STATE CLEARINGHOUSE

---

**SUMMARY  
OF  
POSTINGS**

**October 16 – 31, 2013**

# STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 16 – 31, 2013**.

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov](http://www.opr.ca.gov)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Director

## CLEARINGHOUSE MAILING ADDRESS

The mailing address is:

### USPS:

State Clearinghouse  
P.O. Box 3044  
Sacramento, CA 95812-3044

OR

### USPS/Courier Service / Hand Deliveries:

State Clearinghouse  
1400 Tenth Street, Room 113  
Sacramento, CA 95814

## INFORMATION AVAILABLE ON-LINE

The CEQA Statute and Guidelines are available through the Natural Resources Agency's website at:

<http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## Environmental Document Filings with the State Clearinghouse 1999-2012

All CEQA documents filed with the State Clearinghouse are available for viewing on the internet at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov).

<b><u>Documents Received on Wednesday, October 16, 2013</u></b>			
2013102027	<p>Empire Storm Drain Project Stanislaus County --Stanislaus</p> <p>The project includes the installation of curb, gutter, handicap returns, new street sections, and a positive storm drain collection system for the entire community of Empire. The first phase of the four-phase project has been completed. The storm drain collection system will cross under State Route 132 from the north side of the community to the south and connect to a Modesto Irrigation District (MID) river outfall on the Tuolumne River.</p>	<b>CON</b>	11/04/2013
2013041067	<p>ENV-2012-1111-MND / 11965-11979 1/4 W. Montana Avenue Los Angeles, City of --Los Angeles</p> <p>The demolition of 32 dwelling units contained within 2 existing apartment buildings and the construction of a new 5-story, 56-ft. high, 49-unit residential condominium project. The applicant is seeking approval of a 2 Density Bonus incentives as provided by the Los Angeles Municipal Code (LAMC) Section 12.22 A 25(e) for a project that sets aside 13 affordable dwelling units. The 2 Incentives are: an 11-ft. increase in the building height to 56-ft. in lieu of 45-ft. and the increase in floor area, 89,350 sf in lieu of 66,323 sf; and a reduction of required parking, 98 spaces in lieu of 123 spaces.</p>	<b>MND</b>	11/14/2013
2013101047	<p>ENV-2013-2237-MND / 15281 W. De Pauw Street Los Angeles, City of Brentwood--Los Angeles</p> <p>Construction of a new, five-bedroom, two-story, 4,135 sf, 32-foot, 3-inch high single-family dwelling over a predominately below-grade basement, containing a four-car garage, theater room, recreation room, and equipment/storage rooms, with a swimming pool and spa at the rear of the pad, screened by landscaping. Additional landscaping is proposed within the side yards. The project includes two roof-top solar panels, one 144 sf and the other 180 sf in area, and a retaining wall/pool parallel to and approximately 10 feet from the rear property line varying in height from 0 to 6 feet. A 2-foot high landscape wall of treated landscape timbers is proposed parallel to and approximately 7 feet from the rear property line. Various low planter and yard walls are located throughout the property. A required sump pump is located in the basement level mechanical room. Approximately 716 cubic yards of earth will be cut; approximately 129 cubic yards will be used as fill; and approximately 587 cubic yards will be exported via a haul route pursuant to approval by the Department of Building and Safety. The project requires a Coastal Development Permit.</p>	<b>MND</b>	11/14/2013
2013101048	<p>ENV-2013-2239-MND / 15275 W. De Pauw Street Los Angeles, City of Brentwood--Los Angeles</p> <p>Construction of a new, five-bedroom, two-story, 3,737 sf, 32-foot high single-family dwelling over a predominately below-grade basement, containing a four-car garage and equipment and storage rooms, with a swimming pool and spa in the rear. Landscaping is proposed at the rear of the pad and within the side yards. The project includes two roof-top solar panels, both 184 sf in area, and two retaining walls, one parallel to and approximately 10 feet from the rear lot line varying in height between 4 and 6 feet in height, and one parallel to and</p>	<b>MND</b>	11/14/2013

	in the Dougherty Valley development area (Gale Ranch - Phase IV) in San Ramon, CA. The school will be located in an area that was previously approved for residential development and will require the relocation of 45 residential lots. In addition to the school site, the project also involves modifying some of the approved street sections identified in the DVSP.		
2013101051	Regional Salinity Management Pipeline Phase 2: Upper Ranch Calleguas Municipal Water District Camarillo, Santa Paula, Moorpark--Ventura The project includes the installation and operation of approximately 5.5 miles of 24-inch diameter pipeline to convey brine concentrate from groundwater desalters and excess recycled water generated by municipal wastewater facilities for either discharge through an ocean outfall or for re-use. The pipeline alignment will generally parallel SR 34 and 118 from a point immediately north of the Las Posas Road/Somis Road intersection north of the City of Camarillo to the SR 118/Hitch Blvd intersection west of the City of Moorpark.	<b>NOP</b>	11/15/2013
2013101052	Shelter Island Boatyard Crane Replacement and Pier Addition Project San Diego Unified Port District San Diego--San Diego Replacement of two existing gantry cranes (35 and 70 metric ton capacities) with new modernized gantry cranes with higher lift capacities (70 and 150 metric tons); and two new 90-foot long pier segments to accommodate the higher capacity 150 ton crane. Project involves up to 1,240 sf of new in-water piers, piles and docks and corresponding removal of up to 1,247 sf of existing piles and docks for net decrease of 7 sf overall. The site is documented as not having any eelgrass. Project also involves the removal of existing storage and maintenance sheds within the boatyard to accommodate the new pier construction and gantry crane approach area; replacement of existing concrete slab areas; and two areas of repair to the existing boatyard bulkhead/seawall. Construction is anticipated to begin in early 2014 for a period of up to six months.	<b>Neg</b>	11/15/2013
2013102028	PA-1300141 San Joaquin County Ripon--San Joaquin This project is a Minor Subdivision application to subdivide one 40-acre parcel into a Homesite parcel a designated remainder. The Homesite parcel is to contain 2.29 acres and the designated remainder parcel is to contain 37.71 acres. This parcel is not under a Williamson Act contract.	<b>Neg</b>	11/15/2013
2004051038	Black Road Bridge 51C-031 Bridge Replacement Santa Barbara County --Santa Barbara CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2013-0075-R5) to the project applicant, County of Santa Barbara, Public Works. The project will replace an existing bridge with a 94-foot long, 38-foot wide cast-in-place pre-stressed clear span concrete box girder bridge. This bridge includes two 12-foot lanes, two 5-foot shoulders and two guardrail elements. This project will remove the existing structure, slope paving, concrete rubble and illegally dumped concrete material which is now acting as a grade control structure (weir). Flows will need to be diverted around the project area.	<b>NOD</b>

2013108205	Idyllwild Nature Trail Repairs , Mt. San Jacinto SP (13/14-IE-5) Parks and Recreation, Department of -- A series of storms during September 2013 resulted in severe flooding and damage to the Mt. San Jacinto SP/ Idyllwild Nature Trail, which traverses the perimeter of the campground. An approximately 500' section of the trail bed was left eroded, leaving rot systems exposed, uneven tread and areas covered in debris. The trail is currently difficult to follow and could be safety hazard to the public. The trail needs to be realigned, repaired, and rebuilt in way that will better hold up to the seasonal weather conditions.	<b>NOE</b>	
2013108206	Willow Creek Trail Repairs, Mt. San Jacinto SP (13/14-IE-2) Parks and Recreation, Department of --Riverside The Mountain Fire at Mount San Jacinto State Park caused significant impacts to the Willow Creek Trail and watershed from the High Trail junction south to the park boundary. The damage will be exacerbated by impending winter rains. There are significant areas where protective ground surface vegetation is missing and already fire scared soils are migrating into sensitive endangered species habitat. Preparation needs to be made for potentially massive amounts of woody debris and water transported soils from the unstable hillsides.	<b>NOE</b>	
2013108207	Invasive Tree Removal (13/14-SD-13) Parks and Recreation, Department of --San Diego This project will remove invasive trees within the riparian habitat of Los Penasquitos Lagoon in Torrey Pines State Natural Reserve to protect park resources.	<b>NOE</b>	
2013108208	Torrey Pines and Mairtime Chaparral Restoration (13/14 SD-14) Parks and Recreation, Department of --San Diego This project will remove the invasive sea fig (Carpobrotus edulis) from an exposed hillside along North Torrey Pines Road within Torrey Pines State Natural Reserve. Then the area will be replanted with maritime chaparral plants, including Torrey pines and scrub oak to protect park resources.	<b>NOE</b>	
2013108209	2011 Bay Waters Tower Maintenance Project Fish & Wildlife #3 --San Mateo The project involves foundation repairs and pile cap extensions at electrical towers along PG&E's Ravenswood San Mateo 115 kV Line and Sierra 115 kV Line. Issuance of a Streambed Alteration Agreement Number 1600-2011-0119-R3 is pursuant to Fish and Game Code 1602.	<b>NOE</b>

