# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **September 1-15, 2009.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Acting Director

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

Arnold Schwarzenegger  
Governor

STATE OF CALIFORNIA  
Governor's Office of Planning and Research  
State Clearinghouse and Planning Unit

Cynthia Bryant  
Director

## MEMORANDUM

DATE: February 13, 2007  
TO: State Agency CEQA and Intergovernmental Review Coordinators  
FROM: Scott Morgan, Senior Planner  
SUBJECT: Distribution of Environmental Documents in CD-ROM Format

The State Clearinghouse has received an increasing number of requests from local and state lead agencies to distribute CEQA documents to state reviewing agencies in an electronic format, typically CD-ROM. The most common reason for these requests is to reduce cost. CD-ROMs are cheaper for the lead agency to reproduce and mail, and cheaper for the State Clearinghouse to distribute, especially in the case of multi-volume documents.

The State Clearinghouse has distributed EIR's and EIS's in CD-ROM format for state agency review and comment since August 1, 2003. Based on our experience with those documents, a survey conducted of state reviewing agencies and the potential cost savings to local and state agencies, we are extending this policy to other environmental documents including Negative Declarations, Mitigated Negative Declarations and Environmental Assessments. The State Clearinghouse will accept environmental documents under the following terms:

- CEQA Lead agencies may provide copies of draft environmental documents to the State Clearinghouse for state agency review in an electronic format. The document must be on a CD-ROM in a common file format such as Word or Acrobat.
- Lead agencies must provide fifteen (15) copies of the CD-ROM to the State Clearinghouse. In addition, each CD-ROM must be accompanied by 15 printed copies of the DEIR summary (as described in CEQA Guidelines §15123), executive summary, or introduction section of a Negative Declaration or Mitigated Negative Declaration. The printed summary allows both the State Clearinghouse and agency CEQA coordinators to distribute the documents quickly without the use of a computer.
- Final environmental documents may be provided in CD-ROM format without a printed summary. Distribution of the final documents is optional under CEQA.
- Federal lead agencies may send electronic copies of environmental documents to the State Clearinghouse in the same manner described for CEQA lead agencies. Distribution of NEPA documents to state agencies through the State Clearinghouse is encouraged pursuant to Presidential Executive Order 12372 and NEPA §102 (42 USC §4332)
- All notices of preparation must continue to be provided in printed format.
- Please provide one Notice of Completion Form with all submittals.

If your agency has difficulty downloading and reviewing any environmental documents please contact:

Scott Morgan, Senior Planner  
916-445-0613  
[scott.morgan@opr.ca.gov](mailto:scott.morgan@opr.ca.gov) .

Thank you for your cooperation in the CEQA review process.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
2000 through 2008**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

2008061092	New High School #2 Snowline Joint Unified School District Victorville--San Bernardino The project consists of the construction of a new comprehensive high school in unincorporated San Bernardino County, near Victorville.	<b>EIR</b>	10/15/2009
2009041010	Newport Beach City Hall and Park Development Plan Newport Beach, City of Newport Beach--Orange The proposed project would result in the relocation of City Hall (except for Fire Station No. 2) currently taking place at the existing City Hall located at 3300 Newport Boulevard to the proposed project site. The proposed project includes 8 primary components, including: (1) construction and operation of an ~98,000 sf City Hall facility; (2) a 450 space parking structure; (3) a 17,000 sf expansion of the Newport Beach Central Library; (4) a dedicated 4,800 sf Emergency Operations Center; (5) a Civic Green; (6) a 14.3 acre public park; (7) widening of San Miguel Drive; and (8) reuse of the existing City Hall structures located at 3300 Newport Boulevard with public facilities uses.	<b>EIR</b>	10/15/2009
2006042155	Hardin/Eel River Transportation and Salvage Conditional Use and Coastal Development Permits Humboldt County Fortuna--Humboldt The ERTS facility is generally open from 8:00 am to 5:00 pm Monday through Saturday. ERTS truck, recyclers, and contractors will mainly use this facility; and the public will only be allowed to use on a case-by-case basis, and only if their loads have acceptable materials and have been appropriately sorted. This facility will not be the ultimate disposal site for any hazardous materials; however, this ERTS facility will be used for the following:  Storage of backup route trucks and parts; Storage, sorting, binding/crushing, and transferring of scrap metal; Storage of green waste and woody debris over 48 hours, chipping, grinding, mixing, and transferring; Concrete, Demolition and Inerts (CD&I) storage, processing, and transferring of the construction materials.	<b>MND</b>	09/30/2009
2008051004	Site Plan Review 08-01: Sierra SunTower Generating Station - Revised Lancaster, City of Lancaster--Los Angeles The proposed project involves the construction of a 7.5 megawatt (MW) solar power generating facility. This Initial Study revises the previous one prepared to allow for potable water use in the cooling towers until December 1, 2010.	<b>MND</b>	09/30/2009
2009091003	Menifee Lake's Plaza - Tentative Parcel Map No. 34318, Plot Plan No. 2009-052, CUP No. 3487, CUP No. 2009-084, CUP 2009-085 and Variance No. 1782 Menifee, City of --Riverside TPM No. 34318 proposes a subdivision of 16.35 gross acres into 15 commercial parcels ranging in size from 0.62 gross acres to 2.41 gross acres. Plot Plan No. 2009-052 proposes a commercial shopping center with 3 major stores ranging in size from 15,000 sf to 30,000 sf, one 6,500 sf building for shops, 9 buildings for future retail use ranging in size from 3,850 sf to 11,200 sf, 1 gas service station	<b>MND</b>	09/30/2009

<b><u>Documents Received on Tuesday, September 01, 2009</u></b>			
	<p>including a car wash, lube center, gas canopy and a convenience store, and one 4 story 48,500 sf motel with 70 rooms. CUP No. 3487 is to permit the car wash, gasoline service stations, convenience store and off-site sales of beer and wine at the gas station. CUP No. 2009-084 for the allowance of off-site distilled spirits, beer and wine, for one of the major buildings which is intended for drug store/pharmacy use. CUP No. 2009-085 allows for greater building heights. The project proposes buildings which currently exceed the allowed height under the Specific Plan Zoning Development Standards. Specific Plan No. 158, Planning area 1-1, o. (2), D. requires that all buildings and structures shall not exceed 35 ft in height, unless height up to 75 ft is approved pursuant to Section 18.34. Roofs above the entrances to Major 1, Major 2 and Major 3 and the hotel exceed the required height. The heights of these roofs are as follows: Major 1-45 ft, 5 inches; Major 2-37 ft, 7 inches; Major 3-39 ft, 6 inches. In addition, the proposed hotel is 57 ft. Therefore, pursuant to Ordinance 348, Section 18.34, the conditional use permit requests to allow for a greater height limit for each of these buildings. Variance No. 1782 is an application to allow signage for the commercial development to exceed the standards of Ordinance 348 Section 19.4 ("On-site Advertising Structures and signs"). Ordinance 348 sections 19.4(a) (1) (a) and (b) allow a sign located within 660 ft of the nearest edge of freeway right of way line a maximum height of 45 ft and a maximum surface area of 150 sf; the commercial development proposes one double sided Freeway Pylon Tenant sign which is proposed to be 75 ft in height and have a total surface area of ~650 sf on each side. Ordinance 348 Section 19.4(a) (4) allows for one free standing sign except that if a shopping center has a frontage on 2 or more streets, the shopping center shall be permitted 2 free standing signs, which the commercial development proposes to exceed by having a total of 8 free standing signs which consist of 9 Tenant Identity Monument signs and 2 Freeway Pylon Tenant sign.</p>		
2009092001	<p>Parcel Map #09-08-Mark Gunsauls Tehama County Red Bluff--Tehama To create a 10.52 acre parcel, a 10.55 acre parcel and a 10.57 acre parcel in a Residential Estates - Animal Raising Combining - Mobilehome Combining - Special Building Site (10 acre minimum) Combining Zoning District.</p>	<b>MND</b>	09/30/2009
2009092002	<p>Parcel Map #09-09 - Angelo Andreini Tehama County Red Bluff--Tehama To create a 43.17 acre parcel and a 50.04 acre parcel in an Exclusive Agricultural District-Agricultural Preserve Combining Zoning District. The project site is located ~2 miles east of the City of Red Bluff on the east side Andreini Road, ~1/2 mile east of the Stice Rd/Hwy 36E intersection.</p>	<b>MND</b>	09/30/2009
2009092004	<p>Nicasio School Water System Improvement Project SDWSRF # 2100582-01 Nicasio School District --Marin The proposed project includes either drilling a new deep water well or upgrading the existing water treatment facilities to surface water treatment standards and continuing to use the existing well. The new well will be in the school property, located outside of the Nicasio Creek corridor, and located away from the existing system.</p>	<b>MND</b>	09/30/2009

	"Residential/Commercial-18". No development is proposed at this time and the environment analysis is for the amendments to the site's land use and zoning designations. The proposed project is for General Plan Amendment (GPA07-01), Zone Text Amendment (ZTA07-02), Zone Change (ZC07-01) and Local Coastal Program Amendment (LCPA07-01).		
2008072060	Natomas Levee Improvement Program, Phase 3 Landslide Improvements Project Sacramento Area Flood Control Agency Sacramento--Sacramento, Sutter The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2009-0112-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Sacramento Area Flood Control Agency (SAFCA) The Phase 3 SREL and Landside Irrigation and Drainage Infrastructure Components Project includes the following elements: Sacramento River east levee Reaches 5A-9B: Levee raising and seepage remediation, Continuation of construction of the relocated Natomas Central Mutual Water Company (NCMWC) Elkhorn Main Irrigation Canal (highline irrigation canal) downstream of Elkhorn Reservoir, Continuation of construction of the GGS/Drainage Canal south from the southern end of the canal to be constructed in Phase 2, Airport West Ditch, Encroachment management and relocation, Habitat enhancement, development, and management, Borrow site excavation.	<b>NOD</b>	
2008111007	2969 Monterey Salinas Highway Monterey, City of Monterey--Monterey Consideration of a Minor Subdivision (Commercial Condominium Subdivision) and Use Permit for two new office buildings (59,520 total sf). Building A will be one-story and encompass 23,808 sf. Building B will be two stories with 35,712 sf. The offices will be individually owned as condominiums. Water will be provided to the site by wells.	<b>NOD</b>	
2009011057	Gilardi Road Bridge Replacement Project California State Polytechnic University, San Luis Obispo San Luis Obispo--San Luis Obispo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the Project applicant, Mr. Edralin Maduli. The proposed project consists of removing an existing bridge and building a new bridge in its place. The existing bridge is a 23 feet wide, 79 feet long, 4-span timber bridge has been closed to vehicular use due to safety concerns. The existing bridge would be removed and replaced with a new two-lane bridge. The existing piers would be cut 1-foot below streambed elevation and the bridge removed in one piece. The existing abutments would be left in place to maintain bank stability. New abutments would be constructed of concrete poured outside the stream channel. A new prefabricated single span bridge would be placed on the new abutments. Potentially hazardous materials such as lead paint, creosote laden timbers, and other materials from the existing bridge would be removed and disposed of at a facility licensed to accommodate such materials. The site would be stabilized and revegetated using native plant species.	<b>NOD</b>

2009072054	Westervelt Williamson Act Constract Amendment and Grading Point Sacramento County --Sacramento The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement number 1600-2009-0040-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Hal Holland, Westervelt Ecological Services. Project proposes to build a 492-acre mitigation bank alongside the Cosumnes River near its confluence with the Mokelumne Rivers. The project proposes to modify farmed land (Wine grapes and row crops) and turn it into a tidally influenced floodplain area. The modified area will then support riparian floodplain habitat including wetlands. Approximately 21,286 linear feet of channels will be constructed to increase inundation of the riparian habitat, a total footprint of 13.4 acres.	<b>NOD</b>	
2009088228	Berta Canyon Water Storage Tank Replacement Monterey County Local Agency Formation Commission Salinas--Monterey Replace an old and leaking 120,000 gallon water storage tank with a new 120,000 gallon water storage tank and minimal grading (<50cubic yards), as the site nearly at grade. The new water storage tank will connect to an existing well and will continue to provide potable water to the existing rural residential community of the Berta Canyon area containing 300 residences.	<b>NOE</b>	
2009098001	Milford Thin Blankey Overlay Caltrans #2 --Lassen Caltrans proposes to decertify a parcel (8060-01-01) to the adjoining landowner. There are no environmental issues with this parcel conveyance.	<b>NOE</b>	
2009098002	Irrigation & Planting 5/299 SB Caltrans #2 Redding--Shasta Plant trees and install temporary irrigation along the SB onramp to Interstate 5 off Lake Blvd. SR299 in Redding. This is a follow-up landscape project to revegetate and stabilize the soil. This work falls inside the environmental study limits (ESL) of previous 02-0C680. The project is needed for this segment of I-5 to meet minimum standards for Landscaped Freeway classification (CCR Outdoor Advertising Regulations, Title 4, Division 6). The purpose of the project is to increase the "designated landscaped freeway" segments within the City of Redding boundaries.	<b>NOE</b>	
2009098003	Streambed Alteration Agreement No. 2009-0083-R4 for the Southern California Gas Company McAuliff Street Pressure Betterment Project Fish & Game #4 Visalia--Tulare Install approximately 380-feet of 4-inch diameter plastic service line by horizontal directional drilling (HDD) under Mill Creek and Evans Ditch. There will be two (2) bore pits for the HDD: bore pit #1 located approximately immediately North of the Mill Creek within the landscaped areas adjacent to McAuliff Street and #2 located approximately immediately southe of the Evans Ditch within landscaped areas adjacent to McAuliff Street. No fill would be placed within the waterways and in-channel flows will not be diverted.	<b>NOE</b>

