STATE CLEARINGHOUSE

**SUMMARY
OF
POSTINGS**

October 16 – 31, 2015

STATE CLEARINGHOUSE SUMMARY OF POSTINGS

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Summary of Postings summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **October 16 – 31, 2015**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Director

CLEARINGHOUSE MAILING ADDRESS

2012102048	Stanford Avenue Staging Area Expansion Project at Mission Peak Regional Preserve East Bay Regional Parks District Fremont--Alameda Note: Extended Review Per Lead	EIR	12/15/2015
	<p>The Stanford Avenue Staging Area Expansion Project would occur at one of two potential locations near the existing Stanford Avenue Staging Area. Option A would develop a new staging area on a grassland area located 250 feet to the northeast of the existing staging area and would encompass 11.71 acres (approximately 9.64 acres would be permanently disturbed, 2.78 acres of which would consist of paved surfaces). Option B would develop a new staging area on a grassland area located approximately 875 feet to the southeast of the existing staging area and would include approximately 16.76 acres (approximately 10.45 acres would be permanently disturbed, 3.10 acres of which would consist of paved surfaces or bridge structures). Each option would include new public restrooms, picnic tables, and associated landscaping and utility improvements. Each option would also include paved roadways and/or trail connections. Post construction stormwater controls at both locations would include treatment and hydromodification management. Bio retention areas and detention pond would be developed under both site options.</p>		
2015041002	Arcadia Logistics Center Arcadia, City of Arcadia--Los Angeles Note: Extended Review Per Lead	EIR	12/15/2015
	<p>Arcadia Logistics Center Specific Plan (14-01) and Tentative Parcel Map (14-06) and associated General Plan Amendment to construct and operate a warehouse/distribution/logistics center having multiple buildings with a combined total of up to 1,688,000 sf of building space. Other features include loading docks, truck and passenger car parking areas, driveways, screen walls, water quality/detention basins, and landscaping. The site is a former sand and gravel quarry that is currently being filled through an Inert Debris Engineered Fill Operation in order for the site to be reclaimed with an end use.</p>		
2003021141	Addendum to FEIR 584 and FEIR 589, Trampas Canyon Dam and Reservoir Project Orange County --Orange Note: Reference SCH# 2006061140	FIN	11/02/2015
	<p>The project proposes to reconstruct the existing Trampas Canyon Dam and Reservoir from its current use as a retention facility for tailings from the sand mining operation to a reservoir for storage of 5,000 acre-feet of recycled water. Both FEIR 584 and FEIR 589 address the anticipated development in the Project study area; therefore, an addendum to these FEIRs was prepared to analyze the</p>

	potential differences between the impacts evaluated in FEIR 584 and FEIR 589 and those that would be associated with the development of the Trampas Canyon Dam and Reservoir Project. SMWD determined that none of the triggers that require a new environmental document exist.		
2015031004	Barton Place Cypress, City of Cypress--Orange Note: 1 CD	FIN	
	The project site consists of approximately 33 acres within the southwestern portion of the City of Cypress in Orange County, California, and is located just north of the City of Los Alamitos boundary and approximately one mile northwest of the City of Garden Grove. The project site is located at 4921 Katella Avenue, at the northeast corner of Katella Avenue and Enterprise Drive. The proposed mixed-use project includes two components, a senior residential community and commercial/retail improvements. The community would include approximately 244 senior residential units and the commercial/retail components would consist of approximately 50,000 sf of commercial space. The project site was previously part of the Cypress Golf Club, which permanently closed in 2004. The project site is not currently utilized for any land use or activity.		
2015101052	Baxter Road Bridge Replacement Project Merced County --Merced	MND	11/16/2015
	The proposed project is located in Merced County on Baxter Road, to the north of East Raynor Ranch Road and to the south of East La Grant Road, over Deadman Creek. The Merced County Department of Public Works proposes to replace the existing deficient bridge structure over Deadman Creek with a cast-in-place prestressed concrete slab bridge.		
2015101053	ENV-2015-103-MND / 609 S Ocean Front Walk Los Angeles, City of --Los Angeles	MND	11/16/2015
	1) A Coastal Development Permit, pursuant to the provisions of Section 12.20.2 of the Los Angeles Municipal Code, to permit the construction of a 35-foot tall mixed-use building featuring 5,254 sf of retail, 22,738 sf of office, and one 800 sf dwelling unit, all sited on a 19,195 sf lot within a dual-jurisdiction area of the California Coastal Zone, and 2) a Conditional Use, to permit deviations from commercial corner establishment/mini-shopping center requirements by allowing on-site tandem parking otherwise not permitted by Section 12.22-A, 23(a)(4)(i), and relief from the requirement to landscape all street frontages and perimeters as required by 12.22-A,23(a)(10)(i) and 3) Pursuant to the provisions of Section 11.5.7 of the LAMC, a Project Permit Compliance from the Venice Coastal Zone Specific Plan.		
2015101054	San Sevaine Basin Development Project Inland Empire Utilities Agency Rancho Cucamonga--San Bernardino	MND	11/16/2015
	The Inland Empire Utilities Agency and the Chino Basin Watermaster are proposing the San Sevaine Basin Improvements Project. The objective of this project is to increase the amount of recycled water and stormwater recharged into the Chino Groundwater Basin, specifically at the San Sevaine Basins located immediately north and west of the I-210 and I-15 interchange in the City of Rancho

	Cucamonga, San Bernardino County.		
2015101055	Prospect Estates Santee, City of Santee--San Diego The project is a residential subdivision consisting of 75 lots for single-family detached homes, private streets and three common area lots on an 11.75 acre project site. A general plan amendment and zone reclassification are required to change the General Plan land use designation and the zoning designation to R7 Medium Density Residential. Four floor plans are proposed, each with design options.	MND	11/16/2015
2015101056	Amitai Residence San Diego, City of La Jolla--San Diego Coastal Development Permit and Site Development Permit to allow for the construction of 3,148 sf of residential development on a vacant 0.465 acre site. The project includes 2,674 sf of floor area within the one-story residence and a 501 sf garage. There would be a cantilevered deck on the north side of the residence facing the residence and courtyard on the south side facing Ellentown Road.	MND	11/16/2015
2015101057	Via Del Mar Estates San Diego, City of San Diego--San Diego Coastal Development Permit, Planned Development Permit, Site Development Permit, and Tentative Map to subdivide a vacant 5.07-acre lot into four single family parcels ranging from 1.25 to 1.31 acres, and to construct four single family homes (one on each parcel). In addition, the project would also construct associated site improvements (i.e. hardscape, site walls, and landscaping). The structures would not exceed 30 feet in height from grade. The project site is APN 307-060-71-00, which is located generally to the west and south of Via Del mar, immediately south of 3821 Via Del Mar, immediately south of 3821 Via Del Mar. The Community plan land use designation for the project site is Rural Residential. The project site is located within AR-1-2 zone, which permits a maximum density of 1 dwelling unit per acre, the Coastal Overlay Zone (appealable), and the Parking Impact Overlay Zone within the Carmel Valley Community Plan (Neighborhood 8b). The site is not included on any Government Code listing of hazardous waste sites.	MND	11/16/2015
2015102045	Project 15-014 (Bains) Sutter County Yuba City--Sutter A General Plan amendment from a COM to IND General Plan designation and a rezone from C-2 to an M-1 District and design review for a 9.42-acre portion of a 12.1-acre property. Approximately 2.68 acres will retain COM and C-2 designations for the existing fueling stations and convenience store use. The 9.42-acres proposed for IND and M-1 designations will provide proper designations for an existing non-conforming truck terminal and related uses. There are no changes to the existing land uses proposed by this project.	MND	11/16/2015

2015102049	IS 6981 CUP 3502 (Cynthia Calemmo, SCE) Fresno County --Fresno Extend the existing Sierra Marina west launch ramp by 100 feet and add two observation/fishing pavilions to an existing Marina in the RC-40 (Resource Conservation, 40-acre minimum parcel size) Zone District.	MND	11/16/2015
2015101058	Sterling Natural Resource Center San Bernardino Valley Municipal Water District Highland--San Bernardino The proposed project would construct a new wastewater treatment facility in the City of Highland to treat wastewater generated within the East Valley Water District service area, which is entirely within the Valley District service area. The SNRC would be constructed on a 20-acre parcel of land, located at North Del Rosa Drive between East 5th Street and East 6th Street in the City of Highland. The conveyance pipeline to the City of Redlands' basins. An additional conveyance would be installed within East 6th Street (or within a similar parallel route) heading east from the SNRC property for approximately 3 miles to City Creek and turning north within San Bernardino County Flood Control District right-of-way along City Creek.	NOP	11/16/2015
2015102044	Vallco Shopping District Specific Plan and The Hills at Vallco Project Cupertino, City of Cupertino--Santa Clara The project proposes 1) a Vallco Shopping District Specific Plan and 2) The Hills at Vallco development project. The Specific Plan will implement the City's General Plan for the 58-acre Specific Plan area. The General Plan allows for the development of a maximum of 1.2 msf of commercial uses (minimum 600 ksf of retail with maximum of 30% entertainment uses), 2.0 msf of office uses, 339 hotel rooms, and 389 residential dwelling units in the Specific Plan area. The Hills at Vallco development project would encompass 50 of the 58-acre Specific Plan area and would implement the proposed Specific Plan. The Hills at Vallco development project would redevelop the project site with up to 2.0 msf of office uses, 625 ksf of commercial uses, and 800 residential units. A Conditional Use permit is required to allow 411 units above the Housing Element allocation for the site.	NOP	11/16/2015
2015102047	Alpine County Regional Transportation Plan Alpine County --Alpine Note: Extended per lead The Regional Transportation Plan is the guiding document for transportation investments in the near term (1-10 years) and long term (11-20 years) for Alpine County. The Alpine County Local Transportation Commission is responsible for the development of this important planning document. The RTP identifies approximately \$40 million in projects for the 20 year planning period. This includes roadway, bridge, bicycle, pedestrian, transit, and airport projects. Environmental impacts were viewed on a programmatic level in the IS and all projects identified in the RTP are subject to a project level environmental review at the appropriate time.	Neg	12/03/2015

2015102048	Business Park Land Use Amendments and Rezoning (GP15-002; Z15-003; ORD15-002; EIS15-012) Nevada County Grass Valley--Nevada GPA (GP15-002), Rezone (Z15-003), Zoning Ordinance Amendment (ORD15-002), and Adoption of the Neg Dec (EIS15-012). The proposal would change the General Plan Land Use and Zoning Designation for parcels in 8 of the 16 existing sites currently zoned BP, to one of the following other zone districts; (M1) Light Industrial, (C2) Community Commercial, (RA) Residential Agricultural, (AG) General Agricultural, and (P) Public. Additionally, site specific amendments to Zoning District Map (ZDM) 40a and 63, and Zoning Ordinance amendments affecting sites within Area Plans; language cleanup regarding outdoor manufacturing/storage, and permit requirements for mini-storage facilities; addition of Schools as permissible in BP; & revised BP building setbacks and max. impervious coverage.	Neg	11/16/2015
2015102050	Housing Element San Joaquin County --San Joaquin The Housing Element is a comprehensive statement by San Joaquin County of its current and future needs and proposed actions to facilitate the provision of housing to meet those needs for persons at all income levels. State Housing Element Law (Government Code Section 65580 (et. seq.)) mandates that local governments must adequately plan to meet the existing and projected housing needs of all economic segments of the community. San Joaquin County last updated its Housing Element in 2010, which served a 7 1/2-year planning period from January 1, 2007, to June 30, 2014. The 2015 Housing Element is a comprehensive update of the 2010 Housing Element. The planning period for this Housing Element is December 31, 2015 to December 31, 2023. San Joaquin County is currently (2015) update its General Plan.	Neg	11/16/2015
2014081056	Countywide Water Conservation Program San Luis Obispo County --San Luis Obispo Note: Final Water levels in groundwater basins and surface lakes and reservoirs throughout the County have been in decline for over a decade, and the current "exceptional drought" has exacerbated this decline. The Board of Supervisors has declared three groundwater basins, Nipomo Mesa Water Conservation Area, being part of Santa Maria Groundwater Basin), the Los Osos Groundwater Basin, and the Paso Robles Groundwater Basin, at Level of Severity (LOS) III, which indicates that groundwater demand has met or exceeded the dependable supply.	SIR	
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Watsonville--Santa Cruz The project is limited to the removal of approximately 1600 cy of sediment from an 800 linear foot section of Watsonville Slough and restoration of associated wetland and slough habitats. The estimated impact area is 0.59 acres of slough and wetland habitat. Approximately 40 willows less than 6 inches in diameter at least will be removed as a result of project activities. The CDFW is executing a lake and streambed alteration agreement no. 1600-2015-0342-R3 pursuant to section 1602 of the fish and game code to the project applicant, Michael Inada, Ocean	NOD