	grasses, invasive tree species (such as tree of heaven), small shrubs, and debris will be removed. Large trees with canopy hanging into the channel will be trimmed back and trees in the channel may be trimmed to provide better sight distance. No riparian tree species over four inches in diameter at breast height will be removed. All work will be done using hand tools. All cuttings will be collected and disposed of at an off-site location.		
2013108218	Assignment and Assumption of Leasehold to Pasha Automotive Services San Diego Unified Port District National City--San Diego The proposed project involves the assignment and assumption of a lease from Pasha Freight Systems to Pasha Automotive Services for an existing marine related industrial facility at the National Distribution Center. The project would only change the leasee and all other terms of the lease would still apply. No new development is proposed or authorized as part of this leasehold assignment and the project would not result in an increase in operations or an increase in size of the property.	<b>NOE</b>	
2013108219	Tidelands Use and Occupancy Permit to Hornblower Yachts for Trash Enclosure on Navy Pier. San Diego Unified Port District San Diego--San Diego The proposed project is a tidelands use and occupancy permit to Horn blower Yachts, Inc. (tenants) for its use of an existing enclosure for trash, recycling and grease receptacles. The enclosure is approximately 182 square foot area along the north side of building 11 on the Navy Pier in the city of San Diego. No new development, construction and increases in size of the tenant's leasehold or the TUOP area is proposed or authorized as part of this TUOP. The TUOP is proposed to commence on August 1, 2013 and terminate on July 31, 2018, for a total term of five years.	<b>NOE</b>	
2013108220	2013 Coronado Art Walk San Diego Unified Port District Coronado--San Diego The proposed project is the 2013 Coronado Walk, which took place on September 14, 2013 and September 15, 2013. The District will provide event sponsorship and financial assistance for the event, a free, family oriented art festival intended to foster creativity and appreciation for artwork. The event took place throughout the Coronado Ferry Landing and featured painting, hand crafted jewelry, photography, ceramics, and other mediums were featured. Artists were housed in tented booths along the entrance and on the grounds of the Coronado Ferry Landing. The event included art activities for children and adults, as well as entertainment throughout both days. Parking was available at the parking lots serving the Coronado Ferry Landing. The event had an attendance of approximately 10,000 people.	<b>NOE</b>	
2013108221	Coronado Island Marriott Resort Accessible Lift San Diego Unified Port District Coronado--San Diego The proposed project is the construction of a concrete path and concrete structure to support a new accessible lift at the Coronado Island Marriott Resort (hotel) in Coronado. The proposed project will install a new American's with Disabilities Act (ADA) accessible lift so as to create an accessible path of travel from the hotel onto the adjacent public promenade and nearby water taxi. The accessible lift will be installed to take patrons from the hotel property to the promenade, which has a	<b>NOE</b>

2005061013	Revised PRC 421 Recommissioning Project California State Lands Commission Goleta--Santa Barbara Note: Revised  The PRC 421 oil wells and offshore lease area occupies State tide and submerged lands under the jurisdiction of the California State Lands Commission (CSLC). Venoco, Inc. is a publicly held, independent oil and gas company that has filed an application with the CSLC to return oil and gas Lease PRC 421 to oil production from an existing shoreline well that has been shut-in since 1994. The project includes using an existing pier, separating water and gas from produced oil at the existing o Ellwood Onshore Facility in the City of Goleta, and decommissioning and removing a second well and associated pier adjacent to the production well.	<b>EIR</b>	12/02/2013
2010101041	Herbert Hoover High School - Athletic Facilities Upgrade Project San Diego Unified School District San Diego--San Diego The District recently constructed an upgraded athletic facility at the Herbert Hoover High School campus, which included improvements to the football, track, and baseball facilities. The former tennis courts were replaced with a new softball field. The project also included installing additional parking spaces, stadium lighting, an upgraded public announcement system, and Americans with Disabilities Act (ADA) - compliant facilities.	<b>EIR</b>	12/02/2013
2013071074	Orosi Rock Surface Mining Permit Amendment Tulare County Porterville--Tulare The Applicant currently operates a concrete recycling and surface mining operation on 35.13 acres. The operation currently serves the entire region's concrete recycling needs. The applicant will increase production of 1.9 million tons of rock and 2.1 million tons of imported recycled concrete in addition to the existing 6.8 million tons allowed. The total permitted production of aggregate will be 10.8 million tons over the course of the existing 25 year period of the existing permit (to 2030). The applicant will be allowed to store no more than 10,000 tons of aggregate on the Project site. The applicant will continue to require blasting to break up larger rocks that cannot be moved or broken up by mechanical equipment. All blasting will be conducted by a licensed blaster. The excavations requested by the applicant will be to 350' Mean Sea Level (MSL) versus the 400' MSL previously approved. The approximate 35.13 acre Project site is located near the northeast corner of Avenue 420 and Road 144 (approximately 3.5 miles west of Avenue 400 and SR 63) and encompasses APN 035-240-011. The proposed Project is in the Public Land Survey System of Section 10, Township 16S, Range 25E, MDB&M and can be found within the South Orange Cove United States Geological Survey (USGS) 7.5 minute topographic quadrangle.	<b>EIR</b>	12/02/2013

	miles NE of the City of Tulare, in Tulare County, CA. The proposed Expansion will include a new Transit Operations Facility, a Fire Administration and Emergency Operations Center, a fast fill CNG fueling facility, Road Maintenance equipment parking area, and Sheriff's Office evidence storage structures, a storm water retention basin, a septic leach field, and an internal road system.		
2013101055	West Antelope Solar Energy Project R2012-01589 / CUP 201200086 / ENV 201200158 Los Angeles County Lancaster--Los Angeles The Project would develop the approximately 263-acre site with solar energy facilities that have a total system capacity of 20 megawatts. The Project would consist of (1) mounted solar PV panels; (2) an electrical collection system; (3) the Project Substation; (4) an underground (or partially underground) transmission line along Avenue J to the SCE Antelope Substation; (5) a meteorological data collection system; and (6) civil infrastructure including driveways, internal access roads, drainage design, a hiking trail, secure fencing, landscaping, and two water tanks.	<b>MND</b>	11/18/2013
2013102032	Santa Cruz 115-kV Reinforcement Project Public Utilities Commission --Santa Cruz The proposed project includes converting an existing 7.1 miles of single-circuit, 115-kV power line into a double-circuit, 115-kV power line by replacing existing wood poles with tubular steel poles (TSPs); construction a new, approximately 1.7-mile-long, single-circuit, 115-kV power line on new TSPs and new wood poles along the existing distribution alignment; and, modifying the Rob Roy Substation and existing power lines into the substation to accommodate the new circuit.	<b>MND</b>	11/18/2013
2013102038	Interstate 280 Repair Pipe System and Backfill Sinkhole Caltrans #6 San Mateo--San Mateo Caltrans proposes to replace a drainage pipe west of I-280 at post mile 9.4. The 60-inch corrugated metal pipe, which has failed along a portion of its length, has created a sinkhole sufficiently large enough to begin impacting an existing maintenance access road and supporting fill slope of I-280. The sinkhole continues to pipe debris and material during rain events into Lower Crystal Springs Reservoir, a San Francisco Public Utility Commission drinking water source. The project will replace 850 feet of pipe from an existing riser at the midpoint of the drainage system to its outfall. The pipe accepts drainage from two 24-inch lateral lines coming from I-280; one line at the drainage system midpoint; and the second a line near the outfall.	<b>MND</b>	11/19/2013
2013102039	State Route 128 Roadway Retaining System Caltrans #6 Napa--Napa Caltrans proposes to construct a 90 foot long and 27-foot deep Cast in Drilled Hole soldier pile wall. The wall will be constructed outside of the northbound shoulder of SR 128. Project activities include replacing the corrugated metal pipe culvert that is crossing under the roadway. The drainage structure at the upstream end of the culvert will be removed and replaced with a flared end section. The existing headwall at the bottom of slope will remain in place. A drainage inlet, dike replacement and a guard railing system are proposed along the northbound	<b>MND</b>	11/19/2013

	shoulder. Two existing down drains will be replaced on the slope outside of the northbound shoulder.		
2013101053	2014 Kings County Regional Transportation Plan and Sustainable Communities Strategy Kings County --Kings The 2014 RTP-SCS is the long-range planning, policy, action, and financial document for the Kings County Region. The RTP-SCS covers a 21-year period from 2014 to 2035 and is an update of the 2011 RTP. The RTP-SCS identifies the region's transportation needs and issues and sets forth actions, programs, and projects to address those needs and issues. The RTP-SCS adopts policies, sets goals, and identifies financial resources to encourage and promote the safe and efficient management, operation, and development of a regional intermodal transportation system that would serve the mobility needs of goods and people. In addition, as the MPO for Kings County, KCAG is required to prepare a SCS that demonstrates how GHG reduction targets will be met through integrated land use, housing, and transportation planning.	<b>NOP</b>	11/18/2013
2013102031	Sunset Crossing Project / Catalina Crossing Project Livermore, City of Livermore--Alameda The Sunset Crossing Project consists of redeveloping an existing 13.46-acre office property to support 87 dwelling units. The project requires approval of a General Plan Amendment, Zoning Map Amendment (Rezone), Vesting Tentative Map (Subdivision), Site Plan Design Review, and Variance.  The Catalina Crossing Project consists of redeveloping an existing 2.18-acre office property to support 31 dwelling units. The project requires approval of a General Plan Amendment, Zoning Map Amendment (Rezone), Vesting Tentative Tract Map (Subdivision), Site Plan Design Review, and Variance.	<b>NOP</b>	11/18/2013
2013101056	PL13-0051 Ventura County Malibu--Ventura The applicant requests a CUP to be granted to authorize the upgrade of an existing communications facility operated by AT&T that is installed on a utility pole within the Highway 1 right of way. The facility is located approximately 1,500 feet east of Deer Creek Road. The utility pole is located on the southern side of the roadway and will have four panel antennas. The equipment area will be located on the northern side of the roadway and will be screened from passing motorists by an earthen berm. The equipment area will be enclosed by a four-foot tall block wall. The upgrade includes the removal of two microwave dishes at the 25-foot level and installation of four panel antennas at the 20-foot level. The upgrade also includes the installation of two microcell antennas that will be flush mounted to the utility pole at the eight foot level. The antennas will be painted to match the color of the existing utility pole. The facility will be unmanned and does not require any water to operate. The facility will not have any battery packs with hazardous materials. Access to the site is provided from the side of Hwy 1. The AT&T site number is "SBOV96" and the site name is "ROW Deer Creek Microcell".	<b>Neg</b>	11/18/2013