2009098004	Agreement No. 2009-0062-R4; Huer Huero Creek At-Grade Crossing Project Fish & Game #4 Paso Robles--San Luis Obispo The proposed Project would construct an at-grade concrete low water crossing within the channel of Huer Huero Creek. The structure would measure approximately 142 feet long, 20 feet wide, and 6-inches thick. At each end of the crossing, concrete cutoff walls approximately 12-inches thick would extend 3 to 4 feet deep into the stream channel. The top of the crossing would be built at the same level as the existing stream bed surface to avoid aggradation and degradation within the channel.	<b>NOE</b>	
2009098005	Culvert Removal and Replacement Caltrans #10 Stockton--San Joaquin Remove an existing 24 inch culvert and replace it with the same diameter reinforced concrete pipe. The culvert on State Route (SR) 12 is currently rusting out causing a failure of the adjacent shoulder and east bound travel way. The project is located near Lodi, California, 0.2 miles east of Fox Road. Construction would occur on previously disturbed areas within Caltrans right of way.	<b>NOE</b>	
2009098006	Tree Removal Parks and Recreation, Department of --Tuolumne Remove a mistletoe-infested Modesto Ash tree at Railtown 1897 State Historic Park to eliminate the hazard it poses on a nearby historic building. Work will cut down the tree and will leave the stump in place.	<b>NOE</b>	
2009098007	City of Ceres Public Health, Department of Ceres--Stanislaus The existing well site is being modified to include a multi-media sand filtration vessel, a chlorine safety station, a drain to waster, and an enclosure to cover and protect existing treatment equipment.	<b>NOE</b>	
2009098008	South Fork School Water System Public Health, Department of --Kern The project consists of the construction of a new water well drilled to a depth of approximately 350-feet to replace an existing well currently exceeding the maximum contaminant level for uranium. The existing well will be maintained for irrigation uses only. In addition to the well, the school district will be installing one 7,000-gallon bolted steel water storage tank, one 1,250-gallon pressure tank, two booster pumps, piping to connect the new well to the existing distribution system, and associated appurtenances. The well and booster pumps will be enclosed within a secure wood structure with a removable roof for maintenance access.	<b>NOE</b>	
2009098095	Issuance of Streambed Alteration Agreement No. R1-09-287, Unnamed Tributary to Dry Creek Fish & Game #1 --Shasta The project proposes to install 175 linear feet of 24-inch polyethylene pipe and approximately 150 cubic yards of fill in a seasonal drainage ditch.	<b>NOE</b>

2009094001	<p>Post Authorization Change Report in Support of the PPA for Hansen Recreation U.S. Army Corps of Engineers --Los Angeles NOTE: Review Per Lead</p> <p>Campground for temporary tents, parking lot, native species planting trails, sewer line for prefab restrooms (not part of project), lighting project located in Hansen Dam Basin on Federal Land.</p>	<b>EA</b>	09/30/2009
2009011085	<p>Allensworth Corporation - Rabbit Meat Raising Operation and Vegetable Crop Production (PSP 08-109) Tulare County --Tulare Assessor's Parcel Numbers 333-370-010 (rabbity) 333-390-033, 333-400-001 and 002 (vegetable production). A Special Use Permit to establish a commercial rabbit farm for meat production, on an 8.36 acre site and 49.45 acres (5 small parcels) of vegetable production, totaling 57.8 acres. At full built out, the project will include 9,200 rabbits to be housed in rabbit barns - 40 barns are proposed with 50 cages per barn, approximately 4 rabbits per cage; 1 office; 10-15 employees at full production; 2 vertical food storage tanks; vermiculture (worm) composting operation; and vegetable production. Rabbits will be shipped live from the site. No onsite slaughter proposed. Deceased rabbits will be picked up by a rendering service. Manure will be removed from the barns monthly and composted in the vermiculture section.</p>	<b>MND</b>	10/01/2009
2009091006	<p>UCLA Weyburn Terrace Graduate Student Housing Project University of California, Regents of the --Los Angeles UCLA proposes to construct the Weyburn Terrace Graduate Student Housing project that would accommodate ~510 beds for single graduate students in studio apartments each ~380 sf. In addition, the Project would provide much needed commons and support space. The Project would consist of 2 buildings containing ~275,000 gsf. Due to existing excess supply of parking provided in the adjacent Weyburn Terrace housing complex, the proposed Project would not need to provide additional parking.</p>	<b>MND</b>	10/01/2009
2009091008	<p>El Camino Real Road Widening San Diego, City of San Diego--San Diego Site Development Permit to allow for the widening of El Camino Real from an existing 2 lane road to a 4 lane road. The widening of the road would occur on El Camino real between San Dieguito Road and Sea Country Lane. The width of the road from curb to curb would vary between 64 to 78 ft. A City standard curb, gutter and non-contiguos sidewalk would installed on the east side of the street. The west side would remain unchanged with the existing asphalt curb to remain. The project includes a new traffic signal at Sea Country Lane and modifies the existing traffic signal at San Dieguito Road to accommodate the new street section.</p>	<b>MND</b>	10/01/2009

<b><u>Documents Received on Wednesday, September 02, 2009</u></b>			
2009091009	Raw Water Pump Station Upgrades Sweetwater Authority --San Diego 1) Installation of slope protection netting on the rocky slope adjacent to the RWPS access road for protection of the RWPS and water mains along the road. 2) Provision of emergency power in the event of a regional power outage through construction of generator connection pad directly upslope of the RWPS and a power connection between the RWPS and the pad. 3) Upgrade of various components of the RWPS within its current footprint. A Habitat Loss Permit is also being processed.  *Additional location information: USGS National City Quadrangle, in an unsectioned portion of the La Nacion land grant.	<b>MND</b>	10/01/2009
2009092008	Downtown Streetscape Project Master Plan Brentwood, City of Brentwood--Contra Costa Approval of the Downtown Streetscape project. The project is located in the southeast portion of the city and encompasses all of the streets in the "Downtown Core" area. The project includes improvements to Second Street, Oak Street, Chestnut Street, Brentwood Boulevard, Maple Street and Pine Street, to be completed in 4 separate phases. Proposed improvements include widening sidewalks, converting angled parking to parallel parking, installing new street furnishings, and adding landscaped medians, street lighting and a gateway landmark.	<b>MND</b>	10/01/2009
2009092009	K2 Pure Solutions ECU and Bleach Plant Pittsburg, City of Pittsburg--Contra Costa K2 PURE SOLUTIONS NOCAL, LP and affiliated companies propose to build and operate an industrial manufacturing facility on noncontiguous areas of land within the existing site owned by the Dow Chemical Company in the City of Pittsburg, Contra Costa County, CA. The Project site, totaling 12.96 acres, consists of portions of 2 parcels: 073-220-029 & 073-220-030. The Applicant would lease the proposed Project site from Dow. The 2 manufacturing plants would include one (leased and used by Dow) for the production of electrochemical units (ECUs) and one (owned and operated by the Applicant) to produce bleach.	<b>MND</b>	10/01/2009
2009091004	B.F. Sisk Dam Corrective Action EIS/EIR U.S. Bureau of Reclamation Los Banos, Gustine--Merced NOTE: NOP, NOI-prepared separately; review per lead.  The project involves major modifications to the B.F. Sisk Dam (also known as the San Luis Dam) to improve public safety by addressing potential concerns related to the stability of the structure under extreme seismic loading conditions. The San Luis Reservoir serves as a storage facility for both the Central Valley Project and State Water Project. Potential dam modifications are being evaluated concurrently in a Corrective Action Study (CAS), being conducted by DWR and the U.S. Bureau of Reclamation. Alternatives may involve a dam raise and construction of stability berms (earthen buttresses). Dam modification would require substantial volumes of earthen materials (between 2 million and 20 million cubic yards), which would be obtained from borrow sites on federal lands in the vicinity of the reservoir.	<b>NOP</b>	10/27/2009

2008082034	<p>Kings Beach Water Quality and Stream Environment Zone Improvement Project Placer County --Placer</p> <p>The proposed Project is a first phase component of the County's Kings Beach Watershed Improvement Project, an overall watershed drainage improvement master plan for the Kings Beach area. The project is a key component to the master plan, as it will provide separation of stormwater runoff from the upper watershed (runoff generated on United State Forest Service land outside of the urban area) and urbanized runoff. This improvement will pipe runoff via county and state right-of-ways to Lake Tahoe without introducing the water to pollutants within the commercialized urban area, such as sediment, road sand, and nutrients. The commercial core improvements will mostly be constructed in a subsequent project, and will include media filters for water quality treatments. The project additionally includes urban stormwater collection, conveyance, and treatment improvements.</p>	<b>NOD</b>	
2009071017	<p>Northline Lift Station Improvement Project El Toro Water District Laguna Woods--Orange</p> <p>The project proposes to replace the existing Northline Sewage Lift Station with a new sewage lift station. The existing lift station is old and poses significant maintenance cost and safety issues for ETWD. The proposed new lift station will consist of a new wet well, new pumps, a new electrical system, and new monitoring equipment. The proposed project's new station would not significantly expand the pumping capacity of the Northline Sewage Lift Station.</p>	<b>NOD</b>

	06CDH-00000-00048). The Ocean Estate includes an ~8,042 sf residence (gross floor area; includes a 671 sf basement and 703 sf attached garage). The Inland Estate includes an ~12,413 sf residence (gross floor area; includes 1,271 sf basement). The residences include guest houses, garages and other accessory structures. An existing driveway on Hwy 101 provides access to the parcels. The project includes a shared access road and railroad under-crossing. On-site systems would provide waste-water disposal service. The Goleta Water District would provide water service. Water lines would be extended ~2,500 ft to the project site (Case No. 07CUP-00000-00065 and 09CDH-00000-00045). The Ocean Estate includes ~5,070 cy of cut/5,280cy of fill. The Inland Estate requires ~12,360 cy of cut/3,910 cy of fill. The project also includes offers to dedicate easements for public lateral access across the project site and vertical access to the beach.		
2008071119	One Valley One Vision - County Project No. R2007-01226 Los Angeles County Santa Clarita--Los Angeles NOTE: Review Per Lead	<b>EIR</b>	11/02/2009
	One Valley One Vision (OVOV) is a joint effort between the County of Los Angeles, City of Santa Clarita, and Santa Clarita Valley residents and business to create a single vision and set of guidelines for the future growth of the Santa Clarita Valley and the preservation of natural resources. Realizing that development within both jurisdictions can have regional implications, the County and City have jointly endeavored to prepare planning policies and guidelines to guide future development within the Santa Clarita Valley. The result of this work effort will require the adaption of 2 separate documents. The County will adopt a new General Plan and EIR. This EIR has been prepared to evaluate the potential impacts of the policies of the County's Area Plan.		
2008072007	City of Gridley 2030 General Plan Gridley, City of Gridley--Butte Full build out of the General Plan could result in: the construction of up to 3,850 to 4,700 housing units; Additional population growth of up to 9,000 to 12,000; addition of up to 1 to 1.3 million sf of commercial building space; addition of up to 3.2 to 4 million sf of building space for industrial, light industrial, and agricultural processing uses; and, parks; schools; open for conservation, buffering and drainage, and recreation; and other land uses.	<b>EIR</b>	10/19/2009
2007041112	Columbia Square Los Angeles, City of --Los Angeles PPD Gower I, LLC, the Project Applicant, proposes to develop the Columbia Square Project in the Hollywood community of the City of Los Angeles. The 4.68 acre project site is generally bound by Selma Ave to the north, Gower Street to the east, Sunset Boulevard to the south, and El Centro Ave to the west. The project would provide 400 residential units, a 125 room hotel, ~380,000 sf of office space, and 41,300 sf of retail and restaurant/bar uses (including restaurant/bar uses in the hotel). Included within these project uses is ~105,510 sf of the 136,233 sf Columbia Square Complex that would be rehabilitated to provide for ~91,110 sf of office uses and 14,400 sf of retail and restaurant/bar uses. In addition, a substantial part of the project would include landscaped courtyards and pathways and other open space features connecting the various proposed uses that would	<b>FIN</b>

