpose is to reduce sediment delivery to the creek while still providing for a high quality motorized trail experience. The project would also restore 0.4 mile of trail to be abandoned and create a 2-3 car parking area in a disturbed area south of the creek.	NOD	
2010068188	Feasibility Study and Test Well - Sierra Linda Mutual Water Company Public Health, Department of --Madera The California Department of Public Health (Department) is the lead agency. The Department's Safe Drinking Water Proposition 84 Program is providing state funds for the project. The Sierra Linda Mutual Water Company study includes: * Evaluation of Consolidation and need for a Water Treatment Plant for possible alternatives * Feasibility Study Report * Construction of one test well * Hydrogeology and Well Oversight and Testing * Arsenic Pilot Plant Studies and pilot study report * Water System Update designs for either a new well or consolidation * Water Treatment Engineering Report * Completion of all CEQA documentation	NOE	
2012108465	M & L COld Storage Water Treatment System Public Health, Department of Delano--Kern The California Department of Public Health (Department) as the lead agency will be issuing a water supply permit. The M & L Cold Storage has already constructed and is currently using a treatment facility for the removal of DBCP and nitrate from the domestic drinking water supply. All waste generated by the treatment process is being conveyed to discharge in waste storage tanks for removal and disposal by CVC Environmental.	NOE	
2012108466	General Services/Parks - San Miguel Park; ED12-056 San Luis Obispo County -- Remove one block of K Street located between 12th and 13th Streets. Remove street paving and install turf and water efficient irrigation to create a regulation size multi-use ball field in San Miguel Community Park. This action also includes; tree remvoal of several aged Elm and Mulberry trees, a bike trail thrrough the park that connects with the existing bike trail on K Street, striping diagonal parking along the park site and off-site road improvements to one block of L Street, between 13th and 14th Streets, to construct a paved 24 feet wide section. 2010068088	West Vista Way Sewer Replacement Project Vista, City of Vista--San Diego The project entails replacing and/or realigning approximately 4,100 linear feet of existing sewer pipeline located within public roadways (West Vista Way, Huff Street, and Brass Lane), and replacing associated manholes. Project installation would be conducted by a combination of open trench construction and jack-and-bore tunneling within existing roadways and City-owned right-of-way adjacent to those existing roadways, The jack-and-bore tunneling within the existing roadways and City-owned right-of-way adjacent to those existing roadways. The jack-and-bore construction entails creating two jacking pits and two receiver pits, all within the public right-of-way. Most of the work would be performed at night to limit traffic impacts; nighttime work will not be conducted on the Brass Lane portion of the project, which is a residential street, in order to prevent noise impacts on these residences. The remainder of the project site is an industrial and commercial area that would not be affected by nighttime noise.	ADM	
2008041172	Sexlinger Farmhouse and Orchard Residential Development Project Santa Ana, City of Santa Ana--Orange Note: Review per lead The project consists of development and construction of 24 single family residences on approximately 5 acres. The project is located in the Single Family Residential (R-1) zoning district with a General Plan designation of Low Density Residential (LR-7. The project also proposes a vesting tentative tract map to subdivide the site into 24 parcels for single family residences with living areas ranging from 2,340 to 2,777 sf. The project proposes two variances for reduced	EIR	12/17/2012

	street frontages for Lot 7 from 50 feet to 38 feet, and for Lot 8 from 50 feet to 45 feet. This site is located at 1584 East Santa Clara Avenue, in the City of Santa Ana. The site has recently been designated by the City of Santa Ana as "Key" under the Santa Ana Register of Historical Properties. The Draft EIR discusses several alternatives including a Hybrid Development Alternative.		