<b><u>Documents Received on Monday, October 21, 2013</u></b>			
2013101060	Hill and Colorado Project Pasadena, City of Pasadena--Los Angeles The proposed project involves the establishment of a Planned Development District for two sites on opposite sides of Colorado Boulevard in the City of Pasadena. The proposed project involves the establishment of a Planned Development District that delineates development standards relative to building setbacks, heights, form, mass, scale, and other design considerations for future development at the site. Based on the proposed development standards, which can be considered to constitute a "development envelope," the project proponent proposes a potential development concept that would provide approximately 438,685 sf of building space at the project site for uses currently allowed under the existing zoning, specifically hotel development and commercial/retail uses.	<b>NOP</b>	11/19/2013
2013102036	Regional Wastewater Control Facility Capital Improvement and Energy Management Plan Phase 2 Improvement and Energy Management Plan Stockton, City of Stockton--San Joaquin The City proposes to implement Phase 2 of the Capital Improvement and Energy Management Plan (CIEMP) for the City's Regional Wastewater Control Facility (RWCF), which focuses on critical near-term projects required to maintain compliance with the National Pollutant Discharge Elimination System (NPDES) permit and extend the useful life of existing facilities. The Phase 2 improvements would not expand treatment capacity or the size of the existing RWCF site footprint and would be implemented as funding becomes available. The Phase 2 improvements would be implemented over an ~8 to 10 year time frame.	<b>NOP</b>	11/19/2013
2013012035	Westside Facility Project Sonoma County Water Agency --Sonoma The Proposed Project is construction of a facility that would be used as a classroom for the Water Agency's Field Study Program; as a location to hold teacher workshops; as a starting location for community tours of the Water Agency's Water Transmission System, which are offered to the public approximately four times a year; and as a starting location for tours for other agency representatives, visiting officials and researchers which are offered approximately six times a year. The Proposed Project would consist of the construction of an approximately 4,000 - 5,000 sf, one story building. The building would be constructed towards the back of the property, to minimize sight lines from Wohler and Westside roads, and would have a low profile design to fit into the surrounding landscape. The Proposed Project would include the installation of low intensity, non-glaring lighting and security cameras. The building would include two classroom areas, each able to hold up to 40 occupants, restroom facilities, a small kitchen area, a small enclosed storage garage, an outdoor sink area, and a shaded outdoor seating area with picnic tables.	<b>Neg</b>	11/19/2013

2013101057	General Plan Amendment 2011-002, Rezone 2011-002, and Conditional Use Permit 2012-014 Salinas, City of Salinas--Monterey The proposal is to change the General Plan designation of three adjacent parcels located at 238, 250, and 256 Cherry Drive from "Residential - Low Density" to "Arterial Frontage", change the Zoning District designation from "Residential Low Density - Flood Overlay" (R-L-5.5 - F) to "Mixed Arterial Frontage - Flood Overlay" (MAF - F), and authorize the conversion of two existing commercial buildings into vehicle repair and vehicle related retail sales and services on the above three parcels and 245, 251, and 253 East Market Street.	<b>Neg</b>	11/19/2013
2013101059	G#13-0001 Imperial County --Imperial The Imperial Wells Geothermal Exploration Project consists of drilling and testing of up to six geothermal exploration wells from up to three (3) well pads located on private lands. Surface disturbance would total less than 26 acres. Additionally, a Compact Disc containing the Salton Sea Master EIR and Hudson Ranch Power II #G10-002/Simbol II CUP #12-0005 FEIR is also provided as back up information reference on the attached IS.	<b>Neg</b>	11/19/2013
2013102041	PA-1300091 Use Permit Application for the Expansion of an Existing Truck Terminal Facility San Joaquin County Lodi--San Joaquin Use Permit application to expand an existing truck terminal and parking operation from 80 trucks to 110 trucks and a heavy equipment storage and materials area. The project will include the use of an existing 280 sf commercial coach to be utilized as an office. The project site is located on south side of SR 12, 4,000 feet east of Thornton Road, North of Lodi.	<b>Neg</b>	11/19/2013
2013102042	PA-1300159 San Joaquin County Lodi--San Joaquin A Use Permit application to construct a winery and olive mill facility in two phases over five years. The proposed winery will have twelve marketing events per year with a maximum attendance of 125 people per marketing event. No amplified music is proposed at the marketing events. Phase 1 includes the construction of a 8,500 sf multipurpose building to include a wine tasting room, bottling and crushing facility, commercial kitchen, and olive mill and grape crushing facility and an 800 sf crushing pad. Phase 2 includes the construction of a 1,500 sf storage building. A sign modification is also being requested pursuant to Development Title Section 9-1710.4(j) to modify the maximum permitted sf per sign face for two signs.	<b>Neg</b>	11/19/2013
1992083049	Final Supplemental to the Program Environmental Impact Report on Gravel Removal from the Lower Mad River, Humboldt County, California Humboldt County --Humboldt The project is limited to one encroachment to remove a remnant concrete bridge section approximately 5-feet by 50-feet with three embedded 60-inch diameter by 20-foot long metal culverts on Mad River.	<b>NOD</b>

2004061029	<p>Castlerock: Community Plan Amendment; General Plan Amendment; Rezone, Planned Development Permit; Site Development Permit; Vesting Tentative Map; Easement Vacat</p> <p>San Diego, City of San Diego--San Diego</p> <p>The Castlerock Project ("Project") includes two scenarios: the Annexation Scenario and the No Annexation Scenario. The Annexation Scenario includes the annexation of the Territory (as described in the EIR certified by the City of San Diego) from the City of San Diego to the city of Santee and Padre Dam Municipal Water District. The Annexation Scenario would result in the construction of a 430-unit residential development with 283 detached single-family residences and 147 single-family detached units clustered on larger lots (green sort units), approximately 4.0 acres (gross) of public parks, 0.64 acre (0.49 acre usable) of pocket parks, a multi-use trail, and public streets and private driveways on the Project site. The remaining pocket parks, a multi-use trail, and public street and private driveways on the Project site. The remaining 94.89 acres of the property would be preserved as Multi-Habitat Planning Area (MHPA) open space. Under the No Annexation Scenario, the site would remain in San Diego's jurisdiction and would result in the construction of a 422-unit residential development with 282 detached single-family residences, 140 single-family green court units, approximately 4.0 acres (3.0 acres usable) of public parks, 0.50 acre (0.39 acre usable) of pocket parks, a multi-use trail, and public streets and private driveways and 94.73 acres of MHPA open space. The site is located within the East Elliot Community Plan Area and within the Mission Trails Design District. The site is designated for residential use and is zoned RS-1-8.</p>	<b>NOD</b>	
2009121010	<p>City of Fullerton 2006-2014 Housing Element</p> <p>Fullerton, City of Fullerton--Orange</p> <p>An update to the Housing Element of the Fullerton Plan for the 2013-2021 planning period. The Housing Element is one of the seven required elements of the general plan (The Fullerton Plan), and is prepared in conformance with California Government Code Sections 65580-65589.8. It carries out the state law mandate that local governments adequately plan to meet the existing and projected housing needs of all economic segments and special needs groups within the community. The Housing Element policies are found in Part 2 Chapter 2 of the Fullerton Plan, and baseline data and analysis are found in Appendix H. It is the fifth cycle of Housing Element updates for the Southern California Association of Governments (SCAG) Region.</p>	<b>NOD</b>	
2011071031	<p>SDG&amp;E South Bay Substation Relocation Project</p> <p>Public Utilities Commission Chula Vista--San Diego</p> <p>The Proposed Project consists of the following major components: construction of a 230/69/12-kilovolt (kV) substation (Bay Boulevard Substation) in the City of Chula Vista; construction of a 230 kV loop-in, an approximately 1,000-foot-long underground interconnection and an approximately 300-foot-long overhead interconnection of the existing 230 kV tie-line, located east of the proposed Bay Boulevard Substation; relocation of six 69 kV transmission lines; a 138 kV extension of an approximately 3,800-foot underground and approximately 200-foot overhead span from one new steel cable pole to an existing steel lattice structure; and demolition of the existing 138/69 kV South Bay Substation.</p>	<b>NOD</b>