	meet projected housing demand, as required under Government Code section 65520 et seq ("State housing element law").		
2009091012	Admiralty Way/Via Marina Intersection Improvements Project Los Angeles County --Los Angeles The project proposes to improve traffic flow be either adding a third left-turn lane from Admiralty Way to Via Marina at the existing intersection or by reconfiguring the existing "T" junction of the Admiralty Way and Via Marina intersection to create a continuous loop around Marina del Rey. The continuous loop alternative would involve the realignment of Admiralty Way away from the existing "T" intersection with Via Marina into a southward curving intersection. This curved alignment would conform to the Mother's Beach shoreline alignment and provide a roadway loop around the marina.	<b>NOP</b>	10/05/2009
2009091011	2009 Housing Element Update Grover Beach, City of Grover Beach--San Luis Obispo The project is an update of the Housing Element of the City's General plant to meet additional legislative requirements and to respond to comments generated by the State of California Department of Housing and Community Development.	<b>Neg</b>	10/05/2009
2008121074	Owens Lake Revised Moat and Row Dust Control Measures Los Angeles, City of --Inyo NOTE: Final Supplement  Los Angeles Department of Water and Power (LADWP) proposes to reduce dust emissions in the historic Owens Lake bed in order to eliminate exceedances of the federal particulate matter (PM10) standard, through construction of a landform feature called moat and row. The moat and row dust control measure, as initially configured, is a method of dust control that does not require the addition of supplemental water to reduce dust emissions from the lake bed. A moat and row element is up to an 89-foot wide disturbed linear corridor that consists of an earthen berm (row) approximately 5 feet high with 1.5:1 (horizontal to vertical) sloping sides and a base of up to 19 feet wide, flanked on the otherside by ditches (moats) approximately 4 to 5.5 feet deep and up to 20 feet wide at the widest point. Rows serve as windbreaks and the primary function of the moats is to capture sand.	<b>SIR</b>	09/15/2009
2006122030	Sierra College Boulevard Widening Project Rocklin, City of Rocklin--Placer The proposed project consists of widening Sierra College Boulevard on both sides of the road from El Don Drive to south of Interstate 80, and from the Granite Drive intersection north to Taylor Road. Grading Plan Sheets are included.  El Don to I-80. The section between Rocklin Road and the Sierra College Campus northern boundary will be widened to 5 lanes with a median (3 lanes southbound and 2 lanes northbound), and will include curb, gutter, and sidewalk along the western frontage. From this point northward, the roadway will taper down to 4 lanes without a median in order to cross Secrete Ravine utilizing the existing box culverts without lengthening the culverts. Instead, the headwalls on the culverts will be raised and retaining walls and barrier rails constructed to keep the roadway	<b>NOD</b>

	out of the creek and within the existing right of way.		
	Granite Drive to Taylor Road. This section of roadway will be widened from 2 to 4 lanes including median, paved shoulders and, as appropriate, turn lanes at intersections. Roadside drainage will be conveyed in roadside ditches. Pipe culverts located at the unnamed tributaries to Sucker Ravine will be extended to accommodate the 4 lane roadway. The existing traffic signals at Brace Road and Taylor Road will be modified to accommodate the widened roadway. Minor improvements to Brace and Taylor Roads east and west of Sierra College Boulevard will be necessary to accommodate roadway tapers and flares necessary to transition the existing roadway section to the expanded intersection at Sierra College Boulevard.		
2007012119	Clear Creek Wastewater Treatment Plant Rehabilitation and Expansion Project Redding, City of Redding--Shasta The Project will increase disinfection capacity of the Clear Creek WWTP's peak wet weather flow to 40 million gallons per day (MGD). A new chlorine evaporator disinfection system will be constructed to disinfect flows up to 40 MGD, thus increasing the treatment capacity of the Clear Creek WWTP. Project construction also includes modification of the existing aeration basins and construction of a new aeration blower building. The existing 3 aeration basins will be renovated by reconfiguring the interior basin walls, installing new baffle walls, and replacing the existing surface aerators with a fine bubble aeration system. Fine bubble diffusers will be installed on the basin floors of the second partition in each of the aeration basins. A Mixed Liquor Return and Return Activated Sludge (RAS) distribution system and a RAS flow meter vault will be constructed to support the aeration system operations. The Clear Creek WWTP's existing potable water system is used for sanitary facilities and lab samples, while the non-potable water system is used for non-potable utility water and landscaping. Piping for both of these systems will be rehabilitated, as needed, due to corrosion and insufficient flow capacity.	<b>NOD</b>	
2008032110	Channel Rehabilitation and Sediment Management for Remaining Phase 1 and Phase 2 Sites Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa--Trinity A comprehensive mechanical channel rehabilitation and sediment management project that will modify the mainstem Trinity River at 29 discrete locations to restore the anadromous fishery of the Trinity River as described in the Secretary of Interiors' 2000 Trinity River Record of Decision.	<b>NOD</b>	
2009012052	2009 Fisheries Restoration Grant Program Fish and Game (HQ) Environmental Services --Mendocino The project proposes the installation of live willow situation baffles, boulder wing deflectors, and boulder wing deflectors with digger logs planting of a combination of willow structures, shrubs, and trees; and the removal of non-native Himalayan Blackberry on Ten Mile Creek, Mendocino County.	<b>NOD</b>

2009042061	Sierra Tract Erosion Control Project, Phase 1b South Lake Tahoe, City of South Lake Tahoe--El Dorado The project proposes to construct, maintain, and improve stormwater facilities and implement erosion control practices. The proposed Project improvements include installing curb and gutter; constructing treatment facilities on vacant public parcels, or within the public right-of-way; and restoring roadside shoulder soil and vegetation. Demolition of a single-family residence (owned by the City) with subsequent stream environment zone restoration on the parcel is also proposed. The source controls included in the proposed Project area designed to stabilize soils and prevent associated nutrients from entering the storm water runoff stream. Conveyance systems for the proposed Project have been designed to minimize concentrated surface runoff by maximizing infiltration as close to the source of runoff as possible. Best Management Practices (BMPs) have been designed to treat the runoff of more frequent, smaller storm events, unlike flood control measures that are typically designed to store or convey the peak flow rates or detain sufficient volume to reduce the peak flow rate of infrequent large storm events. The improvements have been configured in a "treatment train" system to maximize stormwater quality improvement and provide multiple layers of protection for receiving water downstream of the project area (Trout Creek, a tributary to Lake Tahoe).	<b>NOD</b>	
2009042140	Nevada City Housing Element Nevada City Nevada City--Nevada The proposed project consists of the adoption of the City of Nevada City's Housing Element Update as a mandated update of the General Plan. The Housing Element Update for the City of Nevada City sets forth the City's 6 yr strategy to preserve and enhance the community's character, expand housing opportunities for all economic segments, and provide guidance and direction for local government decision-making in all matters related to housing. Furthermore, the project includes a variety of implementation programs intended to be adopted concurrently with the adoption of the Housing Element.	<b>NOD</b>

2009099001	View Watershed and Habitat Restoration Placer County Auburn--Placer This is a two phase project to enhance and stabilize 5 acres of riparian and streamside habitat along Sierra Canyon Creek, an intermittent creek in Placer County. The first phase will consist of creation of step pools and riffle pools along the creek to minimize the impacts of occasional high episodic flows within the creek and watershed. As part of this phase native riparian plant communities will be re-established to control bank erosion. This phase includes grading of ~160 cy of washed in sediments and armoring of the creek bed with placement of ~130 cy of native rock in various sizes. Water will be diverted around the work area during this phase of the project. The second phase of the project includes reconstructing the spillway from the Boardman canal where it empties into Sierra Canyon Creek. The repair and reconstruction includes creation of a flow dissipation basin to minimize the impacts of large releases from the canal on the creek. This basin will be rock lined and vegetated with native riparian vegetation to control flows as naturally as possible.	<b>NOD</b>	
2009099002	Streambed Alteration Agreement 1600-2009-0113-3/THP 1-08-021-SON Forestry and Fire Protection, Department of --Sonoma The Applicant proposed to conduct water drafting and bank stabilization on Class II watercourses in Sonoma County. The projects are associated with Timber Harvest Plan (THP) 1-08-021 SON which is located in Township 10N, Range 14W, Sections 4 and 9 of the Stewart's Point 7.5 Minute U.S.G.S. Quadrangle; Mt. Diablo Meridian. The projects are located on tributaries to Buckeye Creek which is a Class I watercourse which drains into the South Fork Gualala River watershed.	<b>NOD</b>	
2009099003	Operation of the New Colorado Well fo the City of Arcadia Public Health, Department of Arcadia--Los Angeles The new well is to replace lost source capacity from drinking water wells that have been abandoned or destroyed. The well will increase system reliability and redundancy by providing an alternative source of supply in emergency situations such as earthquake or fire, or during maintenance outages from existing wells.	<b>NOD</b>	
2008078179	Whispering Sands Mobile Home Park Domestic Water Service Project Mission Springs Water District Desert Hot Springs--Riverside Whispering Sands Mobile Home park is consolidating with Mission Springs Water District. Whispering Sands MHP currently exceeds drinking water standards for nitrate. Construction activities include the installation of approximately 650 of new 8-inch ductile iron pipe from an existing 16-inch transmission water line on 15th Ave to the Whispering Sands MHP via a SCE utility easement. Additional appurtenances will include a master water meter, blow-off, and backflow prevention device within the Whispering Sands MHP.	<b>NOE</b>	
2009068226	Meter Retrofit for the Southwest Tract Water System Sacramento County --Sacramento The project will install meters on potable water connections for 36 residential and businesses in Zone 41 Southwest Tract. 	helipad would be for personal use, and in support of ranching and viticulture operations on Seven Hills Land and Cattle Co. LLC land holdings in the vicinity of the project site, and potentially in support of emergency aircraft. The project site is restricted by a Williamson Act contract. The applicant seeks the approval of the private use airport in order to address code compliance issues.		
2009092020	Old Auburn Ranch, 2005PL-091 Roseville, City of Roseville--Placer The applicant requests approval of the following: 1) a General Plan Amendment to change 6.85 acres from Low Density Residential (1.8 units/acre) to Low Density Residential (4.8 units/acre) and 7.15 acres of Low Density Residential (1.8 units/acre) to Open Space/Floodplain; 2) a Rezone of 6.85 acres from Single Family Residential (R1) to Small Lot Residential (RS) and 7.15 acres from R1 to Floodway (FW); 3) a Tentative Map to subdivide 6.85 acres into 32 single family lots and create a 12.35 acre open space parcel (Lot A); and 4) a Tree Permit to remove up to 11 protected oak trees along Spahn Ranch Road.	<b>MND</b>	10/07/2009
2009091018	Malibu Parks Public Access Enhancement Plan - Public Works Plan Santa Monica Mountains Conservancy Malibu--Los Angeles The Malibu Parks Public Access Enhancement Plan - Public Works Plan (the Plan), includes a comprehensive set of policies and implementation measures, and identifies specific actions and park improvements, intended to enhance public access and recreation opportunities for specific park properties and recreation areas within the City of Malibu and Los Angeles County. The Plan would enhance public access and recreation opportunities by developing an interconnected system of trails, parks, open space, and habitats; by improving alternative methods of transportation between parklands; and by completing recreational facility and program improvements for the park properties, including new parking, camping, day-use and trailhead improvements, to support existing recreational demand and to facilitate an increased level of accessibility for visitors with special needs. The project also includes potential widening of, improvements to, and removal of encroachments impacting public safety along certain access roads within the project area, where necessary for ingress/egress and/or to meet standards of the appropriate fire agency(ies).	<b>NOP</b>	10/07/2009
2009091021	Barrio Logan Community Plan Update San Diego, City of San Diego--San Diego Barrio Logan Community Plan Update: The City of San Diego proposes to update the 1978 Barrio Logan/Harbor 101 Community Plan and Local Coastal Program, and Barrio Logan Planned District Ordinance zoning regulations. The Barrio Logan community encompasses approximately 550 acres and is adjacent to the San Diego Bay, U.S. Navy properties, and Interstate 5 (I-5), within the City of San Diego. The updated Barrio Logan Community Plan would provide a long-range, comprehensive policy framework for growth and development in Barrio Logan by designating new land uses, identifying the provision of additional public services and facilities in accordance with City standards, and maintaining the character that defines Barrio Logan over the next 20 to 30 years. Guided by the City of Villages growth strategy and citywide policy direction contained within the general Plan (adopted by the City Council on March 8, 2009), the updated community plan will identify a land use strategy to address and reduce land use conflicts in relation to	<b>NOP</b>	10/07/2009