The purpose of the project is to reduce the frequency of run-off the road accidents and collisions during wet conditions. Commuters, residents, tourists and truck drivers will benefit from this safety improvements.	NOE	
2015108234	Burney Comunity Fuelbreak Forestry and Fire Protection, Department of --Shasta CALFIRE, in cooperation with private landowners, is planning a 53 acre shaded fuel break south of the community of Burney, CA. The Burney Community Fuelbreak is a 2.2 mile long, 200' wide fuels reduction project on mixed conifer timberlands managed for timber production. Fuels reduction will focus on increasing understory discontinuity, and removal of ladder fuels. Activities covered by this project utilize hand crews to reduce fuels, and is not intended to cover or limit the landowner management activities. Burney Community Fuelbreak runs west from the emergency firebreak created during the 2014 Eiler Fire along Jack Rabbit Flat Rd. approx. 200 wide to Hwy 299 East. Project fuels reduction and vegetation treatments consist of the reduction and/or rearrangement of vertical and horizontal fuels through the methods of hand cutting, cut/haul offsite, cut/pile/chip, cut/pile/burn, and lop and scatter. Timber understory varies form 2-10' tall deerbrush, manzanita, small conifers, oaks , and other brush species. Historically area fires are typically driven by southwest winds. This shaded fuelbreak will provide a critical fuels reduction southwest of the communities of Burney, and Johnson Park. Establishment of the fuelbreak is a top priority for the CALFIRE Shasta-Trinity Unit Vegetation Management Program. Project implementation is planned for 2015/2016.	NOE

	Renewable Portfolio Standard (RPS) will benefit from modifications to regulations.		
2015108237	Installation of Bus Stop Sign Parks and Recreation, Department of --Tuolumne Install a new county bus stop sign in the overflow parking area of Railtown 1897 State Historic Park to provide better public transportation access for park visitors. The project area is in previously disturbed soil. Work will excavate approx. 24" deep by 6" in diameter for post hole; install post with sign attached and backfill hole with cement to secure post.	NOE	
2015108238	Issue Right of Entry Permit to the City of Sacramento Parks and Recreation, Department of --Sacramento Issue Right of Entry Permit (ROE) to the City of Sacramento to place a crane outrigger between two train track alignments operated by the CA State Railroad Museum to aid in work proposed in the Sacramento River. The crane itself will be placed on city property.	NOE	
2015108239	Retail Lease for Produce Junction Parks and Recreation, Department of --Sacramento Enter into a 1 year lease, with option to renew annually, with Luang Chao to operate the Produce Junction, a retail establishment located in the Freight Depot in Old Sacramento SHP. The Freight Depot building is a reconstruction built in the mid 1980's. Activities conducted within the boundaries defined in the Lease Agreement and any amendments will comply with all State and federal environmental laws, including, but not limited to the Endangered Species Act, CEQA, and Section 5024 of the Public Resources Code.	NOE	
2015108240	South Fork Overlay Caltrans #1 --Humboldt, Trinity Caltrans proposes a maintenance project in Humboldt and Trinity County on Route 299 at PM 39.1 to 43.0. The purpose of the project is to maintain the pavement in good condition and reduce the frequency of repairs by the field maintenance crew.	NOE	
2015108241	Blue Dot Farm Stream Habitat Restoration Fish & Wildlife #3 --Marin Project is limited to the removal of a failed culvert, the remaining fill, and reshaping the banks fo the stream channel at the culvert removal location. This project involves removing approx. 60 linear feet of a 36-inch diameter failed metal culvert that is in the channel. The remaining fill that once covered the culvert will be removed and the slopes on both stream banks will be graded back to a flatter 1.5:1 (horizontal: vertical) slope along approx. 60 linear feet of both tanks. Approx. 300 cy of channel. Issuance of Lakebed Alteration Agreement NO. 1600-2015-0034-R3 is pursuant to Fish and Game Code Section 1602.	NOE	
2015108242	Emergency Directors Order SMART Controller Irrigation Technology Caltrans #11 --San Diego To address drought conditions, Caltrans proposes installation of smart controllers, and to check, test, and repair existing irrigation lines is not expected.	NOE

2013101061	Pomona College 2015 Campus Master Plan Claremont, City of Claremont--Los Angeles The project is a long range Master Plan for planned future improvements to the Pomona College campus over a period of 15 years from City approval of the Master Plan, and related actions. The project would lead to an enrollment increase of 50 students; a net increase of 205,400 gsf of structural development; a net increase of 18 parking spaces; a net increase in campus lot coverage from 16% to 18%; pedestrian and bicycle improvements to improve safety and clarify pedestrian and vehicular circulation patterns; and new and remodeled open spaces such as courtyards, plazas, walkways, streetscapes, and landscaping.	EIR	12/02/2015
2009041058	Obispo 400 Lot Line Adjustment San Luis Obispo County Arroyo Grande--San Luis Obispo Request by Obispo 400, LLC for a Lot Line Adjustment (COAL08-0073) to adjust the lot lines between three parcels of 5.5, 229.3 and 129.6 acres each (364.4 acres total). The adjustment will result in three parcels of 20.0, 249.3 and 95.1 acres each. The project will not result in the creation of any additional parcels. The proposed project is within the Rural Lands and Agriculture land use categories.	MND	11/17/2015
2012052077	Quail Run Water Storage Tank Soquel Creek Water District --Santa Cruz The District proposes to construct a potable water storage tank with a usable volume of 0.41 MG and a total capacity of 0.44 MG, on a 1.3-acre parcel. The proposed tank would be of prestressed concrete and have a flat roof, and would be mostly buried and built into the existing hillside. The height of the exposed face of the tank above the finished grade will range from 0 feet on the eastern side to approximately 8 feet on the western side. A Draft IS/MND was prepared and circulated for public review in 2012 for a 0.66 MG tank on this site. In response to public comments received on the 2012 Draft IS/MND and under the direction of the District Board of Directors, the District reevaluated the required capacity of the tank and refined the Project design. The refined Project designed is the subject of this Revised Draft IS/MND.	MND	11/17/2015
2015101059	Fancher Creek Bridle Path Project Fresno County --Fresno The proposed project would allow improvements to the existing 1.3 mile long Fancher Creek Bridle Path easement located within a Fresno County Island, in the Sunnyside neighborhood of City of Fresno. Construction will be phased. The project is needed to reclaim an existing path that has fallen into disrepair and has become overgrown with weeds and trees rendering the path unusable to pedestrians and the equestrian community. Currently, path users walk on the Fresno Irrigation District maintenance easement adjacent to the Path easement as it is a clear, level and maintained pathway.	MND	11/17/2015

2015101060	DRA 4400 Aquarius Aquarium Institute Fresno County Fresno--Fresno Allow a 6,000 sf aquaculture building that will contain from six to ten 55- to 400-gallon tanks.	MND	11/17/2015
2015101061	IS Application No. 6929 (Anna M. Herrera) Fresno County --Fresno Amend the Agriculture and Land Use Element of the Fresno County General Plan (Policy LU-E.14) to add "Cemetery" as an allowable use on a 14.06-acre parcel (APN: 308-210-47T) and allow modification to an existing cemetery on a 5.12-acre parcel in the RR Zone District, and expansion on a 14.06-acre parcel in C-6 (c) (General Commercial) Zone District. The subject property is located on the north side of E. Shaw Avenue approximately 1,762 feet east of N. Indianola Avenue and 2.8 miles east of the City of Clovis.	MND	11/17/2015
2015101062	Lateral 8 Regulating Reservoir Expansion Project Turlock Irrigation District --Merced TID proposes to expand the size of its existing Lateral 8 Regulating Reservoir facility to utilize the entire extent of the parcel on which it is located, to increase storage capacity of the existing surface water storage/regulation facility. As part of the expansion, two additional pumps will be installed at the existing pump facility. As with the existing regulating reservoir facility, the expanded regulating reservoir will receive water from the Highline canal, store the water in the regulating reservoir, and when needed, pump the water back to the Highline canal or Lateral 7 supplement existing flows.	MND	11/17/2015
2015101063	Emerald Court Specific Plan La Verne, City of La Verne--Los Angeles The proposed project involves the subdivision of vacant land, site preparation, grading, and construction of 19 residential condominium units on a 3.2-acre site. The units will range in size from 2,754 sf to 3,106 sf in size and will be located on small lots ranging in size from 4,119 to 9,654 sf.	MND	11/17/2015
2015101064	Cabrillo Power I LLC Encina Marine Oil Terminal Decommissioning Project California State Lands Commission Carlsbad--San Diego Cabrillo Power I LLC proposes to decommission the Encina Marine Oil Terminal (MOT), which is a component of the Encina Power Station. The Project is comprised of the following elements: 1) removal of the entire fuel oil submarine pipeline; 2) decommissioning of related onshore facilities; 3) temporary removal of the riprap groin to remove the fuel oil submarine pipeline; 4) restoration of the riprap groin and beach; 5) removal of several components of the offshore MOT, including anchors, chains, and buoys/moorings; 6) removal of all seafloor debris associated with the MOT; and 7) quit claim of the remaining portions of the underpass to the City of Carlsbad. Decommissioning is schedule to commence in September 2016 and finish January 2018.	MND	11/18/2015

2015102051	<p>Matadero Creek Restoration and Bank Stabilization Project Los Altos Hills, City of Los Altos Hills--San Mateo</p> <p>The summer 2016 construction project would stabilize and restore 330 feet of Matadero Creek, to reduce erosion and undercutting of the creek channel caused by the 2009-2010 winter storms. The project includes: removal of a portion of the outfall apron below the Page Mill Road box culvert; removal of 13 willow and walnut trees, grading the new channel; creation of a rock rip-rap chute and reinforced drop-pool habitat feature; downstream reinforcement of the creek bank, replanting to shade the creek with willows, walnuts and native grasses. The project would retain the 100-year flood control levels and would control the headcut, which if left unchecked, would erode upstream and eventually undermine the Page Mill Road box culvert.</p>	MND	11/17/2015
2015102052	<p>Solar Project Napa Sanitation District --Napa</p> <p>The project consists of the construction, operation and ultimate decommissioning of a 1 megawatt solar generating facility. The project site is located in unincorporated Napa County, approximately 350 feet south of Highway 12. The Project would be constructed on a undeveloped parcel owned by Napa Sanitation District. The Project site is located adjacent to the existing Napa Sanitation District's Soscol Water Recycling Facility (1515 Soscol Ferry Road) and will generate electricity for use by the District at the Soscol Water Recycling Facility, which would be purchased via a Power Purchase Agreement with SunPower. The project consists of solar panels, inverters, and associated infrastructure, including construction of new connections to the existing transmission system, which currently comprises an existing 40 foot tall transmission pole and overhead line.</p>	MND	11/17/2015
2015102053	<p>Yuhasz Parcel Map (PL15-00329) Paradise, City of Paradise--Butte</p> <p>The proposed Yuhasz parcel map project entails creation of three parcels designed for commercial and multi-family residential land uses through no new development is proposed at this time. The property is located at 7015 Skyway. The proposed parcels would be created from an existing 5.53 acre parcel of record that is currently developed with a retail store with administrative offices as well as two vacant storage buildings. The gross parcel sizes proposed for each parcel are 1.1 acre (Parcel 1), 0.8 acre (Parcel 2), and 3.7 acre (Parcel 3).</p>	MND	11/17/2015
2015102055	<p>Recycled Water - Sharon Heights West Bay Sanitary District Menlo Park--San Mateo</p> <p>West Bay Sanitary District proposes to construct a 0.5 mgd wastewater plant (WTTP), an influent pump station and pipeline, a solids discharge pipeline back to the sewer, and a recycled water pump station and delivery pipelines within the Sharon Heights Golf and Country Club and along existing roadway rights-of-way. The recycled water pipelines would transport tertiary treated recycled water to the SLAC National Accelerator Laboratory, as well as a separate tie-in to an existing irrigation pipeline to a nearby existing two million gallon open reservoir, located at the western edge of the Sharon Heights property.</p>	MND	11/17/2015