<b><u>Documents Received on Monday, October 21, 2013</u></b>			
2011091023	David's Tree Service Green Waste Recycling Project Stanton, City of Stanton--Orange Amendment to Precise Plan on Development PPD-754 to reduce the size of the previously approved building from a 6,000 square foot office and warehouse building to a smaller 1,500 square foot modular building for the property located at 10711 Dale Ave. The Planning Commission had determined that the previously proposed project would not have a significant effect on the environment and had previously prepared a Mitigated Negative Declaration in accordance with the California Environmental Quality Act (CEQA), Article Section 15070 et seq. Pursuant to CEQA Guidelines Section 15094, the applicable statute of limitations in court challenges on court challenges on the MND have passed without any irrigation. Hence, the MND is presumed valid.	<b>NOD</b>	
2013022020	Nylander Ranch Levee Repair, Humboldt County, CA Humboldt Bay Harbor Eureka--Humboldt The project is limited to one stream encroachment on Ryan Slough to repair an existing agricultural levee. The repair will occur along a 320-foot length of the levee, and will rebuild the levee to a 9-foot height and the original 50-foot width. The rebuilt will utilize rock rip-rap (670 cubic yards), filter fabric, and course river rock backfill (240 cubic yards) on the slough side to armor the bank from the incoming flows of Freshwater Creek just upstream of eroding levee.	<b>NOD</b>	
2013071063	Circle K Los Banos, City of Los Banos--Merced The project proposes a site plan for a 4,500 sf convenience store, 8 pump fuel station and a self-serve car wash on 1.69 acres. The proposed project would provide 34 parking spaces in accordance with the Los Banos Municipal Code. Additionally the project will provide landscaping throughout the project site and a 50% shade tree canopy in accordance with City requirements. The proposed project includes a request for a Conditional Use Permit to permit the off-sale of beer and wine on the premises.	<b>NOD</b>	
2013072070	Tourist Core Area Plan South Lake Tahoe, City of South Lake Tahoe--El Dorado The proposed project is an Area Plan for the Stateline/Ski Run area. The Tourist Core Area Plan would establish goals, policies and implementation strategies for providing specific land use guidance within the Area Plan boundary. The Tourist Core Area Plan would establish land use, zoning and design standards to replace the existing Stateline/Ski Run Community Plan. The new plan will serve as a mutual plan for the City and TRPA by providing direction for how the area should be regulated to achieve regional environmental and land use objectives.	<b>NOD</b>	
2013082059	Folsom Lake College: Rancho Cordova Center Los Rios Community College District Rancho Cordova--Sacramento The proposed project is expected to serve an enrolled student body of 4,836 students by 2017. This equates to 1,977 Full Time Equivalent Students (FTES). The 5.66-acre parcel is planned for three new permanent buildings with a provision for some future protable building expansion.	<b>NOD</b>

2013101061	<p>Pomona College 2013 Campus Master Plan Claremont, City of Claremont--Los Angeles</p> <p>The proposed 2013 Campus Master Plan (project) provides guidance in planning and developing the Pomona College campus. The project is supportive of the College's 2007 Strategic Plan, and would implement the 2007 Strategic Plan, over a period of 15 years from the date of City approval of the 2013 Campus Master Plan, through development of new, remodeled, and renovated buildings and land uses, while preserving and expanding landscape and open spaces. The project anticipates an increase in enrollment of 50 students, a net increase of 26 beds in student residences for up to 1,560 beds, and a net increase of 205,400 sf of on-campus buildings, which would bring the total campus sf to 2,055,400 sf.</p>	<b>NOP</b>	11/20/2013
2013101063	<p>Hollywood Cherokee Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The Applicant proposes to construct a four- to six-story, 225-unit residential apartment/condominium building (the Project) on a 1.14-acre site in the Hollywood Community of the City of Los Angeles (the Project Site). The Project consists of approximately 161,700 sf of new floor area and would replace an existing surface parking lot. A four-level parking garage would be located below the residential levels and would provide a total of 412 parking spaces. The Project would also include a residential lobby and leasing area, approximately 378 sf of ground-floor commercial space to serve Project residents and guests, a gym, a rooftop swimming pool, and landscaped courtyards.</p>	<b>NOP</b>	11/20/2013
2013101064	<p>Newport Beach General Plan Land Use Element Amendment Newport Beach, City of Newport Beach--Orange</p> <p>Note: Reference SCH# 2006011119</p> <p>The project is an amendment to the City of Newport Beach General Plan Land Use Element. The amendment is intended to shape future development within the City and involves the alteration, intensification, and redistribution of land uses in certain subareas of the City, including major areas such as Newport Center/Fashion Island, Newport Coast, and the Airport area near John Wayne Airport. The proposed land use map designation changes include increases and/or reductions in development capacity in these subareas. The Amendment will also include Land Use Element Policy revisions related to land use changes, in support of recent Neighborhood Revitalization efforts, and, as appropriate, updates/refinements to policies. Subsequent amendments the Newport Beach Coastal Land Use Plan (LUP), the Newport Coast Local Coastal Program (LCP), and Zoning Code and Map will be necessary to reflect the amendment to the General Plan.</p>	<b>NOP</b>	11/20/2013

	percolation test pits will be excavated between the Collier SRRA parking area and the right of way fence along southbound I-5. The drilling and excavation pits will provide the necessary data to determine the location of the proposed well and the location and the design of the proposed wastewater treatment system. The proposed activities will not acquire additional right of way and no work will take place within the floodplain. No tree removal is anticipated.		
2013108421	Trinity 3 Crib Wall Repair Caltrans #2 --Trinity Using State and Federal funds, Caltrans proposes a project to repair a crib wall on (SR) 3 in Trinity County approximately five miles south of Douglas City, at (PM) 26.1. The Project would repair an existing crib wall which is approximately 100 ft. long using rock slope protection, covered embankment in order to preserve the roadway. With end tapers, the completed RSP covered embankment, is estimated to be up to 180 ft. long. It is anticipated, the existing crib wall will be left in place. Construction of the project will require tree removal, repair of the existing roadway (which may include dig outs, overlay, and shoulder backing), reconstructing the embankment using imported fill and traffic control. The project would also include installation of a guardrail and alterations to a driveway tie in across the highway in order to improve drainage.	<b>NOE</b>	
2013108422	ADA Compliant---Walkway Along (SR) 99---Eastbound Caltrans #2 --Shasta This project will provide an ADA compliant walkway along eastbound side of (SR) 99, in the town of Shasta (Old Shasta). The new walkway will begin at the Intersection of (SR) 99 and Red Bluff Street and continue west, where it will tie into an existing pathway inside the Shasta State Historic Park boundaries.	<b>NOE</b>	
2013108423	Eleven Bridge(s) Maintenance Work Caltrans #2 --Shasta, Siskiyou, Tehama Caltrans proposes maintenance work on 11 bridges, covering Shasta, Siskiyou and Tehama counties. Wear and tear from traffic and the elements has severely damaged the bridges. The project will repair this damage and extend the useful life of these bridges.	<b>NOE</b>	
2013108424	Slope Stabilization Project---(SR) 96 Caltrans #2 --Siskiyou Caltrans proposes a slope stabilization project on (SR) 96 at post mile (PM) 33.2, 12 miles east of Happy Camp in Siskiyou County. Caltrans has developed a permanent restoration plan that will include cutting back the face of the slide to create a catchment basin. A new culvert will be installed approximately 100 ft. east of the slide area to catch roadway runoff. The previously approved Bunker Hill disposal site will be used to dispose the excess material generated by this project.	<b>NOE</b>	
2013108425	Shoulder Widening Project---(SR) 97 Caltrans #2 --Siskiyou Caltrans proposes a shoulder widening project on State Route (SR) 97 from (PM) 2.1 to 2.5, 3 miles northeast of the city of Weed in Siskiyou county. The project will improve operational efficiencies and increase safety by better accomodating left-turn movements.	<b>NOE</b>

	land uses, and the general pattern of future development over the long term within the City's planning area. The 2035 General Plan will contain written text with policy direction, as well as policy diagrams illustrating the location of future land uses, circulation systems, open space, and other features. Each Element will have goals, policies, and implementation programs that will guide land use and development decisions. Goals are a description of a future desired state. Policies are a decision-making guide. Implementation programs are proactive measures to be undertaken, as necessary, to achieve General Plan goals.		
1993011010	Walnut Hills Development Project Walnut, City of Walnut--Los Angeles CDFW is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code (#1600-2013-0029-R5) to the project applicant, Standard Pacific of Walnut Hills Inc., a Delaware Corporation, represented by Michael C. Battaglia. The project proposes to impact 0.41 acres of streambed, including 0.25 acres of permanent impact to wetland/riparian vegetation consisting of marsh, southern willow scrub, mulefat scrub, rural/disturbed, and ornamental/landscaped habitats and 0.16 acres of additional permanent impacts to non-riparian habitat described as unvegetated streambed, concrete inlets and outlets, and non-native grasses and mitigate with 0.75 acres of creation, restoration and/or enhancement. Impacts will take place due to maintenance within four storm water facilities of the Walnut Hills Development; Debris Basins No. 1 and No. 2 Detention Basin No. 1, and the Mitigation Area inlet/outlet structures. Maintenance activities will involve complete vegetation removal and as much sediment removal as necessary to restore the facilities to their original designed conditions followed by continued vegetation removal and the removal of accumulated sediment for the life of the Agreement. The mitigation required from impacts to the larger project involved, "Walnut Hills Development", was never reduced although the area of impacts was reduced. "The Walnut Hills Development" requiring mitigation is in-kind to the required mitigation for this project and is there for serving as mitigation for this current project and no additional mitigation is required.	<b>NOD</b>	
2008092051	Folsom South of U.S. Highway 50 Specific Plan Folsom, City of Folsom--Sacramento The Folsom Area Specific Plan Backbone Infrastructure Project consists of constructing backbone infrastructure for housing developments in the City of Folsom.	<b>NOD</b>	
2012122042	The 2013 Fisheries Restoration Grant Program Fish & Game #2 Goleta--Mendocino The Project is limited to installing 15 large woody debris (LWD) and boulder structures consisting of approximately 45 pieces of LWD within the lower 0.4 miles of Neefus Gulch to increase primary pool habitat.	<b>NOD</b>	
2013108302	Tidelands Use and Occupancy Permit to Star & Crescent Boat Company for Trash Enclosure on Navy Pier San Diego Unified Port District San Diego--San Diego The proposed project is a tidelands use and occupancy permit to Star and Crescent Boat Company for its use of an existing enclosure for trash, recycling	<b>NOE</b>