	collocation of incompatible uses. The Plan will be consistent and implement the City's General Plan and will include the following 10 elements: Land Use and Community Planning; Mobility; Urban Design; Economic Prosperity; Public Facilities, Services and Safety; Recreation; Historic Preservation; Noise; and Housing.		
2009091022	Menifee Town Center Specific plan Menifee, City of --Riverside The City of Menifee is preparing an EIR for the proposed Menifee Town Center Specific Plan. Development under the Town Center Specific Plan would be a master planned community comprised of complementary commercial, recreational, civic, residential, and educational land uses. The focal point of the community would be an 89.9-acre Mixed Use Town Center (north of La Piedra Road) that would include an approximately eight-acre public park. The project could result in development of up to approximately 559,000 square feet (sf) of retail, office, and hotel uses.	<b>NOP</b>	10/07/2009
1999082018	Seminis Use Permit Modification (ZF #2009-006) Yolo County Woodland--Yolo The proposed project is a Use Permit modification for an agricultural research facility. In 1999, Seminis Vegetable Seeds, Inc. was approved for a Use Permit modification (ZF #99-040) involving a 56,750 sf office, 9,800 sf research laboratory building, and various ancillary agricultural structures totaling ~295,000 sf. Since the approval in 1999, Seminis has only constructed ~42,000 sf of building. The intent of the proposed Use Permit modification (ZF 2009-006) is to amend the number and size of future buildings on the site over the next 5 to 10 years. Seminis is proposing to add 168,000 sf of total building area, including a new 85,000 sf office and laboratory building (of which 56,750 sf was approved by ZF#99-040) and 138,360 sf of agricultural support and storage.	<b>Neg</b>	10/07/2009
2009091015	Master Case 09-094; UDC Amendment 09-004 Santa Clarita, City of Santa Clarita--Los Angeles The City of Santa Clarita is preparing amendments to Chapters 15, 17 (the Unified Development Code or UDC) and 23 of the City's Municipal code. The City of Santa Clarita Planning Commission will review amendments to Chapter 17 while the City of Santa Clarita City Council will review amendments to Chapters 15 and 23 in addition to Chapter 17. Changes associated with the updates to the Municipal Code affect property citywide and will guide future development within the City of Santa Clarita. The changes are not anticipated to either directly, or indirectly, result in any future, foreseeable development. All future development affected by these changes will be evaluated on a case by case basis to determine their impacts on the environment pursuant to CEQA. There, the findings in this Initial Study relate only to the Municipal Code changes themselves.	<b>Neg</b>	10/07/2009
2009091024	Carmel Highlands Onsite Wastewater Management Plan (OWMP) Monterey County --Monterey The Monterey County Health Department is considering the adoption and implementation of various code changes, water quality monitoring and related activities to improve the long-term management of wastewater treatment and disposal systems for the area of Carmel Highlands, which is the Carmel Highlands	<b>Neg</b>	10/07/2009

	Onsite Wastewater Management Plan. The Plan consists of the following elements: Management & Monitoring Requirements for Existing Onsite Wastewater Treatment Systems (OWTS); Code and Policy Revisions for Conventional & Alternative OWTS; Public Sewage Feasibility Study; Requirements for Domestic Water Wells; Public Outreach and Education.		
2009091025	Land Use Ordinance Amendment - Sec.22.30.090 Animal Keeping LRP2009-0001 San Luis Obispo County San Luis Obispo--San Luis Obispo Request by County of San Luis Obispo to amend Section 22.30.090 Animal Keeping, Title 22 of the County Code to change the minimum site area required for keeping horses from 1 acre gross. This change would allow horses on slightly smaller parcels than are currently allowed. The proposed change would affect all inland areas countywide and all land use categories.	<b>Neg</b>	10/07/2009
2008011034	New High School at College and Cannon Carlsbad Unified School District Carlsbad--San Diego NOTE: Recirculated / Review Per Lead  The construction of a new full service high school on an ~57 acre site in the City of Carlsbad.	<b>RIR</b>	10/26/2009
2005041041	A.E. Wright Pedestrian Bridge over Las Virgenes Creek Calabasas, City of Calabasas--Los Angeles The Applicant intends to alter the streambed by constructing a pedestrian bridge across the creek. The bridge will be ~200 ft long and 12 ft wide and will span the creek. Bridge abutments will be placed outside of the active channel. Removal of some willow woodland riparian habitat will occur, including the removal/trimming of 20 arroyo willow trees (between 2"-6" DBH) and 9 oak trees (1"-3" DBH).	<b>NOD</b>	
2007062071	Kiernan Business Park Specific Plan Amendment #4 Modesto, City of Modesto--Stanislaus This is an application to amend the General Plan to re-designate property located in the Kiernan/Carver Comprehensive Planning District, on the east side of Dale Road, between Kiernan and Bangs Avenues, from Business Park (BP) to Mixed Use (MU), and to amend the Kiernan Business Park Specific Plan to facilitate mixed use and medium-high density residential development on the east side of Dale Road, between Kienan and Bangs Avenues.	<b>NOD</b>	
2008091108	General Plan, Housing Element Update Imperial Beach, City of Imperial Beach--San Diego The is the City-initiated 2005-2010 Housing Element (4th Revision) of the General Plan/Local Coastal Program (GPA 04-01), that contain analyses, strategies, policies and programs for addressing the following goals: ensuring provision of sufficient housing for all income groups, preserving affordable housing stock, minimizing governmental constraints to providing housing, providing affordable housing opportunities for low- and moderate-income residents, and complying with all applicable laws and regulations relating to housing. MF 692	<b>NOD</b>	

## CEQA Daily Log

Documents Received during the Period: 09/01/2009 - 09/15/2009

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, September 08, 2009</u></b>			
2008112044	Cedar Boulevard Sanitary Sewer Rehabilitation Union Sanitary District Newark--Alameda The Project will rehabilitate the failing sewer pipelines. The Project consists of rehabilitating approximately 7,000 linear feet of existing 27-inch diameter and 1,184 linear feet of 30-inch diameter reinforced concrete pipe. The Project will use the cured-in-place pipe method and include a temporary bypass system that diverts the existing sewer flow around the section of pipe being rehabilitated. The Project will also include manhole restoration activities.	<b>NOD</b>	
2008121053	Arroyo Simi Bank Restoration at the Water Quality Control Plant Simi Valley, City of Simi Valley--Ventura The Applicant intends to alter the streambed by constructing bank protection along the northwest bank of the Arroyo Simi, adjacent to the City of Simi Valley's water quality control plant. A combination of rock groins and pile retard system will be installed along the failing concrete, riprap slope (existing). The pile retard system will include 9 bents. Each bent is composed of 8-15 piles, which will be driven into the ground every 6-8 ft. Each pile will be connected with rows of half-inch galvanized steel cable. Five rock groins will be constructed and will construct at a 9.5 ft width and vary in length from 25-50 ft. A portion of the bents and groins will be tied into the existing bank protection.	<b>NOD</b>	
2009012038	City of Lone General Plan Update Lone, City of Lone--Amador The proposed General Plan update project includes updates to the existing General Plan, an update to the City's Zoning Code for consistency with the General Plan, 3 proposed annexation areas, 2 proposed Sphere of Influence amendments, and a proposed alignment for a new major roadway system as described in the Western Lone Roadway Improvement Strategy.	<b>NOD</b>	
2009021038	El Monte Trail and Equestrian Staging Area San Diego County --San Diego The project proposes to establish a new multi-use trail and equestrian staging area at El Monte Park. The proposed trail will connect to an existing trail easement-the Flume Trail-dedicated as part of the Blossom Valley Estates development that adjoins El Monte Park to the south. The trail will wind in an approximate northwest direction, traversing an undeveloped hillside before entering the developed park area west of an oak grove. The trail will then cross El Monte Road at an existing crossing in order to connect to a proposed staging area on the north side of the road. The proposed equestrian staging area would replace an existing baseball/batting area. The new staging area will feature a natural surface parking lot and will remove an existing batting backstop.	<b>NOD</b>	
2009022077	2009 Draft Housing Element Humboldt County --Humboldt The Project consists of 2 parts: 1) updating the 2003 Housing Element; and 2) adoption and implementation of ordinance and plan changes. The project is required to contain many components pursuant to California Government Code Section 65583.	<b>NOD</b>

<b><u>Documents Received on Tuesday, September 08, 2009</u></b>			
2009052041	McKinney Rezone Half Moon Bay, City of Half Moon Bay--San Mateo Rezoning of a one acre site which consists of single-family residential uses, a detached utility building, landscaped areas, and expansive parking lot currently zoned Urban Reserve to a Commercial General zoning designation. The second portion of the project proposal evaluates a veterinary hospital consistent with the new zoning and General Plan change. This project is located within the Coastal Appeal Zone area; therefore, final approval can be appealed to the California Coastal Commission.	<b>NOD</b>	
2009061001	State Route 99/Avenue 12 Interchange Project Caltrans #6 Madera--Madera The proposed project would improve the existing interchange at State Route 99 and Avenue 12 south of the City of Madera in Madera County. Improvements would be made to State Route 99 on-and off-ramps, Avenue 12 overcrossing, Road 29, and Golden State Boulevard.	<b>NOD</b>	
2009071043	Aptos Pump Station Project Soquel Creek Water District --Santa Cruz The project would involve building a new pump station to permit the movement of water between the Soquel Creek Water District's (SqCWD's) Service Areas 2 and 3. The site is less than 0.5 mile east of the existing development line of Aptos Village and within 100 ft of northbound SR 1. The parcel is deep, with almost two-thirds of it covered with heavy vegetation and trees. About a third of the site on the southern end of the parcel and immediately adjacent to Soquel Drive has been cleared. The pump station would be constructed at the cleared portion at the south end of the parcel.	<b>NOD</b>	
2009071093	Imperial Beach Public Works Yard Expansion Imperial Beach, City of Imperial Beach--San Diego This is an application for Design Review (DRC 080009), Site Plan Review (SPR 080010), and California Coastal Development Permit (CDP 6-09-030) for the expansion of the Public Works yard on a 2.86 acre parcel at 495 10th Street in the Public Facility Zone. This expansion is proposed due to the expansion of the programs and staff at the Public Works Department. This project is also proposed to clean up the visual blight of the industrial activity that is occurring on the west side of the existing parking lot. The trash ramp, trash bins and waste storage adjacent to the bikeway are proposed to be relocated to the railroad track area on the south so that those on the Bayshore Bikeway are not exposed to unpleasant views along the City perimeter.	<b>NOD</b>	
2009072030	Proposed Sphere of Influence Amendment, Annexation/Detachment to Sanitary Sewer Provider Districts, Annexation to San Andreas Lighting District, & Sanitary Sewer Calaveras County --Calaveras A sewer line will be constructed from the Calaveras River Academy and Mountain Oaks Charter School, San Andreas, CA to the nearest San Andreas Sewer District (SASD) connection near Pool Station and Russel Roads, ~1,300 ft. A pump station must also be constructed. The sewer line construction requires that 2 properties	<b>NOD</b>