2006062150	Fassler Avenue Residential Project Pacifica, City of Pacifica--San Mateo In 2004 an application for the Prospects Residential Project was submitted to the City of Pacifica and in 2007 a Final EIR was certified. The entitlements for the project have since lapsed, and the City will prepare a DSEIR for the Fassler Avenue Residential Project which is proposed at the same site and consists of 24 condominium units in 12 duplex buildings on the 11.2 acres. Approximately 11,600 cubic yards of cut material and 12,200 cy of fill material would be required for project grading, meaning that 600 cy would need to be hauled off-site. Access to the proposed project site would be provided at one point along Fassler Avenue, in the form of a private circular driveway. Construction is anticipated to begin in July 2016.	NOP	11/17/2015
2015051018	GPA #15-00001 College Boulevard Improvement Project Oceanside, City of Oceanside--San Diego College Boulevard would be proposed to be widened to a six 6-lanes major arterial from Olive Drive to Old Grove Road, which would be consistent with the City of Oceanside's Circulation Element's Year 2030 classification of College Boulevard as a 6-lane major arterial. Along this section, the City proposes road and right-of-way improvements to the corridor to enhance existing and future traffic operations, provide congestion relief and reduce queue lengths, improve safety conditions for the unsignalized intersections and access points along the corridor, and provide safer travel routes for bicyclists and pedestrians.	NOP	11/17/2015
2015102054	Camp Sweeney Replacement Project Alameda County San Leandro--Alameda The proposed site is located at 2400 Fairmont Drive, in unincorporated Alameda County, near the municipal boundary of the City of San Leandro, CA. The project proposes to demolish the existing Camp Sweeney buildings and relocate the project on a different part of the County-owned property. The new facility would contain seven new buildings to provide housing, education, and recreation to both male and female adjudicated youth.	NOP	11/17/2015
2015102058	2015 Zoning Code Amendments Yolo County --Yolo The "project" that is analyzed in this Initial Study/Neg Dec is adoption of a series of omnibus, clean-up amendments to various sections of Title 8 of the County Code involving subdivision and zoning regulations, plus one amendment to Title 1.	Neg	11/18/2015
2015102059	Dunnigan General Plan Amendment 2015-004 Yolo County --Yolo The "project" that is analyzed in this Initial Study/Neg Dec is a proposed General Plan Amendment (GPA) by Elliott Homes to detach 183 acres from the Dunnigan Specific Plan area and rezone the property to Agricultural Intensive (A-N). An application for a General Plan Amendment and rezoning has been submitted by Price Walker, Director of Land Acquisitions and Development for Elliot Homes, the major land owner and proponent of the Dunnigan Specific Plan. The request involves 183 acres located west of the I-5/County Road 8 interchange in Dunnigan (APN: 052-060-001).	Neg	11/18/2015

	demention, staging, and construction will be performed from the lake on a floating barge.		
2015108257	City of Santa Cruz Highway 1 Bridge Clearing Project Fish & Wildlife #3 Santa Cruz--Santa Cruz The project will trim and cut approximately 25 willow trees, one to six inches in diameter at breast height (DBH). The trees are located on existing dry benches immediately under the bridge. The root structures will not be removed and will remain to provide river bank stability and facilitate re-spouting. The project will also clear the accumulation of downed logs located on existing dry benches on the left river bank upstream of the bridge. SAA #1600-2015-0322-R3.	NOE	
2015108258	Dollar General Development Calipatria, City of Calipatria--Imperial The proposed project will consist of the construction of a 9,100 square foot, retail commercial facility on a vacant parcel.	NOE	
2015108259	Naval Outlying Landing Field Imperial Beach Airport Land Use Compatibility Plan (NOLF IB ALUCP) San Diego County Imperial Beach, San Diego--San Diego The San Diego County Airport Land Use Commission (ALUC) is mandated by the State Aeronautics Act to prepare an ALUCP for each military airport within the county. The purpose of an ALUCP is to protect the operations of the airport and concurrently safeguard the welfare of inhabitants and the general public within the vicinity of the airport. The ALUCP accomplishes these complementary objectives by establishing a geographic scope of application (the AIA) and criteria for the compatibility of specific land uses within the AIA.	NOE	
2015108260	Emergency Directors Order (EA: 301603 Caltrans #11 San Diego--San Diego Remove sediment in the flood control channel of Alvarado Creek.	NOE	
2015108261	California Aqueduct Lost Hills ADA Caltrans #6 --Kern Construct pedestrian path improvement, including curb, gutter, sidewalks and wheelchair ramps.	NOE	
2015108262	Palermo Road Culvert Rehabilitation (Streambed Alteration Agreement No. 1600-2015-0168-R Fish & Wildlife #2 --Butte The project is limited to the rehabilitation of an existing culvert structure consisting of two 48-inch diameter corrugated metal pipes (CMP). Two 46-inch diameter high density polyurethane (HDPE) pipes will be slid into the existing CMP structures which will limit the amount of in-channel work. The south side of the culvert will be extended by 10-feet. The roadway section will be partially excavated to repair the road structure and the area between the CMP and the HDPE will be sealed with a flowable sealant material, such as cement slurry.	NOE

2015108263	Bench at Scenic Lookout off Eagle Rock Fire Road Parks and Recreation, Department of --Los Angeles The Santa Monica Trails Council and Sierra Club Trails Maintenance Team have requested approval to install a bench at a scenic point just off the Eagle Rock Fire Road in Topanga State Park in memory of long time Trail Volunteer Jane Lewis. Bench would be located on a leveled pad above and to the south of Eagle Road Fire Road. Location of bench would keep viewed clear except from the immediate fire road approach toward the east. Bench would provide park visitors a beautiful location to rest and enjoy the view of Santa Ynez Canyon and the Santa Monica Bay.	NOE	
2015108264	Ranch Center Debris Removal Parks and Recreation, Department of --Ventura This project will remove all loose debris from the Ranch Center residences and storage barns which were burned down in the May 2013 Springs Fire. CalREcycle's Solid Wastes Cleanup Program contractor will be issued a Right-of-Entry permit to remove surface debris and dispose of the debris at the nearest landfill. Equipment to be used for the removal includes an excavator, backhoe, skid loader, water truck, dump trucks and pickup trucks. Due to height (11 feet) and length restrictions on the park's backcountry roads, all tracked equipment will be walked into the Ranch Center site from the back of the Sycamore Canyon campground along Sycamore Canyon Road to Ranch Center Fire Road.	NOE	
2015108265	Project #139274, New Leased Space for CBCB and Investigations Branch Social Services, Department of Sacramento--Sacramento The project is to relocate the Caregiver Background Check Bureau and the Investigations Branch to new leased space at 9835 Goethe Road, Sacramento, CA 95827.	NOE	
2015108266	Araujo Reservoir No. 1 Dam, No. 5413 Emergency Repairs Water Resources, Department of Calistoga--Napa The existing dam has zero freeboard and a deficient spillway, therefore, emergency repairs are necessary to prevent overtopping in the upcoming winter. The project will raise the embankment crest up to 3 feet and add an auxiliary spillway at the right abutment to address the existing hydrologic deficiency.	NOE	
2015108267	Thurston Lake Fuel Break Phase II Forestry and Fire Protection, Department of --Lake This will be the second phase of a fuel break project that was implemented in November and December 2014. The purpose of the project is to remove flammable brush along the south border of the densely-populated Clearlake Riviera neighborhood and Riviera Elementary School, less than one mile to the southwest of Clear Lake. The terrain adjacent to the neighborhood is steep and covered with extremely dense brush. With the prevailing wind direction being through terrain features from the southwest, creation of a fuel break at the south edge of the neighborhood and school will be a major asset in the event of a wildfire. 2015101070	<p>Third, Fourth, and I Avenue Storm Drain Rehabilitation Project Coronado, City of Coronado--San Diego</p> <p>The City of Coronado proposes to replace an existing 24-inch storm drain outfall with a new 48-inch storm drain outfall at the same location. The new outfall will carry drainage from the existing outfall as well as drainage from a new storm drain system along "I" Avenue intended to mitigate for existing flooding problems at the Fourth Avenue/Alameda Boulevard intersection. The new storm drain will run the length of "I" Avenue from Fourth Street to the San Diego Bay and will intercept the existing 24-inch storm drain conveying flows from First Street just prior to the existing point of discharge of the 24-inch pipe. A low-flow diverter will be installed to divert low flows to the sanitary sewer system and not the storm drain outfall. The top of the existing reinforced concrete pipe is located at the mean higher high water; the proposed top of pipe will rise above the high tide line, equivalent to the annual highest high tide.</p>	MND	11/19/2015
2015101072	<p>Bree Property Subdivision Oceanside, City of Oceanside--San Diego</p> <p>The Bree Property project requests City approval to allow the proposed development of 27 residential estate lots on an existing 37.5 acre property. Lots will be a minimum size of one-acre, with residential building pads of at least 10,000 sf. The property is located north of North River Road and west of Wilshire Road and west of Wilshire Road at the northerly terminus of Stallion Drive. The property does not contain "hillside areas" as defined by the Zoning Ordinance that would be excluded from density calculations but does include 0.8 acres of riparian habitat located in the southeastern corner.</p>	MND	11/19/2015
2015102060	<p>Midway Bridge Replacement Project at Butte Creek Butte County --Butte</p> <p>The main priority of this project is to replace the existing bridge structures with a new bridge along the section of Midway that crosses Butte Creek. The existing roadway approaches to the north of Butte Creek Bridge and to the south of the Butte Creek Overflow Bridge will also be removed. The installation of the required approach rail, which connects to the concrete bridge railing, will necessitate the realignment, raising and regrade of four adjacent levee bank roadways. A second structure will be installed to preserve access to agricultural fields once the new bridge spans levee to levee.</p>	MND	11/19/2015
2015102063	<p>Chamberlain Creek Barn/Garage Demolition Project Forestry and Fire Protection, Department of Fort Bragg--Mendocino</p> <p>The scope of this project involves disassembling what remains of the standing portions of the Chamberlain Creek Barn/Garage with a crane and other heavy equipment. No site grading or excavations are necessary or proposed. Portions of the wooden structure will be recycled and/or re-purposed while other wooden and non-wooden components and contents will be disposed of at a waste facility. The gantry hoist support structure and appurtenant steel components will be retained and loaned to a historical group for conservation and display.</p>	MND	11/20/2015

2015101071	CapRock Distribution Center III Warehouse Project Rialto, City of Rialto--San Bernardino Project site is partially occupied by light industrial facilities, two residences, and a scrap yard. The General Plan land use designation is General Industrial and the zoning is Specific Plan (Agua Mansa Industrial Corridor Specific Plan)	NOP	11/19/2015
2015102061	Azores Sacramento, City of Sacramento--Sacramento The project proposes a Rezone to change the zoning of the project site from its current designation of A (Agriculture Zone) to R-1 (Standard Single-Family Zone). The proposed Tentative Subdivision Map would divide the site into seven single-family residential lots for future development and a 0.44 acre open space parcel. The project site is designated Suburban Neighborhood Low Density in the 2035 General Plan. The proposed project is consistent with and will not change the General Plan designation.	NOP	11/19/2015
2015101069	Santa Ana Climate Action Plan Santa Ana, City of Santa Ana--Orange The proposed project is the adoption of a Climate Action Plan, a document that provides measures intended to reduce GHG emissions within the City. The CAP describes the 2008 baseline GHG emissions produced in Santa Ana and estimates business-as-usual emissions that could be expected in 2020 and 2035. GHG emissions were estimated for 2008, 2020, and 2035 for both community-wide and municipal operations. Overall, the goal of the CAP is to reduce Santa Ana's community wide GHG emissions by 15 percent below 2008 emission levels by the year 2020. In addition, Santa Ana has established a goal to reduce community-wide emissions by 30 percent below 2008 emission levels by the year 2035. For municipal operations emissions, the City has established goals of 30 percent reduction by 2020 and 40 percent reduction by 2035.	Neg	11/19/2015
2002062067	Remedial Action Plan for the PG&E Willows Former Manufactured Gas Plant Toxic Substances Control, Department of Willows--Glenn The project is the approval of an impacted soil removal workplan by DTSC that would authorize activities related to the mitigation of Polycyclic Aromatic Hydrocarbon, arsenic, and lead found in soil at the Former Willows Manufactured Gas Plant. The contaminated soil is present beneath a warehouse that is scheduled for demolition. Activities to be conducted pursuant to the approved impacted soil removal workplan include: excavate approximately 200 cy of impacted soil and transport it off-site for disposal at a permitted facility; import approximately 200 cy of clean fill; and repair any damage to existing cover currently surrounding the warehouse if needed after soil removal. The existing land use covenant restricting the site to industrial/commercial use and the operation and maintenance agreement with the PG&E Company will remain in place.	NOD