	and grease receptacles. The enclosure is an approximately 280 square foot area along the north side of the Building 11 on Navy Pier in the city of San Diego. No new development, construction, or increase in the size of the tenant's leasehold or the TUOP area is proposed or authorized as part of this TUOP.		
2013108303	Amendments to the FY 2009-2013 and FY 2014-2018 Capitol Improvement Programs San Diego Unified Port District San Diego, National City, Chula Vista, Imperial Beach, ...--San Diego The proposed project involves amendments to the District's FY 2009-2013 and FY 2014-2018 Capitol Improvement Program. CIP projects are currently budgeted within two programs: Amended FY 2009-2013 CIP and the FY 2014-2018 CIP. Individual projects are budgeted for multiple fiscal years within each of the five year programs. Excluding the completed projects, there are 18 projects funded in the FY 2009-2013 CIP, which will continue onto FY 2014 and beyond, and 11 new projects in the FY 2014-2018 CIP.	<b>NOE</b>	
2013108304	South Bay Pride Art and Music Festival San Diego Unified Port District Chula Vista--San Diego The proposed project is the South Bay Pride Art and Music Festival, which took place on Saturday, September 14, 2013. The District will provide event sponsorship and financial assistance for the event, a community art and music festival. The event took place at Chula Vista Bayfront Park and featured the following: a main stage area with live music entertainment throughout the day; a dance entertainment area; an Art of Pride in the park display; a children's garden; a wine and beer garden; and a variety of activities, vendors, and exhibitors. Parking was provided at the parking lot serving Chula Vista Bayfront Park. The event had an attendance of over 1,500 people.	<b>NOE</b>	
2013108305	Storefront Revisions at 158, 162, & 164 E. Main St. --- AZP No. 31 El Cajon, City of El Cajon--San Diego Exterior facade renovations of 158-164 E. Main St. The proposed project will result in the removal of the modern aluminum storefront system and the installation of new wood doors and framing that will recreate the original character of the building as recommended by Specific Plan No. 182.	<b>NOE</b>	
2013108306	PLU 70 Permanent Restoration (1600-213-0130-R2) Fish & Wildlife #2 --Plumas The project entails placing large rock slope protection at the bottom of the embankment with smaller rock slope protection up the slope to the roadway. The rock slope protection will be keyed into the toe of the embankment below the ordinary high water mark. The project extends 400 feet in length, 30 feet in height, and 12-16 feet thick along the existing embankment. A 5-foot paved shoulder and metal beam guardrail will also be included in the project.	<b>NOE</b>	
2013108307	Hagenridge Road Flood Mitigation; Streambed Alteration Agreement No. 1600-2013-0207-R2 Fish & Wildlife #2 Chico--Butte The project is limited to erosion repair and bank stabilization on portions of the south bank of Keefer Slough, as well as, the removal of vegetation and debris from within the middle of the channel to restore flood capacity. Approximately 85-feet of	<b>NOE</b>

	would necessitate an approximate 3.5-acre site that currently supports 366 parking spaces associated with Parking Lot C. Approximately 50 parking spaces would be created adjacent to the new building to serve staff and visitors. The areas surrounding the new Administration Building would be landscaped. Several administrative departments and services would be removed from the existing Classroom/Laboratory/Administration Building (CLA Building) and be relocated into the new building. Several other administrative service functions located throughout campus would also be relocated into this new building. The existing portions of the CLA Building that would be vacated would be closed. The project does not involve demolition of any structures or facilities.		
2013101070	Magnolia Street Bridge Preventative Maintenance Project Huntington Beach, City of Huntington Beach, Newport Beach--Orange MND No. 13-007 analyzes the potential environmental impacts associated with a proposal to perform maintenance activities on the existing Magnolia Street bridge that are intended to restore the integrity of its original design.	<b>MND</b>	11/22/2013
2013101073	Buena Vista Creek Enhancement Project Vista, City of Vista--San Diego The City's Buena Vista Creek (BVC) Enhancement Project is being proposed to provide restoration to a section of BVC, including the provision of a nature trail along the restored creek channel. Specifically, the 2,000-linear-foot site (approximately 1.44 acres) of the proposed project is located entirely within City-owned Brengle Terrace Park at 1200 Vale Terrace Drive, immediately north of Vale Terrace Drive, between Ponderosa Drive and Vale Terrace Place. Project plans include removing non-native trees stumps and an existing pedestrian bridge structure, upgrading or replacing two other pedestrian bridges, installing an Americans with Disabilities Act (ADA)-compliant pedestrian trail, designing and constructing permanent water quality best management practices (BMPs), revegetating riparian and upland areas with native plants, and providing finished grading, as necessary, to support the proposed restoration of this section of BVC.	<b>MND</b>	11/22/2013
2013101074	Monterey Place San Luis Obispo, City of San Luis Obispo--San Luis Obispo The proposed project includes several components with upper level residential units, commercial floor space with restaurant pad, and restoration and adaptive reuse of the Leitcher building into a bed and breakfast. There are five buildings proposed for site development (Buildings A-E). Including both phases, there are 23 residential units proposed which average 1,350 sf in size. 20 units are 2-bedrooms and three units are 1-bedroom units including one unit designated "affordable". The total sf of floor area in the project for residential units is 30,069 sf.	<b>MND</b>	11/25/2013
2013101075	San Joaquin River Bridge Scour and Seismic Retrofit Caltrans #6 Fresno--Fresno, Madera Caltrans proposes scour and seismic retrofit to the old SR 41 San Joaquin River Bridge (Lane's Bridge) (No. 42-0112) in Fresno and Madera Counties. The project would also upgrade the bridge railings on this bridge and on the San Joaquin River Overflow Bridge (No. 41-0040) immediately to the north on the old highway. This project would not acquire any new right-of-way or relocate any utilities. No	<b>MND</b>	11/25/2013

	construction easements are expected to be needed. Work on the bridge piers would involve work in the San Joaquin River bed.		
2013102044	Carnelian Woods 500,000 Gallon Water Tanks and Access Road Project North Tahoe Public Utility District --Placer Currently a steep and unimproved access road provides the only access to the Carnelian Woods water tanks. The upper portion consists of a steep (15%~grade), unpaved access road that is partially located within a stream environment zone (SEZ). The project consists of realigning approximately 750 feet of the upper portion of the access road to a less steep, paved road 650 feet long with implemented best management practices. The lower portion of the road will receive asphalt grindings and implemented best management practices. The purpose of the project is to reduce erosion, sediment flow, and surface water runoff.	<b>MND</b>	11/22/2013
2013102045	Kingswood West 500,000 Gallon Water Tank Access Road Project North Tahoe Public Utility District --Placer The Kingswood West 500,000 Gallon Tank Access Road Project is a water tank access road realignment project. Currently a very steep (22%~grade), unpaved access road is the only access to the Kingswood West water tank and other utilities such as cell phone towers. This project will realign the existing 285 foot long, eroding tank access road to a less steep, paved road 350 feet long with implemented best management practices.	<b>MND</b>	11/22/2013
2013101071	Wright Solar Park Merced County --Merced Wright Solar Park, LLC (applicant) proposes to develop, own, and operate a 200-MW alternating current ground-mounted solar PV power plant located on leased and purchased agricultural lands in unincorporated Merced County, CA. Project components would include access roads, solar modules, tracker components, direct current to AC power inverters, medium voltage transformers, a medium voltage collection system, a project substation, and an interconnection switching station. In addition, the applicant proposes to construct a battery energy storage system as part of the project to aid in shaping and controlling the timing of energy production for the electrical grid. The applicant has files a CUP application with Merced County (CUP App. No. CUP12-017) for the project. The energy generated by the project could be sold to public utilities, municipal utilities, or large private consumers of power. The power generated by the project would be interconnected to existing PG&E power grid infrastructure for delivery to the purchaser of the power. The proposed project would have an operational lifespan of approximately 30-35 years.	<b>NOP</b>	11/22/2013

The larger project extends between Los Vaqueros Reservoir and the City of Fremont. The assessment and repair will require a section of the pipeline to be excavated and trenched at two separate site locations.	<b>NOE</b>	
2013108329	Morningstar Culvert Headwall Fish & Wildlife #4 --Mariposa The project includes the construction of a concrete headwall around an existing culvert, to prevent additional erosion around the inlet of the culvert. Approximately 1 cubic yard of soil will be excavated near the inlet of an existing 36-inch culvert in order to key in the forms for the new head wall. The wooden forms will then be installed for the headwall, which will extend no more than 2 feet from either side of the end of the culvert. Concrete will then be poured into the forms and allowed to set. Once set, the forms will be removed and the area will be backfilled as necessary. All work within the stream will occur during naturally dry conditions. All construction equipment will be operated from the existing road surface. No trees will be removed.	<b>NOE</b>	
2013108330	Amendment #1 to Agreement No. 2012-0187-R4; Steelhead Monitoring Plan and Chinook Salmon Collections and Transportation Caltrans #6 --Fresno, Madera, Stanislaus, Merced The California Department of Fish and Wildlife is issuing amendment #1 for the Streambed Alteration Agreement issued for the Steelhead Monitoring Plan and Chinook Salmon Collections and Transportation Project to the Permittee, the California Department of Fish and Wildlife. The Amendment is limited to the following changes in study activities.	<b>NOE</b>