2009078087	El Cerrito Green Streets (San Pablo Avenue Streetscape Improvement Project) Association of Bay Area Governments El Cerrito--Contra Costa The project will integrate two rain gardens into existing sidewalks and onstreet parking areas, using curb cuts to direct stormwater into vegetated treatment basins. These green stormwater infrastructures will detain and treat urban runoff including pesticides, PCBs, mercury, and copper. To evaluate the effectiveness of the pilot project, project contractors will monitor water quality before and after stormwater flows. The project will use a series of three Internet podcasts to transfer technology to interested local government agencies.	<b>NOE</b>	
2009098034	Water Transfer from the Tehama Colusa Canal Authority Members (TCCA) to the San Luis & Delta-Mendota Water Authority (SLDMWA) San Luis and Delta Mendota Water Authority --Tehama, Colusa, Glenn, Yolo, San Joaquin, Stanislaus, ... The SLDMWA proposes to enter into a one-year transfer agreement with the TCCA to acquire a combined total of up to 30,000 acre feet of water. The water will be made available through groundwater substitution and voluntary crop shifting actions implemented early in the 2009 water year in response to a 10% CVP allocation which was later increased to 40%, creating a source of surplus water. Crop shifting actions did not include rice fields. The transfer water will be pumped at the State Water Project's Banks Pumping Plant utilizing its excess capacity. Transferred water will be delivered to SLDMWA member agencies participating in the SLDMWA 2009 Pooled Water Transfer Program to benefit agricultural water users within their respective service areas, in order to provide a small incremental water supply to supplement their allocations under south of Delta CVP water	<b>NOE</b>

2007061098	Rockwell Pond Commercial Project Selma, City of Selma--Fresno NOTE: Extended to 10-26-09.	<b>EIR</b>	10/26/2009
	<p>A regional shopping center planned for property located of Rockwell Pond consisting of about 94 acres. The Project would be developed in 2 phases. Phase 1 will be initiated as soon as annexation and city entitlements are approved and is anticipated to be complete by 2012. Phase 2 will be initiated about 5 yrs following Phase 1 and is anticipated to be completed by 2017. Together, the 2 phases would result in ~973, 100 sf of retail uses. Pre-zoning and annexation of the entire 94 acres would occur with Phase One of the Project.</p>		
2007102086	Eastern San Joaquin Integrated Conjunctive Use Program Northeastern San Joaquin County Groundwater Banking Authority Stockton, Lodi--San Joaquin NOTE: Review Per Lead	<b>EIR</b>	10/29/2009
	<p>The GBA has developed an Integrated Regional Water Management Plan (IRWMP) to define and integrate key water management strategies that will establish protocols and a course of action to implement the ICU Program. The ICU Program, in turn, will implement a comprehensive, prioritized set of projects and actions that will meet adopted Basin Management Objectives (BMOs) and provide regional benefits to area stakeholders. The primary objectives of the ICU Program are to meet GBA member water demands, secure a reliable and sustainable water supply, replenish Eastern San Joaquin County, but also other regional and State-wide water interests. The GBA has decided to conduct an environmental review of the ICU Program in accordance with CEQA and prepare a Program EIR. The Draft PEIR assesses 4 Alternatives (A-D), which are comprised of conjunctive use projects in support of the ICU Program.</p>		
2009091031	5503 SSK 1-09 GPA 4, ZCC 6, Map 143-31 Kern County Bakersfield--Kern General Plan Amendment and Zone Change to facilitate the subdivision of the property into 4 single family residential parcels, each ~5 acres in size.	<b>MND</b>	10/08/2009
2009092021	Kings Beach Gas Station Placer County --Placer The project applicant is requesting approval of a Conditional Use Permit to construct a 2 story convenience store with 8 fuel pumps. The store would be ~2,640 sf in size. The 1st floor, which would measure ~1,582 sf, would contain the convenience store and the 2nd floor, which would measure ~1,058 sf, would contain an office for the owner and a lounge area for customers.	<b>MND</b>	10/08/2009
2009092022	City of Lodi Municipal Water Well No. 28 Lodi, City of Lodi--San Joaquin Well No. 28 is a 503 ft deep, gravel enveloped water well located at 2800 West Kettleman Lane (SR 12). Adjacent to the well site is the site for a future City-owned electrical substation. The City has constructed a gravel pack well to a depth of 503 ft with a grout seal to 255 ft. There is a conductor casing with grout to the depth of 50 ft. The casing for the well is blank to the depth of 260 ft and	<b>MND</b>	10/08/2009

	perforated from 260 ft to 503 ft. At this point, the water well has been constructed as a stand-alone facility but has yet to be connected to city mains. The new well will be part of the Lodi water supply system. In the future, the City envisions constructing a tank/booster station and a substation commencing in the year 2012, and construction will be linked to timing of commercial and residential development of adjacent parcels.		
2009092023	Franz Minor Land Division Placer County Auburn--Placer The project applicant is requesting approval of a Minor Land Division to divide a parcel, measuring 15.2 acres into 3 parcels (Parcels 4A, 4B, and 4C). Parcel A would measure ~4.7 acres, Parcel 4B would be ~4.8 acres, and Parcel 4C would be ~5.5 acres. Water Service for the project site would be provided wells on site. Wastewater service would be provided by sewer Maintenance District 1 via an existing sewer pipeline that runs through the property.	<b>MND</b>	10/08/2009
2006121100	Proposed 2011 Revision of the Regional Transportation Plan (RTP) Fresno County Council of Governments Fresno--Fresno The project, as defined by CEQA Statutes, Section 21065, is the preparation of the 2011 revision of the RTP. As the designated Regional Transportation Planning Agency (RTPA), Fresno COG is mandated by state and federal law to update the Regional Transportation Plan every four (4) years. The last comprehensive EIR on the RTP was completed in May 2007, which addressed transportation improvement projects, programs, and funding reflected in the 2004 RTP together with additional funding from the proposed (now approved) ½ Cent Sales Tax Measure Extension (Measure "C"). Measure "C" did receive the 2/3rds voter approval required in order to pass in the November 2006 election. The 2011 revision to the RTP must be prepared to address possible environmental impacts resulting from its implementation and sources of funding that are available for programming. The RTP is used to guide the development of the Regional Transportation Improvement Program (RTIP). The RTIP is the programming document used to plan the construction of regional transportation projects and requires State Department of Transportation (Caltrans) approval. No project-level assessments of environmental impacts will be addressed by this SEIR. The RTP is also used as a transportation planning document by each of the sixteen member jurisdictions of Fresno COG. The members include the County of Fresno and the cities of Clovis, Coalinga, Firebaugh, Fowler, Fresno, Huron, Kerman, Kingsburg, Mendota, Orange Cove, Parlier, Reedley, San Joaquin, Sanger, and Selma.	<b>NOP</b>	10/08/2009
2009091027	San Joaquin River Reach 4B, Eastside Bypass and Mariposa Bypass Low Flow Channel Water Resources, Department of Los Banos--Merced Reclamation and DWR are proposing to prepare a joint EIS/EIR, pursuant to NEPA and CEQA, to evaluate the proposed Project. The proposed Project includes the construction, operation, and maintenance of a low-flow channel in Reach 4B of the San Joaquin River and in the Eastside and Mariposa bypasses and improvements to facilities in the Eastside and Mariposa bypasses to allow for fish passage. The purpose of the Proposed project is to comply with the San Joaquin River Settlement by improving conveyance capacity	<b>NOP</b>	10/08/2009

	(combined) Safety and Noise.		
	The Housing Element 2009-2013, has not been released, pending the State's HCD review. The Housing Element is routinely updated every 5 yrs and distributed under separate cover.		
2008072118	Amendment to Land Development Code; R-1-U as Floating Zone Mount Shasta, City of Mount Shasta--Siskiyou Amend code to establish conditions under which the R-1-U zone can be used by property owners. R-1-U zone is a floating zone and is intended for use on smaller lots within the single family residential zoning.	<b>Neg</b>	10/08/2009
2009091030	The Enlargement of the Cartwright Groundwater Recharge and Flood Control Reservoir of Lakeside Irrigation Water District Lakeside Water District --Kern The enlargement of the Cartwright Groundwater Recharge and Flood Control Reservoir of Lakeside Irrigation Water District (the District), the Project, will involve the removal of ~1.2 million cubic yards of material from the Project site for the creation of about 700 acre ft of additional storage space for surplus and flood waters for groundwater recharge. The material removed from the Project site will be transported and used for improvements of State Route 198. The Project will provide additional storage space for surplus and flood waters for groundwater recharge. The material removed from the Project site will be transported and used for improvements of State Route 198. The Project will provide additional storage space for surplus and flood waters for recharge that will provide a groundwater benefit to the landowners of the District.	<b>Neg</b>	10/08/2009
1991022072	Rural Route 180 Project Caltrans, Planning FRESNO--FRESNO The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement, pursuant to Section 1602 of the Fish and Game Code to the project applicant. Caltrans proposes to remove the existing Wahtoke Creek Bridge and replace it with a new simple span, cast in place voided Slab Bridge, with two bents located where the existing abutments are and new abutments 29' outside the existing abutments. The new bridge will be widened to the north to bring the bridge to current standards design requirements for a two-lane bridge.	<b>NOD</b>	
2006102012	Bonavita Estates Merger Resubdivision Lake County --Lake The California Department of Fish and Game is executing a Lake or Streambed Alteration Agreement number 1600-2009-0142-R2, pursuant to Section 1602 of the Fish and Game Code to the project applicant, Kurt Steil and Gary Johnson. This project will fill with native soil 300 linear feet and .03 acres of a dry unnamed tributary to Long Valley Creek. All work will occur when the tributary is dry and no sediment shall pass into Long Valley Creek. This activity will be carried out in order to develop a 530 acre upland site with 5 residential lots and a private 10-acre water sports lake. The water sports lake will be fed by groundwater, not by a diversion of surface water from any stream, lake or tributary. There is a stock pond on site, but it will not be impacted by the project.	<b>NOD</b>

2009098086	San Diego Unemployment Insurance Training Center Employment Development, Department of San Diego--San Diego The Employment Development Department will lease approximately 8,490 square feet of office space. The office space will be used for an Unemployment Insurance Branch call center.	<b>NOE</b>	
2009098087	Irrigation Pump, Pipe & Appurtenances Relocation Project (Silveira Property) Lathrop, City of Lathrop--San Joaquin The relocation of the existing pipe, irrigation pump and appurtenances on the same real property with the same pumping capacity. The new pump and pipe is located just north of the existing facilities. The location, type and make of the pump, pipe and appurtenances has been approved by the local maintaining levee district (RD No. 17). The relocated facilities will have the same purpose as the existing: to irrigate the same farm land owned by J.W and B.O. Silveira.	<b>NOE</b>	
2009098088	Mountain House Interpretive Panel Installation Parks and Recreation, Department of --Contra Costa Install the Mountain House Interpretive Panel in a new location along the Summit Trail in Mt Diablo State Park to provide information to visitors about the history of the Mountain House Hotel. Excavate two holes that measure approximately two feet wide by two feet deep; place two pedestal footings in each hole; stabilize the footings with backfilled soil, and mount the display panel on the footings. The interpretive panel, including the footings, will measure approximately two feet tall by three feet wide.	<b>NOE</b>	
2009098089	Variance For Less Frequent Sampling and Reduced Scope of Groundwater Quality Monitoring Points for the E.I. DuPont de Nemours and Company Toxic Substances Control, Department of Oakley--Contra Costa The variance allows DuPont to continue a groundwater monitoring program with less frequent sampling and a reduced scope of monitoring points compared to what is otherwise required by regulations at its facility at 6000 Bridgehead Road, Oakley, California (the Facility). Specifically, the variance allows DuPont to 1) conduct semi-annual rather than quarterly sampling at all current post closure care monitoring points established under Article 6 (Cal. Code Regs. tit 22, art. 6, section 66265.99(e)(3), Water Quality Monitoring); and 2) limit annual Appendix IX (Cal Code Regs. tit 22, section 66265.99(e)(6), Appendix IX) groundwater sampling to the designated group of point of compliance (POC) wells, rather than at all Article 6 monitoring points.	<b>NOE</b>	
2009098090	NCNG San Pablo To Richmond 18" PIM Repair Regional Water Quality Control Board, Region 2 (San Francisco Bay), Oakland Richmond--Contra Costa Chevron Pipe Line Company will conduct maintenance activities at three sites on an existing 18-inch natural gas pipeline, designated as sites 104, 106 and 107, in Richmond, California. Maintenance activities for the pipeline include inspection and, if necessary, repair. The work sites will be accessed along the pipeline right-of-way (ROW) and via temporary access roads. Beneficiaries include public safety, landowner, and Chevron Pipe Line Company.	<b>NOE</b>