2014081028	North San Diego Water Reuse Coalition Regional Recycled Water Project Olivenhain Municipal Water District --San Diego The Proposed Project would involve development of regional recycled water infrastructure to increase the capacity and connectivity of the recycled water storage and distribution systems of the Coalition members and maximize reuse of available wastewater supplies. The Proposed Project includes replacing potable water uses with recycled water components, converting facilities to recycled water service, connecting discrete recycled water system to one another, increasing recycled water storage capacity, distributing recycled water to effectively meet recycled water demands, and implementing advanced water treatment to produce and use potable reuse water within the Study Area.	NOD	
2015072045	Marsh Creek Restoration and Instream Dam Improvement Project Parks and Recreation, Department of Brentwood--Contra Costa Proposed improvements include cutting and removing four large sections of the concrete dam, filling and reshaping the eroded plunge pool and adjacent northern upstream (west of the dam) and northern downstream (east of the dam) banks to focus streamflow back towards the centerline of the stream channel and through the newly cut dam sections. The southern bank on the downstream side of the dam would be filled with soil and reinforced to protect archaeological/cultural resources. The rebuilt and reshaped banks would be lined with rock and riparian plantings to armor the newly restored banks.	NOD	
2015082031	English Colony Minor Land Division (PMLD 20120372) Placer County --Placer The project proposes a Minor Land Division to subdivide an approximately 31.4-acre property to create three single-family parcels consisting of 10.6 acres, 10.7 acres and 10.1 acres.	NOD	
2015092032	Doane Minor Land Division (PLN14-00172) Placer County --Placer The project proposes a Minor Land Division to subdivide a 5.02-acre property to create two 109,289 sf parcels.	NOD	
2015092037	Spear Minor Land Division (PLN14-00006) Placer County Auburn--Placer The project proposes a Minor Land Division to allow for the subdivision of an approximately 4.8-acre parcel into two parcels consisting of 2.36 acres and 2.48 acres.	NOD	
2011098476	Well 27 Dioxane, Iron and Maganese Treatment Project - City Project No. 469-WTR South Gate, City of South Gate--Los Angeles The Division of Drinking Water (DDW), State Water Resources Control Board, as the responsible agency, will be issuing a water supply permit. The City of South Gate proposed project is to install Manganese and Iron treamtent system and appurtenant structures.	NOE

2015108291	Lower Rock Creek Mutual Water Company Noise Variance 15-001 Mono County --Mono A variance from the Mono County Code to permit noise levels exceeding normal standards for construction activities, 24 hours/day 7days/week, for a replacement well for the Lower Rock Creek Water Company.	NOE	
2015108292	Auto Pay Machines Parks and Recreation, Department of --Los Angeles This project is to install two Automated Pay Machines (APMs) at Baldwin Hills Scenic Overlook. The location of APM #1 will be in the upper parking lot directly in front of the accessible parking spaces. It will be installed in the unpaved area accessible from the paved walkway. APM #2 will be installed in the lower parking area off of Jefferson Blvd. This APM will be installed in the unpaved area on the east side of the parking area and will be accessible from the paved sidewalk. They are both solar units and therefore, no trenching will be required for utilities. Each unit will require excavation of 18 inches in depth and a 14 sq. ft. inch cement foundation. Bollards will be placed at each corner of the APM that can be approached by traffic. Bollards should be a minimum of 36" above grade, set into concrete with anchoring bars at least 24" in depth, or anchored to a concrete slab.	NOE	
2015108293	Narrows 2 Isolation Pool Restoration Project (Project) State Water Resources Control Board --Yuba, Nevada The project will mechanically grade a gravel bar located adjacent to the Narrows 2 Powerhouse in order to prevent the formation of an isolation pool that has the potential to strand federally threatening spring-run Chinook salmon and central valley steelhead. YCWA plans to use a helicopter to transport 2 mini-excavators, and place them on top of the gravel bar. YCWA staff will use a small boat to access the Project site. The downstream end of the gravel bar will be graded to prevent the formation of an isolation pool. An area approx. 3,200 sq. ft. will be graded. Material from the gravel bar will be used to fill the deepest part of the isolation pool, reducing the isolation pool's potential to strand anadromous fish.	NOE	
2015108294	Repair Abutment Erosion and Damaged Slope Paving - 0K330 / 0416000075 Caltrans #4 Fairfield--Solano Repair slope paving panels to protect the soil underneath and preventing further erosion. The project is to preserve and maintain the safety and integrity of the Bridge/Highway.	NOE	
2015108295	Repair Failed Tidal Flap Gates, Repair Damaged Drainage System - 4J050 / 0415000249 Caltrans #4 Belmont--San Mateo Replacement, modification, or repair of culverts or other drainage facilities. The project is to preserve and maintain the safety and integrity of the highway.	NOE

2015102066	State Route 88 Pine Grove Corridor Improvement Project Caltrans #6 --Amador Caltrans, in cooperation with the Amador County Transportation Commission, proposes to make improvements to the segment of SR 88 from post mile 21.6 near Climax Road to post mile 24.6 near Tabeaud Road in the town of Pine Grove in Amador County, CA. The project improvements include intersection and lane reconfiguration, pedestrian and bicycle improvements, and roadway-related improvements along SR 88. Construction of the project will be phased.	MND	11/23/2015
2015101073	Crossroads Hollywood Los Angeles, City of Los Angeles, City of--Los Angeles The Project would retain Crossroads of the World and integrate it into a new, mixed-use development that would include eight new mixed-use buildings with residential, hotel, commercial/retail, office, entertainment, and restaurant uses. All other on-site uses would be demolished. Upon build-out, the Project (including existing uses to be retained) would include approximately 1,432,000 sf of floor area consisting of 950 residential units, 308 hotel rooms, approximately 95,000 sf of office uses, and approximately 185,000 sf of commercial/retail uses. The proposed floor area ratio (FAR) would be approximately 4.69:1 averaged across the Project Site. Building heights would range from 3 to 32 floors with a maximum building height of approximately 402 feet above grade.	NOP	11/20/2015
2015101075	Southeast Area Specific Plan Long Beach, City of Long Beach--Los Angeles The proposed project would replace the current 1,475-acre PD-1 zoning district with a new Specific Plan covering 1,466 acres and remove 9 acres from the Plan boundaries to convert to conventional zoning. Therefore, the project would change the boundaries of PD-1 so that the project would consist of two separate areas: 1) 1,466 acres within the boundaries of the current 1,475-acre PD-1 (the "Southeast Area Specific Plan" area, or the "Specific Plan" area), and 2) nine acres within the current PD-1 directly west of the Marina Vista Park (or "Conventional Zoning Area"). Both of these areas combined constitute the "project area" and the "project" for purposes of CEQA. These areas are described separately below.	NOP	11/20/2015
2015102062	Pilot Flying J Travel Center Lathrop, City of Lathrop--San Joaquin The principal objective of the proposed project is the approval of a travel center that includes development of the 9.17 acre portion of the site for regional travel serving uses. Implementation of the project would involve the development of fueling facilities, traveler amenities, and parking facilities for passing motorists and commercial truck operators. The operational characteristics of the proposed project include the development of Freeway Commercial, and travel support facilities that would include: 9 diesel fueling lanes, 12 gas fueling lanes, 106 truck parking spaces, 64 passenger vehicle parking spaces, One 13,011 sf building that will include: A drivers lounge, 2,660 sf of retail space, One 1,260 sf market/deli, One 1,445 sf Subway restaurant, and a Cinnabon kiosk. 2014051029	<p>Cimarron Ridge Menifee, City of Menifee--Riverside Specific Plan No. 2013-247 proposes the adoption of the Cimarron Ridge Specific Plan which includes a land use plan designation of planning areas, circulation plan, development standards, design and landscape guidelines for a 240.3 acre area and a max of 756 single-family residential dwelling units. The Specific plan would set forth guidelines for landscape and architectural design, infrastructure plans, phasing of development and administrative procedures. Existing infrastructure such as water, sewer, storm drain and roadways will also be expanded as part of the Specific Plan, which will range from: upgrades and widening of the existing roadways; construction of new roads and signals; construction of new and expanded water pipelines; construction of new and expanded sewer pipelines; construction of new flood control facilities; and construction of water quality basins to improve the quality of stormwater runoff.</p> <p>Tentative Parcel Map 36657 proposes to subdivide 240.3 acres into 7 parcels for financing and land conveyance purposes.</p> <p>Tentative Tract Map 36658 proposes to subdivide approximately 240.3 gross acre project site into 756 medium density single family residential lots, and other lots for open space, recreation, and drainage purposes.</p> <p>General Plan Amendment No. 2014-016 proposes an amendment to the City's General Plan to change the land use designation for the project site of 2.1-5 du/ac residential to specific plan to reflect the proposed specific plan and its land use designations. In addition, a technical correction is proposed to rectify mapping errors which resulted in inaccurate depictions of the alignment of Goetz Road. Specifically, Exhibit C-3 Roadway Network of the General Plan recognizes two alignments for Goetz Road at the intersection with Valley Blvd: 1) the existing, built alignment of Goetz Road that would merge with Valley Blvd, and, 2) the re-alignment of Goetz Road that would include a controlled intersection with Valley Blvd.</p> <p>Change of Zone No. 2014-014 proposes to change the zoning of the subject site from One-Family Dwellings, One Family Dwellings - 10,000 sf min lot, and Open Area Combining Zone Residential to Specific Plan to reflect the proposed specific plan and its land use designations and development standards.</p>	NOD	
2015082028	<p>PA-1500038 (SU) San Joaquin County Tracy--San Joaquin A Major Subdivision application no. PA-1500038 of John & Mark Trinkle (c/o Quartaroli & Associates, Inc.) to subdivide an existing parcel totaling 16.62 acres into seven parcels. The seven parcels will range in size from 2.00 acres to 3.78 acres. Access will be provided from Koster Road via Trinkle Court, a proposed fifty foot right-of-way private road. The property is zoned R-R and the general plan designation is R/R.</p>	NOD

2015108317	<p>Changes to the FY 2014-2018 Capital Improvement Program, Reallocation of Capital Improvement Program Funds, and Amendments to BPC Policy No. 120 and BPC Policy</p> <p>San Diego Unified Port District San Diego, National City, Chula Vista, Imperial Beach, ...--San Diego</p> <p>The proposed project involves removing one project from the Capital Improvement Project (CIP) and transferring the remaining funds to CIP contingency, relocating funds from the District's undesigned cash to the FY 2014-2018 CIP budget, increasing the FY 2014-2018 CIP budget to include three projects, and amendments to Board Policy No. 120 and Board Policy No. 90.</p> <p>Based on market demand, the proposed project will remove the B Street Terminal Baggage Facility (Pre-Design) project from the CIP and transfer the remaining funds to CIP contingency. Assessment of the need for modifications to the B Street Baggage Facility will be based on future market and customer service demands.</p>	NOE	
2015108318	<p>Harbor Police Administration Building Windows Replacement and Shelter Island Harbor Control Building Doors and Windows Replacement</p> <p>San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project involves removal and replacement of windows at the Harbor Police Administration Building, and removal and replacement of existing doors and windows at the Shelter Island Harbor Control Building, in San Diego, California. The proposed project will be composed of three phases, which as a whole, will involve removal and replacement of existing doors, windows, and framing. The first phase of the proposed project will take place at the Harbor Police Administration building and involve the removal and replacement of exterior windows to be more secure and energy efficient than those existing. The second and third phases of the proposed project will take place at the Shelter Island Harbor Control Building and involve the removal and replacement of exterior doors and windows that will be more secure and energy efficient than those existing. In total, the removal and replacement for the proposed project will result in the installation of windows in 16 openings at the Harbor Police Administration Building, and the installation of doors and windows in 26 openings at the Shelter Island Harbor Control Building.</p>	NOE	
2015108319	<p>San Diego Brewers Guild Festival</p> <p>San Diego Unified Port District San Diego--San Diego</p> <p>The proposed project is the San Diego Brewers Guild Festival, which will take place at the Port Pavillion on Broadway Pier on Friday, November 6 and Saturday November 7, 2015. The District will provide sponsorship in the form of District services for the event, a beer festival that celebrates San Diego's breweries. The event is the kick-off to San Diego Beer Week, a 10-day County-wide event. The event has an expected attendance of over 5,000 people. Parking will be available at nearby surface lots including the ABM lots at Pacific Highway and Broadway, the County Administration Center parking garage, and metered parking within the North Embarcadero on North Harbor Drive.</p>	NOE