2011022043	General Plan and Energy and Conservation Action Strategy Vacaville, City of Vacaville--Solano This DEIR provides an assessment of the proposed City of Vacaville General Plan, published as a Draft for Public Review concurrently with this DEIR on October 25, 2013. The proposed General Plan replaces the City's existing General Plan, which was originally adopted in August 1990 and amended through 2013. The proposed General Plan is intended to guide development and conservation in the city through 2035. This DEIR also assesses the proposed Vacaville Energy and Conservation Action Strategy (ECAS). The proposed ECAS outlines strategies to reduce GHGE in compliance with the 2006 Global Warming Solutions Act.	<b>EIR</b>	12/09/2013
2013084002	South Farallon Islands Invasive House Mouse Eradication Project: Draft Environmental Impact Statement U.S. Fish and Wildlife Service --San Francisco The U.S. Fish and Wildlife Service is proposing to eradicate introduced, invasive house mice from the South Farallon Islands within the Farallon National Wildlife Refuge, California. Eradicating invasive house mice is expected to benefit native seabirds, plants, amphibians, and terrestrial invertebrates and will help restore natural ecosystem processes on the islands. Eradicating house mice would eliminate that last remaining invasive vertebrate species on the Refuge, enhancing the recovery of sensitive seabird populations on the islands. The South Farallon	<b>EIS</b>	12/09/2013

2012031013	St. Michael's Abbey Project Orange County --Orange  The Project requests a Use Permit(s) and Site Development Permit to allow for development of St. Michael's Abbey Project. The Project includes development of a new Monastery Church, a Monastery School and associated recreational facilities, as well as a Convent, Guest Cottages, Chapel, and Agricultural/Maintenance buildings. The main buildings would be clustered in the central portion of the site and would preserve approximately 68.7 acres (55 percent of the site) in undisturbed open space, with an additional 37.6 acres (30.4 percent of the site) of green space areas, including agricultural fields, athletic fields, landscaped areas, water quality features, and gardens. The Monastery Church would serve as the home of the Norbertine Fathers of Orange, accommodating up to 85 Fathers and up to 12 nuns. The Monastery School would accommodate up to 100 students, who would reside onsite during the school week.	<b>FIN</b>	
2012122038	Level II Infill Correctional Facilities Project Corrections and Rehabilitation, Department of Chino, Folsom, Vacaville, Lone, San Diego-- FYI Final 1 CD 1 HC  The proposed project would involve the development of a total of three correctional infill housing facilities that would be placed at any of five potential sites within seven existing CDCR prison properties in San Diego County and the Cities of Chino, Lone, Folsom, and Vacaville. Either three single (792-bed) housing facilities would be constructed at three potential infill prison sites, or CDCR would construct one single housing facility at one potential infill prison site and a double (1584-bed) housing facility at a second potential infill prison site. In total, the proposed project would involve the construction of a total of 2,376 infill housing units (beds) and associated accessory uses. The proposed correctional facilities would operate 24 hours a day, year-round, with three 8-hour shifts (watches).	<b>FIN</b>	
2013094002	Twenty-Nine Palms Utility Easement Project Bureau of Indian Affairs Twentynine Palms--San Bernardino Note: FONSI / EA  The proposed easement is located on the northern portion of the Tribe's 160-acre Reservation, south of the City of Twentynine Palms. The main portion of the proposed utility easement would be located across the Reservation from east to west, and would be located approximately 30 to 40 feet south of the northern Reservation boundary. The right-of-way would include buried utilities including electricity, natural gas and telecommunications. The Tribe has consented to the development of the easement on Tribal lands in order to provide an option to supply utilities to the Reservation.	<b>FON</b>	11/25/2013

2013084006	Morongo Outdoor Entertainment Bureau of Indian Affairs Banning--Riverside Garson Entertainment Group proposes a music and events venue located on the reservation of the Morongo Band of Mission Indians, west of Cabazon, CA. The project proposes a main, open amphitheater with seating for a 15,000-18,000 persons, a tent of 80,000 sf with a capacity of 10,000 persons, a Beach Club with a capacity of 2,500 persons and a Forest venue which would feature a heavily landscaped area with small performance areas for approximately 500 persons. All of the venues can operate simultaneously in a festival setting, however, it is anticipated that the Main Amphitheater, Beach Club of Tent venue would primarily be used. The Beach Club venue may be operated on a daily basis.	<b>JD</b>	11/25/2013
2013101077	Hunsaker PMR 11-001 Surface Mining Permit and Reclamation Plan Amendment Application Tulare County --Tulare The applicant is applying for Surface Mining Permit and Reclamation Plan Amendment No. PMR 11-001 to amend the existing surface mining operation (PMR 96-001), to add portable rock crushing and screening equipment for processing granite and recycled asphalt, a truck scale, a parking area, an overhead spray bar, and allow the stock piling of recycle concrete and asphalt for crushing, to be located within an existing surface mine area located west of the intersection of Drive 152 and Johnson Drive, approximately 3.5 miles northeast of the East Orsi.	<b>MND</b>	11/25/2013
2013101078	Greenstreet Center Mission Viejo, City of Mission Viejo--Orange The project proposes to demolish the two existing buildings occupied by the Mountain View Church and other site improvements to develop a two-level 17,703 sf commercial use that includes three wood-frames, single-story multi-tenant retail buildings on an elevated podium and parking. Parking and an auto spa will be on the lower level. 99 parking spaces, including 34 surface parking on the elevated podium and 65 parking spaces in the lower level are proposed. The retail space includes a mix of retail services, professional offices and eating and drinking establishments along with an auto spa. New landscaping will be installed along the perimeter of the site, throughout the plaza area of the buildings and the existing slope along the east project boundary. Ingress and egress is at the northeast end of the site at Avery Parkway. Site access is also provided by a shared right-turn in right-turn out driveway with the approved Hampton Inn & Suites project at Marguerite Parkway. A new retaining wall to replace the existing wall will be constructed at the toe of the existing slope.	<b>MND</b>	11/25/2013

2010081061	Solid Waste Integrated Resources Plan (SWIRP) Los Angeles, City of Los Angeles, City of--Los Angeles Note: Review per lead  The Solid Waste Integrated Resources Plan (SWIRP) is a long-range master plan for solid waste management in the City of Los Angeles (City). SWIRP proposes an approach for the City to achieve a goal of diverting 70 percent of the solid waste from landfills by 2013 and 90 percent diversion by 2025. These targeted diversion rates would be implemented through an enhancement of existing policies and programs, implementation of new policies and programs, and the development of future facilities to meet the City's recycling and solid waste infrastructure needs over a 20-year planning period. It is assumed that the facilities would be within a 100-mile radius of the City. Specific locations for these facilities have not been identified at this time; rather SWIRP notes the number and type of facilities that would be required over the next 20 year planning period.	<b>EIR</b>	12/20/2013

	Road, to Morro Creek.		
2013101085	ENV-2013-2119-MND (Tesla Motors) Los Angeles, City of Los Angeles, City of--Los Angeles Tenant improvements associated with the establishment, use, and maintenance of a proposed, approximately 30,000 sf, automotive service/repair center for electric vehicles that will include incidental sales of vehicles. The center will operate from 8:00 a.m. to 6:00 p.m. Monday through Friday, from 9:00 am to 5:00 pm on Saturday, and from 11:00 am to 5:00 pm on Sunday. The requested entitlement does not involve the addition of any floor area. The establishment, Tesla Motors, is in request of a CUP its location within 500 feet of a R zone and to allow the construction of two new bay doors that face within 100 feet of the R Zone and a Zone Variance to allow 59 parking in lieu of 61 spaces required.	<b>MND</b>	11/26/2013
2013101086	Temescal Creek - Foster Road Storm Drain, Stage 1 Riverside County Flood Control and Water Conservation El Cerrito--Riverside Construction, operation and maintenance of an underground storm drain system comprised of approximately 2,000 lineal feet of reinforced concrete pipe ranging in size from 30 inches to 72 inches in diameter. The concrete outlet structure is an impact type energy dissipater and will be located in an area of Temescal Creek that will be widened to create a "cove" area. The proposed storm drain system, once completed, will provide substantial flood protection to existing development at the intersection of Foster Road and Temescal Canyon Road.	<b>MND</b>	11/26/2013
2013101088	Sphere of Influence Establishment for CSA 120 (LAFCO 3157) San Bernardino County Local Agency Formation Commission Rialto, Rancho Cucamonga, Fontana, San Bernardino--San Bernardino Within each county local agency formation commissions are assigned the responsibility for designating a "Sphere of Influence" for government agencies under its purview that provide services to an area. The San Bernardino Local Agency Formation Commission (LAFCO) is considering the establishment of a Sphere of Influence (SOI) for County Service Area (CSA) 120. CSA 120 was formed under LAFCO Resolution No. 3056, effective July 1, 2009. CSA 120 is a single purpose Board-governed (San Bernardino County Board of Supervisors) Special District that performs open space and habitat management services. Administrative functions for CSA 120 are performed through the San Bernardino County Special Districts Dept. Open Space and Habitat Conservation management services are the only authorized function provided by CSA 120. The range of services includes acquisition, preservation, maintenance and operation of land to protect unique, sensitive, threatened, or endangered species, or historically significant properties.	<b>MND</b>	11/26/2013
2013101091	North Fremont Specific Plan and City Code and Zoning Map Amendments Monterey, City of Monterey--Monterey The project consists of the North Fremont Specific Plan and associated zoning map amendments (hereinafter, "project"). The North Fremont Specific Plan (Specific Plan) serves as a guide for future development within the planning area. The Specific Plan is a unique and effective tool for implementing General Plan Goals, Policies, and Programs. The key components of the Specific Plan include land use, development/design standards and guidelines, circulation, parking, and	<b>MND</b>	11/26/2013