	alignments/routes.		
2008011006	<p>Figueroa and Adams Student Housing Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>The project proposes the development of a 145 unit residential building, associated parking resident and visitor use, and replacement parking for the adjacent church. The Project is designed to provide housing for students attending local educational institutions. Faculty and staff of these educational institutions may also live in the Project. However, up to 10% of the units could also be made available to non-student, faculty, and staff residents. The proposal includes the development of a multi-story structure with 5 levels atop 2 levels of subterranean parking. The upper 4 levels would contain residences, while the lower (ground) level would be reserved for parking for the church, and a lobby and lounge for the residential uses. The 2 subterranean parking levels would be reserved for use by residents. The residential component of the building would total 131,009 sf.</p>	<b>EIR</b>	10/26/2009
2008052033	<p>Water Hyacinth Control Program Boating and Waterways, Department of West Sacramento, Stockton, Oakley, Sacramento--Alameda, Contra Costa, Fresno, Madera, Merced, Sacramento, ...</p> <p>The DBW has 6 crews conducting WHCP treatments (plus one Fresno County crew, and one Merced County crew). Treatments begins April 1st or April 15th in selected areas, however, the main region of the Delta can only be treated between July 1st and October 15th, to avoid potential impacts on fisheries. In 2008, approximately 84 percent of herbicide use, and 80 percent of acreage treated, utilized 2,4-D (Weedar 64). The remaining acreage was treated using the aquatic herbicide glyphosate (Rodeo Herbicide or Aquamaster). Both chemicals are used with an adjuvant surfactant, Agridex, to increase adhesion to water hyacinth leaves and reduce drift.</p> <p>The DBW has divided the WHCP into 368 treatment sites that average between one and 2 miles in length. Sites may be treated multiple times during a treatment season. Treatment sites are prioritized so that nursery areas, and areas with public, agricultural, or industrial impacts are treated first. Logistical factors such wind, travel time, and weather area also taken into account when selecting treatment times and locations.</p>	<b>EIR</b>	10/26/2009
2008112089	<p>Oakley Downtown Specific Plan Oakley, City of Oakley--Contra Costa NOTE: Review Per Lead</p> <p>Adoption of a Specific Plan to implement GP policies and goals for Oakley's downtown. The Plan area totals 80 acres and contains a range of land uses and types of development including: older storefront commercial buildings; small-scale highway commercial development; light-industrial; auto-related development; and residential uses. Approximately 29 acres are vacant. As part of the improvements to the downtown, a Main Street Realignment would be constructed to help reduce through traffic and create additional street frontage to accommodate downtown business and pedestrian traffic. Implementation of the Specific Plan could result in development of up to 300 dwelling units and 360,000 square feet of commercial space, anticipated over a 10 yr time frame.</p>	<b>EIR</b>	10/28/2009

2009021068	<p>Reedley Family Apartments - General Plan Amendment No. 2007-1, Change of Zone No. 302, &amp; Conditional Use Permit No. 446 Reedley, City of Reedley--Fresno</p> <p>The project applicant is proposing to construct an 80-unit apartment complex consisting of five two-story walk-up buildings ranging in size from 12,640 square feet to 16,416 square feet on a 3.7 acre site. The units will range in size from 572 to 1,027 square feet (1-3 bedrooms) and the complex will contain 1.4 acres of open space area, parking for 176 vehicles, a clubhouse (with community room, office, laundry room, kitchen, and bathrooms) and landscaping throughout the site. Other features will include perimeter fencing and on site lighting to illuminate the property for safety and security. The Project includes a General Plan Amendment to re-designate the land use to High Density Residential, and a Zone Change to re-zone the property to RM-2 (Multi-Family Residential - one Dwelling Unit per 2,000 sq. ft.).</p>	<b>EIR</b>	10/26/2009
2008062058	<p>Sutter Bypass East Borrow Canal Water Control Structures Project Water Resources, Department of --Sutter NOTE: Review Per Lead</p> <p>The proposed project involves the replacement of 2 weirs and their associated fish ladders on the East Borrow Canal of the Sutter Bypass Weir No. 2 and Willow Slough Weir. The new structures will perform the same functions as the existing structures, but with the improved operational safety and efficiency. Construction will occur from May 2010 to October 2011.</p>	<b>MND</b>	10/13/2009
2009031092	<p>Embly Minor Subdivision San Diego County --San Diego NOTE: Review Per Lead / Revised Portions</p> <p>The project consists of a General Plan Amendment (GPA), a Zone Reclassification (REZ), an Agricultural Preserve Disestablishment and a Tentative Parcel Map (TPM) to subdivide a 9.79 acre parcel into 4 lots and a remainder parcel. The proposed lot size would range from 1.36 to 3.32 gross acres. The Agricultural Preserve Disestablishment would remove the agricultural designation on the property which currently requires a minimum lot size of 10 acres. The GPA and REZ would amend the General Plan and Zoning to allow an increase in density to minimum 1.0 acre parcels. The proposed GPA would change the Regional Category from (1.6) Environmentally Constrained Area (ECA) to 1.1 Current Urban Development Area (CUDA) and change the Land Use Designation from (20) General Agriculture to (1) Residential which would allow one dwelling unit per one, two or four acres. The proposed GPA would permit parcel sizes of 1 acre gross on all proposed lots except Parcel 4 and the Remainder Parcel, which must be 2 acres gross due to slopes. The REZ would maintain an (A70) Limited Agricultural Use designation, but it would change the minimum lot size from 10 acres to 1 acre and remove the "A" Agriculture Preserve Special Area designation.</p>	<b>MND</b>	10/20/2009

2006031060	The Canyons: Bakersfield, CA Bakersfield, City of Bakersfield--Kern Development of residential, commercial and recreational development on approximately 889 acres. The proposed project consists of amendment to the Land Use and Circulation Elements of the City of Bakersfield General Plan, amendment of the Northeast Bakersfield Specific Parks and Trails Plan, rezoning, and subdivisions for mixed-use including approximately 1,214 single and 120 multiple family residential units, 8.15 acres of commercial, recreational areas, trails, parks and open space. The proposed project also includes the tentative cancellation of a Williamson Act Contract on 201.20 acres within Kern County Agricultural Preserve No. 14, and the exclusion of 243.20 acres from the boundaries of Kern County Agricultural Preserve No. 14.	<b>NOD</b>	
2007042078	Use Permit 06-016 Hatchet Ridge Wind Project Shasta County --Shasta The project proposes to widen an existing unimproved road crossing, including culvert replacement and armoring the culvert inlet and outlet. The road widening project is part of the larger Hatchet Ridge Wind Project.	<b>NOD</b>	
2008011019	Road 620 Shaded Fuel Break Coarsegold Resource Conservation District --Madera The proposed project is the establishment of Defensible Fuel Zones Profiles and fuelbreaks designed to reduce excessive fuel buildup at the wildland-urban interface in the Ahwahnee-Oakhurst Basin between private lands and U.S. Forest Service-Sierra National Forest. It consists of treating 12.1 miles in old growth mature decadent Oak-Chaparral-Grass vegetation types, up to 300' wide creating a shaded Fuelbreak on a total of up to 440 acres.	<b>NOD</b>	
2009041141	Housing Element of the General Plan, 2008-2014 Update Marina, City of Marina--Monterey The proposed project is the adoption by Marina City Council, and certification by the State Department of housing and Community Development, of the City of Marina Housing Element 2008-2014. The update process evaluated the 2000-2007 Housing Element and analyzed effectiveness of its goals, policies, and programs. Proposed policies and programs have been updated and modified to reflect current needs.	<b>NOD</b>	
2009062021	Phase II - RD 17 100-Year Levee Seepage Project Reclamation District 17 Lathrop--San Joaquin The project involves work at 9 levee reaches along the landside of the east bank levee of the San Joaquin River, from the southern boundary of the City of Stockton, and to the western boundary of the City of Manteca. At 8 of the 9 reaches, seepage berms would be constructed along the landslide levee toe. At one site, acquisition of an easement on land along the levee toe is needed to perform various maintenance and site cleanup activities. Construction of seepage berms will increase the RD 17 levee system's resistance to underseepage.	<b>NOD</b>

2009071120	Ramona High School Football Stadium Renovation Riverside Unified School District Riverside--Riverside The project would involve the removal of the existing track and field, visitors bleachers, and stadium field lighting. New home bleachers with 2,500 seats would be built, increasing the stadium capacity from 4,200 to 5,500 seats. A new track and field with artificial turf would be installed. Two new buildings totaling about 6,000 sf would be built, plus a paved parking lot with 124 spaces, as well as new field lighting. The existing ball fields would also be modernized.	<b>NOD</b>	
2009082000	Yuba Community College District Colusa County Outreach Facility Yuba Community College District Williams--Colusa The 4.3 acre project site (a portion Valley Ranch Unit 6, Phase 1) is located north of E Street and west of Husted Road in the City of Williams. The proposed educational facilities would consist of 4 classrooms, offices for administrative and student services, and a conference room. The proposed building is ~9,800 sf in size. Located at the intersection of proposed Ella Street and Margurite Street, the site would have access from Husted Road and E Street. It is anticipated that construction would begin in 2009 and would be completed in 2010. YCCD estimates that ~120 students in 4 classrooms.	<b>NOD</b>	
2009068150	Water Service Retrofit Project - Phases 2B, 8, and 9 Sacramento, City of Sacramento--Sacramento This project consists of the installation of water meters on existing commercial and residential water services throughout the city of Sacramento.	<b>NOE</b>	
2009098091	Ballona Creek Low Impact Development (LID) Rain Infiltration Gardens Culver City Culver City--Los Angeles Santa Monica Baykeeper (SMBK) in coordination with the City of Culver City Public Works Department and the Los Angeles County Public Works Department proposes to install four LID rain infiltration gardens in the Los Angeles flood control right-of-way along Ballona Creek. The rain gardens will receive runoff from commercial / industrial development and residential development in Culver City. The rain gardens will be designed to capture, treat, and infiltrate stormwater runoff from a rain event. Additionally, the LID gardens will be fitted with both inlet and outlet filters that treat for metals, trash, nutrients, and hydrocarbons.	<b>NOE</b>	
2009098092	Copeland Creek Bank Repair California State University, Sonoma Rohnert Park--Sonoma Stabilize rapidly eroding bank. Benefits Sonoma State University, Habitat currently impacted by additional sediment and general public and avoid threat of sewer manhole failure.	<b>NOE</b>	
2009098093	Grizzly Flats Overflow Culvert Replacemetrn Project Fish & Game #2 --El Dorado Project proposes to remove and replace two existing 24" x 30' culvert overflow pipes at Grizzly Pond. Work will be done from a existing service road. No vegetation will be removed.	<b>NOE</b>

2007052068	Highlands Estates San Mateo County San Mateo--San Mateo NOTE: Recirculated; Extended Review Per Lead  The Project Applicant is currently proposing a series of actions that would result in the development of 11 residential lots, covering a total of approximately 4.53 acres. The portion of the project site zoned RM would include the development of nine lots, while the other two proposed dwelling units would be constructed on the single-family residential portion of the site. The subdivision plus the additional residential lots would result in a total of 11 single-family home lots, and 92.43 acres of the site would be designated as open space. Lots 1 through 4 would be located along Bunker Hill Drive, along the northern boundary of the site, and lots 5 through 8 would be located along Ticonderoga Drive, along the southern boundary of the site. Lots 9 and 10 would be located at the end of Cobblehill Place at the south side of the project and lot 11 would be located at the end of Cowpens Way in the southwesterly portion of the project site. Additionally, there are 2.08 acres of land owned by California Water Company that are completely surrounded by the 92.43 acres proposed for open space. These 2.08 acres are not part of this project. Access to this water tank area is provided from Yorktown Road.	EIR	11/09/2009