2010101030	UCSD Hillel Center for Jewish Life (aka Hillel Student Center of San Diego) San Diego, City of La Jolla--San Diego The project applicant, Hillel, is organized as a 501(c)3 CA nonprofit religious organization. Hillel currently uses the residential structure 8976 Cliffridge Avenue (Cliffridge property) for administrative offices, one-on-one counseling, and meetings with students. Permanent use of this facility would require improvements to increase on-site parking. In addition, Hillel has identified a need for additional space to improve services and provide a full range of religious programs. Phase 1/Phase 2. To meet the identified objectives and need, Hillel proposes a two-phase project consisting of temporary permitting and minor upgrades to existing facilities and development of a new permanent facility, the HCJL. The combined phases comprise the project and are referred to as Phase 1/Phase 2 in the EIR.	EIR	12/14/2012
2012101085	Angel's Camp Reservoir and Santa Barbara Reservoir Projects Big Bear Lake, City of Big Bear Lake--San Bernardino The project consists of the construction and installation of new water storage and conveyance facilities consisting of two new reservoirs, a booster pumping station, and water distribution system pipelines. The Department intends to construct these facilities in the Moonridge and Sugarloaf areas. The proposed project is the construction and installation of water reservoirs, a booster pumping station, water distribution pipelines, and associated appurtenances. The proposed water facilities will be located within the DWP's Service Area within the jurisdiction of the City of Big Bear Lake and the County of San Bernardino. The objective of the proposed water reservoirs, booster pumping station, and distribution pipelines is to enhance fire flow capacity, augment circulation in the distribution system, and reduce energy consumption. The Department's Water Master Plan (2006) evaluated existing reservoirs and distribution pipelines within the Department's water service system. Distribution and storage facilities within various areas of the Department's service system were determined to be undersized and deficient to meet fire flow requirements. The proposed new and replacement distribution pipelines would be 12 inches and 8 inches in diameter to meet the Department's fire flow requirements.	MND	11/29/2012
2012101086	LU11-0067 Ventura County --Ventura Request for a Major Modification to CUP 5255 for the redesign and continued operation of an existing communications facility located on an existing water tank, operated by AT&T. The existing water tank will be removed and a new faux elm tree will be constructed within the water tank footprint. The faux elm tree will have a maximum height of 24 feet and the top of the antennas will be located at the 20 feet 6 inches height level. The AT&T facility will have two sectors with three antennas per sector, for a total of six antennas. The AT&T facility includes three	MND	11/29/2012

	existing outdoor equipment cabinets that will be removed and replaced with a 230 sf prefabricated equipment shelter. The proposed project also includes landscaping to blend the faux elm tree with the surrounding vegetation. The proposed landscaping includes the removal of three non-native eucalyptus trees and the installation of three 24 inch native coastline oak trees and three 24 inch native walnut trees. The proposed landscaping will be irrigated by water trucks periodically until the trees have been established. The water trucks will water the site two times each month during the first year after the landscaping is installed and one time each month during the second year after the landscaping is installed.		
2012101087	LU11-0053 Ventura County --Ventura Request for a Major Modification to CUP 5086 for the redesign and continued operation of an existing communications facility located on an existing water tank, operated by T-Mobile. The existing water tank will be removed and a new faux elm tree will be constructed within the water tank footprint. The faux elm tree will be 28 feet tall and will have antennas for T-Mobile (LU11-0053) and Sprint (LU11-0054) facilities. The T-Mobile facility will have three sectors with two antennas per sector, for a total of six antennas. The top of the T-Mobile antennas will be 23 feet and 6 inches high. The T-Mobile facility includes two existing equipment cabinets, and a new equipment cabinet will be added for a total of three cabinets. The water tank site is currently surrounded by a six foot tall chainlink fence topped with barbed wire. The fence will remain in the same location. The facility will be unmanned and will not require water. The proposed project also includes a temporary site during demolition of the existing facilities and construction of the redesigned facilities. The location of the temporary site will vary so as to not interfere with the demolition and construction activities.	MND	11/29/2012
2012101089	Dalton Canyon Walking Trail Glendora, City of Glendora--Los Angeles A 3 foot wide trail designed for easy walking and jogging located adjacent to the north side of the existing Dalton Canyon Road for approximately one-half mile. There are two points where hikers could cross the stream over existing bridges to connect with the existing Big Dalton trail, creating a loop experience. Construction of the trail would require minor brush clearance plus two areas where minor construction would need to occur. In one area, a retaining wall would need to be constructed to provide enough width for the trail and in a second area, another retaining wall or protective railing would need to be constructed where the canyon slopes steeply away from the existing road. Sign kiosks, drinking fountains and bike racks would be provided at the beginning and end of trail, and benches would be provided at the beginning, middle and end of trail.	MND	11/29/2012