	streetscape, infrastructure, and financing and implementation.		
2013101092	Millerton Road Widening Project Fresno County --Fresno The proposed Millerton Road Widening Project would reconstruct a 4.7 mile stretch of Millerton Road from a two-lane rural roadway to a four-lane arterial roadway with four 12-foot-wide travel lanes, two 6-foot-wide paved shoulders that would function as bike lanes, and a 4-foot-wide treated dirt shoulders. A 16-foot-wide median would separate the eastbound and westbound traffic. Implementation of the Millerton Road Widening Project would require expansion of the existing right-of-way from approximately 60 feet wide to approximately 106 feet wide (53 feet on either side of the roadway centerline, except where additional width is necessary for cut and fill slopes). The proposed project would be located east of the town of Friant, just south of Millerton Lake, in Fresno County. The expanded roadway would generally follow the centerline of the existing roadway from North Fork Road to just past Table Mountain Road.	<b>MND</b>	11/26/2013
2013102054	Silva Ranch Tentative Parcel Map (TPM13-0003) Butte County Biggs--Butte The applicant is proposing a Tentative Parcel Map to subdivide 69.6 acres into two parcels of 37.9 acres (Parcel 1) and 31.7 acres (Parcel 2). Subdivision of the project site would create one additional developable lot situated in the AG-20 zone district. The project site has a General Plan land use designation of AG (Agriculture), and is zoned AG-20 (Agriculture - 20 acre).	<b>MND</b>	11/26/2013
2013102056	The Nueva School 2012 Master Plan Update Hillsborough, City of San Mateo--San Mateo The main components of the 2012 Master Plan Update Project are requests for an increase in enrollment from 400 students to 500 students and a net total of 23,240 sf of additional building space to include a new middle school building, a new Environmental Center, the replacement of an existing covered sports court, cafe expansion, and a new multi-purpose building and other smaller improvements. The proposal would be implemented in four phases over a projected fifteen year time period.	<b>MND</b>	11/26/2013
2008062030	South Sacramento Habitat Conservation Plan (SSHCP) Sacramento County Elk Grove, Rancho Cordova, Galt--Sacramento The proposed SSHCP is a regional approach to conserving species and addressing issues related to urban development, habitat conservation, open space protection and agricultural protection. The SSHCP would authorize the County, cities of Elk Grove, Rancho Cordova and Galt, and two public utility agencies to issue permits allowing landowners to engage in specific development activities that could result in incidental takes of listed species.	<b>NOP</b>	11/26/2013
2013101087	Anaheim Canyon Specific Plan Anaheim, City of Anaheim--Orange The proposed ACSP would update and consolidate two specific plans (the Northeast Area Specific Plan and the PacificCenter Anaheim Specific Plan) and the Scenic Corridor Overlay Zone, as it relates to Anaheim Canyon, into one new specific plan. If all of the properties within the Anaheim Canyon were to be	<b>NOP</b>	11/26/2013

2012072025	General Plan Biggs, City of Biggs--Butte The proposed project consists of adoption of a new General Plan for the City of Biggs. The proposed General Plan consists of nine elements. Each General Plan element contains: a brief discussion of the legal requirements; goals, policies and actions to address required topics; and, narrative text as necessary to provide understanding of the issues addressed. Goals state an ideal resolution of the issue under consideration. The General Plan has four main purposes; 1) To enable the Planning Commission and City Council to reach agreement on long-range development policies; 2) To provide a basis for judging whether specific private development proposals and public projects are in harmony with City policies; 3) To allow other public agencies and private developers to design projects which are consistent with City policies, or to seek changes in those policies through the process of amending the General Plan; and 4) Provide an agreement between the City and outside agencies for development in unincorporated portions of the Planning Area.	<b>EIR</b>	12/12/2013

	include dump trucks and excavators.		
2013102058	Alternative School Campus Expansion Project Sequoia Union High School District East Palo Alto--San Mateo The District plans to expand its existing alternative school campus at 1050 Myrtle Street in East Palo Alto, CA 94303 by adding up to 12 classrooms capable of supporting up to approximately 150 students, one athletic court, paved parking areas, and a potential future gymnasium to an adjacent property, 980 Myrtle Street. The project site, 980 Myrtle Street, is an approximately 0.9 acre parcel of land that borders the existing alternative school campus. The site is bordered on the north, south, and east by existing school campuses; residences abut the site to the west. Historical land uses at 980 Myrtle Street have resulted in soil contamination (primarily metals and organochlorine pesticides such as DDT from agricultural operations. The District has entered into a Voluntary Cleanup Agreement with the DTSC to investigate and/or remediate hazardous substances at the site.	<b>MND</b>	12/02/2013
2013101097	EIR RGF 07-13; Redwood Cluster Solar Project by 61LK 8ME, LLC Kern County Bakersfield, Arvin, Lamont--Kern The Redwood Cluster Solar Project is a proposal to construct and operate six solar photovoltaic (PV) power generating facilities that would generate a combined 135 megawatts (MW) of electricity, on six sites totaling 633 acres in unincorporated Kern County, California. The project sites are within the jurisdiction boundaries of the Kern County General Plan (KCGP) and the Metropolitan Bakersfield General Plan (MBGP).	<b>NOP</b>	12/02/2013
2013101099	2013-2021 Housing Element Update Calexico, City of Calexico--Imperial The Housing Element is one of the seven state-mandated elements of the City's General Plan, and must be updated pursuant to CA Government Code Section 65588. The proposed Housing Element replaces the 2008-2014 Housing Element, adopted by the City Council on April 6, 2010. The remaining elements of the General Plan were adopted on May 1, 2007.	<b>Neg</b>	12/02/2013
2013101100	Climate Action Plan Morro Bay, City of Morro Bay--San Luis Obispo The CAP is a policy document that sets forth policies and programs (collectively referred to as "CAP measures" or "climate action measures") and implementation actions to help the City of Morro Bay reduce its greenhouse gas (GHG) emissions and prepare for the anticipated effects of climate change. CEQA requires the analysis of physical impacts on the environment. As such, the impact analysis focuses on adoption of the CAP and implementation of the climate action measures and actions and whether they would result in physical environmental impacts. It should be noted that the CAP does not propose any land use or zoning changes, nor does it include any site-specific development. Further, any future site-specific discretionary projects would be subject to additional environmental review pursuant to CEQA.	<b>Neg</b>	12/02/2013

2012052030	Tesoro Amorco Marine Oil Terminal Lease Consideration California State Lands Commission Martinez--Contra Costa Tesoro Refining and Marketing Company (Tesoro), a wholly owned subsidiary of Tesoro Petroleum Corporation, leases 16.6 acres of sovereign public land from the CA State Lands Commission for the Tesoro Amorco Marine Oil Terminal (Amorco MOT) (PRC 3453.1). The Applicant is seeking approval from the CSLC for a new 30-year lease. The MOT exists and is currently operating, and no changes to the facilities or operations are proposed; however, issuance of a new 30-year lease will require the preparation of an EIR because, among other potentially significant impacts, there is an inherent risk of spills at any facility where petroleum product is routinely transferred over water.	<b>EIR</b>	12/16/2013
2013011012	Griffith Park Crystal Springs New Baseball Fields Los Angeles, City of Los Angeles, City of--Los Angeles The City of Los Angeles is proposing to construct two new youth baseball fields within the existing Crystal Springs Picnic Area of Griffith Park. The City is also considering two alternative locations for the project: one also within the picnic area and the second in North Atwater Park, across the Golden State (I-5) Freeway and the Los Angeles River.	<b>EIR</b>	12/16/2013
2013062049	Single Use Carryout Bag Reduction Ordinance for Marin County Cities and Towns Marin County --Marin The proposed Single Use Carryout Bag Reduction Ordinance would regulate the use of paper and plastic single use carryout bags within the geographical limits of all or some of the cities located in Marin County. The intent of the ordinance is to reduce the environmental impacts related to the use of single use carryout bags, and to promote a shift toward the use of reusable bags. The ordinance would (1) prohibit the free distribution of single use carryout paper and plastic bags and (2) require retail establishments to charge customers for recycled paper bags and, generally, reusable bags, at the point of sale.	<b>EIR</b>	12/16/2013