<b><u>Documents Received on Monday, September 14, 2009</u></b>			
2008081082	<p>City of Selma General Plan Update 2035 Selma, City of Selma--Fresno NOTE: Extended to 10-30-09.</p> <p>The proposed General Plan Update is a comprehensive update of the City's General Plan consisting of the following elements: Land Use, Circulation, Noise, Safety, Open Space, Conservation and Recreation, and Public Services and Facilities. The Housing Element is not a part of the General Plan Update and is being updated separately. The proposed project includes a Background Report and a Preferred Land Use and Circulation plan to guide growth through the planning period (2035) and beyond. The Plan Update also includes 40,000 population and 70,000 population Urban Development Boundaries that limit development to within those boundaries until specific population thresholds are met.</p>	<b>EIR</b>	10/30/2009
2008111082	<p>Joshua Basin Water District Recharge Basin and Pipeline Project Joshua Basin Water District --San Bernardino</p> <p>JBWD proposes to construct one recharge basin facility that would be ~20 to 25 acres in size, and an extension of the Morongo Basin Pipeline from its existing terminus on Yucca Mesa Road to the new basin. Three alternative locations for the recharge basin are considered in the DEIR at an equal level of detail. The project would require a total of 29 acres for basin construction, which would include 22 wet acres; and would also involve construction of multiple (up to 6) 6 to 7 ft deep subbasins within the recharge basin. Subbasins would be separated by overflow earthen weirs, allowing water to flow from subbasin to subbasin as needed. Control valves (housed within a small building on the site) would be used to add water to the subbasin, as necessary.</p> <p>Water levels within the basins would not exceed original grade elevation and would be maintained at depths of three to five ft. Annual average recharge is anticipated to be ~2000 acre ft per year. However, with the availability of water being less than a full year, each site would be designed to allow the 2,000 acre ft per year recharge with a 50% water delivery scheduled. Therefore the recharge basins would be designed to accommodate a total capacity of up to ~4,000 acre ft fo half of the year to meet the goal of 2,000 acre ft per year of recharge. The earthen berms would visually screen the basin; an 8 ft chain-link fence would surround the site.</p> <p>The proposed pipeline would include up to 24,000 linear ft of 16-24 inch diameter pipe connecting to the existing Morongo Pipeline at Yucca Mesa Road. The pipeline would be constructed within existing roadway rights-of-way.</p>	<b>FIN</b>	
2009092046	<p>Advanced Fuel Filtration Systems, Inc./East Walker River Oil Spill, Bridgeport, California, Mono County Fish &amp; Game #2 --Mono</p> <p>Under the Oil Pollution Act of 1990, the Natural Resource Trustees prepared the Rp/EA to assess injuries and evaluate restoration alternatives for natural resources injured by the East Walker River Oil Spill. The RP/EA describes multiple restoration actions to benefit natural resources and compensate for loss of recreational services including wildlife habitat projects, in-stream and riparian habitat projects, and recreational/human use projects.</p>	<b>FON</b>	10/13/2009

	will be completed within 12 months of commencement, and Phase II is planned for completion within 3 yrs, depending on funding. The ultimate bikeway alignment is comprised of a combination of Class I and Class II/III facilities commencing at Eaton Road to the north and traversing south to Southgate Avneue. The bikeway will be located on surface streets, drainage easements, and City parkland and will complete gaps between existing bicycle paths, lanes, and routes currently located primarily on the east-side of the State Route 99 right-of-way. Associated safety devices, including lighting, fencing, controlled crossings and median refugesm will be incorporated where appropriate.		
2009092042	Woodbridge Irrigation District-City of Stockton Water Transfer Woodbridge Irrigation District Lodi, Stockton--San Joaquin NOTE: Review Per Lead	<b>MND</b>	10/19/2009
	Woodbridge Irrigation District would sell and deliver to the City of Stockton up to 6,500 acre ft of water per year during the months of March through July of each year, to be diverted from the Mokelumne River under WID's pre-1914 water rights, plus up to an additional 6,500 acre ft annually, conditioned upon Stockton's future annexation of agricultural lands within WID which are as a result taken out of agricultural production. The water being sold to Stockton is available as a result of water use conservation practices and conversion of agricultural lands to urban uses within WID. Water should be diverted at Woodbridge Dam and conveyed to Stockton via WID's existing canal system, with improvements being made to the Wilkerson Lateral canal, and delivered to Stockton's planned new Delta Water Supply Project Treatmant Plant, for use by the City of Stockton.		
2009092043	Fawn Lodge Forest Fire Station Replacement Project Forestry and Fire Protection, Department of --Trinity The project involves the demolition of the existing Fawn Lodge Forest Fire Station buildings and the construction of new buildings, structures, and appurtenances on the existing 3.62 acre site at 60 Fawn Lodge Road, Lewiston, CA 96052.	<b>MND</b>	10/13/2009
2009092044	Truckee River Legacy Trail Phase 3A Truckee, City of Truckee--Nevada NOTE: Review Per Lead	<b>MND</b>	10/22/2009
	The Town of Truckee is proposing to construct a 3,859 ft long section of a paved bicycle and pedestrian trail between the existing Phase 2 of the Truckee River Legacy Trail at Riverview Sports Park and ending at an overlook above the Truckee River just southwest of the Tahoe-Truckee Sanitation Agency Wastewater Treatment Plant.		
2004051060	2020 Master Plan LAC Improvements Long Beach Community College District Long Beach--Los Angeles The 2020 Unified Master Plan provides a prioritized program of work incorporating the 2004 LAC Master Plan and the space and building needs identified to the year 2020. After the reductiono f the eliminated Master Plan improvements, the LBCC 2020 Unified Master Plan LAC improvements would result in an estimated increase over the 2004 LAC Master Plan of 25,480 sq. ft. of renovation, 99,421 sq. ft. of new constructon, and 27,792 sq. ft. removed.	<b>NOP</b>	10/13/2009

2002101020	Orange County Great Park Plan EIR Irvine, City of Irvine--Orange The project consists of the following actions: General Amendment (00470036-PGA) to amend the General Plan Land Use Element and the Circulation Element for Planning Areas 30 and 51, Zone Change (00470039-PZC) to modify development standards in section 3-37-39 and text and the statistical analysis in chapters 2-9, 9-30, and 9-51 of the Zoning Ordinances for Planning Areas 30 and 51, and an amendment to Orange County Great Park Development Agreement (00470035-PDA) between the City of Irvine and Heritage Fields El Toro LLC; pertaining to property Planning Areas 30 and 51.	<b>NOD</b>	
2003011028	Lawrence Welk - Garden Villas Planned Residential Condominium Development; TM 5134RPL^6, P98-015, P83-060M^3, Log No. 98-08-025 San Diego County Unincorporated--San Diego The project is a Tentative Map and Minor Use Permit to subdivide 20.89 acres into 2 lots to accommodate 177 time-shares. The Minor Use Permit granted a height exception to allow the construction of cupolas 15' above the 35' maximum height.	<b>NOD</b>	
2003092084	South Bay Aqueduct Improvement and Enlargement Project Water Resources, Department of --Alameda As part of the improvements and expansion of the South Bay Aqueduct Brushy Creek Pipeline 3 will be constructed in Alameda County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0856-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Terry Becker, California Department of Water Resources.	<b>NOD</b>	
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz This Project will reduce sediment delivery to Branciforte Creek on Branciforte Drive near the City of Santa Cruz. The project proposes using redwood logs with rootwads attached with rocks and logs keyed in along the toe for ~40 ft of bank. The logs will be held in place with 4 soil anchors per log. Footer logs, a minimum of 18 inches in diameter, will be placed and keyed below scour depth. D100-48-inch rock will be placed on top of and in between the logs at the toe. Total volume of materials is estimated to be 7.5 cy of timber, 6 cy of gravel, and 20 cy of rock riprap.	<b>NOD</b>	
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz This Project would remove a concrete apron, a piece of concrete lip, and broken concrete piece, which is currently narrowing streamflow on Lompico Creek on Carrol Avenue off of Lompico Road in Zayante, Santa Cruz County. Removing ~2 cy of the concrete would allow the sandy, porous material which has built up behind the structure to flush out and facilitate unobstructed stream flow. If large equipment is used, 2 excavators will be staged on the bridge, one breaking up the concrete while the other lifts the pieces out and disposes them into a dump truck. Traffic control will be provided for the other lane of the bridge. If hand-held equipment is used, a rock saw or similar equipment will be used to break up the	<b>NOD</b>

	concrete. An excavator, dump truck, skid steer (Bob Cat), crane and loader will be used.		
2004112063	Master Permit for Env. Enhancement Projects Santa Cruz County Capitola--Santa Cruz This Project will improve access to potential spawning and rearing habitat for endangered South-Central California Coast (SCCC) steelhead ( <i>Onchynus mykiss</i> ) through the removal and replacement of the failing undersized culvert with a bridge. Habitat will be improved with a roughened channel, designed to accommodate fish passage through the steep stream reach while conveying peak flows and associated debris. The roughened channel design contains rock cascades, boulder weirs, resting pools, and large wood structures, which form a complex flow pattern with variations in depth and velocity to provide numerous paths for migrating fish. Rock slope protection and revegetation will protect steep banks from erosion, while providing habitat for aquatic species.	<b>NOD</b>	
2007032076	DeMartini Manufactured Cabins Grass Valley, City of Grass Valley--Nevada The California Department of Fish and Game is executing Lake or Streambed Alteration Agreement Number 1600-2009-0124-R2; pursuant to Fish and Game Code to the project applicant, Timothy DeMartini. Installation of a 12" stormwater outflow culvert into the bank of Wolf Creek above the normal high water line. The bank of the creek will be armored around the outflow culvert to protect the bank from erosion and to act as a flow dissipater. Work will be completed using a backhoe and manual labor with hand tools. The site will be re-seeded with native grasses upon completion of the culvert installation.	<b>NOD</b>	
2007112082	2008 Enterprise Zone Re-application Oakland, City of Oakland, Emeryville--Alameda The proposed project is a re-application by the City of Oakland for the California State Enterprise Zone, to continue the existing designation that began in 1993 for the next 15 years. The proposed project area consists of 73 census tracts and covers approximately 23,500 acres, including most of the City of Oakland west of I-580, and portions of the City of Emeryville. The project will continue the annual hiring of 4,500 employees in the project area, through a package of economic development incentives. The area within the project boundary is fully urbanized, and the proposed re-designation does not require any new commercial or industrial development. No land use changes to either the General Plan or the Planning Code are expected because of the proposed project.	<b>NOD</b>	
2008061141	Goleta Sanitary District Wastewater Treatment Plant Upgrade Project Goleta Sanitary District Goleta--Santa Barbara The Proposed Project involves the upgrade of liquids and solids treatment facilities at the Goleta Sanitary District to achieve full secondary treatment by 2014.	<b>NOD</b>

	<p>alignment. The trail would be an ~1.7 mile long and 10 ft wide AC path, with landscaping, irrigation, and fencing (along portions). The trail would be constructed behind existing/new roadway curb/gutter. Notable infrastructure improvements are: Collins Ave. undercrossing; new pavement, curbs/gutters and driveways, and widening the Hewes St. pavement; a new box-culvert and headwall within Alameda Channel; and an interim gravel trail staging area for ~10 parking spaces. The Project would involve a total disturbance area of ~12.51 acres during construction and a total permanent impact area of ~6.46 acres at completion. The trail improvements would require localized excavation to depths ranging from ~1.5 ft for the typical trail segment to 20 ft for the undercrossing. Approx 1,300 cy of soil would be imported and 12,750 cy would be exported. The ~9 month construction period includes ~3 months beginning in Spring 2010 for the Hewes St. Segment, 2 months beginning in Winter 2010 for the Villa Park Rd/Santiago Canyon Rd/Cannon St Segment, and 4 months beginning in Summer 2011 for the Collins Ave. Segment. Construction of the undercrossing would require closure of all traffic lanes along the Collins Ave. Segment for up to 120 days. A southbound to westbound free right-turn lane at the intersection of Villa Park Rs. Santiago Canyon Rd and Cannon St., which was also a part of the Cannon Street Roadway Widening project evaluated under MND ENV 1776-05, would be constructed concurrently with the proposed bike trail Project.</p>		
2009071100	<p>City of Guadalupe 2009 Housing Element Update Guadalupe, City of Guadalupe--Santa Barbara The proposed project is an update of the City of Guadalupe 2004 Housing Element. A Draft Housing Element Update has been prepared by the City to comply with the legal mandate that requires each local government to adequately plan to meet the existing and projected housing needs of all economic segments of the community. The proposed Housing Element update sets forth goals, objectives, policies, and programs that together evidence the ability to meet the City's projected fair share of regional housing needs by the year 2014. The number assigned to the City of Guadalupe pursuant to the Regional Housing Needs Allocation process is 88 new dwelling units. The current Land Use Element designates land sufficient to meet this requirement, and as such, the City will have sufficient land resources to achieve the new RHNA allocation for the 2009 Housing Element without the need for rezoning land to increase residential densities. The Housing Element does not require the construction of these units but rather establishes policies that will allow for and support their development.</p>	<b>NOD</b>