2012102060	Sabatino Rezoning (File No. PDC 12-010) San Jose, City of San Jose--Santa Clara A Planned Development Rezoning and subsequent land use permits including a Planned Development Permit and Tentative Map to allow up to 20 detached townhome units on approximately 3.4 acres.	MND	11/29/2012

2011071024	Betty Drive Interchange Caltrans #6 --Tulare Reconfigure existing interchange at Betty Drive and SR 99 near City of Goshen.	NOD	
2011112029	Lemon Canyon Road Culvert Upgrade Project Caltrans #3 --Sierra Replace 12 existing culverts along a portion of SR 49 near the town of Sierraville.	NOD	
2011122078	Alexander Avenue/Danes Drive Intersection Improvement Project Golden Gate Bridge Highway and Transportation District Sausalito--Marin The project would reconfigure the Alexander Avenue/Danes Drive intersection, lengthen the left-turn lane along Alexander Avenue, and widen shoulders along both sides of Alexander Avenue within the project limits in the Golden Gate National Recreation Area.	NOD	
2012041075	Porsche Experience Driving Center Carson, City of Carson--Los Angeles The project consists of the remediation of a former landfill, the demolition of a golf course, the import of more than 200,000 cubic yards of soil and the development of a driving skills course and operations building.	NOD	
2012042005	Madrone Avenue Left-Turn Channelization Project Caltrans #4 Cotati--Sonoma Roadway improvements at the intersection of Madrone Avenue and SR 116 in the City of Cotati.	NOD	
2012062005	East Bay Greenway Project Alameda County Transportation Authority Oakland, San Leandro, Hayward--Alameda 12-mile long Class I multi-use path, Class II and III bike facilities, and minor pedestrian improvements connecting Fruitvale and Hayward BART stations.	NOD	
2012082043	20-80 Sand Facility Well Replacement Caltrans #3 Truckee--Nevada The project proposes to drill a well to service an employee restroom facility. The new well is to replace an existing well that has collapsed and is no longer producing water. The drilling shall occur within 100 feet of the existing well to a depth of at least 100 ft. The new well will be plumbed into the existing water system. All of the drilled related work and staging for this project will be completed within current Caltrans right-of-way with no additional right-of-way acquisition required. A 10 day work window is expected.	NOD

<u>Documents Received on Wednesday, October 31, 2012</u>			
2012102003	Klayko Residence Santa Clara County Monte Sereno--Santa Clara This application is for a Building Site Approval with Grading Approval and Design Review Exemption to construct a new 4,500 sf single family residence including attached 3 car garage with associated driveway and clear-span bridge crossing tributary of San Tomas Aquino Creek (avoiding top of bank). Bridge improvements include support on a drilled pier and grade beam foundation and armored with 12 to 18 inch hard rock rip rap 15 ft. on each side of the bridge.	NOD	
2012108474	Soule Park Golf Course Maintenance Fish & Game #5 Ojai--Ventura The Permittee proposes to maintain vegetation on the golf course by topping willows to a height of 24 inches above the top of the bank in four locations where the 'T' is on the opposite side of the creek from the green. The total area is 8,900 square feet or 0.2 acres. These are considered permanent impacts since the willows will be maintained at the 24 inch height. The Permittee also proposed to repair the abutments of three bridges by placing ungrouted rocks around the abutments (0.05 acres or 2,400 square feet).	NOE	
2012108475	Arizona Crossing at Reata Park Fish & Game #5 San Juan Capistrano--Orange SAA # 1600-2012-0116-R5 - Repair and maintenance of an existing Arizona crossing within San Juan Creek at Reata Park. The project will remove the sediment and debris from the 8 existing culverts with the use of a vacuum truck located outside of the stream. The project also includes the installation of one additional 24-inch culvert, additional ungrouted rip-rap slope protection, and road material fill totaling approximately 3000 cubic yards.	NOE	
2012108476	Three Pump Station Expansion Project Fish & Game #5 --Los Angeles The Las Virgenes Municipal Water District (LVMWD) Three Pump Station Expansion Project was conducted without prior notification to the department. The permittee notified CDFG after the fact, and proposes to revegetate disturbed areas of the project site with native plants. This refers to revegetating the disturbed areas where construction activities occurred to a self-sustaining native plant community. Revegetation will be sufficient to stabilize the surface against erosion (especially along the creek banks) while restoring the project area to pre-project conditions to provide habitat for native flora and fauna.	NOE	
2012108477	Sediment Removal in Lake #4 Fish & Game #5 Newport Beach--Orange SAA #1600-2012-0171-R5 - The project is a one-time removal of sediment from Golf Course Lake #4 at the Big Canyon Country Club. A sediment vacuum vessel will vacuum a mixture of water and suspended sediment through a tube into a woven geotextile sleeve will filter the incoming water, while capturing an estimated 4000 cubic yards of sediment. After sediment removal is complete, the top of the geotextile sleeve will be removed, and the area will be planted and function as a non-play area of the golf course.	NOE