2015108321	Santa Cruz 152 ADA Caltrans #5 Watsonville--Santa Cruz The project will construct 4,700 feet of sidewalk, 13 driveways, upgrade curb ramps to ADA standards and construct shoulder widening at spot locations. Upgrades to the existing pedestrian path through this location will improve multi-modal opportunities and comply with ADA Standards.	NOE	
2015108322	Planning/Design for Treatment Plant Upgrade Trinity County Hayfork--Trinity Planning studies, information collection, environmental documentation, and plans and specifications will be completed in anticipation of a future improvement to bring the Treatment Plant up to meet current requirements.	NOE	
2015108323	SRA Clear Creek Fire Hazard Reduction Los Angeles County Unincorporated--Los Angeles The project is designed to reduce the fire hazard in and adjacent to the communities of Diamond Bar, La Brea, and the area's natural and cultural resources for a wildland fire. The project will be conducted by the California Conservation Corps and the County of Los Angeles Fire Department.	NOE	
2015108324	Capistrano Bridge Retaining Wall Reinforcement Project Fish & Wildlife #3 Pacifica--San Mateo The project is limited to the repair of a section of cement wall associated with a fish ladder in San Pedro Creek near Capistrano Drive. Project activities include reinforcing the existing concrete structure with helix horizontal anchors tied into the bank behind the wall and spraying the wall with concrete (shotcrete). The anchors will be installed from above the wall and directly below the wall is a concrete trough which will catch and contain all material and debris. Barriers will be placed at the downstream end of the fish ladder and concrete basin to prevent debris from going into the creek and the creek will be covered to prevent shotcrete overspray from directly entering the creek. SAA #1600-2015-0317-R3.	NOE	
2015108325	Fowler Creek Bank Stabilization Fish & Wildlife #3 Sonoma--Sonoma The project is limited to the stabilization of the right bank of Fowler Creek along a 110-foot long by approximately 15-foot high area. Stabilization activities will include: laying back the channel bank and the installation of erosion control fabric, the placement of keyed in boulders at the toe of the slope, and heavily vegetating the banks and boulders with locally harvested willow cutting and mule fat. SAA #1600-2015-0203-R3.	NOE	
2015108326	Riverwood HOA Fire Prevention Project (LSA#1600-2015-0103-R2) Fish & Wildlife #2 --Sacramento The proposed project will remove dead vegetation, including burned and down trees, and invasive species from the American River Bank and channel within the Riverwood HOA property. The lower canopy of a walnut will be pruned up to approximately 14 ft. Some willows (No more than 15 willow stumps) will be pruned to gain access to some areas. Willow pruning will be minimized as much as possible. All work will be done by hand using chainsaws and hand tools.	NOE

2015108333	Meadow Lakes North Fuel Break Tree Felling Modification Forestry and Fire Protection, Board of --Fresno The Meadow Lakes project is an existing shaded fuel break installed by CAL FIRE. This project provides connectivity to a series of adjacent fuel treatments on private and federal land to provide wildfire community defense to the surrounding communities of Meadow Lakes, Pine Ridge, and the upslope community of Shave Lake, CA. This project lies at approximately 4,500 feet encompassing 58 acres. Project area understory was removed during fuel break installation. The overstory trees consist of ponderosa pine, sugar pine and incense cedar. The combination of ongoing drought conditions and the increased population of bark beetles have resulted in almost 100% mortality of overstory conifers in the project area.	NOE	
2015108334	Rattlesnake Canyon Wildlife Water Trough and Tank Installations Fish & Wildlife #4 -- The Project will provide a new source of water for wildlife on the Carrizo Plains Exological Reserve, The Project will include the connection of a new 5,000 gallon water tank to an existing pipeline and connecting that tank to a new, 50 gallon water conserving wildlife water trough in the immediate vicinity of the tank. Water will be provided by the existing water system for the reserve.	NOE	
2015108335	Kiosk Removal Parks and Recreation, Department of --Del Norte Remove the park entrance kiosk at Jedediah Smith Redwoods State Parks to alleviate the possibility of damage from a hazardous old-growth Douglas fir. State Parks completed endangered species consultation with the California Department of Fish and Wildlife and technical assistance with the U.S. Fish and Wildlife Service, during which this tree was identified as having excellent characteristics of nestling habitat for marbled murrelet, a federally threatened, state endangered species. In order to save this habitat and ensure human safety, the target of the hazard tree will be removed.	NOE

2002111067	County of San Diego General Plan Update San Diego County --San Diego CDFW is intending to execute a lake and streambed alteration agreement pursuant to section 1602 of the fish and game code (#1600-2015-0080-R5) to the project applicant, Brook Forest LLC. The project proposes to alter the stream to construct the Brook Forest Conservation/Mitigation Bank. Project activities include grading to create approximately 22.8 acres of wetland waters of the U.S. and 3.6 acres of State-only wetlands by lowering the ground level within the Moosa Creek floodplain through the Brook Forest site. Approximately 80,000 cy of soil will be excavated from the Moosa Creek floodplain adjacent to the streambed to achieve the wetlands establishment area. No grading will occur in the existing channel bottom, but will occur in areas along the channel bank to lower the bank elevations and reconnect the floodplain with the main channel. Excavated soils will be loaded and transported to existing disturbed areas on the Brook Forest site, well removed from the wetland area, and then reseeded to create non-native grassland, sage scrub, or mafic chaparral in the disposal area. Approximately 6.3 acres of State-only wetlands and 0.3 acres of wetland water of the U.S. will also be enhanced/rehabilitated through exotic vegetation removal and replanting with native species. CDFW is issuing a minor Amendment to extend the term of the ITP and extend the due date for the HM Lands requirement.</p>	NOD	
2011091055	<p>Crystal Geyser Roxane Cabin Bar Ranch Water Bottling Facility Project Inyo County --Inyo</p> <p>The project would develop a spring water bottling facility and ancillary uses. The water bottling facility would include an approximately 198,500-sf bottling plant facility with four bottling lines and an approximately 40,000 sf storage warehouse. Proposed ancillary uses include rooftop solar array, a fire suppression building, a stormwater detention basin, a leach mound, a fire access road, and a parking and truck staging area. To provide adequate access from US 395 to the bottling facility, the project would remove the site's existing access road (i.e., Cabin Bar Ranch Road) and construct a new permanent access road approximately 2,500 feet to the south. The bottling facility would utilize spring water from three existing production wells to supply the bottling operations. The project would also use a fourth existing well to provide domestic potable water to the water bottling facility's employees.</p> <p>The project will permanently remove 2.88 acres of Swainson's hawk, western yellow-billed cuckoo, southwestern willow Flycatcher, and least Bell's vireo habitat. The project is expected to result in incidental take of Swainson's Hawk, which is designated as a threatened species and yellow-billed cuckoo, southwestern willow flycatcher, and least Bell's vireo, which are designated as endangered under CESA. The ITP referenced above as issued by CDFW authorizes incidental take of species listed under CESA that may occur as a result of project implementation. This ITP Minor Amendment No. 1 will change the expiration date of the ITP from December 31, 2015 to December 31, 2017.</p>	NOD

2012041051	Coastal Storm Damage Reduction Project Solana Beach, City of Solana Beach, Encinitas--San Diego The proposed project consists of reducing potential coastal storm damage by placing material along two discrete beach segments: Segment 1 in the City of Encinitas; and, Segment 2 in the City of Solana Beach. The City of Encinitas certified the EIR and approved Alternative EN-1B for Segment 1 in Encinitas, involving dredging from offshore and placing approximately 340,000cy of material initially and renourishing up to every 5 years. The City of Solana Beach certified the EIR and approved alternative SB-1B for Segment 2 in Solana Beach, involving dredging and placing approximately 700,000 cy of material and renourishing up to every 10 years.	NOD	
2014082051	Routine Maintenance of Stream Channels and Drainage Facilities & Willow Creek Channel Restoration Folsom, City of Folsom--Sacramento CDFW has executed lake and streambed alteration agreement no. 1600-2014-0197-R2, pursuant to section 1602 of the fish and game code to the project applicant, City of Folsom. The project proposes to perform routine maintenance activities and improved channels within the City of Folsom. The project includes the following activities: debris or obstruction removal; silt, sand, or sediment removal; vegetation control in channels or on banks minor erosion control work; trail maintenance; channel alignment maintenance; repair of facilities; boat ramps, dock, and dam maintenance; geotechnical sampling; water diversions; and bridge washing, graffiti removal and painting.	NOD	
2014122048	The 2015 Fisheries Restoration Grant Program Fish & Wildlife #2 --Siskiyou CDFW has executed lake and streambed alteration agreement no. 1600-2015-0095-R5, pursuant to section 1602 of the fish and game code to the project applicant, California Conservation Corps. The project is limited to the removal of 5 acres of invasive Arundo donax from within a 6-parcel, 357.99 acre area located along San Antonio Creek. Project implementation will start with the identification of staging areas and access areas and the development of access agreements for private properties, and then arundo biomass removal, using hand-held equipment, and chipping procedures will begin. The leftover arundo rhizome masses will be treated with an herbicide using different application techniques. Regular monitoring visits will be conducted for re-treatments for either the duration of the permit or until it can be demonstrated that all rhizomes have been neutralized. Native vegetation recruitment is expected to occur in arundo removal areas and, if after two years, this has not occurred, active re-vegetation will be implemented.	NOD

	contamination associated with Solid Waste Management Unit 4 at UPI.		
	The remedial alternative includes targeted removal of soil, extraction of soil vapor and groundwater within the area where the original release took place, in-situ treatment of groundwater in the most contaminated segments of the plume, and installation of a reactive barrier along the property boundary to prevent the migration of contaminants in concentrations above aquatic habitat protection levels. The alternative also includes implementation of a long-term groundwater monitoring system, and preparation and recordation of a Land Use Covenant restricting land use to Industrial and prohibiting the beneficial use of groundwater within the surface area of the land being remediated.		
2015022058	<p>Napa Creek Village Napa, City of Napa--Napa</p> <p>The project is limited to: 1) removing and replacing an approximately 120 linear foot chain link fence within the riparian corridor; 2) installing a 15-ft wide decomposed granite pathway on the west side of the new fence, 3) installing a 72 sf bicycle parking area along the riparian corridor in the north west corner of the site, 4) installing a 5-ft by 5-ft concrete slab immediately east of the bicycle parking area for an electrical transformer box, and 5) implementing a riparian enhancement plan. CDFW is executing a lake and streambed alteration agreement no. 1600-2014-0354-3R pursuant to section 1602 of the fish and game code to the project applicant, Robert Massaro, Napa Creek Village, LLC.</p>	NOD	
2015052067	<p>Stream & Diffuser Enhancement Project Quincy Community Services District Quincy--Plumas</p> <p>CDFW has executed streambed alteration agreement no. 1600-2015-0141-R2, pursuant to section 1602 of the fish and game code to the project applicant, Quincy Community Services District (the Permittee) as represented by Larry Sullivan.</p> <p>The project consists of installation of a boulder cross-vane into Spanish Creek where the diffuser pipe is located. The boulder cross-vane will increase the immediate, on-site stream gradient, concentrate flows towards the center of the channel and its upstream end, increase streamflow velocities and turbulence within the structure and disperse flows across the channel at its downstream end. In order to construct the boulder cross-vane, an access road will be built along the south bank of Spanish Creek. The access road will be constructed using gravel from the gravel bar. The access road will be removed following construction of the boulder cross-vane. A coffer dam will be constructed to dewater the creek to allow for the installation of the cross-vane. Additional stream enhancements within Spanish Creek include: removal of a downstream sheet-pile dam that causes Spanish Creek to back up and create two large gravel bars. Following removal of the sheet-pile dam, approximately 700 cy of gravel will be removed from the creek to lower the creek to its active floodplain elevation. To help manage cattle use in the stream and riparian areas, the two fence segments that cross the creek will be removed and a new fence containing two gates will be installed on top of the north-side bank. The two gates will help provide cattle access to water and the landowner access to his irrigation pump. A temporary water gap fence will be installed. This temporary fence will be removed each year prior to the winter season. Project will result in 0.02 acres of permanent impacts in stream from</p>	NOD