2009091053	Conditional Use Permit No. 3464 Riverside County --Riverside Conditional Use Permit No. 3464 proposes to permit an existing operation of a hunting club. The existing development is comprised of 11 RV/Trailer parking spaces, an 8 ft by 12 ft tool shed, and the existing well that serves the property. The proposed improvements that will occur only on the southerly 2 acres include 8 additional RV parking spaces, two 10 ft by 40 ft storage containers, 20 automobile parking spaces, two 7,500 gallon water storage tanks, a trap and skeet range area, and portable restrooms used only during the 5 month hunting period.	<b>MND</b>	10/14/2009
2009091056	Seebaugh Monterey County --Monterey Combined Development Permit consisting of a Coastal Administrative Permit for the construction of a 3,771 sf single family dwelling with an attached 280 sf carport, permanent well (PLN080262) and alternative septic system design; and coastal development permit for development within 100 ft of environmentally sensitive habitat (Rocky and Brandon Creeks). The property is located at 38250 Palo Colorado Road, Carmel, Big Sur Area Coastal Zone.	<b>MND</b>	10/14/2009
2009091057	Rock Energy Production Plan Santa Barbara County Santa Maria--Santa Barbara The Tunnel Lease Oil Drilling and Production Plan project is a request of Mr. John Stahl, agent for Rock Energy, LLC, landowner, to consider Case No. 08PPP-00000-00001 (application filed in June 5, 2008) for approval under the Land Use and Development Code to reinstate oil exploration and production operations on the previously established Tunnel Oil Lease.  The project includes 5 major components: 1. 19 new oil wells and one water injection well. 2. One 25 MMBTU/hr steam generator. 3. Construction of a new tank battery. 4. Steam, water, natural gas and oil pipelines (including truck loading racks). 5. Electric power poles and conduit.	<b>MND</b>	10/14/2009
2009091058	Foothills High School San Marcos Unified School District San Marcos--San Diego The new school would house the District's Teen Parent, Independent Study, Adult Education, and Alternative options Academy Programs, and provide administrative offices for the District's nursing staff. Approximately 380 students/children would be enrolled at the facility, with as many as 160 onsite at one time. Classes would be held from 8:30 am to 9:00 pm. The school is anticipated to begin receiving students in fall of 2012.	<b>MND</b>	10/14/2009

2009091059	SPG Solar (Ingomar Packing) Project Merced County --Merced To install a photovoltaic array on 5.9 acres and utility corridor of 1.9 acres for a total of 7.8 acres to provide 1 mega-watt of power to the adjacent tomato processing facility. The property is located on the north side of S. Ingomar Grade ~0.5 miles west of Hearst Road in the Volta area.	<b>MND</b>	10/14/2009
2009091060	Jurupa Community Services District's Proposed Florine Lift Station, Gravity Main and Force Main Project Jurupa Community Services District --Riverside The proposed project consists of 4 components: (1) demolition of the Florine and Sunnyslope (33rd Slope) Lift Stations, (2) replacement of the Florine Lift Station, (3) abandonment of gravity main and force main sewer lines, and (4) construction of replacement gravity main and force main sewers.	<b>MND</b>	10/14/2009
2009091054	Price Canyon General Plan Update, SOI Change, Annexation and Master Plan MEIR Pismo Beach, City of Pismo Beach--San Luis Obispo LAFCOs approval of the SOI/SOS in 2002 and concurrent Memorandum of Agreement executed between the City and County recognized that lands within spheres are intended to accommodate growth and establish urban development standards within a 20-year planning horizon. Specific to the Price Canyon Area, LAFCO identified several critical resource and infrastructure needs. Principal among them were water supply, wastewater capacity and circulation/roads, especially related to the Highway 101 corridor and Price Canyon Road. The Price Canyon Planning Area General Plan Update has the opportunity to implement the City's planning objectives, not only within the Planning Area, but Citywide.	<b>NOP</b>	10/14/2009
2009092047	Site Approval Application for Modification of Sign Face Requirements for Two On-Premises Pole Signs in the C-FS Zone San Joaquin County Manteca--San Joaquin Site Approval application for modification of sign face requirements for (2) two on-premises pole signs in the C-FS zone (Freeway Services Commercial). Neither sign will exceed the permitted height requirements in the C-FS zone.	<b>Neg</b>	10/14/2009
2009092048	City of Arcata 2009 Housing Element Arcata, City of Arcata--Humboldt The 2009 City of Arcata Housing Element is designed to address the projected housing needs of current and future City residents and comply with state law requiring amendment of the Housing Element by August 31, 2009 (Section 65580-65589.8 of the Government Code). The 2009 Housing Element is the City's policy document guiding the provision of housing to meet future needs for all economic segments of Arcata, including housing affordable to lower-income households. The Arcata Housing Element is based on 5 strategic goals (objectives): (1) Housing Quality, (2) Housing Quantity, (3) Affordable Housing, (4) Equal Housing Opportunity, and (5) Natural Resources, Energy Conservation, and Sustainable Living. The 2009 City of Arcata Housing Element sets forth a housing program that works toward the preservation, improvement, and development of	<b>Neg</b>	10/14/2009

	housing for Arcata. The housing program includes many components, such as the establishment of goals, objectives and programs, which together provide a foundation upon which detailed housing activities can be developed and implemented.		
2004114003	South Bay Salt Ponds Restoration Project Fish & Game #3 San Jose, Fremont, Sunnyvale, Union City, Menlo Park, ...--Alameda, Santa Clara, San Mateo The EIS/EIR evaluates 3 program-level, long-term restoration alternatives as well as project-level Phase 1 actions. The District will implement the Project, which is one of the Phase 1 projects identified EIS/EIR. The Project consists of: 1) developing a water quality monitoring, assessment and reporting plant that studies environmental mercury and mercury bioaccumulation in the south bay lands, 2) planning and designing the structures that will control the tidal flows through Pond A8, 3) conducting pre-construction outreach meetings and developing signage prior to construction activities, 4) constructing the Pond A8 tidal control structures and levee improvements, and 5) conducting post-construction activities such as photo documentation, final inspection and compilation of the final construction records.	<b>NOD</b>	
2006072093	Recycled Water Project Delta Diablo Sanitation District Antioch--Contra Costa The purpose of the Prject is to provide ~487 acre ft per year (AFY) of recycled water to customers within the District's service area. The Project will serve 5 recycled water users that have an existing demand of ~587 SFY for irrigation.	<b>NOD</b>	
2007052052	The Exploratorium Relocation Project San Francisco, City and County of San Francisco--San Francisco The Exploratorium proposes to relocate from the Palace of Fine Arts at 3601 Lyon Street, to Piers 15/17, along The Embarcadero, on the waterfront (Assessor's Block 9900, Lots 15, 15H, and 17). The Project Site, owned by the Port of San Francisco (Port), is comprised of the 136,145-gross-square-foot (gsf) Pier 15, 110,615-gsf Pier 17. 11,773-gsf Connector Building, a paved parking area ("Valley"), a 1,579-gsf office shack in the Valley, and a 235-gsf office addition on the Pier 17 north apron. Piers 15 and 17 are contributing resources to the San Francisco Embarcadero National Register Historic District. The Exploratorium proposes to lease from the Port Pier 15, a portion of Pier 17, the Connector Building and Valley, plus a portion of the east apron (which is the area between the building and the water's edge), for use as a museum. The Exploratorium also proposes to lease Pier 17 to and to possibly expand the museum program into Pier 17 in the future. Until then, the Exploratorium would lease Pier 17 to commercial, light industrial and restaurant or other retail users. The existing office shack and much of the Valley paving would be removed to expose the water and would feature an outdoor exhibit area providing public access to the Bay. The Exploratorium is in negotiation with a current on-site maritime tenant in Pier 15 to relocate its operations from Pier 15 to Pier 17. The Pier 17/19 water basing would be dredged to accommodate this maritime tenant's tugboats. The Project also would include temporary berthing of ceremonial and navy ships on the east apron and a water taxi landing on the south apron.	<b>NOD</b>

2009042032	<p>Hopland Laboratory Project University of California, Davis --Mendocino The University of California Hopland Research and Extension Center (HREC) proposes to construct new a building and utility connections near the HREC headquarters. The 5,200 sf building would provide a multipurpose room, a specimen collection room, two field laboratory rooms, restrooms, closets, and additional storage space. Site improvements for the project would include an access driveway, 3 to 5 parking spaces, walkways of decomposed granite, concrete decks adjacent to the building, and a decomposed granit area around the concrete area.</p>	<b>NOD</b>	
2009062099	<p>Engineering Geotechnical Activities in Water for Information Purposes Water Resources, Department of --Sacramento, San Joaquin, Yolo, Solano, Contra Costa The Department of Water Resources is planning in-water geotechnical borings in the Sacramento San-Joaquin Delta, including the Sacramento, San Joaquin, and Mokelumne Rivers, and Steamboat, Columbia Cut, Dutch, and Potato sloughs. Geotechnical borings will provide geological information necessary for proposed intake structures and tunnels for proposed alignments of the water conveyance facilities associated with completion of the EIR/EIS for the Bay Delta Conservation Plan.</p>	<b>NOD</b>	
2009071083	<p>Installation of a Nitrate Treatment System for Salinas Drinking Water Well Station 65 and 103 Public Health, Department of Salinas--Monterey The California Water Service Company is proposing to install a nitrate removal system at Station 103-01 to treat groundwater from Wells 103-01 and 65-01. A 12" pipeline to transmit raw water from Well 65-01 to 103-01 was installed in September 2008. The nitrate removal system will consist of an ion exchange system to reduce the nitrate from the combined well sources. The system will be installed at Station 103-01 and will consist of a 10'X35'LX9'H removal unit container, 2 waste brine storage tanks with a 6,650 gallon capacity, and one salt storage tank with a 9,100 gallon capacity. The project also includes an emergency backup generator.</p>	<b>NOD</b>	
2009098126	<p>Heat Straighten of Two Steel Girders that were Damaged Due to a High Hit Incident Caltrans #10 Stockton--San Joaquin The California Department of Transportation (Caltrans) proposes an emergency repair of two damaged steel girders on the northbound bridge that occurred on August 27, 2009 due to a high load hit on bridge #29-0142 on State Route 26/99. The proposal is to heat straighten these two girders and then repair them. The existing paint must be removed and there is potential for lead in the paint therefore a worker health and safety plan is required.</p>	<b>NOE</b>

	asphalt concrete with a concrete gutter in the center, which has deteriorated over the years. Due to the deterioration, water ponding has been causing significant problems with mosquito breeding in stagnant water. The alleys will be reconstructed with asphalt concrete pavement and a pavement concrete center gutter. Installation of 6 new catch basin inlet structures will capture stormwater runoff in the area.		
2009098128	Southside Rd. Overlay-Phase II (American Recovery Reinvestment Act) No. 697 San Benito County --San Benito The work includes placement of 3" asphalt overlay over the existing chip seal surface on Southside Road, but not limited to cold planing, grinding, striping and pavement markers. The work will be within the current right-of-way area.	<b>NOE</b>	
2009098129	Agreement No. 2009-0092-R4; Lower Pismo Creek Vegetation and Debris Management Project Fish & Game #4 Pismo Beach--San Luis Obispo The proposed project would remove accumulated woody material, debris jams, invasive vegetation, and human-made debris to reduce localized flooding and enhance stream flow. Chain saws using vegetable-based bar oil would be used to trim horizontal branches from trees within 10' of the ordinary high water mark to a height of 8'. Trees less than 4" in diameter at breast height (DBH) would be cut at or within 6" of ground level and the roots would be left in place. Woody material larger than 3" diameter and longer than 6' in length would be cut into segments not greater than 4' long and left in the riparian corridor. All other cut woody material would be removed and chipped outside the riparian corridor. Invasive vegetation would be cut, bagged and disposed of at a landfill. Human-made debris such as pallets, shopping carts or concrete rubble would be removed and disposed of at a landfill.	<b>NOE</b>	
2009098130	DWR-Agreement with PCWA & MWDSC for the Storage & Conveyance of 2009 PCWA Transfer Water to SDCWA (SWPAO#09074) Water Resources, Department of --Placer, Sacramento, San Diego DWR, Placer County Water Agency (PCWA), and Metropolitan Water District of Southern California (MWDSC) will execute an agreement for the storage and conveyance of water transferred from PCWA to Sand Diego County Water Agency (SDCWA), through releases on the American River and into Folsom Reservoir for the subsequent release to the State Water Project, and delivery to MWDSC.	<b>NOE</b>	
2009098131	Lower Scotts Flat Reservoir Gauging Station Replacement (1600-2009-0108-R2) Fish & Game #2 Grass Valley--Nevada Installation of an instream concrete steam flow gauging station and a rock gabion wall in Deer Creek. A parking/staging area and access road will also be created as part of the overall project. The associated stream bank in the area will be armored to minimize erosion. During construction the creek flow will be diverted around the work site by means of a flexible gravity feed pipe and an instream diversion weir. Diverted water will re-enter the stream below the construction site.	<b>NOE</b>