2001092014	<p>Capitol Expressway Light Rail Project Santa Clara Valley Transportation Authority San Jose--Santa Clara Light rail extension along Capitol Expressway from Alum Rock Station to Eastridge Transit Center. Light rail will operate primarily in the median of Capitol Expressway within exclusive and semi-exclusive rights-of-way. Property acquisition for the project will be minimized through the removal of two HOV lanes on Capitol Expressway. The alignment will include an elevated section that will extend north of Capitol Avenue to south of Story Road and an elevated crossing of Tully Road. New light rail stations will be located at Story Road (aerial) and Eastridge Transit Center (at-grade). At Eastridge Mall, the Park-and-Ride lot will be expanded to accommodate increased demand. The project will also include traction power substations at Ocala Avenue and Eastridge Transit Center.</p>	<b>MND</b>	12/02/2013
2002021127	<p>Marymount College Facilities Expansion Project Bachelor of Arts Degree Program and Athletic Field Alternatives Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles Note: Refer to MND received 12/02/13.</p> <p>The proposed project involves a reconfiguration of an approved athletic field on the Marymount College campus, and amendments to certain conditions of the approved (2010) conditional use permit. The proposed project involves a revision to the originally-approved grading plan to allow export of 19,225 cubic yards of earth material; the project was originally approved as an on-site balanced grading project. Other changes include synthetic rather than natural turf; deletion of four tennis courts from the approved plan in favor of a larger soccer field; two additional events allowed (for three total), with amplified sound; and expansion of an existing detention basin located southeast of the field just north of Palos Verdes Drive East in order to accommodate runoff from the proposed athletic field.</p>	<b>MND</b>	
2013101102	<p>Sugarberry Project Murrieta, City of Murrieta--Riverside The Sugarberry Project proposes to construct 54 single family detached condominium units on 7 acres within an approximately 20-acre property located in the City of Murrieta. The project site is zoned as single family residential and is consistent with General Plan land use designations except for minimum lot sizes which is necessary to comply with the County's MSHCP. The project will also include two recreation areas, one active (4,075 sf) and one passive (approximately 1,000 sf). The primary access point for the project will be along Sugarberry Lane aligned across from Arboretum Way. There will be a secondary emergency access at the future Lincoln Avenue. "Emergency Access Only" signage will be posted at this access point. Both access points will have gated security entrances and the project will have private streets that will eliminate the need for City street upkeep. Utility infrastructure exists in the adjacent roadway right-of-way or in the vicinity and available for extension to the proposed project site. Water services would be provided by Rancho CA Water District; sewer service would be provided by the Eastern Municipal Water District. The site is located within the Murrieta Valley School District and will receive public services from the City of Murrieta.</p>	<b>MND</b>	12/02/2013

2013102060	Seasonal Diversion, South Fork Stanislaus River Public Health, Department of --Tuolumne The Del Oro Water Company, Strawberry Water District has faced several years of low water levels in Herring Creek, the primary source supply for water. When flows in the creek are insufficient to convey to the treatment plant, Del Oro has to pump from the South Fork Stanislaus River to meet drinking water and fire flow requirements for the community. A diesel pump is placed above the river. The pumping is carried out between July-October in years when normal water diversions from Herring Creek are limited. Previous seasonal diversions were carried out in 2008 and 2012 and coordinated with the Tuolumne Utilities District, PG&E, Caltrans, and CDFW.	<b>MND</b>	12/02/2013
2013102061	Treatment Plant Upgrade Project Sausalito-Marín City Sanitation District Sausalito--Marín The Sausalito-Marín City Sanitary District (SMCSD), in coordination with the National Park Service, proposes to upgrade the SMCSD's wastewater treatment facility, thereby improving the quality of water discharges and improving the SMCSD's ability to prevent sanitary sewage spills into the San Francisco Bay. The project would construct a headworks primary treatment upgrade, increased secondary treatment capacity and upgraded tertiary treatment system. The headworks component would be added to the existing primary treatment system to remove grit and other debris before the effluent is treated by downstream processes. The secondary treatment upgrades would reduce possible wet-weather related by-passes by refurbishing the treatment towers/pumps which would regulate flow storage to minimize peak flow rates. The tertiary upgrades would replace and increase capacity of the effluent sand filters.	<b>MND</b>	12/02/2013
2013102066	Silveira Residential Subdivision (TM 13-04) Gilroy, City of Gilroy--Santa Clara The proposed project is a subdivision on 15.5 acres, for the creation of 55 single-family residential lots and related utilities infrastructure, a two-acre detention/open space parcel, public streets with access to Day Road, a secondary emergency vehicle access route from the site to Cougar Court, and off-site widening improvements within the public right-of-way to both Day Road and Cougar Court. The proposed tentative map is not a vesting tentative map, and site-specific development is not currently proposed at this time. Architectural and Site Review will be required of the project builder(s) when specific development of the project site is proposed.	<b>MND</b>	12/02/2013
2013102063	Humboldt Regional Transportation Plan Update - 2013/14 Humboldt County Association of Governments --Humboldt The RTP Update 2013/14, also known as "VROOM," is a long-range planning document. It provides a course for future transportation investment in the region, with the goal of building and maintaining a multi-modal, safe and efficient, balanced transportation system. VROOM covers: roadway, pedestrian, and bicycle systems (in the Complete Streets Element), and Public Transportation, Aviation, Goods Movement, and Finance Elements. VROOM also covers three additional (not required) elements: Trails, Tribal Transportation, and Emergency Transportation.	<b>NOP</b>	12/02/2013

<b><u>Documents Received on Thursday, October 31, 2013</u></b>			
2013101103	C-4 McCoy Medical Offices and ICE Facility Santa Maria, City of Santa Maria--Santa Barbara An amendment to the General Plan (Land Use Policy Map) from 1.93 acres of LI and 1.02 acres of HCM to 2.95 acres of CPO and a zone change from 1.93 acres of PD/M-1 and 1.02 acres of PD/CM to 2.95 acres of PD/CPO. A Planned Development Permit for C-4 McCoy Medical Offices to construct two 8,250 sf one-story medical buildings with an associated 103 stall parking lot, and landscape. A Planned Development Permit for C-4 McCoy ICE Facility to construct a 12,700 sf one-story building to house a US Immigration and Customs Enforcement facility (ICE) with an associated 50 stall parking lot.	<b>Neg</b>	12/02/2013
2013101104	12th Street Upgrade Paso Robles, City of Paso Robles--San Luis Obispo 12th Street will be upgraded to park-like street with traffic calming features, bicycle lanes, natural drainage features, multiple shade trees, and storyboards explaining the design for the public. The project also includes upgrading an underground waterline in 12th Street from a 6 inch line to an 8 inch line.	<b>Neg</b>	12/02/2013
2013101105	General Plan Amendment/Zone Change 13-0251 Bakersfield, City of Bakersfield--Kern The Project proposes a General Plan Amendment changing the land use from LR (Low Density Residential) and HMR (High Medium Density Residential) to OC and GC and a zone change from R-1 to C-O and C-2. The proposal will allow for development of an office/retail commercial complex on 56.66 acres in northeast Bakersfield.	<b>Neg</b>	12/02/2013
2013101106	General Plan Map Amendment 2009-357 and Zone Change 2009-355 Big Bear Lake, City of Big Bear Lake--San Bernardino The applications propose to change the General Plan designation of two adjacent properties at 39832 and 39862 Big Bear Boulevard from Commercial Visitor (CV) to Single Family Residential (SFR) and the zoning from Commercial Visitor (C-3) to Single Family Residential (R-1-7,200). A portion of the property at 39862 Big Bear Boulevard is currently zoned as R-1-7,200. The vacant properties total approximately 108,851 sf or 2.5 acres. No other project or development is proposed, other than a request to re-zone the site.	<b>Neg</b>	12/02/2013
2013102062	170 Belvedere Terrace Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of an Administrative Use Permit for use determination to allow a single-family home in a CC zone, a Slope Modification Permit for construction within 20 feet of a 30 percent slope, and a Design Permit to construct a 2,704 square house in the CC district. The proposed single-family home is two-stories and approximately 20 feet in height. The structural sf includes three bedrooms, one with a loft, and an attached two-car garage.	<b>Neg</b>	12/02/2013

2013108419	Chain-On Area Upgrade Caltrans #2 --Siskiyou Caltrans proposes to upgrade an area currently used as a chain-on area between (PM) 4506-47.0/62.8 on (I-5) just north of the City of Yreka in Siskiyou County. The work will include adding an additional 12' wide x 3400' long paved shoulder area with ramp lighting. Work also to include removal of an existing chain control sign at PM 45.6.	<b>NOE</b>	
2013108426	Dominguez Gap Spreading Grounds Berm and Spillway Repair Fish & Wildlife #5 Long Beach--Los Angeles CDFW is proposing to execute a Lake and Streambed Alteration Agreement No. 1600-2013-0214-R5. The Applicant proposes to the repair and rehabilitation of an existing berm and spillway, as well as constructing a permanent maintenance invert access ramp for vehicular access to the pump station forebay, all located within the Los Angeles Flood Control District-owned Dominguez Gap Wetlands facility in Long Beach. The repairs to the berm and spillway structure will restore the intended flow path of the engineered wetlands and result in more flows being directed from the upper wetlands area toward the lower wetlands area.	<b>NOE</b>	
2013108427	Winton Training Burn Forestry and Fire Protection, Department of --Calaveras Vegetation consists of a mixed conifer stand over widely scattered brush. The project area had the majority of the understory removed in 2011 under a Fuels Reduction Emergency. The project area is approximately 115 acres in size. The proposed project will consist of a prescribed burn to provide live fire training. The prescribed burn is also intended to maintain the fuel break by removing the forest litter which has accumulated since the 2011 project. Perimeter fire control lines will consist of existing roads, existing roads, existing dozer line, and new dozer line. Interior lines will be constructed by hand crews using scraping tools.	<b>NOE</b>