2015042002	San Lorenzo River Lagoon Interim Management Program Santa Cruz, City of Santa Cruz--Santa Cruz The project is limited to the following activities: construction of a temporary lagoon breach outlet channel through the sandbar of the San Lorenzo River Lagoon to reduce water surface elevation (WSE) in the lagoon when it measures above five ft National Geodetic Vertical Datum (NGVD); WSE reduction to between four to three ft NGVD dependent upon environmental conditions at the time of breach channel outlet construction; and closure of the temporary breach outlet channel. Elevation measurements will be taken at the train trestle bridge staff plate located adjacent to the Santa Cruz Beach Boardwalk. The project will minimize impacts to fisheries resources by maintaining a stable outlet channel during the breach, avoiding a sudden decrease in WSE and preventing WSE from lowering less than 3 ft NGVD. Project activities may be repeated up to six times from May 1 to November 15 in the years of 2015 to 2016. The extent of the project area is from the mouth of the San Lorenzo River to above Water Street Bridge (approximately 1.5 miles in length) and into the lower Branciforte Flood Control Channel, while associated construction activities will take place at the sandbar of the San Lorenzo River Lagoon no further than 500 ft from the Pacific Ocean. The CDFW is executing a lake and streambed alteration agreement no. 1600-2015-0175-R3 pursuant to section 1602 of the fish and game code to the project applicant, Scott Collins, City of Santa Cruz. 2015108428	<p>Beloyed Pond Project (Lake Alteration Agreement No. 1600-2014-0229-R2) Fish & Wildlife #2 --Butte</p> <p>The CA Dept. of Fish and Wildlife has executed Lake Alteration Agreement No. 1600-2014-0229-R2, pursuant to Section 1602 of the Fish and Game Code to Carolynne Beloyed.</p> <p>The project consists of the annual diversion and storage of water for purpose of filling a pond adjacent to the creek. The existing 63 feet (ft) x 25 ft. pond is gravity fed during periods of high creek flows, when water is able to flow into the channel that leads to the pond. Once the pond is filled additional water flows over the far end of the pond. The diversion season for this pond is from November to April. Storage area of the pond is approx. 0.11 acre feet. The Agreement does not include any work within the natural creek. Maintenance of the pond may occur annually when the pond level has dropped and the work area will be dry. Activities would include dredging sediment from to maintain the pond depth. Approx. 35 cubic yards of sediment and rock will be removed from the pond during the initial dredging. The pond is located adjacent to the existing creek and separated by a berm.</p>	NOE	
2015108429	<p>AT&T Communication Line Install Project No. A00K8F (LAA# 1600-2015-0203-R2) Fish & Wildlife #2 --Calaveras</p> <p>CDFW has executed Lake Alteration Agreement No. 1600-2015-0203-R2, pursuant to Section 1602 of the Fish and Game Code to the Pacific Bell Telephone Company.</p> <p>Project consists of placement of an underground fiber optic cable using hydraulic directional drilling to replace an existing cable within the banks of Camanche Reservoir. The linear distance of the proposed cable is approx. 4,210-feet. Construction activities will be staged outside the ordinary high water mark and incorporate a stream buffer boundary to prevent permeant impacts to vegetation. The cable will be installed by hydraulic directional bore approx. 4 feet below the streambed. Surface soil disturbance will occur at each of the 8 bore pit locations. Each bore pit is expected to create a soil disturbance area of approx. 24 sq. ft. Sediment and erosion controls will be maintained down gradient of each excavation to prevent the transport of sediment. Bore pit placement and equipment staging will incorporate a minimum 100 foot buffer on each side of the wetted channel. All soil disturbances located within the reservoir's ordinary high water mark will be returned to grade. Permanent structures will not be placed within the reservoir.</p>	NOE

	building with 28 classrooms, a library, resource center, and administrative office space, a multi-purpose and food service building, hard courts and a playfield, and two parking lots with a bus drop off, and student drop off lanes. The new school facilities would be accessed from Eucalyptus Avenue via three access points.		
2015101093	Valley Plaza Shopping Center / Merkantile Development Plans Solvang, City of Buellton--Santa Barbara The Proposed Project is the reconfiguration and reconstruction of the existing Valley Plaza mixed-use shopping center in the City of Solvang. The proposed project will rebuild the existing shopping center to include 42,365 sf commercial space and 8 apartment units. The mix of tenants and uses proposed at this time will include: New Frontiers Natural Marketplace, Restaurant, Retail stores, eight second-floor residential apartments.	MND	11/25/2015
2015101094	ENV-2015-520-MND / 1142 N. Bienveneda Avenue Los Angeles, City of --Los Angeles The construction, use & maintenance of a 3-story, maximum 34-ft in height, approx. 4,102 sf (of which 3,526 sf is proposed to be Residential Floor Area per Baseline Hillside Ordinance) single-family dwelling with attached 4-car garage, basement, swimming pool, two patios & a deck on an approx. 25,110 sf Hillside property in the RE15-1-H Zone. The construction of the dwelling will include 2 retaining walls with a maximum height of 10 ft. & the export of approx. 1,200 cubic yards of earth. The project would require a Coastal Development Permit and a Haul Route approval by the Dept. of Building and Safety.	MND	11/25/2015
2015101095	SPEERS Conditional Use Permit DRC2014-00101 San Luis Obispo County Atascadero--San Luis Obispo A request by Ronald Speers and Verizon Wireless for a Conditional Use Permit to allow the construction and operation of an unmanned wireless communications facility. The proposed facility would consist of: a) nine panel antennas mounted at a height of 36 feet above ground level within the cylinder portion of a new 45-foot high faux elevated water tank; b) one new 200 sf prefabricated equipment shelter; c) one 30kW permanent diesel back-sep generator; d) one GPS antenna; e) six new Raycaps; and f) associated utility trenching for the installation of power and telco lines. The project is located on a 4.22 acre parcel and will result in the disturbance of approximately 1,050 sf for the construction of the proposed facility. The proposed project is within the Agriculture land use category and is located at 5900 Templeton Road, approximately 300 feet of Rocky Canyon Road and approximately 0.13 miles east of the City of Atascadero. The subject property is in the El Pomar-Estrella sub area of the North County planning area.	MND	11/25/2015
2015101096	Billig Parcel Map and Conditional Use Permit / SUB2013-00052 San Luis Obispo County --San Luis Obispo A request by DR. HARVEY BILLIG for a Vesting Tentative Parcel Map and concurrent Conditional Use Permit to 1): subdivide an existing 4.9 acre parcel into two parcels of 1.46 acres and 3.44 acres; and 2) construct a 2 story 36,503 sf assisted living facility (60 beds) on the 1.46 acres parcel, and a 2 story 70,419 sf hospital (behavioral health - 91 beds) on the 3.44 acre parcel including site improvements for grading, parking, and landscaping and includes a common driveway and shared parking between the proposed buildings. 2015101092	Housing Element Update 2015-2023 Taft, City of Taft--Kern The proposed project consists of the adoption of the City of Taft's 2015-2023 Housing Element, which constitutes an update to the 2008-2013 Housing Element. The purpose of the Housing Element update is to document the projected housing needs within the community and to set forth policies and administrative programs that promote the development of diverse housing types and ensure affordability of housing citywide. The adoption of the 2015-2023 Housing Element does not require or include any specific changes to the General Plan, Zoning Ordinance, Municipal Code, or the environment. The City has identified 39 adequate sites to accommodate the City's housing needs. The programs of the Housing Element are intended to ensure the continued availability of housing to meet the diverse needs of Taft's residents.	Neg	11/25/2015

2010031113	Quail Valley Sewer Improvements Subarea 9 - Phase 1 Eastern Municipal Water District Menifee--Riverside The Quail Valley Sewer Improvements Subarea 9 - Phase 1 Project will provide gravity sewer services to 149 existing homes and 66 vacant lots along Vista Way, Casa Bonita Avenue, Datil Drive, and Platino Drive, located within the Subarea 9 - Phase 1 project boundary. Approximately 1.6 miles of 8-inch diameter collection pipelines will be installed within the public right of way. Sewer laterals will also be installed that extend onto private property to connect to sewer sources and eliminate the need for septic tanks. The project also proposes to construct a new regional lift station near the intersection at Audie Murphy Ranch Road and Normandy Road. Additionally, the proposed project would construct a new transport line to convey wastewater from the Subarea 9 - Phase 1 project area, to the new regional lift station. Two alternative alignments have been considered for the transport line.	NOD

2015021038	Beverly Hills High School, Hawthorne K-8 School and El Rodeo K-8 School Improvement Project Beverly Hills Unified School District Beverly Hills--Los Angeles Note: Shortened Review The Beverly Hills Unified School District is proposing improvements at Beverly Hills High School, Hawthorne K-8 School, and El Rodeo K-8 School to rehabilitate the existing structures at each campus through architectural upgrades, seismic upgrades, mechanical upgrades, electrical upgrades, technological upgrades and plumbing upgrades. Additionally, the proposed project includes the demolition of some buildings and construction of new buildings, as well as new perimeter fencing for additional security and access control. The proposed project also includes modifications to existing and new athletic facilities, and new parking facilities. Finally, hazardous materials, primarily asbestos and lead paint are in many of the buildings and will be removed, as well as soil contamination at BHHS and El Rodeo, as part of the proposed project. The proposed project will not result in an increase in the student, faculty or staff population beyond that of the current design capacity of the schools.	EIR	11/30/2015
2015101099	ENV-2015-3100-MND / 3344 S Castle Heights Avenue Los Angeles, City of Los Angeles, City of--Los Angeles The project as proposed requires a Conditional Use Permit to authorize the installation, use & maintenance of a wireless telecommunications facility on the rooftop of an existing apartment building in the R4-1VL Zone. The facility will consist of 12 panel antennas, 12 remote radio units with A2 modules, 3 raycap surge suppressors, 1 generator, equipment cabinets, and hybrid cables mounted behind FRP screen boxes. The project also requires approval for a height of 12 ft. in lieu of the otherwise permitted height of 10 ft. allowed on the rooftop of an existing 48 ft. high building.	MND	11/30/2015
2015101100	AWMA Bridge Closure South Orange County Wastewater Authority Laguna Niguel--Orange South Orange County Wastewater Authority proposes to close and remove the privately owned bridge that crosses Aliso Creek on AWMA Road. The wooden bridge was originally constructed in 1979 to allow workers access to the SOCWA Coastal Treatment Plant (CTP). A structural evaluation determined that the bridge was nearing the end of its useful life. Because permanent access is now available to the CTP from Aliso Creek Road and given the condition and safety concerns of the wooden bridge structure, SOCWA plans to permanently close and remove the AWMA Bridge.	MND	11/30/2015
2015101101	1365 Pico Ave., Residential Demolition and Reconstruction Pacific Grove, City of Pacific Grove--Monterey The proposed project is a new 3,721 sf, single family residence located at 1365 Pico Avenue. The project includes the demolition of the existing 5,750 sf residence to construct the new two-story house with an underground basement and attached three-car garage. The site is located in the Asilomar Dunes Environmentally Sensitive Habitat Area and in the City of Pacific Grove Archaeological Overlay Zone. The proposed residence will consist of 3,311 sf of site coverage.	MND	11/30/2015

	assigned); and Tentative Tract Map (to be assigned) on 170 acres. In this case, the GPA will revise the Land Use Designation from RC:EDR to CD:MDR. Approval of the GPA would also remove the Estate Density and Rural Policy overlay from the project site. The project proposes to develop 530 units if all entitlements applied for are approved. The project will install all of the required utility and roadway infrastructure to support access and use of the property at an overall density of approximately 3.1 units per acre. Lot sizes are proposed to range from 5,500 sf to 7,000 sf. A community park is proposed to encompass approximately 15 acres in the easternmost portion of the property. This park will include facilities for individuals with special needs. The project also includes an internal neighborhood park of approximately 2 acres in size.		
2014122017	Delta Research Station Water Resources, Department of Rio Vista, Stockton--Solano, San Joaquin The Delta Research Station (DRS) will be a science and research center in the Bay-Delta, which would consolidate a number of existing and new activities into two proposed facilities, the Estuarine Research Station and the Fish Technology Center, bringing together State and Federal agency staff working on similar Bay-Delta issues. The purpose of the DRS is to enhance interagency coordination and collaboration by developing a shared research facility. The DRS would advance the interests of researchers, local communities, and others that are dependent on the Bay-Delta. The DRS is needed because current State and Federal agency staff working on similar Bay-Delta issues are spread out in different locations, located in areas remote from the Bay-Delta, or have limited resources, inhibiting efficient research and monitoring efforts and collaboration.	EIR	12/14/2015
2015041030	CHP Santa Barbara Area Office Replacement Project California Highway Patrol Goleta--Santa Barbara The CHP Santa Barbara Area Office Replacement Project is part of a statewide effort to replace aging on inadequate CHP field offices and other facilities. The purpose of the Proposed Project is to relocate the Santa Barbara Area Office and replace it with new facilities that would provide adequate workspace, equipment storage, and vehicle parking for an increasing number of employees assigned to this office. The Proposed Project would consist of construction and operation of buildings and other structures, auto service bays, a 148-foot tall radio antenna tower, secured and visitor parking areas, equipment enclosures and storage areas, a fuel island with gas tanks, an emergency generator, utility improvements, and other ancillary improvements.	EIR	12/14/2015
2013081079	Revisions to the Kern County Zoning Ordinance - 2015 C. Focused on Oil and Gas Local Permitting Kern County --Kern Note:FYI Final The proposed project consists of an amendment to Title 19 Kern County Zoning Ordinance focused on Chapter 19.98 (Oil and Gas Production) include updated development standards and conditions for oil and gas exploration, extraction, operations, and production activities in unincorporated Kern County. 2015061029	Shelter Island Boat Launch Facility Improvements Project and Port Master Plan Amendment San Diego Unified Port District San Diego--San Diego Note:Amendment to Final The Project is the repair, maintenance, and replacement of several elements comprising the Shelter Island Boat Launch Facility (SIBLF), a free public boat launching facility that provides waterfront access opportunities to the public. The purpose of the Project is to provide accessibility for users with disabilities, to provide more navigable water area within the existing breakwater basin to launch and retrieve boats, to improve boat maneuverability, to reduce boat congestion, and to improve boat safety and operations at the SIBLF. The Project does not propose to increase the number of lanes comprising the existing boat launch ramp. Pursuant to Chapter 8 of the California Coastal Act, the Project involves a Project-specific Port Master Plan Amendment. Construction of the Project is expected to begin in late 2016 and take approximately 6 to 10 months to complete.	FIN

	would be constructed within existing right-of-way or within a 40-foot easement. The Project has been refined, and differs from the Metro Plan Update EIR in that the alignment would connect the Olive Ave. and McKinley Ave. segments via Fresno St. instead of First St. This change would extend the alignment west of Olive Ave. approximately 2,000 ft. in addition, the diameter size of the regional transmission mains would all increase, except for the Temperance Ave segment which would decrease in diameter size. This environmental documentation is tiered from the City of Fresno Metro Plan Update EIR.		
2015101107	North Beach Promenade Lot 23 Mixed Use Project Oceanside, City of Oceanside--San Diego The proposed project would allow for the redevelopment of the existing approximate 1.6-acre, 178-space surface Parking Lot 23, with a mixed-use development includes 52 condominium units; approximately 9,400 sf of commercial uses; 2,200 sf of amenity and utility uses; and a 525 sf leasing office wrapped around a six-level parking structure (with one subterranean level), which would provide 438 parking spaces. The proposed project would also include the installation of a public plaza, landscaping, hardscape and utility infrastructure.	MND	11/30/2015
2015101108	Victor Valley Material Recovery Facility and Transfer Station Expansion Project Victorville, City of Victorville--San Bernardino Burrtec Waste Industries is proposing to expand the facility by adding composting, construction & demolition, and mixed waste processing activities to the site. They are proposing to revise the Solid Waste Facilities Permit (SWFP 36-AA-0346) to expand the existing Victor Valley Material Recovery Facility and Transfer Station (MRF/TS) in order to allow construction/demolition (C&D) waste, green waste, and food waste to be accepted at the site for processing. In addition, Burrtec is requesting an amendment to the Desert Gateway Specific Plan to redesignate three parcels from Light Industrial to Public Utility to the consistent with the designation of the existing MRF. Two additional parcels located on the east side of East Abbey Lane will be used for employee and visitor parking.	MND	11/30/2015
2015101109	Four Aces Movie Location Los Angeles County Palmdale--Los Angeles Note: Extended Per Lead The project is a permanent movie set. It includes interconnected sets made to appear as a motel, diner, and gas station, including interiors. The use was established in 1998 or shortly before. In 1998, a CUP was filed to legalize the use, but the permit was denied for inactivity in 2002. The movie set has remained, however. This CUP was filed to legalize the use. The majority of the property is undisturbed and no new development activity is proposed. The developed/disturbed area of the property covers 0.7 acres of the 6.15 acre site.	MND	12/16/2015
2015101110	Sun-Lite Metal Recycling - Planning Commission Case No. 2015-09 CUP Huntington Park, City of Huntington Park--Los Angeles Sun-Lite Metals Inc. is proposing to reuse an existing site located at 6301 Maywood Ave. in Huntington Park CA. Currently, the site contains a vacant building including a warehouse and office. Sun-Lite Metals Inc. will occupy all of the existing vacant warehousing. The site will be used exclusively for metal	MND	11/30/2015

	recycling, including collection, sorting, bailing, and storage of nonferrous metals. Major site modifications include demolition 303 ft. ² of the existing office area (retaining 850 ft. ² office); install four new entry doors to comply with ADA accessibility standards; and install new windows at front office.		
2015102086	Alviso Village Townhomes Santa Clara, City of Santa Clara--Santa Clara The project applicant, City Ventures, is proposing to develop a residential subdivision of 40 three-story attached townhomes on an approximately 2.097 acre level site located in the Old Quad area of the City of Santa Clara. The proposed project would consist of the construction of five three-story buildings, each providing between six and twelve units of for-sale townhomes. The buildings would have a maximum height of 40 feet. The three- and four-bedroom townhomes would be offered in three floor plans, ranging in size from approximately 1,700 to 2,000 sf. Each home would have an attached two-car garage in a side-by-side configuration. The site would include a small guest parking area with eight parking spaces, as well as common open space that would include picnic tables and a community garden.	MND	11/30/2015
2015102089	Long Ravine Pipeline Replacement Project Placer County Water Agency Colfax--Placer The proposed project involves installing a new 30-inch, 4,900 foot-long conveyance pipeline. In addition to installing the new pipeline, the project includes replacing the existing intake structure on the Boardman Canal, construction of a new flow control facility, installation of a new 24-inch pipeline between the new flow control facility and Colfax Header Box, improvements to the Boardman Canal spillway, construction of two new access roads, and demolition activities.	MND	11/30/2015
2015102090	EA 2015-0014 Hammonton-Smartsville Road Shoulder Improvement Project Yuba County --Yuba The project will include widening of the existing road shoulders by seven feet (four feet of pavement and three feet of gravel), replacement of an existing pair of culverts, improvements in drainage, and installation of pavement markings and striping. The double 24-inch culvert crossing Hammonton-Smartsville Road near station 86+05 will be replaced and extended by approximately 10 feet on the north side of the road to accommodate the widened shoulders, and will require the clearing of blackberry bushes. Rock inlet/outlet protection (12-inch minus rip rap) will be added to the outfall of the existing culvert near station 82+32. Improvements also include the construction of one metal beam guardrail approximately between stations 125 +00 and 127+00 along the south side of the road.	MND	11/30/2015
2015102091	North Beale Road Improvement Project Yuba County --Yuba The North Beale Road Complete Revitalization project spans 2.6 miles from Avondale Avenue eastward to Griffith Avenue, and proposes to transform North Beale Road into a distinctive neighborhood boulevard. The road and its developed and undeveloped edges present a sporadic mixture of suburban, rural, and commercial strip development. Changes to North Beale Road will not only signal the arrival into an important corridor, but shift motorists from higher speed	MND	11/30/2015

	improvements within the required blue-line stream setback along an unnamed tributary to Cedar Valley Creek; and to implement a preliminarily approved California Dept. of Fish and Wildlife Streambed Alteration Agreement and Proposed Stream Channel Restoration Landscape & Re-vegetation Plan. The project also includes a request for a Napa County Road and Streets Standards Exception for a shared portion of Hennessey Ridge Road (a private community drive).		
2015102085	Oroville Area Urban Greening Plan Butte County Oroville--Butte	Neg	11/30/2015
	The UGP is a program-level policy document which identifies a wide array of potential voluntary greening opportunities and sites; The UGP presents a vision for "greening" the greater Oroville community to improve public health and create a more vibrant and enjoyable outdoor environment. The Plan evaluates multimodal transportation infrastructure, recreation space, and the urban forest; prioritizes specific opportunities for greening; and includes six sites selected for conceptual site plans and design concepts to illustrate how greening might be accomplished. The Urban Greening Plan will be implemented on a voluntary basis, and future projects implementing the UGP will be subject to subsequent, site-specific environmental review.		
2015102087	Water Treatment Plant Replacement - 2015 Donner Summit Public Utility District --Nevada	Neg	11/30/2015
	The project will involve improvements to the existing water system in order to correct deficiencies in the existing treatment process. The proposed project involves the construction, operation, and maintenance of new filters, expansion of the existing treatment plant building, improvements to the existing clearwell, elimination of existing cross connections, improvements to chemical feed systems, improved backwash reclamation facilities, improvements to electrical controls, telemetry, and instrumentation, and replacement of the existing generator. The project as proposed will directly benefit the entire system. The project will assure provision of a safe reliable source of drinking water in compliance with State Division of Drinking Water standards.		
2015102088	Contra Costa County Climate Action Plan (CAP) Contra Costa County --Contra Costa	Neg	11/30/2015
	The proposed project is the adoption of the Contra Costa County Climate Action Plan, a document that provides policies and identifies actions intended to reduce GHG emissions within unincorporated Contra Costa County, consistent with Assembly Bill 32 and Executive Order S-3-05. The CAP identifies how the County will achieve the AB 32 GHG emissions reduction target of 15 percent below baseline (2005) levels by the year 2020. In addition to reducing GHG emissions, the CAP includes policies and actions that improve public health and result in additional benefits to the community such as lower energy bills and enhanced quality of life. The CAP also lays the groundwork for achieving long-term State GHG reduction goals for 2035 and 2050.

2015062091	Green Valley Road Widening Project Folsom, City of Folsom--Sacramento, El Dorado Note: Response to Comments The Green Valley Road Widening Project would widen the existing two lane segment of Green Valley Road between East Natoma Street and Sophia Parkway to provide the ultimate 4-lane width of Green Valley Road. Proposed roadway dimensions include 12 foot-wide through lanes, an 11 foot-wide dual left turn lane, and 8-foot-wide standard shoulders/class II bike lanes. These widths add up to 75 feet leaving 5 feet for a public utility easement on the north side of the road. The existing roadway easement held by the City identifies an 80 foot wide corridor through Reclamation property. Construction of the widened roadway would require the existing 80 foot wide easement to be shifted to the south.	Oth	
2009031083	Westside Subway Extension Project Los Angeles County Los Angeles, City of, Beverly Hills, Santa Monica, ...--Los Angeles DTSC has approved the RAW project in accordance with Chp 6.8 of the Health and Safety Code. The project includes the following activities as listed below to remove soil and groundwater contamination from the 2.9 acre MTA/Butterfield Site: 1) soil and groundwater data gap investigation to determine the extent of the proposed cleanup; 2) shallow soil excavation within three areas (2000 cy) and offsite disposal; 3) excavation of unconsolidated soil/fill within the proposed location 61 building footprint to a max depth of 10 ft below ground surface (bgs); 4) design and implement an In Situ Chemical Oxidation (ISCO) pilot test. MTA may develop a removal action plan for full-scale implementation.	NOD	
2010041059	Los Angeles Memorial Sports Arena Los Angeles Memorial Coliseum Commission Los Angeles, City of--Los Angeles The LA Memorial Sports Arena Redevelopment Project (Project) proposes the demolition of the existing LA Sports Arena (Sports Arena) and the development of a Major League Soccer (MLS) expansion franchise stadium with ancillary facilities at 3939 South Figueroa Street on an approximately 15-acre site, which includes the Sports Arena as well as immediately surrounding surface parking and landscape areas in the southeastern portion of Exposition Park in the City of LA.	NOD	
2012052042	Integrated Mosquito and Vector Management Program PEIR Napa County Mosquito Abatement District --Napa The District undertakes vector control activities through its program to control the following vectors of disease and/or discomfort in the program areas: mosquitoes, rats, mice, ticks, yellow jacket wasps, and other stinging/biting insects such as biting flies. The District has, since its inception in 1925, taken a proactive integrated systems approach to mosquito and vector control, utilizing a suite of tools that consist of public education, surveillance, and physical (e.g., source reduction, vegetation management, water management), biological, and chemical control. The district also performs vegetation management (including control of noxious and/or invasive plants) to facilitate access to vector.	NOD

2013112022	J & J Ranch Subdivision, 24 Adobe Lane Orinda, City of Orinda--Contra Costa Vesting Tentative Map approval of a major subdivision (MJS 13-001) and a tree removal permit (TRP 10-017) to subdivide a 20.33-acre site into 13 single family, clustered lots, ranging in size from 24,676 sf (.57 acres) to 154,569 sf (3.5 acres) and a separate 101,078 sf (2.3 acres) parcel that contains the Moraga Adobe. An open space easement, which comprises 7.95 acres incorporates creek setbacks and the majority of on-site sensitive biological areas. The project includes construction of a new access road ending at two cul-de-sacs, parking pullouts for guest parking, a bio-retention basin and pedestrian paths. The project would include installation of underground utilities.	NOD	
2013122046	Addendum to the Final (CEQA-Plus) EIR Regional San/SPA/City of Sacramento Water Recycling Pipeline Project Sacramento Regional Sanitation District --Sacramento The project would convey recycled water from the Regional San WRF and future advanced wastewater treatment plant at the SRWTP to the SPA Cogeneration plant and other future customers. The alignment contains recycled water mains, laterals, and equipment lay-down areas. The addendum adds a parallel pipeline from the SRWTP to Cosumnes River Blvd that would convey nitrified secondary treated effluent to the Regional San interceptor for odor control.	NOD	
2015042009	Site 18A Culvert Replacement and Fish Passage Enhancement Project Sacramento Area Flood Control Agency Sacramento--Sacramento CDFW has executed lake and streambed alteration agreement no 1600-2015-0079-R2, pursuant to section 1602 of the fish and game code to the project applicant, Sacramento Area Flood Control Agency. The proposed project will include the following activities: Culvert Replacement: A new, larger cross-sectional area, steel plate or concrete arch culvert (approximately 10 to 12-ft wide opening) will connect the Site 18A flood basin more directly and openly to NEMDC/Steelhead Creek, and allow for more positive drainage and fish outmigration into NEMDC/Steelhead Creek and farther downstream to the Sacramento River. The existing culvert will be removed and the new arched culvert would be installed through the bike trail berm in the northwest corner of Site 18A. Swale Modifications: Fish rearing habitat will be enhanced and fish stranding reduced by improving connectivity between NEMDC/Steelhead Creek and the Site 18A floodplain habitats. Existing interior drainage swales would be graded to provide more relief in the micro topography to further enhance outflow gradients between the creek and the basin's vegetated floodplain habitat. Habitat Enhancement: To improve rearing habitat and refugia in the basin floodplain, additional seasonal wetlands plants and riparian scrub would be planted within the Site 18A basin. Enhancement efforts will provide cover and increase habitat variability. Growth rates and canopy cover of existing and proposed new riparian vegetation would be increased by deep-ripping the underlying root-restricting layer (Riverbank Formation) that has suppressed growth rates of trees planted since 1996. Denser, higher quality floodplain habitat and cover for fish will be created at the northwest corner of the Site 18A basin to concentrate and attract fish to the culvert drainage exit.	NOD

2015108489	D10 Pedestrian Safety Improvements 10-1E060 Caltrans #10 Modesto--Merced, Stanislaus The 2012 CA Manual of Uniform Traffic Control Devices requires all new traffic signals with pedestrian change intervals to be brought up to the current standards. The project proposes to replace the existing pedestrian crosswalk indication modules and pedestrian push buttons with an Accessible Pedestrian Signal system.	NOE	
2015108490	McBeth Airfield Obstruction Removal Del Norte County --Del Norte Vegetation removal and trimming is required to clear of hazards the primary, approach, and transitional surfaces of runways 11 and 29 at McBeth Airfield, and to bring the runways into compliance with state and federal regulations.	NOE	
2015108491	Miller Site Improvement Project (LAA# 1600-2015-0145-R2) Fish & Wildlife #2 --Calaveras CDFW has executed Lake Alteration Agreement No. 1600-2015-0145-R2, pursuant to Section 1602 of the Fish and Game Code to Bill Miller. Project consists of installing features to provide lake access and provide permanent erosion control for the site. Work includes construction of stairs on the ground surface from the residence to access a proposed concrete patio and new dock/ramp. The concrete patio will require the installation of retaining walls on both the uphill and downhill sides. The dock will require driven piles to support the lake side location and anchorage to the concrete patio/retaining wall on the shore line. Rip-rap slope protection will be provided adjacent to the patio and along the slope on the northeast side. The total amount of soil excavated will be approx. 12 cy. and the impacted area will be stabilized with the installation of concrete retaining walls/patio and rip-rap slope stabilization/protection. Excavated soil will be removed from the site and deposited in an approved location. Approx. 4cy yards of rip-rap and 8cy of concrete will be installed below the 510 elevation and 7 cy of rip-rap and 26cy of concrete above the 510 elevation.	NOE	
2015108492	Himalayan Knotweed Treatment Project Parks and Recreation, Department of Trinidad--Humboldt Remove a Himalayan knotweed (<i>Persicaria wallichii</i>) infestation at 5 sites totaling .25 acres in Trinidad State Beach and Patrick's Point State Park to protect the parks from this highly invasive plant. All viable manual eradication methods have been previously used, but have not been successful. Implementation of an Integrated Pest Management strategy is necessary to prevent the plant from spreading further into the two State Parks it is currently found in. Work will: Apply Glyphosate (Rodeo) at a 2% to 5% solution or Imazapyr (Habitat) at a 1% solution with 0.25% surfactant, consistent with the manufacturer's application guidelines, to knotweed, using foliar application techniques; Add an EPA-approved blue marker dye to the solution to track which plants have been	NOE

	<p>treated;</p> <p>Apply no more than 7 oz. of herbicide in the first year, with decreasing amounts each following year;</p> <p>Apply herbicide no more than twice a year; once in the early summer and once in early fall;</p> <p>Apply herbicide for up to 5 years, or until the infestation is eradicated;</p> <p>Follow Best Management Practices (BMP) for herbicide application and handling at all times;</p> <p>Manually remove knotweed to aid in eradication;</p> <p>Dispose of knotweed by recommended methods to ensure knotweed is not inadvertently spread, and;</p> <p>Plant the treated areas upslope of Mill Creek, in Trinidad State Beach, with native seed at a time that will ensure seed germination and a high chance of plant survival. Include plants of varied rooting depths in the seed mix.</p>		
2015108493	<p>Pipeline 3 Reline Lake Murray to Sweetwater San Diego County Water Authority La Mesa, Chula Vista--San Diego</p> <p>The approved project will rehabilitate approx. 22,800 linear feet of existing Prestressed Concrete Cylinder Pipe (PCCP) within the existing Pipeline 3 of the San Diego County Water Authority Second Aqueduct. The five non-contiguous reaches of pipeline to be relined fall within an approx. 52,000 linear foot extent of the Pipeline 3 alignment where it passes through the eastern portion of the City of San Diego along Baltimore Drive in the vicinity of Lake Murray Park/Murray Reservoir; through the City of La Mesa primarily along Spring Street; and into the unincorporated County from Broadway in Spring Valley, through La Presa, to Sweetwater Reservoir in the community of Bonita.</p>	NOE	
2015108494	<p>Plumas Rock Fencing Caltrans #2 --Plumas</p> <p>Caltrans District 2 is proposing to replace existing rock fencing at two locations along the northeast shoulder of SR 70 in Plumas County at PM 61.0 (~550 ft segment) and 62.2 (~600 ft segment). The two segments of new fence will be placed higher up the bank cut slope in order to prevent errant vehicle damage. The new fencing will improve maintenance operations, requiring less effort to remove accumulated rocks and repair damaged segments. All work is proposed within the existing Caltrans right-of-way within existing disturbed areas. This is a State funded project.</p>	NOE	
2015108495	<p>Various Sign Replacement Caltrans #9 --Inyo, Mono, Kern, San Bernardino</p> <p>Project proposes to replace weathered road signs as part of maintenance to the facility and for the safety of the commuting public.</p>	NOE	
2015108496	<p>Emergency Permit for Treatment of Hazardous Waste, Onyx Pharmaceuticals Toxic Substances Control, Department of South San Francisco--San Mateo</p> <p>DTSC, pursuant to authority granted under Ch. 6.5, Cal. Code Regs., Title 22, Section 66260.61 has issued an Emergency Permit to the onyx Pharmaceuticals to treat hazardous waste by chemical stabilization. The hazardous waste items are expired and are currently being stored inside a storage area at the Onyx Pharmaceuticals. Because Onyx Pharmaceuticals does not have a permit for the</p>	NOE

2015108497	<p>treatment of the hazardous waste, DTSC has determined as a safely precaution to prevent an accident or severe injury, an Emergency Permit should be issued to chemically stabilize the hazardous waste prior to transportation off-site by Clean Harbors Environmental Services.</p> <p>CHES personnel are tentatively scheduled to arrive at the facility sometime on Nov. 10, 2015 to conduct the treatment operation, in an exclusion zone set up and maintained at the location outside the building. Only reactive materials technician from CHES will be allowed in the exclusion zone. Movement, preparation, and treatment of the items will be in accordance with established standards.</p> <p>A follow up report will be submitted to DTSC by onyx Pharmaceuticals. The report shall include certification that the treatment area has been cleared of all residual hazardous waste generated from this emergency treatment and that all generated waste has been properly disposed.</p> <p>Temporary Emergency Permit for Treatment of Hazardous Waste, JSR Micro Material Innovation (JSR) Toxic Substances Control, Department of --Marin</p> <p>DTSC, pursuant to authority granted under Ch. 6.5, Cal. Code Regs., Tit. 22, section 66270.61 has issued an Emergency Permit to JSR to treat highly reactive and/or ignitable hazardous waste by chemical stabilization.</p> <p>It has been determined that these items are or may be highly reactive and/or ignitable and must be stabilized prior to being transported offsite. The items are currently being stored inside a laboratory at JSR, located in Sunnyvale, CA. Because JSR does not have a permit for the treatment of the hazardous waste, DTSC has determined, as a safety precaution to prevent an accident or severe injury, that an Emergency Permit should be issued to chemically stabilize the hazardous waste prior to transportation off site by CHES. The treatment of the hazardous waste involves the addition of a solvent or water to containers in order to reduce the reactive or ignitable characteristics of the chemicals.</p> <p>Treatment will take place within a designated exclusion zone. Only reactive material technicians from CHES will be allowed in the exclusion zone. Movement, preparation, and treatment of the items will be in accordance with established standards.</p> <p>A follow up report will be submitted to DTSC by JSR. The report shall include certification that the treatment area has been cleared of all residual hazardous waste generated from this emergency treatment, and that all generated waste has been properly disposed.</p>	NOE	
2015108498	<p>Serrano Elementary School Renovation Project Moreno Valley Unified School District Riverside--Riverside</p> <p>The Moreno Valley Unified School District (District) is planning to replace portable classrooms with a new two story classroom building, and a new portable classroom. In addition to the new classrooms, a visitor parking lot and a student drop off area will be constructed. The project is located on a portion of the Serrano Elementary School. The physical address of the project site is 24100 Delphinium Avenue, Moreno Valley. Beneficiaries of the project would be the Moreno Valley Unified School District. Additional details are provided in the Attachment.</p>	NOE

2015108499	Lynn Water Diversion Project (Lake or Streambed Alteration Agreement no. 1600-2015-0183-R1) Fish & Wildlife #1E --Humboldt CDFW has executed a Lake and Streambed Alteration Agreement no. 1600-2015-0183-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Thorin Lynn. Project is limited installation of infiltration intake for stream diversion on an Unnamed Tributary to Redwood Creek for domestic use and irrigation. The work includes installation, use, and maintenance of the structure for water diversion.	NOE	
2015108500	Nguyen Temporary Bridge Project (Lake or Streambed Alteration Agreement no. 1600-2015-0269-R1) Fish & Wildlife #1E --Humboldt CDFW has executed Lake and Streambed Alteration Agreement No. 1600-2015-0269-R1, pursuant to Section 1602 of the Fish and Game Code to Mr. Richard Nguyen. Project is limited to installation of on temporary bridge of the purpose of removing timber under a less than 3 acre harvest exemption.	NOE	
2015108501	Jacobs Avenue Levee Geotechnical Borings Project (Lake or Streambed Alteration Agreement No. 1600-2015-0279-R1) Fish & Wildlife #1E --Humboldt CDFW has executed a Lake and Streambed Alteration Agreement NO. 1600-2015-0279-R1, pursuant to Section 1602 of the Fish and Game Code to Humboldt County Public Works Dept. as represented by Mr. Hank Seemann. Project entails five stream encroachments to conduct a geotechnical survey for a stability and hydraulic capacity assessment via borings along the levee on the north side of Eureka Slough. the geotechnical survey consists of five cross sections perpendicular to the slough with borings at four locations long each cross-section, one boring inland from slough within each parcel and three on levee (inland side, top, and slough side). Slough side drilling will be conducted from metal staging plates on non-vegetated mudflats using a small bore diameter (1.4 inches) with no drilling fluids used or soil cuttings generated, and no excessive noise or vibrations created.
